The Academy of Accounting Historians is pleased to announce the publica­tion of Monograph 7 of its Monograph Series, Wolodymyr Motyka’s Bibliography of Russian Language Publications on Accounting 1736-1917, Vol. 1 (1736-1900) and Vol. 2 (1901-1917).

The significance of Professor Motyka’s contribution has been indicated by the Garland catalog:

Understanding the legacy of accounting and thought from Tsarist times, its evolutionary context and role in that society contributes to our understanding of the present. This legacy, most discernable from the store of literature of those times, has been inaccessible. Access to it is vital for researchers endeavoring to gain a genuine understanding of the dynamics of accounting in this politically complex part of the world. Professor Motyka is a member of the Accounting Faculty of the Department of Commerce, University of Newcastle, Newcastle, Australia.

There is a critical introduction contained in each volume which indexes works on accounting published in Tsarist Russia chronologically, thematically, and by author. Additionally, the set contains a glossary and list of sources of main listings. The price of the Monograph 7 is $132.00.
