Misfruston Ark,

I Know if you have a heart or any concience
you wont sleep the dead girl has ~~you~~
is dead on your account and you will be
haunted as long as you live with her
Blood on your hands if I were you I would
Kill myself before I would cause the death
and destruction you have caused most.
now you have done what they wanted you to do, why
and get out of there fore pack your tags
or caused more to be killed before you are killed
haunted the rest of your life with this
blood on your hands.
I Know you have been Paid well for
doing what you have done, you will never
be happy there if you live to stay
there and I doubt very much if you
live very long if you stay
dont you Know that is Communism.
the President is Bordering on Communism
cant you see that. I am sure your father and
mother are good People and have tried to raise
you right but you have caused 2 murders
and I am afraid there will be more if you
dont get up and get out of there.
I Beg and Pray for you to get out,

a colored friend
