Decrease in Attendance – Wednesday

<p>Little</p>	<p>I did not note any decreases in attendance on Wednesday the 11th in 2 sections of English 102 and another of English 101.</p> <p>I did not see a drop in attendance on my Wednesday or Thursday courses. (Educ)</p> <p>The fall break did not affect the attendance of my graduate class on Wednesday. (Engr)</p> <p>Of the three classes I teach on Wednesdays I had perfect attendance the day before yesterday in two of them and the other one had 22 out of 23 present. (Mod Lang)</p> <p>Of three Wednesday classes, one had normal attendance. (Bus)</p> <p>My Wednesday attendance was perfect. (Bus)</p> <p>Attendance in my undergraduate class was great: I purposely scheduled a midterm exam Wednesday (Bus)</p> <p>Attendance in my Wednesday morning Oceanography and Marine Geology class was 100%.</p> <p>weds class was fine (Phar)</p> <p>I had excellent attendance on Wednesday. (Mod Lang)</p> <p>I saw no discernible differences on Wednesday - Thursday before the fall break. But then two of my three classes were taking tests these days. (Phil)</p> <p>All students enrolled in ELE 4xx course were present during the regular class on Wednesday, (Engr)</p> <p>I had only one student absent on Wednesday (Acc)</p> <p>My attendance was up the Wednesday before fall break. (Bus)</p> <p>Last day of classes was Wednesday for me and attendance was normal. (Bus)</p> <p>I teach a 1:00 undergrad. class on Wednesdays. Attendance the Wednesday before spring break was as good as always. (His)</p> <p>Attendance was normal for my Wednesday class. (Law)</p> <p>My attendance on Wed. and Thurs. prior to break and on the Mon. afterward was actually better than usual. (Phil)</p> <p>My FR1xx class had three absences on Wednesday out of a total of 22. My FR3xx class had two absences out of 14 on Wednesday. (Mod L)</p> <p>Perfect attendance in two of my Spanish classes due to an exam on Wednesday. Classes without exams did not show any "out-of-ordinary" attendance problem. (Mod L)</p> <p>I had no overload of absences during my classes before/after Fall Break (Engl)</p>
<p>Some</p>	<p>The other two had football Friday attendance (about 1/3 missing). (Bus)</p> <p>My Wednesday classes looked like poorly attended Fri. classes: 5 out of 40 missing from one, 7 out of 40 missing from the other. Not horrible, but worse than the typical Wednesday.(Engl)</p> <p>The attendance in xxxx, which meets at 4:00 on Mondays and Wednesdays was lower than normal. (Educ)</p> <p>I had approximtaly a 15% decrease in class attendance Ocotber 11 and 12. (Educ)</p> <p>Business Calculus MWF class 7 absent/64 enrolled *They knew that a quiz was scheduled for that day.</p>
<p>Significant</p>	<p>I noticed reduced attendance on Wednesday; my afternoon class in particular only had about 15 out of the 30 students in class.(Engl)</p> <p>College Algebra MWF class 18 absent/64 enrolled</p> <p>College Algebra MW class 21 absent/61 enrolled</p> <p>In my astronomy class, attendance last Wednesday, Oct 11th, was very low. There were a total of 30 people out of 95.</p>

Decrease in Attendance – Thursday

Little	<p>I did not see a drop in attendance on my Wednesday or Thursday courses. (Educ)</p> <p>There was no decrease in attendance at our Thursday night class. (Educ)</p> <p>Attendance in my BISC 3xx class was excellent on Thursday, Oct. 12.</p> <p>Still, three absences from among twenty-five students is not too bad. I should acknowledge, however, that I am likely not a typical teacher in the seriousness with which I regard class attendance. I require students to attend each class, (Engl)</p> <p>I saw no discernible differences on Wednesday - Thursday before the fall break. But then two of my three classes were taking tests these days. (Phil)</p> <p>I did not notice a decrease in attendance the day before fall break, but there was a marked increase in requests to cancel Thursday afternoon labs and requests to do the lab early. If I had granted those requests, then there would have definitely been a decrease in attendance in the Thursday afternoon labs.(Engr)</p> <p>After fall break attendance was lower than prior to fall break.</p> <p>I had 13 out of 16 attend my class (Chem ) on Thursday.</p> <p>My attendance on Wed. and Thurs. prior to break and on the Mon. afterward was actually better than usual. (Phil)</p> <p>My colleagues are telling me that attendance seems down today.(Monday after – Journ)</p> <p>I saw no change in attendance the day before break. (Engr)</p>
Some	<p>Faculty did report a drop in attendance on Thursday.(Engl)</p> <p>Attendance in my MGMT class was down on Thursday about 15% from an average class.</p> <p>I had seventy percent attendance. (His, could be Wed.)</p> <p>I had approximtaly a 15% decrease in class attendance Ocotber 11 and 12.(Educ)</p> <p>Attendance was OK in my 100-level 9:30 class, but not good at all in my 300-level class at 1:00pm. (Mod L – could be Wed.)</p> <p>In my English 1xx class that met on Thursday the 12th, there was a slight drop in attendance--only 15 out of 22 students attended</p>
Significant	<p>Attendance was roughly 50 percent of enrollment in Finance 3xx.</p> <p>in both of the classes I teach on Thursdays less than 50% of the students showed up (Engl)</p> <p>However, the attendance of my upper undergraduate class in Thursday afternoon reduced from 19 to 9.(Engr)</p> <p>Attendance fell off considerably on Thursday in two different courses of mine.(Biol)</p> <p>our large southern studies class, we broke into small discussion groups that day, so I don't yet have a full tally, except to say my group was only about half it's normal size. My senior seminar had about 20 percent gone, it is usually a 100 percent (could be Wed.)</p> <p>Thursday morning English 3xx class, usually a well-attended session of 36 students--this time, 11 missing.</p> <p>The attendance on Thursday in my classes is less than half. (Psy)</p> <p>The number of students that missed my 9:00 and 4:30 Thursday class was approximately twice the norm. (Bus)</p> <p>There were 12 students in attendance, when normally I would expect at least 20 (His)</p> <p>The attendance in my Thursday (12 October) classes was as follows: FCS xxx 25/57; FCS xxx 16/32; FCS xxx 21/54 (Educ).</p> <p>Attendance in my History 1xx (usually 180 students) on Thursday before Fall Break was down by about 30 students .</p> <p>My Thursday class (FCS 4xx) definitely decreased: there were 8 present out of 28 students. Typically 21 or so students are present. (Educ)</p> <p>Statistics TX 26 absent/53 enrolled.</p>
