# Report of the Trustees of the East Mississippi Insane Hospital

Meridian, Miss., June 30th, 1921.

To the Members of the Mississippi State Legislature:

The members of the Board of Trustees of the East Mississippi Insane Hospital respectfully submit their biennial report, for the period ending June 30th, 1921. The general statistics of the institution for the term, showing the number and movement of patients, will be found in the Superintendent's report, which is annexed hereto.

The hospital has carried its approximate quota of seven hundred patients for the two years. During the year 1920 there has been an increase in the number of patients of more than ten per cent, but all have been well cared for and the general condition of the patients during the last year has been better than during the year previous. This is accounted for by the fact that we have been able to look after the patients more systematically, and have been able to give them better nourishment, by reason of the fact that prices have to a certain extent declined in the cost of edibles.

Our Board has made a special study of the general morale of the institution. We have tried to and have imbued each one, from the Superintendent to the lowest of the employees, with the idea that for the institution to be successful there should be absolute harmony and cooperation. In this we have had the assistance of the Superintendent and Steward, and of the various heads of departments. In order to satisfy ourselves along this line, we, during this spring, without notice to anyone at the institution, called before us the heads of the various departments, and a good many of the employees, questioning them in regard to the affairs of the institution in general and their attitude toward the Superintendent and Steward, and without exception every one of the employees stated that the institution was in better condition than it had been for the past two years, and each and every one spoke in praise of the methods and system of the Superintendent and Steward, because, in its last analysis, the success of the institution depends more largely upon these two officials than any others.

The improvements made at the institution this year have been done very largely by the Bond Commission, which, in accordance with the instructions of the Legislature, have done their work with an eye single to the improvement of the institution. Of course, no two boards would have done exactly the same work. We who are on the ground would probably have done some things in a different way, but we do not question the wisdom of the Commission because we are satisfied they have acted conscientiously, and, with the light before them, have done what is best for the institution.

The care and treatment of more than seven hundred insane is a great responsibility. These unfortunate wards of the State should be given every facility for their comfort, and the very best and most scientific treatment. We believe our Medical Staff is thoroughly competent, and that each and

every employee of the institution has at heart the betterment of the condition of the patients. We commend the most thoughtful consideration of our Superintendent's report, and suggest to your Honorable Body that the requests made therein will be for the welfare of the unfortunates who are sent to this institution.

We especially urge the establishment of occupational therapy and social service. The employment of the patients is the best method of bringing about restorations: if they are allowed to be idle there is but little opportunity to permanently cure them.

In the matter of protection against fire, we urge the Legislature to appropriate sufficient funds for a fire escape on the male side of the main building. It would be practically impossible to save the patients in a general fire, situated as they are at present, and, in this connection, we wish to urge the necessity of connection with the city water works system of the City of Meridian. We have not sufficient water pressure to protect our buildings in case of fire. This connection with the city water works would be of great advantage in many ways, but especially so in the case of fire protection.

It is very expensive for the institution to have to haul all of its freight from the city. The M. & M. Railroad now comes within a short distance of the institution, and a spur track would not only pay good interest on the investment but would in time actually pay for itself in the saving on freight.

One of the best improvements we have made during the past two years is the employment of an all-time dentist, and we are finding that the health of the patients is being improved. A great many ills are directly traceable to bad teeth and having a dentist constantly in charge and giving daily attention to the patients is working most beneficially.

When the Bond Commission finishes its present programme at our institution some of the disadvantages that we are now encountering will be done away with, but in order to put the institution really where it should be the estimate made by the Superintendent, and endorsed by Architect Link, should have your very careful consideration. We believe one of the most urgent needs of the institution is the establishment of receiving wards (male and female). This will enable the patients to be handled more systematically, and the Superintendent can begin at once and more perfectly give the required attention to new patients.

Our Superintendent, and, in fact, the entire force, are thoughtful in trying to preserve valuable property and the suggestions of repairs are made only after careful study of the actual situation of the institution.

We have had made a careful inventory of all the property of the institution. This totals, including the buildings, personal property and real estate, \$462,468.30, or, in other words, the State has a half million dollar plant in this institution. This inventory is on file in the institution and we would be glad indeed to have the members of the Legislature see it themselves, that they might know just exactly what the State has in valuation in this institution.

Our meetings have been held regularly at the institution, and there has been a general personal inspection by the entire Board once each quarter, and once each month by a member of the Board.

We would be glad indeed to have a Committee of your Honorable Body to visit our institution, and we feel sure that when they become conversant with the work being done at this institution you will readily grant the requests set forth in the Superintendent's report.

Assuring you of our hearty cooperation in all that tends to make for the betterment and comfort of the patients of the East Mississippi Insane Hospital, this report is respectfully submitted.

WM. PERRY, JR., President,  
H. M. QUIN, Secretary,  
J. M. CARTER,  
W. JEFF GRAHAM,  
HON. E. S. RICHARDSON.

## Report of Superintendent

To the Board of Trustees, East Mississippi Insane Hospital:

Gentlemen—I have the pleasure of submitting to your Honorable Board the biennial report of the operations of this hospital from July 1st, 1919, to June 30th, 1921.

To this report is attached an extra statistical table, showing the general movement of population of the hospital, and the conditions of those received and discharged.

The Steward's report is also attached, and this will give you, in detail, the manner in which the different funds have been expended.

The management of this institution has been much less difficult than for the former biennial period. The Legislature gave us sufficient funds to properly feed and clothe our patients, and we have been fortunate in getting country girls and boys of a high type to serve as attendants. Their training has been such that they are in demand by other institutions. Although many have left us our number of applicants has been adequate. We have always succeeded in retaining sufficient old help to properly train the new. Have discharged very few during the period for violence toward patients. As a whole our employees are well satisfied, and our patients contented.

An inspection of the tables shows 16 died of tuberculosis; 20 died of pellagra; 10 of epilepsy, and many of old age and debility. Twenty-two cases were admitted over sixty; two were admitted over 70 and one over 90; and considering the class as a whole, we could not expect any material betterment in results.

During the influenza epidemic in March and April, 1920, we were less fortunate than in the year before, losing 12 patients.

During the month of April, 1921, we had an epidemic of smallpox, having 15 cases. Since that time and in future, every patient will be vaccinated.

For several years all patients and employees have been given anti-typhoid vaccine. During the two years we have had only four cases, one being admitted June 21, 1920, and died June 28th, 1920.

Three patients have committed suicide, two by strangulation by hanging; one died from injuries received from falling from third floor, while trying to escape. One patient died of asphyxia, due to falling clay. The coroner was immediately notified, and upon careful inquiry, exonerated the attendants from all censure.

I have made no radical changes in the care and treatment of patients. However, all restraint has been reduced to a minimum and used only at the direction of a physician. Habit training has been installed on the untidy wards, with wonderful results.

During the past four years, the continuous baths have been used to great advantage. In November, 1920, the hydro-therapeutic department was dis-

continued, because of needed repairs. This important means of treatment should be in continuous use.

I feel sure that our patients have been fed and clothed properly the past two years.

Only emergency surgery has been done at our hospital. However, six cases have been carried to the Matty Hersee Hospital. The management of that institution has cooperated with us in every way possible.

In the treatment of cases at the tubercular pavilion and infirmary, I refer you to the report of Dr. H. C. Sheffield and Dr. L. E. Trent.

Amusement and recreation has been provided more liberally than in the past; consisting of dances every Saturday night in winter, every cool Saturday night in summer; parties and music during the week, base ball and other out door amusement in summer. The attendance at the base ball games always fill the grand stand, and much interest and enthusiasm is shown in the games. The following Lyceum numbers were given during the past year:

Orpheus 4

Wassmann, Magician.

Vierra Hawaiians.

Each year a number of patients are carried to the Miss.-Ala. Fair.

The following is a program of the last 4th of July, which was greatly enjoyed by the patients, employees and visitors:

Contest.	Prizes.
1. Sack race—men patients.....	1. Cigars. 2. Peanuts.
2. Barrel rolling—women patients.....	1. 1 lb. box candy. 2. 1 lb. box candy.
3. 100 yard dash—male employees.....	1. Box cigars. 2. Cigarettes.
4. 50 yard dash—women employees.....	1. Perfume. 2. Box candy.
5. Tug of war—men patients.....	1. Cigars and peanuts.
6. Potato race—women patients.....	1. Box toilet articles. 2. Pair silk stockings.
7. Wheelbarrow race—men patients.....	1. Box cigars. 2. Cigarettes.
8. Ball throwing contest—men employees.....	1. Box cigars.
9. Running broad jump—open to all....	1. Box cigars.
10. Greased pole—open to all.....	1. \$5.00.

The prizes were donated by business houses of Meridian.

The Vicksburg Herald is sent regularly to the institution, gratis, and is appreciated by the patients. Mr. Vance, the peanut man, visits the institution regularly and distributes peanuts, popcorn, candy, apples and oranges to every patient.

The patients enjoyed a special pork dinner for Thanksgiving, 1919 and 1920, and chicken for Christmas, 1919, and turkey for Christmas, 1920.

A minister is regularly employed and preaches twice a month, and in addition to this, officiates at all funerals.

There has been no change in the medical staff. These men are well versed in Psychiatry, and every patient enjoys proper diagnosis and treatment. Every patient committed is given a complete physical and mental examination and a permanent record is made of same. It is our purpose to give as good treatment and file as complete records as the best institution in the South. Staff meetings are held three times per week, when patients are presented and properly classified.

#### IMPROVEMENTS.

The improvements in the engineering and carpentry departments may be seen in the report of Mr. Theo C. Link, Architect of the State Bond Improvement Commission.

#### DAIRY.

C. M. Harrington, Dairyman. The dairy herd consists of 88 animals; containing 2 registered Holstein bulls; 2 registered Jersey bulls; 10 registered Holstein cows; 6 registered Jersey cows; 16 grade Holstein cows; 20

grade Jersey cows; 9 registered Holstein heifers; 8 registered Jersey heifers; 2 registered Holstein bull calves; 1 registered Jersey bull calf; 1 grade Jersey bull calf. The milk production per cow has been high. The institution has a great herd of Holsteins and Jerseys. Unfortunately our pastures are poor, and most of the feed is bought.

During the year a milking machine has been installed, and is proving a success. The much needed cow shed was supplied by the Bond Commission.

#### FARM AND GARDEN.

W. S. Burns, Farmer. Up until the drought in last two months, our farm and garden have provided well, as the Steward's report will show.

#### HOGS.

The hogs have also been taken care of by the farmer to good advantage. The herd consists of registered Duroc Jerseys. The pigs are not registered; however, they are raised only for the institution, and not for sale.

#### CHICKENS.

Mrs. C. M. Harrington. Fresh eggs have been supplied the institution by the small flock containing 17 roosters, 477 hens, 200 pullets, 60 ducks.

#### YARD AND LAWN.

Mrs. C. M. Harrington. The premises—front and back, have been greatly beautified during the past year, due to the hard work of Mrs. Harrington. Shrubbery planted by a local florist also adds greatly to the appearance of the front yard. Cut flowers and beautiful plants have been distributed to the wards weekly. Every effort has been put forth to promote a feeling of homelikeness and comfort, as well as break the monotony of hospital life.

#### DENTAL DEPARTMENT.

Dr. J. E. O'Flinn gave two afternoons a week to this service, until he resigned on April 1st, 1921. In June Dr. W. R. Abrell was appointed full time dentist. A complete dental equipment has been installed. This work is essential and will show results. An X-ray must be purchased.

#### SEWING ROOM.

Miss Eva Harrington. As in the past, this department has reduced the per capita cost, as will be shown by the Steward's report.

#### GENERAL REPAIRS.

The general repairs for this institution will be found in the report of Mr. Theo C. Link. The buildings were in such dilapidated condition that the great amount of money spent makes a very small showing. However, the institution has been benefited greatly physically.

## APPROPRIATION.

To properly feed, clothe and furnish proper supervision and treatment of the patients here, and in order that the standard of care of our patients shall not be lowered, it will be necessary to ask the following of the Legislature:

	Appropriations.	
	1922	1923
Support 750 patients, \$264 each.....	\$198,000.00	\$198,000.00
General repairs.....	12,000.00	12,000.00
Amusement .....	600.00	600.00
Dental .....	1,000.00	1,000.00
Superintendent's salary with maintenance.....	5,000.00	5,000.00
Expert cook.....	1,200.00	1,200.00
Occupational Therapy fund.....	10,000.00	10,000.00
Social service work.....	5,000.00	5,000.00
Connection with city water works.....	10,000.00	
Smoke stack.....	4,000.00	
Mangle for laundry.....	5,200.00	

Estimate on the following was made by Mr. Theo C. Link, as per his letter:

A home for fifteen male employees.

A home for fifteen female employees.

An occupational center and amusement hall; capacity 400.

Receiving service for men, with hydro; capacity 20 to 30.

Receiving service for women, with hydro; capacity 20 to 30.

In these two buildings, I want the continuous bath rooms separate from the rest of the hydro department, as patients taking continuous baths are excited cases and should not be irritated by contact with the patients taking other types of hydrotherapy.

Fire proofing of main building and stairways.

A Kirker-Bender fire escape for male side of main building.

Railroad spur, two miles.

Motion picture machine.

Sufficient money to paint inside and outside of all buildings.

Sufficient funds to install cement floor in west wing, ground floor of hospital.

Sufficient funds to install cement floor down stairs in present laundry.

Six miles hog wire fencing.

(Copy of letter from Mr. Theo C. Link.)

Dr. M. J. L. Hoye, Supt.,  
 East Miss. Insane Hospital,  
 Meridian, Miss.

Dear Doctor:—The improvements listed in yours of July 6th, are certainly essential to put your institution on a good and efficient basis. I figure that the total cost of the items mentioned will be in the neighborhood of \$250,000.00.

Yours very truly,

STATE BOND IMPROVEMENT COMMISSION,  
 Theo C. Link, Director of Public Works.

It will be noted I am asking for funds with which to install occupational therapy and social service work. I refer to the work being done at the Mississippi State Insane Hospital in Jackson. This work is essential and should be conducted in both institutions. They will make our hospital more efficient.

To get the best results from occupational therapy, however, an arrangement should be made whereby able bodied men and women from Jackson should be transferred to this institution in return for unproductive patients here. The Mississippi State Insane Hospital has a great supply of colored labor for all the industrial departments. The patients who work are receiving the greatest possible benefit. There is great therapeutic value in carefully, selected employment. The white insane who are replaced on the farm and other departments by the negro labor could enjoy the benefit of work here. Most patients prefer work. It certainly retards mental deterioration and insures to the patient a measure of contentment and happiness.

There is complete harmony and cooperation between the officers and employees. The head of each department is giving efficient service.

I wish to thank you gentlemen for your counsel and encouragement given the employees, the staff and myself. Also for the many kindnesses shown the patients.

Respectfully submitted,

M. J. L. HOYE,  
 Superintendent.

## STEWARD'S REPORT OF DIFFERENT FUNDS

From July 1st, 1919, to June 30th, 1921.

## FOOD AND PROVISIONS.

41,332	Pounds bacon .....	\$ 9,297.12
5,766	Pounds roast beef .....	690.60
120,656	Pounds beef .....	17,382.93
3,285	Pounds bolona sausage .....	559.77
11,209	Pounds coffee .....	2,469.23
¼	Case coffee .....	8.46
3,058	Pounds Chickory .....	4,339.32
4,598	Pounds cheese .....	1,279.83
1,525	Barrels flour .....	16,926.88
28,000	Pounds grits .....	998.95
21	Cases grits .....	70.15
10,275	Pounds apples (evap.) .....	1,602.50
19	Boxes apples .....	122.25
5	Barrels apples .....	43.75
13,505	Pounds evap. peaches .....	2,464.80
18	Dozen evap. peaches .....	82.00
6,105	Gallons molasses .....	3,775.07
89	Cases molasses .....	406.75
395	Pounds peanut butter .....	102.30
5,257	Pounds lard .....	1,402.12
3,334	Gallons cooking oil .....	5,628.20
33,185	Pounds rice .....	3,135.75
14½	Boxes lemons .....	78.40
12,511	Pounds macaroni .....	892.07
7	Barrels macaroni .....	93.70
5½	Cases spaghetti .....	10.45
2,488	Pounds spaghetti .....	158.88
63	Cases roll oats .....	121.45
6,087	Pounds roll oats .....	279.24
7,000	Pounds oat meal .....	180.00
7	Cases oat meal .....	28.99
6½	Dozen cases cream of wheat .....	21.30
46	Cases corn flakes .....	86.98
622	Pounds cracker .....	113.51
8,060	Pounds prunes .....	1,224.05
111,950	Pounds corn meal .....	4,098.68
20	Cases corn .....	56.00
78	Dozen corn .....	126.80
15,840	B. E. Peas .....	1,013.69
70	Dozen can peas .....	147.00
46	Cases pork and beans .....	244.95
12½	Dozen Vc. beans .....	125.00
15,300	Pounds navy beans .....	875.62

## BIENNIAL REPORT

490	Pounds black pepper .....	173.87
1,025	Pounds soda .....	51.45
210	Pounds tea .....	122.00
3,568	Pounds onions .....	156.85
50,700	Pounds Irish Potatoes .....	1,945.93
10,987	Pounds salt .....	146.56
75	Barrels salt .....	375.09
24,045	Pounds sugar .....	3,100.03
	Salad Dressing and Wesson Oil .....	3,100.03
1	Case sardines .....	14.00
299	Gallons vinegar .....	78.65
5	Cases catsup .....	31.50
23	Pounds nutmeg .....	17.35
18½	Cases baking powder .....	199.70
7	Cases navy beans .....	40.55
2,746	Pounds corn starch .....	208.52
73	Cases Lye .....	360.95
300	Pounds chocolate and lemon pudding .....	120.00
675	Cases tomatoes .....	1,644.13
300	Loaf bread .....	12.00
330	Pounds yeast .....	123.25
64	Dozen salmon .....	98.70
80	Cases hominy .....	163.90
5	Cases Chil Canney .....	38.46
2	Gallons lemon and vanilla extract .....	22.00
	Tom Lyle Gro Co. (inv. missing) .....	292.90
	Meyer Bros. (inv. missing) .....	293.15
	A. J. Lyon Co. (inv. missing) .....	1,509.32
	Queen City Feed Co. (inv. missing) .....	41.60
	Christmas, 1919 and 1920 .....	1,078.73
	Pay roll .....	84,579.48
76,677¼	Tons coal .....	57,217.65
	Superintendent's maintenance .....	1,016.59
	<b>Total groceries .....</b>	<b>\$234,169.23</b>
