Oxford, Miss., Sept. 23---

Twelve dark skinned Hindu students from Bombay-India said today they had received a friendly reception during the ten days they have been attending the race conscious University of Mississippi. The twelve are living in a fraternity house on the campus where Negro James H. Meredith has been turned away in three attempts to register. None would come in on the Meridian situation saying they did not feel sufficiently informed to venture an opinion.

Three of the students are under graduates studying at Ole Miss on scholarship. The others are graduate students working toward master degrees. Most are majoring in various branches of engineering.
