THE PEOPLE SPEAK:

The Meridian Star

Citizens' Council Needs Support Of All

MERIDIAN STAR: After more than fifty years, the NAACP cause became fashionable, a status symbol among liberals and some church groups. Political hearts began to bleed. When the Negro vote (even now they are registered like sheep) became the balance of power, a Civil Rights Act. was passed.

This nefarious, vicious and unconstitutional act must be repealed. We have made this our most important goal.

On the political front, we intend to prevent Negro political domination by uniting the power of white Southerners.

We must organize white resistance against any addition integration with the resegregation of Mississippi schools uppermost in our minds. We believe this can be done with public neighborhood schools or private schools depending on the local situation.

History proves that public sentiment is the law and that a determined, courageous white population can preserve its institutions and its racial integrity.

"This may be our finest hour. We shall resist, we shall never surrender."

As one whose moral and financial support has helped so much in the past, we appeal to you for another contribution to this cause upon which depends our very survival. Sincerely,
ELLETT LAWRENCE (Finance Chairman, Association of Citizens Councils, Box 886, Greenwood, Miss.

Can We Trust HHH With Government?

MERIDIAN STAR: Senator Hubert Humphrey has claimed that he and the A.D.A. are no longer socialists!

According to the monthly newsletter of the National Lawyers Guild, on June 2 of this year, the preposterous Democratic candidate for Vice President sent the National Lawyers Guild a letter of congratulations and commendation.

The National Lawyers Guild has been repeatedly listed as a "Com-

munist front" by Committees of both Houses of Congress, controlled by Mr. Humphrey's own party.

In view of Lyndon Johnson's serious heart attack a few years ago, the possibility of his living through another four year term may be considered something less than certain. It will take a brave or very foolhardy American to entrust his Federal Government to Hubert Humphrey, earlier exposed as an A.D.A. Socialist extremist, now revealed as a congratulator of Communist fronts!

This becomes but another in a long and compelling list of reasons for supporting the well balanced and clearly patriotic Goldwater-Miller ticket. Sincerely,
WILLIAM FLAX 505 Walnut St., Cincinnati, Ohio.
