The twenty-second Year Book of the Association is now in course of preparation. The standard of excellence established in earlier issues is well maintained. The book contains the official record of the proceedings at the Convention at Denver, a description of the social functions, and also contains in full the following papers which were presented at the annual meeting, together with discussions thereon:

“The Relation of Economics to Accountancy,” by Dr. James E. Le Rossignol, Professor of Economics and Social Science, University of Denver;

“Correct Accounting a Fundamental Basis for Regulation and Taxation,” by Allen Ripley Foote, President, The International Tax Association, Commissioner Ohio State Board of Commerce;

“Depreciation, Renewal and Replacement Accounts,” by Herbert G. Stockwell, C. P. A. of Pennsylvania;

“The Verification and Treatment of Inventories in Audits and Examinations of Manufacturing and Trading Concerns,” by William R. Mackenzie, C. P. A. of Portland, Oregon;

“Report of the Special Committee on Accounting Terminology,” presented by Seymour Walton, Chairman, James T. Anyon, and Edward L. Suffern. The work of this Committee, which has been enlarged and continued for another year, is of great interest to the accounting profession. Members of the Association and others interested are invited to co-operate with the Committee by offering suggestions and criticisms at any time during the coming year.

The Year Book should be in the hands of every member, and the State Societies are urged to send in orders covering their membership. In like manner, it is hoped the members at large will promptly order as many copies as they may desire. The price will be \$1.50 per copy and only a limited number will be printed.

T. CULLEN ROBERTS, C. P. A.,
