¹³ For an entity subject to conservatorship or liquidation under the National Credit Union Act, the examples and discussion in this paragraph would be modified to make appropriate references to "liquidation" and "liquidating agent" and additional information relating to rights and regulations of the National Credit Union Administration. [Footnote renumbered, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

¹⁴ When the opinion indicates that isolation is achieved without reference to a true sale, the opinion also should provide reasonable assurance that the transferred assets are beyond the reach of the transferor and its creditors other than the transferee to the same extent that is provided in paragraph B of example 2. [Footnote renumbered, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

Assets as property of the Bank or of the conservatorship or receivership for the Bank; provided, however, that we offer no opinion as to whether, in receivership, the FDIC or any creditor of the Bank may take any such actions if the Holders [*holders of beneficial interests in the transferred assets*] receive payment of the principal amount of the Interests and the interest earned thereon (at the contractual yield) through the date the Holders are so paid; and

- B. Prior to the appointment of the FDIC as conservator or receiver for the Bank, the Bank and its other creditors would not have the right to reclaim or recover the Transferred Assets from the Issuer, except by the exercise of a contractual provision [insert appropriate citation] to require the transfer, or return, of the Transferred Assets that exists solely as a result of the contract between the Bank and the Issuer.¹⁵

The following additional paragraph addressing substantive consolidation applies when the entity to which the assets are sold or transferred (as described in the opinion) is an affiliate of the selling entity and may also apply in other situations as noted by the legal specialist.¹⁶ For example, if a so-called two-step structure has been used to achieve isolation, the following paragraph usually will be required with respect to the transferee in the first step of the structure (see paragraph .15 [and related footnotes] of this interpretation for additional guidance on the second step of a two-step structure as described in paragraphs 22–23 of FASB ASC 860-10-55). When the transferor has entered into transactions with an affiliate that could affect the issue of substantive consolidation, the opinion should address the effect of that involvement on the opinion:

Based upon the assumptions of fact and the discussion set forth previously, and on a reasoned analysis of analogous case law, *we are of the opinion that* in a properly presented and argued case, as a legal matter, in a receivership, conservatorship, or liquidation proceeding in respect of the Seller, a court *would not* grant an order consolidating the assets and liabilities of the Purchaser with those of the Seller.

Certain powers to repudiate contracts, recover, reclaim, or recharacterize transferred assets as property of a transferor that are exercisable by the FDIC under the FDIA may, as of the date of the transfer, be limited by a regulation that may be repealed or amended only in respect of transfers occurring on or after the effective date of such repeal or amendment.¹⁷ With respect to the powers of a receiver or conservator that may not be exercised under that regulation, it

¹⁵ See the second paragraph of footnote 6.

Paragraph B is not required if the opinion includes both a conclusion, as set forth in example 1, that the transfer constitutes a "true sale" and the conclusions set forth in paragraph A of example 2. It is not necessary to include any provision of example 2 if the opinion is as set forth in example 1. [Footnote renumbered and revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

¹⁶ An additional substantive consolidation opinion is not required if the opinion states that its conclusion includes the inability to recover the transferred financial assets or recharacterize the transfer by application of the doctrine of "substantive consolidation." [Footnote renumbered, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

¹⁷ The applicable regulation is 12 U.S. *Code of Federal Regulations* 360.6, effective September 11, 2000. [Footnote renumbered, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

is acceptable for attorneys to rely upon the effectiveness of the limitation on such powers set forth in the applicable regulation, provided that the attorney states, based on reasonable assumptions, that (a) the affected transfer of financial assets meets all qualification requirements of the regulation, and (b) the regulation had not, as of the date of the opinion, been amended, repealed, or held inapplicable by a court with jurisdiction with respect to such transfer. The opinion should separately address any powers of repudiation, recovery, reclamation, or recharacterization exercisable by a receiver or conservator notwithstanding that regulation (for example, rights, powers, or remedies regarding transfers specifically excluded from the regulation) in a manner that provides the same level of assurance as would be provided in the case of opinions that conform with requirements of paragraph .13 of this interpretation, except that such opinion shall address powers arising under the FDIA. The considerations in the immediately preceding three sentences are adequately addressed either by the example 1 opinion or the example 2 opinion described in this paragraph or by the variations described in the second paragraph of footnote 15 and in footnote 16 of this interpretation.

.15 A legal letter that includes an inadequate opinion, inappropriate limitations, or a disclaimer of opinion, or that effectively limits the scope of the opinion to facts and circumstances that are not applicable to the transaction, does not provide persuasive evidence to support the entity's assertion that the transferred assets have been put presumptively beyond the reach of the transferor and its creditors, even in bankruptcy or other receivership. Likewise, a legal letter that includes conclusions that are expressed using some of the following language would not provide persuasive evidence that a transfer of financial assets has met the isolation criterion of FASB ASC 860-10-40-5(a) (see paragraphs .20–.21 of this interpretation):

- "We are unable to express an opinion . . ."
- "It is our opinion, based upon limited facts . . ."
- "We are of the view . . ." or "it appears . . ."
- "There is a reasonable basis to conclude that . . ."
- "In our opinion, the transfer would *either* be a sale *or* a grant of a perfected security interest . . ."¹⁸
- "In our opinion, there is a reasonable possibility . . ."
- "In our opinion, the transfer *should* be considered a sale . . ."
- "It is our opinion that the company will be able to assert meritorious arguments . . ."
- "In our opinion, it is more likely than not . . ."
- "In our opinion, the transfer would *presumptively* be . . ."
- "In our opinion, it is probable that . . ."

¹⁸ Certain transferors are subject only to receivership (and not to proceedings under the U.S. Bankruptcy Code or the Federal Deposit Insurance Act) under laws that do not allow a receiver to reach assets in which a security interest has been granted. In such circumstances, an opinion that concludes that the transfer would either be a sale or a grant of a security interest that puts the transferred assets beyond the reach of such receiver and other creditors would provide persuasive evidence that the isolation criterion is met.

In certain circumstances, a legal specialist may provide an opinion on both steps of a two-step structure. Such language would be acceptable in an opinion for a transfer of assets in the second step of a two-step structure as described in paragraphs 22–23 of FASB ASC 860-10-55 provided that the opinion on the transfer in the first step is consistent with paragraphs .13 or .14 of this interpretation. [Footnote renumbered and revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

Furthermore, conclusions about hypothetical transactions may not be relevant to the transaction that is the subject of management's assertions. Section 500 states that the "auditor should design and perform audit procedures that are appropriate in the circumstances for the purpose of obtaining sufficient appropriate audit evidence."¹⁹ Additionally, conclusions about hypothetical transactions may not contemplate all of the facts and circumstances or the provisions in the agreements of the transaction that is the subject of management's assertions, and generally would not provide persuasive evidence.²⁰

.16 Question—Are legal opinions that restrict the use of the opinion to the client, or to third parties other than the auditor, acceptable audit evidence?

.17 Interpretation—No. In some cases, the auditor may decide it is necessary to contact the specialist to determine that the specialist is aware that his or her work will be used for evaluating the assertions in the financial statements.²¹ Given the importance of the legal opinion to the assertion in this case, and the precision that legal specialists use in drafting such opinions, an auditor should not use as evidence a legal opinion that he or she deems otherwise adequate if the letter restricts use of the findings expressed therein to the client or to third parties other than the auditor. In that event, the auditor requests that the client obtain the legal specialist's written permission for the auditor to use the opinion for the purpose of evaluating management's assertion that a transfer of financial assets meets the isolation criterion of FASB ASC 860-10-40-5(a).

.18 An example of a letter from a legal specialist to a client that adequately communicates permission for the auditor to use the legal specialist's opinion for the purpose of evaluating management's assertion that a transfer of financial assets meets the isolation criterion of FASB ASC 860-10-40-5(a) is as follows:

Notwithstanding any language to the contrary in our opinions of even date with respect to certain bankruptcy issues relating to the previously referenced transaction, you are authorized to make available to your auditors such opinions solely as audit evidence in support of their evaluation of management's assertion that the transfer of the receivables meets the isolation criterion of Financial Accounting Standards Board *Accounting Standards Codification* 860-10-40-5(a), provided a copy of this letter is furnished to them in connection therewith. In authorizing you to make copies of such opinions available to your auditors for such purpose, we are not undertaking or assuming any duty or obligation to your auditors or establishing any lawyer-client relationship with them. Further, we do not undertake or assume any responsibility with respect to financial statements of you or your affiliates.²²

.19 A letter from a legal specialist to a client might authorize the client to make copies of the legal opinion available to the auditor to use in his or her evaluation of management's assertion that a transfer of financial assets meets the isolation criterion of FASB ASC 860-10-40-5(a) but then state that the auditor is not authorized to rely thereon. Such "use but not rely on" language, or other language that similarly restricts the auditor's use of the legal specialist's

¹⁹ Paragraph .06 of section 500.

²⁰ For example, a memorandum of law from a legal specialist usually analyzes (and may make conclusions about) a transaction that may be completed subsequently. Such memorandum generally would not provide persuasive evidence unless the conclusions conform with this interpretation and a legal specialist opines that such conclusions apply to a completed transaction that is the subject of management's assertion. [Footnote renumbered, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

²¹ Paragraph .A39 of section 500.

²² This language may appear in the legal specialist's opinion rather than in a separate letter. In that case, the wording would be modified slightly to indicate the context. [Footnote renumbered, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

opinion, does not adequately communicate permission for the auditor to use the legal specialist's opinion as audit evidence. The auditor may consider consulting with his or her legal counsel in circumstances in which it is not clear that the auditor may use the legal specialist's opinion.

.20 Question—If the auditor determines that it is appropriate to use the work of a legal specialist, and either the resulting legal response does not provide persuasive evidence that a transfer of assets has met the isolation criterion or the legal specialist does not grant permission for the auditor to use a legal opinion that is restricted to the client or to third parties other than the auditor, what other steps might an auditor consider?

.21 Interpretation—When other relevant audit evidence exists, the auditor should consider it before reaching a conclusion about the appropriateness of management's accounting for a transfer.²³ However, because the isolation aspect of surrender of control is assessed primarily from a legal perspective, the auditor usually will not be able to obtain persuasive evidence in a form other than a legal opinion. In the absence of persuasive evidence that a transfer has met the isolation criterion, derecognition of the transferred assets is not in conformity with generally accepted accounting principles and the auditor may need to express a qualified or adverse opinion in accordance with section 705, *Modifications to the Opinion in the Independent Auditor's Report*.²⁴ However, if permission for the auditor to use a legal opinion that he or she deems otherwise adequate is not granted, this would be a scope limitation and the auditor should consider the need to express a qualified opinion or to disclaim an opinion in accordance with section 705.²⁵

[Issue Date: December 2001; Revised: March 2006; Revised: June 2009;
Revised: October 2011, effective for audits of financial statements
for periods ending on or after December 15, 2012.]

²³ See paragraph .13 of section 620, *Using the Work of an Auditor's Specialist*, regarding additional procedures that may be applied. [Footnote renumbered, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

²⁴ Paragraphs .07–.09 of section 705, *Modifications to the Opinion in the Independent Auditor's Report*.

²⁵ Paragraphs .11–.14 of section 705.

AU-C Section 700

Forming an Opinion and Reporting on Financial Statements

Source: SAS No. 122.

See section 9700 for interpretations of this section.

Effective for audits of financial statements for periods ending on or after December 15, 2012.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibility to form an opinion on the financial statements. It also addresses the form and content of the auditor's report issued as a result of an audit of financial statements.

.02 This section is written in the context of a complete set of general purpose financial statements.

.03 Section 705, *Modifications to the Opinion in the Independent Auditor's Report*, and section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*, address how the form and content of the auditor's report are affected when the auditor expresses a modified opinion (a qualified opinion, an adverse opinion, or a disclaimer of opinion) or includes an emphasis-of-matter paragraph or other-matter paragraph in the auditor's report.

.04 Section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*, addresses special considerations when financial statements are prepared in accordance with a special purpose framework.¹ Section 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*, addresses special considerations relevant to an audit of a single financial statement or of a specific element, account, or item of a financial statement. (Ref: par. .A1)

.05 Section 810, *Engagements to Report on Summary Financial Statements*, applies when an auditor is engaged to report separately on summary financial statements² derived from financial statements audited in accordance with generally accepted auditing standards (GAAS) by the same auditor. Section 730, *Required Supplementary Information*, addresses the auditor's responsibilities relating to information supplementary to the basic financial statements that is required by a designated accounting standards setter to accompany such financial statements.

.06 Section 910, *Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country*, applies

¹ See section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*, for a definition of special purpose framework.

² Paragraph .06 of section 810, *Engagements to Report on Summary Financial Statements*, defines the term *summary financial statements*.

when an auditor practicing in the United States is engaged to report on financial statements that have been prepared in accordance with a financial reporting framework generally accepted in another country not adopted by a body designated by the Council of the AICPA (Council) to establish generally accepted accounting principles that are intended for use outside the United States.

.07 Section 510, *Opening Balances—Initial Audit Engagements, Including Reaudit Engagements*, applies when the financial statements of the prior period have been audited by a predecessor auditor or were not audited.

.08 This section promotes consistency in the auditor's report. Consistency in the auditor's report, when the audit has been conducted in accordance with GAAS, promotes credibility in the marketplace by making more readily identifiable those audits that have been conducted in accordance with recognized standards. Consistency also helps promote users' understanding and identification of unusual circumstances when they occur.

Effective Date

.09 This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

Objectives

- .10** The objectives of the auditor are to
- a. form an opinion on the financial statements based on an evaluation of the audit evidence obtained, including evidence obtained about comparative financial statements or comparative financial information, and
 - b. express clearly that opinion on the financial statements through a written report that also describes the basis for that opinion. (Ref: par. .A2)

Definitions

.11 For purposes of GAAS, the following terms have the meanings attributed as follows:

Comparative financial statements. A complete set of financial statements³ for one or more prior periods included for comparison with the financial statements of the current period.

Comparative information. Prior period information presented for purposes of comparison with current period amounts or disclosures that is not in the form of a complete set of financial statements. Comparative information includes prior period information presented as condensed financial statements or summarized financial information.

Condensed financial statements. Historical financial information⁴ that is presented in less detail than a complete set of financial statements, in accordance with an appropriate financial reporting framework. Condensed financial statements may be separately presented as unaudited financial information or may be presented as comparative information.

³ See section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*, for a definition of *financial statements*.

⁴ Paragraph .14 of section 200 defines the term *historical financial information*.

General purpose financial statements. Financial statements prepared in accordance with a general purpose framework. (Ref: par. .A3)

General purpose framework. A financial reporting framework designed to meet the common financial information needs of a wide range of users.

Unmodified opinion. The opinion expressed by the auditor when the auditor concludes that the financial statements are presented fairly, in all material respects, in accordance with the applicable financial reporting framework.⁵

.12 Reference to *financial statements* in this section means a complete set of general purpose financial statements, including the related notes. The related notes ordinarily comprise a summary of significant accounting policies and other explanatory information. The requirements of the applicable financial reporting framework determine the form and content of the financial statements and what constitutes a complete set of financial statements.

Requirements

Forming an Opinion on the Financial Statements

.13 The auditor should form an opinion on whether the financial statements are presented fairly, in all material respects, in accordance with the applicable financial reporting framework.

.14 In order to form that opinion, the auditor should conclude whether the auditor has obtained reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error. That conclusion should take into account the following: (Ref: par. .A4)

- a. The auditor's conclusion, in accordance with section 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*, about whether sufficient appropriate audit evidence has been obtained⁶
- b. The auditor's conclusion, in accordance with section 450, *Evaluation of Misstatements Identified During the Audit*, about whether uncorrected misstatements are material, individually or in aggregate⁷
- c. The evaluations required by paragraphs .15–.18

.15 The auditor should evaluate whether the financial statements are prepared, in all material respects, in accordance with the requirements of the applicable financial reporting framework. This evaluation should include consideration of the qualitative aspects of the entity's accounting practices, including indicators of possible bias in management's judgments. (Ref: par. .A5–.A7)

.16 In particular, the auditor should evaluate whether, in view of the requirements of the applicable financial reporting framework

- a. the financial statements adequately disclose the significant accounting policies selected and applied;

⁵ See section 200 for a definition of *applicable financial reporting framework*.

⁶ Paragraph .28 of section 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*.

⁷ Paragraph .11 of section 450, *Evaluation of Misstatements Identified During the Audit*.

- b. the accounting policies selected and applied are consistent with the applicable financial reporting framework and are appropriate;
- c. the accounting estimates made by management are reasonable;
- d. the information presented in the financial statements is relevant, reliable, comparable, and understandable;
- e. the financial statements provide adequate disclosures to enable the intended users to understand the effect of material transactions and events on the information conveyed in the financial statements; and (Ref: par. .A8)
- f. the terminology used in the financial statements, including the title of each financial statement, is appropriate.

.17 The auditor's evaluation about whether the financial statements achieve fair presentation should also include consideration of the following:

- a. The overall presentation, structure, and content of the financial statements
- b. Whether the financial statements, including the related notes, represent the underlying transactions and events in a manner that achieves fair presentation (Ref: par. .A9)

.18 The auditor should evaluate whether the financial statements adequately refer to or describe the applicable financial reporting framework. (Ref: par. .A10–.A13)

Form of Opinion

.19 The auditor should express an unmodified opinion when the auditor concludes that the financial statements are presented fairly, in all material respects, in accordance with the applicable financial reporting framework.

.20 The auditor should modify the opinion in the auditor's report, in accordance with section 705, if the auditor

- a. concludes that, based on the audit evidence obtained, the financial statements as a whole are materially misstated or
- b. is unable to obtain sufficient appropriate audit evidence to conclude that the financial statements as a whole are free from material misstatement.

.21 If the auditor concludes that the financial statements do not achieve fair presentation, the auditor should discuss the matter with management and, depending on how the matter is resolved, should determine whether it is necessary to modify the opinion in the auditor's report in accordance with section 705. (Ref: par. .A14–.A15)

Auditor's Report

.22 The auditor's report should be in writing. (Ref: par. .A16–.A17)

Auditor's Report for Audits Conducted in Accordance With GAAS*Title*

.23 The auditor's report should have a title that includes the word *independent* to clearly indicate that it is the report of an independent auditor. (Ref: par. .A18)

Addressee

.24 The auditor's report should be addressed as required by the circumstances of the engagement. (Ref: par. .A19)

Introductory Paragraph

.25 The introductory paragraph in the auditor's report should (Ref: par. .A20–.A23)

- a. identify the entity whose financial statements have been audited,
- b. state that the financial statements have been audited,
- c. identify the title of each statement that the financial statements comprise, and
- d. specify the date or period covered by each financial statement that the financial statements comprise.

Management's Responsibility for the Financial Statements

.26 The auditor's report should include a section with the heading "Management's Responsibility for the Financial Statements."

.27 The auditor's report should describe management's responsibility for the preparation and fair presentation of the financial statements. The description should include an explanation that management is responsible for the preparation and fair presentation of the financial statements in accordance with the applicable financial reporting framework; this responsibility includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. (Ref: par. .A24)

.28 The description about management's responsibility for the financial statements in the auditor's report should not be referenced to a separate statement by management about such responsibilities if such a statement is included in a document containing the auditor's report. (Ref: par. .A25)

Auditor's Responsibility

.29 The auditor's report should include a section with the heading "Auditor's Responsibility."

.30 The auditor's report should state that the responsibility of the auditor is to express an opinion on the financial statements based on the audit. (Ref: par. .A26)

.31 The auditor's report should state that the audit was conducted in accordance with generally accepted auditing standards and should identify the United States of America as the country of origin of those standards. The auditor's report should also explain that those standards require that the auditor plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. (Ref: par. .A27–.A28)

.32 The auditor's report should describe an audit by stating that

- a. an audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements.

- b. the procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control, and accordingly, no such opinion is expressed.
- c. an audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as the overall presentation of the financial statements.

In circumstances when the auditor also has a responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, the auditor should omit the phrase required in paragraph .32b that the auditor's consideration of internal control is not for the purpose of expressing an opinion on the effectiveness of internal control, and accordingly, no such opinion is expressed.

.33 The auditor's report should state whether the auditor believes that the audit evidence the auditor has obtained is sufficient and appropriate to provide a basis for the auditor's opinion.

Auditor's Opinion

.34 The auditor's report should include a section with the heading "Opinion."

.35 When expressing an unmodified opinion on financial statements, the auditor's opinion should state that the financial statements present fairly, in all material respects, the financial position of the entity as of the balance sheet date and the results of its operations and its cash flows for the period then ended, in accordance with the applicable financial reporting framework. (Ref: par. .A9 and .A29–.A30)

.36 The auditor's opinion should identify the applicable financial reporting framework and its origin. (Ref: par. .A31)

Other Reporting Responsibilities

.37 If the auditor addresses other reporting responsibilities in the auditor's report on the financial statements that are in addition to the auditor's responsibility under GAAS to report on the financial statements, these other reporting responsibilities should be addressed in a separate section in the auditor's report that should be subtitled "Report on Other Legal and Regulatory Requirements" or otherwise, as appropriate to the content of the section. (Ref: par. .A32–.A33)

.38 If the auditor's report contains a separate section on other reporting responsibilities, the headings, statements, and explanations referred to in paragraphs .25–.36 should be under the subtitle "Report on the Financial Statements." The "Report on Other Legal and Regulatory Requirements" should follow the "Report on the Financial Statements." (Ref: par. .A34)

Signature of the Auditor

.39 The auditor's report should include the manual or printed signature of the auditor's firm. (Ref: par. .A35–.A36)

Auditor's Address

.40 The auditor's report should name the city and state where the auditor practices. (Ref: par. .A37)

Date of the Auditor's Report

.41 The auditor's report should be dated no earlier than the date on which the auditor has obtained sufficient appropriate audit evidence on which to base the auditor's opinion on the financial statements, including evidence that

- a. the audit documentation has been reviewed;
- b. all the statements that the financial statements comprise, including the related notes, have been prepared; and
- c. management has asserted that they have taken responsibility for those financial statements. (Ref: par. .A38–.A41)

Auditor's Report for Audits Conducted in Accordance With Both GAAS and Another Set of Auditing Standards

.42 Paragraph .31 requires that the auditor's report state that the audit was conducted in accordance with GAAS and identify the United States of America as the country of origin of those standards. However, an auditor may indicate that the audit was also conducted in accordance with another set of auditing standards (for example, International Standards on Auditing (ISAs), the standards of the Public Company Accounting Oversight Board, or *Government Auditing Standards*). The auditor should not refer to having conducted an audit in accordance with another set of auditing standards in addition to GAAS, unless the audit was conducted in accordance with both sets of standards in their entirety. (Ref: par. .A42)

.43 When the auditor's report refers to both GAAS and another set of auditing standards, the auditor's report should identify the other set of auditing standards, as well as their origin.

Comparative Financial Statements and Comparative Information

.44 Comparative financial statements may be required by the applicable financial reporting framework, or management may elect to provide such information. When comparative financial statements are presented, the auditor's report should refer to each period for which financial statements are presented and on which an audit opinion is expressed. (Ref: par. .A43–.A44)

.45 When expressing an opinion on all periods presented, a continuing auditor should update the report on the financial statements of one or more prior periods presented on a comparative basis with those of the current period. The auditor's report on comparative financial statements should not be dated earlier than the date on which the auditor has obtained sufficient appropriate audit evidence on which to support the opinion for the most recent audit. (Ref: par. .A45–.A46)

.46 If comparative information is presented but not covered by the auditor's opinion, the auditor should clearly indicate in the auditor's report the character of the auditor's work, if any, and the degree of responsibility the auditor is taking. (Ref: par. .A47–.A48)

.47 If comparative information is presented and the entity requests the auditor to express an opinion on all periods presented, the auditor should consider whether the information included for the prior period(s) contains sufficient

detail to constitute a fair presentation in accordance with the applicable financial reporting framework. (Ref: par. .A49)

Audit Procedures

.48 The auditor should perform the procedures required by paragraphs .49–.51 if comparative financial statements or comparative information is presented for the prior period(s).

.49 The auditor should determine whether the comparative financial statements or comparative information has been presented in accordance with the relevant requirements, if any, of the applicable financial reporting framework.

.50 The auditor should evaluate whether

- a. the comparative financial statements or comparative information agree with the amounts and other disclosures presented in the prior period or, when appropriate, has been restated for the correction of a material misstatement or adjusted for the retrospective application of an accounting principle, and
- b. the accounting policies reflected in the comparative financial statements or comparative information are consistent with those applied in the current period or if there have been changes in accounting policies, whether those changes have been properly accounted for and adequately presented and disclosed.⁸

.51 If the auditor becomes aware of a possible material misstatement in the comparative financial statements or comparative information while performing the current period audit, the auditor should perform such additional audit procedures as are necessary in the circumstances to obtain sufficient appropriate audit evidence to determine whether a material misstatement exists. If the auditor audited the prior period's financial statements and becomes aware of a material misstatement in those financial statements, the auditor should also follow the relevant requirements of section 560, *Subsequent Events and Subsequently Discovered Facts*. If the prior period financial statements are restated, the auditor should determine that the comparative financial statements or comparative information agree with the restated financial statements.

.52 As required by section 580, *Written Representations*, the auditor should request written representations for all periods referred to in the auditor's opinion. The auditor also should obtain a specific written representation regarding any restatement made to correct a material misstatement in a prior period that affects the comparative financial statements. (Ref: par. .A50)

.53 When reporting on prior period financial statements in connection with the current period's audit, if the auditor's opinion on such prior period financial statements differs from the opinion the auditor previously expressed, the auditor should disclose the following matters in an emphasis-of-matter or other-matter paragraph, in accordance with section 706:

- a. The date of the auditor's previous report
- b. The type of opinion previously expressed
- c. The substantive reasons for the different opinion
- d. That the auditor's opinion on the amended financial statements is different from the auditor's previous opinion (Ref: par. .A51)

⁸ See section 708, *Consistency of Financial Statements*.

Prior Period Financial Statements Audited by a Predecessor Auditor

.54 If the financial statements of the prior period were audited by a predecessor auditor, and the predecessor auditor's report on the prior period's financial statements is not reissued,⁹ in addition to expressing an opinion on the current period's financial statements, the auditor should state the following in an other-matter paragraph:¹⁰

- a. That the financial statements of the prior period were audited by a predecessor auditor
- b. The type of opinion expressed by the predecessor auditor and, if the opinion was modified, the reasons therefore
- c. The nature of an emphasis-of-matter paragraph or other-matter paragraph included in the predecessor auditor's report, if any
- d. The date of that report

.55 If the auditor concludes that a material misstatement exists that affects the prior period financial statements on which the predecessor auditor had previously reported without modification, the auditor should follow the communication requirements in section 510.¹¹ If the prior period financial statements are restated, and the predecessor auditor agrees to issue a new auditor's report on the restated financial statements of the prior period, the auditor should express an opinion only on the current period. (Ref: par. .A52)

Prior Period Financial Statements Not Audited

.56 When current period financial statements are audited and presented in comparative form with compiled or reviewed financial statements for the prior period, and the report on the prior period is not reissued, the auditor should include an other-matter paragraph¹² in the current period auditor's report that includes the following:

- a. The service performed in the prior period
- b. The date of the report on that service
- c. A description of any material modifications noted in that report
- d. A statement that the service was less in scope than an audit and does not provide the basis for the expression of an opinion on the financial statements (Ref: par. .A53–.A54)

.57 If the prior period financial statements were not audited, reviewed, or compiled, the financial statements should be clearly marked to indicate their status, and the auditor's report should include an other-matter paragraph to indicate that the auditor has not audited, reviewed, or compiled the prior period financial statements and that the auditor assumes no responsibility for them. (Ref: par. .A55)

⁹ Paragraphs .19–.20 of section 560, *Subsequent Events and Subsequently Discovered Facts*.

¹⁰ See section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

¹¹ Paragraphs .12–.13 of section 510, *Opening Balances—Initial Audit Engagements, Including Reaudit Engagements*.

¹² See section 706.

Information Presented in the Financial Statements (Ref: par. .A56–.A57)

.58 Information that is not required by the applicable financial reporting framework but is nevertheless presented as part of the basic financial statements should be covered by the auditor's opinion if it cannot be clearly differentiated.

Application and Other Explanatory Material

Scope of This Section (Ref: par. .04)

.A1 Section 800 also addresses the auditor's responsibilities when the auditor is reporting on financial statements prepared in accordance with a special purpose framework and is required by law or regulation to use a specific layout, form, or wording of the auditor's report. When reporting on financial statements prepared in accordance with a general purpose framework, and law or regulation requires a specific layout, form, or wording of the auditor's report, the auditor may adapt and apply the requirements in section 800.

Objectives

Considerations Specific to Governmental Entities (Ref: par. .10)

.A2 For audits of governmental entities, the objectives of a financial statement audit are often broader than forming and expressing an opinion on the financial statements. Law, regulation, and *Government Auditing Standards* require that the auditor satisfy additional objectives. These additional objectives include audit and reporting responsibilities, for example, relating to reporting instances of noncompliance with applicable laws and regulations or reporting material weaknesses and significant deficiencies in internal control noted during the audit. Such reporting on compliance and internal control is an integral part of a *Government Auditing Standards* audit.

Definitions

General Purpose Financial Statements

Considerations Specific to Governmental Entities (Ref: par. .11)

.A3 For audits of governmental entities, the term *general purpose financial statements*, in the context of this section, would be considered or referred to as basic financial statements using the terms in the governmental entity's applicable financial reporting framework.

Forming an Opinion on the Financial Statements (Ref: par. .14)

Considerations Specific to Governmental Entities

.A4 For most state or local governmental entities, the applicable financial reporting framework is based on multiple reporting units and, therefore, requires the presentation of financial statements for its activities in various reporting units. Consequently, a reporting unit, or aggregation of reporting units, of the governmental entity represents an opinion unit to the auditor. In the context of this section, the auditor is responsible for forming an opinion on the financial statements for each opinion unit within a governmental entity.

Qualitative Aspects of the Entity's Accounting Practices (Ref: par. .15)

.A5 Management makes a number of judgments about the amounts and disclosures in the financial statements.

.A6 Section 260, *The Auditor's Communication With Those Charged With Governance*, contains a discussion of the qualitative aspects of accounting practices.¹³ In considering the qualitative aspects of the entity's accounting practices, the auditor may become aware of possible bias in management's judgments. The auditor may conclude that the cumulative effect of a lack of neutrality, together with the effect of uncorrected misstatements, causes the financial statements as a whole to be materially misstated. Indicators of a lack of neutrality that may affect the auditor's evaluation of whether the financial statements as a whole are materially misstated include the following:

- The selective correction of misstatements brought to management's attention during the audit (for example, correcting misstatements with the effect of increasing reported earnings but not correcting misstatements that have the effect of decreasing reported earnings)
- Possible management bias in the making of accounting estimates

.A7 Section 540, *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*, addresses possible management bias in making accounting estimates. Indicators of possible management bias, themselves, do not constitute misstatements for purposes of drawing conclusions on the reasonableness of individual accounting estimates. They may, however, affect the auditor's evaluation of whether the financial statements as a whole are free from material misstatement.

Disclosure of the Effect of Material Transactions and Events on the Information Conveyed in the Financial Statements (Ref: par. .16e)

.A8 It is common for financial statements prepared in accordance with a general purpose framework to present an entity's financial position, results of operations, and cash flows. In such circumstances, paragraph .16e requires the auditor to evaluate whether the financial statements provide adequate disclosures to enable the intended users to understand the effect of material transactions and events on the entity's financial position, results of operations, and cash flows.

Evaluation of Whether the Financial Statements Achieve Fair Presentation (Ref: par. .17b)

.A9 As described in section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*, a *financial reporting framework* is a set of criteria used to determine measurement, recognition, presentation, and disclosure of all material items appearing in the financial statements. The auditor's professional judgment concerning the fairness of the presentation of the financial statements is applied within the context of the financial reporting framework. Without that framework, the auditor would have no consistent standard for evaluating the presentation of financial position, results of operations, and cash flows in financial statements.

¹³ The appendix, "Qualitative Aspects of Accounting Practices," of section 260, *The Auditor's Communication With Those Charged With Governance*.

Description of the Applicable Financial Reporting Framework (Ref: par. .18)

.A10 As explained in section 200, the preparation and fair presentation of the financial statements by management and, when appropriate, those charged with governance requires the inclusion of an adequate description of the applicable financial reporting framework in the financial statements.¹⁴ That description is important because it advises users of the financial statements of the framework on which the financial statements are based.

.A11 A description that the financial statements are prepared in accordance with a particular applicable financial reporting framework is appropriate only if the financial statements comply with all the requirements of that framework that are effective during the period covered by the financial statements.

.A12 A description of the applicable financial reporting framework that contains imprecise qualifying or limiting language (for example, "the financial statements are in substantial compliance with International Financial Reporting Standards") is not an adequate description of that framework because it may mislead users of the financial statements.

.A13 Financial statements that are prepared in accordance with one financial reporting framework and that contain a note or supplementary statement reconciling the results to those that would be shown under another framework are not prepared in accordance with that other framework. This is because the financial statements do not include all the information in the manner required by that other framework. The financial statements may, however, be prepared in accordance with one applicable financial reporting framework and, in addition, describe in the notes to the financial statements the extent to which the financial statements comply with another framework. Such information may not be required by the applicable financial reporting framework but may be presented as part of the basic financial statements. As discussed in paragraph .58, such information is considered an integral part of the financial statements if it cannot be clearly differentiated and, accordingly, is covered by the auditor's opinion.

Form of Opinion (Ref: par. .21)

.A14 There may be cases when the financial statements, although prepared in accordance with the requirements of a fair presentation framework, do not achieve fair presentation. When this is the case, it may be possible for management to include additional disclosures in the financial statements beyond those specifically required by the framework or, in unusual circumstances, to depart from a requirement in the framework in order to achieve fair presentation of the financial statements, which would be extremely rare.

.A15 Rule 203, *Accounting Principles*, of the AICPA Code of Professional Conduct states the following:

A member shall not (1) express an opinion or state affirmatively that the financial statements or other financial data of any entity are presented in conformity with generally accepted accounting principles or (2) state that he or she is not aware of any material modifications that should be made to such statements or data in order for them to be in conformity with generally accepted accounting principles, if such statements or data contain any departure from an accounting principle promulgated by bodies designated by Council to establish such principles that has a material effect on the statements or data taken as a whole.

¹⁴ Paragraphs .A2--A3 of section 200.

If, however, the statements or data contain such a departure and the member can demonstrate that due to unusual circumstances the financial statements or data would otherwise have been misleading, the member can comply with the rule by describing the departure, its approximate effects, if practicable, and the reasons why compliance with the principle would result in a misleading statement.

Auditor's Report (Ref: par. .22)

.A16 A written report encompasses reports issued in hard copy format and those using an electronic medium.

.A17 The exhibit "Illustrations of Auditor's Reports on Financial Statements" contains illustrations of auditor's reports on financial statements incorporating the elements required by paragraphs .23–.41.

Auditor's Report for Audits Conducted in Accordance With GAAS

Title (Ref: par. .23)

.A18 A title indicating the report is the report of an independent auditor (for example, "Independent Auditor's Report") affirms that the auditor has met all of the relevant ethical requirements regarding independence and, therefore, distinguishes the independent auditor's report from reports issued by others. Section 200 provides guidance on reporting when the auditor is not independent.

Addressee (Ref: par. .24)

.A19 The auditor's report is normally addressed to those for whom the report is prepared. The report may be addressed to the entity whose financial statements are being audited or to those charged with governance. A report on the financial statements of an unincorporated entity may be addressed as circumstances dictate (for example, to the partners, general partner, or proprietor). Occasionally, an auditor may be retained to audit the financial statements of an entity that is not a client; in such a case, the report may be addressed to the client and not to those charged with governance of the entity whose financial statements are being audited.

Introductory Paragraph (Ref: par. .25)

.A20 The introductory paragraph states, for example, that the auditor has "audited the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements." If the financial statements include a separate statement of changes in stockholders' equity accounts or a separate statement of comprehensive income, paragraph .25c requires such statements to be identified in the introductory paragraph of the report as a statement to which the financial statements are comprised, but they need not be reported on separately in the opinion paragraph because changes in stockholders' equity accounts and comprehensive income are considered part of the presentation of financial position, results of operations, and cash flows.

.A21 When the auditor is aware that the audited financial statements will be included in a document that contains other information, such as an annual report, the auditor may consider, if the form of presentation allows, identifying the page numbers on which the audited financial statements are presented. This helps users identify the financial statements to which the auditor's report relates.

.A22 The auditor's opinion covers the complete set of financial statements, as defined by the applicable financial reporting framework. For example, in the case of many general purpose frameworks, the financial statements include a balance sheet; an income statement; a statement of changes in equity; and a cash flow statement, including related notes. In some circumstances, additional or different statements, schedules, or information also might be considered to be an integral part of the financial statements.

.A23 The identification of the title for each statement that the financial statements comprise may be achieved by referencing the table of contents.

Management's Responsibility for the Financial Statements (Ref: par. .27–.28)

.A24 Section 200 explains the premise relating to the responsibilities of management and, when appropriate, those charged with governance on which an audit in accordance with GAAS is conducted.¹⁵ Management and, when appropriate, those charged with governance accept responsibility for the preparation of the financial statements in accordance with the applicable financial reporting framework, including their fair presentation. Management also accepts responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. The description of management's responsibilities in the auditor's report includes reference to both responsibilities because it helps explain to users the premise on which an audit is conducted.

.A25 In some instances, a document containing the auditor's report may include a separate statement by management regarding its responsibility for the preparation of the financial statements. Any elaboration in the auditor's report about management's responsibilities regarding the preparation of the financial statements, or reference to a separate statement by management about such responsibilities if one is included in a document containing the auditor's report, may lead users to erroneously believe that the auditor is providing assurances about representations made by management about their responsibility for financial reporting, internal control, and other matters that might be discussed in the management report.

Auditor's Responsibility (Ref: par. .30–.31)

.A26 The auditor's report states that the auditor's responsibility is to express an opinion on the financial statements based on the audit in order to contrast it to management's responsibility for the preparation of the financial statements.

.A27 The reference to the standards used conveys to the users of the auditor's report that the audit has been conducted in accordance with established standards. For example, the auditor's report may refer to auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards.

.A28 In accordance with section 200, the auditor does not represent compliance with GAAS in the auditor's report, unless the auditor has complied with the requirements of section 200 and all other AU-C sections relevant to the audit.¹⁶

¹⁵ Paragraphs .05 and .A2 of section 200.

¹⁶ Paragraph .22 of section 200.

Auditor's Opinion (Ref: par. .35)

.A29 *Description of information that the financial statements present.* The auditor's opinion states that the financial statements present fairly, in all material respects, the information that the financial statements are designed to present.

.A30 The title of the financial statements identified in the introductory paragraph of the auditor's report (see paragraph .25) describes the information that is the subject of the auditor's opinion.

.A31 *Description of the applicable financial reporting framework and how it may affect the auditor's opinion (Ref: par. .36).* The identification of the applicable financial reporting framework in the auditor's opinion is intended to advise users of the auditor's report of the context in which the auditor's opinion is expressed; it is not intended to limit the evaluation required in paragraph .17. For example, the applicable financial reporting framework may be identified as accounting principles generally accepted in the United States of America or U.S. generally accepted accounting principles or International Financial Reporting Standards promulgated by the International Accounting Standards Board (IASB) or *International Financial Reporting Standard for Small and Medium-Sized Entities* promulgated by the IASB.

Other Reporting Responsibilities (Ref: par. .37–.38)

.A32 In some circumstances, the auditor may have additional responsibilities to report on other matters that are supplementary to the auditor's responsibility under GAAS to report on the financial statements. The form and content of the "Other Reporting Responsibilities" section of the auditor's report described in paragraph .37 will vary depending on the nature of the auditor's other reporting responsibilities. For example, for audits conducted under *Government Auditing Standards*, the auditor may be required to report on internal control over financial reporting and compliance with laws, regulations, and provisions of contracts or grant agreements, which may be included in the "Other Reporting Responsibilities" section of the auditor's report.¹⁷ However, when the auditor is engaged or required by law or regulation to perform a compliance audit in accordance with GAAS, *Government Auditing Standards*, and a governmental audit requirement, reporting requirements in section 935, *Compliance Audits*, apply.

.A33 In some cases, the relevant law or regulation may require or permit the auditor to report on these other responsibilities within the auditor's report on the financial statements. In other cases, the auditor may be required or permitted to report on them in a separate report.

.A34 These other reporting responsibilities are addressed in a separate section of the auditor's report in order to clearly distinguish them from the auditor's responsibility under GAAS to report on the financial statements. When relevant, this section may contain subheading(s) that describe(s) the content of the other reporting responsibility paragraph(s).

Signature of the Auditor (Ref: par. .39)

.A35 In certain situations, the auditor's report may be required by law or regulation to include the personal name and signature of the auditor, in addition to the auditor's firm. In addition to the auditor's signature, in certain circumstances, the auditor may be required to declare in the auditor's report the

¹⁷ See the AICPA Audit and Accounting Guide *State and Local Governments* for illustrative auditor reports.

auditor's professional accountancy designation or the fact that the auditor or firm, as appropriate, has been recognized by the appropriate licensing authority.

.A36 *Considerations specific to governmental entities.* This section would not preclude a governmental auditor from including the personal name and signature of the auditor in the auditor's report when, in certain situations, the governmental auditor is required by law or regulation or chooses to do so.

Auditor's Address (Ref: par. .40)

.A37 In the United States, the location of the issuing office is the city and state. In another country, it may be the city and country.

Date of the Auditor's Report (Ref: par. .41)

.A38 The date of the auditor's report informs the user of the auditor's report that the auditor has considered the effect of events and transactions of which the auditor became aware and that occurred up to that date. The auditor's responsibility for events and transactions after the date of the auditor's report is addressed in section 560.

.A39 Section 220, *Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*, requires that on or before the date of the auditor's report, the engagement partner, through a review of the audit documentation and discussion with the engagement team, be satisfied that sufficient appropriate audit evidence has been obtained to support the conclusions reached and for the auditor's report to be issued.¹⁸ Section 220 also requires that the auditor's report not be released prior to the completion of the engagement quality control review.¹⁹

.A40 Because the auditor's opinion is provided on the financial statements, and the financial statements are the responsibility of management, the auditor is not in a position to conclude that sufficient appropriate audit evidence has been obtained until evidence is obtained that all the statements that the financial statements comprise, including the related notes, have been prepared, and management has accepted responsibility for them.

.A41 *Considerations specific to governmental entities.* In some circumstances, final approval of the financial statements by governmental legislative bodies (or subsets of such legislative bodies) is required before the financial statements are issued. In these circumstances, final approval by such legislative bodies (or subsets of such legislative bodies) is not necessary for the auditor to conclude that sufficient appropriate audit evidence has been obtained. The date of approval of the financial statements, for purposes of GAAS, is the earlier date on which those with the recognized authority determine that all the statements that the financial statements comprise, including the related notes, have been prepared and that those with the recognized authority have asserted that they have taken responsibility for them.

Auditor's Report for Audits Conducted in Accordance With Both GAAS and Another Set of Auditing Standards (Ref: par. .42)

.A42 If the audit is performed in accordance with both GAAS and ISAs, the auditor may find it helpful to refer to AU-C appendix B, "Substantive Differences Between the International Standards on Auditing and Generally Accepted Auditing Standards." This appendix summarizes substantive differences

¹⁸ See paragraphs .19 and .A17 of section 220, *Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*, for further discussion.

¹⁹ Paragraph .21 of section 220.

between the ISAs and GAAS to assist the auditor in planning and performing an engagement in accordance with ISAs.

Comparative Financial Statements and Comparative Information

Comparative Financial Statements (Ref: par. .44–.45)

.A43 The level of information included for the prior periods in comparative financial statements is comparable with that of the financial statements of the current period.

.A44 Because the auditor's report on comparative financial statements applies to the financial statements for each of the periods presented, the auditor may express a qualified opinion or an adverse opinion, disclaim an opinion, or include an emphasis-of-matter paragraph with respect to one or more financial statements for one or more periods while expressing a different auditor's opinion on one or more financial statements of another period presented.

Updating the Report

.A45 An updated report on prior period financial statements is distinguished from a reissuance of a previous report.²⁰ When issuing an updated report, the information considered by the continuing auditor is that which the auditor has become aware of during the audit of the current period financial statements. In addition, an updated report is issued in conjunction with the auditor's report on the current period financial statements.

Other Considerations Relating to Comparative Financial Statements

.A46 If one firm of independent auditors merges with another firm, and the new firm becomes the auditor of a former client of one of the two former firms, the new firm may accept responsibility and express an opinion on the financial statements for the prior period(s), as well as for those of the current period. In such circumstances, paragraphs .44–.57 apply. The new firm may indicate in the auditor's report or as part of the signature that a merger took place and may name the firm of independent auditors that was merged with it. If the new firm decides not to express an opinion on the prior period financial statements, the guidance for the reissuance of reports in section 560 would apply.

Comparative Information (Ref: par. .46–.47)

.A47 Comparative information, which may be condensed financial statements or prior period summarized financial information, is not considered comparative financial statements because it is not a complete set of financial statements. For example, entities such as state and local governmental units frequently present total-all-funds information for the prior periods rather than information by individual funds because of space limitations or to avoid cumbersome or confusing formats. Also, not-for-profit organizations frequently present certain summarized financial information for the prior period(s) in total rather than by net asset class. Accordingly, the auditor need not opine on comparative information in accordance with this section.

.A48 Paragraph .46 requires the auditor to clearly indicate the character of the auditor's work, if any, and the degree of responsibility the auditor is taking in the auditor's report when comparative information is presented but not covered by the auditor's opinion on the financial statements of the current

²⁰ See section 560.

period. The requirements and guidance in section 930, *Interim Financial Information*, may be adapted to report on condensed financial statements or prior period summarized financial information that is derived from audited financial statements and is presented comparatively with the complete set of financial statements of the current period.^{21,22} The exhibit provides examples of auditor's reports when comparative summarized financial information for the prior period is presented.²³

.A49 If an entity requests the auditor to express an opinion on all periods presented, and comparative information is presented for one or more prior periods, in most cases, this will necessitate including additional columns or separate detail by fund or net asset class, or the auditor may need to modify the auditor's opinion, as required by section 705.

Written Representations (Ref: par. .52)

.A50 In the case of comparative financial statements, the written representations are requested for all periods referred to in the auditor's opinion because management needs to reaffirm that the written representations it previously made with respect to the prior period remain appropriate.

Opinion on Prior Period Financial Statements Different From Previous Opinion (Ref: par. .53)

.A51 When reporting on the prior period financial statements in connection with the current period's audit, the opinion expressed on the prior period financial statements may be different from the opinion previously expressed if the auditor becomes aware of circumstances or events that materially affect the financial statements of a prior period during the course of the audit of the current period. In some circumstances, the auditor may have additional reporting responsibilities designed to prevent future reliance on the auditor's previously issued report on the prior period financial statements.²⁴

Prior Period Financial Statements Audited by a Predecessor Auditor (Ref: par. .55)

.A52 The predecessor auditor may be unable or unwilling to reissue the auditor's report on the prior period financial statements that have been restated. In this situation, provided that the auditor has audited the adjustments to the prior period financial statements, the auditor may include an other-matter paragraph²⁵ in the auditor's report indicating that the predecessor auditor reported on the financial statements of the prior period before restatement. In addition, if the auditor is engaged to audit and obtains sufficient appropriate audit evidence to be satisfied about the appropriateness of the restatement, the auditor's report may also include the following paragraph within the other-matter paragraph section:

As part of our audit of the 20X2 financial statements, we also audited the adjustments described in Note X that were applied to restate the 20X1 financial

²⁵ See section 706.

statements. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review, or apply any procedures to the 20X1 financial statements of the Company other than with respect to the adjustments and, accordingly, we do not express an opinion or any other form of assurance on the 20X1 financial statements as a whole.

Prior Period Financial Statements Not Audited (Ref: par. .56–.57)

.A53 If the prior period financial statements were reviewed, the following is an example of an other-matter paragraph:

Other Matter

The 20X1 financial statements were reviewed by us (other accountants) and our (their) report thereon, dated March 1, 20X2, stated we (they) were not aware of any material modifications that should be made to those statements for them to be in conformity with accounting principles generally accepted in the United States of America. However, a review is substantially less in scope than an audit and does not provide a basis for the expression of an opinion on the financial statements.

.A54 If the prior period financial statements were compiled, the following is an example of an other-matter paragraph:

Other Matter

The 20X1 financial statements were compiled by us (other accountants) and our (their) report thereon, dated March 1, 20X2, stated we (they) did not audit or review those financial statements and, accordingly, express no opinion or other form of assurance on them.

.A55 If the prior period financial statements were not audited, reviewed, or compiled, the following is an example of an other-matter paragraph:

Other Matter

The accompanying balance sheet of X Company as of December 31, 20X1, and the related statements of income and cash flows for the year then ended were not audited, reviewed, or compiled by us and, accordingly, we do not express an opinion or any other form of assurance on them.

Information Presented in the Financial Statements (Ref: par. .58)

.A56 In some circumstances, the entity may be required by law, regulation, or standards, or may voluntarily choose, to include in the basic financial statements information that is not required by the applicable financial reporting framework. The auditor's opinion covers information that cannot be clearly differentiated from the financial statements because of its nature and how it is presented.

.A57 If the information included in the basic financial statements is not required by the applicable financial reporting framework and is not necessary for fair presentation but is clearly differentiated, then such information may be identified as *unaudited* or as *not covered by the auditor's report*.

Illustration 1—An Auditor’s Report on Consolidated Comparative Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Circumstances include the following:

- Audit of a complete set of general purpose consolidated financial statements (comparative).
- The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Financial Statements¹

We have audited the accompanying consolidated financial statements of ABC Company and its subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X1 and 20X0, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.² Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness

¹ The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

² In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the consolidated financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of ABC Company and its subsidiaries as of December 31, 20X1 and 20X0, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

Illustration 4—An Auditor’s Report on a Single Year Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America When Comparative Summarized Financial Information Derived From Audited Financial Statements for the Prior Year Is Presented

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year).
- Prior year summarized comparative financial information derived from audited financial statements is presented.
- The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Independent Auditor’s Report

[*Appropriate Addressee*]

Report on the Financial Statements¹

We have audited the accompanying financial statements of XYZ Not-for-Profit Organization, which comprise the statement of financial position as of September 30, 20X1, and the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the organization’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the

effectiveness of the organization's internal control.² Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of XYZ Not-for-Profit Organization as of September 30, 20X1, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited the XYZ Not-for-Profit Organization's 20X0 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated December 15, 20X0. In our opinion, the summarized comparative information presented herein as of and for the year ended September 30, 20X0 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Report on Other Legal and Regulatory Requirements

In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

AU-C Section 9700

Forming an Opinion and Reporting on Financial Statements: Auditing Interpretations of Section 700

1. Reporting on Financial Statements Prepared on a Liquidation Basis of Accounting

.01 Question—An entity prepares its financial statements using the liquidation basis of accounting in accordance with Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 205, *Presentation of Financial Statements*, because the entity is either in liquidation or liquidation is imminent. Is the auditor permitted to issue an unmodified opinion on such financial statements?

.02 Answer—Yes. A liquidation basis of accounting is considered generally accepted accounting principles (GAAP) for entities in liquidation or for which liquidation is imminent. Therefore, the auditor is permitted to issue an unmodified opinion on such financial statements, provided that the liquidation basis of accounting has been properly applied and that adequate disclosures are made in the financial statements in accordance with FASB ASC 205-30.

.03 Typically, the financial statements of entities using the liquidation basis of accounting are presented along with financial statements of a period prior to adoption of a liquidation basis that were prepared on the basis of GAAP for going concerns. Section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*, requires the auditor to include an emphasis-of-matter paragraph when a matter that is appropriately presented or disclosed in the financial statements is of such importance, in the auditor's professional judgment, that it is fundamental to users' understanding of the financial statements. In such circumstances, the emphasis-of-matter paragraph would state that the entity has changed the basis of accounting used to determine the amounts at which assets and liabilities are carried from the going concern basis to a liquidation basis.

.04 Two examples of auditor's reports with such an emphasis-of-matter paragraph follow.

Example 1

Report on Single-Year Financial Statements in Year of Adoption of Liquidation Basis

We have audited the accompanying financial statements of XYZ Company, which comprise the statement of net assets in liquidation as of December 31, 20X2, the related statement of changes in net assets in liquidation for the period from April 26, 20X2 to December 31, 20X2, and the statements of income, changes in stockholders' equity, and cash flows for the period from January 1, 20X2 to April 25, 20X2, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted

in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.¹ Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets in liquidation of XYZ Company as of December 31, 20X2, the changes in its net assets in liquidation for the period from April 26, 20X2 to December 31, 20X2, and the results of its operations and its cash flows for the period from January 1, 20X2 to April 25, 20X2, in accordance with accounting principles generally accepted in the United States of America applied on the bases described in Note X to the financial statements.

Emphasis of Matter

As discussed in Note X to the financial statements, the stockholders of XYZ Company approved a plan of liquidation on April 25, 20X2, and the Company commenced liquidation shortly thereafter. As a result, the Company has changed its basis of accounting for periods subsequent to April 25, 20X2 from the going-concern basis to a liquidation basis. Our opinion is not modified with respect to this matter.

Example 2

Report on Comparative Financial Statements in Year of Adoption of Liquidation Basis

We have audited the accompanying financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X1, the related statements of income, changes in stockholders' equity, and cash flows for the year

¹ In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

then ended, the statements of income, changes in stockholders' equity, and cash flows for the period from January 1, 20X2 to April 25, 20X2, the statement of net assets in liquidation as of December 31, 20X2, the related statement of changes in net assets in liquidation for the period from April 26, 20X2 to December 31, 20X2, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.² Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of XYZ Company as of December 31, 20X1, the results of its operations and its cash flows for the year then ended and for the period from January 1, 20X2 to April 25, 20X2, its net assets in liquidation as of December 31, 20X2, and the changes in its net assets in liquidation for the period from April 26, 20X2 to December 31, 20X2, in accordance with accounting principles generally accepted in the United States of America applied on the bases described in Note X to the financial statements.

Emphasis of Matter

As discussed in Note X to the financial statements, the stockholders of XYZ Company approved a plan of liquidation on April 25, 20X2, and the Company commenced liquidation shortly thereafter. As a result, the Company has changed

² In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

its basis of accounting for periods subsequent to April 25, 20X2 from the going-concern basis to a liquidation basis. Our opinion is not modified with respect to this matter.

.05 The auditor may, in subsequent years, continue to include an emphasis-of-matter paragraph in the auditor's report to emphasize that the financial statements are presented on a liquidation basis of accounting.

[Issue Date: December 1984; Revised: June 1993; Revised: February 1997;

AU-C Section 705

Modifications to the Opinion in the Independent Auditor's Report

Source: SAS No. 122; SAS No. 123.

Effective for audits of financial statements for periods ending on or after December 15, 2012.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibility to issue an appropriate report in circumstances when, in forming an opinion in accordance with section 700, *Forming an Opinion and Reporting on Financial Statements*, the auditor concludes that a modification to the auditor's opinion on the financial statements is necessary.

Types of Modified Opinions

.02 This section establishes three types of modified opinions: namely, a qualified opinion, an adverse opinion, and a disclaimer of opinion. The decision regarding which type of modified opinion is appropriate depends upon the following: (Ref: par. .A1)

- a. The nature of the matter giving rise to the modification (that is, whether the financial statements are materially misstated or, in the case of an inability to obtain sufficient appropriate audit evidence, may be materially misstated)
- b. The auditor's professional judgment about the pervasiveness of the effects or possible effects of the matter on the financial statements

.03 Section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*, addresses situations when the auditor considers it necessary, or is required, to include additional communications in the auditor's report that are not modifications to the auditor's opinion.

Effective Date

.04 This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

Objective

.05 The objective of the auditor is to express clearly an appropriately modified opinion on the financial statements that is necessary when

- a. the auditor concludes, based on the audit evidence obtained, that the financial statements as a whole are materially misstated or

- b. the auditor is unable to obtain sufficient appropriate audit evidence to conclude that the financial statements as a whole are free from material misstatement.

Definitions

.06 For purposes of generally accepted auditing standards, the following terms have the meanings attributed as follows:

Modified opinion. A qualified opinion, an adverse opinion, or a disclaimer of opinion.

Pervasive. A term used in the context of misstatements to describe the effects on the financial statements of misstatements or the possible effects on the financial statements of misstatements, if any, that are undetected due to an inability to obtain sufficient appropriate audit evidence. Pervasive effects on the financial statements are those that, in the auditor's professional judgment

- are not confined to specific elements, accounts, or items of the financial statements;
- if so confined, represent or could represent a substantial proportion of the financial statements; or
- with regard to disclosures, are fundamental to users' understanding of the financial statements.

Requirements

Circumstances When a Modification to the Auditor's Opinion Is Required

- .07 The auditor should modify the opinion in the auditor's report when
- a. the auditor concludes that, based on the audit evidence obtained, the financial statements as a whole are materially misstated or (Ref: par. .A2–.A7)
 - b. the auditor is unable to obtain sufficient appropriate audit evidence to conclude that the financial statements as a whole are free from material misstatement. (Ref: par. .A8–.A12)

Determining the Type of Modification to the Auditor's Opinion

Qualified Opinion

- .08 The auditor should express a qualified opinion when
- a. the auditor, having obtained sufficient appropriate audit evidence, concludes that misstatements, individually or in the aggregate, are material but not pervasive to the financial statements or
 - b. the auditor is unable to obtain sufficient appropriate audit evidence on which to base the opinion, but the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be material but not pervasive.

Adverse Opinion

.09 The auditor should express an adverse opinion when the auditor, having obtained sufficient appropriate audit evidence, concludes that misstatements, individually or in the aggregate, are both material and pervasive to the financial statements.

Disclaimer of Opinion

.10 The auditor should disclaim an opinion when the auditor is unable to obtain sufficient appropriate audit evidence on which to base the opinion, and the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be both material and pervasive. (Ref: par. .A13–.A14)

Consequence of an Inability to Obtain Sufficient Appropriate Audit Evidence Due to a Management-Imposed Limitation After the Auditor Has Accepted the Engagement

.11 If, after accepting the engagement, the auditor becomes aware that management has imposed a limitation on the scope of the audit that the auditor considers likely to result in the need to express a qualified opinion or to disclaim an opinion on the financial statements, the auditor should request that management remove the limitation.

.12 If management refuses to remove the limitation referred to in paragraph .11, the auditor should communicate the matter to those charged with governance, unless all of those charged with governance are involved in managing the entity,¹ and determine whether it is possible to perform alternative procedures to obtain sufficient appropriate audit evidence.

.13 If the auditor is unable to obtain sufficient appropriate audit evidence due to a management-imposed limitation, and the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be both material and pervasive, the auditor should either disclaim an opinion on the financial statements or, when practicable, withdraw from the audit.

.14 If the auditor withdraws, as contemplated by paragraph .13, before withdrawing, the auditor should communicate to those charged with governance any matters regarding misstatements identified during the audit that would have given rise to a modification of the opinion. (Ref: par. .A15–.A16)

Other Considerations Relating to an Adverse Opinion or Disclaimer of Opinion

.15 When the auditor considers it necessary to express an adverse opinion or disclaim an opinion on the financial statements as a whole, the auditor's report should not also include an unmodified opinion with respect to the same financial reporting framework on a single financial statement or one or more specific elements, accounts, or items of a financial statement.² To include such an unmodified opinion in the same report in these circumstances would contradict the auditor's adverse opinion or disclaimer of opinion on the financial statements as a whole. (Ref: par. .A17–.A18)

¹ Paragraph .09 of section 260, *The Auditor's Communication With Those Charged With Governance*.

² Paragraph .21 of section 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*.

Auditor Is Not Independent but Is Required by Law or Regulation to Report on the Financial Statements

.16 When the auditor is not independent but is required by law or regulation to report on the financial statements, the auditor should disclaim an opinion and should specifically state that the auditor is not independent. The auditor is neither required to provide, nor precluded from providing, the reasons for the lack of independence; however, if the auditor chooses to provide the reasons for the lack of independence, the auditor should include all the reasons therefor. (Ref: par. .A19)

Form and Content of the Auditor's Report When the Opinion Is Modified

Basis for Modification Paragraph

.17 When the auditor modifies the opinion on the financial statements, the auditor should, in addition to the specific elements required by section 700, include a paragraph in the auditor's report that provides a description of the matter giving rise to the modification. The auditor should place this paragraph immediately before the opinion paragraph in the auditor's report and use a heading that includes "Basis for Qualified Opinion," "Basis for Adverse Opinion," or "Basis for Disclaimer of Opinion," as appropriate. (Ref: par. .A20)

.18 If there is a material misstatement of the financial statements that relates to specific amounts in the financial statements (including quantitative disclosures), the auditor should include in the basis for modification paragraph a description and quantification of the financial effects of the misstatement, unless impracticable. If it is not practicable to quantify the financial effects, the auditor should so state in the basis for modification paragraph. (Ref: par. .A21–.A23)

.19 If there is a material misstatement of the financial statements that relates to narrative disclosures, the auditor should include in the basis for modification paragraph an explanation of how the disclosures are misstated.

.20 If there is a material misstatement of the financial statements that relates to the omission of information required to be presented or disclosed, the auditor should

- a. discuss the omission of such information with those charged with governance;
- b. describe in the basis for modification paragraph the nature of the omitted information; and
- c. include the omitted information, provided that it is practicable to do so and the auditor has obtained sufficient appropriate audit evidence about the omitted information. (Ref: par. .A24–.A25)

.21 If the modification results from an inability to obtain sufficient appropriate audit evidence, the auditor should include in the basis for modification paragraph the reasons for that inability. (Ref: par. .A26)

.22 Even if the auditor has expressed an adverse opinion or disclaimed an opinion on the financial statements, the auditor should

- a. describe in the basis for modification paragraph any other matters of which the auditor is aware that would have required a modification to the opinion and the effects thereof and (Ref: par. .A27)

- b. consider the need to describe in an emphasis-of-matter or other-matter paragraph(s)³ any other matters of which the auditor is aware that would have resulted in additional communications in the auditor's report on the financial statements that are not modifications of the auditor's opinion.

Opinion Paragraph

.23 When the auditor modifies the audit opinion, the auditor should use a heading that includes "Qualified Opinion," "Adverse Opinion," or "Disclaimer of Opinion," as appropriate, for the opinion paragraph. (Ref: par. .A28)

.24 When the auditor expresses a qualified opinion due to a material misstatement in the financial statements, the auditor should state in the opinion paragraph that, in the auditor's opinion, except for the effects of the matter(s) described in the basis for qualified opinion paragraph, the financial statements are presented fairly, in all material respects, in accordance with the applicable financial reporting framework. When the modification arises from an inability to obtain sufficient appropriate audit evidence, the auditor should use the corresponding phrase "except for the possible effects of the matter(s) . . ." for the modified opinion. (Ref: par. .A29–.A30)

.25 When the auditor expresses an adverse opinion, the auditor should state in the opinion paragraph that, in the auditor's opinion, because of the significance of the matter(s) described in the basis for adverse opinion paragraph, the financial statements are not presented fairly in accordance with the applicable financial reporting framework.

.26 When the auditor disclaims an opinion due to an inability to obtain sufficient appropriate audit evidence, the auditor should state in the opinion paragraph that

- a. because of the significance of the matter(s) described in the basis for disclaimer of opinion paragraph, the auditor has not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and
- b. accordingly, the auditor does not express an opinion on the financial statements.

Description of the Auditor's Responsibility When the Auditor Expresses a Qualified or an Adverse Opinion

.27 When the auditor expresses a qualified or an adverse opinion, the auditor should amend the description of the auditor's responsibility to state that the auditor believes that the audit evidence the auditor has obtained is sufficient and appropriate to provide a basis for the auditor's modified audit opinion.

Description of the Auditor's Responsibility When the Auditor Disclaims an Opinion

.28 When the auditor disclaims an opinion due to an inability to obtain sufficient appropriate audit evidence, the auditor should amend the introductory paragraph of the auditor's report to state that the auditor was engaged to audit the financial statements. The auditor should also amend the description of the auditor's responsibility and the description of the scope of the audit to

³ See section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

state only the following: "Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter(s) described in the basis for disclaimer of opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion."

Communication With Those Charged With Governance

.29 When the auditor expects to modify the opinion in the auditor's report, the auditor should communicate with those charged with governance the circumstances that led to the expected modification and the proposed wording of the modification. (Ref: par. .A31)

Application and Other Explanatory Material

Types of Modified Opinions (Ref: par. .02)

.A1 The following table illustrates how the auditor's professional judgment about the nature of the matter giving rise to the modification and the pervasiveness of its effects or possible effects on the financial statements affects the type of opinion to be expressed:

<i>Nature of Matter Giving Rise to the Modification</i>	<i>Auditor's Professional Judgment About the Pervasiveness of the Effects or Possible Effects on the Financial Statements</i>	
	<i>Material but Not Pervasive</i>	<i>Material and Pervasive</i>
Financial statements are materially misstated	Qualified opinion	Adverse opinion
Inability to obtain sufficient appropriate audit evidence	Qualified opinion	Disclaimer of opinion

Circumstances When a Modification to the Auditor's Opinion Is Required

Nature of Material Misstatements (Ref: par. .07a)

.A2 Section 700 requires the auditor, in order to form an opinion on the financial statements, to conclude whether reasonable assurance has been obtained about whether the financial statements as a whole are free from material misstatement.⁴ This conclusion takes into account the auditor's evaluation of uncorrected misstatements, if any, on the financial statements, in accordance with section 450, *Evaluation of Misstatements Identified During the Audit*.

.A3 Section 450 defines a *misstatement* as a difference between the amount, classification, presentation, or disclosure of a reported financial statement item and the amount, classification, presentation, or disclosure that is required for the item to be presented fairly in accordance with the applicable

⁴ Paragraph .14 of section 700, *Forming an Opinion and Reporting on Financial Statements*.

financial reporting framework. Accordingly, a material misstatement of the financial statements may arise in relation to the following:

- a. The appropriateness of the selected accounting policies
- b. The application of the selected accounting policies
- c. The appropriateness of the financial statement presentation or the appropriateness or adequacy of disclosures in the financial statements

Appropriateness of the Selected Accounting Policies

.A4 With regard to the appropriateness of the accounting policies management has selected, material misstatements of the financial statements may arise when

- a. the selected accounting policies are not in accordance with the applicable financial reporting framework or
- b. the financial statements, including the related notes, do not represent the underlying transactions and events in a manner that achieves fair presentation.

.A5 Financial reporting frameworks often contain requirements for the accounting for, and disclosure of, changes in accounting policies. When the entity has changed its selection of significant accounting policies, a material misstatement of the financial statements may arise when the entity has not complied with these requirements. If a change in accounting policy does not meet the conditions described in section 708, *Consistency of Financial Statements*, then a material misstatement of the financial statements may arise.

Application of the Selected Accounting Policies

.A6 With regard to the application of the selected accounting policies, material misstatements of the financial statements may arise

- a. when management has not applied the selected accounting policies in accordance with the financial reporting framework, including when management has not applied the selected accounting policies consistently between periods or to similar transactions and events (consistency in application), or
- b. due to the method of application of the selected accounting policies (such as an unintentional error in application).

Appropriateness of the Financial Statement Presentation or Appropriateness or Adequacy of Disclosures in the Financial Statements

.A7 With regard to the appropriateness of the financial statement presentation or the appropriateness or adequacy of disclosures in the financial statements, material misstatements of the financial statements may arise when

- a. the financial statements do not include all of the disclosures required by the applicable financial reporting framework;
- b. the disclosures in the financial statements are not presented in accordance with the applicable financial reporting framework;
- c. the financial statements do not provide the disclosures necessary to achieve fair presentation; or
- d. information required to be presented in accordance with the applicable financial reporting framework is omitted either because a required statement (for example, a statement of cash flows) has not been included or the information has not otherwise been disclosed in the financial statements.

Nature of an Inability to Obtain Sufficient Appropriate Audit Evidence (Ref: par. .07b)

.A8 The auditor's inability to obtain sufficient appropriate audit evidence (also referred to as a limitation on the scope of the audit) may arise from the following:

- a. Circumstances beyond the control of the entity
- b. Circumstances relating to the nature or timing of the auditor's work
- c. Limitations imposed by management

.A9 An inability to perform a specific procedure does not constitute a limitation on the scope of the audit if the auditor is able to obtain sufficient appropriate audit evidence by performing alternative procedures. If this is not possible, the requirement in paragraph .08b applies. Limitations imposed by management may have other implications for the audit, such as for the auditor's assessment of risks of material misstatement due to fraud and consideration of engagement continuance.

.A10 Examples of circumstances beyond the control of the entity include the following:

- The entity's accounting records have been destroyed.
- The accounting records of a significant component have been seized indefinitely by governmental authorities.

.A11 Examples of circumstances relating to the nature or timing of the auditor's work include the following:

- The entity is required to use the equity method of accounting for an associated entity, and the auditor is unable to obtain sufficient appropriate audit evidence about the latter's financial information to evaluate whether the equity method has been appropriately applied.
- The timing of the auditor's engagement is such that the auditor is unable to observe the counting of the physical inventories, and the auditor is unable to perform a rollback of the inventory or other appropriate procedures.
- The auditor determines that performing substantive procedures alone is not sufficient, but the entity's controls are not effective.
- When accounting for long-term investments, the auditor is unable to obtain audited financial statements of an investee.

.A12 Examples of an inability to obtain sufficient appropriate audit evidence arising from a limitation on the scope of the audit imposed by management include the following:

- Management prevents the auditor from observing the counting of the physical inventory.
- Management prevents the auditor from requesting external confirmation of specific account balances.

Determining the Type of Modification to the Auditor's Opinion

Effect of Uncertainties (Ref: par. .10)

.A13 Conclusive audit evidence concerning the ultimate outcome of uncertainties cannot be expected to exist at the time of the audit because the outcome

and related audit evidence are prospective. In these circumstances, management is responsible for estimating the effect of future events on the financial statements or determining that a reasonable estimate cannot be made and making the required disclosures, all in accordance with the applicable financial reporting framework, based on management's analysis of existing conditions. An audit includes an assessment of whether the audit evidence is sufficient to support management's analysis. Absence of the existence of information related to the outcome of an uncertainty does not necessarily lead to a conclusion that the audit evidence supporting management's assertion is not sufficient. Rather, the auditor's professional judgment regarding the sufficiency of the audit evidence is based on the audit evidence that is, or should be, available. If, after considering the existing conditions and available evidence, the auditor concludes that sufficient appropriate audit evidence supports management's assertions about the nature of a matter involving an uncertainty and its presentation or disclosure in the financial statements, an unmodified opinion ordinarily is appropriate.

.A14 In cases involving multiple uncertainties, the auditor may conclude that it is not possible to form an opinion on the financial statements as a whole due to the interaction and possible cumulative effects of the uncertainties.

Consequence of an Inability to Obtain Sufficient Appropriate Audit Evidence Due to a Management-Imposed Limitation After the Auditor Has Accepted the Engagement (Ref: par. .14)

.A15 The practicality of withdrawing from the audit may depend on the stage of completion of the engagement at the time that management imposes the scope limitation. If the auditor has substantially completed the audit, the auditor may decide to complete the audit to the extent possible, disclaim an opinion, and explain the scope limitation in the basis for disclaimer of opinion paragraph.

.A16 In certain circumstances, withdrawal from the audit may not be possible if the auditor is required by law or regulation to continue the audit engagement. This may be the case for an auditor who is appointed to audit the financial statements of governmental entities. It may also be the case in circumstances when the auditor is appointed to audit the financial statements covering a specific period, or appointed for a specific period, and is prohibited from withdrawing before the completion of the audit of those financial statements or before the end of that period, respectively. In these circumstances, the auditor may also consider it necessary to include an other-matter paragraph in the auditor's report.⁵

Other Considerations Relating to a Disclaimer of Opinion (Ref: par. .15)

.A17 In an initial audit, it is acceptable for the auditor to express an unmodified opinion regarding the financial position and disclaim an opinion regarding the results of operations and cash flows, when relevant.⁶ In this case, the auditor has not disclaimed an opinion on the financial statements as a whole.

⁵ Paragraph .A6 of section 706.

⁶ Paragraph .A17 of section 510, *Opening Balances—Initial Audit Engagements, Including Reaudit Engagements*.

Considerations Specific to Audits of Governmental Entities

.A18 Because the auditor of a state and local government entity expresses an opinion or disclaims an opinion for each opinion unit,⁷ an auditor's report in these circumstances may include an unmodified opinion with respect to one or more opinion units and a modified opinion for one or more other opinion units.

Considerations Specific to Governmental Entities

.A19 The nature of a government auditor's lack of independence may have a limited effect because the impairment may result from the government auditor's association with only a component of the overall governmental entity. A government auditor may determine that the lack of independence only affects one or more, but not all, of the governmental entity's opinion units and, in such circumstances, the auditor may disclaim an opinion on the affected opinion units while expressing unmodified, qualified, or adverse opinions on other opinion units. The more significant the affected opinion units are to the overall governmental entity, the more likely that it will be appropriate for the auditor to disclaim an opinion on the financial statements of the overall governmental entity.

Form and Content of the Auditor's Report When the Opinion Is Modified

Basis for Modification Paragraph (Ref: par. .17–.18, .20c, and .21–.22)

.A20 Consistency in the auditor's report helps promote users' understanding and identify unusual circumstances when they occur. Accordingly, although uniformity in the wording of a modified opinion and the description of the basis for the modification may not be possible, consistency in both the form and content of the auditor's report is desirable.

.A21 An example of the financial effects of material misstatements that the auditor may describe in the basis for modification paragraph in the auditor's report is the quantification of the effects on income before taxes, income taxes, net income, and equity if inventory is overstated. If such disclosures are made in a note to the financial statements, the basis for modification paragraph may be shortened by referring to it.

.A22 Adequate disclosures relate to the form, arrangement, and content of the financial statements and their related notes, including, for example, the terminology used, the amount of detail given, the classification of items in the statements, and the bases of amounts set forth. An auditor considers the disclosure of a particular matter in light of the circumstances and facts of which the auditor is aware at the time.

.A23 In considering the adequacy of disclosure, and in other aspects of the audit, the auditor uses information received in confidence from management. Without such confidence, the auditor would find it difficult to obtain information necessary to form an opinion on the financial statements. Rule 301, *Confidential Client Information* (ET sec. 301 par. .01), of the AICPA Code of Professional Conduct states that the auditor should not disclose any confidential client information without the specific consent of the client. Accordingly, the auditor may not make available, without management's consent, information that is not required to be disclosed in the financial statements to comply with the applicable financial reporting framework.

⁷ Paragraph .A4 of section 700.

.A24 *Practicable*, as used in the context of paragraphs .18 and .20c, means that the information is reasonably obtainable from management's accounts and records and that providing the information in the report does not require the auditor to assume the position of a preparer of financial information. For example, the auditor would not be expected to prepare a basic financial statement or segment information and include it in the auditor's report when management omits such information.

.A25 Disclosing the omitted information in the basis for modification paragraph would not be practicable if

- a. the information has not been prepared by management or the information is otherwise not readily available to the auditor or
- b. in the auditor's professional judgment, the information would be unduly voluminous in relation to the auditor's report.

.A26 When the auditor modifies the opinion due to an inability to obtain sufficient appropriate audit evidence, it is not appropriate for the scope of the audit to be explained in a note to the financial statements because the description of the audit scope is the responsibility of the auditor and not that of management.

.A27 An adverse opinion or a disclaimer of opinion relating to a specific matter described in the basis for qualification paragraph does not justify the omission of a description of other identified matters that would have otherwise required a modification of the auditor's opinion. In such cases, the disclosure of such other matters of which the auditor is aware may be relevant to users of the financial statements.

Opinion Paragraph (Ref: par. .23–.24)

.A28 Inclusion of the paragraph heading required by paragraph .23 makes it clear to the user that the auditor's opinion is modified and indicates the type of modification.

.A29 When the auditor expresses a qualified opinion, it would not be appropriate to use phrases such as *with the foregoing explanation* or *subject to* in the opinion paragraph because these are not sufficiently clear or forceful. Because accompanying notes are part of the financial statements, wording such as "fairly presented, in all material respects, when read in conjunction with note 1" is likely to be misunderstood and would also not be appropriate.

.A30 When the auditor expresses a qualified opinion due to a scope limitation, paragraph .24 requires that the auditor state in the opinion paragraph that the qualification pertains to the possible effects of the matter on the financial statements and not to the scope limitation itself. Wording such as "In our opinion, except for the above-mentioned limitation on the scope of our audit . . ." bases the exception on the restriction itself rather than on the possible effects on the financial statements and, therefore, is unacceptable.

Communication With Those Charged With Governance (Ref: par. .29)

.A31 Communicating with those charged with governance the circumstances that lead to an expected modification to the auditor's opinion and the proposed wording of the modification enables

- a. the auditor to give notice to those charged with governance of the intended modification(s) and the reasons (or circumstances) for the modification(s);

- b. the auditor to seek the concurrence of those charged with governance regarding the facts of the matter(s) giving rise to the expected modification(s) or to confirm matters of disagreement with management as such; and
- c. those charged with governance to have an opportunity, when appropriate, to provide the auditor with further information and explanations in respect of the matter(s) giving rise to the expected modification(s).

Illustration 8—An Auditor's Report in Which the Auditor Is Expressing an Unmodified Opinion in the Current Year and a Disclaimer of Opinion on the Prior-Year Statements of Income, Changes in Stockholders' Equity, and Cash Flows

Illustration 1—An Auditor's Report Containing a Qualified Opinion Due to a Material Misstatement of the Financial Statements

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (comparative) prepared in accordance with accounting principles generally accepted in the United States of America.
- Inventories are misstated. The misstatement is deemed to be material but not pervasive to the financial statements. Accordingly, the auditor's report contains a qualified opinion.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Financial Statements¹

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X1 and 20X0, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.² Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

¹ The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

² In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Basis for Qualified Opinion

The Company has stated inventories at cost in the accompanying balance sheets. Accounting principles generally accepted in the United States of America require inventories to be stated at the lower of cost or market. If the Company stated inventories at the lower of cost or market, a write down of \$XXX and \$XXX would have been required as of December 31, 20X1 and 20X0, respectively. Accordingly, cost of sales would have been increased by \$XXX and \$XXX, and net income, income taxes, and stockholders' equity would have been reduced by \$XXX, \$XXX, and \$XXX, and \$XXX, \$XXX, and \$XXX, as of and for the years ended December 31, 20X1 and 20X0, respectively.

Qualified Opinion

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1 and 20X0, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

Illustration 2—An Auditor's Report Containing a Qualified Opinion for Inadequate Disclosure

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (comparative) prepared in accordance with accounting principles generally accepted in the United States of America.
- The financial statements have inadequate disclosures. The auditor has concluded that (a) it is not practicable to present the required information and (b) the effects are such that an adverse opinion is not appropriate. Accordingly, the auditor's report contains a qualified opinion.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Financial Statements¹

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X1 and 20X0, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.² Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and

¹ The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

² In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Basis for Qualified Opinion

The Company's financial statements do not disclose *[describe the nature of the omitted information that is not practicable to present in the auditor's report]*. In our opinion, disclosure of this information is required by accounting principles generally accepted in the United States of America.

Qualified Opinion

In our opinion, except for the omission of the information described in the Basis for Qualified Opinion paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1 and 20X0, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

Illustration 3—An Auditor’s Report Containing an Adverse Opinion Due to a Material Misstatement of the Financial Statements

Circumstances include the following:

- Audit of a complete set of consolidated general purpose financial statements (single year) prepared in accordance with accounting principles generally accepted in the United States of America.
- The financial statements are materially misstated due to the nonconsolidation of a subsidiary. The material misstatement is deemed to be pervasive to the financial statements. Accordingly, the auditor's report contains an adverse opinion. The effects of the misstatement on the financial statements have not been determined because it was not practicable to do so.

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Consolidated Financial Statements¹

We have audited the accompanying consolidated financial statements of ABC Company and its subsidiaries, which comprise the consolidated balance sheet as of December 31, 20X1, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing

¹ The subtitle "Report on the Consolidated Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

an opinion on the effectiveness of the entity's internal control.² Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our adverse audit opinion.

Basis for Adverse Opinion

As described in Note X, the Company has not consolidated the financial statements of subsidiary XYZ Company that it acquired during 20X1 because it has not yet been able to ascertain the fair values of certain of the subsidiary's material assets and liabilities at the acquisition date. This investment is therefore accounted for on a cost basis by the Company. Under accounting principles generally accepted in the United States of America, the subsidiary should have been consolidated because it is controlled by the Company. Had XYZ Company been consolidated, many elements in the accompanying consolidated financial statements would have been materially affected. The effects on the consolidated financial statements of the failure to consolidate have not been determined.

Adverse Opinion

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion paragraph, the consolidated financial statements referred to above do not present fairly the financial position of ABC Company and its subsidiaries as of December 31, 20X1, or the results of their operations or their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

² In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the consolidated financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

Illustration 4—An Auditor’s Report Containing a Qualified Opinion Due to the Auditor’s Inability to Obtain Sufficient Appropriate Audit Evidence

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year) prepared in accordance with accounting principles generally accepted in the United States of America.
- The auditor was unable to obtain sufficient appropriate audit evidence regarding an investment in a foreign affiliate. The possible effects of the inability to obtain sufficient appropriate audit evidence are deemed to be material but not pervasive to the financial statements. Accordingly, the auditor's report contains a qualified opinion.

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Financial Statements¹

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.² Accordingly, we express no such opinion. An audit

¹ The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

² In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Basis for Qualified Opinion

ABC Company's investment in XYZ Company, a foreign affiliate acquired during the year and accounted for under the equity method, is carried at \$XXX on the balance sheet at December 31, 20X1, and ABC Company's share of XYZ Company's net income of \$XXX is included in ABC Company's net income for the year then ended. We were unable to obtain sufficient appropriate audit evidence about the carrying amount of ABC Company's investment in XYZ Company as of December 31, 20X1 and ABC Company's share of XYZ Company's net income for the year then ended because we were denied access to the financial information, management, and the auditors of XYZ Company. Consequently, we were unable to determine whether any adjustments to these amounts were necessary.

Qualified Opinion

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

Illustration 5—An Auditor’s Report Containing a Disclaimer of Opinion Due to the Auditor’s Inability to Obtain Sufficient Appropriate Audit Evidence About a Single Element of the Financial Statements

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year) prepared in accordance with accounting principles generally accepted in the United States of America.
- The auditor was unable to obtain sufficient appropriate audit evidence about a single element of the financial statements. That is, the auditor was unable to obtain audit evidence about the financial information of a joint venture investment accounted for under the proportionate consolidation approach. The investment represents over 90 percent of the Company's net assets. The possible effects of this inability to obtain sufficient appropriate audit evidence are deemed to be both material and pervasive to the financial statements. Accordingly, the auditor's report contains a disclaimer of opinion.
- The auditor concluded that it was unnecessary to include in the auditor's report specific amounts for the Company's proportional share of the assets, liabilities, income, and expenses of the joint venture investment because the investment represents over 90 percent of the Company's net assets, and that fact is disclosed in the auditor's report.

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Financial Statements¹

We were engaged to audit the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

¹ The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

Basis for Disclaimer of Opinion

The Company's investment in XYZ Company, a joint venture, is carried at \$XXX on the Company's balance sheet, which represents over 90 percent of the Company's net assets as of December 31, 20X1. We were not allowed access to the management and the auditors of XYZ Company. As a result, we were unable to determine whether any adjustments were necessary relating to the Company's proportional share of XYZ Company's assets that it controls jointly, its proportional share of XYZ Company's liabilities for which it is jointly responsible, its proportional share of XYZ Company's income and expenses for the year, and the elements making up the statements of changes in stockholders' equity and cash flows.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

Illustration 6—An Auditor’s Report Containing a Disclaimer of Opinion Due to the Auditor’s Inability to Obtain Sufficient Appropriate Audit Evidence About Multiple Elements of the Financial Statements

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year) prepared in accordance with accounting principles generally accepted in the United States of America.
- The auditor was unable to obtain sufficient appropriate audit evidence about multiple elements of the financial statements. That is, the auditor was unable to obtain audit evidence about the entity’s inventories and accounts receivable. The possible effects of this inability to obtain sufficient appropriate audit evidence are deemed to be both material and pervasive to the financial statements. Accordingly, the auditor’s opinion contains a disclaimer of opinion.

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Financial Statements¹

We were engaged to audit the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders’ equity, and cash flows for the year then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

We were not engaged as auditors of the Company until after December 31, 20X1, and, therefore, did not observe the counting of physical inventories at the beginning or end of the year. We were unable to satisfy ourselves by other auditing procedures concerning the inventory held at December 31, 20X1, which is stated in the balance sheet at \$XXX. In addition, the introduction of a new computerized accounts receivable system in September 20X1 resulted in numerous misstatements in accounts receivable. As of the date of our audit report, management was still in the process of rectifying the system deficiencies and

¹ The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

correcting the misstatements. We were unable to confirm or verify by alternative means accounts receivable included in the balance sheet at a total amount of \$XXX at December 31, 20X1. As a result of these matters, we were unable to determine whether any adjustments might have been found necessary in respect of recorded or unrecorded inventories and accounts receivable, and the elements making up the statements of income, changes in stockholders' equity, and cash flows.

Disclaimer of Opinion

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

Illustration 7—An Auditor’s Report in Which the Auditor Is Expressing an Unmodified Opinion in the Prior Year and a Modified Opinion (Qualified Opinion) in the Current Year

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (comparative) prepared in accordance with accounting principles generally accepted in the United States of America.
- Certain lease obligations have been excluded from the financial statements in the current year. The effect of the exclusion is material but not pervasive. The auditor expressed an unmodified opinion in the prior year and is expressing a modified opinion (qualified opinion) in the current year.

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Financial Statements¹

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X1 and 20X0, and the related statements of income, changes in stockholders’ equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control.² Accordingly, we express no such opinion. An audit

¹ The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

² In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Basis for Qualified Opinion

The Company has excluded, from property and debt in the accompanying 20X1 balance sheet, certain lease obligations that were entered into in 20X1 which, in our opinion, should be capitalized in accordance with accounting principles generally accepted in the United States of America. If these lease obligations were capitalized, property would be increased by \$XXX, long-term debt by \$XXX, and retained earnings by \$XXX as of December 31, 20X1, and net income and earnings per share would be increased (decreased) by \$XXX and \$XXX, respectively, for the year then ended.

Qualified Opinion

In our opinion, except for the effects on the 20X1 financial statements of not capitalizing certain lease obligations as described in the Basis for Qualified Opinion paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1 and 20X0, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

Illustration 8—An Auditor’s Report in Which the Auditor Is Expressing an Unmodified Opinion in the Current Year and a Disclaimer of Opinion on the Prior-Year Statements of Income, Changes in Stockholders’ Equity, and Cash Flows

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (comparative) prepared in accordance with accounting principles generally accepted in the United States of America.
- The auditor was unable to observe the physical inventory as at December 31, 20X0, as at that time the auditor had not been engaged. Accordingly, the auditor was unable to obtain sufficient appropriate audit evidence regarding the net income and cash flows for the year ended December 31, 20X1. The effects of the inability to obtain sufficient appropriate audit evidence are deemed material and pervasive.
- The auditor expressed an unmodified opinion on December 31, 20X1 and 20X0 balance sheets and a disclaimer of opinion on the 20X0 statements of income, changes in stockholders' equity, and cash flows.

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Financial Statements¹

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X2 and 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. Except as explained in the Basis for Disclaimer of Opinion paragraph, we conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements

¹ The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.² Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions on the balance sheets as of December 31, 20X2 and 20X1, and the statements of income, changes in stockholders' equity, and cash flows for the year ended December 31, 20X2.

Basis for Disclaimer of Opinion on 20X1 Operations and Cash Flows

We did not observe the taking of the physical inventory as of December 31, 20X0, since that date was prior to our engagement as auditors for the Company, and we were unable to satisfy ourselves regarding inventory quantities by means of other auditing procedures. Inventory amounts as of December 31, 20X0 enter into the determination of net income and cash flows for the year ended December 31, 20X1.

Disclaimer of Opinion on 20X1 Operations and Cash Flows

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the results of operations and cash flows for the year ended December 31, 20X1. Accordingly, we do not express an opinion on the results of operations and cash flows for the year ended December 31, 20X1.

Opinion

In our opinion, the balance sheets of ABC Company as of December 31, 20X2 and 20X1, and the statements of income, changes in stockholders' equity, and cash flows for the year ended December 31, 20X2, present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the year ended December 31, 20X2 in accordance with accounting principles generally accepted in the United States of America.

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

² In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

AU-C Section 706

Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report

Source: SAS No. 122.

Effective for audits of financial statements for periods ending on or after December 15, 2012.

Introduction

Scope of This Section

.01 This section addresses additional communications in the auditor's report when the auditor considers it necessary to

- a. draw users' attention to a matter or matters presented or disclosed in the financial statements that are of such importance that they are fundamental to users' understanding of the financial statements (emphasis-of-matter paragraph) or
- b. draw users' attention to any matter or matters other than those presented or disclosed in the financial statements that are relevant to users' understanding of the audit, the auditor's responsibilities, or the auditor's report (other-matter paragraph).

.02 Exhibit B, "List of AU-C Sections Containing Requirements for Emphasis-of-Matter Paragraphs," and exhibit C, "List of AU-C Sections Containing Requirements for Other-Matter Paragraphs," identify AU-C sections containing specific requirements for the auditor to include an emphasis-of-matter paragraph or other-matter paragraph, respectively, in the auditor's report. Accordingly, the requirements in this section regarding the form and placement of such paragraphs apply. (Ref: par. .A1)

Effective Date

.03 This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

Objective

.04 The objective of the auditor, having formed an opinion on the financial statements, is to draw users' attention, when in the auditor's judgment it is necessary to do so, by way of clear additional communication in the auditor's report, to

- a. a matter, although appropriately presented or disclosed in the financial statements, that is of such importance that it is fundamental to users' understanding of the financial statements or

- b. as appropriate, any other matter that is relevant to users' understanding of the audit, the auditor's responsibilities, or the auditor's report.

Definitions

.05 For the purposes of generally accepted auditing standards (GAAS), the following terms have the meanings attributed as follows:

Emphasis-of-matter paragraph. A paragraph included in the auditor's report that is required by GAAS, or is included at the auditor's discretion, and that refers to a matter appropriately presented or disclosed in the financial statements that, in the auditor's professional judgment, is of such importance that it is fundamental to users' understanding of the financial statements.

Other-matter paragraph. A paragraph included in the auditor's report that is required by GAAS, or is included at the auditor's discretion, and that refers to a matter other than those presented or disclosed in the financial statements that, in the auditor's professional judgment, is relevant to users' understanding of the audit, the auditor's responsibilities, or the auditor's report.

Requirements

Emphasis-of-Matter Paragraphs in the Auditor's Report

.06 If the auditor considers it necessary to draw users' attention to a matter appropriately presented or disclosed in the financial statements that, in the auditor's professional judgment, is of such importance that it is fundamental to users' understanding of the financial statements, the auditor should include an emphasis-of-matter paragraph in the auditor's report, provided that the auditor has obtained sufficient appropriate audit evidence that the matter is not materially misstated in the financial statements. Such a paragraph should refer only to information presented or disclosed in the financial statements. (Ref: par. .A2–.A3)

.07 When the auditor includes an emphasis-of-matter paragraph in the auditor's report, the auditor should

- a. include it immediately after the opinion paragraph in the auditor's report,
- b. use the heading "Emphasis of Matter" or other appropriate heading, (Ref: par. .A4)
- c. include in the paragraph a clear reference to the matter being emphasized and to where relevant disclosures that fully describe the matter can be found in the financial statements, and
- d. indicate that the auditor's opinion is not modified with respect to the matter emphasized. (Ref: par. .A5)

Other-Matter Paragraphs in the Auditor's Report

.08 If the auditor considers it necessary to communicate a matter other than those that are presented or disclosed in the financial statements that, in the auditor's professional judgment, is relevant to users' understanding of the audit, the auditor's responsibilities, or the auditor's report, the auditor should do so in a paragraph in the auditor's report with the heading "Other Matter" or

other appropriate heading. The auditor should include this paragraph immediately after the opinion paragraph and any emphasis-of-matter paragraph or elsewhere in the auditor's report if the content of the other-matter paragraph is relevant to the "Other Reporting Responsibilities" section. (Ref: par. .A6–.A11)

Communication With Those Charged With Governance

.09 If the auditor expects to include an emphasis-of-matter or other-matter paragraph in the auditor's report, the auditor should communicate with those charged with governance regarding this expectation and the proposed wording of this paragraph. (Ref: par. .A12)

Application and Other Explanatory Material

Scope of This Section (Ref: par. .02)

.A1 The AU-C sections identified in exhibits B and C require the auditor to include an emphasis-of-matter paragraph or other-matter paragraph, respectively, in the auditor's report relating to certain matters. The nature of these matters is such that they are brought to the attention of users of the auditor's report in all instances rather than at the discretion of the auditor. The explanatory language provided by such required paragraphs achieves the same objective as an emphasis-of-matter or other-matter paragraph that is included based on the professional judgment of the auditor (that is, to provide additional communication to the users of the auditor's report). Therefore, the auditor follows the requirements in this section regarding the form and placement of these required paragraphs.

Emphasis-of-Matter Paragraphs in the Auditor's Report

Circumstances in Which an Emphasis-of-Matter Paragraph May Be Necessary (Ref: par. .06)

.A2 In addition to the required emphasis-of-matter paragraphs listed in exhibit B, the following are examples of circumstances when the auditor may consider it necessary to include an emphasis-of-matter paragraph:

- An uncertainty relating to the future outcome of unusually important litigation or regulatory action
- A major catastrophe that has had, or continues to have, a significant effect on the entity's financial position
- Significant transactions with related parties
- Unusually important subsequent events

.A3 Paragraph .06 requires that an emphasis-of-matter paragraph refer only to matters appropriately presented or disclosed in the financial statements. To include information in an emphasis-of-matter paragraph about a matter beyond what is presented or disclosed in the financial statements may raise questions about the appropriateness of such presentation or disclosure.

Including an Emphasis-of-Matter Paragraph in the Auditor's Report (Ref: par. .07)

.A4 If the heading "Emphasis of Matter" is not used, another heading may be considered appropriate if it adequately describes the nature of the matter being disclosed or communicated.

.A5 The inclusion of an emphasis-of-matter paragraph in the auditor's report does not affect the auditor's opinion. An emphasis-of-matter paragraph is not a substitute for either

- a. the auditor expressing a qualified opinion or an adverse opinion, or disclaiming an opinion, when required by the circumstances of a specific audit engagement (see section 705, *Modifications to the Opinion in the Independent Auditor's Report*) or
- b. disclosures in the financial statements that the applicable financial reporting framework requires management to make.

Other-Matter Paragraphs in the Auditor's Report (Ref: par. .08)

Circumstances in Which an Other-Matter Paragraph May Be Necessary

Relevant to Users' Understanding of the Audit

.A6 In the rare circumstance when the auditor is unable to withdraw from an engagement even though the possible effect of an inability to obtain sufficient appropriate audit evidence due to a limitation on the scope of the audit imposed by management is pervasive,¹ the auditor may consider it necessary to include an other-matter paragraph in the auditor's report to explain why it is not possible for the auditor to withdraw from the engagement.

Relevant to Users' Understanding of the Auditor's Responsibilities or the Auditor's Report

.A7 Law, regulation, or generally accepted practice may require or permit the auditor to elaborate on matters that provide further explanation of the auditor's responsibilities in the audit of the financial statements or the auditor's report thereon. When relevant, one or more subheadings may be used that describe the content of the other-matter paragraph.

.A8 An other-matter paragraph does not address circumstances when the auditor has other reporting responsibilities that are in addition to the auditor's responsibility under GAAS to report on the financial statements (see the "Other Reporting Responsibilities" section in section 700, *Forming an Opinion and Reporting on Financial Statements*) or when the auditor has been asked to perform and report on additional specified procedures or to express an opinion on specific matters.

Reporting on More Than One Set of Financial Statements

.A9 An entity may prepare one set of financial statements in accordance with a general purpose framework (for example, accounting principles generally accepted in the United States of America) and another set of financial statements in accordance with another general purpose framework (for example, International Financial Reporting Standards promulgated by the International Accounting Standards Board) and engage the auditor to report on both sets of financial statements. If the auditor has determined that the frameworks are acceptable in the respective circumstances, the auditor may include an other-matter paragraph in the auditor's report referring to the fact that another set of financial statements has been prepared by the same entity in accordance with another general purpose framework and that the auditor has issued a report on those financial statements.

¹ See paragraph .13 of section 705, *Modifications to the Opinion in the Independent Auditor's Report*, for a discussion of this circumstance.

Including an Other-Matter Paragraph in the Auditor's Report

.A10 The content of an other-matter paragraph reflects clearly that such other matter is not required to be presented and disclosed in the financial statements. An other-matter paragraph does not include information that the auditor is prohibited from providing by law, regulation, or other professional standards (for example, ethical standards relating to the confidentiality of information). An other-matter paragraph also does not include information that is required to be provided by management.

.A11 The placement of an other-matter paragraph depends on the nature of the information to be communicated. When an other-matter paragraph is included to draw users' attention to a matter relevant to their understanding of the audit of the financial statements, the paragraph is included immediately after the opinion paragraph and any emphasis-of-matter paragraph. When an other-matter paragraph is included to draw users' attention to a matter relating to other reporting responsibilities addressed in the auditor's report, the paragraph may be included in the section subtitled "Report on Other Legal and Regulatory Requirements." Alternatively, when relevant to all the auditor's responsibilities or users' understanding of the auditor's report, the other-matter paragraph may be included as a separate section following the "Report on the Financial Statements" and the "Report on Other Legal and Regulatory Requirements."

**Communication With Those Charged With Governance
(Ref: par. .09)**

.A12 The auditor's communication with those charged with governance, as described in paragraph .09, enables those charged with governance to be made aware of the nature of any specific matters that the auditor intends to highlight in the auditor's report and provides them with an opportunity to obtain further clarification from the auditor, when necessary. When the inclusion of an other-matter paragraph on a particular matter in the auditor's report recurs on each successive engagement, the auditor may determine that it is unnecessary to repeat the communication on each engagement.

Illustration 1—An Auditor’s Report With an Emphasis-of-Matter Paragraph Because There Is Uncertainty Relating to a Pending Unusually Important Litigation Matter

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year) prepared in accordance with accounting principles generally accepted in the United States of America.
- There is uncertainty relating to a pending unusually important litigation matter.
- The auditor's report includes an emphasis-of-matter paragraph.

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Financial Statements¹

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.² Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and

¹ The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

² In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence that we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note X to the financial statements, the Company is a defendant in a lawsuit [*briefly describe the nature of the litigation consistent with the Company's description in the note to the financial statements*]. Our opinion is not modified with respect to this matter.

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

Illustration 2—An Auditor’s Report With an Other-Matter Paragraph That May Be Appropriate When an Auditor Issues an Updated Report on the Financial Statements of a Prior Period That Contains an Opinion Different From the Opinion Previously Expressed

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (comparative) prepared in accordance with accounting principles generally accepted in the United States of America.
- The auditor's report on the prior period financial statements expressed an adverse opinion due to identified departures from accounting principles generally accepted in the United States of America that resulted in the financial statements being materially misstated. The entity has elected to change its method of accounting for the matters that gave rise to the adverse opinion in the prior period, and has restated the prior period financial statements. Therefore, the auditor has expressed an unmodified opinion on the comparative financial statements.
- The auditor's report includes an other-matter paragraph indicating that the updated report on the financial statements of the prior period contains an opinion different from the opinion previously expressed, as required by section 700, *Forming an Opinion and Reporting on Financial Statements*.
- Although the entity changed its method of accounting for the matters that gave rise to the adverse opinion in the prior period, the principal objective of the communication in the other-matter paragraph is to draw users' attention to the change in the auditor's opinion on the prior period financial statements. The other-matter paragraph also refers to the change in accounting principle and the related disclosure in the financial statements. Therefore, the other-matter paragraph also meets the objective of communicating the change in accounting principle as required by section 708, *Consistency of Financial Statements*, and a separate emphasis-of-matter paragraph is not considered necessary.

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Financial Statements¹

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X1 and 20X0, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and

¹ The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.² Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence that we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1 and 20X0, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

In our report dated March 1, 20X1, we expressed an opinion that the 20X0 financial statements did not fairly present the financial position, results of operations, and cash flows of ABC Company in accordance with accounting principles generally accepted in the United States of America because of two departures from such principles: (1) ABC Company carried its property, plant, and equipment at appraisal values, and provided for depreciation on the basis of such values, and (2) ABC Company did not provide for deferred income taxes with respect to differences between income for financial reporting purposes and taxable income. As described in Note X, the Company has changed its method of accounting for these items and restated its 20X0 financial statements to conform with accounting principles generally accepted in the United States of America. Accordingly, our present opinion on the restated 20X0 financial statements, as presented herein, is different from that expressed in our previous report.

² In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

Illustration 3—An Auditor’s Report With a Qualified Opinion Due to a Material Misstatement of the Financial Statements and an Emphasis-of-Matter Paragraph Because There Is Uncertainty Relating to a Pending Unusually Important Litigation Matter

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year) prepared in accordance with accounting principles generally accepted in the United States of America.
- Inventories are misstated. The misstatement is deemed to be material but not pervasive to the financial statements.
- There is uncertainty relating to a pending unusually important litigation matter.
- The auditor's report includes a qualified opinion and also includes an emphasis-of-matter paragraph.

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Financial Statements¹

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the

¹ The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

entity's internal control.² Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Basis for Qualified Opinion

The Company has stated inventories at cost in the accompanying balance sheet. Accounting principles generally accepted in the United States of America require inventories to be stated at the lower of cost or market. If the Company stated inventories at the lower of cost or market, a write down of \$XXX would have been required as of December 31, 20X1. Accordingly, cost of sales would have been increased by \$XXX and net income, income taxes, and stockholders' equity would have been reduced by \$XXX, \$XXX, and \$XXX, as of and for the year ended December 31, 20X1, respectively.

Qualified Opinion

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note X to the financial statements, the Company is a defendant in a lawsuit [*briefly describe the nature of the litigation consistent with the Company's description in the note to the financial statements*]. Our opinion is not modified with respect to this matter.

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

² In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

Exhibit B—List of AU-C Sections Containing Requirements for Emphasis-of-Matter Paragraphs (Ref: par. .02)

This exhibit identifies paragraphs in other AU-C sections that require the auditor to include an emphasis-of-matter paragraph in the auditor's report in certain circumstances. The list is not a substitute for considering the requirements and related application and other explanatory material in AU-C sections.

- Paragraph .16c of section 560, *Subsequent Events and Subsequently Discovered Facts*
- Paragraphs .15–.16 of section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*
- Paragraphs .08–.09 and .11–.13 of section 708, *Consistency of Financial Statements*
- Paragraphs .19 and .21 of section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*

[Revised, August 2012, to reflect conforming changes necessary due to the issuance of SAS No. 126.]

.A15

Exhibit C—List of AU-C Sections Containing Requirements for Other-Matter Paragraphs (Ref: par. .02)

This exhibit identifies paragraphs in other AU-C sections that require the auditor to include an other-matter paragraph in the auditor's report in certain circumstances. The list is not a substitute for considering the requirements and related application and other explanatory material in AU-C sections.

- Paragraph .16c of section 560, *Subsequent Events and Subsequently Discovered Facts*
- Paragraphs .53–.54 and .56–.57 of section 700, *Forming an Opinion and Reporting on Financial Statements*
- Paragraph .12 of section 720, *Other Information in Documents Containing Audited Financial Statements*
- Paragraph .09 of section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*
- Paragraph .07 of section 730, *Required Supplementary Information*
- Paragraph .20 of section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*
- Paragraph .13 of section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements*
- Paragraph .07 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*

[Amended, December 2011, to reflect conforming changes necessary due to the issuance of SAS No. 125.]

AU-C Section 708

Consistency of Financial Statements

Source: SAS No. 122.

Effective for audits of financial statements for periods ending on or after December 15, 2012.

Introduction

Scope of This Section

.01 This section addresses the auditor's evaluation of the consistency of the financial statements between periods, including changes to previously issued financial statements and the effect of that evaluation on the auditor's report on the financial statements.

Effective Date

.02 This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

Objectives

.03 The objectives of the auditor are to

- a. evaluate the consistency of the financial statements for the periods presented and
- b. communicate appropriately in the auditor's report when the comparability of financial statements between periods has been materially affected by a change in accounting principle or by adjustments to correct a material misstatement in previously issued financial statements.

Definition

.04 For purposes of generally accepted auditing standards, the following term has the meaning attributed as follows:

Current period. The most recent period upon which the auditor is reporting.

Requirements

Evaluating Consistency

.05 The auditor should evaluate whether the comparability of the financial statements between periods has been materially affected by a change in accounting principle or by adjustments to correct a material misstatement in previously issued financial statements. (Ref: par. .A1)

.06 The periods included in the auditor's evaluation of consistency depend on the periods covered by the auditor's opinion on the financial statements. When the auditor's opinion covers only the current period, the auditor should evaluate whether the current-period financial statements are consistent with those of the preceding period, regardless of whether financial statements for the preceding period are presented. When the auditor's opinion covers two or more periods, the auditor should evaluate consistency between such periods and the consistency of the earliest period covered by the auditor's opinion with the period prior thereto, if such prior period is presented with the financial statements being reported upon. The auditor also should evaluate whether the financial statements for the periods being reported upon are consistent with previously issued financial statements for the relevant periods. (Ref: par. .A2–.A3)

Change in Accounting Principle

.07 The auditor should evaluate a change in accounting principle to determine whether (Ref: par. .A4–.A6)

- a. the newly adopted accounting principle is in accordance with the applicable financial reporting framework,
- b. the method of accounting for the effect of the change is in accordance with the applicable financial reporting framework,
- c. the disclosures related to the accounting change are appropriate and adequate, and
- d. the entity has justified that the alternative accounting principle is preferable.

.08 If the auditor concludes that the criteria in paragraph .07 have been met, and the change in accounting principle has a material effect on the financial statements, the auditor should include an emphasis-of-matter paragraph¹ in the auditor's report that describes the change in accounting principle and provides a reference to the entity's disclosure. If the criteria in paragraph .07 are not met, the auditor should evaluate whether the accounting change results in a material misstatement and whether the auditor should modify the opinion accordingly.² (Ref: par. .A7–.A9)

.09 The auditor should include an emphasis-of-matter paragraph relating to a change in accounting principle in reports on financial statements in the period of the change, and in subsequent periods, until the new accounting principle is applied in all periods presented. If the change in accounting principle is accounted for by retrospective application to the financial statements of all prior periods presented, the emphasis-of-matter paragraph is needed only in the period of such change.

.10 The auditor should evaluate and report on a change in accounting estimate that is inseparable from the effect of a related change in accounting principle like other changes in accounting principle, as required by paragraphs .08–.09. (Ref: par. .A10)

.11 When a change in the reporting entity results in financial statements that, in effect, are those of a different reporting entity, the auditor should include an emphasis-of-matter paragraph in the auditor's report that describes the

¹ Paragraphs .06–.07 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

² See section 705, *Modifications to the Opinion in the Independent Auditor's Report*.

change in the reporting entity and provides a reference to the entity's disclosure, unless the change in reporting entity results from a transaction or event. The requirements in paragraph .09 also apply. (Ref: par. .A11)

.12 If an entity's financial statements contain an investment accounted for by the equity method, the auditor's evaluation of consistency should include consideration of the investee. If the investee makes a change in accounting principle that is material to the investing entity's financial statements, the auditor should include an emphasis-of-matter paragraph in the auditor's report to describe the change in accounting principle. The requirements in paragraph .09 also apply.

Correction of a Material Misstatement in Previously Issued Financial Statements

.13 The auditor should include an emphasis-of-matter paragraph in the auditor's report when there are adjustments to correct a material misstatement in previously issued financial statements. The auditor should include this type of emphasis-of-matter paragraph in the auditor's report when the related financial statements are restated to correct the prior material misstatement. The paragraph need not be repeated in subsequent periods. (Ref: par. .A12–.A13)

.14 The emphasis-of-matter paragraph should include

- a. a statement that the previously issued financial statements have been restated for the correction of a material misstatement in the respective period and
- b. a reference to the entity's disclosure of the correction of the material misstatement. (Ref: par. .A14)

.15 If the financial statement disclosures relating to the restatement to correct a material misstatement in previously issued financial statements are not adequate, the auditor should address the inadequacy of disclosure as described in section 705, *Modifications to the Opinion in the Independent Auditor's Report*.

Change in Classification

.16 The auditor should evaluate a material change in financial statement classification and the related disclosure to determine whether such a change is also either a change in accounting principle or an adjustment to correct a material misstatement in previously issued financial statements. If so, the requirements of paragraphs .07–.15 apply. (Ref: par. .A15–.A16)

Application and Other Explanatory Material

Evaluating Consistency (Ref: par. .05–.06)

.A1 Unless the auditor's report explicitly states otherwise, the auditor's report implies that the auditor is satisfied that the comparability of financial statements between periods has not been materially affected by a change in accounting principle or by adjustments to correct a material misstatement in previously issued financial statements. There may be no effect on comparability between or among periods because either (a) no change in an accounting principle has occurred, or (b) there has been a change in an accounting principle or in the method of application, but the effect of the change on the comparability

of the financial statements is not material. When no material effect on comparability results from a change in accounting principle or an adjustment to previously issued financial statements, the auditor need not refer to consistency in the auditor's report.

A2 The periods covered in the auditor's evaluation of consistency depend on the periods covered by the auditor's opinion on the financial statements. If an entity presents comparative financial statements and has a change in auditors in the current year, the auditor evaluates consistency between the year covered by the auditor's opinion and the immediately preceding year in accordance with the requirements in paragraph .06.

A3 When an entity accounts for a change in accounting principle by applying the principle to one or more prior periods that were included in previously issued financial statements, as if that principle had always been used (commonly referred to as *retrospective application*), the financial statements presented generally will be consistent. However, the previous periods' financial statements presented with the current period's financial statements will reflect the change in accounting principle and, therefore, will appear different from those previous periods' financial statements on which the auditor previously reported. The evaluation required by paragraph .06 encompasses previously issued financial statements for the relevant periods.

Change in Accounting Principle (Ref: par. .07)

A4 A change in accounting principle is a change from one accounting principle in accordance with the applicable financial reporting framework to another accounting principle in accordance with the applicable financial reporting framework when (1) two or more accounting principles apply or (2) the accounting principle formerly used is no longer in accordance with the applicable financial reporting framework. A change in the method of applying an accounting principle also is considered a change in accounting principle.

A5 The applicable financial reporting framework usually sets forth the method of accounting for the effects of a change in accounting principle and the related disclosures.

A6 The issuance of an accounting pronouncement that requires use of a new accounting principle, interprets an existing principle, expresses a preference for an accounting principle, or rejects a specific principle is sufficient justification for a change in accounting principle, as long as the change in accounting principle is made in accordance with the applicable financial reporting framework.

Reporting on Changes in Accounting Principles (Ref: par. .08-.11)

A7 The following is an example of an emphasis-of-matter paragraph for a change in accounting principle resulting from the adoption of a new accounting pronouncement:

Emphasis of Matter

As discussed in Note X to the financial statements, in [insert year(s) of financial statements that reflect the accounting method change], the entity adopted new accounting guidance [insert description of new accounting guidance]. Our opinion is not modified with respect to this matter.

A8 The following is an example of an emphasis-of-matter paragraph when the entity has made a voluntary change in accounting principle (that is, other than a change due to the adoption of a new accounting pronouncement).

Emphasis of Matter

As discussed in Note X to the financial statements, the entity has elected to change its method of accounting for [describe accounting method change] in [insert year(s) of financial statements that reflect the accounting method change]. Our opinion is not modified with respect to this matter.

.A9 If a change in accounting principle does not have a material effect on the financial statements in the current year but the change is expected to have a material effect in later years, the auditor is not required to recognize the change in the auditor's report in the current year. The applicable financial reporting framework may include a requirement for the entity to disclose such situations in the notes to the financial statements. Section 700, *Forming an Opinion and Reporting on Financial Statements*, and section 705 require the auditor to evaluate the appropriateness and adequacy of disclosures in connection with forming an opinion and reporting on the financial statements.³

.A10 Paragraph .10 requires the auditor to evaluate and report on a change in accounting estimate that is inseparable from the effect of a related change in accounting principle like other changes in accounting principle. It is sometimes difficult to differentiate between a change in an accounting estimate and a change in an accounting principle because the change in accounting estimate may be inseparable from the effect of a related change in accounting principle. For example, when a change is made to the method of depreciation of an asset to reflect a change in the estimated future benefit of the asset or the pattern of consumption for those benefits, such change in accounting may be inseparable from a change in estimate.

Change in Reporting Entity

.A11 A change in reporting entity that results from a transaction or event, such as the creation, cessation, or complete or partial purchase or disposition of a subsidiary or other business unit, does not require recognition in the auditor's report. Examples of a change in the reporting entity that is not a result of a transaction or event include

- a. presenting consolidated or combined financial statements in place of financial statements of individual entities.
- b. changing specific subsidiaries that make up the group of entities for which consolidated financial statements are presented.
- c. changing the entities included in combined financial statements.

Correction of a Material Misstatement in Previously Issued Financial Statements (Ref: par. .13–.14)

.A12 A change from an accounting principle that is not in accordance with the applicable financial reporting framework to one that is in accordance with the applicable financial reporting framework is a correction of a misstatement.

.A13 Section 560, *Subsequent Events and Subsequently Discovered Facts*, addresses the auditor's responsibilities when adjustments have been made to correct a material misstatement in previously issued financial statements.

³ Paragraph .16 of section 700, *Forming an Opinion and Reporting on Financial Statements*, and paragraphs .07 and .A7 of section 705.

Reporting on a Correction of a Material Misstatement in Previously Issued Financial Statements

.A14 The following is an example of an emphasis-of-matter paragraph when there has been a correction of a material misstatement in previously issued financial statements:

Emphasis of Matter

As discussed in Note X to the financial statements, the 20X2 financial statements have been restated to correct a misstatement. Our opinion is not modified with respect to this matter.

Change in Classification (Ref: par. .16)

.A15 Changes in classification in previously issued financial statements do not require recognition in the auditor's report unless the change represents the correction of a material misstatement or a change in accounting principle. For example, certain reclassifications in previously issued financial statements, such as reclassifications of debt from long-term to short-term or reclassifications of cash flows from the operating activities category to the financing activities category, might occur because those items were classified incorrectly in the previously issued financial statements. In such situations, the reclassification also is the correction of a misstatement.

.A16 In some cases, changes in classification in previously issued financial statements may result from changes in the entity's business or operating structure. The auditor may need to obtain a further understanding of the underlying rationale for such reclassifications to determine whether the requirements of paragraph .16 apply.

AU-C Section 720

Other Information in Documents Containing Audited Financial Statements

(Supersedes SAS No. 8 and with SAS No. 119 supersedes SAS No. 29.)

Source: SAS No. 118; SAS No. 122; SAS No. 123.

Effective for audits of financial statements for periods beginning on or after December 15, 2010, unless otherwise indicated. Early application is permitted.

NOTE

To address practice issues, Statement on Auditing Standards (SAS) No. 118, *Other Information in Documents Containing Audited Financial Statements*, was issued in February 2010 as a SAS resulting from the Clarification and Convergence Project of the Auditing Standards Board, and became effective for audits of financial statements for periods beginning on or after December 15, 2010.

SAS No. 118 was previously codified as AU section 550 until December 2013, when all AU sections were deleted from AICPA *Professional Standards*, as described in the AU-C Foreword. SAS No. 122, *Statement on Auditing Standards: Clarification and Recodification*, redesignated AU section 550 as section 720 but did not supersede SAS No. 118.

This section contains conforming changes necessary in specific paragraphs and footnotes due to the issuance of SAS No. 122.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibility with respect to other information in documents containing audited financial statements and the auditor's report thereon. In the absence of any separate requirement in the particular circumstances of the engagement, the auditor's opinion on the financial statements does not cover other information, and the auditor has no responsibility for determining whether such information is properly stated. This section establishes the requirement for the auditor to read the other information of which the auditor is aware because the credibility of the audited financial statements may be undermined by material inconsistencies between the audited financial statements and other information. (Ref: par. .A1–.A2) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.02 In this section, *documents containing audited financial statements* refers to annual reports (or similar documents) that are issued to owners (or similar stakeholders) and annual reports of governments and organizations for charitable or philanthropic purposes that are available to the public that contain audited financial statements and the auditor's report thereon. This section

also may be applied, adapted as necessary in the circumstances, to other documents to which the auditor, at management's request, devotes attention. (Ref: par. .A3–.A5)

Effective Date

.03 This section is effective for audits of financial statements for periods beginning on or after December 15, 2010. Early application is permitted.

Objective

.04 The objective of the auditor is to respond appropriately when the auditor becomes aware that documents containing audited financial statements and the auditor's report thereon include other information that could undermine the credibility of those financial statements and the auditor's report.

Definitions

.05 For purposes of generally accepted auditing standards (GAAS), the following terms have the meanings attributed as follows:

Inconsistency. Other information that conflicts with information contained in the audited financial statements. A material inconsistency may raise doubt about the audit conclusions drawn from audit evidence previously obtained and, possibly, about the basis for the auditor's opinion on the financial statements.

Misstatement of fact. Other information that is unrelated to matters appearing in the audited financial statements that is incorrectly stated or presented. A material misstatement of fact may undermine the credibility of the document containing audited financial statements.

Other information. Financial and nonfinancial information (other than the financial statements and the auditor's report thereon) that is included in a document containing audited financial statements and the auditor's report thereon, excluding required supplementary information.¹

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Requirements

Reading Other Information

.06 The auditor should read the other information of which the auditor is aware in order to identify material inconsistencies, if any, with the audited financial statements.

.07 The auditor should make appropriate arrangements with management or those charged with governance to obtain the other information prior to the

¹ *Required supplementary information* is defined in paragraph .04 of section 730, *Required Supplementary Information*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

report release date.² If it is not possible to obtain all of the other information prior to the report release date, the auditor should read such other information as soon as practicable. (Ref: par. .A6)

.08 The auditor should communicate with those charged with governance the auditor's responsibility with respect to the other information, any procedures performed relating to the other information, and the results.

Material Inconsistencies

.09 If, on reading the other information, the auditor identifies a material inconsistency, the auditor should determine whether the audited financial statements or the other information needs to be revised.

Material Inconsistencies Identified Prior to the Date of the Auditor's Report That Require Revision of the Audited Financial Statements

.10 When the auditor identifies a material inconsistency prior to the date of the auditor's report that requires revision of the audited financial statements and management refuses to make the revision, the auditor should modify the auditor's opinion in accordance with section 705, *Modifications to the Opinion in the Independent Auditor's Report*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS Nos. 122 and 123.]

Material Inconsistencies Identified After the Date of the Auditor's Report But Prior to the Report Release Date That Require Revision of the Audited Financial Statements

.11 When the auditor identifies a material inconsistency after the date of the auditor's report but prior to the report release date that requires revision of the audited financial statements, the auditor should apply the relevant requirements in section 560, *Subsequent Events and Subsequently Discovered Facts*.³ [Paragraph added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

Material Inconsistencies Identified Prior to the Report Release Date That Require Revision of the Other Information

.12 When the auditor identifies a material inconsistency prior to the report release date that requires revision of the other information and management refuses to make the revision, the auditor should communicate this matter to those charged with governance and (Ref: par. .A7–.A8)

- a. include in the auditor's report an other-matter paragraph describing the material inconsistency, in accordance with section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.⁴

² See paragraph .06 of section 230, *Audit Documentation*, for the definition of *report release date*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

³ Paragraphs .12–.14 of section 560, *Subsequent Events and Subsequently Discovered Facts*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

⁴ Paragraph .08 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

- b. withhold the auditor's report; or
- c. when withdrawal is possible under applicable law or regulation, withdraw from the engagement.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Paragraph renumbered to reflect conforming changes necessary due to the issuance of SAS No. 123.]

Material Inconsistencies Identified Subsequent to the Report Release Date

.13 When revision of the audited financial statements is necessary as a result of a material inconsistency with other information and the auditor's report on the financial statements has already been released, the auditor should apply the relevant requirements in section 560, *Subsequent Events and Subsequently Discovered Facts*.⁵ [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Paragraph renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

.14 When revision of the other information is necessary after the report release date and management agrees to make the revision, the auditor should carry out the procedures necessary under the circumstances. (Ref: par. .A9) [Paragraph renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

.15 When revision of the other information is necessary after the report release date but management refuses to make the revision, the auditor should notify those charged with governance of the auditor's concerns regarding the other information and take any further appropriate action. (Ref: par. .A10) [Paragraph renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

Material Misstatements of Fact

.16 If, on reading the other information for the purpose of identifying material inconsistencies, the auditor becomes aware of an apparent material misstatement of fact, the auditor should discuss the matter with management. (Ref: par. .A11) [Paragraph renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

.17 When, following such discussions, the auditor still considers that there is an apparent material misstatement of fact, the auditor should request management to consult with a qualified third party, such as the entity's legal counsel, and the auditor should consider the advice received by the entity in determining whether such matter is a material misstatement of fact. [Paragraph renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

.18 When the auditor concludes that there is a material misstatement of fact in the other information that management refuses to correct, the auditor should notify those charged with governance of the auditor's concerns regarding the other information and take any further appropriate action. (Ref: par. .A12) [Paragraph renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

⁵ Paragraphs .15–.18 of section 560, *Subsequent Events and Subsequently Discovered Facts*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered to reflect conforming changes necessary due to the issuance of SAS No. 123.]

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01–.02)

.A1 This section also addresses other information for which a designated accounting standard setter⁶ has issued standards or guidance regarding the format to be used and content to be included when such information is voluntarily presented in a document containing the audited financial statements and the auditor's report thereon. The auditor's responsibility for other information presented in a document containing audited financial statements that is required to be included by a designated accounting standards setter is addressed in section 730, *Required Supplementary Information*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A2 The auditor is not required to make reference to the other information in the auditor's report on the financial statements. However, the auditor may include an other-matter paragraph disclaiming an opinion on the other information. For example, an auditor may choose to include a disclaimer on the other information when the auditor believes that the auditor could be associated with the information and the user may infer a level of assurance that is not intended. Exhibit A, "Example of an Other-Matter Paragraph to Disclaim an Opinion on Other Information," has an example of how an auditor may word such a disclaimer of opinion on other information. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A3 Other information may comprise the following:

- A report by management or those charged with governance on operations
- Financial summaries or highlights
- Employment data
- Planned capital expenditures
- Financial ratios
- Names of officers and directors
- Selected quarterly data

.A4 For purposes of GAAS, other information does not encompass, for example, the following:

- A press release or similar memorandum or cover letter accompanying the document containing audited financial statements and the auditor's report thereon.
- Information contained in analyst briefings.
- Information contained on the entity's website. Websites are a means of distributing information and are not, themselves, documents containing audited financial statements.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

⁶ *Designated accounting standards setter* is defined in paragraph .04 of section 730. [Footnote renumbered and revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote subsequently renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

Considerations Specific to Governmental Entities (Ref: par. .02)

.A5 The term *annual reports of governments* is intended to include comprehensive annual reports or other annual financial reports that include the government's financial statements and the auditor's report thereon.

Reading Other Information (Ref: par. .07)

.A6 Obtaining the other information prior to the report release date enables the auditor to resolve possible material inconsistencies and apparent material misstatements of fact with management on a timely basis. An agreement with management regarding when other information will be available may be helpful. The auditor may delay the release of the auditor's report until management provides the other information to the auditor.

Material Inconsistencies**Material Inconsistencies Identified Prior to the Report Release Date (Ref: par. .11)**

.A7 When management refuses to revise the other information, the auditor may base any decision on what further action to take on advice from the auditor's legal counsel. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Considerations Specific to Governmental Entities (Ref: par. .11)

.A8 In audits of governmental entities, withdrawal from the engagement or withholding the auditor's report may not be possible under law or regulation. In such cases, the auditor may issue a report to those charged with governance and the appropriate statutory body, if applicable, giving details of the inconsistency. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Material Inconsistencies Identified Subsequent to the Report Release Date (Ref: par. .13–.14)

.A9 When revision of other information is necessary after the report release date and management agrees to make the revision, the auditor's procedures may include reviewing the steps taken by management to ensure that individuals in receipt of the previously issued financial statements, the auditor's report thereon, and the other information are informed of the need for revision. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A10 When revision of other information is necessary after the report release date but management refuses to make the revision, appropriate further actions by the auditor may include obtaining legal advice. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Material Misstatements of Fact (Ref: par. .15–.17)

.A11 When discussing an apparent material misstatement of fact with management, the auditor may not be able to evaluate the validity of some disclosures included within the other information and management's responses to the auditor's inquiries and may conclude that valid differences of judgment or opinion exist.

.A12 When the auditor concludes that there is a material misstatement of fact that management refuses to correct, appropriate further actions by the auditor may include obtaining legal advice, withholding the auditor's report if such report has not been released, or withdrawing from the engagement. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A13

Exhibit A—Example of an Other-Matter Paragraph to Disclaim an Opinion on Other Information

The following is an example of an other-matter paragraph that the auditor may use to disclaim an opinion on other information:

Our audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. The [*identify the other information*] is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

[.A14]

Exhibit B—[Reserved]

[Exhibit deleted, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. See appendix B, *Substantive Differences Between the International Standards on Auditing and Generally Accepted Auditing Standards.*]

AU-C Section 725

Supplementary Information in Relation to the Financial Statements as a Whole

(With SAS No. 118 supersedes SAS No. 29.)

Source: SAS No. 119; SAS No. 122; SAS No. 125.

See section 9725 for interpretations of this section.

Effective for audits of financial statements for periods beginning on or after December 15, 2010, unless otherwise indicated. Early application is permitted.

NOTE

To address practice issues, Statement on Auditing Standards (SAS) No. 119, *Supplementary Information in Relation to the Financial Statements as a Whole*, was issued in February 2010 as a SAS resulting from the Clarification and Convergence Project of the Auditing Standards Board, and became effective for audits of financial statements for periods beginning on or after December 15, 2010.

SAS No. 119 was previously codified as AU section 551 until December 2013, when all AU sections were deleted from AICPA *Professional Standards*, as described in the AU-C Foreword. SAS No. 122, *Statement on Auditing Standards: Clarification and Recodification*, redesignated AU section 551 as section 725 but did not supersede SAS No. 119.

This section contains conforming changes necessary in specific paragraphs and footnotes due to the issuance of SAS No. 122.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibility when engaged to report on whether supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole. The information covered by this section is presented outside the basic financial statements and is not considered necessary for the financial statements to be fairly presented in accordance with the applicable financial reporting framework. This section also may be applied, with the report wording adapted as necessary, when an auditor has been engaged to report on whether required supplementary information¹ is fairly stated, in all material respects, in relation to the financial statements as a whole. (Ref: par. .A1–.A6)

¹ Required supplementary information is defined in paragraph .04 of section 730, *Required Supplementary Information*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Effective Date

.02 This section is effective for audits of financial statements for periods beginning on or after December 15, 2010. Early application is permitted.

Objective

.03 The objective of the auditor, when engaged to report on supplementary information in relation to the financial statements as a whole, is to

- a. evaluate the presentation of the supplementary information in relation to the financial statements as a whole and
- b. report on whether the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Definition

.04 For purposes of generally accepted auditing standards, the following term has the meaning attributed as follows:

Supplementary information. Information presented outside the basic financial statements, excluding required supplementary information that is not considered necessary for the financial statements to be fairly presented in accordance with the applicable financial reporting framework. Such information may be presented in a document containing the audited financial statements or separate from the financial statements. (Ref: par. .A7–.A8)

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Requirements

Procedures to Determine Whether Supplementary Information Is Fairly Stated, in All Material Respects, in Relation to the Financial Statements as a Whole (Ref: par. .A9–.A15)

.05 In order to opine on whether supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, the auditor should determine that all of the following conditions are met:

- a. The supplementary information was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements.
- b. The supplementary information relates to the same period as the financial statements.
- c. The auditor issued an audit report on the financial statements that contained neither an adverse opinion nor a disclaimer of opinion. (Paragraph .11 addresses reporting while not opining on supplementary information when the report on the financial statements contains an adverse opinion or a disclaimer of opinion.)

- d. The supplementary information will accompany the entity's audited financial statements, or such audited financial statements will be made readily available by the entity. (Ref: par. .A9)

[Revised, April 2012 and January 2013, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.06 The auditor should obtain the agreement of management that it acknowledges and understands its responsibility

- a. for the preparation of the supplementary information in accordance with the applicable criteria.
- b. to provide the auditor with the written representations described in paragraph .07g.
- c. to include the auditor's report on the supplementary information in any document that contains the supplementary information and that indicates that the auditor has reported on such supplementary information.
- d. to present the supplementary information with the audited financial statements or, if the supplementary information will not be presented with the audited financial statements, to make the audited financial statements readily available to the intended users of the supplementary information no later than the date of issuance by the entity of the supplementary information and the auditor's report thereon. (Ref: par. .A9)

.07 In addition to the procedures performed during the audit of the financial statements, in order to opine on whether supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, the auditor should perform the following procedures using the same materiality level used in the audit of the financial statements:

- a. Inquire of management about the purpose of the supplementary information and the criteria used by management to prepare the supplementary information, such as an applicable financial reporting framework, criteria established by a regulator, a contractual agreement, or other requirements
- b. Determine whether the form and content of the supplementary information complies with the applicable criteria
- c. Obtain an understanding about the methods of preparing the supplementary information and determine whether the methods of preparing the supplementary information have changed from those used in the prior period and, if the methods have changed, the reasons for such changes
- d. Compare and reconcile the supplementary information to the underlying accounting and other records used in preparing the financial statements or to the financial statements themselves
- e. Inquire of management about any significant assumptions or interpretations underlying the measurement or presentation of the supplementary information
- f. Evaluate the appropriateness and completeness of the supplementary information, considering the results of the procedures performed and other knowledge obtained during the audit of the financial statements (Ref: par. .A13)

- g. Obtain written representations from management
 - i. that it acknowledges its responsibility for the presentation of the supplementary information in accordance with the applicable criteria;
 - ii. that it believes the supplementary information, including its form and content, is fairly presented in accordance with the applicable criteria;
 - iii. that the methods of measurement or presentation have not changed from those used in the prior period or, if the methods of measurement or presentation have changed, the reasons for such changes;
 - iv. about any significant assumptions or interpretations underlying the measurement or presentation of the supplementary information; and
 - v. that when the supplementary information is not presented with the audited financial statements, management will make the audited financial statements readily available to the intended users of the supplementary information no later than the date of issuance by the entity of the supplementary information and the auditor's report thereon. (Ref: par. .A9)

.08 The auditor has no responsibility for the consideration of subsequent events with respect to the supplementary information. However, if information comes to the auditor's attention

- a. prior to the release of the auditor's report on the financial statements regarding subsequent events that affect the financial statements, or
- b. subsequent to the release of the auditor's report on the financial statements regarding facts that, had they been known to the auditor at the date of the auditor's report, may have caused the auditor to revise the auditor's report,

the auditor should apply the relevant requirements in section 560, *Subsequent Events and Subsequently Discovered Facts*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Reporting

.09 When the entity presents the supplementary information with the financial statements, the auditor should report on the supplementary information in either (a) an other-matter paragraph in accordance with section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*, or (b) in a separate report on the supplementary information.² The other-matter paragraph or separate report should include the following elements:

- a. A statement that the audit was conducted for the purpose of forming an opinion on the financial statements as a whole
- b. A statement that the supplementary information is presented for purposes of additional analysis and is not a required part of the financial statements

² Paragraph .08 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

- c.* A statement that the supplementary information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements
- d.* A statement that the supplementary information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America
- e.* If the auditor issues an unmodified opinion on the financial statements and the auditor has concluded that the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, a statement that, in the auditor's opinion, the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole
- f.* If the auditor issues a qualified opinion on the financial statements and the qualification has an effect on the supplementary information, a statement that, in the auditor's opinion, except for the effects on the supplementary information of (refer to the paragraph in the auditor's report explaining the qualification), such information is fairly stated, in all material respects, in relation to the financial statements as a whole

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.10 When the audited financial statements are not presented with the supplementary information, the auditor should report on the supplementary information in a separate report. When reporting separately on the supplementary information, the report should include, in addition to the elements in paragraph .09, a reference to the report on the financial statements, the date of that report, the nature of the opinion expressed on the financial statements, and any report modifications. (Ref: par. .A16)

.11 When the auditor's report on the audited financial statements contains an adverse opinion or a disclaimer of opinion and the auditor has been engaged to report on whether supplementary information is fairly stated, in all material respects, in relation to such financial statements as a whole, the auditor is precluded from expressing an opinion on the supplementary information. When permitted by law or regulation, the auditor may withdraw from the engagement to report on the supplementary information. If the auditor does not withdraw, the auditor's report on the supplementary information should state that because of the significance of the matter disclosed in the auditor's report, it is inappropriate to, and the auditor does not, express an opinion on the supplementary information.

.12 The date of the auditor's report on the supplementary information in relation to the financial statements as a whole should not be earlier than the date on which the auditor completed the procedures required in paragraph .07.

.13 If the auditor concludes, on the basis of the procedures performed, that the supplementary information is materially misstated in relation to the financial statements as a whole, the auditor should discuss the matter with management and propose appropriate revision of the supplementary information.

If management does not revise the supplementary information, the auditor should either

- a. modify the auditor's opinion on the supplementary information and describe the misstatement in the auditor's report or
- b. if a separate report is being issued on the supplementary information, withhold the auditor's report on the supplementary information.

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01)

.A1 The auditor's responsibility for information that a designated accounting standard setter³ requires to accompany an entity's basic financial statements is addressed in section 730, *Required Supplementary Information*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A2 The auditor's responsibility for financial and nonfinancial information (other than the financial statements and the auditor's report thereon) that is included in a document containing audited financial statements and the auditor's report thereon, excluding required supplementary information, is addressed in section 720, *Other Information in Documents Containing Audited Financial Statements*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A3 The supplementary information need not be presented with the audited financial statements in order for the auditor to express an opinion on whether such supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole. However, in accordance with paragraph .10, if the supplementary information is not presented with the audited financial statements, the auditor's report on the supplementary information is required to make reference to the auditor's report on the financial statements.

.A4 The auditor may be engaged to audit a specified element, account, or item of a financial statement for the purpose of a separate presentation, in accordance with section 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*. In such an engagement, the auditor's procedures are designed to provide the auditor with reasonable assurance that the supplementary information is not misstated by an amount that would be material to the information itself. An engagement to examine the supplementary information or an assertion related to the supplementary information also may be performed in accordance with AT section 101, *Attest Engagements*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A5 Although an auditor has no obligation to apply auditing procedures to supplementary information presented outside the basic financial statements, the auditor may choose to modify or redirect certain of the procedures to be applied in the audit of the basic financial statements so that the auditor may express an opinion on the supplementary information in relation to the financial statements as a whole.

³ *Designated accounting standards setter* is defined in paragraph .04 of section 730. [Footnote renumbered and revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A6 Management may include nonaccounting information and accounting information that is not directly related to the basic financial statements in a document containing the basic financial statements. Ordinarily, such information would not have been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, the auditor would be unable to opine on the information in relation to the financial statements as a whole. In some circumstances, however, such information may have been obtained or derived from accounting records that have been tested by the auditor (for example, number of units produced related to royalties under a license agreement or number of employees related to a given payroll period). Accordingly, the auditor may be in a position to express an opinion on such information in relation to the financial statements as a whole.

Definition (Ref: par. .04)

.A7 Supplementary information includes additional details or explanations of items in or related to the basic financial statements, consolidating information, historical summaries of items extracted from the basic financial statements, statistical data, and other material, some of which may be from sources outside the accounting system or outside the entity.

.A8 Supplementary information may be prepared in accordance with an applicable financial reporting framework, by regulatory or contractual requirements, in accordance with management's criteria, or in accordance with other requirements.

Procedures to Determine Whether Supplementary Information Is Fairly Stated, in All Material Respects, in Relation to the Financial Statements as a Whole (Ref: par. .05–.08)

The Meaning of Readily Available (Ref: par. .05e, .06d, and .07f)

.A9 Audited financial statements are deemed to be readily available if a third party user can obtain the audited financial statements without any further action by the entity. For example, financial statements on an entity's website may be considered readily available, but being available upon request is not considered readily available.

Procedures Performed on Supplementary Information (Ref: par. .07)

.A10 When engaged to report on supplementary information in relation to the financial statements as a whole, the auditor need not apply procedures as extensive as would be necessary to express an opinion on the information on a stand-alone basis.

.A11 With respect to the supplementary information, the auditor is not required to obtain a separate understanding of the entity's internal control or to assess fraud risk.

.A12 The auditor may consider materiality in determining which information to compare and reconcile to the underlying accounting and other records used in preparing the financial statements or to the financial statements themselves.

.A13 In evaluating the appropriateness and completeness of the supplementary information as required by paragraph 07f, the auditor may consider testing accounting or other records through observation or examination of

source documents or other procedures ordinarily performed in an audit of the financial statements.

.A14 The auditor may consider whether it is appropriate to address the supplementary information in procedures that the auditor performs in auditing the financial statements, including, but not limited to, the following:

- a. Obtaining an updated representation letter, in accordance with section 580, *Written Representations*⁴
- b. Performing subsequent events procedures, in accordance with section 560
- c. Sending a letter of audit inquiry to the client's lawyer specifically regarding the information contained in the supplementary information, in accordance with section 501, *Audit Evidence—Specific Considerations for Selected Items*⁵

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Considerations Specific to Audits of Governmental Entities

.A15 For most state and local governments, the auditor's report on the financial statements includes multiple opinions to address individual reporting units or aggregation of reporting units of the governmental entity. Accordingly, materiality is considered by the auditor for each opinion unit. However, in the context of this section, the auditor's opinion on the supplementary information is in relation to the financial statements as a whole. Accordingly, in this situation, materiality is considered at a level that represents the entire governmental entity.

Reporting (Ref: par. .09–.13)

.A16 When reporting on supplementary information in a separate report, the auditor may consider including an alert that restricts the use of the separate report solely to the appropriate specified parties, in accordance with section 905, *Alert That Restricts the Use of the Auditor's Written Communication*, to avoid potential misinterpretation or misunderstanding of the supplementary information that is not presented with the financial statements. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

⁴ Paragraph .A24 of section 580, *Written Representations*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

⁵ Paragraphs .18–.24 of section 501, *Audit Evidence—Specific Considerations for Selected Items*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Illustration 7—A Separate Report When the Auditor Is Disclaiming an Opinion on the Financial Statements

Illustration 8—A Separate Report When the Auditor Is Issuing an Adverse Opinion on the Financial Statements

Illustration 1—An Other-Matter Paragraph When the Auditor Is Issuing an Unmodified Opinion on the Financial Statements and an Unmodified Opinion on the Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The *[identify accompanying supplementary information]* is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Illustration 2—An Other-Matter Paragraph When the Auditor Is Issuing a Qualified Opinion on the Financial Statements and a Qualified Opinion on the Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The [*identify accompanying supplementary information*] is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, except for the effect on the supplementary information of [*describe reason for qualification of the auditor's opinion on the financial statements and reference the other-matter paragraph*], the information is fairly stated in all material respects in relation to the financial statements as a whole.

Illustration 3—An Other-Matter Paragraph When the Auditor Is Disclaiming an Opinion on the Financial Statements

We were engaged for the purpose of forming an opinion on the basic financial statements as a whole. The [*identify accompanying supplementary information*] is presented for the purposes of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described above [*the auditor may describe the basis for the disclaimer of opinion*], it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

Illustration 4—An Other-Matter Paragraph When the Auditor Is Issuing an Adverse Opinion on the Financial Statements

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The [*identify accompanying supplementary information*] is presented for the purposes of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described above [*the auditor may describe the basis for the adverse opinion*], it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

Illustration 5—A Separate Report When the Auditor Is Issuing an Unmodified Opinion on the Financial Statements and an Unmodified Opinion on the Supplementary Information

We have audited the financial statements of XYZ Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated [*date of the auditor's report on the financial statements*] which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. The [*identify supplementary information*] is presented for the purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Illustration 6—A Separate Report When the Auditor Is Issuing a Qualified Opinion on the Financial Statements and a Qualified Opinion on the Supplementary Information

We have audited the financial statements of XYZ Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated *[date of the auditor's report on the financial statements, the nature of the opinion expressed on the financial statements, and a description of the report modifications]*. Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. The *[identify supplementary information]* is presented for the purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, except for the effect on the accompanying information of the qualified opinion on the financial statements as described above, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Illustration 7—A Separate Report When the Auditor Is Disclaiming an Opinion on the Financial Statements

We were engaged to audit the financial statements of XYZ Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated [*date of the auditor's report on the financial statements*]. However, the scope of our audit of the financial statements was not sufficient to enable us to express an opinion because [*describe reasons*] and accordingly we did not express an opinion on such financial statements. The [*identify the supplementary information*] is presented for purposes of additional analysis and is not a required part of the basic financial statements. Because of the significance of the matter discussed above, it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

Illustration 8—A Separate Report When the Auditor Is Issuing an Adverse Opinion on the Financial Statements

We have audited the financial statements of XYZ Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated *[date of the auditor's report on the financial statements]* which stated that the financial statements are not presented fairly in accordance with *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America [GAAP])]* because *[describe reasons]*. The *[identify the supplementary information]* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Because of the significance of the matter discussed above, it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

AU-C Section 9725

Supplementary Information in Relation to the Financial Statements as a Whole: Auditing Interpretations of Section 725

1. Dating the Auditor's Report on Supplementary Information

.01 Question—In accordance with section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*,¹ the auditor's report on supplementary information should not be dated earlier than the date on which the auditor completed the procedures required by section 725.² When the auditor completes those procedures subsequent to the date of the auditor's report on the audited financial statements, the auditor is not required to obtain additional evidence with respect to the audited financial statements. When reporting on the supplementary information (either in a separate report or in an other-matter paragraph within the auditor's report on the financial statements) after the date of the auditor's report on the financial statements, how may an auditor make it clear that no additional procedures were performed on the audited financial statements subsequent to the date of the auditor's report on those financial statements?

.02 Interpretation—Although not required, an auditor may

- a. when issuing a separate report on the supplementary information, include in such report a statement that the auditor has not performed any auditing procedures with respect to the audited financial statements subsequent to the date of the auditor's report on those audited financial statements (see paragraph .03 of this interpretation), or
- b. when reissuing a report on the audited financial statements to include an other-matter paragraph to report on the supplementary information, include two report dates to indicate that the date of reporting on the supplementary information is as of a later date (see paragraph .04 of this interpretation).

.03 The following illustrative separate report on supplementary information includes additional language intended to make it clear that no procedures were performed subsequent to the date of the auditor's report on the audited financial statements.

¹ Paragraph .12 of section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*.

² Paragraph .07 of section 725.

Independent Auditor's Report on [Identify Supplementary Information]

[Appropriate Addressee]

We have audited the financial statements of XYZ Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated [date of the auditor's report on the financial statements, for example, "September 15, 20X1"] which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. *We have not performed any procedures with respect to the audited financial statements subsequent to [date of the auditor's report on the financial statements, for example, "September 15, 20X1"].*

The [identify supplementary information] is presented for the purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

[Auditor's signature]

[Auditor's city and state]

December 1, 20X1 [Date of the auditor's report on the supplementary information—not to be earlier than the date on which the auditor completed the procedures required by section 725³]

.04 The following illustrative report on the audited financial statements includes an other-matter paragraph to report on supplementary information subsequent to the date of the report on the audited financial statements. For this illustration, March 31, 20X2, is the original date of the report on the audited financial statements.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of ABC Company and its subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X1 and 20X0, and the related consolidated statements of income, changes in stockholders' equity and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

³ Paragraph .07 of section 725.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of ABC Company and its subsidiaries as of December 31, 20X1 and 20X0, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on [Identify Supplementary Information]

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The [*identify accompanying supplementary information*] is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

[*Auditor's signature*]

[*Auditor's city and state*]

March 31, 20X2, except for our report on the supplementary information for which the date is June 1, 20X2 [Date of the auditor's report on the audited financial statements, with a later date used for the paragraph labeled "Report on *[identify supplementary information]*," which is as of a date not earlier than the date on which the auditor completed the procedures required by paragraph .07 of section 725.]

[Issue Date: July 2011; Revised: October 2011.]

AU-C Section 730

Required Supplementary Information

(Supersedes SAS No. 52 section 558.)

Source: SAS No. 120; SAS No. 122.

Effective for audits of financial statements for periods beginning on or after December 15, 2010, unless otherwise indicated. Early application is permitted.

NOTE

To address practice issues, Statement on Auditing Standards (SAS) No. 120, *Required Supplementary Information*, was issued in February 2010 as a SAS resulting from the Clarification and Convergence Project of the Auditing Standards Board, and became effective for audits of financial statements for periods beginning on or after December 15, 2010.

SAS No. 120 was previously codified as AU section 558 until December 2013, when all AU sections were deleted from AICPA *Professional Standards*, as described in the AU-C Foreword. SAS No. 122, *Statement on Auditing Standards: Clarification and Recodification*, redesignated AU section 558 as section 730 but did not supersede SAS No. 120.

This section contains conforming changes necessary in specific paragraphs and footnotes due to the issuance of SAS No. 122.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibility with respect to information that a designated accounting standards setter requires to accompany an entity's basic financial statements (hereinafter referred to as *required supplementary information*). In the absence of any separate requirement in the particular circumstances of the engagement, the auditor's opinion on the basic financial statements does not cover required supplementary information. (Ref. par. .A1) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Effective Date

.02 This section is effective for audits of financial statements for periods beginning on or after December 15, 2010. Early application is permitted.

Objective

.03 The objectives of the auditor when a designated accounting standards setter requires information to accompany an entity's basic financial statements are to perform specified procedures in order to

- a. describe, in the auditor's report, whether required supplementary information is presented and
- b. communicate therein when some or all of the required supplementary information has not been presented in accordance with guidelines established by a designated accounting standards setter or when the auditor has identified material modifications that should be made to the required supplementary information for it to be in accordance with guidelines established by the designated accounting standards setter.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Definitions

.04 For purposes of this section, the following terms have the meanings attributed as follows:

Applicable financial reporting framework. The financial reporting framework adopted by management and, when appropriate, those charged with governance in the preparation and fair presentation of the financial statements that is acceptable in view of the nature of the entity and the objective of the financial statements, or that is required by law or regulation.

Basic financial statements. Financial statements presented in accordance with an applicable financial reporting framework as established by a designated accounting standards setter, excluding required supplementary information.

Designated accounting standards setter. A body designated by the Council of the AICPA to promulgate GAAP pursuant to Rule 202, *Compliance With Standards* (ET sec. 202 par. .01), and Rule 203, *Accounting Principles* (ET sec. 203 par. .01) of the AICPA Code of Professional Conduct.

Prescribed guidelines. The authoritative guidelines established by the designated accounting standards setter for the methods of measurement and presentation of the required supplementary information.

Required supplementary information. Information that a designated accounting standards setter requires to accompany an entity's basic financial statements. Required supplementary information is not part of the basic financial statements; however, a designated accounting standards setter considers the information to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. In addition, authoritative guidelines for the methods of measurement and presentation of the information have been established.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Requirements

Procedures

.05 The auditor should apply the following procedures to required supplementary information:

- a. Inquire of management about the methods of preparing the information, including (i) whether it has been measured and presented in accordance with prescribed guidelines, (ii) whether methods of measurement or presentation have been changed from those used in the prior period and the reasons for any such changes, and (iii) whether there were any significant assumptions or interpretations underlying the measurement or presentation of the information
- b. Compare the information for consistency with (i) management's responses to the foregoing inquiries, (ii) the basic financial statements, and (iii) other knowledge obtained during the audit of the basic financial statements
- c. Obtain written representations from management (i) that it acknowledges its responsibility for the required supplementary information; (ii) about whether the required supplementary information is measured and presented in accordance with prescribed guidelines; (iii) about whether the methods of measurement or presentation have changed from those used in the prior period and, if so, the reasons for such changes; and (iv) about any significant assumptions or interpretations underlying the measurement or presentation of the required supplementary information¹

.06 If the auditor is unable to complete the procedures in paragraph .05, the auditor should consider whether management contributed to the auditor's inability to complete the procedures. If the auditor concludes that the inability to complete the procedures was due to significant difficulties encountered in dealing with management, the auditor should inform those charged with governance.²

Reporting

.07 The auditor should include an other-matter paragraph in the auditor's report on the financial statements to refer to the required supplementary information in accordance with section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.³ The other-matter paragraph should include language to explain the following circumstances, as applicable:

¹ See section 580, *Written Representations*, for additional requirements and guidance with respect to obtaining written representations from management as part of an audit of financial statements performed in accordance with generally accepted auditing standards. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

² See paragraph .12 of section 260, *The Auditor's Communication With Those Charged With Governance*, for additional guidance when the auditor encounters significant difficulties in dealing with management during the audit. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

³ Paragraph .08 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

- a. The required supplementary information is included, and the auditor has applied the procedures in paragraph .05 of this section.
- b. The required supplementary information is omitted.
- c. Some required supplementary information is missing and some is presented in accordance with the prescribed guidelines.
- d. The auditor has identified material departures from the prescribed guidelines.
- e. The auditor is unable to complete the procedures in paragraph .05 of this section.
- f. The auditor has unresolved doubts about whether the required supplementary information is presented in accordance with prescribed guidelines.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.08 If the entity has presented all or some of the required supplementary information, the other-matter paragraph referred to in paragraph .07 should include the following elements: (Ref: par. .A2)

- a. A statement that [*identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)*] require that the [*identify the required supplementary information*] be presented to supplement the basic financial statements
- b. A statement that such information, although not a part of the basic financial statements, is required by [*identify designated accounting standards setter*], who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- c. If the auditor is able to complete the procedures in paragraph .05,
 - i. a statement that the auditor has applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to the auditor's inquiries, the basic financial statements, and other knowledge the auditor obtained during the audit of the basic financial statements
 - ii. a statement that the auditor does not express an opinion or provide any assurance on the information because the limited procedures do not provide the auditor with sufficient evidence to express an opinion or provide any assurance
- d. If the auditor is unable to complete the procedures in paragraph .05,
 - i. a statement that the auditor was unable to apply certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States because [*state the reasons*]
 - ii. a statement that the auditor does not express an opinion or provide any assurance on the information

- e. If some of the required supplementary information is omitted,
 - i. a statement that management has omitted [*description of the missing required supplementary information*] that [*identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)*] require to be presented to supplement the basic financial statements
 - ii. a statement that such missing information, although not a part of the basic financial statements, is required by [*identify designated accounting standards setter*], who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
 - iii. a statement that the auditor's opinion on the basic financial statements is not affected by the missing information
- f. If the measurement or presentation of the required supplementary information departs materially from the prescribed guidelines, a statement that although the auditor's opinion on the basic financial statements is not affected, material departures from prescribed guidelines exist [*describe the material departures from the applicable financial reporting framework*]
- g. If the auditor has unresolved doubts about whether the required supplementary information is measured or presented in accordance with prescribed guidelines, a statement that although the auditor's opinion on the basic financial statements is not affected, the results of the limited procedures have raised doubts about whether material modifications should be made to the required supplementary information for it to be presented in accordance with guidelines established by [*identify designated accounting standards setter*]

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.09 If all of the required supplementary information is omitted, the other-matter paragraph should include the following elements:

- a. A statement that management has omitted [*description of the missing required supplementary information*] that [*identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)*] require to be presented to supplement the basic financial statements
- b. A statement that such missing information, although not a part of the basic financial statements, is required by [*identify designated accounting standards setter*], who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- c. A statement that the auditor's opinion on the basic financial statements is not affected by the missing information

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01)

.A1 The auditor's responsibility for financial and nonfinancial information (other than the financial statements and the auditor's report thereon) that is included in a document containing audited financial statements and the auditor's report thereon but that is not required by a designated accounting standards setter is addressed in section 720, *Other Information in Documents Containing Audited Financial Statements*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Reporting (Ref: par. .07–.09)

.A2 Because the required supplementary information accompanies the basic financial statements, the auditor's report on the financial statements includes a discussion of the responsibility taken by the auditor on that information. However, because the required supplementary information is not part of the basic financial statements, the auditor's opinion on the fairness of presentation of such financial statements in accordance with the applicable financial reporting framework is not affected by the presentation by the entity of the required supplementary information or the failure to present some or all of such required supplementary information. Furthermore, if the required supplementary information is omitted by the entity, the auditor does not have a responsibility to present that information.

.A3

Exhibit—Examples of Other-Matter Paragraphs When Reporting on Required Supplementary Information

Illustration 1—The Required Supplementary Information Is Included, the Auditor Has Applied the Specified Procedures, and No Material Departures From Prescribed Guidelines Have Been Identified

Illustration 2—All Required Supplementary Information Omitted

Illustration 3—Some Required Supplementary Information Is Omitted and Some Is Presented in Accordance With the Prescribed Guidelines

Illustration 4—Material Departures From Prescribed Guidelines Identified

Illustration 5—Specified Procedures Not Completed

Illustration 6—Unresolved Doubts About Whether the Required Supplementary Information Is in Accordance With Prescribed Guidelines

Illustration 1—The Required Supplementary Information Is Included, the Auditor Has Applied the Specified Procedures, and No Material Departures From Prescribed Guidelines Have Been Identified

[Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)] require that the *[identify the required supplementary information]* on page XX be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Illustration 2—All Required Supplementary Information Omitted

Management has omitted [*describe the missing required supplementary information*] that [*identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)*] require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by [*identify designated accounting standards setter*] who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Illustration 3—Some Required Supplementary Information Is Omitted and Some Is Presented in Accordance With the Prescribed Guidelines

[Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)] require that *[identify the included supplementary information]* be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with evidence sufficient to express an opinion or provide any assurance.

Management has omitted *[describe the missing required supplementary information]* that *[identify the applicable financial reporting framework]* require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Illustration 4—Material Departures From Prescribed Guidelines Identified

[Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)] require that the *[identify the supplementary information]* on page XX be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. Although our opinion on the basic financial statements is not affected, the following material departures from the prescribed guidelines exist *[identify the required supplementary information and describe the material departures from the prescribed guidelines]*. We do not express an opinion or provide any assurance on the information.

Illustration 5—Specified Procedures Not Completed

[Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)] require that the *[identify the supplementary information]* on page XX be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We were unable to apply certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America because *[state the reasons]*. We do not express an opinion or provide any assurance on the information.

Illustration 6—Unresolved Doubts About Whether the Required Supplementary Information Is in Accordance With Prescribed Guidelines

[Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)] require that the *[identify the supplementary information]* on page XX be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. Although our opinion on the basic financial statements is not affected, the results of the limited procedures have raised doubts about whether material modifications should be made to the required supplementary information for it to be presented in accordance with guidelines established by *[identify designated accounting standards setter]*. *[The auditor may consider including in the report the reason(s) he or she was unable to resolve his or her doubts.]*

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

AU-C Section 800

Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks

Source: SAS No. 122; SAS No. 125; SAS No. 127.

Effective for audits of financial statements for periods ending on or after December 15, 2012.

Introduction

Scope of This Section

.01 AU-C sections 200–700 apply to an audit of financial statements. This section addresses special considerations in the application of those AU-C sections to an audit of financial statements prepared in accordance with a special purpose framework, which is a cash, a tax, a regulatory, a contractual, or an other basis of accounting. This section does not purport to address all special considerations that may be relevant in the circumstances. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

.02 This section is written in the context of a complete set of financial statements prepared in accordance with a special purpose framework. Section 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*, addresses special considerations relevant to an audit of a single financial statement or of a specific element, account, or item of a financial statement.

.03 Section 910, *Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country*, addresses circumstances in which an auditor practicing in the United States is engaged to report on financial statements that have been prepared in accordance with a financial reporting framework generally accepted in another country not adopted by a body designated by the Council of the AICPA (Council) to promulgate generally accepted accounting principles (GAAP) when such audited financial statements are intended for use outside the United States.

.04 Section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements*, addresses the auditor's responsibility and the form and content of the report when the auditor is requested to report on the entity's compliance with aspects of contractual agreements or regulatory requirements in connection with the audit of financial statements.

Effective Date

.05 This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

Objective

.06 The objective of the auditor, when applying generally accepted auditing standards (GAAS) in an audit of financial statements prepared in accordance with a special purpose framework, is to address appropriately the special considerations that are relevant to

- a. the acceptance of the engagement,
- b. the planning and performance of that engagement, and
- c. forming an opinion and reporting on the financial statements.

Definitions

.07 For purposes of GAAS, the following terms have the meanings attributed as follows:

Special purpose financial statements. Financial statements prepared in accordance with a special purpose framework. (Ref: par. .A1)

Special purpose framework. A financial reporting framework other than GAAP that is one of the following bases of accounting: (Ref: par. .A2–.A5)

- a. **Cash basis.** A basis of accounting that the entity uses to record cash receipts and disbursements and modifications of the cash basis having substantial support (for example, recording depreciation on fixed assets).
- b. **Tax basis.** A basis of accounting that the entity uses to file its tax return for the period covered by the financial statements.
- c. **Regulatory basis.** A basis of accounting that the entity uses to comply with the requirements or financial reporting provisions of a regulatory agency to whose jurisdiction the entity is subject (for example, a basis of accounting that insurance companies use pursuant to the accounting practices prescribed or permitted by a state insurance commission).
- d. **Contractual basis.** A basis of accounting that the entity uses to comply with an agreement between the entity and one or more third parties other than the auditor.
- e. **Other basis.** A basis of accounting that uses a definite set of logical, reasonable criteria that is applied to all material items appearing in financial statements.

The cash basis, tax basis, regulatory basis, and other basis of accounting are commonly referred to as *other comprehensive bases of accounting*.

[As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

.08 Reference to *financial statements* in this section means "a complete set of special purpose financial statements, including the related notes."¹ The related notes ordinarily comprise a summary of significant accounting policies and other explanatory information. The requirements of the applicable financial reporting framework determine the form and content of the financial statements and what constitutes a complete set of financial statements.

.09 Reference to *GAAP* in GAAS means generally accepted accounting principles promulgated by bodies designated by Council pursuant to Rule 202, *Compliance With Standards* (ET sec. 202 par. .01), and Rule 203, *Accounting Principles* (ET sec. 203 par. .01), of the AICPA Code of Professional Conduct.

Requirements

Considerations When Accepting the Engagement

Acceptability of the Financial Reporting Framework (Ref: par. .A6–.A9)

.10 Section 210, *Terms of Engagement*, requires the auditor to determine the acceptability of the financial reporting framework applied in the preparation of the financial statements.² In an audit of special purpose financial statements, the auditor should obtain an understanding of

- a. the purpose for which the financial statements are prepared,
- b. the intended users, and
- c. the steps taken by management to determine that the applicable financial reporting framework is acceptable in the circumstances.

Preconditions for an Audit (Ref: par. .A10)

.11 Section 210 requires the auditor to establish whether the preconditions for an audit are present, including determining whether the financial reporting framework to be applied in the preparation of the financial statements is acceptable.³ In an audit of special purpose financial statements, the auditor should obtain the agreement of management that it acknowledges and understands its responsibility to include all informative disclosures that are appropriate for the special purpose framework used to prepare the entity's financial statements, including

- a. a description of the special purpose framework, including a summary of significant accounting policies, and how the framework differs from GAAP, the effects of which need not be quantified.
- b. informative disclosures similar to those required by GAAP, in the case of special purpose financial statements that contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP.
- c. a description of any significant interpretations of the contract on which the special purpose financial statements are based, in the case of special purpose financial statements prepared in accordance with a contractual basis of accounting.

¹ Paragraphs .14 and .A9 of section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*.

² Paragraph .06a of section 210, *Terms of Engagement*.

³ Paragraph .06 of section 210.

- d. additional disclosures beyond those specifically required by the framework that may be necessary for the special purpose financial statements to achieve fair presentation. (Ref: par. .A11)

[As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

Considerations When Planning and Performing the Audit (Ref: par. .A12–.A15)

.12 Section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*, requires the auditor to comply with all AU-C sections relevant to the audit.⁴ In planning and performing an audit of special purpose financial statements, the auditor should adapt and apply all AU-C sections relevant to the audit as necessary in the circumstances of the engagement.

.13 Section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, requires the auditor to obtain an understanding of the entity's selection and application of accounting policies.⁵ In the case of special purpose financial statements prepared in accordance with a contractual basis of accounting, the auditor should obtain an understanding of any significant interpretations of the contract that management made in the preparation of those financial statements. An interpretation is significant when adoption of another reasonable interpretation would have produced a material difference in the information presented in the financial statements.

Forming an Opinion and Reporting Considerations

.14 When forming an opinion and reporting on special purpose financial statements, the auditor should apply the requirements in section 700, *Forming an Opinion and Reporting on Financial Statements*. When, in forming an opinion, the auditor concludes that a modification to the auditor's opinion on the financial statements is necessary, the auditor should apply the requirements in section 705, *Modifications to the Opinion in the Independent Auditor's Report*. (Ref: par. .A16)

Description of the Applicable Financial Reporting Framework (Ref: par. .A17–.A18)

.15 Section 700 requires the auditor to evaluate whether the financial statements adequately refer to or describe the applicable financial reporting framework.⁶ In an audit of special purpose financial statements, the auditor should evaluate whether the financial statements are suitably titled, include a summary of significant accounting policies, and adequately describe how the special purpose framework differs from GAAP. The effects of these differences need not be quantified.

.16 In the case of special purpose financial statements prepared in accordance with a contractual basis of accounting, the auditor should also evaluate whether the financial statements adequately describe any significant interpretations of the contract on which the financial statements are based.

⁴ Paragraph .20 of section 200.

⁵ Paragraph .12c of section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*.

⁶ Paragraph .18 of section 700, *Forming an Opinion and Reporting on Financial Statements*.

Fair Presentation (Ref: par. .A19–.A23)

.17 Section 700 requires the auditor to evaluate whether the financial statements achieve fair presentation.⁷ In an audit of special purpose financial statements when the special purpose financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP, the auditor should evaluate whether the financial statements include informative disclosures similar to those required by GAAP. The auditor should also evaluate whether additional disclosures, beyond those specifically required by the framework, related to matters that are not specifically identified on the face of the financial statements or other disclosures are necessary for the financial statements to achieve fair presentation.

Auditor's Report

.18 Section 700 addresses the form and content of the auditor's report. In the case of an auditor's report on special purpose financial statements, the

- a. explanation of management's responsibility for the financial statements should also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances, when management has a choice of financial reporting frameworks in the preparation of such financial statements.
- b. auditor's report should also describe the purpose for which the financial statements are prepared or refer to a note in the special purpose financial statements that contains that information, when the financial statements are prepared in accordance with
 - i. a regulatory or contractual basis of accounting or
 - ii. an other basis of accounting, and the auditor is required to restrict use of the auditor's report pursuant to paragraph .06a–b of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. (Ref: par. .A24)

[As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

Alerting Readers in an Emphasis-of-Matter Paragraph That the Financial Statements Are Prepared in Accordance With a Special Purpose Framework (Ref: par. .A25)

.19 Except for the circumstances described in paragraph .21, the auditor's report on special purpose financial statements should include an *emphasis-of-matter* paragraph,⁸ under an appropriate heading, that

- a. indicates that the financial statements are prepared in accordance with the applicable special purpose framework,
- b. refers to the note to the financial statements that describes that framework, and
- c. states that the special purpose framework is a basis of accounting other than GAAP.

⁷ Paragraph .17 of section 700.

⁸ Paragraphs .06–.07 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

Restricting the Use of the Auditor's Report in an Other-Matter Paragraph (Ref: par. .A26–.A27)

.20 Except for the circumstances described in paragraph .21, the auditor's report on special purpose financial statements should include an *other-matter* paragraph,⁹ under an appropriate heading, that restricts¹⁰ the use of the auditor's report when the special purpose financial statements are prepared in accordance with

- a. a contractual basis of accounting,
- b. a regulatory basis of accounting, or
- c. an other basis of accounting when required pursuant to paragraph .06a–b of section 905.

[As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125. As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

Regulatory Basis Financial Statements Intended for General Use (Ref: par. .A28)

.21 If the special purpose financial statements are prepared in accordance with a regulatory basis of accounting, and the special purpose financial statements together with the auditor's report are intended for general use, the auditor should not include the *emphasis-of-matter* or *other-matter* paragraphs required by paragraphs .19–.20. Instead, the auditor should express an opinion about whether the special purpose financial statements are presented fairly, in all material respects, in accordance with GAAP. The auditor should also, in a separate paragraph, express an opinion about whether the financial statements are prepared in accordance with the special purpose framework.

Auditor's Report Prescribed by Law or Regulation (Ref: par. .A29–.A32)

.22 If the auditor is required by law or regulation to use a specific layout, form, or wording of the auditor's report, the auditor's report should refer to GAAS only if the auditor's report includes, at a minimum, each of the following elements:

- a. A title
- b. An addressee
- c. An introductory paragraph that identifies the special purpose financial statements audited
- d. A description of the responsibility of management for the preparation and fair presentation of the special purpose financial statements
- e. A reference to management's responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances when required by paragraph .18a
- f. A description of the purpose for which the financial statements are prepared when required by paragraph .18b

⁹ Paragraph .08 of section 706.

¹⁰ See paragraphs .06a–b and .07 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. [Footnote amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

- g. A description of the auditor's responsibility to express an opinion on the special purpose financial statements and the scope of the audit, that includes
 - i. A reference to GAAS and, if applicable, the law or regulation
 - ii. A description of an audit in accordance with those standards
- h. An opinion paragraph containing an expression of opinion on the special purpose financial statements and a reference to the special purpose framework used to prepare the financial statements (including identifying the origin of the framework) and, if applicable, an opinion on whether the special purpose financial statements are presented fairly, in all material respects, in accordance with GAAP when required by paragraph .21
- i. An *emphasis-of-matter* paragraph that indicates that the financial statements are prepared in accordance with a special purpose framework when required by paragraph .19
- j. An *other-matter* paragraph that restricts the use of the auditor's report when required by paragraph .20
- k. The auditor's signature
- l. The auditor's city and state
- m. The date of the auditor's report

.23 If the prescribed specific layout, form, or wording of the auditor's report is not acceptable or would cause an auditor to make a statement that the auditor has no basis to make, the auditor should reword the prescribed form of report or attach an appropriately worded separate report.

Application and Other Explanatory Material

Definitions

Special Purpose Financial Statements and Special Purpose Frameworks **(Ref: par. .07)**

.A1 Special purpose financial statements may be prepared for use by regulatory bodies, the parties to a contract or agreement, or other specified parties. For example, a loan agreement may require the borrower to prepare consolidated financial statements for the lender presented on a contractual basis of accounting, which is not in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) or International Financial Reporting Standards promulgated by the International Accounting Standards Board.

.A2 There may be circumstances when a regulatory or contractual basis of accounting is based on a general purpose framework, such as U.S. GAAP, but does not comply with all the requirements of that framework.¹¹ An example is a contract that requires financial statements to be prepared in accordance with most, but not all, of U.S. GAAP. If the financial statements purport to be prepared in accordance with a general purpose framework and such financial statements are materially misstated due to a departure from that framework, section 705 applies.

¹¹ The term *general purpose framework* is defined in paragraph .11 of section 700.

.A3 When it is acceptable in the circumstances of the engagement to report, in accordance with this section, on special purpose financial statements that purport to be prepared in accordance with a regulatory or contractual basis of accounting that is based on a general purpose framework, it is inappropriate for the description of the applicable financial reporting framework in the special purpose financial statements to imply full compliance with the general purpose framework. In the example of the contract in paragraph .A2, the description of the applicable financial reporting framework would refer to the financial reporting provisions of the contract, rather than make reference to U.S. GAAP. The requirements in paragraphs .19–.21 are designed to avoid misunderstandings about compliance with the general purpose framework.

.A4 Financial statements prepared in accordance with a cash basis, tax basis, or an other basis of accounting may be the only financial statements an entity prepares. Such special purpose financial statements may be used by users other than those for whom the financial reporting framework is designed. Despite the broad distribution of the financial statements, the financial statements are still considered to be special purpose financial statements for purposes of GAAS. The requirement in paragraph .19 is designed to avoid misunderstandings about the framework used to prepare the financial statements. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

.A5 Certain regulators, including state and local government legislators, regulatory agencies, or departments, require financial statements to be prepared in accordance with a financial reporting framework that is based on U.S. GAAP but does not comply with all of the requirements of U.S. GAAP. Such frameworks are regulatory bases of accounting, as defined in paragraph .07. In some circumstances, however, the cash or tax basis of accounting may be permitted by a regulator. For purposes of this section, the cash and tax bases of accounting are not regulatory bases of accounting. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

Considerations When Accepting the Engagement

Acceptability of the Financial Reporting Framework (Ref: par. .10)

.A6 In the case of special purpose financial statements, the financial information needs of the intended users are a factor in determining the acceptability of the financial reporting framework applied in the preparation of the financial statements.

.A7 The applicable financial reporting framework may encompass the financial reporting standards established by an organization that is authorized or recognized to promulgate standards for special purpose financial statements. In that case, those standards will be presumed acceptable for that purpose if the organization follows an established and transparent process involving deliberation and consideration of the views of relevant stakeholders. In some circumstances, law or regulation may prescribe the financial reporting framework to be used by management in the preparation of special purpose financial statements for a certain type of entity. For example, a regulator may establish financial reporting provisions to meet the requirements of that regulator. In the absence of indications to the contrary, such a financial reporting framework is presumed acceptable for special purpose financial statements prepared by such an entity.

.A8 The acceptability of the financial reporting framework in the circumstances of the engagement is determined by considering whether the framework exhibits attributes normally exhibited by acceptable financial reporting frameworks. Section 210 discusses the attributes of acceptable financial reporting frameworks, which provide management with an appropriate basis for preparing the financial statements and the auditor with suitable criteria for auditing the financial statements.¹² In the case of a special purpose framework, the relative importance to a particular engagement of each of the attributes normally exhibited by acceptable financial reporting frameworks is a matter of professional judgment. For example, for purposes of establishing the value of net assets of an entity at the date of its sale, the seller and purchaser may have agreed that conservative estimates of allowances for uncollectible accounts receivable are appropriate for their needs, even though such financial information may be biased when compared with financial information prepared in accordance with a general purpose framework. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

.A9 In the case of financial statements prepared in accordance with a contractual basis of accounting, the parties to the contract or agreement may need to agree on the significant interpretations of the contract on which the special purpose financial statements are based. If agreement cannot be reached, the auditor may determine that the framework is not acceptable.

Preconditions for an Audit (Ref: par. . 11)

.A10 Section 210 also requires the agreed-upon terms of the audit engagement to include references to the expected form and content of any reports to be issued by the auditor and a statement that there may be circumstances in which a report may differ from its expected form and content.¹³ The auditor may discuss with management and, when appropriate, those charged with governance how an audit report on financial statements prepared in accordance with a special purpose framework differs from an audit report on financial statements prepared in accordance with a general purpose framework. Discussing the expected form and content of the auditor's report may assist management in understanding its responsibilities related to the audit engagement.

Achieving Fair Presentation (Ref: par. . 11 d)

.A11 In accordance with section 700, the auditor's evaluation of whether the financial statements achieve fair presentation in accordance with the applicable financial reporting framework requires consideration of¹⁴

- a. the overall presentation, structure and content of the financial statements and
- b. whether the financial statements, including the related notes, represent the underlying transactions and events in a manner that achieves fair presentation.

Also see paragraphs .A19–.A23 of this section.

¹³ Paragraph .10f of section 210. [Footnote renumbered by the issuance of SAS No. 127, January 2013.]

¹⁴ Paragraph .17 of section 700. [Footnote renumbered by the issuance of SAS No. 127, January 2013.]

Considerations When Planning and Performing the Audit (Ref: par. .12–.13)

.A12 Section 200 requires the auditor to comply with (a) relevant ethical requirements relating to financial statement audit engagements and (b) all AU-C sections relevant to the audit. It also requires the auditor to comply with each requirement of an AU-C section unless, in the circumstances of the audit, the entire AU-C section is not relevant or the requirement is not relevant because it is conditional and the condition does not exist. In rare circumstances, the auditor may judge it necessary to depart from a relevant presumptively mandatory requirement in an AU-C section by performing alternative audit procedures to achieve the intent of that requirement.¹⁵

.A13 An AU-C section is relevant to the audit when the AU-C section is in effect and the circumstances addressed by the AU-C section exist.¹⁶ In an audit of special purpose financial statements, some of the requirements within the relevant AU-C sections may need to be adapted by the auditor. For example, in section 320, *Materiality in Planning and Performing an Audit*, judgments about matters that are material to users of the financial statements are based on a consideration of the common financial information needs of users as a group.¹⁷ In an audit of special purpose financial statements, those judgments may be based on a consideration of the financial information needs of the intended users.

.A14 In the case of special purpose financial statements, such as those prepared in accordance with a contractual basis of accounting, management may agree with the intended users on a threshold below which misstatements identified during the audit will not be corrected or otherwise adjusted. The existence of such a threshold does not relieve the auditor from the requirement to determine materiality in accordance with section 320 for purposes of planning and performing the audit of the special purpose financial statements. With respect to interpretations of the contract on which the special purpose financial statements are based, the auditor may determine that an interpretation is significant based on qualitative considerations.

.A15 Communication with those charged with governance in accordance with GAAS is based on the relationship between those charged with governance and the financial statements subject to audit, in particular, whether those charged with governance are responsible for overseeing the preparation of those financial statements. In the case of special purpose financial statements, those charged with governance may not have such a responsibility; for example, when the financial information is prepared solely for management's use. In such cases, the requirements of section 260, *The Auditor's Communication With Those Charged With Governance*, may not be relevant to the audit of the special purpose financial statements, except when the auditor is also responsible for the audit of the entity's general purpose financial statements or, for example, has agreed to communicate with those charged with governance of the entity relevant matters identified during the audit of the special purpose financial statements.

¹⁶ Paragraph .20 of section 200. [Footnote renumbered by the issuance of SAS No. 127, January 2013.]

¹⁷ Paragraph .02 of section 320, *Materiality in Planning and Performing an Audit*. [Footnote renumbered by the issuance of SAS No. 127, January 2013.]

Forming an Opinion and Reporting Considerations (Ref: par. .14)

.A16 Appendix A, "Overview of Reporting Requirements," provides an overview of the reporting requirements depending on the special purpose framework. The exhibit, "Illustrations of Auditor's Reports on Special Purpose Financial Statements," contains illustrations of auditor's reports on special purpose financial statements.

Description of the Applicable Financial Reporting Framework (Ref: par. .15–.16)

.A17 Terms such as *balance sheet*, *statement of financial position*, *statement of income*, *statement of operations*, and *statement of cash flows*, or similar unmodified titles, are generally understood to be applicable only to financial statements that are intended to present financial position, results of operations, or cash flows in accordance with GAAP. Accordingly, the auditor is required by paragraph .15 to evaluate whether the financial statements are suitably titled. For example, cash basis financial statements might be titled as a statement of assets and liabilities arising from cash transactions or as a statement of revenue collected and expenses paid; a financial statement prepared on a regulatory basis of accounting might be titled as a statement of income—regulatory basis.

.A18 The description of how the special purpose framework differs from GAAP ordinarily only includes the material differences between GAAP and the special purpose framework. For example, if several items are accounted for differently under the special purpose framework than they would be under U.S. GAAP, but only the differences in how depreciation is calculated are material, a brief description of the depreciation differences is all that would be necessary, and the remaining differences need not be described. The differences need not be quantified.

Fair Presentation (Ref: par. .17)

.A19 Financial statements, including the related notes, that achieve a fair presentation include all informative disclosures that are appropriate for the applicable financial reporting framework, including matters that affect their use, understanding, and interpretation. Also refer to paragraph .A11.

.A20 When the special purpose financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP, informative disclosures similar to those required by GAAP are necessary to achieve fair presentation. For example, financial statements prepared on a tax basis or on a modified cash basis of accounting usually reflect depreciation, long-term debt, and owners' equity. Thus, the informative disclosures for depreciation, long-term debt, and owners' equity in such financial statements would be comparable to those in financial statements prepared in accordance with GAAP.

.A21 Disclosures in special purpose financial statements may substitute qualitative information for some of the quantitative information required by GAAP or may provide information that communicates the substance of those requirements. For example, disclosing estimated percentages of revenues, rather than amounts that GAAP presentations would require, may sufficiently convey the significance of sales or leasing to related parties or major customers.

.A22 The auditor is required by paragraph .17 to evaluate whether additional disclosures, beyond those specifically required by the framework, related

to matters that are not specifically identified on the face of the financial statements or other disclosures may be necessary for the special purpose financial statements to achieve fair presentation. For example, these disclosures may include matters about related party transactions, restrictions on assets and owners' equity, subsequent events, and significant uncertainties. In such circumstances, the special purpose financial statements would include the same disclosure required by GAAP or disclosure that communicates the substance of those requirements.

.A23 Appendix B, "Fair Presentation and Adequate Disclosures," provides additional guidance on evaluating the adequacy of disclosures in financial statements prepared in accordance with a special purpose framework, including matters related to the presentation of financial statements.

Auditor's Report (Ref: par. .18b)

.A24 When the special purpose financial statements are prepared in accordance with a regulatory or contractual basis of accounting or an other basis of accounting that requires an alert that restricts the use of the auditor's report pursuant to paragraph .06a–b of section 905, the auditor is required by paragraph .18b to describe the purpose for which the financial statements are prepared or refer to a note in the financial statements that contains that information. This is necessary to avoid misunderstandings when the special purpose financial statements are used for purposes other than those for which they were intended. The note to the financial statements may also describe any significant interpretations of the contract on which the financial statements are based. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

Alerting Readers in an Emphasis-of-Matter Paragraph That the Financial Statements Are Prepared in Accordance With a Special Purpose Framework (Ref: par. .19)

.A25 Special purpose financial statements may be used for purposes other than those for which they were intended. To avoid misunderstandings, paragraph .19 requires the auditor to include an *emphasis-of-matter* paragraph in the auditor's report that alerts users of the auditor's report that the financial statements are prepared in accordance with a special purpose framework and that the basis of accounting is a basis of accounting other than GAAP.

Restricting the Use of the Auditor's Report in an Other-Matter Paragraph (Ref: par. .20)

.A26 Special purpose financial statements prepared in accordance with a contractual or regulatory basis of accounting are suitable only for a limited number of users who can be presumed to have an adequate understanding of such bases of accounting. For example, special purpose financial statements prepared in accordance with a contractual basis of accounting are developed for and directed only to the parties to the contract or agreement. Accordingly, the alert that restricts the use of the auditor's report is required due to the nature of the report and the potential for the report to be taken out of the context in which the auditor's report was intended to be used. Section 905, *Alert That Restricts the Use of the Auditor's Written Communication*, addresses adding other parties as specified parties. [As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

.A27 In the case of special purpose financial statements prepared in accordance with a cash or tax basis of accounting, the auditor may consider it necessary in the circumstances of the engagement to include an alert that restricts the use of the auditor's report. [As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

Regulatory Basis Financial Statements Intended for General Use
(Ref: par. .21)

.A28 Special purpose financial statements prepared in accordance with a regulatory basis of accounting may be intended for general use. Such special purpose financial statements are intended for general use when the financial statements together with the auditor's report are intended for use by parties other than those within the entity and the regulatory agencies to whose jurisdiction the entity is subject or when the financial statements together with the auditor's report are distributed by the entity to parties other than the regulatory agencies to whose jurisdiction the entity is subject, either voluntarily or upon specific request. In such circumstances, the *emphasis-of-matter* and *other-matter* paragraphs described in paragraphs .19–.20 are not required because the auditor is required, in accordance with paragraph .21, to express an opinion about whether the special purpose financial statements are prepared in accordance with GAAP and an opinion about whether the financial statements are prepared in accordance with the special purpose framework.

Auditor's Report Prescribed by Law or Regulation (Ref: par. .22–.23)

.A29 The auditor may be required to comply with legal or regulatory requirements in addition to GAAS. When this is the case, the auditor may be required to use a layout, form, or wording in the auditor's report that differs from that described in this section, such as when printed forms or schedules designed or adopted by the bodies with which they are to be filed prescribe the wording of the auditor's report.

.A30 When the differences between the legal or regulatory requirements and GAAS relate only to the layout, form, and wording of the auditor's report and, at a minimum, each of the elements identified in paragraph .22 are included in the auditor's report, the auditor's report may refer to GAAS. Accordingly, in such circumstances the auditor is considered to have complied with the requirements of GAAS, even when the layout, form, and wording used in the auditor's report are specified by legal or regulatory reporting requirements. Section 210 addresses circumstances in which law or regulation prescribes the layout, form, or wording of the auditor's report in terms that are significantly different from the requirements of GAAS.¹⁸

.A31 Some report forms can be made acceptable by inserting additional wording to include the elements identified in paragraph .22. Other report forms can be made acceptable only by complete revision because the prescribed language of the report calls for statements by the auditor that are not consistent with the auditor's function or responsibility; for example, a report form that requests the auditor to certify the financial statements.

.A32 This guidance can be applied to other circumstances, for example, reports on financial statements prepared in accordance with a general purpose framework for which a specific layout, form, or wording of the auditor's report is required.

.A34

Appendix B—Fair Presentation and Adequate Disclosures (Ref: par. .A19–.A22)

When special purpose financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with generally accepted accounting principles (GAAP), paragraph .17 requires the auditor to evaluate whether, the financial statements include informative disclosures similar to those required by GAAP. The auditor is also required to evaluate whether additional disclosures, beyond those specifically required by the framework, related to matters that are not specifically identified on the face of the financial statements or other disclosures are necessary for the financial statements to achieve fair presentation. This appendix provides guidance, in addition to paragraphs .A19–.A22, on evaluating the adequacy of disclosures in financial statements prepared in accordance with a special purpose framework, including matters related to the presentation of financial statements.

If special purpose financial statements contain items for which GAAP would require disclosure, the financial statements may either provide the relevant disclosure that would be required for those items in a GAAP presentation or provide information that communicates the substance of that disclosure. Likewise, if GAAP sets forth requirements that apply to the presentation of financial statements, special purpose financial statements may either comply with those requirements or provide information that communicates the substance of those requirements, without modifying the format of the special purpose financial statements. This may result in substituting qualitative information for some of the quantitative information required for GAAP presentations. For example:

- Disclosure of the repayment terms of significant long-term borrowings may sufficiently communicate information about future principal reduction without providing the summary of principal reduction during each of the next five years.
- Information about the effects of accounting changes, discontinued operations, and extraordinary items could be disclosed in a note to the financial statements without following the GAAP presentation requirements in the statement of results of operations, using those terms, or disclosing net-of-tax effects.
- Instead of showing expenses by their functional classifications in certain industries, a statement of activities could present expenses according to their natural classifications, and a note to the statement could use estimated percentages to communicate information about expenses incurred by the major program and supporting services.
- Instead of showing the amounts of, and changes in, the unrestricted and temporarily and permanently restricted classes of net assets in certain industries, a statement of assets and liabilities could report total net assets or fund balances, a related statement of activities could report changes in those totals, and a note to the financial statements could provide information, using estimated or actual amounts or percentages, about the restrictions on those amounts and on any deferred restricted amounts, describe the major restrictions, and provide information about significant changes in restricted amounts.

For special purpose financial statements, GAAP disclosure requirements that are not relevant to the measurement of the item need not be considered. To illustrate:

- Fair value disclosures for debt and equity securities would not be relevant when the basis of presentation does not adjust the cost of such securities to their fair value.
- Disclosures related to actuarial calculations for contributions to defined benefit plans would not be relevant in financial statements prepared in accordance with the cash or tax basis of accounting.
- Disclosures related to the use of estimates would not be relevant in a presentation that has no estimates, such as the cash basis of accounting.

Special purpose financial statements may not include a statement of cash flows. If a presentation of cash receipts and disbursements is presented in a format similar to a statement of cash flows or if the entity chooses to present such a statement, the statement would either conform to the requirements for a GAAP presentation or communicate their substance. As an example, the statement of cash flows might disclose noncash acquisitions through captions on its face.

Illustration 5—An Auditor's Report on a Complete Set of Financial Statements Prepared in Accordance With a Contractual Basis of Accounting

Illustration 1—An Auditor’s Report on a Complete Set of Financial Statements Prepared in Accordance With the Cash Basis of Accounting

Circumstances include the following:

- The financial statements have been prepared by management of the entity in accordance with the cash basis of accounting (that is, a special purpose framework).
- Management has a choice of financial reporting frameworks.¹

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Financial Statements²

We have audited the accompanying financial statements of ABC Partnership, which comprise the statement of assets and liabilities arising from cash transactions as of December 31, 20X1, and the related statement of revenue collected and expenses paid for the year then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting described in Note X; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the partnership's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the

¹ If management does not have a choice of financial reporting frameworks, the auditor is not required by paragraph .18a to make reference to management's responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances.

² The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle "Report on Other Legal and Regulatory Requirements" is not applicable.

effectiveness of the partnership's internal control.³ Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets and liabilities arising from cash transactions of ABC Partnership as of December 31, 20X1, and its revenue collected and expenses paid during the year then ended in accordance with the cash basis of accounting described in Note X.

Basis of Accounting⁴

We draw attention to Note X of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

³ In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

⁴ Another appropriate heading may be used.

Illustration 2—An Auditor's Report on a Complete Set of Financial Statements Prepared in Accordance With the Tax Basis of Accounting

Circumstances include the following:

- The financial statements have been prepared by management of a partnership in accordance with the basis of accounting the partnership uses for income tax purposes (that is, a special purpose framework).
- Based on the partnership agreement, management does not have a choice of financial reporting frameworks.¹

Independent Auditor's Report

[Appropriate Addressee]

Report on the Financial Statements²

We have audited the accompanying financial statements of ABC Partnership, which comprise the statements of assets, liabilities, and capital-income tax basis as of December 31, 20X1, and the related statements of revenue and expenses—income tax basis and of changes in partners' capital accounts—income tax basis for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the basis of accounting the Partnership uses for income tax purposes; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the partnership's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the

¹ If management has a choice of financial reporting frameworks, paragraph .18a requires that the explanation of management's responsibility for the financial statements also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances.

² The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle "Report on Other Legal and Regulatory Requirements" is not applicable.

effectiveness of the partnership's internal control.³ Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities, and capital of ABC Partnership as of December 31, 20X1, and its revenue and expenses and changes in partners' capital accounts for the year then ended in accordance with the basis of accounting the Partnership uses for income tax purposes described in Note X.

Basis of Accounting⁴

We draw attention to Note X of the financial statements, which describes the basis of accounting. The financial statements are prepared on the basis of accounting the Partnership uses for income tax purposes, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Illustration 3—An Auditor’s Report on a Complete Set of Financial Statements Prepared in Accordance With a Regulatory Basis of Accounting (the Financial Statements Together With the Auditor’s Report Are Not Intended for General Use)

Circumstances include the following:

- The financial statements have been prepared by management of the entity in accordance with the financial reporting provisions established by a regulatory agency (that is, a special purpose framework).
- The financial statements together with the auditor's report are not intended for general use.
- Based on the regulatory requirements, management does not have a choice of financial reporting frameworks.¹

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Financial Statements²

We have audited the accompanying financial statements of ABC City, Any State, which comprise cash and unencumbered cash for each fund as of December 31, 20X1, and the related statements of cash receipts and disbursements and disbursements—budget and actual for the year then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of Section Y of Regulation Z of Any State. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the

entity's internal control.³ Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of ABC City as of December 31, 20X1, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the financial reporting provisions of Section Y of Regulation Z of Any State described in Note X.

Basis of Accounting⁴

We draw attention to Note X of the financial statements, which describes the basis of accounting. As described in Note X to the financial statements, the financial statements are prepared by ABC City on the basis of the financial reporting provisions of Section Y of Regulation Z of Any State, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Any State. Our opinion is not modified with respect to this matter.

Restriction on Use⁵

Our report is intended solely for the information and use of ABC City and Any State and is not intended to be and should not be used by anyone other than these specified parties.

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

⁵ Another appropriate heading may be used.

Illustration 4—An Auditor’s Report on a Complete Set of Financial Statements Prepared in Accordance With a Regulatory Basis of Accounting (the Financial Statements Together With the Auditor’s Report Are Intended for General Use)

Circumstances include the following:

- The financial statements have been prepared by management of the entity in accordance with the financial reporting provisions established by a regulatory agency (that is, a special purpose framework).
- The financial statements together with the auditor's report are intended for general use.
- Based on the regulatory requirements, management does not have a choice of financial reporting frameworks.¹
- The variances between the regulatory basis of accounting and accounting principles generally accepted in the United States of America (U.S. GAAP) are not reasonably determinable and are presumed to be material.

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Financial Statements²

We have audited the accompanying financial statements of XYZ City, Any State, which comprise cash and unencumbered cash for each fund as of December 31, 20X1, and the related statements of cash receipts and disbursements and disbursements—budget and actual for the year then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of Section Y of Regulation Z of Any State. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

¹ If management has a choice of financial reporting frameworks, paragraph .18a requires that the explanation of management's responsibility for the financial statements also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances.

² The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle "Report on Other Legal and Regulatory Requirements" is not applicable.

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.³ Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note X of the financial statements, the financial statements are prepared by XYZ City on the basis of the financial reporting provisions of Section Y of Regulation Z of Any State, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Any State.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note X and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of XYZ City as of December 31, 20X1, or changes in financial position or cash flows thereof for the year then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of XYZ City as of December 31, 20X1, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the financial reporting provisions of Section Y of Regulation Z of Any State described in Note X.

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

³ In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

Illustration 5—An Auditor’s Report on a Complete Set of Financial Statements Prepared in Accordance With a Contractual Basis of Accounting

Circumstances include the following:

- The financial statements have been prepared by management of the entity in accordance with a contractual basis of accounting (that is, a special purpose framework) to comply with the provisions of that contract.
- Based on the provisions of the contract, management does not have a choice of financial reporting frameworks.¹

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Financial Statements²

We have audited the accompanying financial statements of ABC Company, which comprise the assets and liabilities—contractual basis as of December 31, 20X1, and the revenues and expenses—contractual basis, changes in equity—contractual basis, and cash flows—contractual basis for the year then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of Section Z of the contract between ABC Company and DEF Company dated January 1, 20X1 (the contract). Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the

¹ If management has a choice of financial reporting frameworks, paragraph .18a requires that the explanation of management’s responsibility for the financial statements also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances.

² The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle "Report on Other Legal and Regulatory Requirements" is not applicable.

entity's internal control.³ Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets and liabilities of ABC Company as of December 31, 20X1, and revenues, expenses, changes in equity, and cash flows for the year then ended in accordance with the financial reporting provisions of Section Z of the contract.

Basis of Accounting⁴

We draw attention to Note X of the financial statements, which describes the basis of accounting. The financial statements are prepared by ABC Company on the basis of the financial reporting provisions of Section Z of the contract, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the financial reporting provisions of the contract referred to above. Our opinion is not modified with respect to this matter.

Restriction on Use⁵

Our report is intended solely for the information and use of ABC Company and DEF Company and is not intended to be and should not be used by anyone other than these specified parties.

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement

Source: SAS No. 122.

See section 9805 for interpretations of this section.

Effective for audits of single financial statements or specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2012.

Introduction

Scope of This Section

.01 AU-C sections 200–700 apply to an audit of financial statements and are to be adapted as necessary in the circumstances when applied to audits of other historical financial information. This section addresses special considerations in the application of those AU-C sections to an audit of a single financial statement or of a specific element, account, or item of a financial statement. The single financial statement or the specific element, account, or item of a financial statement may be prepared in accordance with a general or special purpose framework. If prepared in accordance with a special purpose framework, section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*, also applies to the audit. (Ref: par. .A1–.A3)

.02 This section does not apply to the report of a component auditor issued as a result of work performed on the financial information of a component at the request of a group engagement team for purposes of an audit of group financial statements (see section 600, *Special Considerations—Audits of Group Financial Statements [Including the Work of Component Auditors]*).

.03 This section does not override the requirements of the other AU-C sections nor does it purport to address all special considerations that may be relevant in the circumstances of the engagement.

Effective Date

.04 This section is effective for audits of single financial statements or specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2012.

Objective

.05 The objective of the auditor, when applying generally accepted auditing standards (GAAS) in an audit of a single financial statement or of a specific

element, account, or item of a financial statement, is to address appropriately the special considerations that are relevant to

- a. the acceptance of the engagement;
- b. the planning and performance of that engagement; and
- c. forming an opinion and reporting on the single financial statement or the specific element, account, or item of a financial statement.

Definitions

.06 For purposes of this section, reference to

- a. an *element of a financial statement* or an *element* means an *element, account, or item of a financial statement*. (Ref: par. .A4)
- b. a *single financial statement* or a *specific element of a financial statement* includes the related notes. The related notes ordinarily comprise a summary of significant accounting policies and other explanatory information relevant to the financial statement or the specific element.

.07 Reference to *generally accepted accounting principles* (GAAP) in GAAS means GAAP promulgated by bodies designated by the Council of the AICPA pursuant to Rule 202, *Compliance With Standards* (ET sec. 202 par. .01), and Rule 203, *Accounting Principles* (ET sec. 203 par. .01), of the AICPA Code of Professional Conduct.

Requirements

Considerations When Accepting the Engagement

Application of GAAS (Ref: par. .A5–.A7)

.08 Section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*, requires the auditor to comply with all AU-C sections relevant to the audit.¹ In the case of an audit of a single financial statement or a specific element of a financial statement, this requirement applies irrespective of whether the auditor is also engaged to audit the entity's complete set of financial statements.

.09 If the auditor is not also engaged to audit the entity's complete set of financial statements, the auditor should determine whether the audit of a single financial statement or a specific element of those financial statements in accordance with GAAS is practicable. The auditor should also determine whether the auditor will be able to perform procedures on interrelated items, as required by paragraph .13.

¹ Paragraph .20 of section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*.

Acceptability of the Financial Reporting Framework (Ref: par. .A8–.A11)

.10 Section 210, *Terms of Engagement*, requires the auditor to determine the acceptability of the financial reporting framework applied in the preparation of the financial statements.² In the case of an audit of a single financial statement or a specific element of a financial statement, the auditor should obtain an understanding of

- a. the purpose for which the single financial statement or specific element of a financial statement is prepared,
- b. the intended users, and
- c. the steps taken by management to determine that the application of the financial reporting framework is acceptable in the circumstances.

.11 The auditor's determination required by paragraph .10 should include consideration of whether the application of the financial reporting framework will result in a presentation that provides adequate disclosures to enable the intended users to understand the information conveyed in the financial statement or the specific element and the effect of material transactions and events on the information conveyed in the financial statement or the specific element.

Considerations When Planning and Performing the Audit

.12 Section 200 states that GAAS is written in the context of an audit of financial statements; it is to be adapted as necessary in the circumstances when applied to audits of other historical financial information.³ In planning and performing the audit of a single financial statement or a specific element of a financial statement, the auditor should adapt all AU-C sections relevant to the audit as necessary in the circumstances of the engagement. (Ref: par. .A12–.A14)

.13 In the case of an audit of a single financial statement or a specific element of a financial statement, the auditor should perform procedures on interrelated items as necessary to meet the objective of the audit. In the case of an audit of a specific element of a financial statement (Ref: par. .A15)

- a. the auditor should, if the specific element is, or is based upon, the entity's stockholders' equity or the equivalent, perform procedures necessary to obtain sufficient appropriate audit evidence to enable the auditor to express an opinion about financial position, excluding matters related to classification or disclosure that are not relevant to the audit of the specific element.
- b. the auditor should, if the specific element is, or is based upon, the entity's net income or the equivalent, perform procedures necessary to obtain sufficient appropriate audit evidence to enable the auditor to express an opinion about financial position and results of operations, excluding matters related to classification or disclosure that are not relevant to the audit of the specific element.

Materiality (Ref: par. .A16)

.14 Section 320, *Materiality in Planning and Performing an Audit*, requires the auditor to determine, when establishing the overall audit strategy,

² Paragraph .06a of section 210, *Terms of Engagement*.

³ Paragraph .02 of section 200.

materiality for the financial statements as a whole.⁴ In the case of an audit of a single financial statement, the auditor should determine materiality for the single financial statement being reported on rather than for the complete set of financial statements. In the case of an audit of one or more specific elements of a financial statement, the auditor should determine materiality for each individual element reported on rather than the aggregate of all elements or the complete set of financial statements.

Forming an Opinion and Reporting Considerations

.15 When forming an opinion and reporting on a single financial statement or a specific element of a financial statement, the auditor should apply the requirements in section 700, *Forming an Opinion and Reporting on Financial Statements*, adapted as necessary in the circumstances of the engagement. (Ref: par. .A17–.A18)

Reporting on the Entity's Complete Set of Financial Statements and a Single Financial Statement or a Specific Element of Those Financial Statements

.16 If, in conjunction with an engagement to audit the entity's complete set of financial statements, the auditor undertakes an engagement to audit a single financial statement or a specific element of a financial statement, the auditor should

- a. issue a separate auditor's report and express a separate opinion for each engagement.
- b. indicate in the report on a specific element of a financial statement the date of the auditor's report on the complete set of financial statements and the nature of opinion expressed on those financial statements under an appropriate heading.

.17 Except as required by paragraph .21, an audited single financial statement or an audited specific element of a financial statement may be published together with the entity's audited complete set of financial statements, provided that the presentation of the single financial statement or the specific element is sufficiently differentiated from the complete set of financial statements. The auditor should also differentiate the report on the single financial statement or the specific element of a financial statement from the report on the complete set of financial statements.

.18 If the auditor concludes that the presentation of the audited single financial statement or the audited specific element does not differentiate it sufficiently from the complete set of financial statements, as described in paragraph .17, the auditor should ask management to remedy the situation. The auditor should not release the auditor's report containing the opinion on the single financial statement or the specific element of a financial statement until satisfied with the differentiation.

Modified Opinion, Emphasis-of-Matter Paragraph, or Other-Matter Paragraph in the Auditor's Report on the Entity's Complete Set of Financial Statements

.19 If the opinion in the auditor's report on an entity's complete set of financial statements is modified, the auditor should determine the effect that

⁴ Paragraph .10 of section 320, *Materiality in Planning and Performing an Audit*.

this may have on the auditor's opinion on a single financial statement or a specific element of those financial statements, in accordance with section 705, *Modifications to the Opinion in the Independent Auditor's Report*.

.20 In the case of an audit of a specific element of a financial statement, if the auditor's modified opinion on the entity's complete set of financial statements as a whole is relevant to the audit of the specific element, the auditor should (Ref: par. .A19–.A20)

- a. express an adverse opinion on the specific element when the modification of the auditor's opinion on the complete set of financial statements as a whole arises from a material misstatement in such financial statements.
- b. disclaim an opinion on the specific element when the modification of the auditor's opinion on the complete set of financial statements as a whole arises from an inability to obtain sufficient appropriate audit evidence.

.21 If the auditor concludes that it is necessary to express an adverse opinion or disclaim an opinion on the entity's complete set of financial statements as a whole, an unmodified opinion on a specific element in the same auditor's report would contradict the adverse opinion or disclaimer of opinion on the entity's complete set of financial statements as a whole and would be tantamount to expressing a piecemeal opinion. In the context of a separate audit of a specific element that is included in those financial statements, when the auditor nevertheless considers it appropriate to express an unmodified opinion on that specific element, the auditor should only do so if

- a. that opinion is expressed in an auditor's report that is neither published together with nor otherwise accompanies the auditor's report containing the adverse opinion or disclaimer of opinion and
- b. the specific element does not constitute a major portion of the entity's complete set of financial statements or the specific element is not, or is not based upon, the entity's stockholders' equity or net income or the equivalent.

.22 A single financial statement is deemed to constitute a major portion of a complete set of financial statements. Therefore, the auditor should not express an unmodified opinion on a single financial statement of a complete set of financial statements if the auditor has expressed an adverse opinion or disclaimed an opinion on the complete set of financial statements as a whole, even if the auditor's report on the single financial statement is neither published together with nor otherwise accompanies the auditor's report containing the adverse opinion or disclaimer of opinion. (Ref: par. .A21)

.23 If the auditor's report on an entity's complete set of financial statements includes an emphasis-of-matter paragraph or an other-matter paragraph that is relevant to the audit of the single financial statement or the specific element, the auditor should include a similar emphasis-of-matter paragraph or an other-matter paragraph in the auditor's report on the single financial statement or the specific element, in accordance with section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*. (Ref: par. .A20)

Reporting on an Incomplete Presentation but One That Is Otherwise in Accordance With Generally Accepted Accounting Principles (Ref: par. .A22–.A23)

.24 When the auditor reports on an incomplete presentation but one that is otherwise in accordance with GAAP, the auditor should include an emphasis-of-matter paragraph⁵ in the auditor's report that

- a. states the purpose for which the presentation is prepared and refers to a note in the financial statements that describes the basis of presentation and
- b. indicates that the presentation is not intended to be a complete presentation of the entity's assets, liabilities, revenues, or expenses.

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01)

.A1 Section 200 defines the term *historical financial information* as information expressed in financial terms regarding a particular entity, derived primarily from that entity's accounting system, about economic events occurring in past time periods or about economic conditions or circumstances at points in time in the past. It also defines the term *financial statements* as a structured representation of historical financial information, including related notes, intended to communicate an entity's economic resources or obligations at a point in time or the changes therein for a period of time in accordance with a financial reporting framework. The term *financial statements* ordinarily refers to a complete set of financial statements as determined by the requirements of the applicable financial reporting framework, but can also refer to a single financial statement.⁶

.A2 Paragraph .A9 of section 200 provides guidance on what constitutes a complete set of financial statements and also provides the following examples of single financial statements, each of which would include related notes:

- Balance sheet
- Statement of income or statement of operations
- Statement of retained earnings
- Statement of cash flows
- Statement of assets and liabilities
- Statement of changes in owner's equity
- Statement of revenue and expenses
- Statement of operations by product lines

.A3 An attest engagement other than an audit of historical financial information is performed in accordance with Statements on Standards for Attestation Engagements. For example, AT section 201, *Agreed-Upon Procedures Engagements*, applies when reporting on the results of applying agreed-upon procedures to one or more specific elements of a financial statement, and

⁵ Paragraphs .06–.07 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

⁶ Paragraph .14 of section 200.

AT section 101, *Attest Engagements*, provides guidance when reporting on a review of one or more specific elements of a financial statement.

Definitions

Element of a Financial Statement (Ref: par. .06)

.A4 The appendix, "Examples of Specific Elements, Accounts, or Items of a Financial Statement," lists examples of an element of a financial statement.

Considerations When Accepting the Engagement

Application of GAAS (Ref: par. .08–.09)

.A5 Section 200 requires the auditor to comply with (a) relevant ethical requirements relating to financial statement audit engagements and (b) all AU-C sections relevant to the audit. It also requires the auditor to comply with each requirement of an AU-C section, unless, in the circumstances of the audit, the entire AU-C section is not relevant or the requirement is not relevant because it is conditional and the condition does not exist. In rare circumstances, the auditor may judge it necessary to depart from a relevant presumptively mandatory requirement in an AU-C section by performing alternative audit procedures to achieve the intent of that requirement.⁷

Complying With Relevant Requirements

.A6 Compliance with the requirements of AU-C sections relevant to the audit of a single financial statement or a specific element of a financial statement may not be practicable when the auditor is not also engaged to audit the entity's complete set of financial statements. In such cases, the auditor often does not have the same understanding of the entity and its environment, including its internal control, as an auditor who also audits the entity's complete set of financial statements. The auditor also does not have the audit evidence about the general quality of the accounting records or other accounting information that would be acquired in an audit of the entity's complete set of financial statements. Accordingly, the auditor may need further evidence to corroborate audit evidence acquired from the accounting records. Also see paragraph .A15.

.A7 In the case of an audit of a specific element of a financial statement, certain AU-C sections require audit work that may be disproportionate to the specific element being audited. For example, although the requirements of section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, are likely to be relevant in the circumstances of an audit of a schedule of accounts receivable (see paragraph .A12), complying with those requirements may not be practicable because of the audit effort required. If the auditor concludes that an audit of a single financial statement or a specific element of a financial statement in accordance with GAAS may not be practicable, the auditor may discuss with management whether another type of engagement might be more practicable, as described in paragraph .A3. [Revised, August 2012, to reflect conforming changes necessary due to the issuance of SAS No. 126.]

Acceptability of the Financial Reporting Framework (Ref: par. .10–.11)

.A8 In the case of an audit of a single financial statement or a specific element of a financial statement, the financial information needs of the intended

⁷ Paragraphs .16, .20, and .24–.26 of section 200.

users are relevant in determining the acceptability of the financial reporting framework applied in the preparation of the single financial statement or the specific element.

.A9 A single financial statement or a specific element of a financial statement may be prepared in accordance with relevant requirements of a financial reporting framework established by an authorized or recognized standards-setting organization for the preparation of a complete set of financial statements (for example, accounting principles generally accepted in the United States of America [U.S. GAAP] or International Financial Reporting Standards promulgated by the International Accounting Standards Board). If this is the case, determination of the acceptability of the applicable framework may involve considering whether that framework includes all the requirements of the framework that are relevant to the presentation of a single financial statement or a specific element of a financial statement that provides adequate disclosures. The determination of the acceptability of the applicable framework may also include consideration of the following:

- Whether the applicable financial reporting framework is explicitly or implicitly restricted to the preparation of a complete set of financial statements.
- Whether the single financial statement or the specific element of a financial statement will
 - comply fully with each of those requirements of the framework relevant to the particular financial statement or the particular element and the presentation of the financial statement or the specific element, including the related notes. For example, when reporting on a schedule of long-term debt prepared in accordance with U.S. GAAP relevant to that schedule, the schedule of long-term debt, including the related notes, would be comparable to such information in financial statements prepared in accordance with U.S. GAAP.
 - provide, if necessary to achieve fair presentation, disclosures beyond those specifically required by the framework or, in extremely rare circumstances, depart from a requirement of the framework.⁸ A single financial statement or a specific element of a financial statement, including the related notes, that achieves a fair presentation includes all informative disclosures that are appropriate for the applicable financial reporting framework, including matters that affect their use, understanding, and interpretation.

.A10 The auditor may be requested to audit an incomplete presentation but one that is otherwise in accordance with GAAP. For example, an entity wishing to sell a division or product line may present certain assets and liabilities, revenues, and expenses relating to the division or product line being sold. Incomplete presentations may also be required by a regulatory agency or a contract or an agreement. For example, a regulatory agency may require a schedule of gross income and certain expenses of an entity's real estate operation in which income and expenses are measured in accordance with GAAP, but *expenses* are defined to exclude certain items, such as interest, depreciation, and income taxes. Also, an acquisition agreement may specify a schedule

⁸ See paragraph .14 of section 200 for a definition of *financial reporting framework*.

of gross assets and liabilities of the entity measured in accordance with GAAP but limited to the assets to be sold and liabilities to be transferred pursuant to the agreement. These types of presentations are generally regarded as single financial statements, even though certain items may be excluded only to the extent necessary to meet the purpose for which they were prepared. The requirement in paragraph .24 is designed to avoid misunderstandings about the purpose for which the presentation is prepared.

.A11 As indicated in paragraph .A10, incomplete presentations may be required by a regulatory agency or a contract or an agreement. Paragraphs .A2–.A3 of section 800 provide guidance on the acceptability of the financial reporting framework when the regulatory or contractual basis of accounting is based on a general purpose framework, such as GAAP. The auditor may determine that it is more appropriate for the description of the applicable financial reporting framework to refer to the regulatory or contractual basis of accounting, rather than make reference to GAAP. As indicated in paragraph .01, if the presentation is prepared in accordance with a special purpose framework, which includes the regulatory and contractual bases of accounting, section 800 also applies to the audit.

Considerations When Planning and Performing the Audit (Ref: par. .12–.13)

.A12 An AU-C section is relevant to the audit when the AU-C section is in effect and the circumstances addressed by the AU-C section exist.⁹ Even when only a specific element of a financial statement is the subject of the audit, AU-C sections such as section 240, *Consideration of Fraud in a Financial Statement Audit*, section 550, *Related Parties*, and section 570 are, in principle, relevant. This is because the specific element could be misstated as a result of fraud, the effect of related party transactions, or the incorrect application of the going concern assumption under the applicable financial reporting framework. [Revised, August 2012, to reflect conforming changes necessary due to the issuance of SAS No. 126.]

.A13 Furthermore, GAAS is written in the context of an audit of financial statements; it is to be adapted as necessary in the circumstances when applied to the audit of a single financial statement or a specific element of a financial statement.¹⁰ For example, written representations from management about the complete set of financial statements would be replaced by written representations about the presentation of the single financial statement or the specific element, in accordance with the applicable financial reporting framework.

.A14 When auditing a single financial statement or a specific element of a financial statement in conjunction with the audit of the entity's complete set of financial statements, the auditor may use audit evidence obtained as part of the audit of the entity's complete set of financial statements in the audit of the single financial statement or the specific element. GAAS, however, requires the auditor to plan and perform the audit of the single financial statement or specific element to obtain sufficient appropriate audit evidence on which to base the opinion on the single financial statement or the specific element.

⁹ Paragraph .20 of section 200.

¹⁰ Paragraph .02 of section 200.

.A15 The individual financial statements that comprise a complete set of financial statements, and many of the elements of those financial statements, including their related notes, are interrelated. For example, sales and receivables, inventory and payables, and buildings and equipment and depreciation each are interrelated. Accordingly, when auditing a single financial statement or a specific element of a financial statement, the auditor may not be able to consider the single financial statement or the specific element in isolation. Consequently, paragraph .13 requires the auditor to perform procedures on interrelated items as necessary to meet the objective of the audit. In the case of an audit of a specific element that is, or is based upon, the entity's stockholders' equity or net income (or the equivalents thereto), paragraph .13 requires the auditor to perform procedures necessary to obtain sufficient appropriate audit evidence about financial position, or financial position and results of operations, respectively, because of the interrelationship between the specific element and the balance sheet accounts and the income statement accounts. However, matters related to classification or disclosure may not be relevant to the audit of the specific element; therefore, audit procedures on such matters may not be necessary in an audit of a specific element.

Materiality (Ref: par. .14)

.A16 The materiality determined for a single financial statement or a specific element of a financial statement differs from the materiality determined for the entity's complete set of financial statements; this will affect the nature, timing, and extent of the audit procedures and the evaluation of uncorrected misstatements. In the case of an audit of a single financial statement, paragraph .14 requires the auditor to determine materiality for the single financial statement being reported on rather than for the complete set of financial statements. In the case of an audit of one or more specific elements of a financial statement, the auditor's opinion is on each of the specific elements; therefore, paragraph .14 requires the auditor to determine materiality for each individual element reported on rather than the aggregate of all elements or the complete set of financial statements. Consequently, an audit of one or more specific elements of a financial statement is usually more extensive than if the same information was being considered in conjunction with an audit of the complete set of financial statements.

Forming an Opinion and Reporting Considerations (Ref: par. .15)

.A17 Section 700 requires the auditor, in forming an opinion, to evaluate whether the financial statements provide adequate disclosures to enable the intended users to understand the effect of material transactions and events on the information conveyed in the financial statements.¹¹ In the case of an audit of a single financial statement or a specific element of a financial statement, it is important, in view of the requirements of the applicable financial reporting framework, that the disclosures enable the intended users to understand

- the information conveyed in the financial statement or the specific element and
- the effect of material transactions and events on the information conveyed in the financial statement or the specific element.

¹¹ Paragraph .16e of section 700, *Forming an Opinion and Reporting on Financial Statements*.

.A18 The exhibit, "Illustrations of Auditor's Reports on a Single Financial Statement and a Specific Element of a Financial Statements," contains illustrations of auditor's reports.

Modified Opinion, Emphasis-of-Matter Paragraph, or Other-Matter Paragraph in the Auditor's Report on the Entity's Complete Set of Financial Statements (Ref: par. .19–.23)

.A19 In the case of an audit of a specific element of a financial statement, if the opinion in the auditor's report on an entity's complete set of financial statements is modified and the modification is relevant to the audit of the specific element, the modification is material and pervasive with respect to the specific element. Modifications related to an interrelated item of the specific element may also be relevant to the audit of the specific element. Conversely, modifications related solely to classification or disclosure may not be relevant to the audit of the specific element.

.A20 Even when the modified opinion, emphasis-of-matter paragraph, or other-matter paragraph in the auditor's report on the entity's complete set of financial statements does not relate to the audited single financial statement or the audited element, the auditor may nevertheless deem it appropriate to refer to the modification in an other-matter paragraph in an auditor's report on the single financial statement or the specific element because the auditor judges it to be relevant to the users' understanding of the audited single financial statement or the audited element or the related auditor's report (see section 706).

.A21 In the auditor's report on an entity's complete set of financial statements, the expression of a disclaimer of opinion regarding the results of operations and cash flows, when relevant, and an unmodified opinion regarding the financial position are permitted because the disclaimer of opinion is being issued on the results of operations and cash flows only and not on the financial statements as a whole.¹²

Reporting on an Incomplete Presentation but One That Is Otherwise in Accordance With GAAP (Ref: par. .24)

.A22 As described in paragraph .A10, the auditor may be requested to audit an incomplete presentation but one that is otherwise in accordance with GAAP. When the auditor reports on an incomplete presentation but one that is otherwise in accordance with GAAP, paragraph .24 requires the auditor to include an emphasis-of-matter paragraph in the auditor's report, which alerts users as to the purpose of the presentation and that the presentation is incomplete. The exhibit illustrates such a paragraph.

.A23 If the presentation is prepared in accordance with a regulatory or contractual basis of accounting, the requirement in paragraph .24 does not apply. In such circumstances, refer to section 800. See also paragraph .A11 of this section.

¹² Paragraph .A17 of section 510, *Opening Balances—Initial Audit Engagements, Including Recaudit Engagements*, and paragraph .A17 of section 705, *Modifications to the Opinion in the Independent Auditor's Report*.

Appendix—Examples of Specific Elements, Accounts, or Items of a Financial Statement (Ref: par. .A4)

The following are examples of specific elements, accounts, or items of a financial statement:

- Accounts receivable; allowance for doubtful accounts receivable; inventory; the liability for accrued benefits of a private benefit plan; the recorded value of identified intangible assets; or the liability for incurred but not reported claims in an insurance portfolio, including related notes
- A schedule of externally managed assets and income of a private benefit plan, including related notes
- A schedule of disbursements regarding a lease property, including related notes
- A schedule of profit participation or employee bonuses, including related notes

Illustration 3—An Auditor’s Report on a Specific Element, Account, or Item of a Financial Statement Prepared in Accordance With a General Purpose Framework

Illustration 4—An Auditor’s Report on a Specific Element, Account, or Item of a Financial Statement Prepared in Accordance With a Special Purpose Framework

Illustration 5—An Auditor’s Report on an Incomplete Presentation but One That Is Otherwise in Accordance With Generally Accepted Accounting Principles

Illustration 1—An Auditor’s Report on a Single Financial Statement Prepared in Accordance With a General Purpose Framework

Circumstances include the following:

- Audit of a balance sheet (that is, a single financial statement).
- The balance sheet has been prepared by management of the entity in accordance with accounting principles generally accepted in the United States of America.

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Financial Statement¹

We have audited the accompanying balance sheet of ABC Company as of December 31, 20X1, and the related notes (the financial statement).²

Management’s Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of this financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on the financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, in accordance with accounting principles generally accepted in the United States of America.

¹ The subtitle "Report on the Financial Statement" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

² The auditor may refer to the financial statement as the *balance sheet*.

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

Illustration 2—An Auditor’s Report on a Single Financial Statement Prepared in Accordance With a Special Purpose Framework

Circumstances include the following:

- Audit of a statement of cash receipts and disbursements (that is, a single financial statement).
- The financial statement has been prepared by management of the entity in accordance with the cash basis of accounting (a special purpose framework) to respond to a request for cash flow information received from a creditor.¹
- Management has a choice of financial reporting frameworks.²

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Financial Statement³

We have audited the accompanying statement of cash receipts and disbursements of ABC Company for the year ended December 31, 20X1, and the related notes (the financial statement).⁴

Management’s Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of this financial statement in accordance with the cash basis of accounting described in Note X; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statement in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on the financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also

¹ Section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*, contains requirements and guidance on the form and content of financial statements prepared in accordance with a special purpose framework.

² Paragraph .18a of section 800.

³ The subtitle "Report on the Financial Statement" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

⁴ The auditor may refer to the financial statement as the *statement of cash receipts and disbursements*.

includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statement referred to above presents fairly, in all material respects, the cash receipts and disbursements of ABC Company for the year ended December 31, 20X1, in accordance with the cash basis of accounting described in Note X.

Basis of Accounting⁵

We draw attention to Note X to the financial statement, which describes the basis of accounting. The financial statement is prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Illustration 3—An Auditor’s Report on a Specific Element, Account, or Item of a Financial Statement Prepared in Accordance With a General Purpose Framework

Circumstances include the following:

- Audit of a schedule of accounts receivable (that is, a specific element, account, or item of a financial statement).
- The schedule of accounts receivable has been prepared by management of the entity in accordance with accounting principles generally accepted in the United States of America.
- The audit of the schedule of accounts receivable was performed in conjunction with an engagement to audit the entity's complete set of financial statements. The opinion on those financial statements was not modified, and the report did not include an emphasis-of-matter paragraph or other-matter paragraph.

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Schedule¹

We have audited the accompanying schedule of accounts receivable of ABC Company as of December 31, 20X1, and the related notes (the schedule).²

Management’s Responsibility for the Schedule

Management is responsible for the preparation and fair presentation of this schedule in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedule that is free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on the schedule based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule.

¹ The subtitle "Report on the Schedule" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

² The auditor may refer to the schedule as the *schedule of accounts receivable*.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the schedule referred to above presents fairly, in all material respects, the accounts receivable of ABC Company as of December 31, 20X1, in accordance with accounting principles generally accepted in the United States of America.

Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of ABC Company as of and for the year ended December 31, 20X1, and our report thereon, dated March 15, 20X2, expressed an unmodified opinion on those financial statements.

Report on Other Legal and Regulatory Requirements

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

Illustration 4—An Auditor’s Report on a Specific Element, Account, or Item of a Financial Statement Prepared in Accordance With a Special Purpose Framework

Circumstances include the following:

- Audit of a schedule of royalties applicable to engine production (that is, a specific element, account, or item of a financial statement)
- The financial information has been prepared by management of the entity in accordance with a contractual basis of accounting (that is, a special purpose framework) to comply with the provisions of that contract.¹
- Based on the provisions of the contract, management does not have a choice of financial reporting frameworks.²
- The audit of the schedule was not performed in conjunction with an engagement to audit the entity’s complete set of financial statements.³

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Schedule⁴

We have audited the accompanying schedule of royalties applicable to engine production of the Q Division of ABC Company for the year ended December 31, 20X1, and the related notes (the schedule).⁵

Management’s Responsibility for the Schedule

Management is responsible for the preparation and fair presentation of the schedule in accordance with the financial reporting provisions of Section Z of the license agreement between ABC Company and XYZ Corporation dated January 1, 20X1 (the contract). Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedule that is free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on the schedule based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule is free from material misstatement.

¹ Section 800 contains requirements and guidance on the form and content of financial statements prepared in accordance with a special purpose framework.

² Paragraph .18a of section 800.

³ If the auditor undertakes an engagement to audit a specific element of a financial statement in conjunction with an engagement to audit the entity’s complete set of financial statements, paragraph .16 requires the auditor to indicate in the report on the specific element of a financial statement the date of the auditor’s report on the complete set of financial statements and the nature of opinion expressed on those financial statements under an appropriate heading.

⁴ The subtitle “Report on the Schedule” is unnecessary in circumstances when the second subtitle, “Report on Other Legal and Regulatory Requirements,” is not applicable.

⁵ The auditor may refer to the schedule as the *schedule of royalties*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the schedule referred to above, presents fairly, in all material respects, the royalties applicable to engine production of the Q Division of ABC Company for the year ended December 31, 20X1, in accordance with the financial reporting provisions of Section Z of the contract.

Basis of Accounting⁶

We draw attention to Note X to the schedule, which describes the basis of accounting. The schedule was prepared by ABC Company on the basis of the financial reporting provisions of Section Z of the contract, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the financial reporting provisions of the contract referred to above. Our opinion is not modified with respect to this matter.

Restriction on Use⁷

Our report is intended solely for the information and use of ABC Company and XYZ Corporation and is not intended to be and should not be used by anyone other than these specified parties.

⁷ Another appropriate heading may be used.

Illustration 5—An Auditor’s Report on an Incomplete Presentation but One That Is Otherwise in Accordance With Generally Accepted Accounting Principles

Circumstances include the following:

- Audit of the historical summaries of gross income and direct operating expenses (that is, a single financial statement).
- The historical summaries have been prepared by management of the entity in accordance with accounting principles generally accepted in the United States of America but are an incomplete presentation of revenues and expenses.

Independent Auditor’s Report

[Appropriate Addressee]

Report on the Historical Summaries¹

We have audited the accompanying Historical Summaries of Gross Income and Direct Operating Expenses of ABC Apartments for each of the three years in the period ended December 31, 20X1, and the related notes (the historical summaries).²

Management’s Responsibility for the Historical Summaries

Management is responsible for the preparation and fair presentation of these historical summaries in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the historical summaries that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on the historical summaries based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the historical summaries are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the historical summaries. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the historical summaries, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the historical summaries in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the historical summaries.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

¹ The subtitle "Report on the Historical Summaries" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

² The auditor may refer to the historical summaries as the *financial statement*.

Opinion

In our opinion, the historical summaries referred to above present fairly, in all material respects, the gross income and direct operating expenses described in Note X of ABC Apartments for each of the three years in the period ended December 31, 20X1, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

We draw attention to Note X to the historical summaries, which describes that the accompanying historical summaries were prepared for the purpose of complying with the rules and regulations of Regulator DEF (for inclusion in the filing of Form Z of ABC Company) and are not intended to be a complete presentation of the Company's revenues and expenses. Our opinion is not modified with respect to this matter.

Report on Other Legal and Regulatory Requirements

AU-C Section 9805

Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement: Auditing Interpretations of Section 805

New GASB Pension Standards

In June 2012, the Governmental Accounting Standards Board (GASB) issued two new standards that will substantially change the accounting and financial reporting of public employee pension plans and the state and local governments that participate in such plans. GASB Statement No. 67, *Financial Reporting for Pension Plans*, revises existing guidance for the financial reports of most governmental pension plans. GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, revises and establishes new financial reporting requirements for most governments that provide their employees with pension benefits. GASB Statement No. 67 is effective for financial statements for periods beginning after June 15, 2013. GASB Statement No. 68 is effective for financial statements for fiscal years beginning after June 15, 2014.

Interpretation No. 1, "Auditor of Governmental Cost-Sharing Multiple-Employer Pension Plan" (paragraphs .01–.07), Interpretation No. 2, "Auditor of Governmental Agent Multiple-Employer Pension Plan" (paragraphs .08–.12), and Interpretation Nos. 2–3 of section 500, *Audit Evidence*, are intended to assist both plan and employer auditors who are auditing entities that have implemented the new accounting standards.

1. Auditor of Governmental Cost-Sharing Multiple-Employer Pension Plan

.01 Question—Management of a governmental cost-sharing multiple-employer pension plan (cost-sharing plan or plan) has calculated and prepared a schedule of employer allocations and a schedule of pension amounts, as described in the AICPA's State and Local Governments Expert Panel white paper *Governmental Employer Participation in Cost-Sharing Multiple-Employer Plans: Issues Related to Information for Employer Reporting*. If the plan auditor is engaged to perform an audit on schedules such as those illustrated in exhibit 1, "Schedule of Employer Allocations," and either exhibit 2(a), "Schedule of Pension Amounts by Employer," or exhibit 2(b), "Schedule of Collective Pension Amounts," of this interpretation, what type of audit report may be issued?

.02 Interpretation—Because the amounts contained in the previously mentioned schedules are considered elements or items of the cost-sharing plan or

participating employer's financial statements, the elements included in these schedules may be audited under section 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*. An illustrative auditor's report on the schedule of employer allocations and schedule of pension amounts by employer prepared pursuant to section 805 follows.

Independent Auditor's Report

[Appropriate Addressee]

We have audited the accompanying schedule of employer allocations of ABC Pension Plan as of and for the year ended June 30, 20X5, and the related notes. We have also audited the total for all entities of the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense (specified column totals) included in the accompanying schedule of pension amounts by employer of ABC Pension Plan as of and for the year ended June 30, 20X5, and the related notes.¹

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility²

Our responsibility is to express opinions on the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer, whether due to fraud or error. In making those risk assessments,

¹ If the plan prepares a schedule of collective pension amounts as illustrated in exhibit 2(b), "Schedule of Collective Pension Amounts," of this interpretation instead of the schedule of pension amounts by employer as illustrated in exhibit 2(a), "Schedule of Pension Amounts by Employer," of this interpretation, this paragraph would be changed as follows:

We have audited the accompanying schedule of employer allocations of ABC Pension Plan as of and for the year ended June 30, 20X5, and the related notes. We have also audited the columns titled net pension liability, total deferred outflows of resources excluding employer specific amounts, total deferred inflows of resources excluding employer specific amounts, and pension expense (specified column totals) included in the accompanying schedule of collective pension amounts of ABC Pension Plan as of and for the year ended June 30, 20X5, and the related notes.

² If the plan prepares a schedule of collective pension amounts as illustrated in exhibit 2(b) of this interpretation, instead of the schedule of pension amounts by employer as illustrated in exhibit 2(a) of this interpretation, all references to "specified column totals included in the schedule of pension amounts by employer" in this section would be replaced with "specified column totals included in the schedule of collective pension amounts."

the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions³

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense for the total of all participating entities for ABC Pension Plan as of and for the year ended June 30, 20X5, in accordance with accounting principles generally accepted in the United States of America.

Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of ABC Pension Plan as of and for the year ended June 30, 20X5, and our report thereon, dated October 15, 20X5, expressed an unmodified opinion on those financial statements.

Restriction on Use

Our report is intended solely for the information and use of ABC Plan management, *[identify the body or individuals charged with governance of ABC Plan]*, ABC Plan employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

.03 Question—In planning and performing an audit of the schedules illustrated in exhibits 1 and 2(a) or exhibit 2(b) of this interpretation, may the plan auditor use the same materiality as used for the audit of the plan's basic financial statements?

.04 Interpretation—No. Section 805 states, in part:⁴

In the case of an audit of one or more specific elements of a financial statement, the auditor should determine materiality for each individual element reported on rather than the aggregate of all elements or the complete set of financial statements.

³ If the plan prepares a schedule of collective pension amounts as illustrated in exhibit 2(b) of this interpretation instead of a schedule of pension amounts by employer as illustrated in exhibit 2(a) of this interpretation, this paragraph would be changed as follows:

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources excluding employer specific amounts, total deferred inflows of resources excluding employer specific amounts, and pension expense for ABC Pension Plan as of and for the year ended June 30, 20X5, in accordance with accounting principles generally accepted in the United States of America.

⁴ Paragraph .14 of section 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*.

Accordingly, the plan auditor should determine materiality separately for the schedule of employer allocations as well as each of the elements upon which the auditor opines from the schedule of pension amounts (that is, the column totals for net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense).

[Issue Date: April 2014.]

2. Auditor of Governmental Agent Multiple-Employer Pension Plan

.08 Question—Management of a governmental agent multiple-employer pension plan (agent plan or plan) has calculated and prepared a schedule of changes in fiduciary net position by employer, as described in the AICPA's State and Local Governments Expert Panel white paper *Governmental Employer Participation in Agent Multiple-Employer Plans: Issues Related to Information for Employer Reporting*. If the plan auditor is engaged to perform an audit on a schedule such as that illustrated in exhibit 3, "Schedule of Changes in Fiduciary Net Position by Employer," of this interpretation, what type of audit report may be issued?

.09 Interpretation—Because the amounts contained in the previously mentioned schedule are considered elements or items of the agent plan or participating employer's financial statements, the elements included in this schedule may be audited under section 805. An illustrative auditor's report on the schedule of changes in fiduciary net position by employer as a whole prepared pursuant to section 805 follows.

Independent Auditor's Report

[Appropriate Addressee]

We have audited the fiduciary net position as of June 30, 20X5, and the changes in fiduciary net position for the year then ended, included in the accompanying Schedule of Changes in Fiduciary Net Position by Employer ("Schedule") of ABC Pension Plan, and the related notes.⁵

Management's Responsibility for the Schedule

Management is responsible for the preparation and fair presentation of the Schedule in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedule that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the fiduciary net position and the changes in fiduciary net position included in the Schedule based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the fiduciary net position and the changes in fiduciary net position included in the Schedule are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Schedule. The procedures selected depend on

⁵ If the plan engages its auditor to opine on each employer column in the schedule of changes in fiduciary net position by employer as illustrated in exhibit 3, "Schedule of Changes in Fiduciary Net Position by Employer," of this interpretation, in addition to opining on the schedule as a whole, this paragraph would be changed as follows:

We have audited the fiduciary net position as of June 30, 20X5, and the changes in fiduciary net position for the year then ended, included in the accompanying Schedule of Changes in Fiduciary Net Position by Employer (Schedule) of ABC Pension Plan, and the related notes. We have also audited the fiduciary net position of each individual employer as of June 30, 20X5, and the changes in fiduciary net position of each individual employer for the year then ended, included in the accompanying Schedule, and the related notes.

the auditor's judgment, including the assessment of the risks of material misstatement of the fiduciary net position and the changes in fiduciary net position included in the Schedule, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the fiduciary net position and the changes in fiduciary net position included in the Schedule in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the fiduciary net position and the changes in fiduciary net position included in the Schedule.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion⁶

In our opinion, the Schedule referred to above presents fairly, in all material respects, the fiduciary net position of ABC Pension Plan as of June 30, 20X5, and the changes in fiduciary net position for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of ABC Pension Plan as of and for the year ended June 30, 20X5, and our report thereon, dated October 15, 20X5, expressed an unmodified opinion on those financial statements.

Our audit of the financial statements of ABC Pension Plan was conducted for the purpose of forming an opinion on the financial statements as a whole. The individual employer information presented in each of the individual columns of the accompanying Schedule is presented for purposes of additional analysis and is not a required part of the financial statements. The individual employer information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Each column of individual employer information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual employer information presented in each individual column of the accompanying Schedule is stated fairly, in all material respects, in relation to the financial statements of ABC Pension Plan as a

⁶ If the plan engages its auditor to opine on each employer column in the schedule of changes in fiduciary net position by employer as illustrated in exhibit 3 of this interpretation, in addition to opining on the schedule as a whole, this paragraph would be changed as follows:

In our opinion, the Schedule referred to above presents fairly, in all material respects, the fiduciary net position of ABC Pension Plan as of June 30, 20X5, and the changes in fiduciary net position for the year then ended, in accordance with accounting principles generally accepted in the United States of America. Also, in our opinion, the Schedule referred to above presents fairly, in all material respects, the fiduciary net position of each individual employer as of June 30, 20X5 and the changes in fiduciary net position of each individual employer for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Additionally, the second paragraph of the "Other Matters" section would be eliminated, and the heading would be singular (that is, "Other Matter").

whole. We do not express an opinion on the fiduciary net position or changes in fiduciary net position of each individual employer.⁷

Restriction on Use

Our report is intended solely for the information and use of ABC Pension Plan management, [*identify the body or individuals charged with governance of ABC Pension Plan*], ABC Pension Plan participating employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

[*Auditor's signature*]

[*Auditor's city and state*]

[*Date of the auditor's report*]

.10 Question—In planning and performing an audit of the schedule illustrated in exhibit 3 of this interpretation, may the plan auditor use the same materiality as used for the audit of the plan's basic financial statements?

.11 Interpretation—No. Section 805 states, in part:⁸

In the case of an audit of one or more specific elements of a financial statement, the auditor should determine materiality for each individual element reported on rather than the aggregate of all elements or the complete set of financial statements.

As a frame of reference, the plan auditor considers judgments about matters that are material to users of the financial statements based on a consideration of the common financial information needs of users as a group. In the report described in paragraph .09 of this interpretation, the auditor is opining on two elements: fiduciary net position and the changes in fiduciary net position. Accordingly, the plan auditor should determine materiality separately for the two elements (that is, fiduciary net position and the changes in fiduciary net position). If the plan auditor has been engaged to opine on each employer column in the schedule, the auditor should determine materiality separately for each employer column.

⁷ In accordance with section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*, if the auditor's report on the audited financial statements contains an opinion other than unmodified, the auditor should refer to the guidance in section 725.

⁸ Paragraph .14 of section 805.

AU-C Section 806

Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements

Source: SAS No. 122; SAS No. 125.

Effective for reports on compliance issued in connection with audits of financial statements for periods ending on or after December 15, 2012.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibility when the auditor is requested to report on an entity's compliance with aspects of contractual agreements or regulatory requirements, insofar as they relate to accounting matters, in connection with an audit of financial statements (referred to hereinafter as a report on compliance). Such a report is commonly referred to as a by-product report. (Ref: par. .A1–.A2)

.02 Entities may be required by contractual agreements, such as certain bond indentures and loan agreements, or regulatory agencies to provide an auditor's report on compliance. For example, loan agreements may impose a variety of obligations on borrowers involving matters such as payments into sinking funds, payments of interest, maintenance of current ratios, and restrictions of dividend payments. Loan agreements may also require the borrower to provide annual financial statements that have been audited. In some instances, the lenders or their trustees may request the auditor to report that the borrower has complied with certain covenants of the agreement relating to accounting matters. The auditor may satisfy this request by issuing a report on compliance in accordance with the requirements of this section.

.03 As described in paragraph .01, this section addresses reporting on an entity's compliance with aspects of contractual agreements or regulatory requirements in connection with an audit of financial statements. When the auditor is engaged or required by law or regulation to perform a compliance audit in accordance with generally accepted auditing standards (GAAS), the standards for financial audits under *Government Auditing Standards*, and a governmental audit requirement that requires the auditor to express an opinion on compliance with applicable compliance requirements, section 935, *Compliance Audits*, applies.

.04 When the auditor is engaged to perform a separate attest engagement on (a) an entity's compliance with requirements of specific laws, regulations, rules, contracts, or grants or (b) the effectiveness of an entity's internal control

over compliance with specified requirements, AT section 601, *Compliance Attestation*, applies.

Effective Date

.05 This section is effective for reports on compliance issued in connection with audits of financial statements for periods ending on or after December 15, 2012.

Objective

.06 The objective of the auditor is to report appropriately on an entity's compliance with aspects of contractual agreements or regulatory requirements, in connection with the audit of financial statements, when the auditor is requested to report on such matters.

Requirements

Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements

.07 The auditor's report on compliance should include a statement that nothing came to the auditor's attention that caused the auditor to believe that the entity failed to comply with specified aspects of the contractual agreements or regulatory requirements, insofar as they relate to accounting matters, only when

- a. the auditor has not identified any instances of noncompliance,
- b. the auditor has expressed an unmodified or qualified opinion on the financial statements to which the applicable covenants of such contractual agreements or regulatory requirements relate, and
- c. the applicable covenants or regulatory requirements relate to accounting matters that have been subjected to the audit procedures applied in the audit of financial statements.

.08 When the auditor has identified one or more instances of noncompliance, the report on compliance should describe such noncompliance (see paragraphs .12*f* and .13*b*).

.09 When the auditor has expressed an adverse opinion or disclaimed an opinion on the financial statements, the auditor should issue a report on compliance only when instances of noncompliance are identified. Therefore, the requirement in paragraph .08 also applies in such circumstances. The auditor should modify the wording of the report on compliance, as appropriate to the circumstances. (Ref: par. .A3)

.10 Notwithstanding the requirements in paragraphs .07–.09, the auditor is not precluded from issuing a report on compliance if such report is required by another set of auditing standards (for example, *Government Auditing Standards*), and the auditor has been engaged to audit the financial statements in accordance with both GAAS and those other standards.

.11 The report on compliance should be in writing and should be provided either in a separate report (see paragraph .12) or in one or more paragraphs included in the auditor's report on the financial statements (see paragraph .13).

Separate Report on Compliance With Aspects of Contractual Agreements or Regulatory Requirements

.12 When the auditor reports on compliance in a separate report, the report should include the following:

- a. A title that includes the word *independent* to clearly indicate that it is the report of an independent auditor.
- b. An appropriate addressee.
- c. A paragraph that states that the financial statements were audited in accordance with generally accepted auditing standards and an identification of the United States of America as the country of origin of those standards (for example, auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards) and the date of the auditor's report on those financial statements.
- d. If the auditor expressed a modified opinion¹ on the financial statements, a statement describing the nature of the modification. (Ref: par. .A4)
- e. When no instances of noncompliance are identified by the auditor, a reference to the specific covenants or paragraphs of the contractual agreement or regulatory requirement and a statement that nothing came to the auditor's attention that caused the auditor to believe that the entity failed to comply with specified aspects of the contractual agreements or regulatory requirements, insofar as they relate to accounting matters (see paragraphs .07 and .10).
- f. When instances of noncompliance are identified by the auditor, a reference to the specific covenants or paragraphs of the contractual agreement or regulatory requirement, insofar as they relate to accounting matters, and a description of the identified instances of noncompliance. (Ref: par. .A5)
- g. A statement that the report is being provided in connection with the audit of the financial statements.
- h. A statement that the audit was not directed primarily toward obtaining knowledge regarding compliance, and accordingly, had the auditor performed additional procedures, other matters may have come to the auditor's attention regarding noncompliance with the specific covenants or paragraphs of the contractual agreement or regulatory requirement, insofar as they relate to accounting matters.
- i. A paragraph that includes a description and the source of significant interpretations, if any, made by the entity's management relating to the provisions of the relevant contractual agreement or regulatory requirement.
- j. A paragraph that includes an appropriate alert in accordance with the section 905, *Alert That Restricts the Use of the Auditor's Written Communication*.² (Ref: par. .A6–.A7)
- k. The manual or printed signature of the auditor's firm and the city and state where the auditor practices.

¹ See section 705, *Modifications to the Opinion in the Independent Auditor's Report*.

² Paragraphs .06c, .07, and .11 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. [Footnote amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

- l. The date of the report, which should be the same date as the auditor's report on the financial statements.³

[As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

Report on Compliance With Aspects of Contractual Agreements or Regulatory Requirements Included in the Auditor's Report

.13 When a report on compliance is included in the auditor's report on the financial statements, the auditor's report should include an other-matter paragraph⁴ that includes a reference to the specific covenants or paragraphs of the contractual agreement or regulatory requirement, insofar as they relate to accounting matters, and also should include the following:

- a. When no instances of noncompliance are identified by the auditor, a statement that nothing came to the auditor's attention that caused the auditor to believe that the entity failed to comply with specified aspects of the contractual agreements or regulatory requirements, insofar as they relate to accounting matters (see paragraphs .07 and .10).
- b. When instances of noncompliance are identified by the auditor, a description of the identified instances of noncompliance. (Ref: par. .A5)
- c. A statement that the communication is being provided in connection with the audit of the financial statements.
- d. A statement that the audit was not directed primarily toward obtaining knowledge regarding compliance, and accordingly, had the auditor performed additional procedures, other matters may have come to the auditor's attention regarding noncompliance with the specific covenants or paragraphs of the contractual agreement or regulatory requirement, insofar as they relate to accounting matters.
- e. A paragraph that includes a description and the source of significant interpretations, if any, made by the entity's management relating to the provisions of the relevant contractual agreement or regulatory requirement.
- f. A paragraph that includes an appropriate alert in accordance with section 905.⁵ (Ref: par. .A6–.A7)

[As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01)

.A1 The financial statements being audited and to which the applicable covenants of the contractual agreements or regulatory requirements relate may be either general purpose or special purpose financial statements.

³ Paragraph .41 of section 700, *Forming an Opinion and Reporting on Financial Statements*.

⁴ See section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*, for guidance on other-matter paragraphs.

⁵ See footnote 2.

Considerations Specific to Governmental Entities

.A2 For most state or local governmental entities, the applicable financial reporting framework is based on multiple reporting units and, therefore, requires the presentation of financial statements for its activities in various reporting units. Consequently, a reporting unit or aggregation of reporting units of the governmental entity represents an opinion unit to the auditor. In the context of this section, the auditor is responsible for reporting on compliance for each opinion unit within a governmental entity, when requested.

Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements (Ref: par. .09)

.A3 The exhibit, "Illustrations of Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements," provides an example of the wording of the report on compliance when the auditor has disclaimed an opinion on the financial statements.⁶

Separate Report on Compliance With Aspects of Contractual Agreements or Regulatory Requirements (Ref: par. .12d)

.A4 The auditor may include certain additional communications in the separate report on compliance when the auditor included such additional communications in the auditor's report on the financial statements⁷ that are not modifications to the auditor's opinion. For example, if the auditor included an emphasis-of-matter paragraph in the auditor's report on the financial statements because of an uncertainty about the entity's ability to continue as a going concern for a reasonable period of time,⁸ the auditor may also include this in the separate report on compliance.

Reporting When Instances of Noncompliance Are Identified (Ref: par. .12f and .13b)

.A5 When instances of noncompliance are identified, and the entity has obtained a waiver for such noncompliance, the auditor may include a statement in the report on compliance that a waiver has been obtained. The determination of whether to include such a statement is based on the procedures performed by the auditor to evaluate the waiver for the purposes of obtaining sufficient appropriate audit evidence in connection with the audit of the financial statements. All instances of noncompliance are required to be described in the report on compliance, in accordance with paragraph .08, including those for which a waiver has been obtained.

Restrictions on the Use of the Auditor's Report⁹ (Ref: par. .12j and .13f)

.A6 An alert, as discussed in paragraphs .12j and .13f, is necessary because, although compliance matters may be identified by the auditor during the

⁶ Illustration 4, "A Report on Compliance With Aspects of Contractual Agreements Provided in a Separate Report When Instances of Noncompliance Are Identified, and the Auditor Has Disclaimed an Opinion on the Financial Statements," in the exhibit, "Illustrations of Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements."

⁷ See section 706.

⁸ See section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*. [Footnote revised, August 2012, to reflect conforming changes necessary due to the issuance of SAS No. 126.]

⁹ See footnote 2.

course of the audit engagement, the identification of such matters is not the primary objective of the audit engagement. In addition, the basis, assumptions, or purpose of the provisions in contractual agreements or regulatory requirements to which the report on compliance relates are developed for, and directed only to, the parties to the contractual agreement or the regulatory agency responsible for the requirements. [As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

.A7 The alert that restricts the use of the report indicates that only the report on compliance with aspects of contractual agreements or regulatory requirements is restricted. Accordingly, the intended use of the auditor's report on the financial statements is not affected by this alert. [As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

Independent Auditor's Report

[Appropriate Addressee]

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X2, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated February 16, 20X3.

In connection with our audit, nothing came to our attention that caused us to believe that XYZ Company failed to comply with the terms, covenants, provisions, or conditions of sections XX to YY, inclusive, of the Indenture dated July 21, 20X0, with ABC Bank, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Company's noncompliance with the above-referenced terms, covenants, provisions, or conditions of the Indenture, insofar as they relate to accounting matters.

This report is intended solely for the information and use of the board of directors and management of XYZ Company and ABC Bank and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditor's Report

[Appropriate Addressee]

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X2, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated March 5, 20X3.

In connection with our audit, we noted that XYZ Company failed to comply with the "Working Capital" provision of section XX of the Loan Agreement dated March 1, 20X2, with ABC Bank. Our audit was not directed primarily toward obtaining knowledge as to whether XYZ Company failed to comply with the terms, covenants, provisions, or conditions of sections XX to YY, inclusive, of the Loan Agreement, insofar as they relate to accounting matters. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding noncompliance with the above-referenced terms, covenants, provisions, or conditions of the Loan Agreement, insofar as they relate to accounting matters.

This report is intended solely for the information and use of the board of directors and management of XYZ Company and ABC Bank and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditor's Report

[Appropriate Addressee]

We were engaged to audit, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X2, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated March 5, 20X3. Our report disclaims an opinion on such financial statements because of *[describe the scope limitation or matter causing the disclaimer]*.

In connection with our engagement, we noted that XYZ Company failed to comply with the "Working Capital" provision of section XX of the Loan Agreement dated March 1, 20X2, with ABC Bank. Our engagement was not directed primarily toward obtaining knowledge as to whether XYZ Company failed to comply with the terms, covenants, provisions, or conditions of sections XX to YY, inclusive, of the Loan Agreement, insofar as they relate to accounting matters. Accordingly, had we been able to complete the audit, other matters may have come to our attention regarding noncompliance with the above-referenced terms, covenants, provisions, or conditions of the Loan Agreement, insofar as they relate to accounting matters.

This report is intended solely for the information and use of the board of directors and management of XYZ Company and ABC Bank and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Financial Statements¹

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.² Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

¹ The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle "Report on Other Legal and Regulatory Requirements" is not applicable. [Footnote added, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

² In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence "Accordingly, we express no such opinion," would not be included. [Footnote added, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

In connection with our audit, nothing came to our attention that caused us to believe that ABC Company failed to comply with the terms, covenants, provisions, or conditions of sections XX to YY, inclusive, of the Indenture dated July 21, 20X0 with XYZ Bank, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Company's noncompliance with the above-referenced terms, covenants, provisions, or conditions of the Indenture, insofar as they relate to accounting matters.

Restricted Use Relating to the Other Matter

The communication related to compliance with the aforementioned Indenture described in the Other Matter paragraph is intended solely for the information and use of the boards of directors and management of ABC Company and XYZ Bank and is not intended to be and should not be used by anyone other than these specified parties.³

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

³ When the engagement is also performed in accordance with *Government Auditing Standards*, the alert may read as follows: "The purpose of the communication related to compliance with the aforementioned [compliance requirements] described in the Other Matter paragraph [or, Report on Compliance] is solely to describe the scope of our testing of compliance and the results of that testing. This communication is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering ABC Company's compliance. Accordingly, this communication is not suitable for any other purpose." The AICPA Audit Guide *Government Auditing Standards and Circular A-133 Audits* provides additional interpretative guidance, including illustrative reports. [Footnote added, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

AU-C Section 810

Engagements to Report on Summary Financial Statements

Source: SAS No. 122.

Effective for audits of financial statements for periods ending on or after December 15, 2012.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibilities relating to an engagement to report separately on summary financial statements derived from financial statements audited in accordance with generally accepted auditing standards (GAAS) by the same auditor. In such an engagement, the auditor forms an opinion about whether the summary financial statements are consistent, in all material respects, with the audited financial statements from which they have been derived, in accordance with the applied criteria.

.02 This section does not apply to condensed financial statements or summarized financial information presented as comparative information.¹ Section 700, *Forming an Opinion and Reporting on Financial Statements*, addresses the auditor's responsibility for comparative information.² (Ref: par. .A1)

.03 Summary financial statements may be required by a designated accounting standards setter (for example, the Governmental Accounting Standards Board) to accompany the basic financial statements. This section does not apply in such circumstances. Section 730, *Required Supplementary Information*, addresses the auditor's responsibilities relating to information supplementary to the basic financial statements that is required by a designated accounting standards setter to accompany such financial statements.

Effective Date

.04 This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

Objectives

.05 The objectives of the auditor are

- a. to determine whether it is appropriate to accept the engagement to report on summary financial statements and,

¹ Paragraph .11 of section 700, *Forming an Opinion and Reporting on Financial Statements*, defines the terms *condensed financial statements* and *comparative information*.

² Paragraphs .44–.51 of section 700.

- b. if engaged to report on summary financial statements, to
 - i. perform the procedures necessary as the basis for the auditor's opinion on the summary financial statements;
 - ii. form an opinion on whether the summary financial statements are consistent, in all material respects, with the audited financial statements from which they have been derived, in accordance with the applied criteria, based on an evaluation of the conclusions drawn from the evidence obtained; and
 - iii. express clearly that opinion through a written report that also describes the basis for that opinion.

Definitions

.06 For purposes of this section, the following terms have the meanings attributed as follows:

Applied criteria. The criteria applied by management in the preparation of the summary financial statements.

Summary financial statements. Historical financial information³ that is derived from financial statements but that contains less detail than the financial statements, while still providing a structured representation consistent with that provided by the financial statements of the entity's economic resources or obligations at a point in time or the changes therein for a period of time. Summary financial statements are separately presented and are not presented as comparative information.

.07 In this section, the term *audited financial statements* refers to those financial statements⁴ audited by the auditor in accordance with GAAS and from which the summary financial statements are derived.

Requirements

Engagement Acceptance

.08 The auditor should not accept an engagement to report on summary financial statements in accordance with this section unless the auditor has been engaged to conduct an audit in accordance with GAAS of the financial statements from which the summary financial statements are derived. (Ref: par. .A2)

.09 Before accepting an engagement to report on summary financial statements, the auditor should

- a. determine whether the applied criteria are acceptable, including determining that the applied criteria (Ref: par. .A3–.A5)
 - i. are free from bias so that the summary financial statements are not misleading.

³ Paragraph .14 of section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*, defines the term *historical financial information*.

⁴ Paragraph .14 of section 200 defines the term *financial statements*.

- ii. permit reasonably consistent qualitative or quantitative measurements so that the information in the summary financial statements agrees with or can be recalculated from the related information in the audited financial statements.
 - iii. are sufficiently complete so that the summary financial statements contain the information necessary and are at an appropriate level of aggregation, so that they are not misleading in the circumstances.
 - iv. are relevant to the summary financial statements in view of their purpose.
- b. obtain the agreement of management, in writing, that it acknowledges and understands its responsibility
 - i. for the preparation of the summary financial statements in accordance with the applied criteria.
 - ii. to clearly describe in the summary financial statements where the audited financial statements are available and to make the audited financial statements readily available to the intended users of the summary financial statements when the summary financial statements will not be accompanied by the audited financial statements. (Ref: par. .A6–.A7)
 - iii. to provide the auditor with written representations, as described in paragraph .12.
 - iv. to include the auditor's report on the summary financial statements in any document that contains the summary financial statements and indicates the auditor has reported on them.
- c. obtain the agreement of management, in writing, about the expected form and content of the report on the summary financial statements, including the agreement that there may be circumstances in which the report may differ from its expected form and content. (Ref: par. .A8)

.10 If the auditor concludes that the applied criteria are unacceptable or is unable to obtain the agreement of management set out in paragraph .09b–c, the auditor should not accept the engagement to report on the summary financial statements.

Nature of Procedures

.11 The auditor should perform the following procedures, and any other procedures that the auditor may consider necessary, as the basis for the auditor's opinion on the summary financial statements:

- a. Evaluate whether the summary financial statements adequately disclose their summarized nature and identify the audited financial statements. (Ref: par. .A9)
- b. When the summary financial statements are not accompanied by the audited financial statements, evaluate
 - i. whether the summary financial statements clearly describe where the audited financial statements are available and

- ii. whether the audited financial statements are readily available to the intended users of the summary financial statements. (Ref: par. .A7)
- c. Evaluate whether the summary financial statements adequately disclose the applied criteria.
- d. Compare the summary financial statements with the related information in the audited financial statements to determine whether the summary financial statements agree with or can be recalculated from the related information in the audited financial statements.
- e. Evaluate whether the summary financial statements are prepared in accordance with the applied criteria.
- f. Evaluate, in view of the purpose of the summary financial statements, whether the summary financial statements contain the information necessary, and are at an appropriate level of aggregation, so that they are not misleading in the circumstances.

Written Representations

.12 The auditor should request management to provide written representations, in the form of a representation letter addressed to the auditor, for the following matters:

- a. Management has fulfilled its responsibility for the preparation of the summary financial statements in accordance with the applied criteria and believes the applied criteria are acceptable
- b. Management has made the audited financial statements readily available to the intended users of the summary financial statements, when the summary financial statements will not be accompanied by the audited financial statements
- c. If the date of the auditor's report on the summary financial statements is later than the date of the auditor's report on the audited financial statements,
 - i. whether any information has come to management's attention that would cause management to believe that any of the previous representations on the audited financial statements need to be modified
 - ii. whether any events have occurred subsequent to the date of the audited financial statements that may require adjustment of, or disclosure in, the audited financial statements

.13 The date of the written representations should be as of the date of the auditor's report on the summary financial statements. The written representations should be for all summary financial statements and period(s) referred to in the auditor's report on the summary financial statements.

Form of Opinion (Ref: par. .A10–.A11)

.14 When the auditor has concluded that an unmodified opinion on the summary financial statements is appropriate, the auditor's opinion should state that the summary financial statements are consistent, in all material respects, with the audited financial statements from which they have been derived, in accordance with the applied criteria.

.15 If the summary financial statements are not consistent, in all material respects, with the audited financial statements, in accordance with the applied criteria, and management does not agree to make the necessary changes, the auditor should express an adverse opinion on the summary financial statements. The auditor should state in the opinion paragraph that, in the auditor's opinion, because of the significance of the matter(s) described in the basis for adverse opinion paragraph, the summary financial statements are not consistent, in all material respects, with the audited financial statements from which they have been derived, in accordance with the applied criteria.

.16 When the auditor's report on the audited financial statements contains an adverse opinion or a disclaimer of opinion, the auditor should withdraw from the engagement to report on the summary financial statements, when withdrawal is possible under applicable law or regulation. If it is not possible for the auditor to withdraw from the engagement, the auditor's report on the summary financial statements should

- a. state that the auditor's report on the audited financial statements contains an adverse opinion or disclaimer of opinion.
- b. describe the basis for that adverse opinion or disclaimer of opinion.
- c. state that, as a result of the adverse opinion or disclaimer of opinion, it is inappropriate to express, and the auditor does not express, an opinion on the summary financial statements.
- d. include the reporting elements in paragraph .17, except for paragraph .17c(iv–v) and e–f.

Auditor's Report on Summary Financial Statements

Elements of the Auditor's Report (Ref: par. .A12)

.17 The auditor's report on summary financial statements should include the following elements:

- a. Title that includes the word *independent* to clearly indicate that it is the report of an independent auditor (Ref: par. .A13)
- b. Addressee
- c. Introductory paragraph that
 - i. identifies the summary financial statements on which the auditor is reporting, including the title of each statement included in the summary financial statements (Ref: par. .A14)
 - ii. identifies the audited financial statements from which the summary financial statements have been derived
 - iii. refers to the auditor's report on the audited financial statements, the date of that report, and, subject to paragraphs .15–.16, the fact that an unmodified opinion is expressed on the audited financial statements
 - iv. if the date of the auditor's report on the summary financial statements is later than the date of the auditor's report on the audited financial statements, states that the summary financial statements and the audited financial statements do not reflect the effects of events, if any, that occurred subsequent to the date of the auditor's report on the audited financial statements (see paragraph .19) (Ref: par. .A15)

- v. indicates that the summary financial statements do not contain all the disclosures required by the [financial reporting framework applied in the preparation of the financial statements] and that reading the summary financial statements is not a substitute for reading the audited financial statements
- d. Description of management's responsibility for the summary financial statements, explaining that management is responsible for the preparation of the summary financial statements in accordance with the applied criteria
- e. Statement that the auditor is responsible for expressing an opinion about whether the summary financial statements are consistent, in all material respects, with the audited financial statements based on the procedures required by GAAS and an identification of the United States of America as the country of origin of those standards, including the following:
 - i. The procedures consisted principally of comparing the summary financial statements with the related information in the audited financial statements from which the summary financial statements have been derived and evaluating whether the summary financial statements are prepared in accordance with the applied criteria
 - ii. If the date of the auditor's report on the summary financial statements is later than the date of the auditor's report on the audited financial statements, the auditor did not perform any audit procedures regarding the audited financial statements after the date of the report on those financial statements.
- f. A paragraph that clearly expresses an opinion, as described in paragraphs .14–.15
- g. Auditor's signature
- h. Auditor's city and state
- i. Date of the auditor's report

.18 The auditor should date the auditor's report on the summary financial statements no earlier than

- a. the date on which the auditor has obtained sufficient appropriate evidence on which to base the opinion, including evidence that the summary financial statements have been prepared and that management and, when appropriate, those charged with governance, have asserted that they have taken responsibility for them; and
- b. the date of the auditor's report on the audited financial statements.

.19 When the auditor's report on the summary financial statements is dated later than the date of the auditor's report on the audited financial statements, the auditor may become aware of *subsequently discovered facts* as defined in section 560, *Subsequent Events and Subsequently Discovered Facts*. In such cases, the auditor should not release the auditor's report on the summary financial statements until the auditor's consideration of subsequently discovered facts in relation to the audited financial statements, in accordance with section 560, has been completed.

Modifications to the Opinion, Emphasis-of-Matter Paragraph, or Other-Matter Paragraph in the Auditor's Report on the Audited Financial Statements (Ref: par. .A16)

.20 If the auditor's report on the audited financial statements contains a qualified opinion, an emphasis-of-matter paragraph, or an other-matter paragraph, and the auditor expresses an unmodified opinion (see paragraph .14) or an adverse opinion (see paragraph .15) on the summary financial statements, in addition to the elements in paragraph .17, the auditor's report on the summary financial statements should

- a. state that the auditor's report on the audited financial statements contains a qualified opinion, an emphasis-of-matter paragraph, or an other-matter paragraph and
- b. describe
 - i. the basis for the qualified opinion on the audited financial statements and that qualified opinion; or the emphasis-of-matter or other-matter paragraph in the auditor's report on the audited financial statements and
 - ii. the effect on the summary financial statements, if any.

Restriction on Use or Alerting Readers to the Basis of Accounting

.21 When use of the auditor's report on the audited financial statements is restricted or the auditor's report on the audited financial statements alerts readers that the audited financial statements are prepared in accordance with a special purpose framework, the auditor should include a similar restriction or alert in the auditor's report on the summary financial statements.

Comparatives

.22 If the audited financial statements contain comparative financial statements but the summary financial statements do not, the auditor should determine whether such omission is reasonable in the circumstances of the engagement. The auditor should determine the effect of an unreasonable omission on the auditor's report on the summary financial statements. (Ref: par. .A17–.A18)

.23 Unless the predecessor auditor's report on the prior period's summary financial statements is reissued with the summary financial statements, if the summary financial statements contain comparatives that were reported on by another auditor, the auditor's report on the summary financial statements should state

- a. that the summary financial statements of the prior period were audited by a predecessor auditor.
- b. the type of opinion expressed by the predecessor auditor and, if the opinion was modified, the reasons therefore.
- c. the date of that report.

.24 If the summary financial statements contain comparatives that were not reported on by the auditor or another auditor, the auditor's report on the summary financial statements should state that the comparative summary financial statements were not reported on by the auditor and, accordingly, the auditor does not express an opinion on the comparative summary financial statements.

Unaudited Information Presented With Summary Financial Statements (Ref: par. .A19)

.25 The auditor should evaluate whether any unaudited information presented with the summary financial statements is clearly differentiated from the summary financial statements. If the auditor concludes that the entity's presentation of the unaudited information is not clearly differentiated from the summary financial statements, the auditor should ask management to change the presentation of the unaudited information. If management refuses to do so, the auditor should explain in the auditor's report on the summary financial statements that such information is not covered by that report and accordingly, the auditor does not express an opinion on the information.

Other Information in Documents Containing Summary Financial Statements (Ref: par. .A20)

.26 The auditor should read other information included in a document containing the summary financial statements and related auditor's report to identify material inconsistencies, if any, with the summary financial statements and the audited financial statements.

.27 If, upon reading the other information, the auditor identifies a material inconsistency or becomes aware of an apparent material misstatement of fact, the auditor should discuss the matter with management and should consider appropriate further action in the circumstances. For an identified material inconsistency, the auditor should also determine whether the summary financial statements or the other information needs to be revised.

Auditor Association (Ref: par. .A21)

.28 If the auditor becomes aware that the entity plans to state that the auditor has reported on summary financial statements in a document containing the summary financial statements, but does not plan to include the related auditor's report, the auditor should request management to include the auditor's report in the document. If management does not do so, the auditor should determine and carry out other appropriate actions designed to prevent management from inappropriately associating the auditor with the summary financial statements in that document.

.29 The auditor may be engaged to report on the financial statements of an entity, while not engaged to report on the summary financial statements. If, in this case, the auditor becomes aware that the entity plans to make a statement in a document that refers to the auditor and the fact that summary financial statements are derived from the financial statements audited by the auditor, the auditor should be satisfied that

- a.* the reference to the auditor is made in the context of the auditor's report on the audited financial statements, and
- b.* the statement does not give the impression that the auditor has reported on the summary financial statements.

If either *a* or *b* is not met, the auditor should request management to change the statement to meet both of the criteria in *a* and *b*, or not to refer to the auditor in the document. Alternatively, the entity may engage the auditor to report on the summary financial statements and include the related auditor's report in the document. If management does not change the statement, delete the reference to the auditor, or include an auditor's report on the summary

financial statements in the document containing the summary financial statements, the auditor should advise management that the auditor disagrees with the reference to the auditor, and the auditor should determine and carry out other appropriate actions designed to prevent management from inappropriately associating the auditor with the summary financial statements in that document.

Application and Other Explanatory Material

Scope of This Section (Ref: par. .02)

.A1 Financial statements may present comparative information in the form of condensed financial statements or summarized financial information. For example, entities such as state and local governmental units may present prior period financial information in their government-wide financial statements only for the total reporting entity rather than disaggregated by governmental activities, business-type activities, total primary government, and discretely presented component units. Also, not-for-profit organizations frequently present certain information for the prior period in total rather than by net asset class. As described in paragraph .02, this section does not apply to reporting on financial statements containing such comparative information. Summary financial statements differ from comparative information. Summary financial statements may be presented in a document containing financial statements or in a separate document, whereas comparative information is presented within the financial statements. Refer to section 700 for the auditor's responsibilities for reporting on comparative information.⁵

Engagement Acceptance

.A2 The audit of the financial statements from which the summary financial statements are derived provides the auditor with the necessary knowledge to discharge the auditor's responsibilities regarding the summary financial statements, in accordance with this section. Application of this section will not provide sufficient appropriate evidence on which to base the opinion on the summary financial statements if the auditor also has not audited the financial statements from which the summary financial statements are derived. (Ref: par. .08)

Criteria (Ref: par. .09a)

.A3 The preparation of summary financial statements requires management to determine the information that needs to be reflected in the summary financial statements so that they are consistent, in all material respects, with the audited financial statements. Because summary financial statements by their nature contain aggregated information and limited disclosure, there is an increased risk that they may not contain the information necessary so that they are not misleading in the circumstances. This risk increases when established criteria for the preparation of summary financial statements do not exist.

.A4 Factors that may affect the auditor's determination of the acceptability of the applied criteria include the following:

- The nature of the entity
- The purpose of the summary financial statements

⁵ Paragraphs .44–.51 of section 700.

- The information needs of the intended users of the summary financial statements
- Whether the applied criteria will result in summary financial statements that are not misleading in the circumstances

.A5 The criteria for the preparation of summary financial statements may be established by an authorized or recognized standards-setting organization or by law or regulation. In many such cases, the auditor may presume that such criteria are acceptable. When established criteria for the preparation of summary financial statements do not exist, criteria may be developed by management, for example, based on practice in a particular industry.

Availability of the Audited Financial Statements (Ref: par. .09b(ii) and .11b(ii))

.A6 Summary financial statements are presented in considerably less detail than the complete set of financial statements and do not contain all the disclosures required by the financial reporting framework applied in the preparation of the complete set of financial statements. In addition, reading the summary financial statements is not a substitute for reading the audited financial statements. Accordingly, before accepting an engagement to report on summary financial statements, the auditor is required by paragraph .09b(ii) to obtain management's agreement that it acknowledges and understands its responsibility to make the audited financial statements readily available to the intended users of the summary financial statements, when the summary financial statements will not be accompanied by the audited financial statements.

.A7 Audited financial statements are deemed to be readily available if a third-party user can obtain the audited financial statements without any further action by the entity (for example, financial statements on an entity's website may be considered readily available but being available upon request is not considered readily available).

Agreement on the Expected Form and Content of the Report (Ref: par. .09c)

.A8 Agreement with management about the expected form and content of the report on the summary financial statements may include a description of the types of opinions the auditor may express. It is not necessary to describe the type of opinion expected to be issued. The auditor also may indicate that circumstances may arise in which it is necessary for the auditor to withdraw from the engagement.

Nature of Procedures (Ref: par. .11)

.A9 Adequate disclosure of the summarized nature of summary financial statements and the identity of the audited financial statements, as referred to in paragraph .11a, may, for example, be provided by a title such as "Summary Financial Statements Prepared From the Audited Financial Statements as of and for the Year Ended December 31, 20X1."

Form of Opinion (Ref: par. .14–.16)

.A10 If the summary financial statements are not consistent, in all material respects, with the audited financial statements in accordance with the applied criteria, and management does not agree to make the necessary changes, the auditor is required by paragraph .15 to express an adverse opinion on the summary financial statements. Due to the summarized nature of the summary

financial statements, a qualified opinion would not be appropriate; the summary financial statements either are or are not consistent, in all material respects, with the audited financial statements, in accordance with the applied criteria.

.A11 When the auditor's report on the audited financial statements contains an adverse opinion or a disclaimer of opinion, paragraph .16 requires the auditor to withdraw from the engagement to report on the summary financial statements, when withdrawal is possible under applicable law or regulation. When an entity is required by law or regulation to provide a report on summary financial statements, the auditor is neither precluded from withdrawing, nor required to withdraw, from the engagement.

Auditor's Report on Summary Financial Statements

Elements of the Auditor's Report (Ref: par. .17)

.A12 An auditor who is engaged to report on summary financial statements does not report in the same manner as the auditor reported on the complete set of financial statements from which they are derived. To do so might lead users to assume, erroneously, that the summary financial statements include all the disclosures necessary for the complete set of financial statements. For the same reason, summary financial statements need to adequately disclose their summarized nature, as referred to in paragraphs .11a and .A9.

Title (Ref: par. .17a)

.A13 A title that includes the word *independent* to clearly indicate the report is the report of an independent auditor (for example, *Report of the Independent Auditor*) affirms that the auditor has met all of the relevant ethical requirements regarding independence. This distinguishes the report of the independent auditor from reports issued by others.

Introductory Paragraph (Ref: par. .17c(i))

.A14 When the auditor is aware that the summary financial statements will be included in a document that contains other information, the auditor may consider, if the form of presentation allows, identifying the page numbers on which the summary financial statements are presented. This helps readers identify the summary financial statements that relate to the auditor's report.

Date of the Auditor's Report on the Summary Financial Statements and Events Subsequent to the Date of the Auditor's Report on the Audited Financial Statements (Ref: par. .17c(iv))

.A15 The auditor's report on the summary financial statements may be dated as of the same date or later than the date of the auditor's report on the audited financial statements, depending on when the procedures in paragraph .11 are performed and, as required by paragraph .18, when the auditor has obtained sufficient appropriate evidence on which to base the opinion. When the auditor reports on the summary financial statements after the completion of the financial statement audit, the auditor is not required to obtain additional audit evidence on the audited financial statements, or report on the effects of events that occurred subsequent to the date of the auditor's report on the audited financial statements because the summary financial statements are derived from the audited financial statements and do not update them. In such cases, however, paragraph .17c(iv) requires the auditor's report to state that the summary financial statements and the audited financial statements do not reflect the effects of events, if any, that occurred subsequent to the date of the auditor's report on the audited financial statements.

Modifications to the Opinion, Emphasis-of-Matter Paragraph, or Other-Matter Paragraph in the Auditor's Report on the Audited Financial Statements (Ref: par. .20)

.A16 If the auditor's report on the audited financial statements contains a qualified opinion, the auditor may determine that, due to the effect on the summary financial statements, it is inappropriate to express an opinion on the summary financial statements. In such circumstances, the auditor may adapt and apply the requirement in paragraph .16.

Comparatives (Ref: par. .22)

.A17 If the audited financial statements contain comparative financial statements, a presumption exists that the summary financial statements also would contain comparatives. Section 700 addresses the auditor's responsibilities regarding comparative financial statements in an audit of financial statements.⁶

.A18 Circumstances that may affect the auditor's determination whether an omission of comparatives is reasonable include:

- The nature and objective of the summary financial statements
- The applied criteria
- The information needs of the intended users of the summary financial statements

Unaudited Information Presented With Summary Financial Statements (Ref: par. .25)

.A19 Section 700 contains a requirement and guidance related to information presented in the financial statements that is not required by the applicable financial reporting framework.⁷ Such requirement and guidance, adapted as necessary in the circumstances, may be helpful in applying the requirement in paragraph .25.

Other Information in Documents Containing Summary Financial Statements (Ref: par. .26–.27)

.A20 Section 720, *Other Information in Documents Containing Audited Financial Statements*, contains requirements and guidance relating to reading other information included in a document containing the audited financial statements and related auditor's report and responding to material inconsistencies and material misstatements of fact. Adapted as necessary in the circumstances, these requirements and related guidance may be helpful in applying the requirements in paragraphs .26–.27.

Auditor Association (Ref: par. .28–.29)

.A21 Other appropriate actions the auditor may take when management does not take the requested action may include informing the intended users and other known third-party users of the inappropriate reference to the auditor,

⁶ Paragraphs .44–.51 of section 700.

⁷ Paragraph .58 of section 700.

including that the auditor did not report, and does not express an opinion on, the summary financial statements. The auditor's course of action depends on the auditor's association with misleading information and the auditor's legal rights and obligations. Consequently, the auditor may consider it appropriate to seek legal advice.

.A22

Exhibit—Illustrations of Reports on Summary Financial Statements

Illustration 1—An Unmodified Opinion Is Expressed on the Summary Financial Statements (the Auditor's Report on the Summary Financial Statements Is Dated Later Than the Date of the Auditor's Report on the Financial Statements From Which the Summary Financial Statements Are Derived)

Illustration 2—An Unmodified Opinion Is Expressed on the Summary Financial Statements and a Qualified Opinion Is Expressed on the Audited Financial Statements

Illustration 3—An Adverse Opinion Is Expressed on the Audited Financial Statements (as a Result of the Adverse Opinion on the Audited Financial Statements, It Is Inappropriate to Express, and the Auditor Does Not Express, an Opinion on the Summary Financial Statements)

Illustration 4—An Adverse Opinion Is Expressed on the Summary Financial Statements Because They Are Not Consistent, in All Material Respects, With the Audited Financial Statements, in Accordance With the Applied Criteria

Illustration 1—An Unmodified Opinion Is Expressed on the Summary Financial Statements (the Auditor's Report on the Summary Financial Statements Is Dated Later Than the Date of the Auditor's Report on the Financial Statements From Which the Summary Financial Statements Are Derived)

Circumstances include all of the following:

- An unmodified opinion is expressed on the audited financial statements.
- Criteria are developed by management for the preparation of the summary financial statements and are adequately disclosed in Note X. The auditor has determined that the criteria are acceptable in the circumstances.
- An unmodified opinion is expressed on the summary financial statements.
- The auditor's report on the summary financial statements is dated later than the date of the auditor's report on the financial statements from which the summary financial statements are derived.

Independent Auditor's Report on Summary Financial Statements

[Appropriate Addressee]

The accompanying summary financial statements, which comprise the summary balance sheet as of December 31, 20X1, the summary income statement, summary statement of changes in stockholders' equity, and summary cash flow

statement for the year then ended, and the related notes, are derived from the audited financial statements of ABC Company as of and for the year ended December 31, 20X1. We expressed an unmodified audit opinion on those audited financial statements in our report dated February 15, 20X2. The audited financial statements, and the summary financial statements derived therefrom, do not reflect the effects of events, if any, that occurred subsequent to the date of our report on the audited financial statements.

The summary financial statements do not contain all the disclosures required by *[describe financial reporting framework applied in the preparation of the financial statements of ABC Company]*. Reading the summary financial statements, therefore, is not a substitute for reading the audited financial statements of ABC Company.

Management's Responsibility for the Summary Financial Statements

Management is responsible for the preparation of the summary financial statements on the basis described in Note X.

Auditor's Responsibility

Our responsibility is to express an opinion about whether the summary financial statements are consistent, in all material respects, with the audited financial statements based on our procedures, which were conducted in accordance with auditing standards generally accepted in the United States of America. The procedures consisted principally of comparing the summary financial statements with the related information in the audited financial statements from which the summary financial statements have been derived, and evaluating whether the summary financial statements are prepared in accordance with the basis described in Note X. We did not perform any audit procedures regarding the audited financial statements after the date of our report on those financial statements.

Opinion

In our opinion, the summary financial statements of ABC Company as of and for the year ended December 31, 20X1 referred to above are consistent, in all material respects, with the audited financial statements from which they have been derived, on the basis described in Note X.

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

Illustration 2—An Unmodified Opinion Is Expressed on the Summary Financial Statements and a Qualified Opinion Is Expressed on the Audited Financial Statements

Circumstances include all of the following:

- A qualified opinion is expressed on the audited financial statements.
- Criteria are developed by management for the preparation of the summary financial statements and are adequately disclosed in Note X. The auditor has determined that the criteria are acceptable in the circumstances.
- An unmodified opinion is expressed on the summary financial statements.

Independent Auditor's Report on Summary Financial Statements

[Appropriate Addressee]

The accompanying summary financial statements, which comprise the summary balance sheet as of December 31, 20X1, the summary income statement, summary statement of changes in stockholders' equity, and summary cash flow statement for the year then ended, and the related notes, are derived from the audited financial statements of ABC Company as of and for the year ended December 31, 20X1. We expressed a qualified audit opinion on those audited financial statements in our report dated February 15, 20X2 (see below).¹

The summary financial statements do not contain all the disclosures required by *[describe financial reporting framework applied in the preparation of the financial statements of ABC Company]*. Reading the summary financial statements, therefore, is not a substitute for reading the audited financial statements of ABC Company.

Management's Responsibility for the Summary Financial Statements

Management is responsible for the preparation of the summary financial statements on the basis described in Note X.

Auditor's Responsibility

Our responsibility is to express an opinion about whether the summary financial statements are consistent, in all material respects, with the audited financial statements based on our procedures, which were conducted in accordance with auditing standards generally accepted in the United States of America. The procedures consisted principally of comparing the summary financial statements with the related information in the audited financial statements from which the summary financial statements have been derived, and evaluating whether the summary financial statements are prepared in accordance with the basis described in Note X.²

¹ When the auditor's report on the summary financial statements is dated later than the date of the auditor's report on the audited financial statements, the following sentence is added to this paragraph: "The audited financial statements, and the summary financial statements derived therefrom, do not reflect the effects of events, if any, that occurred subsequent to the date of our report on the audited financial statements."

² When the auditor's report on the summary financial statements is dated later than the date of the auditor's report on the audited financial statements, the following sentence is added to this paragraph: "We did not perform any audit procedures regarding the audited financial statements after the date of our report on those financial statements."

Opinion

In our opinion, the summary financial statements of ABC Company as of and for the year ended December 31, 20X1 referred to above are consistent, in all material respects, with the audited financial statements from which they have been derived, on the basis described in Note X.

The summary financial statements are misstated to the equivalent extent as the audited financial statements of ABC Company as of and for the year ended December 31, 20X1. The misstatement of the audited financial statements is described in our qualified audit opinion in our report dated February 15, 20X2. Our qualified audit opinion is based on the fact that the Company's inventories are carried in the balance sheet in those audited financial statements at \$XXX. Management has not stated the inventories at the lower of cost or net realizable value but has stated them solely at cost, which constitutes a departure from *[describe financial reporting framework applied in the preparation of the financial statements of ABC Company]*. The Company's records indicate that, had management stated the inventories at the lower of cost or net realizable value, an amount of \$XXX would have been required to write the inventories down to their net realizable value. Accordingly, cost of sales would have been increased by \$XXX, and income tax, net income, and stockholders' equity would have been reduced by \$XXX, \$XXX, and \$XXX, respectively. Our qualified audit opinion states that, except for the effects of the described matter, those financial statements present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with *[describe financial reporting framework applied in the preparation of the financial statements of ABC Company]*.

Illustration 3—An Adverse Opinion Is Expressed on the Audited Financial Statements (as a Result of the Adverse Opinion on the Audited Financial Statements, It Is Inappropriate to Express, and the Auditor Does Not Express, an Opinion on the Summary Financial Statements)

Circumstances include both of the following:

- An adverse opinion is expressed on the audited financial statements. As a result of the adverse opinion on the audited financial statements, it is inappropriate to express, and the auditor does not express, an opinion on the summary financial statements, as described in paragraph .16.
- Criteria are developed by management for the preparation of the summary financial statements and are adequately disclosed in Note X. The auditor has determined that the criteria are acceptable in the circumstances.

Independent Auditor's Report on Summary Financial Statements

[Appropriate Addressee]

Management derived the accompanying summary financial statements, which comprise the summary balance sheet as of December 31, 20X1, the summary income statement, summary statement of changes in stockholders' equity, and summary cash flow statement for the year then ended, and the related notes, from the audited financial statements of ABC Company as of and for the year ended December 31, 20X1. Management is responsible for the preparation of these summary financial statements on the basis described in Note X.

In our report dated February 15, 20X2, we expressed an adverse audit opinion on the financial statements of ABC Company as of and for the year ended December 31, 20X1. The basis for our adverse audit opinion was *[describe basis for adverse audit opinion]*. Our adverse audit opinion stated that *[describe adverse audit opinion]*.

Because of the significance of the matter discussed above, it is inappropriate to express, and we do not express, an opinion on the summary financial statements of ABC Company as of and for the year ended December 31, 20X1.

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

Illustration 4—An Adverse Opinion Is Expressed on the Summary Financial Statements Because They Are Not Consistent, in All Material Respects, With the Audited Financial Statements, in Accordance With the Applied Criteria

Circumstances include all of the following:

- An unmodified opinion is expressed on the audited financial statements.
- Established criteria for the preparation of summary financial statements exist.
- The auditor expresses an adverse opinion on the summary financial statements because they are not consistent, in all material respects, with the audited financial statements, in accordance with the applied criteria.

Independent Auditor's Report on Summary Financial Statements

[Appropriate Addressee]

The accompanying summary financial statements, which comprise the summary balance sheet as of December 31, 20X1, the summary income statement, summary statement of changes in stockholders' equity, and summary cash flow statement for the year then ended, and the related notes, are derived from the audited financial statements of ABC Company as of and for the year ended December 31, 20X1. We expressed an unmodified audit opinion on those audited financial statements in our report dated February 15, 20X2.¹

The summary financial statements do not contain all the disclosures required by *[describe financial reporting framework applied in the preparation of the financial statements of ABC Company]*. Reading the summary financial statements, therefore, is not a substitute for reading the audited financial statements of ABC Company.

Management's Responsibility for the Summary Financial Statements

Management is responsible for the preparation of the summary financial statements on the basis described in Note X.

Auditor's Responsibility

Our responsibility is to express an opinion about whether the summary financial statements are consistent, in all material respects, with the audited financial statements based on our procedures, which were conducted in accordance with auditing standards generally accepted in the United States of America. The procedures consisted principally of comparing the summary financial statements with the related information in the audited financial statements from which the summary financial statements have been derived, and evaluating whether the summary financial statements are prepared in accordance with the basis described in Note X.²

¹ When the auditor's report on the summary financial statements is dated later than the date of the auditor's report on the audited financial statements, the following sentence is added to this paragraph: "The audited financial statements, and the summary financial statements derived therefrom, do not reflect the effects of events, if any, that occurred subsequent to the date of our report on the audited financial statements."

² When the auditor's report on the summary financial statements is dated later than the date of the auditor's report on the audited financial statements, the following sentence is added to this paragraph: "We did not perform any audit procedures regarding the audited financial statements after the date of our report on those financial statements."

Basis for Adverse Opinion

[Describe matter that caused the summary financial statements not to be consistent, in all material respects, with the audited financial statements, in accordance with the applied criteria.]

Adverse Opinion

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion* paragraph, the summary financial statements of ABC Company as of and for the year ended December 31, 20X1 referred to above are not consistent with the audited financial statements from which they have been derived, on the basis described in Note X.

AU-C Section 905

Alert That Restricts the Use of the Auditor's Written Communication

Source: SAS No. 125.

Effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012. For all other engagements conducted in accordance with GAAS, this section is effective for the auditor's written communications issued on or after December 15, 2012.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibility, when required or the auditor decides, to include in the auditor's report or other written communication issued by the auditor in connection with an engagement conducted in accordance with generally accepted auditing standards (GAAS) (hereinafter referred to in this section as auditor's written communication) language that restricts the use of the auditor's written communication. This language is referred to in this section as an alert. In an auditor's report, such language is included in an other-matter paragraph. (Ref: par. .A1 and .A3)

.02 Appendix A, "List of AU-C Sections Relating to the Restricted Use of the Auditor's Written Communication," identifies sections that contain specific requirements to include an alert that restricts the use of the auditor's written communication or that otherwise address the inclusion of such alerts. Accordingly, the requirements in this section regarding the form of such alert apply. (Ref: par. .A2)

Effective Date

.03 This section is effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012. For all other engagements conducted in accordance with GAAS, this section is effective for the auditor's written communications issued on or after December 15, 2012.

Objective

.04 The objective of the auditor is to restrict the use of the auditor's written communication by including an alert when the potential exists for the auditor's written communication to be misunderstood if taken out of the context in which the auditor's written communication is intended to be used.

Definition

.05 For purposes of GAAS, the following term has the meaning attributed as follows:

Specified parties. The intended users of the auditor's written communication.

Requirements

Alert That Restricts the Use of the Auditor's Written Communication

.06 The auditor's written communication should include an alert, in a separate paragraph, that restricts its use when the subject matter of the auditor's written communication is based on (Ref: par. .A2–.A3)

- a. measurement or disclosure criteria that are determined by the auditor to be suitable only for a limited number of users who can be presumed to have an adequate understanding of the criteria,
- b. measurement or disclosure criteria that are available only to the specified parties, or
- c. matters identified by the auditor during the course of the audit engagement when the identification of such matters is not the primary objective of the audit engagement (commonly referred to as a by-product report). (Ref: par. .A4–.A7)

.07 Unless specified otherwise by this section or other relevant sections, the alert that restricts the use of the auditor's written communication required by paragraph .06 should

- a. state that the auditor's written communication is intended solely for the information and use of the specified parties.
- b. identify the specified parties for whom use is intended. In situations covered by paragraph .06c, the specified parties should only include management, those charged with governance, others within the entity, the parties to the contract or agreement, or the regulatory agencies to whose jurisdiction the entity is subject, as appropriate in the circumstances.
- c. state that the auditor's written communication is not intended to be and should not be used by anyone other than the specified parties. (Ref: par. .A8–.A9)

Adding Other Specified Parties (Ref: par. .A10)

.08 When, in accordance with paragraph .06, the auditor includes an alert that restricts the use of the auditor's written communication to certain specified parties, and the auditor is requested to add other parties as specified parties, the auditor should determine whether to agree to add the other parties as specified parties. In situations covered by paragraph .06c, the auditor should not agree to add as specified parties any other parties not described in paragraph .07b.

.09 When the auditor agrees to add other parties as specified parties, the auditor should obtain affirmative acknowledgment, in writing, from the other parties of their understanding of

- a. the nature of the engagement resulting in the auditor's written communication,
- b. the measurement or disclosure criteria related to the subject matter of the auditor's written communication, and
- c. the auditor's written communication.

.10 If the other parties are added after the release of the auditor's written communication, in addition to the requirements of paragraph .09, the auditor should take one of the following actions:

- a. Amend the auditor's written communication to add the other parties. In such circumstances, the auditor should not change the original date of the auditor's written communication.
- b. Provide a written acknowledgment to management and the other parties that such parties have been added as specified parties. The auditor should state in the acknowledgment that no procedures were performed subsequent to the original date of the auditor's written communication or the date that the engagement was completed, as appropriate.

Alert for Engagements Performed in Accordance With Government Auditing Standards (Ref: par. .A11)

.11 The alert language required by paragraph .07 should not be used when

- a. the engagement is performed in accordance with *Government Auditing Standards*, and
- b. the auditor's written communication pursuant to that engagement is issued in accordance with
 - i. section 265, *Communicating Internal Control Related Matters Identified in an Audit*;
 - ii. section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements* ; or
 - iii. section 935, *Compliance Audits* .

Instead, the alert required by paragraph .06 should

- a. describe the purpose of the auditor's written communication and
- b. state that the auditor's written communication is not suitable for any other purpose.

Application and Other Explanatory Material

Alert That Restricts the Use of the Auditor's Written Communication (Ref: par. .01-.02 and .06)

.A1 In addition to auditor's reports, auditor's written communications may include letters or presentation materials (for example, letters communicating internal control related matters or presentations addressing communications with those charged with governance).

.A2 Certain sections, identified in appendix A, contain specific requirements to include an alert that restricts the use of the auditor's written communication or that otherwise address the inclusion of such alerts. The need for an alert that restricts the use of the auditor's written communication arises from the potential for the auditor's written communication to be misunderstood if

taken out of the context in which the auditor's written communication is intended to be used. The context in which the auditor's written communication is intended to be used may consist of a number of circumstances, including

- the purpose of the auditor's written communication;
- the nature of the procedures applied in its preparation;
- the basis of, or assumptions used in, its preparation; and
- the extent to which the procedures performed generally are known or understood.

.A3 Auditor's reports on financial statements prepared in accordance with a general purpose framework ordinarily do not include an alert that restricts their use. However, nothing in GAAS precludes an auditor from including such an alert in any auditor's report or other auditor's written communication. For example, financial statements prepared specifically for use in connection with an acquisition may be prepared in accordance with a general purpose framework because the parties involved in the transaction have agreed that such general purpose financial statements are appropriate for their purposes. Nevertheless, when the terms of the engagement to audit those financial statements require the auditor to supply the auditor's report only to specified parties, the auditor may consider it necessary in the circumstances to include an other-matter paragraph in the auditor's report that restricts the use of the auditor's report.¹

.A4 The subject matter of the auditor's written communication may be based on matters identified by the auditor during the course of the audit engagement when identification of such matters is not the primary objective of the audit engagement (commonly referred to as a by-product report) (for example, communication about internal control or compliance related matters identified in an audit of financial statements, the primary objective of which is to express an opinion on the financial statements). Because such communication can only be understood in relation to the primary objective of the audit engagement, it may be misinterpreted or misunderstood. Accordingly, paragraph .06c requires such auditor's written communication to include an alert that restricts its use.

Alert That Restricts the Use of the Auditor's Written Communication Included in General Use Communications

.A5 An auditor's written communication that is required by paragraph .06 to include an alert that restricts its use may be included in a document that also contains an auditor's written communication that is for general use. In such circumstances, the use of the general use communication is not affected.

.A6 An auditor may also issue a single combined auditor's written communication that includes (a) communications that are required by paragraph .06 to include an alert that restricts their use and (b) communications that are for general use. If these two types of communications are clearly differentiated within the combined communication, such as through the use of appropriate headers, the alert that restricts the use of the auditor's written communication may be limited to the communications required by paragraph .06 to include such an alert. In such circumstances, the use of the general use communication is not affected. An example of a single combined auditor's written communication addressing a matter that was not the primary objective of the audit engagement

¹ Paragraph .08 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

that is included in a general use communication is provided in the exhibit "Illustrations of Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements," of section 806.²

Distribution of the Auditor's Written Communication

.A7 An auditor is not responsible for controlling, and cannot control, distribution of the auditor's written communication after its release. The alert that restricts the use of the auditor's written communication is designed to avoid misunderstandings related to the use of the auditor's written communication, particularly if the auditor's written communication is taken out of the context in which the auditor's written communication is intended to be used. An auditor may consider informing the entity or other specified parties that the auditor's written communication is not intended for distribution to parties other than those specified in the auditor's written communication. The auditor may, in connection with establishing the terms of the engagement, reach an understanding with the entity that the intended use of the auditor's written communication will be restricted and may obtain the entity's agreement that the entity and specified parties will not distribute such auditor's written communication to parties other than those identified therein.

Illustrative Alert Language (Ref: par. .07)

.A8 The alert that restricts the use of the auditor's written communication may list the specified parties or refer to the specified parties listed elsewhere in the auditor's written communication. The following illustrates language that includes the elements required by paragraph .07:

This [report, letter, presentation, or communication] is intended solely for the information and use of [list or refer to the specified parties] and is not intended to be and should not be used by anyone other than these specified parties.

.A9 Other sections, such as section 920, *Letters for Underwriters and Certain Other Requesting Parties*, may include specific requirements relating to the matters to be included in the alert that restrict the use of the auditor's written communication, as required by paragraph .06, including identifying the specified parties.

Adding Other Specified Parties (Ref: par. .08–.10)

.A10 When the auditor is requested to add other parties as specified parties, the auditor may agree to add the other parties as specified parties based on the auditor's consideration of factors such as the identity of the other parties and the intended use of the auditor's written communication.

Alert for Engagements Performed in Accordance With Government Auditing Standards (Ref: par. .11)

.A11 *Government Auditing Standards* regard the auditor's written communications issued pursuant to the sections, identified in paragraph .11, to be an integral part of the audit engagement for the purpose of assessing the

² Illustration 5, "Report on Compliance With Aspects of Contractual Agreements Given in a Combined Report, and No Instances of Noncompliance Were Identified," in the exhibit "Illustrations of Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements," of section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements*.

results of the engagement. Accordingly, different alert language is used. The following illustrates language that includes the elements of the alert required by paragraph .11:

The purpose of this [*report, letter, presentation, or communication*] is solely to [*describe the purpose of the auditor's written communication, such as to describe the scope of our testing of internal control over financial reporting and compliance, and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control over financial reporting or on compliance*]. This [*report, letter, presentation, or communication*] is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering [*describe the results that are being assessed, such as the entity's internal control over financial reporting and compliance*]. Accordingly, this [*report, letter, presentation, or communication*] is not suitable for any other purpose.

.A12

Appendix A—List of AU-C Sections Relating to the Restricted Use of the Auditor’s Written Communication

This appendix identifies paragraphs in other sections that contain specific requirements to include an alert that restricts the use of the auditor's written communication or that otherwise address the inclusion of such alerts. The list is not a substitute for considering the requirements and related application and other explanatory material in the other sections.

- Paragraph .17 of section 260, *The Auditor's Communication With Those Charged With Governance*
 - Paragraphs .14d, .A32, and .A38–.A39 of section 265, *Communicating Internal Control Related Matters Identified in an Audit*
 - Paragraph .A16 of section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*
 - Paragraphs .20, .A26–.A27, and .A33 of section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*
 - Paragraphs .12–.13 and .A6–.A8 of section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements*
 - Paragraphs .14f and .A6 of section 915, *Reports on Application of Requirements of an Applicable Financial Reporting Framework*
 - Paragraphs .33 and .A34 of section 920, *Letters for Underwriters and Certain Other Requesting Parties*

-

AU-C Section 910

Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country

Source: SAS No. 124.

Effective for audits of financial statements for periods ending on or after December 15, 2012.

Introduction

Scope of This Section

.01 This section addresses circumstances in which an auditor practicing in the United States is engaged to report on financial statements that have been prepared in accordance with a financial reporting framework generally accepted in another country not adopted by a body designated by the Council of the AICPA (Council) to establish generally accepted accounting principles (GAAP) (hereinafter referred to as a financial reporting framework generally accepted in another country) when such audited financial statements are intended for use outside the United States. This section is not intended to preclude the use of such audited financial statements in the United States.

.02 Pursuant to Rule 202, *Compliance With Standards* (ET sec. 202 par. .01), and Rule 203, *Accounting Principles* (ET sec. 203 par. .01), the Council designates the bodies to establish GAAP. This section does not apply to financial statements prepared in accordance with financial reporting frameworks established by the bodies designated by the Council. Section 700, *Forming an Opinion and Reporting on Financial Statements*, applies to engagements to report on such financial statements, including financial statements prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

.03 This section is applicable to engagements to report on financial statements prepared in accordance with a jurisdictional variation of IFRS such that the entity's financial statements do not contain an explicit and unreserved statement in an appropriate note to the financial statements that its financial statements are in compliance with IFRS as promulgated by the IASB.

.04 This section does not apply to engagements to report on financial statements of a U.S. subsidiary of a foreign registrant parent company that are presented in the parent company's filing with the U.S. Securities and Exchange Commission when the subsidiary's financial statements have been prepared in accordance with a financial reporting framework used by the parent company and audited in accordance with auditing standards generally accepted in the United States of America (GAAS).

Effective Date

.05 This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

Objective

.06 The objective of the auditor, when engaged to report on financial statements prepared in accordance with a financial reporting framework generally accepted in another country, when such audited financial statements are intended for use outside the United States, is to address appropriately the special considerations that are relevant to

- a. the acceptance of the engagement,
- b. the planning and performance of the engagement, and
- c. forming an opinion and reporting on the financial statements.

Requirements

Considerations When Accepting the Engagement (Ref: par. .A1)

.07 Section 210, *Terms of Engagement*, requires the auditor, as part of establishing whether the preconditions for an audit are present prior to accepting the engagement, to determine the acceptability of the financial reporting framework applied in the preparation of the financial statements.¹ In an audit of financial statements prepared in accordance with a financial reporting framework generally accepted in another country, the auditor should obtain an understanding of

- a. The purpose for which the financial statements are prepared and whether the financial reporting framework applied in the preparation of the financial statements is a fair presentation framework.
- b. The intended users of the financial statements.
- c. The steps taken by management to determine that the applicable financial reporting framework is acceptable in the circumstances.

.08 When the auditor plans to use the form and content of the auditor's report of another country, the auditor should obtain an understanding of the applicable legal responsibilities involved. (Ref: par. .A8)

Performance (Ref: par. .A2–.A3)

.09 When auditing financial statements prepared in accordance with a financial reporting framework generally accepted in another country that are intended for use only outside the United States, the auditor should comply with GAAS, except for requirements related to the form and content of the report in the situation described in paragraph .12. The auditor should determine whether the application of GAAS requires special consideration in the circumstances of the engagement.

.10 Section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatements*, requires the auditor to obtain an

¹ See paragraph .06 of section 210, *Terms of Engagement*.

understanding of the entity's selection and application of accounting policies.² When reporting on financial statements prepared in accordance with a financial reporting framework generally accepted in another country, the auditor should obtain an understanding of such framework.

Application of Auditing Standards of Another Country

.11 If the auditor is engaged to audit financial statements prepared in accordance with a financial reporting framework generally accepted in another country, and the agreed-upon terms of engagement require the auditor to apply either the auditing standards of that country or International Standards on Auditing (ISAs), the auditor should obtain an understanding of and apply those relevant auditing standards, as well as GAAS, except for requirements related to the form and content of the report in the situation described in paragraph .12. (Ref: par. .A4–.A6)

Reporting

Reporting—Use Only Outside the United States

.12 If the auditor is reporting on financial statements prepared in accordance with a financial reporting framework generally accepted in another country that are intended for use only outside the United States, the auditor should report using either

- a. a U.S. form of report that reflects that the financial statements being reported on have been prepared in accordance with a financial reporting framework generally accepted in another country, including (Ref: par. .A7)
 - i. the elements required by section 700 and
 - ii. a statement that refers to the note to the financial statements that describes the basis of presentation of the financial statements on which the auditor is reporting, including identification of the country of origin of the accounting principles, or
- b. the report form and content of the other country (or, if applicable, as set forth in the ISAs), provided that
 - i. such a report would be issued by auditors in the other country in similar circumstances,
 - ii. the auditor understands and has obtained sufficient appropriate audit evidence to support the statements contained in such a report, and
 - iii. the auditor has complied with the reporting standards of that country and identifies the other country in the report. (Ref: par. .A8–.A9)

Reporting—Use in the United States

.13 If financial statements prepared in accordance with a financial reporting framework generally accepted in another country also are intended for use in the United States, the auditor should report using the U.S. form of report.³

² See paragraph .12(c) of section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*.

³ See section 700, *Forming an Opinion and Reporting on Financial Statements*.

In addition, the auditor should include in the auditor's report an emphasis-of-matter paragraph⁴ that

- a. identifies the financial reporting framework used in the preparation of the financial statements,
- b. refers to the note to the financial statements that describes that framework, and
- c. indicates that such framework differs from accounting principles generally accepted in the United States of America. (Ref: par. .A7 and .A10)

Application and Other Explanatory Material

Considerations When Accepting the Engagement (Ref: par. .07–.08)

.A1 In obtaining an understanding of the purpose for which the financial statements are prepared and of the intended users, the auditor may consider whether the intended users are likely to be familiar with the applicable financial reporting framework. For example, if the financial statements are to be used in the United States in addition to the other country(ies) for which they are intended, the auditor may consider whether intended users within the United States deal directly with the entity and whether the financial statements are to be used in a manner that permits such users to discuss with the entity differences from accounting and reporting practices in the United States and their significance. Accordingly, an auditor may conclude that financial statements prepared in accordance with a financial reporting framework generally accepted in another country are not appropriate for use in a private placement memorandum to be distributed widely in the United States.

Performance (Ref: par. .09–.10)

.A2 The accounting principles used to prepare financial statements in accordance with a financial reporting framework generally accepted in another country may differ from those used to prepare financial statements in accordance with accounting principles generally accepted in the United States of America, and such differences may affect the auditor's risk assessment and design of further audit procedures. For example, the financial reporting framework generally accepted in another country may require that certain assets be revalued to adjust for the effects of inflation—in which case, the auditor may find it necessary to perform procedures to test the revaluation adjustments. As another example, a particular country's financial reporting framework may not require or permit recognition of deferred taxes; consequently, procedures for testing deferred tax balances would not be applicable.

.A3 An understanding of the financial reporting framework generally accepted in another country may be obtained by reading the statutes or professional literature, or codifications thereof, which establish or describe the financial reporting framework generally accepted in the other country. Often, the application of accounting principles to a particular situation requires practical experience, and accordingly, the auditor may consult with persons having expertise in applying the financial reporting framework of the other country.

⁴ See section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

Application of Auditing Standards of Another Country (Ref: par. .11)

.A4 Applying either the auditing standards of another country or the ISAs may require the auditor to perform procedures in addition to those procedures required by GAAS.

.A5 An understanding of the auditing standards of another country or the ISAs may be obtained by reading the statutes or professional literature, or codifications thereof, which establish or describe such standards.

.A6 Statutes or professional literature, or codifications thereof, however, may not include a complete description of the auditing practices in another country. The auditor may consult with persons having expertise in, including practical experience in applying, the auditing standards of the other country or the ISAs, as relevant.

Reporting (Ref: par. .08 and .12–.13)

.A7 The exhibit "Illustrations of Auditor's Reports on Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country" contains illustrations of auditor's reports on financial statements incorporating the elements required by paragraphs .12–.13.

Reporting—Use Only Outside the United States (Ref: par. .08 and .12)

.A8 Even when the form and content of the auditor's report used in another country appears similar to that used in the United States, the report may convey a different meaning and entail different legal responsibilities for the auditor due to custom or culture. Issuing a report of another country may require the auditor to report on statutory compliance or otherwise require understanding of local laws and regulations. When issuing the auditor's report of another country, the auditor is required by paragraph .08 to obtain an understanding of applicable legal responsibilities, in addition to the auditing standards and the financial reporting framework generally accepted in the other country, as required by paragraphs .07 and .10–.11. Accordingly, depending on the nature and extent of the auditor's knowledge and experience, the auditor may consult with persons having expertise in the audit reporting practices of the other country and associated legal responsibilities to obtain the understanding needed to issue that country's report.

.A9 An entity that prepares financial statements in accordance with GAAP also may prepare financial statements in accordance with a financial reporting framework generally accepted in another country for use outside the United States (for example, financial statements prepared in accordance with a jurisdictional variation of IFRS such that the entity's financial statements do not contain an explicit and unreserved statement of compliance with IFRS as issued by the IASB). In such circumstances, the auditor may report on the financial statements that are in accordance with a financial reporting framework generally accepted in another country by reporting in accordance with paragraph .12. The auditor may include in one or both of the reports a statement that another report has been issued on the financial statements for the entity that have been prepared in accordance with a financial reporting framework generally accepted in another country. The auditor's statement may also reference any note disclosure in the financial statements that describes significant differences between the accounting principles used and GAAP. An example of such a statement, which may be included in an emphasis-of-matter paragraph, is as follows:

We also have reported separately on the financial statements of ABC Company for the same period presented in accordance with [*specify the financial reporting framework generally accepted*] in [*name of country*]. (The significant differences between the [*specify the financial reporting framework generally accepted*] in [*name of country*] and accounting principles generally accepted in the United States of America are summarized in Note X.)

Reporting—Use in the United States (Ref: par. .13)

.A10 When reporting on financial statements prepared in accordance with a financial reporting framework generally accepted in another country that will be used in the United States and outside the United States, the auditor may issue two reports: one of the reports described in paragraph .12 for use outside the United States and the U.S. form of report with an emphasis-of-matter paragraph, as described in paragraph .13, for use in the United States.

.A11

Exhibit—Illustrations of Auditor’s Reports on Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country (Ref: par. .A7)

Illustration 1—U.S. Form of Independent Auditor’s Report to Report on Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country That Are Intended for Use Only Outside the United States

Illustration 2—U.S. Form of Independent Auditor’s Report To Report on Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country That Also Are Intended for Use in the United States

Illustration 1—U.S. Form of Independent Auditor’s Report to Report on Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country That Are Intended for Use Only Outside the United States

Independent Auditor’s Report

[Appropriate Addressee]

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders’ equity, and cash flows for the year then ended, and the related notes to the financial statements, which, as described in note X to the financial statements, have been prepared on the basis of [specify the financial reporting framework generally accepted] in [name of country].

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with [specify the financial reporting framework generally accepted] in [name of country]; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America (and [in name of country]). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with [*specify the financial reporting framework generally accepted*] in [*name of country*].

[*Date of the auditor's report*]

Illustration 2—U.S. Form of Independent Auditor’s Report To Report on Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country That Also Are Intended for Use in the United States

Independent Auditor’s Report

[Appropriate Addressee]

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, which, as described in note X to the financial statements, have been prepared on the basis of *[specify the financial reporting framework generally accepted]* in *[name of country]*.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with *[specify the financial reporting framework generally accepted]* in *[name of country]*; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America (and *[in name of country]*). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with *[specify the financial reporting framework generally accepted]* in *[name of country]*.

Emphasis of Matter

As discussed in Note X to the financial statements, the Company prepares its financial statements in accordance with *[specify the financial reporting*

framework generally accepted] in [*name of country*], which differ(s) from accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

AU-C Section 915

Reports on Application of Requirements of an Applicable Financial Reporting Framework

Source: SAS No. 122; SAS No. 123; SAS No. 125.

Effective for engagements that end on or after December 15, 2012.

Introduction

Scope of This Section

.01 This section addresses the reporting accountant's responsibilities when requested to issue a written report on

- a. the application of the requirements of an applicable financial reporting framework to a specific transaction or
- b. the type of report that may be issued on a specific entity's financial statements. (Ref: par. .A1)

.02 This section also applies to oral advice provided by the reporting accountant

- a. that the reporting accountant concludes is intended to be used by a principal to the transaction as an important factor considered in reaching a decision on the application of the requirements of an applicable financial reporting framework to a specific transaction or
- b. on the type of report that may be issued on a specific entity's financial statements.

.03 Differing interpretations may exist concerning whether and, if so, how existing accounting policies in an applicable financial reporting framework apply to new transactions or how new accounting policies in an applicable financial reporting framework apply to existing transactions. Management and others may consult with accountants on the application of the requirements of an applicable financial reporting framework to those transactions or to increase their knowledge of specific financial reporting issues. Such consultations may provide relevant information and insights not otherwise available.

.04 This section does not apply to

- a. a continuing accountant with respect to the specific entity whose financial statements the continuing accountant has been engaged to report on,
- b. engagements either to assist in litigation involving accounting or auditing matters or to provide expert testimony in connection with such litigation, or
- c. professional advice provided to another accountant in public practice.

.05 This section also does not apply to communications such as position papers prepared by an accountant for the purpose of presenting views on an issue involving the application of the requirements of an applicable financial reporting framework, provided that these communications are not intended to provide guidance on the application of these requirements to a specific transaction. Position papers include newsletters, articles, speeches, and texts thereof; lectures and other forms of public presentations; and letters for the public record to professional and governmental standards-setting bodies.

Effective Date

.06 This section is effective for engagements that end on or after December 15, 2012.

Objective

.07 The objective of the reporting accountant, when engaged to issue a written report or provide oral advice on the application of the requirements of an applicable financial reporting framework to a specific transaction or on the type of report that may be issued on a specific entity's financial statements, is to address appropriately

- a. the acceptance of the engagement.
- b. the planning and performance of the engagement.
- c. reporting on the specific transaction or type of report.

Definitions

.08 For purposes of this section, the following terms have the meanings attributed as follows:

Continuing accountant. An accountant who has been engaged to report on the financial statements of a specific entity or entities of which the specific entity is a component.

Hypothetical transaction. A transaction or financial reporting issue that does not involve facts or circumstances of a specific entity.

Reporting accountant. An accountant, other than a continuing accountant, in the practice of public accounting, as described in ET section 92, *Definitions*, who prepares a written report or provides oral advice on the application of the requirements of an applicable financial reporting framework to a specific transaction or on the type of report that may be issued on a specific entity's financial statements.¹ (A reporting accountant who is also engaged to provide accounting and reporting advice to a specific entity on a recurring basis is commonly referred to as an advisory accountant.) (Ref: par. .A4)

Specific transaction. A completed or proposed transaction or group of related transactions or a financial reporting issue involving facts and circumstances of a specific entity.

Written report. Any written communication that provides a conclusion on the appropriate application of the requirements of an applicable financial reporting framework to a specific transaction

¹ Paragraph .29 of ET section 92, *Definitions*.

or on the type of report that may be issued on a specific entity's financial statements.

Requirements

Engagement Acceptance

.09 In determining whether to accept the engagement, the reporting accountant should consider

- a.* the circumstances under which the written report or oral advice is requested,
- b.* the purpose of the request, and
- c.* the intended use of the written report or oral advice.

For purposes of this section, the reporting accountant is not required to be independent of the entity.

.10 The reporting accountant should accept an engagement to issue a written report on the application of the requirements of an applicable financial reporting framework to a specific transaction only when the transaction involves facts or circumstances of a specific entity. The reporting accountant should not accept an engagement to issue a written report on hypothetical transactions.

.11 If the reporting accountant has determined in accordance with paragraphs .09–.10 that it is appropriate to accept an engagement to be performed in accordance with this section, the reporting accountant should establish an understanding with the requesting party that

- a.* responsibility for the proper accounting treatment rests with management, who is expected to consult with its continuing accountant;
- b.* management acknowledges that the reporting accountant may need to consult with the continuing accountant and that, upon request, management will authorize the continuing accountant to respond fully to the reporting accountant's inquiries; and
- c.* management will notify those charged with governance and the continuing accountant concerning the nature of the engagement.

If management refuses to agree to authorize the continuing accountant to respond fully to the reporting accountant's inquiries, the reporting accountant should inquire about the reasons and consider the implications of that refusal when determining whether to accept the engagement.

Engagement Planning and Performance

.12 The reporting accountant should

- a.* obtain an understanding of the form and substance of the specific transaction(s) or the conditions relevant to the type of report that may be issued on a specific entity's financial statements;
- b.* review the relevant requirements of the applicable financial reporting framework, if appropriate;
- c.* consult with other professionals, experts, or regulatory authorities, if appropriate;
- d.* perform research or other procedures, as appropriate, to identify and consider existing creditable precedents or analogies;

- e. except as provided in paragraph .13, request permission from the entity's management to consult with the continuing accountant and request the entity's management to authorize the continuing accountant to respond fully to the reporting accountant's inquiries; and
- f. except as provided in paragraph .13, consult with the continuing accountant to determine the available facts relevant to forming a conclusion. (Ref: par. .A2–.A3)

Consulting With the Continuing Accountant

.13 The reporting accountant should consult with the continuing accountant to determine whether the reporting accountant has obtained the available facts relevant to form a conclusion, unless

- a. the reporting accountant is engaged to issue a written report or provide oral advice on the application of the requirements of an applicable financial reporting framework to a specific transaction, as described in paragraphs .01*a* and .02*a*, and
- b. the reporting accountant is engaged to provide recurring accounting and reporting advice (for example, bookkeeping or assistance in formulating accounting positions in selected matters, which are services commonly performed by an advisory accountant) and
 - i. does not believe that a second opinion is being requested,
 - ii. has full access to management, and
 - iii. believes that the relevant information has been obtained in order to issue a written report or provide oral advice regarding the application of the requirements of an applicable financial reporting framework to an entity's specific transaction.

If the reporting accountant determines in accordance with the preceding *a–b* that it is not necessary to consult with the continuing accountant, the reporting accountant should document the rationale for not consulting. (Ref: par. .A2–.A4)

Written Report (Ref: par. .A5–.A7)

.14 The reporting accountant's written report should be addressed to the requesting party (for example, management or those charged with governance) and should include the following:

- a. A brief description of the nature of the engagement and a statement that the engagement was performed in accordance with this section.
- b. Identification of the specific entity; a description of the specific transaction(s), if applicable; a statement of the relevant facts, circumstances, and assumptions; and a statement about the source of such information.
- c. A statement describing the appropriate application of the requirements of an applicable financial reporting framework (including the country of origin) to the specific transaction or type of report that may be issued on the entity's financial statements and, if appropriate, a description of the reasons for the reporting accountant's conclusion.

- d. A statement that the responsibility for the proper accounting treatment rests with the preparers of the financial statements, who should consult with their continuing accountant.
- e. A statement that any difference in the facts, circumstances, or assumptions presented may change the report.
- f. An alert that restricts the use of the report solely to the specified parties, as required by section 905, *Alert That Restricts the Use of the Auditor's Written Communication*.²
- g. If the reporting accountant is not independent of the entity, a statement indicating the reporting accountant's lack of independence. The reporting accountant is neither required to provide, nor precluded from providing, the reasons for the lack of independence; however, if the reporting accountant chooses to provide the reasons for the lack of independence, the reporting accountant should include all the reasons therefor.

[As amended, December 2011, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01b)

.A1 Examples of the types of reports or illustrative report wording that a reporting accountant may provide include the following:

- A report expressing a modified opinion versus a report expressing an unmodified opinion
- A report prepared in accordance with auditing standards generally accepted in the United States of America versus a report prepared in accordance with international auditing standards
- Wording that might be included in a modified opinion

Engagement Planning and Performance

.A2 The responsibilities of an entity's continuing accountant to respond to inquiries by the reporting accountant are the same as the responsibilities of a predecessor auditor to respond to inquiries by the auditor. Section 210, *Terms of Engagement*, addresses the responsibilities of a predecessor auditor.³ (Ref: par. .12f-.13)

.A3 The continuing accountant may provide information related to the form and substance of the specific transaction that is not otherwise available to the reporting accountant regarding, for example, the following:

- How management has applied the requirements of an applicable financial reporting framework to similar transactions
- Whether the method of accounting recommended by the continuing accountant is disputed by management

² See paragraphs .06a–b and .07 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. [Footnote added, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

³ Paragraph .A30 of section 210, *Terms of Engagement*. [Footnote renumbered by the issuance of SAS No. 125, December 2012.]

- The continuing accountant's conclusion on the application of the requirements of an applicable financial reporting framework to the specific transaction or the type of report that may be issued on the entity's financial statements (Ref: par. .12f-.13)

.A4 When determining whether the criteria in paragraph .13 are satisfied such that consultation with the continuing accountant is not necessary, the reporting accountant may consider the following:

- The nature of the engagement
- Whether the reporting accountant believes that full knowledge of the form and substance of the transaction has been obtained
- How management has applied the requirements of the applicable financial reporting framework to similar transactions in the past
- Whether management has discussed the method of accounting with the continuing accountant

A recurring engagement for a reporting accountant may constitute the effective outsourcing of certain controllership or other financial reporting functions or involve financial reporting advisory services. Such an engagement may allow the reporting accountant to have complete access to management. (Ref: par. .08 and .13)

Written Report (Ref: par. .14)

.A5 Although the reporting requirements in paragraph .14 only apply to written reports, reporting accountants may find the requirements useful when providing oral advice.

.A6 The alert that restricts the use of the reporting accountant's written report referred to in paragraph .14f is not intended to preclude distribution of the report to the continuing accountant. [As amended, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

.A7 The exhibit "Illustrative Written Report to the Requesting Entity" provides an example of a written report to the requesting party.

.A8

Exhibit—Illustrative Written Report to the Requesting Party

The following is an illustration of the reporting accountant's written report to the requesting party (for example, management or those charged with governance) on the application of the requirements of accounting principles generally accepted in the United States of America to a specific transaction.

Introduction

We have been engaged to report on the appropriate application of the requirements of accounting principles generally accepted in the United States of America to the specific transaction described below. This report is being issued to ABC Company for assistance in evaluating accounting policies for the described specific transaction. Our engagement has been conducted in accordance with Statement on Auditing Standards No. 122 section 915, *Reports on Application of Requirements of an Applicable Financial Reporting Framework*.

Description of Transaction

The facts, circumstances, and assumptions relevant to the specific transaction as provided to us by the management of ABC Company are as follows: *[Text discussing the facts, circumstances, and assumptions relevant to the specific transaction]*

Appropriate Accounting Principles

[Text discussing accounting principles generally accepted in the United States of America and how they apply to the described transaction]

Concluding Comments

The ultimate responsibility for the decision on the appropriate application of the requirements of accounting principles generally accepted in the United States of America for an actual transaction rests with the preparers of financial statements, who should consult with their continuing accountant. Our conclusion on the appropriate application of the requirements of accounting principles generally accepted in the United States of America for the described specific transaction is based solely on the facts provided to us as previously described; should these facts and circumstances differ, our conclusion may change.

Restricted Use

This report is intended solely for the information and use of those charged with governance and management of ABC Company and is not intended to be and should not be used by anyone other than these specified parties.

AU-C Section 920

Letters for Underwriters and Certain Other Requesting Parties

Source: SAS No. 122; SAS No. 125.

Effective for comfort letters issued on or after December 15, 2012.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibilities when engaged to issue letters (commonly referred to as *comfort letters*) to requesting parties in connection with a nonissuer entity's financial statements included in registration statements filed with the Securities and Exchange Commission (SEC) under the Securities Act of 1933 (the 1933 Act) (for example, inclusion of the nonissuer entity's financial statements as required by either Rule 3-05 or 3-09 of Regulation S-X) or included in other securities offerings.

.02 Auditors' services include audits or reviews of financial statements included in securities offerings. In connection with the securities offerings, auditors are often requested to issue comfort letters to certain requesting parties. The auditor is not required by generally accepted auditing standards (GAAS) to accept an engagement to issue a comfort letter.

.03 The service of providing letters for underwriters developed following the passing of the 1933 Act. Section 11 of the 1933 Act provides that underwriters, among others, could be liable if any part of a registration statement contains material omissions or misstatements. The 1933 Act also provides for an affirmative defense for underwriters if it can be demonstrated that, after a reasonable investigation, the underwriter has reasonable grounds to believe that no material omissions or misstatements existed in a securities offering. An auditor issuing a comfort letter is one of a number of procedures that may be used to establish that an underwriter has conducted a reasonable investigation. Consequently, underwriters may request auditors to assist them in developing a record of reasonable investigation.

.04 The subjects that may be covered in a comfort letter include

- the independence of the auditor.
- whether the audited financial statements included in the securities offering comply regarding form, in all material respects, with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC.
- unaudited financial statements, condensed interim financial information, capsule financial information, pro forma financial information, financial forecasts, management's discussion and analysis (MD&A), and changes in selected financial statement items during a period subsequent to the date and period of the latest financial statements included in the securities offering.

- tables, statistics, and other financial information included in the securities offering.
- negative assurance about whether certain nonfinancial statement information included in the securities offering complies regarding form, in all material respects, with Regulation S-K.¹

Effective Date

.05 This section is effective for comfort letters issued on or after December 15, 2012.

Objectives

.06 The objectives of the auditor, when engaged to issue a letter to a requesting party in connection with an entity's financial statements included in a securities offering, are to

- a. address appropriately the acceptance of the engagement and the scope of services; and
- b. issue a letter with the appropriate form and content.

Definitions

.07 For purposes of this section, the following terms have the meanings attributed as follows:

Capsule financial information. Unaudited summarized interim financial information for periods subsequent to the periods covered by the audited financial statements or unaudited interim financial information included in the securities offering. Capsule financial information may be presented in narrative or tabular form and is often provided for the most recent interim period and for the corresponding period of the prior year.

Change period. The period ending on the cut-off date and ordinarily beginning, for balance sheet items, immediately after the date of the latest balance sheet in the securities offering and, for income statement items, immediately after the latest period for which such items are presented in the securities offering.

Closing date. The date on which the issuer of the securities or selling security holder delivers the securities to the underwriter in exchange for the proceeds of the offering.

Comfort letter. A letter issued by an auditor in accordance with this section to requesting parties in connection with an entity's financial statements included in a securities offering.

Comparison date and comparison period. The date as of which, and period for which, data at the cut-off date and data for the change period are to be compared.

¹ Regulation S-K, "Standard Instructions for Filing Forms Under Securities Act of 1933, Securities Exchange Act of 1934 and Energy Policy and Conservation Act of 1975."

Cut-off date. The date through which certain procedures described in the comfort letter are to relate.

Effective date. The date on which the securities offering becomes effective.

Entity. The party whose financial statements are the subject of the engagement.

Negative assurance. A statement that, based on the procedures performed, nothing has come to the auditor's attention that caused the auditor to believe that specified matters do not meet specified criteria (for example, that nothing came to the auditor's attention that caused the auditor to believe that any material modifications should be made to the unaudited interim financial information for it to be in accordance with generally accepted accounting principles).

Requesting party. One of the following specified parties requesting a comfort letter, which has negotiated an agreement with the entity:

- An underwriter
- Other parties that are conducting a review process that is, or will be, substantially consistent with the due diligence process performed when the securities offering is, or if the securities offering was, being registered pursuant to the 1933 Act, as follows:
 - A selling shareholder, sales agent, or other party with a statutory due diligence defense under Section 11 of the 1933 Act
 - A broker-dealer or other financial intermediary acting as principal or agent in a securities offering in connection with the following types of securities offerings:
 - Foreign offerings, including Regulation S, Eurodollar, and other offshore offerings
 - Transactions that are exempt from the registration requirements of Section 5 of the 1933 Act, including those pursuant to Regulation A, Regulation D, and Rule 144A
 - Offerings of securities issued or backed by governmental, municipal, banking, tax-exempt, or other entities that are exempt from registration under the 1933 Act
 - The buyer or seller in connection with acquisition transactions in which there is an exchange of stock (Ref: par. .A1)

Securities offerings. One of the following types of securities offerings:

- Registration of securities with the SEC under the 1933 Act
- Foreign offerings, including Regulation S, Eurodollar, and other offshore offerings

Special Considerations in the United States

- Transactions that are exempt from the registration requirements of Section 5 of the 1933 Act, including those pursuant to Regulation A, Regulation D, and Rule 144A
- Offerings of securities issued or backed by governmental, municipal, banking, tax-exempt, or other entities that are exempt from registration under the 1933 Act
- Acquisition transactions in which there is an exchange of stock

Underwriter. As defined in the 1933 Act

any person who has purchased from an issuer with a view to, or offers or sells for an issuer in connection with, the distribution of any security, or participates or has a direct or indirect participation in any such undertaking, or participates or has a participation in the direct or indirect underwriting of any such undertaking; but such term shall not include a person whose interest is limited to a commission from an underwriter or dealer not in excess of the usual and customary distributors' or sellers' commission. As used in this paragraph, the term "issuer" shall include, in addition to an issuer, any person directly or indirectly controlling or controlled by the issuer, or any person under direct or indirect common control with the issuer.

Except when the context otherwise requires, the word *underwriter*, as used in this section, refers to the managing, or lead, underwriter, who typically negotiates the underwriting agreement or purchase agreement (hereafter referred to as the *underwriting agreement*) for a group of underwriters whose exact composition is not determined until shortly before a securities offering becomes effective.

.08 References in this section to information that is *included* in a document are to be read to also encompass information that is *incorporated by reference* in that document.

Requirements

Engagement Acceptance

.09 The auditor should determine whether to accept an engagement to issue a comfort letter in connection with financial statements included in a securities offering. The auditor is not required to accept such an engagement.

.10 The auditor should provide a comfort letter in connection with financial statements included in a securities offering only to

- a. underwriters.
- b. other parties meeting the definition of a *requesting party* in paragraph .07.

.11 The auditor should request the requesting party to provide either

- a. a written opinion from external legal counsel that the requesting party has a statutory due diligence defense under Section 11 of the 1933 Act; or
- b. a representation letter that
 - i. is addressed to the auditor;
 - ii. contains the statement, "The review process applied to the information relating to the issuer, is, or will be, substantially consistent with the due diligence process that we

would perform if this securities offering were being registered pursuant to the Securities Act of 1933. We are knowledgeable with respect to that due diligence process."; and (Ref: par. .A3–A4)

iii. is signed by the requesting party.

.12 If a requesting party, other than an underwriter, requests a comfort letter but does not provide the legal opinion or representation letter described in paragraph .11, the auditor should not provide negative assurance on the financial statements as a whole, or on any of the specified elements, accounts, or items thereof. In such circumstances, the comfort letter should include the following statements: (Ref: par. .A5)

- a. It should be understood that we have no responsibility for establishing (and did not establish) the scope and nature of the procedures enumerated in the preceding paragraphs; rather, the procedures enumerated therein are those that the requesting party asked us to perform. Accordingly, we make no representations regarding questions of legal interpretation or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraphs; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages previously listed as set forth in the [offering circular]. Further, we have addressed ourselves solely to the foregoing data and make no representations regarding the adequacy of disclosures or whether any material facts have been omitted. This letter relates only to the financial statement items previously specified and does not extend to any financial statement of the company as a whole. (Ref: par. .A6)
- b. The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Had we performed additional procedures or had we conducted an audit or a review of the company's [give dates of any interim financial statements] consolidated financial statements in accordance with auditing standards generally accepted in the United States of America, other matters might have come to our attention that would have been reported to you.
- c. These procedures should not be taken to supplant any additional inquiries or procedures that you would undertake in your consideration of the proposed offering.
- d. This letter is solely for your information and to assist you in your inquiries in connection with the offering of the securities covered by the [offering circular]. It is not to be used, circulated, quoted, or otherwise referred to for any other purpose, including but not limited to, the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the offering document or any other document, except that reference may be made to it in any list of closing documents pertaining to the offering of the securities covered by the offering document.
- e. We have no responsibility to update this letter for events and circumstances occurring after [cut-off date].

.13 The auditor should not provide a comfort letter to any parties other than a requesting party as defined in this section. (Ref: par. .A7)

.14 When issuing a letter in accordance with this section, the auditor should not circumvent the requirements of this section by issuing any additional

letters or reports to a requesting party in connection with the securities offering in which the auditor comments on items for which commenting is otherwise precluded by this section.

Agreeing Upon the Scope of Services

.15 The auditor should obtain an understanding of the specific matters to be addressed in the comfort letter. (Ref: par. .A8)

.16 The auditor should ask to meet with the requesting party and the entity to discuss the procedures to be followed in connection with an engagement to issue a comfort letter. (Ref: par. .A9–.A10)

.17 The auditor should clearly state in any discussion of procedures that the auditor cannot provide any assurance regarding the sufficiency of the procedures for the requesting party's purposes. (Ref: par. .A11–.A14)

.18 The auditor should provide a draft of the form of the letter the auditor expects to furnish. To the extent possible, the draft should deal with all matters to be covered in the final letter and should use exactly the same terms as those to be used in the final letter, subject to the understanding that the comments in the final letter cannot be determined until the procedures underlying it have been performed. The draft letter should be identified as a draft to avoid giving the impression that the procedures described therein have been performed. (Ref: par. .A15)

.19 In both the draft and final forms of the comfort letter, the auditor should clearly describe the procedures performed by the auditor. The auditor should not state or imply that the auditor is carrying out such procedures as the auditor considers necessary because such statements or implications may lead to misunderstanding about the responsibility for the sufficiency of the procedures for the requesting party purposes.

.20 If the auditor has been unable to have a discussion with the requesting party about the auditor's planned procedures, the auditor should describe in the draft letter those procedures specified in the draft underwriting agreement that the auditor is willing to perform. (Ref: par. .A16–.A17)

.21 When the comfort letter relates to group financial statements, the auditor of the group financial statements should read the comfort letters of the component auditors reporting on significant components. The auditor should state in the comfort letter that

- a. reading the component auditors' letters was one of the procedures followed, and
- b. the procedures, other than reading the component auditors' letters, performed by the auditor of the group financial statements, relate solely to entities audited by the auditor of the group financial statements and to the group financial statements. (Ref: par. .A18)

.22 When comfort letters are requested from more than one auditor, the requirements of this section apply to each auditor. (Ref: par. .A19)

.23 In competitive bidding situations in which legal counsel for the requesting party acts as the requesting party's representative prior to opening and acceptance of the bid, the auditor should carry out the discussions and other communications required by this section with the legal counsel until the requesting party is selected. In such circumstances, the auditor should not agree to provide a comfort letter addressed to the entity, legal counsel, or a nonspecific addressee, such as "any or all underwriters to be selected." If the auditor

agrees to provide a draft comfort letter, the draft comfort letter should include a legend describing the letter's purpose and limitations. (Ref: par. .A20–.A23)

Format and Contents of Comfort Letters

Dating

.24 The letter should state that the inquiries and other procedures described in the letter did not cover the period from the cut-off date to the date of the letter. (Ref: par. .A24–.A25)

.25 When an additional letter, dated at or shortly before the closing date, is requested, the auditor should carry out the specified procedures and inquiries as of the cut-off date for each letter. The subsequent letter should relate only to information in the securities offering as most recently amended. (Ref: par. .A26)

Addressee

.26 The letter should be addressed only to the requesting party, or both the requesting party and the entity, and should not be provided to any other parties. (Ref: par. .A27)

Introductory Paragraph

.27 The letter should contain an introductory paragraph that identifies the financial statements and the securities offering.

Auditor's Report

.28 The auditor should, in the comfort letter, make reference to, but not repeat, the report on the audited financial statements included in the securities offering. (Ref: par. .A28)

.29 When the auditor's report on the audited financial statements included in the securities offering contains an emphasis-of-matter or other-matter paragraph addressing matters other than consistency of application of accounting policies,² the auditor should refer to that fact in the comfort letter and discuss the subject matter of the paragraph. In those instances in which the SEC accepts a modified opinion on historical financial statements, the auditor should refer to the modification in the opening paragraph of the comfort letter and discuss the subject matter of the modification. (Ref: par. .A29–.A30)

.30 The auditor should not provide negative assurance regarding the auditor's report or regarding financial statements that have been audited and are reported on in the securities offering by other auditors. (Ref: par. .A31)

.31 In the introductory paragraph of the comfort letter, if the auditor refers to reports that the auditor has previously issued other than the report on the audited financial statements included in the securities offering, the auditor should not repeat the reports in the comfort letter or otherwise imply that the auditor is reporting as of the date of the comfort letter or assuming responsibility for the sufficiency of the procedures for the requesting party's purposes. (Ref: par. .A32–.A33)

[.32] [Paragraph deleted, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

² See section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

.33 The auditor should not mention, refer to, or attach to the comfort letter any report or other auditor's written communication that includes an alert that restricts the use of the auditor's written communication, in accordance with section 905, *Alert That Restricts the Use of the Auditor's Written Communication*, or any restricted use reports issued in accordance with Statements on Standards for Attestation Engagements or Statements on Standards for Accounting and Review Services. (Ref: par. .A34) [As amended, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

Representations

.34 The auditor should refer in the comfort letter to the requesting party's representations when the representation letter described in paragraph .11 has been provided. (Ref: par. .A35)

Independence

.35 The auditor should state in the comfort letter that the auditor is independent, or the date through which the auditor was independent, with respect to the entity, and identify the applicable independence rules. (Ref: par. .A36–.A38)

Compliance With SEC Requirements

.36 If the auditor is requested to include an opinion in the comfort letter on whether the financial statements covered by the auditor's report comply as to form with the pertinent accounting requirements adopted by the SEC, the auditor's opinion should refer to compliance as to form, in all material respects, with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC. (Ref: par. .A39–.A41)

.37 Certain financial statements may be incorporated in a registration statement under the 1933 Act by reference to filings under the Securities Exchange Act of 1934 (the 1934 Act). If the auditor is requested to include an opinion in the comfort letter on whether the financial statements covered by the auditor's report comply as to form with the pertinent accounting requirements adopted by the SEC, the auditor's opinion should refer to whether the audited financial statements incorporated by reference in the registration statement comply as to form, in all material respects, with the applicable accounting requirements of the 1934 Act and the related rules and regulations adopted by the SEC. However, the auditor should not opine on compliance with the provisions of the 1934 Act regarding internal control over financial reporting.

.38 If the auditor has been requested to include an opinion in the comfort letter on whether the financial statements covered by the auditor's report comply as to form with the pertinent accounting requirements adopted by the SEC, and a material departure from the pertinent rules and regulations adopted by the SEC exists, the auditor should disclose the departure in the comfort letter. (Ref: par. .A42)

.39 The auditor should express an opinion on compliance as to form with requirements under the rules and regulations adopted by the SEC only with respect to those rules and regulations applicable to the form and content of financial statements that the auditor has audited. When the financial statements or financial statement schedules have not been audited, the auditor is limited to providing negative assurance on compliance as to form.

.40 The auditor should not comment in a comfort letter on compliance as to form of MD&A with rules and regulations adopted by the SEC. (Ref: par. .A43)

Commenting in a Comfort Letter on Information Other Than Audited Financial Statements

General

.41 When commenting in a comfort letter on information other than audited financial statements, the auditor should

- a. describe the procedures performed by the auditor, as required by paragraph .19. (Ref: par. .A44–.A46)
- b. describe the criteria specified by the requesting party.
- c. state that the procedures performed with respect to interim periods may not disclose matters of significance regarding certain matters about which negative assurance is requested. (Ref: par. .A47–.A48)

.42 The auditor should not, in the comfort letter

- a. make any statements, or imply, that the auditor has applied procedures that the auditor determined to be necessary or sufficient for the requesting party's purposes.
- b. use terms of uncertain meaning (such as *general review*, *limited review*, *reconcile*, *check*, or *test*) in describing the work unless the procedures encompassed by these terms are described in the comfort letter.
- c. make a statement that nothing else has come to the auditor's attention that would be of interest to the requesting party as a result of carrying out the specified procedures. (Ref: par. .A49)

.43 When the report on the audited financial statements in the securities offering is a modified report, the auditor should consider the effect on providing negative assurance in the comfort letter regarding subsequent interim financial information included in the securities offering or regarding an absence of specified subsequent changes. The auditor should also follow the requirements of paragraph .29. (Ref: par. .A50)

Knowledge of Internal Control

.44 The auditor should obtain an understanding of the entity's internal control over financial reporting for both annual and interim periods when commenting in a comfort letter on

- a. unaudited interim financial information, including unaudited condensed interim financial information;
- b. capsule financial information;
- c. a financial forecast when historical financial statements provide a basis for one or more significant assumptions for the forecast; or
- d. subsequent changes in specified financial statement items. (Ref: par. .A51)

Unaudited Interim Financial Information

.45 The auditor should provide negative assurance on unaudited interim financial information included in the securities offering only if the auditor has

conducted a review of the interim financial information in accordance with GAAS applicable to reviews of interim financial information. If the auditor has not conducted a review in accordance with GAAS applicable to reviews of interim financial information, the auditor is limited to reporting procedures performed and findings obtained. (Ref: par. .A52)

.46 The negative assurance provided regarding such unaudited interim information should be about whether

- a. any material modifications should be made to the unaudited interim financial information for it to be in accordance with the applicable financial reporting framework, and
- b. the unaudited interim financial information complies as to form in all material respects with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC, if applicable.

.47 If the auditor states in the comfort letter that the auditor has performed a review of the unaudited interim financial information, the auditor should attach the review report to the letter unless the review report is already included in the securities offering. (Ref: par. .A53)

.48 The auditor should specifically identify, in the comfort letter, any unaudited interim financial information and should state that the auditor has not audited the interim financial information in accordance with GAAS and does not express an opinion concerning such information. (Ref: par. .A54–.A55)

.49 When the auditor is requested by the requesting party to provide negative assurance on the unaudited interim financial information, or information extracted therefrom, for a monthly period ending after the latest financial statements included in the securities offering, the requirements in paragraphs .45–.48 apply. In such a circumstance, a copy of the unaudited interim financial information should be attached to the comfort letter.

Capsule Financial Information

.50 The auditor should not provide negative assurance regarding whether the selected capsule financial information is in accordance with the applicable financial reporting framework unless

- a. the auditor has performed a review of the financial statements underlying the capsule financial information in accordance with GAAS applicable to reviews of interim financial information, and
- b. the selected capsule financial information is in accordance with minimum disclosure requirements of the applicable financial reporting framework for interim financial information.

If these conditions have not been met, the auditor is limited to reporting procedures performed and findings obtained. (Ref: par. .A56)

.51 The auditor should not provide negative assurance on selected capsule financial information regarding whether the dollar amounts were determined on a basis substantially consistent with that of the corresponding amounts in the audited financial statements unless the auditor has performed a review of the financial statements underlying the capsule financial information in accordance with GAAS applicable to reviews of interim financial information. Otherwise, the auditor is limited to reporting procedures performed and findings obtained. (Ref: par. .A57)

Pro Forma Financial Information

.52 The auditor should not comment in a comfort letter on pro forma financial information unless the auditor has an appropriate level of knowledge of the accounting and financial reporting practices of the entity. (Ref: par. .A58)

.53 The auditor should not provide negative assurance in a comfort letter on pro forma financial information, including negative assurance on

- the application of pro forma adjustments to historical amounts,
- the compilation of pro forma financial information, or
- whether the pro forma financial information complies as to form in all material respects with the applicable accounting requirements of Rule 11-02 of Regulation S-X,³

unless the auditor has obtained the required knowledge described in paragraph .52 and has performed

- a. an audit of the annual financial statements, or
- b. a review of the interim financial statements, in accordance with GAAS applicable to reviews of interim financial information,

of the entity (or, in the case of a business combination, of a significant constituent part of the combined entity) to which the pro forma adjustments were applied. In the case of a business combination, the historical financial statements of each constituent part of the combined entity on which the pro forma financial information is based should be audited or reviewed. If these conditions are not met, the auditor is limited to reporting procedures performed and findings obtained. (Ref: par. .A59)

Financial Forecasts

.54 When performing procedures agreed to with the requesting party on a financial forecast and commenting thereon in a comfort letter, the auditor should

- a. obtain an understanding of the entity's internal control over financial reporting for both annual and interim periods, as required by paragraph .44;
- b. perform procedures required by AT section 301, *Financial Forecasts and Projections*, for reporting on the compilation of a forecast;⁴
- c. issue a report on the compilation of prospective financial information in accordance with AT section 301 and attach the report thereon to the comfort letter;⁵ and
- d. perform additional procedures as requested by the requesting party and report the findings in the comfort letter. (Ref: par. .A60–.A61)

.55 The auditor should not provide negative assurance on the results of procedures performed on a financial forecast.

.56 The auditor should not provide negative assurance with respect to compliance of the financial forecast with Rule 11-03 of Regulation S-X unless the

³ Regulation S-X, "Form and Content of and Requirements for Financial Statements, Securities Act of 1933, Securities Exchange Act of 1934, Public Utility Holding Company Act of 1935, Investment Company Act of 1940, and Energy Policy and Conservation Act of 1975."

⁴ Paragraph .69 of AT section 301, *Financial Forecasts and Projections*.

⁵ Paragraphs .18–.19 of AT section 301.

auditor has performed an examination of the financial forecast in accordance with AT section 301.

.57 If the financial forecast is included in the securities offering, the auditor should not issue a comfort letter unless the financial forecast is accompanied by an indication that the auditor has not examined the financial forecast and, therefore, does not express an opinion on it. (Ref: par. .A62)

Subsequent Changes

.58 The auditor should base comments regarding subsequent changes in specified financial statement items solely on the limited procedures performed with respect to the change period as determined by the requesting party. (Ref: par. .A63–.A65)

.59 The auditor should provide negative assurance in the comfort letter regarding subsequent changes in specified financial statement items only as of a date less than 135 days from the end of the most recent period for which the auditor has performed an audit or a review. (Ref: par. .A66)

.60 When the requesting party requests negative assurance regarding subsequent changes in specified financial statement items as of a date 135 days or more from the end of the most recent period for which the auditor has performed an audit or a review, the auditor is limited to reporting procedures performed and findings obtained.

.61 In commenting on subsequent changes, the auditor should not characterize subsequent changes using ambiguous terms, such as referring to the change as "adverse." The auditor should note in the comfort letter if there has been a change in the application of the requirements of the applicable financial reporting framework. (Ref: par. .A67–.A68)

.62 The auditor should comment only on the occurrence of subsequent changes in specified financial statement items that are not disclosed in the securities offering. Accordingly, the auditor should include the phrase *except for changes, increases, or decreases that the securities offering discloses have occurred or may occur* in the comfort letter when it has come to the auditor's attention that a change, increase, or decrease has occurred during the change period, and the amount of such change, increase, or decrease is disclosed in the securities offering. This phrase need not be included in the letter when no changes, increases, or decreases in the specified financial statement items are disclosed in the securities offering. (Ref: par. .A69–.A70)

.63 The auditor should identify in the comfort letter in both draft and final form the dates as of which, and periods for which, data at the cut-off date and data for the change period are to be compared, whether or not specified in the underwriting agreement. (Ref: par. .A71–.A72)

.64 If the requesting party requests the use of a change period or periods other than those described in paragraph .07, the auditor should explain to the requesting party the implications of using an earlier date. If the requesting party, nonetheless, requests the use of a change period or periods other than those described in paragraph .07, the auditor is permitted to use the period or periods requested. (Ref: par. .A73)

Tables, Statistics, and Other Financial Information

.65 The auditor should not comment in a comfort letter on tables, statistics, and other financial information appearing in the securities offering unless the information

- a. is expressed in dollars (or percentages derived from such dollar amounts) and has been obtained from accounting records that are subject to internal control over financial reporting, or
- b. has been derived directly from such accounting records by analysis or computation. (Ref: par. .A74)

.66 The auditor should not comment in a comfort letter on quantitative information that has been obtained from accounting records unless the information is subject to the same controls over financial reporting as the dollar amounts.

.67 The auditor should not comment in a comfort letter on tables, statistics, and other financial information relating to an unaudited period unless the auditor has

- a. performed an audit of the entity's financial statements for a period including, or immediately prior to, the unaudited period or completed an audit for a later period, or
- b. otherwise obtained knowledge of the entity's internal control over financial reporting.

.68 The auditor should not use the term *presents fairly* in comments concerning tables, statistics, and other financial information (Ref: par. .A75) and should not comment on

- a. information subject to legal interpretation, such as beneficial share ownership;
- b. nonfinancial data presented in MD&A, unless the auditor has conducted an examination or review of MD&A in accordance with AT section 701, *Management's Discussion and Analysis*; or (Ref: par. .A76)
- c. matters merely because the auditor is capable of reading, counting, measuring, or performing other functions that might be applicable.

.69 The auditor's comments in the comfort letter concerning tables, statistics, and other financial information included in the securities offering should include

- a. a clear identification of the specific information commented on;
- b. a description of the procedures performed; and
- c. the findings, expressed in terms of agreement between items compared. (Ref: par. .A77–.A78)

.70 With respect to the acceptability of methods of allocation used in deriving the figures commented on, the auditor should comment only to the extent to which such allocation is made in, or can be derived directly by analysis or computation from, the entity's accounting records. Such comments, if made, should make clear that

- a. such allocations may be, to a substantial extent, arbitrary.
- b. the method of allocation used is not the only acceptable method.
- c. other acceptable methods of allocation might produce significantly different results.

.71 The comfort letter should state that the auditor makes no representations regarding

- a. any matter of legal interpretation;
- b. the completeness or adequacy of disclosure; and

- c. the adequacy of the procedures followed, and that such procedures would not necessarily disclose material misstatements or omissions in the information to which the comments relate. (Ref: par. .A79–.A80)

Compliance as to Form With Regulation S-K

.72 The auditor should not provide negative assurance about whether certain financial information in registration statements, included because of specific requirements of Regulation S-K, is in conformity with the disclosure requirements of Regulation S-K unless the following conditions are met:

- a. The information is derived, directly or by analysis or computation, from the accounting records subject to internal control over financial reporting.
- b. The information is capable of evaluation against reasonable criteria that have been established by the SEC. (Ref: par. .A81 and .A84–.A87)

.73 The auditor should not express an opinion on conformity with the disclosure requirements of Regulation S-K. (Ref: par. .A82–.A83)

Concluding Paragraph

.74 The comfort letter should include a concluding paragraph restricting the use of the comfort letter for the information of the addressees and to assist the requesting parties in connection with the securities offering. (Ref: par. .A88)

Disclosure of Subsequently Discovered Matters

.75 The auditor should inform the entity when the auditor has discovered matters that require mention in the final comfort letter but were not mentioned in the draft letter that has been furnished to the requesting party. If the entity decides that disclosure will not be made in the securities offering, the auditor should inform the entity that the matters will be mentioned in the comfort letter and should recommend that the requesting party be informed promptly. (Ref: par. .A89–.A90)

Application and Other Explanatory Material

Definitions (Ref: par. .07)

.A1 An example of a comfort letter in connection with an acquisition transaction in which there is an exchange of stock is a cross-comfort letter related to a typical Form S-4 or merger proxy situation. An auditor's report on a preliminary investigation in connection with a proposed transaction (for example, a merger, an acquisition, or a financing) is not covered by this section; the guidance in AT section 201, *Agreed-Upon Procedures Engagements*, may apply to such engagements.

Engagement Acceptance (Ref: par. .09–.13)

.A2 An attorney's letter indicating that a party "may" be deemed to be an underwriter or has liability substantially equivalent to that of an underwriter under the securities laws would not meet this requirement.

.A3 What is "substantially consistent" may vary from situation to situation and may not be the same as that done in a registered offering of the same securities for the same issuer. Whether the procedures being, or to be, followed

will be "substantially consistent" is determined by the requesting party on a case-by-case basis.

.A4 Exhibit A, "Illustration of Representation Letter From Requesting Party," contains illustrative wording for a representation letter when the requesting party is not an underwriter.

.A5 Exhibit B, "Examples of Comfort Letters," contains examples of comfort letters. Example Q, "Letter to a Requesting Party That Has Not Provided the Legal Opinion or the Representation Letter Required by Paragraph .11," of this exhibit provides an example of a comfort letter issued to a requesting party that has not provided the representation letter described in paragraph .11.

.A6 Interpretation No. 2, "Responding to Requests for Reports on Matters Relating to Solvency," of AT section 101, *Attest Engagements* (AT sec. 9101 par. .23–.33), contains guidance on additional statements to be included if this comfort letter is requested in connection with a secured debt offering.

.A7 Although the auditor is not permitted to provide a comfort letter other than to requesting parties, the auditor, instead, may provide a report on agreed-upon procedures. AT section 201 provides guidance on such reports.

Agreeing Upon the Scope of Services (Ref: par. .15–.23)

.A8 The underwriting agreement may specify the matters to be addressed in the comfort letter. If the underwriting agreement or draft underwriting agreement is not available or does not specify the matters to be addressed, the understanding of the scope of the comfort letter may be obtained from a description furnished by the entity or requesting party. Obtaining this understanding as early as possible, and before the auditor provides a draft of the form of the letter the auditor expects to furnish, assists the auditor in determining whether the auditor will be able to furnish a letter in acceptable form.

.A9 If the requesting party refuses to meet together with the entity, the auditor may consider the implications in determining whether to accept the engagement.

.A10 During this meeting, the auditor may describe procedures that are frequently followed. Exhibit B provides examples of comfort letters that include these procedures. Because of the auditor's knowledge of the entity, such a meeting may assist the requesting party in reaching a decision about procedures to be followed by the auditor.

.A11 When financial information in a securities offering has not been audited in accordance with GAAS and, accordingly, is not covered by an auditor's opinion, the nature of the comments that the auditor can properly make with respect to that financial information is limited. As noted in paragraph .03, obtaining a comfort letter from an auditor is one procedure used by a requesting party to establish that the requesting party has conducted a "reasonable investigation," as a defense against possible claims under Section 11 of the 1933 Act. What constitutes a reasonable investigation of unaudited financial information sufficient to satisfy a requesting party's purposes is a matter of legal interpretation. Consequently, only the requesting party can determine what is sufficient for the requesting party's purposes.

.A12 The assistance that the auditor can provide by way of a comfort letter is subject to limitations. One limitation is that auditors can properly comment in their professional capacity only on matters to which their professional expertise is relevant. Another limitation is that procedures contemplated in a comfort letter, which do not constitute an audit of financial statements, do not provide

the auditor with a basis for expressing an opinion. Such limited procedures may bring to the auditor's attention significant findings or issues affecting the financial information, but they do not provide assurance that the auditor will become aware of any or all significant findings or issues that would be disclosed in an audit. Accordingly, a risk exists that the auditor may have provided negative assurance on the absence of conditions or matters that may prove to have existed.

.A13 Comfort letters are not required under the 1933 Act, and copies are not filed with the SEC. Nonetheless, it is a common condition of an underwriting agreement in connection with the offering for sale of securities registered with the SEC under the 1933 Act that the auditor is to furnish a comfort letter. Some underwriters do not make the receipt of a comfort letter a condition of the underwriting agreement but, nevertheless, ask for such a letter.

.A14 Exhibit B, example A-1, "Typical Comfort Letter for a 1933 Act Offering," provides an illustration of an appropriate way of expressing that the auditor cannot provide any assurance regarding the sufficiency of the procedures for the requesting party's purposes.⁶

.A15 By providing a draft letter early in the process, the auditor has the opportunity to clearly show the requesting party what they may expect to receive from the auditor. Thus, the requesting party has the opportunity to discuss further with the auditor the procedures that the auditor expects to perform and to request any additional procedures that the requesting party may desire. If the additional procedures pertain to matters relevant to the auditor's professional competence and the auditor is willing to perform them, a revised draft may be prepared.

.A16 Acceptance by the requesting party of the draft comfort letter (and subsequently by acceptance of the comfort letter in final form) is an indication to the auditor that the requesting party considers the procedures described to be sufficient for the requesting party's purposes. Clearly describing the procedures to be followed by the auditor in the comfort letter avoids misunderstanding about the basis on which the auditor's comments have been made and assists the requesting party in deciding whether the procedures performed are sufficient for the requesting party's purposes.

.A17 The following is an example of a paragraph that may be placed on the draft letter for identification and explanation of its purposes and limitations.

This draft is furnished solely for the purpose of indicating the form of letter that we would expect to be able to furnish [*name of requesting party*] in response to their request, the matters expected to be covered in the letter, and the nature of the procedures that we would expect to carry out with respect to such matters. Based on our discussions with [*name of requesting party*], it is our understanding that the procedures outlined in this draft letter are those they wish us to follow. Unless [*name of requesting party*] informs us otherwise, we shall assume that there are no additional procedures they wish us to follow. The text of the letter itself will depend, of course, on the results of the procedures, which we would not expect to complete until shortly before the letter is given and in no event before the cut-off date indicated therein.

If the auditor has not had any discussions with the requesting party about the auditor's planned procedures, the second sentence in this paragraph would be revised as follows: "In the absence of any discussions with [*name of requesting*

⁶ Paragraph 4 of example A-1, "Typical Comfort Letter for a 1933 Act Offering," in exhibit B, "Examples of Comfort Letters."

party], we have set out in this draft letter those procedures referred to in the draft underwriting agreement (of which we have been furnished a copy) that we are willing to follow."

.A18 Situations may exist in which more than one auditor is involved in the audit of the financial statements of a business and in which the reports of more than one auditor appear in the registration statement. For example, certain significant divisions, branches, or subsidiaries may be audited by component auditors.

.A19 Comfort letters are requested occasionally from more than one auditor, for example, in connection with securities offerings to be used in the subsequent sale of shares issued in recently effected mergers and from predecessor auditors. In such circumstances, it is the entity's responsibility, at the earliest practicable date, to inform any other auditors who may be involved about any letter that may be requested of them and arrange for them to receive a draft of the underwriting agreement so that they may make arrangements at an early date for the preparation of a draft of their letter and for the performance of their procedures. The entity or requesting party is also responsible for arranging for a copy of the comfort letters of component auditors in draft and final form to be provided to the auditor of the group financial statements.

.A20 In certain circumstances, regulations under the 1933 Act permit companies to register a designated amount of securities for continuous or delayed offerings during an extended period by filing one "shelf" registration statement. At the effective date of a shelf registration statement, the registrant may not yet have selected an underwriter. An entity or the legal counsel designated to represent the underwriting group may, however, ask the auditor to issue a comfort letter at the effective date of a shelf registration statement to expedite the due diligence activities of the underwriter when subsequently designated and to avoid later corrections of financial information included in an effective prospectus. However, as stated in paragraph .A11, only the underwriter can determine the procedures that will be sufficient for the underwriter's purposes.

.A21 The auditor may agree to furnish the entity or legal counsel for the underwriting group with a draft comfort letter describing the procedures that the auditor has performed and the comments that the auditor is willing to express as a result of those procedures.

.A22 The following is an example of a legend describing the letter's purpose and limitations.

This draft describes the procedures that we have performed and represents a letter we would be prepared to sign if the managing underwriter had been chosen and requested such a letter. The text of the final letter will depend, of course, on whether the managing underwriter who is selected requests that these and other procedures be performed to meet his or her needs and whether the managing underwriter requests that any of the procedures be updated to the date of issuance of the signed letter.

.A23 A signed comfort letter may be issued to the underwriter selected for the portion of the issue then being offered when the underwriting agreement for an offering is signed and on each closing date.

Format and Contents of Comfort Letters

Dating (Ref: par. .24-.25)

.A24 The letter ordinarily is dated on, or shortly after, the underwriting agreement is signed.

.A25 The underwriting agreement ordinarily specifies the date, often referred to as the *cut-off date*, to which certain procedures described in the letter are to relate, for example, a date five days before the date of the letter. A factor in considering whether to accept the engagement is whether the period between the cut-off date and the date of the letter provides sufficient time to allow the auditor to perform the procedures and prepare the letter.

.A26 Comments included in an earlier letter that relate to information in the securities offering as most recently amended may be incorporated by reference in a subsequent letter. Exhibit B, example C, "Letter Reaffirming Comments in Example A as of a Later Date," provides an example of such reference.

Addressee (Ref: par. .26)

.A27 An example of an appropriate form of address for this purpose is "The Blank Company and XYZ & Company, as Representative of the Several Underwriters." Copies of a comfort letter addressed in accordance with the requirements in paragraph .26 may be provided to the auditor of the group financial statements when a comfort letter related to a component included in group financial statements is issued by a component auditor.

Auditor's Report (Ref: par. .28–.33)

.A28 The requesting party occasionally requests that the auditor repeat in the comfort letter the report on the audited financial statements included in the registration statement. Because of the significance of the date of the auditor's report, the auditor is not permitted to agree to this request.

.A29 Examples of matters addressed in emphasis-of-matter or other-matter paragraphs in the auditor's report that do not affect the opinion on the basic financial statements are

- interim financial information accompanying or included in the notes to audited financial statements,⁷ or
- required supplementary information described in section 730, *Required Supplementary Information*.⁸

.A30 A requesting party may request that the auditor comment in the comfort letter on

- unaudited interim financial information required by item 302(a) of Regulation S-K, or
- required supplementary information.

Section 930, *Interim Financial Information*, applies to unaudited interim financial information, and section 730 applies to required supplementary information. These sections require the auditor to modify the auditor's report on the audited financial statements to refer to such information when

- the scope of the procedures with regard to the information was restricted, or
- when the information appears not to be presented in accordance with the applicable financial reporting framework or, for required supplementary information, applicable guidelines.

Such modifications of the auditor's report in the registration statement would ordinarily be referred to in the opening paragraph of the comfort letter (see

⁷ Paragraphs .40–.41 of section 930, *Interim Financial Information*.

⁸ Paragraphs .07–.09 of section 730, *Required Supplementary Information*.

also paragraph .43). Additional comments on such unaudited information are, therefore, unnecessary. However, if the requesting party requests that the auditor perform procedures with regard to such information in addition to those procedures performed in connection with the review or audit as prescribed by section 930 and section 730, the auditor may do so and report the findings.

.A31 The requesting party occasionally requests negative assurance regarding the auditor's report. Because auditors have a statutory responsibility with respect to their opinion as of the effective date of a securities offering and because the additional significance, if any, of negative assurance is unclear and such assurance may, therefore, give rise to misunderstanding, the auditor is not permitted to provide such negative assurance.

.A32 In the introductory paragraph of the comfort letter, the auditor may refer to the fact that the auditor has issued reports on

- summary financial statements that are derived from audited financial statements.⁹
- interim financial information.¹⁰
- pro forma financial information.¹¹
- a financial forecast.¹²
- MD&A.¹³

.A33 If the reports are not included in the securities offering, they may be attached to the comfort letter.

.A34 An example of an auditor's written communication that includes an alert that restricts the use of the auditor's written communication that is not permitted to be mentioned, referred to, or attached to the comfort letter is an auditor's written communication issued in accordance with section 265, *Communicating Internal Control Related Matters Identified in an Audit*. Examples of restricted use reports that are not permitted to be mentioned, referred to, or attached to the comfort letter include a report on agreed-upon procedures and any restricted use report issued in connection with procedures performed on the entity's internal control over financial reporting, in accordance with AT section 501, *An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements*. [As amended, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

Representations (Ref: par. .34)

.A35 Exhibit B, example A-2, "Typical Comfort Letter for a Non-1933 Act Offering When the Required Representation Letter Has Been Obtained," contains a reference to the requesting party's representations.

Independence (Ref: par. .35)

.A36 Exhibit B, example A-1 contains an illustration of an appropriate statement confirming the auditor's independence under SEC rules and regulations in conjunction with SEC filings.

⁹ See section 810, *Engagements to Report on Summary Financial Statements*.

¹⁰ See section 930.

¹¹ See AT section 401, *Reporting on Pro Forma Financial Information*.

¹² See AT section 301.

¹³ See AT section 701, *Management's Discussion and Analysis*.

.A37 Exhibit B, example A-2 includes an illustration of an appropriate statement confirming the auditor's independence in conjunction with a securities offering when the auditor is independent under AICPA standards.

.A38 The auditors for previously nonaffiliated entities recently acquired by the registrant would not be required to have been independent with respect to the entity whose shares are being registered. Exhibit B, example B, "Letter When a Short-Form Registration Statement Is Filed Incorporating Previously Filed Form 8-K by Reference," includes an illustration of an appropriate statement concerning the auditor's independence in such a case.

Compliance With SEC Requirements (Ref: par. .36–.40)

.A39 Although the guidance in this section generally addresses comfort letters issued in connection with securities offerings registered pursuant to the 1933 Act, it also provides guidance on comfort letters issued in other securities transactions. However, the guidance that specifically refers to compliance of the information commented on with SEC rules and regulations, such as compliance with Regulation S-X or S-K, generally applies only to comfort letters issued in connection with securities offerings registered pursuant to the 1933 Act.

.A40 The phrase *rules and regulations adopted by the SEC* is used because auditors are not expected to be familiar with, or express opinions on compliance with, informal positions of the SEC staff.

.A41 An illustration of an appropriate opinion regarding compliance as to form with pertinent accounting requirements adopted by the SEC is as follows:

In our opinion [*include phrase except as disclosed in the registration statement if applicable*], the [*identify the financial statements and financial statement schedules*] audited by us and included in the registration statement comply as to form in all material respects with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC.

.A42 Exhibit B, example K, "Alternate Wording When the SEC Has Agreed to a Departure From Its Accounting Requirements," illustrates an appropriate manner of disclosing a material departure from the pertinent rules and regulations adopted by the SEC.

.A43 The auditor may agree to examine or review MD&A in accordance with AT section 701.

Commenting in a Comfort Letter on Information Other Than Audited Financial Statements

General (Ref: par. .41–.43)

.A44 Comments included in the letter will often concern

- unaudited interim financial information.
- capsule financial information.
- pro forma financial information.
- financial forecasts.
- subsequent changes in specified financial statement items.

When the auditor has been requested to provide negative assurance on interim financial information or capsule financial information, the procedures involved in a review performed in accordance with GAAS applicable to reviews of interim financial information need not be specified.

.A45 Exhibit B, example A-1 contains an illustration of how the procedures performed by the auditor may be described.¹⁴

.A46 If the auditor states that the auditor has performed a review in accordance with GAAS applicable to reviews of interim financial information, this does not imply that those procedures are sufficient for the requesting party's purposes. The requesting party may ask the auditor to perform additional procedures. For example, the requesting party may request that the auditor apply additional procedures and specify items of financial information to be reviewed and the materiality level for changes in those items that would necessitate further inquiry by the auditor.

.A47 The procedures performed with respect to interim periods may not disclose subsequent changes in the specified financial statement items, inconsistencies in the application of the applicable financial reporting framework, instances of noncompliance as to form with accounting requirements of the SEC, or other matters about which negative assurance is requested.

.A48 An illustration of an appropriate manner of noting the limitations of procedures performed is shown in example A-1 of exhibit B.¹⁵

.A49 Because there is no way for the auditor to anticipate other matters that would be of interest to a requesting party, the auditor is precluded, in accordance with paragraph .42, from making a statement that nothing else has come to the auditor's attention that would be of interest to the requesting party.

.A50 Exhibit B, example I, "Alternate Wording When Auditor's Report on Audited Financial Statements Contains an Emphasis-of-Matter Paragraph," contains an illustration of alternate wording when the auditor's report on audited financial statements is a modified report.

Knowledge of Internal Control (Ref: par. .44)

.A51 The auditor may have obtained a sufficient understanding of an entity's internal control over financial reporting for both annual and interim periods through performing an audit on the entity's financial statements for one or more periods.

Unaudited Interim Financial Information (Ref: par. .45–.49)

.A52 The SEC requirements specify condensed financial statements. However, the requirements in paragraphs .45–.49 also apply to complete financial statements. For purposes of this section, interim financial statements may be for a 12-month period ending on a date other than the entity's normal year-end.

.A53 The auditor may, but is not required to, state in the comfort letter that the auditor has performed a review of interim financial information in accordance with GAAS applicable to reviews of interim financial information, and has issued a report on the review.

.A54 Exhibit B, example A-1 provides an illustration of a description related to the procedures specified for a review in accordance with GAAS applicable to reviews of interim financial information.¹⁶ Exhibit B, example O, "Alternate Wording When the Procedures That the Requesting Party Has Requested the Auditor to Perform on Interim Financial Information Are Less Than a Review in Accordance With Generally Accepted Auditing Standards Applicable

¹⁴ Paragraph 4 of example A-1 in exhibit B.

¹⁵ See the last three sentences in paragraph 4 of example A-1 in exhibit B.

¹⁶ Paragraphs 4a and 5a of example A-1 in exhibit B.

to Reviews of Interim Financial Information," provides an illustration of alternate wording when the procedures that the requesting party has requested the auditor to perform on interim financial information are less than a review in accordance with GAAS applicable to reviews of interim financial information.

.A55 Exhibit B, example A-1 includes an illustration of an appropriate manner of making clear that the auditor is not expressing an opinion on unaudited interim financial information.¹⁷

Capsule Financial Information (Ref: par. .50-.51)

.A56 In some securities offerings, supplementary capsule financial information comprising unaudited summarized interim financial information for subsequent periods accompanies the information shown in the audited financial statements or unaudited interim financial information. This capsule financial information (either in narrative or tabular form) often is provided for the most recent interim period and for the corresponding period of the prior year.

.A57 The requesting party may ask the auditor to provide negative assurance with respect to the unaudited interim financial information, or unaudited condensed interim financial information that underlie the capsule financial information, and ask the auditor to state that the capsule financial information agrees with amounts set forth in such financial information. Exhibit B, example L, "Alternate Wording When Recent Earnings Data Are Presented in Capsule Form," provides an illustration of the auditor's comments in these circumstances.¹⁸

Pro Forma Financial Information (Ref: par. .52-.53)

.A58 An appropriate level of knowledge of the accounting and financial reporting practices of the entity may be obtained by the auditor auditing or reviewing, in accordance with GAAS, historical financial statements of the entity (or, in the case of a business combination, of a significant constituent part of the combined entity) for the most recent annual or interim period for which the pro forma financial information is presented.

.A59 Exhibit B, example D, "Comments on Pro Forma Financial Information," provides an illustration of wording regarding procedures performed on pro forma financial information.

Financial Forecasts (Ref: par. .54-.57)

.A60 When an entity's securities are subject to regulation by the SEC and the auditor agrees to perform a compilation of a financial forecast, the SEC's views regarding independence are relevant. Independence may be deemed to be impaired when services include preparation or assembly of financial forecasts.

.A61 Exhibit B, example E, "Comments on a Financial Forecast," provides illustrations of appropriate wording describing procedures performed on a financial forecast.

.A62 The attestation standards that apply to financial forecasts provide for examinations or compilations of financial forecasts but not reviews. If a compilation report on the financial forecast has been issued in connection with the comfort letter, the report need not be included in the securities offering.

¹⁷ Paragraph 3 of example A-1 in exhibit B.

¹⁸ Paragraphs 4b and 5b of example L, "Alternate Wording When Recent Earnings Data Are Presented in Capsule Form," in exhibit B.

Subsequent Changes (Ref: par. .58–.64)

.A63 Comments regarding subsequent changes typically relate to whether, during the change period, there has been any

- change in capital stock;
- increase in long-term debt; or
- decreases in other specified financial statement items.

These comments might also address such matters as subsequent changes in the amounts of

- net current assets or stockholders' equity attributable to the entity.
- net sales and the income before continuing operations and of net income or net income attributable to the entity.

.A64 Procedures may include

- reading minutes and discussing with those charged with governance those meetings for which minutes have not been approved, and
- making inquiries of entity officials relating to the whole of the change period and obtaining appropriate written representations of the entity officials to support the answers to the inquiries.

.A65 Exhibit B, example A-1 provides an illustration of a description of procedures related to subsequent changes.¹⁹

.A66 Examples of the application of the requirements of paragraph .59 are as follows:

- When the auditor has audited the December 31, 20X0 financial statements, the auditor may provide negative assurance about changes in specified financial statement items as of any date through May 14, 20X1 (134 days subsequent to December 31).
- When the auditor has audited the December 31, 20X0 financial statements and has also conducted a review of the interim financial information as of and for the quarter ended March 31, 20X1, in accordance with GAAS applicable to reviews of interim financial information, the auditor may provide negative assurance about changes in specified financial statement items as of any date through August 12, 20X1 (134 days subsequent to March 31).

.A67 An appropriate manner of expressing negative assurance regarding subsequent changes is shown in exhibit B, in example A-1 if there has been no decrease, and in example M, "Alternate Wording When Auditors Are Aware of a Decrease in a Specified Financial Statement Item," if there has been a decrease.²⁰ Exhibit B, example O provides an illustration of reporting procedures performed and findings obtained when the procedures that the requesting party has requested the auditor to perform on interim financial information are less than a review performed in accordance with GAAS applicable to reviews of interim financial information.

.A68 In commenting on subsequent changes, the auditor may use terms such as *change*, *increase*, or *decrease*. Terms such as *adverse* are not clearly understood and may cause the comments on subsequent changes to be ambiguous.

¹⁹ Paragraph 6 of example A-1 in exhibit B.

²⁰ Paragraphs 5b and 6 of example A-1 in exhibit B.

.A69 The comparison for the change period relates to the entire period and not to portions of that period. A decrease during one part of the period may be offset by an equal or larger increase in another part of the period; however, because no decrease for the period as a whole existed, the comfort letter would not report the decrease occurring during one part of the period.

.A70 When more than one auditor is involved, the auditor of the group financial statements may comment that there were no decreases in the consolidated financial statement items, when appropriate, despite the possibility that decreases have been mentioned in a comfort letter issued by a component auditor. Exhibit B, example J, "Alternate Wording When More Than One Auditor Is Involved," contains an illustration of wording when more than one auditor is involved.

.A71 The underwriting agreement usually specifies the dates as of which, and periods for which, data at the cut-off date and data for the change period are to be compared. For balance sheet items, the comparison date is normally that of the latest balance sheet included in the securities offering (that is, immediately prior to the beginning of the change period). For income statement items, the comparison period or periods might be, but are not limited to, the corresponding period of the preceding year or a period of corresponding length immediately preceding the change period.

.A72 The reasons for identifying the date and period used for comparison are to avoid misunderstandings about the matters being compared, and so that the requesting party can determine whether the comparison period is suitable for the requesting party's purposes.

.A73 The requesting party occasionally requests that the change period begin immediately after the date of the latest audited balance sheet (which is, ordinarily, also the closing date of the latest audited statement of income) in the securities offering, even though the securities offering includes a more recent unaudited balance sheet and statement of income. The use of the earlier date may defeat the requesting party's purpose because it is possible that an increase in one of the items referred to in paragraph .A63 occurring between the dates of the latest audited and unaudited balance sheets included in the securities offering might more than offset a decrease occurring after the latter date. A similar situation might arise in the comparison of income statement items. In these circumstances, the decrease occurring after the date of the latest unaudited interim financial statements included in the securities offering would not be reported in the comfort letter.

Tables, Statistics, and Other Financial Information (Ref: par. .65–.71)

.A74 Other financial information appearing in the securities offering does not include financial information that is covered by the auditor's opinion on the financial statements.

.A75 Because the term *presents fairly*, when used by independent auditors, ordinarily relates to presentations of financial statements, the use of the term in commenting on other types of information may be misleading.

.A76 When the auditor has conducted an examination or a review of MD&A in accordance with AT section 701, the auditor may agree to trace nonfinancial data presented outside MD&A to similar data included in the MD&A presentation. When the auditor does not perform a review or an examination of MD&A or does not attach or refer to a report on MD&A, the auditor may perform procedures agreed to with the requesting party with respect to items in MD&A subject to internal control over financial reporting.

.A77 Options for describing the procedures performed and the findings obtained include

- describing them individually for each item of specific information commented on.
- grouping or summarizing some or all of the descriptions, as long as
 - the procedures and findings are adequately described,
 - the applicability of the descriptions to items in the securities offering is clear, and
 - the descriptions do not imply that the auditor assumes responsibility for the adequacy of the procedures.
- presenting a matrix listing the financial information and common procedures employed and indicating the procedures applied to the specific items.
- identifying procedures performed with specified symbols and identifying items to which those procedures have been applied directly on a copy of the prospectus, which is attached to the comfort letter.

.A78 Exhibit B, examples F, "Comments on Tables, Statistics, and Other Financial Information—Complete Description of Procedures and Findings," G, "Comments on Tables, Statistics, and Other Financial Information—Summarized Description of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information," and H, "Comments on Tables, Statistics, and Other Financial Information: Descriptions of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information—Attached Securities Offering (or Selected Pages) Identifies Items to Which Procedures Were Applied Through the Use of Designated Symbols," provide illustrations of appropriate ways of expressing comments on tables, statistics, and other financial information.

.A79 Except with respect to requirements for financial statements and certain Regulation S-K items discussed in paragraph .72, the question of what constitutes appropriate information for compliance with the requirements of a particular item of the securities offering form is a matter of legal interpretation outside the competence of auditors.

.A80 Exhibit B, example F contains an illustration of an appropriate way of stating the limitations regarding the sufficiency of the auditor's procedures.²¹

Compliance as to Form With Regulation S-K (Ref: par. .72–.73)

.A81 The following are the disclosure requirements of Regulation S-K that generally meet the criteria in paragraph .72:

- Item 301, "Selected Financial Data"
- Item 302, "Supplementary Financial Information"
- Item 402, "Executive Compensation"
- Item 503(d), "Ratio of Earnings to Fixed Charges"

.A82 Because information relevant to Regulation S-K disclosure requirements other than those noted previously is generally not derived from the accounting records subject to internal control over financial reporting, it is not

²¹ Paragraph 9 of example F, "Comments on Tables, Statistics, and Other Financial Information—Complete Description of Procedures and Findings," in exhibit B.

appropriate for the auditor to comment on conformity of this information with Regulation S-K.

.A83 The auditor's inability to comment on conformity with Regulation S-K does not preclude the auditor from performing procedures and reporting findings with respect to this information.

.A84 Item 305, "Quantitative and Qualitative Disclosures About Market Risk," of Regulation S-K does not meet the criteria in paragraph .65 for the auditor to provide comments on the Item 305 qualitative disclosures because the disclosures are not derived from the accounting records but are descriptive and hypothetical or forward-looking in nature.

.A85 Item 305 does not meet the criteria in paragraph .72 for the auditor to provide negative assurance on conformity with Item 305. Although some information needed to comply with Item 305 is derived from the accounting records, registrants must also provide a substantial amount of information that is not derived from accounting records subject to internal control over financial reporting.

.A86 Item 305 requires quantitative disclosures that may be presented in the form of a tabular presentation, sensitivity analysis, or value-at-risk disclosures. The auditor may perform limited procedures related to tabular presentations to the extent that such information is derived from the accounting records subject to internal control over financial reporting.

.A87 The appendix, "Commenting in a Comfort Letter on Quantitative Disclosures About Market Risk Made in Accordance With Item 305 of Regulation S-K," provides guidance on providing comments on Item 305 quantitative disclosures and examples of very simplified procedures, findings, and limitations related to Item 305 tabular presentation disclosures.

Concluding Paragraph (Ref: par. .74)

.A88 An illustration of an appropriate concluding paragraph is shown in exhibit B, examples A-1, A-2, and B.

Disclosure of Subsequently Discovered Matters (Ref: par. .75)

.A89 Subsequently discovered matters may include changes in specified items not disclosed in the securities offering, as discussed in paragraph .62.

.A90 The auditor's participation in the meeting may be helpful when the entity and requesting party discuss such matters.

.A91

Appendix—Commenting in a Comfort Letter on Quantitative Disclosures About Market Risk Made in Accordance With Item 305 of Regulation S-K

.A91-1 Regulation S-K, Item 305, Quantitative and Qualitative Disclosures About Market Risk, requires certain quantitative and qualitative disclosures with respect to derivative financial instruments, generally as defined in Financial Accounting Standards Board *Accounting Standards Codification* glossary.

.A91-2 In addition to qualitative (that is, descriptive) disclosures, Item 305 requires quantitative disclosures that may be presented in the form of a tabular presentation, sensitivity analysis, or value-at-risk disclosures. Disclosures generally include a combination of historical and fair value data and the hypothetical effects on such data of assumed changes in interest rates, foreign currency exchange rates, commodity prices, and other relevant market rates. The quantitative and qualitative information required by Item 305 are disclosed outside the financial statements and related notes thereto.

.A91-3 Item 305 does not meet the criteria in paragraph .65 for the auditor to provide comments on the Item 305 qualitative disclosures because the disclosures are descriptive and are not derived from the accounting records because they are hypothetical or forward-looking in nature.

.A91-4 Although some information needed to comply with Item 305 is derived from the accounting records, registrants must also provide a substantial amount of information that is not derived from accounting records subject to internal control over financial reporting. As a result, Item 305 does not meet the criteria in paragraph .72 for the auditor to provide negative assurance on conformity with Item 305 of Regulation S-K.

.A91-5 The three alternative forms of quantitative disclosures under Item 305 reflect hypothetical effects on market risk sensitive instruments and result in differing presentations. The forward-looking information used to prepare these presentations may be substantially removed from the accounting records that are subject to internal control over financial reporting. Further, paragraph .68 also states that the auditor should not comment on matters merely because the auditor is capable of reading, counting, measuring, or performing other functions that might be applicable. Accordingly, an auditor's ability to comment on these disclosures is largely dependent upon the degree to which the forward-looking information used to prepare these disclosures is linked to such accounting records.

.A91-6 The tabular presentation includes the fair values of market risk sensitive instruments and contract terms to determine the future cash flows from those instruments that are categorized by expected maturity dates. This approach may require the use of yield curves and implied forward rates to determine expected maturity dates, as well as assumptions regarding prepayments and weighted average interest rates.

.A91-7 The term *sensitivity analysis* describes a general class of models that are designed to assess the risk of loss in market risk sensitive instruments, based upon hypothetical changes in market rates or prices. Sensitivity analysis does not refer to any one, specific model and may include duration analysis or other "sensitivity" measures. The disclosures are dependent upon assumptions about

theoretical future market conditions and, therefore, are not derived from the accounting records.

.A91-8 The term *value at risk* describes a general class of models that provide a probabilistic assessment of the risk of loss in market risk sensitive instruments over a selected period of time, with a selected likelihood of occurrences based upon selected confidence intervals. Value-at-risk disclosures are extremely aggregated and, in addition to the assumptions made for sensitivity analyses, may include additional assumptions regarding correlation between asset classes and future market volatilities. As a result, these disclosures are not derived from the accounting records.

.A91-9 Of the three disclosure alternatives, the tabular presentation contains the most limited number of assumptions and least complex mathematical calculations. Furthermore, certain information, such as contractual terms, included in a tabular presentation is derived from the accounting records. Accordingly, auditors may perform limited procedures related to tabular presentations to the extent that such information is derived from the accounting records subject to internal control over financial reporting.

.A91-10 The modeling techniques and underlying assumptions utilized for sensitivity analysis and value-at-risk disclosures generally will be highly complex. The resultant disclosures may be substantially different from the basic historical financial input derived directly from the accounting records. Due to the hypothetical and forward-looking nature of these disclosures and the potentially limited usefulness of any procedures that may be performed, sensitivity analysis or value-at-risk disclosures do not meet the criteria in paragraph .65 for the auditor to agree to make any comments or perform any procedures related to sensitivity analysis or value-at-risk disclosures.

.A91-11 When performing procedures related to tabular presentation disclosures, the auditor is required by paragraph .65 to consider whether the entity's documentation of its contractual positions in derivatives, commodities, and other financial instruments is subject to internal control over financial reporting and whether it provides a complete record of the entity's market risk sensitive instruments. In addition, the auditor is not permitted to express positive or negative assurance about the reasonableness of the assumptions underlying the disclosures.

.A91-12 Item 305 requires registrants to stratify financial instruments according to market risk category, that is, interest rate risk, foreign exchange risk, and equity price risk. Item 305 stipulates that if an instrument is at risk in more than one category, the instrument should be included in the disclosures for each applicable category. The stratifications and the company's determination of market risk categories are not derived from the company's accounting records. Accordingly, the auditor is not permitted to provide any findings that the company's stratifications are complete or comply as to form with Item 305 requirements and should disclaim with respect to the company's determination of market risk categories.

.A91-13 Item 305 encourages registrants to provide quantitative and qualitative information about market risk in terms of, among other things, the magnitude of actual past market movements and estimates of possible near-term market movements. As market data is not derived from the company's accounting records, the auditor is not permitted to agree to perform any procedures related to such market data.

.A91-14 Further, the auditor may need to utilize a specialist in performing procedures related to those disclosures.

.A91-15 The following examples, based on example H, "Comments on Tables, Statistics, and Other Financial Information: Descriptions of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information—Attached Securities Offering (or Selected Pages) Identifies Items to Which Procedures Were Applied Through the Use of Designated Symbols," of exhibit B, "Examples of Comfort Letters," provide very simplified procedures, findings, and limitations related to Item 305 tabular presentation disclosures. In practice, the procedures generally will be substantially more complex.

<i>Symbol</i>	<i>Procedures and Findings</i>
✓	Compared with a schedule prepared by the Company from its accounting records. We (a) compared the amounts on the schedule to corresponding amounts appearing in the accounting records and found such amounts to be in agreement, and (b) determined that the schedule was mathematically correct. However, we make no comment as to the appropriateness or completeness of the Company's classification of its market-risk-sensitive instruments into market risk categories, nor as to its determination of the expected maturity dates or amounts. (Note: This is an example of procedures related to tabular presentations of face amounts, carrying amounts, fair values, and notional amounts, which stratify such amounts as to interest rate risk.)
⊗	Compared with a schedule prepared by the Company from its accounting records to calculate weighted average fixed interest rates and weighted average fixed pay and receive rates and found such percentages to be in agreement. We (a) compared the amounts on the schedule to corresponding amounts appearing in the accounting records and found such amounts to be in agreement, and (b) determined that the schedule was mathematically correct. However, we make no comment as to the appropriateness of the Company's methodology in calculating weighted average fixed rates. (Note: It may be necessary to provide a more complete description of the procedures performed in other circumstances.) We make no comment as to the appropriateness or completeness of the Company's determination of the Regulation S-K requirements for quantitative and qualitative disclosures about market risks or with respect to the reasonableness of the assumptions underlying the disclosures.

[The following is an extract from a registration statement that illustrates how an auditor can document procedures performed on a tabular presentation of market risk disclosures made in accordance with Item 305 of Regulation S-K.]

INTEREST RATE SENSITIVITY

The following table provides information about the Company's derivative financial instruments and other financial instruments that are sensitive to changes in interest rates, including interest rate swaps and debt obligations. For debt obligations, the table presents principal cash flows and related weighted average interest rates by expected maturity dates. For interest rate swaps, the table presents notional amounts and weighted average interest rates by expected maturity dates. Notional amounts are used to calculate the contractual payments to be exchanged under the contract. Weighted average variable rates

are based on implied forward rates in the yield curve at the reporting date. The information is presented in U.S. dollar equivalents, which is the Company's reporting currency. The instrument's actual cash flows are denominated in both U.S. dollars (\$US) and German deutschmarks (DM), as indicated in parentheses.

	<i>Expected maturity dates</i>						<i>Fair Value</i>
	<i>20X2¹</i>	<i>20X3¹</i>	<i>20X4¹</i>	<i>20X5¹</i>	<i>Thereafter¹</i>	<i>Total</i>	
<i>Liabilities</i>							
<i>Long-Term Debt: (\$US equivalent in millions)</i>							
Fixed Rate (\$US)	\$XXX	\$XXX	\$XXX	\$XXX	\$XXX	\$XXX	✓
Average interest rate	XX%	XX%	XX%	XX%	XX%	XX%	✓
Fixed Rate (DM)	XXX	XXX	XXX	XXX	XXX	XXX	✓
Average interest rate	XX%	XX%	XX%	XX%	XX%	XX%	⊗
Variable Rate (\$US)	XXX	XXX	XXX	XXX	XXX	XXX	✓
Average interest rate	XX%	XX%	XX%	XX%	XX%	XX%	1
<i>Interest Rate Derivatives (\$US equivalent in millions)</i>							
<i>Interest Rate Swaps:</i>							
Variable to fixed (\$US)	\$XXX	\$XXX	\$XXX	\$XXX	\$XXX	\$XXX	✓
Average pay rate-fixed	XX%	XX%	XX%	XX%	XX%	XX%	⊗
Average receive rate-variable	XX%	XX%	XX%	XX%	XX%	XX%	1
Fixed to Variable (\$US)	XXX	XXX	XXX	XXX	XXX	XXX	✓
Average pay rate-variable	XX%	XX%	XX%	XX%	XX%	XX%	1
Average receive rate-fixed	XX%	XX%	XX%	XX%	XX%	XX%	⊗

¹ Because these disclosures include either management's expectations of future cash flows or the use of implied forward rates applied to such expected cash flows, such information does not meet the criteria of paragraph .65. Accordingly, the auditor is not permitted to express findings on amounts in these columns.

.A92

Exhibit A—Illustration of Representation Letter From Requesting Party (Ref: par. .A4)

The following is an example of a letter from a nonunderwriter when the securities offering is not being registered under the Securities Act of 1933.

[Date]

Dear ABC Accountants:

[Name of requesting party], as principal or agent, in the placement of [identify securities] to be issued by [name of issuer], will be reviewing certain information relating to [issuer] that will be included (incorporated by reference) in the document [if appropriate, identify the document], which may be delivered to investors and utilized by them as a basis for their investment decision. This review process, applied to the information relating to the issuer, is (will be) substantially consistent with the due diligence review process that an underwriter would perform if this placement [issuance] of securities were being registered pursuant to the Securities Act of 1933 (the Act). We are knowledgeable with respect to the due diligence review process that would be performed if this placement of securities were being registered pursuant to the Act. We hereby request that you deliver to us a "comfort" letter concerning the financial statements of the issuer and certain statistical and other data included in the offering document. We will contact you to identify the procedures we wish you to follow and the form we wish the comfort letter to take.

Very truly yours,

[Name of Requesting Party]

Introduction

.A93-1 The contents of comfort letters vary depending on the extent of the information in the securities offering and the wishes of the requesting party. Shelf registration statements may have several closing dates and different underwriters. Descriptions of procedures and findings regarding interim financial statements, tables, statistics, or other financial information that is incorporated by reference from previous Securities Exchange Act of 1934 filings may have to be repeated in several comfort letters. To avoid restating these descriptions in each comfort letter, the auditor may initially issue the comments in a format (such as an appendix) that can be referred to in, and attached to, subsequently issued comfort letters.

.A93-2 A typical comfort letter includes

- a. a statement regarding the independence of the auditor. (Ref: par. .15)
- b. if applicable, an opinion regarding whether the audited financial statements included (incorporated by reference) in the securities offering comply as to form in all material respects with the applicable accounting requirements of the Securities Act of 1933 (the 1933 Act) and related rules and regulations adopted by the Securities and Exchange Commission (SEC). (Ref: par. .16–20)
- c. negative assurance on whether
 - i. if applicable, the unaudited interim financial information included (incorporated by reference) in the registration statement (Ref: par. .25–.26) complies as to form in all material respects with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC.
 - ii. any material modifications should be made to the unaudited financial information included (incorporated by reference) in the securities offering for them to be in conformity with the applicable financial reporting framework.
- d. negative assurance on whether, during a specified period following the date of the latest financial statements in the securities offering and prospectus, there has been any change in capital stock, increase in long-term debt, or any decrease in other specified financial statement items. (Ref: par. .38–.44)

Example A-1 contains a typical comfort letter for a 1933 Act offering and example A-2 contains a typical comfort letter for a non-1933 Act offering. Letters that cover some of the items may be developed by omitting inapplicable portions of these examples. Examples B, D–O, and R contain additional or alternate wording for examples A-1 or A-2, as applicable, for various scenarios.

Although the illustrations in this exhibit describe procedures that may be followed by auditors as a basis for their comments, this section does not necessarily prescribe such procedures.

Example A—Typical Comfort Letters

Example A-1—Typical Comfort Letter for a 1933 Act Offering

.A93-3 Example A-1 is an example of a letter that the auditor of a nonissuer may provide when a registrant is including the nonissuer's financial statements in the securities offering to be filed with the SEC. Appropriate modifications would be made if additional financial information is covered by the comfort letter. Example A-1 assumes the following circumstances:

- The prospectus includes audited consolidated balance sheets as of December 31, 20X5 and 20X4, and audited consolidated statements of income, stockholders' equity, and cash flows for each year in the three-year period ended December 31, 20X5. Note that the example assumes all the net income is attributable to the company. If that were not the case, the references to net income would be modified, or additional references would be included as appropriate.
- The prospectus also includes an unaudited condensed consolidated balance sheet as of March 31, 20X6, and unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, reviewed in accordance with generally accepted auditing standards applicable to reviews of interim financial information but not previously reported on by the auditor. The example also assumes that the auditor has not previously reported on the interim financial information. If the auditor has previously reported on the interim financial information, that fact may be referred to in the introductory paragraph of the comfort letter as follows:

Also, we have reviewed the unaudited condensed consolidated financial statements as of March 31, 20X6 and 20X5, and for the three-month periods then ended, as indicated in our report dated May 15, 20X6, which is included (incorporated by reference) in the registration statement.

The cut-off date is June 23, 20X6, and the letter is dated June 28, 20X6. The effective date is June 28, 20X6.

- The auditors are reporting independence under the SEC rules and regulations. If the auditors were not required to be independent under the SEC rules and regulations in conjunction with an SEC filing, paragraph 1 in example A-1 would be replaced with paragraph 1 in example A-2.

The auditor may agree to comment in the comfort letter on whether the interim financial information complies as to form in all material respects with the applicable accounting requirements of the rules and regulations adopted by the SEC.

The example also assumes that there has been no change in the application of a requirement of generally accepted accounting principles during the interim period. If there has been such a change, a reference to that change would be included in paragraph 5 of example A-1.

Each of the comments in the letter is in response to a requirement of the underwriting agreement. For purposes of example A-1, the income statement items of the current interim period are to be compared with those of the corresponding period of the preceding year.

June 28, 20X6

[Addressee]

Dear Ladies and Gentlemen:

We have audited the consolidated financial statements of The Nonissuer Company, Inc. (the company) and subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X5 and 20X4, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, and the related notes to the consolidated financial statements, all included in The Issuer Company's (the registrant) registration statement (no. 33-00000) on Form S-1 filed by the registrant under the Securities Act of 1933 (the Act); our report with respect thereto is also included in that registration statement. The registration statement, as amended on June 28, 20X6, is herein referred to as the registration statement.

In connection with the registration statement—

1. We are independent certified public accountants with respect to the company within the meaning of the 1933 Act and the applicable rules and regulations thereunder adopted by the SEC.
2. In our opinion [*include the phrase except as disclosed in the registration statement if applicable*], the consolidated financial statements audited by us and included in the registration statement comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.
3. We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 20X5; although, we have conducted an audit for the year ended December 31, 20X5, the purpose (and, therefore, the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 20X5, and for the year then ended, but not on the financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the registration statement, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 20X5.
4. For purposes of this letter we have read the 20X6 minutes of meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company and its subsidiaries as set forth in the minute books at June 23, 20X6, of officials of the company having advised us that the minutes of all such meetings through that date were set forth therein and having discussed with us the unapproved minutes of meetings held

Special Considerations in the United States

on [dates]; we have carried out other procedures to June 23, 20X6, as follows (our work did not extend to the period from June 24, 20X6 to June 28, 20X6, inclusive):

- a. With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—
 - (i) Performed the procedures specified for a review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information, on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the registration statement.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in a(i) comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.
- b. With respect to the period from April 1, 20X6 to May 31, 20X6, we have—
 - (i) Read the unaudited consolidated financial statements of the company and subsidiaries for April and May of both 20X5 and 20X6 furnished us by the company, officials of the company having advised us that no such financial statements as of any date or for any period subsequent to May 31, 20X6, were available. *[If applicable: The financial information for April and May of both 20X5 and 20X6 is incomplete in that it omits the statements of cash flows and other disclosures.]*
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited consolidated financial statements referred to in b(i) are stated on a basis substantially consistent with that of the audited consolidated financial statements included in the registration statement.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations regarding the sufficiency of the foregoing procedures for your purposes.

5. Nothing came to our attention as a result of the foregoing procedures, however, that caused us to believe that—

a.

- (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in 4*a*(i), included in the registration statement, for them to be in conformity with generally accepted accounting principles.¹
- (ii) The unaudited condensed consolidated financial statements described in 4*a*(i) do not comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.

b.

- (i) At May 31, 20X6, there was any change in the capital stock, increase in long-term debt, or decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the registration statement, or
 - (ii) for the period from April 1, 20X6 to May 31, 20X6, there were any decreases, as compared to the corresponding period in the preceding year, in consolidated net sales or in income before extraordinary items or of net income, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.
6. As mentioned in 4*b*, company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to May 31, 20X6 are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 20X6 have, of necessity, been even more limited than those with respect to the periods referred to in 4. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at June 23, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 20X6, unaudited condensed consolidated balance sheet included in the registration statement, or (b) for the period from April 1, 20X6 to June 23, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales, or in income before extraordinary items or of net income. On the basis of these inquiries and our reading of the minutes as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

¹ Section 930, *Interim Financial Information*, does not require the auditor to modify the report on a review of interim financial information for a lack of consistency in the application of accounting policies provided that the interim financial information appropriately discloses such matters.

7. This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or otherwise referred to within or without the underwriting group for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or in any list of closing documents pertaining to the offering of the securities covered by the registration statement.

Example A-2—Typical Comfort Letter for a Non-1933 Act Offering When the Required Representation Letter Has Been Obtained

.A93-4 Example A-2 is applicable when a comfort letter is issued in a non-1933 Act offering. Example A-2 assumes the following:

- The offerer is not an SEC registrant.
- The requesting party has given the auditor a representation letter as required by paragraph .10 and described in paragraph .11.
- Interim financial information is included in the offering document, and the auditor has performed review procedures in accordance with generally accepted auditing standards applicable to reviews of interim financial information.
- The auditor did not perform an audit of the effectiveness of internal control over financial reporting in any period.
- There has not been a change in the application of a requirement of generally accepted accounting principles during the interim period. If there has been such a change, a reference to that change would be included in paragraph 4 of example A-2.

The cut-off date is June 23, 20X6, and the letter is dated June 28, 20X6.

Each of the comments in the letter is in response to a request from the requesting party. For purposes of example A-2, the income statement items of the current interim period are to be compared with those of the corresponding period of the preceding year.

June 28, 20X6

[Addressee]

Dear Ladies and Gentlemen:

We have audited the consolidated financial statements of The Nonissuer Company, Inc. (the company) and subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X5 and 20X4, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, and the related notes to the consolidated financial statements, all included [or incorporated by reference] in the offering memorandum for \$30,000,000 of Senior Debt due May 30, 20Z6. Our report with respect thereto is included in the offering memorandum. This offering memorandum, dated June 28, 20X6, is herein referred to as the Offering Memorandum.

This letter is being furnished in reliance upon your representation to us that—

- a.* You are knowledgeable with respect to the due diligence review process that would be performed if this placement of securities were being registered pursuant to the Securities Act of 1933 (the Act).
- b.* In connection with the offering of Senior Debt, the review process you have performed is substantially consistent with the due diligence review process that you would have performed if this placement of securities were being registered pursuant to the Act.

In connection with the Offering Memorandum—

1. We are independent certified public accountants with respect to the company under Rule 101 of the AICPA's Code of Professional Conduct and its interpretations and rulings.
2. We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 20X5; although, we have conducted an audit for the year ended December 31, 20X5, the purpose (and, therefore, the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 20X5, and for the year then ended, but not on the financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, of cash flows, and of changes in stockholders' equity for the three-month periods ended March 31, 20X5 and 20X6, included in the Offering Memorandum, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 20X5.
3. For purposes of this letter, we have read the 20X6 minutes of meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company and its subsidiaries as set forth in the minute books at June 23, 20X6, officials of the company having advised us that the minutes of all such meetings through that date were set forth therein and having discussed with us the unapproved minutes of meetings held on [*dates*]; we have carried out other procedures to June 23, 20X6, as follows (our work did not extend to the period from June 24, 20X6 to June 28, 20X6, inclusive):
 - a.* With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—
 - (i) Performed the procedures specified for a review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information, on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the Offering Memorandum.
 - b.* With respect to the period from April 1, 20X6 to May 31, 20X6, we have—

- (i) Read the unaudited consolidated financial statements of the company and subsidiaries for April and May of both 20X5 and 20X6 furnished us by the company, officials of the company having advised us that no such financial statements as of any date or for any period subsequent to May 31, 20X6, were available. [*If applicable:* The financial information for April and May of both 20X5 and 20X6 is incomplete in that it omits the statement of cash flows and other disclosures.]
- (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited consolidated financial statements referred to in *b(i)* are stated on a basis substantially consistent with that of the audited consolidated financial statements included in the Offering Memorandum.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations regarding the sufficiency of the foregoing procedures for your purposes.

4. Nothing came to our attention as a result of the foregoing procedures, however, that caused us to believe that—
 - a.
 - (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in *3a(i)*, included in the Offering Memorandum, for them to be in conformity with generally accepted accounting principles.²
 - b.
 - (i) At May 31, 20X6, there was any change in the capital stock, increase in long-term debt, or decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the Offering Memorandum, or
 - (ii) for the period from April 1, 20X6 to May 31, 20X6, there were any decreases, as compared to the corresponding period in the preceding year, in consolidated net sales, or in income before extraordinary items or of net income, except in all instances for changes, increases, or decreases that the Offering Memorandum discloses have occurred or may occur.
5. As mentioned in *3b*, company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to May 31, 20X6 are available; accordingly, the

² Section 930 does not require the auditor to modify the report on a review of interim financial information for a lack of consistency in the application of accounting policies provided that the interim financial information appropriately discloses such matters.

procedures carried out by us with respect to changes in financial statement items after May 31, 20X6, have, of necessity, been even more limited than those with respect to the periods referred to in 3. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at June 23, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 20X6 unaudited condensed consolidated balance sheet included in the Offering Memorandum, or (b) for the period from April 1, 20X6 to June 23, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income before extraordinary items or of net income. On the basis of these inquiries and our reading of the minutes as described in 3, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the Offering Memorandum discloses have occurred or may occur.

6. This letter is solely for the information of the addressees and to assist the requesting party in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the Offering Memorandum, and it is not to be used, circulated, quoted, or otherwise referred to for any purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the Offering Memorandum or any other document, except that reference may be made to it in the Purchase Contract or in any list of closing documents pertaining to the offering of the securities covered by the Offering Memorandum.

Example B—Letter When a Short-Form Registration Statement Is Filed Incorporating Previously Filed Form 8-K by Reference

.A93-5 Example B is an example of modifications to the letter that the auditor of a nonissuer may provide when a registrant has acquired the nonissuer, and the registrant uses a short-form registration statement (for example, Form S-3), which incorporates a previously filed Form 8-K that includes the nonpublic company's financial statements. The auditor was independent of the nonissuer but is not independent with respect to the registrant.

June 28, 20X6

[Addressee]

Dear Ladies and Gentlemen:

We have audited the consolidated financial statements of The Nonissuer Company, Inc. (the company) and subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X5 and 20X4, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, and the related notes to the consolidated financial statements, all included in The Issuer Company's (the registrant) current report on Form 8-K dated May 15, 20X6, and incorporated by reference in the registration statement (no. 33-00000) on Form S-3 filed by the registrant under the Securities Act of 1933 (the Act); our report with respect thereto is also incorporated by reference in that registration statement. The registration

statement, as amended on June 28, 20X6, is herein referred to as the registration statement.

In connection with the registration statement—

1. As of [*insert date of the auditor's most recent report on the financial statements of the entity*] and during the period covered by the financial statements on which we reported, we were independent certified public accountants with respect to the company under Rule 101 of the AICPA's Code of Professional Conduct and its interpretations and rulings.
2. In our opinion, the consolidated financial statements audited by us and incorporated by reference in the registration statement comply as to form in all material respects with the applicable accounting requirements of the Act and the Securities Exchange Act of 1934 and the related rules and regulations adopted by the SEC.
3. We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 20X5; although we have conducted an audit for the year ended December 31, 20X5, the purpose (and, therefore, the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 20X5, and for the year then ended, but not on the consolidated financial statements for any interim period within that year. Therefore, we are unable to, and do not express any opinion on, the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the registrant's current report on Form 8-K dated May 15, 20X6, incorporated by reference in the registration statement, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 20X5.
4. For purposes of this letter, we have read the 20X6 minutes of the meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company and its subsidiaries as set forth in the minute books at June 23, 20X6, officials of the company having advised us that the minutes of all such meetings through that date were set forth therein, and having discussed with us the unapproved minutes of meetings held on [*dates*]; we have carried out other procedures to June 23, 20X6, as follows (our work did not extend to the period from June 24, 20X6 to June 28, 20X6, inclusive):

With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—

- (i) Performed a review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the registrant's current report on Form 8-K dated May 15, 20X6, incorporated by reference in the registration statement.

- (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in (i) comply as to form in all material respects with the applicable accounting requirements of the Securities Exchange Act of 1934 and the related rules and regulations adopted by the SEC.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations about the sufficiency of the foregoing procedures for your purposes.

5. Nothing came to our attention as a result of the foregoing procedures, however, that caused us to believe that—
 - (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in 4(i), incorporated by reference in the registration statement, for them to be in conformity with generally accepted accounting principles.
 - (ii) The unaudited condensed consolidated financial statements described in 4(i) do not comply as to form in all material respects with the applicable accounting requirements of the Securities Exchange Act of 1934 and the related rules and regulations adopted by the SEC.
6. This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and for use of the auditors of the registrant in furnishing their letter to the underwriters, and it is not to be used, circulated, quoted, or otherwise referred to within the underwriting group for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to, in whole or in part, in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or any list of closing documents pertaining to the offering of the securities covered by the registration statement.

Example C—Letter Reaffirming Comments in Example A-1 as of a Later Date

.A93-6 If more than one comfort letter is requested, the later letter may, in appropriate situations, refer to information appearing in the earlier letter without repeating such information (see paragraph .25 of this section and paragraph .A93-1 of this exhibit). Example C reaffirms and updates the information in example A-1.

July 25, 20X6

[Addressee]

Dear Ladies and Gentlemen:

We refer to our letter of June 28, 20X6, relating to the registration statement (no. 33-00000) of The Nonissuer Company, Inc. (the company). We

reaffirm as of the date hereof (and as though made on the date hereof) all statements made in that letter except that, for the purposes of this letter

- a. The registration statement to which this letter relates is as amended on July 13, 20X6 [*effective date*].
- b. The reading of minutes described in paragraph 4 of that letter has been carried out through July 20, 20X6 [*the new cut-off date*].
- c. The procedures and inquiries covered in paragraph 4 of that letter were carried out to July 20, 20X6 [*the new cut-off date*] (our work did not extend to the period from July 21, 20X6 to July 25, 20X6 [*date of letter*], inclusive).
- d. The period covered in paragraph 4b of that letter is changed to the period from April 1, 20X6 to June 30, 20X6, officials of the company having advised us that no such financial statements as of any date or for any period subsequent to June 30, 20X6, were available.
- e. The references to May 31, 20X6 in paragraph 5b of that letter are changed to June 30, 20X6.
- f. The references to May 31, 20X6 and June 23, 20X6 in paragraph 6 of that letter are changed to June 30, 20X6 and July 20, 20X6, respectively.

This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or otherwise referred to within or without the underwriting group for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to, in whole or in part, in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or any list of closing documents pertaining to the offering of the securities covered by the registration statement.

Example D—Comments on Pro Forma Financial Information

.A93-7 Example D is applicable when the auditor is asked to provide negative assurance on (a) whether the pro forma financial information included in a registration statement complies as to form in all material respects with the applicable accounting requirements of Rule 11-02 of Regulation S-X, and (b) the application of pro forma adjustments to historical amounts in the compilation of the pro forma financial information (see paragraphs .52–.53). The material in this example is intended to be inserted between paragraphs 6 and 7 in example A-1. The example assumes that the auditor has not previously reported on the pro forma financial information. If the auditor did previously report on the pro forma financial information, they may refer in the introductory paragraph of the comfort letter to the fact that they have issued a report, and the report may be attached to the comfort letter (see paragraph .A32–.A33). Therefore, in that circumstance, the procedures in 6b(i) and 6c ordinarily would not be performed, and the auditor would not separately comment on the application of pro forma adjustments to historical financial information because that assurance is encompassed in the auditors' report on pro forma financial information. The auditor may, however, agree to comment on compliance as to form with the applicable accounting requirements of Rule 11-02 of Regulation S-X.

6. At your request, we have—
 - a. Read the unaudited pro forma condensed consolidated balance sheet as of March 31, 20X6, and the unaudited pro forma condensed consolidated statements of income for the year ended December 31, 20X5, and the three-month period ended March 31, 20X6, included in the registration statement.
 - b. Inquired of certain officials of the company who have responsibility for financial and accounting matters about
 - (i) the basis for their determination of the pro forma adjustments and
 - (ii) whether the unaudited pro forma condensed consolidated financial statements referred to in 6a comply as to form in all material respects with the applicable accounting requirements of Rule 11-02 of Regulation S-X.
 - c. Proved the arithmetic accuracy of the application of the pro forma adjustments to the historical amounts in the unaudited pro forma condensed consolidated financial statements.

The foregoing procedures are substantially less in scope than an examination, the objective of which is the expression of an opinion on management's assumptions, the pro forma adjustments, and the application of those adjustments to historical financial information. Accordingly, we do not express such an opinion. The foregoing procedures would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representation about the sufficiency of such procedures for your purposes.

7. Nothing came to our attention as a result of the procedures specified in paragraph 6, however, that caused us to believe that the unaudited pro forma condensed consolidated financial statements referred to in 6a included in the registration statement have not been properly compiled on the pro forma bases described in the notes thereto. Had we performed additional procedures or had we made an examination of the pro forma condensed consolidated financial statements, other matters might have come to our attention that would have been reported to you.

Example E—Comments on a Financial Forecast

.A93-8 Example E is applicable when an auditor is asked to comment on a financial forecast (see paragraph .54). The material in this example is intended to be inserted between paragraphs 6 and 7 in example A-1 and 5 and 6 in example A-2. The example assumes that the auditor has previously reported on the compilation of the financial forecast and that the report is attached to the letter (see paragraph .A33 and example O).

7. At your request, we performed the following procedure with respect to the forecasted consolidated balance sheet and consolidated statements of income and cash flows as of December 31, 20X6, and for the year then ending. With respect to forecasted rental income, we compared the occupancy statistics about expected demand for rental of the housing units to statistics for existing comparable properties and found them to be the same.

8. Because the procedure described above does not constitute an examination of prospective financial statements in accordance with standards promulgated by the American Institute of Certified Public Accountants, we do not express an opinion on whether the prospective financial statements are presented in conformity with AICPA presentation guidelines or on whether the underlying assumptions provide a reasonable basis for the presentation.

Had we performed additional procedures or had we made an examination of the forecast in accordance with standards promulgated by the AICPA, matters might have come to our attention that would have been reported to you. Furthermore, there will usually be differences between the forecasted and actual results because events and circumstances frequently do not occur as expected, and those differences may be material.

Example F—Comments on Tables, Statistics, and Other Financial Information—Complete Description of Procedures and Findings

.A93-9 Example F is applicable when the auditor is asked to comment on tables, statistics, or other compilations of information appearing in a registration statement (paragraphs .65–.71). Each of the comments is in response to a specific request. The paragraphs in example F are intended to follow paragraph 6 in example A-1 or paragraph 5 in example A-2.

In some cases, the auditor may choose to combine in one paragraph the substance of paragraphs 6 and 8 shown as follows. This may be done by expanding the identification of items in paragraph 8 to provide the identification information included in paragraph 6. In such cases, the introductory sentences in paragraphs 6 and 8 and the text of paragraph 7 might be combined as follows: "For purposes of this letter, we have also read the following information and have performed the additional procedures stated below with respect to such information. Our audit of the consolidated financial statements. . ."

6. For purposes of this letter, we have also read the following, set forth in the securities offering on the indicated pages.

<i>Item</i>	<i>Page</i>	<i>Description</i>
<i>a</i>	4	"Capitalization." The amounts under the captions "Amount Outstanding as of May 31, 20X6" and "As Adjusted." The related notes, except the following in Note 2: "See Transactions With Interested Persons." From the proceeds of this offering the company intends to prepay \$900,000 on these notes, pro rata. See "Use of Proceeds."
<i>b</i>	13	"History and Business—Sales and Marketing." The table following the first paragraph.
<i>c</i>	33	"Selected Financial Data."

7. Our audit of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements as a whole. For none of the periods referred to therein, or any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions such as those enumerated above, and, accordingly, we express no opinion thereon.

8. However, for purposes of this letter, we have performed the following additional procedures, which were applied as indicated with respect to the items enumerated above.

<i>Item in 6</i>	<i>Procedures and Findings</i>
<i>a</i>	<p>We compared the amounts and numbers of shares listed under the caption, "Amount Outstanding as of May 31, 20X6," with the balances in the appropriate accounts in the company's general ledger and found them to be in agreement. We compared the amounts and numbers of shares listed under the caption, "Amount Outstanding as of May 31, 20X6," adjusted for the issuance of the debentures to be offered by means of the securities offering and for the proposed use of a portion of the proceeds thereof to prepay portions of certain notes, as described under "Use of Proceeds," with the amounts and numbers of shares shown under the caption, "As Adjusted," and found such amounts and numbers of shares to be in agreement. (However, we make no comments regarding the reasonableness of the "Use of Proceeds" or whether such use will actually take place.)</p>
<i>b</i>	<p>We compared the amounts of military sales, commercial sales, and total sales shown in the securities offering with the balances in the appropriate accounts in the company's accounting records for the respective fiscal years and for the unaudited interim periods and found them to be in agreement. We proved the arithmetic accuracy of the percentages of such amounts of military sales and commercial sales to total sales for the respective fiscal years and for the unaudited interim periods. We compared such computed percentages with the corresponding percentages appearing in the registration statement and found them to be in agreement.</p>
<i>c</i>	<p>We compared the amounts of net sales and income from continuing operations for the years ended December 31, 20X5, 20X4, and 20X3, with the respective amounts in the consolidated financial statements on pages 27 and 28 and the amounts for the years ended December 31, 20X2 and 20X1, with the respective amounts in the consolidated financial statements for 20X2 and 20X1 and found them to be in agreement.</p> <p>We compared the amounts of total assets, long-term obligations, and redeemable preferred stock at December 31, 20X5 and 20X4, with the respective amounts in the consolidated financial statements on pages 27 and 28 and the amounts at December 31, 20X3, 20X2, and 20X1, with the corresponding amounts in the consolidated financial statements for 20X3, 20X2, and 20X1 and found them to be in agreement.</p> <p>We compared the information included under the heading "Selected Financial Data" with the disclosure requirements of Item 301 of Regulation S-K. We also inquired of certain officials of the company who have responsibility for financial and accounting matters whether this information conforms in all material respects with the disclosure requirements of Item 301 of Regulation S-K. Nothing came to our attention</p>

<i>Item in 6</i>	<i>Procedures and Findings</i>
	as a result of the foregoing procedures that caused us to believe that this information does not conform in all material respects with the disclosure requirements of Item 301 of Regulation S-K.

9. It should be understood that we make no representations regarding questions of legal interpretation or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraph; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages listed above. Further, we have addressed ourselves solely to the foregoing data as set forth in the registration statement and make no representations regarding the adequacy of disclosure or regarding whether any material facts have been omitted.

Example G—Comments on Tables, Statistics, and Other Financial Information—Summarized Description of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information

A93-10 Example G illustrates, in paragraph 8*a*, a method of summarizing the descriptions of procedures and findings regarding tables, statistics, and other financial information in order to avoid repetition in the comfort letter. Each of the comments is in response to a specific request. The paragraphs in example G are intended to follow paragraph 6 in example A-1 or paragraph 5 in example A-2.

Other methods of summarizing the descriptions may also be appropriately used. For example, the letter may present a matrix listing the financial information and common procedures employed and indicating the procedures applied to specific items.

6. For purposes of this letter, we have also read the following, set forth in the registration statement on the indicated pages.

<i>Item</i>	<i>Page</i>	<i>Description</i>
<i>a</i>	4	"Capitalization." The amounts under the captions "Amount Outstanding as of May 31, 20X6" and "As Adjusted." The related notes, except the following in Note 2: "See Transactions With Interested Persons." From the proceeds of this offering the company intends to prepay \$900,000 on these notes, pro rata. See "Use of Proceeds."
<i>b</i>	13	"History and Business—Sales and Marketing." The table following the first paragraph.
<i>c</i>	33	"Selected Financial Data."

7. Our audit of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements as a whole. For none of the periods referred to therein, or any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions, such as those enumerated above, and, accordingly, we express no opinion thereon.

8. However, for purposes of this letter and with respect to the items enumerated in 6 above—
 - a. Except for item 6a, we have (i) compared the dollar amounts either with the amounts in the audited consolidated financial statements described in the introductory paragraph of this letter or, for prior years, included in the company's accounting records, or with amounts in the unaudited consolidated financial statements described in paragraph 3 to the extent such amounts are included in or can be derived from such statements and found them to be in agreement; (ii) compared the amounts of military sales, commercial sales, and total sales with amounts in the company's accounting records and found them to be in agreement; (iii) compared other dollar amounts with amounts shown in analyses prepared by the company and found them to be in agreement; and (iv) proved the arithmetic accuracy of the percentages based on the data in the above-mentioned financial statements, accounting records, and analyses.

We compared the information in item 6c with the disclosure requirements of Item 301 of Regulation S-K. We also inquired of certain officials of the company who have responsibility for financial and accounting matters whether this information conforms in all material respects with the disclosure requirements of Item 301 of Regulation S-K. Nothing came to our attention as a result of the foregoing procedures that caused us to believe that this information does not conform in all material respects with the disclosure requirements of Item 301 of Regulation S-K.
 - b. With respect to item 6a, we compared the amounts and numbers of shares listed under the caption "Amount Outstanding as of May 31, 20X6" with the balances in the appropriate accounts in the company's general ledger at May 31, 20X6, and found them to be in agreement. We compared the amounts and numbers of shares listed under the caption "Amount Outstanding as of May 31, 20X6," adjusted for the issuance of the debentures to be offered by means of the securities offering and for the proposed use of a portion of the proceeds thereof to prepay portions of certain notes, as described under "Use of Proceeds," with the amounts and numbers of shares shown under the caption, "As Adjusted" and found such amounts and numbers of shares to be in agreement. (However, we make no comments regarding the reasonableness of "Use of Proceeds" or whether such use will actually take place.)
9. It should be understood that we make no representations regarding questions of legal interpretation or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraph; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages listed above. Further, we have addressed ourselves solely to the foregoing data as set forth in the registration statement and make no representations regarding the adequacy of disclosure or regarding whether any material facts have been omitted.

Example H—Comments on Tables, Statistics, and Other Financial Information: Descriptions of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information—Attached Securities Offering (or Selected Pages) Identifies Items to Which Procedures Were Applied Through the Use of Designated Symbols

.A93-11 This example illustrates an alternate format, which could facilitate reporting when the auditor is requested to perform procedures on numerous statistics included in a securities offering. Each of the comments is in response to a specific request. The paragraph in example H is intended to follow paragraph 6 in example A-1 or paragraph 5 in example A-2.

7. For purposes of this letter, we have also read the items identified by you on the attached copy of the registration statement and have performed the following procedures, which were applied as indicated with respect to the symbols explained below:

Compared the amount with ABC Company's financial statements for the period indicated included in the securities offering and found them to be in agreement.

8. Our audit of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements as a whole. For none of the periods referred to therein, nor any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions, such as those enumerated above, and, accordingly, we express no opinion thereon.
9. It should be understood that we make no representations regarding questions of legal interpretation or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraph; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages listed above. Further, we have addressed ourselves solely to the foregoing data as set forth in the registration statement and make no representations regarding the adequacy of disclosure or regarding whether any material facts have been omitted.

[The following is an extract from a securities offering that illustrates how an auditor can document procedures performed on numerous statistics included in the securities offering.]

Summary Financial Information of ABC Company (In thousands)

Income statement data	ABC Company Year Ended December 31,		
	20X3	20X4	20X5
Revenue from home sales	\$104,110✓	\$115,837✓	\$131,032✓
Gross profit from sales	23,774✓	17,099✓	22,407✓
Income from home building net of tax	7,029✓	1,000✓	3,425✓

Example I—Alternate Wording When Auditor’s Report on Audited Financial Statements Contains an Emphasis-of-Matter Paragraph

.A93-12 Example I is applicable when the auditor's report on the audited financial statements included in the securities offering contains an emphasis-of-matter paragraph regarding a matter that would also affect the unaudited condensed consolidated interim financial statements included in the securities offering. The introductory paragraph would be revised as follows:

Our reports with respect thereto (which contain an emphasis-of-matter paragraph that describes a lawsuit to which the Company is a defendant, discussed in note 8 to the consolidated financial statements), are also included in the securities offering.

The matter described in the emphasis-of-matter paragraph would also be evaluated to determine whether it also requires mention in the comments on the unaudited condensed consolidated interim financial information (paragraph 5*b* of example A-1). If it is concluded that mention of such a matter in the comments on unaudited condensed consolidated financial statements is appropriate, a sentence would be added at the end of paragraph 5*b* in example A-1 and paragraph 4*b* of example A-2:

Reference should be made to the introductory paragraph of this letter, which states that our audit report covering the consolidated financial statements as of and for the year ended December 31, 20X5, includes an emphasis-of-matter paragraph that describes a lawsuit to which the company is a defendant, discussed in note 8 to the consolidated financial statements.

Example J—Alternate Wording When More Than One Auditor Is Involved

.A93-13 Example J applies when more than one auditor is involved in the audit of the financial statements of a business, and the group engagement team has obtained a copy of the comfort letter of the component auditors (see paragraph .21). Example J consists of an addition to paragraph 4, a substitution for the applicable part of paragraph 5, and an addition to paragraph 6 of example A-1 and paragraph 3, 4, and 5 of example A-2, respectively.

- [4]c. We have read the letter dated _____ of [*the other auditors*] with regard to [*the related company*].
5. Nothing came to our attention as a result of the foregoing procedures (which, so far as [*the related company*] is concerned, consisted solely of reading the letter referred to in 4c), however, that caused us to believe that . . .
6. . . . On the basis of these inquiries and our reading of the minutes and the letter dated _____ of [*the other auditors*] with regard to [*the related company*], as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

Example K—Alternate Wording When the SEC Has Agreed to a Departure From Its Accounting Requirements

.A93-14 Example K is applicable when (a) there is a departure from the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC, and (b) representatives of the SEC have agreed to the departure. Paragraph 2 of example A-1 would be revised to read as follows:

2. In our opinion [*include the phrase except as disclosed in the registration statement if applicable*], the consolidated financial statements and financial statement schedules audited by us and included (incorporated by reference) in the registration statement comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC; however, as agreed to by representatives of the SEC, separate financial statements and financial statement schedules of ABC Company (an equity investee) as required by Rule 3-09 of Regulation S-X have been omitted.

Example L—Alternate Wording When Recent Earnings Data Are Presented in Capsule Form

.A93-15 Example L is applicable when (a) the statement of income in the securities offering is supplemented by later information regarding sales and earnings (capsule financial information), (b) the auditor is asked to comment on that information (paragraphs .50–.51), and (c) the auditor has conducted a review in accordance with generally accepted auditing standards applicable to reviews of interim financial information of the financial statements from which the capsule financial information is derived. The same facts exist as in example A-1, except for the following:

- Sales and net income (no extraordinary items) share for the six-month periods ended June 30, 20X6 and 20X5 (both unaudited), are included in capsule form more limited than that specified by Financial Accounting Standards Board *Accounting Standards Codification* 270, *Interim Reporting*.
- No financial statements later than those for June 20X6 are available.
- The letter is dated July 25, 20X6, and the cut-off date is July 20, 20X6.

Paragraphs 4, 5, and 6 of example A-1 would be revised to read as follows:

4. For purposes of this letter, we have read the 20X6 minutes of the meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company and its subsidiaries as set forth in the minute books at July 20, 20X6, officials of the company having advised us that the minutes of all such meetings through that date were set forth therein and discussed with us the unapproved minutes of meetings held on [*dates*]; we have carried out other procedures to July 20, 20X6, as follows (our work did not extend to the period from July 21, 20X6 to July 25, 20X6, inclusive):
 - a. With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—

- (i) Performed the procedures specified for a review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information, on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the registration statement.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in *a(i)* comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.
- b. With respect to the six-month periods ended June 30, 20X6 and 20X5, we have—
- (i) Read the unaudited amounts for sales, net income, and earnings per share for the six-month periods ended June 30, 20X6 and 20X5, as set forth in paragraph [*identify location*].
 - (ii) Performed the procedures specified for a review in accordance with auditing standards generally accepted in the United States of America, applicable to reviews of interim financial information, on the unaudited condensed consolidated balance sheet as of June 30, 20X6 and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the six-month periods ended June 30, 20X6 and 20X5, from which the unaudited amounts referred to in *b(i)* are derived.
 - (iii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited amounts referred to in *b(i)* are stated on a basis substantially consistent with that of the corresponding amounts in the audited consolidated statements of income.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations regarding the sufficiency of the foregoing procedures for your purposes.

5. Nothing came to our attention as a result of the foregoing procedures, however, that caused us to believe that—
- a.
 - (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in *4a(i)*, included in the

registration statement, for them to be in conformity with generally accepted accounting principles.

- (ii) The unaudited condensed consolidated financial statements described in 4a(i) do not comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.

b.

- (i) The unaudited amounts for sales and net income for the six-month periods ended June 30, 20X6 and 20X5, referred to in 4b(i) do not agree with the amounts set forth in the unaudited condensed consolidated financial statements for those same periods.

- (ii) The unaudited amounts referred to in 4b(i) were not determined on a basis substantially consistent with that of the corresponding amounts in the audited consolidated statements of income.

c. At June 30, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6, unaudited condensed consolidated balance sheet included in the registration statement, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

- 6. Company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to June 30, 20X6 are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after June 30, 20X6 have, of necessity, been even more limited than those with respect to the periods referred to in 4. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at July 20, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 20X6, unaudited condensed consolidated balance sheet included in the registration statement; or (b) for the period from July 1, 20X6 to July 20, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales, or in income before extraordinary items or of net income. On the basis of these inquiries and our reading of the minutes as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

Example M—Alternate Wording When Auditors Are Aware of a Decrease in a Specified Financial Statement Item

.A93-16 Example M covers a situation in which auditors are aware of a decrease in a financial statement item on which they are requested to comment (see paragraphs .58–.64). The same facts exist as in example A-1, except for the decrease covered in the following change in paragraph 5b.

b. (i) At May 31, 20X6, there was any change in the capital stock, increase in long-term debt, or any decrease in consolidated stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the registration statement, or

(ii) for the period from April 1, 20X6 to May 31, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales, or income before extraordinary items or of net income, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur and except that the unaudited consolidated balance sheet as of May 31, 20X6, which we were furnished by the company, showed a decrease from March 31, 20X6 in consolidated net current assets as follows (in thousands of dollars):

	<i>Current Assets</i>	<i>Current Liabilities</i>	<i>Net Current Assets</i>
March 31, 20X6	\$4,251	\$1,356	\$2,895
May 31, 20X6	3,986	1,732	2,254

6. As mentioned in 4b, company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to May 31, 20X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 20X6, have, of necessity, been even more limited than those with respect to the periods referred to in 4. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at June 23, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 20X6, unaudited condensed consolidated balance sheet included in the registration statement; or (b) for the period from April 1, 20X6 to June 23, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income before extraordinary items or of net income. On the basis of these inquiries and our reading of the minutes as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur and except as described in the following sentence: We have been informed by officials of the company that there continues to be

a decrease in net current assets that is estimated to be approximately the same amount as set forth in 5b [or whatever other disclosure fits the circumstances].

Example N—Alternate Wording of the Letter for Companies That Are Permitted to Present Interim Earnings Data for a 12-Month Period

.A93-17 Certain types of companies are permitted to include earnings data for a 12-month period to the date of the latest balance sheet furnished in lieu of earnings data for both the interim period between the end of the latest fiscal year and the date of the latest balance sheet and the corresponding period of the preceding fiscal year. The following would be substituted for the applicable part of paragraph 3 of example A-1.

3. . . . was to enable us to express our opinion on the financial statements as of December 31, 20X5, and for the year then ended, but not on the financial statements for any period included in part within that year. Therefore, we are unable to, and do not express any opinion on, the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the related unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the 12 months then ended included in the securities offering.

Example O—Alternate Wording When the Procedures That the Requesting Party Has Requested the Auditor to Perform on Interim Financial Information Are Less Than a Review in Accordance With Generally Accepted Auditing Standards Applicable to Reviews of Interim Financial Information

.A93-18 The example assumes that the requesting party has asked the auditor to perform specified procedures on the interim financial information and report thereon in the comfort letter. The letter is dated June 28, 20X6; procedures were performed through June 23, 20X6, the cut-off date. Because a review in accordance with generally accepted auditing standards applicable to reviews of interim financial information was not performed on the interim financial information as of March 31, 20X6, and for the quarter then ended, the auditor is limited to reporting procedures performed and findings obtained on the interim financial information. The following would be substituted for paragraph 4a of example A-1. Example O assumes there has not been a change in the application of a requirement of generally accepted accounting principles during the interim period. If there has been such a change, a reference to that change would be included in subparagraph a(ii) that follows.

4. For purposes of this letter, we have read the 20X6 minutes of meetings of the stockholders, the board of directors, and [include other appropriate committees, if any] of the company and its subsidiaries as set forth in the minute books at June 23, 20X6, officials of the company having advised us that the minutes of all such meetings through that date were set forth therein and having discussed with us the unapproved minutes of meetings held on [dates]; we have carried out other procedures to June 23, 20X6,

as follows (our work did not extend to the period from June 24, 20X6 to June 28, 20X6, inclusive):

- a.* With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—
 - (i) Read the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the registration statement, and agreed the amounts included therein with the company's accounting records as of March 31, 20X6 and 20X5, and for the three-month periods then ended.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in *a*(i): (1) are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited consolidated financial statements included in the registration statement, and (2) comply as to form, in all material respects, with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC. Those officials stated that the unaudited condensed consolidated financial statements (1) are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited consolidated financial statements, and (2) comply as to form, in all material respects, with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.

Example P—Intentionally Omitted (See example A-2)³

Example Q—Letter to a Requesting Party That Has Not Provided the Legal Opinion or the Representation Letter Required by Paragraph .11

.A93-19 This example illustrates the letter to be provided in accordance with paragraph .11 in which the auditor does not provide negative assurance. This example assumes that these procedures are being performed at the request of the placement agent on information included in an offering circular in connection with a private placement of unsecured notes. The letter is dated June 30, 20X6; procedures were performed through June 25, 20X6, the cut-off date. The

³ Example P, "A Typical Comfort Letter in a Non-1933 Act Offering, Including the Required Underwriter Representations," in AU section 634, *Letters for Underwriters and Certain Other Requesting Parties*, was moved to example A-2, "Typical Comfort Letter for a Non-1933 Act Offering When the Required Representation Letter Has Been Obtained," in this section when AU section 634 was redrafted for clarity, and is intentionally blank to retain the letters assigned to the other examples.

statements in paragraphs 4–8 of the example are illustrative of the statements required to be included by paragraph .12.

This example may also be used in connection with a filing under the 1933 Act when a party other than a named underwriter (for example, a selling shareholder) has not provided the auditor with the representation letter described in paragraph .11. In such a situation, this example may be modified to include the auditor's comments on independence and compliance as to form of the audited financial statements and financial statements schedules with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC. Paragraph 1a(ii) may include an inquiry, and the response of company officials, on compliance as to form of the unaudited condensed interim financial statements.

June 30, 20X6

[Addressee]

Dear Ladies and Gentlemen:

We have audited the consolidated financial statements of The Nonissuer Company, Inc. (the company) and subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X5 and 20X4, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, and the related notes to the consolidated financial statements, all included in the offering circular for \$30,000,000 of notes due June 30, 20Z6. Our report with respect thereto is included in the offering circular. The offering circular dated June 30, 20X6, is herein referred to as the offering circular.

We are independent certified public accountants with respect to the company under Rule 101 of the AICPA's Code of Professional Conduct and its interpretations and rulings.

We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 20X5; although, we have conducted an audit for the year ended December 31, 20X5, the purpose (and, therefore, the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 20X5, and for the year then ended, but not on the financial statements for any interim period within that year. Therefore, we are unable to, and do not express any opinion on, the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the offering circular, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 20X5.

1. At your request, we have read the 20X6 minutes of meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company as set forth in the minute books at June 25, 20X6, officials of the company having advised us that the minutes of all such meetings through that date were set forth therein and having discussed with us the unapproved minutes of meetings held on [*dates*]; we have carried out other procedures to June 25, 20X6, as follows (our work did not extend to the period from June 26, 20X6 to June 30, 20X6, inclusive):
 - a. With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—

- (i) Read the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows of the company for the three-month periods ended March 31, 20X6 and 20X5, included in the offering circular, and agreed the amounts included therein with the company's accounting records as of March 31, 20X6 and 20X5, and for the three-month periods then ended.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in *a(i)* are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited consolidated financial statements included in the offering circular. Those officials stated that the unaudited condensed consolidated financial statements are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited consolidated financial statements.
- b. With respect to the period from April 1, 20X6 to May 31, 20X6, we have—
- (i) Read the unaudited condensed consolidated financial statements of the company for April and May of both 20X5 and 20X6, furnished us by the company, and agreed the amounts included therein with the company's accounting records. Officials of the company have advised us that no financial statements as of any date or for any period subsequent to May 31, 20X6 were available. [*if applicable*: The financial information for April and May of both 20X5 and 20X6 is incomplete in that it omits the statements of cash flows and other disclosures.]
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether (1) the unaudited condensed consolidated financial statements referred to in *b(i)* are stated on a basis substantially consistent with that of the audited consolidated financial statements included in the offering circular, (2) at May 31, 20X6, there was any change in the capital stock, increase in long-term debt, or any decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6, unaudited condensed consolidated balance sheet included in the offering circular, and (3) for the period from April 1, 20X6 to May 31, 20X6, there were any decreases, as compared with the

corresponding period in the preceding year, in consolidated net sales, or in income before extraordinary items or of net income.

Those officials stated that (1) the unaudited condensed consolidated financial statements referred to in *b(ii)* are stated on a basis substantially consistent with that of the audited consolidated financial statements included in the offering circular, (2) at May 31, 20X6, there was no change in the capital stock, no increase in long-term debt, and no decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6, unaudited condensed consolidated balance sheet included in the offering circular, and (3) there were no decreases for the period from April 1, 20X6 to May 31, 20X6, as compared with the corresponding period in the preceding year, in consolidated net sales, or in income before extraordinary items or of net income.

- c. As mentioned in *1b*, company officials have advised us that no financial statements as of any date or for any period subsequent to May 31, 20X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 20X6, have, of necessity, been even more limited than those with respect to the periods referred to in *1a* and *1b*. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (i) at June 25, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 20X6, unaudited condensed consolidated balance sheet included in the offering circular or (ii) for the period from April 1, 20X6 to June 25, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income before extraordinary items or of net income.

Those officials referred to above stated that (i) at June 25, 20X6, there was no change in the capital stock, no increase in long-term debt, and no decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 20X6, unaudited condensed consolidated balance sheet, and (ii) there were no decreases for the period from April 1, 20X6 to June 25, 20X6, as compared with the corresponding period in the preceding year, in consolidated net sales or in income before extraordinary items or of net income.

2. For purposes of this letter, we have also read the items identified by you on the attached copy of the offering circular and have performed the following procedures, which were applied as indicated with respect to the symbols explained below:

Compared the amount with the company's financial statements for the period indicated and found them to be in agreement.

Compared the amount with the company's financial statements for the period indicated included in the offering circular and found them to be in agreement.

Compared with a schedule or report prepared by the company and found them to be in agreement.

3. Our audit of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements as a whole. For none of the periods referred to therein, nor for any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions, such as those enumerated above, and, accordingly, we express no opinion thereon.
4. It should be understood that we have no responsibility for establishing (and did not establish) the scope and nature of the procedures enumerated in paragraphs 1–3 above; rather, the procedures enumerated therein are those the requesting party asked us to perform. Accordingly, we make no representations regarding questions of legal interpretation⁴ or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraphs; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages listed above as set forth in the offering circular. Further, we have addressed ourselves solely to the foregoing data and make no representations regarding the adequacy of disclosures or whether any material facts have been omitted. This letter relates only to the financial statement items specified above and does not extend to any financial statement of the company as a whole.
5. The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Had we performed additional procedures or had we conducted an audit or a review of the company's March 31, April 30, or May 31, 20X6 and 20X5 condensed consolidated financial statements in accordance with generally accepted auditing standards, other matters might have come to our attention that would have been reported to you.
6. These procedures should not be taken to supplant any additional inquiries or procedures that you would undertake in your consideration of the proposed offering.

⁴ Paragraph .A6 of this section.

7. This letter is solely for your information and to assist you in your inquiries in connection with the offering of the securities covered by the offering circular, and it is not to be used, circulated, quoted, or otherwise referred to for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to, in whole or in part, in the offering circular or any other document, except that reference may be made to it in any list of closing documents pertaining to the offering of the securities covered by the offering document.
8. We have no responsibility to update this letter for events and circumstances occurring after June 25, 20X6.

Example R—Alternate Wording When Reference to Examination of Annual Management’s Discussion and Analysis and Review of Interim Management’s Discussion and Analysis Is Made

.A93-20 This example is applicable when the auditor is making reference to an examination of annual MD&A and a review of interim MD&A. The same facts exist as in example A-1, except for the following:

- The auditor has examined the company's Management's Discussion and Analysis (MD&A) for the year ended December 31, 20X5, in accordance with AT section 701, *Management's Discussion and Analysis*.
- The auditor has also performed reviews of the company's unaudited condensed consolidated financial statements in accordance with generally accepted auditing standards applicable to reviews of interim financial information and the company's MD&A for the three-month period ended March 31, 20X6, in accordance with AT section 701.
- The accountant's reports on the examination and review of MD&A have been previously issued, but not distributed publicly; none of these reports is included in the securities offering. In this example, the auditor has elected to attach the previously issued reports to the comfort letter (see paragraph .A33).

Appropriate modifications would be made to the opening paragraph of the comfort letter if the auditor has performed a review of the company's annual MD&A.

The following would be substituted for the first paragraph of example A-1.

We have audited the consolidated financial statements of The Nonissuer Company, Inc. (the company) and subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X5 and 20X4, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, the related notes to the consolidated financial statements, and the related financial statement schedules, all included in The Issuer Company's (the registrant) registration statement (no. 33-00000) on Form S-1 filed by the registrant under the Securities Act of 1933 (the Act); our reports with respect thereto are also included in that registration statement. The registration statement, as amended on June 28, 20X6, is herein referred to as the registration statement. Also, we have examined the company's Management's Discussion and Analysis (MD&A) for the year ended December 31, 20X5, included in the registration statement, as indicated in our report dated March 28, 20X6; our report with respect thereto is attached. We

have also reviewed the unaudited condensed consolidated financial statements as of March 31, 20X6 and 20X5, and for the three-month periods then ended, included in the registration statement, as indicated in our report dated May 15, 20X6, and have also reviewed the company's MD&A for the three-month period ended March 31, 20X6, included in the registration statement, as indicated in our report dated May 15, 20X6; our reports with respect thereto are attached.

The following paragraph would be added after paragraph 3 of example A-1:

4. We have not examined any MD&A of the company as of or for any period subsequent to December 31, 20X5; although we have made an examination of the company's MD&A for the year ended December 31, 20X5, included in the registration statement, the purpose (and, therefore, the scope) of the examination was to enable us to express our opinion on such MD&A, but not on the MD&A for any interim period within that year. Therefore, we are unable to and do not express any opinion on the MD&A for the three-month period ended March 31, 20X6, included in the registration statement, or for any period subsequent to March 31, 20X6.
-

AU-C Section 925

Filings With the U.S. Securities and Exchange Commission Under the Securities Act of 1933

Source: SAS No. 122.

Effective for filings under the Securities Act of 1933 that include audited financial statements for periods ending on or after December 15, 2012.

Introduction

Scope of This Section (Ref: par. .A1)

.01 This section addresses the auditor's responsibilities in connection with financial statements of a nonissuer included or incorporated by reference in a registration statement filed with the U.S. Securities and Exchange Commission (SEC) under the Securities Act of 1933, as amended. Exhibit A, "Background," provides background information on certain liability provisions of Section 11 of the Securities Act of 1933, including Section 11(b)(3)(B).

Effective Date

.02 This section is effective for filings under the Securities Act of 1933 that include audited financial statements for periods ending on or after December 15, 2012.

Objective

.03 The objective of the auditor, in connection with audited financial statements of a nonissuer that are separately included or incorporated by reference in a registration statement filed under the Securities Act of 1933, is to perform specified procedures at or shortly before the effective date of the registration statement to sustain the burden of proof that the auditor has performed a reasonable investigation, as referred to in Section 11(b)(3)(B) of the Securities Act of 1933.

Definitions

.04 For purposes of this section, the following terms have the meanings attributed as follows:

Auditor's consent. A statement signed and dated by the auditor that indicates that the auditor consents to the use of the auditor's report, and other references to the auditor, in a registration statement filed under the Securities Act of 1933.

Awareness letter. A letter signed and dated by the auditor to acknowledge the auditor's awareness that the auditor's review report on unaudited interim financial information is being used in a registration statement filed under the Securities Act of 1933. This letter is not considered to be part of the registration statement and is also commonly referred to as an *acknowledgment letter*.

Effective date of the registration statement. The date on which the registration statement filed under the Securities Act of 1933 becomes effective for purposes of evaluating the auditor's liability under Section 11 of the Securities Act of 1933. (Ref: par. .A2 and .A14)

.05 References to *included* or *the inclusion of* in a registration statement in this section means *included* or *incorporated by reference* in a registration statement filed under the Securities Act of 1933.

Requirements

Effective Date of the Registration Statement (Ref: par. .A3)

.06 Because the effective date of a registration statement filed under the Securities Act of 1933 may not necessarily coincide with the filing date, the auditor should request management to keep the auditor advised of the progress of the registration proceedings through the effective date of the registration statement.

The Prospectus and Other Information (Ref: par. .A4–.A8)

.07 When the auditor's report on audited financial statements is included in a registration statement filed under the Securities Act of 1933, the auditor should perform the procedures described in section 720, *Other Information in Documents Containing Audited Financial Statements*, on the prospectus and pertinent portions of the registration statement (including material that is incorporated by reference).

.08 In connection with the procedures required by paragraph .07, the auditor should determine that the auditor's name is not being used in a way that indicates that the auditor's responsibility is greater than the auditor intends.

Subsequent Events Procedures (Ref: par. .A9–.A11)

.09 When the most recent separate financial statements of the entity and related auditor's report are included in the registration statement, the auditor should perform the following procedures described in section 560, *Subsequent Events and Subsequently Discovered Facts*, at or shortly before the effective date of the registration statement:¹

- a. Audit procedures designed to identify events occurring between the date of the auditor's report and the effective date of the registration statement that require adjustment to, or disclosure in, the financial statements. Such procedures, which take into account the auditor's risk assessment in determining the nature and extent of such audit procedures, should include
 - i. obtaining an understanding of any procedures that management has established to ensure that such events are identified.
 - ii. inquiring of management and, when appropriate, those charged with governance about whether any such events have occurred that might affect the financial statements.

¹ Paragraphs .09–.10 of section 560, *Subsequent Events and Subsequently Discovered Facts*.

- iii. reading minutes, if any, of the meetings of the entity's owners, management, and those charged with governance that have been held after the date of the financial statements and inquiring about matters discussed at any such meetings for which minutes are not yet available.
 - iv. reading the entity's latest subsequent interim financial statements, if any.
- b. Obtain updated written representations from management at or shortly before the effective date of the registration statement, about whether
- i. any information has come to management's attention that would cause management to believe that any of the previous representations should be modified.
 - ii. any events have occurred subsequent to the date of the financial statements that would require adjustment to, or disclosure in, those financial statements.

.10 When the auditor has audited the most recent period for which separate audited financial statements of the entity are included in the registration statement and

- a. the entity has been acquired by another entity,
- b. the acquirer's audited financial statements included in the registration statement reflect a period that includes the date of acquisition, and
- c. the auditor is a predecessor auditor because the auditor is not the continuing auditor of the entity,

the auditor may be unable to perform all of the procedures in paragraph .09. In such circumstances, the auditor should obtain written representations from management and the successor auditor as described in section 560 at or shortly before the effective date of the registration statement.²

.11 If a predecessor auditor audited the entity's separate financial statements for a prior period included in the registration statement but has not audited the entity's separate financial statements for the most recent audited period for which the entity's audited financial statements are included in the registration statement, then the predecessor auditor should perform the following procedures described in section 560 through a date at or shortly before the effective date of the registration statement:³

- a. Read the financial statements of the subsequent period to be presented on a comparative basis
- b. Compare the prior period financial statements that the predecessor auditor reported on with the financial statements of the subsequent period to be presented on a comparative basis
- c. Obtain written representations from management at or shortly before the effective date
- d. Obtain a representation letter from the successor auditor stating whether the successor auditor's audit revealed any matters that, in the successor auditor's opinion, might have a material effect

² Paragraph .19c-d of section 560.

³ Paragraph .19 of section 560.

on, or require disclosure in, the financial statements reported on by the predecessor auditor

.12 If the auditor becomes aware of subsequently discovered facts, the auditor should not provide the auditor's consent until the auditor's consideration of subsequently discovered facts, including the effect on the auditor's report on the financial statements, has been satisfactorily completed in accordance with section 560.⁴ If management does not revise the audited financial statements in circumstances in which the auditor believes they need to be revised, then the auditor should determine whether to withhold the auditor's consent (and the awareness letter, if applicable). (Ref: par. .A11)

Unaudited Annual Financial Statements or Unaudited Interim Financial Information

.13 If the auditor concludes, based on known facts, that unaudited annual financial statements or unaudited interim financial information included in a registration statement filed under the Securities Act of 1933 is not in conformity with the requirements of the applicable financial reporting framework, then the auditor should request that management revise the unaudited annual financial statements or unaudited interim financial information appropriately.

.14 If management does not revise the unaudited annual financial statements or unaudited interim financial information appropriately and

- a. the auditor has reported on a review of the unaudited annual financial statements or unaudited interim financial information,
- b. the auditor's review report is included in the registration statement, and
- c. the subsequently discovered facts are such that they would have affected the report had they been known to the auditor at the date of the report,

the auditor should perform the applicable procedures described in section 560.⁵

.15 If management does not revise the unaudited annual financial statements or unaudited interim financial information appropriately and

- a. the auditor has not reported on a review of the unaudited annual financial statements or unaudited interim financial information or
- b. the auditor's review report is not included in the registration statement,

the auditor should modify the report on the audited financial statements to describe the departure from the requirements of the applicable financial reporting framework contained in the unaudited annual financial statements or unaudited interim financial information, as described in section 930, *Interim Financial Information*.⁶

.16 Additionally, the auditor should determine whether to withhold the auditor's consent (and the awareness letter, if applicable). (Ref: par. .A11)

⁴ Paragraphs .15–.18 of section 560.

⁵ Paragraphs .14 and .17–.18 of section 560.

⁶ Paragraph .35 of section 930, *Interim Financial Information*.

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01)

.A1 This section is written from the perspective of a registration statement filed under the Securities Act of 1933. The liability provisions under the Securities Act of 1933 differ from those (Section 10[b] and Rule 10[b][5], in particular) under the Securities Exchange Act of 1934.

Definitions

Effective Date of the Registration Statement (Ref: par. .04)

.A2 Exhibit A describes the process commonly referred to as *shelf registration*. Exhibit A also provides additional guidance about the effective date of a registration statement, including situations in which a posteffective amendment is made or a prospectus supplement is filed.⁷ Both of these situations may create a new effective date. Exhibit A also discusses the auditor's liability under Section 11 of the Securities Act of 1933 with regard to these situations.

Effective Date of the Registration Statement (Ref: par. .06)

.A3 Requesting management to keep the auditor advised of the progress of the registration proceedings through the effective date is important so that the auditor's consideration of events occurring after the date of the auditor's report up to the effective date, or as close thereto as reasonable and practicable, can be completed by the effective date of the registration statement. Generally, the filing date of a registration statement will precede the effective date. In addition to performing the procedures required by this section at or shortly before the effective date, the auditor may also perform some or all of the procedures in this section at or shortly before the filing date.

The Prospectus and Other Information (Ref: par. .07–.08)

.A4 The reading of the entire prospectus (including any supplemental prospectuses and documents incorporated by reference—such as forms 10-K, 10-Q, and 8-K) assists the auditor in fulfilling the auditor's statutory responsibilities to perform a reasonable investigation, as described in Section 11(c) of the Securities Act of 1933.

References to the Auditor as an Expert in Connection With a Securities Act of 1933 Registration Statement

.A5 The requirements in paragraphs .07–.08 assist the auditor in determining that the references to the auditor in the Securities Act of 1933 registration statement are appropriate. For example, management's disclosure in the "experts" section cannot imply that the financial statements have been prepared by the auditor or that the financial statements are not the direct representations of management.

.A6 The SEC does not require an entity to include an auditor's review report on unaudited interim financial information in the registration statement unless the registration statement states that the unaudited interim financial information has been reviewed by an independent auditor. If the registration

⁷ Paragraphs 8–12 of exhibit A, "Background."

statement includes the auditor's review report on interim financial information, then the requirements in paragraphs .07–.08 assist the auditor in determining that the issuer discloses the fact that an interim review report is not a report on, or a part of, the registration statement prepared or certified by the auditor, within the meaning of Section 7 and Section 11 of the Securities Act of 1933, and that the auditor's liability under Section 11 does not extend to the auditor's review report.

.A7 The auditor is not considered an expert with respect to the auditor's review report on interim financial information and, therefore, it is important that this fact is clearly described. For example, the disclosures relating to the auditor's report on the audited financial statements may be included under a heading titled "Experts," and the disclosures in paragraph .A6 would then be included under a heading titled "Independent Auditors." Alternatively, the disclosures described in paragraph .A6 may be included under an "experts" section together with language stating the fact that an interim review report is not a report on, or a part of, the registration statement prepared or certified by the auditor, within the meaning of Section 7 and Section 11 of the Securities Act of 1933, and that the auditor's liability under Section 11 does not extend to the auditor's review report.

.A8 Exhibit A describes the disclosures relating to the auditor's report on the audited financial statements. Exhibit B, "Illustrative Disclosures and Reports," provides an illustration of this disclosure.

Subsequent Events Procedures (Ref: par. .09–.12)

.A9 An example of the conditions described in paragraphs .09–.11 would be a situation in which an issuer recently acquired a nonissuer that is considered significant to the issuer based on quantitative thresholds specified in the SEC's rules and regulations. In this case, the issuer's registration statement may need to include the separate audited financial statements of the acquired nonissuer for one or more periods.

.A10 In addition to the procedures required by paragraph .09, the auditor may consider it necessary and appropriate to inquire of, or extend previous oral or written inquiries to, the entity's legal counsel concerning litigation, claims, and assessments, as described in section 501, *Audit Evidence—Specific Considerations for Selected Items*.

.A11 In making the determination whether to withhold the auditor's consent, the auditor may consider it appropriate to obtain legal advice. (Ref: par. .12 and .16)

Exhibits

.A12 Exhibit A provides detailed background guidance on the following: (Ref: par. .04)

- The liability provisions of Section 11 of the Securities Act of 1933
- The auditor's consent and awareness letter
- The effective date of the registration statement
- References to the auditor as an expert in connection with a Securities Act of 1933 registration statement
- References to the auditor as an expert in a document other than a Securities Act of 1933 registration statement

- Letters similar to a consent prepared in connection with a document that is not a Securities Act of 1933 registration statement

.A13 Exhibit B provides illustrative disclosures and reports.

.A14

Exhibit A—Background

Exhibit A is intended to provide limited background information only.

Exhibit A is not intended to be, and does not constitute, a comprehensive or complete discussion of the liability provisions of the Securities Act of 1933, as amended. Exhibit A is not legal advice and reading it as such is inappropriate. Auditors are advised to consult with their legal counsel regarding the information provided in Exhibit A and the entire content of Section 11 of the Securities Act of 1933.

1. When an auditor's report is included in a registration statement filed under the Securities Act of 1933, the auditor's responsibility, generally, is in substance no different from that involved in other types of reporting. However, the nature and extent of this responsibility are specified in some detail in the applicable statutes and the related rules and regulations.

Liability Provisions of Section 11 of the Securities Act of 1933

2. Liability under the Securities Act of 1933 is defined in several sections of that act. One important section for auditors is Section 11.

3. Section 11(a) imposes civil liability on a number of parties that are involved in a registration statement filed under the Securities Act of 1933. One of the parties specifically mentioned in Section 11(a) is an auditor who has consented to the use of the auditor's report on audited financial statements in connection with a registration statement filed under the Securities Act of 1933 (Section 11[a][4]).

4. Section 11(b)(3)(B) of the Securities Act of 1933 provides that the auditor is not liable under Section 11(a) if the auditor

sustain[s] the burden of proof . . . that . . . as regards any part of the registration statement purporting to be made upon his authority as an expert or purporting to be a copy of or extract from a report or valuation of himself as an expert, (i) he had, after reasonable investigation, reasonable ground to believe and did believe, at the time such part of the registration statement became effective, that the statements therein were true and that there was no omission to state a material fact required to be stated therein or necessary to make the statements therein not misleading, or (ii) such part of the registration statement did not fairly represent his statement as an expert or was not a fair copy of or extract from his report or valuation as an expert.

5. Section 11(c) of the Securities Act of 1933 indicates that for the purpose of determining what constitutes reasonable investigation and reasonable ground to believe, "the standard of reasonableness shall be that required of a prudent man in the management of his own property."

Auditor's Consent and Awareness Letter

6. Section 7 of the Securities Act of 1933 requires an issuer to provide the consent of any auditor whose report on audited financial statements is included in a Securities Act of 1933 registration statement. The issuer's responsibility to file the auditor's consent is further discussed in Rule 436 of the Securities Act of 1933.

7. Rule 436(c) of the Securities Act of 1933 indicates that an auditor's report based on a review of interim financial information is not a report within the meaning of Section 11. Thus, the auditor does not have a similar statutory responsibility for such reports as of the effective date of the registration statement. Accordingly, the auditor's consent would not refer to the auditor's report on interim financial statements. However, the issuer is required to file an awareness letter from an auditor if the auditor's review report on interim financial information is included in a registration statement filed under the Securities Act of 1933.

Effective Date of the Registration Statement

8. The information in a registration statement filed under the Securities Act of 1933 is evaluated as of its effective date. Accordingly, the auditor who has consented to the inclusion of the auditor's report on audited financial statements in such a registration statement has a statutory responsibility that is determined in light of the circumstances on that date. The effective date for purposes of evaluating liability under Section 11 may be different for different parties. For instance, the effective date for determining liability under Section 11 for the issuer or for an underwriter may be later than the effective date for determining Section 11 liability for the auditor.

9. Certain Securities Act of 1933 rules and forms (for example, Rule 415 and Form S-3) permit issuers to register offerings of securities to be offered and sold on a delayed or continuous basis. This process is commonly referred to as *shelf registration*.

10. The prospectus included in a shelf registration statement at the time it becomes effective is commonly referred to as a *base prospectus*. Many issuers follow a "bare bones" approach to preparing the base prospectus by relying entirely on the documents incorporated by reference (for example, forms 10-K, 10-Q, and 8-K) to provide most, if not all, of the issuer-related disclosures. The base prospectus also generally omits information relating to the specific amount of each security to be offered and pricing information. That information is typically provided through a prospectus supplement filed pursuant to Rule 424(b) of the Securities Act of 1933 at the time the securities are sold (commonly referred to as *taken off the shelf* or a *shelf takedown*).

11. At the time of filing a shelf registration statement, the issuer undertakes to update the prospectus for a number of items. The issuer's undertakings are set forth in Item 512 of Regulation S-K. Information omitted from the base prospectus, as well as the information that the issuer has undertaken to provide at a later date, may be conveyed to investors

- by a posteffective amendment to the registration statement,
- by a prospectus supplement filed pursuant to Rule 424(b) of the Securities Act of 1933, or
- through the incorporation by reference of the information from a report filed under the Securities Exchange Act of 1934 (for example, Form 10-K or Form 8-K).

12. As previously discussed, liability under Section 11 of the Securities Act of 1933 is assessed based on the information included in the registration statement as of its effective date. As also previously noted, the effective date for purposes of evaluating liability under Section 11 as it relates to the auditor may differ from the effective date as it relates to other parties (for example, the issuer or any underwriters). From the auditor's perspective, the effective date

in connection with a Securities Act of 1933 registration statement is the latest of the following:

- The date the original registration statement (for example, on Form S-3) becomes effective
- The effective date of any posteffective amendment
- The filing date of a prospectus supplement if the filing of the prospectus supplement creates a new effective date for the auditor (for example, the prospectus supplement may contain new or revised audited financial statements or other information about which the auditor is an expert and for which a new consent is required, as described in Rule 430B[f][3] of the Securities Act of 1933)
- The filing date of any report (for example, under the Securities Exchange Act of 1934) that includes or amends audited financial statements and is incorporated by reference into the already effective registration statement

For example, assume an issuer with an already effective shelf registration statement on Form S-3 acquires a private company, and the issuer is required to file the acquired company's audited financial statements pursuant to the requirements of Form 8-K. In this case, the issuer will be required to file an auditor's consent from the acquired company's auditor as an exhibit to Form 8-K. The guidance in this section is applicable to the acquired company's auditor in connection with providing the auditor's consent to the issuer.

References to the Auditor as an Expert in Connection With a Securities Act of 1933 Registration Statement

13. Although not required, most Securities Act of 1933 registration statements relating to underwritten offerings contain a section titled "Experts." This section can be defined as management's disclosure in a Securities Act of 1933 registration statement that states that audited financial statements are included in the registration statement in reliance upon the auditor's report on the audited financial statements. The "experts" section also typically indicates that the auditor's report on the audited financial statements has been given on the auditor's authority as an expert in accounting and auditing.

14. Exhibit B, "Illustrative Disclosures and Reports," provides an example of a typical "experts" section.

15. As with all sections of the registration statement, the disclosures in the "experts" section are the issuer's responsibility. However, Rule 436(b) of the Securities Act of 1933 requires the issuer to file an auditor's consent to being named as an expert.

References to the Auditor as an Expert in a Document Other Than a Securities Act of 1933 Registration Statement

16. The term *expert* has a specific statutory meaning under the Securities Act of 1933. Outside the Securities Act of 1933 context, the term *expert* is typically undefined. Accordingly, except as described in paragraph 18 of this exhibit, when an issuer wishes to make reference to the auditor's role in an offering document in connection with a securities offering that is not registered under the Securities Act of 1933, the caption to that section of the document would generally be titled "Independent Auditors" (or something similar) rather than "Experts," with no reference to the auditor as an expert anywhere in the document.

17. Exhibit B provides an example of a typical description of the auditor's role when an issuer wishes to make reference to the auditor in an offering document in connection with a securities offering that is not registered under the Securities Act of 1933.

18. There may be situations in which the term *expert* is sufficiently defined such that the auditor may agree to be referred to as an expert outside the context of a registration statement filed under the Securities Act of 1933. For example, if the term *expert* is defined under applicable state law, the auditor may agree to be named as an expert in an offering document in an intrastate securities offering. The auditor may also agree to be named as an expert, as that term is used by the Office of Thrift Supervision (OTS), in securities offering documents that are subject to the jurisdiction of the OTS. An understanding of any auditor liability provisions that may be included in the applicable federal or state statutes is an important consideration.

Letters Similar to Consents Prepared in Connection With a Document That Is Not a Securities Act of 1933 Registration Statement

19. When an auditor's report is used in connection with an offering transaction that is not registered under the Securities Act of 1933, it is not usually necessary for the auditor to provide any type of written consent. If the auditor is asked to provide a written consent for use in connection with a document other than a Securities Act of 1933 registration statement, then the auditor may provide a letter indicating that the auditor agrees to the inclusion of the auditor's report on the audited financial statements in the offering materials. This letter would typically not be included in the offering materials.

20. Exhibit B provides an example of language the auditor might use to indicate that the auditor agrees to the inclusion of the auditor's report on the audited financial statements in the offering materials when the auditor's report is used in connection with an offering transaction that is not registered under the Securities Act of 1933.

.A15

Exhibit B—Illustrative Disclosures and Reports

The following is an example of a typical "experts" section in a registration statement filed under the Securities Act of 1933:

Experts

The consolidated balance sheets of Company X as of December 31, 20X2 and 20X1, and the related consolidated statements of income and comprehensive income, changes in stockholders' equity, and cash flows for each of the three years in the period ended December 31, 20X2, included in this prospectus, have been so included in reliance on the report of ABC & Co, independent auditors, given on the authority of that firm as experts in auditing and accounting.

The following is an example of a disclosure for a registration statement filed under the Securities Act of 1933 that includes the auditor's review report on unaudited interim financial information when such disclosure is included in a separate section. This disclosure may also be included under a section titled "Experts":

Independent Auditors

With respect to the unaudited interim financial information of Company X for the three-month periods ended March 31, 20X3 and 20X2, included in this prospectus, ABC & Co. has reported that they have applied limited procedures in accordance with professional standards for a review of such information. However, their separate report dated May XX, 20X3, included herein, states that they did not audit and they do not express an opinion on that interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. ABC & Co. is not subject to the liability provisions of section 11 of the Securities Act of 1933 for their report on the unaudited interim financial information because that report is not a "report" or a "part" of the registration statement prepared or certified by the accountants within the meaning of Sections 7 and 11 of the Act.

The following is an example of a typical description of the auditor's role when an issuer wishes to make reference to the auditor in an offering document prepared in connection with a securities offering that is not registered under the Securities Act of 1933:

Independent Auditors

The financial statements of Company X as of December 31, 20X2 and for the year then ended, included in this offering circular, have been audited by ABC & Co., independent auditors, as stated in their report appearing herein.

Although generally not necessary, the following is an example of language the auditor might use indicating that the auditor agrees to the inclusion of the auditor's report on the audited financial statements in offering materials prepared in connection with a securities offering that is not registered under the Securities Act of 1933:

We agree to the inclusion in the offering circular of our report, dated February 5, 20X3, on our audit of the financial statements of Company X.

AU-C Section 930

Interim Financial Information

Source: SAS No. 122.

Effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2012.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibilities when engaged to review interim financial information under the conditions specified in this section. The term *auditor* is used throughout this section, not because the auditor is performing an audit but because the scope of this section is limited to a review of interim financial information performed by an auditor of the financial statements of the entity.

.02 This section applies to a review of interim financial information when

- a. the entity's latest annual financial statements have been audited by the auditor or a predecessor auditor;
- b. the auditor either
 - i. has been engaged to audit the entity's current year financial statements or
 - ii. audited the entity's latest annual financial statements, and in situations in which it is expected that the current year financial statements will be audited, the engagement of another auditor to audit the current year financial statements is not effective prior to the beginning of the period covered by the review; (Ref: par. .A1)
- c. the entity prepares its interim financial information in accordance with the same financial reporting framework as that used to prepare the annual financial statements; and
- d. all of the following conditions are met if the interim financial information is condensed:
 - i. The condensed interim financial information purports to be prepared in accordance with an appropriate financial reporting framework, which includes appropriate form and content of interim financial information. (Ref: par. .A2)
 - ii. The condensed interim financial information includes a note that the financial information does not represent complete financial statements and is to be read in conjunction with the entity's latest audited annual financial statements.
 - iii. The condensed interim financial information accompanies the entity's latest audited annual financial statements, or such audited annual financial statements are made readily available by the entity. (Ref: par. .A3)

Statements on Standards for Accounting and Review Services provide guidance for review engagements for which this section is not applicable.

.03 An auditor may find this section, adapted as necessary in the circumstances, useful when that auditor has not been engaged to perform a review of interim financial information but has nonetheless decided to perform review procedures on such financial information (for example, in connection with the inclusion of the auditor's report on the annual financial statements in an unregistered securities offering document).

Effective Date

.04 This section is effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2012.

Objective

.05 The objective of the auditor when performing an engagement to review interim financial information is to obtain a basis for reporting whether the auditor is aware of any material modifications that should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework through performing limited procedures. (Ref: par. A4–A5)

Definition

.06 For purposes of this section, the following term has the meaning attributed as follows:

Interim financial information. Financial information prepared and presented in accordance with an applicable financial reporting framework that comprises either a complete or condensed set of financial statements covering a period or periods less than one full year or covering a 12-month period ending on a date other than the entity's fiscal year end.

Requirements

Acceptance

.07 Before accepting an engagement to review an entity's interim financial information for a new client, the auditor should follow the procedures for initial engagements required by section 210, *Terms of Engagement*.¹

.08 Before accepting an engagement to perform a review of interim financial information, the auditor should

- a. determine whether the financial reporting framework to be applied in the preparation of the interim financial information is acceptable and
- b. obtain the agreement of management that it acknowledges and understands its responsibility

¹ Paragraphs .11–.12 of section 210, *Terms of Engagement*.

- i. for the preparation and fair presentation of the interim financial information in accordance with the applicable financial reporting framework;
- ii. for the design, implementation, and maintenance of internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with the applicable financial reporting framework;
- iii. to provide the auditor with
 - (1) access to all information of which management is aware that is relevant to the preparation and fair presentation of the interim financial information, such as records, documentation, and other matters;
 - (2) additional information that the auditor may request from management for the purpose of the review; and
 - (3) unrestricted access to persons within the entity of whom the auditor determines it necessary to make inquiries;² and
- iv. to include the auditor's review report in any document containing interim financial information that indicates that such information has been reviewed by the entity's auditor.

.09 The auditor should not accept an engagement to review interim financial information if

- a. the auditor has determined that the financial reporting framework to be applied in the preparation of the interim financial information is unacceptable.
- b. the agreement referred to in paragraph .08*b* has not been obtained.

Agreement on Engagement Terms

.10 The auditor should agree upon the terms of the engagement with management or those charged with governance, as appropriate. The agreed-upon terms of the engagement should be recorded in an engagement letter or other suitable form of written agreement and should include the following: (Ref: par .A6)

- a. The objectives and scope of the engagement
- b. The responsibilities of management set forth in paragraph .08*b*
- c. The responsibilities of the auditor
- d. The limitations of a review engagement
- e. Identification of the applicable financial reporting framework for the preparation of the interim financial information

² Paragraph .06 of section 210.

Procedures for a Review of Interim Financial Information

Understanding the Entity and Its Environment, Including Its Internal Control

.11 To plan and conduct the engagement, the auditor should have an understanding of the entity and its environment, including its internal control as it relates to the preparation and fair presentation of both annual and interim financial information, sufficient to be able to

- a. identify the types of potential material misstatements in the interim financial information and consider the likelihood of their occurrence.
- b. select the inquiries and analytical procedures that will provide the auditor with a basis for reporting whether the auditor is aware of any material modifications that should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework.

.12 To update or, in the case of an auditor who has not yet performed an audit of the entity's annual financial statements, obtain the understanding required by paragraph .11, the auditor should perform the following procedures: (Ref: par. .A7–.A8)

- a. Read available documentation of the preceding year's audit and of reviews of the prior interim period(s) of the current year and the corresponding interim period(s) of the prior year to the extent necessary, based on the auditor's judgment, to enable the auditor to identify matters that may affect the current period interim financial information. (Ref: par. .A9–.A10) In reading such documents, the auditor should specifically consider the nature of any
 - i. corrected material misstatements;
 - ii. matters identified in any summary of uncorrected misstatements;
 - iii. identified risks of material misstatement due to fraud, including the risk of management override of controls; and
 - iv. significant financial accounting and reporting matters that may be of continuing significance, such as significant deficiencies and material weaknesses.
- b. Read the most recent annual and comparable prior interim period financial information.
- c. Consider the results of any audit procedures performed with respect to the current year's financial statements.
- d. Inquire of management about changes in the entity's business activities.
- e. Inquire of management about the identity of, and nature of transactions with, related parties.
- f. Inquire of management about whether significant changes in internal control, as it relates to the preparation and fair presentation of interim financial information, have occurred subsequent to the preceding annual audit or prior review of interim financial information, including changes in the entity's policies, procedures, and personnel, as well as the nature and extent of such changes.

Analytical Procedures, Inquiries, and Other Review Procedures*Analytical Procedures*

.13 The auditor should apply analytical procedures to the interim financial information to identify and provide a basis for inquiry about the relationships and individual items that appear to be unusual and that may indicate a material misstatement. Such analytical procedures should include the following: (Ref: par. .A11–.A13)

- a. Comparing the interim financial information with comparable information for the immediately preceding interim period, if applicable, and with the corresponding period(s) in the previous year, giving consideration to knowledge about changes in the entity's business and specific transactions
- b. Considering plausible relationships among both financial and, when relevant, nonfinancial information (Ref: par. .A14)
- c. Comparing recorded amounts or ratios developed from recorded amounts to expectations developed by the auditor through identifying and using relationships that are reasonably expected to exist, based on the auditor's understanding of the entity and the industry in which the entity operates
- d. Comparing disaggregated revenue data (Ref: par. .A15)

Inquiries and Other Review Procedures

.14 The auditor should make the following inquiries and perform the following other review procedures when conducting a review of interim financial information:

- a. Read the available minutes of meetings of stockholders, directors, and appropriate committees and inquire about matters dealt with at meetings for which minutes are not available to identify matters that may affect the interim financial information. (Ref: par. .A16)
- b. Obtain reports from component auditors, if any, related to reviews performed of the interim financial information of significant components of the reporting entity, including its investees, or inquire of those auditors if reports have not been issued. (Ref: par. .A17)
- c. Inquire of management about
 - i. whether the interim financial information has been prepared and fairly presented in accordance with the applicable financial reporting framework consistently applied.
 - ii. unusual or complex situations that may have an effect on the interim financial information. (Ref: par. .A18)
 - iii. significant transactions occurring or recognized in the interim period, particularly those in the last several days of the interim period.
 - iv. the status of uncorrected misstatements identified during the previous audit and interim review (that is, whether adjustments had been recorded subsequent to the periods covered by the prior audit or interim review and, if so, the amounts recorded and period in which such adjustments were recorded).
 - v. matters about which questions have arisen in the course of applying the review procedures.

- vi. events subsequent to the date of the interim financial information that could have a material effect on the fair presentation of such information.
 - vii. its knowledge of any fraud or suspected fraud affecting the entity involving (1) management, (2) employees who have significant roles in internal control, or (3) others when the fraud could have a material effect on the financial information.
 - viii. whether management is aware of allegations of fraud or suspected fraud affecting the entity communicated by employees, former employees, regulators, or others.
 - ix. significant journal entries and other adjustments.
 - x. communications from regulatory agencies.
 - xi. significant deficiencies and material weaknesses in the design or operation of internal control as it relates to the preparation and fair presentation of both annual and interim financial information.
 - xii. changes in related parties or significant new related party transactions.
- d. Obtain evidence that the interim financial information agrees or reconciles with the accounting records. In addition, the auditor should inquire of management about the reliability of the records to which the interim financial information was compared or reconciled. (Ref: par. .A19)
- e. Read the interim financial information to consider whether, based on the results of the review procedures performed and other information that has come to the auditor's attention, the information to be reported is in accordance with the applicable financial reporting framework.
- f. Read other information in documents containing the interim financial information to consider whether such information or the manner of its presentation is materially inconsistent with the interim financial information. If the auditor concludes that a material inconsistency exists or becomes aware of information that the auditor believes is a material misstatement of fact, the auditor should take action based on the auditor's professional judgment. (Ref: par. .A20–.A21)

Inquiry Concerning Litigation, Claims, and Assessments

.15 If information comes to the auditor's attention regarding litigation, claims, or assessments that leads the auditor to question whether the interim financial information has been prepared, in all material respects, in accordance with the applicable financial reporting framework, and the auditor believes that the entity's internal or external legal counsel may have relevant information, the auditor should inquire of such legal counsel concerning litigation, claims, and assessments. (Ref: par. .A22)

Inquiry Concerning an Entity's Ability to Continue as a Going Concern

.16 If (a) conditions or events that may indicate substantial doubt about an entity's ability to continue as a going concern existed at the date of prior period financial statements, regardless of whether the substantial doubt was alleviated by the auditor's consideration of management's plans, or (b) in the course of performing review procedures on the current period interim financial information, the auditor becomes aware of conditions or events that might be

indicative of the entity's possible inability to continue as a going concern, the auditor should

- a. inquire of management about its plans for dealing with the adverse effects of the conditions and events, and (Ref: par. .A23)
- b. consider the adequacy of the disclosure about such matters in the interim financial information. (Ref: par. .A24)

Consideration of Management's Responses and Extension of Interim Review Procedures

.17 The auditor should consider the reasonableness and consistency of management's responses in light of the results of other review procedures and the auditor's knowledge of the entity's business and its internal control. However, the auditor is not required to corroborate management's responses with other evidence.

.18 When a matter comes to the auditor's attention that leads the auditor to question whether the interim financial information has been prepared in accordance with the applicable financial reporting framework in all material respects, the auditor should make additional inquiries of management or others or perform other procedures to provide a basis for reporting whether the auditor is aware of any material modifications that should be made to the interim financial information. (Ref: par. .A25)

Evaluating the Results of Interim Review Procedures

.19 The auditor should accumulate misstatements, including inadequate disclosure, identified by the auditor in performing the review procedures or brought to the auditor's attention during the performance of the review. (Ref: par. .A26)

.20 The auditor should evaluate, individually and in the aggregate, misstatements, including inadequate disclosure, accumulated in accordance with paragraph .19 to determine whether material modification should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework. (Ref: par. .A27–.A28)

Written Representations From Management

.21 For all interim financial information presented and for all periods covered by the review, the auditor should request management to provide written representations, as of the date of the auditor's review report (Ref: par. .A29–.A30)

- a. that management has fulfilled its responsibility for the preparation and fair presentation of the interim financial information, in accordance with the applicable financial reporting framework, as set out in the terms of the engagement.
- b. that management acknowledges its responsibility for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of interim financial statements, including its responsibility to prevent and detect fraud.
- c. that management has disclosed to the auditor all significant deficiencies and material weaknesses in the design or operation of internal control of which management is aware as it relates to the preparation and fair presentation of both annual and interim financial information.

- d.* that management has provided the auditor with all relevant information and access, as agreed upon in the terms of the engagement.
- e.* that all transactions have been recorded and are reflected in the interim financial information.
- f.* that management has disclosed to the auditor the results of its assessment of the risk that the interim financial information may be materially misstated as a result of fraud.
- g.* that management has disclosed to the auditor its knowledge of fraud or suspected fraud affecting the entity involving
 - i.* management,
 - ii.* employees who have significant roles in internal control, or
 - iii.* others when the fraud could have a material effect on the interim financial information.
- h.* that management has disclosed to the auditor its knowledge of any allegations of fraud or suspected fraud affecting the entity's interim financial information communicated by employees, former employees, regulators, or others.
- i.* that management has disclosed to the auditor all known instances of noncompliance or suspected noncompliance with laws and regulations whose effects should be considered when preparing interim financial information.
- j.* about whether management believes that the effects of uncorrected misstatements are immaterial, individually and in the aggregate, to the interim financial information as a whole. A summary of such items should be included in, or attached to, the written representation. (Ref: par. .A31)
- k.* that management has disclosed to the auditor all known actual or possible litigation and claims whose effects should be considered when preparing the interim financial information, and it has appropriately accounted for and disclosed such litigation and claims in accordance with the applicable financial reporting framework.
- l.* about whether management believes that significant assumptions used by it in making accounting estimates are reasonable.
- m.* that management has disclosed to the auditor the identity of the entity's related parties and all the related party relationships and transactions of which it is aware, and it has appropriately accounted for and disclosed such relationships and transactions.
- n.* that all events occurring subsequent to the date of the interim financial information and for which the applicable financial reporting framework requires adjustment or disclosure have been adjusted or disclosed.

.22 If the auditor has concerns about the reliability of the representations or if management does not provide the requested written representations, the auditor should take appropriate action. When management does not provide the written representations described in paragraph .21a–e, the auditor should withdraw from the engagement to review the interim financial information. (Ref: par. .A32)

Communications With Management and Those Charged With Governance

Matters Affecting the Completion of the Review

.23 If the auditor cannot complete the review, the auditor should communicate to the appropriate level of management and those charged with governance

- a. the reason why the review cannot be completed;
- b. that an incomplete review does not provide a basis for reporting and, accordingly, that the auditor is precluded from issuing a review report; and
- c. any material modifications of which the auditor has become aware that should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework, in accordance with paragraphs .24–.26. (Ref: par. .A33)

.24 The auditor should communicate to the appropriate level of management, as soon as practicable, matters that come to the auditor's attention during the conduct of the review that cause the auditor to believe that

- a. material modification should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework, or
- b. the entity issued the interim financial information before the completion of the review.

.25 If, in the auditor's judgment, management does not respond appropriately to the auditor's communication within a reasonable period of time, the auditor should inform those charged with governance of the matters as soon as practicable.

.26 If, in the auditor's judgment, those charged with governance do not respond appropriately to the auditor's communication within a reasonable period of time, the auditor should consider whether to withdraw (a) from the engagement to review the interim financial information and (b) if applicable, from serving as the entity's auditor. (Ref: par. .A34)

Other Matters

.27 If the auditor becomes aware that fraud may have occurred, the auditor should communicate the matter as soon as practicable to the appropriate level of management. If the fraud involves senior management or results in a material misstatement of the interim financial information, the auditor should communicate the matter directly to those charged with governance. If the auditor becomes aware of matters involving identified or suspected noncompliance with laws and regulations whose effects should be considered when preparing interim financial information, the auditor should communicate the matters to those charged with governance, other than when the matters are clearly inconsequential.

.28 The auditor should communicate relevant matters of governance interest arising from the review of interim financial information to those charged with governance, including the following:

- a. Significant deficiencies or material weaknesses in internal control as it relates to the preparation and fair presentation of annual and interim financial information (Ref: par. .A35)
- b. Any of the matters described in section 260, *The Auditor's Communication With Those Charged With Governance*, that have been

identified, as they relate to the interim financial information (Ref: par. .A36–.A38)

The Auditor's Report on a Review of Interim Financial Information

Form of the Auditor's Review Report

.29 The auditor's review report should be in writing. (Ref: par. .A39)

.30 The written review report should include the following: (Ref: par. .A40–.A41)

- a. A title that includes the word *independent* to clearly indicate that it is the report of an independent auditor.
- b. An addressee as appropriate for the circumstances of the engagement.
- c. An introductory paragraph that
 - i. identifies the entity whose interim financial information has been reviewed,
 - ii. states that the interim financial information identified in the report was reviewed,
 - iii. identifies the interim financial information, and
 - iv. specifies the date or period covered by each financial statement comprising the interim financial information.
- d. A section with the heading "Management's Responsibility for the Financial Statements" that includes an explanation that management is responsible for the preparation and fair presentation of the interim financial information in accordance with the applicable financial reporting framework; this responsibility includes the design, implementation, and maintenance of internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with the applicable financial reporting framework.
- e. A section with the heading "Auditor's Responsibility" that includes the following statements:
 - i. The auditor's responsibility is to conduct the review of interim financial information in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information.
 - ii. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters.
 - iii. A review of interim financial information is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is an expression of an opinion regarding the financial information as a whole, and accordingly, no such opinion is expressed.
- f. A concluding section with an appropriate heading that includes a statement about whether the auditor is aware of any material modifications that should be made to the accompanying interim financial information for it to be in accordance with the applicable

financial reporting framework and that identifies the country of origin of those accounting principles, if applicable.

- g.* The manual or printed signature of the auditor's firm.
- h.* The city and state where the auditor practices.
- i.* The date of the review report, which should be dated as of the date of completion of the review procedures.

.31 The auditor should determine that management has clearly marked as unaudited each page of the interim financial information accompanying the review report.

Comparative Interim Financial Information That Has Not Been Reviewed Presented With Reviewed Interim Financial Information

.32 If an auditor is engaged to perform a review of the most recent interim period in accordance with this section, and such financial information will be presented in comparative form with interim financial information of a prior period that has not been reviewed, such interim financial information should be accompanied by an indication in the auditor's review report that the auditor has not reviewed the prior period interim financial information and that the auditor assumes no responsibility for it. (Ref: par. .A42)

Interim Financial Information Presented With Condensed Balance Sheet Information for the Most Recent Year End

.33 When a condensed balance sheet derived from audited financial statements is presented on a comparative basis with the interim financial information, the auditor should report on the condensed balance sheet only when the auditor audited the financial statements from which the condensed balance sheet was derived. The auditor should compare the condensed balance sheet with the related information in the audited financial statements to determine whether the condensed balance sheet agrees with, or can be recalculated from, the related information in the audited financial statements. The auditor's report on the interim financial information should include a paragraph addressing the condensed balance sheet that

- a.* identifies the condensed balance sheet on which the auditor is reporting.
- b.* identifies the audited financial statements from which the condensed balance sheet was derived and indicates that such financial statements are not separately presented.
- c.* refers to the auditor's report on the audited financial statements, the date of that report, and the type of opinion expressed and, if the opinion is modified, the basis for the modification.
- d.* describes the nature of any emphasis-of-matter paragraph or other-matter paragraph included in the auditor's report.
- e.* includes an opinion about whether the condensed balance sheet is consistent, in all material respects, in relation to the audited financial statements from which it has been derived. (Ref: par. .A43)

Modification of the Auditor's Review Report

.34 When the interim financial information has not been prepared in accordance with the applicable financial reporting framework in all material respects, the auditor should consider whether modification of the auditor's review

report on the interim financial information is sufficient to address the departure from the applicable financial reporting framework. (Ref: par. .A44–.A47)

.35 If the auditor concludes that modification of the standard review report is sufficient to address the departure, the auditor should modify the review report. The modification should describe the nature of the departure and, if practicable, should state the effects on the interim financial information. If the departure is due to inadequate disclosure, the auditor should, if practicable, include the information in the report that the auditor believes is necessary for adequate disclosure in accordance with the applicable financial reporting framework. (Ref: par. .A48)

.36 If the auditor believes that modification of the review report is not sufficient to address the deficiencies in the interim financial information, the auditor should withdraw from the review engagement and provide no further services with respect to such interim financial information.

Subsequent Discovery of Facts Existing at the Date of the Auditor's Review Report

.37 If, subsequent to the date of the auditor's review report, the auditor becomes aware that facts existed at the date of the review report that might have affected the auditor's review report had the auditor then been aware of those matters, the auditor should apply the requirements and guidance, adapted as necessary, in section 560, *Subsequent Events and Subsequently Discovered Facts*.

Other Considerations

.38 If management does not include the auditor's review report in a report, document, or written communication containing the reviewed interim financial information that indicates that such information has been reviewed by the entity's auditor, despite having agreed in the terms of the engagement to do so, the auditor should perform the following procedures:

- Request that management amend the report, document, or written communication to include the auditor's review report and reissue the report, document, or written communication
- If management does not comply with the request to amend and reissue the report, document, or written communication, request that the auditor's name not be associated with the interim financial information or referred to in the report, document, or written communication because the auditor will not permit either the use of the auditor's name or reference to the auditor unless the auditor's review report is included with the reviewed interim financial information in these circumstances
- Communicate management's noncompliance with the requests to those charged with governance
- When appropriate, recommend that the entity consult with its legal counsel about the application of relevant laws and regulations to the circumstances
- Consider what other actions might be appropriate (Ref: par. .A49)

.39 If the auditor has issued a modified review report due to a departure from the applicable financial reporting framework, and management issues the

interim financial information without including the review report in the document containing the interim financial information, the auditor should determine the appropriate course of action in the circumstances, including whether to withdraw from the engagement to audit the annual financial statements.

Interim Financial Information Accompanying Audited Financial Statements

.40 The auditor should include an other-matter paragraph in the auditor's report on the audited financial statements when all the following conditions exist:

- a. The interim financial information that has been reviewed in accordance with this section is included in a document containing audited financial statements.
- b. The interim financial information accompanying audited financial statements does not appear to be presented in accordance with the applicable financial reporting framework.
- c. The auditor's separate review report, which refers to the departure from the applicable financial reporting framework, is not presented with the interim financial information.

.41 The auditor is required by section 700, *Forming an Opinion and Reporting on Financial Statements*, to address in the auditor's report on the audited financial statements information that is not required by the applicable financial reporting framework but is nevertheless presented as part of the basic financial statements if it cannot be clearly differentiated.³ When the interim financial information included in a note to the financial statements, including information that has been reviewed in accordance with this section, is not appropriately marked as unaudited, the auditor should, in the auditor's report on the audited financial statements, disclaim an opinion on the interim financial information. (Ref: par. .A50–.A51)

Documentation

.42 The auditor should prepare documentation in connection with a review of interim financial information that will enable an experienced auditor, having no previous connection to the review, to understand

- a. the nature, timing, and extent of the review procedures performed;
- b. the results of the review procedures performed and the evidence obtained; and
- c. significant findings or issues arising during the review, the conclusions reached thereon, and significant professional judgments made in reaching those conclusions.

.43 The documentation should include the communications required by this section, whether written or oral. (Ref: par. .A52–.A53)

³ Paragraph .58 of section 700, *Forming an Opinion and Reporting on Financial Statements*.

Application and Other Explanatory Material

Scope of This Section (Ref: par. .02)

.A1 The ability to apply this section even when the auditor does not expect to be engaged to audit the current year financial statements provides for appropriate transitions between the predecessor auditor and the auditor of the current year financial statements.

.A2 Appropriate financial reporting frameworks for condensed interim financial information may include, for example, Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 270, *Interim Reporting*, and Article 10 of Securities and Exchange Commission (SEC) Regulation S-X, with respect to accounting principles generally accepted in the United States of America, or International Accounting Standard 34, *Interim Financial Reporting*, with respect to International Financial Reporting Standards issued by the International Accounting Standards Board. FASB ASC 270 outlines the application of U.S. generally accepted accounting principles (GAAP) to the determination of income when interim financial information is presented, provides for the use of estimated effective income tax rates, and specifies certain disclosure requirements for condensed interim financial information issued by public companies and may be adapted by nonissuers as a fair presentation framework for condensed interim financial information. In addition to FASB ASC 270, other FASB ASC topics also include disclosure requirements for interim financial information.

The Meaning of Readily Available (Ref: par. .02d(iii))

.A3 Audited financial statements are deemed to be readily available if a third-party user can obtain the financial statements without any further action by the entity (for example, financial statements on an entity's website may be considered readily available, but being available upon request is not considered readily available).

Objective (Ref: par. .05)

.A4 The objective of a review of interim financial information differs significantly from that of an audit conducted in accordance with auditing standards generally accepted in the United States of America. A review of interim financial information does not provide a basis for expressing an opinion about whether the interim financial information is presented fairly, in all material respects, in accordance with the applicable financial reporting framework.

.A5 A review, in contrast to an audit, is not designed to provide the auditor with a basis for obtaining reasonable assurance that the interim financial information is free from material misstatement. A review consists principally of performing analytical procedures and making inquiries of persons responsible for financial and accounting matters and does not contemplate (a) tests of accounting records through inspection, observation, or confirmation; (b) tests of controls to evaluate their effectiveness; (c) the obtainment of corroborating evidence in response to inquiries; or (d) the performance of certain other procedures ordinarily performed in an audit. A review may bring to the auditor's attention significant findings or issues affecting the interim financial information, but it does not provide assurance that the auditor will become aware of all significant findings or issues that would be identified in an audit.

Acceptance

Agreement on Engagement Terms (Ref: par. .10)

.A6 The engagement letter or other suitable form of written agreement documenting the agreed-upon terms of the engagement with the entity regarding a review of interim financial information may use the following wording to include the information necessary to meet the requirements of paragraph .10:

Objectives and scope of the engagement

- The objective of a review of interim financial information is to provide the auditor with a basis for reporting whether the auditor is aware of any material modifications that should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework.
- A review includes obtaining sufficient knowledge of the entity's business and internal control, as it relates to the preparation and fair presentation of both annual and interim financial information, to enable the auditor to
 - identify the types of potential material misstatements in the interim financial information and consider the likelihood of their occurrence.
 - select the inquiries and analytical procedures that will provide the auditor with a basis for reporting whether the auditor is aware of any material modifications that should be made to the interim financial information for it to conform with the applicable financial reporting framework.

Management's responsibilities

- Management is responsible for the following:
 - Preparing and presenting the interim financial information in accordance with the applicable financial reporting framework.
 - Designing, implementing, and maintaining internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with the applicable financial reporting framework.
 - Providing the auditor with (a) access to all information of which management is aware that is relevant to the preparation and fair presentation of the interim financial information, such as records, documentation, and other matters; (b) additional information that the auditor may request from management for the purpose of the review; and (c) unrestricted access to persons within the entity of whom the auditor determines it necessary to make inquiries.
 - Including the auditor's review report in any document containing interim financial information that indicates that such information has been reviewed by the entity's auditor.
 - Identifying and ensuring that the entity complies with the laws and regulations applicable to its activities.

- Providing the auditor, at the conclusion of the engagement, with a letter confirming certain representations made during the review.
- Adjusting the interim financial information to correct material misstatements. Although a review of interim financial information is not designed to provide the auditor with reasonable assurance that the interim financial information is free from material misstatement, management nonetheless is responsible for affirming in its representation letter to the auditor that the effects of any uncorrected misstatements aggregated by the auditor during the current engagement and pertaining to the current year period(s) under review are immaterial, both individually and in the aggregate, to the interim financial information as a whole.

The auditor's responsibilities

- The auditor is responsible for conducting the review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information. A review of interim financial information consists principally of performing analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial information as a whole. Accordingly, the auditor will not express an opinion on the interim financial information.

Limitations of the engagement

- A review does not provide a basis for expressing an opinion about whether the interim financial information is presented fairly, in all material respects, in accordance with the applicable financial reporting framework.
- A review does not provide the auditor with a basis for obtaining reasonable assurance that the auditor will become aware of all significant findings or issues that would be identified in an audit.
- A review is not designed to provide the auditor with a basis for obtaining reasonable assurance on internal control or to identify significant deficiencies or material weaknesses in internal control; however, the auditor is responsible for communicating to management and those charged with governance any significant deficiencies or material weaknesses in internal control that the auditor identifies during the performance of review procedures.

Procedures for a Review of Interim Financial Information

Understanding the Entity and Its Environment, Including Its Internal Control (Ref: par. .11–.12)

.A7 As required by section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, the auditor who has audited the entity's financial statements for one or more annual periods would have obtained an understanding of the entity and its environment, including

its internal control as it relates to the preparation and fair presentation of annual financial information, that was sufficient to conduct the audit. Internal control over the preparation and fair presentation of interim financial information may differ from internal control over the preparation and fair presentation of annual financial statements because certain accounting principles and practices used for interim financial information may differ from those used for the preparation of annual financial statements (for example, the use of estimated effective income tax rates for the preparation of interim financial information).

.A8 The auditor is unable to complete the review if the entity's internal control appears to contain deficiencies so significant that it would be impracticable for the auditor to effectively perform review procedures that would achieve the objective stated in paragraph .05. Paragraph .23 addresses the auditor's responsibilities when the review cannot be completed.

.A9 In an initial review of interim financial information, when performing the procedures for a new client required by paragraph .07, the auditor also may consider requesting access to review the predecessor auditor's documentation related to reviews of an interim period or interim periods in the prior year. However, the inquiries made and analytical procedures performed, or other procedures performed in the initial review, and the conclusions reached are solely the responsibility of the auditor. Therefore, the auditor is not permitted to make reference to the report or work of the predecessor auditor as the basis, in part, for the auditor's own report.

.A10 If the predecessor auditor does not respond to the auditor's inquiries or does not allow the auditor to review the predecessor auditor's documentation, the auditor may inquire why and use alternative procedures to obtain the understanding required by paragraph .11.

Analytical Procedures, Inquiries, and Other Review Procedures

Analytical Procedures (Ref: par. .13)

.A11 Procedures for conducting a review of interim financial information generally are limited to analytical procedures, inquiries, and other procedures that address significant accounting and disclosure matters relating to the interim financial information. The auditor's understanding of the entity and its environment, including its internal control, the results of the risk assessments relating to the preceding audit, and the auditor's consideration of materiality as it relates to the interim financial information, influences the nature and extent of the inquiries made and analytical procedures performed. For example, if the auditor becomes aware of a significant change in the entity's control activities at a particular location, the auditor may consider the following procedures:

- Making additional inquiries, such as whether management monitored the changes and considered whether they were operating as intended
- Employing analytical procedures with a more precise expectation

.A12 Examples of analytical procedures that an auditor may consider performing when conducting a review of interim financial information are contained in appendix A, "Analytical Procedures the Auditor May Consider Performing When Conducting a Review of Interim Financial Information." The auditor also may find the guidance in section 520, *Analytical Procedures*, useful in conducting a review of interim financial information.

.A13 Expectations developed by the auditor in performing analytical procedures in connection with a review of interim financial information ordinarily

are less precise than those developed in an audit. Also, in a review, the auditor is not required to corroborate management's responses with other evidence.

.A14 In considering plausible relationships, the auditor may consider information developed and used by the entity (for example, analyses prepared for management or those charged with governance).

.A15 To compare disaggregated revenue data, the auditor may compare, for example, revenue reported by month and product line or operating segment during the current interim period with that of comparable prior periods.

Inquiries and Other Review Procedures (Ref: par. .14)

.A16 Many of the inquiries and review procedures can be performed before, or simultaneously with, the entity's preparation of the interim financial information. For example, the auditor may update the understanding of the entity's internal control and begin reading applicable minutes before the end of an interim period. Performing some of the review procedures earlier in the interim period also permits early identification and consideration of significant findings and issues affecting the interim financial information. In addition, when the auditor performing the review of interim financial information is also engaged to perform an audit of the annual financial statements of the entity, certain auditing procedures associated with the annual audit of the financial statements may be performed concurrently with the review of interim financial information. For example, information gained from reading the minutes of meetings of the board of directors in connection with the review also may be relevant to the annual audit. Also, there may be significant or unusual transactions occurring during an interim period (for example, business combinations, restructurings, or significant revenue transactions) for which the procedures that would need to be performed for purposes of the audit of the annual financial statements could be performed, to the extent practicable, at the time of the review of the interim period in which the transactions are first recorded.

.A17 The auditor may find the guidance in section 600, *Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)*, useful in conducting a review of interim financial information for an entity that prepares group financial statements.

.A18 Examples of unusual or complex situations about which the auditor may inquire of management are contained in appendix B, "Unusual or Complex Situations to Be Considered by the Auditor When Conducting a Review of Interim Financial Information."

.A19 To obtain evidence that the interim financial information agrees or reconciles with the accounting records, the auditor may compare the interim financial information to (a) the accounting records, such as the general ledger; (b) a consolidating schedule derived from the accounting records; or (c) other supporting data in the entity's records.

.A20 The auditor may find the guidance in section 720, *Other Information in Documents Containing Audited Financial Statements*, useful in considering other information included in documents containing interim financial information.

.A21 The auditor may request component auditors involved in the engagement, if any, to read the other information.

Inquiry Concerning Litigation, Claims, and Assessments (Ref: par. .15)

.A22 A review of interim financial information does not contemplate obtaining corroborating evidence for responses to inquiries, such as those concerning litigation, claims, and assessments. Consequently, the auditor is not

required to send an inquiry letter to an entity's legal counsel concerning litigation, claims, and assessments.

Inquiry Concerning an Entity's Ability to Continue as a Going Concern (Ref: par. .16)

.A23 A review of interim financial information is not designed to identify conditions or events that may indicate substantial doubt about an entity's ability to continue as a going concern. However, conditions or events that may cast substantial doubt on the entity's ability to continue as a going concern may have existed at the date of the prior period financial statements or may be identified as a result of inquiries of management or in the course of performing other review procedures. When performing a review engagement, the auditor is not required to obtain evidence in support of the information that mitigates the effects of the conditions and events.

.A24 Section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, may provide useful guidance to the auditor when considering whether there is adequate and appropriate disclosure in the interim financial information about the entity's possible inability to continue as a going concern.⁴ When

- a. conditions or events exist as of the interim reporting date covered by the review that might be indicative of the entity's possible inability to continue as a going concern, or
- b. the auditor's report for the prior year end contained an emphasis-of-matter paragraph indicating the existence of substantial doubt about the entity's ability to continue as a going concern, and the conditions that raised such doubt continued to exist as of the interim reporting date covered by the review,

the auditor is not required to modify the report if there is adequate and appropriate disclosure about these conditions or events in the interim financial information. However, if the auditor determines that the disclosure about the entity's possible inability to continue as a going concern is inadequate, resulting in a departure from the applicable financial reporting framework, the auditor is required by paragraph .34 to modify the report.

Consideration of Management's Responses and Extension of Interim Review Procedures (Ref: par. .18)

.A25 The auditor's interim review procedures may lead the auditor to make additional inquiries, such as questioning whether, for example, a significant sales transaction is recorded in accordance with the applicable financial reporting framework. Additional procedures that the auditor may perform to resolve such questions include discussing the terms of the transaction with senior sales and accounting personnel, reading the sales contract, or both.

Evaluating the Results of Interim Review Procedures (Ref: par. .19–.20)

.A26 The auditor may designate an amount below which misstatements would be clearly trivial and would not need to be accumulated because the auditor expects that the accumulation of such amounts would not have a material effect on the interim financial information.⁵

⁴ Paragraph .12 of section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*. [Footnote revised, August 2012, to reflect conforming changes necessary due to the issuance of SAS No. 126.]

⁵ Paragraph .A2 of section 450, *Evaluation of Misstatements Identified During the Audit*.

.A27 As noted in paragraph .A2, appropriate financial reporting frameworks for interim financial information may include, for example, FASB ASC 270 and Article 10 of SEC Regulation S-X. FASB ASC 270 describes the applicability of GAAP to interim financial information and indicates the types of disclosures necessary to report on a meaningful basis for a period of less than one full year. FASB ASC 270-10-45-16 provides guidance on assessing materiality in interim periods. For example, it states that in determining materiality for the purpose of reporting the correction of an error, amounts shall be related to the estimated income for the full fiscal year and also to the effect on the trend of earnings. Further, Rule 10-01(a)(5) of SEC Regulation S-X states the following:

The interim financial information shall include disclosures either on the face of the financial statements or in accompanying footnotes sufficient so as to make the interim information presented not misleading. Registrants may presume that users of the interim financial information have read or have access to the audited financial statements for the preceding fiscal year and that the adequacy of additional disclosure needed for a fair presentation, except in regard to material contingencies may be determined in that context. Accordingly, footnote disclosure which would substantially duplicate the disclosure contained in the most recent annual report to security holders or latest audited financial statements, such as a statement of significant accounting policies and practices, details of accounts which have not changed significantly in amount or composition since the end of the most recently completed fiscal year, and detailed disclosures prescribed by Rule 4-08 of this Regulation, may be omitted. However, disclosure shall be provided where events subsequent to the end of the most recent fiscal year have occurred which have a material impact on the registrant. Disclosures should encompass for example, significant changes since the end of the most recently completed fiscal year in such items as: accounting principles and practices; estimates inherent in the preparation of the financial statements; status of long-term contracts; capitalization including significant new borrowings or modification of existing financing arrangements; and the reporting entity resulting from business combinations or dispositions. Notwithstanding the above, where material contingencies exist, disclosure of such matters shall be provided even though a significant change since year end may not have occurred.

.A28 Considerations that may affect the evaluation of whether uncorrected misstatements, individually or in the aggregate, are material include the following:

- The nature, cause (if known), and amount of the misstatements
- Whether the misstatements originated in the preceding year or interim periods of the current year
- Materiality judgments made in conjunction with the current or prior year's annual audit
- The potential effect of the misstatements on future interim or annual periods
- The appropriateness of offsetting a misstatement of an estimated amount with a misstatement of an item capable of precise measurement
- Recognition that an accumulation of immaterial misstatements in the balance sheet could contribute to material misstatements in future periods

Section 450, *Evaluation of Misstatements Identified During the Audit*, provides guidance regarding qualitative considerations in evaluating whether misstatements are material.

Written Representations From Management (Ref: par. .21–.22)

.A29 Exhibit A, "Illustrative Management Representation Letters for a Review of Interim Financial Information," contains illustrative representation letters for engagements to review interim financial information.

.A30 The auditor may request additional representations regarding matters specific to the entity's business or industry.

.A31 If no uncorrected misstatements were identified, the representation regarding uncorrected misstatements is not relevant and, accordingly, is not required.

.A32 Appropriate action when management does not provide one or more requested written representations or when the auditor has concerns about the reliability of the representations may include

- discussing the matter with management and, when relevant, those charged with governance;
- reevaluating the integrity of management and evaluating the effect that this may have on the reliability of representations (oral or written) and evidence in general; and
- considering whether to withdraw from the engagement to review the interim financial information and, if applicable, as the entity's auditor.

Communications With Management and Those Charged With Governance

Matters Affecting the Completion of the Review (Ref: par. .23–.26)

.A33 When an auditor is unable to perform the procedures that the auditor considers necessary to achieve the objective of a review of interim financial information, or management does not provide the auditor with the written representations that the auditor believes are necessary, the review will be incomplete.

.A34 The auditor may seek legal advice when considering whether to withdraw from the engagement to review the interim financial information and as the entity's auditor.

Other Matters (Ref: par. .27–.28)

.A35 Section 265, *Communicating Internal Control Related Matters Identified in an Audit*, provides guidance on identifying and communicating deficiencies in internal control.

.A36 As a result of performing the review of the interim financial information, the auditor may become aware of matters that, in the opinion of the auditor, are both significant and relevant to those charged with governance in overseeing the financial reporting and disclosure process. Examples of such matters include the following:

- A change in a significant accounting policy affecting the interim financial information
- Adjustments that either individually or in the aggregate could have a significant effect on the entity's financial reporting process
- Uncorrected misstatements aggregated by the auditor that were determined by management to be immaterial, both individually

and in the aggregate, to the interim financial information as a whole

.A37 The objective of a review of interim financial information differs significantly from that of an audit. Therefore, any communication that the auditor may make about the quality, not just the acceptability, of the entity's accounting principles as applied to its interim financial reporting generally is limited to the effect of significant events, transactions, and changes in accounting estimates that the auditor considered when conducting the review of interim financial information. Further, interim review procedures do not provide assurance that the auditor will become aware of all matters that might affect the auditor's judgments about the quality of the entity's accounting principles that would be identified as a result of an audit.

.A38 The communications required by paragraphs .23–.28 may be oral or written. The communications are most helpful when made on a sufficiently timely basis to enable management or those charged with governance to take appropriate action.

The Auditor's Report on a Review of Interim Financial Information

Form of the Auditor's Review Report (Ref: par. .29–.30)

.A39 Entities may be required by third parties to engage auditors to perform a review of interim financial information, but such third parties may choose to not require that a written auditor's review report on such information be provided to users of the entity's interim financial information. For example, entities that trade unregistered private equity securities on electronic trading platforms, often referred to as private equity exchanges, may be required to provide financial and other information to the qualified investors on the exchange's website. The ongoing reporting requirements of these exchanges are substantially similar to the reporting required of issuers, wherein entities trading securities on such exchanges are required to engage auditors to review their interim financial information but are not required to include written review reports with interim financial information provided to qualified investors. Nonetheless, in accordance with paragraph .29, the auditor's report on the review of the interim financial information is required to be in writing.

.A40 Reporting considerations related to the dating of reports or subsequent events encountered during a review are similar to those encountered in an audit of financial statements. Sections 560 and 700 provide guidance on these issues.

.A41 Exhibit B, "Illustrations of Auditor's Review Reports on Interim Financial Information," contains illustrations of review reports.

Comparative Interim Financial Information That Has Not Been Reviewed Presented With Reviewed Interim Financial Information (Ref: par. .32)

.A42 The indication that the auditor has not reviewed the prior period interim financial information and that the auditor assumes no responsibility for it may be worded, for example, as follows:

The accompanying [describe the interim financial information or statements] of ABC Company and subsidiaries as of September 30, 20X1, and for the three-month period then ended were not reviewed by us, and accordingly, we do not express any form of assurance on it.

Interim Financial Information Presented With Condensed Balance Sheet Information for the Most Recent Year End (Ref: par. .33)

.A43 Because interim financial reporting is intended to be an update to year-end reporting, condensed balance sheet information as of the most recent year end often is presented for comparative purposes with the corresponding information as of the latest interim period. Appendix B includes an illustration of a review report on comparative interim financial information that includes a condensed balance sheet derived from audited financial statements.

Modification of the Auditor's Review Report (Ref: par. .34-.35)

.A44 Departures from the applicable financial reporting framework include inadequate disclosure and changes in accounting policies that are not in accordance with the applicable financial reporting framework.

.A45 Section 700 addresses the reporting requirements when the circumstances contemplated by Rule 203, *Accounting Principles* (ET sec. 203 par. .01), of the AICPA Code of Professional Conduct are present.

.A46 If the interim financial information adequately discloses the existence of substantial doubt about the entity's ability to continue as a going concern (see paragraph .16) or a lack of consistency in the application of accounting principles affecting the interim financial information, the auditor may, but is not required to, include an emphasis-of-matter paragraph in the auditor's review report.

.A47 Exhibit C, "Illustrations of Example Modifications to the Auditor's Review Report Due to Departures From the Applicable Financial Reporting Framework," contains illustrative examples of paragraphs modifying the auditor's review report.

.A48 The information necessary for adequate disclosure is influenced by the form and context in which the interim financial information is presented. For example, the disclosures considered necessary for interim financial information presented in accordance with the minimum disclosure requirements of FASB ASC 270-10-50-1, which is applicable to condensed financial statements of public companies, are considerably less extensive than those necessary for annual financial statements that present financial position, results of operations, and cash flows in accordance with the applicable financial reporting framework. FASB ASC 270-10-50-3 states that a presumption exists that users of summarized interim financial data will have read the latest published annual report, including the financial disclosures required by GAAP and management's commentary concerning the annual financial results, and that the summarized interim data will be viewed in that context.

Other Considerations (Ref: par. .38)

.A49 The auditor may seek legal advice in considering what actions, if any, may be appropriate in these circumstances.

Interim Financial Information Accompanying Audited Financial Statements (Ref: par. .40-.41)

.A50 Interim financial information may accompany audited financial statements. If management chooses or is required to present interim financial information in a note to the audited financial statements, management is responsible for clearly marking the information as unaudited in the note.

.A51 Because the interim financial information has not been audited and is not required for the audited financial statements to be fairly stated in accordance with the applicable financial reporting framework, the auditor ordinarily need not modify the auditor's report on the audited financial statements to refer to the interim financial information accompanying the audited financial statements, including when the auditor has performed a review in accordance with this section.

Documentation (Ref: par. .42–.43)

.A52 The auditor may find the guidance in section 230, *Audit Documentation*, useful in determining the form and content of the review documentation, including guidance on the timing of the final assembly of the engagement documentation.

.A53 Examples of findings or issues that, in the auditor's judgment, are significant include the results of review procedures that indicate that the interim financial information could be materially misstated, including actions taken to address such findings, and the basis for the final conclusions reached.

.A54

Appendix A—Analytical Procedures the Auditor May Consider Performing When Conducting a Review of Interim Financial Information (Ref: par. .A12)

Analytical procedures are designed to identify relationships and individual items that appear to be unusual and that may reflect a material misstatement of the interim financial information. Examples of analytical procedures that an auditor may consider performing in a review of interim financial information include the following:

- Comparing current interim financial information with the interim financial information of the immediately preceding interim period, the interim financial information of the corresponding interim period of the preceding financial year, and the most recent audited annual financial statements.
- Comparing current interim financial information with anticipated results, such as budgets or forecasts (for example, comparing tax balances and the relationship between the provision for income taxes and pretax income in the current interim financial information with corresponding information in (a) budgets, using expected rates, and (b) financial information for prior periods). Caution is necessary when comparing and evaluating current interim financial information with budgets, forecasts, or other anticipated results because of the inherent lack of precision in estimating the future and the susceptibility of such information to manipulation and misstatement by management to reflect desired interim results.
- Comparing current interim financial information with relevant nonfinancial information.
- Comparing ratios and indicators for the current interim period with expectations based on prior periods (for example, performing gross profit analysis by product line and operating segment using elements of the current interim financial information and comparing the results with corresponding information for prior periods). Examples of key ratios and indicators are the current ratio, receivable turnover or days sales outstanding, inventory turnover, depreciation to average fixed assets, debt to equity, gross profit percentage, net income percentage, and plant operating rates.
- Comparing ratios and indicators for the current interim period with those of entities in the same industry.
- Comparing relationships among elements in the current interim financial information with corresponding relationships in the interim financial information of prior periods (for example, expense by type as a percentage of sales, assets by type as a percentage of total assets, and percentage of change in sales to percentage of change in receivables).
- Comparing disaggregated data. The following are examples of how data may be disaggregated:

Special Considerations in the United States

- By period (for example, interim financial information items disaggregated into quarterly, monthly, or weekly amounts)
- By product line or operating segment
- By location (for example, subsidiary, division, or branch)

Analytical procedures may include such statistical techniques as trend analysis or regression analysis and may be performed manually or with the use of computer-assisted techniques.

.A55

Appendix B—Unusual or Complex Situations to Be Considered by the Auditor When Conducting a Review of Interim Financial Information (Ref: par. .A18)

The following are examples of situations about which the auditor may inquire of management:

- Business combinations
- New or complex revenue recognition methods
- Impairment of assets
- Disposal of a segment of a business
- Use of derivative instruments and hedging activities
- Sales and transfers that may call into question the classification of investments in securities, including management's intent and ability with respect to the remaining securities classified as held to maturity
- Adoption of new stock compensation plans or changes to existing plans
- Restructuring charges taken in the current and prior quarters
- Significant, unusual, or infrequently occurring transactions
- Changes in litigation or contingencies
- Changes in major contracts with customers or suppliers
- Application of new accounting principles
- Changes in accounting principles or the methods of applying them
- Trends and developments affecting accounting estimates, such as allowances for bad debts and excess or obsolete inventories, provisions for warranties and employee benefits, and realization of unearned income and deferred charges
- Compliance with debt covenants
- Changes in related parties or significant new related party transactions
- Material off-balance-sheet transactions, special purpose entities, and other equity investments
- Unique terms for debt or capital stock that could affect classification

.A56

Exhibit A—Illustrative Management Representation Letters for a Review of Interim Financial Information (Ref: par. .A29)

The following management representation letters, which relate to a review of interim financial information, are presented for illustrative purposes only.

Illustration 1—Short Form Representation Letter for a Review of Interim Financial Information

Illustration 2—Detailed Representation Letter for a Review of Interim Financial Information

It is assumed in these illustrations that the applicable financial reporting framework is accounting principles generally accepted in the United States of America, that no conditions or events exist that might be indicative of the entity's possible inability to continue as a going concern, and that no exceptions exist to the requested written representations. If circumstances differ from these assumptions, the representations would need to be modified to reflect the actual circumstances.

Illustration 1—Short Form Representation Letter for a Review of Interim Financial Information

This representation letter is to be used in conjunction with the representation letter for the audit of the financial statements of the prior year. Management confirms the representations made in the representation letter for the audit of the financial statements of the prior year end, as they apply to the interim financial information, and makes additional representations that may be needed for the interim financial information.

[Date]

To [Independent Auditor]:

This representation letter is provided in connection with your review of the [consolidated] balance sheet as of June 30, 20X1 and the related [consolidated] statements of income, changes in equity, and cash flows for the six-month period then ended of ABC Company for the purpose of reporting whether any material modifications should be made to the [consolidated] interim financial information for it to be in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) [including, if appropriate, an indication as to the appropriate form and content of interim financial information (for example, Article 10 of SEC Regulation S-X)].

We confirm that [, to the best of our knowledge and belief, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves] [as of (date of auditor's review report),]:

Interim Financial Information

1. We have fulfilled our responsibilities, as set out in the terms of the engagement letter dated *[insert date]* for the preparation and fair presentation of interim financial information in accordance with U.S. GAAP; in particular the interim financial information is presented in accordance therewith.
2. We acknowledge our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of interim financial information that is free from material misstatement, whether due to fraud or error.
3. The interim financial information has been adjusted or includes disclosures for all events subsequent to the date of the interim financial information for which U.S. GAAP requires adjustment or disclosure.
4. The effects of uncorrected misstatements are immaterial, both individually and in the aggregate, to the interim financial information as a whole. A list of the uncorrected misstatements is attached to the representation letter.

[Any other matters that the auditor may consider appropriate]

Information Provided

5. We have provided you with:
 - Access to all information of which we are aware that is relevant to the preparation and fair presentation of the interim financial information such as records, documentation, and other matters;
 - Minutes of the meetings of stockholders, directors, and committees of directors, or summaries of actions of recent meetings for which minutes have not yet been prepared;
 - Additional information that you have requested from us for the purpose of the review; and
 - Unrestricted access to persons within the entity of whom you determined it necessary to make inquiries.
6. We have disclosed to you all significant deficiencies or material weaknesses in the design or operation of internal control of which we are aware, as it relates to the preparation and fair presentation of both annual and interim financial information.
7. We have disclosed to you the results of our assessment of the risk that the interim financial information may be materially misstated as a result of fraud.
8. We have *[no knowledge of any]* *[disclosed to you all information of which we are aware in relation to]* fraud or suspected fraud that affects the entity and involves:
 - Management;
 - Employees who have significant roles in internal control; or
 - Others when the fraud could have a material effect on the interim financial information.
9. We have *[no knowledge of any]* *[disclosed to you all information in relation to]* allegations of fraud, or suspected fraud, affecting

the entity's interim financial information communicated by employees, former employees, analysts, regulators, or others.

10. We have disclosed to you the identity of the entity's related parties and all the related party relationships and transactions of which we are aware.

[Any other matters that the auditor may consider necessary]

11. We have reviewed our representation letter to you dated *[date of representation letter relating to most recent audit]* with respect to the audited consolidated financial statements as of and for the year ended *[prior year-end date]*. We believe that representations *[references to applicable representations]* within that representation letter do not apply to the interim financial information referred to above. We now confirm those representations *[references to applicable representations]*, as they apply to the interim financial information referred to above, and incorporate them herein, with the following changes:

[Indicate any changes.]

12. *[Add any representations related to new accounting or auditing standards that are being implemented for the first time.]*

[Name of Chief Executive Officer and Title]

[Name of Chief Financial Officer and Title]

[Name of Chief Accounting Officer and Title]

Illustration 2—Detailed Representation Letter for a Review of Interim Financial Information

This representation letter is similar in detail to the management representation letter used for the audit of the financial statements of the prior year and, thus, need not refer to the written management representations received in the most recent audit.

[Date]

To *[Independent Auditor]*:

This representation letter is provided in connection with your review of the *[consolidated]* balance sheet as of June 30, 20X1 and the related *[consolidated]* statements of income, changes in equity, and cash flows for the six-month period then ended of ABC Company for the purpose of reporting whether any material modifications should be made to the *[consolidated]* interim financial information for it to be in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) *[including, if appropriate, an indication as to the appropriate form and content of interim financial information (for example, Article 10 of SEC Regulation S-X)]*.

We confirm that *[, to the best of our knowledge and belief, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves] [as of (date of auditor's review report),]*:

Interim Financial Information

1. We have fulfilled our responsibilities, as set out in the terms of the engagement letter dated *[insert date]* for the preparation and fair presentation of the interim financial information in accordance with U.S. GAAP; in particular the interim financial information is presented in accordance therewith.
2. We acknowledge our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of interim financial information that is free from material misstatement, whether due to fraud or error.
3. Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable.
4. Related party relationships and transactions have been appropriately accounted for and disclosed in accordance with the requirements of U.S. GAAP.
5. The interim financial information has been adjusted or includes disclosures for all events subsequent to the date of the interim financial information for which U.S. GAAP requires adjustment or disclosure.
6. The effects of uncorrected misstatements are immaterial, both individually and in the aggregate, to the interim financial information as a whole. A list of the uncorrected misstatements is attached to the representation letter.

[Any other matters that the auditor may consider appropriate]

Information Provided

7. We have provided you with:
 - Access to all information of which we are aware that is relevant to the preparation and fair presentation of the interim financial information such as records, documentation, and other matters;
 - Minutes of the meetings of stockholders, directors, and committees of directors, or summaries of actions of recent meetings for which minutes have not yet been prepared;
 - Additional information that you have requested from us for the purpose of the review; and
 - Unrestricted access to persons within the entity of whom you determined it necessary to make inquiries.
8. All transactions have been recorded in the accounting records and are reflected in the interim financial information.
9. We have disclosed to you all significant deficiencies or material weaknesses in the design or operation of internal control of which we are aware, as it relates to the preparation and fair presentation of both annual and interim financial information.
10. We have disclosed to you the results of our assessment of the risk that the interim financial information may be materially misstated as a result of fraud.
11. We have *[no knowledge of any]**[disclosed to you all information of which we are aware in relation to]* fraud or suspected fraud that affects the entity and involves:

Special Considerations in the United States

- Management;
 - Employees who have significant roles in internal control; or
 - Others when the fraud could have a material effect on the interim financial information.
12. We have *[no knowledge of any]**[disclosed to you all information in relation to]* allegations of fraud, or suspected fraud, affecting the entity's interim financial information communicated by employees, former employees, analysts, regulators, or others.
 13. We have disclosed to you all known instances of non-compliance or suspected non-compliance with laws and regulations whose effects should be considered when preparing interim financial information.
 14. There have been no communications from regulatory agencies concerning noncompliance with or deficiencies in financial reporting practices.
 15. We have disclosed to you the identity of the entity's related parties and all the related party relationships and transactions of which we are aware.

[Any other matters that the auditor may consider necessary]

Exhibit B—Illustrations of Auditor’s Review Reports on Interim Financial Information (Ref: par. .A41)

Illustration 1—A Review Report on Interim Financial Information

Illustration 2—A Review Report on Condensed Comparative Interim Financial Information

Illustration 3—A Review Report That Refers to a Component Auditor’s Review Report on the Interim Financial Information of a Significant Component of a Reporting Entity

Illustration 4—A Review Report on Comparative Interim Financial Information When the Prior Period Was Reviewed by Another Auditor

Illustration 1—A Review Report on Interim Financial Information

Circumstances include the following:

- A review of interim financial information presented as a complete set of financial statements, including disclosures

Independent Auditor’s Review Report

[Appropriate Addressee]

Report on the Financial Statements

We have reviewed the accompanying [describe the interim financial information or statements reviewed] of ABC Company and subsidiaries as of September 30, 20X1, and for the three-month and nine-month periods then ended.

Management’s Responsibility

The Company’s management is responsible for the preparation and fair presentation of the interim financial information in accordance with [identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]; this responsibility includes the design, implementation, and maintenance of internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with [identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America].

Auditor’s Responsibility

Our responsibility is to conduct our review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial information. Accordingly, we do not express such an opinion.

Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

Illustration 2—A Review Report on Condensed Comparative Interim Financial Information

The following is an example of a review report on a condensed balance sheet as of March 31, 20X1; the related condensed statements of income and cash flows for the three-month periods ended March 31, 20X1 and 20X0; and a condensed balance sheet derived from audited financial statements as of December 31, 20X0. If the auditor's report on the preceding year-end financial statements was other than unmodified or included an emphasis-of-matter paragraph because of a going concern matter or an inconsistency in the application of accounting principles, the last paragraph of the illustrative report would be appropriately modified.

Independent Auditor's Review Report

[Appropriate Addressee]

Report on the Financial Statements

We have reviewed the condensed consolidated financial statements of ABC Company and subsidiaries, which comprise the balance sheet as of March 31, 20X1, and the related condensed consolidated statements of income and cash flows for the three-month periods ended March 31, 20X1 and 20X0.

Management's Responsibility

The Company's management is responsible for the preparation and fair presentation of the condensed financial information in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*; this responsibility includes the design, implementation, and maintenance of internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

Auditor's Responsibility

Our responsibility is to conduct our reviews in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial information. Accordingly, we do not express such an opinion.

Conclusion

Based on our reviews, we are not aware of any material modifications that should be made to the condensed financial information referred to above for it

to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

Report on Condensed Balance Sheet as of [Date]

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet as of December 31, 20X0, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the year then ended (not presented herein); and we expressed an unmodified audit opinion on those audited consolidated financial statements in our report dated February 15, 20X1. In our opinion, the accompanying condensed consolidated balance sheet of ABC Company and subsidiaries as of December 31, 20X0, is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

Illustration 3—A Review Report That Refers to a Component Auditor's Review Report on the Interim Financial Information of a Significant Component of a Reporting Entity

Circumstances include the following:

- A review of interim financial information presented as a complete set of financial statements, including disclosures.
- The auditor is making reference to another auditor's review report on the interim financial information of a significant component of a reporting entity.

Independent Auditor's Review Report

[Appropriate Addressee]

Report on the Financial Statements

We have reviewed the accompanying *[describe the interim financial information or statements reviewed]* of ABC Company and subsidiaries as of September 30, 20X1, and for the three-month and nine-month periods then ended.

Management's Responsibility

The Company's management is responsible for the preparation and fair presentation of the interim financial information in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*; this responsibility includes the design, implementation, and maintenance of internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

Auditor's Responsibility

Our responsibility is to conduct our review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less

in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial information. Accordingly, we do not express such an opinion.

We were furnished with the report of other auditors on their review of the interim financial information of DEF subsidiary, whose total assets as of September 30, 20X1, and whose revenues for the three-month and nine-month periods then ended, constituted 15 percent, 20 percent, and 22 percent, respectively, of the related consolidated totals.

Conclusion

Based on our review and the review report of other auditors, we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

Illustration 4—A Review Report on Comparative Interim Financial Information When the Prior Period Was Reviewed by Another Auditor

Circumstances include the following:

- A review of interim financial information presented as a complete set of financial statements, including disclosures as of March 31, 20X1, and for the three-month period then ended.
- Comparative information is presented for the balance sheet as of December 31, 20X0, and for the statements of income and cash flows for the comparable interim period.
- The December 31, 20X0, financial statements were audited, and the March 31, 20X0, interim financial information was reviewed, by another auditor.

Independent Auditor's Review Report

[Appropriate Addressee]

Report on the Financial Statements

We have reviewed the accompanying *[describe the interim financial information or statements reviewed]* of ABC Company and subsidiaries as of March 31, 20X1, and for the three-month period then ended. The consolidated statements of income and cash flows of ABC Company and subsidiaries for the three-month period ended March 31, 20X0, were reviewed by other auditors whose report dated June 1, 20X0, stated that based on their review, they were not aware of any material modifications that should be made to those statements in order for them to be in conformity with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*. The consolidated balance sheet of the Company as of December 31, 20X0, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the year then ended (not presented herein), were audited by other auditors whose report dated March 15, 20X1, expressed an unmodified opinion on that statement.

Management's Responsibility

The Company's management is responsible for the preparation and fair presentation of the interim financial information in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*; this responsibility includes the design, implementation, and maintenance of internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

Auditor's Responsibility

Our responsibility is to conduct our review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial information. Accordingly, we do not express such an opinion.

Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial information as of and for the three months ended March 31, 20X1, for it to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

Exhibit C—Illustrations of Example Modifications to the Auditor's Review Report Due to Departures From the Applicable Financial Reporting Framework (Ref: par. .A47)

Illustration 1—Modification Due to a Departure From the Applicable Financial Reporting Framework

Illustration 2—Modification Due to Inadequate Disclosure

Illustration 3—Emphasis-of-Matter Paragraph When a Going Concern Emphasis-of-Matter Paragraph Was Included in the Prior Year's Audit Report, and Conditions Giving Rise to the Emphasis-of-Matter Paragraph Continue to Exist

Illustration 4—Emphasis-of-Matter Paragraph When a Going Concern Emphasis-of-Matter Paragraph Was Not Included in the Prior Year's Audit Report, and Conditions or Events Exist as of the Interim Reporting Date Covered by the Review That Might Be Indicative of the Entity's Possible Inability to Continue as a Going Concern

Illustration 1—Modification Due to a Departure From the Applicable Financial Reporting Framework

The following is an example of a modification of the auditor's review report due to a departure from the applicable financial reporting framework:

[Basis for Modification Paragraph]

Based on information furnished to us by management, we believe that the Company has excluded from property and debt in the accompanying balance sheet certain lease obligations that we believe should be capitalized to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*. This information indicates that if these lease obligations were capitalized at September 30, 20X1, property would be increased by \$____, long-term debt would be increased by \$____, and net income would be increased (decreased) by \$____ and \$____, respectively, for the three-month and nine-month periods then ended.

[Conclusion]

Based on our review, with the exception of the matter(s) described in the preceding paragraph(s), we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

Illustration 2—Modification Due to Inadequate Disclosure

The following is an example of a modification of the auditor's review report due to inadequate disclosure:

[Basis for Modification Paragraph]

Management has informed us that the Company is presently defending a claim regarding *[describe the nature of the loss contingency]* and that the extent of the Company's liability, if any, and the effect on the accompanying interim financial information is not determinable at this time. The interim financial information fails to disclose these matters, which we believe are required to be disclosed in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

[Conclusion]

Based on our review, with the exception of the matter(s) described in the preceding paragraph(s), we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

Illustration 3—Emphasis-of-Matter Paragraph When a Going Concern Emphasis-of-Matter Paragraph Was Included in the Prior Year's Audit Report, and Conditions Giving Rise to the Emphasis-of-Matter Paragraph Continue to Exist

The following is an example of an emphasis-of-matter paragraph when a going concern emphasis-of-matter paragraph was included in the prior year's audit report, and conditions giving rise to the emphasis-of-matter paragraph continue to exist:

[Emphasis-of-Matter Paragraph]

Note 4 of the Company's audited financial statements as of December 31, 20X1, and for the year then ended, discloses that the Company was unable to renew its line of credit or obtain alternative financing at December 31, 20X1. Our auditor's report on those financial statements includes an emphasis-of-matter paragraph referring to the matters in note 4 of those financial statements and indicating that these matters raised substantial doubt about the Company's ability to continue as a going concern. As indicated in note 3 of the Company's unaudited interim financial information as of March 31, 20X2, and for the three months then ended, the Company was still unable to renew its line of credit or obtain alternative financing as of March 31, 20X2. The accompanying interim financial information does not include any adjustments that might result from the outcome of this uncertainty.

Illustration 4—Emphasis-of-Matter Paragraph When a Going Concern Emphasis-of-Matter Paragraph Was Not Included in the Prior Year's Audit Report, and Conditions or Events Exist as of the Interim Reporting Date Covered by the Review That Might Be Indicative of the Entity's Possible Inability to Continue as a Going Concern

The following is an example of an emphasis-of-matter paragraph when a going concern emphasis-of-matter paragraph was not included in the prior year's audit report, and conditions or events exist as of the interim reporting date covered by the review that might be indicative of the entity's possible inability to continue as a going concern:

[Emphasis-of-Matter Paragraph]

As indicated in note 3, certain conditions indicate that the Company may be unable to continue as a going concern. The accompanying interim financial information does not include any adjustments that might result from the outcome of this uncertainty.

AU-C Section 935

Compliance Audits

(Supersedes SAS No. 74.)

Source: SAS No. 117; SAS No. 122; SAS No. 123; SAS No. 125.

Effective for compliance audits for fiscal periods ending on or after June 15, 2010, unless otherwise indicated. Earlier application is permitted.

NOTE

To address practice issues, Statement on Auditing Standards (SAS) No. 117, *Compliance Audits*, was issued in December 2009 as a SAS resulting from the Clarification and Convergence Project of the Auditing Standards Board, and became effective for compliance audits for fiscal periods ending on or after June 15, 2010.

SAS No. 117 was previously codified as AU section 801 until December 2013, when all AU sections were deleted from AICPA *Professional Standards*, as described in the AU-C Foreword. SAS No. 122, *Statement on Auditing Standards: Clarification and Recodification*, redesignated AU section 801 as section 935 but did not supersede SAS No. 117.

This section contains conforming changes necessary in specific paragraphs and footnotes due to the issuance of SAS No. 122.

Introduction and Applicability

.01 Governments frequently establish governmental audit requirements for entities to undergo an audit of their compliance with applicable compliance requirements. This section is applicable when an auditor is engaged, or required by law or regulation, to perform a compliance audit in accordance with all of the following:

- Generally accepted auditing standards (GAAS)
- The standards for financial audits under *Government Auditing Standards*
- A governmental audit requirement that requires an auditor to express an opinion on compliance (Ref: par. .A1–.A2)

.02 This section addresses the application of GAAS to a compliance audit. Compliance audits usually are performed in conjunction with a financial statement audit. This section does not apply to the financial statement audit component of such engagements. Although certain AU-C sections are not applicable to a compliance audit, as identified in the appendix "AU-C Sections That Are Not Applicable to Compliance Audits," all AU-C sections other than this section are applicable to the audit of financial statements performed in conjunction with a compliance audit. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.03 This section is not applicable when the governmental audit requirement calls for an examination, in accordance with Statements on Standards for Attestation Engagements, of an entity's compliance with specified requirements or an examination of an entity's internal control over compliance. AT section 601, *Compliance Attestation*, is applicable to an examination of an entity's compliance with specified requirements and AT section 101, *Attest Engagements*, is applicable to an examination of an entity's internal control over compliance. If the entity is required to undergo a compliance audit and an examination of internal control over compliance, this section is applicable to performing and reporting on the compliance audit, and AT section 101 is applicable to performing and reporting on the examination of internal control over compliance. (Ref: par. .A2)

.04 AU-C sections 200–800 address audits of financial statements, as well as other kinds of engagements. Generally, these AU-C sections can be adapted to the objectives of a compliance audit. However, those AU-C sections, or portions thereof, identified in the appendix cannot be adapted to a compliance audit because they address the matters that are not applicable to a compliance audit. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.05 Except for the AU-C sections that are listed in the appendix as not applicable to a compliance audit, all of the other AU-C sections are applicable to a compliance audit. However, the auditor is not required, in planning and performing a compliance audit, to make a literal translation of each procedure that might be performed in a financial statement audit, but rather to obtain sufficient appropriate audit evidence to support the auditor's opinion on compliance. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.06 Some AU-C sections can be adapted and applied to a compliance audit with relative ease, for example, by simply replacing the word *misstatement* with the word *noncompliance*. Other AU-C sections are more difficult to adapt and apply and entail additional modification. For that reason, this section provides more specific guidance on how to adapt and apply certain AU-C sections to a compliance audit. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.07 *Government Auditing Standards* and governmental audit requirements contain certain standards and requirements that are supplementary to those in GAAS, as well as guidance on how to apply those standards and requirements.

Management's Responsibilities

.08 A compliance audit is based on the premise that management is responsible for the entity's compliance with compliance requirements. Management's responsibility for the entity's compliance with compliance requirements includes the following:

- a. Identifying the entity's government programs and understanding and complying with the compliance requirements
- b. Establishing and maintaining effective controls that provide reasonable assurance that the entity administers government programs in compliance with the compliance requirements
- c. Evaluating and monitoring the entity's compliance with the compliance requirements

- d. Taking corrective action when instances of noncompliance are identified, including corrective action on audit findings of the compliance audit

Effective Date

.09 The provisions of this section are effective for compliance audits for fiscal periods ending on or after June 15, 2010. Earlier application is permitted.

Objectives (Ref: par. .A3)

- .10 The auditor's objectives in a compliance audit are to
 - a. obtain sufficient appropriate audit evidence to form an opinion and report at the level specified in the governmental audit requirement on whether the entity complied in all material respects with the applicable compliance requirements; and
 - b. identify audit and reporting requirements specified in the governmental audit requirement that are supplementary to GAAS and *Government Auditing Standards*, if any, and perform procedures to address those requirements.

Definitions

.11 For purposes of adapting GAAS to a compliance audit, the following terms have the meanings attributed as follows:

Applicable compliance requirements. Compliance requirements that are subject to the compliance audit.

Audit findings. The matters that are required to be reported by the auditor in accordance with the governmental audit requirement.

Audit risk of noncompliance. The risk that the auditor expresses an inappropriate audit opinion on the entity's compliance when material noncompliance exists. Audit risk of noncompliance is a function of the risks of material noncompliance and detection risk of noncompliance.

Compliance audit. A program-specific audit or an organization-wide audit of an entity's compliance with applicable compliance requirements.

Compliance requirements. Laws, regulations, rules, and provisions of contracts or grant agreements applicable to government programs with which the entity is required to comply.

Deficiency in internal control over compliance. A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A deficiency in *design* exists when (a) a control necessary to meet the control objective is missing, or (b) an existing control is not properly designed so that, even if the control operates as designed, the control objective would not be met. A deficiency in *operation* exists when a properly designed control does not operate as designed or the person performing the control does not possess the necessary authority or competence to perform the control effectively.

Detection risk of noncompliance. The risk that the procedures performed by the auditor to reduce audit risk of noncompliance to an acceptably low level will not detect noncompliance that exists and that could be material, either individually or when aggregated with other instances of noncompliance.

Government Auditing Standards. Standards and guidance issued by the Comptroller General of the United States, U.S. Government Accountability Office for financial audits, attestation engagements, and performance audits. *Government Auditing Standards* also is known as generally accepted government auditing standards (GAGAS) or the Yellow Book.

Government program. The means by which governmental entities achieve their objectives. For example, one of the objectives of the U.S. Department of Agriculture is to provide nutrition to individuals in need. Examples of government programs designed to achieve that objective are the Supplemental Nutrition Assistance Program and the National School Lunch Program. Government programs that are relevant to this section are those in which a grantor or pass-through entity provides an award to another entity, usually in the form of a grant, contract, or other agreement. Not all government programs provide cash assistance; sometimes noncash assistance is provided (for example, a loan guarantee, commodities, or property).

Governmental audit requirement. A government requirement established by law, regulation, rule, or provision of contracts or grant agreements requiring that an entity undergo an audit of its compliance with applicable compliance requirements related to one or more government programs that the entity administers. (Ref: par. .A4)

Grantor. A government agency from which funding for the government program originates.

Known questioned costs. Questioned costs specifically identified by the auditor. Known questioned costs are a subset of likely questioned costs.

Likely questioned costs. The auditor's best estimate of total questioned costs, not just the known questioned costs. Likely questioned costs are developed by extrapolating from audit evidence obtained, for example, by projecting known questioned costs identified in an audit sample to the entire population from which the sample was drawn.

Material noncompliance. In the absence of a definition of material noncompliance in the governmental audit requirement, a failure to follow compliance requirements or a violation of prohibitions included in the applicable compliance requirements that results in noncompliance that is quantitatively or qualitatively material, either individually or when aggregated with other noncompliance, to the affected government program.

Material weakness in internal control over compliance. A deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis. In this section, a reasonable possibility exists when the likelihood of the

event is either reasonably possible or probable as defined as follows:

Reasonably possible. The chance of the future event or events occurring is more than remote but less than likely.

Remote. The chance of the future event or events occurring is slight.

Probable. The future event or events are likely to occur.

Organization-wide audit. An audit of an entity's financial statements and an audit of its compliance with the applicable compliance requirements as they relate to one or more government programs that the entity administers.

Pass-through entity. An entity that receives an award from a grantor or other entity and distributes all or part of it to another entity to administer a government program.

Program-specific audit. An audit of an entity's compliance with applicable compliance requirements as they relate to one government program that the entity administers. The compliance audit portion of a program-specific audit is performed in conjunction with either an audit of the entity's or the program's financial statements.

Questioned costs. Costs that are questioned by the auditor because (1) of a violation or possible violation of the applicable compliance requirements, (2) the costs are not supported by adequate documentation, or (3) the incurred costs appear unreasonable and do not reflect the actions that a prudent person would take in the circumstances.

Risk of material noncompliance. The risk that material noncompliance exists prior to the audit. This consists of two components, described as follows:

Inherent risk of noncompliance. The susceptibility of a compliance requirement to noncompliance that could be material, either individually or when aggregated with other instances of noncompliance, before consideration of any related controls over compliance.

Control risk of noncompliance. The risk that noncompliance with a compliance requirement that could occur and that could be material, either individually or when aggregated with other instances of noncompliance, will not be prevented, or detected and corrected, on a timely basis by the entity's internal control over compliance.

Significant deficiency in internal control over compliance. A deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Requirements

Adapting and Applying the AU-C Sections to a Compliance Audit (Ref: par. .A5 and .A38)

.12 When performing a compliance audit, the auditor, using professional judgment, should adapt and apply the AU-C sections to the objectives of a compliance audit, except for the AU-C sections listed in the appendix. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Establishing Materiality Levels (Ref: par. .A6–.A8)

.13 The auditor should establish and apply materiality levels for the compliance audit based on the governmental audit requirement.

Identifying Government Programs and Applicable Compliance Requirements (Ref: par. .A9–.A11)

.14 As discussed in paragraph .08, a compliance audit is based on the premise that management is responsible for identifying the entity's government programs and understanding and complying with the compliance requirements. The auditor should determine which of those government programs and compliance requirements to test (that is, the applicable compliance requirements) in accordance with the governmental audit requirement.

Performing Risk Assessment Procedures (Ref: par. .A12–.A15)

.15 For each of the government programs and applicable compliance requirements selected for testing, the auditor should perform risk assessment procedures to obtain a sufficient understanding of the applicable compliance requirements and the entity's internal control over compliance with the applicable compliance requirements.¹

.16 In performing risk assessment procedures, the auditor should inquire of management about whether there are findings and recommendations in reports or other written communications resulting from previous audits, attestation engagements, and internal or external monitoring that directly relate to the objectives of the compliance audit. The auditor should gain an understanding of management's response to findings and recommendations that could have a material effect on the entity's compliance with the applicable compliance requirements (for example, taking corrective action). The auditor should use this information to assess risk and determine the nature, timing, and extent of the audit procedures for the compliance audit, including determining the extent to which testing the implementation of any corrective actions is applicable to the audit objectives.

Assessing the Risks of Material Noncompliance (Ref: par. .A16–.A18)

.17 The auditor should assess the risks of material noncompliance whether due to fraud or error for each applicable compliance requirement and should

¹ Paragraphs .03–.12b and .12d–.25 of section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

consider whether any of those risks are pervasive to the entity's compliance because they may affect the entity's compliance with many compliance requirements.²

Performing Further Audit Procedures in Response to Assessed Risks

.18 If the auditor identifies risks of material noncompliance that are pervasive to the entity's compliance, the auditor should develop an overall response to such risks. (Ref: par. .A19)

.19 The auditor should design and perform further audit procedures, including tests of details (which may include tests of transactions) to obtain sufficient appropriate audit evidence about the entity's compliance with each of the applicable compliance requirements in response to the assessed risks of material noncompliance. Risk assessment procedures, tests of controls, and analytical procedures alone are not sufficient to address a risk of material noncompliance. (Ref: par. .A20–.A23)

.20 The auditor should design and perform further audit procedures in response to the assessed risks of material noncompliance. These procedures should include performing tests of controls over compliance if

- the auditor's risk assessment includes an expectation of the operating effectiveness of controls over compliance related to the applicable compliance requirements;
- substantive procedures alone do not provide sufficient appropriate audit evidence; or
- such tests of controls over compliance are required by the governmental audit requirement.

If any of the conditions in this paragraph are met, the auditor should test the operating effectiveness of controls over each applicable compliance requirement to which the conditions apply in each compliance audit. (Ref: par. .A24–.A25)

Supplementary Audit Requirements

.21 The auditor should determine whether audit requirements are specified in the governmental audit requirement that are supplementary to GAAS and *Government Auditing Standards* and perform procedures to address those requirements, if any. (Ref: par. .A26)

.22 In instances where audit guidance provided by a governmental agency for the performance of compliance audits has not been updated for, or otherwise conflicts with, current GAAS or *Government Auditing Standards*, the auditor should comply with the most current applicable GAAS and *Government Auditing Standards* instead of the outdated or conflicting guidance. (Ref: par. .A27)

Written Representations

.23 The auditor should request from management written representations³ that are tailored to the entity and the governmental audit requirement: (Ref: par. .A28)

² Paragraphs .28–.32 of section 315. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

³ See section 580, *Written Representations*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

- a. acknowledging management's responsibility for understanding and complying with the compliance requirements;
- b. acknowledging management's responsibility for establishing and maintaining controls that provide reasonable assurance that the entity administers government programs in accordance with the compliance requirements;
- c. stating that management has identified and disclosed to the auditor all of its government programs and related activities subject to the governmental audit requirement;
- d. stating that management has made available to the auditor all contracts and grant agreements, including amendments, if any, and any other correspondence relevant to the programs and related activities subject to the governmental audit requirement;
- e. stating that management has disclosed to the auditor all known noncompliance with the applicable compliance requirements or stating that there was no such noncompliance;
- f. stating whether management believes that the entity has complied with the applicable compliance requirements (except for noncompliance it has disclosed to the auditor);
- g. stating that management has made available to the auditor all documentation related to compliance with the applicable compliance requirements;
- h. identifying management's interpretation of any applicable compliance requirements that are subject to varying interpretations;
- i. stating that management has disclosed to the auditor any communications from grantors and pass-through entities concerning possible noncompliance with the applicable compliance requirements, including communications received from the end of the period covered by the compliance audit to the date of the auditor's report;
- j. stating that management has disclosed to the auditor the findings received and related corrective actions taken for previous audits, attestation engagements, and internal or external monitoring that directly relate to the objectives of the compliance audit, including findings received and corrective actions taken from the end of the period covered by the compliance audit to the date of the auditor's report;
- k. stating that management has disclosed to the auditor all known noncompliance with the applicable compliance requirements subsequent to the period covered by the auditor's report or stating that there were no such known instances; and
- l. stating that management is responsible for taking corrective action on audit findings of the compliance audit.

.24 If the auditor determines that it is necessary to obtain additional representations related to the entity's compliance with the applicable compliance requirements, the auditor should request such additional representations.

Subsequent Events

.25 The auditor should perform audit procedures up to the date of the auditor's report to obtain sufficient appropriate audit evidence that all subsequent events related to the entity's compliance during the period covered by the auditor's report on compliance have been identified. (Ref: par. .A29)

.26 The auditor should take into account the auditor's risk assessment in determining the nature and extent of such audit procedures, which should include, but are not limited to, inquiring of management about and considering

- relevant internal auditors' reports issued during the subsequent period.
- other auditors' reports identifying noncompliance that were issued during the subsequent period.
- reports from grantors and pass-through entities on the entity's noncompliance that were issued during the subsequent period.
- information about the entity's noncompliance obtained through other professional engagements performed for that entity.

.27 The auditor has no obligation to perform any audit procedures related to the entity's compliance during the period subsequent to the period covered by the auditor's report. However, if before the report release date, the auditor becomes aware of noncompliance in the period subsequent to the period covered by the auditor's report that is of such a nature and significance that its disclosure is needed to prevent report users from being misled, the auditor should discuss the matter with management and, if appropriate, those charged with governance, and should include an other-matter paragraph in the auditor's report describing the nature of the noncompliance. (Ref: par. .A30) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Evaluating the Sufficiency and Appropriateness of the Audit Evidence and Forming an Opinion (Ref: par. .A31–.A32)

.28 The auditor should evaluate the sufficiency and appropriateness of the audit evidence obtained.⁴

.29 The auditor should form an opinion, at the level specified by the governmental audit requirement, on whether the entity complied in all material respects with the applicable compliance requirements, and report appropriately. In forming an opinion, the auditor should evaluate likely questioned costs, not just known questioned costs, as well as other material noncompliance that, by its nature, may not result in questioned costs.

Reporting

Report on Compliance Only

.30 The auditor's report on compliance should be in writing and include the following elements:

- a. A title that includes the word *independent*.
- b. An addressee appropriate for the circumstances of the engagement.
- c. An introductory paragraph that includes the following:
 - i. Identification of the one or more government programs covered by the compliance audit or reference to a separate schedule containing that information

⁴ Paragraphs .27–.29 of section 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

- ii. Identification of the applicable compliance requirements or a reference to where they can be found
 - iii. Identification of the period covered by the report
- d. A section with the heading "Management's Responsibility" that includes a statement that compliance with the applicable compliance requirements is the responsibility of the entity's management. If the document containing the auditor's report contains a separate statement by management about its responsibility for the applicable compliance requirements, the auditor's report should not include a reference to such statement by management.
- e. A section with the heading "Auditor's Responsibility" that includes the following statements:
 - i. A statement that the auditor's responsibility is to express an opinion on the entity's compliance with the applicable compliance requirements based on the compliance audit
 - ii. A statement that the compliance audit was conducted in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, and the governmental audit requirement
 - iii. A statement that the compliance audit included examining, on a test basis, evidence about the entity's compliance with those requirements and performing such other procedures as the auditor considered necessary in the circumstances
 - iv. A statement that the auditor believes the compliance audit provides a reasonable basis for the auditor's opinion
 - v. A statement that the compliance audit does not provide a legal determination of the entity's compliance
- f. If noncompliance results in a modified opinion, a section with an appropriate heading, indicating the basis for the modified opinion that includes a description of such noncompliance, or a reference to a description of such noncompliance in an accompanying schedule.⁵ (Ref: par. .A34)
- g. A section with the heading "Opinion" that includes the auditor's opinion, at the level specified by the governmental audit requirement, on whether the entity complied, in all material respects, with the applicable compliance requirements.
- h. If other noncompliance that is required to be reported by the governmental audit requirement is identified (that is, noncompliance that does not result in a modified opinion), an other-matter paragraph⁶ that includes a description of such noncompliance or a reference to a description of such noncompliance in an accompanying schedule. (Ref: par. .A34)

⁵ Paragraph .17 of section 705, *Modifications to the Opinion in the Independent Auditor's Report*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

⁶ Paragraph .08 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

- i. If the criteria used to evaluate compliance are
 - i. established or determined by contractual agreement or regulatory provisions that are developed solely for the parties to the agreement or regulatory agency responsible for the provisions or
 - ii. available only to the specified parties,an alert describing the purpose of the auditor's report and that the report is not suitable for any other purpose, as required by section 905, *Alert That Restricts the Use of the Auditor's Written Communication*.⁷
- j. The manual or printed signature of the auditor's firm.
- k. The city and state where the auditor practices.
- l. The date of the auditor's report.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. As amended, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

Combined Report on Compliance and Internal Control Over Compliance

.31 If the governmental audit requirement requires the auditor to report on internal control over compliance and the auditor combines the auditor's report on compliance with a report on internal control over compliance, the following should be added to the report elements listed in paragraph .30 in a section with the heading "Internal Control Over Compliance" that appears before the section required by paragraph 30*i*, if any:

- a. A statement that management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, rules, and provisions of contracts or grant agreements applicable to government programs.
- b. A statement that in planning and performing the compliance audit, the auditor considered the entity's internal control over compliance with the applicable compliance requirements to determine the auditing procedures for the purpose of expressing an opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance.
- c. A statement that the auditor is not expressing an opinion on internal control over compliance.
- d. A statement that the auditor's consideration of the entity's internal control over compliance was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses in internal control over compliance.
- e. The definition of *deficiency in internal control over compliance* and *material weakness in internal control over compliance*.
- f. A description of any identified material weaknesses in internal control over compliance or a reference to an accompanying schedule containing such a description.

⁷ See paragraphs .06*a-b*, .11, and .A11 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. [Footnote added, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

- g. If significant deficiencies in internal control over compliance were identified, the definition of *significant deficiency in internal control over compliance* and a description of the deficiencies or a reference to an accompanying schedule containing such a description.
- h. If no material weaknesses in internal control over compliance were identified, a statement to that effect.
- i. The alert described in paragraph .30*i*. The alert should be included in all combined reports on the entity's compliance and internal control over compliance.

A combined report on compliance and internal control over compliance is presented in the exhibit "Illustrative Combined Report on Compliance With Applicable Requirements and Internal Control Over Compliance—(Unmodified Opinion on Compliance; No Material Weaknesses or Significant Deficiencies in Internal Control Over Compliance Identified)." [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. As amended, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

Separate Report on Internal Control Over Compliance

.32 If the governmental audit requirement requires the auditor to report on internal control over compliance and the auditor chooses to issue a separate report on internal control over compliance, the auditor should include in that separate report the elements in paragraph .31*a-i* and the following additional elements:

- a. A title that includes the word *independent*
- b. A statement that the auditor audited the entity's compliance with applicable compliance requirements pertaining to [*identify the government program(s) and the period audited*] and a reference to the auditor's report on compliance
- c. A statement that the compliance audit was conducted in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, and the governmental audit requirement
- d. The manual or printed signature of the auditor's firm
- e. The date of the auditor's report

.33 The auditor should report noncompliance as well as other matters that are required to be reported by the governmental audit requirement in the manner specified by the governmental audit requirement. If the other matters required to be reported by the governmental audit requirement are not appropriate for the auditor to report on, the auditor should follow paragraph .38. (Ref. par. .A34)

.34 The auditor should modify the auditor's opinion on compliance in accordance with section 705, *Modifications to the Opinion in the Independent Auditor's Report*, if any of the following conditions exist:

- a. The compliance audit identifies noncompliance with the applicable compliance requirements that the auditor believes has a material effect on the entity's compliance.
- b. A restriction on the scope of the compliance audit.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.35 The auditor should modify the report described in paragraphs .30 and .32 when the auditor makes reference to the report of another auditor as the basis, in part, for the auditor's report.

.36 In the absence of a governmental audit requirement to report on internal control over compliance, the auditor should, nevertheless, communicate in writing to management and those charged with governance identified significant deficiencies and material weakness in internal control over compliance.⁸ (Ref: par. .A35–.A36)

.37 The auditor also should communicate to those charged with governance of the auditor's responsibilities under GAAS, *Government Auditing Standards*, and the governmental audit requirement, an overview of the planned scope and timing of the compliance audit, and significant findings from the compliance audit.⁹ [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.38 Printed forms, schedules, or reports designed or adopted by government agencies with which they are to be filed sometimes contain prescribed wording. If a printed form, schedule, or report requires the auditor to make a statement that the auditor has no basis to make, the auditor should accordingly reword the form, schedule, or report or attach an appropriately worded separate report. (Ref: par. .A37)

Documentation (Ref: par. .A38)

.39 The auditor should document the risk assessment procedures performed, including those related to gaining an understanding of internal control over compliance.¹⁰

.40 The auditor should document the auditor's responses to the assessed risks of material noncompliance, the procedures performed to test compliance with the applicable compliance requirements, and the results of those procedures, including any tests of controls over compliance.¹¹

.41 The auditor should document materiality levels and the basis on which they were determined.

.42 The auditor should document how the auditor complied with the specific governmental audit requirements that are supplementary to GAAS and *Government Auditing Standards*.

⁸ See section 265, *Communicating Internal Control Related Matters Identified in an Audit*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

⁹ See section 260, *The Auditor's Communication With Those Charged With Governance*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

¹⁰ Paragraph .33a–b and .33d of section 315. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

¹¹ Paragraph .30 of section 330. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

Reissuance of the Compliance Report (Ref: par. .A39–.A40)

.43 If an auditor reissues the auditor's report, the reissued report should include an other-matter paragraph stating that the report is replacing a previously issued report and describing the reasons why the report is being reissued, and any changes from the previously issued report. If additional procedures are performed to obtain sufficient appropriate audit evidence for all of the government programs being reported on, the auditor's report date should be updated to reflect the date the auditor obtained sufficient appropriate audit evidence regarding the events that caused the auditor to perform the new procedures. If, however, additional procedures are performed to obtain sufficient appropriate audit evidence for only some of the government programs being reported on, the auditor should dual date the report with the updated report date reflecting the date the auditor obtained sufficient appropriate audit evidence regarding the government programs affected by the circumstances and referencing the government programs for which additional audit procedures have been performed. Reissuance of an auditor-prepared document required by the governmental audit requirement that is incorporated by reference into the auditor's report is considered to be a reissuance of the report. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Application and Other Explanatory Material

Introduction and Applicability

.A1 An example of an engagement to which this section is applicable is an audit performed in accordance with the provisions of Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. This section is applicable because OMB Circular A-133 is a governmental audit requirement that requires the auditor to perform a compliance audit in accordance with both GAAS and *Government Auditing Standards* and to express an opinion on compliance. Another example is a department specific requirement such as the U.S. Department of Housing and Urban Development *Audit Requirements Related to Entities Such As Public Housing Agencies, Nonprofit and For-Profit Housing Projects, and Certain Lenders*. An example of an engagement to which this section is not applicable is an engagement performed to satisfy a law or regulation requiring the entity to have an auditor determine whether the entity has spent transportation excise tax monies in accordance with the specific purposes outlined in the law or regulation, but not requiring that the audit be performed in accordance with both GAAS and *Government Auditing Standards*. Such an engagement could be performed under AT section 601; AT section 101; or AT section 201, *Agreed-Upon Procedures Engagements*, depending on the requirements of the government. Law or regulation will not always indicate which standards to follow. In such cases, professional judgment will be needed to determine, based on the circumstances, the appropriate standards to follow. (Ref: par. .01) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A2 An example of a governmental audit requirement that calls for an examination of an entity's compliance with specified requirements in accordance with AT section 601 is the U.S. Department of Education's audit guide *Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers*. (Ref: par. .01 and .03)

Objectives

.A3 Most governmental audit requirements specify that the auditor's opinion on compliance is at the program level. However, some governmental audit requirements may specify a different level (for example, at the applicable compliance requirement level). (Ref: par. .10) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Definitions

Governmental Audit Requirement

.A4 Governmental audit requirements also may set forth specific supplementary requirements of the compliance audit (for example, procedures to be performed by the auditor, documentation requirements, the form of reporting, and continuing professional education requirements with which the auditor is required to comply. (Ref: par. .11) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Adapting and Applying the AU-C Sections to a Compliance Audit (Ref: par. .12)

.A5 AU-C sections often identify audit procedures and contain examples that are specific to a financial statement audit. The auditor is not expected to adapt or apply all such procedures to the compliance audit, only those that, in the auditor's professional judgment, are relevant and necessary to meet the objectives of the compliance audit. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Establishing Materiality Levels (Ref: par. .13)

.A6 In a compliance audit, the auditor's purpose for establishing materiality levels is to

- a. determine the nature and extent of risk assessment procedures.
- b. identify and assess the risks of material noncompliance.
- c. determine the nature, timing, and extent of further audit procedures.
- d. evaluate whether the entity complied with the applicable compliance requirements.
- e. report findings of noncompliance and other matters required to be reported by the governmental audit requirement.

.A7 Generally, for all of the purposes identified in paragraph .A6, the auditor's consideration of materiality is in relation to the government program taken as a whole. However, the governmental audit requirement may specify a different level of materiality for one or more of these purposes. For example, for purposes of reporting findings of noncompliance, OMB Circular A-133 requires that noncompliance that is material in relation to one of the 14 types of compliance requirements identified in the OMB *Compliance Supplement* (*Compliance Supplement*) be reported. (See paragraph .A10 for further information about the *Compliance Supplement*.)

.A8 Because the governmental audit requirement usually is established by the grantors and the auditor's report on compliance is primarily for their use, the auditor's determination of materiality usually is influenced by the needs of the grantors. However, in a compliance audit, the auditor's judgment

about matters that are material to users of the auditor's report also is based on consideration of the needs of users as a group, including grantors.

Identifying Government Programs and Applicable Compliance Requirements (Ref: par. .14)

.A9 Some governmental audit requirements specifically identify the applicable compliance requirements. Other governmental audit requirements provide a framework for the auditor to determine the applicable compliance requirements. For example, the *Compliance Supplement* provides such a framework for OMB Circular A-133 audits.

.A10 The following are some of the sources an auditor may consult when identifying and obtaining an understanding of the applicable compliance requirements:

- a. The *Compliance Supplement*, which is issued by OMB, and used in OMB Circular A-133 audits, contains the compliance requirements that typically are applicable to federal government programs, as well as suggested audit procedures when compliance requirements are applicable and have a direct and material effect on the entity's compliance. Part 7 of the *Compliance Supplement* provides guidance for identifying compliance requirements for programs not included therein.
- b. The applicable program-specific audit guide issued by the grantor agency, which contains the compliance requirements pertaining to the government program and suggested audit procedures to test for compliance with the applicable compliance requirements.

.A11 The following are procedures the auditor may perform to identify and obtain an understanding of the applicable compliance requirements if the *Compliance Supplement* or a program-specific audit guide is not applicable:

- a. Reading laws, regulations, rules, and provisions of contracts or grant agreements that pertain to the government program
- b. Making inquiries of management and other knowledgeable entity personnel (for example, the chief financial officer, internal auditors, legal counsel, compliance officers, or grant or contract administrators)
- c. Making inquiries of appropriate individuals outside the entity, such as
 - i. the office of the federal, state, or local program official or auditor, or other appropriate audit oversight organizations or regulators, about the laws and regulations applicable to entities within their jurisdiction, including statutes and uniform reporting requirements
 - ii. a third-party specialist, such as an attorney
- d. Reading the minutes of meetings of the governing board of the entity being audited
- e. Reading audit documentation about the applicable compliance requirements prepared during prior years' audits or other engagements
- f. Discussing the applicable compliance requirements with auditors who performed prior years' audits or other engagements

The procedures listed in this paragraph also may assist the auditor in obtaining a further understanding of the applicable compliance requirements even when the *Compliance Supplement* or program-specific audit guide is applicable.

Performing Risk Assessment Procedures (Ref: par. .15–.16)

.A12 Obtaining an understanding of the government program, the applicable compliance requirements, and the entity's internal control over compliance establishes a frame of reference within which the auditor plans the compliance audit and exercises professional judgment about assessing risks of material noncompliance and responding to those risks throughout the compliance audit.

.A13 The nature and extent of the risk assessment procedures the auditor performs may vary from entity to entity and are influenced by factors such as the following:

- The newness and complexity of the applicable compliance requirements
- The auditor's knowledge of the entity's internal control over compliance with the applicable compliance requirements obtained in previous audits or other professional engagements
- The nature of the applicable compliance requirements
- The services provided by the entity and how they are affected by external factors
- The level of oversight by the grantor or pass-through entity
- How management addresses findings

.A14 Performing risk assessment procedures to obtain an understanding of the entity's internal control over compliance includes an evaluation of the design of controls and whether the controls have been implemented. Internal control consists of the following five interrelated components: the control environment, the entity's risk assessment, information and communication systems, control activities, and monitoring.^[12] Section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, contains a detailed discussion of these components.¹³ [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A15 The auditor's procedures described in paragraph .16, related to understanding how management has responded to findings and recommendations that could have a material effect on the entity's compliance with the applicable compliance requirements, are performed to assist the auditor in understanding whether management responded appropriately to such findings. Examples of external monitoring include regulatory reviews, program reviews by government agencies or pass-through entities, and grantor reviews. Examples of internal monitoring include reports prepared by the internal audit function and internal quality assessments.

^[12] [Footnote deleted, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

¹³ Paragraphs .15–.25 and appendix B, "Internal Control Components," of section 315. [Footnote added to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

Assessing the Risks of Material Noncompliance (Ref: par. .17)

.A16 Factors the auditor may consider in assessing the risks of material noncompliance are as follows:

- The complexity of the applicable compliance requirements
- The susceptibility of the applicable compliance requirements to noncompliance
- The length of time the entity has been subject to the applicable compliance requirements
- The auditor's observations about how the entity has complied with the applicable compliance requirements in prior years
- The potential effect on the entity of noncompliance with the applicable compliance requirements
- The degree of judgment involved in adhering to the compliance requirements
- The auditor's assessment of the risks of material misstatement in the financial statement audit

.A17 In assessing the risks of material noncompliance, the auditor may evaluate inherent risk of noncompliance and control risk of noncompliance individually or in combination.

.A18 Examples of situations in which there may be a risk of material non-compliance that is pervasive to the entity's noncompliance are as follows:

- An entity that is experiencing financial difficulty and for which there is an increased risk that grant funds will be diverted for unauthorized purposes
- An entity that has a history of poor recordkeeping for its government programs

Performing Further Audit Procedures in Response to Assessed Risks

.A19 Section 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*, provides guidance that may be adapted when developing an overall response to the risks of material noncompliance.¹⁴ (Ref: par. .18) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A20 A compliance audit includes designing procedures to detect both intentional and unintentional material noncompliance. The auditor can obtain reasonable, but not absolute, assurance about the entity's compliance because of factors such as the need for judgment, the use of sampling, the inherent limitations of internal control over compliance with applicable compliance requirements, and the fact that much of the evidence available to the auditor is persuasive rather than conclusive in nature. Also, procedures that are effective for detecting noncompliance that is unintentional may be ineffective for detecting noncompliance that is intentional and concealed through collusion between

¹⁴ Paragraphs .A1–.A3 of section 330. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

entity personnel and a third party or among management or employees of the entity. Therefore, the subsequent discovery that material noncompliance with applicable compliance requirements exists does not, in and of itself, evidence inadequate planning, performance, or judgment on the part of the auditor. (Ref: par. .19)

.A21 An auditor may decide to use audit sampling to obtain sufficient appropriate audit evidence in a compliance audit. Section 530, *Audit Sampling*, discusses the factors to be considered in planning, designing, and evaluating audit samples, including sampling for tests of controls. In addition, the AICPA Audit Guide Government Auditing Standards *and Circular A-133 Audits* contains guidance on sampling in the context of a compliance audit. (Ref: par. .19) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A22 To test for compliance with applicable laws and regulations, tests of details (including tests of transactions) may be performed in the following areas:

- Grant disbursements or expenditures
- Eligibility files
- Cost allocation plans
- Periodic reports filed with grantor agencies (Ref: par. .19)

.A23 The use of analytical procedures to gather substantive evidence is generally less effective in a compliance audit than it is in a financial statement audit. However, substantive analytical procedures may contribute some evidence when performed in addition to tests of transactions and other auditing procedures necessary to provide the auditor with sufficient appropriate audit evidence. (Ref: par. .19)

.A24 Section 330 provides guidance related to designing and performing further audit procedures in response to the assessed risks of material noncompliance.¹⁵ Section 330, which also addresses the use of audit evidence about the operating effectiveness of controls obtained in prior audits, are not applicable to a compliance audit.¹⁶ (Ref: par. .20) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A25 Some governmental audit requirements, for example, OMB Circular A-133, require tests of the operating effectiveness of controls identified as likely to be effective, even if the auditor believes that such testing would be inefficient. (Ref: par. .20)

Supplementary Audit Requirements

.A26 Examples of supplementary audit requirements are the requirements in OMB Circular A-133 for the auditor to

- perform specified procedures to identify major programs.

¹⁵ Paragraphs .06–.12, .15–.18, and .22–.25 of section 330. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

¹⁶ Paragraph .13–.14 of section 330. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

- follow up on prior audit findings and perform procedures to assess the reasonableness of the summary schedule of prior audit findings. (Ref: par. .21)

.A27 When there is conflicting guidance, the auditor may decide to consult with the government agency responsible for establishing audit guidance or that provides the funding. (Ref: par. .22)

Written Representations

.A28 In some cases, management may include qualifying language in the written representations to the effect that representations are made to the best of management's knowledge and belief. However, such qualifying language is not appropriate for the representations in paragraph .23*a-b* and .23*l*. (Ref: par. .23)

Subsequent Events

.A29 Two types of subsequent events may occur. The first type consists of events that provide additional evidence with respect to conditions that existed at the end of the reporting period that affect the entity's compliance during the reporting period. The second type consists of events of noncompliance that did not exist at the end of the reporting period but arose subsequent to the reporting period. (Ref: par. .25)

.A30 An example of a matter of noncompliance that may occur subsequent to the period being audited but before the report release date that may warrant disclosure to prevent report users from being misled is the discovery of noncompliance in the subsequent period of such magnitude that it caused the grantor to stop funding the program. (Ref: par. .27)

Evaluating the Sufficiency and Appropriateness of the Audit Evidence and Forming an Opinion (Ref: par. .28–.29)

.A31 In determining whether an entity has materially complied with the applicable compliance requirements, the auditor may consider the following factors:

- a. The frequency of noncompliance with the applicable compliance requirements identified during the compliance audit
- b. The nature of the noncompliance with the applicable compliance requirements identified
- c. The adequacy of the entity's system for monitoring compliance with the applicable compliance requirements and the possible effect of any noncompliance on the entity
- d. Whether any identified noncompliance with the applicable compliance requirements resulted in likely questioned costs that are material to the government program

.A32 The auditor's evaluation of whether the entity materially complied with applicable compliance requirements includes consideration of noncompliance identified by the auditor, regardless of whether the entity corrected the noncompliance after the auditor brought it to management's attention.

Reporting

.A33 [Paragraph deleted by the issuance of SAS No. 125, December 2011.]^[17]

.A34 If the report is a matter of public record or available for public inspection, removing personally identifiable information in the compliance audit report and findings of noncompliance will reduce the likelihood of sensitive information being disclosed. (Ref: par. .30*l*-*m* and .33)

.A35 When the auditor communicates significant deficiencies or material weaknesses in internal control over compliance to management and those charged with governance, *Government Auditing Standards* also requires the auditor to obtain a response from the responsible officials, preferably in writing, concerning their views on the findings, conclusions, and recommendations included in the auditor's report on internal control over compliance and include a copy of any written response in the auditor's report.¹⁸ (Ref: par. .36)

.A36 If such a written response is included in a document containing the auditor's written communication to management and those charged with governance concerning identified significant deficiencies or material weaknesses in internal control over compliance, the auditor may add a paragraph to the auditor's written communication disclaiming an opinion on such information. Following is an example of such a paragraph: (Ref: par. .36)

ABC Agency's written response to the significant deficiencies [*and material weaknesses*] in internal control over compliance identified in our compliance audit was not subjected to the auditing procedures applied in the compliance audit of ABC Agency's compliance and, accordingly, we express no opinion on it.

.A37 If the auditor is submitting a reworded form, schedule, or report or appropriately worded separate report, the auditor may include a separate communication to the agency explaining why the auditor's report was modified. (Ref: par. .38)

Documentation (Ref: par. .12 and .39–.42)

.A38 The auditor is not expected to prepare specific documentation of how the auditor adapted and applied each of the applicable AU-C sections to the objectives of a compliance audit. The documentation of the audit strategy, audit plan, and work performed cumulatively demonstrate whether the auditor has complied with the requirement in paragraph .12. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Reissuance of the Compliance Report (Ref: par. .43)

.A39 The following are examples of situations in which the auditor might reissue the compliance report:

^[17] [Footnote renumbered and revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered and deleted by the issuance of SAS No. 125, December 2011.]

¹⁸ See the "Reporting Views of Responsibilities Officials" section of *Government Auditing Standards*. [Footnote renumbered and revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

- A quality control review performed by a governmental agency indicates that the auditor did not test an applicable compliance requirement.
- The discovery subsequent to the date of the compliance report that the entity had another government program that was required to be tested.

.A40 An example of an auditor-prepared document required by a governmental audit requirement that is incorporated by reference in the auditor's report is the schedule of findings and questioned costs in a compliance audit under OMB Circular A-133.

.A41

Appendix—AU-C Sections That Are Not Applicable to Compliance Audits^[1]

The following AU-C sections and individually enumerated requirement paragraphs of specific AU-C sections are not applicable to a compliance audit performed under this section either because (a) they are not relevant to a compliance audit environment, (b) the procedures and guidance would not contribute to meeting the objectives of a compliance audit, or (c) the subject matter is specifically covered in this section. Where the table in this appendix specifies individual requirement paragraphs rather than an entire AU-C section, the application and other explanatory material paragraphs related to such requirement paragraphs also do not apply. However, an auditor may apply these AU-C sections and paragraphs if the auditor believes doing so will provide appropriate audit evidence in the specific circumstances to support the auditor's opinion on compliance.

<i>AU-C Section</i>	<i>Paragraphs Not Applicable to Compliance Audits</i>
210, <i>Terms of Engagement</i>	Paragraphs .06a and .08a
240, <i>Consideration of Fraud in a Financial Statement Audit</i>	Paragraphs .26 and .32b
250, <i>Consideration of Laws and Regulations in an Audit of Financial Statements</i>	All
315, <i>Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement</i>	Paragraphs .12c, .26–.27, and .33c
330, <i>Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained</i>	Paragraphs .13–.14, .19–.21, .26, and .31–.32
501, <i>Audit Evidence—Specific Considerations for Selected Items</i>	All
505, <i>External Confirmations</i>	All
510, <i>Opening Balances—Initial Audit Engagements, Including Reaudit Engagements</i>	Paragraphs .06, .08–.13, and .15–.17
540, <i>Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures</i>	All
550, <i>Related Parties</i>	All
560, <i>Subsequent Events and Subsequently Discovered Facts</i>	Paragraphs .09–.11 and .19–.20
570, <i>The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern</i>	All

Exhibit—Illustrative Combined Report on Compliance With Applicable Requirements and Internal Control Over Compliance—(Unmodified Opinion on Compliance; No Material Weaknesses or Significant Deficiencies in Internal Control Over Compliance Identified)

The following is an illustrative combined report on compliance with applicable requirements and internal control over compliance that contains the elements in paragraphs .30–.31. This illustrative report contains an unmodified opinion on compliance with no material weaknesses or significant deficiencies in internal control over compliance identified. The AICPA Audit Guide *Government Auditing Standards and Circular A-133 Audits* contains illustrative language for other types of reports, including reports containing qualified or adverse opinions on compliance with either material weaknesses in internal control over compliance, significant deficiencies in internal control over compliance, or both identified.

Independent Auditor’s Report

[Addressee]

Compliance

We have audited Example Entity's compliance with the [identify the applicable compliance requirements or refer to the document that describes the applicable compliance requirements] applicable to Example Entity's [identify the government program(s) audited or refer to a separate schedule that identifies the program(s)] for the year ended June 30, 20X1.

Management’s Responsibility

Compliance with the requirements referred to above is the responsibility of Example Entity's management.

Auditor’s Responsibility

Our responsibility is to express an opinion on Example Entity's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*¹ issued by the Comptroller General of the United States; and [insert the name of the governmental audit requirement or program-specific audit guide]. Those standards and [insert the name of the governmental audit requirement or program-specific audit guide] require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on [identify the government program(s) audited or refer to a separate schedule that identifies the program(s)] occurred. An audit includes examining, on a test basis, evidence about Example Entity's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our

¹ The standards applicable to financial audits are in chapters 1–5 of *Government Auditing Standards*.

audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Example Entity's compliance with those requirements.

Opinion

In our opinion, Example Entity complied, in all material respects, with the compliance requirements referred to above that are applicable to *[identify the government program(s) audited]* for the year ended June 30, 20X1.

Internal Control Over Compliance

Management of Example Entity is responsible for establishing and maintaining effective internal control over compliance with the compliance requirements referred to above. In planning and performing our audit, we considered Example Entity's internal control over compliance to determine the auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Example Entity's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A *material weakness* in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses in internal control over compliance. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the *[insert the name of the governmental audit requirement or program-specific audit guide]*. Accordingly, this report is not suitable for any other purpose.

AU-C Appendix A

Historical Background

In 1917, the American Institute of Certified Public Accountants, then known as the American Institute of Accountants, at the request of the Federal Trade Commission, prepared "a memorandum on balance-sheet audits," which the Federal Trade Commission approved and transmitted to the Federal Reserve Board.

The Federal Reserve Board, after giving the memorandum its provisional endorsement, published it in the *Federal Reserve Bulletin* of April 1917; reprints were widely disseminated for the consideration of "banks, bankers, banking associations; merchants, manufacturers, and associations of manufacturers; auditors, accountants, and associations of accountants" in pamphlet form with the title of "Uniform Accounting: a Tentative Proposal Submitted by the Federal Reserve Board."

In 1918, it was reissued under the same sponsorship, with a new title "Approved Methods for the Preparation of Balance-Sheet Statements." There was practically no change from 1917 except that, as indicated by the respective titles and corresponding change in the preface, instead of the objective of "a uniform system of accounting to be adopted by manufacturing and merchandising concerns," the new objective was "the preparation of balance-sheet statements" for the same businesses.

In 1929, a special committee of the Institute undertook revision of the earlier pamphlet in the light of the experience of the past decade; again under the auspices of the Federal Reserve Board, the revised pamphlet was issued in 1929 as "Verification of Financial Statements."

The preface of the 1929 pamphlet spoke of its predecessors as having been criticized, on the one hand, by some accountants for being "more comprehensive than their conception of the so-called balance-sheet audit," and, on the other hand, by other accountants because "the procedure would not bring out all the desired information." This recognition of opposing views evidenced the growing realization of the impracticability of uniform procedures to fit the variety of situations encountered in practice. Of significance is the appearance in the opening paragraph of "General Instructions" in the 1929 publication of the statement:

The extent of the verification will be determined by the conditions in each concern. In some cases, the auditor may find it necessary to verify a substantial portion or all of the transactions recorded upon the books. In others, where the system of internal check is good, tests only may suffice. The responsibility for the extent of the work required must be assumed by the auditor.

Between 1932 and 1934, there was correspondence, dealing with both accounting and auditing matters, between the Institute's special committee on cooperation with stock exchanges and the committee on stock list of the New York Stock Exchange. The views expressed were an important development in the recognition of the position of accountancy in finance and business. The series of letters was published in 1934 under the title *Audits of Corporate Accounts*.

In 1936, a committee of the Institute prepared and published a further revision of the earlier pamphlets under the title of "Examination of Financial Statements by Independent Public Accountants." The Institute availed itself of the views of persons outside the ranks of the profession whose opinions would be helpful, but the authority behind and responsibility for the publication of the pamphlet rested wholly with the Institute as the authoritative representative of a profession that had by that time become well established in the business community.

In the 1936 revision, aside from the very briefly noted "Modifications of Program for Larger or Smaller Companies," the detailed procedures were restrictively stated to be an "outline of examination of financial statements of a small or moderate size company." Moreover, the nature and extent of such examinations were based on the purpose of the examination, the required detail to be reported on, the type of business, and, most important of all, the system of internal control; variations in the extent of the examination were specifically related to "the size of the organization and the personnel employed" and were said to be "essentially a matter of judgment which must be exercised by the accountant."

It is possible from the foregoing narrative to trace the development of the profession's view of an audit based on the experience of three decades. The succession of titles is illustrative. The earliest ambition for "uniform accounting" was quickly realized to be unattainable, and the same listed procedures were related instead to "balance-sheet statements." Then, with the gradually greater emphasis on periodic earnings, the earlier restrictive consideration of the balance sheet was superseded in the 1929 title, "Verification of Financial Statements," by accorded the income statement at least equal status. When in turn the 1936 revision was undertaken, there was a growing realization that, with the complexity of modern business and the need of the independent auditor to rely on testing, such a word as "verification" was not an accurate portrayal of the independent auditor's function. Accordingly, the bulletin of that year was stated to cover an "examination" of financial statements.

Statements on Auditing Procedure

The Committee on Auditing Procedure had its beginning on January 30, 1939, when the executive committee of the Institute authorized the appointment of a small committee "to examine into auditing procedure and other related questions in the light of recent public discussion."

On May 9 of that year, the report "Extensions of Auditing Procedure" of this special committee was adopted by the Council of the Institute and authority given for its publication and distribution, and in the same year the bylaws were amended to create a standing Committee on Auditing Procedure.

In 1941, the executive committee authorized the issuance to Institute members, in pamphlet form, of the Statements on Auditing Procedure, prepared by the Committee on Auditing Procedure, previously published only in *The Journal of Accountancy*.

The Statements on Auditing Procedure were designed to guide the independent auditor in the exercise of his judgment in the application of auditing procedures. In no sense were they intended to take the place of auditing textbooks; by their very nature textbooks must deal in a general way with the description of procedures and refinement of detail rather than the variety of circumstances encountered in practice that require the independent auditor to exercise his judgment.

Largely to meet this need, the Institute began the series of Statements on Auditing Procedure. The first of these presented the report of the original special committee, as modified and approved, at the Institute's annual meeting on September 19, 1939, and issued under the title of "Extensions of Auditing Procedure."

Statement No. 1 presented conclusions drawn from the experience and tradition of the profession which largely furnished the foundation for the Committee's present structural outline of auditing standards; the other Statements on Auditing Procedure appropriately fit into that structural outline.

The "Codification of Statements on Auditing Procedure" was issued by the Committee on Auditing Procedure in 1951 to consolidate the features of the first 24 pronouncements, which were of continuing usefulness.

When the Securities and Exchange Commission (SEC) adopted the requirement that a representation on compliance with generally accepted auditing standards be included in the independent auditor's report on financial statements filed with the SEC, it became apparent that a pronouncement was needed to define these standards. Accordingly, the Committee on Auditing Procedure undertook a special study of auditing standards (as distinguished from auditing procedures) and submitted a report that was published in October 1947 under the title "Tentative Statement of Auditing Standards—Their Generally Accepted Significance and Scope." The recommendations of this brochure ceased to be tentative when, at the September 1948 meeting, the membership of the Institute approved the summarized statement of auditing standards.

In 1954 the tentative brochure was replaced by the booklet *Generally Accepted Auditing Standards—Their Significance and Scope*, which was issued as a special report of the Committee on Auditing Procedure. This pronouncement also gave recognition to the approval of Statement on Auditing Procedure No. 23 (Revised), *Clarification of Accountant's Report When Opinion Is Omitted* (1949) and the issuance of the codification (1951).

Statement on Auditing Procedure No. 33 was issued in 1963 as a consolidation of, and a replacement for, the following pronouncements of the Committee on Auditing Procedure: *Internal Control* (1949), *Generally Accepted Auditing Standards* (1954), *Codification of Statements on Auditing Procedure* (1951), and Statements on Auditing Procedure Nos. 25–32, which were issued between 1951 and 1963. Statement No. 33 was a codification of earlier committee pronouncements that the committee believed to be of continuing interest to the independent auditor.

Statements on Auditing Standards

After issuance of Statement on Auditing Procedure No. 33, 21 additional Statements on Auditing Procedure, Nos. 34–54, were issued by the Committee on Auditing Procedure. In November 1972, these pronouncements were codified in Statement on Auditing Standards (SAS) No. 1, *Codification of Auditing Standards and Procedures*. Also, in 1972, the name of the committee was changed to the Auditing Standards Executive Committee to recognize its role as the AICPA's senior technical committee charged with interpreting generally accepted auditing standards.

The Auditing Standards Executive Committee issued 22 additional statements through No. 23. These statements were incorporated in this publication, which provides a continuous codification of SASs.

Creation of the Auditing Standards Board

As a result of the recommendations of the Commission on Auditors' Responsibilities, an independent study group appointed by the AICPA, a special committee was formed to study the structure of the AICPA's auditing standard-setting activity. In May 1978, the AICPA Council adopted the recommendations of that committee to restructure the Committee. Accordingly, in October 1978 the Auditing Standards Board (ASB) was formed as the successor to prior senior technical committees on auditing matters. The ASB was given the following charge:

The AICPA Auditing Standards Board shall be responsible for the promulgation of auditing standards and procedures to be observed by members of the AICPA in accordance with the Institute's rules of conduct.

The board shall be alert to new opportunities for auditors to serve the public, both by the assumption of new responsibilities and by improved ways of meeting old ones, and shall as expeditiously as possible develop standards and procedures that will enable the auditor to assume those responsibilities.

Auditing standards and procedures promulgated by the board shall—

- a. Define the nature and extent of the auditor's responsibilities.
- b. Provide guidance to the auditor in carrying out his duties, enabling him to express an opinion on the reliability of the representations on which he is reporting.
- c. Make special provision, where appropriate, to meet the needs of small enterprises.
- d. Have regard to the costs which they impose on society in relation to the benefits reasonably expected to be derived from the audit function.

The Auditing Standards Board shall provide auditors with all possible guidance in the implementation of its pronouncements, by means of interpretations of its statements, by the issuance of guidelines, and by any other means available to it.

Changes Created by Sarbanes-Oxley Act of 2002

AICPA members who perform auditing and other related professional services have been required to comply with SASs promulgated by the AICPA ASB. These standards constitute what is known as generally accepted auditing standards (GAAS). Prior to Sarbanes-Oxley, the ASB's auditing standards have applied to audits of all entities. However, as a result of the passage of the Sarbanes-Oxley Act of 2002, auditing rules and related professional practice standards to be used in the performance of and reporting on audits of the financial statements of public companies (or issuers) are to be established by the Public Company Accounting Oversight Board (PCAOB). Accordingly, public accounting firms auditing issuers are now required to be registered with the PCAOB and to adhere to all PCAOB rules and standards in those audits. In 2003, the PCAOB adopted the then-existing Audit and Attest Standards as its interim auditing standards.

The preparation and issuance of audit reports for those entities not subject to the Sarbanes-Oxley Act or the rules of the SEC (hereinafter referred to as nonissuers) continue to be governed by GAAS promulgated by the ASB.

The Reconstituted ASB

In February 2004, the AICPA's Board of Directors unanimously recommended that the AICPA's Governing Council take the following action at its meeting in May 2004:

- Designate the PCAOB as a body with the authority to promulgate auditing and related attestation standards, quality control, ethics, independence, and other standards relating to the preparation and issuance of audit reports for issuers.
- Amend the ASB's current designation to recognize the ASB as a body with the authority to promulgate auditing, attestation, and quality control standards relating to the preparation and issuance of audit reports for non-issuers only.

As a result of this action, the ASB was reconstituted and its jurisdiction amended by AICPA Council to recognize the ASB as a body with the authority to promulgate auditing, attestation and quality control standards relating to the preparation and issuance of audit and attestation reports for nonissuers.

U.S. Auditing Standards—AICPA (Clarified)

In October 2011, the ASB issued SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, which was the culmination of a multi-year Clarity Project to clarify the SASs and converge them with the International Standards on Auditing. Beginning with SAS No. 122, all new SASs are now included in the section *U.S. Auditing Standards—AICPA (Clarified)*. SAS No. 122 is effective for audits of financial statements for periods ending on or after December 15, 2012. Refer to individual AU-C sections for specific effective date language.

ISA 810	Engagements to Report on Summary Financial Statements

This analysis was prepared by the AICPA Audit and Attest Standards staff to highlight substantive differences between the Statements on Auditing Standards and International Standards on Auditing, and the rationales therefore. This analysis is not authoritative and is prepared for informational purposes only. It has not been acted on, or reviewed by, the Auditing Standards Board.

Statements on Auditing Standards (SASs) are issued by the Auditing Standards Board (ASB), the senior committee of the AICPA designated to issue pronouncements on auditing matter for nonissuers.¹ Rule 202, *Compliance With Standards* (ET sec. 202 par. .01), of the AICPA Code of Professional Conduct

* In July 2012, Statement on Auditing Standards (SAS) No. 126, *The Auditor's Consideration of the Entity's Ability to Continue as a Going Concern* (sec. 570), was issued. The Auditing Standards Board (ASB) moved forward with the clarity redraft of AU section 341, *The Auditor's Consideration of the Entity's Ability to Continue as a Going Concern* [SAS No. 59, as amended], in order to be consistent with the format of the other clarified SASs that were recently issued as SAS Nos. 117–120 and 122–125. However, the ASB has decided to delay convergence with International Standard on Auditing 570, *Going Concern*, pending the Financial Accounting Standards Board's anticipated development of accounting guidance addressing going concern.

¹ The term *issuer* means an issuer (as defined in Section 3 of the Securities Exchange Act of 1934 (15 U.S.C. 78c)), the securities of which are registered under Section 12 of that act (15 U.S.C. 78l), or that is required to file reports under Section 15(d) (15 U.S.C. 78o(d)), or that files or has filed a registration statement that has not yet become effective under the Securities Act of 1933 (15 U.S.C. 77a et seq.), and that it has not withdrawn. The term *nonissuer* refers to any entity not subject to the Sarbanes-Oxley Act or the rules of the Securities and Exchange Commission.

requires an AICPA member who performs an audit of a nonissuer to comply with standards promulgated by the ASB.

In 2007, the ASB began a project to clarify its standards to make them easier to read, understand, and apply, and to converge its standards with those developed by the International Auditing and Assurance Standards Board (IAASB) of the International Federation of Accountants (IFAC). Accordingly, the ASB established clarity drafting conventions and has revised all its SASs in accordance with those conventions, using corresponding International Standards on Auditing (ISAs) as a base. Each clarified SAS differs from its corresponding ISA only where the ASB believes compelling reasons exist for the differences. As described in this appendix, nearly all ISA requirements are also requirements of auditing standards generally accepted in the United States of America (GAAS). However, GAAS contain additional requirements that address issues specific to the United States of America or have been retained from previous SASs.

An AICPA member practicing in the United States of America may be engaged to audit the financial statements of a nonissuer in accordance with the ISAs. In those circumstances where the auditor's report states that the audit was conducted in accordance with the ISAs, the U.S. auditor should comply with both the ISAs and, as required by the AICPA Code of Professional Conduct, GAAS. An engagement of this nature is normally conducted by performing an audit in accordance with GAAS plus performing any additional procedures required by the ISAs.

The purpose of this appendix is to assist the U.S. auditor in planning and performing an engagement in accordance with the ISAs. This document provides a brief description of how each ISA differs from the comparable U.S. standard. However, to fully understand how the ISA might affect the nature, timing, and extent of the procedures performed in an engagement in accordance with GAAS, the auditor should consider the ISAs in their entirety by considering the standards together with the related guidance included in the ISAs. In performing an audit in accordance with the ISAs, the auditor also needs to comply with IFAC's Code of Ethics.

This analysis compares the ISAs included in the 2010 edition of the *Handbook of International Quality Control, Auditing, Review, Other Assurance, and Related Services Pronouncements*, to the AICPA's *Professional Standards*. References to GAAS are made to the relevant AU-C sections. This analysis describes the differences in terms of

- a. differences in language,
- b. requirements in the ISAs not in GAAS,
- c. requirements in GAAS not in the ISAs,
- d. differences between requirements, and
- e. the placement of certain requirements within GAAS.

General

In converging with the ISAs, the ASB has made various changes to the language of the ISAs throughout the SASs. Such changes have been made to use terms applicable in the United States and to make the SASs easier to read and apply in the United States. The ASB believes that such changes do not create differences

between the application of the ISAs and the application of GAAS. Selected changes are described in the analysis that follows.

ISA 200, Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with International Standards on Auditing, Compared to Section 200, Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards

Requirements in the ISAs Not in GAAS

The ISAs provide for reporting on financial statements that are prepared in accordance with fair presentation financial reporting frameworks and compliance financial reporting frameworks. In the ISAs, compliance frameworks do not necessarily require fair presentation. GAAS address reporting on financial statements that are prepared in accordance with fair presentation frameworks only, because the ASB believes that fair presentation frameworks are the only financial reporting frameworks used in the United States.

Requirements in GAAS Not in the ISAs

GAAS, as described in paragraph .25 of section 200, contain two categories of professional requirements: unconditional requirements and presumptively mandatory requirements. Paragraph .25 of section 200 describes the auditor's obligation to comply with (1) an unconditional requirement in all cases where such requirement is relevant, and (2) a presumptively mandatory requirement in all cases where such a requirement is relevant except in rare circumstances. The ISAs contain only one category of professional requirements, with which paragraphs 22–23 of ISA 200 require the auditor to comply when such requirements are relevant except in rare circumstances. The ASB retained two categories of professional requirements so as not to create unnecessary differences with the application of the auditing standards promulgated by the Public Company Accounting Oversight Board (PCAOB), which contain the same two categories of professional requirements as described in section 200.

Paragraphs .27–.28 of section 200 contain requirements relating to interpretive publications and other auditing publications. The ISAs do not address interpretive publications or other auditing publications.

ISA 210, Agreeing the Terms of Audit Engagements, Compared to Section 210, Terms of Engagement

Requirements in the ISAs Not in GAAS

Paragraphs 11–12 of ISA 210 contain requirements relating to situations when law or regulation prescribes management's responsibilities. Paragraph 18 of ISA 210 contains requirements relating to situations when law or regulation supplements financial reporting standards established by an authorized or recognized standards-setting organization. The ASB believes that these situations are not applicable to nonissuers in the United States and, accordingly, such requirements are not included in GAAS.

Requirements in GAAS Not in the ISAs

Paragraphs .11–.12 of section 210 address the auditor's communications with predecessor auditors in initial audit or reaudit engagements. ISA 210 does not contain these requirements. The ASB believes these requirements and related application material are appropriate for inclusion in GAAS.

Paragraph 13 of ISA 210 requires that for recurring audits, the auditor should assess whether there is a need to remind the entity of the existing terms of the engagement. Paragraph .13 of section 210 requires the auditor to remind the entity of the existing terms of the engagement and to document the reminder. The ASB believes that it is important to review the terms of the engagement with the entity each year.

Placement of Certain Requirements Within GAAS

Paragraphs 19–20 of ISA 210 contain requirements relating to situations when the financial reporting framework is prescribed by law or regulation. These requirements are addressed in section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*. The different placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

ISA 220, Quality Control for an Audit of Financial Statements, Compared to Section 220, Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards

Requirements in the ISAs Not in GAAS

Paragraph 21 of ISA 220 contains requirements relating to audits of listed entities. Such requirements are not applicable to audits of nonissuers in the United States and, accordingly, such requirements are not included in GAAS.

Differences Between Requirements

Paragraph .21 of section 220 requires that when an engagement quality control review is performed, the engagement quality control review be completed before the engagement partner releases the auditor's report. Paragraph 19 of ISA 220 requires that the quality control review be completed before the engagement partner dates the auditor's report. The ASB believes that an engagement quality control review is an independent review of the engagement team's significant judgments, including the date selected by the engagement team to date the report. As noted in the application material to section 220, when the engagement quality control review results in additional procedures being performed, the date of the report would be changed.

ISA 230, Audit Documentation, Compared to Section 230, Audit Documentation

Requirements in GAAS Not in the ISAs

Paragraph .10 of section 230 requires the auditor to include abstracts or copies of significant contracts or agreements in documentation of auditing procedures related to inspection of those significant contracts or agreements. ISA 230 does not require the auditor to include abstracts or copies of the entity's records. Paragraph A3 of ISA 230 (which is application material relating to the requirement in paragraph 8 of ISA 230, which corresponds to paragraph .08 in section 230) states, "the auditor may include abstracts or copies of the entity's records (for example, significant and specific contracts and agreements) as part of audit documentation."

When performing auditing procedures related to inspection of significant contracts or agreements, the ASB believes that, in the context of the preparation of audit documentation that is sufficient to enable an experienced auditor to understand the audit evidence obtained, it is important to include abstracts or copies of such contracts or agreements. Further, the PCAOB standards include a requirement that documentation of auditing procedures related to the inspection of significant contracts or agreements should include abstracts or copies of the documents.² The ASB does not want to create a difference with PCAOB standards in this regard.

Differences Between Requirements

Paragraph 14 of ISA 230 requires the auditor to assemble the audit documentation in an audit file and complete the administrative process of assembling the final audit file on a timely basis after the date of the auditor's report, and the related application and other explanatory material indicates that an appropriate time limit within which to complete the assembly of the final audit file is ordinarily not more than 60 days after the date of the auditor's report. Paragraph .16 of section 230 requires the auditor to assemble the audit documentation in an audit file and complete the administrative process of assembling the final audit file on a timely basis, no later than 60 days following the report release date. The auditor is required by paragraph .15 of section 230 to document the report release date in the audit documentation.

Paragraph 15 of ISA 230 requires that after the assembly of the final audit file has been completed, the auditor not delete or discard audit documentation of any nature before the end of its retention period. Paragraph A23 of ISA 230 states, "the retention period for audit engagements is ordinarily no shorter than five years from the date of the auditor's report, or, if later, the date of the group auditor's report." Paragraph .17 of section 230 requires that after the documentation completion date, the auditor not delete or discard audit documentation before the end of the specified retention period, and goes on to state that "such retention period, however, should not be shorter than five years from the report release date."

The ASB believes that it is appropriate to be consistent with the standards of the PCAOB in relation to the date from which the documentation completion

² Paragraph 10 of PCAOB Auditing Standard No. 3, *Audit Documentation* (AICPA, *PCAOB Standards and Related Rules*, Auditing Standards).

and retention periods are measured.³ Notwithstanding that the documentation completion period is measured from the same date in GAAS and in the PCAOB standard, the ASB continues to believe that a 60-day period is appropriate for GAAS as opposed to the 45-day period in the PCAOB standard.

ISA 240, *The Auditor's Responsibilities Relating to Fraud in an Audit of Financial Statements*, Compared to Section 240, *Consideration of Fraud in a Financial Statement Audit*

Differences in Language

Paragraph 11 of ISA 240 and paragraph .11 of section 240 define *fraud*. However, the definition of fraud in paragraph .11 of section 240 was revised by changing the words "to obtain illegal or unjust advantage" to "results in a misstatement in financial statements that are the subject of an audit." The ASB believes that (a) the definition in ISA 240 is too broad and could inappropriately expose auditors to additional liability in the United States, and (b) the meaning of *unjust* could be interpreted very broadly and subjectively in its application and could imply a scope well beyond the intent of the standard. The ASB believes that the change in the definition does not create significant differences between the application of ISA 240 and the application of section 240.

Requirements in GAAS Not in the ISAs

Section 240 contains requirements, consistent with requirements of AU section 316, *Consideration of Fraud in a Financial Statement Audit* [SAS No. 99, as amended], that have been expanded from the requirements of ISA 240, or elevated from application material in ISA 240, as follows:

- The requirement in paragraph 14 of ISA 240 for the auditor to investigate inconsistent responses to auditor inquiries of management or those charged with governance has been expanded in paragraph .14 of section 240 to also include responses that are otherwise unsatisfactory (for example, vague or implausible responses).
- The requirement in paragraph 15 of ISA 240 that requires members of the engagement team to discuss the susceptibility of the entity's financial statements to material misstatements has been expanded in paragraph .15 of section 240 to include additional discussion items from application and other explanatory material in ISA 240 to requirements in section 240. These include a required brainstorming session focused very specifically on, among other things, internal and external fraud factors and the possibility of management override of controls. In addition, section 240 further clarifies the requirement for participation of key engagement team members and the engagement partner in the discussion and brainstorming sessions. Lastly, section 240 requires appropriate communication throughout the audit among the engagement team members. Several of these discussion items have been elevated from paragraphs A10–A11 of ISA 240.

³ Paragraphs 14–15 of PCAOB Auditing Standard No. 3.

- The requirement in paragraph 44 of ISA 240 to document the significant decisions reached during the discussion among the engagement team regarding fraud-related matters has been expanded in paragraph .43 of section 240 to also require documenting how and when the discussion occurred and the audit team members who participated.
- Procedures elevated from paragraph A18 of ISA 240 to requirements in paragraph .19 of section 240, related to making inquiries of internal audit as part of performing risk assessment procedures, include determining (a) whether internal audit has performed any procedures to identify or detect fraud during the year, and (b) whether management has satisfactorily responded to any findings resulting from these inquiries.
- The requirement in paragraph 34 of ISA 240 to evaluate whether the results of analytical procedures at or near the end of the reporting period indicate a previously unrecognized risk of material misstatement due to fraud has been expanded in paragraph .34 of section 240 to include the accumulated results of auditing procedures, including analytical procedures performed as substantive tests or when forming an overall conclusion. Section 240 also specifically requires performance of analytical procedures relating to revenue accounts through the end of the reporting period, in light of the generally higher risk of financial statement fraud involving revenue.
- The requirements in paragraph 32(a) of ISA 240 address designing and performing auditing procedures to test the appropriateness of journal entries. In addition to essential guidance about addressing the risk of possible management override of controls, included in paragraph .32a of section 240 are requirements to
 - obtain an understanding of the entity's financial reporting process and controls over journal entries and other adjustments, and determine whether such controls are suitably designed and have been implemented.
 - consider fraud risk factors, the nature and complexity of accounts, and entries processed outside the normal course of business, elevated from the application and other explanatory material contained in paragraph A43 of ISA 240 in order to emphasize the importance of these considerations.
 - include identification and testing of specific journal entries regardless of controls.
- The requirement for the auditor to design and perform auditing procedures to review accounting estimates for biases and evaluate whether the circumstances producing the bias, if any, represent a risk of material misstatement due to fraud, in paragraph 32(b) of ISA 240, has been expanded in paragraph .32b of section 240 to include those estimates that are based on highly sensitive assumptions.

ISA 250, *Consideration of Laws and Regulations in an Audit of Financial Statements*, Compared to Section 250, *Consideration of Laws and Regulations in an Audit of Financial Statements*

Differences in Language

Changes to the language of section 250 include:

- In paragraphs .10*a* and .13, changing the phrase "compliance with the provisions of those laws and regulations generally recognized to have a direct and material effect on the determination of material amounts and disclosures in the financial statements" to the phrase "material amounts and disclosures in the financial statements that are determined by the provisions of those laws and regulations generally recognized to have a direct effect on their determination." This change was made to address the ASB's concerns that the language in ISA 250 expanded the auditor's responsibility to encompass all aspects of those laws and regulations described in paragraph .06*a* of section 250, as opposed to focusing on the amounts and disclosures included in the financial statements. The ASB has discussed this issue with the IAASB, and the wording in section 250 reflects the intent of ISA 250. The IAASB made subsequent changes to the application material in ISA 250 to make this clear.
- In paragraphs .10*b* and .14, changing "to help identify" to "that may identify." The ASB believes that the wording of section 250 better conveys the intent of ISA 250.
- In paragraph .18, adding the phrase "(at a level above those involved with the suspected noncompliance, if possible)."

Such changes have been made to make section 250 easier to read and apply. The ASB believes that such changes do not create differences between the application of ISA 250 and the application of section 250.

Placement of Certain Requirements Within GAAS

Paragraph 16 of ISA 250 requires the auditor to request management and, when appropriate, those charged with governance to provide written representations regarding identified or suspected instances of noncompliance with relevant laws and regulations. The ASB believes this requirement is more appropriately placed in section 580, *Written Representations*. The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

ISA 260, *Communication with Those Charged with Governance*, Compared to Section 260, *The Auditor's Communication With Those Charged With Governance*

Differences in Language

Changes to the language of section 260 from ISA 260 include

- in paragraph .12, requiring that the auditor communicate with those charged with governance "the auditor's views about qualitative aspects of the entity's significant accounting practices" compared with the requirement in paragraph 16 of ISA 260 that the auditor communicate with those charged with governance "the auditor's views about significant qualitative aspects of the entity's accounting practices." The ASB believes that the wording of section 260 better conveys the intent of ISA 260.
- in paragraph .16, changing the language in ISA 260 from "Written communications need not include all matters that arose during the course of the audit" to "This communication need not include matters that arose during the course of the audit that were communicated with those charged with governance and satisfactorily resolved."

Such changes have been made to make section 260 easier to read and apply. The ASB believes that such changes do not create differences between the application of ISA 260 and the application of section 260.

Requirements in the ISAs Not in GAAS

Paragraphs 17 and 20 of ISA 260 require the auditor to communicate certain matters regarding independence in the case of listed entities. These requirements are not applicable to the audits of nonissuers in the United States and, therefore, are not included in section 260.

Requirements in GAAS Not in the ISAs

Paragraph .12a of section 260 requires the auditor, when applicable, to determine that those charged with governance are informed about the process used by management in formulating particularly sensitive accounting estimates and about the basis for the auditor's conclusions regarding the reasonableness of those estimates.

Paragraph .14a and c of section 260 require, when not all of those charged with governance are involved in managing the entity, the auditor to communicate (a) material, corrected misstatements that were brought to the attention of management as a result of audit procedures, and (b) the auditor's views about significant matters that were the subject of management's consultations with other accountants on accounting or auditing matters when the auditor is aware that such consultation has occurred. Paragraph .12c of section 260 requires the auditor to communicate disagreements with management, if any. ISA 260 does not require communication of these matters. The ASB believes that it is important for these matters to be communicated to those charged with governance of nonissuers in the United States.

Paragraph .17 of section 260 requires the auditor, when communicating matters in accordance with section 260 in writing, to indicate in the communication that it is intended solely for the information and use of those charged with governance and, if appropriate, management and is not intended to be, and should not be, used by anyone other than these specified parties. ISA 260 does not require this indication, nor does it prohibit it. The ASB believes that this communication meets the criteria for a by-product report under section 905, *Alert That Restricts the Use of the Auditor's Written Communication*.

Placement of Certain Requirements Within GAAS

Consistent with requirements in paragraphs 12–13 of ISA 450, *Evaluation of Misstatements Identified during the Audit*, paragraph .13 of section 260 contains a requirement for the auditor to communicate certain matters regarding uncorrected misstatements. The ASB believes that this communication with those charged with governance is more appropriately placed in section 260. Paragraph 12(c)(i) of ISA 260 requires the auditor to communicate material weaknesses in internal control identified during an audit to those charged with governance. The ASB believes this requirement is more appropriately placed in section 265, *Communicating Internal Control Related Matters Identified in an Audit*. The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

[Revised, December 2013, to reflect conforming changes necessary due to the issuance of SAS No. 125.]

ISA 265, *Communicating Deficiencies in Internal Control to Those Charged with Governance and Management*, Compared to Section 265, *Communicating Internal Control Related Matters Identified in an Audit*

Differences in Language

Section 265 includes and defines the term *material weakness*, whereas ISA 265 does not.

The definition of *material weakness*, along with the definitions of *deficiency in internal control* and *significant deficiency in internal control* have been modified to align with the definitions of these terms in Statement on Standards for Attestation Engagements No. 15, *An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements* (AT sec. 501). These terms and definitions are consistent with those used in the standards of the PCAOB. The ASB believes that consistency between its standards and those of the PCAOB in the use and definition of these terms is essential in the United States due to legal and regulatory requirements, including those pertaining to the evaluation of the effectiveness of an entity's internal control over financial reporting.

The ASB believes that the definitions are consistent with the intent of ISA 265 and that the modifications do not create differences between the application of ISA 265 and the application of section 265.

Requirements in GAAS Not in the ISAs

Section 265 requires the auditor to evaluate each deficiency to determine, on the basis of the audit work performed, whether, individually or in combination, the deficiencies constitute significant deficiencies or material weaknesses. ISA 265 does not explicitly refer to the auditor's evaluation of each deficiency in making this determination. The ASB believes that the requirement in section 265 is consistent with the intent of ISA 265.

Section 265 requires the auditor to communicate significant deficiencies and material weaknesses to management and those charged with governance.

Because ISA 265 does not include or define the term *material weakness*, ISA 265 does not contain a requirement to separately identify or communicate material weaknesses.

Section 265 includes an additional requirement for the auditor to consider, if the auditor determines that a deficiency, or a combination of deficiencies, in internal control is not a material weakness, whether prudent officials, having knowledge of the same facts and circumstances, would likely reach the same conclusion (paragraph .10).

Section 265 explicitly requires the auditor to document the communication of other deficiencies in internal control that are communicated orally to management (paragraph .12b).

Paragraphs 9–10 of ISA 265 require the auditor to communicate to those charged with governance and management on a timely basis. Paragraph .13 of section 265 requires the communication to be made no later than 60 days following the report release date. ISA 265 recognizes in paragraph A13 that the written communication of significant deficiencies forms part of the final audit file and is subject to the overriding requirement for the auditor to complete the assembly of the final audit file on a timely basis. ISA 230 states that an appropriate time limit within which to complete the assembly of the final audit file is ordinarily not more than 60 days after the date of the auditor's report.

In addition to the required elements of the written communication identified in paragraph 11 of ISA 265, paragraph .14 of section 265 requires that the following additional items/elements be included in the written communication:

- The definition of *material weakness* and, when relevant, the definition of *significant deficiency*
- An explanation that the auditor is not expressing an opinion on the effectiveness of internal control
- An explanation that the auditor's consideration of internal control was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies
- A statement restricting the use of the communication to management, those charged with governance, others within the organization, and any governmental authority to which the auditor is required to report

Paragraph .15 of section 265 includes reporting requirements when the auditor issues a written communication stating that no material weaknesses were identified during the audit of the financial statements. Paragraph .16 of section 265 prohibits the issuance of a written communication stating that no significant deficiencies were identified during the audit. ISA 265 does not address the issuance of communications indicating no material weaknesses or no significant deficiencies.

ISA 300, *Planning an Audit of Financial Statements*, Compared to Section 300, *Planning an Audit*

Requirements in GAAS Not in the ISAs

Paragraph .12 of section 300 contains requirements regarding the auditor's obligations for determining the extent of involvement of professionals possessing

specialized skills. ISA 300 does not contain these requirements. The ASB believes these requirements, and the related application material, are necessary for the auditor's consideration of the need for specialized skills and knowledge in the audit.

ISA 315, Identifying and Assessing the Risks of Material Misstatement through Understanding the Entity and Its Environment, Compared to Section 315, Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement

Differences in Language

Paragraph .10 of section 315 uses different wording than paragraph 9 of ISA 315 to describe the auditor's requirement regarding the relevance of information obtained. Paragraphs .19 and .25 of section 315 include additional modifiers to conform to the comparable auditing standard issued by the Public Company Accounting Oversight Board.

Both ISA 240 and section 240 contain requirements for the auditor to consider the risks of material misstatement due to fraud. Paragraph .09 of section 315 contains a specific requirement for the auditor to consider the results of the assessment of the risk of material misstatement due to fraud during planning, whereas ISA 315 does not. In addition, certain requirements in paragraphs .21 and .33 of section 315 contain more specificity than do the equivalent requirements in ISA 315.

These differences do not create differences between the application of ISA 315 and the application of section 315.

ISA 320, Materiality in Planning and Performing an Audit, Compared to Section 320, Materiality in Planning and Performing an Audit

There are no differences between the application of ISA 320 and the application of section 320.

ISA 330, The Auditor's Responses to Assessed Risks, Compared to Section 330, Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained

Requirements in GAAS Not in the ISAs

Paragraph .20 of section 330 includes a requirement to confirm accounts receivable unless certain conditions exist. This requirement is not in the ISAs. The ASB believes it is appropriate to retain the requirement in paragraph .34 of AU section 330, *The Confirmation Process* [SAS No. 67].

Differences Between Requirements

To be consistent with the wording of the comparable requirements in the comparable auditing standard issued by the PCAOB, the requirement in paragraph .07 of section 330 has been modified with the words "relevant" and "material," and the requirement in paragraph .10 of section 330 has been expanded to specifically include addressing, when applicable, whether the person performing the control possesses the necessary authority and competence to perform the control effectively. The ASB believes these differences do not create differences between the application of ISA 330 and the application of section 330.

Placement of Certain Requirements Within GAAS

Paragraph .25 of section 330 includes a requirement for the auditor addressing the means of selecting items for testing. This requirement is in the ISAs in ISA 500, *Audit Evidence*. The ASB believes this requirement is more appropriately placed in section 330. The placement of this requirement does not create a difference between the ISAs as a whole and GAAS as a whole.

ISA 402, *Audit Considerations Relating to an Entity Using a Service Organization*, Compared to Section 402, *Audit Considerations Relating to an Entity Using a Service Organization*

Differences in Language

The definitions of *Report on a description of a service organization's system and the suitability of the design of controls (type 1 report)* and *Report on a description of a service organization's system and the suitability of the design and operating effectiveness of controls (type 2 report)*, in paragraph .08 of section 402, indicate that management's written assertion is an element of these reports. This is consistent with the definitions of these terms in International Standard on Assurance Engagements 3402, *Assurance Reports on Controls at a Service Organization*. The definitions of these terms in paragraph 8 of ISA 402 do not include management's written assertion as an element of the reports. The ASB believes that the definitions are consistent with the intent of ISA 402 and that the modifications do not create differences between the application of ISA 402 and the application of section 402.

ISA 450, *Evaluation of Misstatements Identified during the Audit*, Compared to Section 450, *Evaluation of Misstatements Identified During the Audit*

Placement of Certain Requirements Within GAAS

Paragraphs 12–13 of ISA 450 require the auditor to communicate certain matters regarding uncorrected misstatements to those charged with governance. The ASB believes that the requirements for this communication are more appropriately placed in section 260.

Paragraph 14 of ISA 450 requires the auditor to request written representations from management and, where appropriate, those charged with governance regarding uncorrected misstatements. The ASB believes this requirement is more appropriately placed in section 580.

The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

ISA 500, *Audit Evidence*, Compared to Section 500, *Audit Evidence*

Placement of Certain Requirements Within GAAS

Paragraph 10 of ISA 500 includes a requirement for the auditor addressing the means of selecting items for testing. The ASB believes this requirement is more appropriately placed in section 330. The placement of this requirement does not create a difference between the ISAs as a whole and GAAS as a whole.

ISA 501, *Audit Evidence—Specific Considerations for Selected Items*, Compared to Section 501, *Audit Evidence—Specific Considerations for Selected Items*

Requirements in GAAS Not in the ISAs

Section 501 contains specific requirements relating to auditing investments in securities and derivative instruments that are not in ISA 501. The ASB concluded that it was appropriate to retain these specific requirements of AU section 332, *Auditing Derivatives Instruments, Hedging Activities, and Investments in Securities* [SAS No. 92].

AU section 337, *Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments* [SAS No. 12], is based on the premise that the applicable financial reporting framework complies with Financial Accounting Standards Board *Accounting Standards Codification* 450, *Contingencies*. In addition, the audit inquiry letters required under AU section 337 [SAS No. 12] have been subjected to the provisions of the 1975 agreement between the AICPA and the American Bar Association (ABA treaty). Consequently, section 501 contains specific requirements relating to litigation, claims and assessments consistent with the requirements of AU section 337 [SAS No. 12] that are not contained in ISA 501. The ASB decided to retain such content in section 501 because it is particular to the U.S. environment and continues to be relevant in practice.

Placement of Certain Requirements Within GAAS

Paragraph 12 of ISA 501 requires the auditor to request written representations from management and, where appropriate, those charged with governance regarding litigation and claims. The ASB believes this requirement is more appropriately placed in section 580. The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

ISA 505, External Confirmations, Compared to Section 505, External Confirmations

Differences in Language

The definition of *external confirmation* has been expanded to include an example of a medium through which a response may be obtained. The example—direct access by the auditor to information held by a third party—addresses a situation that is increasingly common. The ASB believes that the inclusion of this concept clarifies the definition and is consistent with the intent of the definition in ISA 505.

ISA 510, Initial Audit Engagements—Opening Balances, Compared to Section 510, Opening Balances—Initial Audit Engagements, Including Reaudit Engagements

Requirements in GAAS Not in the ISAs

Paragraph .07 of section 510 carries forward a requirement from paragraph .11 of AU section 315, *Communications Between Predecessor and Successor Auditors* [SAS No. 84, as amended], as amended, which states that the auditor, when the prior period financial statements were audited by a predecessor auditor, should request management to authorize the predecessor auditor to allow a review of the predecessor auditor's audit documentation and to respond fully to inquiries by the auditor. Other requirements related to reviewing the predecessor auditor's audit documentation do not differ between ISA 510 and section 510.

Paragraph .13 of section 510 incorporates requirements from paragraph .22 of AU section 315 [SAS No. 84, as amended], concerning the auditor's response when management refuses to inform the predecessor auditor that the prior period financial statements may need revision or if the auditor is not satisfied with the resolution of the matter. The ASB believes it is important to address this situation.

Paragraph .14 of section 510 incorporates a requirement from paragraph .13 of AU section 315 [SAS No. 84, as amended], that states that the auditor should not make reference to the report or work of the predecessor auditor as the basis, in part, for the successor auditor's own opinion. The ASB believes this requirement is necessary in the United States to clearly distinguish this situation from the circumstances in section 600, *Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)*, in which the auditor determines to make reference to the audit of a component auditor in the auditor's report on the group financial statements.

Differences Between Requirements

Paragraph 6(c) of ISA 510 requires the auditor to perform one or more of three identified procedures, in addition to the procedures required in paragraph 6(a–b) of ISA 510, to obtain sufficient appropriate audit evidence about whether the opening balances contain misstatements that materially affect the current period's financial statements. Two of the three procedures are (a) reviewing the predecessor auditor's audit documentation to obtain evidence regarding opening balances, and (b) evaluating whether audit procedures performed in

the current audit provide evidence relevant to the opening balances. The ASB does not believe that either of these procedures, on its own, provides sufficient evidence regarding opening balances, and accordingly, the ASB has redrafted paragraph .08c of section 510 to require the auditor to evaluate whether audit procedures performed in the current period provide evidence relevant to the opening balances and also to perform one or both of the other procedures identified in paragraph .08c(i–ii) of section 510.

ISA 520, Analytical Procedures, Compared to Section 520, Analytical Procedures

Differences in Language

The ASB has made various changes to the language throughout section 520 in comparison with ISA 520. The changes to section 520 include the following:

- In paragraph .05c, adding the parenthetical "(taking into account whether substantive analytical procedures are to be performed alone or in combination with tests of details)" to clarify that the auditor can use as audit evidence a substantive analytical procedure that is less precise than performance materiality when such analytical procedure is combined with other substantive audit procedures.
- In paragraph .05d, adding "compare the recorded amounts, or ratios developed from recorded amounts, with the expectations." The ASB is of the understanding that such procedure is presumed in ISA 520.

Such changes have been made to make section 520 easier to read and apply. The ASB believes that the changes made do not create differences between the application of ISA 520 and the application of section 520.

Requirements in GAAS Not in the ISAs

Section 520 includes specific documentation requirements, in paragraph .08, which ISA 520 does not. Such requirements are contained in AU section 329, *Analytical Procedures* [SAS No. 56, as amended], which section 520 supersedes, and the ASB believes that the requirements are appropriate and should be retained.

ISA 530, Audit Sampling, Compared to Section 530, Audit Sampling

Differences in Language

The definition of *audit sampling* in paragraph 5 of ISA 530 was revised in section 530 because the ASB believes that the ISA 530 wording defining audit sampling to require the auditor to select items such that "each item has a chance of selection" is too imprecise to be meaningful. The definition was revised to (a) focus on conclusions about the population, and (b) include the fundamental concept of representativeness. Paragraph .08 of section 530, which establishes a requirement with respect to the selection of items in a population, reflects the revised definition of *audit sampling*.

The wording in paragraph .13 of section 530 was broadened from the wording in paragraph 14 of ISA 530 to better encompass the related application material.

Requirements in the ISAs Not in GAAS

The requirement in paragraph 13 of ISA 530 that addresses the issue of anomalies is not included in section 530. The ASB expressed concerns about terms used in paragraph 13 of ISA 530, such as "in the extremely rare circumstances" and "a high degree of certainty." These terms are not used in GAAS and the ASB believes these terms would not be consistently interpreted in practice. The ASB also believes that the deletion from section 530 of the option to consider a misstatement an anomaly will enhance audit quality because misstatements identified by the auditor during audit sampling will be treated in the same manner as any other misstatement identified by the auditor and, thus, will prevent the misuse of anomalies.

Paragraph 14 of ISA 530 requires, for tests of details, the projection of misstatements found in a sample to the population. The ASB believes that projection of misstatements is also relevant to tests of controls and tests of compliance, and accordingly, has broadened the requirement in paragraph .14 of section 530 to project the results of audit sampling to also include tests of controls and tests of compliance.

Other

The appendixes of ISA 530 were not been included in section 530 because the guidance contained therein is covered by the AICPA Audit Guide *Audit Sampling*.

ISA 540, Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures, Compared to Section 540, Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures

Placement of Certain Requirements Within GAAS

Paragraph 22 of ISA 540 requires the auditor to obtain written representations from management and, when appropriate, those charged with governance about whether management and, when appropriate, those charged with governance believe significant assumptions used in making accounting estimates are reasonable. The ASB believes this requirement is more appropriately placed in section 580. The placement of this requirement does not create a difference between the ISAs as a whole and GAAS as a whole.

ISA 550, Related Parties, Compared to Section 550, Related Parties

Requirements in GAAS Not in the ISAs

ISA 550 distinguishes between fair presentation and compliance frameworks and between financial reporting frameworks that contain related party

requirements and financial reporting frameworks that have minimal or no related party requirements. However, the ASB believes that fair presentation frameworks are the only financial reporting framework used in the United States. Further, to achieve fair presentation, disclosures related to related parties, such as those required by generally accepted accounting principles (GAAP), are necessary and, accordingly, section 550 defines *related party* as "a party as defined in GAAP." Thus, section 550 does not refer to applicable financial reporting frameworks; the applicability, objectives, and requirements of section 550 are the same regardless of the applicable financial reporting framework.

Placement of Certain Requirements Within GAAS

Paragraph 26 of ISA 550 requires the auditor to request that management and, when appropriate, those charged with governance, provide written representations regarding related party transactions. The ASB believes this requirement is more appropriately placed in section 580. The placement of this requirement does not create a difference between the ISAs as a whole and GAAS as a whole.

ISA 560, *Subsequent Events*, Compared to Section 560, *Subsequent Events and Subsequently Discovered Facts*

Differences in Language

Paragraph 5 of ISA 560 defines *subsequent events* to include both events occurring between the date of the financial statements and the date of the auditor's report and facts that become known to the auditor after the date of the auditor's report. Section 560 includes separate definitions for *subsequent events* and *subsequently discovered facts* to clearly distinguish the auditor's responsibilities for each. The definition of *subsequently discovered facts* was also expanded to use language that is consistent with language in the objectives and requirements of ISA 560 (paragraphs 4(b) and 14) but that is not specifically included in the definition in ISA 560.

Paragraph 5 of ISA 560 further defines *the date the financial statements are issued*, which is the date the auditor's report and audited financial statements are made available to third parties. This term was deleted from section 560 because the applicable financial reporting framework may define the financial statement issuance date. In addition, because GAAS define the report release date, the ASB believes the definition could cause confusion with respect to the release versus the issuance of the auditor's report. Although the definition was deleted, the requirements in section 560 were modified to use terms that are well understood in the United States and to be consistent with the intent of the requirements in ISA 560.

Paragraph 12 of ISA 560 permits the auditor to dual date the auditor's report when law or regulation does not prohibit management from restricting the revision of the financial statements to the effects of the subsequent event or events causing that revision and those responsible for approving the financial statements are not prohibited from restricting their approval to that revision. In the United States, no such prohibition by law or regulation exists. Accordingly, paragraph .13b of section 560 omits the reference to law or regulation.

Because the date of the auditor's report and the report release date are within the auditor's control, the requirements in paragraphs .12–.18 of section 560 were restructured with reference to the report release date in lieu of reference to the date that the financial statements were issued. Similar changes were made to the related application and other explanatory material.

Paragraph 15(b) of ISA 560 requires the auditor to review the steps taken by management to ensure that anyone in receipt of the previously issued financial statements, together with the auditor's report thereon, is informed of the situation. Paragraphs .16*b* and .17*b* of section 560 require the auditor to determine whether management's steps are timely and appropriate. The ASB believes this is consistent with the intent of the requirements of ISA 560.

The ASB believes these changes do not create differences between the application of ISA 560 and the application of section 560.

Requirements in the ISAs Not in GAAS

Certain requirements in ISA 560 also require the auditor to provide the auditor's report or a new or revised auditor's report. These references were eliminated from the requirements in section 560 because the ASB believes that it is not necessary to require the auditor to provide the auditor's report.

Paragraph 12(b) of ISA 560, which is an optional form of dual dating, was not included in section 560 because it is uncommon in the United States to provide a new or revised auditor's report that includes a statement in an emphasis-of-matter paragraph that conveys that the auditor's procedures on subsequent events are restricted solely to the revision of the financial statements, as described in the relevant note to the financial statements.

Requirements in GAAS Not in the ISAs

Section 560 includes an additional objective in paragraph .06, requirements in paragraphs .19–.20, and application and other explanatory material in paragraphs .A27–.A30 related to a predecessor auditor's responsibilities when reissuing the auditor's report on previously issued financial statements that are to be presented on a comparative basis with audited financial statements of a subsequent period. ISA 560 does not include such requirements.

Paragraph 9 of ISA 560 requires the auditor to request that management and, when appropriate, those charged with governance provide written representations regarding subsequent events. This requirement is included in paragraph .18 of section 580. However, if the financial statements are subsequently revised, paragraph .13*a–b* of section 560 include additional requirements for the auditor to request management to provide certain representations when the auditor either dates the auditor's report as of a later date or includes an additional date limited to the revision (that is, dual dates the auditor's report for that revision). These representations are not included in ISA 560.

Placement of Certain Requirements Within GAAS

Paragraph 5 of ISA 560 defines *the date of approval of the financial statements*. This definition was deleted from the definitions of section 560 because the ASB did not believe it was necessary to its application and because the term is described in paragraph .A41 of section 700, *Forming an Opinion and Reporting on Financial Statements*.

Paragraphs 11(b)(ii) and 15(c)(i) of ISA 560 require that the new auditor's report not be dated earlier than the date of approval of the revised financial statements. This requirement is not included in section 560 because the requirements for dating the report are addressed in section 700.

As noted in the preceding section, the requirement in paragraph 9 of ISA 560 regarding written representations has been moved to section 580.

Paragraph 16 of ISA 560 requires the auditor to include in the new or revised auditor's report an emphasis-of-matter paragraph or other-matter paragraph in situations when the financial statements are revised after the financial statements have been issued. Paragraph 16 of ISA 710, *Comparative Information—Corresponding Figures and Comparative Financial Statements*, includes a similar requirement related to comparative financial statements and the auditor's opinion on prior period financial statements, when reporting on prior period financial statements in connection with the current period's audit, differs from the opinion previously expressed. Requirements have been placed in paragraph .16c of section 560 and paragraphs .13–.14 of section 708, *Consistency of Financial Statements*, that when considered together, achieve the intent of the requirements in paragraph 16 of ISA 560 and paragraph 16 of ISA 710.

The ASB believes such placements do not create differences between the ISAs as a whole and GAAS as a whole.

ISA 580, Written Representations, Compared to Section 580, Written Representations

Differences in Language

Paragraph 8 of ISA 580 describes management's responsibility in the case of a fair presentation framework. The ASB believes that all the acceptable financial reporting frameworks in the United States are fair presentation frameworks, and, thus, the requirements of section 580 reflect this perspective.

Requirements in the ISAs Not in GAAS

Paragraph 15 of ISA 580 contains a requirement related to situations in which law or regulation requires management to make written public statements about its responsibilities. The ASB believes that these situations are not applicable to nonissuers in the United States and, accordingly, such requirements are not included in section 580.

Differences Between Requirements

Paragraph 14 of ISA 580 requires that the date of the written representations be as near as practicable to, but not after, the date of the auditor's report on the financial statements. Paragraph .20 of section 580 requires that the date of the written representations be as of the date of the auditor's report, which is consistent with AU section 333, *Management Representations* [SAS No. 85, as amended]. Paragraph .A27 of section 580 states that, occasionally, circumstances may prevent management from signing the representation letter and returning it to the auditor on the date of the auditor's report. In these circumstances, the auditor may accept management's oral confirmation, on or before the date of the representations, that management has reviewed the final representation letter and will sign the representation letter without exception as providing sufficient appropriate audit evidence for the auditor to date the report. However, possession of the signed management representation letter prior to releasing the auditor's report is necessary because paragraph .21

of section 580 requires that the representations be in the form of a written letter from management.

Placement of Certain Requirements Within GAAS

The following ISAs contain requirements for requesting written representations:

- Paragraph 39 of ISA 240
- Paragraph 16 of ISA 250
- Paragraph 14 of ISA 450
- Paragraph 12 of ISA 501
- Paragraph 22 of ISA 540
- Paragraph 26 of ISA 550
- Paragraph 9 of ISA 560

Such requirements have been included in paragraphs .12–.19 of section 580. The ASB believes these requirements, which relate to representations that would be obtained for every audit engagement, are more appropriately placed in section 580. The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

ISA 600, Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors), Compared to Section 600, Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)

Differences in Language

All the requirements in ISA 600 are addressed to either the group engagement partner or the group engagement team. In section 600, requirements that, in the circumstances, may be appropriately fulfilled by the firm are addressed to the auditor of the group financial statements. These requirements, in paragraphs .16 and .29, relate to engagement acceptance and modification of the auditor's opinion on the group financial statements. The ASB believes that this does not create a substantive difference between the requirements of ISA 600 and the requirements of section 600.

Requirements in the ISAs Not in GAAS

ISA 600 does not permit the auditor's report on the group financial statements to make reference to a component auditor unless required by law or regulation to include such reference. Section 600, consistent with AU section 543, *Part of Audit Performed by Other Independent Auditors* [SAS No. 1 section 543, as amended], permits the auditor, in the auditor's report on the group financial statements, to make reference to the audit of a component auditor.

The ASB believes that the ability to make reference to the report of another auditor is appropriate in the United States for several reasons. No compelling practice issues suggest a need to change an approach that has always been permitted by GAAS in the United States. The size, complexity, and diversity of some audits, in particular the audit of the federal government in which withdrawing from the engagement or disclaiming an opinion are not viable options, make eliminating the option to make reference to a component auditor problematic. In addition, the ASB believes that there will be considerable practical problems with access issues, particularly with equity investments, under the approach in ISA 600. The ASB believes that there is no difference in the effectiveness of the audit in either approach when the audits are conducted in accordance with GAAS. Accordingly, section 600 contains requirements and application and other explanatory material relating to making reference to the report of another auditor that are not in ISA 600, which results in substantive differences in the wording of the objectives, requirements, and application material between ISA 600 and section 600. A group audit conducted in accordance with GAAS when the group engagement partner determines to make reference to the audit performed by a component auditor would not comply with the ISAs. As such, in an audit conducted under both GAAS and the ISAs, the auditor of the group financial statements would need to assume responsibility for the work of all component auditors and, therefore, plan the audit accordingly to comply with both sets of standards.

When no reference is made to a component auditor in the auditor's report on the group financial statements, no substantive differences exist between the requirements ISA 600 and the requirements of section 600.

ISA 610 (Revised 2013), *Using the Work of Internal Auditors*, Compared to Section 610, *Using the Work of Internal Auditors*

Differences in Language

Various changes to the language of ISA 610 (Revised 2013) were made throughout section 610 to use terms or phrases that are more commonly used in the United States and to tailor examples and guidance to be more appropriate to the U.S. environment. The ASB believes that such changes do not create differences between the application of ISA 610 (Revised 2013) and the application of section 610.

Requirements in the ISAs Not in GAAS

Using Internal Auditors to Provide Direct Assistance

Determining the Nature and Extent of Work That Can Be Assigned to Internal Auditors Providing Direct Assistance

GAAS do not include paragraph 30 of ISA 610 (Revised 2013) in section 610 because the paragraph precludes the external auditor's use of internal auditors to provide direct assistance in specified circumstances. The ASB believes that the requirements in paragraphs 30a and 30b were not necessary in the context

of audits of nonissuers in the United States. These requirements are partly redundant when compared to the requirement in paragraph .27 of section 610 regarding the need for the auditor to consider the amount of judgment involved in determining the nature and extent of work to assign to internal auditors and the nature, timing, and extent of the review thereof. Additional application guidance was added to paragraph .A42 section 610 to further emphasize that as materiality of the financial statement amounts increases, and either the assessed risks of material misstatement or the amount of judgment involved increases, the need for the external auditor to perform procedures directly increases. The ASB further concluded that the requirements in paragraphs 30c and 30d were not necessary because an appropriate assessment of the objectivity of the internal auditors in accordance with section 610 would result in a conclusion that it would not be appropriate for internal auditors' work to be used in the situations addressed by those paragraphs.

Using Internal Auditors to Provide Direct Assistance

Paragraph 33b of ISA 610 (Revised 2013) requires that, prior to using internal auditors to provide direct assistance for purposes of the audit, the external auditor obtain written agreement from the internal auditors that they will keep confidential specific matters as instructed by the external auditor and inform the external auditor of any threat to their objectivity. Given the established practice and historical experience of using internal auditors to provide direct assistance, the ASB did not believe that it was necessary to include this requirement for the audits of nonissuers in the United States. However, the ASB added application material to indicate that the auditor may determine it necessary to instruct the internal auditors to keep specific matters confidential and, in some situations, may determine it to be necessary to request written acknowledgement from the internal auditors of having understood such instruction (paragraph .A41 of section 610).

Differences Between Requirements

Using Internal Auditors to Provide Direct Assistance

Determining the Nature and Extent of Work That Can Be Assigned to Internal Auditors Providing Direct Assistance

Paragraph 31 of ISA 610 (Revised 2013) establishes a requirement that, in communicating with those charged with governance, an overview of the planned scope and timing of the audit in accordance with ISA 260, *Communication with Those Charged with Governance*, the external auditor should communicate the nature and extent of the planned use of internal auditors to provide direct assistance *so as to reach a mutual understanding that such use is not excessive in the circumstances of the engagement*. The ASB decided to revise paragraph 31 of ISA 610 (Revised 2013) to improve the clarity of the requirement and eliminate the requirement to explicitly obtain a mutual understanding with those charged with governance that the proposed nature and extent of the use of internal auditors to provide direct assistance is not excessive because it was not considered necessary in the context of audits of nonissuers in the United States. Making the communication required by paragraph .28 of section 610 provides those charged with governance the opportunity to voice any concerns.

Using Internal Auditors to Provide Direct Assistance

Paragraph 34a of ISA 610 (Revised 2013) states the following:

The external auditor shall direct, supervise and review the work performed by internal auditors on the engagement in accordance with ISA 220. In so doing:

- a. The nature, timing and extent of direction, supervision, and review shall recognize that the internal auditors are not independent of the entity and be responsive to the outcome of the evaluation of the factors in paragraph 29 of this ISA.

In paragraph .31a of section 610, the ASB decided to delete the phrase *recognize that the internal auditors are not independent of the entity* because the ASB did not believe there was any incremental effect of the phrase on the nature, timing, and extent of the external auditor's required actions. The ASB also believes that the fact that internal auditors are not independent of the entity is already implicit in, and encompassed by, the external auditor's evaluation of the factors in paragraph .27 of section 610.

In paragraph .31c of section 610, the ASB decided to revise paragraph 34b of ISA 610 (Revised 2013) to express the requirement in terms more commonly understood in the United States and that are more consistent with the terminology in section 610.

Requirements in GAAS Not in the ISAs*Using Internal Auditors to Provide Direct Assistance*

The ASB decided to add paragraph 31b, which represents a requirement to instruct internal auditors to bring accounting and auditing issues to the attention of the external auditors. The ASB believes that it is important to include this requirement, which is included section 610.

ISA 620, Using the Work of an Auditor's Expert, Compared to Section 620, Using the Work of an Auditor's Specialist**Differences in Language**

Paragraph 12(b) of ISA 620 requires the auditor to evaluate the significant assumptions and methods of the auditor's specialist. The ASB expanded the wording of this requirement to more clearly articulate the auditor's responsibility in this regard. The ASB believes this does not create a difference between the application of ISA 620 and the application of section 620.

Requirements in the ISAs Not in GAAS

Paragraph 14 of ISA 620 contains a conditional requirement regarding the auditor's reference to the auditor's specialist in the auditor's report when such reference is required by law or regulation. Because such reference is not required by law or regulation in the United States, such requirement is not included in section 620.

ISA 700, Forming an Opinion and Reporting on Financial Statements, Compared to Section 700, Forming an Opinion and Reporting on Financial Statements

Requirements in the ISAs Not in GAAS

Compliance Framework

Paragraphs 7(b), 19, and 36 of ISA 700 discuss financial statements prepared in accordance with a compliance framework. GAAS do not include any references to compliance frameworks because the ASB believes that all financial reporting frameworks used in the United States are fair presentation frameworks. Accordingly, section 700 is written in the context of a complete set of general purpose financial statements prepared in accordance with a fair presentation framework.

Definitions

Paragraph 7(b) of ISA 700 defines *fair presentation framework*. Section 700 does not include this definition because fair presentation framework is already defined section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*. As noted previously, section 700 does not include any references to compliance frameworks; therefore, there is no need to emphasize the differences between a fair presentation framework and a compliance framework in section 700.

Use of True and Fair View

Paragraphs 27, 32, and 35(b) of ISA 700 indicate that the description in the auditor's report can refer either to the preparation and fair presentation of the financial statements or the preparation of financial statements that give a true and fair view. GAAS do not include any references to "true and fair view" because such wording has not historically been used in the United States; GAAS continues to require the use of "present fairly, in all material respects" in the auditor's opinion. The ASB believes this does not result in a difference in the application of the ISAs and the application of GAAS.

Introductory Paragraph

Paragraph 23(d) of ISA 700 requires the introductory paragraph in the auditor's report to refer to the summary of significant accounting policies and other explanatory information. Section 700 does not include this requirement because the ASB believes the notes to the financial statements are an integral part of the financial statements, and specific notes need not be identified in the introductory paragraph. Because the notes to the financial statements are an integral part of the financial statements, the ASB has included a reference to the related notes to the financial statements in the illustrative auditor's reports in the exhibit, "Illustrations of Auditor's Reports on Financial Statements," of section 700. The ASB believes this does not create a difference between the application of ISA 700 and the application of section 700.

Paragraph 24 of ISA 700 requires the report to use a term that is appropriate in the context of the legal framework in the relevant jurisdiction when the

auditor's report discusses management's responsibilities. Section 700 does not include this requirement because the ASB believes this paragraph relates to jurisdictions where the structure of the boards and corporate law are different than in the United States. In the United States, the ASB believes reference to management is sufficient. The ASB believes this does not create a difference between the application of ISA 700 and the application of section 700.

Auditor's Responsibility

Paragraph 30 of ISA 700 requires the auditor's report to include in the "Auditor's Responsibilities" section a statement that the auditing standards require that the auditor comply with ethical requirements. Paragraph .31 of section 700 does not contain this requirement because in the United States, auditors must comply with the ethical standards contained in the AICPA Code of Professional Conduct. Accordingly, the ASB believes that the title indicating that it is the report of an independent auditor affirms that the auditor has met the ethical requirements and, therefore, need not make an additional reference in the auditor's report. Further, the ASB was mindful to minimize the differences between the PCAOB form of the auditor's report and section 700. The ASB believes a reference to ethical requirements in one report and not the other would cause confusion in the United States and that such differentiation between the two reports is not necessary.

Information Presented in the Financial Statements

Paragraph 46 of ISA 700 contains requirements when supplementary information that is not required by the applicable financial reporting framework is presented with the audited financial statements. If such supplementary information is not clearly differentiated from the audited financial statements, ISA 700 requires the auditor to ask management to change how the unaudited supplementary information is presented and if management refuses to do so, the auditor should explain in the auditor's report that such supplementary information has not been audited. In the United States, section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*, addresses the auditor's responsibility when engaged to report on supplementary information. At the present time, no ISAs exist that correspond to section 725. GAAS do not include the requirement for the auditor to ask management to change how the unaudited supplementary information is presented when the supplementary information is not clearly differentiated from the audited financial statements.

Requirements in GAAS Not in the ISAs

Management's Responsibilities

Paragraph .28 of section 700 adds a requirement that the description of management's responsibilities for the financial statements in the auditor's report should not be referenced to a separate statement by management about such responsibilities if such a statement is included in a document containing the auditor's report.

Paragraph .41 of section 700 includes a requirement that sufficient appropriate audit evidence includes evidence that the audit documentation has been reviewed.

ISA 700 does not contain these requirements, which the ASB believes are appropriate for inclusion in GAAS to retain the pre-clarity requirements.

Differences Between Requirements

Management's Responsibilities

Paragraph 26 of ISA 700 requires the report to describe management's responsibilities for the preparation of the financial statements. The description should include an explanation that management is responsible for the preparation of the financial statements in accordance with the applicable financial reporting framework and for such internal control as it determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. Section 700 requires the auditor's report to state that this responsibility includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements. The ASB believes section 700 better conveys management's responsibility in the United States.

Auditor's Report for Audits Conducted in Accordance With Both Auditing Standards of a Specific Jurisdiction and ISAs

Paragraphs 44–45 of ISA 700 contain requirements when an auditor is required to conduct an audit in accordance with the auditing standards of a specific jurisdiction but may additionally have complied with the ISAs in the conduct of the audit. Paragraphs .42–.43 of section 700 have been revised to reflect reporting conventions in the United States.

The ASB believes these differences do not create a difference between the application of ISA 700 and the application of section 700.

Placement of Certain Requirements Within GAAS

Comparative Financial Statements

Section 700 addresses comparative financial statements and comparative information, which are not addressed in ISA 700 but are addressed in ISA 710, *Comparative Information—Corresponding Figures and Comparative Financial Statements*. See the section "ISA 710, *Comparative Information—Corresponding Figures and Comparative Financial Statements*, Compared to Section 700, *Forming an Opinion and Reporting on Financial Statements*," following for a comparison of the requirements of section 700 and the requirements of ISA 710. ISA 710 addresses reporting in other jurisdictions that are not common to the United States, including corresponding figures that are not covered by the auditor's report. For simplicity, the ASB decided to include those requirements and application material that apply in the United States in section 700 rather than have a separate AU-C section.

Auditor's Report Prescribed by Law or Regulation

Paragraph 43 of ISA 700 discusses the auditor's report prescribed by law or regulation. Section 700 does not contain this section because it does not pertain to general purpose financial statements in the United States. Auditor's reports prescribed by law or regulation are addressed in section 800.

The ASB believes that the placement of these requirements does not create differences between the application of the ISAs as a whole and the application of GAAS as a whole.

ISA 705, Modifications to the Opinion in the Independent Auditor's Report, Compared to Section 705, Modifications to the Opinion in the Independent Auditor's Report

Requirements in the ISAs Not in GAAS

Compliance Framework

GAAS do not include any references to compliance frameworks because the ASB believes that all financial reporting frameworks used in the United States are fair presentation frameworks. Accordingly, the reference to compliance frameworks in paragraph 23(b) of ISA 705 has not been included in paragraph .25 of section 705.

Use of True and Fair View

GAAS do not include any references to "true and fair view" because such wording has not historically been used in the United States; GAAS continues to require the use of "present fairly, in all material respects" in the auditor's opinion. Accordingly, the references to "true and fair view" in paragraphs 23(a) and 24(a) of ISA 705 are not included in paragraphs .24–.25 of section 705. The ASB believes this does not result in a difference in the application of the ISAs and the application of GAAS.

Multiple Uncertainties

Paragraph 10 of ISA 705 requires the auditor to disclaim an opinion when, in extremely rare circumstances involving multiple uncertainties, the auditor concludes that, notwithstanding having obtained sufficient appropriate audit evidence regarding each of the individual uncertainties, it is not possible to form an opinion on the financial statements due to the potential interaction of the uncertainties and their possible cumulative effect on the financial statements. Section 705 does not include this requirement because the ASB believes that a disclaimer of opinion is appropriate only when the auditor is not able to obtain sufficient appropriate audit evidence. The ASB believes the guidance in paragraph .30 of AU section 508, *Reports on Audited Financial Statements* [SAS No. 58, as amended], is appropriate in these circumstances; therefore, paragraph .A13 of section 705 includes this guidance.

Differences Between Requirements

Management-Imposed Scope Limitation

Paragraph 13(b)(i) of ISA 705 requires the auditor to withdraw from the audit when the auditor is unable to obtain sufficient appropriate audit evidence, and the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be both material and pervasive so that a qualification of the opinion would be inadequate to communicate the gravity of the situation. Paragraph .13 of section 705 changes this requirement so that the auditor should consider withdrawal from the engagement under such circumstances. The ASB believes that in the United States, the auditor should not be required to withdraw from an engagement but, rather, should consider whether to withdraw or disclaim an opinion on the financial statements. The

ASB believes this does not create differences between the application of ISA 705 and the application of section 705.

ISA 706, Emphasis of Matter Paragraphs and Other Matter Paragraphs in the Independent Auditor's Report, Compared to Section 706, Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report

There are no substantive differences between ISA 706 and section 706.

ISA 710, Comparative Information—Corresponding Figures and Comparative Financial Statements, Compared to Section 700, Forming an Opinion and Reporting on Financial Statements

Differences in Language

The definitions of *comparative information* and *comparative financial statements* in paragraph 6(a) and (c) of ISA 710 have been revised to reflect U.S. conventions.

Requirements in the ISAs Not in GAAS

ISA 710 addresses reporting in other jurisdictions that are not common in the United States, including corresponding figures that are not covered by the auditor's report. GAAS do not include any references to corresponding figures because these are not common in the United States.

Requirements in GAAS Not in the ISAs

Comparative Information

Paragraph .45 of section 700 requires that when expressing an opinion on all periods presented, the auditor should update the report on the individual financial statements of one or more prior periods presented on a comparative basis with those of the current period. The auditor's report on comparative financial statements should not be dated earlier than the date on which the auditor has obtained sufficient appropriate audit evidence on which to support the opinion for the most recent audit.

Paragraph .47 of section 700 contains a requirement that if comparative information is presented, and the entity requests the auditor to express an opinion on all periods presented, the auditor should consider whether the information included for the prior period contains sufficient detail to constitute a fair presentation in accordance with the applicable financial reporting framework.

Audit Procedures

Paragraph .48 of section 700 contains a requirement that the audit procedures in paragraphs .49–.51 of section 700 should apply regardless of whether comparative financial statements or comparative information is presented for the prior period.

Prior Period Financial Statements

Paragraph .53 of section 700 includes requirements on what to disclose in an other-matter paragraph when reporting on prior period financial statements in connection with the current period's audit, and the auditor's opinion on such prior period financial statements differs from the opinion the auditor previously expressed.

Paragraph .54 of section 700 adds "and the predecessor auditor's report on the prior period's financial statements is not reissued" to the requirement. This was added to clarify that if the report was reissued, section 560 would apply. In addition, a requirement was added to include in the other-matter paragraph the nature of any emphasis-of-matter paragraph or other-matter paragraph included in the predecessor auditor's report, if any.

Prior Period Financial Statements Not Audited

Paragraphs .56–.57 of section 700 include requirements on how to report when prior period financial statements were not audited, reviewed, or compiled, to better clarify what is covered in section 700 related to comparative financial statements and comparative information.

ISA 710 does not contain these requirements. The ASB believes these requirements and related application material are appropriate for inclusion in GAAS.

Placement of Certain Requirements Within GAAS

ISA 710 addresses reporting in other jurisdictions that are not common to the United States, including corresponding figures that are not covered by the auditor's report. For simplicity, the ASB decided to include certain requirements and application material for comparative financial statements and comparative information in section 700 rather than having a separate AU-C section. The ASB believes that the requirements in section 700 related to comparative financial statements and comparative information are consistent with the intent of ISA 710 and that the placement of these requirements does not create differences between the application of the ISAs as a whole and the application of GAAS as a whole.

ISA 720, The Auditor's Responsibilities Relating to Other Information in Documents Containing Audited Financial Statements, Compared to Section 720, Other Information in Documents Containing Audited Financial Statements**Differences in Language**

The ASB has made various changes to the language throughout section 720, in comparison with ISA 720. The changes to section 720 include the following:

- In paragraph .01, clarifying that "auditor's opinion" is the opinion on the financial statements.
- In paragraph .02, adding clarifying language that documents containing audited financial statements refer to "annual reports of governments and organizations for charitable or philanthropic purposes that are available to the public" and that section 720 also applies to "other documents to which the auditor, at management's request, devotes attention."

- In paragraph .05, deleting the phrase "either by law, regulation or custom" from the definition of *other information* to avoid confusion with required supplementary information.
- In paragraph .12, adding the phrase "other-matter" to clarify the report modification.
- In paragraph .17, adding the wording "by the entity in determining whether such matter is a material misstatement of fact" to clarify that the advice is received by the entity.

Such changes have been made to make section 720 easier to read and apply. The ASB believes that such changes do not create differences between the application of ISA 720 and the application of section 720.

Differences Between Requirements

Section 720 clarifies that the auditor's objective is to respond appropriately (in paragraph .04), and the requirement is to read the other information (in paragraph .06) when the auditor becomes aware that documents containing audited financial statements and the auditor's report thereon include other information that could undermine the credibility of those financial statements and the auditor's report. The objective in ISA 720 and the corresponding requirement are not specifically limited to documents of which the auditor is aware. However, ISA 720 states that "documents containing audited financial statements" refers to annual reports (or similar documents) that are issued to owners (or similar stakeholders) containing audited financial statements and the auditor's report thereon. ISA 720 further states that it may be applied, adapted as necessary in the circumstances, to other documents containing audited financial statements. The ASB believes that the language added to section 720 limiting the auditor's responsibilities clarifies the intent of the objective and the requirement in ISA 720 and is appropriate in the U.S. legal environment.

Section 720 applies the requirement in paragraph .07 for the auditor to make appropriate arrangements with management or those charged with governance to obtain the other information, and the requirements in paragraphs .10–.15 regarding the auditor's identification of material inconsistencies, to the report release date, but ISA 720 applies the corresponding requirements to the date of the auditor's report. The ASB determined that the report release date, as defined in GAAS, is more appropriate in the U.S. environment.

ISA 800, Special Considerations—Audits of Financial Statements Prepared in Accordance with Special Purpose Frameworks, Compared to Section 800, Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks

Differences in Language

Definitions

Paragraph 6 of ISA 800 defines a *special purpose framework* as a financial reporting framework (a fair presentation framework or a compliance framework)

designed to meet the financial information needs of specific users. Section 800 defines a special purpose framework as one of the following bases of accounting: cash, tax, regulatory, contractual, or other basis of accounting, all of which are fair presentation frameworks in the United States. An other basis of accounting is a basis of accounting that uses a definite set of logical, reasonable criteria that is applied to all material items appearing in financial statements.

Considerations When Planning and Performing the Audit

Paragraph 9 of ISA 800 requires the auditor to determine whether application of the ISAs requires special consideration in the circumstances of the engagement. However, paragraph .12 of section 800 requires the auditor to adapt all AU-C sections relevant to the audit as necessary in the circumstances of the engagement. The ASB believes that the requirement in section 800 is consistent with the intent of ISA 800 and that such changes do not create differences between the application of ISA 800 and the application of section 800.

Requirements in GAAS Not in the ISAs

Considerations When Accepting the Engagement

Paragraph .11 of section 800 includes a requirement for the auditor, when accepting the engagement, to obtain the agreement of management that it acknowledges and understands its responsibility to include all informative disclosures, including specified disclosures, that are appropriate for the special purpose framework used to prepare the entity's financial statements.

Description of the Applicable Financial Reporting Framework

Paragraph .15 of section 800 includes a requirement for the auditor to evaluate whether the financial statements are suitably titled, include a summary of significant accounting policies, and adequately describe how the special purpose framework differs from GAAP.

Fair Presentation

If the special purpose financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP, paragraph .17 of section 800 includes a requirement for the auditor to evaluate whether the financial statements include informative disclosures similar to those required by GAAP. Paragraph .17 of section 800 also requires the auditor to evaluate whether additional disclosures, beyond those specifically required by the framework, related to matters that are not specifically identified on the face of the financial statements or other disclosures may be necessary for the financial statements to achieve fair presentation.

Restricting the Use of the Auditor's Report

Paragraph .20 of section 800 requires the auditor's report to include an other-matter paragraph that restricts the use of the auditor's report when the special purpose financial statements are prepared in accordance with a contractual basis of accounting, a regulatory basis of accounting, or an other basis of accounting when required pursuant to paragraphs .06a–b of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*, except for the circumstances described in paragraph .21 of section 800. In accordance with paragraph .21 of section 800, the other-matter paragraph is not required when

the special purpose financial statements are prepared in accordance with a regulatory basis of accounting and the special purpose financial statements together with the auditor's report are intended for general use. In this circumstance, the auditor is required to express an opinion on whether the financial statements are prepared in accordance with GAAP and, in a separate paragraph, an opinion on whether the financial statements are prepared in accordance with the special purpose framework.

Auditor's Report Prescribed by Law or Regulation

Paragraphs .22–.23 of section 800 include requirements when the auditor is required by law or regulation to use a specific layout, form, or wording of the auditor's report.

These requirements are not included in ISA 800.

Differences Between Requirements

Auditor's Report

Paragraph 13 of ISA 800 requires the auditor's report to describe the purpose for which the financial statements are prepared and, if necessary, the intended users, or refer to a note in the special purpose financial statements that contains that information. Section 800 does not require this description when the special purpose financial statements are prepared in accordance with the cash or tax basis of accounting.

Alerting Readers That the Financial Statements Are Prepared in Accordance With a Special Purpose Framework

Paragraph 14 of ISA 800 requires the auditor's report to include an emphasis-of-matter paragraph alerting users of the auditor's report that the financial statements are prepared in accordance with a special purpose framework and that, as a result, the financial statements may not be suitable for another purpose. Section 800 does not require the auditor's report to state that the "financial statements may not be suitable for another purpose." However, paragraph .19c of section 800 requires the emphasis-of-matter paragraph to state that the special purpose framework is a basis of accounting other than GAAP. In accordance with paragraph .21 of section 800, the emphasis-of-matter paragraph is not required when the special purpose financial statements are prepared in accordance with a regulatory basis of accounting and the special purpose financial statements together with the auditor's report are intended for general use.

[Revised, July 2013, to reflect conforming changes necessary due to the issuance of SAS No. 127.]

ISA 805, Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts or Items of a Financial Statement, Compared to Section 805, Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement

Requirements in the ISAs Not in GAAS

Form of Opinion

Paragraph 9 of ISA 805 requires the auditor to consider whether the expected form of opinion is appropriate in the circumstances. This requirement was not included in section 805 because the circumstances to which it relates are not applicable in the United States.

Requirements in GAAS Not in the ISAs

Considerations When Accepting the Engagement and Planning and Performing the Audit

Paragraph .10 of section 805 requires the auditor to obtain an understanding of (a) the purpose for which the single financial statement or specific element of a financial statement is prepared, (b) the intended users, and (c) the steps taken by management to determine that the application of the financial reporting framework is acceptable in the circumstances. The ASB believes this requirement is necessary in determining the acceptability of the financial reporting framework that is applicable to a single financial statement or a specific element of a financial statement.

Paragraph .09 of section 805 requires the auditor to determine whether the auditor will be able to perform procedures on interrelated items as a consideration when accepting the engagement. Paragraph .13 of section 805 includes a requirement for the auditor to perform procedures on interrelated items as necessary to meet the objective of the audit. In the case of an audit of a specific element that is, or is based upon, the entity's stockholders' equity or net income (or the equivalents thereto), paragraph .13 of section 805 further requires the auditor to perform procedures necessary to obtain sufficient appropriate audit evidence about financial position, or financial position and results of operations, respectively, because of the interrelationship between the element and the balance sheet accounts and the income statement accounts.

Materiality

Paragraph .14 of section 805 requires the auditor to determine materiality for the single financial statement being reported on, and in the case of an audit of one or more specific elements of a financial statement, materiality for each individual element reported on.

Reporting on an Incomplete Presentation but One That Is Otherwise in Accordance With GAAP

When the auditor reports on an incomplete presentation but one that is otherwise in accordance with GAAP, paragraph .24 of section 805 requires the auditor to include an emphasis-of-matter paragraph in the auditor's report, alerting users as to the purpose of the presentation and that the presentation is incomplete. ISA 805 does not address reporting on incomplete presentations that are otherwise in accordance with the applicable financial reporting framework.

ISA 805 does not contain these requirements.

Differences Between Requirements

Reporting on the Entity's Complete Set of Financial Statements and a Single Financial Statement or a Specific Element of Those Financial Statements

Paragraph 12 of ISA 805 requires the auditor to express a separate opinion for each engagement when undertaking an engagement to report on a single financial statement or a specific element of a financial statement in conjunction with an engagement to audit the entity's complete set of financial statements. Paragraph .16 of section 805 requires that the separate opinions be in separate auditor's reports and that the report on a specific element include certain information about the auditor's report on the entity's complete set of financial statements.

Paragraph .20 of section 805 address the case of an audit of a specific element of a financial statement when the opinion in the auditor's report on an entity's complete set of financial statements is modified and the modification of the auditor's opinion is relevant to the audit of the specific element. In such cases, the auditor is required to express either an adverse opinion or disclaim an opinion on the specific element, depending on the reasons for the modification of the auditor's opinion on the complete set of financial statements. ISA 805 does not specifically require an adverse opinion or disclaimer of opinion in such circumstances.

Paragraph 16 of ISA 805 addresses situations when the auditor concludes that it is necessary to express an adverse opinion or disclaim an opinion on the entity's complete set of financial statements as a whole, but in the context of a separate audit of a specific element that is included in those financial statements, the auditor nevertheless considers it appropriate to express an unmodified opinion on that element. In addition to the matters in ISA 805, paragraph .21 of section 805 precludes such reporting when the specific element is, or is based upon, the entity's stockholders' equity or net income (or the equivalent thereto).

ISA 810, Engagements to Report on Summary Financial Statements, Compared to Section 810, Engagements to Report on Summary Financial Statements

Differences in Language

Paragraph .05 of section 810 includes more specificity than is in paragraph 3 of ISA 810, including an objective to perform the procedures necessary as the basis for the auditor's opinion on the summary financial statements, and a

description of the opinion. The ASB believes that these changes do not create differences between the intent of ISA 810 and the intent of section 810.

Paragraph 6(b)(ii) of ISA 810 requires that management make the audited financial statements available to the intended users of the summary financial statements without undue difficulty. Section 810 requires in paragraph .09b(ii) that management make the audited financial statements readily available. This is not a substantive difference between ISA 810 and the section 810. The terminology in section 810 aligns with section 930, *Interim Financial Information*.

If the summary financial statements contain comparatives that were reported on by another auditor, both ISA 810 and section 810 require the auditor's report on the summary financial statements to contain certain matters. Such matters are included directly in paragraph .23 of section 810 and incorporated in paragraph 22 of ISA 810 by reference to ISA 710.

Requirements in the ISAs Not in GAAS

Paragraphs 6–7 of ISA 810 include requirements pertaining to (a) criteria established by law or regulation, (b) situations in which law or regulation does not require the audited financial statements to be made available, and (c) accepting the engagement when required by law or regulation to do so. These requirements were not included in section 810 because they are not applicable to the United States.

Paragraph 9 of ISA 810 permits the use of two different phrases when opining on summary financial statements. Paragraph .14 of section 810 only includes one of these phrases, which is consistent with practice.

Paragraphs 10–11 of ISA 810 address situations when regulation prescribes the wording of the opinion on the summary financial statements in terms that are different from those described in ISA 810. These requirements were not included in section 810 as they are not applicable in the United States.

Paragraph 15 of ISA 810 requires the auditor to evaluate the appropriateness of using a different addressee, if the addressee of the summary financial statements is not the same as the addressee of the auditor's report on the audited financial statements. Section 810 does not include this requirement because the ASB believes having different addressees is never appropriate.

Requirements in GAAS Not in the ISAs

Paragraph 6(a) of ISA 810 requires the auditor to determine whether the applied criteria are acceptable. The requirement in paragraph .09a of section 810 was expanded to clarify what constitutes acceptable criteria.

Paragraph .09b(iii) of section 810 requires the auditor to obtain the agreement of management that it acknowledges and understands its responsibility to provide the auditor with written representations, as described in paragraph .12 of section 810. ISA 810 does not include such a requirement.

Paragraphs .12–.13 of section 810 include requirements for the auditor to request management to provide written representations related to the summary financial statements. Such representations are necessary in the United States, particularly in situations when the auditor's report on the summary financial statements is dated later than the auditor's report on the audited financial statements. ISA 810 does not include any requirements for written representations.

Paragraph .16 of section 810 was expanded to require the auditor to withdraw from the engagement to report on the summary financial statements when

withdrawal is possible under applicable law or regulation and when the auditor's report on the audited financial statements contains an adverse opinion or a disclaimer of opinion. Paragraph .16*d* of section 810 further clarifies the reporting elements when the auditor issues a report on the summary financial statements in those situations when it is not possible to withdraw from the engagement.

Paragraph .17*e*(i–ii) of section 810 includes additional elements for the auditor's report on the summary financial statements with regard to the nature of the procedures that were performed by the auditor on the summary financial statements, including that the auditor did not perform audit procedures regarding the audited financial statements after the date of the report on those financial statements if the date of the auditor's report on the summary financial statements is later than the date of the auditor's report on the audited financial statements.

Paragraph .24 of section 810 includes an additional reporting requirement if the summary financial statements contain comparatives that were not reported on by the auditor or another auditor.

Paragraph .27 of section 810 includes additional requirements related to other information, which require the auditor to discuss the matter with management if the auditor identifies a material inconsistency and to consider appropriate further action in the circumstances if the auditor identifies a material inconsistency or becomes aware of an apparent material misstatement of fact.

Differences Between Requirements

Paragraph 17 of ISA 810 addresses the reporting elements when the auditor's report on the audited financial statements contains a qualified opinion, an emphasis-of-matter paragraph, or an other-matter paragraph. In ISA 810, the requirement in this paragraph only applies when the auditor expresses an unmodified opinion on the summary financial statements. In section 810, the requirement in paragraph .20 applies when the auditor expresses either an unmodified opinion or an adverse opinion on the summary financial statements.

Section 810, in paragraph .21, eliminated the reference to the restriction on distribution of the auditor's report in paragraph 20 of ISA 810. In the United States, use of an auditor's report is restricted, not its distribution. An auditor is not responsible for controlling management's distribution of restricted-use reports.

- Predecessor auditor 930.A1

INTERIM FINANCIAL**INFORMATION**—continued

- Procedures 930.11–18, 930.A7–A25
- Readily available 930.A3
- Requirements 930.07–10
- Review of 930.01–A58
- Subsequent discovery of facts 930.37
- Understanding the entity and its environment 930.11–12, 930.A7–A10
- Unusual or complex situations 930.A55
- Written representations 930.21–22, 930.A29–A32

INTERNAL AUDIT FUNCTION

- Audit of financial statements, in an. See also internal auditor 610.01–24, 610.A1–A36, 610A.01–29
- Consideration of fraud 240.19, 240.A31
- Scope and timing of audit 260.A20

INTERNAL AUDITOR

- Auditor's understanding of function 610.03–06, 610A.04–08
- Competence 610.25–27, 610.34, 610.A2, 610A.09, 610A.11
- Considerations during audit 610A.13–16
- Directly assisting auditor 610.01–04, 610.07–12, 610A.27
- Effect on the audit 610A.12–27
- Functions 610A.03
- Internal audit function 610A.07, 610A.13–16
- Internal control 610A.13
- Objectivity . . . 610.06, 610.13–14, 610.17, 610.23–27, 610.33–34, 610.A9, 610A.03, 610A.10–11
- Relation to independent auditors . . . 610.A50, 610A.01–29
- Relevance of function to audit of entity's financial statements 610A.06–08
- Risk assessment 610.A13, 610A.14–17
- Substantive procedures 610A.17
- Understanding 610A.04, 610A.13

INTERNAL CONTROL

- Breakdown in 450.A4, 450.A14
- Characteristics of fraud 240.A1
- Comfort letter 920.32, 920.37, 920.44, 920.54, 920.65, 920.67, 920.72, 920.A51, 920.A76, 920.A82, 920.A85
- Components 315.A143
- Control environment 315.15–25, 315.A71–A80, 330.A2
- Deficiencies. See also communicating internal control related matters identified in an audit 240.A75
- Design 315.14
- Entity, of the . . . 315.13–25, 315.A42–A107
 - · control activities 315.A91–A101
 - · control environment 315.A71–A80
 - · general nature 315.A44–A60
 - · information system 315.A84–A90
 - · monitoring of controls . . . 315.A102–A107

OVERALL OBJECTIVES OF THE INDEPENDENT AUDITOR

- Audit of financial statements
 - materiality 200.A14
 - preparation and fair presentation 200.A2–.A13
 - scope of audit 200.A1
- Conduct of an audit in accordance with GAAS
 - complying with AU-C sections 200.20–.24, 200.A72–.A76
 - complying with relevant requirements 200.A77–.A80
 - contents of GAAS 200.A63–.A71
 - failure to achieve an objective 200.29, 200.A85–.A86
 - interpretive publications 200.27, 200.A81
 - nature of GAAS 200.A57–.A62
 - other auditing publications 200.28, 200.A82
 - professional responsibilities in GAAS 200.25–.26
- Ethical requirements
 - audits of financial statements 200.15–.16, 200.A15–.A20
 - audits of governmental entities 200.A21
- Overall objectives 200.12–.13
- Professional judgment 200.18, 200.A27–.A31
- Professional skepticism 200.17, 200.A22–.A26
- Sufficient appropriate audit evidence and audit risk
 - audit evidence 200.A32–.A35
 - audit risk
 - detection of audit risk 200.A46–.A48
 - explanation of audit risk 200.14, 200.A36–.A37
 - inherent limitations 200.A49–.A56
 - material misstatement 200.A38–.A45
 - obtaining reasonable assurance 200.19

P**PENSION PLAN**

- Governmental cost-sharing multiple-employer plan 9500.23–.29, 9805.01–.07
- Participating employer in a governmental plan 9600.01–.02

PLANNING

- Activities 300.07–.11, 300.A9–.A17
- Analytical procedures 240.A26
- Audit of financial statements prepared in accordance with a financial reporting framework generally accepted in another country 910.06

PLANNING—continued

- Audit plan 300.A14
- Audit procedures 200.07–.08, 200.A40, 200.A47, 200.A74
 - GAAS 200.23
 - interpretive publications 200.27
- Benefits of adequate planning 300.02
- Changes 300.A15

ATTESTATION STANDARDS

Introduction

The accompanying "attestation standards" provide guidance and establish a broad framework for a variety of attest services increasingly demanded of the accounting profession. The standards and related interpretive commentary are designed to provide professional guidelines that will enhance both consistency and quality in the performance of such services.

For years, attest services generally were limited to expressing a positive opinion on historical financial statements on the basis of an audit in accordance with generally accepted auditing standards (GAAS). However, certified public accountants increasingly have been requested to provide, and have been providing, assurance on representations other than historical financial statements and in forms other than the positive opinion. In responding to these needs, certified public accountants have been able to generally apply the basic concepts underlying GAAS to these attest services. As the range of attest services has grown, however, it has become increasingly difficult to do so.

Consequently, the main objective of adopting these attestation standards and the related interpretive commentary is to provide a general framework for and set reasonable boundaries around the attest function. As such, the standards and commentary (a) provide useful and necessary guidance to certified public accountants engaged to perform new and evolving attest services and (b) guide AICPA standard-setting bodies in establishing, if deemed necessary, interpretive standards for such services.

The attestation standards are a natural extension of the ten generally accepted auditing standards. Like the auditing standards, the attestation standards deal with the need for technical competence, independence in mental attitude, due professional care, adequate planning and supervision, sufficient evidence, and appropriate reporting; however, they are much broader in scope. (The eleven attestation standards are listed below.) Such standards apply to a growing array of attest services. These services include, for example, reports on descriptions of systems of internal control; on descriptions of computer software; on compliance with statutory, regulatory, and contractual requirements; on investment performance statistics; and on information supplementary to financial statements. Thus, the standards have been developed to be responsive to a changing environment and the demands of society.

These attestation standards apply only to attest services rendered by a certified public accountant in the practice of public accounting—that is, a practitioner as defined in footnote 1 of paragraph .01.

The attestation standards do not supersede any of the existing standards in Statements on Auditing Standards (SASs) and Statements on Standards for Accounting and Review Services (SSARs). Therefore, the practitioner who is engaged to perform an engagement subject to these existing standards should follow such standards.

Attestation Standards

General Standards

1. The practitioner must have adequate technical training and proficiency to perform in the attestation engagement.
2. The practitioner must have adequate knowledge of the subject matter.
3. The practitioner must have reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users.
4. The practitioner must maintain independence in mental attitude in all matters relating to the engagement.
5. The practitioner must exercise due professional care in the planning and performance of the engagement and the preparation of the report.

Standards of Fieldwork

1. The practitioner must adequately plan the work and must properly supervise any assistants.
2. The practitioner must obtain sufficient evidence to provide a reasonable basis for the conclusion that is expressed in the report.

Standards of Reporting

1. The practitioner must identify the subject matter or the assertion being reported on and state the character of the engagement in the report.
2. The practitioner must state the practitioner's conclusion about the subject matter or the assertion in relation to the criteria against which the subject matter was evaluated.
3. The practitioner must state all of the practitioner's significant reservations about the engagement, the subject matter, and, if applicable, the assertion related thereto in the report.
4. The practitioner must state in the report that the report is intended solely for the information and use of the specified parties under the following circumstances:
 - When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria
 - When the criteria used to evaluate the subject matter are available only to specified parties
 - When reporting on subject matter and a written assertion has not been provided by the responsible party
 - When the report is on an attestation engagement to apply agreed-upon procedures to the subject matter

[As amended, effective for attest reports issued on or after June 30, 1999, by SSAE No. 9. As amended, effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001, by SSAE No. 10. Revised, December 2006, to reflect conforming changes necessary due to the issuance of SSAE No. 14.]

AT Section

STATEMENTS ON STANDARDS FOR ATTESTATION ENGAGEMENTS

The following is a Codification of currently effective Statements on Standards for Attestation Engagements ("SSAEs") and related Attestation Interpretations. Statements on Standards for Attestation Engagements are issued by senior committees of the AICPA designated to issue pronouncements on attestation matters. Rule 202, Compliance With Standards, of the AICPA Code of Professional Conduct requires an AICPA member who performs an attest engagement (a practitioner) to comply with such pronouncements. A practitioner is required to comply with an unconditional requirement in all cases in which the circumstances exist to which the unconditional requirement applies. A practitioner is also required to comply with a presumptively mandatory requirement in all cases in which the circumstances exist to which the presumptively mandatory requirement applies; however, in rare circumstances, the practitioner may depart from a presumptively mandatory requirement provided the practitioner documents his or her justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the objectives of the presumptively mandatory requirement.

Attestation Interpretations are recommendations on the application of SSAEs in specific circumstances, including engagements for entities in specialized industries, issued under the authority of AICPA senior committees. An interpretation is not as authoritative as a pronouncement; however, if a practitioner does not apply an attestation interpretation, the practitioner should be prepared to explain how he or she complied with the SSAE provisions addressed by such attestation interpretation. The specific terms used to define professional requirements in the SSAEs are not intended to apply to interpretations because interpretations are not attestation standards. It is the Auditing Standards Board's intention to make conforming changes to the interpretations over the next several years to remove any language that would imply a professional requirement where none exists.

AT Section 20

Defining Professional Requirements in Statements on Standards for Attestation Engagements

Source: SSAE No. 13.

Effective December 2005.

Introduction

.01 This section sets forth the meaning of certain terms used in Statements on Standards for Attestation Engagements (SSAEs) issued by the Auditing Standards Board in describing the professional requirements imposed on practitioners.

Professional Requirements

.02 SSAEs contain professional requirements together with related guidance in the form of explanatory material. Practitioners have a responsibility to consider the entire text of an SSAE in carrying out their work on an engagement and in understanding and applying the professional requirements of the relevant SSAEs.

.03 Not every paragraph of an SSAE carries a professional requirement that the practitioner is expected to fulfill. Rather, the professional requirements are communicated by the language and the meaning of the words used in the SSAEs.

.04 SSAEs use two categories of professional requirements, identified by specific terms, to describe the degree of responsibility they impose on practitioners, as follows:

- *Unconditional requirements.* The practitioner is required to comply with an unconditional requirement in all cases in which the circumstances exist to which the unconditional requirement applies. SSAEs use the words *must* or *is required* to indicate an unconditional requirement.
- *Presumptively mandatory requirements.* The practitioner is also required to comply with a presumptively mandatory requirement in all cases in which the circumstances exist to which the presumptively mandatory requirement applies; however, in rare circumstances, the practitioner may depart from a presumptively mandatory requirement provided the practitioner documents his or her justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the objectives of the presumptively mandatory requirement. SSAEs use the word *should* to indicate a presumptively mandatory requirement.

If an SSAE provides that a procedure or action is one that the practitioner "should consider," the consideration of the procedure or action is presumptively

required, whereas carrying out the procedure or action is not. The professional requirements of an SSAE are to be understood and applied in the context of the explanatory material that provides guidance for their application.

Explanatory Material

.05 Explanatory material is defined as the text within an SSAE (excluding any related appendixes or interpretations¹) that may:

- Provide further explanation and guidance on the professional requirements; or
- Identify and describe other procedures or actions relating to the activities of the practitioner.

.06 Explanatory material that provides further explanation and guidance on the professional requirements is intended to be descriptive rather than imperative. That is, it explains the objective of the professional requirements (where not otherwise self-evident); it explains why the practitioner might consider or employ particular procedures, depending on the circumstances; and it provides additional information for the practitioner to consider in exercising professional judgment in performing the engagement.

.07 Explanatory material that identifies and describes other procedures or actions relating to the activities of the practitioner is not intended to impose a professional requirement for the practitioner to perform the suggested procedures or actions. Rather, these procedures or actions require the practitioner's attention and understanding; how and whether the practitioner carries out such procedures or actions in the engagement depends on the exercise of professional judgment in the circumstances consistent with the objective of the standard. The words *may*, *might*, and *could* are used to describe these actions and procedures.

Application

.08 The provisions of this section are effective upon issuance.²

¹ Interpretive publications differ from explanatory material. Interpretive publications, for example, interpretations of the Statements on Standards for Attestation Engagements (SSAEs), appendixes to the SSAEs and AICPA auditing Statements of Position, are issued under the authority of the Auditing Standards Board (ASB). In contrast, explanatory material is always contained within the standards sections of the SSAE and is meant to be more descriptive in nature.

² The specific terms used to define professional requirements in this attestation standard are not intended to apply to any interpretive publications issued under the authority of the ASB, for example, interpretations of the SSAEs, or appendixes to the SSAEs, since interpretive publications are not attestation standards. (See footnote 1.) It is the ASB's intention to make conforming changes to the interpretive publications over the next several years to remove any language that would imply a professional requirement where none exists. It is the ASB's intention that such language would only be used in the standards sections of the SSAEs.

AT Section 50

SSAE Hierarchy

Source: SSAE No. 14.

Effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006.

.01 A practitioner plans, conducts, and reports the results of an attestation engagement in accordance with attestation standards. Attestation standards provide a measure of quality and the objectives to be achieved in the attestation engagement. Attestation procedures differ from attestation standards. Attestation procedures are acts that the practitioner performs during the course of the attestation engagement to comply with the attestation standards.

Attestation Standards

.02 The general, fieldwork, and reporting standards (the 11 attestation standards) approved and adopted by the membership of the AICPA, as amended by the AICPA Auditing Standards Board (ASB), are as follows:

General Standards

1. The practitioner must have adequate technical training and proficiency to perform the attestation engagement.
2. The practitioner must have adequate knowledge of the subject matter.
3. The practitioner must have reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users.
4. The practitioner must maintain independence in mental attitude in all matters relating to the engagement.
5. The practitioner must exercise due professional care in the planning and performance of the engagement and the preparation of the report.

Standards of Fieldwork

1. The practitioner must adequately plan the work and must properly supervise any assistants.
2. The practitioner must obtain sufficient evidence to provide a reasonable basis for the conclusion that is expressed in the report.

Standards of Reporting¹

1. The practitioner must identify the subject matter or the assertion being reported on and state the character of the engagement in the report.
2. The practitioner must state the practitioner's conclusion about the subject matter or the assertion in relation to the criteria against which the subject matter was evaluated in the report.
3. The practitioner must state all of the practitioner's significant reservations about the engagement, the subject matter, and, if applicable, the assertion related thereto in the report.

¹ The reporting standards apply only when the practitioner issues a report.

4. The practitioner must state in the report that the report is intended solely for the information and use of the specified parties under the following circumstances:
 - When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria.
 - When the criteria used to evaluate the subject matter are available only to specified parties.
 - When reporting on subject matter and a written assertion has not been provided by the responsible party.
 - When the report is on an attestation engagement to apply agreed-upon procedures to the subject matter.

Footnote 1 is also to be added to the heading *Standards of Reporting* preceding paragraph .63 of section 101, *Attest Engagements*.

.03 Statements on Standards for Attestation Engagements (SSAEs) are issued by senior committees of the AICPA designated to issue pronouncements on attestation matters. Rule 202, *Compliance With Standards* (ET sec. 201 par. .01), of the AICPA Code of Professional Conduct requires an AICPA member who performs an attestation engagement (the practitioner) to comply with such pronouncements.² SSAEs are developed and issued through a due process that includes deliberation in meetings open to the public, public exposure of proposed SSAEs, and a formal vote. The SSAEs are codified within the framework of the 11 attestation standards.

.04 The nature of the 11 attestation standards and the SSAEs requires the practitioner to exercise professional judgment in applying them. When, in rare circumstances, the practitioner departs from a presumptively mandatory requirement, the practitioner must document in the working papers his or her justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the objectives of the presumptively mandatory requirement.³

Attestation Interpretations⁴

.05 Attestation interpretations consist of Interpretations of the SSAEs, appendixes to the SSAEs, attestation guidance included in AICPA Audit and Accounting Guides, and AICPA attestation Statements of Position. Attestation interpretations are recommendations on the application of SSAEs in specific circumstances, including engagements for entities in specialized industries, issued under the authority of the AICPA senior committees.

.06 The practitioner should be aware of and consider attestation interpretations applicable to the attestation engagement. If the practitioner does not apply the attestation guidance included in an applicable attestation interpretation, the practitioner should be prepared to explain how he or she complied with the SSAE provisions addressed by such attestation guidance.

² In certain engagements, the practitioner also may be subject to other attestation requirements, such as *Government Auditing Standards* issued by the comptroller general of the United States.

³ The term *presumptively mandatory requirement* is defined in section 20, *Defining Professional Requirements in Statements on Standards for Attestation Engagements*.

⁴ Appendixes to Statements on Standards for Attestation Engagements (SSAEs) referred to in paragraph .05 of this section do not include previously issued appendixes to original pronouncements that, when adopted, modified other SSAEs.

Other Attestation Publications

.07 Other attestation publications include AICPA attestation publications not referred to above; attestation articles in the *Journal of Accountancy* and other professional journals; attestation articles in the *AICPA CPA Letter*; continuing professional education programs and other instruction materials, textbooks, guide books, attest programs, and checklists; and other attestation publications from state CPA societies, other organizations, and individuals.⁵ Other attestation publications have no authoritative status; however, they may help the practitioner understand and apply the SSAEs.

.08 A practitioner may apply the attestation guidance included in an other attestation publication if he or she is satisfied that, in his or her judgment, it is both relevant to the circumstances of the attestation engagement, and appropriate. In determining whether an other attestation publication is appropriate, the practitioner may wish to consider the degree to which the publication is recognized as being helpful in understanding and applying SSAEs and the degree to which the issuer or author is recognized as an authority in attestation matters. Other attestation publications published by the AICPA that have been reviewed by the AICPA Audit and Attest Standards Staff are presumed to be appropriate.

.09 This section is effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006.

⁵ The practitioner is not expected to be aware of the full body of other attestation publications.

AT Section 101

Attest Engagements

Source: SSAE No. 10; SSAE No. 11; SSAE No. 12; SSAE No. 14.

See section 9101 for interpretations of this section.

Effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001, unless otherwise indicated.

Applicability

.01 This section applies to engagements, except for those services discussed in paragraph .04, in which a certified public accountant in the practice of public accounting¹ (hereinafter referred to as a *practitioner*) is engaged to issue or does issue an examination, a review, or an agreed-upon procedures report on subject matter, or an assertion about the subject matter (hereafter referred to as *the assertion*), that is the responsibility of another party.²

.02 This section establishes a framework for attest³ engagements performed by practitioners and for the ongoing development of related standards. For certain subject matter, specific attestation standards have been developed to provide additional requirements for engagement performance and reporting.

.03 When a practitioner undertakes an attest engagement for the benefit of a government body or agency and agrees to follow specified government standards, guides, procedures, statutes, rules, and regulations, the practitioner is obliged to follow those governmental requirements as well as the applicable attestation standards.

.04 Professional services provided by practitioners that are not covered by this SSAE include the following:

- a. Services performed in accordance with Statements on Auditing Standards (SASs)
- b. Services performed in accordance with Statements on Standards for Accounting and Review Services (SSARSs)
- c. Services performed in accordance with the Statement on Standards for Consulting Services (SSCS), such as engagements in which the practitioner's role is solely to assist the client (for example, acting as the company accountant in preparing information other than financial statements), or engagements in which a practitioner is engaged to testify as an expert witness in accounting, auditing, taxation, or other matters, given certain stipulated facts

¹ For a definition of the term *practice of public accounting*, see ET section 92, *Definitions*, paragraph .29.

² See paragraph .02 of section 301, *Financial Forecasts and Projections*, for additional guidance on applicability when engaged to provide an attest service on a financial forecast or projection.

³ The term *attest* and its variants, such as *attesting* and *attestation*, are used in a number of state accountancy laws, and in regulations issued by state boards of accountancy under such laws, for different purposes and with different meanings from those intended by this section. Consequently, the definition of *attest engagements* set out in paragraph .01, and the attendant meaning of *attest* and *attestation* as used throughout the section, should not be understood as defining these terms and similar terms, as they are used in any law or regulation, nor as embodying a common understanding of the terms which may also be reflected in such laws or regulations.

- d. Engagements in which the practitioner is engaged to advocate a client's position—for example, tax matters being reviewed by the Internal Revenue Service
- e. Tax engagements in which a practitioner is engaged to prepare tax returns or provide tax advice

.05 An attest engagement may be part of a larger engagement, for example, a feasibility study or business acquisition study may also include an examination of prospective financial information. In such circumstances, these standards apply only to the attest portion of the engagement.

.06 Any professional service resulting in the expression of assurance must be performed under AICPA professional standards that provide for the expression of such assurance. Reports issued by a practitioner in connection with other professional standards should be written to be clearly distinguishable from and not to be confused with attest reports. For example, a practitioner performing an engagement which is intended solely to assist an organization in improving its controls over the privacy of client data should not issue a report as a result of that engagement expressing assurance as to the effectiveness of such controls. Additionally, a report that merely excludes the words, "...was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants..." but is otherwise similar to an examination, a review or an agreed-upon procedures attest report may be inferred to be an attest report.

Definitions and Underlying Concepts

Subject Matter

.07 The subject matter of an attest engagement may take many forms, including the following:

- a. Historical or prospective performance or condition (for example, historical or prospective financial information, performance measurements, and backlog data)
- b. Physical characteristics (for example, narrative descriptions, square footage of facilities)
- c. Historical events (for example, the price of a market basket of goods on a certain date)
- d. Analyses (for example, break-even analyses)
- e. Systems and processes (for example, internal control)
- f. Behavior (for example, corporate governance, compliance with laws and regulations, and human resource practices)

The subject matter may be as of a point in time or for a period of time.

Assertion

.08 An assertion is any declaration or set of declarations about whether the subject matter is based on or in conformity with the criteria selected.

.09 A practitioner may report on a written assertion or may report directly on the subject matter. In either case, the practitioner should ordinarily obtain a written assertion in an examination or a review engagement. A written assertion may be presented to a practitioner in a number of ways, such as in a narrative description, within a schedule, or as part of a representation letter appropriately identifying what is being presented and the point in time or period of time covered.

.10 When a written assertion has not been obtained, a practitioner may still report on the subject matter; however, the form of the report will vary depending on the circumstances and its use should be restricted.⁴ In this section, see paragraphs .58 and .60 on gathering sufficient evidence and paragraphs .73–.75 and .78–.80 for reporting guidance.

Responsible Party

.11 The *responsible party* is defined as the person or persons, either as individuals or representatives of the entity, responsible for the subject matter. If the nature of the subject matter is such that no such party exists, a party who has a reasonable basis for making a written assertion about the subject matter may provide such an assertion (hereinafter referred to as the *responsible party*).

.12 The practitioner may be engaged to gather information to enable the responsible party to evaluate the subject matter in connection with providing a written assertion. Regardless of the procedures performed by the practitioner, the responsible party must accept responsibility for its assertion and the subject matter and must not base its assertion solely on the practitioner's procedures.⁵

.13 Because the practitioner's role in an attest engagement is that of an *attester*, the practitioner should not take on the role of the responsible party in an attest engagement. Therefore, the need to clearly identify a responsible party is a prerequisite for an attest engagement. A practitioner may accept an engagement to perform an examination, a review or an agreed-upon procedures engagement on subject matter or an assertion related thereto provided that one of the following conditions is met.

- a. The party wishing to engage the practitioner is responsible for the subject matter, or has a reasonable basis for providing a written assertion about the subject matter if the nature of the subject matter is such that a responsible party does not otherwise exist.
- b. The party wishing to engage the practitioner is not responsible for the subject matter but is able to provide the practitioner, or have a third party who is responsible for the subject matter provide the practitioner, with evidence of the third party's responsibility for the subject matter.

.14 The practitioner should obtain written acknowledgment or other evidence of the responsible party's responsibility for the subject matter, or the written assertion, as it relates to the objective of the engagement. The responsible party can acknowledge that responsibility in a number of ways, for example, in an engagement letter, a representation letter, or the presentation of the subject matter, including the notes thereto, or the written assertion. If the practitioner is not able to directly obtain written acknowledgment, the practitioner should obtain other evidence of the responsible party's responsibility for the subject matter (for example, by reference to legislation, a regulation, or a contract).

⁴ When the practitioner is unable to perform the inquiry and analytical or other procedures that he or she considers necessary to achieve the limited assurance contemplated by a review, or when the client is the responsible party and does not provide the practitioner with a written assertion, the review will be incomplete. A review that is incomplete is not an adequate basis for issuing a review report and, accordingly, the practitioner should withdraw from the engagement.

⁵ See paragraph .112 regarding the practitioner's assistance in developing subject matter or criteria.

Applicability to Agreed-Upon Procedures Engagements

.15 An agreed-upon procedures attest engagement is one in which a practitioner is engaged to issue a report of findings based on specific procedures performed on subject matter. The general, fieldwork, and reporting standards for attest engagements set forth in this section are applicable to agreed-upon procedures engagements. Because the application of these standards to agreed-upon procedures engagements is discussed in section 201, *Agreed-Upon Procedures Engagements*, such engagements are not discussed further in this section.

The Relationship of Attestation Standards to Quality Control Standards

.16 The practitioner is responsible for compliance with the American Institute of Certified Public Accountants' (AICPA's) Statements on Standards for Attestation Engagements (SSAEs) in an attest engagement. Rule 202, *Compliance With Standards*, of the Code of Professional Conduct (ET sec. 202 par. .01), requires members to comply with such standards when conducting professional services.

.17 A firm of practitioners has a responsibility to adopt a system of quality control in the conduct of a firm's attest practice.⁶ Thus, a firm should establish quality control policies and procedures to provide it with reasonable assurance that its personnel comply with the attestation standards in its attest engagements. The nature and extent of a firm's quality control policies and procedures depend on factors such as its size, the degree of operating autonomy allowed its personnel and its practice offices, the nature of its practice, its organization, and appropriate cost-benefit considerations. [As amended, effective September 2002, by SSAE No. 12.]

.18 Attestation standards relate to the conduct of individual attest engagements; quality control standards relate to the conduct of a firm's attest practice as a whole. Thus, attestation standards and quality control standards are related and the quality control policies and procedures that a firm adopts may affect both the conduct of individual attest engagements and the conduct of a firm's attest practice as a whole. However, deficiencies in or instances of noncompliance with a firm's quality control policies and procedures do not, in and of themselves, indicate that a particular engagement was not performed in accordance with attestation standards. [As amended, effective September 2002, by SSAE No. 12.]

General Standards

Training and Proficiency

.19 The first general standard is—*The practitioner must have adequate technical training and proficiency to perform the attestation engagement.* [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by SSAE No. 14.]

⁶ The elements of a system of quality control are identified in Statement on Quality Control Standards (SQCS) No. 8, *A Firm's System of Quality Control* (QC sec. 10). A system of quality control consists of policies designed to provide the firm with reasonable assurance that the firm and its personnel comply with professional standards and applicable legal and regulatory requirements and that reports issued by the firm are appropriate in the circumstances, and the procedures necessary to implement and monitor compliance with those policies. [As amended, effective September 2002, by SSAE No. 12. Footnote amended due to the issuance of SQCS No. 7, December 2008.]

.20 Performing attest services is different from preparing and presenting subject matter or an assertion. The latter involves collecting, classifying, summarizing, and communicating information; this usually entails reducing a mass of detailed data to a manageable and understandable form. On the other hand, performing attest services involves gathering evidence to support the subject matter or the assertion and objectively assessing the measurements and communications of the responsible party. Thus, attest services are analytical, critical, investigative, and are concerned with the basis and support for the subject matter or the assertion.

Adequate Knowledge of Subject Matter

.21 The second general standard is—*The practitioner must have adequate knowledge of the subject matter.* [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by SSAE No. 14.]

.22 A practitioner may obtain adequate knowledge of the subject matter through formal or continuing education, including self-study, or through practical experience. However, this standard does not necessarily require a practitioner to personally acquire all of the necessary knowledge in the subject matter to be qualified to express a conclusion. This knowledge requirement may be met, in part, through the use of one or more specialists on a particular attest engagement if the practitioner has sufficient knowledge of the subject matter (a) to communicate to the specialist the objectives of the work and (b) to evaluate the specialist's work to determine if the objectives were achieved.

Suitability and Availability of Criteria

.23 The third general standard is—*The practitioner must have reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users.* [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by SSAE No. 14.]

Suitability of Criteria

.24 Criteria are the standards or benchmarks used to measure and present the subject matter and against which the practitioner evaluates the subject matter.* Suitable criteria must have each of the following attributes:

- *Objectivity*—Criteria should be free from bias.
- *Measurability*—Criteria should permit reasonably consistent measurements, qualitative or quantitative, of subject matter.
- *Completeness*—Criteria should be sufficiently complete so that those relevant factors that would alter a conclusion about subject matter are not omitted.
- *Relevance*—Criteria should be relevant to the subject matter.

.25 Criteria that are established or developed by groups composed of experts that follow due process procedures, including exposure of the proposed

* An example of suitable criteria are the Trust Services criteria developed by the AICPA's Assurance Services Executive Committee. These criteria may be used when the subject matter of the engagement is the security, availability, or processing integrity of a system, or the confidentiality or privacy of the information processed or stored by that system. The Trust Services criteria are presented in TSP sections 100 and 200 of the AICPA's *Technical Practice Aids*. [Footnote added by the Assurance Services Executive Committee, January 2003. Footnote revised, May 2006, to reflect conforming changes necessary due to the issuance of Generally Accepted Privacy Principles.]

criteria for public comment, ordinarily should be considered suitable. Criteria promulgated by a body designated by the AICPA Governing Council under the AICPA Code of Professional Conduct are, by definition, considered to be suitable.

.26 Criteria may be established or developed by the client, the responsible party, industry associations, or other groups that do not follow due process procedures or do not as clearly represent the public interest. To determine whether these criteria are suitable, the practitioner should evaluate them based on the attributes described in paragraph .24.

.27 Regardless of who establishes or develops the criteria, the responsible party or the client is responsible for selecting the criteria and the client is responsible for determining that such criteria are appropriate for its purposes.

.28 The use of suitable criteria does not presume that all persons or groups would be expected to select the same criteria in evaluating the same subject matter. There may be more than one set of suitable criteria for a given subject matter. For example, in an engagement to express assurance about customer satisfaction, a responsible party may select as a criterion for customer satisfaction that all customer complaints are resolved to the satisfaction of the customer. In other cases, another responsible party may select a different criterion, such as the number of repeat purchases in the three months following the initial purchase.

.29 In evaluating the measurability attribute as described in paragraph .24, the practitioner should consider whether the criteria are sufficiently precise to permit people having competence in and using the same measurement criterion to be able to ordinarily obtain materially similar measurements. Consequently, practitioners should not perform an engagement when the criteria are so subjective or vague that reasonably consistent measurements, qualitative or quantitative, of subject matter cannot ordinarily be obtained. However, practitioners will not always reach the same conclusion because such evaluations often require the exercise of considerable professional judgment.

.30 For the purpose of assessing whether the use of particular criteria can be expected to yield reasonably consistent measurement and evaluation, consideration should be given to the nature of the subject matter. For example, *soft information*, such as forecasts or projections, would be expected to have a wider range of reasonable estimates than *hard* data, such as the calculated investment performance of a defined portfolio of managed investment products.

.31 Some criteria may be appropriate for only a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria. For instance, criteria set forth in a lease agreement for override payments may be appropriate only for reporting to the parties to the agreement because of the likelihood that such criteria would be misunderstood or misinterpreted by parties other than those who have specifically agreed to the criteria. Such criteria can be agreed upon directly by the parties or through a designated representative. If a practitioner determines that such criteria are appropriate only for a limited number of parties, the use of the report should be restricted to those specified parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria.

.32 The third general standard in paragraph .23 applies equally regardless of the level of the attest service to be provided. Consequently, it is inappropriate to perform a review engagement if the practitioner concludes that an examination cannot be performed because competent persons using the same criteria would not be able to obtain materially similar evaluations.

Availability of Criteria

.33 The criteria should be available to users in one or more of the following ways:

- a. Available publicly
- b. Available to all users through inclusion in a clear manner in the presentation of the subject matter or in the assertion
- c. Available to all users through inclusion in a clear manner in the practitioner's report
- d. Well understood by most users, although not formally available (for example, "The distance between points A and B is twenty feet;" the criterion of distance measured in feet is considered to be well understood)
- e. Available only to specified parties; for example, terms of a contract or criteria issued by an industry association that are available only to those in the industry

.34 If criteria are only available to specified parties, the practitioner's report should be restricted to those parties who have access to the criteria as described in paragraphs .78 and .80.

Independence

.35 The fourth general standard is—*The practitioner must maintain independence in mental attitude in all matters relating to the engagement.*⁷ [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by SSAE No. 14.]

.36 The practitioner should maintain the intellectual honesty and impartiality necessary to reach an unbiased conclusion about the subject matter or the assertion. This is a cornerstone of the attest function.

.37 In the final analysis, independence in mental attitude means objective consideration of facts, unbiased judgments, and honest neutrality on the part of the practitioner in forming and expressing conclusions. It implies not the attitude of an advocate or an adversary but an impartiality that recognizes an obligation for fairness. Independence in mental attitude presumes an undeviating concern for an unbiased conclusion about the subject matter or an assertion no matter what the subject matter or the assertion may be.

.38 The profession has established, through the AICPA's Code of Professional Conduct, precepts to guard against the *presumption* of loss of independence. Presumption is stressed because the possession of intrinsic independence is a matter of personal quality rather than of rules that formulate certain objective tests. Insofar as these precepts have been incorporated in the profession's code, they have the force of professional law for the independent practitioner.

⁷ The practitioner performing an attest engagement should be independent pursuant to Rule 101, *Independence*, of the Code of Professional Conduct (ET sec. 101 par. .01). Interpretation No. 11, "Modified Application of Rule 101 for Engagements Performed in Accordance With Statements on Standards for Attestation Engagements," of Rule 101 (ET sec. 101 par. .13) provides guidance about its application to certain attest engagements. [Footnote revised, December 2012, to reflect conforming changes necessary due to the revision of Ethics Interpretation 101-11.]

Due Professional Care

.39 The fifth general standard is—*The practitioner must exercise due professional care in the planning and performance of the engagement and the preparation of the report.* [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by SSAE No. 14.]

.40 Due professional care imposes a responsibility on each practitioner involved with the engagement to observe each of the attestation standards. Exercise of due professional care requires critical review at every level of supervision of the work done and the judgment exercised by those assisting in the engagement, including the preparation of the report.

.41 *Cooley on Torts*, a legal treatise, describes the obligation for due care as follows:

Every man who offers his services to another and is employed assumes the duty to exercise in the employment such skill as he possesses with reasonable care and diligence. In all these employments where peculiar skill is requisite, if one offers his services, he is understood as holding himself out to the public as possessing the degree of skill commonly possessed by others in the same employment, and if his pretensions are unfounded, he commits a species of fraud upon every man who employs him in reliance on his public profession. But no man, whether skilled or unskilled, undertakes that the task he assumes shall be performed successfully, and without fault or error; he undertakes for good faith and integrity, but not for infallibility, and he is liable to his employer for negligence, bad faith, or dishonesty, but not for losses consequent upon mere errors of judgment.⁸

Standards of Fieldwork

Planning and Supervision

.42 The first standard of fieldwork is—*The practitioner must adequately plan the work and must properly supervise any assistants.* [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by SSAE No. 14.]

.43 Proper planning and supervision contribute to the effectiveness of attest procedures. Proper planning directly influences the selection of appropriate procedures and the timeliness of their application, and proper supervision helps ensure that planned procedures are appropriately applied.

.44 Planning an attest engagement involves developing an overall strategy for the expected conduct and scope of the engagement. To develop such a strategy, practitioners need to have sufficient knowledge to enable them to understand adequately the events, transactions, and practices that, in their judgment, have a significant effect on the subject matter or the assertion.

.45 Factors to be considered by the practitioner in planning an attest engagement include the following:

- a. The criteria to be used

⁸ D. Haggard, *Cooley on Torts*, 472 (4th ed., 1932).

- b. Preliminary judgments about attestation risk⁹ and materiality for attest purposes
- c. The nature of the subject matter or the items within the assertion that are likely to require revision or adjustment
- d. Conditions that may require extension or modification of attest procedures
- e. The nature of the report expected to be issued

.46 The practitioner should establish an understanding with the client regarding the services to be performed for each engagement.¹⁰ Such an understanding reduces the risk that either the practitioner or the client may misinterpret the needs or expectations of the other party. For example, it reduces the risk that the client may inappropriately rely on the practitioner to protect the entity against certain risks or to perform certain functions that are the client's responsibility. The understanding should include the objectives of the engagement, management's responsibilities, the practitioner's responsibilities, and limitations of the engagement. The practitioner should document the understanding in the working papers, preferably through a written communication with the client. If the practitioner believes an understanding with the client has not been established, he or she should decline to accept or perform the engagement.

.47 The nature, extent, and timing of planning will vary with the nature and complexity of the subject matter or the assertion and the practitioner's prior experience with management. As part of the planning process, the practitioner should consider the nature, extent, and timing of the work to be performed to accomplish the objectives of the attest engagement. Nevertheless, as the attest engagement progresses, changed conditions may make it necessary to modify planned procedures.

.48 Supervision involves directing the efforts of assistants who participate in accomplishing the objectives of the attest engagement and determining whether those objectives were accomplished. Elements of supervision include instructing assistants, staying informed of significant problems encountered, reviewing the work performed, and dealing with differences of opinion among personnel. The extent of supervision appropriate in a given instance depends on many factors, including the nature and complexity of the subject matter and the qualifications of the persons performing the work.

.49 Assistants should be informed of their responsibilities, including the objectives of the procedures that they are to perform and matters that may affect the nature, extent, and timing of such procedures. The practitioner with final responsibility for the engagement should direct assistants to bring to his or her attention significant questions raised during the attest engagement so that their significance may be assessed.

.50 The work performed by each assistant should be reviewed to determine whether it was adequately performed and to evaluate whether the results are consistent with the conclusion to be presented in the practitioner's report.

⁹ *Attestation risk* is the risk that the practitioner may unknowingly fail to appropriately modify his or her attest report on the subject matter or an assertion that is materially misstated. It consists of (a) the risk (consisting of *inherent risk* and *control risk*) that the subject matter or assertion contains deviations or misstatements that could be material and (b) the risk that the practitioner will not detect such deviations or misstatements (*detection risk*).

¹⁰ See paragraph 29 of SQCS No. 8. [Footnote amended due to the issuance of SQCS No. 7, December 2008. Footnote revised, December 2012, due to the issuance of SQCS No. 8.]

Obtaining Sufficient Evidence

.51 The second standard of fieldwork is—*The practitioner must obtain sufficient evidence to provide a reasonable basis for the conclusion that is expressed in the report.* [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by SSAE No. 14.]

.52 Selecting and applying procedures that will accumulate evidence that is sufficient in the circumstances to provide a reasonable basis for the level of assurance to be expressed in the attest report requires the careful exercise of professional judgment. A broad array of available procedures may be applied in an attest engagement. In establishing a proper combination of procedures to appropriately restrict attestation risk, the practitioner should consider the following presumptions, bearing in mind that they are not mutually exclusive and may be subject to important exceptions.

- a. Evidence obtained from independent sources outside an entity provides greater assurance about the subject matter or the assertion than evidence secured solely from within the entity.
- b. Information obtained from the independent attester's direct personal knowledge (such as through physical examination, observation, computation, operating tests, or inspection) is more persuasive than information obtained indirectly.
- c. The more effective the controls over the subject matter, the more assurance they provide about the subject matter or the assertion.

.53 Thus, in the hierarchy of available attest procedures, those that involve search and verification (for example, inspection, confirmation, or observation), particularly when using independent sources outside the entity, are generally more effective in restricting attestation risk than those involving internal inquiries and comparisons of internal information (for example, analytical procedures and discussions with individuals responsible for the subject matter or the assertion). On the other hand, the latter are generally less costly to apply.

.54 In an attest engagement designed to provide a high level of assurance (referred to as an *examination*), the practitioner's objective is to accumulate sufficient evidence to restrict attestation risk to a level that is, in the practitioner's professional judgment, appropriately low for the high level of assurance that may be imparted by his or her report. In such an engagement, a practitioner should select from all available procedures—that is, procedures that assess inherent and control risk and restrict detection risk—any combination that can restrict attestation risk to such an appropriately low level.

.55 In an attest engagement designed to provide a moderate level of assurance (referred to as a *review*), the objective is to accumulate sufficient evidence to restrict attestation risk to a moderate level. To accomplish this, the types of procedures performed generally are limited to inquiries and analytical procedures (rather than also including search and verification procedures).

.56 Nevertheless, there will be circumstances in which inquiry and analytical procedures (a) cannot be performed, (b) are deemed less efficient than other procedures, or (c) yield evidence indicating that the subject matter or the assertion may be incomplete or inaccurate. In the first circumstance, the practitioner should perform other procedures that he or she believes can provide him or her with a level of assurance equivalent to that which inquiries and analytical procedures would have provided. In the second circumstance,

the practitioner may perform other procedures that he or she believes would be more efficient to provide him or her with a level of assurance equivalent to that which inquiries and analytical procedures would provide. In the third circumstance, the practitioner should perform additional procedures.

.57 The extent to which attestation procedures will be performed should be based on the level of assurance to be provided and the practitioner's consideration of (a) the nature and materiality of the information to be tested to the subject matter or the assertion taken as a whole, (b) the likelihood of misstatements, (c) knowledge obtained during current and previous engagements, (d) the responsible party's competence in the subject matter, (e) the extent to which the information is affected by the asserter's judgment, and (f) inadequacies in the responsible party's underlying data.

.58 As part of the attestation procedures, the practitioner considers the written assertion ordinarily provided by the responsible party. If a written assertion cannot be obtained from the responsible party, the practitioner should consider the effects on his or her ability to obtain sufficient evidence to form a conclusion about the subject matter. When the practitioner's client is the responsible party, a failure to obtain a written assertion should result in the practitioner concluding that a scope limitation exists.¹¹ When the practitioner's client is not the responsible party and a written assertion is not provided, the practitioner may be able to conclude that he or she has sufficient evidence to form a conclusion about the subject matter.

Representation Letter

.59 During an attest engagement, the responsible party makes many representations to the practitioner, both oral and written, in response to specific inquiries or through the presentation of subject matter or an assertion. Such representations from the responsible party are part of the evidential matter the practitioner obtains.

.60 Written representations from the responsible party ordinarily confirm representations explicitly or implicitly given to the practitioner, indicate and document the continuing appropriateness of such representations, and reduce the possibility of misunderstanding concerning the matters that are the subject of the representations. Accordingly, in an examination or a review engagement, a practitioner should consider obtaining a representation letter from the responsible party. Examples of matters that might appear in such a representation letter include the following:¹²

- a. A statement acknowledging responsibility for the subject matter and, when applicable, the assertion
- b. A statement acknowledging responsibility for selecting the criteria, where applicable

¹¹ When the client is the responsible party, it is presumed that the client will be capable of providing the practitioner with a written assertion regarding the subject matter. Failure to provide the written assertion in this circumstance is a client-imposed limitation on the practitioner's evidence-gathering efforts. In an examination, the practitioner should modify the report for the scope limitation. In a review engagement, such a scope limitation results in an incomplete review and the practitioner should withdraw from the engagement.

¹² Specific written representations will depend on the circumstances of the engagement (for example, whether the client is the responsible party) and the nature of the subject matter and the criteria. For example, when the client is not the responsible party but has selected the criteria, the practitioner might obtain the representation regarding responsibility for selection of the criteria from the client rather than the responsible party (see paragraph .61).

- c. A statement acknowledging responsibility for determining that such criteria are appropriate for its purposes, where the responsible party is the client
- d. The assertion about the subject matter based on the criteria selected
- e. A statement that all known matters contradicting the assertion and any communication from regulatory agencies affecting the subject matter or the assertion have been disclosed to the practitioner
- f. Availability of all records relevant to the subject matter
- g. A statement that any known events subsequent to the period (or point in time) of the subject matter being reported on that would have a material effect on the subject matter (or, if applicable, the assertion) have been disclosed to the practitioner
- h. Other matters as the practitioner deems appropriate

.61 When the client is not the responsible party, the practitioner should consider obtaining a letter of written representations from the client as part of the attest engagement. Examples of matters that might appear in such a representation letter include the following:

- a. A statement that any known events subsequent to the period (or point in time) of the subject matter being reported on that would have a material effect on the subject matter (or, if applicable, the assertion) have been disclosed to the practitioner
- b. A statement acknowledging the client's responsibility for selecting the criteria, where applicable
- c. A statement acknowledging the client's responsibility for determining that such criteria are appropriate for its purposes
- d. Other matters as the practitioner deems appropriate

.62 If the responsible party or the client refuses to furnish all written representations that the practitioner deems necessary, the practitioner should consider the effects of such a refusal on his or her ability to issue a conclusion about the subject matter. If the practitioner believes that the representation letter is necessary to obtain sufficient evidence to issue a report, the responsible party's or the client's refusal to furnish such evidence in the form of written representations constitutes a limitation on the scope of an examination sufficient to preclude an unqualified opinion and is ordinarily sufficient to cause the practitioner to disclaim an opinion or withdraw from an examination engagement. However, based on the nature of the representations not obtained or the circumstances of the refusal, the practitioner may conclude, in an examination engagement, that a qualified opinion is appropriate. Further, the practitioner should consider the effects of the refusal on his or her ability to rely on other representations. When a scope limitation exists in a review engagement, the practitioner should withdraw from the engagement. (See paragraph .75.)

Standards of Reporting¹³

.63 The first standard of reporting is—*The practitioner must identify the subject matter or the assertion being reported on and state the character of the engagement in the report.* [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by SSAE No. 14.]

¹³ The reporting standards apply only when the practitioner issues a report. [Footnote added, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by SSAE No. 14.]

.64 The practitioner who accepts an attest engagement should issue a report on the subject matter or the assertion or withdraw from the attest engagement. If the practitioner is reporting on the assertion, the assertion should be bound with or accompany the practitioner's report or the assertion should be clearly stated in the practitioner's report.¹⁴

.65 The statement of the character of an attest engagement includes the following two elements: (a) a description of the nature and scope of the work performed and (b) a reference to the professional standards governing the engagement. The terms *examination* and *review* should be used to describe engagements to provide, respectively, a high level and a moderate level of assurance. The reference to professional standards should be accomplished by referring to "attestation standards established by the American Institute of Certified Public Accountants."

.66 The second standard of reporting is—*The practitioner must state the practitioner's conclusion about the subject matter or the assertion in relation to the criteria against which the subject matter was evaluated in the report.* However, if conditions exist that, individually or in combination, result in one or more material misstatements or deviations from the criteria, the practitioner should modify the report and, to most effectively communicate with the reader of the report, should ordinarily express his or her conclusion directly on the subject matter,¹⁵ not on the assertion. [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by SSAE No. 14.]

.67 The practitioner should consider the concept of materiality in applying this standard. In expressing a conclusion, the practitioner should consider an omission or a misstatement to be material if the omission or misstatement—individually or when aggregated with others—is such that a reasonable person would be influenced by the omission or misstatement. The practitioner should consider both qualitative and quantitative aspects of omissions and misstatements.

.68 The term *general use* applies to attest reports that are not restricted to specified parties. General-use attest reports should be limited to two levels of assurance: one based on a restriction of attestation risk to an appropriately low level (an *examination*) and the other based on a restriction of attestation risk to a moderate level (a *review*). In an engagement to achieve a high level of assurance (an *examination*), the practitioner's conclusion should be expressed in the form of an opinion. When attestation risk has been restricted only to a moderate level (a *review*), the conclusion should be expressed in the form of negative assurance.

.69 A practitioner may report on subject matter or an assertion at multiple dates or covering multiple periods during which criteria have changed (for example, a report on comparative information). In those circumstances, the practitioner should determine whether the criteria are clearly stated or described for each of the dates or periods, and whether the changes have been adequately disclosed.

¹⁴ The use of a "hot link" within the practitioner's report to management's assertion, such as might be used in a WebTrustSM report, would meet this requirement. [Footnote renumbered by the issuance of SSAE No. 14, November 2006.]

¹⁵ Specific standards may require that the practitioner express his or her conclusion directly on the subject matter. For example, if management states in its assertion that a material weakness exists in the entity's internal control over financial reporting, the practitioner should state his or her opinion directly on the effectiveness of internal control, not on management's assertion related thereto. [Footnote renumbered by the issuance of SSAE No. 14, November 2006.]

.70 If the criteria used for the subject matter for the current date or period differ from those criteria used for the subject matter for a preceding date or period and the subject matter for the prior date or period is not presented, the practitioner should consider whether the changes in criteria are likely to be significant to users of the report. If so, the practitioner should determine whether the criteria are clearly stated or described and the fact that the criteria have changed is disclosed. (See paragraphs .76–.77.)

.71 The third standard of reporting is—*The practitioner must state all of the practitioner's significant reservations about the engagement, the subject matter, and, if applicable, the assertion related thereto in the report.* [As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by SSAE No. 14.]

.72 *Reservations about the engagement* refers to any unresolved problem that the practitioner had in complying with these attestation standards, interpretive standards, or the specific procedures agreed to by the specified parties. The practitioner should not express an unqualified conclusion unless the engagement has been conducted in accordance with the attestation standards. Such standards will not have been complied with if the practitioner has been unable to apply all the procedures that he or she considers necessary in the circumstances.

.73 Restrictions on the scope of an engagement, whether imposed by the client or by such other circumstances as the timing of the work or the inability to obtain sufficient evidence, may require the practitioner to qualify the assurance provided, to disclaim any assurance, or to withdraw from the engagement. For example, if the practitioner's client is the responsible party, a failure to obtain a written assertion should result in the practitioner concluding that a scope limitation exists. (See paragraph .58.)

.74 The practitioner's decision to provide a qualified opinion, to disclaim an opinion, or to withdraw because of a scope limitation in an examination engagement depends on an assessment of the effect of the omitted procedure(s) on his or her ability to express assurance. This assessment will be affected by the nature and magnitude of the potential effects of the matters in question, and by their significance to the subject matter or the assertion. If the potential effects are pervasive to the subject matter or the assertion, a disclaimer or withdrawal is more likely to be appropriate. When restrictions that significantly limit the scope of the engagement are imposed by the client or the responsible party, the practitioner generally should disclaim an opinion or withdraw from the engagement. The reasons for a qualification or disclaimer should be described in the practitioner's report.

.75 In a review engagement, when the practitioner is unable to perform the inquiry and analytical or other procedures he or she considers necessary to achieve the limited assurance contemplated by a review, or when the client is the responsible party and does not provide the practitioner with a written assertion, the review will be incomplete. A review that is incomplete is not an adequate basis for issuing a review report and, accordingly, the practitioner should withdraw from the engagement.

.76 *Reservations about the subject matter or the assertion* refers to any unresolved reservation about the assertion or about the conformity of the subject matter with the criteria, including the adequacy of the disclosure of material matters. They can result in either a qualified or an adverse opinion, depending on the materiality of the departure from the criteria against which the subject

matter or the assertion was evaluated, or a modified conclusion in a review engagement.

.77 Reservations about the subject matter or the assertion may relate to the measurement, form, arrangement, content, or underlying judgments and assumptions applicable to the subject matter or the assertion and its appended notes, including, for example, the terminology used, the amount of detail given, the classification of items, and the bases of amounts set forth. The practitioner considers whether a particular reservation should affect the report given the circumstances and facts of which he or she is aware at the time.

.78 The fourth standard of reporting is—*The practitioner must state in the report that the report is intended solely for the information and use of the specified parties under the following circumstances:*

- *When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria*
- *When the criteria used to evaluate the subject matter are available only to specified parties*
- *When reporting on subject matter and a written assertion has not been provided by the responsible party*
- *When the report is on an attestation engagement to apply agreed-upon procedures to the subject matter*

[As amended, effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2006, by SSAE No. 14.]

.79 The need for restriction on the use of a report may result from a number of circumstances, including the purpose of the report, the criteria used in preparation of the subject matter, the extent to which the procedures performed are known or understood, and the potential for the report to be misunderstood when taken out of the context in which it was intended to be used. A practitioner should consider informing his or her client that restricted-use reports are not intended for distribution to nonspecified parties, regardless of whether they are included in a document containing a separate general-use report.^{16, 17} However, a practitioner is not responsible for controlling a client's distribution of restricted-use reports. Accordingly, a restricted-use report should alert readers to the restriction on the use of the report by indicating that the report is not intended to be and should not be used by anyone other than the specified parties.

.80 An attest report that is restricted as to use should contain a separate paragraph at the end of the report that includes the following elements:

- a.* A statement indicating that the report is intended solely for the information and use of the specified parties

¹⁶ In some cases, restricted-use reports filed with regulatory agencies are required by law or regulation to be made available to the public as a matter of public record. Also, a regulatory agency as part of its oversight responsibility for an entity may require access to restricted-use reports in which they are not named as a specified party. [Footnote renumbered by the issuance of SSAE No. 14, November 2006.]

¹⁷ This section does not preclude the practitioner, in connection with establishing the terms of the engagement, from reaching an understanding with the client that the intended use of the report will be restricted, and from obtaining the client's agreement that the client and the specified parties will not distribute the report to parties other than those identified in the report. [Footnote renumbered by the issuance of SSAE No. 14, November 2006.]

- b. An identification of the specified parties to whom use is restricted
- c. A statement that the report is not intended to be and should not be used by anyone other than the specified parties

An example of such a paragraph is the following.

This report is intended solely for the information and use of [*the specified parties*] and is not intended to be and should not be used by anyone other than these specified parties.

.81 Other attestation standards may specify situations that require restricted reports such as the following:

- a. A review report on management's discussion and analysis
- b. A report on prospective financial information when the report is intended for use by the responsible party alone, or by the responsible party and third parties with whom the responsible party is negotiating directly, as described in paragraph .10 of section 301, *Financial Forecasts and Projections*.

Furthermore, nothing in this section precludes a practitioner from restricting the use of any report.

.82 If a practitioner issues a single combined report covering both (a) subject matter or presentations that require a restriction on use to specified parties and (b) subject matter or presentations that ordinarily do not require such a restriction, the use of such a single combined report should be restricted to the specified parties.

.83 In some instances, a separate restricted-use report may be included in a document that also contains a general-use report. The inclusion of a separate restricted-use report in a document that contains a general-use report does not affect the intended use of either report. The restricted-use report remains restricted as to use, and the general-use report continues to be for general use.

Examination Reports

.84 When expressing an opinion, the practitioner should clearly state whether, in his or her opinion, (a) the subject matter is based on (or in conformity with) the criteria in all material respects or (b) the assertion is presented (or fairly stated), in all material respects, based on the criteria. Reports expressing an opinion may be qualified or modified for some aspect of the subject matter, the assertion or the engagement (see the third reporting standard). However, as stated in paragraph .66, if conditions exist that, individually or in combination, result in one or more material misstatements or deviations from the criteria, the practitioner should modify the report and, to most effectively communicate with the reader of the report, should ordinarily express his or her conclusion directly on the subject matter, not on the assertion. In addition, such reports may emphasize certain matters relating to the attest engagement, the subject matter, or the assertion. The form of the practitioner's report will depend on whether the practitioner opines on the subject matter or the assertion.

.85 The practitioner's examination report on subject matter should include the following:

- a. A title that includes the word *independent*
- b. An identification of the subject matter and the responsible party
- c. A statement that the subject matter is the responsibility of the responsible party

- d. A statement that the practitioner's responsibility is to express an opinion on the subject matter based on his or her examination
- e. A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, and, accordingly, included procedures that the practitioner considered necessary in the circumstances
- f. A statement that the practitioner believes the examination provides a reasonable basis for his or her opinion
- g. The practitioner's opinion on whether the subject matter is based on (or in conformity with) the criteria in all material respects
- h. A statement restricting the use of the report to specified parties under the following circumstances (see paragraphs .78–.83):
 - (1) When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria
 - (2) When the criteria used to evaluate the subject matter are available only to the specified parties
 - (3) When a written assertion has not been provided by the responsible party (The practitioner should also include a statement to that effect in the introductory paragraph of the report.)
- i. The manual or printed signature of the practitioner's firm
- j. The date of the examination report

Appendix A [paragraph .114], *Examination Reports*, includes a standard examination report on subject matter. (See example 1.)

.86 The practitioner's examination report on an assertion should include the following:

- a. A title that includes the word *independent*
- b. An identification of the assertion and the responsible party (When the assertion does not accompany the practitioner's report, the first paragraph of the report should also contain a statement of the assertion.)
- c. A statement that the assertion is the responsibility of the responsible party
- d. A statement that the practitioner's responsibility is to express an opinion on the assertion based on his or her examination
- e. A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, and, accordingly, included procedures that the practitioner considered necessary in the circumstances
- f. A statement that the practitioner believes the examination provides a reasonable basis for his or her opinion
- g. The practitioner's opinion on whether the assertion is presented (or fairly stated), in all material respects, based on the criteria (However, see paragraph .66.)
- h. A statement restricting the use of the report to specified parties under the following circumstances (see paragraphs .78–.83):
 - (1) When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment

or can be presumed to have an adequate understanding of the criteria

- (2) When the criteria used to evaluate the subject matter are available only to the specified parties
 - i. The manual or printed signature of the practitioner's firm
 - j. The date of the examination report

Appendix A [paragraph .114] includes a standard examination report on an assertion. (See example 2.)

.87 Nothing precludes the practitioner from examining an assertion but opining directly on the subject matter. (See Appendix A [paragraph .114], example 3.)

Review Reports

.88 In a review report, the practitioner's conclusion should state whether any information came to the practitioner's attention on the basis of the work performed that indicates that (a) the subject matter is not based on (or in conformity with) the criteria or (b) the assertion is not presented (or fairly stated) in all material respects based on the criteria. (As discussed more fully in the commentary to the third reporting standard, if the subject matter or the assertion is not modified to correct for any such information that comes to the practitioner's attention, such information should be described in the practitioner's report.)

.89 The practitioner's review report on subject matter should include the following:

- a. A title that includes the word *independent*
- b. An identification of the subject matter and the responsible party
- c. A statement that the subject matter is the responsibility of the responsible party
- d. A statement that the review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants
- e. A statement that a review is substantially less in scope than an examination, the objective of which is an expression of opinion on the subject matter, and accordingly, no such opinion is expressed
- f. A statement about whether the practitioner is aware of any material modifications that should be made to the subject matter in order for it to be based on (or in conformity with), in all material respects, the criteria, other than those modifications, if any, indicated in his or her report
- g. A statement restricting the use of the report to specified parties under the following circumstances (see paragraphs .78–.83):
 - (1) When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria
 - (2) When the criteria used to evaluate the subject matter are available only to the specified parties

- (3) When a written assertion has not been provided by the responsible party and the responsible party is not the client (The practitioner should also include a statement to that effect in the introductory paragraph of the report.)

h. The manual or printed signature of the practitioner's firm

i. The date of the review report

Appendix B [paragraph .115] *Review Reports*, includes a standard review report on subject matter. (See example 1.) Appendix B [paragraph .115] also includes a review report on subject matter that is the responsibility of a party other than client; the report is restricted as to use because a written assertion has not been provided by the responsible party. (See example 2.)

.90 The practitioner's review report on an assertion should include the following:

a. A title that includes the word *independent*

b. An identification of the assertion and the responsible party (When the assertion does not accompany the practitioner's report, the first paragraph of the report should also contain a statement of the assertion.)

c. A statement that the assertion is the responsibility of the responsible party

d. A statement that the review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants

e. A statement that a review is substantially less in scope than an examination, the objective of which is an expression of opinion on the assertion, and accordingly, no such opinion is expressed

f. A statement about whether the practitioner is aware of any material modifications that should be made to the assertion in order for it to be presented (or fairly stated), in all material respects, based on (or in conformity with) the criteria, other than those modifications, if any, indicated in his or her report (However, see paragraph .66.)

g. A statement restricting the use of the report to specified parties under the following circumstances (see paragraphs .78–.83):

- (1) When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria

- (2) When the criteria used to evaluate the subject matter are available only to the specified parties

h. The manual or printed signature of the practitioner's firm

i. The date of the review report

Appendix B [paragraph .115] includes a review report on an assertion that is restricted as to use because the criteria are available only to the specified parties. (See example 3.)

Other Information in a Client-Prepared Document Containing the Practitioner's Attest Report¹⁸

.91 A client may publish various documents that contain information (hereinafter referred to as *other information*) in addition to the practitioner's attest report on subject matter (or on an assertion related thereto). Paragraphs .92–.94 provide guidance to the practitioner when the other information is contained in (a) annual reports to holders of securities or beneficial interests, annual reports of organizations for charitable or philanthropic purposes distributed to the public, and annual reports filed with regulatory authorities under the Securities Exchange Act of 1934 or (b) other documents to which the practitioner, at the client's request, devotes attention. These paragraphs are not applicable when an attest report appears in a registration statement filed under the Securities Act of 1933. (See AU-C section 920, *Letters for Underwriters and Certain Other Requesting Parties*, and AU-C section 925, *Filings With the U.S. Securities and Exchange Commission Under the Securities Act of 1933*.) Also, these paragraphs are not applicable to other information on which the practitioner or another practitioner is engaged to issue an opinion. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.92 The practitioner's responsibility with respect to other information in such a document does not extend beyond the information identified in his or her report, and the practitioner has no obligation to perform any procedures to corroborate any other information contained in the document. However, the practitioner should read the other information not covered by the practitioner's report or by the report of the other practitioner and consider whether it, or the manner of its presentation, is materially inconsistent with the information appearing in the practitioner's report. If the practitioner believes that the other information is inconsistent with the information appearing in the practitioner's report, he or she should consider whether the practitioner's report requires revision. If the practitioner concludes that the report does not require revision, he or she should request the client to revise the other information. If the other information is not revised to eliminate the material inconsistency, the practitioner should consider other actions, such as revising his or her report to include an explanatory paragraph describing the material inconsistency, withholding the use of his or her report in the document, or withdrawing from the engagement.

.93 If, while reading the other information for the reasons set forth in paragraph .92, the practitioner becomes aware of information that he or she believes is a material misstatement of fact that is not a material inconsistency as described in paragraph .92, he or she should discuss the matter with the client. In connection with this discussion, the practitioner should consider that he or she may not have the expertise to assess the validity of the statement, that there may be no standards by which to assess its presentation, and that there may be valid differences of judgment or opinion. If the practitioner concludes he or she has a valid basis for concern, the practitioner should propose that the client consult with some other party whose advice may be useful, such as the entity's legal counsel.

¹⁸ Such guidance pertains only to other information in a client-prepared document. The practitioner has no responsibility to read information contained in documents of nonclients. Further, the practitioner is not required to read information contained in electronic sites, or to consider the consistency of other information in electronic sites with the original documents since electronic sites are a means of distributing information and are not "documents" as that term is used in this section. Practitioners may be asked by their clients to render attest services with respect to information in electronic sites, in which case, other attest standards may apply to those services. [Footnote renumbered by the issuance of SSAE No. 14, November 2006.]

.94 If, after discussing the matter, the practitioner concludes that a material misstatement of fact remains, the action taken will depend on his or her judgment in the circumstances. The practitioner should consider steps such as notifying the client's management and audit committee in writing of his or her views concerning the information and consulting his or her legal counsel about further action appropriate in the circumstances.¹⁹

Consideration of Subsequent Events in an Attest Engagement

.95 Events or transactions sometimes occur subsequent to the point in time or period of time of the subject matter being tested but prior to the date of the practitioner's report that have a material effect on the subject matter and therefore require adjustment or disclosure in the presentation of the subject matter or assertion. These occurrences are referred to as *subsequent events*. In performing an attest engagement, a practitioner should consider information about subsequent events that comes to his or her attention. Two types of subsequent events require consideration by the practitioner.

.96 The first type consists of events that provide additional information with respect to conditions that existed at the point in time or during the period of time of the subject matter being tested. This information should be used by the practitioner in considering whether the subject matter is presented in conformity with the criteria and may affect the presentation of the subject matter, the assertion, or the practitioner's report.

.97 The second type consists of those events that provide information with respect to conditions that arose subsequent to the point in time or period of time of the subject matter being tested that are of such a nature and significance that their disclosure is necessary to keep the subject matter from being misleading. This type of information will not normally affect the practitioner's report if the information is appropriately disclosed.

.98 While the practitioner has no responsibility to detect subsequent events, the practitioner should inquire of the responsible party (and his or her client if the client is not the responsible party) as to whether they are aware of any subsequent events, through the date of the practitioner's report, that would have a material effect on the subject matter or assertion.²⁰ If the practitioner has decided to obtain a representation letter, the letter ordinarily would include a representation concerning subsequent events. (See paragraphs .60–.61.)

.99 The practitioner has no responsibility to keep informed of events subsequent to the date of his or her report; however, the practitioner may later become aware of conditions that existed at that date that might have affected the practitioner's report had he or she been aware of them. In such circumstances, the practitioner may wish to consider the guidance in AU-C section

¹⁹ If the client does not have an audit committee, the practitioner should communicate with individuals whose authority and responsibility are equivalent to those of an audit committee, such as the board of directors, the board of trustees, an owner in a owner-managed entity, or those who engaged the practitioner. [Footnote renumbered by the issuance of Statement on SSAE No. 14, November 2006.]

²⁰ For certain subject matter, specific subsequent event standards have been developed to provide additional requirements for engagement performance and reporting. Additionally, a practitioner engaged to examine the design or effectiveness of internal control over items not covered by section 501, *An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements*, or section 601, *Compliance Attestation*, should consider the subsequent events guidance set forth in paragraphs .129–.134 of section 501 and paragraphs .50–.52 of section 601. [Footnote renumbered by the issuance of SSAE No. 14, November 2006.]

560, *Subsequent Events and Subsequently Discovered Facts*. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Attest Documentation²¹

.100 The practitioner should prepare and maintain attest documentation, the form and content of which should be designed to meet the circumstances of the particular attest engagement.^[22] Attest documentation is the principal record of attest procedures applied, information obtained, and conclusions or findings reached by the practitioner in the engagement. The quantity, type, and content of attest documentation are matters of the practitioner's professional judgment. [As amended, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by SSAE No. 11.]

.101 Attest documentation serves mainly to:

- a. Provide the principal support for the practitioner's report, including the representation regarding observance of the standards of fieldwork, which is implicit in the reference in the report to attestation standards.²³
- b. Aid the practitioner in the conduct and supervision of the attest engagement.

For examinations of prospective financial statements, attest documentation ordinarily should indicate that the process by which the entity develops its prospective financial statements was considered in determining the scope of the examination. [Paragraph added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by SSAE No. 11.]

.102 Examples of attest documentation are work programs, analyses, memoranda, letters of confirmation and representation, abstracts or copies of entity documents, and schedules or commentaries prepared or obtained by the practitioner. Attest documentation may be in paper form, electronic form, or other media. [Paragraph renumbered and amended, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by SSAE No. 11.]

.103 Attest documentation should be sufficient to (a) enable members of the engagement team with supervision and review responsibilities to understand the nature, timing, extent, and results of attest procedures performed,

²¹ *Attest documentation* also may be referred to as *working papers*. [Footnote added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by SSAE No. 11. Footnote renumbered by the issuance of SSAE No. 14, November 2006.]

^[22] [Footnote renumbered and deleted by the issuance of SSAE No. 11, January 2002. Footnote subsequently renumbered by the issuance of SSAE No. 14, November 2006.]

²³ However, there is no intention to imply that the practitioner would be precluded from supporting his or her report by other means in addition to attest documentation. [Footnote added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by SSAE No. 11. Footnote renumbered by the issuance of SSAE No. 14, November 2006.]

and the information obtained²⁴ and (b) indicate the engagement team member(s) who performed and reviewed the work. [Paragraph added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by SSAE No. 11.]

.104 Attest documentation is the property of the practitioner, and some states recognize this right of ownership in their statutes. The practitioner should adopt reasonable procedures to retain attest documentation for a period of time sufficient to meet the needs of his or her practice and to satisfy any applicable legal or regulatory requirements for records retention.^{25, [26]} [Paragraph renumbered and amended, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by SSAE No. 11.]

.105 The practitioner has an ethical, and in some situations a legal, obligation to maintain the confidentiality of client information or information of the responsible party.²⁷ Because attest documentation often contains confidential information, the practitioner should adopt reasonable procedures to maintain the confidentiality of that information.[†] [Paragraph added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by SSAE No. 11.]

.106 The practitioner also should adopt reasonable procedures to prevent unauthorized access to attest documentation. [Paragraph added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by SSAE No. 11.]

.107 Certain attest documentation may sometimes serve as a useful reference source for the client, but it should not be regarded as a part of, or a substitute for, the client's records. [Paragraph renumbered and amended, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by SSAE No. 11.]

[.108] [Paragraph renumbered and deleted by the issuance of SSAE No. 11, January 2002.]

²⁴ A firm of practitioners has a responsibility to adopt a system of quality control policies and procedures to provide the firm with reasonable assurance that its personnel comply with applicable professional standards, including attestation standards, and the firm's standards of quality in conducting individual attest engagements. Review of attest documentation and discussions with engagement team members are among the procedures a firm performs when monitoring compliance with the quality control policies and procedures that it has established. (Also, see paragraphs .17–.18.) [Footnote added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by SSAE No. 11. Footnote renumbered by the issuance of SSAE No. 14, November 2006.]

²⁵ The procedures should enable the practitioner to access electronic attest documentation throughout the retention period. [Footnote added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by SSAE No. 11. Footnote renumbered by the issuance of SSAE No. 14, November 2006.]

^[26] [Footnote renumbered and deleted by the issuance of SSAE No. 11, January 2002. Footnote subsequently renumbered by the issuance of SSAE No. 14, November 2006.]

²⁷ Also, see Rule 301, *Confidential Client Information*, of the AICPA's Code of Professional Conduct (ET sec. 301 par. .01). [Footnote added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by SSAE No. 11. Footnote renumbered by the issuance of SSAE No. 14, November 2006.]

[†] **Note:** See Interpretation No. 4, "Providing Access to or Copies of Attest Documentation to a Regulator," of section 101 (sec. 9101 par. .43–.46).

Attest Services Related to Consulting Service Engagements

Attest Services as Part of a Consulting Service Engagement

.109 When a practitioner provides an attest service (as defined in this section) as part of a consulting service engagement, this SSAE applies only to the attest service. The SSCS applies to the balance of the consulting service engagement. [Paragraph renumbered by the issuance of SSAE No. 11, January 2002.]

.110 When the practitioner determines that an attest service is to be provided as part of a consulting service engagement, the practitioner should inform the client of the relevant differences between the two types of services and obtain concurrence that the attest service is to be performed in accordance with the appropriate professional requirements. The practitioner should take such actions because the professional requirements for an attest service differ from those for a consulting service engagement. [Paragraph renumbered by the issuance of SSAE No. 11, January 2002.]

.111 The practitioner should issue separate reports on the attest engagement and the consulting service engagement and, if presented in a common binder, the report on the attest engagement or service should be clearly identified and segregated from the report on the consulting service engagement. [Paragraph renumbered by the issuance of SSAE No. 11, January 2002.]

Subject Matter, Assertions, Criteria, and Evidence

.112 An attest service may involve subject matter, an assertion, criteria, or evidential matter developed during a concurrent or prior consulting service engagement. Subject matter or an assertion developed with the practitioner's advice and assistance as the result of such consulting services engagement may be the subject of an attest engagement, provided the responsible party accepts and acknowledges responsibility for the subject matter or assertion. (See paragraph .12.) Criteria developed with the practitioner's assistance may be used to evaluate subject matter in an attest engagement, provided such criteria meet the requirements of this section. Relevant information obtained in the course of a concurrent or prior consulting service engagement may be used as evidential matter in an attest engagement, provided the information satisfies the requirements of this section. [Paragraph renumbered by the issuance of SSAE No. 11, January 2002.]

Effective Date

.113 This section is effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001. Early application is permitted. [Paragraph renumbered by the issuance of SSAE No. 11, January 2002.]

.114

Appendix A

Examination Reports

Example 1

This is a standard examination report on subject matter for general use. This report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. (See paragraphs .78–.83 for guidance on restricting the use of the report when criteria are available only to specified parties; see Example 4 for an illustration of such a report.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have examined the *[identify the subject matter—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*. XYZ Company's management is responsible for the schedule of investment returns. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting *[identify the subject matter—for example, XYZ Company's schedule of investment returns]* and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

In our opinion, the schedule referred to above presents, in all material respects, *[identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX]* based on *[identify criteria—for example, the ABC criteria set forth in Note 1]*.

[Date]

Example 2

This report is a standard examination report on an assertion for general use. The report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. (See paragraphs .78–.83 for guidance on restricting the use of the report when criteria are available only to specified parties.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have examined management's assertion that *[identify the assertion—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX is presented in accordance with ABC criteria set forth in Note 1]*. XYZ Company's management is responsible for the assertion. Our responsibility is to express an opinion on the assertion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting management's assertion and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the assertion.]

In our opinion, management's assertion referred to above is fairly stated, in all material respects, based on *[identify established or stated criteria—for example, the ABC criteria set forth in Note 1]*.

[Signature]

[Date]

Example 3

This is an examination report for general use; the introductory paragraph states the practitioner has examined management's assertion but the practitioner opines directly on the subject matter (see paragraph .87). The report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. (See paragraphs .78–.83 for guidance on restricting the use of the report when criteria are available only to specified parties.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have examined management's assertion that *[identify the assertion—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX is presented in accordance with the ABC criteria set forth in Note 1]*. XYZ Company's management is responsible for the assertion. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting *[identify the subject matter—for example, XYZ Company's schedule of investment returns]* and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the assertion.]

In our opinion, the schedule referred to above, presents, in all material respects, *[identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX]* based on *[identify criteria—for example, the ABC criteria set forth in Note 1]*.

[Signature]

[Date]

Example 4

This is an examination report on subject matter. Although suitable criteria exist, use of the report is restricted because the criteria are available only to specified parties. (See paragraph .34.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have examined the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX. XYZ Company's management is responsible for the schedule of investment returns. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting *[identify the subject matter—for example, XYZ Company's schedule of investment returns]* and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the assertion.]

In our opinion, the schedule referred to above, presents, in all material respects, *[identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX]* based on the ABC criteria referred to in the investment management agreement between XYZ Company and DEF Investment Managers, Ltd., dated November 15, 20X1.

This report is intended solely for the information and use of XYZ Company and *[identify other specified parties—for example, DEF Investment Managers, Ltd.]* and is not intended to be and should not be used by anyone other than these specified parties.

Example 5

This is an examination report with a qualified opinion because conditions exist that, individually or in combination, result in one or more material misstatements or deviations from the criteria; the report is for general use. The report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. (See paragraphs .78–.83 for guidance on restricting the use of the report when criteria are available only to specified parties.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have examined the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX. XYZ Company's management is responsible for the schedule of investment returns. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting *[identify the subject matter—for example, XYZ Company's schedule of investment returns]* and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

Our examination disclosed the following *[describe condition(s) that, individually or in the aggregate, resulted in a material misstatement or deviation from the criteria]*.

In our opinion, except for the material misstatement [or *deviation from the criteria*] described in the preceding paragraph, the schedule referred to above, presents, in all material respects, [*identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX*] based on [*identify criteria—for example, the ABC criteria set forth in Note 1*].

[Signature]

[Date]

Example 6

This is an examination report that contains a disclaimer of opinion because of a scope restriction. (See paragraph .74 for reporting guidance when there is a scope restriction.) The report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter.

Independent Accountant's Report

We were engaged to examine the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX. XYZ Company's management is responsible for the schedule of investment returns.

[Scope paragraph should be omitted.]

[Include paragraph to describe scope restrictions.]

Because of the restriction on the scope of our examination discussed in the preceding paragraph, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on whether the schedule referred to above presents, in all material respects, [*identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX*] based on [*identify criteria—for example, the ABC criteria set forth in Note 1*].

[Signature]

[Date]

Example 7

This is an examination report on subject matter that is the responsibility of a party other than the client. The report is restricted as to use since a written assertion has not been provided by the responsible party. (See paragraph .78.) The subject matter pertains to criteria that are suitable and are available to the client.

Independent Accountant's Report

To the Board of Directors

DEF Company:

We have examined the [*identify the subject matter—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX*]. XYZ Company's management is responsible for the schedule of investment returns. XYZ management did not provide us a written assertion about their schedule of investment returns for the year ended December 31, 20XX. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting [*identify the subject matter—for example, XYZ Company's schedule of investment returns*] and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

In our opinion, the schedule referred to above presents, in all material respects, [*identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX*] based on [*identify criteria—for example, the ABC criteria set forth in Note 1*].

This report is intended solely for the information and use of the management and board of directors of DEF Company and is not intended to be and should not be used by anyone other than these specified parties.

Appendix B

Review Reports

Example 1

This is a standard review report on subject matter for general use. The report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. (See paragraphs .78–.83 for guidance on restricting the use of the report when criteria are available only to specified parties.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have reviewed the *[identify the subject matter—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*. XYZ Company's management is responsible for the schedule of investment returns.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on *[identify the subject matter—for example, XYZ Company's schedule of investment returns]*. Accordingly, we do not express such an opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

Based on our review, nothing came to our attention that caused us to believe that the *[identify the subject matter—for example, schedule of investment returns of XYZ Company for the year ended December 31, 20XX]* is not presented, in all material respects, in conformity with *[identify the criteria—for example, the ABC criteria set forth in Note 1]*.

[Signature]

[Date]

Example 2

This is a review report on subject matter that is the responsibility of a party other than the client. This review report is restricted as to use since a written assertion has not been provided by the responsible party. (See paragraph .78.) The subject matter pertains to criteria that are suitable and are available to the client.

Independent Accountant's Report

To the Board of Directors

DEF Company:

We have reviewed *[identify the subject matter—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*. XYZ Company's management is responsible for the schedule of investment returns. XYZ Company's management did not provide us a written assertion about their schedule of investment returns for the year ended December 31, 20XX.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on *[identify the subject matter—for example, XYZ Company's schedule of investment returns]*. Accordingly, we do not express such an opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

Based on our review, nothing came to our attention that caused us to believe that *[identify the subject matter—for example, the schedule of investment returns of XYZ Company for the year ended December 31, 20XX]* is not presented, in all material respects, in conformity with *[identify the criteria—for example, the ABC criteria set forth in Note 1]*.

This report is intended solely for the information and use of the management and board of directors of DEF Company and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

Example 3

This is a review report on an assertion. Although suitable criteria exist for the subject matter, the report is restricted as to use since the criteria are available only to specified parties; if the criteria are available as described in paragraph .33(a)–(d), the paragraph restricting the use of the report would be omitted. A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have reviewed management's assertion that *[identify the assertion—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX is presented in accordance with the ABC criteria referred to in Note 1]*. XYZ Company's management is responsible for the assertion.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's assertion. Accordingly, we do not express such an opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the assertion.]

Based on our review, nothing came to our attention that caused us to believe that management's assertion referred to above is not fairly stated, in all material respects, based on *[identify the criteria—for example, the ABC criteria referred to in the investment management agreement between XYZ Company and DEF Investment Managers, Ltd., dated November 15, 20X1]*.

This report is intended solely for the information and use of XYZ Company and *[identify other specified parties—for example, DEF Investment Managers, Ltd.]* and is not intended to be and should not be used by anyone other than these specified parties.

AT Section 9101

Attest Engagements: Attest Engagements Interpretations of Section 101

1. Defense Industry Questionnaire on Business Ethics and Conduct¹

.01 Question—Certain defense contractors have made a commitment to adopt and implement six principles of business ethics and conduct contained in the *Defense Industry Initiatives on Business Ethics and Conduct* (initiatives). One of those principles concerns defense contractors' public accountability for their commitment to the initiatives. That public accountability begins by the contractor completing an annual *Public Accountability Questionnaire* (questionnaire).

.02 Each of the participating signatory companies (signatories) completes a questionnaire concerning certain policies, procedures, and programs that were to have been in place during the reporting period. The public accountability process requires signatories to perform internal audits and to provide officer certifications as to whether the responses to the questionnaire are current and accurate.

.03 Alternatively, a defense contractor may request its independent public accountant (practitioner) to examine or review its responses to the questionnaire for the purpose of expressing a conclusion about the appropriateness of those responses in a report. Would such an engagement be an attest engagement under section 101, *Attest Engagements*?

.04 Interpretation—Section 101 states that the attestation standards apply when a CPA in the practice of public accounting is engaged to issue or does issue an examination, a review, or an agreed-upon procedures report on subject matter, or an assertion about the subject matter that is the responsibility of another party. When a practitioner is engaged by a defense contractor to provide an examination or a review report on the contractor's written responses to the questionnaire, such an engagement involves subject matter that is the responsibility of the defense contractor. Consequently, section 101 applies to such engagements.

.05 Question—Paragraph .23 of section 101 specifies that "the practitioner must have reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users." What are the criteria against which such subject matter is to be evaluated and are such criteria suitable and available?

.06 Interpretation—The criteria for evaluating the defense contractor's responses are set forth primarily in the questionnaire and the instructions thereto. The suitability of those criteria should be evaluated by assessing whether the criteria meet the characteristics discussed in paragraph .24 of section 101.

.07 The criteria set forth in the questionnaire and its instructions will, when properly followed, be suitable. Although these should provide suitable

¹ Information regarding the Defense Industry Initiative on Business Ethics and Conduct (DII) is available at DII's website www.dii.org.

criteria, the questionnaire and its instructions are not generally available. Therefore, the practitioner's report should normally be restricted. The availability requirement can be met if the defense contractor attaches the criteria to the presentation.

.08 Question—What is the nature of the procedures that should be applied to the questionnaire responses?

.09 Interpretation—The objective of the procedures performed in either an examination or a review engagement is to obtain evidential matter that the defense contractor has designed and placed in operation policies and programs in a manner that supports the signatory's responses to each of the questions on the questionnaire and that the policies and programs operated during the period covered by the questionnaire. The objective does not include providing assurance about whether the defense contractor's policies and programs operated effectively to ensure compliance with the defense contractor's code of business ethics and conduct on the part of individual employees or about whether the defense contractor and its employees have complied with federal procurement laws. In an examination, the evidential matter should be sufficient to limit attestation risk to a level that is appropriately low for the high degree of assurance imparted by an examination report. In a review, this evidential matter should be sufficient to limit attestation risk to a moderate level.

.10 Examination procedures include obtaining evidential matter by reading relevant policies and programs, making inquiries of appropriate defense contractor personnel, inspecting documents and records, confirming defense contractor assertions with its employees or others, and observing activities. In an examination it will be necessary for a practitioner's procedures to go beyond simply reading relevant policies and programs and making inquiries of appropriate defense contractor personnel. Alternatively, review procedures are generally limited to reading relevant policies and procedures and making inquiries of appropriate defense contractor personnel. When applying examination or review procedures, the practitioner should assess the appropriateness (including the comprehensiveness) of the policies and programs supporting the signatory's responses to each of the questions on the questionnaire.

.11 A particular defense contractor's policies and programs may vary from those of other defense contractors. As a result, evidential matter obtained from the procedures performed cannot be evaluated solely on a quantitative basis. Consequently, it is not practicable to establish only quantitative guidelines for determining the nature or extent of the evidential matter that is necessary to provide the assurance required in either an examination or a review. The qualitative aspects should also be considered.

.12 In determining the nature, timing, and extent of examination or review procedures, the practitioner should consider information obtained in the performance of other services for the defense contractor, for example, the audit of the defense contractor's financial statements. For multi-location defense contractors, whether policies and programs operated during the period should be evaluated for both the defense contractor's headquarters and for selected defense contracting locations. The practitioner may consider using the work of the defense contractor's internal auditors. AU-C section 610, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, may be useful in that consideration.

.13 Examination procedures, and in some instances review procedures, may require access to information involving specific instances of actual or alleged noncompliance with laws. An inability to obtain access to such information because of restrictions imposed by a defense contractor (for example, to protect

attorney-client privilege) may constitute a scope limitation. Paragraphs .73–.75 of section 101 provide guidance in such situations. The practitioner should assess the effect of the inability to obtain access to such information on his or her ability to form a conclusion about whether the related policy or program operated during the period. If the defense contractor's reasons for not permitting access to the information are reasonable (for example, the information is the subject of litigation or a governmental investigation) and have been approved by an executive officer of the defense contractor, the occurrences of restricted access to information are few in number, and the practitioner has access to other information about that specific instance or about other instances that is sufficient to permit a conclusion to be formed about whether the related policy or program operated during the period, the practitioner ordinarily would conclude that it is not necessary to disclaim assurance.

.14 If the practitioner's scope of work has been restricted with respect to one or more questions, the practitioner should consider the implications of that restriction on the practitioner's ability to form a conclusion about other questions. In addition, as the nature or number of questions on which the defense contractor has imposed scope limitations increases in significance, the practitioner should consider whether to withdraw from the engagement.

.15 *Question*—What is the form of report that should be issued to meet the requirements of section 101?

.16 *Interpretation*—The standards of reporting in section 101 provide guidance about report content and wording and the circumstances that may require report modification. Appendix A and appendix B provide illustrative reports appropriate for various circumstances. Paragraph .66 of section 101 permits the practitioner to report directly on the subject matter or on management's assertion. In either case, the practitioner should ordinarily obtain a written assertion. An illustrative defense contractor assertion is also presented in appendix A and appendix B.

.17 The engagements addressed in this interpretation do not include providing assurance about whether the defense contractor's policies and programs operated effectively to ensure compliance with the defense contractor's code of business ethics and conduct on the part of individual employees or about whether the defense contractor and its employees have complied with federal procurement laws. The practitioner's report should explicitly disclaim an opinion on the extent of such compliance.

.18 Because variations in individual performance and interpretation will affect the operation of the defense contractor's policies and programs during the period, adherence to all such policies and programs in every case may not be possible. In determining whether a reservation about a response in the questionnaire is sufficiently significant to result in an opinion modified for an exception to that response, the practitioner should consider the nature, causes, patterns, and pervasiveness of the instances in which the policies and programs did not operate as designed and their implications for that response in the questionnaire.

.19 When scope limitations have precluded the practitioner from forming an opinion on the responses to one or more questions, the practitioner's report should describe all such scope restrictions. If the defense contractor imposed such a scope limitation after the practitioner had begun performing procedures, that fact should be stated in the report.

.20 A defense contractor may request the practitioner to communicate to management, the board of directors, or one of its committees, either orally or in writing, conditions noted that do not constitute significant reservations about the answers to the questionnaire but that might nevertheless be of value to management. Agreed-upon arrangements between the practitioner and the defense contractor to communicate conditions noted may include, for example, the reporting of matters of less significance than those contemplated by the criteria, the existence of conditions specified by the defense contractor, the results of further investigation of matters noted to identify underlying causes, or suggestions for improvements in various policies or programs. Under these arrangements, the practitioner may be requested to visit specific locations, assess the effectiveness of specific policies or programs, or undertake specific procedures not otherwise planned. In addition, the practitioner is not precluded from communicating matters believed to be of value, even if no specific request has been made.

Appendix A

Illustrative Defense Contractor Assertions and Examination Reports

Defense Industry Questionnaire on Business Ethics and Conduct

Illustration 1: Unqualified Opinion; General-Use Report; Criteria Attached to the Presentation

Defense Contractor Assertion

Statement of Responses to the Defense Industry Questionnaire on *Business Ethics and Conduct for the period from _____ to _____.*

The affirmative responses in the accompanying *Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____* are based on policies and programs in operation for that period and are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

Instructions and Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____.

Examination Report

Independent Accountant's Report

To the Board of Directors of the XYZ Company

We have examined the XYZ Company's *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____*, and the Questionnaire and responses attached thereto. XYZ Company's management is responsible for its responses to the Questionnaire. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence as to whether XYZ Company had policies and programs in operation during that period that support the affirmative responses to the *Questionnaire* and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination procedures were not designed, however, to evaluate whether the aforementioned policies and programs operated effectively to ensure compliance with the Company's *Code of Business Ethics and Conduct* on the part of individual employees or to evaluate the extent to which the Company or its employees have complied with federal procurement laws, and we do not express an opinion or any other form of assurance thereon.

In our opinion, the affirmative responses in the Questionnaire accompanying the *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____* referred to above are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

Illustration 2: Unqualified Opinion; Report Modified for Negative Responses to Defense Contractor Assertion; Use of the Report is Restricted Because Criteria are Available Only to Specified Parties

Defense Contractor Assertion

Statement of Responses to the Defense Industry Questionnaire on *Business Ethics and Conduct for the period from _____ to _____*.

The affirmative responses in the accompanying *Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____* are based on policies and programs in operation for that period and are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire. Negative responses indicate that the Company did not have policies and programs in operation during that period with respect to those areas.

Attachments: None

(The responses could include an explanation of negative responses if the defense contractor so desired.)

Examination Report

Independent Accountant's Report

To the Board of Directors of the XYZ Company

We have examined the XYZ Company's *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____*. XYZ Company's management is responsible for its responses to the Questionnaire. Our responsibility is to express an opinion based on our examination.

[Standard Scope Paragraph]

In our opinion, the affirmative responses in the Questionnaire referred to above are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire. The negative responses to Questions _____ and _____ in the Questionnaire indicate that the Company did not have policies and programs in operation during the period with respect to those areas.

This report is intended solely for the information and use of the XYZ Company and [identify other specified parties—for example, the Defense Industry Initiative] and is not intended to be and should not be used by anyone other than these specified parties.

Illustration 3: Opinion Modified for Exception on Certain Response

Defense Contractor Assertion

Statement of Responses to the Defense Industry Questionnaire on *Business Ethics and Conduct for the period from _____ to _____*.

The affirmative responses in the accompanying *Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____*, are based on policies and programs in operation for that period and are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

Attachments:

Defense Industry Initiatives on Business Ethics and Conduct

Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____.

Examination Report**Independent Accountant's Report**

To the Board of Directors of the XYZ Company

[*Standard Introductory and Scope Paragraphs*]

Management believes that an appropriate mechanism exists for informing employees of the results of any follow-up into their charges of violations of the Company's Code of Business Ethics and Conduct, and has accordingly answered Question 12 in the affirmative. That mechanism consists principally of distributing newspaper articles and press releases of violations of federal procurement laws that have been voluntarily reported to the appropriate governmental agencies. We do not believe that such a mechanism is sufficient, inasmuch as it does not provide follow-up information on violations reported by employees that are not deemed reportable to a governmental agency. Consequently, in our opinion, the affirmative response to Question 12 in the Questionnaire is not appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

In our opinion, except for the response to Question 12 as discussed in the preceding paragraph, the affirmative responses in the Questionnaire accompanying the *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____* referred to above are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

Illustration 4: Opinion Modified for Exception on a Certain Response; Report also Modified for Negative Responses

Defense Contractor Assertion

Statement of Responses to the *Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____*.

The affirmative responses in the accompanying *Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____* are based on policies and programs in operation for that period and are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire. Negative responses indicate that the Company did not have policies and programs in operation during that period with respect to those areas.

(The responses could include an explanation of negative responses if the defense contractor so desired.)

Examination Report

Independent Accountant's Report

To the Board of Directors of the XYZ Company

[*Standard Introductory and Scope Paragraphs*]

Management believes that an appropriate mechanism exists for letting employees know of the results of any follow-up into their charges of violations of the Company's Code of Business Ethics and Conduct, and has accordingly answered Question 12 in the affirmative. That mechanism consists principally of distributing newspaper articles and press releases of violations of federal procurement laws that have been voluntarily reported to the appropriate governmental agencies. We do not believe that such a mechanism is sufficient, inasmuch as it does not provide follow-up information on violations reported by employees that are not deemed reportable to a governmental agency. Consequently, in our opinion, the affirmative response to Question 12 in the Questionnaire is not appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

In our opinion, except for the response to Question 12 as discussed in the preceding paragraph, the affirmative responses in the Questionnaire accompanying the *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____* referred to above are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire. The negative responses to Questions _____ and _____ in the Questionnaire indicate that the Company did not have policies and programs in operation during the period with respect to those areas.

Illustration 5: Opinion Disclaimed on Certain Responses Because of Scope Restrictions Imposed by Client

Defense Contractor Assertion

Statement of Responses to the Defense Industry Questionnaire on *Business Ethics and Conduct for the period from _____ to _____*.

The affirmative responses in the accompanying *Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____* are based on policies and programs in operation for that period and are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

Attachments:

Defense Industry Initiatives on Business Ethics and Conduct

Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____.

Examination Report

Independent Accountant's Report

To the Board of Directors of the XYZ Company

[*Standard Introductory Paragraph*]

Except as described below, our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence as to whether XYZ Company had policies and programs in operation during that period that support the affirmative responses to the *Questionnaire*. We believe that our examination provides a reasonable basis for our opinion. Our examination procedures were not designed, however, to evaluate whether the aforementioned policies and programs operated effectively to ensure compliance with the Company's *Code of Business Ethics and Conduct* on the part of individual employees or to evaluate the extent to which the Company or its employees have complied with federal procurement laws, and we do not express an opinion or any other form of assurance thereon.

We were not permitted to read relevant documents and files or interview appropriate employees to determine that the affirmative answers to Questions 6, 7, and 8 are appropriate. The nature of those questions precluded us from satisfying ourselves as to the appropriateness of those answers by means of other examination procedures.

In our opinion, the affirmative responses to Questions 1 through 5 and 9 through 17 in the Questionnaire accompanying the *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____* referred to above are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire. Because of the matters discussed in the preceding paragraph, the scope of our work was not sufficient to express, and we do not express, an opinion on the appropriateness of the affirmative responses to Questions 6, 7, and 8 in the Questionnaire.

Appendix B

Illustrative Defense Contractor Assertion and Review Report; Use of Report Is Restricted Because Criteria Are Available Only To Specified Parties

Defense Industry Questionnaire on Business Ethics and Conduct

Defense Contractor Assertion

Statement of Responses to the Defense Industry Questionnaire on *Business Ethics and Conduct* for the period from _____ to _____.

The affirmative responses in the accompanying *Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____* are based on policies and programs in operation during that period and are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

Review Report

Independent Accountant's Report

To the Board of Directors of the XYZ Company

We have reviewed the XYZ Company's *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____*. XYZ Company's management is responsible for the Statement of Responses to the Defense Industry Questionnaire on Business Ethics.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on the affirmative responses in the Questionnaire. Accordingly, we do not express such an opinion. Additionally, our review was not designed to evaluate whether the aforementioned policies and programs operated effectively to ensure compliance with the Company's *Code of Business Ethics and Conduct* on the part of individual employees or to evaluate the extent to which the Company or its employees have complied with federal procurement laws and we do not express an opinion or any other form of assurance thereon.

Based on our review, nothing came to our attention that caused us to believe that the affirmative responses in the Questionnaire referred to above are not appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

This report is intended solely for the information and use of the XYZ Company and [identify other specified parties—for example, the Defense Industry Initiative] and is not intended to be and should not be used by anyone other than these specified parties.

Modified: May 1989; Revised: January 2001; November 2006;
Revised: December 2012.]

2. Responding to Requests for Reports on Matters Relating to Solvency

.23 Question—Lenders, as a requisite to the closing of certain secured financings in connection with leveraged buyouts, recapitalizations and certain other financial transactions, have sometimes requested written assurance from an accountant regarding the prospective borrower's solvency and related matters.² The lender is concerned that such financings not be considered to include a fraudulent conveyance or transfer under the Federal Bankruptcy Code³ or the relevant state fraudulent conveyance or transfer statute.⁴ If the financing is subsequently determined to have included a fraudulent conveyance or transfer, repayment obligations and security interests may be set aside or subordinated to the claims of other creditors.

.24 May a practitioner provide assurance concerning *matters relating to solvency* as hereinafter defined?

.25 Interpretation—No. For reasons set forth subsequently, a practitioner should not provide any form of assurance, through examination, review, or agreed-upon procedures engagements, that an entity

- is not insolvent at the time the debt is incurred or would not be rendered insolvent thereby.
- does not have unreasonably small capital.
- has the ability to pay its debts as they mature.

² Although this interpretation describes requests from secured lenders and summarizes the potential effects of fraudulent conveyance or transfer laws upon such lenders, the interpretation is not limited to requests from lenders. All requests for assurance on matters relating to solvency are governed by this interpretation.

³ Section 548 of the Federal Bankruptcy Code defines *fraudulent transfers and obligations* as follows:

The trustee may avoid any transfer of an interest of the debtor in property or any obligation incurred by the debtor, that was made or incurred on or within one year before the date of the filing of the petition, if the debtor voluntarily or involuntarily—

- (1) made such transfer or incurred such obligation with actual intent to hinder, delay, or defraud any entity to which the debtor was or became, on or after the date that such transfer occurred or such obligation was incurred, indebted; or
- (2)(A) received less than a reasonably equivalent value in exchange for such transfer or obligation; and
- (2)(B)(i) was insolvent on the date that such transfer was made or such obligation was incurred, or became insolvent as a result of such transfer or obligation;
- (2)(B)(ii) was engaged in business or a transaction, or was about to engage in business or a transaction, for which any property remaining with the debtor was an unreasonably small capital; or
- (2)(B)(iii) intended to incur, or believed that the debtor would incur, debts that would be beyond the debtor's ability to pay as such debts matured. (Bankruptcy Law Reporter, 3 vols. [Chicago: Commerce Clearing House, 1986], vol. 1, 1339).

⁴ State fraudulent conveyance or transfer statutes such as the Uniform Fraudulent Conveyance Act and the Uniform Fraudulent Transfer Act reflect substantially similar provisions. These state laws may be employed absent a declaration of bankruptcy or by a bankruptcy trustee under Section 544(1) of the Federal Bankruptcy Code. Although the statute of limitations varies from state to state, in some states financing transactions may be vulnerable to challenge for up to six years from closing.

In the context of particular transactions other terms are sometimes used or defined by the parties as equivalents of or substitutes for the terms listed above (for example, *fair salable value of assets exceeds liabilities*). These terms, and those matters listed previously, are hereinafter referred to as *matters relating to solvency*. The prohibition extends to providing assurance concerning all such terms.

.26 The third general attestation standard states that the practitioner must have reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users. Suitable criteria must have each of the following attributes:

- *Objectivity*—Criteria should be free from bias.
- *Measurability*—Criteria should permit reasonably consistent measurements, qualitative or quantitative, of subject matter.
- *Completeness*—Criteria should be sufficiently complete so those relevant factors that would alter a conclusion about subject matter are not omitted.
- *Relevance*—Criteria should be relevant to the subject matter.

In addition, the second general attestation standard states that the practitioner must have adequate knowledge of the subject matter.

.27 The matters relating to solvency mentioned in paragraph .23 are subject to legal interpretation under, and varying legal definition in, the Federal Bankruptcy Code and various state fraudulent conveyance and transfer statutes. Because these matters are not clearly defined in an accounting sense, and are therefore subject to varying interpretations, they do not provide the practitioner with suitable criteria required to evaluate the subject matter or an assertion under the third general attestation standard. In addition, lenders are concerned with legal issues on matters relating to solvency and the practitioner is generally unable to evaluate or provide assurance on these matters of legal interpretation. Therefore, practitioners are precluded from giving any form of assurance on matters relating to solvency or any financial presentation of matters relating to solvency.

.28 Under existing AICPA standards, the practitioner may provide a client with various professional services that may be useful to the client in connection with a financing. These services include the following:

- Audit of historical financial statements
- Review of historical financial information (a review in accordance with AU-C section 930, *Interim Financial Information*, of interim financial information, or in accordance with AR section 90, *Review of Financial Statements*)
- Examination or review of pro forma financial information (section 401, *Reporting on Pro Forma Financial Information*)
- Examination or compilation of prospective financial information (section 301, *Financial Forecasts and Projections*)

.29 In addition, under existing AICPA attestation standards (section 201, *Agreed-Upon Procedures Engagements*), the practitioner can provide the client and lender with an agreed-upon procedures report. In such an engagement, a client and lender may request that specified procedures be applied to various financial presentations, such as historical financial information, pro forma financial information, and prospective financial information, which can be useful to a client or lender in connection with a financing.

.30 The practitioner should be aware that certain of the services described in paragraph .28 require that the practitioner have an appropriate level of knowledge of the entity's accounting and financial reporting practices and its internal control. This has ordinarily been obtained by the practitioner auditing historical financial statements of the entity for the most recent annual period or by otherwise obtaining an equivalent knowledge base. When considering acceptance of an engagement relating to a financing, the practitioner should consider whether he or she can perform these services without an equivalent knowledge base.

.31 A report on agreed-upon procedures should not provide any assurances on matters relating to solvency or any financial presentation of matters relating to solvency (for example, fair salable value of assets less liabilities or fair salable value of assets less liabilities, contingent liabilities, and other commitments). A practitioner's report on the results of applying agreed-upon procedures should contain the report elements set forth in paragraph .31 of section 201 (or paragraph .55 of section 301 if applying agreed upon procedures to prospective financial information). The practitioner's report on the results of applying agreed-upon procedures should state that

- the service has been requested in connection with a financing (no reference should be made to any solvency provisions in the financing agreement).
- no representations are provided regarding questions of legal interpretation.
- no assurance is provided concerning the borrower's (a) solvency, (b) adequacy of capital, or (c) ability to pay its debts.
- the procedures should not be taken to supplant any additional inquiries and procedures that the lender should undertake in its consideration of the proposed financing.
- where applicable, an audit of recent historical financial statements has previously been performed and that no audit of any historical financial statements for a subsequent period has been performed. In addition, if any services have been performed pursuant to paragraph .28, they may be referred to.

.32 The report ordinarily is dated at or shortly before the closing date. The financing agreement ordinarily specifies the date, often referred to as the cutoff date, to which the report is to relate (for example, a date three business days before the date of the report). The report should state that the inquiries and other procedures carried out in connection with the report did not cover the period from the cutoff date to the date of the report.

.33 The practitioner might consider furnishing the client with a draft of the agreed-upon procedures report. The draft report should deal with all matters expected to be covered in the terms expected to be used in the final report. The draft report should be identified as a draft in order to avoid giving the impression that the procedures described therein have been performed. This practice of furnishing a draft report at an early point permits the practitioner to make clear to the client and lender what they may expect the accountant to furnish and gives them an opportunity to change the financing agreement or the agreed-upon procedures if they so desire.

[Issue Date: May 1988; Amended: February 1993;
Revised: January 2001; November 2006; Revised: December 2012.]

3. Applicability of Attestation Standards to Litigation Services

.34 Question—Paragraph .04 of section 101 provides an example of a litigation service provided by practitioners that would not be considered an attest engagement as defined by section 101. When does section 101 not apply to litigation service engagements?

.35 Interpretation—Section 101 does not apply to litigation services that involve pending or potential formal legal or regulatory proceedings before a *trier of fact*⁵ in connection with the resolution of a dispute between two or more parties in any of the following circumstances when the

- a. practitioner has not been engaged to issue and does not issue an examination, a review, or an agreed-upon procedures report on subject matter, or an assertion about the subject matter that is the responsibility of another party.
- b. service comprises being an expert witness.
- c. service comprises being a trier of fact or acting on behalf of one.
- d. practitioner's work under the rules of the proceedings is subject to detailed analysis and challenge by each party to the dispute.
- e. practitioner is engaged by an attorney to do work that will be protected by the attorney's work product privilege and such work is not intended to be used for other purposes.

When performing such litigation services, the practitioner should comply with Rule 201, *General Standards* (ET sec. 201 par. .01) of the AICPA Code of Professional Conduct.

.36 Question—When does section 101 apply to litigation service engagements?

.37 Interpretation—Section 101 applies to litigation service engagements only when the practitioner is engaged to issue or does issue an examination, a review, or an agreed-upon procedures report on subject matter, or an assertion about the subject matter, that is the responsibility of another party.

.38 Question—Paragraph .04(c) of section 101 provides the following example of litigation service engagements that are not considered attest engagements: "Services performed in accordance with the Statement on Standards for Consulting Services, such as . . . engagements in which a practitioner is engaged to testify as an expert witness in accounting, auditing, taxation, or other matters, given certain stipulated facts."

What does the term *stipulated facts* as used in paragraph .04(c) of section 101 mean?

.39 Interpretation—The term *stipulated facts* as used in paragraph .04(c) of section 101 means facts or assumptions that are specified by one or more parties to a dispute to serve as the basis for the development of an expert opinion. It is not used in its typical legal sense of facts agreed to by all parties involved in a dispute.

.40 Question—Does Interpretation No. 2, "Responding to Requests for Reports on Matters Relating to Solvency," of section 101 (par. .23–.33), prohibit a practitioner from providing expert testimony, as described in paragraph .04(c) of section 101 before a trier of fact on matters relating to solvency?

⁵ A *trier of fact* in this section means a court, regulatory body, or government authority; their agents; a grand jury; or an arbitrator or mediator of the dispute.

.41 Interpretation—No. Matters relating to solvency mentioned in paragraph .25 are subject to legal interpretation under, and varying legal definition in, the Federal Bankruptcy Code and various state fraudulent conveyance and transfer statutes. Because these matters are not clearly defined in an accounting sense, and therefore subject to varying interpretations, they do not provide the practitioner with the suitable criteria required to evaluate the assertion. Thus, Interpretation No. 2 (par. .23–.33) prohibits a practitioner from providing any form of assurance in reporting upon examination, review, or agreed-upon procedures engagements about matters relating to solvency (as defined in paragraph .25).

.42 However, a practitioner who is involved with pending or potential formal legal or regulatory proceedings before a trier of fact in connection with the resolution of a dispute between two or more parties may provide an expert opinion or consulting advice about matters relating to solvency. The prohibition in paragraphs .23–.33 does not apply in such engagements because as part of the legal or regulatory proceedings, each party to the dispute has the opportunity to analyze and challenge the legal definition and interpretation of the matters relating to solvency and the criteria the practitioner uses to evaluate matters related to solvency. Such services are not intended to be used by others who do not have the opportunity to analyze and challenge such definitions and interpretations.

[Issue Date: July 1990; Revised: January 2001.]

4. Providing Access to or Copies of Attest Documentation to a Regulator

.43 Question—Interpretation No. 1, "Providing Access to or Copies of Audit Documentation to a Regulator," of AU-C section 230, *Audit Documentation* (AU-C sec. 9230 par. .01–.15), contains guidance relating to providing access to or copies of audit documentation to a regulator. Is this guidance applicable to an attest engagement when a regulator requests access to or copies of the attest documentation?

.44 Interpretation—Yes. The guidance in Interpretation No. 1 (AU sec. 9230 par. .01–.15) is applicable in these circumstances; however, the letter to a regulator should be tailored to meet the individual engagement characteristics or the purpose of the regulatory request, for example, a quality control review. Illustrative letters for an examination engagement performed in accordance with section 601, *Compliance Attestation*, and an agreed-upon procedures engagement performed in accordance with section 201, follow.

.45 Illustrative letter for examination engagement:

Illustrative Letter to Regulator⁶

[Date]

[Name and Address of Regulatory Agency]

Your representatives have requested access to our attest documentation in connection with our engagement to examine (*identify the subject matter examined*

⁶ The practitioner should appropriately modify this letter when the engagement has been conducted in accordance with Statements on Standards for Attestation Engagements (SSAE) and also in accordance with additional attest requirements specified by a regulatory agency (for example, the requirements specified in *Government Auditing Standards* issued by the Comptroller General of the United States).

or restate management's assertion). It is our understanding that the purpose of your request is (*state purpose*: for example, "to facilitate your regulatory examination").⁷

Our examination was conducted in accordance with attestation standards⁸ established by the American Institute of Certified Public Accountants, the objective of which is to form an opinion as to whether the subject matter (or management's assertion) is fairly stated, in all material respects, based on (*identify criteria*). Under these standards, we have the responsibility to plan and perform our examination to provide a reasonable basis for our opinion and to exercise due professional care in the performance of our examination. Our examination is subject to the inherent risk that material noncompliance, if it exists, would not be detected. In addition, our examination does not address the possibility that material noncompliance may occur in the future. Also, our use of professional judgment and the assessments of attestation risk and materiality for the purpose of our examination means that matters may have existed that would have been assessed differently by you. Our examination does not provide a legal determination on (*name of entity*)'s compliance with specified requirements.

The attest documentation was prepared for the purpose of providing the principal support for our opinion on (*name of entity*)'s compliance and to aid in the performance and supervision of our examination. The attest documentation is the principal record of attest procedures performed, information obtained, and conclusions reached in the examination. The procedures that we performed were limited to those we considered necessary under attestation standards⁹ established by the American Institute of Certified Public Accountants to provide us with reasonable basis for our opinion. Accordingly, we make no representation as to the sufficiency or appropriateness, for your purposes, of either the procedures or information in our attest documentation. In addition, any notations, comments, and individual conclusions appearing on any of the attest documentation do not stand alone and should not be read as an opinion on any part of management's assertion or the related subject matter.

Our examination was conducted for the purpose stated above and was not planned or performed in contemplation of your (*state purpose*: for example, "regulatory examination"). Therefore, items of possible interest to you may not have been specifically addressed. Accordingly, our examination, and the attest documentation prepared in connection therewith, should not supplant other inquiries and procedures that should be undertaken by the (*name of regulatory agency*) for the purpose of monitoring and regulating (*name of entity*). In addition, we have not performed any procedures since the date of our report with respect to the subject matter (*or management's assertion related thereto*), and significant events or circumstances may have occurred since that date.

The attest documentation constitutes and reflects work performed or information obtained by us in the course of our examination. The documents contain trade secrets and confidential commercial and financial information of our firm and (*name of entity*) that is privileged and confidential, and we expressly reserve all rights with respect to disclosures to third parties. Accordingly, we request confidential treatment under the Freedom of Information Act or similar laws and regulations when requests are made for the attest documentation or

⁷ If the practitioner is not required by law, regulation, or engagement contract to provide a regulatory access to the attest documentation but otherwise intends to provide such access (see Interpretation No. 1, "Providing Access to or Copies of Audit Documentation to a Regulator," of AU-C section 230, *Audit Documentation* [AU-C sec. 9230 par. .11–.15]), the letter should include a statement that: "Management of (*name of entity*) has authorized us to provide you access to our attest documentation for (*state purpose*)." [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

⁸ Refer to footnote 6.

⁹ Refer to footnote 6.

information contained therein or any documents created by the (*name of regulatory agency*) containing information derived therefrom. We further request that written notice be given to our firm before distribution of the information in the attest documentation (or copies thereof) to others, including other governmental agencies, except when such distribution is required by law or regulation.¹⁰

[If it is expected that copies will be requested, add the following:]

Any copies of our attest documentation we agree to provide you will contain a legend "Confidential Treatment Requested by (*name of practitioner, address, telephone number*)."

[Firm signature]

.46 Example letter for agreed-upon procedures engagements:

Illustrative Letter to Regulator¹¹

[Date]

[Name and Address of Regulatory Agency]

Your representatives have requested access to our attest documentation in connection with our engagement to perform agreed-upon procedures on (*identify the subject matter or management's assertion*). It is our understanding that the purpose of your request is (*state purpose*: for example, "to facilitate your regulatory examinations").¹²

Our agreed-upon procedures engagement was conducted in accordance with attestation standards¹³ established by the American Institute of Certified Public Accountants. Under these standards, we have the responsibility to perform the agreed-upon procedures to provide a reasonable basis for the findings expressed in our report. We were not engaged to, and did not, perform an examination, the objective of which would be to form an opinion on (*identify the subject matter or management's assertion*). Our engagement is subject to the inherent risk that material misstatement of (*identify the subject matter or management's assertion*), if it exists, would not be detected. (*The practitioner may add the following*: "In addition, our engagement does not address the possibility that material misstatement of (*identify the subject matter or management's assertion*) may occur in the future.") The procedures that we performed were limited to those agreed to by the specified users, and the sufficiency of these procedures is solely the responsibility of the specified users of the report. Further, our engagement does not provide a legal determination on (*name of entity*)'s compliance with specified requirements.

The attest documentation was prepared to document agreed-upon procedures applied, information obtained, and findings reached in the engagement. Accordingly, we make no representation, for your purposes, as to the sufficiency

¹⁰ This illustrative paragraph may not in and of itself be sufficient to gain confidential treatment under the rules and regulations of certain regulatory agencies. The practitioner should consider tailoring this paragraph to the circumstances after consulting the regulations of each applicable regulatory agency and, if necessary, consult with legal counsel regarding the specific procedures and requirements necessary to gain confidential treatment.

¹¹ The practitioner should appropriately modify this letter when the engagement has been conducted in accordance with the SSAEs and also in accordance with additional attest requirements specified by a regulatory agency (for example, the requirements specified in *Government Auditing Standards* issued by the Comptroller General of the United States).

¹² If the practitioner is not required by law, regulation or engagement contract to provide a regulator access to the attest documentation but otherwise intends to provide such access (see Interpretation No. 1 of AU-C section 230) the letter should include a statement that: "Management of (*name of entity*) has authorized us to provide you access to our attest documentation for (*state purpose*)."¹ [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

¹³ Refer to footnote 6.

or appropriateness of the information in our attest documentation. In addition, any notations, comments, and individual findings appearing on any of the attest documentation should not be read as an opinion on management's assertion or the related subject matter, or any part thereof.

Our engagement was performed for the purpose stated above and was not performed in contemplation of your (*state purpose*: for example, "regulatory examination"). Therefore, items of possible interest to you may not have been specifically addressed. Accordingly, our engagement, and the attest documentation prepared in connection therewith, should not supplant other inquiries and procedures that should be undertaken by the (*name of regulatory agency*) for the purpose of monitoring and regulating (*name of client*). In addition, we have not performed any procedures since the date of our report with respect to the subject matter or management's assertion related thereto, and significant events or circumstances may have occurred since that date.

The attest documentation constitutes and reflects procedures performed or information obtained by us in the course of our engagement. The documents contain trade secrets and confidential commercial and financial information of our firm and (*name of client*) that is privileged and confidential, and we expressly reserve all rights with respect to disclosures to third parties. Accordingly, we request confidential treatment under the Freedom of Information Act or similar laws and regulations when requests are made for the attest documentation or information contained therein or any documents created by the (*name of regulatory agency*) containing information derived therefrom. We further request that written notice be given to our firm before distribution of the information in the attest documentation (or copies thereof) to others, including other governmental agencies, except when such distribution is required by law or regulation.¹⁴

[If it is expected that copies will be requested, add the following:

Any copies of our attest documentation we agree to provide you will contain a legend "Confidential Treatment Requested by (*name of practitioner, address, telephone number*)."]

Revised: December 2012.]

5. Attest Engagements on Financial Information¹⁵ Included in eXtensible Business Reporting Language Instance Documents

.47 Question—What is eXtensible Business Reporting Language (XBRL) and an XBRL Instance Document?

.48 Interpretation—XBRL, the business reporting aspect of the Extensible Markup Language (XML), is a freely licensable open technology standard, which makes it possible to store and transfer data along with the complex hierarchies, data processing rules, and descriptions that enable analysis and

¹⁴ This illustrative paragraph may not in and of itself be sufficient to gain confidential treatment under the rules and regulations of certain regulatory agencies. The practitioner should consider tailoring this paragraph to the circumstances after consulting the regulations of each applicable regulatory agency and, if necessary, consult with legal counsel regarding the specific procedures and requirements necessary to gain confidential treatment.

¹⁵ Financial information includes data presented in audited or reviewed financial statements or other financial information (for example, management discussion and analysis).

distribution.¹⁶ An entity may make its financial information available in the form of an XBRL Instance Document (instance document). An *instance document* is essentially a machine-readable format of financial information (that is, a computer can read the data, search for information, or perform calculations). Through the XBRL tagging process, a mapping of the financial information is created that enables a user to extract specific information, facilitating analysis. For example, XBRL would enable a user to use a software tool to automatically extract certain financial line items and automatically import those amounts into a worksheet calculating financial ratios.

.49 The instance document consists of various data points and their corresponding XBRL tags (that describe the financial information) and may include references to other items such as a PDF (Adobe Acrobat) version of financial information. Hence, an instance document is a stand-alone document that may be published using a website, e-mail, and other electronic distribution means.

.50 *Question*—What are the practitioner's considerations when the practitioner has been engaged to examine and report on whether the instance document accurately reflects the financial information?

.51 *Interpretation*—The third general attestation standard states that the practitioner shall perform the engagement only if he or she has reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users. Two related criteria, XBRL taxonomies and XBRL International Technical Specifications, meet the available and suitable attributes under the attestation standards because a panel of experts developed the criteria and followed due process procedures that included exposure of the proposed criteria for public comment. The entity has the ability to extend the XBRL taxonomy by creating its own entity extension taxonomy. The entity may also create one or more custom entity taxonomies (for example, for a unique industry that is not yet represented by an XBRL taxonomy). Because neither the XBRL entity extension nor the custom taxonomy typically undergoes due process procedures when developed, the practitioner should evaluate whether the XBRL entity extension or custom taxonomy represents suitable and available criteria as described in paragraphs .24–.34 of section 101.

.52 The practitioner should perform procedures he or she believes are necessary to obtain sufficient evidential matter to form an opinion. Example procedures the practitioner should consider performing include the following:

- Compare the rendered¹⁷ instance document to the financial information.
- Trace and agree the instance document's tagged information to the financial information.
- Test that the financial information is appropriately tagged and included in the instance document.
- Test for consistency of tagging (for example, an entity may use one taxonomy tag for one year and then switch to a different tag for the same financial information the following year. In this case, the financial information for both years should use the same tag).

¹⁶ The eXtensible Business Reporting Language (XBRL) tags and their relationship to other XBRL tags are represented in a taxonomy. The XBRL taxonomy is needed for a full rendering of the XBRL Instance Document.

¹⁷ A rendered instance document converts the machine-readable format to a human readable version through a software tool.

- Test that the entity extension or custom taxonomy meets the XBRL International Technical Specification (for example, through the use of a validation tool).

.53 When the client is the responsible party, the client will provide the practitioner with a written assertion regarding the subject matter. An example of a written assertion follows:

We assert that the accompanying XBRL Instance Document accurately reflects the data presented in the financial statements of XYZ Company as of December 31, 20XX, and for the year then ended in conformity with *[identify the criteria—for example, specify XBRL taxonomy, such as "XBRL U.S. Consumer and Industrial Taxonomy," and where applicable, the company extension taxonomy, such as "XYZ Company's extension taxonomy" and the XBRL International Technical Specifications (specify version)]*.

.54 The practitioner should identify in his or her report whether the underlying financial information has been audited or reviewed, and should refer to the report of such audit or review.¹⁸ If the underlying information has not been audited or reviewed, the practitioner should disclaim an opinion on the underlying information. Any information in the Instance Document that is not covered by the practitioner's report should clearly be identified as such.

.55 Report Examples

Example 1: Reporting on the Subject Matter

Independent Accountant's Report

We have examined the accompanying XBRL Instance Document of XYZ Company, which reflects the data presented in the financial statements of XYZ Company as of December 31, 20XX, and for the year then ended *[optional to include the location of the financial statements, such as "included in the Company's Form 10-K for the year ended December 31, 20XX"]*. XYZ Company's management is responsible for the XBRL Instance Document. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting the XBRL Instance Document and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, the XBRL Instance Document of XYZ Company referred to above accurately reflects, in all material respects, the data presented in the financial statements in conformity with *[identify the criteria—for example, specific XBRL taxonomy, such as the "XBRL U.S. Consumer and Industrial Taxonomy," and where applicable, the company extension taxonomy, such as "XYZ Company's extension taxonomy," and the XBRL International Technical Specifications 2.0]*.

We have also audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20XX, and for the year then ended, and in our report dated

¹⁸ When no audit or review report has been issued, no reference to a report is required.

[Month] XX, 20XX, we expressed an unqualified opinion on those financial statements.^{19, 20}

[Signature]

[Date]

Example 2: Reporting on Management's Assertions

Independent Accountant's Report

We have examined management's assertion that *[identify the assertion—for example, the accompanying XBRL Instance Document accurately reflects the data presented in the financial statements of XYZ Company as of December 31, 20XX, and for the year then ended in conformity with (identify the criteria—for example, specific XBRL taxonomy, such as the "XBRL U.S. Consumer and Industrial Taxonomy," and where applicable, the company extension taxonomy, such as "XYZ Company's extension taxonomy," and the XBRL International Technical Specifications 2.0)]*. XYZ Company's management is responsible for the assertion. Our responsibility is to express an opinion on the assertion based on our examination.

We have also audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income, changes in stockholders' equity, and cash flows, for the year then ended, and the related notes to the financial statements. In our report dated [Month] XX, 20XX, we expressed an unmodified opinion on those financial statements.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting the XBRL Instance Document and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, management's assertion referred to above is fairly stated, in all material respects, in conformity with *[identify the criteria—for example, specific XBRL taxonomy, such as the "XBRL U.S. Consumer and Industrial Taxonomy," and where applicable, the company extension taxonomy, such as "XYZ Company's extension taxonomy," and the XBRL International Technical Specifications 2.0)]*.

[Date]

[Issue Date: September 2003; Revised: December 2012.]

¹⁹ If the financial statements have been reviewed, the sentence would read: "We have also reviewed, in accordance with *[standards established by the American Institute of Certified Public Accountants]* *[Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants]*, the financial statements of XYZ Company as of March 31, 20XX, and for the three months then ended, the objective of which was the expression of limited assurance on such financial statements, and issued our report thereon dated [Month] XX, 20XX, *[describe any modifications of such report]*."

If the financial information has not been audited or reviewed, no reference to a report is required. The sentence would read: "We were not engaged to and did not conduct an audit or review of the *[identify information]*, the objectives of which would have been the expression of an opinion or limited assurance on such *[identify information]*. Accordingly, we do not express an opinion or any other assurance on *[it]* *[them]*."

²⁰ If the audit opinion on the related financial statements is other than unqualified, the practitioner should disclose that fact, and any substantive reasons therefore.

6. Reporting on Attestation Engagements Performed in Accordance With Government Auditing Standards²¹

.56 Question—Chapter 5, "Standards for Attestation Engagements," of the 2011 revision of *Government Auditing Standards* (commonly referred to as the Yellow Book) sets forth additional fieldwork and reporting standards for attestation engagements performed pursuant to generally accepted government auditing standards (GAGAS). Practitioners performing attestation engagements under GAGAS are also required to follow the general standards set forth in chapter 3, "General Standards," of the Yellow Book, as well as the guidance and requirements in chapters 1, "Government Auditing: Foundation and Ethical Principles," and 2, "Standards for Use and Application of GAGAS." For examination attestation engagements performed pursuant to GAGAS, paragraph 5.18 of the Yellow Book prescribes additional reporting standards²² that go beyond the standards of reporting set forth in paragraphs .63–.90 of section 101. When a practitioner performs an attestation examination in accordance with GAGAS, how should the report be modified?

.57 Interpretation—The practitioner should modify the scope paragraph of the attestation report to indicate that the examination or review was "conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States."

.58 Additionally, GAGAS require the practitioner's attestation report to disclose any matters (often referred to as findings) that are set forth in paragraphs 5.20–.26 of the revised Yellow Book. Paragraphs 5.27–.28 of the revised Yellow Book set forth the presentation requirements that the practitioner should use, to the extent possible, in reporting a finding. The following illustration is a standard examination report modified to make reference to a schedule of findings when any of the matters set forth in paragraphs 5.20–.26 have been identified. This report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. A written assertion has been obtained from the responsible party. Although the following illustrative report modifications would comply with the Yellow Book requirement, this illustration is not intended to preclude a practitioner from complying with these additional Yellow Book reporting requirements in other ways. In this illustrative report, the practitioner is reporting on the subject matter.

Independent Accountant's Report

We have examined [*identify the subject matter—for example, the accompanying schedule of performance measures of XYZ Agency for the year ended December*

²¹ Although separate interpretations for other AT sections have not been issued to deal with attestation engagements performed in accordance with *Government Auditing Standards*, a practitioner may use this guidance to help him or her appropriately modify an attest report pursuant to other AT sections.

²² Paragraph 5.18 of the Yellow Book sets forth the additional reporting requirements: (a) reporting auditors' compliance with generally accepted government auditing standards, (b) reporting deficiencies in internal control, fraud, noncompliance with provisions of laws, regulations, contracts, and grant agreements, and abuse, (c) reporting views of responsible officials, (d) reporting confidential or sensitive information, and (e) distributing reports. [Footnote revised, January 2008, to reflect conforming changes necessary due to the issuance of the 2007 revised *Government Auditing Standards*. Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of the 2011 revision of *Government Auditing Standards*.]

31, 20XX].²³ XYZ Agency's management is responsible for the [identify the subject matter—for example, schedule of performance measures]. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States and, accordingly, included examining, on a test basis, evidence supporting [identify the subject matter—for example, XYZ Agency's schedule of performance measures] and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

In our opinion, the schedule referred to above presents, in all material respects, [identify the subject matter—for example, the performance measures of XYZ Agency for the year ended December 31, 20XX], in conformity with [identify criteria—for example, the criteria set forth in Note 1].

[When any of the matters set forth in paragraphs 5.20–26 of the *Yellow Book* have been identified the following paragraph would be added.]

In accordance with *Government Auditing Standards*, we are required to report all deficiencies that are considered to be significant deficiencies or material weaknesses in internal control; fraud and noncompliance with provisions of laws or regulations that have a material effect on [identify the subject matter—for example, XYZ Agency's schedule of performance measures]; and any other instances that warrant the attention of those charged with governance; noncompliance with provisions of contracts or grant agreements, and abuse that has a material effect on the subject matter.²⁴ We are also required to obtain and report the views of responsible officials concerning the findings, conclusions, and recommendations, as well as any planned corrective actions. We performed our examination to express an opinion on whether [identify the subject matter—for example, XYZ Agency's schedule of performance measures] is presented in accordance with the criteria described above and not for the purpose of expressing an opinion on the internal control over [identify the subject matter—for example, reporting of performance measures] or on compliance and other matters; accordingly, we express no such opinions. Our examination disclosed certain findings that are required to be reported under *Government Auditing Standards* and

²³ If the practitioner is reporting on an assertion about the subject matter, the practitioner would identify the assertion rather than the subject matter, for example, "management's assertion that the accompanying schedule presents the performance measures of XYZ Agency for the year ended December 31, 20XX in conformity with the criteria in Note 1." [Footnote added, December 2012, to reflect conforming changes necessary due to the issuance of the 2011 revision of *Government Auditing Standards*.]

²⁴ Note that paragraph 5.25 of *Government Auditing Standards* states that when auditors detect instances of noncompliance with provisions of contracts or grant agreements, or abuse that have an effect on the subject matter or an assertion about the subject matter that is less than material but warrant the attention of those charged with governance, they should communicate those findings in writing to entity officials. When auditors detect any instances of fraud, noncompliance with provisions of laws, regulations, contracts, or grant agreements, or abuse that do not warrant the attention of those charged with governance, the auditors' determination of whether and how to communicate such instances to audited entity officials is a matter of professional judgment. [Footnote added, January 2008, to reflect conforming changes necessary due to the issuance of the 2007 revised *Government Auditing Standards*. Footnote renumbered and revised, December 2012, to reflect conforming changes necessary due to the issuance of the 2011 revision of *Government Auditing Standards*.]

those findings, along with the views of responsible officials, are described in the attached Schedule of Findings.^[25]

7. Reporting on the Design of Internal Control

.59 Question—A practitioner may be asked to report on the suitability²⁷ of the design of an entity's internal control over financial reporting (internal control) for preventing or detecting and correcting material misstatements of the entity's financial statements on a timely basis. Such requests may be made by, for example,

- an entity applying for a government grant or contract that is required to submit a written preaward survey by management about the suitability of the design of the entity's internal control or a portion of the entity's internal control, together with a practitioner's report thereon.
- a new casino applying for a license to operate that is required by a regulatory agency to submit a practitioner's report on whether the entity's internal control *that it plans to implement* is suitably designed to provide reasonable assurance that the control objectives specified in the regulatory agency's regulations would be achieved. (In this situation the casino would not yet have begun operations, and audited financial statements or financial data relevant to the period covered by the engagement may not exist.)

May a practitioner report on the suitability of the design of an entity's internal control based on the risk assessment procedures the auditor performs to obtain a sufficient understanding of the entity and its environment, including its internal control, in an audit of the entity's financial statements?

.60 Interpretation—No. In a financial statement audit, the purpose of the auditor's understanding of the entity and its environment, including its internal control, is to enable the auditor to assess the risk of material misstatement of the financial statements whether due to error or fraud, and to design the nature, timing, and extent of further audit procedures. The understanding obtained in a financial statement audit does not provide the practitioner with a sufficient basis to report on the suitability of the design of an entity's internal control or any portion thereof.

.61 Question—How may a practitioner report on the suitability of the design of an entity's internal control or a portion thereof?

.62 Interpretation—The practitioner may perform an examination under section 101, or apply agreed-upon procedures under section 201, to management's written assertion about the suitability of the design of the entity's internal control. Footnote 4 of section 501, *An Examination of an Entity's Internal Control Over Financial Reporting That is Integrated With an Audit of Its Financial Statements*, states that although section 501 does not directly apply when an auditor is engaged to examine the suitability of design of an entity's internal control, it may be useful in planning and performing such engagements. Paragraphs .57–.59 of section 501 discuss how the auditor evaluates the design effectiveness of controls.

.63 When the engagement involves the application of agreed-upon procedures to a written assertion about the suitability of the design of an entity's internal control over compliance with specified requirements, the practitioner should also follow the provisions of paragraphs .09 and .11–.29 of section 601.

²⁷ In this interpretation, the *suitability of the design of internal control* means the same thing as the *design effectiveness of an entity's internal control*. [Footnote renumbered, December 2012, to reflect conforming changes necessary due to the issuance of the 2011 revision of *Government Auditing Standards*.]

.64 The following is an illustrative report a practitioner may issue when reporting on the suitability of the design of an entity's internal control that has been implemented. The report may be modified, as appropriate, to fit the particular circumstances.

Independent Accountant's Report

[Introductory paragraph]

We have examined the suitability of the design of W Company's internal control over financial reporting to prevent or detect and correct material misstatements in its financial statements on a timely basis as of December 31, 20XX, based on *[identify criteria]*.²⁸ W Company's management is responsible for the suitable design of internal control over financial reporting. Our responsibility is to express an opinion on the design of internal control based on our examination.

[Scope paragraph]

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included obtaining an understanding of internal control over financial reporting, evaluating the design of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. We were not engaged to examine and report on the operating effectiveness of W Company's internal control over financial reporting as of December 31, 20XX, and, accordingly, we express no opinion on operating effectiveness.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Opinion paragraph]

In our opinion, W Company's internal control over financial reporting was suitably designed, in all material respects, to prevent or detect and correct material misstatements in the financial statements on a timely basis as of December 31, 20XX, based on *[identify criteria]*.

[Signature]

[Date]

.65 When reporting on the suitability of the design of an entity's internal control that has not yet been implemented, the practitioner would be unable to confirm that the controls have been implemented and should disclose that information in the practitioner's report. In those circumstances, the practitioner should modify (1) the scope paragraph of the illustrative report in paragraph .64 to inform readers that the controls identified in the report have not yet been implemented and (2) the inherent limitations paragraph to reflect the related risk. Following are modified illustrative report paragraphs for use when controls have not yet been implemented. (New language is shown in boldface italics. Deleted language is shown in strikethrough.)

²⁸ This report assumes that the control criteria are both suitable and available to users as discussed in paragraphs .23–.33 of section 101. Therefore, the use of this report is not restricted. [Footnote renumbered, December 2012, to reflect conforming changes necessary due to the issuance of the 2011 revision of *Government Auditing Standards*.]

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included obtaining an understanding of internal control over financial reporting, evaluating the design of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. ***Because operations had not begun as of December 31, 20XX, we could not confirm that the specified controls were implemented. Accordingly, our report solely addresses the suitability of the design of the Company's internal control and does not address whether the controls were implemented. Furthermore, because the specified controls have not yet been implemented, we were unable to test, and did not test,*** the operating effectiveness of W Company's internal control over financial reporting as of December 31, 20XX, and, accordingly, we express no opinion on operating effectiveness.

[*Inherent limitations paragraph*]

Because of its inherent limitations, internal control over financial reporting may not prevent or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls ***may not be implemented as intended when operations begin or*** may become inadequate because of changes in conditions, ~~or that the degree of compliance with the policies or procedures may deteriorate.~~

.66 Question—A practitioner may be asked to sign a prescribed form developed by the party to whom the form is to be submitted regarding the design of an entity's internal control. What are the practitioner's responsibilities when requested to sign such a form if it includes language that is not consistent with the practitioner's function or responsibility or with the reporting requirements of professional standards?

.67 Interpretation—Paragraphs .22–.23 of AU-C section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*, address such situations in the context of an audit of financial statements and indicate that the auditor should either reword the prescribed form of report or attach an appropriately worded separate report that conforms with the auditor's function or responsibility and professional standards. When reporting on the suitability of the design of an entity's internal control under section 101, the practitioner's report should contain all of the elements in either paragraphs .85 or .86, as applicable, which can be accomplished by either rewording the prescribed form of report or attaching an appropriately worded separate report in place of the prescribed form.

.68 Question—An entity may be required to submit a practitioner's report about an entity's *ability* to establish suitably designed internal control (or its assertion thereon). May a practitioner issue such a report based on (a) the risk assessment procedures related to existing internal control that the auditor performs in an audit of an entity's financial statements or (b) the performance of an attest engagement?

.69 Interpretation—No. Neither the risk assessment procedures the auditor performs in an audit of an entity's financial statements nor the performance of an attest engagement provide the practitioner with a basis for issuing a report on the *ability* of an entity to establish suitably designed internal control. There are no suitable criteria for evaluating an entity's ability to establish suitably designed internal control. The requesting party may be willing to accept a report of the practitioner on a consulting service. The practitioner may include in the consulting service report

- a. a statement that the practitioner is unable to perform an attest engagement that addresses the entity's ability to establish suitably designed internal control because there are no suitable criteria for evaluating the entity's ability to do so;
- b. a description of the nature and scope of the practitioner's services; and
- c. the practitioner's findings.

The practitioner may refer to the guidance in CS section 100, *Consulting Services: Definitions and Standards*.

[Issue Date: December 2008; Revised: December 2012.]

8. Including a Description of Tests of Controls or Other Procedures, and the Results Thereof, in an Examination Report

.70 Question—Section 801, *Reporting on Controls at a Service Organization*, addresses examination engagements undertaken by a service auditor to report on controls at organizations that provide services to user entities when those controls are likely to be relevant to user entities' internal control over financial reporting (ICFR). For a type 2 report resulting from such an examination engagement, section 801 provides for a separate section of the report that includes a description of the service auditor's tests of controls likely to be relevant to user entities' ICFR and the results of those tests. This information is intended for user auditors who may need detailed information about the results of such tests of controls to determine how the results affect a particular user entity's financial statements.

.71 Paragraph .02 of section 801 refers the practitioner to section 101, when a practitioner is engaged to examine and report on controls at a service organization other than those likely to be relevant to user entities' ICFR (for example, controls at a service provider that are relevant to user entities' compliance with laws or regulations or controls at a service provider that are relevant to the privacy of user entities' information).²⁹ If a practitioner performs an examination engagement under section 101, may the practitioner's examination report include, in a separate section, a description of tests of controls or other procedures performed in support of the practitioner's opinion resulting from such an engagement?

.72 Interpretation—Nothing in section 101 precludes a practitioner from including in a separate section of his or her examination report a description of tests of controls or other procedures performed and the results thereof. However, in some cases, such a description may overshadow the practitioner's overall opinion or may cause report users to misunderstand the opinion. Therefore, the circumstances of the particular engagement are relevant to the practitioner's consideration regarding whether to include a description of tests of controls or other procedures performed, and the results thereof, in a separate section of the practitioner's examination report. In determining whether to include such a description in the practitioner's examination report, the following considerations are relevant:

²⁹ As indicated in paragraph A2 of section 801, *Reporting on Controls at a Service Organization*, paragraph .02 of section 801 is not intended to permit a report that combines reporting on a service organization's controls likely to be relevant to user entities' internal control over financial reporting (ICFR) with reporting on controls that are not likely to be relevant to user entities' ICFR. [Footnote renumbered, December 2012, to reflect conforming changes necessary due to the issuance of the 2011 revision of *Government Auditing Standards*.]

- Whether there has been a request for such information and whether the specified parties making the request have an appropriate business need or reasonable basis for requesting the information (for example, the specified parties are required to maintain and monitor controls that either encompass or are dependent on controls that are the subject of the examination and, therefore, need information about the tests of controls to enable them to have a basis for concluding that they have met the requirements applicable to them)
- Whether the specified parties have an understanding of the nature and subject matter of the engagement and experience in using the information in such reports
- Whether including such a description in the examination report is likely to cause report users to misunderstand the opinion
- Whether the practitioner's tests of controls or other procedures performed directly relate to the subject matter of the engagement

Paragraph .79 of section 101 states, "The need for restriction on the use of a report may result from a number of circumstances, including the purpose of the report, the criteria used in preparation of the subject matter, the extent to which the procedures performed are known or understood, and the potential for the report to be misunderstood when taken out of the context in which it was intended to be used." The addition of a description of tests of controls or other procedures performed, and the results thereof, in a separate section of an examination report may increase the need for use of the report to be restricted to specified parties.

[Issue Date: July 2010.]

AT Section 201

Agreed-Upon Procedures Engagements

Source: SSAE No. 10; SSAE No. 11.

Effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001, unless otherwise indicated.

Introduction and Applicability

.01 This section sets forth attestation standards and provides guidance to a practitioner concerning performance and reporting in all agreed-upon procedures engagements, except as noted in paragraph .02. A practitioner also should refer to the following sections of this Statement on Standards for Attestation Engagements (SSAE), which provide additional guidance for certain types of agreed-upon procedures engagements:

- a. Section 301, *Financial Forecasts and Projections*
- b. Section 601, *Compliance Attestation*

.02 This section does not apply to the following:¹

- a. Situations in which an auditor reports on specified compliance requirements based solely on an audit of financial statements, as addressed in AU-C section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements*
- b. Engagements for which the objective is to report in accordance with AU-C section 935, *Compliance Audits*, unless the terms of the engagement specify that the engagement be performed pursuant to SSAEs
- c. Engagements covered by AU-C section 920, *Letters for Underwriters and Certain Other Requesting Parties*
- d. Certain professional services that would not be considered as falling under this section as described in paragraph .04 of section 101, *Attest Engagements*

[Revised, December 2010, to reflect conforming changes necessary due to the issuance of SAS No. 117. Revised, August 2011, to reflect conforming changes necessary due to the issuance of SSAE No. 16. Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Agreed-Upon Procedures Engagements

.03 An agreed-upon procedures engagement is one in which a practitioner is engaged by a client to issue a report of findings based on specific procedures performed on subject matter. The client engages the practitioner to assist specified parties in evaluating subject matter or an assertion as a result of a need

¹ Interpretation No. 2, "Responding to Requests for Reports on Matters Relating to Solvency," of section 101, *Attest Engagements* (sec. 9101 par. .23–.33), prohibits the performance of any attest engagements concerning matters of solvency or insolvency.

or needs of the specified parties.² Because the specified parties require that findings be independently derived, the services of a practitioner are obtained to perform procedures and report his or her findings. The specified parties and the practitioner agree upon the procedures to be performed by the practitioner that the specified parties believe are appropriate. Because the needs of the specified parties may vary widely, the nature, timing, and extent of the agreed-upon procedures may vary as well; consequently, the specified parties assume responsibility for the sufficiency of the procedures since they best understand their own needs. In an engagement performed under this section, the practitioner does not perform an examination or a review, as discussed in section 101, and does not provide an opinion or negative assurance.³ (See paragraph .24.) Instead, the practitioner's report on agreed-upon procedures should be in the form of procedures and findings. (See paragraph .31.)

.04 As a consequence of the role of the specified parties in agreeing upon the procedures performed or to be performed, a practitioner's report on such engagements should clearly indicate that its use is restricted to those specified parties.⁴ Those specified parties, including the client, are hereinafter referred to as *specified parties*.

Standards

.05 The general, fieldwork, and reporting standards for attestation engagements as established in section 50, *SSAE Hierarchy*, together with interpretive guidance regarding their application as addressed throughout this section, should be followed by the practitioner in performing and reporting on agreed-upon procedures engagements. [Revised, November 2006, to reflect conforming changes necessary due to the issuance of SSAE No. 14.]

Conditions for Engagement Performance

.06 The practitioner may perform an agreed-upon procedures attest engagement provided that—

- a. The practitioner is independent.
- b. One of the following conditions is met.
 - (1) The party wishing to engage the practitioner is responsible for the subject matter, or has a reasonable basis for providing a written assertion about the subject matter when the nature of the subject matter is such that a responsible party does not otherwise exist.
 - (2) The party wishing to engage the practitioner is not responsible for the subject matter but is able to provide the practitioner, or have a third party who is responsible for the subject matter provide the practitioner with evidence of the third party's responsibility for the subject matter.
- c. The practitioner and the specified parties agree upon the procedures performed or to be performed by the practitioner.

² See paragraphs .08–.09 for a discussion of subject matter and assertion.

³ For guidance on expressing an opinion on specified elements, accounts, or items of a financial statement based on an audit, see AU-C section 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

⁴ See paragraphs .78–.83 of section 101 for additional guidance regarding restricted-use reports.

- d.* The specified parties take responsibility for the sufficiency of the agreed-upon procedures for their purposes.
- e.* The specific subject matter to which the procedures are to be applied is subject to reasonably consistent measurement.
- f.* Criteria to be used in the determination of findings are agreed upon between the practitioner and the specified parties.
- g.* The procedures to be applied to the specific subject matter are expected to result in reasonably consistent findings using the criteria.
- h.* Evidential matter related to the specific subject matter to which the procedures are applied is expected to exist to provide a reasonable basis for expressing the findings in the practitioner's report.
- i.* Where applicable, the practitioner and the specified parties agree on any materiality limits for reporting purposes. (See paragraph .25.)
- j.* Use of the report is restricted to the specified parties.
- k.* For agreed-upon procedures engagements on prospective financial information, the prospective financial statements include a summary of significant assumptions. (See paragraph .52 of section 301.)

Agreement on and Sufficiency of Procedures

.07 To satisfy the requirements that the practitioner and the specified parties agree upon the procedures performed or to be performed and that the specified parties take responsibility for the sufficiency of the agreed-upon procedures for their purposes, ordinarily the practitioner should communicate directly with and obtain affirmative acknowledgment from each of the specified parties. For example, this may be accomplished by meeting with the specified parties or by distributing a draft of the anticipated report or a copy of an engagement letter to the specified parties and obtaining their agreement. If the practitioner is not able to communicate directly with all of the specified parties, the practitioner may satisfy these requirements by applying any one or more of the following or similar procedures.

- Compare the procedures to be applied to written requirements of the specified parties.
- Discuss the procedures to be applied with appropriate representatives of the specified parties involved.
- Review relevant contracts with or correspondence from the specified parties.

The practitioner should not report on an engagement when specified parties do not agree upon the procedures performed or to be performed and do not take responsibility for the sufficiency of the procedures for their purposes. (See paragraph .36 for guidance on satisfying these requirements when the practitioner is requested to add other parties as specified parties after the date of completion of the agreed-upon procedures.)

Subject Matter and Related Assertions

.08 The subject matter of an agreed-upon procedures engagement may take many different forms and may be at a point in time or covering a period of time. In an agreed-upon procedures engagement, it is the specific subject matter to which the agreed-upon procedures are to be applied using the criteria

selected. Even though the procedures are agreed upon between the practitioner and the specified parties, the subject matter and the criteria must meet the conditions set forth in the third general standard. (See paragraphs .23–.24 of section 101.) The criteria against which the specific subject matter needs to be measured may be recited within the procedures enumerated or referred to in the practitioner's report.

.09 An assertion is any declaration or set of declarations about whether the subject matter is based on or in conformity with the criteria selected. A written assertion is generally not required in an agreed-upon procedures engagement unless specifically required by another attest standard (for example, see paragraph .11 of section 601). If, however, the practitioner requests the responsible party to provide an assertion, the assertion may be presented in a representation letter or another written communication from the responsible party, such as in a statement, narrative description, or schedule appropriately identifying what is being presented and the point in time or the period of time covered.

Establishing an Understanding With the Client

.10 The practitioner should establish an understanding with the client regarding the services to be performed. When the practitioner documents the understanding through a written communication with the client (an *engagement letter*), such communication should be addressed to the client, and in some circumstances also to all specified parties. Matters that might be included in such an understanding include the following:

- The nature of the engagement
- Identification of the subject matter (or the assertion related thereto), the responsible party, and the criteria to be used
- Identification of specified parties (See paragraph .36.)
- Specified parties' acknowledgment of their responsibility for the sufficiency of the procedures
- Responsibilities of the practitioner (See paragraphs .12–.14 and .40.)
- Reference to attestation standards established by the American Institute of Certified Public Accountants (AICPA)
- Agreement on procedures by enumerating (or referring to) the procedures (See paragraphs .15–.18.)
- Disclaimers expected to be included in the practitioner's report
- Use restrictions
- Assistance to be provided to the practitioner (See paragraphs .22–.23.)
- Involvement of a specialist (See paragraphs .19–.21.)
- Agreed-upon materiality limits (See paragraph .25.)

Nature, Timing, and Extent of Procedures

Responsibility of the Specified Parties

.11 Specified parties are responsible for the sufficiency (nature, timing, and extent) of the agreed-upon procedures because they best understand their own needs. The specified parties assume the risk that such procedures might be insufficient for their purposes. In addition, the specified parties assume the risk that they might misunderstand or otherwise inappropriately use findings properly reported by the practitioner.

Practitioner's Responsibility

.12 The responsibility of the practitioner is to carry out the procedures and report the findings in accordance with the general, fieldwork, and reporting standards as discussed and interpreted in this section. The practitioner assumes the risk that misapplication of the procedures may result in inappropriate findings being reported. Furthermore, the practitioner assumes the risk that appropriate findings may not be reported or may be reported inaccurately. The practitioner's risks can be reduced through adequate planning and supervision and due professional care in performing the procedures, determining the findings, and preparing the report.

.13 The practitioner should have adequate knowledge in the specific subject matter to which the agreed-upon procedures are to be applied. He or she may obtain such knowledge through formal or continuing education, practical experience, or consultation with others.⁵

.14 The practitioner has no responsibility to determine the differences between the agreed-upon procedures to be performed and the procedures that the practitioner would have determined to be necessary had he or she been engaged to perform another form of attest engagement. The procedures that the practitioner agrees to perform pursuant to an agreed-upon procedures engagement may be more or less extensive than the procedures that the practitioner would determine to be necessary had he or she been engaged to perform another form of engagement.

Procedures to Be Performed

.15 The procedures that the practitioner and specified parties agree upon may be as limited or as extensive as the specified parties desire. However, mere reading of an assertion or specified information about the subject matter does not constitute a procedure sufficient to permit a practitioner to report on the results of applying agreed-upon procedures. In some circumstances, the procedures agreed upon evolve or are modified over the course of the engagement. In general, there is flexibility in determining the procedures as long as the specified parties acknowledge responsibility for the sufficiency of such procedures for their purposes. Matters that should be agreed upon include the nature, timing, and extent of the procedures.

⁵ Paragraphs .19–.20 of section 601 provide guidance about obtaining an understanding of certain requirements in an agreed-upon procedures engagement on compliance.

.16 The practitioner should not agree to perform procedures that are overly subjective and thus possibly open to varying interpretations. Terms of uncertain meaning (such as general review, limited review, check, or test) should not be used in describing the procedures unless such terms are defined within the agreed-upon procedures. The practitioner should obtain evidential matter from applying the agreed-upon procedures to provide a reasonable basis for the finding or findings expressed in his or her report, but need not perform additional procedures outside the scope of the engagement to gather additional evidential matter.

.17 Examples of appropriate procedures include the following:

- Execution of a sampling application after agreeing on relevant parameters
- Inspection of specified documents evidencing certain types of transactions or detailed attributes thereof
- Confirmation of specific information with third parties
- Comparison of documents, schedules, or analyses with certain specified attributes
- Performance of specific procedures on work performed by others (including the work of internal auditors—see paragraphs .22–.23)
- Performance of mathematical computations

.18 Examples of inappropriate procedures include the following:

- Mere reading of the work performed by others solely to describe their findings
- Evaluating the competency or objectivity of another party
- Obtaining an understanding about a particular subject
- Interpreting documents outside the scope of the practitioner's professional expertise

Involvement of a Specialist⁶

.19 The practitioner's education and experience enable him or her to be knowledgeable about business matters in general, but he or she is not expected to have the expertise of a person trained for or qualified to engage in the practice of another profession or occupation. In certain circumstances, it may be appropriate to involve a specialist to assist the practitioner in the performance of one or more procedures. The following are examples.

- An attorney might provide assistance concerning the interpretation of legal terminology involving laws, regulations, rules, contracts, or grants.
- A medical specialist might provide assistance in understanding the characteristics of diagnosis codes documented in patient medical records.
- An environmental engineer might provide assistance in interpreting environmental remedial action regulatory directives that may affect

⁶ A *specialist* is a person (or firm) possessing skill or knowledge in a particular field other than the attest function. As used herein, a specialist does not include a person employed by the practitioner's firm who participates in the attest engagement.

the agreed-upon procedures applied to an environmental liabilities account in a financial statement.

- A geologist might provide assistance in distinguishing between varying physical characteristics of a generic minerals group related to information to which the agreed-upon procedures are applied.

.20 The practitioner and the specified parties should explicitly agree to the involvement of the specialist in assisting a practitioner in the performance of an agreed-upon procedures engagement. This agreement may be reached when obtaining agreement on the procedures performed or to be performed and acknowledgment of responsibility for the sufficiency of the procedures, as discussed in paragraph .07. The practitioner's report should describe the nature of the assistance provided by the specialist.

.21 A practitioner may agree to apply procedures to the report or work product of a specialist that does not constitute assistance by the specialist to the practitioner in an agreed-upon procedures engagement. For example, the practitioner may make reference to information contained in a report of a specialist in describing an agreed-upon procedure. However, it is inappropriate for the practitioner to agree to merely read the specialist's report solely to describe or repeat the findings, or to take responsibility for all or a portion of any procedures performed by a specialist or the specialist's work product.

Internal Auditors and Other Personnel

.22 The agreed-upon procedures to be enumerated or referred to in the practitioner's report are to be performed entirely by the practitioner except as discussed in paragraphs .19–.21.⁷ However, internal auditors or other personnel may prepare schedules and accumulate data or provide other information for the practitioner's use in performing the agreed-upon procedures. Also, internal auditors may perform and report separately on procedures that they have carried out. Such procedures may be similar to those that a practitioner may perform under this section.

.23 A practitioner may agree to perform procedures on information documented in the working papers of internal auditors. For example, the practitioner may agree to—

- Repeat all or some of the procedures.
- Determine whether the internal auditors' working papers contain documentation of procedures performed and whether the findings documented in the working papers are presented in a report by the internal auditors.

However, it is inappropriate for the practitioner to—

- Agree to merely read the internal auditors' report solely to describe or repeat their findings.
- Take responsibility for all or a portion of any procedures performed by internal auditors by reporting those findings as the practitioner's own.
- Report in any manner that implies shared responsibility for the procedures with the internal auditors.

⁷ AU-C section 610, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, does not apply to agreed-upon procedures engagements. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Findings

.24 A practitioner should present the results of applying agreed-upon procedures to specific subject matter in the form of findings. The practitioner should not provide negative assurance about whether the subject matter or the assertion is fairly stated based on the criteria. For example, the practitioner should not include a statement in his or her report that "nothing came to my attention that caused me to believe that the [identify subject matter] is not presented based on [or the assertion is not fairly stated based on] [identify criteria]."

.25 The practitioner should report all findings from application of the agreed-upon procedures. The concept of materiality does not apply to findings to be reported in an agreed-upon procedures engagement unless the definition of materiality is agreed to by the specified parties. Any agreed-upon materiality limits should be described in the practitioner's report.

.26 The practitioner should avoid vague or ambiguous language in reporting findings. Examples of appropriate and inappropriate descriptions of findings resulting from the application of certain agreed-upon procedures follow.

<i>Procedures Agreed Upon</i>	<i>Appropriate Description of Findings</i>	<i>Inappropriate Description of Findings</i>
Inspect the shipment dates for a sample (agreed-upon) of specified shipping documents, and determine whether any such dates were subsequent to December 31, 20XX.	No shipment dates shown on the sample of shipping documents were subsequent to December 31, 20XX.	Nothing came to my attention as a result of applying that procedure.
Calculate the number of blocks of streets paved during the year ended September 30, 20XX, shown on contractors' certificates of project completion; compare the resultant number to the number in an identified chart of performance statistics.	The number of blocks of streets paved in the chart of performance statistics was Y blocks more than the number calculated from the contractors' certificates of project completion.	The number of blocks of streets paved approximated the number of blocks included in the chart of performance statistics.
Calculate the rate of return on a specified investment (according to an agreed-upon formula) and verify that the resultant percentage agrees to the percentage in an identified schedule.	No exceptions were found as a result of applying the procedure.	The resultant percentage approximated the predetermined percentage in the identified schedule.

<i>Procedures Agreed Upon</i>	<i>Appropriate Description of Findings</i>	<i>Inappropriate Description of Findings</i>
<p>Inspect the quality standards classification codes in identified performance test documents for products produced during a specified period; compare such codes to those shown in an identified computer printout.</p>	<p>All classification codes inspected in the identified documents were the same as those shown in the computer printout except for the following:</p> <p><i>[List all exceptions.]</i></p>	<p>All classification codes appeared to comply with such performance documents.</p>
<p>Trace all outstanding checks appearing on a bank reconciliation as of a certain date to checks cleared in the bank statement of the subsequent month.</p>	<p>All outstanding checks appearing on the bank reconciliation were cleared in the subsequent month's bank statement except for the following:</p> <p><i>[List all exceptions.]</i></p>	<p>Nothing came to my attention as a result of applying the procedure.</p>
<p>Compare the amounts of the invoices included in the "over ninety days" column shown in an identified schedule of aged accounts receivable of a specific customer as of a certain date to the amount and invoice date shown on the outstanding invoice and determine whether or not the invoice dates precede the date indicated on the schedule by more than ninety days.</p>	<p>All outstanding invoice amounts agreed with the amounts shown on the schedule in the "over ninety days" column, and the dates shown on such invoices preceded the date indicated on the schedule by more than ninety days.</p>	<p>The outstanding invoice amounts agreed within approximation of the amounts shown on the schedule in the "over ninety days" column, and nothing came to our attention that the dates shown on such invoices preceded the date indicated on the schedule by more than ninety days.</p>

Working Papers

[.27-.30] [Paragraphs deleted by the issuance of SSAE No. 11, January 2002.]^[8-9]

^[8-9] [Footnotes deleted by the issuance of SSAE No. 11, January 2002.]

Reporting

Required Elements

.31 The practitioner's report on agreed-upon procedures should be in the form of procedures and findings. The practitioner's report should contain the following elements:

- a. A title that includes the word *independent*
- b. Identification of the specified parties (See paragraph .36.)
- c. Identification of the subject matter¹⁰ (or the written assertion related thereto) and the character of the engagement
- d. Identification of the responsible party
- e. A statement that the subject matter is the responsibility of the responsible party
- f. A statement that the procedures performed were those agreed to by the specified parties identified in the report
- g. A statement that the agreed-upon procedures engagement was conducted in accordance with attestation standards established by the AICPA
- h. A statement that the sufficiency of the procedures is solely the responsibility of the specified parties and a disclaimer of responsibility for the sufficiency of those procedures
- i. A list of the procedures performed (or reference thereto) and related findings (The practitioner should not provide negative assurance—see paragraph .24.)
- j. Where applicable, a description of any agreed-upon materiality limits (See paragraph .25.)
- k. A statement that the practitioner was not engaged to and did not conduct an examination^{11, 12} of the subject matter, the objective of which would be the expression of an opinion, a disclaimer of opinion on the subject matter, and a statement that if the practitioner had performed

¹⁰ In some agreed-upon procedures engagements, the practitioner may be asked to apply agreed-upon procedures to more than one subject matter or assertion. In these engagements, the practitioner may issue one report that refers to all subject matter covered or assertions presented. (For example, see paragraph .28 of section 601.)

¹¹ If the practitioner also wishes to refer to a review, alternate wording would be as follows.

A statement that the practitioner was not engaged to and did not conduct an examination or a review of the subject matter, the objectives of which would be the expression of an opinion or limited assurance, a disclaimer of opinion on the subject matter, and a statement that if the practitioner had performed additional procedures, other matters might have come to his or her attention that would have been reported.

¹² If the subject matter consists of elements, accounts, or items of a financial statement, this statement may be worded as follows.

We were not engaged to and did not conduct an audit [or a review], the objective of which would be the expression of an opinion [or limited assurance] on the [identify elements, accounts, or items of a financial statement]. Accordingly, we do not express such an opinion [or limited assurance].

Alternatively, the wording may be the following.

These agreed-upon procedures do not constitute an audit [or a review] of financial statements or any part thereof, the objective of which is the expression of opinion [or limited assurance] on the financial statements or a part thereof.

additional procedures, other matters might have come to his or her attention that would have been reported^{13]}

- l. A statement of restrictions on the use of the report because it is intended to be used solely by the specified parties¹⁴
- m. Where applicable, reservations or restrictions concerning procedures or findings as discussed in paragraphs .33, .35, and .39–.40
- n. For an agreed-upon procedures engagement on prospective financial information, all items included in paragraph .55 of section 301
- o. Where applicable, a description of the nature of the assistance provided by a specialist as discussed in paragraphs .19–.21
- p. The manual or printed signature of the practitioner's firm
- q. The date of the report

Illustrative Report

.32 The following is an illustration of an agreed-upon procedures report.

Independent Accountant's Report on Applying Agreed-Upon Procedures

To the Audit Committees and Managements of ABC Inc. and XYZ Fund:

We have performed the procedures enumerated below, which were agreed to by the audit committees and managements of ABC Inc. and XYZ Fund, solely to assist you in evaluating the accompanying Statement of Investment Performance Statistics of XYZ Fund (prepared in accordance with the criteria specified therein) for the year ended December 31, 20X1. XYZ Fund's management is responsible for the statement of investment performance statistics. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

[Include paragraphs to enumerate procedures and findings.]

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on the accompanying Statement of Investment Performance Statistics of XYZ Fund. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the audit committees and managements of ABC Inc. and XYZ Fund,¹⁵ and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

^{13]} [Footnote deleted, December 2012, to reflect conforming changes necessary due to the issuance of SSARS No. 19 and SAS Nos. 122–126.]

¹⁴ The purpose of the restriction on the use of the practitioner's report on applying agreed-upon procedures is to restrict its use to only those parties that have agreed upon the procedures performed and taken responsibility for the sufficiency of the procedures. Paragraph .36 describes the process for adding parties who were not originally contemplated in the agreed-upon procedures engagement.

¹⁵ The report may list the specified parties or refer the reader to the specified parties listed elsewhere in the report.

Explanatory Language

.33 The practitioner also may include explanatory language about matters such as the following:

- Disclosure of stipulated facts, assumptions, or interpretations (including the source thereof) used in the application of agreed-upon procedures (For example, see paragraph .26 of section 601.)
- Description of the condition of records, controls, or data to which the procedures were applied
- Explanation that the practitioner has no responsibility to update his or her report
- Explanation of sampling risk

Dating of Report

.34 The date of completion of the agreed-upon procedures should be used as the date of the practitioner's report.

Restrictions on the Performance of Procedures

.35 When circumstances impose restrictions on the performance of the agreed-upon procedures, the practitioner should attempt to obtain agreement from the specified parties for modification of the agreed-upon procedures. When such agreement cannot be obtained (for example, when the agreed-upon procedures are published by a regulatory agency that will not modify the procedures), the practitioner should describe any restrictions on the performance of procedures in his or her report or withdraw from the engagement.

Adding Specified Parties (Nonparticipant Parties)

.36 Subsequent to the completion of the agreed-upon procedures engagement, a practitioner may be requested to consider the addition of another party as a specified party (*a nonparticipant party*). The practitioner may agree to add a nonparticipant party as a specified party, based on consideration of such factors as the identity of the nonparticipant party and the intended use of the report.¹⁶ If the practitioner does agree to add the nonparticipant party, he or she should obtain affirmative acknowledgment, normally in writing, from the nonparticipant party agreeing to the procedures performed and of its taking responsibility for the sufficiency of the procedures. If the nonparticipant party is added after the practitioner has issued his or her report, the report may be reissued or the practitioner may provide other written acknowledgment that the nonparticipant party has been added as a specified party. If the report is reissued, the report date should not be changed. If the practitioner provides written acknowledgment that the nonparticipant party has been added as a specified party, such written acknowledgment ordinarily should state that no procedures have been performed subsequent to the date of the report.

¹⁶ When considering whether to add a nonparticipant party, the guidance in paragraphs .A27–.A28 of AU-C section 560, *Subsequent Events and Subsequently Discovered Facts*, may be helpful. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Written Representations

.37 A practitioner may find a representation letter to be a useful and practical means of obtaining representations from the responsible party. The need for such a letter may depend on the nature of the engagement and the specified parties. For example, paragraph .68 of section 601 requires a practitioner to obtain written representations from the responsible party in an agreed-upon procedures engagement related to compliance with specified requirements.

.38 Examples of matters that might appear in a representation letter from the responsible party include the following:

- a. A statement acknowledging responsibility for the subject matter and, when applicable, the assertion
- b. A statement acknowledging responsibility for selecting the criteria and for determining that such criteria are appropriate for their purposes
- c. The assertion about the subject matter based on the criteria selected
- d. A statement that all known matters contradicting the subject matter or the assertion and any communication from regulatory agencies affecting the subject matter or the assertion has been disclosed to the practitioner
- e. Availability of all records relevant to the subject matter and the agreed-upon procedures
- f. Other matters as the practitioner deems appropriate

.39 The responsible party's refusal to furnish written representations determined by the practitioner to be appropriate for the engagement constitutes a limitation on the performance of the engagement. In such circumstances, the practitioner should do one of the following.

- a. Disclose in his or her report the inability to obtain representations from the responsible party.
- b. Withdraw from the engagement.¹⁷
- c. Change the engagement to another form of engagement.

Knowledge of Matters Outside Agreed-Upon Procedures

.40 The practitioner need not perform procedures beyond the agreed-upon procedures. However, in connection with the application of agreed-upon procedures, if matters come to the practitioner's attention by other means that significantly contradict the subject matter (or written assertion related thereto) referred to in the practitioner's report, the practitioner should include this matter in his or her report.¹⁸ For example, if, during the course of applying

¹⁷ For an agreed-upon procedures engagement performed pursuant to section 601, management's refusal to furnish all required representations also constitutes a limitation on the scope of the engagement that requires the practitioner to withdraw from the engagement.

¹⁸ If the practitioner has performed (or has been engaged to perform) an audit of the entity's financial statements to which an element, account, or item of a financial statement relates and the auditor's report on such financial statements includes a departure from a standard report (see AU-C section 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*), he or she should consider including a reference to the auditor's report and the departure from the standard report in his or her agreed-upon procedures report. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

agreed-upon procedures regarding an entity's internal control, the practitioner becomes aware of a material weakness by means other than performance of the agreed-upon procedure, the practitioner should include this matter in his or her report.

Change to an Agreed-Upon Procedures Engagement From Another Form of Engagement

.41 A practitioner who has been engaged to perform another form of attest engagement or a nonattest service engagement may, before the engagement's completion, be requested to change the engagement to an agreed-upon procedures engagement under this section. A request to change the engagement may result from a change in circumstances affecting the client's requirements, a misunderstanding about the nature of the original services or the alternative services originally available, or a restriction on the performance of the original engagement, whether imposed by the client or caused by circumstances.

.42 Before a practitioner who was engaged to perform another form of engagement agrees to change the engagement to an agreed-upon procedures engagement, he or she should consider the following:

- a. The possibility that certain procedures performed as part of another type of engagement are not appropriate for inclusion in an agreed-upon procedures engagement
- b. The reason given for the request, particularly the implications of a restriction on the scope of the original engagement or the matters to be reported
- c. The additional effort required to complete the original engagement
- d. If applicable, the reasons for changing from a general-use report to a restricted-use report

.43 If the specified parties acknowledge agreement to the procedures performed or to be performed and assume responsibility for the sufficiency of the procedures to be included in the agreed-upon procedures engagement, either of the following would be considered a reasonable basis for requesting a change in the engagement—

- a. A change in circumstances that requires another form of engagement
- b. A misunderstanding concerning the nature of the original engagement or the available alternatives

.44 In all circumstances, if the original engagement procedures are substantially complete or the effort to complete such procedures is relatively insignificant, the practitioner should consider the propriety of accepting a change in the engagement.

.45 If the practitioner concludes, based on his or her professional judgment, that there is reasonable justification to change the engagement, and provided he or she complies with the standards applicable to agreed-upon procedures engagements, the practitioner should issue an appropriate agreed-upon procedures report. The report should not include reference to either the original engagement or performance limitations that resulted in the changed engagement. (See paragraph .40.)

Combined Reports Covering Both Restricted-Use and General-Use Subject Matter or Presentations

.46 When a practitioner performs services pursuant to an engagement to apply agreed-upon procedures to specific subject matter as part of or in addition to another form of service, this section applies only to those services described herein; other Standards would apply to the other services. Other services may include an audit, review, or compilation of a financial statement, another attest service performed pursuant to the SSAEs, or a nonattest service.¹⁹ Reports on applying agreed-upon procedures to specific subject matter may be combined with reports on such other services, provided the types of services can be clearly distinguished and the applicable Standards for each service are followed. See paragraphs .82–.83 of section 101 regarding restricting the use of the combined report.

Effective Date

.47 This section is effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001. Early application is permitted.

¹⁹ See paragraphs .105–.107 of section 101 for requirements relating to attest services provided as part of a consulting service engagement.

Appendix

Additional Illustrative Reports

The following are additional illustrations of reporting on applying agreed-upon procedures to elements, accounts, or items of a financial statement.

1. Report in Connection With a Proposed Acquisition

Independent Accountant's Report
on Applying Agreed-Upon Procedures

To the Board of Directors and Management of X Company:

We have performed the procedures enumerated below, which were agreed to by the Board of Directors and Management of X Company, solely to assist you in connection with the proposed acquisition of Y Company as of December 31, 20XX. Y Company is responsible for its cash and accounts receivable records. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and the associated findings are as follows:

Cash

1. We obtained confirmation of the cash on deposit from the following banks, and we agreed the confirmed balance to the amount shown on the bank reconciliations maintained by Y Company. We mathematically checked the bank reconciliations and compared the resultant cash balances per book to the respective general ledger account balances.

<i>Bank</i>	<i>General Ledger Account Balances as of December 31, 20XX</i>
ABC National Bank	\$ 5,000
DEF State Bank	3,776
XYZ Trust Company regular account	86,912
XYZ Trust Company payroll account	5,000
	<u>\$110,688</u>

We found no exceptions as a result of the procedures.

Accounts Receivable

2. We added the individual customer account balances shown in an aged trial balance of accounts receivable (identified as Exhibit A) and compared the resultant total with the balance in the general ledger account.

We found no difference.

3. We compared the individual customer account balances shown in the aged trial balance of accounts receivable (Exhibit A) as of December 31, 19XX, to the balances shown in the accounts receivable subsidiary ledger.

We found no exceptions as a result of the comparisons.

4. We traced the aging (according to invoice dates) for 50 customer account balances shown in Exhibit A to the details of outstanding invoices in the accounts receivable subsidiary ledger. The balances selected for tracing were determined by starting at the eighth item and selecting every fifteenth item thereafter.

We found no exceptions in the aging of the amounts of the 50 customer account balances selected. The sample size traced was 9.8 percent of the aggregate amount of the customer account balances.

5. We mailed confirmations directly to the customers representing the 150 largest customer account balances selected from the accounts receivable trial balance, and we received responses as indicated below. We also traced the items constituting the outstanding customer account balance to invoices and supporting shipping documents for customers from which there was no reply. As agreed, any individual differences in a customer account balance of less than \$300 were to be considered minor, and no further procedures were performed.

Of the 150 customer balances confirmed, we received responses from 140 customers; 10 customers did not reply. No exceptions were identified in 120 of the confirmations received. The differences disclosed in the remaining 20 confirmation replies were either minor in amount (as defined above) or were reconciled to the customer account balance without proposed adjustment thereto. A summary of the confirmation results according to the respective aging categories is as follows.

<i>Accounts Receivable</i>			
<i>December 31, 20XX</i>			
<i>Aging Categories</i>	<i>Customer Account Balances</i>	<i>Confirmations Requested</i>	<i>Confirmations Received</i>
Current	\$156,000	\$ 76,000	\$ 65,000
Past due:			
Less than one month:	60,000	30,000	19,000
One to three months	36,000	18,000	10,000
Over three months	<u>48,000</u>	<u>48,000</u>	<u>8,000</u>
	<u>\$300,000</u>	<u>\$172,000</u>	<u>\$102,000</u>

We were not engaged to and did not conduct an audit, the objective of which would be the expression of an opinion on cash and accounts receivable. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the board of directors and management of X Company and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

2. Report in Connection With Claims of Creditors

Independent Accountant's Report on Applying Agreed-Upon Procedures

To the Trustee of XYZ Company:

We have performed the procedures described below, which were agreed to by the Trustee of XYZ Company, with respect to the claims of creditors solely to assist you in determining the validity of claims of XYZ Company as of May 31, 20XX, as set forth in the accompanying Schedule A. XYZ Company is responsible for maintaining records of claims submitted by creditors of XYZ Company. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the party specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

1. Compare the total of the trial balance of accounts payable at May 31, 20XX, prepared by XYZ Company, to the balance in the related general ledger account.

The total of the accounts payable trial balance agreed with the balance in the related general ledger account.

2. Compare the amounts for claims received from creditors (as shown in claim documents provided by XYZ Company) to the respective amounts shown in the trial balance of accounts payable. Using the data included in the claims documents and in XYZ Company's accounts payable detail records, reconcile any differences found to the accounts payable trial balance.

All differences noted are presented in column 3 of Schedule A. Except for those amounts shown in column 4 of Schedule A, all such differences were reconciled.

3. Obtain the documentation submitted by creditors in support of the amounts claimed and compare it to the following documentation in XYZ Company's files: invoices, receiving reports, and other evidence of receipt of goods or services.

No exceptions were found as a result of these comparisons.

We were not engaged to and did not conduct an audit, the objective of which would be the expression of an opinion on the claims of creditors set forth in the accompanying Schedule A. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Trustee of XYZ Company and is not intended to be and should not be used by anyone other than this specified party.

[Date]

AT Section 301

Financial Forecasts and Projections

Source: SSAE No. 10; SSAE No. 11; SSAE No. 17.

Effective when the date of the practitioner's report is on or after June 1, 2001, unless otherwise indicated.

Introduction

.01 This section sets forth standards and provides guidance to practitioners who are engaged to issue or do issue examination (paragraphs .29–.50), compilation (paragraphs .12–.28), or agreed-upon procedures reports (paragraphs .51–.56) on prospective financial statements.

.02 Whenever a practitioner (*a*) submits, to his or her client or others, prospective financial statements that he or she has assembled, or assisted in assembling, that are or reasonably might be expected to be used by another (third) party¹ or (*b*) reports on prospective financial statements that are, or reasonably might be expected to be used by another (third) party, the practitioner should perform one of the engagements described in the preceding paragraph. In deciding whether the prospective financial statements are or reasonably might be expected to be used by a third party, the practitioner may rely on either the written or oral representation of the responsible party, unless information comes to his or her attention that contradicts the responsible party's representation. If such third-party use of the prospective financial statements is not reasonably expected, the provisions of this section are not applicable unless the practitioner has been engaged to examine, compile, or apply agreed-upon procedures to the prospective financial statements.

.03 This section also provides standards for a practitioner who is engaged to examine, compile, or apply agreed-upon procedures to partial presentations. A partial presentation is a presentation of prospective financial information that excludes one or more of the items required for prospective financial statements as described in appendix A [paragraph .68], "Minimum Presentation Guidelines."

.04 The practitioner who has been engaged to or does compile, examine, or apply agreed-upon procedures to a partial presentation should perform the engagement in accordance with the guidance in paragraphs .12–.28 for compilations, .29–.50 for examinations, and .51–.56 for agreed-upon procedures, respectively, modified to reflect the nature of the presentation as discussed in paragraphs .03 and .57–.58.

.05 This section does not provide standards or procedures for engagements involving prospective financial statements used solely in connection with litigation support services. A practitioner may, however, look to these standards because they provide helpful guidance for many aspects of such engagements and may be referred to as useful guidance in such engagements. Litigation support services are engagements involving pending or potential formal legal proceedings before a trier of fact in connection with the resolution

¹ However, paragraph .59 permits an exception to this for certain types of budgets.

of a dispute between two or more parties, for example, when a practitioner acts as an expert witness. This exception is provided because, among other things, the practitioner's work in such proceedings is ordinarily subject to detailed analysis and challenge by each party to the dispute. This exception does not apply, however, if either of the following occur.

- a. The practitioner is specifically engaged to issue or does issue an examination, a compilation, or an agreed-upon procedures report on prospective financial statements.
- b. The prospective financial statements are for use by third parties who, under the rules of the proceedings, do not have the opportunity for analysis and challenge by each party to a dispute in a legal proceeding.

For example, creditors may not have such opportunities when prospective financial statements are submitted to them to secure their agreement to a plan of reorganization.

.06 In reporting on prospective financial statements, the practitioner may be called on to assist the responsible party in identifying assumptions, gathering information, or assembling the statements.² The responsible party is nonetheless responsible for the preparation and presentation of the prospective financial statements because the prospective financial statements are dependent on the actions, plans, and assumptions of the responsible party, and only it can take responsibility for the assumptions. Accordingly, the practitioner's engagement should not be characterized in his or her report or in the document containing his or her report as including "preparation" of the prospective financial statements. A practitioner may be engaged to prepare a financial analysis of a potential project where the engagement includes obtaining the information, making appropriate assumptions, and assembling the presentation. Such an analysis is not and should not be characterized as a forecast or projection and would not be appropriate for general use. However, if the responsible party reviewed and adopted the assumptions and presentation, or based its assumptions and presentation on the analysis, the practitioner could perform one of the engagements described in this section and issue a report appropriate for general use.

.07 The concept of materiality affects the application of this section to prospective financial statements as materiality affects the application of generally accepted auditing standards (GAAS) to historical financial statements. Materiality is a concept that is judged in light of the expected range of reasonableness of the information; therefore, users should not expect prospective information (information about events that have not yet occurred) to be as precise as historical information.

Definitions

.08 For the purposes of this section the following definitions apply.

- a. *Prospective financial statements*—Either financial forecasts or financial projections including the summaries of significant assumptions and accounting policies. Although prospective financial statements may cover a period that has partially expired, statements for periods that have completely expired are not considered to be prospective

² Some of these services may not be appropriate if the practitioner is to be named as the person reporting on an examination in a filing with the Securities and Exchange Commission (SEC). SEC Release Nos. 33-5992 and 34-15305, "Disclosure of Projections of Future Economic Performance," state that for prospective financial statements filed with the commission, "a person should not be named as an outside reviewer if he actively assisted in the preparation of the projection."

financial statements. Pro forma financial statements and partial presentations are not considered to be prospective financial statements.³

- b. *Partial presentation*—A presentation of prospective financial information that excludes one or more of the items required for prospective financial statements as described in appendix A (paragraph .68), "Minimum Presentation Guidelines." Partial presentations are not ordinarily appropriate for general use; accordingly, partial presentations should be restricted for use by specified parties who will be negotiating directly with the responsible party.
- c. *Financial forecast*—Prospective financial statements that present, to the best of the responsible party's knowledge and belief, an entity's expected financial position, results of operations, and cash flows. A financial forecast is based on the responsible party's assumptions reflecting the conditions it expects to exist and the course of action it expects to take. A financial forecast may be expressed in specific monetary amounts as a single point estimate of forecasted results or as a range, where the responsible party selects key assumptions to form a range within which it reasonably expects, to the best of its knowledge and belief, the item or items subject to the assumptions to actually fall. When a forecast contains a range, the range is not selected in a biased or misleading manner, for example, a range in which one end is significantly less expected than the other. Minimum presentation guidelines for prospective financial statements are set forth in appendix A (paragraph .68).
- d. *Financial projection*—Prospective financial statements that present, to the best of the responsible party's knowledge and belief, given one or more hypothetical assumptions, an entity's expected financial position, results of operations, and cash flows. A financial projection is sometimes prepared to present one or more hypothetical courses of action for evaluation, as in response to a question such as, "What would happen if . . . ?" A financial projection is based on the responsible party's assumptions reflecting conditions it expects would exist and the course of action it expects would be taken, given one or more hypothetical assumptions. A projection, like a forecast, may contain a range. Minimum presentation guidelines for prospective financial statements are set forth in appendix A (paragraph .68).
- e. *Entity*—Any unit, existing or to be formed, for which financial statements could be prepared in accordance with generally accepted accounting principles (GAAP) or a special purpose framework.⁴ For example, an entity can be an individual, partnership, corporation, trust, estate, association, or governmental unit.
- f. *Hypothetical assumption*—An assumption used in a financial projection to present a condition or course of action that is not necessarily expected to occur, but is consistent with the purpose of the projection.

³ The objective of pro forma financial information is to show what the significant effects on the historical financial information might have been had a consummated or proposed transaction (or event) occurred at an earlier date. Although the transaction in question may be prospective, this section does not apply to such presentations because they are essentially historical financial statements and do not purport to be prospective financial statements. See section 401, *Reporting on Pro Forma Financial Information*.

⁴ AU-C section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*, defines a *special purpose framework* as a cash, tax, regulatory, or contractual basis of accounting (commonly referred to as *comprehensive bases of accounting other than GAAP*). [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

- g. *Responsible party*—The person or persons who are responsible for the assumptions underlying the prospective financial statements. The responsible party usually is management, but it can be persons outside of the entity who do not currently have the authority to direct operations (for example, a party considering acquiring the entity).
- h. *Assembly*—The manual or computer processing of mathematical or other clerical functions related to the presentation of the prospective financial statements. Assembly does not refer to the mere reproduction and collation of such statements or to the responsible party's use of the practitioner's computer processing hardware or software.
- i. *Key factors*—The significant matters on which an entity's future results are expected to depend. Such factors are basic to the entity's operations and thus encompass matters that affect, among other things, the entity's sales, production, service, and financing activities. Key factors serve as a foundation for prospective financial statements and are the bases for the assumptions.

[Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Uses of Prospective Financial Statements

.09 Prospective financial statements are for either *general use* or *limited use*. *General use* of prospective financial statements refers to the use of the statements by persons with whom the responsible party is not negotiating directly, for example, in an offering statement of an entity's debt or equity interests. Because recipients of prospective financial statements distributed for general use are unable to ask the responsible party directly about the presentation, the presentation most useful to them is one that portrays, to the best of the responsible party's knowledge and belief, the expected results. Thus, only a financial forecast is appropriate for general use.

.10 *Limited use* of prospective financial statements refers to the use of prospective financial statements by the responsible party alone or by the responsible party and third parties with whom the responsible party is negotiating directly. Examples include use in negotiations for a bank loan, submission to a regulatory agency, and use solely within the entity. Third-party recipients of prospective financial statements intended for limited use can ask questions of the responsible party and negotiate terms directly with it. Any type of prospective financial statements that would be useful in the circumstances would normally be appropriate for limited use. Thus, the presentation may be a financial forecast or a financial projection.

.11 Because a financial projection is not appropriate for general use, a practitioner should not consent to the use of his or her name in conjunction with a financial projection that he or she believes will be distributed to those who will not be negotiating directly with the responsible party, for example, in an offering statement of an entity's debt or equity interests, unless the projection is used to supplement a financial forecast.

Compilation of Prospective Financial Statements

.12 A compilation of prospective financial statements is a professional service that involves the following:

- a. Assembling, to the extent necessary, the prospective financial statements based on the responsible party's assumptions

- b. Performing the required compilation procedures,⁵ including reading the prospective financial statements with their summaries of significant assumptions and accounting policies, and considering whether they appear to be presented in conformity with AICPA presentation guidelines⁶ and not obviously inappropriate
- c. Issuing a compilation report

.13 A compilation is not intended to provide assurance on the prospective financial statements or the assumptions underlying such statements. Because of the limited nature of the practitioner's procedures, a compilation does not provide assurance that the practitioner will become aware of significant matters that might be disclosed by more extensive procedures, for example, those performed in an examination of prospective financial statements.

.14 The summary of significant assumptions is essential to the reader's understanding of prospective financial statements. Accordingly, the practitioner should not compile prospective financial statements that exclude disclosure of the summary of significant assumptions. Also, the practitioner should not compile a financial projection that excludes either (a) an identification of the hypothetical assumptions or (b) a description of the limitations on the usefulness of the presentation.

.15 The following standards apply to a compilation of prospective financial statements and to the resulting report.

- a. The compilation should be performed by a person or persons having adequate technical training and proficiency to compile prospective financial statements.
- b. Due professional care should be exercised in the performance of the compilation and the preparation of the report.
- c. The work should be adequately planned, and assistants, if any, should be properly supervised.
- d. Applicable compilation procedures should be performed as a basis for reporting on the compiled prospective financial statements. (See appendix B [paragraph .69], "Training and Proficiency, Planning and Procedures Applicable to Compilations," for the procedures to be performed.)
- e. The report based on the practitioner's compilation of prospective financial statements should conform to the applicable guidance in paragraphs .18–.28.

.16 The practitioner should consider, after applying the procedures specified in paragraph .69, whether representations or other information he or she has received appear to be obviously inappropriate, incomplete, or otherwise misleading, and if so, the practitioner should attempt to obtain additional or revised information. If he or she does not receive such information, the practitioner should ordinarily withdraw from the compilation engagement.⁷ (Note that the

⁵ See appendix B (paragraph .69), subparagraph 5, for the required procedures.

⁶ AICPA presentation guidelines are detailed in AICPA Guide *Prospective Financial Information*.

⁷ The practitioner need not withdraw from the engagement if the effect of such information on the prospective financial statement does not appear to be material.

omission of disclosures, other than those relating to significant assumptions, would not require the practitioner to withdraw. See paragraph .26.)

Working Papers

[.17] [Paragraph deleted by the issuance of SSAE No. 11, January 2002.]

Reports on Compiled Prospective Financial Statements

.18 The practitioner's standard report on a compilation of prospective financial statements should include the following:

- a. An identification of the prospective financial statements presented by the responsible party
- b. A statement that the practitioner has compiled the prospective financial statements in accordance with attestation standards established by the American Institute of Certified Public Accountants
- c. A statement that a compilation is limited in scope and does not enable the practitioner to express an opinion or any other form of assurance on the prospective financial statements or the assumptions
- d. A caveat that the prospective results may not be achieved
- e. A statement that the practitioner assumes no responsibility to update the report for events and circumstances occurring after the date of the report
- f. The manual or printed signature of the practitioner's firm
- g. The date of the compilation report

.19 The following is the form of the practitioner's standard report on the compilation of a forecast that does not contain a range.⁸

We have compiled the accompanying forecasted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending, in accordance with attestation standards established by the American Institute of Certified Public Accountants.⁹

A compilation is limited to presenting in the form of a forecast information that is the representation of management¹⁰ and does not include evaluation of the support for the assumptions underlying the forecast. We have not examined the forecast and, accordingly, do not express an opinion or any other form of

⁸ The forms of reports provided in this section are appropriate whether the presentation is based on GAAP or on a special purpose framework. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

⁹ When the presentation is summarized as discussed in appendix A (paragraph .68), this sentence might read, "We have compiled the accompanying summarized forecast of XYZ Company as of December 31, 20XX, and for the year then ending in accordance with attestation standards established by the American Institute of Certified Public Accountants."

¹⁰ If the responsible party is other than management, the references to management in the standard reports provided in this section should be changed to refer to the party who assumes responsibility for the assumptions.

assurance on the accompanying statements or assumptions. Furthermore, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

[Signature]

[Date]

.20 When the presentation is a projection, the practitioner's compilation report should include the report elements set forth in paragraph .18. Additionally, the report should include a statement describing the special purpose for which the projection was prepared as well as a separate paragraph that restricts the use of the report because it is intended to be used solely by the specified parties. The following is the form of the practitioner's standard report on a compilation of a projection that does not contain a range.

We have compiled the accompanying projected balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending, in accordance with attestation standards established by the American Institute of Certified Public Accountants.¹¹ The accompanying projection was prepared for *[state special purpose, for example, "the purpose of negotiating a loan to expand XYZ Company's plant"]*.

A compilation is limited to presenting in the form of a projection information that is the representation of management and does not include evaluation of the support for the assumptions underlying the projection. We have not examined the projection and, accordingly, do not express an opinion or any other form of assurance on the accompanying statements or assumptions. Furthermore, even if *[describe hypothetical assumption, for example, "the loan is granted and the plant is expanded,"]* there will usually be differences between the projected and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

The accompanying projection and this report are intended solely for the information and use of *[identify specified parties, for example, "XYZ Company and DEF Bank"]* and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

.21 When the prospective financial statements contain a range, the practitioner's standard report should also include a separate paragraph that states that the responsible party has elected to portray the expected results of one or more assumptions as a range. The following is an example of the separate paragraph to be added to the practitioner's report when he or she compiles prospective financial statements, in this case a forecast, that contain a range.

As described in the summary of significant assumptions, management of XYZ Company has elected to portray forecasted *[describe financial statement element*

¹¹ When the presentation is summarized as discussed in appendix A (paragraph .68), this sentence might read as follows.

We have compiled the accompanying summarized projection of XYZ Company as of December 31, 20XX, and for the year then ending in accordance with attestation standards established by the American Institute of Certified Public Accountants.

or elements for which the expected results of one or more assumptions fall within a range, and identify the assumptions expected to fall within a range, for example, "revenue at the amounts of \$X,XXX and \$Y,YYY, which is predicated upon occupancy rates of XX percent and YY percent of available apartments," rather than as a single point estimate. Accordingly, the accompanying forecast presents forecasted financial position, results of operations, and cash flows [*describe one or more assumptions expected to fall within a range, for example, "at such occupancy rates."*] However, there is no assurance that the actual results will fall within the range of [*describe one or more assumptions expected to fall within a range, for example, "occupancy rates"*] presented.

.22 The date of completion of the practitioner's compilation procedures should be used as the date of the report.

.23 A practitioner may compile prospective financial statements for an entity with respect to which he or she is not independent.¹² In such circumstances, the practitioner's report should be modified to indicate his or her lack of independence in a separate paragraph of the practitioner's report. An example of such a disclosure would be

We are not independent with respect to XYZ Company.

The practitioner is not precluded from disclosing a description about the reason(s) that his or her independence is impaired. The following are examples of descriptions the practitioner may use:

- a. We are not independent with respect to XYZ Company as of and for the year ended [*or ending, as applicable*] December 31, 20XX, because a member of the engagement team had a direct financial interest in XYZ Company.
- b. We are not independent with respect to XYZ Company as of and for the year ended [*or ending, as applicable*] December 31, 20XX, because an immediate family member of one of the members of the engagement team was employed by XYZ Company.
- c. We are not independent with respect to XYZ Company as of and for the year ended [*or ending, as applicable*] December 31, 20XX, because we performed certain accounting services (the practitioner may include a specific description of those services) that impaired our independence.

If the accountant elects to disclose a description about the reasons his or her independence is impaired, the accountant should ensure that all reasons are included in the description.

[As amended, effective for compilations of prospective financial statements for periods ending on or after December 15, 2010, by SSAE No. 17.]

.24 Prospective financial statements may be included in a document that also contains historical financial statements and the practitioner's report thereon.^[13] In addition, the historical financial statements that appear in the document may be summarized and presented with the prospective financial statements for comparative purposes.¹⁴ An example of the reference to the prac-

¹² In making a judgment about whether he or she is independent, the practitioner should be guided by the AICPA Code of Professional Conduct. [Footnote amended, effective for compilations of prospective financial statements for periods ending on or after December 15, 2010, by SSAE No. 17.]

^[13] Footnote revised, November 2002, to reflect conforming changes necessary due to the issuance of SSARS No. 9. Footnote deleted, December 2012, to reflect conforming changes necessary due to the issuance of SSARS No. 19 and SAS Nos. 122–126.]

¹⁴ AU-C section 810, *Engagements to Report on Summary Financial Statements*, addresses the auditor's responsibilities relating to an engagement to report separately on summary financial

(continued)

tioner's report on the historical financial statements when he or she audited, reviewed, or compiled those statements is presented below.

[Concluding sentence of last paragraph]

The historical financial statements for the year ended December 31, 20XX, *[from which the historical data are derived]* and our report thereon are set forth on pages XX-XX of this document.

.25 In some circumstances, a practitioner may wish to expand his or her report to emphasize a matter regarding the prospective financial statements. Such information may be presented in a separate paragraph of the practitioner's report. However, the practitioner should exercise care that emphasizing such a matter does not give the impression that he or she is expressing assurance or expanding the degree of responsibility he or she is taking with respect to such information.¹⁵ For example, the practitioner should not include statements in his or her compilation report about the mathematical accuracy of the statements or their conformity with presentation guidelines.

Modifications of the Standard Compilation Report

.26 An entity may request a practitioner to compile prospective financial statements that contain presentation deficiencies or omit disclosures other than those relating to significant assumptions. The practitioner may compile such prospective financial statements provided the deficiency or omission is clearly indicated in his or her report and is not, to his or her knowledge, undertaken with the intention of misleading those who might reasonably be expected to use such statements.

.27 Notwithstanding the preceding, if the compiled prospective financial statements are prepared in accordance with a special purpose financial reporting framework and do not include disclosure of the framework used, the framework should be disclosed in the practitioner's report. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.28 The following is an example of a paragraph that should be added to a report on compiled prospective financial statements, in this case a financial forecast, in which the summary of significant accounting policies has been omitted.

Management has elected to omit the summary of significant accounting policies required by the guidelines for presentation of a forecast established by the American Institute of Certified Public Accountants. If the omitted disclosures were included in the forecast, they might influence the user's conclusions about the Company's financial position, results of operations, and cash flows for the forecast period. Accordingly, this forecast is not designed for those who are not informed about such matters.

Examination of Prospective Financial Statements

.29 An examination of prospective financial statements is a professional service that involves—

(footnote continued)

statements derived from financial statements audited in accordance with generally accepted auditing standards by the same auditor. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

¹⁵ However, the practitioner may provide assurance on tax matters in order to comply with the requirements of regulations governing practice before the Internal Revenue Service (IRS) contained in 31 CFR pt. 10 (Treasury Department Circular No. 230).

- a. Evaluating the preparation of the prospective financial statements.
- b. Evaluating the support underlying the assumptions.
- c. Evaluating the presentation of the prospective financial statements for conformity with AICPA presentation guidelines.¹⁶
- d. Issuing an examination report.

.30 As a result of his or her examination, the practitioner has a basis for reporting on whether, in his or her opinion—

- a. The prospective financial statements are presented in conformity with AICPA guidelines.
- b. The assumptions provide a reasonable basis for the responsible party's forecast, or whether the assumptions provide a reasonable basis for the responsible party's projection given the hypothetical assumptions.

.31 The practitioner should follow the general, fieldwork, and reporting standards for attestation engagements established in section 50, *SSAE Hierarchy*, and further explained in section 101, *Attest Engagements*, in performing an examination of prospective financial statements and reporting thereon. (See paragraph .70 for standards concerning such technical training and proficiency, planning the examination engagement, and the types of procedures a practitioner should perform to obtain sufficient evidence for his or her examination report.) [Revised, November 2006, to reflect conforming changes necessary due to the issuance of SSAE No. 14.]

Working Papers

[.32] [Paragraph deleted by the issuance of SSAE No. 11, January 2002.]

Reports on Examined Prospective Financial Statements

.33 The practitioner's standard report on an examination of prospective financial statements should include the following:

- a. A title that includes the word *independent*
- b. An identification of the prospective financial statements presented
- c. An identification of the responsible party and a statement that the prospective financial statements are the responsibility of the responsible party
- d. A statement that the practitioner's responsibility is to express an opinion on the prospective financial statements based on his or her examination
- e. A statement that the examination of the prospective financial statements was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as the practitioner considered necessary in the circumstances
- f. A statement that the practitioner believes that the examination provides a reasonable basis for his or her opinion

¹⁶ AICPA presentation guidelines are detailed in AICPA Guide *Prospective Financial Information*.

- g. The practitioner's opinion that the prospective financial statements are presented in conformity with AICPA presentation guidelines and that the underlying assumptions provide a reasonable basis for the forecast or a reasonable basis for the projection given the hypothetical assumptions¹⁷
- h. A caveat that the prospective results may not be achieved
- i. A statement that the practitioner assumes no responsibility to update the report for events and circumstances occurring after the date of the report
- j. The manual or printed signature of the practitioner's firm
- k. The date of the examination report

.34 The following is the form of the practitioner's standard report on an examination of a forecast that does not contain a range.

Independent Accountant's Report

We have examined the accompanying forecasted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending.¹⁸ XYZ Company's management is responsible for the forecast. Our responsibility is to express an opinion on the forecast based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary to evaluate both the assumptions used by management and the preparation and presentation of the forecast. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, the accompanying forecast is presented in conformity with guidelines for presentation of a forecast established by the American Institute of Certified Public Accountants, and the underlying assumptions provide a reasonable basis for management's forecast. However, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

[Signature]

[Date]

.35 When a practitioner examines a projection, his or her opinion regarding the assumptions should be conditioned on the hypothetical assumptions; that is, he or she should express an opinion on whether the assumptions provide a reasonable basis for the projection given the hypothetical assumptions. The practitioner's examination report on a projection should include the report elements set forth in paragraph .33. Additionally, the report should include a statement describing the special purpose for which the projection was prepared as well a separate paragraph that restricts the use of the report because it is

¹⁷ The practitioner's report need not comment on the consistency of the application of accounting principles as long as the presentation of any change in accounting principles is in conformity with AICPA presentation guidelines as detailed in AICPA Guide *Prospective Financial Information*.

¹⁸ When the presentation is summarized as discussed in appendix A (paragraph .68), this sentence might read, "We have examined the accompanying summarized forecast of XYZ Company as of December 31, 20XX, and for the year then ending."

intended to be used solely by specified parties. The following is the form of the practitioner's standard report on an examination of a projection that does not contain a range.

Independent Accountant's Report

We have examined the accompanying projected balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending.¹⁹ XYZ Company's management is responsible for the projection, which was prepared for [*state special purpose, for example, "the purpose of negotiating a loan to expand XYZ Company's plant"*]. Our responsibility is to express an opinion on the projection based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary to evaluate both the assumptions used by management and the preparation and presentation of the projection. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, the accompanying projection is presented in conformity with guidelines for presentation of a projection established by the American Institute of Certified Public Accountants, and the underlying assumptions provide a reasonable basis for management's projection [*describe the hypothetical assumption, for example, "assuming the granting of the requested loan for the purpose of expanding XYZ Company's plant as described in the summary of significant assumptions."*] However, even if [*describe hypothetical assumption, for example, "the loan is granted and the plant is expanded,"*] there will usually be differences between the projected and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

The accompanying projection and this report are intended solely for the information and use of [*identify specified parties, for example, "XYZ Company and DEF National Bank"*] and is not intended to be and should not be used by anyone other than these specified parties.

[*Signature*]

[*Date*]

.36 When the prospective financial statements contain a range, the practitioner's standard report should also include a separate paragraph that states that the responsible party has elected to portray the expected results of one or more assumptions as a range. The following is an example of the separate paragraph to be added to the practitioner's report when he or she examines prospective financial statements, in this case a forecast, that contain a range.

As described in the summary of significant assumptions, management of XYZ Company has elected to portray forecasted [*describe financial statement element or elements for which the expected results of one or more assumptions fall within a range, and identify assumptions expected to fall within a range, for example, "revenue at the amounts of \$X,XXX and \$Y,YYY, which is predicated upon occupancy rates of XX percent and YY percent of available apartments,"*] rather than as a single point estimate. Accordingly, the accompanying forecast presents forecasted financial position, results of operations, and cash flows [*de-*

¹⁹ When the presentation is summarized as discussed in appendix A (paragraph .68), this sentence might read, "We have examined the accompanying summarized projection of XYZ Company as of December 31, 20XX, and for the year then ending."

scribe one or more assumptions expected to fall within a range, for example, "at such occupancy rates."] However, there is no assurance that the actual results will fall within the range of [*describe one or more assumptions expected to fall within a range, for example, "occupancy rates"*] presented.

.37 The date of completion of the practitioner's examination procedures should be used as the date of the report.

Modifications to the Practitioner's Opinion²⁰

.38 The following circumstances result in the following types of modified practitioner's report involving the practitioner's opinion.

- a. If, in the practitioner's opinion, the prospective financial statements depart from AICPA presentation guidelines, he or she should express a qualified opinion (see paragraph .39) or an adverse opinion. (See paragraph .41.)²¹ However, if the presentation departs from the presentation guidelines because it fails to disclose assumptions that appear to be significant, the practitioner should express an adverse opinion. (See paragraphs .41–.42.)
- b. If the practitioner believes that one or more significant assumptions do not provide a reasonable basis for the forecast, or a reasonable basis for the projection given the hypothetical assumptions, he or she should express an adverse opinion. (See paragraph .41.)
- c. If the practitioner's examination is affected by conditions that preclude application of one or more procedures he or she considers necessary in the circumstances, he or she should disclaim an opinion and describe the scope limitation in his or her report. (See paragraph .43.)

.39 *Qualified Opinion.* In a qualified opinion, the practitioner should state, in a separate paragraph, all substantive reasons for modifying his or her opinion and describe the departure from AICPA presentation guidelines. His or her opinion should include the words "except" or "exception" as the qualifying language and should refer to the separate explanatory paragraph. The following is an example of an examination report on a forecast that is at variance with AICPA guidelines for presentation of a financial forecast.

Independent Accountant's Report

We have examined the accompanying forecasted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending. XYZ Company's management is responsible for the forecast. Our responsibility is to express an opinion on the forecast based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary to evaluate both the assumptions used by management and the preparation and presentation of the forecast. We believe that our examination provides a reasonable basis for our opinion.

²⁰ Paragraphs .38–.44 describe circumstances in which the practitioner's standard report on prospective financial statements may require modification. The guidance for modifying the practitioner's standard report is generally applicable to partial presentations. Also, depending on the nature of the presentation, the practitioner may decide to disclose that the partial presentation is not intended to be a presentation of financial position, results of operations, or cash flows. Illustrative reports on partial presentations may be found in AICPA Guide *Prospective Financial Information*.

²¹ However, the practitioner may issue the standard examination report on a financial forecast filed with the SEC that meets the presentation requirements of article XI of Regulation S-X.

The forecast does not disclose significant accounting policies. Disclosure of such policies is required by guidelines for presentation of a forecast established by the American Institute of Certified Public Accountants.

In our opinion, except for the omission of the disclosure of the significant accounting policies as discussed in the preceding paragraph, the accompanying forecast is presented in conformity with guidelines for a presentation of a forecast established by the American Institute of Certified Public Accountants and the underlying assumptions provide a reasonable basis for management's forecast. However, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

[Signature]

[Date]

.40 Because of the nature, sensitivity, and interrelationship of prospective information, a reader would find a practitioner's report qualified for a measurement departure,²² the reasonableness of the underlying assumptions, or a scope limitation difficult to interpret. Accordingly, the practitioner should not express his or her opinion about these items with language such as "except for . . ." or "subject to the effects of. . ." Rather, when a measurement departure, an unreasonable assumption, or a limitation on the scope of the practitioner's examination has led him or her to conclude that he or she cannot issue an unqualified opinion, he or she should issue the appropriate type of modified opinion described in paragraphs .41–.44.

.41 *Adverse Opinion.* In an adverse opinion the practitioner should state, in a separate paragraph, all of the substantive reasons for his or her adverse opinion. His or her opinion should state that the presentation is not in conformity with presentation guidelines and should refer to the explanatory paragraph. When applicable, his or her opinion paragraph should also state that, in the practitioner's opinion, the assumptions do not provide a reasonable basis for the prospective financial statements. An example of an adverse opinion on an examination of prospective financial statements is set forth below. In this case, a financial forecast was examined and the practitioner's opinion was that a significant assumption was unreasonable. The example should be revised as appropriate for a different type of presentation or if the adverse opinion is issued because the statements do not conform to the presentation guidelines.

Independent Accountant's Report

We have examined the accompanying forecasted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending. XYZ Company's management is responsible for the forecast. Our responsibility is to express an opinion on the forecast based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary to evaluate

²² An example of a measurement departure is the failure to capitalize a capital lease in a forecast where the historical financial statements for the prospective period are expected to be presented in accordance with GAAP.

both the assumptions used by management and the preparation and presentation of the forecast. We believe that our examination provides a reasonable basis for our opinion.

As discussed under the caption "Sales" in the summary of significant forecast assumptions, the forecasted sales include, among other things, revenue from the Company's federal defense contracts continuing at the current level. The Company's present federal defense contracts will expire in March 20XX. No new contracts have been signed and no negotiations are under way for new federal defense contracts. Furthermore, the federal government has entered into contracts with another company to supply the items being manufactured under the Company's present contracts.

In our opinion, the accompanying forecast is not presented in conformity with guidelines for presentation of a financial forecast established by the American Institute of Certified Public Accountants because management's assumptions, as discussed in the preceding paragraph, do not provide a reasonable basis for management's forecast. We have no responsibility to update this report for events or circumstances occurring after the date of this report.

[Signature]

[Date]

.42 If the presentation, including the summary of significant assumptions, fails to disclose assumptions that, at the time, appear to be significant, the practitioner should describe the assumptions in his or her report and express an adverse opinion. The practitioner should not examine a presentation that omits all disclosures of assumptions. Also, the practitioner should not examine a financial projection that omits (a) an identification of the hypothetical assumptions or (b) a description of the limitations on the usefulness of the presentation.

.43 *Disclaimer of Opinion.* In a disclaimer of opinion, the practitioner's report should indicate, in a separate paragraph, the respects in which the examination did not comply with standards for an examination. The practitioner should state that the scope of the examination was not sufficient to enable him or her to express an opinion with respect to the presentation or the underlying assumptions, and his or her disclaimer of opinion should include a direct reference to the explanatory paragraph. The following is an example of a report on an examination of prospective financial statements, in this case a financial forecast, for which a significant assumption could not be evaluated.

Independent Accountant's Report

We were engaged to examine the accompanying forecasted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending. XYZ Company's management is responsible for the forecast.

As discussed under the caption "Income From Investee" in the summary of significant forecast assumptions, the forecast includes income from an equity investee constituting 23 percent of forecasted net income, which is management's estimate of the Company's share of the investee's income to be accrued for 20XX. The investee has not prepared a forecast for the year ending December 31, 20XX, and we were therefore unable to obtain suitable support for this assumption.

Because, as described in the preceding paragraph, we are unable to evaluate management's assumption regarding income from an equity investee and other assumptions that depend thereon, the scope of our work was not sufficient to express, and we do not express, an opinion with respect to the presentation of

or the assumptions underlying the accompanying forecast. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

[Signature]

[Date]

.44 When there is a scope limitation and the practitioner also believes there are material departures from the presentation guidelines, those departures should be described in the practitioner's report.

Other Modifications to the Standard Examination Report

.45 The circumstances described below, although not necessarily resulting in modifications to the practitioner's opinion, would result in the following types of modifications to the standard examination report.

.46 *Emphasis of a Matter.* In some circumstances, the practitioner may wish to emphasize a matter regarding the prospective financial statements but nevertheless intends to express an unqualified opinion. The practitioner may present other information and comments he or she wishes to include, such as explanatory comments or other informative material, in a separate paragraph of his or her report.

.47 *Evaluation Based in Part on a Report of Another Practitioner.* When more than one practitioner is involved in the examination, the guidance provided for that situation in connection with examinations of historical financial statements is generally applicable. When the principal practitioner decides to refer to the report of another practitioner as a basis, in part, for his or her own opinion, he or she should disclose that fact in stating the scope of the examination and should refer to the report of the other practitioner in expressing his or her opinion. Such a reference indicates the division of responsibility for the performance of the examination.

.48 *Comparative Historical Financial Information.* Prospective financial statements may be included in a document that also contains historical financial statements and a practitioner's report thereon.^[23] In addition, the historical financial statements that appear in the document may be summarized and presented with the prospective financial statements for comparative purposes.²⁴ An example of the reference to the practitioner's report on the historical financial statements when he or she audited, reviewed, or compiled those statements is presented in paragraph .24.

.49 *Reporting When the Examination Is Part of a Larger Engagement.* When the practitioner's examination of prospective financial statements is part of a larger engagement, for example, a financial feasibility study or business acquisition study, it is appropriate to expand the report on the examination of the prospective financial statements to describe the entire engagement.

^[23] [Footnote revised, November 2002, to reflect conforming changes necessary due to the issuance of SSARS No. 9. Footnote deleted, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

²⁴ AU-C section 810, *Engagements to Report on Summary Financial Statements*, addresses the auditor's responsibilities relating to an engagement to report separately on summary financial statements derived from financial statements audited in accordance with GAAS by the same auditor. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.50 The following is a report that might be issued when a practitioner chooses to expand his or her report on a financial feasibility study.²⁵

Independent Accountant's Report

- a. The Board of Directors
Example Hospital
Example, Texas
- b. We have prepared a financial feasibility study of Example Hospital's (the Hospital's) plans to expand and renovate its facilities. The study was undertaken to evaluate the ability of the Hospital to meet its operating expenses, working capital needs, and other financial requirements, including the debt service requirements associated with the proposed \$25,000,000 [*legal title of bonds*] issue, at an assumed average annual interest rate of 10.0 percent during the five years ending December 31, 20X6.
- c. The proposed capital improvements program (the Program) consists of a new two-level addition, which is to provide fifty additional medical-surgical beds, increasing the complement to 275 beds. In addition, various administrative and support service areas in the present facilities are to be remodeled. The Hospital administration anticipates that construction is to begin June 30, 20X2, and to be completed by December 31, 20X3.
- d. The estimated total cost of the Program is approximately \$30,000,000. It is assumed that the \$25,000,000 of revenue bonds that the Example Hospital Finance Authority proposes to issue would be the primary source of funds for the Program. The responsibility for payment of debt service on the bonds is solely that of the Hospital. Other necessary funds to finance the Program are assumed to be provided from the Hospital's funds, from a local fund drive, and from interest earned on funds held by the bond trustee during the construction period.
- e. Our procedures included analysis of the following:
 - Program history, objectives, timing, and financing
 - The future demand for the Hospital's services, including consideration of the following:
 - Economic and demographic characteristics of the Hospital's defined service area
 - Locations, capacities, and competitive information pertaining to other existing and planned area hospitals
 - Physician support for the Hospital and its programs
 - Historical utilization levels
 - Planning agency applications and approvals
 - Construction and equipment costs, debt service requirements, and estimated financing costs
 - Staffing patterns and other operating considerations

²⁵ Although the entity referred to in the report is a hospital, the form of report is also applicable to other entities such as hotels or stadiums. Also, although the illustrated report format and language should not be departed from in any significant way, the language used should be tailored to fit the circumstances that are unique to a particular engagement (for example, the description of the proposed capital improvement program, paragraph *c*; the proposed financing of the program, paragraphs *b* and *d*; the specific procedures applied by the practitioner, paragraph *e*; and any explanatory comments included in emphasis-of-a-matter paragraphs, paragraph *i*, which deals with general matter; and paragraph *j*, which deals with specific matters).

- Third-party reimbursement policy and history
 - Revenue/expense/volume relationships
- f.* We also participated in gathering other information, assisted management in identifying and formulating its assumptions, and assembled the accompanying financial forecast based on those assumptions.
- g.* The accompanying financial forecast for the annual periods ending December 31, 20X2, through 20X6, is based on assumptions that were provided by or reviewed with and approved by management. The financial forecast includes the following:
- Balance sheets
 - Statements of operations
 - Statements of cash flows
 - Statements of changes in net assets
- h.* We have examined the financial forecast. Example Hospital's management is responsible for the forecast. Our responsibility is to express an opinion on the forecast based on our examination. Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary to evaluate both the assumptions used by management and the preparation and presentation of the forecast. We believe that our examination provides a reasonable basis for our opinion.
- i.* Legislation and regulations at all levels of government have affected and may continue to affect revenues and expenses of hospitals. The financial forecast is based on legislation and regulations currently in effect. If future legislation or regulations related to hospital operations are enacted, such legislation or regulations could have a material effect on future operations.
- j.* The interest rate, principal payments, Program costs, and other financing assumptions are described in the section entitled "Summary of Significant Forecast Assumptions and Rationale." If actual interest rates, principal payments, and funding requirements are different from those assumed, the amount of the bond issue and debt service requirements would need to be adjusted accordingly from those indicated in the forecast. If such interest rates, principal payments, and funding requirements are lower than those assumed, such adjustments would not adversely affect the forecast.
- k.* Our conclusions are presented below.
- In our opinion, the accompanying financial forecast is presented in conformity with guidelines for presentation of a financial forecast established by the American Institute of Certified Public Accountants.
 - In our opinion, the underlying assumptions provide a reasonable basis for management's forecast. However, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material.

- The accompanying financial forecast indicates that sufficient funds could be generated to meet the Hospital's operating expenses, working capital needs, and other financial requirements, including the debt service requirements associated with the proposed \$25,000,000 bond issue, during the forecast periods. However, the achievement of any financial forecast is dependent on future events, the occurrence of which cannot be assured.
- l. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

Applying Agreed-Upon Procedures to Prospective Financial Statements

.51 The practitioner who accepts an engagement to apply agreed-upon procedures to prospective financial statements should follow the general, field-work, and reporting standards for attest engagements established in section 50, *SSAE Hierarchy*, and the guidance set forth herein and in section 201, *Agreed-Upon Procedures Engagements*. [Revised, November 2006, to reflect conforming changes necessary due to the issuance of SSAE No. 14.]

.52 A practitioner may perform an agreed-upon procedures attest engagement on prospective financial statements²⁶ provided the following conditions are met.

- a. The practitioner is independent.
- b. The practitioner and the specified parties agree upon the procedures performed or to be performed by the practitioner.
- c. The specified parties take responsibility for the sufficiency of the agreed-upon procedures for their purposes.
- d. The prospective financial statements include a summary of significant assumptions.
- e. The prospective financial statements to which the procedures are to be applied are subject to reasonably consistent evaluation against criteria that are suitable and available to the specified parties.
- f. Criteria to be used in the determination of findings are agreed upon between the practitioner and the specified parties.²⁷
- g. The procedures to be applied to the prospective financial statements are expected to result in reasonably consistent findings using the criteria.
- h. Evidential matter related to the prospective financial statements to which the procedures are applied is expected to exist to provide a reasonable basis for expressing the findings in the practitioner's report.

²⁶ Practitioners should follow the guidance in AU-C section 920, *Letters for Underwriters and Certain Other Requesting Parties*, when requested to perform agreed-upon procedures on a forecast and report thereon in a letter for an underwriter. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

²⁷ For example, accounting principles and other presentation criteria as discussed in chapter 8, "Presentation Guidelines," of AICPA Guide *Prospective Financial Information*.

- i. Where applicable, the practitioner and the specified users agree on any agreed-upon materiality limits for reporting purposes. (See paragraph .25 of section 201.)
- j. Use of the report is to be restricted to the specified parties.²⁸

.53 Generally, the practitioner's procedures may be as limited or as extensive as the specified parties desire, as long as the specified parties take responsibility for their sufficiency. However, mere reading of prospective financial statements does not constitute a procedure sufficient to permit a practitioner to report on the results of applying agreed-upon procedures to such statements. (See paragraph .15 of section 201.)

.54 To satisfy the requirements that the practitioner and the specified parties agree upon the procedures performed or to be performed and that the specified parties take responsibility for the sufficiency of the agreed-upon procedures for their purposes, ordinarily the practitioner should communicate directly with and obtain affirmative acknowledgment from each of the specified parties. For example, this may be accomplished by meeting with the specified parties or by distributing a draft of the anticipated report or a copy of an engagement letter to the specified parties and obtaining their agreement. If the practitioner is not able to communicate directly with all of the specified parties, the practitioner may satisfy these requirements by applying any one or more of the following or similar procedures:

- Compare the procedures to be applied to written requirements of the specified parties.
- Discuss the procedures to be applied with appropriate representatives of the specified parties involved.
- Review relevant contracts with or correspondence from the specified parties.

The practitioner should not report on an engagement when specified parties do not agree upon the procedures performed or to be performed and do not take responsibility for the sufficiency of the procedures for their purposes. (See paragraph .36 of section 201 for guidance on satisfying these requirements when the practitioner is requested to add other parties as specified parties after the date of completion of the agreed-upon procedures.)

Reports on the Results of Applying Agreed-Upon Procedures

.55 The practitioner's report on the results of applying agreed-upon procedures should be in the form of procedures and findings. The practitioner's report should contain the following elements:

- a. A title that includes the word *independent*
- b. Identification of the specified parties
- c. Reference to the prospective financial statements covered by the practitioner's report and the character of the engagement
- d. A statement that the procedures performed were those agreed to by the specified parties identified in the report

²⁸ In some cases, restricted-use reports filed with regulatory agencies are required by law or regulation to be made available to the public as a matter of public record. Also, a regulatory agency as part of its oversight responsibility for an entity may require access to restricted-use reports in which they are not named as a specified party. (See paragraph .79 of section 101.)

- e.* Identification of the responsible party and a statement that the prospective financial statements are the responsibility of the responsible party
 - f.* A statement that the agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants
 - g.* A statement that the sufficiency of the procedures is solely the responsibility of the specified parties and a disclaimer of responsibility for the sufficiency of those procedures
 - h.* A list of the procedures performed (or reference thereto) and related findings (The practitioner should not provide negative assurance—see paragraph .24 of section 201.)
 - i.* Where applicable, a description of any agreed-upon materiality limits (See paragraph .25 of section 201.)
 - j.* A statement that the practitioner was not engaged to and did not conduct an examination of prospective financial statements; a disclaimer of opinion on whether the presentation of the prospective financial statements is in conformity with AICPA presentation guidelines and on whether the underlying assumptions provide a reasonable basis for the forecast, or a reasonable basis for the projection given the hypothetical assumptions; and a statement that if the practitioner had performed additional procedures, other matters might have come to his or her attention that would have been reported
 - k.* A statement of restrictions on the use of the report because it is intended to be used solely by the specified parties
 - l.* Where applicable, reservations or restrictions concerning procedures or findings as discussed in paragraphs .33, .35, and .39–.40 of section 201
 - m.* A caveat that the prospective results may not be achieved
 - n.* A statement that the practitioner assumes no responsibility to update the report for events and circumstances occurring after the date of the report
 - o.* Where applicable, a description of the nature of the assistance provided by a specialist as discussed in paragraphs .19–.21 of section 201
 - p.* The manual or printed signature of the practitioner's firm
 - q.* The date of the report
- .56** The following illustrates a report on applying agreed-upon procedures to the prospective financial statements. (See section 201.)

Independent Accountant's Report
on Applying Agreed-Up Procedures

Board of Directors—XYZ Corporation

Board of Directors—ABC Company

At your request, we have performed certain agreed-upon procedures, as enumerated below, with respect to the forecasted balance sheet and the related forecasted statements of income, retained earnings, and cash flows of DEF Company, a subsidiary of ABC Company, as of December 31, 20XX, and for the year then ending. These procedures, which were agreed to by the Boards of

Directors of XYZ Corporation and ABC Company, were performed solely to assist you in evaluating the forecast in connection with the proposed sale of DEF Company to XYZ Corporation. DEF Company's management is responsible for the forecast.

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified parties. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

[Include paragraphs to enumerate procedures and findings.]

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on the accompanying prospective financial statements. Accordingly, we do not express an opinion on whether the prospective financial statements are presented in conformity with AICPA presentation guidelines or on whether the underlying assumptions provide a reasonable basis for the presentation. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you. Furthermore, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

This report is intended solely for the information and use of the Boards of Directors of ABC Company and XYZ Corporation and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

Partial Presentations

.57 The practitioner's procedures on a partial presentation may be affected by the nature of the information presented. Many elements of prospective financial statements are interrelated. The practitioner should give appropriate consideration to whether key factors affecting elements, accounts, or items that are interrelated with those in the partial presentation he or she has been engaged to examine or compile have been considered, including key factors that may not necessarily be obvious to the partial presentation (for example, productive capacity relative to a sales forecast), and whether all significant assumptions have been disclosed. The practitioner may find it necessary for the scope of the examination or compilation of some partial presentations to be similar to that for the examination or compilation of a presentation of prospective financial statements. For example, the scope of a practitioner's procedures when he or she examines forecasted results of operations would likely be similar to that of procedures used for the examination of prospective financial statements since the practitioner would most likely need to consider the interrelationships of all accounts in the examination of results of operations.

.58 Because partial presentations are generally appropriate only for limited use, reports on partial presentations of both forecasted and projected information should include a description of any limitations on the usefulness of the presentation.

Other Information

.59 When a practitioner's compilation, review, or audit report on historical financial statements is included in a practitioner-submitted document containing prospective financial statements, the practitioner should either examine, compile, or apply agreed-upon procedures to the prospective financial statements and report accordingly, unless the following occur:

- a. The prospective financial statements are labeled as a "budget."
- b. The budget does not extend beyond the end of the current fiscal year.
- c. The budget is presented with interim historical financial statements for the current year.

In such circumstances, the practitioner need not examine, compile, or apply agreed-upon procedures to the budget; however, he or she should report on it and—

- a. Indicate that he or she did not examine or compile the budget.
- b. Disclaim an opinion or any other form of assurance on the budget.

In addition, the budgeted information may omit the summaries of significant assumptions and accounting policies required by the guidelines for presentation of prospective financial statements established by the AICPA, provided such omission is not, to the practitioner's knowledge, undertaken with the intention of misleading those who might reasonably be expected to use such budgeted information, and is disclosed in the practitioner's report. The following is the form of the standard paragraphs to be added to the practitioner's report in this circumstance when the summaries of significant assumptions and accounting policies have been omitted.

The accompanying budgeted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the six months then ending, have not been compiled or examined by us, and, accordingly, we do not express an opinion or any other form of assurance on them.

Management has elected to omit the summaries of significant assumptions and accounting policies required under established guidelines for presentation of prospective financial statements. If the omitted summaries were included in the budgeted information, they might influence the user's conclusions about the company's budgeted information. Accordingly, this budgeted information is not designed for those who are not informed about such matters.

.60 When the practitioner's compilation, review, or audit report on historical financial statements is included in a client-prepared document containing prospective financial statements, the practitioner should not consent to the use of his or her name in the document unless:

- a. He or she has examined, compiled, or applied agreed-upon procedures to the prospective financial statements and his or her report accompanies them.
- b. The prospective financial statements are accompanied by an indication by the responsible party or the practitioner that the practitioner has not performed such a service on the prospective financial statements and that the practitioner assumes no responsibility for them.
- c. Another practitioner has examined, compiled, or applied agreed-upon procedures to the prospective financial statements and his or her report is included in the document.

In addition, if the practitioner has audited the historical financial statements and the prospective financial statements that he or she did not examine, compile, or apply agreed-upon procedures to are included in a document containing the audited historical financial statements and the auditor's report thereon,²⁹ he or she should refer to AU-C section 720, *Other Information in Documents Containing Audited Financial Statements*. [Revised, December 2010, to reflect conforming changes necessary due to the issuance of SAS Nos. 118–120. Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.61 The practitioner whose report on prospective financial statements is included in a client-prepared document containing historical financial statements should not consent to the use of his or her name in the document unless:

- a. He or she has compiled, reviewed, or audited the historical financial statements and his or her report accompanies them.
- b. The historical financial statements are accompanied by an indication by the responsible party or the practitioner that the practitioner has not performed such a service on the historical financial statements and that the practitioner assumes no responsibility for them.
- c. Another practitioner has compiled, reviewed, or audited the historical financial statements and his or her report is included in the document.

.62 An entity may publish various documents that contain information other than historical financial statements in addition to the compiled or examined prospective financial statements and the practitioner's report thereon. The practitioner's responsibility with respect to information in such a document does not extend beyond the financial information identified in the report, and he or she has no obligation to perform any procedures to corroborate other information contained in the document. However, the practitioner should read the other information and consider whether such information, or the manner of its presentation, is materially inconsistent with the information, or manner of its presentation, appearing in the prospective financial statements.

.63 If the practitioner examines prospective financial statements included in a document containing inconsistent information, he or she might not be able to conclude that there is adequate support for each significant assumption. The practitioner should consider whether the prospective financial statements, his or her report, or both require revision. Depending on the conclusion he or she reaches, the practitioner should consider other actions that may be appropriate, such as issuing an adverse opinion, disclaiming an opinion because of a scope limitation, withholding the use of his or her report in the document, or withdrawing from the engagement.

.64 If the practitioner compiles the prospective financial statements included in the document containing inconsistent information, he or she should attempt to obtain additional or revised information. If he or she does not receive

²⁹ AU-C section 720 applies only to such prospective financial statements contained in annual reports (or similar documents) that are issued to owners (or similar stakeholders) and annual reports of governments and organizations for charitable or philanthropic purposes that are available to the public that contain audited financial statements and the auditor's report thereon. AU-C section 720 also may be applied, adapted as necessary in the circumstances, to other documents to which the auditor, at management's request, devotes attention. AU-C section 720 does not apply when the historical financial statements and report appear in a registration statement filed under the Securities Act of 1933 (in which case, see AU-C section 925, *Filings With the U.S. Securities and Exchange Commission Under the Securities Act of 1933*). [Footnote revised, December 2010, to reflect conforming changes necessary due to the issuance of SAS Nos. 118–120. Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

such information, the practitioner should withhold the use of his or her report or withdraw from the compilation engagement.

.65 If, while reading the other information appearing in the document containing the examined or compiled prospective financial statements, as described in the preceding paragraphs, the practitioner becomes aware of information that he or she believes is a material misstatement of fact that is not an inconsistent statement, he or she should discuss the matter with the responsible party. In connection with this discussion, the practitioner should consider that he or she may not have the expertise to assess the validity of the statement made, that there may be no standards by which to assess its presentation, and that there may be valid differences of judgment or opinion. If the practitioner concludes that he or she has a valid basis for concern, he or she should propose that the responsible party consult with some other party whose advice might be useful, such as the entity's legal counsel.

.66 If, after discussing the matter as described in paragraph .65, the practitioner concludes that a material misstatement of fact remains, the action he or she takes will depend on his or her judgment in the particular circumstances. The practitioner should consider steps such as notifying the responsible party in writing of his or her views concerning the information and consulting his or her legal counsel about further appropriate action in the circumstances.

Effective Date

.67 This section is effective when the date of the practitioner's report is on or after June 1, 2001. Early application is permitted.

Appendix A

Minimum Presentation Guidelines *

1. Prospective information presented in the format of historical financial statements facilitates comparisons with financial position, results of operations, and cash flows of prior periods, as well as those actually achieved for the prospective period. Accordingly, prospective financial statements preferably should be in the format of the historical financial statements that would be issued for the period(s) covered unless there is an agreement between the responsible party and potential users specifying another format. Prospective financial statements may take the form of complete basic financial statements¹ or may be limited to the following minimum items (where such items would be presented for historical financial statements for the period).²

- a. Sales or gross revenues
- b. Gross profit or cost of sales
- c. Unusual or infrequently occurring items
- d. Provision for income taxes
- e. Discontinued operations or extraordinary items
- f. Income from continuing operations
- g. Net income
- h. Basic and diluted earnings per share
- i. Significant changes in financial position³
- j. A description of what the responsible party intends the prospective financial statements to present, a statement that the assumptions are based on the responsible party's judgment at the time the prospective information was prepared, and a caveat that the prospective results may not be achieved

* **Note:** This appendix describes the minimum items that constitute a presentation of a financial forecast or a financial projection, as specified in AICPA Guide *Prospective Financial Information*. Complete presentation guidelines for entities that choose to issue prospective financial statements, together with illustrative presentations, are included in the Guide. The guide also prescribes presentation guidelines for partial presentations.

¹ The details of each statement may be summarized or condensed so that only the major items in each are presented. The usual footnotes associated with historical financial statements need not be included as such. However, significant assumptions and accounting policies should be disclosed.

² Similar types of financial information should be presented for entities for which these terms do not describe operations. Further, similar items should be presented if a comprehensive basis of accounting other than GAAP is used to present the prospective financial statements. For example, if the cash basis were used, item a would be cash receipts.

³ The responsible party should disclose significant cash flows and other significant changes in balance sheet accounts during the period. However, neither a balance sheet nor a statement of cash flows, as described in Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 230, *Statement of Cash Flows*, is required. Furthermore, none of the specific captions or disclosures required by FASB ASC 230 is required. Significant changes disclosed will depend on the circumstances; however, such disclosures will often include cash flows from operations. See AICPA Guide *Prospective Financial Information* exhibits 9-2 and 9-6 for illustrations of alternate methods of presenting significant cash flows. [Footnote revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

- k.* Summary of significant assumptions
- l.* Summary of significant accounting policies

2. A presentation that omits one or more of the applicable minimum items $a-i$ is a partial presentation, which would not ordinarily be appropriate for general use. If an omitted applicable minimum item is derivable from the information presented, the presentation would not be deemed to be a partial presentation. A presentation that contains the applicable minimum items $a-i$, but omits items $j-l$, is subject to all of the provisions of this section applicable to complete presentations.

Appendix B

Training and Proficiency, Planning, and Procedures Applicable to Compilations

Training and Proficiency

1. The practitioner should be familiar with the guidelines for the preparation and presentation of prospective financial statements. The guidelines are contained in AICPA Guide *Prospective Financial Information*.

2. The practitioner should possess or obtain a level of knowledge of the industry and the accounting principles and practices of the industry in which the entity operates or will operate that will enable him or her to compile prospective financial statements that are in appropriate form for an entity operating in that industry.

Planning the Compilation Engagement

3. To compile the prospective financial statements of an existing entity, the practitioner should obtain a general knowledge of the nature of the entity's business transactions and the key factors upon which its future financial results appear to depend. He or she should also obtain an understanding of the accounting principles and practices of the entity to determine whether they are comparable to those used within the industry in which the entity operates.

4. To compile the prospective financial statements of a proposed entity, the practitioner should obtain knowledge of the proposed operations and the key factors upon which its future results appear to depend and that have affected the performance of entities in the same industry.

Compilation Procedures

5. In a compilation of prospective financial statements the practitioner should perform the following, where applicable.

- a. Establish an understanding with the client regarding the services to be performed. The understanding should include the objectives of the engagement, the client's responsibilities, the practitioner's responsibilities, and limitations of the engagement. The practitioner should document the understanding in the working papers, preferably through a written communication with the client. If the practitioner believes an understanding with the client has not been established, he or she should decline to accept or perform the engagement.
- b. Inquire about the accounting principles used in the preparation of the prospective financial statements.
 - (1) For existing entities, compare the accounting principles used to those used in the preparation of previous historical financial statements and inquire whether such principles are the same as those expected to be used in the historical financial statements covering the prospective period.

- (2) For entities to be formed or entities formed that have not commenced operations, compare specialized industry accounting principles used, if any, to those typically used in the industry. Inquire whether the accounting principles used for the prospective financial statements are those that are expected to be used when or if the entity commences operations.
- c. Ask how the responsible party identifies the key factors and develops its assumptions.
- d. List, or obtain a list of the responsible party's significant assumptions providing the basis for the prospective financial statements and consider whether there are any obvious omissions in light of the key factors upon which the prospective results of the entity appear to depend.
- e. Consider whether there appear to be any obvious internal inconsistencies in the assumptions.
- f. Perform or test the mathematical accuracy of the computations that translate the assumptions into prospective financial statements.
- g. Read the prospective financial statements, including the summary of significant assumptions, and consider whether—
 - (1) The statements, including the disclosures of assumptions and accounting policies, appear to be not presented in conformity with the AICPA presentation guidelines for prospective financial statements.¹
 - (2) The statements, including the summary of significant assumptions, appear to be not obviously inappropriate in relation to the practitioner's knowledge of the entity and its industry and, for the following:
 - (a) *Financial forecast*, the expected conditions and course of action in the prospective period
 - (b) *Financial projection*, the purpose of the presentation
- h. If a significant part of the prospective period has expired, inquire about the results of operations or significant portions of the operations (such as sales volume), and significant changes in financial position, and consider their effect in relation to the prospective financial statements. If historical financial statements have been prepared for the expired portion of the period, the practitioner should read such statements and consider those results in relation to the prospective financial statements.
- i. Confirm his or her understanding of the statements (including assumptions) by obtaining written representations from the responsible party. Because the amounts reflected in the statements are not supported by historical books and records but rather by assumptions, the practitioner should obtain representations in which the responsible party indicates its responsibility for the assumptions. The representations should be signed by the responsible party at the highest

¹ Presentation guidelines for entities that issue prospective financial statements are set forth and illustrated in AICPA Guide *Prospective Financial Information*.

level of authority who the practitioner believes is responsible for and knowledgeable, directly or through others, about matters covered by the representations.

- (1) For a *financial forecast*, the representations should include the responsible party's assertion that the financial forecast presents, to the best of its knowledge and belief, the expected financial position, results of operations, and cash flows for the forecast period and that the forecast reflects the responsible party's judgment, based on present circumstances, of the expected conditions and its expected course of action. The representations should also include a statement that the forecast is presented in conformity with guidelines for presentation of a forecast established by the American Institute of Certified Public Accountants. The representations should also include a statement that the assumptions on which the forecast is based are reasonable. If the forecast contains a range, the representation should also include a statement that, to the best of the responsible party's knowledge and belief, the item or items subject to the assumption are expected to actually fall within the range and that the range was not selected in a biased or misleading manner.
 - (2) For a *financial projection*, the representations should include the responsible party's assertion that the financial projection presents, to the best of its knowledge and belief, the expected financial position, results of operations, and cash flows for the projection period given the hypothetical assumptions, and that the projection reflects its judgment, based on present circumstances, of expected conditions and its expected course of action given the occurrence of the hypothetical events. The representations should also (i) identify the hypothetical assumptions and describe the limitations on the usefulness of the presentation, (ii) state that the assumptions are appropriate, (iii) indicate if the hypothetical assumptions are improbable, and (iv) if the projection contains a range, include a statement that, to the best of the responsible party's knowledge and belief, given the hypothetical assumptions, the item or items subject to the assumption are expected to actually fall within the range and that the range was not selected in a biased or misleading manner. The representations should also include a statement that the projection is presented in conformity with guidelines for presentation of a projection established by the American Institute of Certified Public Accountants.
- j. Consider, after applying the preceding procedures, whether he or she has received representations or other information that appears to be obviously inappropriate, incomplete, or otherwise misleading and, if so, attempt to obtain additional or revised information. If he or she does not receive such information, the practitioner should ordinarily withdraw from the compilation engagement.² (Note that the omission of disclosures, other than those relating to significant assumptions, would not require the practitioner to withdraw; see paragraph .26.)

² The practitioner need not withdraw from the engagement if the effect of such information on the prospective financial statements does not appear to be material.

Appendix C

Training and Proficiency, Planning, and Procedures Applicable to Examinations

Training and Proficiency

1. The practitioner should be familiar with the guidelines for the preparation and presentation of prospective financial statements. The guidelines are contained in AICPA Guide *Prospective Financial Information*.

2. The practitioner should possess or obtain a level of knowledge of the industry and the accounting principles and practices of the industry in which the entity operates or will operate that will enable him or her to examine prospective financial statements that are in appropriate form for an entity operating in that industry.

Planning an Examination Engagement

3. Planning the examination engagement involves developing an overall strategy for the expected scope and conduct of the engagement. To develop such a strategy, the practitioner needs to have sufficient knowledge to enable him or her to adequately understand the events, transactions, and practices that, in his or her judgment, may have a significant effect on the prospective financial statements.

4. Factors to be considered by the practitioner in planning the examination include the following:

- a. The accounting principles to be used and the type of presentation
- b. The anticipated level of attestation risk related to the prospective financial statements¹
- c. Preliminary judgments about materiality levels
- d. Items within the prospective financial statements that are likely to require revision or adjustment
- e. Conditions that may require extension or modification of the practitioner's examination procedures
- f. Knowledge of the entity's business and its industry
- g. The responsible party's experience in preparing prospective financial statements
- h. The length of the period covered by the prospective financial statements
- i. The process by which the responsible party develops its prospective financial statements

¹ *Attestation* risk is the risk that the practitioner may unknowingly fail to appropriately modify his or her examination report on prospective financial statements that are materially misstated, that is, that are not presented in conformity with AICPA presentation guidelines or have assumptions that do not provide a reasonable basis for management's forecast, or management's projection given the hypothetical assumptions. It consists of (a) the risk (consisting of *inherent risk* and *control risk*) that the prospective financial statements contain errors that could be material and (b) the risk (*detection risk*) that the practitioner will not detect such errors.

5. The practitioner should obtain knowledge of the entity's business, accounting principles, and the key factors upon which its future financial results appear to depend. The practitioner should focus on areas such as the following:

- a. The availability and cost of resources needed to operate (Principal items usually include raw materials, labor, short-term and long-term financing, and plant and equipment.)
- b. The nature and condition of markets in which the entity sells its goods or services, including final consumer markets if the entity sells to intermediate markets
- c. Factors specific to the industry, including competitive conditions, sensitivity to economic conditions, accounting policies, specific regulatory requirements, and technology
- d. Patterns of past performance for the entity or comparable entities, including trends in revenue and costs, turnover of assets, uses and capacities of physical facilities, and management policies

Examination Procedures

6. The practitioner should establish an understanding with the responsible party regarding the services to be performed. The understanding should include the objectives of the engagement, the responsible party's responsibilities, the practitioner's responsibilities, and limitations of the engagement. The practitioner should document the understanding in the working papers, preferably through a written communication with the responsible party. If the practitioner believes an understanding with the responsible party has not been established, he or she should decline to accept or perform the engagement. If the responsible party is different than the client, the practitioner should establish the understanding with both the client and the responsible party, and the understanding also should include the client's responsibilities.

7. The practitioner's objective in an examination of prospective financial statements is to accumulate sufficient evidence to restrict attestation risk to a level that is, in his or her professional judgment, appropriate for the level of assurance that may be imparted by his or her examination report. In a report on an examination of prospective financial statements, the practitioner provides assurance only about whether the prospective financial statements are presented in conformity with AICPA presentation guidelines and whether the assumptions provide a reasonable basis for management's forecast, or a reasonable basis for management's projection given the hypothetical assumptions. He or she does not provide assurance about the achievability of the prospective results because events and circumstances frequently do not occur as expected and achievement of the prospective results is dependent on the actions, plans, and assumptions of the responsible party.

8. In his or her examination of prospective financial statements, the practitioner should select from all available procedures—that is, procedures that assess inherent and control risk and restrict detection risk—any combination that can restrict attestation risk to such an appropriate level. The extent to which examination procedures will be performed should be based on the practitioner's consideration of the following:

- a. The nature and materiality of the information to the prospective financial statements taken as a whole
- b. The likelihood of misstatements

- c. Knowledge obtained during current and previous engagements
 - d. The responsible party's competence with respect to prospective financial statements
 - e. The extent to which the prospective financial statements are affected by the responsible party's judgment, for example, its judgment in selecting the assumptions used to prepare the prospective financial statements
 - f. The adequacy of the responsible party's underlying data
9. The practitioner should perform those procedures he or she considers necessary in the circumstances to report on whether the assumptions provide a reasonable basis for the following.
- a. *Financial forecast.* The practitioner can form an opinion that the assumptions provide a reasonable basis for the forecast if the responsible party represents that the presentation reflects, to the best of its knowledge and belief, its estimate of expected financial position, results of operations, and cash flows for the prospective period² and the practitioner concludes, based on his or her examination, (i) that the responsible party has explicitly identified all factors expected to materially affect the operations of the entity during the prospective period and has developed appropriate assumptions with respect to such factors³ and (ii) that the assumptions are suitably supported.
 - b. *Financial projection given the hypothetical assumptions.* The practitioner can form an opinion that the assumptions provide a reasonable basis for the financial projection given the hypothetical assumptions if the responsible party represents that the presentation reflects, to the best of its knowledge and belief, expected financial position, results of operations, and cash flows for the prospective period given the hypothetical assumptions⁴ and the practitioner concludes, based on his or her examination, that:
 - (1) The responsible party has explicitly identified all factors that would materially affect the operations of the entity during the prospective period if the hypothetical assumptions were to materialize and has developed appropriate assumptions with respect to such factors and
 - (2) The other assumptions are suitably supported given the hypothetical assumptions. However, as the number and significance of the hypothetical assumptions increase, the practitioner may not be able to satisfy himself or herself about the presentation as a whole by obtaining support for the remaining assumptions.
10. The practitioner should evaluate the support for the assumptions.
- a. *Financial forecast*—The practitioner can conclude that assumptions are suitably supported if the preponderance of information supports each significant assumption.

² If the forecast contains a range, the representation should also include a statement that, to the best of the responsible party's knowledge and belief, the item or items subject to the assumption are expected to actually fall within the range and that the range was not selected in a biased or misleading manner.

³ An attempt to list all assumptions is inherently not feasible. Frequently, basic assumptions that have enormous potential impact are considered to be implicit, such as conditions of peace and absence of natural disasters.

⁴ If the projection contains a range, the representation should also include a statement that, to the best of the responsible party's knowledge and belief, given the hypothetical assumptions, the item or items subject to the assumption are expected to actually fall within the range and that the range was not selected in a biased or misleading manner.

- b. *Financial projection*—In evaluating support for assumptions other than hypothetical assumptions, the practitioner can conclude that they are suitably supported if the preponderance of information supports each significant assumption given the hypothetical assumptions. The practitioner need not obtain support for the hypothetical assumptions, although he or she should consider whether they are consistent with the purpose of the presentation.

11. In evaluating the support for assumptions, the practitioner should consider—

- a. Whether sufficient pertinent sources of information about the assumptions have been considered. Examples of external sources the practitioner might consider are government publications, industry publications, economic forecasts, existing or proposed legislation, and reports of changing technology. Examples of internal sources are budgets, labor agreements, patents, royalty agreements and records, sales backlog records, debt agreements, and actions of the board of directors involving entity plans.
- b. Whether the assumptions are consistent with the sources from which they are derived.
- c. Whether the assumptions are consistent with each other.
- d. Whether the historical financial information and other data used in developing the assumptions are sufficiently reliable for that purpose. Reliability can be assessed by inquiry and analytical or other procedures, some of which may have been completed in past audits or reviews of the historical financial statements. If historical financial statements have been prepared for an expired part of the prospective period, the practitioner should consider the historical data in relation to the prospective results for the same period, where applicable. If the prospective financial statements incorporate such historical financial results and that period is significant to the presentation, the practitioner should make a review of the historical information in conformity with the applicable standards for a review.⁵
- e. Whether the historical financial information and other data used in developing the assumptions are comparable over the periods specified or whether the effects of any lack of comparability were considered in developing the assumptions.
- f. Whether the logical arguments or theory, considered with the data supporting the assumptions, are reasonable.

12. In evaluating the preparation and presentation of the prospective financial statements, the practitioner should perform procedures that will provide reasonable assurance as to the following.

⁵ If the entity is an issuer, the practitioner should perform the procedures in paragraphs .13–.19 of AU section 722, *Interim Financial Information* (AICPA, *PCAOB Standards and Related Rules*, Interim Standards). If the entity is a nonissuer, the practitioner should perform the procedures in AR section 90, *Review of Financial Statements*, or in AU-C section 930, *Interim Financial Information*, when the review of interim financial information meets the provisions of that section. [Footnote revised, November 2002, to reflect conforming changes necessary due to the issuance of SAS No. 100 and SSARS No. 9. Footnote revised, May 2004, to reflect the conforming changes necessary due to the issuance of SSARS No. 10. Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126 and SSARS No. 19.]

- a. The presentation reflects the identified assumptions.
- b. The computations made to translate the assumptions into prospective amounts are mathematically accurate.
- c. The assumptions are internally consistent.
- d. Accounting principles used in the—
 - (1) Financial forecast are consistent with the accounting principles expected to be used in the historical financial statements covering the prospective period and those used in the most recent historical financial statements, if any.
 - (2) Financial projection are consistent with the accounting principles expected to be used in the prospective period and those used in the most recent historical financial statements, if any, or that they are consistent with the purpose of the presentation.⁶
- e. The presentation of the prospective financial statements follows the AICPA guidelines applicable for such statements.⁷
- f. The assumptions have been adequately disclosed based on AICPA presentation guidelines for prospective financial statements.

13. The practitioner should consider whether the prospective financial statements, including related disclosures, should be revised because of any of the following:

- a. Mathematical errors
- b. Unreasonable or internally inconsistent assumptions
- c. Inappropriate or incomplete presentation
- d. Inadequate disclosure

14. The practitioner should obtain written representations from the responsible party acknowledging its responsibility for both the presentation and the underlying assumptions. The representations should be signed by the responsible party at the highest level of authority who the practitioner believes is responsible for and knowledgeable, directly or through others in the organization, about the matters covered by the representations. Paragraph .69, subparagraph 5*i* describes the specific representations to be obtained for a financial forecast and a financial projection. See paragraph .43 for guidance on the form of report to be rendered if the practitioner is not able to obtain the required representations.

⁶ The accounting principles used in a financial projection need not be those expected to be used in the historical financial statements for the prospective period if use of different principles is consistent with the purpose of the presentation.

⁷ Presentation guidelines for entities that issue prospective financial statements are set forth and illustrated in AICPA Guide *Prospective Financial Information*.

AT Section 401

Reporting on Pro Forma Financial Information

Source: SSAE No. 10.

Effective when the presentation of pro forma financial information is as of or for a period ending on or after June 1, 2001. Earlier application is permitted.

Introduction

.01 This section provides guidance to a practitioner who is engaged to issue or does issue an examination or a review report on pro forma financial information. Such an engagement should comply with the general and fieldwork standards established in section 50, *SSAE Hierarchy*, and the specific performance and reporting standards set forth in this section.¹ [Revised, November 2006, to reflect conforming changes necessary due to the issuance of SSAE No. 14.]

.02 When pro forma financial information is presented outside the basic financial statements but within the same document, and the practitioner is not engaged to report on the pro forma financial information, the practitioner's responsibilities are described in AU-C section 720, *Other Information in Documents Containing Audited Financial Statements*, and AU-C section 925, *Filings With the U.S. Securities and Exchange Commission Under the Securities Act of 1933*. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.03 This section does not apply in those circumstances when, for purposes of a more meaningful presentation, a transaction consummated after the balance-sheet date is reflected in the historical financial statements (such as a revision of debt maturities or a revision of earnings per share calculations for a stock split).²

Presentation of Pro Forma Financial Information

.04 The objective of pro forma financial information is to show what the significant effects on historical financial information might have been had a consummated or proposed transaction (or event) occurred at an earlier date. Pro forma financial information is commonly used to show the effects of transactions such as the following:

- Business combination
- Change in capitalization

¹ Paragraph .10 of AU-C section 920, *Letters for Underwriters and Certain Other Requesting Parties*, identifies certain parties who may request a letter. When one of those parties requests a letter or asks the practitioner to perform agreed-upon procedures on pro forma financial information in connection with an offering, the practitioner should follow the guidance in paragraphs .10, .13, .44, and .52–.53 of AU-C section 920. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

² In certain circumstances, generally accepted accounting principles may require the presentation of pro forma financial information in the financial statements or the accompanying notes. That information includes, for example, pro forma financial information required by Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 805, *Business Combinations*, or FASB ASC 250, *Accounting Changes and Error Corrections*. [Footnote revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC. Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

- Disposition of a significant portion of the business
- Change in the form of business organization or status as an autonomous entity
- Proposed sale of securities and the application of the proceeds

.05 This objective is achieved primarily by applying pro forma adjustments to historical financial information. Pro forma adjustments should be based on management's assumptions and give effect to all significant effects directly attributable to the transaction (or event).

.06 Pro forma financial information should be labeled as such to distinguish it from historical financial information. This presentation should describe the transaction (or event) that is reflected in the pro forma financial information, the source of the historical financial information on which it is based, the significant assumptions used in developing the pro forma adjustments, and any significant uncertainties about those assumptions. The presentation also should indicate that the pro forma financial information should be read in conjunction with related historical financial information and that the pro forma financial information is not necessarily indicative of the results (such as financial position and results of operations, as applicable) that would have been attained had the transaction (or event) actually taken place earlier.³

Conditions for Reporting

.07 The practitioner may agree to report on an examination or a review of pro forma financial information if the following conditions are met.

- a. The document that contains the pro forma financial information includes (or incorporates by reference) complete historical financial statements of the entity for the most recent year (or for the preceding year if financial statements for the most recent year are not yet available) and, if pro forma financial information is presented for an interim period, the document also includes (or incorporates by reference) historical interim financial information for that period (which may be presented in condensed form).⁴ In the case of a business combination, the document should include (or incorporate by reference) the appropriate historical financial information for the significant constituent parts of the combined entity.
- b. The historical financial statements of the entity (or, in the case of a business combination, of each significant constituent part of the combined entity) on which the pro forma financial information is based have been audited or reviewed.⁵ The practitioner's attestation risk

³ For further guidance on the presentation of pro forma financial information included in filings with the Securities and Exchange Commission (SEC), see Article 11 of Regulation S-X.

⁴ For pro forma financial information included in an SEC Form 8-K, historical financial information previously included in an SEC filing would meet this requirement. Interim historical financial information may be presented as a column in the pro forma financial information.

⁵ The practitioner's audit or review report should be included (or incorporated by reference) in the document containing the pro forma financial information. For issuers, the review may be that as defined in AU section 722, *Interim Financial Information* (AICPA, PCAOB Standards and Related Rules, Interim Standards). For nonissuers, the review may be that as defined in AR section 90, *Review of Financial Statements*, or in AU-C section 930, *Interim Financial Information*, when the review of interim financial information meets the provisions of that section. [Footnote revised, November 2002, to reflect conforming changes necessary due to the issuance of SAS No. 100. Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126 and SSARS No. 19.]

relating to the pro forma financial information is affected by the scope of the engagement providing the practitioner with assurance about the underlying historical financial information to which the pro forma adjustments are applied. Therefore, the level of assurance given by the practitioner on the pro forma financial information, as of a particular date or for a particular period, should be limited to the level of assurance provided on the historical financial statements (or, in the case of a business combination, the lowest level of assurance provided on the underlying historical financial statements of any significant constituent part of the combined entity). For example, if the underlying historical financial statements of each constituent part of the combined entity have been audited at year-end and reviewed at an interim date, the practitioner may perform an examination or a review of the pro forma financial information at year-end but is limited to performing a review of the pro forma financial information at the interim date.

- c. The practitioner who is reporting on the pro forma financial information should have an appropriate level of knowledge of the accounting and financial reporting practices of each significant constituent part of the combined entity. This would ordinarily have been obtained by the practitioner auditing or reviewing historical financial statements of each entity for the most recent annual or interim period for which the pro forma financial information is presented. If another practitioner has performed such an audit or a review, the need, by a practitioner reporting on the pro forma financial information, for an understanding of the entity's accounting and financial reporting practices is not diminished, and that practitioner should consider whether, under the particular circumstances, he or she can acquire sufficient knowledge of these matters to perform the procedures necessary to report on the pro forma financial information.

Practitioner's Objective

.08 The objective of the practitioner's examination procedures applied to pro forma financial information is to provide reasonable assurance as to whether—

- Management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event).
- The related pro forma adjustments give appropriate effect to those assumptions.
- The pro forma column reflects the proper application of those adjustments to the historical financial statements.

.09 The objective of the practitioner's review procedures applied to pro forma financial information is to provide negative assurance as to whether any information came to the practitioner's attention to cause him or her to believe that—

- Management's assumptions do not provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event).
- The related pro forma adjustments do not give appropriate effect to those assumptions.

- The pro forma column does not reflect the proper application of those adjustments to the historical financial statements.

Procedures

.10 Other than the procedures applied to the historical financial statements,⁶ the procedures the practitioner should apply to the assumptions and pro forma adjustments for either an examination or a review engagement are as follows.

- a. Obtain an understanding of the underlying transaction (or event), for example, by reading relevant contracts and minutes of meetings of the board of directors and by making inquiries of appropriate officials of the entity, and, in cases, of the entity acquired or to be acquired.
- b. Obtain a level of knowledge of each constituent part of the combined entity in a business combination that will enable the practitioner to perform the required procedures. Procedures to obtain this knowledge may include communicating with other practitioners who have audited or reviewed the historical financial information on which the pro forma financial information is based. Matters that may be considered include accounting principles and financial reporting practices followed, transactions between the entities, and material contingencies.
- c. Discuss with management their assumptions regarding the effects of the transaction (or event).
- d. Evaluate whether pro forma adjustments are included for all significant effects directly attributable to the transaction (or event).
- e. Obtain sufficient evidence in support of such adjustments. The evidence required to support the level of assurance given is a matter of professional judgment. The practitioner typically would obtain more evidence in an examination engagement than in a review engagement. Examples of evidence that the practitioner might consider obtaining are purchase, merger or exchange agreements, appraisal reports, debt agreements, employment agreements, actions of the board of directors, and existing or proposed legislation or regulatory actions.
- f. Evaluate whether management's assumptions that underlie the pro forma adjustments are presented in a sufficiently clear and comprehensive manner. Also, evaluate whether the pro forma adjustments are consistent with each other and with the data used to develop them.
- g. Determine that computations of pro forma adjustments are mathematically correct and that the pro forma column reflects the proper application of those adjustments to the historical financial statements.
- h. Obtain written representations from management concerning their—
 - Responsibility for the assumptions used in determining the pro forma adjustments

⁶ See paragraph .07b.

- Assertion that the assumptions provide a reasonable basis for presenting all of the significant effects directly attributable to the transaction (or event), that the related pro forma adjustments give appropriate effect to those assumptions, and that the pro forma column reflects the proper application of those adjustments to the historical financial statements
 - Assertion that the significant effects directly attributable to the transaction (or event) are appropriately disclosed in the pro forma financial information
- i.* Read the pro forma financial information and evaluate whether—
- The underlying transaction (or event), the pro forma adjustments, the significant assumptions and the significant uncertainties, if any, about those assumptions have been appropriately described.
 - The source of the historical financial information on which the pro forma financial information is based has been appropriately identified.

Reporting on Pro Forma Financial Information

.11 The practitioner's report on pro forma financial information should be dated as of the completion of the appropriate procedures. The practitioner's report on pro forma financial information may be added to the practitioner's report on historical financial information, or it may appear separately. If the reports are combined and the date of completion of the procedures for the examination or review of the pro forma financial information is after the date of completion of the fieldwork for the audit or review of the historical financial information, the combined report should be dual-dated. (For example, "February 15, 20X2, except for the paragraphs regarding pro forma financial information as to which the date is March 20, 20X2.")

.12 A practitioner's examination report on pro forma financial information should include the following:

- a.* A title that includes the word *independent*
- b.* An identification of the pro forma financial information
- c.* A reference to the financial statements from which the historical financial information is derived and a statement that such financial statements were audited (The report on pro forma financial information should refer to any modification in the practitioner's report on the historical financial information.)
- d.* An identification of the responsible party and a statement that the responsible party is responsible for the pro forma financial information
- e.* A statement that the practitioner's responsibility is to express an opinion on the pro forma financial information based on his or her examination

- f. A statement that the examination of the pro forma financial information was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as the practitioner considered necessary in the circumstances
- g. A statement that the practitioner believes that the examination provides a reasonable basis for his or her opinion
- h. A separate paragraph explaining the objective of pro forma financial information and its limitations
- i. The practitioner's opinion as to whether management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the transaction (or event), whether the related pro forma adjustments give appropriate effect to those assumptions, and whether the pro forma column reflects the proper application of those adjustments to the historical financial statements (see paragraphs .18 and .20)
- j. The manual or printed signature of the practitioner's firm
- k. The date of the examination report

.13 A practitioner's review report on pro forma financial information should include the following:

- a. A title that includes the word *independent*
- b. An identification of the pro forma financial information
- c. A reference to the financial statements from which the historical financial information is derived and a statement as to whether such financial statements were audited or reviewed (The report on pro forma financial information should refer to any modification in the practitioner's report on the historical financial information.)
- d. An identification of the responsible party and a statement that the responsible party is responsible for the pro forma financial information
- e. A statement that the review of the pro forma financial information was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants
- f. A statement that a review is substantially less in scope than an examination, the objective of which is the expression of an opinion on the pro forma financial information and, accordingly, the practitioner does not express such an opinion
- g. A separate paragraph explaining the objective of pro forma financial information and its limitations
- h. The practitioner's conclusion as to whether any information came to the practitioner's attention to cause him or her to believe that management's assumptions do not provide a reasonable basis for presenting the significant effects directly attributable to the transaction (or event), or that the related pro forma adjustments do not give appropriate effect to those assumptions, or that the pro forma column does not reflect the proper application of those adjustments to the historical financial statements (See paragraphs .19–.20.)
- i. The manual or printed signature of the practitioner's firm
- j. The date of the review report

.14 Nothing precludes the practitioner from restricting the use of the report (see paragraphs .78–.83 of section 101).

.15 Because a pooling-of-interests business combination is accounted for by combining historical amounts retroactively, pro forma adjustments for a proposed transaction generally affect only the equity section of the pro forma condensed balance sheet. Further, because of the requirements of Financial Accounting Standards Board *Accounting Standards Codification* 805, *Business Combinations*, a business combination effected as a pooling of interests would not ordinarily involve a choice of assumptions by management. Accordingly, a report on a proposed pooling transaction need not address management's assumptions unless the pro forma financial information includes adjustments to conform the accounting principles of the combining entities. (See paragraph .21.) [Revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

.16 Restrictions on the scope of the engagement (see paragraphs .73–.75 of section 101), reservations about the propriety of the assumptions and the conformity of the presentation with those assumptions (including adequate disclosure of significant matters), or other reservations may require the practitioner to qualify the opinion, disclaim an opinion, or withdraw from the engagement.⁷ The practitioner should disclose all substantive reasons for any report modifications. Uncertainty as to whether the transaction (or event) will be consummated would not ordinarily require a report modification. (See paragraph .22.)

Effective Date

.17 This section is effective when the presentation of pro forma financial information is as of or for a period ending on or after June 1, 2001. Early application is permitted.

⁷ See paragraphs .76–.77 of section 101.

Appendix A

Report on Examination of Pro Forma Financial Information

Independent Accountant's Report

We have examined the pro forma adjustments reflecting the transaction [*or event*] described in Note 1 and the application of those adjustments to the historical amounts in [*the assembly of*]⁸ the accompanying pro forma financial condensed balance sheet of X Company as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended. The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were audited by other accountants,⁹ appearing elsewhere herein [*or incorporated by reference*].¹⁰ Such pro forma adjustments are based upon management's assumptions described in Note 2. X Company's management is responsible for the pro forma financial information. Our responsibility is to express an opinion on the pro forma financial information based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

The objective of this pro forma financial information is to show what the significant effects on the historical financial information might have been had the transaction [*or event*] occurred at an earlier date. However, the pro forma condensed financial statements are not necessarily indicative of the results of operations or related effects on financial position that would have been attained had the above-mentioned transaction [*or event*] actually occurred earlier.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

In our opinion, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction [*or event*] described in Note 1, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma column reflects the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended.

[Signature]

[Date]

⁸ This wording is appropriate when one column of pro forma financial information is presented without separate columns of historical financial information and pro forma adjustments.

⁹ If either accountant's report includes an explanatory paragraph or is other than unqualified, that fact should be referred to within this report.

¹⁰ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

Appendix B

Report on Review of Pro Forma Financial Information

Independent Accountant's Report

We have reviewed the pro forma adjustments reflecting the transaction [*or event*] described in Note 1 and the application of those adjustments to the historical amounts in [*the assembly of*]¹¹ the accompanying pro forma condensed balance sheet of X Company as of March 31, 20X2, and the pro forma condensed statement of income for the three months then ended. These historical condensed financial statements are derived from the historical unaudited financial statements of X Company, which were reviewed by us, and of Y Company, which were reviewed by other accountants,^{12, 13} appearing elsewhere herein [*or incorporated by reference*].¹⁴ Such pro forma adjustments are based on management's assumptions as described in Note 2. X Company's management is responsible for the pro forma financial information.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's assumptions, the pro forma adjustments and the application of those adjustments to historical financial information. Accordingly, we do not express such an opinion.

The objective of this pro forma financial information is to show what the significant effects on the historical financial information might have been had the transaction [*or event*] occurred at an earlier date. However, the pro forma condensed financial statements are not necessarily indicative of the results of operations or related effects on financial position that would have been attained had the above-mentioned transaction [*or event*] actually occurred earlier.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

Based on our review, nothing came to our attention that caused us to believe that management's assumptions do not provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction [*or event*] described in Note 1, that the related pro forma adjustments do not give

¹¹ This wording is appropriate when one column of pro forma financial information is presented without separate columns of historical financial information and pro forma adjustments.

¹² If either accountant's report includes an explanatory paragraph or is modified, that fact should be referred to within this report.

¹³ Where one set of historical financial statements is audited and the other set is reviewed, wording similar to the following would be appropriate:

The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were reviewed by other accountants, appearing elsewhere herein [*or incorporated by reference*].

¹⁴ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

appropriate effect to those assumptions, or that the pro forma column does not reflect the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of March 31, 20X2, and the pro forma condensed statement of income for the three months then ended.

Appendix C

Report on Examination of Pro Forma Financial Information at Year-End With a Review of Pro Forma Financial Information for a Subsequent Interim Date

Independent Accountant's Report

We have examined the pro forma adjustments reflecting the transaction [or event] described in Note 1 and the application of those adjustments to the historical amounts in [the assembly of]¹⁵ the accompanying pro forma financial condensed balance sheet of X Company as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended. The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were audited by other accountants,¹⁶ appearing elsewhere herein [or incorporated by reference].¹⁷ Such pro forma adjustments are based upon management's assumptions described in Note 2. X Company's management is responsible for the pro forma financial information. Our responsibility is to express an opinion on the pro forma financial information based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

In addition, we have reviewed the pro forma adjustments and the application of those adjustments to the historical amounts in [the assembly of]¹⁵ the accompanying pro forma condensed balance sheet of X Company as of March 31, 20X2, and the pro forma condensed statement of income for the three months then ended. The historical condensed financial statements are derived from the historical financial statements of X Company, which were reviewed by us, and of Y Company, which were reviewed by other accountants,¹⁸ appearing elsewhere herein [or incorporated by reference].¹⁹ Such pro forma adjustments are based upon management's assumptions as described in Note 2. Our review

¹⁵ This wording is appropriate when one column of pro forma financial information is presented without separate columns of historical financial information and pro forma adjustments.

¹⁶ If either accountant's report includes an explanatory paragraph or is other than unqualified, that fact should be referred to within this report.

¹⁷ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

¹⁸ Where one set of historical financial statements is audited and the other set is reviewed, wording similar to the following would be appropriate:

The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were reviewed by other accountants, appearing elsewhere herein [or incorporated by reference].

¹⁹ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's assumptions, the pro forma adjustments, and the application of those adjustments to historical financial information. Accordingly, we do not express such an opinion on the pro forma adjustments or the application of such adjustments to the pro forma condensed balance sheet as of March 31, 20X2, and the pro forma condensed statement of income for the three months then ended.

The objective of this pro forma financial information is to show what the significant effects on the historical financial information might have been had the transactions [*or event*] occurred at an earlier date. However, the pro forma condensed financial statements are not necessarily indicative of the results of operations or related effects on financial position that would have been attained had the above-mentioned transaction [*or event*] actually occurred earlier.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagements or the subject matter.]

In our opinion, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction [*or event*] described in Note 1, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma column reflects the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended.

Based on our review, nothing came to our attention that caused us to believe that management's assumptions do not provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction [*or event*] described in Note 1, that the related pro forma adjustments do not give appropriate effect to those assumptions, or that the pro forma column does not reflect the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of March 31, 20X2, and the pro forma condensed statement of income for the three months then ended.

Appendix D

Report on Examination of Pro Forma Financial Information Giving Effect to a Business Combination to Be Accounted for as a Pooling of Interests²⁰

Independent Accountant's Report

We have examined the pro forma adjustments reflecting the proposed business combination to be accounted for as a pooling of interests described in Note 1 and the application of those adjustments to the historical amounts in the accompanying pro forma condensed balance sheet of X Company as of December 31, 20X1, and the pro forma condensed statements of income for each of three years in the period then ended. These historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us,²¹ and of Y Company, which were audited by other accountants, appearing elsewhere herein [*or incorporated by reference*].²² Such pro forma adjustments are based upon management's assumptions described in Note 2. X Company's management is responsible for the pro forma financial information. Our responsibility is to express an opinion on the pro forma financial information based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

The objective of this pro forma financial information is to show what the significant effects on the historical financial information might have been had the transactions [*or event*] occurred at an earlier date.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

In our opinion, the accompanying condensed pro forma financial statements of X Company as of December 31, 20X1, and for each of the three years in the period then ended give appropriate effect to the pro forma adjustments necessary to reflect the proposed business combination on a pooling of interests basis as described in Note 1 and the pro forma column reflects the proper application of those adjustments to the historical financial statements.

[Signature]

[Date]

²⁰ See paragraph .15 for a discussion of the form of the opinion on pro forma financial information in a pooling of interests business combination.

²¹ If either accountant's report includes an explanatory paragraph or is other than unqualified, that fact should be referred to within this report.

²² If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

Appendix E

Other Example Reports

An example of a report qualified because of a scope limitation follows.

Independent Accountant's Report

We have examined the pro forma adjustments reflecting the transaction [*or event*] described in Note 1 and the application of those adjustments to the historical amounts in [*the assembly of*]²³ the accompanying pro forma condensed balance sheet of X Company as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended. The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were audited by other accountants,²⁴ appearing elsewhere herein [*or incorporated by reference*].²⁵ Such pro forma adjustments are based upon management's assumptions described in Note 2. X Company's management is responsible for the pro forma financial information. Our responsibility is to express an opinion on the pro forma financial information based on our examination.

Except as described below, our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

We are unable to perform the examination procedures we considered necessary with respect to assumptions relating to the proposed loan described in Adjustment E in Note 2.

[*Same paragraph as third paragraph in examination report in paragraph .18*]

In our opinion, except for the effects of such changes, if any, as might have been determined to be necessary had we been able to satisfy ourselves as to the assumptions relating to the proposed loan, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction [*or event*] described in Note 1, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma column reflects the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended.

[*Signature*]

[*Date*]

²³ This wording is appropriate when one column of pro forma financial information is presented without separate columns of historical financial information and pro forma adjustments.

²⁴ If either accountant's report includes an explanatory paragraph or is other than unqualified, that fact should be referred to within this report.

²⁵ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

An example of a report qualified for reservations about the propriety of assumptions on an acquisition transaction follows:

[Same first three paragraphs as examination report in paragraph .18]

As discussed in Note 2 to the pro forma financial statements, the pro forma adjustments reflect management's assumption that X Division of the acquired company will be sold. The net assets of this division are reflected at their historical carrying amount; generally accepted accounting principles require these net assets to be recorded at estimated net realizable value.

In our opinion, except for inappropriate valuation of the net assets of X Division, management's assumptions described in Note 2 provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction *[or event]* described in Note 1, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma column reflects the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended.

[Signature]

[Date]

An example of a disclaimer of opinion because of a scope limitation follows:

Independent Accountant's Report

We were engaged to examine the pro forma adjustments reflecting the transaction *[or event]* described in Note 1 and the application of those adjustments to the historical amounts in *[the assembly of]*²⁶ the accompanying pro forma financial condensed balance sheet of X Company as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended. The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were audited by other accountants,²⁷ appearing elsewhere herein *[or incorporated by reference]*.²⁸ Such pro forma adjustments are based upon management's assumptions described in Note 2. X Company's management is responsible for the pro forma financial information.

As discussed in Note 2 to the pro forma financial statements, the pro forma adjustments reflect management's assumptions that the elimination of duplicate facilities would have resulted in a 30 percent reduction in operating costs. Management could not supply us with sufficient evidence to support this assertion.

[Same paragraph as third paragraph in examination report in paragraph .18]

Since we were unable to evaluate management's assumptions regarding the reduction in operating costs and other assumptions related thereto, the scope of our work was not sufficient to express and, therefore, we do not express an

²⁶ This wording is appropriate when one column of pro forma financial information is presented without separate columns of historical financial information and pro forma adjustments.

²⁷ If either accountant's report includes an explanatory paragraph or is other than unqualified, that fact should be referred to within this report.

²⁸ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

opinion on the pro forma adjustments, management's underlying assumptions regarding those adjustments and the application of those adjustments to the historical financial statement amounts in the pro forma condensed financial statement amounts in the pro forma condensed balance sheet as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended.

AT Section 501

An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements

Source: SSAE No. 15.

See section 9501 for interpretations of this section.

Effective when the subject matter or assertion is as of or for a period ending on or after December 15, 2008. Earlier application is permitted.

Applicability

.01 This section establishes requirements and provides guidance that applies when a practitioner¹ is engaged to perform an examination of the design and operating effectiveness of an entity's internal control over financial reporting (*examination of internal control*)² that is integrated with an audit of financial statements (*integrated audit*).³

.02 Ordinarily, the auditor will be engaged to examine the effectiveness of the entity's internal control over financial reporting (hereinafter referred to as *internal control*) as of the end of the entity's fiscal year; however, management may select a different date. If the auditor is engaged to examine the effectiveness of an entity's internal control at a date different from the end of the entity's fiscal year, the examination should, nevertheless, be integrated with a financial statement audit (see paragraphs .18–.19).

.03 An auditor may be engaged to examine the effectiveness of an entity's internal control for a period of time. In that circumstance, the guidance in this section should be modified accordingly, and the examination of internal control should be integrated with an audit of financial statements that covers the same period of time.

.04 This section does not provide guidance for the following:

- a.* Engagements to examine the suitability of design of an entity's internal control. Such engagements may be developed and performed under section 101, *Attest Engagements*⁴

¹ In this section, the *practitioner* is referred to as the *auditor* because the examination of internal control is integrated with an audit of financial statements, and an examination provides the same level of assurance as an audit.

² In this section, the phrase *examination of internal control* means an engagement to report directly on internal control or on management's assertion thereon. The performance guidance in this section applies equally to either reporting alternative.

³ Certain regulatory bodies require the examination of internal control and the audit of the financial statements to be performed by the same auditor. There are difficulties inherent in integrating the examination of internal control and the audit of the financial statements to meet the requirements of this section when the audit of the financial statements is performed by a different auditor. In such circumstances, the requirements of this section, nevertheless, apply.

⁴ Although this section does not apply when an auditor is engaged to examine the suitability of design of an entity's internal control, it may be useful in planning and performing such engagements.

- b. Engagements to examine controls over the effectiveness and efficiency of operations. Such engagements may be developed and performed under section 101.
- c. Engagements to examine controls over compliance with laws and regulations. See section 601, *Compliance Attestation*.
- d. Engagements to report on controls at a service organization. See section 801, *Reporting on Controls at a Service Organization*.
- e. Engagements to perform agreed-upon procedures on controls. See section 201, *Agreed-Upon Procedures Engagements*.

[Revised, August 2011, to reflect conforming changes necessary due to the issuance of SSAE No. 16.]

.05 The auditor may be requested to perform certain nonattest services related to the entity's internal control in addition to the examination of internal control. The auditor should determine whether to perform such nonattest services after considering relevant ethical requirements.

.06 An auditor should not accept an engagement to review an entity's internal control or a written assertion thereon.

Definitions and Underlying Concepts

.07 For purposes of this section, the terms listed below are defined as follows:

Control objective. The aim or purpose of specified controls. Control objectives ordinarily address the risks that the controls are intended to mitigate. In the context of internal control, a control objective generally relates to a relevant assertion for a significant account or disclosure and addresses the risk that the controls in a specific area will not provide reasonable assurance that a misstatement or omission in that relevant assertion is prevented, or detected and corrected on a timely basis.

Deficiency. A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A deficiency in design exists when (a) a control necessary to meet the control objective is missing or (b) an existing control is not properly designed so that, even if the control operates as designed, the control objective would not be met. A deficiency in operation exists when a properly designed control does not operate as designed, or when the person performing the control does not possess the necessary authority or competence to perform the control effectively.

Detective control. A control that has the objective of detecting and correcting errors or fraud that has already occurred that could result in a misstatement of the financial statements.

Financial statements and related disclosures. An entity's financial statements and notes to the financial statements as presented in accordance with the applicable financial reporting framework.⁵ References to financial statements and related disclosures do not extend to the preparation

⁵ The applicable financial reporting framework is defined in paragraph .14 of AU-C section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*, as "the financial reporting framework adopted by management and, when appropriate, those charged with governance in the preparation and fair presentation of

(continued)

of other financial information presented outside an entity's basic financial statements and notes.

Internal control over financial reporting.⁶ A process effected by those charged with governance,⁷ management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with the applicable financial reporting framework and includes those policies and procedures that⁸

- i. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity;
- ii. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with the applicable financial reporting framework, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and
- iii. provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Internal control has inherent limitations. Internal control is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control also can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements will not be prevented, or detected and corrected on a timely basis by internal control. However, these inherent limitations are known aspects of the financial reporting process.

Management's assertion. Management's conclusion about the effectiveness of the entity's internal control that is included in management's report on internal control.

(footnote continued)

the financial statements that is acceptable in view of the nature of the entity and the objective of the financial statements, or that is required by law or regulation." Paragraph .A31 of AU-C section 700, *Forming an Opinion and Reporting on Financial Statements*, provides the following examples of applicable financial reporting frameworks: accounting principles generally accepted in the United States of America (or U.S. generally accepted accounting principles), International Financial Reporting Standards promulgated by the International Accounting Standards Board (IASB), and *International Financial Reporting Standard for Small and Medium-Sized Entities* promulgated by the IASB. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

⁶ For insured depository institutions (IDIs) subject to the internal control reporting requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA), internal control includes controls over the preparation of the IDI's financial statements and related disclosures in accordance with GAAP and with the instructions to the *Consolidated Financial Statements for Bank Holding Companies*. Internal control also includes controls over the preparation of the IDI's financial statements and related disclosures in accordance with GAAP and controls over the preparation of schedules equivalent to the basic financial statements in accordance with the Federal Financial Institutions Examination Council Instructions for Consolidated Reports of Condition and Income (call report instructions) or with the Office of Thrift Supervision Instructions for Thrift Financial Reports (TFR instructions).

⁷ The term *those charged with governance* is defined in paragraph .06 of AU-C section 260, *The Auditor's Communication With Those Charged With Governance*, as "the person(s) or organization(s) (for example, a corporate trustee) with responsibility for overseeing the strategic direction of the entity and the obligations related to the accountability of the entity. This includes overseeing the financial reporting process. Those charged with governance may include management personnel; for example, executive members of a governance board or an owner-manager." [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

⁸ The auditor's procedures performed as part of the integrated audit are not part of an entity's internal control.

Material weakness. A deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility⁹ that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Preventive control. A control that has the objective of preventing errors or fraud that could result in a misstatement of the financial statements.

Relevant assertion. A financial statement assertion¹⁰ that has a reasonable possibility of containing a misstatement or misstatements that would cause the financial statements to be materially misstated. The determination of whether an assertion is a relevant assertion is made without regard to the effect of controls.

Significant account or disclosure. An account balance or disclosure that has a reasonable possibility that it could contain a misstatement that, individually or when aggregated with others, has a material effect on the financial statements, considering the risks of both overstatement and understatement. The determination of whether an account balance or disclosure is a significant account or disclosure is made without regard to the effect of controls.

Significant account or disclosure. An account balance or disclosure that has a reasonable possibility that it could contain a misstatement that, individually or when aggregated with others, has a material effect on the financial statements, considering the risks of both overstatement and understatement. The determination of whether an account balance or disclosure is a significant account or disclosure is made without regard to the effect of controls.

Significant deficiency. A deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

.08 Effective internal control provides reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes. If one or more material weaknesses exist, the entity's internal control cannot be considered effective.

.09 The auditor's objective in an examination of internal control is to form an opinion on the effectiveness of the entity's internal control. Because an entity's internal control cannot be considered effective if one or more material weaknesses exist, to form a basis for expressing an opinion, the auditor should plan and perform the examination to obtain sufficient appropriate evidence to obtain reasonable assurance¹¹ about whether material weaknesses exist as of

⁹ A reasonable possibility exists when the chance of the future event or events occurring is more than remote. [Footnote revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC. Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

¹⁰ The financial statement assertions are described in paragraph .A114 of AU-C section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*. The auditor may use the financial statement assertions as they are described in AU-C section 315 or may express them differently, provided that all aspects described in AU-C section 315 have been covered. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

¹¹ The high, but not absolute, level of assurance that is intended to be obtained by the auditor is expressed in the auditor's report as obtaining reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects as of the date specified in management's assertion. See paragraph .54 of section 101, *Attest Engagements*, and AU-C section 200. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

the date specified in management's assertion. A material weakness in internal control may exist even when financial statements are not materially misstated. The auditor is not required to search for deficiencies that, individually or in combination, are less severe than a material weakness.

.10 An auditor engaged to perform an examination of internal control should comply with the general, fieldwork, and reporting standards in section 101, and the specific performance and reporting requirements set forth in this section. In this section, the subject matter is the effectiveness of internal control, and the responsible party usually is management of the entity. Accordingly, the term *management* is used in this section to refer to the responsible party.

.11 The auditor should use the same suitable and available control criteria¹² to perform his or her examination of internal control as management uses for its evaluation of the effectiveness of the entity's internal control.

.12 An auditor may perform an examination of internal control only if the following conditions are met:

- a. Management accepts responsibility for the effectiveness of the entity's internal control.
- b. Management evaluates the effectiveness of the entity's internal control using suitable and available criteria.
- c. Management supports its assertion about the effectiveness of the entity's internal control with sufficient appropriate evidence (see discussion beginning at paragraph .14).
- d. Management provides its assertion about the effectiveness of the entity's internal control in a report that accompanies the auditor's report (see paragraph .95).

.13 Management's refusal to furnish a written assertion should cause the auditor to withdraw from the engagement. However, if law or regulation does not allow the auditor to withdraw from the engagement and management refuses to furnish a written assertion, the auditor should disclaim an opinion on internal control.¹³

Evidence Supporting Management's Assertion

.14 Management is responsible for identifying and documenting the controls and the control objectives that they were designed to achieve. Such documentation serves as a basis for management's assertion. Documentation of the design of controls, including changes to those controls, is evidence that controls upon which management's assertion is based are

- identified.

¹² According to paragraph .23 of section 101 "[t]he third general attestation standard is—*The auditor must have reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users.*" The Committee of Sponsoring Organizations of the Treadway Commission's (COSO) report *Internal Control—Integrated Framework* provides suitable and available criteria against which management may evaluate and report on the effectiveness of the entity's internal control. *Internal Control—Integrated Framework* describes an entity's internal control as consisting of five components: control environment, risk assessment, information and communication, control activities, and monitoring. See AU-C section 315 for a discussion of these components. If management selects another framework, see paragraphs .23–.34 of section 101 for guidance on evaluating the suitability and availability of criteria. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

¹³ See paragraphs .117–.121 when disclaiming an opinion, including the requirement for the auditor's report to include a description of any material weaknesses identified.

- capable of being communicated to those responsible for their performance.
- capable of being monitored and evaluated by the entity.

.15 Management's documentation may take various forms, for example, entity policy manuals, accounting manuals, narrative memoranda, flowcharts, decision tables, procedural write-ups, or completed questionnaires. No one, particular form of documentation is prescribed, and the extent of documentation may vary depending upon the size and complexity of the entity and the entity's monitoring activities.

.16 Management's monitoring activities also may provide evidence of the design and operating effectiveness of internal control in support of management's assertion. Monitoring of controls is a process to assess the effectiveness of internal control performance over time. It involves assessing the effectiveness of controls on a timely basis, identifying and reporting deficiencies to appropriate individuals within the organization, and taking necessary corrective actions. Management accomplishes monitoring of controls through ongoing activities, separate evaluations, or a combination of the two.

.17 Ongoing monitoring activities are often built into the normal recurring activities of an entity and include regular management and supervisory activities. The greater the degree and effectiveness of ongoing monitoring, the less need for separate evaluations. Usually, some combination of ongoing monitoring and separate evaluations will ensure that internal control maintains its effectiveness over time.

Integrating the Examination With the Financial Statement Audit

.18 The examination of internal control should be integrated with an audit of financial statements. Although the objectives of the engagements are not the same, the auditor should plan and perform the integrated audit to achieve the objectives of both engagements simultaneously. The auditor should design tests of controls

- to obtain sufficient appropriate evidence to support the auditor's opinion on internal control as of the period-end; and
- to obtain sufficient appropriate evidence to support the auditor's control risk assessments for purposes of the audit of financial statements.

.19 The date specified in management's assertion (the as-of date of the examination) should correspond to the balance sheet date (or period ending date) of the period covered by the financial statements (see paragraph .02).

.20 Obtaining sufficient appropriate evidence to support the operating effectiveness of controls for purposes of the financial statement audit ordinarily allows the auditor to modify the substantive procedures that otherwise would have been necessary to opine on the financial statements. (Integration is described further beginning at paragraph .159.)

.21 In some circumstances, particularly in some audits of smaller, less complex entities, the auditor might choose not to test the operating effectiveness of controls for purposes of the audit of the financial statements. In such circumstances, the auditor's tests of the operating effectiveness of controls would be performed principally for the purpose of supporting his or her opinion on whether the entity's internal control is effective as of period-end. The auditor should consider the results of the financial statement auditing procedures in

determining his or her risk assessments and the testing necessary to conclude on the operating effectiveness of a control.

Planning the Examination

.22 The auditor should plan the examination of internal control. Evaluating whether the following matters are important to the entity's financial statements and internal control and, if so, how they may affect the auditor's procedures, may assist the auditor in planning the examination:

- Knowledge of the entity's internal control obtained during other engagements performed by the auditor or, if applicable, during a review of a predecessor auditor's working papers
- Matters affecting the industry in which the entity operates, such as financial reporting practices, economic conditions, laws and regulations, and technological changes
- Matters relating to the entity's business, including its organization, operating characteristics, and capital structure
- The extent of recent changes, if any, in the entity, its operations, or its internal control
- The auditor's preliminary judgments about materiality, risk, and other factors relating to the determination of material weaknesses
- Deficiencies previously communicated to those charged with governance or management
- Legal or regulatory matters of which the entity is aware
- The type and extent of available evidence related to the effectiveness of the entity's internal control
- Preliminary judgments about the effectiveness of internal control
- Public information about the entity relevant to the evaluation of the likelihood of material financial statement misstatements and the effectiveness of the entity's internal control
- Knowledge about risks related to the entity evaluated as part of the auditor's client acceptance and retention evaluation
- The relative complexity of the entity's operations

Role of Risk Assessment

.23 Risk assessment underlies the entire examination process described by this section, including the determination of significant accounts and disclosures and relevant assertions, the selection of controls to test, and the determination of the evidence necessary to conclude on the effectiveness of a given control. When performing an examination of internal control that is integrated with an audit of financial statements, the same risk assessment process supports both engagements.¹⁴

.24 The auditor should focus more attention on the areas of highest risk. A direct relationship exists between the degree of risk that a material weakness could exist in a particular area of the entity's internal control and the amount

¹⁴ The risk assessment procedures performed in connection with a financial statement audit are described in AU-C section 315. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

of attention that would be devoted to that area. In addition, an entity's internal control is less likely to prevent, or detect and correct a misstatement caused by fraud than a misstatement caused by error. It is not necessary to test controls that, even if deficient, would not present a reasonable possibility of material misstatement to the financial statements.

Scaling the Examination

.25 The size and complexity of the entity, its business processes, and business units may affect the way in which the entity achieves many of its control objectives. Many smaller entities have less complex operations. Additionally, some larger, complex entities may have less complex units or processes. Factors that might indicate less complex operations include fewer business lines; less complex business processes and financial reporting systems; more centralized accounting functions; extensive involvement by senior management in the day-to-day activities of the business; and fewer levels of management, each with a wide span of control. Accordingly, a smaller, less complex entity, or even a larger, less complex entity might achieve its control objectives differently from a more complex entity.

.26 The size and complexity of the organization, its business processes, and business units also may affect the auditor's risk assessment and the determination of the necessary procedures and the controls necessary to address those risks. Scaling is most effective as a natural extension of the risk-based approach and applicable to examinations of all entities.

Addressing the Risk of Fraud

.27 When planning and performing the examination of internal control, the auditor should incorporate the results of the fraud risk assessment performed in the financial statement audit. As part of identifying and testing entity-level controls, as discussed beginning at paragraph .37, and selecting other controls to test, as discussed beginning at paragraph .54, the auditor should evaluate whether the entity's controls sufficiently address identified risks of material misstatement due to fraud¹⁵ and the risk of management override of other controls. Controls that might address these risks include

- controls over significant, unusual transactions, particularly those that result in late or unusual journal entries;
- controls over journal entries and adjustments made in the period-end financial reporting process;
- controls over related party transactions;
- controls related to significant management estimates; and
- controls that mitigate incentives for, and pressures on, management to falsify or inappropriately manage financial results.

.28 If the auditor identifies deficiencies in controls designed to prevent, or detect and correct misstatements caused by fraud during the examination of internal control, he or she should take into account those deficiencies when developing his or her response to risks of material misstatement during the

¹⁵ See paragraphs .25–.27 of AU-C section 240, *Consideration of Fraud in a Financial Statement Audit*, regarding the auditor's identification and assessment of the risks of material misstatement due to fraud. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

financial statement audit, as provided in paragraphs .28–.33 of AU-C section 240, *Consideration of Fraud in a Financial Statement Audit*. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Using the Work of Others

.29 The auditor should evaluate the extent to which he or she will use the work of others to reduce the work the auditor might otherwise perform himself or herself.

.30 AU-C section 610, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, applies in an integrated audit. For purposes of the examination of internal control, however, the auditor may use the work performed by, or receive direct assistance from, internal auditors, entity personnel (in addition to internal auditors), and third parties working under the direction of management or those charged with governance that provide evidence about the effectiveness of internal control. In an integrated audit, the auditor also may use this work to obtain evidence supporting the assessment of control risk for purposes of the financial statement audit. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.31 The auditor should obtain an understanding of the work of others sufficient to identify those activities related to the effectiveness of internal control that are relevant to planning the examination of internal control. The extent of the procedures necessary to obtain this understanding will vary, depending on the nature of those activities.

.32 The auditor should assess the competence and objectivity of the persons whose work the auditor plans to use to determine the extent to which the auditor may use their work. The higher the degree of competence and objectivity, the greater use the auditor may make of the work. The auditor should apply paragraphs .09–.11 of AU-C section 610 to assess the competence and objectivity of internal auditors. The auditor should apply the principles underlying those paragraphs to assess the competence and objectivity of persons other than internal auditors whose work the auditor plans to use. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.33 For purposes of using the work of others, competence means the attainment and maintenance of a level of understanding, knowledge, and skills that enables that person to perform ably the tasks assigned to them, and objectivity means the ability to perform those tasks impartially and with intellectual honesty. To assess competence, the auditor should evaluate factors about the person's qualifications and ability to perform the work that the auditor plans to use. To assess objectivity, the auditor should evaluate whether factors are present that either inhibit or promote a person's ability to perform with the necessary degree of objectivity the work that the auditor plans to use. The effect of the work of others on the auditor's work also depends on the relationship between the risk associated with a control and the competence and objectivity of those who performed the work. As the risk associated with a control decreases, the necessary level of competence and objectivity decreases as well. In higher risk areas (for example, controls that address specific fraud risks), use of the work of others would be limited, if it could be used at all.

.34 The extent to which the auditor may use the work of others also depends, in part, on the risk associated with the control being tested (see

paragraph .62). As the risk associated with a control increases, the need for the auditor to perform his or her own work on the control increases.

Materiality

.35 In planning and performing the examination of internal control, the auditor should use the same materiality used in planning and performing the audit of the entity's financial statements.¹⁶

Using a Top-Down Approach

.36 The auditor should use a top-down approach¹⁷ to the examination of internal control to select the controls to test. A top-down approach involves

- beginning at the financial statement level;
- using the auditor's understanding of the overall risks to internal control;
- focusing on entity-level controls;
- working down to significant accounts and disclosures and their relevant assertions;
- directing attention to accounts, disclosures, and assertions that present a reasonable possibility of material misstatement to the financial statements and related disclosures;
- verifying the auditor's understanding of the risks in the entity's processes; and
- selecting controls for testing that sufficiently address the assessed risk of material misstatement to each relevant assertion.

Identifying Entity-Level Controls

.37 The auditor should test those entity-level controls that are important to his or her conclusion about whether the entity has effective internal control. The auditor's evaluation of entity-level controls can result in increasing or decreasing the testing that he or she otherwise would have performed on other controls.

.38 Entity-level controls include

- controls related to the control environment;
- controls over management override;¹⁸
- the entity's risk assessment process;
- centralized processing and controls, including shared service environments;

¹⁶ See AU-C section 320, *Audit Risk and Materiality in Planning and Performing an Audit*, which provides additional explanation of materiality. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

¹⁷ The top-down approach describes the auditor's sequential thought process in identifying risks and the controls to test, not necessarily the order in which the auditor will perform the examination procedures.

¹⁸ Controls over management override are important to effective internal control for all entities and may be particularly important at smaller, less complex entities because of the increased involvement of senior management in performing controls and in the period-end financial reporting process. For smaller, less complex entities, the controls that address the risk of management override might be different from those at a larger entity. For example, a smaller, less complex entity might rely on more detailed oversight by those charged with governance that focuses on the risk of management override.

- controls to monitor results of operations;
 - controls to monitor other controls, including activities of the internal audit function, those charged with governance, and self-assessment programs;
 - controls over the period-end financial reporting process; and
 - programs and controls that address significant business control and risk management practices.
- .39** Entity-level controls vary in nature and precision:
- Some entity-level controls, such as certain control environment controls, have an important but indirect effect on the likelihood that a misstatement will be prevented, or detected and corrected on a timely basis. These controls might affect the other controls that the auditor selects for testing and the nature, timing, and extent of procedures the auditor performs on other controls.
 - Some entity-level controls monitor the effectiveness of other controls. Such controls might be designed to identify possible breakdowns in lower level controls, but not at a level of precision that would, by themselves, sufficiently address the assessed risk that material misstatements to a relevant assertion will be prevented, or detected and corrected on a timely basis. These controls, when operating effectively, might allow the auditor to reduce the testing of other controls.
 - Some entity-level controls might be designed to operate at a level of precision that would adequately prevent, or detect and correct on a timely basis misstatements to one or more relevant assertions. If an entity-level control sufficiently addresses the assessed risk of material misstatement, the auditor need not test additional controls relating to that risk.

Control Environment

.40 Because of its importance to effective internal control, the auditor should evaluate the control environment at the entity. When evaluating the control environment, the auditor should apply paragraph .15 of AU-C section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*. As part of evaluating the control environment, the auditor should assess

- whether management's philosophy and operating style promote effective internal control;
- whether sound integrity and ethical values, particularly of top management, are developed and understood; and
- whether those charged with governance understand and exercise oversight responsibility over financial reporting and internal control.

[Revised, December 2012 and July 2013, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Period-End Financial Reporting Process

.41 Because of its importance to financial reporting and to the integrated audit, the auditor should evaluate the period-end financial reporting process.¹⁹ The period-end financial reporting process includes the following:

- Procedures used to enter transaction totals into the general ledger

¹⁹ Because the annual period-end financial reporting process normally occurs after the as-of date of management's assertion, those controls usually cannot be tested until after the as-of date.

- Procedures related to the selection and application of accounting policies
- Procedures used to initiate, authorize, record, and process journal entries in the general ledger
- Procedures used to record recurring and nonrecurring adjustments to the financial statements
- Procedures for preparing financial statements and related disclosures

.42 As part of evaluating the period-end financial reporting process, the auditor should assess

- the inputs, procedures performed, and outputs of the processes the entity uses to produce its financial statements;
- the extent of IT involvement in the period-end financial reporting process;
- who participates from management;
- the locations involved in the period-end financial reporting process;
- the types of adjusting and consolidating entries; and
- the nature and extent of the oversight of the process by management and those charged with governance.

Identifying Significant Accounts and Disclosures and Their Relevant Assertions

.43 The auditor should identify significant accounts and disclosures and their relevant assertions. To identify significant accounts and disclosures and their relevant assertions, the auditor should evaluate the qualitative and quantitative risk factors related to the financial statement line items and disclosures. Risk factors relevant to the identification of significant accounts and disclosures and their relevant assertions include

- size and composition of the account;
- susceptibility to misstatement due to errors or fraud;
- volume of activity, complexity, and homogeneity of the individual transactions processed through the account or reflected in the disclosure;
- nature of the account, class of transactions, or disclosure;
- accounting and reporting complexities associated with the account, class of transactions, or disclosure;
- exposure to losses in the account;
- possibility of significant contingent liabilities arising from the activities reflected in the account or disclosure;
- existence of related party transactions in the account; and
- changes from the prior period in the account, class of transactions, or disclosure characteristics.

.44 As part of identifying significant accounts and disclosures and their relevant assertions, the auditor also should determine the likely sources of potential misstatements that would cause the financial statements to be materially misstated. The auditor might determine the likely sources of potential misstatements by asking himself or herself "what could go wrong?" within a given significant account or disclosure.

.45 The risk factors that the auditor should evaluate in the identification of significant accounts and disclosures and their relevant assertions are the same in the examination of internal control as in the audit of the financial statements; accordingly, significant accounts and disclosures and their relevant assertions are the same in an integrated audit.²⁰

.46 The components of a potential significant account or disclosure might be subject to significantly different risks. If so, different controls might be necessary to adequately address those risks.

.47 When an entity has multiple locations or business units, the auditor should identify significant accounts and disclosures and their relevant assertions based on the consolidated financial statements.

Understanding Likely Sources of Misstatement

.48 To further understand the likely sources of potential misstatements, and as a part of selecting the controls to test, the auditor should achieve the following objectives:

- Understand the flow of transactions related to the relevant assertions, including how these transactions are initiated, authorized, processed, and recorded
- Identify the points within the entity's processes at which a misstatement, including a misstatement due to fraud, could arise that, individually or in combination with other misstatements, would be material (for example, points at which information is initiated, transferred, or otherwise modified)
- Identify the controls that management has implemented to address these potential misstatements
- Identify the controls that management has implemented over the prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could result in a material misstatement of the financial statements

.49 Because of the degree of judgment required, the auditor should either perform the procedures that achieve the objectives in paragraph .48 himself or herself or supervise the work of others who provide direct assistance to the auditor, as described in AU-C section 610. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.50 The auditor also should understand how IT affects the entity's flow of transactions and apply paragraph .22 of AU-C section 315. Paragraphs .A54–.A60 and .A98–.A101 of AU-C section 315 discuss the effect of IT on internal control and the risks to assess. [Revised, December 2012 and July 2013, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.51 The identification of risks and controls within IT is not a separate evaluation. Instead, it is an integral part of the top-down approach used to identify likely sources of misstatement and the controls to test, as well as to assess risk and allocate audit effort.

Performing Walkthroughs

.52 Performing walkthroughs will frequently be the most effective way of achieving the objectives in paragraph .48. A walkthrough involves following

²⁰ The risk assessment procedures performed in connection with a financial statement audit are described in AU-C section 315. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS No. 122–126.]

a transaction from origination through the entity's processes, including information systems, until it is reflected in the entity's financial records, using the same documents and IT that entity personnel use. Walkthrough procedures may include a combination of inquiry, observation, inspection of relevant documentation, recalculation, and control reperformance.

.53 A walkthrough includes questioning the entity's personnel about their understanding of what is required by the entity's prescribed procedures and controls at the points at which important processing procedures occur. These probing questions, combined with the other walkthrough procedures, allow the auditor to gain a sufficient understanding of the process and to be able to identify important points at which a necessary control is missing or not designed effectively. Additionally, probing questions that go beyond a narrow focus on the single transaction used as the basis for the walkthrough may provide an understanding of the different types of significant transactions handled by the process.

Selecting Controls to Test

.54 The auditor should test those controls that are important to the auditor's conclusion about whether the entity's controls sufficiently address the assessed risk of material misstatement to each relevant assertion.

.55 There might be more than one control that addresses the assessed risk of material misstatement to a particular relevant assertion; conversely, one control might address the assessed risk of material misstatement to more than one relevant assertion. It may not be necessary to test all controls related to a relevant assertion nor necessary to test redundant controls, unless redundancy is, itself, a control objective.

.56 The decision concerning whether a control would be selected for testing depends on which controls, individually or in combination, sufficiently address the assessed risk of material misstatement to a given relevant assertion rather than on how the control is labeled (for example, entity-level control, transaction-level control, control activity, monitoring control, preventive control, or detective control).

Testing Controls

Evaluating Design Effectiveness

.57 The auditor should evaluate the design effectiveness of controls by determining whether the entity's controls, if they are applied as prescribed by persons possessing the necessary authority and competence to perform the control effectively, satisfy the entity's control objectives, and can effectively prevent, or detect and correct misstatements caused by errors or fraud that could result in material misstatements in the financial statements.

.58 A smaller, less complex entity might achieve its control objectives in a different manner from a larger, more complex organization. For example, a smaller, less complex entity might have fewer employees in the accounting function, limiting opportunities to segregate duties and leading the entity to implement alternative controls to achieve its control objectives. In such circumstances, the auditor should evaluate whether those alternative controls are effective.

.59 Procedures performed to evaluate design effectiveness may include a mix of inquiry of appropriate personnel, observation of the entity's operations,

and inspection of relevant documentation. Walkthroughs that include these procedures ordinarily are sufficient to evaluate design effectiveness.

Testing Operating Effectiveness

.60 The auditor should test the operating effectiveness of a control by determining whether the control is operating as designed and whether the person performing the control possesses the necessary authority and competence to perform the control effectively.²¹

.61 Procedures performed to test operating effectiveness may include a mix of inquiry of appropriate personnel, observation of the entity's operations, inspection of relevant documentation, recalculation, and reperformance of the control.

Relationship of Risk to the Evidence to Be Obtained

.62 For each control selected for testing, the evidence necessary to persuade the auditor that the control is effective depends upon the risk associated with the control. The risk associated with a control consists of the risk that the control might not be effective and, if not effective, the risk that a material weakness exists. As the risk associated with the control being tested increases, the evidence that the auditor should obtain also increases.

.63 Although the auditor should obtain evidence about the effectiveness of controls for each relevant assertion, he or she is not responsible for obtaining sufficient appropriate evidence to support an opinion about the effectiveness of each individual control. Rather, the auditor's objective is to express an opinion on the entity's internal control overall. This allows the auditor to vary the evidence obtained regarding the effectiveness of individual controls selected for testing based on the risk associated with the individual control.

.64 Factors that affect the risk associated with a control may include

- the nature and materiality of misstatements that the control is intended to prevent, or detect and correct;
- the inherent risk associated with the related account(s) and assertion(s);
- whether there have been changes in the volume or nature of transactions that might adversely affect control design or operating effectiveness;
- whether the account has a history of errors;
- the effectiveness of entity-level controls, especially controls that monitor other controls;
- the nature of the control and the frequency with which it operates;
- the degree to which the control relies on the effectiveness of other controls (for example, the control environment or IT general controls);
- the competence of the personnel who perform the control or monitor its performance and whether there have been changes in key personnel who perform the control or monitor its performance;

²¹ In some situations, particularly in smaller, less complex entities, an entity might use a third party to provide assistance with certain financial reporting functions. When assessing the competence of personnel responsible for an entity's financial reporting and associated controls, the auditor may take into account the combined competence of entity personnel and other parties that assist with functions related to financial reporting.

- whether the control relies on performance by an individual or is automated (that is, an automated control would generally be expected to be lower risk if relevant IT general controls are effective);²² and
- the complexity of the control and the significance of the judgments that would be made in connection with its operation.²³

.65 When the auditor identifies control deviations, he or she should determine the effect of the deviations on his or her assessment of the risk associated with the control being tested and the evidence to be obtained, as well as on the operating effectiveness of the control.

.66 Because effective internal control cannot and does not provide absolute assurance of achieving the entity's control objectives, an individual control does not necessarily have to operate without any deviation to be considered effective.

.67 The evidence provided by the auditor's tests of the effectiveness of controls depends upon the mix of the nature, timing, and extent of the auditor's procedures. Further, for an individual control, different combinations of the nature, timing, and extent of testing may provide sufficient appropriate evidence in relation to the risk associated with the control.

.68 Walkthroughs may include a combination of inquiry of appropriate personnel, observation of the entity's operations, inspection of relevant documentation, recalculation, and reperformance of the control and might provide sufficient appropriate evidence of operating effectiveness, depending on the risk associated with the control being tested, the specific procedures performed as part of the walkthrough, and the results of those procedures.

Nature of Tests of Controls

.69 Some types of tests, by their nature, produce greater evidence of the effectiveness of controls than other tests. The following tests that the auditor might perform are presented in order of the evidence that they ordinarily would produce, from least to most: inquiry, observation, inspection of relevant documentation, recalculation, and reperformance of a control. Inquiry alone, however, does not provide sufficient appropriate evidence to support a conclusion about the effectiveness of a control.

.70 The nature of the tests of effectiveness that will provide sufficient appropriate evidence depends, to a large degree, on the nature of the control to be tested, including whether the operation of the control results in documentary evidence of its operation. Documentary evidence of the operation of some controls, such as management's philosophy and operating style, might not exist.

.71 A smaller, less complex entity or unit might have less formal documentation regarding the operation of its controls. In those situations, testing controls through inquiry combined with other procedures, such as observation of activities, inspection of less formal documentation, recalculation, or reperformance of certain controls, might provide sufficient appropriate evidence about whether the control is effective.

²² A smaller, less complex entity or business unit with simple business processes and centralized accounting operations might have relatively simple information systems that make greater use of off-the-shelf packaged software without modification. In the areas in which off-the-shelf software is used, the auditor's testing of IT controls might focus on the application controls built into the prepackaged software that management relies on to achieve its control objectives and the IT general controls that are important to the effective operation of those application controls.

²³ Generally, a conclusion that a control is not operating effectively can be supported by less evidence than is necessary to support a conclusion that a control is operating effectively.

Timing and Extent of Tests of Controls

.72 Testing controls over a longer period of time provides more evidence of the effectiveness of controls than testing over a shorter period of time. Further, testing performed closer to the date of management's assertion provides more evidence than testing performed earlier in the year. The auditor should balance performing the tests of controls closer to the as-of date with the need to test controls over a sufficient period of time to obtain sufficient appropriate evidence of operating effectiveness.

.73 Prior to the date specified in management's assertion, management might implement changes to the entity's controls to make them more effective or efficient or to address deficiencies. If the auditor determines that the new controls achieve the related objectives of the control criteria and have been in effect for a sufficient period to permit the auditor to assess their design and operating effectiveness by performing tests of controls, he or she will not need to test the design and operating effectiveness of the superseded controls for purposes of expressing an opinion on internal control. If the operating effectiveness of the superseded controls is important to the auditor's control risk assessment in the financial statement audit, the auditor should test the design and operating effectiveness of those superseded controls, as appropriate. (Integration is discussed beginning at paragraph .159.)

.74 The more extensively a control is tested, the greater the evidence obtained from that test.

Rollforward Procedures

.75 When the auditor reports on the effectiveness of controls as of a specific date and obtains evidence about the operating effectiveness of controls at an interim date, he or she should determine what additional evidence concerning the operation of the controls for the remaining period is necessary.

.76 The additional evidence that is necessary to update the results of testing from an interim date to the entity's period-end depends on the following factors:²⁴

- The specific control tested prior to the as-of date, including the risks associated with the control, the nature of the control, and the results of those tests
- The sufficiency of the evidence of operating effectiveness obtained at an interim date
- The length of the remaining period
- The possibility that there have been any significant changes in internal control subsequent to the interim date

Special Considerations for Subsequent Years' Examinations

.77 In subsequent years' examinations, the auditor should incorporate knowledge obtained during past examinations he or she performed of the entity's internal control into the decision making process for determining the nature, timing, and extent of testing necessary. This decision making process is described in paragraphs .62–.76.

²⁴ In some circumstances, such as when evaluation of these factors indicates a low risk that the controls are no longer effective during the rollforward period, inquiry alone might be sufficient as a rollforward procedure.

.78 Factors that affect the risk associated with a control in subsequent years' examinations include those in paragraph .64 and the following:

- The nature, timing, and extent of procedures performed in previous examinations
- The results of the previous years' testing of the control
- Whether there have been changes in the control or the process in which it operates since the previous examination

.79 After taking into account the risk factors identified in paragraphs .64 and .78, the additional information available in subsequent years' examinations might permit the auditor to assess the risk as lower than in the initial year. This, in turn, might permit the auditor to reduce testing in subsequent years.

.80 The auditor also may use a benchmarking strategy for automated application controls in subsequent years' examinations. Benchmarking is described further beginning at paragraph .153.

.81 In addition, the auditor should vary the nature, timing, and extent of testing of controls from period to period to introduce unpredictability into the testing and respond to changes in circumstances. For this reason, the auditor might test controls at a different interim period, increase or reduce the number and types of tests performed, or change the combination of procedures used.

Evaluating Identified Deficiencies

.82 The auditor should evaluate the severity of each deficiency to determine whether the deficiency, individually or in combination, is a material weakness as of the date of management's assertion.

.83 The severity of a deficiency depends on

- the magnitude of the potential misstatement resulting from the deficiency or deficiencies; and
- whether there is a reasonable possibility that the entity's controls will fail to prevent, or detect and correct a misstatement of an account balance or disclosure.

The severity of a deficiency does not depend on whether a misstatement actually occurred.

.84 Factors that affect the magnitude of the misstatement that might result from a deficiency or deficiencies include, but are not limited to, the following:

- The financial statement amounts or total of transactions exposed to the deficiency
- The volume of activity (in the current period or expected in future periods) in the account or class of transactions exposed to the deficiency

.85 In evaluating the magnitude of the potential misstatement, the maximum amount by which an account balance or total of transactions can be overstated is generally the recorded amount, whereas understatements could be larger.

.86 Risk factors affect whether there is a reasonable possibility that a deficiency, or a combination of deficiencies, will result in a misstatement of an account balance or disclosure. The factors include, but are not limited to, the following:

- The nature of the financial statement accounts, classes of transactions, disclosures, and assertions involved

- The susceptibility of the related asset or liability to loss or fraud
- The subjectivity, complexity, or extent of judgment required to determine the amount involved
- The interaction or relationship of the control with other controls
- The interaction among the deficiencies
- The possible future consequences of the deficiency

.87 The evaluation of whether a deficiency presents a reasonable possibility of misstatement may be made without quantifying the probability of occurrence as a specific percentage or range. Also, in many cases, the probability of a small misstatement will be greater than the probability of a large misstatement.

.88 Multiple deficiencies that affect the same significant account or disclosure, relevant assertion, or component of internal control increase the likelihood of material misstatement and may, in combination, constitute a material weakness, even though such deficiencies individually may be less severe. Therefore, the auditor should determine whether deficiencies that affect the same significant account or disclosure, relevant assertion, or component of internal control collectively result in a material weakness.

.89 Multiple deficiencies that affect the same significant account or disclosure, relevant assertion, or component of internal control also may collectively result in a significant deficiency.

.90 A compensating control can limit the severity of a deficiency and prevent it from being a material weakness. Although compensating controls can mitigate the effects of a deficiency, they do not eliminate the deficiency. The auditor should evaluate the effect of compensating controls when determining whether a deficiency or combination of deficiencies is a material weakness. To have a mitigating effect, the compensating control should operate at a level of precision that would prevent, or detect and correct a material misstatement. The auditor should test the operating effectiveness of compensating controls.

Indicators of Material Weaknesses

.91 Indicators of material weaknesses in internal control include

- identification of fraud, whether or not material, on the part of senior management;
- restatement of previously issued financial statements to reflect the correction of a material misstatement due to error or fraud;
- identification by the auditor of a material misstatement of financial statements under audit in circumstances that indicate that the misstatement would not have been detected and corrected by the entity's internal control; and
- ineffective oversight of the entity's financial reporting and internal control by those charged with governance.

.92 If the auditor determines that a deficiency, or a combination of deficiencies, is not a material weakness, he or she should consider whether prudent officials, having knowledge of the same facts and circumstances, would likely reach the same conclusion.

Concluding Procedures

Forming an Opinion

.93 The auditor should form an opinion on the effectiveness of internal control by evaluating evidence obtained from all sources, including the auditor's testing of controls, misstatements detected during the financial statement audit, and any identified deficiencies.

.94 As part of this evaluation, the auditor should review reports issued during the year by internal audit (or similar functions) that address controls related to internal control and evaluate deficiencies identified in those reports.

.95 After forming an opinion on the effectiveness of the entity's internal control, the auditor should evaluate management's report to determine whether it appropriately contains the following:

- A statement regarding management's responsibility for internal control
- A description of the subject matter of the examination (for example, controls over the preparation of the entity's financial statements in accordance with generally accepted accounting principles [GAAP])
- An identification of the criteria against which internal control is measured (for example, criteria established in the Committee of Sponsoring Organizations of the Treadway Commission's *Internal Control—Integrated Framework*)
- Management's assertion about the effectiveness of internal control
- A description of the material weaknesses, if any
- The date as of which management's assertion is made

.96 If the auditor determines that any required element of management's report is incomplete or improperly presented, the auditor should request management to revise its report. If management does not revise its report, the auditor should apply paragraph .116. If management refuses to furnish a report, the auditor should apply paragraph .13.

Obtaining Written Representations

.97 In an examination of internal control, the auditor should obtain written representations from management

- a. acknowledging management's responsibility for establishing and maintaining effective internal control;
- b. stating that management has performed an evaluation of the effectiveness of the entity's internal control and specifying the control criteria;
- c. stating that management did not use the auditor's procedures performed during the integrated audit as part of the basis for management's assertion;
- d. stating management's assertion about the effectiveness of the entity's internal control based on the control criteria as of a specified date;
- e. stating that management has disclosed to the auditor all deficiencies in the design or operation of internal control, including separately disclosing to the auditor all such deficiencies that it believes to be significant deficiencies or material weaknesses in internal control;

- f. describing any fraud resulting in a material misstatement to the entity's financial statements and any other fraud that does not result in a material misstatement to the entity's financial statements, but involves senior management or management or other employees who have a significant role in the entity's internal control;
- g. stating whether the significant deficiencies and material weaknesses identified and communicated to management and those charged with governance during previous engagements pursuant to paragraph .100 have been resolved and specifically identifying any that have not; and
- h. stating whether there were, subsequent to the date being reported on, any changes in internal control or other factors that might significantly affect internal control, including any corrective actions taken by management with regard to significant deficiencies and material weaknesses.

.98 The failure to obtain written representations from management, including management's refusal to furnish them, constitutes a limitation on the scope of the examination.²⁵ The auditor should evaluate the effects of management's refusal on his or her ability to rely on other representations, such as those obtained in the audit of the entity's financial statements.

.99 The auditor should apply AU-C section 580, *Written Representations*, as it relates to matters such as who should sign the letter, the period to be covered by the letter, and when to obtain an updated letter. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Communicating Certain Matters

.100 Deficiencies identified during the integrated audit that, upon evaluation, are considered significant deficiencies or material weaknesses should be communicated, in writing, to management and those charged with governance as a part of each integrated audit, including significant deficiencies and material weaknesses that were previously communicated to management and those charged with governance and have not yet been remediated. Significant deficiencies and material weaknesses that previously were communicated and have not yet been remediated may be communicated, in writing, by referring to the previously issued written communication and the date of that communication.

.101 If the auditor concludes that the oversight of the entity's financial reporting and internal control by the audit committee (or similar subgroups with different names) is ineffective, the auditor should communicate that conclusion, in writing, to the board of directors or other similar governing body if one exists.

.102 The written communications referred to in paragraphs .100–.101 should be made by the report release date,²⁶ which is the date the auditor grants the entity permission to use the auditor's report. For a governmental entity, the auditor is not required to make the written communications by the report release date, if such written communications would be publicly available prior to management's report on internal control, the entity's financial statements, and the auditor's report thereon. In that circumstance, the written communications should be made as soon as practicable, but no later than 60 days following the report release date.

²⁵ See paragraph .117 when the scope of the engagement has been restricted.

²⁶ See paragraph .A2 of AU-C section 230, *Audit Documentation*, for additional guidance related to the report release date. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.103 Because of the importance of timely communication, the auditor may choose to communicate significant matters during the course of the integrated audit. If the communication is made during the integrated audit, the form of interim communication would be affected by the relative significance of the identified deficiencies and the urgency for corrective follow-up action. Such early communication is not required to be in writing. However, regardless of how the early communication is delivered, the auditor should communicate all significant deficiencies and material weaknesses in writing to management and those charged with governance in accordance with paragraphs .100–.102, even if the significant deficiencies or material weaknesses were remediated during the examination.

.104 The auditor also should communicate to management, in writing, all deficiencies (those deficiencies that are not material weaknesses or significant deficiencies) identified during the integrated audit on a timely basis, but no later than 60 days following the report release date, and inform those charged with governance when such a communication was made. In making the written communication referred to in this paragraph, the auditor is not required to communicate those deficiencies that are not material weaknesses or significant deficiencies that were included in previous written communications, whether those communications were made by the auditor, internal auditors, or others within the organization.

.105 The auditor is not required to perform procedures that are sufficient to identify all deficiencies; rather, the auditor communicates deficiencies of which he or she is aware.

.106 Because the integrated audit does not provide the auditor with assurance that he or she has identified all deficiencies less severe than a material weakness, the auditor should not issue a report stating that no such deficiencies were identified during the integrated audit. Also, because the auditor's objective in an examination of internal control is to form an opinion on the effectiveness of the entity's internal control, the auditor should not issue a report indicating that no material weaknesses were identified during the integrated audit.

Reporting on Internal Control

.107 The auditor's report on the examination of internal control should include the following elements:²⁷

- a. A title that includes the word *independent*
- b. A statement that management is responsible for maintaining effective internal control and for evaluating the effectiveness of internal control
- c. An identification of management's assertion on internal control that accompanies the auditor's report, including a reference to management's report
- d. A statement that the auditor's responsibility is to express an opinion on the entity's internal control (or on management's assertion)²⁸ based on his or her examination²⁹
- e. A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants

²⁷ Report modifications are discussed further beginning at paragraph .115.

²⁸ The auditor may report directly on the entity's internal control or on management's written assertion, except as described in paragraph .112.

²⁹ Because the examination of internal control is integrated with the audit of the financial statements and an examination provides the same level of assurance as an audit, the auditor may refer to the examination of internal control as an audit in his or her report or other communications.

- f. A statement that such standards require that the auditor plan and perform the examination to obtain reasonable assurance about whether effective internal control was maintained in all material respects
- g. A statement that an examination includes obtaining an understanding of internal control, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as the auditor considers necessary in the circumstances
- h. A statement that the auditor believes the examination provides a reasonable basis for his or her opinion
- i. A definition of internal control (the auditor should use the same description of the entity's internal control as management uses in its report)
- j. A paragraph stating that, because of inherent limitations, internal control may not prevent, or detect and correct misstatements and that projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate
- k. The auditor's opinion on whether the entity maintained, in all material respects, effective internal control as of the specified date, based on the control criteria; or, the auditor's opinion on whether management's assertion about the effectiveness of the entity's internal control as of the specified date is fairly stated, in all material respects, based on the control criteria
- l. The manual or printed signature of the auditor's firm
- m. The date of the report

Separate or Combined Reports

.108 The auditor may choose to issue a combined report (that is, one report containing both an opinion on the financial statements and an opinion on internal control) or separate reports on the entity's financial statements and on internal control.

.109 If the auditor issues a separate report on internal control, he or she should add the following paragraph to the auditor's report on the financial statements:

We also have examined [or audited]³⁰ in accordance with attestation standards established by the American Institute of Certified Public Accountants, [company name]'s internal control over financial reporting as of December 31, 20X8, based on [identify control criteria] and our report dated [date of report, which should be the same as the date of the report on the financial statements] expressed [include nature of opinion].

The auditor also should add the following paragraph to the report on internal control:

We also have audited, in accordance with auditing standards generally accepted in the United States of America, the [identify financial statements] of [company name] and our report dated [date of report, which should be the same as the date of the report on internal control] expressed [include nature of opinion].

³⁰ See footnote 29.

Report Date

.110 The auditor should date the report no earlier than the date on which the auditor has obtained sufficient appropriate evidence to support the auditor's opinion. Because the examination of internal control is integrated with the audit of the financial statements, the dates of the reports should be the same.

Adverse Opinions

.111 Paragraphs .82–.92 describe the evaluation of deficiencies. If there are deficiencies that, individually or in combination, result in one or more material weaknesses as of the date specified in management's assertion, the auditor should express an adverse opinion on the entity's internal control, unless there is a restriction on the scope of the engagement.³¹

.112 When internal control is not effective because one or more material weaknesses exist, the auditor is prohibited from expressing an opinion on management's assertion and should report directly on the effectiveness of internal control. In addition, the auditor's report should include

- the definition of a material weakness.
- a statement that one or more material weaknesses have been identified and an identification of the material weaknesses described in management's assertion. The auditor's report need only refer to the material weaknesses described in management's report and need not include a description of each material weakness, provided each material weakness is included and fairly presented in all material respects in management's report, as described in the following paragraph.

.113 If one or more material weaknesses have not been included in management's report accompanying the auditor's report, the auditor's report should be modified to state that one or more material weaknesses have been identified but not included in management's report. Additionally, the auditor's report should include a description of each material weakness not included in management's report, which should provide the users of the report with specific information about the nature of each material weakness and its actual and potential effect on the presentation of the entity's financial statements issued during the existence of the weakness. In this case, the auditor also should communicate, in writing, to those charged with governance that one or more material weaknesses were not disclosed or identified as a material weakness in management's report. If one or more material weaknesses have been included in management's report but the auditor concludes that the disclosure of such material weaknesses is not fairly presented in all material respects, the auditor's report should describe this conclusion as well as the information necessary to fairly describe each material weakness.

.114 The auditor should determine the effect an adverse opinion on internal control has on his or her opinion on the financial statements. Additionally, the auditor should disclose whether his or her opinion on the financial statements was affected by the material weaknesses.³²

³¹ See paragraph .117 when the scope of the engagement has been restricted.

³² If the auditor issues a separate report on internal control in this circumstance, the disclosure required by this paragraph may be combined with the report language described in paragraph .109. The auditor may present the combined language either as a separate paragraph or as part of the paragraph that identifies the material weakness.

Report Modifications

.115 The auditor should modify his or her report if any of the following conditions exist:

- a. Elements of management's report are incomplete or improperly presented.
- b. There is a restriction on the scope of the engagement.
- c. The auditor decides to refer to the report of a component auditor as the basis, in part, for the auditor's own report.
- d. There is other information contained in management's report.

[Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Elements of Management's Report Are Incomplete or Improperly Presented

.116 If the auditor determines that any required element of management's report (see paragraph .95) is incomplete or improperly presented and management does not revise its report, the auditor should modify his or her report to include an explanatory paragraph describing the reasons for this determination. If the auditor determines that the required disclosure about one or more material weaknesses is not fairly presented in all material respects, the auditor should apply paragraph .113.

Scope Limitations

.117 The auditor may express an opinion on the entity's internal control only if the auditor has been able to apply the procedures necessary in the circumstances. If there are restrictions on the scope of the engagement, the auditor should withdraw from the engagement or disclaim an opinion.

.118 When disclaiming an opinion because of a scope limitation, the auditor should state that he or she does not express an opinion on the effectiveness of internal control and, in a separate paragraph or paragraphs, the substantive reasons for the disclaimer. The auditor should not identify the procedures that were performed nor include the statements describing the characteristics of an examination of internal control (paragraph .107[d–h]); to do so might overshadow the disclaimer.

.119 When the auditor plans to disclaim an opinion and the limited procedures performed by the auditor caused the auditor to conclude that one or more material weaknesses exist, the auditor's report also should include

- the definition of a material weakness.
- a description of any material weaknesses identified in the entity's internal control. This description should address the requirements in paragraph .112 and should provide the users of the report with specific information about the nature of any material weakness and its actual and potential effect on the presentation of the entity's financial statements issued during the existence of the weakness. The auditor also should apply the requirements in paragraph .114.

.120 The auditor may issue a report disclaiming an opinion on internal control as soon as the auditor concludes that a scope limitation will prevent the auditor from obtaining the reasonable assurance necessary to express an

opinion.³³ The auditor is not required to perform any additional work prior to issuing a disclaimer when the auditor concludes that he or she will not be able to obtain sufficient appropriate evidence to express an opinion.

.121 If the auditor concludes that he or she cannot express an opinion because there has been a limitation on the scope of the examination, the auditor should communicate, in writing, to management and those charged with governance that the examination of internal control cannot be satisfactorily completed.

Opinion Based, in Part, on the Report of a Component Auditor

.122 When an entity is composed of one or more components (for example, subsidiaries, divisions, or branches), and another auditor has examined the internal control of one or more of the components, the auditor should determine whether it is appropriate to serve as the auditor of the group's internal control and use the work and reports of the component auditor as a basis, in part, for the auditor's opinion. The auditor considering whether to serve as the auditor of the group's internal control may have performed all but a relatively minor portion of the work, or the component auditor may have performed significant parts of the examination. In the latter case, the auditor should decide whether the auditor's own involvement is sufficient to enable the auditor to serve as the auditor of the group's internal control and to report on internal control as such. In deciding this question, the auditor should consider, among other things, the materiality of the portion of internal control the auditor has examined in comparison with the portion examined by the component auditor, the extent of the auditor's knowledge of overall internal control, and the importance of the components examined by the auditor in relation to the group as a whole. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.123 If the auditor decides that it is appropriate to serve as the auditor of the group's internal control, the auditor should then decide whether to make reference in his or her report on the group's internal control to the examination of internal control performed by the component auditor. If the auditor decides to assume responsibility for the work of the component auditor insofar as that work relates to the expression of an opinion on the group's internal control taken as a whole, no reference should be made to the component auditor's work or report. On the other hand, if the auditor decides not to assume responsibility, the auditor's report should make reference to the examination of the component auditor and should clearly indicate the division of responsibility between the auditor and the component auditor in expressing an opinion on the group's internal control. Regardless of the auditor's decision, the auditor remains responsible for the performance of his or her own work and report. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.124 The decision about whether to make reference to a component auditor in the report on the examination of internal control might differ from the corresponding decision as it relates to the audit of the financial statements. For example, the audit report on the financial statements may make reference to

³³ In this case, in following paragraph .110 regarding dating the report, the report date is the date that the auditor has obtained sufficient appropriate evidence to support the representations in the report.

the audit of a significant equity investment performed by a component auditor³⁴ but the report on internal control might not make a similar reference because management's assertion ordinarily would not extend to controls at the equity method investee.³⁵ [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.125 When the auditor of the group's internal control decides to make reference to the report of the component auditor as a basis, in part, for the auditor's opinion on the group's internal control, the auditor should refer to the report of the component auditor when describing the scope of the examination and when expressing the opinion. Whether the component auditor's opinion is expressed on management's assertion or on internal control does not affect the determination of whether the opinion of the auditor of the group's internal control is expressed on management's assertion or on internal control. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Management's Report Contains Additional Information

.126 Management's report accompanying the auditor's report may contain information in addition to the elements described in paragraph .95 that are subject to the auditor's evaluation.³⁶ If management's report could reasonably be viewed by users of the report as including such additional information, the auditor should disclaim an opinion on the information.

.127 The auditor may use the following sample language as the last paragraph of the auditor's report to disclaim an opinion on such additional information:

We do not express an opinion or any other form of assurance on *[describe additional information, such as management's cost-benefit statement]*.

.128 If the auditor believes that management's additional information contains a material misstatement of fact, he or she should apply the guidance in paragraphs .92–.94 of section 101 and take appropriate action. If the auditor concludes that a material misstatement of fact remains, the auditor should notify management and those charged with governance, in writing, of the auditor's views concerning the information. AU-C section 250, *Consideration of Laws and Regulations in an Audit of Financial Statements*, also may require the auditor to take additional action. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

³⁴ AU-C section 600, *Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)*, addresses special considerations that apply to group audits, in particular those that involve component auditors. [Footnote added, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

³⁵ See paragraph .140 for further discussion of the evaluation of the controls for an equity method investment. [Footnote renumbered, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

³⁶ An entity may publish various documents that contain information in addition to management's report and the auditor's report on internal control. Paragraphs .91–.94 of section 101 provide guidance to the auditor in these circumstances. If management makes the types of disclosures described in paragraph .126 outside its report and includes them elsewhere within a document that includes the auditor's report, the auditor would not need to disclaim an opinion on such information. However, in that situation, the auditor's responsibilities are the same as those described in paragraph .128, if the auditor believes that the additional information contains a material misstatement of fact. [Footnote renumbered, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Subsequent Events

.129 Changes in internal control or other factors that might significantly affect internal control might occur subsequent to the date as of which internal control is being examined but before the date of the auditor's report. The auditor should inquire of management whether there were any such changes or factors and obtain written representations from management relating to such matters, as described in paragraph .97.

.130 To obtain additional information about changes in internal control or other factors that might significantly affect the effectiveness of the entity's internal control, the auditor should inquire about and examine, for this subsequent period, the following:

- Relevant internal audit (or similar functions, such as loan review in a financial institution) reports issued during the subsequent period
- Independent auditor reports (if other than the auditor's) of deficiencies
- Regulatory agency reports on the entity's internal control
- Information about the effectiveness of the entity's internal control obtained through other engagements

.131 The auditor might inquire about and examine other documents for the subsequent period. AU-C section 560, *Subsequent Events and Subsequently Discovered Facts*, establishes requirements and provides guidance on subsequent events for a financial statement audit that also may be helpful to the auditor performing an examination of internal control. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.132 If, subsequent to the date as of which internal control is being examined but before the date of the auditor's report, the auditor obtains knowledge about a material weakness that existed as of the date specified in management's assertion, the auditor should report directly on internal control and issue an adverse opinion, as required by paragraph .111. The auditor should also follow paragraph .116 if management's assertion states that internal control is effective. If the auditor is unable to determine the effect of the matter on the effectiveness of the entity's internal control as of the date specified in management's assertion, the auditor should disclaim an opinion. As described in paragraph .126, the auditor should disclaim an opinion on management's disclosures about corrective actions taken by the entity, if any.

.133 The auditor may obtain knowledge about conditions that did not exist at the date specified in management's assertion but arose subsequent to that date and before the release of the auditor's report. If a subsequent event of this type has a material effect on the entity's internal control, the auditor should include in his or her report an explanatory paragraph describing the event and its effects or directing the reader's attention to the event and its effects as disclosed in management's report.

.134 The auditor has no responsibility to keep informed of events subsequent to the date of his or her report; however, after the release of the report on internal control, the auditor may become aware of conditions that existed at the report date that might have affected the auditor's opinion had he or she been aware of them. The evaluation of such subsequent information is similar to the evaluation of facts discovered subsequent to the date of the report on an audit of financial statements, as described in AU-C section 560. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Special Topics

Entities With Multiple Locations

.135 In determining the locations or business units at which to perform tests of controls, the auditor should assess the risk of material misstatement to the financial statements associated with the location or business unit and correlate the amount of attention devoted to the location or business unit with the degree of risk. The auditor may eliminate from further consideration locations or business units that, individually or when aggregated with others, do not present a reasonable possibility of material misstatement to the entity's consolidated financial statements.

.136 In assessing and responding to risk, the auditor should test controls over specific risks that present a reasonable possibility of material misstatement to the entity's consolidated financial statements. In lower risk locations or business units, the auditor first might evaluate whether testing entity-level controls, including controls in place to provide assurance that appropriate controls exist throughout the organization, provides the auditor with sufficient appropriate evidence.

.137 In determining the locations or business units at which to perform tests of controls, the auditor may take into account work performed by others on behalf of management. For example, if the internal auditors' planned procedures include relevant audit work at various locations, the auditor may coordinate work with the internal auditors and reduce the number of locations or business units at which the auditor would otherwise need to perform examination procedures.

.138 In applying the requirement in paragraph .81 regarding special considerations for subsequent years' examinations, the auditor should vary the nature, timing, and extent of testing of controls at locations or business units from year to year.

Special Situations

.139 The scope of the examination should include entities that are acquired on or before the date of management's assertion and operations that are accounted for as discontinued operations on the date of management's assertion that are reported in accordance with the applicable financial reporting framework in the entity's financial statements.

.140 For equity method investments, the scope of the examination should include controls over the reporting in accordance with the applicable financial reporting framework, in the entity's financial statements, of the entity's portion of the investees' income or loss, the investment balance, adjustments to the income or loss and investment balance, and related disclosures. The examination ordinarily would not extend to controls at the equity method investee.

.141 In situations in which a regulator allows management to limit its assertion by excluding certain entities, the auditor may limit the examination in the same manner. In these situations, the auditor's opinion would not be affected by a scope limitation. However, the auditor should include, either in an additional explanatory paragraph or as part of the scope paragraph in his or her report, a disclosure similar to management's regarding the exclusion of an entity from the scope of both management's assertion and the auditor's examination of internal control. Additionally, the auditor should evaluate the reasonableness of management's conclusion that the situation meets the criteria of the regulator's allowed exclusion and the appropriateness of any required

disclosure related to such a limitation. If the auditor believes that management's disclosure about the limitation requires modification, the auditor should communicate the matter to the appropriate level of management. If, in the auditor's judgment, management does not respond appropriately to the auditor's communication within a reasonable period of time, the auditor should inform those charged with governance of the matter as soon as practicable. If management and those charged with governance do not respond appropriately, the auditor should modify his or her report on the examination of internal control to include an explanatory paragraph describing the reasons why the auditor believes management's disclosure requires modification.

Use of Service Organizations

.142 AU-C section 402³⁷ addresses an auditor's responsibility for obtaining sufficient appropriate audit evidence in an audit of the financial statements of an entity that uses one or more service organizations (a user entity). Services provided by a service organization are relevant to the audit of a user entity's financial statements when those services and the controls over them affect the user entity's information system. The auditor may apply the relevant concepts described in AU-C section 402 to the examination of internal control. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.143 Paragraph .03 of AU-C section 402 identifies the situations in which a service organization's services and controls over them are part of a user entity's information system. If the service organization's services are part of the user entity's information system, as described therein, then they are part of the user entity's internal control. When the service organization's services are part of the user entity's internal control, the auditor should consider the activities of the service organization when determining the evidence required to support his or her opinion. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.144 The auditor should perform the procedures in paragraphs .09–.19 of AU-C section 402 with respect to the activities performed by the service organization. These procedures include

- a. obtaining an understanding of the how the user entity uses the services of the service organization in its operations,
- b. evaluating the design and implementation of relevant controls at the user entity that relate to the services provided by the service organization), and
- c. obtaining evidence that controls at the service organization that are relevant to the auditor's opinion on internal control are operating effectively.

[Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.145 Evidence that the controls that are relevant to the auditor's opinion on internal control are operating effectively may be obtained by following the

³⁷ AU-C section 402, *Audit Considerations Relating to an Entity Using a Service Organization*, contains the requirements and application guidance for auditors of the financial statements of entities that use a service organization (user auditors). [Footnote added, August 2011, to reflect conforming changes necessary due to the issuance of SSAE No. 16. Footnote renumbered and revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

procedures described in paragraphs .16–.17 of AU-C section 402. These procedures include one or more of the following:

- a. Obtaining and reading a service auditor's report on management's description of a service organization's system and the suitability of the design and operating effectiveness of controls, which includes a description of the service auditor's tests of controls and results (a type 2 report),³⁸ if available
- b. Performing appropriate tests of controls at the service organization
- c. Using another auditor to perform tests of controls at the service organization on behalf of the auditor

[Revised, August 2011, to reflect conforming changes necessary due to the issuance of SSAE No. 16. Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.146 If the auditor plans to use a type 2 report as audit evidence that controls are operating effectively, the auditor should determine whether the type 2 report provides sufficient appropriate audit evidence about the effectiveness of the controls to support his or her opinion on internal control by evaluating³⁹

- the time period covered by the tests of controls and its relation to the as-of date of management's assertion.
- the scope of the services auditor's work and the services and processes covered, the controls tested, and the tests that were performed and the way in which tested controls relate to the entity's controls.
- the results of those tests of controls and the service auditor's opinion on the operating effectiveness of the controls.

[Revised, August 2011, to reflect conforming changes necessary due to the issuance of SSAE No. 16. Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.147 If the service auditor's type 2 report contains a statement indicating that the control objectives stated in the description can be achieved only if complementary user entity controls are suitably designed and operating effectively, along with the controls at the service organization, the auditor should determine whether the entity has designed and implemented such controls and, if so, should test their operating effectiveness. [Revised, August 2011, to reflect conforming changes necessary due to the issuance of SSAE No. 16. Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.148 In determining whether the type 2 service auditor's report provides sufficient appropriate evidence to support the auditor's opinion on internal control, the auditor should be satisfied regarding the following:

³⁸ A report on management's description of a service organization's system and the suitability of the design of controls (a type 1 report) does not include a description of the service auditor's tests of controls and results of those tests or the service auditor's opinion on the operating effectiveness of controls and therefore does not provide evidence of the operating effectiveness of controls. Type 1 and type 2 reports are defined in paragraph .07 of section 801, *Reporting on Controls at a Service Organization*. [Footnote renumbered and revised, August 2011, to reflect conforming changes necessary due to the issuance of SSAE No. 16. Footnote renumbered, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

³⁹ These factors are similar to factors the auditor would consider in determining whether the report provides sufficient appropriate evidence to support the auditor's assessed level of control risk in an audit of the financial statements, as described in paragraph A32 of AU-C section 402. [Footnote renumbered, August 2011, to reflect conforming changes necessary due to the issuance of SSAE No. 16. Footnote renumbered and revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

- The service auditor's professional competence and independence from the service organization. Appropriate sources of information concerning the service auditor's professional competence and independence are discussed in paragraphs .A21–.A22 of AU-C section 402.
- The adequacy of the standards under which the type 2 report was issued.

[Revised, August 2011, to reflect conforming changes necessary due to the issuance of SSAE No. 16. Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.149 When a significant period of time has elapsed between the time period covered by the tests of controls in the service auditor's report and the date specified in management's assertion, additional procedures should be performed. The auditor should inquire of management to determine whether management has identified any changes in the service organization's controls subsequent to the period covered by the service auditor's report (such as changes communicated to management from the service organization, changes in personnel at the service organization with whom management interacts, changes in reports or other data received from the service organization, changes in contracts or service level agreements with the service organization, or errors identified in the service organization's processing). If management has identified such changes, the auditor should evaluate the effect of such changes on the effectiveness of the entity's internal control. The auditor also should evaluate whether the results of other procedures he or she performed indicate that there have been changes in the controls at the service organization.

.150 As risk increases, the need for the auditor to obtain additional evidence increases. Accordingly, the auditor should determine whether to obtain additional evidence about the operating effectiveness of controls at the service organization based on the procedures performed by management or the auditor and the results of those procedures and on an evaluation of the following risk factors:

- The elapsed time between the time period covered by the tests of controls in the service auditor's report and the date specified in management's assertion
- The significance of the activities of the service organization
- Whether there are errors that have been identified in the service organization's processing
- The nature and significance of any changes in the service organization's controls identified by management or the auditor

.151 If the auditor concludes that additional evidence about the operating effectiveness of controls at the service organization is required, the auditor's additional procedures might include

- evaluating procedures performed by management and the results of those procedures.
- contacting the service organization, through the user entity, to obtain specific information.
- requesting that a service auditor be engaged to perform procedures that will supply the necessary information.
- visiting the service organization and performing such procedures.

.152 The auditor should not refer to the service auditor's report when expressing an opinion on internal control.

Benchmarking of Automated Controls

.153 Entirely automated application controls are generally less susceptible to breakdowns due to human failure. This feature may allow the auditor to use a benchmarking strategy.

.154 If general controls over program changes, access to programs, and computer operations are effective and continue to be tested, and if the auditor verifies that the automated application control has not changed since the auditor established a baseline (that is, last tested the application control), the auditor may conclude that the automated application control continues to be effective without repeating the prior year's specific tests of the operation of the automated application control. The nature and extent of the evidence that the auditor should obtain to verify that the control has not changed may vary depending on the circumstances, including the strength of the entity's program change controls.

.155 The consistent and effective functioning of the automated application controls may be dependent upon the related files, tables, data, and parameters. For example, an automated application for calculating interest income might be dependent on the continued integrity of a rate table used by the automated calculation.

.156 To determine whether to use a benchmarking strategy, the auditor should assess the following risk factors. As these factors indicate lower risk, the control being evaluated might be well-suited for benchmarking. As these factors indicate increased risk, the control being evaluated is less suited for benchmarking. These factors are

- the extent to which the application control can be matched to a defined program within an application.
- the extent to which the application is stable (that is, there are few changes from period to period).
- the availability and reliability of a report of the compilation dates of the programs placed in production. (This information may be used as evidence that controls within the program have not changed.)

.157 Benchmarking automated application controls can be especially effective for entities using purchased software when the possibility of program changes is remote (for example, when the vendor does not allow access or modification to the source code).

.158 After a period of time, the length of which depends upon the circumstances, the baseline of the operation of an automated application control should be reestablished. To determine when to reestablish a baseline, the auditor should evaluate the following factors:

- The effectiveness of the IT control environment, including controls over application and system software acquisition and maintenance, access controls, and computer operations.
- The auditor's understanding of the nature of changes, if any, on the specific programs that contain the controls.
- The nature and timing of other related tests.
- The consequences of errors associated with the application control that was benchmarked.
- Whether the control is sensitive to other business factors that may have changed. For example, an automated control may have been

designed with the assumption that only positive amounts will exist in a file. Such a control would no longer be effective if negative amounts (credits) begin to be posted to the account.

Integration With the Financial Statement Audit

Tests of Controls in an Examination of Internal Control

.159 The objective of the tests of controls in an examination of internal control is to obtain evidence about the effectiveness of controls to support the auditor's opinion on the entity's internal control. The auditor's opinion relates to the effectiveness of the entity's internal control as of a point in time and taken as a whole.

.160 To express an opinion on internal control as of a point in time, the auditor should obtain evidence that internal control has operated effectively for a sufficient period of time, which may be less than the entire period (ordinarily one year) covered by the entity's financial statements. To express an opinion on internal control taken as a whole, the auditor should obtain evidence about the effectiveness of selected controls over all relevant assertions. This entails testing the design and operating effectiveness of controls ordinarily not tested when expressing an opinion only on the financial statements.

.161 When concluding on the effectiveness of internal control for purposes of expressing an opinion on internal control, the auditor should incorporate the results of any additional tests of controls performed to achieve the objective related to expressing an opinion on the financial statements, as discussed in the following section.

Tests of Controls in an Audit of Financial Statements

.162 To express an opinion on the financial statements, the auditor ordinarily performs tests of controls and substantive procedures. Tests of controls are performed when the auditor's risk assessment includes an expectation of the operating effectiveness of controls or when substantive procedures alone do not provide sufficient appropriate audit evidence at the relevant assertion level.⁴⁰ Tests of controls are designed to obtain sufficient appropriate audit evidence that the controls are operating effectively throughout the period of reliance.⁴¹ However, the auditor is not required to test controls for all relevant assertions and, for a variety of reasons, the auditor may choose not to do so.

.163 When concluding on the effectiveness of controls for the purpose of the financial statement audit, the auditor also should evaluate the results of any additional tests of controls performed by the auditor to achieve the objective related to expressing an opinion on the entity's internal control, as discussed in paragraph .160. Consideration of these results may cause the auditor to alter the nature, timing, and extent of substantive procedures and to plan and perform further tests of controls, particularly in response to identified deficiencies.

⁴⁰ See paragraph .18 of AU-C section 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*. [Footnote renumbered, August 2011, to reflect conforming changes necessary due to the issuance of SSAE No. 16. Footnote renumbered and revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

⁴¹ See paragraph .11 of AU-C section 330. [Footnote renumbered, August 2011, to reflect conforming changes necessary due to the issuance of SSAE No. 16. Footnote renumbered and revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126. Footnote revised, July 2013, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Effect of Tests of Controls on Substantive Procedures

.164 If, during the examination of internal control, the auditor identifies a deficiency, he or she should determine the effect of the deficiency, if any, on the nature, timing, and extent of substantive procedures to be performed to reduce audit risk in the audit of the financial statements to an appropriately low level.

.165 Regardless of the assessed risk of material misstatement in connection with the audit of the financial statements, the auditor should perform substantive procedures for all relevant assertions related to each material class of transactions, account balance, and disclosure.⁴² Performing procedures to express an opinion on internal control does not diminish this requirement. [Footnote renumbered, August 2011, to reflect conforming changes necessary due to the issuance of SSAE No. 16.]

Effect of Substantive Procedures on Conclusions About the Operating Effectiveness of Controls

.166 In an examination of internal control, the auditor should evaluate the effect of the findings of the substantive procedures performed in the audit of financial statements on the effectiveness of internal control. This evaluation should include, at a minimum

- the risk assessments in connection with the selection and application of substantive procedures, especially those related to fraud.
- findings with respect to illegal acts and related party transactions.
- indications of management bias in making accounting estimates and in selecting accounting principles.
- misstatements detected by substantive procedures. The extent of such misstatements might alter the auditor's judgment about the effectiveness of controls.

.167 To obtain evidence about whether a selected control is effective, the control should be tested directly; the operating effectiveness of a control cannot be inferred from the absence of misstatements detected by substantive procedures. The absence of misstatements detected by substantive procedures, however, may affect the auditor's risk assessments in determining the testing necessary to conclude on the operating effectiveness of a control.

Effective Date

.168 This section is effective for integrated audits for periods ending on or after December 15, 2008. Earlier implementation is permitted.

⁴² See paragraphs .18 and .A45 of AU-C section 330. [Footnote renumbered, August 2011, to reflect conforming changes necessary due to the issuance of SSAE No. 16. Footnote renumbered and revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.169

Exhibit A—Illustrative Reports

1. The following illustrate the report elements described in this section. These illustrative reports refer to an examination; however, the auditor may refer to the examination of internal control as an audit.¹

2. Report modifications are discussed beginning at paragraph .115 of this section.

Example 1: Unqualified Opinion on Internal Control

3. The following is an illustrative report expressing an unqualified opinion directly on internal control.

Independent Auditor's Report

[Introductory paragraph]

We have examined W Company's internal control over financial reporting as of December 31, 20XX, based on *[identify criteria]*.² W Company's management is responsible for maintaining effective internal control over financial reporting, and for its assertion about the effectiveness of internal control over financial reporting, included in the accompanying *[title of management's report]*. Our responsibility is to express an opinion on W Company's internal control over financial reporting based on our examination.

[Scope paragraph]

We conducted our examination in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our examination included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our examination also included performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Definition paragraph]

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as

¹ Because the examination of internal control is integrated with the audit of the financial statements and an examination provides the same level of assurance as an audit, the auditor may refer to the examination of internal control as an audit in his or her report or other communications.

² For example, the following may be used to identify the criteria: "criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."

necessary to permit preparation of financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America], and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Opinion paragraph]

In our opinion, W Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20XX, based on [identify criteria].

[Audit of financial statements paragraph]

We also have audited, in accordance with auditing standards generally accepted in the United States of America, the [identify financial statements] of W Company and our report dated [date of report, which should be the same as the date of the report on the examination of internal control] expressed [include nature of opinion].

[Signature]

[Date]

Example 2: Unqualified Opinion on Management's Assertion

4. The following is an illustrative report expressing an unqualified opinion on management's assertion.

Independent Auditor's Report

[Introductory paragraph]

We have examined management's assertion, included in the accompanying [title of management report], that W Company maintained effective internal control over financial reporting as of December 31, 20XX based on [identify criteria].³ W Company's management is responsible for maintaining effective internal control over financial reporting, and for its assertion about the effectiveness of internal control over financial reporting, included in the accompanying [title of management's report]. Our responsibility is to express an opinion on management's assertion based on our examination.

[Scope paragraph]

We conducted our examination in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable

³ See footnote 2 of this exhibit.

assurance about whether effective internal control over financial reporting was maintained in all material respects. Our examination included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our examination also included performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Definition paragraph]

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Opinion paragraph]

In our opinion, management's assertion that W Company maintained effective internal control over financial reporting as of December 31, 20XX is fairly stated, in all material respects, based on *[identify criteria]*.

[Audit of financial statements paragraph]

We also have audited, in accordance with auditing standards generally accepted in the United States of America, the *[identify financial statements]* of W Company and our report dated *[date of report, which should be the same as the date of the report on the examination of internal control]* expressed *[include nature of opinion]*.

[Signature]

[Date]

Example 3: Adverse Opinion on Internal Control

5. The following is an illustrative report expressing an adverse opinion on internal control. In this example, the opinion on the financial statements is not affected by the adverse opinion on internal control.

Independent Auditor's Report*[Introductory paragraph]*

We have examined W Company's internal control over financial reporting as of December 31, 20XX, based on *[identify criteria]*.⁴ W Company's management is responsible for maintaining effective internal control over financial reporting, and for its assertion about the effectiveness of internal control over financial reporting, included in the accompanying *[title of management's report]*. Our responsibility is to express an opinion on W Company's internal control over financial reporting based on our examination.

[Scope paragraph]

We conducted our examination in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our examination included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our examination also included performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Definition paragraph]

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Explanatory paragraph]

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility

⁴ See footnote 2 of this exhibit.

that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. The following material weakness has been identified and included in the accompanying [title of management's report].

[Identify the material weakness described in management's report.]⁵

[Opinion paragraph]

In our opinion, because of the effect of the material weakness described above on the achievement of the objectives of the control criteria, W Company has not maintained effective internal control over financial reporting as of December 31, 20XX, based on [identify criteria].

[Audit of financial statements paragraph]

We also have audited, in accordance with auditing standards generally accepted in the United States of America, the [identify financial statements] of W Company. We considered the material weakness identified above in determining the nature, timing, and extent of audit tests applied in our audit of the 20XX financial statements, and this report does not affect our report dated [date of report, which should be the same as the date of the report on the examination of internal control], which expressed [include nature of opinion].

[Signature]

[Date]

Example 4: Disclaimer of Opinion on Internal Control

6. The following is an illustrative report expressing a disclaimer of opinion on internal control. In this example, the auditor is applying paragraph .119 of this section because a material weakness was identified during the limited procedures performed by the auditor.

Independent Auditor's Report

[Introductory paragraph]

We were engaged to examine W Company's internal control over financial reporting as of December 31, 20XX, based on [identify criteria].⁶ W Company's management is responsible for maintaining effective internal control over financial reporting, and for its assertion about the effectiveness of internal control over financial reporting, included in the accompanying [title of management's report].

[Paragraph that describes the substantive reasons for the scope limitation] Accordingly, we were unable to perform auditing procedures necessary to form an opinion on W Company's internal control over financial reporting as of December 31, 20XX.

[Definition paragraph]

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed

⁵ See paragraphs .111–.114 of this section for specific reporting requirements. The auditor's report need only refer to the material weaknesses described in management's report and need not include a description of each material weakness, provided each material weakness is included and fairly presented in all material respects in management's report.

⁶ See footnote 2 of this exhibit.

to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Explanatory paragraph]

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. If one or more material weaknesses exist, an entity's internal control over financial reporting cannot be considered effective. The following material weakness has been identified and included in the accompanying *[title of management's report]*.

[Identify the material weakness described in management's report and include a description of the material weakness, including its nature and its actual and potential effect on the presentation of the entity's financial statements issued during the existence of the material weakness.]

[Opinion paragraph]

Because of the limitation on the scope of our audit described in the second paragraph, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on the effectiveness W Company's internal control over financial reporting.

[Audit of financial statements paragraph]

We have audited, in accordance with auditing standards generally accepted in the United States of America, the *[identify financial statements]* of W Company and our report dated *[date of report]* expressed *[include nature of opinion]*. We considered the material weakness identified above in determining the nature, timing, and extent of audit tests applied in our audit of the 20XX financial statements, and this report does not affect such report on the financial statements.

[Signature]

[Date]

Example 5: Unqualified Opinion on Internal Control Based, in Part, on the Report of Another Auditor

7. The following is an illustrative report expressing an unqualified opinion on internal control when the auditor decides to refer to the report of another auditor as the basis, in part, for the auditor's own report.

Independent Auditor's Report

[Introductory paragraph]

We have examined W Company's internal control over financial reporting as of December 31, 20XX, based on *[identify criteria]*.⁷ W Company's management is responsible for maintaining effective internal control over financial reporting, and for its assertion about the effectiveness of internal control over financial reporting, included in the accompanying *[title of management's report]*. Our responsibility is to express an opinion on W Company's internal control over financial reporting based on our examination. We did not examine the effectiveness of internal control over financial reporting of B Company, a wholly owned subsidiary, whose financial statements reflect total assets and revenues constituting 20 percent and 30 percent, respectively, of the related consolidated financial statement amounts as of and for the year ended December 31, 20XX. The effectiveness of B Company's internal control over financial reporting was examined by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the effectiveness of B Company's internal control over financial reporting, is based solely on the report of the other auditors.

[Scope paragraph]

We conducted our examination in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our examination included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our examination also included performing such other procedures as we considered necessary in the circumstances. We believe that our examination and the report of the other auditors provide a reasonable basis for our opinion.

[Definition paragraph]

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with *[applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]*, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance

⁷ See footnote 2 of this exhibit.

regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Opinion paragraph]

In our opinion, based on our examination and the report of the other auditors, W Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20XX, based on *[identify criteria]*.⁸

[Audit of financial statements paragraph]

We also have audited, in accordance with auditing standards generally accepted in the United States of America, the *[identify financial statements]* of W Company and our report dated *[date of report, which should be the same as the date of the report on the examination of internal control]* expressed *[include nature of opinion]*.

[Signature]

[Date]

Example 6: Combined Report Expressing an Unqualified Opinion on Internal Control and an Unmodified Opinion on the Financial Statements

8. The following is an illustrative combined report expressing an unqualified opinion directly on internal control and an unmodified opinion on the financial statements. This report refers to the examination of internal control as an audit.⁹

Independent Auditor's Report

[Appropriate Addressee]

We have audited the accompanying financial statements of W Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income, changes in stockholder's equity, and cash flows for the year then ended, and the related notes to the financial statements. We also have audited W Company's internal control over financial reporting as of December 31, 20XX, based on *[identify criteria]*.¹⁰

Management's Responsibility for the Financial Statements and Internal Control Over Financial Reporting

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of effective internal control over financial reporting relevant to the preparation and fair presentation of these financial statements that are

⁸ As discussed in paragraph .125 of this section, whether the other auditor's opinion is expressed on management's assertion or on internal control does not affect the determination of whether the principal auditor's opinion is expressed on management's assertion or on internal control.

⁹ See footnote 1 of this exhibit.

¹⁰ See footnote 2 of this exhibit.

free from material misstatement, whether due to error of fraud. Management is also responsible for its assertion about the effectiveness of internal control over financial reporting, included in the accompanying [*title of management's report*].

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements and an opinion on W Company's internal control over financial reporting based on our audits. We conducted our audit of the financial statements in accordance with auditing standards generally accepted in the United States of America and our audit of internal control over financial reporting in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement and whether effective internal control over financial reporting was maintained in all material respects.

An audit of financial statements involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit of financial statements also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. An audit of internal control over financial reporting involves obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control over financial reporting based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances.

We believe that the audit evidence we obtained is sufficient and appropriate to provide a basis for our audit opinions.

Definitions and Inherent Limitations of Internal Control Over Financial Reporting

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with [*applicable financial reporting framework, such as accounting principles generally accepted in the United States of America*]. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with [*applicable financial reporting framework, such as accounting principles generally accepted in the United States of America*], and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct misstatements. Also, projections of any

evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of W Company as of December 31, 20XX, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. Also in our opinion, W Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20XX, based on *[identify criteria]*.

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

[Revised, December 2012 and July 2013, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Exhibit B—Illustrative Communication of Significant Deficiencies and Material Weaknesses

1. The following is an illustrative written communication of significant deficiencies and material weaknesses.

In connection with our audit of W Company's (the "Company") financial statements as of December 31, 20XX and for the year then ended, and our audit of the Company's internal control over financial reporting as of December 31, 20XX ("integrated audit"), the standards established by the American Institute of Certified Public Accountants require that we advise you of the following internal control matters identified during our integrated audit.

Our responsibility is to plan and perform our integrated audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud, and whether effective internal control over financial reporting was maintained in all material respects (that is, whether material weaknesses exist as of the date specified in management's assertion). The integrated audit is not designed to detect deficiencies that, individually or in combination, are less severe than a material weakness. However, we are responsible for communicating to management and those charged with governance significant deficiencies and material weaknesses identified during the integrated audit. We are also responsible for communicating to management deficiencies that are of a lesser magnitude than a significant deficiency, unless previously communicated, and inform those charged with governance when such a communication was made.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *[A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's financial statements will not be prevented, or detected and corrected on a timely basis. We believe the following deficiencies constitute material weaknesses:]*

[Describe the material weaknesses that were identified during the integrated audit. The auditor may separately identify those material weaknesses that exist as of the date of management's assertion by referring to the auditor's report.]

[A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies to be significant deficiencies:]

[Describe the significant deficiencies that were identified during the integrated audit.]

This communication is intended solely for the information and use of management, *[identify the body or individuals charged with governance]*, others within the organization, and *[identify any specified governmental authorities]* and is not intended to be and should not be used by anyone other than these specified parties.

.171

Exhibit C—Reporting Under Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA)

1. In Financial Institution Letter (FIL) 86-94, *Additional Guidance Concerning Annual Audits, Audit Committees and Reporting Requirements*, issued December 23, 1994, the Federal Deposit Insurance Corporation (FDIC) provided guidance on the meaning of the term *financial reporting* for purposes of compliance by insured depository institutions (IDIs) with Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA) (Section 36 of the Federal Deposit Insurance Act, 12.U.S.C. 1831m), and its implementing regulation, 12 CFR Part 363. The FDIC indicated that financial reporting, at a minimum, includes financial statements prepared in accordance with generally accepted accounting principles (GAAP) and the schedules equivalent to the basic financial statements that are included in the IDI's appropriate regulatory report (for example, Schedules RC, RI, and RI-A in the Consolidated Reports of Condition and Income [Call Report]). Accordingly, to comply with FDICIA and Part 363, management of the IDI (or a parent holding company)¹ and the auditor should identify and test controls over the preparation of GAAP-based financial statements as well as the schedules equivalent to the basic financial statements that are included in the IDI's (or its holding company's) appropriate regulatory report. Further, both management and the auditor should include in their report on the IDI's (or its holding company's) internal control a specific description indicating that the scope of internal control included controls over the preparation of the IDI's (or its holding company's) GAAP-based financial statements as well as the schedules equivalent to the basic financial statements that are included in the IDI's (or its holding company's) appropriate regulatory report.

2. In accordance with paragraph .107 of this section, the auditor's report should include a definition of internal control (the auditor should use the same description of the entity's internal control as management uses in its report). The following is an illustrative definition paragraph that may be used when an IDI that is a bank (which is not subject to Section 404 of the Sarbanes-Oxley Act of 2002) elects to report on controls for FDICIA purposes at the bank holding company level:

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with accounting principles generally accepted in the United States of America. Because management's assessment and our examination were conducted to meet the reporting requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA), our examination of [*Holding Company's*] internal control over financial reporting included controls over the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America and with the instructions to the Consolidated Financial Statements for Bank

¹ See Financial Institution Letter (FIL) 86-94 for further discussion of reporting at the holding company level for Federal Deposit Insurance Corporation Improvement Act purposes and the application of holding company reporting as it relates to controls over the preparation of "regulatory reports."

Holding Companies (Form FR Y-9C).² An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

² This sentence would be modified if the insured depository institution (IDI) reports at the institution level rather than at the bank holding company level to refer to the Federal Financial Institutions Examination Council Instructions for Consolidated Reports of Condition and Income or the Office of Thrift Supervision Instructions for Thrift Financial Reports instead of to the Form FR Y-9C. This sentence would also be modified if the IDI reports at a holding company level and employs another approach to reporting on controls over the preparation of regulatory reports as permitted by FIL 86-94.

.172

Exhibit D—Illustrative Management Report

1. The following is an illustrative management report containing the reporting elements described in paragraph .95 of this section:

Management's Report on Internal Control Over Financial Reporting

W Company's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with [*applicable financial reporting framework, such as accounting principles generally accepted in the United States of America*]. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with [*applicable financial reporting framework, such as accounting principles generally accepted in the United States of America*], and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Management is responsible for establishing and maintaining effective internal control over financial reporting. Management assessed the effectiveness of W Company's internal control over financial reporting as of December 31, 20XX, based on the framework set forth by the Committee of Sponsoring Organizations of the Treadway Commission in *Internal Control—Integrated Framework*. Based on that assessment, management concluded that, as of December 31, 20XX, W Company's internal control over financial reporting is effective based on the criteria established in *Internal Control—Integrated Framework*.

AT Section 9501

An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements: Attest Engagements Interpretations of Section 501

1. Reporting Under Section 112 of the Federal Deposit Insurance Corporation Improvement Act

.01 Question—For purposes of compliance by insured depository institutions (IDIs) with Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA) (Section 36, Independent Annual Audits of Insured Depository Institutions, of the Federal Deposit Insurance Act [*Banks and Banking, U.S. Code* Title 12, Section 1831m]) and its implementing regulation, Title 12 U.S. Code of Federal Regulations (CFR) Part 363, an IDI that is a subsidiary of a holding company may use the consolidated holding company's financial statements to satisfy the audited financial statements requirement of 12 CFR 363, provided certain criteria are met.¹ For some IDIs, however, an examination of internal control over financial reporting is required at the IDI level. Paragraph .18 of section 501, *An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements*, requires that an examination of internal control over financial reporting (internal control) be integrated with an audit of financial statements. For IDIs that require an examination of internal control at the IDI level, can the auditor meet the integrated audit requirement when the IDI does not prepare financial statements for external distribution? If so, how can the auditor report on the effectiveness of the IDI's internal control over financial reporting?

.02 Interpretation—To comply with the integrated audit requirement in section 501, when the IDI uses the consolidated holding company's financial statements to satisfy the audited financial statements requirement of 12 CFR 363, the auditor would be required to perform procedures necessary to obtain sufficient appropriate audit evidence to enable the auditor to express an opinion on the IDI's financial statements and on its internal control over financial reporting. When the IDI does not prepare financial statements for external distribution, "financial statements" for this purpose may consist of the IDI's financial information in a reporting package or equivalent schedules and analyses that include the IDI information necessary for the preparation of the holding company's consolidated financial statements, including disclosures. The measurement of materiality is determined based on the IDI's financial information rather than the consolidated holding company's financial statements.² If the

¹ Refer to Section 36 of the Federal Deposit Insurance Act (FDI Act), Section 363.1: Scope and Definitions, for the requirements pertaining to compliance by subsidiaries of holding companies.

² See paragraph .10 of AU-C section 320, *Materiality in Planning and Performing an Audit*. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

auditor is unable to apply the procedures necessary to obtain sufficient appropriate audit evidence with respect to the IDI's financial information, the auditor is required by paragraph .117 of section 501 to withdraw from the engagement or disclaim an opinion on the effectiveness of the IDI's internal control over financial reporting.

.03 As indicated in exhibit C, "Reporting Under Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA)," of section 501, the FDIC indicated that financial reporting, at a minimum, includes financial statements prepared in accordance with generally accepted accounting principles (GAAP) and the schedules equivalent to the basic financial statements that are included in the IDI's appropriate regulatory report (for example, Schedules RC, RI, and RI-A in the Consolidated Reports of Condition and Income [call report]). When the IDI does not prepare financial statements for external distribution, the auditor is, nevertheless, required by paragraph .41 of section 501 to evaluate the IDI's period-end financial reporting process. This process includes, among other things, the IDI's procedures for preparing financial information for purposes of the consolidated holding company's financial statements, which are prepared in accordance with GAAP, and the schedules equivalent to the basic financial statements that are included in the IDI's appropriate regulatory report.

.04 The period-end financial reporting process may occur either at the IDI or the holding company, or both. The organizational structure, including where the controls relevant to the IDI's financial information operate, may affect how the auditor evaluates this process. For example,

- a. when the period-end financial reporting process occurs at the holding company and the IDI comprises substantially all of the consolidated total assets, there may be no distinguishable difference between the IDI's and its holding company's process for purposes of the integrated audit. This is because the auditor's risk assessment, including the determination of significant accounts and disclosures and relevant assertions, the selection of controls to test, and the determination of the evidence necessary to conclude on the effectiveness of a given control, would likely be the same for the IDI and the holding company.³ In this circumstance, the period-end financial reporting process of the holding company would be, in effect, the period-end financial reporting process of the IDI and, therefore, would be included in the scope of the integrated audit of the IDI.
- b. when the period-end financial reporting process occurs at the holding company and the IDI does not comprise substantially all of the consolidated total assets, the IDI's financial reporting process may be sufficient for the auditor to meet the requirement in paragraph .41 of section 501, if the necessary GAAP information is prepared by the IDI or the holding company, and the process can be evaluated by the auditor. The auditor may determine that the IDI's preparation of the IDI's appropriate regulatory report, together with other financial information at the IDI level that is incorporated into the consolidated holding company's financial statements, is sufficient for this purpose. In this circumstance, both the period-end financial reporting process of the holding company, as it relates to the financial information of the IDI, and the period-end financial reporting process of the IDI, with respect to the preparation of the schedules equivalent to the basic financial statements that are

³ See paragraph .23 of section 501, *An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements*.

included in the IDI's appropriate regulatory report, would be included in the scope of the integrated audit of the IDI.

.05 The illustrative reports in exhibit A, "Illustrative Reports," of section 501 may be used to report on the effectiveness of the IDI's internal control over financial reporting. Because 12 CFR 363 does not require the auditor to issue a separate auditor's report on the IDI's financial statements, the requirement in paragraph .109 of section 501 to add a paragraph to the internal control report that references the financial statement audit will not apply when the auditor does not issue a separate auditor's report on the IDI's financial statements. In accordance with paragraph .107 of section 501, the auditor's report on internal control is required to include a definition of *internal control* that uses the same description of internal control as management uses in its report. The following is an illustrative definition paragraph that may be used when an IDI that is not subject to Section 404 of the Sarbanes-Oxley Act of 2002 elects to report on controls for FDICIA purposes at the IDI level, and the IDI uses the consolidated holding company's financial statements to satisfy the audited financial statements requirement of 12 CFR 363:

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with generally accepted accounting principles. Because management's assessment and our examination were conducted to meet the reporting requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA), our examination of [IDI's] internal control over financial reporting included controls over the preparation of financial information for purposes of [consolidated holding company's] financial statements in accordance with accounting principles generally accepted in the United States of America and controls over the preparation of schedules equivalent to basic financial statements in accordance with the Federal Financial Institutions Examination Council Instructions for Consolidated Reports of Condition and Income (call report instructions). An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

.06 Management may evaluate and report on the effectiveness of the IDI's internal control based on the Committee of Sponsoring Organizations of the Treadway Commission's (COSO) report, *Internal Control—Integrated Framework*. Because COSO establishes control objectives relating to the preparation of reliable "published" financial statements, the COSO criteria, as modified for purposes of reporting under Section 112 of FDICIA, is appropriate only for the IDI and its regulatory agencies. Accordingly, the report is required to be restricted as to use.⁴ An example of such a restriction is as follows:

⁴ Paragraph .78 of section 101, *Attest Engagements*, requires the report to be restricted as to use "when the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can

(continued)

This report is intended solely for the information and use of management, [identify the body or individuals charged with governance], others within the organization, the Federal Deposit Insurance Corporation and [other federal bank regulatory agency] and is not intended to be and should not be used by anyone other than these specified parties.

.07 Likewise, the auditor's report and management's assertion refer to the modified COSO criteria. For example, the following may be used to identify the criteria: "criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) as modified for the express purpose of meeting the regulatory requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA)."

[Issue Date: September 2010.]

(footnote continued)

be presumed to have an adequate understanding of the criteria." Although reports on internal control issued in accordance with this interpretation are required to be restricted as to use, Section 36 of the FDI Act and Title 12 U.S. *Code of Federal Regulations* Part 363 require that these reports be available for public inspection.

AT Section 601

Compliance Attestation

Source: SSAE No. 10.

Effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001. Earlier application is permitted.

Introduction and Applicability

.01 This section provides guidance for engagements related to either (a) an entity's compliance with requirements of specified laws, regulations, rules, contracts, or grants or (b) the effectiveness of an entity's internal control over compliance with specified requirements.¹ Compliance requirements may be either financial or nonfinancial in nature. An attest engagement conducted in accordance with this section should comply with the general, fieldwork, and reporting standards established in section 50, *SSAE Hierarchy*, and the specific standards set forth in this section. [Revised, November 2006, to reflect conforming changes necessary due to the issuance of SSAE No. 14.]

.02 This section does not—

- a. Affect the auditor's responsibility in an audit of financial statements performed in accordance with generally accepted auditing standards (GAAS).
- b. Apply to situations in which an auditor reports on specified compliance requirements based solely on an audit of financial statements, as addressed in AU-C section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements*.
- c. Apply to engagements for which the objective is to report in accordance with AU-C section 935, *Compliance Audits*, unless the terms of the engagement specify an attest report under this section.
- d. Apply to engagements covered by AU-C section 920, *Letters for Underwriters and Certain Other Requesting Parties*.
- e. Apply to the report that encompasses internal control over compliance for a broker or dealer in securities as required by rule 17a-5 of the Securities Exchange Act of 1934 (the 1934 Act).²

[Revised, December 2010, to reflect conforming changes necessary due to the issuance of SAS No. 117. Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

¹ Throughout this section—

- a. An entity's compliance with requirements of specified laws, regulations, rules, contracts, or grants is referred to as *compliance with specified requirements*.
- b. An entity's internal control over compliance with specified requirements is referred to as its *internal control over compliance*. The internal control addressed in this section may include parts of but is not the same as internal control over financial reporting.

² An example of this report is contained in AICPA Audit and Accounting Guide *Brokers and Dealers in Securities*.

.03 A report issued in accordance with the provisions of this section does not provide a legal determination of an entity's compliance with specified requirements. However, such a report may be useful to legal counsel or others in making such determinations.

Scope of Services

.04 The practitioner may be engaged to perform agreed-upon procedures to assist users in evaluating the following subject matter (or assertions related thereto)—

- a. The entity's compliance with specified requirements
- b. The effectiveness of the entity's internal control over compliance³
- c. Both the entity's compliance with specified requirements and the effectiveness of the entity's internal control over compliance

The practitioner also may be engaged to examine the entity's compliance with specified requirements or a written assertion thereon.

.05 An important consideration in determining the type of engagement to be performed is expectations by users of the practitioner's report. Since the users decide the procedures to be performed in an agreed-upon procedures engagement, it often will be in the best interests of the practitioner and users (including the client) to have an agreed-upon procedures engagement rather than an examination engagement. When deciding whether to accept an examination engagement, the practitioner should consider the risks discussed in paragraphs .31–.35.

.06 A practitioner may be engaged to examine the effectiveness of the entity's internal control over compliance or an assertion thereon. However, in accordance with section 50, the practitioner cannot accept an engagement unless he or she has reason to believe that the subject matter is capable of reasonably consistent evaluation against criteria that are suitable and available to users.⁴ If a practitioner determines that such criteria do exist for internal

³ An entity's internal control over compliance is the process by which management obtains reasonable assurance of compliance with specified requirements. Although the comprehensive internal control may include a wide variety of objectives and related policies and procedures, only some of these may be relevant to an entity's compliance with specified requirements. (See footnote 1b.) The components of internal control over compliance vary based on the nature of the compliance requirements. For example, internal control over compliance with a capital requirement would generally include accounting procedures, whereas internal control over compliance with a requirement to practice nondiscriminatory hiring may not include accounting procedures.

⁴ Criteria issued by regulatory agencies and other groups composed of experts that follow due-process procedures, including exposure of the proposed criteria for public comment, ordinarily should be considered suitable criteria for this purpose. For example, the Committee of Sponsoring Organizations (COSO) of the Treadway Commission's Report, *Internal Control—Integrated Framework*, provides suitable criteria against which management may evaluate and report on the effectiveness of the entity's internal control. However, more detailed criteria relative to specific compliance requirements may have to be developed and an appropriate threshold for measuring the severity of control deficiencies needs to be developed in order to apply the concepts of the COSO report to internal control over compliance.

Criteria established by a regulatory agency that does not follow such due-process procedures also may be considered suitable criteria for use by the regulatory agency. The practitioner should determine whether such criteria are suitable for general use reporting by evaluating them against the attributes in paragraph .24 of section 101. If the practitioner determines that such criteria are suitable for general use reporting, those criteria should also be available to users as discussed in paragraph .33 of section 101.

If the practitioner concludes that the criteria are appropriate only for a limited number of parties or are available only to specified parties, the practitioner's report shall state that the use of the report is restricted to those parties specified in the report. (See paragraphs .30, .34, and .78–.83 of section 101.)

control over compliance, he or she should perform the engagement in accordance with section 101, *Attest Engagements*. Additionally, section 501, *An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements*, may be helpful to a practitioner in such an engagement. [Revised, November 2006, to reflect conforming changes necessary due to the issuance of SSAE No. 14.]

.07 A practitioner should not accept an engagement to perform a review, as defined in paragraph .55 of section 101, of an entity's compliance with specified requirements or about the effectiveness of an entity's internal control over compliance or an assertion thereon.

.08 The practitioner may be engaged to provide other types of services in connection with the entity's compliance with specified requirements or the entity's internal control over compliance. For example, management may engage the practitioner to provide recommendations on how to improve the entity's compliance or related internal control. A practitioner engaged to provide such nonattest services should refer to the guidance in CS section 100, *Consulting Services: Definitions and Standards*.

Conditions for Engagement Performance

.09 A practitioner may perform an agreed-upon procedures engagement related to an entity's compliance with specified requirements or the effectiveness of internal control over compliance if the following conditions are met.

- a. The responsible party accepts responsibility for the entity's compliance with specified requirements and the effectiveness of the entity's internal control over compliance.
- b. The responsible party evaluates the entity's compliance with specified requirements or the effectiveness of the entity's internal control over compliance.

See also section 201, *Agreed-Upon Procedures Engagements*.

.10 A practitioner may perform an examination engagement related to an entity's compliance with specified requirements if the following conditions are met.

- a. The responsible party accepts responsibility for the entity's compliance with specified requirements and the effectiveness of the entity's internal control over compliance.
- b. The responsible party evaluates the entity's compliance with specified requirements.
- c. Sufficient evidential matter exists or could be developed to support management's evaluation.

.11 As part of engagement performance, the practitioner should obtain from the responsible party a written assertion about compliance with specified requirements or internal control over compliance. The responsible party may present its written assertion in either of the following:

- a. A separate report that will accompany the practitioner's report
- b. A representation letter to the practitioner

.12 The responsible party's written assertion about compliance with specified requirements or internal control over compliance may take many forms. Throughout this section, for example, the phrase "responsible party's assertion that W Company complied with [*specify compliance requirement*] as of [*date*]," illustrates such an assertion. Other phrases may also be used. However, a practitioner should not accept an assertion that is so subjective (for example, "very effective" internal control over compliance) that people having competence in and using the same or similar criteria would not ordinarily be able to arrive at similar conclusions.

.13 Regardless of whether the practitioner's client is the responsible party, the responsible party's refusal to furnish a written assertion as part of an examination engagement should cause the practitioner to withdraw from the engagement. However, an exception is provided if an examination of an entity's compliance with specified requirements is required by law or regulation. In that instance, the practitioner should disclaim an opinion on compliance unless he or she obtains evidential matter that warrants expressing an adverse opinion. If the practitioner expresses an adverse opinion and the responsible party does not provide an assertion, the practitioner's report should be restricted as to use. (See paragraphs .78–.81 of section 101.) If, as part of an agreed-upon procedures engagement, the practitioner's client is the responsible party, a refusal by that party to provide an assertion requires the practitioner to withdraw from the engagement. However, withdrawal is not required if the engagement is required by law or regulation. If, in an agreed-upon procedures engagement, the practitioner's client is not the responsible party, the practitioner is not required to withdraw but should consider the effects of the responsible party's refusal on the engagement and his or her report.

.14 Additionally, at the beginning of the engagement, the practitioner may want to consider discussing with the client and the responsible party the need for the responsible party to provide the practitioner with a written representation letter at the conclusion of the examination engagement or an agreed-upon procedures engagement in which the client is the responsible party. In that letter, the responsible party will be asked to provide, among other possible items, an acknowledgment of their responsibility for establishing and maintaining effective internal control over compliance and their assertion stating their evaluation of the entity's compliance with specified requirements. The responsible party's refusal to furnish these representations (see paragraphs .68–.70) will constitute a limitation on the scope of the engagement.

Responsible Party

.15 The responsible party is responsible for ensuring that the entity complies with the requirements applicable to its activities. That responsibility encompasses the following.

- a. Identify applicable compliance requirements.
- b. Establish and maintain internal control to provide reasonable assurance that the entity complies with those requirements.
- c. Evaluate and monitor the entity's compliance.
- d. Specify reports that satisfy legal, regulatory, or contractual requirements.

The responsible party's evaluation may include documentation such as accounting or statistical data, entity policy manuals, accounting manuals, narrative memoranda, procedural write-ups, flowcharts, completed questionnaires, or internal auditors' reports. The form and extent of documentation will vary depending on the nature of the compliance requirements and the size and complexity of the entity. The responsible party may engage the practitioner to gather information to assist it in evaluating the entity's compliance. Regardless of the procedures performed by the practitioner, the responsible party must accept responsibility for its assertion and must not base such assertion solely on the practitioner's procedures.

Agreed-Upon Procedures Engagement

.16 The objective of the practitioner's agreed-upon procedures is to present specific findings to assist users in evaluating an entity's compliance with specified requirements or the effectiveness of an entity's internal control over compliance based on procedures agreed upon by the users of the report. A practitioner engaged to perform agreed-upon procedures on an entity's compliance with specified requirements or about the effectiveness of an entity's internal control over compliance should follow the guidance set forth herein and in section 201.

.17 The practitioner's procedures generally may be as limited or as extensive as the specified users desire, as long as the specified users (a) agree upon the procedures performed or to be performed and (b) take responsibility for the sufficiency of the agreed-upon procedures for their purposes. (See paragraph .15 of section 201.)

.18 To satisfy the requirements that the practitioner and the specified users agree upon the procedures performed or to be performed and that the specified users take responsibility for the sufficiency of the agreed-upon procedures for their purposes, ordinarily the practitioner should communicate directly with and obtain affirmative acknowledgment from each of the specified users. For example, this may be accomplished by meeting with the specified users or by distributing a draft of the anticipated report or a copy of an engagement letter to the specified users and obtaining their agreement. If the practitioner is not able to communicate directly with all of the specified users, the practitioner may satisfy these requirements by applying any one or more of the following or similar procedures.

- Compare the procedures to be applied to written requirements of the specified users.
- Discuss the procedures to be applied with appropriate representatives of the specified users involved.
- Review relevant contracts with or correspondence from the specified users.

The practitioner should not report on an engagement when specified users do not agree upon the procedures performed or to be performed and do not take responsibility for the sufficiency of the procedures for their purposes. See paragraph .36 of section 201 for guidance on satisfying these requirements when the practitioner is requested to add other parties as specified parties after the date of completion of the agreed-upon procedures.

.19 In an engagement to perform agreed-upon procedures on an entity's compliance with specified requirements or about the effectiveness of an entity's internal control over compliance, the practitioner is required to perform only

the procedures that have been agreed to by users.⁵ However, prior to performing such procedures, the practitioner should obtain an understanding of the specified compliance requirements, as discussed in paragraph .20. (See section 201.)

.20 To obtain an understanding of the specified compliance requirements, a practitioner should consider the following:

- a. Laws, regulations, rules, contracts, and grants that pertain to the specified compliance requirements, including published requirements
- b. Knowledge about the specified compliance requirements obtained through prior engagements and regulatory reports
- c. Knowledge about the specified compliance requirements obtained through discussions with appropriate individuals within the entity (for example, the chief financial officer, internal auditors, legal counsel, compliance officer, or grant or contract administrators)
- d. Knowledge about the specified compliance requirements obtained through discussions with appropriate individuals outside the entity (for example, a regulator or a third-party specialist)

.21 When circumstances impose restrictions on the scope of an agreed-upon procedures engagement, the practitioner should attempt to obtain agreement from the users for modification of the agreed-upon procedures. When such agreement cannot be obtained (for example, when the agreed-upon procedures are published by a regulatory agency that will not modify the procedures), the practitioner should describe such restrictions in his or her report or withdraw from the engagement.

.22 The practitioner has no obligation to perform procedures beyond the agreed-upon procedures. However, if noncompliance comes to the practitioner's attention by other means, such information ordinarily should be included in his or her report.

.23 The practitioner may become aware of noncompliance that occurs subsequent to the period addressed by the practitioner's report but before the date of the practitioner's report. The practitioner should consider including information regarding such noncompliance in his or her report. However, the practitioner has no responsibility to perform procedures to detect such noncompliance other than obtaining the responsible party's representation about noncompliance in the subsequent period, as described in paragraph .68.

.24 The practitioner's report on agreed-upon procedures on an entity's compliance with specified requirements (or the effectiveness of an entity's internal control over compliance) should be in the form of procedures and findings. The practitioner's report should contain the following elements:

- a. A title that includes the word *independent*
- b. Identification of the specified parties
- c. Identification of the subject matter of the engagement (or management's assertion thereon), including the period or point in time addressed and a reference to the character of the engagement⁶

⁵ AU-C section 610, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, does not apply to agreed-upon procedures engagements. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

⁶ Generally, management's assertion about compliance with specified requirements will address a *period* of time, whereas an assertion about internal control over compliance will address a *point* in time.

- d. An identification of the responsible party
- e. A statement that the subject matter is the responsibility of the responsible party
- f. A statement that the procedures, which were agreed to by the specified parties identified in the report, were performed to assist the specified parties in evaluating the entity's compliance with specified requirements or the effectiveness of its internal control over compliance
- g. A statement that the agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants
- h. A statement that the sufficiency of the procedures is solely the responsibility of the specified parties and a disclaimer of responsibility for the sufficiency of those procedures
- i. A list of the procedures performed (or reference thereto) and related findings (The practitioner should not provide negative assurance. See paragraph .24 of section 201.)
- j. Where applicable, a description of any agreed-upon materiality limits (See paragraph .25 of section 201.)
- k. A statement that the practitioner was not engaged to and did not conduct an examination of the entity's compliance with specified requirements (or the effectiveness of an entity's internal control over compliance), a disclaimer of opinion thereon, and a statement that if the practitioner had performed additional procedures, other matters might have come to his or her attention that would have been reported
- l. A statement restricting the use of the report to the specified parties
- m. Where applicable, reservations or restrictions concerning procedures or findings as discussed in paragraphs .33, .35, and .39–.40 of section 201
- n. Where applicable, a description of the nature of the assistance provided by the specialist as discussed in paragraphs .19–.21 of section 201
- o. The manual or printed signature of the practitioner's firm
- p. The date of the report

.25 The following is an illustration of an agreed-upon procedures report on an entity's compliance with specified requirements in which the procedures and findings are enumerated rather than referenced.

Independent Accountant's Report on Applying Agreed-Upon Procedures

We have performed the procedures enumerated below, which were agreed to by *[list specified parties]*, solely to assist the specified parties in evaluating *[name of entity]*'s compliance with *[list specified requirements]* during the *[period]* ended *[date]*.⁷ Management is responsible for *[name of entity]*'s compliance with those requirements. This agreed-upon procedures engagement

⁷ If the agreed-upon procedures have been published by a third-party user (for example, a regulator in regulatory policies or a lender in a debt agreement), this sentence might begin, "We have performed the procedures included in *[title of publication or other document]* and enumerated below, which were agreed to by *[list specified parties]*, solely to assist the specified parties in evaluating"

was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

[Include paragraphs to enumerate procedures and findings.]

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of *[list or refer to specified parties]* and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

.26 Evaluating compliance with certain requirements may require interpretation of the laws, regulations, rules, contracts, or grants that establish those requirements. In such situations, the practitioner should consider whether he or she is provided with the suitable criteria required to evaluate an assertion under the third general attestation standard. If these interpretations are significant, the practitioner may include a paragraph stating the description and the source of interpretations made by the entity's management. An example of such a paragraph, which should precede the procedures and findings paragraph(s), follows.

We have been informed that, under *[name of entity]*'s interpretation of *[identify the compliance requirement]*, *[explain the nature and source of the relevant interpretation]*.

.27 The following is an illustration of an agreed-upon procedures report on the effectiveness of an entity's internal control over compliance in which the procedures and findings are enumerated rather than referenced.

Independent Accountant's Report on Applying Agreed-Upon Procedures

We have performed the procedures enumerated below, which were agreed to by *[list specified parties]*, solely to assist the specified parties in evaluating the effectiveness of *[name of entity]*'s internal control over compliance with *[list specified requirements]* as of *[date]*.⁸ Management is responsible for *[name of entity]*'s internal control over compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

⁸ If the agreed-upon procedures have been published by a third-party user (for example, a regulator in regulatory policies or a lender in a debt agreement), this sentence might begin, "We have performed the procedures included in *[title of publication or other document]* and enumerated below, which were agreed to by *[list specified parties]*, solely to assist the specified parties in evaluating the effectiveness of *[name of entity]*'s internal control over compliance"

[Include paragraphs to enumerate procedures and findings.]

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of *[list or refer to specified parties]* and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

.28 In some agreed-upon procedures engagements, procedures may relate to both compliance with specified requirements and the effectiveness of internal control over compliance. In these engagements, the practitioner may issue one report that addresses both. For example, the first sentence of the introductory paragraph would state the following.

We have performed the procedures enumerated below, which were agreed to by *[list users of report]*, solely to assist the users in evaluating *[name of entity]*'s compliance with *[list specified requirements]* during the *[period]* ended *[date]* and the effectiveness of *[name of entity]*'s internal control over compliance with the aforementioned compliance requirements as of *[date]*.

.29 The date of completion of the agreed-upon procedures should be used as the date of the practitioner's report.

Examination Engagement

.30 The objective of the practitioner's examination procedures applied to an entity's compliance with specified requirements is to express an opinion on an entity's compliance (or assertion related thereto), based on the specified criteria. To express such an opinion, the practitioner accumulates sufficient evidence about the entity's compliance with specified requirements, thereby restricting attestation risk to an appropriately low level.

Attestation Risk

.31 In an engagement to examine compliance with specified requirements, the practitioner seeks to obtain reasonable assurance that the entity complied, in all material respects, based on the specified criteria. This includes designing the examination to detect both intentional and unintentional material non-compliance. Absolute assurance is not attainable because of factors such as the need for judgment, the use of sampling, and the inherent limitations of internal control over compliance and because much of the evidence available to the practitioner is persuasive rather than conclusive in nature. Also, procedures that are effective for detecting noncompliance that is unintentional may be ineffective for detecting noncompliance that is intentional and concealed through collusion between personnel of the entity and a third party or among management or employees of the entity. Therefore, the subsequent discovery that material noncompliance exists does not, in and of itself, evidence inadequate planning, performance, or judgment on the part of the practitioner.

.32 Attestation risk is the risk that the practitioner may unknowingly fail to modify appropriately his or her opinion. It is composed of inherent risk,

control risk, and detection risk. For purposes of a compliance examination, these components are defined as follows:

- a. *Inherent risk*—The risk that material noncompliance with specified requirements could occur, assuming there are no related controls
- b. *Control risk*—The risk that material noncompliance that could occur will not be prevented or detected on a timely basis by the entity's controls
- c. *Detection risk*—The risk that the practitioner's procedures will lead him or her to conclude that material noncompliance does not exist when, in fact, such noncompliance does exist

Inherent Risk

.33 In assessing inherent risk, the practitioner should consider factors affecting risk similar to those an auditor would consider when planning an audit of financial statements. Such factors are discussed in paragraph .A75 of AU-C section 240, *Consideration of Fraud in a Financial Statement Audit*. In addition, the practitioner should consider factors relevant to compliance engagements, such as the following:

- The complexity of the specified compliance requirements
- The length of time the entity has been subject to the specified compliance requirements
- Prior experience with the entity's compliance
- The potential impact of noncompliance

[Revised, January 2004, to reflect conforming changes necessary due to the issuance of SAS No. 99. Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Control Risk

.34 The practitioner should assess control risk as discussed in paragraphs .45–.46. Assessing control risk contributes to the practitioner's evaluation of the risk that material noncompliance exists. The process of assessing control risk (together with assessing inherent risk) provides evidential matter about the risk that such noncompliance may exist. The practitioner uses this evidential matter as part of the reasonable basis for his or her opinion.

Detection Risk

.35 In determining an acceptable level of detection risk, the practitioner assesses inherent risk and control risk and considers the extent to which he or she seeks to restrict attestation risk. As assessed inherent risk or control risk decreases, the acceptable level of detection risk increases. Accordingly, the practitioner may alter the nature, timing, and extent of compliance tests performed based on the assessments of inherent risk and control risk.

Materiality

.36 In an examination of an entity's compliance with specified requirements, the practitioner's consideration of materiality differs from that of an audit of financial statements in accordance with GAAS. In an examination of an entity's compliance with specified requirements, the practitioner's consideration of materiality is affected by (a) the nature of the compliance requirements, which may or may not be quantifiable in monetary terms, (b) the nature

and frequency of noncompliance identified with appropriate consideration of sampling risk, and (c) qualitative considerations, including the needs and expectations of the report's users.

.37 In a number of situations, the terms of the engagement may provide for a supplemental report of all or certain noncompliance discovered. Such terms should not change the practitioner's judgments about materiality in planning and performing the engagement or in forming an opinion on an entity's compliance with specified requirements or on the responsible party's assertion about such compliance.

Performing an Examination Engagement

.38 The practitioner should exercise (a) due care in planning, performing, and evaluating the results of his or her examination procedures and (b) the proper degree of professional skepticism to achieve reasonable assurance that material noncompliance will be detected.

.39 In an examination of the entity's compliance with specified requirements, the practitioner should—

- a. Obtain an understanding of the specified compliance requirements. (See paragraph .40.)
- b. Plan the engagement. (See paragraphs .41–.44.)
- c. Consider relevant portions of the entity's internal control over compliance. (See paragraphs .45–.47.)
- d. Obtain sufficient evidence including testing compliance with specified requirements. (See paragraphs .48–.49.)
- e. Consider subsequent events. (See paragraphs .50–.52.)
- f. Form an opinion about whether the entity complied, in all material respects, with specified requirements (or whether the responsible party's assertion about such compliance is fairly stated in all material respects), based on the specified criteria. (See paragraph .53.)

Obtaining an Understanding of the Specified Compliance Requirements

.40 A practitioner should obtain an understanding of the specified compliance requirements. To obtain such an understanding, a practitioner should consider the following:

- a. Laws, regulations, rules, contracts, and grants that pertain to the specified compliance requirements, including published requirements
- b. Knowledge about the specified compliance requirements obtained through prior engagements and regulatory reports
- c. Knowledge about the specified compliance requirements obtained through discussions with appropriate individuals within the entity (for example, the chief financial officer, internal auditors, legal counsel, compliance officer, or grant or contract administrators)
- d. Knowledge about the specified compliance requirements obtained through discussions with appropriate individuals outside the entity (for example, a regulator or third-party specialist)

Planning the Engagement

General Considerations

.41 Planning an engagement to examine an entity's compliance with specified requirements involves developing an overall strategy for the expected conduct and scope of the engagement. The practitioner should consider the planning matters discussed in paragraphs .42–.47 of section 101.

Multiple Components

.42 In an engagement to examine an entity's compliance with specified requirements when the entity has operations in several components (for example, locations, branches, subsidiaries, or programs), the practitioner may determine that it is not necessary to test compliance with requirements at every component. In making such a determination and in selecting the components to be tested, the practitioner should consider factors such as the following:

- a. The degree to which the specified compliance requirements apply at the component level
- b. Judgments about materiality
- c. The degree of centralization of records
- d. The effectiveness of the control environment, particularly management's direct control over the exercise of authority delegated to others and its ability to supervise activities at various locations effectively
- e. The nature and extent of operations conducted at the various components
- f. The similarity of operations over compliance for different components

Using the Work of a Specialist

.43 In some compliance engagements, the nature of the specified compliance requirements may require specialized skill or knowledge in a particular field other than accounting or auditing. In such cases, the practitioner may use the work of a specialist and should follow the relevant performance and reporting guidance in AU-C section 620, *Using the Work of an Auditor's Specialist*. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Internal Audit Function

.44 Another factor the practitioner should consider when planning the engagement is whether the entity has an internal audit function and the extent to which internal auditors are involved in monitoring compliance with the specified requirements. A practitioner should consider the guidance in AU-C section 610, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, when addressing the competence and objectivity of internal auditors, the nature, timing, and extent of work to be performed, and other related matters. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Consideration of Internal Control Over Compliance

.45 The practitioner should obtain an understanding of relevant portions of internal control over compliance sufficient to plan the engagement and to assess control risk for compliance with specified requirements. In planning the examination, such knowledge should be used to identify types of potential non-compliance, to consider factors that affect the risk of material noncompliance, and to design appropriate tests of compliance.

.46 A practitioner generally obtains an understanding of the design of specific controls by performing the following:

- a. Inquiries of appropriate management, supervisory, and staff personnel
- b. Inspection of the entity's documents
- c. Observation of the entity's activities and operations

The nature and extent of procedures a practitioner performs vary from entity to entity and are influenced by factors such as the following:

- The newness and complexity of the specified requirements
- The practitioner's knowledge of internal control over compliance obtained in previous professional engagements
- The nature of the specified compliance requirements
- An understanding of the industry in which the entity operates
- Judgments about materiality

When seeking to assess control risk below the maximum, the practitioner should perform tests of controls to obtain evidence to support the assessed level of control risk.

.47 During the course of an examination engagement, the practitioner may become aware of significant deficiencies or material weaknesses in the design or operation of internal control over compliance that could adversely affect the entity's ability to comply with specified requirements. A practitioner's responsibility to communicate these deficiencies in an examination of an entity's compliance with specified requirements is similar to the auditor's responsibility described in AU-C section 265, *Communicating Internal Control Related Matters Identified in an Audit*. If, in a multiple-party arrangement, the practitioner's client is not the responsible party, the practitioner has no responsibility to communicate significant deficiencies or material weaknesses to the responsible party. For example, if the practitioner is engaged by his or her client to examine the compliance of another entity, the practitioner has no obligation to communicate any significant deficiencies or material weaknesses that he or she becomes aware of to the other entity. However, the practitioner is not precluded from making such a communication. [Revised, May 2006, to reflect conforming changes necessary due to the issuance of SAS No. 112. Revised, January 2010, to reflect conforming changes necessary due to the issuance of SAS No. 115. Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Obtaining Sufficient Evidence

.48 The practitioner should apply procedures to provide reasonable assurance of detecting material noncompliance. Determining these procedures and evaluating the sufficiency of the evidence obtained are matters of professional judgment. When exercising such judgment, practitioners should consider the guidance contained in paragraphs .51–.54 of section 101 and AU-C section 530, *Audit Sampling*. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.49 For engagements involving compliance with regulatory requirements, the practitioner's procedures should include reviewing reports of significant examinations and related communications between regulatory agencies and the entity and, when appropriate, making inquiries of the regulatory agencies, including inquiries about examinations in progress.

Consideration of Subsequent Events

.50 The practitioner's consideration of subsequent events in an examination of an entity's compliance with specified requirements is similar to the auditor's consideration of subsequent events in a financial statement audit, as outlined in AU-C section 560, *Subsequent Events and Subsequently Discovered Facts*. The practitioner should consider information about such events that comes to his or her attention after the end of the period addressed by the practitioner's report and prior to the issuance of his or her report. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.51 Two types of subsequent events require consideration by the responsible party and evaluation by the practitioner. The first consists of events that provide additional information about the entity's compliance during the period addressed by the practitioner's report and may affect the practitioner's report. For the period from the end of the reporting period (or point in time) to the date of the practitioner's report, the practitioner should perform procedures to identify such events that provide additional information about compliance during the reporting period. Such procedures should include but may not be limited to inquiring about and considering the following information:

- Relevant internal auditors' reports issued during the subsequent period
- Other practitioners' reports identifying noncompliance, issued during the subsequent period
- Regulatory agencies' reports on the entity's noncompliance, issued during the subsequent period
- Information about the entity's noncompliance, obtained through other professional engagements for that entity

.52 The second type consists of noncompliance that occurs subsequent to the period being reported on but before the date of the practitioner's report. The practitioner has no responsibility to detect such noncompliance. However, should the practitioner become aware of such noncompliance, it may be of such a nature and significance that disclosure of it is required to keep users from being misled. In such cases, the practitioner should include in his or her report an explanatory paragraph describing the nature of the noncompliance.

Forming an Opinion

.53 In evaluating whether the entity has complied in all material respects (or whether the responsible party's assertion about such compliance is stated fairly in all material respects), the practitioner should consider (a) the nature and frequency of the noncompliance identified and (b) whether such noncompliance is material relative to the nature of the compliance requirements, as discussed in paragraph .36.

Reporting

.54 The practitioner may examine and report directly on an entity's compliance (see paragraphs .55–.56) or he or she may examine and report on the responsible party's written assertion (see paragraphs .57–.58 and .61), except as described in paragraph .64.

.55 The practitioner's examination report on compliance, which is ordinarily addressed to the entity, should include the following:

- a. A title that includes the word *independent*
- b. Identification of the specified compliance requirements, including the period covered, and of the responsible party⁹
- c. A statement that compliance with the specified requirements is the responsibility of the entity's management
- d. A statement that the practitioner's responsibility is to express an opinion on the entity's compliance with those requirements based on his or her examination
- e. A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the entity's compliance with those requirements and performing such other procedures as the practitioner considered necessary in the circumstances
- f. A statement that the practitioner believes the examination provides a reasonable basis for his or her opinion
- g. A statement that the examination does not provide a legal determination on the entity's compliance
- h. The practitioner's opinion on whether the entity complied, in all material respects, with specified requirements based on the specified criteria¹⁰ (See paragraph .64 for reporting on material noncompliance.)
- i. A statement restricting the use of the report to the specified parties (see the fourth reporting standard)¹¹ under the following circumstances (See also paragraph .13.):
 - When the criteria used to evaluate compliance are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria.
 - When the criteria used to evaluate compliance are available only to the specified parties
- j. The manual or printed signature of the practitioner's firm
- k. The date of the examination report

.56 The following is the form of report a practitioner should use when he or she is expressing an opinion on an entity's compliance with specified requirements during a period of time.

⁹ A practitioner also may be engaged to report on an entity's compliance with specified requirements as of point in time. In this case, the illustrative reports in this section should be adapted as appropriate.

¹⁰ Frequently, criteria will be contained in the compliance requirements, in which case it is not necessary to repeat the criteria in the practitioner's report; however, if the criteria are not included in the compliance requirement, the practitioner's report should identify the criteria. For example, if a compliance requirement is to "maintain \$25,000 in capital," it would not be necessary to identify the \$25,000 in the report; however, if the requirement is to "maintain adequate capital," the practitioner should identify the criteria used to define *adequate*.

¹¹ In certain situations, however, criteria that have been specified by management and other report users may be suitable for general use.

Independent Accountant's Report

[Introductory paragraph]

We have examined [name of entity]'s compliance with [list specified compliance requirements] during the [period] ended [date]. Management is responsible for [name of entity]'s compliance with those requirements. Our responsibility is to express an opinion on [name of entity]'s compliance based on our examination.

[Scope paragraph]

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about [name of entity]'s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on [name of entity]'s compliance with specified requirements.

[Opinion paragraph]

In our opinion, [name of entity] complied, in all material respects, with the aforementioned requirements for the year ended December 31, 20XX.¹²

[Signature]

[Date]

.57 The practitioner's examination report on an entity's assertion about compliance with specified requirements, which is ordinarily addressed to the entity, should include the following:

- a. A title that includes the word *independent*
- b. Identification of the responsible party's assertion about the entity's compliance with specified requirements, including the period covered by the responsible party's assertion, and of the responsible party (When the responsible party's assertion does not accompany the practitioner's report, the first paragraph of the report should also contain a statement of the responsible party's assertion.)¹³
- c. A statement that compliance with the requirements is the responsibility of the entity's management
- d. A statement that the practitioner's responsibility is to express an opinion on the responsible party's assertion on the entity's compliance with those requirements based on his or her examination
- e. A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the entity's compliance with those requirements and performing such other procedures as the practitioner considered necessary in the circumstances

¹² If it is necessary to identify criteria (see footnote 10), the criteria should be identified in the opinion paragraph (for example, "... in all material respects, based on the criteria set forth in Attachment 1").

¹³ A practitioner also may be engaged to report on the responsible party's assertion about an entity's compliance with specified requirements as of a point in time. In this case, the illustrative reports in this section should be adapted as appropriate.

- f. A statement that the practitioner believes the examination provides a reasonable basis for his or her opinion
- g. A statement that the examination does not provide a legal determination on the entity's compliance
- h. The practitioner's opinion on whether the responsible party's assertion about compliance with specified requirements is fairly stated in all material respects based on the specified criteria¹⁴ (See paragraph .64 for reporting on material noncompliance.)
- i. A statement restricting the use of the report to the specified parties (see the fourth reporting standard)^{15, 16} under the following circumstances:
 - When the criteria used to evaluate compliance are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria
 - When the criteria used to evaluate compliance are available only to the specified parties
- j. The manual or printed signature of the practitioner's firm
- k. The date of the examination report

.58 The following is the form of report that a practitioner should use when expressing an opinion on management's assertion about compliance with specified requirements.

Independent Accountant's Report

[Introductory paragraph]

We have examined management's assertion, included in the accompanying [*title of management report*], that [*name of entity*] complied with [*list specified compliance requirements*] during the [*period*] ended [*date*].^{17, 18} Management is responsible for [*name of entity*]'s compliance with those requirements. Our responsibility is to express an opinion on management's assertion about [*name of entity*]'s compliance based on our examination.

[Standard scope paragraph]

[Opinion paragraph]

¹⁴ Frequently, criteria will be contained in the compliance requirements, in which case it is not necessary to repeat the criteria in the practitioner's report; however, if the criteria are not included in the compliance requirement, the practitioner's report should identify the criteria. For example, if a compliance requirement is to "maintain \$25,000 in capital," it would not be necessary to identify the \$25,000 in the report; however, if the requirement is to "maintain adequate capital," the practitioner should identify the criteria used to define *adequate*.

¹⁵ Although a practitioner's report may be appropriate for general use, the practitioner is not precluded from restricting the use of the report.

¹⁶ In certain situations, however, criteria that have been specified by management and other report users may be suitable for general use.

¹⁷ The practitioner should identify the management report examined by reference to the report title used by management in its report. Further, he or she should use the same description of compliance requirements as management uses in its report.

¹⁸ If management's assertion is stated in the practitioner's report and does not accompany the practitioner's report, the phrase "included in the accompanying [*title of management report*]" would be omitted.

In our opinion, management's assertion that [*name of entity*] complied with the aforementioned requirements during the [*period*] ended [*date*] is fairly stated, in all material respects.¹⁹

[*Signature*]

[*Date*]

.59 Evaluating compliance with certain requirements may require interpretation of the laws, regulations, rules, contracts, or grants that establish those requirements. In such situations, the practitioner should consider whether he or she is provided with the suitable criteria required to evaluate compliance under the third general attestation standard. If these interpretations are significant, the practitioner may include a paragraph stating the description and the source of interpretations made by the entity's management. The following is an example of such a paragraph, which should directly follow the scope paragraph:

We have been informed that, under [*name of entity*]'s interpretation of [*identify the compliance requirement*], [*explain the source and nature of the relevant interpretation*].

.60 The date of completion of the examination procedures should be used as the date of the practitioner's report.

.61 Nothing precludes the practitioner from examining an assertion but opining directly on compliance.

.62 Paragraphs .78–.83 of section 101 provide guidance on restricting the use of an attest report. Nothing in this section precludes the practitioner from restricting the use of the report. For example, if the practitioner is asked by a client to examine another entity's compliance with certain regulations, he or she may want to restrict the use of the report to the client since the practitioner has no control over how the report may be used by the other entity.

Report Modifications

.63 The practitioner should modify the standard report described in paragraphs .55 and .57, if any of the following conditions exist.

- There is material noncompliance with specified requirements (paragraphs .64–.67).
- There is a restriction on the scope of the engagement.²⁰
- The practitioner decides to refer to the report of another practitioner as the basis, in part, for the practitioner's report.²¹

Material Noncompliance

.64 When an examination of an entity's compliance with specified requirements discloses noncompliance with the applicable requirements that the practitioner believes have a material effect on the entity's compliance, the practitioner should modify the report and, to most effectively communicate with the reader of the report, should state his or her opinion on the entity's specified compliance requirements, not on the responsible party's assertion.

¹⁹ If it is necessary to identify criteria (see footnote 10), the criteria should be identified in the opinion paragraph (for example, "...in all material respects, based on the criteria set forth in Attachment 1").

²⁰ The practitioner should refer to paragraphs .73–.74 of section 101 for guidance on scope restrictions.

²¹ The practitioner should refer to paragraphs .122–.125 of section 501 for guidance on an opinion based in part on the report of another practitioner and adapt such guidance to the standard reports in this section.

.65 The following is the form of report, modified with explanatory language, that a practitioner should use when he or she has concluded that a qualified opinion is appropriate under the circumstances. It has been assumed that the practitioner has determined that the specified compliance requirements are both suitable for general use and available to users as discussed in paragraphs .23–.33 of section 101, and, therefore, that a restricted use paragraph is not required.

Independent Accountant's Report

[Introductory paragraph]

We have examined *[name of entity]*'s compliance with *[list specified compliance requirements]* for the *[period]* ended *[date]*. Management is responsible for compliance with those requirements. Our responsibility is to express an opinion on *[name of entity]*'s compliance based on our examination.

[Standard scope paragraph]

[Explanatory paragraph]

Our examination disclosed the following material noncompliance with *[type of compliance requirement]* applicable to *[name of entity]* during the *[period]* ended *[date]*. *[Describe noncompliance.]*

[Opinion paragraph]

In our opinion, except for the material noncompliance described in the third paragraph, *[name of entity]* complied, in all material respects, with the aforementioned requirements for the *[period]* ended *[date]*.

[Signature]

[Date]

.66 The following is the form of report, modified with explanatory language, that a practitioner should use when he or she concludes that an adverse opinion is appropriate in the circumstances. The practitioner has determined that the specified compliance requirements are both suitable for general use and available to users as discussed in paragraphs .23–.33 of section 101.

Independent Accountant's Report

[Introductory paragraph]

We have examined *[name of entity]*'s compliance with *[list specified compliance requirements]* for the *[period]* ended *[date]*. Management is responsible for compliance with those requirements. Our responsibility is to express an opinion on *[name of entity]*'s compliance based on our examination.

[Standard scope paragraph]

[Explanatory paragraph]

Our examination disclosed the following material noncompliance with *[type of compliance requirement]* applicable to *[name of entity]* during the *[period]* ended *[date]*. *[Describe noncompliance.]*

[Opinion paragraph]

In our opinion, because of the effect of the noncompliance described in the third paragraph, *[name of entity]* has not complied with the aforementioned requirements for the *[period]* ended *[date]*.

[Signature]

[Date]

.67 If the practitioner's report on his or her examination of the entity's compliance with specified requirements is included in a document that also includes his or her audit report on the entity's financial statements, the following sentence should be included in the paragraph of an examination report that describes material noncompliance.

These conditions were considered in determining the nature, timing, and extent of audit tests applied in our audit of the 20XX financial statements, and this report does not affect our report dated [date of report] on those financial statements.

The practitioner also may include the preceding sentence when the two reports are not included within the same document.

Representation Letter

.68 In an examination engagement or an agreed-upon procedures engagement, the practitioner should obtain written representations from the responsible party—²²

- a. Acknowledging the responsible party's responsibility for complying with the specified requirements.
- b. Acknowledging the responsible party's responsibility for establishing and maintaining effective internal control over compliance.
- c. Stating that the responsible party has performed an evaluation of (1) the entity's compliance with specified requirements or (2) the entity's controls for ensuring compliance and detecting noncompliance with requirements, as applicable.
- d. Stating the responsible party's assertion about the entity's compliance with the specified requirements or about the effectiveness of internal control over compliance, as applicable, based on the stated or established criteria.
- e. Stating that the responsible party has disclosed to the practitioner all known noncompliance.
- f. State that the responsible party has made available all documentation related to compliance with the specified requirements.
- g. Stating the responsible party's interpretation of any compliance requirements that have varying interpretations.
- h. State that the responsible party has disclosed any communications from regulatory agencies, internal auditors, and other practitioners concerning possible noncompliance with the specified requirements, including communications received between the end of the period addressed in the written assertion and the date of the practitioner's report.
- i. Stating that the responsible party has disclosed any known noncompliance occurring subsequent to the period for which, or date as of which, the responsible party selects to make its assertion.

²² Paragraph .21 of AU-C section 580, *Written Representations*, states that the written representations should be in the form of a representation letter addressed to the auditor. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.69 The responsible party's refusal to furnish all appropriate written representations in an examination engagement constitutes a limitation on the scope of the engagement sufficient to preclude an unqualified opinion and is ordinarily sufficient to cause the practitioner to disclaim an opinion or withdraw from the engagement. However, based on the nature of the representations not obtained or the circumstances of the refusal, the practitioner may conclude in an examination engagement that a qualified opinion is appropriate. When the practitioner is performing agreed-upon procedures and the practitioner's client is the responsible party, the responsible party's refusal to furnish all appropriate written representations constitutes a limitation on the scope of the engagement sufficient to cause the practitioner to withdraw. When the practitioner's client is not the responsible party, the practitioner is not required to withdraw but should consider the effects of the responsible party's refusal on his or her report. Further, the practitioner should consider the effects of the responsible party's refusal on his or her ability to rely on other representations of the responsible party.

.70 When the practitioner's client is not the responsible party, the practitioner may also want to obtain written representations from the client. For example, when a practitioner's client has entered into a contract with a third party (responsible party) and the practitioner is engaged to examine the responsible party's compliance with that contract, the practitioner may want to obtain written representations from his or her client as to their knowledge of any noncompliance.

Other Information in a Client-Prepared Document Containing Management's Assertion About the Entity's Compliance With Specified Requirements or the Effectiveness of the Internal Control Over Compliance

.71 An entity may publish various documents that contain information (referred to as *other information*) in addition to the practitioner's attest report on either (a) the entity's compliance with specified requirements or (b) the effectiveness of the entity's internal control over compliance or written assertion thereon. Paragraphs .91–.94 of section 101 provide guidance to the practitioner if the other information is contained in either of the following:

- a. Annual reports to holders of securities or beneficial interests, annual reports of organizations for charitable or philanthropic purposes distributed to the public, and annual reports filed with regulatory authorities under the 1934 Act
- b. Other documents to which the practitioner, at the client's request, devotes attention

Effective Date

.72 This section is effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001. Early application is permitted.

AT Section 701

Management's Discussion and Analysis

Source: SSAE No. 10.

Effective when management's discussion and analysis is for a period ending on or after June 1, 2001. Earlier application is permitted.

General

.01 This section sets forth attestation standards and provides guidance to a practitioner concerning the performance of an attest engagement¹ with respect to management's discussion and analysis (MD&A) prepared pursuant to the rules and regulations adopted by the Securities and Exchange Commission (SEC), which are presented in annual reports to shareholders and in other documents.²

Applicability

.02 This section is applicable to the following levels of service when a practitioner is engaged by (a) a public³ entity that prepares MD&A in accordance with the rules and regulations adopted by the SEC (see paragraph .04) or (b) a nonpublic entity that prepares an MD&A presentation and whose management provides a written assertion that the presentation has been prepared using the rules and regulations adopted by the SEC:⁴

- An examination of an MD&A presentation
- A review of an MD&A presentation for an annual period, an interim period, or a combined annual and interim period⁵

¹ Paragraph .01 of section 101, *Attest Engagements*, defines an attest engagement as one in which a practitioner "is engaged to issue or does issue an examination, a review, or an agreed-upon procedures report on subject matter, or an assertion about the subject matter (hereafter referred to as the *assertion*), that is the responsibility of another party."

² Because this section provides guidance specific to attest engagements concerning MD&A presentations, a practitioner should not perform a compliance attestation engagement under section 601, *Compliance Attestation*, with respect to an MD&A presentation.

³ For purposes of this section, a public entity is any entity (a) whose securities trade in a public market either on a stock exchange (domestic or foreign) or in the over-the-counter (OTC) market, including securities quoted only locally or regionally, (b) that makes a filing with a regulatory agency in preparation for the sale of any class of its securities in a public market, or (c) a subsidiary, corporate joint venture, or other entity controlled by an entity covered by (a) or (b).

⁴ Such assertion may be made by any of the following:

- (a) Including a statement in the body of the MD&A presentation that it has been prepared using the rules and regulations adopted by the SEC.
- (b) Providing a separate written assertion to accompany the MD&A presentation.
- (c) Providing a written assertion in a representation letter to the practitioner.

⁵ As discussed in paragraph .85*k*, a review report is not intended to be filed with the SEC as a report under the Securities Act of 1933 (the 1933 Act) or the Securities Exchange Act of 1934 (the 1934 Act) and, accordingly, the review report should contain a statement of restrictions on the use of the report to specified parties if the entity is (a) a public entity or (b) a nonpublic entity that is making or has made an offering of securities and it appears that the securities may subsequently be registered or subject to a filing with the SEC or other regulatory agency.

A practitioner⁶ engaged to examine or review MD&A and report thereon should comply with the general, fieldwork, and reporting standards established in section 50, *SSAE Hierarchy*, and the specific standards set forth in this section. A practitioner engaged to perform agreed-upon procedures on MD&A should follow the guidance set forth in section 201, *Agreed-Upon Procedures Engagements*.⁷ [Revised, November 2006, to reflect conforming changes necessary due to the issuance of SSAE No. 14.]

.03 This section does not—

- a. Change the auditor's responsibility in an audit of financial statements performed in accordance with generally accepted auditing standards (GAAS).
- b. Apply to situations in which the practitioner is requested to provide management with recommendations to improve the MD&A rather than to provide assurance. A practitioner engaged to provide such nonattest services should refer to CS section 100, *Consulting Services: Definitions and Standards*.
- c. Apply to situations in which the practitioner is engaged to provide attest services with respect to an MD&A presentation that is prepared based on criteria other than the rules and regulations adopted by the SEC. A practitioner engaged to perform an examination or a review based upon such criteria should refer to the guidance in section 101, or to section 201 if engaged to perform an agreed-upon procedures engagement.⁸

.04 The requirements for MD&A have changed periodically since the first requirement was adopted by the SEC in 1974. As of the date of issuance of this SSAE, the rules and regulations for MD&A adopted by the SEC are found in Item 303 of Regulation S-K, as interpreted by Financial Reporting Release (FRR) No. 36, *Management's Discussion and Analysis of Financial Condition and Results of Operations; Certain Investment Company Disclosures* (Chapter 5 of the "Codification of Financial Reporting Policies"); Item 303 of Regulation S-B for small business issuers; and Item 9 of Form 20-F for Foreign Private Issuers.⁹ Item 303 of Regulation S-K, as interpreted by FRR No. 36, Item 303 of Regulation S-B for small business issuers, and Item 9 of Form 20-F for Foreign Private Issuers, provide the relevant rules and regulations adopted by the SEC

⁶ In this section, the terms *practitioner* or *accountant* generally refer to a person engaged to perform an attest service on MD&A. The term *accountant* may also refer to a person engaged to review financial statements. The term *auditor* refers to a person engaged to audit financial statements. As this section includes certain requirements for the practitioner to have audited or performed a review of financial statements in accordance with AU-C section 930, *Interim Financial Information*, the terms *auditor*, *practitioner*, or *accountant* may refer, in this section, to the same person. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

⁷ Practitioners should follow guidance in AU-C section 920, *Letters for Underwriters and Certain Other Requesting Parties*, when requested to perform agreed-upon procedures on MD&A and report thereon in a letter for an underwriter. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

⁸ The guidance in this section may be helpful when performing an engagement to provide attest services with respect to an MD&A presentation that is based on criteria other than the rules and regulations adopted by the SEC. Such other criteria would have to be suitable and available as discussed in paragraphs .23–.33 of section 101.

⁹ The SEC staff from time to time issues guidance related to the SEC's adopted requirements; for example, Staff Accounting Bulletins (SABs), Staff Legal Bulletins, and speeches. Although such guidance may provide additional information with respect to the adopted requirements for MD&A, the practitioner should not be expected to attest to assertions on compliance with such guidance. The practitioner may find it helpful to also familiarize himself or herself with material contained on the SEC's website www.sec.gov that provides further information with respect to the SEC's views concerning MD&A disclosures.

that meet the definition of suitable criteria in paragraphs .23–.32 of section 101. The practitioner should consider whether the SEC has adopted additional rules and regulations with respect to MD&A subsequent to the issuance of this section.

Conditions for Engagement Performance

Examination

.05 The practitioner's objective in an engagement to examine MD&A is to express an opinion on the MD&A presentation taken as a whole by reporting whether—

- a. The presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC.¹⁰
- b. The historical financial amounts have been accurately derived, in all material respects, from the entity's financial statements.¹¹
- c. The underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein.¹²

.06 A practitioner may accept an engagement to examine MD&A of a public or nonpublic entity, provided the practitioner audits, in accordance with GAAS,¹³ the financial statements for at least the latest period to which the MD&A presentation relates and the financial statements for the other periods covered by the MD&A presentation have been audited by the practitioner or a predecessor auditor. A base knowledge of the entity and its operations gained through an audit of the historical financial statements and knowledge about the industry and the environment is necessary to provide the practitioner with sufficient knowledge to properly evaluate the results of the procedures performed in connection with the examination.

.07 If a predecessor auditor has audited the financial statements for a prior period covered by the MD&A presentation, the practitioner (the successor auditor) should also consider whether, under the particular circumstances, he or she can acquire sufficient knowledge of the business and of the entity's accounting and financial reporting practices for such period so that he or she would be able to—

- a. Identify types of potential material misstatements in MD&A and consider the likelihood of their occurrence.

¹⁰ The required elements as of the date of issuance of this SSAE include a discussion of the entity's financial condition, changes in financial condition, and results of operations, including a discussion of liquidity and capital resources.

¹¹ Whether historical financial amounts are accurately derived from the financial statements includes both amounts that are derived from the face of the financial statements (which includes the notes to the financial statements) and financial statement schedules and those that are derived from underlying records supporting elements, accounts, or items included in the financial statements.

¹² Whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein requires consideration of management's interpretation of the disclosure criteria for MD&A, management's determinations as to the relevancy of information to be included, and estimates and assumptions made by management that affect reported information.

¹³ Restrictions on the scope of the audit of the financial statements will not necessarily preclude the practitioner from accepting an engagement to examine MD&A. Note that the SEC will generally not accept an auditor's report that is modified for a scope limitation. The practitioner should consider the nature and magnitude of the scope limitation and the form of the auditor's report in assessing whether an examination of MD&A could be performed.

- b. Perform the procedures that will provide the practitioner with a basis for expressing an opinion as to whether the MD&A presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC.
- c. Perform the procedures that will provide the practitioner with a basis for expressing an opinion on the MD&A presentation with respect to whether the historical financial amounts have been accurately derived, in all material respects, from the entity's financial statements for such period.
- d. Perform the procedures that will provide the practitioner with a basis for expressing an opinion as to whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein.

Refer to paragraphs .99–.101 for guidance regarding the review of the predecessor auditor's working papers.

Review

.08 The objective of a review of MD&A is to report whether any information came to the practitioner's attention to cause him or her to believe that—

- a. The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC.
- b. The historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements.
- c. The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein.

A review consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. A review ordinarily does not contemplate (a) tests of accounting records through inspection, observation, or confirmation, (b) obtaining corroborating evidential matter in response to inquiries, or (c) the application of certain other procedures ordinarily performed during an examination of MD&A. A review may bring to the practitioner's attention significant matters affecting the MD&A, but it does not provide assurance that the practitioner will become aware of all significant matters that would be disclosed in an examination.

.09 A practitioner may accept an engagement to review the MD&A presentation of a public entity for an annual period provided the practitioner has audited, in accordance with GAAS, the financial statements for at least the latest annual period to which the MD&A presentation relates and the financial statements for the other periods covered by the MD&A presentation have been audited by the practitioner or a predecessor auditor.¹⁴ A base knowledge of the entity and its operations gained through an audit of the historical financial

¹⁴ As discussed in paragraph .85*k*, a review report is not intended to be filed with the SEC as a report under the 1933 Act or the 1934 Act and, accordingly, the review report should contain a statement of restrictions on the use of the report to specified parties if the entity is (a) a public entity or (b) a nonpublic entity that is making or has made an offering of securities and it appears that the securities may subsequently be registered or subject to a filing with the SEC or other regulatory agency.

statements and knowledge about the industry and the environment is necessary to provide the practitioner with sufficient knowledge to properly evaluate the results of the procedures performed in connection with the review.

.10 If a predecessor auditor has audited the financial statements for a prior period covered by the MD&A presentation, the practitioner should also consider whether, under the particular circumstances, he or she can acquire sufficient knowledge of the business and of the entity's accounting and financial reporting practices for such period so he or she would be able to—

- a. Identify types of potential material misstatements in the MD&A and consider the likelihood of their occurrence.
- b. Perform the procedures that will provide the practitioner with a basis for reporting whether any information has come to the practitioner's attention to cause him or her to believe any of the following.
 - (1) The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC.
 - (2) The historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements for such period.
 - (3) The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein.

.11 A practitioner may accept an engagement to review the MD&A presentation of a public entity for an interim period provided that both of the following conditions are met.

- a. The practitioner performs either (1) a review of the historical financial statements for the related comparative interim periods and issues a review report thereon in accordance with AU-C section 930, *Interim Financial Information*, or (2) an audit of the interim financial statements.
- b. The MD&A presentation for the most recent fiscal year has been or will be examined or reviewed by either the practitioner or a predecessor auditor.

[Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.12 If a predecessor auditor examined or reviewed the MD&A presentation of a public entity for the most recent fiscal year, the practitioner should not accept an engagement to review the MD&A presentation for an interim period unless he or she can acquire sufficient knowledge of the business and of the entity's accounting and financial reporting practices for the interim period to perform the procedures described in paragraph .10.

.13 If a nonpublic entity chooses to prepare MD&A, the practitioner should not accept an engagement to perform a review of such MD&A for an annual period under this section unless both of the following conditions are met.

- a. The annual financial statements for the periods covered by the MD&A presentation have been or will be audited and the practitioner has audited or will audit the most recent year (refer to paragraph .07 if the financial statements for prior years were audited by a predecessor auditor).

- b. Management will provide a written assertion that the presentation has been prepared using the rules and regulations adopted by the SEC as the criteria. (See paragraph .02.)

.14 A practitioner may accept an engagement to review the MD&A presentation of a nonpublic entity for an interim period provided that all of the following conditions are met.

- a. The practitioner performs one of the following:
 - (1) A review of the historical financial statements for the related interim periods under the Statements on Standards for Accounting and Review Services (SSARs) and issues a review report thereon
 - (2) A review of the condensed interim financial information for the related interim periods under AU-C section 930 and issues a review report thereon, and such interim financial information is accompanied by complete annual financial statements for the most recent fiscal year that have been audited
 - (3) An audit of the interim financial statements
- b. The MD&A presentation for the most recent fiscal year has been or will be examined or reviewed.
- c. Management will provide a written assertion stating that the presentation has been prepared using the rules and regulations adopted by the SEC as the criteria. (See paragraph .02.)

[Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Engagement Acceptance Considerations

.15 In determining whether to accept an engagement, the practitioner should consider whether management (and others engaged by management to assist them, such as legal counsel) has the appropriate knowledge of the rules and regulations adopted by the SEC to prepare MD&A.

Responsibilities of Management

.16 Management is responsible for the preparation of the entity's MD&A pursuant to the rules and regulations adopted by the SEC. The preparation of MD&A in conformity with the rules and regulations adopted by the SEC requires management to interpret the criteria, accurately derive the historical amounts from the entity's books and records, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information.

.17 An entity should not name the practitioner in a client-prepared document as having examined or reviewed MD&A unless the MD&A presentation and related practitioner's report and the related financial statements and auditor's (or accountant's review) report are included in the document (or, in the case of a public entity, incorporated by reference to such information filed with a regulatory agency). If such a statement is made in a document that does not include (or incorporate by reference) such information, the practitioner should request that neither his or her name nor reference to the practitioner be made with respect to the MD&A information, or that such document be revised to include the required presentations and reports. If the client does not

comply, the practitioner should advise the client that he or she does not consent to either the use of his or her name or the reference to the practitioner, and he or she should consider what other actions might be appropriate.¹⁵

Obtaining an Understanding of the SEC Rules and Regulations and Management's Methodology for the Preparation of MD&A

.18 The practitioner should obtain an understanding of the rules and regulations adopted by the SEC for MD&A. (Refer to paragraph .04.)

.19 The practitioner should inquire of management regarding the method of preparing MD&A, including matters such as the sources of the information, how the information is gathered, how management evaluates the types of factors having a material effect on financial condition (including liquidity and capital resources), results of operations, and cash flows, and whether there have been any changes in the procedures from the prior year.

Timing of Procedures

.20 Proper planning by the practitioner contributes to the effectiveness of the attest procedures in an examination or a review of MD&A. Performing some of the work in conjunction with the audit of the historical financial statements or the review of interim financial statements may permit the work to be carried out in a more efficient manner and to be completed at an earlier date. When performing an examination or a review of MD&A, the practitioner may consider the results of tests of controls, analytical procedures,¹⁶ and substantive tests performed in a financial statement audit or analytical procedures and inquiries made in a review of financial statements or interim financial information.

Materiality

.21 The practitioner should consider the concept of materiality in planning and performing the engagement. The objective of an examination or a review is to report on the MD&A presentation taken as a whole and not on the individual amounts and disclosures contained therein. In the context of an MD&A presentation, the concept of materiality encompasses both material omissions (for example, the omission of trends, events, and uncertainties that are currently known to management that are reasonably likely to have material effects on the entity's financial condition, results of operations, liquidity, or capital resources) and material misstatements in MD&A, both of which are referred to herein as a misstatement. Assessing the significance of a misstatement of some items in MD&A may be more dependent upon qualitative than

¹⁵ In considering what other actions, if any, may be appropriate in these circumstances, the practitioner may wish to consult his or her legal counsel.

¹⁶ AU-C section 520, *Analytical Procedures*, defines analytical procedures as "evaluations of financial information through analysis of plausible relationships among both financial and nonfinancial data. Analytical procedures also encompass such investigation, as is necessary, of identified fluctuations or relationships that are inconsistent with other relevant information or that differ from expected values by a significant amount." In applying analytical procedures to MD&A, the practitioner develops expectations of matters that would be discussed in MD&A by identifying and using plausible relationships that are reasonably expected to exist based on the practitioner's understanding of the client and of the industry in which the client operates, and the knowledge of relationships among the various financial elements gained through the audit of financial statements or review of interim financial information. Refer to AU-C section 520 for further discussion of analytical procedures. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

quantitative considerations. Qualitative aspects of materiality relate to the relevance and reliability of the information presented (for example, qualitative aspects of materiality are considered in assessing whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures in the MD&A). Furthermore, quantitative information is often more meaningful when accompanied by qualitative disclosures. For example, quantitative information about market risk-sensitive instruments is more meaningful when accompanied by qualitative information about an entity's market risk exposures and how those exposures are managed. Materiality is also a concept that is judged in light of the expected range of reasonableness of the information; therefore, users should not expect prospective information (information about events that have not yet occurred) to be as precise as historical information.

.22 In expressing an opinion, or providing the limited assurance of a review engagement, on the presentation, the practitioner should consider the omission or misstatement of an individual assertion (see paragraph .34) to be material if the magnitude of the omission or misstatement—individually or when aggregated with other omissions or misstatements—is such that a reasonable person using the MD&A presentation would be influenced by the inclusion or correction of the individual assertion. The relative rather than absolute size of an omission or misstatement may determine whether it is material in a given situation.

Inclusion of Pro Forma Financial Information

.23 Management may include pro forma financial information with respect to a business combination or other transactions in MD&A. The practitioner should consider the guidance in paragraph .10 of section 401, *Reporting on Pro Forma Financial Information*, when performing procedures with respect to such information, even if management indicates in MD&A that certain information has been derived from unaudited financial statements. For example, in an examination of MD&A, the practitioner's procedures would ordinarily include obtaining an understanding of the underlying transaction or event, discussing with management their assumptions, obtaining sufficient evidence in support of the adjustments, and other procedures for the purpose of expressing an opinion on the MD&A presentation taken as a whole and not for expressing an opinion on (or providing the limited assurance of a review of) the pro forma financial information included therein under section 401.

Inclusion of External Information

.24 An entity may also include in its MD&A information external to the entity, such as the rating of its debt by certain rating agencies or comparisons with statistics from a trade association. Such external information should also be subjected to the practitioner's examination or review procedures. For example, in an examination, the practitioner might compare information concerning the statistics of a trade organization to a published source; however, the practitioner would not be expected to test the underlying support for the trade association's calculation of such statistics.

Inclusion of Forward-Looking Information

.25 An entity may include certain forward-looking disclosures in the MD&A presentation, including cautionary language concerning the achievability of the matters disclosed. Although any forward-looking disclosures that are

included in the MD&A presentation should be subjected to the practitioner's examination or review, such information is subjected to testing only for the purpose of expressing an opinion that the underlying information, determinations, estimates, and assumptions provide a reasonable basis for the disclosures contained therein or providing the limited assurance of a review on the MD&A presentation taken as a whole. The practitioner may consider the guidance in section 301, *Financial Forecasts and Projections*, when performing procedures with respect to forward-looking information. The practitioner may also consider whether meaningful cautionary language has been included with the forward-looking information.

.26 Section 27A of the Securities Act of 1933 (the 1933 Act) and Section 21E of the Securities Exchange Act of 1934 (the 1934 Act) provide a safe harbor from liability in private litigation with respect to forward-looking statements that include or make reference to meaningful cautionary language. However, such sections also include exclusions from safe harbor protection in certain situations. Whether an entity's forward-looking statements and the practitioner's report thereon qualify for safe harbor protection is a legal matter.

Inclusion of Voluntary Information

.27 An entity may voluntarily include other information in the MD&A presentation that is not required by the rules and regulations adopted by the SEC for MD&A. When the entity includes in MD&A additional information required by other rules and regulations of the SEC (for example, Item 305 of Regulation S-K, *Quantitative and Qualitative Disclosures About Market Risk*), the practitioner should also consider such other rules and regulations in subjecting such information to his or her examination or review procedures.¹⁷

Examination Engagement

.28 To express an opinion about whether (a) the presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC, (b) the historical financial amounts have been accurately derived, in all material respects, from the entity's financial statements, and (c) the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein, the practitioner seeks to obtain reasonable assurance by accumulating sufficient evidence in support of the disclosures and assumptions, thereby restricting attestation risk to an appropriately low level.

Attestation Risk

.29 In an engagement to examine MD&A, the practitioner plans and performs the examination to obtain reasonable assurance of detecting both intentional and unintentional misstatements that are material to the MD&A presentation taken as a whole. Absolute assurance is not attainable because of factors such as the need for judgment regarding the areas to be tested and the nature, timing, and extent of tests to be performed; the concept of selective testing of the data; and the inherent limitations of the controls applicable to the preparation of MD&A. The practitioner exercises professional judgment in

¹⁷ To the extent that the voluntary information includes forward-looking information, refer to paragraphs .25–.26.

assessing the significant determinations made by management as to the relevancy of information to be included, and the estimates and assumptions that affect reported information. As a result of these factors, in the great majority of cases, the practitioner has to rely on evidence that is persuasive rather than convincing. Also, procedures may be ineffective for detecting an intentional misstatement that is concealed through collusion among client personnel and third parties or among management or employees of the client. Therefore, the subsequent discovery that a material misstatement exists in the MD&A does not, in and of itself, evidence (a) failure to obtain reasonable assurance; (b) inadequate planning, performance, or judgment on the part of the practitioner; (c) the absence of due professional care; or (d) a failure to comply with this section.

.30 Factors to be considered by the practitioner in planning an examination of MD&A include (a) the anticipated level of attestation risk related to assertions embodied in the MD&A presentation, (b) preliminary judgments about materiality for attest purposes, (c) the items within the MD&A presentation that are likely to require revision or adjustment, and (d) conditions that may require extension or modification of attest procedures. For purposes of an engagement to examine MD&A, the components of attestation risk are defined as follows.

- a. *Inherent risk* is the susceptibility of an assertion within MD&A to a material misstatement, assuming that there are no related controls. (See paragraphs .34–.38.)
- b. *Control risk* is the risk that a material misstatement that could occur in an assertion within MD&A will not be prevented or detected on a timely basis by the entity's controls; some control risk will always exist because of the inherent limitations of any internal control.
- c. *Detection risk* is the risk that the practitioner will not detect a material misstatement that exists in an assertion within MD&A.

Inherent Risk

.31 The level of inherent risk varies with the nature of the assertion. For example, the inherent risk concerning financial information included in the MD&A presentation may be low, whereas the inherent risk concerning the completeness of the disclosure of the entity's risks or liquidity may be high.

Control Risk

.32 The practitioner should assess control risk as discussed in paragraphs .53–.57. Assessing control risk contributes to the practitioner's evaluation of the risk that material misstatement in the MD&A exists. In the process of assessing control risk (together with assessing inherent risk), the practitioner may obtain evidential matter about the risk that such misstatement may exist. The practitioner uses this evidential matter as part of the reasonable basis for his or her opinion on the MD&A presentation taken as a whole.

Detection Risk

.33 In determining an acceptable level of detection risk, the practitioner assesses inherent risk and control risk, and considers the extent to which he or she seeks to restrict attestation risk. As assessed inherent risk or control risk decreases, the acceptable level of detection risk increases. Accordingly, the practitioner may alter the nature, timing, and extent of tests performed based on the assessments of inherent risk and control risk.

Nature of Assertions

.34 Assertions are representations by management that are embodied in the MD&A presentation. They can be either explicit or implicit and can be classified according to the following broad categories:

- a. Occurrence
- b. Consistency with the financial statements
- c. Completeness
- d. Presentation and disclosure

.35 Assertions about occurrence address whether reported transactions or events have occurred during a given period. Assertions about consistency with the financial statements address whether—

- a. Reported transactions, events, and explanations are consistent with the financial statements.
- b. Historical financial amounts have been accurately derived from the financial statements and related records.
- c. Nonfinancial data have been accurately derived from related records.

.36 Assertions about completeness address whether descriptions of transactions and events necessary to obtain an understanding of the entity's financial condition (including liquidity and capital resources), changes in financial condition, results of operations, and material commitments for capital resources are included in MD&A; and whether known events, transactions, conditions, trends, demands, commitments, or uncertainties that will result in or are reasonably likely to result in material changes to these items are appropriately described in the MD&A presentation.

.37 For example, if management asserts that the reason for an increase in revenues is a price increase in the current year, they are explicitly asserting that both an increase in revenues and a price increase have occurred in the current year, and implicitly asserting that any historical financial amounts included are consistent with the financial statements for such period. They are also implicitly asserting that the explanation for the increase in revenues is complete; that there are no other significant reasons for the increase in revenues.

.38 Assertions about presentation and disclosure address whether information included in the MD&A presentation is properly classified, described, and disclosed. For example, management asserts that any forward-looking information included in MD&A is properly classified as being based on management's present assessment and includes an appropriate description of the expected results. To further disclose the nature of such information, management may also include a statement that actual results in the future may differ materially from management's present assessment. (See paragraphs .25–.26.)

.39 The auditor of the underlying financial statements is responsible for designing and performing audit procedures to obtain sufficient appropriate audit evidence to be able to draw reasonable conclusions on which to base the auditor's opinion, as discussed in AU-C section 500, *Audit Evidence*. Although procedures designed to achieve the practitioner's objective of forming an opinion on the MD&A presentation taken as a whole may test certain assertions embodied in the underlying financial statements, the practitioner is not expected to test the underlying financial statement assertions in an examination of MD&A. For example, the practitioner is not expected to test the completeness

of revenues or the existence of inventory when testing the assertions in MD&A concerning an increase in revenues or an increase in inventory levels; assurance related to completeness of revenues or for existence of inventory would be obtained as part of the audit. The practitioner is, however, responsible for testing the completeness of the explanation for the increase in revenues or the increase in inventory levels. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Performing an Examination Engagement

.40 The practitioner should exercise (a) due professional care in planning, performing, and evaluating the results of his or her examination procedures and (b) the proper degree of professional skepticism to obtain reasonable assurance that material misstatements will be detected.

.41 In an examination of MD&A, the practitioner should perform the following.

- a. Obtain an understanding of the rules and regulations adopted by the SEC for MD&A and management's method of preparing MD&A. (See paragraphs .18–.19.)
- b. Plan the engagement. (See paragraphs .42–.48.)
- c. Consider relevant portions of the entity's internal control applicable to the preparation of MD&A. (See paragraphs .49–.58.)
- d. Obtain sufficient evidence, including testing completeness. (See paragraphs .59–.64.)
- e. Consider the effect of events subsequent to the balance-sheet date. (See paragraphs .65–.66.)
- f. Obtain written representations from management concerning its responsibility for MD&A, completeness of minutes, events subsequent to the balance-sheet date, and other matters about which the practitioner believes written representations are appropriate. (See paragraphs .110–.112.)
- g. Form an opinion about whether the MD&A presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC, whether the historical financial amounts included therein have been accurately derived, in all material respects, from the entity's financial statements, and whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained in the MD&A. (See paragraph .67.)

Planning the Engagement

General Considerations

.42 Planning an engagement to examine MD&A involves developing an overall strategy for the expected scope and performance of the engagement. When developing an overall strategy for the engagement, the practitioner should consider factors such as the following:

- Matters affecting the industry in which the entity operates, such as financial reporting practices, economic conditions, laws and regulations, and technological changes
- Knowledge of the entity's internal control applicable to the preparation of MD&A obtained during the audit of the financial statements and the extent of recent changes, if any
- Matters relating to the entity's business, including its organization, operating characteristics, capital structure, and distribution methods
- The types of relevant information that management reports to external analysts (for example, press releases and presentations to lenders and rating agencies, if any, concerning past and future performance)
- How the entity analyzes actual performance compared to budgets and the types of information provided in documents submitted to the board of directors for purposes of the entity's day-to-day operations and long-range planning
- The extent of management's knowledge of and experience with the rules and regulations adopted by the SEC for MD&A
- If the entity is a nonpublic entity, the intended use of the MD&A presentation
- Preliminary judgments about (a) materiality, (b) inherent risk at the individual assertion level, and (c) factors (for example, matters identified during the audit or review of the historical financial statements) relating to significant deficiencies in internal control applicable to the preparation of MD&A (See paragraph .58.)
- The fraud risk factors or other conditions identified during the audit of the most recent annual financial statements and the practitioner's response to such risk factors
- The type and extent of evidential matter supporting management's assertions and disclosures in the MD&A presentation
- The nature of complex or subjective matters potentially material to the MD&A presentation that may require special skill or knowledge and whether such matters may require using the work of a specialist to obtain sufficient evidential matter (See paragraph .47.)
- The presence of an internal audit function (See paragraph .48.)

.43 In planning an engagement when MD&A has not previously been examined, the practitioner should consider the degree to which the entity has information available for such prior periods and the continuity of the entity's personnel and their ability to respond to inquiries with respect to such periods. In addition, the practitioner should obtain an understanding of the entity's internal control in prior years applicable to the preparation of MD&A.

Consideration of Audit Results

.44 The practitioner should also consider the results of the audits of the financial statements for the periods covered by the MD&A presentation on the examination engagement, such as matters relating to the following:

- The availability and condition of the entity's records
- The nature and magnitude of audit adjustments

- Misstatements¹⁸ that were not corrected in the financial statements that may affect MD&A disclosures (for example, misclassifications between financial statement line items)

[Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.45 The practitioner should also consider the possible impact on the scope of the examination engagement of any modification or contemplated modification of the auditor's report, including matters addressed in explanatory language. For example, if the auditor has modified the auditor's report to include a going-concern uncertainty explanatory paragraph, the practitioner would consider such a matter in assessing attestation risk.

Multiple Components

.46 In an engagement to examine MD&A, if the entity has operations in several components (for example, locations, branches, subsidiaries, or programs), the practitioner examining the group's MD&A should determine the components to which procedures should be applied. In making such a determination and in selecting the components to be tested, the practitioner examining the group's MD&A should consider factors such as the following:

- The relative importance of each component to the applicable disclosure in the group's MD&A
- The degree of centralization of records
- The effectiveness of controls, particularly those that affect group management's direct control over the exercise of authority delegated to others and its ability to supervise activities at various locations effectively
- The nature and extent of operations conducted at the various components
- The similarity of operations and internal control for different components

The practitioner examining the group's MD&A should consider whether the audit base of the components is consistent with the components that are disclosed in MD&A. Accordingly, it may be desirable for the practitioner examining the group's MD&A to coordinate the audit work with the components that will be disclosed. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Using the Work of a Specialist

.47 In some engagements to examine MD&A, the nature of complex or subjective matters potentially material to the MD&A presentation may require specialized skill or knowledge in a particular field other than accounting or auditing. For example, the entity may include information concerning plant production capacity, which would ordinarily be determined by an engineer. In such cases, the practitioner may use the work of a specialist and should consider the relevant guidance in AU-C section 620, *Using the Work of an Auditor's Specialist*. An auditor's specialist may be either an auditor's internal specialist (for example, a partner of the auditor's firm) or an external specialist. [Revised,

¹⁸ Refer to paragraphs .05–.06 and .11–.13 of AU-C section 320, *Materiality in Planning and Performing an Audit*, and paragraph .10 of AU-C section 450, *Evaluation of Misstatements Identified During the Audit*. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Internal Audit Function

.48 Another factor the practitioner should consider when planning the engagement is whether the entity has an internal audit function and the extent to which internal auditors are involved in directly testing the MD&A presentation, in monitoring the entity's internal control applicable to the preparation of MD&A, or in testing the underlying records supporting disclosures in the MD&A. A practitioner should consider the guidance in AU-C section 610, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, when addressing the competence and objectivity of internal auditors; the nature, timing, and extent of work to be performed; and other related matters. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Consideration of Internal Control Applicable to the Preparation of MD&A

.49 The practitioner should obtain an understanding of the entity's internal control applicable to the preparation of MD&A sufficient to plan the engagement and to assess control risk. Generally, controls that are relevant to an examination pertain to the entity's objective of preparing MD&A in conformity with the rules and regulations adopted by the SEC, and may include controls within the control environment, risk assessment, information and communication, control activities, and monitoring components.

.50 The controls relating to operations and compliance objectives may be relevant to an examination if they pertain to data the practitioner evaluates or uses in applying examination procedures. For example, controls over the gathering of information, which are different from financial statement controls, and controls relating to nonfinancial data that are included in the MD&A presentation, may be relevant to an examination engagement.

.51 In planning the examination, knowledge of such controls should be used to identify types of potential misstatement (including types of potential material omissions), to consider factors that affect the risk of material misstatement and to design appropriate tests.

.52 A practitioner generally obtains an understanding of the design of the entity's internal control applicable to the preparation of MD&A by making inquiries of appropriate management, supervisory, and staff personnel; by inspection of the entity's documents; and by observation of the entity's relevant activities, including controls over matters discussed, nonfinancial data included, and management evaluation of the reasonableness of information included. The nature and extent of procedures a practitioner performs vary from entity to entity and are influenced by factors such as the entity's complexity, the length of time that the entity has prepared MD&A pursuant to the rules and regulations adopted by the SEC, the practitioner's knowledge of the entity's controls obtained in audits and previous professional engagements, and judgments about materiality.

.53 After obtaining an understanding of the entity's internal control applicable to the preparation of MD&A, the practitioner assesses control risk for the assertions embodied in the MD&A presentation. (Refer to paragraphs .34–.39.) The practitioner may assess control risk at the maximum level (the greatest probability that a material misstatement that could occur in an assertion will

not be prevented or detected on a timely basis by an entity's controls) because the practitioner believes controls are unlikely to pertain to an assertion, are unlikely to be effective, or because evaluating their effectiveness would be inefficient. Alternatively, the practitioner may obtain evidential matter about the effectiveness of both the design and operation of a control that supports a lower assessed level of control risk. Such evidential matter may be obtained from tests of controls planned and performed concurrently with obtaining the understanding of the internal control or from procedures performed to obtain the understanding that were not specifically planned as tests of controls.

.54 After obtaining the understanding and assessing control risk, the practitioner may desire to seek a further reduction in the assessed level of control risk for certain assertions. In such cases, the practitioner considers whether evidential matter sufficient to support a further reduction is likely to be available and whether performing additional tests of controls to obtain such evidential matter would be efficient.

.55 When seeking to assess control risk below the maximum for controls over financial and nonfinancial data, the practitioner should perform tests of controls to obtain evidence to support the assessed level of control risk. For example, the practitioner may perform tests of controls directed toward the effectiveness of the design or operation of internal control over the accumulation of the number of units sold for a manufacturing company, average interest rates earned and paid for a financial institution, or average net sales per square foot for a retail entity.

.56 The practitioner uses the knowledge provided by the understanding of internal control applicable to the preparation of MD&A and the assessed level of control risk in determining the nature, timing, and extent of substantive tests for the MD&A assertions.

.57 The practitioner should document the understanding of the internal control components obtained to plan the examination and the assessment of control risk. The form and extent of this documentation is influenced by the size and complexity of the entity, as well as the nature of the entity's controls applicable to the preparation of MD&A.

.58 During the course of an engagement to examine MD&A, the practitioner may become aware of control deficiencies in the design or operation of controls applicable to the preparation of MD&A that could adversely affect the entity's ability to prepare MD&A in accordance with the rules and regulations adopted by the SEC. The practitioner should consider the implications of such control deficiencies on his or her ability to rely on management's explanations and on comparisons to summary accounting records. A practitioner's responsibility to communicate these control deficiencies in an examination of MD&A is similar to the auditor's responsibility described in AU-C section 265, *Communicating Internal Control Related Matters Identified in an Audit*, and AU-C section 260, *The Auditor's Communication With Those Charged With Governance*. [Revised, March 2006, to reflect conforming changes necessary due to the issuance of SAS No. 112. Revised, January 2010, to reflect conforming changes necessary due to the issuance of SAS No. 115. Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Obtaining Sufficient Evidence

.59 The practitioner should apply procedures to obtain reasonable assurance of detecting material misstatements. In an audit of historical financial statements, the practitioner will have applied audit procedures to some of the information included in the MD&A. However, because the objective of those

audit procedures is to have a reasonable basis for expressing an opinion on the financial statements taken as a whole rather than on the MD&A, certain additional examination procedures should be performed as discussed in paragraphs .60–.64. Determining these procedures and evaluating the sufficiency of the evidence obtained are matters of professional judgment.

- .60** The practitioner ordinarily should apply the following procedures.
- a. Read the MD&A and compare the content for consistency with the audited financial statements; compare financial amounts to the audited financial statements or related accounting records and analyses; recompute the increases, decreases, and percentages disclosed.
 - b. Compare nonfinancial amounts to the audited financial statements, if applicable, or to other records. (Refer to paragraphs .62–.64.)
 - c. Consider whether the explanations in MD&A are consistent with the information obtained during the audit; investigate further those explanations that cannot be substantiated by information in the audit working papers through inquiry (including inquiry of officers and other executives having responsibility for operational areas) and inspection of client records.
 - d. Examine internally generated documents (for example, variance analyses, sales analyses, wage cost analyses, sales or service pricing sheets, and business plans or programs) and externally generated documents (for example, correspondence, contracts, or loan agreements) in support of the existence, occurrence, or expected occurrence of events, transactions, conditions, trends, demands, commitments, and uncertainties disclosed in the MD&A.
 - e. Obtain available prospective financial information (for example, budgets; sales forecasts; forecasts of labor, overhead, and materials costs; capital expenditure requests; and financial forecasts and projections) and compare such information to forward-looking MD&A disclosures. Inquire of management as to the procedures used to prepare the prospective financial information. Evaluate whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the MD&A disclosures of events, transactions, conditions, trends, demands, commitments, or uncertainties.¹⁹
 - f. Consider obtaining available prospective financial information relating to prior periods and comparing actual results with forecasted and projected amounts.
 - g. Make inquiries of officers and other executives having responsibility for operational areas (such as sales, marketing, and production) and financial and accounting matters, as to their plans and expectations for the future that could affect the entity's liquidity and capital resources.
 - h. Consider obtaining external information concerning industry trends, inflation, and changing prices and comparing the related MD&A disclosures to such information.
 - i. Compare the information in MD&A with the rules and regulations adopted by the SEC and consider whether the presentation includes the required elements of such rules and regulations.

¹⁹ Refer to paragraph .26 for a discussion concerning the safe harbor rules for forward-looking statements.

- j.* Read the minutes of meetings to date of the board of directors and other significant committees to identify matters that may affect MD&A; consider whether such matters are appropriately addressed in MD&A.
- k.* Inquire of officers as to the entity's prior experience with the SEC and the extent of comments received upon review of documents by the SEC; read correspondence between the entity and the SEC with respect to such review, if any.
- l.* Obtain public communications (for example, press releases and quarterly reports) and the related supporting documentation dealing with historical and future results; consider whether MD&A is consistent with such communications.
- m.* Consider obtaining other types of publicly available information (for example, analyst reports and news articles); compare the MD&A presentation with such information.

Testing Completeness

.61 The practitioner should design procedures to test the presentation for completeness, including tests of the completeness of explanations that relate to historical disclosures as discussed in paragraphs .36–.37. The practitioner should also consider whether the MD&A discloses matters that could significantly impact future financial condition and results of operations of the entity by considering information that he or she obtained through the following:

- a.* Audit of the financial statements
- b.* Inquiries of the entity's officers and other executives directed to current events, conditions, economic changes, commitments and uncertainties, within both the entity and its industry
- c.* Other information obtained through procedures such as those listed in paragraphs .60 and .65–.66

As discussed in paragraph .31, the inherent risk concerning the completeness of disclosures may be high; if it is, the practitioner may extend the procedures (for example, by making additional inquiries of management or by examining additional internally generated documents).

Nonfinancial Data

.62 Management may include nonfinancial data (such as units produced; the number of units sold, locations, or customers; plant utilization; or square footage) in the MD&A. The practitioner should consider whether the definitions used by management for such nonfinancial data are reasonable for the particular disclosure in the MD&A and whether there are suitable criteria (for example, industry standards with respect to square footage for retail operations), as discussed in paragraphs .23–.32 of section 101.

.63 In some situations, the nonfinancial data or the controls over the nonfinancial data may have been tested by the practitioner in conjunction with the financial statement audit; however, the practitioner's consideration of the nature of the procedures to apply to nonfinancial data in an examination of MD&A is based on the concept of materiality with respect to the MD&A presentation. The practitioner should consider whether industry standards

exist for the nonfinancial data or whether there are different methods of measurement that may be used, and, if such methods could result in significantly different results, whether the method of measurement selected by management is reasonable and consistent between periods covered by the MD&A presentation. For example, the number of customers reported by management could vary depending on whether management defines a customer as a subsidiary or "ship to" location of a company rather than the company itself.

.64 In testing nonfinancial data included in the MD&A, the practitioner may seek to assess control risk below the maximum for controls over such nonfinancial data, as discussed in paragraph .55. The practitioner weighs the increase in effort of the examination associated with the additional tests of controls that is necessary to obtain evidential matter against the resulting decrease in examination effort associated with the reduced substantive tests. For those nonfinancial assertions for which the practitioner performs additional tests of controls, the practitioner determines the assessed level of control risk that the results of those tests will support. This assessed level of control risk is used in determining the appropriate detection risk to accept for those nonfinancial assertions and, accordingly, in determining the nature, timing, and extent of substantive tests for such assertions.

Consideration of the Effect of Events Subsequent to the Balance-Sheet Date

.65 As there is an expectation by the SEC that MD&A considers events through a date at or near the filing date,²⁰ the practitioner should consider information about events²¹ that comes to his or her attention after the end of the period addressed by MD&A and prior to the issuance of his or her report that may have a material effect on the entity's financial condition (including liquidity and capital resources), changes in financial condition, results of operations, and material commitments for capital resources. Events or matters that should be disclosed in MD&A include those that—²²

- Are reasonably expected to have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations.
- Are reasonably likely to result in the entity's liquidity increasing or decreasing in any material way.
- Will have a material effect on the entity's capital resources.
- Would cause reported financial information not to be necessarily indicative of future operating results or of future financial condition.

The practitioner should consider whether events identified during the examination of the MD&A presentation or the audit of the related financial statements require adjustment to or disclosure in the MD&A presentation. When MD&A will be included or incorporated by reference in a 1933 Act document that is filed with the SEC, the practitioner's procedures should extend up to the filing

²⁰ A registration statement under the 1933 Act speaks as of its effective date.

²¹ Such events are only referred to as *subsequent events* in relation to an MD&A presentation if they occur after the MD&A presentation has been issued. The annual MD&A presentation ordinarily would not be updated for subsequent events if an MD&A presentation for a subsequent interim period has been issued or the event has been reported through a filing on Form 8-K.

²² The practitioner should refer to the rules and regulations adopted by the SEC for other examples of events that should be disclosed.

date or as close to it as is reasonable and practicable in the circumstances.²³ If a public entity's MD&A presentation is to be included only in a filing under the 1934 Act (for example, Forms 10-K or 10-KSB), the practitioner's responsibility to consider subsequent events does not extend beyond the date of the report on MD&A. Paragraphs .94–.98 provide guidance when the practitioner is engaged subsequent to the filing of the MD&A presentation.

.66 In an examination of MD&A, the practitioner's fieldwork ordinarily extends beyond the date of the auditor's report on the related financial statements.²⁴ Accordingly, the practitioner generally should—

- a. Read available minutes of meetings of stockholders, the board of directors, and other appropriate committees; as to meetings for which minutes are not available, inquire about matters dealt with at such meetings.
- b. Read the latest available interim financial statements for periods subsequent to the date of the auditor's report, compare them with the financial statements for the periods covered by the MD&A, and inquire of and discuss with officers and other executives having responsibility for operational, financial, and accounting matters (limited where appropriate to major locations) matters such as the following:
 - Whether interim financial statements have been prepared on the same basis as the audited financial statements
 - Whether there were any significant changes in the entity's operations, liquidity, or capital resources in the subsequent period
 - The current status of items in the financial statements for which the MD&A has been prepared that were accounted for on the basis of tentative, preliminary, or inconclusive data
 - Whether any unusual adjustments were made during the period from the balance-sheet date to the date of inquiry
- c. Make inquiries of members of senior management as to the current status of matters concerning litigation, claims, and assessments identified during the audit of the financial statements and of any new matters or unfavorable developments. Consider obtaining updated legal letters from legal counsel.²⁵
- d. Consider whether there have been any changes in economic conditions or in the industry that could have a significant effect on the entity.

²³ Additionally, if the practitioner's report on MD&A is included or incorporated by reference in a 1933 Act document, the practitioner should extend his or her procedures with respect to subsequent events from the date of his or her report on MD&A up to the effective date or as close thereto as is reasonable and practicable in the circumstances.

²⁴ Undertaking an engagement to examine MD&A does not extend the auditor's responsibility to update the subsequent events review procedures for the financial statements beyond the date of the auditor's report. However, see AU-C section 560, *Events and Subsequently Discovered Facts*. Also, see AU-C section 925, *Filings With the U.S. Securities and Exchange Commission Under the Securities Act of 1933*, as to an auditor's responsibility when his or her report is included in a registration statement filed under the 1933 Act. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

²⁵ See paragraphs .16–.24 of AU-C section 501, *Audit Evidence—Specific Considerations for Selected Items*, for guidance concerning obtaining legal letters. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

- e. Obtain written representations from appropriate officials as to whether any events occurred subsequent to the latest balance-sheet date that would require disclosure in the MD&A. (See paragraphs .110–.112.)
- f. Make such additional inquiries or perform such other procedures as considered necessary and appropriate to address questions that arise in carrying out the foregoing procedures, inquiries, and discussions.

Forming an Opinion

.67 The practitioner should consider the concept of materiality discussed in paragraphs .21–.22, and the impact of any modification of the auditor's report on the historical financial statements in forming an opinion on the examination of MD&A, including the practitioner's ability to evaluate the results of inquiries and other procedures.

Reporting

.68 In order for the practitioner to issue a report on an examination of MD&A, the financial statements for the periods covered by the MD&A presentation and the related auditor's report(s) should accompany the MD&A presentation (or, with respect to a public entity, be incorporated in the document containing the MD&A by reference to information filed with a regulatory agency). In addition, if the entity is a nonpublic entity, one of the following conditions should be met.

- a. A statement should be included in the body of the MD&A presentation that it has been prepared using the rules and regulations adopted by the SEC.
- b. A separate written assertion should accompany the MD&A presentation or such assertion should be included in a representation letter obtained from the entity.

.69 The practitioner's report on an examination of MD&A should include the following:

- a. A title that includes the word *independent*
- b. An identification of the MD&A presentation, including the period covered
- c. A statement that management is responsible for the preparation of the MD&A pursuant to the rules and regulations adopted by the SEC, and a statement that the practitioner's responsibility is to express an opinion on the presentation based on his or her examination
- d. A reference to the auditor's report on the related financial statements, and if the report was other than a standard report, the substantive reasons therefor
- e. A statement that the examination was conducted in accordance with attestation standards established by the AICPA and a description of the scope of an examination of MD&A
- f. A statement that the practitioner believes the examination provides a reasonable basis for his or her opinion

- g.* A paragraph stating that—
- (1) The preparation of MD&A requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information
 - (2) Actual results in the future may differ materially from management's present assessment of information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties
- h.* If the entity is a nonpublic entity, a statement that, although the entity is not subject to the rules and regulations of the SEC, the MD&A presentation is intended to be a presentation in accordance with the rules and regulations adopted by the SEC
- i.* The practitioner's opinion on whether—
- (1) The presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC
 - (2) The historical financial amounts have been accurately derived, in all material respects, from the entity's financial statements
 - (3) The underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein
- j.* The manual or printed signature of the practitioner's firm
- k.* The date of the examination report

Appendix A [paragraph .114], "Examination Reports," includes a standard examination report. (See Example 1.)

Dating

.70 The practitioner's report on the examination of MD&A should be dated as of the completion of the practitioner's examination procedures. That date should not precede the date of the auditor's report on the latest historical financial statements covered by the MD&A.

Report Modifications

.71 The practitioner should modify the standard report described in paragraph .69, if any of the following conditions exist.

- The presentation excludes a material required element under the rules and regulations adopted by the SEC. (See paragraph .72.)
- The historical financial amounts have not been accurately derived, in all material respects, from the entity's financial statements. (See paragraph .72.)
- The underlying information, determinations, estimates, and assumptions used by management do not provide the entity with a reasonable basis for the disclosure in the MD&A. (See paragraph .72.)
- There is a restriction on the scope of the engagement. (See paragraph .73.)

- The practitioner decides to refer to the report of another practitioner as the basis in part for his or her report. (See paragraph .74.)
- The practitioner is engaged to examine the MD&A presentation after it has been filed with the SEC or other regulatory agency. (See paragraphs .94–.98.)

.72 The practitioner should express a qualified or an adverse opinion if (a) the MD&A presentation excludes a material required element, (b) historical financial amounts have not been accurately derived in all material respects, or (c) the underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures; for example, if there is a lack of consistency between management's method of measuring nonfinancial data between periods covered by the MD&A presentation. The basis for such opinion should be stated in the practitioner's report. Appendix A [paragraph .114] includes several examples of such modifications. (See Example 2.) Also refer to paragraph .107 for required communications with the audit committee.

.73 If the practitioner is unable to perform the procedures he or she considers necessary in the circumstances, the practitioner should modify the report or withdraw from the engagement. If the practitioner modifies the report, he or she should describe the limitation on the scope of the examination in an explanatory paragraph and qualify his or her opinion, or disclaim an opinion. However, limitations on the ability of the practitioner to perform necessary procedures could also arise because of the lack of adequate support for a significant representation in the MD&A. That circumstance may result in a conclusion that the unsupported representation constitutes a material misstatement of fact and, accordingly, the practitioner may qualify his or her opinion or express an adverse opinion, as described in paragraph .72.

Reference to Report of Another Practitioner

.74 If another practitioner examined the MD&A presentation of a component (refer to paragraph .46), the practitioner examining the group's MD&A may decide to make reference to such report of the component practitioner as a basis for his or her opinion on the group's consolidated MD&A presentation. The practitioner examining the group's MD&A should disclose this fact in the introductory paragraph of the report and should refer to the report of the component practitioner in expressing an opinion on the group's consolidated MD&A presentation. These references indicate (1) that the practitioner examining the group's MD&A is not taking responsibility for the work of the component practitioner, and (2) the source of the examination evidence with respect to those components for which reference to the examination of component practitioners is made. Appendix A [paragraph .114] provides an example of a report for such a situation. (See example 3.) Refer to paragraph .105 for guidance when the other practitioner does not issue a report. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Emphasis of a Matter

.75 In a number of circumstances, the practitioner may wish to emphasize a matter regarding the MD&A presentation. For example, he or she may wish to emphasize that the entity has included information beyond the required elements of the rules and regulations adopted by the SEC. Such explanatory comments should be presented in a separate paragraph of the practitioner's report.

Review Engagement

.76 The objective of a review engagement, including a review of MD&A for an interim period, is to accumulate sufficient evidence to provide the practitioner with a basis for reporting whether any information came to the practitioner's attention to cause him or her to believe that (a) the MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC, (b) the historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements, or (c) the underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein. MD&A for an interim period may be a free-standing presentation or it may be combined with the MD&A presentation for the most recent fiscal year. Procedures for conducting a review of MD&A generally are limited to inquiries and analytical procedures, rather than also including search and verification procedures, concerning factors that have a material effect on financial condition, including liquidity and capital resources, results of operations, and cash flows. In a review engagement, the practitioner should—

- a. Obtain an understanding of the rules and regulations adopted by the SEC for MD&A and management's method of preparing MD&A. (See paragraphs .18–.19.)
- b. Plan the engagement. (See paragraph .77.)
- c. Consider relevant portions of the entity's internal control applicable to the preparation of the MD&A. (See paragraph .78.)
- d. Apply analytical procedures and make inquiries of management and others. (See paragraphs .79–.80.)
- e. Consider the effect of events subsequent to the balance-sheet date. The practitioner's consideration of such events in a review of MD&A is similar to the practitioner's consideration in an examination. (See paragraphs .65–.66.)
- f. Obtain written representations from management concerning its responsibility for MD&A, completeness of minutes, events subsequent to the balance-sheet date, and other matters about which the practitioner believes written representations are appropriate. (See paragraph .110.)
- g. Form a conclusion as to whether any information came to the practitioner's attention that causes him or her to believe any of the following.
 - (1) The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC.
 - (2) The historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements.
 - (3) The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein.

Planning the Engagement

.77 Planning an engagement to review MD&A involves developing an overall strategy for the analytical procedures and inquiries to be performed. When developing an overall strategy for the review engagement, the practitioner should consider factors such as the following:

- Matters affecting the industry in which the entity operates, such as financial reporting practices, economic conditions, laws and regulations, and technological changes
- Matters relating to the entity's business, including its organization, operating characteristics, capital structure, and distribution methods
- The types of relevant information that management reports to external analysts (for example, press releases or presentations to lenders and rating agencies concerning past and future performance)
- The extent of management's knowledge of and experience with the rules and regulations adopted by the SEC for MD&A
- If the entity is a nonpublic entity, the intended use of the MD&A presentation
- Matters identified during the audit or review of the historical financial statements relating to MD&A reporting, including knowledge of the entity's internal control applicable to the preparation of MD&A and the extent of recent changes, if any
- Matters identified during prior engagements to examine or review MD&A
- Preliminary judgments about materiality
- The nature of complex or subjective matters potentially material to the MD&A that may require special skill or knowledge
- The presence of an internal audit function and the extent to which internal auditors are involved in directly testing the MD&A presentation or underlying records

Consideration of Internal Control Applicable to the Preparation of MD&A

.78 To perform a review of MD&A, the practitioner needs to have sufficient knowledge of the entity's internal control applicable to the preparation of MD&A to—

- Identify types of potential misstatements in MD&A, including types of material omissions, and consider the likelihood of their occurrence.
- Select the inquiries and analytical procedures that will provide a basis for reporting whether any information causes the practitioner to believe the following.
 - The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC, or the historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements.
 - The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein.

Application of Analytical Procedures and Inquiries

.79 The practitioner ordinarily would not obtain corroborating evidential matter of management's responses to the practitioner's inquiries in performing

a review of MD&A. The practitioner should, however, consider the consistency of management's responses in light of the results of other inquiries and the application of analytical procedures. The practitioner ordinarily should apply the following analytical procedures and inquiries.

- a. Read the MD&A presentation and compare the content for consistency with the audited financial statements (or reviewed interim financial information if MD&A includes interim information); compare financial amounts to the audited or reviewed financial statements or related accounting records and analyses; recompute the increases, decreases, and percentages disclosed.
- b. Compare nonfinancial amounts to the audited (or reviewed) financial statements, if applicable, or to other records. (Refer to paragraph .80.)
- c. Consider whether the explanations in MD&A are consistent with the information obtained during the audit or the review of interim financial information; make further inquiries of officers and other executives having responsibility for operational areas as necessary.
- d. Obtain available prospective financial information (for example, budgets; sales forecasts; forecasts of labor, overhead, and materials costs; capital expenditure requests; and financial forecasts and projections) and compare such information to forward-looking MD&A disclosures. Inquire of management as to the procedures used to prepare the prospective financial information. Consider whether information came to the practitioner's attention that causes him or her to believe that the underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures of trends, demands, commitments, events, or uncertainties.²⁶
- e. Make inquiries of officers and other executives having responsibility for operational areas (such as sales, marketing, and production) and financial and accounting matters, as to any plans and expectations for the future that could affect the entity's liquidity and capital resources.
- f. Compare the information in MD&A with the rules and regulations adopted by the SEC and consider whether the presentation includes the required elements of such rules and regulations.
- g. Read the minutes of meetings to date of the board of directors and other significant committees to identify actions that may affect MD&A; consider whether such matters are appropriately addressed in the MD&A presentation.
- h. Inquire of officers as to the entity's prior experience with the SEC and the extent of comments received upon review of documents by the SEC; read correspondence between the entity and the SEC with respect to such review, if any.
- i. Inquire of management regarding the nature of public communications (for example, press releases and quarterly reports) dealing with historical and future results and consider whether the MD&A presentation is consistent with such communications.

²⁶ Refer to paragraph .26 for a discussion concerning the safe harbor rules for forward-looking statements.

.80 If nonfinancial data are included in the MD&A presentation, the practitioner should inquire as to the nature of the records from which such information was derived and observe the existence of such records, but need not perform other tests of such records beyond analytical procedures and inquiries of individuals responsible for maintaining them. The practitioner should consider whether such nonfinancial data are relevant to users of the MD&A presentation and whether such data are clearly defined in the MD&A presentation. The practitioner should make inquiries regarding whether the definition of the nonfinancial data was consistently applied during the periods reported.

.81 However, if the practitioner becomes aware that the presentation may be incomplete or contain inaccuracies, or is otherwise unsatisfactory, the practitioner should perform the additional procedures he or she deems necessary to achieve the limited assurance contemplated by a review engagement.

Reporting

.82 In order for the practitioner to issue a report on a review of MD&A for an annual period, the financial statements for the periods covered by the MD&A presentation and the related auditor's report(s) should accompany the MD&A presentation (or with respect to a public entity be incorporated in the document containing the MD&A by reference to information filed with a regulatory agency).

.83 If the MD&A presentation relates to an interim period and the entity is a public entity, the financial statements for the interim periods covered by the MD&A presentation and the related accountant's review report(s) should accompany the MD&A presentation, or be incorporated in the document containing the MD&A by reference to information filed with a regulatory agency. The comparative financial statements for the most recent annual period and the related MD&A should accompany the MD&A presentation for the interim period, or be incorporated by reference to information filed with a regulatory agency. Generally, the requirement for inclusion of the annual financial statements and related MD&A is satisfied by a public entity that has met its reporting responsibility for filing its annual financial statements and MD&A in its annual report on Form 10-K.

.84 If the MD&A presentation relates to an interim period and the entity is a nonpublic entity, the following documents should accompany the interim MD&A presentation in order for the practitioner to issue a review report:

- a.* The MD&A presentation for the most recent fiscal year and related accountant's examination or review report(s)
- b.* The financial statements for the periods covered by the respective MD&A presentations (most recent fiscal year and interim periods and the related auditor's report(s) and accountant's review report(s))

In addition, one of the following conditions should be met.

- A statement should be included in the body of the MD&A presentation that it has been prepared using the rules and regulations adopted by the SEC.
- A separate written assertion should accompany the MD&A presentation or such assertion should be included in a representation letter obtained from the entity.

.85 The practitioner's report on a review of MD&A should include the following:

- a. A title that includes the word *independent*
- b. An identification of the MD&A presentation, including the period covered
- c. A statement that management is responsible for the preparation of the MD&A pursuant to the rules and regulations adopted by the SEC
- d. A reference to the auditor's report on the related financial statements, and, if the report was other than a standard report, the substantive reasons therefor
- e. A statement that the review was conducted in accordance with attestation standards established by the AICPA
- f. A description of the procedures for a review of MD&A
- g. A statement that a review of MD&A is substantially less in scope than an examination, the objective of which is an expression of opinion regarding the MD&A presentation, and accordingly, no such opinion is expressed
- h. A paragraph stating that—
 - (1) The preparation of MD&A requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information
 - (2) Actual results in the future may differ materially from management's present assessment of information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties
- i. If the entity is a nonpublic entity, a statement that although the entity is not subject to the rules and regulations of the SEC, the MD&A presentation is intended to be a presentation in accordance with the rules and regulations adopted by the SEC
- j. A statement about whether any information came to the practitioner's attention that caused him or her to believe that—
 - (1) The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC
 - (2) The historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements
 - (3) The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein
- k. If the entity is a public entity as defined in paragraph .02, or a nonpublic entity that is making or has made an offering of securities and it appears that the securities may subsequently be registered or

subject to a filing with the SEC or other regulatory agency (for example, certain offerings of securities under Rule 144A of the 1933 Act that purport to conform to Regulation S-K), a statement of restrictions on the use of the report to specified parties, because it is not intended to be filed with the SEC as a report under the 1933 Act or the 1934 Act.

- l.* The manual or printed signature of the practitioner's firm
- m.* The date of the review report

Appendix B [paragraph .115], "Review Reports," provides examples of a standard review report for an annual and interim period.

Dating

.86 The practitioner's report on the review of MD&A should be dated as of the completion of the practitioner's review procedures. That date should not precede the date of the accountant's report on the latest historical financial statements covered by the MD&A.

Report Modifications

.87 The practitioner should modify the standard review report described in paragraph .86 if any of the following conditions exist.

- The presentation excludes a material required element of the rules and regulations adopted by the SEC. (See paragraph .89.)
- The historical financial amounts have not been accurately derived, in all material respects, from the entity's financial statements. (See paragraph .89.)
- The underlying information, determinations, estimates, and assumptions used by management do not provide the entity with a reasonable basis for the disclosures in the MD&A. (See paragraph .89.)
- The practitioner decides to refer to the report of another practitioner as the basis, in part, for his or her report. (See paragraph .90.)
- The practitioner is engaged to review the MD&A presentation after it has been filed with the SEC or other regulatory agency. (See paragraphs .94–.98.)

.88 When the practitioner is unable to perform the inquiry and analytical procedures he or she considers necessary to achieve the limited assurance provided by a review, or the client does not provide the practitioner with a representation letter, the review will be incomplete. A review that is incomplete is not an adequate basis for issuing a review report. If the practitioner is unable to complete a review because of a scope limitation, the practitioner should consider the implications of that limitation with respect to possible misstatements of the MD&A presentation. In those circumstances, the practitioner should also refer to paragraphs .107–.109 for guidance concerning communications with the audit committee.

.89 If the practitioner becomes aware that the MD&A is materially misstated, the practitioner should modify the review report to describe the nature of the misstatement. Appendix B [paragraph .115] contains an example of such a modification of the accountant's report. (See Example 3.)

.90 If another practitioner reviewed or examined the MD&A for a material component, the practitioner may decide to make reference to such report of the other practitioner in reporting on the consolidated MD&A presentation. Such reference indicates a division of responsibility for performance of the review.

Emphasis of a Matter

.91 In some circumstances, the practitioner may wish to emphasize a matter regarding the MD&A presentation. For example, he or she may wish to emphasize that the entity has included information beyond the required elements of the rules and regulations adopted by the SEC. Such explanatory comments should be presented in a separate paragraph of the practitioner's report.

Combined Examination and Review Report on MD&A

.92 A practitioner may be engaged both to examine an MD&A presentation as of the most recent fiscal year-end and to review a separate MD&A presentation for a subsequent interim period. If the examination and review are completed at the same time, a combined report may be issued. Appendix C [paragraph .116], "Combined Reports," contains an example of a combined report on an examination of an annual MD&A presentation and the review of a separate MD&A presentation for an interim period. (See Example 1.)

.93 If an entity prepares a combined MD&A presentation for annual and interim periods in which there is a discussion of liquidity and capital resources only as of the most recent interim period but not as of the most recent annual period, the practitioner is limited to performing the highest level of service that is provided with respect to the historical financial statements for any of the periods covered by the MD&A presentation. For example, if the annual financial statements have been audited and the interim financial statements have been reviewed, the practitioner may be engaged to perform a review of the combined MD&A presentation. Appendix C [paragraph .116] contains an example of a review report on a combined MD&A presentation for annual and interim periods. (See Example 2.)

When Practitioner Is Engaged Subsequent to the Filing of MD&A

.94 Management's responsibility for updating an MD&A presentation for events occurring subsequent to the issuance of MD&A depends on whether the entity is a public or nonpublic entity. A public entity is required to report significant subsequent events in a Form 8-K or Form 10-Q, or in a registration statement; therefore, a public company would ordinarily not modify its MD&A presentation once it is filed with the SEC (or other regulatory agency).

.95 Therefore, if the practitioner is engaged to examine (or review) an MD&A presentation of a public entity that has already been filed with the SEC (or other regulatory agency), the practitioner should consider whether material subsequent events are appropriately disclosed in a Form 8-K or 10-Q, or a registration statement that includes or incorporates by reference such MD&A presentation. Refer to paragraphs .65–.66 for guidance concerning consideration of events up to the filing date when the practitioner's report on MD&A will be included (or incorporated by reference) in a 1933 Act document filed with the SEC that will require a consent.

.96 If subsequent events of a public entity are appropriately disclosed in a Form 8-K or 10-Q, or in a registration statement, or if there have been no material subsequent events, the practitioner should add the following paragraph to his or her examination or review report following the opinion or concluding paragraph, respectively.

The accompanying Management's Discussion and Analysis does not consider events that have occurred subsequent to Month XX, 20X6, the date as of which it was filed with the Securities and Exchange Commission.

.97 If there has been a material subsequent event that has not been disclosed in a manner described in paragraph .95 and if the practitioner determines that it is appropriate to issue a report even though the MD&A presentation has not been updated for such material subsequent event (for example, because the filing of the Form 10-Q that will disclose such events has not yet occurred), the practitioner should express a qualified or an adverse opinion (or appropriately modify the review report) on the MD&A presentation. As discussed in paragraph .107, if such material subsequent event is not appropriately disclosed, the practitioner should evaluate (a) whether to resign from the engagement related to the MD&A presentation and (b) whether to remain as the entity's auditor or stand for re-election to audit the entity's financial statements.

.98 Because a nonpublic entity is not subject to the filing requirements of the SEC, an MD&A presentation of a nonpublic entity should be updated for material subsequent events through the date of the practitioner's report.

When a Predecessor Auditor Has Audited Prior Period Financial Statements

.99 If a predecessor auditor has audited the financial statements for a prior period covered by the MD&A, the need by the practitioner reporting on the MD&A for an understanding of the business and the entity's accounting and financial reporting practices for such prior period, as discussed in paragraph .07, is not diminished and the practitioner should apply the appropriate procedures. In applying the appropriate procedures, the practitioner may consider reviewing the predecessor auditor's working papers with respect to audits of financial statements and examinations or reviews of MD&A presentations for such prior periods.

.100 Information that may be obtained from the audit or attest working papers of the predecessor auditor will not provide a sufficient basis in itself for the practitioner to express an opinion with respect to the MD&A disclosures for such prior periods. If the practitioner has audited the current year, the results of such audit may be considered in planning and performing the examination of MD&A and may provide evidential matter that is useful in performing the examination, including with respect to matters disclosed for prior periods. For example, an increase in salaries expense may be the result of an acquisition in the last half of the prior year. Auditing procedures applied to payroll expense in the current year that validate the increase as a result of the acquisition may provide evidential matter with respect to the increase in salaries expense in the prior year attributed to the acquisition.

.101 In addition to the procedures described in paragraphs .49–.66, the practitioner will need to make inquiries of the predecessor auditor and management as to audit adjustments proposed by the predecessor auditor that were not recorded in the financial statements.

Communications Between Predecessor and Successor Auditors

.102 If the practitioner is appointed as the successor auditor, he or she follows the guidance AU-C section 210, *Terms of Engagement*, in considering whether or not to accept the engagement. If, at the time of the appointment as auditor, the practitioner is also being engaged to examine or review MD&A, the practitioner should also make specific inquiries of the predecessor auditor regarding MD&A. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.103 The practitioner's examination may be facilitated by (a) making specific inquiries of the predecessor regarding matters that the successor believes may affect the conduct of the examination (or review), such as areas that required an inordinate amount of time or problems that arose from the condition of the records, and (b) if the predecessor previously examined or reviewed MD&A, reviewing the predecessor's working papers for the predecessor's examination or review engagement.

.104 If, subsequent to his or her engagement to audit the financial statements, the practitioner is requested to examine MD&A, the practitioner should request the client to authorize the predecessor auditor to allow a review of the predecessor's audit working papers related to the financial statement periods included in the MD&A presentation. Although the practitioner may previously have had access to the predecessor auditor's working papers in connection with the successor's audit of the financial statements, ordinarily the predecessor auditor should permit the practitioner to review those audit working papers relating to matters that are disclosed or that would likely be disclosed in MD&A.

Another Auditor Audits a Significant Part of the Financial Statements

.105 When one or more component auditors audits a significant part of a group's financial statements, the practitioner²⁷ may request that the component auditor perform procedures with respect to the MD&A or the practitioner may perform the procedures directly with respect to such component(s).²⁸ Unless the component auditor issues an examination or review report on a separate MD&A presentation of such component(s) (see paragraph .74), the practitioner examining the group's MD&A should not make reference to the work of the component practitioner on MD&A in his or her report on MD&A.²⁹ Accordingly, if the practitioner examining the group's MD&A has requested such component auditor to perform procedures, the practitioner examining the group's MD&A should perform those procedures that he or she considers necessary to take responsibility for the work of the other auditor. Such procedures may include one or more of the following:

- a. Visiting the component auditor and discussing the procedures followed and the results thereof.

²⁷ The practitioner serving as auditor of the group's financial statements is presumed to have an audit base for purposes of examining or reviewing the consolidated MD&A presentation. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

²⁸ The practitioner should consider whether he or she has sufficient industry expertise with respect to a subsidiary audited by a component auditor to take sole responsibility for the group's consolidated MD&A presentation. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

²⁹ This does not preclude the practitioner from referring to the component auditor's report on the financial statements in his or her report on the group's MD&A. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

- b. Reviewing the working papers of the component auditor with respect to the component.
- c. Participating in discussions with the component's management regarding matters that may affect the preparation of the component's MD&A.
- d. Making supplemental tests with respect to such component.

The determination of the extent of the procedures to be applied by the practitioner examining the group's MD&A rests with that practitioner alone in the exercise of his or her professional judgment and in no way constitutes a reflection on the adequacy of the component auditor's work. Because the practitioner examining the group's MD&A in this case assumes responsibility for his or her opinion on the MD&A presentation without making reference to the procedures performed by the other auditor, the judgment of the practitioner examining the group's MD&A should govern as to the extent of procedures to be undertaken. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Responsibility for Other Information in Documents Containing MD&A

.106 A client may publish annual reports containing MD&A and other documents to which the practitioner, at the client's request, devotes attention. See paragraphs .91–.94 of section 101 for pertinent guidance in these circumstances. See Appendix D of this section [paragraph .117], "Comparison of Activities Performed Under SAS No. 8, *Other Information in Documents Containing Audited Financial Statements*, Versus a Review or an Examination Attest Engagement." The guidance in AU-C section 925, *Filings With the U.S. Securities and Exchange Commission Under the Securities Act of 1933*, is pertinent when the practitioner's report on MD&A is included in a registration statement, proxy statement, or periodic report filed under the federal securities statutes. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Communications With the Audit Committee

.107 If the practitioner concludes that the MD&A presentation contains material inconsistencies with other information included in the document containing the MD&A presentation or with the historical financial statements,³⁰ material omissions, or material misstatements of fact, and management refuses to take corrective action, the practitioner should inform the audit committee or others with equivalent authority and responsibility. If the MD&A is not revised, the practitioner should evaluate (a) whether to resign from the engagement related to the MD&A, and (b) whether to remain as the entity's auditor or stand for re-election to audit the entity's financial statements. The practitioner may wish to consult with his or her attorney when making these evaluations.

.108 If the practitioner is engaged after the MD&A presentation has been filed with the SEC (or other regulatory agency), and becomes aware that such MD&A presentation on file with the SEC (or other regulatory agency) has not been revised for a matter for which the practitioner has or would qualify his or her opinion, the practitioner should discuss such matter with the audit commit-

³⁰ See AU-C section 720, *Information in Documents Containing Audited Financial Statements*, for guidance on the impact of material inconsistencies or material misstatements of fact on the auditor's report on the related historical financial statements. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

tee and request that the MD&A presentation be revised. If the audit committee fails to take appropriate action, the practitioner should consider whether to resign as the independent auditor of the company. The practitioner may consider paragraphs .21–.23 and .27 of AU-C section 250, *Consideration of Laws and Regulations in an Audit of Financial Statements*, concerning communication with the audit committee and other considerations. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.109 If, as a result of performing an examination or a review of MD&A, the practitioner has determined that there is evidence that fraud may exist, that matter should be brought to the attention of an appropriate level of management. This is generally appropriate even if the matter might be considered clearly inconsequential. If the matter relates to the audited financial statements, the practitioner should consider the guidance in AU-C section 240, *Consideration of Fraud in a Financial Statement Audit*, concerning communication responsibilities, and the effect on the auditor's report on the financial statements. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Obtaining Written Representations

.110 In an examination or a review engagement, the practitioner should obtain written representations from management.³¹ The specific written representations obtained by the practitioner will depend on the circumstances of the engagement and the nature of the MD&A presentation. Specific representations should relate to the following matters:

- a. Management's acknowledgment of its responsibility for the preparation of MD&A and management's assertion that the MD&A presentation has been prepared in accordance with the rules and regulations adopted by the SEC for MD&A³²
- b. A statement that the historical financial amounts included in MD&A have been accurately derived from the entity's financial statements
- c. Management's belief that the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained in the MD&A
- d. A statement that management has made available all significant documentation related to compliance with SEC rules and regulations for MD&A
- e. Completeness and availability of all minutes of meetings of stockholders, directors, and committees of directors
- f. For a public entity, whether any communications from the SEC were received concerning noncompliance with or deficiencies in MD&A reporting practices

³¹ Paragraph .21 of AU-C section 580, *Written Representations*, requires that written representations be in the form of a representation letter addressed to the auditor. Paragraph .09b of AU-C section 925 requires the auditor to obtain updated written representations from management at or shortly before the effective date of the registration statement, about (a) whether any information has come to management's attention that would cause management to believe that any of the previous representations should be modified, and (b) whether any events have occurred subsequent to the date of the financial statements that would require adjustment to, or disclosure in, those financial statements. (See paragraph .65.) [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

³² Management should specify the SEC rules (for example, Item 303 of Regulation S-K, Item 303 of Regulation S-B, or Item 9 of Form 20-F). For nonpublic entities, the practitioner also obtains a written assertion that the presentation has been prepared using the rules and regulations adopted by the SEC. (See paragraph .02.)

- g. Whether any events occurred subsequent to the latest balance-sheet date that would require disclosure in the MD&A
- h. If forward-looking information is included, a statement that—
 - The forward-looking information is based on management's best estimate of expected events and operations, and is consistent with budgets, forecasts, or operating plans prepared for such periods
 - The accounting principles expected to be used for the forward-looking information are consistent with the principles used in preparing the historical financial statements
 - Management has provided the latest version of such budgets, forecasts, or operating plans, and has informed the practitioner of any anticipated changes or modifications to such information that could affect the disclosures contained in the MD&A presentation
- i. If voluntary information is included that is subject to the rules and regulations adopted by the SEC (for example, information required by Item 305, *Quantitative and Qualitative Disclosures About Market Risk*), a statement that such voluntary information has been prepared in accordance with the related rules and regulations adopted by the SEC for such information
- j. If pro forma information is included, a statement that—
 - Management is responsible for the assumptions used in determining the pro forma adjustments
 - Management believes that the assumptions provide a reasonable basis for presenting all the significant effects directly attributable to the transaction or event, that the related pro forma adjustments give appropriate effect to those assumptions, and that the pro forma column reflects the proper application of those adjustments to the historical financial statements
 - Management believes that the significant effects directly attributable to the transaction or event are appropriately disclosed in the pro forma financial information

.111 In an examination, management's refusal to furnish written representations constitutes a limitation on the scope of the engagement sufficient to preclude an unqualified opinion and is ordinarily sufficient to cause a practitioner to disclaim an opinion or withdraw from the examination engagement. However, based on the nature of the representations not obtained or the circumstances of the refusal, the practitioner may conclude that a qualified opinion is appropriate in an examination engagement. In a review engagement, management's refusal to furnish written representations constitutes a limitation of the scope of the engagement sufficient to require withdrawal from the review engagement. Further, the practitioner should consider the effects of the refusal on his or her ability to rely on other management representations.

.112 If the practitioner is precluded from performing procedures he or she considers necessary in the circumstances with respect to a matter that is material to the MD&A presentation, even though management has given representations concerning the matter, there is a limitation on the scope of the engagement, and the practitioner should qualify his or her opinion or disclaim an opinion in an examination engagement, or withdraw from a review engagement.

Effective Date

.113 This section is effective when management's discussion and analysis is for a period ending on or after June 1, 2001. Early application is permitted.

.114

Appendix A

Examination Reports

Example 1: Standard Examination Report

1. The following is an illustration of a standard examination report.

Independent Accountant's Report

[Introductory paragraph]

We have examined XYZ Company's Management's Discussion and Analysis taken as a whole, included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]*. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. Our responsibility is to express an opinion on the presentation based on our examination. We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, which comprise the balance sheets as of December 31, 20X5 and 20X4, and the related statements of income, changes in stockholder's equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, and the related notes to the financial statements. In our report dated *[Month]* XX, 20X6, we expressed an unmodified opinion on those financial statements.³³

[Scope paragraph]

Our examination of Management's Discussion and Analysis was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting the historical amounts and disclosures in the presentation. An examination also includes assessing the significant determinations made by management as to the relevancy of information to be included and the estimates and assumptions that affect reported information. We believe that our examination provides a reasonable basis for our opinion.

³³ If prior financial statements were audited by other auditors, this sentence would be replaced by the following.

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X5, and the related statement of income, changes in stockholder's equity, and cash flows for the year then ended, and the related notes to the financial statements. In our report dated *[Month]* XX, 20X6, we expressed an unmodified opinion on those financial statements. The financial statements of XYZ Company; which comprise the balance sheet as of December 31, 20X4, and the related statement of income, changes in stockholder's equity, and cash flows for each of the years in the two-year period then ended, and the notes to the financial statements; were audited by other auditors, whose report dated *[Month]* XX, 20X5, expressed an unmodified opinion on those financial statements.

If the practitioner's opinion on the financial statements is based on the report of component auditors, this sentence would be replaced by the following:

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company which comprise the balance sheets as of December 31, 20X5 and 20X4, and the related statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, and the notes to the financial statements. In our report dated *[Month]* XX, 20X6, we expressed an unmodified opinion on those financial statements based on our audits and the report of component auditors.

Refer to Example 3 if the practitioner's opinion on MD&A is based on the report of another practitioner on a component of the entity. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

*[Explanatory paragraph]*³⁴

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

[Opinion paragraph]

In our opinion, the Company's presentation of Management's Discussion and Analysis includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

Example 2: Modifications to Examination Report for a Qualified Opinion

2. An example of a modification of an examination report for a qualified opinion due to a material omission described in paragraph .72 follows.

[Additional explanatory paragraph preceding the opinion paragraph]

Based on information furnished to us by management, we believe that the Company has excluded a discussion of the significant capital outlay required for its plans to expand into the telecommunications industry and the possible effects on the Company's financial condition, liquidity, and capital resources.

[Opinion paragraph]

In our opinion, except for the omission of the matter described in the preceding paragraph, the Company's presentation of Management's Discussion and Analysis includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

3. An example of a modification of an examination report for a qualified opinion when overly subjective assertions are included in MD&A follows.

[Additional explanatory paragraph preceding the opinion paragraph]

Based on information furnished to us by management, we believe that the underlying information, determinations, estimates, and assumptions used by

³⁴ The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .69h:

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

management do not provide the Company with a reasonable basis for the disclosure concerning *[describe]* in the Company's Management's Discussion and Analysis.

[Opinion paragraph]

In our opinion, except for the disclosure regarding *[describe]* discussed in the preceding paragraph, the Company's presentation of Management's Discussion and Analysis includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

Example 3: Examination Report With Reference to the Report of Another Practitioner

4. The following is an illustration of an examination report indicating a division of responsibility with another practitioner, who has examined a separate MD&A presentation of a wholly-owned subsidiary, when the practitioner reporting is serving as the auditor of the related group's consolidated financial statements.

Independent Accountant's Report

[Introductory paragraphs]

We have examined XYZ Company's Management's Discussion and Analysis taken as a whole, included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]*. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. Our responsibility is to express an opinion on the presentation based on our examination. We did not examine Management's Discussion and Analysis of ABC Corporation, a wholly-owned subsidiary, included in ABC Corporation's *[insert description of registration statement or document]*. Such Management's Discussion and Analysis was examined by other accountants, whose report has been furnished to us, and our opinion, insofar as it relates to information included for ABC Corporation, is based solely on the report of the other accountants.

We have audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated financial statements of XYZ Company, which comprise the consolidated balance sheets as of December 31, 20X5 and 20X4, and the related consolidated statements of income, changes in stockholders' equity, and cash flows, for each of the years in the three-year period ended December 31, 20X5. In our report dated *[Month]* XX, 20X6, we expressed an unmodified opinion on those financial statements based on our audits and the report of other auditors.

[Scope paragraph]

Our examination of Management's Discussion and Analysis was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting the historical amounts and disclosures in the presentation. An examination also includes assessing the significant determinations made by management as to the relevancy of information to be included and the estimates and assumptions that affect reported information. We believe that

our examination and the report of other accountants provide a reasonable basis for our opinion.

*[Explanatory paragraph]*³⁵

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

[Opinion paragraph]

In our opinion, based on our examination and the report of other accountants, the Company's presentation of Management's Discussion and Analysis included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]* includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

[Signature]

[Date]

[Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

³⁵ The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .69*h*.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

Appendix B

Review Reports

Example 1: Standard Review Report on an Annual MD&A Presentation

1. The following is an illustration of a standard review report on an annual MD&A presentation.

Independent Accountant's Report

[Introductory paragraph]

We have reviewed XYZ Company's Management's Discussion and Analysis taken as a whole, included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]*. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, which comprise the balance sheets as of December 31, 20X5 and 20X4, and the related statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5. In our report dated *[Month]* XX, 20X6, we expressed an unqualified opinion on those financial statements.

[Scope paragraph]

We conducted our review of Management's Discussion and Analysis in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review of Management's Discussion and Analysis consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. It is substantially less in scope than an examination, the objective of which is the expression of an opinion on the presentation. Accordingly, we do not express such an opinion.

*[Explanatory paragraph]*³⁶

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

[Concluding paragraph]

³⁶ The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .85*i*.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

Based on our review, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's financial statements, or that the underlying information, determinations, estimates and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

*[Restricted use paragraph]*³⁷

This report is intended solely for the information and use of *[list or refer to specified parties]* and is not intended to be and should not be used by anyone other than the specified parties.

Example 2: Standard Review Report on an Interim MD&A Presentation

2. The following is an illustration of a standard review report on an MD&A presentation for an interim period.

Independent Accountant's Report

[Introductory paragraph]

We have reviewed XYZ Company's Management's Discussion and Analysis taken as a whole included in the Company's *[insert description of registration statement or document]*. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. We have reviewed, in accordance with standards established by the American Institute of Certified Public Accountants, the interim financial information of XYZ Company as of June 30, 20X6 and 20X5, and for the three-month and six-month periods then ended, and have issued our report thereon dated July XX, 20X6.

[Scope paragraph]

We conducted our review of Management's Discussion and Analysis in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review of Management's Discussion and Analysis consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. It is substantially less in scope than an examination, the objective of which is the expression of an opinion on the presentation. Accordingly, we do not express such an opinion.

*[Explanatory paragraph]*³⁸

³⁷ This paragraph may be omitted for certain nonpublic entities. (Refer to paragraph .85k.)

³⁸ The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .85i.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

[Concluding paragraph]

Based on our review, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's financial statements, or that the underlying information, determinations, estimates, and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

*[Restricted use paragraph]*³⁹

This report is intended solely for the information and use of *[list or refer to specified parties]* and is not intended to be and should not be used by anyone other than the specified parties.

[Date]

Example 3: Modification to Review Report for a Material Misstatement

3. An example of a modification of the accountant's report when MD&A is materially misstated, as discussed in paragraph .89, follows.

[Additional explanatory paragraph preceding the concluding paragraph]

Based on information furnished to us by management, we believe that the Company has excluded a discussion of the significant capital outlay required for its plans to expand into the telecommunications industry and the possible effects on the Company's financial condition, liquidity, and capital resources.

[Concluding paragraph]

Based on our review, with the exception of the matter described in the preceding paragraph, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's financial statements, or that the underlying information, determinations, estimates and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

[Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

³⁹ This paragraph may be omitted for certain nonpublic entities. (Refer to paragraph .85*k*.)

.116

Appendix C

Combined Reports

Example 1: Combined Examination and Review Report on MD&A

1. An example of a combined report on an examination of an annual MD&A presentation and the review of MD&A for an interim period discussed in paragraph .92 follows.

Independent Accountant's Report

[Introductory paragraph]

We have examined XYZ Company's Management's Discussion and Analysis taken as a whole for the three-year period ended December 31, 20X5, included [*incorporated by reference*] in the Company's [*insert description of registration statement or document*]. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. Our responsibility is to express an opinion on the annual presentation based on our examination. We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20X5 and 20X4, and for each of the years in the three-year period ended December 31, 19X5, and in our report dated [*Month*] XX, 20X6, we expressed an unqualified opinion on those financial statements.

[Scope paragraph]

Our examination of Management's Discussion and Analysis was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting the historical amounts and disclosures in the presentation. An examination also includes assessing the significant determinations made by management as to the relevancy of information to be included and the estimates and assumptions that affect reported information. We believe that our examination provides a reasonable basis for our opinion.

*[Explanatory paragraph]*⁴⁰

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in

⁴⁰ The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .69h.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

[*Opinion paragraph*]

In our opinion, the Company's presentation of Management's Discussion and Analysis for the three-year period ended December 31, 20X5, includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

[*Paragraphs on interims*]

We have also reviewed XYZ Company's Management's Discussion and Analysis taken as a whole for the six-month period ended June 30, 20X6 included [*incorporated by reference*] in the Company's [*insert description of registration statement or document*]. We have reviewed, in accordance with standards established by the American Institute of Certified Public Accountants, the interim financial information of XYZ Company as of June 30, 20X6 and 20X5, and for the six-month periods then ended, and have issued our report thereon dated July XX, 20X6.

We conducted our review of Management's Discussion and Analysis in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review of Management's Discussion and Analysis consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. It is substantially less in scope than an examination, the objective of which is the expression of an opinion on the presentation. Accordingly, we do not express such an opinion.

Based on our review, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis for the six-month period ended June 30, 20X6, does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's unaudited interim financial statements, or that the underlying information, determinations, estimates, and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

[*Restricted use paragraph*]⁴¹

This report is intended solely for the information and use of [*list or refer to specified parties*] and is not intended to be and should not be used by anyone other than the specified parties.

[*Signature*]

[*Date*]

Example 2: Review Report on a Combined Annual and Interim MD&A Presentation

2. An example of a review report on a combined MD&A presentation for annual and interim periods follows.

⁴¹ This paragraph may be omitted for certain nonpublic entities. (Refer to paragraph .85*k*.)

Independent Accountant's Report*[Introductory paragraph]*

We have reviewed XYZ Company's Management's Discussion and Analysis taken as a whole included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]*. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20X5 and 20X4, and for each of the years in the three-year period ended December 31, 20X5, and in our report dated *[Month]* XX, 20X6, we expressed an unqualified opinion on those financial statements. We have reviewed, in accordance with standards established by the American Institute of Certified Public Accountants, the interim financial information of XYZ Company as of June 30, 20X6 and 20X5, and for the six-month periods then ended, and have issued our report thereon dated July XX, 20X6.

[Scope paragraph]

We conducted our review of Management's Discussion and Analysis in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review of Management's Discussion and Analysis consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. It is substantially less in scope than an examination, the objective of which is the expression of an opinion on the presentation. Accordingly, we do not express such an opinion.

*[Explanatory paragraph]*⁴²

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

[Concluding paragraph]

Based on our review, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's financial statements, or that the underlying information, determinations, estimates, and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

*[Restricted use paragraph]*⁴³

⁴² The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .69*h*.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

⁴³ This paragraph may be omitted for certain nonpublic entities. (Refer to paragraph .85*k*.)

This report is intended solely for the information and use of [*list or refer to specified parties*] and is not intended to be and should not be used by anyone other than the specified parties.

AT Section 801

Reporting on Controls at a Service Organization

(Supersedes the guidance for service auditors in Statement on Auditing Standards No. 70, *Service Organizations*, as amended.)

Source: SSAE No. 16.

Effective for service auditors' reports for periods ending on or after June 15, 2011. Earlier implementation is permitted.

Introduction

Scope of This Section

.01 This section addresses examination engagements undertaken by a service auditor to report on controls at organizations that provide services to user entities when those controls are likely to be relevant to user entities' internal control over financial reporting. It complements AU-C section 402, *Audit Considerations Relating to an Entity Using a Service Organization*, in that reports prepared in accordance with this section may provide appropriate evidence under AU-C section 402. (Ref: par. .A1) [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.02 The focus of this section is on controls at service organizations likely to be relevant to user entities' internal control over financial reporting. The guidance herein also may be helpful to a practitioner performing an engagement under section 101, *Attest Engagements*, to report on controls at a service organization

- a. other than those that are likely to be relevant to user entities' internal control over financial reporting (for example, controls that affect user entities' compliance with specified requirements of laws, regulations, rules, contracts, or grants, or controls that affect user entities' production or quality control). Section 601, *Compliance Attestation*, is applicable if a practitioner is reporting on an entity's own compliance with specified requirements or on its controls over compliance with specified requirements. (Ref: par. .A2–.A3)
- b. when management of the service organization is not responsible for the design of the system (for example, when the system has been designed by the user entity or the design is stipulated in a contract between the user entity and the service organization). (Ref: par. .A4)

.03 In addition to performing an examination of a service organization's controls, a service auditor may be engaged to (a) examine and report on a user entity's transactions or balances maintained by a service organization, or (b) perform and report the results of agreed upon procedures related to the controls of a service organization or to transactions or balances of a user entity

maintained by a service organization. However, these engagements are not addressed in this section.

.04 The requirements and application material in this section are based on the premise that management of the service organization (also referred to as management) will provide the service auditor with a written assertion that is included in or attached to management's description of the service organization's system. Paragraph .10 of this section addresses the circumstance in which management refuses to provide such a written assertion. Section 101 indicates that when performing an attestation engagement, a practitioner may report directly on the subject matter or on management's assertion. For engagements conducted under this section, the service auditor is required to report directly on the subject matter.

Effective Date

.05 This section is effective for service auditors' reports for periods ending on or after June 15, 2011. Earlier implementation is permitted.

Objectives

.06 The objectives of the service auditor are to

- a. obtain reasonable assurance about whether, in all material respects, based on suitable criteria,
 - i. management's description of the service organization's system fairly presents the system that was designed and implemented throughout the specified period (or in the case of a type 1 report, as of a specified date).
 - ii. the controls related to the control objectives stated in management's description of the service organization's system were suitably designed throughout the specified period (or in the case of a type 1 report, as of a specified date).
 - iii. when included in the scope of the engagement, the controls operated effectively to provide reasonable assurance that the control objectives stated in management's description of the service organization's system were achieved throughout the specified period.
- b. report on the matters in 6(a) in accordance with the service auditor's findings.

Definitions

.07 For purposes of this section, the following terms have the meanings attributed in the subsequent text:

Carve-out method. Method of addressing the services provided by a subservice organization whereby management's description of the service organization's system identifies the nature of the services performed by the subservice organization and excludes from the description and from the scope of the service auditor's engagement, the subservice organization's relevant control objectives and related controls. Management's description of the service organization's system and the scope of the service auditor's engagement include controls at the service organization that monitor the effectiveness of controls at the subservice organization, which may include management of the service organization's review of a service auditor's report on controls at the subservice organization.

Complementary user entity controls. Controls that management of the service organization assumes, in the design of the service provided by the service organization, will be implemented by user entities, and which, if necessary to achieve the control objectives stated in management's description of the service organization's system, are identified as such in that description.

Control objectives. The aim or purpose of specified controls at the service organization. Control objectives address the risks that controls are intended to mitigate.

Controls at a service organization. The policies and procedures at a service organization likely to be relevant to user entities' internal control over financial reporting. These policies and procedures are designed, implemented, and documented by the service organization to provide reasonable assurance about the achievement of the control objectives relevant to the services covered by the service auditor's report. (Ref: par. .A5)

Controls at a subservice organization. The policies and procedures at a subservice organization likely to be relevant to internal control over financial reporting of user entities of the service organization. These policies and procedures are designed, implemented, and documented by a subservice organization to provide reasonable assurance about the achievement of control objectives that are relevant to the services covered by the service auditor's report.

Criteria. The standards or benchmarks used to measure and present the subject matter and against which the service auditor evaluates the subject matter. (Ref: par. .A6)

Inclusive method. Method of addressing the services provided by a subservice organization whereby management's description of the service organization's system includes a description of the nature of the services provided by the subservice organization as well as the subservice organization's relevant control objectives and related controls. (Ref: par. .A7–.A9)

Internal audit function. The service organization's internal auditors and others, for example, members of a compliance or risk department, who perform activities similar to those performed by internal auditors. (Ref: par. .A10)

Report on management's description of a service organization's system and the suitability of the design of controls (referred to in this section as a *type 1 report*). A report that comprises the following:

- a. Management's description of the service organization's system.
- b. A written assertion by management of the service organization about whether, in all material respects, and based on suitable criteria,
 - i. management's description of the service organization's system fairly presents the service organization's system that was designed and implemented as of a specified date.
 - ii. the controls related to the control objectives stated in management's description of the service organization's system were suitably designed to achieve those control objectives as of the specified date.
- c. A service auditor's report that expresses an opinion on the matters in (b)(i)–(b)(ii).

Report on management's description of a service organization's system and the suitability of the design and operating effectiveness of controls (referred to in this section as a *type 2 report*). A report that comprises the following:

- a. Management's description of the service organization's system.
- b. A written assertion by management of the service organization about whether in all material respects, and based on suitable criteria,
 - i. management's description of the service organization's system fairly presents the service organization's system that was designed and implemented throughout the specified period.
 - ii. the controls related to the control objectives stated in management's description of the service organization's system were suitably designed throughout the specified period to achieve those control objectives.
 - iii. the controls related to the control objectives stated in management's description of the service organization's system operated effectively throughout the specified period to achieve those control objectives.
- c. A service auditor's report that
 - i. expresses an opinion on the matters in (b)(i)–(b)(iii).
 - ii. includes a description of the tests of controls and the results thereof.

Service auditor. A practitioner who reports on controls at a service organization.

Service organization. An organization or segment of an organization that provides services to user entities, which are likely to be relevant to those user entities' internal control over financial reporting.

Service organization's assertion. A written assertion about the matters referred to in part (b) of the definition of *Report on management's description of a service organization's system and the suitability of the design and operating effectiveness of controls*, for a type 2 report; and, for a type 1 report, the matters referred to in part (b) of the definition of *Report on management's description of a service organization's system and the suitability of the design of controls*.

Service organization's system. The policies and procedures designed, implemented, and documented, by management of the service organization to provide user entities with the services covered by the service auditor's report. Management's description of the service organization's system identifies the services covered, the period to which the description relates (or in the case of a type 1 report, the date to which the description relates), the control objectives specified by management or an outside party, the party specifying the control objectives (if not specified by management), and the related controls. (Ref. par. .A11)

Subservice organization. A service organization used by another service organization to perform some of the services provided to user entities that are likely to be relevant to those user entities' internal control over financial reporting.

Test of controls. A procedure designed to evaluate the operating effectiveness of controls in achieving the control objectives stated in management's description of the service organization's system.

User auditor. An auditor who audits and reports on the financial statements of a user entity.

User entity. An entity that uses a service organization.

Requirements

Management and Those Charged With Governance

.08 When this section requires the service auditor to inquire of, request representations from, communicate with, or otherwise interact with management of the service organization, the service auditor should determine the appropriate person(s) within the service organization's management or governance structure with whom to interact. This should include consideration of which person(s) have the appropriate responsibilities for and knowledge of the matters concerned. (Ref: par. .A12)

Acceptance and Continuance

.09 A service auditor should accept or continue an engagement to report on controls at a service organization only if (Ref: par. .A13)

- a. the service auditor has the capabilities and competence to perform the engagement. (Ref: par. .A14–.A15)
- b. the service auditor's preliminary knowledge of the engagement circumstances indicates that
 - i. the criteria to be used will be suitable and available to the intended user entities and their auditors;
 - ii. the service auditor will have access to sufficient appropriate evidence to the extent necessary; and
 - iii. the scope of the engagement and management's description of the service organization's system will not be so limited that they are unlikely to be useful to user entities and their auditors.
- c. management agrees to the terms of the engagement by acknowledging and accepting its responsibility for the following:
 - i. Preparing its description of the service organization's system and its assertion, including the completeness, accuracy, and method of presentation of the description and assertion. (Ref: par. .A16)
 - ii. Having a reasonable basis for its assertion. (Ref: par. .A17)
 - iii. Selecting the criteria to be used and stating them in the assertion.
 - iv. Specifying the control objectives, stating them in the description of the service organization's system, and, if the control objectives are specified by law, regulation, or another party (for example, a user group or a professional body), identifying in the description the party specifying the control objectives.

- v. Identifying the risks that threaten the achievement of the control objectives stated in the description and designing, implementing, and documenting controls that are suitably designed and operating effectively to provide reasonable assurance that the control objectives stated in the description of the service organization's system will be achieved. (Ref: par. .A18)
- vi. Providing the service auditor with
 - (1) access to all information, such as records and documentation, including service level agreements, of which management is aware that is relevant to the description of the service organization's system and the assertion;
 - (2) additional information that the service auditor may request from management for the purpose of the examination engagement;
 - (3) unrestricted access to personnel within the service organization from whom the service auditor determines it is necessary to obtain evidence relevant to the service auditor's engagement; and
 - (4) written representations at the conclusion of the engagement.
- vii. Providing a written assertion that will be included in, or attached to management's description of the service organization's system, and provided to user entities.

.10 If management will not provide the service auditor with a written assertion, the service auditor should not circumvent the requirement to obtain an assertion by performing a service auditor's engagement under section 101. (Ref: par. .A19)

.11 Management's subsequent refusal to provide a written assertion represents a scope limitation and consequently, the service auditor should withdraw from the engagement. If law or regulation does not allow the service auditor to withdraw from the engagement, the service auditor should disclaim an opinion.

Request to Change the Scope of the Engagement

.12 If management requests a change in the scope of the engagement before the completion of the engagement, the service auditor should be satisfied, before agreeing to the change, that a reasonable justification for the change exists. (Ref: par. .A20–.A21)

Assessing the Suitability of the Criteria (Ref: par. .A6 and .A22–.A23)

.13 As required by paragraph .23 of section 101, the service auditor should assess whether management has used suitable criteria

- a. in preparing its description of the service organization's system;
- b. in evaluating whether controls were suitably designed to achieve the control objectives stated in the description; and
- c. in the case of a type 2 report, in evaluating whether controls operated effectively throughout the specified period to achieve the control objectives stated in the description of the service organization's system.

.14 In assessing the suitability of the criteria to evaluate whether management's description of the service organization's system is fairly presented, the service auditor should determine if the criteria include, at a minimum,

- a. whether management's description of the service organization's system presents how the service organization's system was designed and implemented, including the following information about the service organization's system, if applicable:
 - i. The types of services provided including, as appropriate, the classes of transactions processed.
 - ii. The procedures, within both automated and manual systems, by which services are provided, including, as appropriate, procedures by which transactions are initiated, authorized, recorded, processed, corrected as necessary, and transferred to the reports and other information prepared for user entities.
 - iii. The related accounting records, whether electronic or manual, and supporting information involved in initiating, authorizing, recording, processing, and reporting transactions; this includes the correction of incorrect information and how information is transferred to the reports and other information prepared for user entities.
 - iv. How the service organization's system captures and addresses significant events and conditions other than transactions.
 - v. The process used to prepare reports and other information for user entities.
 - vi. The specified control objectives and controls designed to achieve those objectives, including as applicable, complementary user entity controls contemplated in the design of the service organization's controls.
 - vii. Other aspects of the service organization's control environment, risk assessment process, information and communication systems (including the related business processes), control activities, and monitoring controls that are relevant to the services provided. (Ref: par. A17 and .A24)
- b. in the case of a type 2 report, whether management's description of the service organization's system includes relevant details of changes to the service organization's system during the period covered by the description. (Ref: par. .A44)
- c. whether management's description of the service organization's system does not omit or distort information relevant to the service organization's system, while acknowledging that management's description of the service organization's system is prepared to meet the common needs of a broad range of user entities and their user auditors, and may not, therefore, include every aspect of the service organization's system that each individual user entity and its user auditor may consider important in its own particular environment.

.15 In assessing the suitability of the criteria to evaluate whether the controls are suitably designed, the service auditor should determine if the criteria include, at a minimum, whether

- a. the risks that threaten the achievement of the control objectives stated in management's description of the service organization's system have been identified by management.
- b. the controls identified in management's description of the service organization's system would, if operating as described, provide reasonable assurance that those risks would not prevent the control objectives stated in the description from being achieved.

.16 In assessing the suitability of the criteria to evaluate whether controls operated effectively to provide reasonable assurance that the control objectives stated in management's description of the service organization's system were achieved, the service auditor should determine if the criteria include, at a minimum, whether the controls were consistently applied as designed throughout the specified period, including whether manual controls were applied by individuals who have the appropriate competence and authority.

Materiality

.17 When planning and performing the engagement, the service auditor should evaluate materiality with respect to the fair presentation of management's description of the service organization's system, the suitability of the design of controls to achieve the related control objectives stated in the description and, in the case of a type 2 report, the operating effectiveness of the controls to achieve the related control objectives stated in the description. (Ref: par. .A25–.A27)

Obtaining an Understanding of the Service Organization's System (Ref: par. .A28–.A30)

.18 The service auditor should obtain an understanding of the service organization's system, including controls that are included in the scope of the engagement.

Obtaining Evidence Regarding Management's Description of the Service Organization's System (Ref: par. .A26 and .A31–.A35)

.19 The service auditor should obtain and read management's description of the service organization's system and should evaluate whether those aspects of the description that are included in the scope of the engagement are presented fairly, including whether

- a. the control objectives stated in management's description of the service organization's system are reasonable in the circumstances. (Ref: par. .A34)
- b. controls identified in management's description of the service organization's system were implemented. (Ref: par. .A35)
- c. complementary user entity controls, if any, are adequately described. (Ref: par. .A32)
- d. services performed by a subservice organization, if any, are adequately described, including whether the inclusive method or the carve-out method has been used in relation to them.

.20 The service auditor should determine through inquiries made in combination with other procedures whether the service organization's system has been implemented. Such other procedures should include observation and

inspection of records and other documentation of the manner in which the service organization's system operates and controls are applied. (Ref: par. .A35)

Obtaining Evidence Regarding the Design of Controls (Ref: par .A26 and .A36–.A39)

.21 The service auditor should determine which of the controls at the service organization are necessary to achieve the control objectives stated in management's description of the service organization's system and should assess whether those controls were suitably designed to achieve the control objectives by

- a. identifying the risks that threaten the achievement of the control objectives stated in management's description of the service organization's system, and (Ref: par. .A36)
- b. evaluating the linkage of the controls identified in management's description of the service organization's system with those risks.

Obtaining Evidence Regarding the Operating Effectiveness of Controls (Ref: par. .A26 and .A40–.A45)

Assessing Operating Effectiveness

.22 When performing a type 2 engagement, the service auditor should test those controls that the service auditor has determined are necessary to achieve the control objectives stated in management's description of the service organization's system and should assess their operating effectiveness throughout the period. Evidence obtained in prior engagements about the satisfactory operation of controls in prior periods does not provide a basis for a reduction in testing, even if it is supplemented with evidence obtained during the current period. (Ref: par. .A40–.A44)

.23 When performing a type 2 engagement, the service auditor should inquire about changes in the service organization's controls that were implemented during the period covered by the service auditor's report. If the service auditor believes the changes would be considered significant by user entities and their auditors, the service auditor should determine whether those changes are included in management's description of the service organization's system. If such changes are not included in the description, the service auditor should describe the changes in the service auditor's report and determine the effect on the service auditor's report. If the superseded controls are relevant to the achievement of the control objectives stated in the description, the service auditor should, if possible, test the superseded controls before the change. If the service auditor cannot test superseded controls relevant to the achievement of the control objectives stated in the description, the service auditor should determine the effect on the service auditor's report. (Ref: par. .A42(c) and .A45)

.24 When designing and performing tests of controls, the service auditor should

- a. perform other procedures in combination with inquiry to obtain evidence about the following:
 - i. How the control was applied.
 - ii. The consistency with which the control was applied.
 - iii. By whom or by what means the control was applied.

- b. determine whether the controls to be tested depend on other controls, and if so, whether it is necessary to obtain evidence supporting the operating effectiveness of those other controls.
- c. determine an effective method for selecting the items to be tested to meet the objectives of the procedure.

.25 When determining the extent of tests of controls and whether sampling is appropriate, the service auditor should consider the characteristics of the population of the controls to be tested, including the nature of the controls, the frequency of their application (for example, monthly, daily, many times per day), and the expected rate of deviation. AU-C section 530, *Audit Sampling*, addresses the auditor's use of statistical and nonstatistical sampling when designing and selecting the audit sample, performing tests of controls and tests of details, and evaluating the results from the sample. If the service auditor determines that sampling is appropriate, the service auditor should apply AU-C section 530. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Nature and Cause of Deviations

.26 The service auditor should investigate the nature and cause of any deviations identified, and should determine whether

- a. identified deviations are within the expected rate of deviation and are acceptable. If so, the testing that has been performed provides an appropriate basis for concluding that the control operated effectively throughout the specified period.
- b. additional testing of the control or of other controls is necessary to reach a conclusion about whether the controls related to the control objectives stated in management's description of the service organization's system operated effectively throughout the specified period.
- c. the testing that has been performed provides an appropriate basis for concluding that the control did not operate effectively throughout the specified period.

.27 If, as a result of performing the procedures in paragraph .26, the service auditor becomes aware that any identified deviations have resulted from intentional acts by service organization personnel, the service auditor should assess the risk that management's description of the service organization's system is not fairly presented, the controls are not suitably designed, and in a type 2 engagement, the controls are not operating effectively. (Ref: par. .A31)

Using the Work of the Internal Audit Function

Obtaining an Understanding of the Internal Audit Function **(Ref: par. .A46–.A47)**

.28 If the service organization has an internal audit function, the service auditor should obtain an understanding of the nature of the responsibilities of the internal audit function and of the activities performed in order to determine whether the internal audit function is likely to be relevant to the engagement.

Planning to Use the Work of the Internal Audit Function

.29 When the service auditor intends to use the work of the internal audit function, the service auditor should determine whether the work of the internal

audit function is likely to be adequate for the purposes of the engagement by evaluating the following:

- a. The objectivity and technical competence of the members of the internal audit function
- b. Whether the work of the internal audit function is likely to be carried out with due professional care
- c. Whether it is likely that effective communication will occur between the internal audit function and the service auditor, including consideration of the effect of any constraints or restrictions placed on the internal audit function by the service organization

.30 If the service auditor determines that the work of the internal audit function is likely to be adequate for the purposes of the engagement, in determining the planned effect of the work of the internal audit function on the nature, timing, or extent of the service auditor's procedures, the service auditor should evaluate the following:

- a. The nature and scope of specific work performed, or to be performed, by the internal audit function
- b. The significance of that work to the service auditor's conclusions
- c. The degree of subjectivity involved in the evaluation of the evidence gathered in support of those conclusions

Using the Work of the Internal Audit Function (Ref: par. .A48)

.31 In order for the service auditor to use specific work of the internal audit function, the service auditor should evaluate and perform procedures on that work to determine its adequacy for the service auditor's purposes.

.32 To determine the adequacy of specific work performed by the internal audit function for the service auditor's purposes, the service auditor should evaluate whether

- a. the work was performed by members of the internal audit function having adequate technical training and proficiency;
- b. the work was properly supervised, reviewed, and documented;
- c. sufficient appropriate evidence was obtained to enable the internal audit function to draw reasonable conclusions;
- d. conclusions reached are appropriate in the circumstances and any reports prepared by the internal audit function are consistent with the results of the work performed; and
- e. exceptions relevant to the engagement or unusual matters disclosed by the internal audit function are properly resolved.

Effect on the Service Auditor's Report

.33 If the work of the internal audit function has been used, the service auditor should not make reference to that work in the service auditor's opinion. Notwithstanding its degree of autonomy and objectivity, the internal audit function is not independent of the service organization. The service auditor has sole responsibility for the opinion expressed in the service auditor's report and, accordingly, that responsibility is not reduced by the service auditor's use of the work of the internal audit function. (Ref: par. .A49)

.34 In the case of a type 2 report, if the work of the internal audit function has been used in performing tests of controls, that part of the service auditor's report that describes the service auditor's tests of controls and results thereof

should include a description of the internal auditor's work and of the service auditor's procedures with respect to that work. (Ref: par. .A50)

Direct Assistance

.35 When the service auditor uses members of the service organization's internal audit function to provide direct assistance, the service auditor should adapt and apply the requirements in paragraph .27 of AU-C section 610, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Written Representations (Ref: par. .A51–.A55)

.36 The service auditor should request management to provide written representations that

- a. reaffirm its assertion included in or attached to the description of the service organization's system;
- b. it has provided the service auditor with all relevant information and access agreed to; and¹
- c. it has disclosed to the service auditor any of the following of which it is aware:
 - i. Instances of noncompliance with laws and regulations or uncorrected errors attributable to the service organization that may affect one or more user entities.
 - ii. Knowledge of any actual, suspected, or alleged intentional acts by management or the service organization's employees, that could adversely affect the fairness of the presentation of management's description of the service organization's system or the completeness or achievement of the control objectives stated in the description.
 - iii. Design deficiencies in controls.
 - iv. Instances when controls have not operated as described.
 - v. Any events subsequent to the period covered by management's description of the service organization's system up to the date of the service auditor's report that could have a significant effect on management's assertion.

.37 If a service organization uses a subservice organization and management's description of the service organization's system uses the inclusive method, the service auditor also should obtain the written representations identified in paragraph .36 from management of the subservice organization.

.38 The written representations should be in the form of a representation letter addressed to the service auditor and should be as of the same date as the date of the service auditor's report.

.39 If management does not provide one or more of the written representations requested by the service auditor, the service auditor should do the following:

- a. Discuss the matter with management

¹ See paragraph .09(c)(vi)(1).

- b. Evaluate the effect of such refusal on the service auditor's assessment of the integrity of management and evaluate the effect that this may have on the reliability of management's representations and evidence in general
- c. Take appropriate actions, which may include disclaiming an opinion or withdrawing from the engagement

If management refuses to provide the representations in paragraphs .36(a)–.36(b) of this section, the service auditor should disclaim an opinion or withdraw from the engagement.

Other Information (Ref: par. .A56–.A57)

.40 The service auditor should read other information, if any, included in a document containing management's description of the service organization's system and the service auditor's report to identify material inconsistencies, if any, with that description. While reading the other information for the purpose of identifying material inconsistencies, the service auditor may become aware of an apparent misstatement of fact in the other information.

.41 If the service auditor becomes aware of a material inconsistency or an apparent misstatement of fact in the other information, the service auditor should discuss the matter with management. If the service auditor concludes that there is a material inconsistency or a misstatement of fact in the other information that management refuses to correct, the service auditor should take further appropriate action.²

Subsequent Events

.42 The service auditor should inquire whether management is aware of any events subsequent to the period covered by management's description of the service organization's system up to the date of the service auditor's report that could have a significant effect on management's assertion. If the service auditor becomes aware, through inquiry or otherwise, of such an event, or any other event that is of such a nature and significance that its disclosure is necessary to prevent users of a type 1 or type 2 report from being misled, and information about that event is not disclosed by management in its description, the service auditor should disclose such event in the service auditor's report.

.43 The service auditor has no responsibility to keep informed of events subsequent to the date of the service auditor's report; however, after the release of the service auditor's report, the service auditor may become aware of conditions that existed at the report date that might have affected management's assertion and the service auditor's report had the service auditor been aware of them. The evaluation of such subsequent information is similar to the evaluation of facts discovered subsequent to the date of the report on an audit of financial statements, as described in AU-C section 560, *Subsequent Events and Subsequently Discovered Facts*, and therefore, the service auditor should adapt and apply AU-C section 560. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Documentation (Ref: par. .A58)

.44 The service auditor should prepare documentation that is sufficient to enable an experienced service auditor, having no previous connection with the engagement, to understand the following:

² See paragraphs .91–.94 of section 101, *Attest Engagements*.

- a. The nature, timing, and extent of the procedures performed to comply with this section and with applicable legal and regulatory requirements
- b. The results of the procedures performed and the evidence obtained
- c. Significant findings or issues arising during the engagement, the conclusions reached thereon, and significant professional judgments made in reaching those conclusions

.45 In documenting the nature, timing, and extent of procedures performed, the service auditor should record the following:

- a. Identifying characteristics of the specific items or matters being tested
- b. Who performed the work and the date such work was completed
- c. Who reviewed the work performed and the date and extent of such review

.46 If the service auditor uses specific work of the internal audit function, the service auditor should document the conclusions reached regarding the evaluation of the adequacy of the work of the internal audit function and the procedures performed by the service auditor on that work.

.47 The service auditor should document discussions of significant findings or issues with management and others, including the nature of the significant findings or issues, when the discussions took place, and with whom.

.48 If the service auditor has identified information that is inconsistent with the service auditor's final conclusion regarding a significant finding or issue, the service auditor should document how the service auditor addressed the inconsistency.

.49 The service auditor should assemble the engagement documentation in an engagement file and complete the administrative process of assembling the final engagement file on a timely basis, no later than 60 days following the service auditor's report release date.

.50 After the assembly of the final engagement file has been completed, the service auditor should not delete or discard documentation before the end of its retention period.

.51 If the service auditor finds it necessary to modify existing engagement documentation or add new documentation after the assembly of the final engagement file has been completed, the service auditor should, regardless of the nature of the modifications or additions, document the following:

- a. The specific reasons for making them
- b. When and by whom they were made and reviewed

Preparing the Service Auditor's Report

Content of the Service Auditor's Report (Ref: par. .A59)

.52 A service auditor's type 2 report should include the following elements:

- a. A title that includes the word *independent*.
- b. An addressee.
- c. Identification of
 - i. management's description of the service organization's system and the function performed by the system.

- ii. any parts of management's description of the service organization's system that are not covered by the service auditor's report. (Ref: par. .A56)
- iii. any information included in a document containing the service auditor's report that is not covered by the service auditor's report. (Ref: par. .A56)
- iv. the criteria.
- v. any services performed by a subservice organization and whether the carve-out method or the inclusive method was used in relation to them. Depending on which method is used, the following should be included:
 - (1) If the carve-out method was used, a statement that management's description of the service organization's system excludes the control objectives and related controls at relevant subservice organizations, and that the service auditor's procedures do not extend to the subservice organization.
 - (2) If the inclusive method was used, a statement that management's description of the service organization's system includes the subservice organization's specified control objectives and related controls, and that the service auditor's procedures included procedures related to the subservice organization.
- d. If management's description of the service organization's system refers to the need for complementary user entity controls, a statement that the service auditor has not evaluated the suitability of the design or operating effectiveness of complementary user entity controls, and that the control objectives stated in the description can be achieved only if complementary user entity controls are suitably designed and operating effectively, along with the controls at the service organization.
- e. A reference to management's assertion and a statement that management is responsible for (Ref: par. .A60)
 - i. preparing the description of the service organization's system and the assertion, including the completeness, accuracy, and method of presentation of the description and assertion;
 - ii. providing the services covered by the description of the service organization's system;
 - iii. specifying the control objectives unless the control objectives are specified by law, regulation, or another party, and stating them in the description of the service organization's system;
 - iv. identifying the risks that threaten the achievement of the control objectives;
 - v. selecting the criteria; and
 - vi. designing, implementing, and documenting controls that are suitably designed and operating effectively to achieve the related control objectives stated in the description of the service organization's system.

- f.* A statement that the service auditor's responsibility is to express an opinion on the fairness of the presentation of management's description of the service organization's system and on the suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description, based on the service auditor's examination.
- g.* A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and that those standards require the service auditor to plan and perform the examination to obtain reasonable assurance about whether management's description of the service organization's system is fairly presented and the controls are suitably designed and operating effectively throughout the specified period to achieve the related control objectives.
- h.* A statement that an examination of management's description of a service organization's system and the suitability of the design and operating effectiveness of the service organization's controls to achieve the related control objectives stated in the description involves performing procedures to obtain evidence about the fairness of the presentation of the description and the suitability of the design and operating effectiveness of those controls to achieve the related control objectives stated in the description.
- i.* A statement that the examination included assessing the risks that management's description of the service organization's system is not fairly presented and that the controls were not suitably designed or operating effectively to achieve the related control objectives.
- j.* A statement that the examination also included testing the operating effectiveness of those controls that the service auditor considers necessary to provide reasonable assurance that the related control objectives stated in management's description of the service organization's system were achieved.
- k.* A statement that an examination engagement of this type also includes evaluating the overall presentation of management's description of the service organization's system and suitability of the control objectives stated in the description.
- l.* A statement that the service auditor believes the examination provides a reasonable basis for his or her opinion.
- m.* A statement about the inherent limitations of controls, including the risk of projecting to future periods any evaluation of the fairness of the presentation of management's description of the service organization's system or conclusions about the suitability of the design or operating effectiveness of controls.
- n.* The service auditor's opinion on whether, in all material respects, based on the criteria described in management's assertion,
 - i.* management's description of the service organization's system fairly presents the service organization's system that was designed and implemented throughout the specified period.
 - ii.* the controls related to the control objectives stated in management's description of the service organization's system were suitably designed to provide reasonable assurance

- that those control objectives would be achieved if the controls operated effectively throughout the specified period.
- iii. the controls the service auditor tested, which were those necessary to provide reasonable assurance that the control objectives stated in management's description of the service organization's system were achieved, operated effectively throughout the specified period.
 - iv. if the application of complementary user entity controls is necessary to achieve the related control objectives stated in management's description of the service organization's system, a reference to this condition.
- o. A reference to a description of the service auditor's tests of controls and the results thereof, that includes
 - i. identification of the controls that were tested, whether the items tested represent all or a selection of the items in the population, and the nature of the tests in sufficient detail to enable user auditors to determine the effect of such tests on their risk assessments. (Ref: par. .A50)
 - ii. if deviations have been identified in the operation of controls included in the description, the extent of testing performed by the service auditor that led to the identification of the deviations (including the number of items tested), and the number and nature of the deviations noted (even if, on the basis of tests performed, the service auditor concludes that the related control objective was achieved). (Ref: par. .A65)
 - p. A statement restricting the use of the service auditor's report to management of the service organization, user entities of the service organization's system during some or all of the period covered by the service auditor's report, and the independent auditors of such user entities. (Ref: par. .A61–.A64)
 - q. The date of the service auditor's report.
 - r. The name of the service auditor and the city and state where the service auditor maintains the office that has responsibility for the engagement.
- .53** A service auditor's type 1 report should include the following elements:
- a. A title that includes the word *independent*.
 - b. An addressee.
 - c. Identification of
 - i. management's description of the service organization's system and the function performed by the system.
 - ii. any parts of management's description of the service organization's system that are not covered by the service auditor's report. (Ref: par. .A56)
 - iii. any information included in a document containing the service auditor report that is not covered by the service auditor's report. (Ref: par. .A56)
 - iv. the criteria.
 - v. any services performed by a subservice organization and whether the carve-out method or the inclusive method was

used in relation to them. Depending on which method is used, the following should be included:

- (1) If the carve-out method was used, a statement that management's description of the service organization's system excludes the control objectives and related controls at relevant subservice organizations, and that the service auditor's procedures do not extend to the subservice organization.
 - (2) If the inclusive method was used, a statement that management's description of the service organization's system includes the subservice organization's specified control objectives and related controls, and that the service auditor's procedures included procedures related to the subservice organization.
- d. If management's description of the service organization's system refers to the need for complementary user entity controls, a statement that the service auditor has not evaluated the suitability of the design or operating effectiveness of complementary user entity controls, and that the control objectives stated in the description can be achieved only if complementary user entity controls are suitably designed and operating effectively, along with the controls at the service organization.
- e. A reference to management's assertion and a statement that management is responsible for (Ref: par. .A60)
- i. preparing the description of the service organization's system and assertion, including the completeness, accuracy, and method of presentation of the description and assertion;
 - ii. providing the services covered by the description of the service organization's system;
 - iii. specifying the control objectives, unless the control objectives are specified by law, regulation, or another party, and stating them in the description of the service organization's system;
 - iv. identifying the risks that threaten the achievement of the control objectives,
 - v. selecting the criteria; and
 - vi. designing, implementing, and documenting controls that are suitably designed and operating effectively to achieve the related control objectives stated in the description of the service organization's system.
- f. A statement that the service auditor's responsibility is to express an opinion on the fairness of the presentation of management's description of the service organization's system and on the suitability of the design of the controls to achieve the related control objectives stated in the description, based on the service auditor's examination.
- g. A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, and that those standards require the service auditor to plan and perform the examination to obtain

reasonable assurance about whether management's description of the service organization's system is fairly presented and the controls are suitably designed as of the specified date to achieve the related control objectives.

- h.* A statement that the service auditor has not performed any procedures regarding the operating effectiveness of controls and, therefore, expresses no opinion thereon.
- i.* A statement that an examination of management's description of a service organization's system and the suitability of the design of the service organization's controls to achieve the related control objectives stated in the description involves performing procedures to obtain evidence about the fairness of the presentation of the description and the suitability of the design of those controls to achieve the related control objectives stated in the description.
- j.* A statement that the examination included assessing the risks that management's description of the service organization's system is not fairly presented and that the controls were not suitably designed to achieve the related control objectives.
- k.* A statement that an examination engagement of this type also includes evaluating the overall presentation of management's description of the service organization's system and suitability of the control objectives stated in the description.
- l.* A statement that the service auditor believes the examination provides a reasonable basis for his or her opinion.
- m.* A statement about the inherent limitations of controls, including the risk of projecting to future periods any evaluation of the fairness of the presentation of management's description of the service organization's system or conclusions about the suitability of the design of the controls to achieve the related control objectives.
- n.* The service auditor's opinion on whether, in all material respects, based on the criteria described in management's assertion,
 - i.* management's description of the service organization's system fairly presents the service organization's system that was designed and implemented as of the specified date.
 - ii.* the controls related to the control objectives stated in management's description of the service organization's system were suitably designed to provide reasonable assurance that those control objectives would be achieved if the controls operated effectively as of the specified date.
 - iii.* if the application of complementary user entity controls is necessary to achieve the related control objectives stated in management's description of the service organization's system, a reference to this condition.
- o.* A statement restricting the use of the service auditor's report to management of the service organization, user entities of the service organization's system as of the end of the period covered by the service auditor's report, and the independent auditors of such user entities. (Ref: par. .A61–.A64)
- p.* The date of the service auditor's report.

- q. The name of the service auditor and the city and state where the service auditor maintains the office that has responsibility for the engagement.

Report Date

.54 The service auditor should date the service auditor's report no earlier than the date on which the service auditor has obtained sufficient appropriate evidence to support the service auditor's opinion.

Modified Opinions (Ref: par. .A66)

.55 The service auditor's opinion should be modified and the service auditor's report should contain a clear description of all the reasons for the modification, if the service auditor concludes that

- a. management's description of the service organization's system is not fairly presented, in all material respects;
- b. the controls are not suitably designed to provide reasonable assurance that the control objectives stated in management's description of the service organization's system would be achieved if the controls operated as described;
- c. in the case of a type 2 report, the controls did not operate effectively throughout the specified period to achieve the related control objectives stated in management's description of the service organization's system; or
- d. the service auditor is unable to obtain sufficient appropriate evidence

.56 If the service auditor plans to disclaim an opinion because of the inability to obtain sufficient appropriate evidence, and, based on the limited procedures performed, has concluded that,

- a. certain aspects of management's description of the service organization's system are not fairly presented, in all material respects;
- b. certain controls were not suitably designed to provide reasonable assurance that the control objectives stated in management's description of the service organization's system would be achieved if the controls operated as described; or
- c. in the case of a type 2 report, certain controls did not operate effectively throughout the specified period to achieve the related control objectives stated in management's description of the service organization's system,

the service auditor should identify these findings in his or her report.

.57 If the service auditor plans to disclaim an opinion, the service auditor should not identify the procedures that were performed nor include statements describing the characteristics of a service auditor's engagement in the service auditor's report; to do so might overshadow the disclaimer.

Other Communication Responsibilities

.58 If the service auditor becomes aware of incidents of noncompliance with laws and regulations, fraud, or uncorrected errors attributable to management or other service organization personnel that are not clearly trivial and that may affect one or more user entities, the service auditor should determine the effect of such incidents on management's description of the service organization's system, the achievement of the control objectives, and the service auditor's report.

Additionally, the service auditor should determine whether this information has been communicated appropriately to affected user entities. If the information has not been so communicated, and management of the service organization is unwilling to do so, the service auditor should take appropriate action. (Ref: par. .A67)

Application and Other Explanatory Material

Scope of This Section

.A1 *Internal control* is a process designed to provide reasonable assurance regarding the achievement of objectives related to the reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations. Controls related to a service organization's operations and compliance objectives may be relevant to a user entity's internal control over financial reporting. Such controls may pertain to assertions about presentation and disclosure relating to account balances, classes of transactions or disclosures, or may pertain to evidence that the user auditor evaluates or uses in applying auditing procedures. For example, a payroll processing service organization's controls related to the timely remittance of payroll deductions to government authorities may be relevant to a user entity because late remittances could incur interest and penalties that would result in a liability for the user entity. Similarly, a service organization's controls over the acceptability of investment transactions from a regulatory perspective may be considered relevant to a user entity's presentation and disclosure of transactions and account balances in its financial statements. (Ref: par. .01)

.A2 Paragraph .02 of this section refers to other engagements that the practitioner may perform and report on under section 101 to report on controls at a service organization. Paragraph .02 is not, however, intended to

- provide for the alteration of the definitions of *service organization* and *service organization's system* in paragraph .07 to permit reports issued under this section to include in the description of the service organization's system aspects of their services (including relevant control objectives and related controls) not likely to be relevant to user entities' internal control over financial reporting, or
- permit a report to be issued that combines reporting under this section on a service organization's controls that are likely to be relevant to user entities' internal control over financial reporting, with reporting under section 101 on controls that are not likely to be relevant to user entities' internal control over financial reporting. (Ref: par. .02(a))

.A3 When a service auditor conducts an engagement under section 101 to report on controls at a service organization other than those controls likely to be relevant to user entities' internal control over financial reporting, and the service auditor intends to use the guidance in this section in planning and performing that engagement, the service auditor may encounter issues that differ significantly from those associated with engagements to report on a service organization's controls likely to be relevant to user entities' internal control over financial reporting. For example,

- identification of suitable and available criteria, as prescribed in paragraphs .23–.34 of section 101, for evaluating the fairness of presentation of management's description of the service organization's system and the suitability of the design and the operating effectiveness of the controls.
- identification of appropriate control objectives, and the basis for evaluating the reasonableness of the control objectives in the circumstances of the particular engagement.

- identification of the intended users of the report and the manner in which they intend to use the report.
- relevance and appropriateness of the definitions in paragraph .07 of this section, many of which specifically relate to internal control over financial reporting.
- application of references to auditing standards (AU-C sections) that are intended to provide the service auditor with guidance relevant to internal control over financial reporting.
- application of the concept of materiality in the circumstances of the particular engagement.
- developing the language to be used in the practitioner's report, including addressing paragraphs .84–.87 of section 101, which identify the elements to be included in an examination report. (Ref: par. .02(a))

.A4 When management of the service organization is not responsible for the design of the system, it is unlikely that management of the service organization will be in a position to assert that the system is suitably designed. Controls cannot operate effectively unless they are suitably designed. Because of the inextricable link between the suitability of the design of controls and their operating effectiveness, the absence of an assertion with respect to the suitability of design will likely preclude the service auditor from opining on the operating effectiveness of controls. As an alternative, the practitioner may perform tests of controls in either an agreed-upon procedures engagement under section 201, *Agreed Upon Procedures Engagements*, or an examination of the operating effectiveness of the controls under section 101. (Ref: par. .02(b))

Definitions

Controls at a Service Organization (Ref: par. .07)

.A5 The policies and procedures referred to in the definition of *controls at a service organization* in paragraph .07 include aspects of user entities' information systems maintained by the service organization and may also include aspects of one or more of the other components of internal control at a service organization. For example, the definition of *controls at a service organization* may include aspects of the service organization's control environment, monitoring, and control activities when they relate to the services provided. Such definition does not, however, include controls at a service organization that are not related to the achievement of the control objectives stated in management's description of the service organization's system; for example, controls related to the preparation of the service organization's own financial statements.

Criteria (Ref: par. .07 and .14–.16)

.A6 For the purposes of engagements performed in accordance with this section, criteria need to be available to user entities and their auditors to enable them to understand the basis for the service organization's assertion about the fair presentation of management's description of the service organization's system, the suitability of the design of controls that address control objectives stated in the description of the system and, in the case of a type 2 report, the operating effectiveness of such controls. Information about suitable criteria is provided in paragraphs .23–.34 of section 101. Paragraphs .14–.16 of this section

discuss the criteria for evaluating the fairness of the presentation of management's description of the service organization's system and the suitability of the design and operating effectiveness of the controls.

Inclusive Method (Ref: par. .07)

.A7 As indicated in the definition of *inclusive method* in paragraph .07, a service organization that uses a subservice organization presents management's description of the service organization's system to include a description of the services provided by the subservice organization as well as the subservice organization's relevant control objectives and related controls. When the inclusive method is used, the requirements of this section also apply to the services provided by the subservice organization, including the requirement to obtain management's acknowledgement and acceptance of responsibility for the matters in paragraph .09(c)(i)–(vii) as they relate to the subservice organization.

.A8 Performing procedures at the subservice organization entails coordination and communication between the service organization, the subservice organization, and the service auditor. The inclusive method generally is feasible if, for example, the service organization and the subservice organization are related, or if the contract between the service organization and the subservice organization provides for issuance of a service auditor's report. If the service auditor is unable to obtain an assertion from the subservice organization regarding management's description of the service organization's system provided, including the relevant control objectives and related controls at the subservice organization, the service auditor is unable to use the inclusive method but may instead use the carve-out method.

.A9 There may be instances when the service organization's controls, such as monitoring controls, permit the service organization to include in its assertion the relevant aspects of the subservice organization's system, including the relevant control objectives and related controls of the subservice organization. In such instances, the service auditor is basing his or her opinion solely on the controls at the service organization, and hence, the inclusive method is not applicable.

Internal Audit Function (Ref: par. .07)

.A10 The "others" referenced in the definition of *internal audit function* may be individuals who perform activities similar to those performed by internal auditors and include service organization personnel (in addition to internal auditors), and third parties working under the direction of management or those charged with governance.

Service Organization's System (Ref: par. .07)

.A11 The policies and procedures referred to in the definition of *service organization's system* refer to the guidelines and activities for providing transaction processing and other services to user entities and include the infrastructure, software, people, and data that support the policies and procedures.

Management and Those Charged With Governance (Ref: par. .08)

.A12 Management and governance structures vary by entity, reflecting influences such as size and ownership characteristics. Such diversity means that it is not possible for this section to specify for all engagements the person(s) with whom the service auditor is to interact regarding particular matters. For

example, the service organization may be a segment of an organization and not a separate legal entity. In such cases, identifying the appropriate management personnel or those charged with governance from whom to request written representations may require the exercise of professional judgment.

Acceptance and Continuance

.A13 If one or more of the conditions in paragraph .09 are not met and the service auditor is nevertheless required by law or regulation to accept or continue an engagement to report on controls at a service organization, the service auditor is required, in accordance with the requirements in paragraphs .55–.56, to determine the effect on the service auditor's report of one or more of such conditions not being met. (Ref: par. .09)

Capabilities and Competence to Perform the Engagement **(Ref: par. .09a)**

.A14 Relevant capabilities and competence to perform the engagement include matters such as the following:

- Knowledge of the relevant industry
- An understanding of information technology and systems
- Experience in evaluating risks as they relate to the suitable design of controls
- Experience in the design and execution of tests of controls and the evaluation of the results

.A15 In performing a service auditor's engagement, the service auditor need not be independent of each user entity. (Ref: par. .09a)

Management's Responsibility for Documenting the Service Organization's System **(Ref: par. .09(c)(i))**

.A16 Management of the service organization is responsible for documenting the service organization's system. No one particular form of documentation is prescribed and the extent of documentation may vary depending on the size and complexity of the service organization and its monitoring activities.

Reasonable Basis for Management's Assertion **(Ref: par. .07, definition of service organization's system; par. .09(c)(ii) and .14(a)(vii))**

.A17 Management's monitoring activities may provide evidence of the design and operating effectiveness of controls in support of management's assertion. *Monitoring of controls* is a process to assess the effectiveness of internal control performance over time. It involves assessing the effectiveness of controls on a timely basis, identifying and reporting deficiencies to appropriate individuals within the service organization, and taking necessary corrective actions. Management accomplishes monitoring of controls through ongoing activities, separate evaluations, or a combination of the two. Ongoing monitoring activities are often built into the normal recurring activities of an entity and include regular management and supervisory activities. Internal auditors or personnel performing similar functions may contribute to the monitoring of a service organization's activities. Monitoring activities may also include using information communicated by external parties, such as customer complaints and regulator comments, which may indicate problems or highlight areas in need of improvement. The greater the degree and effectiveness of ongoing monitoring, the less need for separate evaluations. Usually, some combination of

ongoing monitoring and separate evaluations will ensure that internal control maintains its effectiveness over time. The service auditor's report on controls is not a substitute for the service organization's own processes to provide a reasonable basis for its assertion.

Identification of Risks (Ref: par. .09(c)(v))

.A18 Control objectives relate to risks that controls seek to mitigate. For example, the risk that a transaction is recorded at the wrong amount or in the wrong period can be expressed as a control objective that transactions are recorded at the correct amount and in the correct period. Management is responsible for identifying the risks that threaten achievement of the control objectives stated in management's description of the service organization's system. Management may have a formal or informal process for identifying relevant risks. A formal process may include estimating the significance of identified risks, assessing the likelihood of their occurrence, and deciding about actions to address them. However, because control objectives relate to risks that controls seek to mitigate, thoughtful identification by management of control objectives when designing, implementing, and documenting the service organization's system may itself comprise an informal process for identifying relevant risks.

Management's Refusal to Provide a Written Assertion

.A19 A recent change in service organization management or the appointment of the service auditor by a party other than management are examples of situations that may cause management to be unwilling to provide the service auditor with a written assertion. However, other members of management may be in a position to, and will agree to, sign the assertion so that the service auditor can meet the requirement of paragraph .09(c)(vii). (Ref: par. .10)

Request to Change the Scope of the Engagement (Ref: par. .12)

.A20 A request to change the scope of the engagement may not have a reasonable justification if, for example, the request is made

- to exclude certain control objectives at the service organization from the scope of the engagement because of the likelihood that the service auditor's opinion would be modified with respect to those control objectives.
- to prevent the disclosure of deviations identified at a subservice organization by requesting a change from the inclusive method to the carve-out method.

.A21 A request to change the scope of the engagement may have a reasonable justification when, for example, the request is made to exclude from the engagement a subservice organization because the service organization cannot arrange for access by the service auditor, and the method used for addressing the services provided by that subservice organization is changed from the inclusive method to the carve-out method.

Assessing the Suitability of the Criteria (Ref: par. .13–.16)

.A22 Section 101 requires a practitioner, among other things, to determine whether the subject matter is capable of evaluation against criteria that are suitable and available to users. As indicated in paragraph .27 of section 101, regardless of who establishes or develops the criteria, management is responsible for selecting the criteria and for determining whether the criteria are

appropriate. The subject matter is the underlying condition of interest to intended users of an attestation report. The following table identifies the subject matter and minimum criteria for each of the opinions in type 2 and type 1 reports.

	<i>Subject Matter</i>	<i>Criteria</i>	<i>Comment</i>
<i>Opinion on the fair presentation of management's description of the service organization's system (type 1 and type 2 reports).</i>	Management's description of the service organization's system that is likely to be relevant to user entities' internal control over financial reporting and is covered by the service auditor's report, and management's assertion about whether the description is fairly presented.	<p>Management's description of the service organization's system is fairly presented if it</p> <p>a. presents how the service organization's system was designed and implemented including, as appropriate, the matters identified in paragraph .14(a) and, in the case of a type 2 report, includes relevant details of changes to the service organization's system during the period covered by the description.</p> <p>b. does not omit or distort information relevant to the service organization's system, while acknowledging that management's description of the service organization's system is prepared to meet the common needs of a broad range of user entities and may not, therefore, include every aspect of the service organization's system that each individual user entity may consider important in its own particular environment.</p>	The specific wording of the criteria for this opinion may need to be tailored to be consistent with criteria established by, for example, law, regulation, user groups, or a professional body. Criteria for evaluating management's description of the service organization's system are provided in paragraph .14. Paragraphs .19-.20 and .A31-.A33 offer further guidance on determining whether these criteria are met.

(continued)

	<i>Subject Matter</i>	<i>Criteria</i>	<i>Comment</i>
<i>Opinion on suitability of design and operating effectiveness (type 2 reports).</i>	The design and operating effectiveness of the controls that are necessary to achieve the control objectives stated in management's description of the service organization's system.	<p>The controls are suitably designed and operating effectively to achieve the control objectives stated in management's description of the service organization's system if</p> <p>a. management has identified the risks that threaten the achievement of the control objectives stated in management's description of the service organization's system.</p> <p>b. the controls identified in management's description of the service organization's system would, if operating as described, provide reasonable assurance that those risks would not prevent the control objectives stated in the description from being achieved.</p> <p>c. the controls were consistently applied as designed throughout the specified period. This includes whether manual controls were applied by individuals who have the appropriate competence and authority.</p>	<p>When the criteria for this opinion are met, controls will have provided reasonable assurance that the related control objectives stated in management's description of the service organization's system were achieved throughout the specified period.</p> <p>The control objectives stated in management's description of the system are part of the criteria for these opinions. The control objectives stated in the description will differ from engagement to engagement. If the service auditor concludes that the control objectives stated in the description are not fairly presented, then those control objectives would not be suitable as part of the criteria for forming an opinion on the design and operating effectiveness of the controls.</p>

	<i>Subject Matter</i>	<i>Criteria</i>	<i>Comment</i>
Opinion on suitability of design (type 1 reports).	The suitability of the design of the controls necessary to achieve the control objectives stated in management's description of the service organization's system and relevant to the services covered by the service auditor's report.	The controls are suitably designed to achieve the control objectives stated in management's description of the service organization's system if <ol style="list-style-type: none"> a. management has identified the risks that threaten the achievement of the control objectives stated in its description of the service organization's system. b. the controls identified in management's description of the service organization's system would, if operating as described, provide reasonable assurance that those risks would not prevent the control objectives stated in the description from being achieved. 	Meeting these criteria does not, of itself, provide any assurance that the control objectives stated in management's description of the service organization's system were achieved because no evidence has been obtained about the operating effectiveness of the controls.

.A23 Paragraph .14(a) identifies a number of elements that are included in management's description of the service organization's system as appropriate. These elements may not be appropriate if the system being described is not a system that processes transactions; for example, if the system relates to general controls over the hosting of an IT application but not the controls embedded in the application itself. (Ref: par. .14)

.A24 The requirement to include in management's description of the service organization's system "other aspects of the service organization's control environment, risk assessment process, information and communication systems (including the related business processes), control activities, and monitoring controls, that are relevant to the services provided" is also applicable to the internal control components of subservice organizations used by the service organization when the inclusive method is used. See AU-C section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, for a discussion of these components. (Ref: par. .14(a)(vii)) [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Materiality (Ref: par. .17)

.A25 In an engagement to report on controls at a service organization, the concept of materiality relates to the information being reported on, not the financial statements of user entities. The service auditor plans and performs procedures to determine whether management's description of the service organization's system is fairly presented, in all material respects; whether controls at the service organization are suitably designed in all material respects to

achieve the control objectives stated in the description; and in the case of a type 2 report, whether controls at the service organization operated effectively throughout the specified period in all material respects to achieve the control objectives stated in the description. The concept of materiality takes into account that the service auditor's report provides information about the service organization's system to meet the common information needs of a broad range of user entities and their auditors who have an understanding of the manner in which the system is being used by a particular user entity for financial reporting.

.A26 Materiality with respect to the fair presentation of management's description of the service organization's system and with respect to the design of controls primarily includes the consideration of qualitative factors; for example, whether

- management's description of the service organization's system includes the significant aspects of the processing of significant transactions.
- management's description of the service organization's system omits or distorts relevant information.
- the controls have the ability, as designed, to provide reasonable assurance that the control objectives stated in management's description of the service organization's system would be achieved.

Materiality with respect to the operating effectiveness of controls includes the consideration of both quantitative and qualitative factors; for example, the tolerable rate and observed rate of deviation (a quantitative matter) and the nature and cause of any observed deviations (a qualitative matter).

.A27 The concept of materiality is not applied when disclosing, in the description of the tests of controls, the results of those tests when deviations have been identified. This is because, in the particular circumstances of a specific user entity or user auditor, a deviation may have significance beyond whether or not, in the opinion of the service auditor, it prevents a control from operating effectively. For example, the control to which the deviation relates may be particularly significant in preventing a certain type of error that may be material in the particular circumstances of a user entity's financial statements.

Obtaining an Understanding of the Service Organization's System (Ref: par. .18)

.A28 Obtaining an understanding of the service organization's system, including related controls, assists the service auditor in the following:

- Identifying the boundaries of the system and how it interfaces with other systems
- Assessing whether management's description of the service organization's system fairly presents the service organization's system that has been designed and implemented
- Determining which controls are necessary to achieve the control objectives stated in management's description of the service organization's system, whether controls were suitably designed to achieve those control objectives, and, in the case of a type 2 report, whether controls were operating effectively throughout the period to achieve those control objectives

.A29 Management's description of the service organization's system includes "aspects of the service organization's control environment, risk assessment process, information and communication systems (including relevant

business processes), control activities and monitoring activities that are relevant to the services provided." Although aspects of the service organization's control environment, risk assessment process, and monitoring activities may not be presented in the description in the context of control objectives, they may nevertheless be necessary to achieve the specified control objectives stated in the description. Likewise, deficiencies in these controls may have an effect on the service auditor's assessment of whether the controls, taken as a whole, were suitably designed or operating effectively to achieve the specified control objectives. See AU-C section 315 for a discussion of these components of internal control. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.A30 The service auditor's procedures to obtain the understanding referred to in paragraph .A28 may include the following:

- Inquiring of management and others within the service organization who, in the service auditor's judgment, may have relevant information
- Observing operations and inspecting documents, reports, and printed and electronic records of transaction processing
- Inspecting a selection of agreements between the service organization and user entities to identify their common terms
- Reperforming the application of a control

One or more of the preceding procedures may be accomplished through the performance of a walkthrough.

Obtaining Evidence Regarding Management's Description of the Service Organization's System (Ref: par. .19–.20)

.A31 In a service auditor's examination engagement, the service auditor plans and performs the engagement to obtain reasonable assurance of detecting errors or omissions in management's description of the service organization's system and instances in which control objectives were not achieved. Absolute assurance is not attainable because of factors such as the need for judgment, the use of sampling, and the inherent limitations of controls at the service organization that affect whether the description is fairly presented and the controls are suitably designed and operating effectively to achieve the control objectives, and because much of the evidence available to the service auditor is persuasive rather than conclusive in nature. Also, procedures that are effective for detecting unintentional errors or omissions in the description, and instances in which control objectives were not achieved, may be ineffective for detecting intentional errors or omissions in the description and instances in which the control objectives were not achieved that are concealed through collusion between service organization personnel and a third party or among management or employees of the service organization. Therefore, the subsequent discovery of the existence of material omissions or errors in the description or instances in which control objectives were not achieved does not, in and of itself, evidence inadequate planning, performance, or judgment on the part of the service auditor. (Ref: par. .27)

.A32 Considering the following questions may assist the service auditor in determining whether management's description of the service organization's system is fairly presented, in all material respects:

- Does management's description address the major aspects of the service provided and included in the scope of the engagement that

could reasonably be expected to be relevant to the common needs of a broad range of user auditors in planning their audits of user entities' financial statements?

- Is the description prepared at a level of detail that could reasonably be expected to provide a broad range of user auditors with sufficient information to obtain an understanding of internal control in accordance with AU-C section 315? The description need not address every aspect of the service organization's processing or the services provided to user entities and need not be so detailed that it would potentially enable a reader to compromise security or other controls at the service organization.
- Is the description prepared in a manner that does not omit or distort information that might affect the decisions of a broad range of user auditors; for example, does the description contain any significant omissions or inaccuracies regarding processing of which the service auditor is aware?
- Does the description include relevant details of changes to the service organization's system during the period covered by the description when the description covers a period of time?
- Have the controls identified in the description actually been implemented?
- Are complementary user entity controls, if any, adequately described? In most cases, the control objectives stated in the description are worded so that they are capable of being achieved through the effective operation of controls implemented by the service organization alone. In some cases, however, the control objectives stated in the description cannot be achieved by the service organization alone because their achievement requires particular controls to be implemented by user entities. This may be the case when, for example, the control objectives are specified by a regulatory authority. When the description does include complementary user entity controls, the description separately identifies those controls along with the specific control objectives that cannot be achieved by the service organization alone. (Ref: par. .19(c))
- If the inclusive method has been used, does the description separately identify controls at the service organization and controls at the subservice organization? If the carve-out method is used, does the description identify the functions that are performed by the subservice organization? When the carve-out method is used, the description need not describe the detailed processing or controls at the subservice organization.

[Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.A33 The service auditor's procedures to evaluate the fair presentation of management's description of the service organization's system may include the following:

- Considering the nature of the user entities and how the services provided by the service organization are likely to affect them; for example, the predominant types of user entities, and whether the user entities are regulated by government agencies
- Reading contracts with user entities to gain an understanding of the service organization's contractual obligations

- Observing procedures performed by service organization personnel
- Reviewing the service organization's policy and procedure manuals and other documentation of the system; for example, flowcharts and narratives
- Performing walkthroughs of transactions through the service organization's system

.A34 Paragraph .19(a) requires the service auditor to evaluate whether the control objectives stated in management's description of the service organization's system are reasonable in the circumstances. Considering the following questions may assist the service auditor in this evaluation:

- Have the control objectives stated in the description been specified by the service organization or by outside parties, such as regulatory authorities, a user group, a professional body, or others?
- Do the control objectives stated in the description and specified by the service organization relate to the types of assertions commonly embodied in the broad range of user entities' financial statements to which controls at the service organization could reasonably be expected to relate (for example, assertions about existence and accuracy that are affected by access controls that prevent or detect unauthorized access to the system)? Although the service auditor ordinarily will not be able to determine how controls at a service organization specifically relate to the assertions embodied in individual user entities' financial statements, the service auditor's understanding of the nature of the service organization's system, including controls, and the services being provided is used to identify the types of assertions to which those controls are likely to relate.
- Are the control objectives stated in the description and specified by the service organization complete? Although a complete set of control objectives can provide a broad range of user auditors with a framework to assess the effect of controls at the service organization on assertions commonly embodied in user entities' financial statements, the service auditor ordinarily will not be able to determine how controls at a service organization specifically relate to the assertions embodied in individual user entities' financial statements and cannot, therefore, determine whether control objectives are complete from the viewpoint of individual user entities or user auditors. It is the responsibility of individual user entities or user auditors to assess whether the service organization's description addresses the particular control objectives that are relevant to their needs. If the control objectives are specified by an outside party, including control objectives specified by law or regulation, the outside party is responsible for their completeness and reasonableness. (Ref: par. .19(a))

.A35 The service auditor's procedures to determine whether the system described by the service organization has been implemented may be similar to, and performed in conjunction with, procedures to obtain an understanding of that system. Other procedures that the service auditor may use in combination with inquiry of management and other service organization personnel include observation, inspection of records and other documentation, as well as reperformance of the manner in which transactions are processed through the system and controls are applied. (Ref: par. .19(b) and .20)

Obtaining Evidence Regarding the Design of Controls (Ref: par. .21)

.A36 The risks and control objectives identified in paragraph .21(a) encompass intentional and unintentional acts that threaten the achievement of the control objectives. (Ref: par. .21(a))

.A37 From the viewpoint of a user auditor, a control is suitably designed to achieve the control objectives stated in management's description of the service organization's system if individually or in combination with other controls, it would, when complied with satisfactorily, provide reasonable assurance that material misstatements are prevented, or detected and corrected. A service auditor, however, is not aware of the circumstances at individual user entities that would affect whether or not a misstatement resulting from a control deficiency is material to those user entities. Therefore, from the viewpoint of a service auditor, a control is suitably designed if individually or in combination with other controls, it would, when complied with satisfactorily, provide reasonable assurance that the control objective(s) stated in the description of the service organization's system are achieved.

.A38 A service auditor may consider using flowcharts, questionnaires, or decision tables to facilitate understanding the design of the controls.

.A39 Controls may consist of a number of activities directed at the achievement of various control objectives. Consequently, if the service auditor evaluates certain activities as being ineffective in achieving a particular control objective, the existence of other activities may allow the service auditor to conclude that controls related to the control objective are suitably designed to achieve the control objective.

Obtaining Evidence Regarding the Operating Effectiveness of Controls (Ref: par. .22–.27)

.A40 From the viewpoint of a user auditor, a control is operating effectively if individually or in combination with other controls, it provides reasonable assurance that material misstatements whether due to fraud or error are prevented, or detected and corrected. A service auditor, however, is not aware of the circumstances at individual user entities that would affect whether or not a misstatement resulting from a control deviation is material to those user entities. Therefore, from the viewpoint of a service auditor, a control is operating effectively if individually or in combination with other controls, it provides reasonable assurance that the control objectives stated in management's description of the service organization's system are achieved. Similarly, a service auditor is not in a position to determine whether any observed control deviation would result in a material misstatement from the viewpoint of an individual user entity. (Ref: par. .22)

.A41 Obtaining an understanding of controls sufficient to opine on the suitability of their design is not sufficient evidence regarding their operating effectiveness unless some automation provides for the consistent operation of the controls as they were designed and implemented. For example, obtaining information about the implementation of a manual control at a point in time does not provide evidence about operation of the control at other times. However, because of the inherent consistency of IT processing, performing procedures to determine the design of an automated control and whether it has been implemented may serve as evidence of that control's operating effectiveness,

depending on the service auditor's assessment and testing of controls such as those over program changes. (Ref: par. .22)

.A42 A type 2 report that covers a period that is less than six months is unlikely to be useful to user entities and their auditors. If management's description of the service organization's system covers a period that is less than six months, the description may describe the reasons for the shorter period and the service auditor's report may include that information as well. Circumstances that may result in a report covering a period of less than six months include the following:

- The service auditor was engaged close to the date by which the report on controls is to be issued, and controls cannot be tested for operating effectiveness for a six month period.
- The service organization or a particular system or application has been in operation for less than six months.
- Significant changes have been made to the controls, and it is not practicable either to wait six months before issuing a report or to issue a report covering the system both before and after the changes. (Ref: par. .23)

.A43 Evidence about the satisfactory operation of controls in prior periods does not provide evidence of the operating effectiveness of controls during the current period. The service auditor expresses an opinion on the effectiveness of controls throughout each period; therefore, sufficient appropriate evidence about the operating effectiveness of controls throughout the current period is required for the service auditor to express that opinion for the current period. Knowledge of deviations observed in prior engagements may, however, lead the service auditor to increase the extent of testing during the current period. (Ref: par. .22)

.A44 Determining the effect of changes in the service organization's controls that were implemented during the period covered by the service auditor's report involves gathering information about the nature and extent of such changes, how they affect processing at the service organization, and how they might affect assertions in the user entities' financial statements. (Ref: par. .14(b) and .23)

.A45 Certain controls may not leave evidence of their operation that can be tested at a later date and, accordingly, the service auditor may find it appropriate to test the operating effectiveness of such controls at various times throughout the reporting period. (Ref: par. .22)

Using the Work of an Internal Audit Function

Obtaining an Understanding of the Internal Audit Function (Ref: par. .28)

.A46 An internal audit function may be responsible for providing analyses, evaluations, assurances, recommendations, and other information to management and those charged with governance. An internal audit function at a service organization may perform activities related to the service organization's internal control or activities related to the services and systems, including controls that the service organization provides to user entities.

.A47 The scope and objectives of an internal audit function vary widely and depend on the size and structure of the service organization and the requirements of management and those charged with governance. Internal audit function activities may include one or more of the following:

- Monitoring the service organization's internal control or the application processing systems. This may include controls relevant to the services provided to user entities. The internal audit function may be assigned specific responsibility for reviewing controls, monitoring their operation, and recommending improvements thereto.
- Examination of financial and operating information. The internal audit function may be assigned to review the means by which the service organization identifies, measures, classifies, and reports financial and operating information; to make inquiries about specific matters; and to perform other procedures including detailed testing of transactions, balances, and procedures.
- Evaluation of the economy, efficiency, and effectiveness of operating activities including nonfinancial activities of the service organization.
- Evaluation of compliance with laws, regulations, and other external requirements and with management policies, directives, and other internal requirements.

Using the Work of the Internal Audit Function (Ref: par .31–.32)

.A48 The nature, timing, and extent of the service auditor's procedures on specific work of the internal auditors will depend on the service auditor's assessment of the significance of that work to the service auditor's conclusions (for example, the significance of the risks that the controls tend to mitigate), the evaluation of the internal audit function, and the evaluation of the specific work of the internal auditors. Such procedures may include the following:

- Examination of items already examined by the internal auditors
- Examination of other similar items
- Observation of procedures performed by the internal auditors

Effect on the Service Auditor's Report (Ref: par .33–.34)

.A49 The responsibility to report on management's description of the service organization's system and the suitability of the design and operating effectiveness of controls rests solely with the service auditor and cannot be shared with the internal audit function. Therefore, the judgments about the significance of deviations in the design or operating effectiveness of controls, the sufficiency of tests performed, the evaluation of identified deficiencies, and other matters affecting the service auditor's report are those of the service auditor. In making judgments about the extent of the effect of the work of the internal audit function on the service auditor's procedures, the service auditor may determine, based on risk associated with the controls and the significance of the judgments relating to them, that the service auditor will perform the work relating to some or all of the controls rather than using the work performed by the internal audit function.

.A50 In the case of a type 2 report, when the work of the internal audit function has been used in performing tests of controls, the service auditor's description of that work and of the service auditor's procedures with respect to that work may be presented in a number of ways, for example, (Ref: par .34 and .52(o)(i))

- by including introductory material to the description of tests of controls indicating that certain work of the internal audit function was used in performing tests of controls.

- attribution of individual tests to internal audit.

Written Representations (Ref: par. .36–.39)

.A51 Written representations reaffirming the service organization's assertion about the effective operation of controls may be based on ongoing monitoring activities, separate evaluations, or a combination of the two. (Ref: par. .A12)

.A52 In certain circumstances, a service auditor may obtain written representations from parties in addition to management of the service organization, such as those charged with governance.

.A53 The written representations required by paragraph .36 are separate from and in addition to the assertion included in or attached to management's description of the service organization's system required by paragraph .09(c)(vii).

.A54 If the service auditor is unable to obtain written representations regarding relevant control objectives and related controls at the subservice organization, management of the service organization would be unable to use the inclusive method but could use the carve-out method.

.A55 In addition to the written representations required by paragraph .36, the service auditor may consider it necessary to request other written representations.

Other Information

.A56 The "other information" referred to in paragraphs .40–.41 may be the following:

- Information provided by the service organization and included in a section of the service auditor's type 1 or type 2 report, or
- Information outside the service auditor's type 1 or type 2 report included in a document that contains the service auditor's report. This other information may be provided by the service organization or by another party. (Ref: par. .40, .52(c)(ii)–(iii), and .53(c)(ii)–(iii))

.A57 If other information included in a document containing management's description of the service organization's system and the service auditor's report contains future-oriented information that cannot be reasonably substantiated, the service auditor may request that the information be removed or revised. (Ref: par. .41)

Documentation

.A58 Paragraph 57 of Statement on Quality Control Standards No. 8, *A Firm's System of Quality Control*, requires the firm to establish policies and procedures that address engagement performance, supervision responsibilities, and review responsibilities. The requirement to document who reviewed the work performed and the extent of the review, in accordance with the firm's policies and procedures addressing review responsibilities, does not imply a need for each specific working paper to include evidence of review. The requirement, however, means documenting what work was reviewed, who reviewed such work, and when it was reviewed. (Ref: par. .44)

Preparing the Service Auditor's Report

Content of the Service Auditor's Report (Ref: par. .52–.53)

.A59 Examples of service auditors' reports are presented in appendixes A–C and illustrative assertions by management of the service organization are presented in exhibit A.

.A60 The service organization's assertion may be presented in management's description of the service organization's system or may be attached to the description. (Ref: par. .52(e) and .53(e))

Use of the Service Auditor's Report (Ref: par. .52(p) and .53(o))

.A61 Paragraph .79 of section 101 requires that the use of a practitioner's report be restricted to specified parties when the criteria used to evaluate or measure the subject matter are available only to specified parties or appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria. The criteria used for engagements to report on controls at a service organization are relevant only for the purpose of providing information about the service organization's system, including controls, to those who have an understanding of how the system is used for financial reporting by user entities and, accordingly, the service auditor's report states that the report and the description of tests of controls are intended only for use by management of the service organization, user entities of the service organization ("during some or all of the period covered by the report" for a type 2 report, and "as of the ending date of the period covered by the report" for a type 1 report), and their user auditors. (The illustrative service auditor's reports in appendix A illustrate language for a paragraph restricting the use of a service auditor's report.)

.A62 Paragraph .79 of section 101 indicates that the need for restriction on the use of a report may result from a number of circumstances, including the potential for the report to be misunderstood when taken out of the context in which it was intended to be used, and the extent to which the procedures performed are known or understood.

.A63 Although a service auditor is not responsible for controlling a service organization's distribution of a service auditor's report, a service auditor may inform the service organization of the following:

- A service auditor's type 1 report is not intended for distribution to parties other than the service organization, user entities of the service organization's system as of the end of the period covered by the service auditor's report, and their user auditors.
- A service auditor's type 2 report is not intended for distribution to parties other than the service organization, user entities of the service organization's system during some or all of the period covered by the service auditor's report, and their user auditors.

.A64 A user entity is also considered a user entity of the service organization's subservice organizations if controls at subservice organizations are relevant to internal control over financial reporting of the user entity. In such case, the user entity is referred to as an indirect or downstream user entity of the subservice organization. Consequently, an indirect or downstream user entity may be included in the group to whom use of the service auditor's report is restricted if controls at the service organization are relevant to internal control over financial reporting of such indirect or downstream user entity.

Description of the Service Auditor's Tests of Controls and the Results Thereof (Ref: par. .52(o)(ii))

.A65 In describing the service auditor's tests of controls for a type 2 report, it assists readers if the service auditor's report includes information about causative factors for identified deviations, to the extent the service auditor has identified such factors.

Modified Opinions (Ref: par. .55–.57)

.A66 Examples of elements of modified service auditor's reports are presented in appendix B.

Other Communication Responsibilities (Ref: par. .58)

.A67 Actions that a service auditor may take when he or she becomes aware of noncompliance with laws and regulations, fraud, or uncorrected errors at the service organization (after giving additional consideration to instances in which the service organization has not appropriately communicated this information to affected user entities, and the service organization is unwilling to do so) include the following:

- Obtaining legal advice about the consequences of different courses of action
- Communicating with those charged with governance of the service organization
- Disclaiming an opinion, modifying the service auditor's opinion, or adding an emphasis paragraph
- Communicating with third parties, for example, a regulator, when required to do so
- Withdrawing from the engagement

.A68

Appendix A: Illustrative Service Auditor's Reports

The following illustrative reports are for guidance only and are not intended to be exhaustive or applicable to all situations.

Example 1: Type 2 Service Auditor's Report

Independent Service Auditor's Report on a Description of a Service Organization's System and the Suitability of the Design and Operating Effectiveness of Controls

To: XYZ Service Organization

Scope

We have examined XYZ Service Organization's description of its [*type or name of*] system for processing user entities' transactions [*or identification of the function performed by the system*] throughout the period [*date*] to [*date*] (*description*) and the suitability of the design and operating effectiveness of controls to achieve the related control objectives stated in the description.

Service organization's responsibilities

On page XX of the description, XYZ Service Organization has provided an assertion about the fairness of the presentation of the description and suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description. XYZ Service Organization is responsible for preparing the description and for the assertion, including the completeness, accuracy, and method of presentation of the description and the assertion, providing the services covered by the description, specifying the control objectives and stating them in the description, identifying the risks that threaten the achievement of the control objectives, selecting the criteria, and designing, implementing, and documenting controls to achieve the related control objectives stated in the description.

Service auditor's responsibilities

Our responsibility is to express an opinion on the fairness of the presentation of the description and on the suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description, based on our examination. We conducted our examination in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform our examination to obtain reasonable assurance about whether, in all material respects, the description is fairly presented and the controls were suitably designed and operating effectively to achieve the related control objectives stated in the description throughout the period [*date*] to [*date*].

An examination of a description of a service organization's system and the suitability of the design and operating effectiveness of the service organization's controls to achieve the related control objectives stated in the description involves performing procedures to obtain evidence about the fairness of the presentation of the description and the suitability of the design and operating effectiveness of those controls to achieve the related control objectives stated in the description. Our procedures included assessing the risks that the description is not fairly presented and that the controls were not suitably designed

or operating effectively to achieve the related control objectives stated in the description. Our procedures also included testing the operating effectiveness of those controls that we consider necessary to provide reasonable assurance that the related control objectives stated in the description were achieved. An examination engagement of this type also includes evaluating the overall presentation of the description and the suitability of the control objectives stated therein, and the suitability of the criteria specified by the service organization and described at page [aa]. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Inherent limitations

Because of their nature, controls at a service organization may not prevent, or detect and correct, all errors or omissions in processing or reporting transactions [or *identification of the function performed by the system*]. Also, the projection to the future of any evaluation of the fairness of the presentation of the description, or conclusions about the suitability of the design or operating effectiveness of the controls to achieve the related control objectives is subject to the risk that controls at a service organization may become inadequate or fail.

Opinion

In our opinion, in all material respects, based on the criteria described in XYZ Service Organization's assertion on page [aa],

- a. the description fairly presents the [type or name of] system that was designed and implemented throughout the period [date] to [date].
- b. the controls related to the control objectives stated in the description were suitably designed to provide reasonable assurance that the control objectives would be achieved if the controls operated effectively throughout the period [date] to [date].
- c. the controls tested, which were those necessary to provide reasonable assurance that the control objectives stated in the description were achieved, operated effectively throughout the period [date] to [date].

Description of tests of controls

The specific controls tested and the nature, timing, and results of those tests are listed on pages [yy-zz].

Restricted use

This report, including the description of tests of controls and results thereof on pages [yy-zz], is intended solely for the information and use of XYZ Service Organization, user entities of XYZ Service Organization's [type or name of] system during some or all of the period [date] to [date], and the independent auditors of such user entities, who have a sufficient understanding to consider it, along with other information including information about controls implemented by user entities themselves, when assessing the risks of material misstatements of user entities' financial statements. This report is not intended to be and should not be used by anyone other than these specified parties.

[Service auditor's signature]

[Date of the service auditor's report]

[Service auditor's city and state]

Following is a modification of the scope paragraph in a type 2 service auditor's report if the description refers to the need for complementary user entity controls. (New language is shown in boldface italics):

We have examined XYZ Service Organization's description of its [*type or name of*] system for processing user entities' transactions [*or identification of the function performed by the system*] throughout the period [*date*] to [*date*] (description) and the suitability of the design and operating effectiveness of controls to achieve the related control objectives stated in the description. ***The description indicates that certain control objectives specified in the description can be achieved only if complementary user entity controls contemplated in the design of XYZ Service Organization's controls are suitably designed and operating effectively, along with related controls at the service organization. We have not evaluated the suitability of the design or operating effectiveness of such complementary user entity controls.***

Following is a modification of the applicable subparagraphs of the opinion paragraph of a type 2 service auditor's report if the application of complementary user entity controls is necessary to achieve the related control objectives stated in the description of the service organization's system (New language is shown in boldface italics):

- b. The controls related to the control objectives stated in the description were suitably designed to provide reasonable assurance that those control objectives would be achieved if the controls operated effectively throughout the period [*date*] to [*date*] ***and user entities applied the complementary user entity controls contemplated in the design of XYZ Service Organization's controls throughout the period [date] to [date].***
- c. The controls tested, which ***together with the complementary user entity controls referred to in the scope paragraph of this report, if operating effectively,*** were those necessary to provide reasonable assurance that the control objectives stated in the description were achieved, operated effectively throughout the period [*date*] to [*date*].

Following is a modification of the paragraph that describes the responsibilities of management of the service organization for use in a type 2 service auditor's report when the control objectives have been specified by an outside party. (New language is shown in boldface italics):

On page XX of the description, XYZ Service Organization has provided an assertion about the fairness of the presentation of the description and suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description. XYZ Service Organization is responsible for preparing the description and for its assertion], including the completeness, accuracy, and method of presentation of the description and assertion, providing the services covered by the description, selecting the criteria, and designing, implementing, and documenting controls to achieve the related control objectives stated in the description. ***The control objectives have been specified by [name of party specifying the control objectives] and are stated on page [aa] of the description.***

Example 2: Type 1 Service Auditor's Report**Independent Service Auditor's Report on a Description of a Service Organization's System and the Suitability of the Design of Controls**

To: XYZ Service Organization

Scope

We have examined XYZ Service Organization's description of its [*type or name of*] system for processing user entities' transactions [*or identification of the function performed by the system*] as of [*date*], and the suitability of the design of controls to achieve the related control objectives stated in the description.

Service organization's responsibilities

On page XX of the description, XYZ Service Organization has provided an assertion about the fairness of the presentation of the description and suitability of the design of the controls to achieve the related control objectives stated in the description. XYZ Service Organization is responsible for preparing the description and for its assertion, including the completeness, accuracy, and method of presentation of the description and the assertion, providing the services covered by the description, specifying the control objectives and stating them in the description, identifying the risks that threaten the achievement of the control objectives, selecting the criteria, and designing, implementing, and documenting controls to achieve the related control objectives stated in the description.

Service auditor's responsibilities

Our responsibility is to express an opinion on the fairness of the presentation of the description and on the suitability of the design of the controls to achieve the related control objectives stated in the description, based on our examination. We conducted our examination in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform our examination to obtain reasonable assurance, in all material respects, about whether the description is fairly presented and the controls were suitably designed to achieve the related control objectives stated in the description as of [*date*].

An examination of a description of a service organization's system and the suitability of the design of the service organization's controls to achieve the related control objectives stated in the description involves performing procedures to obtain evidence about the fairness of the presentation of the description of the system and the suitability of the design of the controls to achieve the related control objectives stated in the description. Our procedures included assessing the risks that the description is not fairly presented and that the controls were not suitably designed to achieve the related control objectives stated in the description. An examination engagement of this type also includes evaluating the overall presentation of the description and the suitability of the control objectives stated therein, and the suitability of the criteria specified by the service organization and described at page [*aa*].

We did not perform any procedures regarding the operating effectiveness of the controls stated in the description and, accordingly, do not express an opinion thereon.

We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Inherent limitations

Because of their nature, controls at a service organization may not prevent, or detect and correct, all errors or omissions in processing or reporting transactions [*or identification of the function performed by the system*]. The projection

to the future of any evaluation of the fairness of the presentation of the description, or any conclusions about the suitability of the design of the controls to achieve the related control objectives is subject to the risk that controls at a service organization may become ineffective or fail.

Opinion

In our opinion, in all material respects, based on the criteria described in XYZ Service Organization's assertion,

- a. the description fairly presents the [type or name of] system that was designed and implemented as of [date], and
- b. the controls related to the control objectives stated in the description were suitably designed to provide reasonable assurance that the control objectives would be achieved if the controls operated effectively as of [date].

Restricted use

This report is intended solely for the information and use of XYZ Service Organization, user entities of XYZ Service Organization's [type or name of] system as of [date], and the independent auditors of such user entities, who have a sufficient understanding to consider it, along with other information including information about controls implemented by user entities themselves, when obtaining an understanding of user entities information and communication systems relevant to financial reporting. This report is not intended to be and should not be used by anyone other than these specified parties.

[Service auditor's signature]

[Date of the service auditor's report]

[Service auditor's city and state]

Following is a modification of the scope paragraph in a type 1 report if the description of the service organization's system refers to the need for complementary user entity controls. (New language is shown in boldface italics)

We have examined XYZ Service Organization's description of its [type or name of] system (description) made available to user entities of the system for processing their transactions [or identification of the function performed by the system] as of [date], and the suitability of the design of controls to achieve the related control objectives stated in the description. ***The description indicates that certain complementary user entity controls must be suitably designed and implemented at user entities for related controls at the service organization to be considered suitably designed to achieve the related control objectives. We have not evaluated the suitability of the design or operating effectiveness of such complementary user entity controls.***

Following is a modification of the applicable subparagraph in the opinion paragraph of a type 1 report if the application of complementary user entity controls is necessary to achieve the related control objectives stated in management's description of the service organization's system (New language is shown in boldface italics):

- b. The controls related to the control objectives stated in the description were suitably designed to provide reasonable assurance that those control objectives would be achieved if the controls operated effectively as of [date] ***and user entities applied the complementary user entity controls contemplated in the design of XYZ Service Organization's controls as of [date].***

Following is a modification of the paragraph that describes management of XYZ Service Organization's responsibilities to be used in a type 1 report when the control objectives have been specified by an outside party. (New language is shown in boldface italics):

On page XX of the description, XYZ Service Organization has provided an assertion about the fairness of the presentation of the description and suitability of the design of the controls to achieve the related control objectives stated in the description. XYZ Service Organization is responsible for preparing the description and assertion, including the completeness, accuracy, and method of presentation of the description and assertion, providing the services covered by the description, selecting the criteria, and designing, implementing, and documenting controls to achieve the related control objectives stated in the description. ***The control objectives have been specified by [name of party specifying the control objectives] and are stated on page [aa] of the description.***

.A69

Appendix B: Illustrative Modified Service Auditor's Reports

The following examples of modified service auditor's reports are for guidance only and are not intended to be exhaustive or applicable to all situations. They are based on the illustrative reports in appendix A.

Example 1: Qualified Opinion for a Type 2 Report—The Description of the Service Organization's System is Not Fairly Presented in All Material Respects

The following is an illustrative paragraph describing the basis for the qualified opinion. The paragraph would be inserted before the modified opinion paragraph. All other report paragraphs are unchanged.

Basis for qualified opinion

The accompanying description states on page [mn] that XYZ Service Organization uses operator identification numbers and passwords to prevent unauthorized access to the system. Based on inquiries of staff personnel and observation of activities, we have determined that operator identification numbers and passwords are employed in applications A and B but are not required to access the system in applications C and D.

Opinion

In our opinion, except for the matter described in the preceding paragraph, and based on the criteria described in XYZ Service Organization's assertion on page [aa], in all material respects. . .

Example 2: Qualified Opinion—The Controls are Not Suitably Designed to Provide Reasonable Assurance That the Control Objectives Stated in the Description of the Service Organization's System Would be Achieved if the Controls Operated Effectively

The following is an illustrative paragraph describing the basis for the qualified opinion. The paragraph would be inserted before the modified opinion paragraph. All other report paragraphs are unchanged.

Basis for qualified opinion

As discussed on page [mn] of the accompanying description, from time to time, XYZ Service Organization makes changes in application programs to correct deficiencies or to enhance capabilities. The procedures followed in determining whether to make changes, in designing the changes, and in implementing them do not include review and approval by authorized individuals who are independent from those involved in making the changes. There also are no specified requirements to test such changes or provide test results to an authorized reviewer prior to implementing the changes. As a result the controls are not suitably designed to achieve the control objective, "Controls provide reasonable assurance that changes to existing applications are authorized, tested, approved, properly implemented, and documented."

Opinion

In our opinion, except for the matter described in the preceding paragraph, and based on the criteria described in XYZ Service Organization's assertion on page [aa], in all material respects. . .

Example 3: Qualified Opinion for a Type 2 Report—The Controls Did Not Operate Effectively Throughout the Specified Period to Achieve the Control Objectives Stated in the Description of the Service Organization’s System

The following is an illustrative paragraph describing the basis for the qualified opinion. The paragraph would be inserted before the modified opinion paragraph. All other report paragraphs are unchanged.

Basis for qualified opinion

XYZ Service Organization states in its description that it has automated controls in place to reconcile loan payments received with the various output reports. However, as noted on page [mn] of the description of tests of controls and results thereof, this control was not operating effectively throughout the period [date] to [date] due to a programming error. This resulted in the nonachievement of the control objective, "Controls provide reasonable assurance that loan payments received are properly recorded" throughout the period January 1, 20X1, to April 30, 20X1. XYZ Service Organization implemented a change to the program performing the calculation as of May 1, 20X1, and our tests indicate that it was operating effectively throughout the period May 1, 20X1, to December 31, 20X1.

Opinion

In our opinion, except for the matter described in the preceding paragraph, and based on the criteria described in XYZ Service Organization's assertion on page [aa], in all material respects. . . .

Example 4: Qualified Opinion—The Service Auditor is Unable to Obtain Sufficient Appropriate Evidence

The following is an illustrative paragraph describing the basis for the qualified opinion. The paragraph would be inserted before the modified opinion paragraph. All other report paragraphs are unchanged.

Basis for qualified opinion

XYZ Service Organization states in its description that it has automated controls in place to reconcile loan payments received with the output generated. However, electronic records of the performance of this reconciliation for the period from [date] to [date] were deleted as a result of a computer processing error and, therefore, we were unable to test the operation of this control for that period. Consequently, we were unable to determine whether the control objective, "Controls provide reasonable assurance that loan payments received are properly recorded" was achieved throughout the period [date] to [date].

Opinion

In our opinion, except for the matter described in the preceding paragraph, and based on the criteria described in XYZ Service Organization's assertion on page [aa], in all material respects. . . .

.A70

Appendix C: Illustrative Report Paragraphs for Service Organizations That Use a Subservice Organization

Following are modifications of the illustrative type 2 report in example 1 of appendix A for use in engagements in which the service organization uses a subservice organization. (New language is shown in boldface italics; deleted language is shown by strikethrough.)

Example 1: Carve-Out Method

Scope

We have examined XYZ Service Organization's description of its system for processing user entities' transactions [*or identification of the function performed by the system*] throughout the period [*date*] to [*date*] (description) and the suitability of the design and operating effectiveness of controls to achieve the related control objectives stated in the description.

XYZ Service Organization uses a computer processing service organization for all of its computerized application processing. The description on pages [bb–cc] includes only the controls and related control objectives of XYZ Service Organization and excludes the control objectives and related controls of the computer processing service organization. Our examination did not extend to controls of the computer processing service organization.

All other report paragraphs are unchanged.

Example 2: Inclusive Method

Scope

We have examined XYZ Service Organization's ***and ABC Subservice Organization's*** description of ~~its~~ ***their*** [*type or name of*] system for processing user entities' transactions [*or identification of the function performed by the system*] throughout the period [*date*] to [*date*] (description) and the suitability of the design and operating effectiveness of ***XYZ Service Organization's and ABC Subservice Organization's*** controls to achieve the related control objectives stated in the description. ***ABC Subservice Organization is an independent service organization that provides computer processing services to XYZ Service Organization. XYZ Service Organization's description includes a description of ABC Subservice Organization's*** [*type or name of*] ***system used by XYZ Service Organization to process transactions for its user entities, as well as relevant control objectives and controls of ABC Subservice Organization.***

XYZ Service Organization's responsibilities

On page XX of the description, XYZ Service Organization ***and ABC Subservice Organization*** ~~has~~ ***have*** provided ~~an~~ ***their*** assertions about the fairness of the presentation of the description and suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description. XYZ Service Organization ***and ABC Subservice Organization*** ~~are~~ ***is*** responsible for preparing the description and assertions, including the completeness, accuracy, and method of presentation of the description and assertions, providing the services covered by the description, specifying the control objectives and stating them in the description, identifying the risks that threaten the achievement of the control objectives, selecting the criteria,

and designing, implementing, and documenting controls to achieve the related control objectives stated in the description.

Inherent limitations

Because of their nature, controls at a service organization **or subservice organization** may not prevent, or detect and correct, all errors or omissions in processing or reporting transactions. Also, the projection to the future of any evaluation of the fairness of the presentation of the description or any conclusions about the suitability of the design or operating effectiveness of the controls to achieve the related control objectives is subject to the risk that controls at a service organization **or subservice organization** may become ineffective or fail.

Opinion

In our opinion, in all material respects, based on the criteria specified in XYZ Service Organization's and ABC Subservice Organization's assertions on page [aa],

- a. the description fairly presents **XYZ Service Organization's** ~~the~~ [type or name of] system **and ABC Subservice Organization's** [type or name of] system used by XYZ Service Organization to process transactions for its user entities [or identification of the function performed by the service organization's system] that **were** ~~was~~ designed and implemented throughout the period [date] to [date].
- b. the controls related to the control objectives of **XYZ Service Organization and ABC Subservice Organization** stated in the description were suitably designed to provide reasonable assurance that the control objectives would be achieved if the controls operated effectively throughout the period [date] to [date].
- c. the controls of **XYZ Service Organization and ABC Subservice Organization** that we tested, which were those necessary to provide reasonable assurance that the control objectives stated in the description were achieved, operated effectively throughout the period [date] to [date].

All other report paragraphs are unchanged.

.A71

Exhibit A: Illustrative Assertions by Management of a Service Organization

The assertion by management of the service organization may be included in management's description of the service organization's system or may be attached to the description. The following illustrative assertions are intended for assertions that are included in the description.

The following illustrative management assertions are for guidance only and are not intended to be exhaustive or applicable to all situations.

Example 1: Assertion by Management of a Service Organization for a Type 2 Report

XYZ Service Organization's Assertion

We have prepared the description of XYZ Service Organization's [*type or name of*] system (description) for user entities of the system during some or all of the period [*date*] to [*date*], and their user auditors who have a sufficient understanding to consider it, along with other information, including information about controls implemented by user entities of the system themselves, when assessing the risks of material misstatements of user entities' financial statements. We confirm, to the best of our knowledge and belief, that

- a. the description fairly presents the [*type or name of*] system made available to user entities of the system during some or all of the period [*date*] to [*date*] for processing their transactions [*or identification of the function performed by the system*]. The criteria we used in making this assertion were that the description
 - i. presents how the system made available to user entities of the system was designed and implemented to process relevant transactions, including
 - (1) the classes of transactions processed.
 - (2) the procedures, within both automated and manual systems, by which those transactions are initiated, authorized, recorded, processed, corrected as necessary, and transferred to the reports presented to user entities of the system.
 - (3) the related accounting records, supporting information, and specific accounts that are used to initiate, authorize, record, process, and report transactions; this includes the correction of incorrect information and how information is transferred to the reports presented to user entities of the system.
 - (4) how the system captures and addresses significant events and conditions, other than transactions.
 - (5) the process used to prepare reports or other information provided to user entities' of the system.
 - (6) specified control objectives and controls designed to achieve those objectives.

- (7) other aspects of our control environment, risk assessment process, information and communication systems (including the related business processes), control activities, and monitoring controls that are relevant to processing and reporting transactions of user entities of the system.
- ii. does not omit or distort information relevant to the scope of the [*type or name of*] system, while acknowledging that the description is prepared to meet the common needs of a broad range of user entities of the system and the independent auditors of those user entities, and may not, therefore, include every aspect of the [*type or name of*] system that each individual user entity of the system and its auditor may consider important in its own particular environment.
- b. the description includes relevant details of changes to the service organization's system during the period covered by the description when the description covers a period of time.
- c. the controls related to the control objectives stated in the description were suitably designed and operated effectively throughout the period [*date*] to [*date*] to achieve those control objectives. The criteria we used in making this assertion were that
 - i. the risks that threaten the achievement of the control objectives stated in the description have been identified by the service organization;
 - ii. the controls identified in the description would, if operating as described, provide reasonable assurance that those risks would not prevent the control objectives stated in the description from being achieved; and
 - iii. the controls were consistently applied as designed, including whether manual controls were applied by individuals who have the appropriate competence and authority.

Example 2: Assertion by Management of a Service Organization for a Type 1 Report

XYZ Service Organization's Assertion

We have prepared the description of XYZ Service Organization's [*type or name of*] system (description) for user entities of the system as of [*date*], and their user auditors who have a sufficient understanding to consider it, along with other information including information about controls implemented by user entities themselves, when obtaining an understanding of user entities' information and communication systems relevant to financial reporting. We confirm, to the best of our knowledge and belief, that

- a. the description fairly presents the [*type or name of*] system made available to user entities of the system as of [*date*] for processing their transactions [*or identification of the function performed by the system*]. The criteria we used in making this assertion were that the description
 - i. presents how the system made available to user entities of the system was designed and implemented to process relevant transactions, including
 - (1) the classes of transactions processed.

- (2) the procedures, within both automated and manual systems, by which those transactions are initiated, authorized, recorded, processed, corrected as necessary, and transferred to the reports presented to user entities of the system.
 - (3) the related accounting records, supporting information, and specific accounts that are used to initiate, authorize, record, process, and report transactions; this includes the correction of incorrect information and how information is transferred to the reports provided to user entities of the system.
 - (4) how the system captures and addresses significant events and conditions, other than transactions.
 - (5) the process used to prepare reports or other information provided to user entities of the system.
 - (6) specified control objectives and controls designed to achieve those objectives.
 - (7) other aspects of our control environment, risk assessment process, information and communication systems (including the related business processes), control activities, and monitoring controls that are relevant to processing and reporting transactions of user entities of the system.
- ii. does not omit or distort information relevant to the scope of the [*type or name of*] system, while acknowledging that the description is prepared to meet the common needs of a broad range of user entities of the system and the independent auditors of those user entities, and may not, therefore, include every aspect of the [*type or name of*] system that each individual user entity of the system and its auditor may consider important in its own particular environment.
- b. the controls related to the control objectives stated in the description were suitably designed as of [*date*] to achieve those control objectives. The criteria we used in making this assertion were that
 - i. the risks that threaten the achievement of the control objectives stated in the description have been identified by the service organization.
 - ii. the controls identified in the description would, if operating as described, provide reasonable assurance that those risks would not prevent the control objectives stated in the description from being achieved.

.A72

Exhibit B: Comparison of Requirements of Section 801, *Reporting On Controls at a Service Organization*, With Requirements of International Standard on Assurance Engagements 3402, *Assurance Reports on Controls at a Service Organization*

This analysis was prepared by the AICPA Audit and Attest Standards staff to highlight substantive differences between section 801, *Reporting on Controls at a Service Organization*, and International Standard on Assurance Engagements (ISAE) 3402, *Assurance Reports on Controls at a Service Organization*, and to explain the rationale for those differences. This analysis is not authoritative and is prepared for informational purposes only.

1. Intentional Acts by Service Organization Personnel

Paragraph .26 of this section requires the service auditor to investigate the nature and cause of any deviations identified, as does paragraph 28 of ISAE 3402. Paragraph .27 of this section indicates that if the service auditor becomes aware that the deviations resulted from intentional acts by service organization personnel, the service auditor should assess the risk that the description of the service organization's system is not fairly presented and that the controls are not suitably designed or operating effectively. The ISAE does not contain the requirement included in paragraph .27 of this section. The Auditing Standards Board (ASB) believes that information about intentional acts affects the nature, timing, and extent of the service auditor's procedures. Therefore, paragraph .27 provides follow-up action for the service auditor when he or she obtains information about intentional acts as a result of performing the procedures in paragraph .26 of this section.

Paragraph .36(c)(ii) of this section, which is not included in ISAE 3402, also requires the service auditor to request written representations from management that it has disclosed to the service auditor knowledge of any actual, suspected, or alleged intentional acts by management or the service organization's employees, of which it is aware, that could adversely affect the fairness of the presentation of management's description of the service organization's system or the completeness or achievement of the control objectives stated in the description.

2. Anomalies

Paragraph 29 of ISAE 3402 contains a requirement that enables a service auditor to conclude that a deviation identified in tests of controls involving sampling is not representative of the population from which the sample was drawn. This section does not include this requirement because of concerns about use of terms such as, "in the extremely rare circumstances" and "a high degree of certainty." These terms are not used in U.S professional standards and the ASB believes their introduction in this section could have unintended consequences. The ASB also believes that the deletion of this requirement will enhance examination quality because deviations identified by the service auditor in tests of controls involving sampling will be treated in the same manner as any other deviation identified by the practitioner, rather than as an anomaly.

3. Direct Assistance

Paragraph .35 of this section requires the service auditor to adapt and apply the requirements in paragraph .27 of AU-C section 610, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, when the service auditor uses members of the service organization's internal audit function to provide direct assistance. Because AU-C section 610 provides for an auditor to use the work of the internal audit function in a direct assistance capacity, paragraph .35 of this section also provides for this. The International Standards on Auditing and the ISAEs do not provide for use of the internal audit function for direct assistance.

4. Subsequent Events

With respect to events that occur subsequent to the period covered by the description of the service organization's system up to the date of the service auditor's report, paragraph .42 of this section requires the service auditor to disclose in the service auditor's report, if not disclosed by management in its description, any event that is of such a nature and significance that its disclosure is necessary to prevent users of a type 1 or type 2 report from being misled. The ASB believes that information about such events could be important to user entities and their auditors. ISAE 3402 limits the types of subsequent events that would need to be disclosed in the service auditor's report to those that could have a significant effect on the service auditor's report.

Paragraph .43 of this section requires the service auditor to adapt and apply the guidance in AU-C section 560, *Subsequent Events and Subsequently Discovered Facts*, if, after the release of the service auditor's report, the service auditor becomes aware of conditions that existed at the report date that might have affected management's assertion and the service auditor's report had the service auditor been aware of them. The ISAE does not include a similar requirement. The ASB believes that, by analogy, AU-C section 560 provides needed guidance to a service auditor by presenting the various circumstances that could occur during the subsequent events period and the actions a service auditor should take.

5. Statement Restricting Use of the Service Auditor's Report

This section requires the service auditor's report to include a statement restricting the use of the report to management of the service organization, user entities of the service organization's system, and user auditors. The ASB believes that the unambiguous language in the restricted use statement prevents misunderstanding regarding who the report is intended for. Paragraphs .A61–.A62 of this section explain the reasons for restricting the use of the report. ISAE 3402 requires the service auditor's report to include a statement indicating that the report is intended only for user entities and their auditors. However, the ISAE does not require the inclusion of a statement restricting the use of the report to specified parties, although it does not prohibit the inclusion of restricted use language in the report.

6. Documentation Completion

Paragraph 50 of the ISAE requires the service auditor to assemble the documentation in an engagement file and complete the administrative process of assembling the final engagement file on a timely basis after the date of the service auditor's assurance report. Paragraph .49 of this section also requires the service auditor to assemble the engagement documentation in an engagement

file and complete the administrative process of assembling the final engagement file on a timely basis, but also indicates that a timely basis is no later than 60 days following the service auditor's report release date. The ASB made this change to parallel the definition of *documentation completion date* in paragraph .06 of AU-C section 230, *Audit Documentation*.

7. Engagement Acceptance and Continuance

Paragraph .09 of this section establishes conditions for the acceptance and continuance of an engagement to report on controls at a service organization. One of the conditions is that management acknowledge and accept responsibility for providing the service auditor with written representations at the conclusion of the engagement. ISAE 3402 does not include this requirement as a condition of engagement acceptance and continuance.

8. Disclaimer of Opinion

If management does not provide the service auditor with certain written representations, paragraph 40 of ISAE 3402 requires the service auditor, after discussing the matter with management, to disclaim an opinion. In the same circumstances, paragraph .39 of this section requires the service auditor to take appropriate action, which may include disclaiming an opinion or withdrawing from the engagement.

Paragraphs .56–.57 of this section contain certain incremental requirements when the service auditor plans to disclaim an opinion.

9. Elements of the Section 801 Report That Are Not Required in the ISAE 3402 Report

Paragraphs .52–.53 of this section contain certain requirements regarding the content of the service auditor's report, which are incremental to those in ISAE 3402. These incremental requirements are included in paragraphs .52(c)(iii); .52(e)(iv); .52(i); and .52(k) for type 2 reports, and in paragraphs .53(c)(iii); .53(e)(iv); .53(j); and .53(k) for type 1 reports.

[Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]
