HISTORY IN PRINT

Numerous periodicals and books, other than those published by The Academy, publish research in accounting history. Knowledge of this research is valuable to Academy members for personal reasons, as well as, encouragement of additional research in accounting history. Readers of *The Notebook* are encouraged to help the editor to locate the many publications involving accounting history for listing in this section. We are particularly appreciative to Dr. Robert Gibson of Deakin University for his many years of service as an intermediary for publications in Asia and Australia. Dr. Gibson is retiring and will thus no longer serve in this capacity. If anyone in the Pacific area would like to volunteer to replace him, please let me know in the next two or three months.
