**A MAJOR NEW SERIES
HISTORIC ACCOUNTING
LITERATURE**

EDITED BY M. F. BYWATER

A facsimile collection in fifty volumes
with a companion guide by M. F. Bywater and Basil S. Yamey

Historians of accountancy, economics and commerce will welcome a major new series from the Scolar Press, which will reprint in facsimile the most important texts from the early literature of accounting. Within these volumes with their tables, inventories and grittily realistic case-studies are detailed a host of commodities, transactions, trading methods and practices; many are now unfamiliar but were once at the heart of European economic development.

The collection is based on the Library of the Institute of Chartered Accountants in London, whose holdings in the fields of book-keeping and accountancy are the finest in the world. Many of these books are of the utmost rarity and in fragile condition. Conscious, therefore, of the need to make them more readily available to historians of business, commerce and economics, the Scolar Press will issue the most important texts from the sixteenth to the early nineteenth centuries. Many of the volumes will be in English, but key works in French, Italian, German, Dutch, Spanish and Portuguese will be included, illustrating the diffusion of knowledge of accounting and the shift in economic power from one country to another.

The series will contain seventy-five titles in fifty volumes, bound to full library standards and will be issued to subscribers from Autumn 1978 at the rate of two volumes per month. Individual titles in the series will not be available. The collection is limited to one hundred and twenty-five sets throughout the world.

On completion of this series, librarians and scholars will have at their disposal the finest collection of works of historic accounting literature possible. The availability of such a substantial and detailed body of information will prompt new research in this field and provide a rich quarry for new investigation.

Third International Congress of Accounting Historians

The Academy of Accounting Historians

The Accounting History Society

LONDON 1980

London, 1980 is to be the venue of the Third International Congress of Accounting Historians. The dates will be 16 to 18 August, and the location will be the London Business School, at Sussex Place, Regent's Park, London NW1 4SA.

The First International Congress of Accounting Historians was held in Brussels in 1970, and the Second Congress in Atlanta, Georgia, in 1976. At both there was a wide spread of nationalities among speakers and participants.

As 1980 will also be the centenary year of The Institute of Chartered Accountants in England and Wales, London is particularly appropriate for the Third Congress.

A call for papers to be presented at the Third Congress has been circulated. Anyone who would like to offer a paper is invited to contact Professor R. H. Parker, B.Sc.(Econ.), F.C.A., Department of Economics, University of Exeter, Amory Building, Rennes Drive, Exeter EX4 4RJ.

The organisers of the Third Congress will be the Accounting History Society (England), whose Congress Working Party has already met several times. The Academy of Accounting Historians (U.S.A.) will assist. The Convener of the Working Party is Mr. John Freear, M.A., F.C.A., Faculty of Social Sciences, Rutherford College, The University, Canterbury, Kent CT2 7NX.
