[Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)] require that the *[identify the required supplementary information]* on page XX be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by *[identify designated accounting standard setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

All Required Supplementary Information Omitted

Management has omitted *[describe the missing required supplementary information]* that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by *[identify designated accounting standard setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Some Required Supplementary Information Is Omitted and Some Is Presented in Accordance With the Prescribed Guidelines

[Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)] require that *[identify the included supplementary information]* be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by *[identify designated accounting standard setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any

assurance on the information because the limited procedures do not provide us with evidence sufficient to express an opinion or provide any assurance.

Management has omitted [*describe the missing required supplementary information*] that [*identify the applicable financial reporting framework*] require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by [*identify designated accounting standard setter*] who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Material Departures From Prescribed Guidelines Identified

[*Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)*] require that the [*identify the supplementary information*] on page XX be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by [*identify designated accounting standard setter*] who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. Although our opinion on the basic financial statements is not affected, the following material departures from the prescribed guidelines exist [*identify the required supplementary information and describe the material departures from the prescribed guidelines*]. We do not express an opinion or provide any assurance on the information.

Specified Procedures Not Completed

[*Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)*] require that the [*identify the supplementary information*] on page XX be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by [*identify designated accounting standard setter*] who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We were unable to apply certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America because [*state the reasons*]. We do not express an opinion or provide any assurance on the information.

Unresolved Doubts About Whether the Required Supplementary Information Is in Accordance With Prescribed Guidelines

[*Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)*] require that the [*identify the supplementary information*] on page XX be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by [*identify designated accounting standard setter*] who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to

the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. Although our opinion on the basic financial statements is not affected, the results of the limited procedures have raised doubts about whether material modifications should be made to the required supplementary information for it to be presented in accordance with guidelines established by *[identify designated accounting standard setter]*. *[The auditor may consider including in the report the reason(s) he or she was unable to resolve his or her doubts.]*

AU Section 558A

Required Supplementary Information

(Supersedes section 553.)^{*}

Source: SAS No. 52; SAS No. 98.

See section 9558A for interpretations of this section.

Issue date, unless otherwise indicated: April, 1988.

.01 The Financial Accounting Standards Board (FASB), Governmental Accounting Standards Board (GASB), and the Federal Accounting Standards Advisory Board (FASAB) develop standards for financial reporting, including standards for financial statements and for certain other information supplementary to financial statements.¹ This section provides the independent auditor with

^{*} This section also withdraws the following Statements on Auditing Standards:

- Statement on Auditing Standards No. 28, *Supplementary Information on the Effects of Changing Prices* [Formerly section 554].
- Statement on Auditing Standards No. 40, *Supplementary Mineral Reserve Information* [Formerly section 556].
- Statement on Auditing Standards No. 45, *Supplementary Oil and Gas Reserve Information* [Formerly section 557]. SAS No. 45 was reissued as an auditing interpretation, see section 9558A.01-.06.

¹ The FASB, GASB, and FASAB's roles in setting standards for financial reporting have been recognized by the AICPA Council. The FASB's authority to establish standards for disclosure of financial information outside of the basic financial statements is described in the following resolution:

That as of (September 19, 1987), the FASB, in respect of statements of financial accounting standards finally adopted by such board in accordance with its rules of procedure and the bylaws of the Financial Accounting Foundation, be, and hereby is, designated by this Council as the body to establish accounting principles pursuant to rule 203 and standards on disclosure of financial information for such entities outside financial statements in published financial reports containing financial statements under rule 202 of the *Rules of the Code of Professional Conduct* of the American Institute of Certified Public Accountants provided, however, any accounting research bulletins, or opinions of the accounting principles board issued or approved for exposure by the accounting principles board prior to April 1, 1973, and finally adopted by such board on or before June 30, 1973, shall constitute statements of accounting principles promulgated by a body designated by Council as contemplated in rule 203 of the *Rules of the Code of Professional Conduct* unless and until such time as they are expressly superseded by action of the FASB.

The GASB's authority to establish standards for financial reporting is described in the following resolution:

That as of (September 19, 1987), the GASB, with respect to statements of governmental accounting standards adopted and issued in July 1984 and subsequently in accordance with its rules of procedure and the bylaws of the FASB, be, and hereby is, designated by the Council of the American Institute of Certified Public Accountants as the body to establish financial accounting principles for state and local governmental entities pursuant to rule 203, and standards on disclosure of financial information for such entities outside financial statements in published financial reports containing financial statements under rule 202.

The FASAB's authority to establish standards for financial reporting for federal government entities is described in the following resolution:

That as of (October 19, 1999), the FASAB is designated under rule 203 of the AICPA's *Code of Professional Conduct* as the body to establish accounting principles for federal government entities, and be it further resolved to recognize the Federal Accounting Standards Advisory Board with respect to statements of federal accounting standards adopted and issued in March of 1993 and subsequently in accordance with the FASAB's rules of procedure, and be it further resolved

(continued)

guidance on the nature of procedures to be applied to supplementary information required by the FASB, GASB, or FASAB and describes the circumstances that would require the auditor to report such information. [Revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91.]

Applicability

.02 This section is applicable in an audit in accordance with generally accepted auditing standards of financial statements included in a document that should contain supplementary information required by generally accepted accounting principles (GAAP). However, this section is not applicable if the auditor has been engaged to audit such supplementary information.² [Revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91. As amended, effective September 2002, by Statement on Auditing Standards No. 98.]

.03 Some entities may voluntarily include, in documents containing audited financial statements, certain supplementary information that is required of other entities. When an entity voluntarily includes such information as a supplement to the financial statements or in an unaudited note to the financial statements, the provisions of this section are applicable unless either the entity indicates that the auditor has not applied the procedures described in this section or the auditor includes in an explanatory paragraph in his report on the audited financial statements a disclaimer on the information.³ The following is an example of a disclaimer an auditor might use in these circumstances:

The [identify the supplementary information] on page XX (or in Note XX) is not a required part of the basic financial statements, and we did not audit or apply limited procedures to such information and do not express any assurances on such information.

When the auditor does not apply the procedures described in this section to a voluntary presentation of required supplementary information required for other entities, the provisions of section 550A, apply.

(footnote continued)

that no later than five years from the date the FASAB is granted rule 203 authority, the AICPA's Board of Directors will review the mission and operations of the FASAB and will evaluate whether the FASAB continues to meet council-approved criteria used to assess standards setting bodies designated under rule 203. Upon such review and evaluation, the AICPA's board shall recommend to council whether council shall continue to designate the FASAB under rule 203.

[Footnote revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91.]

² This section is not applicable to entities that voluntarily present supplementary information not required by GAAP. For example, entities that voluntarily present supplementary information on the effects of inflation and changes in specific prices, formerly required by FASB Statement No. 33, *Financial Reporting and Changing Prices*, are guided by section 550A, *Other Information in Documents Containing Audited Financial Statements*. [Footnote revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91. As amended, effective September 2002, by Statement on Auditing Standards No. 98.]

³ When supplementary information is presented in an auditor-submitted document outside the basic financial statements, the guidance in section 551A, *Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents*, as amended by SAS No. 52, *Omnibus Statement on Auditing Standards—1987*, should be followed.

Involvement With Information Outside Financial Statements

.04 The objective of an audit of financial statements in accordance with generally accepted auditing standards is the expression of an opinion on such statements. The auditor has no responsibility to audit information outside the basic financial statements in accordance with generally accepted auditing standards. However, the auditor does have certain responsibilities with respect to information outside the financial statements. The nature of the auditor's responsibility varies with the nature of both the information and the document containing the financial statements.

.05 The auditor's responsibility for other information not required by the FASB, GASB, or FASAB but included in certain annual reports—which are client-prepared documents⁴—is specified in section 550A. The auditor's responsibility for information outside the basic financial statements in documents that the auditor submits to the client or to others is specified in section 551A. The auditor's responsibility for supplementary information required by the FASB, GASB or FASAB (called *required supplementary information*) is discussed in the paragraphs that follow. [Revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91.]

Involvement With Required Supplementary Information

.06 Required supplementary information differs from other types of information outside the basic financial statements because the FASB, GASB or FASAB considers the information an essential part of the financial reporting of certain entities and because authoritative guidelines for the measurement and presentation of the information have been established. Accordingly, the auditor should apply certain limited procedures to required supplementary information and should report deficiencies in, or the omission of, such information. [Revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91.]

Procedures

.07 The auditor should consider whether supplementary information is required by the FASB or GASB in the circumstances. If supplementary information is required, the auditor ordinarily should apply the following procedures to the information.⁵

- a. Inquire of management about the methods of preparing the information, including (1) whether it is measured and presented within prescribed guidelines, (2) whether methods of measurement or presentation have been changed from those used in the prior period and the reasons for any such changes, and (3) any significant assumptions or interpretations underlying the measurement or presentation.
- b. Compare the information for consistency with (1) management's responses to the foregoing inquiries, (2) audited financial

⁴ Client-prepared documents include financial reports prepared by the client but merely reproduced by the auditor on the client's behalf.

⁵ These procedures are also appropriate when the auditor is involved with voluntary presentations of such information required for other entities (see paragraph .03).

- statements,⁶ and (3) other knowledge obtained during the examination of the financial statements.
- c. Consider whether representations on required supplementary information should be included in specific written representations obtained from management (section 333, *Management Representations*).
 - d. Apply additional procedures, if any, that other statements, interpretations, guides, or statements of position prescribe for specific types of required supplementary information.
 - e. Make additional inquiries if application of the foregoing procedures causes the auditor to believe that the information may not be measured or presented within applicable guidelines.

Reporting on Required Supplementary Information

.08 Since the supplementary information is not audited and is not a required part of the basic financial statements, the auditor need not add an explanatory paragraph to the report on the audited financial statements to refer to the supplementary information or to his or her limited procedures, except in any of the following circumstances:⁷ (a) the supplementary information that GAAP requires to be presented in the circumstances is omitted; (b) the auditor has concluded that the measurement or presentation of the supplementary information departs materially from prescribed guidelines; (c) the auditor is unable to complete the prescribed procedures; (d) the auditor is unable to remove substantial doubts about whether the supplementary information conforms to prescribed guidelines. Since the required supplementary information does not change the standards of financial accounting and reporting used for the preparation of the entity's basic financial statements, the circumstances described above do not affect the auditor's opinion on the fairness of presentation of such financial statements in conformity with generally accepted accounting principles. Furthermore, the auditor need not present the supplementary information if it is omitted by the entity. The following are examples of additional explanatory paragraphs an auditor might use in these circumstances.

Omission of Required Supplementary Information

The (Company or Governmental Unit) has not presented [*describe the supplementary information required by GAAP*[†]] that accounting principles generally

⁶ GASB Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, requires presentation of certain 6-year historical trend information relating to pension activities as supplementary information outside the basic financial statements. Such information is generally derived from financial statements. If such required supplementary information has been derived from audited financial statements and is presented outside the basic financial statements in an auditor-submitted document, the auditor may report on this information as indicated in section 552, *Reporting on Condensed Financial Statements and Selected Financial Data*, paragraph .10. [Footnote revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91.]

⁷ When required supplementary information is presented outside the basic financial statements in an auditor-submitted document, the auditor should (a) express an opinion on the information if engaged to examine the information; (b) report on such information using the guidance in paragraphs .12 and .14 of AU section 551A, provided such information has been subjected to the auditing procedures applied in the audit of the basic financial statements; or (c) disclaim an opinion on the information (see paragraphs .15 and .16 of AU section 551A). [As amended, effective September 2002, by Statement on Auditing Standards No. 98.]

[†] The auditor may identify the body requiring the information, such as the Financial Accounting Standards Board or the Governmental Accounting Standards Board. [Footnote added, effective September 2002, by Statement on Auditing Standards No. 98.]

accepted in the United States has determined is necessary to supplement, although not required to be part of, the basic financial statements.

Material Departures From Guidelines

The [specifically identify the supplementary information] on page XX is not a required part of the basic financial statements, and we did not audit and do not express an opinion on such information. However, we have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. As a result of such limited procedures, we believe that the [specifically identify the supplementary information] is not in conformity with accounting principles generally accepted in the United States because [describe the material departure(s) from the GAAP †].

Prescribed Procedures Not Completed

The [specifically identify the supplementary information] on page XX is not a required part of the basic financial statements, and we did not audit and do not express an opinion on such information. Further, we were unable to apply to the information certain procedures prescribed by professional standards because [state the reasons].

Unresolved Doubts About Adherence to Guidelines

The [specifically identify the supplementary information] on page XX is not a required part of the basic financial statements, and we did not audit and do not express an opinion on such information. However, we have applied certain limited procedures prescribed by professional standards that raised doubts that we were unable to resolve regarding whether material modifications should be made to the information for it to conform with guidelines established by accounting principles generally accepted in the United States. [The auditor should consider including in the report the reason(s) he or she was unable to resolve his or her substantial doubts.]

Even though the auditor is unable to complete the prescribed procedures, if, on the basis of facts known to him or her, the auditor concludes that the supplementary information has not been measured or presented within prescribed guidelines, he or she should suggest appropriate revision; failing that, he or she should describe the nature of any material departure(s) in the report. [Revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91. As amended, effective September 2002, by Statement on Auditing Standards No. 98.]

.09 In conjunction with the audit of the financial statements, the auditor may subject the supplementary information to certain auditing procedures. If the procedures are sufficient to enable the auditor to express an opinion on whether the information is fairly stated in all material respects in relation to the financial statements taken as a whole, the auditor may expand the audit report in accordance with paragraph .07 of AU section 550A. [Paragraph added, effective September 2002, by Statement on Auditing Standards No. 98.]

.10 If the entity includes with the supplementary information an indication that the auditor performed any procedures regarding the information without also indicating that the auditor does not express an opinion on the information presented, the auditor's report on the audited financial statements should be expanded to include a disclaimer on the information or, if appropriate, an opinion on whether the information is fairly stated in all material respects in

† See footnote † in paragraph 558A.08.

relation to the financial statements taken as a whole. [Paragraph renumbered and amended, effective September 2002, by Statement on Auditing Standards No. 98.]

.11 Ordinarily, the required supplementary information should be distinct from the audited financial statements and distinguished from other information outside the financial statements that is not required by GAAP. However, management may choose not to place the required supplementary information outside the basic financial statements. In such circumstances, unless it is audited as part of the basic financial statements, the information should be clearly marked as unaudited. If the information is not clearly marked as unaudited, the auditor's report on the audited financial statements should be expanded to include a disclaimer on the supplementary information. [Revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91. Paragraph renumbered and amended, effective September 2002, by Statement on Auditing Standards No. 98.]

AU Section 9558A

Required Supplementary Information: Auditing Interpretations of Section 558A

1. Supplementary Oil and Gas Reserve Information

.01 Question—Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 932-235, requires publicly traded entities that have significant oil and gas producing activities to include, with complete sets of annual financial statements, disclosures of proved oil and gas reserve quantities, changes in reserve quantities, a standardized measure of discounted future net cash flows relating to reserve quantities, and changes in the standardized measure. In documents filed with the Securities and Exchange Commission (SEC), Regulation S-K requires that the disclosures related to annual periods be presented for each annual period for which an income statement is required and the disclosures as of the end of an annual period be presented as of the date of each audited balance sheet required. These disclosures are considered to be supplementary information and may be presented outside the basic financial statements. In these circumstances, should the auditor consider the provisions of section 558A, *Required Supplementary Information*?

.02 Interpretation—Yes. Also, in addition to the provisions of section 558A, the auditor should also consider the provisions of this interpretation.

.03 Estimating oil and gas reserves is a complex process requiring the knowledge and experience of a reservoir engineer. In general, the quality of the estimate of proved reserves for an individual reservoir depends on the availability, completeness, and accuracy of data needed to develop the estimate and on the experience and judgment of the reservoir engineer. Estimates of proved reserves inevitably change over time as additional data become available and are taken into account. The magnitude of changes in these estimates is often substantial. Because oil and gas reserve estimates are more imprecise than most estimates that are made in preparing financial statements, entities are encouraged to explain the imprecise nature of such reserve estimates.

.04 In applying the procedures specified in section 558A, the auditor's inquiries should be directed to management's understanding of the specific requirements for disclosure of the supplementary oil and gas reserve information, including

- a. the factors considered in determining the reserve quantity information to be reported, such as including in the information (1) quantities of all domestic and foreign proved oil and gas reserves owned by the entity net of interests of others, (2) reserves attributable to consolidated subsidiaries, (3) a proportionate share of reserves of investees that are proportionately consolidated, and (4) reserves relating to royalty interests owned.
- b. the separate disclosure of items such as (1) the entity's share of oil and gas produced from royalty interests for which reserve quantity information is unavailable, (2) reserves subject to long-term agreements with governments or authorities in which the entity participates in the operation or otherwise serves as producer, (3) the entity's proportional interest in reserves of investees

accounted for by the equity method, (4) subsequent events, important economic factors, or significant uncertainties affecting particular components of the reserve quantity information, (5) whether the entity's reserves are located entirely within its home country, and (6) whether certain named governments restrict the disclosure of reserves or require that the reserve estimates include reserves other than proved.

- c. the factors considered in determining the standardized measure of discounted future net cash flows to be reported.

.05 In addition, the auditor should also

- a. inquire about whether the person who estimated the entity's reserve quantity information has appropriate qualifications.¹
- b. compare the entity's recent production with its reserve estimates for properties that have significant production or significant reserve quantities and inquire about disproportionate ratios.
- c. compare the entity's reserve quantity information with the corresponding information used for depletion and amortization, and make inquiries when differences exist.
- d. inquire about the calculation of the standardized measure of discounted future net cash flows. These inquiries might include matters such as whether
 - i. the prices used to develop future cast inflows from estimated production of the proved reserves are based on prices received at the end of the entity's fiscal year, and whether the calculation of future cash inflows appropriately reflects the terms of sales contracts and applicable governmental laws and regulations.
 - ii. the entity's estimate of the nature and timing of future development of the proved reserves and the future rates of production are consistent with available development plans.
 - iii. the entity's estimates of future development and production costs are based on year-end costs and assumed continuation of existing economic conditions.
 - iv. future income tax expenses have been computed using the appropriate year-end statutory tax rates, with consideration of future tax rates already legislated, after giving effect to the tax basis of the properties involved, permanent differences, and tax credits and allowances.
 - v. the future net cash flows have been appropriately discounted.

¹ For example, the Society of Petroleum Engineers has prepared "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserve Information," which indicate that a reserve estimator would normally be considered to be qualified if he or she (1) has a minimum of three years' practical experience in petroleum engineering or petroleum production geology, with at least one year of such experience being in the estimation and evaluation of reserve information; and (2) either (a) has obtained, from a college or university of recognized stature, a bachelor's or advanced degree in petroleum engineering, geology, or other discipline of engineering or physical science or (b) has received, and is maintaining in good standing, a registered or certified professional engineer's license or a registered or certified professional geologist's license, or the equivalent thereof, from an appropriate governmental authority or professional organization.

- vi. with respect to full cost companies, the estimated future development costs are consistent with the corresponding amounts used for depletion and amortization purposes.
 - vii. with respect to the disclosure of changes in the standardized measure of discounted future net cash flows, the entity has computed and presented the sources of the changes in conformity with the requirements of FASB ASC 932-235.
- e. inquire about whether the methods and bases for estimating the entity's reserve information are documented and whether the information is current.

.06 If the auditor believes that the information may not be presented within the applicable guidelines, section 558A indicates that he ordinarily should make additional inquiries. However, because of the nature of estimates of oil and gas reserve information, the auditor may not be in a position to evaluate the responses to such additional inquiries and, thus, will need to report this limitation on the procedures prescribed by professional standards. The following is an example that illustrates reporting on oil and gas reserve information in that event.

The oil and gas reserve information is not a required part of the basic financial statements, and we did not audit and do not express an opinion on such information. However, we have applied certain limited procedures prescribed by professional standards that raised doubts that we were unable to resolve regarding whether material modifications should be made to the information for it to conform with guidelines established by the Financial Accounting Standards Board. [The auditor should consider including in his report the reason(s) why he was unable to resolve his doubts. For example, the auditor may wish to state that the information was estimated by a person lacking appropriate qualifications.]

[Issue Date: February 1989; Revised: June 2009.]

AU Section 560

Subsequent Events

Source: SAS No. 1, section 560; SAS No. 12; SAS No. 98; SAS No. 113.

Issue date, unless otherwise indicated: November, 1972.

.01 An independent auditor's report ordinarily is issued in connection with historical financial statements that purport to present financial position at a stated date and results of operations and cash flows for a period ended on that date. However, events or transactions sometimes occur subsequent to the balance-sheet date, but prior to the issuance of the financial statements, that have a material effect on the financial statements and therefore require adjustment or disclosure in the statements. These occurrences hereinafter are referred to as "subsequent events." [As amended, effective September 2002, by Statement on Auditing Standards No. 98.]

.02 Two types of subsequent events require consideration by management and evaluation by the independent auditor.

.03 The first type consists of those events that provide additional evidence with respect to conditions that existed at the date of the balance sheet and affect the estimates inherent in the process of preparing financial statements. All information that becomes available prior to the issuance of the financial statements should be used by management in its evaluation of the conditions on which the estimates were based. The financial statements should be adjusted for any changes in estimates resulting from the use of such evidence.

.04 Identifying events that require adjustment of the financial statements under the criteria stated above calls for the exercise of judgment and knowledge of the facts and circumstances. For example, a loss on an uncollectible trade account receivable as a result of a customer's deteriorating financial condition leading to bankruptcy subsequent to the balance-sheet date would be indicative of conditions existing at the balance-sheet date, thereby calling for adjustment of the financial statements before their issuance. On the other hand, a similar loss resulting from a customer's major casualty such as a fire or flood subsequent to the balance-sheet date would not be indicative of conditions existing at the balance-sheet date and adjustment of the financial statements would not be appropriate. The settlement of litigation for an amount different from the liability recorded in the accounts would require adjustment of the financial statements if the events, such as personal injury or patent infringement, that gave rise to the litigation had taken place prior to the balance-sheet date.

.05 The second type consists of those events that provide evidence with respect to conditions that did not exist at the date of the balance sheet being reported on but arose subsequent to that date. These events should not result in adjustment of the financial statements.¹ Some of these events, however, may be of such a nature that disclosure of them is required to keep the financial statements from being misleading. Occasionally such an event may be so significant that disclosure can best be made by supplementing the historical

¹ This paragraph is not intended to preclude giving effect in the balance sheet, with appropriate disclosure, to stock dividends or stock splits or reverse splits consummated after the balance-sheet date but before issuance of the financial statements.

financial statements with pro forma financial data giving effect to the event as if it had occurred on the date of the balance sheet. It may be desirable to present pro forma statements, usually a balance sheet only, in columnar form on the face of the historical statements.

.06 Examples of events of the second type that require disclosure to the financial statements (but should not result in adjustment) are:

- a. Sale of a bond or capital stock issue.
- b. Purchase of a business.
- c. Settlement of litigation when the event giving rise to the claim took place subsequent to the balance-sheet date.
- d. Loss of plant or inventories as a result of fire or flood.
- e. Losses on receivables resulting from conditions (such as a customer's major casualty) arising subsequent to the balance-sheet date.

.07 Subsequent events affecting the realization of assets such as receivables and inventories or the settlement of estimated liabilities ordinarily will require adjustment of the financial statements (see paragraph .03) because such events typically represent the culmination of conditions that existed over a relatively long period of time. Subsequent events such as changes in the quoted market prices of securities ordinarily should not result in adjustment of the financial statements (see paragraph .05) because such changes typically reflect a concurrent evaluation of new conditions.

.08 When financial statements are reissued, for example, in reports filed with the Securities and Exchange Commission or other regulatory agencies, events that require disclosure in the reissued financial statements to keep them from being misleading may have occurred subsequent to the original issuance of the financial statements. Events occurring between the time of original issuance and reissuance of financial statements should not result in adjustment of the financial statements² unless the adjustment meets the criteria for the correction of an error or the criteria for prior period adjustments set forth in Financial Accounting Standards Board *Accounting Standards Codification 250, Accounting Changes and Error Corrections*. Similarly, financial statements reissued in comparative form with financial statements of subsequent periods should not be adjusted for events occurring subsequent to the original issuance unless the adjustment meets the criteria stated above. [Revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

.09 Occasionally, a subsequent event of the second type has such a material impact on the entity that the auditor may wish to include in his report an explanatory paragraph directing the reader's attention to the event and its effects. (See section 508 paragraph .19.)

Auditing Procedures in the Subsequent Period

.10 There is a period after the balance-sheet date with which the auditor must be concerned in completing various phases of his audit. This period is known as the "subsequent period" and is considered to extend to the date of the auditor's report. Its duration will depend upon the practical requirements of each audit and may vary from a relatively short period to one of several months. Also, all auditing procedures are not carried out at the same time and some phases of an audit will be performed during the subsequent period,

² However, see paragraph .05 as to the desirability of presenting pro forma financial statements to supplement the historical financial statements in certain circumstances.

whereas other phases will be substantially completed on or before the balance-sheet date. As an audit approaches completion, the auditor will be concentrating on the unresolved auditing and reporting matters and he is not expected to be conducting a continuing review of those matters to which he has previously applied auditing procedures and reached satisfaction.

.11 Certain specific procedures are applied to transactions occurring after the balance-sheet date such as (a) the examination of data to assure that proper cutoffs have been made and (b) the examination of data which provide information to aid the auditor in his evaluation of the assets and liabilities as of the balance-sheet date.

.12 In addition, the independent auditor should perform other auditing procedures with respect to the period after the balance-sheet date for the purpose of ascertaining the occurrence of subsequent events that may require adjustment or disclosure essential to a fair presentation of the financial statements in conformity with generally accepted accounting principles. These procedures should be performed at or near the date of the auditor's report. The auditor generally should:

- a. Read the latest available interim financial statements; compare them with the financial statements being reported upon; and make any other comparisons considered appropriate in the circumstances. In order to make these procedures as meaningful as possible for the purpose expressed above, the auditor should inquire of officers and other executives having responsibility for financial and accounting matters as to whether the interim statements have been prepared on the same basis as that used for the statements under audit.
- b. Inquire of and discuss with officers and other executives having responsibility for financial and accounting matters (limited where appropriate to major locations) as to:
 - (i) Whether any substantial contingent liabilities or commitments existed at the date of the balance sheet being reported on or at the date of inquiry.
 - (ii) Whether there was any significant change in the capital stock, long-term debt, or working capital to the date of inquiry.
 - (iii) The current status of items, in the financial statements being reported on, that were accounted for on the basis of tentative, preliminary, or inconclusive data.
 - (iv) Whether any unusual adjustments had been made during the period from the balance-sheet date to the date of inquiry.
- c. Read the available minutes of meetings of stockholders, directors, and appropriate committees; as to meetings for which minutes are not available, inquire about matters dealt with at such meetings.
- d. Inquire of client's legal counsel concerning litigation, claims, and assessments. [As amended, January 1976, by Statement on Auditing Standards No. 12.] (See section 337.)
- e. Obtain a letter of representations, dated as of the date of the auditor's report, from appropriate officials, generally the chief executive officer, chief financial officer, or others with equivalent positions in the entity, as to whether any events have occurred subsequent to the date of the financial statements being reported on by the independent auditor that in the officer's opinion would require adjustment or disclosure

in these statements. The auditor may elect to have the client include representations as to significant matters disclosed to the auditor in his or her performance of the procedures in subparagraphs (a) to (d) above and (f) below. (See section 333, *Management Representations*.)

- f. Make such additional inquiries or perform such procedures as he considers necessary and appropriate to dispose of questions that arise in carrying out the foregoing procedures, inquiries, and discussions.

[As amended, effective for audits of financial statements for periods ending on or after December 15, 2006, by Statement on Auditing Standards No. 113.]

AU Section 9560

Subsequent Events: Auditing Interpretations of Section 560

[1.-4.] Lawyers' Letters

[.01-.26] [Superseded January, 1976.]

AU Section 561

Subsequent Discovery of Facts Existing at the Date of the Auditor's Report

Source: SAS No. 1, section 561; SAS No. 98.

See section 9561 for interpretations of this section.

Issue date, unless otherwise indicated: November, 1972.

.01 The procedures described in this section should be followed by the auditor who, subsequent to the date of the report upon audited financial statements, becomes aware that facts may have existed at that date which might have affected the report had he or she then been aware of such facts.¹ [As amended, effective September 2002, by Statement on Auditing Standards No. 98.]

.02 Because of the variety of conditions which might be encountered, some of these procedures are necessarily set out only in general terms; the specific actions to be taken in a particular case may vary somewhat in the light of the circumstances. The auditor would be well advised to consult with an attorney when he or she encounters the circumstances to which this section may apply because of legal implications that may be involved in actions contemplated herein, including, for example, the possible effect of state statutes regarding confidentiality of auditor-client communications. [As amended, effective September 2002, by Statement on Auditing Standards No. 98.]

.03 After the date of the report, the auditor has no obligation² to make any further or continuing inquiry or perform any other auditing procedures with respect to the audited financial statements covered by that report, unless new information which may affect the report comes to his or her attention. [As amended, effective September 2002, by Statement on Auditing Standards No. 98.]

.04 When the auditor becomes aware of information which relates to financial statements previously reported on by him, but which was not known to him at the date of his report, and which is of such a nature and from such a source that he would have investigated it had it come to his attention during the course of his audit, he should, as soon as practicable, undertake to determine whether the information is reliable and whether the facts existed at the date of his report. In this connection, the auditor should discuss the matter with his client at whatever management levels he deems appropriate, including the board of directors, and request cooperation in whatever investigation may be necessary.

¹ If the financial statements have not yet been issued, see the guidance found in section 560, *Subsequent Events*. [Footnote added, effective September 2002, by Statement on Auditing Standards No. 98.]

² However, see paragraphs .10–.13 of section 711 as to an auditor's obligation with respect to audited financial statements included in registration statements filed under the Securities Act of 1933 between the date of the auditor's report and the effective date of the registration statement. [Footnote revised by the issuance of Statement on Auditing Standards No. 37, April 1981. Footnote renumbered by the issuance of Statement on Auditing Standards No. 98, September 2002.]

.05 When the subsequently discovered information is found both to be reliable and to have existed at the date of the auditor's report, the auditor should take action in accordance with the procedures set out in subsequent paragraphs if the nature and effect of the matter are such that (a) his report would have been affected if the information had been known to him at the date of his report and had not been reflected in the financial statements and (b) he believes there are persons currently relying or likely to rely on the financial statements who would attach importance to the information. With respect to (b), consideration should be given, among other things, to the time elapsed since the financial statements were issued.

.06 When the auditor has concluded, after considering (a) and (b) in paragraph .05, that action should be taken to prevent future reliance on his report, he should advise his client to make appropriate disclosure of the newly discovered facts and their impact on the financial statements to persons who are known to be currently relying or who are likely to rely on the financial statements and the related auditor's report. When the client undertakes to make appropriate disclosure, the method used and the disclosure made will depend on the circumstances.

- a. If the effect on the financial statements or auditor's report of the subsequently discovered information can promptly be determined, disclosure should consist of issuing, as soon as practicable, revised financial statements and auditor's report. The reasons for the revision usually should be described in a note to the financial statements and referred to in the auditor's report. Generally, only the most recently issued audited financial statements would need to be revised, even though the revision resulted from events that had occurred in prior years.³
- b. When issuance of financial statements accompanied by the auditor's report for a subsequent period is imminent, so that disclosure is not delayed, appropriate disclosure of the revision can be made in such statements instead of reissuing the earlier statements pursuant to subparagraph (a).⁴
- c. When the effect on the financial statements of the subsequently discovered information cannot be determined without a prolonged investigation, the issuance of revised financial statements and auditor's report would necessarily be delayed. In this circumstance, when it appears that the information will require a revision of the statements, appropriate disclosure would consist of notification by the client to persons who are known to be relying or who are likely to rely on the financial statements and the related report that they should not be relied upon, and that revised financial statements and auditor's report will be issued upon completion of an investigation. If applicable, the client should be advised to discuss with the Securities and Exchange Commission, stock exchanges, and appropriate regulatory agencies the disclosure to be made or other measures to be taken in the circumstances.

³ See paragraphs 7–10 of Financial Accounting Standards Board *Accounting Standards Codification* 250-10-50 regarding disclosure of adjustments applicable to prior periods. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 98, September 2002. Footnote revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

⁴ *Ibid.* [Footnote renumbered by the issuance of Statement on Auditing Standards No. 98, September 2002.]

.07 The auditor should take whatever steps he deems necessary to satisfy himself that the client has made the disclosures specified in paragraph .06.

.08 If the client refuses to make the disclosures specified in paragraph .06, the auditor should notify each member of the board of directors of such refusal and of the fact that, in the absence of disclosure by the client, the auditor will take steps as outlined as follows to prevent future reliance upon his report. The steps that can appropriately be taken will depend upon the degree of certainty of the auditor's knowledge that there are persons who are currently relying or who will rely on the financial statements and the auditor's report, and who would attach importance to the information, and the auditor's ability as a practical matter to communicate with them. Unless the auditor's attorney recommends a different course of action, the auditor should take the following steps to the extent applicable:

- a. Notification to the client that the auditor's report must no longer be associated with the financial statements.
- b. Notification to regulatory agencies having jurisdiction over the client that the auditor's report should no longer be relied upon.
- c. Notification to each person known to the auditor to be relying on the financial statements that his report should no longer be relied upon. In many instances, it will not be practicable for the auditor to give appropriate individual notification to stockholders or investors at large, whose identities ordinarily are unknown to him; notification to a regulatory agency having jurisdiction over the client will usually be the only practicable way for the auditor to provide appropriate disclosure. Such notification should be accompanied by a request that the agency take whatever steps it may deem appropriate to accomplish the necessary disclosure. The Securities and Exchange Commission and the stock exchanges are appropriate agencies for this purpose as to corporations within their jurisdictions.

.09 The following guidelines should govern the content of any disclosure made by the auditor in accordance with paragraph .08 to persons other than his client:

- a. If the auditor has been able to make a satisfactory investigation of the information and has determined that the information is reliable:
 - (i) The disclosure should describe the effect the subsequently acquired information would have had on the auditor's report if it had been known to him at the date of his report and had not been reflected in the financial statements. The disclosure should include a description of the nature of the subsequently acquired information and of its effect on the financial statements.
 - (ii) The information disclosed should be as precise and factual as possible and should not go beyond that which is reasonably necessary to accomplish the purpose mentioned in the preceding subparagraph (i). Comments concerning the conduct or motives of any person should be avoided.
- b. If the client has not cooperated and as a result the auditor is unable to conduct a satisfactory investigation of the information, his disclosure need not detail the specific information but can merely indicate that information has come to his attention which his client has not

cooperated in attempting to substantiate and that, if the information is true, the auditor believes that his report must no longer be relied upon or be associated with the financial statements. No such disclosure should be made unless the auditor believes that the financial statements are likely to be misleading and that his report should not be relied on.

.10 The concepts embodied in this section are not limited solely to corporations but apply in all cases where financial statements have been audited and reported on by independent auditors.

AU Section 9561

Subsequent Discovery of Facts Existing at the Date of the Auditor's Report: Auditing Interpretations of Section 561

1. Auditor Association With Subsequently Discovered Information When the Auditor Has Resigned or Been Discharged

.01 Question—New information may come to an auditor's attention subsequent to the date of his report on audited financial statements that might affect the previously issued audit report. Is the auditor's responsibility with respect to that information different if the auditor has resigned or been discharged prior to undertaking or completing his investigation than if he were the continuing auditor?

.02 Interpretation—No. Section 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*, requires the auditor to undertake to determine whether the information is reliable and whether the facts existed at the date of his report. This undertaking must be performed even when the auditor has resigned or been discharged.

AU Section 623

Special Reports

(Supersedes section 621.)

Source: SAS No. 62; SAS No. 77.

See section 9623 for interpretations of this section.

Effective for reports issued on or after July 1, 1989, unless otherwise indicated.

Introduction

.01 This section applies to auditors' reports issued in connection with the following:

- a. Financial statements that are prepared in conformity with a comprehensive basis of accounting other than generally accepted accounting principles (paragraphs .02 through .10)
- b. Specified elements, accounts, or items of a financial statement (paragraphs .11 through .18)
- c. Compliance with aspects of contractual agreements or regulatory requirements related to audited financial statements (paragraphs .19 through .21)
- d. Financial presentations to comply with contractual agreements or regulatory provisions (paragraphs .22 through .30)
- e. Financial information presented in prescribed forms or schedules that require a prescribed form of auditor's reports (paragraphs .32 and .33)

Financial Statements Prepared in Conformity With a Comprehensive Basis of Accounting Other Than Generally Accepted Accounting Principles

.02 Generally accepted auditing standards are applicable when an auditor conducts an audit of and reports on any financial statement. A financial statement may be, for example, that of a corporation, a consolidated group of corporations, a combined group of affiliated entities, a not-for-profit organization, a governmental unit, an estate or trust, a partnership, a proprietorship, a segment of any of these, or an individual. The term *financial statement* refers to a presentation of financial data, including accompanying notes, derived from accounting records and intended to communicate an entity's economic resources or obligations at a point in time or the changes therein for a period of time in conformity with a comprehensive basis of accounting. For reporting

purposes, the independent auditor should consider each of the following types of financial presentations to be a financial statement:

- a. Balance sheet
- b. Statement of income or statement of operations
- c. Statement of retained earnings
- d. Statement of cash flows
- e. Statement of changes in owners' equity
- f. Statement of assets and liabilities that does not include owners' equity accounts
- g. Statement of revenue and expenses
- h. Summary of operations
- i. Statement of operations by product lines
- j. Statement of cash receipts and disbursements

.03 An independent auditor's judgment concerning the overall presentation of financial statements should be applied within an identifiable framework. Normally, the framework is provided by generally accepted accounting principles, and the auditor's judgment in forming an opinion is applied accordingly. In some circumstances, however, a comprehensive basis of accounting other than generally accepted accounting principles may be used. [Title of section 411 amended, effective for reports issued or reissued on or after June 30, 2001, by Statement on Auditing Standards No. 93. Revised, October 2009, to reflect conforming changes necessary due to the withdrawal of SAS No. 69.]

.04 For purposes of this section, a comprehensive basis of accounting other than generally accepted accounting principles is one of the following—

- a. A basis of accounting that the reporting entity uses to comply with the requirements or financial reporting provisions of a governmental regulatory agency to whose jurisdiction the entity is subject. An example is a basis of accounting insurance companies use pursuant to the rules of a state insurance commission.
- b. A basis of accounting that the reporting entity uses or expects to use to file its income tax return for the period covered by the financial statements.
- c. The cash receipts and disbursements basis of accounting, and modifications of the cash basis having substantial support, such as recording depreciation on fixed assets or accruing income taxes.
- d. A definite set of criteria having substantial support that is applied to all material items appearing in financial statements, such as the price-level basis of accounting.

Unless one of the foregoing descriptions applies, reporting under the provisions of paragraph .05 is not permitted.

Reporting on Financial Statements Prepared in Conformity With an Other Comprehensive Basis of Accounting (OCBOA)

.05 When reporting on financial statements prepared in conformity with a comprehensive basis of accounting other than generally accepted accounting

principles, as defined in paragraph .04, an independent auditor should include in the report—

- a. A title that includes the word *independent*.¹
- b. A paragraph that—
 - (1) States that the financial statements identified in the report were audited.
 - (2) States that the financial statements are the responsibility of the Company's management² and that the auditor is responsible for expressing an opinion on the financial statements based on the audit.
- c. A paragraph that—
 - (1) States that the audit was conducted in accordance with generally accepted auditing standards and includes an identification of the United States of America as the country of origin of those standards (for example, auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards).
 - (2) States that those standards require that the auditor plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.
 - (3) States that an audit includes—
 - (a) Examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements,
 - (b) Assessing the accounting principles used and significant estimates made by management, and
 - (c) Evaluating the overall financial statement presentation (see paragraph .09).
 - (4) States that the auditor believes that his or her audit provides a reasonable basis for the opinion.
- d. A paragraph that—
 - (1) States the basis of presentation and refers to the note to the financial statements that describes the basis (see paragraphs .09 and .10).
 - (2) States that the basis of presentation is a comprehensive basis of accounting other than generally accepted accounting principles.
- e. A paragraph that expresses the auditor's opinion (or disclaims an opinion) on whether the financial statements are presented fairly, in

¹ This section does not require a title for an auditor's report if the auditor is not independent. See section 504, *Association With Financial Statements*, for guidance on reporting when the auditor is not independent.

² In some instances, a document containing the auditor's report may include a statement by management regarding its responsibility for the presentation of the financial statements. Nevertheless, the auditor's report should state that the financial statements are management's responsibility. However, the statement about management's responsibility should not be further elaborated upon in the auditor's standard report or referenced to management's report.

all material respects, in conformity with the basis of accounting described. If the auditor concludes that the financial statements are not presented fairly on the basis of accounting described or if there has been a limitation on the scope of the audit, he or she should disclose all the substantive reasons for the conclusion in an explanatory paragraph(s) (preceding the opinion paragraph) of the report and should include in the opinion paragraph the appropriate modifying language and a reference to such explanatory paragraph(s).³

- f. If the financial statements are prepared in conformity with the requirements or financial reporting provisions of a governmental regulatory agency (see paragraph .04*a*), a separate paragraph at the end of the report stating that the report is intended solely for the information and use of those within the entity and the regulatory agencies to whose jurisdiction the entity is subject, and is not intended to be and should not be used by anyone other than these specified parties. Such a paragraph is appropriate even though by law or regulation the auditor's report may be made a matter of public record.⁴ The auditor may use this form of report only if the financial statements and report are intended solely for use by those within the entity and one or more regulatory agencies to whose jurisdiction the entity is subject.⁵
- g. The manual or printed signature of the auditor's firm.
- h. The date.⁶

[As amended, effective for audits of financial statements for periods ended on or after December 31, 1996, by Statement on Auditing Standards No. 77. Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

.06 Unless the financial statements meet the conditions for presentation in conformity with a "comprehensive basis of accounting other than generally accepted accounting principles" as defined in paragraph .04, the auditor should use the standard form of report (see section 508, *Reports on Audited Financial Statements*, paragraph .08) modified as appropriate because of the departures from generally accepted accounting principles.

.07 Terms such as *balance sheet*, *statement of financial position*, *statement of income*, *statement of operations*, and *statement of cash flows*, or similar

³ Paragraph .31 discusses other circumstances that may require that the auditor add additional explanatory language to the special report.

⁴ Public record, for purposes of auditor's reports on financial statements of a regulated entity that are prepared in accordance with the financial reporting provisions of a government regulatory agency, includes circumstances in which specific requests must be made by the public to obtain access to or copies of the report. In contrast, the auditor would be precluded from using this form of report in circumstances in which the entity distributes the financial statements to parties other than the regulatory agency either voluntarily or upon specific request. [Footnote added, effective for audits of financial statements for periods ended on or after December 31, 1996, by Statement on Auditing Standards No. 77.]

⁵ If the financial statements and report are intended for use by parties other than those within the entity and one or more regulatory agencies to whose jurisdiction the entity is subject, the auditor should follow the guidance in section 544, *Lack of Conformity With Generally Accepted Accounting Principles*. [Footnote renumbered and amended, effective for audits of financial statements for periods ended on or after December 31, 1996, by the issuance of Statement on Auditing Standards No. 77.]

⁶ For guidance on dating the auditor's report, see section 530, *Dating of the Independent Auditor's Report*. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

unmodified titles are generally understood to be applicable only to financial statements that are intended to present financial position, results of operations, or cash flows in conformity with generally accepted accounting principles. Consequently, the auditor should consider whether the financial statements that he or she is reporting on are suitably titled. For example, cash basis financial statements might be titled *statement of assets and liabilities arising from cash transactions*, or *statement of revenue collected and expenses paid*, and a financial statement prepared on a statutory or regulatory basis might be titled *statement of income—statutory basis*. If the auditor believes that the financial statements are not suitably titled, the auditor should disclose his or her reservations in an explanatory paragraph of the report and qualify the opinion.

.08 Following are illustrations of reports on financial statements prepared in conformity with a comprehensive basis of accounting other than generally accepted accounting principles.^[7]

Financial Statements Prepared on a Basis Prescribed by a Regulatory Agency Solely for Filing With That Agency

Independent Auditor's Report

We have audited the accompanying statements of admitted assets, liabilities, and surplus—statutory basis of XYZ Insurance Company as of December 31, 20X2 and 20X1, and the related statements of income and cash flows—statutory basis and changes in surplus—statutory basis for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note X, these financial statements were prepared in conformity with the accounting practices prescribed or permitted by the Insurance Department of [State], which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the admitted assets, liabilities, and surplus of XYZ Insurance Company as of December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended, on the basis of accounting described in Note X.

This report is intended solely for the information and use of the board of directors and management of XYZ Insurance Company and [name of regulatory agency] and is not intended to be and should not be used by anyone other than these specified parties.

^[7] [Footnote deleted to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 87.]

Financial Statements Prepared on the Entity's Income Tax Basis

Independent Auditor's Report

We have audited the accompanying statements of assets, liabilities, and capital—income tax basis of ABC Partnership as of December 31, 20X2 and 20X1, and the related statements of revenue and expenses—income tax basis and of changes in partners' capital accounts—income tax basis for the years then ended. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note X, these financial statements were prepared on the basis of accounting the Partnership uses for income tax purposes, which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities, and capital of ABC Partnership as of [at] December 31, 20X2 and 20X1, and its revenue and expenses and changes in partners' capital accounts for the years then ended, on the basis of accounting described in Note X.

Financial Statements Prepared on the Cash Basis

Independent Auditor's Report

We have audited the accompanying statements of assets and liabilities arising from cash transactions of XYZ Company as of December 31, 20X2 and 20X1, and the related statements of revenue collected and expenses paid for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note X, these financial statements were prepared on the basis of cash receipts and disbursements, which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets and liabilities arising from cash transactions of XYZ Company as of December 31, 20X2 and 20X1, and its revenue collected and expenses paid during the years then ended, on the basis of accounting described in Note X.

[Revised, October 2000, to reflect conforming changes necessary to reflect the issuance of Statement on Auditing Standards No. 93.]

Evaluating the Adequacy of Disclosure in Financial Statements Prepared in Conformity With an Other Comprehensive Basis of Accounting

.09 When reporting on financial statements prepared on a comprehensive basis of accounting other than generally accepted accounting principles, the auditor should consider whether the financial statements (including the accompanying notes) include all informative disclosures that are appropriate for the basis of accounting used. The auditor should apply essentially the same criteria to financial statements prepared on an other comprehensive basis of accounting as he or she does to financial statements prepared in conformity with generally accepted accounting principles. Therefore, the auditor's opinion should be based on his or her judgment regarding whether the financial statements, including the related notes, are informative of matters that may affect their use, understanding, and interpretation. [Title of section 411 amended, effective for reports issued or reissued on or after June 30, 2001, by Statement on Auditing Standards No. 93. Revised, October 2009, to reflect conforming changes necessary due to the withdrawal of SAS No. 69.]

.10 Financial statements prepared on an other comprehensive basis of accounting should include, in the accompanying notes, a summary of significant accounting policies that discusses the basis of presentation and describes how that basis differs from generally accepted accounting principles. However, the effects of the differences between generally accepted accounting principles and the basis of presentation of the financial statements that the auditor is reporting on need not be quantified. In addition, when the financial statements contain items that are the same as, or similar to, those in financial statements prepared in conformity with generally accepted accounting principles, similar informative disclosures are appropriate. For example, financial statements prepared on an income tax basis or a modified cash basis of accounting usually reflect depreciation, long-term debt and owners' equity. Thus, the informative disclosures for depreciation, long-term debt and owners' equity in such financial statements should be comparable to those in financial statements prepared in conformity with generally accepted accounting principles. When evaluating the adequacy of disclosures, the auditor should also consider disclosures related to matters that are not specifically identified on the face of the financial statements, such as (a) related party transactions, (b) restrictions on assets and owners' equity, (c) subsequent events, and (d) uncertainties.

Specified Elements, Accounts, or Items of a Financial Statement

.11 An independent auditor may be requested to express an opinion on one or more specified elements, accounts, or items of a financial statement. In such an engagement, the specified element(s), account(s), or item(s) may be presented in the report or in a document accompanying the report. Examples

of one or more specified elements, accounts, or items of a financial statement that an auditor may report on based on an audit made in accordance with generally accepted auditing standards include rentals, royalties, a profit participation, or a provision for income taxes.⁸

.12 When expressing an opinion on one or more specified elements, accounts, or items of a financial statement, the auditor should plan and perform the audit and prepare his or her report with a view to the purpose of the engagement. With the exception of the first standard of reporting, the ten generally accepted auditing standards are applicable to any engagement to express an opinion on one or more specified elements, accounts, or items of a financial statement. The first standard of reporting, which requires the auditor to state in the auditor's report whether the financial statements are presented in conformity with generally accepted accounting principles, is applicable only when the specified elements, accounts, or items of a financial statement are intended to be presented in conformity with generally accepted accounting principles. [Revised, November 2006, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 113.]

.13 An engagement to express an opinion on one or more specified elements, accounts, or items of a financial statement may be undertaken as a separate engagement or in conjunction with an audit of financial statements. In either case, an auditor expresses an opinion on each of the specified elements, accounts, or items encompassed by the auditor's report; therefore, the measurement of materiality must be related to each individual element, account, or item reported on rather than to the aggregate thereof or to the financial statements taken as a whole. Consequently, an audit of a specified element, account, or item for purposes of reporting thereon is usually more extensive than if the same information were being considered in conjunction with an audit of financial statements taken as a whole. Also, many financial statement elements are interrelated, for example, sales and receivables; inventory and payables; and buildings and equipment and depreciation. The auditor should be satisfied that elements, accounts, or items that are interrelated with those on which he or she has been engaged to express an opinion have been considered in expressing an opinion.

.14 The auditor should not express an opinion on specified elements, accounts, or items included in financial statements on which he or she has expressed an adverse opinion or disclaimed an opinion based on an audit, if such reporting would be tantamount to expressing a piecemeal opinion on the financial statements (see section 508, *Reports on Audited Financial Statements*, paragraph .64). However, an auditor would be able to express an opinion on one or more specified elements, accounts, or items of a financial statement provided that the matters to be reported on and the related scope of the audit were not intended to and did not encompass so many elements, accounts, or items as to constitute a major portion of the financial statements. For example, it may be appropriate for an auditor to express an opinion on an entity's accounts receivable balance even if the auditor has disclaimed an opinion on the financial statements taken as a whole. However, the report on the specified element, account, or item should be presented separately from the report on the financial statements of the entity.

⁸ See AT section 201, *Agreed-Upon Procedures Engagements*, for guidance when reporting on the results of applying agreed-upon procedures to one or more specified elements, accounts, or items of a financial statement. See AT section 101, *Attest Engagements*, for guidance when reporting on a review of one or more specified elements, accounts, or items of a financial statement. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

Reports on One or More Specified Elements, Accounts, or Items of a Financial Statement

.15 When an independent auditor is engaged to express an opinion on one or more specified elements, accounts, or items of a financial statement, the report should include—

- a. A title that includes the word *independent*.⁹
- b. A paragraph that—
 - (1) States that the specified elements, accounts, or items identified in the report were audited. If the audit was made in conjunction with an audit of the company's financial statements, the paragraph should so state and indicate the date of the auditor's report on those financial statements. Furthermore, any departure from the standard report on those statements should also be disclosed if considered relevant to the presentation of the specified element, account or item.
 - (2) States that the specified elements, accounts, or items are the responsibility of the Company's management and that the auditor is responsible for expressing an opinion on the specified elements, accounts or items based on the audit.
- c. A paragraph that—
 - (1) States that the audit was conducted in accordance with generally accepted auditing standards and includes an identification of the United States of America as the country of origin of those standards (for example, auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards).
 - (2) States that those standards require that the auditor plan and perform the audit to obtain reasonable assurance about whether the specified elements, accounts, or items are free of material misstatement.
 - (3) States that an audit includes—
 - (a) Examining, on a test basis, evidence supporting the amounts and disclosures in the presentation of the specified elements, accounts, or items,
 - (b) Assessing the accounting principles used and significant estimates made by management, and
 - (c) Evaluating the overall presentation of the specified elements, accounts, or items.
 - (4) States that the auditor believes that his or her audit provides a reasonable basis for the auditor's opinion.
- d. A paragraph¹⁰ that—
 - (1) Describes the basis on which the specified elements, accounts, or items are presented (see paragraphs .09 and .10) and, when

⁹ See footnote 1. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

¹⁰ Alternatively, this requirement can be met by incorporating the description in the introductory paragraph discussed in paragraph .15*b* above. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

applicable, any agreements specifying such basis if the presentation is not prepared in conformity with generally accepted accounting principles.¹¹ If the presentation is prepared in conformity with generally accepted accounting principles, the paragraph should include an identification of the United States of America as the country of origin of those accounting principles (for example, accounting principles generally accepted in the United States of America or U.S. generally accepted accounting principles).

- (2) If considered necessary, includes a description and the source of significant interpretations, if any, made by the Company's management, relating to the provisions of a relevant agreement.
- e. A paragraph that expresses the auditor's opinion (or disclaims an opinion) on whether the specified elements, accounts, or items are fairly presented, in all material respects, in conformity with the basis of accounting described. If the auditor concludes that the specified elements, accounts, or items are not presented fairly on the basis of accounting described or if there has been a limitation on the scope of the audit, the auditor should disclose all the substantive reasons for that conclusion in an explanatory paragraph(s) (preceding the opinion paragraph) of the report and should include in the opinion paragraph appropriate modifying language and a reference to such explanatory paragraph(s).¹²
 - f. If the specified element, account, or item is prepared to comply with the requirements or financial reporting provisions of a contract or agreement that results in a presentation that is not in conformity with either generally accepted accounting principles or an other comprehensive basis of accounting, a separate paragraph at the end of the report stating that the report is intended solely for the information and use of those within the entity and the parties to the contract or agreement,¹³ and is not intended to be and should not be used by anyone other than these specified parties. Such a restriction on the use of the report is necessary because the basis, assumptions, or purpose of the presentation (contained in the contract or agreement) is developed for and directed only to the parties to the contract or agreement.
 - g. The manual or printed signature of the auditor's firm.
 - h. The date.¹⁴

When expressing an opinion on one or more specified elements, accounts, or items of a financial statement, the auditor, to provide more information as to

¹¹ When the specified element, account, or item is presented in conformity with an other comprehensive basis of accounting, see paragraph .05*d*(2). [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

¹² Paragraph 31 discusses other circumstances that may require that the auditor add additional explanatory language to the special report. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

¹³ If the presentation is prepared on a basis prescribed by a governmental regulatory agency (which is also OCBOA), the auditor should restrict the distribution of the report on such presentation. See paragraph .05*f* for further reporting guidance in this situation. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

¹⁴ See footnote 6. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

the scope of the audit, may wish to describe in a separate paragraph certain other auditing procedures applied. However, no modification in the content of paragraph .15c above should be made. [Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

.16 If a specified element, account, or item is, or is based upon, an entity's net income or stockholders' equity or the equivalent thereof, the auditor should have audited the complete financial statements to express an opinion on the specified element, account, or item.

.17 The auditor should consider the effect that any departure, including additional explanatory language because of the circumstances discussed in section 508, *Reports on Audited Financial Statements*, paragraph .11, from the standard report on the audited financial statements might have on the report on a specified element, account, or item thereof.

.18 Following are illustrations of reports expressing an opinion on one or more specified elements, accounts, or items of a financial statement.

Report Relating to Accounts Receivable

Independent Auditor's Report

We have audited the accompanying schedule of accounts receivable of ABC Company as of December 31, 20X2. This schedule is the responsibility of the Company's management. Our responsibility is to express an opinion on this schedule based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of accounts receivable is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the schedule of accounts receivable. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall schedule presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the schedule of accounts receivable referred to above presents fairly, in all material respects, the accounts receivable of ABC Company as of December 31, 20X2, in conformity with accounting principles generally accepted in the United States of America.¹⁵

Report Relating to Amount of Sales for the Purpose of Computing Rental

Independent Auditor's Report

We have audited the accompanying schedule of gross sales (as defined in the lease agreement dated March 4, 20XX, between ABC Company, as lessor, and XYZ Stores Corporation, as lessee) of XYZ Stores Corporation at its Main Street store, [City], [State], for the year ended December 31, 20X2. This schedule is the responsibility of XYZ Stores Corporation's management. Our responsibility is to express an opinion on this schedule based on our audit.

¹⁵ Since this presentation was prepared in conformity with generally accepted accounting principles, the report need not be restricted. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of gross sales is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the schedule of gross sales. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall schedule presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the schedule of gross sales referred to above presents fairly, in all material respects, the gross sales of XYZ Stores Corporation at its Main Street store, [City], [State], for the year ended December 31, 20X2, as defined in the lease agreement referred to in the first paragraph.

This report is intended solely for the information and use of the boards of directors and managements of XYZ Stores Corporation and ABC Company and is not intended to be and should not be used by anyone other than these specified parties.

Report Relating to Royalties

Independent Auditor's Report

We have audited the accompanying schedule of royalties applicable to engine production of the Q Division of XYZ Corporation for the year ended December 31, 20X2, under the terms of a license agreement dated May 14, 20XX, between ABC Company and XYZ Corporation. This schedule is the responsibility of XYZ Corporation's management. Our responsibility is to express an opinion on this schedule based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of royalties is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the schedule of royalties. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall schedule presentation. We believe that our audit provides a reasonable basis for our opinion.

We have been informed that, under XYZ Corporation's interpretation of the agreement referred to in the first paragraph, royalties were based on the number of engines produced after giving effect to a reduction for production retirements that were scrapped, but without a reduction for field returns that were scrapped, even though the field returns were replaced with new engines without charge to customers.

In our opinion, the schedule of royalties referred to above presents fairly, in all material respects, the number of engines produced by the Q Division of XYZ Corporation during the year ended December 31, 20X2, and the amount of royalties applicable thereto, under the license agreement referred to above.

This report is intended solely for the information and use of the boards of directors and managements of XYZ Corporation and ABC Company and is not intended to be and should not be used by anyone other than these specified parties.

Report on a Profit Participation¹⁶

Independent Auditor's Report

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company for the year ended December 31, 20X1, and have issued our report thereon dated March 10, 20X2. We have also audited XYZ Company's schedule of John Smith's profit participation for the year ended December 31, 20X1. This schedule is the responsibility of the Company's management. Our responsibility is to express an opinion on this schedule based on our audit.

We conducted our audit of the schedule in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of profit participation is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the schedule. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall schedule presentation. We believe that our audit provides a reasonable basis for our opinion.

We have been informed that the documents that govern the determination of John Smith's profit participation are (a) the employment agreement between John Smith and XYZ Company dated February 1, 20X0, (b) the production and distribution agreement between XYZ Company and Television Network Incorporated dated March 1, 20X0, and (c) the studio facilities agreement between XYZ Company and QRX Studios dated April 1, 20X0, as amended November 1, 20X0.

In our opinion, the schedule of profit participation referred to above presents fairly, in all material respects, John Smith's participation in the profits of XYZ Company for the year ended December 31, 20X1, in accordance with the provisions of the agreements referred to above.

This report is intended solely for the information and use of the boards of directors and managements of XYZ Company and John Smith and is not intended to be and should not be used by anyone other than these specified parties.

Report on Federal and State Income Taxes Included in Financial Statements¹⁷

Independent Auditor's Report

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, Inc., for the year ended June 30, 20XX, and have issued our report thereon dated August 15, 20XX. We have also audited the current and deferred provision for the Company's federal and state income taxes for the year ended June 30, 20XX, included in those financial statements, and the related asset and liability tax accounts as of June 30, 20XX. This income tax information is the responsibility of the Company's management. Our responsibility is to express an opinion on it based on our audit.

¹⁶ See paragraph .16. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

¹⁷ See paragraph .16. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

We conducted our audit of the income tax information in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the federal and state income tax accounts are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures related to the federal and state income tax accounts. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the federal and state income tax accounts. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the Company has paid or, in all material respects, made adequate provision in the financial statements referred to above for the payment of all federal and state income taxes and for related deferred income taxes that could be reasonably estimated at the time of our audit of the financial statements of XYZ Company, Inc., for the year ended June 30, 20XX.

[Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

Compliance With Aspects of Contractual Agreements or Regulatory Requirements Related to Audited Financial Statements

.19 Entities may be required by contractual agreements, such as certain bond indentures and loan agreements, or by regulatory agencies to furnish compliance reports by independent auditors.¹⁸ For example, loan agreements often impose on borrowers a variety of obligations involving matters such as payments into sinking funds, payments of interest, maintenance of current ratios, and restrictions of dividend payments. They usually also require the borrower to furnish annual financial statements that have been audited by an independent auditor. In some instances, the lenders or their trustees may request assurance from the independent auditor that the borrower has complied with certain covenants of the agreement relating to accounting matters. The independent auditor may satisfy this request by giving negative assurance relative to the applicable covenants based on the audit of the financial statements. This assurance may be given in a separate report or in one or more paragraphs of the auditor's report accompanying the financial statements. Such assurance, however, should not be given unless the auditor has audited the financial statements to which the contractual agreements or regulatory requirements relate and should not extend to covenants that relate to matters that have not been subjected to the audit procedures applied in the audit of the financial statements.¹⁹ In addition, such assurance should not be given if the auditor has

¹⁸ When the auditor is engaged to test compliance with laws and regulations in accordance with *Government Auditing Standards* issued by the Comptroller General of the United States (Yellow Book) and that engagement also requires the auditor to comply with generally accepted auditing standards and a law or regulation that requires the auditor to express an opinion on compliance, he or she should follow the requirements and guidance contained in section 801, *Compliance Audits*. However, absent all three requirements, the auditor needs to determine the appropriate audit or attestation section to follow. Paragraphs .01, .03, and .A1–.A2 of section 801 provide additional guidance. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995. Footnote revised, December 2010, to reflect conforming changes necessary due to the issuance of SAS No. 117.]

¹⁹ When the auditor is engaged to provide assurance on compliance with contractual agreements or regulatory provisions that relate to matters that have not been subjected to the audit procedures applied in the audit of the financial statements, the auditor should refer to the guidance in AT section 601, *Compliance Attestation*. [Footnote renumbered by the issuance of Statement on Auditing

(continued)

expressed an adverse opinion or disclaimed an opinion on the financial statements to which these covenants relate.

.20 When an auditor's report on compliance with contractual agreements or regulatory provisions is being given in a separate report, the report should include—

- a. A title that includes the word *independent*.²⁰
- b. A paragraph that states the financial statements were audited in accordance with generally accepted auditing standards and includes an identification of the United States of America as the country of origin of those standards (for example, auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards) and the date of the auditor's report on those financial statements. Furthermore, any departure from the standard report on those statements should also be disclosed.
- c. A paragraph that includes a reference to the specific covenants or paragraphs of the agreement, provides negative assurance relative to compliance with the applicable covenants of the agreement insofar as they relate to accounting matters, and specifies that the negative assurance is being given in connection with the audit of the financial statements. The auditor should ordinarily state that the audit was not directed primarily toward obtaining knowledge regarding compliance.
- d. A paragraph that includes a description and the source of significant interpretations, if any, made by the Company's management relating to the provisions of a relevant agreement.
- e. A separate paragraph at the end of the report stating that the report is intended solely for the information and use of those within the entity and the parties to the contract or agreement or the regulatory agency with which the report is being filed, and is not intended to be and should not be used by anyone other than these specified parties. Such a restriction on the use of the report is necessary because the basis, assumptions, or purpose of such presentations (contained in such contracts, agreements, or regulatory provisions) are developed for and directed only to the parties to the contract or agreement, or regulatory agency responsible for the provisions.
- f. The manual or printed signature of the auditor's firm.
- g. The date.²¹

[Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

.21 When an auditor's report on compliance with contractual agreements or regulatory provisions is included in the report that expresses the auditor's opinion on the financial statements, the auditor should include a paragraph, after the opinion paragraph, that provides negative assurance relative to

(footnote continued)

Standards No. 77, November 1995. Footnote revised, February 1997, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 3. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

²¹ See footnote 6. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

compliance with the applicable covenants of the agreement, insofar as they relate to accounting matters, and that specifies the negative assurance is being given in connection with the audit of the financial statements. The auditor should also ordinarily state that the audit was not directed primarily toward obtaining knowledge regarding compliance. In addition, the report should include a paragraph that includes a description and source of any significant interpretations made by the entity's management as discussed in paragraph .20d as well as a paragraph that restricts the use of the report to the specified parties as discussed in paragraph .20e. Following are examples of reports that might be issued:

Report on Compliance With Contractual Provisions Given in a Separate Report²²

Independent Auditor's Report

We have audited, in accordance with auditing standards generally accepted in the United States of America, the balance sheet of XYZ Company as of December 31, 20X2, and the related statement of income, retained earnings, and cash flows for the year then ended, and have issued our report thereon dated February 16, 20X3.

In connection with our audit, nothing came to our attention that caused us to believe that the Company failed to comply with the terms, covenants, provisions, or conditions of sections XX to XX, inclusive, of the Indenture dated July 21, 20X0, with ABC Bank insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance.

This report is intended solely for the information and use of the boards of directors and management of XYZ Company and ABC Bank and is not intended to be and should not be used by anyone other than these specified parties.

Report on Compliance With Regulatory Requirements Given in a Separate Report When the Auditor's Report on the Financial Statements Included an Explanatory Paragraph Because of an Uncertainty

Independent Auditor's Report

We have audited, in accordance with auditing standards generally accepted in the United States of America, the balance sheet of XYZ Company as of December 31, 20X2, and the related statement of income, retained earnings, and cash flows for the year then ended, and have issued our report thereon dated March 5, 20X3, which included an explanatory paragraph that described the litigation discussed in Note X of those statements.

In connection with our audit, nothing came to our attention that caused us to believe that the Company failed to comply with the accounting provisions in sections (1), (2) and (3) of the [*name of state regulatory agency*]. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance.

²² When the auditor's report on compliance with contractual agreements or regulatory provisions is included in the report that expresses the auditor's opinion on the financial statements, the last two paragraphs of this report are examples of the paragraphs that should follow the opinion paragraph of the auditor's report on the financial statements. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

This report is intended solely for the information and use of the board of directors and managements of XYZ Company and the [name of state regulatory agency] and is not intended to be and should not be used by anyone other than these specified parties.

[Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

Special-Purpose Financial Presentations to Comply With Contractual Agreements or Regulatory Provisions

.22 An auditor is sometimes asked to report on special-purpose financial statements prepared to comply with a contractual agreement²³ or regulatory provisions. In most circumstances, these types of presentations are intended solely for the use of the parties to the agreement, regulatory bodies, or other specified parties. This section discusses reporting on these types of presentations, which include the following:

- a. A special-purpose financial presentation prepared in compliance with a contractual agreement or regulatory provision that does not constitute a complete presentation of the entity's assets, liabilities, revenues and expenses, but is otherwise prepared in conformity with generally accepted accounting principles or an other comprehensive basis of accounting (paragraphs .23 through .26).
- b. A special-purpose financial presentation (may be a complete set of financial statements or a single financial statement) prepared on a basis of accounting prescribed in an agreement that does not result in a presentation in conformity with generally accepted accounting principles or an other comprehensive basis of accounting (paragraphs .27 through .30).

Financial Statements Prepared on a Basis of Accounting Prescribed in a Contractual Agreement or Regulatory Provision That Results in an Incomplete Presentation But One That is Otherwise in Conformity With Generally Accepted Accounting Principles or an Other Comprehensive Basis of Accounting

.23 A governmental agency may require a schedule of gross income and certain expenses of an entity's real estate operation in which income and expenses are measured in conformity with generally accepted accounting principles, but expenses are defined to exclude certain items such as interest, depreciation, and income taxes. Such a schedule may also present the excess of gross income over defined expenses. Also, a buy-sell agreement may specify a schedule of gross assets and liabilities of the entity measured in conformity with generally accepted accounting principles, but limited to the assets to be sold and liabilities to be transferred pursuant to the agreement.

.24 Paragraph .02 of this section defines the term *financial statement* and includes a list of financial presentations that an auditor should consider to be financial statements for reporting purposes. The concept of specified elements,

²³ A contractual agreement as discussed in this section is an agreement between the client and one or more third parties other than the auditor. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

accounts, or items of a financial statement discussed in paragraphs .11 through .18, on the other hand, refers to accounting information that is part of, but significantly less than, a financial statement. The financial presentations described above and similar presentations should generally be regarded as financial statements, even though, as indicated above, certain items may be excluded. Thus, when the auditor is asked to report on these types of presentations, the measurement of materiality for purposes of expressing an opinion should be related to the presentations taken as a whole (see section 312, *Audit Risk and Materiality in Conducting an Audit*). Further, the presentations should differ from complete financial statements only to the extent necessary to meet special purposes for which they were prepared. In addition, when these financial presentations contain items that are the same as, or similar to, those contained in a full set of financial statements prepared in conformity with generally accepted accounting principles, similar informative disclosures are appropriate (see paragraphs .09 and .10). The auditor should also be satisfied that the financial statements presented are suitably titled to avoid any implication that the special-purpose financial statements on which he or she is reporting are intended to present financial position, results of operations, or cash flows.

.25 When the auditor is asked to report on financial statements prepared on a basis of accounting prescribed in a contractual agreement or regulatory provision that results in an incomplete presentation but one that is otherwise in conformity with generally accepted accounting principles or an other comprehensive basis of accounting, the auditor's report should include—

- a. A title that includes the word *independent*.²⁴
- b. A paragraph that—
 - (1) States that the financial statements identified in the report were audited.
 - (2) States that the financial statements are the responsibility of the Company's management²⁵ and that the auditor is responsible for expressing an opinion on the financial statements based on the audit.²⁶
- c. A paragraph that—
 - (1) States that the audit was conducted in accordance with generally accepted auditing standards and includes an identification of the United States of America as the country of origin of those standards (for example, auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards).
 - (2) States that those standards require that the auditor plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

²⁴ See footnote 1. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

²⁵ Sometimes the auditor's client may not be the person responsible for the financial statements on which the auditor is reporting. For example, when the auditor is engaged by the buyer to report on the seller's financial statements prepared in conformity with a buy-sell agreement, the person responsible for the financial statements may be the seller's management. In this case, the wording of this statement should be changed to clearly identify the party that is responsible for the financial statements reported on. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

²⁶ See footnote 2. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

- (3) States that an audit includes—
 - (a) Examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements,
 - (b) Assessing the accounting principles used and significant estimates made by management, and
 - (c) Evaluating the overall financial statement presentation.
 - (4) States that the auditor believes that the audit provides a reasonable basis for his or her opinion.
- d. A paragraph that—
- (1) Explains what the presentation is intended to present and refers to the note to the special-purpose financial statements that describes the basis of presentation (see paragraphs .09 and .10).
 - (2) If the basis of presentation is in conformity with generally accepted accounting principles, states that the presentation is not intended to be a complete presentation of the entity's assets, liabilities, revenues and expenses.²⁷
- e. A paragraph that expresses the auditor's opinion (or disclaims an opinion) related to the fair presentation, in all material respects, of the information the presentation is intended to present in conformity with generally accepted accounting principles or an other comprehensive basis of accounting. If the presentation is prepared in conformity with generally accepted accounting principles, the paragraph should include an identification of the United States of America as the country of origin of those accounting principles (for example, accounting principles generally accepted in the United States of America or U.S. generally accepted accounting principles). If the auditor concludes that the information the presentation is intended to present is not presented fairly on the basis of accounting described or if there has been a limitation on the scope of the audit, the auditor should disclose all the substantive reasons for that conclusion in an explanatory paragraph(s) (preceding the opinion paragraph) of the report and should include in the opinion paragraph appropriate modifying language and a reference to such explanatory paragraph(s).²⁸
- f. A separate paragraph at the end of the report stating that the report is intended solely for the information and use of those within the entity, the parties to the contract or agreement, the regulatory agency with which the report is being filed, or those with whom the entity is negotiating directly, and is not intended to be and should not be used by anyone other than these specified parties. However, such a paragraph is not appropriate if the report and related financial presentation are to be filed with a regulatory agency, such as the Securities and Exchange Commission, and are to be included in a document (such as a prospectus) that is distributed to the general public.

²⁷ If the basis of presentation is an other comprehensive basis of accounting, the paragraph should state that the basis of presentation is a comprehensive basis of accounting other than generally accepted accounting principles and that it is not intended to be a complete presentation of the entity's assets, liabilities, revenues and expenses on the basis described. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

²⁸ Paragraph .31 discusses other circumstances that may require that the auditor add additional explanatory language to the special report. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

- g. The manual or printed signature of the auditor's firm.
- h. The date.²⁹

[Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

.26 The following examples illustrate reports expressing an opinion on such special-purpose financial statements:

Report on a Schedule of Gross Income and Certain Expenses to Meet a Regulatory Requirement and to Be Included in a Document Distributed to the General Public

Independent Auditor's Report

We have audited the accompanying Historical Summaries of Gross Income and Direct Operating Expenses of ABC Apartments, City, State (Historical Summaries), for each of the three years in the period ended December 31, 20XX. These Historical Summaries are the responsibility of the Apartments' management. Our responsibility is to express an opinion on the Historical Summaries based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Historical Summaries are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the Historical Summaries. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Historical Summaries. We believe that our audits provide a reasonable basis for our opinion.

The accompanying Historical Summaries were prepared for the purpose of complying with the rules and regulations of the Securities and Exchange Commission (for inclusion in the registration statement on Form S-11 of DEF Corporation) as described in Note X and are not intended to be a complete presentation of the Apartments' revenues and expenses.

In our opinion, the Historical Summaries referred to above present fairly, in all material respects, the gross income and direct operating expenses described in Note X of ABC Apartments for each of the three years in the period ended December 31, 20XX, in conformity with accounting principles generally accepted in the United States of America.

Report on a Statement of Assets Sold and Liabilities Transferred to Comply With a Contractual Agreement

Independent Auditor's Report

We have audited the accompanying statement of net assets sold of ABC Company as of June 8, 20XX. This statement of net assets sold is the responsibility of ABC Company's management. Our responsibility is to express an opinion on the statement of net assets sold based on our audit.

²⁹ See footnote 6. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of net assets sold is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the statement of net assets sold. We believe that our audit provides a reasonable basis for our opinion.

The accompanying statement was prepared to present the net assets of ABC Company sold to XYZ Corporation pursuant to the purchase agreement described in Note X, and is not intended to be a complete presentation of ABC Company's assets and liabilities.

In our opinion, the accompanying statement of net assets sold presents fairly, in all material respects, the net assets of ABC Company as of June 8, 20XX sold pursuant to the purchase agreement referred to in Note X, in conformity with accounting principles generally accepted in the United States of America.

This report is intended solely for the information and use of the boards of directors and managements of ABC Company and XYZ Corporation and is not intended to be and should not be used by anyone other than these specified parties.

[Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

Financial Statements Prepared on a Basis of Accounting Prescribed in an Agreement That Results in a Presentation That is not in Conformity With Generally Accepted Accounting Principles or an Other Comprehensive Basis of Accounting

.27 The auditor may be asked to report on special-purpose financial statements prepared in conformity with a basis of accounting that departs from generally accepted accounting principles or an other comprehensive basis of accounting. A loan agreement, for example, may require the borrower to prepare consolidated financial statements in which assets, such as inventory, are presented on a basis that is not in conformity with generally accepted accounting principles or an other comprehensive basis of accounting. An acquisition agreement may require the financial statements of the entity being acquired (or a segment of it) to be prepared in conformity with generally accepted accounting principles except for certain assets, such as receivables, inventories, and properties for which a valuation basis is specified in the agreement.

.28 Financial statements prepared under a basis of accounting as discussed above are not considered to be prepared in conformity with a "comprehensive basis of accounting" as contemplated by paragraph .04 of this section because the criteria used to prepare such financial statements do not meet the requirement of being "criteria having substantial support," even though the criteria are definite.

.29 When an auditor is asked to report on these types of financial presentations, the report should include—

- a.* A title that includes the word *independent*.³⁰

³⁰ See footnote 1. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

- b. A paragraph that—
- (1) States that the special-purpose financial statements identified in the report were audited.
 - (2) States that the financial statements are the responsibility of the Company's management³¹ and that the auditor is responsible for expressing an opinion on the financial statements based on the audit.³²
- c. A paragraph that—
- (1) States that the audit was conducted in accordance with generally accepted auditing standards and includes an identification of the United States of America as the country of origin of those standards (for example, auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards).
 - (2) States that those standards require that the auditor plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.
 - (3) States that an audit includes—
 - (a) Examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements,
 - (b) Assessing the accounting principles used and significant estimates made by management, and
 - (c) Evaluating the overall financial statement presentation.
 - (4) States that the auditor believes that the audit provides a reasonable basis for the auditor's opinion.
- d. A paragraph that—
- (1) Explains what the presentation is intended to present and refers to the note to the special-purpose financial statements that describes the basis of presentation (see paragraphs .09 and .10).
 - (2) States that the presentation is not intended to be a presentation in conformity with generally accepted accounting principles.
- e. A paragraph that includes a description and the source of significant interpretations, if any, made by the Company's management relating to the provisions of a relevant agreement.
- f. A paragraph that expresses the auditor's opinion (or disclaims an opinion) related to the fair presentation, in all material respects, of the information the presentation is intended to present on the basis of accounting specified. If the auditor concludes that the information the presentation is intended to present is not presented fairly on the basis of accounting described or if there has been a limitation on the scope of the audit, the auditor should disclose all the substantive reasons for that conclusion in an explanatory paragraph(s) (preceding

³¹ See footnote 25. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

³² See footnote 2. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

the opinion paragraph) of the report and should include in the opinion paragraph appropriate modifying language and a reference to such explanatory paragraph(s).³³

- g.* A separate paragraph at the end of the report stating that the report is intended solely for the information and use of those within the entity, the parties to the contract or agreement, the regulatory agency with which the report is being filed, or those with whom the entity is negotiating directly, and is not intended to be and should not be used by anyone other than these specified parties. For example, if the financial statements have been prepared for the specified purpose of obtaining bank financing, the report's use should be restricted to the various banks with whom the entity is negotiating the proposed financing.
- h.* The manual or printed signature of the auditor's firm.
- i.* The date.³⁴

[Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

.30 The following example illustrates reporting on special-purpose financial statements that have been prepared pursuant to a loan agreement:

Report on Financial Statements Prepared Pursuant to a Loan Agreement That Results in a Presentation not in Conformity With Generally Accepted Accounting Principles or an Other Comprehensive Basis of Accounting

Independent Auditor's Report

We have audited the special-purpose statement of assets and liabilities of ABC Company as of December 31, 20X2 and 20X1, and the related special-purpose statements of revenues and expenses and of cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of complying with Section 4 of a loan agreement between DEF Bank and the Company as discussed in Note X, and are not intended to be a presentation in conformity with generally accepted accounting principles.

³³ Paragraph .31 discusses other circumstances that may require that the auditor add additional explanatory language to the special report. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

³⁴ See footnote 6. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

In our opinion, the special-purpose financial statements referred to above present fairly, in all material respects, the assets and liabilities of ABC Company at December 31, 20X2 and 20X1, and the revenues, expenses and cash flows for the years then ended, on the basis of accounting described in Note X.

This report is intended solely for the information and use of the boards of directors and management of ABC Company and DEF Bank and is not intended to be and should not be used by anyone other than these specified parties.

[Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

Circumstances Requiring Explanatory Language in an Auditor's Special Report

.31 Certain circumstances, while not affecting the auditor's unqualified opinion, may require that the auditor add additional explanatory language to the special report. These circumstances include the following:

- a. *Lack of Consistency in Accounting Principles.* If there has been a change in accounting principles or in the method of their application,³⁵ the auditor should add an explanatory paragraph to the report (following the opinion paragraph) that describes the change and refers to the note to the financial presentation (or specified elements, accounts, or items thereof) that discusses the change and its effect thereon³⁶ if the accounting change is considered relevant to the presentation. Guidance on reporting in this situation is contained in section 508, *Reports on Audited Financial Statements*, paragraphs .16 through .18.^[37-38]
- b. *Going Concern Uncertainties.* If the auditor has substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time not to exceed one year beyond the date of the financial statement, the auditor should add an explanatory paragraph after the opinion paragraph of the report only if the auditor's substantial doubt is relevant to the presentation.³⁹
- c. *Other Auditors.* When the auditor decides to make reference to the report of another auditor as a basis, in part, for his or her opinion, the auditor should disclose that fact in the introductory paragraph

³⁵ When financial statements (or specified elements, accounts, or items thereof) have been prepared in conformity with generally accepted accounting principles in prior years, and the entity changes its method of presentation in the current year by preparing its financial statements in conformity with another comprehensive basis of accounting, the auditor need not follow the reporting guidance in this subparagraph. However, the auditor may wish to add an explanatory paragraph to the report to highlight (1) a difference in the basis of presentation from that used in prior years or (2) that another report has been issued on the entity's financial statements prepared in conformity with another basis of presentation (for example, when cash basis financial statements are issued in addition to GAAP financial statements). [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

³⁶ A change in the tax law is not considered to be a change in accounting principle for which the auditor would need to add an explanatory paragraph, although disclosure may be necessary. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

^[37-38] [Footnotes deleted to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 79.]

³⁹ See section 341A, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, for a report example when the auditor has substantial doubt about the entity's ability to continue as a going concern. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

of the report and should refer to the report of the other auditors in expressing his or her opinion. Guidance on reporting in this situation is contained in section 508, *Reports on Audited Financial Statements*, paragraphs .12 and .13.

- d. *Comparative Financial Statements (or Specified Elements, Accounts, or Items Thereof)*. If the auditor expresses an opinion on prior-period financial statements (or specified elements, accounts, or items thereof) that is different from the opinion he or she previously expressed on that same information, the auditor should disclose all of the substantive reasons for the different opinion in a separate explanatory paragraph preceding the opinion paragraph of the report. Guidance on reporting in this situation is contained in section 508, *Reports on Audited Financial Statements*, paragraphs .68 and .69.

As in reports on financial statements prepared in conformity with generally accepted accounting principles, the auditor may add an explanatory paragraph to emphasize a matter regarding the financial statements (or specified elements, accounts, or items thereof). [Revised, February 1997, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 79.]

Financial Information Presented in Prescribed Forms or Schedules

.32 Printed forms or schedules designed or adopted by the bodies with which they are to be filed often prescribe the wording of an auditor's report. Many of these forms are not acceptable to independent auditors because the prescribed form of auditor's report does not conform to the applicable professional reporting standards. For example, the prescribed language of the report may call for statements by the auditor that are not consistent with the auditor's function or responsibility.

.33 Some report forms can be made acceptable by inserting additional wording; others can be made acceptable only by complete revision. When a printed report form calls upon an independent auditor to make a statement that he or she is not justified in making, the auditor should reword the form or attach a separate report. In those situations, the reporting provisions of paragraph .05 may be appropriate.

Effective Date

.34 This section is effective for reports issued on or after July 1, 1989. Early application of the provisions of this section is permissible.

9. Auditors' Special Reports on Property and Liability Insurance Companies' Loss Reserves

.40 Question—The instructions to the statutory annual statement to be filed by property and liability insurance companies with state regulatory agencies include the following:

If a company is required by its domiciliary commissioner, there is to be submitted to the commissioner as an addendum to the Annual Statement by April 1 of the subsequent year a statement of a qualified loss reserve specialist setting forth his or her opinion relating to loss and loss adjustment expense reserves.

The term "qualified loss reserve specialist" includes an independent auditor who has competency in loss reserve evaluation.

.41 If an independent auditor who has made an audit of the insurance company's financial statements in accordance with generally accepted auditing standards is engaged to express a separate opinion on the company's loss and loss adjustment expense reserves for the purpose of compliance with the above instruction, what form of report should be used by the independent auditor?

.42 Interpretation—Section 623 paragraphs .11–.18 provide guidance on auditors' reports expressing an opinion on one or more specified elements, accounts, or items of a financial statement. Following are illustrations of the auditor's report expressing an opinion on a company's loss and loss adjustment expense reserves and the schedule of liabilities for losses and loss adjustment expenses that would accompany the report.⁵

Illustrative report

Board of Directors

X Insurance Company

We are members of the American Institute of Certified Public Accountants (AICPA) and are the independent public accountants of X Insurance Company. We acknowledge our responsibility under the AICPA's Code of Professional Conduct to undertake only those engagements which we can complete with professional competence.

We have audited the financial statements prepared in conformity with accounting principles generally accepted in the United States of America [*or prepared in conformity with accounting practices prescribed or permitted by the Insurance Department of the State of*] of X Insurance Company as of December 31, 20X0, and have issued our report thereon dated March 1, 19X1. In the course of our audit, we have audited the estimated liabilities for unpaid losses and unpaid loss adjustment expenses of X Insurance Company as of December 31, 20X0, as set forth in the accompanying schedule including consideration of the assumptions and methods relating to the estimation of such liabilities.

In our opinion, the accompanying schedule presents fairly, in all material respects, the estimated unpaid losses and unpaid loss adjustment expenses of X Insurance Company that could be reasonably estimated at December 31, 20X0, in conformity with accounting practices prescribed or permitted by the Insurance Department of the State of on a basis consistent with that of the preceding year.

⁵ If a significant period of time has elapsed between the date of the report on the financial statements and the date he is reporting on the loss and loss adjustment expense reserves, the auditor may wish to include the following paragraph after the opinion paragraph: Because we have not audited any financial statements of X Insurance Company as of any date or for any period subsequent to December 31, 20X0, we have no knowledge of the effects, if any, on the liability for unpaid losses and unpaid loss adjustment expenses of events that may have occurred subsequent to the date of our audit.

This report is intended solely for the information and use of the board of directors and management of X Insurance Company and [*the state regulatory agencies to whose jurisdiction the entity is subject*] and is not intended to be and should not be used by anyone other than these specified parties.

Signature
Date

X Insurance Company
Schedule of Liabilities for Losses
and Loss Adjustment Expenses
December 31, 19X0

Liability for losses	\$xx,xxx,xxx
Liability for loss adjustment expenses	<u>x,xxx,xxx</u>
Total	<u>\$xx,xxx,xxx</u>

Note 1—Basis of presentation

The above schedule has been prepared in conformity with accounting practices prescribed or permitted by the Insurance Department of the State of (Significant differences between statutory practices and generally accepted accounting principles for the calculation of the above amounts should be described but the monetary effect of any such differences need not be stated.)

Losses and loss adjustment expenses are provided for when incurred in accordance with the applicable requirements of the insurance laws [and/or regulations] of the State of Such provisions include (1) individual case estimates for reported losses, (2) estimates received from other insurers with respect to reinsurance assumed, (3) estimates for unreported losses based on past experience modified for current trends, and (4) estimates of expenses for investigating and settling claims.

Note 2—Reinsurance

The Company reinsures certain portions of its liability insurance coverages to limit the amount of loss on individual claims and purchases catastrophe insurance to protect against aggregate single occurrence losses. Certain portions of property insurance are reinsured on a quota share basis.

The liability for losses and the liability for loss adjustment expenses were reduced by \$xxx,xxx and \$xxx,xxx, respectively, for reinsurance ceded to other companies.

Contingent liability exists with respect to reinsurance which would become an actual liability in the event the reinsuring companies, or any of them, might be unable to meet their obligations to the Company under existing reinsurance agreements.

.43 Question—The instructions to the statutory annual statement also include the following:

If there has been any material change in the assumptions and/or methods from those previously employed, that change should be described in the statement of opinion by inserting a phrase such as:

A material change in assumptions (and/or methods) was made during the past year, but such change accords with accepted loss reserving standards.

A brief description of the change should follow.

.44 In what circumstances is it appropriate for the independent auditor to modify his special report on loss and loss adjustment expense reserves for material changes in assumptions and/or methods?

.45 Interpretation—Section 420 paragraph .06 states that changes in accounting principles and methods of applying them affect consistency and require the addition of an explanatory paragraph (following the opinion paragraph) in the auditor's report on the audited financial statements. Section 623 paragraph .16 states that, if applicable, any departures from the auditor's standard report on the related financial statements should be indicated in the special report on an element, account, or item of a financial statement.

.46 Section 420 paragraph .16 states that a change in accounting estimate is not a change affecting consistency requiring recognition in the auditor's report. However, such changes in estimates that are disclosed in the financial statements on which the auditor has reported should also be disclosed in the notes to the schedule of liabilities for unpaid losses and unpaid loss adjustment expenses accompanying the auditor's special report. (See Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 250-10-50-4*.)

[Issue Date: May 1981; Revised: February 1999; Revised: October 2000; Revised: June 2009.]

10. Reports on the Financial Statements Included in Internal Revenue Form 990, "Return of Organizations Exempt from Income Tax"

.47 Question—Internal Revenue Form 990, "Return of Organizations Exempt from Income Tax," may be used as a uniform annual report by charitable organizations in some states for reporting to both state and federal governments. Many states require an auditor's opinion on whether the financial statements included in the report⁶ are presented fairly in conformity with generally accepted accounting principles. Ordinarily, financial statements included in a Form 990 used by a charitable organization as a uniform annual report may be expected to contain certain material departures from the accounting principles in FASB ASC 954, *Health Care Entities*, and FASB ASC 958, *Not-for-Profit Entities*.

.48 In most states the report is used primarily to satisfy statutory requirements, but regulatory authorities make the financial statements and the accompanying auditor's report a matter of public record. In some situations, however, there may be public distribution of the report. What should be the form of the auditor's report in each of the above situations?

.49 Interpretation—In both situations, the auditor should first consider whether the financial statements (including appropriate notes to financial statements) are in conformity with generally accepted accounting principles. If they are, the auditor can express an unqualified opinion.

.50 If the financial statements are not in conformity with generally accepted accounting principles, the auditor should consider the distribution of the report to determine whether it is appropriate to issue a special report (as illustrated in section 623, *Special Reports*, paragraph .08, for reporting on financial statements prepared in accordance with the requirements or financial reporting provisions of a government regulatory agency).

.51 Section 623 permits this type of special report only if the financial statements and report are intended solely for use by those within the entity and one or more regulatory agencies to whose jurisdiction the entity is subject.

⁶ As used in this interpretation, the report refers to a Form 990 report by a charitable organization in a filing with a government agency.

However, section 623 makes this form of reporting appropriate, even though by law or regulation the accountant's report may be made a matter of public record.⁷

.52 The following example illustrates a report expressing an opinion on such special purpose financial statements:

Independent Auditor's Report

We have audited the balance sheet (Part IV) of XYZ Charity as of December 31, 20XX, and the related statement of revenue, expenses and changes in net assets (Part I) and statement of functional expenses (Part II) for the year then ended included in the accompanying Internal Revenue Service Form 990. These financial statements are the responsibility of Charity's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note X, these financial statements were prepared in conformity with the accounting practices prescribed by the Internal Revenue Service and the Office of the State of, which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities and fund balances of XYZ Charity as of December 31, 19XX and its revenue and expenses and changes in fund balances for the year then ended on the basis of accounting described in Note X.^[8]

Our audit was made for the purpose of forming an opinion on the above financial statements taken as a whole. The accompanying information on pages to is presented for purposes of additional analysis and is not a required part of the above financial statements. Such information, except for that portion marked "unaudited," on which we express no opinion, has been subjected to the auditing procedures applied in the audit of the above financial statements; and, in our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

This report is intended solely for the information and use of the board of directors and management of XYZ Charity, the Internal Revenue Service, and the Office of the State of and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

⁷ *Public record*, for purposes of auditors' reports in states with filing requirements for exempt organizations, includes circumstances in which specific requests must be made by the public to obtain access to or copies of the report, notwithstanding the fact that some states may advertise or require the exempt organization to advertise the availability of Form 990. In contrast, *public distribution*, for purposes of auditors' reports in state filings on various Forms 990 dealing with exempt organizations, includes circumstances in which the regulatory agency or the exempt organization, either because of regulatory requirements or voluntarily, distributes copies of Form 990 to contributors or others without receiving a specific request for such distribution.

^[8] [Footnote deleted.]

.53 If there is public distribution⁹ of the report, because the law requires it or otherwise (copies of Form 990 are distributed to contributors or others without receiving a specific request for such distribution) and the financial statements included in it are not in conformity with generally accepted accounting principles, a special report (as illustrated in section 623 paragraph .08) is not appropriate. In such cases, the auditor should express a qualified or adverse opinion and disclose the effects on the financial statements of the departures from generally accepted accounting principles if the effects are reasonably determinable. If the effects are not reasonably determinable, the report should so state.

[.54] [Paragraph deleted to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 87.]

11. Reporting on Current-Value Financial Statements That Supplement Historical-Cost Financial Statements in Presentations of Real Estate Entities

.55 Question—A real estate entity presents current-value financial statements¹⁰ to supplement historical-cost financial statements. May an auditor accept an engagement to report on current-value financial statements that supplement historical-cost financial statements, and if so, how should the auditor report?

.56 Interpretation—An auditor may accept an engagement to report on current-value financial statements that supplement historical-cost financial statements of a real estate entity only if the auditor believes the following two conditions exist—

- the measurement and disclosure criteria used to prepare the current-value financial statements are reasonable, and
- competent persons using the measurement and disclosure criteria would ordinarily obtain materially similar measurements or disclosures.

.57 If these conditions are satisfied, an auditor may report on such current-value financial statements in a manner similar to that discussed in section 623, *Special Reports*, paragraph .29. However, because the current-value financial statements only supplement the historical-cost financial statements and are not presented as a stand-alone presentation, it is not necessary to restrict the use of the auditor's report on the presentation as required by that paragraph.

⁹ Auditors should consider whether there is a public distribution requirement by reference to the relevant state law. However, at this time (April 1982), most state laws do not contain a public distribution requirement and a special report is ordinarily appropriate. For example, the laws of New York, New Jersey and Connecticut do not presently require public distribution as defined by this interpretation.

¹⁰ Generally accepted accounting principles require the use of current-value accounting for financial statements of certain types of entities (for example, investment companies, employee benefit plans, personal financial statements, and mutual and common trust funds). This interpretation does not apply to reports on current-value financial statements of such entities. The auditor engaged to report on current-value financial statements of such entities should follow the guidance in section 508, *Reports on Audited Financial Statements*, and applicable industry guidance. [Footnote revised, June 2009, to reflect conforming changes necessary due to the issuance of recent authoritative literature.]

.58 The following is an example of a report an auditor might issue when reporting on current-value financial statements that supplement historical-cost financial statements of a real estate entity:

Independent Auditor's Report

We have audited the accompanying historical-cost balance sheets of X Company as of December 31, 20X3 and 20X2, and the related historical-cost statements of income, shareholders' equity and cash flows for each of the three years in the period ended December 31, 20X3. We also have audited the supplemental current-value balance sheets of X Company as of December 31, 20X3 and 20X2, and the related supplemental current-value statements of income and shareholders' equity for each of the three years in the period ended December 31, 20X3. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the historical-cost financial statements referred to above present fairly, in all material respects, the financial position of X Company as of December 31, 20X3 and 20X2, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 20X3, in conformity with accounting principles generally accepted in the United States of America.

As described in Note 1, the supplemental current-value financial statements have been prepared by management to present relevant financial information that is not provided by the historical-cost financial statements and are not intended to be a presentation in conformity with generally accepted accounting principles. In addition, the supplemental current-value financial statements do not purport to present the net realizable, liquidation, or market value of the Company as a whole. Furthermore, amounts ultimately realized by the Company from the disposal of properties may vary significantly from the current values presented.

In our opinion, the supplemental current-value financial statements referred to above present fairly, in all material respects, the information set forth in them on the basis of accounting described in Note 1.

[Signature]

[Date]

.59 The auditor should also consider the adequacy of disclosures relating to the current value financial statements. Such disclosures should describe the accounting policies applied and such matters as the basis of presentation, nature of the reporting entity's properties, status of construction-in-process, valuation bases used for each classification of assets and liabilities, and sources of valuation. These matters should be disclosed in the notes in a sufficiently clear and comprehensive manner that enables a knowledgeable reader to understand the current-value financial statements.

[Issue Date: July 1990; Revised: February 1999; Revised: October 2000.]

12. Evaluation of the Appropriateness of Informative Disclosures in Insurance Enterprises' Financial Statements Prepared on a Statutory Basis¹¹

.60 Question—Insurance enterprises issue financial statements prepared in accordance with accounting practices prescribed or permitted by insurance regulators (a "statutory basis") in addition to, or instead of, financial statements prepared in accordance with generally accepted accounting principles (GAAP). Effective January 1, 2001, most states are expected to adopt a comprehensively updated *Accounting Practices and Procedures Manual*, as revised by the National Association of Insurance Commissioners' (NAIC's) Codification project. The updated *Accounting Practices and Procedures Manual*, along with any subsequent revisions, is referred to as the revised Manual. The revised Manual contains extensive disclosure requirements. As a result, after a state adopts the revised Manual, its statutory basis of accounting will include informative disclosures appropriate for that basis of accounting. The NAIC Annual Statement Instructions prescribe the financial statements to be included in the annual audited financial report. Some states may not adopt the revised Manual or may adopt it with significant departures. How should auditors evaluate whether informative disclosures in financial statements prepared on a statutory basis are appropriate?¹² [As amended, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning on or after that date and audits of those financial statements, by Statement of Position 01-5.]

.61 Interpretation—Financial statements prepared on a statutory basis are financial statements prepared on a comprehensive basis of accounting other than GAAP according to section 623, *Special Reports*, paragraph .04. Section 623 paragraph .09 states that "When reporting on financial statements prepared on a comprehensive basis of accounting other than generally accepted accounting principles, the auditor should consider whether the financial statements (including the accompanying notes) include all informative disclosures that are appropriate for the basis of accounting used. The auditor should apply essentially the same criteria to financial statements prepared on an other comprehensive basis of accounting as he or she does to financial statements prepared in conformity with generally accepted accounting principles. Therefore, the auditor's opinion should be based on his or her judgment regarding whether the financial statements, including the related notes, are informative of matters that may affect their use, understanding, and interpretation. [Title of section 411 amended, effective for reports issued or reissued on or after June 30, 2001, by Statement on Auditing Standards No. 93. As amended, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning

¹¹ Interpretation No. 14, "Evaluating the Adequacy of Disclosure and Presentation in Financial Statements Prepared in Conformity With an Other Comprehensive Basis of Accounting (OCBOA)" (paragraphs .90–.95), provides interpretive guidance applicable to all OCBOA presentations. This interpretation provides additional guidance regarding the appropriateness of informative disclosures in insurance enterprises' financial statements prepared on a statutory basis. [Footnote added by the revision of Interpretations No. 12 and No. 14, January 2005.]

¹² It is possible for one of three different situations to occur: The state adopted the revised Manual without significant departures, adopted the revised Manual with significant departures, or has not yet adopted the revised Manual. [Footnote added, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning on or after that date and audits of those financial statements, by Statement of Position 01-5. Footnote renumbered by the revision of Interpretations No. 12 and No. 14, January 2005.]

on or after that date and audits of those financial statements, by Statement of Position 01-5. Revised, October 2009, to reflect conforming changes necessary due to the withdrawal of SAS No. 69.]

.62 Section 623 paragraph .02 states that generally accepted auditing standards apply when an auditor conducts an audit of and reports on financial statements prepared on an other comprehensive basis of accounting. Thus, in accordance with the third standard of reporting, "When the auditor determines that informative disclosures are not reasonably adequate, the auditor must so state in the report."

.63 Question—What types of items or matters should auditors consider in evaluating whether informative disclosures are reasonably adequate?

.64 Interpretation—Section 623 paragraph .09 and .10 indicates that financial statements prepared on a comprehensive basis of accounting other than GAAP should include "all informative disclosures that are appropriate for the basis of accounting used." That includes a summary of significant accounting policies that discusses the basis of presentation and describes how that basis differs from GAAP. The provisions of the preamble of the revised Manual that states, "GAAP pronouncements do not become part of Statutory Accounting Principles until and unless adopted by the NAIC," do not negate the requirements of section 623 paragraph .10, which also states that when "the financial statements [prepared on an other comprehensive basis of accounting] contain items that are the same as, or similar to, those in financial statements prepared in conformity with generally accepted accounting principles, similar informative disclosures are appropriate." [As amended, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning on or after that date and audits of those financial statements, by Statement of Position 01-5.]

[.65–.66] [Paragraphs deleted by the issuance of Statement of Position 01-5, December 2001.]

.67 Question—How does the auditor evaluate whether "similar informative disclosures" are appropriate for—

- a. Items and transactions that are accounted for essentially the same or in a similar manner under a statutory basis as under GAAP?
- b. Items and transactions that are accounted for differently under a statutory basis than under GAAP?
- c. Items and transactions that are accounted for differently under requirements of the state of domicile than under the revised Manual?

[As amended, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning on or after that date and audits of those financial statements, by Statement of Position 01-5.]

.68 Interpretation—Disclosures in statutory basis financial statements for items and transactions that are accounted for essentially the same or in a similar manner under the statutory basis as under GAAP should be the same as, or similar to, the disclosures required by GAAP unless the revised Manual specifically states the NAIC Codification rejected the GAAP disclosures.¹³ Disclosures

¹³ The provisions of the preamble of the revised Manual that states, "GAAP pronouncements do not become part of Statutory Accounting Principles until and unless adopted by the NAIC" or any other explicit rejection of a GAAP disclosure does not negate the requirements of section 623 paragraph .10. [Footnote added by the revision of Interpretations No. 12 and No. 14, January 2005.]

should also include those required by the revised Manual. [As amended, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning on or after that date and audits of those financial statements, by Statement of Position 01-5.]

[.69] [Paragraph deleted by the issuance of Statement of Position 01-5, December 2001.]

.70 Disclosures in statutory basis financial statements for items or transactions that are accounted for differently under the statutory basis than under GAAP, but in accordance with the revised Manual, should be the disclosures required by the revised Manual. [As amended, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning on or after that date and audits of those financial statements, by Statement of Position 01-5.]

.71 If the accounting required by the state of domicile for an item or transaction differs from the accounting set forth in the revised Manual for that item or transaction, but it is in accordance with GAAP or superseded GAAP, the disclosures in statutory basis financial statements for that item or transaction should be the applicable GAAP disclosures for the GAAP or superseded GAAP. If the accounting required by the state of domicile for an item or transaction differs from the accounting set forth in the revised Manual, GAAP or superseded GAAP, sufficient relevant disclosures should be made. [As amended, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning on or after that date and audits of those financial statements, by Statement of Position 01-5.]

[.72-.76] [Paragraphs deleted by the issuance of Statement of Position 01-5, December 2001.]

.77 When evaluating the adequacy of disclosures, the auditor should also consider disclosures related to matters that are not specifically identified on the face of the financial statements, such as (a) related party transactions, (b) restrictions on assets and owners' equity, (c) subsequent events, and (d) uncertainties. Other matters should be disclosed if such disclosures are necessary to keep the financial statements from being misleading.

[.78-.79] [Paragraphs deleted to reflect conforming changes necessary due to the issuance of FASB Statement No. 120, *Accounting and Reporting by Mutual Life Insurance Enterprises and by Insurance Enterprises for Certain Long-Duration Participating Contracts*, and FASB Interpretation No. 40, *Applicability of Generally Accepted Accounting Principles to Mutual Life Insurance and Other Enterprises*.]

[.80-.81] [Paragraphs deleted by the revision of Interpretation Nos. 12 and 14, January 2005.]

[Issue Date: December 1991; Revised: February 1997; Amended: December 2001; Revised: January 2005; Revised: November 2006.]

13. Reporting on a Special-Purpose Financial Statement That Results in an Incomplete Presentation But Is Otherwise in Conformity With Generally Accepted Accounting Principles

.82 *Question*—An auditor may be requested to report on a special-purpose financial statement that results in an incomplete presentation but otherwise

is in conformity with generally accepted accounting principles. For example, an entity wishing to sell a division or product line may prepare an offering memorandum that includes a special-purpose financial statement that presents certain assets and liabilities, revenues and expenses relating to the division or product line being sold. Section 623, *Special Reports*, paragraph .22 states that the auditor may report on a special-purpose financial statement prepared to comply with a contractual agreement. Does an offering memorandum (not including a filing with a regulatory agency) constitute a contractual agreement for purposes of issuing an auditor's report under this section? [Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

.83 Interpretation—No. An offering memorandum generally is a document providing information as the basis for negotiating an offer to sell certain assets or businesses or to raise funds. Normally, parties to an agreement or other specified parties for whom the special-purpose financial presentation is intended have not been identified. Accordingly, the auditor should follow the reporting guidance in section 508, *Reports on Audited Financial Statements*, paragraphs .35–.44 and .58–.60. [Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

.84 Question—Does an agreement between a client and one or more third parties other than the auditor to prepare financial statements using a special-purpose presentation constitute a contractual agreement for purposes of issuing an auditor's report under this section? [Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

.85 Interpretation—Yes. In such cases, the auditor should follow the guidance in section 623 paragraphs .22–.26, and use of the auditor's report should be restricted to those within the entity, to the parties to the contract or agreement or to those with whom the entity is negotiating directly.

.86 If there is no such agreement, the auditor should follow the guidance in section 508 paragraphs .35–.44 and .58–.60. [Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

[.87–.89] [Paragraphs deleted to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 87. Paragraphs renumbered by the issuance of Statement of Position 01-5, December 2001.]

[Issue Date: May 1995; Revised: February 1999.]

14. Evaluating the Adequacy of Disclosure and Presentation in Financial Statements Prepared in Conformity With an Other Comprehensive Basis of Accounting (OCBOA)¹⁴

.90 Question—Section 623, *Special Reports*, paragraph .10, requires that financial statements prepared on a comprehensive basis of accounting other than generally accepted accounting principles (GAAP) include a summary of significant accounting policies that discusses the basis of presentation and describes how that basis differs from GAAP. It also states that when such financial statements contain items that are the same as, or similar to, those in statements prepared in conformity with GAAP, "similar informative disclosures are appropriate." To illustrate how to apply that statement, section 623 paragraphs .10

¹⁴ While this interpretation provides guidance applicable to all OCBOA presentations, Interpretation No. 12 (paragraphs .60–.81) provides additional interpretive guidance regarding the appropriateness of informative disclosures in insurance enterprises' financial statements prepared on a statutory basis. [Footnote added by the revision of Interpretations No. 12 and No. 14, January 2005.]

says that the disclosures for depreciation, long-term debt, and owners' equity should be "comparable to" those in financial statements prepared in conformity with GAAP. That paragraph then states that the auditor "should also consider" the need for disclosure of matters that are not specifically identified on the face of the statements, such as (a) related party transactions, (b) restrictions on assets and owners' equity, (c) subsequent events, and (d) uncertainties. How should the guidance in section 623 paragraph .10 be applied in evaluating the adequacy of disclosure in financial statements prepared in conformity with an other comprehensive basis of accounting (OCBOA)? [Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

.91 Interpretation—The discussion of the basis of presentation may be brief; for example: "The accompanying financial statements present financial results on the accrual basis of accounting used for federal income tax reporting." Only the primary differences from GAAP need to be described. To illustrate, assume that several items are accounted for differently than they would be under GAAP, but that only the differences in depreciation calculations are significant. In that situation, a brief description of the depreciation differences is all that would be necessary, and the remaining differences need not be described. Quantifying differences is not required. [Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

.92 If OCBOA financial statements contain elements, accounts, or items for which GAAP would require disclosure, the statements should either provide the relevant disclosure that would be required for those items in a GAAP presentation or provide information that communicates the substance of that disclosure. That may result in substituting qualitative information for some of the quantitative information required for GAAP presentations. For example, disclosing the repayment terms of significant long-term borrowings may sufficiently communicate information about future principal reduction without providing the summary of principal reduction during each of the next five years that would be required for a GAAP presentation. Similarly, disclosing estimated percentages of revenues, rather than amounts that GAAP presentations would require, may sufficiently convey the significance of sales or leasing to related parties. GAAP disclosure requirements that are not relevant to the measurement of the element, account, or item need not be considered. To illustrate:

- a. The fair value information that FASB ASC 320, *Investments—Debt and Equity Securities*, would require disclosing for debt and equity securities reported in GAAP presentations would not be relevant when the basis of presentation does not adjust the cost of such securities to their fair value.
- b. The information based on actuarial calculations that FASB ASC 715, *Compensation—Retirement Benefits*, would require disclosing for contributions to defined benefit plans reported in GAAP presentations would not be relevant in income tax or cash basis financial statements.

[Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

.93 If GAAP sets forth requirements that apply to the presentation of financial statements, the OCBOA financial statements should either comply with those requirements or provide information that communicates the substance of those requirements. The substance of GAAP presentation requirements may be communicated using qualitative information and without modifying the financial statement format. For example:

- a. Information about the effects of accounting changes, discontinued operations, and extraordinary items could be disclosed in a note to the financial statements without following the GAAP presentation requirements in the statement of results of operations, using those terms, or disclosing net-of-tax effects.
- b. Instead of showing expenses by their functional classifications, the income tax basis statement of activities of a trade organization could present expenses according to their natural classifications, and a note to the statement could use estimated percentages to communicate information about expenses incurred by the major program and supporting services. A voluntary health and welfare organization could take such an approach instead of presenting the matrix of natural and functional expense classifications that would be required for a GAAP presentation, or, if information has been gathered for the Form 990 matrix required for such organizations, it could be presented either in the form of a separate statement or in a note to the financial statements.
- c. Instead of showing the amounts of, and changes in, the unrestricted and temporarily and permanently restricted classes of net assets, which would be required for a GAAP presentation, the income tax basis statement of financial position of a voluntary health and welfare organization could report total net assets or fund balances, the related statement of activities could report changes in those totals, and a note to the financial statements could provide information, using estimated or actual amounts or percentages, about the restrictions on those amounts and on any deferred restricted amounts, describe the major restrictions, and provide information about significant changes in restricted amounts.

[Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

.94 Presentations using OCBOA often include a presentation consisting entirely or mainly of cash receipts and disbursements. Such presentations need not conform with the requirements for a statement of cash flows that would be included in a GAAP presentation. While a statement of cash flows is not required, if a presentation of cash receipts and disbursements is presented in a format similar to a statement of cash flows or if the entity chooses to present such a statement, for example in a presentation on the accrual basis of accounting used for federal income tax reporting, the statement should either conform to the requirements for a GAAP presentation or communicate their substance. As an example, the statement of cash flows might disclose noncash acquisitions through captions on its face. [Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

.95 If GAAP would require disclosure of other matters, the auditor should consider the need for that same disclosure or disclosure that communicates the substance of those requirements. Some examples are contingent liabilities, going concern considerations, and significant risks and uncertainties. However, the disclosures need not include information that is not relevant to the basis of accounting. To illustrate, the general information about the use of estimates that is required to be disclosed in GAAP presentations by FASB ASC 275, *Risks and Uncertainties*, would not be relevant in a presentation that has no estimates, such as one based on cash receipts and disbursements. [Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

[Issue Date: January 1998; Revised: January 2005; Revised: June 2009.]

15. Auditor Reports on Regulatory Accounting or Presentation When the Regulated Entity Distributes the Financial Statements to Parties Other Than the Regulatory Agency Either Voluntarily or Upon Specific Request

.96 Question—Occasionally, certain state and local governmental entities, as well as other regulated entities, prepare their financial statements in conformity with the requirements or financial reporting provisions of a governmental regulatory agency. If the financial statements and report are intended for use by parties other than those within the entity and one or more regulatory agencies to whose jurisdiction the entity is subject or the financial statements and report are distributed by the entity to parties other than the regulatory agencies to whose jurisdiction the entity is subject, either voluntarily or upon specific request, what report should the auditor issue?

.97 Interpretation—Section 623.05f, footnote 4, states in part that the auditor is precluded from using the form of report set forth in section 623 "in circumstances in which the entity distributes the financial statements to parties other than the regulatory agency either voluntarily or upon specific request." Footnote 5 states further that the auditor should follow the guidance in section 544, *Lack of Conformity With Generally Accepted Accounting Principles*, if the financial statements and report are intended for use by parties other than those within the entity and one or more regulatory agencies to whose jurisdiction the entity is subject. Section 544 paragraph .04, in turn, states in those circumstances [referring to circumstances in which the financial statements and reports will be used by parties or distributed by the entity to parties other than the regulatory agencies to whose jurisdiction the entity is subject] the auditor should use the standard form of report modified as appropriate because of the departures from generally accepted accounting principles and then in an additional paragraph express an opinion on whether the financial statements are presented in conformity with the regulatory basis of accounting.

The following is an illustration of a report prepared on a regulatory basis of accounting prescribed by a regulatory agency, to whose jurisdiction an entity is subject, that requires a presentation of cash and unencumbered cash, cash receipts and disbursements, and budgetary comparisons and the financial statements are not prepared solely for filing with that agency:

Independent Auditor's Report

We have audited the accompanying statement of cash and unencumbered cash; cash receipts and disbursements; and disbursements—budget and actual for each fund of City of Example, Any State, as of and for the year ended June 30, 20XX. These financial statements are the responsibility of City's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described more fully in Note X, City has prepared these financial statements using accounting practices prescribed or permitted by [name of regulatory agency], which practices differ from accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of each fund of City as of June 30, 20XX, or changes in financial position or cash flows¹⁵ thereof for the year then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash balances of each fund of City as of June 30, 20XX, and their respective cash receipts and disbursements, and budgetary results for the year then ended, on the basis of accounting described in Note X.

[Signature]

[Date]

.98 If the auditor issues a report in accordance with section 623 paragraph .05(f), nothing precludes the auditor, in connection with establishing the terms of the engagement, from reaching an understanding with the client that the intended use of the report will be restricted, and from obtaining the client's agreement that the client and the specified parties will not distribute the report to parties other than those identified in the report.

[Issue Date: January 2005.]

¹⁵ Reference to cash flows would not be needed if the entity, under generally accepted accounting principles, is not required to present a statement of cash flows.

AU Section 625

Reports on the Application of Accounting Principles

Source: SAS No. 50; SAS No. 97.

See section 9625 for interpretations of this section.

Issue date, unless otherwise indicated: July, 1986.

Introduction

.01 There may be differing interpretations as to whether and, if so, how existing accounting principles apply to new transactions and financial products.¹ Management and others often consult with accountants on the application of accounting principles to those transactions and products, or to increase their knowledge of specific financial reporting issues.^[2] Such consultations often provide relevant information and insights not otherwise available. [As amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

.02 For purposes of this section, reporting accountant refers to an accountant in public practice³ who prepares a written report⁴ or provides oral advice on the application of accounting principles to specified transactions involving facts and circumstances of a specific entity, or the type of opinion that may be rendered on a specific entity's financial statements. Continuing accountant refers to an accountant who has been engaged to report on the financial statements of a specific entity.⁵ [Paragraph added, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

.03 This section provides guidance that a reporting accountant, either in connection with a proposal to obtain a new client or otherwise, should apply when preparing a written report on—

- a. The application of accounting principles to specified transactions, either completed or proposed, involving facts and circumstances of a specific entity ("specific transactions").
- b. The type of opinion that may be rendered on a specific entity's financial statements.

¹ Accounting principles include generally accepted accounting principles and other comprehensive bases of accounting. See section 623, *Special Reports*, paragraph .04 for a description of other comprehensive bases of accounting.

^[2] [Footnote deleted by the issuance of Statement on Auditing Standards No. 97, June 2002.]

³ See ET section 92.25 of the AICPA Code of Professional Conduct for a definition of "practice of public accounting."

⁴ Written report, for purposes of this section, includes any written communication that expresses a conclusion on the appropriate accounting principle(s) to be applied or the type of opinion that may be rendered on an entity's financial statements. [Footnote added, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

⁵ An accountant engaged by the entity to perform services other than reporting on the entity's financial statements is not considered to be a continuing accountant. [Footnote added, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

This section also applies to oral advice that the reporting accountant concludes is intended to be used by a principal to the transaction as an important factor considered in reaching a decision on the application of accounting principles to a specific transaction, or the type of opinion that may be rendered on a specific entity's financial statements. [Paragraph renumbered and amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

.04 Because of the nature of a transaction not involving facts or circumstances of a specific entity ("hypothetical transaction"), a reporting accountant cannot know, for example, whether the continuing accountant has reached a different conclusion on the application of accounting principles for the same or a similar transaction, or how the specific entity has accounted for similar transactions in the past. Therefore an accountant should not undertake an engagement to provide a written report on the application of accounting principles to a hypothetical transaction. [Paragraph added, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

.05 This section does not apply to a continuing accountant with respect to the specific entity whose financial statements he or she has been engaged to report on, to engagements either to assist in litigation involving accounting matters or to provide expert testimony in connection with such litigation, or to professional advice provided to another accountant in public practice. [Paragraph renumbered and amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

.06 This section also does not apply to communications such as position papers prepared by an accountant for the purpose of presenting views on an issue involving the application of accounting principles or the type of opinion that may be rendered. Position papers include newsletters, articles, speeches and texts thereof, lectures and other forms of public presentations, and letters for the public record to professional and governmental standard-setting bodies. However, if communications of the type discussed in this paragraph are intended to provide guidance on the application of accounting principles to a specific transaction, or on the type of opinion that may be rendered on a specific entity's financial statements, the provisions of this section should be followed. [Paragraph renumbered and amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

Performance Standards

.07 The reporting accountant should exercise due professional care in performing the engagement and should have adequate technical training and proficiency. The reporting accountant should also plan the engagement adequately, supervise the work of assistants, if any, and accumulate sufficient information to provide a reasonable basis for the professional judgment described in the report. The reporting accountant should consider the circumstances under which the written report or oral advice is requested, the purpose of the request, and the intended use of the written report or oral advice. [Paragraph renumbered and amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

.08 To aid in forming a judgment, the reporting accountant should perform the following procedures: (a) obtain an understanding of the form and substance of the transaction(s); (b) review applicable generally accepted accounting

principles; (c) if appropriate, consult with other professionals or experts; and (d) if appropriate, perform research or other procedures to ascertain and consider the existence of creditable precedents or analogies. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 97, June 2002. Revised, October 2009, to reflect conforming changes necessary due to the withdrawal of SAS No. 69.]

.09 When evaluating accounting principles that relate to a specific transaction or determining the type of opinion that may be rendered on a specific entity's financial statements, the reporting accountant should consult with the continuing accountant of the entity to ascertain all the available facts relevant to forming a professional judgment. The continuing accountant may provide information not otherwise available to the reporting accountant regarding, for example, the following: the form and substance of the transaction; how management has applied accounting principles to similar transactions; whether the method of accounting recommended by the continuing accountant is disputed by management; or whether the continuing accountant has reached a different conclusion on the application of accounting principles or the type of opinion that may be rendered on the entity's financial statements. The reporting accountant should explain to the entity's management the need to consult with the continuing accountant, request permission to do so, and request the entity's management to authorize the continuing accountant to respond fully to the reporting accountant's inquiries. The responsibilities of an entity's continuing accountant to respond to inquiries by the reporting accountant are the same as the responsibilities of a predecessor auditor to respond to inquiries by a successor auditor. See section 315, *Communications Between Predecessor and Successor Auditors*, paragraph .10. [Paragraph renumbered and amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

Reporting Standards

.10 The accountant's written report should be addressed to the requesting entity (for example, management or the board of directors of the entity), and should ordinarily include the following:⁶

- a. A brief description of the nature of the engagement and a statement that the engagement was performed in accordance with applicable AICPA standards.
- b. Identification of the specific entity, a description of the transaction(s), a statement of the relevant facts, circumstances, and assumptions, and a statement about the source of the information.
- c. A statement describing the appropriate accounting principle(s) (including the country of origin) to be applied or type of opinion that may be rendered on the entity's financial statements, and, if appropriate, a description of the reasons for the reporting accountant's conclusion.
- d. A statement that the responsibility for the proper accounting treatment rests with the preparers of the financial statements, who should consult with their continuing accountant.

⁶ Although the reporting standards in this section apply only to written reports, accountants may find this guidance useful in providing oral advice. [Footnote renumbered and amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

- e. A statement that any difference in the facts, circumstances, or assumptions presented may change the report.
- f. A separate paragraph at the end of the report that includes the following elements:⁷
 - A statement indicating that the report is intended solely for the information and use of the specified parties;
 - An identification of the specified parties to whom use is restricted; and
 - A statement that the report is not intended to be and should not be used by anyone other than the specified parties.

[Paragraph renumbered and amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

.11 The following is an illustration of sections of the report described in paragraph .10.

Introduction

We have been engaged to report on the appropriate application of accounting principles generally accepted in *[country of origin of such principles]* to the specific transaction described below. This report is being issued to ABC Company for assistance in evaluating accounting principles for the described specific transaction. Our engagement has been conducted in accordance with standards established by the American Institute of Certified Public Accountants.

Description of Transaction

The facts, circumstances, and assumptions relevant to the specific transaction as provided to us by the management of ABC Company are as follows:

Appropriate Accounting Principles

[Text discussing generally accepted accounting principles]

Concluding Comments

The ultimate responsibility for the decision on the appropriate application of accounting principles generally accepted in *[country of origin of such principles]* for an actual transaction rests with the preparers of financial statements, who should consult with their continuing accountant. Our judgment on the appropriate application of accounting principles generally accepted in *[country of origin of such principles]* for the described specific transaction is based solely on the facts provided to us as described above; should these facts and circumstances differ, our conclusion may change.

Restricted Use

This report is intended solely for the information and use of the board of directors and management of ABC Company and is not intended to be and should not be used by anyone other than these specified parties.

[Paragraph renumbered and amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

⁷ See section 532, *Restricting the Use of an Auditor's Report*. Although restricted, this is not intended to preclude distribution of the report to the continuing accountant. [Footnote added, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

AU Section 9625

Reports on the Application of Accounting Principles: Auditing Interpretations of Section 625

1. Requirement to Consult With the Continuing Accountant

.01 Question—Section 625, *Reports on the Application of Accounting Principles*, provides guidance to a reporting accountant when asked to provide a written report or oral advice on (a) the application of accounting principles to specified transactions, either completed or proposed, involving facts and circumstances of a specific entity or (b) the type of opinion that may be rendered on a specific entity's financial statements.

.02 Section 625 paragraph .02 refers to a reporting accountant as an accountant in public practice. Footnote 3 to that paragraph states: "See ET section 92.25 of the AICPA Code of Professional Conduct for a definition of 'practice of public accounting.'"

.03 Section 625 paragraph .09 states in part:

When evaluating accounting principles that relate to a specific transaction or determining the type of opinion that may be rendered on a specific entity's financial statements, the reporting accountant should consult with the continuing accountant of the entity to ascertain all the available facts relevant to forming a professional judgment. The continuing accountant may provide information not otherwise available to the reporting accountant regarding, for example, the following: the form and substance of the transaction; how management has applied accounting principles to similar transactions; whether the method of accounting recommended by the continuing accountant is disputed by management; or whether the continuing accountant has reached a different conclusion on the application of accounting principles or the type of opinion that may be rendered on the entity's financial statements.

.04 In today's environment, primarily driven by independence concerns, a nonissuer may engage an accountant in public practice (or his or her firm), other than the entity's independent auditor, as an advisory accountant¹ to assist management in certain recurring accounting or reporting functions (for example, bookkeeping or assistance in preparing financial statements or notes, performing fair value impairment tests, or assistance in preparing regulatory filings). In this capacity, an advisory accountant may be frequently asked to provide advice on the application of accounting principles or to assist management to formulate its accounting positions prior to discussing such positions with its auditor. In these situations, an advisory accountant is not engaged to provide a second opinion and would generally be in a position to have full access to management and have full knowledge of the form and substance of the transaction, how management has applied similar transactions in the past, and whether this method of accounting has been discussed with the continuing auditor.

¹ The term *advisory accountant* is used in this interpretation rather than the term "reporting accountant" to distinguish the fact that an accountant in this capacity is not engaged to provide a second opinion and is typically engaged to provide accounting and reporting advice on a recurring basis.

.05 When an accountant in public practice, acting in the capacity of an advisory accountant, has been engaged by a nonissuer to assist management with recurring accounting matters and is asked to provide advice (not a second opinion) on the application of accounting principles to specified transactions, either completed or proposed, based on the specific facts and circumstances of the client, and the advisory accountant has full access to management and full knowledge of the form and substance of the transaction, is he or she still required to consult with the continuing accountant?

.06 *Answer*—Section 625 was issued to provide guidance to a reporting accountant when engaged to provide a "second opinion" on the application of accounting principles to a specific transaction or transactions. In those cases, the reporting accountant may not have been provided all the relevant facts by management or he or she may not have full knowledge of the form and substance of the transaction in order to form a "second opinion." To help eliminate this issue, section 625 states that the reporting accountant should consult with the continuing accountant so the continuing accountant has an opportunity to convey relevant facts and circumstances that the reporting accountant may not have.

.07 An advisory accountant may be able to overcome the presumptive requirement² of section 625 paragraph .09 to consult with the continuing accountant when he or she believes, due to the facts and circumstances of the engagement, that he or she is not being asked to provide a second opinion and that he or she has obtained all relevant information from management to provide written or oral guidance regarding the application of accounting principles to that client's specified transactions.

.08 An important distinction to consider in overcoming the presumptive requirement to consult with the continuing accountant is the nature of the engagement and whether the services are recurring as contrasted to periodic. A recurring engagement may constitute the effective outsourcing of certain controllership or other financial reporting functions that would typically not be indicative of opinion shopping and would typically allow the advisory accountant to have complete access to management. A member in public practice engaged in the capacity of an advisory accountant nonetheless should be alert to any instances in which the nonissuer attempts to use the advisory accountant to "opinion shop." The advisory accountant should establish an understanding with the client that includes the substance of section 625 paragraph .10(d)³ and that the client, along with the advisory accountant will notify the continuing accountant and members of any governance body (such as audit committee) of the arrangement.

.09 The advisory accountant should document his or her conclusion that consultation with the continuing accountant was not considered necessary under the circumstances. Additionally, the advisory accountant should comply with the other requirements of section 625, including section 625 paragraph .08, which requires the accountant to (a) obtain an understanding of the form and substance of the transaction(s); (b) review applicable generally accepted

² The ability to overcome this presumption would apply only to the application of accounting principles. If the advisory accountant was asked to provide oral advice or a written report on the type of opinion that may be rendered by the continuing accountant, the advisory accountant would not have the ability to obtain all relevant information and, therefore, the requirements of section 625 paragraph .09 to consult with the continuing accountant would apply.

³ The advisory accountant's understanding would include a statement that the responsibility for the proper accounting treatment rests with management, who should consult with their continuing accountant.

accounting principles; (c) if appropriate, consult with other professionals or experts; and (d) if appropriate, perform research or other procedures to ascertain and consider the existence of creditable precedents or analogies.

[Issue Date: January, 2005.]

AU Section 634

Letters for Underwriters and Certain Other Requesting Parties

(Supersedes SAS No. 49.)

Source: SAS No. 72; SAS No. 76; SAS No. 86.

See section 9634 for interpretations of this section.

Effective for comfort letters issued on or after June 30, 1993, unless otherwise indicated.

Introduction

.01 This section^[1] provides guidance to accountants for performing and reporting on the results of engagements to issue letters for underwriters and certain other requesting parties described in and meeting the requirements of paragraph .03, .04, or .05 (commonly referred to as "comfort letters") in connection with financial statements and financial statement schedules contained in registration statements filed with the Securities and Exchange Commission (SEC) under the Securities Act of 1933 (the act) and other securities offerings. In paragraph .09, this section also provides guidance to accountants for performing and reporting on the results of engagements to issue letters for certain requesting parties, other than underwriters or other parties with a due diligence defense under Section 11 of the act, that are described in, but do not meet the requirements of, paragraph .03, .04, or .05. [As amended, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

.02 The service of accountants providing letters for underwriters developed following enactment of the act. Section 11 of the act provides that underwriters, among others, could be liable if any part of a registration statement contains material omissions or misstatements. The act also provides for an affirmative defense for underwriters if it can be demonstrated that, after a reasonable investigation, the underwriter has reasonable grounds to believe that there were no material omissions or misstatements. Consequently, underwriters request accountants to assist them in developing a record of reasonable investigation. An accountant issuing a comfort letter is one of a number of procedures that may be used to establish that an underwriter has conducted a reasonable investigation.

Applicability

.03 Accountants may provide a comfort letter to underwriters,² or to other parties with a statutory due diligence defense under Section 11 of the act, in connection with financial statements and financial statement schedules included

^[1] [Footnote deleted by the issuance of Statement on Auditing Standards No. 76, September 1995.]

² The term *underwriter* is defined in Section 2 of the act as "any person who has purchased from an issuer with a view to, or offers or sells for an issuer in connection with, the distribution of any security, or participates or has a participation in the direct or indirect participation in any such

(continued)

(incorporated by reference) in registration statements filed with the SEC under the act. A comfort letter may be addressed to parties with a statutory due diligence defense under Section 11 of the act, other than a named underwriter, only when a law firm or attorney for the requesting party issues a written opinion to the accountants that states that such party has a due diligence defense under Section 11 of the act.³ An attorney's letter indicating that a party "may" be deemed to be an underwriter or has liability substantially equivalent to that of an underwriter under the securities laws would not meet this requirement. If the requesting party, in a securities offering registered pursuant to the act, other than a named underwriter (such as a selling shareholder or sales agent) cannot provide such a letter, he or she must provide the representation letter described in paragraphs .06–.07 for the accountants to provide them with a comfort letter.

.04 Accountants may also issue a comfort letter to a broker-dealer or other financial intermediary, acting as principal or agent in an offering or a placement of securities, in connection with the following types of securities offerings:

- Foreign offerings, including Regulation S, Eurodollar, and other off-shore offerings
- Transactions that are exempt from the registration requirements of Section 5 of the act, including those pursuant to Regulation A, Regulation D, and Rule 144A
- Offerings of securities issued or backed by governmental, municipal, banking, tax-exempt, or other entities that are exempt from registration under the act

In these situations the accountants may provide a comfort letter to a broker-dealer or other financial intermediary in connection with a securities offering only if the broker-dealer or other financial intermediary provides in writing the representations described in paragraphs .06–.07.

.05 Accountants may also issue a comfort letter in connection with acquisition transactions (for example, cross-comfort letters in a typical Form S-4 or merger proxy situation) in which there is an exchange of stock and such comfort letters are requested by the buyer or seller, or both, as long as the representation letter described in paragraphs .06–.07 is provided. An accountants' report on a preliminary investigation in connection with a proposed transaction (for example, a merger, an acquisition, or a financing) is not covered by this section; accountants should refer to the guidance in AT section 201, *Agreed-Upon Procedures Engagements*. [Revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

.06 The required elements of the representation letter from a broker-dealer or other financial intermediary, or of other requesting parties described in paragraphs .03 and .05, are as follows:

(footnote continued)

undertaking or participates in the direct or indirect underwriting of any such undertaking; but such term shall not include a person whose interest is limited to a commission from an underwriter or dealer not in excess of the usual and customary distributors' or sellers' commission. As used in this paragraph, the term *issuer* shall include, in addition to an issuer, any person directly or indirectly controlling or controlled by the issuer, or any person under direct or indirect common control with the issuer."

³ This section is not intended to preclude accountants from providing to the client's board of directors, when appropriate, a letter addressed to the board of directors similar in content to a comfort letter. See Interpretation No. 1, "Letters to Directors Relating to Annual Reports on Form 10-K", of section 634 (sec. 9634 par. .01-.09).

- The letter should be addressed to the accountants.
- The letter should contain the following:

"This review process, applied to the information relating to the issuer, is (will be) substantially consistent⁴ with the due diligence review process that we would perform if this placement of securities (or issuance of securities in an acquisition transaction) were being registered pursuant to the Securities Act of 1933 (the act). We are knowledgeable with respect to the due diligence review process that would be performed if this placement of securities were being registered pursuant to the act."⁵

- The letter should be signed by the requesting party.

.07 An example of a letter, setting forth the required elements specified in paragraph .06, from a party requesting a comfort letter follows:

[Date]

Dear ABC Accountants:

[Name of financial intermediary], as principal or agent, in the placement of [identify securities] to be issued by [name of issuer], will be reviewing certain information relating to [issuer] that will be included (incorporated by reference) in the document [if appropriate, the document should be identified], which may be delivered to investors and utilized by them as a basis for their investment decision. This review process, applied to the information relating to the issuer, is (will be) substantially consistent with the due diligence review process that we would perform if this placement of securities⁶ were being registered pursuant to the Securities Act of 1933 (the act). We are knowledgeable with respect to the due diligence review process that would be performed if this placement of securities were being registered pursuant to the act. We hereby request that you deliver to us a "comfort" letter concerning the financial statements of the issuer and certain statistical and other data included in the offering document. We will contact you to identify the procedures we wish you to follow and the form we wish the comfort letter to take.

Very truly yours,

[Name of Financial Intermediary]

.08 When one of the parties identified in paragraphs .03, .04, and .05 requests a comfort letter and has provided the accountants with the representation letter described above, the accountants should refer in the comfort letter to the requesting party's representations (see example P [paragraph .64]).

⁴ It is recognized that what is "substantially consistent" may vary from situation to situation and may not be the same as that done in a registered offering of the same securities for the same issuer; whether the procedures being, or to be, followed will be "substantially consistent" will be determined by the requesting party on a case-by-case basis.

⁵ If a nonunderwriter requests a comfort letter in connection with a securities offering pursuant to the act, the wording of the representation letter should be revised as follows:

"This review process . . . is substantially consistent with the due diligence review process that an underwriter would perform in connection with this placement of securities. We are knowledgeable with respect to the due diligence review process that an underwriter would perform in connection with a placement of securities registered pursuant to the Securities Act of 1933."

⁶ In an acquisition of securities, this sentence could be reworded to refer to "issuance of securities." See paragraph .05.

.09 When one of the parties identified in paragraphs .03, .04, or .05, other than an underwriter or other party with a due diligence defense under Section 11 of the act, requests a comfort letter but does not provide the representation letter described in paragraphs .06–.07, accountants should not provide a comfort letter but may provide another form of letter. In such a letter, the accountants should not provide negative assurance on the financial statements as a whole, or on any of the specified elements, accounts, or items thereof. The other guidance in this section is applicable to performing procedures in connection with a letter and on the form of the letter (see paragraphs .36–.43 and .54–.60). example Q in the appendix [paragraph .64] provides an example of a letter issued in such a situation. Any such letter should include the following statements:

- a. It should be understood that we have no responsibility for establishing (and did not establish) the scope and nature of the procedures enumerated in the paragraphs above; rather, the procedures enumerated therein are those the requesting party asked us to perform. Accordingly, we make no representations regarding questions of legal interpretation⁷ or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraphs; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages listed above as set forth in the offering circular. Further, we have addressed ourselves solely to the foregoing data and make no representations regarding the adequacy of disclosures or whether any material facts have been omitted. This letter relates only to the financial statement items specified above and does not extend to any financial statement of the company taken as a whole.
- b. The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Had we performed additional procedures or had we conducted an audit or a review of the company's [*give dates of any interim financial statements*] consolidated financial statements in accordance with standards established by the American Institute of Certified Public Accountants, other matters might have come to our attention that would have been reported to you.
- c. These procedures should not be taken to supplant any additional inquiries or procedures that you would undertake in your consideration of the proposed offering.
- d. This letter is solely for your information and to assist you in your inquiries in connection with the offering of the securities covered by the offering circular, and it is not to be used, circulated, quoted, or otherwise referred to for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the offering document or any other document, except that reference may be made to it in any list of closing documents pertaining to the offering of the securities covered by the offering document.

⁷ If this letter is requested in connection with a secured debt offering, the accountants should also refer to the Interpretation No. 2, "Responding to Requests for Reports on Matters Relating to Solvency," of AT section 101 (AT sec. 9101 par. .23–.33) for inclusion of additional statements. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

- e. We have no responsibility to update this letter for events and circumstances occurring after [*cutoff date*].

[As amended, effective for letters issued pursuant to this paragraph after April 30, 1996, by Statement on Auditing Standards No. 76.]

.10 When a party other than those described in paragraphs .03, .04, or .05 requests a comfort letter, the accountants should not provide that party with a comfort letter or the letter described in paragraph .09 or example Q [paragraph .64]. The accountants may instead provide that party with a report on agreed-upon procedures and should refer to AT section 201, *Agreed-Upon Procedures Engagements*, for guidance. [Paragraph added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76. Revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

General

.11 The services of independent accountants include audits of financial statements and financial statement schedules included (incorporated by reference) in registration statements filed with the SEC under the act. In connection with this type of service, accountants are often called upon to confer with clients, underwriters, and their respective counsel concerning the accounting and auditing requirements of the act and the SEC and to perform other services. One of these other services is the issuance of letters for underwriters, which generally address the subjects described in paragraph .22. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.12 Much of the uncertainty, and consequent risk of misunderstanding, with regard to the nature and scope of comfort letters has arisen from a lack of recognition of the necessarily limited nature of the comments that accountants can properly make with respect to financial information, in a registration statement or other offering document (hereafter referred to as a registration statement), that has not been audited in accordance with generally accepted auditing standards and, accordingly, is not covered by their opinion. In requesting comfort letters, underwriters are generally seeking assistance on matters of importance to them. They wish to perform a "reasonable investigation" of financial and accounting data not "expertized"⁸ (that is, covered by a report of independent accountants, who consent to be named as experts, based on an audit performed in accordance with generally accepted auditing standards) as a defense against possible claims under section 11 of the act.⁹ What constitutes a reasonable investigation of unaudited financial information sufficient to satisfy an underwriter's purposes has never been authoritatively established. Consequently, only the underwriter can determine what is sufficient for his or her purposes. Accountants will normally be willing to

⁸ See the Interpretation No. 2, "Consenting to Be Named as an Expert in an Offering Document in Connection With Securities Offerings Other Than Those Registered Under the Securities Act of 1933," of section 711, *Filings Under Federal Securities Statutes* (AT sec. 9711 par. .12-.15). [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

⁹ See section 711 for a discussion of certain responsibilities of accountants that result from the inclusion of their reports in registration statements. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

assist the underwriter, but the assistance accountants can provide by way of comfort letters is subject to limitations. One limitation is that independent accountants can properly comment in their professional capacity only on matters to which their professional expertise is substantially relevant. Another limitation is that procedures short of an audit, such as those contemplated in a comfort letter, provide the accountants with a basis for expressing, at the most, negative assurance.¹⁰ Such limited procedures may bring to the accountants' attention significant matters affecting the financial information, but they do not provide assurance that the accountants will become aware of any or all significant matters that would be disclosed in an audit. Accordingly, there is necessarily a risk that the accountants may have provided negative assurance of the absence of conditions or matters that may prove to have existed. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.13 This section deals with several different kinds of matters. First, it addresses whether, in a number of areas involving professional standards, it is proper for independent accountants, acting in their professional capacity, to comment in a comfort letter on specified matters, and, if so, the form such a comment should take. Second, practical suggestions are offered on which form of comfort letter is suitable in a given circumstance, procedural matters, the dating of letters, and what steps may be taken when information that may require special mention in a letter comes to the accountants' attention.¹¹ Third, it suggests ways of reducing or avoiding the uncertainties, described in the preceding paragraph, regarding the nature and extent of accountants' responsibilities in connection with a comfort letter. Accountants who have been requested to follow a course other than what has been recommended, with regard to points not involving professional standards, would do well to consult their legal counsel. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.14 Comfort letters are not required under the act, and copies are not filed with the SEC. It is nonetheless a common condition of an underwriting agreement in connection with the offering for sale of securities registered with the SEC under the act that the accountants are to furnish a comfort letter. Some underwriters do not make the receipt of a comfort letter a condition of the underwriting agreement or purchase agreement (hereafter referred to as the underwriting agreement) but nevertheless ask for such a letter.¹²

¹⁰ Negative assurance consists of a statement by accountants that, as a result of performing specified procedures, nothing came to their attention that caused them to believe that specified matters do not meet a specified standard (for example, that nothing came to their attention that caused them to believe that any material modifications should be made to the unaudited financial statements or unaudited condensed financial statements for them to be in conformity with generally accepted accounting principles). [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

¹¹ It is important to note that although the illustrations in this section describe procedures that may be followed by accountants as a basis for their comments in comfort letters, this section does not necessarily prescribe such procedures. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

¹² Except when the context otherwise requires, the word underwriter (or certain other requesting parties, as described in paragraphs .03, .04, and .05), as used in this section refers to the managing, or lead, underwriter, who typically negotiates the underwriting agreement for a group of underwriters whose exact composition is not determined until shortly before a registration statement becomes effective. In competitive bidding situations in which legal counsel for the underwriters acts as the underwriters' representative prior to opening and acceptance of the bid, the accountants should carry out the discussions and other communications contemplated by this section with the legal counsel until the underwriter is selected. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.15 The accountants should suggest to the underwriter that they meet together with the client to discuss the procedures to be followed in connection with a comfort letter; during this meeting, the accountants may describe procedures that are frequently followed (see the examples in the appendix [paragraph .64]). Because of the accountants' knowledge of the client, such a meeting may substantially assist the underwriter in reaching a decision about procedures to be followed by the accountants. However, any discussion of procedures should be accompanied by a clear statement that the accountants cannot furnish any assurance regarding the sufficiency of the procedures for the underwriter's purposes, and the appropriate way of expressing this is shown in paragraph 4 of example A [paragraph .64]. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.16 Because the underwriter will expect the accountants to furnish a comfort letter of a scope to be specified in the underwriting agreement, a draft of that agreement should be furnished to the accountants so that they can indicate whether they will be able to furnish a letter in acceptable form. It is desirable practice for the accountants, promptly after they have received the draft of the agreement (or have been informed that a letter covering specified matters, although not a condition of the agreement, will nonetheless be requested), to prepare a draft of the form of the letter they expect to furnish. To the extent possible, the draft should deal with all matters to be covered in the final letter and should use exactly the same terms as those to be used in the final letter (subject, of course, to the understanding that the comments in the final letter cannot be determined until the procedures underlying it have been performed). The draft letter should be identified as a draft to avoid giving the impression that the procedures described therein have been performed. This practice of furnishing a draft letter at an early point permits the accountants to make clear to the client and the underwriter what they may expect the accountants to furnish. Thus furnished with a draft letter, the underwriter is afforded the opportunity to discuss further with the accountants the procedures that the accountants have indicated they expect to follow and to request any additional procedures that the underwriter may desire. If the additional procedures pertain to matters relevant to the accountants' professional competence, the accountants would ordinarily be willing to perform them, and it is desirable for them to furnish the underwriter with an appropriately revised draft letter. The accountants may reasonably assume that the underwriter, by indicating his or her acceptance of the draft comfort letter, and subsequently, by accepting the letter in final form, considers the procedures described sufficient for his or her purposes. It is important, therefore, that the procedures¹³ to be followed by the accountants be clearly set out in the comfort letter, in both draft and final form, so that there will be no misunderstanding about the basis on which the accountants' comments have been made and so that the underwriter can decide whether the procedures performed are sufficient for his or her purposes. For reasons explained in paragraph .12, statements or implications that the accountants are carrying out such procedures as they consider necessary should be avoided, since this may lead to misunderstanding about the responsibility

¹³ When the accountants have been requested to provide negative assurance on interim financial information or capsule financial information and the procedures required for an SAS No. 100 (section 722) review have been performed, those procedures need not be specified. See paragraphs .37–.41. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote revised, January 2006, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 100.]

for the sufficiency of the procedures for the underwriter's purposes. The following is a suggested form of legend that may be placed on the draft letter for identification and explanation of its purposes and limitations.

This draft is furnished solely for the purpose of indicating the form of letter that we would expect to be able to furnish [*name of underwriter*] in response to their request, the matters expected to be covered in the letter, and the nature of the procedures that we would expect to carry out with respect to such matters. Based on our discussions with [*name of underwriter*], it is our understanding that the procedures outlined in this draft letter are those they wish us to follow.¹⁴ Unless [*name of underwriter*] informs us otherwise, we shall assume that there are no additional procedures they wish us to follow. The text of the letter itself will depend, of course, on the results of the procedures, which we would not expect to complete until shortly before the letter is given and in no event before the cutoff date indicated therein.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.17 Comfort letters are occasionally requested from more than one accountant (for example, in connection with registration statements to be used in the subsequent sale of shares issued in recently effected mergers and from predecessor auditors). At the earliest practicable date, the client should advise any other accountants who may be involved about any letter that may be required from them and should arrange for them to receive a draft of the underwriting agreement so that they may make arrangements at an early date for the preparation of a draft of their letter (a copy of which should be furnished to the principal accountants) and for the performance of their procedures. In addition, the underwriter may wish to meet with the other accountants for the purposes discussed in paragraph .15. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.18 There may be situations in which more than one accountant is involved in the audit of the financial statements of a business and in which the reports of more than one accountant appear in the registration statement. For example, certain significant divisions, branches, or subsidiaries may be audited by other accountants. The principal accountants (that is, those who report on the consolidated financial statements and, consequently, are asked to give a comfort letter with regard to information expressed on a consolidated basis) should read the letters of the other accountants reporting on significant units. Such letters should contain statements similar to those contained in the comfort letter prepared by the principal accountants, including statements about their independence. The principal accountants should state in their comfort letters that (a) reading letters of the other accountants was one of the procedures followed, and (b) the procedures performed by the principal accountants (other than reading the letters of the other accountants) relate solely to companies audited by the principal accountants and to the consolidated financial statements. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.19 Regulations under the act permit companies, in certain circumstances, to register a designated amount of securities for continuous or delayed offerings

¹⁴ In the absence of any discussions with the underwriter, the accountants should outline in the draft letter those procedures specified in the underwriting agreement that they are willing to perform. In that event, the sentence to which this footnote refers should be revised as follows: "In the absence of any discussions with [*name of underwriter*], we have set out in this draft letter those procedures referred to in the draft underwriting agreement (of which we have been furnished a copy) that we are willing to follow." [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

during an extended period by filing one "shelf" registration statement. At the effective date of a shelf registration statement, the registrant may not have selected an underwriter (see footnote 12). A client or the legal counsel designated to represent the underwriting group might, however, ask the accountants to issue a comfort letter at the effective date of a shelf registration statement to expedite the due diligence activities of the underwriter when he or she is subsequently designated and to avoid later corrections of financial information included in an effective prospectus. However, as stated in paragraph .12, only the underwriter can determine the procedures that will be sufficient for his or her purposes. Under these circumstances, therefore, the accountants should not agree to furnish a comfort letter addressed to the client, legal counsel or a nonspecific addressee such as "any or all underwriters to be selected." The accountants may agree to furnish the client or legal counsel for the underwriting group with a draft comfort letter describing the procedures that the accountants have performed and the comments the accountants are willing to express as a result of those procedures. The draft comfort letter should include a legend, such as the following, describing the letter's purpose and limitations:

This draft describes the procedures that we have performed and represents a letter we would be prepared to sign as of the effective date of the registration statement if the managing underwriter had been chosen at that date and requested such a letter. Based on our discussions with [name of client or legal counsel], the procedures set forth are similar to those that experience indicates underwriters often request in such circumstances. The text of the final letter will depend, of course, on whether the managing underwriter who is selected requests that other procedures be performed to meet his or her needs and whether the managing underwriter requests that any of the procedures be updated to the date of issuance of the signed letter.

A signed comfort letter may be issued to the underwriter selected for the portion of the issue then being offered when the underwriting agreement for an offering is signed and on each closing date. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.20 Accountants, when issuing a letter under the guidance provided in this section, may not issue any additional letters or reports, under any other section, to the underwriter or the other requesting parties identified in paragraphs .03, .04, and .05 (hereinafter referred to as the underwriter) in connection with the offering or placement of securities, in which the accountants comment on items for which commenting is otherwise precluded by this section. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. As amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

.21 While the guidance in this section generally addresses comfort letters issued in connection with securities offerings registered pursuant to the act, it also provides guidance on comfort letters issued in other securities transactions. However, the guidance that specifically refers to compliance of the information commented on with SEC rules and regulations, such as compliance with Regulation S-X¹⁵ or S-K,¹⁶ generally applies only to comfort letters issued

¹⁵ Regulation S-X, "Form and Content of and Requirements for Financial Statements, Securities Act of 1933, Securities Exchange Act of 1934, Public Utility Holding Company Act of 1935, Investment Company Act of 1940, and Energy Policy and Conservation Act of 1975." [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

¹⁶ Regulation S-K, "Standard Instructions for Filing Forms Under Securities Act of 1933, Securities Exchange Act of 1934 and Energy Policy and Conservation Act of 1975." [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

in connection with securities offerings registered pursuant to the act. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Guidance on the Format and Contents of Comfort Letters

.22 This section (paragraphs .22–.62) provides guidance on the format and possible contents of a typical comfort letter. It addresses how the comfort letter should be dated, to whom it may be addressed, and the contents of the introductory paragraph of the comfort letter. Further, it addresses the subjects that may be covered in a comfort letter:

- a. The independence of the accountants (paragraphs .31 and .32)
- b. Whether the audited financial statements and financial statement schedules included (incorporated by reference) in the registration statement comply as to form in all material respects with the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC (paragraphs .33 and .34)
- c. Unaudited financial statements, condensed interim financial information, capsule financial information, pro forma financial information, financial forecasts, management's discussion and analysis (MD&A), and changes in selected financial statement items during a period subsequent to the date and period of the latest financial statements included (incorporated by reference) in the registration statement (paragraphs .29 and .35–.53)
- d. Tables, statistics, and other financial information included (incorporated by reference) in the registration statement (paragraphs .54–.62)
- e. Negative assurance as to whether certain nonfinancial statement information, included (incorporated by reference) in the registration statement complies as to form in all material respects with Regulation S-K (paragraph .57)

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. As amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

Dating

.23 The letter ordinarily is dated on or shortly before the effective date (that is, the date on which the registration statement becomes effective). On rare occasions, letters have been requested to be dated at or shortly before the filing date (that is, the date on which the registration statement is first filed with the SEC). The underwriting agreement ordinarily specifies the date, often referred to as the "cutoff date," to which certain procedures described in the letter are to relate (for example, a date five days before the date of the letter). The letter should state that the inquiries and other procedures described in the letter did not cover the period from the cutoff date to the date of the letter. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.24 An additional letter may also be dated at or shortly before the closing date (that is, the date on which the issuer or selling security holder delivers the securities to the underwriter in exchange for the proceeds of the offering). If more than one letter is requested, it will be necessary to carry out the specified procedures and inquiries as of the cutoff date for each letter. Although comments

contained in an earlier letter may, on occasion, be incorporated by reference in a subsequent letter (see example C [paragraph .64]), any subsequent letter should relate only to information in the registration statement as most recently amended. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Addressee

.25 The letter should not be addressed or given to any parties other than the client and the named underwriters,¹⁷ broker-dealer, financial intermediary or buyer or seller. The appropriate addressee is the intermediary who has negotiated the agreement with the client, and with whom the accountants will deal in discussions regarding the scope and sufficiency of the letter. When a comfort letter is furnished to other accountants, it should be addressed in accordance with the guidance in this paragraph and copies should be furnished to the principal accountants and their client. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Introductory Paragraph

.26 It is desirable to include an introductory paragraph similar to the following:

We have audited the [*identify the financial statements and financial statement schedules*] included (incorporated by reference) in the registration statement (no. 33-00000) on Form _____ filed by the company under the Securities Act of 1933 (the act); our reports with respect thereto are also included (incorporated by reference) in that registration statement. The registration statement, as amended as of _____, is herein referred to as the registration statement.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.27 When the report on the audited financial statements and financial statement schedules included (incorporated by reference) in the registration statement departs from the standard report, for instance, where one or more explanatory paragraphs or a paragraph to emphasize a matter regarding the financial statements have been added to the report, the accountants should refer¹⁸ to that fact in the comfort letter and discuss the subject matter of the paragraph.¹⁹ In those rare instances in which the SEC accepts a qualified opinion on historical financial statements, the accountants should refer to the qualification in the opening paragraph of the comfort letter and discuss the subject matter of the qualification. (See also paragraph .35*f*.) [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

¹⁷ An example of an appropriate form of address for this purpose is "The Blank Company and XYZ & Company, as Representative of the Several Underwriters." [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

¹⁸ The accountants may also refer in the opening paragraph to expansions of their report that do not affect their opinion on the basic financial statements, for example, expansions of their report regarding (a) interim financial information accompanying or included in the notes to audited financial statements (see section 722 paragraph .50) or (b) required supplementary information described in section 558, *Required Supplementary Information*, paragraphs .08–.11. See paragraph .30 of this section. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote revised, September 2002, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 98. Footnote revised, November 2002, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 100.]

¹⁹ The accountants need not refer to or discuss explanatory paragraphs covering consistency of application of accounting principles. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.28 The underwriter occasionally requests the accountants to repeat in the comfort letter their report on the audited financial statements included (incorporated by reference) in the registration statement. Because of the special significance of the date of the accountants' report, the accountants should not repeat their opinion.²⁰ The underwriter sometimes requests negative assurance regarding the accountants' report. Because accountants have a statutory responsibility with respect to their opinion as of the effective date of a registration statement, and because the additional significance, if any, of negative assurance is unclear and such assurance may therefore give rise to misunderstanding, accountants should not give such negative assurance. Furthermore, the accountants should not give negative assurance with respect to financial statements and financial statement schedules that have been audited and are reported on in the registration statement by other accountants. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.29 The accountants may refer in the introductory paragraphs of the comfort letter to the fact that they have issued reports on—²¹

- a. Condensed financial statements that are derived from audited financial statements (see section 552, *Reporting on Condensed Financial Statements and Selected Financial Data*).
- b. Selected financial data (see section 552).
- c. Interim financial information (see section 722).
- d. Pro forma financial information (see AT section 401, *Reporting on Pro Forma Financial Information*).
- e. A financial forecast (see AT section 301, *Financial Forecasts and Projections*).
- f. Management's discussion and analysis (see AT section 701, *Management's Discussion and Analysis*).

Such a reference should be to the accountants' reports that were previously issued, and if the reports are not included (incorporated by reference) in the registration statement, they may be attached to the comfort letter.²² In referring to previously issued reports, the accountants should not repeat their reports in the comfort letter or otherwise imply that they are reporting as of the date of the comfort letter or that they assume responsibility for the sufficiency of the procedures for the underwriter's purposes. However, for certain information on which they have reported, the accountants may agree to comment regarding compliance with rules and regulations adopted by the SEC (see paragraphs .33 and .34). Accountants should not mention in a comfort letter reports issued in accordance with section 325, *Communicating Internal Control Related Matters Identified in an Audit*, or any restricted use reports issued to a client in connection with procedures performed on the client's internal control in accordance with AT section 501A, *Reporting on an Entity's Internal Control Over*

²⁰ See section 530, *Dating of the Independent Auditor's Report*, paragraphs .03–.08. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

²¹ Except for a review report on management's discussion and analysis (MD&A), the accountants should not refer to or attach to the comfort letter any restricted use report, such as a report on agreed-upon procedures. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. As amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

²² When the accountant does not perform a review or an examination of MD&A or does not attach or refer to a report on MD&A, the accountant may perform agreed-upon procedures with respect to items in MD&A, subject to controls over financial reporting (see paragraph .55). [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

Financial Reporting. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. As amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86. Revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10. Revised, May 2006, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 112.]

.30 An underwriter may also request that the accountants comment in their comfort letter on (a) unaudited interim financial information required by item 302(a) of Regulation S-K, to which section 722 pertains or (b) required supplementary information, to which section 558, *Required Supplementary Information*, pertains. Section 558, and in certain instances section 722, provide that the accountant should expand the standard report on the audited financial statements to refer to such information. Such expansions of the accountants' standard report in the registration statement would ordinarily be referred to in the opening paragraph of the comfort letter (see also paragraph .35f). Additional comments on such unaudited information are therefore unnecessary. However, if the underwriter requests that the accountants perform procedures with regard to such information in addition to those performed in connection with their review or audit as prescribed by sections 722 and 558, the accountants may do so and report their findings. [Paragraph renumbered, September 1995, by the issuance of SAS No. 76. Revised, December 2010, to reflect conforming changes necessary due to the issuance of SAS Nos. 118–120.]

Independence

.31 It is customary in conjunction with SEC filings for the underwriting agreement to provide for the accountants to make a statement in the letter concerning their independence. This may be done substantially as follows:

We are independent certified public accountants with respect to The Blank Company, Inc., within the meaning of the act and the applicable rules and regulations thereunder adopted by the SEC.

Regulation S-K requires disclosure in the prospectus and registration statement of interests of named experts (including independent accountants) in the registrant. Regulation S-X precludes accountants who report on financial statements included (incorporated by reference) in a registration statement from having interests of the type requiring disclosure in the prospectus or registration statement. Therefore, if the accountants make a statement in a comfort letter that they are independent within the meaning of the act and the applicable rules and regulations thereunder adopted by the SEC, any additional comments on independence would be unnecessary.^{22a} In a non-SEC filing, the accountants may refer to the AICPA's *Code of Professional Conduct* (ET section 101). This may be done substantially as follows:

We are independent certified public accountants with respect to The Blank Company, Inc., under rule 101 of the AICPA's *Code of Professional Conduct* and its interpretations and rulings.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

^{22a} The SEC, in Financial Reporting Release No. 50 dated February 18, 1998, recognized the establishment of the Independence Standards Board (ISB) and indicated that the SEC intends to look to the ISB as the private sector body responsible for establishing independence standards and interpretations for auditors of public entities. [Footnote added, June 1999, to acknowledge the SEC's recognition of the ISB.]

.32 When comfort letters are requested from more than one accountant (see paragraphs .17–.18), each accountant must, of course, be sure he or she is independent within the meaning of the act and the applicable rules and regulations thereunder adopted by the SEC. The accountants for previously nonaffiliated companies recently acquired by the registrant would not be required to have been independent with respect to the company whose shares are being registered. In such a case, the accountants should modify the wording suggested in paragraph .31 and make a statement regarding their independence along the following lines.

As of [insert date of the accountants' most recent report on the financial statements of their client] and during the period covered by the financial statements on which we reported, we were independent certified public accountants with respect to [insert the name of their client] within the meaning of the act and the applicable rules and regulations thereunder adopted by the SEC.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Compliance With SEC Requirements

.33 The accountants may be requested to express an opinion on whether the financial statements covered by their report comply as to form with the pertinent accounting requirements adopted by the SEC.²³ This may be done substantially as follows:

In our opinion [include phrase "except as disclosed in the registration statement," if applicable], the [identify the financial statements and financial statement schedules] audited by us and included (incorporated by reference) in the registration statement comply as to form in all material respects with the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC.²⁴

If there is a material departure from the pertinent rules and regulations adopted by the SEC, the departure should be disclosed in the letter.²⁵ An appropriate manner of doing this is shown in example K [paragraph .64].

²³ The phrase rules and regulations adopted by the SEC is used because accountants should not be expected to be familiar with, or express assurances on compliance with, informal positions of the SEC staff. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered and amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

²⁴ Certain financial statements may be incorporated in a registration statement under the act by reference to filings under the Securities Exchange Act of 1934 (the 1934 Act). In those circumstances, the accountants may refer to whether the audited financial statements and financial statement schedules included (incorporated by reference) in the registration statement comply as to form in all material respects with the applicable accounting requirements of the 1934 Act and the related rules and regulations adopted by the SEC (see example B [paragraph .64]). However, the accountants should not refer to compliance with the provisions of the 1934 Act regarding internal accounting control. See AT section 501A, *Reporting on an Entity's Internal Control Over Financial Reporting*, paragraph .82. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered and amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

²⁵ Departures from rules and regulations adopted by the SEC that require mention in a comfort letter ordinarily do not affect fair presentation in conformity with generally accepted accounting principles; however, if they do, the accountants will, of course, mention these departures in expressing their opinion and in consenting to the use of their report in the registration statement. If departures from rules and regulations adopted by the SEC that require mention in a comfort letter either are not disclosed in the registration statement or have not been agreed to by representatives of the SEC, the accountants should carefully consider whether a consent to the use of their report in the registration statement should be issued. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered and amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.34 Accountants may provide positive assurance on compliance as to form with requirements under the rules and regulations adopted by the SEC only with respect to those rules and regulations applicable to the form and content of financial statements and financial statement schedules that they have audited. Accountants are limited to providing negative assurance on compliance as to form when the financial statements or financial statement schedules have not been audited. (For guidance in commenting on compliance as to form, see paragraph .37 regarding unaudited condensed interim financial information, paragraph .42 regarding pro forma financial information, paragraph .44 regarding a forecast, and paragraph .57 regarding Regulation S-K items.²⁶) [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Commenting in a Comfort Letter on Information Other Than Audited Financial Statements

General

.35 Comments included in the letter will often concern (a) unaudited condensed interim financial information (see paragraphs .36–.38),²⁷ (b) capsule financial information (see paragraphs .36 and .39–.41), (c) pro forma financial information (see paragraphs .42–.43), (d) financial forecasts (see paragraphs .36 and .44), and (e) changes in capital stock, increases in long-term debt, and decreases in other specified financial statement items (see paragraphs .36 and .45–.53). For commenting on these matters, the following guidance is important:

- a. As explained in paragraph .16, the agreed-upon procedures performed by the accountants should be set forth in the letter, except that when the accountants have been requested to provide negative assurance on interim financial information or capsule financial information, the procedures involved in an SAS No. 100 [section 722] review need not be specified (see paragraphs .37–.41 of this section and paragraph 4 of example A [paragraph .64]).
- b. To avoid any misunderstanding about the responsibility for the sufficiency of the agreed-upon procedures for the underwriter's purposes, the accountants should not make any statements, or imply that they have applied procedures that they have determined to be necessary or sufficient for the underwriter's purposes. If the accountants state that they have performed an SAS No. 100 [section 722] review, this does not imply that those procedures are sufficient for the underwriter's purposes. The underwriter may ask the accountants to perform additional

²⁶ Accountants should not comment in a comfort letter on compliance as to form of MD&A with rules and regulations adopted by the SEC; accountants may agree to examine or review MD&A in accordance with AT section 701. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

²⁷ The SEC requirements specify condensed financial statements. However, the guidance in paragraphs .37 and .38 also applies to complete financial statements. For purposes of this section, interim financial statements may be for a twelve-month period ending on a date other than the entity's normal year end. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered by the issuance of Statement on Auditing Standards No. 86, March 1998.]

procedures. For example, if the underwriter requests the accountants to apply additional procedures and specifies items of financial information to be reviewed and the materiality level for changes in those items that would necessitate further inquiry by the accountants, the accountants may perform those procedures and should describe them in their letter. Descriptions of procedures in the comfort letter should include descriptions of the criteria specified by the underwriter.

- c. Terms of uncertain meaning (such as *general review*, *limited review*, *reconcile*, *check*, or *test*) should not be used in describing the work, unless the procedures comprehended by these terms are described in the comfort letter.
- d. The procedures performed with respect to interim periods may not disclose changes in capital stock, increases in long-term debt or decreases in the specified financial statement items, inconsistencies in the application of generally accepted accounting principles, instances of non-compliance as to form with accounting requirements of the SEC, or other matters about which negative assurance is requested. An appropriate manner of making this clear is shown in the last three sentences in paragraph 4 of example A [paragraph .64].
- e. Matters to be covered by the letter should be made clear in the meetings with the underwriter and should be identified in the underwriting agreement and in the draft comfort letter. Since there is no way of anticipating other matters that would be of interest to an underwriter, accountants should not make a general statement in a comfort letter that, as a result of carrying out the specified procedures, nothing else has come to their attention that would be of interest to the underwriter.
- f. When the report on the audited financial statements and financial statement schedules in the registration statement departs from the auditor's standard report, and the comfort letter includes negative assurance with respect to subsequent unaudited condensed interim financial information included (incorporated by reference) in the registration statement or with respect to an absence of specified subsequent changes, increases, or decreases, the accountant should consider the effect thereon of the subject matter of the qualification, explanatory paragraph(s), or paragraph(s) emphasizing a matter regarding the financial statements. The accountant should also follow the guidance in paragraph .27. An illustration of how this type of situation may be dealt with is shown in example I [paragraph .64].

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Revised, January 2006, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 100.]

Knowledge of Internal Control

.36 The accountants should not comment in a comfort letter on (a) unaudited condensed interim financial information, (b) capsule financial information, (c) a financial forecast when historical financial statements provide a basis for one or more significant assumptions for the forecast, or (d) changes in capital stock, increases in long-term debt and decreases in selected financial statement items, unless they have obtained knowledge of a client's internal control as it relates to the preparation of both annual and interim financial information. Knowledge of the client's internal control over financial reporting includes knowledge of the control environment, risk assessment, control activities, information and communication, and monitoring. Sufficient knowledge of a client's internal control as it relates to the preparation of annual financial

information ordinarily would have been acquired, and may have been acquired with respect to interim financial information, by the accountants who have audited a client's financial statements for one or more periods. When the accountants have not audited the most recent annual financial statements, and thus have not acquired sufficient knowledge of the entity's internal control, the accountants should perform procedures to obtain that knowledge. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Revised, February 1997, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 78.]

Unaudited Condensed Interim Financial Information

.37 Comments concerning the unaudited condensed interim financial information²⁸ included (incorporated by reference) in the registration statement provide negative assurance as to whether (a) any material modifications should be made to the unaudited condensed interim financial information for it to be in conformity with generally accepted accounting principles and (b) the unaudited condensed interim financial information complies as to form in all material respects with the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC. Accountants may comment in the form of negative assurance only when they have conducted a review of the interim financial information in accordance with section 722. The accountants may (a) state in the comfort letter that they have performed the procedures identified in section 722 for a review of interim financial information (see paragraphs 4a and 5a of example A [paragraph .64] or (b) if the accountants have issued a report on the review, they may mention that fact in the comfort letter. If it is mentioned in the comfort letter, the accountants should attach the review report to the letter unless the review report is already included (incorporated by reference) in the registration statement. When the accountants have not conducted a review in accordance with section 722, the accountants may not comment in the form of negative assurance and are, therefore, limited to reporting procedures performed and findings obtained (see example O [paragraph .64]). [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.38 The letter should specifically identify any unaudited condensed interim financial information and should state that the accountants have not audited the condensed interim financial information in accordance with generally accepted auditing standards and do not express an opinion concerning such information. An appropriate manner of making this clear is shown in paragraph 3 of example A [paragraph .64]. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Capsule Financial Information

.39 In some registration statements, the information shown in the audited financial statements or unaudited condensed interim financial information is supplemented by unaudited summarized interim information for subsequent periods (commonly called "capsule financial information"). This capsule financial information (either in narrative or tabular form) often is provided for the most recent interim period and for the corresponding period of the prior year. With regard to selected capsule financial information, the accountants—

²⁸ When accountants are engaged to perform procedures on interim financial information, they may have additional responsibilities under certain circumstances. The accountants should refer to section 722 for guidance. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered by the issuance of Statement on Auditing Standards No. 86, March 1998.]

- a. May give negative assurance with regard to conformity with generally accepted accounting principles and may refer to whether the dollar amounts were determined on a basis substantially consistent with that of the corresponding amounts in the audited financial statements if (1) the selected capsule financial information is presented in accordance with the minimum disclosure requirements of Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 270-10-50-1 and (2) the accountants have performed a SAS No. 100 [section 722] review of the financial statements underlying the capsule financial information. If those conditions have not been met, the accountants are limited to reporting procedures performed and findings obtained.
- b. May give negative assurance as to whether the dollar amounts were determined on a basis substantially consistent with that of the corresponding amounts in the audited financial statements if the selected capsule financial information is more limited than the minimum disclosures described in FASB ASC 270-10-50-1 (see example L [paragraph .64]), as long as the accountants have performed a SAS No. 100 [section 722] review of the financial statements underlying the capsule financial information. If a SAS No. 100 [section 722] review has not been performed, the accountants are limited to reporting procedures performed and findings obtained.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Revised, January 2006, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 100. Revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

.40 The underwriter occasionally asks the accountants to give negative assurance with respect to the unaudited interim financial statements or unaudited condensed interim financial information (see paragraph .37 and the interim financial information requirements of Regulation S-X) that underlie the capsule financial information and asks the accountants to state that the capsule financial information agrees with amounts set forth in such statements. Paragraphs 4b and 5b in example L [paragraph .64] provide an example of the accountants' comments in these circumstances. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.41 The underwriter might ask the accountants to give negative assurance on the unaudited condensed interim financial information, or information extracted therefrom, for a monthly period ending after the latest financial statements included (incorporated by reference) in the registration statement. In those cases, the guidance in paragraph .37 is applicable. The unaudited condensed interim financial information should be attached to the comfort letter so that it is clear what financial information is being referred to; if the client requests, the unaudited condensed interim financial information may be attached only to the copy of the letter intended for the managing underwriter. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Pro Forma Financial Information

.42 Accountants should not comment in a comfort letter on pro forma financial information unless they have an appropriate level of knowledge of the accounting and financial reporting practices of the entity (or, in the case of a business combination, of a significant constituent part of the combined entity). This would ordinarily have been obtained by the accountants auditing or

reviewing historical financial statements of the entity for the most recent annual or interim period for which the pro forma financial information is presented. Accountants should not give negative assurance in a comfort letter on the application of pro forma adjustments to historical amounts, the compilation of pro forma financial information, whether the pro forma financial information complies as to form in all material respects with the applicable accounting requirements of rule 11-02 of Regulation S-X or otherwise provide negative assurance with respect to pro forma financial information unless they have obtained the required knowledge described above and they have performed an audit of the annual financial statements, or an SAS No. 100 [section 722] review of the interim financial statements, of the entity (or, in the case of a business combination, of a significant constituent part of the combined entity) to which the pro forma adjustments were applied. In the case of a business combination, the historical financial statements of each constituent part of the combined entity on which the pro forma financial information is based should be audited or reviewed. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Revised, January 2006, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 100.]

.43 If the accountants have obtained the required knowledge as described in paragraph .36, but have not met the requirements for giving negative assurance, the accountants are limited to reporting procedures performed and findings obtained. (See example O [paragraph .64].) The accountants should comply with the relevant guidance on reporting the results of agreed-upon procedures in AT section 201. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

Financial Forecasts

.44 For accountants to perform agreed-upon procedures on a financial forecast and comment thereon in a comfort letter, they should obtain the knowledge described in paragraph .36 and then perform procedures prescribed in AT section 301 paragraph .69, for reporting on compilation of a forecast. Having performed these procedures, they should follow the guidance in AT section 301 paragraphs .18–.19 regarding reports on compilations of prospective financial information and should attach their report²⁹ thereon to the comfort letter.³⁰ Then they can perform additional procedures and report their findings in the comfort letter (see examples E and O [paragraph .64]). Accountants may not

²⁹ For purposes of issuing a comfort letter, if the forecast is included in the registration statement, the forecast must be accompanied by an indication that the accountants have not examined the forecast and therefore do not express an opinion on it. If a compilation report on the forecast has been issued in connection with the comfort letter, the report need not be included in the registration statement. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered by the issuance of Statement on Auditing Standards No. 86, March 1998.]

³⁰ When a client's securities are subject to regulation by the SEC, the accountants should be aware of the SEC's views regarding independence when agreeing to perform a compilation of a forecast. Independence may be deemed to be impaired when services include preparation or assembly of financial forecasts. The SEC generally will not question the accountants' independence, however, when services are limited to issuing a report on a forecast as a result of performing the procedures stated in paragraph 5 of AT section 301 paragraph .69. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered by the issuance of Statement on Auditing Standards No. 86, March 1998. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

provide negative assurance on the results of procedures performed. Further, accountants may not provide negative assurance with respect to compliance of the forecast with rule 11-03 of Regulation S-X unless they have performed an examination of the forecast in accordance with AT section 301. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

Subsequent Changes

.45 Comments regarding subsequent changes typically relate to whether there has been any change in capital stock, increase in long-term debt or decreases in other specified financial statement items during a period, known as the "change period," subsequent to the date and period of the latest financial statements included (incorporated by reference) in the registration statement (see paragraph .50). These comments would also address such matters as subsequent changes in the amounts of (a) net current assets or stockholders' equity and (b) net sales and the total and per-share amounts of income before extraordinary items and of net income. The accountants ordinarily will be requested to read minutes and make inquiries of company officials relating to the whole of the change period.³¹ For the period between the date of the latest financial statements made available and the cutoff date, the accountants must base their comments solely on the limited procedures actually performed with respect to that period (which, in most cases, will be limited to the reading of minutes and the inquiries of company officials referred to in the preceding sentence), and their comfort letter should make this clear (see paragraph 6 of example A [paragraph .64]). [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.46 If the underwriter requests negative assurance as to subsequent changes in specified financial statement items as of a date less than 135 days from the end of the most recent period for which the accountants have performed an audit or a review, the accountants may provide such negative assurance in the comfort letter. For instance—

- When the accountants have audited the December 31, 19X6, financial statements, the accountants may provide negative assurance on increases and decreases of specified financial statement items as of any date up to May 14 (135 days subsequent to December 31).
- When the accountants have audited the December 31, 19X6, financial statements and have also conducted an SAS No. 100 [section 722] review of the interim financial information as of and for the quarter ended March 31, 19X7, the accountants may provide negative assurance as to increases and decreases of specified financial statement items as of any date up to August 14, 19X7 (135 days subsequent to March 31).

An appropriate manner of expressing negative assurance regarding subsequent changes is shown in paragraphs 5b and 6 of example A [paragraph .64], if there has been no decrease and in example M [paragraph .64], if there has been a decrease. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Revised, January 2006, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 100.]

³¹ The answers to these inquiries generally should be supported by appropriate written representations of the company officials. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered by the issuance of Statement on Auditing Standards No. 86, March 1998.]

.47 However, if the underwriter requests negative assurance as to subsequent changes in specified financial statement items as of a date 135 days or more subsequent to the end of the most recent period for which the accountants have performed an audit or a review, the accountants may not provide negative assurance but are limited to reporting procedures performed and findings obtained (see example O [paragraph .64]). [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.48 In order that comments on subsequent changes be unambiguous and their determination be within accountants' professional expertise, the comments should not relate to "adverse changes," since that term has not acquired any clearly understood meaning. If there has been a change in an accounting principle during the change period, the accountants should note that fact in the letter. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.49 Comments on the occurrence of changes in capital stock, increases in long-term debt, and decreases in other specified financial statement items are limited to changes, increases, or decreases not disclosed in the registration statement. Accordingly, the phrase "except for changes, increases, or decreases that the registration statement discloses have occurred or may occur" should be included in the letter when it has come to the accountants' attention that a change, increase, or decrease has occurred during the change period, and the amount of such change, increase, or decrease is disclosed in the registration statement. This phrase need not be included in the letter when no changes, increases, or decreases in the specified financial statement items are disclosed in the registration statement. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.50 *Change period.* In the context of a comfort letter, a decrease occurs when the amount of a financial statement item at the cutoff date or for the change period (as if financial statements had been prepared at that date and for that period) is less than the amount of the same item at a specified earlier date or for a specified earlier period. With respect to the items mentioned in paragraph .45, the term *decrease* means (a) any combination of changes in amounts of current assets and current liabilities that results in decreased net current assets, (b) any combination of changes in amounts of assets and liabilities that results in decreased stockholders' equity, (c) decreased net sales, and (d) any combination of changes in amounts of sales, expenses and outstanding shares that results in decreased total and per-share amounts of income before extraordinary items and of net income (including, in each instance, a greater loss or other negative amount). The change period for which the accountants give negative assurance in the comfort letter ends on the cutoff date (see paragraph .23) and ordinarily begins, for balance sheet items, immediately after the date of the latest balance sheet in the registration statement and, for income statement items, immediately after the latest period for which such items are presented in the registration statement. The comparison relates to the entire period and not to portions of that period. A decrease during one part of the period may be offset by an equal or larger increase in another part of the period; however, because there was no decrease for the period as a whole, the comfort letter would not report the decrease occurring during one part of the period (see, however, paragraph .62). [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.51 The underwriting agreement usually specifies the dates as of which, and periods for which, data at the cutoff date and data for the change period are to be compared. For balance sheet items, the comparison date is normally that of

the latest balance sheet included (incorporated by reference) in the registration statement (that is, immediately prior to the beginning of the change period). For income statement items, the comparison period or periods might be one or more of the following: (a) the corresponding period of the preceding year, (b) a period of corresponding length immediately preceding the change period, (c) a proportionate part of the preceding fiscal year, or (d) any other period of corresponding length chosen by the underwriter. Whether or not specified in the underwriting agreement, the date and period used in comparison should be identified in the comfort letter in both draft and final form so that there is no misunderstanding about the matters being compared and so that the underwriter can determine whether the comparison period is suitable for his or her purposes. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.52 The underwriter occasionally requests that the change period begin immediately after the date of the latest audited balance sheet (which is, ordinarily, also the closing date of the latest audited statement of income) in the registration statement, even though the registration statement includes a more recent unaudited condensed balance sheet and condensed statement of income. The use of the earlier date may defeat the underwriter's purpose, since it is possible that an increase in one of the items referred to in paragraph .45 occurring between the dates of the latest audited and unaudited balance sheets included (incorporated by reference) in the registration statement might more than offset a decrease occurring after the latter date. A similar situation might arise in the comparison of income statement items. In these circumstances, the decrease occurring after the date of the latest unaudited condensed interim financial statements included (incorporated by reference) in the registration statement would not be reported in the comfort letter. It is desirable for the accountants to explain the foregoing considerations to the underwriter; however, if the underwriter nonetheless requests the use of a change period or periods other than those described in paragraph .50, the accountants may use the period or periods requested. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.53 When other accountants are involved and their letters do not disclose matters that affect the negative assurance given, an appropriate manner of expressing these comments is shown in example J [paragraph .64]. When appropriate, the principal accountants may comment that there were no decreases in the consolidated financial statement items despite the possibility that decreases have been mentioned by the other accountants. In such a case, the principal accountants could make a statement that "nothing came to our attention regarding the consolidated financial statements as a result of the specified procedures (which, so far as the related company was concerned, consisted solely of reading the other accountants' letter) that caused us to believe that..." [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Tables, Statistics, and Other Financial Information

.54 The underwriting agreement sometimes calls for a comfort letter that includes comments on tables, statistics, and other financial information appearing in the registration statement. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.55 The accountants should refrain from commenting on certain matters in a comfort letter. Except as indicated in the next sentence, they should comment

only with respect to information (a) that is expressed in dollars (or percentages derived from such dollar amounts) and that has been obtained from accounting records that are subject to the entity's controls over financial reporting or (b) that has been derived directly from such accounting records by analysis or computation. The accountants may also comment on quantitative information that has been obtained from an accounting record if the information is subject to the same controls over financial reporting as the dollar amounts. The accountants should not comment on matters merely because they happen to be present and are capable of reading, counting, measuring, or performing other functions that might be applicable. Examples of matters that, unless subjected to the entity's controls over financial reporting (which is not ordinarily the case), should not be commented on by the accountants include the square footage of facilities, number of employees (except as related to a given payroll period), and backlog information.³² The accountants should not comment on tables, statistics, and other financial information relating to an unaudited period unless (a) they have performed an audit of the client's financial statements for a period including or immediately prior to the unaudited period or have completed an audit for a later period or (b) they have otherwise obtained knowledge of the client's internal control as provided for in paragraph .36 herein. In addition, the accountants should not comment on information subject to legal interpretation, such as beneficial share ownership. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. As amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

.56 As with comments relating to financial statement information, it is important that the procedures followed by the accountants with respect to other information be clearly set out in the comfort letter, in both draft and final form, so that there will be no misunderstanding about the basis of the comments on the information. Further, so that there will be no implication that the accountants are furnishing any assurance with respect to the sufficiency of the procedures for the underwriter's intended purpose, the comfort letter should contain a statement to this effect. An appropriate way of expressing this is shown in paragraph 10 of example F [paragraph .64] (see also paragraph .16 of this section). [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.57 Certain financial information in registration statements is included because of specific requirements of Regulation S-K. Accountants may comment as to whether this information is in conformity with the disclosure requirements of Regulation S-K if the following conditions are met:

- a. The information is derived from the accounting records subject to the entity's controls over financial reporting, or has been derived directly from such accounting records by analysis or computation.
- b. This information is capable of evaluation against reasonable criteria that have been established by the SEC.

³² Accountants generally will be unable to comment on nonfinancial data presented in MD&A. However, when the accountants have conducted an examination or a review of MD&A in accordance with AT section 701, they may agree to trace nonfinancial data presented outside MD&A to similar data included in the MD&A presentation. When the accountant does not perform a review or an examination of MD&A or does not attach or refer to a report on MD&A, the accountant may perform agreed-upon procedures with respect to items in MD&A subject to controls over financial reporting. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

The following are the disclosure requirements of Regulation S-K³³ that generally meet these conditions:

- Item 301, "Selected Financial Data"
- Item 302, "Supplementary Financial Information"
- Item 402, "Executive Compensation"
- Item 503(d), "Ratio of Earnings to Fixed Charges"

Accountants may not give positive assurance on conformity with the disclosure requirements of Regulation S-K; they are limited to giving negative assurance, since this information is not given in the form of financial statements and generally has not been audited by the accountants. Even with respect to the above-mentioned items, there may be situations in which it would be inappropriate to provide negative assurance with respect to conformity of this information with Regulation S-K because conditions (a) and (b) above have not been met. Since information relevant to Regulation S-K disclosure requirements other than those noted previously is generally not derived from the accounting records subject to the entity's controls over financial reporting, it is not appropriate for the accountants to comment on conformity of this information with Regulation S-K. The accountants' inability to comment on conformity with Regulation S-K does not preclude accountants from performing procedures and reporting findings with respect to this information. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.58 To avoid ambiguity, the specific information commented on in the letter should be identified by reference to specific captions, tables, page numbers, paragraphs, or sentences. Descriptions of the procedures followed and the findings obtained may be stated individually for each item of specific information commented on. Alternatively, if the procedures and findings are adequately described, some or all of the descriptions may be grouped or summarized, as long as the applicability of the descriptions to items in the registration statement is clear and the descriptions do not imply that the accountants assume responsibility for the adequacy of the procedures. It would also be appropriate to present a matrix listing the financial information and common procedures employed and indicating the procedures applied to the specific items. Another presentation that could be used identifies procedures performed with specified symbols and identifies items to which those procedures have been applied directly on a copy of the prospectus which is attached to the comfort letter. (See examples F, G, and H [paragraph .64]). [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.59 Comments in the comfort letter concerning tables, statistics, and other financial information included (incorporated by reference) in the registration statement should be made in the form of a description of the procedures followed; the findings (ordinarily expressed in terms of agreement between items compared); and in some cases, as described below, statements with respect to the acceptability of methods of allocation used in deriving the figures commented on. Whether comments on the allocation of income or expense items between categories of sales (such as military and commercial sales) may appropriately be

³³ Accountants should not comment in a comfort letter on compliance as to form of MD&A with rules and regulations adopted by the SEC; accountants may agree to examine or review MD&A in accordance with AT section 701. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

made will depend on the extent to which such allocation is made in, or can be derived directly by analysis or computation from, the client's accounting records. In any event, such comments, if made, should make clear that such allocations are to a substantial extent arbitrary, that the method of allocation used is not the only acceptable one, and that other acceptable methods of allocation might produce significantly different results. Furthermore, no comments should be made regarding segment information (or the appropriateness of allocations made to derive segment information) included in financial statements, since the accountants' report encompasses that information.³⁴ Appropriate ways of expressing comments on tables, statistics, and other financial information are shown in examples F, G, and H [paragraph .64]. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Revised, June 2009, to reflect conforming changes necessary due to the issuance of recent authoritative literature.]

.60 In comments concerning tables, statistics, and other financial information, the expression "presents fairly" (or a variation of it) should not be used. That expression, when used by independent accountants, ordinarily relates to presentations of financial statements and should not be used in commenting on other types of information. Except with respect to requirements for financial statements and certain Regulation S-K items discussed in paragraph .57, the question of what constitutes appropriate information for compliance with the requirements of a particular item of the registration statement form is a matter of legal interpretation outside the competence of accountants. Consequently, the letter should state that the accountants make no representations regarding any matter of legal interpretation. Since the accountants will not be in a position to make any representations about the completeness or adequacy of disclosure or about the adequacy of the procedures followed, the letter should so state. It should point out, as well, that such procedures would not necessarily disclose material misstatements or omissions in the information to which the comments relate. An appropriate manner of expressing the comments is shown in examples F, G, and H [paragraph .64]. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Concluding Paragraph

.61 In order to avoid misunderstanding of the purpose and intended use of the comfort letter, it is desirable that the letter conclude with a paragraph along the following lines:

This letter is solely for the information of the addressees and to assist the underwriters³⁵ in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or otherwise referred to within or without the underwriting group for any other purpose, including, but not limited to, the registration, purchase, or sale of securities,

³⁴ See paragraph .30 regarding requests by an underwriter for comments on interim financial information required by item 302(a) of Regulation S-K and required supplementary information described in section 558A. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered by the issuance of Statement on Auditing Standards No. 86, March 1998.]

³⁵ See paragraph .30 regarding requests by an underwriter for comments on (a) interim financial information required by item 302(a) of Regulation S-K and (b) required supplementary information described in section 558. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered by the issuance of Statement on Auditing Standards No. 86, March 1998.]

nor is it to be filed with or referred to in whole or in part in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or in any list of closing documents pertaining to the offering of the securities covered by the registration statement.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Disclosure of Subsequently Discovered Matters

.62 Accountants who discover matters that may require mention in the final comfort letter but that are not mentioned in the draft letter that has been furnished to the underwriter, such as changes, increases, or decreases in specified items not disclosed in the registration statement (see paragraphs .45 and .49), will naturally want to discuss them with their client so that consideration can be given to whether disclosure should be made in the registration statement. If disclosure is not to be made, the accountants should inform the client that the matters will be mentioned in the comfort letter and should suggest that the underwriter be informed promptly. It is recommended that the accountants be present when the client and the underwriter discuss such matters. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Effective Date

.63 This section is effective for comfort letters issued on or after June 30, 1993. Early application of this section is encouraged. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.64

Appendix

Examples

1. The contents of comfort letters vary, depending on the extent of the information in the registration statement and the wishes of the underwriter or other requesting party. Shelf registration statements may have several closing dates and different underwriters. Descriptions of procedures and findings regarding interim financial statements, tables, statistics, or other financial information that is incorporated by reference from previous 1934 Act filings may have to be repeated in several comfort letters. To avoid restating these descriptions in each comfort letter, accountants may initially issue the comments in a format (such as an appendix) that can be referred to in, and attached to, subsequently issued comfort letters.

Example A: Typical Comfort Letter

2. A typical comfort letter includes—
 - a. A statement regarding the independence of the accountants (paragraphs .31–.32).
 - b. An opinion regarding whether the audited financial statements and financial statement schedules included (incorporated by reference) in the registration statement comply as to form in all material respects with the applicable accounting requirements of the act and related rules and regulations adopted by the SEC (paragraphs .33–.34).
 - c. Negative assurance on whether—
 1. The unaudited condensed interim financial information included (incorporated by reference) in the registration statement (paragraph .37) complies as to form in all material respects with the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC.
 2. Any material modifications should be made to the unaudited condensed consolidated financial statements included (incorporated by reference) in the registration statement for them to be in conformity with generally accepted accounting principles.
 - d. Negative assurance on whether, during a specified period following the date of the latest financial statements in the registration statement and prospectus, there has been any change in capital stock, increase in long-term debt or any decrease in other specified financial statement items (paragraphs .45–.53).

Example A is a letter covering all these items. Letters that cover some of the items may be developed by omitting inapplicable portions of example A.

Example A assumes the following circumstances.¹ The prospectus (part I of the registration statement) includes audited consolidated balance sheets as of December 31, 19X5 and 19X4, and audited consolidated statements of income, retained earnings (stockholders' equity), and cash flows for each of the three

¹ The example includes financial statements required by SEC regulations to be included in the filing. If additional financial information is covered by the comfort letter, appropriate modifications should be made.

years in the period ended December 31, 19X5. Part I also includes an unaudited condensed consolidated balance sheet as of March 31, 19X6, and unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, reviewed in accordance with section 722 but not previously reported on by the accountants. Part II of the registration statement includes audited consolidated financial statement schedules for the three years ended December 31, 19X5. The cutoff date is June 23, 19X6, and the letter is dated June 28, 19X6. The effective date is June 28, 19X6.

Each of the comments in the letter is in response to a requirement of the underwriting agreement. For purposes of example A, the income statement items of the current interim period are to be compared with those of the corresponding period of the preceding year.

June 28, 19X6

[Addressee]

Dear Sirs:

We have audited the consolidated balance sheets of The Blank Company, Inc. (the company) and subsidiaries as of December 31, 19X5 and 19X4, and the consolidated statements of income, retained earnings (stockholders' equity), and cash flows for each of the three years in the period ended December 31, 19X5, and the related financial statement schedules all included in the registration statement (no. 33-00000) on Form S-1 filed by the company under the Securities Act of 1933 (the act); our reports with respect thereto are also included in that registration statement. The registration statement, as amended on June 28, 19X6, is herein referred to as the registration statement.²

In connection with the registration statement—

1. We are independent certified public accountants with respect to the company within the meaning of the act and the applicable rules and regulations thereunder adopted by the SEC.

2. In our opinion [*include the phrase "except as disclosed in the registration statement," if applicable*], the consolidated financial statements and financial statement schedules audited by us and included in the registration statement comply as to form in all material respects with the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC.

3. We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 19X5; although we have conducted an audit for the year ended December 31, 19X5, the purpose (and therefore the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 19X5, and for the year then ended, but not on the financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the

² The example assumes that the accountants have not previously reported on the interim financial information. If the accountants have previously reported on the interim financial information, they may refer to that fact in the introductory paragraph of the comfort letter as follows:

Also, we have reviewed the unaudited condensed consolidated financial statements as of March 31, 19X6 and 19X5, and for the three-month periods then ended, as indicated in our report dated May 15, 19X6, which is included (incorporated by reference) in the registration statement.

The report may be attached to the comfort letter (see paragraph .29). The accountants may agree to comment in the comment letter on whether the interim financial information complies as to form in all material respects with the applicable accounting requirements of the rules and regulations adopted by the SEC.

unaudited condensed consolidated balance sheet as of March 31, 19X6, and the unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, included in the registration statement, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 19X5.

4. For purposes of this letter we have read the 19X6 minutes of meetings of the stockholders, the board of directors, and [include other appropriate committees, if any] of the company and its subsidiaries as set forth in the minute books at June 23, 19X6, officials of the company having advised us that the minutes of all such meetings³ through that date were set forth therein; we have carried out other procedures to June 23, 19X6, as follows (our work did not extend to the period from June 24, 19X6, to June 28, 19X6, inclusive):

- a. With respect to the three-month periods ended March 31, 19X6 and 19X5, we have—
 - (i) Performed the procedures specified by the American Institute of Certified Public Accountants for a review of interim financial information as described in SAS No. 100, *Interim Financial Information*, on the unaudited condensed consolidated balance sheet as of March 31, 19X6, and unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, included in the registration statement.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in a(i) comply as to form in all material respects with the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC.
- b. With respect to the period from April 1, 19X6, to May 31, 19X6, we have—
 - (i) Read the unaudited consolidated financial statements⁴ of the company and subsidiaries for April and May of both 19X5 and 19X6 furnished us by the company, officials of the company having advised us that no such financial statements as of any date or for any period subsequent to May 31, 19X6, were available.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited consolidated financial statements referred to in b(i) are stated on a basis substantially consistent with that of the audited consolidated financial statements included in the registration statement.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations regarding the sufficiency of the foregoing procedures for your purposes.

³ The accountants should discuss with the secretary those meetings for which minutes have not been approved. The letter should be modified to identify specifically the unapproved minutes of meetings that the accountants have discussed with the secretary.

⁴ If the interim financial information is incomplete, a sentence similar to the following should be added: "The financial information for April and May is incomplete in that it omits the statements of cash flows and other disclosures."

5. Nothing came to our attention as a result of the foregoing procedures, however, that caused us⁵ to believe that—

- a. (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in 4a(i), included in the registration statement, for them to be in conformity with generally accepted accounting principles.⁶
- (ii) The unaudited condensed consolidated financial statements described in 4a(i) do not comply as to form in all material respects with the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC.
- b. (i) At May 31, 19X6, there was any change in the capital stock, increase in long-term debt, or decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement, or
- (ii) for the period from April 1, 19X6, to May 31, 19X6, there were any decreases, as compared to the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

6. As mentioned in 4b, company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to May 31, 19X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 19X6, have, of necessity, been even more limited than those with respect to the periods referred to in 4. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at June 23, 19X6, there was any change in the capital stock, increase in long-term debt or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement or (b) for the period from April 1, 19X6, to June 23, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income. On the basis of these inquiries and our reading of the minutes as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

7. This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or otherwise referred to within or without the underwriting group for any purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the registration statement or any other document, except that reference may be made to it in the underwriting

⁵ If there has been a change in accounting principle during the interim period, a reference to that change should be included herein.

⁶ Section 722 does not require the accountants to modify the report on a review of interim financial information for a lack of consistency in the application of accounting principles provided that the interim financial information appropriately discloses such matters.

agreement or in any list of closing documents pertaining to the offering of the securities covered by the registration statement.

Example B: Letter When a Short-Form Registration Statement Is Filed Incorporating Previously Filed Forms 10-K and 10-Q by Reference

3. Example B is applicable when a registrant uses a short-form registration statement (Form S-2 or S-3) which, by reference, incorporates previously filed Forms 10-K and 10-Q. It assumes that the short-form registration statement and prospectus include the Form 10-K for the year ended December 31, 19X5, and Form 10-Q for the quarter ended March 31, 19X6, which have been incorporated by reference. In addition to the information presented below, the letter would also contain paragraphs 6 and 7 of the typical letter in example A. A Form S-2 registration statement will often both incorporate and include the registrant's financial statements. In such situations, the language in the following example should be appropriately modified to refer to such information as being both incorporated and included.

June 28, 19X6

[Addressee]

Dear Sirs:

We have audited the consolidated balance sheets of The Blank Company, Inc. (the company) and subsidiaries as of December 31, 19X5 and 19X4, and the consolidated statements of income, retained earnings (stockholders' equity), and cash flows for each of the three years in the period ended December 31, 19X5, and the related financial statement schedules, all included (incorporated by reference) in the company's annual report on Form 10-K for the year ended December 31, 19X5, and incorporated by reference in the registration statement (no. 33-00000) on Form S-3 filed by the company under the Securities Act of 1933 (the act); our report with respect thereto is also incorporated by reference in that registration statement. The registration statement, as amended on June 28, 19X6, is herein referred to as the registration statement.

In connection with the registration statement—

1. We are independent certified public accountants with respect to the company within the meaning of the act and the applicable rules and regulations thereunder adopted by the SEC.

2. In our opinion, the consolidated financial statements and financial statement schedules audited by us and incorporated by reference in the registration statement comply as to form in all material respects with the applicable accounting requirements of the act and the Securities Exchange Act of 1934 and the related rules and regulations adopted by the SEC.

3. We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 19X5; although we have conducted an audit for the year ended December 31, 19X5, the purpose (and therefore the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 19X5, and for the year then ended, but not on the consolidated financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the unaudited condensed consolidated balance sheet as of March 31, 19X6, and the unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, included in the company's quarterly

report on Form 10-Q for the quarter ended March 31, 19X6, incorporated by reference in the registration statement, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 19X5.

4. For purposes of this letter, we have read the 19X6 minutes of the meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company and its subsidiaries as set forth in the minute books at June 23, 19X6, officials of the company having advised us that the minutes of all such meetings⁷ through that date were set forth therein; we have carried out other procedures to June 23, 19X6, as follows (our work did not extend to the period from June 24, 19X6, to June 28, 19X6, inclusive):

- a. With respect to the three-month periods ended March 31, 19X6 and 19X5, we have—
 - (i) Performed the procedures specified by the American Institute of Certified Public Accountants for a review of interim financial information as described in SAS No. 100, *Interim Financial Information*, on the unaudited condensed consolidated financial statements for these periods, described in 3, included in the company's quarterly report on Form 10-Q for the quarter ended March 31, 19X6, incorporated by reference in the registration statement.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in a(i) comply as to form in all material respects with the applicable accounting requirements of the Securities Exchange Act of 1934 as it applies to Form 10-Q and the related rules and regulations adopted by the SEC.
- b. With respect to the period from April 1, 19X6, to May 31, 19X6, we have—
 - (i) Read the unaudited consolidated financial statements⁸ of the company and subsidiaries for April and May of both 19X5 and 19X6 furnished us by the company, officials of the company having advised us that no such financial statements as of any date or for any period subsequent to May 31, 19X6, were available.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited consolidated financial statements referred to in b(i) are stated on a basis substantially consistent with that of the audited consolidated financial statements incorporated by reference in the registration statement.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations about the sufficiency of the foregoing procedures for your purposes.

5. Nothing came to our attention as a result of the foregoing procedures, however, that caused us to believe that—

- a. (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in 3, incorporated by reference in the registration statement, for them to be in conformity with generally accepted accounting principles.

⁷ See footnote 3 of the appendix.

⁸ See footnote 4 of the appendix.

- (ii) The unaudited condensed consolidated financial statements described in 3 do not comply as to form in all material respects with the applicable accounting requirements of the Securities Exchange Act of 1934 as it applies to Form 10-Q and the related rules and regulations adopted by the SEC.
- b. (i) At May 31, 19X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 19X6 unaudited condensed consolidated balance sheet incorporated by reference in the registration statement or
- (ii) for the period from April 1, 19X6, to May 31, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

Example C: Letter Reaffirming Comments in Example A as of a Later Date

4. If more than one comfort letter is requested, the later letter may, in appropriate situations, refer to information appearing in the earlier letter without repeating such information (see paragraph .24 and paragraph 1 of the appendix). Example C reaffirms and updates the information in example A.

July 25, 19X6

[Addressee]

Dear Sirs:

We refer to our letter of June 28, 19X6, relating to the registration statement (no. 33-00000) of The Blank Company, Inc. (the company). We reaffirm as of the date hereof (and as though made on the date hereof) all statements made in that letter except that, for the purposes of this letter—

- a. The registration statement to which this letter relates is as amended on July 13, 19X6 [*effective date*].
- b. The reading of minutes described in paragraph 4 of that letter has been carried out through July 20, 19X6 [*the new cutoff date*].
- c. The procedures and inquiries covered in paragraph 4 of that letter were carried out to July 20, 19X6 [*the new cutoff date*] (our work did not extend to the period from July 21, 19X6, to July 25, 19X6 [*date of letter*], inclusive).
- d. The period covered in paragraph 4b of that letter is changed to the period from April 1, 19X6, to June 30, 19X6, officials of the company having advised us that no such financial statements as of any date or for any period subsequent to June 30, 19X6, were available.
- e. The references to May 31, 19X6, in paragraph 5b of that letter are changed to June 30, 19X6.
- f. The references to May 31, 19X6, and June 23, 19X6, in paragraph 6 of that letter are changed to June 30, 19X6, and July 20, 19X6, respectively.

This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or otherwise referred to within the underwriting group for any other purpose, including but

not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or any list of closing documents pertaining to the offering of the securities covered by the registration statement.

Example D: Comments on Pro Forma Financial Information

5. Example D is applicable when the accountants are asked to comment on (a) whether the pro forma financial information included in a registration statement complies as to form in all material respects with the applicable accounting requirements of rule 11-02 of Regulation S-X, and (b) the application of pro forma adjustments to historical amounts in the compilation of the pro forma financial information (see paragraphs .42 and .43). The material in this example is intended to be inserted between paragraphs 6 and 7 in example A. The accountants have audited the December 31, 19X5, financial statements and have conducted an SAS No. 100 [section 722] review of the March 31, 19X6, interim financial information of the acquiring company. Other accountants conducted a review of the March 31, 19X6, interim financial information of XYZ Company, the company being acquired. The example assumes that the accountants have not previously reported on the pro forma financial information. If the accountants did previously report on the pro forma financial information, they may refer in the introductory paragraph of the comfort letter to the fact that they have issued a report, and the report may be attached to the comfort letter (see paragraph .29). In that circumstance, therefore, the procedures in 7b(i) and 7c ordinarily would not be performed, and the accountants should not separately comment on the application of pro forma adjustments to historical financial information, since that assurance is encompassed in the accountants' report on pro forma financial information. The accountants may, however, agree to comment on compliance as to form with the applicable accounting requirements of rule 11-02 of Regulation S-X.

7. At your request, we have—

- a. Read the unaudited pro forma condensed consolidated balance sheet as of March 31, 19X6, and the unaudited pro forma condensed consolidated statements of income for the year ended December 31, 19X5, and the three-month period ended March 31, 19X6, included in the registration statement.
- b. Inquired of certain officials of the company and of XYZ Company (the company being acquired) who have responsibility for financial and accounting matters about—
 - (i) The basis for their determination of the pro forma adjustments, and
 - (ii) Whether the unaudited pro forma condensed consolidated financial statements referred to in 7a comply as to form in all material respects with the applicable accounting requirements of rule 11-02 of Regulation S-X.
- c. Proved the arithmetic accuracy of the application of the pro forma adjustments to the historical amounts in the unaudited pro forma condensed consolidated financial statements.

The foregoing procedures are substantially less in scope than an examination, the objective of which is the expression of an opinion on management's assumptions, the pro forma adjustments, and the application of those adjustments to

historical financial information. Accordingly, we do not express such an opinion. The foregoing procedures would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representation about the sufficiency of such procedures for your purposes.

8. Nothing came to our attention as a result of the procedures specified in paragraph 7, however, that caused us to believe that the unaudited pro forma condensed consolidated financial statements referred to in 7a included in the registration statement do not comply as to form in all material respects with the applicable accounting requirements of rule 11-02 of Regulation S-X and that the pro forma adjustments have not been properly applied to the historical amounts in the compilation of those statements. Had we performed additional procedures or had we made an examination of the pro forma condensed consolidated financial statements, other matters might have come to our attention that would have been reported to you.

Example E: Comments on a Financial Forecast

6. Example E is applicable when accountants are asked to comment on a financial forecast (see paragraph .44). The material in this example is intended to be inserted between paragraphs 6 and 7 in example A. The example assumes that the accountants have previously reported on the compilation of the financial forecast and that the report is attached to the letter (see paragraph .29 and example O).

7. At your request, we performed the following procedure with respect to the forecasted consolidated balance sheet and consolidated statements of income and cash flows as of December 31, 19X6, and for the year then ending. With respect to forecasted rental income, we compared the occupancy statistics about expected demand for rental of the housing units to statistics for existing comparable properties and found them to be the same.

8. Because the procedure described above does not constitute an examination of prospective financial statements in accordance with standards established by the American Institute of Certified Public Accountants, we do not express an opinion on whether the prospective financial statements are presented in conformity with AICPA presentation guidelines or on whether the underlying assumptions provide a reasonable basis for the presentation.

Had we performed additional procedures or had we made an examination of the forecast in accordance with standards established by the American Institute of Certified Public Accountants, matters might have come to our attention that would have been reported to you. Furthermore, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material.

Example F: Comments on Tables, Statistics, and Other Financial Information—Complete Description of Procedures and Findings

7. Example F is applicable when the accountants are asked to comment on tables, statistics, or other compilations of information appearing in a registration statement (paragraphs .54–.60). Each of the comments is in response to a specific request. The paragraphs in example F are intended to follow paragraph 6 in example A.

7. For purposes of this letter, we have also read the following, set forth in the registration statement on the indicated pages.⁹

<u>Item</u>	<u>Page</u>	<u>Description</u>
a	4	"Capitalization." The amounts under the captions "Amount Outstanding as of June 15, 19X6" and "As Adjusted." The related notes, except the following in Note 2: "See 'Transactions With Interested Persons.' From the proceeds of this offering the company intends to prepay \$900,000 on these notes, pro rata. See 'Use of Proceeds.'"
b	13	"History and Business—Sales and Marketing." The table following the first paragraph.
c	22	"Executive Compensation—19X5 Compensation." ¹⁰
d	33	"Selected Financial Data."

8. Our audit of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements taken as a whole. For none of the periods referred to therein, or any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions such as those enumerated above, and, accordingly, we express no opinion thereon.

9. However, for purposes of this letter we have performed the following additional procedures, which were applied as indicated with respect to the items enumerated above.

Item in 7

Procedures and Findings

- a We compared the amounts and numbers of shares listed under the caption "Amount Outstanding as of June 15, 19X6" with the balances in the appropriate accounts in the company's general ledger at May 31, 19X6 (the latest date for which posting had been made), and found them to be in agreement. We were informed by company officials who have responsibility for financial and accounting matters that there have been no changes in such amounts and numbers of shares between May 31, 19X6, and June 15, 19X6. We compared the amounts and numbers of shares listed under the caption "Amount Outstanding as of June 15, 19X6," adjusted for the issuance of the debentures to be offered by means of the registration statement and for the proposed use of a portion of the proceeds thereof to prepay portions of certain notes, as described under "Use of Proceeds," with the amounts and numbers of shares shown under the caption "As Adjusted" and found such amounts and numbers of shares to be in agreement. (However, we make no comments regarding the reasonableness of the "Use of Proceeds" or whether such use will actually take place.) We compared the description of the securities and the information (except certain information in Note 2, referred to in 7) included in the notes to the table with the corresponding descriptions and information in the company's consolidated financial statements,

⁹ In some cases it may be considered desirable to combine in one paragraph the substance of paragraphs 7 and 9. This may be done by expanding the identification of items in paragraph 9 to provide the identification information contained in paragraph 7. In such cases, the introductory sentences in paragraphs 7 and 9 and the text of paragraph 8 might be combined as follows: "For purposes of this letter, we have also read the following information and have performed the additional procedures stated below with respect to such information. Our audit of the consolidated financial statements. . ."

¹⁰ In some cases the company or the underwriter may request that the independent accountants report on "selected financial data" as described in section 552, *Reporting on Condensed Financial Statements and Selected Financial Data*. When the accountants report on this data and the report is included in the registration statement, separate comments should not be included in the comfort letter (see paragraph .30).

Item in 7Procedures and Findings

including the notes thereto included in the registration statement, and found such description and information to be in agreement.

b We compared the amounts of military sales, commercial sales, and total sales shown in the registration statement with the balances in the appropriate accounts in the company's accounting records for the respective fiscal years and for the unaudited interim periods and found them to be in agreement. We proved the arithmetic accuracy of the percentages of such amounts of military sales and commercial sales to total sales for the respective fiscal years and for the unaudited interim periods. We compared such computed percentages with the corresponding percentages appearing in the registration statement and found them to be in agreement.

c We compared the dollar amounts of compensation (salary, bonus, and other compensation) for each individual listed in the table "Annual Compensation" with the corresponding amounts shown by the individual employee earnings records for the year 19X5 and found them to be in agreement. We compared the dollar amount of aggregate executive officers' cash compensation on page 22 with the corresponding amount shown in an analysis prepared by the company and found the amounts to be in agreement. We traced every item over \$10,000 on the analysis to the individual employee records for 19X5. We compared the dollar amounts shown under the heading of "Long-Term Compensation" on page 24 for each listed individual and the aggregate amounts for executive officers with corresponding amounts shown in an analysis prepared by the company and found such amounts to be in agreement.

We compared the executive compensation information with the requirements of item 402 of Regulation S-K. We also inquired of certain officials of the company who have responsibility for financial and accounting matters whether the executive compensation information conforms in all material respects with the disclosure requirements of item 402 of Regulation S-K. Nothing came to our attention as a result of the foregoing procedures that caused us to believe that this information does not conform in all material respects with the disclosure requirements of item 402 of Regulation S-K.

d We compared the amounts of net sales, income from continuing operations, income from continuing operations per common share, and cash dividends declared per common share for the years ended December 31, 19X5, 19X4, and 19X3, with the respective amounts in the consolidated financial statements on pages 27 and 28 and the amounts for the years ended December 31, 19X2, and 19X1, with the respective amounts in the consolidated financial statements included in the company's annual reports to stockholders for 19X2 and 19X1 and found them to be in agreement.

We compared the amounts of total assets, long-term obligations, and redeemable preferred stock at December 31, 19X5 and 19X4, with the respective amounts in the consolidated financial statements on pages 27 and 28 and the amounts at December 31, 19X3, and 19X2, and 19X1 with the corresponding amounts in the consolidated financial statements included in the company's annual reports to stockholders for 19X3, 19X2, and 19X1 and found them to be in agreement.

We compared the information included under the heading "Selected Financial Data" with the requirements of item 301 of Regulation S-K. We also inquired of certain officials of the company who have responsibility for financial and accounting matters whether this information conforms in all material respects with the disclosure requirements of item 301 of Regulation S-K. Nothing came to our attention as a result of the foregoing procedures that caused us to believe that this information does not conform in all material respects with the disclosure requirements of item 301 of Regulation S-K.

10. It should be understood that we make no representations regarding questions of legal interpretation or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraph; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages listed above. Further, we have addressed ourselves solely to the foregoing data as set forth in the registration statement and make no representations regarding the adequacy of disclosure or regarding whether any material facts have been omitted.

11. This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or otherwise referred to within or without the underwriting group for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or in any list of closing documents pertaining to the offering of the securities covered by the registration statement.

Example G: Comments on Tables, Statistics, and Other Financial Information—Summarized Description of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information

8. Example G illustrates, in paragraph 9a, a method of summarizing the descriptions of procedures and findings regarding tables, statistics, and other financial information in order to avoid repetition in the comfort letter. The summarization of the descriptions is permitted by paragraph .58. Each of the comments is in response to a specific request. The paragraphs in example G are intended to follow paragraph 6 in example A.¹¹

7. For purposes of this letter, we have also read the following, set forth in the registration statement on the indicated pages.

<i>Item</i>	<i>Page</i>	<i>Description</i>
<i>a</i>	4	"Capitalization." The amounts under the captions "Amount Outstanding as of June 15, 19X6" and "As Adjusted." The related notes, except the following in Note 2: "See 'Transactions With Interested Persons.' From the proceeds of this offering the company intends to prepay \$900,000 on these notes, pro rata. See 'Use of Proceeds.'"
<i>b</i>	13	"History and Business—Sales and Marketing." The table following the first paragraph.
<i>c</i>	22	"Executive Compensation—19X5 Compensation."
<i>d</i>	33	"Selected Financial Data." ¹²

8. Our audit of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements taken as a whole. For none of the periods referred to therein, or

¹¹ Other methods of summarizing the descriptions may also be appropriately used. For example, the letter may present a matrix listing the financial information and common procedures employed and indicating the procedures applied to specific items.

¹² See footnote 10 of the appendix.

any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions such as those enumerated above, and, accordingly, we express no opinion thereon.

9. However, for purposes of this letter and with respect to the items enumerated in 7 above—

- a. Except for item 7a, we have (i) compared the dollar amounts either with the amounts in the audited consolidated financial statements described in the introductory paragraph of this letter or, for prior years, included in the company's annual report to stockholders for the years 19X1, 19X2, and 19X3, or with amounts in the unaudited consolidated financial statements described in paragraph 3 to the extent such amounts are included in or can be derived from such statements and found them to be in agreement; (ii) compared the amounts of military sales, commercial sales, and total sales and the dollar amounts of compensation for each listed individual with amounts in the company's accounting records and found them to be in agreement; (iii) compared other dollar amounts with amounts shown in analyses prepared by the company and found them to be in agreement; and (iv) proved the arithmetic accuracy of the percentages based on the data in the above-mentioned financial statements, accounting records, and analyses.

We compared the information in items 7c and 7d with the disclosure requirements of Regulation S-K. We also inquired of certain officials of the company who have responsibility for financial and accounting matters whether this information conforms in all material respects with the disclosure requirements of Regulation S-K. Nothing came to our attention as a result of the foregoing procedures that caused us to believe that this information does not conform in all material respects with the disclosure requirements of items 402 and 301, respectively, of Regulation S-K.

- b. With respect to item 7a, we compared the amounts and numbers of shares listed under the caption "Amount Outstanding as of June 15, 19X6" with the balances in the appropriate accounts in the company's general ledger at May 31, 19X6 (the latest date for which postings had been made), and found them to be in agreement. We were informed by officials of the company who have responsibility for financial and accounting matters that there had been no changes in such amounts and numbers of shares between May 31, 19X6, and June 15, 19X6. We compared the amounts and numbers of shares listed under the caption "Amount Outstanding as of June 15, 19X6" adjusted for the issuance of the debentures to be offered by means of the registration statement and for the proposed use of a portion of the proceeds thereof to prepay portions of certain notes, as described under "Use of Proceeds," with the amounts and numbers of shares shown under the caption "As Adjusted" and found such amounts and numbers of shares to be in agreement. (However, we make no comments regarding the reasonableness of "Use of Proceeds" or whether such use will actually take place.) We compared the description of the securities and the information (except certain information in Note 2, referred to in 7) included in the notes to the table with the corresponding descriptions and information in the company's consolidated financial statements, including the notes thereto, included in the registration statement and found such descriptions and information to be in agreement.

10. It should be understood that we make no representations regarding questions of legal interpretation or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraph; also, such procedures would not necessarily reveal any material misstatement of the amounts

or percentages listed above. Further, we have addressed ourselves solely to the foregoing data as set forth in the registration statement and make no representations regarding the adequacy of disclosure or regarding whether any material facts have been omitted.

11. This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or otherwise referred to within or without the underwriting group for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or in any list of closing documents pertaining to the offering of the securities covered by the registration statement.

Example H: Comments on Tables, Statistics, and Other Financial Information: Descriptions of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information—Attached Registration Statement (or Selected Pages) Identifies With Designated Symbols Items to Which Procedures Were Applied

9. This example illustrates an alternate format which could facilitate reporting when the accountant is requested to perform procedures on numerous statistics included in a registration statement. This format is permitted by paragraph .58. Each of the comments is in response to a specific request. The paragraph in example H is intended to follow paragraph 6 in example A.

7. For purposes of this letter, we have also read the items identified by you on the attached copy of the registration statement (prospectus), and have performed the following procedures, which were applied as indicated with respect to the symbols explained below:

- ✓ Compared the amount with the XYZ (Predecessor Company) financial statements for the period indicated and found them to be in agreement.
- ✓ Compared the amount with the XYZ (Predecessor Company) financial statements for the period indicated contained in the registration statement and found them to be in agreement.
- ✓ Compared the amount with ABC Company's financial statements for the period indicated contained in the registration statement and found them to be in agreement.
- ⓪ Compared with a schedule or report prepared by the Company and found them to be in agreement.

The letter would also contain paragraphs 8, 10, and 11 of the letter in example F.

[The following is an extract from a registration statement that illustrates how an accountant can document procedures performed on numerous statistics included in the registration statement.]

The following summary is qualified in its entirety by the financial statements and detailed information appearing elsewhere in this Prospectus.

The Company

ABC Company (the "Company") designs, constructs, sells, and finances single-family homes for the entry-level and move-up homebuyer. The Company and its predecessor have built and delivered more single-family homes in the metropolitan area than any other homebuilder for each of the last five years. The Company delivered 1,000 homes in the year ending December 31, 19X5, and at December 31, 19X5, had 500 homes¹³ under contract with an aggregate sales price of approximately \$45,000,000. The Company's wholly owned mortgage banking subsidiary, which commenced operations in March 19X5, currently originates a substantial portion of the mortgages for homes sold by the Company.

The Company typically does not engage in land development without related homebuilding operations and limits speculative building. The Company purchases only that land which it is prepared to begin developing immediately for home production. A substantial portion of the Company's homes are under contract for sale before construction commences.

The DEF area has been among the top five markets in the country in housing starts for each of the last five years, with more than 90,000 single-family starts during that period. During the same period, the DEF metropolitan area has experienced increases in population, personal income, and employment at rates above the national average. The Company is a major competitive factor in three of the seven market areas, and is expanding significantly in a fourth area.

The Offering

Stock Offered by the Company	750,000 [Ⓞ] shares of Common Stock—\$.01 par value (the Common Stock)*
Common Stock to Be Outstanding	3,250,000 shares*
Use of Proceeds	To repay indebtedness incurred for the acquisition of the Company.
Proposed NASDAQ Symbol	ABC

* Assumes no exercise of the Underwriters' overallotment option. See "Underwriting".

Summary Financial Information
(In thousands, except per-share data)

<i>Income Statement Data</i>	<i>XYZ (Predecessor Company)</i>				<i>ABC Company</i>
	<u>19X1</u>	<u>19X2</u>	<u>19X3</u>	<u>19X4</u>	<u>Year Ended December 31, 19X5</u>
Revenue from home sales	\$106,603	\$88,970	\$104,110	\$115,837	\$131,032
Gross profit from sales	15,980	21,138	23,774	17,099	22,407
Income from home building net of tax	490	3,473	7,029	1,000	3,425
Earnings per share	—	—	—	—	\$ 1.37

¹³ See paragraph .55.

Example I: Alternate Wording When Accountants' Report on Audited Financial Statements Contains an Explanatory Paragraph

10. Example I is applicable when the accountants' report on the audited financial statements included in the registration statement contains an explanatory paragraph regarding a matter that would also affect the unaudited condensed consolidated interim financial statements included in the registration statement. The introductory paragraph of example A would be revised as follows:

Our reports with respect thereto (which contain an explanatory paragraph that describes a lawsuit to which the Company is a defendant, discussed in note 8 to the consolidated financial statements) are also included in the registration statement.

The matter described in the explanatory paragraph should also be evaluated to determine whether it also requires mention in the comments on the unaudited condensed consolidated interim financial information (paragraph 5b of example A). If it is concluded that mention of such a matter in the comments on unaudited condensed consolidated financial statements is appropriate, a sentence should be added at the end of paragraph 5b in example A:

Reference should be made to the introductory paragraph of this letter which states that our audit report covering the consolidated financial statements as of and for the year ended December 31, 19X5, includes an explanatory paragraph that describes a lawsuit to which the company is a defendant, discussed in note 8 to the consolidated financial statements.

Example J: Alternate Wording When More Than One Accountant Is Involved

11. Example J applies when more than one accountant is involved in the audit of the financial statements of a business and the principal accountants have obtained a copy of the comfort letter of the other accountants (see paragraph .18). Example J consists of an addition to paragraph 4c, a substitution for the applicable part of paragraph 5, and an addition to paragraph 6 of example A.

[4]c. We have read the letter dated _____ of [*the other accountants*] with regard to [*the related company*].

5. Nothing came to our attention as a result of the foregoing procedures (which, so far as [*the related company*] is concerned, consisted solely of reading the letter referred to in 4c), however, that caused us to believe that....

6. . . .On the basis of these inquiries and our reading of the minutes and the letter dated _____ of [*the other accountants*] with regard to [*the related company*], as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

Example K: Alternate Wording When the SEC Has Agreed to a Departure From Its Accounting Requirements

12. Example K is applicable when (a) there is a departure from the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC and (b) representatives of the SEC have agreed to the departure. Paragraph 2 of example A would be revised to read as follows:

2. In our opinion [*include the phrase "except as disclosed in the registration statement," if applicable*], the consolidated financial statements and financial statement schedules audited by us and included (incorporated by reference) in the registration statement comply as to form in all material respects with the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC; however, as agreed to by representatives of the SEC, separate financial statements and financial statement schedules of ABC Company (an equity investee) as required by rule 3-09 of Regulation S-X have been omitted.

Example L: Alternate Wording When Recent Earnings Data Are Presented in Capsule Form

13. Example L is applicable when (a) the statement of income in the registration statement is supplemented by later information regarding sales and earnings (capsule financial information), (b) the accountants are asked to comment on that information (paragraphs .39-.41), and (c) the accountants have conducted a review in accordance with section 722 of the financial statements from which the capsule financial information is derived. The same facts exist as in example A, except for the following:

- a. Sales, net income (no extraordinary items), and earnings per share for the six-month periods ended June 30, 19X6 and 19X5 (both unaudited), are included in capsule form more limited than that specified by Financial Accounting Standards Board *Accounting Standards Codification* 270, *Interim Reporting*.
- b. No financial statements later than those for June 19X6 are available.
- c. The letter is dated July 25, 19X6, and the cutoff date is July 20, 19X6.

Paragraphs 4, 5, and 6 of example A should be revised to read as follows:

4. For purposes of this letter we have read the 19X6 minutes of the meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company and its subsidiaries as set forth in the minute books at July 20, 19X6, officials of the company having advised us that the minutes of all such meetings¹⁴ through that date were set forth therein; we have carried out other procedures to July 20, 19X6, as follows (our work did not extend to the period from July 21, 19X6, to July 25, 19X6, inclusive):

- a. With respect to the three-month periods ended March 31, 19X6 and 19X5, we have—
 - (i) Performed the procedures specified by the American Institute of Certified Public Accountants for a review of interim financial information as described in SAS No. 100, *Interim Financial Information*, on the unaudited condensed consolidated balance sheet as of March 31, 19X6, and the unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, included in the registration statement.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in (i) comply as to form in all material respects with the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC.

¹⁴ See footnote 3 of the appendix.

- b. With respect to the six-month periods ended June 30, 19X6 and 19X5, we have—
- (i) Read the unaudited amounts for sales, net income, and earnings per share for the six-month periods ended June 30, 19X6 and 19X5, as set forth in paragraph [*identify location*].
 - (ii) Performed the procedures specified by the American Institute of Certified Public Accountants for a review of financial information as described in SAS No. 100, *Interim Financial Information*, on the unaudited condensed consolidated balance sheet as of June 30, 19X6 and the unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the six-month periods ended June 30, 19X6 and 19X5 from which the unaudited amounts referred to in *b(i)* are derived.
 - (iii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited amounts referred to in (i) are stated on a basis substantially consistent with that of the corresponding amounts in the audited consolidated statements of income.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations regarding the sufficiency of the foregoing procedures for your purposes.

5. Nothing came to our attention as a result of the foregoing procedures, however, that caused us to believe that—

- a. (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in *4a(i)*, included in the registration statement, for them to be in conformity with generally accepted accounting principles.
- (ii) The unaudited condensed consolidated financial statements described in *4a(i)* do not comply as to form in all material respects with the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC.
- b. (i) The unaudited amounts for sales, net income and earnings per share for the six-month periods ended June 30, 19X6 and 19X5, referred to in *4b(i)* do not agree with the amounts set forth in the unaudited consolidated financial statements for those same periods.
- (ii) The unaudited amounts referred to in *b(i)* were not determined on a basis substantially consistent with that of the corresponding amounts in the audited consolidated statements of income.
- c. At June 30, 19X6, there was any change in the capital stock, increase in long-term debt or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

6. Company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to June 30, 19X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after June 30, 19X6, have been, of necessity, even more limited than those with respect to the periods referred to in 4. We have inquired of certain officials of the company who have responsibility for financial and accounting matters regarding whether (*a*) at July 20, 19X6, there was

any change in the capital stock, increase in long-term debt or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 19X6 unaudited condensed consolidated balance sheet included in the registration statement; or (b) for the period from July 1, 19X6, to July 20, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income. On the basis of these inquiries and our reading of the minutes as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

[Revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

Example M: Alternate Wording When Accountants Are Aware of a Decrease in a Specified Financial Statement Item

14. Example M covers a situation in which accountants are aware of a decrease in a financial statement item on which they are requested to comment (see paragraphs .45–.53). The same facts exist as in example A, except for the decrease covered in the following change in paragraph 5b.

- a. (i) At May 31, 19X6, there was any change in the capital stock, increase in long-term debt or any decrease in consolidated stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement, or (ii) for the period from April 1, 19X6, to May 31, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or the total or per-share amounts of income before extraordinary items or of net income, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur and except that the unaudited consolidated balance sheet as of May 31, 19X6, which we were furnished by the company, showed a decrease from March 31, 19X6, in consolidated net current assets as follows (in thousands of dollars):

	<i>Current</i> <u>Assets</u>	<i>Current</i> <u>Liabilities</u>	<i>Net Current</i> <u>Assets</u>
March 31, 19X6	\$4,251	\$1,356	\$2,895
May 31, 19X6	3,986	1,732	2,254

6. As mentioned in 4b, company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to May 31, 19X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 19X6, have been, of necessity, even more limited than those with respect to the periods referred to in 4. We have inquired of certain officials of the company who have responsibility for financial and accounting matters regarding whether (a) there was any change at June 23, 19X6, in the capital stock, increase in long-term debt or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement; or (b) for the period from April 1, 19X6, to June 23, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income. On the basis of these

inquiries and our reading of the minutes as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur and except as described in the following sentence. We have been informed by officials of the company that there continues to be a decrease in net current assets that is estimated to be approximately the same amount as set forth in 5b [or *whatever other disclosure fits the circumstances*].

Example N: Alternate Wording of the Letter for Companies That Are Permitted to Present Interim Earnings Data for a Twelve-Month Period

15. Certain types of companies are permitted to include earnings data for a twelve-month period to the date of the latest balance sheet furnished in lieu of earnings data for both the interim period between the end of the latest fiscal year and the date of the latest balance sheet and the corresponding period of the preceding fiscal year. The following would be substituted for the applicable part of paragraph 3 of example A.

3. . . . was to enable us to express our opinion on the financial statements as of December 31, 19X5, and for the year then ended, but not on the financial statements for any period included in part within that year. Therefore, we are unable to and do not express any opinion on the unaudited condensed consolidated balance sheet as of March 31, 19X6, and the related unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the twelve months then ended included in the registration statement. . . .

Example O: Alternate Wording When the Procedures That the Underwriter Has Requested the Accountant to Perform on Interim Financial Information Are Less Than an SAS No. 100 Review

16. The example assumes that the underwriter has asked the accountants to perform specified procedures on the interim financial information and report thereon in the comfort letter. The letter is dated June 28, 19X6; procedures were performed through June 23, 19X6, the cutoff date. Since an SAS No. 100 [section 722] review was not performed on the interim financial information as of March 31, 19X6 and for the quarter then ended, the accountants are limited to reporting procedures performed and findings obtained on the interim financial information. In addition to the information presented below, the letter would also contain paragraph 7 of the typical comfort letter in example A.

June 28, 19X6

[Addressee]

Dear Sirs:

We have audited the consolidated balance sheets of The Blank Company, Inc. (the company) and the subsidiaries as of December 31, 19X5 and 19X4, and the consolidated statements of income, retained earnings (stockholders' equity), and cash flows for each of the three years in the period ended December 31, 19X5 and the related financial statement schedules all included in the registration statement (no. 33-00000) on Form S-1 filed by the company under the Securities Act of 1933 (the act); our reports with respect thereto are included in that registration statement. The registration statement, as amended on June 28, 19X6, is herein referred to as the registration statement.

Also, we have compiled the forecasted balance sheet and consolidated statements of income, retained earnings (stockholders' equity), and cash flows as of December 31, 19X6 and for the year then ending, attached to the registration statement, as indicated in our report dated May 15, 19X6, which is attached.

In connection with the registration statement—

1. We are independent certified public accountants with respect to the company within the meaning of the act and the applicable rules and regulations thereunder adopted by the SEC.

2. In our opinion [*include the phrase "except as disclosed in the registration statement," if applicable*], the consolidated financial statements and financial statement schedules audited by us and included in the registration statement comply as to form in all material respects with the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC.

3. We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 19X5; although we have conducted an audit for the year ended December 31, 19X5, the purpose (and therefore the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 19X5, and for the year then ended, but not on the financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the unaudited condensed consolidated balance sheet as of March 31, 19X6, and the unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, included in the registration statement, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 19X5.

4. For purposes of this letter, we have read the 19X6 minutes of meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company as set forth in the minute books at June 23, 19X6, officials of the company having advised us that the minutes of all such meetings¹⁵ through that date were set forth therein; we have carried out other procedures to June 23, 19X6, as follows (our work did not extend to the period from June 24, 19X6, to June 28, 19X6, inclusive):

- a. With respect to the three-month periods ended March 31, 19X6 and 19X5, we have—
 - (i) Read the unaudited condensed consolidated balance sheet as of March 31, 19X6, and unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, included in the registration statement, and agreed the amounts contained therein with the company's accounting records as of March 31, 19X6 and 19X5, and for the three-month periods then ended.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in a(i): (1) are in conformity with generally accepted accounting principles¹⁶ applied on a basis substantially consistent with that of the audited consolidated financial statements included in the registration statement, and (2) comply as to form in all material respects with the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC. Those officials

¹⁵ See footnote 3 of the appendix.

¹⁶ See footnote 5 of the appendix.

stated that the unaudited condensed consolidated financial statements (1) are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited financial statements, and (2) comply as to form in all material respects with the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC.

b. With respect to the period from April 1, 19X6, to May 31, 19X6, we have—

- (i) Read the unaudited condensed consolidated financial statements of the company¹⁷ for April and May of both 19X5 and 19X6 furnished us by the company, and agreed the amounts contained therein to the company's accounting records. Officials of the company have advised us that no such financial statements as of any date or for any period subsequent to May 31, 19X6, were available.
- (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether (1) the unaudited financial statements referred to in *b(i)* are stated on a basis substantially consistent with that of the audited consolidated financial statements included in the registration statement, (2) at May 31, 19X6, there was any change in the capital stock, increase in long-term debt or any decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 19X6 unaudited condensed consolidated balance sheet included in the registration statement, and (3) for the period from April 1, 19X6, to May 31, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income.

Those officials stated that (1) the unaudited consolidated financial statements referred to in *4b(i)* are stated on a basis substantially consistent with that of the audited consolidated financial statements included in the registration statement, (2) at May 31, 19X6, there was no change in the capital stock, no increase in long-term debt, and no decrease in net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement, and (3) there were no decreases for the period from April 1, 19X6, to May 31, 19X6, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income.

- c. As mentioned in *4b(i)*, company officials have advised us that no financial statements as of any date or for any period subsequent to May 31, 19X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 19X6, have, of necessity, been even more limited than those with respect to the periods referred to in *4a* and *4b*. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at June 23, 19X6, there was any change in the capital stock, increase in long-term debt or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement, or (b) for the period from April 1, 19X6, to June 23, 19X6, there were any decreases, as compared with the corresponding

¹⁷ See footnote 4 of the appendix.

period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income. Those officials stated that (1) at June 23, 19X6, there was no change in the capital stock, no increase in long-term debt and no decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 19X6, unaudited condensed consolidated balance sheet, and (2) for the period from April 1, 19X6, to June 23, 19X6, there were no decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. We make no representations regarding the sufficiency of the foregoing procedures for your purposes. Had we performed additional procedures or had we conducted an audit or a review, other matters might have come to our attention that would have been reported to you.

5. At your request, we also performed the following procedures:
 - a. Read the unaudited pro forma condensed consolidated balance sheet as of March 31, 19X6, and the unaudited pro forma condensed consolidated statements of income for the year ended December 31, 19X5, and the three-month period ended March 31, 19X6, included in the registration statement.
 - b. Inquired of certain officials of the company and of XYZ Company (the company being acquired) who have responsibility for financial and accounting matters as to whether all significant assumptions regarding the business combination had been reflected in the pro forma adjustments and whether the unaudited pro forma condensed consolidated financial statements referred to in (a) comply as to form in all material respects with the applicable accounting requirements of rule 11-02 of Regulation S-X.

Those officials referred to above stated, in response to our inquiries, that all significant assumptions regarding the business combination had been reflected in the pro forma adjustments and that the unaudited pro forma condensed consolidated financial statements referred to in (a) comply as to form in all material respects with the applicable accounting requirements of rule 11-02 of Regulation S-X.

- c. Compared the historical financial information for the company included on page 20 in the registration statement with historical financial information for the company on page 12 and found them to be in agreement.

We also compared the financial information included on page 20 of the registration statement with the historical information for XYZ Company on page 13 and found them to be in agreement.
 - d. Proved the arithmetic accuracy of the application of the pro forma adjustments to the historical amounts in the unaudited pro forma condensed consolidated financial statements.

The foregoing procedures are less in scope than an examination, the objective of which is the expression of an opinion on management's assumptions, the pro forma adjustments, and the application of those adjustments to historical financial information. Accordingly, we do not express such an opinion. We make no representation about the sufficiency of the foregoing procedures for your purposes. Had we performed additional procedures or had we made an examination of the pro forma financial information, other matters might have come to our attention that would have been reported to you.

6. At your request, we performed the following procedures with respect to the forecasted consolidated balance sheet and consolidated statements of income and cash flows as of December 31, 19X6, and for the year then ending. With respect to forecasted rental income, we compared the occupancy statistics about expected demand for rental of the housing units to statistics for existing comparable properties and found them to be the same.

Because the procedures described above do not constitute an examination of prospective financial statements in accordance with standards established by the American Institute of Certified Public Accountants, we do not express an opinion on whether the prospective financial statements are presented in conformity with AICPA presentation guidelines or on whether the underlying assumptions provide a reasonable basis for the presentation. Furthermore, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We make no representations about the sufficiency of such procedures for your purposes. Had we performed additional procedures or had we made an examination of the forecast in accordance with standards established by the AICPA, matters might have come to our attention that would have been reported to you.

Example P: A Typical Comfort Letter in a Non-1933 Act Offering, Including the Required Underwriter Representations

17. Example P is applicable when a comfort letter is issued in a non-1933 Act offering. The underwriter has given the accountants a letter including the representations regarding their due diligence review process, as described in paragraphs .06 and .07, and the comfort letter refers to those representations. In addition, the example assumes that the accountants were unable, or were not requested, to perform an SAS No. 100 [section 722] review of a subsequent interim period and therefore no negative assurance has been given. See paragraph .47.

November 30, 19X5

[Addressee]

Dear Sirs:

We have audited the balance sheets of Example City, Any State Utility System as of June 30, 19X5 and 19X4, and the statements of revenues, expenses, and changes in retained earnings and cash flows for the years then ended, included in the Official Statement for \$30,000,000 of Example City, Any State Utility System Revenue Bonds due November 30, 19Z5. Our report with respect thereto is included in the Official Statement. This Official Statement, dated November 30, 19X5, is herein referred to as the Official Statement.

This letter is being furnished in reliance upon your representation to us that—

- a. You are knowledgeable with respect to the due diligence review process that would be performed if this placement of securities were being registered pursuant to the Securities Act of 1933 (the act).
- b. In connection with the offering of revenue bonds, the review process you have performed is substantially consistent with the due diligence review process that you would have performed if this placement of securities were being registered pursuant to the act.

In connection with the Official Statement—

1. We are independent certified public accountants with respect to Example City, Any State and its Utility System under rule 101 of the AICPA's *Code of Professional Conduct*, and its interpretations and rulings.
2. We have not audited any financial statements of Example City, Any State Utility System as of any date or for any period subsequent to June 30, 19X5;

although we have conducted an audit for the year ended June 30, 19X5, the purpose (and therefore the scope) of the audit was to enable us to express our opinion on the financial statements as of June 30, 19X5, and for the year then ended, but not on the financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the financial position, results of operations, or cash flows as of any date or for any period subsequent to June 30, 19X5, for the Example City, Any State Utility System.

3. For purposes of this letter we have read the 19X5 minutes of the meetings of the City Council of Example City, Any State as set forth in the minutes books as of November 25, 19X5, the City Clerk of Example City having advised us that the minutes of all such meetings¹⁸ through that date were set forth therein.

4. With respect to the period subsequent to June 30, 19X5, we have carried out other procedures to November 25, 19X5, as follows (our work did not extend to the period from November 26, 19X5, to November 30, 19X5, inclusive):

- We have inquired of, and received assurance from, city officials who have responsibility for financial and accounting matters, that no financial statements as of any date or for any period subsequent to June 30, 19X5, are available.
- We have inquired of those officials regarding whether (a) at November 25, 19X5, there was any increase in long-term debt or any decrease in net current assets of Example City, Any State Utility System as compared with amounts shown on the June 30, 19X5, balance sheet, included in the Official Statement, or (b) for the period from July 1, 19X5, to November 25, 19X5, there were any decreases, as compared with the corresponding period in the preceding year, in total operating revenues, income from operations or net income. Those officials stated that (1) at November 25, 19X5, there was no increase in long-term debt and no decrease in net current assets of the Example City, Any State Utility System as compared with amounts shown in the June 30, 19X5, balance sheet; and (2) there were no decreases for the period from July 1, 19X5, to November 25, 19X5, as compared with the corresponding period in the preceding year, in total operating revenues, income from operations, or net income, except in all instances for changes, increases, or decreases that the Official Statement discloses have occurred or may occur.

5. For accounting data pertaining to the years 19X3–19X5, inclusive, shown on page 11 of the Official Statement, we have (i) for data shown in the audited financial statements, compared such data with the audited financial statements of the Example City, Any State Utility System for 19X3–19X5 and found them to be in agreement; and (ii) for data not directly shown in the audited financial statements, compared such data with the general ledger and accounting records of the Utility System from which such information was derived, and found them to be in agreement.

6. The procedures enumerated in the preceding paragraphs do not constitute an audit conducted in accordance with generally accepted auditing standards. Accordingly, we make no representations regarding the sufficiency of the foregoing procedures for your purposes.

7. This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the Example City, Any State Utility System in connection with the offering of securities covered by the Official Statement, and it is not to be used, circulated, quoted, or otherwise referred to for any other purpose, including but not limited

¹⁸ See footnote 3 of paragraph .03.

to the purchase or sale of securities, nor is it to be filed with or referred to in whole or in part in the Official Statement or any other document, except that reference may be made to it in the Purchase Contract or in any list of closing documents pertaining to the offering of securities covered by the Official Statement.

Example Q: Letter to a Requesting Party That Has Not Provided the Representation Letter Described in Paragraphs .06 and .07

18. This example assumes that these procedures are being performed at the request of the placement agent on information included in an offering circular in connection with a private placement of unsecured notes with two insurance companies.¹⁹ The letter is dated June 30, 19X6; procedures were performed through June 25, 19X6, the cutoff date. The statements in paragraphs 5–9 of the example should be included in any letter issued pursuant to paragraph .09.²⁰

June 30, 19X6

[Addressee]

Dear Sirs:

We have audited the consolidated balance sheets of The Blank Company, Inc. (the company) and subsidiaries as of December 31, 19X5 and 19X4, and the consolidated statements of income, retained earnings (stockholders' equity), and cash flows for each of the three years in the period ended December 31, 19X5, included in the offering circular for \$30,000,000 of notes due June 30, 20X6. Our report with respect thereto is included in the offering circular. The offering circular dated June 30, 19X6, is herein referred to as the offering circular.

We are independent certified public accountants with respect to the company under rule 101 of the AICPA's Code of Professional Conduct, and its interpretations and rulings.²¹

We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 19X5; although we have conducted an audit for the year ended December 31, 19X5, the purpose (and, therefore, the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 19X5, and for the year then ended, but not on the financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the unaudited condensed consolidated balance sheet as of March 31, 19X6, and the unaudited condensed consolidated statements of income, retained earnings (stockholders'

¹⁹ This same example could be used in conjunction with a municipal bond offering in which the accountant has not received the representation letter described in paragraphs .06 and .07. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

²⁰ This example may also be used in connection with a filing under the Securities Act of 1933 (the act) when a party other than a named underwriter (for example, a selling shareholder) has not provided the accountant with the representation letter described in paragraphs .06 and .07. In such a situation, this example may be modified to include the accountant's comments on independence and compliance as to form of the audited financial statements and financial statement schedules with the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC. Example paragraph 1a(ii) may include an inquiry, and the response of company officials, on compliance as to form of the unaudited condensed interim financial statements. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

²¹ See paragraphs .31 and .32 for guidance in commenting on independence. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, included in the offering circular, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 19X5.

1. At your request, we have read the 19X6 minutes of meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company as set forth in the minute books at June 25, 19X6, officials of the company having advised us that the minutes of all such meetings²² through that date were set forth therein; we have carried out other procedures to June 25, 19X6 (our work did not extend to the period from June 26, 19X6, to June 30, 19X6, inclusive), as follows:

- a. With respect to the three-month periods ended March 31, 19X6 and 19X5, we have—
 - (i) Read the unaudited condensed consolidated balance sheet as of March 31, 19X6, and the unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows^{23, 24} of the company for the three-month periods ended March 31, 19X6 and 19X5, included in the offering circular, and agreed the amounts contained therein with the company's accounting records as of March 31, 19X6 and 19X5, and for the three-month periods then ended.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in a(i) are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited consolidated financial statements included in the offering circular. Those officials stated that the unaudited condensed consolidated financial statements are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited consolidated financial statements.
- b. With respect to the period from April 1, 19X6, to May 31, 19X6, we have—
 - (i) Read the unaudited condensed consolidated financial statements of the company for April and May of both 19X5 and 19X6, furnished us by the company, and agreed the amounts contained therein with the company's accounting records. Officials of the company have advised us that no financial statements as of any date or for any period subsequent to May 31, 19X6, were available.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether (1) the unaudited condensed consolidated financial statements referred to in b(i) are stated on a basis substantially consistent with that of the audited consolidated financial statements included in the offering circular, (2) at May 31, 19X6, there was any change in the capital stock, increase in long-term debt or any decrease in consolidated net current assets or stockholders' equity of the consolidated companies

²² See footnote 3 of the appendix. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

²³ See footnotes 4 and 5 of the appendix. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

²⁴ Generally, accountants should recognize that the criteria for summarized financial information have not been established for entities other than SEC registrants. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

as compared with amounts shown in the March 31, 19X6, unaudited condensed consolidated balance sheet included in the offering circular; and (3) for the period from April 1, 19X6, to May 31, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income.

Those officials stated that (1) the unaudited condensed consolidated financial statements referred to in *b(ii)* are stated on a basis substantially consistent with that of the audited consolidated financial statements included in the offering circular, (2) at May 31, 19X6, there was no change in the capital stock, no increase in long-term debt, and no decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 19X6, unaudited condensed consolidated balance sheet included in the offering circular, and (3) there were no decreases for the period from April 1, 19X6, to May 31, 19X6, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income.

- c. As mentioned in *1b*, company officials have advised us that no financial statements as of any date or for any period subsequent to May 31, 19X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 19X6, have, of necessity, been even more limited than those with respect to the periods referred to in *1a* and *1b*. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (i) at June 25, 19X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 19X6, unaudited condensed consolidated balance sheet included in the offering circular or (ii) for the period from April 1, 19X6, to June 25, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income.

Those officials referred to above stated that (i) at June 25, 19X6, there was no change in the capital stock, no increase in long-term debt, and no decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 19X6, unaudited condensed consolidated balance sheet, and (ii) there were no decreases for the period from April 1, 19X6, to June 25, 19X6, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income.

2. At your request, we have read the following items in the offering circular on the indicated pages.²⁵

²⁵ In some cases it may be considered desirable to combine in one paragraph the substance of paragraphs 2 and 4. This may be done by expanding the identification of terms in paragraph 4 to provide the identification information contained in paragraph 2. In such cases the introductory sentences in paragraphs 2 and 4 and the text of paragraph 3 might be combined as follows: "At your request, we have also read the following information and have performed the additional procedures stated below with respect to such information. Our audit of the consolidated financial statements..." [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

<u>Item</u>	<u>Page</u>	<u>Description</u>
a	13	"History and Business—Sales and Marketing." The table following the first paragraph.
b	22	"Executive Compensation—19X5 Compensation."
c	33	"Selected Financial Data." ²⁶

3. Our audits of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements taken as a whole. For none of the periods referred to therein, nor for any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions such as those enumerated above, and, accordingly, we express no opinion thereon.

4. However, at your request, we have performed the following additional procedures, which were applied as indicated with respect to the items enumerated above.

<u>Item in 2</u>	<u>Procedures and Findings</u>
a	We compare the amounts of military sales, commercial sales, and total sales shown in the registration statement with the balances in the appropriate accounts in the company's accounting records for the respective fiscal years and for the unaudited interim periods and found them to be in agreement. We proved the arithmetic accuracy of the percentages of such amounts of military sales and commercial sales to total sales for the respective fiscal years and for the unaudited interim periods. We compared such computed percentages with the corresponding percentages appearing in the registration statement and found them to be in agreement.
b	We compared the dollar amounts of compensation (salary, bonus, and other compensation) for each individual listed in the table "Annual Compensation" with the corresponding amounts shown by the individual employee earnings records for the year 19X5 and found them to be in agreement. We compared the dollar amounts shown under the heading of "Long-Term Compensation" on page 24 for each listed individual and the aggregate amounts for executive officers with corresponding amounts shown in an analysis prepared by the company and found such amounts to be in agreement.
c	We compared the amounts of net sales, income from continuing operations, income from continuing operations per common share, and cash dividends declared per common share for the years ended December 31, 19X5, 19X4, and 19X3, with the respective amounts in the consolidated financial statements on pages 27 and 28 and the amounts for the years ended December 31, 19X2, and 19X1, with the respective amounts in the consolidated financial statements included in the company's annual reports to stockholders for 19X2 and 19X1 and found them to be in agreement.

We compared the amounts of total assets, long-term obligations, and redeemable preferred stock at December 31, 19X5 and 19X4, with the respective amounts in the consolidated financial statements on pages 27 and 28 and the amounts at December 31, 19X3, and 19X2, and 19X1 with the corresponding amounts in the consolidated financial statements included in the company's annual reports to stockholders for 19X3, 19X2, and 19X1 and found them to be in agreement.

²⁶ See footnote 10 of the appendix. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

5. It should be understood that we have no responsibility for establishing (and did not establish) the scope and nature of the procedures enumerated in paragraphs 1–4 above; rather, the procedures enumerated therein are those the requesting party asked us to perform. Accordingly, we make no representations regarding questions of legal interpretation²⁷ or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraphs; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages listed above as set forth in the offering circular. Further, we have addressed ourselves solely to the foregoing data and make no representations regarding the adequacy of disclosures or whether any material facts have been omitted. This letter relates only to the financial statement items specified above and does not extend to any financial statement of the company taken as a whole.

6. The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Had we performed additional procedures or had we conducted an audit or a review of the company's March 31, April 30, or May 31, 19X6 and 19X5, condensed consolidated financial statements in accordance with standards established by the American Institute of Certified Public Accountants, other matters might have come to our attention that would have been reported to you.

7. These procedures should not be taken to supplant any additional inquiries or procedures that you would undertake in your consideration of the proposed offering.

8. This letter is solely for your information and to assist you in your inquiries in connection with the offering of the securities covered by the offering circular, and it is not to be used, circulated, quoted, or otherwise referred to for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the offering document or any other document, except that reference may be made to it in any list of closing documents pertaining to the offering of the securities covered by the offering document.

9. We have no responsibility to update this letter for events and circumstances occurring after June 25, 19X6.

Example R: Comfort Letter That Includes Reference to Examination of Annual MD&A and Review of Interim MD&A

19. This example assumes the following circumstances.²⁸ The prospectus (part I of the registration statement) includes audited consolidated balance sheets as of December 31, 19X5 and 19X4, and audited consolidated statements of income, retained earnings (stockholders' equity), and cash flows for each of the three years in the period ended December 31, 19X5. Part I also includes an unaudited condensed consolidated balance sheet as of March 31, 19X6, and unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5. Part II of the registration statement includes audited consolidated financial statement schedules for the three years ended

²⁷ See footnote 7 to paragraph .09. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

²⁸ The example includes financial statements required by SEC regulations to be included in the filing. If additional financial information is covered by the comfort letter, appropriate modifications should be made. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

December 31, 19X5. The accountants have examined the company's management's discussion and analysis (MD&A) for the year ended December 31, 19X5, in accordance with AT section 701; the accountants have also performed reviews of the company's unaudited condensed consolidated financial statements, referred to above, in accordance with section 722, and the company's MD&A for the three-month period ended March 31, 19X6, in accordance with AT section 701. The accountant's reports on the examination and review of MD&A have been previously issued, but not distributed publicly; none of these reports is included in the registration statement. The cutoff date is June 23, 19X6, and the letter is dated June 28, 19X6. The effective date is June 28, 19X6.

Each of the comments in the letter is in response to a requirement of the underwriting agreement. For purposes of example R, the income statement items of the current interim period are to be compared with those of the corresponding period of the preceding year.

June 28, 19X6

[Addressee]

Dear Sirs:

We have audited the consolidated balance sheets of The Blank Company, Inc. (the company) and subsidiaries as of December 31, 19X5 and 19X4, and the consolidated statements of income, retained earnings (stockholders' equity), and cash flows for each of the three years in the period ended December 31, 19X5, and the related financial statement schedules, all included in the registration statement (no. 33-00000) on Form S-1 filed by the company under the Securities Act of 1933 (the act); our reports with respect thereto are also included in that registration statement. The registration statement, as amended on June 28, 19X6, is herein referred to as the registration statement. Also, we have examined²⁹ the company's Management's Discussion and Analysis for the year ended December 31, 19X5, included in the registration statement, as indicated in our report dated March 28, 19X6; our report with respect thereto is attached.³⁰ We have also reviewed the unaudited condensed consolidated financial statements as of March 31, 19X6 and 19X5, and for the three-month periods then ended, included in the registration statement, as indicated in our report dated May 15, 19X6, and have also reviewed the company's Management's Discussion and Analysis for the three-month period ended March 31, 19X6, included in the registration statement, as indicated in our report dated May 15, 19X6; our reports with respect thereto are attached.³¹

In connection with the registration statement—

1. We are independent certified public accountants with respect to the company within the meaning of the act and the applicable rules and regulations thereunder adopted by the SEC.

2. In our opinion [*include the phrase "except as disclosed in the registration statement," if applicable*], the consolidated financial statements and financial statement schedules audited by us and included in the registration statement comply as to form in all material respects with the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC.

²⁹ If the accountant has performed a review of the company's annual MD&A, the opening paragraph of the comfort letter should be revised accordingly. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

³⁰ The accountant has elected to attach the previously issued reports to the comfort letter (see paragraph .29). [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

³¹ See footnote 30 of the appendix. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

3. We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 19X5; although we have conducted an audit for the year ended December 31, 19X5, the purpose (and therefore the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 19X5, and for the year then ended, but not on the financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the unaudited condensed consolidated balance sheet as of March 31, 19X6, and the unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 1, 19X6 and 19X5, included in the registration statement, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 19X5.

4. We have not examined any management's discussion and analysis of the company as of or for any period subsequent to December 31, 19X5; although we have made an examination of the company's Management's Discussion and Analysis for the year ended December 31, 19X5, included in the company's registration statement, the purpose (and therefore the scope) of the examination was to enable us to express our opinion on such Management's Discussion and Analysis, but not on the management's discussion and analysis for any interim period within that year. Therefore, we are unable to and do not express any opinion on the Management's Discussion and Analysis for the three-month period ended March 31, 19X6, included in the registration statement, or for any period subsequent to March 31, 19X6.

5. For purposes of this letter we have read the 19X6 minutes of meetings of the stockholders, the board of directors, and *[include other appropriate committees, if any]* of the company and its subsidiaries as set forth in the minute books at June 23, 19X6, officials of the company having advised us that the minutes of all such meetings³² through that date were set forth therein; we have carried out other procedures to June 23, 19X6, as follows (our work did not extend to the period from June 24, 19X6, to June 28, 19X6, inclusive):

- a. With respect to the three-month periods ended March 31, 19X6 and 19X5, we have inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated balance sheet as of March 31, 19X6, and the unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, included in the registration statement, comply as to form in all material respects with the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC.
- b. With respect to the period from April 1, 19X6, to May 31, 19X6, we have—
 - (i) Read the unaudited consolidated financial statements³³ of the company and subsidiaries for April and May of both 19X5 and 19X6 furnished to us by the company, officials of the company having advised us that no such financial statements as of any date or for any period subsequent to May 31, 19X6, were available.

³² See footnote 3 of the appendix. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

³³ See footnote 4 of the appendix. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

- (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited consolidated financial statements referred to in item b(i) are stated on a basis substantially consistent with that of the audited consolidated financial statements included in the registration statement.

The foregoing procedures do not constitute an audit of financial statements conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations regarding the sufficiency of the foregoing procedures for your purposes.

6. Nothing came to our attention as a result of the foregoing procedures, however, that caused us³⁴ to believe that—

- a. The unaudited condensed consolidated financial statements described in item 5a do not comply as to form in all material respects with the applicable accounting requirements of the act and the related rules and regulations adopted by the SEC.
- b. (i) At May 31, 19X6, there was any change in the capital stock, increase in long-term debt, or decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement, or
- (ii) For the period from April 1, 19X6, to May 31, 19X6, there were any decreases, as compared to the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

7. As mentioned in item 5b, company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to May 31, 19X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 19X6, have, of necessity, been even more limited than those with respect to the periods referred to in item 5. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at June 23, 19X6, there was any change in the capital stock, increase in long-term debt or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement or (b) for the period from April 1, 19X6, to June 23, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income. On the basis of these inquiries and our reading of the minutes as described in item 5, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

³⁴ See footnote 5 of the appendix. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

8. This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or otherwise referred to within or without the underwriting group for any purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or in any list of closing documents pertaining to the offering of the securities covered by the registration statement.

[Paragraph renumbered and amended, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by the issuance of Statement on Auditing Standards No. 76. As amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86. Revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10. Revised, January 2006, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 100.]

AU Section 9634

Letters for Underwriters and Certain Other Requesting Parties: Auditing Interpretations of Section 634

1. Letters to Directors Relating to Annual Reports on Form 10-K^[1]

.01 Question—Annual reports to the Securities and Exchange Commission (SEC) on Form 10-K must be signed by at least a majority of the registrant's board of directors. In reviewing the Form 10-K, directors may seek the involvement of the registrant's independent auditors and other professionals.

.02 What types of services could the auditor perform at the request of the board of directors in connection with the Form 10-K? For example, is it permissible for the auditor to comment on compliance of the registrant's Form 10-K with the requirements of the various SEC rules and regulations?^[1]

.03 Interpretation—The auditor can express an opinion to the board of directors on whether the financial statements and financial statement schedules audited comply as to form with the applicable accounting requirements of the Securities Exchange Act of 1934 and the related rules and regulations thereunder adopted by the SEC (see section 634 paragraph .33).²

.04 The auditor may affirm to the board of directors that under generally accepted auditing standards the auditor is required to read the information in addition to audited financial statements contained in the Form 10-K, for the purpose of considering whether such information may be materially inconsistent with information appearing in the financial statements (see section 550). However, the report to the board of directors should state that the auditor has no obligation to perform any procedures to corroborate such information.

.05 In addition, the auditor could perform, at the request of the board of directors, specified procedures and report the results of those procedures concerning various information contained in the Form 10-K such as tables, statistics and other financial information. There should be a clear understanding with the board as to the nature, extent and limitations of the procedures to be performed and as to the kind of report to be issued. Although the guidance provided in section 634 is intended primarily for auditors issuing a letter to underwriters and certain other requesting parties in connection with an offering of securities, the guidance in section 634 paragraphs .54–.60 would also be applicable when the auditor is asked to furnish a letter to the board of directors in connection with the filing of Form 10-K under the Securities Exchange Act of 1934.³ The types of information on which auditors may comment are described in section 634 paragraph .55. The auditor should comment only on that information if

^[1] [Footnote deleted June 1993, by the issuance of Statement on Auditing Standards No. 72.]

^[1] [Footnote deleted June 1993, by the issuance of Statement on Auditing Standards No. 72.]

² The auditor should not provide any assurance on compliance with the provisions of the Securities Exchange Act of 1934 regarding controls. [Revised, January 2009, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 15.]

³ Section 634 paragraph .12 states in part: "Accountants will normally be willing to assist the underwriter but the assistance accountants can provide by way of comfort letters is subject to limitations. One limitation is that independent accountants can properly comment in their professional capacity only on matters to which his professional expertise is substantially relevant."

the criteria in section 634 paragraphs .55 and .57 have been met. The comments should be made in the form of description of procedures performed and findings obtained, ordinarily expressed in terms of agreement between items compared.

.06 Certain financial information in Form 10-K is included because of specific requirements of Regulation S-K. The auditor may comment as to whether this information is in conformity with the disclosure requirements of Regulation S-K if the conditions in section 634 paragraph .57 are met. Section 634 paragraph .57 identifies the disclosure requirements of Regulation S-K that generally meet those conditions. The auditor is limited to giving negative assurance, since this information is not given in the form of financial statements and generally has not been audited by the accountants. (See section 634 paragraph .57.)

.07 The auditor should not comment on matters that are primarily subjective or judgmental in nature such as those included in Item 7 of Form 10-K, "Management's Discussion and Analysis of Financial Condition and Results of Operations." For example, changes between periods in gross profit ratios may be caused by factors that are not necessarily within the expertise of auditors. However, the auditor can comment on specific changes in comparative amounts that are included in management's discussion if the amounts used to compute such changes are obtained from the financial statements or accounting records as discussed in section 634 paragraph .55, but cannot comment with respect to the appropriateness of the explanations.

.08 There are no criteria by which to measure the sufficiency of the procedures performed by the accountants for the directors' purposes. Ordinarily the auditor should discuss with the directors or the audit committee the procedures to be performed and may suggest procedures that might be meaningful in the circumstances. However, the auditor should clearly indicate to the board of directors that the auditor cannot make any representations as to whether the agreed-upon procedures are sufficient for the directors' purposes.

.09 It should not ordinarily be necessary for the auditor to reaffirm the auditor's independence to the board of directors. If such a representation is requested, however, the auditor may include in the letter a statement similar to that described in section 634 paragraph .31.

[Issue Date: April, 1981; Modified: May, 1981;
Revised: June, 1993; Revised: January, 2001.]

[2.] Negative Assurance on Unaudited Condensed Interim Financial Statements Attached to Comfort Letters

[.10-.12] [Deleted April 1993 by Statement on Auditing Standards No. 72.]

3. Commenting in a Comfort Letter on Quantitative Disclosures About Market Risk Made in Accordance With Item 305 of Regulation S-K

.13 *Introduction*—Regulation S-K Item 305, *Quantitative and Qualitative Disclosures About Market Risk*, requires certain quantitative and qualitative disclosures with respect to derivative financial instruments, generally as defined in Financial Accounting Standards Board *Accounting Standards Codification* glossary.

.14 In addition to qualitative (i.e., descriptive) disclosures, Item 305 requires quantitative disclosures that may be presented in the form of a tabular presentation, sensitivity analysis, or value-at-risk disclosures. Disclosures

generally include a combination of historical and fair value data and the hypothetical effects on such data of assumed changes in interest rates, foreign currency exchange rates, commodity prices and other relevant market rates. The quantitative and qualitative information required by Item 305 should be disclosed outside the financial statements and related notes thereto.

.15 Question—May an accountant provide positive or negative assurance on conformity with Item 305 of Regulation S-K?

.16 Interpretation—Section 634, *Letters for Underwriters and Certain Other Requesting Parties*, paragraph .57, states that accountants may not give positive assurance on conformity of information with the disclosure requirements of Regulation S-K since this information is not in the form of financial statements and generally has not been audited by the accountants. Accountants may provide negative assurance on conformity with Regulation S-K only if the following conditions are met:

- a. The information is derived from the accounting records subject to the entity's controls over financial reporting, or has been derived directly from such accounting records by analysis or computation.
- b. This information is capable of evaluation against reasonable criteria that have been established by the SEC.

Although some information needed to comply with Item 305 is derived from the accounting records, registrants must also provide a substantial amount of information that is not derived from accounting records subject to the entity's controls over financial reporting. As a result, accountants should not provide negative assurance on conformity with Item 305 of Regulation S-K.

.17 Question—May an accountant otherwise provide comments in a comfort letter on items disclosed by registrants in accordance with Item 305 of Regulation S-K?

.18 Interpretation—Section 634 paragraph .55 states that accountants should comment only with respect to information—

- a. That is expressed in dollars (or percentages derived from such dollar amounts) and that has been obtained from accounting records that are subject to the entity's controls over financial reporting or
- b. That has been derived directly from such accounting records by analysis or computation.

As a result, accountants should not comment on the Item 305 qualitative disclosures.

.19 The three alternative forms of quantitative disclosures under Item 305 reflect hypothetical effects on market-risk-sensitive instruments and result in differing presentations. The forward-looking information used to prepare these presentations may be substantially removed from the accounting records that are subject to the entity's controls over financial reporting. Further, section 634 paragraph .55 also states that "the accountants should not comment on matters merely because they happen to be present and are capable of reading, counting, measuring, or performing other functions that might be applicable." Accordingly, an accountant's ability to comment on these disclosures is largely dependent upon the degree to which the forward-looking information used to prepare these disclosures is linked to such accounting records.

.20 The tabular presentation includes the fair values of market-risk-sensitive instruments and contract terms to determine the future cash flows

from those instruments that are categorized by expected maturity dates. This approach may require the use of yield curves and implied forward rates to determine expected maturity dates, as well as assumptions regarding prepayments and weighted average interest rates.

.21 The term *sensitivity analysis* describes a general class of models that are designed to assess the risk of loss in market-risk-sensitive instruments, based upon hypothetical changes in market rates or prices. Sensitivity analysis does not refer to any one, specific model and may include duration analysis or other "sensitivity" measures. The disclosures are dependent upon assumptions about theoretical future market conditions and, therefore, are not derived from the accounting records.

.22 The term *value at risk* describes a general class of models that provide a probabilistic assessment of the risk of loss in market-risk-sensitive instruments over a selected period of time, with a selected likelihood of occurrences based upon selected confidence intervals. Value-at-risk disclosures are extremely aggregated and, in addition to the assumptions made for sensitivity analyses, may include additional assumptions regarding correlation between asset classes and future market volatilities. As a result, these disclosures are not derived from the accounting records.

.23 Of the three disclosure alternatives, the tabular presentation contains the most limited number of assumptions and least complex mathematical calculations. Furthermore, certain information, such as contractual terms, included in a tabular presentation is derived from the accounting records. Accordingly, accountants may perform limited procedures related to tabular presentations to the extent that such information is derived from the accounting records.

.24 The modeling techniques and underlying assumptions utilized for sensitivity analysis and value-at-risk disclosures generally will be highly complex. The resultant disclosures may be substantially different from the basic historical financial input derived directly from the accounting records. Due to the hypothetical and forward-looking nature of these disclosures and the potentially limited usefulness of any procedures that may be performed, accountants should not agree to make any comments or perform any procedures related to sensitivity analysis or value-at-risk disclosures.

.25 When performing procedures related to tabular presentation disclosures, the accountant will need to consider whether the entity's documentation of its contractual positions in derivatives, commodities and other financial instruments is subject to the entity's controls over financial reporting and whether it provides a complete record of the entity's market-risk-sensitive instruments. In addition, the accountant should disclaim as to the reasonableness of the assumptions underlying the disclosures.

.26 Item 305 requires registrants to stratify financial instruments according to market risk category, i.e., interest rate risk, foreign exchange risk, and equity price risk. Item 305 stipulates that, if an instrument is at risk in more than one category, the instrument should be included in the disclosures for each applicable category. In reporting findings from agreed-upon procedures relating to market risk categories, the accountant should not provide any findings that the company's stratifications are complete or comply as to form with Item 305 requirements and should disclaim with respect to the company's determination of market risk categories.

.27 Item 305 encourages registrants to provide quantitative and qualitative information about market risk in terms of, among other things, the magnitude of actual past market movements and estimates of possible near-term market movements. Accountants should not agree to perform any procedures related to such market data.

.28 The accountant should establish a clear understanding with the underwriter as to the limitations of the procedures to be performed with respect to the market risk disclosures. Further, accountants should consider the need to utilize a specialist in performing procedures related to those disclosures.

.29 The following examples, based upon example H of section 634 paragraph .64, provide very simplified procedures, findings and limitations related to Item 305 tabular presentation disclosures. In practice, the procedures generally will be substantially more complex.

Symbol

Procedures and Findings

- ✓ Compared with a schedule prepared by the Company from its accounting records. We (a) compared the amounts on the schedule to corresponding amounts appearing in the accounting records and found such amounts to be in agreement and (b) determined that the schedule was mathematically correct. However, we make no comment as to the appropriateness or completeness of the Company's classification of its market-risk-sensitive instruments into market risk categories, nor as to its determination of the expected maturity dates or amounts. (Note: This is an example of procedures related to tabular presentations of face amounts, carrying amounts, fair values and notional amounts which stratify such amounts as to interest rate risk.)
- ⊗ Compared with a schedule prepared by the Company from its accounting records to calculate weighted average fixed interest rates and weighted average fixed pay and receive rates, and found such percentages to be in agreement. We (a) compared the amounts on the schedule to corresponding amounts appearing in the accounting records and found such amounts to be in agreement and (b) determined that the schedule was mathematically correct. However, we make no comment as to the appropriateness of the Company's methodology in calculating weighted average fixed rates.

(Note: It may be necessary to provide a more complete description of the procedures performed in other circumstances.)

We make no comment as to the appropriateness or completeness of the Company's determination of the Regulation S-K requirements for quantitative and qualitative disclosures about market risks or with respect to the reasonableness of the assumptions underlying the disclosures.

[The following is an extract from a registration statement that illustrates how an accountant can document procedures performed on a tabular presentation of market risk disclosures made in accordance with Item 305 of Regulation S-K.]

INTEREST RATE SENSITIVITY

The table that follows provides information about the Company's derivative financial instruments and other financial instruments that are sensitive to changes in interest rates, including interest rate swaps and debt obligations. For debt obligations, the table presents principal cash flows and related weighted average interest rates by expected maturity dates. For interest rate swaps, the table presents notional amounts and weighted average interest rates by expected maturity dates. Notional amounts are used to calculate the contractual payments to be exchanged under the contract. Weighted average variable rates are based on implied forward rates in the yield curve at the reporting date. The information is presented in U.S. dollar equivalents, which is the Company's reporting currency. The instrument's actual cash flows are denominated in both U.S. dollars (\$US) and German deutschmarks (DM), as indicated in parentheses.

	<i>Expected maturity dates</i>					<i>Total</i>	<i>Fair Value</i>
	<i>19X2⁴</i>	<i>19X3⁴</i>	<i>19X4⁴</i>	<i>19X5⁴</i>	<i>There-after⁴</i>		
<i>Liabilities</i>

[Issue Date: August 1998; Revised: June 2009.]

⁴ No findings should be expressed on amounts in these columns because these disclosures include either management's expectations of future cash flows or the use of implied forward rates applied to such expected cash flows. Accordingly, such information does not meet the criteria of section 634 paragraph .55.

AU Section 9642

Reporting on Internal Accounting Control: Auditing Interpretations of SAS No. 30

Many of the interpretations in this section were based on the concepts in Statement on Auditing Standards (SAS) No. 30, *Reporting on Internal Accounting Control*. SAS No. 30 was superseded in May 1993 by the issuance of Statement on Standards for Attestation Engagements (SSAE) No. 2, *Reporting on an Entity's Internal Control Over Financial Reporting*. Subsequently, SSAE No. 2 was superseded by SSAE No. 10, *Attestation Standards: Revision and Recodification*, which was issued in January 2001. The AICPA's Auditing Standards Board decided at its October 1993 meeting to delete these interpretations. Notes have been included below to indicate where current guidance may be found in AICPA literature.

[1.] Pre-Award Surveys^[*]

[.01–.03] [Deleted October 1993.] (See the guidance provided in attest interpretation No. 7 of SSAE No. 1 (AT section 9101.59–.69). AU Section 711*

Filings Under Federal Securities Statutes

Source: SAS No. 37.

See section 9711 for interpretations of this section.

Issue date, unless otherwise indicated: April, 1981.

.01 As in the case of financial statements used for other purposes, management has the responsibility for the financial representations contained in documents filed under the federal securities statutes. In this connection the Securities and Exchange Commission has said:

The fundamental and primary responsibility for the accuracy of information filed with the Commission and disseminated among the investors rests upon management. Management does not discharge its obligations in this respect by the employment of independent public accountants, however reputable. Accountants' certificates are required not as a substitute for management's accounting of its stewardship, but as a check upon the accounting.¹

.02 When an independent accountant's report is included in registration statements, proxy statements, or periodic reports filed under the federal securities statutes, the accountant's responsibility, generally, is in substance no different from that involved in other types of reporting. However, the nature and extent of this responsibility are specified in some detail in these statutes and in the related rules and regulations. For example, section 11(a) of the Securities Act of 1933, as amended, imposes responsibility for false or misleading statements in an effective registration statement, or for omissions that render statements made in such a document misleading, on

every accountant, engineer, or appraiser, or any person whose profession gives authority to a statement made by him, who has with his consent been named as having prepared or certified any part of the registration statement, or as having prepared or certified any report or valuation which is used in connection with the registration statement, report, or valuation, which purports to have been prepared or certified by him.

.03 Section 11 also makes specific mention of the independent accountant's responsibility as an expert when his report is included in a registration statement filed under that act.² Section 11(b) states, in part, that no person shall be liable as provided therein if that person sustains the burden of proof that

as regards any part of the registration statement purporting to be made upon his authority as an expert or purporting to be a copy of or extract from a report or valuation of himself as an expert, (i) he had, after reasonable investigation,

* **Note:** This section supersedes Statement on Auditing Standards No. 1, section 710, *Filings Under Federal Securities Statutes*. The changes provide guidance for the accountant whose report based on a review of interim financial information is presented, or incorporated by reference, in a filing under the Securities Act of 1933.

¹ 4 S. E. C. 721 (1939).

² Under rules of the Securities and Exchange Commission, a report based on a review of interim financial information is not a report by the accountant under section 11 (see paragraph .06).

reasonable ground to believe and did believe, at the time such part of the registration statement became effective, that the statements therein were true and that there was no omission to state a material fact required to be stated therein or necessary to make the statements therein not misleading, or (ii) such part of the registration statement did not fairly represent his statement as an expert or was not a fair copy of or extract from his report or valuation as an expert....

Section 11 further provides that, in determining what constitutes reasonable investigation and reasonable ground to believe, "the standard of reasonableness shall be that required of a prudent man in the management of his own property."

.04 This discussion of the independent accountant's responsibilities in connection with filings under the federal securities statutes is not intended to offer legal interpretations and is based on an understanding of the meaning of the statutes as they relate to accounting principles and auditing standards and procedures. The discussion is subject to any judicial interpretations that may be issued.

.05 Because a registration statement under the Securities Act of 1933 speaks as of its effective date, the independent accountant whose report is included in such a registration statement has a statutory responsibility that is determined in the light of the circumstances on that date. This aspect of responsibility is peculiar to reports used for this purpose (see paragraphs .10 through .12).

.06 Under rules of the Securities and Exchange Commission, an independent accountant's report based on a review of interim financial information is not a report by the accountant within the meaning of section 11. Thus, the accountant does not have a similar statutory responsibility for such reports as of the effective date of the registration statement (see paragraph .13).

.07 The other federal securities statutes, while not containing so detailed an exposition, do impose responsibility, under certain conditions, on persons making false or misleading statements with respect to any material fact in applications, reports, or other documents filed under the statute.

.08 In filings under the Securities Act of 1933, a statement frequently is made in the prospectus (sometimes included in a section of the prospectus called the *experts section*) that certain information is included in the registration statement in reliance upon the report of certain named experts. The independent accountant should read the relevant section of the prospectus to make sure that his name is not being used in a way that indicates that his responsibility is greater than he intends. The experts section should be so worded that there is no implication that the financial statements have been prepared by the independent accountant or that they are not the direct representations of management.

.09 The Securities and Exchange Commission requires that, when an independent accountant's report based on a review of interim financial information is presented or incorporated by reference in a registration statement, a prospectus that includes a statement about the independent accountant's involvement should clarify that his review report is not a "report" or "part" of the registration statement within the meaning of sections 7 and 11 of the Securities Act of 1933. In this respect, wording such as the following in a prospectus would ordinarily be considered a satisfactory description for the accountant's purposes of the status of his review report that was included in a Form 10-Q filing that was later incorporated by reference in a registration statement.³

³ A similar description of the status of the accountant's report would also ordinarily be satisfactory for the accountant's purposes when the accountant's review report is presented in the registration statement rather than incorporated by reference. In that case, the description in the prospectus would specifically refer to that report in the registration statement.

Independent Public Accountants

The consolidated balance sheets as of December 31, 19X2 and 19X1, and the consolidated statements of income, retained earnings, and cash flows for each of the three years in the period ended December 31, 19X2, incorporated by reference in this prospectus, have been included herein in reliance on the report of _____ independent public accountants, given on the authority of that firm as experts in auditing and accounting.

With respect to the unaudited interim financial information for the periods ended March 31, 19X3 and 19X2, incorporated by reference in this prospectus, the independent public accountants have reported that they have applied limited procedures in accordance with professional standards for a review of such information. However, their separate report included in the company's quarterly report on Form 10-Q for the quarter ended March 31, 19X3, and incorporated by reference herein, states that they did not audit and they do not express an opinion on that interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. The accountants are not subject to the liability provisions of section 11 of the Securities Act of 1933 for their report on the unaudited interim financial information because that report is not a "report" or a "part" of the registration statement prepared or certified by the accountants within the meaning of sections 7 and 11 of the act.

The independent accountant should also read other sections of the prospectus to make sure that his name is not being used in a way that indicates that his responsibility is greater than he intends.

Subsequent Events Procedures in 1933 Act Filings

.10 To sustain the burden of proof that he has made a "reasonable investigation" (see paragraph .03), as required under the Securities Act of 1933, an auditor should extend his procedures with respect to subsequent events from the date of his audit report up to the effective date or as close thereto as is reasonable and practicable in the circumstances. In this connection, he should arrange with his client to be kept advised of the progress of the registration proceedings so that his review of subsequent events can be completed by the effective date. The likelihood that the auditor will discover subsequent events necessarily decreases following the completion of field work, and, as a practical matter, after that time the independent auditor may rely, for the most part, on inquiries of responsible officials and employees. In addition to performing the procedures outlined in section 560.12, at or near the effective date, the auditor generally should

- a. Read the entire prospectus and other pertinent portions of the registration statement.
- b. Inquire of and obtain written representations from officers and other executives responsible for financial and accounting matters (limited where appropriate to major locations) about whether any events have occurred, other than those reflected or disclosed in the registration statement, that, in the officers' or other executives' opinion, have a material effect on the audited financial statements included therein or that should be disclosed in order to keep those statements from being misleading.

.11 A registration statement filed with the Securities and Exchange Commission may contain the reports of two or more independent auditors on their audits of the financial statements for different periods. An auditor who has audited the financial statements for prior periods but has not audited the financial statements for the most recent audited period included in the registration statement has a responsibility relating to events subsequent to the date of the prior-period financial statements, and extending to the effective date, that bear materially on the prior-period financial statements on which he reported. Generally, he should

- a. Read pertinent portions of the prospectus and of the registration statement.
- b. Obtain a letter of representation from the successor independent auditor regarding whether his audit (including his procedures with respect to subsequent events) revealed any matters that, in his opinion, might have a material effect on the financial statements reported on by the predecessor auditor or would require disclosure in the notes thereto.

The auditor should make inquiries and perform other procedures that he considers necessary to satisfy himself regarding the appropriateness of any adjustment or disclosure affecting the prior-period financial statements covered by his report (see section 508).

Response to Subsequent Events and Subsequently Discovered Facts

.12 If, subsequent to the date of his report on audited financial statements, the auditor (including a predecessor auditor) (*a*) discovers, in performing the procedures described in paragraphs .10 and .11 above, subsequent events that require adjustment or disclosure in the financial statements or (*b*) becomes aware that facts may have existed at the date of his report that might have affected his report had he then been aware of those facts, he should follow the guidance in sections 560 and 561. If the financial statements are appropriately adjusted or the required additional disclosure is made, the auditor should follow the guidance in section 530.05, .07, and .08 with respect to dating his report. If the client refuses to make appropriate adjustment or disclosure in the financial statements for a subsequent event or subsequently discovered facts, the auditor should follow the procedures in section 561.08 and .09. In such circumstances, the auditor should also consider, probably with the advice of his legal counsel, withholding his consent to the use of his report on the audited financial statements in the registration statement.

.13 If an accountant concludes on the basis of facts known to him that unaudited financial statements or unaudited interim financial information presented or incorporated by reference in a registration statement are not in conformity with generally accepted accounting principles, he should insist on appropriate revision. Failing that,

- a. If the accountant has reported on a review of such interim financial information and the subsequently discovered facts are such that they would have affected his report had they been known to him at the date of his report, he should refer to section 561, because certain provisions of that section may be relevant to his consideration of those matters (see section 722.46).

- b. If the accountant has not reported on a review of the unaudited financial statements or interim financial information, he should modify his report on the audited financial statements to describe the departure from generally accepted accounting principles contained in the unaudited financial statements or interim financial information.

In either case, the accountant should also consider, probably with the advice of his legal counsel, withholding his consent to the use of his report on the audited financial statements in the registration statement. [Revised, November 2002, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 100.]

AU Section 9711

Filings Under Federal Securities Statutes: Auditing Interpretations of Section 711

1. Subsequent Events Procedures for Shelf Registration Statements Updated after the Original Effective Date

.01 *Question*—Rule 415 of Regulation C under the Securities Act of 1933 (1933 Act) permits companies to register a designated amount of securities for continuous or delayed offerings by filing one "shelf" registration statement with the SEC. Under this rule, a registrant can register an amount of securities it reasonably expects to offer and sell within the next two years, generally without the later need to prepare and file a new prospectus and registration statement for each sale.

.02 A Rule 415 shelf registration statement can be updated after its original effective date by—

- a. The filing of a post-effective amendment,
- b. The incorporation by reference of subsequently filed material, or
- c. The addition of a supplemental prospectus (sometimes referred to as a "sticker").

.03 Section 711, *Filings Under Federal Securities Statutes*, paragraph .05, states, "Because a registration statement under the Securities Act of 1933 speaks as of its effective date, the independent accountant whose report is included in such a registration statement has a statutory responsibility that is determined in the light of the circumstances on that date." The independent accountant's statutory responsibility regarding information covered by his report and included in a registration statement is specified in Section 11 of the 1933 Act. Section 11(b)(3)(B) states that the accountant will not be held liable if he can sustain a burden of proof that "he had, after reasonable investigation, reasonable ground to believe and did believe, at the time such part of the registration statement became effective, that the statements therein were true and that there was no omission to state a material fact required to be stated therein or necessary to make the statements therein not misleading." To sustain the burden of proof that he has made a "reasonable investigation" as of the effective date, the accountant performs subsequent events procedures (as described in section 711.10 and .11) to a date as close to the effective date of the registration statement as is reasonable and practicable in the circumstances.

.04 In connection with Rule 415 shelf registrations, under what circumstances does the independent accountant have a responsibility to perform subsequent events procedures after the original effective date of the registration statement?

.05 *Interpretation*—As discussed in more detail below, in general, the accountant should perform the subsequent events procedures described in section 711.10 and .11, when either:

- a. A post-effective amendment to the shelf registration statement, as defined by SEC rules, is filed pursuant to Item 512(a) of Regulation S-K,¹ or
- b. A 1934 Act filing that includes or amends audited financial statements is incorporated by reference into the shelf registration statement.

.06 When a post-effective amendment is filed pursuant to the registrant's undertaking required by Item 512 of Regulation S-K, a shelf registration statement is considered to have a new effective date because Item 512(a)(2) of Regulation S-K states, ". . . for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement. . . ." Accordingly, in such cases, the accountant should perform subsequent events procedures to a date as close to the new effective date of the registration statement as is reasonable and practicable in the circumstances.

.07 Item 512(b) of Regulation S-K states that for purposes of determining any liability under the Securities Act of 1933 each filing of a registrant's annual report (Form 10-K) and each filing of an employee benefit plan annual report (Form 11-K) that is incorporated by reference into a shelf registration statement is deemed to be a new registration statement relating to the securities offering. Accordingly, when a Form 10-K or Form 11-K is incorporated by reference into a shelf registration statement, the accountant should perform subsequent events procedures to a date as close to the date of the filing of the Form 10-K or Form 11-K as is reasonable and practicable in the circumstances and date his consent as of that date.

.08 In many circumstances, a Form 10-Q, Form 8-K, or other 1934 Act filing can be incorporated by reference into a shelf registration statement (sometimes this occurs automatically—for example, in a Form S-3 or Form S-8) without the need for a post-effective amendment. In those circumstances, the accountant has no responsibility to perform subsequent events procedures unless the filing includes or amends audited financial statements—for example, a Form 8-K that includes audited financial statements of an acquired company. In these latter circumstances, when the filing is incorporated into a registration statement, SEC rules require a currently dated consent of the accountant who audited those statements, and that accountant should perform subsequent events procedures to a date as close to the date of the incorporation by reference of the related material as is reasonable and practicable in the circumstances.²

.09 In addition, an accountant's report on a review of interim financial information contained in a Form 10-Q may also include his report on the information presented in the condensed year-end balance sheet that has also been included in the form and has been derived from the latest audited annual balance sheet. (See section 552, *Reporting on Condensed Financial Statements and Selected Financial Data*, paragraph .08.) When the Form 10-Q is incorporated

¹ Item 512(a) of Regulation S-K provides that the registrant is required to undertake to file a post-effective amendment to a shelf registration statement to (a) file updated financial statements pursuant to section 10(a)(3) of the Securities Act of 1933, (b) reflect a "fundamental change" in the information in the registration statement arising from facts or events occurring after the effective date of the registration statement or previous post-effective amendments, or (c) include new material information regarding the plan of distribution.

² Typically in such cases, the affected audited financial statements are not those of the registrant, and accordingly, there would be no requirement for the registrant's auditor to update his subsequent events procedures with respect to the registrant's financial statements.

by reference into the shelf registration (which may occur automatically), the report on the year-end condensed balance sheet may be considered a report of an "expert." Because it is not clear what the accountant's responsibility is in those circumstances, the accountant should perform subsequent events procedures (as described in section 711.10 and .11) to a date as close to the date of the incorporation by reference of the Form 10-Q as is reasonable and practicable in the circumstances.

.10 One of the subsequent events procedures described in section 711 is to "read the entire prospectus and other pertinent portions of the registration statement." The reading of the entire prospectus (including any supplemental prospectuses and documents incorporated by reference—such as Form 10-Ks, 10-Qs, and 8-Ks) and the other procedures described in section 711.10 and .11, help assure that the accountant has fulfilled his statutory responsibilities under the 1933 Act to perform a "reasonable investigation."

.11 When a shelf registration statement is updated by a supplemental prospectus (or "sticker"), the effective date of the registration statement is considered to be unchanged since the supplemental prospectus does not constitute an amendment to the registration statement, and, consequently, no posteffective amendment has been filed. Accordingly, an accountant has no responsibility to update his performance of subsequent events procedures through the date of the supplemental prospectus or sticker. The accountant, however, may nevertheless become aware that facts may have existed at the date of his report that might have affected his report had he then been aware of those facts. Section 711.12 and .13, provide guidance on the accountant's response to subsequent events and subsequently discovered facts.

[Issue Date: May, 1983.]

2. Consenting to be Named as an Expert in an Offering Document in Connection With Securities Offerings Other Than Those Registered Under the Securities Act of 1933

.12 *Question*—Should the auditor consent to be named, or referred to, as an expert in an offering document in connection with securities offerings other than those registered under the Securities Act of 1933 (the Act)?

.13 *Interpretation*—No. The term "expert" has a specific statutory meaning under the Act.³ The act states that anyone who purchases a security registered under the Act may sue specified persons if the registration statement contains an untrue statement or omits to state a material fact. Those persons who may be sued include "every accountant, engineer, or appraiser, or any person whose profession gives authority to a statement made by him, who has with his consent been named as having prepared or certified any part of the registration statement." These persons are typically referred to as "experts." Auditors sign a statement, known as a consent, in which they agree to be identified as experts in a section of the registration statement.

.14 Outside the 1933 Act arena, however, the term "expert" is typically undefined and the auditor's responsibility, as a result of the use of that term, is also undefined.

³ If the term "expert" is defined under applicable state law, for instance, the accountant may agree to be named as an expert in an offering document in an intra-state securities offering. The accountant may also agree to be named as an expert, as that term is used by the Office of Thrift Supervision (OTS), in securities offering documents which are subject to the jurisdiction of the OTS.

.15 When a client wishes to make reference to the auditor's role in an offering document in connection with a securities offering that is not registered under the Act, the caption "Independent Auditors" should be used to title that section of the document; the caption "Experts" should not be used, nor should the auditors be referred to as experts anywhere in the document. The following paragraph should be used to describe the auditors role.

Independent Auditors

The financial statements as of December 31, 19XX and for the year then ended, included in this offering circular, have been audited by ABC, independent auditors, as stated in their report(s) appearing herein.

If the client refuses to delete from the offering document the reference to the auditors as experts, the auditor should not permit inclusion of the auditor's report in the offering document.

[Issue Date: June, 1992; Amended: March, 1995.]

3. Consenting to the Use of an Audit Report in an Offering Document in Securities Offerings Other Than One Registered Under the Securities Act of 1933

.16 *Question*—May the auditor consent to the use of his or her audit report in an offering document other than one registered under the Securities Act of 1933?

.17 *Interpretation*—When an auditor's report is included in an offering document other than one registered under the Securities Act of 1933, it is not usually necessary for the accountant to provide a consent. If the accountant is requested to provide a consent, he or she may do so. The following is example language the accountant might use:

We agree to the inclusion in this offering circular of our report, dated February 5, 19XX, on our audit of the financial statements of [name of entity].

[Issue Date: June, 1992.]

AU Section 722

Interim Financial Information

(Supersedes SAS No. 71.)

Source: SAS No. 100; SAS No. 116; SAS No. 121.

Effective for interim periods beginning after December 15, 2002, unless otherwise indicated.

Introduction

.01 The purpose of this section is to establish standards and provide guidance on the nature, timing, and extent of the procedures to be performed by an independent accountant when conducting a review of *interim financial information* (as that term is defined in paragraph .02 of this section) when the conditions in paragraph .05 are met. The three general standards discussed in section 150, *Generally Accepted Auditing Standards*, paragraph .02, are applicable to a review of interim financial information conducted in accordance with this section. This section provides guidance on the application of the field work and reporting standards to a review of interim financial information, to the extent those standards are relevant. [Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.02 For purposes of this section, the term *interim financial information* means financial information or statements covering a period less than a full year or for a 12-month period ending on a date other than the entity's fiscal year end. Interim financial information may be condensed or in the form of a complete set of financial statements. Additionally, the term *applicable financial reporting framework* means a set of criteria used to determine measurement, recognition, presentation, and disclosure of all material items appearing in the financial statements; for example, accounting principles generally accepted in the United States of America (also known as U.S. GAAP), International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB), or comprehensive bases of accounting other than GAAP. [Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.03 An entity may be required or otherwise desire to engage an independent accountant to perform a review of the entity's interim financial information.^[1] Although this section generally does not require an accountant to issue a written report on a review of interim financial information, an accountant's review report should accompany the interim financial information if, in a report; document; or written communication containing the reviewed interim financial information, the entity states that the interim financial information has been reviewed by an independent public accountant or makes other reference to the accountant's association. In other situations, the accountant may determine it

^[1] [Footnote deleted, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116.]

appropriate to issue a written report to address the risk that a user of interim financial information may associate the accountant with the interim financial information and, in the absence of a review report, inappropriately assume a higher level of assurance than that obtained. Paragraphs .37–.46 of this section provide reporting guidance for a review of interim financial information. [Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.04 Section 315, *Communications Between Predecessor and Successor Auditors*, requires a successor auditor to contact the entity's predecessor auditor and make inquiries of the predecessor auditor in deciding whether to accept appointment as an entity's independent auditor. Such inquiries should be completed before accepting an engagement to perform an initial review of an entity's interim financial information.

.05 An accountant may conduct, in accordance with this section, a review of interim financial information^{[3]. [4]} if

- a. the entity's latest annual financial statements have been audited by the accountant or a predecessor;
- b. the accountant has been engaged to audit the entity's current year financial statements, or the accountant audited the entity's latest annual financial statements and expects to be engaged to audit the current year financial statements;*

^[3] [Footnote deleted, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116.]

^[4] [Footnote deleted, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116.]

* In February 2011, the Auditing Standards Board issued Statement on Auditing Standards (SAS) No. 121, *Revised Applicability of Statement on Auditing Standards No. 100*, Interim Financial Information. SAS No. 121 is effective for interim reviews of interim financial information for periods beginning after December 15, 2011, with early application permitted. SAS No. 121 revises the conditions in paragraph .05 of this section as follows (new language is shown in boldface italics; deleted language is shown by strikethrough):

An accountant may conduct, in accordance with this section, a review of interim financial information^{[3] [4]} if

- a. the entity's latest annual financial statements have been audited by the accountant or a predecessor;
- b. the accountant ***either***
 - i. has been engaged to audit the entity's current year financial statements, or
 - ii. ~~the accountant~~ audited the entity's latest annual financial statements and, ***when it is expected that the current year financial statements will be audited, expects to be engaged the appointment of another accountant to audit the current year financial statements is not effective prior to the beginning of the period covered by the review;***
- c. the ~~client~~ ***entity*** prepares its interim financial information in accordance with the same financial reporting framework as that used to prepare the annual financial statements; and
- d. ~~if~~ ***when*** the interim financial information is condensed information, all of the following conditions are met:
 - i. The condensed interim financial information purports to conform with an appropriate financial reporting framework, which includes appropriate form and content of interim financial statements; for example, Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 270, Interim Reporting*, and Article 10 of SEC Regulation S-X with respect to accounting principles generally accepted in the United States of America⁵ or International Accounting Standard 34, *Interim Financial Reporting*, with respect to IFRS issued by the IASB may be appropriate financial reporting frameworks for interim financial information.

(continued)

- c. the client prepares its interim financial information in accordance with the same financial reporting framework as that used to prepare the annual financial statements; and
- d. if the interim financial information is condensed information, all of the following conditions are met:
 - i. The condensed interim financial information purports to conform with an appropriate financial reporting framework, which includes appropriate form and content of interim financial statements; for example, Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 270, *Interim Reporting*, and Article 10 of SEC Regulation S-X with respect to accounting principles generally accepted in the United States of America⁵ or International Accounting Standard 34, *Interim Financial Reporting*, with respect to IFRS issued by the IASB may be appropriate financial reporting frameworks for interim financial information.
 - ii. The condensed interim financial information includes a note that the financial information does not represent complete financial statements and should be read in conjunction with the entity's latest annual audited financial statements.
 - iii. The condensed interim financial information accompanies the entity's latest audited annual financial statements or such audited annual financial statements are made readily available by the entity. The financial statements are deemed to be readily available if a third party user can obtain the financial statements without any further action by the entity (for example, financial statements on an entity's website may be considered readily available, but being available upon request is not considered readily available).

[Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. Revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC. As amended, effective for reviews

⁵ Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 270, *Interim Reporting*, outlines the application of U.S. generally accepted accounting principles (GAAP) to the determination of income when interim financial information is presented, provides for the use of estimated effective income tax rates, and specifies certain disclosure requirements for summarized interim financial information issued by public companies. In addition to FASB ASC 270, other FASB ASC guidance also includes disclosure requirements for interim financial information. [Footnote revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. Objective of a Review of Interim Financial Information

.07 The objective of a review of interim financial information pursuant to this section is to provide the accountant with a basis for communicating whether he or she is aware of any material modifications that should be made to the interim financial information for it to conform with the applicable financial reporting framework. The objective of a review of interim financial information differs significantly from that of an audit conducted in accordance with generally accepted auditing standards. A review of interim financial information does not provide a basis for expressing an opinion about whether the interim financial information is presented fairly, in all material respects, in conformity with the applicable financial reporting framework. A review consists principally of performing analytical procedures and making inquiries of persons responsible for financial and accounting matters, and does not contemplate (a) tests of accounting records through inspection, observation, or confirmation; (b) tests of controls to evaluate their effectiveness; (c) the obtainment of corroborating evidence in response to inquiries; or (d) the performance of certain other procedures ordinarily performed in an audit. A review may bring to the accountant's attention significant matters affecting the interim financial information, but it does not provide assurance that the accountant will become aware of all significant matters that would be identified in an audit. Paragraph .22 of this section provides guidance to the accountant if he or she becomes aware of information that leads him or her to believe that the interim financial information may not be in conformity with the applicable financial reporting framework. [Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

Establishing an Understanding With the Client

.08 The accountant should establish an understanding with the client regarding the services to be performed in an engagement to review interim financial information⁶ and should document the understanding through a written communication with the client. Such an understanding reduces the risk that either the accountant or the client may misinterpret the needs or expectations of the other party. The understanding should include the objectives of the engagement, the limitations of the engagement, management's responsibilities, and the accountant's responsibilities. The understanding should also include the expected form of the communication upon completion of the engagement (that is, whether as a written or oral report). Additionally, prior to accepting the engagement, the accountant should, through inquiry and, if applicable, information obtained during the course of the previous or current annual audit or during other engagements, assess management's ability to acknowledge their responsibility to establish and maintain controls that are sufficient to provide a reasonable basis for the preparation of reliable interim financial information in accordance with the applicable financial reporting framework. If management does not have the ability to make such an acknowledgement of its responsibility, the independent accountant should not accept the engagement. [Revised,

⁶ See paragraph .28 of QC section 10A, *A Firm's System of Quality Control*. [Footnote amended due to the issuance of SQCS No. 7, December 2008.]

January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.09 An understanding with the client regarding a review of interim financial information generally includes the following matters.

Objectives of the engagement

- The objective of a review of interim financial information is to provide the accountant with a basis for communicating whether he or she is aware of any material modifications that should be made to the interim financial information for it to conform with the applicable financial reporting framework.⁷
- A review includes obtaining sufficient knowledge of the entity's business and its internal control as it relates to the preparation of both annual and interim financial information to
 - identify the types of potential material misstatements in the interim financial information and consider the likelihood of their occurrence.
 - select the inquiries and analytical procedures that will provide the accountant with a basis for communicating whether the accountant is aware of any material modifications that should be made to the interim financial information for it to conform with the applicable financial reporting framework.

Limitations of the engagement

- A review does not provide a basis for expressing an opinion about whether the financial information is presented fairly, in all material respects, in conformity with the applicable financial reporting framework.
- A review does not provide assurance that the accountant will become aware of all significant matters that would be identified in an audit.
- A review is not designed to provide assurance on internal control or to identify significant deficiencies and material weaknesses in internal control; however, the accountant is responsible for communicating to management and those charged with governance any significant deficiencies or material weaknesses in internal control that the accountant identified.

Management's responsibilities

- Management is responsible for
 - the entity's interim financial information.
 - establishing and maintaining effective internal control over financial reporting.
 - identifying and ensuring that the entity complies with the laws and regulations applicable to its activities.
 - making all financial records and related information available to the accountant.

⁷ Paragraph .05 of this section addresses the selection of the applicable financial reporting framework for interim financial information. [Footnote added, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

- providing the accountant, at the conclusion of the engagement, with a letter confirming certain representations made during the review.
- adjusting the interim financial information to correct material misstatements. Although a review of interim financial information is not designed to obtain reasonable assurance that the interim financial information is free from material misstatement, management also is responsible for affirming in its representation letter to the accountant that the effects of any uncorrected misstatements aggregated by the accountant during the current engagement and pertaining to the current-year period(s) under review are immaterial, both individually and in the aggregate, to the interim financial information taken as a whole.

The accountant's responsibilities

- The accountant is responsible for conducting the review in accordance with standards established by the AICPA. A review of interim financial information consists principally of performing analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial information taken as a whole. Accordingly, the accountant will not express an opinion on the interim financial information.

Expected form of the communication

- A description of the expected form of the accountant's communication upon completion of the engagement, (that is, whether as a written or oral report) and a statement that if the entity states in any report, document, or written communication containing the interim financial information that the information has been reviewed by the accountant or makes other reference to the accountant's association, that the accountant's review report will be included in the document.

[Revised, May 2006, to reflect conforming changes necessary due to the issuance of SAS No. 112. Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

The Accountant's Knowledge of the Entity's Business and Its Internal Control

.10 To perform a review of interim financial information, the accountant should have sufficient knowledge of the entity's business and its internal control⁸ as they relate to the preparation of both annual and interim financial information to

⁸ Paragraph .08 establishes a presumptively mandatory requirement that the accountant assess, through inquiry and, if applicable, information obtained during the course of the previous or current annual audit or during other engagements, management's ability to acknowledge their responsibility to establish and maintain controls that are sufficient to provide a reasonable basis for the preparation of reliable interim financial information in accordance with the applicable financial reporting framework as a precondition to performing a review under this section. [Footnote added, January 2009, to

(continued)

- identify the types of potential material misstatements in the interim financial information and consider the likelihood of their occurrence.
- select the inquiries and analytical procedures that will provide the accountant with a basis for communicating whether he or she is aware of any material modifications that should be made to the interim financial information for it to conform with the applicable financial reporting framework.

[Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.11 In planning a review of interim financial information, the accountant should perform procedures to update his or her knowledge of the entity's business and its internal control to (a) aid in the determination of the inquiries to be made and the analytical procedures to be performed and (b) identify particular events, transactions, or assertions to which the inquiries may be directed or analytical procedures applied. Such procedures should include

- reading documentation of the preceding year's audit and of reviews of prior interim period(s) of the current year and corresponding interim period(s) of the prior year to the extent necessary, based on the accountant's judgment, to enable the accountant to identify matters that may affect the current-period interim financial information. In reading such documents, the accountant should specifically consider the nature of any (a) corrected material misstatements; (b) matters identified in any summary of uncorrected misstatements;⁹ (c) identified risks of material misstatement due to fraud, including the risk of management override of controls; and (d) significant financial accounting and reporting matters that may be of continuing significance, such as significant deficiencies and material weaknesses.
- reading the most recent annual and comparable prior interim period financial information.
- considering the results of any audit procedures performed with respect to the current year's financial statements.
- inquiring of management about changes in the entity's business activities.
- inquiring of management about whether significant changes in internal control, as it relates to the preparation of interim financial information, have occurred subsequent to the preceding annual audit or prior review of interim financial information, including changes in the

(footnote continued)

reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

⁹ Section 312, *Audit Risk and Materiality in Conducting an Audit*, paragraphs .69 and .70, requires the auditor to document the nature and effect of misstatements that the auditor aggregates as well as the auditor's conclusion as to whether such misstatements, individually or in the aggregate, cause the audited financial statements to be materially misstated. Paragraphs .25 and .26 of this section describe the accountant's consideration of such misstatements in a review of interim financial information. [Footnote revised, March 2006, to reflect conforming changes necessary due to the issuance of SAS No. 107. Footnote renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

entity's policies, procedures, and personnel, as well as the nature and extent of such changes.

[Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.12 In an initial review of interim financial information, the accountant should perform procedures that will enable him or her to obtain sufficient knowledge of the entity's business and its internal control to address the objective discussed in paragraph .07 of this section. As part of the procedures to obtain this knowledge, the accountant performing an initial review of interim financial information makes inquiries of the predecessor accountant and reviews the predecessor accountant's documentation for the preceding annual audit and for any prior interim periods in the current year that have been reviewed by the predecessor accountant if the predecessor accountant permits access to such documentation.¹⁰ In doing so, the accountant should specifically consider the nature of any (a) corrected material misstatements; (b) matters identified in any summary of uncorrected misstatements; (c) identified risks of material misstatement due to fraud, including the risk of management override of controls; and (d) significant financial accounting and reporting matters that may be of continuing significance, such as significant deficiencies or material weaknesses. However, the inquiries made and analytical procedures performed or other procedures performed in the initial review and the conclusions reached are solely the responsibility of the successor accountant. If the successor accountant is reporting on the review, the successor accountant should not make reference to the report or work of the predecessor accountant as the basis, in part, for the successor accountant's own report. If the predecessor accountant does not respond to the successor accountant's inquiries, or does not allow the successor accountant to review the predecessor accountant's documentation, the successor accountant should use alternative procedures to obtain knowledge of the matters discussed in this paragraph. [Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.13 The accountant who has audited the entity's financial statements for one or more annual periods would have acquired sufficient knowledge of an entity's internal control as it relates to the preparation of annual financial information and may have acquired such knowledge with respect to interim financial information. If the accountant has not audited the most recent annual financial statements, the accountant should perform procedures to obtain such knowledge. Knowledge of an entity's internal control, as it relates to the preparation of both annual and interim financial information, includes knowledge of the relevant aspects of the control environment, the entity's risk assessment process, control activities, information and communication, and monitoring, as those terms are defined in section 314, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*. Internal control over the preparation of interim financial information may differ from internal control over the preparation of annual financial statements because certain accounting principles and practices used for interim financial information may

¹⁰ The accountant also may consider reviewing the predecessor accountant's documentation related to reviews of interim period(s) in the prior year. [Footnote renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

differ from those used for the preparation of annual financial statements, for example, the use of estimated effective income tax rates for the preparation of interim financial information, which is prescribed by FASB ASC 270. [Revised, March 2006, to reflect conforming changes necessary due to the issuance of SAS No. 109. Revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

.14 A restriction on the scope of the review may be imposed if the entity's internal control appears to contain deficiencies so significant that it would be impracticable for the accountant, based on his or her judgment, to effectively perform review procedures that would provide a basis for communicating whether he or she is aware of any material modifications that should be made to the interim financial information for it to conform with the applicable financial reporting framework.¹¹ [Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

Analytical Procedures, Inquiries, and Other Review Procedures

.15 Procedures for conducting a review of interim financial information generally are limited to analytical procedures, inquiries, and other procedures that address significant accounting and disclosure matters relating to the interim financial information to be reported. The accountant performs these procedures to obtain a basis for communicating whether he or she is aware of any material modifications that should be made to the interim financial information for it to conform with the applicable financial reporting framework. The specific inquiries made and the analytical and other procedures performed should be tailored to the engagement based on the accountant's knowledge of the entity's business and its internal control. The accountant's knowledge of an entity's business and its internal control influences the inquiries made and analytical procedures performed. For example, if the accountant becomes aware of a significant change in the entity's control activities at a particular location, the accountant may consider (a) making additional inquiries, such as whether management monitored the changes and considered whether they were operating as intended, (b) employing analytical procedures with a more precise expectation, or (c) both. [Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.16 *Analytical procedures and related inquiries.* The accountant should apply analytical procedures to the interim financial information to identify and provide a basis for inquiry about the relationships and individual items that appear to be unusual and that may indicate a material misstatement. Analytical procedures, for the purposes of this section, should include

- comparing the interim financial information with comparable information for the immediately preceding interim period, if applicable, and with the corresponding period(s) in the previous year, giving consideration to knowledge about changes in the entity's business and specific transactions.

¹¹ See paragraph .28 of this section. [Footnote renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

- considering plausible relationships among both financial and, where relevant, nonfinancial information. The accountant also may wish to consider information developed and used by the entity, for example, information in a director's information package or in a senior committee's briefing materials.
- comparing recorded amounts, or ratios developed from recorded amounts, to expectations developed by the accountant. The accountant develops such expectations by identifying and using plausible relationships that are reasonably expected to exist based on the accountant's understanding of the entity and the industry in which the entity operates (see paragraph .17 of this section).
- comparing disaggregated revenue data, for example, comparing revenue reported by month and by product line or operating segment during the current interim period with that of comparable prior periods.

See appendix A [paragraph .54] of this section for examples of analytical procedures an accountant may consider performing when conducting a review of interim financial information. The accountant may find the guidance in section 329, *Analytical Procedures*, useful in conducting a review of interim financial information. [Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.17 Expectations developed by the accountant in performing analytical procedures in connection with a review of interim financial information ordinarily are less precise than those developed in an audit. Also, in a review the accountant ordinarily is not required to corroborate management's responses with other evidence. However, the accountant should consider the reasonableness and consistency of management's responses in light of the results of other review procedures and the accountant's knowledge of the entity's business and its internal control.¹²

.18 *Inquiries and other review procedures.* The following are inquiries the accountant should make and other review procedures the accountant should perform when conducting a review of interim financial information:

- a. Reading the available minutes of meetings of stockholders, directors, and appropriate committees, and inquiring about matters dealt with at meetings for which minutes are not available, to identify matters that may affect the interim financial information.
- b. Obtaining reports from other accountants, if any, who have been engaged to perform a review of the interim financial information of significant components of the reporting entity, its subsidiaries, or its other investees, or inquiring of those accountants if reports have not been issued.¹³
- c. Inquiring of members of management who have responsibility for financial and accounting matters concerning

¹² See paragraph .22 of this section. [Footnote renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

¹³ In these circumstances, the accountant ordinarily is in a position similar to that of an auditor who acts as principal auditor (see section 543, *Part of Audit Performed by Other Independent Auditors*) and makes use of the work or reports of other auditors in the course of an audit of financial statements. [Footnote renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

- i. whether the interim financial information has been prepared in conformity with the applicable financial reporting framework consistently applied.
 - ii. unusual or complex situations that may have an effect on the interim financial information. (See appendix B [paragraph .55] of this section for examples of unusual or complex situations about which the accountant ordinarily would inquire of management.)
 - iii. significant transactions occurring or recognized in the last several days of the interim period.
 - iv. the status of uncorrected misstatements identified during the previous audit and interim review (that is, whether adjustments had been recorded subsequent to the prior audit or interim period and, if so, the amounts recorded and period in which such adjustments were recorded).
 - v. matters about which questions have arisen in the course of applying the review procedures.
 - vi. events subsequent to the date of the interim financial information that could have a material effect on the presentation of such information.
 - vii. their knowledge of any fraud or suspected fraud affecting the entity involving (1) management, (2) employees who have significant roles in internal control, or (3) others where the fraud could have a material effect on the financial information.
 - viii. whether they are aware of allegations of fraud or suspected fraud affecting the entity, for example, received in communications from employees, former employees, analysts, regulators, short sellers, or others.
 - ix. significant journal entries and other adjustments.
 - x. communications from regulatory agencies.
 - xi. significant deficiencies, including material weaknesses, in the design or operation of internal control as it relates to the preparation of both annual and interim financial information.
- d. Obtaining evidence that the interim financial information agrees or reconciles with the accounting records. For example, the accountant may compare the interim financial information to (1) the accounting records, such as the general ledger; (2) a consolidating schedule derived from the accounting records; or (3) other supporting data in the entity's records. In addition, the accountant should consider inquiring of management as to the reliability of the records to which the interim financial information was compared or reconciled.
 - e. Reading the interim financial information to consider whether, based on the results of the review procedures performed and other information that has come to the accountant's attention, the information to be reported conforms with the applicable financial reporting framework.
 - f. Reading other information in documents containing the interim financial information¹⁴ to consider whether such information or the manner

¹⁴ The accountant may consider section 550, *Other Information in Documents Containing Audited Financial Statements*, which provides guidance for the auditor's consideration of other information included in such documents. [Footnote added, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

of its presentation is materially inconsistent with the interim financial information.¹⁵ If the accountant concludes that there is a material inconsistency, or becomes aware of information that he or she believes is a material misstatement of fact, the action taken will depend on his or her judgment in the particular circumstances.

[Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.19 Many of the aforementioned review procedures can be performed before or simultaneously with the entity's preparation of the interim financial information. For example, it may be practicable to update the understanding of the entity's internal control and begin reading applicable minutes before the end of an interim period. Performing some of the review procedures earlier in the interim period also permits early identification and consideration of significant accounting matters affecting the interim financial information.

.20 *Inquiry concerning litigation, claims, and assessments.* A review of interim financial information does not contemplate obtaining corroborating evidence for responses to inquiries concerning litigation, claims, and assessments (see paragraph .07 of this section). Consequently, it ordinarily is not necessary to send an inquiry letter to an entity's lawyer concerning litigation, claims, and assessments. However, if information comes to the accountant's attention that leads him or her to question whether the interim financial information departs from the applicable financial reporting framework¹⁶ with respect to litigation, claims, or assessments, and the accountant believes the entity's lawyer may have information concerning that question, an inquiry of the lawyer concerning the specific question is appropriate. [Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.21 *Inquiry concerning an entity's ability to continue as a going concern.* A review of interim financial information is not designed to identify conditions or events that may indicate substantial doubt about an entity's ability to continue as a going concern. However, such conditions or events may have existed at the date of prior-period financial statements.¹⁷ In addition, in the course of performing review procedures on the current-period interim financial information, the

¹⁵ The principal accountant also may request other accountants involved in the engagement, if any, to read the other information. [Footnote renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

¹⁶ For example, in accordance with FASB ASC 270 and Article 10 of Regulation S-X, contingencies and other uncertainties that could be expected to affect the fairness of the presentation of financial data at an interim date should be disclosed in interim financial information in the same manner required for annual financial statements. Such disclosures should be repeated in interim financial information and annual financial statements until the contingencies have been removed, resolved, or become immaterial. The significance of a contingency or uncertainty should be judged in relation to annual financial statements. [Footnote revised and renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. Footnote revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

¹⁷ For purposes of this section, "conditions or events that existed at the date of prior-period financial statements" include (a) substantial doubt about the entity's ability to continue as a going concern that existed at the preceding year end, regardless of whether the substantial doubt was alleviated by the auditor's consideration of management's plans, or (b) conditions and events disclosed in the immediately preceding interim period. [Footnote renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

accountant may become aware of conditions or events that might be indicative of the entity's possible inability to continue as a going concern. In either case, the accountant should (a) inquire of management as to its plans for dealing with the adverse effects of the conditions and events and (b) consider the adequacy of the disclosure about such matters in the interim financial information.¹⁸ It ordinarily is not necessary for the accountant to obtain evidence in support of the information that mitigates the effects of the conditions and events.

.22 *Extension of interim review procedures.* If, in performing a review of interim financial information, the accountant becomes aware of information that leads him or her to believe that the interim financial information may not be in conformity with the applicable financial reporting framework in all material respects, the accountant should make additional inquiries or perform other procedures that the accountant considers appropriate to provide a basis for communicating whether he or she is aware of any material modifications that should be made to the interim financial information. For example, if the accountant's interim review procedures lead him or her to question whether a significant sales transaction is recorded in conformity with the applicable financial reporting framework, the accountant should perform additional procedures, such as discussing the terms of the transaction with senior marketing and accounting personnel, reading the sales contract, or both, to resolve his or her questions. [Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.23 *Coordination with the audit.* The accountant performing the review of interim financial information ordinarily will also be engaged to perform an audit of the annual financial statements of the entity. Certain auditing procedures associated with the annual audit may be performed concurrently with the review of interim financial information. For example, information gained from reading the minutes of meetings of the board of directors in connection with the review also may be used for the annual audit. Also, there may be significant or unusual transactions occurring during the interim period under review for which the auditing procedures that would need to be performed for purposes of the audit of the annual financial statements could be performed, to the extent practicable, at the time of the interim review, for example, business combinations, restructurings, or significant revenue transactions. [Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

Written Representations From Management

.24 Written representations from management should be obtained for all interim financial information presented and for all periods covered by the review. Specific representations should relate to the following matters:¹⁹

¹⁸ Information that might be disclosed is set forth in section 341, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, paragraph .10. If the accountant determines that the disclosure about the entity's possible inability to continue as a going concern is inadequate, a departure from generally accepted accounting principles exists. [Footnote revised and renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

¹⁹ For additional guidance regarding written management representations, see section 333, *Management Representations*, paragraphs .08–.12. [Footnote renumbered, January 2009, to reflect

(continued)

Interim Financial Information

- a. Management's acknowledgement of its responsibility for the fair presentation of the interim financial information in conformity with the applicable financial reporting framework.
- b. Management's belief that the interim financial information has been prepared and presented in conformity with the applicable financial reporting framework applicable to interim financial information.

Internal Control

- c. Management's acknowledgement of its responsibility to establish and maintain controls that are sufficient to provide a reasonable basis for the preparation of reliable interim financial information in accordance with the applicable financial reporting framework.
- d. Disclosure of all significant deficiencies and material weaknesses in the design or operation of internal control as it relates to the preparation of both annual and interim financial information.
- e. Acknowledgment of management's responsibility for the design and implementation of programs and controls to prevent and detect fraud.
- f. Knowledge of fraud or suspected fraud affecting the entity involving (1) management, (2) employees who have significant roles in internal control, or (3) others where the fraud could have a material effect on the interim financial information.
- g. Knowledge of any allegations of fraud or suspected fraud affecting the entity received in communications from employees, former employees, analysts, regulators, short sellers, or others.

Completeness of Information

- h. Availability of all financial records and related data.
- i. Completeness and availability of all minutes of meetings of stockholders, directors, and committees of directors or summaries of actions of recent meetings for which minutes have not yet been prepared.
- j. Communications with regulatory agencies concerning noncompliance with or deficiencies in financial reporting practices.
- k. Absence of unrecorded transactions.

Recognition, Measurement, and Disclosure

- l. Management's belief that the effects of any uncorrected financial statement misstatements aggregated by the accountant during the current review engagement and pertaining to the interim period(s) in the current year are immaterial, both individually and in the aggregate, to the interim financial information as a whole. (A summary of such items should be included in or attached to the letter.)²⁰
- m. Plans or intentions that may materially affect the carrying value or classification of assets or liabilities.

(footnote continued)

conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

²⁰ If a summary of uncorrected misstatements is unnecessary because there were no uncorrected misstatements identified, this representation should be eliminated. [Footnote renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

- n. Information concerning related-party transactions and amounts receivable from or payable to related parties.
- o. Guarantees, whether written or oral, under which the entity is contingently liable.
- p. Significant estimates and material concentrations known to management that are required to be disclosed in accordance with FASB ASC 275, *Risks and Uncertainties*.
- q. Violations or possible violations of laws or regulations whose effects should be considered for disclosure in the interim financial information or as a basis for recording a loss contingency.
- r. Unasserted claims or assessments that are probable of assertion and must be disclosed in accordance with FASB ASC 450, *Contingencies*.
- s. Other liabilities or gain or loss contingencies that are required to be accrued or disclosed by FASB ASC 450.
- t. Satisfactory title to all owned assets, liens or encumbrances on such assets, and assets pledged as collateral.
- u. Compliance with aspects of contractual agreements that may affect the interim financial information.

Subsequent Events

- v. Information concerning subsequent events.

The representation letter ordinarily should be tailored to include additional representations from management related to matters specific to the entity's business or industry. Appendix C [paragraph .56] of this section presents illustrative representation letters. [Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. Revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

Evaluating the Results of Interim Review Procedures

.25 A review of interim financial information is not designed to obtain reasonable assurance that the interim financial information is free of material misstatement. However, based on the review procedures performed, the accountant may become aware of *likely misstatements*. In the context of an interim review, a likely misstatement is the accountant's best estimate of the total misstatement in the account balances or classes of transactions on which he or she has performed review procedures. The accountant should accumulate for further evaluation likely misstatements identified in performing the review procedures. The accountant may designate an amount below which misstatements need not be accumulated, based on his or her professional judgment. However, the accountant should recognize that aggregated misstatements of relatively small amounts could have a material effect on the interim financial information.

.26 Misstatements identified by the accountant or brought to the accountant's attention, including inadequate disclosure,²¹ should be evaluated individually and in the aggregate to determine whether material modification

²¹ For example, Rule 10-01 of Regulation S-X states

The interim financial information shall include disclosures either on the face of the financial statements or in accompanying footnotes sufficient so as to make the interim information presented not misleading. Registrants may presume that users of the interim financial information have read or have access to the audited financial

(continued)

should be made to the interim financial information for it to conform with the applicable financial reporting framework.²² The accountant should use his or her professional judgment in evaluating the materiality of any likely misstatements that the entity has not corrected. The accountant should consider matters such as (a) the nature, cause (if known), and amount of the misstatements; (b) whether the misstatements originated in the preceding year or interim periods of the current year; (c) materiality judgments made in conjunction with the current or prior year's annual audit; and (d) the potential effect of the misstatements on future interim or annual periods.²³ [Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.27 When evaluating whether uncorrected likely misstatements, individually or in the aggregate, are material, the accountant also should (a) consider the appropriateness of offsetting a misstatement of an estimated amount with a misstatement of an item capable of precise measurement and (b) recognize that an accumulation of immaterial misstatements in the balance sheet could contribute to material misstatements in future periods.

.28 When an accountant is unable to perform the procedures he or she considers necessary to achieve the objective of a review of interim financial information, or the client does not provide the accountant with the written representations the accountant believes are necessary, the review will be incomplete.

(footnote continued)

statements for the preceding fiscal year and that the adequacy of additional disclosure needed for a fair presentation, except in regard to material contingencies, may be determined in that context. Accordingly, footnote disclosure which would substantially duplicate the disclosure contained in the most recent annual report to security holders or latest audited financial statements, such as a statement of significant accounting policies and practices, details of accounts which have not changed significantly in amount or composition since the end of the most recently completed fiscal year, and detailed disclosures prescribed by Rule 4-08 of this Regulation, may be omitted. However, disclosure shall be provided where events subsequent to the end of the most recent fiscal year have occurred which have a material impact on the registrant. Disclosures should encompass for example, significant changes since the end of the most recently completed fiscal year in such items as: accounting principles and practices; estimates inherent in the preparation of the financial statements; status of long-term contracts; capitalization including significant new borrowings or modification of existing financing arrangements; and the reporting entity resulting from business combinations or dispositions. Notwithstanding the above, where material contingencies exist, disclosure of such matters shall be provided even though a significant change since year end may not have occurred.

[Footnote revised and renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

²² FASB ASC 270 describes the applicability of generally accepted accounting principles to interim financial information and indicates the types of disclosures necessary to report on a meaningful basis for a period of less than a full year. FASB ASC 270-10-45-16 provides guidance on assessing materiality in interim periods. For example, FASB ASC 270-10-45-16 states, "In determining materiality for the purpose of reporting the correction of an error, amounts shall be related to the estimated income for the full fiscal year and also to the effect on the trend of earnings." [Footnote revised and renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. Footnote revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

²³ Section 312 paragraph .60 provides guidance with respect to the auditor's qualitative considerations in evaluating whether the misstatements are material. [Footnote revised, March 2006, to reflect conforming changes necessary due to the issuance of SAS No. 107. Footnote revised and renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

An incomplete review is not an adequate basis for issuing a review report. If the accountant cannot complete the review, the accountant should communicate that information in accordance with the guidance in paragraphs .29–.31 of this section. Nevertheless, if the accountant has become aware of material modifications that should be made to the interim financial information for it to conform with the applicable financial reporting framework, such matters should be communicated pursuant to paragraphs .29–.31 of this section. [Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

Communications to Management and Those Charged With Governance

.29 As a result of conducting a review of interim financial information, the accountant may become aware of matters that cause him or her to believe that (a) material modification should be made to the interim financial information for it to conform with the applicable financial reporting framework or (b) that the entity issued the interim financial information before the completion of the review, in those circumstances in which a review is required. In such circumstances, the accountant should communicate the matter(s) to the appropriate level of management as soon as practicable. [Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.30 If, in the accountant's judgment, management does not respond appropriately to the accountant's communication within a reasonable period of time, the accountant should inform those charged with governance of the matters as soon as practicable. This communication may be oral or written. If information is communicated orally, the accountant should document the communication. [Revised, April 2007, to reflect conforming changes necessary due to the issuance of SAS No. 114.]

.31 If, in the accountant's judgment, those charged with governance do not respond appropriately to the accountant's communication within a reasonable period of time, the accountant should evaluate whether to resign from the engagement to review the interim financial information and as the entity's auditor. The accountant may wish to consult with his or her attorney when making these evaluations. [Revised, April 2007, to reflect conforming changes necessary due to the issuance of SAS No. 114.]

.32 When conducting a review of interim financial information, the accountant may become aware of fraud or possible illegal acts. If the matter involves fraud, it should be brought to the attention of the appropriate level of management. If the fraud involves senior management or results in a material misstatement of the interim financial information, the accountant should communicate the matter directly to those charged with governance as described in section 316, *Consideration of Fraud in a Financial Statement Audit*, paragraphs .79–.82. If the matter involves possible illegal acts, the accountant should assure himself or herself that those charged with governance are adequately informed, unless the matter is clearly inconsequential.²⁴ (See section 317, *Illegal Acts by*

²⁴ The accountant may have additional communication responsibilities pursuant to section 317, *Illegal Acts by Clients*, and section 316, *Consideration of Fraud in a Financial Statement Audit*. [Footnote revised and renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

Clients, paragraph .17.) [Revised, April 2007, to reflect conforming changes necessary due to the issuance of SAS No. 114. Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.33 When conducting a review of interim financial information, the accountant may become aware of significant deficiencies or material weaknesses in internal control as it relates to the preparation of annual and interim financial information that should be communicated to management and those charged with governance. Section 325, *Communicating Internal Control Related Matters Identified in an Audit*, defines *significant deficiency* as a deficiency, or combination of deficiencies, in internal control over financial reporting, that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.^[25] Section 325 defines *material weakness* as a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A reasonable possibility exists when the likelihood of the event is either reasonably possible or probable as those terms are used in FASB ASC 450. The accountant also may wish to submit recommendations related to other matters that come to the accountant's attention.²⁶ [Revised, May 2006, to reflect conforming changes necessary due to the issuance of SAS No. 112. Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. Revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.34 When conducting a review of interim financial information, the accountant also should determine whether any of the matters described in section 380, *The Auditor's Communication With Those Charged With Governance*, as they relate to the interim financial information, have been identified. If such matters have been identified, the accountant should communicate them to those charged with governance. For example, the accountant should communicate with those charged with governance about a change in a significant accounting policy affecting the interim financial information; about adjustments that, either individually or in the aggregate, could have a significant effect on the entity's financial reporting process; and about uncorrected misstatements aggregated by the accountant that were determined by management to be immaterial, both individually and in the aggregate, to the interim financial information taken as a whole.²⁷ [Revised, April 2007, to reflect conforming changes necessary due

^[25] [Footnote deleted, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116.]

²⁶ Section 325, *Communicating Internal Control Related Matters Identified in an Audit*, provides guidance on communicating significant deficiencies and material weaknesses in internal control. [Footnote renumbered and revised, May 2006, to reflect conforming changes necessary due to the issuance of SAS No. 112. Footnote renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

²⁷ The presentation to those charged with governance should be similar to the summary of uncorrected misstatements included in or attached to the management representation letter that is described in paragraph .24 of this section. [Footnote renumbered to reflect conforming changes necessary due to the issuance of SAS No. 112. Footnote revised, April 2007, to reflect conforming changes necessary due to the issuance of SAS No. 114. Footnote revised and renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

to the issuance of SAS No. 114. Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.35 The objective of a review of interim financial information differs significantly from that of an audit. Therefore, any communication the accountant may make about the quality, not just the acceptability, of the entity's accounting principles as applied to its interim financial reporting generally would be limited to the effect of significant events, transactions, and changes in accounting estimates that the accountant considered when conducting the review of interim financial information. Further, interim review procedures do not provide assurance that the accountant will become aware of all matters that might affect the accountant's judgments about the quality of the entity's accounting principles that would be identified as a result of an audit.

.36 If the accountant has identified matters to be communicated to those charged with governance, the accountant should attempt to make such communications with those charged with governance, or at least the chair of its audit committee (or a similar subgroup with a different name), on a sufficiently timely basis to enable those charged with governance to take appropriate action. The communications may be oral or written. If information is communicated orally, the accountant should document the communications. [Revised, April 2007, to reflect conforming changes necessary due to the issuance of SAS No. 114. Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

The Accountant's Report on a Review of Interim Financial Information^[28]

Form of Accountant's Review Report

.37 Pursuant to paragraph .03 of this standard, an accountant is not required to issue a report on a review of interim financial information; however, if the accountant is engaged to issue a written report or, based upon the guidance in paragraph .03, determines to issue a written report, the accountant's review report accompanying interim financial information should consist of the following:

- a. A title that includes the word *independent*.
- b. A statement that the interim financial information identified in the report was reviewed.
- c. A statement that the interim financial information is the responsibility of the entity's management.
- d. A statement that the review of interim financial information was conducted in accordance with standards established by the AICPA.
- e. A description of the procedures for a review of interim financial information.
- f. A statement that a review of interim financial information is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States, the objective of

^[28] [Footnote deleted, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116.]

which is an expression of an opinion regarding the financial information taken as a whole, and accordingly, no such opinion is expressed.

- g. A statement about whether the accountant is aware of any material modifications that should be made to the accompanying interim financial information for it to conform with the applicable financial reporting framework. The statement should include an identification of the country of origin of those accounting principles (for example, accounting principles generally accepted in the United States of America or U.S. generally accepted accounting principles).
- h. The manual or printed signature of the accountant's firm.
- i. The date of the review report. (Generally, the report should be dated as of the date of completion of the review procedures.²⁹)

In addition, each page of the interim financial information should be clearly marked as unaudited.

.38 The following is an example of a review report.³⁰

Independent Accountant's Report

We have reviewed the accompanying [*describe the interim financial information or statements reviewed*] of ABC Company and consolidated subsidiaries as of September 30, 20X1, and for the three-month and nine-month periods then ended. This interim financial information is the responsibility of the company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States, the objective of which is the expression of an opinion regarding the financial information taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in conformity with [*identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America*].

[*Signature*]

[*Date*]

[Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial

²⁹ Other reporting issues related to the dating of reports or subsequent events are similar to those encountered in an audit of financial statements. See sections 530, *Dating of the Independent Auditor's Report*, and 560, *Subsequent Events*. [Footnote renumbered to reflect conforming changes necessary due to the issuance of SAS No. 112. Footnote renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

³⁰ If interim financial information of a prior period is presented with that of the current period and the accountant has conducted a review of that information, the accountant should report on his or her review of the prior period. An example of the first sentence of such a report follows: "We have reviewed ... of ABC Company and consolidated subsidiaries as of September 30, 20X1 and 20X2, and for the three-month and nine-month periods then ended. ..." [Footnote renumbered to reflect conforming changes necessary due to the issuance of SAS No. 112. Footnote renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.39 An accountant may be engaged to report on a review of comparative interim financial information.³¹ The following is an example of a review report on a condensed balance sheet as of March 31, 20X1, the related condensed statements of income and cash flows for the three-month periods ended March 31, 20X1 and 20X0, and a condensed balance sheet derived from audited financial statements as of December 31, 20X0.^[32]

Independent Accountant's Report

We have reviewed the condensed consolidated balance sheet of ABC Company and subsidiaries as of March 31, 20X1, and the related condensed consolidated statements of income and cash flows for the three-month periods ended March 31, 20X1 and 20X0. This condensed financial information is the responsibility of the company's management.

We conducted our reviews in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States, the objective of which is the expression of an opinion regarding the financial information taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the condensed financial information referred to above for them to be in conformity with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet of ABC Company and subsidiaries as of December 31, 20X0, and the related consolidated statements of income, retained earnings, and cash flows for the year then ended (not presented herein); and in our report dated February 15, 20X1, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 20X0, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.³³

[Signature]

[Date]

³¹ As interim financial reporting is intended to be an update to year end reporting, balance sheet information as of the most recent year end ordinarily would be presented for comparative purposes with the corresponding information as of the latest interim period. Likewise, the comparative presentation for income statement and cash flow information presented for the current interim period would be that of the corresponding interim period of the prior year. [Footnote added, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

^[32] [Footnote deleted, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116.]

³³ If the auditor's report on the preceding year-end financial statements was other than unqualified, referred to other auditors, or included an explanatory paragraph because of a going-concern matter or an inconsistency in the application of accounting principles, the last paragraph of the illustrative report in paragraph .39 should be appropriately modified. [Footnote renumbered to reflect

(continued)

[Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.40 The accountant may use and make reference to another accountant's review report on the interim financial information of a significant component of a reporting entity. This reference indicates a division of responsibility for performing the review.³⁴ The following is an example of report including such a reference:

Independent Accountant's Report

We have reviewed the accompanying [*describe the interim financial information or statements reviewed*] of ABC Company and consolidated subsidiaries as of September 30, 20X1, and for the three-month and nine-month periods then ended. This interim financial information is the responsibility of the company's management.

We were furnished with the report of other accountants on their review of the interim financial information of DEF subsidiary, whose total assets as of September 30, 20X1, and whose revenues for the three-month and nine-month periods then ended, constituted 15 percent, 20 percent, and 22 percent, respectively, of the related consolidated totals.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States, the objective of which is the expression of an opinion regarding the financial information taken as a whole. Accordingly, we do not express such an opinion.

Based on our review and the report of other accountants, we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in conformity with [*identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America*].

[*Signature*]

[*Date*]

[Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

(*footnote continued*)

conforming changes necessary due to the issuance of SAS No. 112. Footnote revised and renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

³⁴ See section 543, *Part of Audit Performed by Other Independent Auditors*. [Footnote renumbered to reflect conforming changes necessary due to the issuance of SAS No. 112. Footnote revised and renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

Modification of the Accountant's Review Report

.41 The accountant's report on a review of interim financial information should be modified for departures from the applicable financial reporting framework,³⁵ which include inadequate disclosure and changes in accounting principle that are not in conformity with the applicable financial reporting framework. The existence of substantial doubt about the entity's ability to continue as a going concern or a lack of consistency in the application of accounting principles affecting the interim financial information would not require the accountant to add an additional paragraph to the report, provided that the interim financial information appropriately discloses such matters. Although not required, the accountant may wish to emphasize such matters in a separate explanatory paragraph of the report. See paragraphs .44–.45 of this section for examples of paragraphs that address matters related to an entity's ability to continue as a going concern. [Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.42 *Departure from the applicable financial reporting framework.* If the accountant becomes aware that the interim financial information is materially affected by a departure from the applicable financial reporting framework, he or she should modify the report. The modification should describe the nature of the departure and, if practicable, should state the effects on the interim financial information. Following is an example of such a modification of the accountant's report.

[Explanatory paragraph]

Based on information furnished to us by management, we believe that the company has excluded from property and debt in the accompanying balance sheet certain lease obligations that we believe should be capitalized to conform with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*. This information indicates that if these lease obligations were capitalized at September 30, 20X1, property would be increased by \$____, long-term debt by \$____, and net income and earnings per share would be increased (decreased) by \$____, \$____, \$____, and \$____, respectively, for the three-month and nine-month periods then ended.

[Concluding paragraph]

Based on our review, with the exception of the matter(s) described in the preceding paragraph(s), we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in conformity with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

[Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

³⁵ If the circumstances contemplated by Rule 203, *Accounting Principles* [ET sec. 203 par. 01], are present, the accountant should refer to the guidance in section 508, *Reports on Audited Financial Statements*, paragraph .15. [Footnote renumbered to reflect conforming changes necessary due to the issuance of SAS No. 112. Footnote revised and renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.43 Inadequate disclosure. The information necessary for adequate disclosure is influenced by the form and context in which the interim financial information is presented. For example, the disclosures considered necessary for interim financial information presented in accordance with the minimum disclosure requirements of FASB ASC 270-10-50-1, which is applicable to summarized financial statements of public companies, are considerably less extensive than those necessary for annual financial statements that present financial position, results of operations, and cash flows in conformity with the applicable financial reporting framework.³⁶ If information that the accountant believes is necessary for adequate disclosure in conformity with the applicable financial reporting framework³⁷ is not included in the interim financial information, the accountant should modify the report and, if practicable, include the necessary information in the report. The following is an example of such a modification of the accountant's report:

[Explanatory paragraph]

Management has informed us that the company is presently defending a claim regarding *[describe the nature of the loss contingency]* and that the extent of the company's liability, if any, and the effect on the accompanying information is not determinable at this time. The information fails to disclose these matters, which we believe are required to be disclosed in conformity with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

[Concluding paragraph]

Based on our review, with the exception of the matter(s) described in the preceding paragraph(s), we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in conformity with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

[Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. Revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.44 Going-concern paragraph was included in the prior year's audit report; conditions giving rise to the paragraph continue to exist. If (a) the auditor's report for the prior year end contained an explanatory paragraph indicating the existence of substantial doubt about the entity's ability to continue as a

³⁶ For example, FASB ASC 270-10-50-3 states that "there is a presumption that users of summarized interim financial data will have read the latest published annual report, including the financial disclosures required by generally accepted accounting principles and management's commentary concerning the annual financial results, and that the summarized interim data will be viewed in that context." See footnote 21 of this section for additional disclosure requirements. [Footnote renumbered to reflect conforming changes necessary due to the issuance of SAS No. 112. Footnote revised and renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. Footnote revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

³⁷ Such disclosures include those set forth in section 341A, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, paragraph .10. If the accountant determines that disclosure about the entity's possible inability to continue as a going concern is inadequate, a departure from generally accepted accounting principles exists. [Footnote renumbered to reflect conforming changes necessary due to the issuance of SAS No. 112. Footnote renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

going concern, (b) the conditions that raised such doubt continued to exist as of the interim reporting date covered by the review, and (c) there is adequate and appropriate disclosure about these conditions in the interim financial information, the accountant is not required to modify his or her report. However, the accountant may add an explanatory paragraph to the review report, after the concluding paragraph, emphasizing the matter disclosed in the audited financial statements and the interim financial information. The following is an example of such a paragraph.

Note 4 of the Company's audited financial statements as of December 31, 20X1, and for the year then ended discloses that the Company was unable to renew its line of credit or obtain alternative financing at December 31, 20X1. Our auditor's report on those financial statements includes an explanatory paragraph referring to the matters in Note 4 of those financial statements and indicating that these matters raised substantial doubt about the Company's ability to continue as a going concern. As indicated in Note 3 of the Company's unaudited interim financial information as of March 31, 20X2, and for the three months then ended, the Company was still unable to renew its line of credit or obtain alternative financing as of March 31, 20X2. The accompanying interim financial information does not include any adjustments that might result from the outcome of this uncertainty.

[Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.45 *Going-concern paragraph was not included in the prior year's audit report; conditions or events exist as of the interim reporting date covered by the review that might be indicative of the entity's possible inability to continue as a going concern.* If (a) conditions or events exist as of the interim reporting date covered by the review that might be indicative of the entity's possible inability to continue as a going concern, and (b) there is adequate and appropriate disclosure about these conditions or events in the interim financial information, the accountant is not required to modify his or her report. However, the accountant may add an explanatory paragraph to the review report, after the concluding paragraph, emphasizing the matter disclosed in the interim financial information. The following is an example of such a paragraph.

As indicated in note 3, certain conditions indicate that the Company may be unable to continue as a going concern. The accompanying interim financial information does not include any adjustments that might result from the outcome of this uncertainty.

Subsequent Discovery of Facts Existing at the Date of the Accountant's Report or Completion of the Interim Review Procedures

.46 Subsequent to the date of the accountant's review report or the completion of the interim review procedures, if a report is not issued, the accountant may become aware that facts existed at the date of the review report (or the completion of the review procedures) that might have affected the accountant's report (or conclusion, if a report is not issued) had he or she then been aware of those matters. Because of the variety of conditions that might be encountered, the specific actions to be taken by the accountant in a particular case may vary with the circumstances. In any event, the accountant should consider the guidance in section 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*.

Client's Representation Concerning a Review of Interim Financial Information

.47 If a client represents in a report, document, or written communication containing the reviewed interim financial information that the accountant has reviewed the interim financial information, the accountant should advise the entity that his or her review report must be included in the report, document, or written communication. If the client will not agree to include the accountant's review report, the accountant should perform the following procedures:

- Request that the accountant's name be neither associated with the interim financial information nor referred to in the document.
- If the client does not comply with the request, advise the client that the accountant will not permit either the use of his or her name or reference to him or her.
- Communicate the client's noncompliance with the request to those charged with governance.
- When appropriate, recommend that the client consult with its legal counsel about the application of relevant laws and regulations to the circumstances.
- Consider what other actions might be appropriate.³⁸

[Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

.48 If a client represents in a document filed with a regulatory agency or issued to stockholders or third parties that the accountant has reviewed the interim financial information included in the document, and the accountant has been unable to complete the review of the interim financial information, the accountant should refer to paragraphs .28 and .47 of this section for guidance.

[Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

Interim Financial Information Accompanying Audited Financial Statements

.49 Interim financial information may be presented as supplementary information outside audited financial statements. In such circumstances, each page of the interim financial information should be clearly marked as unaudited. If management chooses or is required to present interim financial information in a note to the audited financial statements, the information also should be clearly marked as unaudited.

.50 The auditor ordinarily need not modify his or her report on the audited financial statements to refer to his or her having performed a review in

³⁸ In considering what actions, if any, may be appropriate in these circumstances, the accountant should consider consulting his or her legal counsel. [Footnote renumbered to reflect conforming changes necessary due to the issuance of SAS No. 112. Footnote renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

accordance with this section or to refer to the interim financial information accompanying the audited financial statements because the interim financial information has not been audited and is not required for the audited financial statements to be fairly stated in conformity with the applicable financial reporting framework. The auditor's report on the audited financial statements should, however, be modified in the following circumstances:

- a. The interim financial information included in a note to the financial statements, including information that has been reviewed in accordance with this section, is not appropriately marked as unaudited. (In these circumstances the auditor should disclaim an opinion on the interim financial information.)
- b. The interim financial information accompanying audited financial statements does not appear to be presented in conformity with the applicable financial reporting framework (see paragraphs .42–.43 of this section). However, the auditor need not modify his or her report on the audited financial statements if his or her separate review report, which refers to those circumstances, is presented with the information.

[Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

Documentation

.51 The accountant should prepare documentation in connection with a review of interim financial information, the form and content of which should be designed to meet the circumstances of the particular engagement. Documentation is the principal record of the review procedures performed and the conclusions reached by the accountant in performing the review.³⁹ Examples of documentation are review programs, analyses, memoranda, and letters of representation. Documentation may be in paper or electronic form, or other media. The quantity, type, and content of the documentation are matters of the accountant's professional judgment.

.52 Because of the different circumstances in individual engagements, it is not possible to specify the form or content of the documentation the accountant should prepare. However, the documentation should include any findings or issues that in the accountant's judgment are significant, for example, the results of review procedures that indicate that the interim financial information could be materially misstated, including actions taken to address such findings, and the basis for the final conclusions reached. In addition, the documentation should (a) enable members of the engagement team with supervision and review responsibilities to understand the nature, timing, extent, and results of the review procedures performed; (b) identify the engagement team member(s) who performed and reviewed the work; and (c) identify the evidence the accountant obtained in support of the conclusion that the interim financial information being reviewed agreed or reconciled with the accounting records (see paragraph .18*d* of this section).

³⁹ However, an accountant would not be precluded from supporting his or her conclusions by other means in addition to the review documentation. [Footnote renumbered to reflect conforming changes necessary due to the issuance of SAS No. 112. Footnote revised and renumbered, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

Effective Date

.53 This section is effective for reviews of interim financial information for interim periods beginning after December 15, 2009. Earlier application of the provisions of this section is permitted. [Revised, January 2009, to reflect conforming changes necessary due to the issuance of SAS No. 116. As amended, effective for reviews of interim financial information for interim periods beginning after December 15, 2009, by SAS No. 116.]

Appendix A

Analytical Procedures the Accountant May Consider Performing When Conducting a Review of Interim Financial Information

A1. Analytical procedures are designed to identify relationships and individual items that appear to be unusual and that may reflect a material misstatement of the interim financial information. These procedures may consist of comparing interim financial information with prior period information, actual interim results with anticipated results (such as budgets or forecasts), and recorded amounts or ratios with expectations developed by the accountant. Examples of analytical procedures an accountant may consider performing in a review of interim financial information include

- comparing current interim financial information with anticipated results, such as budgets or forecasts (for example, comparing tax balances and the relationship between the provision for income taxes and pretax income in the current interim financial information with corresponding information in (a) budgets, using expected rates, and (b) financial information for prior periods).¹
- comparing current interim financial information with relevant nonfinancial information.
- comparing ratios and indicators for the current interim period with expectations based on prior periods, for example, performing gross profit analysis by product line and operating segment using elements of the current interim financial information and comparing the results with corresponding information for prior periods. Examples of key ratios and indicators are the current ratio, receivable turnover or days' sales outstanding, inventory turnover, depreciation to average fixed assets, debt to equity, gross profit percentage, net income percentage, and plant operating rates.
- comparing ratios and indicators for the current interim period with those of entities in the same industry.
- comparing relationships among elements in the current interim financial information with corresponding relationships in the interim financial information of prior periods, for example, expense by type as a percentage of sales, assets by type as a percentage of total assets, and percentage of change in sales to percentage of change in receivables.
- comparing disaggregated data. The following are examples of how data may be disaggregated:
 - By period, for example, financial statement items disaggregated into quarterly, monthly, or weekly amounts.

¹ The accountant should exercise caution when comparing and evaluating current interim financial information with budgets, forecasts, or other anticipated results because of the inherent lack of precision in estimating the future and susceptibility of such information to manipulation and misstatement by management to reflect desired interim results.

- By product line or operating segment.
- By location, for example, subsidiary, division, or branch.

A2. Analytical procedures may include such statistical techniques as trend analysis or regression analysis and may be performed manually or with the use of computer-assisted techniques.

Appendix B

Unusual or Complex Situations to Be Considered by the Accountant When Conducting a Review of Interim Financial Information

B1. The following are examples of situations about which the accountant would ordinarily inquire of management:

- Business combinations
- New or complex revenue recognition methods
- Impairment of assets
- Disposal of a segment of a business
- Use of derivative instruments and hedging activities
- Sales and transfers that may call into question the classification of investments in securities, including management's intent and ability with respect to the remaining securities classified as held to maturity
- Computation of earnings per share in a complex capital structure
- Adoption of new stock compensation plans or changes to existing plans
- Restructuring charges taken in the current and prior quarters
- Significant, unusual, or infrequently occurring transactions
- Changes in litigation or contingencies
- Changes in major contracts with customers or suppliers
- Application of new accounting principles
- Changes in accounting principles or the methods of applying them
- Trends and developments affecting accounting estimates,¹ such as allowances for bad debts and excess or obsolete inventories, provisions for warranties and employee benefits, and realization of unearned income and deferred charges
- Compliance with debt covenants
- Changes in related parties or significant new related-party transactions
- Material off-balance-sheet transactions, special-purpose entities, and other equity investments
- Unique terms for debt or capital stock that could affect classification

¹ The accountant may wish to refer to the guidance in section 342, *Auditing Accounting Estimates*, paragraphs .05–.06.

Appendix C

Illustrative Management Representation Letters for a Review of Interim Financial Information

C1. The following illustrative management representation letters, which relate to a review of interim financial information prepared in conformity with an applicable financial reporting framework, are presented for illustrative purposes only. The first letter is designed to be used in conjunction with the representation letter provided by management in connection with the audit of the financial statements of the prior year. The second illustrative representation letter may be used independently of any other representation letter.

C2. The introductory paragraph of the letters should specify the financial information and periods covered by the accountant's report, for example, "condensed balance sheets of XYZ Company as of June 30, 20X1 and 20X2, and the related condensed statements of income and retained earnings and cash flows for the three-month and nine-month periods then ended." The written representations to be obtained should be based on the circumstances of the engagement and the nature and basis of presentation of the interim financial information being reviewed. Appendix B, "Additional Illustrative Representations," of section 333, *Management Representations*, presents examples of such representations. Illustrative representations for specialized industries are presented in AICPA Audit and Accounting Guides.

C3. If matters exist that should be disclosed to the accountant, they should be indicated by modifying the related representation. For example, if an event subsequent to the date of the balance sheet has been disclosed in the interim financial information, the final paragraph could be modified as follows: "To the best of our knowledge and belief, except as discussed in note X to the interim financial information, no events have occurred. . . ." In appropriate circumstances, item 10 of the second illustrative representation letter could be modified as follows: "The company has no plans or intentions that may materially affect the carrying value or classification of assets and liabilities, except for our plans to dispose of segment A, as disclosed in note X to the interim financial information, which are discussed in the minutes of the June 7, 20X2, meeting of the board of directors (or disclosed to you at our meeting on June 15, 20X2)." Similarly, if management has received a communication regarding an allegation of fraud or suspected fraud, item 7 of the first illustrative representation letter and item 9 of the second illustrative representation letter could be modified as follows: "Except for the allegation discussed in the minutes of the December 7, 20X1, meeting of the board of directors (or disclosed to you at our meeting on October 15, 20X1), we have no knowledge of any allegations of fraud or suspected fraud affecting the company received in communications from employees, former employees, analysts, regulators, short sellers, or others."

C4. The qualitative discussion of materiality used in the illustrative letters is adapted from the Financial Accounting Standards Board Statement of Financial Accounting Concepts No. 2, *Qualitative Characteristics of Accounting Information*.

C5. Certain terms are used in the illustrative letters that are described elsewhere in authoritative literature. Examples are *fraud*, in section 316, *Consideration of Fraud in a Financial Statement Audit*, and *related parties*, in

section 334, *Related Parties*, footnote 1). To avoid misunderstanding concerning the meaning of such terms, the accountant may wish to furnish those definitions to management or request that the definitions be included in the written representations.

C6. The illustrative letters assume that management and the accountant have reached an understanding on the limits of materiality for purposes of the written representations. However, it should be noted that a materiality limit would not apply for certain representations, as explained in section 333 paragraph .08.

1. Illustrative Short-Form Representation Letter for a Review of Interim Financial Information

[This representation letter is to be used in conjunction with the representation letter for the audit of the financial statements of the prior year. Management confirms the representations made in the representation letter for the audit of the financial statements of the prior year end as they apply to the interim financial information, and makes additional representations that may be needed for the interim financial information.]

[Date]

To *[Independent Accountant]*:

We are providing this letter in connection with your review of the *[identification of interim financial information]* of *[name of entity]* as of *[dates]* and for the *[periods]* for the purpose of determining whether any material modifications should be made to the *[consolidated]* interim financial information for it to conform with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America, including, if appropriate, an indication as to the appropriate form and content of interim financial information (for example, Article 10 of SEC Regulation S-X)]*. We confirm that we are responsible for the fair presentation of the *[consolidated]* interim financial information in conformity with *[identify the applicable financial reporting framework; for example, generally accepted accounting principles]* and that we are responsible for establishing and maintaining controls that are sufficient to provide a reasonable basis for the preparation of reliable interim financial information in accordance with *[identify the applicable financial reporting framework; for example, generally accepted accounting principles]*.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We confirm, to the best of our knowledge and belief, *[as of (date of accountant's report or completion of review),]* the following representations made to you during your review:

1. The interim financial information referred to above has been prepared and presented in conformity with *[identify the applicable financial reporting framework; for example, generally accepted accounting principles]* applicable to interim financial information.
2. We have made available to you
 - a. all financial records and related data.

- b. all minutes of the meetings of stockholders, directors, and committees of directors, or summaries of actions of recent meetings for which minutes have not yet been prepared. All significant board and committee actions are included in the summaries.
3. We believe that the effects of any uncorrected financial statement misstatements aggregated by you during the current review engagement and pertaining to the interim period(s) in the current year, as summarized in the accompanying schedule, are immaterial, both individually and in the aggregate, to the interim financial information taken as a whole.¹
 4. There are no significant deficiencies or material weaknesses in the design or operation of internal controls as it relates to the preparation of both annual and interim financial information.
 5. We acknowledge our responsibility for the design and implementation of programs and controls to prevent and detect fraud.
 6. We have no knowledge of any fraud or suspected fraud affecting the company involving
 - a. management;
 - b. employees who have significant roles in internal control; or
 - c. others where the fraud could have a material effect on the interim financial information.
 7. We have no knowledge of any allegations of fraud or suspected fraud affecting the company received in communications from employees, former employees, analysts, regulators, short sellers, or others.
 8. We have reviewed our representation letter to you dated [*date of representation letter relating to most recent audit*] with respect to the audited financial statements for the year ended [*prior year-end date*]. We believe that representations A, B, and C within that representation letter do not apply to the interim financial information referred to above. We now confirm those representations 1 through X, as they apply to the interim financial information referred to above, and incorporate them herein, with the following changes:

[*Indicate any changes.*]

9. [*Add any representations related to new accounting or auditing standards that are being implemented for the first time.*]

To the best of our knowledge and belief, no events have occurred subsequent to the balance-sheet date and through the date of this letter that would require adjustment to or disclosure in the aforementioned interim financial information.

[*Name of chief executive officer and title*]

[*Name of chief financial officer and title*]

[*Name of chief accounting officer and title*]

¹ If a summary of uncorrected misstatements is unnecessary because no uncorrected misstatements were identified, this representation should be eliminated.

2. Illustrative Representation Letter for a Review of Interim Financial Information

[This representation letter is similar in detail to the management-representation letter used for the audit of the financial statements of the prior year and thus need not refer to the written management representations received in the most recent audit.]

[Date]

To *[Independent Accountant]*:

We are providing this letter in connection with your review of the *[identification of interim financial information]* of *[name of entity]* as of *[dates]* and for the *[periods]* for the purpose of determining whether any material modifications should be made to the *[consolidated]* interim financial information for it to conform with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America, including, if appropriate, an indication as to the appropriate form and content of interim financial information (for example, Article 10 of SEC Regulation S-X)]*. We confirm that we are responsible for the fair presentation of the *[consolidated]* interim financial information in conformity with *[identify the applicable financial reporting framework; for example, generally accepted accounting principles]* and that we are responsible for establishing and maintaining controls that are sufficient to provide a reasonable basis for the preparation of reliable interim financial information in accordance with *[identify the applicable financial reporting framework; for example, generally accepted accounting principles]*.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We confirm, to the best of our knowledge and belief, *[as of (date of accountant's report or the completion of the review)]*, the following representations made to you during your review:

1. The interim financial information referred to above has been prepared and presented in conformity with *[identify the applicable financial reporting framework; for example, generally accepted accounting principles]* applicable to interim financial information.
2. We have made available to you
 - a. all financial records and related data.
 - b. all minutes of the meetings of stockholders, directors, and committees of directors, or summaries of actions of recent meetings for which minutes have not yet been prepared. All significant board and committee actions are included in the summaries.
3. There have been no communications from regulatory agencies concerning noncompliance with or deficiencies in financial reporting practices.
4. There are no material transactions that have not been properly recorded in the accounting records underlying the interim financial information.
5. We believe that the effects of any uncorrected financial statement misstatements aggregated by you during the current review engagement

and pertaining to the interim period(s) in the current year, as summarized in the accompanying schedule, are immaterial, both individually and in the aggregate, to the interim financial information taken as a whole.²

6. There are no significant deficiencies or material weaknesses in the design or operation of internal control as it relates to the preparation of both annual and interim financial information.
7. We acknowledge our responsibility for the design and implementation of programs and controls to prevent and detect fraud.
8. We have no knowledge of any fraud or suspected fraud affecting the company involving
 - a. management;
 - b. employees who have significant roles in internal control; or
 - c. others where the fraud could have a material effect on the interim financial information.
9. We have no knowledge of any allegations of fraud or suspected fraud affecting the company received in communications from employees, former employees, analysts, regulators, short sellers, or others.
10. The company has no plans or intentions that may materially affect the carrying value or classification of assets and liabilities.
11. The following have been properly recorded or disclosed in the interim financial information:
 - a. Related-party transactions, including sales, purchases, loans, transfers, leasing arrangements, and guarantees, and amounts receivable from or payable to related parties.
 - b. Guarantees, whether written or oral, under which the company is contingently liable.
 - c. Significant estimates and material concentrations known to management that are required to be disclosed in accordance with Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 275, *Risks and Uncertainties*. [*Significant estimates are estimates at the balance sheet date that could change materially within the next year. Concentrations refer to volumes of business, revenues, available sources of supply, or markets or geographic areas for which events could occur that would significantly disrupt normal finances within the next year.*]
12. There are no
 - a. violations or possible violations of laws or regulations whose effects should be considered for disclosure in the interim financial information or as a basis for recording a loss contingency.
 - b. unasserted claims or assessments that are probable of assertion and must be disclosed in accordance with FASB ASC 450, *Contingencies*.
 - c. other liabilities or gain or loss contingencies that are required to be accrued or disclosed by FASB ASC 450.

² If a summary of uncorrected misstatements is unnecessary because no uncorrected misstatements were identified, this representation should be eliminated.

13. The company has satisfactory title to all owned assets, and there are no liens or encumbrances on such assets; nor has any asset been pledged as collateral.
14. The company has complied with all aspects of contractual agreements that would have a material effect on the interim financial information in the event of noncompliance.
15. *[Add additional representations that are unique to the entity's business or industry. See section 333, Management Representations, paragraph .17].*
16. *[Add any representations related to new accounting or auditing standards that are being implemented for the first time.]*

To the best of our knowledge and belief, no events have occurred subsequent to the balance-sheet date and through the date of this letter that would require adjustment to or disclosure in the aforementioned interim financial information.

[Name of chief executive officer and title]

Compliance Audits

(Supersedes SAS No. 74.)

Source: SAS No. 117.

Effective for compliance audits for fiscal periods ending on or after June 15, 2010.
Earlier application is permitted.

Introduction and Applicability

.01 Governments frequently establish governmental audit requirements for entities to undergo an audit of their compliance with applicable compliance requirements. This section is applicable when an auditor is engaged, or required by law or regulation, to perform a compliance audit in accordance with all of the following:

- Generally accepted auditing standards (GAAS)
- The standards for financial audits under *Government Auditing Standards*
- A governmental audit requirement that requires an auditor to express an opinion on compliance (Ref: par. .A1–.A2)

.02 This section addresses the application of GAAS to a compliance audit. Compliance audits usually are performed in conjunction with a financial statement audit. This section does not apply to the financial statement audit component of such engagements. Although certain AU sections are not applicable to a compliance audit, as identified in the appendix of this section, all AU sections other than section 801 are applicable to the audit of financial statements performed in conjunction with a compliance audit.

.03 This section is not applicable when the governmental audit requirement calls for an examination, in accordance with Statements on Standards for Attestation Engagements, of an entity's compliance with specified requirements or an examination of an entity's internal control over compliance. AT section 601, *Compliance Attestation*, is applicable to these engagements. If the entity is required to undergo a compliance audit and an examination of internal control over compliance, this section is applicable to performing and reporting on the compliance audit, and AT section 601 is applicable to performing and reporting on the examination of internal control over compliance. (Ref: par. .A2)

.04 Sections 100–700 and 900 address audits of financial statements, as well as other kinds of engagements. Sections 100–300 and 500 generally can be adapted to the objectives of a compliance audit. However, with certain exceptions, sections 400, 600, 700, and 900 generally cannot be adapted to a compliance audit because they address the auditor's report on an audit of financial statements and other topics that are not applicable to a compliance audit.

.05 The AU sections that are not applicable to a compliance audit are listed in the appendix of this section. All of the other AU sections are applicable to

a compliance audit. However, the auditor is not required, in planning and performing a compliance audit, to make a literal translation of each procedure that might be performed in a financial statement audit, but rather to obtain sufficient appropriate audit evidence to support the auditor's opinion on compliance.

.06 Some AU sections can be adapted and applied to a compliance audit with relative ease, for example, by simply replacing the word *misstatement* with the word *noncompliance*. Other AU sections are more difficult to adapt and apply and entail additional modification. For that reason, this section provides more specific guidance on how to adapt and apply certain AU sections to a compliance audit.

.07 *Government Auditing Standards* and governmental audit requirements contain certain standards and requirements that are supplementary to those in GAAS, as well as guidance on how to apply those standards and requirements.

Management's Responsibilities

.08 A compliance audit is based on the premise that management is responsible for the entity's compliance with compliance requirements. Management's responsibility for the entity's compliance with compliance requirements includes the following:

- a. Identifying the entity's government programs and understanding and complying with the compliance requirements
- b. Establishing and maintaining effective controls that provide reasonable assurance that the entity administers government programs in compliance with the compliance requirements
- c. Evaluating and monitoring the entity's compliance with the compliance requirements
- d. Taking corrective action when instances of noncompliance are identified, including corrective action on audit findings of the compliance audit

Effective Date

.09 The provisions of this section are effective for compliance audits for fiscal periods ending on or after June 15, 2010. Earlier application is permitted.

Objectives (Ref: par. .A3)

.10 The auditor's objectives in a compliance audit are to

- a. obtain sufficient appropriate audit evidence to form an opinion and report at the level specified in the governmental audit requirement on whether the entity complied in all material respects with the applicable compliance requirements; and
- b. identify audit and reporting requirements specified in the governmental audit requirement that are supplementary to GAAS and *Government Auditing Standards*, if any, and perform procedures to address those requirements.

Definitions

.11 For the purpose of adapting GAAS to a compliance audit, the following terms have the meanings attributed as follows:

Applicable compliance requirements. Compliance requirements that are subject to the compliance audit.

Audit findings. The matters that are required to be reported by the auditor in accordance with the governmental audit requirement.

Audit risk of noncompliance. The risk that the auditor expresses an inappropriate audit opinion on the entity's compliance when material noncompliance exists. Audit risk of noncompliance is a function of the risks of material noncompliance and detection risk of noncompliance.

Compliance audit. A program-specific audit or an organization-wide audit of an entity's compliance with applicable compliance requirements.

Compliance requirements. Laws, regulations, rules, and provisions of contracts or grant agreements applicable to government programs with which the entity is required to comply.

Deficiency in internal control over compliance. A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis.

A deficiency in *design* exists when a control necessary to meet the control objective is missing or an existing control is not properly designed so that, even if the control operates as designed, the control objective would not be met.

A deficiency in *operation* exists when a properly designed control does not operate as designed or the person performing the control does not possess the necessary authority or competence to perform the control effectively.

Detection risk of noncompliance. The risk that the procedures performed by the auditor to reduce audit risk of noncompliance to an acceptably low level will not detect noncompliance that exists and that could be material, either individually or when aggregated with other instances of noncompliance.

Governmental audit requirement. A government requirement established by law, regulation, rule, or provision of contracts or grant agreements requiring that an entity undergo an audit of its compliance with applicable compliance requirements related to one or more government programs that the entity administers. (Ref: par. .A4)

Government Auditing Standards. Standards and guidance issued by the Comptroller General of the United States, U.S. Government Accountability Office for financial audits, attestation engagements, and performance audits. *Government Auditing Standards* also is known as generally accepted government auditing standards (GAGAS) or the Yellow Book.

Government program. The means by which governmental entities achieve their objectives. For example, one of the objectives of the U.S. Department of Agriculture is to provide nutrition to individuals in need. Examples of government programs designed to achieve that objective are the Supplemental Nutrition Assistance Program and the National School Lunch Program. Government programs that are relevant to this section are those in which a grantor or pass-through entity provides an award to another entity, usually in the form of a grant, contract, or other agreement. Not all government programs provide cash assistance; sometimes noncash assistance is provided (for example, a loan guarantee, commodities, or property).

Grantor. A government agency from which funding for the government program originates.

Known questioned costs. Questioned costs specifically identified by the auditor. Known questioned costs are a subset of likely questioned costs.

Likely questioned costs. The auditor's best estimate of total questioned costs, not just the known questioned costs. Likely questioned costs are developed by extrapolating from audit evidence obtained, for example, by projecting known questioned costs identified in an audit sample to the entire population from which the sample was drawn.

Material noncompliance. In the absence of a definition of material noncompliance in the governmental audit requirement, a failure to follow compliance requirements or a violation of prohibitions included in the applicable compliance requirements that results in noncompliance that is quantitatively or qualitatively material, either individually or when aggregated with other noncompliance, to the affected government program.

Material weakness in internal control over compliance. A deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis. In this section, a reasonable possibility exists when the likelihood of the event is either reasonably possible or probable as defined as follows:

Reasonably possible. The chance of the future event or events occurring is more than remote but less than likely.

Remote. The chance of the future event or events occurring is slight.

Probable. The future event or events are likely to occur.

Organization-wide audit. An audit of an entity's financial statements and an audit of its compliance with the applicable compliance requirements as they relate to one or more government programs that the entity administers.

Pass-through entity. An entity that receives an award from a grantor or other entity and distributes all or part of it to another entity to administer a government program.

Program-specific audit. An audit of an entity's compliance with applicable compliance requirements as they relate to one government program that the entity administers. The compliance audit portion of a program-specific audit is performed in conjunction with either an audit of the entity's or the program's financial statements.

Questioned costs. Costs that are questioned by the auditor because (1) of a violation or possible violation of the applicable compliance requirements, (2) the costs are not supported by adequate documentation, or (3) the incurred costs appear unreasonable and do not reflect the actions that a prudent person would take in the circumstances.

Risk of material noncompliance. The risk that material noncompliance exists prior to the audit. This consists of two components, described as follows:

Inherent risk of noncompliance. The susceptibility of a compliance requirement to noncompliance that could be material, either individually or when aggregated with other instances of noncompliance, before consideration of any related controls over compliance.

Control risk of noncompliance. The risk that noncompliance with a compliance requirement that could occur and that could be material, either individually or when aggregated with other instances of noncompliance, will not be

prevented, or detected and corrected, on a timely basis by the entity's internal control over compliance.

Significant deficiency in internal control over compliance. A deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Requirements

Adapting and Applying the AU Sections to a Compliance Audit (Ref: par. .A5 and .A38)

.12 When performing a compliance audit, the auditor, using professional judgment, should adapt and apply the AU sections to the objectives of a compliance audit, except for the AU sections listed in the appendix of this section.

Establishing Materiality Levels (Ref: par. .A6–.A8)

.13 The auditor should establish and apply materiality levels for the compliance audit based on the governmental audit requirement.

Identifying Government Programs and Applicable Compliance Requirements (Ref: par. .A9–.A11)

.14 As discussed in paragraph .08, a compliance audit is based on the premise that management is responsible for identifying the entity's government programs and understanding and complying with the compliance requirements. The auditor should determine which of those government programs and compliance requirements to test (that is, the applicable compliance requirements) in accordance with the governmental audit requirement.

Performing Risk Assessment Procedures (Ref: par. .A12–.A15)

.15 For each of the government programs and applicable compliance requirements selected for testing, the auditor should perform risk assessment procedures to obtain a sufficient understanding of the applicable compliance requirements and the entity's internal control over compliance with the applicable compliance requirements.¹

.16 In performing risk assessment procedures, the auditor should inquire of management about whether there are findings and recommendations in reports or other written communications resulting from previous audits, attestation engagements, and internal or external monitoring that directly relate to the objectives of the compliance audit. The auditor should gain an understanding of management's response to findings and recommendations that could have a material effect on the entity's compliance with the applicable compliance requirements (for example, taking corrective action). The auditor should use this information to assess risk and determine the nature, timing, and extent of the audit procedures for the compliance audit, including determining the extent to which testing the implementation of any corrective actions is applicable to the audit objectives.

¹ See paragraphs .01–.08, .10–.43, .46–.82, and .87–.101 of section 314, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*.

Assessing the Risks of Material Noncompliance (Ref: par. .A16–.A18)

.17 The auditor should assess the risks of material noncompliance whether due to fraud or error for each applicable compliance requirement and should consider whether any of those risks are pervasive to the entity's compliance because they may affect the entity's compliance with many compliance requirements.²

Performing Further Audit Procedures in Response to Assessed Risks

.18 If the auditor identifies risks of material noncompliance that are pervasive to the entity's compliance, the auditor should develop an overall response to such risks. (Ref: par. .A19)

.19 The auditor should design and perform further audit procedures, including tests of details (which may include tests of transactions) to obtain sufficient appropriate audit evidence about the entity's compliance with each of the applicable compliance requirements in response to the assessed risks of material noncompliance. Risk assessment procedures, tests of controls, and analytical procedures alone are not sufficient to address a risk of material noncompliance. (Ref: par. .A20–.A23)

.20 The auditor should design and perform further audit procedures in response to the assessed risks of material noncompliance. These procedures should include performing tests of controls over compliance if

- the auditor's risk assessment includes an expectation of the operating effectiveness of controls over compliance related to the applicable compliance requirements;
- substantive procedures alone do not provide sufficient appropriate audit evidence; or
- such tests of controls over compliance are required by the governmental audit requirement.

If any of the conditions in this paragraph are met, the auditor should test the operating effectiveness of controls over each applicable compliance requirement to which the conditions apply in each compliance audit. (Ref: par. .A24–.A25)

Supplementary Audit Requirements

.21 The auditor should determine whether audit requirements are specified in the governmental audit requirement that are supplementary to GAAS and *Government Auditing Standards* and perform procedures to address those requirements, if any. (Ref: par. .A26)

.22 In instances where audit guidance provided by a governmental agency for the performance of compliance audits has not been updated for, or otherwise conflicts with, current GAAS or *Government Auditing Standards*, the auditor should comply with the most current applicable GAAS and *Government Auditing Standards* instead of the outdated or conflicting guidance. (Ref: par. .A27)

² See paragraphs .103–.121 of section 314.

Written Representations

.23 The auditor should request from management written representations³ that are tailored to the entity and the governmental audit requirement: (Ref: par. .A28)

- a. acknowledging management's responsibility for understanding and complying with the compliance requirements;
- b. acknowledging management's responsibility for establishing and maintaining controls that provide reasonable assurance that the entity administers government programs in accordance with the compliance requirements;
- c. stating that management has identified and disclosed to the auditor all of its government programs and related activities subject to the governmental audit requirement;
- d. stating that management has made available to the auditor all contracts and grant agreements, including amendments, if any, and any other correspondence relevant to the programs and related activities subject to the governmental audit requirement;
- e. stating that management has disclosed to the auditor all known noncompliance with the applicable compliance requirements or stating that there was no such noncompliance;
- f. stating whether management believes that the entity has complied with the applicable compliance requirements (except for noncompliance it has disclosed to the auditor);
- g. stating that management has made available to the auditor all documentation related to compliance with the applicable compliance requirements;
- h. identifying management's interpretation of any applicable compliance requirements that are subject to varying interpretations;
- i. stating that management has disclosed to the auditor any communications from grantors and pass-through entities concerning possible noncompliance with the applicable compliance requirements, including communications received from the end of the period covered by the compliance audit to the date of the auditor's report;
- j. stating that management has disclosed to the auditor the findings received and related corrective actions taken for previous audits, attestation engagements, and internal or external monitoring that directly relate to the objectives of the compliance audit, including findings received and corrective actions taken from the end of the period covered by the compliance audit to the date of the auditor's report;
- k. stating that management has disclosed to the auditor all known noncompliance with the applicable compliance requirements subsequent to the period covered by the auditor's report or stating that there were no such known instances; and
- l. stating that management is responsible for taking corrective action on audit findings of the compliance audit.

³ See section 333, *Management Representations*.

.24 If the auditor determines that it is necessary to obtain additional representations related to the entity's compliance with the applicable compliance requirements, the auditor should request such additional representations.

Subsequent Events

.25 The auditor should perform audit procedures up to the date of the auditor's report to obtain sufficient appropriate audit evidence that all subsequent events related to the entity's compliance during the period covered by the auditor's report on compliance have been identified. (Ref: par. .A29)

.26 The auditor should take into account the auditor's risk assessment in determining the nature and extent of such audit procedures, which should include, but are not limited to, inquiring of management about and considering

- relevant internal auditors' reports issued during the subsequent period.
- other auditors' reports identifying noncompliance that were issued during the subsequent period.
- reports from grantors and pass-through entities on the entity's noncompliance that were issued during the subsequent period.
- information about the entity's noncompliance obtained through other professional engagements performed for that entity.

.27 The auditor has no obligation to perform any audit procedures related to the entity's compliance during the period subsequent to the period covered by the auditor's report. However, if before the report release date, the auditor becomes aware of noncompliance in the period subsequent to the period covered by the auditor's report that is of such a nature and significance that its disclosure is needed to prevent report users from being misled, the auditor should discuss the matter with management and, if appropriate, those charged with governance, and should include an explanatory paragraph in his or her report describing the nature of the noncompliance. (Ref: par. .A30)

Evaluating the Sufficiency and Appropriateness of the Audit Evidence and Forming an Opinion (Ref: par. .A31–.A32)

.28 The auditor should evaluate the sufficiency and appropriateness of the audit evidence obtained.⁴

.29 The auditor should form an opinion, at the level specified by the governmental audit requirement, on whether the entity complied in all material respects with the applicable compliance requirements, and report appropriately. In forming an opinion, the auditor should evaluate likely questioned costs, not just known questioned costs, as well as other material noncompliance that, by its nature, may not result in questioned costs.

Reporting

Report on Compliance Only

.30 The auditor's report on compliance should include the following elements:

- a. A title that includes the word *independent*

⁴ See paragraphs .70–.76 of section 318, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*.

- b. Identification of the one or more government programs covered by the compliance audit or reference to a separate schedule containing that information
- c. Identification of the applicable compliance requirements or a reference to where they can be found
- d. Identification of the period covered by the report
- e. A statement that compliance with the applicable compliance requirements is the responsibility of the entity's management
- f. A statement that the auditor's responsibility is to express an opinion on the entity's compliance with the applicable compliance requirements based on the compliance audit
- g. A statement that the compliance audit was conducted in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, and the governmental audit requirement
- h. A statement that the compliance audit included examining, on a test basis, evidence about the entity's compliance with those requirements and performing such other procedures as the auditor considered necessary in the circumstances
- i. A statement that the auditor believes the compliance audit provides a reasonable basis for his or her opinion
- j. A statement that the compliance audit does not provide a legal determination of the entity's compliance
- k. The auditor's opinion, at the level specified by the governmental audit requirement, on whether the entity complied, in all material respects, with the applicable compliance requirements
- l. If noncompliance that results in an opinion modification is identified, a description of such noncompliance, or a reference to a description of such noncompliance in an accompanying schedule (Ref: par. .A34)
- m. If other noncompliance that is required to be reported by the governmental audit requirement is identified (that is, noncompliance that does not result in an opinion modification), a description of such noncompliance or a reference to a description of such noncompliance in an accompanying schedule (Ref: par. .A34)
- n. If the criteria used to evaluate compliance are
 - i. established or determined by contractual agreement or regulatory provisions that are developed solely for the parties to the agreement or regulatory agency responsible for the provisions or
 - ii. available only to the specified parties,a separate paragraph at the end of the report that includes (1) a statement indicating that the report is intended solely for the information and use of the specified parties (2) an identification of the specified parties to whom use is restricted, and (3) a statement that the report is not intended to be and should not be used by anyone other than the specified parties (Ref: par. .A33)
- o. The manual or printed signature of the auditor's firm
- p. The date of the auditor's report

Combined Report on Compliance and Internal Control Over Compliance

.31 If the governmental audit requirement requires the auditor to report on internal control over compliance and the auditor combines the auditor's report on compliance with a report on internal control over compliance, the following should be added to the report elements listed in paragraph .30:

- a. A statement that management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, rules, and provisions of contracts or grant agreements applicable to government programs.
- b. A statement that in planning and performing the compliance audit, the auditor considered the entity's internal control over compliance with the applicable compliance requirements to determine the auditing procedures for the purpose of expressing an opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance.
- c. A statement that the auditor is not expressing an opinion on internal control over compliance.
- d. A statement that the auditor's consideration of the entity's internal control over compliance was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses in internal control over compliance.
- e. The definition of *deficiency in internal control over compliance* and *material weakness in internal control over compliance*.
- f. A description of any identified material weaknesses in internal control over compliance or a reference to an accompanying schedule containing such a description.
- g. If significant deficiencies in internal control over compliance were identified, the definition of *significant deficiency in internal control over compliance* and a description of the deficiencies or a reference to an accompanying schedule containing such a description.
- h. If no material weaknesses in internal control over compliance were identified, a statement to that effect.
- i. The restricted use paragraph described in paragraph .30(n). The restricted use paragraph should be included in all combined reports on the entity's compliance and internal control over compliance.

A combined report on compliance and internal control over compliance is presented in the exhibit of this section.

Separate Report on Internal Control Over Compliance

.32 If the governmental audit requirement requires the auditor to report on internal control over compliance and the auditor chooses to issue a separate report on internal control over compliance, the auditor should include in that separate report the elements in paragraph .31(a)–(i) and the following additional elements:

- a. A title that includes the word *independent*
- b. A statement that the auditor audited the entity's compliance with applicable compliance requirements pertaining to [*identify the government program(s) and the period audited*] and a reference to the auditor's report on compliance

- c. A statement that the compliance audit was conducted in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, and the governmental audit requirement
- d. The manual or printed signature of the auditor's firm
- e. The date of the auditor's report

.33 The auditor should report noncompliance as well as other matters that are required to be reported by the governmental audit requirement in the manner specified by the governmental audit requirement. If the other matters required to be reported by the governmental audit requirement are not appropriate for the auditor to report on, the auditor should follow paragraph .38. (Ref: par. .A34)

.34 The auditor should modify his or her opinion on compliance in accordance with section 508, *Reports on Audited Financial Statements*, if any of the following conditions exist:

- a. The compliance audit identifies noncompliance with the applicable compliance requirements that the auditor believes has a material effect on the entity's compliance.
- b. A restriction on the scope of the compliance audit.

.35 The auditor should modify the report described in paragraphs .30 and .32 when the auditor makes reference to the report of another auditor as the basis, in part, for the auditor's report.

.36 In the absence of a governmental audit requirement to report on internal control over compliance, the auditor should, nevertheless, communicate in writing to management and those charged with governance identified significant deficiencies and material weakness in internal control over compliance.⁵ (Ref: par. .A35–.A36)

.37 The auditor also should communicate to those charged with governance of the entity the auditor's responsibilities under GAAS, *Government Auditing Standards*, and the governmental audit requirement, an overview of the planned scope and timing of the compliance audit, and significant findings from the compliance audit.⁶

.38 Printed forms, schedules, or reports designed or adopted by government agencies with which they are to be filed sometimes contain prescribed wording. If a printed form, schedule, or report requires the auditor to make a statement that he or she has no basis to make, the auditor should accordingly reword the form, schedule, or report or attach an appropriately worded separate report. (Ref: par. .A37)

Documentation (Ref: par. .A38)

.39 The auditor should document the risk assessment procedures performed, including those related to gaining an understanding of internal control over compliance.⁷

.40 The auditor should document his or her responses to the assessed risks of material noncompliance, the procedures performed to test compliance with

⁵ See section 325, *Communicating Internal Control Related Matters Identified in an Audit*.

⁶ See section 380, *The Auditor's Communication With Those Charged With Governance*.

⁷ See paragraphs .122–.123 of section 314.

the applicable compliance requirements, and the results of those procedures, including any tests of controls over compliance.⁸

.41 The auditor should document materiality levels and the basis on which they were determined.

.42 The auditor should document how he or she complied with the specific governmental audit requirements that are supplementary to GAAS and *Government Auditing Standards*.

Reissuance of the Compliance Report (Ref: par. .A39–.A40)

.43 If an auditor reissues his or her report, the reissued report should include an explanatory paragraph stating that the report is replacing a previously issued report and describing the reasons why the report is being reissued, and any changes from the previously issued report. If additional procedures are performed to obtain sufficient appropriate audit evidence for all of the government programs being reported on, the auditor's report date should be updated to reflect the date the auditor obtained sufficient appropriate audit evidence regarding the events that caused the auditor to perform the new procedures. If, however, additional procedures are performed to obtain sufficient appropriate audit evidence for only some of the government programs being reported on, the auditor should dual date the report with the updated report date reflecting the date the auditor obtained sufficient appropriate audit evidence regarding the government programs affected by the circumstances and referencing the government programs for which additional audit procedures have been performed. Reissuance of an auditor-prepared document required by the governmental audit requirement that is incorporated by reference into the auditor's report is considered to be a reissuance of the report.

⁸ See paragraph .77 of section 318.

Application Guidance and Explanatory Material

Introduction and Applicability

.A1 An example of an engagement to which this section is applicable is an audit performed in accordance with the provisions of Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. This section is applicable because OMB Circular A-133 is a governmental audit requirement that requires the auditor to perform a compliance audit in accordance with both GAAS and *Government Auditing Standards* and to express an opinion on compliance. Another example is a department specific requirement such as the U.S. Department of Housing and Urban Development *Audit Requirements Related to Entities Such As Public Housing Agencies, Nonprofit and For-Profit Housing Projects, and Certain Lenders*. An example of an engagement to which this section is not applicable is an engagement performed to satisfy a law or regulation requiring the entity to have an auditor determine whether the entity has spent transportation excise tax monies in accordance with the specific purposes outlined in the law or regulation, but not requiring that the audit be performed in accordance with both GAAS and *Government Auditing Standards*. Such an engagement could be performed under AT section 601; AT section 101, *Attest Engagements*; or AT section 201, *Agreed-Upon Procedures Engagements*, depending on the requirements of the government. Law or regulation will not always indicate which standards to follow. In such cases, auditor judgment will be needed to determine, based on the circumstances, the appropriate standards to follow. (Ref: par. .01)

.A2 An example of a governmental audit requirement that calls for an examination of an entity's compliance with specified requirements in accordance with AT section 601 is the U.S. Department of Education's audit guide *Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers*. (Ref: par. .01 and .03)

Objectives and Definitions

.A3 Most governmental audit requirements specify that the auditor's opinion on compliance is at the program level. However, some governmental audit requirements may specify a different level (for example, at the applicable compliance requirement level). (Ref: par. .10)

.A4 Governmental audit requirements also may set forth specific supplementary requirements of the compliance audit (for example, procedures to be performed by the auditor, documentation requirements, the form of reporting, and continuing professional education requirements with which the auditor is required to comply. (Ref: par. .11, definition of *governmental audit requirement*)

Adapting and Applying the AU Sections to a Compliance Audit (Ref: par. .12)

.A5 AU sections often identify audit procedures and contain examples that are specific to a financial statement audit. The auditor is not expected to adapt or apply all such procedures to the compliance audit, only those that, in the auditor's professional judgment, are relevant and necessary to meet the objectives of the compliance audit.

Establishing Materiality Levels (Ref: par. .13)

.A6 In a compliance audit, the auditor's purpose for establishing materiality levels is to

- a. determine the nature and extent of risk assessment procedures.
- b. identify and assess the risks of material noncompliance.
- c. determine the nature, timing, and extent of further audit procedures.
- d. evaluate whether the entity complied with the applicable compliance requirements.
- e. report findings of noncompliance and other matters required to be reported by the governmental audit requirement.

.A7 Generally, for all of the purposes identified in paragraph .A6, the auditor's consideration of materiality is in relation to the government program taken as a whole. However, the governmental audit requirement may specify a different level of materiality for one or more of these purposes. For example, for purposes of reporting findings of noncompliance, OMB Circular A-133 requires that noncompliance that is material in relation to one of the 14 types of compliance requirements identified in the OMB *Compliance Supplement (Compliance Supplement)* be reported. (See paragraph .A10 for further information about the *Compliance Supplement*.)

.A8 Because the governmental audit requirement usually is established by the grantors and the auditor's report on compliance is primarily for their use, the auditor's determination of materiality usually is influenced by the needs of the grantors. However, in a compliance audit, the auditor's judgment about matters that are material to users of the auditor's report also is based on consideration of the needs of users as a group, including grantors.

Identifying Government Programs and Applicable Compliance Requirements (Ref: par. .14)

.A9 Some governmental audit requirements specifically identify the applicable compliance requirements. Other governmental audit requirements provide a framework for the auditor to determine the applicable compliance requirements. For example, the *Compliance Supplement* provides such a framework for OMB Circular A-133 audits.

.A10 The following are some of the sources an auditor may consult when identifying and obtaining an understanding of the applicable compliance requirements:

- a. The *Compliance Supplement*, which is issued by OMB, and used in OMB Circular A-133 audits, contains the compliance requirements that typically are applicable to federal government programs, as well as suggested audit procedures when compliance requirements are applicable and have a direct and material effect on the entity's compliance. Part 7 of the *Compliance Supplement* provides guidance for identifying compliance requirements for programs not included therein.
- b. The applicable program-specific audit guide issued by the grantor agency, which contains the compliance requirements pertaining to the government program and suggested audit procedures to test for compliance with the applicable compliance requirements.

.A11 The following are procedures the auditor may perform to identify and obtain an understanding of the applicable compliance requirements if the *Compliance Supplement* or a program-specific audit guide is not applicable:

- a. Reading laws, regulations, rules, and provisions of contracts or grant agreements that pertain to the government program
- b. Making inquiries of management and other knowledgeable entity personnel (for example, the chief financial officer, internal auditors, legal counsel, compliance officers, or grant or contract administrators)
- c. Making inquiries of appropriate individuals outside the entity, such as
 - i. the office of the federal, state, or local program official or auditor, or other appropriate audit oversight organizations or regulators, about the laws and regulations applicable to entities within their jurisdiction, including statutes and uniform reporting requirements
 - ii. a third-party specialist, such as an attorney
- d. Reading the minutes of meetings of the governing board of the entity being audited
- e. Reading audit documentation about the applicable compliance requirements prepared during prior years' audits or other engagements
- f. Discussing the applicable compliance requirements with auditors who performed prior years' audits or other engagements

The procedures listed in this paragraph also may assist the auditor in obtaining a further understanding of the applicable compliance requirements even when the *Compliance Supplement* or program-specific audit guide is applicable.

Performing Risk Assessment Procedures (Ref: par. .15–.16)

.A12 Obtaining an understanding of the government program, the applicable compliance requirements, and the entity's internal control over compliance establishes a frame of reference within which the auditor plans the compliance audit and exercises professional judgment about assessing risks of material noncompliance and responding to those risks throughout the compliance audit.

.A13 The nature and extent of the risk assessment procedures the auditor performs may vary from entity to entity and are influenced by factors such as the following:

- The newness and complexity of the applicable compliance requirements
- The auditor's knowledge of the entity's internal control over compliance with the applicable compliance requirements obtained in previous audits or other professional engagements
- The nature of the applicable compliance requirements
- The services provided by the entity and how they are affected by external factors
- The level of oversight by the grantor or pass-through entity
- How management addresses findings

.A14 Performing risk assessment procedures to obtain an understanding of the entity's internal control over compliance includes an evaluation of the design of controls and whether the controls have been implemented. Internal control consists of the following five interrelated components: the control environment, the entity's risk assessment, information and communication systems, control activities, and monitoring.⁹ Paragraphs .14, .67–.101, and appendix B of section 314, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, contain a detailed discussion of these components.

.A15 The auditor's procedures described in paragraph .16, related to understanding how management has responded to findings and recommendations that could have a material effect on the entity's compliance with the applicable compliance requirements, are performed to assist the auditor in understanding whether management responded appropriately to such findings. Examples of external monitoring include regulatory reviews, program reviews by government agencies or pass-through entities, and grantor reviews. Examples of internal monitoring include reports prepared by the internal audit function and internal quality assessments.

Assessing the Risks of Material Noncompliance (Ref: par. .17)

.A16 Factors the auditor may consider in assessing the risks of material noncompliance are as follows:

- The complexity of the applicable compliance requirements
- The susceptibility of the applicable compliance requirements to noncompliance
- The length of time the entity has been subject to the applicable compliance requirements
- The auditor's observations about how the entity has complied with the applicable compliance requirements in prior years
- The potential effect on the entity of noncompliance with the applicable compliance requirements
- The degree of judgment involved in adhering to the compliance requirements
- The auditor's assessment of the risks of material misstatement in the financial statement audit

.A17 In assessing the risks of material noncompliance, the auditor may evaluate inherent risk of noncompliance and control risk of noncompliance individually or in combination.

.A18 Examples of situations in which there may be a risk of material noncompliance that is pervasive to the entity's noncompliance are as follows:

- An entity that is experiencing financial difficulty and for which there is an increased risk that grant funds will be diverted for unauthorized purposes
- An entity that has a history of poor recordkeeping for its government programs

⁹ See paragraph .41 of section 314.

Performing Further Audit Procedures in Response to Assessed Risks

.A19 Paragraphs .04–.06 of section 318, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*, provide guidance that may be adapted when developing an overall response to the risks of material noncompliance. (Ref: par. .18)

.A20 A compliance audit includes designing procedures to detect both intentional and unintentional material noncompliance. The auditor can obtain reasonable, but not absolute, assurance about the entity's compliance because of factors such as the need for judgment, the use of sampling, the inherent limitations of internal control over compliance with applicable compliance requirements, and the fact that much of the evidence available to the auditor is persuasive rather than conclusive in nature. Also, procedures that are effective for detecting noncompliance that is unintentional may be ineffective for detecting noncompliance that is intentional and concealed through collusion between entity personnel and a third party or among management or employees of the entity. Therefore, the subsequent discovery that material noncompliance with applicable compliance requirements exists does not, in and of itself, evidence inadequate planning, performance, or judgment on the part of the auditor. (Ref: par. .19)

.A21 An auditor may decide to use audit sampling to obtain sufficient appropriate audit evidence in a compliance audit. Section 350, *Audit Sampling*, discusses the factors to be considered in planning, designing, and evaluating audit samples, including sampling for tests of controls. In addition, the AICPA Audit Guide Government Auditing Standards and *Circular A-133 Audits* contains guidance on sampling in the context of a compliance audit. (Ref: par. .19)

.A22 To test for compliance with applicable laws and regulations, tests of details (including tests of transactions) may be performed in the following areas:

- Grant disbursements or expenditures
- Eligibility files
- Cost allocation plans
- Periodic reports filed with grantor agencies (Ref: par. .19)

.A23 The use of analytical procedures to gather substantive evidence is generally less effective in a compliance audit than it is in a financial statement audit. However, substantive analytical procedures may contribute some evidence when performed in addition to tests of transactions and other auditing procedures necessary to provide the auditor with sufficient appropriate audit evidence. (Ref: par. .19)

.A24 Paragraphs .07–.39 and .46–.67 of section 318 provide guidance related to designing and performing further audit procedures in response to the assessed risks of material noncompliance. Paragraphs .40–.45 of section 318, which address the use of audit evidence about the operating effectiveness of controls obtained in prior audits, are not applicable to a compliance audit. (Ref: par. .20)

.A25 Some governmental audit requirements, for example, OMB Circular A-133, require tests of the operating effectiveness of controls identified as likely to be effective, even if the auditor believes that such testing would be inefficient. (Ref: par. .20)

Supplementary Audit Requirements

.A26 Examples of supplementary audit requirements are the requirements in OMB Circular A-133 for the auditor to

- perform specified procedures to identify major programs.
- follow up on prior audit findings and perform procedures to assess the reasonableness of the summary schedule of prior audit findings. (Ref: par. .21)

.A27 When there is conflicting guidance, the auditor may decide to consult with the government agency responsible for establishing audit guidance or that provides the funding. (Ref: par. .22)

Written Representations

.A28 In some cases, management may include qualifying language in the written representations to the effect that representations are made to the best of management's knowledge and belief. However, such qualifying language is not appropriate for the representations in paragraphs .23(a), .23(b), and .23(l). (Ref: par. .23)

Subsequent Events

.A29 Two types of subsequent events may occur. The first type consists of events that provide additional evidence with respect to conditions that existed at the end of the reporting period that affect the entity's compliance during the reporting period. The second type consists of events of noncompliance that did not exist at the end of the reporting period but arose subsequent to the reporting period. (Ref: par. .25)

.A30 An example of a matter of noncompliance that may occur subsequent to the period being audited but before the report release date that may warrant disclosure to prevent report users from being misled is the discovery of noncompliance in the subsequent period of such magnitude that it caused the grantor to stop funding the program. (Ref: par. .27)

Evaluating the Sufficiency and Appropriateness of the Audit Evidence and Forming an Opinion (Ref: par. .28–.29)

.A31 In determining whether an entity has materially complied with the applicable compliance requirements, the auditor may consider the following factors:

- a. The frequency of noncompliance with the applicable compliance requirements identified during the compliance audit
- b. The nature of the noncompliance with the applicable compliance requirements identified
- c. The adequacy of the entity's system for monitoring compliance with the applicable compliance requirements and the possible effect of any noncompliance on the entity
- d. Whether any identified noncompliance with the applicable compliance requirements resulted in likely questioned costs that are material to the government program

.A32 The auditor's evaluation of whether the entity materially complied with applicable compliance requirements includes consideration of noncompliance identified by the auditor, regardless of whether the entity corrected the noncompliance after the auditor brought it to management's attention.

Reporting

.A33 Nothing precludes the auditor from restricting the use of any report to intended users.¹⁰ (Ref: par. .30(n))

.A34 If the report is a matter of public record or available for public inspection, removing personally identifiable information in the compliance audit report and findings of noncompliance will reduce the likelihood of sensitive information being disclosed. (Ref: par. .30(1)–(m) and .33)

.A35 When the auditor communicates significant deficiencies or material weaknesses in internal control over compliance to management and those charged with governance, *Government Auditing Standards* also requires the auditor to obtain a response from the responsible officials, preferably in writing, concerning their views on the findings, conclusions, and recommendations included in the auditor's report on internal control over compliance and include a copy of any written response in the auditor's report.¹¹ (Ref: par. .36)

.A36 If such a written response is included in a document containing the auditor's written communication to management and those charged with governance concerning identified significant deficiencies or material weaknesses in internal control over compliance, the auditor may add a paragraph to his or her written communication disclaiming an opinion on such information. Following is an example of such a paragraph:

ABC Agency's written response to the significant deficiencies [*and material weaknesses*] in internal control over compliance identified in our compliance audit was not subjected to the auditing procedures applied in the compliance audit of ABC Agency's compliance and, accordingly, we express no opinion on it. (Ref: par. .36)

.A37 If the auditor is submitting a reworded form, schedule, or report or appropriately worded separate report, the auditor may include a separate communication to the agency explaining why the auditor's report was modified. (Ref: par. .38)

Documentation (Ref: par. .12 and .39–.42)

.A38 The auditor is not expected to prepare specific documentation of how the auditor adapted and applied each of the applicable AU sections to the objectives of a compliance audit. The documentation of the audit strategy, audit plan, and work performed cumulatively demonstrate whether the auditor has complied with the requirement in paragraph .12.

Reissuance of the Compliance Report (Ref: par. .43)

.A39 The following are examples of situations in which the auditor might reissue the compliance report:

¹⁰ Footnote 4 of section 532, *Restricting the Use of an Auditor's Report*.

¹¹ Paragraphs 5.32–.38 of *Government Auditing Standards*.

- A quality control review performed by a governmental agency indicates that the auditor did not test an applicable compliance requirement.
- The discovery subsequent to the date of the compliance report that the entity had another government program that was required to be tested.

.A40 An example of an auditor-prepared document required by a governmental audit requirement that is incorporated by reference in the auditor's report is the schedule of findings and questioned costs in a compliance audit under OMB Circular A-133.

.A41

Appendix: AU Sections That Are Not Applicable to Compliance Audits¹

The following sections are not applicable to a compliance audit performed under section 801 either because (a) they are not relevant to a compliance audit environment, (b) the procedures and guidance would not contribute to meeting the objectives of a compliance audit, or (c) the subject matter is specifically covered in section 801. However, nothing precludes an auditor from applying these sections if the auditor believes they will provide appropriate audit evidence in the specific circumstances to support the auditor's opinion on compliance.

<i>AU Sections That Do Not Apply to Compliance Audits</i>
Paragraph .01 of section 110, <i>Responsibilities and Functions of the Independent Auditor</i>
Standards of reporting in paragraph .02 of section 150, <i>Generally Accepted Auditing Standards</i>
Paragraphs .09, .44–.45, .83–.86, and .102 of section 314, <i>Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement</i>
Paragraphs .12–.13 and .21–.22 of section 315, <i>Communications Between Predecessor and Successor Auditors</i>
Section 317, <i>Illegal Acts by Clients</i>
Paragraphs .40–.45, .52, .68–.69, and the appendix of section 318, <i>Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained</i>
Paragraphs .22–.60 of section 324, <i>Service Organizations</i>
Paragraphs .14–.19 of section 326, <i>Audit Evidence</i>
Section 328, <i>Auditing Fair Value Measurements and Disclosures</i>
Section 330, <i>The Confirmation Process</i>
Section 331, <i>Inventories</i>
Section 332, <i>Auditing Derivative Instruments, Hedging Activities, and Investments in Securities</i>
Paragraph .12 of section 333, <i>Management Representations</i>
Section 334, <i>Related Parties</i>
Section 337, <i>Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments</i>
Section 341, <i>The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern</i>
Section 342, <i>Auditing Accounting Estimates</i>
Section 410, <i>Adherence to Generally Accepted Accounting Principles</i>
Section 420, <i>Consistency of Application of Generally Accepted Accounting Principles</i>
Section 431, <i>Adequacy of Disclosure in Financial Statements</i>
Section 504, <i>Association With Financial Statements</i>
Paragraphs .05, .08–.09, .11(b)–(h), .14–.18, .27–.28, .33–.34, .38, .41–.57, and .64–.76 of section 508, <i>Reports on Audited Financial Statements</i>

¹ As part of its clarity project, the Auditing Standards Board is revising Statements on Auditing Standards, which will result in conforming changes to the affected references to AU sections in this appendix.

<i>AU Sections That Do Not Apply to Compliance Audits</i>
<i>Section 534, Reporting on Financial Statements Prepared for Use in Other Countries</i>
<i>Paragraphs .14 and .16 of section 543, Part of Audit Performed by Other Independent Auditors</i>
<i>Section 544, Lack of Conformity With Generally Accepted Accounting Principles</i>
<i>Section 550, Other Information in Documents Containing Audited Financial Statements</i>
<i>Section 551, Supplementary Information in Relation to the Financial Statements as a Whole</i>
<i>Section 552, Reporting on Condensed Financial Statements and Selected Financial Data</i>
<i>Section 558, Required Supplementary Information</i>
<i>Section 560, Subsequent Events</i>
<i>Section 623, Special Reports</i>
<i>Section 625, Reports on the Application of Accounting Principles</i>
<i>Section 634, Letters for Underwriters and Certain Other Requesting Parties</i>
<i>Section 711, Filings Under Federal Securities Statutes</i>
<i>Section 722, Interim Financial Information</i>
<i>Section 901, Public Warehouses—Controls and Auditing Procedures for Goods Held</i>

Exhibit: Illustrative Combined Report on Compliance With Applicable Requirements and Internal Control Over Compliance—(Unqualified Opinion on Compliance; No Material Weaknesses or Significant Deficiencies in Internal Control Over Compliance Identified)

The following is an illustrative combined report on compliance with applicable requirements and internal control over compliance that contains the elements in paragraphs .30–.31. This illustrative report contains an unqualified opinion on compliance with no material weaknesses or significant deficiencies in internal control over compliance identified. The AICPA Audit Guide *Government Auditing Standards and Circular A-133 Audits* contains illustrative language for other types of reports, including reports containing qualified or adverse opinions on compliance with either material weaknesses in internal control over compliance, significant deficiencies in internal control over compliance, or both identified.

Independent Auditor's Report

[Addressee]

Compliance

We have audited Example Entity's compliance with the [identify the applicable compliance requirements or refer to the document that describes the applicable compliance requirements] applicable to Example Entity's [identify the government program(s) audited or refer to a separate schedule that identifies the program(s)] for the year ended June 30, 20X1. Compliance with the requirements referred to above is the responsibility of Example Entity's management. Our responsibility is to express an opinion on Example Entity's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*¹ issued by the Comptroller General of the United States; and [insert the name of the governmental audit requirement or program-specific audit guide]. Those standards and [insert the name of the governmental audit requirement or program-specific audit guide] require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on [identify the government program(s) audited or refer to a separate schedule that identifies the program(s)] occurred. An audit includes examining, on a test basis, evidence about Example Entity's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Example Entity's compliance with those requirements.

In our opinion, Example Entity complied, in all material respects, with the compliance requirements referred to above that are applicable to [identify the government program(s) audited] for the year ended June 30, 20X1.

¹ The standards applicable to financial audits are in chapters 1–5 of *Government Auditing Standards*.

Internal Control Over Compliance

Management of Example Entity is responsible for establishing and maintaining effective internal control over compliance with the compliance requirements referred to above. In planning and performing our audit, we considered Example Entity's internal control over compliance to determine the auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Example Entity's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A *material weakness* in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses in internal control over compliance. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, [*identify the body or individuals charged with governance*], others within the entity, [*identify the legislative or regulatory body*], and [*identify the grantor agency(ies)*] and is not intended to be and should not be used by anyone other than these specified parties.

AU Section 801A

Compliance Auditing Considerations in Audits of Governmental Entities and Recipients of Governmental Financial Assistance

(Supersedes SAS No. 68.)

Source: SAS No. 74; SAS No. 75.

Effective for audits of financial statements and of compliance with laws and regulations for fiscal periods ending after December 31, 1994, unless otherwise indicated.

Introduction and Applicability

.01 This section^[1] is applicable when the auditor is engaged to audit a governmental entity under generally accepted auditing standards (GAAS), and engaged to test and report on compliance with laws and regulations under *Government Auditing Standards* (the Yellow Book) or in certain other circumstances involving governmental financial assistance,^{2, 3} such as single or organization-wide audits or program-specific audits under certain federal or state audit regulations.⁴

^[1] [Footnote deleted to reflect conforming changes necessary due to the issuance of SSAE No. 10.]

² Guidance for engagements related to management's written assertion about either (a) an entity's compliance with the requirements of specified laws, regulations, rules, or contracts not involving governmental financial assistance, or (b) the effectiveness of an entity's internal control structure over compliance with specified requirements is provided in AT section 601, *Compliance Attestation*. [Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of SSAE No. 10.]

³ When engaged to perform an agreed-upon procedures engagement for which the objective is to report in accordance with this section, the auditor may consider the guidance in AT section 201, *Agreed-Upon Procedures Engagements*. [Footnote added, effective for reports on agreed-upon procedures engagements dated after April 30, 1996, by SAS No. 75. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of SSAE No. 10.]

⁴ A single or organization-wide audit is an audit of an entity's financial statements and of compliance with regulations relating to governmental financial assistance. Examples are audits required by the Single Audit Act of 1984 and Office of Management and Budget (OMB) Circular A-128, *Audits of State and Local Governments*, OMB Circular A-133, *Audits of Institutions of Higher Education and Other Nonprofit Institutions*, or the *Connecticut Single Audit Act*. A program-specific audit is an audit of one governmental financial assistance program in accordance with federal or state laws, regulations or audit guides, such as the U.S. Department of Education's *Student Financial Assistance Audit Guide*, or the U.S. Department of Housing and Urban Development's (HUD's) *Consolidated Audit Guide for Audits of HUD Programs*, relative to that program. An auditor may also be engaged to test and report on compliance with other federal, state, and local laws and regulations that are beyond the scope of this section. (For additional guidance, see footnote 2.) [Footnote renumbered by the issuance of SAS No. 75, September 1995.]

- .02 Specifically, this section provides general⁵ guidance to the auditor to—
- a. Apply the provisions of section 317, *Illegal Acts by Clients*, relative to detecting misstatements resulting from illegal acts related to laws and regulations that have a direct and material effect on the determination of financial statement amounts in audits of the financial statements of governmental entities and other recipients of governmental financial assistance (paragraphs .03–.07).
 - b. Perform a financial audit in accordance with *Government Auditing Standards*, issued by the Comptroller General of the United States (paragraphs .08–.09).⁶
 - c. Perform a single or organization-wide audit or a program-specific audit in accordance with federal audit requirements (paragraphs .10–.20).
 - d. Communicate with management if the auditor becomes aware that the entity is subject to an audit requirement that may not be encompassed in the terms of his or her engagement (paragraphs .21–.23).

Effects of Laws on Financial Statements

.03 The Governmental Accounting Standards Board's *Codification of Governmental Accounting and Financial Reporting Standards*, section 1200.103, recognizes that governmental entities generally are subject to a variety of laws and regulations that affect their financial statements.

An important aspect of GAAP [generally accepted accounting principles] as applied to governments is the recognition of the variety of legal and contractual considerations typical of the government environment. These considerations underlie and are reflected in the fund structure, bases of accounting, and other principles and methods set forth here, and are a major factor distinguishing governmental accounting from commercial accounting.

For example, such laws and regulations may address the fund structure required by law, regulation, or bond covenant; procurement; debt limitations; and legal authority for transactions.

.04 Federal, state, and local governmental entities provide financial assistance to other entities, including not-for-profit organizations and business enterprises that are either primary recipients, subrecipients,⁷ or beneficiaries.

⁵ Specific guidance is provided in AICPA Audit and Accounting Guide *State and Local Governments* and in AICPA Audit Guide *Government Auditing Standards and Circular A-133 Audits*. [Footnote renumbered by the issuance of SAS No. 75, September 1995. Footnote revised, June 2009, to reflect conforming changes necessary due to the issuance of recent authoritative literature.]

⁶ In practice, *Government Auditing Standards*, or the Yellow Book, is sometimes referred to as *generally accepted government auditing standards* (GAGAS). *Government Auditing Standards* includes standards for financial and performance audits. The references to *Government Auditing Standards* in this section encompass only the standards that apply to financial audits, not the performance audit standards. The auditor should be aware that *Government Auditing Standards* is revised periodically and should ensure that the currently effective version is being followed. [Footnote renumbered by the issuance of SAS No. 75, September 1995.]

⁷ A subrecipient is an entity that receives governmental financial assistance when the assistance is initially received by another entity (the primary recipient) that distributes the assistance for the government program that created and provided the assistance. As used in this section, *recipient* means either a primary recipient or a subrecipient. [Footnote renumbered by the issuance of SAS No. 75, September 1995.]

Among the forms of governmental financial assistance are grants of cash and other assets, loans, loan guarantees, and interest-rate subsidies.⁸ By accepting such assistance, both governmental and nongovernmental entities may be subject to laws and regulations that may have a direct and material effect on the determination of amounts in their financial statements.

.05 Management is responsible for ensuring that the entity complies with the laws and regulations applicable to its activities. That responsibility encompasses the identification of applicable laws and regulations and the establishment of controls designed to provide reasonable assurance that the entity complies with those laws and regulations. The auditor's responsibility for testing and reporting on compliance with laws and regulations varies according to the terms of the engagement.

.06 Section 317 describes the auditor's responsibility, in an audit performed in accordance with GAAS, for considering laws and regulations and how they affect the audit. Thus, the auditor should design the audit to provide reasonable assurance that the financial statements are free of material misstatements resulting from violations of laws and regulations that have a direct and material effect on the determination of financial statement amounts.

.07 The auditor should obtain an understanding of the possible effects on financial statements of laws and regulations that are generally recognized by auditors to have a direct and material effect on the determination of amounts in an entity's financial statements. The auditor should also assess whether management has identified laws and regulations that have a direct and material effect on the determination of amounts in the entity's financial statements and obtain an understanding of the possible effects on the financial statements of such laws and regulations. The auditor may consider performing the following procedures in assessing such laws and regulations and in obtaining an understanding of their possible effects on the financial statements:

- a. Consider knowledge about such laws and regulations obtained from prior years' audits.
- b. Discuss such laws and regulations with the entity's chief financial officer, legal counsel, or grant administrators.
- c. Obtain written representation from management regarding the completeness of management's identification.
- d. Review the relevant portions of any directly related agreements, such as those related to grants and loans.
- e. Review the minutes of meetings of the legislative body and governing board of the governmental entity being audited for the enactment of laws and regulations that have a direct and material

⁸ For purposes of this section, financial assistance, as defined by the Single Audit Act of 1984 and OMB Circular A-128, does not include contracts to provide goods or services to a governmental entity or arrangements in which a nongovernmental entity purchases insurance from the government. Federal awards, as defined by OMB Circular A-133, means financial assistance and federal cost-type contracts used to buy services or goods for the use of the federal government. Federal awards do not include procurement contracts to vendors under grants or contracts used to buy goods or services. For example, financial assistance does not include a contract to design and manufacture aircraft for the U.S. Air Force or the purchase of deposit insurance by a financial institution. In addition, although Medicaid funds paid by the federal government to states constitute financial assistance, most Medicaid arrangements between the states and health-care providers are contracts for services that are not considered to be financial assistance. [Footnote renumbered by the issuance of SAS No. 75, September 1995.]

effect on the determination of amounts in the governmental entity's financial statements.

- f. Inquire of the office of the federal, state, or local auditor, or other appropriate audit oversight organization about the laws and regulations applicable to entities within their jurisdiction, including statutes and uniform reporting requirements.
- g. Review information about compliance requirements, such as the information included in the Compliance Supplements issued by OMB: *Compliance Supplement for Single Audits of State and Local Governments* and *Compliance Supplement for Audits of Institutions of Higher Learning and Other Non-Profit Institutions, Catalog of Federal Domestic Assistance*, issued by the Government Printing Office, and state and local policies and procedures.

Government Auditing Standards

.08 *Government Auditing Standards* contains standards for audits of government organizations, programs, activities, and functions and of government assistance received by contractors, not-for-profit organizations, and other non-government organizations. These standards, which include designing the audit to provide reasonable assurance of detecting material misstatements resulting from noncompliance with provisions of contracts or grant agreements that have a direct and material effect on the determination of financial statement amounts, are to be followed when required by law, regulation, agreement, contract, or policy.⁹

.09 For financial audits, *Government Auditing Standards* prescribes fieldwork and reporting standards beyond those required by GAAS. The general standards of *Government Auditing Standards* relate to qualifications of the staff, independence, due professional care, and quality control.

Federal Audit Requirements

.10 Although the scope and reporting requirements of an audit of a recipient of federal financial assistance in accordance with federal audit regulations vary, the audits generally have the following elements in common.

- a. The audit is to be conducted in accordance with GAAS and *Government Auditing Standards*.
- b. The auditor's consideration of internal control is to include obtaining and documenting an understanding of internal control established to ensure compliance with the laws and regulations applicable to the federal financial assistance. In some instances, federal audit regulations mandate a "test of controls" to evaluate the effectiveness of the design and operation of the policies and procedures in preventing or detecting material noncompliance.
- c. The auditor is to issue a report on the consideration of internal control previously described.

⁹ Some states have adopted regulations that require local governments within the states to have their audits conducted in accordance with *Government Auditing Standards*. In addition, some states require that recipients of state financial assistance be audited in accordance with *Government Auditing Standards*. [Footnote renumbered by the issuance of SAS No. 75, September 1995.]

- d. The auditor is to determine and report on whether the federal financial assistance has been administered in accordance with applicable laws and regulations (that is, compliance requirements).^[10]

.11 A recipient of federal financial assistance may be subject to a single or organization-wide audit or to a program-specific audit. A number of federal audit regulations permit the recipient to "elect" to have a program-specific audit, whereas other federal audit regulations require a program-specific audit in certain circumstances. In planning the audit, the auditor should determine and consider the specific federal audit requirements¹¹ applicable to the engagement, including the issuance of additional reports. As noted in paragraph .10 of this section, federal audit regulations for both single or organization-wide audits and program-specific audits generally require consideration of internal control beyond what is normally required by GAAS and *Government Auditing Standards* and a determination of whether applicable compliance requirements have been met.

Compliance Requirements Applicable to Federal Financial Assistance Programs

.12 Compliance requirements applicable to federal financial assistance programs are usually one of two types: general and specific. General requirements involve national policy and apply to all or most federal financial assistance programs.¹²

.13 Specific requirements apply to a particular federal program and generally arise from statutory requirements and regulations. The OMB's Compliance Supplements set forth general and specific requirements for many of the federal programs awarded to state and local governments and to not-for-profit organizations, as well as suggested audit procedures to test for compliance with the requirements.

.14 For program-specific audits, the auditor should consult federal grantor agency audit guides to identify general requirements that are statutory and regulatory requirements pertaining to certain federal programs, specific requirements for a particular program, and suggested audit procedures to test for compliance with the requirements.

.15 In addition to those identified in the OMB's Compliance Supplements or federal grantor agency audit guides, specific requirements may also be enumerated in grant agreements or contracts.

.16 Generally, the auditor is required to determine whether the recipient has complied with the general and specific requirements. The form of the report and the required level of assurance to be provided in the report may vary, depending on the requirements of a particular agency or program. For example,

^[10] [Footnote renumbered by the issuance of SAS No. 75, September 1995. Footnote deleted to reflect conforming changes necessary due to the issuance of SAS No. 85.]

¹¹ Such requirements may be set out in an engagement letter or audit contract. In some instances, a written engagement letter is required by the federal grantor agency. [Footnote renumbered by the issuance of SAS No. 75, September 1995.]

¹² General requirements also may be referred to as *common* requirements. Detailed guidance on evaluating the results of testing general requirements can be found in AICPA Audit and Accounting Guide *State and Local Governments* and in AICPA Audit Guide *Government Auditing Standards and Circular A-133 Audits*. [Footnote renumbered by the issuance of SAS No. 75, September 1995. Footnote revised, June 2009, to reflect conforming changes necessary due to the issuance of recent authoritative literature.]

if reporting on compliance requirements, the auditor may be required to report findings relating to compliance with those requirements or the auditor may be required to express an opinion on whether the recipient has complied with the requirements applicable to its major¹³ federal financial assistance programs.¹⁴

Evaluating Results of Compliance Audit Procedures on Major Federal Financial Assistance Programs

.17 In evaluating whether an entity has complied with laws and regulations that, if not complied with, could have a material effect on each major federal financial assistance program, the auditor should consider the effect of identified instances of noncompliance on each such program. In doing so, the auditor should consider

- a. the frequency of noncompliance identified in the audit.
- b. the adequacy of a primary recipient's system for monitoring subrecipients and the possible effect on the program of any noncompliance identified by the primary recipient or the auditors of the subrecipients.
- c. whether any instances of noncompliance identified in the audit resulted in questioned costs, as discussed subsequently, and, if they did, whether questioned costs are material to the program.¹⁵

.18 The criteria for classifying a cost as a questioned cost vary from one federal agency to another. In evaluating the effect of questioned costs on the opinion on compliance, the auditor considers the best estimate of total costs questioned for each major federal financial assistance program (hereafter referred to as *likely questioned costs*), not just the questioned costs specifically identified (hereafter referred to as *known questioned costs*). When using audit sampling, as defined in section 350, *Audit Sampling*, in testing compliance, the auditor should project the amount of known questioned costs identified in the sample to the items in the major federal financial assistance program from which the sample was selected.

.19 Regardless of the auditor's opinion on compliance, federal audit regulations may require him or her to report any instances of noncompliance found and any resulting questioned costs. In reporting instances of noncompliance, the auditor should follow the provisions of *Government Auditing Standards*. For purposes of reporting questioned costs, the auditor is not required to report likely questioned costs; rather, the auditor should report only known questioned costs.

.20 When evaluating the results of compliance audit procedures on federal financial assistance programs, the auditor also should consider whether

¹³ A major federal financial assistance program is defined by a federal regulation or law or by the federal grantor agency's audit guide. [Footnote renumbered by the issuance of SAS No. 75, September 1995.]

¹⁴ Detailed testing and reporting guidance on single or organization-wide audits and program-specific audits is provided in AICPA Audit and Accounting Guide *State and Local Governments* and in AICPA Audit Guide *Government Auditing Standards and Circular A-133 Audits*. [Footnote renumbered by the issuance of SAS No. 75, September 1995. Footnote revised, June 2009, to reflect conforming changes necessary due to the issuance of recent authoritative literature.]

¹⁵ In auditing compliance with requirements governing major federal financial assistance programs, the auditor's consideration of materiality differs from that in an audit of the financial statements in accordance with GAAS. [Footnote renumbered by the issuance of SAS No. 75, September 1995.]

identified instances of noncompliance affect his or her opinion on the entity's financial statements (see paragraph .06).

Communications Regarding Applicable Audit Requirements

.21 Management is responsible for obtaining audits that satisfy relevant legal, regulatory, or contractual requirements. Auditors should exercise due professional care in ensuring that they and management understand the type of engagement to be performed. If a proposal, contract, or engagement letter is used, an auditor should consider including in it a statement about the type of engagement and whether the engagement is intended to meet specific audit requirements.

.22 GAAS do not require the auditor to perform procedures beyond those he or she considers necessary to obtain sufficient appropriate audit evidence to form a basis for the opinion on the financial statements. However, if during a GAAS audit of the financial statements the auditor becomes aware that the entity is subject to an audit requirement that may not be encompassed in the terms of the engagement, the auditor should communicate to management and those charged with governance that an audit in accordance with GAAS may not satisfy the relevant legal, regulatory, or contractual requirements.^[16] For example, the auditor will be required to make this communication if an entity engages an auditor to perform an audit of its financial statements in accordance with GAAS and the auditor becomes aware that by law, regulation, or contractual agreement the entity also is required to have an audit performed in accordance with one or more of the following:

- a. *Government Auditing Standards*
- b. *The Single Audit Act of 1984 and OMB Circular A-128, Audits of State and Local Governments*
- c. *OMB Circular A-133, Audits of Institutions of Higher Education and Other Nonprofit Institutions*
- d. Other compliance audit requirements, such as state or local laws or program-specific audits under federal audit guides

[Revised, April 2007, to reflect conforming changes necessary due to the issuance of SAS No. 114. Revised, March 2008, to reflect conforming changes necessary due to the issuance of SAS No. 105.]

.23 The communication required by paragraph .22 of this section may be oral or written. If the communication is oral, the auditor should document the communication in the audit documentation. The auditor should consider how the client's actions in response to such communication relate to other aspects of the audit, including the potential effect on the financial statements and on the auditor's report on those financial statements. Specifically, the auditor should consider management's actions (such as not arranging for an audit that meets the applicable requirements) in relation to the guidance in section 317. [Revised, June 2003, to reflect conforming changes necessary due to the issuance of SAS No. 96.]

^[16] [Footnote renumbered by the issuance of SAS No. 75, September 1995. Footnote deleted to reflect conforming changes necessary due to the issuance of SAS No. 114.]

Effective Date

.24 The provisions of this section are effective for audits of financial statements and of compliance with laws and regulations for fiscal periods ending after December 31, 1994. Early application of this section is encouraged.

AU Section 901

Public Warehouses—Controls and Auditing Procedures for Goods Held *

Source: SAS No. 1, section 901; SAS No. 43.

Issue date, unless otherwise indicated: November, 1972.

Introduction

.01 This section discusses controls of a public warehouse, the procedures of its independent auditor with respect to goods in the warehouse's custody, and auditing procedures performed by the independent auditor of the owner of goods in the warehouse.¹ [As amended, effective after August 31, 1982, by Statement on Auditing Standards No. 43.]

General Considerations

.02 The management of a business has the responsibility for the proper recording of transactions in its books of account, for the safeguarding of its assets, and for the substantial accuracy and adequacy of its financial statements. The independent auditor is not an insurer or guarantor; his responsibility is to express a professional opinion on the financial statements he has audited.² [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

Summary of Recommendations

.03 The Committee recommends that the independent auditor of the warehouseman:

- a. Obtain an understanding of controls, relating to the accountability for and the custody of all goods placed in the warehouse and perform tests of controls to evaluate their effectiveness.
- b. Test the warehouseman's records relating to accountability for all goods placed in his custody.
- c. Test the warehouseman's accountability under recorded outstanding warehouse receipts.
- d. Observe physical counts of the goods in custody, wherever practicable and reasonable, and reconcile his tests of such counts with records of goods stored.

* Title revised, February 1997, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 78.

¹ This section reports the conclusions of a 1966 study of the AICPA Committee on Auditing Procedure on the accountability of warehousemen for goods stored in public warehouses. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

² See section 110.

- e. Confirm accountability (to the extent considered necessary) by direct communication with the holders of warehouse receipts.

The independent auditor should apply such other procedures as he considers necessary in the circumstances. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982. Paragraph subsequently renumbered by the issuance of Statement on Auditing Standards No. 48, July 1984.]

.04 Warehousing activities are diverse because the warehoused goods are diverse, the purposes of placing goods in custody are varied, and the scope of operations of warehouses is not uniform. The independent auditor has the responsibility to exercise his judgment in determining what procedures, including those recommended in this report, are necessary in the circumstances to afford a reasonable basis for his opinion on the financial statements.³ [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.05 The following sections of this report describe those aspects of warehousing operations of primary concern to independent auditors, suggest elements of internal control for warehousemen, and offer the Committee's recommendations as to procedures of the independent auditor. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

Public Warehouse Operations

Types of Warehouses

.06 A warehouse may be described as a facility operated by a warehouseman whose business is the maintaining of effective custody of goods for others. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.07 Warehouses may be classified functionally as terminal warehouses or field warehouses:

Terminal Warehouse. The principal economic function of a terminal warehouse is to furnish storage. It may, however, perform other functions, including packaging and billing. It may be used to store a wide variety of goods or only a particular type of commodity.

Field Warehouse. A field warehouse is established in space leased by the warehouseman on the premises of the owner of the goods or the premises of a customer of the owner. In most circumstances all or most of the personnel at the warehouse location are employed by the warehouseman from among the employees of the owner (or customer), usually from among those who previously have been responsible for custody and handling of the goods. Field warehousing is essentially a financing arrangement, rather than a storage operation. The warehouse is established to permit the warehouseman to take and maintain custody of goods and issue warehouse receipts to be used as collateral for a loan or other form of credit.

Warehouses may be classified also by types of goods stored. Foods and other perishable products may be stored in refrigerated warehouses, constructed and equipped to meet controlled temperature and special handling requirements. Certain bulk commodities, such as various agricultural products and chemicals,

³ See section 326.

are stored in commodity warehouses; these warehouses often are designed and equipped to store only one commodity, and fungible goods frequently are commingled without regard to ownership. A wide variety of goods, usually not requiring special storage facilities, is stored in general merchandise warehouses. Some warehouses confine their activities to storing furniture, other household goods, and personal effects. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

Warehouse Receipts

.08 A basic document in warehousing is the warehouse receipt. Article 7 of the Uniform Commercial Code regulates the issuance of warehouse receipts, prescribes certain terms that must be contained in such receipts, provides for their negotiation and transfer, and establishes the rights of receipt holders. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.09 Warehouse receipts may be in negotiable form or non-negotiable form and may be used as evidence of collateral for loans or other forms of credit. Goods represented by a negotiable warehouse receipt may be released only upon surrender of the receipt to the warehouseman for cancellation or endorsement, whereas goods represented by a non-negotiable receipt may be released upon valid instructions without the need for surrender of the receipt. Other important ways in which the two kinds of receipts differ concern the manner in which the right of possession to the goods they represent may be transferred from one party to another and the rights acquired by bona fide purchasers of the receipts. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.10 Since goods covered by non-negotiable receipts may be released without surrender of the receipts, such outstanding receipts are not necessarily an indication of accountability on the part of the warehouseman or of evidence of ownership by the depositor. Since goods are frequently withdrawn piecemeal, the warehouseman's accountability at any given time is for the quantity of goods for which receipts have been issued minus the quantities released against properly authorized withdrawals. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.11 Article 7 of the Uniform Commercial Code, in addition to provisions with respect to the issuance and contents of warehouse receipts, contains provisions with respect to, among other things, the storage and release of warehoused goods, the standard of care to be exercised by the warehouseman, warehouseman's liability, and liens for the warehouseman's charges and expenses and the manner in which they may be enforced. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

Government Regulation

.12 There are various other statutes and regulations, applicable in special situations, relating to the rights and duties of warehousemen and the operation of warehouses. Among the more important are (a) the United States Warehouse Act and the regulations adopted thereunder by the Department of Agriculture, providing for licensing and regulation of warehouses storing certain agricultural commodities, (b) the regulations adopted by commodity exchanges licensed under the United States Commodity Exchange Act, providing

for issuance and registration of receipts and licensing and regulation of warehouses, and (c) the Internal Revenue Code and the Tariff Act of 1930, and regulations adopted thereunder, relating respectively to United States Revenue Bonded Warehouses and United States Customs Bonded Warehouses, providing for licensing, bonding, and regulation of such warehouses. In addition, there are statutes and regulations in various states relating to licensing, bonding, insurance, and other matters. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

The Warehouseman

Controls

.13 Goods held in custody for others are not owned by the warehouseman and, therefore, do not appear as assets in his financial statements. Similarly, the related custodial responsibility does not appear as a liability. However, as in other businesses, the warehouseman is exposed to the risk of loss or claims for damage stemming from faulty performance of his operating functions. Faulty performance may take the form of loss or improper release of goods, improper issuance of warehouse receipts, failure to maintain effective custody of goods so that lenders' preferential liens are lost, and other forms. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.14 The recommendation herein that the independent auditor of the warehouseman obtain an understanding of relevant controls and perform tests of controls to evaluate their effectiveness is based upon the important relationship of such controls to the custodial responsibilities of the warehouseman, which are not reflected in his financial statements. Significant unrecorded liabilities may arise if these custodial responsibilities are not discharged properly. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982. Revised, April 1989, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards Nos. 53 through 62.]

.15 Whether and to what extent the suggested controls that follow may be applicable to a particular warehouse operation will depend on the nature of the operation, of the goods stored, and of the warehouseman's organization. Appropriate segregation of duties in the performance of the respective operating functions should be emphasized.

Receiving, Storing, and Delivering Goods

Receipts should be issued for all goods admitted into storage.

Receiving clerks should prepare reports as to all goods received. The receiving report should be compared with quantities shown on bills of lading or other documents received from the owner or other outside sources by an employee independent of receiving, storing, and shipping.

Goods received should be inspected, counted, weighed, measured, or graded in accordance with applicable requirements. There should be a periodic check of the accuracy of any mechanical facilities used for these purposes.

Unless commingling is unavoidable, such as with fungible goods, goods should be stored so that each lot is segregated and identified with the pertinent warehouse receipt. The warehouse office records should show the location of the goods represented by each outstanding receipt.

Instructions should be issued that goods may be released only on proper authorization which, in the case of negotiable receipts, includes surrender of the receipt.

Access to the storage area should be limited to those employees whose duties require it, and the custody of keys should be controlled.

Periodic statements to customers should identify the goods held and request that discrepancies be reported to a specified employee who is not connected with receiving, storing, and delivery of goods.

The stored goods should be physically counted or tested periodically, and quantities agreed to the records by an employee independent of the storage function; the extent to which this is done may depend on the nature of the goods, the rate of turnover, and the effectiveness of other internal control structure policies and procedures.

Where the goods held are perishable, a regular schedule for inspection of condition should be established.

Protective devices such as burglar alarms, fire alarms, sprinkler systems, and temperature and humidity controls should be inspected regularly.

Goods should be released from the warehouse only on the basis of written instructions received from an authorized employee who does not have access to the goods.

Counts of goods released as made by stock clerks should be independently checked by shipping clerks or others and the two counts should be compared before the goods are released.

Warehouse Receipts

Prenumbered receipt forms should be used, and procedures established for accounting for all forms used and for cancellation of negotiable receipts when goods have been delivered.

Unused forms should be safeguarded against theft or misuse and their custody assigned to a responsible employee who is not authorized to prepare or sign receipts.

Receipt forms should be furnished only to authorized persons, and in a quantity limited to the number required for current use.

The signer of receipts should ascertain that the receipts are supported by receiving records or other underlying documents.

Receipts should be prepared and completed in a manner designed to prevent alteration.

Authorized signers should be a limited number of responsible employees.

Insurance

The adequacy, as to both type and amount, of insurance coverage carried by the warehouseman should be reviewed at appropriate intervals.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

Additional Controls for Field Warehouses

.16 As indicated earlier, the purpose of field warehousing differs from terminal warehousing. Operating requirements also may differ because a field

warehouseman may operate at a large number of locations. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.17 In field warehousing, controls are applied at two points: the field location and the warehouseman's central office. At the field location, the controls as to receipt, storage, and delivery of goods and issuance of warehouse receipts generally will comprise the controls suggested above, with such variations as may be appropriate in light of the requirements, and available personnel, at the respective locations. Only non-negotiable warehouse receipts should be issued from field locations, and the receipt forms should be furnished to the field locations by the central office in quantities limited to current requirements. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.18 The central office should investigate and approve the field warehousing arrangements, and exercise control as to custody and release of goods and issuance of receipts at the field locations. Controls suggested for the central office are the following:

Consideration of the business reputation and financial standing of the depositor.

Preparation of a field warehouse contract in accordance with the particular requirements of the depositor and the lender.

Determination that the leased warehouse premises meet the physical requirements for segregation and effective custody of goods.

Satisfaction as to legal matters relative to the lease of the warehouse premises.

Investigation and bonding of the employees at the field locations.

Providing employees at field locations with written instructions covering their duties and responsibilities.

Maintenance of inventory records at the central office showing the quantity (and stated value, where applicable) of goods represented by each outstanding warehouse receipt.

Examination of the field warehouse by representatives of the central office. These examinations would include inspection of the facilities, observation as to adherence to prescribed procedures, physical counts or tests of goods in custody and reconciliation of quantities to records at the central office and at field locations, accounting for all receipt forms furnished to the field locations, and confirmation (on a test basis, where appropriate) of outstanding warehouse receipts with the registered holders.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

Procedures of the Independent Auditor

.19 The Committee recommends that the independent auditor of the warehouseman:

- a.* Obtain an understanding of controls, relating to the accountability for and the custody of all goods placed in the warehouse and perform tests of controls to evaluate their effectiveness.

- b. Test the warehouseman's records relating to accountability for all goods placed in his custody.
- c. Test the warehouseman's accountability under recorded outstanding warehouse receipts.
- d. Observe physical counts of the goods in custody, wherever practicable and reasonable, and reconcile his tests of such counts with records of goods stored.
- e. Confirm accountability (to the extent considered necessary) by direct communication with the holders of warehouse receipts.

The independent auditor should apply such other procedures as he considers necessary in the circumstances. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.20 The auditor's procedures relating to accountability might include, on a test basis, comparison of documentary evidence of goods received and delivered with warehouse receipts records, accounting for issued and unissued warehouse receipts by number, and comparison of the records of goods stored with billings for storage. In some circumstances, the auditor may consider it necessary to obtain confirmation from the printer as to the serial numbers of receipt forms supplied. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.21 In the case of a field warehouseman where goods are stored at many scattered locations, the independent auditor may satisfy himself that the warehouseman's physical count procedures are adequate by observing the procedures at certain selected locations. The amount of testing required will be dependent upon the effectiveness of both design and operation of controls. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.22 The confirmation of negotiable receipts with holders may be impracticable, since the identity of the holders usually is not known to the warehouseman. Confirmation with the depositor to whom the outstanding receipt was originally issued, however, would be audit evidence of the accountability for certain designated goods. It should be recognized, too, that as to both negotiable and non-negotiable receipts, confirmation may not be conclusive in the light of the possibility of issued but unrecorded receipts. In some circumstances, it may be desirable to request confirmations from former depositors who are not currently holders of record. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.23 The independent auditor should review the nature and extent of the warehouseman's insurance coverage and the adequacy of any reserves for losses under damage claims. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

Controls and Auditing Procedures for Owner's Goods Stored in Public Warehouses

.24 The following paragraphs provide guidance on the controls for the owner of the goods and on the auditing procedures to be employed by his

independent auditor. [As amended, effective after August 31, 1982, by Statement on Auditing Standards No. 43.]

Controls

.25 The controls of the owner should be designed to provide reasonable safeguards over his goods in a warehouseman's custody. Ordinarily, the controls should include an investigation of the warehouseman before the goods are placed in custody, and a continuing evaluation of the warehouseman's performance in maintaining custody of the goods. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.26 Among the suggested controls that may be comprehended in an investigation of the warehouseman before the goods are placed in his custody are the following:

Consideration of the business reputation and financial standing of the warehouseman.

Inspection of the physical facilities.

Inquiries as to the warehouseman's controls and whether the warehouseman holds goods for his own account.

Inquiries as to type and adequacy of the warehouseman's insurance.

Inquiries as to government or other licensing and bonding requirements and the nature, extent, and results of any inspection by government or other agencies.

Review of the warehouseman's financial statements and related reports of independent auditors.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.27 After the goods are placed in the warehouse, suggested controls that may be applied periodically by the owner in evaluating the warehouseman's performance in maintaining custody of goods include the following:

Review and update the information developed from the investigation described above.

Physical counts (or test counts) of the goods, wherever practicable and reasonable (may not be practicable in the case of fungible goods).

Reconcilement of quantities shown on statements received from the warehouseman with the owner's records.

In addition, he should review his own insurance, if any, on goods in the custody of the warehouseman.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

Procedures of the Independent Auditor

.28 Section 331.14 describes the procedures that the auditor should apply if inventories are held in public warehouses. [As amended, effective after August 31, 1982, by Statement on Auditing Standards No. 43.]

AU

Risk Assessment Standards: SAS No. 104-SAS No. 111

In March 2006, the AICPA ASB issued eight Statements on Auditing Standards (SASs) that provide extensive guidance concerning the auditor's assessment of the risks of material misstatement in a financial statement audit, and the design and performance of audit procedures whose nature, timing, and extent are responsive to the assessed risks. Additionally, the SASs establish standards and provide guidance on planning and supervision, the nature of audit evidence, and evaluating whether the audit evidence obtained affords a reasonable basis for an opinion regarding the financial statements under audit. The following table lists the eight SASs and their effect on existing standards:

<i>Statement on Auditing Standard</i>	<i>Effect on Existing Standards</i>
SAS No. 104, <i>Amendment to Statement on Auditing Standards No. 1, Codification of Auditing Standards and Procedures ("Due Professional Care in the Performance of Work")</i>	Amends SAS No. 1, <i>Due Professional Care in the Performance of Work</i> (AU section 230)
SAS No. 105, <i>Amendment to Statement on Auditing Standards No. 95, Generally Accepted Auditing Standards</i>	Amends SAS No. 95, <i>Generally Accepted Auditing Standards</i> (AU section 150)
SAS No. 106, <i>Audit Evidence</i>	Supersedes SAS No. 31, <i>Evidential Matter</i>
SAS No. 107, <i>Audit Risk and Materiality in Conducting an Audit</i>	Supersedes SAS No. 47, <i>Audit Risk and Materiality in Conducting an Audit</i>
SAS No. 108, <i>Planning and Supervision</i>	Supersedes SAS No. 1, <i>Appointment of the Independent Auditor</i> ; supersedes SAS No. 22, <i>Planning and Supervision</i>
SAS No. 109, <i>Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement</i>	Supersedes SAS No. 55, <i>Consideration of Internal Control in a Financial Statement Audit</i>
SAS No. 110, <i>Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained</i>	Supersedes SAS No. 45, <i>Substantive Tests Prior to the Balance-Sheet Date</i> ; together with SAS No. 109, supersedes SAS No. 55, <i>Consideration of Internal Control in a Financial Statement Audit</i>
SAS No. 111, <i>Amendment to Statement on Auditing Standards No. 39, Audit Sampling</i>	Amends SAS No. 39, <i>Audit Sampling</i> (AU section 350)

Key Provisions of the New Standards

The SASs emphasize the link between understanding the entity, assessing risks, and the design of further audit procedures. The SASs introduce the concept of risk assessment procedures, which are deemed necessary to provide a basis for assessing the risk of material misstatement. Risk assessment procedures, along with further audit procedures, which consist of tests of controls and substantive tests, provide the audit evidence to support the auditor's opinion of the financial statements. According to the SASs, the auditor should perform risk assessment procedures to gather information and gain an understanding of the entity and its environment, including its internal controls. These procedures include inquiries, analytical procedures, and inspection and observation. Assessed risks and the basis for those assessments should be documented; therefore, auditors may no longer default to maximum control risk for an entity's risk assessment without documenting the basis for that assessment. The SASs also require auditors to consider and document how the risk assessment at the financial statement level affects individual financial statement assertions, so that auditors may tailor the nature, timing, and extent of their audit procedures to be responsive to their risk assessment. It is anticipated that generic audit programs will not be appropriate for all audit engagements, as risks vary between entities.

Effective Date and Implementation

The SASs are effective for audits of financial statements for periods beginning on or after December 15, 2006; earlier application is permitted. In most cases, implementation of the SASs will result in an overall increased work effort by the audit team, particularly in the year of implementation. It also is anticipated that to implement the SASs appropriately, many firms will have to make significant revisions to their audit methodologies and train their personnel accordingly. Readers can obtain the SASs and the related AICPA Audit Risk Alert titled *Understanding the New Auditing Standards Related to Risk Assessment* (product no. 022526) at www.cpa2biz.com.

Historical Background

In 1917, the American Institute of Certified Public Accountants, then known as the American Institute of Accountants, at the request of the Federal Trade Commission, prepared "a memorandum on balance-sheet audits," which the Commission approved and transmitted to the Federal Reserve Board.

The Federal Reserve Board, after giving the memorandum its provisional endorsement, published it in the *Federal Reserve Bulletin* of April 1917; reprints were widely disseminated for the consideration of "banks, bankers, banking associations; merchants, manufacturers, and associations of manufacturers; auditors, accountants, and associations of accountants" in pamphlet form with the title of "Uniform Accounting: a Tentative Proposal Submitted by the Federal Reserve Board."

In 1918, it was reissued under the same sponsorship, with a new title—"Approved Methods for the Preparation of Balance-Sheet Statements." There was practically no change from 1917 except that, as indicated by the respective titles and corresponding change in the preface, instead of the objective of "a uniform system of accounting to be adopted by manufacturing and merchandising concerns," the new objective was "the preparation of balance-sheet statements" for the same businesses.

In 1929, a special committee of the American Institute undertook revision of the earlier pamphlet in the light of the experience of the past decade; again under the auspices of the Federal Reserve Board, the revised pamphlet was issued in 1929 as "Verification of Financial Statements."

The preface of the 1929 pamphlet spoke of its predecessors as having been criticized, on the one hand, by some accountants for being "more comprehensive than their conception of the so-called balance-sheet audit," and, on the other hand, by other accountants because "the procedure would not bring out all the desired information." This recognition of opposing views evidenced the growing realization of the impracticability of uniform procedures to fit the variety of situations encountered in practice. Of significance is the appearance in the opening paragraph of "General Instructions" in the 1929 publication of the statement:

The extent of the verification will be determined by the conditions in each concern. In some cases, the auditor may find it necessary to verify a substantial portion or all of the transactions recorded upon the books. In others, where the system of internal check is good, tests only may suffice. The responsibility for the extent of the work required must be assumed by the auditor.

Between 1932 and 1934, there was correspondence, dealing with both accounting and auditing matters, between the Institute's special committee on cooperation with stock exchanges and the committee on stock list of the New York Stock Exchange. The views expressed were an important development in the recognition of the position of accountancy in finance and business. The series of letters was published in 1934 under the title *Audits of Corporate Accounts*.

In 1936, a committee of the Institute prepared and published a further revision of the earlier pamphlets under the title of "Examination of Financial Statements by Independent Public Accountants." The Institute availed itself of

the views of persons outside the ranks of the profession whose opinions would be helpful, but the authority behind and responsibility for the publication of the pamphlet rested wholly with the Institute as the authoritative representative of a profession that had by that time become well established in the business community.

In the 1936 revision, aside from the very briefly noted "Modifications of Program for Larger or Smaller Companies," the detailed procedures were restrictively stated to be an "outline of examination of financial statements of a small or moderate size company." Moreover, the nature and extent of such examinations were based on the purpose of the examination, the required detail to be reported on, the type of business, and, most important of all, the system of internal control; variations in the extent of the examination were specifically related to "the size of the organization and the personnel employed" and were said to be "essentially a matter of judgment which must be exercised by the accountant."

It is possible from the foregoing narrative to trace the development of the profession's view of an audit based on the experience of three decades. The succession of titles is illustrative. The earliest ambition for "uniform accounting" was quickly realized to be unattainable, and the same listed procedures were related instead to "balance-sheet statements." Then, with the gradually greater emphasis on periodic earnings, the earlier restrictive consideration of the balance sheet was superseded in the 1929 title, "Verification of Financial Statements," by according the income statement at least equal status. When in turn the 1936 revision was undertaken, there was a growing realization that, with the complexity of modern business and the need of the independent auditor to rely on testing, such a word as "verification" was not an accurate portrayal of the independent auditor's function. Accordingly, the bulletin of that year was stated to cover an "examination" of financial statements.

Statements on Auditing Procedure

The Committee on Auditing Procedure had its beginning on January 30, 1939, when the executive committee of the Institute authorized the appointment of a small committee "to examine into auditing procedure and other related questions in the light of recent public discussion."

On May 9 of that year, the report "Extensions of Auditing Procedure" of this special committee was adopted by the Council of the Institute and authority given for its publication and distribution, and in the same year the bylaws were amended to create a standing Committee on Auditing Procedure.

In 1941, the executive committee authorized the issuance to Institute members, in pamphlet form, of the "Statements on Auditing Procedure," prepared by the Committee on Auditing Procedure, previously published only in *The Journal of Accountancy*.

The "Statements on Auditing Procedure" were designed to guide the independent auditor in the exercise of his judgment in the application of auditing procedures. In no sense were they intended to take the place of auditing textbooks; by their very nature textbooks must deal in a general way with the description of procedures and refinement of detail rather than the variety of circumstances encountered in practice that require the independent auditor to exercise his judgment.

Largely to meet this need, the Institute began the series of Statements on Auditing Procedure. The first of these presented the report of the original

special committee, as modified and approved, at the Institute's annual meeting on September 19, 1939, and issued under the title of "Extensions of Auditing Procedure."

Statement No. 1 presented conclusions drawn from the experience and tradition of the profession which largely furnished the foundation for the Committee's present structural outline of auditing standards; the other Statements on Auditing Procedure appropriately fit into that structural outline.

The "Codification of Statements on Auditing Procedure" was issued by the Committee on Auditing Procedure in 1951 to consolidate the features of the first 24 pronouncements which were of continuing usefulness.

When the Securities and Exchange Commission adopted the requirement that a representation on compliance with generally accepted auditing standards be included in the independent auditor's report on financial statements filed with the Commission, it became apparent that a pronouncement was needed to define these standards. Accordingly, the Committee undertook a special study of auditing standards (as distinguished from auditing procedures) and submitted a report that was published in October 1947 under the title "Tentative Statement of Auditing Standards—Their Generally Accepted Significance and Scope." The recommendations of this brochure ceased to be tentative when, at the September 1948 meeting, the membership of the Institute approved the summarized statement of auditing standards.

In 1954 the "tentative" brochure was replaced by the booklet *Generally Accepted Auditing Standards—Their Significance and Scope*, which was issued as a special report of the Committee on Auditing Procedure. This pronouncement also gave recognition to the approval of Statement on Auditing Procedure No. 23 (Revised), "Clarification of Accountant's Report When Opinion Is Omitted" (1949) and the issuance of the "Codification" (1951).

Statement on Auditing Procedure No. 33 was issued in 1963 as a consolidation of, and a replacement for, the following pronouncements of the Committee on Auditing Procedure: Internal Control (1949), Generally Accepted Auditing Standards (1954), Codification of Statements on Auditing Procedure (1951), and Statements on Auditing Procedure Nos. 25-32, which were issued between 1951 and 1963. Statement No. 33 was a codification of earlier Committee pronouncements which the Committee believed to be of continuing interest to the independent auditor.

Statements on Auditing Standards

After issuance of Statement on Auditing Procedure No. 33, 21 additional Statements on Auditing Procedure, Nos. 34 to 54, were issued by the Committee on Auditing Procedure. In November 1972, these pronouncements were codified in Statement on Auditing Standards No. 1, *Codification of Auditing Standards and Procedures*. Also, in 1972, the name of the Committee was changed to the Auditing Standards Executive Committee to recognize its role as the AICPA's senior technical committee charged with interpreting generally accepted auditing standards.

The Auditing Standards Executive Committee issued 22 additional statements through No. 23. These statements were incorporated in the AICPA's looseleaf service, *Professional Standards*, as issued. The looseleaf service began in 1974 and is administered by the AICPA staff. It provides a continuous codification of Statements on Auditing Standards.

Creation of the Auditing Standards Board

As a result of the recommendations of the Commission on Auditors' Responsibilities, an independent study group appointed by the AICPA, a special committee was formed to study the structure of the AICPA's auditing standard-setting activity. In May 1978, the AICPA Council adopted the recommendations of that committee to restructure the Committee. Accordingly, in October 1978 the Auditing Standards Board was formed as the successor to prior senior technical committees on auditing matters. The Board was given the following charge:

The AICPA Auditing Standards Board shall be responsible for the promulgation of auditing standards and procedures to be observed by members of the AICPA in accordance with the Institute's rules of conduct.

The board shall be alert to new opportunities for auditors to serve the public, both by the assumption of new responsibilities and by improved ways of meeting old ones, and shall as expeditiously as possible develop standards and procedures that will enable the auditor to assume those responsibilities.

Auditing standards and procedures promulgated by the board shall—

- a. Define the nature and extent of the auditor's responsibilities.
- b. Provide guidance to the auditor in carrying out his duties, enabling him to express an opinion on the reliability of the representations on which he is reporting.
- c. Make special provision, where appropriate, to meet the needs of small enterprises.
- d. Have regard to the costs which they impose on society in relation to the benefits reasonably expected to be derived from the audit function.

The auditing standards board shall provide auditors with all possible guidance in the implementation of its pronouncements, by means of interpretations of its statements, by the issuance of guidelines, and by any other means available to it.

Changes Created by Sarbanes-Oxley Act of 2002

AICPA members who perform auditing and other related professional services have been required to comply with Statements on Auditing Standards promulgated by the AICPA Auditing Standards Board. These standards constitute what is known as "generally accepted auditing standards" ("GAAS"). Prior to Sarbanes-Oxley, the ASB's auditing standards have applied to audits of all entities. However, as a result of the passage of the Sarbanes-Oxley Act of 2002 ("Act"), auditing rules and related professional practice standards to be used in the performance of and reporting on audits of the financial statements of public companies (or issuers) are to be established by the Public Company Accounting Oversight Board. Accordingly, public accounting firms auditing issuers are now required to be registered with the PCAOB and to adhere to all PCAOB rules and standards in those audits. In 2003, the PCAOB adopted the then-existing Audit and Attest Standards as its interim auditing standards.

The preparation and issuance of audit reports for those entities not subject to the Act or the rules of the SEC (hereinafter referred to as "nonissuers") continue to be governed by generally accepted auditing standards promulgated by the ASB.

The Reconstituted ASB

In February 2004, the AICPA's Board of Directors unanimously recommended that the AICPA's Governing Council take the following action at its meeting in May 2004:

- Designate the PCAOB as a body with the authority to promulgate auditing and related attestation standards, quality control, ethics, independence and other standards relating to the preparation and issuance of audit reports for issuers.
- Amend the ASB's current designation to recognize the ASB as a body with the authority to promulgate auditing, attestation and quality control standards relating to the preparation and issuance of audit reports for non-issuers only.

As a result of this action, the ASB was reconstituted and its jurisdiction amended by AICPA Council to recognize the ASB as a body with the authority to promulgate auditing, attestation and quality control standards relating to the preparation and issuance of audit and attestation reports for nonissuers.

AU Appendix B

Substantive Differences Between the International Standards on Auditing and Generally Accepted Auditing Standards

Note: This appendix refers to the upcoming clarified AU sections. For a complete listing of how the existing AU sections will map to the new, clarified sections, see part III of the *Cross-References to SASs*.

200–299 GENERAL PRINCIPLES AND RESPONSIBILITIES

ISA 200	Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with International Standards on Auditing
ISA 210	Agreeing the Terms of Audit Engagements
ISA 220	Quality Control for an Audit of Financial Statements
ISA 230	Audit Documentation
ISA 240	The Auditor's Responsibilities Relating to Fraud in an Audit of Financial Statements
ISA 250	Consideration of Laws and Regulations in an Audit of Financial Statements
ISA 260	Communication with Those Charged with Governance
ISA 265	Communicating Deficiencies in Internal Control to Those Charged with Governance and Management

300–499 RISK ASSESSMENT AND RESPONSE TO ASSESSED RISKS

ISA 300	Planning an Audit of Financial Statements
ISA 315	Identifying and Assessing the Risks of Material Misstatement through Understanding the Entity and Its Environment
ISA 320	Materiality in Planning and Performing an Audit
ISA 330	The Auditor's Responses to Assessed Risks
ISA 402	Audit Considerations Relating to an Entity Using a Service Organization
ISA 450	Evaluation of Misstatements Identified during the Audit

500–599 AUDIT EVIDENCE

ISA 500	Audit Evidence
ISA 501	Audit Evidence—Specific Considerations for Selected Items
ISA 505	External Confirmations
ISA 510	Initial Audit Engagements—Opening Balances
ISA 520	Analytical Procedures
ISA 530	Audit Sampling
ISA 540	Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures
ISA 550	Related Parties
ISA 560	Subsequent Events

 ISA 710 Comparative Information—Corresponding Figures and Comparative Financial Statements
 ISA 720 The Auditor's Responsibilities Relating to Other Information in Documents Containing Audited Financial Statements

800–899 SPECIALIZED AREAS

- ISA 800 Special Considerations—Audits of Financial Statements Prepared in Accordance with Special Purpose Frameworks
 ISA 805 Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts or Items of a Financial Statement
 ISA 810 Engagements to Report on Summary Financial Statements

This analysis was prepared by the AICPA Audit and Attest Standards staff to highlight substantive differences between the Statements on Auditing Standards and International Standards on Auditing, and the rationales therefore. This analysis is not authoritative and is prepared for informational purposes only. It has not been acted on, or reviewed by, the Auditing Standards Board.

Statements on Auditing Standards (SASs) are issued by the Auditing Standards Board (ASB), the senior technical body of the AICPA designated to issue pronouncements on auditing matter for nonissuers.¹ Rule 202, *Compliance With*

* Statement on Auditing Standards (SAS) No. 59, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, as amended, is currently effective and codified as former section 341. SAS No. 59 has been included in new section 570, as designated by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, and will be superseded when it is redrafted for clarity and convergence with International Standard on Auditing 570, *Going Concern*, as part of the Clarification and Convergence project of the Auditing Standards Board. Until such time, new section 570 has been conformed to reflect updated section and paragraph cross references but has not otherwise been subjected to a comprehensive review or revision.

† SAS No. 65, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, is currently effective and codified as former section 322. SAS No. 65 has been included in new section 610, as designated by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, and will be superseded when it is redrafted for clarity and convergence with International Standard on Auditing 610 (Revised), *Using the Work of Internal Auditors*, as part of the Clarification and Convergence project of the Auditing Standards Board. Until such time, new section 610 has been conformed to reflect updated section and paragraph cross references but has not otherwise been subjected to a comprehensive review or revision.

¹ The term *issuer* means an issuer (as defined in Section 3 of the Securities Exchange Act of 1934 (15 U.S.C. 78c)), the securities of which are registered under Section 12 of that act (15 U.S.C. 78l),

(continued)

Standards (ET sec. 202 par. .01), of the AICPA Code of Professional Conduct requires an AICPA member who performs an audit of a nonissuer to comply with standards promulgated by the ASB.

In 2007, the ASB began a project to clarify its standards to make them easier to read, understand, and apply, and to converge its standards with those developed by the International Auditing and Assurance Standards Board (IAASB) of the International Federation of Accountants (IFAC). Accordingly, the ASB established clarity drafting conventions and has revised all its SASs in accordance with those conventions, using corresponding International Standards on Auditing (ISAs) as a base. Each clarified SAS differs from its corresponding ISA only where the ASB believes compelling reasons exist for the differences. As described in this appendix, nearly all ISA requirements are also requirements of auditing standards generally accepted in the United States of America (GAAS). However, GAAS contain additional requirements that address issues specific to the United States of America or retain current practices.

An AICPA member practicing in the United States of America may be engaged to audit the financial statements of a nonissuer in accordance with the ISAs. In those circumstances where the auditor's report states that the audit was conducted in accordance with the ISAs, the U.S. auditor should comply with both the ISAs and, as required by the AICPA Code of Professional Conduct, GAAS. An engagement of this nature is normally conducted by performing an audit in accordance with GAAS plus performing any additional procedures required by the ISAs.

The purpose of this appendix is to assist the U.S. auditor in planning and performing an engagement in accordance with the ISAs. This document provides a brief description of how each ISA differs from the comparable U.S. standard. However, to fully understand how the ISA might affect the nature, timing, and extent of the procedures performed in an engagement in accordance with GAAS, the auditor should consider the ISAs in their entirety by considering the standards together with the related guidance included in the ISAs. In performing an audit in accordance with the ISAs, the auditor also needs to comply with IFAC's Code of Ethics.

This analysis compares the ISAs included in the 2010 edition of the *Handbook of International Quality Control, Auditing, Review, Other Assurance, and Related Services Pronouncements*, to the AICPA's *Professional Standards*. References to GAAS are made to the relevant AU sections. This analysis describes the differences in terms of

- a. differences in language,
- b. requirements in the ISAs not in GAAS,
- c. requirements in GAAS not in the ISAs,
- d. differences between requirements, and
- e. the placement of certain requirements within GAAS.

General

In converging with the ISAs, the ASB has made various changes to the language of the ISAs throughout the SASs. Such changes have been made to use terms

(footnote continued)

or that is required to file reports under Section 15(d) (15 U.S.C. 78o(d)), or that files or has filed a registration statement that has not yet become effective under the Securities Act of 1933 (15 U.S.C. 77a et seq.), and that it has not withdrawn. The term *nonissuer* refers to any entity not subject to the Sarbanes-Oxley Act or the rules of the Securities and Exchange Commission.

applicable in the United States and to make the SASs easier to read and apply in the United States. The ASB believes that such changes do not create differences between the application of the ISAs and the application of GAAS. Selected changes are described in the analysis that follows.

ISA 200, Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with International Standards on Auditing, Compared to Section 200, Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards

Requirements in the ISAs Not in GAAS

The ISAs provide for reporting on financial statements that are prepared in accordance with fair presentation financial reporting frameworks and compliance financial reporting frameworks. In the ISAs, compliance frameworks do not necessarily require fair presentation. GAAS address reporting on financial statements that are prepared in accordance with fair presentation frameworks only, because the ASB believes that fair presentation frameworks are the only financial reporting frameworks used in the United States.

Requirements in GAAS Not in the ISAs

GAAS, as described in paragraph .23 of section 200, contain two categories of professional requirements: unconditional requirements and presumptively mandatory requirements. Paragraph .23 of section 200 describes the auditor's obligation to comply with (1) an unconditional requirement in all cases where such requirement is relevant, and (2) a presumptively mandatory requirement in all cases where such a requirement is relevant except in rare circumstances. The ISAs contain only one category of professional requirements, with which paragraphs .22–.23 of ISA 200 require the auditor to comply when such requirements are relevant except in rare circumstances. The ASB retained two categories of professional requirements so as not to create unnecessary differences with the application of the auditing standards promulgated by the Public Company Accounting Oversight Board (PCAOB), which contain the same two categories of professional requirements as described in section 200.

Paragraphs .25–.26 of section 200 contain requirements relating to interpretive publications and other auditing publications. The ISAs do not address interpretive publications or other auditing publications.

ISA 210, Agreeing the Terms of Audit Engagements, Compared to Section 210, Terms of Engagement

Requirements in the ISAs Not in GAAS

Paragraphs 11–12 of ISA 210 contain requirements relating to situations when law or regulation prescribes management's responsibilities. Paragraph 18 of ISA 210 contains requirements relating to situations when law or regulation

supplements financial reporting standards established by an authorized or recognized standards-setting organization. The ASB believes that these situations are not applicable to nonissuers in the United States and, accordingly, such requirements are not included in GAAS.

Requirements in GAAS Not in the ISAs

Paragraphs .11–.12 of section 210 address the auditor's communications with predecessor auditors in initial audit or reaudit engagements. ISA 210 does not contain these requirements. The ASB believes these requirements and related application material are appropriate for inclusion in GAAS.

Paragraph 13 of ISA 210 requires that for recurring audits, the auditor should assess whether there is a need to remind the entity of the existing terms of the engagement. Paragraph .13 of section 210 requires the auditor to remind the entity of the existing terms of the engagement and to document the reminder. The ASB believes that it is important to review the terms of the engagement with the entity each year.

Placement of Certain Requirements Within GAAS

Paragraphs 19–20 of ISA 210 contain requirements relating to situations when the financial reporting framework is prescribed by law or regulation. These requirements are addressed in section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*. The different placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

ISA 220, Quality Control for an Audit of Financial Statements, Compared to Section 220, Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards

Requirements in the ISAs Not in GAAS

Paragraph 21 of ISA 220 contains requirements relating to audits of listed entities. Such requirements are not applicable to audits of nonissuers in the United States and, accordingly, such requirements are not included in GAAS.

Differences Between Requirements

Paragraph .21 of section 220 requires that when an engagement quality control review is performed, the engagement quality control review be completed before the engagement partner releases the auditor's report. Paragraph 19 of ISA 220 requires that the quality control review be completed before the engagement partner dates the auditor's report. The ASB believes that an engagement quality control review is an independent review of the engagement team's significant judgments, including the date selected by the engagement team to date the report. As noted in the application material to section 220, when the engagement quality control review results in additional procedures being performed, the date of the report would be changed.

ISA 230, Audit Documentation, Compared to Section 230, Audit Documentation

Requirements in GAAS Not in the ISAs

Paragraph .10 of section 230 requires the auditor to include abstracts or copies of significant contracts or agreements in documentation of auditing procedures related to inspection of those significant contracts or agreements. ISA 230 does not require the auditor to include abstracts or copies of the entity's records. Paragraph A3 of ISA 230 (which is application material relating to the requirement in paragraph 8 of ISA 230, which corresponds to paragraph .08 in section 230) states, "the auditor may include abstracts or copies of the entity's records (for example, significant and specific contracts and agreements) as part of audit documentation."

When performing auditing procedures related to inspection of significant contracts or agreements, the ASB believes that, in the context of the preparation of audit documentation that is sufficient to enable an experienced auditor to understand the audit evidence obtained, it is important to include abstracts or copies of such contracts or agreements. Further, the PCAOB standards include a requirement that documentation of auditing procedures related to the inspection of significant contracts or agreements should include abstracts or copies of the documents.² The ASB does not want to create a difference with PCAOB standards in this regard.

Differences Between Requirements

Paragraph 14 of ISA 230 requires the auditor to assemble the audit documentation in an audit file and complete the administrative process of assembling the final audit file on a timely basis after the date of the auditor's report, and the related application and other explanatory material indicates that an appropriate time limit within which to complete the assembly of the final audit file is ordinarily not more than 60 days after the date of the auditor's report. Paragraph .16 of section 230 requires the auditor to assemble the audit documentation in an audit file and complete the administrative process of assembling the final audit file on a timely basis, no later than 60 days following the report release date. The auditor is required by paragraph .15 of section 230 to document the report release date in the audit documentation.

Paragraph 15 of ISA 230 requires that after the assembly of the final audit file has been completed, the auditor not delete or discard audit documentation of any nature before the end of its retention period. Paragraph A23 of ISA 230 states, "the retention period for audit engagements is ordinarily no shorter than five years from the date of the auditor's report, or, if later, the date of the group auditor's report." Paragraph .17 of section 230 requires that after the documentation completion date, the auditor not delete or discard audit documentation before the end of the specified retention period, and goes on to state that "such retention period, however, should not be shorter than five years from the report release date."

The ASB believes that it is appropriate to be consistent with the standards of the PCAOB in relation to the date from which the documentation completion

² Paragraph 10 of PCAOB Auditing Standard No. 3, *Audit Documentation* (AICPA, *PCAOB Standards and Related Rules*, Auditing Standards).

and retention periods are measured.³ Notwithstanding that the documentation completion period is measured from the same date in GAAS and in the PCAOB standard, the ASB continues to believe that a 60-day period is appropriate for GAAS as opposed to the 45-day period in the PCAOB standard.

ISA 240, *The Auditor's Responsibilities Relating to Fraud in an Audit of Financial Statements*, Compared to Section 240, *Consideration of Fraud in a Financial Statement Audit*

Differences in Language

Paragraph 11 of ISA 240 and paragraph .11 of section 240 define *fraud*. However, the definition of fraud in paragraph .11 of section 240 was revised by changing the words "to obtain illegal or unjust advantage" to "results in a misstatement in financial statements that are the subject of an audit." The ASB believes that (a) the definition in ISA 240 is too broad and could inappropriately expose auditors to additional liability in the United States, and (b) the meaning of *unjust* could be interpreted very broadly and subjectively in its application and could imply a scope well beyond the intent of the standard. The ASB believes that the change in the definition does not create significant differences between the application of ISA 240 and the application of section 240.

Requirements in GAAS Not in the ISAs

Section 240 contains requirements, consistent with requirements of SAS No. 99, *Consideration of Fraud in a Financial Statement Audit*, as amended, that have been expanded from the requirements of ISA 240, or elevated from application material in ISA 240, as follows:

- The requirement in paragraph 14 of ISA 240 for the auditor to investigate inconsistent responses to auditor inquiries of management or those charged with governance has been expanded in paragraph .14 of section 240 to also include responses that are otherwise unsatisfactory (for example, vague or implausible responses).
- The requirement in paragraph 15 of ISA 240 that requires members of the engagement team to discuss the susceptibility of the entity's financial statements to material misstatements has been expanded in paragraph .15 of section 240 to include additional discussion items from application and other explanatory material in ISA 240 to requirements in section 240. These include a required brainstorming session focused very specifically on, among other things, internal and external fraud factors and the possibility of management override of controls. In addition, section 240 further clarifies the requirement for participation of key engagement team members and the engagement partner in the discussion and brainstorming sessions. Lastly, section 240 requires appropriate communication throughout the audit among the engagement team members. Several of these discussion items have been elevated from paragraphs A10–A11 of ISA 240.

³ Paragraphs 14–15 of PCAOB Auditing Standard No. 3.

- The requirement in paragraph 44 of ISA 240 to document the significant decisions reached during the discussion among the engagement team regarding fraud-related matters has been expanded in paragraph .43 of section 240 to also require documenting how and when the discussion occurred and the audit team members who participated.
- Procedures elevated from paragraph A18 of ISA 240 to requirements in paragraph .19 of section 240, related to making inquiries of internal audit as part of performing risk assessment procedures, include determining (a) whether internal audit has performed any procedures to identify or detect fraud during the year, and (b) whether management has satisfactorily responded to any findings resulting from these inquiries.
- The requirement in paragraph 34 of ISA 240 to evaluate whether the results of analytical procedures at or near the end of the reporting period indicate a previously unrecognized risk of material misstatement due to fraud has been expanded in paragraph .34 of section 240 to include the accumulated results of auditing procedures, including analytical procedures performed as substantive tests or when forming an overall conclusion. Section 240 also specifically requires performance of analytical procedures relating to revenue accounts through the end of the reporting period, in light of the generally higher risk of financial statement fraud involving revenue.
- The requirements in paragraph 32(a) of ISA 240 address designing and performing auditing procedures to test the appropriateness of journal entries. In addition to essential guidance about addressing the risk of possible management override of controls, included in paragraph .32a of section 240 are requirements to
 - obtain an understanding of the entity's financial reporting process and controls over journal entries and other adjustments, and determine whether such controls are suitably designed and have been implemented.
 - consider fraud risk factors, the nature and complexity of accounts, and entries processed outside the normal course of business, elevated from the application and other explanatory material contained in paragraph A43 of ISA 240 in order to emphasize the importance of these considerations.
 - include identification and testing of specific journal entries regardless of controls.
- The requirement for the auditor to design and perform auditing procedures to review accounting estimates for biases and evaluate whether the circumstances producing the bias, if any, represent a risk of material misstatement due to fraud, in paragraph 32(b) of ISA 240, has been expanded in paragraph .32b of section 240 to include those estimates that are based on highly sensitive assumptions.

ISA 250, *Consideration of Laws and Regulations in an Audit of Financial Statements*, Compared to Section 250, *Consideration of Laws and Regulations in an Audit of Financial Statements*

Differences in Language

Changes to the language of section 250 include:

- In paragraphs .10*a* and .13, changing the phrase "compliance with the provisions of those laws and regulations generally recognized to have a direct and material effect on the determination of material amounts and disclosures in the financial statements" to the phrase "material amounts and disclosures in the financial statements that are determined by the provisions of those laws and regulations generally recognized to have a direct effect on their determination." This change was made to address the ASB's concerns that the language in ISA 250 expanded the auditor's responsibility to encompass all aspects of those laws and regulations described in paragraph .06*a* of section 250, as opposed to focusing on the amounts and disclosures included in the financial statements. The ASB has discussed this issue with the IAASB, and the wording in section 250 reflects the intent of ISA 250. The IAASB made subsequent changes to the application material in ISA 250 to make this clear.
- In paragraphs .10*b* and .14, changing "to help identify" to "that may identify." The ASB believes that the wording of section 250 better conveys the intent of ISA 250.
- In paragraph .18, adding the phrase "(at a level above those involved with the suspected noncompliance, if possible)."

Such changes have been made to make section 250 easier to read and apply. The ASB believes that such changes do not create differences between the application of ISA 250 and the application of section 250.

Placement of Certain Requirements Within GAAS

Paragraph 16 of ISA 250 requires the auditor to request management and, when appropriate, those charged with governance to provide written representations regarding identified or suspected instances of noncompliance with relevant laws and regulations. The ASB believes this requirement is more appropriately placed in section 580, *Written Representations*. The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

ISA 260, *Communication with Those Charged with Governance*, Compared to Section 260, *The Auditor's Communication With Those Charged With Governance*

Differences in Language

Changes to the language of section 260 from ISA 260 include

- in paragraph .12, requiring that the auditor communicate with those charged with governance "the auditor's views about qualitative aspects of the entity's significant accounting practices" compared with the requirement in paragraph 16 of ISA 260 that the auditor communicate with those charged with governance "the auditor's views about significant qualitative aspects of the entity's accounting practices." The ASB believes that the wording of section 260 better conveys the intent of ISA 260.
- in paragraph .16, changing the language in ISA 260 from "Written communications need not include all matters that arose during the course of the audit" to "This communication need not include matters that arose during the course of the audit that were communicated with those charged with governance and satisfactorily resolved."

Such changes have been made to make section 260 easier to read and apply. The ASB believes that such changes do not create differences between the application of ISA 260 and the application of section 260.

Requirements in the ISAs Not in GAAS

Paragraphs 13 and 16 of ISA 260 require the auditor to communicate certain matters regarding independence in the case of listed entities. These requirements are not applicable to the audits of nonissuers in the United States and, therefore, are not included in section 260.

Requirements in GAAS Not in the ISAs

Paragraph .12*a* of section 260 requires the auditor, when applicable, to determine that those charged with governance are informed about the process used by management in formulating particularly sensitive accounting estimates and about the basis for the auditor's conclusions regarding the reasonableness of those estimates.

Paragraph .14*a* and *c* of section 260 require, when not all of those charged with governance are involved in managing the entity, the auditor to communicate (*a*) material, corrected misstatements that were brought to the attention of management as a result of audit procedures, and (*b*) the auditor's views about significant matters that were the subject of management's consultations with other accountants on accounting or auditing matters when the auditor is aware that such consultation has occurred. Paragraph .12*c* of section 260 requires the auditor to communicate disagreements with management, if any. ISA 260 does not require communication of these matters. The ASB believes that it is important for these matters to be communicated to those charged with governance of nonissuers in the United States.

Paragraph .17 of section 260 requires the auditor, when communicating matters in accordance with section 260 in writing, to indicate in the communication

that it is intended solely for the information and use of those charged with governance and, if appropriate, management and is not intended to be, and should not be, used by anyone other than these specified parties. ISA 260 does not require this indication, nor does it prohibit it. The ASB believes that this communication meets the criteria for a by-product report under SAS No. 87, *Restricting the Use of an Auditor's Report*.[‡]

Placement of Certain Requirements Within GAAS

Consistent with requirements in paragraphs 12–13 of ISA 450, *Evaluation of Misstatements Identified during the Audit*, paragraph .13 of section 260 contains a requirement for the auditor to communicate certain matters regarding uncorrected misstatements. The ASB believes that this communication with those charged with governance is more appropriately placed in section 260. Paragraph 12(c)(i) of ISA 260 requires the auditor to communicate material weaknesses in internal control identified during an audit to those charged with governance. The ASB believes this requirement is more appropriately placed in section 265, *Communicating Internal Control Related Matters Identified in an Audit*. The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

ISA 265, Communicating Deficiencies in Internal Control to Those Charged with Governance and Management, Compared to Section 265, Communicating Internal Control Related Matters Identified in an Audit

Differences in Language

Section 265 includes and defines the term *material weakness*, whereas ISA 265 does not.

The definition of *material weakness*, along with the definitions of *deficiency in internal control* and *significant deficiency in internal control* have been modified to align with the definitions of these terms in Statement on Standards for Attestation Engagements No. 15, *An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements* (AT sec. 501). These terms and definitions are consistent with those used in the standards of the PCAOB. The ASB believes that consistency between its standards and those of the PCAOB in the use and definition of these terms is essential in the United States due to legal and regulatory requirements, including those pertaining to the evaluation of the effectiveness of an entity's internal control over financial reporting.

The ASB believes that the definitions are consistent with the intent of ISA 265 and that the modifications do not create differences between the application of ISA 265 and the application of section 265.

[‡] SAS No. 87, *Restricting the Use of an Auditor's Report*, is currently effective and codified as former section 532. SAS No. 87 has been included in new section 905, as designated by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, and will be superseded when it is redrafted for clarity and convergence as part of the Clarification and Convergence project of the Auditing Standards Board. Until such time, new section 905 has been conformed to reflect updated section and paragraph cross references but has not otherwise been subjected to a comprehensive review or revision.

Requirements in GAAS Not in the ISAs

Section 265 requires the auditor to evaluate each deficiency to determine, on the basis of the audit work performed, whether, individually or in combination, the deficiencies constitute significant deficiencies or material weaknesses. ISA 265 does not explicitly refer to the auditor's evaluation of each deficiency in making this determination. The ASB believes that the requirement in section 265 is consistent with the intent of ISA 265.

Section 265 requires the auditor to communicate significant deficiencies and material weaknesses to management and those charged with governance. Because ISA 265 does not include or define the term *material weakness*, ISA 265 does not contain a requirement to separately identify or communicate material weaknesses.

Section 265 includes an additional requirement for the auditor to consider, if the auditor determines that a deficiency, or a combination of deficiencies, in internal control is not a material weakness, whether prudent officials, having knowledge of the same facts and circumstances, would likely reach the same conclusion (paragraph .10).

Section 265 explicitly requires the auditor to document the communication of other deficiencies in internal control that are communicated orally to management (paragraph .12b).

Paragraphs 9–10 of ISA 265 require the auditor to communicate to those charged with governance and management on a timely basis. Paragraph .13 of section 265 requires the communication to be made no later than 60 days following the report release date. ISA 265 recognizes in paragraph A13 that the written communication of significant deficiencies forms part of the final audit file and is subject to the overriding requirement for the auditor to complete the assembly of the final audit file on a timely basis. ISA 230 states that an appropriate time limit within which to complete the assembly of the final audit file is ordinarily not more than 60 days after the date of the auditor's report.

In addition to the required elements of the written communication identified in paragraph 11 of ISA 265, paragraph .14 of section 265 requires that the following additional items/elements be included in the written communication:

- The definition of *material weakness* and, when relevant, the definition of *significant deficiency*
- An explanation that the auditor is not expressing an opinion on the effectiveness of internal control
- An explanation that the auditor's consideration of internal control was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies
- A statement restricting the use of the communication to management, those charged with governance, others within the organization, and any governmental authority to which the auditor is required to report

Paragraph .15 of section 265 includes reporting requirements when the auditor issues a written communication stating that no material weaknesses were identified during the audit of the financial statements. Paragraph .16 of section 265

prohibits the issuance of a written communication stating that no significant deficiencies were identified during the audit. ISA 265 does not address the issuance of communications indicating no material weaknesses or no significant deficiencies.

ISA 300, Planning an Audit of Financial Statements, Compared to Section 300, Planning an Audit

Requirements in GAAS Not in the ISAs

Paragraph .12 of section 300 contains requirements regarding the auditor's obligations for determining the extent of involvement of professionals possessing specialized skills. ISA 300 does not contain these requirements. The ASB believes these requirements, and the related application material, are necessary for the auditor's consideration of the need for specialized skills and knowledge in the audit.

ISA 315, Identifying and Assessing the Risks of Material Misstatement through Understanding the Entity and Its Environment, Compared to Section 315, Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement

Differences in Language

Paragraph .10 of section 315 uses different wording than paragraph 9 of ISA 315 to describe the auditor's requirement regarding the relevance of information obtained. Paragraphs .19 and .25 of section 315 include additional modifiers to conform to the comparable auditing standard issued by the Public Company Accounting Oversight Board.

Both ISA 240 and section 240 contain requirements for the auditor to consider the risks of material misstatement due to fraud. Paragraph .09 of section 315 contains a specific requirement for the auditor to consider the results of the assessment of the risk of material misstatement due to fraud during planning, whereas ISA 315 does not. In addition, certain requirements in paragraphs .21 and .33 of section 315 contain more specificity than do the equivalent requirements in ISA 315.

These differences do not create differences between the application of ISA 315 and the application of section 315.

ISA 320, Materiality in Planning and Performing an Audit, Compared to Section 320, Materiality in Planning and Performing an Audit

There are no differences between the application of ISA 320 and the application of section 320.

ISA 330, *The Auditor's Responses to Assessed Risks*, Compared to Section 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*

Requirements in GAAS Not in the ISAs

Paragraph .20 of section 330 includes a requirement to confirm accounts receivable unless certain conditions exist. This requirement is not in the ISAs. The ASB believes it is appropriate to retain the requirement in paragraph 34 of SAS No. 67, *The Confirmation Process*.

Differences Between Requirements

To be consistent with the wording of the comparable requirements in the comparable auditing standard issued by the PCAOB, the requirement in paragraph .07 of section 330 has been modified with the words "relevant" and "material," and the requirement in paragraph .10 of section 330 has been expanded to specifically include addressing, when applicable, whether the person performing the control possesses the necessary authority and competence to perform the control effectively. The ASB believes these differences do not create differences between the application of ISA 330 and the application of section 330.

Placement of Certain Requirements Within GAAS

Paragraph .25 of section 330 includes a requirement for the auditor addressing the means of selecting items for testing. This requirement is in the ISAs in ISA 500, *Audit Evidence*. The ASB believes this requirement is more appropriately placed in section 330. The placement of this requirement does not create a difference between the ISAs as a whole and GAAS as a whole.

ISA 402, *Audit Considerations Relating to an Entity Using a Service Organization*, Compared to Section 402, *Audit Considerations Relating to an Entity Using a Service Organization*

Differences in Language

The definitions of *Report on a description of a service organization's system and the suitability of the design of controls (type 1 report)* and *Report on a description of a service organization's system and the suitability of the design and operating effectiveness of controls (type 2 report)*, in paragraph .08 of section 402, indicate that management's written assertion is an element of these reports. This is consistent with the definitions of these terms in International Standard on Assurance Engagements 3402, *Assurance Reports on Controls at a Service Organization*. The definitions of these terms in paragraph 8 of ISA 402 do not include management's written assertion as an element of the reports. The ASB believes that the definitions are consistent with the intent of ISA 402 and that the modifications do not create differences between the application of ISA 402 and the application of section 402.

ISA 450, *Evaluation of Misstatements Identified during the Audit*, Compared to Section 450, *Evaluation of Misstatements Identified During the Audit*

Placement of Certain Requirements Within GAAS

Paragraphs 12–13 of ISA 450 require the auditor to communicate certain matters regarding uncorrected misstatements to those charged with governance. The ASB believes that the requirements for this communication are more appropriately placed in section 260.

Paragraph 14 of ISA 450 requires the auditor to request written representations from management and, where appropriate, those charged with governance regarding uncorrected misstatements. The ASB believes this requirement is more appropriately placed in section 580.

The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

ISA 500, *Audit Evidence*, Compared to Section 500, *Audit Evidence*

Placement of Certain Requirements Within GAAS

Paragraph 10 of ISA 500 includes a requirement for the auditor addressing the means of selecting items for testing. The ASB believes this requirement is more appropriately placed in section 330. The placement of this requirement does not create a difference between the ISAs as a whole and GAAS as a whole.

ISA 501, *Audit Evidence—Specific Considerations for Selected Items*, Compared to Section 501, *Audit Evidence—Specific Considerations for Selected Items*

Requirements in GAAS Not in the ISAs

Section 501 contains specific requirements relating to auditing investments in securities and derivative instruments that are not in ISA 501. The ASB concluded that it was appropriate to retain these specific requirements of SAS No. 92, *Auditing Derivatives Instruments, Hedging Activities, and Investments in Securities*.

SAS No. 12, *Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments*, is based on the premise that the applicable financial reporting framework complies with Financial Accounting Standards Board *Accounting Standards Codification 450, Contingencies*. In addition, the audit inquiry letters required under SAS No. 12 have been subjected to the provisions of the 1975 agreement between the AICPA and the American Bar Association (ABA treaty). Consequently, section 501 contains specific requirements relating to litigation, claims and assessments consistent with the requirements of SAS No. 12 that are not contained in ISA 501. The ASB decided to retain such content

in section 501 because it is particular to the U.S. environment and continues to be relevant in practice.

Placement of Certain Requirements Within GAAS

Paragraph 12 of ISA 501 requires the auditor to request written representations from management and, where appropriate, those charged with governance regarding litigation and claims. The ASB believes this requirement is more appropriately placed in section 580. The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

ISA 505, *External Confirmations*, Compared to Section 505, *External Confirmations*

Differences in Language

The definition of *external confirmation* has been expanded to include an example of a medium through which a response may be obtained. The example—direct access by the auditor to information held by a third party—addresses a situation that is increasingly common. The ASB believes that the inclusion of this concept clarifies the definition and is consistent with the intent of the definition in ISA 505.

ISA 510, *Initial Audit Engagements—Opening Balances*, Compared to Section 510, *Opening Balances—Initial Audit Engagements, Including Reaudit Engagements*

Requirements in GAAS Not in the ISAs

Paragraph .07 of section 510 carries forward a requirement from paragraph 11 of SAS No. 84, *Communications Between Predecessor and Successor Auditors*, as amended, which states that the auditor, when the prior period financial statements were audited by a predecessor auditor, should request management to authorize the predecessor auditor to allow a review of the predecessor auditor's audit documentation and to respond fully to inquiries by the auditor. Other requirements related to reviewing the predecessor auditor's audit documentation do not differ between ISA 510 and section 510.

Paragraph .13 of section 510 incorporates requirements from paragraph 22 of SAS No. 84, as amended, concerning the auditor's response when management refuses to inform the predecessor auditor that the prior period financial statements may need revision or if the auditor is not satisfied with the resolution of the matter. The ASB believes it is important to address this situation.

Paragraph .14 of section 510 incorporates a requirement from paragraph 13 of SAS No. 84, as amended, that states that the auditor should not make reference to the report or work of the predecessor auditor as the basis, in part, for the successor auditor's own opinion. The ASB believes this requirement is necessary in the United States to clearly distinguish this situation from the circumstances in section 600, *Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)*, in which the auditor determines to make reference to the audit of a component auditor in the auditor's report on the group financial statements.

Differences Between Requirements

Paragraph 6(c) of ISA 510 requires the auditor to perform one or more of three identified procedures, in addition to the procedures required in paragraph 6(a–b) of ISA 510, to obtain sufficient appropriate audit evidence about whether the opening balances contain misstatements that materially affect the current period's financial statements. Two of the three procedures are (a) reviewing the predecessor auditor's audit documentation to obtain evidence regarding opening balances, and (b) evaluating whether audit procedures performed in the current audit provide evidence relevant to the opening balances. The ASB does not believe that either of these procedures, on its own, provides sufficient evidence regarding opening balances, and accordingly, the ASB has redrafted paragraph .08c of section 510 to require the auditor to evaluate whether audit procedures performed in the current period provide evidence relevant to the opening balances and also to perform one or both of the other procedures identified in paragraph .08c(i–ii) of section 510.

ISA 520, *Analytical Procedures*, Compared to Section 520, *Analytical Procedures*

Differences in Language

The ASB has made various changes to the language throughout section 520 in comparison with ISA 520. The changes to section 520 include the following:

- In paragraph .05c, adding the parenthetical "(taking into account whether substantive analytical procedures are to be performed alone or in combination with tests of details)" to clarify that the auditor can use as audit evidence a substantive analytical procedure that is less precise than performance materiality when such analytical procedure is combined with other substantive audit procedures.
- In paragraph .05d, adding "compare the recorded amounts, or ratios developed from recorded amounts, with the expectations." The ASB is of the understanding that such procedure is presumed in ISA 520.

Such changes have been made to make section 520 easier to read and apply. The ASB believes that the changes made do not create differences between the application of ISA 520 and the application of section 520.

Requirements in GAAS Not in the ISAs

Section 520 includes specific documentation requirements, in paragraph .08, which ISA 520 does not. Such requirements are contained in SAS No. 56, *Analytical Procedures*, as amended, which section 520 supersedes, and the ASB believes that the requirements are appropriate and should be retained.

ISA 530, *Audit Sampling*, Compared to Section 530, *Audit Sampling*

Differences in Language

The definition of *audit sampling* in paragraph 5 of ISA 530 was revised in section 530 because the ASB believes that the ISA 530 wording defining audit

sampling to require the auditor to select items such that "each item has a chance of selection" is too imprecise to be meaningful. The definition was revised to (a) focus on conclusions about the population, and (b) include the fundamental concept of representativeness. Paragraph .08 of section 530, which establishes a requirement with respect to the selection of items in a population, reflects the revised definition of *audit sampling*.

The wording in paragraph .13 of section 530 was broadened from the wording in paragraph 14 of ISA 530 to better encompass the related application material.

Requirements in the ISAs Not in GAAS

The requirement in paragraph 13 of ISA 530 that addresses the issue of anomalies is not included in section 530. The ASB expressed concerns about terms used in paragraph 13 of ISA 530, such as "in the extremely rare circumstances" and "a high degree of certainty." These terms are not used in GAAS and the ASB believes these terms would not be consistently interpreted in practice. The ASB also believes that the deletion from section 530 of the option to consider a misstatement an anomaly will enhance audit quality because misstatements identified by the auditor during audit sampling will be treated in the same manner as any other misstatement identified by the auditor and, thus, will prevent the misuse of anomalies.

Paragraph 14 of ISA 530 requires, for tests of details, the projection of misstatements found in a sample to the population. The ASB believes that projection of misstatements is also relevant to tests of controls and tests of compliance, and accordingly, has broadened the requirement in paragraph .14 of section 530 to project the results of audit sampling to also include tests of controls and tests of compliance.

Other

The appendixes of ISA 530 were not been included in section 530 because the guidance contained therein is covered by the AICPA Audit Guide *Audit Sampling*.

ISA 540, Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures, Compared to Section 540, Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures

Placement of Certain Requirements Within GAAS

Paragraph 22 of ISA 540 requires the auditor to obtain written representations from management and, when appropriate, those charged with governance about whether management and, when appropriate, those charged with governance believe significant assumptions used in making accounting estimates are reasonable. The ASB believes this requirement is more appropriately placed in section 580. The placement of this requirement does not create a difference between the ISAs as a whole and GAAS as a whole.

ISA 550, *Related Parties*, Compared to Section 550, *Related Parties*

Requirements in GAAS Not in the ISAs

ISA 550 distinguishes between fair presentation and compliance frameworks and between financial reporting frameworks that contain related party requirements and financial reporting frameworks that have minimal or no related party requirements. However, the ASB believes that fair presentation frameworks are the only financial reporting framework used in the United States. Further, to achieve fair presentation, disclosures related to related parties, such as those required by generally accepted accounting principles (GAAP), are necessary and, accordingly, section 550 defines *related party* as "a party as defined in GAAP." Thus, section 550 does not refer to applicable financial reporting frameworks; the applicability, objectives, and requirements of section 550 are the same regardless of the applicable financial reporting framework.

Placement of Certain Requirements Within GAAS

Paragraph 26 of ISA 550 requires the auditor to request that management and, when appropriate, those charged with governance, provide written representations regarding related party transactions. The ASB believes this requirement is more appropriately placed in section 580. The placement of this requirement does not create a difference between the ISAs as a whole and GAAS as a whole.

ISA 560, *Subsequent Events*, Compared to Section 560, *Subsequent Events and Subsequently Discovered Facts*

Differences in Language

Paragraph 5 of ISA 560 defines *subsequent events* to include both events occurring between the date of the financial statements and the date of the auditor's report and facts that become known to the auditor after the date of the auditor's report. Section 560 includes separate definitions for *subsequent events* and *subsequently discovered facts* to clearly distinguish the auditor's responsibilities for each. The definition of *subsequently discovered facts* was also expanded to use language that is consistent with language in the objectives and requirements of ISA 560 (paragraphs 4(b) and 14) but that is not specifically included in the definition in ISA 560.

Paragraph 5 of ISA 560 further defines *the date the financial statements are issued*, which is the date the auditor's report and audited financial statements are made available to third parties. This term was deleted from section 560 because the applicable financial reporting framework may define the financial statement issuance date. In addition, because GAAS define the report release date, the ASB believes the definition could cause confusion with respect to the release versus the issuance of the auditor's report. Although the definition was deleted, the requirements in section 560 were modified to use terms that are well understood in the United States and to be consistent with the intent of the requirements in ISA 560.

Paragraph 12 of ISA 560 permits the auditor to dual date the auditor's report when law or regulation does not prohibit management from restricting the revision of the financial statements to the effects of the subsequent event or

events causing that revision and those responsible for approving the financial statements are not prohibited from restricting their approval to that revision. In the United States, no such prohibition by law or regulation exists. Accordingly, paragraph .13*b* of section 560 omits the reference to law or regulation.

Because the date of the auditor's report and the report release date are within the auditor's control, the requirements in paragraphs .12–.18 of section 560 were restructured with reference to the report release date in lieu of reference to the date that the financial statements were issued. Similar changes were made to the related application and other explanatory material.

Paragraph 15(b) of ISA 560 requires the auditor to review the steps taken by management to ensure that anyone in receipt of the previously issued financial statements, together with the auditor's report thereon, is informed of the situation. Paragraphs .16*b* and .17*b* of section 560 require the auditor to determine whether management's steps are timely and appropriate. The ASB believes this is consistent with the intent of the requirements of ISA 560.

The ASB believes these changes do not create differences between the application of ISA 560 and the application of section 560.

Requirements in the ISAs Not in GAAS

Certain requirements in ISA 560 also require the auditor to provide the auditor's report or a new or revised auditor's report. These references were eliminated from the requirements in section 560 because the ASB believes that it is not necessary to require the auditor to provide the auditor's report.

Paragraph 12(b) of ISA 560, which is an optional form of dual dating, was not included in section 560 because it is uncommon in the United States to provide a new or revised auditor's report that includes a statement in an emphasis-of-matter paragraph that conveys that the auditor's procedures on subsequent events are restricted solely to the revision of the financial statements, as described in the relevant note to the financial statements.

Requirements in GAAS Not in the ISAs

Section 560 includes an additional objective in paragraph .06, requirements in paragraphs .19–.20, and application and other explanatory material in paragraphs .A27–.A30 related to a predecessor auditor's responsibilities when reissuing the auditor's report on previously issued financial statements that are to be presented on a comparative basis with audited financial statements of a subsequent period. ISA 560 does not include such requirements.

Paragraph 9 of ISA 560 requires the auditor to request that management and, when appropriate, those charged with governance provide written representations regarding subsequent events. This requirement is included in paragraph .18 of section 580. However, if the financial statements are subsequently revised, paragraph .13*a–b* of section 560 include additional requirements for the auditor to request management to provide certain representations when the auditor either dates the auditor's report as of a later date or includes an additional date limited to the revision (that is, dual dates the auditor's report for that revision). These representations are not included in ISA 560.

Placement of Certain Requirements Within GAAS

Paragraph 5 of ISA 560 defines *the date of approval of the financial statements*. This definition was deleted from the definitions of section 560 because the ASB

did not believe it was necessary to its application and because the term is described in paragraph .A41 of section 700, *Forming an Opinion and Reporting on Financial Statements*.

Paragraphs 11(b)(ii) and 15(c)(i) of ISA 560 require that the new auditor's report not be dated earlier than the date of approval of the revised financial statements. This requirement is not included in section 560 because the requirements for dating the report are addressed in section 700.

As noted in the preceding section, the requirement in paragraph 9 of ISA 560 regarding written representations has been moved to section 580.

Paragraph 16 of ISA 560 requires the auditor to include in the new or revised auditor's report an emphasis-of-matter paragraph or other-matter paragraph in situations when the financial statements are revised after the financial statements have been issued. Paragraph 16 of ISA 710, *Comparative Information—Corresponding Figures and Comparative Financial Statements*, includes a similar requirement related to comparative financial statements and the auditor's opinion on prior period financial statements, when reporting on prior period financial statements in connection with the current period's audit, differs from the opinion previously expressed. Requirements have been placed in paragraph .16c of section 560 and paragraphs .13–.14 of section 708, *Consistency of Financial Statements*, that when considered together, achieve the intent of the requirements in paragraph 16 of ISA 560 and paragraph 16 of ISA 710.

The ASB believes such placements do not create differences between the ISAs as a whole and GAAS as a whole.

ISA 580, Written Representations, Compared to Section 580, Written Representations

Differences in Language

Paragraph 8 of ISA 580 describes management's responsibility in the case of a fair presentation framework. The ASB believes that all the acceptable financial reporting frameworks in the United States are fair presentation frameworks, and, thus, the requirements of section 580 reflect this perspective.

Requirements in the ISAs Not in GAAS

Paragraph 15 of ISA 580 contains a requirement related to situations in which law or regulation requires management to make written public statements about its responsibilities. The ASB believes that these situations are not applicable to nonissuers in the United States and, accordingly, such requirements are not included in section 580.

Differences Between Requirements

Paragraph 14 of ISA 580 requires that the date of the written representations be as near as practicable to, but not after, the date of the auditor's report on the financial statements. Paragraph .20 of section 580 requires that the date of the written representations be as of the date of the auditor's report, which is consistent with SAS No. 85, *Management Representations*, as amended. Paragraph .A27 of section 580 states that, occasionally, circumstances may prevent

management from signing the representation letter and returning it to the auditor on the date of the auditor's report. In these circumstances, the auditor may accept management's oral confirmation, on or before the date of the representations, that management has reviewed the final representation letter and will sign the representation letter without exception as providing sufficient appropriate audit evidence for the auditor to date the report. However, possession of the signed management representation letter prior to releasing the auditor's report is necessary because paragraph .21 of section 580 requires that the representations be in the form of a written letter from management.

Placement of Certain Requirements Within GAAS

The following ISAs contain requirements for requesting written representations:

- Paragraph 39 of ISA 240
- Paragraph 16 of ISA 250
- Paragraph 14 of ISA 450
- Paragraph 12 of ISA 501
- Paragraph 22 of ISA 540
- Paragraph 26 of ISA 550
- Paragraph 9 of ISA 560

Such requirements have been included in paragraphs .12–.19 of section 580. The ASB believes these requirements, which relate to representations that would be obtained for every audit engagement, are more appropriately placed in section 580. The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

ISA 600, Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors), Compared to Section 600, Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)

Differences in Language

All the requirements in ISA 600 are addressed to either the group engagement partner or the group engagement team. In section 600, requirements that, in the circumstances, may be appropriately fulfilled by the firm are addressed to the auditor of the group financial statements. These requirements, in paragraphs .16 and .29, relate to engagement acceptance and modification of the auditor's opinion on the group financial statements. The ASB believes that this does not create a substantive difference between the requirements of ISA 600 and the requirements of section 600.

Requirements in the ISAs Not in GAAS

ISA 600 does not permit the auditor's report on the group financial statements to make reference to a component auditor unless required by law or regulation

to include such reference. Section 600, consistent with SAS No. 1 section 543, *Part of Audit Performed by Other Independent Auditors*, as amended, permits the auditor, in the auditor's report on the group financial statements, to make reference to the audit of a component auditor.

The ASB believes that the ability to make reference to the report of another auditor is appropriate in the United States for several reasons. No compelling practice issues suggest a need to change an approach that has always been permitted by GAAS in the United States. The size, complexity, and diversity of some audits, in particular the audit of the federal government in which withdrawing from the engagement or disclaiming an opinion are not viable options, make eliminating the option to make reference to a component auditor problematic. In addition, the ASB believes that there will be considerable practical problems with access issues, particularly with equity investments, under the approach in ISA 600. The ASB believes that there is no difference in the effectiveness of the audit in either approach when the audits are conducted in accordance with GAAS. Accordingly, section 600 contains requirements and application and other explanatory material relating to making reference to the report of another auditor that are not in ISA 600, which results in substantive differences in the wording of the objectives, requirements, and application material between ISA 600 and section 600. A group audit conducted in accordance with GAAS when the group engagement partner determines to make reference to the audit performed by a component auditor would not comply with the ISAs. As such, in an audit conducted under both GAAS and the ISAs, the auditor of the group financial statements would need to assume responsibility for the work of all component auditors and, therefore, plan the audit accordingly to comply with both sets of standards.

When no reference is made to a component auditor in the auditor's report on the group financial statements, no substantive differences exist between the requirements ISA 600 and the requirements of section 600.

ISA 620, Using the Work of an Auditor's Expert, Compared to Section 620, Using the Work of an Auditor's Specialist

Differences in Language

Paragraph 12(b) of ISA 620 requires the auditor to evaluate the significant assumptions and methods of the auditor's specialist. The ASB expanded the wording of this requirement to more clearly articulate the auditor's responsibility in this regard. The ASB believes this does not create a difference between the application of ISA 620 and the application of section 620.

Requirements in the ISAs Not in GAAS

Paragraph 14 of ISA 620 contains a conditional requirement regarding the auditor's reference to the auditor's specialist in the auditor's report when such reference is required by law or regulation. Because such reference is not required by law or regulation in the United States, such requirement is not included in section 620.

ISA 700, Forming an Opinion and Reporting on Financial Statements, Compared to Section 700, Forming an Opinion and Reporting on Financial Statements

Requirements in the ISAs Not in GAAS

Compliance Framework

Paragraphs 7(b), 19, and 36 of ISA 700 discuss financial statements prepared in accordance with a compliance framework. GAAS do not include any references to compliance frameworks because the ASB believes that all financial reporting frameworks used in the United States are fair presentation frameworks. Accordingly, section 700 is written in the context of a complete set of general purpose financial statements prepared in accordance with a fair presentation framework.

Definitions

Paragraph 7(b) of ISA 700 defines *fair presentation framework*. Section 700 does not include this definition because fair presentation framework is already defined section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*. As noted previously, section 700 does not include any references to compliance frameworks; therefore, there is no need to emphasize the differences between a fair presentation framework and a compliance framework in section 700.

Use of True and Fair View

Paragraphs 27, 32, and 35(b) of ISA 700 indicate that the description in the auditor's report can refer either to the preparation and fair presentation of the financial statements or the preparation of financial statements that give a true and fair view. GAAS do not include any references to "true and fair view" because such wording has not historically been used in the United States; GAAS continues to require the use of "present fairly, in all material respects" in the auditor's opinion. The ASB believes this does not result in a difference in the application of the ISAs and the application of GAAS.

Introductory Paragraph

Paragraph 23(d) of ISA 700 requires the introductory paragraph in the auditor's report to refer to the summary of significant accounting policies and other explanatory information. Section 700 does not include this requirement because the ASB believes the notes to the financial statements are an integral part of the financial statements, and specific notes need not be identified in the introductory paragraph. Because the notes to the financial statements are an integral part of the financial statements, the ASB has included a reference to the related notes to the financial statements in the illustrative auditor's reports in exhibit A, "Illustrations of Auditor's Reports on Financial Statements," of section 700. The ASB believes this does not create a difference between the application of ISA 700 and the application of section 700.

Paragraph 24 of ISA 700 requires the report to use a term that is appropriate in the context of the legal framework in the relevant jurisdiction when the auditor's report discusses management's responsibilities. Section 700 does not

include this requirement because the ASB believes this paragraph relates to jurisdictions where the structure of the boards and corporate law are different than in the United States. In the United States, the ASB believes reference to management is sufficient. The ASB believes this does not create a difference between the application of ISA 700 and the application of section 700.

Auditor's Responsibility

Paragraph 30 of ISA 700 requires the auditor's report to include in the "Auditor's Responsibilities" section a statement that the auditing standards require that the auditor comply with ethical requirements. Paragraph .31 of section 700 does not contain this requirement because in the United States, auditors must comply with the ethical standards contained in the AICPA Code of Professional Conduct. Accordingly, the ASB believes that the title indicating that it is the report of an independent auditor affirms that the auditor has met the ethical requirements and, therefore, need not make an additional reference in the auditor's report. Further, the ASB was mindful to minimize the differences between the PCAOB form of the auditor's report and section 700. The ASB believes a reference to ethical requirements in one report and not the other would cause confusion in the United States and that such differentiation between the two reports is not necessary.

Information Presented in the Financial Statements

Paragraph 46 of ISA 700 contains requirements when supplementary information that is not required by the applicable financial reporting framework is presented with the audited financial statements. If such supplementary information is not clearly differentiated from the audited financial statements, ISA 700 requires the auditor to ask management to change how the unaudited supplementary information is presented and if management refuses to do so, the auditor should explain in the auditor's report that such supplementary information has not been audited. In the United States, section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*, addresses the auditor's responsibility when engaged to report on supplementary information. At the present time, no ISAs exist that correspond to section 725. GAAS do not include the requirement for the auditor to ask management to change how the unaudited supplementary information is presented when the supplementary information is not clearly differentiated from the audited financial statements.

Requirements in GAAS Not in the ISAs

Management's Responsibilities

Paragraph .28 of section 700 adds a requirement that the description of management's responsibilities for the financial statements in the auditor's report should not be referenced to a separate statement by management about such responsibilities if such a statement is included in a document containing the auditor's report.

Paragraph .41 of section 700 includes a requirement that sufficient appropriate audit evidence includes evidence that the audit documentation has been reviewed.

ISA 700 does not contain these requirements, which the ASB believes are appropriate for inclusion in GAAS to retain existing requirements.

Differences Between Requirements

Management's Responsibilities

Paragraph 26 of ISA 700 requires the report to describe management's responsibilities for the preparation of the financial statements. The description should include an explanation that management is responsible for the preparation of the financial statements in accordance with the applicable financial reporting framework and for such internal control as it determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. Section 700 requires the auditor's report to state that this responsibility includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements. The ASB believes section 700 better conveys management's responsibility in the United States.

Auditor's Report for Audits Conducted in Accordance With Both Auditing Standards of a Specific Jurisdiction and ISAs

Paragraphs 44–45 of ISA 700 contain requirements when an auditor is required to conduct an audit in accordance with the auditing standards of a specific jurisdiction but may additionally have complied with the ISAs in the conduct of the audit. Paragraphs .42–.43 of section 700 have been revised to reflect reporting conventions in the United States.

The ASB believes these differences do not create a difference between the application of ISA 700 and the application of section 700.

Placement of Certain Requirements Within GAAS

Comparative Financial Statements

Section 700 addresses comparative financial statements and comparative information, which are not addressed in ISA 700 but are addressed in ISA 710, *Comparative Information—Corresponding Figures and Comparative Financial Statements*. See the section "ISA 710, *Comparative Information—Corresponding Figures and Comparative Financial Statements*, Compared to Section 700, *Forming an Opinion and Reporting on Financial Statements*," following for a comparison of the requirements of section 700 and the requirements of ISA 710. ISA 710 addresses reporting in other jurisdictions that are not common to the United States, including corresponding figures that are not covered by the auditor's report. For simplicity, the ASB decided to include those requirements and application material that apply in the United States in section 700 rather than have a separate AU section.

Auditor's Report Prescribed by Law or Regulation

Paragraph 43 of ISA 700 discusses the auditor's report prescribed by law or regulation. Section 700 does not contain this section because it does not pertain to general purpose financial statements in the United States. Auditor's reports prescribed by law or regulation are addressed in section 800.

The ASB believes that the placement of these requirements does not create differences between the application of the ISAs as a whole and the application of GAAS as a whole.

ISA 705, Modifications to the Opinion in the Independent Auditor's Report, Compared to Section 705, Modifications to the Opinion in the Independent Auditor's Report

Requirements in the ISAs Not in GAAS

Compliance Framework

GAAS do not include any references to compliance frameworks because the ASB believes that all financial reporting frameworks used in the United States are fair presentation frameworks. Accordingly, the reference to compliance frameworks in paragraph 23(b) of ISA 705 has not been included in paragraph .24 of section 705.

Use of True and Fair View

GAAS do not include any references to "true and fair view" because such wording has not historically been used in the United States; GAAS continues to require the use of "present fairly, in all material respects" in the auditor's opinion. Accordingly, the references to "true and fair view" in paragraphs 23(a) and 24(a) of ISA 705 are not included in paragraphs .23–.24 of section 705. The ASB believes this does not result in a difference in the application of the ISAs and the application of GAAS.

Multiple Uncertainties

Paragraph 10 of ISA 705 requires the auditor to disclaim an opinion when, in extremely rare circumstances involving multiple uncertainties, the auditor concludes that, notwithstanding having obtained sufficient appropriate audit evidence regarding each of the individual uncertainties, it is not possible to form an opinion on the financial statements due to the potential interaction of the uncertainties and their possible cumulative effect on the financial statements. Section 705 does not include this requirement because the ASB believes that a disclaimer of opinion is appropriate only when the auditor is not able to obtain sufficient appropriate audit evidence. The ASB believes the guidance in paragraph 30 of SAS No. 58, *Reports on Audited Financial Statements*, as amended, is appropriate in these circumstances; therefore, paragraph .A13 of section 705 includes this guidance.

Differences Between Requirements

Management-Imposed Scope Limitation

Paragraph 13(b)(i) of ISA 705 requires the auditor to withdraw from the audit when the auditor is unable to obtain sufficient appropriate audit evidence, and the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be both material and pervasive so that a qualification of the opinion would be inadequate to communicate the gravity of the situation. Paragraph .13 of section 705 changes this requirement so that the auditor should consider withdrawal from the engagement under such circumstances. The ASB believes that in the United States, the auditor should not be required to withdraw from an engagement but, rather, should consider whether to withdraw or disclaim an opinion on the financial statements. The

ASB believes this does not create differences between the application of ISA 705 and the application of section 705.

ISA 706, Emphasis of Matter Paragraphs and Other Matter Paragraphs in the Independent Auditor's Report, Compared to Section 706, Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report

There are no substantive differences between ISA 706 and section 706.

ISA 710, Comparative Information—Corresponding Figures and Comparative Financial Statements, Compared to Section 700, Forming an Opinion and Reporting on Financial Statements

Differences in Language

The definitions of *comparative information* and *comparative financial statements* in paragraph 6(a) and (c) of ISA 710 have been revised to reflect U.S. conventions.

Requirements in the ISAs Not in GAAS

ISA 710 addresses reporting in other jurisdictions that are not common in the United States, including corresponding figures that are not covered by the auditor's report. GAAS do not include any references to corresponding figures because these are not common in the United States.

Requirements in GAAS Not in the ISAs

Comparative Information

Paragraph .45 of section 700 requires that when expressing an opinion on all periods presented, the auditor should update the report on the individual financial statements of one or more prior periods presented on a comparative basis with those of the current period. The auditor's report on comparative financial statements should not be dated earlier than the date on which the auditor has obtained sufficient appropriate audit evidence on which to support the opinion for the most recent audit.

Paragraph .47 of section 700 contains a requirement that if comparative information is presented, and the entity requests the auditor to express an opinion on all periods presented, the auditor should consider whether the information included for the prior period contains sufficient detail to constitute a fair presentation in accordance with the applicable financial reporting framework.

Audit Procedures

Paragraph .48 of section 700 contains a requirement that the audit procedures in paragraphs .49–.51 of section 700 should apply regardless of whether com-

parative financial statements or comparative information is presented for the prior period.

Prior Period Financial Statements

Paragraph .53 of section 700 includes requirements on what to disclose in an other-matter paragraph when reporting on prior period financial statements in connection with the current period's audit, and the auditor's opinion on such prior period financial statements differs from the opinion the auditor previously expressed.

Paragraph .54 of section 700 adds "and the predecessor auditor's report on the prior period's financial statements is not reissued" to the requirement. This was added to clarify that if the report was reissued, section 560 would apply. In addition, a requirement was added to include in the other-matter paragraph the nature of any emphasis-of-matter paragraph or other-matter paragraph included in the predecessor auditor's report, if any.

Prior Period Financial Statements Not Audited

Paragraphs .56–.57 of section 700 include requirements on how to report when prior period financial statements were not audited, reviewed, or compiled, to better clarify what is covered in section 700 related to comparative financial statements and comparative information.

ISA 710 does not contain these requirements. The ASB believes these requirements and related application material are appropriate for inclusion in GAAS.

Placement of Certain Requirements Within GAAS

ISA 710 addresses reporting in other jurisdictions that are not common to the United States, including corresponding figures that are not covered by the auditor's report. For simplicity, the ASB decided to include certain requirements and application material for comparative financial statements and comparative information in section 700 rather than having a separate AU section. The ASB believes that the requirements in section 700 related to comparative financial statements and comparative information are consistent with the intent of ISA 710 and that the placement of these requirements does not create differences between the application of the ISAs as a whole and the application of GAAS as a whole.

ISA 720, The Auditor's Responsibilities Relating to Other Information in Documents Containing Audited Financial Statements, Compared to Section 720, Other Information in Documents Containing Audited Financial Statements

Differences in Language

The ASB has made various changes to the language throughout section 720, in comparison with ISA 720. The changes to section 720 include the following:

- In paragraph .01, clarifying that "auditor's opinion" is the opinion on the financial statements.
- In paragraph .02, adding clarifying language that documents containing audited financial statements refer to "annual reports of governments and organizations for charitable or philanthropic purposes that are available to the public" and that section 720 also applies to "other documents to which the auditor, at management's request, devotes attention."
- In paragraph .05, deleting the phrase "either by law, regulation or custom" from the definition of *other information* to avoid confusion with required supplementary information.
- In paragraph .11, adding the phrase "other-matter" to clarify the report modification.
- In paragraph .16, adding the wording "by the entity in determining whether such matter is a material misstatement of fact" to clarify that the advice is received by the entity.

Such changes have been made to make section 720 easier to read and apply. The ASB believes that such changes do not create differences between the application of ISA 720 and the application of section 720.

Differences Between Requirements

Section 720 clarifies that the auditor's objective is to respond appropriately (in paragraph .04), and the requirement is to read the other information (in paragraph .06) when the auditor becomes aware that documents containing audited financial statements and the auditor's report thereon include other information that could undermine the credibility of those financial statements and the auditor's report. The objective in ISA 720 and the corresponding requirement are not specifically limited to documents of which the auditor is aware. However, ISA 720 states that "documents containing audited financial statements" refers to annual reports (or similar documents) that are issued to owners (or similar stakeholders) containing audited financial statements and the auditor's report thereon. ISA 720 further states that it may be applied, adapted as necessary in the circumstances, to other documents containing audited financial statements. The ASB believes that the language added to section 720 limiting the auditor's responsibilities clarifies the intent of the objective and the requirement in ISA 720 and is appropriate in the U.S. legal environment.

Section 720 applies the requirement in paragraph .07 for the auditor to make appropriate arrangements with management or those charged with governance to obtain the other information, and the requirements in paragraphs .10–.14 regarding the auditor's identification of material inconsistencies, to the report release date, but ISA 720 applies the corresponding requirements to the date of the auditor's report. The ASB determined that the report release date, as defined in GAAS, is more appropriate in the U.S. environment.

ISA 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance with Special Purpose Frameworks*, Compared to Section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*

Differences in Language

Definitions

Paragraph 6 of ISA 800 defines a *special purpose framework* as a financial reporting framework (a fair presentation framework or a compliance framework) designed to meet the financial information needs of specific users. Section 800 defines a special purpose framework as one of the following bases of accounting: cash, tax, regulatory, and contractual bases of accounting, all of which are fair presentation frameworks in the United States.

Considerations When Planning and Performing the Audit

Paragraph 9 of ISA 800 requires the auditor to determine whether application of the ISAs requires special consideration in the circumstances of the engagement. However, paragraph .12 of section 800 requires the auditor to adapt all AU sections relevant to the audit as necessary in the circumstances of the engagement. The ASB believes that the requirement in section 800 is consistent with the intent of ISA 800 and that such changes do not create differences between the application of ISA 800 and the application of section 800.

Requirements in GAAS Not in the ISAs

Considerations When Accepting the Engagement

Paragraph .11 of section 800 includes a requirement for the auditor, when accepting the engagement, to obtain the agreement of management that it acknowledges and understands its responsibility to include all informative disclosures, including specified disclosures, that are appropriate for the special purpose framework used to prepare the entity's financial statements.

Description of the Applicable Financial Reporting Framework

Paragraph .15 of section 800 includes a requirement for the auditor to evaluate whether the financial statements are suitably titled, include a summary of significant accounting policies, and adequately describe how the special purpose framework differs from GAAP.

Fair Presentation

If the special purpose financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP, paragraph .17 of section 800 includes a requirement for the auditor to evaluate whether the financial statements include informative disclosures similar to those required by GAAP. Paragraph .17 of section 800 also requires the auditor to evaluate whether additional disclosures, beyond those specifically required

by the framework, related to matters that are not specifically identified on the face of the financial statements or other disclosures may be necessary for the financial statements to achieve fair presentation.

Restricting the Use of the Auditor's Report

Paragraph .20 of section 800 requires the auditor's report to include an other-matter paragraph that restricts the use of the auditor's report to those within the entity, the parties to the contract or agreement, or the regulatory agencies to whose jurisdiction the entity is subject when the special purpose financial statements are prepared in accordance with a contractual or regulatory basis of accounting, except for the circumstances described in paragraph .21 of section 800. In accordance with paragraph .21 of section 800, the other-matter paragraph is not required when the special purpose financial statements are prepared in accordance with a regulatory basis of accounting and the special purpose financial statements together with the auditor's report are intended for general use. In this circumstance, the auditor is required to express an opinion on whether the financial statements are prepared in accordance with GAAP and, in a separate paragraph, an opinion on whether the financial statements are prepared in accordance with the special purpose framework.

Auditor's Report Prescribed by Law or Regulation

Paragraphs .22–.23 of section 800 include requirements when the auditor is required by law or regulation to use a specific layout, form, or wording of the auditor's report.

These requirements are not included in ISA 800.

Differences Between Requirements

Auditor's Report

Paragraph 13 of ISA 800 requires the auditor's report to describe the purpose for which the financial statements are prepared and, if necessary, the intended users, or refer to a note in the special purpose financial statements that contains that information. Section 800 does not require this description when the special purpose financial statements are prepared in accordance with the cash or tax basis of accounting.

Alerting Readers That the Financial Statements Are Prepared in Accordance With a Special Purpose Framework

Paragraph 14 of ISA 800 requires the auditor's report to include an emphasis-of-matter paragraph alerting users of the auditor's report that the financial statements are prepared in accordance with a special purpose framework and that, as a result, the financial statements may not be suitable for another purpose. Section 800 does not require the auditor's report to state that the "financial statements may not be suitable for another purpose." However, paragraph .19c of section 800 requires the emphasis-of-matter paragraph to state that the special purpose framework is a basis of accounting other than GAAP. In accordance with paragraph .21 of section 800, the emphasis-of-matter paragraph is not required when the special purpose financial statements are prepared in accordance with a regulatory basis of accounting and the special purpose financial statements together with the auditor's report are intended for general use.

ISA 805, Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts or Items of a Financial Statement, Compared to Section 805, Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement

Requirements in the ISAs Not in GAAS

Form of Opinion

Paragraph 9 of ISA 805 requires the auditor to consider whether the expected form of opinion is appropriate in the circumstances. This requirement was not included in section 805 because the circumstances to which it relates are not applicable in the United States.

Requirements in GAAS Not in the ISAs

Considerations When Accepting the Engagement and Planning and Performing the Audit

Paragraph .10 of section 805 requires the auditor to obtain an understanding of (a) the purpose for which the single financial statement or specific element of a financial statement is prepared, (b) the intended users, and (c) the steps taken by management to determine that the application of the financial reporting framework is acceptable in the circumstances. The ASB believes this requirement is necessary in determining the acceptability of the financial reporting framework that is applicable to a single financial statement or a specific element of a financial statement.

Paragraph .09 of section 805 requires the auditor to determine whether the auditor will be able to perform procedures on interrelated items as a consideration when accepting the engagement. Paragraph .13 of section 805 includes a requirement for the auditor to perform procedures on interrelated items as necessary to meet the objective of the audit. In the case of an audit of a specific element that is, or is based upon, the entity's stockholders' equity or net income (or the equivalents thereto), paragraph .13 of section 805 further requires the auditor to perform procedures necessary to obtain sufficient appropriate audit evidence about financial position, or financial position and results of operations, respectively, because of the interrelationship between the element and the balance sheet accounts and the income statement accounts.

Materiality

Paragraph .14 of section 805 requires the auditor to determine materiality for the single financial statement being reported on, and in the case of an audit of one or more specific elements of a financial statement, materiality for each individual element reported on.

Reporting on an Incomplete Presentation but One That Is Otherwise in Accordance With GAAP

When the auditor reports on an incomplete presentation but one that is otherwise in accordance with GAAP, paragraph .24 of section 805 requires the

auditor to include an emphasis-of-matter paragraph in the auditor's report, alerting users as to the purpose of the presentation and that the presentation is incomplete. ISA 805 does not address reporting on incomplete presentations that are otherwise in accordance with the applicable financial reporting framework.

ISA 805 does not contain these requirements.

Differences Between Requirements

Reporting on the Entity's Complete Set of Financial Statements and a Single Financial Statement or a Specific Element of Those Financial Statements

Paragraph 12 of ISA 805 requires the auditor to express a separate opinion for each engagement when undertaking an engagement to report on a single financial statement or a specific element of a financial statement in conjunction with an engagement to audit the entity's complete set of financial statements. Paragraph .16 of section 805 requires that the separate opinions be in separate auditor's reports and that the report on a specific element include certain information about the auditor's report on the entity's complete set of financial statements.

Paragraph .20 of section 805 address the case of an audit of a specific element of a financial statement when the opinion in the auditor's report on an entity's complete set of financial statements is modified and the modification of the auditor's opinion is relevant to the audit of the specific element. In such cases, the auditor is required to express either an adverse opinion or disclaim an opinion on the specific element, depending on the reasons for the modification of the auditor's opinion on the complete set of financial statements. ISA 805 does not specifically require an adverse opinion or disclaimer of opinion in such circumstances.

Paragraph 16 of ISA 805 addresses situations when the auditor concludes that it is necessary to express an adverse opinion or disclaim an opinion on the entity's complete set of financial statements as a whole, but in the context of a separate audit of a specific element that is included in those financial statements, the auditor nevertheless considers it appropriate to express an unmodified opinion on that element. In addition to the matters in ISA 805, paragraph .21 of section 805 precludes such reporting when the specific element is, or is based upon, the entity's stockholders' equity or net income (or the equivalent thereto).

ISA 810, Engagements to Report on Summary Financial Statements, Compared to Section 810, Engagements to Report on Summary Financial Statements

Differences in Language

Paragraph .05 of section 810 includes more specificity than is in paragraph 3 of ISA 810, including an objective to perform the procedures necessary as the basis for the auditor's opinion on the summary financial statements, and a description of the opinion. The ASB believes that these changes do not create differences between the intent of ISA 810 and the intent of section 810.

Paragraph 6(b)(ii) of ISA 810 requires that management make the audited financial statements available to the intended users of the summary financial statements without undue difficulty. Section 810 requires in paragraph .09b(ii)

that management make the audited financial statements readily available. This is not a substantive difference between ISA 810 and the section 810. The terminology in section 810 aligns with section 930, *Interim Financial Information*.

If the summary financial statements contain comparatives that were reported on by another auditor, both ISA 810 and section 810 require the auditor's report on the summary financial statements to contain certain matters. Such matters are included directly in paragraph .23 of section 810 and incorporated in paragraph 22 of ISA 810 by reference to ISA 710.

Requirements in the ISAs Not in GAAS

Paragraphs 6–7 of ISA 810 include requirements pertaining to (a) criteria established by law or regulation, (b) situations in which law or regulation does not require the audited financial statements to be made available, and (c) accepting the engagement when required by law or regulation to do so. These requirements were not included in section 810 because they are not applicable to the United States.

Paragraph 9 of ISA 810 permits the use of two different phrases when opining on summary financial statements. Paragraph .14 of section 810 only includes one of these phrases, which is consistent with existing practice.

Paragraphs 10–11 of ISA 810 address situations when regulation prescribes the wording of the opinion on the summary financial statements in terms that are different from those described in ISA 810. These requirements were not included in section 810 as they are not applicable in the United States.

Paragraph 15 of ISA 810 requires the auditor to evaluate the appropriateness of using a different addressee, if the addressee of the summary financial statements is not the same as the addressee of the auditor's report on the audited financial statements. Section 810 does not include this requirement because the ASB believes having different addressees is never appropriate.

Requirements in GAAS Not in the ISAs

Paragraph 6(a) of ISA 810 requires the auditor to determine whether the applied criteria are acceptable. The requirement in paragraph .09a of section 810 was expanded to clarify what constitutes acceptable criteria.

Paragraph .09b(iii) of section 810 requires the auditor to obtain the agreement of management that it acknowledges and understands its responsibility to provide the auditor with written representations, as described in paragraph .12 of section 810. ISA 810 does not include such a requirement.

Paragraphs .12–.13 of section 810 include requirements for the auditor to request management to provide written representations related to the summary financial statements. Such representations are necessary in the United States, particularly in situations when the auditor's report on the summary financial statements is dated later than the auditor's report on the audited financial statements. ISA 810 does not include any requirements for written representations.

Paragraph .16 of section 810 was expanded to require the auditor to withdraw from the engagement to report on the summary financial statements when withdrawal is possible under applicable law or regulation and when the auditor's report on the audited financial statements contains an adverse opinion or a disclaimer of opinion. Paragraph .16d of section 810 further clarifies the reporting elements when the auditor issues a report on the summary financial

statements in those situations when it is not possible to withdraw from the engagement.

Paragraph .17e(i–ii) of section 810 includes additional elements for the auditor's report on the summary financial statements with regard to the nature of the procedures that were performed by the auditor on the summary financial statements, including that the auditor did not perform audit procedures regarding the audited financial statements after the date of the report on those financial statements if the date of the auditor's report on the summary financial statements is later than the date of the auditor's report on the audited financial statements.

Paragraph .24 of section 810 includes an additional reporting requirement if the summary financial statements contain comparatives that were not reported on by the auditor or another auditor.

Paragraph .27 of section 810 includes additional requirements related to other information, which require the auditor to discuss the matter with management if the auditor identifies a material inconsistency and to consider appropriate further action in the circumstances if the auditor identifies a material inconsistency or becomes aware of an apparent material misstatement of fact.

Differences Between Requirements

Paragraph 17 of ISA 810 addresses the reporting elements when the auditor's report on the audited financial statements contains a qualified opinion, an emphasis-of-matter paragraph, or an other-matter paragraph. In ISA 810, the requirement in this paragraph only applies when the auditor expresses an unmodified opinion on the summary financial statements. In section 810, the requirement in paragraph .20 applies when the auditor expresses either an unmodified opinion or an adverse opinion on the summary financial statements.

Section 810, in paragraph .21, eliminated the reference to the restriction on distribution of the auditor's report in paragraph 20 of ISA 810. In the United States, use of an auditor's report is restricted, not its distribution. An auditor is not responsible for controlling management's distribution of restricted-use reports.

901	.28	Amended by SAS No. 43	August 1982

¹ Paragraphs reflect the conforming changes necessary due to the issuance of Statement on Auditing Standards (SAS) Nos. 53–62.

² The Auditing Standards Board (ASB) rescinded SAS No. 21, *Segment Information*, effective for audits of financial statements to which Financial Accounting Standards Board (FASB) Statement No. 131, *Disclosures about Segments of an Enterprise and Related Information*, has been applied. FASB Statement No. 131 became effective for fiscal years beginning after December 15, 1997.

³ The ASB has withdrawn SAS No. 75 and its auditing interpretation, effective for audits of financial statements for periods ending on or after June 30, 2001, in order to consolidate the guidance applicable to agreed-upon procedures engagements in professional standards. For guidance relating to performing and reporting on agreed-upon procedures engagements, practitioners should refer to AT section 201, *Agreed-Upon Procedures Engagements*.

Auditing Standards Board

CLARITY PROJECT

The AICPA's Auditing Standards Board (ASB) has undertaken a significant effort to make U.S. generally accepted auditing standards easier to read, understand, and apply. The ASB is redrafting all of the auditing sections in *Codification of Statements on Auditing Standards*, applying the clarity drafting conventions, and converging the material with the International Standards on Auditing.

For more information about this project, read the ASB's Clarification and Convergence memorandum that is available at www.aicpa.org/ClarityMemo.

Clarified Statements on Auditing Standards (SASs) are issued as final as they are completed. All clarified SASs will have the same effective date, which is expected to apply to audits of financial statements for periods ending after December 15, 2012. Upon the issuance of all clarified SASs, one SAS will be issued containing all clarified SASs in codified format.

The ASB recognizes that conforming changes may need to be made to approved redrafted standards as a result of the clarification of other standards. The ASB expects these changes will be minor (wording, placement of material) rather than substantial. Thus, the benefits of making the standards available as early as possible support the release of redrafted standards as they are finalized.

Access the full text of final clarified SASs at www.aicpa.org/FinalClaritySASs.

The following clarified SASs have been issued as final:

- *Preface to Codification of Statements on Auditing Standards, Principles Underlying an Audit Conducted in Accordance With Generally Accepted Auditing Standards*
- *Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*
- *Planning an Audit*
- *Materiality in Planning and Performing an Audit*
- *Evaluation of Misstatements Identified During the Audit*
- *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement (Redrafted)*
- *Opening Balances—Initial Audit Engagements, Including Reaudit Engagements*
- *Terms of Engagement*
- *Consideration of Fraud in a Financial Statement Audit (Redrafted)*
- *Consideration of Laws and Regulations in an Audit of Financial Statements*
- *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained (Redrafted)*
- *Audit Considerations Relating to an Entity Using a Service Organization*
- *Communicating Internal Control Related Matters Identified in an Audit (Redrafted)*

- *Audit Evidence (Redrafted)*
 - *Analytical Procedures (Redrafted)*
 - *External Confirmations*
 - *Written Representations*
 - *Related Parties (Redrafted)*
 - *Using the Work of an Auditor's Specialist*
 - *Audit Evidence—Specific Considerations for Selected Items*
 - *Audit Documentation (Redrafted)*
 - *Auditing Accounting Estimates, Including Fair Value Accounting Estimates and Related Disclosures*
 - *Audit Sampling (Redrafted)*
 - *The Auditor's Communication With Those Charged With Governance (Redrafted)*
 - *Consideration of Omitted Procedures After the Report Release Date*
 - *Forming an Opinion and Reporting on Financial Statements*
 - *Consistency of Financial Statements*
 - *Modifications to the Opinion in the Independent Auditor's Report*
 - *Emphasis-of-Matter Paragraphs and Other—Matter Paragraphs in the Independent Auditor's Report*
 - *Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)*
 - *Special Considerations—Audits of Financial Statements Prepared in Accordance with Special Purpose Frameworks*
 - *Engagements to Report on Summary Financial Statements*
 - *Subsequent Events and Subsequently Discovered Facts*
 - *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*
 - *Reports on Application of Requirements of an Applicable Financial Reporting Framework*

ATTESTATION STANDARDS

Introduction

The accompanying "attestation standards" provide guidance and establish a broad framework for a variety of attest services increasingly demanded of the accounting profession. The standards and related interpretive commentary are designed to provide professional guidelines that will enhance both consistency and quality in the performance of such services.

For years, attest services generally were limited to expressing a positive opinion on historical financial statements on the basis of an audit in accordance with generally accepted auditing standards (GAAS). However, certified public accountants increasingly have been requested to provide, and have been providing, assurance on representations other than historical financial statements and in forms other than the positive opinion. In responding to these needs, certified public accountants have been able to generally apply the basic concepts underlying GAAS to these attest services. As the range of attest services has grown, however, it has become increasingly difficult to do so.

Consequently, the main objective of adopting these attestation standards and the related interpretive commentary is to provide a general framework for and set reasonable boundaries around the attest function. As such, the standards and commentary (a) provide useful and necessary guidance to certified public accountants engaged to perform new and evolving attest services and (b) guide AICPA standard-setting bodies in establishing, if deemed necessary, interpretive standards for such services.

The attestation standards are a natural extension of the ten generally accepted auditing standards. Like the auditing standards, the attestation standards deal with the need for technical competence, independence in mental attitude, due professional care, adequate planning and supervision, sufficient evidence, and appropriate reporting; however, they are much broader in scope. (The eleven attestation standards are listed below.) Such standards apply to a growing array of attest services. These services include, for example, reports on descriptions of systems of internal control; on descriptions of computer software; on compliance with statutory, regulatory, and contractual requirements; on investment performance statistics; and on information supplementary to financial statements. Thus, the standards have been developed to be responsive to a changing environment and the demands of society.

These attestation standards apply only to attest services rendered by a certified public accountant in the practice of public accounting—that is, a practitioner as defined in footnote 1 of paragraph .01.

The attestation standards do not supersede any of the existing standards in Statements on Auditing Standards (SASs) and Statements on Standards for Accounting and Review Services (SSARs). Therefore, the practitioner who is engaged to perform an engagement subject to these existing standards should follow such standards.

Attestation Standards

General Standards

1. The practitioner must have adequate technical training and proficiency to perform in the attestation engagement.
2. The practitioner must have adequate knowledge of the subject matter.
3. The practitioner must have reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users.
4. The practitioner must maintain independence in mental attitude in all matters relating to the engagement.
5. The practitioner must exercise due professional care in the planning and performance of the engagement and the preparation of the report.

Standards of Fieldwork

1. The practitioner must adequately plan the work and must properly supervise any assistants.
2. The practitioner must obtain sufficient evidence to provide a reasonable basis for the conclusion that is expressed in the report.

Standards of Reporting

1. The practitioner must identify the subject matter or the assertion being reported on and state the character of the engagement in the report.
2. The practitioner must state the practitioner's conclusion about the subject matter or the assertion in relation to the criteria against which the subject matter was evaluated.
3. The practitioner must state all of the practitioner's significant reservations about the engagement, the subject matter, and, if applicable, the assertion related thereto in the report.
4. The practitioner must state in the report that the report is intended solely for the information and use of the specified parties under the following circumstances:
 - When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria
 - When the criteria used to evaluate the subject matter are available only to specified parties
 - When reporting on subject matter and a written assertion has not been provided by the responsible party
 - When the report is on an attestation engagement to apply agreed-upon procedures to the subject matter

[As amended, effective for attest reports issued on or after June 30, 1999, by Statement on Standards for Attestation Engagements No. 9. As amended, effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001, by Statement on Standards for Attestation Engagements No. 10. Revised, December 2006, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 14.]

STATEMENTS ON STANDARDS FOR ATTESTATION ENGAGEMENTS

The following is a Codification of currently effective Statements on Standards for Attestation Engagements (SSAEs) and related Attestation Interpretations. Statements on Standards for Attestation Engagements are issued by senior technical bodies of the AICPA designated to issue pronouncements on attestation matters. Rule 202, Compliance With Standards, of the AICPA Code of Professional Conduct requires an AICPA member who performs an attest engagement (a practitioner) to comply with such pronouncements. A practitioner is required to comply with an unconditional requirement in all cases in which the circumstances exist to which the unconditional requirement applies. A practitioner is also required to comply with a presumptively mandatory requirement in all cases in which the circumstances exist to which the presumptively mandatory requirement applies; however, in rare circumstances, the practitioner may depart from a presumptively mandatory requirement provided the practitioner documents his or her justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the objectives of the presumptively mandatory requirement.

Attestation Interpretations are recommendations on the application of SSAEs in specific circumstances, including engagements for entities in specialized industries, issued under the authority of AICPA senior technical bodies. An interpretation is not as authoritative as a pronouncement; however, if a practitioner does not apply an attestation interpretation, the practitioner should be prepared to explain how he or she complied with the SSAE provisions addressed by such attestation interpretation. The specific terms used to define professional requirements in the SSAEs are not intended to apply to interpretations because interpretations are not attestation standards. It is the Auditing Standards Board's intention to make conforming changes to the interpretations over the next several years to remove any language that would imply a professional requirement where none exists.

AT Section 20

Defining Professional Requirements in Statements on Standards for Attestation Engagements

Source: SSAE No. 13.

Effective December 2005.

Introduction

.01 This section sets forth the meaning of certain terms used in Statements on Standards for Attestation Engagements (SSAEs) issued by the Auditing Standards Board in describing the professional requirements imposed on practitioners.

Professional Requirements

.02 SSAEs contain professional requirements together with related guidance in the form of explanatory material. Practitioners have a responsibility to consider the entire text of an SSAE in carrying out their work on an engagement and in understanding and applying the professional requirements of the relevant SSAEs.

.03 Not every paragraph of an SSAE carries a professional requirement that the practitioner is expected to fulfill. Rather, the professional requirements are communicated by the language and the meaning of the words used in the SSAEs.

.04 SSAEs use two categories of professional requirements, identified by specific terms, to describe the degree of responsibility they impose on practitioners, as follows:

- *Unconditional requirements.* The practitioner is required to comply with an unconditional requirement in all cases in which the circumstances exist to which the unconditional requirement applies. SSAEs use the words *must* or *is required* to indicate an unconditional requirement.
- *Presumptively mandatory requirements.* The practitioner is also required to comply with a presumptively mandatory requirement in all cases in which the circumstances exist to which the presumptively mandatory requirement applies; however, in rare circumstances, the practitioner may depart from a presumptively mandatory requirement provided the practitioner documents his or her justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the objectives of the presumptively mandatory requirement. SSAEs use the word *should* to indicate a presumptively mandatory requirement.

If an SSAE provides that a procedure or action is one that the practitioner "should consider," the consideration of the procedure or action is presumptively

required, whereas carrying out the procedure or action is not. The professional requirements of an SSAE are to be understood and applied in the context of the explanatory material that provides guidance for their application.

Explanatory Material

.05 Explanatory material is defined as the text within an SSAE (excluding any related appendixes or interpretations¹) that may:

- Provide further explanation and guidance on the professional requirements; or
- Identify and describe other procedures or actions relating to the activities of the practitioner.

.06 Explanatory material that provides further explanation and guidance on the professional requirements is intended to be descriptive rather than imperative. That is, it explains the objective of the professional requirements (where not otherwise self-evident); it explains why the practitioner might consider or employ particular procedures, depending on the circumstances; and it provides additional information for the practitioner to consider in exercising professional judgment in performing the engagement.

.07 Explanatory material that identifies and describes other procedures or actions relating to the activities of the practitioner is not intended to impose a professional requirement for the practitioner to perform the suggested procedures or actions. Rather, these procedures or actions require the practitioner's attention and understanding; how and whether the practitioner carries out such procedures or actions in the engagement depends on the exercise of professional judgment in the circumstances consistent with the objective of the standard. The words *may*, *might*, and *could* are used to describe these actions and procedures.

Application

.08 The provisions of this section are effective upon issuance.²

¹ Interpretive publications differ from explanatory material. Interpretive publications, for example, interpretations of the Statements on Standards for Attestation Engagements (SSAEs), appendixes to the SSAEs and AICPA auditing Statements of Position, are issued under the authority of the Auditing Standards Board (ASB). In contrast, explanatory material is always contained within the standards sections of the SSAE and is meant to be more descriptive in nature.

² The specific terms used to define professional requirements in this attestation standard are not intended to apply to any interpretive publications issued under the authority of the ASB, for example, interpretations of the SSAEs, or appendixes to the SSAEs, since interpretive publications are not attestation standards. (See footnote 1.) It is the ASB's intention to make conforming changes to the interpretive publications over the next several years to remove any language that would imply a professional requirement where none exists. It is the ASB's intention that such language would only be used in the standards sections of the SSAEs.

AT Section 50

SSAE Hierarchy

Source: SSAE No. 14.

Effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006.

.01 A practitioner plans, conducts, and reports the results of an attestation engagement in accordance with attestation standards. Attestation standards provide a measure of quality and the objectives to be achieved in the attestation engagement. Attestation procedures differ from attestation standards. Attestation procedures are acts that the practitioner performs during the course of the attestation engagement to comply with the attestation standards.

Attestation Standards

.02 The general, fieldwork, and reporting standards (the 11 attestation standards) approved and adopted by the membership of the AICPA, as amended by the AICPA Auditing Standards Board (ASB), are as follows:

General Standards

1. The practitioner must have adequate technical training and proficiency to perform the attestation engagement.
2. The practitioner must have adequate knowledge of the subject matter.
3. The practitioner must have reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users.
4. The practitioner must maintain independence in mental attitude in all matters relating to the engagement.
5. The practitioner must exercise due professional care in the planning and performance of the engagement and the preparation of the report.

Standards of Fieldwork

1. The practitioner must adequately plan the work and must properly supervise any assistants.
2. The practitioner must obtain sufficient evidence to provide a reasonable basis for the conclusion that is expressed in the report.

Standards of Reporting¹

1. The practitioner must identify the subject matter or the assertion being reported on and state the character of the engagement in the report.
2. The practitioner must state the practitioner's conclusion about the subject matter or the assertion in relation to the criteria against which the subject matter was evaluated in the report.
3. The practitioner must state all of the practitioner's significant reservations about the engagement, the subject matter, and, if applicable, the assertion related thereto in the report.

¹ The reporting standards apply only when the practitioner issues a report.

4. The practitioner must state in the report that the report is intended solely for the information and use of the specified parties under the following circumstances:
 - When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria.
 - When the criteria used to evaluate the subject matter are available only to specified parties.
 - When reporting on subject matter and a written assertion has not been provided by the responsible party.
 - When the report is on an attestation engagement to apply agreed-upon procedures to the subject matter.

Footnote 1 is also to be added to the heading *Standards of Reporting* preceding paragraph .63 of section 101, *Attest Engagements*.

.03 Statements on Standards for Attestation Engagements (SSAEs) are issued by senior technical bodies of the AICPA designated to issue pronouncements on attestation matters. Rule 202, *Compliance With Standards* [ET section 202.01], of the AICPA Code of Professional Conduct requires an AICPA member who performs an attestation engagement (the practitioner) to comply with such pronouncements.² SSAEs are developed and issued through a due process that includes deliberation in meetings open to the public, public exposure of proposed SSAEs, and a formal vote. The SSAEs are codified within the framework of the 11 attestation standards.

.04 The nature of the 11 attestation standards and the SSAEs requires the practitioner to exercise professional judgment in applying them. When, in rare circumstances, the practitioner departs from a presumptively mandatory requirement, the practitioner must document in the working papers his or her justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the objectives of the presumptively mandatory requirement.³

Attestation Interpretations

.05 Attestation interpretations consist of Interpretations of the SSAEs, appendixes to the SSAEs,⁴ attestation guidance included in AICPA Audit and Accounting Guides, and AICPA attestation Statements of Position. Attestation interpretations are recommendations on the application of SSAEs in specific circumstances, including engagements for entities in specialized industries, issued under the authority of the AICPA senior technical bodies.

.06 The practitioner should be aware of and consider attestation interpretations applicable to the attestation engagement. If the practitioner does not apply the attestation guidance included in an applicable attestation interpretation, the practitioner should be prepared to explain how he or she complied with the SSAAE provisions addressed by such attestation guidance.

² In certain engagements, the practitioner also may be subject to other attestation requirements, such as *Government Auditing Standards* issued by the comptroller general of the United States.

³ The term *presumptively mandatory requirement* is defined in section 20, *Defining Professional Requirements in Statements on Standards for Attestation Engagements*.

⁴ Appendixes to Statements on Standards for Attestation Engagements (SSAEs) referred to in paragraph .05 of this section do not include previously issued appendixes to original pronouncements that, when adopted, modified other SSAEs.

Other Attestation Publications

.07 Other attestation publications include AICPA attestation publications not referred to above; attestation articles in the *Journal of Accountancy* and other professional journals; attestation articles in the *AICPA CPA Letter*; continuing professional education programs and other instruction materials, textbooks, guide books, attest programs, and checklists; and other attestation publications from state CPA societies, other organizations, and individuals.⁵ Other attestation publications have no authoritative status; however, they may help the practitioner understand and apply the SSAEs.

.08 A practitioner may apply the attestation guidance included in an other attestation publication if he or she is satisfied that, in his or her judgment, it is both relevant to the circumstances of the attestation engagement, and appropriate. In determining whether an other attestation publication is appropriate, the practitioner may wish to consider the degree to which the publication is recognized as being helpful in understanding and applying SSAEs and the degree to which the issuer or author is recognized as an authority in attestation matters. Other attestation publications published by the AICPA that have been reviewed by the AICPA Audit and Attest Standards Staff are presumed to be appropriate.

.09 This section is effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006.

⁵ The practitioner is not expected to be aware of the full body of other attestation publications.

AT Section 101

Attest Engagements

Source: SSAE No. 10; SSAE No. 11; SSAE No. 12; SSAE No. 14.

See section 9101 for interpretations of this section.

Effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001, unless otherwise indicated.

Applicability

.01 This section applies to engagements, except for those services discussed in paragraph .04, in which a certified public accountant in the practice of public accounting¹ (hereinafter referred to as a *practitioner*) is engaged to issue or does issue an examination, a review, or an agreed-upon procedures report on subject matter, or an assertion about the subject matter (hereafter referred to as *the assertion*), that is the responsibility of another party.²

.02 This section establishes a framework for attest³ engagements performed by practitioners and for the ongoing development of related standards. For certain subject matter, specific attestation standards have been developed to provide additional requirements for engagement performance and reporting.

.03 When a practitioner undertakes an attest engagement for the benefit of a government body or agency and agrees to follow specified government standards, guides, procedures, statutes, rules, and regulations, the practitioner is obliged to follow those governmental requirements as well as the applicable attestation standards.

.04 Professional services provided by practitioners that are not covered by this SSAE include the following:

- a. Services performed in accordance with Statements on Auditing Standards (SASs)
- b. Services performed in accordance with Statements on Standards for Accounting and Review Services (SSARSs)
- c. Services performed in accordance with the Statement on Standards for Consulting Services (SSCS), such as engagements in which the practitioner's role is solely to assist the client (for example, acting as the company accountant in preparing information other than financial statements), or engagements in which a practitioner is engaged to testify as an expert witness in accounting, auditing, taxation, or other matters, given certain stipulated facts

¹ For a definition of the term *practice of public accounting*, see *Definitions* [ET section 92.25].

² See section 301, *Financial Forecasts and Projections*, paragraph .02, for additional guidance on applicability when engaged to provide an attest service on a financial forecast or projection.

³ The term *attest* and its variants, such as *attesting* and *attestation*, are used in a number of state accountancy laws, and in regulations issued by state boards of accountancy under such laws, for different purposes and with different meanings from those intended by this section. Consequently, the definition of *attest engagements* set out in paragraph .01, and the attendant meaning of *attest* and *attestation* as used throughout the section, should not be understood as defining these terms and similar terms, as they are used in any law or regulation, nor as embodying a common understanding of the terms which may also be reflected in such laws or regulations.

- d. Engagements in which the practitioner is engaged to advocate a client's position—for example, tax matters being reviewed by the Internal Revenue Service
- e. Tax engagements in which a practitioner is engaged to prepare tax returns or provide tax advice

.05 An attest engagement may be part of a larger engagement, for example, a feasibility study or business acquisition study may also include an examination of prospective financial information. In such circumstances, these standards apply only to the attest portion of the engagement.

.06 Any professional service resulting in the expression of assurance must be performed under AICPA professional standards that provide for the expression of such assurance. Reports issued by a practitioner in connection with other professional standards should be written to be clearly distinguishable from and not to be confused with attest reports. For example, a practitioner performing an engagement which is intended solely to assist an organization in improving its controls over the privacy of client data should not issue a report as a result of that engagement expressing assurance as to the effectiveness of such controls. Additionally, a report that merely excludes the words, "...was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants..." but is otherwise similar to an examination, a review or an agreed-upon procedures attest report may be inferred to be an attest report.

Definitions and Underlying Concepts

Subject Matter

.07 The subject matter of an attest engagement may take many forms, including the following:

- a. Historical or prospective performance or condition (for example, historical or prospective financial information, performance measurements, and backlog data)
- b. Physical characteristics (for example, narrative descriptions, square footage of facilities)
- c. Historical events (for example, the price of a market basket of goods on a certain date)
- d. Analyses (for example, break-even analyses)
- e. Systems and processes (for example, internal control)
- f. Behavior (for example, corporate governance, compliance with laws and regulations, and human resource practices)

The subject matter may be as of a point in time or for a period of time.

Assertion

.08 An assertion is any declaration or set of declarations about whether the subject matter is based on or in conformity with the criteria selected.

.09 A practitioner may report on a written assertion or may report directly on the subject matter. In either case, the practitioner should ordinarily obtain a written assertion in an examination or a review engagement. A written assertion may be presented to a practitioner in a number of ways, such as in a narrative description, within a schedule, or as part of a representation letter appropriately identifying what is being presented and the point in time or period of time covered.

.10 When a written assertion has not been obtained, a practitioner may still report on the subject matter; however, the form of the report will vary depending on the circumstances and its use should be restricted.⁴ In this section, see paragraphs .58 and .60 on gathering sufficient evidence and paragraphs .73 to .75 and .78 to .80 for reporting guidance.

Responsible Party

.11 The *responsible party* is defined as the person or persons, either as individuals or representatives of the entity, responsible for the subject matter. If the nature of the subject matter is such that no such party exists, a party who has a reasonable basis for making a written assertion about the subject matter may provide such an assertion (hereinafter referred to as the *responsible party*).

.12 The practitioner may be engaged to gather information to enable the responsible party to evaluate the subject matter in connection with providing a written assertion. Regardless of the procedures performed by the practitioner, the responsible party must accept responsibility for its assertion and the subject matter and must not base its assertion solely on the practitioner's procedures.⁵

.13 Because the practitioner's role in an attest engagement is that of an *attester*, the practitioner should not take on the role of the responsible party in an attest engagement. Therefore, the need to clearly identify a responsible party is a prerequisite for an attest engagement. A practitioner may accept an engagement to perform an examination, a review or an agreed-upon procedures engagement on subject matter or an assertion related thereto provided that one of the following conditions is met.

- a. The party wishing to engage the practitioner is responsible for the subject matter, or has a reasonable basis for providing a written assertion about the subject matter if the nature of the subject matter is such that a responsible party does not otherwise exist.
- b. The party wishing to engage the practitioner is not responsible for the subject matter but is able to provide the practitioner, or have a third party who is responsible for the subject matter provide the practitioner, with evidence of the third party's responsibility for the subject matter.

.14 The practitioner should obtain written acknowledgment or other evidence of the responsible party's responsibility for the subject matter, or the written assertion, as it relates to the objective of the engagement. The responsible party can acknowledge that responsibility in a number of ways, for example, in an engagement letter, a representation letter, or the presentation of the subject matter, including the notes thereto, or the written assertion. If the practitioner is not able to directly obtain written acknowledgment, the practitioner should obtain other evidence of the responsible party's responsibility for the subject matter (for example, by reference to legislation, a regulation, or a contract).

⁴ When the practitioner is unable to perform the inquiry and analytical or other procedures that he or she considers necessary to achieve the limited assurance contemplated by a review, or when the client is the responsible party and does not provide the practitioner with a written assertion, the review will be incomplete. A review that is incomplete is not an adequate basis for issuing a review report and, accordingly, the practitioner should withdraw from the engagement.

⁵ See paragraph .112 regarding the practitioner's assistance in developing subject matter or criteria.

Applicability to Agreed-Upon Procedures Engagements

.15 An agreed-upon procedures attest engagement is one in which a practitioner is engaged to issue a report of findings based on specific procedures performed on subject matter. The general, fieldwork, and reporting standards for attest engagements set forth in this section are applicable to agreed-upon procedures engagements. Because the application of these standards to agreed-upon procedures engagements is discussed in section 201, *Agreed-Upon Procedures Engagements*, such engagements are not discussed further in this section.

The Relationship of Attestation Standards to Quality Control Standards

.16 The practitioner is responsible for compliance with the American Institute of Certified Public Accountants' (AICPA's) Statements on Standards for Attestation Engagements (SSAEs) in an attest engagement. Rule 202, *Compliance With Standards*, of the Code of Professional Conduct [ET section 202.01], requires members to comply with such standards when conducting professional services.

.17 A firm of practitioners has a responsibility to adopt a system of quality control in the conduct of a firm's attest practice.⁶ Thus, a firm should establish quality control policies and procedures to provide it with reasonable assurance that its personnel comply with the attestation standards in its attest engagements. The nature and extent of a firm's quality control policies and procedures depend on factors such as its size, the degree of operating autonomy allowed its personnel and its practice offices, the nature of its practice, its organization, and appropriate cost-benefit considerations. [As amended, effective September 2002, by SSAE No. 12.]

.18 Attestation standards relate to the conduct of individual attest engagements; quality control standards relate to the conduct of a firm's attest practice as a whole. Thus, attestation standards and quality control standards are related and the quality control policies and procedures that a firm adopts may affect both the conduct of individual attest engagements and the conduct of a firm's attest practice as a whole. However, deficiencies in or instances of noncompliance with a firm's quality control policies and procedures do not, in and of themselves, indicate that a particular engagement was not performed in accordance with attestation standards. [As amended, effective September 2002, by Statement on Standards for Attestation Engagements No. 12.]

General Standards

Training and Proficiency

.19 The first general standard is—*The practitioner must have adequate technical training and proficiency to perform the attestation engagement.* [As amended, effective when the subject matter or assertion is as of or for a period

⁶ The elements of a system of quality control are identified in Statement on Quality Control Standards (SQCS) No. 7, *A Firm's System of Quality Control* [QC section 10A]. A system of quality control consists of policies designed to provide the firm with reasonable assurance that the firm and its personnel comply with professional standards and applicable legal and regulatory requirements and that reports issued by the firm are appropriate in the circumstances, and the procedures necessary to implement and monitor compliance with those policies. [As amended, effective September 2002, by SSAE No. 12. Footnote amended due to the issuance of SQCS No. 7, December 2008.]

ending on or after December 15, 2006, by Statement on Standards for Attestation Engagements No. 14.]

.20 Performing attest services is different from preparing and presenting subject matter or an assertion. The latter involves collecting, classifying, summarizing, and communicating information; this usually entails reducing a mass of detailed data to a manageable and understandable form. On the other hand, performing attest services involves gathering evidence to support the subject matter or the assertion and objectively assessing the measurements and communications of the responsible party. Thus, attest services are analytical, critical, investigative, and are concerned with the basis and support for the subject matter or the assertion.

Adequate Knowledge of Subject Matter

.21 The second general standard is—*The practitioner must have adequate knowledge of the subject matter.* [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by Statement on Standards for Attestation Engagements No. 14.]

.22 A practitioner may obtain adequate knowledge of the subject matter through formal or continuing education, including self-study, or through practical experience. However, this standard does not necessarily require a practitioner to personally acquire all of the necessary knowledge in the subject matter to be qualified to express a conclusion. This knowledge requirement may be met, in part, through the use of one or more specialists on a particular attest engagement if the practitioner has sufficient knowledge of the subject matter (a) to communicate to the specialist the objectives of the work and (b) to evaluate the specialist's work to determine if the objectives were achieved.

Suitability and Availability of Criteria

.23 The third general standard is—*The practitioner must have reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users.* [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by Statement on Standards for Attestation Engagements No. 14.]

Suitability of Criteria

.24 Criteria are the standards or benchmarks used to measure and present the subject matter and against which the practitioner evaluates the subject matter.* Suitable criteria must have each of the following attributes:

- *Objectivity*—Criteria should be free from bias.
- *Measurability*—Criteria should permit reasonably consistent measurements, qualitative or quantitative, of subject matter.
- *Completeness*—Criteria should be sufficiently complete so that those relevant factors that would alter a conclusion about subject matter are not omitted.
- *Relevance*—Criteria should be relevant to the subject matter.

.25 Criteria that are established or developed by groups composed of experts that follow due process procedures, including exposure of the proposed

* An example of suitable criteria are the Trust Services criteria (includes WebTrust and SysTrust) developed by the AICPA's Assurance Services Executive Committee. These criteria may be used when the subject matter of the engagement is the security, availability, processing integrity, or confidentiality of a system or an entity's privacy. The Trust Services criteria are presented in TSP sections 100 and 200 of the AICPA's *Technical Practice Aids*. [Footnote added by the Assurance Services Executive Committee, January 2003. Footnote revised, May 2006, to reflect conforming changes necessary due to the issuance of Generally Accepted Privacy Principles.]

criteria for public comment, ordinarily should be considered suitable. Criteria promulgated by a body designated by the AICPA Governing Council under the AICPA Code of Professional Conduct are, by definition, considered to be suitable.

.26 Criteria may be established or developed by the client, the responsible party, industry associations, or other groups that do not follow due process procedures or do not as clearly represent the public interest. To determine whether these criteria are suitable, the practitioner should evaluate them based on the attributes described in paragraph .24.

.27 Regardless of who establishes or develops the criteria, the responsible party or the client is responsible for selecting the criteria and the client is responsible for determining that such criteria are appropriate for its purposes.

.28 The use of suitable criteria does not presume that all persons or groups would be expected to select the same criteria in evaluating the same subject matter. There may be more than one set of suitable criteria for a given subject matter. For example, in an engagement to express assurance about customer satisfaction, a responsible party may select as a criterion for customer satisfaction that all customer complaints are resolved to the satisfaction of the customer. In other cases, another responsible party may select a different criterion, such as the number of repeat purchases in the three months following the initial purchase.

.29 In evaluating the measurability attribute as described in paragraph .24, the practitioner should consider whether the criteria are sufficiently precise to permit people having competence in and using the same measurement criterion to be able to ordinarily obtain materially similar measurements. Consequently, practitioners should not perform an engagement when the criteria are so subjective or vague that reasonably consistent measurements, qualitative or quantitative, of subject matter cannot ordinarily be obtained. However, practitioners will not always reach the same conclusion because such evaluations often require the exercise of considerable professional judgment.

.30 For the purpose of assessing whether the use of particular criteria can be expected to yield reasonably consistent measurement and evaluation, consideration should be given to the nature of the subject matter. For example, *soft information*, such as forecasts or projections, would be expected to have a wider range of reasonable estimates than *hard* data, such as the calculated investment performance of a defined portfolio of managed investment products.

.31 Some criteria may be appropriate for only a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria. For instance, criteria set forth in a lease agreement for override payments may be appropriate only for reporting to the parties to the agreement because of the likelihood that such criteria would be misunderstood or misinterpreted by parties other than those who have specifically agreed to the criteria. Such criteria can be agreed upon directly by the parties or through a designated representative. If a practitioner determines that such criteria are appropriate only for a limited number of parties, the use of the report should be restricted to those specified parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria.

.32 The third general standard in paragraph .23 applies equally regardless of the level of the attest service to be provided. Consequently, it is inappropriate to perform a review engagement if the practitioner concludes that an examination cannot be performed because competent persons using the same criteria would not be able to obtain materially similar evaluations.

Availability of Criteria

.33 The criteria should be available to users in one or more of the following ways:

- a. Available publicly
- b. Available to all users through inclusion in a clear manner in the presentation of the subject matter or in the assertion
- c. Available to all users through inclusion in a clear manner in the practitioner's report
- d. Well understood by most users, although not formally available (for example, "The distance between points A and B is twenty feet;" the criterion of distance measured in feet is considered to be well understood)
- e. Available only to specified parties; for example, terms of a contract or criteria issued by an industry association that are available only to those in the industry

.34 If criteria are only available to specified parties, the practitioner's report should be restricted to those parties who have access to the criteria as described in paragraphs .78 and .80.

Independence

.35 The fourth general standard is—*The practitioner must maintain independence in mental attitude in all matters relating to the engagement.*⁷ [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by Statement on Standards for Attestation Engagements No. 14.]

.36 The practitioner should maintain the intellectual honesty and impartiality necessary to reach an unbiased conclusion about the subject matter or the assertion. This is a cornerstone of the attest function.

.37 In the final analysis, independence in mental attitude means objective consideration of facts, unbiased judgments, and honest neutrality on the part of the practitioner in forming and expressing conclusions. It implies not the attitude of an advocate or an adversary but an impartiality that recognizes an obligation for fairness. Independence in mental attitude presumes an undeviating concern for an unbiased conclusion about the subject matter or an assertion no matter what the subject matter or the assertion may be.

.38 The profession has established, through the AICPA's Code of Professional Conduct, precepts to guard against the *presumption* of loss of independence. Presumption is stressed because the possession of intrinsic independence is a matter of personal quality rather than of rules that formulate certain objective tests. Insofar as these precepts have been incorporated in the profession's code, they have the force of professional law for the independent practitioner.

⁷ The practitioner performing an attest engagement should be *independent* pursuant to Rule 101, *Independence*, of the Code of Professional Conduct [ET section 101.01]. Interpretation No. 11, "Independence and the Performance of Professional Services Under the Statements on Standards for Attestation Engagements and Statement on Auditing Standards No. 75, *Engagements to Apply Agreed-Upon Procedures to Specified Elements, Accounts, or Items of a Financial Statement*," [ET section 101.13], to rule 101 [ET section 101.01] provides guidance about its application to certain attest engagements.

Due Professional Care

.39 The fifth general standard is—*The practitioner must exercise due professional care in the planning and performance of the engagement and the preparation of the report.* [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by Statement on Standards for Attestation Engagements No. 14.]

.40 Due professional care imposes a responsibility on each practitioner involved with the engagement to observe each of the attestation standards. Exercise of due professional care requires critical review at every level of supervision of the work done and the judgment exercised by those assisting in the engagement, including the preparation of the report.

.41 *Cooley on Torts*, a legal treatise, describes the obligation for due care as follows:

Every man who offers his services to another and is employed assumes the duty to exercise in the employment such skill as he possesses with reasonable care and diligence. In all these employments where peculiar skill is requisite, if one offers his services, he is understood as holding himself out to the public as possessing the degree of skill commonly possessed by others in the same employment, and if his pretensions are unfounded, he commits a species of fraud upon every man who employs him in reliance on his public profession. But no man, whether skilled or unskilled, undertakes that the task he assumes shall be performed successfully, and without fault or error; he undertakes for good faith and integrity, but not for infallibility, and he is liable to his employer for negligence, bad faith, or dishonesty, but not for losses consequent upon mere errors of judgment.⁸

Standards of Fieldwork

Planning and Supervision

.42 The first standard of fieldwork is—*The practitioner must adequately plan the work and must properly supervise any assistants.* [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by Statement on Standards for Attestation Engagements No. 14.]

.43 Proper planning and supervision contribute to the effectiveness of attest procedures. Proper planning directly influences the selection of appropriate procedures and the timeliness of their application, and proper supervision helps ensure that planned procedures are appropriately applied.

.44 Planning an attest engagement involves developing an overall strategy for the expected conduct and scope of the engagement. To develop such a strategy, practitioners need to have sufficient knowledge to enable them to understand adequately the events, transactions, and practices that, in their judgment, have a significant effect on the subject matter or the assertion.

.45 Factors to be considered by the practitioner in planning an attest engagement include the following:

- a. The criteria to be used

⁸ D. Haggard, *Cooley on Torts*, 472 (4th ed., 1932).

- b. Preliminary judgments about attestation risk⁹ and materiality for attest purposes
- c. The nature of the subject matter or the items within the assertion that are likely to require revision or adjustment
- d. Conditions that may require extension or modification of attest procedures
- e. The nature of the report expected to be issued

.46 The practitioner should establish an understanding with the client regarding the services to be performed for each engagement.¹⁰ Such an understanding reduces the risk that either the practitioner or the client may misinterpret the needs or expectations of the other party. For example, it reduces the risk that the client may inappropriately rely on the practitioner to protect the entity against certain risks or to perform certain functions that are the client's responsibility. The understanding should include the objectives of the engagement, management's responsibilities, the practitioner's responsibilities, and limitations of the engagement. The practitioner should document the understanding in the working papers, preferably through a written communication with the client. If the practitioner believes an understanding with the client has not been established, he or she should decline to accept or perform the engagement.

.47 The nature, extent, and timing of planning will vary with the nature and complexity of the subject matter or the assertion and the practitioner's prior experience with management. As part of the planning process, the practitioner should consider the nature, extent, and timing of the work to be performed to accomplish the objectives of the attest engagement. Nevertheless, as the attest engagement progresses, changed conditions may make it necessary to modify planned procedures.

.48 Supervision involves directing the efforts of assistants who participate in accomplishing the objectives of the attest engagement and determining whether those objectives were accomplished. Elements of supervision include instructing assistants, staying informed of significant problems encountered, reviewing the work performed, and dealing with differences of opinion among personnel. The extent of supervision appropriate in a given instance depends on many factors, including the nature and complexity of the subject matter and the qualifications of the persons performing the work.

.49 Assistants should be informed of their responsibilities, including the objectives of the procedures that they are to perform and matters that may affect the nature, extent, and timing of such procedures. The practitioner with final responsibility for the engagement should direct assistants to bring to his or her attention significant questions raised during the attest engagement so that their significance may be assessed.

.50 The work performed by each assistant should be reviewed to determine whether it was adequately performed and to evaluate whether the results are consistent with the conclusion to be presented in the practitioner's report.

⁹ *Attestation risk* is the risk that the practitioner may unknowingly fail to appropriately modify his or her attest report on the subject matter or an assertion that is materially misstated. It consists of (a) the risk (consisting of *inherent risk* and *control risk*) that the subject matter or assertion contains deviations or misstatements that could be material and (b) the risk that the practitioner will not detect such deviations or misstatements (*detection risk*).

¹⁰ See SQCS No. 7 paragraph 28 (QC sec. 10A). [Footnote amended due to the issuance of SQCS No. 7, December 2008.]

Obtaining Sufficient Evidence

.51 The second standard of fieldwork is—*The practitioner must obtain sufficient evidence to provide a reasonable basis for the conclusion that is expressed in the report.* [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by Statement on Standards for Attestation Engagements No. 14.]

.52 Selecting and applying procedures that will accumulate evidence that is sufficient in the circumstances to provide a reasonable basis for the level of assurance to be expressed in the attest report requires the careful exercise of professional judgment. A broad array of available procedures may be applied in an attest engagement. In establishing a proper combination of procedures to appropriately restrict attestation risk, the practitioner should consider the following presumptions, bearing in mind that they are not mutually exclusive and may be subject to important exceptions.

- a. Evidence obtained from independent sources outside an entity provides greater assurance about the subject matter or the assertion than evidence secured solely from within the entity.
- b. Information obtained from the independent attester's direct personal knowledge (such as through physical examination, observation, computation, operating tests, or inspection) is more persuasive than information obtained indirectly.
- c. The more effective the controls over the subject matter, the more assurance they provide about the subject matter or the assertion.

.53 Thus, in the hierarchy of available attest procedures, those that involve search and verification (for example, inspection, confirmation, or observation), particularly when using independent sources outside the entity, are generally more effective in restricting attestation risk than those involving internal inquiries and comparisons of internal information (for example, analytical procedures and discussions with individuals responsible for the subject matter or the assertion). On the other hand, the latter are generally less costly to apply.

.54 In an attest engagement designed to provide a high level of assurance (referred to as an *examination*), the practitioner's objective is to accumulate sufficient evidence to restrict attestation risk to a level that is, in the practitioner's professional judgment, appropriately low for the high level of assurance that may be imparted by his or her report. In such an engagement, a practitioner should select from all available procedures—that is, procedures that assess inherent and control risk and restrict detection risk—any combination that can restrict attestation risk to such an appropriately low level.

.55 In an attest engagement designed to provide a moderate level of assurance (referred to as a *review*), the objective is to accumulate sufficient evidence to restrict attestation risk to a moderate level. To accomplish this, the types of procedures performed generally are limited to inquiries and analytical procedures (rather than also including search and verification procedures).

.56 Nevertheless, there will be circumstances in which inquiry and analytical procedures (a) cannot be performed, (b) are deemed less efficient than other procedures, or (c) yield evidence indicating that the subject matter or the assertion may be incomplete or inaccurate. In the first circumstance, the practitioner should perform other procedures that he or she believes can provide him or her with a level of assurance equivalent to that which inquiries and analytical procedures would have provided. In the second circumstance,

the practitioner may perform other procedures that he or she believes would be more efficient to provide him or her with a level of assurance equivalent to that which inquiries and analytical procedures would provide. In the third circumstance, the practitioner should perform additional procedures.

.57 The extent to which attestation procedures will be performed should be based on the level of assurance to be provided and the practitioner's consideration of (a) the nature and materiality of the information to be tested to the subject matter or the assertion taken as a whole, (b) the likelihood of misstatements, (c) knowledge obtained during current and previous engagements, (d) the responsible party's competence in the subject matter, (e) the extent to which the information is affected by the asserter's judgment, and (f) inadequacies in the responsible party's underlying data.

.58 As part of the attestation procedures, the practitioner considers the written assertion ordinarily provided by the responsible party. If a written assertion cannot be obtained from the responsible party, the practitioner should consider the effects on his or her ability to obtain sufficient evidence to form a conclusion about the subject matter. When the practitioner's client is the responsible party, a failure to obtain a written assertion should result in the practitioner concluding that a scope limitation exists.¹¹ When the practitioner's client is not the responsible party and a written assertion is not provided, the practitioner may be able to conclude that he or she has sufficient evidence to form a conclusion about the subject matter.

Representation Letter

.59 During an attest engagement, the responsible party makes many representations to the practitioner, both oral and written, in response to specific inquiries or through the presentation of subject matter or an assertion. Such representations from the responsible party are part of the evidential matter the practitioner obtains.

.60 Written representations from the responsible party ordinarily confirm representations explicitly or implicitly given to the practitioner, indicate and document the continuing appropriateness of such representations, and reduce the possibility of misunderstanding concerning the matters that are the subject of the representations. Accordingly, in an examination or a review engagement, a practitioner should consider obtaining a representation letter from the responsible party. Examples of matters that might appear in such a representation letter include the following:¹²

- a. A statement acknowledging responsibility for the subject matter and, when applicable, the assertion
- b. A statement acknowledging responsibility for selecting the criteria, where applicable

¹¹ When the client is the responsible party, it is presumed that the client will be capable of providing the practitioner with a written assertion regarding the subject matter. Failure to provide the written assertion in this circumstance is a client-imposed limitation on the practitioner's evidence-gathering efforts. In an examination, the practitioner should modify the report for the scope limitation. In a review engagement, such a scope limitation results in an incomplete review and the practitioner should withdraw from the engagement.

¹² Specific written representations will depend on the circumstances of the engagement (for example, whether the client is the responsible party) and the nature of the subject matter and the criteria. For example, when the client is not the responsible party but has selected the criteria, the practitioner might obtain the representation regarding responsibility for selection of the criteria from the client rather than the responsible party (see paragraph .61).

- c. A statement acknowledging responsibility for determining that such criteria are appropriate for its purposes, where the responsible party is the client
- d. The assertion about the subject matter based on the criteria selected
- e. A statement that all known matters contradicting the assertion and any communication from regulatory agencies affecting the subject matter or the assertion have been disclosed to the practitioner
- f. Availability of all records relevant to the subject matter
- g. A statement that any known events subsequent to the period (or point in time) of the subject matter being reported on that would have a material effect on the subject matter (or, if applicable, the assertion) have been disclosed to the practitioner
- h. Other matters as the practitioner deems appropriate

.61 When the client is not the responsible party, the practitioner should consider obtaining a letter of written representations from the client as part of the attest engagement. Examples of matters that might appear in such a representation letter include the following:

- a. A statement that any known events subsequent to the period (or point in time) of the subject matter being reported on that would have a material effect on the subject matter (or, if applicable, the assertion) have been disclosed to the practitioner
- b. A statement acknowledging the client's responsibility for selecting the criteria, where applicable
- c. A statement acknowledging the client's responsibility for determining that such criteria are appropriate for its purposes
- d. Other matters as the practitioner deems appropriate

.62 If the responsible party or the client refuses to furnish all written representations that the practitioner deems necessary, the practitioner should consider the effects of such a refusal on his or her ability to issue a conclusion about the subject matter. If the practitioner believes that the representation letter is necessary to obtain sufficient evidence to issue a report, the responsible party's or the client's refusal to furnish such evidence in the form of written representations constitutes a limitation on the scope of an examination sufficient to preclude an unqualified opinion and is ordinarily sufficient to cause the practitioner to disclaim an opinion or withdraw from an examination engagement. However, based on the nature of the representations not obtained or the circumstances of the refusal, the practitioner may conclude, in an examination engagement, that a qualified opinion is appropriate. Further, the practitioner should consider the effects of the refusal on his or her ability to rely on other representations. When a scope limitation exists in a review engagement, the practitioner should withdraw from the engagement. (See paragraph .75.)

Standards of Reporting¹³

.63 The first standard of reporting is—*The practitioner must identify the subject matter or the assertion being reported on and state the character of the engagement in the report.* [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by Statement on Standards for Attestation Engagements No. 14.]

¹³ The reporting standards apply only when the practitioner issues a report. [Footnote added, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by Statement on Standards for Attestation Engagements No. 14.]

.64 The practitioner who accepts an attest engagement should issue a report on the subject matter or the assertion or withdraw from the attest engagement. If the practitioner is reporting on the assertion, the assertion should be bound with or accompany the practitioner's report or the assertion should be clearly stated in the practitioner's report.¹⁴

.65 The statement of the character of an attest engagement includes the following two elements: (a) a description of the nature and scope of the work performed and (b) a reference to the professional standards governing the engagement. The terms *examination* and *review* should be used to describe engagements to provide, respectively, a high level and a moderate level of assurance. The reference to professional standards should be accomplished by referring to "attestation standards established by the American Institute of Certified Public Accountants."

.66 The second standard of reporting is—*The practitioner must state the practitioner's conclusion about the subject matter or the assertion in relation to the criteria against which the subject matter was evaluated in the report.* However, if conditions exist that, individually or in combination, result in one or more material misstatements or deviations from the criteria, the practitioner should modify the report and, to most effectively communicate with the reader of the report, should ordinarily express his or her conclusion directly on the subject matter,¹⁵ not on the assertion. [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by Statement on Standards for Attestation Engagements No. 14.]

.67 The practitioner should consider the concept of materiality in applying this standard. In expressing a conclusion, the practitioner should consider an omission or a misstatement to be material if the omission or misstatement—individually or when aggregated with others—is such that a reasonable person would be influenced by the omission or misstatement. The practitioner should consider both qualitative and quantitative aspects of omissions and misstatements.

.68 The term *general use* applies to attest reports that are not restricted to specified parties. General-use attest reports should be limited to two levels of assurance: one based on a restriction of attestation risk to an appropriately low level (an *examination*) and the other based on a restriction of attestation risk to a moderate level (a *review*). In an engagement to achieve a high level of assurance (an *examination*), the practitioner's conclusion should be expressed in the form of an opinion. When attestation risk has been restricted only to a moderate level (a *review*), the conclusion should be expressed in the form of negative assurance.

.69 A practitioner may report on subject matter or an assertion at multiple dates or covering multiple periods during which criteria have changed (for example, a report on comparative information). In those circumstances, the practitioner should determine whether the criteria are clearly stated or described for each of the dates or periods, and whether the changes have been adequately disclosed.

¹⁴ The use of a "hot link" within the practitioner's report to management's assertion, such as might be used in a WebTrustSM report, would meet this requirement. [Footnote renumbered by the issuance of Statement on Standards for Attestation Engagements No. 14, November 2006.]

¹⁵ Specific standards may require that the practitioner express his or her conclusion directly on the subject matter. For example, if management states in its assertion that a material weakness exists in the entity's internal control over financial reporting, the practitioner should state his or her opinion directly on the effectiveness of internal control, not on management's assertion related thereto. [Footnote renumbered by the issuance of Statement on Standards for Attestation Engagements No. 14, November 2006.]

.70 If the criteria used for the subject matter for the current date or period differ from those criteria used for the subject matter for a preceding date or period and the subject matter for the prior date or period is not presented, the practitioner should consider whether the changes in criteria are likely to be significant to users of the report. If so, the practitioner should determine whether the criteria are clearly stated or described and the fact that the criteria have changed is disclosed. (See paragraphs .76 and .77.)

.71 The third standard of reporting is—*The practitioner must state all of the practitioner's significant reservations about the engagement, the subject matter, and, if applicable, the assertion related thereto in the report.* [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by Statement on Standards for Attestation Engagements No. 14.]

.72 *Reservations about the engagement* refers to any unresolved problem that the practitioner had in complying with these attestation standards, interpretive standards, or the specific procedures agreed to by the specified parties. The practitioner should not express an unqualified conclusion unless the engagement has been conducted in accordance with the attestation standards. Such standards will not have been complied with if the practitioner has been unable to apply all the procedures that he or she considers necessary in the circumstances.

.73 Restrictions on the scope of an engagement, whether imposed by the client or by such other circumstances as the timing of the work or the inability to obtain sufficient evidence, may require the practitioner to qualify the assurance provided, to disclaim any assurance, or to withdraw from the engagement. For example, if the practitioner's client is the responsible party, a failure to obtain a written assertion should result in the practitioner concluding that a scope limitation exists. (See paragraph .58.)

.74 The practitioner's decision to provide a qualified opinion, to disclaim an opinion, or to withdraw because of a scope limitation in an examination engagement depends on an assessment of the effect of the omitted procedure(s) on his or her ability to express assurance. This assessment will be affected by the nature and magnitude of the potential effects of the matters in question, and by their significance to the subject matter or the assertion. If the potential effects are pervasive to the subject matter or the assertion, a disclaimer or withdrawal is more likely to be appropriate. When restrictions that significantly limit the scope of the engagement are imposed by the client or the responsible party, the practitioner generally should disclaim an opinion or withdraw from the engagement. The reasons for a qualification or disclaimer should be described in the practitioner's report.

.75 In a review engagement, when the practitioner is unable to perform the inquiry and analytical or other procedures he or she considers necessary to achieve the limited assurance contemplated by a review, or when the client is the responsible party and does not provide the practitioner with a written assertion, the review will be incomplete. A review that is incomplete is not an adequate basis for issuing a review report and, accordingly, the practitioner should withdraw from the engagement.

.76 *Reservations about the subject matter or the assertion* refers to any unresolved reservation about the assertion or about the conformity of the subject matter with the criteria, including the adequacy of the disclosure of material matters. They can result in either a qualified or an adverse opinion, depending on the materiality of the departure from the criteria against which the subject

matter or the assertion was evaluated, or a modified conclusion in a review engagement.

.77 Reservations about the subject matter or the assertion may relate to the measurement, form, arrangement, content, or underlying judgments and assumptions applicable to the subject matter or the assertion and its appended notes, including, for example, the terminology used, the amount of detail given, the classification of items, and the bases of amounts set forth. The practitioner considers whether a particular reservation should affect the report given the circumstances and facts of which he or she is aware at the time.

.78 The fourth standard of reporting is—*The practitioner must state in the report that the report is intended solely for the information and use of the specified parties under the following circumstances:*

- *When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria*
- *When the criteria used to evaluate the subject matter are available only to specified parties*
- *When reporting on subject matter and a written assertion has not been provided by the responsible party*
- *When the report is on an attestation engagement to apply agreed-upon procedures to the subject matter*

[As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by Statement on Standards for Attestation Engagements No. 14.]

.79 The need for restriction on the use of a report may result from a number of circumstances, including the purpose of the report, the criteria used in preparation of the subject matter, the extent to which the procedures performed are known or understood, and the potential for the report to be misunderstood when taken out of the context in which it was intended to be used. A practitioner should consider informing his or her client that restricted-use reports are not intended for distribution to nonspecified parties, regardless of whether they are included in a document containing a separate general-use report.^{16, 17} However, a practitioner is not responsible for controlling a client's distribution of restricted-use reports. Accordingly, a restricted-use report should alert readers to the restriction on the use of the report by indicating that the report is not intended to be and should not be used by anyone other than the specified parties.

.80 An attest report that is restricted as to use should contain a separate paragraph at the end of the report that includes the following elements:

- a. A statement indicating that the report is intended solely for the information and use of the specified parties

¹⁶ In some cases, restricted-use reports filed with regulatory agencies are required by law or regulation to be made available to the public as a matter of public record. Also, a regulatory agency as part of its oversight responsibility for an entity may require access to restricted-use reports in which they are not named as a specified party. [Footnote renumbered by the issuance of Statement on Standards for Attestation Engagements No. 14, November 2006.]

¹⁷ This section does not preclude the practitioner, in connection with establishing the terms of the engagement, from reaching an understanding with the client that the intended use of the report will be restricted, and from obtaining the client's agreement that the client and the specified parties will not distribute the report to parties other than those identified in the report. [Footnote renumbered by the issuance of Statement on Standards for Attestation Engagements No. 14, November 2006.]

- b. An identification of the specified parties to whom use is restricted
- c. A statement that the report is not intended to be and should not be used by anyone other than the specified parties

An example of such a paragraph is the following.

This report is intended solely for the information and use of [*the specified parties*] and is not intended to be and should not be used by anyone other than these specified parties.

.81 Other attestation standards may specify situations that require restricted reports such as the following:

- a. A review report on management's discussion and analysis
- b. A report on prospective financial information when the report is intended for use by the responsible party alone, or by the responsible party and third parties with whom the responsible party is negotiating directly, as described in section 301, *Financial Forecasts and Projections*, paragraph .10.

Furthermore, nothing in this section precludes a practitioner from restricting the use of any report.

.82 If a practitioner issues a single combined report covering both (a) subject matter or presentations that require a restriction on use to specified parties and (b) subject matter or presentations that ordinarily do not require such a restriction, the use of such a single combined report should be restricted to the specified parties.

.83 In some instances, a separate restricted-use report may be included in a document that also contains a general-use report. The inclusion of a separate restricted-use report in a document that contains a general-use report does not affect the intended use of either report. The restricted-use report remains restricted as to use, and the general-use report continues to be for general use.

Examination Reports

.84 When expressing an opinion, the practitioner should clearly state whether, in his or her opinion, (a) the subject matter is based on (or in conformity with) the criteria in all material respects or (b) the assertion is presented (or fairly stated), in all material respects, based on the criteria. Reports expressing an opinion may be qualified or modified for some aspect of the subject matter, the assertion or the engagement (see the third reporting standard). However, as stated in paragraph .66, if conditions exist that, individually or in combination, result in one or more material misstatements or deviations from the criteria, the practitioner should modify the report and, to most effectively communicate with the reader of the report, should ordinarily express his or her conclusion directly on the subject matter, not on the assertion. In addition, such reports may emphasize certain matters relating to the attest engagement, the subject matter, or the assertion. The form of the practitioner's report will depend on whether the practitioner opines on the subject matter or the assertion.

.85 The practitioner's examination report on subject matter should include the following:

- a. A title that includes the word *independent*
- b. An identification of the subject matter and the responsible party
- c. A statement that the subject matter is the responsibility of the responsible party

- d. A statement that the practitioner's responsibility is to express an opinion on the subject matter based on his or her examination
- e. A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, and, accordingly, included procedures that the practitioner considered necessary in the circumstances
- f. A statement that the practitioner believes the examination provides a reasonable basis for his or her opinion
- g. The practitioner's opinion on whether the subject matter is based on (or in conformity with) the criteria in all material respects
- h. A statement restricting the use of the report to specified parties under the following circumstances (see paragraphs .78 to .83):
 - (1) When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria
 - (2) When the criteria used to evaluate the subject matter are available only to the specified parties
 - (3) When a written assertion has not been provided by the responsible party (The practitioner should also include a statement to that effect in the introductory paragraph of the report.)
- i. The manual or printed signature of the practitioner's firm
- j. The date of the examination report

Appendix A [paragraph .114], *Examination Reports*, includes a standard examination report on subject matter. (See Example 1.)

.86 The practitioner's examination report on an assertion should include the following:

- a. A title that includes the word *independent*
- b. An identification of the assertion and the responsible party (When the assertion does not accompany the practitioner's report, the first paragraph of the report should also contain a statement of the assertion.)
- c. A statement that the assertion is the responsibility of the responsible party
- d. A statement that the practitioner's responsibility is to express an opinion on the assertion based on his or her examination
- e. A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, and, accordingly, included procedures that the practitioner considered necessary in the circumstances
- f. A statement that the practitioner believes the examination provides a reasonable basis for his or her opinion
- g. The practitioner's opinion on whether the assertion is presented (or fairly stated), in all material respects, based on the criteria (However, see paragraph .66.)
- h. A statement restricting the use of the report to specified parties under the following circumstances (see paragraphs .78 to .83):
 - (1) When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment

or can be presumed to have an adequate understanding of the criteria

- (2) When the criteria used to evaluate the subject matter are available only to the specified parties
 - i. The manual or printed signature of the practitioner's firm
 - j. The date of the examination report

Appendix A [paragraph .114] includes a standard examination report on an assertion. (See Example 2.)

.87 Nothing precludes the practitioner from examining an assertion but opining directly on the subject matter. (See Appendix A [paragraph .114], Example 3.)

Review Reports

.88 In a review report, the practitioner's conclusion should state whether any information came to the practitioner's attention on the basis of the work performed that indicates that (a) the subject matter is not based on (or in conformity with) the criteria or (b) the assertion is not presented (or fairly stated) in all material respects based on the criteria. (As discussed more fully in the commentary to the third reporting standard, if the subject matter or the assertion is not modified to correct for any such information that comes to the practitioner's attention, such information should be described in the practitioner's report.)

.89 The practitioner's review report on subject matter should include the following:

- a. A title that includes the word *independent*
- b. An identification of the subject matter and the responsible party
- c. A statement that the subject matter is the responsibility of the responsible party
- d. A statement that the review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants
- e. A statement that a review is substantially less in scope than an examination, the objective of which is an expression of opinion on the subject matter, and accordingly, no such opinion is expressed
- f. A statement about whether the practitioner is aware of any material modifications that should be made to the subject matter in order for it to be based on (or in conformity with), in all material respects, the criteria, other than those modifications, if any, indicated in his or her report
- g. A statement restricting the use of the report to specified parties under the following circumstances (see paragraphs .78 to .83):
 - (1) When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria
 - (2) When the criteria used to evaluate the subject matter are available only to the specified parties

- (3) When a written assertion has not been provided by the responsible party and the responsible party is not the client (The practitioner should also include a statement to that effect in the introductory paragraph of the report.)

h. The manual or printed signature of the practitioner's firm

i. The date of the review report

Appendix B [paragraph .115] *Review Reports*, includes a standard review report on subject matter. (See Example 1.) Appendix B [paragraph .115] also includes a review report on subject matter that is the responsibility of a party other than client; the report is restricted as to use because a written assertion has not been provided by the responsible party. (See Example 2.)

.90 The practitioner's review report on an assertion should include the following:

a. A title that includes the word *independent*

b. An identification of the assertion and the responsible party (When the assertion does not accompany the practitioner's report, the first paragraph of the report should also contain a statement of the assertion.)

c. A statement that the assertion is the responsibility of the responsible party

d. A statement that the review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants

e. A statement that a review is substantially less in scope than an examination, the objective of which is an expression of opinion on the assertion, and accordingly, no such opinion is expressed

f. A statement about whether the practitioner is aware of any material modifications that should be made to the assertion in order for it to be presented (or fairly stated), in all material respects, based on (or in conformity with) the criteria, other than those modifications, if any, indicated in his or her report (However, see paragraph .66.)

g. A statement restricting the use of the report to specified parties under the following circumstances (see paragraphs .78 to .83):

- (1) When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria

- (2) When the criteria used to evaluate the subject matter are available only to the specified parties

h. The manual or printed signature of the practitioner's firm

i. The date of the review report

Appendix B [paragraph .115] includes a review report on an assertion that is restricted as to use because the criteria are available only to the specified parties. (See Example 3.)

Other Information in a Client-Prepared Document Containing the Practitioner's Attest Report¹⁸

.91 A client may publish various documents that contain information (hereinafter referred to as *other information*) in addition to the practitioner's attest report on subject matter (or on an assertion related thereto). Paragraphs .92 to .94 provide guidance to the practitioner when the other information is contained in (a) annual reports to holders of securities or beneficial interests, annual reports of organizations for charitable or philanthropic purposes distributed to the public, and annual reports filed with regulatory authorities under the Securities Exchange Act of 1934 or (b) other documents to which the practitioner, at the client's request, devotes attention. These paragraphs are not applicable when an attest report appears in a registration statement filed under the Securities Act of 1933. (See AU section 634, *Letters for Underwriters and Certain Other Requesting Parties*, and AU section 711, *Filings Under Federal Securities Statutes*.) Also, these paragraphs are not applicable to other information on which the practitioner or another practitioner is engaged to issue an opinion.

.92 The practitioner's responsibility with respect to other information in such a document does not extend beyond the information identified in his or her report, and the practitioner has no obligation to perform any procedures to corroborate any other information contained in the document. However, the practitioner should read the other information not covered by the practitioner's report or by the report of the other practitioner and consider whether it, or the manner of its presentation, is materially inconsistent with the information appearing in the practitioner's report. If the practitioner believes that the other information is inconsistent with the information appearing in the practitioner's report, he or she should consider whether the practitioner's report requires revision. If the practitioner concludes that the report does not require revision, he or she should request the client to revise the other information. If the other information is not revised to eliminate the material inconsistency, the practitioner should consider other actions, such as revising his or her report to include an explanatory paragraph describing the material inconsistency, withholding the use of his or her report in the document, or withdrawing from the engagement.

.93 If, while reading the other information for the reasons set forth in paragraph .92, the practitioner becomes aware of information that he or she believes is a material misstatement of fact that is not a material inconsistency as described in paragraph .92, he or she should discuss the matter with the client. In connection with this discussion, the practitioner should consider that he or she may not have the expertise to assess the validity of the statement, that there may be no standards by which to assess its presentation, and that there may be valid differences of judgment or opinion. If the practitioner concludes he or she has a valid basis for concern, the practitioner should propose that the client consult with some other party whose advice may be useful, such as the entity's legal counsel.

¹⁸ Such guidance pertains only to other information in a client-prepared document. The practitioner has no responsibility to read information contained in documents of nonclients. Further, the practitioner is not required to read information contained in electronic sites, or to consider the consistency of other information in electronic sites with the original documents since electronic sites are a means of distributing information and are not "documents" as that term is used in this section. Practitioners may be asked by their clients to render attest services with respect to information in electronic sites, in which case, other attest standards may apply to those services. [Footnote renumbered by the issuance of Statement on Standards for Attestation Engagements No. 14, November 2006.]

.94 If, after discussing the matter, the practitioner concludes that a material misstatement of fact remains, the action taken will depend on his or her judgment in the circumstances. The practitioner should consider steps such as notifying the client's management and audit committee in writing of his or her views concerning the information and consulting his or her legal counsel about further action appropriate in the circumstances.¹⁹

Consideration of Subsequent Events in an Attest Engagement

.95 Events or transactions sometimes occur subsequent to the point in time or period of time of the subject matter being tested but prior to the date of the practitioner's report that have a material effect on the subject matter and therefore require adjustment or disclosure in the presentation of the subject matter or assertion. These occurrences are referred to as *subsequent events*. In performing an attest engagement, a practitioner should consider information about subsequent events that comes to his or her attention. Two types of subsequent events require consideration by the practitioner.

.96 The first type consists of events that provide additional information with respect to conditions that existed at the point in time or during the period of time of the subject matter being tested. This information should be used by the practitioner in considering whether the subject matter is presented in conformity with the criteria and may affect the presentation of the subject matter, the assertion, or the practitioner's report.

.97 The second type consists of those events that provide information with respect to conditions that arose subsequent to the point in time or period of time of the subject matter being tested that are of such a nature and significance that their disclosure is necessary to keep the subject matter from being misleading. This type of information will not normally affect the practitioner's report if the information is appropriately disclosed.

.98 While the practitioner has no responsibility to detect subsequent events, the practitioner should inquire of the responsible party (and his or her client if the client is not the responsible party) as to whether they are aware of any subsequent events, through the date of the practitioner's report, that would have a material effect on the subject matter or assertion.²⁰ If the practitioner has decided to obtain a representation letter, the letter ordinarily would include a representation concerning subsequent events. (See paragraphs .60 and .61.)

.99 The practitioner has no responsibility to keep informed of events subsequent to the date of his or her report; however, the practitioner may later become aware of conditions that existed at that date that might have affected

¹⁹ If the client does not have an audit committee, the practitioner should communicate with individuals whose authority and responsibility are equivalent to those of an audit committee, such as the board of directors, the board of trustees, an owner in a owner-managed entity, or those who engaged the practitioner. [Footnote renumbered by the issuance of Statement on Standards for Attestation Engagements No. 14, November 2006.]

²⁰ For certain subject matter, specific subsequent event standards have been developed to provide additional requirements for engagement performance and reporting. Additionally, a practitioner engaged to examine the design or effectiveness of internal control over items not covered by section 501, *An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements*, or section 601, *Compliance Attestation*, should consider the subsequent events guidance set forth in sections 501.129–.134 and 601.50–.52. [Footnote renumbered by the issuance of Statement on Standards for Attestation Engagements No. 14, November 2006.]

the practitioner's report had he or she been aware of them. In such circumstances, the practitioner may wish to consider the guidance in AU section 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*.

Attest Documentation²¹

.100 The practitioner should prepare and maintain attest documentation, the form and content of which should be designed to meet the circumstances of the particular attest engagement.^[22] Attest documentation is the principal record of attest procedures applied, information obtained, and conclusions or findings reached by the practitioner in the engagement. The quantity, type, and content of attest documentation are matters of the practitioner's professional judgment. [As amended, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

.101 Attest documentation serves mainly to:

- a. Provide the principal support for the practitioner's report, including the representation regarding observance of the standards of fieldwork, which is implicit in the reference in the report to attestation standards.²³
- b. Aid the practitioner in the conduct and supervision of the attest engagement.

For examinations of prospective financial statements, attest documentation ordinarily should indicate that the process by which the entity develops its prospective financial statements was considered in determining the scope of the examination. [Paragraph added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

.102 Examples of attest documentation are work programs, analyses, memoranda, letters of confirmation and representation, abstracts or copies of entity documents, and schedules or commentaries prepared or obtained by the practitioner. Attest documentation may be in paper form, electronic form, or other media. [Paragraph renumbered and amended, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

.103 Attest documentation should be sufficient to (a) enable members of the engagement team with supervision and review responsibilities to understand the nature, timing, extent, and results of attest procedures performed,

²¹ *Attest documentation* also may be referred to as *working papers*. [Footnote added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11. Footnote renumbered by the issuance of Statement on Standards for Attestation Engagements No. 14, November 2006.]

^[22] [Footnote renumbered and deleted by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002. Footnote subsequently renumbered by the issuance of Statement on Standards for Attestation Engagements No. 14, November 2006.]

²³ However, there is no intention to imply that the practitioner would be precluded from supporting his or her report by other means in addition to attest documentation. [Footnote added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11. Footnote renumbered by the issuance of Statement on Standards for Attestation Engagements No. 14, November 2006.]

and the information obtained²⁴ and (b) indicate the engagement team member(s) who performed and reviewed the work. [Paragraph added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

.104 Attest documentation is the property of the practitioner, and some states recognize this right of ownership in their statutes. The practitioner should adopt reasonable procedures to retain attest documentation for a period of time sufficient to meet the needs of his or her practice and to satisfy any applicable legal or regulatory requirements for records retention.^{25, [26]} [Paragraph renumbered and amended, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

.105 The practitioner has an ethical, and in some situations a legal, obligation to maintain the confidentiality of client information or information of the responsible party.²⁷ Because attest documentation often contains confidential information, the practitioner should adopt reasonable procedures to maintain the confidentiality of that information.[†] [Paragraph added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

.106 The practitioner also should adopt reasonable procedures to prevent unauthorized access to attest documentation. [Paragraph added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

.107 Certain attest documentation may sometimes serve as a useful reference source for the client, but it should not be regarded as a part of, or a substitute for, the client's records. [Paragraph renumbered and amended, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

²⁴ A firm of practitioners has a responsibility to adopt a system of quality control policies and procedures to provide the firm with reasonable assurance that its personnel comply with applicable professional standards, including attestation standards, and the firm's standards of quality in conducting individual attest engagements. Review of attest documentation and discussions with engagement team members are among the procedures a firm performs when monitoring compliance with the quality control policies and procedures that it has established. (Also, see paragraphs .17 and .18.) [Footnote added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11. Footnote renumbered by the issuance of Statement on Standards for Attestation Engagements No. 14, November 2006.]

²⁵ The procedures should enable the practitioner to access electronic attest documentation throughout the retention period. [Footnote added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11. Footnote renumbered by the issuance of Statement on Standards for Attestation Engagements No. 14, November 2006.]

^[26] [Footnote renumbered and deleted by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002. Footnote subsequently renumbered by the issuance of Statement on Standards for Attestation Engagements No. 14, November 2006.]

²⁷ Also, see Rule 301, *Confidential Client Information*, of the AICPA's Code of Professional Conduct [ET section 301.01]. [Footnote added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11. Footnote renumbered by the issuance of Statement on Standards for Attestation Engagements No. 14, November 2006.]

[†] **Note:** See the Attest Interpretation, "Providing Access to or Copies of Attest Documentation to a Regulator" (section 9101.43-.46).

[.108] [Paragraph renumbered and deleted by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

Attest Services Related to Consulting Service Engagements

Attest Services as Part of a Consulting Service Engagement

.109 When a practitioner provides an attest service (as defined in this section) as part of a consulting service engagement, this SSAE applies only to the attest service. The SSCS applies to the balance of the consulting service engagement. [Paragraph renumbered by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

.110 When the practitioner determines that an attest service is to be provided as part of a consulting service engagement, the practitioner should inform the client of the relevant differences between the two types of services and obtain concurrence that the attest service is to be performed in accordance with the appropriate professional requirements. The practitioner should take such actions because the professional requirements for an attest service differ from those for a consulting service engagement. [Paragraph renumbered by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

.111 The practitioner should issue separate reports on the attest engagement and the consulting service engagement and, if presented in a common binder, the report on the attest engagement or service should be clearly identified and segregated from the report on the consulting service engagement. [Paragraph renumbered by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

Subject Matter, Assertions, Criteria, and Evidence

.112 An attest service may involve subject matter, an assertion, criteria, or evidential matter developed during a concurrent or prior consulting service engagement. Subject matter or an assertion developed with the practitioner's advice and assistance as the result of such consulting services engagement may be the subject of an attest engagement, provided the responsible party accepts and acknowledges responsibility for the subject matter or assertion. (See paragraph .12.) Criteria developed with the practitioner's assistance may be used to evaluate subject matter in an attest engagement, provided such criteria meet the requirements of this section. Relevant information obtained in the course of a concurrent or prior consulting service engagement may be used as evidential matter in an attest engagement, provided the information satisfies the requirements of this section. [Paragraph renumbered by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

Effective Date

.113 This section is effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001. Early application is permitted. [Paragraph renumbered by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

.114

Appendix A

Examination Reports

Example 1

This is a standard examination report on subject matter for general use. This report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. (See paragraphs .78 to .83 for guidance on restricting the use of the report when criteria are available only to specified parties; see Example 4 for an illustration of such a report.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have examined the *[identify the subject matter—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*. XYZ Company's management is responsible for the schedule of investment returns. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting *[identify the subject matter—for example, XYZ Company's schedule of investment returns]* and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

In our opinion, the schedule referred to above presents, in all material respects, *[identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX]* based on *[identify criteria—for example, the ABC criteria set forth in Note 1]*.

[Signature]

[Date]

Example 2

This report is a standard examination report on an assertion for general use. The report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. (See paragraphs .78 to .83 for guidance on restricting the use of the report when criteria are available only to specified parties.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have examined management's assertion that *[identify the assertion—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX is presented in accordance with ABC criteria set forth in Note 1]*. XYZ Company's management is responsible for the assertion. Our responsibility is to express an opinion on the assertion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting management's assertion and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the assertion.]

In our opinion, management's assertion referred to above is fairly stated, in all material respects, based on *[identify established or stated criteria—for example, the ABC criteria set forth in Note 1]*.

[Signature]

[Date]

Example 3

This is an examination report for general use; the introductory paragraph states the practitioner has examined management's assertion but the practitioner opines directly on the subject matter (see paragraph .87). The report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. (See paragraphs .78 to .83 for guidance on restricting the use of the report when criteria are available only to specified parties.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have examined management's assertion that *[identify the assertion—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX is presented in accordance with the ABC criteria set forth in Note 1]*. XYZ Company's management is responsible for the assertion. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting *[identify the subject matter—for example, XYZ Company's schedule of investment returns]* and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the assertion.]

In our opinion, the schedule referred to above, presents, in all material respects, *[identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX]* based on *[identify criteria—for example, the ABC criteria set forth in Note 1]*.

[Signature]

[Date]

Example 4

This is an examination report on subject matter. Although suitable criteria exist, use of the report is restricted because the criteria are available only to specified parties. (See paragraph .34.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have examined the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX. XYZ Company's management is responsible for the schedule of investment returns. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting *[identify the subject matter—for example, XYZ Company's schedule of investment returns]* and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the assertion.]

In our opinion, the schedule referred to above, presents, in all material respects, *[identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX]* based on the ABC criteria referred to in the investment management agreement between XYZ Company and DEF Investment Managers, Ltd., dated November 15, 20X1.

This report is intended solely for the information and use of XYZ Company and *[identify other specified parties—for example, DEF Investment Managers, Ltd.]* and is not intended to be and should not be used by anyone other than these specified parties.

Example 5

This is an examination report with a qualified opinion because conditions exist that, individually or in combination, result in one or more material misstatements or deviations from the criteria; the report is for general use. The report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. (See paragraphs .78 to .83 for guidance on restricting the use of the report when criteria are available only to specified parties.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have examined the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX. XYZ Company's management is responsible for the schedule of investment returns. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting *[identify the subject matter—for example, XYZ Company's schedule of investment returns]* and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

Our examination disclosed the following *[describe condition(s) that, individually or in the aggregate, resulted in a material misstatement or deviation from the criteria]*.

In our opinion, except for the material misstatement [or *deviation from the criteria*] described in the preceding paragraph, the schedule referred to above, presents, in all material respects, [*identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX*] based on [*identify criteria—for example, the ABC criteria set forth in Note 1*].

[Signature]

[Date]

Example 6

This is an examination report that contains a disclaimer of opinion because of a scope restriction. (See paragraph .74 for reporting guidance when there is a scope restriction.) The report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter.

Independent Accountant's Report

We were engaged to examine the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX. XYZ Company's management is responsible for the schedule of investment returns.

[*Scope paragraph should be omitted.*]

[*Include paragraph to describe scope restrictions.*]

Because of the restriction on the scope of our examination discussed in the preceding paragraph, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on whether the schedule referred to above presents, in all material respects, [*identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX*] based on [*identify criteria—for example, the ABC criteria set forth in Note 1*].

Example 7

This is an examination report on subject matter that is the responsibility of a party other than the client. The report is restricted as to use since a written assertion has not been provided by the responsible party. (See paragraph .78.) The subject matter pertains to criteria that are suitable and are available to the client.

Independent Accountant's Report

To the Board of Directors

DEF Company:

We have examined the [*identify the subject matter—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX*]. XYZ Company's management is responsible for the schedule of investment returns. XYZ management did not provide us a written assertion about their schedule of investment returns for the year ended December 31, 20XX. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting *[identify the subject matter—for example, XYZ Company's schedule of investment returns]* and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

In our opinion, the schedule referred to above presents, in all material respects, *[identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX]* based on *[identify criteria—for example, the ABC criteria set forth in Note 1]*.

This report is intended solely for the information and use of the management and board of directors of DEF Company and is not intended to be and should not be used by anyone other than these specified parties.

Appendix B

Review Reports

Example 1

This is a standard review report on subject matter for general use. The report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. (See paragraphs .78 to .83 for guidance on restricting the use of the report when criteria are available only to specified parties.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have reviewed the *[identify the subject matter—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*. XYZ Company's management is responsible for the schedule of investment returns.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on *[identify the subject matter—for example, XYZ Company's schedule of investment returns]*. Accordingly, we do not express such an opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

Based on our review, nothing came to our attention that caused us to believe that the *[identify the subject matter—for example, schedule of investment returns of XYZ Company for the year ended December 31, 20XX]* is not presented, in all material respects, in conformity with *[identify the criteria—for example, the ABC criteria set forth in Note 1]*.

[Signature]

[Date]

Example 2

This is a review report on subject matter that is the responsibility of a party other than the client. This review report is restricted as to use since a written assertion has not been provided by the responsible party. (See paragraph .78.) The subject matter pertains to criteria that are suitable and are available to the client.

Independent Accountant's Report

To the Board of Directors

DEF Company:

We have reviewed *[identify the subject matter—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*. XYZ Company's management is responsible for the schedule of investment returns. XYZ Company's management did not provide us a written assertion about their schedule of investment returns for the year ended December 31, 20XX.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on *[identify the subject matter—for example, XYZ Company's schedule of investment returns]*. Accordingly, we do not express such an opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

Based on our review, nothing came to our attention that caused us to believe that *[identify the subject matter—for example, the schedule of investment returns of XYZ Company for the year ended December 31, 20XX]* is not presented, in all material respects, in conformity with *[identify the criteria—for example, the ABC criteria set forth in Note 1]*.

This report is intended solely for the information and use of the management and board of directors of DEF Company and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

Example 3

This is a review report on an assertion. Although suitable criteria exist for the subject matter, the report is restricted as to use since the criteria are available only to specified parties; if the criteria are available as described in paragraph .33 (a) to (d), the paragraph restricting the use of the report would be omitted. A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have reviewed management's assertion that *[identify the assertion—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX is presented in accordance with the ABC criteria referred to in Note 1]*. XYZ Company's management is responsible for the assertion.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's assertion. Accordingly, we do not express such an opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the assertion.]

Based on our review, nothing came to our attention that caused us to believe that management's assertion referred to above is not fairly stated, in all material respects, based on *[identify the criteria—for example, the ABC criteria referred to in the investment management agreement between XYZ Company and DEF Investment Managers, Ltd., dated November 15, 20X1]*.

This report is intended solely for the information and use of XYZ Company and *[identify other specified parties—for example, DEF Investment Managers, Ltd.]* and is not intended to be and should not be used by anyone other than these specified parties.

AT Section 9101

Attest Engagements: Attest Engagements Interpretations of Section 101

1. Defense Industry Questionnaire on Business Ethics and Conduct¹

.01 Question—Certain defense contractors have made a commitment to adopt and implement six principles of business ethics and conduct contained in the *Defense Industry Initiatives on Business Ethics and Conduct* (initiatives). One of those principles concerns defense contractors' public accountability for their commitment to the initiatives. That public accountability begins by the contractor completing an annual *Public Accountability Questionnaire* (questionnaire).

.02 Each of the participating signatory companies (signatories) completes a questionnaire concerning certain policies, procedures, and programs that were to have been in place during the reporting period. The public accountability process requires signatories to perform internal audits and to provide officer certifications as to whether the responses to the questionnaire are current and accurate.

.03 Alternatively, a defense contractor may request its independent public accountant (practitioner) to examine or review its responses to the questionnaire for the purpose of expressing a conclusion about the appropriateness of those responses in a report. Would such an engagement be an attest engagement under section 101, *Attest Engagements*?

.04 Interpretation—Section 101 states that the attestation standards apply when a CPA in the practice of public accounting is engaged to issue or does issue an examination, a review, or an agreed-upon procedures report on subject matter, or an assertion about the subject matter that is the responsibility of another party. When a practitioner is engaged by a defense contractor to provide an examination or a review report on the contractor's written responses to the questionnaire, such an engagement involves subject matter that is the responsibility of the defense contractor. Consequently, section 101 applies to such engagements.

.05 Question—Paragraph .23 of section 101 specifies that "the practitioner must have reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users." What are the criteria against which such subject matter is to be evaluated and are such criteria suitable and available?

.06 Interpretation—The criteria for evaluating the defense contractor's responses are set forth primarily in the questionnaire and the instructions thereto. The suitability of those criteria should be evaluated by assessing whether the criteria meet the characteristics discussed in paragraph .24 of section 101.

.07 The criteria set forth in the questionnaire and its instructions will, when properly followed, be suitable. Although these should provide suitable

¹ Information regarding the Defense Industry Initiative on Business Ethics and Conduct (DII) is available at DII's website www.dii.org.

criteria, the questionnaire and its instructions are not generally available. Therefore, the practitioner's report should normally be restricted. The availability requirement can be met if the defense contractor attaches the criteria to the presentation.

.08 Question—What is the nature of the procedures that should be applied to the questionnaire responses?

.09 Interpretation—The objective of the procedures performed in either an examination or a review engagement is to obtain evidential matter that the defense contractor has designed and placed in operation policies and programs in a manner that supports the signatory's responses to each of the questions on the questionnaire and that the policies and programs operated during the period covered by the questionnaire. The objective does not include providing assurance about whether the defense contractor's policies and programs operated effectively to ensure compliance with the defense contractor's code of business ethics and conduct on the part of individual employees or about whether the defense contractor and its employees have complied with federal procurement laws. In an examination, the evidential matter should be sufficient to limit attestation risk to a level that is appropriately low for the high degree of assurance imparted by an examination report. In a review, this evidential matter should be sufficient to limit attestation risk to a moderate level.

.10 Examination procedures include obtaining evidential matter by reading relevant policies and programs, making inquiries of appropriate defense contractor personnel, inspecting documents and records, confirming defense contractor assertions with its employees or others, and observing activities. In an examination it will be necessary for a practitioner's procedures to go beyond simply reading relevant policies and programs and making inquiries of appropriate defense contractor personnel. Alternatively, review procedures are generally limited to reading relevant policies and procedures and making inquiries of appropriate defense contractor personnel. When applying examination or review procedures, the practitioner should assess the appropriateness (including the comprehensiveness) of the policies and programs supporting the signatory's responses to each of the questions on the questionnaire.

.11 A particular defense contractor's policies and programs may vary from those of other defense contractors. As a result, evidential matter obtained from the procedures performed cannot be evaluated solely on a quantitative basis. Consequently, it is not practicable to establish only quantitative guidelines for determining the nature or extent of the evidential matter that is necessary to provide the assurance required in either an examination or a review. The qualitative aspects should also be considered.

.12 In determining the nature, timing, and extent of examination or review procedures, the practitioner should consider information obtained in the performance of other services for the defense contractor, for example, the audit of the defense contractor's financial statements. For multi-location defense contractors, whether policies and programs operated during the period should be evaluated for both the defense contractor's headquarters and for selected defense contracting locations. The practitioner may consider using the work of the defense contractor's internal auditors. The guidance in AU section 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, may be useful in that consideration.

.13 Examination procedures, and in some instances review procedures, may require access to information involving specific instances of actual or alleged noncompliance with laws. An inability to obtain access to such information because of restrictions imposed by a defense contractor (for example, to protect

attorney-client privilege) may constitute a scope limitation. Section 101 paragraphs .73–.75 provide guidance in such situations. The practitioner should assess the effect of the inability to obtain access to such information on his or her ability to form a conclusion about whether the related policy or program operated during the period. If the defense contractor's reasons for not permitting access to the information are reasonable (for example, the information is the subject of litigation or a governmental investigation) and have been approved by an executive officer of the defense contractor, the occurrences of restricted access to information are few in number, and the practitioner has access to other information about that specific instance or about other instances that is sufficient to permit a conclusion to be formed about whether the related policy or program operated during the period, the practitioner ordinarily would conclude that it is not necessary to disclaim assurance.

.14 If the practitioner's scope of work has been restricted with respect to one or more questions, the practitioner should consider the implications of that restriction on the practitioner's ability to form a conclusion about other questions. In addition, as the nature or number of questions on which the defense contractor has imposed scope limitations increases in significance, the practitioner should consider whether to withdraw from the engagement.

.15 *Question*—What is the form of report that should be issued to meet the requirements of section 101?

.16 *Interpretation*—The standards of reporting in section 101 provide guidance about report content and wording and the circumstances that may require report modification. Appendix A and appendix B provide illustrative reports appropriate for various circumstances. Section 101 paragraph .66 permits the practitioner to report directly on the subject matter or on management's assertion. In either case, the practitioner should ordinarily obtain a written assertion. An illustrative defense contractor assertion is also presented in appendix A and appendix B.

.17 The engagements addressed in this interpretation do not include providing assurance about whether the defense contractor's policies and programs operated effectively to ensure compliance with the defense contractor's code of business ethics and conduct on the part of individual employees or about whether the defense contractor and its employees have complied with federal procurement laws. The practitioner's report should explicitly disclaim an opinion on the extent of such compliance.

.18 Because variations in individual performance and interpretation will affect the operation of the defense contractor's policies and programs during the period, adherence to all such policies and programs in every case may not be possible. In determining whether a reservation about a response in the questionnaire is sufficiently significant to result in an opinion modified for an exception to that response, the practitioner should consider the nature, causes, patterns, and pervasiveness of the instances in which the policies and programs did not operate as designed and their implications for that response in the questionnaire.

.19 When scope limitations have precluded the practitioner from forming an opinion on the responses to one or more questions, the practitioner's report should describe all such scope restrictions. If the defense contractor imposed such a scope limitation after the practitioner had begun performing procedures, that fact should be stated in the report.

.20 A defense contractor may request the practitioner to communicate to management, the board of directors, or one of its committees, either orally or in writing, conditions noted that do not constitute significant reservations about the answers to the questionnaire but that might nevertheless be of value to management. Agreed-upon arrangements between the practitioner and the defense contractor to communicate conditions noted may include, for example, the reporting of matters of less significance than those contemplated by the criteria, the existence of conditions specified by the defense contractor, the results of further investigation of matters noted to identify underlying causes, or suggestions for improvements in various policies or programs. Under these arrangements, the practitioner may be requested to visit specific locations, assess the effectiveness of specific policies or programs, or undertake specific procedures not otherwise planned. In addition, the practitioner is not precluded from communicating matters believed to be of value, even if no specific request has been made.

Instructions and Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____.

Examination Report

Independent Accountant's Report

To the Board of Directors of the XYZ Company

We have examined the XYZ Company's *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____*, and the Questionnaire and responses attached thereto. XYZ Company's management is responsible for its responses to the Questionnaire. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence as to whether XYZ Company had policies and programs in operation during that period that support the affirmative responses to the *Questionnaire* and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination procedures were not designed, however, to evaluate whether the aforementioned policies and programs operated effectively to ensure compliance with the Company's *Code of Business Ethics and Conduct* on the part of individual employees or to evaluate the extent to which the Company or its employees have complied with federal procurement laws, and we do not express an opinion or any other form of assurance thereon.

In our opinion, the affirmative responses in the Questionnaire accompanying the *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____* referred to above are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

Illustration 2: Unqualified Opinion; Report Modified for Negative Responses to Defense Contractor Assertion; Use of the Report is Restricted Because Criteria are Available Only to Specified Parties

Defense Contractor Assertion

Statement of Responses to the Defense Industry Questionnaire on *Business Ethics and Conduct for the period from _____ to _____*.

The affirmative responses in the accompanying *Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____* are based on policies and programs in operation for that period and are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire. Negative responses indicate that the Company did not have policies and programs in operation during that period with respect to those areas.

Attachments: None

(The responses could include an explanation of negative responses if the defense contractor so desired.)

Examination Report

Independent Accountant's Report

To the Board of Directors of the XYZ Company

We have examined the XYZ Company's *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____*. XYZ Company's management is responsible for its responses to the Questionnaire. Our responsibility is to express an opinion based on our examination.

[Standard Scope Paragraph]

In our opinion, the affirmative responses in the Questionnaire referred to above are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire. The negative responses to Questions _____ and _____ in the Questionnaire indicate that the Company did not have policies and programs in operation during the period with respect to those areas.

This report is intended solely for the information and use of the XYZ Company and [identify other specified parties—for example, the Defense Industry Initiative] and is not intended to be and should not be used by anyone other than these specified parties.

Illustration 3: Opinion Modified for Exception on Certain Response

Defense Contractor Assertion

Statement of Responses to the Defense Industry Questionnaire on *Business Ethics and Conduct for the period from _____ to _____*.

The affirmative responses in the accompanying *Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____*, are based on policies and programs in operation for that period and are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

Attachments:

Defense Industry Initiatives on Business Ethics and Conduct

Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____.

Examination Report**Independent Accountant's Report**

To the Board of Directors of the XYZ Company

[Standard Introductory and Scope Paragraphs]

Management believes that an appropriate mechanism exists for informing employees of the results of any follow-up into their charges of violations of the Company's Code of Business Ethics and Conduct, and has accordingly answered Question 12 in the affirmative. That mechanism consists principally of distributing newspaper articles and press releases of violations of federal procurement laws that have been voluntarily reported to the appropriate governmental agencies. We do not believe that such a mechanism is sufficient, inasmuch as it does not provide follow-up information on violations reported by employees that are not deemed reportable to a governmental agency. Consequently, in our opinion, the affirmative response to Question 12 in the Questionnaire is not appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

In our opinion, except for the response to Question 12 as discussed in the preceding paragraph, the affirmative responses in the Questionnaire accompanying the *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____* referred to above are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

Illustration 4: Opinion Modified for Exception on a Certain Response; Report also Modified for Negative Responses

Defense Contractor Assertion

Statement of Responses to the *Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____*.

The affirmative responses in the accompanying *Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____* are based on policies and programs in operation for that period and are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire. Negative responses indicate that the Company did not have policies and programs in operation during that period with respect to those areas.

(The responses could include an explanation of negative responses if the defense contractor so desired.)

Examination Report

Independent Accountant's Report

To the Board of Directors of the XYZ Company

[Standard Introductory and Scope Paragraphs]

Management believes that an appropriate mechanism exists for letting employees know of the results of any follow-up into their charges of violations of the Company's Code of Business Ethics and Conduct, and has accordingly answered Question 12 in the affirmative. That mechanism consists principally of distributing newspaper articles and press releases of violations of federal procurement laws that have been voluntarily reported to the appropriate governmental agencies. We do not believe that such a mechanism is sufficient, inasmuch as it does not provide follow-up information on violations reported by employees that are not deemed reportable to a governmental agency. Consequently, in our opinion, the affirmative response to Question 12 in the Questionnaire is not appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

In our opinion, except for the response to Question 12 as discussed in the preceding paragraph, the affirmative responses in the Questionnaire accompanying the *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____* referred to above are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire. The negative responses to Questions _____ and _____ in the Questionnaire indicate that the Company did not have policies and programs in operation during the period with respect to those areas.

Illustration 5: Opinion Disclaimed on Certain Responses Because of Scope Restrictions Imposed by Client

Defense Contractor Assertion

Statement of Responses to the Defense Industry Questionnaire on *Business Ethics and Conduct for the period from _____ to _____*.

The affirmative responses in the accompanying *Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____* are based on policies and programs in operation for that period and are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

Attachments:

Defense Industry Initiatives on Business Ethics and Conduct

Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____ .

Examination Report

Independent Accountant's Report

To the Board of Directors of the XYZ Company

[*Standard Introductory Paragraph*]

Except as described below, our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence as to whether XYZ Company had policies and programs in operation during that period that support the affirmative responses to the *Questionnaire*. We believe that our examination provides a reasonable basis for our opinion. Our examination procedures were not designed, however, to evaluate whether the aforementioned policies and programs operated effectively to ensure compliance with the Company's *Code of Business Ethics and Conduct* on the part of individual employees or to evaluate the extent to which the Company or its employees have complied with federal procurement laws, and we do not express an opinion or any other form of assurance thereon.

We were not permitted to read relevant documents and files or interview appropriate employees to determine that the affirmative answers to Questions 6, 7, and 8 are appropriate. The nature of those questions precluded us from satisfying ourselves as to the appropriateness of those answers by means of other examination procedures.

In our opinion, the affirmative responses to Questions 1 through 5 and 9 through 17 in the Questionnaire accompanying the *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____* referred to above are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire. Because of the matters discussed in the preceding paragraph, the scope of our work was not sufficient to express, and we do not express, an opinion on the appropriateness of the affirmative responses to Questions 6, 7, and 8 in the Questionnaire.

Appendix B

Review Report

Independent Accountant's Report

To the Board of Directors of the XYZ Company

We have reviewed the XYZ Company's *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____*. XYZ Company's management is responsible for the Statement of Responses to the Defense Industry Questionnaire on Business Ethics.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on the affirmative responses in the Questionnaire. Accordingly, we do not express such an opinion. Additionally, our review was not designed to evaluate whether the aforementioned policies and programs operated effectively to ensure compliance with the Company's *Code of Business Ethics and Conduct* on the part of individual employees or to evaluate the extent to which the Company or its employees have complied with federal procurement laws and we do not express an opinion or any other form of assurance thereon.

Based on our review, nothing came to our attention that caused us to believe that the affirmative responses in the Questionnaire referred to above are not appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

This report is intended solely for the information and use of the XYZ Company and [identify other specified parties—for example, the Defense Industry Initiative] and is not intended to be and should not be used by anyone other than these specified parties.

[Issue Date: August 1987; Amended: February 1989;
Modified: May 1989; Revised: January 2001; November 2006.]

2. Responding to Requests for Reports on Matters Relating to Solvency

.23 Question—Lenders, as a requisite to the closing of certain secured financings in connection with leveraged buyouts, recapitalizations and certain other financial transactions, have sometimes requested written assurance from an accountant regarding the prospective borrower's solvency and related matters.² The lender is concerned that such financings not be considered to include a fraudulent conveyance or transfer under the Federal Bankruptcy Code³ or the relevant state fraudulent conveyance or transfer statute.⁴ If the financing is subsequently determined to have included a fraudulent conveyance or transfer, repayment obligations and security interests may be set aside or subordinated to the claims of other creditors.

.24 May a practitioner provide assurance concerning *matters relating to solvency* as hereinafter defined?

.25 Interpretation—No. For reasons set forth subsequently, a practitioner should not provide any form of assurance, through examination, review, or agreed-upon procedures engagements, that an entity

- is not insolvent at the time the debt is incurred or would not be rendered insolvent thereby.
- does not have unreasonably small capital.
- has the ability to pay its debts as they mature.

² Although this interpretation describes requests from secured lenders and summarizes the potential effects of fraudulent conveyance or transfer laws upon such lenders, the interpretation is not limited to requests from lenders. All requests for assurance on matters relating to solvency are governed by this interpretation.

³ Section 548 of the Federal Bankruptcy Code defines *fraudulent transfers and obligations* as follows:

The trustee may avoid any transfer of an interest of the debtor in property or any obligation incurred by the debtor, that was made or incurred on or within one year before the date of the filing of the petition, if the debtor voluntarily or involuntarily—

- (1) made such transfer or incurred such obligation with actual intent to hinder, delay, or defraud any entity to which the debtor was or became, on or after the date that such transfer occurred or such obligation was incurred, indebted; or
- (2)(A) received less than a reasonably equivalent value in exchange for such transfer or obligation; and
- (2)(B)(i) was insolvent on the date that such transfer was made or such obligation was incurred, or became insolvent as a result of such transfer or obligation;
- (2)(B)(ii) was engaged in business or a transaction, or was about to engage in business or a transaction, for which any property remaining with the debtor was an unreasonably small capital; or
- (2)(B)(iii) intended to incur, or believed that the debtor would incur, debts that would be beyond the debtor's ability to pay as such debts matured. (Bankruptcy Law Reporter, 3 vols. [Chicago: Commerce Clearing House, 1986], vol. 1, 1339).

⁴ State fraudulent conveyance or transfer statutes such as the Uniform Fraudulent Conveyance Act and the Uniform Fraudulent Transfer Act reflect substantially similar provisions. These state laws may be employed absent a declaration of bankruptcy or by a bankruptcy trustee under Section 544(1) of the Federal Bankruptcy Code. Although the statute of limitations varies from state to state, in some states financing transactions may be vulnerable to challenge for up to six years from closing.

In the context of particular transactions other terms are sometimes used or defined by the parties as equivalents of or substitutes for the terms listed above (for example, *fair salable value of assets exceeds liabilities*). These terms, and those matters listed previously, are hereinafter referred to as *matters relating to solvency*. The prohibition extends to providing assurance concerning all such terms.

.26 The third general attestation standard states that the practitioner must have reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users. Suitable criteria must have each of the following attributes:

- *Objectivity*—Criteria should be free from bias.
- *Measurability*—Criteria should permit reasonably consistent measurements, qualitative or quantitative, of subject matter.
- *Completeness*—Criteria should be sufficiently complete so those relevant factors that would alter a conclusion about subject matter are not omitted.
- *Relevance*—Criteria should be relevant to the subject matter.

In addition, the second general attestation standard states that the practitioner must have adequate knowledge of the subject matter.

.27 The matters relating to solvency mentioned in paragraph .23 are subject to legal interpretation under, and varying legal definition in, the Federal Bankruptcy Code and various state fraudulent conveyance and transfer statutes. Because these matters are not clearly defined in an accounting sense, and are therefore subject to varying interpretations, they do not provide the practitioner with suitable criteria required to evaluate the subject matter or an assertion under the third general attestation standard. In addition, lenders are concerned with legal issues on matters relating to solvency and the practitioner is generally unable to evaluate or provide assurance on these matters of legal interpretation. Therefore, practitioners are precluded from giving any form of assurance on matters relating to solvency or any financial presentation of matters relating to solvency.

.28 Under existing AICPA standards, the practitioner may provide a client with various professional services that may be useful to the client in connection with a financing. These services include the following:

- Audit of historical financial statements
- Review of historical financial information (a review in accordance with AU section 722, *Interim Financial Information*, of interim financial information, or in accordance with AR section 100, *Compilation and Review of Financial Statements*)
- Examination or review of pro forma financial information (section 401, *Reporting on Pro Forma Financial Information*)
- Examination or compilation of prospective financial information (section 301, *Financial Forecasts and Projections*)

.29 In addition, under existing AICPA attestation standards (section 201, *Agreed-Upon Procedures Engagements*), the practitioner can provide the client and lender with an agreed-upon procedures report. In such an engagement, a client and lender may request that specified procedures be applied to various financial presentations, such as historical financial information, pro forma financial information, and prospective financial information, which can be useful to a client or lender in connection with a financing.

.30 The practitioner should be aware that certain of the services described in paragraph .28 require that the practitioner have an appropriate level of knowledge of the entity's accounting and financial reporting practices and its internal control. This has ordinarily been obtained by the practitioner auditing historical financial statements of the entity for the most recent annual period or by otherwise obtaining an equivalent knowledge base. When considering acceptance of an engagement relating to a financing, the practitioner should consider whether he or she can perform these services without an equivalent knowledge base.

.31 A report on agreed-upon procedures should not provide any assurances on matters relating to solvency or any financial presentation of matters relating to solvency (for example, fair salable value of assets less liabilities or fair salable value of assets less liabilities, contingent liabilities, and other commitments). A practitioner's report on the results of applying agreed-upon procedures should contain the report elements set forth in paragraph .31 of section 201 (or paragraph .55 of section 301 if applying agreed upon procedures to prospective financial information). The practitioner's report on the results of applying agreed-upon procedures should state that

- the service has been requested in connection with a financing (no reference should be made to any solvency provisions in the financing agreement).
- no representations are provided regarding questions of legal interpretation.
- no assurance is provided concerning the borrower's (a) solvency, (b) adequacy of capital, or (c) ability to pay its debts.
- the procedures should not be taken to supplant any additional inquiries and procedures that the lender should undertake in its consideration of the proposed financing.
- where applicable, an audit of recent historical financial statements has previously been performed and that no audit of any historical financial statements for a subsequent period has been performed. In addition, if any services have been performed pursuant to paragraph .28, they may be referred to.

.32 The report ordinarily is dated at or shortly before the closing date. The financing agreement ordinarily specifies the date, often referred to as the cutoff date, to which the report is to relate (for example, a date three business days before the date of the report). The report should state that the inquiries and other procedures carried out in connection with the report did not cover the period from the cutoff date to the date of the report.

.33 The practitioner might consider furnishing the client with a draft of the agreed-upon procedures report. The draft report should deal with all matters expected to be covered in the terms expected to be used in the final report. The draft report should be identified as a draft in order to avoid giving the impression that the procedures described therein have been performed. This practice of furnishing a draft report at an early point permits the practitioner to make clear to the client and lender what they may expect the accountant to furnish and gives them an opportunity to change the financing agreement or the agreed-upon procedures if they so desire.

[Issue Date: May 1988; Amended: February 1993;
Revised: January 2001; November 2006.]

3. Applicability of Attestation Standards to Litigation Services

.34 Question—Section 101 paragraph .04 provides an example of a litigation service provided by practitioners that would not be considered an attest engagement as defined by section 101. When does section 101 not apply to litigation service engagements?

.35 Interpretation—Section 101 does not apply to litigation services that involve pending or potential formal legal or regulatory proceedings before a *trier of fact*⁵ in connection with the resolution of a dispute between two or more parties in any of the following circumstances when the

- a. practitioner has not been engaged to issue and does not issue an examination, a review, or an agreed-upon procedures report on subject matter, or an assertion about the subject matter that is the responsibility of another party.
- b. service comprises being an expert witness.
- c. service comprises being a trier of fact or acting on behalf of one.
- d. practitioner's work under the rules of the proceedings is subject to detailed analysis and challenge by each party to the dispute.
- e. practitioner is engaged by an attorney to do work that will be protected by the attorney's work product privilege and such work is not intended to be used for other purposes.

When performing such litigation services, the practitioner should comply with Rule 201, *General Standards* (ET sec. 201 par. .01) of the AICPA Code of Professional Conduct.

.36 Question—When does section 101 apply to litigation service engagements?

.37 Interpretation—Section 101 applies to litigation service engagements only when the practitioner is engaged to issue or does issue an examination, a review, or an agreed-upon procedures report on subject matter, or an assertion about the subject matter, that is the responsibility of another party.

.38 Question—Paragraph .04(c) of section 101 provides the following example of litigation service engagements that are not considered attest engagements: "Services performed in accordance with the Statement on Standards for Consulting Services, such as . . . engagements in which a practitioner is engaged to testify as an expert witness in accounting, auditing, taxation, or other matters, given certain stipulated facts."

What does the term *stipulated facts* as used in section 101 paragraph .04(c) mean?

.39 Interpretation—The term *stipulated facts* as used in section 101 paragraph .04(c) means facts or assumptions that are specified by one or more parties to a dispute to serve as the basis for the development of an expert opinion. It is not used in its typical legal sense of facts agreed to by all parties involved in a dispute.

.40 Question—Does Interpretation No. 2, "Responding to Requests for Reports on Matters Relating to Solvency," of section 101 (AR sec. 9101 par. .23–.33), prohibit a practitioner from providing expert testimony, as described in section 101 paragraph .04(c) before a trier of fact on matters relating to solvency?

⁵ A *trier of fact* in this section means a court, regulatory body, or government authority; their agents; a grand jury; or an arbitrator or mediator of the dispute.

.41 Interpretation—No. Matters relating to solvency mentioned in paragraph .25 are subject to legal interpretation under, and varying legal definition in, the Federal Bankruptcy Code and various state fraudulent conveyance and transfer statutes. Because these matters are not clearly defined in an accounting sense, and therefore subject to varying interpretations, they do not provide the practitioner with the suitable criteria required to evaluate the assertion. Thus, Interpretation No. 2 (paragraphs .23–.33) prohibits a practitioner from providing any form of assurance in reporting upon examination, review, or agreed-upon procedures engagements about matters relating to solvency (as defined in paragraph .25).

.42 However, a practitioner who is involved with pending or potential formal legal or regulatory proceedings before a trier of fact in connection with the resolution of a dispute between two or more parties may provide an expert opinion or consulting advice about matters relating to solvency. The prohibition in paragraphs .23–.33 does not apply in such engagements because as part of the legal or regulatory proceedings, each party to the dispute has the opportunity to analyze and challenge the legal definition and interpretation of the matters relating to solvency and the criteria the practitioner uses to evaluate matters related to solvency. Such services are not intended to be used by others who do not have the opportunity to analyze and challenge such definitions and interpretations.

4. Providing Access to or Copies of Attest Documentation to a Regulator

.43 Question—Interpretation No. 1, "Providing Access to or Copies of Audit Documentation to a Regulator," of AU section 339, *Audit Documentation* (AU sec. 9339 par. .01–.15), contains guidance relating to providing access to or copies of audit documentation to a regulator. Is this guidance applicable to an attest engagement when a regulator requests access to or copies of the attest documentation?

.44 Interpretation—Yes. The guidance in Interpretation No. 1 (AU sec. 9339 par. .01–.15) is applicable in these circumstances; however, the letter to a regulator should be tailored to meet the individual engagement characteristics or the purpose of the regulatory request, for example, a quality control review. Illustrative letters for an examination engagement performed in accordance with section 601, *Compliance Attestation*, and an agreed-upon procedures engagement performed in accordance with section 201, follow.

.45 Illustrative letter for examination engagement:

Illustrative Letter to Regulator⁶

[Date]

[Name and Address of Regulatory Agency]

Your representatives have requested access to our attest documentation in connection with our engagement to examine (*identify the subject matter examined*

⁶ The practitioner should appropriately modify this letter when the engagement has been conducted in accordance with Statements on Standards for Attestation Engagements (SSAE) and also in accordance with additional attest requirements specified by a regulatory agency (for example, the requirements specified in *Government Auditing Standards* issued by the Comptroller General of the United States).

or restate management's assertion). It is our understanding that the purpose of your request is (*state purpose*: for example, "to facilitate your regulatory examination").⁷

Our examination was conducted in accordance with attestation standards⁸ established by the American Institute of Certified Public Accountants, the objective of which is to form an opinion as to whether the subject matter (or management's assertion) is fairly stated, in all material respects, based on (*identify criteria*). Under these standards, we have the responsibility to plan and perform our examination to provide a reasonable basis for our opinion and to exercise due professional care in the performance of our examination. Our examination is subject to the inherent risk that material noncompliance, if it exists, would not be detected. In addition, our examination does not address the possibility that material noncompliance may occur in the future. Also, our use of professional judgment and the assessments of attestation risk and materiality for the purpose of our examination means that matters may have existed that would have been assessed differently by you. Our examination does not provide a legal determination on (*name of entity*)'s compliance with specified requirements.

The attest documentation was prepared for the purpose of providing the principal support for our opinion on (*name of entity*)'s compliance and to aid in the performance and supervision of our examination. The attest documentation is the principal record of attest procedures performed, information obtained, and conclusions reached in the examination. The procedures that we performed were limited to those we considered necessary under attestation standards⁹ established by the American Institute of Certified Public Accountants to provide us with reasonable basis for our opinion. Accordingly, we make no representation as to the sufficiency or appropriateness, for your purposes, of either the procedures or information in our attest documentation. In addition, any notations, comments, and individual conclusions appearing on any of the attest documentation do not stand alone and should not be read as an opinion on any part of management's assertion or the related subject matter.

Our examination was conducted for the purpose stated above and was not planned or performed in contemplation of your (*state purpose*: for example, "regulatory examination"). Therefore, items of possible interest to you may not have been specifically addressed. Accordingly, our examination, and the attest documentation prepared in connection therewith, should not supplant other inquiries and procedures that should be undertaken by the (*name of regulatory agency*) for the purpose of monitoring and regulating (*name of entity*). In addition, we have not performed any procedures since the date of our report with respect to the subject matter (*or management's assertion related thereto*), and significant events or circumstances may have occurred since that date.

The attest documentation constitutes and reflects work performed or information obtained by us in the course of our examination. The documents contain trade secrets and confidential commercial and financial information of our firm and (*name of entity*) that is privileged and confidential, and we expressly reserve all rights with respect to disclosures to third parties. Accordingly, we request confidential treatment under the Freedom of Information Act or similar laws and regulations when requests are made for the attest documentation or

⁷ If the practitioner is not required by law, regulation, or engagement contract to provide a regulator access to the attest documentation but otherwise intends to provide such access (see Interpretation No. 1, "Providing Access to or Copies of Audit Documentation to a Regulator," of AU section 339, *Audit Documentation* [AU sec. 9339 par. .11–.15]), the letter should include a statement that: "Management of (*name of entity*) has authorized us to provide you access to our attest documentation for (*state purpose*)."

⁸ Refer to footnote 6.

⁹ Refer to footnote 6.

information contained therein or any documents created by the (*name of regulatory agency*) containing information derived therefrom. We further request that written notice be given to our firm before distribution of the information in the attest documentation (or copies thereof) to others, including other governmental agencies, except when such distribution is required by law or regulation.¹⁰

[If it is expected that copies will be requested, add the following:]

Any copies of our attest documentation we agree to provide you will contain a legend "Confidential Treatment Requested by (*name of practitioner, address, telephone number*)."

[Firm signature]

.46 Example letter for agreed-upon procedures engagements:

Illustrative Letter to Regulator¹¹

[Date]

[Name and Address of Regulatory Agency]

Your representatives have requested access to our attest documentation in connection with our engagement to perform agreed-upon procedures on (*identify the subject matter or management's assertion*). It is our understanding that the purpose of your request is (*state purpose*: for example, "to facilitate your regulatory examinations").¹²

Our agreed-upon procedures engagement was conducted in accordance with attestation standards¹³ established by the American Institute of Certified Public Accountants. Under these standards, we have the responsibility to perform the agreed-upon procedures to provide a reasonable basis for the findings expressed in our report. We were not engaged to, and did not, perform an examination, the objective of which would be to form an opinion on (*identify the subject matter or management's assertion*). Our engagement is subject to the inherent risk that material misstatement of (*identify the subject matter or management's assertion*), if it exists, would not be detected. (*The practitioner may add the following*: "In addition, our engagement does not address the possibility that material misstatement of (*identify the subject matter or management's assertion*) may occur in the future.") The procedures that we performed were limited to those agreed to by the specified users, and the sufficiency of these procedures is solely the responsibility of the specified users of the report. Further, our engagement does not provide a legal determination on (*name of entity*)'s compliance with specified requirements.

The attest documentation was prepared to document agreed-upon procedures applied, information obtained, and findings reached in the engagement. Accordingly, we make no representation, for your purposes, as to the sufficiency

¹⁰ This illustrative paragraph may not in and of itself be sufficient to gain confidential treatment under the rules and regulations of certain regulatory agencies. The practitioner should consider tailoring this paragraph to the circumstances after consulting the regulations of each applicable regulatory agency and, if necessary, consult with legal counsel regarding the specific procedures and requirements necessary to gain confidential treatment.

¹¹ The practitioner should appropriately modify this letter when the engagement has been conducted in accordance with the SSAEs and also in accordance with additional attest requirements specified by a regulatory agency (for example, the requirements specified in *Government Auditing Standards* issued by the Comptroller General of the United States).

¹² If the practitioner is not required by law, regulation or engagement contract to provide a regulator access to the attest documentation but otherwise intends to provide such access (see Interpretation No. 1 of AU section 339 [AU sec. 9339 par. .11–.15]) the letter should include a statement that: "Management of (*name of entity*) has authorized us to provide you access to our attest documentation for (*state purpose*)."

¹³ Refer to footnote 6.

or appropriateness of the information in our attest documentation. In addition, any notations, comments, and individual findings appearing on any of the attest documentation should not be read as an opinion on management's assertion or the related subject matter, or any part thereof.

Our engagement was performed for the purpose stated above and was not performed in contemplation of your (*state purpose*: for example, "regulatory examination"). Therefore, items of possible interest to you may not have been specifically addressed. Accordingly, our engagement, and the attest documentation prepared in connection therewith, should not supplant other inquiries and procedures that should be undertaken by the (*name of regulatory agency*) for the purpose of monitoring and regulating (*name of client*). In addition, we have not performed any procedures since the date of our report with respect to the subject matter or management's assertion related thereto, and significant events or circumstances may have occurred since that date.

The attest documentation constitutes and reflects procedures performed or information obtained by us in the course of our engagement. The documents contain trade secrets and confidential commercial and financial information of our firm and (*name of client*) that is privileged and confidential, and we expressly reserve all rights with respect to disclosures to third parties. Accordingly, we request confidential treatment under the Freedom of Information Act or similar laws and regulations when requests are made for the attest documentation or information contained therein or any documents created by the (*name of regulatory agency*) containing information derived therefrom. We further request that written notice be given to our firm before distribution of the information in the attest documentation (or copies thereof) to others, including other governmental agencies, except when such distribution is required by law or regulation.¹⁴

[If it is expected that copies will be requested, add the following:]

Any copies of our attest documentation we agree to provide you will contain a legend "Confidential Treatment Requested by (*name of practitioner, address, telephone number*)."

[Firm signature]

5. Attest Engagements on Financial Information¹⁵ Included in eXtensible Business Reporting Language Instance Documents

.47 Question—What is eXtensible Business Reporting Language (XBRL) and an XBRL Instance Document?

.48 Interpretation—XBRL, the business reporting aspect of the Extensible Markup Language (XML), is a freely licensable open technology standard, which makes it possible to store and transfer data along with the complex hierarchies, data processing rules, and descriptions that enable analysis and

¹⁴ This illustrative paragraph may not in and of itself be sufficient to gain confidential treatment under the rules and regulations of certain regulatory agencies. The practitioner should consider tailoring this paragraph to the circumstances after consulting the regulations of each applicable regulatory agency and, if necessary, consult with legal counsel regarding the specific procedures and requirements necessary to gain confidential treatment.

¹⁵ Financial information includes data presented in audited or reviewed financial statements or other financial information (for example, management discussion and analysis).

distribution.¹⁶ An entity may make its financial information available in the form of an XBRL Instance Document (instance document). An *instance document* is essentially a machine-readable format of financial information (that is, a computer can read the data, search for information, or perform calculations). Through the XBRL tagging process, a mapping of the financial information is created that enables a user to extract specific information, facilitating analysis. For example, XBRL would enable a user to use a software tool to automatically extract certain financial line items and automatically import those amounts into a worksheet calculating financial ratios.

.49 The instance document consists of various data points and their corresponding XBRL tags (that describe the financial information) and may include references to other items such as a PDF (Adobe Acrobat) version of financial information. Hence, an instance document is a stand-alone document that may be published using a website, e-mail, and other electronic distribution means.

.50 *Question*—What are the practitioner's considerations when the practitioner has been engaged to examine and report on whether the instance document accurately reflects the financial information?

.51 *Interpretation*—The third general attestation standard states that the practitioner shall perform the engagement only if he or she has reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users. Two related criteria, XBRL taxonomies and XBRL International Technical Specifications, meet the available and suitable attributes under the attestation standards because a panel of experts developed the criteria and followed due process procedures that included exposure of the proposed criteria for public comment. The entity has the ability to extend the XBRL taxonomy by creating its own entity extension taxonomy. The entity may also create one or more custom entity taxonomies (for example, for a unique industry that is not yet represented by an XBRL taxonomy). Because neither the XBRL entity extension nor the custom taxonomy typically undergoes due process procedures when developed, the practitioner should evaluate whether the XBRL entity extension or custom taxonomy represents suitable and available criteria as described in paragraphs .24–.34 of section 101.

.52 The practitioner should perform procedures he or she believes are necessary to obtain sufficient evidential matter to form an opinion. Example procedures the practitioner should consider performing include the following:

- Compare the rendered¹⁷ instance document to the financial information.
- Trace and agree the instance document's tagged information to the financial information.
- Test that the financial information is appropriately tagged and included in the instance document.
- Test for consistency of tagging (for example, an entity may use one taxonomy tag for one year and then switch to a different tag for the same financial information the following year. In this case, the financial information for both years should use the same tag).

¹⁶ The eXtensible Business Reporting Language (XBRL) tags and their relationship to other XBRL tags are represented in a taxonomy. The XBRL taxonomy is needed for a full rendering of the XBRL Instance Document.

¹⁷ A rendered instance document converts the machine-readable format to a human readable version through a software tool.

- Test that the entity extension or custom taxonomy meets the XBRL International Technical Specification (for example, through the use of a validation tool).

.53 When the client is the responsible party, the client will provide the practitioner with a written assertion regarding the subject matter. An example of a written assertion follows:

We assert that the accompanying XBRL Instance Document accurately reflects the data presented in the financial statements of XYZ Company as of December 31, 20XX, and for the year then ended in conformity with *[identify the criteria—for example, specify XBRL taxonomy, such as "XBRL U.S. Consumer and Industrial Taxonomy," and where applicable, the company extension taxonomy, such as "XYZ Company's extension taxonomy" and the XBRL International Technical Specifications (specify version)]*.

.54 The practitioner should identify in his or her report whether the underlying financial information has been audited or reviewed, and should refer to the report of such audit or review.¹⁸ If the underlying information has not been audited or reviewed, the practitioner should disclaim an opinion on the underlying information. Any information in the Instance Document that is not covered by the practitioner's report should clearly be identified as such.

.55 Report Examples

Example 1: Reporting on the Subject Matter

Independent Accountant's Report

We have examined the accompanying XBRL Instance Document of XYZ Company, which reflects the data presented in the financial statements of XYZ Company as of December 31, 20XX, and for the year then ended *[optional to include the location of the financial statements, such as "included in the Company's Form 10-K for the year ended December 31, 20XX"]*. XYZ Company's management is responsible for the XBRL Instance Document. Our responsibility is to express an opinion based on our examination.

We have also audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20XX, and for the year then ended, and in our report dated *[Month] XX, 20XX*, we expressed an unqualified opinion on those financial statements.^{19,20}

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and,

¹⁸ When no audit or review report has been issued, no reference to a report is required.

¹⁹ If the financial statements have been reviewed, the sentence would read: "We have also reviewed, in accordance with *[standards established by the American Institute of Certified Public Accountants]* *[Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants]*, the financial statements of XYZ Company as of March 31, 20XX, and for the three months then ended, the objective of which was the expression of limited assurance on such financial statements, and issued our report thereon dated *[Month] XX, 20XX*, *[describe any modifications of such report]*."

If the financial information has not been audited or reviewed, no reference to a report is required. The sentence would read: "We were not engaged to and did not conduct an audit or review of the *[identify information]*, the objectives of which would have been the expression of an opinion or limited assurance on such *[identify information]*. Accordingly, we do not express an opinion or any other assurance on *[it] [them]*."

²⁰ If the audit opinion on the related financial statements is other than unqualified, the practitioner should disclose that fact, and any substantive reasons therefore.

accordingly, included examining, on a test basis, evidence supporting the XBRL Instance Document and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, the XBRL Instance Document of XYZ Company referred to above accurately reflects, in all material respects, the data presented in the financial statements in conformity with *[identify the criteria—for example, specific XBRL taxonomy, such as the "XBRL U.S. Consumer and Industrial Taxonomy," and where applicable, the company extension taxonomy, such as "XYZ Company's extension taxonomy," and the XBRL International Technical Specifications 2.0].*

[Signature]

[Date]

Example 2: Reporting on Management's Assertions

Independent Accountant's Report

We have examined management's assertion that *[identify the assertion—for example, the accompanying XBRL Instance Document accurately reflects the data presented in the financial statements of XYZ Company as of December 31, 20XX, and for the year then ended in conformity with (identify the criteria—for example, specific XBRL taxonomy, such as the "XBRL U.S. Consumer and Industrial Taxonomy," and where applicable, the company extension taxonomy, such as "XYZ Company's extension taxonomy," and the XBRL International Technical Specifications 2.0)].* XYZ Company's management is responsible for the assertion. Our responsibility is to express an opinion on the assertion based on our examination.

We have also audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20XX, and for the year then ended, and in our report dated *[Month]* XX, 20XX, we expressed an unqualified opinion on those financial statements.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting the XBRL Instance Document and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, management's assertion referred to above is fairly stated, in all material respects, in conformity with *[identify the criteria—for example, specific XBRL taxonomy, such as the "XBRL U.S. Consumer and Industrial Taxonomy," and where applicable, the company extension taxonomy, such as "XYZ Company's extension taxonomy," and the XBRL International Technical Specifications 2.0].*

6. Reporting on Attestation Engagements Performed in Accordance With Government Auditing Standards²¹

.56 Question—In July 2007, the U.S. Government Accountability Office issued its 2007 revised *Government Auditing Standards* (commonly referred to as the Yellow Book). Chapter 6 of the revised Yellow Book sets forth general fieldwork and reporting standards for attestation engagements performed pursuant to generally accepted government auditing standards (GAGAS). Practitioners performing attestation engagements under GAGAS are also required to follow the general standards set forth in chapter 3 of the Yellow Book. For attestation engagements performed pursuant to GAGAS, paragraph 6.31 of the Yellow Book prescribes additional reporting standards²² that go beyond the standards of reporting set forth in section 101 paragraphs .63–.90. When a practitioner performs an attestation examination in accordance with GAGAS, how should the report be modified?

.57 Interpretation—The practitioner should modify the scope paragraph of the attestation report to indicate that the examination or review was "conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States."

.58 Additionally, GAGAS require the practitioner's attestation report to disclose any matters that are set forth in paragraph 6.31 of the revised Yellow Book. Paragraphs 6.42–.43 of the revised Yellow Book set forth the reporting elements that the practitioner should use, to the extent possible, in reporting a finding. The following illustration is a standard examination report modified to make reference to a schedule of findings when any of the matters set forth in paragraph 6.31 have been identified. This report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. A written assertion has been obtained from the responsible party. Although the following illustrative report modifications would comply with the Yellow Book requirement, this illustration is not intended to preclude a practitioner from complying with these additional Yellow Book reporting requirements in other ways.

Independent Accountant's Report

We have examined [identify the subject matter—for example, the accompanying schedule of performance measures of XYZ Agency for the year ended December 31, 20XX]. XYZ Agency's management is responsible for the [identify the subject matter—for example, schedule of performance measures]. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the

²¹ Although separate interpretations for other AT sections have not been issued to deal with attestation engagements performed in accordance with *Government Auditing Standards*, a practitioner may use this guidance to help him or her appropriately modify an attest report pursuant to other AT sections.

²² Paragraph 6.31 of the Yellow Book sets forth the additional reporting requirements: (a) reporting auditors' compliance with generally accepted government auditing standards, (b) reporting deficiencies in internal control, fraud, illegal acts, violations of provisions of contracts or grant agreements, and abuse, (c) reporting views of responsible officials, (d) reporting confidential or sensitive information, and (e) distributing reports. [Footnote revised: January 2008, to reflect conforming changes necessary due to the issuance of the 2007 revised *Government Auditing Standards*.]

standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States and, accordingly, included examining, on a test basis, evidence supporting [identify the subject matter—for example, XYZ Agency's schedule of performance measures] and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

In our opinion, the schedule referred to above presents, in all material respects, [identify the subject matter—for example, the performance measures of XYZ Agency for the year ended December 31, 20XX], in conformity with [identify criteria—for example, the criteria set forth in Note 1].

[When any of the matters set forth in paragraph 6.31 of the Yellow Book have been identified the following paragraph would be added.]

In accordance with *Government Auditing Standards*, we are required to report significant deficiencies in internal control, identifying those considered to be material weaknesses, violations of provisions of contracts or grant agreements, and abuse that could have material effect on [identify the subject matter—for example, XYZ Agency's schedule of performance measures]²³ and any fraud and illegal acts that are more than inconsequential that come to our attention during our examination. We are also required to obtain the views of management on those matters. We performed our examination to express an opinion on whether [identify the subject matter—for example, XYZ Agency's schedule of performance measures] is presented in accordance with the criteria described above and not for the purpose of expressing an opinion on the internal control over [identify the subject matter—for example, reporting of performance measures] or on compliance and other matters; accordingly, we express no such opinions. Our examination disclosed certain findings that are required to be reported under *Government Auditing Standards* and those findings, along with the views of management, are described in the attached Schedule of Findings.^[24]

7. Reporting on the Design of Internal Control

.59 Question—A practitioner may be asked to report on the suitability²⁶ of the design of an entity's internal control over financial reporting (internal control) for preventing or detecting and correcting material misstatements of the entity's financial statements on a timely basis. Such requests may be made by, for example,

- an entity applying for a government grant or contract that is required to submit a written preaward survey by management about the suitability of the design of the entity's internal control or a portion of the entity's internal control, together with a practitioner's report thereon.
- a new casino applying for a license to operate that is required by a regulatory agency to submit a practitioner's report on whether the entity's internal control *that it plans to implement* is suitably designed to provide reasonable assurance that the control objectives specified in the regulatory agency's regulations would be achieved. (In this situation the casino would not yet have begun operations, and audited financial statements or financial data relevant to the period covered by the engagement may not exist.)

May a practitioner report on the suitability of the design of an entity's internal control based on the risk assessment procedures the auditor performs to obtain a sufficient understanding of the entity and its environment, including its internal control, in an audit of the entity's financial statements?

.60 Interpretation—No. In a financial statement audit, the purpose of the auditor's understanding of the entity and its environment, including its internal control, is to enable the auditor to assess the risk of material misstatement of the financial statements whether due to error or fraud, and to design the nature, timing, and extent of further audit procedures. The understanding obtained in a financial statement audit does not provide the practitioner with a sufficient basis to report on the suitability of the design of an entity's internal control or any portion thereof.

.61 Question—How may a practitioner report on the suitability of the design of an entity's internal control or a portion thereof?

.62 Interpretation—The practitioner may perform an examination under section 101, or apply agreed-upon procedures under section 201, to management's written assertion about the suitability of the design of the entity's internal control. Footnote 4 of section 501, *An Examination of an Entity's Internal Control Over Financial Reporting That is Integrated With an Audit of Its Financial Statements*, states that although section 501 does not directly apply when an auditor is engaged to examine the suitability of design of an entity's internal control, it may be useful in planning and performing such engagements. Paragraphs .57–.59 of section 501 discuss how the auditor evaluates the design effectiveness of controls.

.63 When the engagement involves the application of agreed-upon procedures to a written assertion about the suitability of the design of an entity's internal control over compliance with specified requirements, the practitioner should also follow the provisions of paragraphs .09 and .11–.29 of section 601.

²⁶ In this interpretation, the *suitability of the design of internal control* means the same thing as the *design effectiveness of an entity's internal control*.

.64 The following is an illustrative report a practitioner may issue when reporting on the suitability of the design of an entity's internal control that has been implemented. The report may be modified, as appropriate, to fit the particular circumstances.

Independent Accountant's Report

[Introductory paragraph]

We have examined the suitability of the design of W Company's internal control over financial reporting to prevent or detect and correct material misstatements in its financial statements on a timely basis as of December 31, 20XX, based on *[identify criteria]*.²⁷ W Company's management is responsible for the suitable design of internal control over financial reporting. Our responsibility is to express an opinion on the design of internal control based on our examination.

[Scope paragraph]

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included obtaining an understanding of internal control over financial reporting, evaluating the design of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. We were not engaged to examine and report on the operating effectiveness of W Company's internal control over financial reporting as of December 31, 20XX, and, accordingly, we express no opinion on operating effectiveness.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Opinion paragraph]

In our opinion, W Company's internal control over financial reporting was suitably designed, in all material respects, to prevent or detect and correct material misstatements in the financial statements on a timely basis as of December 31, 20XX, based on *[identify criteria]*.

[Signature]

[Date]

.65 When reporting on the suitability of the design of an entity's internal control that has not yet been implemented, the practitioner would be unable to confirm that the controls have been implemented and should disclose that information in the practitioner's report. In those circumstances, the practitioner should modify (1) the scope paragraph of the illustrative report in paragraph .64 to inform readers that the controls identified in the report have not yet been implemented and (2) the inherent limitations paragraph to reflect the related risk. Following are modified illustrative report paragraphs for use when controls have not yet been implemented. (New language is shown in boldface italics. Deleted language is shown in strikethrough.)

²⁷ This report assumes that the control criteria are both suitable and available to users as discussed in section 101 paragraphs .23–.33. Therefore, the use of this report is not restricted.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included obtaining an understanding of internal control over financial reporting, evaluating the design of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. ***Because operations had not begun as of December 31, 20XX, we could not confirm that the specified controls were implemented. Accordingly, our report solely addresses the suitability of the design of the Company's internal control and does not address whether the controls were implemented. Furthermore, because the specified controls have not yet been implemented, we were unable to test, and did not test,*** the operating effectiveness of W Company's internal control over financial reporting as of December 31, 20XX, and, accordingly, we express no opinion on operating effectiveness.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls ***may not be implemented as intended when operations begin or*** may become inadequate because of changes in conditions, ~~or that the degree of compliance with the policies or procedures may deteriorate.~~

.66 Question—A practitioner may be asked to sign a prescribed form developed by the party to whom the form is to be submitted regarding the design of an entity's internal control. What are the practitioner's responsibilities when requested to sign such a form if it includes language that is not consistent with the practitioner's function or responsibility or with the reporting requirements of professional standards?

.67 Interpretation—Paragraphs .32–.33 of AU section 623, *Special Reports*, address such situations in the context of an audit of financial statements and indicate that the auditor should either revise the prescribed form or attach a separate report that conforms with the auditor's function or responsibility and professional standards. When reporting on the suitability of the design of an entity's internal control under section 101, the practitioner's report should contain all of the elements in either paragraphs .85 or .86, as applicable, which can be accomplished by either revising the prescribed form or attaching a separate report in place of the prescribed form.

.68 Question—An entity may be required to submit a practitioner's report about an entity's *ability* to establish suitably designed internal control (or its assertion thereon). May a practitioner issue such a report based on (a) the risk assessment procedures related to existing internal control that the auditor performs in an audit of an entity's financial statements or (b) the performance of an attest engagement?

.69 Interpretation—No. Neither the risk assessment procedures the auditor performs in an audit of an entity's financial statements nor the performance of an attest engagement provide the practitioner with a basis for issuing a report on the *ability* of an entity to establish suitably designed internal control. There are no suitable criteria for evaluating an entity's ability to establish suitably designed internal control. The requesting party may be willing to accept a report of the practitioner on a consulting service. The practitioner may include in the consulting service report

- a. a statement that the practitioner is unable to perform an attest engagement that addresses the entity's ability to establish suitably designed

internal control because there are no suitable criteria for evaluating the entity's ability to do so;

- b. a description of the nature and scope of the practitioner's services; and
- c. the practitioner's findings.

The practitioner may refer to the guidance in CS section 100, *Consulting Services: Definitions and Standards*.

[Issue Date: December 2008.]

8. Including a Description of Tests of Controls or Other Procedures, and the Results Thereof, in an Examination Report

.70 Question—Section 801, *Reporting on Controls at a Service Organization*, addresses examination engagements undertaken by a service auditor to report on controls at organizations that provide services to user entities when those controls are likely to be relevant to user entities' internal control over financial reporting (ICFR). For a type 2 report resulting from such an examination engagement, section 801 provides for a separate section of the report that includes a description of the service auditor's tests of controls likely to be relevant to user entities' ICFR and the results of those tests. This information is intended for user auditors who may need detailed information about the results of such tests of controls to determine how the results affect a particular user entity's financial statements.

.71 Paragraph .02 of section 801 refers the practitioner to section 101, when a practitioner is engaged to examine and report on controls at a service organization other than those likely to be relevant to user entities' ICFR (for example, controls at a service provider that are relevant to user entities' compliance with laws or regulations or controls at a service provider that are relevant to the privacy of user entities' information).²⁸ If a practitioner performs an examination engagement under section 101, may the practitioner's examination report include, in a separate section, a description of tests of controls or other procedures performed in support of the practitioner's opinion resulting from such an engagement?

.72 Interpretation—Nothing in section 101 precludes a practitioner from including in a separate section of his or her examination report a description of tests of controls or other procedures performed and the results thereof. However, in some cases, such a description may overshadow the practitioner's overall opinion or may cause report users to misunderstand the opinion. Therefore, the circumstances of the particular engagement are relevant to the practitioner's consideration regarding whether to include a description of tests of controls or other procedures performed, and the results thereof, in a separate section of the practitioner's examination report. In determining whether to include such a description in the practitioner's examination report, the following considerations are relevant:

- Whether there has been a request for such information and whether the specified parties making the request have an appropriate business need or reasonable basis for requesting the information (for example, the specified parties are required to maintain

²⁸ As indicated in paragraph A2 of section 801, *Reporting on Controls at a Service Organization*, paragraph .02 of section 801 is not intended to permit a report that combines reporting on a service organization's controls likely to be relevant to user entities' internal control over financial reporting (ICFR) with reporting on controls that are not likely to be relevant to user entities' ICFR.

and monitor controls that either encompass or are dependent on controls that are the subject of the examination and, therefore, need information about the tests of controls to enable them to have a basis for concluding that they have met the requirements applicable to them)

- Whether the specified parties have an understanding of the nature and subject matter of the engagement and experience in using the information in such reports
- Whether including such a description in the examination report is likely to cause report users to misunderstand the opinion
- Whether the practitioner's tests of controls or other procedures performed directly relate to the subject matter of the engagement

Paragraph .79 of section 101 states, "The need for restriction on the use of a report may result from a number of circumstances, including the purpose of the report, the criteria used in preparation of the subject matter, the extent to which the procedures performed are known or understood, and the potential for the report to be misunderstood when taken out of the context in which it was intended to be used." The addition of a description of tests of controls or other procedures performed, and the results thereof, in a separate section of an examination report may increase the need for use of the report to be restricted to specified parties.

[Issue Date: July 2010.]

AT Section 201

Agreed-Upon Procedures Engagements

Source: SSAE No. 10; SSAE No. 11.

Effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001, unless otherwise indicated.

Introduction and Applicability

.01 This section sets forth attestation standards and provides guidance to a practitioner concerning performance and reporting in all agreed-upon procedures engagements, except as noted in paragraph .02. A practitioner also should refer to the following sections of this Statement on Standards for Attestation Engagements (SSAE), which provide additional guidance for certain types of agreed-upon procedures engagements:

- a. Section 301, *Financial Forecasts and Projections*
- b. Section 601, *Compliance Attestation*

.02 This section does not apply to the following:¹

- a. Situations in which an auditor reports on specified compliance requirements based solely on an audit of financial statements, as addressed in AU section 623, *Special Reports*, paragraphs .19–.21
- b. Engagements for which the objective is to report in accordance with AU section 801, *Compliance Audits*, unless the terms of the engagement specify that the engagement be performed pursuant to SSAEs
- c. Circumstances covered by AU section 324, *Service Organizations*, paragraph .58, when the service auditor is requested to apply substantive procedures to user transactions or assets at the service organization, and he or she makes specific reference in his or her service auditor's report to having carried out designated procedures (However, this section applies when the service auditor provides a separate report on the performance of agreed-upon procedures in an attestation engagement.)
- d. Engagements covered by AU section 634, *Letters for Underwriters and Certain Other Requesting Parties*
- e. Certain professional services that would not be considered as falling under this section as described in section 101, *Attest Engagements*, paragraph .04.

[Revised, December 2010, to reflect conforming changes necessary due to the issuance of SAS No. 117.]

¹ The Attest Interpretation, "Responding to Requests for Reports on Matters Relating to Solvency" (section 9101.23–.33), prohibits the performance of any attest engagements concerning matters of solvency or insolvency.

Agreed-Upon Procedures Engagements

.03 An agreed-upon procedures engagement is one in which a practitioner is engaged by a client to issue a report of findings based on specific procedures performed on subject matter. The client engages the practitioner to assist specified parties in evaluating subject matter or an assertion as a result of a need or needs of the specified parties.² Because the specified parties require that findings be independently derived, the services of a practitioner are obtained to perform procedures and report his or her findings. The specified parties and the practitioner agree upon the procedures to be performed by the practitioner that the specified parties believe are appropriate. Because the needs of the specified parties may vary widely, the nature, timing, and extent of the agreed-upon procedures may vary as well; consequently, the specified parties assume responsibility for the sufficiency of the procedures since they best understand their own needs. In an engagement performed under this section, the practitioner does not perform an examination or a review, as discussed in section 101, and does not provide an opinion or negative assurance.³ (See paragraph .24.) Instead, the practitioner's report on agreed-upon procedures should be in the form of procedures and findings. (See paragraph .31.)

.04 As a consequence of the role of the specified parties in agreeing upon the procedures performed or to be performed, a practitioner's report on such engagements should clearly indicate that its use is restricted to those specified parties.⁴ Those specified parties, including the client, are hereinafter referred to as *specified parties*.

Standards

.05 The general, fieldwork, and reporting standards for attestation engagements as established in section 50, *SSAE Hierarchy*, together with interpretive guidance regarding their application as addressed throughout this section, should be followed by the practitioner in performing and reporting on agreed-upon procedures engagements. [Revised, November 2006, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 14.]

Conditions for Engagement Performance

.06 The practitioner may perform an agreed-upon procedures attest engagement provided that—

- a. The practitioner is independent.
- b. One of the following conditions is met.
 - (1) The party wishing to engage the practitioner is responsible for the subject matter, or has a reasonable basis for providing a written assertion about the subject matter when the nature of the subject matter is such that a responsible party does not otherwise exist.

² See paragraphs .08 and .09 for a discussion of subject matter and assertion.

³ For guidance on expressing an opinion on specified elements, accounts, or items of a financial statement based on an audit, see AU section 623.11–.18.

⁴ See section 101.78–.83 for additional guidance regarding restricted-use reports.

- (2) The party wishing to engage the practitioner is not responsible for the subject matter but is able to provide the practitioner, or have a third party who is responsible for the subject matter provide the practitioner with evidence of the third party's responsibility for the subject matter.
- c. The practitioner and the specified parties agree upon the procedures performed or to be performed by the practitioner.
 - d. The specified parties take responsibility for the sufficiency of the agreed-upon procedures for their purposes.
 - e. The specific subject matter to which the procedures are to be applied is subject to reasonably consistent measurement.
 - f. Criteria to be used in the determination of findings are agreed upon between the practitioner and the specified parties.
 - g. The procedures to be applied to the specific subject matter are expected to result in reasonably consistent findings using the criteria.
 - h. Evidential matter related to the specific subject matter to which the procedures are applied is expected to exist to provide a reasonable basis for expressing the findings in the practitioner's report.
 - i. Where applicable, the practitioner and the specified parties agree on any materiality limits for reporting purposes. (See paragraph .25.)
 - j. Use of the report is restricted to the specified parties.
 - k. For agreed-upon procedures engagements on prospective financial information, the prospective financial statements include a summary of significant assumptions. (See section 301.52.)

Agreement on and Sufficiency of Procedures

.07 To satisfy the requirements that the practitioner and the specified parties agree upon the procedures performed or to be performed and that the specified parties take responsibility for the sufficiency of the agreed-upon procedures for their purposes, ordinarily the practitioner should communicate directly with and obtain affirmative acknowledgment from each of the specified parties. For example, this may be accomplished by meeting with the specified parties or by distributing a draft of the anticipated report or a copy of an engagement letter to the specified parties and obtaining their agreement. If the practitioner is not able to communicate directly with all of the specified parties, the practitioner may satisfy these requirements by applying any one or more of the following or similar procedures.

- Compare the procedures to be applied to written requirements of the specified parties.
- Discuss the procedures to be applied with appropriate representatives of the specified parties involved.
- Review relevant contracts with or correspondence from the specified parties.

The practitioner should not report on an engagement when specified parties do not agree upon the procedures performed or to be performed and do not take responsibility for the sufficiency of the procedures for their purposes. (See

paragraph .36 for guidance on satisfying these requirements when the practitioner is requested to add other parties as specified parties after the date of completion of the agreed-upon procedures.)

Subject Matter and Related Assertions

.08 The subject matter of an agreed-upon procedures engagement may take many different forms and may be at a point in time or covering a period of time. In an agreed-upon procedures engagement, it is the specific subject matter to which the agreed-upon procedures are to be applied using the criteria selected. Even though the procedures are agreed upon between the practitioner and the specified parties, the subject matter and the criteria must meet the conditions set forth in the third general standard. (See section 101.23 and .24.) The criteria against which the specific subject matter needs to be measured may be recited within the procedures enumerated or referred to in the practitioner's report.

.09 An assertion is any declaration or set of declarations about whether the subject matter is based on or in conformity with the criteria selected. A written assertion is generally not required in an agreed-upon procedures engagement unless specifically required by another attest standard (for example, see section 601.11). If, however, the practitioner requests the responsible party to provide an assertion, the assertion may be presented in a representation letter or another written communication from the responsible party, such as in a statement, narrative description, or schedule appropriately identifying what is being presented and the point in time or the period of time covered.

Establishing an Understanding With the Client

.10 The practitioner should establish an understanding with the client regarding the services to be performed. When the practitioner documents the understanding through a written communication with the client (an *engagement letter*), such communication should be addressed to the client, and in some circumstances also to all specified parties. Matters that might be included in such an understanding include the following:

- The nature of the engagement
- Identification of the subject matter (or the assertion related thereto), the responsible party, and the criteria to be used
- Identification of specified parties (See paragraph .36.)
- Specified parties' acknowledgment of their responsibility for the sufficiency of the procedures
- Responsibilities of the practitioner (See paragraphs .12 to .14 and .40.)
- Reference to attestation standards established by the American Institute of Certified Public Accountants (AICPA)
- Agreement on procedures by enumerating (or referring to) the procedures (See paragraphs .15 to .18.)
- Disclaimers expected to be included in the practitioner's report
- Use restrictions
- Assistance to be provided to the practitioner (See paragraphs .22 and .23.)

- Involvement of a specialist (See paragraphs .19 to .21.)
- Agreed-upon materiality limits (See paragraph .25.)

Nature, Timing, and Extent of Procedures

Responsibility of the Specified Parties

.11 Specified parties are responsible for the sufficiency (nature, timing, and extent) of the agreed-upon procedures because they best understand their own needs. The specified parties assume the risk that such procedures might be insufficient for their purposes. In addition, the specified parties assume the risk that they might misunderstand or otherwise inappropriately use findings properly reported by the practitioner.

Practitioner's Responsibility

.12 The responsibility of the practitioner is to carry out the procedures and report the findings in accordance with the general, fieldwork, and reporting standards as discussed and interpreted in this section. The practitioner assumes the risk that misapplication of the procedures may result in inappropriate findings being reported. Furthermore, the practitioner assumes the risk that appropriate findings may not be reported or may be reported inaccurately. The practitioner's risks can be reduced through adequate planning and supervision and due professional care in performing the procedures, determining the findings, and preparing the report.

.13 The practitioner should have adequate knowledge in the specific subject matter to which the agreed-upon procedures are to be applied. He or she may obtain such knowledge through formal or continuing education, practical experience, or consultation with others.⁵

.14 The practitioner has no responsibility to determine the differences between the agreed-upon procedures to be performed and the procedures that the practitioner would have determined to be necessary had he or she been engaged to perform another form of attest engagement. The procedures that the practitioner agrees to perform pursuant to an agreed-upon procedures engagement may be more or less extensive than the procedures that the practitioner would determine to be necessary had he or she been engaged to perform another form of engagement.

Procedures to Be Performed

.15 The procedures that the practitioner and specified parties agree upon may be as limited or as extensive as the specified parties desire. However, mere reading of an assertion or specified information about the subject matter does not constitute a procedure sufficient to permit a practitioner to report on the results of applying agreed-upon procedures. In some circumstances, the procedures agreed upon evolve or are modified over the course of the engagement. In general, there is flexibility in determining the procedures as long as the specified parties acknowledge responsibility for the sufficiency of such procedures for their purposes. Matters that should be agreed upon include the nature, timing, and extent of the procedures.

⁵ Section 601.19 and .20 provide guidance about obtaining an understanding of certain requirements in an agreed-upon procedures engagement on compliance.

.16 The practitioner should not agree to perform procedures that are overly subjective and thus possibly open to varying interpretations. Terms of uncertain meaning (such as general review, limited review, check, or test) should not be used in describing the procedures unless such terms are defined within the agreed-upon procedures. The practitioner should obtain evidential matter from applying the agreed-upon procedures to provide a reasonable basis for the finding or findings expressed in his or her report, but need not perform additional procedures outside the scope of the engagement to gather additional evidential matter.

.17 Examples of appropriate procedures include the following:

- Execution of a sampling application after agreeing on relevant parameters
- Inspection of specified documents evidencing certain types of transactions or detailed attributes thereof
- Confirmation of specific information with third parties
- Comparison of documents, schedules, or analyses with certain specified attributes
- Performance of specific procedures on work performed by others (including the work of internal auditors—see paragraphs .22 and .23)
- Performance of mathematical computations

.18 Examples of inappropriate procedures include the following:

- Mere reading of the work performed by others solely to describe their findings
- Evaluating the competency or objectivity of another party
- Obtaining an understanding about a particular subject
- Interpreting documents outside the scope of the practitioner's professional expertise

Involvement of a Specialist⁶

.19 The practitioner's education and experience enable him or her to be knowledgeable about business matters in general, but he or she is not expected to have the expertise of a person trained for or qualified to engage in the practice of another profession or occupation. In certain circumstances, it may be appropriate to involve a specialist to assist the practitioner in the performance of one or more procedures. The following are examples.

- An attorney might provide assistance concerning the interpretation of legal terminology involving laws, regulations, rules, contracts, or grants.
- A medical specialist might provide assistance in understanding the characteristics of diagnosis codes documented in patient medical records.
- An environmental engineer might provide assistance in interpreting environmental remedial action regulatory directives that may affect

⁶ A *specialist* is a person (or firm) possessing skill or knowledge in a particular field other than the attest function. As used herein, a specialist does not include a person employed by the practitioner's firm who participates in the attest engagement.

the agreed-upon procedures applied to an environmental liabilities account in a financial statement.

- A geologist might provide assistance in distinguishing between varying physical characteristics of a generic minerals group related to information to which the agreed-upon procedures are applied.

.20 The practitioner and the specified parties should explicitly agree to the involvement of the specialist in assisting a practitioner in the performance of an agreed-upon procedures engagement. This agreement may be reached when obtaining agreement on the procedures performed or to be performed and acknowledgment of responsibility for the sufficiency of the procedures, as discussed in paragraph .07. The practitioner's report should describe the nature of the assistance provided by the specialist.

.21 A practitioner may agree to apply procedures to the report or work product of a specialist that does not constitute assistance by the specialist to the practitioner in an agreed-upon procedures engagement. For example, the practitioner may make reference to information contained in a report of a specialist in describing an agreed-upon procedure. However, it is inappropriate for the practitioner to agree to merely read the specialist's report solely to describe or repeat the findings, or to take responsibility for all or a portion of any procedures performed by a specialist or the specialist's work product.

Internal Auditors and Other Personnel

.22 The agreed-upon procedures to be enumerated or referred to in the practitioner's report are to be performed entirely by the practitioner except as discussed in paragraphs .19 to .21.⁷ However, internal auditors or other personnel may prepare schedules and accumulate data or provide other information for the practitioner's use in performing the agreed-upon procedures. Also, internal auditors may perform and report separately on procedures that they have carried out. Such procedures may be similar to those that a practitioner may perform under this section.

.23 A practitioner may agree to perform procedures on information documented in the working papers of internal auditors. For example, the practitioner may agree to—

- Repeat all or some of the procedures.
- Determine whether the internal auditors' working papers contain documentation of procedures performed and whether the findings documented in the working papers are presented in a report by the internal auditors.

However, it is inappropriate for the practitioner to—

- Agree to merely read the internal auditors' report solely to describe or repeat their findings.
- Take responsibility for all or a portion of any procedures performed by internal auditors by reporting those findings as the practitioner's own.
- Report in any manner that implies shared responsibility for the procedures with the internal auditors.

⁷ AU section 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, does not apply to agreed-upon procedures engagements.

Findings

.24 A practitioner should present the results of applying agreed-upon procedures to specific subject matter in the form of findings. The practitioner should not provide negative assurance about whether the subject matter or the assertion is fairly stated based on the criteria. For example, the practitioner should not include a statement in his or her report that "nothing came to my attention that caused me to believe that the [*identify subject matter*] is not presented based on [or the assertion is not fairly stated based on] [*identify criteria*]."

.25 The practitioner should report all findings from application of the agreed-upon procedures. The concept of materiality does not apply to findings to be reported in an agreed-upon procedures engagement unless the definition of materiality is agreed to by the specified parties. Any agreed-upon materiality limits should be described in the practitioner's report.

.26 The practitioner should avoid vague or ambiguous language in reporting findings. Examples of appropriate and inappropriate descriptions of findings resulting from the application of certain agreed-upon procedures follow.

<i>Procedures Agreed Upon</i>	<i>Appropriate Description of Findings</i>	<i>Inappropriate Description of Findings</i>
Inspect the shipment dates for a sample (agreed-upon) of specified shipping documents, and determine whether any such dates were subsequent to December 31, 20XX.	No shipment dates shown on the sample of shipping documents were subsequent to December 31, 20XX.	Nothing came to my attention as a result of applying that procedure.
Calculate the number of blocks of streets paved during the year ended September 30, 20XX, shown on contractors' certificates of project completion; compare the resultant number to the number in an identified chart of performance statistics.	The number of blocks of streets paved in the chart of performance statistics was Y blocks more than the number calculated from the contractors' certificates of project completion.	The number of blocks of streets paved approximated the number of blocks included in the chart of performance statistics.
Calculate the rate of return on a specified investment (according to an agreed-upon formula) and verify that the resultant percentage agrees to the percentage in an identified schedule.	No exceptions were found as a result of applying the procedure.	The resultant percentage approximated the predetermined percentage in the identified schedule.

<i>Procedures Agreed Upon</i>	<i>Appropriate Description of Findings</i>	<i>Inappropriate Description of Findings</i>
Inspect the quality standards classification codes in identified performance test documents for products produced during a specified period; compare such codes to those shown in an identified computer printout.	All classification codes inspected in the identified documents were the same as those shown in the computer printout except for the following: <i>[List all exceptions.]</i>	All classification codes appeared to comply with such performance documents.
Trace all outstanding checks appearing on a bank reconciliation as of a certain date to checks cleared in the bank statement of the subsequent month.	All outstanding checks appearing on the bank reconciliation were cleared in the subsequent month's bank statement except for the following: <i>[List all exceptions.]</i>	Nothing came to my attention as a result of applying the procedure.
Compare the amounts of the invoices included in the "over ninety days" column shown in an identified schedule of aged accounts receivable of a specific customer as of a certain date to the amount and invoice date shown on the outstanding invoice and determine whether or not the invoice dates precede the date indicated on the schedule by more than ninety days.	All outstanding invoice amounts agreed with the amounts shown on the schedule in the "over ninety days" column, and the dates shown on such invoices preceded the date indicated on the schedule by more than ninety days.	The outstanding invoice amounts agreed within approximation of the amounts shown on the schedule in the "over ninety days" column, and nothing came to our attention that the dates shown on such invoices preceded the date indicated on the schedule by more than ninety days.

Reporting

Required Elements

.31 The practitioner's report on agreed-upon procedures should be in the form of procedures and findings. The practitioner's report should contain the following elements:

- a. A title that includes the word *independent*
- b. Identification of the specified parties (See paragraph .36.)
- c. Identification of the subject matter¹⁰ (or the written assertion related thereto) and the character of the engagement
- d. Identification of the responsible party
- e. A statement that the subject matter is the responsibility of the responsible party
- f. A statement that the procedures performed were those agreed to by the specified parties identified in the report
- g. A statement that the agreed-upon procedures engagement was conducted in accordance with attestation standards established by the AICPA
- h. A statement that the sufficiency of the procedures is solely the responsibility of the specified parties and a disclaimer of responsibility for the sufficiency of those procedures
- i. A list of the procedures performed (or reference thereto) and related findings (The practitioner should not provide negative assurance—see paragraph .24.)
- j. Where applicable, a description of any agreed-upon materiality limits (See paragraph .25.)
- k. A statement that the practitioner was not engaged to and did not conduct an examination^{11, 12} of the subject matter, the objective of which would be the expression of an opinion, a disclaimer of opinion on the subject matter, and a statement that if the practitioner

¹⁰ In some agreed-upon procedures engagements, the practitioner may be asked to apply agreed-upon procedures to more than one subject matter or assertion. In these engagements, the practitioner may issue one report that refers to all subject matter covered or assertions presented. (For example, see section 601.28.)

¹¹ If the practitioner also wishes to refer to a review, alternate wording would be as follows. A statement that the practitioner was not engaged to and did not conduct an examination or a review of the subject matter, the objectives of which would be the expression of an opinion or limited assurance, a disclaimer of opinion on the subject matter, and a statement that if the practitioner had performed additional procedures, other matters might have come to his or her attention that would have been reported.

¹² If the subject matter consists of elements, accounts, or items of a financial statement, this statement may be worded as follows.

We were not engaged to and did not conduct an audit [or a review], the objective of which would be the expression of an opinion [or limited assurance] on the [identify elements, accounts, or items of a financial statement]. Accordingly, we do not express such an opinion [or limited assurance].

Alternatively, the wording may be the following.

These agreed-upon procedures do not constitute an audit [or a review] of financial statements or any part thereof, the objective of which is the expression of opinion [or limited assurance] on the financial statements or a part thereof.

had performed additional procedures, other matters might have come to his or her attention that would have been reported¹³

- l. A statement of restrictions on the use of the report because it is intended to be used solely by the specified parties¹⁴
- m. Where applicable, reservations or restrictions concerning procedures or findings as discussed in paragraphs .33, .35, .39, and .40
- n. For an agreed-upon procedures engagement on prospective financial information, all items included in section 301.55
- o. Where applicable, a description of the nature of the assistance provided by a specialist as discussed in paragraphs .19 through .21
- p. The manual or printed signature of the practitioner's firm
- q. The date of the report

Illustrative Report

.32 The following is an illustration of an agreed-upon procedures report.

Independent Accountant's Report
on Applying Agreed-Upon Procedures

To the Audit Committees and Managements of ABC Inc. and XYZ Fund:

We have performed the procedures enumerated below, which were agreed to by the audit committees and managements of ABC Inc. and XYZ Fund, solely to assist you in evaluating the accompanying Statement of Investment Performance Statistics of XYZ Fund (prepared in accordance with the criteria specified therein) for the year ended December 31, 20X1. XYZ Fund's management is responsible for the statement of investment performance statistics. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

[Include paragraphs to enumerate procedures and findings.]

¹³ When the practitioner consents to the inclusion of his or her report on an agreed-upon procedures engagement in a document or written communication containing the entity's financial statements, he or she should refer to AU section 504, *Association With Financial Statements*, or to Statement on Standards for Accounting and Review Services (SSARS) No. 1, *Compilation and Review of Financial Statements* [AR section 100], as appropriate, for guidance on his or her responsibility pertaining to the financial statements.

The practitioner should follow (a) AU section 504.04 when the financial statements of a public or nonpublic entity are audited (or reviewed in accordance with AU section 722, *Interim Financial Information*, or (b) AU section 504.05 when the financial statements of a public entity are unaudited. The practitioner should follow SSARS No. 1, paragraph 3 [AR section 100.03] when (a) the financial statements of a nonpublic entity are reviewed or compiled or (b) the financial statements of a nonpublic entity are *not* reviewed or compiled and are not submitted by the accountant, as defined in SSARS No. 1, paragraph 1 [AR section 100.01]. (See section 101.82 and .83 for guidance when the practitioner combines or includes in a document a restricted-use report with a general-use report.) [Footnote revised, November 2002, to reflect conforming changes necessary due to the issuance of Statement on Standards for Accounting and Review Services No. 9.]

¹⁴ The purpose of the restriction on the use of the practitioner's report on applying agreed-upon procedures is to restrict its use to only those parties that have agreed upon the procedures performed and taken responsibility for the sufficiency of the procedures. Paragraph .36 describes the process for adding parties who were not originally contemplated in the agreed-upon procedures engagement.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on the accompanying Statement of Investment Performance Statistics of XYZ Fund. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the audit committees and managements of ABC Inc. and XYZ Fund,¹⁵ and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

Explanatory Language

.33 The practitioner also may include explanatory language about matters such as the following:

- Disclosure of stipulated facts, assumptions, or interpretations (including the source thereof) used in the application of agreed-upon procedures (For example, see section 601.26.)
- Description of the condition of records, controls, or data to which the procedures were applied
- Explanation that the practitioner has no responsibility to update his or her report
- Explanation of sampling risk

Dating of Report

.34 The date of completion of the agreed-upon procedures should be used as the date of the practitioner's report.

Restrictions on the Performance of Procedures

.35 When circumstances impose restrictions on the performance of the agreed-upon procedures, the practitioner should attempt to obtain agreement from the specified parties for modification of the agreed-upon procedures. When such agreement cannot be obtained (for example, when the agreed-upon procedures are published by a regulatory agency that will not modify the procedures), the practitioner should describe any restrictions on the performance of procedures in his or her report or withdraw from the engagement.

Adding Specified Parties (Nonparticipant Parties)

.36 Subsequent to the completion of the agreed-upon procedures engagement, a practitioner may be requested to consider the addition of another party as a specified party (*a nonparticipant party*). The practitioner may agree to add a nonparticipant party as a specified party, based on consideration of such factors as the identity of the nonparticipant party and the intended use of the report.¹⁶ If the practitioner does agree to add the nonparticipant party, he or

¹⁵ The report may list the specified parties or refer the reader to the specified parties listed elsewhere in the report.

¹⁶ When considering whether to add a nonparticipant party, the guidance in AU section 530, *Dating of the Independent Auditor's Report*, paragraphs .06 and .07, may be helpful.

she should obtain affirmative acknowledgment, normally in writing, from the nonparticipant party agreeing to the procedures performed and of its taking responsibility for the sufficiency of the procedures. If the nonparticipant party is added after the practitioner has issued his or her report, the report may be reissued or the practitioner may provide other written acknowledgment that the nonparticipant party has been added as a specified party. If the report is reissued, the report date should not be changed. If the practitioner provides written acknowledgment that the nonparticipant party has been added as a specified party, such written acknowledgment ordinarily should state that no procedures have been performed subsequent to the date of the report.

Written Representations

.37 A practitioner may find a representation letter to be a useful and practical means of obtaining representations from the responsible party. The need for such a letter may depend on the nature of the engagement and the specified parties. For example, section 601.68 requires a practitioner to obtain written representations from the responsible party in an agreed-upon procedures engagement related to compliance with specified requirements.

.38 Examples of matters that might appear in a representation letter from the responsible party include the following:

- a.* A statement acknowledging responsibility for the subject matter and, when applicable, the assertion
- b.* A statement acknowledging responsibility for selecting the criteria and for determining that such criteria are appropriate for their purposes
- c.* The assertion about the subject matter based on the criteria selected
- d.* A statement that all known matters contradicting the subject matter or the assertion and any communication from regulatory agencies affecting the subject matter or the assertion has been disclosed to the practitioner
- e.* Availability of all records relevant to the subject matter and the agreed-upon procedures
- f.* Other matters as the practitioner deems appropriate

.39 The responsible party's refusal to furnish written representations determined by the practitioner to be appropriate for the engagement constitutes a limitation on the performance of the engagement. In such circumstances, the practitioner should do one of the following.

- a.* Disclose in his or her report the inability to obtain representations from the responsible party.
- b.* Withdraw from the engagement.¹⁷
- c.* Change the engagement to another form of engagement.

¹⁷ For an agreed-upon procedures engagement performed pursuant to section 601, management's refusal to furnish all required representations also constitutes a limitation on the scope of the engagement that requires the practitioner to withdraw from the engagement.

Knowledge of Matters Outside Agreed-Upon Procedures

.40 The practitioner need not perform procedures beyond the agreed-upon procedures. However, in connection with the application of agreed-upon procedures, if matters come to the practitioner's attention by other means that significantly contradict the subject matter (or written assertion related thereto) referred to in the practitioner's report, the practitioner should include this matter in his or her report.¹⁸ For example, if, during the course of applying agreed-upon procedures regarding an entity's internal control, the practitioner becomes aware of a material weakness by means other than performance of the agreed-upon procedure, the practitioner should include this matter in his or her report.

Change to an Agreed-Upon Procedures Engagement From Another Form of Engagement

.41 A practitioner who has been engaged to perform another form of attest engagement or a nonattest service engagement may, before the engagement's completion, be requested to change the engagement to an agreed-upon procedures engagement under this section. A request to change the engagement may result from a change in circumstances affecting the client's requirements, a misunderstanding about the nature of the original services or the alternative services originally available, or a restriction on the performance of the original engagement, whether imposed by the client or caused by circumstances.

.42 Before a practitioner who was engaged to perform another form of engagement agrees to change the engagement to an agreed-upon procedures engagement, he or she should consider the following:

- a. The possibility that certain procedures performed as part of another type of engagement are not appropriate for inclusion in an agreed-upon procedures engagement
- b. The reason given for the request, particularly the implications of a restriction on the scope of the original engagement or the matters to be reported
- c. The additional effort required to complete the original engagement
- d. If applicable, the reasons for changing from a general-use report to a restricted-use report

.43 If the specified parties acknowledge agreement to the procedures performed or to be performed and assume responsibility for the sufficiency of the procedures to be included in the agreed-upon procedures engagement, either of the following would be considered a reasonable basis for requesting a change in the engagement—

- a. A change in circumstances that requires another form of engagement
- b. A misunderstanding concerning the nature of the original engagement or the available alternatives

¹⁸ If the practitioner has performed (or has been engaged to perform) an audit of the entity's financial statements to which an element, account, or item of a financial statement relates and the auditor's report on such financial statements includes a departure from a standard report [see AU section 508, *Reports on Audited Financial Statements*], he or she should consider including a reference to the auditor's report and the departure from the standard report in his or her agreed-upon procedures report.

.44 In all circumstances, if the original engagement procedures are substantially complete or the effort to complete such procedures is relatively insignificant, the practitioner should consider the propriety of accepting a change in the engagement.

.45 If the practitioner concludes, based on his or her professional judgment, that there is reasonable justification to change the engagement, and provided he or she complies with the standards applicable to agreed-upon procedures engagements, the practitioner should issue an appropriate agreed-upon procedures report. The report should not include reference to either the original engagement or performance limitations that resulted in the changed engagement. (See paragraph .40.)

Combined Reports Covering Both Restricted-Use and General-Use Subject Matter or Presentations

.46 When a practitioner performs services pursuant to an engagement to apply agreed-upon procedures to specific subject matter as part of or in addition to another form of service, this section applies only to those services described herein; other Standards would apply to the other services. Other services may include an audit, review, or compilation of a financial statement, another attest service performed pursuant to the SSAEs, or a nonattest service.¹⁹ Reports on applying agreed-upon procedures to specific subject matter may be combined with reports on such other services, provided the types of services can be clearly distinguished and the applicable Standards for each service are followed. See section 101.82 and .83, regarding restricting the use of the combined report.

Effective Date

.47 This section is effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001. Early application is permitted.

¹⁹ See section 101.105–107 for requirements relating to attest services provided as part of a consulting service engagement.

.48

Appendix

Additional Illustrative Reports

The following are additional illustrations of reporting on applying agreed-upon procedures to elements, accounts, or items of a financial statement.

1. Report in Connection With a Proposed Acquisition

Independent Accountant's Report
on Applying Agreed-Upon Procedures

To the Board of Directors and Management of X Company:

We have performed the procedures enumerated below, which were agreed to by the Board of Directors and Management of X Company, solely to assist you in connection with the proposed acquisition of Y Company as of December 31, 20XX. Y Company is responsible for its cash and accounts receivable records. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and the associated findings are as follows:

Cash

1. We obtained confirmation of the cash on deposit from the following banks, and we agreed the confirmed balance to the amount shown on the bank reconciliations maintained by Y Company. We mathematically checked the bank reconciliations and compared the resultant cash balances per book to the respective general ledger account balances.

<i>Bank</i>	<i>General Ledger Account Balances as of December 31, 20XX</i>
ABC National Bank	\$ 5,000
DEF State Bank	3,776
XYZ Trust Company regular account	86,912
XYZ Trust Company payroll account	5,000
	<u>\$110,688</u>

We found no exceptions as a result of the procedures.

Accounts Receivable

2. We added the individual customer account balances shown in an aged trial balance of accounts receivable (identified as Exhibit A) and compared the resultant total with the balance in the general ledger account.

We found no difference.

- We compared the individual customer account balances shown in the aged trial balance of accounts receivable (Exhibit A) as of December 31, 19XX, to the balances shown in the accounts receivable subsidiary ledger.

We found no exceptions as a result of the comparisons.

- We traced the aging (according to invoice dates) for 50 customer account balances shown in Exhibit A to the details of outstanding invoices in the accounts receivable subsidiary ledger. The balances selected for tracing were determined by starting at the eighth item and selecting every fifteenth item thereafter.

We found no exceptions in the aging of the amounts of the 50 customer account balances selected. The sample size traced was 9.8 percent of the aggregate amount of the customer account balances.

- We mailed confirmations directly to the customers representing the 150 largest customer account balances selected from the accounts receivable trial balance, and we received responses as indicated below. We also traced the items constituting the outstanding customer account balance to invoices and supporting shipping documents for customers from which there was no reply. As agreed, any individual differences in a customer account balance of less than \$300 were to be considered minor, and no further procedures were performed.

Of the 150 customer balances confirmed, we received responses from 140 customers; 10 customers did not reply. No exceptions were identified in 120 of the confirmations received. The differences disclosed in the remaining 20 confirmation replies were either minor in amount (as defined above) or were reconciled to the customer account balance without proposed adjustment thereto. A summary of the confirmation results according to the respective aging categories is as follows.

<i>Aging Categories</i>	<i>Accounts Receivable December 31, 20XX</i>		
	<i>Customer Account Balances</i>	<i>Confirmations Requested</i>	<i>Confirmations Received</i>
Current	\$156,000	\$ 76,000	\$ 65,000
Past due:			
Less than one month:	60,000	30,000	19,000
One to three months	36,000	18,000	10,000
Over three months	<u>48,000</u>	<u>48,000</u>	<u>8,000</u>
	<u>\$300,000</u>	<u>\$172,000</u>	<u>\$102,000</u>

We were not engaged to and did not conduct an audit, the objective of which would be the expression of an opinion on cash and accounts receivable. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the board of directors and management of X Company and is not intended to be and should not be used by anyone other than these specified parties.

[Date]

2. Report in Connection With Claims of Creditors

Independent Accountant's Report on Applying Agreed-Upon Procedures

To the Trustee of XYZ Company:

We have performed the procedures described below, which were agreed to by the Trustee of XYZ Company, with respect to the claims of creditors solely to assist you in determining the validity of claims of XYZ Company as of May 31, 20XX, as set forth in the accompanying Schedule A. XYZ Company is responsible for maintaining records of claims submitted by creditors of XYZ Company. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the party specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

1. Compare the total of the trial balance of accounts payable at May 31, 20XX, prepared by XYZ Company, to the balance in the related general ledger account.

The total of the accounts payable trial balance agreed with the balance in the related general ledger account.

2. Compare the amounts for claims received from creditors (as shown in claim documents provided by XYZ Company) to the respective amounts shown in the trial balance of accounts payable. Using the data included in the claims documents and in XYZ Company's accounts payable detail records, reconcile any differences found to the accounts payable trial balance.

All differences noted are presented in column 3 of Schedule A. Except for those amounts shown in column 4 of Schedule A, all such differences were reconciled.

3. Obtain the documentation submitted by creditors in support of the amounts claimed and compare it to the following documentation in XYZ Company's files: invoices, receiving reports, and other evidence of receipt of goods or services.

No exceptions were found as a result of these comparisons.

We were not engaged to and did not conduct an audit, the objective of which would be the expression of an opinion on the claims of creditors set forth in the accompanying Schedule A. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Trustee of XYZ Company and is not intended to be and should not be used by anyone other than this specified party.

AT Section 301

Financial Forecasts and Projections

Source: SSAE No. 10; SSAE No. 11; SSAE No. 17.

Effective when the date of the practitioner's report is on or after June 1, 2001, unless otherwise indicated.

Introduction

.01 This section sets forth standards and provides guidance to practitioners who are engaged to issue or do issue examination (paragraphs .29–.50), compilation (paragraphs .12–.28), or agreed-upon procedures reports (paragraphs .51–.56) on prospective financial statements.

.02 Whenever a practitioner (*a*) submits, to his or her client or others, prospective financial statements that he or she has assembled, or assisted in assembling, that are or reasonably might be expected to be used by another (third) party¹ or (*b*) reports on prospective financial statements that are, or reasonably might be expected to be used by another (third) party, the practitioner should perform one of the engagements described in the preceding paragraph. In deciding whether the prospective financial statements are or reasonably might be expected to be used by a third party, the practitioner may rely on either the written or oral representation of the responsible party, unless information comes to his or her attention that contradicts the responsible party's representation. If such third-party use of the prospective financial statements is not reasonably expected, the provisions of this section are not applicable unless the practitioner has been engaged to examine, compile, or apply agreed-upon procedures to the prospective financial statements.

.03 This section also provides standards for a practitioner who is engaged to examine, compile, or apply agreed-upon procedures to partial presentations. A partial presentation is a presentation of prospective financial information that excludes one or more of the items required for prospective financial statements as described in appendix A [paragraph .68], "Minimum Presentation Guidelines."

.04 The practitioner who has been engaged to or does compile, examine, or apply agreed-upon procedures to a partial presentation should perform the engagement in accordance with the guidance in paragraphs .12–.28 for compilations, .29–.50 for examinations, and .51–.56 for agreed-upon procedures, respectively, modified to reflect the nature of the presentation as discussed in paragraphs .03, .57, and .58.

.05 This section does not provide standards or procedures for engagements involving prospective financial statements used solely in connection with litigation support services. A practitioner may, however, look to these standards because they provide helpful guidance for many aspects of such engagements and may be referred to as useful guidance in such engagements. Litigation support services are engagements involving pending or potential formal legal proceedings before a trier of fact in connection with the resolution

¹ However, paragraph .59 permits an exception to this for certain types of budgets.

of a dispute between two or more parties, for example, when a practitioner acts as an expert witness. This exception is provided because, among other things, the practitioner's work in such proceedings is ordinarily subject to detailed analysis and challenge by each party to the dispute. This exception does not apply, however, if either of the following occur.

- a. The practitioner is specifically engaged to issue or does issue an examination, a compilation, or an agreed-upon procedures report on prospective financial statements.
- b. The prospective financial statements are for use by third parties who, under the rules of the proceedings, do not have the opportunity for analysis and challenge by each party to a dispute in a legal proceeding.

For example, creditors may not have such opportunities when prospective financial statements are submitted to them to secure their agreement to a plan of reorganization.

.06 In reporting on prospective financial statements, the practitioner may be called on to assist the responsible party in identifying assumptions, gathering information, or assembling the statements.² The responsible party is nonetheless responsible for the preparation and presentation of the prospective financial statements because the prospective financial statements are dependent on the actions, plans, and assumptions of the responsible party, and only it can take responsibility for the assumptions. Accordingly, the practitioner's engagement should not be characterized in his or her report or in the document containing his or her report as including "preparation" of the prospective financial statements. A practitioner may be engaged to prepare a financial analysis of a potential project where the engagement includes obtaining the information, making appropriate assumptions, and assembling the presentation. Such an analysis is not and should not be characterized as a forecast or projection and would not be appropriate for general use. However, if the responsible party reviewed and adopted the assumptions and presentation, or based its assumptions and presentation on the analysis, the practitioner could perform one of the engagements described in this section and issue a report appropriate for general use.

.07 The concept of materiality affects the application of this section to prospective financial statements as materiality affects the application of generally accepted auditing standards (GAAS) to historical financial statements. Materiality is a concept that is judged in light of the expected range of reasonableness of the information; therefore, users should not expect prospective information (information about events that have not yet occurred) to be as precise as historical information.

Definitions

- .08** For the purposes of this section the following definitions apply.
- a. *Prospective financial statements*—Either financial forecasts or financial projections including the summaries of significant assumptions and accounting policies. Although prospective financial statements

² Some of these services may not be appropriate if the practitioner is to be named as the person reporting on an examination in a filing with the Securities and Exchange Commission (SEC). SEC Release Nos. 33-5992 and 34-15305, "Disclosure of Projections of Future Economic Performance," state that for prospective financial statements filed with the commission, "a person should not be named as an outside reviewer if he actively assisted in the preparation of the projection."

may cover a period that has partially expired, statements for periods that have completely expired are not considered to be prospective financial statements. Pro forma financial statements and partial presentations are not considered to be prospective financial statements.³

- b. *Partial presentation*—A presentation of prospective financial information that excludes one or more of the items required for prospective financial statements as described in appendix A (paragraph .68), "Minimum Presentation Guidelines." Partial presentations are not ordinarily appropriate for general use; accordingly, partial presentations should be restricted for use by specified parties who will be negotiating directly with the responsible party.
- c. *Financial forecast*—Prospective financial statements that present, to the best of the responsible party's knowledge and belief, an entity's expected financial position, results of operations, and cash flows. A financial forecast is based on the responsible party's assumptions reflecting the conditions it expects to exist and the course of action it expects to take. A financial forecast may be expressed in specific monetary amounts as a single point estimate of forecasted results or as a range, where the responsible party selects key assumptions to form a range within which it reasonably expects, to the best of its knowledge and belief, the item or items subject to the assumptions to actually fall. When a forecast contains a range, the range is not selected in a biased or misleading manner, for example, a range in which one end is significantly less expected than the other. Minimum presentation guidelines for prospective financial statements are set forth in appendix A (paragraph .68).
- d. *Financial projection*—Prospective financial statements that present, to the best of the responsible party's knowledge and belief, given one or more hypothetical assumptions, an entity's expected financial position, results of operations, and cash flows. A financial projection is sometimes prepared to present one or more hypothetical courses of action for evaluation, as in response to a question such as, "What would happen if . . . ?" A financial projection is based on the responsible party's assumptions reflecting conditions it expects would exist and the course of action it expects would be taken, given one or more hypothetical assumptions. A projection, like a forecast, may contain a range. Minimum presentation guidelines for prospective financial statements are set forth in appendix A (paragraph .68).
- e. *Entity*—Any unit, existing or to be formed, for which financial statements could be prepared in accordance with generally accepted accounting principles (GAAP) or another comprehensive basis of accounting.⁴ For example, an entity can be an individual, partnership, corporation, trust, estate, association, or governmental unit.
- f. *Hypothetical assumption*—An assumption used in a financial projection to present a condition or course of action that is not necessarily expected to occur, but is consistent with the purpose of the projection.

³ The objective of pro forma financial information is to show what the significant effects on the historical financial information might have been had a consummated or proposed transaction (or event) occurred at an earlier date. Although the transaction in question may be prospective, this section does not apply to such presentations because they are essentially historical financial statements and do not purport to be prospective financial statements. See section 401, *Reporting on Pro Forma Financial Information*.

⁴ AU section 623, *Special Reports*, discusses comprehensive bases of accounting other than GAAP.

- g. Responsible party*—The person or persons who are responsible for the assumptions underlying the prospective financial statements. The responsible party usually is management, but it can be persons outside of the entity who do not currently have the authority to direct operations (for example, a party considering acquiring the entity).
- h. Assembly*—The manual or computer processing of mathematical or other clerical functions related to the presentation of the prospective financial statements. Assembly does not refer to the mere reproduction and collation of such statements or to the responsible party's use of the practitioner's computer processing hardware or software.
- i. Key factors*—The significant matters on which an entity's future results are expected to depend. Such factors are basic to the entity's operations and thus encompass matters that affect, among other things, the entity's sales, production, service, and financing activities. Key factors serve as a foundation for prospective financial statements and are the bases for the assumptions.

Uses of Prospective Financial Statements

.09 Prospective financial statements are for either *general use* or *limited use*. *General use* of prospective financial statements refers to the use of the statements by persons with whom the responsible party is not negotiating directly, for example, in an offering statement of an entity's debt or equity interests. Because recipients of prospective financial statements distributed for general use are unable to ask the responsible party directly about the presentation, the presentation most useful to them is one that portrays, to the best of the responsible party's knowledge and belief, the expected results. Thus, only a financial forecast is appropriate for general use.

.10 *Limited use* of prospective financial statements refers to the use of prospective financial statements by the responsible party alone or by the responsible party and third parties with whom the responsible party is negotiating directly. Examples include use in negotiations for a bank loan, submission to a regulatory agency, and use solely within the entity. Third-party recipients of prospective financial statements intended for limited use can ask questions of the responsible party and negotiate terms directly with it. Any type of prospective financial statements that would be useful in the circumstances would normally be appropriate for limited use. Thus, the presentation may be a financial forecast or a financial projection.

.11 Because a financial projection is not appropriate for general use, a practitioner should not consent to the use of his or her name in conjunction with a financial projection that he or she believes will be distributed to those who will not be negotiating directly with the responsible party, for example, in an offering statement of an entity's debt or equity interests, unless the projection is used to supplement a financial forecast.

Compilation of Prospective Financial Statements

.12 A compilation of prospective financial statements is a professional service that involves the following:

- a. Assembling, to the extent necessary, the prospective financial statements based on the responsible party's assumptions*

- b. Performing the required compilation procedures,⁵ including reading the prospective financial statements with their summaries of significant assumptions and accounting policies, and considering whether they appear to be presented in conformity with AICPA presentation guidelines⁶ and not obviously inappropriate
- c. Issuing a compilation report

.13 A compilation is not intended to provide assurance on the prospective financial statements or the assumptions underlying such statements. Because of the limited nature of the practitioner's procedures, a compilation does not provide assurance that the practitioner will become aware of significant matters that might be disclosed by more extensive procedures, for example, those performed in an examination of prospective financial statements.

.14 The summary of significant assumptions is essential to the reader's understanding of prospective financial statements. Accordingly, the practitioner should not compile prospective financial statements that exclude disclosure of the summary of significant assumptions. Also, the practitioner should not compile a financial projection that excludes either (a) an identification of the hypothetical assumptions or (b) a description of the limitations on the usefulness of the presentation.

.15 The following standards apply to a compilation of prospective financial statements and to the resulting report.

- a. The compilation should be performed by a person or persons having adequate technical training and proficiency to compile prospective financial statements.
- b. Due professional care should be exercised in the performance of the compilation and the preparation of the report.
- c. The work should be adequately planned, and assistants, if any, should be properly supervised.
- d. Applicable compilation procedures should be performed as a basis for reporting on the compiled prospective financial statements. (See appendix B [paragraph .69], "Training and Proficiency, Planning and Procedures Applicable to Compilations," for the procedures to be performed.)
- e. The report based on the practitioner's compilation of prospective financial statements should conform to the applicable guidance in paragraphs .18–.28.

.16 The practitioner should consider, after applying the procedures specified in paragraph .69, whether representations or other information he or she has received appear to be obviously inappropriate, incomplete, or otherwise misleading, and if so, the practitioner should attempt to obtain additional or revised information. If he or she does not receive such information, the practitioner should ordinarily withdraw from the compilation engagement.⁷ (Note that the

⁵ See appendix B (paragraph .69), subparagraph 5, for the required procedures.

⁶ AICPA presentation guidelines are detailed in AICPA Guide *Prospective Financial Information*.

⁷ The practitioner need not withdraw from the engagement if the effect of such information on the prospective financial statement does not appear to be material.

omission of disclosures, other than those relating to significant assumptions, would not require the practitioner to withdraw. See paragraph .26.)

Working Papers

[.17] [Paragraph deleted by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

Reports on Compiled Prospective Financial Statements

.18 The practitioner's standard report on a compilation of prospective financial statements should include the following:

- a. An identification of the prospective financial statements presented by the responsible party
- b. A statement that the practitioner has compiled the prospective financial statements in accordance with attestation standards established by the American Institute of Certified Public Accountants
- c. A statement that a compilation is limited in scope and does not enable the practitioner to express an opinion or any other form of assurance on the prospective financial statements or the assumptions
- d. A caveat that the prospective results may not be achieved
- e. A statement that the practitioner assumes no responsibility to update the report for events and circumstances occurring after the date of the report
- f. The manual or printed signature of the practitioner's firm
- g. The date of the compilation report

.19 The following is the form of the practitioner's standard report on the compilation of a forecast that does not contain a range.⁸

We have compiled the accompanying forecasted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending, in accordance with attestation standards established by the American Institute of Certified Public Accountants.⁹

A compilation is limited to presenting in the form of a forecast information that is the representation of management¹⁰ and does not include evaluation of the support for the assumptions underlying the forecast. We have not examined the forecast and, accordingly, do not express an opinion or any other form of

⁸ The forms of reports provided in this section are appropriate whether the presentation is based on GAAP or on another comprehensive basis of accounting.

⁹ When the presentation is summarized as discussed in appendix A (paragraph .68), this sentence might read, "We have compiled the accompanying summarized forecast of XYZ Company as of December 31, 20XX, and for the year then ending in accordance with attestation standards established by the American Institute of Certified Public Accountants."

¹⁰ If the responsible party is other than management, the references to management in the standard reports provided in this section should be changed to refer to the party who assumes responsibility for the assumptions.

assurance on the accompanying statements or assumptions. Furthermore, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

[Signature]

[Date]

.20 When the presentation is a projection, the practitioner's compilation report should include the report elements set forth in paragraph .18. Additionally, the report should include a statement describing the special purpose for which the projection was prepared as well as a separate paragraph that restricts the use of the report because it is intended to be used solely by the specified parties. The following is the form of the practitioner's standard report on a compilation of a projection that does not contain a range.

We have compiled the accompanying projected balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending, in accordance with attestation standards established by the American Institute of Certified Public Accountants.¹¹ The accompanying projection was prepared for *[state special purpose, for example, "the purpose of negotiating a loan to expand XYZ Company's plant"]*.

A compilation is limited to presenting in the form of a projection information that is the representation of management and does not include evaluation of the support for the assumptions underlying the projection. We have not examined the projection and, accordingly, do not express an opinion or any other form of assurance on the accompanying statements or assumptions. Furthermore, even if *[describe hypothetical assumption, for example, "the loan is granted and the plant is expanded,"]* there will usually be differences between the projected and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

The accompanying projection and this report are intended solely for the information and use of *[identify specified parties, for example, "XYZ Company and DEF Bank"]* and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

.21 When the prospective financial statements contain a range, the practitioner's standard report should also include a separate paragraph that states that the responsible party has elected to portray the expected results of one or more assumptions as a range. The following is an example of the separate paragraph to be added to the practitioner's report when he or she compiles prospective financial statements, in this case a forecast, that contain a range.

As described in the summary of significant assumptions, management of XYZ Company has elected to portray forecasted *[describe financial statement element*

¹¹ When the presentation is summarized as discussed in appendix A (paragraph .68), this sentence might read as follows.

We have compiled the accompanying summarized projection of XYZ Company as of December 31, 20XX, and for the year then ending in accordance with attestation standards established by the American Institute of Certified Public Accountants.

or elements for which the expected results of one or more assumptions fall within a range, and identify the assumptions expected to fall within a range, for example, "revenue at the amounts of \$X,XXX and \$Y,YYY, which is predicated upon occupancy rates of XX percent and YY percent of available apartments," rather than as a single point estimate. Accordingly, the accompanying forecast presents forecasted financial position, results of operations, and cash flows [*describe one or more assumptions expected to fall within a range, for example, "at such occupancy rates."*] However, there is no assurance that the actual results will fall within the range of [*describe one or more assumptions expected to fall within a range, for example, "occupancy rates"*] presented.

.22 The date of completion of the practitioner's compilation procedures should be used as the date of the report.

.23 A practitioner may compile prospective financial statements for an entity with respect to which he or she is not independent.¹² In such circumstances, the practitioner's report should be modified to indicate his or her lack of independence in a separate paragraph of the practitioner's report. An example of such a disclosure would be

We are not independent with respect to XYZ Company.

The practitioner is not precluded from disclosing a description about the reason(s) that his or her independence is impaired. The following are examples of descriptions the practitioner may use:

- a. We are not independent with respect to XYZ Company as of and for the year ended [*or ending, as applicable*] December 31, 20XX, because a member of the engagement team had a direct financial interest in XYZ Company.
- b. We are not independent with respect to XYZ Company as of and for the year ended [*or ending, as applicable*] December 31, 20XX, because an immediate family member of one of the members of the engagement team was employed by XYZ Company.
- c. We are not independent with respect to XYZ Company as of and for the year ended [*or ending, as applicable*] December 31, 20XX, because we performed certain accounting services (the practitioner may include a specific description of those services) that impaired our independence.

If the accountant elects to disclose a description about the reasons his or her independence is impaired, the accountant should ensure that all reasons are included in the description.

[As amended, effective for compilations of prospective financial statements for periods ending on or after December 15, 2010, by SSAE No. 17.]

.24 Prospective financial statements may be included in a document that also contains historical financial statements and the practitioner's report thereon.¹³ In addition, the historical financial statements that appear in the

¹² In making a judgment about whether he or she is independent, the practitioner should be guided by the AICPA Code of Professional Conduct. [Footnote amended, effective for compilations of prospective financial statements for periods ending on or after December 15, 2010, by SSAE No. 17.]

¹³ The practitioner's responsibility with respect to those historical financial statements upon which he or she is not engaged to perform a professional service is described in AU section 504, *Association With Financial Statements*, in the case of public entities, and Statement on Standards for Accounting and Review Services (SSARS) No. 1, *Compilation and Review of Financial Statements*, paragraph 3 (AR sec. 100 par. .03), in the case of nonpublic entities. [Footnote revised, November 2002, to reflect conforming changes necessary due to the issuance of Statement on Standards for Accounting and Review Services No. 9.]

document may be summarized and presented with the prospective financial statements for comparative purposes.¹⁴ An example of the reference to the practitioner's report on the historical financial statements when he or she audited, reviewed, or compiled those statements is presented below.

[Concluding sentence of last paragraph]

The historical financial statements for the year ended December 31, 20XX, *[from which the historical data are derived]* and our report thereon are set forth on pages XX-XX of this document.

.25 In some circumstances, a practitioner may wish to expand his or her report to emphasize a matter regarding the prospective financial statements. Such information may be presented in a separate paragraph of the practitioner's report. However, the practitioner should exercise care that emphasizing such a matter does not give the impression that he or she is expressing assurance or expanding the degree of responsibility he or she is taking with respect to such information.¹⁵ For example, the practitioner should not include statements in his or her compilation report about the mathematical accuracy of the statements or their conformity with presentation guidelines.

Modifications of the Standard Compilation Report

.26 An entity may request a practitioner to compile prospective financial statements that contain presentation deficiencies or omit disclosures other than those relating to significant assumptions. The practitioner may compile such prospective financial statements provided the deficiency or omission is clearly indicated in his or her report and is not, to his or her knowledge, undertaken with the intention of misleading those who might reasonably be expected to use such statements.

.27 Notwithstanding the preceding, if the compiled prospective financial statements are presented on a comprehensive basis of accounting other than GAAP and do not include disclosure of the basis of accounting used, the basis should be disclosed in the practitioner's report.

.28 The following is an example of a paragraph that should be added to a report on compiled prospective financial statements, in this case a financial forecast, in which the summary of significant accounting policies has been omitted.

Management has elected to omit the summary of significant accounting policies required by the guidelines for presentation of a forecast established by the American Institute of Certified Public Accountants. If the omitted disclosures were included in the forecast, they might influence the user's conclusions about the Company's financial position, results of operations, and cash flows for the forecast period. Accordingly, this forecast is not designed for those who are not informed about such matters.

Examination of Prospective Financial Statements

.29 An examination of prospective financial statements is a professional service that involves—

¹⁴ AU section 552, *Reporting on Condensed Financial Statements and Selected Financial Data*, discusses the practitioner's report where summarized financial statements are derived from audited statements that are not included in the same document.

¹⁵ However, the practitioner may provide assurance on tax matters in order to comply with the requirements of regulations governing practice before the Internal Revenue Service (IRS) contained in 31 CFR pt. 10 (Treasury Department Circular No. 230).

- a. Evaluating the preparation of the prospective financial statements.
- b. Evaluating the support underlying the assumptions.
- c. Evaluating the presentation of the prospective financial statements for conformity with AICPA presentation guidelines.¹⁶
- d. Issuing an examination report.

.30 As a result of his or her examination, the practitioner has a basis for reporting on whether, in his or her opinion—

- a. The prospective financial statements are presented in conformity with AICPA guidelines.
- b. The assumptions provide a reasonable basis for the responsible party's forecast, or whether the assumptions provide a reasonable basis for the responsible party's projection given the hypothetical assumptions.

.31 The practitioner should follow the general, fieldwork, and reporting standards for attestation engagements established in section 50, *SSAE Hierarchy*, and further explained in section 101, *Attest Engagements*, in performing an examination of prospective financial statements and reporting thereon. (See paragraph .70 for standards concerning such technical training and proficiency, planning the examination engagement, and the types of procedures a practitioner should perform to obtain sufficient evidence for his or her examination report.) [Revised, November 2006, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 14.]

Working Papers

[.32] [Paragraph deleted by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

Reports on Examined Prospective Financial Statements

.33 The practitioner's standard report on an examination of prospective financial statements should include the following:

- a. A title that includes the word *independent*
- b. An identification of the prospective financial statements presented
- c. An identification of the responsible party and a statement that the prospective financial statements are the responsibility of the responsible party
- d. A statement that the practitioner's responsibility is to express an opinion on the prospective financial statements based on his or her examination
- e. A statement that the examination of the prospective financial statements was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as the practitioner considered necessary in the circumstances
- f. A statement that the practitioner believes that the examination provides a reasonable basis for his or her opinion

¹⁶ AICPA presentation guidelines are detailed in AICPA Guide *Prospective Financial Information*.

- g. The practitioner's opinion that the prospective financial statements are presented in conformity with AICPA presentation guidelines and that the underlying assumptions provide a reasonable basis for the forecast or a reasonable basis for the projection given the hypothetical assumptions¹⁷
- h. A caveat that the prospective results may not be achieved
- i. A statement that the practitioner assumes no responsibility to update the report for events and circumstances occurring after the date of the report
- j. The manual or printed signature of the practitioner's firm
- k. The date of the examination report

.34 The following is the form of the practitioner's standard report on an examination of a forecast that does not contain a range.

Independent Accountant's Report

We have examined the accompanying forecasted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending.¹⁸ XYZ Company's management is responsible for the forecast. Our responsibility is to express an opinion on the forecast based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary to evaluate both the assumptions used by management and the preparation and presentation of the forecast. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, the accompanying forecast is presented in conformity with guidelines for presentation of a forecast established by the American Institute of Certified Public Accountants, and the underlying assumptions provide a reasonable basis for management's forecast. However, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

[Signature]

[Date]

.35 When a practitioner examines a projection, his or her opinion regarding the assumptions should be conditioned on the hypothetical assumptions; that is, he or she should express an opinion on whether the assumptions provide a reasonable basis for the projection given the hypothetical assumptions. The practitioner's examination report on a projection should include the report elements set forth in paragraph .33. Additionally, the report should include a statement describing the special purpose for which the projection was prepared as well a separate paragraph that restricts the use of the report because it is intended to be used solely by specified parties. The following is the form of the

¹⁷ The practitioner's report need not comment on the consistency of the application of accounting principles as long as the presentation of any change in accounting principles is in conformity with AICPA presentation guidelines as detailed in AICPA Guide *Prospective Financial Information*.

¹⁸ When the presentation is summarized as discussed in appendix A (paragraph .68), this sentence might read, "We have examined the accompanying summarized forecast of XYZ Company as of December 31, 20XX, and for the year then ending."

practitioner's standard report on an examination of a projection that does not contain a range.

Independent Accountant's Report

We have examined the accompanying projected balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending.¹⁹ XYZ Company's management is responsible for the projection, which was prepared for [*state special purpose, for example, "the purpose of negotiating a loan to expand XYZ Company's plant"*]. Our responsibility is to express an opinion on the projection based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary to evaluate both the assumptions used by management and the preparation and presentation of the projection. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, the accompanying projection is presented in conformity with guidelines for presentation of a projection established by the American Institute of Certified Public Accountants, and the underlying assumptions provide a reasonable basis for management's projection [*describe the hypothetical assumption, for example, "assuming the granting of the requested loan for the purpose of expanding XYZ Company's plant as described in the summary of significant assumptions."*] However, even if [*describe hypothetical assumption, for example, "the loan is granted and the plant is expanded,"*], there will usually be differences between the projected and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

The accompanying projection and this report are intended solely for the information and use of [*identify specified parties, for example, "XYZ Company and DEF National Bank"*] and is not intended to be and should not be used by anyone other than these specified parties.

[*Signature*]

[*Date*]

.36 When the prospective financial statements contain a range, the practitioner's standard report should also include a separate paragraph that states that the responsible party has elected to portray the expected results of one or more assumptions as a range. The following is an example of the separate paragraph to be added to the practitioner's report when he or she examines prospective financial statements, in this case a forecast, that contain a range.

As described in the summary of significant assumptions, management of XYZ Company has elected to portray forecasted [*describe financial statement element or elements for which the expected results of one or more assumptions fall within a range, and identify assumptions expected to fall within a range, for example, "revenue at the amounts of \$X,XXX and \$Y,YYY, which is predicated upon occupancy rates of XX percent and YY percent of available apartments,"*] rather than as a single point estimate. Accordingly, the accompanying forecast presents forecasted financial position, results of operations, and cash flows [*describe one or more assumptions expected to fall within a range, for example, "at*

¹⁹ When the presentation is summarized as discussed in appendix A (paragraph .68), this sentence might read, "We have examined the accompanying summarized projection of XYZ Company as of December 31, 20XX, and for the year then ending."

such occupancy rates."] However, there is no assurance that the actual results will fall within the range of [*describe one or more assumptions expected to fall within a range, for example, "occupancy rates"*] presented.

.37 The date of completion of the practitioner's examination procedures should be used as the date of the report.

Modifications to the Practitioner's Opinion²⁰

.38 The following circumstances result in the following types of modified practitioner's report involving the practitioner's opinion.

- a. If, in the practitioner's opinion, the prospective financial statements depart from AICPA presentation guidelines, he or she should express a qualified opinion (see paragraph .39) or an adverse opinion. (See paragraph .41.)²¹ However, if the presentation departs from the presentation guidelines because it fails to disclose assumptions that appear to be significant, the practitioner should express an adverse opinion. (See paragraphs .41 and .42.)
- b. If the practitioner believes that one or more significant assumptions do not provide a reasonable basis for the forecast, or a reasonable basis for the projection given the hypothetical assumptions, he or she should express an adverse opinion. (See paragraph .41.)
- c. If the practitioner's examination is affected by conditions that preclude application of one or more procedures he or she considers necessary in the circumstances, he or she should disclaim an opinion and describe the scope limitation in his or her report. (See paragraph .43.)

.39 *Qualified Opinion.* In a qualified opinion, the practitioner should state, in a separate paragraph, all substantive reasons for modifying his or her opinion and describe the departure from AICPA presentation guidelines. His or her opinion should include the words "except" or "exception" as the qualifying language and should refer to the separate explanatory paragraph. The following is an example of an examination report on a forecast that is at variance with AICPA guidelines for presentation of a financial forecast.

Independent Accountant's Report

We have examined the accompanying forecasted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending. XYZ Company's management is responsible for the forecast. Our responsibility is to express an opinion on the forecast based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary to evaluate both the assumptions used by management and the preparation and presentation of the forecast. We believe that our examination provides a reasonable basis for our opinion.

²⁰ Paragraphs .38–.44 describe circumstances in which the practitioner's standard report on prospective financial statements may require modification. The guidance for modifying the practitioner's standard report is generally applicable to partial presentations. Also, depending on the nature of the presentation, the practitioner may decide to disclose that the partial presentation is not intended to be a presentation of financial position, results of operations, or cash flows. Illustrative reports on partial presentations may be found in AICPA Guide *Prospective Financial Information*.

²¹ However, the practitioner may issue the standard examination report on a financial forecast filed with the SEC that meets the presentation requirements of article XI of Regulation S-X.

The forecast does not disclose significant accounting policies. Disclosure of such policies is required by guidelines for presentation of a forecast established by the American Institute of Certified Public Accountants.

In our opinion, except for the omission of the disclosure of the significant accounting policies as discussed in the preceding paragraph, the accompanying forecast is presented in conformity with guidelines for a presentation of a forecast established by the American Institute of Certified Public Accountants and the underlying assumptions provide a reasonable basis for management's forecast. However, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

[Signature]

[Date]

.40 Because of the nature, sensitivity, and interrelationship of prospective information, a reader would find a practitioner's report qualified for a measurement departure,²² the reasonableness of the underlying assumptions, or a scope limitation difficult to interpret. Accordingly, the practitioner should not express his or her opinion about these items with language such as "except for . . ." or "subject to the effects of . . ." Rather, when a measurement departure, an unreasonable assumption, or a limitation on the scope of the practitioner's examination has led him or her to conclude that he or she cannot issue an unqualified opinion, he or she should issue the appropriate type of modified opinion described in paragraphs .41–.44.

.41 *Adverse Opinion.* In an adverse opinion the practitioner should state, in a separate paragraph, all of the substantive reasons for his or her adverse opinion. His or her opinion should state that the presentation is not in conformity with presentation guidelines and should refer to the explanatory paragraph. When applicable, his or her opinion paragraph should also state that, in the practitioner's opinion, the assumptions do not provide a reasonable basis for the prospective financial statements. An example of an adverse opinion on an examination of prospective financial statements is set forth below. In this case, a financial forecast was examined and the practitioner's opinion was that a significant assumption was unreasonable. The example should be revised as appropriate for a different type of presentation or if the adverse opinion is issued because the statements do not conform to the presentation guidelines.

Independent Accountant's Report

We have examined the accompanying forecasted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending. XYZ Company's management is responsible for the forecast. Our responsibility is to express an opinion on the forecast based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary to evaluate

²² An example of a measurement departure is the failure to capitalize a capital lease in a forecast where the historical financial statements for the prospective period are expected to be presented in conformity with GAAP.

both the assumptions used by management and the preparation and presentation of the forecast. We believe that our examination provides a reasonable basis for our opinion.

As discussed under the caption "Sales" in the summary of significant forecast assumptions, the forecasted sales include, among other things, revenue from the Company's federal defense contracts continuing at the current level. The Company's present federal defense contracts will expire in March 20XX. No new contracts have been signed and no negotiations are under way for new federal defense contracts. Furthermore, the federal government has entered into contracts with another company to supply the items being manufactured under the Company's present contracts.

In our opinion, the accompanying forecast is not presented in conformity with guidelines for presentation of a financial forecast established by the American Institute of Certified Public Accountants because management's assumptions, as discussed in the preceding paragraph, do not provide a reasonable basis for management's forecast. We have no responsibility to update this report for events or circumstances occurring after the date of this report.

[Signature]

[Date]

.42 If the presentation, including the summary of significant assumptions, fails to disclose assumptions that, at the time, appear to be significant, the practitioner should describe the assumptions in his or her report and express an adverse opinion. The practitioner should not examine a presentation that omits all disclosures of assumptions. Also, the practitioner should not examine a financial projection that omits (a) an identification of the hypothetical assumptions or (b) a description of the limitations on the usefulness of the presentation.

.43 *Disclaimer of Opinion.* In a disclaimer of opinion, the practitioner's report should indicate, in a separate paragraph, the respects in which the examination did not comply with standards for an examination. The practitioner should state that the scope of the examination was not sufficient to enable him or her to express an opinion with respect to the presentation or the underlying assumptions, and his or her disclaimer of opinion should include a direct reference to the explanatory paragraph. The following is an example of a report on an examination of prospective financial statements, in this case a financial forecast, for which a significant assumption could not be evaluated.

Independent Accountant's Report

We were engaged to examine the accompanying forecasted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending. XYZ Company's management is responsible for the forecast.

As discussed under the caption "Income From Investee" in the summary of significant forecast assumptions, the forecast includes income from an equity investee constituting 23 percent of forecasted net income, which is management's estimate of the Company's share of the investee's income to be accrued for 20XX. The investee has not prepared a forecast for the year ending December 31, 20XX, and we were therefore unable to obtain suitable support for this assumption.

Because, as described in the preceding paragraph, we are unable to evaluate management's assumption regarding income from an equity investee and other assumptions that depend thereon, the scope of our work was not sufficient to express, and we do not express, an opinion with respect to the presentation of

or the assumptions underlying the accompanying forecast. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

[Signature]

[Date]

.44 When there is a scope limitation and the practitioner also believes there are material departures from the presentation guidelines, those departures should be described in the practitioner's report.

Other Modifications to the Standard Examination Report

.45 The circumstances described below, although not necessarily resulting in modifications to the practitioner's opinion, would result in the following types of modifications to the standard examination report.

.46 *Emphasis of a Matter.* In some circumstances, the practitioner may wish to emphasize a matter regarding the prospective financial statements but nevertheless intends to express an unqualified opinion. The practitioner may present other information and comments he or she wishes to include, such as explanatory comments or other informative material, in a separate paragraph of his or her report.

.47 *Evaluation Based in Part on a Report of Another Practitioner.* When more than one practitioner is involved in the examination, the guidance provided for that situation in connection with examinations of historical financial statements is generally applicable. When the principal practitioner decides to refer to the report of another practitioner as a basis, in part, for his or her own opinion, he or she should disclose that fact in stating the scope of the examination and should refer to the report of the other practitioner in expressing his or her opinion. Such a reference indicates the division of responsibility for the performance of the examination.

.48 *Comparative Historical Financial Information.* Prospective financial statements may be included in a document that also contains historical financial statements and a practitioner's report thereon.²³ In addition, the historical financial statements that appear in the document may be summarized and presented with the prospective financial statements for comparative purposes.²⁴ An example of the reference to the practitioner's report on the historical financial statements when he or she audited, reviewed, or compiled those statements is presented in paragraph .24.

.49 *Reporting When the Examination Is Part of a Larger Engagement.* When the practitioner's examination of prospective financial statements is part of a larger engagement, for example, a financial feasibility study or business acquisition study, it is appropriate to expand the report on the examination of the prospective financial statements to describe the entire engagement.

²³ The practitioner's responsibility with respect to those historical financial statements upon which he or she is not engaged to perform a professional service is described in AU section 504, in the case of public entities, and SSARS No. 1, paragraph 3 (AR sec. 100 par. .03), in the case of nonpublic entities. [Footnote revised, November 2002, to reflect conforming changes necessary due to the issuance of Statement on Standards for Accounting and Review Services No. 9.]

²⁴ AU section 552 discusses the practitioner's report for summarized financial statements derived from audited financial statements that are not included in the same document.

.50 The following is a report that might be issued when a practitioner chooses to expand his or her report on a financial feasibility study.²⁵

Independent Accountant's Report

- a. The Board of Directors
Example Hospital
Example, Texas
- b. We have prepared a financial feasibility study of Example Hospital's (the Hospital's) plans to expand and renovate its facilities. The study was undertaken to evaluate the ability of the Hospital to meet its operating expenses, working capital needs, and other financial requirements, including the debt service requirements associated with the proposed \$25,000,000 [*legal title of bonds*] issue, at an assumed average annual interest rate of 10.0 percent during the five years ending December 31, 20X6.
- c. The proposed capital improvements program (the Program) consists of a new two-level addition, which is to provide fifty additional medical-surgical beds, increasing the complement to 275 beds. In addition, various administrative and support service areas in the present facilities are to be remodeled. The Hospital administration anticipates that construction is to begin June 30, 20X2, and to be completed by December 31, 20X3.
- d. The estimated total cost of the Program is approximately \$30,000,000. It is assumed that the \$25,000,000 of revenue bonds that the Example Hospital Finance Authority proposes to issue would be the primary source of funds for the Program. The responsibility for payment of debt service on the bonds is solely that of the Hospital. Other necessary funds to finance the Program are assumed to be provided from the Hospital's funds, from a local fund drive, and from interest earned on funds held by the bond trustee during the construction period.
- e. Our procedures included analysis of the following:
 - Program history, objectives, timing, and financing
 - The future demand for the Hospital's services, including consideration of the following:
 - Economic and demographic characteristics of the Hospital's defined service area
 - Locations, capacities, and competitive information pertaining to other existing and planned area hospitals
 - Physician support for the Hospital and its programs
 - Historical utilization levels
 - Planning agency applications and approvals
 - Construction and equipment costs, debt service requirements, and estimated financing costs

²⁵ Although the entity referred to in the report is a hospital, the form of report is also applicable to other entities such as hotels or stadiums. Also, although the illustrated report format and language should not be departed from in any significant way, the language used should be tailored to fit the circumstances that are unique to a particular engagement (for example, the description of the proposed capital improvement program, paragraph c; the proposed financing of the program, paragraphs b and d; the specific procedures applied by the practitioner, paragraph e; and any explanatory comments included in emphasis-of-a-matter paragraphs, paragraph i, which deals with general matter; and paragraph j, which deals with specific matters).

- Staffing patterns and other operating considerations
 - Third-party reimbursement policy and history
 - Revenue/expense/volume relationships
- f.* We also participated in gathering other information, assisted management in identifying and formulating its assumptions, and assembled the accompanying financial forecast based on those assumptions.
- g.* The accompanying financial forecast for the annual periods ending December 31, 20X2, through 20X6, is based on assumptions that were provided by or reviewed with and approved by management. The financial forecast includes the following:
- Balance sheets
 - Statements of operations
 - Statements of cash flows
 - Statements of changes in net assets
- h.* We have examined the financial forecast. Example Hospital's management is responsible for the forecast. Our responsibility is to express an opinion on the forecast based on our examination. Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary to evaluate both the assumptions used by management and the preparation and presentation of the forecast. We believe that our examination provides a reasonable basis for our opinion.
- i.* Legislation and regulations at all levels of government have affected and may continue to affect revenues and expenses of hospitals. The financial forecast is based on legislation and regulations currently in effect. If future legislation or regulations related to hospital operations are enacted, such legislation or regulations could have a material effect on future operations.
- j.* The interest rate, principal payments, Program costs, and other financing assumptions are described in the section entitled "Summary of Significant Forecast Assumptions and Rationale." If actual interest rates, principal payments, and funding requirements are different from those assumed, the amount of the bond issue and debt service requirements would need to be adjusted accordingly from those indicated in the forecast. If such interest rates, principal payments, and funding requirements are lower than those assumed, such adjustments would not adversely affect the forecast.
- k.* Our conclusions are presented below.
- In our opinion, the accompanying financial forecast is presented in conformity with guidelines for presentation of a financial forecast established by the American Institute of Certified Public Accountants.
 - In our opinion, the underlying assumptions provide a reasonable basis for management's forecast. However, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material.

- The accompanying financial forecast indicates that sufficient funds could be generated to meet the Hospital's operating expenses, working capital needs, and other financial requirements, including the debt service requirements associated with the proposed \$25,000,000 bond issue, during the forecast periods. However, the achievement of any financial forecast is dependent on future events, the occurrence of which cannot be assured.
- l. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

Applying Agreed-Upon Procedures to Prospective Financial Statements

.51 The practitioner who accepts an engagement to apply agreed-upon procedures to prospective financial statements should follow the general, field-work, and reporting standards for attest engagements established in section 50, *SSAE Hierarchy*, and the guidance set forth herein and in section 201, *Agreed-Upon Procedures Engagements*. [Revised, November 2006, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 14.]

.52 A practitioner may perform an agreed-upon procedures attest engagement on prospective financial statements²⁶ provided the following conditions are met.

- a. The practitioner is independent.
- b. The practitioner and the specified parties agree upon the procedures performed or to be performed by the practitioner.
- c. The specified parties take responsibility for the sufficiency of the agreed-upon procedures for their purposes.
- d. The prospective financial statements include a summary of significant assumptions.
- e. The prospective financial statements to which the procedures are to be applied are subject to reasonably consistent evaluation against criteria that are suitable and available to the specified parties.
- f. Criteria to be used in the determination of findings are agreed upon between the practitioner and the specified parties.²⁷
- g. The procedures to be applied to the prospective financial statements are expected to result in reasonably consistent findings using the criteria.
- h. Evidential matter related to the prospective financial statements to which the procedures are applied is expected to exist to provide a reasonable basis for expressing the findings in the practitioner's report.

²⁶ Practitioners should follow the guidance in AU section 634, *Letters for Underwriters and Certain Other Requesting Parties*, when requested to perform agreed-upon procedures on a forecast and report thereon in a letter for an underwriter.

²⁷ For example, accounting principles and other presentation criteria as discussed in chapter 8, *Presentation Guidelines*, of AICPA Guide *Prospective Financial Information*.

- i. Where applicable, the practitioner and the specified users agree on any agreed-upon materiality limits for reporting purposes. (See section 201.25.)
- j. Use of the report is to be restricted to the specified parties.²⁸

.53 Generally, the practitioner's procedures may be as limited or as extensive as the specified parties desire, as long as the specified parties take responsibility for their sufficiency. However, mere reading of prospective financial statements does not constitute a procedure sufficient to permit a practitioner to report on the results of applying agreed-upon procedures to such statements. (See section 201.15.)

.54 To satisfy the requirements that the practitioner and the specified parties agree upon the procedures performed or to be performed and that the specified parties take responsibility for the sufficiency of the agreed-upon procedures for their purposes, ordinarily the practitioner should communicate directly with and obtain affirmative acknowledgment from each of the specified parties. For example, this may be accomplished by meeting with the specified parties or by distributing a draft of the anticipated report or a copy of an engagement letter to the specified parties and obtaining their agreement. If the practitioner is not able to communicate directly with all of the specified parties, the practitioner may satisfy these requirements by applying any one or more of the following or similar procedures:

- Compare the procedures to be applied to written requirements of the specified parties.
- Discuss the procedures to be applied with appropriate representatives of the specified parties involved.
- Review relevant contracts with or correspondence from the specified parties.

The practitioner should not report on an engagement when specified parties do not agree upon the procedures performed or to be performed and do not take responsibility for the sufficiency of the procedures for their purposes. (See section 201.36 for guidance on satisfying these requirements when the practitioner is requested to add other parties as specified parties after the date of completion of the agreed-upon procedures.)

Reports on the Results of Applying Agreed-Upon Procedures

.55 The practitioner's report on the results of applying agreed-upon procedures should be in the form of procedures and findings. The practitioner's report should contain the following elements:

- a. A title that includes the word *independent*
- b. Identification of the specified parties
- c. Reference to the prospective financial statements covered by the practitioner's report and the character of the engagement
- d. A statement that the procedures performed were those agreed to by the specified parties identified in the report

²⁸ In some cases, restricted-use reports filed with regulatory agencies are required by law or regulation to be made available to the public as a matter of public record. Also, a regulatory agency as part of its oversight responsibility for an entity may require access to restricted-use reports in which they are not named as a specified party. (See section 101.79.)

- e.* Identification of the responsible party and a statement that the prospective financial statements are the responsibility of the responsible party
- f.* A statement that the agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants
- g.* A statement that the sufficiency of the procedures is solely the responsibility of the specified parties and a disclaimer of responsibility for the sufficiency of those procedures
- h.* A list of the procedures performed (or reference thereto) and related findings (The practitioner should not provide negative assurance—see section 201.24.)
- i.* Where applicable, a description of any agreed-upon materiality limits (See section 201.25.)
- j.* A statement that the practitioner was not engaged to and did not conduct an examination of prospective financial statements; a disclaimer of opinion on whether the presentation of the prospective financial statements is in conformity with AICPA presentation guidelines and on whether the underlying assumptions provide a reasonable basis for the forecast, or a reasonable basis for the projection given the hypothetical assumptions; and a statement that if the practitioner had performed additional procedures, other matters might have come to his or her attention that would have been reported
- k.* A statement of restrictions on the use of the report because it is intended to be used solely by the specified parties
- l.* Where applicable, reservations or restrictions concerning procedures or findings as discussed in section 201.33, .35, .39, and .40
- m.* A caveat that the prospective results may not be achieved
- n.* A statement that the practitioner assumes no responsibility to update the report for events and circumstances occurring after the date of the report
- o.* Where applicable, a description of the nature of the assistance provided by a specialist as discussed in section 201.19–.21
- p.* The manual or printed signature of the practitioner's firm
- q.* The date of the report

.56 The following illustrates a report on applying agreed-upon procedures to the prospective financial statements. (See section 201.)

Independent Accountant's Report
on Applying Agreed-Up On Procedures

Board of Directors—XYZ Corporation

Board of Directors—ABC Company

At your request, we have performed certain agreed-upon procedures, as enumerated below, with respect to the forecasted balance sheet and the related forecasted statements of income, retained earnings, and cash flows of DEF Company, a subsidiary of ABC Company, as of December 31, 20XX, and for the year then ending. These procedures, which were agreed to by the Boards of

Directors of XYZ Corporation and ABC Company, were performed solely to assist you in evaluating the forecast in connection with the proposed sale of DEF Company to XYZ Corporation. DEF Company's management is responsible for the forecast.

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified parties. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

[Include paragraphs to enumerate procedures and findings.]

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on the accompanying prospective financial statements. Accordingly, we do not express an opinion on whether the prospective financial statements are presented in conformity with AICPA presentation guidelines or on whether the underlying assumptions provide a reasonable basis for the presentation. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you. Furthermore, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

This report is intended solely for the information and use of the Boards of Directors of ABC Company and XYZ Corporation and is not intended to be and should not be used by anyone other than these specified parties.

Partial Presentations

.57 The practitioner's procedures on a partial presentation may be affected by the nature of the information presented. Many elements of prospective financial statements are interrelated. The practitioner should give appropriate consideration to whether key factors affecting elements, accounts, or items that are interrelated with those in the partial presentation he or she has been engaged to examine or compile have been considered, including key factors that may not necessarily be obvious to the partial presentation (for example, productive capacity relative to a sales forecast), and whether all significant assumptions have been disclosed. The practitioner may find it necessary for the scope of the examination or compilation of some partial presentations to be similar to that for the examination or compilation of a presentation of prospective financial statements. For example, the scope of a practitioner's procedures when he or she examines forecasted results of operations would likely be similar to that of procedures used for the examination of prospective financial statements since the practitioner would most likely need to consider the interrelationships of all accounts in the examination of results of operations.

.58 Because partial presentations are generally appropriate only for limited use, reports on partial presentations of both forecasted and projected information should include a description of any limitations on the usefulness of the presentation.

Other Information

.59 When a practitioner's compilation, review, or audit report on historical financial statements is included in a practitioner-submitted document containing prospective financial statements, the practitioner should either examine, compile, or apply agreed-upon procedures to the prospective financial statements and report accordingly, unless the following occur.

- a. The prospective financial statements are labeled as a "budget."
- b. The budget does not extend beyond the end of the current fiscal year.
- c. The budget is presented with interim historical financial statements for the current year.

In such circumstances, the practitioner need not examine, compile, or apply agreed-upon procedures to the budget; however, he or she should report on it and—

- a. Indicate that he or she did not examine or compile the budget.
- b. Disclaim an opinion or any other form of assurance on the budget.

In addition, the budgeted information may omit the summaries of significant assumptions and accounting policies required by the guidelines for presentation of prospective financial statements established by the AICPA, provided such omission is not, to the practitioner's knowledge, undertaken with the intention of misleading those who might reasonably be expected to use such budgeted information, and is disclosed in the practitioner's report. The following is the form of the standard paragraphs to be added to the practitioner's report in this circumstance when the summaries of significant assumptions and accounting policies have been omitted.

The accompanying budgeted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the six months then ending, have not been compiled or examined by us, and, accordingly, we do not express an opinion or any other form of assurance on them.

Management has elected to omit the summaries of significant assumptions and accounting policies required under established guidelines for presentation of prospective financial statements. If the omitted summaries were included in the budgeted information, they might influence the user's conclusions about the company's budgeted information. Accordingly, this budgeted information is not designed for those who are not informed about such matters.

.60 When the practitioner's compilation, review, or audit report on historical financial statements is included in a client-prepared document containing prospective financial statements, the practitioner should not consent to the use of his or her name in the document unless:

- a. He or she has examined, compiled, or applied agreed-upon procedures to the prospective financial statements and his or her report accompanies them.
- b. The prospective financial statements are accompanied by an indication by the responsible party or the practitioner that the practitioner has not performed such a service on the prospective financial statements and that the practitioner assumes no responsibility for them.
- c. Another practitioner has examined, compiled, or applied agreed-upon procedures to the prospective financial statements and his or her report is included in the document.

In addition, if the practitioner has audited the historical financial statements and the prospective financial statements that he or she did not examine, compile, or apply agreed-upon procedures to are included in a document containing the audited historical financial statements and the auditor's report thereon,²⁹ he or she should refer to AU section 550, *Other Information in Documents Containing Audited Financial Statements*. [Revised, December 2010, to reflect conforming changes necessary due to the issuance of SAS Nos. 118–120.]

.61 The practitioner whose report on prospective financial statements is included in a client-prepared document containing historical financial statements should not consent to the use of his or her name in the document unless:

- a. He or she has compiled, reviewed, or audited the historical financial statements and his or her report accompanies them.
- b. The historical financial statements are accompanied by an indication by the responsible party or the practitioner that the practitioner has not performed such a service on the historical financial statements and that the practitioner assumes no responsibility for them.
- c. Another practitioner has compiled, reviewed, or audited the historical financial statements and his or her report is included in the document.

.62 An entity may publish various documents that contain information other than historical financial statements in addition to the compiled or examined prospective financial statements and the practitioner's report thereon. The practitioner's responsibility with respect to information in such a document does not extend beyond the financial information identified in the report, and he or she has no obligation to perform any procedures to corroborate other information contained in the document. However, the practitioner should read the other information and consider whether such information, or the manner of its presentation, is materially inconsistent with the information, or manner of its presentation, appearing in the prospective financial statements.

.63 If the practitioner examines prospective financial statements included in a document containing inconsistent information, he or she might not be able to conclude that there is adequate support for each significant assumption. The practitioner should consider whether the prospective financial statements, his or her report, or both require revision. Depending on the conclusion he or she reaches, the practitioner should consider other actions that may be appropriate, such as issuing an adverse opinion, disclaiming an opinion because of a scope limitation, withholding the use of his or her report in the document, or withdrawing from the engagement.

.64 If the practitioner compiles the prospective financial statements included in the document containing inconsistent information, he or she should attempt to obtain additional or revised information. If he or she does not receive such information, the practitioner should withhold the use of his or her report or withdraw from the compilation engagement.

.65 If, while reading the other information appearing in the document containing the examined or compiled prospective financial statements, as

²⁹ AU section 550 applies only to such prospective financial statements contained in (a) annual reports (or similar documents) that are issued to owners (or similar stakeholders) and annual reports of governments and organizations for charitable or philanthropic purposes that are available to the public that contain audited financial statements and the auditor's report thereon. AU section 550 also may be applied, adapted as necessary in the circumstances, to other documents to which the auditor, at management's request, devotes attention. AU section 550 does not apply when the historical financial statements and report appear in a registration statement filed under the Securities Act of 1933 (in which case, see AU section 711, *Filings Under Federal Securities Statutes*). [Footnote revised, December 2010, to reflect conforming changes necessary due to the issuance of SAS Nos. 118–120.]

described in the preceding paragraphs, the practitioner becomes aware of information that he or she believes is a material misstatement of fact that is not an inconsistent statement, he or she should discuss the matter with the responsible party. In connection with this discussion, the practitioner should consider that he or she may not have the expertise to assess the validity of the statement made, that there may be no standards by which to assess its presentation, and that there may be valid differences of judgment or opinion. If the practitioner concludes that he or she has a valid basis for concern, he or she should propose that the responsible party consult with some other party whose advice might be useful, such as the entity's legal counsel.

.66 If, after discussing the matter as described in paragraph .65, the practitioner concludes that a material misstatement of fact remains, the action he or she takes will depend on his or her judgment in the particular circumstances. The practitioner should consider steps such as notifying the responsible party in writing of his or her views concerning the information and consulting his or her legal counsel about further appropriate action in the circumstances.

Effective Date

.67 This section is effective when the date of the practitioner's report is on or after June 1, 2001. Early application is permitted.

Appendix A

Minimum Presentation Guidelines *

1. Prospective information presented in the format of historical financial statements facilitates comparisons with financial position, results of operations, and cash flows of prior periods, as well as those actually achieved for the prospective period. Accordingly, prospective financial statements preferably should be in the format of the historical financial statements that would be issued for the period(s) covered unless there is an agreement between the responsible party and potential users specifying another format. Prospective financial statements may take the form of complete basic financial statements¹ or may be limited to the following minimum items (where such items would be presented for historical financial statements for the period).²

- a. Sales or gross revenues
- b. Gross profit or cost of sales
- c. Unusual or infrequently occurring items
- d. Provision for income taxes
- e. Discontinued operations or extraordinary items
- f. Income from continuing operations
- g. Net income
- h. Basic and diluted earnings per share
- i. Significant changes in financial position³
- j. A description of what the responsible party intends the prospective financial statements to present, a statement that the assumptions are based on the responsible party's judgment at the time the prospective information was prepared, and a caveat that the prospective results may not be achieved

* **Note:** This appendix describes the minimum items that constitute a presentation of a financial forecast or a financial projection, as specified in AICPA Guide *Prospective Financial Information*. Complete presentation guidelines for entities that choose to issue prospective financial statements, together with illustrative presentations, are included in the Guide. The guide also prescribes presentation guidelines for partial presentations.

¹ The details of each statement may be summarized or condensed so that only the major items in each are presented. The usual footnotes associated with historical financial statements need not be included as such. However, significant assumptions and accounting policies should be disclosed.

² Similar types of financial information should be presented for entities for which these terms do not describe operations. Further, similar items should be presented if a comprehensive basis of accounting other than GAAP is used to present the prospective financial statements. For example, if the cash basis were used, item a would be cash receipts.

³ The responsible party should disclose significant cash flows and other significant changes in balance sheet accounts during the period. However, neither a balance sheet nor a statement of cash flows, as described in Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 230, *Statement of Cash Flows*, is required. Furthermore, none of the specific captions or disclosures required by FASB ASC 230 is required. Significant changes disclosed will depend on the circumstances; however, such disclosures will often include cash flows from operations. See AICPA Guide *Prospective Financial Information* exhibits 9.07 and 9.11 for illustrations of alternate methods of presenting significant cash flows. [Footnote revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

- k.* Summary of significant assumptions
- l.* Summary of significant accounting policies

2. A presentation that omits one or more of the applicable minimum items $a-i$ is a partial presentation, which would not ordinarily be appropriate for general use. If an omitted applicable minimum item is derivable from the information presented, the presentation would not be deemed to be a partial presentation. A presentation that contains the applicable minimum items $a-i$, but omits items $j-l$, is subject to all of the provisions of this section applicable to complete presentations.

Appendix B

Training and Proficiency, Planning, and Procedures Applicable to Compilations

Training and Proficiency

1. The practitioner should be familiar with the guidelines for the preparation and presentation of prospective financial statements. The guidelines are contained in AICPA Guide *Prospective Financial Information*.

2. The practitioner should possess or obtain a level of knowledge of the industry and the accounting principles and practices of the industry in which the entity operates or will operate that will enable him or her to compile prospective financial statements that are in appropriate form for an entity operating in that industry.

Planning the Compilation Engagement

3. To compile the prospective financial statements of an existing entity, the practitioner should obtain a general knowledge of the nature of the entity's business transactions and the key factors upon which its future financial results appear to depend. He or she should also obtain an understanding of the accounting principles and practices of the entity to determine whether they are comparable to those used within the industry in which the entity operates.

4. To compile the prospective financial statements of a proposed entity, the practitioner should obtain knowledge of the proposed operations and the key factors upon which its future results appear to depend and that have affected the performance of entities in the same industry.

Compilation Procedures

5. In a compilation of prospective financial statements the practitioner should perform the following, where applicable.

- a. Establish an understanding with the client regarding the services to be performed. The understanding should include the objectives of the engagement, the client's responsibilities, the practitioner's responsibilities, and limitations of the engagement. The practitioner should document the understanding in the working papers, preferably through a written communication with the client. If the practitioner believes an understanding with the client has not been established, he or she should decline to accept or perform the engagement.
- b. Inquire about the accounting principles used in the preparation of the prospective financial statements.
 - (1) For existing entities, compare the accounting principles used to those used in the preparation of previous historical financial statements and inquire whether such principles are the same as those expected to be used in the historical financial statements covering the prospective period.

- (2) For entities to be formed or entities formed that have not commenced operations, compare specialized industry accounting principles used, if any, to those typically used in the industry. Inquire whether the accounting principles used for the prospective financial statements are those that are expected to be used when or if the entity commences operations.
- c. Ask how the responsible party identifies the key factors and develops its assumptions.
- d. List, or obtain a list of the responsible party's significant assumptions providing the basis for the prospective financial statements and consider whether there are any obvious omissions in light of the key factors upon which the prospective results of the entity appear to depend.
- e. Consider whether there appear to be any obvious internal inconsistencies in the assumptions.
- f. Perform or test the mathematical accuracy of the computations that translate the assumptions into prospective financial statements.
- g. Read the prospective financial statements, including the summary of significant assumptions, and consider whether—
 - (1) The statements, including the disclosures of assumptions and accounting policies, appear to be not presented in conformity with the AICPA presentation guidelines for prospective financial statements.¹
 - (2) The statements, including the summary of significant assumptions, appear to be not obviously inappropriate in relation to the practitioner's knowledge of the entity and its industry and, for the following:
 - (a) *Financial forecast*, the expected conditions and course of action in the prospective period
 - (b) *Financial projection*, the purpose of the presentation
- h. If a significant part of the prospective period has expired, inquire about the results of operations or significant portions of the operations (such as sales volume), and significant changes in financial position, and consider their effect in relation to the prospective financial statements. If historical financial statements have been prepared for the expired portion of the period, the practitioner should read such statements and consider those results in relation to the prospective financial statements.
- i. Confirm his or her understanding of the statements (including assumptions) by obtaining written representations from the responsible party. Because the amounts reflected in the statements are not supported by historical books and records but rather by assumptions, the practitioner should obtain representations in which the responsible party indicates its responsibility for the assumptions. The representations should be signed by the responsible party at the highest

¹ Presentation guidelines for entities that issue prospective financial statements are set forth and illustrated in AICPA Guide *Prospective Financial Information*.

level of authority who the practitioner believes is responsible for and knowledgeable, directly or through others, about matters covered by the representations.

- (1) For a *financial forecast*, the representations should include the responsible party's assertion that the financial forecast presents, to the best of its knowledge and belief, the expected financial position, results of operations, and cash flows for the forecast period and that the forecast reflects the responsible party's judgment, based on present circumstances, of the expected conditions and its expected course of action. The representations should also include a statement that the forecast is presented in conformity with guidelines for presentation of a forecast established by the American Institute of Certified Public Accountants. The representations should also include a statement that the assumptions on which the forecast is based are reasonable. If the forecast contains a range, the representation should also include a statement that, to the best of the responsible party's knowledge and belief, the item or items subject to the assumption are expected to actually fall within the range and that the range was not selected in a biased or misleading manner.
 - (2) For a *financial projection*, the representations should include the responsible party's assertion that the financial projection presents, to the best of its knowledge and belief, the expected financial position, results of operations, and cash flows for the projection period given the hypothetical assumptions, and that the projection reflects its judgment, based on present circumstances, of expected conditions and its expected course of action given the occurrence of the hypothetical events. The representations should also (i) identify the hypothetical assumptions and describe the limitations on the usefulness of the presentation, (ii) state that the assumptions are appropriate, (iii) indicate if the hypothetical assumptions are improbable, and (iv) if the projection contains a range, include a statement that, to the best of the responsible party's knowledge and belief, given the hypothetical assumptions, the item or items subject to the assumption are expected to actually fall within the range and that the range was not selected in a biased or misleading manner. The representations should also include a statement that the projection is presented in conformity with guidelines for presentation of a projection established by the American Institute of Certified Public Accountants.
- j. Consider, after applying the preceding procedures, whether he or she has received representations or other information that appears to be obviously inappropriate, incomplete, or otherwise misleading and, if so, attempt to obtain additional or revised information. If he or she does not receive such information, the practitioner should ordinarily withdraw from the compilation engagement.² (Note that the omission of disclosures, other than those relating to significant assumptions, would not require the practitioner to withdraw; see paragraph .26.)

² The practitioner need not withdraw from the engagement if the effect of such information on the prospective financial statements does not appear to be material.

Appendix C

Training and Proficiency, Planning, and Procedures Applicable to Examinations

Training and Proficiency

1. The practitioner should be familiar with the guidelines for the preparation and presentation of prospective financial statements. The guidelines are contained in AICPA Guide *Prospective Financial Information*.

2. The practitioner should possess or obtain a level of knowledge of the industry and the accounting principles and practices of the industry in which the entity operates or will operate that will enable him or her to examine prospective financial statements that are in appropriate form for an entity operating in that industry.

Planning an Examination Engagement

3. Planning the examination engagement involves developing an overall strategy for the expected scope and conduct of the engagement. To develop such a strategy, the practitioner needs to have sufficient knowledge to enable him or her to adequately understand the events, transactions, and practices that, in his or her judgment, may have a significant effect on the prospective financial statements.

4. Factors to be considered by the practitioner in planning the examination include the following:

- a. The accounting principles to be used and the type of presentation
- b. The anticipated level of attestation risk related to the prospective financial statements¹
- c. Preliminary judgments about materiality levels
- d. Items within the prospective financial statements that are likely to require revision or adjustment
- e. Conditions that may require extension or modification of the practitioner's examination procedures
- f. Knowledge of the entity's business and its industry
- g. The responsible party's experience in preparing prospective financial statements
- h. The length of the period covered by the prospective financial statements
- i. The process by which the responsible party develops its prospective financial statements

¹ *Attestation* risk is the risk that the practitioner may unknowingly fail to appropriately modify his or her examination report on prospective financial statements that are materially misstated, that is, that are not presented in conformity with AICPA presentation guidelines or have assumptions that do not provide a reasonable basis for management's forecast, or management's projection given the hypothetical assumptions. It consists of (a) the risk (consisting of *inherent risk* and *control risk*) that the prospective financial statements contain errors that could be material and (b) the risk (*detection risk*) that the practitioner will not detect such errors.

5. The practitioner should obtain knowledge of the entity's business, accounting principles, and the key factors upon which its future financial results appear to depend. The practitioner should focus on areas such as the following:

- a. The availability and cost of resources needed to operate (Principal items usually include raw materials, labor, short-term and long-term financing, and plant and equipment.)
- b. The nature and condition of markets in which the entity sells its goods or services, including final consumer markets if the entity sells to intermediate markets
- c. Factors specific to the industry, including competitive conditions, sensitivity to economic conditions, accounting policies, specific regulatory requirements, and technology
- d. Patterns of past performance for the entity or comparable entities, including trends in revenue and costs, turnover of assets, uses and capacities of physical facilities, and management policies

Examination Procedures

6. The practitioner should establish an understanding with the responsible party regarding the services to be performed. The understanding should include the objectives of the engagement, the responsible party's responsibilities, the practitioner's responsibilities, and limitations of the engagement. The practitioner should document the understanding in the working papers, preferably through a written communication with the responsible party. If the practitioner believes an understanding with the responsible party has not been established, he or she should decline to accept or perform the engagement. If the responsible party is different than the client, the practitioner should establish the understanding with both the client and the responsible party, and the understanding also should include the client's responsibilities.

7. The practitioner's objective in an examination of prospective financial statements is to accumulate sufficient evidence to restrict attestation risk to a level that is, in his or her professional judgment, appropriate for the level of assurance that may be imparted by his or her examination report. In a report on an examination of prospective financial statements, the practitioner provides assurance only about whether the prospective financial statements are presented in conformity with AICPA presentation guidelines and whether the assumptions provide a reasonable basis for management's forecast, or a reasonable basis for management's projection given the hypothetical assumptions. He or she does not provide assurance about the achievability of the prospective results because events and circumstances frequently do not occur as expected and achievement of the prospective results is dependent on the actions, plans, and assumptions of the responsible party.

8. In his or her examination of prospective financial statements, the practitioner should select from all available procedures—that is, procedures that assess inherent and control risk and restrict detection risk—any combination that can restrict attestation risk to such an appropriate level. The extent to which examination procedures will be performed should be based on the practitioner's consideration of the following:

- a. The nature and materiality of the information to the prospective financial statements taken as a whole
- b. The likelihood of misstatements

- c. Knowledge obtained during current and previous engagements
 - d. The responsible party's competence with respect to prospective financial statements
 - e. The extent to which the prospective financial statements are affected by the responsible party's judgment, for example, its judgment in selecting the assumptions used to prepare the prospective financial statements
 - f. The adequacy of the responsible party's underlying data
9. The practitioner should perform those procedures he or she considers necessary in the circumstances to report on whether the assumptions provide a reasonable basis for the following.
- a. *Financial forecast.* The practitioner can form an opinion that the assumptions provide a reasonable basis for the forecast if the responsible party represents that the presentation reflects, to the best of its knowledge and belief, its estimate of expected financial position, results of operations, and cash flows for the prospective period² and the practitioner concludes, based on his or her examination, (i) that the responsible party has explicitly identified all factors expected to materially affect the operations of the entity during the prospective period and has developed appropriate assumptions with respect to such factors³ and (ii) that the assumptions are suitably supported.
 - b. *Financial projection given the hypothetical assumptions.* The practitioner can form an opinion that the assumptions provide a reasonable basis for the financial projection given the hypothetical assumptions if the responsible party represents that the presentation reflects, to the best of its knowledge and belief, expected financial position, results of operations, and cash flows for the prospective period given the hypothetical assumptions⁴ and the practitioner concludes, based on his or her examination, that:
 - (1) The responsible party has explicitly identified all factors that would materially affect the operations of the entity during the prospective period if the hypothetical assumptions were to materialize and has developed appropriate assumptions with respect to such factors and
 - (2) The other assumptions are suitably supported given the hypothetical assumptions. However, as the number and significance of the hypothetical assumptions increase, the practitioner may not be able to satisfy himself or herself about the presentation as a whole by obtaining support for the remaining assumptions.
10. The practitioner should evaluate the support for the assumptions.
- a. *Financial forecast*—The practitioner can conclude that assumptions are suitably supported if the preponderance of information supports each significant assumption.

² If the forecast contains a range, the representation should also include a statement that, to the best of the responsible party's knowledge and belief, the item or items subject to the assumption are expected to actually fall within the range and that the range was not selected in a biased or misleading manner.

³ An attempt to list all assumptions is inherently not feasible. Frequently, basic assumptions that have enormous potential impact are considered to be implicit, such as conditions of peace and absence of natural disasters.

⁴ If the projection contains a range, the representation should also include a statement that, to the best of the responsible party's knowledge and belief, given the hypothetical assumptions, the item or items subject to the assumption are expected to actually fall within the range and that the range was not selected in a biased or misleading manner.

- b. *Financial projection*—In evaluating support for assumptions other than hypothetical assumptions, the practitioner can conclude that they are suitably supported if the preponderance of information supports each significant assumption given the hypothetical assumptions. The practitioner need not obtain support for the hypothetical assumptions, although he or she should consider whether they are consistent with the purpose of the presentation.

11. In evaluating the support for assumptions, the practitioner should consider—

- a. Whether sufficient pertinent sources of information about the assumptions have been considered. Examples of external sources the practitioner might consider are government publications, industry publications, economic forecasts, existing or proposed legislation, and reports of changing technology. Examples of internal sources are budgets, labor agreements, patents, royalty agreements and records, sales backlog records, debt agreements, and actions of the board of directors involving entity plans.
- b. Whether the assumptions are consistent with the sources from which they are derived.
- c. Whether the assumptions are consistent with each other.
- d. Whether the historical financial information and other data used in developing the assumptions are sufficiently reliable for that purpose. Reliability can be assessed by inquiry and analytical or other procedures, some of which may have been completed in past audits or reviews of the historical financial statements. If historical financial statements have been prepared for an expired part of the prospective period, the practitioner should consider the historical data in relation to the prospective results for the same period, where applicable. If the prospective financial statements incorporate such historical financial results and that period is significant to the presentation, the practitioner should make a review of the historical information in conformity with the applicable standards for a review.⁵
- e. Whether the historical financial information and other data used in developing the assumptions are comparable over the periods specified or whether the effects of any lack of comparability were considered in developing the assumptions.
- f. Whether the logical arguments or theory, considered with the data supporting the assumptions, are reasonable.

12. In evaluating the preparation and presentation of the prospective financial statements, the practitioner should perform procedures that will provide reasonable assurance as to the following.

⁵ If the entity is an SEC registrant or non-SEC registrant that makes a filing with a regulatory agency in preparation for a public offering or listing, the practitioner should perform the procedures in AU section 722, *Interim Financial Information*, paragraphs .13–.19. If the entity is nonpublic, the practitioner should perform the procedures in SSARS No. 1, *Compilation and Review of Financial Statements*, as amended, paragraphs 24–37 [AR section 100.24–.37]. [Footnote revised, November 2002, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 100 and Statement on Standards for Accounting and Review Services No. 9. Footnote revised, May 2004, to reflect the conforming changes necessary due to the issuance of Statement on Standards for Accounting and Review Services No. 10.]

- a. The presentation reflects the identified assumptions.
 - b. The computations made to translate the assumptions into prospective amounts are mathematically accurate.
 - c. The assumptions are internally consistent.
 - d. Accounting principles used in the—
 - (1) Financial forecast are consistent with the accounting principles expected to be used in the historical financial statements covering the prospective period and those used in the most recent historical financial statements, if any.
 - (2) Financial projection are consistent with the accounting principles expected to be used in the prospective period and those used in the most recent historical financial statements, if any, or that they are consistent with the purpose of the presentation.⁶
 - e. The presentation of the prospective financial statements follows the AICPA guidelines applicable for such statements.⁷
 - f. The assumptions have been adequately disclosed based on AICPA presentation guidelines for prospective financial statements.
13. The practitioner should consider whether the prospective financial statements, including related disclosures, should be revised because of any of the following:
- a. Mathematical errors
 - b. Unreasonable or internally inconsistent assumptions
 - c. Inappropriate or incomplete presentation
 - d. Inadequate disclosure
14. The practitioner should obtain written representations from the responsible party acknowledging its responsibility for both the presentation and the underlying assumptions. The representations should be signed by the responsible party at the highest level of authority who the practitioner believes is responsible for and knowledgeable, directly or through others in the organization, about the matters covered by the representations. Paragraph .69, subparagraph 5*i* describes the specific representations to be obtained for a financial forecast and a financial projection. See paragraph .43 for guidance on the form of report to be rendered if the practitioner is not able to obtain the required representations.

⁶ The accounting principles used in a financial projection need not be those expected to be used in the historical financial statements for the prospective period if use of different principles is consistent with the purpose of the presentation.

⁷ Presentation guidelines for entities that issue prospective financial statements are set forth and illustrated in AICPA Guide *Prospective Financial Information*.

AT Section 401

Reporting on Pro Forma Financial Information

Source: SSAE No. 10.

Effective when the presentation of pro forma financial information is as of or for a period ending on or after June 1, 2001. Earlier application is permitted.

Introduction

.01 This section provides guidance to a practitioner who is engaged to issue or does issue an examination or a review report on pro forma financial information. Such an engagement should comply with the general and fieldwork standards established in section 50, *SSAE Hierarchy*, and the specific performance and reporting standards set forth in this section.¹ [Revised, November 2006, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 14.]

.02 When pro forma financial information is presented outside the basic financial statements but within the same document, and the practitioner is not engaged to report on the pro forma financial information, the practitioner's responsibilities are described in AU section 550, *Other Information in Documents Containing Audited Financial Statements*, and AU section 711, *Filings Under Federal Securities Statutes*.

.03 This section does not apply in those circumstances when, for purposes of a more meaningful presentation, a transaction consummated after the balance-sheet date is reflected in the historical financial statements (such as a revision of debt maturities or a revision of earnings per share calculations for a stock split).²

Presentation of Pro Forma Financial Information

.04 The objective of pro forma financial information is to show what the significant effects on historical financial information might have been had a consummated or proposed transaction (or event) occurred at an earlier date. Pro forma financial information is commonly used to show the effects of transactions such as the following:

- Business combination
- Change in capitalization

¹ AU section 634, *Letters for Underwriters and Certain Other Requesting Parties*, paragraphs .03–.05, identify certain parties who may request a letter. When one of those parties requests a letter or asks the practitioner to perform agreed-upon procedures on pro forma financial information in connection with an offering, the practitioner should follow the guidance in AU section 634 paragraphs .03, .10, .36, .42, and .43.

² In certain circumstances, generally accepted accounting principles (GAAP) may require the presentation of pro forma financial information in the financial statements or the accompanying notes. That information includes, for example, pro forma financial information required by Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 805, *Business Combinations*; FASB ASC 250, *Accounting Changes and Error Corrections*; or, in some cases, pro forma financial information relating to subsequent events; see AU section 560, *Subsequent Events*, paragraph .05. For guidance in reporting on audited financial statements that include pro forma financial information for a business combination or subsequent event, see AU section 508, *Reports on Audited Financial Statements*, paragraph .28. [Footnote revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

- Disposition of a significant portion of the business
- Change in the form of business organization or status as an autonomous entity
- Proposed sale of securities and the application of the proceeds

.05 This objective is achieved primarily by applying pro forma adjustments to historical financial information. Pro forma adjustments should be based on management's assumptions and give effect to all significant effects directly attributable to the transaction (or event).

.06 Pro forma financial information should be labeled as such to distinguish it from historical financial information. This presentation should describe the transaction (or event) that is reflected in the pro forma financial information, the source of the historical financial information on which it is based, the significant assumptions used in developing the pro forma adjustments, and any significant uncertainties about those assumptions. The presentation also should indicate that the pro forma financial information should be read in conjunction with related historical financial information and that the pro forma financial information is not necessarily indicative of the results (such as financial position and results of operations, as applicable) that would have been attained had the transaction (or event) actually taken place earlier.³

Conditions for Reporting

.07 The practitioner may agree to report on an examination or a review of pro forma financial information if the following conditions are met.

- a. The document that contains the pro forma financial information includes (or incorporates by reference) complete historical financial statements of the entity for the most recent year (or for the preceding year if financial statements for the most recent year are not yet available) and, if pro forma financial information is presented for an interim period, the document also includes (or incorporates by reference) historical interim financial information for that period (which may be presented in condensed form).⁴ In the case of a business combination, the document should include (or incorporate by reference) the appropriate historical financial information for the significant constituent parts of the combined entity.
- b. The historical financial statements of the entity (or, in the case of a business combination, of each significant constituent part of the combined entity) on which the pro forma financial information is based have been audited or reviewed.⁵ The practitioner's attestation

³ For further guidance on the presentation of pro forma financial information included in filings with the Securities and Exchange Commission (SEC), see Article 11 of Regulation S-X.

⁴ For pro forma financial information included in an SEC Form 8-K, historical financial information previously included in an SEC filing would meet this requirement. Interim historical financial information may be presented as a column in the pro forma financial information.

⁵ The practitioner's audit or review report should be included (or incorporated by reference) in the document containing the pro forma financial information. The review may be that as defined in AU section 722, *Interim Financial Information*, for SEC registrants or non-SEC registrants that make a filing with a regulatory agency in preparation for a public offering or listing, or as defined in Statement on Standards for Accounting and Review Services (SSARS) No. 1, *Compilation and Review of Financial Statements* (AR sec. 100), for nonpublic companies. [Footnote revised, November 2002, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 100.]

risk relating to the pro forma financial information is affected by the scope of the engagement providing the practitioner with assurance about the underlying historical financial information to which the pro forma adjustments are applied. Therefore, the level of assurance given by the practitioner on the pro forma financial information, as of a particular date or for a particular period, should be limited to the level of assurance provided on the historical financial statements (or, in the case of a business combination, the lowest level of assurance provided on the underlying historical financial statements of any significant constituent part of the combined entity). For example, if the underlying historical financial statements of each constituent part of the combined entity have been audited at year-end and reviewed at an interim date, the practitioner may perform an examination or a review of the pro forma financial information at year-end but is limited to performing a review of the pro forma financial information at the interim date.

- c. The practitioner who is reporting on the pro forma financial information should have an appropriate level of knowledge of the accounting and financial reporting practices of each significant constituent part of the combined entity. This would ordinarily have been obtained by the practitioner auditing or reviewing historical financial statements of each entity for the most recent annual or interim period for which the pro forma financial information is presented. If another practitioner has performed such an audit or a review, the need, by a practitioner reporting on the pro forma financial information, for an understanding of the entity's accounting and financial reporting practices is not diminished, and that practitioner should consider whether, under the particular circumstances, he or she can acquire sufficient knowledge of these matters to perform the procedures necessary to report on the pro forma financial information.

Practitioner's Objective

.08 The objective of the practitioner's examination procedures applied to pro forma financial information is to provide reasonable assurance as to whether—

- Management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event).
- The related pro forma adjustments give appropriate effect to those assumptions.
- The pro forma column reflects the proper application of those adjustments to the historical financial statements.

.09 The objective of the practitioner's review procedures applied to pro forma financial information is to provide negative assurance as to whether any information came to the practitioner's attention to cause him or her to believe that—

- Management's assumptions do not provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event).
- The related pro forma adjustments do not give appropriate effect to those assumptions.

- The pro forma column does not reflect the proper application of those adjustments to the historical financial statements.

Procedures

.10 Other than the procedures applied to the historical financial statements,⁶ the procedures the practitioner should apply to the assumptions and pro forma adjustments for either an examination or a review engagement are as follows.

- a. Obtain an understanding of the underlying transaction (or event), for example, by reading relevant contracts and minutes of meetings of the board of directors and by making inquiries of appropriate officials of the entity, and, in cases, of the entity acquired or to be acquired.
- b. Obtain a level of knowledge of each constituent part of the combined entity in a business combination that will enable the practitioner to perform the required procedures. Procedures to obtain this knowledge may include communicating with other practitioners who have audited or reviewed the historical financial information on which the pro forma financial information is based. Matters that may be considered include accounting principles and financial reporting practices followed, transactions between the entities, and material contingencies.
- c. Discuss with management their assumptions regarding the effects of the transaction (or event).
- d. Evaluate whether pro forma adjustments are included for all significant effects directly attributable to the transaction (or event).
- e. Obtain sufficient evidence in support of such adjustments. The evidence required to support the level of assurance given is a matter of professional judgment. The practitioner typically would obtain more evidence in an examination engagement than in a review engagement. Examples of evidence that the practitioner might consider obtaining are purchase, merger or exchange agreements, appraisal reports, debt agreements, employment agreements, actions of the board of directors, and existing or proposed legislation or regulatory actions.
- f. Evaluate whether management's assumptions that underlie the pro forma adjustments are presented in a sufficiently clear and comprehensive manner. Also, evaluate whether the pro forma adjustments are consistent with each other and with the data used to develop them.
- g. Determine that computations of pro forma adjustments are mathematically correct and that the pro forma column reflects the proper application of those adjustments to the historical financial statements.
- h. Obtain written representations from management concerning their—
 - Responsibility for the assumptions used in determining the pro forma adjustments

⁶ See paragraph .07b.

- Assertion that the assumptions provide a reasonable basis for presenting all of the significant effects directly attributable to the transaction (or event), that the related pro forma adjustments give appropriate effect to those assumptions, and that the pro forma column reflects the proper application of those adjustments to the historical financial statements
 - Assertion that the significant effects directly attributable to the transaction (or event) are appropriately disclosed in the pro forma financial information
- i.* Read the pro forma financial information and evaluate whether—
- The underlying transaction (or event), the pro forma adjustments, the significant assumptions and the significant uncertainties, if any, about those assumptions have been appropriately described.
 - The source of the historical financial information on which the pro forma financial information is based has been appropriately identified.

Reporting on Pro Forma Financial Information

.11 The practitioner's report on pro forma financial information should be dated as of the completion of the appropriate procedures. The practitioner's report on pro forma financial information may be added to the practitioner's report on historical financial information, or it may appear separately. If the reports are combined and the date of completion of the procedures for the examination or review of the pro forma financial information is after the date of completion of the fieldwork for the audit or review of the historical financial information, the combined report should be dual-dated. (For example, "February 15, 20X2, except for the paragraphs regarding pro forma financial information as to which the date is March 20, 20X2.")

.12 A practitioner's examination report on pro forma financial information should include the following:

- a.* A title that includes the word *independent*
- b.* An identification of the pro forma financial information
- c.* A reference to the financial statements from which the historical financial information is derived and a statement that such financial statements were audited (The report on pro forma financial information should refer to any modification in the practitioner's report on the historical financial information.)
- d.* An identification of the responsible party and a statement that the responsible party is responsible for the pro forma financial information
- e.* A statement that the practitioner's responsibility is to express an opinion on the pro forma financial information based on his or her examination

- f. A statement that the examination of the pro forma financial information was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as the practitioner considered necessary in the circumstances
- g. A statement that the practitioner believes that the examination provides a reasonable basis for his or her opinion
- h. A separate paragraph explaining the objective of pro forma financial information and its limitations
- i. The practitioner's opinion as to whether management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the transaction (or event), whether the related pro forma adjustments give appropriate effect to those assumptions, and whether the pro forma column reflects the proper application of those adjustments to the historical financial statements (see paragraphs .18 and .20)
- j. The manual or printed signature of the practitioner's firm
- k. The date of the examination report

.13 A practitioner's review report on pro forma financial information should include the following:

- a. A title that includes the word *independent*
- b. An identification of the pro forma financial information
- c. A reference to the financial statements from which the historical financial information is derived and a statement as to whether such financial statements were audited or reviewed (The report on pro forma financial information should refer to any modification in the practitioner's report on the historical financial information.)
- d. An identification of the responsible party and a statement that the responsible party is responsible for the pro forma financial information
- e. A statement that the review of the pro forma financial information was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants
- f. A statement that a review is substantially less in scope than an examination, the objective of which is the expression of an opinion on the pro forma financial information and, accordingly, the practitioner does not express such an opinion
- g. A separate paragraph explaining the objective of pro forma financial information and its limitations
- h. The practitioner's conclusion as to whether any information came to the practitioner's attention to cause him or her to believe that management's assumptions do not provide a reasonable basis for presenting the significant effects directly attributable to the transaction (or event), or that the related pro forma adjustments do not give appropriate effect to those assumptions, or that the pro forma column does not reflect the proper application of those adjustments to the historical financial statements (See paragraphs .19 and .20.)
- i. The manual or printed signature of the practitioner's firm
- j. The date of the review report

.14 Nothing precludes the practitioner from restricting the use of the report (see section 101.78–.83).

.15 Because a pooling-of-interests business combination is accounted for by combining historical amounts retroactively, pro forma adjustments for a proposed transaction generally affect only the equity section of the pro forma condensed balance sheet. Further, because of the requirements of Financial Accounting Standards Board *Accounting Standards Codification* 805, *Business Combinations*, a business combination effected as a pooling of interests would not ordinarily involve a choice of assumptions by management. Accordingly, a report on a proposed pooling transaction need not address management's assumptions unless the pro forma financial information includes adjustments to conform the accounting principles of the combining entities. (See paragraph .21.) [Revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

.16 Restrictions on the scope of the engagement (see section 101.73–.75), reservations about the propriety of the assumptions and the conformity of the presentation with those assumptions (including adequate disclosure of significant matters), or other reservations may require the practitioner to qualify the opinion, disclaim an opinion, or withdraw from the engagement.⁷ The practitioner should disclose all substantive reasons for any report modifications. Uncertainty as to whether the transaction (or event) will be consummated would not ordinarily require a report modification. (See paragraph .22.)

Effective Date

.17 This section is effective when the presentation of pro forma financial information is as of or for a period ending on or after June 1, 2001. Early application is permitted.

⁷ See section 101.76 and .77.

Appendix A

Report on Examination of Pro Forma Financial Information

Independent Accountant's Report

We have examined the pro forma adjustments reflecting the transaction [*or event*] described in Note 1 and the application of those adjustments to the historical amounts in [*the assembly of*]⁸ the accompanying pro forma financial condensed balance sheet of X Company as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended. The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were audited by other accountants,⁹ appearing elsewhere herein [*or incorporated by reference*].¹⁰ Such pro forma adjustments are based upon management's assumptions described in Note 2. X Company's management is responsible for the pro forma financial information. Our responsibility is to express an opinion on the pro forma financial information based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

The objective of this pro forma financial information is to show what the significant effects on the historical financial information might have been had the transaction [*or event*] occurred at an earlier date. However, the pro forma condensed financial statements are not necessarily indicative of the results of operations or related effects on financial position that would have been attained had the above-mentioned transaction [*or event*] actually occurred earlier.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

In our opinion, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction [*or event*] described in Note 1, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma column reflects the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended.

[Signature]

[Date]

⁸ This wording is appropriate when one column of pro forma financial information is presented without separate columns of historical financial information and pro forma adjustments.

⁹ If either accountant's report includes an explanatory paragraph or is other than unqualified, that fact should be referred to within this report.

¹⁰ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

.19

Appendix B

Report on Review of Pro Forma Financial Information

Independent Accountant's Report

We have reviewed the pro forma adjustments reflecting the transaction [*or event*] described in Note 1 and the application of those adjustments to the historical amounts in [*the assembly of*]¹¹ the accompanying pro forma condensed balance sheet of X Company as of March 31, 20X2, and the pro forma condensed statement of income for the three months then ended. These historical condensed financial statements are derived from the historical unaudited financial statements of X Company, which were reviewed by us, and of Y Company, which were reviewed by other accountants,^{12, 13} appearing elsewhere herein [*or incorporated by reference*].¹⁴ Such pro forma adjustments are based on management's assumptions as described in Note 2. X Company's management is responsible for the pro forma financial information.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's assumptions, the pro forma adjustments and the application of those adjustments to historical financial information. Accordingly, we do not express such an opinion.

The objective of this pro forma financial information is to show what the significant effects on the historical financial information might have been had the transaction [*or event*] occurred at an earlier date. However, the pro forma condensed financial statements are not necessarily indicative of the results of operations or related effects on financial position that would have been attained had the above-mentioned transaction [*or event*] actually occurred earlier.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

Based on our review, nothing came to our attention that caused us to believe that management's assumptions do not provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction [*or event*] described in Note 1, that the related pro forma adjustments do not give

¹¹ This wording is appropriate when one column of pro forma financial information is presented without separate columns of historical financial information and pro forma adjustments.

¹² If either accountant's report includes an explanatory paragraph or is modified, that fact should be referred to within this report.

¹³ Where one set of historical financial statements is audited and the other set is reviewed, wording similar to the following would be appropriate:

The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were reviewed by other accountants, appearing elsewhere herein [*or incorporated by reference*].

¹⁴ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

appropriate effect to those assumptions, or that the pro forma column does not reflect the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of March 31, 20X2, and the pro forma condensed statement of income for the three months then ended.

[Date]

Appendix C

Report on Examination of Pro Forma Financial Information at Year-End With a Review of Pro forma Financial Information for a Subsequent Interim Date

Independent Accountant's Report

We have examined the pro forma adjustments reflecting the transaction [or event] described in Note 1 and the application of those adjustments to the historical amounts in [the assembly of]¹⁵ the accompanying pro forma financial condensed balance sheet of X Company as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended. The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were audited by other accountants,¹⁶ appearing elsewhere herein [or incorporated by reference].¹⁷ Such pro forma adjustments are based upon management's assumptions described in Note 2. X Company's management is responsible for the pro forma financial information. Our responsibility is to express an opinion on the pro forma financial information based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

In addition, we have reviewed the pro forma adjustments and the application of those adjustments to the historical amounts in [the assembly of]¹⁵ the accompanying pro forma condensed balance sheet of X Company as of March 31, 20X2, and the pro forma condensed statement of income for the three months then ended. The historical condensed financial statements are derived from the historical financial statements of X Company, which were reviewed by us, and of Y Company, which were reviewed by other accountants,¹⁸ appearing elsewhere herein [or incorporated by reference].¹⁹ Such pro forma adjustments are based upon management's assumptions as described in Note 2. Our review

¹⁵ This wording is appropriate when one column of pro forma financial information is presented without separate columns of historical financial information and pro forma adjustments.

¹⁶ If either accountant's report includes an explanatory paragraph or is other than unqualified, that fact should be referred to within this report.

¹⁷ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

¹⁸ Where one set of historical financial statements is audited and the other set is reviewed, wording similar to the following would be appropriate:

The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were reviewed by other accountants, appearing elsewhere herein [or incorporated by reference].

¹⁹ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's assumptions, the pro forma adjustments, and the application of those adjustments to historical financial information. Accordingly, we do not express such an opinion on the pro forma adjustments or the application of such adjustments to the pro forma condensed balance sheet as of March 31, 20X2, and the pro forma condensed statement of income for the three months then ended.

The objective of this pro forma financial information is to show what the significant effects on the historical financial information might have been had the transactions *[or event]* occurred at an earlier date. However, the pro forma condensed financial statements are not necessarily indicative of the results of operations or related effects on financial position that would have been attained had the above-mentioned transaction *[or event]* actually occurred earlier.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagements or the subject matter.]

In our opinion, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction *[or event]* described in Note 1, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma column reflects the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended.

Based on our review, nothing came to our attention that caused us to believe that management's assumptions do not provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction *[or event]* described in Note 1, that the related pro forma adjustments do not give appropriate effect to those assumptions, or that the pro forma column does not reflect the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of March 31, 20X2, and the pro forma condensed statement of income for the three months then ended.

Appendix D

Report on Examination of Pro Forma Financial Information Giving Effect to a Business Combination to Be Accounted for as a Pooling of Interests²⁰

Independent Accountant's Report

We have examined the pro forma adjustments reflecting the proposed business combination to be accounted for as a pooling of interests described in Note 1 and the application of those adjustments to the historical amounts in the accompanying pro forma condensed balance sheet of X Company as of December 31, 20X1, and the pro forma condensed statements of income for each of three years in the period then ended. These historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us,²¹ and of Y Company, which were audited by other accountants, appearing elsewhere herein [*or incorporated by reference*].²² Such pro forma adjustments are based upon management's assumptions described in Note 2. X Company's management is responsible for the pro forma financial information. Our responsibility is to express an opinion on the pro forma financial information based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

The objective of this pro forma financial information is to show what the significant effects on the historical financial information might have been had the transactions [*or event*] occurred at an earlier date.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

In our opinion, the accompanying condensed pro forma financial statements of X Company as of December 31, 20X1, and for each of the three years in the period then ended give appropriate effect to the pro forma adjustments necessary to reflect the proposed business combination on a pooling of interests basis as described in Note 1 and the pro forma column reflects the proper application of those adjustments to the historical financial statements.

[Signature]

[Date]

²⁰ See paragraph .15 for a discussion of the form of the opinion on pro forma financial information in a pooling of interests business combination.

²¹ If either accountant's report includes an explanatory paragraph or is other than unqualified, that fact should be referred to within this report.

²² If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

Appendix E

Other Example Reports

An example of a report qualified because of a scope limitation follows.

Independent Accountant's Report

We have examined the pro forma adjustments reflecting the transaction [*or event*] described in Note 1 and the application of those adjustments to the historical amounts in [*the assembly of*]²³ the accompanying pro forma condensed balance sheet of X Company as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended. The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were audited by other accountants,²⁴ appearing elsewhere herein [*or incorporated by reference*].²⁵ Such pro forma adjustments are based upon management's assumptions described in Note 2. X Company's management is responsible for the pro forma financial information. Our responsibility is to express an opinion on the pro forma financial information based on our examination.

Except as described below, our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

We are unable to perform the examination procedures we considered necessary with respect to assumptions relating to the proposed loan described in Adjustment E in Note 2.

[*Same paragraph as third paragraph in examination report in paragraph .18*]

In our opinion, except for the effects of such changes, if any, as might have been determined to be necessary had we been able to satisfy ourselves as to the assumptions relating to the proposed loan, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction [*or event*] described in Note 1, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma column reflects the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended.

[*Signature*]

[*Date*]

²³ This wording is appropriate when one column of pro forma financial information is presented without separate columns of historical financial information and pro forma adjustments.

²⁴ If either accountant's report includes an explanatory paragraph or is other than unqualified, that fact should be referred to within this report.

²⁵ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

An example of a report qualified for reservations about the propriety of assumptions on an acquisition transaction follows:

[Same first three paragraphs as examination report in paragraph .18]

As discussed in Note 2 to the pro forma financial statements, the pro forma adjustments reflect management's assumption that X Division of the acquired company will be sold. The net assets of this division are reflected at their historical carrying amount; generally accepted accounting principles require these net assets to be recorded at estimated net realizable value.

In our opinion, except for inappropriate valuation of the net assets of X Division, management's assumptions described in Note 2 provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction *[or event]* described in Note 1, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma column reflects the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended.

[Signature]

[Date]

An example of a disclaimer of opinion because of a scope limitation follows:

Independent Accountant's Report

We were engaged to examine the pro forma adjustments reflecting the transaction *[or event]* described in Note 1 and the application of those adjustments to the historical amounts in *[the assembly of]*²⁶ the accompanying pro forma financial condensed balance sheet of X Company as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended. The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were audited by other accountants,²⁷ appearing elsewhere herein *[or incorporated by reference]*.²⁸ Such pro forma adjustments are based upon management's assumptions described in Note 2. X Company's management is responsible for the pro forma financial information.

As discussed in Note 2 to the pro forma financial statements, the pro forma adjustments reflect management's assumptions that the elimination of duplicate facilities would have resulted in a 30 percent reduction in operating costs. Management could not supply us with sufficient evidence to support this assertion.

[Same paragraph as third paragraph in examination report in paragraph .18]

Since we were unable to evaluate management's assumptions regarding the reduction in operating costs and other assumptions related thereto, the scope of our work was not sufficient to express an and, therefore, we do not express an

²⁶ This wording is appropriate when one column of pro forma financial information is presented without separate columns of historical financial information and pro forma adjustments.

²⁷ If either accountant's report includes an explanatory paragraph or is other than unqualified, that fact should be referred to within this report.

²⁸ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

opinion on the pro forma adjustments, management's underlying assumptions regarding those adjustments and the application of those adjustments to the historical financial statement amounts in the pro forma condensed financial statement amounts in the pro forma condensed balance sheet as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended.

AT Section 501

An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements

Source: SSAE No. 15.

Effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2008. Earlier application is permitted.

Applicability

.01 This section establishes requirements and provides guidance that applies when a practitioner¹ is engaged to perform an examination of the design and operating effectiveness of an entity's internal control over financial reporting (*examination of internal control*)² that is integrated with an audit of financial statements (*integrated audit*).³

.02 Ordinarily, the auditor will be engaged to examine the effectiveness of the entity's internal control over financial reporting (hereinafter referred to as *internal control*) as of the end of the entity's fiscal year; however, management may select a different date. If the auditor is engaged to examine the effectiveness of an entity's internal control at a date different from the end of the entity's fiscal year, the examination should, nevertheless, be integrated with a financial statement audit (see paragraphs .18–.19).

.03 An auditor may be engaged to examine the effectiveness of an entity's internal control for a period of time. In that circumstance, the guidance in this section should be modified accordingly, and the examination of internal control should be integrated with an audit of financial statements that covers the same period of time.

.04 This section does not provide guidance for the following:

- a. Engagements to examine the suitability of design of an entity's internal control. Such engagements may be developed and performed under AT section 101, *Attest Engagements*⁴

¹ In this section, the *practitioner* is referred to as the *auditor* because the examination of internal control is integrated with an audit of financial statements, and an examination provides the same level of assurance as an audit.

² In this section, the phrase *examination of internal control* means an engagement to report directly on internal control or on management's assertion thereon. The performance guidance in this section applies equally to either reporting alternative.

³ Certain regulatory bodies require the examination of internal control and the audit of the financial statements to be performed by the same auditor. There are difficulties inherent in integrating the examination of internal control and the audit of the financial statements to meet the requirements of this section when the audit of the financial statements is performed by a different auditor. In such circumstances, the requirements of this section, nevertheless, apply.

⁴ Although this section does not apply when an auditor is engaged to examine the suitability of design of an entity's internal control, it may be useful in planning and performing such engagements.

- b. Engagements to examine controls over the effectiveness and efficiency of operations. Such engagements may be developed and performed under AT section 101.
- c. Engagements to examine controls over compliance with laws and regulations. See AT section 601, *Compliance Attestation*.
- d. Engagements to report on controls at a service organization. See AU section 324, *Service Organizations*.
- e. Engagements to perform agreed-upon procedures on controls. See AT section 201, *Agreed-Upon Procedures Engagements*.

.05 The auditor may be requested to perform certain nonattest services related to the entity's internal control in addition to the examination of internal control. The auditor should determine whether to perform such nonattest services after considering relevant ethical requirements.

.06 An auditor should not accept an engagement to review an entity's internal control or a written assertion thereon.

Definitions and Underlying Concepts

.07 For purposes of this section, the terms listed below are defined as follows:

Control objective. The aim or purpose of specified controls. Control objectives ordinarily address the risks that the controls are intended to mitigate. In the context of internal control, a control objective generally relates to a relevant assertion for a significant account or disclosure and addresses the risk that the controls in a specific area will not provide reasonable assurance that a misstatement or omission in that relevant assertion is prevented, or detected and corrected on a timely basis.

Deficiency. A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A deficiency in design exists when (a) a control necessary to meet the control objective is missing or (b) an existing control is not properly designed so that, even if the control operates as designed, the control objective would not be met. A deficiency in operation exists when a properly designed control does not operate as designed, or when the person performing the control does not possess the necessary authority or competence to perform the control effectively.

Detective control. A control that has the objective of detecting and correcting errors or fraud that has already occurred that could result in a misstatement of the financial statements.

Financial statements and related disclosures. An entity's financial statements and notes to the financial statements as presented in accordance with the applicable financial reporting framework.⁵ References to financial statements and related disclosures do not extend to the preparation of other financial information presented outside an entity's basic financial statements and notes.

⁵ The applicable financial reporting framework is the accounting framework used for preparing and presenting the financial statements, such as generally accepted accounting principles (GAAP), International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board, or an other comprehensive basis of accounting (OCBOA), as described in AU section 623, *Special Reports*.

Internal control over financial reporting.⁶ A process effected by those charged with governance,⁷ management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with the applicable financial reporting framework and includes those policies and procedures that⁸

- i. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity;
- ii. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with the applicable financial reporting framework, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and
- iii. provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Internal control has inherent limitations. Internal control is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control also can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements will not be prevented, or detected and corrected on a timely basis by internal control. However, these inherent limitations are known aspects of the financial reporting process.

Management's assertion. Management's conclusion about the effectiveness of the entity's internal control that is included in management's report on internal control.

Material weakness. A deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility⁹ that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Preventive control. A control that has the objective of preventing errors or fraud that could result in a misstatement of the financial statements.

⁶ For insured depository institutions (IDIs) subject to the internal control reporting requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA), internal control includes controls over the preparation of the IDI's financial statements and related disclosures in accordance with GAAP and with the instructions to the *Consolidated Financial Statements for Bank Holding Companies*. Internal control also includes controls over the preparation of the IDI's financial statements and related disclosures in accordance with GAAP and controls over the preparation of schedules equivalent to the basic financial statements in accordance with the Federal Financial Institutions Examination Council Instructions for Consolidated Reports of Condition and Income (call report instructions) or with the Office of Thrift Supervision Instructions for Thrift Financial Reports (TFR instructions).

⁷ The term *those charged with governance* is defined in paragraph .03 of AU section 380, *The Auditor's Communication With Those Charged With Governance*, as "... the person(s) with responsibility for overseeing the strategic direction of the entity and obligations related to the accountability of the entity. This includes overseeing the financial reporting process. In some cases, those charged with governance are responsible for approving the entity's financial statements (in other cases management has this responsibility). For entities with a board of directors, this term encompasses the term *board of directors* or *audit committee* used elsewhere in generally accepted auditing standards."

⁸ The auditor's procedures performed as part of the integrated audit are not part of an entity's internal control.

⁹ In this section, a reasonable possibility exists when the likelihood of the event is either *reasonably possible* or *probable*, as those terms are defined in Financial Accounting Standards Board *Accounting Standards Codification* glossary. [Footnote revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

Relevant assertion. A financial statement assertion¹⁰ that has a reasonable possibility of containing a misstatement or misstatements that would cause the financial statements to be materially misstated. The determination of whether an assertion is a relevant assertion is made without regard to the effect of controls.

Significant account or disclosure. An account balance or disclosure that has a reasonable possibility that it could contain a misstatement that, individually or when aggregated with others, has a material effect on the financial statements, considering the risks of both overstatement and understatement. The determination of whether an account balance or disclosure is a significant account or disclosure is made without regard to the effect of controls.

Significant deficiency. A deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

.08 Effective internal control provides reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes. If one or more material weaknesses exist, the entity's internal control cannot be considered effective.

.09 The auditor's objective in an examination of internal control is to form an opinion on the effectiveness of the entity's internal control. Because an entity's internal control cannot be considered effective if one or more material weaknesses exist, to form a basis for expressing an opinion, the auditor should plan and perform the examination to obtain sufficient appropriate evidence to obtain reasonable assurance¹¹ about whether material weaknesses exist as of the date specified in management's assertion. A material weakness in internal control may exist even when financial statements are not materially misstated. The auditor is not required to search for deficiencies that, individually or in combination, are less severe than a material weakness.

.10 An auditor engaged to perform an examination of internal control should comply with the general, fieldwork, and reporting standards in AT section 101, and the specific performance and reporting requirements set forth in this section. In this section, the subject matter is the effectiveness of internal control, and the responsible party usually is management of the entity. Accordingly, the term *management* is used in this section to refer to the responsible party.

.11 The auditor should use the same suitable and available control criteria¹² to perform his or her examination of internal control as management uses for its evaluation of the effectiveness of the entity's internal control.

¹⁰ The financial statement assertions are described in AU section 326, *Audit Evidence*. The auditor may use the financial statement assertions as they are described in AU section 326 or express them differently, provided aspects described in AU section 326 have been covered, and the auditor has selected and tested controls over the identified risks in each significant account and disclosure.

¹¹ The high, but not absolute, level of assurance that is intended to be obtained by the auditor is expressed in the auditor's report as obtaining reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects as of the date specified in management's assertion. See paragraph .54 of AT section 101, *Attest Engagements*, and AU section 230, *Due Professional Care in the Performance of Work*.

¹² According to paragraph .23 of AT section 101 "[t]he third general attestation standard is—*The auditor must have reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users.*" The Committee of Sponsoring Organizations of the Treadway Commission's (COSO) report *Internal Control—Integrated Framework* provides suitable and available criteria against which management may evaluate and report on the effectiveness of the entity's

(continued)

.12 An auditor may perform an examination of internal control only if the following conditions are met:

- a. Management accepts responsibility for the effectiveness of the entity's internal control.
- b. Management evaluates the effectiveness of the entity's internal control using suitable and available criteria.
- c. Management supports its assertion about the effectiveness of the entity's internal control with sufficient appropriate evidence (see discussion beginning at paragraph .14).
- d. Management provides its assertion about the effectiveness of the entity's internal control in a report that accompanies the auditor's report (see paragraph .95).

.13 Management's refusal to furnish a written assertion should cause the auditor to withdraw from the engagement. However, if law or regulation does not allow the auditor to withdraw from the engagement and management refuses to furnish a written assertion, the auditor should disclaim an opinion on internal control.¹³

Evidence Supporting Management's Assertion

.14 Management is responsible for identifying and documenting the controls and the control objectives that they were designed to achieve. Such documentation serves as a basis for management's assertion. Documentation of the design of controls, including changes to those controls, is evidence that controls upon which management's assertion is based are

- identified.
- capable of being communicated to those responsible for their performance.
- capable of being monitored and evaluated by the entity.

.15 Management's documentation may take various forms, for example, entity policy manuals, accounting manuals, narrative memoranda, flowcharts, decision tables, procedural write-ups, or completed questionnaires. No one, particular form of documentation is prescribed, and the extent of documentation may vary depending upon the size and complexity of the entity and the entity's monitoring activities.

.16 Management's monitoring activities also may provide evidence of the design and operating effectiveness of internal control in support of management's assertion. Monitoring of controls is a process to assess the effectiveness of internal control performance over time. It involves assessing the effectiveness of controls on a timely basis, identifying and reporting deficiencies to appropriate individuals within the organization, and taking necessary corrective actions. Management accomplishes monitoring of controls through ongoing activities, separate evaluations, or a combination of the two.

(footnote continued)

internal control. *Internal Control—Integrated Framework* describes an entity's internal control as consisting of five components: control environment, risk assessment, control activities, information and communication, and monitoring. See AU section 314, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, for a discussion of these components. If management selects another framework, see paragraphs .23–.34 of AT section 101 for guidance on evaluating the suitability and availability of criteria.

¹³ See paragraphs .117–.121 when disclaiming an opinion, including the requirement for the auditor's report to include a description of any material weaknesses identified.

.17 Ongoing monitoring activities are often built into the normal recurring activities of an entity and include regular management and supervisory activities. The greater the degree and effectiveness of ongoing monitoring, the less need for separate evaluations. Usually, some combination of ongoing monitoring and separate evaluations will ensure that internal control maintains its effectiveness over time.

Integrating the Examination With the Financial Statement Audit

.18 The examination of internal control should be integrated with an audit of financial statements. Although the objectives of the engagements are not the same, the auditor should plan and perform the integrated audit to achieve the objectives of both engagements simultaneously. The auditor should design tests of controls

- to obtain sufficient appropriate evidence to support the auditor's opinion on internal control as of the period-end; and
- to obtain sufficient appropriate evidence to support the auditor's control risk assessments for purposes of the audit of financial statements.

.19 The date specified in management's assertion (the as-of date of the examination) should correspond to the balance sheet date (or period ending date) of the period covered by the financial statements (see paragraph .02).

.20 Obtaining sufficient appropriate evidence to support the operating effectiveness of controls for purposes of the financial statement audit ordinarily allows the auditor to modify the substantive procedures that otherwise would have been necessary to opine on the financial statements. (Integration is described further beginning at paragraph .159.)

.21 In some circumstances, particularly in some audits of smaller, less complex entities, the auditor might choose not to test the operating effectiveness of controls for purposes of the audit of the financial statements. In such circumstances, the auditor's tests of the operating effectiveness of controls would be performed principally for the purpose of supporting his or her opinion on whether the entity's internal control is effective as of period-end. The auditor should consider the results of the financial statement auditing procedures in determining his or her risk assessments and the testing necessary to conclude on the operating effectiveness of a control.

Planning the Examination

.22 The auditor should plan the examination of internal control. Evaluating whether the following matters are important to the entity's financial statements and internal control and, if so, how they may affect the auditor's procedures, may assist the auditor in planning the examination:

- Knowledge of the entity's internal control obtained during other engagements performed by the auditor or, if applicable, during a review of a predecessor auditor's working papers
- Matters affecting the industry in which the entity operates, such as financial reporting practices, economic conditions, laws and regulations, and technological changes
- Matters relating to the entity's business, including its organization, operating characteristics, and capital structure

- The extent of recent changes, if any, in the entity, its operations, or its internal control
- The auditor's preliminary judgments about materiality, risk, and other factors relating to the determination of material weaknesses
- Deficiencies previously communicated to those charged with governance or management
- Legal or regulatory matters of which the entity is aware
- The type and extent of available evidence related to the effectiveness of the entity's internal control
- Preliminary judgments about the effectiveness of internal control
- Public information about the entity relevant to the evaluation of the likelihood of material financial statement misstatements and the effectiveness of the entity's internal control
- Knowledge about risks related to the entity evaluated as part of the auditor's client acceptance and retention evaluation
- The relative complexity of the entity's operations

Role of Risk Assessment

.23 Risk assessment underlies the entire examination process described by this section, including the determination of significant accounts and disclosures and relevant assertions, the selection of controls to test, and the determination of the evidence necessary to conclude on the effectiveness of a given control. When performing an examination of internal control that is integrated with an audit of financial statements, the same risk assessment process supports both engagements.¹⁴

.24 The auditor should focus more attention on the areas of highest risk. A direct relationship exists between the degree of risk that a material weakness could exist in a particular area of the entity's internal control and the amount of attention that would be devoted to that area. In addition, an entity's internal control is less likely to prevent, or detect and correct a misstatement caused by fraud than a misstatement caused by error. It is not necessary to test controls that, even if deficient, would not present a reasonable possibility of material misstatement to the financial statements.

Scaling the Examination

.25 The size and complexity of the entity, its business processes, and business units may affect the way in which the entity achieves many of its control objectives. Many smaller entities have less complex operations. Additionally, some larger, complex entities may have less complex units or processes. Factors that might indicate less complex operations include fewer business lines; less complex business processes and financial reporting systems; more centralized accounting functions; extensive involvement by senior management in the day-to-day activities of the business; and fewer levels of management, each with a wide span of control. Accordingly, a smaller, less complex entity, or even a larger, less complex entity might achieve its control objectives differently from a more complex entity.

¹⁴ The risk assessment procedures performed in connection with a financial statement audit are described in AU section 314.

.26 The size and complexity of the organization, its business processes, and business units also may affect the auditor's risk assessment and the determination of the necessary procedures and the controls necessary to address those risks. Scaling is most effective as a natural extension of the risk-based approach and applicable to examinations of all entities.

Addressing the Risk of Fraud

.27 When planning and performing the examination of internal control, the auditor should incorporate the results of the fraud risk assessment performed in the financial statement audit. As part of identifying and testing entity-level controls, as discussed beginning at paragraph .37, and selecting other controls to test, as discussed beginning at paragraph .54, the auditor should evaluate whether the entity's controls sufficiently address identified risks of material misstatement due to fraud¹⁵ and the risk of management override of other controls. Controls that might address these risks include

- controls over significant, unusual transactions, particularly those that result in late or unusual journal entries;
- controls over journal entries and adjustments made in the period-end financial reporting process;
- controls over related party transactions;
- controls related to significant management estimates; and
- controls that mitigate incentives for, and pressures on, management to falsify or inappropriately manage financial results.

.28 If the auditor identifies deficiencies in controls designed to prevent, or detect and correct misstatements caused by fraud during the examination of internal control, he or she should take into account those deficiencies when developing his or her response to risks of material misstatement during the financial statement audit, as provided in AU section 316, *Consideration of Fraud in a Financial Statement Audit*, paragraphs .44–.45.

Using the Work of Others

.29 The auditor should evaluate the extent to which he or she will use the work of others to reduce the work the auditor might otherwise perform himself or herself.

.30 AU section 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, applies in an integrated audit. For purposes of the examination of internal control, however, the auditor may use the work performed by, or receive direct assistance from, internal auditors, entity personnel (in addition to internal auditors), and third parties working under the direction of management or those charged with governance that provide evidence about the effectiveness of internal control. In an integrated audit, the auditor also may use this work to obtain evidence supporting the assessment of control risk for purposes of the financial statement audit.

.31 The auditor should obtain an understanding of the work of others sufficient to identify those activities related to the effectiveness of internal control that are relevant to planning the examination of internal control. The extent

¹⁵ See paragraphs .19–.42 of AU section 316, *Consideration of Fraud in a Financial Statement Audit*, regarding identifying risks that may result in material misstatement due to fraud.

of the procedures necessary to obtain this understanding will vary, depending on the nature of those activities.

.32 The auditor should assess the competence and objectivity of the persons whose work the auditor plans to use to determine the extent to which the auditor may use their work. The higher the degree of competence and objectivity, the greater use the auditor may make of the work. The auditor should apply paragraphs .09–.11 of AU section 322 to assess the competence and objectivity of internal auditors. The auditor should apply the principles underlying those paragraphs to assess the competence and objectivity of persons other than internal auditors whose work the auditor plans to use.

.33 For purposes of using the work of others, competence means the attainment and maintenance of a level of understanding, knowledge, and skills that enables that person to perform ably the tasks assigned to them, and objectivity means the ability to perform those tasks impartially and with intellectual honesty. To assess competence, the auditor should evaluate factors about the person's qualifications and ability to perform the work that the auditor plans to use. To assess objectivity, the auditor should evaluate whether factors are present that either inhibit or promote a person's ability to perform with the necessary degree of objectivity the work that the auditor plans to use. The effect of the work of others on the auditor's work also depends on the relationship between the risk associated with a control and the competence and objectivity of those who performed the work. As the risk associated with a control decreases, the necessary level of competence and objectivity decreases as well. In higher risk areas (for example, controls that address specific fraud risks), use of the work of others would be limited, if it could be used at all.

.34 The extent to which the auditor may use the work of others also depends, in part, on the risk associated with the control being tested (see paragraph .62). As the risk associated with a control increases, the need for the auditor to perform his or her own work on the control increases.

Materiality

.35 In planning and performing the examination of internal control, the auditor should use the same materiality used in planning and performing the audit of the entity's financial statements.¹⁶

Using a Top-Down Approach

.36 The auditor should use a top-down approach¹⁷ to the examination of internal control to select the controls to test. A top-down approach involves

- beginning at the financial statement level;
- using the auditor's understanding of the overall risks to internal control;
- focusing on entity-level controls;
- working down to significant accounts and disclosures and their relevant assertions;

¹⁶ See AU section 312, *Audit Risk and Materiality in Conducting an Audit*, which provides additional explanation of materiality.

¹⁷ The top-down approach describes the auditor's sequential thought process in identifying risks and the controls to test, not necessarily the order in which the auditor will perform the examination procedures.

- directing attention to accounts, disclosures, and assertions that present a reasonable possibility of material misstatement to the financial statements and related disclosures;
- verifying the auditor's understanding of the risks in the entity's processes; and
- selecting controls for testing that sufficiently address the assessed risk of material misstatement to each relevant assertion.

Identifying Entity-Level Controls

.37 The auditor should test those entity-level controls that are important to his or her conclusion about whether the entity has effective internal control. The auditor's evaluation of entity-level controls can result in increasing or decreasing the testing that he or she otherwise would have performed on other controls.

.38 Entity-level controls include

- controls related to the control environment;
- controls over management override;¹⁸
- the entity's risk assessment process;
- centralized processing and controls, including shared service environments;
- controls to monitor results of operations;
- controls to monitor other controls, including activities of the internal audit function, those charged with governance, and self-assessment programs;
- controls over the period-end financial reporting process; and
- programs and controls that address significant business control and risk management practices.

.39 Entity-level controls vary in nature and precision:

- Some entity-level controls, such as certain control environment controls, have an important but indirect effect on the likelihood that a misstatement will be prevented, or detected and corrected on a timely basis. These controls might affect the other controls that the auditor selects for testing and the nature, timing, and extent of procedures the auditor performs on other controls.
- Some entity-level controls monitor the effectiveness of other controls. Such controls might be designed to identify possible breakdowns in lower level controls, but not at a level of precision that would, by themselves, sufficiently address the assessed risk that material misstatements to a relevant assertion will be prevented, or detected and corrected on a timely basis. These controls, when operating effectively, might allow the auditor to reduce the testing of other controls.

¹⁸ Controls over management override are important to effective internal control for all entities and may be particularly important at smaller, less complex entities because of the increased involvement of senior management in performing controls and in the period-end financial reporting process. For smaller, less complex entities, the controls that address the risk of management override might be different from those at a larger entity. For example, a smaller, less complex entity might rely on more detailed oversight by those charged with governance that focuses on the risk of management override.

- Some entity-level controls might be designed to operate at a level of precision that would adequately prevent, or detect and correct on a timely basis misstatements to one or more relevant assertions. If an entity-level control sufficiently addresses the assessed risk of material misstatement, the auditor need not test additional controls relating to that risk.

Control Environment

.40 Because of its importance to effective internal control, the auditor should evaluate the control environment at the entity. When evaluating the control environment, the auditor should apply paragraphs .67–.75 of AU section 314, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*. As part of evaluating the control environment, the auditor should assess

- whether management's philosophy and operating style promote effective internal control;
- whether sound integrity and ethical values, particularly of top management, are developed and understood; and
- whether those charged with governance understand and exercise oversight responsibility over financial reporting and internal control.

Period-End Financial Reporting Process

.41 Because of its importance to financial reporting and to the integrated audit, the auditor should evaluate the period-end financial reporting process.¹⁹ The period-end financial reporting process includes the following:

- Procedures used to enter transaction totals into the general ledger
- Procedures related to the selection and application of accounting policies
- Procedures used to initiate, authorize, record, and process journal entries in the general ledger
- Procedures used to record recurring and nonrecurring adjustments to the financial statements
- Procedures for preparing financial statements and related disclosures

.42 As part of evaluating the period-end financial reporting process, the auditor should assess

- the inputs, procedures performed, and outputs of the processes the entity uses to produce its financial statements;
- the extent of IT involvement in the period-end financial reporting process;
- who participates from management;
- the locations involved in the period-end financial reporting process;
- the types of adjusting and consolidating entries; and
- the nature and extent of the oversight of the process by management and those charged with governance.

¹⁹ Because the annual period-end financial reporting process normally occurs after the as-of date of management's assertion, those controls usually cannot be tested until after the as-of date.

Identifying Significant Accounts and Disclosures and Their Relevant Assertions

.43 The auditor should identify significant accounts and disclosures and their relevant assertions. To identify significant accounts and disclosures and their relevant assertions, the auditor should evaluate the qualitative and quantitative risk factors related to the financial statement line items and disclosures. Risk factors relevant to the identification of significant accounts and disclosures and their relevant assertions include

- size and composition of the account;
- susceptibility to misstatement due to errors or fraud;
- volume of activity, complexity, and homogeneity of the individual transactions processed through the account or reflected in the disclosure;
- nature of the account, class of transactions, or disclosure;
- accounting and reporting complexities associated with the account, class of transactions, or disclosure;
- exposure to losses in the account;
- possibility of significant contingent liabilities arising from the activities reflected in the account or disclosure;
- existence of related party transactions in the account; and
- changes from the prior period in the account, class of transactions, or disclosure characteristics.

.44 As part of identifying significant accounts and disclosures and their relevant assertions, the auditor also should determine the likely sources of potential misstatements that would cause the financial statements to be materially misstated. The auditor might determine the likely sources of potential misstatements by asking himself or herself "what could go wrong?" within a given significant account or disclosure.

.45 The risk factors that the auditor should evaluate in the identification of significant accounts and disclosures and their relevant assertions are the same in the examination of internal control as in the audit of the financial statements; accordingly, significant accounts and disclosures and their relevant assertions are the same in an integrated audit.²⁰

.46 The components of a potential significant account or disclosure might be subject to significantly different risks. If so, different controls might be necessary to adequately address those risks.

.47 When an entity has multiple locations or business units, the auditor should identify significant accounts and disclosures and their relevant assertions based on the consolidated financial statements.

Understanding Likely Sources of Misstatement

.48 To further understand the likely sources of potential misstatements, and as a part of selecting the controls to test, the auditor should achieve the following objectives:

²⁰ The risk assessment procedures performed in connection with a financial statement audit are described in AU section 314.

- Understand the flow of transactions related to the relevant assertions, including how these transactions are initiated, authorized, processed, and recorded
- Identify the points within the entity's processes at which a misstatement, including a misstatement due to fraud, could arise that, individually or in combination with other misstatements, would be material (for example, points at which information is initiated, transferred, or otherwise modified)
- Identify the controls that management has implemented to address these potential misstatements
- Identify the controls that management has implemented over the prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could result in a material misstatement of the financial statements

.49 Because of the degree of judgment required, the auditor should either perform the procedures that achieve the objectives in paragraph .48 himself or herself or supervise the work of others who provide direct assistance to the auditor, as described in AU section 322.

.50 The auditor also should understand how IT affects the entity's flow of transactions. The auditor should apply paragraphs .57–.63 of AU section 314, which discuss the effect of IT on internal control and the risks to assess.

.51 The identification of risks and controls within IT is not a separate evaluation. Instead, it is an integral part of the top-down approach used to identify likely sources of misstatement and the controls to test, as well as to assess risk and allocate audit effort.

Performing Walkthroughs

.52 Performing walkthroughs will frequently be the most effective way of achieving the objectives in paragraph .48. A walkthrough involves following a transaction from origination through the entity's processes, including information systems, until it is reflected in the entity's financial records, using the same documents and IT that entity personnel use. Walkthrough procedures may include a combination of inquiry, observation, inspection of relevant documentation, recalculation, and control reperformance.

.53 A walkthrough includes questioning the entity's personnel about their understanding of what is required by the entity's prescribed procedures and controls at the points at which important processing procedures occur. These probing questions, combined with the other walkthrough procedures, allow the auditor to gain a sufficient understanding of the process and to be able to identify important points at which a necessary control is missing or not designed effectively. Additionally, probing questions that go beyond a narrow focus on the single transaction used as the basis for the walkthrough may provide an understanding of the different types of significant transactions handled by the process.

Selecting Controls to Test

.54 The auditor should test those controls that are important to the auditor's conclusion about whether the entity's controls sufficiently address the assessed risk of material misstatement to each relevant assertion.

.55 There might be more than one control that addresses the assessed risk of material misstatement to a particular relevant assertion; conversely, one control might address the assessed risk of material misstatement to more than one relevant assertion. It may not be necessary to test all controls related to a relevant assertion nor necessary to test redundant controls, unless redundancy is, itself, a control objective.

.56 The decision concerning whether a control would be selected for testing depends on which controls, individually or in combination, sufficiently address the assessed risk of material misstatement to a given relevant assertion rather than on how the control is labeled (for example, entity-level control, transaction-level control, control activity, monitoring control, preventive control, or detective control).

Testing Controls

Evaluating Design Effectiveness

.57 The auditor should evaluate the design effectiveness of controls by determining whether the entity's controls, if they are applied as prescribed by persons possessing the necessary authority and competence to perform the control effectively, satisfy the entity's control objectives, and can effectively prevent, or detect and correct misstatements caused by errors or fraud that could result in material misstatements in the financial statements.

.58 A smaller, less complex entity might achieve its control objectives in a different manner from a larger, more complex organization. For example, a smaller, less complex entity might have fewer employees in the accounting function, limiting opportunities to segregate duties and leading the entity to implement alternative controls to achieve its control objectives. In such circumstances, the auditor should evaluate whether those alternative controls are effective.

.59 Procedures performed to evaluate design effectiveness may include a mix of inquiry of appropriate personnel, observation of the entity's operations, and inspection of relevant documentation. Walkthroughs that include these procedures ordinarily are sufficient to evaluate design effectiveness.

Testing Operating Effectiveness

.60 The auditor should test the operating effectiveness of a control by determining whether the control is operating as designed and whether the person performing the control possesses the necessary authority and competence to perform the control effectively.²¹

.61 Procedures performed to test operating effectiveness may include a mix of inquiry of appropriate personnel, observation of the entity's operations, inspection of relevant documentation, recalculation, and reperformance of the control.

²¹ In some situations, particularly in smaller, less complex entities, an entity might use a third party to provide assistance with certain financial reporting functions. When assessing the competence of personnel responsible for an entity's financial reporting and associated controls, the auditor may take into account the combined competence of entity personnel and other parties that assist with functions related to financial reporting.

Relationship of Risk to the Evidence to Be Obtained

.62 For each control selected for testing, the evidence necessary to persuade the auditor that the control is effective depends upon the risk associated with the control. The risk associated with a control consists of the risk that the control might not be effective and, if not effective, the risk that a material weakness exists. As the risk associated with the control being tested increases, the evidence that the auditor should obtain also increases.

.63 Although the auditor should obtain evidence about the effectiveness of controls for each relevant assertion, he or she is not responsible for obtaining sufficient appropriate evidence to support an opinion about the effectiveness of each individual control. Rather, the auditor's objective is to express an opinion on the entity's internal control overall. This allows the auditor to vary the evidence obtained regarding the effectiveness of individual controls selected for testing based on the risk associated with the individual control.

.64 Factors that affect the risk associated with a control may include

- the nature and materiality of misstatements that the control is intended to prevent, or detect and correct;
- the inherent risk associated with the related account(s) and assertion(s);
- whether there have been changes in the volume or nature of transactions that might adversely affect control design or operating effectiveness;
- whether the account has a history of errors;
- the effectiveness of entity-level controls, especially controls that monitor other controls;
- the nature of the control and the frequency with which it operates;
- the degree to which the control relies on the effectiveness of other controls (for example, the control environment or IT general controls);
- the competence of the personnel who perform the control or monitor its performance and whether there have been changes in key personnel who perform the control or monitor its performance;
- whether the control relies on performance by an individual or is automated (that is, an automated control would generally be expected to be lower risk if relevant IT general controls are effective);²² and
- the complexity of the control and the significance of the judgments that would be made in connection with its operation.²³

.65 When the auditor identifies control deviations, he or she should determine the effect of the deviations on his or her assessment of the risk associated with the control being tested and the evidence to be obtained, as well as on the operating effectiveness of the control.

²² A smaller, less complex entity or business unit with simple business processes and centralized accounting operations might have relatively simple information systems that make greater use of off-the-shelf packaged software without modification. In the areas in which off-the-shelf software is used, the auditor's testing of IT controls might focus on the application controls built into the prepackaged software that management relies on to achieve its control objectives and the IT general controls that are important to the effective operation of those application controls.

²³ Generally, a conclusion that a control is not operating effectively can be supported by less evidence than is necessary to support a conclusion that a control is operating effectively.

.66 Because effective internal control cannot and does not provide absolute assurance of achieving the entity's control objectives, an individual control does not necessarily have to operate without any deviation to be considered effective.

.67 The evidence provided by the auditor's tests of the effectiveness of controls depends upon the mix of the nature, timing, and extent of the auditor's procedures. Further, for an individual control, different combinations of the nature, timing, and extent of testing may provide sufficient appropriate evidence in relation to the risk associated with the control.

.68 Walkthroughs may include a combination of inquiry of appropriate personnel, observation of the entity's operations, inspection of relevant documentation, recalculation, and reperformance of the control and might provide sufficient appropriate evidence of operating effectiveness, depending on the risk associated with the control being tested, the specific procedures performed as part of the walkthrough, and the results of those procedures.

Nature of Tests of Controls

.69 Some types of tests, by their nature, produce greater evidence of the effectiveness of controls than other tests. The following tests that the auditor might perform are presented in order of the evidence that they ordinarily would produce, from least to most: inquiry, observation, inspection of relevant documentation, recalculation, and reperformance of a control. Inquiry alone, however, does not provide sufficient appropriate evidence to support a conclusion about the effectiveness of a control.

.70 The nature of the tests of effectiveness that will provide sufficient appropriate evidence depends, to a large degree, on the nature of the control to be tested, including whether the operation of the control results in documentary evidence of its operation. Documentary evidence of the operation of some controls, such as management's philosophy and operating style, might not exist.

.71 A smaller, less complex entity or unit might have less formal documentation regarding the operation of its controls. In those situations, testing controls through inquiry combined with other procedures, such as observation of activities, inspection of less formal documentation, recalculation, or reperformance of certain controls, might provide sufficient appropriate evidence about whether the control is effective.

Timing and Extent of Tests of Controls

.72 Testing controls over a longer period of time provides more evidence of the effectiveness of controls than testing over a shorter period of time. Further, testing performed closer to the date of management's assertion provides more evidence than testing performed earlier in the year. The auditor should balance performing the tests of controls closer to the as-of date with the need to test controls over a sufficient period of time to obtain sufficient appropriate evidence of operating effectiveness.

.73 Prior to the date specified in management's assertion, management might implement changes to the entity's controls to make them more effective or efficient or to address deficiencies. If the auditor determines that the new controls achieve the related objectives of the control criteria and have been in effect for a sufficient period to permit the auditor to assess their design and operating effectiveness by performing tests of controls, he or she will not need to test the design and operating effectiveness of the superseded controls for purposes of expressing an opinion on internal control. If the operating effectiveness of the superseded controls is important to the auditor's control risk assessment in the financial statement audit, the auditor should test the design

and operating effectiveness of those superseded controls, as appropriate. (Integration is discussed beginning at paragraph .159.)

.74 The more extensively a control is tested, the greater the evidence obtained from that test.

Rollforward Procedures

.75 When the auditor reports on the effectiveness of controls as of a specific date and obtains evidence about the operating effectiveness of controls at an interim date, he or she should determine what additional evidence concerning the operation of the controls for the remaining period is necessary.

.76 The additional evidence that is necessary to update the results of testing from an interim date to the entity's period-end depends on the following factors:²⁴

- The specific control tested prior to the as-of date, including the risks associated with the control, the nature of the control, and the results of those tests
- The sufficiency of the evidence of operating effectiveness obtained at an interim date
- The length of the remaining period
- The possibility that there have been any significant changes in internal control subsequent to the interim date

Special Considerations for Subsequent Years' Examinations

.77 In subsequent years' examinations, the auditor should incorporate knowledge obtained during past examinations he or she performed of the entity's internal control into the decision making process for determining the nature, timing, and extent of testing necessary. This decision making process is described in paragraphs .62–.76.

.78 Factors that affect the risk associated with a control in subsequent years' examinations include those in paragraph .64 and the following:

- The nature, timing, and extent of procedures performed in previous examinations
- The results of the previous years' testing of the control
- Whether there have been changes in the control or the process in which it operates since the previous examination

.79 After taking into account the risk factors identified in paragraphs .64 and .78, the additional information available in subsequent years' examinations might permit the auditor to assess the risk as lower than in the initial year. This, in turn, might permit the auditor to reduce testing in subsequent years.

.80 The auditor also may use a benchmarking strategy for automated application controls in subsequent years' examinations. Benchmarking is described further beginning at paragraph .153.

.81 In addition, the auditor should vary the nature, timing, and extent of testing of controls from period to period to introduce unpredictability into the testing and respond to changes in circumstances. For this reason, the auditor

²⁴ In some circumstances, such as when evaluation of these factors indicates a low risk that the controls are no longer effective during the rollforward period, inquiry alone might be sufficient as a rollforward procedure.

might test controls at a different interim period, increase or reduce the number and types of tests performed, or change the combination of procedures used.

Evaluating Identified Deficiencies

.82 The auditor should evaluate the severity of each deficiency to determine whether the deficiency, individually or in combination, is a material weakness as of the date of management's assertion.

.83 The severity of a deficiency depends on

- the magnitude of the potential misstatement resulting from the deficiency or deficiencies; and
- whether there is a reasonable possibility that the entity's controls will fail to prevent, or detect and correct a misstatement of an account balance or disclosure.

The severity of a deficiency does not depend on whether a misstatement actually occurred.

.84 Factors that affect the magnitude of the misstatement that might result from a deficiency or deficiencies include, but are not limited to, the following:

- The financial statement amounts or total of transactions exposed to the deficiency
- The volume of activity (in the current period or expected in future periods) in the account or class of transactions exposed to the deficiency

.85 In evaluating the magnitude of the potential misstatement, the maximum amount by which an account balance or total of transactions can be overstated is generally the recorded amount, whereas understatements could be larger.

.86 Risk factors affect whether there is a reasonable possibility that a deficiency, or a combination of deficiencies, will result in a misstatement of an account balance or disclosure. The factors include, but are not limited to, the following:

- The nature of the financial statement accounts, classes of transactions, disclosures, and assertions involved
- The susceptibility of the related asset or liability to loss or fraud
- The subjectivity, complexity, or extent of judgment required to determine the amount involved
- The interaction or relationship of the control with other controls
- The interaction among the deficiencies
- The possible future consequences of the deficiency

.87 The evaluation of whether a deficiency presents a reasonable possibility of misstatement may be made without quantifying the probability of occurrence as a specific percentage or range. Also, in many cases, the probability of a small misstatement will be greater than the probability of a large misstatement.

.88 Multiple deficiencies that affect the same significant account or disclosure, relevant assertion, or component of internal control increase the likelihood of material misstatement and may, in combination, constitute a material weakness, even though such deficiencies individually may be less severe. Therefore, the auditor should determine whether deficiencies that affect the same

significant account or disclosure, relevant assertion, or component of internal control collectively result in a material weakness.

.89 Multiple deficiencies that affect the same significant account or disclosure, relevant assertion, or component of internal control also may collectively result in a significant deficiency.

.90 A compensating control can limit the severity of a deficiency and prevent it from being a material weakness. Although compensating controls can mitigate the effects of a deficiency, they do not eliminate the deficiency. The auditor should evaluate the effect of compensating controls when determining whether a deficiency or combination of deficiencies is a material weakness. To have a mitigating effect, the compensating control should operate at a level of precision that would prevent, or detect and correct a material misstatement. The auditor should test the operating effectiveness of compensating controls.

Indicators of Material Weaknesses

.91 Indicators of material weaknesses in internal control include

- identification of fraud, whether or not material, on the part of senior management;
- restatement of previously issued financial statements to reflect the correction of a material misstatement due to error or fraud;
- identification by the auditor of a material misstatement of financial statements under audit in circumstances that indicate that the misstatement would not have been detected and corrected by the entity's internal control; and
- ineffective oversight of the entity's financial reporting and internal control by those charged with governance.

.92 If the auditor determines that a deficiency, or a combination of deficiencies, is not a material weakness, he or she should consider whether prudent officials, having knowledge of the same facts and circumstances, would likely reach the same conclusion.

Concluding Procedures

Forming an Opinion

.93 The auditor should form an opinion on the effectiveness of internal control by evaluating evidence obtained from all sources, including the auditor's testing of controls, misstatements detected during the financial statement audit, and any identified deficiencies.

.94 As part of this evaluation, the auditor should review reports issued during the year by internal audit (or similar functions) that address controls related to internal control and evaluate deficiencies identified in those reports.

.95 After forming an opinion on the effectiveness of the entity's internal control, the auditor should evaluate management's report to determine whether it appropriately contains the following:

- A statement regarding management's responsibility for internal control
- A description of the subject matter of the examination (for example, controls over the preparation of the entity's financial statements in accordance with generally accepted accounting principles [GAAP])

- An identification of the criteria against which internal control is measured (for example, criteria established in the Committee of Sponsoring Organizations of the Treadway Commission's *Internal Control—Integrated Framework*)
- Management's assertion about the effectiveness of internal control
- A description of the material weaknesses, if any
- The date as of which management's assertion is made

.96 If the auditor determines that any required element of management's report is incomplete or improperly presented, the auditor should request management to revise its report. If management does not revise its report, the auditor should apply paragraph .116. If management refuses to furnish a report, the auditor should apply paragraph .13.

Obtaining Written Representations

.97 In an examination of internal control, the auditor should obtain written representations from management

- a. acknowledging management's responsibility for establishing and maintaining effective internal control;
- b. stating that management has performed an evaluation of the effectiveness of the entity's internal control and specifying the control criteria;
- c. stating that management did not use the auditor's procedures performed during the integrated audit as part of the basis for management's assertion;
- d. stating management's assertion about the effectiveness of the entity's internal control based on the control criteria as of a specified date;
- e. stating that management has disclosed to the auditor all deficiencies in the design or operation of internal control, including separately disclosing to the auditor all such deficiencies that it believes to be significant deficiencies or material weaknesses in internal control;
- f. describing any fraud resulting in a material misstatement to the entity's financial statements and any other fraud that does not result in a material misstatement to the entity's financial statements, but involves senior management or management or other employees who have a significant role in the entity's internal control;
- g. stating whether the significant deficiencies and material weaknesses identified and communicated to management and those charged with governance during previous engagements pursuant to paragraph .100 have been resolved and specifically identifying any that have not; and
- h. stating whether there were, subsequent to the date being reported on, any changes in internal control or other factors that might significantly affect internal control, including any corrective actions taken by management with regard to significant deficiencies and material weaknesses.

.98 The failure to obtain written representations from management, including management's refusal to furnish them, constitutes a limitation on the scope of the examination.²⁵ The auditor should evaluate the effects of management's refusal on his or her ability to rely on other representations, such as those obtained in the audit of the entity's financial statements.

²⁵ See paragraph .117 when the scope of the engagement has been restricted.

.99 The auditor should apply AU section 333, *Management Representations*, as it relates to matters such as who should sign the letter, the period to be covered by the letter, and when to obtain an updated letter.

Communicating Certain Matters

.100 Deficiencies identified during the integrated audit that, upon evaluation, are considered significant deficiencies or material weaknesses should be communicated, in writing, to management and those charged with governance as a part of each integrated audit, including significant deficiencies and material weaknesses that were previously communicated to management and those charged with governance and have not yet been remediated. Significant deficiencies and material weaknesses that previously were communicated and have not yet been remediated may be communicated, in writing, by referring to the previously issued written communication and the date of that communication.

.101 If the auditor concludes that the oversight of the entity's financial reporting and internal control by the audit committee (or similar subgroups with different names) is ineffective, the auditor should communicate that conclusion, in writing, to the board of directors or other similar governing body if one exists.

.102 The written communications referred to in paragraphs .100–.101 should be made by the report release date,²⁶ which is the date the auditor grants the entity permission to use the auditor's report. For a governmental entity, the auditor is not required to make the written communications by the report release date, if such written communications would be publicly available prior to management's report on internal control, the entity's financial statements, and the auditor's report thereon. In that circumstance, the written communications should be made as soon as practicable, but no later than 60 days following the report release date.

.103 Because of the importance of timely communication, the auditor may choose to communicate significant matters during the course of the integrated audit. If the communication is made during the integrated audit, the form of interim communication would be affected by the relative significance of the identified deficiencies and the urgency for corrective follow-up action. Such early communication is not required to be in writing. However, regardless of how the early communication is delivered, the auditor should communicate all significant deficiencies and material weaknesses in writing to management and those charged with governance in accordance with paragraphs .100–.102, even if the significant deficiencies or material weaknesses were remediated during the examination.

.104 The auditor also should communicate to management, in writing, all deficiencies (those deficiencies that are not material weaknesses or significant deficiencies) identified during the integrated audit on a timely basis, but no later than 60 days following the report release date, and inform those charged with governance when such a communication was made. In making the written communication referred to in this paragraph, the auditor is not required to communicate those deficiencies that are not material weaknesses or significant deficiencies that were included in previous written communications, whether those communications were made by the auditor, internal auditors, or others within the organization.

²⁶ See paragraph .23 of AU section 339, *Audit Documentation*, for additional guidance related to the report release date.

.105 The auditor is not required to perform procedures that are sufficient to identify all deficiencies; rather, the auditor communicates deficiencies of which he or she is aware.

.106 Because the integrated audit does not provide the auditor with assurance that he or she has identified all deficiencies less severe than a material weakness, the auditor should not issue a report stating that no such deficiencies were identified during the integrated audit. Also, because the auditor's objective in an examination of internal control is to form an opinion on the effectiveness of the entity's internal control, the auditor should not issue a report indicating that no material weaknesses were identified during the integrated audit.

Reporting on Internal Control

.107 The auditor's report on the examination of internal control should include the following elements:²⁷

- a. A title that includes the word *independent*
- b. A statement that management is responsible for maintaining effective internal control and for evaluating the effectiveness of internal control
- c. An identification of management's assertion on internal control that accompanies the auditor's report, including a reference to management's report
- d. A statement that the auditor's responsibility is to express an opinion on the entity's internal control (or on management's assertion)²⁸ based on his or her examination²⁹
- e. A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants
- f. A statement that such standards require that the auditor plan and perform the examination to obtain reasonable assurance about whether effective internal control was maintained in all material respects
- g. A statement that an examination includes obtaining an understanding of internal control, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as the auditor considers necessary in the circumstances
- h. A statement that the auditor believes the examination provides a reasonable basis for his or her opinion
- i. A definition of internal control (the auditor should use the same description of the entity's internal control as management uses in its report)
- j. A paragraph stating that, because of inherent limitations, internal control may not prevent, or detect and correct misstatements and that projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate

²⁷ Report modifications are discussed further beginning at paragraph .115.

²⁸ The auditor may report directly on the entity's internal control or on management's written assertion, except as described in paragraph .112.

²⁹ Because the examination of internal control is integrated with the audit of the financial statements and an examination provides the same level of assurance as an audit, the auditor may refer to the examination of internal control as an audit in his or her report or other communications.

- k. The auditor's opinion on whether the entity maintained, in all material respects, effective internal control as of the specified date, based on the control criteria; or, the auditor's opinion on whether management's assertion about the effectiveness of the entity's internal control as of the specified date is fairly stated, in all material respects, based on the control criteria
- l. The manual or printed signature of the auditor's firm
- m. The date of the report

Separate or Combined Reports

.108 The auditor may choose to issue a combined report (that is, one report containing both an opinion on the financial statements and an opinion on internal control) or separate reports on the entity's financial statements and on internal control.

.109 If the auditor issues a separate report on internal control, he or she should add the following paragraph to the auditor's report on the financial statements:

We also have examined *[or audited]*³⁰ in accordance with attestation standards established by the American Institute of Certified Public Accountants, *[company name]*'s internal control over financial reporting as of December 31, 20X8, based on *[identify control criteria]* and our report dated *[date of report, which should be the same as the date of the report on the financial statements]* expressed *[include nature of opinion]*.

The auditor also should add the following paragraph to the report on internal control:

We also have audited, in accordance with auditing standards generally accepted in the United States of America, the *[identify financial statements]* of *[company name]* and our report dated *[date of report, which should be the same as the date of the report on internal control]* expressed *[include nature of opinion]*.

Report Date

.110 The auditor should date the report no earlier than the date on which the auditor has obtained sufficient appropriate evidence to support the auditor's opinion. Because the examination of internal control is integrated with the audit of the financial statements, the dates of the reports should be the same.

Adverse Opinions

.111 Paragraphs .82–.92 describe the evaluation of deficiencies. If there are deficiencies that, individually or in combination, result in one or more material weaknesses as of the date specified in management's assertion, the auditor should express an adverse opinion on the entity's internal control, unless there is a restriction on the scope of the engagement.³¹

.112 When internal control is not effective because one or more material weaknesses exist, the auditor is prohibited from expressing an opinion on management's assertion and should report directly on the effectiveness of internal control. In addition, the auditor's report should include

³⁰ See footnote 29.

³¹ See paragraph .117 when the scope of the engagement has been restricted.

- the definition of a material weakness.
- a statement that one or more material weaknesses have been identified and an identification of the material weaknesses described in management's assertion. The auditor's report need only refer to the material weaknesses described in management's report and need not include a description of each material weakness, provided each material weakness is included and fairly presented in all material respects in management's report, as described in the following paragraph.

.113 If one or more material weaknesses have not been included in management's report accompanying the auditor's report, the auditor's report should be modified to state that one or more material weaknesses have been identified but not included in management's report. Additionally, the auditor's report should include a description of each material weakness not included in management's report, which should provide the users of the report with specific information about the nature of each material weakness and its actual and potential effect on the presentation of the entity's financial statements issued during the existence of the weakness. In this case, the auditor also should communicate, in writing, to those charged with governance that one or more material weaknesses were not disclosed or identified as a material weakness in management's report. If one or more material weaknesses have been included in management's report but the auditor concludes that the disclosure of such material weaknesses is not fairly presented in all material respects, the auditor's report should describe this conclusion as well as the information necessary to fairly describe each material weakness.

.114 The auditor should determine the effect an adverse opinion on internal control has on his or her opinion on the financial statements. Additionally, the auditor should disclose whether his or her opinion on the financial statements was affected by the material weaknesses.³²

Report Modifications

.115 The auditor should modify his or her report if any of the following conditions exist:

- a. Elements of management's report are incomplete or improperly presented.
- b. There is a restriction on the scope of the engagement.
- c. The auditor decides to refer to the report of another auditor as the basis, in part, for the auditor's own report.
- d. There is other information contained in management's report.

Elements of Management's Report Are Incomplete or Improperly Presented

.116 If the auditor determines that any required element of management's report (see paragraph .95) is incomplete or improperly presented and management does not revise its report, the auditor should modify his or her report to include an explanatory paragraph describing the reasons for this determination. If the auditor determines that the required disclosure about one or more

³² If the auditor issues a separate report on internal control in this circumstance, the disclosure required by this paragraph may be combined with the report language described in paragraph .109. The auditor may present the combined language either as a separate paragraph or as part of the paragraph that identifies the material weakness.

material weaknesses is not fairly presented in all material respects, the auditor should apply paragraph .113.

Scope Limitations

.117 The auditor may express an opinion on the entity's internal control only if the auditor has been able to apply the procedures necessary in the circumstances. If there are restrictions on the scope of the engagement, the auditor should withdraw from the engagement or disclaim an opinion.

.118 When disclaiming an opinion because of a scope limitation, the auditor should state that he or she does not express an opinion on the effectiveness of internal control and, in a separate paragraph or paragraphs, the substantive reasons for the disclaimer. The auditor should not identify the procedures that were performed nor include the statements describing the characteristics of an examination of internal control (paragraph .107[d-h]); to do so might overshadow the disclaimer.

.119 When the auditor plans to disclaim an opinion and the limited procedures performed by the auditor caused the auditor to conclude that one or more material weaknesses exist, the auditor's report also should include

- the definition of a material weakness.
- a description of any material weaknesses identified in the entity's internal control. This description should address the requirements in paragraph .112 and should provide the users of the report with specific information about the nature of any material weakness and its actual and potential effect on the presentation of the entity's financial statements issued during the existence of the weakness. The auditor also should apply the requirements in paragraph .114.

.120 The auditor may issue a report disclaiming an opinion on internal control as soon as the auditor concludes that a scope limitation will prevent the auditor from obtaining the reasonable assurance necessary to express an opinion.³³ The auditor is not required to perform any additional work prior to issuing a disclaimer when the auditor concludes that he or she will not be able to obtain sufficient appropriate evidence to express an opinion.

.121 If the auditor concludes that he or she cannot express an opinion because there has been a limitation on the scope of the examination, the auditor should communicate, in writing, to management and those charged with governance that the examination of internal control cannot be satisfactorily completed.

Opinion Based, in Part, on the Report of Another Auditor

.122 When another auditor has examined the internal control of one or more subsidiaries, divisions, branches, or components of the entity, the auditor should determine whether he or she may serve as the principal auditor and use the work and reports of another auditor as a basis, in part, for his or her opinion. AU section 543, *Part of Audit Performed by Other Independent Auditors*, establishes requirements and provides guidance on the auditor's decision of whether to serve as the principal auditor of the financial statements. The auditor should

³³ In this case, in following paragraph .110 regarding dating the report, the report date is the date that the auditor has obtained sufficient appropriate evidence to support the representations in the report.

apply paragraphs .02–.03 of AU section 543 in deciding whether he or she may serve as the principal auditor of the examination of internal control.

.123 When serving as the principal auditor of internal control, the auditor should decide whether to make reference in his or her report on internal control to the examination of internal control performed by the other auditor. In these circumstances, the decision is based on factors analogous to those of the auditor who uses the work and reports of other independent auditors when reporting on an entity's financial statements as described in AU section 543.

.124 The decision about whether to make reference to another auditor in the report on the examination of internal control might differ from the corresponding decision as it relates to the audit of the financial statements. For example, the audit report on the financial statements may make reference to the audit of a significant equity investment performed by another independent auditor, but the report on internal control might not make a similar reference because management's assertion ordinarily would not extend to controls at the equity method investee.³⁴

.125 When the principal auditor decides to make reference to the report of the other auditor as a basis, in part, for his or her opinion on the entity's internal control, the principal auditor should refer to the report of the other auditor when describing the scope of the examination and when expressing the opinion. Whether the other auditor's opinion is expressed on management's assertion or on internal control does not affect the determination of whether the principal auditor's opinion is expressed on management's assertion or on internal control.

Management's Report Contains Additional Information

.126 Management's report accompanying the auditor's report may contain information in addition to the elements described in paragraph .95 that are subject to the auditor's evaluation.³⁵ If management's report could reasonably be viewed by users of the report as including such additional information, the auditor should disclaim an opinion on the information.

.127 The auditor may use the following sample language as the last paragraph of the auditor's report to disclaim an opinion on such additional information:

We do not express an opinion or any other form of assurance on [*describe additional information, such as management's cost-benefit statement*].

.128 If the auditor believes that management's additional information contains a material misstatement of fact, he or she should apply the guidance in paragraphs .92–.94 of AT section 101 and take appropriate action. If the auditor concludes that a material misstatement of fact remains, the auditor should notify management and those charged with governance, in writing, of the auditor's views concerning the information. AU section 317, *Illegal Acts by Clients*, also may require the auditor to take additional action.

³⁴ See paragraph .140 for further discussion of the evaluation of the controls for an equity method investment.

³⁵ An entity may publish various documents that contain information in addition to management's report and the auditor's report on internal control. Paragraphs .91–.94 of AT section 101 provide guidance to the auditor in these circumstances. If management makes the types of disclosures described in paragraph .126 outside its report and includes them elsewhere within a document that includes the auditor's report, the auditor would not need to disclaim an opinion on such information. However, in that situation, the auditor's responsibilities are the same as those described in paragraph .128, if the auditor believes that the additional information contains a material misstatement of fact.

Subsequent Events

.129 Changes in internal control or other factors that might significantly affect internal control might occur subsequent to the date as of which internal control is being examined but before the date of the auditor's report. The auditor should inquire of management whether there were any such changes or factors and obtain written representations from management relating to such matters, as described in paragraph .97.

.130 To obtain additional information about changes in internal control or other factors that might significantly affect the effectiveness of the entity's internal control, the auditor should inquire about and examine, for this subsequent period, the following:

- Relevant internal audit (or similar functions, such as loan review in a financial institution) reports issued during the subsequent period
- Independent auditor reports (if other than the auditor's) of deficiencies
- Regulatory agency reports on the entity's internal control
- Information about the effectiveness of the entity's internal control obtained through other engagements

.131 The auditor might inquire about and examine other documents for the subsequent period. Paragraphs .01–.09 of AU section 560, *Subsequent Events*, establish requirements and provide guidance on subsequent events for a financial statement audit that also may be helpful to the auditor performing an examination of internal control.

.132 If, subsequent to the date as of which internal control is being examined but before the date of the auditor's report, the auditor obtains knowledge about a material weakness that existed as of the date specified in management's assertion, the auditor should report directly on internal control and issue an adverse opinion, as required by paragraph .111. The auditor should also follow paragraph .116 if management's assertion states that internal control is effective. If the auditor is unable to determine the effect of the matter on the effectiveness of the entity's internal control as of the date specified in management's assertion, the auditor should disclaim an opinion. As described in paragraph .126, the auditor should disclaim an opinion on management's disclosures about corrective actions taken by the entity, if any.

.133 The auditor may obtain knowledge about conditions that did not exist at the date specified in management's assertion but arose subsequent to that date and before the release of the auditor's report. If a subsequent event of this type has a material effect on the entity's internal control, the auditor should include in his or her report an explanatory paragraph describing the event and its effects or directing the reader's attention to the event and its effects as disclosed in management's report.

.134 The auditor has no responsibility to keep informed of events subsequent to the date of his or her report; however, after the release of the report on internal control, the auditor may become aware of conditions that existed at the report date that might have affected the auditor's opinion had he or she been aware of them. The evaluation of such subsequent information is similar to the evaluation of information discovered subsequent to the date of the report on an audit of financial statements, as described in AU section 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*.

Special Topics

Entities With Multiple Locations

.135 In determining the locations or business units at which to perform tests of controls, the auditor should assess the risk of material misstatement to the financial statements associated with the location or business unit and correlate the amount of attention devoted to the location or business unit with the degree of risk. The auditor may eliminate from further consideration locations or business units that, individually or when aggregated with others, do not present a reasonable possibility of material misstatement to the entity's consolidated financial statements.

.136 In assessing and responding to risk, the auditor should test controls over specific risks that present a reasonable possibility of material misstatement to the entity's consolidated financial statements. In lower risk locations or business units, the auditor first might evaluate whether testing entity-level controls, including controls in place to provide assurance that appropriate controls exist throughout the organization, provides the auditor with sufficient appropriate evidence.

.137 In determining the locations or business units at which to perform tests of controls, the auditor may take into account work performed by others on behalf of management. For example, if the internal auditors' planned procedures include relevant audit work at various locations, the auditor may coordinate work with the internal auditors and reduce the number of locations or business units at which the auditor would otherwise need to perform examination procedures.

.138 In applying the requirement in paragraph .81 regarding special considerations for subsequent years' examinations, the auditor should vary the nature, timing, and extent of testing of controls at locations or business units from year to year.

Special Situations

.139 The scope of the examination should include entities that are acquired on or before the date of management's assertion and operations that are accounted for as discontinued operations on the date of management's assertion that are reported in accordance with the applicable financial reporting framework in the entity's financial statements.

.140 For equity method investments, the scope of the examination should include controls over the reporting in accordance with the applicable financial reporting framework, in the entity's financial statements, of the entity's portion of the investees' income or loss, the investment balance, adjustments to the income or loss and investment balance, and related disclosures. The examination ordinarily would not extend to controls at the equity method investee.

.141 In situations in which a regulator allows management to limit its assertion by excluding certain entities, the auditor may limit the examination in the same manner. In these situations, the auditor's opinion would not be affected by a scope limitation. However, the auditor should include, either in an additional explanatory paragraph or as part of the scope paragraph in his or her report, a disclosure similar to management's regarding the exclusion of an entity from the scope of both management's assertion and the auditor's examination of internal control. Additionally, the auditor should evaluate the reasonableness of management's conclusion that the situation meets the criteria of the regulator's allowed exclusion and the appropriateness of any required

disclosure related to such a limitation. If the auditor believes that management's disclosure about the limitation requires modification, the auditor should communicate the matter to the appropriate level of management. If, in the auditor's judgment, management does not respond appropriately to the auditor's communication within a reasonable period of time, the auditor should inform those charged with governance of the matter as soon as practicable. If management and those charged with governance do not respond appropriately, the auditor should modify his or her report on the examination of internal control to include an explanatory paragraph describing the reasons why the auditor believes management's disclosure requires modification.

Use of Service Organizations

.142 AU section 324 applies to the audit of financial statements of an entity that obtains services from another organization that are part of the entity's information and communication systems. The auditor may apply the relevant concepts described in AU section 324 to the examination of internal control.

.143 Paragraph .03 of AU section 324 describes the situation in which a service organization's services are part of an entity's information and communication systems. If the service organization's services are part of an entity's information and communication systems, as described therein, then they are part of the information and communication component of the entity's internal control. When the service organization's services are part of the entity's internal control, the auditor should consider the activities of the service organization when determining the evidence required to support his or her opinion.

.144 The auditor should perform the procedures in paragraphs .07–.16 of AU section 324 with respect to the activities performed by the service organization. These procedures include

- a. obtaining an understanding of the controls at the service organization that are relevant to the entity's internal control and the controls at the user organization over the activities of the service organization; and
- b. obtaining evidence that the controls that are relevant to the auditor's opinion are operating effectively.

.145 Evidence that the controls that are relevant to the auditor's opinion on internal control are operating effectively may be obtained by following the procedures described in paragraph .12 of AU section 324. These procedures include one or more of the following:

- a. Obtaining a service auditor's report³⁶ on controls placed in operation and tests of operating effectiveness, or a report on the application of agreed-upon procedures that describes relevant tests of controls. If the evidence regarding operating effectiveness of controls comes from an agreed-upon procedures report rather than a service auditor's report issued pursuant to AU section 324, the auditor should evaluate whether the agreed-upon procedures report provides sufficient appropriate evidence in the same manner described in paragraph .146.

³⁶ The service auditor's report referred to above means a report with the service auditor's opinion on the service organization's description of the design of its controls, the tests of controls, and results of those tests performed by the service auditor, and the service auditor's opinion on whether the controls tested were operating effectively during the specified period (in other words, "reports on controls placed in operation and tests of operating effectiveness" as described in paragraph .24[b] of AU section 324, *Service Organizations*). A service auditor's report that does not include tests of controls, results of the tests, and the service auditor's opinion on operating effectiveness (in other words, "reports on controls placed in operation" as described in paragraph .24[a] of AU section 324) does not provide evidence of operating effectiveness.

- b. Performing tests of the user organization's controls over the activities of the service organization (for example, testing the user organization's independent reperformance of selected items processed by the service organization or testing the user organization's reconciliation of output reports with source documents).
- c. Performing tests of controls at the service organization.

.146 If a service auditor's report on controls placed in operation and tests of operating effectiveness is available, the auditor may evaluate whether this report provides sufficient appropriate evidence to support his or her opinion on internal control. In evaluating whether such a service auditor's report provides sufficient appropriate evidence, the auditor should assess the following factors:³⁷

- The time period covered by the tests of controls and its relation to the as-of date of management's assertion
- The scope of the examination and applications covered, the controls tested, and the way in which tested controls relate to the entity's controls
- The results of those tests of controls and the service auditor's opinion on the operating effectiveness of the controls

.147 If the service auditor's report on controls placed in operation and tests of operating effectiveness contains a qualification that the stated control objectives might be achieved only if the entity applies controls contemplated in the design of the system by the service organization, the auditor should evaluate whether the entity is applying the necessary controls.

.148 In determining whether the service auditor's report provides sufficient appropriate evidence to support the auditor's opinion on internal control, the auditor should make inquiries concerning the service auditor's reputation, competence, and independence. Appropriate sources of information concerning the professional reputation of the service auditor are discussed in paragraph .10(a) of AU section 543.

.149 When a significant period of time has elapsed between the time period covered by the tests of controls in the service auditor's report and the date specified in management's assertion, additional procedures should be performed. The auditor should inquire of management to determine whether management has identified any changes in the service organization's controls subsequent to the period covered by the service auditor's report (such as changes communicated to management from the service organization, changes in personnel at the service organization with whom management interacts, changes in reports or other data received from the service organization, changes in contracts or service level agreements with the service organization, or errors identified in the service organization's processing). If management has identified such changes, the auditor should evaluate the effect of such changes on the effectiveness of the entity's internal control. The auditor also should evaluate whether the results of other procedures he or she performed indicate that there have been changes in the controls at the service organization.

.150 As risk increases, the need for the auditor to obtain additional evidence increases. Accordingly, the auditor should determine whether to obtain additional evidence about the operating effectiveness of controls at the service

³⁷ These factors are similar to factors the auditor would consider in determining whether the report provides sufficient appropriate evidence to support the auditor's assessed level of control risk in an audit of the financial statements, as described in paragraph .16 of AU section 324.

organization based on the procedures performed by management or the auditor and the results of those procedures and on an evaluation of the following risk factors:

- The elapsed time between the time period covered by the tests of controls in the service auditor's report and the date specified in management's assertion
- The significance of the activities of the service organization
- Whether there are errors that have been identified in the service organization's processing
- The nature and significance of any changes in the service organization's controls identified by management or the auditor

.151 If the auditor concludes that additional evidence about the operating effectiveness of controls at the service organization is required, the auditor's additional procedures might include

- evaluating procedures performed by management and the results of those procedures.
- contacting the service organization, through the user organization, to obtain specific information.
- requesting that a service auditor be engaged to perform procedures that will supply the necessary information.
- visiting the service organization and performing such procedures.

.152 The auditor should not refer to the service auditor's report when expressing an opinion on internal control.

Benchmarking of Automated Controls

.153 Entirely automated application controls are generally less susceptible to breakdowns due to human failure. This feature may allow the auditor to use a benchmarking strategy.

.154 If general controls over program changes, access to programs, and computer operations are effective and continue to be tested, and if the auditor verifies that the automated application control has not changed since the auditor established a baseline (that is, last tested the application control), the auditor may conclude that the automated application control continues to be effective without repeating the prior year's specific tests of the operation of the automated application control. The nature and extent of the evidence that the auditor should obtain to verify that the control has not changed may vary depending on the circumstances, including the strength of the entity's program change controls.

.155 The consistent and effective functioning of the automated application controls may be dependent upon the related files, tables, data, and parameters. For example, an automated application for calculating interest income might be dependent on the continued integrity of a rate table used by the automated calculation.

.156 To determine whether to use a benchmarking strategy, the auditor should assess the following risk factors. As these factors indicate lower risk, the control being evaluated might be well-suited for benchmarking. As these factors indicate increased risk, the control being evaluated is less suited for benchmarking. These factors are

- the extent to which the application control can be matched to a defined program within an application.
- the extent to which the application is stable (that is, there are few changes from period to period).
- the availability and reliability of a report of the compilation dates of the programs placed in production. (This information may be used as evidence that controls within the program have not changed.)

.157 Benchmarking automated application controls can be especially effective for entities using purchased software when the possibility of program changes is remote (for example, when the vendor does not allow access or modification to the source code).

.158 After a period of time, the length of which depends upon the circumstances, the baseline of the operation of an automated application control should be reestablished. To determine when to reestablish a baseline, the auditor should evaluate the following factors:

- The effectiveness of the IT control environment, including controls over application and system software acquisition and maintenance, access controls, and computer operations.
- The auditor's understanding of the nature of changes, if any, on the specific programs that contain the controls.
- The nature and timing of other related tests.
- The consequences of errors associated with the application control that was benchmarked.
- Whether the control is sensitive to other business factors that may have changed. For example, an automated control may have been designed with the assumption that only positive amounts will exist in a file. Such a control would no longer be effective if negative amounts (credits) begin to be posted to the account.

Integration With the Financial Statement Audit

Tests of Controls in an Examination of Internal Control

.159 The objective of the tests of controls in an examination of internal control is to obtain evidence about the effectiveness of controls to support the auditor's opinion on the entity's internal control. The auditor's opinion relates to the effectiveness of the entity's internal control as of a point in time and taken as a whole.

.160 To express an opinion on internal control as of a point in time, the auditor should obtain evidence that internal control has operated effectively for a sufficient period of time, which may be less than the entire period (ordinarily one year) covered by the entity's financial statements. To express an opinion on internal control taken as a whole, the auditor should obtain evidence about the effectiveness of selected controls over all relevant assertions. This entails testing the design and operating effectiveness of controls ordinarily not tested when expressing an opinion only on the financial statements.

.161 When concluding on the effectiveness of internal control for purposes of expressing an opinion on internal control, the auditor should incorporate the results of any additional tests of controls performed to achieve the objective related to expressing an opinion on the financial statements, as discussed in the following section.

Tests of Controls in an Audit of Financial Statements

.162 To express an opinion on the financial statements, the auditor ordinarily performs tests of controls and substantive procedures. Tests of controls are performed when the auditor's risk assessment includes an expectation of the operating effectiveness of controls or when substantive procedures alone do not provide sufficient appropriate audit evidence at the relevant assertion level.³⁸ Tests of controls are designed to obtain sufficient appropriate audit evidence that the controls are operating effectively throughout the period of reliance.³⁹ However, the auditor is not required to test controls for all relevant assertions and, for a variety of reasons, the auditor may choose not to do so.

.163 When concluding on the effectiveness of controls for the purpose of the financial statement audit, the auditor also should evaluate the results of any additional tests of controls performed by the auditor to achieve the objective related to expressing an opinion on the entity's internal control, as discussed in paragraph .160. Consideration of these results may cause the auditor to alter the nature, timing, and extent of substantive procedures and to plan and perform further tests of controls, particularly in response to identified deficiencies.

Effect of Tests of Controls on Substantive Procedures

.164 If, during the examination of internal control, the auditor identifies a deficiency, he or she should determine the effect of the deficiency, if any, on the nature, timing, and extent of substantive procedures to be performed to reduce audit risk in the audit of the financial statements to an appropriately low level.

.165 Regardless of the assessed risk of material misstatement in connection with the audit of the financial statements, the auditor should perform substantive procedures for all relevant assertions related to each material class of transactions, account balance, and disclosure.⁴⁰ Performing procedures to express an opinion on internal control does not diminish this requirement.

Effect of Substantive Procedures on Conclusions About the Operating Effectiveness of Controls

.166 In an examination of internal control, the auditor should evaluate the effect of the findings of the substantive procedures performed in the audit of financial statements on the effectiveness of internal control. This evaluation should include, at a minimum

- the risk assessments in connection with the selection and application of substantive procedures, especially those related to fraud.
- findings with respect to illegal acts and related party transactions.
- indications of management bias in making accounting estimates and in selecting accounting principles.
- misstatements detected by substantive procedures. The extent of such misstatements might alter the auditor's judgment about the effectiveness of controls.

.167 To obtain evidence about whether a selected control is effective, the control should be tested directly; the operating effectiveness of a control cannot be inferred from the absence of misstatements detected by substantive

³⁸ See paragraph .23 of AU section 318, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*.

³⁹ See paragraph .46 of AU section 318.

⁴⁰ See paragraphs .09 and .51 of AU section 318.

procedures. The absence of misstatements detected by substantive procedures, however, may affect the auditor's risk assessments in determining the testing necessary to conclude on the operating effectiveness of a control.

Effective Date

.168 This section is effective for integrated audits for periods ending on or after December 15, 2008. Earlier implementation is permitted.

.169

Exhibit A—Illustrative Reports

1. The following illustrate the report elements described in this section. These illustrative reports refer to an examination; however, the auditor may refer to the examination of internal control as an audit.¹

2. Report modifications are discussed beginning at paragraph .115 of this section.

Example 1: Unqualified Opinion on Internal Control

3. The following is an illustrative report expressing an unqualified opinion directly on internal control.

Independent Auditor's Report

[Introductory paragraph]

We have examined W Company's internal control over financial reporting as of December 31, 20XX, based on *[identify criteria]*.² W Company's management is responsible for maintaining effective internal control over financial reporting, and for its assertion of the effectiveness of internal control over financial reporting, included in the accompanying *[title of management's report]*. Our responsibility is to express an opinion on W Company's internal control over financial reporting based on our examination.

[Scope paragraph]

We conducted our examination in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our examination included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our examination also included performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Definition paragraph]

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as

¹ Because the examination of internal control is integrated with the audit of the financial statements and an examination provides the same level of assurance as an audit, the auditor may refer to the examination of internal control as an audit in his or her report or other communications.

² For example, the following may be used to identify the criteria: "criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."

necessary to permit preparation of financial statements in accordance with [ap-
plicable financial reporting framework, such as accounting principles generally
accepted in the United States of America], and that receipts and expenditures
of the entity are being made only in accordance with authorizations of manage-
ment and those charged with governance; and (3) provide reasonable assurance
regarding prevention, or timely detection and correction of unauthorized acqui-
sition, use, or disposition of the entity's assets that could have a material effect
on the financial statements.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting
may not prevent, or detect and correct misstatements. Also, projections of any
evaluation of effectiveness to future periods are subject to the risk that controls
may become inadequate because of changes in conditions, or that the degree of
compliance with the policies or procedures may deteriorate.

[Opinion paragraph]

In our opinion, W Company maintained, in all material respects, effective inter-
nal control over financial reporting as of December 31, 20XX, based on [identify
criteria].

[Audit of financial statements paragraph]

We also have audited, in accordance with auditing standards generally accepted
in the United States of America, the [identify financial statements] of W Com-
pany and our report dated [date of report, which should be the same as the date
of the report on the examination of internal control] expressed [include nature
of opinion].

[Signature]

[Date]

Example 2: Unqualified Opinion on Management's Assertion

4. The following is an illustrative report expressing an unqualified opinion
on management's assertion.

Independent Auditor's Report

[Introductory paragraph]

We have examined management's assertion, included in the accompanying [title
of management report], that W Company maintained effective internal control
over financial reporting as of December 31, 20XX based on [identify criteria].³ W
Company's management is responsible for maintaining effective internal con-
trol over financial reporting, and for its assertion of the effectiveness of internal
control over financial reporting, included in the accompanying [title of manage-
ment's report]. Our responsibility is to express an opinion on management's
assertion based on our examination.

[Scope paragraph]

We conducted our examination in accordance with attestation standards estab-
lished by the American Institute of Certified Public Accountants. Those stan-
dards require that we plan and perform the examination to obtain reasonable

³ See footnote 2 of this exhibit.

assurance about whether effective internal control over financial reporting was maintained in all material respects. Our examination included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our examination also included performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Definition paragraph]

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Opinion paragraph]

In our opinion, management's assertion that W Company maintained effective internal control over financial reporting as of December 31, 20XX is fairly stated, in all material respects, based on *[identify criteria]*.

[Audit of financial statements paragraph]

We also have audited, in accordance with auditing standards generally accepted in the United States of America, the *[identify financial statements]* of W Company and our report dated *[date of report, which should be the same as the date of the report on the examination of internal control]* expressed *[include nature of opinion]*.

[Signature]

[Date]

Example 3: Adverse Opinion on Internal Control

5. The following is an illustrative report expressing an adverse opinion on internal control. In this example, the opinion on the financial statements is not affected by the adverse opinion on internal control.

Independent Auditor's Report*[Introductory paragraph]*

We have examined W Company's internal control over financial reporting as of December 31, 20XX, based on *[identify criteria]*.⁴ W Company's management is responsible for maintaining effective internal control over financial reporting, and for its assertion of the effectiveness of internal control over financial reporting, included in the accompanying *[title of management's report]*. Our responsibility is to express an opinion on W Company's internal control over financial reporting based on our examination.

[Scope paragraph]

We conducted our examination in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our examination included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our examination also included performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Definition paragraph]

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Explanatory paragraph]

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility

⁴ See footnote 2 of this exhibit.

that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. The following material weakness has been identified and included in the accompanying [title of management's report].

[Identify the material weakness described in management's report].⁵

[Opinion paragraph]

In our opinion, because of the effect of the material weakness described above on the achievement of the objectives of the control criteria, W Company has not maintained effective internal control over financial reporting as of December 31, 20XX, based on [identify criteria].

[Audit of financial statements paragraph]

We also have audited, in accordance with auditing standards generally accepted in the United States of America, the [identify financial statements] of W Company. We considered the material weakness identified above in determining the nature, timing, and extent of audit tests applied in our audit of the 20XX financial statements, and this report does not affect our report dated [date of report, which should be the same as the date of the report on the examination of internal control], which expressed [include nature of opinion].

[Signature]

[Date]

Example 4: Disclaimer of Opinion on Internal Control

6. The following is an illustrative report expressing a disclaimer of opinion on internal control. In this example, the auditor is applying paragraph .119 of this section because a material weakness was identified during the limited procedures performed by the auditor.

Independent Auditor's Report

[Introductory paragraph]

We were engaged to examine W Company's internal control over financial reporting as of December 31, 20XX, based on [identify criteria].⁶ W Company's management is responsible for maintaining effective internal control over financial reporting, and for its assertion of the effectiveness of internal control over financial reporting, included in the accompanying [title of management's report].

[Paragraph that describes the substantive reasons for the scope limitation] Accordingly, we were unable to perform auditing procedures necessary to form an opinion on W Company's internal control over financial reporting as of December 31, 20XX.

[Definition paragraph]

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed

⁵ See paragraphs .111–.114 of this section for specific reporting requirements. The auditor's report need only refer to the material weaknesses described in management's report and need not include a description of each material weakness, provided each material weakness is included and fairly presented in all material respects in management's report.

⁶ See footnote 2 of this exhibit.

to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with [*applicable financial reporting framework, such as accounting principles generally accepted in the United States of America*]. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with [*applicable financial reporting framework, such as accounting principles generally accepted in the United States of America*], and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

[*Inherent limitations paragraph*]

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[*Explanatory paragraph*]

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. If one or more material weaknesses exist, an entity's internal control over financial reporting cannot be considered effective. The following material weakness has been identified and included in the accompanying [*title of management's report*].

[*Identify the material weakness described in management's report and include a description of the material weakness, including its nature and its actual and potential effect on the presentation of the entity's financial statements issued during the existence of the material weakness.*]

[*Opinion paragraph*]

Because of the limitation on the scope of our audit described in the second paragraph, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on the effectiveness W Company's internal control over financial reporting.

[*Audit of financial statements paragraph*]

We have audited, in accordance with auditing standards generally accepted in the United States of America, the [*identify financial statements*] of W Company and our report dated [*date of report*] expressed [*include nature of opinion*]. We considered the material weakness identified above in determining the nature, timing, and extent of audit tests applied in our audit of the 20XX financial statements, and this report does not affect such report on the financial statements.

[*Date*]

Example 5: Unqualified Opinion on Internal Control Based, in Part, on the Report of Another Auditor

7. The following is an illustrative report expressing an unqualified opinion on internal control when the auditor decides to refer to the report of another auditor as the basis, in part, for the auditor's own report.

Independent Auditor's Report

[Introductory paragraph]

We have examined W Company's internal control over financial reporting as of December 31, 20XX, based on *[identify criteria]*.⁷ W Company's management is responsible for maintaining effective internal control over financial reporting, and for its assertion of the effectiveness of internal control over financial reporting, included in the accompanying *[title of management's report]*. Our responsibility is to express an opinion on W Company's internal control over financial reporting based on our examination. We did not examine the effectiveness of internal control over financial reporting of B Company, a wholly owned subsidiary, whose financial statements reflect total assets and revenues constituting 20 percent and 30 percent, respectively, of the related consolidated financial statement amounts as of and for the year ended December 31, 20XX. The effectiveness of B Company's internal control over financial reporting was examined by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the effectiveness of B Company's internal control over financial reporting, is based solely on the report of the other auditors.

[Scope paragraph]

We conducted our examination in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our examination included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our examination also included performing such other procedures as we considered necessary in the circumstances. We believe that our examination and the report of the other auditors provide a reasonable basis for our opinion.

[Definition paragraph]

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance

⁷ See footnote 2 of this exhibit.

regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Opinion paragraph]

In our opinion, based on our examination and the report of the other auditors, W Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20XX, based on *[identify criteria]*.⁸

[Audit of financial statements paragraph]

We also have audited, in accordance with auditing standards generally accepted in the United States of America, the *[identify financial statements]* of W Company and our report dated *[date of report, which should be the same as the date of the report on the examination of internal control]* expressed *[include nature of opinion]*.

[Signature]

[Date]

Example 6: Combined Report Expressing an Unqualified Opinion on Internal Control and on the Financial Statements

8. The following is an illustrative combined report expressing an unqualified opinion directly on internal control and on the financial statements. This report refers to the examination of internal control as an audit.⁹

Independent Auditor's Report

[Introductory paragraph]

We have audited the accompanying balance sheet of W Company as of December 31, 20XX, and the related statements of income, retained earnings, and cash flows for the year then ended. We also have audited W Company's internal control over financial reporting as of December 31, 20XX, based on *[identify criteria]*.¹⁰ W Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting, and for its assertion of the effectiveness of internal control over financial reporting, included in the accompanying *[title of management's report]*. Our responsibility is to express an opinion on these financial statements and an opinion on W Company's internal control over financial reporting based on our audits.

[Scope paragraph]

We conducted our audit of the financial statements in accordance with auditing standards generally accepted in the United States of America and our audit of

⁸ As discussed in paragraph .125 of this section, whether the other auditor's opinion is expressed on management's assertion or on internal control does not affect the determination of whether the principal auditor's opinion is expressed on management's assertion or on internal control.

⁹ See footnote 1 of this exhibit.

¹⁰ See footnote 2 of this exhibit.

internal control over financial reporting in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audit of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

[Definition paragraph]

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Opinion paragraph]

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of W Company as of December 31, 20XX, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, W Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20XX, based on *[identify criteria]*.

[Signature]

Exhibit B—Illustrative Communication of Significant Deficiencies and Material Weaknesses

1. The following is an illustrative written communication of significant deficiencies and material weaknesses.

In connection with our audit of W Company's (the "Company") financial statements as of December 31, 20XX and for the year then ended, and our audit of the Company's internal control over financial reporting as of December 31, 20XX ("integrated audit"), the standards established by the American Institute of Certified Public Accountants require that we advise you of the following internal control matters identified during our integrated audit.

Our responsibility is to plan and perform our integrated audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud, and whether effective internal control over financial reporting was maintained in all material respects (that is, whether material weaknesses exist as of the date specified in management's assertion). The integrated audit is not designed to detect deficiencies that, individually or in combination, are less severe than a material weakness. However, we are responsible for communicating to management and those charged with governance significant deficiencies and material weaknesses identified during the integrated audit. We are also responsible for communicating to management deficiencies that are of a lesser magnitude than a significant deficiency, unless previously communicated, and inform those charged with governance when such a communication was made.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *[A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's financial statements will not be prevented, or detected and corrected on a timely basis. We believe the following deficiencies constitute material weaknesses:]*

[Describe the material weaknesses that were identified during the integrated audit. The auditor may separately identify those material weaknesses that exist as of the date of management's assertion by referring to the auditor's report.]

[A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies to be significant deficiencies:]

[Describe the significant deficiencies that were identified during the integrated audit.]

This communication is intended solely for the information and use of management, *[identify the body or individuals charged with governance]*, others within the organization, and *[identify any specified governmental authorities]* and is not intended to be and should not be used by anyone other than these specified parties.

.171

Exhibit C—Reporting Under Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA)

1. In Financial Institution Letter (FIL) 86-94, *Additional Guidance Concerning Annual Audits, Audit Committees and Reporting Requirements*, issued December 23, 1994, the Federal Deposit Insurance Corporation (FDIC) provided guidance on the meaning of the term *financial reporting* for purposes of compliance by insured depository institutions (IDIs) with Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA) (Section 36 of the Federal Deposit Insurance Act, 12.U.S.C. 1831m), and its implementing regulation, 12 CFR Part 363. The FDIC indicated that financial reporting, at a minimum, includes financial statements prepared in accordance with generally accepted accounting principles (GAAP) and the schedules equivalent to the basic financial statements that are included in the IDI's appropriate regulatory report (for example, Schedules RC, RI, and RI-A in the Consolidated Reports of Condition and Income [Call Report]). Accordingly, to comply with FDICIA and Part 363, management of the IDI (or a parent holding company)¹ and the auditor should identify and test controls over the preparation of GAAP-based financial statements as well as the schedules equivalent to the basic financial statements that are included in the IDI's (or its holding company's) appropriate regulatory report. Further, both management and the auditor should include in their report on the IDI's (or its holding company's) internal control a specific description indicating that the scope of internal control included controls over the preparation of the IDI's (or its holding company's) GAAP-based financial statements as well as the schedules equivalent to the basic financial statements that are included in the IDI's (or its holding company's) appropriate regulatory report.

2. In accordance with paragraph .107 of this section, the auditor's report should include a definition of internal control (the auditor should use the same description of the entity's internal control as management uses in its report). The following is an illustrative definition paragraph that may be used when an IDI that is a bank (which is not subject to Section 404 of the Sarbanes-Oxley Act of 2002) elects to report on controls for FDICIA purposes at the bank holding company level:

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with accounting principles generally accepted in the United States of America. Because management's assessment and our examination were conducted to meet the reporting requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA), our examination of [*Holding Company's*] internal control over financial reporting included controls over the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America and with the instructions to the Consolidated Financial Statements for Bank

¹ See Financial Institution Letter (FIL) 86-94 for further discussion of reporting at the holding company level for Federal Deposit Insurance Corporation Improvement Act purposes and the application of holding company reporting as it relates to controls over the preparation of "regulatory reports."

Holding Companies (Form FR Y-9C).² An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

² This sentence would be modified if the insured depository institution (IDI) reports at the institution level rather than at the bank holding company level to refer to the Federal Financial Institutions Examination Council Instructions for Consolidated Reports of Condition and Income or the Office of Thrift Supervision Instructions for Thrift Financial Reports instead of to the Form FR Y-9C. This sentence would also be modified if the IDI reports at a holding company level and employs another approach to reporting on controls over the preparation of regulatory reports as permitted by FIL 86-94.

.172

Exhibit D—Illustrative Management Report

1. The following is an illustrative management report containing the reporting elements described in paragraph .95 of this section:

Management's Report on Internal Control Over Financial Reporting

W Company's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with [*applicable financial reporting framework, such as accounting principles generally accepted in the United States of America*]. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with [*applicable financial reporting framework, such as accounting principles generally accepted in the United States of America*], and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Management is responsible for establishing and maintaining effective internal control over financial reporting. Management assessed the effectiveness of W Company's internal control over financial reporting as of December 31, 20XX, based on the framework set forth by the Committee of Sponsoring Organizations of the Treadway Commission in *Internal Control—Integrated Framework*. Based on that assessment, management concluded that, as of December 31, 20XX, W Company's internal control over financial reporting is effective based on the criteria established in *Internal Control—Integrated Framework*.

AT Section 9501

An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements: Attest Engagements Interpretations of Section 501

1. Reporting Under Section 112 of the Federal Deposit Insurance Corporation Improvement Act

.01 Question—For purposes of compliance by insured depository institutions (IDIs) with Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA) (Section 36, Independent Annual Audits of Insured Depository Institutions, of the Federal Deposit Insurance Act [*Banks and Banking, U.S. Code* Title 12, Section 1831m]) and its implementing regulation, Title 12 U.S. Code of Federal Regulations (CFR) Part 363, an IDI that is a subsidiary of a holding company may use the consolidated holding company's financial statements to satisfy the audited financial statements requirement of 12 CFR 363, provided certain criteria are met.¹ For some IDIs, however, an examination of internal control over financial reporting is required at the IDI level. Paragraph .18 of AT section 501, *An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements* (AICPA, *Professional Standards*, vol. 1), requires that an examination of internal control over financial reporting (internal control) be integrated with an audit of financial statements. For IDIs that require an examination of internal control at the IDI level, can the auditor meet the integrated audit requirement when the IDI does not prepare financial statements for external distribution? If so, how can the auditor report on the effectiveness of the IDI's internal control over financial reporting?

.02 Interpretation—To comply with the integrated audit requirement in AT section 501, when the IDI uses the consolidated holding company's financial statements to satisfy the audited financial statements requirement of 12 CFR 363, the auditor would be required to perform procedures necessary to obtain sufficient appropriate audit evidence to enable the auditor to express an opinion on the IDI's financial statements and on its internal control over financial reporting. When the IDI does not prepare financial statements for external distribution, "financial statements" for this purpose may consist of the IDI's financial information in a reporting package or equivalent schedules and analyses that include the IDI information necessary for the preparation of the holding company's consolidated financial statements, including disclosures. The measurement of materiality is determined based on the IDI's financial information rather than the consolidated holding company's financial statements.²

¹ Refer to Section 36 of the Federal Deposit Insurance Act (FDI Act), Section 363.1: Scope and Definitions, for the requirements pertaining to compliance by subsidiaries of holding companies.

² See paragraph .11 of AU section 312, *Audit Risk and Materiality in Conducting an Audit* (AICPA, *Professional Standards*, vol. 1).

If the auditor is unable to apply the procedures necessary to obtain sufficient appropriate audit evidence with respect to the IDI's financial information, the auditor is required by paragraph .117 of AT section 501 to withdraw from the engagement or disclaim an opinion on the effectiveness of the IDI's internal control over financial reporting.

.03 As indicated in exhibit C, "Reporting Under Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA)," of AT section 501, the FDIC indicated that financial reporting, at a minimum, includes financial statements prepared in accordance with generally accepted accounting principles (GAAP) and the schedules equivalent to the basic financial statements that are included in the IDI's appropriate regulatory report (for example, Schedules RC, RI, and RI-A in the Consolidated Reports of Condition and Income [call report]). When the IDI does not prepare financial statements for external distribution, the auditor is, nevertheless, required by paragraph .41 of AT section 501 to evaluate the IDI's period-end financial reporting process. This process includes, among other things, the IDI's procedures for preparing financial information for purposes of the consolidated holding company's financial statements, which are prepared in accordance with GAAP, and the schedules equivalent to the basic financial statements that are included in the IDI's appropriate regulatory report.

.04 The period-end financial reporting process may occur either at the IDI or the holding company, or both. The organizational structure, including where the controls relevant to the IDI's financial information operate, may affect how the auditor evaluates this process. For example,

- a. when the period-end financial reporting process occurs at the holding company and the IDI comprises substantially all of the consolidated total assets, there may be no distinguishable difference between the IDI's and its holding company's process for purposes of the integrated audit. This is because the auditor's risk assessment, including the determination of significant accounts and disclosures and relevant assertions, the selection of controls to test, and the determination of the evidence necessary to conclude on the effectiveness of a given control, would likely be the same for the IDI and the holding company.³ In this circumstance, the period-end financial reporting process of the holding company would be, in effect, the period-end financial reporting process of the IDI and, therefore, would be included in the scope of the integrated audit of the IDI.
- b. when the period-end financial reporting process occurs at the holding company and the IDI does not comprise substantially all of the consolidated total assets, the IDI's financial reporting process may be sufficient for the auditor to meet the requirement in paragraph .41 of AT section 501, if the necessary GAAP information is prepared by the IDI or the holding company, and the process can be evaluated by the auditor. The auditor may determine that the IDI's preparation of the IDI's appropriate regulatory report, together with other financial information at the IDI level that is incorporated into the consolidated holding company's financial statements, is sufficient for this purpose. In this circumstance, both the period-end financial reporting process of the holding company, as it relates to the financial information of the IDI, and the period-end financial reporting process of the IDI, with respect to the preparation

³ See paragraph .23 of AT section 501, *An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements* (AICPA, Professional Standards, vol. 1).

of the schedules equivalent to the basic financial statements that are included in the IDI's appropriate regulatory report, would be included in the scope of the integrated audit of the IDI.

.05 The illustrative reports in exhibit A, "Illustrative Reports," of AT section 501 may be used to report on the effectiveness of the IDI's internal control over financial reporting. Because 12 CFR 363 does not require the auditor to issue a separate auditor's report on the IDI's financial statements, the requirement in paragraph .109 of AT section 501 to add a paragraph to the internal control report that references the financial statement audit will not apply when the auditor does not issue a separate auditor's report on the IDI's financial statements. In accordance with paragraph .107 of AT section 501, the auditor's report on internal control is required to include a definition of *internal control* that uses the same description of internal control as management uses in its report. The following is an illustrative definition paragraph that may be used when an IDI that is not subject to Section 404 of the Sarbanes-Oxley Act of 2002 elects to report on controls for FDICIA purposes at the IDI level, and the IDI uses the consolidated holding company's financial statements to satisfy the audited financial statements requirement of 12 CFR 363:

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with generally accepted accounting principles. Because management's assessment and our examination were conducted to meet the reporting requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA), our examination of [IDI's] internal control over financial reporting included controls over the preparation of financial information for purposes of [consolidated holding company's] financial statements in accordance with accounting principles generally accepted in the United States of America and controls over the preparation of schedules equivalent to basic financial statements in accordance with the Federal Financial Institutions Examination Council Instructions for Consolidated Reports of Condition and Income (call report instructions). An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

.06 Management may evaluate and report on the effectiveness of the IDI's internal control based on the Committee of Sponsoring Organizations of the Treadway Commission's (COSO) report, *Internal Control—Integrated Framework*. Because COSO establishes control objectives relating to the preparation of reliable "published" financial statements, the COSO criteria, as modified for purposes of reporting under Section 112 of FDICIA, is appropriate only for the IDI and its regulatory agencies. Accordingly, the report is required to be restricted as to use.⁴ An example of such a restriction is as follows:

⁴ Paragraph .78 of AT section 101, *Attest Engagements* (AICPA, *Professional Standards*, vol. 1), requires the report to be restricted as to use "when the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who

This report is intended solely for the information and use of management, [*identify the body or individuals charged with governance*], others within the organization, the Federal Deposit Insurance Corporation and [*other federal bank regulatory agency*] and is not intended to be and should not be used by anyone other than these specified parties.

.07 Likewise, the auditor's report and management's assertion refer to the modified COSO criteria. For example, the following may be used to identify the criteria: "criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) as modified for the express purpose of meeting the regulatory requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA)."

[Issue Date: September 2010.]

either participated in their establishment or can be presumed to have an adequate understanding of the criteria." Although reports on internal control issued in accordance with this interpretation are required to be restricted as to use, Section 36 of the FDI Act and Title 12 U.S. *Code of Federal Regulations* Part 363 require that these reports be available for public inspection.

AT Section 601

Compliance Attestation

Source: SSAE No. 10.

Effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001. Earlier application is permitted.

Introduction and Applicability

.01 This section provides guidance for engagements related to either (a) an entity's compliance with requirements of specified laws, regulations, rules, contracts, or grants or (b) the effectiveness of an entity's internal control over compliance with specified requirements.¹ Compliance requirements may be either financial or nonfinancial in nature. An attest engagement conducted in accordance with this section should comply with the general, fieldwork, and reporting standards established in section 50, *SSAE Hierarchy*, and the specific standards set forth in this section. [Revised, November 2006, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 14.]

.02 This section does not—

- a. Affect the auditor's responsibility in an audit of financial statements performed in accordance with generally accepted auditing standards (GAAS).
- b. Apply to situations in which an auditor reports on specified compliance requirements based solely on an audit of financial statements, as addressed in AU section 623, *Special Reports*, paragraphs .19 through .21.
- c. Apply to engagements for which the objective is to report in accordance with AU section 801, *Compliance Audits*, unless the terms of the engagement specify an attest report under this section.
- d. Apply to engagements covered by AU section 634, *Letters for Underwriters and Certain Other Requesting Parties*.
- e. Apply to the report that encompasses internal control over compliance for a broker or dealer in securities as required by rule 17a-5 of the Securities Exchange Act of 1934 (the 1934 Act).²

[Revised, December 2010, to reflect conforming changes necessary due to the issuance of SAS No. 117.]

¹ Throughout this section—

- a. An entity's compliance with requirements of specified laws, regulations, rules, contracts, or grants is referred to as *compliance with specified requirements*.
- b. An entity's internal control over compliance with specified requirements is referred to as its *internal control over compliance*. The internal control addressed in this section may include parts of but is not the same as internal control over financial reporting.

² An example of this report is contained in AICPA Audit and Accounting Guide *Brokers and Dealers in Securities*.

.03 A report issued in accordance with the provisions of this section does not provide a legal determination of an entity's compliance with specified requirements. However, such a report may be useful to legal counsel or others in making such determinations.

Scope of Services

.04 The practitioner may be engaged to perform agreed-upon procedures to assist users in evaluating the following subject matter (or assertions related thereto)—

- a. The entity's compliance with specified requirements
- b. The effectiveness of the entity's internal control over compliance³
- c. Both the entity's compliance with specified requirements and the effectiveness of the entity's internal control over compliance

The practitioner also may be engaged to examine the entity's compliance with specified requirements or a written assertion thereon.

.05 An important consideration in determining the type of engagement to be performed is expectations by users of the practitioner's report. Since the users decide the procedures to be performed in an agreed-upon procedures engagement, it often will be in the best interests of the practitioner and users (including the client) to have an agreed-upon procedures engagement rather than an examination engagement. When deciding whether to accept an examination engagement, the practitioner should consider the risks discussed in paragraphs .31 through .35.

.06 A practitioner may be engaged to examine the effectiveness of the entity's internal control over compliance or an assertion thereon. However, in accordance with section 50, the practitioner cannot accept an engagement unless he or she has reason to believe that the subject matter is capable of reasonably consistent evaluation against criteria that are suitable and available to users.⁴ If a practitioner determines that such criteria do exist for internal control over compliance, he or she should perform the engagement in accordance with

³ An entity's internal control over compliance is the process by which management obtains reasonable assurance of compliance with specified requirements. Although the comprehensive internal control may include a wide variety of objectives and related policies and procedures, only some of these may be relevant to an entity's compliance with specified requirements. (See footnote 1b.) The components of internal control over compliance vary based on the nature of the compliance requirements. For example, internal control over compliance with a capital requirement would generally include accounting procedures, whereas internal control over compliance with a requirement to practice nondiscriminatory hiring may not include accounting procedures.

⁴ Criteria issued by regulatory agencies and other groups composed of experts that follow due-process procedures, including exposure of the proposed criteria for public comment, ordinarily should be considered suitable criteria for this purpose. For example, the Committee of Sponsoring Organizations (COSO) of the Treadway Commission's Report, *Internal Control—Integrated Framework*, provides suitable criteria against which management may evaluate and report on the effectiveness of the entity's internal control. However, more detailed criteria relative to specific compliance requirements may have to be developed and an appropriate threshold for measuring the severity of control deficiencies needs to be developed in order to apply the concepts of the COSO report to internal control over compliance.

Criteria established by a regulatory agency that does not follow such due-process procedures also may be considered suitable criteria for use by the regulatory agency. The practitioner should determine whether such criteria are suitable for general use reporting by evaluating them against the attributes in section 101.24. If the practitioner determines that such criteria are suitable for general use reporting, those criteria should also be available to users as discussed in section 101.33.

If the practitioner concludes that the criteria are appropriate only for a limited number of parties or are available only to specified parties, the practitioner's report shall state that the use of the report is restricted to those parties specified in the report. (See section 101.30, .34, and .78–83.)

section 101, *Attest Engagements*. Additionally, section 501, *An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements*, may be helpful to a practitioner in such an engagement. [Revised, November 2006, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 14.]

.07 A practitioner should not accept an engagement to perform a review, as defined in section 101.55, of an entity's compliance with specified requirements or about the effectiveness of an entity's internal control over compliance or an assertion thereon.

.08 The practitioner may be engaged to provide other types of services in connection with the entity's compliance with specified requirements or the entity's internal control over compliance. For example, management may engage the practitioner to provide recommendations on how to improve the entity's compliance or related internal control. A practitioner engaged to provide such nonattest services should refer to the guidance in CS section 100, *Consulting Services: Definitions and Standards*.

Conditions for Engagement Performance

.09 A practitioner may perform an agreed-upon procedures engagement related to an entity's compliance with specified requirements or the effectiveness of internal control over compliance if the following conditions are met.

- a. The responsible party accepts responsibility for the entity's compliance with specified requirements and the effectiveness of the entity's internal control over compliance.
- b. The responsible party evaluates the entity's compliance with specified requirements or the effectiveness of the entity's internal control over compliance.

See also section 201, *Agreed-Upon Procedures Engagements*.

.10 A practitioner may perform an examination engagement related to an entity's compliance with specified requirements if the following conditions are met.

- a. The responsible party accepts responsibility for the entity's compliance with specified requirements and the effectiveness of the entity's internal control over compliance.
- b. The responsible party evaluates the entity's compliance with specified requirements.
- c. Sufficient evidential matter exists or could be developed to support management's evaluation.

.11 As part of engagement performance, the practitioner should obtain from the responsible party a written assertion about compliance with specified requirements or internal control over compliance. The responsible party may present its written assertion in either of the following:

- a. A separate report that will accompany the practitioner's report
- b. A representation letter to the practitioner

.12 The responsible party's written assertion about compliance with specified requirements or internal control over compliance may take many forms. Throughout this section, for example, the phrase "responsible party's assertion that W Company complied with [*specify compliance requirement*] as of [*date*]," illustrates such an assertion. Other phrases may also be used. However, a practitioner should not accept an assertion that is so subjective (for example, "very effective" internal control over compliance) that people having competence in and using the same or similar criteria would not ordinarily be able to arrive at similar conclusions.

.13 Regardless of whether the practitioner's client is the responsible party, the responsible party's refusal to furnish a written assertion as part of an examination engagement should cause the practitioner to withdraw from the engagement. However, an exception is provided if an examination of an entity's compliance with specified requirements is required by law or regulation. In that instance, the practitioner should disclaim an opinion on compliance unless he or she obtains evidential matter that warrants expressing an adverse opinion. If the practitioner expresses an adverse opinion and the responsible party does not provide an assertion, the practitioner's report should be restricted as to use. (See section 101.78–.81.) If, as part of an agreed-upon procedures engagement, the practitioner's client is the responsible party, a refusal by that party to provide an assertion requires the practitioner to withdraw from the engagement. However, withdrawal is not required if the engagement is required by law or regulation. If, in an agreed-upon procedures engagement, the practitioner's client is not the responsible party, the practitioner is not required to withdraw but should consider the effects of the responsible party's refusal on the engagement and his or her report.

.14 Additionally, at the beginning of the engagement, the practitioner may want to consider discussing with the client and the responsible party the need for the responsible party to provide the practitioner with a written representation letter at the conclusion of the examination engagement or an agreed-upon procedures engagement in which the client is the responsible party. In that letter, the responsible party will be asked to provide, among other possible items, an acknowledgment of their responsibility for establishing and maintaining effective internal control over compliance and their assertion stating their evaluation of the entity's compliance with specified requirements. The responsible party's refusal to furnish these representations (see paragraphs .68 through .70) will constitute a limitation on the scope of the engagement.

Responsible Party

.15 The responsible party is responsible for ensuring that the entity complies with the requirements applicable to its activities. That responsibility encompasses the following.

- a. Identify applicable compliance requirements.
- b. Establish and maintain internal control to provide reasonable assurance that the entity complies with those requirements.
- c. Evaluate and monitor the entity's compliance.
- d. Specify reports that satisfy legal, regulatory, or contractual requirements.

The responsible party's evaluation may include documentation such as accounting or statistical data, entity policy manuals, accounting manuals, narrative memoranda, procedural write-ups, flowcharts, completed questionnaires, or internal auditors' reports. The form and extent of documentation will vary depending on the nature of the compliance requirements and the size and complexity of the entity. The responsible party may engage the practitioner to gather information to assist it in evaluating the entity's compliance. Regardless of the procedures performed by the practitioner, the responsible party must accept responsibility for its assertion and must not base such assertion solely on the practitioner's procedures.

Agreed-Upon Procedures Engagement

.16 The objective of the practitioner's agreed-upon procedures is to present specific findings to assist users in evaluating an entity's compliance with specified requirements or the effectiveness of an entity's internal control over compliance based on procedures agreed upon by the users of the report. A practitioner engaged to perform agreed-upon procedures on an entity's compliance with specified requirements or about the effectiveness of an entity's internal control over compliance should follow the guidance set forth herein and in section 201.

.17 The practitioner's procedures generally may be as limited or as extensive as the specified users desire, as long as the specified users (a) agree upon the procedures performed or to be performed and (b) take responsibility for the sufficiency of the agreed-upon procedures for their purposes. (See section 201.15.)

.18 To satisfy the requirements that the practitioner and the specified users agree upon the procedures performed or to be performed and that the specified users take responsibility for the sufficiency of the agreed-upon procedures for their purposes, ordinarily the practitioner should communicate directly with and obtain affirmative acknowledgment from each of the specified users. For example, this may be accomplished by meeting with the specified users or by distributing a draft of the anticipated report or a copy of an engagement letter to the specified users and obtaining their agreement. If the practitioner is not able to communicate directly with all of the specified users, the practitioner may satisfy these requirements by applying any one or more of the following or similar procedures.

- Compare the procedures to be applied to written requirements of the specified users.
- Discuss the procedures to be applied with appropriate representatives of the specified users involved.
- Review relevant contracts with or correspondence from the specified users.

The practitioner should not report on an engagement when specified users do not agree upon the procedures performed or to be performed and do not take responsibility for the sufficiency of the procedures for their purposes. See section 201.36 for guidance on satisfying these requirements when the practitioner is requested to add other parties as specified parties after the date of completion of the agreed-upon procedures.

.19 In an engagement to perform agreed-upon procedures on an entity's compliance with specified requirements or about the effectiveness of an entity's

internal control over compliance, the practitioner is required to perform only the procedures that have been agreed to by users.⁵ However, prior to performing such procedures, the practitioner should obtain an understanding of the specified compliance requirements, as discussed in paragraph .20. (See section 201.)

.20 To obtain an understanding of the specified compliance requirements, a practitioner should consider the following:

- a. Laws, regulations, rules, contracts, and grants that pertain to the specified compliance requirements, including published requirements
- b. Knowledge about the specified compliance requirements obtained through prior engagements and regulatory reports
- c. Knowledge about the specified compliance requirements obtained through discussions with appropriate individuals within the entity (for example, the chief financial officer, internal auditors, legal counsel, compliance officer, or grant or contract administrators)
- d. Knowledge about the specified compliance requirements obtained through discussions with appropriate individuals outside the entity (for example, a regulator or a third-party specialist)

.21 When circumstances impose restrictions on the scope of an agreed-upon procedures engagement, the practitioner should attempt to obtain agreement from the users for modification of the agreed-upon procedures. When such agreement cannot be obtained (for example, when the agreed-upon procedures are published by a regulatory agency that will not modify the procedures), the practitioner should describe such restrictions in his or her report or withdraw from the engagement.

.22 The practitioner has no obligation to perform procedures beyond the agreed-upon procedures. However, if noncompliance comes to the practitioner's attention by other means, such information ordinarily should be included in his or her report.

.23 The practitioner may become aware of noncompliance that occurs subsequent to the period addressed by the practitioner's report but before the date of the practitioner's report. The practitioner should consider including information regarding such noncompliance in his or her report. However, the practitioner has no responsibility to perform procedures to detect such noncompliance other than obtaining the responsible party's representation about noncompliance in the subsequent period, as described in paragraph .68.

.24 The practitioner's report on agreed-upon procedures on an entity's compliance with specified requirements (or the effectiveness of an entity's internal control over compliance) should be in the form of procedures and findings. The practitioner's report should contain the following elements:

- a. A title that includes the word *independent*
- b. Identification of the specified parties
- c. Identification of the subject matter of the engagement (or management's assertion thereon), including the period or point in time addressed and a reference to the character of the engagement⁶

⁵ AU section 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, does not apply to agreed-upon procedures engagements.

⁶ Generally, management's assertion about compliance with specified requirements will address a *period* of time, whereas an assertion about internal control over compliance will address a *point* in time.

- d. An identification of the responsible party
- e. A statement that the subject matter is the responsibility of the responsible party
- f. A statement that the procedures, which were agreed to by the specified parties identified in the report, were performed to assist the specified parties in evaluating the entity's compliance with specified requirements or the effectiveness of its internal control over compliance
- g. A statement that the agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants
- h. A statement that the sufficiency of the procedures is solely the responsibility of the specified parties and a disclaimer of responsibility for the sufficiency of those procedures
- i. A list of the procedures performed (or reference thereto) and related findings (The practitioner should not provide negative assurance. See section 201.24.)
- j. Where applicable, a description of any agreed-upon materiality limits (See section 201.25.)
- k. A statement that the practitioner was not engaged to and did not conduct an examination of the entity's compliance with specified requirements (or the effectiveness of an entity's internal control over compliance), a disclaimer of opinion thereon, and a statement that if the practitioner had performed additional procedures, other matters might have come to his or her attention that would have been reported
- l. A statement restricting the use of the report to the specified parties
- m. Where applicable, reservations or restrictions concerning procedures or findings as discussed in section 201.33, .35, .39, and .40
- n. Where applicable, a description of the nature of the assistance provided by the specialist as discussed in section 201.19–.21
- o. The manual or printed signature of the practitioner's firm
- p. The date of the report

.25 The following is an illustration of an agreed-upon procedures report on an entity's compliance with specified requirements in which the procedures and findings are enumerated rather than referenced.

Independent Accountant's Report on Applying Agreed-Upon Procedures

We have performed the procedures enumerated below, which were agreed to by [*list specified parties*], solely to assist the specified parties in evaluating [*name of entity*]'s compliance with [*list specified requirements*] during the [*period*] ended [*date*].⁷ Management is responsible for [*name of entity*]'s compliance with those requirements. This agreed-upon procedures engagement

⁷ If the agreed-upon procedures have been published by a third-party user (for example, a regulator in regulatory policies or a lender in a debt agreement), this sentence might begin, "We have performed the procedures included in [*title of publication or other document*] and enumerated below, which were agreed to by [*list specified parties*], solely to assist the specified parties in evaluating"

was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

[Include paragraphs to enumerate procedures and findings.]

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of *[list or refer to specified parties]* and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

.26 Evaluating compliance with certain requirements may require interpretation of the laws, regulations, rules, contracts, or grants that establish those requirements. In such situations, the practitioner should consider whether he or she is provided with the suitable criteria required to evaluate an assertion under the third general attestation standard. If these interpretations are significant, the practitioner may include a paragraph stating the description and the source of interpretations made by the entity's management. An example of such a paragraph, which should precede the procedures and findings paragraph(s), follows.

We have been informed that, under *[name of entity]*'s interpretation of *[identify the compliance requirement]*, *[explain the nature and source of the relevant interpretation]*.

.27 The following is an illustration of an agreed-upon procedures report on the effectiveness of an entity's internal control over compliance in which the procedures and findings are enumerated rather than referenced.

Independent Accountant's Report on Applying Agreed-Upon Procedures

We have performed the procedures enumerated below, which were agreed to by *[list specified parties]*, solely to assist the specified parties in evaluating the effectiveness of *[name of entity]*'s internal control over compliance with *[list specified requirements]* as of *[date]*.⁸ Management is responsible for *[name of entity]*'s internal control over compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

⁸ If the agreed-upon procedures have been published by a third-party user (for example, a regulator in regulatory policies or a lender in a debt agreement), this sentence might begin, "We have performed the procedures included in *[title of publication or other document]* and enumerated below, which were agreed to by *[list specified parties]*, solely to assist the specified parties in evaluating the effectiveness of *[name of entity]*'s internal control over compliance"

[Include paragraphs to enumerate procedures and findings.]

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of *[list or refer to specified parties]* and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

.28 In some agreed-upon procedures engagements, procedures may relate to both compliance with specified requirements and the effectiveness of internal control over compliance. In these engagements, the practitioner may issue one report that addresses both. For example, the first sentence of the introductory paragraph would state the following.

We have performed the procedures enumerated below, which were agreed to by *[list users of report]*, solely to assist the users in evaluating *[name of entity]*'s compliance with *[list specified requirements]* during the *[period]* ended *[date]* and the effectiveness of *[name of entity]*'s internal control over compliance with the aforementioned compliance requirements as of *[date]*.

.29 The date of completion of the agreed-upon procedures should be used as the date of the practitioner's report.

Examination Engagement

.30 The objective of the practitioner's examination procedures applied to an entity's compliance with specified requirements is to express an opinion on an entity's compliance (or assertion related thereto), based on the specified criteria. To express such an opinion, the practitioner accumulates sufficient evidence about the entity's compliance with specified requirements, thereby restricting attestation risk to an appropriately low level.

Attestation Risk

.31 In an engagement to examine compliance with specified requirements, the practitioner seeks to obtain reasonable assurance that the entity complied, in all material respects, based on the specified criteria. This includes designing the examination to detect both intentional and unintentional material non-compliance. Absolute assurance is not attainable because of factors such as the need for judgment, the use of sampling, and the inherent limitations of internal control over compliance and because much of the evidence available to the practitioner is persuasive rather than conclusive in nature. Also, procedures that are effective for detecting noncompliance that is unintentional may be ineffective for detecting noncompliance that is intentional and concealed through collusion between personnel of the entity and a third party or among management or employees of the entity. Therefore, the subsequent discovery that material noncompliance exists does not, in and of itself, evidence inadequate planning, performance, or judgment on the part of the practitioner.

.32 Attestation risk is the risk that the practitioner may unknowingly fail to modify appropriately his or her opinion. It is composed of inherent risk,

control risk, and detection risk. For purposes of a compliance examination, these components are defined as follows:

- a. *Inherent risk*—The risk that material noncompliance with specified requirements could occur, assuming there are no related controls
- b. *Control risk*—The risk that material noncompliance that could occur will not be prevented or detected on a timely basis by the entity's controls
- c. *Detection risk*—The risk that the practitioner's procedures will lead him or her to conclude that material noncompliance does not exist when, in fact, such noncompliance does exist

Inherent Risk

.33 In assessing inherent risk, the practitioner should consider factors affecting risk similar to those an auditor would consider when planning an audit of financial statements. Such factors are discussed in AU section 316, *Consideration of Fraud in a Financial Statement Audit*, paragraph .85 (Appendix). In addition, the practitioner should consider factors relevant to compliance engagements, such as the following:

- The complexity of the specified compliance requirements
- The length of time the entity has been subject to the specified compliance requirements
- Prior experience with the entity's compliance
- The potential impact of noncompliance

[Revised, January 2004, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 99.]

Control Risk

.34 The practitioner should assess control risk as discussed in paragraphs .45 and .46. Assessing control risk contributes to the practitioner's evaluation of the risk that material noncompliance exists. The process of assessing control risk (together with assessing inherent risk) provides evidential matter about the risk that such noncompliance may exist. The practitioner uses this evidential matter as part of the reasonable basis for his or her opinion.

Detection Risk

.35 In determining an acceptable level of detection risk, the practitioner assesses inherent risk and control risk and considers the extent to which he or she seeks to restrict attestation risk. As assessed inherent risk or control risk decreases, the acceptable level of detection risk increases. Accordingly, the practitioner may alter the nature, timing, and extent of compliance tests performed based on the assessments of inherent risk and control risk.

Materiality

.36 In an examination of an entity's compliance with specified requirements, the practitioner's consideration of materiality differs from that of an audit of financial statements in accordance with GAAS. In an examination of an entity's compliance with specified requirements, the practitioner's consideration of materiality is affected by (a) the nature of the compliance requirements, which may or may not be quantifiable in monetary terms, (b) the nature

and frequency of noncompliance identified with appropriate consideration of sampling risk, and (c) qualitative considerations, including the needs and expectations of the report's users.

.37 In a number of situations, the terms of the engagement may provide for a supplemental report of all or certain noncompliance discovered. Such terms should not change the practitioner's judgments about materiality in planning and performing the engagement or in forming an opinion on an entity's compliance with specified requirements or on the responsible party's assertion about such compliance.

Performing an Examination Engagement

.38 The practitioner should exercise (a) due care in planning, performing, and evaluating the results of his or her examination procedures and (b) the proper degree of professional skepticism to achieve reasonable assurance that material noncompliance will be detected.

.39 In an examination of the entity's compliance with specified requirements, the practitioner should—

- a. Obtain an understanding of the specified compliance requirements. (See paragraph .40.)
- b. Plan the engagement. (See paragraphs .41 through .44.)
- c. Consider relevant portions of the entity's internal control over compliance. (See paragraphs .45 through .47.)
- d. Obtain sufficient evidence including testing compliance with specified requirements. (See paragraphs .48 and .49.)
- e. Consider subsequent events. (See paragraphs .50 through .52.)
- f. Form an opinion about whether the entity complied, in all material respects, with specified requirements (or whether the responsible party's assertion about such compliance is fairly stated in all material respects), based on the specified criteria. (See paragraph .53.)

Obtaining an Understanding of the Specified Compliance Requirements

.40 A practitioner should obtain an understanding of the specified compliance requirements. To obtain such an understanding, a practitioner should consider the following:

- a. Laws, regulations, rules, contracts, and grants that pertain to the specified compliance requirements, including published requirements
- b. Knowledge about the specified compliance requirements obtained through prior engagements and regulatory reports
- c. Knowledge about the specified compliance requirements obtained through discussions with appropriate individuals within the entity (for example, the chief financial officer, internal auditors, legal counsel, compliance officer, or grant or contract administrators)
- d. Knowledge about the specified compliance requirements obtained through discussions with appropriate individuals outside the entity (for example, a regulator or third-party specialist)

Planning the Engagement

General Considerations

.41 Planning an engagement to examine an entity's compliance with specified requirements involves developing an overall strategy for the expected conduct and scope of the engagement. The practitioner should consider the planning matters discussed in section 101.42–.47.

Multiple Components

.42 In an engagement to examine an entity's compliance with specified requirements when the entity has operations in several components (for example, locations, branches, subsidiaries, or programs), the practitioner may determine that it is not necessary to test compliance with requirements at every component. In making such a determination and in selecting the components to be tested, the practitioner should consider factors such as the following:

- a. The degree to which the specified compliance requirements apply at the component level
- b. Judgments about materiality
- c. The degree of centralization of records
- d. The effectiveness of the control environment, particularly management's direct control over the exercise of authority delegated to others and its ability to supervise activities at various locations effectively
- e. The nature and extent of operations conducted at the various components
- f. The similarity of operations over compliance for different components

Using the Work of a Specialist

.43 In some compliance engagements, the nature of the specified compliance requirements may require specialized skill or knowledge in a particular field other than accounting or auditing. In such cases, the practitioner may use the work of a specialist and should follow the relevant performance and reporting guidance in AU section 336, *Using the Work of a Specialist*.

Internal Audit Function

.44 Another factor the practitioner should consider when planning the engagement is whether the entity has an internal audit function and the extent to which internal auditors are involved in monitoring compliance with the specified requirements. A practitioner should consider the guidance in AU section 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, when addressing the competence and objectivity of internal auditors, the nature, timing, and extent of work to be performed, and other related matters.

Consideration of Internal Control Over Compliance

.45 The practitioner should obtain an understanding of relevant portions of internal control over compliance sufficient to plan the engagement and to assess control risk for compliance with specified requirements. In planning the

examination, such knowledge should be used to identify types of potential non-compliance, to consider factors that affect the risk of material noncompliance, and to design appropriate tests of compliance.

.46 A practitioner generally obtains an understanding of the design of specific controls by performing the following:

- a. Inquiries of appropriate management, supervisory, and staff personnel
- b. Inspection of the entity's documents
- c. Observation of the entity's activities and operations

The nature and extent of procedures a practitioner performs vary from entity to entity and are influenced by factors such as the following:

- The newness and complexity of the specified requirements
- The practitioner's knowledge of internal control over compliance obtained in previous professional engagements
- The nature of the specified compliance requirements
- An understanding of the industry in which the entity operates
- Judgments about materiality

When seeking to assess control risk below the maximum, the practitioner should perform tests of controls to obtain evidence to support the assessed level of control risk.

.47 During the course of an examination engagement, the practitioner may become aware of significant deficiencies or material weaknesses in the design or operation of internal control over compliance that could adversely affect the entity's ability to comply with specified requirements. A practitioner's responsibility to communicate these deficiencies in an examination of an entity's compliance with specified requirements is similar to the auditor's responsibility described in AU section 325, *Communicating Internal Control Related Matters Identified in an Audit*. If, in a multiple-party arrangement, the practitioner's client is not the responsible party, the practitioner has no responsibility to communicate significant deficiencies or material weaknesses to the responsible party. For example, if the practitioner is engaged by his or her client to examine the compliance of another entity, the practitioner has no obligation to communicate any significant deficiencies or material weaknesses that he or she becomes aware of to the other entity. However, the practitioner is not precluded from making such a communication. [Revised, May 2006, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 112. Revised, January 2010, to reflect conforming changes necessary due to the issuance of SAS No. 115.]

Obtaining Sufficient Evidence

.48 The practitioner should apply procedures to provide reasonable assurance of detecting material noncompliance. Determining these procedures and evaluating the sufficiency of the evidence obtained are matters of professional judgment. When exercising such judgment, practitioners should consider the guidance contained in section 101.51–.54 and AU section 350, *Audit Sampling*.

.49 For engagements involving compliance with regulatory requirements, the practitioner's procedures should include reviewing reports of significant examinations and related communications between regulatory agencies and the entity and, when appropriate, making inquiries of the regulatory agencies, including inquiries about examinations in progress.

Consideration of Subsequent Events

.50 The practitioner's consideration of subsequent events in an examination of an entity's compliance with specified requirements is similar to the auditor's consideration of subsequent events in a financial statement audit, as outlined in AU section 560, *Subsequent Events*. The practitioner should consider information about such events that comes to his or her attention after the end of the period addressed by the practitioner's report and prior to the issuance of his or her report.

.51 Two types of subsequent events require consideration by the responsible party and evaluation by the practitioner. The first consists of events that provide additional information about the entity's compliance during the period addressed by the practitioner's report and may affect the practitioner's report. For the period from the end of the reporting period (or point in time) to the date of the practitioner's report, the practitioner should perform procedures to identify such events that provide additional information about compliance during the reporting period. Such procedures should include but may not be limited to inquiring about and considering the following information:

- Relevant internal auditors' reports issued during the subsequent period
- Other practitioners' reports identifying noncompliance, issued during the subsequent period
- Regulatory agencies' reports on the entity's noncompliance, issued during the subsequent period
- Information about the entity's noncompliance, obtained through other professional engagements for that entity

.52 The second type consists of noncompliance that occurs subsequent to the period being reported on but before the date of the practitioner's report. The practitioner has no responsibility to detect such noncompliance. However, should the practitioner become aware of such noncompliance, it may be of such a nature and significance that disclosure of it is required to keep users from being misled. In such cases, the practitioner should include in his or her report an explanatory paragraph describing the nature of the noncompliance.

Forming an Opinion

.53 In evaluating whether the entity has complied in all material respects (or whether the responsible party's assertion about such compliance is stated fairly in all material respects), the practitioner should consider (a) the nature and frequency of the noncompliance identified and (b) whether such noncompliance is material relative to the nature of the compliance requirements, as discussed in paragraph .36.

Reporting

.54 The practitioner may examine and report directly on an entity's compliance (see paragraphs .55 and .56) or he or she may examine and report on the responsible party's written assertion (see paragraphs .57, .58, and .61), except as described in paragraph .64.

.55 The practitioner's examination report on compliance, which is ordinarily addressed to the entity, should include the following:

- a. A title that includes the word *independent*
- b. Identification of the specified compliance requirements, including the period covered, and of the responsible party⁹
- c. A statement that compliance with the specified requirements is the responsibility of the entity's management
- d. A statement that the practitioner's responsibility is to express an opinion on the entity's compliance with those requirements based on his or her examination
- e. A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the entity's compliance with those requirements and performing such other procedures as the practitioner considered necessary in the circumstances
- f. A statement that the practitioner believes the examination provides a reasonable basis for his or her opinion
- g. A statement that the examination does not provide a legal determination on the entity's compliance
- h. The practitioner's opinion on whether the entity complied, in all material respects, with specified requirements based on the specified criteria¹⁰ (See paragraph .64 for reporting on material noncompliance.)
- i. A statement restricting the use of the report to the specified parties (see the fourth reporting standard)¹¹ under the following circumstances (See also paragraph .13.):
 - When the criteria used to evaluate compliance are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria.
 - When the criteria used to evaluate compliance are available only to the specified parties
- j. The manual or printed signature of the practitioner's firm
- k. The date of the examination report

.56 The following is the form of report a practitioner should use when he or she is expressing an opinion on an entity's compliance with specified requirements during a period of time.

⁹ A practitioner also may be engaged to report on an entity's compliance with specified requirements as of point in time. In this case, the illustrative reports in this section should be adapted as appropriate.

¹⁰ Frequently, criteria will be contained in the compliance requirements, in which case it is not necessary to repeat the criteria in the practitioner's report; however, if the criteria are not included in the compliance requirement, the practitioner's report should identify the criteria. For example, if a compliance requirement is to "maintain \$25,000 in capital," it would not be necessary to identify the \$25,000 in the report; however, if the requirement is to "maintain adequate capital," the practitioner should identify the criteria used to define *adequate*.

¹¹ In certain situations, however, criteria that have been specified by management and other report users may be suitable for general use.

Independent Accountant's Report

[Introductory paragraph]

We have examined [name of entity]'s compliance with [list specified compliance requirements] during the [period] ended [date]. Management is responsible for [name of entity]'s compliance with those requirements. Our responsibility is to express an opinion on [name of entity]'s compliance based on our examination.

[Scope paragraph]

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about [name of entity]'s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on [name of entity]'s compliance with specified requirements.

[Opinion paragraph]

In our opinion, [name of entity] complied, in all material respects, with the aforementioned requirements for the year ended December 31, 20XX.¹²

[Signature]

[Date]

.57 The practitioner's examination report on an entity's assertion about compliance with specified requirements, which is ordinarily addressed to the entity, should include the following:

- a. A title that includes the word *independent*
- b. Identification of the responsible party's assertion about the entity's compliance with specified requirements, including the period covered by the responsible party's assertion, and of the responsible party (When the responsible party's assertion does not accompany the practitioner's report, the first paragraph of the report should also contain a statement of the responsible party's assertion.)¹³
- c. A statement that compliance with the requirements is the responsibility of the entity's management
- d. A statement that the practitioner's responsibility is to express an opinion on the responsible party's assertion on the entity's compliance with those requirements based on his or her examination
- e. A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the entity's compliance with those requirements and performing such other procedures as the practitioner considered necessary in the circumstances

¹² If it is necessary to identify criteria (see footnote 10), the criteria should be identified in the opinion paragraph (for example, "... in all material respects, based on the criteria set forth in Attachment 1").

¹³ A practitioner also may be engaged to report on the responsible party's assertion about an entity's compliance with specified requirements as of a point in time. In this case, the illustrative reports in this section should be adapted as appropriate.

- f. A statement that the practitioner believes the examination provides a reasonable basis for his or her opinion
- g. A statement that the examination does not provide a legal determination on the entity's compliance
- h. The practitioner's opinion on whether the responsible party's assertion about compliance with specified requirements is fairly stated in all material respects based on the specified criteria¹⁴ (See paragraph .64 for reporting on material noncompliance.)
- i. A statement restricting the use of the report to the specified parties (see the fourth reporting standard)^{15, 16} under the following circumstances:
 - When the criteria used to evaluate compliance are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria
 - When the criteria used to evaluate compliance are available only to the specified parties
- j. The manual or printed signature of the practitioner's firm
- k. The date of the examination report

.58 The following is the form of report that a practitioner should use when expressing an opinion on management's assertion about compliance with specified requirements.

Independent Accountant's Report

[Introductory paragraph]

We have examined management's assertion, included in the accompanying [*title of management report*], that [*name of entity*] complied with [*list specified compliance requirements*] during the [*period*] ended [*date*].^{17, 18} Management is responsible for [*name of entity*]'s compliance with those requirements. Our responsibility is to express an opinion on management's assertion about [*name of entity*]'s compliance based on our examination.

[Standard scope paragraph]

[Opinion paragraph]

¹⁴ Frequently, criteria will be contained in the compliance requirements, in which case it is not necessary to repeat the criteria in the practitioner's report; however, if the criteria are not included in the compliance requirement, the practitioner's report should identify the criteria. For example, if a compliance requirement is to "maintain \$25,000 in capital," it would not be necessary to identify the \$25,000 in the report; however, if the requirement is to "maintain adequate capital," the practitioner should identify the criteria used to define *adequate*.

¹⁵ Although a practitioner's report may be appropriate for general use, the practitioner is not precluded from restricting the use of the report.

¹⁶ In certain situations, however, criteria that have been specified by management and other report users may be suitable for general use.

¹⁷ The practitioner should identify the management report examined by reference to the report title used by management in its report. Further, he or she should use the same description of compliance requirements as management uses in its report.

¹⁸ If management's assertion is stated in the practitioner's report and does not accompany the practitioner's report, the phrase "included in the accompanying [*title of management report*]" would be omitted.

In our opinion, management's assertion that [*name of entity*] complied with the aforementioned requirements during the [*period*] ended [*date*] is fairly stated, in all material respects.¹⁹

[*Signature*]

[*Date*]

.59 Evaluating compliance with certain requirements may require interpretation of the laws, regulations, rules, contracts, or grants that establish those requirements. In such situations, the practitioner should consider whether he or she is provided with the suitable criteria required to evaluate compliance under the third general attestation standard. If these interpretations are significant, the practitioner may include a paragraph stating the description and the source of interpretations made by the entity's management. The following is an example of such a paragraph, which should directly follow the scope paragraph:

We have been informed that, under [*name of entity*]'s interpretation of [*identify the compliance requirement*], [*explain the source and nature of the relevant interpretation*].

.60 The date of completion of the examination procedures should be used as the date of the practitioner's report.

.61 Nothing precludes the practitioner from examining an assertion but opining directly on compliance.

.62 Section 101.78–.83 provide guidance on restricting the use of an attest report. Nothing in this section precludes the practitioner from restricting the use of the report. For example, if the practitioner is asked by a client to examine another entity's compliance with certain regulations, he or she may want to restrict the use of the report to the client since the practitioner has no control over how the report may be used by the other entity.

Report Modifications

.63 The practitioner should modify the standard report described in paragraphs .55 and .57, if any of the following conditions exist.

- There is material noncompliance with specified requirements (paragraphs .64 through .67).
- There is a restriction on the scope of the engagement.²⁰
- The practitioner decides to refer to the report of another practitioner as the basis, in part, for the practitioner's report.²¹

Material Noncompliance

.64 When an examination of an entity's compliance with specified requirements discloses noncompliance with the applicable requirements that the practitioner believes have a material effect on the entity's compliance, the practitioner should modify the report and, to most effectively communicate with the reader of the report, should state his or her opinion on the entity's specified compliance requirements, not on the responsible party's assertion.

¹⁹ If it is necessary to identify criteria (see footnote 10), the criteria should be identified in the opinion paragraph (for example, "...in all material respects, based on the criteria set forth in Attachment 1").

²⁰ The practitioner should refer to section 101.73 and .74 for guidance on scope restrictions.

²¹ The practitioner should refer to section 501.122–.125 for guidance on an opinion based in part on the report of another practitioner and adapt such guidance to the standard reports in this section.

.65 The following is the form of report, modified with explanatory language, that a practitioner should use when he or she has concluded that a qualified opinion is appropriate under the circumstances. It has been assumed that the practitioner has determined that the specified compliance requirements are both suitable for general use and available to users as discussed in section 101.23–.33, and, therefore, that a restricted use paragraph is not required.

Independent Accountant's Report

[Introductory paragraph]

We have examined *[name of entity]*'s compliance with *[list specified compliance requirements]* for the *[period]* ended *[date]*. Management is responsible for compliance with those requirements. Our responsibility is to express an opinion on *[name of entity]*'s compliance based on our examination.

[Standard scope paragraph]

[Explanatory paragraph]

Our examination disclosed the following material noncompliance with *[type of compliance requirement]* applicable to *[name of entity]* during the *[period]* ended *[date]*. *[Describe noncompliance.]*

[Opinion paragraph]

In our opinion, except for the material noncompliance described in the third paragraph, *[name of entity]* complied, in all material respects, with the aforementioned requirements for the *[period]* ended *[date]*.

[Signature]

[Date]

.66 The following is the form of report, modified with explanatory language, that a practitioner should use when he or she concludes that an adverse opinion is appropriate in the circumstances. The practitioner has determined that the specified compliance requirements are both suitable for general use and available to users as discussed in section 101.23–.33.

Independent Accountant's Report

[Introductory paragraph]

We have examined *[name of entity]*'s compliance with *[list specified compliance requirements]* for the *[period]* ended *[date]*. Management is responsible for compliance with those requirements. Our responsibility is to express an opinion on *[name of entity]*'s compliance based on our examination.

[Standard scope paragraph]

[Explanatory paragraph]

Our examination disclosed the following material noncompliance with *[type of compliance requirement]* applicable to *[name of entity]* during the *[period]* ended *[date]*. *[Describe noncompliance.]*

[Opinion paragraph]

In our opinion, because of the effect of the noncompliance described in the third paragraph, *[name of entity]* has not complied with the aforementioned requirements for the *[period]* ended *[date]*.

[Signature]

[Date]

.67 If the practitioner's report on his or her examination of the entity's compliance with specified requirements is included in a document that also includes his or her audit report on the entity's financial statements, the following sentence should be included in the paragraph of an examination report that describes material noncompliance.

These conditions were considered in determining the nature, timing, and extent of audit tests applied in our audit of the 20XX financial statements, and this report does not affect our report dated [date of report] on those financial statements.

The practitioner also may include the preceding sentence when the two reports are not included within the same document.

Representation Letter

.68 In an examination engagement or an agreed-upon procedures engagement, the practitioner should obtain written representations from the responsible party—²²

- a. Acknowledging the responsible party's responsibility for complying with the specified requirements.
- b. Acknowledging the responsible party's responsibility for establishing and maintaining effective internal control over compliance.
- c. Stating that the responsible party has performed an evaluation of (1) the entity's compliance with specified requirements or (2) the entity's controls for ensuring compliance and detecting noncompliance with requirements, as applicable.
- d. Stating the responsible party's assertion about the entity's compliance with the specified requirements or about the effectiveness of internal control over compliance, as applicable, based on the stated or established criteria.
- e. Stating that the responsible party has disclosed to the practitioner all known noncompliance.
- f. State that the responsible party has made available all documentation related to compliance with the specified requirements.
- g. Stating the responsible party's interpretation of any compliance requirements that have varying interpretations.
- h. State that the responsible party has disclosed any communications from regulatory agencies, internal auditors, and other practitioners concerning possible noncompliance with the specified requirements, including communications received between the end of the period addressed in the written assertion and the date of the practitioner's report.
- i. Stating that the responsible party has disclosed any known noncompliance occurring subsequent to the period for which, or date as of which, the responsible party selects to make its assertion.

²² AU section 333, *Management Representations*, paragraph .09, provides guidance on the date as of which the representation letter should be signed and who should sign it.

.69 The responsible party's refusal to furnish all appropriate written representations in an examination engagement constitutes a limitation on the scope of the engagement sufficient to preclude an unqualified opinion and is ordinarily sufficient to cause the practitioner to disclaim an opinion or withdraw from the engagement. However, based on the nature of the representations not obtained or the circumstances of the refusal, the practitioner may conclude in an examination engagement that a qualified opinion is appropriate. When the practitioner is performing agreed-upon procedures and the practitioner's client is the responsible party, the responsible party's refusal to furnish all appropriate written representations constitutes a limitation on the scope of the engagement sufficient to cause the practitioner to withdraw. When the practitioner's client is not the responsible party, the practitioner is not required to withdraw but should consider the effects of the responsible party's refusal on his or her report. Further, the practitioner should consider the effects of the responsible party's refusal on his or her ability to rely on other representations of the responsible party.

.70 When the practitioner's client is not the responsible party, the practitioner may also want to obtain written representations from the client. For example, when a practitioner's client has entered into a contract with a third party (responsible party) and the practitioner is engaged to examine the responsible party's compliance with that contract, the practitioner may want to obtain written representations from his or her client as to their knowledge of any noncompliance.

Other Information in a Client-Prepared Document Containing Management's Assertion About the Entity's Compliance With Specified Requirements or the Effectiveness of the Internal Control Over Compliance

.71 An entity may publish various documents that contain information (referred to as *other information*) in addition to the practitioner's attest report on either (a) the entity's compliance with specified requirements or (b) the effectiveness of the entity's internal control over compliance or written assertion thereon. Section 101.91–.94 provide guidance to the practitioner if the other information is contained in either of the following:

- a. Annual reports to holders of securities or beneficial interests, annual reports of organizations for charitable or philanthropic purposes distributed to the public, and annual reports filed with regulatory authorities under the 1934 Act
- b. Other documents to which the practitioner, at the client's request, devotes attention

Effective Date

.72 This section is effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001. Early application is permitted.

AT Section 701

Management's Discussion and Analysis

Source: SSAE No. 10.

Effective when management's discussion and analysis is for a period ending on or after June 1, 2001. Earlier application is permitted.

General

.01 This section sets forth attestation standards and provides guidance to a practitioner concerning the performance of an attest engagement¹ with respect to management's discussion and analysis (MD&A) prepared pursuant to the rules and regulations adopted by the Securities and Exchange Commission (SEC), which are presented in annual reports to shareholders and in other documents.²

Applicability

.02 This section is applicable to the following levels of service when a practitioner is engaged by (a) a public³ entity that prepares MD&A in accordance with the rules and regulations adopted by the SEC (see paragraph .04) or (b) a nonpublic entity that prepares an MD&A presentation and whose management provides a written assertion that the presentation has been prepared using the rules and regulations adopted by the SEC:⁴

- An examination of an MD&A presentation
- A review of an MD&A presentation for an annual period, an interim period, or a combined annual and interim period⁵

¹ Section 101, *Attest Engagements*, paragraph .01, defines an attest engagement as one in which a practitioner "is engaged to issue or does issue an examination, a review, or an agreed-upon procedures report on subject matter, or an assertion about the subject matter (hereafter referred to as the *assertion*), that is the responsibility of another party."

² Because this section provides guidance specific to attest engagements concerning MD&A presentations, a practitioner should not perform a compliance attestation engagement under section 601, *Compliance Attestation*, with respect to an MD&A presentation.

³ For purposes of this section, a public entity is any entity (a) whose securities trade in a public market either on a stock exchange (domestic or foreign) or in the over-the-counter (OTC) market, including securities quoted only locally or regionally, (b) that makes a filing with a regulatory agency in preparation for the sale of any class of its securities in a public market, or (c) a subsidiary, corporate joint venture, or other entity controlled by an entity covered by (a) or (b).

⁴ Such assertion may be made by any of the following:

- (a) Including a statement in the body of the MD&A presentation that it has been prepared using the rules and regulations adopted by the SEC.
- (b) Providing a separate written assertion to accompany the MD&A presentation.
- (c) Providing a written assertion in a representation letter to the practitioner.

⁵ As discussed in paragraph .85*k*, a review report is not intended to be filed with the SEC as a report under the Securities Act of 1933 (the 1933 Act) or the Securities Exchange Act of 1934 (the 1934 Act) and, accordingly, the review report should contain a statement of restrictions on the use of the report to specified parties if the entity is (a) a public entity or (b) a nonpublic entity that is making or has made an offering of securities and it appears that the securities may subsequently be registered or subject to a filing with the SEC or other regulatory agency.

A practitioner⁶ engaged to examine or review MD&A and report thereon should comply with the general, fieldwork, and reporting standards established in section 50, *SSAE Hierarchy*, and the specific standards set forth in this section. A practitioner engaged to perform agreed-upon procedures on MD&A should follow the guidance set forth in section 201, *Agreed-Upon Procedures Engagements*.⁷ [Revised, November 2006, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 14.]

.03 This section does not—

- a. Change the auditor's responsibility in an audit of financial statements performed in accordance with generally accepted auditing standards (GAAS).
- b. Apply to situations in which the practitioner is requested to provide management with recommendations to improve the MD&A rather than to provide assurance. A practitioner engaged to provide such nonattest services should refer to CS section 100, *Consulting Services: Definitions and Standards*.
- c. Apply to situations in which the practitioner is engaged to provide attest services with respect to an MD&A presentation that is prepared based on criteria other than the rules and regulations adopted by the SEC. A practitioner engaged to perform an examination or a review based upon such criteria should refer to the guidance in section 101, or to section 201 if engaged to perform an agreed-upon procedures engagement.⁸

.04 The requirements for MD&A have changed periodically since the first requirement was adopted by the SEC in 1974. As of the date of issuance of this SSAE, the rules and regulations for MD&A adopted by the SEC are found in Item 303 of Regulation S-K, as interpreted by Financial Reporting Release (FRR) No. 36, *Management's Discussion and Analysis of Financial Condition and Results of Operations; Certain Investment Company Disclosures* (Chapter 5 of the "Codification of Financial Reporting Policies"); Item 303 of Regulation S-B for small business issuers; and Item 9 of Form 20-F for Foreign Private Issuers.⁹ Item 303 of Regulation S-K, as interpreted by FRR No. 36, Item 303 of Regulation S-B for small business issuers, and Item 9 of Form 20-F for Foreign Private Issuers, provide the relevant rules and regulations adopted by

⁶ In this section, the terms *practitioner* or *accountant* generally refer to a person engaged to perform an attest service on MD&A. The term *accountant* may also refer to a person engaged to review financial statements. The term *auditor* refers to a person engaged to audit financial statements. As this section includes certain requirements for the practitioner to have audited or performed a Statement on Auditing Standards (SAS) No. 71 review of financial statements (AU section 722, *Interim Financial Information*), the terms *auditor*, *practitioner*, or *accountant* may refer, in this section, to the same person.

⁷ Practitioners should follow guidance in AU section 634, *Letters for Underwriters and Certain Other Requesting Parties*, when requested to perform agreed-upon procedures on MD&A and report thereon in a letter for an underwriter.

⁸ The guidance in this section may be helpful when performing an engagement to provide attest services with respect to an MD&A presentation that is based on criteria other than the rules and regulations adopted by the SEC. Such other criteria would have to be suitable and available as discussed in section 101.23–33.

⁹ The SEC staff from time to time issues guidance related to the SEC's adopted requirements; for example, Staff Accounting Bulletins (SABs), Staff Legal Bulletins, and speeches. Although such guidance may provide additional information with respect to the adopted requirements for MD&A, the practitioner should not be expected to attest to assertions on compliance with such guidance. The practitioner may find it helpful to also familiarize himself or herself with material contained on the SEC's website www.sec.gov that provides further information with respect to the SEC's views concerning MD&A disclosures.

the SEC that meet the definition of suitable criteria in section 101.23–.32. The practitioner should consider whether the SEC has adopted additional rules and regulations with respect to MD&A subsequent to the issuance of this section.

Conditions for Engagement Performance

Examination

.05 The practitioner's objective in an engagement to examine MD&A is to express an opinion on the MD&A presentation taken as a whole by reporting whether—

- a. The presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC.¹⁰
- b. The historical financial amounts have been accurately derived, in all material respects, from the entity's financial statements.¹¹
- c. The underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein.¹²

.06 A practitioner may accept an engagement to examine MD&A of a public or nonpublic entity, provided the practitioner audits, in accordance with GAAS,¹³ the financial statements for at least the latest period to which the MD&A presentation relates and the financial statements for the other periods covered by the MD&A presentation have been audited by the practitioner or a predecessor auditor. A base knowledge of the entity and its operations gained through an audit of the historical financial statements and knowledge about the industry and the environment is necessary to provide the practitioner with sufficient knowledge to properly evaluate the results of the procedures performed in connection with the examination.

.07 If a predecessor auditor has audited the financial statements for a prior period covered by the MD&A presentation, the practitioner (the successor auditor) should also consider whether, under the particular circumstances, he or she can acquire sufficient knowledge of the business and of the entity's accounting and financial reporting practices for such period so that he or she would be able to—

- a. Identify types of potential material misstatements in MD&A and consider the likelihood of their occurrence.

¹⁰ The required elements as of the date of issuance of this SSAE include a discussion of the entity's financial condition, changes in financial condition, and results of operations, including a discussion of liquidity and capital resources.

¹¹ Whether historical financial amounts are accurately derived from the financial statements includes both amounts that are derived from the face of the financial statements (which includes the notes to the financial statements) and financial statement schedules and those that are derived from underlying records supporting elements, accounts, or items included in the financial statements.

¹² Whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein requires consideration of management's interpretation of the disclosure criteria for MD&A, management's determinations as to the relevancy of information to be included, and estimates and assumptions made by management that affect reported information.

¹³ Restrictions on the scope of the audit of the financial statements will not necessarily preclude the practitioner from accepting an engagement to examine MD&A. Note that the SEC will generally not accept an auditor's report that is modified for a scope limitation. The practitioner should consider the nature and magnitude of the scope limitation and the form of the auditor's report in assessing whether an examination of MD&A could be performed.

- b. Perform the procedures that will provide the practitioner with a basis for expressing an opinion as to whether the MD&A presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC.
- c. Perform the procedures that will provide the practitioner with a basis for expressing an opinion on the MD&A presentation with respect to whether the historical financial amounts have been accurately derived, in all material respects, from the entity's financial statements for such period.
- d. Perform the procedures that will provide the practitioner with a basis for expressing an opinion as to whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein.

Refer to paragraphs .99 through .101 for guidance regarding the review of the predecessor auditor's working papers.

Review

.08 The objective of a review of MD&A is to report whether any information came to the practitioner's attention to cause him or her to believe that—

- a. The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC.
- b. The historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements.
- c. The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein.

A review consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. A review ordinarily does not contemplate (a) tests of accounting records through inspection, observation, or confirmation, (b) obtaining corroborating evidential matter in response to inquiries, or (c) the application of certain other procedures ordinarily performed during an examination of MD&A. A review may bring to the practitioner's attention significant matters affecting the MD&A, but it does not provide assurance that the practitioner will become aware of all significant matters that would be disclosed in an examination.

.09 A practitioner may accept an engagement to review the MD&A presentation of a public entity for an annual period provided the practitioner has audited, in accordance with GAAS, the financial statements for at least the latest annual period to which the MD&A presentation relates and the financial statements for the other periods covered by the MD&A presentation have been audited by the practitioner or a predecessor auditor.¹⁴ A base knowledge of the entity and its operations gained through an audit of the historical financial

¹⁴ As discussed in paragraph .85*k*, a review report is not intended to be filed with the SEC as a report under the 1933 Act or the 1934 Act and, accordingly, the review report should contain a statement of restrictions on the use of the report to specified parties if the entity is (a) a public entity or (b) a nonpublic entity that is making or has made an offering of securities and it appears that the securities may subsequently be registered or subject to a filing with the SEC or other regulatory agency.

statements and knowledge about the industry and the environment is necessary to provide the practitioner with sufficient knowledge to properly evaluate the results of the procedures performed in connection with the review.

.10 If a predecessor auditor has audited the financial statements for a prior period covered by the MD&A presentation, the practitioner should also consider whether, under the particular circumstances, he or she can acquire sufficient knowledge of the business and of the entity's accounting and financial reporting practices for such period so he or she would be able to—

- a. Identify types of potential material misstatements in the MD&A and consider the likelihood of their occurrence.
- b. Perform the procedures that will provide the practitioner with a basis for reporting whether any information has come to the practitioner's attention to cause him or her to believe any of the following.
 - (1) The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC.
 - (2) The historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements for such period.
 - (3) The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein.

.11 A practitioner may accept an engagement to review the MD&A presentation of a public entity for an interim period provided that both of the following conditions are met.

- a. The practitioner performs either (1) a review of the historical financial statements for the related comparative interim periods and issues a review report thereon in accordance with AU section 722, *Interim Financial Information*, or (2) an audit of the interim financial statements.
- b. The MD&A presentation for the most recent fiscal year has been or will be examined or reviewed by either the practitioner or a predecessor auditor.

.12 If a predecessor auditor examined or reviewed the MD&A presentation of a public entity for the most recent fiscal year, the practitioner should not accept an engagement to review the MD&A presentation for an interim period unless he or she can acquire sufficient knowledge of the business and of the entity's accounting and financial reporting practices for the interim period to perform the procedures described in paragraph .10.

.13 If a nonpublic entity chooses to prepare MD&A, the practitioner should not accept an engagement to perform a review of such MD&A for an annual period under this section unless both of the following conditions are met.

- a. The annual financial statements for the periods covered by the MD&A presentation have been or will be audited and the practitioner has audited or will audit the most recent year (refer to paragraph .07 if the financial statements for prior years were audited by a predecessor auditor).

- b. Management will provide a written assertion that the presentation has been prepared using the rules and regulations adopted by the SEC as the criteria. (See paragraph .02.)

.14 A practitioner may accept an engagement to review the MD&A presentation of a nonpublic entity for an interim period provided that all of the following conditions are met.

- a. The practitioner performs one of the following:
 - (1) A review of the historical financial statements for the related interim periods under the Statements on Standards for Accounting and Review Services (SSARSs) and issues a review report thereon
 - (2) A review of the condensed interim financial information for the related interim periods under AU section 722 and issues a review report thereon, and such interim financial information is accompanied by complete annual financial statements for the most recent fiscal year that have been audited
 - (3) An audit of the interim financial statements
- b. The MD&A presentation for the most recent fiscal year has been or will be examined or reviewed.
- c. Management will provide a written assertion stating that the presentation has been prepared using the rules and regulations adopted by the SEC as the criteria. (See paragraph .02.)

Engagement Acceptance Considerations

.15 In determining whether to accept an engagement, the practitioner should consider whether management (and others engaged by management to assist them, such as legal counsel) has the appropriate knowledge of the rules and regulations adopted by the SEC to prepare MD&A.

Responsibilities of Management

.16 Management is responsible for the preparation of the entity's MD&A pursuant to the rules and regulations adopted by the SEC. The preparation of MD&A in conformity with the rules and regulations adopted by the SEC requires management to interpret the criteria, accurately derive the historical amounts from the entity's books and records, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information.

.17 An entity should not name the practitioner in a client-prepared document as having examined or reviewed MD&A unless the MD&A presentation and related practitioner's report and the related financial statements and auditor's (or accountant's review) report are included in the document (or, in the case of a public entity, incorporated by reference to such information filed with a regulatory agency). If such a statement is made in a document that does not include (or incorporate by reference) such information, the practitioner should request that neither his or her name nor reference to the practitioner be made with respect to the MD&A information, or that such document be revised to include the required presentations and reports. If the client does not

comply, the practitioner should advise the client that he or she does not consent to either the use of his or her name or the reference to the practitioner, and he or she should consider what other actions might be appropriate.¹⁵

Obtaining an Understanding of the SEC Rules and Regulations and Management's Methodology for the Preparation of MD&A

.18 The practitioner should obtain an understanding of the rules and regulations adopted by the SEC for MD&A. (Refer to paragraph .04.)

.19 The practitioner should inquire of management regarding the method of preparing MD&A, including matters such as the sources of the information, how the information is gathered, how management evaluates the types of factors having a material effect on financial condition (including liquidity and capital resources), results of operations, and cash flows, and whether there have been any changes in the procedures from the prior year.

Timing of Procedures

.20 Proper planning by the practitioner contributes to the effectiveness of the attest procedures in an examination or a review of MD&A. Performing some of the work in conjunction with the audit of the historical financial statements or the review of interim financial statements may permit the work to be carried out in a more efficient manner and to be completed at an earlier date. When performing an examination or a review of MD&A, the practitioner may consider the results of tests of controls, analytical procedures,¹⁶ and substantive tests performed in a financial statement audit or analytical procedures and inquiries made in a review of financial statements or interim financial information.

Materiality

.21 The practitioner should consider the concept of materiality in planning and performing the engagement. The objective of an examination or a review is to report on the MD&A presentation taken as a whole and not on the individual amounts and disclosures contained therein. In the context of an MD&A presentation, the concept of materiality encompasses both material omissions (for example, the omission of trends, events, and uncertainties that are currently known to management that are reasonably likely to have material effects on the entity's financial condition, results of operations, liquidity, or capital resources) and material misstatements in MD&A, both of which are referred to herein as a misstatement. Assessing the significance of a misstatement of some items in MD&A may be more dependent upon qualitative than

¹⁵ In considering what other actions, if any, may be appropriate in these circumstances, the practitioner may wish to consult his or her legal counsel.

¹⁶ AU section 329, *Analytical Procedures*, defines analytical procedures as "evaluations of financial information made by a study of plausible relationships among both financial and nonfinancial data. Analytical procedures range from simple comparisons to the use of complex models involving many relationships and elements of data." In applying analytical procedures to MD&A, the practitioner develops expectations of matters that would be discussed in MD&A by identifying and using plausible relationships that are reasonably expected to exist based on the practitioner's understanding of the client and of the industry in which the client operates, and the knowledge of relationships among the various financial elements gained through the audit of financial statements or review of interim financial information. Refer to AU section 329 for further discussion of analytical procedures.

quantitative considerations. Qualitative aspects of materiality relate to the relevance and reliability of the information presented (for example, qualitative aspects of materiality are considered in assessing whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures in the MD&A). Furthermore, quantitative information is often more meaningful when accompanied by qualitative disclosures. For example, quantitative information about market risk-sensitive instruments is more meaningful when accompanied by qualitative information about an entity's market risk exposures and how those exposures are managed. Materiality is also a concept that is judged in light of the expected range of reasonableness of the information; therefore, users should not expect prospective information (information about events that have not yet occurred) to be as precise as historical information.

.22 In expressing an opinion, or providing the limited assurance of a review engagement, on the presentation, the practitioner should consider the omission or misstatement of an individual assertion (see paragraph .34) to be material if the magnitude of the omission or misstatement—individually or when aggregated with other omissions or misstatements—is such that a reasonable person using the MD&A presentation would be influenced by the inclusion or correction of the individual assertion. The relative rather than absolute size of an omission or misstatement may determine whether it is material in a given situation.

Inclusion of Pro Forma Financial Information

.23 Management may include pro forma financial information with respect to a business combination or other transactions in MD&A. The practitioner should consider the guidance in section 401, *Reporting on Pro Forma Financial Information*, paragraph .10, when performing procedures with respect to such information, even if management indicates in MD&A that certain information has been derived from unaudited financial statements. For example, in an examination of MD&A, the practitioner's procedures would ordinarily include obtaining an understanding of the underlying transaction or event, discussing with management their assumptions, obtaining sufficient evidence in support of the adjustments, and other procedures for the purpose of expressing an opinion on the MD&A presentation taken as a whole and not for expressing an opinion on (or providing the limited assurance of a review of) the pro forma financial information included therein under section 401.

Inclusion of External Information

.24 An entity may also include in its MD&A information external to the entity, such as the rating of its debt by certain rating agencies or comparisons with statistics from a trade association. Such external information should also be subjected to the practitioner's examination or review procedures. For example, in an examination, the practitioner might compare information concerning the statistics of a trade organization to a published source; however, the practitioner would not be expected to test the underlying support for the trade association's calculation of such statistics.

Inclusion of Forward-Looking Information

.25 An entity may include certain forward-looking disclosures in the MD&A presentation, including cautionary language concerning the achievability of the matters disclosed. Although any forward-looking disclosures that are

included in the MD&A presentation should be subjected to the practitioner's examination or review, such information is subjected to testing only for the purpose of expressing an opinion that the underlying information, determinations, estimates, and assumptions provide a reasonable basis for the disclosures contained therein or providing the limited assurance of a review on the MD&A presentation taken as a whole. The practitioner may consider the guidance in section 301, *Financial Forecasts and Projections*, when performing procedures with respect to forward-looking information. The practitioner may also consider whether meaningful cautionary language has been included with the forward-looking information.

.26 Section 27A of the Securities Act of 1933 (the 1933 Act) and Section 21E of the Securities Exchange Act of 1934 (the 1934 Act) provide a safe harbor from liability in private litigation with respect to forward-looking statements that include or make reference to meaningful cautionary language. However, such sections also include exclusions from safe harbor protection in certain situations. Whether an entity's forward-looking statements and the practitioner's report thereon qualify for safe harbor protection is a legal matter.

Inclusion of Voluntary Information

.27 An entity may voluntarily include other information in the MD&A presentation that is not required by the rules and regulations adopted by the SEC for MD&A. When the entity includes in MD&A additional information required by other rules and regulations of the SEC (for example, Item 305 of Regulation S-K, *Quantitative and Qualitative Disclosures About Market Risk*), the practitioner should also consider such other rules and regulations in subjecting such information to his or her examination or review procedures.¹⁷

Examination Engagement

.28 To express an opinion about whether (a) the presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC, (b) the historical financial amounts have been accurately derived, in all material respects, from the entity's financial statements, and (c) the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein, the practitioner seeks to obtain reasonable assurance by accumulating sufficient evidence in support of the disclosures and assumptions, thereby restricting attestation risk to an appropriately low level.

Attestation Risk

.29 In an engagement to examine MD&A, the practitioner plans and performs the examination to obtain reasonable assurance of detecting both intentional and unintentional misstatements that are material to the MD&A presentation taken as a whole. Absolute assurance is not attainable because of factors such as the need for judgment regarding the areas to be tested and the nature, timing, and extent of tests to be performed; the concept of selective testing of the data; and the inherent limitations of the controls applicable to the preparation of MD&A. The practitioner exercises professional judgment in

¹⁷ To the extent that the voluntary information includes forward-looking information, refer to paragraphs .25 and .26.

assessing the significant determinations made by management as to the relevancy of information to be included, and the estimates and assumptions that affect reported information. As a result of these factors, in the great majority of cases, the practitioner has to rely on evidence that is persuasive rather than convincing. Also, procedures may be ineffective for detecting an intentional misstatement that is concealed through collusion among client personnel and third parties or among management or employees of the client. Therefore, the subsequent discovery that a material misstatement exists in the MD&A does not, in and of itself, evidence (a) failure to obtain reasonable assurance; (b) inadequate planning, performance, or judgment on the part of the practitioner; (c) the absence of due professional care; or (d) a failure to comply with this section.

.30 Factors to be considered by the practitioner in planning an examination of MD&A include (a) the anticipated level of attestation risk related to assertions embodied in the MD&A presentation, (b) preliminary judgments about materiality for attest purposes, (c) the items within the MD&A presentation that are likely to require revision or adjustment, and (d) conditions that may require extension or modification of attest procedures. For purposes of an engagement to examine MD&A, the components of attestation risk are defined as follows.

- a. *Inherent risk* is the susceptibility of an assertion within MD&A to a material misstatement, assuming that there are no related controls. (See paragraphs .34 through .38.)
- b. *Control risk* is the risk that a material misstatement that could occur in an assertion within MD&A will not be prevented or detected on a timely basis by the entity's controls; some control risk will always exist because of the inherent limitations of any internal control.
- c. *Detection risk* is the risk that the practitioner will not detect a material misstatement that exists in an assertion within MD&A.

Inherent Risk

.31 The level of inherent risk varies with the nature of the assertion. For example, the inherent risk concerning financial information included in the MD&A presentation may be low, whereas the inherent risk concerning the completeness of the disclosure of the entity's risks or liquidity may be high.

Control Risk

.32 The practitioner should assess control risk as discussed in paragraphs .53 through .57. Assessing control risk contributes to the practitioner's evaluation of the risk that material misstatement in the MD&A exists. In the process of assessing control risk (together with assessing inherent risk), the practitioner may obtain evidential matter about the risk that such misstatement may exist. The practitioner uses this evidential matter as part of the reasonable basis for his or her opinion on the MD&A presentation taken as a whole.

Detection Risk

.33 In determining an acceptable level of detection risk, the practitioner assesses inherent risk and control risk, and considers the extent to which he or she seeks to restrict attestation risk. As assessed inherent risk or control risk decreases, the acceptable level of detection risk increases. Accordingly, the practitioner may alter the nature, timing, and extent of tests performed based on the assessments of inherent risk and control risk.

Nature of Assertions

.34 Assertions are representations by management that are embodied in the MD&A presentation. They can be either explicit or implicit and can be classified according to the following broad categories:

- a. Occurrence
- b. Consistency with the financial statements
- c. Completeness
- d. Presentation and disclosure

.35 Assertions about occurrence address whether reported transactions or events have occurred during a given period. Assertions about consistency with the financial statements address whether—

- a. Reported transactions, events, and explanations are consistent with the financial statements.
- b. Historical financial amounts have been accurately derived from the financial statements and related records.
- c. Nonfinancial data have been accurately derived from related records.

.36 Assertions about completeness address whether descriptions of transactions and events necessary to obtain an understanding of the entity's financial condition (including liquidity and capital resources), changes in financial condition, results of operations, and material commitments for capital resources are included in MD&A; and whether known events, transactions, conditions, trends, demands, commitments, or uncertainties that will result in or are reasonably likely to result in material changes to these items are appropriately described in the MD&A presentation.

.37 For example, if management asserts that the reason for an increase in revenues is a price increase in the current year, they are explicitly asserting that both an increase in revenues and a price increase have occurred in the current year, and implicitly asserting that any historical financial amounts included are consistent with the financial statements for such period. They are also implicitly asserting that the explanation for the increase in revenues is complete; that there are no other significant reasons for the increase in revenues.

.38 Assertions about presentation and disclosure address whether information included in the MD&A presentation is properly classified, described, and disclosed. For example, management asserts that any forward-looking information included in MD&A is properly classified as being based on management's present assessment and includes an appropriate description of the expected results. To further disclose the nature of such information, management may also include a statement that actual results in the future may differ materially from management's present assessment. (See paragraphs .25 and .26.)

.39 The auditor of the underlying financial statements is responsible for obtaining and evaluating evidential matter concerning the assertions embodied in the account balance or transaction class of the financial statements as discussed in AU section 326, *Audit Evidence*. Although procedures designed to achieve the practitioner's objective of forming an opinion on the MD&A presentation taken as a whole may test certain assertions embodied in the underlying financial statements, the practitioner is not expected to test the underlying financial statement assertions in an examination of MD&A. For

example, the practitioner is not expected to test the completeness of revenues or the existence of inventory when testing the assertions in MD&A concerning an increase in revenues or an increase in inventory levels; assurance related to completeness of revenues or for existence of inventory would be obtained as part of the audit. The practitioner is, however, responsible for testing the completeness of the explanation for the increase in revenues or the increase in inventory levels.

Performing an Examination Engagement

.40 The practitioner should exercise (a) due professional care in planning, performing, and evaluating the results of his or her examination procedures and (b) the proper degree of professional skepticism to obtain reasonable assurance that material misstatements will be detected.

.41 In an examination of MD&A, the practitioner should perform the following.

- a. Obtain an understanding of the rules and regulations adopted by the SEC for MD&A and management's method of preparing MD&A. (See paragraphs .18 and .19.)
- b. Plan the engagement. (See paragraphs .42 through .48.)
- c. Consider relevant portions of the entity's internal control applicable to the preparation of MD&A. (See paragraphs .49 through .58.)
- d. Obtain sufficient evidence, including testing completeness. (See paragraphs .59 through .64.)
- e. Consider the effect of events subsequent to the balance-sheet date. (See paragraphs .65 and .66.)
- f. Obtain written representations from management concerning its responsibility for MD&A, completeness of minutes, events subsequent to the balance-sheet date, and other matters about which the practitioner believes written representations are appropriate. (See paragraphs .110 through .112.)
- g. Form an opinion about whether the MD&A presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC, whether the historical financial amounts included therein have been accurately derived, in all material respects, from the entity's financial statements, and whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained in the MD&A. (See paragraph .67.)

Planning the Engagement

General Considerations

.42 Planning an engagement to examine MD&A involves developing an overall strategy for the expected scope and performance of the engagement. When developing an overall strategy for the engagement, the practitioner should consider factors such as the following:

- Matters affecting the industry in which the entity operates, such as financial reporting practices, economic conditions, laws and regulations, and technological changes
- Knowledge of the entity's internal control applicable to the preparation of MD&A obtained during the audit of the financial statements and the extent of recent changes, if any
- Matters relating to the entity's business, including its organization, operating characteristics, capital structure, and distribution methods
- The types of relevant information that management reports to external analysts (for example, press releases and presentations to lenders and rating agencies, if any, concerning past and future performance)
- How the entity analyzes actual performance compared to budgets and the types of information provided in documents submitted to the board of directors for purposes of the entity's day-to-day operations and long-range planning
- The extent of management's knowledge of and experience with the rules and regulations adopted by the SEC for MD&A
- If the entity is a nonpublic entity, the intended use of the MD&A presentation
- Preliminary judgments about (a) materiality, (b) inherent risk at the individual assertion level, and (c) factors (for example, matters identified during the audit or review of the historical financial statements) relating to significant deficiencies in internal control applicable to the preparation of MD&A (See paragraph .58.)
- The fraud risk factors or other conditions identified during the audit of the most recent annual financial statements and the practitioner's response to such risk factors
- The type and extent of evidential matter supporting management's assertions and disclosures in the MD&A presentation
- The nature of complex or subjective matters potentially material to the MD&A presentation that may require special skill or knowledge and whether such matters may require using the work of a specialist to obtain sufficient evidential matter (See paragraph .47.)
- The presence of an internal audit function (See paragraph .48.)

.43 In planning an engagement when MD&A has not previously been examined, the practitioner should consider the degree to which the entity has information available for such prior periods and the continuity of the entity's personnel and their ability to respond to inquiries with respect to such periods. In addition, the practitioner should obtain an understanding of the entity's internal control in prior years applicable to the preparation of MD&A.

Consideration of Audit Results

.44 The practitioner should also consider the results of the audits of the financial statements for the periods covered by the MD&A presentation on the examination engagement, such as matters relating to the following:

- The availability and condition of the entity's records
- The nature and magnitude of audit adjustments

- Likely misstatements¹⁸ that were not corrected in the financial statements that may affect MD&A disclosures (for example, misclassifications between financial statement line items)

.45 The practitioner should also consider the possible impact on the scope of the examination engagement of any modification or contemplated modification of the auditor's report, including matters addressed in explanatory language. For example, if the auditor has modified the auditor's report to include a going-concern uncertainty explanatory paragraph, the practitioner would consider such a matter in assessing attestation risk.

Multiple Components

.46 In an engagement to examine MD&A, if the entity has operations in several components (for example, locations, branches, subsidiaries, or programs), the practitioner should determine the components to which procedures should be applied. In making such a determination and in selecting the components to be tested, the practitioner should consider factors such as the following:

- The relative importance of each component to the applicable MD&A disclosure
- The degree of centralization of records
- The effectiveness of controls, particularly those that affect management's direct control over the exercise of authority delegated to others and its ability to supervise activities at various locations effectively
- The nature and extent of operations conducted at the various components
- The similarity of operations and internal control for different components

The practitioner should consider whether the audit base of the components is consistent with the components that are disclosed in MD&A. Accordingly, it may be desirable for the practitioner to coordinate the audit work with the components that will be disclosed.

Using the Work of a Specialist

.47 In some engagements to examine MD&A, the nature of complex or subjective matters potentially material to the MD&A presentation may require specialized skill or knowledge in a particular field other than accounting or auditing. For example, the entity may include information concerning plant production capacity, which would ordinarily be determined by an engineer. In such cases, the practitioner may use the work of a specialist and should consider the relevant guidance in AU section 336, *Using the Work of a Specialist*. AU section 311, *Planning and Supervision*, provides relevant guidance for situations in which a specialist employed by the practitioner's firm participates in the examination.

Internal Audit Function

.48 Another factor the practitioner should consider when planning the engagement is whether the entity has an internal audit function and the extent to which internal auditors are involved in directly testing the MD&A presentation, in monitoring the entity's internal control applicable to the preparation

¹⁸ Refer to AU section 312, *Audit Risk and Materiality in Conducting an Audit*, paragraphs .34 through .40.

of MD&A, or in testing the underlying records supporting disclosures in the MD&A. A practitioner should consider the guidance in AU section 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, when addressing the competence and objectivity of internal auditors; the nature, timing, and extent of work to be performed; and other related matters.

Consideration of Internal Control Applicable to the Preparation of MD&A

.49 The practitioner should obtain an understanding of the entity's internal control applicable to the preparation of MD&A sufficient to plan the engagement and to assess control risk. Generally, controls that are relevant to an examination pertain to the entity's objective of preparing MD&A in conformity with the rules and regulations adopted by the SEC, and may include controls within the control environment, risk assessment, control activities, information and communication, and monitoring components.

.50 The controls relating to operations and compliance objectives may be relevant to an examination if they pertain to data the practitioner evaluates or uses in applying examination procedures. For example, controls over the gathering of information, which are different from financial statement controls, and controls relating to nonfinancial data that are included in the MD&A presentation, may be relevant to an examination engagement.

.51 In planning the examination, knowledge of such controls should be used to identify types of potential misstatement (including types of potential material omissions), to consider factors that affect the risk of material misstatement and to design appropriate tests.

.52 A practitioner generally obtains an understanding of the design of the entity's internal control applicable to the preparation of MD&A by making inquiries of appropriate management, supervisory, and staff personnel; by inspection of the entity's documents; and by observation of the entity's relevant activities, including controls over matters discussed, nonfinancial data included, and management evaluation of the reasonableness of information included. The nature and extent of procedures a practitioner performs vary from entity to entity and are influenced by factors such as the entity's complexity, the length of time that the entity has prepared MD&A pursuant to the rules and regulations adopted by the SEC, the practitioner's knowledge of the entity's controls obtained in audits and previous professional engagements, and judgments about materiality.

.53 After obtaining an understanding of the entity's internal control applicable to the preparation of MD&A, the practitioner assesses control risk for the assertions embodied in the MD&A presentation. (Refer to paragraphs .34 through .39.) The practitioner may assess control risk at the maximum level (the greatest probability that a material misstatement that could occur in an assertion will not be prevented or detected on a timely basis by an entity's controls) because the practitioner believes controls are unlikely to pertain to an assertion, are unlikely to be effective, or because evaluating their effectiveness would be inefficient. Alternatively, the practitioner may obtain evidential matter about the effectiveness of both the design and operation of a control that supports a lower assessed level of control risk. Such evidential matter may

be obtained from tests of controls planned and performed concurrently with obtaining the understanding of the internal control or from procedures performed to obtain the understanding that were not specifically planned as tests of controls.

.54 After obtaining the understanding and assessing control risk, the practitioner may desire to seek a further reduction in the assessed level of control risk for certain assertions. In such cases, the practitioner considers whether evidential matter sufficient to support a further reduction is likely to be available and whether performing additional tests of controls to obtain such evidential matter would be efficient.

.55 When seeking to assess control risk below the maximum for controls over financial and nonfinancial data, the practitioner should perform tests of controls to obtain evidence to support the assessed level of control risk. For example, the practitioner may perform tests of controls directed toward the effectiveness of the design or operation of internal control over the accumulation of the number of units sold for a manufacturing company, average interest rates earned and paid for a financial institution, or average net sales per square foot for a retail entity.

.56 The practitioner uses the knowledge provided by the understanding of internal control applicable to the preparation of MD&A and the assessed level of control risk in determining the nature, timing, and extent of substantive tests for the MD&A assertions.

.57 The practitioner should document the understanding of the internal control components obtained to plan the examination and the assessment of control risk. The form and extent of this documentation is influenced by the size and complexity of the entity, as well as the nature of the entity's controls applicable to the preparation of MD&A.

.58 During the course of an engagement to examine MD&A, the practitioner may become aware of control deficiencies in the design or operation of controls applicable to the preparation of MD&A that could adversely affect the entity's ability to prepare MD&A in accordance with the rules and regulations adopted by the SEC. The practitioner should consider the implications of such control deficiencies on his or her ability to rely on management's explanations and on comparisons to summary accounting records. A practitioner's responsibility to communicate these control deficiencies in an examination of MD&A is similar to the auditor's responsibility described in AU section 325, *Communicating Internal Control Related Matters Identified in an Audit*, and AU section 380, *The Auditor's Communication With Those Charged With Governance*. [Revised, March 2006, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 112. Revised, January 2010, to reflect conforming changes necessary due to the issuance of SAS No. 115.]

Obtaining Sufficient Evidence

.59 The practitioner should apply procedures to obtain reasonable assurance of detecting material misstatements. In an audit of historical financial statements, the practitioner will have applied audit procedures to some of the information included in the MD&A. However, because the objective of those audit procedures is to have a reasonable basis for expressing an opinion on the financial statements taken as a whole rather than on the MD&A, certain additional examination procedures should be performed as discussed in paragraphs .60 through .64. Determining these procedures and evaluating the sufficiency of the evidence obtained are matters of professional judgment.

- .60** The practitioner ordinarily should apply the following procedures.
- a. Read the MD&A and compare the content for consistency with the audited financial statements; compare financial amounts to the audited financial statements or related accounting records and analyses; recompute the increases, decreases, and percentages disclosed.
 - b. Compare nonfinancial amounts to the audited financial statements, if applicable, or to other records. (Refer to paragraphs .62 through .64.)
 - c. Consider whether the explanations in MD&A are consistent with the information obtained during the audit; investigate further those explanations that cannot be substantiated by information in the audit working papers through inquiry (including inquiry of officers and other executives having responsibility for operational areas) and inspection of client records.
 - d. Examine internally generated documents (for example, variance analyses, sales analyses, wage cost analyses, sales or service pricing sheets, and business plans or programs) and externally generated documents (for example, correspondence, contracts, or loan agreements) in support of the existence, occurrence, or expected occurrence of events, transactions, conditions, trends, demands, commitments, and uncertainties disclosed in the MD&A.
 - e. Obtain available prospective financial information (for example, budgets; sales forecasts; forecasts of labor, overhead, and materials costs; capital expenditure requests; and financial forecasts and projections) and compare such information to forward-looking MD&A disclosures. Inquire of management as to the procedures used to prepare the prospective financial information. Evaluate whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the MD&A disclosures of events, transactions, conditions, trends, demands, commitments, or uncertainties.¹⁹
 - f. Consider obtaining available prospective financial information relating to prior periods and comparing actual results with forecasted and projected amounts.
 - g. Make inquiries of officers and other executives having responsibility for operational areas (such as sales, marketing, and production) and financial and accounting matters, as to their plans and expectations for the future that could affect the entity's liquidity and capital resources.
 - h. Consider obtaining external information concerning industry trends, inflation, and changing prices and comparing the related MD&A disclosures to such information.
 - i. Compare the information in MD&A with the rules and regulations adopted by the SEC and consider whether the presentation includes the required elements of such rules and regulations.

¹⁹ Refer to paragraph .26 for a discussion concerning the safe harbor rules for forward-looking statements.

- j.* Read the minutes of meetings to date of the board of directors and other significant committees to identify matters that may affect MD&A; consider whether such matters are appropriately addressed in MD&A.
- k.* Inquire of officers as to the entity's prior experience with the SEC and the extent of comments received upon review of documents by the SEC; read correspondence between the entity and the SEC with respect to such review, if any.
- l.* Obtain public communications (for example, press releases and quarterly reports) and the related supporting documentation dealing with historical and future results; consider whether MD&A is consistent with such communications.
- m.* Consider obtaining other types of publicly available information (for example, analyst reports and news articles); compare the MD&A presentation with such information.

Testing Completeness

.61 The practitioner should design procedures to test the presentation for completeness, including tests of the completeness of explanations that relate to historical disclosures as discussed in paragraphs .36 and .37. The practitioner should also consider whether the MD&A discloses matters that could significantly impact future financial condition and results of operations of the entity by considering information that he or she obtained through the following:

- a.* Audit of the financial statements
- b.* Inquiries of the entity's officers and other executives directed to current events, conditions, economic changes, commitments and uncertainties, within both the entity and its industry
- c.* Other information obtained through procedures such as those listed in paragraphs .60, .65, and .66

As discussed in paragraph .31, the inherent risk concerning the completeness of disclosures may be high; if it is, the practitioner may extend the procedures (for example, by making additional inquiries of management or by examining additional internally generated documents).

Nonfinancial Data

.62 Management may include nonfinancial data (such as units produced; the number of units sold, locations, or customers; plant utilization; or square footage) in the MD&A. The practitioner should consider whether the definitions used by management for such nonfinancial data are reasonable for the particular disclosure in the MD&A and whether there are suitable criteria (for example, industry standards with respect to square footage for retail operations), as discussed in section 101.23–.32.

.63 In some situations, the nonfinancial data or the controls over the nonfinancial data may have been tested by the practitioner in conjunction with the financial statement audit; however, the practitioner's consideration of the nature of the procedures to apply to nonfinancial data in an examination of MD&A is based on the concept of materiality with respect to the MD&A presentation. The practitioner should consider whether industry standards

exist for the nonfinancial data or whether there are different methods of measurement that may be used, and, if such methods could result in significantly different results, whether the method of measurement selected by management is reasonable and consistent between periods covered by the MD&A presentation. For example, the number of customers reported by management could vary depending on whether management defines a customer as a subsidiary or "ship to" location of a company rather than the company itself.

.64 In testing nonfinancial data included in the MD&A, the practitioner may seek to assess control risk below the maximum for controls over such nonfinancial data, as discussed in paragraph .55. The practitioner weighs the increase in effort of the examination associated with the additional tests of controls that is necessary to obtain evidential matter against the resulting decrease in examination effort associated with the reduced substantive tests. For those nonfinancial assertions for which the practitioner performs additional tests of controls, the practitioner determines the assessed level of control risk that the results of those tests will support. This assessed level of control risk is used in determining the appropriate detection risk to accept for those nonfinancial assertions and, accordingly, in determining the nature, timing, and extent of substantive tests for such assertions.

Consideration of the Effect of Events Subsequent to the Balance-Sheet Date

.65 As there is an expectation by the SEC that MD&A considers events through a date at or near the filing date,²⁰ the practitioner should consider information about events²¹ that comes to his or her attention after the end of the period addressed by MD&A and prior to the issuance of his or her report that may have a material effect on the entity's financial condition (including liquidity and capital resources), changes in financial condition, results of operations, and material commitments for capital resources. Events or matters that should be disclosed in MD&A include those that—²²

- Are reasonably expected to have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations.
- Are reasonably likely to result in the entity's liquidity increasing or decreasing in any material way.
- Will have a material effect on the entity's capital resources.
- Would cause reported financial information not to be necessarily indicative of future operating results or of future financial condition.

The practitioner should consider whether events identified during the examination of the MD&A presentation or the audit of the related financial statements require adjustment to or disclosure in the MD&A presentation. When MD&A will be included or incorporated by reference in a 1933 Act document that is filed with the SEC, the practitioner's procedures should extend up to the

²⁰ A registration statement under the 1933 Act speaks as of its effective date.

²¹ Such events are only referred to as *subsequent events* in relation to an MD&A presentation if they occur after the MD&A presentation has been issued. The annual MD&A presentation ordinarily would not be updated for subsequent events if an MD&A presentation for a subsequent interim period has been issued or the event has been reported through a filing on Form 8-K.

²² The practitioner should refer to the rules and regulations adopted by the SEC for other examples of events that should be disclosed.

filing date or as close to it as is reasonable and practicable in the circumstances.²³ If a public entity's MD&A presentation is to be included only in a filing under the 1934 Act (for example, Forms 10-K or 10-KSB), the practitioner's responsibility to consider subsequent events does not extend beyond the date of the report on MD&A. Paragraphs .94 through .98 provide guidance when the practitioner is engaged subsequent to the filing of the MD&A presentation.

.66 In an examination of MD&A, the practitioner's fieldwork ordinarily extends beyond the date of the auditor's report on the related financial statements.²⁴ Accordingly, the practitioner generally should—

- a. Read available minutes of meetings of stockholders, the board of directors, and other appropriate committees; as to meetings for which minutes are not available, inquire about matters dealt with at such meetings.
- b. Read the latest available interim financial statements for periods subsequent to the date of the auditor's report, compare them with the financial statements for the periods covered by the MD&A, and inquire of and discuss with officers and other executives having responsibility for operational, financial, and accounting matters (limited where appropriate to major locations) matters such as the following:
 - Whether interim financial statements have been prepared on the same basis as the audited financial statements
 - Whether there were any significant changes in the entity's operations, liquidity, or capital resources in the subsequent period
 - The current status of items in the financial statements for which the MD&A has been prepared that were accounted for on the basis of tentative, preliminary, or inconclusive data
 - Whether any unusual adjustments were made during the period from the balance-sheet date to the date of inquiry
- c. Make inquiries of members of senior management as to the current status of matters concerning litigation, claims, and assessments identified during the audit of the financial statements and of any new matters or unfavorable developments. Consider obtaining updated legal letters from legal counsel.²⁵
- d. Consider whether there have been any changes in economic conditions or in the industry that could have a significant effect on the entity.

²³ Additionally, if the practitioner's report on MD&A is included or incorporated by reference in a 1933 Act document, the practitioner should extend his or her procedures with respect to subsequent events from the date of his or her report on MD&A up to the effective date or as close thereto as is reasonable and practicable in the circumstances.

²⁴ Undertaking an engagement to examine MD&A does not extend the auditor's responsibility to update the subsequent events review procedures for the financial statements beyond the date of the auditor's report. However, see AU section 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*. Also, see AU section 711, *Filings Under Federal Securities Statutes*, as to an auditor's responsibility when his or her report is included in a registration statement filed under the 1933 Act.

²⁵ See AU section 337, *Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments*, for guidance concerning obtaining legal letters.

- e. Obtain written representations from appropriate officials as to whether any events occurred subsequent to the latest balance-sheet date that would require disclosure in the MD&A. (See paragraphs .110 through .112.)
- f. Make such additional inquiries or perform such other procedures as considered necessary and appropriate to address questions that arise in carrying out the foregoing procedures, inquiries, and discussions.

Forming an Opinion

.67 The practitioner should consider the concept of materiality discussed in paragraphs .21 and .22, and the impact of any modification of the auditor's report on the historical financial statements in forming an opinion on the examination of MD&A, including the practitioner's ability to evaluate the results of inquiries and other procedures.

Reporting

.68 In order for the practitioner to issue a report on an examination of MD&A, the financial statements for the periods covered by the MD&A presentation and the related auditor's report(s) should accompany the MD&A presentation (or, with respect to a public entity, be incorporated in the document containing the MD&A by reference to information filed with a regulatory agency). In addition, if the entity is a nonpublic entity, one of the following conditions should be met.

- a. A statement should be included in the body of the MD&A presentation that it has been prepared using the rules and regulations adopted by the SEC.
- b. A separate written assertion should accompany the MD&A presentation or such assertion should be included in a representation letter obtained from the entity.

.69 The practitioner's report on an examination of MD&A should include the following:

- a. A title that includes the word *independent*
- b. An identification of the MD&A presentation, including the period covered
- c. A statement that management is responsible for the preparation of the MD&A pursuant to the rules and regulations adopted by the SEC, and a statement that the practitioner's responsibility is to express an opinion on the presentation based on his or her examination
- d. A reference to the auditor's report on the related financial statements, and if the report was other than a standard report, the substantive reasons therefor
- e. A statement that the examination was conducted in accordance with attestation standards established by the AICPA and a description of the scope of an examination of MD&A
- f. A statement that the practitioner believes the examination provides a reasonable basis for his or her opinion

- g.* A paragraph stating that—
- (1) The preparation of MD&A requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information
 - (2) Actual results in the future may differ materially from management's present assessment of information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties
- h.* If the entity is a nonpublic entity, a statement that, although the entity is not subject to the rules and regulations of the SEC, the MD&A presentation is intended to be a presentation in accordance with the rules and regulations adopted by the SEC
- i.* The practitioner's opinion on whether—
- (1) The presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC
 - (2) The historical financial amounts have been accurately derived, in all material respects, from the entity's financial statements
 - (3) The underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein
- j.* The manual or printed signature of the practitioner's firm
- k.* The date of the examination report

Appendix A [paragraph .114], "Examination Reports," includes a standard examination report. (See Example 1.)

Dating

.70 The practitioner's report on the examination of MD&A should be dated as of the completion of the practitioner's examination procedures. That date should not precede the date of the auditor's report on the latest historical financial statements covered by the MD&A.

Report Modifications

.71 The practitioner should modify the standard report described in paragraph .69, if any of the following conditions exist.

- The presentation excludes a material required element under the rules and regulations adopted by the SEC. (See paragraph .72.)
- The historical financial amounts have not been accurately derived, in all material respects, from the entity's financial statements. (See paragraph .72.)
- The underlying information, determinations, estimates, and assumptions used by management do not provide the entity with a reasonable basis for the disclosure in the MD&A. (See paragraph .72.)
- There is a restriction on the scope of the engagement. (See paragraph .73.)

- The practitioner decides to refer to the report of another practitioner as the basis in part for his or her report. (See paragraph .74.)
- The practitioner is engaged to examine the MD&A presentation after it has been filed with the SEC or other regulatory agency. (See paragraphs .94 through .98.)

.72 The practitioner should express a qualified or an adverse opinion if (a) the MD&A presentation excludes a material required element, (b) historical financial amounts have not been accurately derived in all material respects, or (c) the underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures; for example, if there is a lack of consistency between management's method of measuring nonfinancial data between periods covered by the MD&A presentation. The basis for such opinion should be stated in the practitioner's report. Appendix A [paragraph .114] includes several examples of such modifications. (See Example 2.) Also refer to paragraph .107 for required communications with the audit committee.

.73 If the practitioner is unable to perform the procedures he or she considers necessary in the circumstances, the practitioner should modify the report or withdraw from the engagement. If the practitioner modifies the report, he or she should describe the limitation on the scope of the examination in an explanatory paragraph and qualify his or her opinion, or disclaim an opinion. However, limitations on the ability of the practitioner to perform necessary procedures could also arise because of the lack of adequate support for a significant representation in the MD&A. That circumstance may result in a conclusion that the unsupported representation constitutes a material misstatement of fact and, accordingly, the practitioner may qualify his or her opinion or express an adverse opinion, as described in paragraph .72.

Reference to Report of Another Practitioner

.74 If another practitioner examined the MD&A presentation of a component (refer to paragraph .46), the practitioner may decide to make reference to such report of the other practitioner as a basis for his or her opinion on the consolidated MD&A presentation. The practitioner should disclose this fact in the introductory paragraph of the report and should refer to the report of the other practitioner in expressing an opinion on the consolidated MD&A presentation. These references indicate a division of responsibility for performance of the examination. Appendix A [paragraph .114] provides an example of a report for such a situation. (See Example 3.) Refer to paragraph .105 for guidance when the other practitioner does not issue a report.

Emphasis of a Matter

.75 In a number of circumstances, the practitioner may wish to emphasize a matter regarding the MD&A presentation. For example, he or she may wish to emphasize that the entity has included information beyond the required elements of the rules and regulations adopted by the SEC. Such explanatory comments should be presented in a separate paragraph of the practitioner's report.

Review Engagement

.76 The objective of a review engagement, including a review of MD&A for an interim period, is to accumulate sufficient evidence to provide the practitioner with a basis for reporting whether any information came to the

practitioner's attention to cause him or her to believe that (a) the MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC, (b) the historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements, or (c) the underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein. MD&A for an interim period may be a freestanding presentation or it may be combined with the MD&A presentation for the most recent fiscal year. Procedures for conducting a review of MD&A generally are limited to inquiries and analytical procedures, rather than also including search and verification procedures, concerning factors that have a material effect on financial condition, including liquidity and capital resources, results of operations, and cash flows. In a review engagement, the practitioner should—

- a. Obtain an understanding of the rules and regulations adopted by the SEC for MD&A and management's method of preparing MD&A. (See paragraphs .18 and .19.)
- b. Plan the engagement. (See paragraph .77.)
- c. Consider relevant portions of the entity's internal control applicable to the preparation of the MD&A. (See paragraph .78.)
- d. Apply analytical procedures and make inquiries of management and others. (See paragraphs .79 and .80.)
- e. Consider the effect of events subsequent to the balance-sheet date. The practitioner's consideration of such events in a review of MD&A is similar to the practitioner's consideration in an examination. (See paragraphs .65 and .66.)
- f. Obtain written representations from management concerning its responsibility for MD&A, completeness of minutes, events subsequent to the balance-sheet date, and other matters about which the practitioner believes written representations are appropriate. (See paragraph .110.)
- g. Form a conclusion as to whether any information came to the practitioner's attention that causes him or her to believe any of the following.
 - (1) The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC.
 - (2) The historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements.
 - (3) The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein.

Planning the Engagement

.77 Planning an engagement to review MD&A involves developing an overall strategy for the analytical procedures and inquiries to be performed. When developing an overall strategy for the review engagement, the practitioner should consider factors such as the following:

- Matters affecting the industry in which the entity operates, such as financial reporting practices, economic conditions, laws and regulations, and technological changes
- Matters relating to the entity's business, including its organization, operating characteristics, capital structure, and distribution methods
- The types of relevant information that management reports to external analysts (for example, press releases or presentations to lenders and rating agencies concerning past and future performance)
- The extent of management's knowledge of and experience with the rules and regulations adopted by the SEC for MD&A
- If the entity is a nonpublic entity, the intended use of the MD&A presentation
- Matters identified during the audit or review of the historical financial statements relating to MD&A reporting, including knowledge of the entity's internal control applicable to the preparation of MD&A and the extent of recent changes, if any
- Matters identified during prior engagements to examine or review MD&A
- Preliminary judgments about materiality
- The nature of complex or subjective matters potentially material to the MD&A that may require special skill or knowledge
- The presence of an internal audit function and the extent to which internal auditors are involved in directly testing the MD&A presentation or underlying records

Consideration of Internal Control Applicable to the Preparation of MD&A

.78 To perform a review of MD&A, the practitioner needs to have sufficient knowledge of the entity's internal control applicable to the preparation of MD&A to—

- Identify types of potential misstatements in MD&A, including types of material omissions, and consider the likelihood of their occurrence.
- Select the inquiries and analytical procedures that will provide a basis for reporting whether any information causes the practitioner to believe the following.
 - The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC, or the historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements.
 - The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein.

Application of Analytical Procedures and Inquiries

.79 The practitioner ordinarily would not obtain corroborating evidential matter of management's responses to the practitioner's inquiries in performing

a review of MD&A. The practitioner should, however, consider the consistency of management's responses in light of the results of other inquiries and the application of analytical procedures. The practitioner ordinarily should apply the following analytical procedures and inquiries.

- a. Read the MD&A presentation and compare the content for consistency with the audited financial statements (or reviewed interim financial information if MD&A includes interim information); compare financial amounts to the audited or reviewed financial statements or related accounting records and analyses; recompute the increases, decreases, and percentages disclosed.
- b. Compare nonfinancial amounts to the audited (or reviewed) financial statements, if applicable, or to other records. (Refer to paragraph .80.)
- c. Consider whether the explanations in MD&A are consistent with the information obtained during the audit or the review of interim financial information; make further inquiries of officers and other executives having responsibility for operational areas as necessary.
- d. Obtain available prospective financial information (for example, budgets; sales forecasts; forecasts of labor, overhead, and materials costs; capital expenditure requests; and financial forecasts and projections) and compare such information to forward-looking MD&A disclosures. Inquire of management as to the procedures used to prepare the prospective financial information. Consider whether information came to the practitioner's attention that causes him or her to believe that the underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures of trends, demands, commitments, events, or uncertainties.²⁶
- e. Make inquiries of officers and other executives having responsibility for operational areas (such as sales, marketing, and production) and financial and accounting matters, as to any plans and expectations for the future that could affect the entity's liquidity and capital resources.
- f. Compare the information in MD&A with the rules and regulations adopted by the SEC and consider whether the presentation includes the required elements of such rules and regulations.
- g. Read the minutes of meetings to date of the board of directors and other significant committees to identify actions that may affect MD&A; consider whether such matters are appropriately addressed in the MD&A presentation.
- h. Inquire of officers as to the entity's prior experience with the SEC and the extent of comments received upon review of documents by the SEC; read correspondence between the entity and the SEC with respect to such review, if any.
- i. Inquire of management regarding the nature of public communications (for example, press releases and quarterly reports) dealing with historical and future results and consider whether the MD&A presentation is consistent with such communications.

²⁶ Refer to paragraph .26 for a discussion concerning the safe harbor rules for forward-looking statements.

.80 If nonfinancial data are included in the MD&A presentation, the practitioner should inquire as to the nature of the records from which such information was derived and observe the existence of such records, but need not perform other tests of such records beyond analytical procedures and inquiries of individuals responsible for maintaining them. The practitioner should consider whether such nonfinancial data are relevant to users of the MD&A presentation and whether such data are clearly defined in the MD&A presentation. The practitioner should make inquiries regarding whether the definition of the nonfinancial data was consistently applied during the periods reported.

.81 However, if the practitioner becomes aware that the presentation may be incomplete or contain inaccuracies, or is otherwise unsatisfactory, the practitioner should perform the additional procedures he or she deems necessary to achieve the limited assurance contemplated by a review engagement.

Reporting

.82 In order for the practitioner to issue a report on a review of MD&A for an annual period, the financial statements for the periods covered by the MD&A presentation and the related auditor's report(s) should accompany the MD&A presentation (or with respect to a public entity be incorporated in the document containing the MD&A by reference to information filed with a regulatory agency).

.83 If the MD&A presentation relates to an interim period and the entity is a public entity, the financial statements for the interim periods covered by the MD&A presentation and the related accountant's review report(s) should accompany the MD&A presentation, or be incorporated in the document containing the MD&A by reference to information filed with a regulatory agency. The comparative financial statements for the most recent annual period and the related MD&A should accompany the MD&A presentation for the interim period, or be incorporated by reference to information filed with a regulatory agency. Generally, the requirement for inclusion of the annual financial statements and related MD&A is satisfied by a public entity that has met its reporting responsibility for filing its annual financial statements and MD&A in its annual report on Form 10-K.

.84 If the MD&A presentation relates to an interim period and the entity is a nonpublic entity, the following documents should accompany the interim MD&A presentation in order for the practitioner to issue a review report:

- a. The MD&A presentation for the most recent fiscal year and related accountant's examination or review report(s)
- b. The financial statements for the periods covered by the respective MD&A presentations (most recent fiscal year and interim periods and the related auditor's report(s) and accountant's review report(s))

In addition, one of the following conditions should be met.

- A statement should be included in the body of the MD&A presentation that it has been prepared using the rules and regulations adopted by the SEC.
- A separate written assertion should accompany the MD&A presentation or such assertion should be included in a representation letter obtained from the entity.

.85 The practitioner's report on a review of MD&A should include the following:

- a. A title that includes the word *independent*
- b. An identification of the MD&A presentation, including the period covered
- c. A statement that management is responsible for the preparation of the MD&A pursuant to the rules and regulations adopted by the SEC
- d. A reference to the auditor's report on the related financial statements, and, if the report was other than a standard report, the substantive reasons therefor
- e. A statement that the review was conducted in accordance with attestation standards established by the AICPA
- f. A description of the procedures for a review of MD&A
- g. A statement that a review of MD&A is substantially less in scope than an examination, the objective of which is an expression of opinion regarding the MD&A presentation, and accordingly, no such opinion is expressed
- h. A paragraph stating that—
 - (1) The preparation of MD&A requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information
 - (2) Actual results in the future may differ materially from management's present assessment of information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties
- i. If the entity is a nonpublic entity, a statement that although the entity is not subject to the rules and regulations of the SEC, the MD&A presentation is intended to be a presentation in accordance with the rules and regulations adopted by the SEC
- j. A statement about whether any information came to the practitioner's attention that caused him or her to believe that—
 - (1) The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC
 - (2) The historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements
 - (3) The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein
- k. If the entity is a public entity as defined in paragraph .02, or a nonpublic entity that is making or has made an offering of securities and it appears that the securities may subsequently be registered or

subject to a filing with the SEC or other regulatory agency (for example, certain offerings of securities under Rule 144A of the 1933 Act that purport to conform to Regulation S-K), a statement of restrictions on the use of the report to specified parties, because it is not intended to be filed with the SEC as a report under the 1933 Act or the 1934 Act.

- l.* The manual or printed signature of the practitioner's firm
- m.* The date of the review report

Appendix B [paragraph .115], "Review Reports," provides examples of a standard review report for an annual and interim period.

Dating

.86 The practitioner's report on the review of MD&A should be dated as of the completion of the practitioner's review procedures. That date should not precede the date of the accountant's report on the latest historical financial statements covered by the MD&A.

Report Modifications

.87 The practitioner should modify the standard review report described in paragraph .86 if any of the following conditions exist.

- The presentation excludes a material required element of the rules and regulations adopted by the SEC. (See paragraph .89.)
- The historical financial amounts have not been accurately derived, in all material respects, from the entity's financial statements. (See paragraph .89.)
- The underlying information, determinations, estimates, and assumptions used by management do not provide the entity with a reasonable basis for the disclosures in the MD&A. (See paragraph .89.)
- The practitioner decides to refer to the report of another practitioner as the basis, in part, for his or her report. (See paragraph .90.)
- The practitioner is engaged to review the MD&A presentation after it has been filed with the SEC or other regulatory agency. (See paragraphs .94 through .98.)

.88 When the practitioner is unable to perform the inquiry and analytical procedures he or she considers necessary to achieve the limited assurance provided by a review, or the client does not provide the practitioner with a representation letter, the review will be incomplete. A review that is incomplete is not an adequate basis for issuing a review report. If the practitioner is unable to complete a review because of a scope limitation, the practitioner should consider the implications of that limitation with respect to possible misstatements of the MD&A presentation. In those circumstances, the practitioner should also refer to paragraphs .107 through .109 for guidance concerning communications with the audit committee.

.89 If the practitioner becomes aware that the MD&A is materially misstated, the practitioner should modify the review report to describe the nature of the misstatement. Appendix B [paragraph .115] contains an example of such a modification of the accountant's report. (See Example 3.)

.90 If another practitioner reviewed or examined the MD&A for a material component, the practitioner may decide to make reference to such report of the other practitioner in reporting on the consolidated MD&A presentation. Such reference indicates a division of responsibility for performance of the review.

Emphasis of a Matter

.91 In some circumstances, the practitioner may wish to emphasize a matter regarding the MD&A presentation. For example, he or she may wish to emphasize that the entity has included information beyond the required elements of the rules and regulations adopted by the SEC. Such explanatory comments should be presented in a separate paragraph of the practitioner's report.

Combined Examination and Review Report on MD&A

.92 A practitioner may be engaged both to examine an MD&A presentation as of the most recent fiscal year-end and to review a separate MD&A presentation for a subsequent interim period. If the examination and review are completed at the same time, a combined report may be issued. Appendix C [paragraph .116], "Combined Reports," contains an example of a combined report on an examination of an annual MD&A presentation and the review of a separate MD&A presentation for an interim period. (See Example 1.)

.93 If an entity prepares a combined MD&A presentation for annual and interim periods in which there is a discussion of liquidity and capital resources only as of the most recent interim period but not as of the most recent annual period, the practitioner is limited to performing the highest level of service that is provided with respect to the historical financial statements for any of the periods covered by the MD&A presentation. For example, if the annual financial statements have been audited and the interim financial statements have been reviewed, the practitioner may be engaged to perform a review of the combined MD&A presentation. Appendix C [paragraph .116] contains an example of a review report on a combined MD&A presentation for annual and interim periods. (See Example 2.)

When Practitioner Is Engaged Subsequent to the Filing of MD&A

.94 Management's responsibility for updating an MD&A presentation for events occurring subsequent to the issuance of MD&A depends on whether the entity is a public or nonpublic entity. A public entity is required to report significant subsequent events in a Form 8-K or Form 10-Q, or in a registration statement; therefore, a public company would ordinarily not modify its MD&A presentation once it is filed with the SEC (or other regulatory agency).

.95 Therefore, if the practitioner is engaged to examine (or review) an MD&A presentation of a public entity that has already been filed with the SEC (or other regulatory agency), the practitioner should consider whether material subsequent events are appropriately disclosed in a Form 8-K or 10-Q, or a registration statement that includes or incorporates by reference such MD&A presentation. Refer to paragraphs .65 and .66 for guidance concerning consideration of events up to the filing date when the practitioner's report on MD&A will be included (or incorporated by reference) in a 1933 Act document filed with the SEC that will require a consent.

.96 If subsequent events of a public entity are appropriately disclosed in a Form 8-K or 10-Q, or in a registration statement, or if there have been no material subsequent events, the practitioner should add the following paragraph to his or her examination or review report following the opinion or concluding paragraph, respectively.

The accompanying Management's Discussion and Analysis does not consider events that have occurred subsequent to Month XX, 20X6, the date as of which it was filed with the Securities and Exchange Commission.

.97 If there has been a material subsequent event that has not been disclosed in a manner described in paragraph .95 and if the practitioner determines that it is appropriate to issue a report even though the MD&A presentation has not been updated for such material subsequent event (for example, because the filing of the Form 10-Q that will disclose such events has not yet occurred), the practitioner should express a qualified or an adverse opinion (or appropriately modify the review report) on the MD&A presentation. As discussed in paragraph .107, if such material subsequent event is not appropriately disclosed, the practitioner should evaluate (a) whether to resign from the engagement related to the MD&A presentation and (b) whether to remain as the entity's auditor or stand for re-election to audit the entity's financial statements.

.98 Because a nonpublic entity is not subject to the filing requirements of the SEC, an MD&A presentation of a nonpublic entity should be updated for material subsequent events through the date of the practitioner's report.

When a Predecessor Auditor Has Audited Prior Period Financial Statements

.99 If a predecessor auditor has audited the financial statements for a prior period covered by the MD&A, the need by the practitioner reporting on the MD&A for an understanding of the business and the entity's accounting and financial reporting practices for such prior period, as discussed in paragraph .07, is not diminished and the practitioner should apply the appropriate procedures. In applying the appropriate procedures, the practitioner may consider reviewing the predecessor auditor's working papers with respect to audits of financial statements and examinations or reviews of MD&A presentations for such prior periods.

.100 Information that may be obtained from the audit or attest working papers of the predecessor auditor will not provide a sufficient basis in itself for the practitioner to express an opinion with respect to the MD&A disclosures for such prior periods. If the practitioner has audited the current year, the results of such audit may be considered in planning and performing the examination of MD&A and may provide evidential matter that is useful in performing the examination, including with respect to matters disclosed for prior periods. For example, an increase in salaries expense may be the result of an acquisition in the last half of the prior year. Auditing procedures applied to payroll expense in the current year that validate the increase as a result of the acquisition may provide evidential matter with respect to the increase in salaries expense in the prior year attributed to the acquisition.

.101 In addition to the procedures described in paragraphs .49 through .66, the practitioner will need to make inquiries of the predecessor auditor and management as to audit adjustments proposed by the predecessor auditor that were not recorded in the financial statements.

Communications Between Predecessor and Successor Auditors

.102 If the practitioner is appointed as the successor auditor, he or she follows the guidance AU section 315, *Communications Between Predecessor and Successor Auditors*, in considering whether or not to accept the engagement. If, at the time of the appointment as auditor, the practitioner is also being engaged to examine or review MD&A, the practitioner should also make specific inquiries of the predecessor auditor regarding MD&A.

.103 The practitioner's examination may be facilitated by (a) making specific inquiries of the predecessor regarding matters that the successor believes may affect the conduct of the examination (or review), such as areas that required an inordinate amount of time or problems that arose from the condition of the records, and (b) if the predecessor previously examined or reviewed MD&A, reviewing the predecessor's working papers for the predecessor's examination or review engagement.

.104 If, subsequent to his or her engagement to audit the financial statements, the practitioner is requested to examine MD&A, the practitioner should request the client to authorize the predecessor auditor to allow a review of the predecessor's audit working papers related to the financial statement periods included in the MD&A presentation. Although the practitioner may previously have had access to the predecessor auditor's working papers in connection with the successor's audit of the financial statements, ordinarily the predecessor auditor should permit the practitioner to review those audit working papers relating to matters that are disclosed or that would likely be disclosed in MD&A.

Another Auditor Audits a Significant Part of the Financial Statements

.105 When another auditor or auditors audit a significant part of the financial statements, the practitioner²⁷ may request that such other auditor or auditors perform procedures with respect to the MD&A or the practitioner may perform the procedures directly with respect to such component(s).²⁸ Unless the other auditor issues an examination or review report on a separate MD&A presentation of such component(s) (see paragraph .74), the principal practitioner should not make reference to the work of the other practitioner on MD&A in his or her report on MD&A.²⁹ Accordingly, if the practitioner has requested such other auditor to perform procedures, the principal practitioner should perform those procedures that he or she considers necessary to take responsibility for the work of the other auditor. Such procedures may include one or more of the following:

- a. Visiting the other auditor and discussing the procedures followed and the results thereof.
- b. Reviewing the working papers of the other auditor with respect to the component.

²⁷ The practitioner serving as principal auditor is presumed to have an audit base for purposes of examining or reviewing the consolidated MD&A presentation.

²⁸ The practitioner should consider whether he or she has sufficient industry expertise with respect to a subsidiary audited by another auditor to take sole responsibility for the consolidated MD&A presentation.

²⁹ This does not preclude the practitioner from referring to the other auditor's report on the financial statements in his or her report on MD&A.

- c. Participating in discussions with the component's management regarding matters that may affect the preparation of MD&A.
- d. Making supplemental tests with respect to such component.

The determination of the extent of the procedures to be applied by the principal practitioner rests with the principal practitioner alone in the exercise of his or her professional judgment and in no way constitutes a reflection on the adequacy of the other auditor's work. Because the principal practitioner in this case assumes responsibility for his or her opinion on the MD&A presentation without making reference to the procedures performed by the other auditor, the practitioner's judgment should govern as to the extent of procedures to be undertaken.

Responsibility for Other Information in Documents Containing MD&A

.106 A client may publish annual reports containing MD&A and other documents to which the practitioner, at the client's request, devotes attention. See section 101.91–94 for pertinent guidance in these circumstances. See Appendix D [paragraph .117], "Comparison of Activities Performed Under SAS No. 8, *Other Information in Documents Containing Audited Financial Statements*, Versus a Review or an Examination Attest Engagement." The guidance in AU section 711, *Filings Under Federal Securities Statutes*, is pertinent when the practitioner's report on MD&A is included in a registration statement, proxy statement, or periodic report filed under the federal securities statutes.

Communications With the Audit Committee

.107 If the practitioner concludes that the MD&A presentation contains material inconsistencies with other information included in the document containing the MD&A presentation or with the historical financial statements,³⁰ material omissions, or material misstatements of fact, and management refuses to take corrective action, the practitioner should inform the audit committee or others with equivalent authority and responsibility. If the MD&A is not revised, the practitioner should evaluate (a) whether to resign from the engagement related to the MD&A, and (b) whether to remain as the entity's auditor or stand for re-election to audit the entity's financial statements. The practitioner may wish to consult with his or her attorney when making these evaluations.

.108 If the practitioner is engaged after the MD&A presentation has been filed with the SEC (or other regulatory agency), and becomes aware that such MD&A presentation on file with the SEC (or other regulatory agency) has not been revised for a matter for which the practitioner has or would qualify his or her opinion, the practitioner should discuss such matter with the audit committee and request that the MD&A presentation be revised. If the audit committee fails to take appropriate action, the practitioner should consider whether to resign as the independent auditor of the company. The practitioner may consider the guidance concerning communication with the audit committee and other considerations in AU section 317, *Illegal Acts by Clients*, paragraphs .17, .22, and .23).

³⁰ See AU section 550A, *Information in Documents Containing Audited Financial Statements*, for guidance on the impact of material inconsistencies or material misstatements of fact on the auditor's report on the related historical financial statements.

.109 If, as a result of performing an examination or a review of MD&A, the practitioner has determined that there is evidence that fraud may exist, that matter should be brought to the attention of an appropriate level of management. This is generally appropriate even if the matter might be considered clearly inconsequential. If the matter relates to the audited financial statements, the practitioner should consider the guidance in AU section 316, *Consideration of Fraud in a Financial Statement Audit*, concerning communication responsibilities, and the effect on the auditor's report on the financial statements.

Obtaining Written Representations

.110 In an examination or a review engagement, the practitioner should obtain written representations from management.³¹ The specific written representations obtained by the practitioner will depend on the circumstances of the engagement and the nature of the MD&A presentation. Specific representations should relate to the following matters:

- a. Management's acknowledgment of its responsibility for the preparation of MD&A and management's assertion that the MD&A presentation has been prepared in accordance with the rules and regulations adopted by the SEC for MD&A³²
- b. A statement that the historical financial amounts included in MD&A have been accurately derived from the entity's financial statements
- c. Management's belief that the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained in the MD&A
- d. A statement that management has made available all significant documentation related to compliance with SEC rules and regulations for MD&A
- e. Completeness and availability of all minutes of meetings of stockholders, directors, and committees of directors
- f. For a public entity, whether any communications from the SEC were received concerning noncompliance with or deficiencies in MD&A reporting practices
- g. Whether any events occurred subsequent to the latest balance-sheet date that would require disclosure in the MD&A
- h. If forward-looking information is included, a statement that—
 - The forward-looking information is based on management's best estimate of expected events and operations, and is consistent with budgets, forecasts, or operating plans prepared for such periods

³¹ AU section 333, *Management Representations*, paragraph .09, provides guidance on the date as of which management should sign such a representation letter and on which member(s) of management should sign it. AU section 711.10 provides guidance concerning obtaining updated representations from management in connection with accountant's reports included or incorporated by reference in filings under the 1933 Act. (See paragraph .65.)

³² Management should specify the SEC rules (for example, Item 303 of Regulation S-K, Item 303 of Regulation S-B, or Item 9 of Form 20-F). For nonpublic entities, the practitioner also obtains a written assertion that the presentation has been prepared using the rules and regulations adopted by the SEC. (See paragraph .02.)

- The accounting principles expected to be used for the forward-looking information are consistent with the principles used in preparing the historical financial statements
 - Management has provided the latest version of such budgets, forecasts, or operating plans, and has informed the practitioner of any anticipated changes or modifications to such information that could affect the disclosures contained in the MD&A presentation
- i. If voluntary information is included that is subject to the rules and regulations adopted by the SEC (for example, information required by Item 305, *Quantitative and Qualitative Disclosures About Market Risk*), a statement that such voluntary information has been prepared in accordance with the related rules and regulations adopted by the SEC for such information
- j. If pro forma information is included, a statement that—
- Management is responsible for the assumptions used in determining the pro forma adjustments
 - Management believes that the assumptions provide a reasonable basis for presenting all the significant effects directly attributable to the transaction or event, that the related pro forma adjustments give appropriate effect to those assumptions, and that the pro forma column reflects the proper application of those adjustments to the historical financial statements
 - Management believes that the significant effects directly attributable to the transaction or event are appropriately disclosed in the pro forma financial information

.111 In an examination, management's refusal to furnish written representations constitutes a limitation on the scope of the engagement sufficient to preclude an unqualified opinion and is ordinarily sufficient to cause a practitioner to disclaim an opinion or withdraw from the examination engagement. However, based on the nature of the representations not obtained or the circumstances of the refusal, the practitioner may conclude that a qualified opinion is appropriate in an examination engagement. In a review engagement, management's refusal to furnish written representations constitutes a limitation of the scope of the engagement sufficient to require withdrawal from the review engagement. Further, the practitioner should consider the effects of the refusal on his or her ability to rely on other management representations.

.112 If the practitioner is precluded from performing procedures he or she considers necessary in the circumstances with respect to a matter that is material to the MD&A presentation, even though management has given representations concerning the matter, there is a limitation on the scope of the engagement, and the practitioner should qualify his or her opinion or disclaim an opinion in an examination engagement, or withdraw from a review engagement.

Effective Date

.113 This section is effective when management's discussion and analysis is for a period ending on or after June 1, 2001. Early application is permitted.

.114

Appendix A

Examination Reports

Example 1: Standard Examination Report

1. The following is an illustration of a standard examination report.

Independent Accountant's Report

[Introductory paragraph]

We have examined XYZ Company's Management's Discussion and Analysis taken as a whole, included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]*. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. Our responsibility is to express an opinion on the presentation based on our examination. We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20X5 and 20X4, and for each of the years in the three-year period ended December 31, 20X5, and in our report dated *[Month]* XX, 20X6, we expressed an unqualified opinion on those financial statements.³³

[Scope paragraph]

Our examination of Management's Discussion and Analysis was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting the historical amounts and disclosures in the presentation. An examination also includes assessing the significant determinations made by management as to the relevancy of information to be included and the estimates and assumptions that affect reported information. We believe that our examination provides a reasonable basis for our opinion.

*[Explanatory paragraph]*³⁴

³³ If prior financial statements were audited by other auditors, this sentence would be replaced by the following:

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of and for the year ended December 31, 20X5, and in our report dated *[Month]* XX, 20X6, we expressed an unqualified opinion on those financial statements. The financial statements of XYZ Company as of December 31, 20X4, and for each of the years in the two-year period then ended were audited by other auditors, whose report dated *[Month]* XX, 20X5, expressed an unqualified opinion on those financial statements.

If the practitioner's opinion on the financial statements is based on the report of other auditors, this sentence would be replaced by the following:

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20X5 and 20X4, and for each of the years in the three-year period ended December 31, 20X5, and in our report dated *[Month]* XX, 20X6, we expressed an unqualified opinion on those financial statements based on our audits and the report of other auditors.

Refer to Example 3 if the practitioner's opinion on MD&A is based on the report of another practitioner on a component of the entity.

³⁴ The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .69h:

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

[Opinion paragraph]

In our opinion, the Company's presentation of Management's Discussion and Analysis includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

[Signature]

[Date]

Example 2: Modifications to Examination Report for a Qualified Opinion

2. An example of a modification of an examination report for a qualified opinion due to a material omission described in paragraph .72 follows.

[Additional explanatory paragraph preceding the opinion paragraph]

Based on information furnished to us by management, we believe that the Company has excluded a discussion of the significant capital outlay required for its plans to expand into the telecommunications industry and the possible effects on the Company's financial condition, liquidity, and capital resources.

[Opinion paragraph]

In our opinion, except for the omission of the matter described in the preceding paragraph, the Company's presentation of Management's Discussion and Analysis includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

3. An example of a modification of an examination report for a qualified opinion when overly subjective assertions are included in MD&A follows.

[Additional explanatory paragraph preceding the opinion paragraph]

Based on information furnished to us by management, we believe that the underlying information, determinations, estimates, and assumptions used by management do not provide the Company with a reasonable basis for the disclosure concerning *[describe]* in the Company's Management's Discussion and Analysis.

[Opinion paragraph]

In our opinion, except for the disclosure regarding *[describe]* discussed in the preceding paragraph, the Company's presentation of Management's Discussion and Analysis includes, in all material respects, the required elements of the

rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

Example 3: Examination Report With Reference to the Report of Another Practitioner

4. The following is an illustration of an examination report indicating a division of responsibility with another practitioner, who has examined a separate MD&A presentation of a wholly-owned subsidiary, when the practitioner reporting is serving as the principal auditor of the related consolidated financial statements.

Independent Accountant's Report

[Introductory paragraphs]

We have examined XYZ Company's Management's Discussion and Analysis taken as a whole, included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]*. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. Our responsibility is to express an opinion on the presentation based on our examination. We did not examine Management's Discussion and Analysis of ABC Corporation, a wholly-owned subsidiary, included in ABC Corporation's *[insert description of registration statement or document]*. Such Management's Discussion and Analysis was examined by other accountants, whose report has been furnished to us, and our opinion, insofar as it relates to information included for ABC Corporation, is based solely on the report of the other accountants.

We have audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated financial statements of XYZ Company as of December 31, 20X5 and 20X4, and for each of the years in the three-year period ended December 31, 20X5, and in our report dated *[Month]* XX, 20X6, we expressed an unqualified opinion on those financial statements based on our audits and the report of other auditors.

[Scope paragraph]

Our examination of Management's Discussion and Analysis was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting the historical amounts and disclosures in the presentation. An examination also includes assessing the significant determinations made by management as to the relevancy of information to be included and the estimates and assumptions that affect reported information. We believe that our examination and the report of other accountants provide a reasonable basis for our opinion.

[Explanatory paragraph]³⁵

³⁵ The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .69*h*.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

[Opinion paragraph]

In our opinion, based on our examination and the report of other accountants, the Company's presentation of Management's Discussion and Analysis included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]* includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

Appendix B

Review Reports

Example 1: Standard Review Report on an Annual MD&A Presentation

1. The following is an illustration of a standard review report on an annual MD&A presentation.

Independent Accountant's Report

[Introductory paragraph]

We have reviewed XYZ Company's Management's Discussion and Analysis taken as a whole, included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]*. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20X5 and 20X4, and for each of the years in the three-year period ended December 31, 20X5, and in our report dated *[Month]* XX, 20X6, we expressed an unqualified opinion on those financial statements.

[Scope paragraph]

We conducted our review of Management's Discussion and Analysis in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review of Management's Discussion and Analysis consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. It is substantially less in scope than an examination, the objective of which is the expression of an opinion on the presentation. Accordingly, we do not express such an opinion.

*[Explanatory paragraph]*³⁶

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

[Concluding paragraph]

³⁶ The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .85*i*.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

Based on our review, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's financial statements, or that the underlying information, determinations, estimates and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

*[Restricted use paragraph]*³⁷

This report is intended solely for the information and use of *[list or refer to specified parties]* and is not intended to be and should not be used by anyone other than the specified parties.

[Signature]

[Date]

Example 2: Standard Review Report on an Interim MD&A Presentation

2. The following is an illustration of a standard review report on an MD&A presentation for an interim period.

Independent Accountant's Report

[Introductory paragraph]

We have reviewed XYZ Company's Management's Discussion and Analysis taken as a whole included in the Company's *[insert description of registration statement or document]*. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. We have reviewed, in accordance with standards established by the American Institute of Certified Public Accountants, the interim financial information of XYZ Company as of June 30, 20X6 and 20X5, and for the three-month and six-month periods then ended, and have issued our report thereon dated July XX, 20X6.

[Scope paragraph]

We conducted our review of Management's Discussion and Analysis in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review of Management's Discussion and Analysis consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. It is substantially less in scope than an examination, the objective of which is the expression of an opinion on the presentation. Accordingly, we do not express such an opinion.

*[Explanatory paragraph]*³⁸

³⁷ This paragraph may be omitted for certain nonpublic entities. (Refer to paragraph .85k.)

³⁸ The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .85i.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

[Concluding paragraph]

Based on our review, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's financial statements, or that the underlying information, determinations, estimates, and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

*[Restricted use paragraph]*³⁹

This report is intended solely for the information and use of *[list or refer to specified parties]* and is not intended to be and should not be used by anyone other than the specified parties.

[Signature]

[Date]

Example 3: Modification to Review Report for a Material Misstatement

3. An example of a modification of the accountant's report when MD&A is materially misstated, as discussed in paragraph .89, follows.

[Additional explanatory paragraph preceding the concluding paragraph]

Based on information furnished to us by management, we believe that the Company has excluded a discussion of the significant capital outlay required for its plans to expand into the telecommunications industry and the possible effects on the Company's financial condition, liquidity, and capital resources.

[Concluding paragraph]

Based on our review, with the exception of the matter described in the preceding paragraph, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's financial statements, or that the underlying information, determinations, estimates and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

³⁹ This paragraph may be omitted for certain nonpublic entities. (Refer to paragraph .85*k*.)

.116

Appendix C

Combined Reports

Example 1: Combined Examination and Review Report on MD&A

1. An example of a combined report on an examination of an annual MD&A presentation and the review of MD&A for an interim period discussed in paragraph .92 follows.

Independent Accountant's Report

[Introductory paragraph]

We have examined XYZ Company's Management's Discussion and Analysis taken as a whole for the three-year period ended December 31, 20X5, included [*incorporated by reference*] in the Company's [*insert description of registration statement or document*]. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. Our responsibility is to express an opinion on the annual presentation based on our examination. We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20X5 and 20X4, and for each of the years in the three-year period ended December 31, 19X5, and in our report dated [*Month*] XX, 20X6, we expressed an unqualified opinion on those financial statements.

[Scope paragraph]

Our examination of Management's Discussion and Analysis was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting the historical amounts and disclosures in the presentation. An examination also includes assessing the significant determinations made by management as to the relevancy of information to be included and the estimates and assumptions that affect reported information. We believe that our examination provides a reasonable basis for our opinion.

*[Explanatory paragraph]*⁴⁰

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in

⁴⁰ The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .69h.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

[Opinion paragraph]

In our opinion, the Company's presentation of Management's Discussion and Analysis for the three-year period ended December 31, 20X5, includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

[Paragraphs on interims]

We have also reviewed XYZ Company's Management's Discussion and Analysis taken as a whole for the six-month period ended June 30, 20X6 included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]*. We have reviewed, in accordance with standards established by the American Institute of Certified Public Accountants, the interim financial information of XYZ Company as of June 30, 20X6 and 20X5, and for the six-month periods then ended, and have issued our report thereon dated July XX, 20X6.

We conducted our review of Management's Discussion and Analysis in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review of Management's Discussion and Analysis consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. It is substantially less in scope than an examination, the objective of which is the expression of an opinion on the presentation. Accordingly, we do not express such an opinion.

Based on our review, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis for the six-month period ended June 30, 20X6, does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's unaudited interim financial statements, or that the underlying information, determinations, estimates, and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

*[Restricted use paragraph]*⁴¹

This report is intended solely for the information and use of *[list or refer to specified parties]* and is not intended to be and should not be used by anyone other than the specified parties.

[Signature]

[Date]

Example 2: Review Report on a Combined Annual and Interim MD&A Presentation

2. An example of a review report on a combined MD&A presentation for annual and interim periods follows.

⁴¹ This paragraph may be omitted for certain nonpublic entities. (Refer to paragraph .85*k*.)

Independent Accountant's Report*[Introductory paragraph]*

We have reviewed XYZ Company's Management's Discussion and Analysis taken as a whole included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]*. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20X5 and 20X4, and for each of the years in the three-year period ended December 31, 20X5, and in our report dated *[Month]* XX, 20X6, we expressed an unqualified opinion on those financial statements. We have reviewed, in accordance with standards established by the American Institute of Certified Public Accountants, the interim financial information of XYZ Company as of June 30, 20X6 and 20X5, and for the six-month periods then ended, and have issued our report thereon dated July XX, 20X6.

[Scope paragraph]

We conducted our review of Management's Discussion and Analysis in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review of Management's Discussion and Analysis consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. It is substantially less in scope than an examination, the objective of which is the expression of an opinion on the presentation. Accordingly, we do not express such an opinion.

*[Explanatory paragraph]*⁴²

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

[Concluding paragraph]

Based on our review, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's financial statements, or that the underlying information, determinations, estimates, and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

*[Restricted use paragraph]*⁴³

⁴² The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .69*h*.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

⁴³ This paragraph may be omitted for certain nonpublic entities. (Refer to paragraph .85*k*.)

This report is intended solely for the information and use of [*list or refer to specified parties*] and is not intended to be and should not be used by anyone other than the specified parties.

Form a conclusion and report.	<p>The auditor has no reporting responsibility with respect to MD&A unless the auditor concludes that there is a material inconsistency in the MD&A that has not been eliminated. In such a situation, the auditor may add an other matter paragraph to the auditor's report on the audited financial statements describing the material inconsistency or withhold the auditor's report.</p> <p>If, while reading the MD&A, the auditor becomes aware of an apparent material misstatement of fact, the auditor should discuss such matter with management and take other actions based on management's response.</p>	Form a conclusion based on the results of the preceding procedures and report in the form of negative assurance.	Form an opinion based on the results of the preceding procedures and report conclusion by expressing an opinion.

[Revised, December 2010, to reflect conforming changes necessary due to the issuance of SAS Nos. 118–120.]

AT Section 801

Reporting on Controls at a Service Organization

(Supersedes the guidance for service auditors in AU section 324, *Service Organizations*.)

Source: SSAE No. 16.

Effective for service auditors' reports for periods ending on or after June 15, 2011. Earlier implementation is permitted.

Introduction

Scope of This Section

.01 This section addresses examination engagements undertaken by a service auditor to report on controls at organizations that provide services to user entities when those controls are likely to be relevant to user entities' internal control over financial reporting. It complements AU section 324, *Service Organizations*, in that reports prepared in accordance with this section may provide appropriate evidence under AU section 324. (Ref: par. .A1)

.02 The focus of this section is on controls at service organizations likely to be relevant to user entities' internal control over financial reporting. The guidance herein also may be helpful to a practitioner performing an engagement under section 101, *Attest Engagements*, to report on controls at a service organization

- a. other than those that are likely to be relevant to user entities' internal control over financial reporting (for example, controls that affect user entities' compliance with specified requirements of laws, regulations, rules, contracts, or grants, or controls that affect user entities' production or quality control). Section 601, *Compliance Attestation*, is applicable if a practitioner is reporting on an entity's own compliance with specified requirements or on its controls over compliance with specified requirements. (Ref: par. .A2–.A3)
- b. when management of the service organization is not responsible for the design of the system (for example, when the system has been designed by the user entity or the design is stipulated in a contract between the user entity and the service organization). (Ref: par. .A4)

.03 In addition to performing an examination of a service organization's controls, a service auditor may be engaged to (a) examine and report on a user entity's transactions or balances maintained by a service organization, or (b) perform and report the results of agreed upon procedures related to the controls of a service organization or to transactions or balances of a user entity maintained by a service organization. However, these engagements are not addressed in this section.

.04 The requirements and application material in this section are based on the premise that management of the service organization (also referred to as management) will provide the service auditor with a written assertion that is included in or attached to management's description of the service organization's system. Paragraph .10 of this section addresses the circumstance in which management refuses to provide such a written assertion. Section 101 indicates that when performing an attestation engagement, a practitioner may report directly on the subject matter or on management's assertion. For engagements conducted under this section, the service auditor is required to report directly on the subject matter.

Effective Date

.05 This section is effective for service auditors' reports for periods ending on or after June 15, 2011. Earlier implementation is permitted.

Objectives

.06 The objectives of the service auditor are to

- a. obtain reasonable assurance about whether, in all material respects, based on suitable criteria,
 - i. management's description of the service organization's system fairly presents the system that was designed and implemented throughout the specified period (or in the case of a type 1 report, as of a specified date).
 - ii. the controls related to the control objectives stated in management's description of the service organization's system were suitably designed throughout the specified period (or in the case of a type 1 report, as of a specified date).
 - iii. when included in the scope of the engagement, the controls operated effectively to provide reasonable assurance that the control objectives stated in management's description of the service organization's system were achieved throughout the specified period.
- b. report on the matters in 6(a) in accordance with the service auditor's findings.

Definitions

.07 For purposes of this section, the following terms have the meanings attributed in the subsequent text:

Carve-out method. Method of addressing the services provided by a subservice organization whereby management's description of the service organization's system identifies the nature of the services performed by the subservice organization and excludes from the description and from the scope of the service auditor's engagement, the subservice organization's relevant control objectives and related controls. Management's description of the service organization's system and the scope of the service auditor's engagement include controls at the service organization that monitor the effectiveness of controls at the subservice organization, which may include management of the service organization's review of a service auditor's report on controls at the subservice organization.

Complementary user entity controls. Controls that management of the service organization assumes, in the design of the service provided by the service organization, will be implemented by user entities, and which, if necessary to achieve the control objectives stated in management's description of the service organization's system, are identified as such in that description.

Control objectives. The aim or purpose of specified controls at the service organization. Control objectives address the risks that controls are intended to mitigate.

Controls at a service organization. The policies and procedures at a service organization likely to be relevant to user entities' internal control over financial reporting. These policies and procedures are designed, implemented, and documented by the service organization to provide reasonable assurance about the achievement of the control objectives relevant to the services covered by the service auditor's report. (Ref: par. .A5)

Controls at a subservice organization. The policies and procedures at a subservice organization likely to be relevant to internal control over financial reporting of user entities of the service organization. These policies and procedures are designed, implemented, and documented by a subservice organization to provide reasonable assurance about the achievement of control objectives that are relevant to the services covered by the service auditor's report.

Criteria. The standards or benchmarks used to measure and present the subject matter and against which the service auditor evaluates the subject matter. (Ref: par. .A6)

Inclusive method. Method of addressing the services provided by a subservice organization whereby management's description of the service organization's system includes a description of the nature of the services provided by the subservice organization as well as the subservice organization's relevant control objectives and related controls. (Ref: par. .A7–.A9)

Internal audit function. The service organization's internal auditors and others, for example, members of a compliance or risk department, who perform activities similar to those performed by internal auditors. (Ref: par. .A10)

Report on management's description of a service organization's system and the suitability of the design of controls (referred to in this section as a *type 1 report*). A report that comprises the following:

- a. Management's description of the service organization's system.
- b. A written assertion by management of the service organization about whether, in all material respects, and based on suitable criteria,
 - i. management's description of the service organization's system fairly presents the service organization's system that was designed and implemented as of a specified date.
 - ii. the controls related to the control objectives stated in management's description of the service organization's system were suitably designed to achieve those control objectives as of the specified date.
- c. A service auditor's report that expresses an opinion on the matters in (b)(i)–(b)(ii).

Report on management's description of a service organization's system and the suitability of the design and operating effectiveness of controls (referred to in this section as a *type 2 report*). A report that comprises the following:

- a. Management's description of the service organization's system.
- b. A written assertion by management of the service organization about whether in all material respects, and based on suitable criteria,
 - i. management's description of the service organization's system fairly presents the service organization's system that was designed and implemented throughout the specified period.
 - ii. the controls related to the control objectives stated in management's description of the service organization's system were suitably designed throughout the specified period to achieve those control objectives.
 - iii. the controls related to the control objectives stated in management's description of the service organization's system operated effectively throughout the specified period to achieve those control objectives.
- c. A service auditor's report that
 - i. expresses an opinion on the matters in (b)(i)–(b)(iii).
 - ii. includes a description of the tests of controls and the results thereof.

Service auditor. A practitioner who reports on controls at a service organization.

Service organization. An organization or segment of an organization that provides services to user entities, which are likely to be relevant to those user entities' internal control over financial reporting.

Service organization's assertion. A written assertion about the matters referred to in part (b) of the definition of *Report on management's description of a service organization's system and the suitability of the design and operating effectiveness of controls*, for a type 2 report; and, for a type 1 report, the matters referred to in part (b) of the definition of *Report on management's description of a service organization's system and the suitability of the design of controls*.

Service organization's system. The policies and procedures designed, implemented, and documented, by management of the service organization to provide user entities with the services covered by the service auditor's report. Management's description of the service organization's system identifies the services covered, the period to which the description relates (or in the case of a type 1 report, the date to which the description relates), the control objectives specified by management or an outside party, the party specifying the control objectives (if not specified by management), and the related controls. (Ref. par. .A11)

Subservice organization. A service organization used by another service organization to perform some of the services provided to user entities that are likely to be relevant to those user entities' internal control over financial reporting.

Test of controls. A procedure designed to evaluate the operating effectiveness of controls in achieving the control objectives stated in management's description of the service organization's system.

User auditor. An auditor who audits and reports on the financial statements of a user entity.

User entity. An entity that uses a service organization.

Requirements

Management and Those Charged With Governance

.08 When this section requires the service auditor to inquire of, request representations from, communicate with, or otherwise interact with management of the service organization, the service auditor should determine the appropriate person(s) within the service organization's management or governance structure with whom to interact. This should include consideration of which person(s) have the appropriate responsibilities for and knowledge of the matters concerned. (Ref: par. .A12)

Acceptance and Continuance

.09 A service auditor should accept or continue an engagement to report on controls at a service organization only if (Ref: par. .A13)

- a. the service auditor has the capabilities and competence to perform the engagement. (Ref: par. .A14–.A15)
- b. the service auditor's preliminary knowledge of the engagement circumstances indicates that
 - i. the criteria to be used will be suitable and available to the intended user entities and their auditors;
 - ii. the service auditor will have access to sufficient appropriate evidence to the extent necessary; and
 - iii. the scope of the engagement and management's description of the service organization's system will not be so limited that they are unlikely to be useful to user entities and their auditors.
- c. management agrees to the terms of the engagement by acknowledging and accepting its responsibility for the following:
 - i. Preparing its description of the service organization's system and its assertion, including the completeness, accuracy, and method of presentation of the description and assertion. (Ref: par. .A16)
 - ii. Having a reasonable basis for its assertion. (Ref: par. .A17)
 - iii. Selecting the criteria to be used and stating them in the assertion.
 - iv. Specifying the control objectives, stating them in the description of the service organization's system, and, if the control objectives are specified by law, regulation, or another party (for example, a user group or a professional body), identifying in the description the party specifying the control objectives.

- v. Identifying the risks that threaten the achievement of the control objectives stated in the description and designing, implementing, and documenting controls that are suitably designed and operating effectively to provide reasonable assurance that the control objectives stated in the description of the service organization's system will be achieved. (Ref: par. .A18)
- vi. Providing the service auditor with
 - (1) access to all information, such as records and documentation, including service level agreements, of which management is aware that is relevant to the description of the service organization's system and the assertion;
 - (2) additional information that the service auditor may request from management for the purpose of the examination engagement;
 - (3) unrestricted access to personnel within the service organization from whom the service auditor determines it is necessary to obtain evidence relevant to the service auditor's engagement; and
 - (4) written representations at the conclusion of the engagement.
- vii. Providing a written assertion that will be included in, or attached to management's description of the service organization's system, and provided to user entities.

.10 If management will not provide the service auditor with a written assertion, the service auditor should not circumvent the requirement to obtain an assertion by performing a service auditor's engagement under section 101. (Ref: par. .A19)

.11 Management's subsequent refusal to provide a written assertion represents a scope limitation and consequently, the service auditor should withdraw from the engagement. If law or regulation does not allow the service auditor to withdraw from the engagement, the service auditor should disclaim an opinion.

Request to Change the Scope of the Engagement

.12 If management requests a change in the scope of the engagement before the completion of the engagement, the service auditor should be satisfied, before agreeing to the change, that a reasonable justification for the change exists. (Ref: par. .A20–.A21)

Assessing the Suitability of the Criteria (Ref: par. .A6 and .A22–.A23)

.13 As required by paragraph .23 of section 101, the service auditor should assess whether management has used suitable criteria

- a. in preparing its description of the service organization's system;
- b. in evaluating whether controls were suitably designed to achieve the control objectives stated in the description; and
- c. in the case of a type 2 report, in evaluating whether controls operated effectively throughout the specified period to achieve the control objectives stated in the description of the service organization's system.

.14 In assessing the suitability of the criteria to evaluate whether management's description of the service organization's system is fairly presented, the service auditor should determine if the criteria include, at a minimum,

- a. whether management's description of the service organization's system presents how the service organization's system was designed and implemented, including the following information about the service organization's system, if applicable:
 - i. The types of services provided including, as appropriate, the classes of transactions processed.
 - ii. The procedures, within both automated and manual systems, by which services are provided, including, as appropriate, procedures by which transactions are initiated, authorized, recorded, processed, corrected as necessary, and transferred to the reports and other information prepared for user entities.
 - iii. The related accounting records, whether electronic or manual, and supporting information involved in initiating, authorizing, recording, processing, and reporting transactions; this includes the correction of incorrect information and how information is transferred to the reports and other information prepared for user entities.
 - iv. How the service organization's system captures and addresses significant events and conditions other than transactions.
 - v. The process used to prepare reports and other information for user entities.
 - vi. The specified control objectives and controls designed to achieve those objectives, including as applicable, complementary user entity controls contemplated in the design of the service organization's controls.
 - vii. Other aspects of the service organization's control environment, risk assessment process, information and communication systems (including the related business processes), control activities, and monitoring controls that are relevant to the services provided. (Ref: par. A17 and .A24)
- b. in the case of a type 2 report, whether management's description of the service organization's system includes relevant details of changes to the service organization's system during the period covered by the description. (Ref: par. .A44)
- c. whether management's description of the service organization's system does not omit or distort information relevant to the service organization's system, while acknowledging that management's description of the service organization's system is prepared to meet the common needs of a broad range of user entities and their user auditors, and may not, therefore, include every aspect of the service organization's system that each individual user entity and its user auditor may consider important in its own particular environment.

.15 In assessing the suitability of the criteria to evaluate whether the controls are suitably designed, the service auditor should determine if the criteria include, at a minimum, whether

- a. the risks that threaten the achievement of the control objectives stated in management's description of the service organization's system have been identified by management.
- b. the controls identified in management's description of the service organization's system would, if operating as described, provide reasonable assurance that those risks would not prevent the control objectives stated in the description from being achieved.

.16 In assessing the suitability of the criteria to evaluate whether controls operated effectively to provide reasonable assurance that the control objectives stated in management's description of the service organization's system were achieved, the service auditor should determine if the criteria include, at a minimum, whether the controls were consistently applied as designed throughout the specified period, including whether manual controls were applied by individuals who have the appropriate competence and authority.

Materiality

.17 When planning and performing the engagement, the service auditor should evaluate materiality with respect to the fair presentation of management's description of the service organization's system, the suitability of the design of controls to achieve the related control objectives stated in the description and, in the case of a type 2 report, the operating effectiveness of the controls to achieve the related control objectives stated in the description. (Ref: par. .A25–.A27)

Obtaining an Understanding of the Service Organization's System (Ref: par. .A28–.A30)

.18 The service auditor should obtain an understanding of the service organization's system, including controls that are included in the scope of the engagement.

Obtaining Evidence Regarding Management's Description of the Service Organization's System (Ref: par. .A26 and .A31–.A35)

.19 The service auditor should obtain and read management's description of the service organization's system and should evaluate whether those aspects of the description that are included in the scope of the engagement are presented fairly, including whether

- a. the control objectives stated in management's description of the service organization's system are reasonable in the circumstances. (Ref: par. .A34)
- b. controls identified in management's description of the service organization's system were implemented. (Ref: par. .A35)
- c. complementary user entity controls, if any, are adequately described. (Ref: par. .A32)
- d. services performed by a subservice organization, if any, are adequately described, including whether the inclusive method or the carve-out method has been used in relation to them.

.20 The service auditor should determine through inquiries made in combination with other procedures whether the service organization's system has been implemented. Such other procedures should include observation and

inspection of records and other documentation of the manner in which the service organization's system operates and controls are applied. (Ref: par. .A35)

Obtaining Evidence Regarding the Design of Controls (Ref: par .A26 and .A36–.A39)

.21 The service auditor should determine which of the controls at the service organization are necessary to achieve the control objectives stated in management's description of the service organization's system and should assess whether those controls were suitably designed to achieve the control objectives by

- a. identifying the risks that threaten the achievement of the control objectives stated in management's description of the service organization's system, and (Ref: par. .A36)
- b. evaluating the linkage of the controls identified in management's description of the service organization's system with those risks.

Obtaining Evidence Regarding the Operating Effectiveness of Controls (Ref: par. .A26 and .A40–.A45)

Assessing Operating Effectiveness

.22 When performing a type 2 engagement, the service auditor should test those controls that the service auditor has determined are necessary to achieve the control objectives stated in management's description of the service organization's system and should assess their operating effectiveness throughout the period. Evidence obtained in prior engagements about the satisfactory operation of controls in prior periods does not provide a basis for a reduction in testing, even if it is supplemented with evidence obtained during the current period. (Ref: par. .A40–.A44)

.23 When performing a type 2 engagement, the service auditor should inquire about changes in the service organization's controls that were implemented during the period covered by the service auditor's report. If the service auditor believes the changes would be considered significant by user entities and their auditors, the service auditor should determine whether those changes are included in management's description of the service organization's system. If such changes are not included in the description, the service auditor should describe the changes in the service auditor's report and determine the effect on the service auditor's report. If the superseded controls are relevant to the achievement of the control objectives stated in the description, the service auditor should, if possible, test the superseded controls before the change. If the service auditor cannot test superseded controls relevant to the achievement of the control objectives stated in the description, the service auditor should determine the effect on the service auditor's report. (Ref: par. .A42(c) and .A45)

.24 When designing and performing tests of controls, the service auditor should

- a. perform other procedures in combination with inquiry to obtain evidence about the following:
 - i. How the control was applied.
 - ii. The consistency with which the control was applied.
 - iii. By whom or by what means the control was applied.

- b. determine whether the controls to be tested depend on other controls, and if so, whether it is necessary to obtain evidence supporting the operating effectiveness of those other controls.
- c. determine an effective method for selecting the items to be tested to meet the objectives of the procedure.

.25 When determining the extent of tests of controls and whether sampling is appropriate, the service auditor should consider the characteristics of the population of the controls to be tested, including the nature of the controls, the frequency of their application (for example, monthly, daily, many times per day), and the expected rate of deviation. AU section 350, *Audit Sampling*, addresses planning, performing, and evaluating audit samples. If the service auditor determines that sampling is appropriate, the service auditor should apply the requirements in paragraphs .31–.43 of AU section 350, which address sampling in tests of controls. Paragraphs .01–.14 and .45–.46 of AU section 350 provide additional guidance regarding the principles underlying those paragraphs.

Nature and Cause of Deviations

.26 The service auditor should investigate the nature and cause of any deviations identified, and should determine whether

- a. identified deviations are within the expected rate of deviation and are acceptable. If so, the testing that has been performed provides an appropriate basis for concluding that the control operated effectively throughout the specified period.
- b. additional testing of the control or of other controls is necessary to reach a conclusion about whether the controls related to the control objectives stated in management's description of the service organization's system operated effectively throughout the specified period.
- c. the testing that has been performed provides an appropriate basis for concluding that the control did not operate effectively throughout the specified period.

.27 If, as a result of performing the procedures in paragraph .26, the service auditor becomes aware that any identified deviations have resulted from intentional acts by service organization personnel, the service auditor should assess the risk that management's description of the service organization's system is not fairly presented, the controls are not suitably designed, and in a type 2 engagement, the controls are not operating effectively. (Ref: par. .A31)

Using the Work of the Internal Audit Function

Obtaining an Understanding of the Internal Audit Function

(Ref: par. .A46–.A47)

.28 If the service organization has an internal audit function, the service auditor should obtain an understanding of the nature of the responsibilities of the internal audit function and of the activities performed in order to determine whether the internal audit function is likely to be relevant to the engagement.

Planning to Use the Work of the Internal Audit Function

.29 When the service auditor intends to use the work of the internal audit function, the service auditor should determine whether the work of the internal

audit function is likely to be adequate for the purposes of the engagement by evaluating the following:

- a. The objectivity and technical competence of the members of the internal audit function
- b. Whether the work of the internal audit function is likely to be carried out with due professional care
- c. Whether it is likely that effective communication will occur between the internal audit function and the service auditor, including consideration of the effect of any constraints or restrictions placed on the internal audit function by the service organization

.30 If the service auditor determines that the work of the internal audit function is likely to be adequate for the purposes of the engagement, in determining the planned effect of the work of the internal audit function on the nature, timing, or extent of the service auditor's procedures, the service auditor should evaluate the following:

- a. The nature and scope of specific work performed, or to be performed, by the internal audit function
- b. The significance of that work to the service auditor's conclusions
- c. The degree of subjectivity involved in the evaluation of the evidence gathered in support of those conclusions

Using the Work of the Internal Audit Function (Ref: par. .A48)

.31 In order for the service auditor to use specific work of the internal audit function, the service auditor should evaluate and perform procedures on that work to determine its adequacy for the service auditor's purposes.

.32 To determine the adequacy of specific work performed by the internal audit function for the service auditor's purposes, the service auditor should evaluate whether

- a. the work was performed by members of the internal audit function having adequate technical training and proficiency;
- b. the work was properly supervised, reviewed, and documented;
- c. sufficient appropriate evidence was obtained to enable the internal audit function to draw reasonable conclusions;
- d. conclusions reached are appropriate in the circumstances and any reports prepared by the internal audit function are consistent with the results of the work performed; and
- e. exceptions relevant to the engagement or unusual matters disclosed by the internal audit function are properly resolved.

Effect on the Service Auditor's Report

.33 If the work of the internal audit function has been used, the service auditor should not make reference to that work in the service auditor's opinion. Notwithstanding its degree of autonomy and objectivity, the internal audit function is not independent of the service organization. The service auditor has sole responsibility for the opinion expressed in the service auditor's report and, accordingly, that responsibility is not reduced by the service auditor's use of the work of the internal audit function. (Ref: par. .A49)

.34 In the case of a type 2 report, if the work of the internal audit function has been used in performing tests of controls, that part of the service auditor's report that describes the service auditor's tests of controls and results thereof

should include a description of the internal auditor's work and of the service auditor's procedures with respect to that work. (Ref: par. .A50)

Direct Assistance

.35 When the service auditor uses members of the service organization's internal audit function to provide direct assistance, the service auditor should adapt and apply the requirements in paragraph .27 of AU section 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*.

Written Representations (Ref: par. .A51–.A55)

.36 The service auditor should request management to provide written representations that

- a. reaffirm its assertion included in or attached to the description of the service organization's system;
- b. it has provided the service auditor with all relevant information and access agreed to; and¹
- c. it has disclosed to the service auditor any of the following of which it is aware:
 - i. Instances of noncompliance with laws and regulations or uncorrected errors attributable to the service organization that may affect one or more user entities.
 - ii. Knowledge of any actual, suspected, or alleged intentional acts by management or the service organization's employees, that could adversely affect the fairness of the presentation of management's description of the service organization's system or the completeness or achievement of the control objectives stated in the description.
 - iii. Design deficiencies in controls.
 - iv. Instances when controls have not operated as described.
 - v. Any events subsequent to the period covered by management's description of the service organization's system up to the date of the service auditor's report that could have a significant effect on management's assertion.

.37 If a service organization uses a subservice organization and management's description of the service organization's system uses the inclusive method, the service auditor also should obtain the written representations identified in paragraph .36 from management of the subservice organization.

.38 The written representations should be in the form of a representation letter addressed to the service auditor and should be as of the same date as the date of the service auditor's report.

.39 If management does not provide one or more of the written representations requested by the service auditor, the service auditor should do the following:

- a. Discuss the matter with management
- b. Evaluate the effect of such refusal on the service auditor's assessment of the integrity of management and evaluate the effect that

¹ See paragraph .09(c)(vi)(1).

this may have on the reliability of management's representations and evidence in general

- c. Take appropriate actions, which may include disclaiming an opinion or withdrawing from the engagement

If management refuses to provide the representations in paragraphs .36(a)–.36(b) of this section, the service auditor should disclaim an opinion or withdraw from the engagement.

Other Information (Ref: par. .A56–.A57)

.40 The service auditor should read other information, if any, included in a document containing management's description of the service organization's system and the service auditor's report to identify material inconsistencies, if any, with that description. While reading the other information for the purpose of identifying material inconsistencies, the service auditor may become aware of an apparent misstatement of fact in the other information.

.41 If the service auditor becomes aware of a material inconsistency or an apparent misstatement of fact in the other information, the service auditor should discuss the matter with management. If the service auditor concludes that there is a material inconsistency or a misstatement of fact in the other information that management refuses to correct, the service auditor should take further appropriate action.²

Subsequent Events

.42 The service auditor should inquire whether management is aware of any events subsequent to the period covered by management's description of the service organization's system up to the date of the service auditor's report that could have a significant effect on management's assertion. If the service auditor becomes aware, through inquiry or otherwise, of such an event, or any other event that is of such a nature and significance that its disclosure is necessary to prevent users of a type 1 or type 2 report from being misled, and information about that event is not disclosed by management in its description, the service auditor should disclose such event in the service auditor's report.

.43 The service auditor has no responsibility to keep informed of events subsequent to the date of the service auditor's report; however, after the release of the service auditor's report, the service auditor may become aware of conditions that existed at the report date that might have affected management's assertion and the service auditor's report had the service auditor been aware of them. The evaluation of such subsequent information is similar to the evaluation of information discovered subsequent to the date of the report on an audit of financial statements, as described in AU section 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*, and therefore, the service auditor should adapt and apply the guidance in AU section 561.

Documentation (Ref: par. .A58)

.44 The service auditor should prepare documentation that is sufficient to enable an experienced service auditor, having no previous connection with the engagement, to understand the following:

² See paragraphs .91–.94 of section 101, *Attest Engagements*.

- a. The nature, timing, and extent of the procedures performed to comply with this section and with applicable legal and regulatory requirements
- b. The results of the procedures performed and the evidence obtained
- c. Significant findings or issues arising during the engagement, the conclusions reached thereon, and significant professional judgments made in reaching those conclusions

.45 In documenting the nature, timing, and extent of procedures performed, the service auditor should record the following:

- a. Identifying characteristics of the specific items or matters being tested
- b. Who performed the work and the date such work was completed
- c. Who reviewed the work performed and the date and extent of such review

.46 If the service auditor uses specific work of the internal audit function, the service auditor should document the conclusions reached regarding the evaluation of the adequacy of the work of the internal audit function and the procedures performed by the service auditor on that work.

.47 The service auditor should document discussions of significant findings or issues with management and others, including the nature of the significant findings or issues, when the discussions took place, and with whom.

.48 If the service auditor has identified information that is inconsistent with the service auditor's final conclusion regarding a significant finding or issue, the service auditor should document how the service auditor addressed the inconsistency.

.49 The service auditor should assemble the engagement documentation in an engagement file and complete the administrative process of assembling the final engagement file on a timely basis, no later than 60 days following the service auditor's report release date.

.50 After the assembly of the final engagement file has been completed, the service auditor should not delete or discard documentation before the end of its retention period.

.51 If the service auditor finds it necessary to modify existing engagement documentation or add new documentation after the assembly of the final engagement file has been completed, the service auditor should, regardless of the nature of the modifications or additions, document the following:

- a. The specific reasons for making them
- b. When and by whom they were made and reviewed

Preparing the Service Auditor's Report

Content of the Service Auditor's Report (Ref: par. .A59)

.52 A service auditor's type 2 report should include the following elements:

- a. A title that includes the word *independent*.
- b. An addressee.
- c. Identification of
 - i. management's description of the service organization's system and the function performed by the system.

- ii. any parts of management's description of the service organization's system that are not covered by the service auditor's report. (Ref: par. .A56)
 - iii. any information included in a document containing the service auditor's report that is not covered by the service auditor's report. (Ref: par. .A56)
 - iv. the criteria.
 - v. any services performed by a subservice organization and whether the carve-out method or the inclusive method was used in relation to them. Depending on which method is used, the following should be included:
 - (1) If the carve-out method was used, a statement that management's description of the service organization's system excludes the control objectives and related controls at relevant subservice organizations, and that the service auditor's procedures do not extend to the subservice organization.
 - (2) If the inclusive method was used, a statement that management's description of the service organization's system includes the subservice organization's specified control objectives and related controls, and that the service auditor's procedures included procedures related to the subservice organization.
- d. If management's description of the service organization's system refers to the need for complementary user entity controls, a statement that the service auditor has not evaluated the suitability of the design or operating effectiveness of complementary user entity controls, and that the control objectives stated in the description can be achieved only if complementary user entity controls are suitably designed and operating effectively, along with the controls at the service organization.
- e. A reference to management's assertion and a statement that management is responsible for (Ref: par. .A60)
- i. preparing the description of the service organization's system and the assertion, including the completeness, accuracy, and method of presentation of the description and assertion;
 - ii. providing the services covered by the description of the service organization's system;
 - iii. specifying the control objectives unless the control objectives are specified by law, regulation, or another party, and stating them in the description of the service organization's system;
 - iv. identifying the risks that threaten the achievement of the control objectives;
 - v. selecting the criteria; and
 - vi. designing, implementing, and documenting controls that are suitably designed and operating effectively to achieve the related control objectives stated in the description of the service organization's system.

- f.* A statement that the service auditor's responsibility is to express an opinion on the fairness of the presentation of management's description of the service organization's system and on the suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description, based on the service auditor's examination.
- g.* A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and that those standards require the service auditor to plan and perform the examination to obtain reasonable assurance about whether management's description of the service organization's system is fairly presented and the controls are suitably designed and operating effectively throughout the specified period to achieve the related control objectives.
- h.* A statement that an examination of management's description of a service organization's system and the suitability of the design and operating effectiveness of the service organization's controls to achieve the related control objectives stated in the description involves performing procedures to obtain evidence about the fairness of the presentation of the description and the suitability of the design and operating effectiveness of those controls to achieve the related control objectives stated in the description.
- i.* A statement that the examination included assessing the risks that management's description of the service organization's system is not fairly presented and that the controls were not suitably designed or operating effectively to achieve the related control objectives.
- j.* A statement that the examination also included testing the operating effectiveness of those controls that the service auditor considers necessary to provide reasonable assurance that the related control objectives stated in management's description of the service organization's system were achieved.
- k.* A statement that an examination engagement of this type also includes evaluating the overall presentation of management's description of the service organization's system and suitability of the control objectives stated in the description.
- l.* A statement that the service auditor believes the examination provides a reasonable basis for his or her opinion.
- m.* A statement about the inherent limitations of controls, including the risk of projecting to future periods any evaluation of the fairness of the presentation of management's description of the service organization's system or conclusions about the suitability of the design or operating effectiveness of controls.
- n.* The service auditor's opinion on whether, in all material respects, based on the criteria described in management's assertion,
 - i.* management's description of the service organization's system fairly presents the service organization's system that was designed and implemented throughout the specified period.
 - ii.* the controls related to the control objectives stated in management's description of the service organization's system were suitably designed to provide reasonable assurance

- that those control objectives would be achieved if the controls operated effectively throughout the specified period.
- iii. the controls the service auditor tested, which were those necessary to provide reasonable assurance that the control objectives stated in management's description of the service organization's system were achieved, operated effectively throughout the specified period.
 - iv. if the application of complementary user entity controls is necessary to achieve the related control objectives stated in management's description of the service organization's system, a reference to this condition.
- o. A reference to a description of the service auditor's tests of controls and the results thereof, that includes
 - i. identification of the controls that were tested, whether the items tested represent all or a selection of the items in the population, and the nature of the tests in sufficient detail to enable user auditors to determine the effect of such tests on their risk assessments. (Ref: par. .A50)
 - ii. if deviations have been identified in the operation of controls included in the description, the extent of testing performed by the service auditor that led to the identification of the deviations (including the number of items tested), and the number and nature of the deviations noted (even if, on the basis of tests performed, the service auditor concludes that the related control objective was achieved). (Ref: par. .A65)
 - p. A statement restricting the use of the service auditor's report to management of the service organization, user entities of the service organization's system during some or all of the period covered by the service auditor's report, and the independent auditors of such user entities. (Ref: par. .A61–.A64)
 - q. The date of the service auditor's report.
 - r. The name of the service auditor and the city and state where the service auditor maintains the office that has responsibility for the engagement.
- .53** A service auditor's type 1 report should include the following elements:
- a. A title that includes the word *independent*.
 - b. An addressee.
 - c. Identification of
 - i. management's description of the service organization's system and the function performed by the system.
 - ii. any parts of management's description of the service organization's system that are not covered by the service auditor's report. (Ref: par. .A56)
 - iii. any information included in a document containing the service auditor report that is not covered by the service auditor's report. (Ref: par. .A56)
 - iv. the criteria.
 - v. any services performed by a subservice organization and whether the carve-out method or the inclusive method was

used in relation to them. Depending on which method is used, the following should be included:

- (1) If the carve-out method was used, a statement that management's description of the service organization's system excludes the control objectives and related controls at relevant subservice organizations, and that the service auditor's procedures do not extend to the subservice organization.
 - (2) If the inclusive method was used, a statement that management's description of the service organization's system includes the subservice organization's specified control objectives and related controls, and that the service auditor's procedures included procedures related to the subservice organization.
- d. If management's description of the service organization's system refers to the need for complementary user entity controls, a statement that the service auditor has not evaluated the suitability of the design or operating effectiveness of complementary user entity controls, and that the control objectives stated in the description can be achieved only if complementary user entity controls are suitably designed and operating effectively, along with the controls at the service organization.
- e. A reference to management's assertion and a statement that management is responsible for (Ref: par. .A60)
- i. preparing the description of the service organization's system and assertion, including the completeness, accuracy, and method of presentation of the description and assertion;
 - ii. providing the services covered by the description of the service organization's system;
 - iii. specifying the control objectives, unless the control objectives are specified by law, regulation, or another party, and stating them in the description of the service organization's system;
 - iv. identifying the risks that threaten the achievement of the control objectives,
 - v. selecting the criteria; and
 - vi. designing, implementing, and documenting controls that are suitably designed and operating effectively to achieve the related control objectives stated in the description of the service organization's system.
- f. A statement that the service auditor's responsibility is to express an opinion on the fairness of the presentation of management's description of the service organization's system and on the suitability of the design of the controls to achieve the related control objectives stated in the description, based on the service auditor's examination.
- g. A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, and that those standards require the service auditor to plan and perform the examination to obtain

reasonable assurance about whether management's description of the service organization's system is fairly presented and the controls are suitably designed as of the specified date to achieve the related control objectives.

- h.* A statement that the service auditor has not performed any procedures regarding the operating effectiveness of controls and, therefore, expresses no opinion thereon.
- i.* A statement that an examination of management's description of a service organization's system and the suitability of the design of the service organization's controls to achieve the related control objectives stated in the description involves performing procedures to obtain evidence about the fairness of the presentation of the description and the suitability of the design of those controls to achieve the related control objectives stated in the description.
- j.* A statement that the examination included assessing the risks that management's description of the service organization's system is not fairly presented and that the controls were not suitably designed to achieve the related control objectives.
- k.* A statement that an examination engagement of this type also includes evaluating the overall presentation of management's description of the service organization's system and suitability of the control objectives stated in the description.
- l.* A statement that the service auditor believes the examination provides a reasonable basis for his or her opinion.
- m.* A statement about the inherent limitations of controls, including the risk of projecting to future periods any evaluation of the fairness of the presentation of management's description of the service organization's system or conclusions about the suitability of the design of the controls to achieve the related control objectives.
- n.* The service auditor's opinion on whether, in all material respects, based on the criteria described in management's assertion,
 - i.* management's description of the service organization's system fairly presents the service organization's system that was designed and implemented as of the specified date.
 - ii.* the controls related to the control objectives stated in management's description of the service organization's system were suitably designed to provide reasonable assurance that those control objectives would be achieved if the controls operated effectively as of the specified date.
 - iii.* if the application of complementary user entity controls is necessary to achieve the related control objectives stated in management's description of the service organization's system, a reference to this condition.
- o.* A statement restricting the use of the service auditor's report to management of the service organization, user entities of the service organization's system as of the end of the period covered by the service auditor's report, and the independent auditors of such user entities. (Ref: par. .A61–.A64)
- p.* The date of the service auditor's report.

- q. The name of the service auditor and the city and state where the service auditor maintains the office that has responsibility for the engagement.

Report Date

.54 The service auditor should date the service auditor's report no earlier than the date on which the service auditor has obtained sufficient appropriate evidence to support the service auditor's opinion.

Modified Opinions (Ref: par. .A66)

.55 The service auditor's opinion should be modified and the service auditor's report should contain a clear description of all the reasons for the modification, if the service auditor concludes that

- a. management's description of the service organization's system is not fairly presented, in all material respects;
- b. the controls are not suitably designed to provide reasonable assurance that the control objectives stated in management's description of the service organization's system would be achieved if the controls operated as described;
- c. in the case of a type 2 report, the controls did not operate effectively throughout the specified period to achieve the related control objectives stated in management's description of the service organization's system; or
- d. the service auditor is unable to obtain sufficient appropriate evidence

.56 If the service auditor plans to disclaim an opinion because of the inability to obtain sufficient appropriate evidence, and, based on the limited procedures performed, has concluded that,

- a. certain aspects of management's description of the service organization's system are not fairly presented, in all material respects;
- b. certain controls were not suitably designed to provide reasonable assurance that the control objectives stated in management's description of the service organization's system would be achieved if the controls operated as described; or
- c. in the case of a type 2 report, certain controls did not operate effectively throughout the specified period to achieve the related control objectives stated in management's description of the service organization's system,

the service auditor should identify these findings in his or her report.

.57 If the service auditor plans to disclaim an opinion, the service auditor should not identify the procedures that were performed nor include statements describing the characteristics of a service auditor's engagement in the service auditor's report; to do so might overshadow the disclaimer.

Other Communication Responsibilities

.58 If the service auditor becomes aware of incidents of noncompliance with laws and regulations, fraud, or uncorrected errors attributable to management or other service organization personnel that are not clearly trivial and that may affect one or more user entities, the service auditor should determine the effect of such incidents on management's description of the service organization's system, the achievement of the control objectives, and the service auditor's report.

Additionally, the service auditor should determine whether this information has been communicated appropriately to affected user entities. If the information has not been so communicated, and management of the service organization is unwilling to do so, the service auditor should take appropriate action. (Ref: par. .A67)

Application and Other Explanatory Material

Scope of This Section

.A1 *Internal control* is a process designed to provide reasonable assurance regarding the achievement of objectives related to the reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations. Controls related to a service organization's operations and compliance objectives may be relevant to a user entity's internal control over financial reporting. Such controls may pertain to assertions about presentation and disclosure relating to account balances, classes of transactions or disclosures, or may pertain to evidence that the user auditor evaluates or uses in applying auditing procedures. For example, a payroll processing service organization's controls related to the timely remittance of payroll deductions to government authorities may be relevant to a user entity because late remittances could incur interest and penalties that would result in a liability for the user entity. Similarly, a service organization's controls over the acceptability of investment transactions from a regulatory perspective may be considered relevant to a user entity's presentation and disclosure of transactions and account balances in its financial statements. (Ref: par. .01)

.A2 Paragraph .02 of this section refers to other engagements that the practitioner may perform and report on under section 101 to report on controls at a service organization. Paragraph .02 is not, however, intended to

- provide for the alteration of the definitions of *service organization* and *service organization's system* in paragraph .07 to permit reports issued under this section to include in the description of the service organization's system aspects of their services (including relevant control objectives and related controls) not likely to be relevant to user entities' internal control over financial reporting, or
- permit a report to be issued that combines reporting under this section on a service organization's controls that are likely to be relevant to user entities' internal control over financial reporting, with reporting under section 101 on controls that are not likely to be relevant to user entities' internal control over financial reporting. (Ref: par. .02(a))

.A3 When a service auditor conducts an engagement under section 101 to report on controls at a service organization other than those controls likely to be relevant to user entities' internal control over financial reporting, and the service auditor intends to use the guidance in this section in planning and performing that engagement, the service auditor may encounter issues that differ significantly from those associated with engagements to report on a service organization's controls likely to be relevant to user entities' internal control over financial reporting. For example,

- identification of suitable and available criteria, as prescribed in paragraphs .23–.34 of section 101, for evaluating the fairness of presentation of management's description of the service organization's system and the suitability of the design and the operating effectiveness of the controls.
- identification of appropriate control objectives, and the basis for evaluating the reasonableness of the control objectives in the circumstances of the particular engagement.

- identification of the intended users of the report and the manner in which they intend to use the report.
- relevance and appropriateness of the definitions in paragraph .07 of this section, many of which specifically relate to internal control over financial reporting.
- application of references to auditing standards (AU sections) that are intended to provide the service auditor with guidance relevant to internal control over financial reporting.
- application of the concept of materiality in the circumstances of the particular engagement.
- developing the language to be used in the practitioner's report, including addressing paragraphs .84–.87 of section 101, which identify the elements to be included in an examination report. (Ref: par. .02(a))

.A4 When management of the service organization is not responsible for the design of the system, it is unlikely that management of the service organization will be in a position to assert that the system is suitably designed. Controls cannot operate effectively unless they are suitably designed. Because of the inextricable link between the suitability of the design of controls and their operating effectiveness, the absence of an assertion with respect to the suitability of design will likely preclude the service auditor from opining on the operating effectiveness of controls. As an alternative, the practitioner may perform tests of controls in either an agreed-upon procedures engagement under section 201, *Agreed Upon Procedures Engagements*, or an examination of the operating effectiveness of the controls under section 101. (Ref: par. .02(b))

Definitions

Controls at a Service Organization (Ref: par. .07)

.A5 The policies and procedures referred to in the definition of *controls at a service organization* in paragraph .07 include aspects of user entities' information systems maintained by the service organization and may also include aspects of one or more of the other components of internal control at a service organization. For example, the definition of *controls at a service organization* may include aspects of the service organization's control environment, monitoring, and control activities when they relate to the services provided. Such definition does not, however, include controls at a service organization that are not related to the achievement of the control objectives stated in management's description of the service organization's system; for example, controls related to the preparation of the service organization's own financial statements.

Criteria (Ref: par. .07 and .14–.16)

.A6 For the purposes of engagements performed in accordance with this section, criteria need to be available to user entities and their auditors to enable them to understand the basis for the service organization's assertion about the fair presentation of management's description of the service organization's system, the suitability of the design of controls that address control objectives stated in the description of the system and, in the case of a type 2 report, the operating effectiveness of such controls. Information about suitable criteria is provided in paragraphs .23–.34 of section 101. Paragraphs .14–.16 of this section

discuss the criteria for evaluating the fairness of the presentation of management's description of the service organization's system and the suitability of the design and operating effectiveness of the controls.

Inclusive Method (Ref: par. .07)

.A7 As indicated in the definition of *inclusive method* in paragraph .07, a service organization that uses a subservice organization presents management's description of the service organization's system to include a description of the services provided by the subservice organization as well as the subservice organization's relevant control objectives and related controls. When the inclusive method is used, the requirements of this section also apply to the services provided by the subservice organization, including the requirement to obtain management's acknowledgement and acceptance of responsibility for the matters in paragraph .09(c)(i)–(vii) as they relate to the subservice organization.

.A8 Performing procedures at the subservice organization entails coordination and communication between the service organization, the subservice organization, and the service auditor. The inclusive method generally is feasible if, for example, the service organization and the subservice organization are related, or if the contract between the service organization and the subservice organization provides for issuance of a service auditor's report. If the service auditor is unable to obtain an assertion from the subservice organization regarding management's description of the service organization's system provided, including the relevant control objectives and related controls at the subservice organization, the service auditor is unable to use the inclusive method but may instead use the carve-out method.

.A9 There may be instances when the service organization's controls, such as monitoring controls, permit the service organization to include in its assertion the relevant aspects of the subservice organization's system, including the relevant control objectives and related controls of the subservice organization. In such instances, the service auditor is basing his or her opinion solely on the controls at the service organization, and hence, the inclusive method is not applicable.

Internal Audit Function (Ref: par. .07)

.A10 The "others" referenced in the definition of *internal audit function* may be individuals who perform activities similar to those performed by internal auditors and include service organization personnel (in addition to internal auditors), and third parties working under the direction of management or those charged with governance.

Service Organization's System (Ref: par. .07)

.A11 The policies and procedures referred to in the definition of *service organization's system* refer to the guidelines and activities for providing transaction processing and other services to user entities and include the infrastructure, software, people, and data that support the policies and procedures.

**Management and Those Charged With Governance
(Ref: par. .08)**

.A12 Management and governance structures vary by entity, reflecting influences such as size and ownership characteristics. Such diversity means that it is not possible for this section to specify for all engagements the person(s) with whom the service auditor is to interact regarding particular matters. For

example, the service organization may be a segment of an organization and not a separate legal entity. In such cases, identifying the appropriate management personnel or those charged with governance from whom to request written representations may require the exercise of professional judgment.

Acceptance and Continuance

.A13 If one or more of the conditions in paragraph .09 are not met and the service auditor is nevertheless required by law or regulation to accept or continue an engagement to report on controls at a service organization, the service auditor is required, in accordance with the requirements in paragraphs .55–.56, to determine the effect on the service auditor's report of one or more of such conditions not being met. (Ref: par. .09)

Capabilities and Competence to Perform the Engagement **(Ref: par. .09a)**

.A14 Relevant capabilities and competence to perform the engagement include matters such as the following:

- Knowledge of the relevant industry
- An understanding of information technology and systems
- Experience in evaluating risks as they relate to the suitable design of controls
- Experience in the design and execution of tests of controls and the evaluation of the results

.A15 In performing a service auditor's engagement, the service auditor need not be independent of each user entity. (Ref: par. .09a)

Management's Responsibility for Documenting the Service Organization's System **(Ref: par. .09(c)(i))**

.A16 Management of the service organization is responsible for documenting the service organization's system. No one particular form of documentation is prescribed and the extent of documentation may vary depending on the size and complexity of the service organization and its monitoring activities.

Reasonable Basis for Management's Assertion **(Ref: par. .07, definition of service organization's system; par. .09(c)(ii) and .14(a)(vii))**

.A17 Management's monitoring activities may provide evidence of the design and operating effectiveness of controls in support of management's assertion. *Monitoring of controls* is a process to assess the effectiveness of internal control performance over time. It involves assessing the effectiveness of controls on a timely basis, identifying and reporting deficiencies to appropriate individuals within the service organization, and taking necessary corrective actions. Management accomplishes monitoring of controls through ongoing activities, separate evaluations, or a combination of the two. Ongoing monitoring activities are often built into the normal recurring activities of an entity and include regular management and supervisory activities. Internal auditors or personnel performing similar functions may contribute to the monitoring of a service organization's activities. Monitoring activities may also include using information communicated by external parties, such as customer complaints and regulator comments, which may indicate problems or highlight areas in need of improvement. The greater the degree and effectiveness of ongoing monitoring, the less need for separate evaluations. Usually, some combination of

ongoing monitoring and separate evaluations will ensure that internal control maintains its effectiveness over time. The service auditor's report on controls is not a substitute for the service organization's own processes to provide a reasonable basis for its assertion.

Identification of Risks (Ref: par. .09(c)(v))

.A18 Control objectives relate to risks that controls seek to mitigate. For example, the risk that a transaction is recorded at the wrong amount or in the wrong period can be expressed as a control objective that transactions are recorded at the correct amount and in the correct period. Management is responsible for identifying the risks that threaten achievement of the control objectives stated in management's description of the service organization's system. Management may have a formal or informal process for identifying relevant risks. A formal process may include estimating the significance of identified risks, assessing the likelihood of their occurrence, and deciding about actions to address them. However, because control objectives relate to risks that controls seek to mitigate, thoughtful identification by management of control objectives when designing, implementing, and documenting the service organization's system may itself comprise an informal process for identifying relevant risks.

Management's Refusal to Provide a Written Assertion

.A19 A recent change in service organization management or the appointment of the service auditor by a party other than management are examples of situations that may cause management to be unwilling to provide the service auditor with a written assertion. However, other members of management may be in a position to, and will agree to, sign the assertion so that the service auditor can meet the requirement of paragraph .09(c)(vii). (Ref: par. .10)

Request to Change the Scope of the Engagement (Ref: par. .12)

.A20 A request to change the scope of the engagement may not have a reasonable justification if, for example, the request is made

- to exclude certain control objectives at the service organization from the scope of the engagement because of the likelihood that the service auditor's opinion would be modified with respect to those control objectives.
- to prevent the disclosure of deviations identified at a subservice organization by requesting a change from the inclusive method to the carve-out method.

.A21 A request to change the scope of the engagement may have a reasonable justification when, for example, the request is made to exclude from the engagement a subservice organization because the service organization cannot arrange for access by the service auditor, and the method used for addressing the services provided by that subservice organization is changed from the inclusive method to the carve-out method.

Assessing the Suitability of the Criteria (Ref: par. .13–.16)

.A22 Section 101 requires a practitioner, among other things, to determine whether the subject matter is capable of evaluation against criteria that are suitable and available to users. As indicated in paragraph .27 of section 101, regardless of who establishes or develops the criteria, management is responsible for selecting the criteria and for determining whether the criteria are

appropriate. The subject matter is the underlying condition of interest to intended users of an attestation report. The following table identifies the subject matter and minimum criteria for each of the opinions in type 2 and type 1 reports.

	<i>Subject Matter</i>	<i>Criteria</i>	<i>Comment</i>
<i>Opinion on the fair presentation of management's description of the service organization's system (type 1 and type 2 reports).</i>	Management's description of the service organization's system that is likely to be relevant to user entities' internal control over financial reporting and is covered by the service auditor's report, and management's assertion about whether the description is fairly presented.	<p>Management's description of the service organization's system is fairly presented if</p> <p>a. presents how the service organization's system was designed and implemented including, as appropriate, the matters identified in paragraph .14(a) and, in the case of a type 2 report, includes relevant details of changes to the service organization's system during the period covered by the description.</p> <p>b. does not omit or distort information relevant to the service organization's system, while acknowledging that management's description of the service organization's system is prepared to meet the common needs of a broad range of user entities and may not, therefore, include every aspect of the service organization's system that each individual user entity may consider important in its own particular environment.</p>	The specific wording of the criteria for this opinion may need to be tailored to be consistent with criteria established by, for example, law, regulation, user groups, or a professional body. Criteria for evaluating management's description of the service organization's system are provided in paragraph .14. Paragraphs .19–.20 and .A31–.A33 offer further guidance on determining whether these criteria are met.

(continued)

	<i>Subject Matter</i>	<i>Criteria</i>	<i>Comment</i>	
<i>Opinion on suitability of design and operating effectiveness (type 2 reports).</i>	The design and operating effectiveness of the controls that are necessary to achieve the control objectives stated in management's description of the service organization's system.	<p>The controls are suitably designed and operating effectively to achieve the control objectives stated in management's description of the service organization's system if</p> <p>a. management has identified the risks that threaten the achievement of the control objectives stated in management's description of the service organization's system.</p> <p>b. the controls identified in management's description of the service organization's system would, if operating as described, provide reasonable assurance that those risks would not prevent the control objectives stated in the description from being achieved.</p> <p>c. the controls were consistently applied as designed throughout the specified period. This includes whether manual controls were applied by individuals who have the appropriate competence and authority.</p>	When the criteria for this opinion are met, controls will have provided reasonable assurance that the related control objectives stated in management's description of the service organization's system were achieved throughout the specified period.	The control objectives stated in management's description of the service organization's system are part of the criteria for these opinions. The control objectives stated in the description will differ from engagement to engagement. If the service auditor concludes that the control objectives stated in the description are not fairly presented, then those control objectives would not be suitable as part of the criteria for forming an opinion on the design and operating effectiveness of the controls.

	<i>Subject Matter</i>	<i>Criteria</i>	<i>Comment</i>
Opinion on suitability of design (type 1 reports).	The suitability of the design of the controls necessary to achieve the control objectives stated in management's description of the service organization's system and relevant to the services covered by the service auditor's report.	The controls are suitably designed to achieve the control objectives stated in management's description of the service organization's system if <ol style="list-style-type: none"> a. management has identified the risks that threaten the achievement of the control objectives stated in its description of the service organization's system. b. the controls identified in management's description of the service organization's system would, if operating as described, provide reasonable assurance that those risks would not prevent the control objectives stated in the description from being achieved. 	Meeting these criteria does not, of itself, provide any assurance that the control objectives stated in management's description of the service organization's system were achieved because no evidence has been obtained about the operating effectiveness of the controls.

.A23 Paragraph .14(a) identifies a number of elements that are included in management's description of the service organization's system as appropriate. These elements may not be appropriate if the system being described is not a system that processes transactions; for example, if the system relates to general controls over the hosting of an IT application but not the controls embedded in the application itself. (Ref: par. .14)

.A24 The requirement to include in management's description of the service organization's system "other aspects of the service organization's control environment, risk assessment process, information and communication systems (including the related business processes), control activities, and monitoring controls, that are relevant to the services provided" is also applicable to the internal control components of subservice organizations used by the service organization when the inclusive method is used. See AU section 314, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, for a discussion of these components. (Ref: par. .14(a)(vii))

Materiality (Ref: par. .17)

.A25 In an engagement to report on controls at a service organization, the concept of materiality relates to the information being reported on, not the financial statements of user entities. The service auditor plans and performs procedures to determine whether management's description of the service organization's system is fairly presented, in all material respects; whether controls at the service organization are suitably designed in all material respects to achieve the control objectives stated in the description; and in the case of a type 2 report, whether controls at the service organization operated effectively

throughout the specified period in all material respects to achieve the control objectives stated in the description. The concept of materiality takes into account that the service auditor's report provides information about the service organization's system to meet the common information needs of a broad range of user entities and their auditors who have an understanding of the manner in which the system is being used by a particular user entity for financial reporting.

.A26 Materiality with respect to the fair presentation of management's description of the service organization's system and with respect to the design of controls primarily includes the consideration of qualitative factors; for example, whether

- management's description of the service organization's system includes the significant aspects of the processing of significant transactions.
- management's description of the service organization's system omits or distorts relevant information.
- the controls have the ability, as designed, to provide reasonable assurance that the control objectives stated in management's description of the service organization's system would be achieved.

Materiality with respect to the operating effectiveness of controls includes the consideration of both quantitative and qualitative factors; for example, the tolerable rate and observed rate of deviation (a quantitative matter) and the nature and cause of any observed deviations (a qualitative matter).

.A27 The concept of materiality is not applied when disclosing, in the description of the tests of controls, the results of those tests when deviations have been identified. This is because, in the particular circumstances of a specific user entity or user auditor, a deviation may have significance beyond whether or not, in the opinion of the service auditor, it prevents a control from operating effectively. For example, the control to which the deviation relates may be particularly significant in preventing a certain type of error that may be material in the particular circumstances of a user entity's financial statements.

Obtaining an Understanding of the Service Organization's System (Ref: par. .18)

.A28 Obtaining an understanding of the service organization's system, including related controls, assists the service auditor in the following:

- Identifying the boundaries of the system and how it interfaces with other systems
- Assessing whether management's description of the service organization's system fairly presents the service organization's system that has been designed and implemented
- Determining which controls are necessary to achieve the control objectives stated in management's description of the service organization's system, whether controls were suitably designed to achieve those control objectives, and, in the case of a type 2 report, whether controls were operating effectively throughout the period to achieve those control objectives

.A29 Management's description of the service organization's system includes "aspects of the service organization's control environment, risk assessment process, information and communication systems (including relevant

business processes), control activities and monitoring activities that are relevant to the services provided." Although aspects of the service organization's control environment, risk assessment process, and monitoring activities may not be presented in the description in the context of control objectives, they may nevertheless be necessary to achieve the specified control objectives stated in the description. Likewise, deficiencies in these controls may have an effect on the service auditor's assessment of whether the controls, taken as a whole, were suitably designed or operating effectively to achieve the specified control objectives. See AU section 314 for a discussion of these components of internal control.

.A30 The service auditor's procedures to obtain the understanding referred to in paragraph .A28 may include the following:

- Inquiring of management and others within the service organization who, in the service auditor's judgment, may have relevant information
- Observing operations and inspecting documents, reports, and printed and electronic records of transaction processing
- Inspecting a selection of agreements between the service organization and user entities to identify their common terms
- Reperforming the application of a control

One or more of the preceding procedures may be accomplished through the performance of a walkthrough.

Obtaining Evidence Regarding Management's Description of the Service Organization's System (Ref: par. .19-.20)

.A31 In a service auditor's examination engagement, the service auditor plans and performs the engagement to obtain reasonable assurance of detecting errors or omissions in management's description of the service organization's system and instances in which control objectives were not achieved. Absolute assurance is not attainable because of factors such as the need for judgment, the use of sampling, and the inherent limitations of controls at the service organization that affect whether the description is fairly presented and the controls are suitably designed and operating effectively to achieve the control objectives, and because much of the evidence available to the service auditor is persuasive rather than conclusive in nature. Also, procedures that are effective for detecting unintentional errors or omissions in the description, and instances in which control objectives were not achieved, may be ineffective for detecting intentional errors or omissions in the description and instances in which the control objectives were not achieved that are concealed through collusion between service organization personnel and a third party or among management or employees of the service organization. Therefore, the subsequent discovery of the existence of material omissions or errors in the description or instances in which control objectives were not achieved does not, in and of itself, evidence inadequate planning, performance, or judgment on the part of the service auditor. (Ref: par. .27)

.A32 Considering the following questions may assist the service auditor in determining whether management's description of the service organization's system is fairly presented, in all material respects:

- Does management's description address the major aspects of the service provided and included in the scope of the engagement that could reasonably be expected to be relevant to the common needs

of a broad range of user auditors in planning their audits of user entities' financial statements?

- Is the description prepared at a level of detail that could reasonably be expected to provide a broad range of user auditors with sufficient information to obtain an understanding of internal control in accordance with AU section 314? The description need not address every aspect of the service organization's processing or the services provided to user entities and need not be so detailed that it would potentially enable a reader to compromise security or other controls at the service organization.
- Is the description prepared in a manner that does not omit or distort information that might affect the decisions of a broad range of user auditors; for example, does the description contain any significant omissions or inaccuracies regarding processing of which the service auditor is aware?
- Does the description include relevant details of changes to the service organization's system during the period covered by the description when the description covers a period of time?
- Have the controls identified in the description actually been implemented?
- Are complementary user entity controls, if any, adequately described? In most cases, the control objectives stated in the description are worded so that they are capable of being achieved through the effective operation of controls implemented by the service organization alone. In some cases, however, the control objectives stated in the description cannot be achieved by the service organization alone because their achievement requires particular controls to be implemented by user entities. This may be the case when, for example, the control objectives are specified by a regulatory authority. When the description does include complementary user entity controls, the description separately identifies those controls along with the specific control objectives that cannot be achieved by the service organization alone. (Ref: par. .19(c))
- If the inclusive method has been used, does the description separately identify controls at the service organization and controls at the subservice organization? If the carve-out method is used, does the description identify the functions that are performed by the subservice organization? When the carve-out method is used, the description need not describe the detailed processing or controls at the subservice organization.

.A33 The service auditor's procedures to evaluate the fair presentation of management's description of the service organization's system may include the following:

- Considering the nature of the user entities and how the services provided by the service organization are likely to affect them; for example, the predominant types of user entities, and whether the user entities are regulated by government agencies
- Reading contracts with user entities to gain an understanding of the service organization's contractual obligations
- Observing procedures performed by service organization personnel

- Reviewing the service organization's policy and procedure manuals and other documentation of the system; for example, flowcharts and narratives
- Performing walkthroughs of transactions through the service organization's system

.A34 Paragraph .19(a) requires the service auditor to evaluate whether the control objectives stated in management's description of the service organization's system are reasonable in the circumstances. Considering the following questions may assist the service auditor in this evaluation:

- Have the control objectives stated in the description been specified by the service organization or by outside parties, such as regulatory authorities, a user group, a professional body, or others?
- Do the control objectives stated in the description and specified by the service organization relate to the types of assertions commonly embodied in the broad range of user entities' financial statements to which controls at the service organization could reasonably be expected to relate (for example, assertions about existence and accuracy that are affected by access controls that prevent or detect unauthorized access to the system)? Although the service auditor ordinarily will not be able to determine how controls at a service organization specifically relate to the assertions embodied in individual user entities' financial statements, the service auditor's understanding of the nature of the service organization's system, including controls, and the services being provided is used to identify the types of assertions to which those controls are likely to relate.
- Are the control objectives stated in the description and specified by the service organization complete? Although a complete set of control objectives can provide a broad range of user auditors with a framework to assess the effect of controls at the service organization on assertions commonly embodied in user entities' financial statements, the service auditor ordinarily will not be able to determine how controls at a service organization specifically relate to the assertions embodied in individual user entities' financial statements and cannot, therefore, determine whether control objectives are complete from the viewpoint of individual user entities or user auditors. It is the responsibility of individual user entities or user auditors to assess whether the service organization's description addresses the particular control objectives that are relevant to their needs. If the control objectives are specified by an outside party, including control objectives specified by law or regulation, the outside party is responsible for their completeness and reasonableness. (Ref: par. .19(a))

.A35 The service auditor's procedures to determine whether the system described by the service organization has been implemented may be similar to, and performed in conjunction with, procedures to obtain an understanding of that system. Other procedures that the service auditor may use in combination with inquiry of management and other service organization personnel include observation, inspection of records and other documentation, as well as reperformance of the manner in which transactions are processed through the system and controls are applied. (Ref: par. .19(b) and .20)

Obtaining Evidence Regarding the Design of Controls (Ref: par. .21)

.A36 The risks and control objectives identified in paragraph .21(a) encompass intentional and unintentional acts that threaten the achievement of the control objectives. (Ref: par. .21(a))

.A37 From the viewpoint of a user auditor, a control is suitably designed to achieve the control objectives stated in management's description of the service organization's system if individually or in combination with other controls, it would, when complied with satisfactorily, provide reasonable assurance that material misstatements are prevented, or detected and corrected. A service auditor, however, is not aware of the circumstances at individual user entities that would affect whether or not a misstatement resulting from a control deficiency is material to those user entities. Therefore, from the viewpoint of a service auditor, a control is suitably designed if individually or in combination with other controls, it would, when complied with satisfactorily, provide reasonable assurance that the control objective(s) stated in the description of the service organization's system are achieved.

.A38 A service auditor may consider using flowcharts, questionnaires, or decision tables to facilitate understanding the design of the controls.

.A39 Controls may consist of a number of activities directed at the achievement of various control objectives. Consequently, if the service auditor evaluates certain activities as being ineffective in achieving a particular control objective, the existence of other activities may allow the service auditor to conclude that controls related to the control objective are suitably designed to achieve the control objective.

Obtaining Evidence Regarding the Operating Effectiveness of Controls (Ref: par. .22–.27)

.A40 From the viewpoint of a user auditor, a control is operating effectively if individually or in combination with other controls, it provides reasonable assurance that material misstatements whether due to fraud or error are prevented, or detected and corrected. A service auditor, however, is not aware of the circumstances at individual user entities that would affect whether or not a misstatement resulting from a control deviation is material to those user entities. Therefore, from the viewpoint of a service auditor, a control is operating effectively if individually or in combination with other controls, it provides reasonable assurance that the control objectives stated in management's description of the service organization's system are achieved. Similarly, a service auditor is not in a position to determine whether any observed control deviation would result in a material misstatement from the viewpoint of an individual user entity. (Ref: par. .22)

.A41 Obtaining an understanding of controls sufficient to opine on the suitability of their design is not sufficient evidence regarding their operating effectiveness unless some automation provides for the consistent operation of the controls as they were designed and implemented. For example, obtaining information about the implementation of a manual control at a point in time does not provide evidence about operation of the control at other times. However, because of the inherent consistency of IT processing, performing procedures to determine the design of an automated control and whether it has been implemented may serve as evidence of that control's operating effectiveness,

depending on the service auditor's assessment and testing of controls such as those over program changes. (Ref: par. .22)

.A42 A type 2 report that covers a period that is less than six months is unlikely to be useful to user entities and their auditors. If management's description of the service organization's system covers a period that is less than six months, the description may describe the reasons for the shorter period and the service auditor's report may include that information as well. Circumstances that may result in a report covering a period of less than six months include the following:

- The service auditor was engaged close to the date by which the report on controls is to be issued, and controls cannot be tested for operating effectiveness for a six month period.
- The service organization or a particular system or application has been in operation for less than six months.
- Significant changes have been made to the controls, and it is not practicable either to wait six months before issuing a report or to issue a report covering the system both before and after the changes. (Ref: par. .23)

.A43 Evidence about the satisfactory operation of controls in prior periods does not provide evidence of the operating effectiveness of controls during the current period. The service auditor expresses an opinion on the effectiveness of controls throughout each period; therefore, sufficient appropriate evidence about the operating effectiveness of controls throughout the current period is required for the service auditor to express that opinion for the current period. Knowledge of deviations observed in prior engagements may, however, lead the service auditor to increase the extent of testing during the current period. (Ref: par. .22)

.A44 Determining the effect of changes in the service organization's controls that were implemented during the period covered by the service auditor's report involves gathering information about the nature and extent of such changes, how they affect processing at the service organization, and how they might affect assertions in the user entities' financial statements. (Ref: par. .14(b) and .23)

.A45 Certain controls may not leave evidence of their operation that can be tested at a later date and, accordingly, the service auditor may find it appropriate to test the operating effectiveness of such controls at various times throughout the reporting period. (Ref: par. .22)

Using the Work of an Internal Audit Function

Obtaining an Understanding of the Internal Audit Function (Ref: par. .28)

.A46 An internal audit function may be responsible for providing analyses, evaluations, assurances, recommendations, and other information to management and those charged with governance. An internal audit function at a service organization may perform activities related to the service organization's internal control or activities related to the services and systems, including controls that the service organization provides to user entities.

.A47 The scope and objectives of an internal audit function vary widely and depend on the size and structure of the service organization and the requirements of management and those charged with governance. Internal audit function activities may include one or more of the following:

- Monitoring the service organization's internal control or the application processing systems. This may include controls relevant to the services provided to user entities. The internal audit function may be assigned specific responsibility for reviewing controls, monitoring their operation, and recommending improvements thereto.
- Examination of financial and operating information. The internal audit function may be assigned to review the means by which the service organization identifies, measures, classifies, and reports financial and operating information; to make inquiries about specific matters; and to perform other procedures including detailed testing of transactions, balances, and procedures.
- Evaluation of the economy, efficiency, and effectiveness of operating activities including nonfinancial activities of the service organization.
- Evaluation of compliance with laws, regulations, and other external requirements and with management policies, directives, and other internal requirements.

Using the Work of the Internal Audit Function (Ref: par .31–.32)

.A48 The nature, timing, and extent of the service auditor's procedures on specific work of the internal auditors will depend on the service auditor's assessment of the significance of that work to the service auditor's conclusions (for example, the significance of the risks that the controls tend to mitigate), the evaluation of the internal audit function, and the evaluation of the specific work of the internal auditors. Such procedures may include the following:

- Examination of items already examined by the internal auditors
- Examination of other similar items
- Observation of procedures performed by the internal auditors

Effect on the Service Auditor's Report (Ref: par. .33–.34)

.A49 The responsibility to report on management's description of the service organization's system and the suitability of the design and operating effectiveness of controls rests solely with the service auditor and cannot be shared with the internal audit function. Therefore, the judgments about the significance of deviations in the design or operating effectiveness of controls, the sufficiency of tests performed, the evaluation of identified deficiencies, and other matters affecting the service auditor's report are those of the service auditor. In making judgments about the extent of the effect of the work of the internal audit function on the service auditor's procedures, the service auditor may determine, based on risk associated with the controls and the significance of the judgments relating to them, that the service auditor will perform the work relating to some or all of the controls rather than using the work performed by the internal audit function.

.A50 In the case of a type 2 report, when the work of the internal audit function has been used in performing tests of controls, the service auditor's description of that work and of the service auditor's procedures with respect to that work may be presented in a number of ways, for example, (Ref: par. .34 and .52(o)(i))

- by including introductory material to the description of tests of controls indicating that certain work of the internal audit function was used in performing tests of controls.

- attribution of individual tests to internal audit.

Written Representations (Ref: par. .36–.39)

.A51 Written representations reaffirming the service organization's assertion about the effective operation of controls may be based on ongoing monitoring activities, separate evaluations, or a combination of the two. (Ref: par. .A12)

.A52 In certain circumstances, a service auditor may obtain written representations from parties in addition to management of the service organization, such as those charged with governance.

.A53 The written representations required by paragraph .36 are separate from and in addition to the assertion included in or attached to management's description of the service organization's system required by paragraph .09(c)(vii).

.A54 If the service auditor is unable to obtain written representations regarding relevant control objectives and related controls at the subservice organization, management of the service organization would be unable to use the inclusive method but could use the carve-out method.

.A55 In addition to the written representations required by paragraph .36, the service auditor may consider it necessary to request other written representations.

Other Information

.A56 The "other information" referred to in paragraphs .40–.41 may be the following:

- Information provided by the service organization and included in a section of the service auditor's type 1 or type 2 report, or
- Information outside the service auditor's type 1 or type 2 report included in a document that contains the service auditor's report. This other information may be provided by the service organization or by another party. (Ref: par. .40, .52(c)(ii)–(iii), and .53(c)(ii)–(iii))

.A57 If other information included in a document containing management's description of the service organization's system and the service auditor's report contains future-oriented information that cannot be reasonably substantiated, the service auditor may request that the information be removed or revised. (Ref: par. .41)

Documentation

.A58 Paragraph 57 of Statement on Quality Control Standards No. 7, *A Firm's System of Quality Control* (QC sec. 10A), requires the firm to establish policies and procedures that address engagement performance, supervision responsibilities, and review responsibilities. The requirement to document who reviewed the work performed and the extent of the review, in accordance with the firm's policies and procedures addressing review responsibilities, does not imply a need for each specific working paper to include evidence of review. The requirement, however, means documenting what work was reviewed, who reviewed such work, and when it was reviewed. (Ref: par. .44)

Preparing the Service Auditor's Report

Content of the Service Auditor's Report (Ref: par. .52–.53)

.A59 Examples of service auditors' reports are presented in appendixes A–C and illustrative assertions by management of the service organization are presented in exhibit A.

.A60 The service organization's assertion may be presented in management's description of the service organization's system or may be attached to the description. (Ref: par. .52(e) and .53(e))

Use of the Service Auditor's Report (Ref: par. .52(p) and .53(o))

.A61 Paragraph .79 of section 101 requires that the use of a practitioner's report be restricted to specified parties when the criteria used to evaluate or measure the subject matter are available only to specified parties or appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria. The criteria used for engagements to report on controls at a service organization are relevant only for the purpose of providing information about the service organization's system, including controls, to those who have an understanding of how the system is used for financial reporting by user entities and, accordingly, the service auditor's report states that the report and the description of tests of controls are intended only for use by management of the service organization, user entities of the service organization ("during some or all of the period covered by the report" for a type 2 report, and "as of the ending date of the period covered by the report" for a type 1 report), and their user auditors. (The illustrative service auditor's reports in appendix A illustrate language for a paragraph restricting the use of a service auditor's report.)

.A62 Paragraph .79 of section 101 indicates that the need for restriction on the use of a report may result from a number of circumstances, including the potential for the report to be misunderstood when taken out of the context in which it was intended to be used, and the extent to which the procedures performed are known or understood.

.A63 Although a service auditor is not responsible for controlling a service organization's distribution of a service auditor's report, a service auditor may inform the service organization of the following:

- A service auditor's type 1 report is not intended for distribution to parties other than the service organization, user entities of the service organization's system as of the end of the period covered by the service auditor's report, and their user auditors.
- A service auditor's type 2 report is not intended for distribution to parties other than the service organization, user entities of the service organization's system during some or all of the period covered by the service auditor's report, and their user auditors.

.A64 A user entity is also considered a user entity of the service organization's subservice organizations if controls at subservice organizations are relevant to internal control over financial reporting of the user entity. In such case, the user entity is referred to as an indirect or downstream user entity of the subservice organization. Consequently, an indirect or downstream user entity may be included in the group to whom use of the service auditor's report is restricted if controls at the service organization are relevant to internal control over financial reporting of such indirect or downstream user entity.

Description of the Service Auditor's Tests of Controls and the Results Thereof (Ref: par. .52(o)(ii))

.A65 In describing the service auditor's tests of controls for a type 2 report, it assists readers if the service auditor's report includes information about causative factors for identified deviations, to the extent the service auditor has identified such factors.

Modified Opinions (Ref: par. .55–.57)

.A66 Examples of elements of modified service auditor's reports are presented in appendix B.

Other Communication Responsibilities (Ref: par. .58)

.A67 Actions that a service auditor may take when he or she becomes aware of noncompliance with laws and regulations, fraud, or uncorrected errors at the service organization (after giving additional consideration to instances in which the service organization has not appropriately communicated this information to affected user entities, and the service organization is unwilling to do so) include the following:

- Obtaining legal advice about the consequences of different courses of action
- Communicating with those charged with governance of the service organization
- Disclaiming an opinion, modifying the service auditor's opinion, or adding an emphasis paragraph
- Communicating with third parties, for example, a regulator, when required to do so
- Withdrawing from the engagement

.A68

Appendix A: Illustrative Service Auditor's Reports

The following illustrative reports are for guidance only and are not intended to be exhaustive or applicable to all situations.

Example 1: Type 2 Service Auditor's Report

Independent Service Auditor's Report on a Description of a Service Organization's System and the Suitability of the Design and Operating Effectiveness of Controls

To: XYZ Service Organization

Scope

We have examined XYZ Service Organization's description of its [*type or name of*] system for processing user entities' transactions [*or identification of the function performed by the system*] throughout the period [*date*] to [*date*] (*description*) and the suitability of the design and operating effectiveness of controls to achieve the related control objectives stated in the description.

Service organization's responsibilities

On page XX of the description, XYZ Service Organization has provided an assertion about the fairness of the presentation of the description and suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description. XYZ Service Organization is responsible for preparing the description and for the assertion, including the completeness, accuracy, and method of presentation of the description and the assertion, providing the services covered by the description, specifying the control objectives and stating them in the description, identifying the risks that threaten the achievement of the control objectives, selecting the criteria, and designing, implementing, and documenting controls to achieve the related control objectives stated in the description.

Service auditor's responsibilities

Our responsibility is to express an opinion on the fairness of the presentation of the description and on the suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description, based on our examination. We conducted our examination in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform our examination to obtain reasonable assurance about whether, in all material respects, the description is fairly presented and the controls were suitably designed and operating effectively to achieve the related control objectives stated in the description throughout the period [*date*] to [*date*].

An examination of a description of a service organization's system and the suitability of the design and operating effectiveness of the service organization's controls to achieve the related control objectives stated in the description involves performing procedures to obtain evidence about the fairness of the presentation of the description and the suitability of the design and operating effectiveness of those controls to achieve the related control objectives stated in the description. Our procedures included assessing the risks that the description is not fairly presented and that the controls were not suitably designed

or operating effectively to achieve the related control objectives stated in the description. Our procedures also included testing the operating effectiveness of those controls that we consider necessary to provide reasonable assurance that the related control objectives stated in the description were achieved. An examination engagement of this type also includes evaluating the overall presentation of the description and the suitability of the control objectives stated therein, and the suitability of the criteria specified by the service organization and described at page [aa]. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Inherent limitations

Because of their nature, controls at a service organization may not prevent, or detect and correct, all errors or omissions in processing or reporting transactions [or *identification of the function performed by the system*]. Also, the projection to the future of any evaluation of the fairness of the presentation of the description, or conclusions about the suitability of the design or operating effectiveness of the controls to achieve the related control objectives is subject to the risk that controls at a service organization may become inadequate or fail.

Opinion

In our opinion, in all material respects, based on the criteria described in XYZ Service Organization's assertion on page [aa],

- a. the description fairly presents the [type or name of] system that was designed and implemented throughout the period [date] to [date].
- b. the controls related to the control objectives stated in the description were suitably designed to provide reasonable assurance that the control objectives would be achieved if the controls operated effectively throughout the period [date] to [date].
- c. the controls tested, which were those necessary to provide reasonable assurance that the control objectives stated in the description were achieved, operated effectively throughout the period [date] to [date].

Description of tests of controls

The specific controls tested and the nature, timing, and results of those tests are listed on pages [yy-zz].

Restricted use

This report, including the description of tests of controls and results thereof on pages [yy-zz], is intended solely for the information and use of XYZ Service Organization, user entities of XYZ Service Organization's [type or name of] system during some or all of the period [date] to [date], and the independent auditors of such user entities, who have a sufficient understanding to consider it, along with other information including information about controls implemented by user entities themselves, when assessing the risks of material misstatements of user entities' financial statements. This report is not intended to be and should not be used by anyone other than these specified parties.

[Service auditor's signature]

[Date of the service auditor's report]

[Service auditor's city and state]

Following is a modification of the scope paragraph in a type 2 service auditor's report if the description refers to the need for complementary user entity controls. (New language is shown in boldface italics):

We have examined XYZ Service Organization's description of its [type or name of] system for processing user entities' transactions [or identification of the function performed by the system] throughout the period [date] to [date] (description) and the suitability of the design and operating effectiveness of controls to achieve the related control objectives stated in the description. ***The description indicates that certain control objectives specified in the description can be achieved only if complementary user entity controls contemplated in the design of XYZ Service Organization's controls are suitably designed and operating effectively, along with related controls at the service organization. We have not evaluated the suitability of the design or operating effectiveness of such complementary user entity controls.***

Following is a modification of the applicable subparagraphs of the opinion paragraph of a type 2 service auditor's report if the application of complementary user entity controls is necessary to achieve the related control objectives stated in the description of the service organization's system (New language is shown in boldface italics):

- b. The controls related to the control objectives stated in the description were suitably designed to provide reasonable assurance that those control objectives would be achieved if the controls operated effectively throughout the period [date] to [date] ***and user entities applied the complementary user entity controls contemplated in the design of XYZ Service Organization's controls throughout the period [date] to [date].***
- c. The controls tested, which ***together with the complementary user entity controls referred to in the scope paragraph of this report, if operating effectively,*** were those necessary to provide reasonable assurance that the control objectives stated in the description were achieved, operated effectively throughout the period [date] to [date].

Following is a modification of the paragraph that describes the responsibilities of management of the service organization for use in a type 2 service auditor's report when the control objectives have been specified by an outside party. (New language is shown in boldface italics):

On page XX of the description, XYZ Service Organization has provided an assertion about the fairness of the presentation of the description and suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description. XYZ Service Organization is responsible for preparing the description and for its assertion], including the completeness, accuracy, and method of presentation of the description and assertion, providing the services covered by the description, selecting the criteria, and designing, implementing, and documenting controls to achieve the related control objectives stated in the description. ***The control objectives have been specified by [name of party specifying the control objectives] and are stated on page [aa] of the description.***

Example 2: Type 1 Service Auditor's Report**Independent Service Auditor's Report on a Description of a Service Organization's System and the Suitability of the Design of Controls**

To: XYZ Service Organization

Scope

We have examined XYZ Service Organization's description of its [*type or name of*] system for processing user entities' transactions [*or identification of the function performed by the system*] as of [*date*], and the suitability of the design of controls to achieve the related control objectives stated in the description.

Service organization's responsibilities

On page XX of the description, XYZ Service Organization has provided an assertion about the fairness of the presentation of the description and suitability of the design of the controls to achieve the related controls objectives stated in the description. XYZ Service Organization is responsible for preparing the description and for its assertion, including the completeness, accuracy, and method of presentation of the description and the assertion, providing the services covered by the description, specifying the control objectives and stating them in the description, identifying the risks that threaten the achievement of the control objectives, selecting the criteria, and designing, implementing, and documenting controls to achieve the related control objectives stated in the description.

Service auditor's responsibilities

Our responsibility is to express an opinion on the fairness of the presentation of the description and on the suitability of the design of the controls to achieve the related control objectives stated in the description, based on our examination. We conducted our examination in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform our examination to obtain reasonable assurance, in all material respects, about whether the description is fairly presented and the controls were suitably designed to achieve the related control objectives stated in the description as of [*date*].

An examination of a description of a service organization's system and the suitability of the design of the service organization's controls to achieve the related control objectives stated in the description involves performing procedures to obtain evidence about the fairness of the presentation of the description of the system and the suitability of the design of the controls to achieve the related control objectives stated in the description. Our procedures included assessing the risks that the description is not fairly presented and that the controls were not suitably designed to achieve the related control objectives stated in the description. An examination engagement of this type also includes evaluating the overall presentation of the description and the suitability of the control objectives stated therein, and the suitability of the criteria specified by the service organization and described at page [*aa*].

We did not perform any procedures regarding the operating effectiveness of the controls stated in the description and, accordingly, do not express an opinion thereon.

We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Inherent limitations

Because of their nature, controls at a service organization may not prevent, or detect and correct, all errors or omissions in processing or reporting transactions [*or identification of the function performed by the system*]. The projection

to the future of any evaluation of the fairness of the presentation of the description, or any conclusions about the suitability of the design of the controls to achieve the related control objectives is subject to the risk that controls at a service organization may become ineffective or fail.

Opinion

In our opinion, in all material respects, based on the criteria described in XYZ Service Organization's assertion,

- a. the description fairly presents the [type or name of] system that was designed and implemented as of [date], and
- b. the controls related to the control objectives stated in the description were suitably designed to provide reasonable assurance that the control objectives would be achieved if the controls operated effectively as of [date].

Restricted use

This report is intended solely for the information and use of XYZ Service Organization, user entities of XYZ Service Organization's [type or name of] system as of [date], and the independent auditors of such user entities, who have a sufficient understanding to consider it, along with other information including information about controls implemented by user entities themselves, when obtaining an understanding of user entities information and communication systems relevant to financial reporting. This report is not intended to be and should not be used by anyone other than these specified parties.

[Service auditor's signature]

[Date of the service auditor's report]

[Service auditor's city and state]

Following is a modification of the scope paragraph in a type 1 report if the description of the service organization's system refers to the need for complementary user entity controls. (New language is shown in boldface italics)

We have examined XYZ Service Organization's description of its [type or name of] system (description) made available to user entities of the system for processing their transactions [or identification of the function performed by the system] as of [date], and the suitability of the design of controls to achieve the related control objectives stated in the description. ***The description indicates that certain complementary user entity controls must be suitably designed and implemented at user entities for related controls at the service organization to be considered suitably designed to achieve the related control objectives. We have not evaluated the suitability of the design or operating effectiveness of such complementary user entity controls.***

Following is a modification of the applicable subparagraph in the opinion paragraph of a type 1 report if the application of complementary user entity controls is necessary to achieve the related control objectives stated in management's description of the service organization's system (New language is shown in boldface italics):

- b. The controls related to the control objectives stated in the description were suitably designed to provide reasonable assurance that those control objectives would be achieved if the controls operated effectively as of [date] ***and user entities applied the complementary user entity controls contemplated in the design of XYZ Service Organization's controls as of [date].***

Following is a modification of the paragraph that describes management of XYZ Service Organization's responsibilities to be used in a type 1 report when the control objectives have been specified by an outside party. (New language is shown in boldface italics):

On page XX of the description, XYZ Service Organization has provided an assertion about the fairness of the presentation of the description and suitability of the design of the controls to achieve the related control objectives stated in the description. XYZ Service Organization is responsible for preparing the description and assertion, including the completeness, accuracy, and method of presentation of the description and assertion, providing the services covered by the description, selecting the criteria, and designing, implementing, and documenting controls to achieve the related control objectives stated in the description. ***The control objectives have been specified by [name of party specifying the control objectives] and are stated on page [aa] of the description.***

.A69

Appendix B: Illustrative Modified Service Auditor's Reports

The following examples of modified service auditor's reports are for guidance only and are not intended to be exhaustive or applicable to all situations. They are based on the illustrative reports in appendix A.

Example 1: Qualified Opinion for a Type 2 Report—The Description of the Service Organization's System is Not Fairly Presented in All Material Respects

The following is an illustrative paragraph describing the basis for the qualified opinion. The paragraph would be inserted before the modified opinion paragraph. All other report paragraphs are unchanged.

Basis for qualified opinion

The accompanying description states on page [mn] that XYZ Service Organization uses operator identification numbers and passwords to prevent unauthorized access to the system. Based on inquiries of staff personnel and observation of activities, we have determined that operator identification numbers and passwords are employed in applications A and B but are not required to access the system in applications C and D.

Opinion

In our opinion, except for the matter described in the preceding paragraph, and based on the criteria described in XYZ Service Organization's assertion on page [aa], in all material respects. . .

Example 2: Qualified Opinion—The Controls are Not Suitably Designed to Provide Reasonable Assurance That the Control Objectives Stated in the Description of the Service Organization's System Would be Achieved if the Controls Operated Effectively

The following is an illustrative paragraph describing the basis for the qualified opinion. The paragraph would be inserted before the modified opinion paragraph. All other report paragraphs are unchanged.

Basis for qualified opinion

As discussed on page [mn] of the accompanying description, from time to time, XYZ Service Organization makes changes in application programs to correct deficiencies or to enhance capabilities. The procedures followed in determining whether to make changes, in designing the changes, and in implementing them do not include review and approval by authorized individuals who are independent from those involved in making the changes. There also are no specified requirements to test such changes or provide test results to an authorized reviewer prior to implementing the changes. As a result the controls are not suitably designed to achieve the control objective, "Controls provide reasonable assurance that changes to existing applications are authorized, tested, approved, properly implemented, and documented."

Opinion

In our opinion, except for the matter described in the preceding paragraph, and based on the criteria described in XYZ Service Organization's assertion on page [aa], in all material respects. . .

Example 3: Qualified Opinion for a Type 2 Report—The Controls Did Not Operate Effectively Throughout the Specified Period to Achieve the Control Objectives Stated in the Description of the Service Organization’s System

The following is an illustrative paragraph describing the basis for the qualified opinion. The paragraph would be inserted before the modified opinion paragraph. All other report paragraphs are unchanged.

Basis for qualified opinion

XYZ Service Organization states in its description that it has automated controls in place to reconcile loan payments received with the various output reports. However, as noted on page [mn] of the description of tests of controls and results thereof, this control was not operating effectively throughout the period [date] to [date] due to a programming error. This resulted in the nonachievement of the control objective, "Controls provide reasonable assurance that loan payments received are properly recorded" throughout the period January 1, 20X1, to April 30, 20X1. XYZ Service Organization implemented a change to the program performing the calculation as of May 1, 20X1, and our tests indicate that it was operating effectively throughout the period May 1, 20X1, to December 31, 20X1.

Opinion

In our opinion, except for the matter described in the preceding paragraph, and based on the criteria described in XYZ Service Organization's assertion on page [aa], in all material respects. . . .

Example 4: Qualified Opinion—The Service Auditor is Unable to Obtain Sufficient Appropriate Evidence

The following is an illustrative paragraph describing the basis for the qualified opinion. The paragraph would be inserted before the modified opinion paragraph. All other report paragraphs are unchanged.

Basis for qualified opinion

XYZ Service Organization states in its description that it has automated controls in place to reconcile loan payments received with the output generated. However, electronic records of the performance of this reconciliation for the period from [date] to [date] were deleted as a result of a computer processing error and, therefore, we were unable to test the operation of this control for that period. Consequently, we were unable to determine whether the control objective, "Controls provide reasonable assurance that loan payments received are properly recorded" was achieved throughout the period [date] to [date].

Opinion

In our opinion, except for the matter described in the preceding paragraph, and based on the criteria described in XYZ Service Organization's assertion on page [aa], in all material respects. . . .

.A70

Appendix C: Illustrative Report Paragraphs for Service Organizations That Use a Subservice Organization

Following are modifications of the illustrative type 2 report in example 1 of appendix A for use in engagements in which the service organization uses a subservice organization. (New language is shown in boldface italics; deleted language is shown by strikethrough.)

Example 1: Carve-Out Method

Scope

We have examined XYZ Service Organization's description of its system for processing user entities' transactions [*or identification of the function performed by the system*] throughout the period [*date*] to [*date*] (description) and the suitability of the design and operating effectiveness of controls to achieve the related control objectives stated in the description.

XYZ Service Organization uses a computer processing service organization for all of its computerized application processing. The description on pages [bb–cc] includes only the controls and related control objectives of XYZ Service Organization and excludes the control objectives and related controls of the computer processing service organization. Our examination did not extend to controls of the computer processing service organization.

All other report paragraphs are unchanged.

Example 2: Inclusive Method

Scope

We have examined XYZ Service Organization's ***and ABC Subservice Organization's*** description of ~~its~~ ***their*** [*type or name of*] system for processing user entities' transactions [*or identification of the function performed by the system*] throughout the period [*date*] to [*date*] (description) and the suitability of the design and operating effectiveness of ***XYZ Service Organization's and ABC Subservice Organization's*** controls to achieve the related control objectives stated in the description. ***ABC Subservice Organization is an independent service organization that provides computer processing services to XYZ Service Organization. XYZ Service Organization's description includes a description of ABC Subservice Organization's*** [*type or name of*] system used by XYZ Service Organization to process transactions for its user entities, as well as relevant control objectives and controls of ABC Subservice Organization.

XYZ Service Organization's responsibilities

On page XX of the description, XYZ Service Organization ***and ABC Subservice Organization*** ~~has~~ ***have*** provided ~~an~~ ***their*** assertions about the fairness of the presentation of the description and suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description. XYZ Service Organization ***and ABC Subservice Organization*** ~~are~~ ***is*** responsible for preparing the description and assertions, including the completeness, accuracy, and method of presentation of the description and assertions, providing the services covered by the description, specifying the control objectives and stating them in the description, identifying the risks that threaten the achievement of the control objectives, selecting the criteria,

and designing, implementing, and documenting controls to achieve the related control objectives stated in the description.

Inherent limitations

Because of their nature, controls at a service organization **or subservice organization** may not prevent, or detect and correct, all errors or omissions in processing or reporting transactions. Also, the projection to the future of any evaluation of the fairness of the presentation of the description or any conclusions about the suitability of the design or operating effectiveness of the controls to achieve the related control objectives is subject to the risk that controls at a service organization **or subservice organization** may become ineffective or fail.

Opinion

In our opinion, in all material respects, based on the criteria specified in XYZ Service Organization's and ABC Subservice Organization's assertions on page [aa],

- a. the description fairly presents **XYZ Service Organization's** ~~the~~ [type or name of] system **and ABC Subservice Organization's** [type or name of] system used by XYZ Service Organization to process transactions for its user entities [or identification of the function performed by the service organization's system] that ~~were~~ was designed and implemented throughout the period [date] to [date].
- b. the controls related to the control objectives of **XYZ Service Organization and ABC Subservice Organization** stated in the description were suitably designed to provide reasonable assurance that the control objectives would be achieved if the controls operated effectively throughout the period [date] to [date].
- c. the controls of **XYZ Service Organization and ABC Subservice Organization** that we tested, which were those necessary to provide reasonable assurance that the control objectives stated in the description were achieved, operated effectively throughout the period [date] to [date].

All other report paragraphs are unchanged.

.A71

Exhibit A: Illustrative Assertions by Management of a Service Organization

The assertion by management of the service organization may be included in management's description of the service organization's system or may be attached to the description. The following illustrative assertions are intended for assertions that are included in the description.

The following illustrative management assertions are for guidance only and are not intended to be exhaustive or applicable to all situations.

Example 1: Assertion by Management of a Service Organization for a Type 2 Report

XYZ Service Organization's Assertion

We have prepared the description of XYZ Service Organization's [*type or name of*] system (description) for user entities of the system during some or all of the period [*date*] to [*date*], and their user auditors who have a sufficient understanding to consider it, along with other information, including information about controls implemented by user entities of the system themselves, when assessing the risks of material misstatements of user entities' financial statements. We confirm, to the best of our knowledge and belief, that

- a. the description fairly presents the [*type or name of*] system made available to user entities of the system during some or all of the period [*date*] to [*date*] for processing their transactions [*or identification of the function performed by the system*]. The criteria we used in making this assertion were that the description
 - i. presents how the system made available to user entities of the system was designed and implemented to process relevant transactions, including
 - (1) the classes of transactions processed.
 - (2) the procedures, within both automated and manual systems, by which those transactions are initiated, authorized, recorded, processed, corrected as necessary, and transferred to the reports presented to user entities of the system.
 - (3) the related accounting records, supporting information, and specific accounts that are used to initiate, authorize, record, process, and report transactions; this includes the correction of incorrect information and how information is transferred to the reports presented to user entities of the system.
 - (4) how the system captures and addresses significant events and conditions, other than transactions.
 - (5) the process used to prepare reports or other information provided to user entities' of the system.
 - (6) specified control objectives and controls designed to achieve those objectives.

- (7) other aspects of our control environment, risk assessment process, information and communication systems (including the related business processes), control activities, and monitoring controls that are relevant to processing and reporting transactions of user entities of the system.
- ii. does not omit or distort information relevant to the scope of the [*type or name of*] system, while acknowledging that the description is prepared to meet the common needs of a broad range of user entities of the system and the independent auditors of those user entities, and may not, therefore, include every aspect of the [*type or name of*] system that each individual user entity of the system and its auditor may consider important in its own particular environment.
- b. the description includes relevant details of changes to the service organization's system during the period covered by the description when the description covers a period of time.
- c. the controls related to the control objectives stated in the description were suitably designed and operated effectively throughout the period [*date*] to [*date*] to achieve those control objectives. The criteria we used in making this assertion were that
 - i. the risks that threaten the achievement of the control objectives stated in the description have been identified by the service organization;
 - ii. the controls identified in the description would, if operating as described, provide reasonable assurance that those risks would not prevent the control objectives stated in the description from being achieved; and
 - iii. the controls were consistently applied as designed, including whether manual controls were applied by individuals who have the appropriate competence and authority.

Example 2: Assertion by Management of a Service Organization for a Type 1 Report

XYZ Service Organization's Assertion

We have prepared the description of XYZ Service Organization's [*type or name of*] system (description) for user entities of the system as of [*date*], and their user auditors who have a sufficient understanding to consider it, along with other information including information about controls implemented by user entities themselves, when obtaining an understanding of user entities' information and communication systems relevant to financial reporting. We confirm, to the best of our knowledge and belief, that

- a. the description fairly presents the [*type or name of*] system made available to user entities of the system as of [*date*] for processing their transactions [*or identification of the function performed by the system*]. The criteria we used in making this assertion were that the description
 - i. presents how the system made available to user entities of the system was designed and implemented to process relevant transactions, including
 - (1) the classes of transactions processed.

- (2) the procedures, within both automated and manual systems, by which those transactions are initiated, authorized, recorded, processed, corrected as necessary, and transferred to the reports presented to user entities of the system.
 - (3) the related accounting records, supporting information, and specific accounts that are used to initiate, authorize, record, process, and report transactions; this includes the correction of incorrect information and how information is transferred to the reports provided to user entities of the system.
 - (4) how the system captures and addresses significant events and conditions, other than transactions.
 - (5) the process used to prepare reports or other information provided to user entities of the system.
 - (6) specified control objectives and controls designed to achieve those objectives.
 - (7) other aspects of our control environment, risk assessment process, information and communication systems (including the related business processes), control activities, and monitoring controls that are relevant to processing and reporting transactions of user entities of the system.
- ii. does not omit or distort information relevant to the scope of the *[type or name of]* system, while acknowledging that the description is prepared to meet the common needs of a broad range of user entities of the system and the independent auditors of those user entities, and may not, therefore, include every aspect of the *[type or name of]* system that each individual user entity of the system and its auditor may consider important in its own particular environment.
- b. the controls related to the control objectives stated in the description were suitably designed as of *[date]* to achieve those control objectives. The criteria we used in making this assertion were that
 - i. the risks that threaten the achievement of the control objectives stated in the description have been identified by the service organization.
 - ii. the controls identified in the description would, if operating as described, provide reasonable assurance that those risks would not prevent the control objectives stated in the description from being achieved.

.A72

Exhibit B: Comparison of Requirements of Section 801, *Reporting On Controls at a Service Organization*, With Requirements of International Standard on Assurance Engagements 3402, *Assurance Reports on Controls at a Service Organization*

This analysis was prepared by the AICPA Audit and Attest Standards staff to highlight substantive differences between section 801, *Reporting on Controls at a Service Organization*, and International Standard on Assurance Engagements (ISAE) 3402, *Assurance Reports on Controls at a Service Organization*, and to explain the rationale for those differences. This analysis is not authoritative and is prepared for informational purposes only.

1. Intentional Acts by Service Organization Personnel

Paragraph .26 of this section requires the service auditor to investigate the nature and cause of any deviations identified, as does paragraph 28 of ISAE 3402. Paragraph .27 of this section indicates that if the service auditor becomes aware that the deviations resulted from intentional acts by service organization personnel, the service auditor should assess the risk that the description of the service organization's system is not fairly presented and that the controls are not suitably designed or operating effectively. The ISAE does not contain the requirement included in paragraph .27 of this section. The Auditing Standards Board (ASB) believes that information about intentional acts affects the nature, timing, and extent of the service auditor's procedures. Therefore, paragraph .27 provides follow-up action for the service auditor when he or she obtains information about intentional acts as a result of performing the procedures in paragraph .26 of this section.

Paragraph .36(c)(ii) of this section, which is not included in ISAE 3402, also requires the service auditor to request written representations from management that it has disclosed to the service auditor knowledge of any actual, suspected, or alleged intentional acts by management or the service organization's employees, of which it is aware, that could adversely affect the fairness of the presentation of management's description of the service organization's system or the completeness or achievement of the control objectives stated in the description.

2. Anomalies

Paragraph 29 of ISAE 3402 contains a requirement that enables a service auditor to conclude that a deviation identified in tests of controls involving sampling is not representative of the population from which the sample was drawn. This section does not include this requirement because of concerns about use of terms such as, "in the extremely rare circumstances" and "a high degree of certainty." These terms are not used in U.S professional standards and the ASB believes their introduction in this section could have unintended consequences. The ASB also believes that the deletion of this requirement will enhance examination quality because deviations identified by the service auditor in tests of controls involving sampling will be treated in the same manner as any other deviation identified by the practitioner, rather than as an anomaly.

3. Direct Assistance

Paragraph .35 of this section requires the service auditor to adapt and apply the requirements in paragraph .27 of AU section 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, when the service auditor uses members of the service organization's internal audit function to provide direct assistance. Because AU section 322 provides for an auditor to use the work of the internal audit function in a direct assistance capacity, paragraph .35 of this section also provides for this. The International Standards on Auditing and the ISAEs do not provide for use of the internal audit function for direct assistance.

4. Subsequent Events

With respect to events that occur subsequent to the period covered by the description of the service organization's system up to the date of the service auditor's report, paragraph .42 of this section requires the service auditor to disclose in the service auditor's report, if not disclosed by management in its description, any event that is of such a nature and significance that its disclosure is necessary to prevent users of a type 1 or type 2 report from being misled. The ASB believes that information about such events could be important to user entities and their auditors. ISAE 3402 limits the types of subsequent events that would need to be disclosed in the service auditor's report to those that could have a significant effect on the service auditor's report.

Paragraph .43 of this section requires the service auditor to adapt and apply the guidance in AU section 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*, if, after the release of the service auditor's report, the service auditor becomes aware of conditions that existed at the report date that might have affected management's assertion and the service auditor's report had the service auditor been aware of them. The ISAE does not include a similar requirement. The ASB believes that, by analogy, AU section 561 provides needed guidance to a service auditor by presenting the various circumstances that could occur during the subsequent events period and the actions a service auditor should take.

5. Statement Restricting Use of the Service Auditor's Report

This section requires the service auditor's report to include a statement restricting the use of the report to management of the service organization, user entities of the service organization's system, and user auditors. The ASB believes that the unambiguous language in the restricted use statement prevents misunderstanding regarding who the report is intended for. Paragraphs .A61–.A62 of this section explain the reasons for restricting the use of the report. ISAE 3402 requires the service auditor's report to include a statement indicating that the report is intended only for user entities and their auditors. However, the ISAE does not require the inclusion of a statement restricting the use of the report to specified parties, although it does not prohibit the inclusion of restricted use language in the report.

6. Documentation Completion

Paragraph 50 of the ISAE requires the service auditor to assemble the documentation in an engagement file and complete the administrative process of assembling the final engagement file on a timely basis after the date of the service auditor's assurance report. Paragraph .49 of this section also requires the service auditor to assemble the engagement documentation in an engagement

file and complete the administrative process of assembling the final engagement file on a timely basis, but also indicates that a timely basis is no later than 60 days following the service auditor's report release date. The ASB made this change to parallel the definition of *documentation completion date* in paragraph .27 of AU section 339, *Audit Documentation*.

7. Engagement Acceptance and Continuance

Paragraph .09 of this section establishes conditions for the acceptance and continuance of an engagement to report on controls at a service organization. One of the conditions is that management acknowledge and accept responsibility for providing the service auditor with written representations at the conclusion of the engagement. ISAE 3402 does not include this requirement as a condition of engagement acceptance and continuance.

8. Disclaimer of Opinion

If management does not provide the service auditor with certain written representations, paragraph 40 of ISAE 3402 requires the service auditor, after discussing the matter with management, to disclaim an opinion. In the same circumstances, paragraph .39 of this section requires the service auditor to take appropriate action, which may include disclaiming an opinion or withdrawing from the engagement.

Paragraphs .56–.57 of this section contain certain incremental requirements when the service auditor plans to disclaim an opinion.

9. Elements of the Section 801 Report That Are Not Required in the ISAE 3402 Report

Paragraphs .52–.53 of this section contain certain requirements regarding the content of the service auditor's report, which are incremental to those in ISAE 3402. These incremental requirements are included in paragraphs .52(c)(iii); .52(e)(iv); .52(i); and .52(k) for type 2 reports, and in paragraphs .53(c)(iii); .53(e)(iv); .53(j); and .53(k) for type 1 reports.

AICPA's Online Professional Library

AICPA's Online Professional Library is a Web-based research tool which provides the technical knowledge that accounting and auditing professionals need. Choose from either individual titles, bundled sets for certain industries, or libraries containing a full array of titles.

The Online Professional Library includes powerful tools and user-friendly functions to facilitate research and productivity, including:

- Robust Search
- Extensive linkages within and between titles
- User notes, saved search, and bookmarking capabilities
- Ability to open multiple documents and navigate between them
- Cross-reference tools
- Ability to download certain forms and checklists in MS Word or Excel

The following individual titles are available through the AICPA's Online Professional Library:

- AICPA Professional Standards
- Technical Practice Aids
- Audit & Accounting Manual
- PCAOB Standards & Related Rules
- Accounting Trends & Techniques
- IFRS Accounting Trends & Techniques
- All current Audit and Accounting Guides
- Accounting Trends & Techniques — Employee Benefit Plans
- Accounting Trends & Techniques — Not-for-Profit Entities
- All current Audit Risk Alerts
- Certain Practice Aids
- eXacct: Financial Reporting Tools & Techniques

Also available are industry specific bundles for employee benefit plans, not-for-profit entities, government, brokers and dealers, and independence. You may also subscribe to our larger libraries containing most AICPA titles with the option of adding the FASB *Accounting Standards Codification*[™] and GASB literature.

Get complete details and ordering information — by visiting the AICPA Store at www.cpa2biz.com/publications or call **1-888-777-7077**
