UNITED STATES INFORMATION AGENCY
WASHINGTON

May 31, 1957

Dear Dr. Silver:

When Florencio Bosio and Edison Teran were in Washington last week, they spent several days with us reviewing their orientation program in the United States. Both of them were most appreciative of the opportunity they had had to spend a few days with you and your colleagues at the University of Mississippi. They felt that they had gained some understanding of the segregation problem in the South that would be helpful to them as they return to Argentina and Ecuador and are called upon to discuss the matter. Being in a university community was something that they both enjoyed too.

I should like to add my thanks to those which the two gentlemen asked that I express to you and Dr. Carbone. The contribution that you made to them and to our orientation program is considerable. We are indebted to you for the excellent program which you arranged for these two men.

Sincerely yours,

A handwritten signature in blue ink, reading "Stephen N. Sestanovich".
