Department of History

Dear James: Your letter came this morning.

Thanks very much for the twenty-five. It probably seems a lot more to me than to you.

By the grace of God I got in the clinic and what the doctors did did not cost me anything. I had to go back for a check-up last Friday and found the situation wasn't healed as much as the doctor expected it would be and that not all of the stitches have dissolved. Report back in another month.

I got the dentures a week ago Friday & am having a time getting use to them. They look natural — and should for \$287.00. The dentist allowed me 37.00 for what gold was in my bridge. I have six bottom teeth in front, so the lower denture that usually gives the most trouble doesn't bother me at all because it is fastened to these teeth, but is removable.

It is a nice time of year to go North. Hope your car makes it. I know you'll all have a good time.

Nice that you can work on the book this summer and get some pay for it.

It isn't so much ^{how fast} ~~what~~ a person reads that matters, but what he remembers. I read very slow, compared to the way some people do, but perhaps you get more out of it. And maybe not.

Letter from Ma yesterday. Jack fixed my "birth certificate." He just about put in everything. Said if one thing wasn't enough, another might be. Ma had written to Rochester for it, but it was never recorded. Need it for Social Security.

Had a letter from Frances (Henry's wife) She sent me 10.00. And a friend in Suffolk sent me 5.00. I sure appreciate it all. I save every cent I can to buy more stock for my old eye which is right around the corner. Margaret gives me many of her clothes which is a big help. Got a box that Ma sent to day.

Colley's surely costs. The scholarship ~~though~~, helped out. Why is he studying German? Thank you again.
Love to all. Florence
