*The Auditor's Communication With Those Charged With Governance*,<sup>3</sup> the external auditor should communicate how the external auditor has planned to use the work of the internal audit function in obtaining audit evidence. (Ref: par. .A28)

### **Using the Work of the Internal Audit Function in Obtaining Audit Evidence**

**.20** If the external auditor plans to use the work of the internal audit function in obtaining audit evidence, the external auditor should discuss the planned use of the work with the function as a basis for coordinating their respective activities. (Ref: par. .A29–.A32)

**.21** The external auditor should read the reports of the internal audit function, which relate to the work of the function that the external auditor plans to use to obtain an understanding of the nature and extent of audit procedures the internal audit function performed and the related findings.

**.22** The external auditor should perform sufficient audit procedures on the body of work of the internal audit function as a whole that the external auditor plans to use to determine its adequacy for purposes of the audit, including evaluating whether

- a. the work of the function was properly planned, performed, supervised, reviewed, and documented;
- b. sufficient appropriate evidence was obtained to enable the function to draw reasonable conclusions; and
- c. conclusions reached are appropriate in the circumstances, and the reports prepared by the function are consistent with the results of the work performed. (Ref: par. .A33–.A36)

**.23** The nature and extent of the external auditor's audit procedures should be responsive to the external auditor's evaluation of

- a. the amount of judgment involved in
  - i. planning and performing relevant audit procedures and
  - ii. evaluating the audit evidence obtained;
- b. the assessed risk of material misstatement;
- c. the extent to which the internal audit function's organizational status and relevant policies and procedures support the objectivity of the internal auditors; and
- d. the level of competence of the function. (Ref: par. .A33–.A35) (see paragraphs .16–.17)

The external auditor should also reperform some of the body of work of the internal audit function that the external auditor intends to use in obtaining audit evidence. (Ref: par. .A36)

**.24** Before the conclusion of the audit, the external auditor should evaluate whether the external auditor's conclusions regarding the internal audit function in paragraph .13 and the determination of the nature and extent of use of the work of the function for purposes of the audit in paragraphs .16–.18 remain appropriate.

---

<sup>3</sup> Paragraph .11 of section 260, *The Auditor's Communication With Those Charged With Governance*.

## Determining Whether, in Which Areas, and to What Extent Internal Auditors Can Be Used to Provide Direct Assistance

### *Determining Whether Internal Auditors Can Be Used to Provide Direct Assistance for Purposes of the Audit*

.25 If the external auditor plans to use internal auditors to provide direct assistance on the audit, the external auditor should evaluate the existence and significance of threats to the objectivity of the internal auditors who will be providing direct assistance, as well as any safeguards applied to reduce or eliminate the threats, and the level of competence of the internal auditors who will be providing such assistance. (Ref: par. .A37–.A41)

.26 The external auditor should not use an internal auditor to provide direct assistance if

- a. the internal auditor lacks the necessary objectivity to perform the proposed work, or
- b. the internal auditor lacks the necessary competence to perform the proposed work. (Ref: par. .A37–.A41)

### *Determining the Nature and Extent of Work That Can Be Assigned to Internal Auditors Providing Direct Assistance*

.27 In determining the nature and extent of work that may be assigned to internal auditors providing direct assistance and the nature, timing, and extent of direction, supervision, and review that is appropriate in the circumstances, the external auditor should consider

- a. the external auditor's evaluation of the existence and significance of threats to the internal auditors' objectivity, the effectiveness of the safeguards applied to reduce or eliminate the threats, and the level of competence of the internal auditors who will be providing such assistance;
- b. the assessed risk of material misstatement; and
- c. the amount of judgment involved in
  - i. planning and performing relevant audit procedures and
  - ii. evaluating the audit evidence obtained. (Ref: par. .A42–.A43)

### *Communicating With Those Charged With Governance*

.28 In communicating an overview of the planned scope and timing of the audit with those charged with governance in accordance with section 260,<sup>4</sup> the external auditor should communicate how the external auditor plans to use internal auditors to provide direct assistance.

### *Using Internal Auditors to Provide Direct Assistance*

.29 The external auditor should evaluate whether, in aggregate, using internal auditors to provide direct assistance to the extent planned, together with any planned use of the work of the internal audit function in obtaining audit evidence, would result in the external auditor still being sufficiently involved in the audit, given the external auditor's sole responsibility for the audit opinion expressed. (Ref: par. .A44)

---

<sup>4</sup> See footnote 3.

**.30** Prior to using internal auditors to provide direct assistance, the external auditor should obtain written acknowledgment from management or those charged with governance, as appropriate, that internal auditors providing direct assistance to the external auditor will be allowed to follow the external auditor's instructions, and that the entity will not intervene in the work the internal auditor performs for the external auditor. (Ref: par. .A45)

**.31** The external auditor should direct, supervise, and review the work performed by internal auditors on the engagement in accordance with section 220, *Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*. In so doing

- a. the nature, timing, and extent of direction, supervision, and review should be responsive to the outcome of the evaluation of the factors in paragraph .27 of this section;
- b. the external auditor should instruct the internal auditors to bring accounting and auditing issues identified during the audit to the attention of the external auditor; and
- c. the review procedures should include the external auditor testing some of the work performed by the internal auditors. (Ref: par. .A46–.A47)

**.32** When directing, supervising, and reviewing the work performed by internal auditors, the external auditor should remain alert for indications that the external auditor's evaluations in paragraphs .25 and .29 are no longer appropriate.

## Documentation

**.33** If the external auditor uses the work of the internal audit function in obtaining audit evidence, the external auditor should include the following in the audit documentation.<sup>5</sup>

- a. The results of the evaluation of
  - i. the function's organizational status and relevant policies and procedures to adequately support the objectivity of the internal auditors;
  - ii. the level of competence of the function; and
  - iii. the application by the function of a systematic and disciplined approach, including quality control
- b. The nature and extent of the work used (including the period covered by, and the results of, such work) and the basis for that decision
- c. The audit procedures performed by the external auditor to evaluate the adequacy of the work used, including the procedures performed by the external auditor to reperform some of the body of work of the internal audit function in obtaining audit evidence

**.34** If the external auditor uses internal auditors to provide direct assistance on the audit, the external auditor should include the following in the audit documentation:

- a. The evaluation of the existence and significance of threats to the objectivity of the internal auditors, as well as any safeguards applied to reduce or eliminate the threats, and the level of competence of the internal auditors used to provide direct assistance

---

<sup>5</sup> Paragraphs .08–.12 and .A8 of section 230, *Audit Documentation*.

- b. The basis for the decision regarding the nature and extent of the work performed by the internal auditors
- c. The nature and extent of the external auditor's review of the internal auditors' work (including the testing, by the external auditor, of some of the work performed by the internal auditors) in accordance with section 230, *Audit Documentation*
- d. The working papers prepared by the internal auditors who provided direct assistance on the audit engagement

**.35** If the external auditor uses either the work of the internal audit function in obtaining audit evidence or internal auditors to provide direct assistance, or both, the external auditor should include in the audit documentation the external auditor's evaluation of (see paragraphs .18 and .29) whether, either individually or in aggregate as applicable, using the work of the internal audit function in obtaining audit evidence and use of internal auditors to provide direct assistance resulted in the external auditor still being sufficiently involved in the audit, given the external auditor's sole responsibility for the audit opinion expressed.

## Application and Other Explanatory Material

### Definition of *Internal Audit Function* (Ref: par. .02 and .12)

**.A1** The objectives and scope of internal audit functions typically include assurance and consulting activities designed to evaluate and improve the effectiveness of the entity's governance, risk management, and internal control processes, such as the following:

#### *Activities Relating to Governance Process*

- The internal audit function may assess the governance process in its accomplishment of objectives on ethics and values, performance management and accountability, communicating risk and control information to appropriate areas of the organization, and effectiveness of communication among those charged with governance, external and internal auditors, and management.

#### *Activities Relating to Risk Management Process*

- The internal audit function may assist the entity by identifying and evaluating significant exposures to risk and contributing to the improvement of risk management and internal control (including effectiveness of the financial reporting process).
- The internal audit function may perform procedures to assist the entity in the detection of fraud.

#### *Activities Relating to Internal Control Process*

- *Evaluation of internal control.* The internal audit function may be assigned specific responsibility for reviewing controls, evaluating their operation, and recommending improvements thereto. In doing so, the internal audit function provides assurance on the control. For example, the internal audit function might plan and perform tests or other procedures to provide assurance to management and those charged with governance regarding the design, implementation, and operating effectiveness of internal control, including those controls that are relevant to the audit.

- *Examination of financial and operating information.* The internal audit function may be assigned to review the means used to identify, recognize, measure, classify, and report financial and operating information and to make specific inquiry into individual items, including detailed testing of transactions, balances, and procedures.
- *Review of operating activities.* The internal audit function may be assigned to review the economy, efficiency, and effectiveness of operating activities, including nonfinancial activities of an entity.
- *Review of compliance with laws and regulations.* The internal audit function may be assigned to review compliance with laws, regulations, and other external requirements and with management policies and directives and other internal requirements.

Not all the activities discussed in this paragraph need to be present for an internal audit function to be used in the audit of the financial statements. The external auditor may be able to use the work of the internal audit function to modify the nature or timing, or reduce the extent, of audit procedures to be performed directly by the external auditor in obtaining audit evidence if the nature of the internal audit function's responsibilities and assurance activities is related to the entity's financial reporting, as further discussed in section 315.<sup>6</sup>

**.A2** Activities similar to those performed by an internal audit function may be conducted by functions with other titles within an entity. Some or all of the activities of an internal audit function may also be outsourced to a third-party service provider. Neither the title of the function nor whether it is performed by the entity or a third-party service provider are sole determinants of whether the external auditor can use the work of internal auditors. Rather, it is the nature of the activities, the extent to which the internal audit function's organizational status and relevant policies and procedures support the objectivity of the internal auditors, competence of the internal auditors, and systematic and disciplined approach of the function that are relevant. References in this section to the work of the internal audit function include relevant activities of other functions or third-party providers that have these characteristics.

**.A3** However, those in the entity with operational and managerial duties and responsibilities outside of the internal audit function would ordinarily face threats to their objectivity that would preclude them from being treated as part of an internal audit function for the purpose of this section, although they may perform control activities that can be tested in accordance with section 330.<sup>7</sup> For this reason, monitoring controls performed by an owner-manager would not be considered equivalent to an internal audit function.

**.A4** Although the objectives of an entity's internal audit function and the external auditor differ, the function may perform audit procedures similar to those performed by the external auditor in an audit of financial statements. If so, the external auditor may make use of the function for purposes of the audit in one or both of the following ways:

- To obtain information that is relevant to the external auditor's assessments of the risks of material misstatement due to error or fraud. In this regard, section 315<sup>8</sup> requires the external auditor

---

<sup>6</sup> Paragraph .A117 of section 315.

<sup>7</sup> Paragraph .10 of section 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*.

<sup>8</sup> Paragraphs .06a and .24 of section 315.

to obtain an understanding of the nature of the internal audit function's responsibilities, its status within the organization, and the activities performed, or to be performed, and make inquiries of appropriate individuals within the internal audit function (if the entity has such a function).

- The external auditor, after appropriate evaluation, may decide to use work that has been performed by the internal audit function that is relevant to the period being audited to modify the nature or timing, or reduce the extent, of audit procedures to be performed directly by the external auditor (that is, the external auditor can use the work of the internal audit function in partial substitution for audit evidence to be obtained directly by the external auditor) (see paragraphs .13–.24 of this section).

In addition, the external auditor may use internal auditors to perform audit procedures under the direction, supervision, and review of the external auditor (referred to as *direct assistance* in this section) (see paragraphs .25–.32 of this section).

## Determining Whether, in Which Areas, and to What Extent the Work of the Internal Audit Function Can Be Used in Obtaining Audit Evidence

### *Evaluating the Internal Audit Function*

*Objectivity and Competence (Ref: par. .13a–b)*

**.A5** The external auditor exercises professional judgment in determining whether the work of the internal audit function can be used in obtaining audit evidence and the nature and extent to which the work of the internal audit function can be used in the circumstances.

**.A6** The extent to which the internal audit function's organizational status and relevant policies and procedures support the objectivity of the internal auditors and the level of competence of the function are particularly important in determining whether to use the work of the internal audit function in obtaining audit evidence and, if so, the nature and extent of the use of the work of the function that is appropriate in the circumstances.

**.A7** *Objectivity* refers to the ability to perform tasks without allowing bias, conflict of interest, or undue influence of others to override professional judgments. Factors that may affect the external auditor's evaluation of objectivity include the following:

- Whether the organizational status of the internal audit function, including the function's authority and accountability, supports the ability of the function to be free from bias, conflict of interest, or undue influence of others to override professional judgments (for example, whether the internal audit function reports to those charged with governance or an officer with appropriate authority, or if the function reports to management, whether it has direct access to those charged with governance)
- Whether the internal audit function is free of any conflicting responsibilities (for example, having managerial or operational duties or responsibilities that are outside of the internal audit function)

- Whether those charged with governance oversee employment decisions related to the internal audit function (for example, determining the appropriate remuneration policy)
- Whether any constraints or restrictions placed on the internal audit function by management or those charged with governance exist (for example, in communicating the internal audit function's findings to the external auditor)
- Whether the internal auditors are members of relevant professional bodies and their memberships obligate their compliance with relevant professional standards relating to objectivity or whether their internal policies achieve the same objectives

**.A8** *Competence* of the internal audit function refers to the attainment and maintenance of knowledge and skills of the function as a whole at the level required to enable assigned tasks to be performed diligently and with the appropriate level of quality. Factors that may affect the external auditor's determination about competence include the following:

- Whether the internal audit function is adequately and appropriately resourced relative to the size of the entity and the nature of its operations.
- Whether established policies for hiring, training, and assigning internal auditors to internal audit engagements exist.
- Whether the internal auditors have adequate technical training and proficiency in auditing. Relevant criteria that may be considered by the external auditor in making the assessment may include, for example, the internal auditors' possession of a relevant professional designation and experience.
- Whether the internal auditors possess the required knowledge relating to the entity's financial reporting and the applicable financial reporting framework and whether the internal audit function possesses the necessary skills (for example, industry-specific knowledge) to perform work related to the entity's financial statements.
- Whether the internal auditors are members of relevant professional bodies or have certifications that oblige them to comply with the relevant professional standards, including continuing professional education requirements.

**.A9** Objectivity and competence may be viewed as a continuum. The more the internal audit function's organizational status and relevant policies and procedures adequately support the objectivity of the internal auditors and the higher the level of competence of the function, the more likely the external auditor may make use of the work of the function in obtaining audit evidence and make use of it in more areas. However, an organizational status and relevant policies and procedures that provide strong support for the objectivity of the internal auditors cannot compensate for the lack of sufficient competence of the internal audit function. Equally, a high level of competence of the internal audit function cannot compensate for an organizational status and policies and procedures that do not adequately support the objectivity of the internal auditors. Additionally, neither a high level of competence nor strong support for the objectivity of the internal auditors compensate for the lack of a systematic and disciplined approach.

*Considerations Specific to Governmental Entities (Ref: par. .13a)*

**.A10** *Generally Accepted Government Auditing Standards* (GAGAS), established by the U.S. Government Accountability Office, addresses the evaluation of the internal audit function in a government environment, including consideration of whether the internal audit function

- reports to senior management, such as a city manager or finance director,
- reports to the governing body,
- is elected, and, thus, is accountable to the citizens, or
- reports to an audit committee, which may comprise the governing body or a subcommittee thereof, members of senior management, appointed citizens, or any combination thereof.

**.A11** The GAGAS conceptual framework approach provides auditors a practicable approach to address threats to independence and can be applied to varying circumstances that could potentially create threats to independence. The GAGAS conceptual framework may be useful in evaluating the objectivity of the internal audit function of a governmental entity.

*Application of a Systematic and Disciplined Approach, Including Quality Control (Ref: par. .13c)*

**.A12** The application of a systematic and disciplined approach to planning, performing, supervising, reviewing, and documenting its activities distinguishes the activities of the internal audit function from other monitoring control activities that may be performed within the entity.

**.A13** Factors that may affect the external auditor's determination of whether the internal audit function applies a systematic and disciplined approach include the following:

- The existence, adequacy, and use of documented internal audit procedures or guidance covering such areas as risk assessments, work programs, documentation, and reporting, the nature and extent of which is commensurate with the nature and size of the internal audit function relative to the complexity of the entity.
- Whether the internal audit function has appropriate quality control policies and procedures (for example, those relating to leadership, human resources, and engagement performance) or quality control requirements in standards set by relevant professional bodies for internal auditors. Such bodies may also establish other appropriate requirements, such as conducting periodic external quality assessments.

**.A14** The external auditor's determination of whether the internal audit function applies a systematic and disciplined approach is intended to address the risk that the external auditor inappropriately uses internal audit-like work performed in an informal, unstructured, or ad hoc manner. However, the level of formality of an acceptable approach may vary depending on the nature and size of the internal audit function relative to the complexity of the entity.

*Circumstances in Which Work of the Internal Audit Function Cannot Be Used (Ref: par. .14)*

**.A15** The external auditor's evaluation of whether the internal audit function's organizational status and relevant policies and procedures adequately support the objectivity of the internal auditors, the level of competence of the internal audit function, and whether it applies a systematic and disciplined

approach may indicate that the risks to the quality of the work of the function are too significant and, therefore, it is not appropriate to use any of the work of the function as audit evidence.

**.A16** Consideration of the factors in paragraphs .A7–.A8 and .A13, individually and in aggregate, is important because an individual factor is often not sufficient to conclude that the work of the internal audit function cannot be used for purposes of the audit. For example, the internal audit function's organizational status is particularly important in evaluating threats to the objectivity of the internal auditors. If the internal audit function reports to management other than in an administrative capacity, this may impair the function's objectivity absent safeguards applied to reduce or eliminate the threat (for example, having direct access and performance accountability to those charged with governance).

**.A17** In addition, when the external auditor accepts an engagement to provide internal audit services to an audit client, and the results of those services will be used in conducting the audit, a self-review threat is created in regards to the external auditor's independence. This is because of the possibility that the engagement team will use the results of the internal audit service without properly evaluating those results or without exercising the same level of professional skepticism as would be exercised when the internal audit work is performed by individuals who are not members of the firm.

### ***Determining the Nature and Extent of Work of the Internal Audit Function That Can Be Used in Obtaining Audit Evidence***

*Factors Affecting the Determination of the Nature and Extent of the Work of the Internal Audit Function That Can Be Used (Ref: par. .15–.18)*

**.A18** Because the external auditor has sole responsibility for the audit opinion expressed, the external auditor is required to make the significant judgments in the audit engagement in accordance with paragraph .16. Significant judgments include, but are not limited to, the following:

- Assessing the risks of material misstatement
- Evaluating the sufficiency of tests performed
- Evaluating the appropriateness of management's use of the going concern assumption and whether substantial doubt exists about the entity's ability to continue as a going concern for a reasonable period of time
- Evaluating significant accounting estimates
- Evaluating the adequacy of disclosures in the financial statements and other matters affecting the external auditor's report

**.A19** Once the external auditor has determined that the work of the internal audit function can be used for purposes of the audit, a first consideration is whether the planned nature and scope of the work of the internal audit function that has been performed, or is planned to be performed, is relevant to the overall audit strategy and audit plan that the external auditor has established in accordance with section 300, *Planning an Audit*.

**.A20** In accordance with section 330, the external auditor is required to design and perform further audit procedures whose nature, timing, and extent are based on, and responsive to, the assessed risks of material misstatement at the relevant assertion level.<sup>9</sup> Further audit procedures comprise tests of controls

---

<sup>9</sup> Paragraph .06 of section 330.

and substantive procedures. Procedures planned or performed by the internal audit function may be the same as, or be similar to, the further audit procedures that the external auditor would design and perform. Accordingly, subject to the requirements of this section, the external auditor may determine that it is appropriate to use the work of the internal audit function to modify the nature or timing, or reduce the extent, of further audit procedures to be performed directly by the external auditor. The internal audit function may have performed, or may be planning to perform

- tests of relevant controls upon which the external auditor intends to rely in determining the nature, timing, and extent of substantive procedures. For example, the work of the internal audit function may include tests of relevant controls that address the risks of material misstatement related to the completeness of accounts payable. The results of the internal audit function's tests may provide evidence about the effectiveness of controls and, accordingly, the external auditor may be able to use such tests of controls performed by the internal audit function to modify the nature or timing, or reduce the extent of, testing of controls the external auditor would otherwise have performed directly.
- substantive procedures. For example, the internal audit function, as part of its work, may confirm certain accounts receivable and observe certain physical inventories. By using such work of the internal audit function in obtaining audit evidence, the external auditor may be able to change the timing of the confirmation procedures, the number of accounts receivable to be confirmed, or the number of locations of physical inventories to be observed.

The internal audit function's plan may also include procedures related to financial information of components of a group. The external auditor may coordinate work with the internal auditors (in accordance with paragraph .20 of this section) and reduce the number of the entity's components at which the external auditor would otherwise need to perform audit procedures in accordance with the requirements of section 600, *Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)*.

**.A21** Other examples of work of the internal audit function that can be used in obtaining audit evidence by the external auditor include the following:

- Tracing transactions through the information system relevant to financial reporting
- Testing of compliance with regulatory requirements

**.A22** The external auditor's determination of the planned nature and extent of use of the work of the internal audit function in obtaining audit evidence will be influenced by the external auditor's evaluation of the extent to which the internal audit function's organizational status and relevant policies and procedures adequately support the objectivity of the internal auditors and the level of competence of the internal audit function in paragraph .13. In addition, the amount of judgment needed in planning, performing, and evaluating such work and the assessed risk of material misstatement at the assertion level are inputs to the external auditor's determination. Further, as described in paragraph .14, circumstances exist in which the external auditor cannot use the work of the internal audit function in obtaining audit evidence for purpose of the audit.

**.A23** When evaluating whether, in aggregate, using the work of the internal audit function to the extent planned, together with any use of internal auditors to provide direct assistance, would result in the external auditor still being sufficiently involved in the audit, the external auditor may consider the external auditor's responsibility to address all relevant requirements of this section, as well as the other standards (for example, in accordance with paragraph .16, the external auditor is required to make all significant judgments). It is not anticipated that the external auditor's evaluation of using work of the internal audit function would be based on a quantitative analysis (for example, percentage of hours spent by internal audit personnel in respect of the work being used by the external auditor relative to total engagement hours).

*Judgments in Planning and Performing Audit Procedures and Evaluating Results (Ref: par. .17a)*

**.A24** As the degree of judgment involved in planning and performing the audit procedures or evaluating the audit evidence increases, the need for the external auditor to perform more procedures directly in accordance with paragraph .17 increases.

*Assessed Risk of Material Misstatement (Ref: par. .17b)*

**.A25** For a particular account balance, class of transaction, or disclosure, the higher an assessed risk of material misstatement at the assertion level, the more judgment is often involved in planning and performing the audit procedures and evaluating the results thereof. In such circumstances, the external auditor will need to perform more procedures directly in accordance with paragraph .17 and, accordingly, make less use of the work of the internal audit function in obtaining sufficient appropriate audit evidence. Furthermore, as explained in section 200,<sup>10</sup> the higher the assessed risks of material misstatement, the more persuasive the audit evidence required by the external auditor will need to be and, therefore, the external auditor will need to perform more of the work directly.

**.A26** As explained in section 315,<sup>11</sup> significant risks require special audit consideration and, therefore, the external auditor's ability to use the work of the internal audit function in relation to significant risks will be restricted to procedures that involve limited judgment. In addition, when the risks of material misstatement is other than low, the use of the work of the internal audit function in obtaining audit evidence alone is unlikely to reduce audit risk to an acceptably low level and eliminate the need for the external auditor to perform some tests directly.

**.A27** Carrying out procedures in accordance with this section may cause the external auditor to reevaluate the assessment of the risks of material misstatement. Consequently, this may affect the external auditor's determination of whether and how to use the work of the internal audit function in obtaining audit evidence.

### ***Communicating With Those Charged With Governance (Ref: par. .19)***

**.A28** In accordance with section 260,<sup>12</sup> the external auditor is required to communicate an overview of the planned scope and timing of the audit with those charged with governance. The planned use of the work of the internal

---

<sup>10</sup> Paragraph .A33 of section 200.

<sup>11</sup> Paragraph .04 of section 315.

<sup>12</sup> Paragraph .11 of section 260.

audit function in obtaining audit evidence is an integral part of the external auditor's overall audit strategy and, therefore, is relevant to those charged with governance for their understanding of the proposed audit approach.

### ***Using the Work of the Internal Audit Function in Obtaining Audit Evidence***

*Discussion and Coordination With the Internal Audit Function in Obtaining Audit Evidence (Ref: par. .20)*

**.A29** In discussing the planned use of the work of the internal audit function in obtaining audit evidence, as a basis for coordinating the respective activities, it may be useful to address the following:

- The timing of such work
- The nature of the work performed
- The extent of audit coverage
- Materiality for the financial statements as a whole (and, if applicable, materiality level or levels for particular classes of transactions, account balances, or disclosures) and performance materiality
- Proposed methods of item selection and sample sizes
- Documentation of the work performed
- Review and reporting procedures

**.A30** Coordination between the external auditor and the internal audit function is effective when, for example

- discussions take place at appropriate intervals throughout the period.
- the external auditor informs the internal audit function of significant matters that may affect the function.
- the external auditor is advised of, and has access to, relevant reports of the internal audit function and is informed of any significant matters that come to the attention of the function when such matters may affect the work of the external auditor so that the external auditor is able to consider the implications of such matters for the audit engagement.

Although the external auditor is not precluded from using work that the internal audit function has already performed, coordination of activities between the external auditor and internal audit function is likely to be most effective when appropriate interaction occurs before the internal audit function performs the work.

**.A31** Section 200<sup>13</sup> addresses the importance of the external auditor planning and performing the audit with professional skepticism, including being alert to information that brings into question the reliability of documents and responses to inquiries to be used as audit evidence.

**.A32** Communication with the internal audit function throughout the engagement may provide opportunities for internal auditors to bring matters that may affect the work of the external auditor to the external auditor's attention.<sup>14</sup>

---

<sup>13</sup> Paragraphs .17 and .A22 of section 200.

<sup>14</sup> Paragraph .A120 of section 315.

The external auditor is then able to take such information into account in the external auditor's identification and assessment of risks of material misstatement. In addition, if such information may be indicative of a heightened risk of a material misstatement of the financial statements or may be regarding any actual, suspected, or alleged fraud, the external auditor can take this into account in the external auditor's identification of risk of material misstatement due to fraud in accordance with section 240, *Consideration of Fraud in a Financial Statement Audit*.

*Procedures to Determine the Adequacy of the Work of the Internal Audit Function (Ref: par. .22–.23)*

**.A33** The external auditor's audit procedures on the body of work of the internal audit function as a whole that the external auditor plans to use provide a basis for evaluating the overall quality of the function's work and the objectivity with which it has been performed.

**.A34** The procedures the external auditor may perform to evaluate the quality of the work performed and the conclusions reached by the internal audit function, in addition to reperformance in accordance with paragraph .23, include the following:

- Making inquiries of appropriate individuals within the internal audit function
- Observing procedures performed by the internal audit function
- Reviewing the internal audit function's work program and working papers

**.A35** The more judgment involved, the higher the assessed risk of material misstatement, the less the internal audit function's organizational status and relevant policies and procedures adequately support the objectivity of the internal auditors, or the lower the level of competence of the internal audit function, the more audit procedures are needed to be performed by the external auditor on the overall body of work of the internal audit function to support the decision to use the work of the function in obtaining sufficient appropriate audit evidence on which to base the audit opinion.

### **Reperformance (Ref: par. .23)**

**.A36** For purposes of this section, *reperformance* involves the external auditor's independent execution of procedures to validate the conclusions reached by the internal audit function. This objective may be accomplished by examining items already examined by the internal audit function or sufficient other similar items not actually examined by the internal audit function. Reperformance provides more persuasive evidence regarding the adequacy of the work of the internal audit function compared to other procedures the external auditor may perform, as described in paragraph .A34. Although it is not necessary for the external auditor to reperform some of the work of the internal audit function in each area that is being used, some reperformance is required on the body of work of the internal audit function as a whole that the external auditor intends to use in accordance with paragraph .23. The external auditor is more likely to focus reperformance in those areas where more judgment was exercised by the internal audit function in planning, performing, and evaluating the results of the audit procedures and in areas of higher risk of material misstatement.

## Determining Whether, in Which Areas, and to What Extent Internal Auditors Can Be Used to Provide Direct Assistance

### *Determining Whether Internal Auditors Can Be Used to Provide Direct Assistance for Purposes of the Audit (Ref: par. .25–.26)*

**.A37** The external auditor may obtain direct assistance from the internal auditors to carry out audit procedures that otherwise would be performed directly by the external auditors themselves. In such circumstances, the internal auditors are under the direction, supervision, and review of the external auditor.

**.A38** In accordance with paragraph .25, the external auditor evaluates the existence and significance of any threats to the objectivity and level of competence of the internal auditors who will be providing direct assistance on the audit before assigning them to specific tasks. Evaluating the existence and significance of threats to objectivity includes evaluating safeguards applied to reduce or eliminate the threats.

**.A39** As stated in paragraph .A7, *objectivity* refers to the ability to perform the proposed work without allowing bias, conflict of interest, or undue influence of others to override professional judgments. In evaluating the existence and significance of any threats to the objectivity of an individual internal auditor, the external auditor may consider the extent to which the internal audit function's organizational status and relevant policies and procedures support the objectivity of the internal auditors, including, for example, policies and procedures addressing association with the division or department in the entity to which the work relates. Additionally, other matters may come to the external auditor's attention that may be relevant to the external auditor's evaluation of the objectivity of the internal auditor.

**.A40** In evaluating the level of competence of an internal auditor, many of the factors in paragraph .A8 may also be relevant but in the context of individual internal auditors and the work to which they may be assigned.

**.A41** The external auditor may determine it is necessary to specifically instruct the internal auditors to keep confidential specific matters, as instructed by the external auditor, and to inform the external auditor of any threat to their objectivity. In some situations, the external auditor may determine it to be necessary to request written acknowledgment from the internal auditors of having understood such instruction by the external auditor.

### *Determining the Nature and Extent of Work That Can Be Assigned to Internal Auditors Providing Direct Assistance (Ref: par. .27)*

**.A42** Paragraphs .A18–.A27 also provide relevant guidance in determining the nature and extent of work that may be assigned to the internal auditors providing direct assistance. As the materiality of the financial statement amounts increases and either the assessed risks of material misstatement or the amount of judgment involved increases, the need for the external auditor to perform procedures directly increases. As these factors decrease, the need for the external auditor to perform procedures directly decreases.

**.A43** In determining the nature of work that may be assigned to internal auditors providing direct assistance, the external auditor is careful to limit such work to those areas that would be appropriate for internal auditors to be assigned. Examples of activities and tasks that would not be appropriate for internal auditors to provide direct assistance include the following:

- Making required inquiries of entity personnel or those charged with governance related to the identification of fraud risks and determining the procedures to respond to such risks<sup>15</sup>
- Determination of unpredictable audit procedures as addressed in section 240

***Using Internal Auditors to Provide Direct Assistance  
(Ref: par. .18 and .29-.31)***

**.A44** If the external auditor plans to use the internal audit function in obtaining audit evidence and also plans to use internal auditors to provide direct assistance, only one evaluation would be necessary to address the requirements of paragraphs .18 and .29.

**.A45** The written acknowledgment required by paragraph .30 may be included within the audit engagement letter (or other suitable form of written agreement of the terms of engagement)<sup>16</sup> or could be included in a separate document prepared by the external auditor and acknowledged in writing by management or those charged with governance, as appropriate.

**.A46** The direction, supervision, and review by the external auditor of the audit procedures performed by the internal auditors need to be sufficient in order for the external auditor to be satisfied that sufficient appropriate audit evidence has been obtained to support the conclusions based on that work. Because individuals in the internal audit function are not independent of the entity as is required of the external auditor when expressing an opinion on financial statements, the external auditor's involvement in these circumstances may be of a different nature or more extensive than if members of the engagement team perform the work.

**.A47** The nature, timing, and extent of direction, supervision, and review of the audit procedures performed by the internal auditors is also dependent on the outcome of the external auditor's evaluation of the objectivity and the level of competence of, and the nature and extent of audit procedures to be performed by, the internal auditors. Directing and supervising the internal auditors involves informing them of their responsibilities, the objectives of the procedures they are to perform, and matters that may affect the nature, timing, and extent of audit procedures, such as possible accounting and auditing issues. In reviewing the work performed by the internal auditors, the external auditor's considerations include whether the evidence obtained is sufficient and appropriate in the circumstances, and that it supports the conclusions reached.

---

<sup>16</sup> See paragraph .10 of section 210, *Terms of Engagement*.

.A48

## **Exhibit—Comparison of Section 610, *Using the Work of Internal Auditors*, With International Standard on Auditing 610 (Revised 2013), *Using the Work of Internal Auditors***

This analysis was prepared by the Audit and Attest Standards staff to highlight substantive differences between section 610, *Using the Work of Internal Auditors*, and International Standard on Auditing (ISA) 610 (Revised 2013), *Using the Work of Internal Auditors*, and the rationale therefore. This analysis is not authoritative and is prepared for informational purposes only. It has not been acted on or reviewed by the Auditing Standards Board (ASB).

The ASB also made various changes to the language throughout this section in comparison with ISA 610 (Revised 2013). Such changes were made to use terms applicable in the United States and to make section 610 easier to read and apply. The ASB believes that such changes will not create differences between the application of ISA 610 (Revised 2013) and the application of section 610 and, accordingly, these differences are not subsequently discussed.

### **Using Internal Auditors to Provide Direct Assistance**

Substantive differences related to the requirements of this section and ISA 610 (Revised 2013) are subsequently described.

#### *Determining the Nature and Extent of Work That Can Be Assigned to Internal Auditors Providing Direct Assistance*

The ASB did not include paragraph 30 of ISA 610 (Revised 2013) in this section; this paragraph precludes the external auditor's use of internal auditors to provide direct assistance in specified circumstances. The ASB believes that the requirements in paragraphs 30a and 30b were not necessary in the context of audits of nonissuers in the United States. These requirements are partly redundant when compared to the requirement in paragraph .27 of this section regarding the need for the auditor to consider the amount of judgment involved in determining the nature and extent of work to assign to internal auditors and the nature, timing, and extent of the review thereof. Additional application guidance was added to paragraph .A42 of this section to further emphasize that as materiality of the financial statement amounts increases, and either the assessed risks of material misstatement or the amount of judgment involved increases, the need for the external auditor to perform procedures directly increases. The ASB further concluded that the requirements in paragraphs 30c and 30d were not necessary because an appropriate assessment of the objectivity of the internal auditors in accordance with this section would result in a conclusion that it would not be appropriate for internal auditors' work to be used in the situations addressed by those paragraphs.

Paragraph 31 of ISA 610 (Revised 2013) establishes a requirement that, in communicating with those charged with governance, an overview of the planned

scope and timing of the audit in accordance with ISA 260, *Communication with Those Charged with Governance*, the external auditor should communicate the nature and extent of the planned use of internal auditors to provide direct assistance so as to reach a mutual understanding that such use is not excessive in the circumstances of the engagement. The ASB decided to revise paragraph 31 of ISA 610 (Revised 2013) to improve the clarity of the requirement and eliminate the requirement to explicitly obtain a mutual understanding with those charged with governance that the proposed nature and extent of the use of internal auditors to provide direct assistance is not excessive because it was not considered necessary in the context of audits of nonissuers in the United States. Making the communication required by paragraph .28 of this section provides those charged with governance the opportunity to voice any concerns.

#### *Using Internal Auditors to Provide Direct Assistance*

Paragraph 33*b* of ISA 610 (Revised 2013) requires that, prior to using internal auditors to provide direct assistance for purposes of the audit, the external auditor obtain written agreement from the internal auditors that they will keep confidential specific matters as instructed by the external auditor and inform the external auditor of any threat to their objectivity. Given the established practice and historical experience of using internal auditors to provide direct assistance, the ASB did not believe that it was necessary to include this requirement for the audits of nonissuers in the United States. However, the ASB added application material to indicate that the auditor may determine it necessary to instruct the internal auditors to keep specific matters confidential, and in some situations, may determine it to be necessary to request written acknowledgement from the internal auditors of having understood such instruction (see paragraph .A41).

Paragraph 34*a* of ISA 610 (Revised 2013) states the following:

The external auditor shall direct, supervise and review the work performed by internal auditors on the engagement in accordance with ISA 220. In so doing:

- a.* The nature, timing and extent of direction, supervision, and review shall recognize that the internal auditors are not independent of the entity and be responsive to the outcome of the evaluation of the factors in paragraph 29 of this ISA.

In paragraph .31*a* of this section, the ASB decided to delete the phrase *recognize that the internal auditors are not independent of the entity* because the ASB did not believe there was any incremental effect of the phrase on the nature, timing, and extent of the external auditor's required actions. The ASB also believes that the fact that internal auditors are not independent of the entity is already implicit in, and encompassed by, the external auditor's evaluation of the factors in paragraph .27 of this section.

The ASB decided to add paragraph .31*b*, which represents a requirement to instruct internal auditors to bring accounting and auditing issues to the attention of the external auditors. The ASB believes that it is important to include this requirement, which is included in this section.

Finally, in paragraph .31*c*, the ASB decided to revise paragraph 34*b* of ISA 610 (Revised 2013) to express the requirement in terms more commonly understood in the United States and that are more consistent with the terminology in this section.

## AU-C Section 620

### *Using the Work of an Auditor's Specialist*

Source: SAS No. 122.

See section 9620 for interpretations of this section.

Effective for audits of financial statements for periods ending on or after December 15, 2012.

## Introduction

### Scope of This Section

.01 This section addresses the auditor's responsibilities relating to the work of an individual or organization possessing expertise in a field other than accounting or auditing when that work is used to assist the auditor in obtaining sufficient appropriate audit evidence.

.02 This section does not address

- a. situations in which the engagement team includes a member or consults an individual or organization with expertise in a specialized area of accounting or auditing, which are addressed in section 220, *Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*, and section 300, *Planning an Audit*,<sup>1,2</sup> or
- b. the auditor's use of the work of an individual or organization possessing expertise in a field other than accounting or auditing, whose work in that field is used by the entity to assist the entity in preparing the financial statements (a management's specialist), which is addressed in section 500, *Audit Evidence*.<sup>3</sup>

### The Auditor's Responsibility for the Audit Opinion

.03 The auditor has sole responsibility for the audit opinion expressed, and that responsibility is not reduced by the auditor's use of the work of an auditor's specialist. Nonetheless, if the auditor using the work of an auditor's specialist, having followed this section, concludes that the work of that specialist is adequate for the auditor's purposes, the auditor may accept that specialist's findings or conclusions in the specialist's field as appropriate audit evidence.

### Effective Date

.04 This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

---

<sup>1</sup> Paragraphs .A10 and .A20–.A22 of section 220, *Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*.

<sup>2</sup> Paragraph .12 of section 300, *Planning an Audit*.

<sup>3</sup> Paragraphs .A35–.A49 of section 500, *Audit Evidence*.

## Objectives

- .05 The objectives of the auditor are
- to determine whether to use the work of an auditor's specialist and
  - if using the work of an auditor's specialist, to determine whether that work is adequate for the auditor's purposes.

## Definitions

.06 For purposes of generally accepted auditing standards, the following terms have the meanings attributed as follows:

**Auditor's specialist.** An individual or organization possessing expertise in a field other than accounting or auditing, whose work in that field is used by the auditor to assist the auditor in obtaining sufficient appropriate audit evidence. An auditor's specialist may be either an auditor's internal specialist (who is a partner<sup>4</sup> or staff, including temporary staff, of the auditor's firm or a network firm) or an auditor's external specialist. (Ref: par. .A1–.A4)

**Expertise.** Skills, knowledge, and experience in a particular field.

**Management's specialist.** An individual or organization possessing expertise in a field other than accounting or auditing, whose work in that field is used by the entity to assist the entity in preparing the financial statements.

## Requirements

### Determining the Need for an Auditor's Specialist

.07 If expertise in a field other than accounting or auditing is necessary to obtain sufficient appropriate audit evidence, the auditor should determine whether to use the work of an auditor's specialist. (Ref: par. .A5–.A10)

### Nature, Timing, and Extent of Audit Procedures

.08 The nature, timing, and extent of the auditor's procedures with respect to the requirements in paragraphs .09–.13 will vary depending on the circumstances. In determining the nature, timing, and extent of those procedures, the auditor should consider matters including (Ref: par. .A11)

- the nature of the matter to which the work of the auditor's specialist relates;
- the risks of material misstatement in the matter to which the work of the auditor's specialist relates;
- the significance of the work of the auditor's specialist in the context of the audit;
- the auditor's knowledge of, and experience with, previous work performed by the auditor's specialist; and
- whether the auditor's specialist is subject to the auditor's firm's quality control policies and procedures. (Ref: par. .A12–.A14)

---

<sup>4</sup> *Partner* and *firm* should be read as referring to their governmental equivalents when relevant.

## The Competence, Capabilities, and Objectivity of the Auditor's Specialist

**.09** The auditor should evaluate whether the auditor's specialist has the necessary competence, capabilities, and objectivity for the auditor's purposes. In the case of an auditor's external specialist, the evaluation of objectivity should include inquiry regarding interests and relationships that may create a threat to the objectivity of the auditor's specialist. (Ref: par. .A15–.A22)

## Obtaining an Understanding of the Field of Expertise of the Auditor's Specialist

**.10** The auditor should obtain a sufficient understanding of the field of expertise of the auditor's specialist to enable the auditor to (Ref: par. .A23–.A24)

- a. determine the nature, scope, and objectives of the work of the auditor's specialist for the auditor's purposes and
- b. evaluate the adequacy of that work for the auditor's purposes.

## Agreement With the Auditor's Specialist

**.11** The auditor should agree, in writing when appropriate, with the auditor's specialist regarding (Ref: par. .A25–.A29)

- a. the nature, scope, and objectives of the work of the auditor's specialist; (Ref: par. .A30)
- b. the respective roles and responsibilities of the auditor and the auditor's specialist; (Ref: par. .A31–.A32)
- c. the nature, timing, and extent of communication between the auditor and the auditor's specialist, including the form of any report to be provided by the auditor's specialist; and (Ref: par. .A33)
- d. the need for the auditor's specialist to observe confidentiality requirements. (Ref: par. .A34)

## Evaluating the Adequacy of the Work of the Auditor's Specialist

**.12** The auditor should evaluate the adequacy of the work of the auditor's specialist for the auditor's purposes, including

- a. the relevance and reasonableness of the findings and conclusions of the auditor's specialist and their consistency with other audit evidence. (Ref: par. .A35–.A37)
- b. If the work of the auditor's specialist involves the use of significant assumptions and methods,
  - i. obtaining an understanding of those assumptions and methods and
  - ii. evaluating the relevance and reasonableness of those assumptions and methods in the circumstances, giving consideration to the rationale and support provided by the specialist, and in relation to the auditor's other findings and conclusions. (Ref: par. .A38–.A40)
- c. If the work of the auditor's specialist involves the use of source data that is significant to the work of the auditor's specialist, the

relevance, completeness, and accuracy of that source data. (Ref: par. .A41–.A42)

**.13** If the auditor determines that the work of the auditor's specialist is not adequate for the auditor's purposes, the auditor should (Ref: par. .A43)

- a. agree with the auditor's specialist on the nature and extent of further work to be performed by the auditor's specialist or
- b. perform additional audit procedures appropriate to the circumstances.

## Reference to the Auditor's Specialist in the Auditor's Report

**.14** The auditor should not refer to the work of an auditor's specialist in an auditor's report containing an unmodified opinion.

**.15** If the auditor makes reference to the work of an auditor's external specialist in the auditor's report because such reference is relevant to an understanding of a modification to the auditor's opinion, the auditor should indicate in the auditor's report that such reference does not reduce the auditor's responsibility for that opinion. (Ref: par. .A44)

## Application and Other Explanatory Material

### Definitions

#### ***Auditor's Specialist (Ref: par. .06)***

**.A1** Expertise in a field other than accounting or auditing may include expertise regarding such matters as the following:

- The valuation of complex financial instruments and nonfinancial assets and liabilities measured at fair value such as land and buildings, plant and machinery, jewelry, works of art, antiques, intangible assets, assets acquired and liabilities assumed in business combinations, and assets that may have been impaired
- The actuarial calculation of liabilities associated with insurance contracts or employee benefit plans
- The estimation of oil and other mineral reserves
- The valuation of environmental liabilities and site cleanup costs
- The interpretation of contracts, laws, and regulations
- The analysis of complex or unusual tax compliance issues
- The determination of physical characteristics relating to quantity on hand or condition (for example, quantity or condition of minerals, or materials stored in stockpiles)

**.A2** In many cases, distinguishing between expertise in accounting or auditing and expertise in another field will be straightforward, even when this involves a specialized area of accounting or auditing.<sup>5</sup> For example, an individual with expertise in applying methods of accounting for deferred income tax can often be easily distinguished from a specialist in taxation law. The former is not a specialist for the purposes of this section because this constitutes

---

<sup>5</sup> Paragraphs .A18–.A19 of section 300 address the auditor's determination of the extent of involvement of professionals possessing specialized skills.

accounting expertise; the latter is a specialist for the purposes of this section because this constitutes legal expertise. Similar distinctions also may be able to be made in other areas (for example, between expertise in methods of accounting for financial instruments and expertise in complex modeling for the purpose of valuing financial instruments). However, in some cases, particularly those involving an emerging area of accounting or auditing expertise, distinguishing between specialized areas of accounting or auditing and expertise in another field will be a matter of professional judgment. Applicable professional rules and standards regarding education and competency requirements for accountants and auditors may assist the auditor in exercising that judgment.

**.A3** An individual may possess expertise in accounting or auditing, as well as expertise in a field other than accounting or auditing (for example, an actuary also may be an accountant). In that circumstance, the determination of whether that individual is an auditor or an auditor's specialist depends on the nature of the work performed by that individual that the auditor is using for purposes of the audit.

**.A4** It is necessary to apply professional judgment when considering how the requirements of this section are affected by the fact that an auditor's specialist may be either an individual or an organization. For example, when evaluating the competence, capabilities, and objectivity of an auditor's specialist, it may be that the specialist is an organization the auditor has previously used, but the auditor has no prior experience with the individual specialist assigned by the organization for the particular engagement, or it may be the reverse (that is, the auditor may be familiar with the work of an individual specialist but not with the organization that specialist has joined). In either case, both the personal attributes of the individual and the managerial attributes of the organization (such as systems of quality control the organization implements) may be relevant to the auditor's evaluation.

### **Determining the Need for an Auditor's Specialist (Ref: par. .07)**

**.A5** An auditor's specialist may be needed to assist the auditor in one or more of the following:

- Obtaining an understanding of the entity and its environment, including its internal control
- Identifying and assessing the risks of material misstatement
- Determining and implementing overall responses to assessed risks at the financial statement level
- Designing and performing additional audit procedures to respond to assessed risks at the relevant assertion level, which may comprise tests of controls or substantive procedures
- Evaluating the sufficiency and appropriateness of audit evidence obtained in forming an opinion on the financial statements

**.A6** The risks of material misstatement may increase when expertise in a field other than accounting is needed for management to prepare the financial statements, for example, because this may indicate some complexity or because management may not possess knowledge of the field of expertise. If, in preparing the financial statements, management does not possess the necessary expertise, a management's specialist may be used in addressing those risks. Relevant controls, including controls that relate to the work of a management's specialist, if any, also may reduce the risks of material misstatement.

**.A7** If the preparation of the financial statements involves the use of expertise in a field other than accounting, the auditor, who is skilled in accounting and auditing, may not possess the necessary expertise to audit those financial statements. The engagement partner is required by section 220 to be satisfied that the engagement team and any external auditor's specialists who are not part of the engagement team, collectively, have the appropriate competence and capabilities to perform the audit engagement.<sup>6</sup> Further, the auditor is required by section 300 to ascertain the nature, timing, and extent of resources necessary to perform the engagement.<sup>7</sup> The auditor's determination of whether to use the work of an auditor's specialist, and, if so, when and to what extent, assists the auditor in meeting these requirements. As the audit progresses or as circumstances change, the auditor may need to revise earlier decisions about using the work of an auditor's specialist.

**.A8** An auditor who is not a specialist in a relevant field other than accounting or auditing may nevertheless be able to obtain a sufficient understanding of that field to perform the audit without an auditor's specialist. This understanding may be obtained through, for example

- experience in auditing entities that require such expertise in the preparation of their financial statements.
- education or professional development in the particular field. This may include formal courses or discussion with individuals possessing expertise in the relevant field for the purpose of enhancing the auditor's own capacity to deal with matters in that field. Such discussion differs from consultation with an auditor's specialist regarding a specific set of circumstances encountered on the engagement in which that specialist is given all the relevant facts that will enable the specialist to provide informed advice about the particular matter (see section 220).<sup>8</sup>

**.A9** In other cases, however, the auditor may determine that it is necessary, or may choose, to use an auditor's specialist to assist in obtaining sufficient appropriate audit evidence. Considerations when deciding whether to use an auditor's specialist may include the following:

- Whether management has used a specialist in preparing the financial statements (see paragraph .A10)
- The nature and significance of the matter, including its complexity
- The risks of material misstatement of the matter
- The expected nature of procedures to respond to identified risks, including the auditor's knowledge of, and experience with, the work of specialists regarding such matters and the availability of alternative sources of audit evidence

**.A10** When management uses a management specialist in preparing the financial statements, the auditor's decision on whether to use an auditor's specialist also may be influenced by such factors as the following:

- The nature, scope, and objectives of the work of the management's specialist
- Whether the management's specialist is employed by the entity or is a party engaged by it to provide relevant services

---

<sup>6</sup> Paragraph .16 of section 220.

<sup>7</sup> Paragraph .08e of section 300.

<sup>8</sup> Paragraph .A21 of section 220.

- The extent to which management can exercise control or influence over the work of the management's specialist
- The competence and capabilities of the management's specialist
- Whether the management's specialist is subject to technical performance standards or other professional or industry requirements
- Any controls within the entity over the work of the management's specialist
- The auditor's ability to evaluate the work and findings of the management's specialist without the assistance of an auditor's specialist.

Section 500 addresses the effect of the competence, capabilities, and objectivity of management's specialists on the reliability of audit evidence.<sup>9</sup>

### **Nature, Timing, and Extent of Audit Procedures (Ref: par. .08)**

**.A11** The following factors may suggest the need for different or more extensive procedures than would otherwise be the case:

- The work of the auditor's specialist relates to a significant finding or issue that involves subjective and complex judgments.
- The auditor has not previously used the work of the auditor's specialist and has no prior knowledge of that specialist's competence, capabilities, and objectivity.
- The auditor's specialist is performing procedures that are integral to the audit rather than being consulted to provide advice on an individual matter.
- The specialist is an auditor's external specialist and is not, therefore, subject to the firm's quality control policies and procedures.

### **The Auditor's Firm's Quality Control Policies and Procedures (Ref: par. .08e)**

**.A12** An auditor's internal specialist may be a partner or staff, including temporary staff, of the auditor's firm and, therefore, subject to the quality control policies and procedures of that firm in accordance with QC section 10, *A Firm's System of Quality Control*.<sup>10</sup> An auditor's internal specialist also may be a partner or staff, including temporary staff, of a network firm, which may share common quality control policies and procedures with the auditor's firm.

**.A13** In accordance with section 220, engagement teams are entitled to rely on the firm's system of quality control unless the engagement partner determines that it is inappropriate to do so based on information provided by the firm or other parties.<sup>11</sup> The extent of that reliance will vary with the circumstances and may affect the nature, timing, and extent of the auditor's procedures with respect to such matters as the following:

- Competence and capabilities through recruitment and training programs.

---

<sup>9</sup> Paragraphs .A38–.A44 of section 500.

<sup>10</sup> Paragraph .13 of QC section 10, *A Firm's System of Quality Control*.

<sup>11</sup> Paragraph .05 of section 220.

- Objectivity. The auditor's internal specialists are subject to relevant ethical requirements, including those pertaining to independence.
- Agreement with the auditor's specialist.
- The auditor's evaluation of the adequacy of the work of the auditor's specialist. For example, the firm's training programs may provide the auditor's internal specialists with an appropriate understanding of the interrelationship of their expertise with the audit process. Reliance on such training and other firm processes, such as protocols for scoping the work of the auditor's internal specialists, may affect the nature, timing, and extent of the auditor's procedures to evaluate the adequacy of the work of the auditor's specialist.
- Adherence to regulatory and legal requirements through monitoring processes.

Such reliance does not reduce the auditor's responsibility to meet the requirements of this section.

**.A14** An auditor's external specialist is not a member of the engagement team and is not subject to quality control policies and procedures in accordance with QC section 10.<sup>12</sup>

### **The Competence, Capabilities, and Objectivity of the Auditor's Specialist (Ref: par. .09)**

**.A15** The competence, capabilities, and objectivity of an auditor's specialist are factors that significantly affect whether the work of the auditor's specialist will be adequate for the auditor's purposes. Competence relates to the nature and level of expertise of the auditor's specialist. Capability relates to the ability of the auditor's specialist to exercise that competence in the circumstances of the engagement. Factors that influence capability may include, for example, geographic location and the availability of time and resources. Objectivity relates to the possible effects that bias, conflict of interest, or the influence of others may have on the professional or business judgment of the auditor's specialist.

**.A16** Information regarding the competence, capabilities, and objectivity of an auditor's specialist may come from a variety of sources, such as the following:

- Personal experience with previous work of that specialist
- Discussions with that specialist
- Discussions with other auditors or others who are familiar with that specialist's work
- Knowledge of that specialist's qualifications, membership in a professional body or industry association, license to practice, or other forms of external recognition
- Published papers or books written by that specialist
- The quality control policies and procedures of the auditor's firm and such other procedures the auditor considers necessary in the circumstances (see paragraphs .A12–.A13).

---

<sup>12</sup> Paragraph .13 of QC section 10.

**.A17** Matters relevant to evaluating the competence, capabilities, and objectivity of the auditor's specialist include whether that specialist's work is subject to technical performance standards or other professional or industry requirements (for example, ethical standards and other membership requirements of a professional body or industry association, accreditation standards of a licensing body, or requirements imposed by law or regulation).

**.A18** Other matters that may be relevant include the following:

- The relevance of the competence of the auditor's specialist to the matter for which that specialist's work will be used, including any areas of specialty within that specialist's field. For example, a particular actuary may specialize in property and casualty insurance but have limited expertise regarding pension calculations.
- The competence of the auditor's specialist with respect to relevant accounting and auditing requirements (for example, knowledge of assumptions and methods, including models, when applicable, that are consistent with the applicable financial reporting framework).
- Whether unexpected events, changes in conditions, or the audit evidence obtained from the results of audit procedures indicate that it may be necessary to reconsider the initial evaluation of the competence, capabilities, and objectivity of the auditor's specialist as the audit progresses.

**.A19** A broad range of circumstances may threaten objectivity (for example, self-interest threats, advocacy threats, familiarity threats, self-review threats, and intimidation threats). Safeguards may eliminate or reduce such threats and may be created by external structures (for example, the profession, legislation, or regulation of the auditor's specialist) or by the work environment of the auditor's specialist (for example, quality control policies and procedures). There also may be safeguards specific to the audit engagement.

**.A20** The evaluation of the significance of threats to objectivity and of whether a need exists for safeguards may depend upon the role of the auditor's specialist and the significance of the specialist's work in the context of the audit. There may be some circumstances in which safeguards cannot reduce threats to an acceptable level (for example, if a proposed auditor's specialist is an individual who has played a significant role in preparing the information that is being audited [that is, if the proposed auditor's specialist is a management's specialist]).

**.A21** When evaluating the objectivity of an auditor's external specialist, the auditor may

- a. inquire of the entity and the auditor's specialist about any known interests or relationships that the entity has with the auditor's external specialist that may affect that specialist's objectivity or
- b. discuss with that specialist any applicable safeguards, including any professional requirements that apply to that specialist, and evaluate whether the safeguards are adequate to reduce threats to an acceptable level. Interests and relationships that may be relevant to discuss with the auditor's specialist include the following:
  - i. Financial interests
  - ii. Business and personal relationships

- iii. Provision of other services by the specialist, including by the organization in the case of an external specialist that is an organization

In some cases, the auditor may obtain a written representation from the auditor's external specialist about any interests or relationships with the entity of which that specialist is aware.

**.A22** If the auditor believes a relationship between the entity and the auditor's specialist might impair the objectivity of the auditor's specialist, the auditor may perform additional procedures with respect to some or all of the assumptions, methods, or findings of the auditor's specialist to determine that the findings are reasonable or may engage another auditor's specialist for that purpose.

## Obtaining an Understanding of the Field of Expertise of the Auditor's Specialist (Ref: par. .10)

**.A23** The auditor may obtain an understanding of the field of expertise of the auditor's specialist through the means described in paragraph .A8 or through discussion with the auditor's specialist.

**.A24** Aspects of the field of the auditor's specialist relevant to the auditor's understanding may include the following:

- Whether that field of the auditor's specialist has areas of specialty within it that are relevant to the audit (see paragraph .A18)
- Whether any professional or other standards and regulatory or legal requirements apply
- What assumptions and methods, including models, when applicable, are used by the auditor's specialist, and whether they are generally accepted within that field of the auditor's specialist and appropriate for financial reporting purposes
- The nature of internal and external data or information the auditor's specialist uses

## Agreement With the Auditor's Specialist (Ref: par. .11)

**.A25** The following matters may vary considerably with the circumstances:

- a. The nature, scope, and objectives of the work of the auditor's specialist
- b. The respective roles and responsibilities of the auditor and the auditor's specialist
- c. The nature, timing, and extent of communication between the auditor and the auditor's specialist.

Therefore, it is required that these matters are agreed between the auditor and the auditor's specialist regardless of whether the specialist is an auditor's external specialist or internal specialist.

**.A26** The matters noted in paragraph .08 may affect the level of detail and formality of the agreement between the auditor and the auditor's specialist, including whether it is appropriate that the agreement be in writing. For example, the following factors may suggest the need for a more detailed agreement than would otherwise be the case or for the agreement to be in writing:

- The auditor's specialist will have access to sensitive or confidential entity information.

- The respective roles or responsibilities of the auditor and the auditor's specialist are different from those normally expected.
- Multijurisdictional legal or regulatory requirements apply.
- The matter to which the work of the auditor's specialist relates is highly complex.
- The auditor has not previously used work performed by the auditor's specialist.
- The auditor's use of the work of the auditor's specialist and its significance in the context of the audit is extensive.

**.A27** In establishing the agreement with the auditor's specialist, an important consideration is whether the work of the auditor's specialist is subject to any reservation, limitation, or restriction and whether this has implications for the auditor.

**.A28** The agreement between the auditor and an auditor's external specialist is generally in the form of an engagement letter. The appendix "Considerations for Agreement Between the Auditor and an Auditor's External Specialist" lists matters that the auditor may consider for inclusion in such an engagement letter or in any other form of agreement with an auditor's external specialist.

**.A29** When no written agreement exists between the auditor and the auditor's specialist, evidence of the agreement may be included in, for example

- planning memoranda or related working papers, such as the audit program.
- the policies and procedures of the auditor's firm. In the case of an auditor's internal specialist, the established policies and procedures to which the auditor's specialist is subject may include particular policies and procedures regarding the work of the auditor's specialist. The extent of documentation in the auditor's working papers depends on the nature of such policies and procedures. For example, no documentation may be required in the auditor's working papers if the auditor's firm has detailed protocols covering the circumstances in which the work of such an auditor's specialist is used.

### ***Nature, Scope, and Objectives of Work (Ref: par. .11a)***

**.A30** It often may be relevant when agreeing on the nature, scope, and objectives of the work of the auditor's specialist to include discussion of any relevant technical performance standards or other professional or industry requirements that the auditor's specialist will follow.

### ***Respective Roles and Responsibilities (Ref: par. .11b)***

**.A31** Agreement on the respective roles and responsibilities of the auditor and the auditor's specialist may include the following:

- Whether the auditor or the auditor's specialist will perform detailed testing of source data
- Consent for the auditor to discuss the findings or conclusions of the auditor's specialist with the entity and others and to include details of the findings or conclusions of the auditor's specialist in the basis for a modified opinion in the auditor's report, if necessary (see paragraph .A44)

- Any agreement to inform the auditor's specialist of the auditor's conclusions concerning the work of the auditor's specialist

#### *Working Papers*

**.A32** Agreement on the respective roles and responsibilities of the auditor and the auditor's specialist also may include agreement about access to, and retention of, each other's working papers. When the auditor uses the work of an internal specialist, the working papers of the auditor's specialist form part of the audit documentation. Subject to any agreement to the contrary, the auditor's external specialist's working papers are its own and do not form part of the audit documentation.

#### **Communication (Ref: par. .11c)**

**.A33** Effective two way communication facilitates the proper integration of the nature, timing, and extent of the procedures of the auditor's specialist with other work on the audit and appropriate modification of the objectives of the auditor's specialist during the course of the audit. For example, when the work of the auditor's specialist relates to the auditor's conclusions regarding a significant risk, both a formal written report at the conclusion of the work of the auditor's specialist and oral reports as the work progresses may be appropriate. Identification of specific partners or staff who will interact with the auditor's specialist and procedures for communication between the auditor's specialist and the entity assist timely and effective communication, particularly on larger engagements.

#### **Confidentiality (Ref: par. .11d)**

**.A34** It is necessary for the confidentiality provisions of relevant ethical requirements that apply to the auditor also to apply to the auditor's specialist.<sup>13</sup> Additional requirements may be imposed by law or regulation. The entity also may have requested that specific confidentiality provisions be agreed with the auditor's external specialists.

### **Evaluating the Adequacy of the Work of the Auditor's Specialist (Ref: par. .12)**

**.A35** The auditor's evaluation of the competence, capabilities, and objectivity of the auditor's specialist; the auditor's familiarity with the field of expertise of the auditor's specialist; and the nature of the work performed by the auditor's specialist affect the nature, timing, and extent of audit procedures to evaluate the adequacy of the work of the auditor's specialist for the auditor's purposes.

#### **The Findings and Conclusions of the Auditor's Specialist (Ref: par. .12a)**

**.A36** Specific procedures to evaluate the adequacy of the work of the auditor's specialist for the auditor's purposes may include the following:

- Making inquiries of the auditor's specialist
- Reviewing the working papers and reports of the auditor's specialist
- Performing corroborative procedures, such as
  - observing the work of the auditor's specialist;

---

<sup>13</sup> ET section 1.700.040, *Disclosing Information to a Third-Party Service Provider*. [Footnote revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

- examining published data, such as statistical reports from reputable, authoritative sources;
  - confirming relevant matters with third parties;
  - performing detailed analytical procedures; and
  - reperforming calculations
- Engaging in discussion with another specialist with relevant expertise when, for example, the findings or conclusions of the auditor's specialist are not consistent with other audit evidence
  - Discussing the report of the auditor's specialist with management

**.A37** Relevant factors when evaluating the relevance and reasonableness of the findings or conclusions of the auditor's specialist, whether in a report or other form, may include whether they are

- presented in a manner that is consistent with any standards of the profession or industry of the auditor's specialist;
- clearly expressed, including reference to the objectives agreed with the auditor, the scope of the work performed, and standards applied;
- based on an appropriate period and take into account subsequent events, when relevant; and
- based on appropriate consideration of errors or deviations encountered by the auditor's specialist.

### **Assumptions, Methods, and Source Data**

*Assumptions and Methods (Ref: par. .12b)*

**.A38** When the purpose of the work of the auditor's specialist is to evaluate underlying assumptions and methods, including models, when applicable, used by management in developing an accounting estimate, the auditor's procedures are likely to be primarily directed to evaluating whether the auditor's specialist has adequately reviewed those assumptions and methods. When the purpose of the work of the auditor's specialist is to develop an auditor's point estimate or an auditor's range for comparison with management's point estimate, the auditor's procedures may be primarily directed to evaluating the assumptions and methods, including models, when appropriate, used by the auditor's specialist.

**.A39** Section 540, *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*, discusses the assumptions and methods used by management in making accounting estimates, including the use, in some cases, of highly specialized, entity-developed models.<sup>14</sup> Although that discussion is written in the context of the auditor obtaining sufficient appropriate audit evidence regarding management's assumptions and methods, it also may assist the auditor when evaluating the assumptions and methods of an auditor's specialist.

**.A40** When the work of an auditor's specialist involves the use of significant assumptions and methods, the appropriateness and reasonableness of those assumptions and methods used and their application are the responsibility of the auditor's specialist. Factors relevant to the auditor's evaluation of those assumptions and methods include whether they are

---

<sup>14</sup> Paragraphs .08, .13, and .15 of section 540, *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*.

- generally accepted within the field of the auditor's specialist;
- consistent with the requirements of the applicable financial reporting framework;
- dependent on the use of specialized models;<sup>15</sup> and
- consistent with those of management and, if not, the reason for, and effects of, the differences.

*Source Data Used by the Auditor's Specialist (Ref: par. .12c)*

**.A41** When the work of an auditor's specialist involves the use of source data that is significant to the work of the auditor's specialist, procedures such as the following may be used to test that data:

- Verifying the origin of the data, including obtaining an understanding of and, when applicable, testing the internal controls over the data and, when relevant, its transmission to the auditor's specialist
- Reviewing the data for completeness and internal consistency

**.A42** In many cases, the auditor may test source data. However, in other cases, when the nature of the source data used by an auditor's specialist is highly technical in relation to the field of the auditor's specialist, that specialist may test the source data. If the auditor's specialist has tested the source data, inquiry of the auditor's specialist by the auditor or supervision or review of the test of the auditor's specialist may be an appropriate way for the auditor to evaluate that data's relevance, completeness, and accuracy.

***Inadequate Work (Ref: par. .13)***

**.A43** If the auditor concludes that the work of the auditor's specialist is not adequate for the auditor's purposes and the auditor cannot resolve the matter through the additional audit procedures required by paragraph .13, which may involve additional work being performed by both the auditor's specialist and the auditor or include employing or engaging another specialist, it may be necessary to express a modified opinion in the auditor's report in accordance with section 705, *Modifications to the Opinion in the Independent Auditor's Report*.

## **Reference to the Auditor's Specialist in the Auditor's Report (Ref: par. .14–.15)**

**.A44** It may be appropriate to refer to the auditor's external specialist in an auditor's report containing a modified opinion to explain the nature of the modification. In such circumstances, the auditor may need the permission of the auditor's specialist before making such a reference.

---

<sup>15</sup> Paragraph .14 of section 540 addresses the auditor's consideration of whether specialized skills or knowledge with regard to one or more aspects of the accounting estimates is required in order to obtain sufficient appropriate audit evidence.

.A45

## **Appendix—Considerations for Agreement Between the Auditor and an Auditor's External Specialist** **(Ref: par. .A28)**

This appendix lists matters that the auditor may consider for inclusion in any agreement with an auditor's external specialist. The following list is illustrative and is not exhaustive; it is intended only to be a guide that may be used in conjunction with the considerations outlined in this section. Whether to include particular matters in the agreement depends on the circumstances of the engagement. The list also may be of assistance in considering the matters to be included in an agreement with an auditor's internal specialist.

### **Nature, Scope, and Objectives of the Auditor's External Specialist's Work**

The following matters are examples of the nature, scope, and objectives of the auditor's external specialist's work:

- The nature and scope of the procedures to be performed by the auditor's external specialist
- The objectives of the auditor's external specialist's work in the context of materiality and risk considerations concerning the matter to which the auditor's external specialist's work relates and, when relevant, the applicable financial reporting framework
- Any relevant technical performance standards or other professional or industry requirements the auditor's external specialist will follow
- The assumptions and methods, including models, when applicable, the auditor's external specialist will use and their authority
- The effective date of, or, when applicable, the testing period for, the subject matter of the auditor's external specialist's work and requirements regarding subsequent events

### **The Respective Roles and Responsibilities of the Auditor and the Auditor's External Specialist**

The following matters are examples of the respective roles and responsibilities of the auditor and the auditor's external specialist:

- Relevant auditing and accounting standards and relevant regulatory or legal requirements
- The consent of the auditor's external specialist to the auditor's intended use of the report of the auditor's specialist, including any reference to it or disclosure of it to others (for example, reference to it in the basis for a modified opinion in the auditor's report, if necessary, or disclosure of it to management or an audit committee)
- The nature and extent of the auditor's review of the auditor's external specialist's work

- Whether the auditor or the auditor's external specialist will test source data
- The auditor's external specialist's access to the entity's records, files, personnel, and specialists engaged by the entity
- Procedures for communication between the auditor's external specialist and the entity
- The auditor's and the auditor's external specialist's access to each other's working papers
- Ownership and control of working papers during and after the engagement, including any file retention requirements
- The auditor's external specialist's responsibility to perform work with due skill and care
- The auditor's external specialist's competence and capability to perform the work
- The expectation that the auditor's external specialist will use all knowledge that the specialist has that is relevant to the audit or, if not, will inform the auditor
- Any restriction on the auditor's external specialist's association with the auditor's report
- Any agreement to inform the auditor's external specialist of the auditor's conclusions concerning the work of the auditor's external specialist

## Communications and Reporting

The following matters are examples of communications and reporting:

- Methods and frequency of communications, including the following:
  - How the auditor's external specialist's findings or conclusions will be reported (for example, written report, oral report, ongoing input to the engagement team)
  - Identification of specific persons within the engagement team who will liaise with the auditor's external specialist
- When the auditor's external specialist will complete the work and report findings or conclusions to the auditor
- The auditor's external specialist's responsibility to communicate promptly any potential delay in completing the work and any potential reservation or limitation on the findings and conclusions of the auditor's specialist
- The auditor's external specialist's responsibility to communicate promptly instances in which the entity restricts the access to records, files, personnel of the auditor's external specialist, or management's specialists engaged by the entity
- The auditor's external specialist's responsibility to communicate to the auditor all information that the auditor's external specialist believes may be relevant to the audit, including any changes in circumstances previously communicated

- The auditor's external specialist's responsibility to communicate circumstances that may create threats to the objectivity of the auditor's external specialist and any relevant safeguards that may eliminate or reduce such threats to an acceptable level

## Confidentiality

The following matters are examples of confidentiality:

- The need for the auditor's specialist to observe confidentiality requirements, including the following:
    - The confidentiality provisions of relevant ethical requirements that apply to the auditor
    - Additional requirements that may be imposed by law or regulation, if any (for example, specific confidentiality provisions requested by the entity)
-

**AU-C Section 9620*****Using the Work of an Auditor's Specialist:  
Auditing Interpretations of Section 620***

Interpretation No. 1, "The Use of Legal Interpretations as Audit Evidence to Support Management's Assertion That a Transfer of Financial Assets Has Met the Isolation Criterion in Paragraphs 7–14 of Financial Accounting Standards Board *Accounting Standards Codification* 860-10-40," has not been updated to reflect the issuance of Financial Accounting Standards Board (FASB) Statement No. 166, *Accounting for Transfers of Financial Assets*. FASB Statement No. 166 was incorporated into FASB *Accounting Standards Codification* (ASC) by FASB Accounting Standards Update No. 2009-16, *Transfers and Servicing (Topic 860): Accounting for Transfers of Financial Assets*, and is discussed in FASB ASC 860, *Transfers and Servicing*.

In addition, this interpretation has not been updated for changes to the Federal Deposit Insurance Corporation's (FDIC's) safe harbor for financial assets transferred in connection with securitizations and participations. The FDIC's final amendments to the safe harbor, *Treatment by the Federal Deposit Insurance Corporation as Conservator or Receiver of Financial Assets Transferred by an Insured Depository Institution in Connection With a Securitization or Participation After September 30, 2010* ([www.fdic.gov/news/news/press/2010/pr10216.html](http://www.fdic.gov/news/news/press/2010/pr10216.html)), were issued in September 2010. The safe harbor provides important protections for securitizations and participations by confirming that in the event of a bank failure, the FDIC would not try to reclaim loans transferred into such transactions.

In light of the issuance of FASB Statement No. 166 and the FDIC's changes to the safe harbor, the AICPA's Auditing Standards Board is currently in the process of revising this interpretation. Auditors should be alert for such revisions; however, the guidance in this interpretation continues to be relevant.

## 1. The Use of Legal Interpretations as Audit Evidence to Support Management's Assertion That a Transfer of Financial Assets Has Met the Isolation Criterion in Paragraphs 7–14 of Financial Accounting Standards Board *Accounting Standards Codification* 860-10-40

.01 *Introduction*—Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 860,<sup>[1]</sup> *Transfers and Servicing*, requires that a transferor of financial assets must surrender control over the financial assets to account for the transfer as a sale. According to FASB ASC 860-10-40-5(a), one of several conditions that must be met to provide evidence of surrender of control is that the transferred assets have been isolated from the transferor—put presumptively beyond the reach of the transferor and its creditors, even in bankruptcy or other receivership.

Paragraphs 8–10 of FASB ASC 860-10-40 describe in greater detail the evidence required to support management's assertion that transferred financial assets have been isolated:

Derecognition of transferred assets is appropriate only if the available evidence provides reasonable assurance that the transferred assets would be beyond the reach of the powers of a bankruptcy trustee or other receiver for the transferor or any *consolidated affiliate of the transferor*<sup>2</sup> that is not a special-purpose corporation or other entity designed to make remote the possibility that it would enter bankruptcy or other receivership (see FASB ASC 860-10-55-23(c)). The nature and extent of supporting evidence required for an assertion in financial statements that transferred financial assets have been isolated—put presumptively beyond the reach of the transferor and its creditors, either by a single transaction or a series of transactions taken as a whole—depend on the facts and circumstances. FASB ASC 860 does not provide guidance as to the type and amount of evidence that must be obtained to conclude that transferred financial assets have been isolated from the transferor. All available evidence that either supports or questions an assertion shall be considered. That consideration includes making judgments about whether the contract or circumstances permit the transferor to revoke the transfer. It also may include making judgments about the kind of bankruptcy or other receivership into which a transferor or SPE might be placed, whether a transfer of financial assets would likely be deemed a true sale at law, whether the transferor is affiliated with the transferee, and other factors pertinent under applicable law.

A determination about whether the isolation criterion has been met to support a conclusion regarding surrender of control is largely a matter of law. This aspect of surrender of control, therefore, is assessed primarily from a legal perspective.

.02 *Effective Date and Applicability*—This interpretation is effective for auditing procedures related to transfers of financial assets that are required to be accounted for under FASB ASC 860.<sup>[3]</sup>

---

<sup>[1]</sup> [Footnote deleted, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

<sup>2</sup> The Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) glossary defines *consolidated affiliate of the transferor* as "an entity whose assets and liabilities are included with those of the transferor in the consolidated, combined, or other financial statements being presented." [Footnote added, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

<sup>[3]</sup> [Footnote renumbered and deleted, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

**.03 Question**—What are the auditor's responsibilities in determining whether to use the work of a legal specialist<sup>4</sup> to obtain persuasive evidence to support management's assertion that a transfer of financial assets meets the isolation criterion of FASB ASC 860-10-40-5(a)?

**.04 Interpretation**—Section 500, *Audit Evidence*, states that the "preparation of an entity's financial statements may require expertise in a field other than accounting or auditing, such as actuarial calculations, valuations, or engineering data. The entity uses a management's specialist in these fields to obtain the needed expertise to prepare the financial statements."<sup>5</sup>

**.05** Use of a management's specialist may not be necessary to obtain appropriate audit evidence to support management's assertion that the isolation criterion is met in certain situations, such as when there is a routine transfer of financial assets that does not result in any continuing involvement by the transferor.<sup>6</sup>

**.06** Many transfers of financial assets involve complex legal structures, continuing involvement by the transferor, or other legal issues that, in the auditor's judgment, make it difficult to determine whether the isolation criterion is met. In these situations, use of a legal specialist usually is necessary. A legal specialist formulating an opinion about whether a transfer isolates the transferred assets beyond the reach of the transferor and its creditors may consider, among other things, the structure of the transaction taken as a whole, the nature of any continuing involvement, the type of insolvency or other receivership proceedings to which the transferor might become subject, and other factors pertinent under applicable law.

**.07** If a legal opinion is used as evidence to support the accounting conclusion related to multiple transfers under a single structure, and such transfers occur over an extended period of time under that structure, the auditor is required to evaluate the appropriateness of the legal opinion,<sup>7</sup> which includes evaluating the need for management to obtain periodic updates of that opinion to confirm that there have been no subsequent changes in relevant law or applicable regulations that may change the applicability of the previous opinion to such transfers. The auditor also is required to evaluate the need for management to obtain periodic updates of an opinion to confirm that there have been no subsequent changes in relevant law or applicable regulations that may affect the conclusions reached in the previous opinion in the case of other transfers (see FASB ASC 860-10-40-41 and FASB ASC 860-20-25).

**.08** If management's assertion with respect to a new transaction is that the transaction structure is the same as a prior structure for which a legal opinion that complies with this interpretation was used as evidence to support

---

<sup>4</sup> Client's internal or external attorney who is knowledgeable about relevant sections of the U.S. Bankruptcy Code and other federal, state, or foreign laws, as applicable. [Footnote renumbered, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

<sup>5</sup> Paragraph .A35 of section 500, *Audit Evidence*.

<sup>6</sup> FASB ASC 860-10-55-28 characterizes no continuing involvement with the transferred assets as "no servicing responsibilities, no participation in future cash flows, no recourse obligations other than standard representations and warranties that the financial assets transferred met the delivery requirements under the arrangement, no further involvement of any kind. The transferee is significantly limited in its ability to pledge or exchange the transferred assets."

If a contractual provision (such as a call or removal of accounts provision) gives the transferor the unilateral ability to require the return of specific financial assets, the auditor should consider the effect of FASB ASC 860-10-40-5(c). [Footnote renumbered and revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

<sup>7</sup> Paragraph .08c of section 500.

an assertion that the transfer of assets met the isolation criterion, the auditor is required<sup>8</sup> to determine whether management needs to obtain an update of that opinion to confirm that there have been no changes in relevant law, applicable regulations, or in the pertinent facts of the transaction that may affect the applicability of the previous opinion to the new transaction.

**.09 Question**—If the auditor determines that the use of a management's legal specialist is required, what should he or she consider in assessing the adequacy of the legal opinion?

**.10 Interpretation**—In assessing the adequacy of the legal opinion, the auditor is required to evaluate the competence and capabilities<sup>9</sup> of the legal specialist to determine whether the legal specialist has experience with relevant matters, including knowledge of the U.S. Bankruptcy Code, and other federal, state, or foreign law, as applicable, as well as knowledge of the transaction upon which management's assertion is based. For transactions that may be affected by provisions of the Federal Deposit Insurance Act (FDIA), it is important to consider whether the legal specialist has experience with the rights and powers of receivers, conservators, and liquidating agents under that act. The auditor is required to obtain an understanding of the work of the specialist,<sup>10</sup> which includes obtaining an understanding of the assumptions that are used by the legal specialist, and make appropriate tests of any information that management provides to the legal specialist and upon which the specialist indicates it relied. For example, testing management's information underlying a legal specialist's assumption regarding the adequacy of consideration received may depend on the nature of the transaction and the relationship of the parties. When the legal specialist's opinion has assumed the adequacy of consideration for transfers from a particular legal entity to its wholly owned subsidiary, changes in the subsidiary's capital accounts plus other consideration generally would be sufficient audit evidence about the adequacy of consideration. In the case of other transfers, such as those that are not to a wholly owned subsidiary of a particular legal entity that is the transferor, obtaining additional audit evidence may be necessary to evaluate management's assertion with regard to the adequacy of consideration upon which the legal specialist relied, because changes in the transferee's capital accounts do not solely benefit the transferring entity.

**.11** The auditor also is required to evaluate the appropriateness of that specialist work as audit evidence for the relevant assertion,<sup>11</sup> which includes considering the form and content of the documentation that the legal specialist provides and evaluating whether the legal specialist's findings support management's assertions with respect to the isolation criterion. The requirement in FASB ASC 860 regarding reasonable assurance that the transferred assets would be isolated provides the basis for what the auditor is required to consider in evaluating the work of a legal specialist.

**.12** Findings of a legal specialist that relate to the isolation of transferred financial assets are often in the form of a reasoned legal opinion that is restricted to particular facts and circumstances relevant to the specific transaction. The reasoning of such opinion may rely upon analogy to legal precedents that may not involve facts and circumstances that are comparable to that specific

---

<sup>8</sup> Paragraph .10 of section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*.

<sup>9</sup> Paragraph .08a of section 500.

<sup>10</sup> Paragraph .08b of section 500.

<sup>11</sup> Paragraph .08c of section 500.

transaction. It is important to consider the effect of any limitations or disclaimers of opinion in assessing the adequacy of any legal opinion.

**.13** An example of the conclusions in a legal opinion for an entity that is subject to the U.S. Bankruptcy Code that provides persuasive evidence, in the absence of contradictory evidence, to support management's assertion that the transferred financial assets have been put presumptively beyond the reach of the entity and its creditors, even in bankruptcy or other receivership, follows:

*We believe (or it is our opinion) that in a properly presented and argued case, as a legal matter, in the event the Seller were to become a Debtor, the transfer of the Financial Assets from the Seller to the Purchaser would be considered to be a sale (or a true sale) of the Financial Assets from the Seller to the Purchaser and not a loan and, accordingly, the Financial Assets and the proceeds thereof transferred to the Purchaser by the Seller in accordance with the Purchase Agreement would not be deemed to be property of the Seller's estate for purposes of [the relevant sections] of the U.S. Bankruptcy Code.*

The following additional paragraph addressing substantive consolidation applies when the entity to which the assets are sold (as described in the opinion) is an affiliate of the selling entity and may also apply in other situations as noted by the legal specialist. For example, if a so-called two-step structure has been used to achieve isolation, this paragraph usually will be required with respect to the transferee in the first step of such structure (see paragraph .15 [and related footnotes] of this interpretation for additional guidance on the second step of a two-step structure as described in paragraphs 22–23 of FASB ASC 860-10-55). When the transferor has entered into transactions with an affiliate that could affect the issue of substantive consolidation, the opinion should address the effect of that involvement on the opinion.

Based upon the assumptions of fact and the discussion set forth previously, and on a reasoned analysis of analogous case law, *we are of the opinion that in a properly presented and argued case, as a legal matter, in a proceeding under the U.S. Bankruptcy Code,*<sup>12</sup> in which the Seller is a Debtor, a court *would not* grant an order consolidating the assets and liabilities of the Purchaser with those of the Seller in a case involving the insolvency of the Seller under the doctrine of substantive consolidation.

In the case of a transferor that is not entitled to become a debtor under the U.S. Bankruptcy Code, a legal opinion regarding whether the isolation criterion is met would consider whether isolation is satisfactorily achieved under the insolvency or receivership laws that apply to the transferor.

**.14** Following are two examples of the conclusions in a legal opinion for an entity that is subject to receivership or conservatorship under provisions of the Federal Deposit Insurance Corporation (FDIC). The conclusions in these two examples provide persuasive evidence, in the absence of contradictory evidence, to support management's assertion that the transferred financial assets have been put presumptively beyond the reach of the entity and its creditors, even in conservatorship or receivership. Insolvency and receivership laws applicable to depository institutions, and how those laws affect the legal isolation criterion, differ depending upon the nature of the depository institution and its chartering

---

<sup>12</sup> For an entity subject to additional regulation (for example, a broker-dealer subject to the Securities Investor Protection Act), the legal opinion also generally should address the effect of such regulation and the policies of the regulators implementing such regulations (for example, the Securities Investor Protection Corporation). [Footnote renumbered, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

authority. Accordingly, legal opinions addressing the legal isolation criterion may be formulated in different ways to accommodate those differences.<sup>13</sup>

Example 1. *We believe (or it is our opinion) that* in a properly presented and argued case, as a legal matter, in the event the Seller were to become subject to receivership or conservatorship, the transfer of the Financial Assets from the Seller to the Purchaser *would be considered to be a sale* (or a true sale) of the Financial Assets from the Seller to the Purchaser and not a loan and, accordingly, the Financial Assets and the proceeds thereof transferred to the Purchaser by the Seller in accordance with the Purchase Agreement would not be deemed to be property of, or subject to repudiation, reclamation, recovery, or recharacterization by, the receiver or conservator appointed with respect to the Seller.<sup>14</sup>

Example 2. The Federal Deposit Insurance Corporation (FDIC) has issued a regulation, 'Treatment by the Federal Deposit Insurance Corporation as Conservator or Receiver of Financial Assets Transferred by an Insured Depository Institution in Connection with a Securitization or Participation,' 12 CFR section 360.6 (the Rule). Based on and subject to the discussion, assumptions, and qualifications herein, it is our opinion that:

- A. Following the appointment of the FDIC as the conservator or receiver for the Bank:
  - (i) The Rule will apply to the Transfers,
  - (ii) Under the Rule, the FDIC acting as conservator or receiver for the Bank could not, by exercise of its authority to disaffirm or repudiate contracts under 12 U.S.C. §821(e), reclaim or recover the Transferred Assets from the Issuer or recharacterize the Transferred Assets as property of the Bank or of the conservatorship or receivership for the Bank,
  - (iii) Neither the FDIC (acting for itself as a creditor or as representative of the Bank or its shareholders or creditors) nor any creditor of the Bank would have the right, under any bankruptcy or insolvency law applicable in the conservatorship or receivership of the Bank, to avoid the Transfers, to recover the Transferred Assets, or to require the Transferred Assets to be turned over to the FDIC or such creditor, and
  - (iv) There is no other power exercisable by the FDIC as conservator or receiver for the Bank that would permit the FDIC as such conservator or receiver to reclaim or recover the Transferred Assets from the Issuer, or to recharacterize the Transferred

---

<sup>13</sup> For an entity subject to conservatorship or liquidation under the National Credit Union Act, the examples and discussion in this paragraph would be modified to make appropriate references to "liquidation" and "liquidating agent" and additional information relating to rights and regulations of the National Credit Union Administration. [Footnote renumbered, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

<sup>14</sup> When the opinion indicates that isolation is achieved without reference to a true sale, the opinion also should provide reasonable assurance that the transferred assets are beyond the reach of the transferor and its creditors other than the transferee to the same extent that is provided in paragraph B of example 2. [Footnote renumbered, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

Assets as property of the Bank or of the conservatorship or receivership for the Bank; provided, however, that we offer no opinion as to whether, in receivership, the FDIC or any creditor of the Bank may take any such actions if the Holders [*holders of beneficial interests in the transferred assets*] receive payment of the principal amount of the Interests and the interest earned thereon (at the contractual yield) through the date the Holders are so paid; and

- B. Prior to the appointment of the FDIC as conservator or receiver for the Bank, the Bank and its other creditors would not have the right to reclaim or recover the Transferred Assets from the Issuer, except by the exercise of a contractual provision [insert appropriate citation] to require the transfer, or return, of the Transferred Assets that exists solely as a result of the contract between the Bank and the Issuer.<sup>15</sup>

The following additional paragraph addressing substantive consolidation applies when the entity to which the assets are sold or transferred (as described in the opinion) is an affiliate of the selling entity and may also apply in other situations as noted by the legal specialist.<sup>16</sup> For example, if a so-called two-step structure has been used to achieve isolation, the following paragraph usually will be required with respect to the transferee in the first step of the structure (see paragraph .15 [and related footnotes] of this interpretation for additional guidance on the second step of a two-step structure as described in paragraphs 22–23 of FASB ASC 860-10-55). When the transferor has entered into transactions with an affiliate that could affect the issue of substantive consolidation, the opinion should address the effect of that involvement on the opinion:

Based upon the assumptions of fact and the discussion set forth previously, and on a reasoned analysis of analogous case law, *we are of the opinion that* in a properly presented and argued case, as a legal matter, in a receivership, conservatorship, or liquidation proceeding in respect of the Seller, a court *would not* grant an order consolidating the assets and liabilities of the Purchaser with those of the Seller.

Certain powers to repudiate contracts, recover, reclaim, or recharacterize transferred assets as property of a transferor that are exercisable by the FDIC under the FDIA may, as of the date of the transfer, be limited by a regulation that may be repealed or amended only in respect of transfers occurring on or after the effective date of such repeal or amendment.<sup>17</sup> With respect to the powers of a receiver or conservator that may not be exercised under that regulation, it

---

<sup>15</sup> See the second paragraph of footnote 6.

Paragraph B is not required if the opinion includes both a conclusion, as set forth in example 1, that the transfer constitutes a "true sale" and the conclusions set forth in paragraph A of example 2. It is not necessary to include any provision of example 2 if the opinion is as set forth in example 1. [Footnote renumbered and revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

<sup>16</sup> An additional substantive consolidation opinion is not required if the opinion states that its conclusion includes the inability to recover the transferred financial assets or recharacterize the transfer by application of the doctrine of "substantive consolidation." [Footnote renumbered, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

<sup>17</sup> The applicable regulation is 12 U.S. *Code of Federal Regulations* 360.6, effective September 11, 2000. [Footnote renumbered, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

is acceptable for attorneys to rely upon the effectiveness of the limitation on such powers set forth in the applicable regulation, provided that the attorney states, based on reasonable assumptions, that (a) the affected transfer of financial assets meets all qualification requirements of the regulation, and (b) the regulation had not, as of the date of the opinion, been amended, repealed, or held inapplicable by a court with jurisdiction with respect to such transfer. The opinion should separately address any powers of repudiation, recovery, reclamation, or recharacterization exercisable by a receiver or conservator notwithstanding that regulation (for example, rights, powers, or remedies regarding transfers specifically excluded from the regulation) in a manner that provides the same level of assurance as would be provided in the case of opinions that conform with requirements of paragraph .13 of this interpretation, except that such opinion shall address powers arising under the FDIA. The considerations in the immediately preceding three sentences are adequately addressed either by the example 1 opinion or the example 2 opinion described in this paragraph or by the variations described in the second paragraph of footnote 15 and in footnote 16 of this interpretation.

**.15** A legal letter that includes an inadequate opinion, inappropriate limitations, or a disclaimer of opinion, or that effectively limits the scope of the opinion to facts and circumstances that are not applicable to the transaction, does not provide persuasive evidence to support the entity's assertion that the transferred assets have been put presumptively beyond the reach of the transferor and its creditors, even in bankruptcy or other receivership. Likewise, a legal letter that includes conclusions that are expressed using some of the following language would not provide persuasive evidence that a transfer of financial assets has met the isolation criterion of FASB ASC 860-10-40-5(a) (see paragraphs .20–.21 of this interpretation):

- "We are unable to express an opinion . . ."
- "It is our opinion, based upon limited facts . . ."
- "We are of the view . . ." or "it appears . . ."
- "There is a reasonable basis to conclude that . . ."
- "In our opinion, the transfer would *either* be a sale *or* a grant of a perfected security interest . . ."<sup>18</sup>
- "In our opinion, there is a reasonable possibility . . ."
- "In our opinion, the transfer *should* be considered a sale . . ."
- "It is our opinion that the company will be able to assert meritorious arguments . . ."
- "In our opinion, it is more likely than not . . ."
- "In our opinion, the transfer would *presumptively* be . . ."
- "In our opinion, it is probable that . . ."

---

<sup>18</sup> Certain transferors are subject only to receivership (and not to proceedings under the U.S. Bankruptcy Code or the Federal Deposit Insurance Act) under laws that do not allow a receiver to reach assets in which a security interest has been granted. In such circumstances, an opinion that concludes that the transfer would either be a sale or a grant of a security interest that puts the transferred assets beyond the reach of such receiver and other creditors would provide persuasive evidence that the isolation criterion is met.

In certain circumstances, a legal specialist may provide an opinion on both steps of a two-step structure. Such language would be acceptable in an opinion for a transfer of assets in the second step of a two-step structure as described in paragraphs 22–23 of FASB ASC 860-10-55 provided that the opinion on the transfer in the first step is consistent with paragraphs .13 or .14 of this interpretation. [Footnote renumbered and revised, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

Furthermore, conclusions about hypothetical transactions may not be relevant to the transaction that is the subject of management's assertions. Section 500 states that the "auditor should design and perform audit procedures that are appropriate in the circumstances for the purpose of obtaining sufficient appropriate audit evidence."<sup>19</sup> Additionally, conclusions about hypothetical transactions may not contemplate all of the facts and circumstances or the provisions in the agreements of the transaction that is the subject of management's assertions, and generally would not provide persuasive evidence.<sup>20</sup>

**.16 Question**—Are legal opinions that restrict the use of the opinion to the client, or to third parties other than the auditor, acceptable audit evidence?

**.17 Interpretation**—No. In some cases, the auditor may decide it is necessary to contact the specialist to determine that the specialist is aware that his or her work will be used for evaluating the assertions in the financial statements.<sup>21</sup> Given the importance of the legal opinion to the assertion in this case, and the precision that legal specialists use in drafting such opinions, an auditor should not use as evidence a legal opinion that he or she deems otherwise adequate if the letter restricts use of the findings expressed therein to the client or to third parties other than the auditor. In that event, the auditor requests that the client obtain the legal specialist's written permission for the auditor to use the opinion for the purpose of evaluating management's assertion that a transfer of financial assets meets the isolation criterion of FASB ASC 860-10-40-5(a).

**.18** An example of a letter from a legal specialist to a client that adequately communicates permission for the auditor to use the legal specialist's opinion for the purpose of evaluating management's assertion that a transfer of financial assets meets the isolation criterion of FASB ASC 860-10-40-5(a) is as follows:

Notwithstanding any language to the contrary in our opinions of even date with respect to certain bankruptcy issues relating to the previously referenced transaction, you are authorized to make available to your auditors such opinions solely as audit evidence in support of their evaluation of management's assertion that the transfer of the receivables meets the isolation criterion of Financial Accounting Standards Board *Accounting Standards Codification* 860-10-40-5(a), provided a copy of this letter is furnished to them in connection therewith. In authorizing you to make copies of such opinions available to your auditors for such purpose, we are not undertaking or assuming any duty or obligation to your auditors or establishing any lawyer-client relationship with them. Further, we do not undertake or assume any responsibility with respect to financial statements of you or your affiliates.<sup>22</sup>

**.19** A letter from a legal specialist to a client might authorize the client to make copies of the legal opinion available to the auditor to use in his or her evaluation of management's assertion that a transfer of financial assets meets the isolation criterion of FASB ASC 860-10-40-5(a) but then state that the auditor is not authorized to rely thereon. Such "use but not rely on" language, or other language that similarly restricts the auditor's use of the legal specialist's

---

<sup>19</sup> Paragraph .06 of section 500.

<sup>20</sup> For example, a memorandum of law from a legal specialist usually analyzes (and may make conclusions about) a transaction that may be completed subsequently. Such memorandum generally would not provide persuasive evidence unless the conclusions conform with this interpretation and a legal specialist opines that such conclusions apply to a completed transaction that is the subject of management's assertion. [Footnote renumbered, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

<sup>21</sup> Paragraph .A39 of section 500.

<sup>22</sup> This language may appear in the legal specialist's opinion rather than in a separate letter. In that case, the wording would be modified slightly to indicate the context. [Footnote renumbered, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

opinion, does not adequately communicate permission for the auditor to use the legal specialist's opinion as audit evidence. The auditor may consider consulting with his or her legal counsel in circumstances in which it is not clear that the auditor may use the legal specialist's opinion.

**.20 Question**—If the auditor determines that it is appropriate to use the work of a legal specialist, and either the resulting legal response does not provide persuasive evidence that a transfer of assets has met the isolation criterion or the legal specialist does not grant permission for the auditor to use a legal opinion that is restricted to the client or to third parties other than the auditor, what other steps might an auditor consider?

**.21 Interpretation**—When other relevant audit evidence exists, the auditor should consider it before reaching a conclusion about the appropriateness of management's accounting for a transfer.<sup>23</sup> However, because the isolation aspect of surrender of control is assessed primarily from a legal perspective, the auditor usually will not be able to obtain persuasive evidence in a form other than a legal opinion. In the absence of persuasive evidence that a transfer has met the isolation criterion, derecognition of the transferred assets is not in conformity with generally accepted accounting principles and the auditor may need to express a qualified or adverse opinion in accordance with section 705, *Modifications to the Opinion in the Independent Auditor's Report*.<sup>24</sup> However, if permission for the auditor to use a legal opinion that he or she deems otherwise adequate is not granted, this would be a scope limitation and the auditor should consider the need to express a qualified opinion or to disclaim an opinion in accordance with section 705.<sup>25</sup>

[Issue Date: December 2001; Revised: March 2006; Revised: June 2009;  
Revised: October 2011, effective for audits of financial statements  
for periods ending on or after December 15, 2012.]

---

<sup>23</sup> See paragraph .13 of section 620, *Using the Work of an Auditor's Specialist*, regarding additional procedures that may be applied. [Footnote renumbered, June 2009, to reflect conforming changes necessary due to the issuance of FASB ASC.]

<sup>24</sup> Paragraphs .07–.09 of section 705, *Modifications to the Opinion in the Independent Auditor's Report*.

## AU-C Section 700

# ***Forming an Opinion and Reporting on Financial Statements***

Source: SAS No. 122; SAS No. 131.

See section 9700 for interpretations of this section.

Effective for audits of financial statements for periods ending on or after June 15, 2016.

## **Introduction**

### **Scope of This Section**

**.01** This section addresses the auditor's responsibility to form an opinion on the financial statements. It also addresses the form and content of the auditor's report issued as a result of an audit of financial statements.

**.02** This section is written in the context of a complete set of general purpose financial statements.

**.03** Section 705, *Modifications to the Opinion in the Independent Auditor's Report*, and section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*, address how the form and content of the auditor's report are affected when the auditor expresses a modified opinion (a qualified opinion, an adverse opinion, or a disclaimer of opinion) or includes an emphasis-of-matter paragraph or other-matter paragraph in the auditor's report.

**.04** Section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*, addresses special considerations when financial statements are prepared in accordance with a special purpose framework.<sup>1</sup> Section 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*, addresses special considerations relevant to an audit of a single financial statement or of a specific element, account, or item of a financial statement. (Ref: par. .A1)

**.05** Section 810, *Engagements to Report on Summary Financial Statements*, applies when an auditor is engaged to report separately on summary financial statements<sup>2</sup> derived from financial statements audited in accordance with generally accepted auditing standards (GAAS) by the same auditor. Section 730, *Required Supplementary Information*, addresses the auditor's responsibilities relating to information supplementary to the basic financial statements that is required by a designated accounting standards setter to accompany such financial statements.

**.06** Section 910, *Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country*, applies

---

<sup>1</sup> See section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*, for a definition of *special purpose framework*.

<sup>2</sup> Paragraph .06 of section 810, *Engagements to Report on Summary Financial Statements*, defines the term *summary financial statements*.

when an auditor practicing in the United States is engaged to report on financial statements that have been prepared in accordance with a financial reporting framework generally accepted in another country not adopted by a body designated by the Council of the AICPA (Council) to establish generally accepted accounting principles that are intended for use outside the United States.

**.07** Section 510, *Opening Balances—Initial Audit Engagements, Including Reaudit Engagements*, applies when the financial statements of the prior period have been audited by a predecessor auditor or were not audited.

**.08** This section promotes consistency in the auditor's report. Consistency in the auditor's report, when the audit has been conducted in accordance with GAAS, promotes credibility in the marketplace by making more readily identifiable those audits that have been conducted in accordance with recognized standards. Consistency also helps promote users' understanding and identification of unusual circumstances when they occur.

## Effective Date

**.09** This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

## Objectives

**.10** The objectives of the auditor are to

- a. form an opinion on the financial statements based on an evaluation of the audit evidence obtained, including evidence obtained about comparative financial statements or comparative financial information, and
- b. express clearly that opinion on the financial statements through a written report that also describes the basis for that opinion. (Ref: par. .A2)

## Definitions

**.11** For purposes of GAAS, the following terms have the meanings attributed as follows:

**Comparative financial statements.** A complete set of financial statements<sup>3</sup> for one or more prior periods included for comparison with the financial statements of the current period.

**Comparative information.** Prior period information presented for purposes of comparison with current period amounts or disclosures that is not in the form of a complete set of financial statements. Comparative information includes prior period information presented as condensed financial statements or summarized financial information.

**Condensed financial statements.** Historical financial information<sup>4</sup> that is presented in less detail than a complete set of financial statements, in accordance with an appropriate financial reporting framework. Condensed financial statements may be separately presented as unaudited financial information or may be presented as comparative information.

---

<sup>3</sup> See section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*, for a definition of *financial statements*.

<sup>4</sup> Paragraph .14 of section 200 defines the term *historical financial information*.

**General purpose financial statements.** Financial statements prepared in accordance with a general purpose framework. (Ref: par. .A3)

**General purpose framework.** A financial reporting framework designed to meet the common financial information needs of a wide range of users.

**Unmodified opinion.** The opinion expressed by the auditor when the auditor concludes that the financial statements are presented fairly, in all material respects, in accordance with the applicable financial reporting framework.<sup>5</sup>

.12 Reference to *financial statements* in this section means a complete set of general purpose financial statements, including the related notes. The related notes ordinarily comprise a summary of significant accounting policies and other explanatory information. The requirements of the applicable financial reporting framework determine the form and content of the financial statements and what constitutes a complete set of financial statements.

## Requirements

### Forming an Opinion on the Financial Statements

.13 The auditor should form an opinion on whether the financial statements are presented fairly, in all material respects, in accordance with the applicable financial reporting framework.

.14 In order to form that opinion, the auditor should conclude whether the auditor has obtained reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error. That conclusion should take into account the following: (Ref: par. .A4)

- a. The auditor's conclusion, in accordance with section 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*, about whether sufficient appropriate audit evidence has been obtained<sup>6</sup>
- b. The auditor's conclusion, in accordance with section 450, *Evaluation of Misstatements Identified During the Audit*, about whether uncorrected misstatements are material, individually or in aggregate<sup>7</sup>
- c. The evaluations required by paragraphs .15–.18

.15 The auditor should evaluate whether the financial statements are prepared, in all material respects, in accordance with the requirements of the applicable financial reporting framework. This evaluation should include consideration of the qualitative aspects of the entity's accounting practices, including indicators of possible bias in management's judgments. (Ref: par. .A5–.A7)

.16 In particular, the auditor should evaluate whether, in view of the requirements of the applicable financial reporting framework

- a. the financial statements adequately disclose the significant accounting policies selected and applied;

---

<sup>5</sup> See section 200 for a definition of *applicable financial reporting framework*.

<sup>6</sup> Paragraph .28 of section 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*.

<sup>7</sup> Paragraph .11 of section 450, *Evaluation of Misstatements Identified During the Audit*.

- b. the accounting policies selected and applied are consistent with the applicable financial reporting framework and are appropriate;
- c. the accounting estimates made by management are reasonable;
- d. the information presented in the financial statements is relevant, reliable, comparable, and understandable;
- e. the financial statements provide adequate disclosures to enable the intended users to understand the effect of material transactions and events on the information conveyed in the financial statements; and (Ref: par. .A8)
- f. the terminology used in the financial statements, including the title of each financial statement, is appropriate.

**.17** The auditor's evaluation about whether the financial statements achieve fair presentation should also include consideration of the following:

- a. The overall presentation, structure, and content of the financial statements
- b. Whether the financial statements, including the related notes, represent the underlying transactions and events in a manner that achieves fair presentation (Ref: par. .A9)

**.18** The auditor should evaluate whether the financial statements adequately refer to or describe the applicable financial reporting framework. (Ref: par. .A10–.A13)

## Form of Opinion

**.19** The auditor should express an unmodified opinion when the auditor concludes that the financial statements are presented fairly, in all material respects, in accordance with the applicable financial reporting framework.

**.20** The auditor should modify the opinion in the auditor's report, in accordance with section 705, if the auditor

- a. concludes that, based on the audit evidence obtained, the financial statements as a whole are materially misstated or
- b. is unable to obtain sufficient appropriate audit evidence to conclude that the financial statements as a whole are free from material misstatement.

**.21** If the auditor concludes that the financial statements do not achieve fair presentation, the auditor should discuss the matter with management and, depending on how the matter is resolved, should determine whether it is necessary to modify the opinion in the auditor's report in accordance with section 705. (Ref: par. .A14–.A15)

## Auditor's Report

**.22** The auditor's report should be in writing. (Ref: par. .A16–.A17)

**Auditor's Report for Audits Conducted in Accordance With GAAS***Title*

**.23** The auditor's report should have a title that includes the word *independent* to clearly indicate that it is the report of an independent auditor. (Ref: par. .A18)

*Addressee*

**.24** The auditor's report should be addressed as required by the circumstances of the engagement. (Ref: par. .A19)

*Introductory Paragraph*

**.25** The introductory paragraph in the auditor's report should (Ref: par. .A20–.A23)

- a. identify the entity whose financial statements have been audited,
- b. state that the financial statements have been audited,
- c. identify the title of each statement that the financial statements comprise, and
- d. specify the date or period covered by each financial statement that the financial statements comprise.

*Management's Responsibility for the Financial Statements*

**.26** The auditor's report should include a section with the heading "Management's Responsibility for the Financial Statements."

**.27** The auditor's report should describe management's responsibility for the preparation and fair presentation of the financial statements. The description should include an explanation that management is responsible for the preparation and fair presentation of the financial statements in accordance with the applicable financial reporting framework; this responsibility includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. (Ref: par. .A24)

**.28** The description about management's responsibility for the financial statements in the auditor's report should not be referenced to a separate statement by management about such responsibilities if such a statement is included in a document containing the auditor's report. (Ref: par. .A25)

*Auditor's Responsibility*

**.29** The auditor's report should include a section with the heading "Auditor's Responsibility."

**.30** The auditor's report should state that the responsibility of the auditor is to express an opinion on the financial statements based on the audit. (Ref: par. .A26)

**.31** The auditor's report should state that the audit was conducted in accordance with generally accepted auditing standards and should identify the United States of America as the country of origin of those standards. The auditor's report should also explain that those standards require that the auditor plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. (Ref: par. .A27–.A28)

**.32** The auditor's report should describe an audit by stating that

- a. an audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements.

- b. the procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control, and accordingly, no such opinion is expressed.
- c. an audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as the overall presentation of the financial statements.

In circumstances when the auditor also has a responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, the auditor should omit the phrase required in paragraph .32b that the auditor's consideration of internal control is not for the purpose of expressing an opinion on the effectiveness of internal control, and accordingly, no such opinion is expressed.

**.33** The auditor's report should state whether the auditor believes that the audit evidence the auditor has obtained is sufficient and appropriate to provide a basis for the auditor's opinion.

#### *Auditor's Opinion*

**.34** The auditor's report should include a section with the heading "Opinion."

**.35** When expressing an unmodified opinion on financial statements, the auditor's opinion should state that the financial statements present fairly, in all material respects, the financial position of the entity as of the balance sheet date and the results of its operations and its cash flows for the period then ended, in accordance with the applicable financial reporting framework. (Ref: par. .A9 and .A29–.A30)

**.36** The auditor's opinion should identify the applicable financial reporting framework and its origin. (Ref: par. .A31)

#### *Other Reporting Responsibilities*

**.37** If the auditor addresses other reporting responsibilities in the auditor's report on the financial statements that are in addition to the auditor's responsibility under GAAS to report on the financial statements, these other reporting responsibilities should be addressed in a separate section in the auditor's report that should be subtitled "Report on Other Legal and Regulatory Requirements" or otherwise, as appropriate to the content of the section. (Ref: par. .A32–.A33)

**.38** If the auditor's report contains a separate section on other reporting responsibilities, the headings, statements, and explanations referred to in paragraphs .25–.36 should be under the subtitle "Report on the Financial Statements." The "Report on Other Legal and Regulatory Requirements" should follow the "Report on the Financial Statements." (Ref: par. .A34)

#### *Signature of the Auditor*

**.39** The auditor's report should include the manual or printed signature of the auditor's firm. (Ref: par. .A35–.A36)

*Auditor's Address*

.40 The auditor's report should name the city and state where the auditor practices. (Ref: par. .A37)

*Date of the Auditor's Report*

.41 The auditor's report should be dated no earlier than the date on which the auditor has obtained sufficient appropriate audit evidence on which to base the auditor's opinion on the financial statements, including evidence that

- a. the audit documentation has been reviewed;
- b. all the statements that the financial statements comprise, including the related notes, have been prepared; and
- c. management has asserted that they have taken responsibility for those financial statements. (Ref: par. .A38–.A41)

***Auditor's Report for Audits Conducted in Accordance With Both GAAS and Another Set of Auditing Standards***

.42 Paragraph .31 requires that the auditor's report state that the audit was conducted in accordance with GAAS and identify the United States of America as the country of origin of those standards. However, an auditor may indicate that the audit was also conducted in accordance with another set of auditing standards (for example, International Standards on Auditing [ISAs], the standards of the PCAOB, or *Government Auditing Standards*). The auditor should not refer to having conducted an audit in accordance with another set of auditing standards in addition to GAAS, unless the audit was conducted in accordance with both sets of standards in their entirety. (Ref: par. .A42) [As amended, effective for audits of financial statements for periods ending on or after June 15, 2016, by SAS No. 131.]

.43 When the auditor's report refers to both GAAS and another set of auditing standards, the auditor's report should identify the other set of auditing standards, as well as their origin.

***Auditor's Report for Audits Conducted in Accordance With the Standards of the PCAOB and GAAS When the Audit Is Not Within the Jurisdiction of the PCAOB***

.44 When conducting an audit of financial statements in accordance with the standards of the PCAOB and the audit is not within the jurisdiction of the PCAOB as defined by the Sarbanes-Oxley Act of 2002 (the Act), as amended, the auditor is required to also conduct the audit in accordance with GAAS. In such circumstances, when the auditor refers to the standards of the PCAOB in addition to GAAS in the auditor's report, the auditor should use the form of report required by the standards of the PCAOB, amended to state that the audit was also conducted in accordance with GAAS. (Ref: par. .A43–.A47) [Paragraph added, effective for audits of financial statements for periods ending on or after June 15, 2016, by Statement on Auditing Standards No. 131. Revised, February 2017, to better reflect the AICPA Council Resolution designating the PCAOB to promulgate technical standards.]

**Comparative Financial Statements and Comparative Information**

.45 Comparative financial statements may be required by the applicable financial reporting framework, or management may elect to provide such information. When comparative financial statements are presented, the auditor's report should refer to each period for which financial statements are presented

and on which an audit opinion is expressed. (Ref: par. .A48–.A49) [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**.46** When expressing an opinion on all periods presented, a continuing auditor should update the report on the financial statements of one or more prior periods presented on a comparative basis with those of the current period. The auditor's report on comparative financial statements should not be dated earlier than the date on which the auditor has obtained sufficient appropriate audit evidence on which to support the opinion for the most recent audit. (Ref: par. .A50–.A51) [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**.47** If comparative information is presented but not covered by the auditor's opinion, the auditor should clearly indicate in the auditor's report the character of the auditor's work, if any, and the degree of responsibility the auditor is taking. (Ref: par. .A52–.A53) [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**.48** If comparative information is presented and the entity requests the auditor to express an opinion on all periods presented, the auditor should consider whether the information included for the prior period(s) contains sufficient detail to constitute a fair presentation in accordance with the applicable financial reporting framework. (Ref: par. .A54) [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

### **Audit Procedures**

**.49** The auditor should perform the procedures required by paragraphs .50–.52 if comparative financial statements or comparative information is presented for the prior period(s). [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**.50** The auditor should determine whether the comparative financial statements or comparative information has been presented in accordance with the relevant requirements, if any, of the applicable financial reporting framework. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**.51** The auditor should evaluate whether

- a. the comparative financial statements or comparative information agree with the amounts and other disclosures presented in the prior period or, when appropriate, has been restated for the correction of a material misstatement or adjusted for the retrospective application of an accounting principle, and
- b. the accounting policies reflected in the comparative financial statements or comparative information are consistent with those applied in the current period or if there have been changes in accounting policies, whether those changes have been properly accounted for and adequately presented and disclosed.<sup>8</sup>

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**.52** If the auditor becomes aware of a possible material misstatement in the comparative financial statements or comparative information while performing the current period audit, the auditor should perform such additional

---

<sup>8</sup> See section 708, *Consistency of Financial Statements*.

audit procedures as are necessary in the circumstances to obtain sufficient appropriate audit evidence to determine whether a material misstatement exists. If the auditor audited the prior period's financial statements and becomes aware of a material misstatement in those financial statements, the auditor should also follow the relevant requirements of section 560, *Subsequent Events and Subsequently Discovered Facts*. If the prior period financial statements are restated, the auditor should determine that the comparative financial statements or comparative information agree with the restated financial statements. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**.53** As required by section 580, *Written Representations*, the auditor should request written representations for all periods referred to in the auditor's opinion. The auditor also should obtain a specific written representation regarding any restatement made to correct a material misstatement in a prior period that affects the comparative financial statements. (Ref: par. .A55) [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**.54** When reporting on prior period financial statements in connection with the current period's audit, if the auditor's opinion on such prior period financial statements differs from the opinion the auditor previously expressed, the auditor should disclose the following matters in an emphasis-of-matter or other-matter paragraph, in accordance with section 706:

- a. The date of the auditor's previous report
- b. The type of opinion previously expressed
- c. The substantive reasons for the different opinion
- d. That the auditor's opinion on the amended financial statements is different from the auditor's previous opinion (Ref: par. .A56)

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

### ***Prior Period Financial Statements Audited by a Predecessor Auditor***

**.55** If the financial statements of the prior period were audited by a predecessor auditor, and the predecessor auditor's report on the prior period's financial statements is not reissued,<sup>9</sup> in addition to expressing an opinion on the current period's financial statements, the auditor should state the following in an other-matter paragraph:<sup>10</sup>

- a. That the financial statements of the prior period were audited by a predecessor auditor
- b. The type of opinion expressed by the predecessor auditor and, if the opinion was modified, the reasons therefore
- c. The nature of an emphasis-of-matter paragraph or other-matter paragraph included in the predecessor auditor's report, if any
- d. The date of that report

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**.56** If the auditor concludes that a material misstatement exists that affects the prior period financial statements on which the predecessor auditor had

---

<sup>9</sup> Paragraphs .19–.20 of section 560, *Subsequent Events and Subsequently Discovered Facts*.

<sup>10</sup> See section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

previously reported without modification, the auditor should follow the communication requirements in section 510.<sup>11</sup> If the prior period financial statements are restated, and the predecessor auditor agrees to issue a new auditor's report on the restated financial statements of the prior period, the auditor should express an opinion only on the current period. (Ref: par. .A57) [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

### ***Prior Period Financial Statements Not Audited***

.57 When current period financial statements are audited and presented in comparative form with compiled or reviewed financial statements for the prior period, and the report on the prior period is not reissued, the auditor should include an other-matter paragraph<sup>12</sup> in the current period auditor's report that includes the following:

- a. The service performed in the prior period
- b. The date of the report on that service
- c. A description of any material modifications noted in that report
- d. A statement that the service was less in scope than an audit and does not provide the basis for the expression of an opinion on the financial statements (Ref: par. .A58–.A59)

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

.58 If the prior period financial statements were not audited, reviewed, or compiled, the financial statements should be clearly marked to indicate their status, and the auditor's report should include an other-matter paragraph to indicate that the auditor has not audited, reviewed, or compiled the prior period financial statements and that the auditor assumes no responsibility for them. (Ref: par. .A60) [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

### **Information Presented in the Financial Statements (Ref: par. .A61–.A62)**

.59 Information that is not required by the applicable financial reporting framework but is nevertheless presented as part of the basic financial statements should be covered by the auditor's opinion if it cannot be clearly differentiated. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

## **Application and Other Explanatory Material**

### **Scope of This Section (Ref: par. .04)**

.A1 Section 800 also addresses the auditor's responsibilities when the auditor is reporting on financial statements prepared in accordance with a special purpose framework and is required by law or regulation to use a specific layout, form, or wording of the auditor's report. When reporting on financial statements prepared in accordance with a general purpose framework, and law or

---

<sup>11</sup> Paragraphs .12–.13 of section 510, *Opening Balances—Initial Audit Engagements, Including Reaudit Engagements*.

<sup>12</sup> See section 706.

regulation requires a specific layout, form, or wording of the auditor's report, the auditor may adapt and apply the requirements in section 800.

## Objectives

### ***Considerations Specific to Governmental Entities (Ref: par. .10)***

**.A2** For audits of governmental entities, the objectives of a financial statement audit are often broader than forming and expressing an opinion on the financial statements. Law, regulation, and *Government Auditing Standards* require that the auditor satisfy additional objectives. These additional objectives include audit and reporting responsibilities, for example, relating to reporting instances of noncompliance with applicable laws and regulations or reporting material weaknesses and significant deficiencies in internal control noted during the audit. Such reporting on compliance and internal control is an integral part of a *Government Auditing Standards* audit.

## Definitions

### ***General Purpose Financial Statements***

#### *Considerations Specific to Governmental Entities (Ref: par. .11)*

**.A3** For audits of governmental entities, the term *general purpose financial statements*, in the context of this section, would be considered or referred to as basic financial statements using the terms in the governmental entity's applicable financial reporting framework.

## Forming an Opinion on the Financial Statements (Ref: par. .14)

### ***Considerations Specific to Governmental Entities***

**.A4** For most state or local governmental entities, the applicable financial reporting framework is based on multiple reporting units and, therefore, requires the presentation of financial statements for its activities in various reporting units. Consequently, a reporting unit, or aggregation of reporting units, of the governmental entity represents an opinion unit to the auditor. In the context of this section, the auditor is responsible for forming an opinion on the financial statements for each opinion unit within a governmental entity.

### ***Qualitative Aspects of the Entity's Accounting Practices (Ref: par. .15)***

**.A5** Management makes a number of judgments about the amounts and disclosures in the financial statements.

**.A6** Section 260, *The Auditor's Communication With Those Charged With Governance*, contains a discussion of the qualitative aspects of accounting practices.<sup>13</sup> In considering the qualitative aspects of the entity's accounting practices, the auditor may become aware of possible bias in management's judgments. The auditor may conclude that the cumulative effect of a lack of neutrality, together with the effect of uncorrected misstatements, causes the financial statements as a whole to be materially misstated. Indicators of a lack of neutrality that may affect the auditor's evaluation of whether the financial statements as a whole are materially misstated include the following:

---

<sup>13</sup> The appendix, "Qualitative Aspects of Accounting Practices," of section 260, *The Auditor's Communication With Those Charged With Governance*.

- The selective correction of misstatements brought to management's attention during the audit (for example, correcting misstatements with the effect of increasing reported earnings but not correcting misstatements that have the effect of decreasing reported earnings)
- Possible management bias in the making of accounting estimates

**.A7** Section 540, *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*, addresses possible management bias in making accounting estimates. Indicators of possible management bias, themselves, do not constitute misstatements for purposes of drawing conclusions on the reasonableness of individual accounting estimates. They may, however, affect the auditor's evaluation of whether the financial statements as a whole are free from material misstatement.

### ***Disclosure of the Effect of Material Transactions and Events on the Information Conveyed in the Financial Statements (Ref: par. .16e)***

**.A8** It is common for financial statements prepared in accordance with a general purpose framework to present an entity's financial position, results of operations, and cash flows. In such circumstances, paragraph .16e requires the auditor to evaluate whether the financial statements provide adequate disclosures to enable the intended users to understand the effect of material transactions and events on the entity's financial position, results of operations, and cash flows.

### ***Evaluation of Whether the Financial Statements Achieve Fair Presentation (Ref: par. .17b)***

**.A9** As described in section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*, a *financial reporting framework* is a set of criteria used to determine measurement, recognition, presentation, and disclosure of all material items appearing in the financial statements. The auditor's professional judgment concerning the fairness of the presentation of the financial statements is applied within the context of the financial reporting framework. Without that framework, the auditor would have no consistent standard for evaluating the presentation of financial position, results of operations, and cash flows in financial statements.

### ***Description of the Applicable Financial Reporting Framework (Ref: par. .18)***

**.A10** As explained in section 200, the preparation and fair presentation of the financial statements by management and, when appropriate, those charged with governance requires the inclusion of an adequate description of the applicable financial reporting framework in the financial statements.<sup>14</sup> That description is important because it advises users of the financial statements of the framework on which the financial statements are based.

**.A11** A description that the financial statements are prepared in accordance with a particular applicable financial reporting framework is appropriate only if the financial statements comply with all the requirements of that framework that are effective during the period covered by the financial statements.

---

<sup>14</sup> Paragraphs .A2--A3 of section 200.

**.A12** A description of the applicable financial reporting framework that contains imprecise qualifying or limiting language (for example, "the financial statements are in substantial compliance with International Financial Reporting Standards") is not an adequate description of that framework because it may mislead users of the financial statements.

**.A13** Financial statements that are prepared in accordance with one financial reporting framework and that contain a note or supplementary statement reconciling the results to those that would be shown under another framework are not prepared in accordance with that other framework. This is because the financial statements do not include all the information in the manner required by that other framework. The financial statements may, however, be prepared in accordance with one applicable financial reporting framework and, in addition, describe in the notes to the financial statements the extent to which the financial statements comply with another framework. Such information may not be required by the applicable financial reporting framework but may be presented as part of the basic financial statements. As discussed in paragraph .59, such information is considered an integral part of the financial statements if it cannot be clearly differentiated and, accordingly, is covered by the auditor's opinion.

## **Form of Opinion (Ref: par. .21)**

**.A14** There may be cases when the financial statements, although prepared in accordance with the requirements of a fair presentation framework, do not achieve fair presentation. When this is the case, it may be possible for management to include additional disclosures in the financial statements beyond those specifically required by the framework or, in unusual circumstances, to depart from a requirement in the framework in order to achieve fair presentation of the financial statements, which would be extremely rare.

**.A15** The "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct states the following:

A member shall not (1) express an opinion or state affirmatively that the financial statements or other financial data of any entity are presented in conformity with generally accepted accounting principles or (2) state that he or she is not aware of any material modifications that should be made to such statements or data in order for them to be in conformity with generally accepted accounting principles, if such statements or data contain any departure from an accounting principle promulgated by bodies designated by Council to establish such principles that has a material effect on the statements or data taken as a whole. If, however, the statements or data contain such a departure and the member can demonstrate that due to unusual circumstances the financial statements or data would otherwise have been misleading, the member can comply with the rule by describing the departure, its approximate effects, if practicable, and the reasons why compliance with the principle would result in a misleading statement.

[Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

## **Auditor's Report (Ref: par. .22)**

**.A16** A written report encompasses reports issued in hard copy format and those using an electronic medium.

**.A17** The exhibit "Illustrations of Auditor's Reports on Financial Statements" contains illustrations of auditor's reports on financial statements incorporating the elements required by paragraphs .23–.41.

### **Auditor's Report for Audits Conducted in Accordance With GAAS**

*Title (Ref: par. .23)*

**.A18** A title indicating the report is the report of an independent auditor (for example, "Independent Auditor's Report") affirms that the auditor has met all of the relevant ethical requirements regarding independence and, therefore, distinguishes the independent auditor's report from reports issued by others. Section 200 provides guidance on reporting when the auditor is not independent.

*Addressee (Ref: par. .24)*

**.A19** The auditor's report is normally addressed to those for whom the report is prepared. The report may be addressed to the entity whose financial statements are being audited or to those charged with governance. A report on the financial statements of an unincorporated entity may be addressed as circumstances dictate (for example, to the partners, general partner, or proprietor). Occasionally, an auditor may be retained to audit the financial statements of an entity that is not a client; in such a case, the report may be addressed to the client and not to those charged with governance of the entity whose financial statements are being audited.

*Introductory Paragraph (Ref: par. .25)*

**.A20** The introductory paragraph states, for example, that the auditor has "audited the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements." If the financial statements include a separate statement of changes in stockholders' equity accounts or a separate statement of comprehensive income, paragraph .25c requires such statements to be identified in the introductory paragraph of the report as a statement to which the financial statements are comprised, but they need not be reported on separately in the opinion paragraph because changes in stockholders' equity accounts and comprehensive income are considered part of the presentation of financial position, results of operations, and cash flows.

**.A21** When the auditor is aware that the audited financial statements will be included in a document that contains other information, such as an annual report, the auditor may consider, if the form of presentation allows, identifying the page numbers on which the audited financial statements are presented. This helps users identify the financial statements to which the auditor's report relates.

**.A22** The auditor's opinion covers the complete set of financial statements, as defined by the applicable financial reporting framework. For example, in the case of many general purpose frameworks, the financial statements include a balance sheet; an income statement; a statement of changes in equity; and a cash flow statement, including related notes. In some circumstances, additional or different statements, schedules, or information also might be considered to be an integral part of the financial statements.

**.A23** The identification of the title for each statement that the financial statements comprise may be achieved by referencing the table of contents.

*Management's Responsibility for the Financial Statements (Ref: par. .27–.28)*

**.A24** Section 200 explains the premise relating to the responsibilities of management and, when appropriate, those charged with governance on which an audit in accordance with GAAS is conducted.<sup>15</sup> Management and, when appropriate, those charged with governance accept responsibility for the preparation of the financial statements in accordance with the applicable financial reporting framework, including their fair presentation. Management also accepts responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. The description of management's responsibilities in the auditor's report includes reference to both responsibilities because it helps explain to users the premise on which an audit is conducted.

**.A25** In some instances, a document containing the auditor's report may include a separate statement by management regarding its responsibility for the preparation of the financial statements. Any elaboration in the auditor's report about management's responsibilities regarding the preparation of the financial statements, or reference to a separate statement by management about such responsibilities if one is included in a document containing the auditor's report, may lead users to erroneously believe that the auditor is providing assurances about representations made by management about their responsibility for financial reporting, internal control, and other matters that might be discussed in the management report.

*Auditor's Responsibility (Ref: par. .30–.31)*

**.A26** The auditor's report states that the auditor's responsibility is to express an opinion on the financial statements based on the audit in order to contrast it to management's responsibility for the preparation of the financial statements.

**.A27** The reference to the standards used conveys to the users of the auditor's report that the audit has been conducted in accordance with established standards. For example, the auditor's report may refer to auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards.

**.A28** In accordance with section 200, the auditor does not represent compliance with GAAS in the auditor's report, unless the auditor has complied with the requirements of section 200 and all other AU-C sections relevant to the audit.<sup>16</sup>

*Auditor's Opinion (Ref: par. .35)*

**.A29** *Description of information that the financial statements present.* The auditor's opinion states that the financial statements present fairly, in all material respects, the information that the financial statements are designed to present.

**.A30** The title of the financial statements identified in the introductory paragraph of the auditor's report (see paragraph .25) describes the information that is the subject of the auditor's opinion.

**.A31** *Description of the applicable financial reporting framework and how it may affect the auditor's opinion (Ref: par. .36).* The identification of the applicable financial reporting framework in the auditor's opinion is intended to advise users of the auditor's report of the context in which the auditor's

---

<sup>15</sup> Paragraphs .05 and .A2 of section 200.

<sup>16</sup> Paragraph .22 of section 200.

opinion is expressed; it is not intended to limit the evaluation required in paragraph .17. For example, the applicable financial reporting framework may be identified as accounting principles generally accepted in the United States of America or U.S. generally accepted accounting principles or International Financial Reporting Standards promulgated by the International Accounting Standards Board (IASB) or *International Financial Reporting Standard for Small and Medium-Sized Entities* promulgated by the IASB.

*Other Reporting Responsibilities (Ref: par. .37-.38)*

**.A32** In some circumstances, the auditor may have additional responsibilities to report on other matters that are supplementary to the auditor's responsibility under GAAS to report on the financial statements. The form and content of the "Other Reporting Responsibilities" section of the auditor's report described in paragraph .37 will vary depending on the nature of the auditor's other reporting responsibilities. For example, for audits conducted under *Government Auditing Standards*, the auditor may be required to report on internal control over financial reporting and compliance with laws, regulations, and provisions of contracts or grant agreements, which may be included in the "Other Reporting Responsibilities" section of the auditor's report.<sup>17</sup> However, when the auditor is engaged or required by law or regulation to perform a compliance audit in accordance with GAAS, *Government Auditing Standards*, and a governmental audit requirement, reporting requirements in section 935, *Compliance Audits*, apply.

**.A33** In some cases, the relevant law or regulation may require or permit the auditor to report on these other responsibilities within the auditor's report on the financial statements. In other cases, the auditor may be required or permitted to report on them in a separate report.

**.A34** These other reporting responsibilities are addressed in a separate section of the auditor's report in order to clearly distinguish them from the auditor's responsibility under GAAS to report on the financial statements. When relevant, this section may contain subheading(s) that describe(s) the content of the other reporting responsibility paragraph(s).

*Signature of the Auditor (Ref: par. .39)*

**.A35** In certain situations, the auditor's report may be required by law or regulation to include the personal name and signature of the auditor, in addition to the auditor's firm. In addition to the auditor's signature, in certain circumstances, the auditor may be required to declare in the auditor's report the auditor's professional accountancy designation or the fact that the auditor or firm, as appropriate, has been recognized by the appropriate licensing authority.

**.A36** *Considerations specific to governmental entities.* This section would not preclude a governmental auditor from including the personal name and signature of the auditor in the auditor's report when, in certain situations, the governmental auditor is required by law or regulation or chooses to do so.

*Auditor's Address (Ref: par. .40)*

**.A37** In the United States, the location of the issuing office is the city and state. In another country, it may be the city and country.

*Date of the Auditor's Report (Ref: par. .41)*

---

<sup>17</sup> See the AICPA Audit and Accounting Guide *State and Local Governments* for illustrative auditor reports.

**.A38** The date of the auditor's report informs the user of the auditor's report that the auditor has considered the effect of events and transactions of which the auditor became aware and that occurred up to that date. The auditor's responsibility for events and transactions after the date of the auditor's report is addressed in section 560.

**.A39** Section 220, *Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*, requires that on or before the date of the auditor's report, the engagement partner, through a review of the audit documentation and discussion with the engagement team, be satisfied that sufficient appropriate audit evidence has been obtained to support the conclusions reached and for the auditor's report to be issued.<sup>18</sup> Section 220 also requires that the auditor's report not be released prior to the completion of the engagement quality control review.<sup>19</sup>

**.A40** Because the auditor's opinion is provided on the financial statements, and the financial statements are the responsibility of management, the auditor is not in a position to conclude that sufficient appropriate audit evidence has been obtained until evidence is obtained that all the statements that the financial statements comprise, including the related notes, have been prepared, and management has accepted responsibility for them.

**.A41** *Considerations specific to governmental entities.* In some circumstances, final approval of the financial statements by governmental legislative bodies (or subsets of such legislative bodies) is required before the financial statements are issued. In these circumstances, final approval by such legislative bodies (or subsets of such legislative bodies) is not necessary for the auditor to conclude that sufficient appropriate audit evidence has been obtained. The date of approval of the financial statements, for purposes of GAAS, is the earlier date on which those with the recognized authority determine that all the statements that the financial statements comprise, including the related notes, have been prepared and that those with the recognized authority have asserted that they have taken responsibility for them.

### ***Auditor's Report for Audits Conducted in Accordance With Both GAAS and Another Set of Auditing Standards (Ref: par. .42)***

**.A42** If the audit is performed in accordance with both GAAS and ISAs, the auditor may find it helpful to refer to AU-C appendix B, "Substantive Differences Between the International Standards on Auditing and Generally Accepted Auditing Standards." This appendix summarizes substantive differences between the ISAs and GAAS to assist the auditor in planning and performing an engagement in accordance with ISAs.

## **Comparative Financial Statements and Comparative Information**

### ***Auditor's Report for Audits Conducted in Accordance With the Standards of the PCAOB and GAAS When the Audit Is Not Within the Jurisdiction of the PCAOB (Ref: par. .44)***

**.A43** Auditors of financial statements of entities whose audits are within the jurisdiction of the PCAOB as defined by the Act, as amended, are required to be registered with, and subject to inspection by, the PCAOB. In such circumstances, the AICPA Code of Professional Conduct requires AICPA members to

---

<sup>18</sup> See paragraphs .19 and .A17 of section 220, *Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*, for further discussion.

<sup>19</sup> Paragraph .21 of section 220.

conduct the audit in accordance with the standards of the PCAOB, and the audit is not required to also be conducted in accordance with GAAS.<sup>20</sup> [Paragraph added, effective for audits of financial statements for periods ending on or after June 15, 2016, by Statement on Auditing Standards No. 131. Revised, February 2017, to better reflect the AICPA Council Resolution designating the PCAOB to promulgate technical standards.]

**.A44** When the auditor follows the standards of the PCAOB regarding the form of the auditor's report, PCAOB reporting requirements for specific circumstances, such as reporting on an integrated audit or supplementary information, may also be applicable. [Paragraph added, effective for audits of financial statements for periods ending on or after June 15, 2016, by SAS No. 131.]

**.A45** The form of the auditor's report required by the standards of the PCAOB states that the audit was conducted in accordance with "the standards of the Public Company Accounting Oversight Board (United States)." A reference to "the standards" of the PCAOB indicates that the auditor has complied not only with the PCAOB's auditing standards, but also with the related professional practice standards of the PCAOB, including its independence rules; whereas a reference to "the auditing standards of the Public Company Accounting Oversight Board (United States)" is limited to compliance with the auditing standards of the PCAOB. The auditor of financial statements of an entity whose audits are not within the jurisdiction of the PCAOB as defined by the Act, as amended, may, nevertheless, be responsible for complying with the independence and other related professional practice standards of the PCAOB if, for example, the engagement is subject to regulatory oversight that requires compliance with those rules. Whether the auditor conducts an audit of financial statements in accordance with the standards of the PCAOB or the auditing standards of the PCAOB depends on the circumstances of the engagement.<sup>21</sup> [Paragraph added, effective for audits of financial statements for periods ending on or after June 15, 2016, by Statement on Auditing Standards No. 131. Revised, February 2017, to better reflect the AICPA Council Resolution designating the PCAOB to promulgate technical standards.]

**.A46** Examples of situations in which an auditor may be engaged to conduct an audit in accordance with the standards (or auditing standards) of the PCAOB for an entity whose audit is not within the jurisdiction of the PCAOB as defined by the Act, as amended, include audits for clearing agencies and futures commission merchants registered with the U.S. Commodities Futures Trading Commission (CFTC), as well as other entities registered with the CFTC; audits of financial statements included in certain securities offering documents pursuant to Regulation A of the Securities Act of 1933; and circumstances in which a nonissuer company desires, or is required by contractual agreement, to obtain an audit of its financial statements in accordance with the standards of the PCAOB. [Paragraph added, effective for audits of financial statements for periods ending on or after June 15, 2016, by Statement on Auditing Standards No. 131. Revised, February 2017, to better reflect the AICPA Council Resolution designating the PCAOB to promulgate technical standards.]

---

<sup>20</sup> See the "Compliance With Standards Rule" (ET sec. 1.310.001), and appendix A, "Council Resolution Designating Bodies to Promulgate Technical Standards" (ET app. A). [Footnote added, effective for audits of financial statements for periods ending on or after June 15, 2016, by Statement on Auditing Standards No. 131.]

<sup>21</sup> See Staff Question and Answer, *Audits of Financial Statements of Non-Issuers Performed Pursuant to the Standards of the Public Company Accounting Oversight Board* (AICPA, *PCAOB Standards and Related Rules*, PCAOB Staff Guidance, sec. 100.01), dated June 30, 2004. [Footnote added, effective for audits of financial statements for periods ending on or after June 15, 2016, by SAS No. 131.]

**.A47** The exhibit, "Illustrations of Auditor's Reports on Financial Statements," contains an example of an auditor's report for the situation described in paragraph .44. [Paragraph added, effective for audits of financial statements for periods ending on or after June 15, 2016, by Statement on Auditing Standards No. 131.]

### ***Comparative Financial Statements (Ref: par. .45-.46)***

**.A48** The level of information included for the prior periods in comparative financial statements is comparable with that of the financial statements of the current period. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**.A49** Because the auditor's report on comparative financial statements applies to the financial statements for each of the periods presented, the auditor may express a qualified opinion or an adverse opinion, disclaim an opinion, or include an emphasis-of-matter paragraph with respect to one or more financial statements for one or more periods while expressing a different auditor's opinion on one or more financial statements of another period presented. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

### ***Updating the Report***

**.A50** An updated report on prior period financial statements is distinguished from a reissuance of a previous report.<sup>22</sup> When issuing an updated report, the information considered by the continuing auditor is that which the auditor has become aware of during the audit of the current period financial statements. In addition, an updated report is issued in conjunction with the auditor's report on the current period financial statements. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

### ***Other Considerations Relating to Comparative Financial Statements***

**.A51** If one firm of independent auditors merges with another firm, and the new firm becomes the auditor of a former client of one of the two former firms, the new firm may accept responsibility and express an opinion on the financial statements for the prior period(s), as well as for those of the current period. In such circumstances, paragraphs .45-.58 apply. The new firm may indicate in the auditor's report or as part of the signature that a merger took place and may name the firm of independent auditors that was merged with it. If the new firm decides not to express an opinion on the prior period financial statements, the guidance for the reissuance of reports in section 560 would apply. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

### ***Comparative Information (Ref: par. .47-.48)***

**.A52** Comparative information, which may be condensed financial statements or prior period summarized financial information, is not considered comparative financial statements because it is not a complete set of financial statements. For example, entities such as state and local governmental units frequently present total-all-funds information for the prior periods rather than information by individual funds because of space limitations or to avoid cumbersome or confusing formats. Also, not-for-profit organizations frequently present certain summarized financial information for the prior period(s) in total rather

---

<sup>22</sup> See section 560. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

than by net asset class. Accordingly, the auditor need not opine on comparative information in accordance with this section. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**.A53** Paragraph .47 requires the auditor to clearly indicate the character of the auditor's work, if any, and the degree of responsibility the auditor is taking in the auditor's report when comparative information is presented but not covered by the auditor's opinion on the financial statements of the current period. The requirements and guidance in section 930, *Interim Financial Information*, may be adapted to report on condensed financial statements or prior period summarized financial information that is derived from audited financial statements and is presented comparatively with the complete set of financial statements of the current period.<sup>23, 24</sup> The exhibit provides examples of auditor's reports when comparative summarized financial information for the prior period is presented.<sup>25</sup> [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**.A54** If an entity requests the auditor to express an opinion on all periods presented, and comparative information is presented for one or more prior periods, in most cases, this will necessitate including additional columns or separate detail by fund or net asset class, or the auditor may need to modify the auditor's opinion, as required by section 705. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

### **Written Representations (Ref: par. .53)**

**.A55** In the case of comparative financial statements, the written representations are requested for all periods referred to in the auditor's opinion because management needs to reaffirm that the written representations it previously made with respect to the prior period remain appropriate. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

### **Opinion on Prior Period Financial Statements Different From Previous Opinion (Ref: par. .54)**

**.A56** When reporting on the prior period financial statements in connection with the current period's audit, the opinion expressed on the prior period financial statements may be different from the opinion previously expressed if the auditor becomes aware of circumstances or events that materially affect the financial statements of a prior period during the course of the audit of the current period. In some circumstances, the auditor may have additional reporting responsibilities designed to prevent future reliance on the auditor's previously issued report on the prior period financial statements.<sup>26</sup> [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

---

<sup>23</sup> Paragraph .33 of section 930, *Interim Financial Information*. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

<sup>24</sup> See the AICPA Audit and Accounting Guides *State and Local Governments* and *Not-for-Profit Entities* for further guidance on reporting on summarized comparative financial information. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

<sup>25</sup> Illustration 4, "An Auditor's Report on a Single Year Prepared in Accordance with Accounting Principles Generally Accepted in the United States of America When Comparative Summarized Financial Information for the Prior Year is Presented," of the exhibit, "Illustrations of Auditor's Reports on Financial Statements." [Footnote renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

<sup>26</sup> See section 560. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**Prior Period Financial Statements Audited by a Predecessor Auditor  
(Ref: par. .56)**

**.A57** The predecessor auditor may be unable or unwilling to reissue the auditor's report on the prior period financial statements that have been restated. In this situation, provided that the auditor has audited the adjustments to the prior period financial statements, the auditor may include an other-matter paragraph<sup>27</sup> in the auditor's report indicating that the predecessor auditor reported on the financial statements of the prior period before restatement. In addition, if the auditor is engaged to audit and obtains sufficient appropriate audit evidence to be satisfied about the appropriateness of the restatement, the auditor's report may also include the following paragraph within the other-matter paragraph section:

As part of our audit of the 20X2 financial statements, we also audited the adjustments described in Note X that were applied to restate the 20X1 financial statements. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review, or apply any procedures to the 20X1 financial statements of the Company other than with respect to the adjustments and, accordingly, we do not express an opinion or any other form of assurance on the 20X1 financial statements as a whole.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**Prior Period Financial Statements Not Audited (Ref: par. .57–.58)**

**.A58** If the prior period financial statements were reviewed, the following is an example of an other-matter paragraph:

*Other Matter*

The 20X1 financial statements were reviewed by us (other accountants) and our (their) report thereon, dated March 1, 20X2, stated we (they) were not aware of any material modifications that should be made to those statements for them to be in conformity with accounting principles generally accepted in the United States of America. However, a review is substantially less in scope than an audit and does not provide a basis for the expression of an opinion on the financial statements.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**.A59** If the prior period financial statements were compiled, the following is an example of an other-matter paragraph:

*Other Matter*

The 20X1 financial statements were compiled by us (other accountants) and our (their) report thereon, dated March 1, 20X2, stated we (they) did not audit or review those financial statements and, accordingly, express no opinion or other form of assurance on them.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**.A60** If the prior period financial statements were not audited, reviewed, or compiled, the following is an example of an other-matter paragraph:

---

<sup>27</sup> See section 706. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

*Other Matter*

The accompanying balance sheet of X Company as of December 31, 20X1, and the related statements of income and cash flows for the year then ended were not audited, reviewed, or compiled by us and, accordingly, we do not express an opinion or any other form of assurance on them.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**Information Presented in the Financial Statements (Ref: par. .59)**

**.A61** In some circumstances, the entity may be required by law, regulation, or standards, or may voluntarily choose, to include in the basic financial statements information that is not required by the applicable financial reporting framework. The auditor's opinion covers information that cannot be clearly differentiated from the financial statements because of its nature and how it is presented. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

**.A62** If the information included in the basic financial statements is not required by the applicable financial reporting framework and is not necessary for fair presentation but is clearly differentiated, then such information may be identified as *unaudited* or as *not covered by the auditor's report*. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016.]

## Illustration 1—An Auditor's Report on Consolidated Comparative Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Circumstances include the following:

- Audit of a complete set of general purpose consolidated financial statements (comparative).
- The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

### Independent Auditor's Report

[Appropriate Addressee]

#### **Report on the Financial Statements<sup>1</sup>**

We have audited the accompanying consolidated financial statements of ABC Company and its subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X1 and 20X0, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.<sup>2</sup> Accordingly, we

---

<sup>1</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

<sup>2</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the consolidated financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Opinion***

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of ABC Company and its subsidiaries as of December 31, 20X1 and 20X0, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

## **Illustration 4—An Auditor’s Report on a Single Year Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America When Comparative Summarized Financial Information Derived From Audited Financial Statements for the Prior Year Is Presented**

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year).
- Prior year summarized comparative financial information derived from audited financial statements is presented.
- The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

### **Independent Auditor's Report**

[Appropriate Addressee]

#### **Report on the Financial Statements<sup>1</sup>**

We have audited the accompanying financial statements of XYZ Not-for-Profit Organization, which comprise the statement of financial position as of September 30, 20X1, and the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements.

#### ***Management’s Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor’s Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the organization's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization's internal control.<sup>2</sup> Accordingly, we express no such

(continued)

opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of XYZ Not-for-Profit Organization as of September 30, 20X1, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Report on Summarized Comparative Information***

We have previously audited the XYZ Not-for-Profit Organization's 20X0 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated December 15, 20X0. In our opinion, the summarized comparative information presented herein as of and for the year ended September 30, 20X0 is consistent, in all material respects, with the audited financial statements from which it has been derived.

***Report on Other Legal and Regulatory Requirements***

*(footnote continued)*

relevant to the organization's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

## **Illustration 5—An Auditor’s Report on a Single Year Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America When Comparative Summarized Financial Information Derived From Unaudited Financial Statements for the Prior Year Is Presented**

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year).
- Prior year summarized comparative financial information derived from unaudited financial statements is presented.
- The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

### **Independent Auditor's Report**

[Appropriate Addressee]

#### **Report on the Financial Statements<sup>1</sup>**

We have audited the accompanying financial statements of XYZ Not-for-Profit Organization, which comprise the statement of financial position as of September 30, 20X1, and the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements.

#### ***Management’s Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor’s Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the organization's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization's internal control.<sup>2</sup> Accordingly, we express no such

---

<sup>1</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

<sup>2</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control

(continued)

opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of XYZ Not-for-Profit Organization as of September 30, 20X1, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Report on Summarized Comparative Information***

The summarized comparative information presented herein as of and for the year ended September 30, 20X0, derived from those unaudited financial statements, has not been audited, reviewed, or compiled and, accordingly, we express no opinion on it.

### **Report on Other Legal and Regulatory Requirements**

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

*(footnote continued)*

relevant to the organization's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

## **Illustration 6—An Auditor's Report on Consolidated Comparative Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America When the Audit Has Been Conducted in Accordance With Both Auditing Standards Generally Accepted in the United States of America and the Auditing Standards of the Public Company Accounting Oversight Board**

Circumstances include the following:

- Audit of a complete set of general-purpose consolidated financial statements (comparative) of an entity whose audit is not within the jurisdiction of the PCAOB as defined by the Sarbanes-Oxley Act of 2002, as amended.
- The auditor has not been engaged to perform an audit of internal control over financial reporting that is integrated with an audit of the financial statements.
- The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.
- The financial statements are audited in accordance with the auditing standards of the PCAOB and also auditing standards generally accepted in the United States of America (GAAS).
- The auditor refers to the auditing standards of the PCAOB in addition to GAAS in the auditor's report.

### **Independent Auditor's Report<sup>1</sup>**

*[Appropriate Addressee]*

We have audited the accompanying consolidated balance sheets of X Company and subsidiaries as of December 31, 20X2 and 20X1, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the auditing<sup>2</sup> standards of the Public Company Accounting Oversight Board (United States) and in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall

---

<sup>1</sup> A firm registered with the PCAOB may use the title "Report of Independent Registered Public Accounting Firm." [Footnote added, effective for audits of financial statements for periods ending on or after June 15, 2016, by Statement on Auditing Standards No. 131.]

<sup>2</sup> When the audit is also conducted in accordance with the other professional practice standards of the PCAOB, omit the word "auditing." [Footnote added, effective for audits of financial statements for periods ending on or after June 15, 2016, by Statement on Auditing Standards No. 131.]

financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.<sup>3</sup>

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of X Company and subsidiaries as of December 31, 20X2 and 20X1, and the results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

[City, State]

[Date]

[As amended, effective for audits of financial statements for periods ending on or after June 15, 2016, by Statement on Auditing Standards No. 131. Paragraph renumbered by the issuance of Statement on Auditing Standards No. 131, January 2016. Revised, February 2017, to better reflect the AICPA Council Resolution designating the PCAOB to promulgate technical standards.]

---

<sup>3</sup> The last three sentences of this paragraph may be replaced with the following optional language to clarify that the audit performed did not require the level of testing and reporting on internal control over financial reporting required in an integrated audit.

The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

[Footnote added, effective for audits of financial statements for periods ending on or after June 15, 2016, by Statement on Auditing Standards No. 131.]

## AU-C Section 9700

# ***Forming an Opinion and Reporting on Financial Statements: Auditing Interpretations of Section 700***

### **1. Reporting on Financial Statements Prepared on a Liquidation Basis of Accounting**

**.01 Question**—An entity prepares its financial statements using the liquidation basis of accounting in accordance with Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 205, *Presentation of Financial Statements*, because the entity is either in liquidation or liquidation is imminent. Is the auditor permitted to issue an unmodified opinion on such financial statements?

**.02 Interpretation**—Yes. A liquidation basis of accounting is considered generally accepted accounting principles (GAAP) for entities in liquidation or for which liquidation is imminent. Therefore, the auditor is permitted to issue an unmodified opinion on such financial statements, provided that the liquidation basis of accounting has been properly applied and that adequate disclosures are made in the financial statements in accordance with FASB ASC 205-30.

**.03** Typically, the financial statements of entities using the liquidation basis of accounting are presented along with financial statements of a period prior to adoption of a liquidation basis that were prepared on the going concern basis in accordance with GAAP. Section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*, requires the auditor to include an emphasis-of-matter paragraph when a matter that is appropriately presented or disclosed in the financial statements is of such importance, in the auditor's professional judgment, that it is fundamental to users' understanding of the financial statements. If the auditor determines an emphasis-of-matter paragraph is appropriate, the emphasis-of-matter paragraph would state that the entity has changed the basis of accounting used to determine the amounts at which assets and liabilities are carried from the going concern basis to a liquidation basis.

**.04** Two examples of auditor's reports with such an emphasis-of-matter paragraph follow.

#### **Example 1**

##### **Report on Single-Year Financial Statements in Year of Adoption of Liquidation Basis**

We have audited the accompanying financial statements of XYZ Company, which comprise the statement of net assets in liquidation as of December 31, 20X2, the related statement of changes in net assets in liquidation for the period from April 26, 20X2 to December 31, 20X2, and the statements of income, changes in stockholders' equity, and cash flows for the period from January 1, 20X2 to April 25, 20X2, and the related notes to the financial statements.

***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.<sup>1</sup> Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets in liquidation of XYZ Company as of December 31, 20X2, the changes in its net assets in liquidation for the period from April 26, 20X2 to December 31, 20X2, and the results of its operations and its cash flows for the period from January 1, 20X2 to April 25, 20X2, in accordance with accounting principles generally accepted in the United States of America.

***Emphasis of Matter***

As discussed in Note X to the financial statements, the stockholders of XYZ Company approved a plan of liquidation on April 25, 20X2, and the Company determined liquidation is imminent. As a result, the Company changed its basis of accounting on April 25, 20X2 from the going concern basis to a liquidation basis. Our opinion is not modified with respect to this matter.

**Example 2****Report on Comparative Financial Statements in Year of Adoption of Liquidation Basis**

We have audited the accompanying financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X1, the related statements of income, changes in stockholders' equity, and cash flows for the

---

<sup>1</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

year then ended, the statements of income, changes in stockholders' equity, and cash flows for the period from January 1, 20X2 to April 25, 20X2, the statement of net assets in liquidation as of December 31, 20X2, the related statement of changes in net assets in liquidation for the period from April 26, 20X2 to December 31, 20X2, and the related notes to the financial statements.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.<sup>2</sup> Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of XYZ Company as of December 31, 20X1, the results of its operations and its cash flows for the year then ended and for the period from January 1, 20X2 to April 25, 20X2, its net assets in liquidation as of December 31, 20X2, and the changes in its net assets in liquidation for the period from April 26, 20X2 to December 31, 20X2, in accordance with accounting principles generally accepted in the United States of America.

### ***Emphasis of Matter***

As discussed in Note X to the financial statements, the stockholders of XYZ Company approved a plan of liquidation on April 25, 20X2, and the Company determined liquidation is imminent. As a result, the Company changed its basis

---

<sup>2</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

of accounting on April 25, 20X2 from the going concern basis to a liquidation basis. Our opinion is not modified with respect to this matter.

**.05** The auditor may, in subsequent years, continue to include an emphasis-of-matter paragraph in the auditor's report to emphasize that the financial statements are presented on a liquidation basis of accounting.

[Issue Date: December 1984; Revised: June 1993; Revised: February 1997; Revised: October 2000; Revised: June 2009; Revised: October 2011, effective for audits of financial statements for periods ending on or after December 15, 2012; Revised: May 2014; Revised: September 2014.]

## 2. Sustainability Financial Statements Under Federal Financial Accounting Standards—Auditor Reporting

**.06 Question**—The Federal Accounting Standards Advisory Board issued Statement of Federal Financial Accounting Standards (SFFAS) No. 36, *Reporting Comprehensive Long-Term Fiscal Projections for the U.S. Government*. SFFAS No. 36, as amended, requires that the statement of long-term fiscal projections be presented in the consolidated financial report of the U.S. government as a basic financial statement starting in fiscal year 2015. The focus of this standard is on forward-looking information intended to aid users in assessing whether future resources will likely be sufficient to sustain public services and to meet obligations as they come due. The statement of long-term fiscal projections presents the actuarial present value of the U.S. government's estimated future income to be received and future expenditures to be paid. The statement of long-term fiscal projections includes information drawn from the current statement of social insurance (SFFAS No. 17, *Accounting for Social Insurance*, as amended, a basic statement since fiscal year 2006) and statement of changes in social insurance amounts (SFFAS No. 37, *Social Insurance: Additional Requirements for Management's Discussion and Analysis and Basic Financial Statements*, a basic statement since fiscal year 2011). Collectively, the statement of long-term fiscal projections, the statement of social insurance, and the statement of changes in social insurance amounts are referred to herein as sustainability financial statements. May an auditor report on these basic financial statements in accordance with auditing standards generally accepted in the United States of America (GAAS)? If so, how would an auditor report on these statements?

**.07 Interpretation**—Yes, consistent with Statement of Position 04-1, *Auditing the Statement of Social Insurance* (AUD sec. 35), an auditor may report on the basic financial statements, which include the statements of social insurance, changes in social insurance amounts, and long-term fiscal projections, in accordance with GAAS. Section 700, *Forming an Opinion and Reporting on Financial Statements*, provides requirements and guidance on forming an opinion on the basic financial statements. An illustration of an auditor's report containing an unmodified opinion on the U.S. government-wide financial statements follows<sup>3</sup> (footnotes are provided for necessary adjustments when reporting on component financial statements containing sustainability financial statements):

---

<sup>3</sup> The sustainability financial statements do not articulate with the consolidated financial statements. For that reason, the opinion on the sustainability financial statements ordinarily will not affect the opinion on the consolidated financial statements. For example, the opinion on the sustainability financial statements may be modified, whereas the opinion on the consolidated financial statements may be unmodified.

### **Independent Auditor's Report**

[Appropriate Addressee]

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of *the U.S. government*,<sup>4</sup> which comprise the consolidated financial statements and the sustainability financial statements. The consolidated financial statements comprise the *consolidated balance sheets as of September 30, 20XX and 20YY, and the related consolidated statements of net cost, of operations and changes in net position, reconciliations of net operating cost and unified budget deficit, and changes in cash balance from unified budget and other activities*<sup>5</sup> for the years then ended, and the related notes to the consolidated financial statements.

The sustainability financial statements comprise the statements of social insurance as of [dates—*five years presented*], the statements of changes in social insurance amounts for the periods [dates—*two periods presented*], and the statements of long-term fiscal projections as of September 30, 20XX and 20YY, and the related notes to the sustainability financial statements.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Office of Management and Budget (OMB) Bulletin No. 15-02, *Audit Requirements for Federal Financial Statements*.<sup>6</sup> Those standards and OMB Bulletin No. 15-02 require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the

---

<sup>4</sup> Italicized text would be applicable only to reports on the consolidated financial statements of the U.S. government. Where appropriate, alternative text applicable to reports on component entity financial statements are provided in other footnotes.

<sup>5</sup> For reports on component entity financial statements, the financial statements would be tailored to the financial statements presented, for example "...the balance sheets as of September 30, 20XX and 20YY and the related statements of net cost, (and) changes in net position, (and custodial activity), and combined statements of budgetary resources..."

<sup>6</sup> Update the Office of Management and Budget bulletin number as applicable.

reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions on the Financial Statements***

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, *the financial position of the U.S. government as of September 30, 20XX and 20YY, and its net costs, operations, and changes in net position; reconciliations of net operating cost and unified budget deficit, and changes in cash balance from unified budget and other activities*<sup>7</sup> for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Also, in our opinion, the sustainability financial statements referred to above present fairly, in all material respects, the *U.S. government's* social insurance information as of [dates—five years presented], its changes in social insurance amounts for the periods [dates—two periods presented], and *the long-term fiscal projections as of September 30, 20XX and 20YY*, in accordance with accounting principles generally accepted in the United States of America.

### ***Emphasis of Matter***

As discussed in Note X to the financial statements, the sustainability financial statements are based on management's assumptions. These sustainability financial statements present the actuarial present value of the U.S. government's estimated future income to be received and future expenditures to be paid using a projection period sufficient to illustrate long-term sustainability. The sustainability financial statements are intended to aid users in assessing whether future resources will likely be sufficient to sustain public services and to meet obligations as they come due. The statements of social insurance and changes in social insurance amounts are based on income and benefit formulas in current law and assume that scheduled benefits will continue after any related trust funds are exhausted. *The statements of long-term fiscal projections are based on the continuation of current policy.* The sustainability financial statements are not forecasts or predictions. The sustainability financial statements are not intended to imply that current policy or law is sustainable. In preparing the sustainability financial statements, management considers and selects assumptions and data that it believes provide a reasonable basis to illustrate whether current policy or law is sustainable. Assumptions underlying such sustainability information do not consider changes in policy or all potential future events that could affect future income, future expenditures, and sustainability, for example, implementation of policy changes to avoid trust fund exhaustion or *unsustainable debt levels*. Because of the large number of factors that affect the sustainability financial statements and the fact that future events and circumstances cannot be estimated with certainty, even if current policy is continued, there will be differences between the estimates in the sustainability financial statements and the actual results, and those differences may be material. Our opinion is not modified with respect to this matter.

---

<sup>7</sup> For reports on component entity financial statements, this language would be tailored to the financial statements presented, for example "...the financial position of [name of entity] as of September 30, 20XX and 20YY, and its net costs, changes in net position, (and) and budgetary resources, (and custodial activity)...."

**Other Matters***Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the information in the Management's Discussion and Analysis, Required Supplementary Information, and Required Supplemental Stewardship Information sections (collectively referred to as *RSI*) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Federal Accounting Standards Advisory Board, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the RSI in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Other Information*

Our audits were conducted for the purpose of forming an opinion on the basic financial statements as a whole. The [*identify the other information, such as tax burden*] is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audits of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on it.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated [*date of report*] on our consideration of the *U.S. government's* internal control over financial reporting and our report dated [*report date*] on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of those reports is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. Those reports are an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the *U.S. government's* internal control over financial reporting and compliance.

[Issue Date: October 2015.]

### New and Revised IAASB Auditor Reporting Standards

In January 2015, the International Auditing and Assurance Standards Board (IAASB) issued new and revised International Standards on Auditing (ISA) relating to reporting on audited financial statements (hereinafter referred to as the *new and revised ISAs*). In April 2015, the IAASB issued ISA 720 (Revised), *The Auditor's Responsibilities Relating to Other Information*, which contained conforming amendments to certain of the reporting ISAs. The following is a list of the significant new and revised ISAs relating to reporting on a complete set of general purpose financial statements.

- ISA 700 (Revised), *Forming an Opinion and Reporting on Financial Statements*
- **New** ISA 701, *Communicating Key Audit Matters in the Independent Auditor's Report*
- ISA 705 (Revised), *Modifications to the Opinion in the Independent Auditor's Report*
- ISA 706 (Revised), *Emphasis of Matter Paragraphs and Other Matter Paragraphs in the Independent Auditor's Report*
- ISA 720 (Revised), *The Auditor's Responsibilities Relating to Other Information*
- ISA 570 (Revised), *Going Concern*

The new and revised standards are effective for audits of financial statements for periods ending on or after December 15, 2016.

The following is a brief summary of the key changes in the auditor reporting requirements under the new and revised ISAs. AU-C appendix B, *Substantive Differences Between the International Standards on Auditing and Generally Accepted Auditing Standards*, will be updated to reflect the issuance of the new and revised ISAs after their effective date.

#### **For all audits of financial statements:**

- a. Requires use of a specific form of report, unless law or regulation of a local jurisdiction prescribe otherwise
- b. Requires the "Basis for Opinion" section of the auditor's report to include an affirmative statement about the auditor's independence and fulfillment of relevant ethical responsibilities, with disclosure of the origin of those requirements
- c. Expands the description of the responsibilities of management, including when those responsible for the oversight of the financial reporting process differ from those responsible for the preparation of the financial statements
- d. Expands the description of the responsibilities of the auditor and key features of an audit with the provision that certain components of this description may be presented in an appendix to the auditor's report or referenced to a website of an appropriate authority when law or regulation or auditing standards of a specific jurisdiction (national auditing standards) expressly permit such reference
- e. Requires a description of the respective responsibilities of management and the auditor related to going concern
- f. Requires, when applicable, a section that addresses the reporting requirements in ISA 720 (Revised)

**For audits of financial statements of listed entities (voluntary for other than listed entities):**

- a. Requires key audit matters (KAM) to be communicated for audits of complete sets of general purpose financial statements. When KAM are communicated on a voluntary basis in audits of other than listed entities, ISA 701 should be followed.
- b. Requires the name of the engagement partner to be included in the auditor's report, unless, in rare circumstances, such disclosure is reasonably expected to lead to a significant personal security threat.

Interpretation No. 3, "Reporting on Audits Conducted in Accordance With Auditing Standards Generally Accepted in the United States of America and International Standards on Auditing" (paragraphs .08–.13), addresses how the auditor might report when the audit is conducted in accordance with GAAS and the ISAs, and the new and revised ISAs have been adopted.

### 3. Reporting on Audits Conducted in Accordance With Auditing Standards Generally Accepted in the United States of America and International Standards on Auditing

**.08 Question**—Section 700 requires the auditor's report to state that the audit was conducted in accordance with GAAS and identifies the United States of America as the country of origin of those standards.<sup>8</sup> They also state that an auditor may indicate that the audit was also conducted in accordance with another set of auditing standards (for example, ISAs, the standards of the PCAOB, or *Government Auditing Standards*). The auditor should not refer to having conducted an audit in accordance with another set of auditing standards in addition to GAAS unless the audit was conducted in accordance with both sets of standards in their entirety.<sup>9</sup> In accordance with section 700, when the auditor's report refers to GAAS and another set of auditing standards, the auditor's report should identify the other set of auditing standards as well as their origin.<sup>10</sup> In January 2015, the IAASB released new and revised standards related to auditor reporting. The new and revised ISAs include several revisions to the layout and wording of the auditor's report. Accordingly, what are the implications for the auditor's report when reporting on an audit conducted in accordance with both GAAS and the new and revised ISAs when the auditor intends to refer to both sets of standards?

**.09 Interpretation**—When the auditor has conducted an audit in accordance with both GAAS and the new and revised ISAs in their entirety, the auditor may refer to both sets of standards in the auditor's report, provided the auditor complies with the requirements of those standards.

**.10** In accordance with paragraph 51 of ISA 700 (Revised), the auditor's report may refer to the ISAs in addition to the national auditing standards, but the auditor should do so only if

- a. there is no conflict between the requirements in the national auditing standards and those in the ISAs that would lead the auditor (i) to form a different opinion, or (ii) not to include an

<sup>8</sup> Paragraph .42 of section 700, *Forming an Opinion and Reporting on Financial Statements*.

<sup>9</sup> See footnote 8.

<sup>10</sup> Paragraph .43 of section 700.

emphasis-of-matter paragraph or other-matter paragraph that, in the particular circumstances, is required by the ISAs; and

- b. the auditor's report includes, at a minimum, each of the elements set out in paragraph 50(a)–(o) of ISA 700 (Revised) when the auditor uses the layout or wording specified by the national auditing standards. However, reference to "law or regulation" in paragraph 50(k) of ISA 700 (Revised) should be read as reference to the national auditing standards. The auditor's report should thereby identify such national auditing standards.

.11 Accordingly, paragraph 50 of ISA 700 (Revised) allows the auditor to use the layout or wording of the national auditing standards, provided that (1) there are no conflicts between the requirements in GAAS and the ISAs that would lead to a different conclusion with respect to the opinion, and (2) it addresses, and is not inconsistent with, certain of the required minimum reporting elements in ISA 700 (Revised). The minimum elements exclude certain ISA 700 (Revised) requirements, such as placing the opinion paragraph first in the report.

.12 The following list summarizes the minimum elements set out in paragraph 50 of ISA 700 (Revised) that are required to be included in the auditor's report, if applicable, when reporting in accordance with GAAS and the ISA (*emphasis added* to highlight those elements that allow flexibility in meeting the required elements). The following reporting examples illustrate how an auditor might include these elements in a GAAS form of report:

- a. A title.
- b. An addressee, as required by the circumstances of the engagement.
- c. An "Opinion" section containing an expression of opinion on the financial statements and a reference to the applicable financial reporting framework used to prepare the financial statements (including identifying the jurisdiction of origin of the financial reporting framework that is not International Financial Reporting Standards or International Public Sector Accounting Standards).
- d. An identification of the entity's financial statements that have been audited.
- e. A statement that the auditor is independent of the entity in accordance with the relevant ethical requirements relating to the audit and has fulfilled the auditor's other ethical responsibilities in accordance with these requirements. The statement should identify the jurisdiction of origin of the relevant ethical requirements or refer to the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* (IESBA Code).
- f. When applicable, a section that addresses, and is not inconsistent with, the reporting requirements in paragraph 22 of ISA 570 (Revised)
- g. When applicable, a "Basis for Qualified (or "Adverse") Opinion" section that addresses, and is not inconsistent with, the reporting requirements in paragraph 23 of ISA 570 (Revised).
- h. When applicable, a section that includes the information required by ISA 701, or additional information about the audit that is

prescribed by law or regulation and that *addresses, and is not inconsistent with*, the reporting requirements in that ISA.<sup>11</sup>

- i. When applicable, a section that addresses the reporting requirements in paragraph 24 of ISA 720 (Revised).
- j. A description of management's responsibilities for the preparation of the financial statements and an identification of those responsible for the oversight of the financial reporting process that *addresses, and is not inconsistent with*, the requirements in paragraphs 33–36 of ISA 700 (Revised).
- k. A reference to the ISAs and the law or regulation, and a description of the auditor's responsibilities for an audit of the financial statements that *addresses, and is not inconsistent with*, the requirements in paragraphs 37–40 of ISA 700 (Revised).
- l. For audits of complete sets of general purpose financial statements of listed entities, the name of the engagement partner unless, in rare circumstances, such disclosure is reasonably expected to lead to a significant personal security threat.
- m. The auditor's signature.
- n. The auditor's address.
- o. The date of the auditor's report.

.13 The following are two examples of auditor's reports on consolidated comparative financial statements when the audits are conducted in accordance with GAAS and the new and revised ISAs, and the auditor is referencing both standards in the report.

### **Example 3—Auditor's Report in Accordance With GAAS and ISAs When the Financial Statements Are Prepared in Accordance With International Financial Reporting Standards as Issued by the International Accounting Standards Board**

Circumstances include the following:

- Audit of a complete set of general purpose consolidated financial statements (comparative) of a nonissuer. The audit is a group audit of an entity with subsidiaries. (ISA 600 and section 600, *Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)* apply.)
- The consolidated financial statements are prepared by management in accordance with International Financial Reporting Standards (IFRSs), as issued by the International Accounting Standards Board.
- The auditor has concluded that an unmodified opinion is appropriate based on the audit evidence obtained, and no emphasis-of-matter or other-matter paragraphs are included.
- The relevant ethical requirements that apply to the audit comprise AICPA's ethical requirements and the IESBA Code.

---

<sup>11</sup> See paragraphs 11–16 of ISA 701, *Communicating Key Audit Matters in the Independent Auditor's Report*.

- Based on the audit evidence obtained, the auditor has concluded that a material uncertainty does not exist related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern.

**Note:** If the auditor were to have concluded that a material uncertainty exists and adequate disclosure about the material uncertainty is made in the financial statements, then the auditor would be required to include a separate section under the heading "Material Uncertainty Related to Going Concern" in accordance with paragraph 22 of ISA 570 (Revised). When reporting in accordance with GAAS and the ISAs, this may be achieved by adding an emphasis-of-matter paragraph to the auditor's report with such a heading and appropriate content.

- KAM are not required to be communicated and have not been communicated as permitted by ISA 701.

**Note:** When key audit matters are included in the auditor's report, a section that includes the information required by ISA 701 would need to be added to the auditor's report. This may be achieved by placing the information under the heading "Key Audit Matters" in a location that, in the auditor's judgment, is appropriate. In addition, information would be added to the auditor's responsibilities section relating to KAM, in accordance with paragraph 40(c) of ISA 700 (Revised).

- Those responsible for the oversight of the financial reporting process differ from those responsible for the preparation of the financial statements.
- No other information has been obtained as of the date of the auditor's report and, therefore, ISA 720 (Revised) does not apply.

**Note:** When other information has been obtained prior to the date of the auditor's report, a section that reports in accordance with the reporting requirements in ISA 720 (Revised) would need to be added to the auditor's report. This may be achieved by adding an other-matter paragraph to the auditor's report with an appropriate heading and content.

### **Independent Auditor's Report**

*[Appropriate Addressee]*

#### **Report on the Financial Statements**<sup>12</sup>

We have audited the accompanying consolidated financial statements of ABC Company and its subsidiaries (the Group), which comprise the consolidated statements of financial position as of December 31, 20X1 and 20X0, and the related consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended, and the related notes to the financial statements.

We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the United States of America, together with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants*, and we have fulfilled our other ethical responsibilities in accordance with these requirements, respectively.

---

<sup>12</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle "Report on Other Legal and Regulatory Requirements" is not applicable.

***Responsibilities of Management and Those Charged With Governance for the Consolidated Financial Statements***

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless management either intends to liquidate the Group or to cease operations or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

***Auditor's Responsibility***

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement, whether due to fraud or error. Reasonable assurance is a high level of assurance but is not a guarantee that an audit will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. We design audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error because fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation, structure, and content of the consolidated financial statements, including disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

As part of an audit, we exercise professional judgment and maintain professional skepticism throughout the audit. We also

- conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision, and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies or material weaknesses in internal control that we identify during our audit.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the accompanying consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of ABC Company and its subsidiaries as of December 31, 20X1 and 20X0, and the consolidated financial performance and their consolidated cash flows for the years then ended in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board.

### **Report on Other Legal and Regulatory Requirements**

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

## **Example 4—Auditor's Report in Accordance With GAAS and ISAs When the Financial Statements Are Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America**

Circumstances include the following:

- Audit of a complete set of general purpose consolidated financial statements (comparative) of a nonissuer. The audit is a group audit of an entity with subsidiaries. (ISA 600 and section 600 apply.)
- The consolidated financial statements are prepared by management in accordance with GAAP.

- The auditor has concluded an unmodified opinion is appropriate based on the audit evidence obtained, and no emphasis-of-matter or other-matter paragraphs are included.
- The relevant ethical requirements that apply to the audit comprise AICPA's ethical requirements and the IESBA Code.
- FASB ASC 205-40 has not been adopted.

**Note:** If FASB ASC 205-40 has been adopted, then management is expressly required to evaluate whether there are conditions or events in the aggregate that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued (or available to be issued). Accordingly, the information under "Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements" that addresses management's responsibilities for assessing the use of the going concern basis of accounting would be revised to reflect the requirements in FASB ASC 205-40. The following is an example of such a paragraph.

*In preparing the consolidated financial statements, management is responsible for evaluating whether there are conditions and events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued, or available to be issued, and disclosing, as applicable, matters related to this evaluation unless the liquidation basis of accounting is being used by the entity.*

- Based on the audit evidence obtained, the auditor has concluded that there is no substantial doubt about the entity's ability to continue as a going concern. [*The information contained in this illustration relating to going concern is not inconsistent with the requirements in ISA 570 (Revised) and has been presented to align with the accounting framework, in this case, GAAP.*]

**Note:** If, after considering identified conditions or events and management's plans, the auditor were to have concluded that there is substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time and adequate disclosure with respect to the entity's ability to continue as a going concern is made in the financial statements, then the auditor would be required to include a separate section in the auditor's report. When reporting in accordance with GAAS and the ISAs, this may be achieved by adding an emphasis-of-matter paragraph to the auditor's report with an appropriate heading and appropriate content.

If adequate disclosure about the entity's ability to continue as a going concern for a reasonable period of time is not made in the financial statements, the auditor would modify the opinion on the financial statements, as appropriate.

- KAM are not required to be communicated and have not been communicated as permitted by ISA 701.

**Note:** When key audit matters are included in the auditor's report, a section that includes the information required by ISA 701 would need to be added to the auditor's report. This may be achieved by placing the information under the heading "Key Audit Matters" in a location that, in the auditor's judgment, is appropriate. In addition, information would be added to the auditor's responsibilities

section relating to KAM, in accordance with paragraph 40(c) of ISA 700 (Revised).

- Those responsible for the oversight of the financial reporting process differ from those responsible for the preparation of the financial statements.
- No other information has been obtained as of the date of the auditor's report and, therefore, ISA 720 (Revised) does not apply.

**Note:** When other information has been obtained prior to the date of the auditor's report, a section that reports in accordance with the reporting requirements in ISA 720 (Revised) would need to be added to the auditor's report. This may be achieved by adding an other-matter paragraph to the auditor's report with an appropriate heading and content.

### **Independent Auditor's Report**

[Appropriate Addressee]

#### **Report on the Financial Statements**<sup>13</sup>

We have audited the accompanying consolidated financial statements of ABC Company and its subsidiaries (the Group), which comprise the consolidated balance sheets as of December 31, 20X1 and 20X0, and the related consolidated statements of income, changes in stockholders' equity and cash flows for the years then ended, and the related notes to the financial statements.

We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the United States of America together with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* and we have fulfilled our other ethical responsibilities in accordance with these requirements, respectively.

#### ***Responsibilities of Management and Those Charged With Governance for the Consolidated Financial Statements***

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error. This also includes assessing that the consolidated financial statements are prepared using the appropriate basis of accounting.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement, whether due to fraud or error. Reasonable assurance is a high level of assurance but is not

---

<sup>13</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle "Report on Other Legal and Regulatory Requirements" is not applicable.

a guarantee that an audit will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. We design audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error because fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation, structure, and content of the consolidated financial statements, including disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

As part of an audit, we exercise professional judgment and maintain professional skepticism throughout the audit. We also

- conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether substantial doubt exists related to the Group's ability to continue as a going concern. If we conclude that substantial doubt exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision, and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies or material weaknesses in internal control that we identify during our audit.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the accompanying consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of ABC Company and its subsidiaries as of December 31, 20X1 and 20X0, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**Report on Other Legal and Regulatory Requirements**

## AU-C Section 705

# *Modifications to the Opinion in the Independent Auditor's Report*

Source: SAS No. 122; SAS No. 123.

Effective for audits of financial statements for periods ending on or after December 15, 2012.

### Introduction

#### Scope of This Section

.01 This section addresses the auditor's responsibility to issue an appropriate report in circumstances when, in forming an opinion in accordance with section 700, *Forming an Opinion and Reporting on Financial Statements*, the auditor concludes that a modification to the auditor's opinion on the financial statements is necessary.

#### Types of Modified Opinions

.02 This section establishes three types of modified opinions: namely, a qualified opinion, an adverse opinion, and a disclaimer of opinion. The decision regarding which type of modified opinion is appropriate depends upon the following: (Ref: par. .A1)

- a. The nature of the matter giving rise to the modification (that is, whether the financial statements are materially misstated or, in the case of an inability to obtain sufficient appropriate audit evidence, may be materially misstated)
- b. The auditor's professional judgment about the pervasiveness of the effects or possible effects of the matter on the financial statements

.03 Section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*, addresses situations when the auditor considers it necessary, or is required, to include additional communications in the auditor's report that are not modifications to the auditor's opinion.

#### Effective Date

.04 This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

#### Objective

.05 The objective of the auditor is to express clearly an appropriately modified opinion on the financial statements that is necessary when

- a. the auditor concludes, based on the audit evidence obtained, that the financial statements as a whole are materially misstated or

- b. the auditor is unable to obtain sufficient appropriate audit evidence to conclude that the financial statements as a whole are free from material misstatement.

## Definitions

.06 For purposes of generally accepted auditing standards, the following terms have the meanings attributed as follows:

**Modified opinion.** A qualified opinion, an adverse opinion, or a disclaimer of opinion.

**Pervasive.** A term used in the context of misstatements to describe the effects on the financial statements of misstatements or the possible effects on the financial statements of misstatements, if any, that are undetected due to an inability to obtain sufficient appropriate audit evidence. Pervasive effects on the financial statements are those that, in the auditor's professional judgment

- are not confined to specific elements, accounts, or items of the financial statements;
- if so confined, represent or could represent a substantial proportion of the financial statements; or
- with regard to disclosures, are fundamental to users' understanding of the financial statements.

## Requirements

### Circumstances When a Modification to the Auditor's Opinion Is Required

.07 The auditor should modify the opinion in the auditor's report when

- a. the auditor concludes that, based on the audit evidence obtained, the financial statements as a whole are materially misstated or (Ref: par. .A2–.A7)
- b. the auditor is unable to obtain sufficient appropriate audit evidence to conclude that the financial statements as a whole are free from material misstatement. (Ref: par. .A8–.A12)

### Determining the Type of Modification to the Auditor's Opinion

#### Qualified Opinion

.08 The auditor should express a qualified opinion when

- a. the auditor, having obtained sufficient appropriate audit evidence, concludes that misstatements, individually or in the aggregate, are material but not pervasive to the financial statements or
- b. the auditor is unable to obtain sufficient appropriate audit evidence on which to base the opinion, but the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be material but not pervasive.

**Adverse Opinion**

.09 The auditor should express an adverse opinion when the auditor, having obtained sufficient appropriate audit evidence, concludes that misstatements, individually or in the aggregate, are both material and pervasive to the financial statements.

**Disclaimer of Opinion**

.10 The auditor should disclaim an opinion when the auditor is unable to obtain sufficient appropriate audit evidence on which to base the opinion, and the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be both material and pervasive. (Ref: par. .A13–.A14)

**Consequence of an Inability to Obtain Sufficient Appropriate Audit Evidence Due to a Management-Imposed Limitation After the Auditor Has Accepted the Engagement**

.11 If, after accepting the engagement, the auditor becomes aware that management has imposed a limitation on the scope of the audit that the auditor considers likely to result in the need to express a qualified opinion or to disclaim an opinion on the financial statements, the auditor should request that management remove the limitation.

.12 If management refuses to remove the limitation referred to in paragraph .11, the auditor should communicate the matter to those charged with governance, unless all of those charged with governance are involved in managing the entity,<sup>1</sup> and determine whether it is possible to perform alternative procedures to obtain sufficient appropriate audit evidence.

.13 If the auditor is unable to obtain sufficient appropriate audit evidence due to a management-imposed limitation, and the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be both material and pervasive, the auditor should either disclaim an opinion on the financial statements or, when practicable, withdraw from the audit.

.14 If the auditor withdraws, as contemplated by paragraph .13, before withdrawing, the auditor should communicate to those charged with governance any matters regarding misstatements identified during the audit that would have given rise to a modification of the opinion. (Ref: par. .A15–.A16)

**Other Considerations Relating to an Adverse Opinion or Disclaimer of Opinion**

.15 When the auditor considers it necessary to express an adverse opinion or disclaim an opinion on the financial statements as a whole, the auditor's report should not also include an unmodified opinion with respect to the same financial reporting framework on a single financial statement or one or more specific elements, accounts, or items of a financial statement.<sup>2</sup> To include such an unmodified opinion in the same report in these circumstances would contradict the auditor's adverse opinion or disclaimer of opinion on the financial statements as a whole. (Ref: par. .A17–.A18)

---

<sup>1</sup> Paragraph .09 of section 260, *The Auditor's Communication With Those Charged With Governance*.

<sup>2</sup> Paragraph .21 of section 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*.

### ***Auditor Is Not Independent but Is Required by Law or Regulation to Report on the Financial Statements***

**.16** When the auditor is not independent but is required by law or regulation to report on the financial statements, the auditor should disclaim an opinion and should specifically state that the auditor is not independent. The auditor is neither required to provide, nor precluded from providing, the reasons for the lack of independence; however, if the auditor chooses to provide the reasons for the lack of independence, the auditor should include all the reasons therefor. (Ref: par. .A19)

### **Form and Content of the Auditor's Report When the Opinion Is Modified**

#### ***Basis for Modification Paragraph***

**.17** When the auditor modifies the opinion on the financial statements, the auditor should, in addition to the specific elements required by section 700, include a paragraph in the auditor's report that provides a description of the matter giving rise to the modification. The auditor should place this paragraph immediately before the opinion paragraph in the auditor's report and use a heading that includes "Basis for Qualified Opinion," "Basis for Adverse Opinion," or "Basis for Disclaimer of Opinion," as appropriate. (Ref: par. .A20)

**.18** If there is a material misstatement of the financial statements that relates to specific amounts in the financial statements (including quantitative disclosures), the auditor should include in the basis for modification paragraph a description and quantification of the financial effects of the misstatement, unless impracticable. If it is not practicable to quantify the financial effects, the auditor should so state in the basis for modification paragraph. (Ref: par. .A21–.A23)

**.19** If there is a material misstatement of the financial statements that relates to narrative disclosures, the auditor should include in the basis for modification paragraph an explanation of how the disclosures are misstated.

**.20** If there is a material misstatement of the financial statements that relates to the omission of information required to be presented or disclosed, the auditor should

- a. discuss the omission of such information with those charged with governance;
- b. describe in the basis for modification paragraph the nature of the omitted information; and
- c. include the omitted information, provided that it is practicable to do so and the auditor has obtained sufficient appropriate audit evidence about the omitted information. (Ref: par. .A24–.A25)

**.21** If the modification results from an inability to obtain sufficient appropriate audit evidence, the auditor should include in the basis for modification paragraph the reasons for that inability. (Ref: par. .A26)

**.22** Even if the auditor has expressed an adverse opinion or disclaimed an opinion on the financial statements, the auditor should

- a. describe in the basis for modification paragraph any other matters of which the auditor is aware that would have required a modification to the opinion and the effects thereof and (Ref: par. .A27)

- b. consider the need to describe in an emphasis-of-matter or other-matter paragraph(s)<sup>3</sup> any other matters of which the auditor is aware that would have resulted in additional communications in the auditor's report on the financial statements that are not modifications of the auditor's opinion.

### **Opinion Paragraph**

**.23** When the auditor modifies the audit opinion, the auditor should use a heading that includes "Qualified Opinion," "Adverse Opinion," or "Disclaimer of Opinion," as appropriate, for the opinion paragraph. (Ref: par. .A28)

**.24** When the auditor expresses a qualified opinion due to a material misstatement in the financial statements, the auditor should state in the opinion paragraph that, in the auditor's opinion, except for the effects of the matter(s) described in the basis for qualified opinion paragraph, the financial statements are presented fairly, in all material respects, in accordance with the applicable financial reporting framework. When the modification arises from an inability to obtain sufficient appropriate audit evidence, the auditor should use the corresponding phrase "except for the possible effects of the matter(s) . . ." for the modified opinion. (Ref: par. .A29–.A30)

**.25** When the auditor expresses an adverse opinion, the auditor should state in the opinion paragraph that, in the auditor's opinion, because of the significance of the matter(s) described in the basis for adverse opinion paragraph, the financial statements are not presented fairly in accordance with the applicable financial reporting framework.

**.26** When the auditor disclaims an opinion due to an inability to obtain sufficient appropriate audit evidence, the auditor should state in the opinion paragraph that

- a. because of the significance of the matter(s) described in the basis for disclaimer of opinion paragraph, the auditor has not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and
- b. accordingly, the auditor does not express an opinion on the financial statements.

### **Description of the Auditor's Responsibility When the Auditor Expresses a Qualified or an Adverse Opinion**

**.27** When the auditor expresses a qualified or an adverse opinion, the auditor should amend the description of the auditor's responsibility to state that the auditor believes that the audit evidence the auditor has obtained is sufficient and appropriate to provide a basis for the auditor's modified audit opinion.

### **Description of the Auditor's Responsibility When the Auditor Disclaims an Opinion**

**.28** When the auditor disclaims an opinion due to an inability to obtain sufficient appropriate audit evidence, the auditor should amend the introductory paragraph of the auditor's report to state that the auditor was engaged to audit the financial statements. The auditor should also amend the description of the auditor's responsibility and the description of the scope of the audit to

---

<sup>3</sup> See section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

state only the following: "Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter(s) described in the basis for disclaimer of opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion."

## Communication With Those Charged With Governance

.29 When the auditor expects to modify the opinion in the auditor's report, the auditor should communicate with those charged with governance the circumstances that led to the expected modification and the proposed wording of the modification. (Ref: par. .A31)

## Application and Other Explanatory Material

### Types of Modified Opinions (Ref: par. .02)

.A1 The following table illustrates how the auditor's professional judgment about the nature of the matter giving rise to the modification and the pervasiveness of its effects or possible effects on the financial statements affects the type of opinion to be expressed:

Nature of Matter Giving Rise to the Modification	Auditor's Professional Judgment About the Pervasiveness of the Effects or Possible Effects on the Financial Statements	
	Material but Not Pervasive	Material and Pervasive
Financial statements are materially misstated	Qualified opinion	Adverse opinion
Inability to obtain sufficient appropriate audit evidence	Qualified opinion	Disclaimer of opinion

## Circumstances When a Modification to the Auditor's Opinion Is Required

### Nature of Material Misstatements (Ref: par. .07a)

.A2 Section 700 requires the auditor, in order to form an opinion on the financial statements, to conclude whether reasonable assurance has been obtained about whether the financial statements as a whole are free from material misstatement.<sup>4</sup> This conclusion takes into account the auditor's evaluation of uncorrected misstatements, if any, on the financial statements, in accordance with section 450, *Evaluation of Misstatements Identified During the Audit*.

.A3 Section 450 defines a *misstatement* as a difference between the amount, classification, presentation, or disclosure of a reported financial statement item and the amount, classification, presentation, or disclosure that is required for the item to be presented fairly in accordance with the applicable

<sup>4</sup> Paragraph .14 of section 700, *Forming an Opinion and Reporting on Financial Statements*.

financial reporting framework. Accordingly, a material misstatement of the financial statements may arise in relation to the following:

- a. The appropriateness of the selected accounting policies
- b. The application of the selected accounting policies
- c. The appropriateness of the financial statement presentation or the appropriateness or adequacy of disclosures in the financial statements

*Appropriateness of the Selected Accounting Policies*

**.A4** With regard to the appropriateness of the accounting policies management has selected, material misstatements of the financial statements may arise when

- a. the selected accounting policies are not in accordance with the applicable financial reporting framework or
- b. the financial statements, including the related notes, do not represent the underlying transactions and events in a manner that achieves fair presentation.

**.A5** Financial reporting frameworks often contain requirements for the accounting for, and disclosure of, changes in accounting policies. When the entity has changed its selection of significant accounting policies, a material misstatement of the financial statements may arise when the entity has not complied with these requirements. If a change in accounting policy does not meet the conditions described in section 708, *Consistency of Financial Statements*, then a material misstatement of the financial statements may arise.

*Application of the Selected Accounting Policies*

**.A6** With regard to the application of the selected accounting policies, material misstatements of the financial statements may arise

- a. when management has not applied the selected accounting policies in accordance with the financial reporting framework, including when management has not applied the selected accounting policies consistently between periods or to similar transactions and events (consistency in application), or
- b. due to the method of application of the selected accounting policies (such as an unintentional error in application).

*Appropriateness of the Financial Statement Presentation or Appropriateness or Adequacy of Disclosures in the Financial Statements*

**.A7** With regard to the appropriateness of the financial statement presentation or the appropriateness or adequacy of disclosures in the financial statements, material misstatements of the financial statements may arise when

- a. the financial statements do not include all of the disclosures required by the applicable financial reporting framework;
- b. the disclosures in the financial statements are not presented in accordance with the applicable financial reporting framework;
- c. the financial statements do not provide the disclosures necessary to achieve fair presentation; or
- d. information required to be presented in accordance with the applicable financial reporting framework is omitted either because a required statement (for example, a statement of cash flows) has not been included or the information has not otherwise been disclosed in the financial statements.

### ***Nature of an Inability to Obtain Sufficient Appropriate Audit Evidence (Ref: par. .07b)***

**.A8** The auditor's inability to obtain sufficient appropriate audit evidence (also referred to as a limitation on the scope of the audit) may arise from the following:

- a. Circumstances beyond the control of the entity
- b. Circumstances relating to the nature or timing of the auditor's work
- c. Limitations imposed by management

**.A9** An inability to perform a specific procedure does not constitute a limitation on the scope of the audit if the auditor is able to obtain sufficient appropriate audit evidence by performing alternative procedures. If this is not possible, the requirement in paragraph .08b applies. Limitations imposed by management may have other implications for the audit, such as for the auditor's assessment of risks of material misstatement due to fraud and consideration of engagement continuance.

**.A10** Examples of circumstances beyond the control of the entity include the following:

- The entity's accounting records have been destroyed.
- The accounting records of a significant component have been seized indefinitely by governmental authorities.

**.A11** Examples of circumstances relating to the nature or timing of the auditor's work include the following:

- The entity is required to use the equity method of accounting for an associated entity, and the auditor is unable to obtain sufficient appropriate audit evidence about the latter's financial information to evaluate whether the equity method has been appropriately applied.
- The timing of the auditor's engagement is such that the auditor is unable to observe the counting of the physical inventories, and the auditor is unable to perform a rollback of the inventory or other appropriate procedures.
- The auditor determines that performing substantive procedures alone is not sufficient, but the entity's controls are not effective.
- When accounting for long-term investments, the auditor is unable to obtain audited financial statements of an investee.

**.A12** Examples of an inability to obtain sufficient appropriate audit evidence arising from a limitation on the scope of the audit imposed by management include the following:

- Management prevents the auditor from observing the counting of the physical inventory.
- Management prevents the auditor from requesting external confirmation of specific account balances.

## **Determining the Type of Modification to the Auditor's Opinion**

### ***Effect of Uncertainties (Ref: par. .10)***

**.A13** Conclusive audit evidence concerning the ultimate outcome of uncertainties cannot be expected to exist at the time of the audit because the outcome

and related audit evidence are prospective. In these circumstances, management is responsible for estimating the effect of future events on the financial statements or determining that a reasonable estimate cannot be made and making the required disclosures, all in accordance with the applicable financial reporting framework, based on management's analysis of existing conditions. An audit includes an assessment of whether the audit evidence is sufficient to support management's analysis. Absence of the existence of information related to the outcome of an uncertainty does not necessarily lead to a conclusion that the audit evidence supporting management's assertion is not sufficient. Rather, the auditor's professional judgment regarding the sufficiency of the audit evidence is based on the audit evidence that is, or should be, available. If, after considering the existing conditions and available evidence, the auditor concludes that sufficient appropriate audit evidence supports management's assertions about the nature of a matter involving an uncertainty and its presentation or disclosure in the financial statements, an unmodified opinion ordinarily is appropriate.

**.A14** In cases involving multiple uncertainties, the auditor may conclude that it is not possible to form an opinion on the financial statements as a whole due to the interaction and possible cumulative effects of the uncertainties.

***Consequence of an Inability to Obtain Sufficient Appropriate Audit Evidence Due to a Management-Imposed Limitation After the Auditor Has Accepted the Engagement (Ref: par. .14)***

**.A15** The practicality of withdrawing from the audit may depend on the stage of completion of the engagement at the time that management imposes the scope limitation. If the auditor has substantially completed the audit, the auditor may decide to complete the audit to the extent possible, disclaim an opinion, and explain the scope limitation in the basis for disclaimer of opinion paragraph.

**.A16** In certain circumstances, withdrawal from the audit may not be possible if the auditor is required by law or regulation to continue the audit engagement. This may be the case for an auditor who is appointed to audit the financial statements of governmental entities. It may also be the case in circumstances when the auditor is appointed to audit the financial statements covering a specific period, or appointed for a specific period, and is prohibited from withdrawing before the completion of the audit of those financial statements or before the end of that period, respectively. In these circumstances, the auditor may also consider it necessary to include an other-matter paragraph in the auditor's report.<sup>5</sup>

***Other Considerations Relating to a Disclaimer of Opinion (Ref: par. .15)***

**.A17** In an initial audit, it is acceptable for the auditor to express an unmodified opinion regarding the financial position and disclaim an opinion regarding the results of operations and cash flows, when relevant.<sup>6</sup> In this case, the auditor has not disclaimed an opinion on the financial statements as a whole.

---

<sup>5</sup> Paragraph .A6 of section 706.

<sup>6</sup> Paragraph .A17 of section 510, *Opening Balances—Initial Audit Engagements, Including Reaudit Engagements*.

*Considerations Specific to Audits of Governmental Entities*

**.A18** Because the auditor of a state and local government entity expresses an opinion or disclaims an opinion for each opinion unit,<sup>7</sup> an auditor's report in these circumstances may include an unmodified opinion with respect to one or more opinion units and a modified opinion for one or more other opinion units.

*Considerations Specific to Governmental Entities*

**.A19** The nature of a government auditor's lack of independence may have a limited effect because the impairment may result from the government auditor's association with only a component of the overall governmental entity. A government auditor may determine that the lack of independence only affects one or more, but not all, of the governmental entity's opinion units and, in such circumstances, the auditor may disclaim an opinion on the affected opinion units while expressing unmodified, qualified, or adverse opinions on other opinion units. The more significant the affected opinion units are to the overall governmental entity, the more likely that it will be appropriate for the auditor to disclaim an opinion on the financial statements of the overall governmental entity.

## Form and Content of the Auditor's Report When the Opinion Is Modified

### ***Basis for Modification Paragraph (Ref: par. .17–.18, .20c, and .21–.22)***

**.A20** Consistency in the auditor's report helps promote users' understanding and identify unusual circumstances when they occur. Accordingly, although uniformity in the wording of a modified opinion and the description of the basis for the modification may not be possible, consistency in both the form and content of the auditor's report is desirable.

**.A21** An example of the financial effects of material misstatements that the auditor may describe in the basis for modification paragraph in the auditor's report is the quantification of the effects on income before taxes, income taxes, net income, and equity if inventory is overstated. If such disclosures are made in a note to the financial statements, the basis for modification paragraph may be shortened by referring to it.

**.A22** Adequate disclosures relate to the form, arrangement, and content of the financial statements and their related notes, including, for example, the terminology used, the amount of detail given, the classification of items in the statements, and the bases of amounts set forth. An auditor considers the disclosure of a particular matter in light of the circumstances and facts of which the auditor is aware at the time.

**.A23** In considering the adequacy of disclosure, and in other aspects of the audit, the auditor uses information received in confidence from management. Without such confidence, the auditor would find it difficult to obtain information necessary to form an opinion on the financial statements. The "Confidential Client Information Rule" (ET sec. 1.700.001) of the AICPA Code of Professional Conduct states that the auditor should not disclose any confidential client information without the specific consent of the client. Accordingly, the auditor may not make available, without management's consent, information that is not required to be disclosed in the financial statements to comply with the applicable financial reporting framework. [Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

---

<sup>7</sup> Paragraph .A4 of section 700.

**.A24** *Practicable*, as used in the context of paragraphs .18 and .20c, means that the information is reasonably obtainable from management's accounts and records and that providing the information in the report does not require the auditor to assume the position of a preparer of financial information. For example, the auditor would not be expected to prepare a basic financial statement or segment information and include it in the auditor's report when management omits such information.

**.A25** Disclosing the omitted information in the basis for modification paragraph would not be practicable if

- a. the information has not been prepared by management or the information is otherwise not readily available to the auditor or
- b. in the auditor's professional judgment, the information would be unduly voluminous in relation to the auditor's report.

**.A26** When the auditor modifies the opinion due to an inability to obtain sufficient appropriate audit evidence, it is not appropriate for the scope of the audit to be explained in a note to the financial statements because the description of the audit scope is the responsibility of the auditor and not that of management.

**.A27** An adverse opinion or a disclaimer of opinion relating to a specific matter described in the basis for qualification paragraph does not justify the omission of a description of other identified matters that would have otherwise required a modification of the auditor's opinion. In such cases, the disclosure of such other matters of which the auditor is aware may be relevant to users of the financial statements.

### **Opinion Paragraph (Ref: par. .23–.24)**

**.A28** Inclusion of the paragraph heading required by paragraph .23 makes it clear to the user that the auditor's opinion is modified and indicates the type of modification.

**.A29** When the auditor expresses a qualified opinion, it would not be appropriate to use phrases such as *with the foregoing explanation* or *subject to* in the opinion paragraph because these are not sufficiently clear or forceful. Because accompanying notes are part of the financial statements, wording such as "fairly presented, in all material respects, when read in conjunction with note 1" is likely to be misunderstood and would also not be appropriate.

**.A30** When the auditor expresses a qualified opinion due to a scope limitation, paragraph .24 requires that the auditor state in the opinion paragraph that the qualification pertains to the possible effects of the matter on the financial statements and not to the scope limitation itself. Wording such as "In our opinion, except for the above-mentioned limitation on the scope of our audit . . ." bases the exception on the restriction itself rather than on the possible effects on the financial statements and, therefore, is unacceptable.

### **Communication With Those Charged With Governance (Ref: par. .29)**

**.A31** Communicating with those charged with governance the circumstances that lead to an expected modification to the auditor's opinion and the proposed wording of the modification enables

- a. the auditor to give notice to those charged with governance of the intended modification(s) and the reasons (or circumstances) for the modification(s);

- b.* the auditor to seek the concurrence of those charged with governance regarding the facts of the matter(s) giving rise to the expected modification(s) or to confirm matters of disagreement with management as such; and
- c.* those charged with governance to have an opportunity, when appropriate, to provide the auditor with further information and explanations in respect of the matter(s) giving rise to the expected modification(s).

.A32

## Illustration 1—An Auditor's Report Containing a Qualified Opinion Due to a Material Misstatement of the Financial Statements

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (comparative) prepared in accordance with accounting principles generally accepted in the United States of America.
- Inventories are misstated. The misstatement is deemed to be material but not pervasive to the financial statements. Accordingly, the auditor's report contains a qualified opinion.

### **Independent Auditor's Report**

*[Appropriate Addressee]*

#### **Report on the Financial Statements<sup>1</sup>**

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X1 and 20X0, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.<sup>2</sup> Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

---

<sup>1</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

<sup>2</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

***Basis for Qualified Opinion***

The Company has stated inventories at cost in the accompanying balance sheets. Accounting principles generally accepted in the United States of America require inventories to be stated at the lower of cost or market. If the Company stated inventories at the lower of cost or market, a write down of \$XXX and \$XXX would have been required as of December 31, 20X1 and 20X0, respectively. Accordingly, cost of sales would have been increased by \$XXX and \$XXX, and net income, income taxes, and stockholders' equity would have been reduced by \$XXX, \$XXX, and \$XXX, and \$XXX, \$XXX, and \$XXX, as of and for the years ended December 31, 20X1 and 20X0, respectively.

***Qualified Opinion***

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1 and 20X0, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**Report on Other Legal and Regulatory Requirements**

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

## Illustration 2—An Auditor's Report Containing a Qualified Opinion for Inadequate Disclosure

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (comparative) prepared in accordance with accounting principles generally accepted in the United States of America.
- The financial statements have inadequate disclosures. The auditor has concluded that (a) it is not practicable to present the required information and (b) the effects are such that an adverse opinion is not appropriate. Accordingly, the auditor's report contains a qualified opinion.

### **Independent Auditor's Report**

*[Appropriate Addressee]*

#### **Report on the Financial Statements<sup>1</sup>**

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X1 and 20X0, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.<sup>2</sup> Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and

---

<sup>1</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

<sup>2</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

***Basis for Qualified Opinion***

The Company's financial statements do not disclose *[describe the nature of the omitted information that is not practicable to present in the auditor's report]*. In our opinion, disclosure of this information is required by accounting principles generally accepted in the United States of America.

***Qualified Opinion***

In our opinion, except for the omission of the information described in the Basis for Qualified Opinion paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1 and 20X0, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**Report on Other Legal and Regulatory Requirements**

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

## Illustration 3—An Auditor's Report Containing an Adverse Opinion Due to a Material Misstatement of the Financial Statements

Circumstances include the following:

- Audit of a complete set of consolidated general purpose financial statements (single year) prepared in accordance with accounting principles generally accepted in the United States of America.
- The financial statements are materially misstated due to the nonconsolidation of a subsidiary. The material misstatement is deemed to be pervasive to the financial statements. Accordingly, the auditor's report contains an adverse opinion. The effects of the misstatement on the financial statements have not been determined because it was not practicable to do so.

### **Independent Auditor's Report**

*[Appropriate Addressee]*

#### **Report on the Consolidated Financial Statements<sup>1</sup>**

We have audited the accompanying consolidated financial statements of ABC Company and its subsidiaries, which comprise the consolidated balance sheet as of December 31, 20X1, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing

---

<sup>1</sup> The subtitle "Report on the Consolidated Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

an opinion on the effectiveness of the entity's internal control.<sup>2</sup> Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our adverse audit opinion.

***Basis for Adverse Opinion***

As described in Note X, the Company has not consolidated the financial statements of subsidiary XYZ Company that it acquired during 20X1 because it has not yet been able to ascertain the fair values of certain of the subsidiary's material assets and liabilities at the acquisition date. This investment is therefore accounted for on a cost basis by the Company. Under accounting principles generally accepted in the United States of America, the subsidiary should have been consolidated because it is controlled by the Company. Had XYZ Company been consolidated, many elements in the accompanying consolidated financial statements would have been materially affected. The effects on the consolidated financial statements of the failure to consolidate have not been determined.

***Adverse Opinion***

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion paragraph, the consolidated financial statements referred to above do not present fairly the financial position of ABC Company and its subsidiaries as of December 31, 20X1, or the results of their operations or their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Report on Other Legal and Regulatory Requirements**

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

---

<sup>2</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the consolidated financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

## Illustration 4—An Auditor's Report Containing a Qualified Opinion Due to the Auditor's Inability to Obtain Sufficient Appropriate Audit Evidence

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year) prepared in accordance with accounting principles generally accepted in the United States of America.
- The auditor was unable to obtain sufficient appropriate audit evidence regarding an investment in a foreign affiliate. The possible effects of the inability to obtain sufficient appropriate audit evidence are deemed to be material but not pervasive to the financial statements. Accordingly, the auditor's report contains a qualified opinion.

### Independent Auditor's Report

*[Appropriate Addressee]*

#### **Report on the Financial Statements<sup>1</sup>**

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.<sup>2</sup> Accordingly, we express no such opinion. An audit

---

<sup>1</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

<sup>2</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

***Basis for Qualified Opinion***

ABC Company's investment in XYZ Company, a foreign affiliate acquired during the year and accounted for under the equity method, is carried at \$XXX on the balance sheet at December 31, 20X1, and ABC Company's share of XYZ Company's net income of \$XXX is included in ABC Company's net income for the year then ended. We were unable to obtain sufficient appropriate audit evidence about the carrying amount of ABC Company's investment in XYZ Company as of December 31, 20X1 and ABC Company's share of XYZ Company's net income for the year then ended because we were denied access to the financial information, management, and the auditors of XYZ Company. Consequently, we were unable to determine whether any adjustments to these amounts were necessary.

***Qualified Opinion***

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Report on Other Legal and Regulatory Requirements**

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

## **Illustration 5—An Auditor’s Report Containing a Disclaimer of Opinion Due to the Auditor’s Inability to Obtain Sufficient Appropriate Audit Evidence About a Single Element of the Financial Statements**

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year) prepared in accordance with accounting principles generally accepted in the United States of America.
- The auditor was unable to obtain sufficient appropriate audit evidence about a single element of the financial statements. That is, the auditor was unable to obtain audit evidence about the financial information of a joint venture investment accounted for under the proportionate consolidation approach. The investment represents over 90 percent of the Company's net assets. The possible effects of this inability to obtain sufficient appropriate audit evidence are deemed to be both material and pervasive to the financial statements. Accordingly, the auditor's report contains a disclaimer of opinion.
- The auditor concluded that it was unnecessary to include in the auditor's report specific amounts for the Company's proportional share of the assets, liabilities, income, and expenses of the joint venture investment because the investment represents over 90 percent of the Company's net assets, and that fact is disclosed in the auditor's report.

### **Independent Auditor's Report**

*[Appropriate Addressee]*

#### **Report on the Financial Statements<sup>1</sup>**

We were engaged to audit the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

---

<sup>1</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

***Basis for Disclaimer of Opinion***

The Company's investment in XYZ Company, a joint venture, is carried at \$XXX on the Company's balance sheet, which represents over 90 percent of the Company's net assets as of December 31, 20X1. We were not allowed access to the management and the auditors of XYZ Company. As a result, we were unable to determine whether any adjustments were necessary relating to the Company's proportional share of XYZ Company's assets that it controls jointly, its proportional share of XYZ Company's liabilities for which it is jointly responsible, its proportional share of XYZ Company's income and expenses for the year, and the elements making up the statements of changes in stockholders' equity and cash flows.

***Disclaimer of Opinion***

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

**Report on Other Legal and Regulatory Requirements**

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

## Illustration 6—An Auditor's Report Containing a Disclaimer of Opinion Due to the Auditor's Inability to Obtain Sufficient Appropriate Audit Evidence About Multiple Elements of the Financial Statements

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year) prepared in accordance with accounting principles generally accepted in the United States of America.
- The auditor was unable to obtain sufficient appropriate audit evidence about multiple elements of the financial statements. That is, the auditor was unable to obtain audit evidence about the entity's inventories and accounts receivable. The possible effects of this inability to obtain sufficient appropriate audit evidence are deemed to be both material and pervasive to the financial statements. Accordingly, the auditor's opinion contains a disclaimer of opinion.

### Independent Auditor's Report

[Appropriate Addressee]

#### **Report on the Financial Statements<sup>1</sup>**

We were engaged to audit the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

#### ***Basis for Disclaimer of Opinion***

We were not engaged as auditors of the Company until after December 31, 20X1, and, therefore, did not observe the counting of physical inventories at the beginning or end of the year. We were unable to satisfy ourselves by other auditing procedures concerning the inventory held at December 31, 20X1, which is stated in the balance sheet at \$XXX. In addition, the introduction of a new computerized accounts receivable system in September 20X1 resulted in numerous misstatements in accounts receivable. As of the date of our audit report, management was still in the process of rectifying the system deficiencies and

---

<sup>1</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

correcting the misstatements. We were unable to confirm or verify by alternative means accounts receivable included in the balance sheet at a total amount of \$XXX at December 31, 20X1. As a result of these matters, we were unable to determine whether any adjustments might have been found necessary in respect of recorded or unrecorded inventories and accounts receivable, and the elements making up the statements of income, changes in stockholders' equity, and cash flows.

***Disclaimer of Opinion***

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

**Report on Other Legal and Regulatory Requirements**

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

## Illustration 7—An Auditor’s Report in Which the Auditor Is Expressing an Unmodified Opinion in the Prior Year and a Modified Opinion (Qualified Opinion) in the Current Year

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (comparative) prepared in accordance with accounting principles generally accepted in the United States of America.
- Certain lease obligations have been excluded from the financial statements in the current year. The effect of the exclusion is material but not pervasive. The auditor expressed an unmodified opinion in the prior year and is expressing a modified opinion (qualified opinion) in the current year.

### Independent Auditor's Report

[Appropriate Addressee]

#### **Report on the Financial Statements<sup>1</sup>**

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X1 and 20X0, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.<sup>2</sup> Accordingly, we express no such opinion. An audit

---

<sup>1</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

<sup>2</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

***Basis for Qualified Opinion***

The Company has excluded, from property and debt in the accompanying 20X1 balance sheet, certain lease obligations that were entered into in 20X1 which, in our opinion, should be capitalized in accordance with accounting principles generally accepted in the United States of America. If these lease obligations were capitalized, property would be increased by \$XXX, long-term debt by \$XXX, and retained earnings by \$XXX as of December 31, 20X1, and net income and earnings per share would be increased (decreased) by \$XXX and \$XXX, respectively, for the year then ended.

***Qualified Opinion***

In our opinion, except for the effects on the 20X1 financial statements of not capitalizing certain lease obligations as described in the Basis for Qualified Opinion paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1 and 20X0, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**Report on Other Legal and Regulatory Requirements**

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

## Illustration 8—An Auditor’s Report in Which the Auditor Is Expressing an Unmodified Opinion in the Current Year and a Disclaimer of Opinion on the Prior-Year Statements of Income, Changes in Stockholders’ Equity, and Cash Flows

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (comparative) prepared in accordance with accounting principles generally accepted in the United States of America.
- The auditor was unable to observe the physical inventory as at December 31, 20X0, as at that time the auditor had not been engaged. Accordingly, the auditor was unable to obtain sufficient appropriate audit evidence regarding the net income and cash flows for the year ended December 31, 20X1. The effects of the inability to obtain sufficient appropriate audit evidence are deemed material and pervasive.
- The auditor expressed an unmodified opinion on December 31, 20X1 and 20X0 balance sheets and a disclaimer of opinion on the 20X0 statements of income, changes in stockholders' equity, and cash flows.

### **Independent Auditor's Report**

*[Appropriate Addressee]*

#### **Report on the Financial Statements<sup>1</sup>**

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X2 and 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audits. Except as explained in the Basis for Disclaimer of Opinion paragraph, we conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements

---

<sup>1</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.<sup>2</sup> Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions on the balance sheets as of December 31, 20X2 and 20X1, and the statements of income, changes in stockholders' equity, and cash flows for the year ended December 31, 20X2.

***Basis for Disclaimer of Opinion on 20X1 Operations and Cash Flows***

We did not observe the taking of the physical inventory as of December 31, 20X0, since that date was prior to our engagement as auditors for the Company, and we were unable to satisfy ourselves regarding inventory quantities by means of other auditing procedures. Inventory amounts as of December 31, 20X0 enter into the determination of net income and cash flows for the year ended December 31, 20X1.

***Disclaimer of Opinion on 20X1 Operations and Cash Flows***

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the results of operations and cash flows for the year ended December 31, 20X1. Accordingly, we do not express an opinion on the results of operations and cash flows for the year ended December 31, 20X1.

***Opinion***

In our opinion, the balance sheets of ABC Company as of December 31, 20X2 and 20X1, and the statements of income, changes in stockholders' equity, and cash flows for the year ended December 31, 20X2, present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the year ended December 31, 20X2 in accordance with accounting principles generally accepted in the United States of America.

**Report on Other Legal and Regulatory Requirements**

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

---

<sup>2</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

## AU-C Section 706

# ***Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report***

**Source:** SAS No. 122.

**Effective for audits of financial statements for periods ending on or after December 15, 2012.**

## **Introduction**

### **Scope of This Section**

**.01** This section addresses additional communications in the auditor's report when the auditor considers it necessary to

- a.* draw users' attention to a matter or matters presented or disclosed in the financial statements that are of such importance that they are fundamental to users' understanding of the financial statements (emphasis-of-matter paragraph) or
- b.* draw users' attention to any matter or matters other than those presented or disclosed in the financial statements that are relevant to users' understanding of the audit, the auditor's responsibilities, or the auditor's report (other-matter paragraph).

**.02** Exhibit B, "List of AU-C Sections Containing Requirements for Emphasis-of-Matter Paragraphs," and exhibit C, "List of AU-C Sections Containing Requirements for Other-Matter Paragraphs," identify AU-C sections containing specific requirements for the auditor to include an emphasis-of-matter paragraph or other-matter paragraph, respectively, in the auditor's report. Accordingly, the requirements in this section regarding the form and placement of such paragraphs apply. (Ref: par. .A1)

### **Effective Date**

**.03** This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

### **Objective**

**.04** The objective of the auditor, having formed an opinion on the financial statements, is to draw users' attention, when in the auditor's judgment it is necessary to do so, by way of clear additional communication in the auditor's report, to

- a.* a matter, although appropriately presented or disclosed in the financial statements, that is of such importance that it is fundamental to users' understanding of the financial statements or

- b. as appropriate, any other matter that is relevant to users' understanding of the audit, the auditor's responsibilities, or the auditor's report.

## Definitions

**.05** For the purposes of generally accepted auditing standards (GAAS), the following terms have the meanings attributed as follows:

**Emphasis-of-matter paragraph.** A paragraph included in the auditor's report that is required by GAAS, or is included at the auditor's discretion, and that refers to a matter appropriately presented or disclosed in the financial statements that, in the auditor's professional judgment, is of such importance that it is fundamental to users' understanding of the financial statements.

**Other-matter paragraph.** A paragraph included in the auditor's report that is required by GAAS, or is included at the auditor's discretion, and that refers to a matter other than those presented or disclosed in the financial statements that, in the auditor's professional judgment, is relevant to users' understanding of the audit, the auditor's responsibilities, or the auditor's report.

## Requirements

### Emphasis-of-Matter Paragraphs in the Auditor's Report

**.06** If the auditor considers it necessary to draw users' attention to a matter appropriately presented or disclosed in the financial statements that, in the auditor's professional judgment, is of such importance that it is fundamental to users' understanding of the financial statements, the auditor should include an emphasis-of-matter paragraph in the auditor's report, provided that the auditor has obtained sufficient appropriate audit evidence that the matter is not materially misstated in the financial statements. Such a paragraph should refer only to information presented or disclosed in the financial statements. (Ref: par. .A2–.A3)

**.07** When the auditor includes an emphasis-of-matter paragraph in the auditor's report, the auditor should

- a. include it immediately after the opinion paragraph in the auditor's report,
- b. use the heading "Emphasis of Matter" or other appropriate heading, (Ref: par. .A4)
- c. include in the paragraph a clear reference to the matter being emphasized and to where relevant disclosures that fully describe the matter can be found in the financial statements, and
- d. indicate that the auditor's opinion is not modified with respect to the matter emphasized. (Ref: par. .A5)

### Other-Matter Paragraphs in the Auditor's Report

**.08** If the auditor considers it necessary to communicate a matter other than those that are presented or disclosed in the financial statements that, in the auditor's professional judgment, is relevant to users' understanding of the audit, the auditor's responsibilities, or the auditor's report, the auditor should do so in a paragraph in the auditor's report with the heading "Other Matter" or

other appropriate heading. The auditor should include this paragraph immediately after the opinion paragraph and any emphasis-of-matter paragraph or elsewhere in the auditor's report if the content of the other-matter paragraph is relevant to the "Other Reporting Responsibilities" section. (Ref: par. .A6–.A11)

## Communication With Those Charged With Governance

**.09** If the auditor expects to include an emphasis-of-matter or other-matter paragraph in the auditor's report, the auditor should communicate with those charged with governance regarding this expectation and the proposed wording of this paragraph. (Ref: par. .A12)

## Application and Other Explanatory Material

### Scope of This Section (Ref: par. .02)

**.A1** The AU-C sections identified in exhibits B and C require the auditor to include an emphasis-of-matter paragraph or other-matter paragraph, respectively, in the auditor's report relating to certain matters. The nature of these matters is such that they are brought to the attention of users of the auditor's report in all instances rather than at the discretion of the auditor. The explanatory language provided by such required paragraphs achieves the same objective as an emphasis-of-matter or other-matter paragraph that is included based on the professional judgment of the auditor (that is, to provide additional communication to the users of the auditor's report). Therefore, the auditor follows the requirements in this section regarding the form and placement of these required paragraphs.

## Emphasis-of-Matter Paragraphs in the Auditor's Report

### *Circumstances in Which an Emphasis-of-Matter Paragraph May Be Necessary (Ref: par. .06)*

**.A2** In addition to the required emphasis-of-matter paragraphs listed in exhibit B, the following are examples of circumstances when the auditor may consider it necessary to include an emphasis-of-matter paragraph:

- An uncertainty relating to the future outcome of unusually important litigation or regulatory action
- A major catastrophe that has had, or continues to have, a significant effect on the entity's financial position
- Significant transactions with related parties
- Unusually important subsequent events

**.A3** Paragraph .06 requires that an emphasis-of-matter paragraph refer only to matters appropriately presented or disclosed in the financial statements. To include information in an emphasis-of-matter paragraph about a matter beyond what is presented or disclosed in the financial statements may raise questions about the appropriateness of such presentation or disclosure.

### *Including an Emphasis-of-Matter Paragraph in the Auditor's Report (Ref: par. .07)*

**.A4** If the heading "Emphasis of Matter" is not used, another heading may be considered appropriate if it adequately describes the nature of the matter being disclosed or communicated.

**.A5** The inclusion of an emphasis-of-matter paragraph in the auditor's report does not affect the auditor's opinion. An emphasis-of-matter paragraph is not a substitute for either

- a. the auditor expressing a qualified opinion or an adverse opinion, or disclaiming an opinion, when required by the circumstances of a specific audit engagement (see section 705, *Modifications to the Opinion in the Independent Auditor's Report*) or
- b. disclosures in the financial statements that the applicable financial reporting framework requires management to make.

## Other-Matter Paragraphs in the Auditor's Report (Ref: par. .08)

### ***Circumstances in Which an Other-Matter Paragraph May Be Necessary***

#### *Relevant to Users' Understanding of the Audit*

**.A6** In the rare circumstance when the auditor is unable to withdraw from an engagement even though the possible effect of an inability to obtain sufficient appropriate audit evidence due to a limitation on the scope of the audit imposed by management is pervasive,<sup>1</sup> the auditor may consider it necessary to include an other-matter paragraph in the auditor's report to explain why it is not possible for the auditor to withdraw from the engagement.

#### *Relevant to Users' Understanding of the Auditor's Responsibilities or the Auditor's Report*

**.A7** Law, regulation, or generally accepted practice may require or permit the auditor to elaborate on matters that provide further explanation of the auditor's responsibilities in the audit of the financial statements or the auditor's report thereon. When relevant, one or more subheadings may be used that describe the content of the other-matter paragraph.

**.A8** An other-matter paragraph does not address circumstances when the auditor has other reporting responsibilities that are in addition to the auditor's responsibility under GAAS to report on the financial statements (see the "Other Reporting Responsibilities" section in section 700, *Forming an Opinion and Reporting on Financial Statements*) or when the auditor has been asked to perform and report on additional specified procedures or to express an opinion on specific matters.

#### *Reporting on More Than One Set of Financial Statements*

**.A9** An entity may prepare one set of financial statements in accordance with a general purpose framework (for example, accounting principles generally accepted in the United States of America) and another set of financial statements in accordance with another general purpose framework (for example, International Financial Reporting Standards promulgated by the International Accounting Standards Board) and engage the auditor to report on both sets of financial statements. If the auditor has determined that the frameworks are acceptable in the respective circumstances, the auditor may include an other-matter paragraph in the auditor's report referring to the fact that another set of financial statements has been prepared by the same entity in accordance with another general purpose framework and that the auditor has issued a report on those financial statements.

---

<sup>1</sup> See paragraph .13 of section 705, *Modifications to the Opinion in the Independent Auditor's Report*, for a discussion of this circumstance.

*Including an Other-Matter Paragraph in the Auditor's Report*

**.A10** The content of an other-matter paragraph reflects clearly that such other matter is not required to be presented and disclosed in the financial statements. An other-matter paragraph does not include information that the auditor is prohibited from providing by law, regulation, or other professional standards (for example, ethical standards relating to the confidentiality of information). An other-matter paragraph also does not include information that is required to be provided by management.

**.A11** The placement of an other-matter paragraph depends on the nature of the information to be communicated. When an other-matter paragraph is included to draw users' attention to a matter relevant to their understanding of the audit of the financial statements, the paragraph is included immediately after the opinion paragraph and any emphasis-of-matter paragraph. When an other-matter paragraph is included to draw users' attention to a matter relating to other reporting responsibilities addressed in the auditor's report, the paragraph may be included in the section subtitled "Report on Other Legal and Regulatory Requirements." Alternatively, when relevant to all the auditor's responsibilities or users' understanding of the auditor's report, the other-matter paragraph may be included as a separate section following the "Report on the Financial Statements" and the "Report on Other Legal and Regulatory Requirements."

## **Communication With Those Charged With Governance (Ref: par. .09)**

**.A12** The auditor's communication with those charged with governance, as described in paragraph .09, enables those charged with governance to be made aware of the nature of any specific matters that the auditor intends to highlight in the auditor's report and provides them with an opportunity to obtain further clarification from the auditor, when necessary. When the inclusion of an other-matter paragraph on a particular matter in the auditor's report recurs on each successive engagement, the auditor may determine that it is unnecessary to repeat the communication on each engagement.

.A13

## **Exhibit A—Illustrations of Auditor’s Reports With Emphasis-of-Matter or Other-Matter Paragraphs**

Illustration 1—An Auditor's Report With an Emphasis-of-Matter Paragraph Because There Is Uncertainty Relating to a Pending Unusually Important Litigation Matter

Illustration 2—An Auditor's Report With an Other-Matter Paragraph That May Be Appropriate When an Auditor Issues an Updated Report on the Financial Statements of a Prior Period That Contains an Opinion Different From the Opinion Previously Expressed

Illustration 3—An Auditor's Report With a Qualified Opinion Due to a Material Misstatement of the Financial Statements and an Emphasis-of-Matter Paragraph Because There Is Uncertainty Relating to a Pending Unusually Important Litigation Matter

## Illustration 1—An Auditor's Report With an Emphasis-of-Matter Paragraph Because There Is Uncertainty Relating to a Pending Unusually Important Litigation Matter

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year) prepared in accordance with accounting principles generally accepted in the United States of America.
- There is uncertainty relating to a pending unusually important litigation matter.
- The auditor's report includes an emphasis-of-matter paragraph.

### **Independent Auditor's Report**

*[Appropriate Addressee]*

#### **Report on the Financial Statements<sup>1</sup>**

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.<sup>2</sup> Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and

---

<sup>1</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

<sup>2</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence that we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Emphasis of Matter***

As discussed in Note X to the financial statements, the Company is a defendant in a lawsuit [*briefly describe the nature of the litigation consistent with the Company's description in the note to the financial statements*]. Our opinion is not modified with respect to this matter.

**Report on Other Legal and Regulatory Requirements**

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

## **Illustration 2—An Auditor’s Report With an Other-Matter Paragraph That May Be Appropriate When an Auditor Issues an Updated Report on the Financial Statements of a Prior Period That Contains an Opinion Different From the Opinion Previously Expressed**

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (comparative) prepared in accordance with accounting principles generally accepted in the United States of America.
- The auditor's report on the prior period financial statements expressed an adverse opinion due to identified departures from accounting principles generally accepted in the United States of America that resulted in the financial statements being materially misstated. The entity has elected to change its method of accounting for the matters that gave rise to the adverse opinion in the prior period, and has restated the prior period financial statements. Therefore, the auditor has expressed an unmodified opinion on the comparative financial statements.
- The auditor's report includes an other-matter paragraph indicating that the updated report on the financial statements of the prior period contains an opinion different from the opinion previously expressed, as required by section 700, *Forming an Opinion and Reporting on Financial Statements*.
- Although the entity changed its method of accounting for the matters that gave rise to the adverse opinion in the prior period, the principal objective of the communication in the other-matter paragraph is to draw users' attention to the change in the auditor's opinion on the prior period financial statements. The other-matter paragraph also refers to the change in accounting principle and the related disclosure in the financial statements. Therefore, the other-matter paragraph also meets the objective of communicating the change in accounting principle as required by section 708, *Consistency of Financial Statements*, and a separate emphasis-of-matter paragraph is not considered necessary.

### **Independent Auditor's Report**

[Appropriate Addressee]

#### **Report on the Financial Statements<sup>1</sup>**

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X1 and 20X0, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and

---

<sup>1</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.<sup>2</sup> Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence that we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1 and 20X0, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Other Matter***

In our report dated March 1, 20X1, we expressed an opinion that the 20X0 financial statements did not fairly present the financial position, results of operations, and cash flows of ABC Company in accordance with accounting principles generally accepted in the United States of America because of two departures from such principles: (1) ABC Company carried its property, plant, and equipment at appraisal values, and provided for depreciation on the basis of such values, and (2) ABC Company did not provide for deferred income taxes with respect to differences between income for financial reporting purposes and taxable income. As described in Note X, the Company has changed its method of accounting for these items and restated its 20X0 financial statements to conform with accounting principles generally accepted in the United States of America. Accordingly, our present opinion on the restated 20X0 financial statements, as presented herein, is different from that expressed in our previous report.

---

<sup>2</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

**Report on Other Legal and Regulatory Requirements**

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

### **Illustration 3—An Auditor’s Report With a Qualified Opinion Due to a Material Misstatement of the Financial Statements and an Emphasis-of-Matter Paragraph Because There Is Uncertainty Relating to a Pending Unusually Important Litigation Matter**

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year) prepared in accordance with accounting principles generally accepted in the United States of America.
- Inventories are misstated. The misstatement is deemed to be material but not pervasive to the financial statements.
- There is uncertainty relating to a pending unusually important litigation matter.
- The auditor's report includes a qualified opinion and also includes an emphasis-of-matter paragraph.

#### **Independent Auditor's Report**

*[Appropriate Addressee]*

#### **Report on the Financial Statements<sup>1</sup>**

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

#### ***Management’s Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor’s Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the

---

<sup>1</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

entity's internal control.<sup>2</sup> Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

### ***Basis for Qualified Opinion***

The Company has stated inventories at cost in the accompanying balance sheet. Accounting principles generally accepted in the United States of America require inventories to be stated at the lower of cost or market. If the Company stated inventories at the lower of cost or market, a write down of \$XXX would have been required as of December 31, 20X1. Accordingly, cost of sales would have been increased by \$XXX and net income, income taxes, and stockholders' equity would have been reduced by \$XXX, \$XXX, and \$XXX, as of and for the year ended December 31, 20X1, respectively.

### ***Qualified Opinion***

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Emphasis of Matter***

As discussed in Note X to the financial statements, the Company is a defendant in a lawsuit [*briefly describe the nature of the litigation consistent with the Company's description in the note to the financial statements*]. Our opinion is not modified with respect to this matter.

### **Report on Other Legal and Regulatory Requirements**

[*Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.*]

[*Auditor's signature*]

[*Auditor's city and state*]

[*Date of the auditor's report*]

---

<sup>2</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

## **Exhibit B—List of AU-C Sections Containing Requirements for Emphasis-of-Matter Paragraphs (Ref: par. .02)**

This exhibit identifies paragraphs in other AU-C sections that require the auditor to include an emphasis-of-matter paragraph in the auditor's report in certain circumstances. The list is not a substitute for considering the requirements and related application and other explanatory material in AU-C sections.

- Paragraph .16c of section 560, *Subsequent Events and Subsequently Discovered Facts*
- Paragraphs .15–.16 of section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*
- Paragraphs .08–.09 and .11–.13 of section 708, *Consistency of Financial Statements*
- Paragraphs .19 and .21 of section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*

[Revised, August 2012, to reflect conforming changes necessary due to the issuance of SAS No. 126.]

.A15

## Exhibit C—List of AU-C Sections Containing Requirements for Other-Matter Paragraphs (Ref: par. .02)

This exhibit identifies paragraphs in other AU-C sections that require the auditor to include an other-matter paragraph in the auditor's report in certain circumstances. The list is not a substitute for considering the requirements and related application and other explanatory material in AU-C sections.

- Paragraph .16c of section 560, *Subsequent Events and Subsequently Discovered Facts*
- Paragraphs .53–.54 and .56–.57 of section 700A, *Forming an Opinion and Reporting on Financial Statements*
- Paragraph .12 of section 720, *Other Information in Documents Containing Audited Financial Statements*
- Paragraph .09 of section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*
- Paragraph .07 of section 730, *Required Supplementary Information*
- Paragraph .20 of section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*
- Paragraph .13 of section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements*
- Paragraph .07 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*

[Amended, December 2011, to reflect conforming changes necessary due to the issuance of SAS No. 125.]

---

## AU-C Section 708

# *Consistency of Financial Statements*

Source: SAS No. 122.

Effective for audits of financial statements for periods ending on or after December 15, 2012.

## Introduction

### Scope of This Section

.01 This section addresses the auditor's evaluation of the consistency of the financial statements between periods, including changes to previously issued financial statements and the effect of that evaluation on the auditor's report on the financial statements.

### Effective Date

.02 This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

## Objectives

.03 The objectives of the auditor are to

- a. evaluate the consistency of the financial statements for the periods presented and
- b. communicate appropriately in the auditor's report when the comparability of financial statements between periods has been materially affected by a change in accounting principle or by adjustments to correct a material misstatement in previously issued financial statements.

## Definition

.04 For purposes of generally accepted auditing standards, the following term has the meaning attributed as follows:

**Current period.** The most recent period upon which the auditor is reporting.

## Requirements

### Evaluating Consistency

.05 The auditor should evaluate whether the comparability of the financial statements between periods has been materially affected by a change in accounting principle or by adjustments to correct a material misstatement in previously issued financial statements. (Ref: par. .A1)

**.06** The periods included in the auditor's evaluation of consistency depend on the periods covered by the auditor's opinion on the financial statements. When the auditor's opinion covers only the current period, the auditor should evaluate whether the current-period financial statements are consistent with those of the preceding period, regardless of whether financial statements for the preceding period are presented. When the auditor's opinion covers two or more periods, the auditor should evaluate consistency between such periods and the consistency of the earliest period covered by the auditor's opinion with the period prior thereto, if such prior period is presented with the financial statements being reported upon. The auditor also should evaluate whether the financial statements for the periods being reported upon are consistent with previously issued financial statements for the relevant periods. (Ref: par. .A2–.A3)

### Change in Accounting Principle

**.07** The auditor should evaluate a change in accounting principle to determine whether (Ref: par. .A4–.A6)

- a. the newly adopted accounting principle is in accordance with the applicable financial reporting framework,
- b. the method of accounting for the effect of the change is in accordance with the applicable financial reporting framework,
- c. the disclosures related to the accounting change are appropriate and adequate, and
- d. the entity has justified that the alternative accounting principle is preferable.

**.08** If the auditor concludes that the criteria in paragraph .07 have been met, and the change in accounting principle has a material effect on the financial statements, the auditor should include an emphasis-of-matter paragraph<sup>1</sup> in the auditor's report that describes the change in accounting principle and provides a reference to the entity's disclosure. If the criteria in paragraph .07 are not met, the auditor should evaluate whether the accounting change results in a material misstatement and whether the auditor should modify the opinion accordingly.<sup>2</sup> (Ref: par. .A7–.A9)

**.09** The auditor should include an emphasis-of-matter paragraph relating to a change in accounting principle in reports on financial statements in the period of the change, and in subsequent periods, until the new accounting principle is applied in all periods presented. If the change in accounting principle is accounted for by retrospective application to the financial statements of all prior periods presented, the emphasis-of-matter paragraph is needed only in the period of such change.

**.10** The auditor should evaluate and report on a change in accounting estimate that is inseparable from the effect of a related change in accounting principle like other changes in accounting principle, as required by paragraphs .08–.09. (Ref: par. .A10)

**.11** When a change in the reporting entity results in financial statements that, in effect, are those of a different reporting entity, the auditor should include an emphasis-of-matter paragraph in the auditor's report that describes the

---

<sup>1</sup> Paragraphs .06–.07 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

<sup>2</sup> See section 705, *Modifications to the Opinion in the Independent Auditor's Report*.

change in the reporting entity and provides a reference to the entity's disclosure, unless the change in reporting entity results from a transaction or event. The requirements in paragraph .09 also apply. (Ref: par. .A11)

.12 If an entity's financial statements contain an investment accounted for by the equity method, the auditor's evaluation of consistency should include consideration of the investee. If the investee makes a change in accounting principle that is material to the investing entity's financial statements, the auditor should include an emphasis-of-matter paragraph in the auditor's report to describe the change in accounting principle. The requirements in paragraph .09 also apply.

## Correction of a Material Misstatement in Previously Issued Financial Statements

.13 The auditor should include an emphasis-of-matter paragraph in the auditor's report when there are adjustments to correct a material misstatement in previously issued financial statements. The auditor should include this type of emphasis-of-matter paragraph in the auditor's report when the related financial statements are restated to correct the prior material misstatement. The paragraph need not be repeated in subsequent periods. (Ref: par. .A12–.A13)

.14 The emphasis-of-matter paragraph should include

- a. a statement that the previously issued financial statements have been restated for the correction of a material misstatement in the respective period and
- b. a reference to the entity's disclosure of the correction of the material misstatement. (Ref: par. .A14)

.15 If the financial statement disclosures relating to the restatement to correct a material misstatement in previously issued financial statements are not adequate, the auditor should address the inadequacy of disclosure as described in section 705, *Modifications to the Opinion in the Independent Auditor's Report*.

## Change in Classification

.16 The auditor should evaluate a material change in financial statement classification and the related disclosure to determine whether such a change is also either a change in accounting principle or an adjustment to correct a material misstatement in previously issued financial statements. If so, the requirements of paragraphs .07–.15 apply. (Ref: par. .A15–.A16)

## Application and Other Explanatory Material

### Evaluating Consistency (Ref: par. .05–.06)

.A1 Unless the auditor's report explicitly states otherwise, the auditor's report implies that the auditor is satisfied that the comparability of financial statements between periods has not been materially affected by a change in accounting principle or by adjustments to correct a material misstatement in previously issued financial statements. There may be no effect on comparability between or among periods because either (a) no change in an accounting principle has occurred, or (b) there has been a change in an accounting principle or in the method of application, but the effect of the change on the comparability

of the financial statements is not material. When no material effect on comparability results from a change in accounting principle or an adjustment to previously issued financial statements, the auditor need not refer to consistency in the auditor's report.

**.A2** The periods covered in the auditor's evaluation of consistency depend on the periods covered by the auditor's opinion on the financial statements. If an entity presents comparative financial statements and has a change in auditors in the current year, the auditor evaluates consistency between the year covered by the auditor's opinion and the immediately preceding year in accordance with the requirements in paragraph .06.

**.A3** When an entity accounts for a change in accounting principle by applying the principle to one or more prior periods that were included in previously issued financial statements, as if that principle had always been used (commonly referred to as *retrospective application*), the financial statements presented generally will be consistent. However, the previous periods' financial statements presented with the current period's financial statements will reflect the change in accounting principle and, therefore, will appear different from those previous periods' financial statements on which the auditor previously reported. The evaluation required by paragraph .06 encompasses previously issued financial statements for the relevant periods.

### Change in Accounting Principle (Ref: par. .07)

**.A4** A change in accounting principle is a change from one accounting principle in accordance with the applicable financial reporting framework to another accounting principle in accordance with the applicable financial reporting framework when (1) two or more accounting principles apply or (2) the accounting principle formerly used is no longer in accordance with the applicable financial reporting framework. A change in the method of applying an accounting principle also is considered a change in accounting principle.

**.A5** The applicable financial reporting framework usually sets forth the method of accounting for the effects of a change in accounting principle and the related disclosures.

**.A6** The issuance of an accounting pronouncement that requires use of a new accounting principle, interprets an existing principle, expresses a preference for an accounting principle, or rejects a specific principle is sufficient justification for a change in accounting principle, as long as the change in accounting principle is made in accordance with the applicable financial reporting framework.

### Reporting on Changes in Accounting Principles (Ref: par. .08-.11)

**.A7** The following is an example of an emphasis-of-matter paragraph for a change in accounting principle resulting from the adoption of a new accounting pronouncement:

*Emphasis of Matter*

As discussed in Note X to the financial statements, in [insert year(s) of financial statements that reflect the accounting method change], the entity adopted new accounting guidance [insert description of new accounting guidance]. Our opinion is not modified with respect to this matter.

**.A8** The following is an example of an emphasis-of-matter paragraph when the entity has made a voluntary change in accounting principle (that is, other than a change due to the adoption of a new accounting pronouncement).

*Emphasis of Matter*

As discussed in Note X to the financial statements, the entity has elected to change its method of accounting for [describe accounting method change] in [insert year(s) of financial statements that reflect the accounting method change]. Our opinion is not modified with respect to this matter.

**.A9** If a change in accounting principle does not have a material effect on the financial statements in the current year but the change is expected to have a material effect in later years, the auditor is not required to recognize the change in the auditor's report in the current year. The applicable financial reporting framework may include a requirement for the entity to disclose such situations in the notes to the financial statements. Section 700, *Forming an Opinion and Reporting on Financial Statements*, and section 705 require the auditor to evaluate the appropriateness and adequacy of disclosures in connection with forming an opinion and reporting on the financial statements.<sup>3</sup>

**.A10** Paragraph .10 requires the auditor to evaluate and report on a change in accounting estimate that is inseparable from the effect of a related change in accounting principle like other changes in accounting principle. It is sometimes difficult to differentiate between a change in an accounting estimate and a change in an accounting principle because the change in accounting estimate may be inseparable from the effect of a related change in accounting principle. For example, when a change is made to the method of depreciation of an asset to reflect a change in the estimated future benefit of the asset or the pattern of consumption for those benefits, such change in accounting may be inseparable from a change in estimate.

**Change in Reporting Entity**

**.A11** A change in reporting entity that results from a transaction or event, such as the creation, cessation, or complete or partial purchase or disposition of a subsidiary or other business unit, does not require recognition in the auditor's report. Examples of a change in the reporting entity that is not a result of a transaction or event include

- a. presenting consolidated or combined financial statements in place of financial statements of individual entities.
- b. changing specific subsidiaries that make up the group of entities for which consolidated financial statements are presented.
- c. changing the entities included in combined financial statements.

**Correction of a Material Misstatement in Previously Issued Financial Statements (Ref: par. .13–.14)**

**.A12** A change from an accounting principle that is not in accordance with the applicable financial reporting framework to one that is in accordance with the applicable financial reporting framework is a correction of a misstatement.

**.A13** Section 560, *Subsequent Events and Subsequently Discovered Facts*, addresses the auditor's responsibilities when adjustments have been made to correct a material misstatement in previously issued financial statements.

---

<sup>3</sup> Paragraph .16 of section 700, *Forming an Opinion and Reporting on Financial Statements*, and paragraphs .07 and .A7 of section 705.

**Reporting on a Correction of a Material Misstatement in Previously Issued Financial Statements**

**.A14** The following is an example of an emphasis-of-matter paragraph when there has been a correction of a material misstatement in previously issued financial statements:

*Emphasis of Matter*

As discussed in Note X to the financial statements, the 20X2 financial statements have been restated to correct a misstatement. Our opinion is not modified with respect to this matter.

**Change in Classification (Ref: par. .16)**

**.A15** Changes in classification in previously issued financial statements do not require recognition in the auditor's report unless the change represents the correction of a material misstatement or a change in accounting principle. For example, certain reclassifications in previously issued financial statements, such as reclassifications of debt from long-term to short-term or reclassifications of cash flows from the operating activities category to the financing activities category, might occur because those items were classified incorrectly in the previously issued financial statements. In such situations, the reclassification also is the correction of a misstatement.

**.A16** In some cases, changes in classification in previously issued financial statements may result from changes in the entity's business or operating structure. The auditor may need to obtain a further understanding of the underlying rationale for such reclassifications to determine whether the requirements of paragraph .16 apply.

---

## AU-C Section 720

# ***Other Information in Documents Containing Audited Financial Statements***

(Supersedes SAS No. 8 and with SAS No. 119 supersedes SAS No. 29.)

Source: SAS No. 118; SAS No. 122; SAS No. 123.

**Effective for audits of financial statements for periods beginning on or after December 15, 2010, unless otherwise indicated. Early application is permitted.**

### NOTE

To address practice issues, Statement on Auditing Standards (SAS) No. 118, *Other Information in Documents Containing Audited Financial Statements*, was issued in February 2010 as a SAS resulting from the Clarification and Convergence Project of the Auditing Standards Board, and became effective for audits of financial statements for periods beginning on or after December 15, 2010.

SAS No. 118 was previously codified as AU section 550 until December 2013, when all AU sections were deleted from AICPA *Professional Standards*, as described in the AU-C Foreword. SAS No. 122, *Statement on Auditing Standards: Clarification and Recodification*, redesignated AU section 550 as section 720 but did not supersede SAS No. 118.

This section contains conforming changes necessary in specific paragraphs and footnotes due to the issuance of SAS No. 122.

## Introduction

### Scope of This Section

.01 This section addresses the auditor's responsibility with respect to other information in documents containing audited financial statements and the auditor's report thereon. In the absence of any separate requirement in the particular circumstances of the engagement, the auditor's opinion on the financial statements does not cover other information, and the auditor has no responsibility for determining whether such information is properly stated. This section establishes the requirement for the auditor to read the other information of which the auditor is aware because the credibility of the audited financial statements may be undermined by material inconsistencies between the audited financial statements and other information. (Ref: par. .A1–.A2) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.02 In this section, *documents containing audited financial statements* refers to annual reports (or similar documents) that are issued to owners (or similar stakeholders) and annual reports of governments and organizations for charitable or philanthropic purposes that are available to the public that contain audited financial statements and the auditor's report thereon. This section

also may be applied, adapted as necessary in the circumstances, to other documents to which the auditor, at management's request, devotes attention. (Ref: par. .A3–.A5)

## Effective Date

.03 This section is effective for audits of financial statements for periods beginning on or after December 15, 2010. Early application is permitted.

## Objective

.04 The objective of the auditor is to respond appropriately when the auditor becomes aware that documents containing audited financial statements and the auditor's report thereon include other information that could undermine the credibility of those financial statements and the auditor's report.

## Definitions

.05 For purposes of generally accepted auditing standards (GAAS), the following terms have the meanings attributed as follows:

**Inconsistency.** Other information that conflicts with information contained in the audited financial statements. A material inconsistency may raise doubt about the audit conclusions drawn from audit evidence previously obtained and, possibly, about the basis for the auditor's opinion on the financial statements.

**Misstatement of fact.** Other information that is unrelated to matters appearing in the audited financial statements that is incorrectly stated or presented. A material misstatement of fact may undermine the credibility of the document containing audited financial statements.

**Other information.** Financial and nonfinancial information (other than the financial statements and the auditor's report thereon) that is included in a document containing audited financial statements and the auditor's report thereon, excluding required supplementary information.<sup>1</sup>

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

## Requirements

### Reading Other Information

.06 The auditor should read the other information of which the auditor is aware in order to identify material inconsistencies, if any, with the audited financial statements.

.07 The auditor should make appropriate arrangements with management or those charged with governance to obtain the other information prior to the

---

<sup>1</sup> *Required supplementary information* is defined in paragraph .04 of section 730, *Required Supplementary Information*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

report release date.<sup>2</sup> If it is not possible to obtain all of the other information prior to the report release date, the auditor should read such other information as soon as practicable. (Ref: par. .A6)

.08 The auditor should communicate with those charged with governance the auditor's responsibility with respect to the other information, any procedures performed relating to the other information, and the results.

## Material Inconsistencies

.09 If, on reading the other information, the auditor identifies a material inconsistency, the auditor should determine whether the audited financial statements or the other information needs to be revised.

### ***Material Inconsistencies Identified Prior to the Date of the Auditor's Report That Require Revision of the Audited Financial Statements***

.10 When the auditor identifies a material inconsistency prior to the date of the auditor's report that requires revision of the audited financial statements and management refuses to make the revision, the auditor should modify the auditor's opinion in accordance with section 705, *Modifications to the Opinion in the Independent Auditor's Report*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS Nos. 122 and 123.]

### ***Material Inconsistencies Identified After the Date of the Auditor's Report But Prior to the Report Release Date That Require Revision of the Audited Financial Statements***

.11 When the auditor identifies a material inconsistency after the date of the auditor's report but prior to the report release date that requires revision of the audited financial statements, the auditor should apply the relevant requirements in section 560, *Subsequent Events and Subsequently Discovered Facts*.<sup>3</sup> [Paragraph added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

### ***Material Inconsistencies Identified Prior to the Report Release Date That Require Revision of the Other Information***

.12 When the auditor identifies a material inconsistency prior to the report release date that requires revision of the other information and management refuses to make the revision, the auditor should communicate this matter to those charged with governance and (Ref: par. .A7–.A8)

- a. include in the auditor's report an other-matter paragraph describing the material inconsistency, in accordance with section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.<sup>4</sup>

---

<sup>2</sup> See paragraph .06 of section 230, *Audit Documentation*, for the definition of *report release date*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

<sup>3</sup> Paragraphs .12–.14 of section 560, *Subsequent Events and Subsequently Discovered Facts*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

<sup>4</sup> Paragraph .08 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

- b. withhold the auditor's report; or
- c. when withdrawal is possible under applicable law or regulation, withdraw from the engagement.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Paragraph renumbered to reflect conforming changes necessary due to the issuance of SAS No. 123.]

### ***Material Inconsistencies Identified Subsequent to the Report Release Date***

**.13** When revision of the audited financial statements is necessary as a result of a material inconsistency with other information and the auditor's report on the financial statements has already been released, the auditor should apply the relevant requirements in section 560, *Subsequent Events and Subsequently Discovered Facts*.<sup>5</sup> [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Paragraph renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

**.14** When revision of the other information is necessary after the report release date and management agrees to make the revision, the auditor should carry out the procedures necessary under the circumstances. (Ref: par. .A9) [Paragraph renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

**.15** When revision of the other information is necessary after the report release date but management refuses to make the revision, the auditor should notify those charged with governance of the auditor's concerns regarding the other information and take any further appropriate action. (Ref: par. .A10) [Paragraph renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

### **Material Misstatements of Fact**

**.16** If, on reading the other information for the purpose of identifying material inconsistencies, the auditor becomes aware of an apparent material misstatement of fact, the auditor should discuss the matter with management. (Ref: par. .A11) [Paragraph renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

**.17** When, following such discussions, the auditor still considers that there is an apparent material misstatement of fact, the auditor should request management to consult with a qualified third party, such as the entity's legal counsel, and the auditor should consider the advice received by the entity in determining whether such matter is a material misstatement of fact. [Paragraph renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

**.18** When the auditor concludes that there is a material misstatement of fact in the other information that management refuses to correct, the auditor should notify those charged with governance of the auditor's concerns regarding the other information and take any further appropriate action. (Ref: par. .A12) [Paragraph renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

---

<sup>5</sup> Paragraphs .15–.18 of section 560, *Subsequent Events and Subsequently Discovered Facts*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered to reflect conforming changes necessary due to the issuance of SAS No. 123.]

## Application and Other Explanatory Material

### Scope of This Section (Ref: par. .01–.02)

**.A1** This section also addresses other information for which a designated accounting standards setter<sup>6</sup> has issued standards or guidance regarding the format to be used and content to be included when such information is voluntarily presented in a document containing the audited financial statements and the auditor's report thereon. The auditor's responsibility for other information presented in a document containing audited financial statements that is required to be included by a designated accounting standards setter is addressed in section 730, *Required Supplementary Information*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.A2** The auditor is not required to make reference to the other information in the auditor's report on the financial statements. However, the auditor may include an other-matter paragraph disclaiming an opinion on the other information. For example, an auditor may choose to include a disclaimer on the other information when the auditor believes that the auditor could be associated with the information and the user may infer a level of assurance that is not intended. Exhibit A, "Example of an Other-Matter Paragraph to Disclaim an Opinion on Other Information," has an example of how an auditor may word such a disclaimer of opinion on other information. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.A3** Other information may comprise the following:

- A report by management or those charged with governance on operations
- Financial summaries or highlights
- Employment data
- Planned capital expenditures
- Financial ratios
- Names of officers and directors
- Selected quarterly data

**.A4** For purposes of GAAS, other information does not encompass, for example, the following:

- A press release or similar memorandum or cover letter accompanying the document containing audited financial statements and the auditor's report thereon.
- Information contained in analyst briefings.
- Information contained on the entity's website. Websites are a means of distributing information and are not, themselves, documents containing audited financial statements.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

---

<sup>6</sup> *Designated accounting standards setter* is defined in paragraph .04 of section 730. [Footnote renumbered and revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote subsequently renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

**Considerations Specific to Governmental Entities (Ref: par. .02)**

**.A5** The term *annual reports of governments* is intended to include comprehensive annual reports or other annual financial reports that include the government's financial statements and the auditor's report thereon.

**Reading Other Information (Ref: par. .07)**

**.A6** Obtaining the other information prior to the report release date enables the auditor to resolve possible material inconsistencies and apparent material misstatements of fact with management on a timely basis. An agreement with management regarding when other information will be available may be helpful. The auditor may delay the release of the auditor's report until management provides the other information to the auditor.

**Material Inconsistencies****Material Inconsistencies Identified Prior to the Report Release Date (Ref: par. .11)**

**.A7** When management refuses to revise the other information, the auditor may base any decision on what further action to take on advice from the auditor's legal counsel. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**Considerations Specific to Governmental Entities (Ref: par. .11)**

**.A8** In audits of governmental entities, withdrawal from the engagement or withholding the auditor's report may not be possible under law or regulation. In such cases, the auditor may issue a report to those charged with governance and the appropriate statutory body, if applicable, giving details of the inconsistency. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**Material Inconsistencies Identified Subsequent to the Report Release Date (Ref: par. .13–.14)**

**.A9** When revision of other information is necessary after the report release date and management agrees to make the revision, the auditor's procedures may include reviewing the steps taken by management to ensure that individuals in receipt of the previously issued financial statements, the auditor's report thereon, and the other information are informed of the need for revision. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.A10** When revision of other information is necessary after the report release date but management refuses to make the revision, appropriate further actions by the auditor may include obtaining legal advice. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**Material Misstatements of Fact (Ref: par. .15–.17)**

**.A11** When discussing an apparent material misstatement of fact with management, the auditor may not be able to evaluate the validity of some disclosures included within the other information and management's responses to the auditor's inquiries and may conclude that valid differences of judgment or opinion exist.

**.A12** When the auditor concludes that there is a material misstatement of fact that management refuses to correct, appropriate further actions by the auditor may include obtaining legal advice, withholding the auditor's report if such report has not been released, or withdrawing from the engagement. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A13

## Exhibit A—Example of an Other-Matter Paragraph to Disclaim an Opinion on Other Information

The following is an example of an other-matter paragraph that the auditor may use to disclaim an opinion on other information:

Our audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. The *[identify the other information]* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

[.A14]

**Exhibit B—[Reserved]**

[Exhibit deleted, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. See appendix B, *Substantive Differences Between the International Standards on Auditing and Generally Accepted Auditing Standards.*]

## AU-C Section 725

# ***Supplementary Information in Relation to the Financial Statements as a Whole***

(With SAS No. 118 supersedes SAS No. 29.)

Source: SAS No. 119; SAS No. 122; SAS No. 125.

See section 9725 for interpretations of this section.

**Effective for audits of financial statements for periods beginning on or after December 15, 2010, unless otherwise indicated. Early application is permitted.**

### NOTE

To address practice issues, Statement on Auditing Standards (SAS) No. 119, *Supplementary Information in Relation to the Financial Statements as a Whole*, was issued in February 2010 as a SAS resulting from the Clarification and Convergence Project of the Auditing Standards Board, and became effective for audits of financial statements for periods beginning on or after December 15, 2010.

SAS No. 119 was previously codified as AU section 551 until December 2013, when all AU sections were deleted from AICPA *Professional Standards*, as described in the AU-C Foreword. SAS No. 122, *Statement on Auditing Standards: Clarification and Recodification*, redesignated AU section 551 as section 725 but did not supersede SAS No. 119.

This section contains conforming changes necessary in specific paragraphs and footnotes due to the issuance of SAS No. 122.

## Introduction

### Scope of This Section

.01 This section addresses the auditor's responsibility when engaged to report on whether supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole. The information covered by this section is presented outside the basic financial statements and is not considered necessary for the financial statements to be fairly presented in accordance with the applicable financial reporting framework. This section also may be applied, with the report wording adapted as necessary, when an auditor has been engaged to report on whether required supplementary information<sup>1</sup> is fairly stated, in all material respects, in relation to the financial statements as a whole. (Ref: par. .A1–.A6)

---

<sup>1</sup> Required supplementary information is defined in paragraph .04 of section 730, *Required Supplementary Information*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

## Effective Date

.02 This section is effective for audits of financial statements for periods beginning on or after December 15, 2010. Early application is permitted.

## Objective

.03 The objective of the auditor, when engaged to report on supplementary information in relation to the financial statements as a whole, is to

- a. evaluate the presentation of the supplementary information in relation to the financial statements as a whole and
- b. report on whether the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

## Definition

.04 For purposes of generally accepted auditing standards, the following term has the meaning attributed as follows:

**Supplementary information.** Information presented outside the basic financial statements, excluding required supplementary information that is not considered necessary for the financial statements to be fairly presented in accordance with the applicable financial reporting framework. Such information may be presented in a document containing the audited financial statements or separate from the financial statements. (Ref: par. .A7–.A8)

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

## Requirements

### Procedures to Determine Whether Supplementary Information Is Fairly Stated, in All Material Respects, in Relation to the Financial Statements as a Whole (Ref: par. .A9–.A15)

.05 In order to opine on whether supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, the auditor should determine that all of the following conditions are met:

- a. The supplementary information was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements.
- b. The supplementary information relates to the same period as the financial statements.
- c. The auditor issued an audit report on the financial statements that contained neither an adverse opinion nor a disclaimer of opinion. (Paragraph .11 addresses reporting while not opining on supplementary information when the report on the financial statements contains an adverse opinion or a disclaimer of opinion.)

- d. The supplementary information will accompany the entity's audited financial statements, or such audited financial statements will be made readily available by the entity. (Ref: par. .A9)

[Revised, April 2012 and January 2013, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.06** The auditor should obtain the agreement of management that it acknowledges and understands its responsibility

- a. for the preparation of the supplementary information in accordance with the applicable criteria.
- b. to provide the auditor with the written representations described in paragraph .07g.
- c. to include the auditor's report on the supplementary information in any document that contains the supplementary information and that indicates that the auditor has reported on such supplementary information.
- d. to present the supplementary information with the audited financial statements or, if the supplementary information will not be presented with the audited financial statements, to make the audited financial statements readily available to the intended users of the supplementary information no later than the date of issuance by the entity of the supplementary information and the auditor's report thereon. (Ref: par. .A9)

**.07** In addition to the procedures performed during the audit of the financial statements, in order to opine on whether supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, the auditor should perform the following procedures using the same materiality level used in the audit of the financial statements:

- a. Inquire of management about the purpose of the supplementary information and the criteria used by management to prepare the supplementary information, such as an applicable financial reporting framework, criteria established by a regulator, a contractual agreement, or other requirements
- b. Determine whether the form and content of the supplementary information complies with the applicable criteria
- c. Obtain an understanding about the methods of preparing the supplementary information and determine whether the methods of preparing the supplementary information have changed from those used in the prior period and, if the methods have changed, the reasons for such changes
- d. Compare and reconcile the supplementary information to the underlying accounting and other records used in preparing the financial statements or to the financial statements themselves
- e. Inquire of management about any significant assumptions or interpretations underlying the measurement or presentation of the supplementary information
- f. Evaluate the appropriateness and completeness of the supplementary information, considering the results of the procedures performed and other knowledge obtained during the audit of the financial statements (Ref: par. .A13)

- g. Obtain written representations from management
  - i. that it acknowledges its responsibility for the presentation of the supplementary information in accordance with the applicable criteria;
  - ii. that it believes the supplementary information, including its form and content, is fairly presented in accordance with the applicable criteria;
  - iii. that the methods of measurement or presentation have not changed from those used in the prior period or, if the methods of measurement or presentation have changed, the reasons for such changes;
  - iv. about any significant assumptions or interpretations underlying the measurement or presentation of the supplementary information; and
  - v. that when the supplementary information is not presented with the audited financial statements, management will make the audited financial statements readily available to the intended users of the supplementary information no later than the date of issuance by the entity of the supplementary information and the auditor's report thereon. (Ref: par. .A9)

**.08** The auditor has no responsibility for the consideration of subsequent events with respect to the supplementary information. However, if information comes to the auditor's attention

- a. prior to the release of the auditor's report on the financial statements regarding subsequent events that affect the financial statements, or
- b. subsequent to the release of the auditor's report on the financial statements regarding facts that, had they been known to the auditor at the date of the auditor's report, may have caused the auditor to revise the auditor's report,

the auditor should apply the relevant requirements in section 560, *Subsequent Events and Subsequently Discovered Facts*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

## Reporting

**.09** When the entity presents the supplementary information with the financial statements, the auditor should report on the supplementary information in either (a) an other-matter paragraph in accordance with section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*, or (b) in a separate report on the supplementary information.<sup>2</sup> The other-matter paragraph or separate report should include the following elements:

- a. A statement that the audit was conducted for the purpose of forming an opinion on the financial statements as a whole
- b. A statement that the supplementary information is presented for purposes of additional analysis and is not a required part of the financial statements

---

<sup>2</sup> Paragraph .08 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

- c.* A statement that the supplementary information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements
- d.* A statement that the supplementary information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America
- e.* If the auditor issues an unmodified opinion on the financial statements and the auditor has concluded that the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, a statement that, in the auditor's opinion, the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole
- f.* If the auditor issues a qualified opinion on the financial statements and the qualification has an effect on the supplementary information, a statement that, in the auditor's opinion, except for the effects on the supplementary information of (refer to the paragraph in the auditor's report explaining the qualification), such information is fairly stated, in all material respects, in relation to the financial statements as a whole

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.10** When the audited financial statements are not presented with the supplementary information, the auditor should report on the supplementary information in a separate report. When reporting separately on the supplementary information, the report should include, in addition to the elements in paragraph .09, a reference to the report on the financial statements, the date of that report, the nature of the opinion expressed on the financial statements, and any report modifications. (Ref: par. .A16)

**.11** When the auditor's report on the audited financial statements contains an adverse opinion or a disclaimer of opinion and the auditor has been engaged to report on whether supplementary information is fairly stated, in all material respects, in relation to such financial statements as a whole, the auditor is precluded from expressing an opinion on the supplementary information. When permitted by law or regulation, the auditor may withdraw from the engagement to report on the supplementary information. If the auditor does not withdraw, the auditor's report on the supplementary information should state that because of the significance of the matter disclosed in the auditor's report, it is inappropriate to, and the auditor does not, express an opinion on the supplementary information.

**.12** The date of the auditor's report on the supplementary information in relation to the financial statements as a whole should not be earlier than the date on which the auditor completed the procedures required in paragraph .07.

**.13** If the auditor concludes, on the basis of the procedures performed, that the supplementary information is materially misstated in relation to the financial statements as a whole, the auditor should discuss the matter with management and propose appropriate revision of the supplementary information.

If management does not revise the supplementary information, the auditor should either

- a. modify the auditor's opinion on the supplementary information and describe the misstatement in the auditor's report or
- b. if a separate report is being issued on the supplementary information, withhold the auditor's report on the supplementary information.

## Application and Other Explanatory Material

### Scope of This Section (Ref: par. .01)

**.A1** The auditor's responsibility for information that a designated accounting standard setter<sup>3</sup> requires to accompany an entity's basic financial statements is addressed in section 730, *Required Supplementary Information*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.A2** The auditor's responsibility for financial and nonfinancial information (other than the financial statements and the auditor's report thereon) that is included in a document containing audited financial statements and the auditor's report thereon, excluding required supplementary information, is addressed in section 720, *Other Information in Documents Containing Audited Financial Statements*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.A3** The supplementary information need not be presented with the audited financial statements in order for the auditor to express an opinion on whether such supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole. However, in accordance with paragraph .10, if the supplementary information is not presented with the audited financial statements, the auditor's report on the supplementary information is required to make reference to the auditor's report on the financial statements.

**.A4** The auditor may be engaged to audit a specified element, account, or item of a financial statement for the purpose of a separate presentation, in accordance with section 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*. In such an engagement, the auditor's procedures are designed to provide the auditor with reasonable assurance that the supplementary information is not misstated by an amount that would be material to the information itself. An engagement to examine the supplementary information or an assertion related to the supplementary information also may be performed in accordance with AT-C section 205, *Examination Engagements*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

**.A5** Although an auditor has no obligation to apply auditing procedures to supplementary information presented outside the basic financial statements, the auditor may choose to modify or redirect certain of the procedures to be applied in the audit of the basic financial statements so that the auditor may

---

<sup>3</sup> *Designated accounting standards setter* is defined in paragraph .04 of section 730. [Footnote renumbered and revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

express an opinion on the supplementary information in relation to the financial statements as a whole.

**.A6** Management may include nonaccounting information and accounting information that is not directly related to the basic financial statements in a document containing the basic financial statements. Ordinarily, such information would not have been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, the auditor would be unable to opine on the information in relation to the financial statements as a whole. In some circumstances, however, such information may have been obtained or derived from accounting records that have been tested by the auditor (for example, number of units produced related to royalties under a license agreement or number of employees related to a given payroll period). Accordingly, the auditor may be in a position to express an opinion on such information in relation to the financial statements as a whole.

### **Definition (Ref: par. .04)**

**.A7** Supplementary information includes additional details or explanations of items in or related to the basic financial statements, consolidating information, historical summaries of items extracted from the basic financial statements, statistical data, and other material, some of which may be from sources outside the accounting system or outside the entity.

**.A8** Supplementary information may be prepared in accordance with an applicable financial reporting framework, by regulatory or contractual requirements, in accordance with management's criteria, or in accordance with other requirements.

## **Procedures to Determine Whether Supplementary Information Is Fairly Stated, in All Material Respects, in Relation to the Financial Statements as a Whole (Ref: par. .05–.08)**

### ***The Meaning of Readily Available (Ref: par. .05e, .06d, and .07f)***

**.A9** Audited financial statements are deemed to be readily available if a third party user can obtain the audited financial statements without any further action by the entity. For example, financial statements on an entity's website may be considered readily available, but being available upon request is not considered readily available.

### ***Procedures Performed on Supplementary Information (Ref: par. .07)***

**.A10** When engaged to report on supplementary information in relation to the financial statements as a whole, the auditor need not apply procedures as extensive as would be necessary to express an opinion on the information on a stand-alone basis.

**.A11** With respect to the supplementary information, the auditor is not required to obtain a separate understanding of the entity's internal control or to assess fraud risk.

**.A12** The auditor may consider materiality in determining which information to compare and reconcile to the underlying accounting and other records used in preparing the financial statements or to the financial statements themselves.

**.A13** In evaluating the appropriateness and completeness of the supplementary information as required by paragraph 07f, the auditor may consider

testing accounting or other records through observation or examination of source documents or other procedures ordinarily performed in an audit of the financial statements.

**.A14** The auditor may consider whether it is appropriate to address the supplementary information in procedures that the auditor performs in auditing the financial statements, including, but not limited to, the following:

- a. Obtaining an updated representation letter, in accordance with section 580, *Written Representations*<sup>4</sup>
- b. Performing subsequent events procedures, in accordance with section 560
- c. Sending a letter of audit inquiry to the client's lawyer specifically regarding the information contained in the supplementary information, in accordance with section 501, *Audit Evidence—Specific Considerations for Selected Items*<sup>5</sup>

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

### **Considerations Specific to Audits of Governmental Entities**

**.A15** For most state and local governments, the auditor's report on the financial statements includes multiple opinions to address individual reporting units or aggregation of reporting units of the governmental entity. Accordingly, materiality is considered by the auditor for each opinion unit. However, in the context of this section, the auditor's opinion on the supplementary information is in relation to the financial statements as a whole. Accordingly, in this situation, materiality is considered at a level that represents the entire governmental entity.

### **Reporting (Ref: par. .09–.13)**

**.A16** When reporting on supplementary information in a separate report, the auditor may consider including an alert that restricts the use of the separate report solely to the appropriate specified parties, in accordance with section 905, *Alert That Restricts the Use of the Auditor's Written Communication*, to avoid potential misinterpretation or misunderstanding of the supplementary information that is not presented with the financial statements. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

---

<sup>4</sup> Paragraph .A24 of section 580, *Written Representations*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

<sup>5</sup> Paragraphs .18–.24 of section 501, *Audit Evidence—Specific Considerations for Selected Items*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A17

## **Exhibit—Illustrative Reporting Examples When the Auditor Is Reporting on Supplementary Information in Relation to the Financial Statements as a Whole**

Illustration 1—An Other-Matter Paragraph When the Auditor Is Issuing an Unmodified Opinion on the Financial Statements and an Unmodified Opinion on the Supplementary Information

Illustration 2—An Other-Matter Paragraph When the Auditor Is Issuing a Qualified Opinion on the Financial Statements and a Qualified Opinion on the Supplementary Information

Illustration 3—An Other-Matter Paragraph When the Auditor Is Disclaiming an Opinion on the Financial Statements

Illustration 4—An Other-Matter Paragraph When the Auditor Is Issuing an Adverse Opinion on the Financial Statements

Illustration 5—A Separate Report When the Auditor Is Issuing an Unmodified Opinion on the Financial Statements and an Unmodified Opinion on the Supplementary Information

Illustration 6—A Separate Report When the Auditor Is Issuing a Qualified Opinion on the Financial Statements and a Qualified Opinion on the Supplementary Information

Illustration 7—A Separate Report When the Auditor Is Disclaiming an Opinion on the Financial Statements

Illustration 8—A Separate Report When the Auditor Is Issuing an Adverse Opinion on the Financial Statements

### **Illustration 1 — An Other-Matter Paragraph When the Auditor Is Issuing an Unmodified Opinion on the Financial Statements and an Unmodified Opinion on the Supplementary Information**

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The *[identify accompanying supplementary information]* is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

## **Illustration 2—An Other-Matter Paragraph When the Auditor Is Issuing a Qualified Opinion on the Financial Statements and a Qualified Opinion on the Supplementary Information**

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The [*identify accompanying supplementary information*] is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, except for the effect on the supplementary information of [*describe reason for qualification of the auditor's opinion on the financial statements and reference the other-matter paragraph*], the information is fairly stated in all material respects in relation to the financial statements as a whole.

### **Illustration 3—An Other-Matter Paragraph When the Auditor Is Disclaiming an Opinion on the Financial Statements**

We were engaged for the purpose of forming an opinion on the basic financial statements as a whole. The [*identify accompanying supplementary information*] is presented for the purposes of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described above [*the auditor may describe the basis for the disclaimer of opinion*], it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

**Illustration 4—An Other-Matter Paragraph When the Auditor Is Issuing an Adverse Opinion on the Financial Statements**

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The [*identify accompanying supplementary information*] is presented for the purposes of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described above [*the auditor may describe the basis for the adverse opinion*], it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

### **Illustration 5—A Separate Report When the Auditor Is Issuing an Unmodified Opinion on the Financial Statements and an Unmodified Opinion on the Supplementary Information**

We have audited the financial statements of XYZ Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated [*date of the auditor's report on the financial statements*] which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. The [*identify supplementary information*] is presented for the purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

## **Illustration 6—A Separate Report When the Auditor Is Issuing a Qualified Opinion on the Financial Statements and a Qualified Opinion on the Supplementary Information**

We have audited the financial statements of XYZ Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated [*date of the auditor's report on the financial statements, the nature of the opinion expressed on the financial statements, and a description of the report modifications*]. Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. The [*identify supplementary information*] is presented for the purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, except for the effect on the accompanying information of the qualified opinion on the financial statements as described above, the information is fairly stated in all material respects in relation to the financial statements as a whole.

### **Illustration 7—A Separate Report When the Auditor Is Disclaiming an Opinion on the Financial Statements**

We were engaged to audit the financial statements of XYZ Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated [*date of the auditor's report on the financial statements*]. However, the scope of our audit of the financial statements was not sufficient to enable us to express an opinion because [*describe reasons*] and accordingly we did not express an opinion on such financial statements. The [*identify the supplementary information*] is presented for purposes of additional analysis and is not a required part of the basic financial statements. Because of the significance of the matter discussed above, it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

## Illustration 8—A Separate Report When the Auditor Is Issuing an Adverse Opinion on the Financial Statements

We have audited the financial statements of XYZ Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated *[date of the auditor's report on the financial statements]* which stated that the financial statements are not presented fairly in accordance with *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America [GAAP])]* because *[describe reasons]*. The *[identify the supplementary information]* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Because of the significance of the matter discussed above, it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

## AU-C Section 9725

# ***Supplementary Information in Relation to the Financial Statements as a Whole: Auditing Interpretations of Section 725***

### **1. Dating the Auditor's Report on Supplementary Information**

**.01 Question**—In accordance with section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*,<sup>1</sup> the auditor's report on supplementary information should not be dated earlier than the date on which the auditor completed the procedures required by section 725.<sup>2</sup> When the auditor completes those procedures subsequent to the date of the auditor's report on the audited financial statements, the auditor is not required to obtain additional evidence with respect to the audited financial statements. When reporting on the supplementary information (either in a separate report or in an other-matter paragraph within the auditor's report on the financial statements) after the date of the auditor's report on the financial statements, how may an auditor make it clear that no additional procedures were performed on the audited financial statements subsequent to the date of the auditor's report on those financial statements?

**.02 Interpretation**—Although not required, an auditor may

- a. when issuing a separate report on the supplementary information, include in such report a statement that the auditor has not performed any auditing procedures with respect to the audited financial statements subsequent to the date of the auditor's report on those audited financial statements (see paragraph .03 of this interpretation), or
- b. when reissuing a report on the audited financial statements to include an other-matter paragraph to report on the supplementary information, include two report dates to indicate that the date of reporting on the supplementary information is as of a later date (see paragraph .04 of this interpretation).

**.03** The following illustrative separate report on supplementary information includes additional language intended to make it clear that no procedures were performed subsequent to the date of the auditor's report on the audited financial statements.

---

<sup>1</sup> Paragraph .12 of section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*.

<sup>2</sup> Paragraph .07 of section 725.

**Independent Auditor's Report on [Identify Supplementary Information]**

[Appropriate Addressee]

We have audited the financial statements of XYZ Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated [date of the auditor's report on the financial statements, for example, "September 15, 20X1"] which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. *We have not performed any procedures with respect to the audited financial statements subsequent to [date of the auditor's report on the financial statements, for example, "September 15, 20X1"].*

The [identify supplementary information] is presented for the purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

[Auditor's signature]

[Auditor's city and state]

December 1, 20X1 [Date of the auditor's report on the supplementary information—not to be earlier than the date on which the auditor completed the procedures required by section 725<sup>3</sup>]

**.04** The following illustrative report on the audited financial statements includes an other-matter paragraph to report on supplementary information subsequent to the date of the report on the audited financial statements. For this illustration, March 31, 20X2, is the original date of the report on the audited financial statements.

**Independent Auditor's Report**

[Appropriate Addressee]

**Report on the Financial Statements**

We have audited the accompanying consolidated financial statements of ABC Company and its subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X1 and 20X0, and the related consolidated statements of income, changes in stockholders' equity and cash flows for the years then ended, and the related notes to the financial statements.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

---

<sup>3</sup> Paragraph .07 of section 725.

**Auditor's Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of ABC Company and its subsidiaries as of December 31, 20X1 and 20X0, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**Report on [Identify Supplementary Information]**

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The [*identify accompanying supplementary information*] is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

[*Auditor's signature*]

[*Auditor's city and state*]

March 31, 20X2, except for our report on the supplementary information for which the date is June 1, 20X2 [Date of the auditor's report on the audited financial statements, with a later date used for the paragraph labeled "Report on [*identify supplementary information*]," which is as of a date not earlier than the date on which the auditor completed the procedures required by paragraph .07 of section 725.]

[Issue Date: July 2011; Revised: October 2011.]

---

## AU-C Section 730

### ***Required Supplementary Information***

(Supersedes SAS No. 52 section 558.)

Source: SAS No. 120; SAS No. 122.

**Effective for audits of financial statements for periods beginning on or after December 15, 2010, unless otherwise indicated. Early application is permitted.**

#### NOTE

To address practice issues, Statement on Auditing Standards (SAS) No. 120, *Required Supplementary Information*, was issued in February 2010 as a SAS resulting from the Clarification and Convergence Project of the Auditing Standards Board, and became effective for audits of financial statements for periods beginning on or after December 15, 2010.

SAS No. 120 was previously codified as AU section 558 until December 2013, when all AU sections were deleted from AICPA *Professional Standards*, as described in the AU-C Foreword. SAS No. 122, *Statement on Auditing Standards: Clarification and Recodification*, redesignated AU section 558 as section 730 but did not supersede SAS No. 120.

This section contains conforming changes necessary in specific paragraphs and footnotes due to the issuance of SAS No. 122.

## Introduction

### Scope of This Section

.01 This section addresses the auditor's responsibility with respect to information that a designated accounting standards setter requires to accompany an entity's basic financial statements (hereinafter referred to as *required supplementary information*). In the absence of any separate requirement in the particular circumstances of the engagement, the auditor's opinion on the basic financial statements does not cover required supplementary information. (Ref: par. .A1) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

### Effective Date

.02 This section is effective for audits of financial statements for periods beginning on or after December 15, 2010. Early application is permitted.

### Objective

.03 The objectives of the auditor when a designated accounting standards setter requires information to accompany an entity's basic financial statements are to perform specified procedures in order to

- a. describe, in the auditor's report, whether required supplementary information is presented and
- b. communicate therein when some or all of the required supplementary information has not been presented in accordance with guidelines established by a designated accounting standards setter or when the auditor has identified material modifications that should be made to the required supplementary information for it to be in accordance with guidelines established by the designated accounting standards setter.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

## Definitions

.04 For purposes of this section, the following terms have the meanings attributed as follows:

**Applicable financial reporting framework.** The financial reporting framework adopted by management and, when appropriate, those charged with governance in the preparation and fair presentation of the financial statements that is acceptable in view of the nature of the entity and the objective of the financial statements, or that is required by law or regulation.

**Basic financial statements.** Financial statements presented in accordance with an applicable financial reporting framework as established by a designated accounting standards setter, excluding required supplementary information.

**Designated accounting standards setter.** A body designated by the Council of the AICPA to promulgate GAAP pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct.

**Prescribed guidelines.** The authoritative guidelines established by the designated accounting standards setter for the methods of measurement and presentation of the required supplementary information.

**Required supplementary information.** Information that a designated accounting standards setter requires to accompany an entity's basic financial statements. Required supplementary information is not part of the basic financial statements; however, a designated accounting standards setter considers the information to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. In addition, authoritative guidelines for the methods of measurement and presentation of the information have been established.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

## Requirements

### Procedures

**.05** The auditor should apply the following procedures to required supplementary information:

- a. Inquire of management about the methods of preparing the information, including (i) whether it has been measured and presented in accordance with prescribed guidelines, (ii) whether methods of measurement or presentation have been changed from those used in the prior period and the reasons for any such changes, and (iii) whether there were any significant assumptions or interpretations underlying the measurement or presentation of the information
- b. Compare the information for consistency with (i) management's responses to the foregoing inquiries, (ii) the basic financial statements, and (iii) other knowledge obtained during the audit of the basic financial statements
- c. Obtain written representations from management (i) that it acknowledges its responsibility for the required supplementary information; (ii) about whether the required supplementary information is measured and presented in accordance with prescribed guidelines; (iii) about whether the methods of measurement or presentation have changed from those used in the prior period and, if so, the reasons for such changes; and (iv) about any significant assumptions or interpretations underlying the measurement or presentation of the required supplementary information<sup>1</sup>

**.06** If the auditor is unable to complete the procedures in paragraph .05, the auditor should consider whether management contributed to the auditor's inability to complete the procedures. If the auditor concludes that the inability to complete the procedures was due to significant difficulties encountered in dealing with management, the auditor should inform those charged with governance.<sup>2</sup>

### Reporting

**.07** The auditor should include an other-matter paragraph in the auditor's report on the financial statements to refer to the required supplementary information in accordance with section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.<sup>3</sup> The other-matter paragraph should include language to explain the following circumstances, as applicable:

---

<sup>1</sup> See section 580, *Written Representations*, for additional requirements and guidance with respect to obtaining written representations from management as part of an audit of financial statements performed in accordance with generally accepted auditing standards. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

<sup>2</sup> See paragraph .12 of section 260, *The Auditor's Communication With Those Charged With Governance*, for additional guidance when the auditor encounters significant difficulties in dealing with management during the audit. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

<sup>3</sup> Paragraph .08 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

- a. The required supplementary information is included, and the auditor has applied the procedures in paragraph .05 of this section.
- b. The required supplementary information is omitted.
- c. Some required supplementary information is missing and some is presented in accordance with the prescribed guidelines.
- d. The auditor has identified material departures from the prescribed guidelines.
- e. The auditor is unable to complete the procedures in paragraph .05 of this section.
- f. The auditor has unresolved doubts about whether the required supplementary information is presented in accordance with prescribed guidelines.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.08** If the entity has presented all or some of the required supplementary information, the other-matter paragraph referred to in paragraph .07 should include the following elements: (Ref: par. .A2)

- a. A statement that [*identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)*] require that the [*identify the required supplementary information*] be presented to supplement the basic financial statements
- b. A statement that such information, although not a part of the basic financial statements, is required by [*identify designated accounting standards setter*], who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- c. If the auditor is able to complete the procedures in paragraph .05,
  - i. a statement that the auditor has applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to the auditor's inquiries, the basic financial statements, and other knowledge the auditor obtained during the audit of the basic financial statements
  - ii. a statement that the auditor does not express an opinion or provide any assurance on the information because the limited procedures do not provide the auditor with sufficient evidence to express an opinion or provide any assurance
- d. If the auditor is unable to complete the procedures in paragraph .05,
  - i. a statement that the auditor was unable to apply certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States because [*state the reasons*]
  - ii. a statement that the auditor does not express an opinion or provide any assurance on the information

- e. If some of the required supplementary information is omitted,
  - i. a statement that management has omitted [*description of the missing required supplementary information*] that [*identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)*] require to be presented to supplement the basic financial statements
  - ii. a statement that such missing information, although not a part of the basic financial statements, is required by [*identify designated accounting standards setter*], who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
  - iii. a statement that the auditor's opinion on the basic financial statements is not affected by the missing information
- f. If the measurement or presentation of the required supplementary information departs materially from the prescribed guidelines, a statement that although the auditor's opinion on the basic financial statements is not affected, material departures from prescribed guidelines exist [*describe the material departures from the applicable financial reporting framework*]
- g. If the auditor has unresolved doubts about whether the required supplementary information is measured or presented in accordance with prescribed guidelines, a statement that although the auditor's opinion on the basic financial statements is not affected, the results of the limited procedures have raised doubts about whether material modifications should be made to the required supplementary information for it to be presented in accordance with guidelines established by [*identify designated accounting standards setter*]

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.09** If all of the required supplementary information is omitted, the other-matter paragraph should include the following elements:

- a. A statement that management has omitted [*description of the missing required supplementary information*] that [*identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)*] require to be presented to supplement the basic financial statements
- b. A statement that such missing information, although not a part of the basic financial statements, is required by [*identify designated accounting standards setter*], who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- c. A statement that the auditor's opinion on the basic financial statements is not affected by the missing information

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

## Application and Other Explanatory Material

### Scope of This Section (Ref: par. .01)

**.A1** The auditor's responsibility for financial and nonfinancial information (other than the financial statements and the auditor's report thereon) that is included in a document containing audited financial statements and the auditor's report thereon but that is not required by a designated accounting standards setter is addressed in section 720, *Other Information in Documents Containing Audited Financial Statements*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

### Reporting (Ref: par. .07–.09)

**.A2** Because the required supplementary information accompanies the basic financial statements, the auditor's report on the financial statements includes a discussion of the responsibility taken by the auditor on that information. However, because the required supplementary information is not part of the basic financial statements, the auditor's opinion on the fairness of presentation of such financial statements in accordance with the applicable financial reporting framework is not affected by the presentation by the entity of the required supplementary information or the failure to present some or all of such required supplementary information. Furthermore, if the required supplementary information is omitted by the entity, the auditor does not have a responsibility to present that information.

.A3

## **Exhibit—Examples of Other-Matter Paragraphs When Reporting on Required Supplementary Information**

Illustration 1—The Required Supplementary Information Is Included, the Auditor Has Applied the Specified Procedures, and No Material Departures From Prescribed Guidelines Have Been Identified

Illustration 2—All Required Supplementary Information Omitted

Illustration 3—Some Required Supplementary Information Is Omitted and Some Is Presented in Accordance With the Prescribed Guidelines

Illustration 4—Material Departures From Prescribed Guidelines Identified

Illustration 5—Specified Procedures Not Completed

Illustration 6—Unresolved Doubts About Whether the Required Supplementary Information Is in Accordance With Prescribed Guidelines

### **Illustration 1 — The Required Supplementary Information Is Included, the Auditor Has Applied the Specified Procedures, and No Material Departures From Prescribed Guidelines Have Been Identified**

*[Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require that the *[identify the required supplementary information]* on page XX be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Illustration 2—All Required Supplementary Information Omitted**

Management has omitted [*describe the missing required supplementary information*] that [*identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)*] require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by [*identify designated accounting standards setter*] who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

### **Illustration 3—Some Required Supplementary Information Is Omitted and Some Is Presented in Accordance With the Prescribed Guidelines**

*[Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require that *[identify the included supplementary information]* be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with evidence sufficient to express an opinion or provide any assurance.

Management has omitted *[describe the missing required supplementary information]* that *[identify the applicable financial reporting framework]* require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

## Illustration 4—Material Departures From Prescribed Guidelines Identified

*[Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require that the *[identify the supplementary information]* on page XX be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. Although our opinion on the basic financial statements is not affected, the following material departures from the prescribed guidelines exist *[identify the required supplementary information and describe the material departures from the prescribed guidelines]*. We do not express an opinion or provide any assurance on the information.

**Illustration 5—Specified Procedures Not Completed**

*[Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require that the *[identify the supplementary information]* on page XX be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We were unable to apply certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America because *[state the reasons]*. We do not express an opinion or provide any assurance on the information.

## Illustration 6—Unresolved Doubts About Whether the Required Supplementary Information Is in Accordance With Prescribed Guidelines

*[Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require that the *[identify the supplementary information]* on page XX be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. Although our opinion on the basic financial statements is not affected, the results of the limited procedures have raised doubts about whether material modifications should be made to the required supplementary information for it to be presented in accordance with guidelines established by *[identify designated accounting standards setter]*. *[The auditor may consider including in the report the reason(s) he or she was unable to resolve his or her doubts.]*

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

## AU-C Section 800

# ***Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks***

**Source:** SAS No. 122; SAS No. 125; SAS No. 127.

**Effective for audits of financial statements for periods ending on or after December 15, 2012.**

### NOTE

In February 2017 the Auditing Standards Board issued SAS No. 132, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern* (sec. 570), which contains amendments to this section.

The amendments are effective for audits of financial statements for periods ending on or after December 15, 2017, and can be viewed in the appendix of section 570.

## Introduction

### Scope of This Section

**.01** AU-C sections 200–700 apply to an audit of financial statements. This section addresses special considerations in the application of those AU-C sections to an audit of financial statements prepared in accordance with a special purpose framework, which is a cash, a tax, a regulatory, a contractual, or an other basis of accounting. This section does not purport to address all special considerations that may be relevant in the circumstances. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

**.02** This section is written in the context of a complete set of financial statements prepared in accordance with a special purpose framework. Section 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*, addresses special considerations relevant to an audit of a single financial statement or of a specific element, account, or item of a financial statement.

**.03** Section 910, *Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country*, addresses circumstances in which an auditor practicing in the United States is engaged to report on financial statements that have been prepared in accordance with a financial reporting framework generally accepted in another country not adopted by a body designated by the Council of the AICPA (Council) to promulgate generally accepted accounting principles (GAAP) when such audited financial statements are intended for use outside the United States.

**.04** Section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements*, addresses the auditor's responsibility and the form and content of

the report when the auditor is requested to report on the entity's compliance with aspects of contractual agreements or regulatory requirements in connection with the audit of financial statements.

## Effective Date

.05 This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

## Objective

.06 The objective of the auditor, when applying generally accepted auditing standards (GAAS) in an audit of financial statements prepared in accordance with a special purpose framework, is to address appropriately the special considerations that are relevant to

- a. the acceptance of the engagement,
- b. the planning and performance of that engagement, and
- c. forming an opinion and reporting on the financial statements.

## Definitions

.07 For purposes of GAAS, the following terms have the meanings attributed as follows:

**Special purpose financial statements.** Financial statements prepared in accordance with a special purpose framework. (Ref: par. .A1)

**Special purpose framework.** A financial reporting framework other than GAAP that is one of the following bases of accounting: (Ref: par. .A2–.A5)

- a. **Cash basis.** A basis of accounting that the entity uses to record cash receipts and disbursements and modifications of the cash basis having substantial support (for example, recording depreciation on fixed assets).
- b. **Tax basis.** A basis of accounting that the entity uses to file its tax return for the period covered by the financial statements.
- c. **Regulatory basis.** A basis of accounting that the entity uses to comply with the requirements or financial reporting provisions of a regulatory agency to whose jurisdiction the entity is subject (for example, a basis of accounting that insurance companies use pursuant to the accounting practices prescribed or permitted by a state insurance commission).
- d. **Contractual basis.** A basis of accounting that the entity uses to comply with an agreement between the entity and one or more third parties other than the auditor.
- e. **Other basis.** A basis of accounting that uses a definite set of logical, reasonable criteria that is applied to all material items appearing in financial statements.

The cash basis, tax basis, regulatory basis, and other basis of accounting are commonly referred to as *other comprehensive bases of accounting*.

[As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

**.08** Reference to *financial statements* in this section means "a complete set of special purpose financial statements, including the related notes."<sup>1</sup> The related notes ordinarily comprise a summary of significant accounting policies and other explanatory information. The requirements of the applicable financial reporting framework determine the form and content of the financial statements and what constitutes a complete set of financial statements.

**.09** Reference to *GAAP* in GAAS means generally accepted accounting principles promulgated by bodies designated by Council pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct. [Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

## Requirements

### Considerations When Accepting the Engagement

#### **Acceptability of the Financial Reporting Framework (Ref: par. .A6–.A9)**

**.10** Section 210, *Terms of Engagement*, requires the auditor to determine the acceptability of the financial reporting framework applied in the preparation of the financial statements.<sup>2</sup> In an audit of special purpose financial statements, the auditor should obtain an understanding of

- a. the purpose for which the financial statements are prepared,
- b. the intended users, and
- c. the steps taken by management to determine that the applicable financial reporting framework is acceptable in the circumstances.

#### **Preconditions for an Audit (Ref: par. .A10)**

**.11** Section 210 requires the auditor to establish whether the preconditions for an audit are present, including determining whether the financial reporting framework to be applied in the preparation of the financial statements is acceptable.<sup>3</sup> In an audit of special purpose financial statements, the auditor should obtain the agreement of management that it acknowledges and understands its responsibility to include all informative disclosures that are appropriate for the special purpose framework used to prepare the entity's financial statements, including

- a. a description of the special purpose framework, including a summary of significant accounting policies, and how the framework differs from GAAP, the effects of which need not be quantified.
- b. informative disclosures similar to those required by GAAP, in the case of special purpose financial statements that contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP.

---

<sup>1</sup> Paragraphs .14 and .A9 of section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*.

<sup>2</sup> Paragraph .06a of section 210, *Terms of Engagement*.

<sup>3</sup> Paragraph .06 of section 210.

- c. a description of any significant interpretations of the contract on which the special purpose financial statements are based, in the case of special purpose financial statements prepared in accordance with a contractual basis of accounting.
- d. additional disclosures beyond those specifically required by the framework that may be necessary for the special purpose financial statements to achieve fair presentation. (Ref: par. .A11)

[As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

## Considerations When Planning and Performing the Audit (Ref: par. .A12–.A15)

.12 Section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*, requires the auditor to comply with all AU-C sections relevant to the audit.<sup>4</sup> In planning and performing an audit of special purpose financial statements, the auditor should adapt and apply all AU-C sections relevant to the audit as necessary in the circumstances of the engagement.

.13 Section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, requires the auditor to obtain an understanding of the entity's selection and application of accounting policies.<sup>5</sup> In the case of special purpose financial statements prepared in accordance with a contractual basis of accounting, the auditor should obtain an understanding of any significant interpretations of the contract that management made in the preparation of those financial statements. An interpretation is significant when adoption of another reasonable interpretation would have produced a material difference in the information presented in the financial statements.

## Forming an Opinion and Reporting Considerations

.14 When forming an opinion and reporting on special purpose financial statements, the auditor should apply the requirements in section 700, *Forming an Opinion and Reporting on Financial Statements*. When, in forming an opinion, the auditor concludes that a modification to the auditor's opinion on the financial statements is necessary, the auditor should apply the requirements in section 705, *Modifications to the Opinion in the Independent Auditor's Report*. (Ref: par. .A16)

## Description of the Applicable Financial Reporting Framework (Ref: par. .A17–.A18)

.15 Section 700 requires the auditor to evaluate whether the financial statements adequately refer to or describe the applicable financial reporting framework.<sup>6</sup> In an audit of special purpose financial statements, the auditor should evaluate whether the financial statements are suitably titled, include a summary of significant accounting policies, and adequately describe how the special purpose framework differs from GAAP. The effects of these differences need not be quantified.

---

<sup>4</sup> Paragraph .20 of section 200.

<sup>5</sup> Paragraph .12c of section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*.

<sup>6</sup> Paragraph .18 of section 700, *Forming an Opinion and Reporting on Financial Statements*.

.16 In the case of special purpose financial statements prepared in accordance with a contractual basis of accounting, the auditor should also evaluate whether the financial statements adequately describe any significant interpretations of the contract on which the financial statements are based.

***Fair Presentation (Ref: par. .A19–.A23)***

.17 Section 700 requires the auditor to evaluate whether the financial statements achieve fair presentation.<sup>7</sup> In an audit of special purpose financial statements when the special purpose financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP, the auditor should evaluate whether the financial statements include informative disclosures similar to those required by GAAP. The auditor should also evaluate whether additional disclosures, beyond those specifically required by the framework, related to matters that are not specifically identified on the face of the financial statements or other disclosures are necessary for the financial statements to achieve fair presentation.

***Auditor's Report***

.18 Section 700 addresses the form and content of the auditor's report. In the case of an auditor's report on special purpose financial statements, the

- a. explanation of management's responsibility for the financial statements should also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances, when management has a choice of financial reporting frameworks in the preparation of such financial statements.
- b. auditor's report should also describe the purpose for which the financial statements are prepared or refer to a note in the special purpose financial statements that contains that information, when the financial statements are prepared in accordance with
  - i. a regulatory or contractual basis of accounting or
  - ii. an other basis of accounting, and the auditor is required to restrict use of the auditor's report pursuant to paragraph .06a–b of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. (Ref: par. .A24)

[As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

***Alerting Readers in an Emphasis-of-Matter Paragraph That the Financial Statements Are Prepared in Accordance With a Special Purpose Framework (Ref: par. .A25)***

.19 Except for the circumstances described in paragraph .21, the auditor's report on special purpose financial statements should include an *emphasis-of-matter* paragraph,<sup>8</sup> under an appropriate heading, that

- a. indicates that the financial statements are prepared in accordance with the applicable special purpose framework,
- b. refers to the note to the financial statements that describes that framework, and

<sup>7</sup> Paragraph .17 of section 700.

<sup>8</sup> Paragraphs .06–.07 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

- c. states that the special purpose framework is a basis of accounting other than GAAP.

***Restricting the Use of the Auditor's Report in an Other-Matter Paragraph (Ref: par. .A26–.A27)***

.20 Except for the circumstances described in paragraph .21, the auditor's report on special purpose financial statements should include an *other-matter* paragraph,<sup>9</sup> under an appropriate heading, that restricts<sup>10</sup> the use of the auditor's report when the special purpose financial statements are prepared in accordance with

- a. a contractual basis of accounting,
- b. a regulatory basis of accounting, or
- c. an other basis of accounting when required pursuant to paragraph .06a–b of section 905.

[As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125. As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

***Regulatory Basis Financial Statements Intended for General Use (Ref: par. .A28)***

.21 If the special purpose financial statements are prepared in accordance with a regulatory basis of accounting, and the special purpose financial statements together with the auditor's report are intended for general use, the auditor should not include the *emphasis-of-matter* or *other-matter* paragraphs required by paragraphs .19–.20. Instead, the auditor should express an opinion about whether the special purpose financial statements are presented fairly, in all material respects, in accordance with GAAP. The auditor should also, in a separate paragraph, express an opinion about whether the financial statements are prepared in accordance with the special purpose framework.

***Auditor's Report Prescribed by Law or Regulation (Ref: par. .A29–.A32)***

.22 If the auditor is required by law or regulation to use a specific layout, form, or wording of the auditor's report, the auditor's report should refer to GAAS only if the auditor's report includes, at a minimum, each of the following elements:

- a. A title
- b. An addressee
- c. An introductory paragraph that identifies the special purpose financial statements audited
- d. A description of the responsibility of management for the preparation and fair presentation of the special purpose financial statements
- e. A reference to management's responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances when required by paragraph .18a

---

<sup>9</sup> Paragraph .08 of section 706.

<sup>10</sup> See paragraphs .06a–b and .07 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. [Footnote amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

- f. A description of the purpose for which the financial statements are prepared when required by paragraph .18b
- g. A description of the auditor's responsibility to express an opinion on the special purpose financial statements and the scope of the audit, that includes
  - i. A reference to GAAS and, if applicable, the law or regulation
  - ii. A description of an audit in accordance with those standards
- h. An opinion paragraph containing an expression of opinion on the special purpose financial statements and a reference to the special purpose framework used to prepare the financial statements (including identifying the origin of the framework) and, if applicable, an opinion on whether the special purpose financial statements are presented fairly, in all material respects, in accordance with GAAP when required by paragraph .21
- i. An *emphasis-of-matter* paragraph that indicates that the financial statements are prepared in accordance with a special purpose framework when required by paragraph .19
- j. An *other-matter* paragraph that restricts the use of the auditor's report when required by paragraph .20
- k. The auditor's signature
- l. The auditor's city and state
- m. The date of the auditor's report

**.23** If the prescribed specific layout, form, or wording of the auditor's report is not acceptable or would cause an auditor to make a statement that the auditor has no basis to make, the auditor should reword the prescribed form of report or attach an appropriately worded separate report.

## Application and Other Explanatory Material

### Definitions

#### ***Special Purpose Financial Statements and Special Purpose Frameworks*** **(Ref: par. .07)**

**.A1** Special purpose financial statements may be prepared for use by regulatory bodies, the parties to a contract or agreement, or other specified parties. For example, a loan agreement may require the borrower to prepare consolidated financial statements for the lender presented on a contractual basis of accounting, which is not in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) or International Financial Reporting Standards promulgated by the International Accounting Standards Board.

**.A2** There may be circumstances when a regulatory or contractual basis of accounting is based on a general purpose framework, such as U.S. GAAP, but does not comply with all the requirements of that framework.<sup>11</sup> An example is a contract that requires financial statements to be prepared in accordance with most, but not all, of U.S. GAAP. If the financial statements purport to be prepared in accordance with a general purpose framework and such financial

---

<sup>11</sup> The term *general purpose framework* is defined in paragraph .11 of section 700.

statements are materially misstated due to a departure from that framework, section 705 applies.

**.A3** When it is acceptable in the circumstances of the engagement to report, in accordance with this section, on special purpose financial statements that purport to be prepared in accordance with a regulatory or contractual basis of accounting that is based on a general purpose framework, it is inappropriate for the description of the applicable financial reporting framework in the special purpose financial statements to imply full compliance with the general purpose framework. In the example of the contract in paragraph .A2, the description of the applicable financial reporting framework would refer to the financial reporting provisions of the contract, rather than make reference to U.S. GAAP. The requirements in paragraphs .19–.21 are designed to avoid misunderstandings about compliance with the general purpose framework.

**.A4** Financial statements prepared in accordance with a cash basis, tax basis, or an other basis of accounting may be the only financial statements an entity prepares. Such special purpose financial statements may be used by users other than those for whom the financial reporting framework is designed. Despite the broad distribution of the financial statements, the financial statements are still considered to be special purpose financial statements for purposes of GAAS. The requirement in paragraph .19 is designed to avoid misunderstandings about the framework used to prepare the financial statements. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

**.A5** Certain regulators, including state and local government legislators, regulatory agencies, or departments, require financial statements to be prepared in accordance with a financial reporting framework that is based on U.S. GAAP but does not comply with all of the requirements of U.S. GAAP. Such frameworks are regulatory bases of accounting, as defined in paragraph .07. In some circumstances, however, the cash or tax basis of accounting may be permitted by a regulator. For purposes of this section, the cash and tax bases of accounting are not regulatory bases of accounting. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

## Considerations When Accepting the Engagement

### ***Acceptability of the Financial Reporting Framework (Ref: par. .10)***

**.A6** In the case of special purpose financial statements, the financial information needs of the intended users are a factor in determining the acceptability of the financial reporting framework applied in the preparation of the financial statements.

**.A7** The applicable financial reporting framework may encompass the financial reporting standards established by an organization that is authorized or recognized to promulgate standards for special purpose financial statements. In that case, those standards will be presumed acceptable for that purpose if the organization follows an established and transparent process involving deliberation and consideration of the views of relevant stakeholders. In some circumstances, law or regulation may prescribe the financial reporting framework to be used by management in the preparation of special purpose financial statements for a certain type of entity. For example, a regulator may establish financial reporting provisions to meet the requirements of that regulator. In the absence of indications to the contrary, such a financial reporting framework is

presumed acceptable for special purpose financial statements prepared by such an entity.

**.A8** The acceptability of the financial reporting framework in the circumstances of the engagement is determined by considering whether the framework exhibits attributes normally exhibited by acceptable financial reporting frameworks. Section 210 discusses the attributes of acceptable financial reporting frameworks, which provide management with an appropriate basis for preparing the financial statements and the auditor with suitable criteria for auditing the financial statements.<sup>12</sup> In the case of a special purpose framework, the relative importance to a particular engagement of each of the attributes normally exhibited by acceptable financial reporting frameworks is a matter of professional judgment. For example, for purposes of establishing the value of net assets of an entity at the date of its sale, the seller and purchaser may have agreed that conservative estimates of allowances for uncollectible accounts receivable are appropriate for their needs, even though such financial information may be biased when compared with financial information prepared in accordance with a general purpose framework. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

**.A9** In the case of financial statements prepared in accordance with a contractual basis of accounting, the parties to the contract or agreement may need to agree on the significant interpretations of the contract on which the special purpose financial statements are based. If agreement cannot be reached, the auditor may determine that the framework is not acceptable.

#### ***Preconditions for an Audit (Ref: par. . 11)***

**.A10** Section 210 also requires the agreed-upon terms of the audit engagement to include references to the expected form and content of any reports to be issued by the auditor and a statement that there may be circumstances in which a report may differ from its expected form and content.<sup>13</sup> The auditor may discuss with management and, when appropriate, those charged with governance how an audit report on financial statements prepared in accordance with a special purpose framework differs from an audit report on financial statements prepared in accordance with a general purpose framework. Discussing the expected form and content of the auditor's report may assist management in understanding its responsibilities related to the audit engagement.

#### ***Achieving Fair Presentation (Ref: par. . 11 d)***

**.A11** In accordance with section 700, the auditor's evaluation of whether the financial statements achieve fair presentation in accordance with the applicable financial reporting framework requires consideration of<sup>14</sup>

- a. the overall presentation, structure and content of the financial statements and
- b. whether the financial statements, including the related notes, represent the underlying transactions and events in a manner that achieves fair presentation.

Also see paragraphs .A19–.A23 of this section.

---

<sup>12</sup> Paragraphs .A2-.A3 of section 210, *Terms of Engagement*. [Footnote added, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

<sup>13</sup> Paragraph .10f of section 210. [Footnote renumbered by the issuance of SAS No. 127, January 2013.]

<sup>14</sup> Paragraph .17 of section 700. [Footnote renumbered by the issuance of SAS No. 127, January 2013.]

## Considerations When Planning and Performing the Audit (Ref: par. .12–.13)

**.A12** Section 200 requires the auditor to comply with (a) relevant ethical requirements relating to financial statement audit engagements and (b) all AU-C sections relevant to the audit. It also requires the auditor to comply with each requirement of an AU-C section unless, in the circumstances of the audit, the entire AU-C section is not relevant or the requirement is not relevant because it is conditional and the condition does not exist. In rare circumstances, the auditor may judge it necessary to depart from a relevant presumptively mandatory requirement in an AU-C section by performing alternative audit procedures to achieve the intent of that requirement.<sup>15</sup>

**.A13** An AU-C section is relevant to the audit when the AU-C section is in effect and the circumstances addressed by the AU-C section exist.<sup>16</sup> In an audit of special purpose financial statements, some of the requirements within the relevant AU-C sections may need to be adapted by the auditor. For example, in section 320, *Materiality in Planning and Performing an Audit*, judgments about matters that are material to users of the financial statements are based on a consideration of the common financial information needs of users as a group.<sup>17</sup> In an audit of special purpose financial statements, those judgments may be based on a consideration of the financial information needs of the intended users.

**.A14** In the case of special purpose financial statements, such as those prepared in accordance with a contractual basis of accounting, management may agree with the intended users on a threshold below which misstatements identified during the audit will not be corrected or otherwise adjusted. The existence of such a threshold does not relieve the auditor from the requirement to determine materiality in accordance with section 320 for purposes of planning and performing the audit of the special purpose financial statements. With respect to interpretations of the contract on which the special purpose financial statements are based, the auditor may determine that an interpretation is significant based on qualitative considerations.

**.A15** Communication with those charged with governance in accordance with GAAS is based on the relationship between those charged with governance and the financial statements subject to audit, in particular, whether those charged with governance are responsible for overseeing the preparation of those financial statements. In the case of special purpose financial statements, those charged with governance may not have such a responsibility; for example, when the financial information is prepared solely for management's use. In such cases, the requirements of section 260, *The Auditor's Communication With Those Charged With Governance*, may not be relevant to the audit of the special purpose financial statements, except when the auditor is also responsible for the audit of the entity's general purpose financial statements or, for example, has agreed to communicate with those charged with governance of the entity relevant matters identified during the audit of the special purpose financial statements.

<sup>16</sup> Paragraph .20 of section 200. [Footnote renumbered by the issuance of SAS No. 127, January 2013.]

<sup>17</sup> Paragraph .02 of section 320, *Materiality in Planning and Performing an Audit*. [Footnote renumbered by the issuance of SAS No. 127, January 2013.]

## Forming an Opinion and Reporting Considerations (Ref: par. .14)

.A16 Appendix A, "Overview of Reporting Requirements," provides an overview of the reporting requirements depending on the special purpose framework. The exhibit, "Illustrations of Auditor's Reports on Special Purpose Financial Statements," contains illustrations of auditor's reports on special purpose financial statements.

### ***Description of the Applicable Financial Reporting Framework*** (Ref: par. .15–.16)

.A17 Terms such as *balance sheet*, *statement of financial position*, *statement of income*, *statement of operations*, and *statement of cash flows*, or similar unmodified titles, are generally understood to be applicable only to financial statements that are intended to present financial position, results of operations, or cash flows in accordance with GAAP. Accordingly, the auditor is required by paragraph .15 to evaluate whether the financial statements are suitably titled. For example, cash basis financial statements might be titled as a statement of assets and liabilities arising from cash transactions or as a statement of revenue collected and expenses paid; a financial statement prepared on a regulatory basis of accounting might be titled as a statement of income—regulatory basis.

.A18 The description of how the special purpose framework differs from GAAP ordinarily only includes the material differences between GAAP and the special purpose framework. For example, if several items are accounted for differently under the special purpose framework than they would be under U.S. GAAP, but only the differences in how depreciation is calculated are material, a brief description of the depreciation differences is all that would be necessary, and the remaining differences need not be described. The differences need not be quantified.

### ***Fair Presentation*** (Ref: par. .17)

.A19 Financial statements, including the related notes, that achieve a fair presentation include all informative disclosures that are appropriate for the applicable financial reporting framework, including matters that affect their use, understanding, and interpretation. Also refer to paragraph .A11.

.A20 When the special purpose financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP, informative disclosures similar to those required by GAAP are necessary to achieve fair presentation. For example, financial statements prepared on a tax basis or on a modified cash basis of accounting usually reflect depreciation, long-term debt, and owners' equity. Thus, the informative disclosures for depreciation, long-term debt, and owners' equity in such financial statements would be comparable to those in financial statements prepared in accordance with GAAP.

.A21 Disclosures in special purpose financial statements may substitute qualitative information for some of the quantitative information required by GAAP or may provide information that communicates the substance of those requirements. For example, disclosing estimated percentages of revenues, rather than amounts that GAAP presentations would require, may sufficiently convey the significance of sales or leasing to related parties or major customers.

.A22 The auditor is required by paragraph .17 to evaluate whether additional disclosures, beyond those specifically required by the framework, related

to matters that are not specifically identified on the face of the financial statements or other disclosures may be necessary for the special purpose financial statements to achieve fair presentation. For example, these disclosures may include matters about related party transactions, restrictions on assets and owners' equity, subsequent events, and significant uncertainties. In such circumstances, the special purpose financial statements would include the same disclosure required by GAAP or disclosure that communicates the substance of those requirements.

**.A23** Appendix B, "Fair Presentation and Adequate Disclosures," provides additional guidance on evaluating the adequacy of disclosures in financial statements prepared in accordance with a special purpose framework, including matters related to the presentation of financial statements.

### **Auditor's Report (Ref: par. .18b)**

**.A24** When the special purpose financial statements are prepared in accordance with a regulatory or contractual basis of accounting or an other basis of accounting that requires an alert that restricts the use of the auditor's report pursuant to paragraph .06a–b of section 905, the auditor is required by paragraph .18b to describe the purpose for which the financial statements are prepared or refer to a note in the financial statements that contains that information. This is necessary to avoid misunderstandings when the special purpose financial statements are used for purposes other than those for which they were intended. The note to the financial statements may also describe any significant interpretations of the contract on which the financial statements are based. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

### **Alerting Readers in an Emphasis-of-Matter Paragraph That the Financial Statements Are Prepared in Accordance With a Special Purpose Framework (Ref: par. .19)**

**.A25** Special purpose financial statements may be used for purposes other than those for which they were intended. To avoid misunderstandings, paragraph .19 requires the auditor to include an *emphasis-of-matter* paragraph in the auditor's report that alerts users of the auditor's report that the financial statements are prepared in accordance with a special purpose framework and that the basis of accounting is a basis of accounting other than GAAP.

### **Restricting the Use of the Auditor's Report in an Other-Matter Paragraph (Ref: par. .20)**

**.A26** Special purpose financial statements prepared in accordance with a contractual or regulatory basis of accounting are suitable only for a limited number of users who can be presumed to have an adequate understanding of such bases of accounting. For example, special purpose financial statements prepared in accordance with a contractual basis of accounting are developed for and directed only to the parties to the contract or agreement. Accordingly, the alert that restricts the use of the auditor's report is required due to the nature of the report and the potential for the report to be taken out of the context in which the auditor's report was intended to be used. Section 905, *Alert That Restricts the Use of the Auditor's Written Communication*, addresses adding other parties as specified parties. [As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

**.A27** In the case of special purpose financial statements prepared in accordance with a cash or tax basis of accounting, the auditor may consider it necessary in the circumstances of the engagement to include an alert that restricts the use of the auditor's report. [As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

**Regulatory Basis Financial Statements Intended for General Use**  
(Ref: par. .21)

**.A28** Special purpose financial statements prepared in accordance with a regulatory basis of accounting may be intended for general use. Such special purpose financial statements are intended for general use when the financial statements together with the auditor's report are intended for use by parties other than those within the entity and the regulatory agencies to whose jurisdiction the entity is subject or when the financial statements together with the auditor's report are distributed by the entity to parties other than the regulatory agencies to whose jurisdiction the entity is subject, either voluntarily or upon specific request. In such circumstances, the *emphasis-of-matter* and *other-matter* paragraphs described in paragraphs .19–.20 are not required because the auditor is required, in accordance with paragraph .21, to express an opinion about whether the special purpose financial statements are prepared in accordance with GAAP and an opinion about whether the financial statements are prepared in accordance with the special purpose framework.

**Auditor's Report Prescribed by Law or Regulation** (Ref: par. .22–.23)

**.A29** The auditor may be required to comply with legal or regulatory requirements in addition to GAAS. When this is the case, the auditor may be required to use a layout, form, or wording in the auditor's report that differs from that described in this section, such as when printed forms or schedules designed or adopted by the bodies with which they are to be filed prescribe the wording of the auditor's report.

**.A30** When the differences between the legal or regulatory requirements and GAAS relate only to the layout, form, and wording of the auditor's report and, at a minimum, each of the elements identified in paragraph .22 are included in the auditor's report, the auditor's report may refer to GAAS. Accordingly, in such circumstances the auditor is considered to have complied with the requirements of GAAS, even when the layout, form, and wording used in the auditor's report are specified by legal or regulatory reporting requirements. Section 210 addresses circumstances in which law or regulation prescribes the layout, form, or wording of the auditor's report in terms that are significantly different from the requirements of GAAS.<sup>18</sup>

**.A31** Some report forms can be made acceptable by inserting additional wording to include the elements identified in paragraph .22. Other report forms can be made acceptable only by complete revision because the prescribed language of the report calls for statements by the auditor that are not consistent with the auditor's function or responsibility; for example, a report form that requests the auditor to certify the financial statements.

**.A32** This guidance can be applied to other circumstances, for example, reports on financial statements prepared in accordance with a general purpose framework for which a specific layout, form, or wording of the auditor's report is required.

.A34

## Appendix B—Fair Presentation and Adequate Disclosures (Ref: par. .A19–.A22)

When special purpose financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with generally accepted accounting principles (GAAP), paragraph .17 requires the auditor to evaluate whether, the financial statements include informative disclosures similar to those required by GAAP. The auditor is also required to evaluate whether additional disclosures, beyond those specifically required by the framework, related to matters that are not specifically identified on the face of the financial statements or other disclosures are necessary for the financial statements to achieve fair presentation. This appendix provides guidance, in addition to paragraphs .A19–.A22, on evaluating the adequacy of disclosures in financial statements prepared in accordance with a special purpose framework, including matters related to the presentation of financial statements.

If special purpose financial statements contain items for which GAAP would require disclosure, the financial statements may either provide the relevant disclosure that would be required for those items in a GAAP presentation or provide information that communicates the substance of that disclosure. Likewise, if GAAP sets forth requirements that apply to the presentation of financial statements, special purpose financial statements may either comply with those requirements or provide information that communicates the substance of those requirements, without modifying the format of the special purpose financial statements. This may result in substituting qualitative information for some of the quantitative information required for GAAP presentations. For example:

- Disclosure of the repayment terms of significant long-term borrowings may sufficiently communicate information about future principal reduction without providing the summary of principal reduction during each of the next five years.
- Information about the effects of accounting changes, discontinued operations, and extraordinary items could be disclosed in a note to the financial statements without following the GAAP presentation requirements in the statement of results of operations, using those terms, or disclosing net-of-tax effects.
- Instead of showing expenses by their functional classifications in certain industries, a statement of activities could present expenses according to their natural classifications, and a note to the statement could use estimated percentages to communicate information about expenses incurred by the major program and supporting services.
- Instead of showing the amounts of, and changes in, the unrestricted and temporarily and permanently restricted classes of net assets in certain industries, a statement of assets and liabilities could report total net assets or fund balances, a related statement of activities could report changes in those totals, and a note to the financial statements could provide information, using estimated or actual amounts or percentages, about the restrictions on those amounts and on any deferred restricted amounts, describe the major restrictions, and provide information about significant changes in restricted amounts.

For special purpose financial statements, GAAP disclosure requirements that are not relevant to the measurement of the item need not be considered. To illustrate:

- Fair value disclosures for debt and equity securities would not be relevant when the basis of presentation does not adjust the cost of such securities to their fair value.
- Disclosures related to actuarial calculations for contributions to defined benefit plans would not be relevant in financial statements prepared in accordance with the cash or tax basis of accounting.
- Disclosures related to the use of estimates would not be relevant in a presentation that has no estimates, such as the cash basis of accounting.

Special purpose financial statements may not include a statement of cash flows. If a presentation of cash receipts and disbursements is presented in a format similar to a statement of cash flows or if the entity chooses to present such a statement, the statement would either conform to the requirements for a GAAP presentation or communicate their substance. As an example, the statement of cash flows might disclose noncash acquisitions through captions on its face.

Illustration 5—An Auditor's Report on a Complete Set of Financial Statements Prepared in Accordance With a Contractual Basis of Accounting

## Illustration 1—An Auditor's Report on a Complete Set of Financial Statements Prepared in Accordance With the Cash Basis of Accounting

Circumstances include the following:

- The financial statements have been prepared by management of the entity in accordance with the cash basis of accounting (that is, a special purpose framework).
- Management has a choice of financial reporting frameworks.<sup>1</sup>

### **Independent Auditor's Report**

[Appropriate Addressee]

#### ***Report on the Financial Statements***<sup>2</sup>

We have audited the accompanying financial statements of ABC Partnership, which comprise the statement of assets and liabilities arising from cash transactions as of December 31, 20X1, and the related statement of revenue collected and expenses paid for the year then ended, and the related notes to the financial statements.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting described in Note X; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the partnership's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the

---

<sup>1</sup> If management does not have a choice of financial reporting frameworks, the auditor is not required by paragraph .18a to make reference to management's responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances.

<sup>2</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle "Report on Other Legal and Regulatory Requirements" is not applicable.

effectiveness of the partnership's internal control.<sup>3</sup> Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets and liabilities arising from cash transactions of ABC Partnership as of December 31, 20X1, and its revenue collected and expenses paid during the year then ended in accordance with the cash basis of accounting described in Note X.

***Basis of Accounting***<sup>4</sup>

We draw attention to Note X of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

***Report on Other Legal and Regulatory Requirements***

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

---

<sup>3</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

<sup>4</sup> Another appropriate heading may be used.

## Illustration 2—An Auditor’s Report on a Complete Set of Financial Statements Prepared in Accordance With the Tax Basis of Accounting

Circumstances include the following:

- The financial statements have been prepared by management of a partnership in accordance with the basis of accounting the partnership uses for income tax purposes (that is, a special purpose framework).
- Based on the partnership agreement, management does not have a choice of financial reporting frameworks.<sup>1</sup>

### **Independent Auditor’s Report**

*[Appropriate Addressee]*

#### ***Report on the Financial Statements***<sup>2</sup>

We have audited the accompanying financial statements of ABC Partnership, which comprise the statements of assets, liabilities, and capital-income tax basis as of December 31, 20X1, and the related statements of revenue and expenses—income tax basis and of changes in partners’ capital accounts—income tax basis for the year then ended, and the related notes to the financial statements.

#### ***Management’s Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the basis of accounting the Partnership uses for income tax purposes; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor’s Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the partnership’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the

<sup>3</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

<sup>4</sup> Another appropriate heading may be used.

### **Illustration 3—An Auditor’s Report on a Complete Set of Financial Statements Prepared in Accordance With a Regulatory Basis of Accounting (the Financial Statements Together With the Auditor’s Report Are Not Intended for General Use)**

Circumstances include the following:

- The financial statements have been prepared by management of the entity in accordance with the financial reporting provisions established by a regulatory agency (that is, a special purpose framework).
- The financial statements together with the auditor's report are not intended for general use.
- Based on the regulatory requirements, management does not have a choice of financial reporting frameworks.<sup>1</sup>

#### **Independent Auditor's Report**

[Appropriate Addressee]

#### ***Report on the Financial Statements***<sup>2</sup>

We have audited the accompanying financial statements of ABC City, Any State, which comprise cash and unencumbered cash for each fund as of December 31, 20X1, and the related statements of cash receipts and disbursements and disbursements—budget and actual for the year then ended, and the related notes to the financial statements.

#### ***Management’s Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of Section Y of Regulation Z of Any State. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor’s Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the

---

<sup>1</sup> If management has a choice of financial reporting frameworks, paragraph .18a requires that the explanation of management's responsibility for the financial statements also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances.

<sup>2</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle "Report on Other Legal and Regulatory Requirements" is not applicable.

entity's internal control.<sup>3</sup> Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of ABC City as of December 31, 20X1, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the financial reporting provisions of Section Y of Regulation Z of Any State described in Note X.

### ***Basis of Accounting***<sup>4</sup>

We draw attention to Note X of the financial statements, which describes the basis of accounting. As described in Note X to the financial statements, the financial statements are prepared by ABC City on the basis of the financial reporting provisions of Section Y of Regulation Z of Any State, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Any State. Our opinion is not modified with respect to this matter.

### ***Restriction on Use***<sup>5</sup>

Our report is intended solely for the information and use of ABC City and Any State and is not intended to be and should not be used by anyone other than these specified parties.

### ***Report on Other Legal and Regulatory Requirements***

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

---

<sup>3</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

<sup>4</sup> Another appropriate heading may be used.

<sup>5</sup> Another appropriate heading may be used.

## **Illustration 4—An Auditor’s Report on a Complete Set of Financial Statements Prepared in Accordance With a Regulatory Basis of Accounting (the Financial Statements Together With the Auditor’s Report Are Intended for General Use)**

Circumstances include the following:

- The financial statements have been prepared by management of the entity in accordance with the financial reporting provisions established by a regulatory agency (that is, a special purpose framework).
- The financial statements together with the auditor's report are intended for general use.
- Based on the regulatory requirements, management does not have a choice of financial reporting frameworks.<sup>1</sup>
- The variances between the regulatory basis of accounting and accounting principles generally accepted in the United States of America (U.S. GAAP) are not reasonably determinable and are presumed to be material.

### **Independent Auditor's Report**

*[Appropriate Addressee]*

#### ***Report on the Financial Statements***<sup>2</sup>

We have audited the accompanying financial statements of XYZ City, Any State, which comprise cash and unencumbered cash for each fund as of December 31, 20X1, and the related statements of cash receipts and disbursements and disbursements—budget and actual for the year then ended, and the related notes to the financial statements.

#### ***Management’s Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of Section Y of Regulation Z of Any State. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor’s Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

---

<sup>1</sup> If management has a choice of financial reporting frameworks, paragraph .18a requires that the explanation of management's responsibility for the financial statements also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances.

<sup>2</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle "Report on Other Legal and Regulatory Requirements" is not applicable.

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.<sup>3</sup> Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles***

As described in Note X of the financial statements, the financial statements are prepared by XYZ City on the basis of the financial reporting provisions of Section Y of Regulation Z of Any State, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Any State.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note X and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

***Adverse Opinion on U.S. Generally Accepted Accounting Principles***

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of XYZ City as of December 31, 20X1, or changes in financial position or cash flows thereof for the year then ended.

***Opinion on Regulatory Basis of Accounting***

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of XYZ City as of December 31, 20X1, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the financial reporting provisions of Section Y of Regulation Z of Any State described in Note X.

***Report on Other Legal and Regulatory Requirements***

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

---

<sup>3</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

## Illustration 5—An Auditor’s Report on a Complete Set of Financial Statements Prepared in Accordance With a Contractual Basis of Accounting

Circumstances include the following:

- The financial statements have been prepared by management of the entity in accordance with a contractual basis of accounting (that is, a special purpose framework) to comply with the provisions of that contract.
- Based on the provisions of the contract, management does not have a choice of financial reporting frameworks.<sup>1</sup>

### **Independent Auditor's Report**

[Appropriate Addressee]

#### ***Report on the Financial Statements***<sup>2</sup>

We have audited the accompanying financial statements of ABC Company, which comprise the assets and liabilities—contractual basis as of December 31, 20X1, and the revenues and expenses—contractual basis, changes in equity—contractual basis, and cash flows—contractual basis for the year then ended, and the related notes to the financial statements.

#### ***Management’s Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of Section Z of the contract between ABC Company and DEF Company dated January 1, 20X1 (the contract). Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor’s Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the

---

<sup>1</sup> If management has a choice of financial reporting frameworks, paragraph .18a requires that the explanation of management’s responsibility for the financial statements also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances.

<sup>2</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle "Report on Other Legal and Regulatory Requirements" is not applicable.

entity's internal control.<sup>3</sup> Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets and liabilities of ABC Company as of December 31, 20X1, and revenues, expenses, changes in equity, and cash flows for the year then ended in accordance with the financial reporting provisions of Section Z of the contract.

### ***Basis of Accounting***<sup>4</sup>

We draw attention to Note X of the financial statements, which describes the basis of accounting. The financial statements are prepared by ABC Company on the basis of the financial reporting provisions of Section Z of the contract, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the financial reporting provisions of the contract referred to above. Our opinion is not modified with respect to this matter.

### ***Restriction on Use***<sup>5</sup>

Our report is intended solely for the information and use of ABC Company and DEF Company and is not intended to be and should not be used by anyone other than these specified parties.

### ***Report on Other Legal and Regulatory Requirements***

*[Date of the auditor's report]*

---

<sup>3</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence, "Accordingly, we express no such opinion." would not be included.

<sup>4</sup> Another appropriate heading may be used.

<sup>5</sup> Another appropriate heading may be used.

## AU-C Section 805

# ***Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement***

Source: SAS No. 122.

See section 9805 for interpretations of this section.

**Effective for audits of single financial statements or specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2012.**

## Introduction

### Scope of This Section

**.01** AU-C sections 200–700 apply to an audit of financial statements and are to be adapted as necessary in the circumstances when applied to audits of other historical financial information. This section addresses special considerations in the application of those AU-C sections to an audit of a single financial statement or of a specific element, account, or item of a financial statement. The single financial statement or the specific element, account, or item of a financial statement may be prepared in accordance with a general or special purpose framework. If prepared in accordance with a special purpose framework, section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*, also applies to the audit. (Ref: par. .A1–.A3)

**.02** This section does not apply to the report of a component auditor issued as a result of work performed on the financial information of a component at the request of a group engagement team for purposes of an audit of group financial statements (see section 600, *Special Considerations—Audits of Group Financial Statements [Including the Work of Component Auditors]*).

**.03** This section does not override the requirements of the other AU-C sections nor does it purport to address all special considerations that may be relevant in the circumstances of the engagement.

### Effective Date

**.04** This section is effective for audits of single financial statements or specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2012.

### Objective

**.05** The objective of the auditor, when applying generally accepted auditing standards (GAAS) in an audit of a single financial statement or of a specific

element, account, or item of a financial statement, is to address appropriately the special considerations that are relevant to

- a. the acceptance of the engagement;
- b. the planning and performance of that engagement; and
- c. forming an opinion and reporting on the single financial statement or the specific element, account, or item of a financial statement.

## Definitions

**.06** For purposes of this section, reference to

- a. an *element of a financial statement* or an *element* means an *element, account, or item of a financial statement*. (Ref: par. .A4)
- b. a *single financial statement* or a *specific element of a financial statement* includes the related notes. The related notes ordinarily comprise a summary of significant accounting policies and other explanatory information relevant to the financial statement or the specific element.

**.07** Reference to *generally accepted accounting principles* (GAAP) in GAAS means GAAP promulgated by bodies designated by the Council of the AICPA pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 203 1.320.001) of the AICPA Code of Professional Conduct. [Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

## Requirements

### Considerations When Accepting the Engagement

#### **Application of GAAS (Ref: par. .A5--.A7)**

**.08** Section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*, requires the auditor to comply with all AU-C sections relevant to the audit.<sup>1</sup> In the case of an audit of a single financial statement or a specific element of a financial statement, this requirement applies irrespective of whether the auditor is also engaged to audit the entity's complete set of financial statements.

**.09** If the auditor is not also engaged to audit the entity's complete set of financial statements, the auditor should determine whether the audit of a single financial statement or a specific element of those financial statements in accordance with GAAS is practicable. The auditor should also determine whether the auditor will be able to perform procedures on interrelated items, as required by paragraph .13.

---

<sup>1</sup> Paragraph .20 of section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*.

**Acceptability of the Financial Reporting Framework (Ref: par. .A8–.A11)**

.10 Section 210, *Terms of Engagement*, requires the auditor to determine the acceptability of the financial reporting framework applied in the preparation of the financial statements.<sup>2</sup> In the case of an audit of a single financial statement or a specific element of a financial statement, the auditor should obtain an understanding of

- a. the purpose for which the single financial statement or specific element of a financial statement is prepared,
- b. the intended users, and
- c. the steps taken by management to determine that the application of the financial reporting framework is acceptable in the circumstances.

.11 The auditor's determination required by paragraph .10 should include consideration of whether the application of the financial reporting framework will result in a presentation that provides adequate disclosures to enable the intended users to understand the information conveyed in the financial statement or the specific element and the effect of material transactions and events on the information conveyed in the financial statement or the specific element.

**Considerations When Planning and Performing the Audit**

.12 Section 200 states that GAAS is written in the context of an audit of financial statements; it is to be adapted as necessary in the circumstances when applied to audits of other historical financial information.<sup>3</sup> In planning and performing the audit of a single financial statement or a specific element of a financial statement, the auditor should adapt all AU-C sections relevant to the audit as necessary in the circumstances of the engagement. (Ref: par. .A12–.A14)

.13 In the case of an audit of a single financial statement or a specific element of a financial statement, the auditor should perform procedures on inter-related items as necessary to meet the objective of the audit. In the case of an audit of a specific element of a financial statement (Ref: par. .A15)

- a. the auditor should, if the specific element is, or is based upon, the entity's stockholders' equity or the equivalent, perform procedures necessary to obtain sufficient appropriate audit evidence to enable the auditor to express an opinion about financial position, excluding matters related to classification or disclosure that are not relevant to the audit of the specific element.
- b. the auditor should, if the specific element is, or is based upon, the entity's net income or the equivalent, perform procedures necessary to obtain sufficient appropriate audit evidence to enable the auditor to express an opinion about financial position and results of operations, excluding matters related to classification or disclosure that are not relevant to the audit of the specific element.

**Materiality (Ref: par. .A16)**

.14 Section 320, *Materiality in Planning and Performing an Audit*, requires the auditor to determine, when establishing the overall audit strategy,

---

<sup>2</sup> Paragraph .06a of section 210, *Terms of Engagement*.

<sup>3</sup> Paragraph .02 of section 200.

materiality for the financial statements as a whole.<sup>4</sup> In the case of an audit of a single financial statement, the auditor should determine materiality for the single financial statement being reported on rather than for the complete set of financial statements. In the case of an audit of one or more specific elements of a financial statement, the auditor should determine materiality for each individual element reported on rather than the aggregate of all elements or the complete set of financial statements.

## Forming an Opinion and Reporting Considerations

.15 When forming an opinion and reporting on a single financial statement or a specific element of a financial statement, the auditor should apply the requirements in section 700, *Forming an Opinion and Reporting on Financial Statements*, adapted as necessary in the circumstances of the engagement. (Ref: par. .A17–.A18)

### **Reporting on the Entity's Complete Set of Financial Statements and a Single Financial Statement or a Specific Element of Those Financial Statements**

.16 If, in conjunction with an engagement to audit the entity's complete set of financial statements, the auditor undertakes an engagement to audit a single financial statement or a specific element of a financial statement, the auditor should

- a. issue a separate auditor's report and express a separate opinion for each engagement.
- b. indicate in the report on a specific element of a financial statement the date of the auditor's report on the complete set of financial statements and the nature of opinion expressed on those financial statements under an appropriate heading.

.17 Except as required by paragraph .21, an audited single financial statement or an audited specific element of a financial statement may be published together with the entity's audited complete set of financial statements, provided that the presentation of the single financial statement or the specific element is sufficiently differentiated from the complete set of financial statements. The auditor should also differentiate the report on the single financial statement or the specific element of a financial statement from the report on the complete set of financial statements.

.18 If the auditor concludes that the presentation of the audited single financial statement or the audited specific element does not differentiate it sufficiently from the complete set of financial statements, as described in paragraph .17, the auditor should ask management to remedy the situation. The auditor should not release the auditor's report containing the opinion on the single financial statement or the specific element of a financial statement until satisfied with the differentiation.

### **Modified Opinion, Emphasis-of-Matter Paragraph, or Other-Matter Paragraph in the Auditor's Report on the Entity's Complete Set of Financial Statements**

.19 If the opinion in the auditor's report on an entity's complete set of financial statements is modified, the auditor should determine the effect that

---

<sup>4</sup> Paragraph .10 of section 320, *Materiality in Planning and Performing an Audit*.

this may have on the auditor's opinion on a single financial statement or a specific element of those financial statements, in accordance with section 705, *Modifications to the Opinion in the Independent Auditor's Report*.

**.20** In the case of an audit of a specific element of a financial statement, if the auditor's modified opinion on the entity's complete set of financial statements as a whole is relevant to the audit of the specific element, the auditor should (Ref: par. .A19–.A20)

- a. express an adverse opinion on the specific element when the modification of the auditor's opinion on the complete set of financial statements as a whole arises from a material misstatement in such financial statements.
- b. disclaim an opinion on the specific element when the modification of the auditor's opinion on the complete set of financial statements as a whole arises from an inability to obtain sufficient appropriate audit evidence.

**.21** If the auditor concludes that it is necessary to express an adverse opinion or disclaim an opinion on the entity's complete set of financial statements as a whole, an unmodified opinion on a specific element in the same auditor's report would contradict the adverse opinion or disclaimer of opinion on the entity's complete set of financial statements as a whole and would be tantamount to expressing a piecemeal opinion. In the context of a separate audit of a specific element that is included in those financial statements, when the auditor nevertheless considers it appropriate to express an unmodified opinion on that specific element, the auditor should only do so if

- a. that opinion is expressed in an auditor's report that is neither published together with nor otherwise accompanies the auditor's report containing the adverse opinion or disclaimer of opinion and
- b. the specific element does not constitute a major portion of the entity's complete set of financial statements or the specific element is not, or is not based upon, the entity's stockholders' equity or net income or the equivalent.

**.22** A single financial statement is deemed to constitute a major portion of a complete set of financial statements. Therefore, the auditor should not express an unmodified opinion on a single financial statement of a complete set of financial statements if the auditor has expressed an adverse opinion or disclaimed an opinion on the complete set of financial statements as a whole, even if the auditor's report on the single financial statement is neither published together with nor otherwise accompanies the auditor's report containing the adverse opinion or disclaimer of opinion. (Ref: par. .A21)

**.23** If the auditor's report on an entity's complete set of financial statements includes an emphasis-of-matter paragraph or an other-matter paragraph that is relevant to the audit of the single financial statement or the specific element, the auditor should include a similar emphasis-of-matter paragraph or an other-matter paragraph in the auditor's report on the single financial statement or the specific element, in accordance with section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*. (Ref: par. .A20)

**Reporting on an Incomplete Presentation but One That Is Otherwise in Accordance With Generally Accepted Accounting Principles (Ref: par. .A22–.A23)**

.24 When the auditor reports on an incomplete presentation but one that is otherwise in accordance with GAAP, the auditor should include an emphasis-of-matter paragraph<sup>5</sup> in the auditor's report that

- a. states the purpose for which the presentation is prepared and refers to a note in the financial statements that describes the basis of presentation and
- b. indicates that the presentation is not intended to be a complete presentation of the entity's assets, liabilities, revenues, or expenses.

## Application and Other Explanatory Material

### Scope of This Section (Ref: par. .01)

.A1 Section 200 defines the term *historical financial information* as information expressed in financial terms regarding a particular entity, derived primarily from that entity's accounting system, about economic events occurring in past time periods or about economic conditions or circumstances at points in time in the past. It also defines the term *financial statements* as a structured representation of historical financial information, including related notes, intended to communicate an entity's economic resources or obligations at a point in time or the changes therein for a period of time in accordance with a financial reporting framework. The term *financial statements* ordinarily refers to a complete set of financial statements as determined by the requirements of the applicable financial reporting framework, but can also refer to a single financial statement.<sup>6</sup>

.A2 Paragraph .A9 of section 200 provides guidance on what constitutes a complete set of financial statements and also provides the following examples of single financial statements, each of which would include related notes:

- Balance sheet
- Statement of income or statement of operations
- Statement of retained earnings
- Statement of cash flows
- Statement of assets and liabilities
- Statement of changes in owner's equity
- Statement of revenue and expenses
- Statement of operations by product lines

.A3 An attest engagement other than an audit of historical financial information is performed in accordance with Statements on Standards for Attestation Engagements. For example, AT-C section 215, *Agreed-Upon Procedures Engagements*, applies when reporting on the results of applying agreed-upon procedures to one or more specific elements of a financial statement, and AT-C

---

<sup>5</sup> Paragraphs .06–.07 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

<sup>6</sup> Paragraph .14 of section 200.

section 210, *Review Engagements*, provides guidance when reporting on a review of one or more specific elements of a financial statement. [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

## Definitions

### *Element of a Financial Statement (Ref: par. .06)*

**.A4** The appendix, "Examples of Specific Elements, Accounts, or Items of a Financial Statement," lists examples of an element of a financial statement.

## Considerations When Accepting the Engagement

### *Application of GAAS (Ref: par. .08–.09)*

**.A5** Section 200 requires the auditor to comply with (a) relevant ethical requirements relating to financial statement audit engagements and (b) all AU-C sections relevant to the audit. It also requires the auditor to comply with each requirement of an AU-C section, unless, in the circumstances of the audit, the entire AU-C section is not relevant or the requirement is not relevant because it is conditional and the condition does not exist. In rare circumstances, the auditor may judge it necessary to depart from a relevant presumptively mandatory requirement in an AU-C section by performing alternative audit procedures to achieve the intent of that requirement.<sup>7</sup>

### *Complying With Relevant Requirements*

**.A6** Compliance with the requirements of AU-C sections relevant to the audit of a single financial statement or a specific element of a financial statement may not be practicable when the auditor is not also engaged to audit the entity's complete set of financial statements. In such cases, the auditor often does not have the same understanding of the entity and its environment, including its internal control, as an auditor who also audits the entity's complete set of financial statements. The auditor also does not have the audit evidence about the general quality of the accounting records or other accounting information that would be acquired in an audit of the entity's complete set of financial statements. Accordingly, the auditor may need further evidence to corroborate audit evidence acquired from the accounting records. Also see paragraph .A15.

**.A7** In the case of an audit of a specific element of a financial statement, certain AU-C sections require audit work that may be disproportionate to the specific element being audited. For example, although the requirements of section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, are likely to be relevant in the circumstances of an audit of a schedule of accounts receivable (see paragraph .A12), complying with those requirements may not be practicable because of the audit effort required. If the auditor concludes that an audit of a single financial statement or a specific element of a financial statement in accordance with GAAS may not be practicable, the auditor may discuss with management whether another type of engagement might be more practicable, as described in paragraph .A3. [Revised, August 2012, to reflect conforming changes necessary due to the issuance of SAS No. 126.]

---

<sup>7</sup> Paragraphs .16, .20, and .24–.26 of section 200.

**Acceptability of the Financial Reporting Framework (Ref: par. .10–.11)**

**.A8** In the case of an audit of a single financial statement or a specific element of a financial statement, the financial information needs of the intended users are relevant in determining the acceptability of the financial reporting framework applied in the preparation of the single financial statement or the specific element.

**.A9** A single financial statement or a specific element of a financial statement may be prepared in accordance with relevant requirements of a financial reporting framework established by an authorized or recognized standards-setting organization for the preparation of a complete set of financial statements (for example, accounting principles generally accepted in the United States of America [U.S. GAAP] or International Financial Reporting Standards promulgated by the International Accounting Standards Board). If this is the case, determination of the acceptability of the applicable framework may involve considering whether that framework includes all the requirements of the framework that are relevant to the presentation of a single financial statement or a specific element of a financial statement that provides adequate disclosures. The determination of the acceptability of the applicable framework may also include consideration of the following:

- Whether the applicable financial reporting framework is explicitly or implicitly restricted to the preparation of a complete set of financial statements.
- Whether the single financial statement or the specific element of a financial statement will
  - comply fully with each of those requirements of the framework relevant to the particular financial statement or the particular element and the presentation of the financial statement or the specific element, including the related notes. For example, when reporting on a schedule of long-term debt prepared in accordance with U.S. GAAP relevant to that schedule, the schedule of long-term debt, including the related notes, would be comparable to such information in financial statements prepared in accordance with U.S. GAAP.
  - provide, if necessary to achieve fair presentation, disclosures beyond those specifically required by the framework or, in extremely rare circumstances, depart from a requirement of the framework.<sup>8</sup> A single financial statement or a specific element of a financial statement, including the related notes, that achieves a fair presentation includes all informative disclosures that are appropriate for the applicable financial reporting framework, including matters that affect their use, understanding, and interpretation.

**.A10** The auditor may be requested to audit an incomplete presentation but one that is otherwise in accordance with GAAP. For example, an entity wishing to sell a division or product line may present certain assets and liabilities, revenues, and expenses relating to the division or product line being sold. Incomplete presentations may also be required by a regulatory agency or a contract or an agreement. For example, a regulatory agency may require a

---

<sup>8</sup> See paragraph .14 of section 200 for a definition of *financial reporting framework*.

schedule of gross income and certain expenses of an entity's real estate operation in which income and expenses are measured in accordance with GAAP, but *expenses* are defined to exclude certain items, such as interest, depreciation, and income taxes. Also, an acquisition agreement may specify a schedule of gross assets and liabilities of the entity measured in accordance with GAAP but limited to the assets to be sold and liabilities to be transferred pursuant to the agreement. These types of presentations are generally regarded as single financial statements, even though certain items may be excluded only to the extent necessary to meet the purpose for which they were prepared. The requirement in paragraph .24 is designed to avoid misunderstandings about the purpose for which the presentation is prepared.

**.A11** As indicated in paragraph .A10, incomplete presentations may be required by a regulatory agency or a contract or an agreement. Paragraphs .A2–.A3 of section 800 provide guidance on the acceptability of the financial reporting framework when the regulatory or contractual basis of accounting is based on a general purpose framework, such as GAAP. The auditor may determine that it is more appropriate for the description of the applicable financial reporting framework to refer to the regulatory or contractual basis of accounting, rather than make reference to GAAP. As indicated in paragraph .01, if the presentation is prepared in accordance with a special purpose framework, which includes the regulatory and contractual bases of accounting, section 800 also applies to the audit.

## Considerations When Planning and Performing the Audit (Ref: par. .12–.13)

**.A12** An AU-C section is relevant to the audit when the AU-C section is in effect and the circumstances addressed by the AU-C section exist.<sup>9</sup> Even when only a specific element of a financial statement is the subject of the audit, AU-C sections such as section 240, *Consideration of Fraud in a Financial Statement Audit*, section 550, *Related Parties*, and section 570 are, in principle, relevant. This is because the specific element could be misstated as a result of fraud, the effect of related party transactions, or the incorrect application of the going concern assumption under the applicable financial reporting framework. [Revised, August 2012, to reflect conforming changes necessary due to the issuance of SAS No. 126.]

**.A13** Furthermore, GAAS is written in the context of an audit of financial statements; it is to be adapted as necessary in the circumstances when applied to the audit of a single financial statement or a specific element of a financial statement.<sup>10</sup> For example, written representations from management about the complete set of financial statements would be replaced by written representations about the presentation of the single financial statement or the specific element, in accordance with the applicable financial reporting framework.

**.A14** When auditing a single financial statement or a specific element of a financial statement in conjunction with the audit of the entity's complete set of financial statements, the auditor may use audit evidence obtained as part of the audit of the entity's complete set of financial statements in the audit of the single financial statement or the specific element. GAAS, however, requires the auditor to plan and perform the audit of the single financial statement or specific element to obtain sufficient appropriate audit evidence on which to base the opinion on the single financial statement or the specific element.

<sup>9</sup> Paragraph .20 of section 200.

<sup>10</sup> Paragraph .02 of section 200.

**.A15** The individual financial statements that comprise a complete set of financial statements, and many of the elements of those financial statements, including their related notes, are interrelated. For example, sales and receivables, inventory and payables, and buildings and equipment and depreciation each are interrelated. Accordingly, when auditing a single financial statement or a specific element of a financial statement, the auditor may not be able to consider the single financial statement or the specific element in isolation. Consequently, paragraph .13 requires the auditor to perform procedures on interrelated items as necessary to meet the objective of the audit. In the case of an audit of a specific element that is, or is based upon, the entity's stockholders' equity or net income (or the equivalents thereto), paragraph .13 requires the auditor to perform procedures necessary to obtain sufficient appropriate audit evidence about financial position, or financial position and results of operations, respectively, because of the interrelationship between the specific element and the balance sheet accounts and the income statement accounts. However, matters related to classification or disclosure may not be relevant to the audit of the specific element; therefore, audit procedures on such matters may not be necessary in an audit of a specific element.

### **Materiality (Ref: par. .14)**

**.A16** The materiality determined for a single financial statement or a specific element of a financial statement differs from the materiality determined for the entity's complete set of financial statements; this will affect the nature, timing, and extent of the audit procedures and the evaluation of uncorrected misstatements. In the case of an audit of a single financial statement, paragraph .14 requires the auditor to determine materiality for the single financial statement being reported on rather than for the complete set of financial statements. In the case of an audit of one or more specific elements of a financial statement, the auditor's opinion is on each of the specific elements; therefore, paragraph .14 requires the auditor to determine materiality for each individual element reported on rather than the aggregate of all elements or the complete set of financial statements. Consequently, an audit of one or more specific elements of a financial statement is usually more extensive than if the same information was being considered in conjunction with an audit of the complete set of financial statements.

## **Forming an Opinion and Reporting Considerations (Ref: par. .15)**

**.A17** Section 700 requires the auditor, in forming an opinion, to evaluate whether the financial statements provide adequate disclosures to enable the intended users to understand the effect of material transactions and events on the information conveyed in the financial statements.<sup>11</sup> In the case of an audit of a single financial statement or a specific element of a financial statement, it is important, in view of the requirements of the applicable financial reporting framework, that the disclosures enable the intended users to understand

- the information conveyed in the financial statement or the specific element and
- the effect of material transactions and events on the information conveyed in the financial statement or the specific element.

---

<sup>11</sup> Paragraph .16e of section 700, *Forming an Opinion and Reporting on Financial Statements*.

**.A18** The exhibit, "Illustrations of Auditor's Reports on a Single Financial Statement and a Specific Element of a Financial Statements," contains illustrations of auditor's reports.

***Modified Opinion, Emphasis-of-Matter Paragraph, or Other-Matter Paragraph in the Auditor's Report on the Entity's Complete Set of Financial Statements (Ref: par. .19–.23)***

**.A19** In the case of an audit of a specific element of a financial statement, if the opinion in the auditor's report on an entity's complete set of financial statements is modified and the modification is relevant to the audit of the specific element, the modification is material and pervasive with respect to the specific element. Modifications related to an interrelated item of the specific element may also be relevant to the audit of the specific element. Conversely, modifications related solely to classification or disclosure may not be relevant to the audit of the specific element.

**.A20** Even when the modified opinion, emphasis-of-matter paragraph, or other-matter paragraph in the auditor's report on the entity's complete set of financial statements does not relate to the audited single financial statement or the audited element, the auditor may nevertheless deem it appropriate to refer to the modification in an other-matter paragraph in an auditor's report on the single financial statement or the specific element because the auditor judges it to be relevant to the users' understanding of the audited single financial statement or the audited element or the related auditor's report (see section 706).

**.A21** In the auditor's report on an entity's complete set of financial statements, the expression of a disclaimer of opinion regarding the results of operations and cash flows, when relevant, and an unmodified opinion regarding the financial position are permitted because the disclaimer of opinion is being issued on the results of operations and cash flows only and not on the financial statements as a whole.<sup>12</sup>

***Reporting on an Incomplete Presentation but One That Is Otherwise in Accordance With GAAP (Ref: par. .24)***

**.A22** As described in paragraph .A10, the auditor may be requested to audit an incomplete presentation but one that is otherwise in accordance with GAAP. When the auditor reports on an incomplete presentation but one that is otherwise in accordance with GAAP, paragraph .24 requires the auditor to include an emphasis-of-matter paragraph in the auditor's report, which alerts users as to the purpose of the presentation and that the presentation is incomplete. The exhibit illustrates such a paragraph.

**.A23** If the presentation is prepared in accordance with a regulatory or contractual basis of accounting, the requirement in paragraph .24 does not apply. In such circumstances, refer to section 800. See also paragraph .A11 of this section.

---

<sup>12</sup> Paragraph .A17 of section 510, *Opening Balances—Initial Audit Engagements, Including Reaudit Engagements*, and paragraph .A17 of section 705, *Modifications to the Opinion in the Independent Auditor's Report*.

Illustration 3—An Auditor's Report on a Specific Element, Account, or Item of a Financial Statement Prepared in Accordance With a General Purpose Framework

Illustration 4—An Auditor's Report on a Specific Element, Account, or Item of a Financial Statement Prepared in Accordance With a Special Purpose Framework

Illustration 5—An Auditor's Report on an Incomplete Presentation but One That Is Otherwise in Accordance With Generally Accepted Accounting Principles

## Illustration 1—An Auditor's Report on a Single Financial Statement Prepared in Accordance With a General Purpose Framework

Circumstances include the following:

- Audit of a balance sheet (that is, a single financial statement).
- The balance sheet has been prepared by management of the entity in accordance with accounting principles generally accepted in the United States of America.

### Independent Auditor's Report

[Appropriate Addressee]

#### **Report on the Financial Statement<sup>1</sup>**

We have audited the accompanying balance sheet of ABC Company as of December 31, 20X1, and the related notes (the financial statement).<sup>2</sup>

#### ***Management's Responsibility for the Financial Statement***

Management is responsible for the preparation and fair presentation of this financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on the financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### ***Opinion***

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, in accordance with accounting principles generally accepted in the United States of America.

---

<sup>1</sup> The subtitle "Report on the Financial Statement" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

<sup>2</sup> The auditor may refer to the financial statement as the *balance sheet*.

**Report on Other Legal and Regulatory Requirements**

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Date of the auditor's report]*

## Illustration 2—An Auditor’s Report on a Single Financial Statement Prepared in Accordance With a Special Purpose Framework

Circumstances include the following:

- Audit of a statement of cash receipts and disbursements (that is, a single financial statement).
- The financial statement has been prepared by management of the entity in accordance with the cash basis of accounting (a special purpose framework) to respond to a request for cash flow information received from a creditor.<sup>1</sup>
- Management has a choice of financial reporting frameworks.<sup>2</sup>

### **Independent Auditor’s Report**

[Appropriate Addressee]

#### **Report on the Financial Statement**<sup>3</sup>

We have audited the accompanying statement of cash receipts and disbursements of ABC Company for the year ended December 31, 20X1, and the related notes (the financial statement).<sup>4</sup>

#### ***Management’s Responsibility for the Financial Statement***

Management is responsible for the preparation and fair presentation of this financial statement in accordance with the cash basis of accounting described in Note X; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statement in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

#### ***Auditor’s Responsibility***

Our responsibility is to express an opinion on the financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also

<sup>1</sup> Section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*, contains requirements and guidance on the form and content of financial statements prepared in accordance with a special purpose framework.

<sup>2</sup> Paragraph .18a of section 800.

<sup>3</sup> The subtitle "Report on the Financial Statement" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

<sup>4</sup> The auditor may refer to the financial statement as the *statement of cash receipts and disbursements*.

includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the financial statement referred to above presents fairly, in all material respects, the cash receipts and disbursements of ABC Company for the year ended December 31, 20X1, in accordance with the cash basis of accounting described in Note X.

### ***Basis of Accounting***<sup>5</sup>

We draw attention to Note X to the financial statement, which describes the basis of accounting. The financial statement is prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

### **Report on Other Legal and Regulatory Requirements**

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

### **Illustration 3—An Auditor’s Report on a Specific Element, Account, or Item of a Financial Statement Prepared in Accordance With a General Purpose Framework**

Circumstances include the following:

- Audit of a schedule of accounts receivable (that is, a specific element, account, or item of a financial statement).
- The schedule of accounts receivable has been prepared by management of the entity in accordance with accounting principles generally accepted in the United States of America.
- The audit of the schedule of accounts receivable was performed in conjunction with an engagement to audit the entity's complete set of financial statements. The opinion on those financial statements was not modified, and the report did not include an emphasis-of-matter paragraph or other-matter paragraph.

#### **Independent Auditor's Report**

[Appropriate Addressee]

#### **Report on the Schedule<sup>1</sup>**

We have audited the accompanying schedule of accounts receivable of ABC Company as of December 31, 20X1, and the related notes (the schedule).<sup>2</sup>

#### ***Management’s Responsibility for the Schedule***

Management is responsible for the preparation and fair presentation of this schedule in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedule that is free from material misstatement, whether due to fraud or error.

#### ***Auditor’s Responsibility***

Our responsibility is to express an opinion on the schedule based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule.

---

<sup>1</sup> The subtitle "Report on the Schedule" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

<sup>2</sup> The auditor may refer to the schedule as the *schedule of accounts receivable*.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Opinion***

In our opinion, the schedule referred to above presents fairly, in all material respects, the accounts receivable of ABC Company as of December 31, 20X1, in accordance with accounting principles generally accepted in the United States of America.

***Other Matter***

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of ABC Company as of and for the year ended December 31, 20X1, and our report thereon, dated March 15, 20X2, expressed an unmodified opinion on those financial statements.

**Report on Other Legal and Regulatory Requirements**

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

## Illustration 4—An Auditor’s Report on a Specific Element, Account, or Item of a Financial Statement Prepared in Accordance With a Special Purpose Framework

Circumstances include the following:

- Audit of a schedule of royalties applicable to engine production (that is, a specific element, account, or item of a financial statement)
- The financial information has been prepared by management of the entity in accordance with a contractual basis of accounting (that is, a special purpose framework) to comply with the provisions of that contract.<sup>1</sup>
- Based on the provisions of the contract, management does not have a choice of financial reporting frameworks.<sup>2</sup>
- The audit of the schedule was not performed in conjunction with an engagement to audit the entity’s complete set of financial statements.<sup>3</sup>

### **Independent Auditor’s Report**

[Appropriate Addressee]

#### **Report on the Schedule<sup>4</sup>**

We have audited the accompanying schedule of royalties applicable to engine production of the Q Division of ABC Company for the year ended December 31, 20X1, and the related notes (the schedule).<sup>5</sup>

#### ***Management’s Responsibility for the Schedule***

Management is responsible for the preparation and fair presentation of the schedule in accordance with the financial reporting provisions of Section Z of the license agreement between ABC Company and XYZ Corporation dated January 1, 20X1 (the contract). Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedule that is free from material misstatement, whether due to fraud or error.

#### ***Auditor’s Responsibility***

Our responsibility is to express an opinion on the schedule based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule is free from material misstatement.

---

<sup>1</sup> Section 800 contains requirements and guidance on the form and content of financial statements prepared in accordance with a special purpose framework.

<sup>2</sup> Paragraph .18a of section 800.

<sup>3</sup> If the auditor undertakes an engagement to audit a specific element of a financial statement in conjunction with an engagement to audit the entity’s complete set of financial statements, paragraph .16 requires the auditor to indicate in the report on the specific element of a financial statement the date of the auditor’s report on the complete set of financial statements and the nature of opinion expressed on those financial statements under an appropriate heading.

<sup>4</sup> The subtitle "Report on the Schedule" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

<sup>5</sup> The auditor may refer to the schedule as the *schedule of royalties*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the schedule referred to above, presents fairly, in all material respects, the royalties applicable to engine production of the Q Division of ABC Company for the year ended December 31, 20X1, in accordance with the financial reporting provisions of Section Z of the contract.

### ***Basis of Accounting***<sup>6</sup>

We draw attention to Note X to the schedule, which describes the basis of accounting. The schedule was prepared by ABC Company on the basis of the financial reporting provisions of Section Z of the contract, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the financial reporting provisions of the contract referred to above. Our opinion is not modified with respect to this matter.

### ***Restriction on Use***<sup>7</sup>

Our report is intended solely for the information and use of ABC Company and XYZ Corporation and is not intended to be and should not be used by anyone other than these specified parties.

### **Report on Other Legal and Regulatory Requirements**

*[Date of the auditor's report]*

---

<sup>6</sup> Another appropriate heading may be used.

<sup>7</sup> Another appropriate heading may be used.

## Illustration 5—An Auditor's Report on an Incomplete Presentation but One That Is Otherwise in Accordance With Generally Accepted Accounting Principles

Circumstances include the following:

- Audit of the historical summaries of gross income and direct operating expenses (that is, a single financial statement).
- The historical summaries have been prepared by management of the entity in accordance with accounting principles generally accepted in the United States of America but are an incomplete presentation of revenues and expenses.

### **Independent Auditor's Report**

[Appropriate Addressee]

#### **Report on the Historical Summaries<sup>1</sup>**

We have audited the accompanying Historical Summaries of Gross Income and Direct Operating Expenses of ABC Apartments for each of the three years in the period ended December 31, 20X1, and the related notes (the historical summaries).<sup>2</sup>

#### ***Management's Responsibility for the Historical Summaries***

Management is responsible for the preparation and fair presentation of these historical summaries in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the historical summaries that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on the historical summaries based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the historical summaries are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the historical summaries. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the historical summaries, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the historical summaries in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the historical summaries.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

---

<sup>1</sup> The subtitle "Report on the Historical Summaries" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

<sup>2</sup> The auditor may refer to the historical summaries as the *financial statement*.

**Opinion**

In our opinion, the historical summaries referred to above present fairly, in all material respects, the gross income and direct operating expenses described in Note X of ABC Apartments for each of the three years in the period ended December 31, 20X1, in accordance with accounting principles generally accepted in the United States of America.

**Emphasis of Matter**

We draw attention to Note X to the historical summaries, which describes that the accompanying historical summaries were prepared for the purpose of complying with the rules and regulations of Regulator DEF (for inclusion in the filing of Form Z of ABC Company) and are not intended to be a complete presentation of the Company's revenues and expenses. Our opinion is not modified with respect to this matter.

## AU-C Section 9805

# ***Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement: Auditing Interpretations of Section 805***

### **New GASB Pension Standards**

In June 2012, the Governmental Accounting Standards Board (GASB) issued two new standards that will substantially change the accounting and financial reporting of public employee pension plans and the state and local governments that participate in such plans. GASB Statement No. 67, *Financial Reporting for Pension Plans*, revises existing guidance for the financial reports of most governmental pension plans. GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, revises and establishes new financial reporting requirements for most governments that provide their employees with pension benefits. GASB Statement No. 67 is effective for financial statements for periods beginning after June 15, 2013. GASB Statement No. 68 is effective for financial statements for fiscal years beginning after June 15, 2014.

Interpretation No. 1, "Auditor of Governmental Cost-Sharing Multiple-Employer Pension Plan" (paragraphs .01–.07), Interpretation No. 2, "Auditor of Governmental Agent Multiple-Employer Pension Plan" (paragraphs .08–.12), and Interpretation Nos. 2–3 of section 500, *Audit Evidence*, are intended to assist both plan and employer auditors who are auditing entities that have implemented the new accounting standards.

## **1. Auditor of Governmental Cost-Sharing Multiple-Employer Pension Plan**

**.01 Question**—Management of a governmental cost-sharing multiple-employer pension plan (cost-sharing plan or plan) has calculated and prepared a schedule of employer allocations and a schedule of pension amounts, as described in the AICPA's State and Local Governments Expert Panel white paper *Governmental Employer Participation in Cost-Sharing Multiple-Employer Plans: Issues Related to Information for Employer Reporting*. If the plan auditor is engaged to perform an audit on schedules such as those illustrated in exhibit 1, "Schedule of Employer Allocations," and either exhibit 2(a), "Schedule of Pension Amounts by Employer," or exhibit 2(b), "Schedule of Collective Pension Amounts," of this interpretation, what type of audit report may be issued?

**.02 Interpretation**—Because the amounts contained in the previously mentioned schedules are considered elements or items of the cost-sharing plan or

participating employer's financial statements, the elements included in these schedules may be audited under section 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*. An illustrative auditor's report on the schedule of employer allocations and schedule of pension amounts by employer prepared pursuant to section 805 follows.

### **Independent Auditor's Report**

[Appropriate Addressee]

We have audited the accompanying schedule of employer allocations of ABC Pension Plan as of and for the year ended June 30, 20X5, and the related notes. We have also audited the total for all entities of the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense (specified column totals) included in the accompanying schedule of pension amounts by employer of ABC Pension Plan as of and for the year ended June 30, 20X5, and the related notes.<sup>1</sup>

### **Management's Responsibility for the Schedules**

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility<sup>2</sup>**

Our responsibility is to express opinions on the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer, whether due to fraud or error. In making those risk assessments,

---

<sup>1</sup> If the plan prepares a schedule of collective pension amounts as illustrated in exhibit 2(b), "Schedule of Collective Pension Amounts," of this interpretation instead of the schedule of pension amounts by employer as illustrated in exhibit 2(a), "Schedule of Pension Amounts by Employer," of this interpretation, this paragraph would be changed as follows:

We have audited the accompanying schedule of employer allocations of ABC Pension Plan as of and for the year ended June 30, 20X5, and the related notes. We have also audited the columns titled net pension liability, total deferred outflows of resources excluding employer specific amounts, total deferred inflows of resources excluding employer specific amounts, and pension expense (specified column totals) included in the accompanying schedule of collective pension amounts of ABC Pension Plan as of and for the year ended June 30, 20X5, and the related notes.

<sup>2</sup> If the plan prepares a schedule of collective pension amounts as illustrated in exhibit 2(b) of this interpretation, instead of the schedule of pension amounts by employer as illustrated in exhibit 2(a) of this interpretation, all references to "specified column totals included in the schedule of pension amounts by employer" in this section would be replaced with "specified column totals included in the schedule of collective pension amounts."

the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions<sup>3</sup>**

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense for the total of all participating entities for ABC Pension Plan as of and for the year ended June 30, 20X5, in accordance with accounting principles generally accepted in the United States of America.

### **Other Matter**

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of ABC Pension Plan as of and for the year ended June 30, 20X5, and our report thereon, dated October 15, 20X5, expressed an unmodified opinion on those financial statements.

### **Restriction on Use**

Our report is intended solely for the information and use of ABC Plan management, [*identify the body or individuals charged with governance of ABC Plan*], ABC Plan employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

[*Auditor's signature*]

[*Auditor's city and state*]

[*Date of the auditor's report*]

**.03 Question**—In planning and performing an audit of the schedules illustrated in exhibits 1 and 2(a) or exhibit 2(b) of this interpretation, may the plan auditor use the same materiality as used for the audit of the plan's basic financial statements?

**.04 Interpretation**—No. Section 805 states, in part:<sup>4</sup>

In the case of an audit of one or more specific elements of a financial statement, the auditor should determine materiality for each individual element reported on rather than the aggregate of all elements or the complete set of financial statements.

---

<sup>3</sup> If the plan prepares a schedule of collective pension amounts as illustrated in exhibit 2(b) of this interpretation instead of a schedule of pension amounts by employer as illustrated in exhibit 2(a) of this interpretation, this paragraph would be changed as follows:

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources excluding employer specific amounts, total deferred inflows of resources excluding employer specific amounts, and pension expense for ABC Pension Plan as of and for the year ended June 30, 20X5, in accordance with accounting principles generally accepted in the United States of America.

<sup>4</sup> Paragraph .14 of section 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*.

Accordingly, the plan auditor should determine materiality separately for the schedule of employer allocations as well as each of the elements upon which the auditor opines from the schedule of pension amounts (that is, the column totals for net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense).

Schedule of Collective Pension Amounts

As of and for the year ended 6/30/20X5

<i>Deferred Outflows of Resources</i>				<i>Deferred Inflows of Resources</i>				
<i>Net Pension Liability</i>	<i>Differences Between Expected and Actual Experience</i>	<i>Net Difference Between Projected and Actual Earnings on Pension Plan Investments</i>	<i>Changes of Assumptions</i>	<i>Total Deferred Outflows of Resources Excluding Employer Specific Amounts*</i>	<i>Differences Between Expected and Actual Experience</i>	<i>Changes of Assumptions</i>	<i>Total Deferred Inflows of Resources Excluding Employer Specific Amounts*</i>	<i>Pension Expense*</i>

\* Employer specific amounts that are excluded from this schedule are the changes in proportion and differences between employer contributions and proportionate share of contributions as well as the related amortization as defined in paragraphs 54–55 of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*.

[Issue Date: April 2014.]

## 2. Auditor of Governmental Agent Multiple-Employer Pension Plan

**.08 Question**—Management of a governmental agent multiple-employer pension plan (agent plan or plan) has calculated and prepared a schedule of changes in fiduciary net position by employer, as described in the AICPA's State and Local Governments Expert Panel white paper *Governmental Employer Participation in Agent Multiple-Employer Plans: Issues Related to Information for Employer Reporting*. If the plan auditor is engaged to perform an audit on a schedule such as that illustrated in exhibit 3, "Schedule of Changes in Fiduciary Net Position by Employer," of this interpretation, what type of audit report may be issued?

**.09 Interpretation**—Because the amounts contained in the previously mentioned schedule are considered elements or items of the agent plan or participating employer's financial statements, the elements included in this schedule may be audited under section 805. An illustrative auditor's report on the schedule of changes in fiduciary net position by employer as a whole prepared pursuant to section 805 follows.

### **Independent Auditor's Report**

[Appropriate Addressee]

We have audited the fiduciary net position as of June 30, 20X5, and the changes in fiduciary net position for the year then ended, included in the accompanying Schedule of Changes in Fiduciary Net Position by Employer ("Schedule") of ABC Pension Plan, and the related notes.<sup>5</sup>

#### **Management's Responsibility for the Schedule**

Management is responsible for the preparation and fair presentation of the Schedule in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedule that is free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on the fiduciary net position and the changes in fiduciary net position included in the Schedule based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the fiduciary net position and the changes in fiduciary net position included in the Schedule are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Schedule. The procedures selected depend on

---

<sup>5</sup> If the plan engages its auditor to opine on each employer column in the schedule of changes in fiduciary net position by employer as illustrated in exhibit 3, "Schedule of Changes in Fiduciary Net Position by Employer," of this interpretation, in addition to opining on the schedule as a whole, this paragraph would be changed as follows:

We have audited the fiduciary net position as of June 30, 20X5, and the changes in fiduciary net position for the year then ended, included in the accompanying Schedule of Changes in Fiduciary Net Position by Employer (Schedule) of ABC Pension Plan, and the related notes. We have also audited the fiduciary net position of each individual employer as of June 30, 20X5, and the changes in fiduciary net position of each individual employer for the year then ended, included in the accompanying Schedule, and the related notes.

the auditor's judgment, including the assessment of the risks of material misstatement of the fiduciary net position and the changes in fiduciary net position included in the Schedule, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the fiduciary net position and the changes in fiduciary net position included in the Schedule in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the fiduciary net position and the changes in fiduciary net position included in the Schedule.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion<sup>6</sup>**

In our opinion, the Schedule referred to above presents fairly, in all material respects, the fiduciary net position of ABC Pension Plan as of June 30, 20X5, and the changes in fiduciary net position for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

### **Other Matters**

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of ABC Pension Plan as of and for the year ended June 30, 20X5, and our report thereon, dated October 15, 20X5, expressed an unmodified opinion on those financial statements.

Our audit of the financial statements of ABC Pension Plan was conducted for the purpose of forming an opinion on the financial statements as a whole. The individual employer information presented in each of the individual columns of the accompanying Schedule is presented for purposes of additional analysis and is not a required part of the financial statements. The individual employer information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Each column of individual employer information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual employer information presented in each individual column of the accompanying Schedule is stated fairly, in all material respects, in relation to the financial statements of ABC Pension Plan as a

---

<sup>6</sup> If the plan engages its auditor to opine on each employer column in the schedule of changes in fiduciary net position by employer as illustrated in exhibit 3 of this interpretation, in addition to opining on the schedule as a whole, this paragraph would be changed as follows:

In our opinion, the Schedule referred to above presents fairly, in all material respects, the fiduciary net position of ABC Pension Plan as of June 30, 20X5, and the changes in fiduciary net position for the year then ended, in accordance with accounting principles generally accepted in the United States of America. Also, in our opinion, the Schedule referred to above presents fairly, in all material respects, the fiduciary net position of each individual employer as of June 30, 20X5 and the changes in fiduciary net position of each individual employer for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Additionally, the second paragraph of the "Other Matters" section would be eliminated, and the heading would be singular (that is, "Other Matter").

whole. We do not express an opinion on the fiduciary net position or changes in fiduciary net position of each individual employer.<sup>7</sup>

### Restriction on Use

Our report is intended solely for the information and use of ABC Pension Plan management, [*identify the body or individuals charged with governance of ABC Pension Plan*], ABC Pension Plan participating employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

[*Auditor's signature*]

[*Auditor's city and state*]

[*Date of the auditor's report*]

**.10 Question**—In planning and performing an audit of the schedule illustrated in exhibit 3 of this interpretation, may the plan auditor use the same materiality as used for the audit of the plan's basic financial statements?

**.11 Interpretation**—No. Section 805 states, in part:<sup>8</sup>

In the case of an audit of one or more specific elements of a financial statement, the auditor should determine materiality for each individual element reported on rather than the aggregate of all elements or the complete set of financial statements.

As a frame of reference, the plan auditor considers judgments about matters that are material to users of the financial statements based on a consideration of the common financial information needs of users as a group. In the report described in paragraph .09 of this interpretation, the auditor is opining on two elements: fiduciary net position and the changes in fiduciary net position. Accordingly, the plan auditor should determine materiality separately for the two elements (that is, fiduciary net position and the changes in fiduciary net position). If the plan auditor has been engaged to opine on each employer column in the schedule, the auditor should determine materiality separately for each employer column.

---

<sup>7</sup> In accordance with section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*, if the auditor's report on the audited financial statements contains an opinion other than unmodified, the auditor should refer to the guidance in section 725.

<sup>8</sup> Paragraph .14 of section 805.

.12

## Exhibit 3—Schedule of Changes in Fiduciary Net Position by Employer

**EXAMPLE AGENT MULTIPLE-EMPLOYER PLAN**  
Schedule of Changes in Fiduciary Net Position by Employer  
As of and for the year ended June 30, 20X5

	<i>Employer 1</i>	<i>Employer 2</i>	<i>Employer 3</i>	<i>Total</i>
Additions:				
Contributions:				
Employer	86,252,000	34,500,000	51,751,000	172,503,000
Plan Member	32,662,000	13,065,000	19,597,000	65,324,000
Investment income:	80,965,000	20,347,000	37,112,000	138,424,000
Total additions	199,879,000	67,912,000	108,460,000	376,251,000
Deductions:				
Pension benefits, including refunds	384,635,000	184,352,000	228,356,000	797,343,000
Administrative expenses	4,716,000	1,886,000	2,829,000	9,431,000
Total deductions	389,351,000	186,238,000	231,185,000	806,774,000
Net increase (decrease)	(189,472,000)	(118,326,000)	(122,725,000)	(430,523,000)
Net position restricted for pension benefits:				
Beginning of year	5,843,645,000	1,468,538,000	2,678,595,000	9,990,778,000
End of year	\$5,654,173,000	1,350,212,000	2,555,870,000	9,560,255,000

[Issue Date: June 2014.]

## AU-C Section 806

# ***Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements***

Source: SAS No. 122; SAS No. 125.

Effective for reports on compliance issued in connection with audits of financial statements for periods ending on or after December 15, 2012.

## **Introduction**

### **Scope of This Section**

**.01** This section addresses the auditor's responsibility when the auditor is requested to report on an entity's compliance with aspects of contractual agreements or regulatory requirements, insofar as they relate to accounting matters, in connection with an audit of financial statements (referred to hereinafter as a report on compliance). Such a report is commonly referred to as a by-product report. (Ref: par. .A1–.A2)

**.02** Entities may be required by contractual agreements, such as certain bond indentures and loan agreements, or regulatory agencies to provide an auditor's report on compliance. For example, loan agreements may impose a variety of obligations on borrowers involving matters such as payments into sinking funds, payments of interest, maintenance of current ratios, and restrictions of dividend payments. Loan agreements may also require the borrower to provide annual financial statements that have been audited. In some instances, the lenders or their trustees may request the auditor to report that the borrower has complied with certain covenants of the agreement relating to accounting matters. The auditor may satisfy this request by issuing a report on compliance in accordance with the requirements of this section.

**.03** As described in paragraph .01, this section addresses reporting on an entity's compliance with aspects of contractual agreements or regulatory requirements in connection with an audit of financial statements. When the auditor is engaged or required by law or regulation to perform a compliance audit in accordance with generally accepted auditing standards (GAAS), the standards for financial audits under *Government Auditing Standards*, and a governmental audit requirement that requires the auditor to express an opinion on compliance with applicable compliance requirements, section 935, *Compliance Audits*, applies.

**.04** When the auditor is engaged to perform a separate attest engagement on an entity's compliance with requirements of specified laws, regulations, rules, contracts, or grants, AT-C section 315, *Compliance Attestation*, applies to an examination of an entity's compliance and to an agreed-upon procedures engagement related to an entity's compliance. When the auditor is engaged

to perform a separate attestation engagement related to an entity's internal control over compliance with requirements of specified laws, regulations, rules, contracts, or grants, AT-C section 205, *Examination Engagements*, applies to an examination of an entity's internal control over compliance and AT-C section 315 applies to agreed-upon procedures engagements related to an entity's internal control over compliance.

[Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

## Effective Date

.05 This section is effective for reports on compliance issued in connection with audits of financial statements for periods ending on or after December 15, 2012.

## Objective

.06 The objective of the auditor is to report appropriately on an entity's compliance with aspects of contractual agreements or regulatory requirements, in connection with the audit of financial statements, when the auditor is requested to report on such matters.

## Requirements

### Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements

.07 The auditor's report on compliance should include a statement that nothing came to the auditor's attention that caused the auditor to believe that the entity failed to comply with specified aspects of the contractual agreements or regulatory requirements, insofar as they relate to accounting matters, only when

- a. the auditor has not identified any instances of noncompliance,
- b. the auditor has expressed an unmodified or qualified opinion on the financial statements to which the applicable covenants of such contractual agreements or regulatory requirements relate, and
- c. the applicable covenants or regulatory requirements relate to accounting matters that have been subjected to the audit procedures applied in the audit of financial statements.

.08 When the auditor has identified one or more instances of noncompliance, the report on compliance should describe such noncompliance (see paragraphs .12f and .13b).

.09 When the auditor has expressed an adverse opinion or disclaimed an opinion on the financial statements, the auditor should issue a report on compliance only when instances of noncompliance are identified. Therefore, the requirement in paragraph .08 also applies in such circumstances. The auditor should modify the wording of the report on compliance, as appropriate to the circumstances. (Ref: par. .A3)

.10 Notwithstanding the requirements in paragraphs .07–.09, the auditor is not precluded from issuing a report on compliance if such report is required by another set of auditing standards (for example, *Government Auditing Standards*), and the auditor has been engaged to audit the financial statements in accordance with both GAAS and those other standards.

.11 The report on compliance should be in writing and should be provided either in a separate report (see paragraph .12) or in one or more paragraphs included in the auditor's report on the financial statements (see paragraph .13).

***Separate Report on Compliance With Aspects of Contractual Agreements or Regulatory Requirements***

.12 When the auditor reports on compliance in a separate report, the report should include the following:

- a. A title that includes the word *independent* to clearly indicate that it is the report of an independent auditor.
- b. An appropriate addressee.
- c. A paragraph that states that the financial statements were audited in accordance with generally accepted auditing standards and an identification of the United States of America as the country of origin of those standards (for example, auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards) and the date of the auditor's report on those financial statements.
- d. If the auditor expressed a modified opinion<sup>1</sup> on the financial statements, a statement describing the nature of the modification. (Ref: par. .A4)
- e. When no instances of noncompliance are identified by the auditor, a reference to the specific covenants or paragraphs of the contractual agreement or regulatory requirement and a statement that nothing came to the auditor's attention that caused the auditor to believe that the entity failed to comply with specified aspects of the contractual agreements or regulatory requirements, insofar as they relate to accounting matters (see paragraphs .07 and .10).
- f. When instances of noncompliance are identified by the auditor, a reference to the specific covenants or paragraphs of the contractual agreement or regulatory requirement, insofar as they relate to accounting matters, and a description of the identified instances of noncompliance. (Ref: par. .A5)
- g. A statement that the report is being provided in connection with the audit of the financial statements.
- h. A statement that the audit was not directed primarily toward obtaining knowledge regarding compliance, and accordingly, had the auditor performed additional procedures, other matters may have come to the auditor's attention regarding noncompliance with the specific covenants or paragraphs of the contractual agreement or regulatory requirement, insofar as they relate to accounting matters.
- i. A paragraph that includes a description and the source of significant interpretations, if any, made by the entity's management relating to the provisions of the relevant contractual agreement or regulatory requirement.

---

<sup>1</sup> See section 705, *Modifications to the Opinion in the Independent Auditor's Report*.

- j. A paragraph that includes an appropriate alert in accordance with the section 905, *Alert That Restricts the Use of the Auditor's Written Communication*.<sup>2</sup> (Ref: par. .A6–.A7)
- k. The manual or printed signature of the auditor's firm and the city and state where the auditor practices.
- l. The date of the report, which should be the same date as the auditor's report on the financial statements.<sup>3</sup>

[As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

### ***Report on Compliance With Aspects of Contractual Agreements or Regulatory Requirements Included in the Auditor's Report***

.13 When a report on compliance is included in the auditor's report on the financial statements, the auditor's report should include an other-matter paragraph<sup>4</sup> that includes a reference to the specific covenants or paragraphs of the contractual agreement or regulatory requirement, insofar as they relate to accounting matters, and also should include the following:

- a. When no instances of noncompliance are identified by the auditor, a statement that nothing came to the auditor's attention that caused the auditor to believe that the entity failed to comply with specified aspects of the contractual agreements or regulatory requirements, insofar as they relate to accounting matters (see paragraphs .07 and .10).
- b. When instances of noncompliance are identified by the auditor, a description of the identified instances of noncompliance. (Ref: par. .A5)
- c. A statement that the communication is being provided in connection with the audit of the financial statements.
- d. A statement that the audit was not directed primarily toward obtaining knowledge regarding compliance, and accordingly, had the auditor performed additional procedures, other matters may have come to the auditor's attention regarding noncompliance with the specific covenants or paragraphs of the contractual agreement or regulatory requirement, insofar as they relate to accounting matters.
- e. A paragraph that includes a description and the source of significant interpretations, if any, made by the entity's management relating to the provisions of the relevant contractual agreement or regulatory requirement.
- f. A paragraph that includes an appropriate alert in accordance with section 905.<sup>5</sup> (Ref: par. .A6–.A7)

---

<sup>2</sup> Paragraphs .06c, .07, and .11 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. [Footnote amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

<sup>3</sup> Paragraph .41 of section 700, *Forming an Opinion and Reporting on Financial Statements*.

<sup>4</sup> See section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*, for guidance on other-matter paragraphs.

<sup>5</sup> See footnote 2.

[As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

## Application and Other Explanatory Material

### Scope of This Section (Ref: par. .01)

**.A1** The financial statements being audited and to which the applicable covenants of the contractual agreements or regulatory requirements relate may be either general purpose or special purpose financial statements.

### *Considerations Specific to Governmental Entities*

**.A2** For most state or local governmental entities, the applicable financial reporting framework is based on multiple reporting units and, therefore, requires the presentation of financial statements for its activities in various reporting units. Consequently, a reporting unit or aggregation of reporting units of the governmental entity represents an opinion unit to the auditor. In the context of this section, the auditor is responsible for reporting on compliance for each opinion unit within a governmental entity, when requested.

### Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements (Ref: par. .09)

**.A3** The exhibit, "Illustrations of Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements," provides an example of the wording of the report on compliance when the auditor has disclaimed an opinion on the financial statements.<sup>6</sup>

### *Separate Report on Compliance With Aspects of Contractual Agreements or Regulatory Requirements (Ref: par. .12d)*

**.A4** The auditor may include certain additional communications in the separate report on compliance when the auditor included such additional communications in the auditor's report on the financial statements<sup>7</sup> that are not modifications to the auditor's opinion. For example, if the auditor included an emphasis-of-matter paragraph in the auditor's report on the financial statements because of an uncertainty about the entity's ability to continue as a going concern for a reasonable period of time,<sup>8</sup> the auditor may also include this in the separate report on compliance.

### *Reporting When Instances of Noncompliance Are Identified (Ref: par. .12f and .13b)*

**.A5** When instances of noncompliance are identified, and the entity has obtained a waiver for such noncompliance, the auditor may include a statement in

---

<sup>6</sup> Illustration 4, "A Report on Compliance With Aspects of Contractual Agreements Provided in a Separate Report When Instances of Noncompliance Are Identified, and the Auditor Has Disclaimed an Opinion on the Financial Statements," in the exhibit, "Illustrations of Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements."

<sup>7</sup> See section 706.

<sup>8</sup> See section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*. [Footnote revised, August 2012, to reflect conforming changes necessary due to the issuance of SAS No. 126.]

the report on compliance that a waiver has been obtained. The determination of whether to include such a statement is based on the procedures performed by the auditor to evaluate the waiver for the purposes of obtaining sufficient appropriate audit evidence in connection with the audit of the financial statements. All instances of noncompliance are required to be described in the report on compliance, in accordance with paragraph .08, including those for which a waiver has been obtained.

***Restrictions on the Use of the Auditor's Report<sup>9</sup> (Ref: par. .12j and .13f)***

**.A6** An alert, as discussed in paragraphs .12j and .13f, is necessary because, although compliance matters may be identified by the auditor during the course of the audit engagement, the identification of such matters is not the primary objective of the audit engagement. In addition, the basis, assumptions, or purpose of the provisions in contractual agreements or regulatory requirements to which the report on compliance relates are developed for, and directed only to, the parties to the contractual agreement or the regulatory agency responsible for the requirements. [As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

**.A7** The alert that restricts the use of the report indicates that only the report on compliance with aspects of contractual agreements or regulatory requirements is restricted. Accordingly, the intended use of the auditor's report on the financial statements is not affected by this alert. [As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

### **Independent Auditor's Report**

*[Appropriate Addressee]*

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X2, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated February 16, 20X3.

In connection with our audit, nothing came to our attention that caused us to believe that XYZ Company failed to comply with the terms, covenants, provisions, or conditions of sections XX to YY, inclusive, of the Indenture dated July 21, 20X0, with ABC Bank, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such non-compliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Company's noncompliance with the above-referenced terms, covenants, provisions, or conditions of the Indenture, insofar as they relate to accounting matters.

This report is intended solely for the information and use of the board of directors and management of XYZ Company and ABC Bank and is not intended to be and should not be used by anyone other than these specified parties.

*[Date of the auditor's report]*

## **Illustration 2—A Report on Compliance With Aspects of Contractual Agreements Provided in a Separate Report When Instances of Noncompliance Are Identified**

### **Independent Auditor's Report**

*[Appropriate Addressee]*

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X2, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated March 5, 20X3.

In connection with our audit, we noted that XYZ Company failed to comply with the "Working Capital" provision of section XX of the Loan Agreement dated March 1, 20X2, with ABC Bank. Our audit was not directed primarily toward obtaining knowledge as to whether XYZ Company failed to comply with the terms, covenants, provisions, or conditions of sections XX to YY, inclusive, of the Loan Agreement, insofar as they relate to accounting matters. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding noncompliance with the above-referenced terms, covenants, provisions, or conditions of the Loan Agreement, insofar as they relate to accounting matters.

This report is intended solely for the information and use of the board of directors and management of XYZ Company and ABC Bank and is not intended to be and should not be used by anyone other than these specified parties.

#### **Independent Auditor's Report**

*[Appropriate Addressee]*

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X2, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated March 5, 20X3.

In connection with our audit, we noted that XYZ Company failed to comply with the "Working Capital" provision of section XX of the Loan Agreement dated March 1, 20X2, with ABC Bank. The Company has received a waiver dated February 5, 20X3, from ABC Bank. Our audit was not directed primarily toward obtaining knowledge as to whether XYZ Company failed to comply with the terms, covenants, provisions, or conditions of sections XX to YY, inclusive, of the Loan Agreement, insofar as they relate to accounting matters. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding noncompliance with the above-referenced terms, covenants, provisions, or conditions of the Loan Agreement, insofar as they relate to accounting matters.

This report is intended solely for the information and use of the board of directors and management of XYZ Company and ABC Bank and is not intended to be and should not be used by anyone other than these specified parties.

## **Illustration 4—A Report on Compliance With Aspects of Contractual Agreements Provided in a Separate Report When Instances of Noncompliance Are Identified, and the Auditor Has Disclaimed an Opinion on the Financial Statements**

### **Independent Auditor's Report**

*[Appropriate Addressee]*

We were engaged to audit, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X2, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated March 5, 20X3. Our report disclaims an opinion on such financial statements because of *[describe the scope limitation or matter causing the disclaimer]*.

In connection with our engagement, we noted that XYZ Company failed to comply with the "Working Capital" provision of section XX of the Loan Agreement dated March 1, 20X2, with ABC Bank. Our engagement was not directed primarily toward obtaining knowledge as to whether XYZ Company failed to comply with the terms, covenants, provisions, or conditions of sections XX to YY, inclusive, of the Loan Agreement, insofar as they relate to accounting matters. Accordingly, had we been able to complete the audit, other matters may have come to our attention regarding noncompliance with the above-referenced terms, covenants, provisions, or conditions of the Loan Agreement, insofar as they relate to accounting matters.

This report is intended solely for the information and use of the board of directors and management of XYZ Company and ABC Bank and is not intended to be and should not be used by anyone other than these specified parties.

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

## **Illustration 5—A Report on Compliance With Aspects of Contractual Agreements Given in a Combined Report, and No Instances of Noncompliance Were Identified**

### **Independent Auditor's Report**

*[Appropriate Addressee]*

#### **Report on the Financial Statements<sup>1</sup>**

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

#### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.<sup>2</sup> Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

---

<sup>1</sup> The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle "Report on Other Legal and Regulatory Requirements" is not applicable. [Footnote added, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

<sup>2</sup> In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: "In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances." In addition, the next sentence "Accordingly, we express no such opinion," would not be included. [Footnote added, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Other Matter**

In connection with our audit, nothing came to our attention that caused us to believe that ABC Company failed to comply with the terms, covenants, provisions, or conditions of sections XX to YY, inclusive, of the Indenture dated July 21, 20X0 with XYZ Bank, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such non-compliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Company's noncompliance with the above-referenced terms, covenants, provisions, or conditions of the Indenture, insofar as they relate to accounting matters.

**Restricted Use Relating to the Other Matter**

The communication related to compliance with the aforementioned Indenture described in the Other Matter paragraph is intended solely for the information and use of the boards of directors and management of ABC Company and XYZ Bank and is not intended to be and should not be used by anyone other than these specified parties.<sup>3</sup>

**Report on Other Legal and Regulatory Requirements**

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

[Illustration added, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

---

<sup>3</sup> When the engagement is also performed in accordance with *Government Auditing Standards*, the alert may read as follows: "The purpose of the communication related to compliance with the aforementioned [compliance requirements] described in the Other Matter paragraph [or, Report on Compliance] is solely to describe the scope of our testing of compliance and the results of that testing. This communication is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering ABC Company's compliance. Accordingly, this communication is not suitable for any other purpose." The AICPA Audit Guide *Government Auditing Standards and Circular A-133 Audits* provides additional interpretative guidance, including illustrative reports. [Footnote added, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

## AU-C Section 810

# ***Engagements to Report on Summary Financial Statements***

Source: SAS No. 122.

**Effective for audits of financial statements for periods ending on or after December 15, 2012.**

## **Introduction**

### **Scope of This Section**

**.01** This section addresses the auditor's responsibilities relating to an engagement to report separately on summary financial statements derived from financial statements audited in accordance with generally accepted auditing standards (GAAS) by the same auditor. In such an engagement, the auditor forms an opinion about whether the summary financial statements are consistent, in all material respects, with the audited financial statements from which they have been derived, in accordance with the applied criteria.

**.02** This section does not apply to condensed financial statements or summarized financial information presented as comparative information.<sup>1</sup> Section 700, *Forming an Opinion and Reporting on Financial Statements*, addresses the auditor's responsibility for comparative information.<sup>2</sup> (Ref: par. .A1)

**.03** Summary financial statements may be required by a designated accounting standards setter (for example, the Governmental Accounting Standards Board) to accompany the basic financial statements. This section does not apply in such circumstances. Section 730, *Required Supplementary Information*, addresses the auditor's responsibilities relating to information supplementary to the basic financial statements that is required by a designated accounting standards setter to accompany such financial statements.

### **Effective Date**

**.04** This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

### **Objectives**

**.05** The objectives of the auditor are

- a. to determine whether it is appropriate to accept the engagement to report on summary financial statements and,

---

<sup>1</sup> Paragraph .11 of section 700, *Forming an Opinion and Reporting on Financial Statements*, defines the terms *condensed financial statements* and *comparative information*.

<sup>2</sup> Paragraphs .44–.51 of section 700A.

- b. if engaged to report on summary financial statements, to
  - i. perform the procedures necessary as the basis for the auditor's opinion on the summary financial statements;
  - ii. form an opinion on whether the summary financial statements are consistent, in all material respects, with the audited financial statements from which they have been derived, in accordance with the applied criteria, based on an evaluation of the conclusions drawn from the evidence obtained; and
  - iii. express clearly that opinion through a written report that also describes the basis for that opinion.

## Definitions

.06 For purposes of this section, the following terms have the meanings attributed as follows:

**Applied criteria.** The criteria applied by management in the preparation of the summary financial statements.

**Summary financial statements.** Historical financial information<sup>3</sup> that is derived from financial statements but that contains less detail than the financial statements, while still providing a structured representation consistent with that provided by the financial statements of the entity's economic resources or obligations at a point in time or the changes therein for a period of time. Summary financial statements are separately presented and are not presented as comparative information.

.07 In this section, the term *audited financial statements* refers to those financial statements<sup>4</sup> audited by the auditor in accordance with GAAS and from which the summary financial statements are derived.

## Requirements

### Engagement Acceptance

.08 The auditor should not accept an engagement to report on summary financial statements in accordance with this section unless the auditor has been engaged to conduct an audit in accordance with GAAS of the financial statements from which the summary financial statements are derived. (Ref: \break par. .A2)

.09 Before accepting an engagement to report on summary financial statements, the auditor should

- a. determine whether the applied criteria are acceptable, including determining that the applied criteria (Ref: par. .A3–.A5)
  - i. are free from bias so that the summary financial statements are not misleading.

---

<sup>3</sup> Paragraph .14 of section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*, defines the term *historical financial information*.

<sup>4</sup> Paragraph .14 of section 200 defines the term *financial statements*.

- ii. permit reasonably consistent qualitative or quantitative measurements so that the information in the summary financial statements agrees with or can be recalculated from the related information in the audited financial statements.
  - iii. are sufficiently complete so that the summary financial statements contain the information necessary and are at an appropriate level of aggregation, so that they are not misleading in the circumstances.
  - iv. are relevant to the summary financial statements in view of their purpose.
- b. obtain the agreement of management, in writing, that it acknowledges and understands its responsibility
  - i. for the preparation of the summary financial statements in accordance with the applied criteria.
  - ii. to clearly describe in the summary financial statements where the audited financial statements are available and to make the audited financial statements readily available to the intended users of the summary financial statements when the summary financial statements will not be accompanied by the audited financial statements. (Ref: par .A6–.A7)
  - iii. to provide the auditor with written representations, as described in paragraph .12.
  - iv. to include the auditor's report on the summary financial statements in any document that contains the summary financial statements and indicates the auditor has reported on them.
- c. obtain the agreement of management, in writing, about the expected form and content of the report on the summary financial statements, including the agreement that there may be circumstances in which the report may differ from its expected form and content. (Ref: par .A8)

**.10** If the auditor concludes that the applied criteria are unacceptable or is unable to obtain the agreement of management set out in paragraph .09b–c, the auditor should not accept the engagement to report on the summary financial statements.

## Nature of Procedures

**.11** The auditor should perform the following procedures, and any other procedures that the auditor may consider necessary, as the basis for the auditor's opinion on the summary financial statements:

- a. Evaluate whether the summary financial statements adequately disclose their summarized nature and identify the audited financial statements. (Ref: par .A9)
- b. When the summary financial statements are not accompanied by the audited financial statements, evaluate
  - i. whether the summary financial statements clearly describe where the audited financial statements are available and

- ii. whether the audited financial statements are readily available to the intended users of the summary financial statements. (Ref: par. .A7)
- c. Evaluate whether the summary financial statements adequately disclose the applied criteria.
- d. Compare the summary financial statements with the related information in the audited financial statements to determine whether the summary financial statements agree with or can be recalculated from the related information in the audited financial statements.
- e. Evaluate whether the summary financial statements are prepared in accordance with the applied criteria.
- f. Evaluate, in view of the purpose of the summary financial statements, whether the summary financial statements contain the information necessary, and are at an appropriate level of aggregation, so that they are not misleading in the circumstances.

## Written Representations

**.12** The auditor should request management to provide written representations, in the form of a representation letter addressed to the auditor, for the following matters:

- a. Management has fulfilled its responsibility for the preparation of the summary financial statements in accordance with the applied criteria and believes the applied criteria are acceptable
- b. Management has made the audited financial statements readily available to the intended users of the summary financial statements, when the summary financial statements will not be accompanied by the audited financial statements
- c. If the date of the auditor's report on the summary financial statements is later than the date of the auditor's report on the audited financial statements,
  - i. whether any information has come to management's attention that would cause management to believe that any of the previous representations on the audited financial statements need to be modified
  - ii. whether any events have occurred subsequent to the date of the audited financial statements that may require adjustment of, or disclosure in, the audited financial statements

**.13** The date of the written representations should be as of the date of the auditor's report on the summary financial statements. The written representations should be for all summary financial statements and period(s) referred to in the auditor's report on the summary financial statements.

## Form of Opinion (Ref: par. .A10–.A11)

**.14** When the auditor has concluded that an unmodified opinion on the summary financial statements is appropriate, the auditor's opinion should state that the summary financial statements are consistent, in all material respects, with the audited financial statements from which they have been derived, in accordance with the applied criteria.

**.15** If the summary financial statements are not consistent, in all material respects, with the audited financial statements, in accordance with the applied criteria, and management does not agree to make the necessary changes, the auditor should express an adverse opinion on the summary financial statements. The auditor should state in the opinion paragraph that, in the auditor's opinion, because of the significance of the matter(s) described in the basis for adverse opinion paragraph, the summary financial statements are not consistent, in all material respects, with the audited financial statements from which they have been derived, in accordance with the applied criteria.

**.16** When the auditor's report on the audited financial statements contains an adverse opinion or a disclaimer of opinion, the auditor should withdraw from the engagement to report on the summary financial statements, when withdrawal is possible under applicable law or regulation. If it is not possible for the auditor to withdraw from the engagement, the auditor's report on the summary financial statements should

- a. state that the auditor's report on the audited financial statements contains an adverse opinion or disclaimer of opinion.
- b. describe the basis for that adverse opinion or disclaimer of opinion.
- c. state that, as a result of the adverse opinion or disclaimer of opinion, it is inappropriate to express, and the auditor does not express, an opinion on the summary financial statements.
- d. include the reporting elements in paragraph .17, except for paragraph .17c(iv–v) and e–f.

## Auditor's Report on Summary Financial Statements

### *Elements of the Auditor's Report (Ref: par. .A12)*

**.17** The auditor's report on summary financial statements should include the following elements:

- a. Title that includes the word *independent* to clearly indicate that it is the report of an independent auditor (Ref: par. .A13)
- b. Addressee
- c. Introductory paragraph that
  - i. identifies the summary financial statements on which the auditor is reporting, including the title of each statement included in the summary financial statements (Ref: par. .A14)
  - ii. identifies the audited financial statements from which the summary financial statements have been derived
  - iii. refers to the auditor's report on the audited financial statements, the date of that report, and, subject to paragraphs .15–.16, the fact that an unmodified opinion is expressed on the audited financial statements
  - iv. if the date of the auditor's report on the summary financial statements is later than the date of the auditor's report on the audited financial statements, states that the summary financial statements and the audited financial statements do not reflect the effects of events, if any, that occurred subsequent to the date of the auditor's report on the audited financial statements (see paragraph .19) (Ref: par. .A15)

- v. indicates that the summary financial statements do not contain all the disclosures required by the [financial reporting framework applied in the preparation of the financial statements] and that reading the summary financial statements is not a substitute for reading the audited financial statements
- d. Description of management's responsibility for the summary financial statements, explaining that management is responsible for the preparation of the summary financial statements in accordance with the applied criteria
- e. Statement that the auditor is responsible for expressing an opinion about whether the summary financial statements are consistent, in all material respects, with the audited financial statements based on the procedures required by GAAS and an identification of the United States of America as the country of origin of those standards, including the following:
  - i. The procedures consisted principally of comparing the summary financial statements with the related information in the audited financial statements from which the summary financial statements have been derived and evaluating whether the summary financial statements are prepared in accordance with the applied criteria
  - ii. If the date of the auditor's report on the summary financial statements is later than the date of the auditor's report on the audited financial statements, the auditor did not perform any audit procedures regarding the audited financial statements after the date of the report on those financial statements.
- f. A paragraph that clearly expresses an opinion, as described in paragraphs .14–.15
- g. Auditor's signature
- h. Auditor's city and state
- i. Date of the auditor's report

**.18** The auditor should date the auditor's report on the summary financial statements no earlier than

- a. the date on which the auditor has obtained sufficient appropriate evidence on which to base the opinion, including evidence that the summary financial statements have been prepared and that management and, when appropriate, those charged with governance, have asserted that they have taken responsibility for them; and
- b. the date of the auditor's report on the audited financial statements.

**.19** When the auditor's report on the summary financial statements is dated later than the date of the auditor's report on the audited financial statements, the auditor may become aware of *subsequently discovered facts* as defined in section 560, *Subsequent Events and Subsequently Discovered Facts*. In such cases, the auditor should not release the auditor's report on the summary financial statements until the auditor's consideration of subsequently discovered facts in relation to the audited financial statements, in accordance with section 560, has been completed.

***Modifications to the Opinion, Emphasis-of-Matter Paragraph, or Other-Matter Paragraph in the Auditor's Report on the Audited Financial Statements (Ref: par. .A16)***

**.20** If the auditor's report on the audited financial statements contains a qualified opinion, an emphasis-of-matter paragraph, or an other-matter paragraph, and the auditor expresses an unmodified opinion (see paragraph .14) or an adverse opinion (see paragraph .15) on the summary financial statements, in addition to the elements in paragraph .17, the auditor's report on the summary financial statements should

- a. state that the auditor's report on the audited financial statements contains a qualified opinion, an emphasis-of-matter paragraph, or an other-matter paragraph and
- b. describe
  - i. the basis for the qualified opinion on the audited financial statements and that qualified opinion; or the emphasis-of-matter or other-matter paragraph in the auditor's report on the audited financial statements and
  - ii. the effect on the summary financial statements, if any.

**Restriction on Use or Alerting Readers to the Basis of Accounting**

**.21** When use of the auditor's report on the audited financial statements is restricted or the auditor's report on the audited financial statements alerts readers that the audited financial statements are prepared in accordance with a special purpose framework, the auditor should include a similar restriction or alert in the auditor's report on the summary financial statements.

**Comparatives**

**.22** If the audited financial statements contain comparative financial statements but the summary financial statements do not, the auditor should determine whether such omission is reasonable in the circumstances of the engagement. The auditor should determine the effect of an unreasonable omission on the auditor's report on the summary financial statements. (Ref: par. .A17–.A18)

**.23** Unless the predecessor auditor's report on the prior period's summary financial statements is reissued with the summary financial statements, if the summary financial statements contain comparatives that were reported on by another auditor, the auditor's report on the summary financial statements should state

- a. that the summary financial statements of the prior period were audited by a predecessor auditor.
- b. the type of opinion expressed by the predecessor auditor and, if the opinion was modified, the reasons therefore.
- c. the date of that report.

**.24** If the summary financial statements contain comparatives that were not reported on by the auditor or another auditor, the auditor's report on the summary financial statements should state that the comparative summary financial statements were not reported on by the auditor and, accordingly, the auditor does not express an opinion on the comparative summary financial statements.

## Unaudited Information Presented With Summary Financial Statements (Ref: par. .A19)

.25 The auditor should evaluate whether any unaudited information presented with the summary financial statements is clearly differentiated from the summary financial statements. If the auditor concludes that the entity's presentation of the unaudited information is not clearly differentiated from the summary financial statements, the auditor should ask management to change the presentation of the unaudited information. If management refuses to do so, the auditor should explain in the auditor's report on the summary financial statements that such information is not covered by that report and accordingly, the auditor does not express an opinion on the information.

## Other Information in Documents Containing Summary Financial Statements (Ref: par. .A20)

.26 The auditor should read other information included in a document containing the summary financial statements and related auditor's report to identify material inconsistencies, if any, with the summary financial statements and the audited financial statements.

.27 If, upon reading the other information, the auditor identifies a material inconsistency or becomes aware of an apparent material misstatement of fact, the auditor should discuss the matter with management and should consider appropriate further action in the circumstances. For an identified material inconsistency, the auditor should also determine whether the summary financial statements or the other information needs to be revised.

## Auditor Association (Ref: par. .A21)

.28 If the auditor becomes aware that the entity plans to state that the auditor has reported on summary financial statements in a document containing the summary financial statements, but does not plan to include the related auditor's report, the auditor should request management to include the auditor's report in the document. If management does not do so, the auditor should determine and carry out other appropriate actions designed to prevent management from inappropriately associating the auditor with the summary financial statements in that document.

.29 The auditor may be engaged to report on the financial statements of an entity, while not engaged to report on the summary financial statements. If, in this case, the auditor becomes aware that the entity plans to make a statement in a document that refers to the auditor and the fact that summary financial statements are derived from the financial statements audited by the auditor, the auditor should be satisfied that

- a. the reference to the auditor is made in the context of the auditor's report on the audited financial statements, and
- b. the statement does not give the impression that the auditor has reported on the summary financial statements.

If either *a* or *b* is not met, the auditor should request management to change the statement to meet both of the criteria in *a* and *b*, or not to refer to the auditor in the document. Alternatively, the entity may engage the auditor to report on the summary financial statements and include the related auditor's report in the document. If management does not change the statement, delete the reference to the auditor, or include an auditor's report on the summary

financial statements in the document containing the summary financial statements, the auditor should advise management that the auditor disagrees with the reference to the auditor, and the auditor should determine and carry out other appropriate actions designed to prevent management from inappropriately associating the auditor with the summary financial statements in that document.

## Application and Other Explanatory Material

### Scope of This Section (Ref: par. .02)

**.A1** Financial statements may present comparative information in the form of condensed financial statements or summarized financial information. For example, entities such as state and local governmental units may present prior period financial information in their government-wide financial statements only for the total reporting entity rather than disaggregated by governmental activities, business-type activities, total primary government, and discretely presented component units. Also, not-for-profit organizations frequently present certain information for the prior period in total rather than by net asset class. As described in paragraph .02, this section does not apply to reporting on financial statements containing such comparative information. Summary financial statements differ from comparative information. Summary financial statements may be presented in a document containing financial statements or in a separate document, whereas comparative information is presented within the financial statements. Refer to section 700 for the auditor's responsibilities for reporting on comparative information.<sup>5</sup>

### Engagement Acceptance

**.A2** The audit of the financial statements from which the summary financial statements are derived provides the auditor with the necessary knowledge to discharge the auditor's responsibilities regarding the summary financial statements, in accordance with this section. Application of this section will not provide sufficient appropriate evidence on which to base the opinion on the summary financial statements if the auditor also has not audited the financial statements from which the summary financial statements are derived. (Ref: par. .08)

### Criteria (Ref: par. .09a)

**.A3** The preparation of summary financial statements requires management to determine the information that needs to be reflected in the summary financial statements so that they are consistent, in all material respects, with the audited financial statements. Because summary financial statements by their nature contain aggregated information and limited disclosure, there is an increased risk that they may not contain the information necessary so that they are not misleading in the circumstances. This risk increases when established criteria for the preparation of summary financial statements do not exist.

**.A4** Factors that may affect the auditor's determination of the acceptability of the applied criteria include the following:

- The nature of the entity
- The purpose of the summary financial statements

---

<sup>5</sup> Paragraphs .44–.51 of section 700A.

- The information needs of the intended users of the summary financial statements
- Whether the applied criteria will result in summary financial statements that are not misleading in the circumstances

**.A5** The criteria for the preparation of summary financial statements may be established by an authorized or recognized standards-setting organization or by law or regulation. In many such cases, the auditor may presume that such criteria are acceptable. When established criteria for the preparation of summary financial statements do not exist, criteria may be developed by management, for example, based on practice in a particular industry.

### ***Availability of the Audited Financial Statements (Ref: par. .09b(ii) and .11b(ii))***

**.A6** Summary financial statements are presented in considerably less detail than the complete set of financial statements and do not contain all the disclosures required by the financial reporting framework applied in the preparation of the complete set of financial statements. In addition, reading the summary financial statements is not a substitute for reading the audited financial statements. Accordingly, before accepting an engagement to report on summary financial statements, the auditor is required by paragraph .09b(ii) to obtain management's agreement that it acknowledges and understands its responsibility to make the audited financial statements readily available to the intended users of the summary financial statements, when the summary financial statements will not be accompanied by the audited financial statements.

**.A7** Audited financial statements are deemed to be readily available if a third-party user can obtain the audited financial statements without any further action by the entity (for example, financial statements on an entity's website may be considered readily available but being available upon request is not considered readily available).

### ***Agreement on the Expected Form and Content of the Report (Ref: par. .09c)***

**.A8** Agreement with management about the expected form and content of the report on the summary financial statements may include a description of the types of opinions the auditor may express. It is not necessary to describe the type of opinion expected to be issued. The auditor also may indicate that circumstances may arise in which it is necessary for the auditor to withdraw from the engagement.

### ***Nature of Procedures (Ref: par. .11)***

**.A9** Adequate disclosure of the summarized nature of summary financial statements and the identity of the audited financial statements, as referred to in paragraph .11a, may, for example, be provided by a title such as "Summary Financial Statements Prepared From the Audited Financial Statements as of and for the Year Ended December 31, 20X1."

### ***Form of Opinion (Ref: par. .14–.16)***

**.A10** If the summary financial statements are not consistent, in all material respects, with the audited financial statements in accordance with the applied criteria, and management does not agree to make the necessary changes, the auditor is required by paragraph .15 to express an adverse opinion on the summary financial statements. Due to the summarized nature of the summary

financial statements, a qualified opinion would not be appropriate; the summary financial statements either are or are not consistent, in all material respects, with the audited financial statements, in accordance with the applied criteria.

**.A11** When the auditor's report on the audited financial statements contains an adverse opinion or a disclaimer of opinion, paragraph .16 requires the auditor to withdraw from the engagement to report on the summary financial statements, when withdrawal is possible under applicable law or regulation. When an entity is required by law or regulation to provide a report on summary financial statements, the auditor is neither precluded from withdrawing, nor required to withdraw, from the engagement.

## Auditor's Report on Summary Financial Statements

### *Elements of the Auditor's Report (Ref: par. .17)*

**.A12** An auditor who is engaged to report on summary financial statements does not report in the same manner as the auditor reported on the complete set of financial statements from which they are derived. To do so might lead users to assume, erroneously, that the summary financial statements include all the disclosures necessary for the complete set of financial statements. For the same reason, summary financial statements need to adequately disclose their summarized nature, as referred to in paragraphs .11a and .A9.

#### *Title (Ref: par. .17a)*

**.A13** A title that includes the word *independent* to clearly indicate the report is the report of an independent auditor (for example, *Report of the Independent Auditor*) affirms that the auditor has met all of the relevant ethical requirements regarding independence. This distinguishes the report of the independent auditor from reports issued by others.

#### *Introductory Paragraph (Ref: par. .17c(i))*

**.A14** When the auditor is aware that the summary financial statements will be included in a document that contains other information, the auditor may consider, if the form of presentation allows, identifying the page numbers on which the summary financial statements are presented. This helps readers identify the summary financial statements that relate to the auditor's report.

#### *Date of the Auditor's Report on the Summary Financial Statements and Events Subsequent to the Date of the Auditor's Report on the Audited Financial Statements (Ref: par. .17c(iv))*

**.A15** The auditor's report on the summary financial statements may be dated as of the same date or later than the date of the auditor's report on the audited financial statements, depending on when the procedures in paragraph .11 are performed and, as required by paragraph .18, when the auditor has obtained sufficient appropriate evidence on which to base the opinion. When the auditor reports on the summary financial statements after the completion of the financial statement audit, the auditor is not required to obtain additional audit evidence on the audited financial statements, or report on the effects of events that occurred subsequent to the date of the auditor's report on the audited financial statements because the summary financial statements are derived from the audited financial statements and do not update them. In such cases, however, paragraph .17c(iv) requires the auditor's report to state that the summary financial statements and the audited financial statements do not reflect the effects of events, if any, that occurred subsequent to the date of the auditor's report on the audited financial statements.

### ***Modifications to the Opinion, Emphasis-of-Matter Paragraph, or Other-Matter Paragraph in the Auditor's Report on the Audited Financial Statements (Ref: par. .20)***

**.A16** If the auditor's report on the audited financial statements contains a qualified opinion, the auditor may determine that, due to the effect on the summary financial statements, it is inappropriate to express an opinion on the summary financial statements. In such circumstances, the auditor may adapt and apply the requirement in paragraph .16.

### **Comparatives (Ref: par. .22)**

**.A17** If the audited financial statements contain comparative financial statements, a presumption exists that the summary financial statements also would contain comparatives. Section 700 addresses the auditor's responsibilities regarding comparative financial statements in an audit of financial statements.<sup>6</sup>

**.A18** Circumstances that may affect the auditor's determination whether an omission of comparatives is reasonable include:

- The nature and objective of the summary financial statements
- The applied criteria
- The information needs of the intended users of the summary financial statements

### **Unaudited Information Presented With Summary Financial Statements (Ref: par. .25)**

**.A19** Section 700 contains a requirement and guidance related to information presented in the financial statements that is not required by the applicable financial reporting framework.<sup>7</sup> Such requirement and guidance, adapted as necessary in the circumstances, may be helpful in applying the requirement in paragraph .25.

### **Other Information in Documents Containing Summary Financial Statements (Ref: par. .26–.27)**

**.A20** Section 720, *Other Information in Documents Containing Audited Financial Statements*, contains requirements and guidance relating to reading other information included in a document containing the audited financial statements and related auditor's report and responding to material inconsistencies and material misstatements of fact. Adapted as necessary in the circumstances, these requirements and related guidance may be helpful in applying the requirements in paragraphs .26–.27.

### **Auditor Association (Ref: par. .28–.29)**

**.A21** Other appropriate actions the auditor may take when management does not take the requested action may include informing the intended users and other known third-party users of the inappropriate reference to the auditor,

---

<sup>6</sup> Paragraphs .44–.51 of section 700A.

<sup>7</sup> Paragraph .58 of section 700A.

including that the auditor did not report, and does not express an opinion on, the summary financial statements. The auditor's course of action depends on the auditor's association with misleading information and the auditor's legal rights and obligations. Consequently, the auditor may consider it appropriate to seek legal advice.

.A22

## Exhibit—Illustrations of Reports on Summary Financial Statements

Illustration 1—An Unmodified Opinion Is Expressed on the Summary Financial Statements (the Auditor's Report on the Summary Financial Statements Is Dated Later Than the Date of the Auditor's Report on the Financial Statements From Which the Summary Financial Statements Are Derived)

Illustration 2—An Unmodified Opinion Is Expressed on the Summary Financial Statements and a Qualified Opinion Is Expressed on the Audited Financial Statements

Illustration 3—An Adverse Opinion Is Expressed on the Audited Financial Statements (as a Result of the Adverse Opinion on the Audited Financial Statements, It Is Inappropriate to Express, and the Auditor Does Not Express, an Opinion on the Summary Financial Statements)

Illustration 4—An Adverse Opinion Is Expressed on the Summary Financial Statements Because They Are Not Consistent, in All Material Respects, With the Audited Financial Statements, in Accordance With the Applied Criteria

### Illustration 1—An Unmodified Opinion Is Expressed on the Summary Financial Statements (the Auditor's Report on the Summary Financial Statements Is Dated Later Than the Date of the Auditor's Report on the Financial Statements From Which the Summary Financial Statements Are Derived)

Circumstances include all of the following:

- An unmodified opinion is expressed on the audited financial statements.
- Criteria are developed by management for the preparation of the summary financial statements and are adequately disclosed in Note X. The auditor has determined that the criteria are acceptable in the circumstances.
- An unmodified opinion is expressed on the summary financial statements.
- The auditor's report on the summary financial statements is dated later than the date of the auditor's report on the financial statements from which the summary financial statements are derived.

#### **Independent Auditor's Report on Summary Financial Statements**

[Appropriate Addressee]

The accompanying summary financial statements, which comprise the summary balance sheet as of December 31, 20X1, the summary income statement, summary statement of changes in stockholders' equity, and summary cash flow

statement for the year then ended, and the related notes, are derived from the audited financial statements of ABC Company as of and for the year ended December 31, 20X1. We expressed an unmodified audit opinion on those audited financial statements in our report dated February 15, 20X2. The audited financial statements, and the summary financial statements derived therefrom, do not reflect the effects of events, if any, that occurred subsequent to the date of our report on the audited financial statements.

The summary financial statements do not contain all the disclosures required by [*describe financial reporting framework applied in the preparation of the financial statements of ABC Company*]. Reading the summary financial statements, therefore, is not a substitute for reading the audited financial statements of ABC Company.

### ***Management's Responsibility for the Summary Financial Statements***

Management is responsible for the preparation of the summary financial statements on the basis described in Note X.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion about whether the summary financial statements are consistent, in all material respects, with the audited financial statements based on our procedures, which were conducted in accordance with auditing standards generally accepted in the United States of America. The procedures consisted principally of comparing the summary financial statements with the related information in the audited financial statements from which the summary financial statements have been derived, and evaluating whether the summary financial statements are prepared in accordance with the basis described in Note X. We did not perform any audit procedures regarding the audited financial statements after the date of our report on those financial statements.

### ***Opinion***

In our opinion, the summary financial statements of ABC Company as of and for the year ended December 31, 20X1 referred to above are consistent, in all material respects, with the audited financial statements from which they have been derived, on the basis described in Note X.

[*Auditor's signature*]

[*Auditor's city and state*]

[*Date of the auditor's report*]

## Illustration 2—An Unmodified Opinion Is Expressed on the Summary Financial Statements and a Qualified Opinion Is Expressed on the Audited Financial Statements

Circumstances include all of the following:

- A qualified opinion is expressed on the audited financial statements.
- Criteria are developed by management for the preparation of the summary financial statements and are adequately disclosed in Note X. The auditor has determined that the criteria are acceptable in the circumstances.
- An unmodified opinion is expressed on the summary financial statements.

### **Independent Auditor's Report on Summary Financial Statements**

*[Appropriate Addressee]*

The accompanying summary financial statements, which comprise the summary balance sheet as of December 31, 20X1, the summary income statement, summary statement of changes in stockholders' equity, and summary cash flow statement for the year then ended, and the related notes, are derived from the audited financial statements of ABC Company as of and for the year ended December 31, 20X1. We expressed a qualified audit opinion on those audited financial statements in our report dated February 15, 20X2 (see below).<sup>1</sup>

The summary financial statements do not contain all the disclosures required by *[describe financial reporting framework applied in the preparation of the financial statements of ABC Company]*. Reading the summary financial statements, therefore, is not a substitute for reading the audited financial statements of ABC Company.

### ***Management's Responsibility for the Summary Financial Statements***

Management is responsible for the preparation of the summary financial statements on the basis described in Note X.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion about whether the summary financial statements are consistent, in all material respects, with the audited financial statements based on our procedures, which were conducted in accordance with auditing standards generally accepted in the United States of America. The procedures consisted principally of comparing the summary financial statements with the related information in the audited financial statements from which the summary financial statements have been derived, and evaluating whether the summary financial statements are prepared in accordance with the basis described in Note X.<sup>2</sup>

---

<sup>1</sup> When the auditor's report on the summary financial statements is dated later than the date of the auditor's report on the audited financial statements, the following sentence is added to this paragraph: "The audited financial statements, and the summary financial statements derived therefrom, do not reflect the effects of events, if any, that occurred subsequent to the date of our report on the audited financial statements."

<sup>2</sup> When the auditor's report on the summary financial statements is dated later than the date of the auditor's report on the audited financial statements, the following sentence is added to this paragraph: "We did not perform any audit procedures regarding the audited financial statements after the date of our report on those financial statements."

**Opinion**

In our opinion, the summary financial statements of ABC Company as of and for the year ended December 31, 20X1 referred to above are consistent, in all material respects, with the audited financial statements from which they have been derived, on the basis described in Note X.

The summary financial statements are misstated to the equivalent extent as the audited financial statements of ABC Company as of and for the year ended December 31, 20X1. The misstatement of the audited financial statements is described in our qualified audit opinion in our report dated February 15, 20X2. Our qualified audit opinion is based on the fact that the Company's inventories are carried in the balance sheet in those audited financial statements at \$XXX. Management has not stated the inventories at the lower of cost or net realizable value but has stated them solely at cost, which constitutes a departure from *[describe financial reporting framework applied in the preparation of the financial statements of ABC Company]*. The Company's records indicate that, had management stated the inventories at the lower of cost or net realizable value, an amount of \$XXX would have been required to write the inventories down to their net realizable value. Accordingly, cost of sales would have been increased by \$XXX, and income tax, net income, and stockholders' equity would have been reduced by \$XXX, \$XXX, and \$XXX, respectively. Our qualified audit opinion states that, except for the effects of the described matter, those financial statements present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with *[describe financial reporting framework applied in the preparation of the financial statements of ABC Company]*.

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

### **Illustration 3—An Adverse Opinion Is Expressed on the Audited Financial Statements (as a Result of the Adverse Opinion on the Audited Financial Statements, It Is Inappropriate to Express, and the Auditor Does Not Express, an Opinion on the Summary Financial Statements)**

Circumstances include both of the following:

- An adverse opinion is expressed on the audited financial statements. As a result of the adverse opinion on the audited financial statements, it is inappropriate to express, and the auditor does not express, an opinion on the summary financial statements, as described in paragraph .16.
- Criteria are developed by management for the preparation of the summary financial statements and are adequately disclosed in Note X. The auditor has determined that the criteria are acceptable in the circumstances.

#### **Independent Auditor's Report on Summary Financial Statements**

*[Appropriate Addressee]*

Management derived the accompanying summary financial statements, which comprise the summary balance sheet as of December 31, 20X1, the summary income statement, summary statement of changes in stockholders' equity, and summary cash flow statement for the year then ended, and the related notes, from the audited financial statements of ABC Company as of and for the year ended December 31, 20X1. Management is responsible for the preparation of these summary financial statements on the basis described in Note X.

In our report dated February 15, 20X2, we expressed an adverse audit opinion on the financial statements of ABC Company as of and for the year ended December 31, 20X1. The basis for our adverse audit opinion was *[describe basis for adverse audit opinion]*. Our adverse audit opinion stated that *[describe adverse audit opinion]*.

Because of the significance of the matter discussed above, it is inappropriate to express, and we do not express, an opinion on the summary financial statements of ABC Company as of and for the year ended December 31, 20X1.

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

## **Illustration 4—An Adverse Opinion Is Expressed on the Summary Financial Statements Because They Are Not Consistent, in All Material Respects, With the Audited Financial Statements, in Accordance With the Applied Criteria**

Circumstances include all of the following:

- An unmodified opinion is expressed on the audited financial statements.
- Established criteria for the preparation of summary financial statements exist.
- The auditor expresses an adverse opinion on the summary financial statements because they are not consistent, in all material respects, with the audited financial statements, in accordance with the applied criteria.

### **Independent Auditor's Report on Summary Financial Statements**

*[Appropriate Addressee]*

The accompanying summary financial statements, which comprise the summary balance sheet as of December 31, 20X1, the summary income statement, summary statement of changes in stockholders' equity, and summary cash flow statement for the year then ended, and the related notes, are derived from the audited financial statements of ABC Company as of and for the year ended December 31, 20X1. We expressed an unmodified audit opinion on those audited financial statements in our report dated February 15, 20X2.<sup>1</sup>

The summary financial statements do not contain all the disclosures required by *[describe financial reporting framework applied in the preparation of the financial statements of ABC Company]*. Reading the summary financial statements, therefore, is not a substitute for reading the audited financial statements of ABC Company.

### ***Management's Responsibility for the Summary Financial Statements***

Management is responsible for the preparation of the summary financial statements on the basis described in Note X.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion about whether the summary financial statements are consistent, in all material respects, with the audited financial statements based on our procedures, which were conducted in accordance with auditing standards generally accepted in the United States of America. The procedures consisted principally of comparing the summary financial statements with the related information in the audited financial statements from which the summary financial statements have been derived, and evaluating whether the summary financial statements are prepared in accordance with the basis described in Note X.<sup>2</sup>

---

<sup>1</sup> When the auditor's report on the summary financial statements is dated later than the date of the auditor's report on the audited financial statements, the following sentence is added to this paragraph: "The audited financial statements, and the summary financial statements derived therefrom, do not reflect the effects of events, if any, that occurred subsequent to the date of our report on the audited financial statements."

<sup>2</sup> When the auditor's report on the summary financial statements is dated later than the date of the auditor's report on the audited financial statements, the following sentence is added to this paragraph: "We did not perform any audit procedures regarding the audited financial statements after the date of our report on those financial statements."

***Basis for Adverse Opinion***

*[Describe matter that caused the summary financial statements not to be consistent, in all material respects, with the audited financial statements, in accordance with the applied criteria.]*

***Adverse Opinion***

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion* paragraph, the summary financial statements of ABC Company as of and for the year ended December 31, 20X1 referred to above are not consistent with the audited financial statements from which they have been derived, on the basis described in Note X.

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

## AU-C Section 905

# ***Alert That Restricts the Use of the Auditor's Written Communication***

Source: SAS No. 125; SAS 130.

**Effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012. For all other engagements conducted in accordance with GAAS, this section is effective for the auditor's written communications issued on or after December 15, 2012.**

## **Introduction**

### **Scope of This Section**

**.01** This section addresses the auditor's responsibility, when required or the auditor decides, to include in the auditor's report or other written communication issued by the auditor in connection with an engagement conducted in accordance with generally accepted auditing standards (GAAS) (hereinafter referred to in this section as auditor's written communication) language that restricts the use of the auditor's written communication. This language is referred to in this section as an alert. In an auditor's report, such language is included in an other-matter paragraph. (Ref: par. .A1 and .A3)

**.02** Appendix A, "List of AU-C Sections Relating to the Restricted Use of the Auditor's Written Communication," identifies sections that contain specific requirements to include an alert that restricts the use of the auditor's written communication or that otherwise address the inclusion of such alerts. Accordingly, the requirements in this section regarding the form of such alert apply. (Ref: par. .A2)

### **Effective Date**

**.03** This section is effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012. For all other engagements conducted in accordance with GAAS, this section is effective for the auditor's written communications issued on or after December 15, 2012.

### **Objective**

**.04** The objective of the auditor is to restrict the use of the auditor's written communication by including an alert when the potential exists for the auditor's written communication to be misunderstood if taken out of the context in which the auditor's written communication is intended to be used.

### **Definition**

**.05** For purposes of GAAS, the following term has the meaning attributed as follows:

**Specified parties.** The intended users of the auditor's written communication.

## Requirements

### Alert That Restricts the Use of the Auditor's Written Communication

**.06** The auditor's written communication should include an alert, in a separate paragraph, that restricts its use when the subject matter of the auditor's written communication is based on (Ref: par. .A2-.A3)

- a. measurement or disclosure criteria that are determined by the auditor to be suitable only for a limited number of users who can be presumed to have an adequate understanding of the criteria,
- b. measurement or disclosure criteria that are available only to the specified parties, or
- c. matters identified by the auditor during the course of the audit engagement when the identification of such matters is not the primary objective of the audit engagement (commonly referred to as a by-product report). (Ref: par. .A4-.A7)

**.07** Unless specified otherwise by this section or other relevant sections, the alert that restricts the use of the auditor's written communication required by paragraph .06 should

- a. state that the auditor's written communication is intended solely for the information and use of the specified parties.
- b. identify the specified parties for whom use is intended. In situations covered by paragraph .06c, the specified parties should only include management, those charged with governance, others within the entity, the parties to the contract or agreement, or the regulatory agencies to whose jurisdiction the entity is subject, as appropriate in the circumstances.
- c. state that the auditor's written communication is not intended to be and should not be used by anyone other than the specified parties. (Ref: par. .A8-.A9)

### ***Adding Other Specified Parties (Ref: par. .A10)***

**.08** When, in accordance with paragraph .06, the auditor includes an alert that restricts the use of the auditor's written communication to certain specified parties, and the auditor is requested to add other parties as specified parties, the auditor should determine whether to agree to add the other parties as specified parties. In situations covered by paragraph .06c, the auditor should not agree to add as specified parties any other parties not described in paragraph .07b.

**.09** When the auditor agrees to add other parties as specified parties, the auditor should obtain affirmative acknowledgment, in writing, from the other parties of their understanding of

- a. the nature of the engagement resulting in the auditor's written communication,
- b. the measurement or disclosure criteria related to the subject matter of the auditor's written communication, and
- c. the auditor's written communication.

.10 If the other parties are added after the release of the auditor's written communication, in addition to the requirements of paragraph .09, the auditor should take one of the following actions:

- a. Amend the auditor's written communication to add the other parties. In such circumstances, the auditor should not change the original date of the auditor's written communication.
- b. Provide a written acknowledgment to management and the other parties that such parties have been added as specified parties. The auditor should state in the acknowledgment that no procedures were performed subsequent to the original date of the auditor's written communication or the date that the engagement was completed, as appropriate.

### **Alert for Engagements Performed in Accordance With Government Auditing Standards (Ref: par. .A11)**

.11 The alert language required by paragraph .07 should not be used when

- a. the engagement is performed in accordance with *Government Auditing Standards*, and
- b. the auditor's written communication pursuant to that engagement is issued in accordance with
  - i. section 265, *Communicating Internal Control Related Matters Identified in an Audit*;
  - ii. section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements*;
  - iii. section 935, *Compliance Audits*; or
  - iv. section 940, *An Audit of Internal Control Over Financial Reporting That Is Integrated With an Audit of Financial Statements*.

Instead, the alert required by paragraph .06 should

- a. describe the purpose of the auditor's written communication and
- b. state that the auditor's written communication is not suitable for any other purpose.

[As amended, effective for integrated audits for periods ending on or after December 15, 2016, by SAS No. 130.]

## **Application and Other Explanatory Material**

### **Alert That Restricts the Use of the Auditor's Written Communication (Ref: par. .01-.02 and .06)**

.A1 In addition to auditor's reports, auditor's written communications may include letters or presentation materials (for example, letters communicating internal control related matters or presentations addressing communications with those charged with governance).

.A2 Certain sections, identified in appendix A, contain specific requirements to include an alert that restricts the use of the auditor's written communication or that otherwise address the inclusion of such alerts. The need for an alert that restricts the use of the auditor's written communication arises from the potential for the auditor's written communication to be misunderstood if

taken out of the context in which the auditor's written communication is intended to be used. The context in which the auditor's written communication is intended to be used may consist of a number of circumstances, including

- the purpose of the auditor's written communication;
- the nature of the procedures applied in its preparation;
- the basis of, or assumptions used in, its preparation; and
- the extent to which the procedures performed generally are known or understood.

**.A3** Auditor's reports on financial statements prepared in accordance with a general purpose framework ordinarily do not include an alert that restricts their use. However, nothing in GAAS precludes an auditor from including such an alert in any auditor's report or other auditor's written communication. For example, financial statements prepared specifically for use in connection with an acquisition may be prepared in accordance with a general purpose framework because the parties involved in the transaction have agreed that such general purpose financial statements are appropriate for their purposes. Nevertheless, when the terms of the engagement to audit those financial statements require the auditor to supply the auditor's report only to specified parties, the auditor may consider it necessary in the circumstances to include an other-matter paragraph in the auditor's report that restricts the use of the auditor's report.<sup>1</sup>

**.A4** The subject matter of the auditor's written communication may be based on matters identified by the auditor during the course of the audit engagement when identification of such matters is not the primary objective of the audit engagement (commonly referred to as a by-product report) (for example, communication about internal control or compliance related matters identified in an audit of financial statements, the primary objective of which is to express an opinion on the financial statements). Because such communication can only be understood in relation to the primary objective of the audit engagement, it may be misinterpreted or misunderstood. Accordingly, paragraph .06c requires such auditor's written communication to include an alert that restricts its use.

### ***Alert That Restricts the Use of the Auditor's Written Communication Included in General Use Communications***

**.A5** An auditor's written communication that is required by paragraph .06 to include an alert that restricts its use may be included in a document that also contains an auditor's written communication that is for general use. In such circumstances, the use of the general use communication is not affected.

**.A6** An auditor may also issue a single combined auditor's written communication that includes (a) communications that are required by paragraph .06 to include an alert that restricts their use and (b) communications that are for general use. If these two types of communications are clearly differentiated within the combined communication, such as through the use of appropriate headers, the alert that restricts the use of the auditor's written communication may be limited to the communications required by paragraph .06 to include such an alert. In such circumstances, the use of the general use communication is not affected. An example of a single combined auditor's written communication addressing a matter that was not the primary objective of the audit engagement

---

<sup>1</sup> Paragraph .08 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

that is included in a general use communication is provided in the exhibit "Illustrations of Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements," of section 806.<sup>2</sup>

### ***Distribution of the Auditor's Written Communication***

.A7 An auditor is not responsible for controlling, and cannot control, distribution of the auditor's written communication after its release. The alert that restricts the use of the auditor's written communication is designed to avoid misunderstandings related to the use of the auditor's written communication, particularly if the auditor's written communication is taken out of the context in which the auditor's written communication is intended to be used. An auditor may consider informing the entity or other specified parties that the auditor's written communication is not intended for distribution to parties other than those specified in the auditor's written communication. The auditor may, in connection with establishing the terms of the engagement, reach an understanding with the entity that the intended use of the auditor's written communication will be restricted and may obtain the entity's agreement that the entity and specified parties will not distribute such auditor's written communication to parties other than those identified therein.

### ***Illustrative Alert Language (Ref: par. .07)***

.A8 The alert that restricts the use of the auditor's written communication may list the specified parties or refer to the specified parties listed elsewhere in the auditor's written communication. The following illustrates language that includes the elements required by paragraph .07:

This [report, letter, presentation, or communication] is intended solely for the information and use of [list or refer to the specified parties] and is not intended to be and should not be used by anyone other than these specified parties.

.A9 Other sections, such as section 920, *Letters for Underwriters and Certain Other Requesting Parties*, may include specific requirements relating to the matters to be included in the alert that restrict the use of the auditor's written communication, as required by paragraph .06, including identifying the specified parties.

### ***Adding Other Specified Parties (Ref: par. .08-10)***

.A10 When the auditor is requested to add other parties as specified parties, the auditor may agree to add the other parties as specified parties based on the auditor's consideration of factors such as the identity of the other parties and the intended use of the auditor's written communication.

## **Alert for Engagements Performed in Accordance With Government Auditing Standards (Ref: par. .11)**

.A11 *Government Auditing Standards* regard the auditor's written communications issued pursuant to the sections, identified in paragraph .11, to be an integral part of the audit engagement for the purpose of assessing the

---

<sup>2</sup> Illustration 5, "Report on Compliance With Aspects of Contractual Agreements Given in a Combined Report, and No Instances of Noncompliance Were Identified," in the exhibit "Illustrations of Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements," of section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements*.

results of the engagement. Accordingly, different alert language is used. The following illustrates language that includes the elements of the alert required by paragraph .11:

The purpose of this [*report, letter, presentation, or communication*] is solely to [*describe the purpose of the auditor's written communication, such as to describe the scope of our testing of internal control over financial reporting and compliance, and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control over financial reporting or on compliance*]. This [*report, letter, presentation, or communication*] is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering [*describe the results that are being assessed, such as the entity's internal control over financial reporting and compliance*]. Accordingly, this [*report, letter, presentation, or communication*] is not suitable for any other purpose.

.A12

## Appendix A—List of AU-C Sections Relating to the Restricted Use of the Auditor’s Written Communication

This appendix identifies paragraphs in other sections that contain specific requirements to include an alert that restricts the use of the auditor's written communication or that otherwise address the inclusion of such alerts. The list is not a substitute for considering the requirements and related application and other explanatory material in the other sections.

- Paragraph .17 of section 260, *The Auditor's Communication With Those Charged With Governance*
  - Paragraphs .14d, .A32, and .A38–.A39 of section 265, *Communicating Internal Control Related Matters Identified in an Audit*
  - Paragraph .A16 of section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*
  - Paragraphs .20, .A26–.A27, and .A33 of section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*
  - Paragraphs .12–.13 and .A6–.A8 of section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements*
  - Paragraphs .14f and .A6 of section 915, *Reports on Application of Requirements of an Applicable Financial Reporting Framework*
  - Paragraphs .33 and .A34 of section 920, *Letters for Underwriters and Certain Other Requesting Parties*
  - Paragraphs .30, .31i, and .A33 of section 935, *Compliance Audits*
-

## AU-C Section 910

# ***Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country***

Source: SAS No. 124.

Effective for audits of financial statements for periods ending on or after December 15, 2012.

### **Introduction**

#### **Scope of This Section**

**.01** This section addresses circumstances in which an auditor practicing in the United States is engaged to report on financial statements that have been prepared in accordance with a financial reporting framework generally accepted in another country not adopted by a body designated by the Council of the AICPA (Council) to establish generally accepted accounting principles (GAAP) (hereinafter referred to as a financial reporting framework generally accepted in another country) when such audited financial statements are intended for use outside the United States. This section is not intended to preclude the use of such audited financial statements in the United States.

**.02** Pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 1.320.001), the Council designates the bodies to establish GAAP. This section does not apply to financial statements prepared in accordance with financial reporting frameworks established by the bodies designated by the Council. Section 700, *Forming an Opinion and Reporting on Financial Statements*, applies to engagements to report on such financial statements, including financial statements prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). [Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

**.03** This section is applicable to engagements to report on financial statements prepared in accordance with a jurisdictional variation of IFRS such that the entity's financial statements do not contain an explicit and unreserved statement in an appropriate note to the financial statements that its financial statements are in compliance with IFRS as promulgated by the IASB.

**.04** This section does not apply to engagements to report on financial statements of a U.S. subsidiary of a foreign registrant parent company that are presented in the parent company's filing with the U.S. Securities and Exchange Commission when the subsidiary's financial statements have been prepared in accordance with a financial reporting framework used by the parent company and audited in accordance with auditing standards generally accepted in the United States of America (GAAS).

## Effective Date

.05 This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

## Objective

.06 The objective of the auditor, when engaged to report on financial statements prepared in accordance with a financial reporting framework generally accepted in another country, when such audited financial statements are intended for use outside the United States, is to address appropriately the special considerations that are relevant to

- a. the acceptance of the engagement,
- b. the planning and performance of the engagement, and
- c. forming an opinion and reporting on the financial statements.

## Requirements

### Considerations When Accepting the Engagement (Ref: par. .A1)

.07 Section 210, *Terms of Engagement*, requires the auditor, as part of establishing whether the preconditions for an audit are present prior to accepting the engagement, to determine the acceptability of the financial reporting framework applied in the preparation of the financial statements.<sup>1</sup> In an audit of financial statements prepared in accordance with a financial reporting framework generally accepted in another country, the auditor should obtain an understanding of

- a. The purpose for which the financial statements are prepared and whether the financial reporting framework applied in the preparation of the financial statements is a fair presentation framework.
- b. The intended users of the financial statements.
- c. The steps taken by management to determine that the applicable financial reporting framework is acceptable in the circumstances.

.08 When the auditor plans to use the form and content of the auditor's report of another country, the auditor should obtain an understanding of the applicable legal responsibilities involved. (Ref: par. .A8)

### Performance (Ref: par. .A2-.A3)

.09 When auditing financial statements prepared in accordance with a financial reporting framework generally accepted in another country that are intended for use only outside the United States, the auditor should comply with GAAS, except for requirements related to the form and content of the report in the situation described in paragraph .12. The auditor should determine whether the application of GAAS requires special consideration in the circumstances of the engagement.

.10 Section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatements*, requires the auditor to obtain an

---

<sup>1</sup> See paragraph .06 of section 210, *Terms of Engagement*.

understanding of the entity's selection and application of accounting policies.<sup>2</sup> When reporting on financial statements prepared in accordance with a financial reporting framework generally accepted in another country, the auditor should obtain an understanding of such framework.

## Application of Auditing Standards of Another Country

.11 If the auditor is engaged to audit financial statements prepared in accordance with a financial reporting framework generally accepted in another country, and the agreed-upon terms of engagement require the auditor to apply either the auditing standards of that country or International Standards on Auditing (ISAs), the auditor should obtain an understanding of and apply those relevant auditing standards, as well as GAAS, except for requirements related to the form and content of the report in the situation described in paragraph .12. (Ref: par. .A4-.A6)

## Reporting

### **Reporting—Use Only Outside the United States**

.12 If the auditor is reporting on financial statements prepared in accordance with a financial reporting framework generally accepted in another country that are intended for use only outside the United States, the auditor should report using either

- a. a U.S. form of report that reflects that the financial statements being reported on have been prepared in accordance with a financial reporting framework generally accepted in another country, including (Ref: par. .A7)
  - i. the elements required by section 700 and
  - ii. a statement that refers to the note to the financial statements that describes the basis of presentation of the financial statements on which the auditor is reporting, including identification of the country of origin of the accounting principles, or
- b. the report form and content of the other country (or, if applicable, as set forth in the ISAs), provided that
  - i. such a report would be issued by auditors in the other country in similar circumstances,
  - ii. the auditor understands and has obtained sufficient appropriate audit evidence to support the statements contained in such a report, and
  - iii. the auditor has complied with the reporting standards of that country and identifies the other country in the report. (Ref: par. .A8-.A9)

### **Reporting—Use in the United States**

.13 If financial statements prepared in accordance with a financial reporting framework generally accepted in another country also are intended for use in the United States, the auditor should report using the U.S. form of report.<sup>3</sup>

---

<sup>2</sup> See paragraph .12(c) of section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*.

<sup>3</sup> See section 700, *Forming an Opinion and Reporting on Financial Statements*.

In addition, the auditor should include in the auditor's report an emphasis-of-matter paragraph<sup>4</sup> that

- a. identifies the financial reporting framework used in the preparation of the financial statements,
- b. refers to the note to the financial statements that describes that framework, and
- c. indicates that such framework differs from accounting principles generally accepted in the United States of America. (Ref: par. .A7 and .A10)

## Application and Other Explanatory Material

### Considerations When Accepting the Engagement (Ref: par. .07-.08)

**.A1** In obtaining an understanding of the purpose for which the financial statements are prepared and of the intended users, the auditor may consider whether the intended users are likely to be familiar with the applicable financial reporting framework. For example, if the financial statements are to be used in the United States in addition to the other country(ies) for which they are intended, the auditor may consider whether intended users within the United States deal directly with the entity and whether the financial statements are to be used in a manner that permits such users to discuss with the entity differences from accounting and reporting practices in the United States and their significance. Accordingly, an auditor may conclude that financial statements prepared in accordance with a financial reporting framework generally accepted in another country are not appropriate for use in a private placement memorandum to be distributed widely in the United States.

### Performance (Ref: par. .09-.10)

**.A2** The accounting principles used to prepare financial statements in accordance with a financial reporting framework generally accepted in another country may differ from those used to prepare financial statements in accordance with accounting principles generally accepted in the United States of America, and such differences may affect the auditor's risk assessment and design of further audit procedures. For example, the financial reporting framework generally accepted in another country may require that certain assets be revalued to adjust for the effects of inflation—in which case, the auditor may find it necessary to perform procedures to test the revaluation adjustments. As another example, a particular country's financial reporting framework may not require or permit recognition of deferred taxes; consequently, procedures for testing deferred tax balances would not be applicable.

**.A3** An understanding of the financial reporting framework generally accepted in another country may be obtained by reading the statutes or professional literature, or codifications thereof, which establish or describe the financial reporting framework generally accepted in the other country. Often, the application of accounting principles to a particular situation requires practical experience, and accordingly, the auditor may consult with persons having expertise in applying the financial reporting framework of the other country.

---

<sup>4</sup> See section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

## Application of Auditing Standards of Another Country (Ref: par. .11)

**.A4** Applying either the auditing standards of another country or the ISAs may require the auditor to perform procedures in addition to those procedures required by GAAS.

**.A5** An understanding of the auditing standards of another country or the ISAs may be obtained by reading the statutes or professional literature, or codifications thereof, which establish or describe such standards.

**.A6** Statutes or professional literature, or codifications thereof, however, may not include a complete description of the auditing practices in another country. The auditor may consult with persons having expertise in, including practical experience in applying, the auditing standards of the other country or the ISAs, as relevant.

## Reporting (Ref: par. .08 and .12-.13)

**.A7** The exhibit "Illustrations of Auditor's Reports on Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country" contains illustrations of auditor's reports on financial statements incorporating the elements required by paragraphs .12-.13.

### ***Reporting—Use Only Outside the United States (Ref: par. .08 and .12)***

**.A8** Even when the form and content of the auditor's report used in another country appears similar to that used in the United States, the report may convey a different meaning and entail different legal responsibilities for the auditor due to custom or culture. Issuing a report of another country may require the auditor to report on statutory compliance or otherwise require understanding of local laws and regulations. When issuing the auditor's report of another country, the auditor is required by paragraph .08 to obtain an understanding of applicable legal responsibilities, in addition to the auditing standards and the financial reporting framework generally accepted in the other country, as required by paragraphs .07 and .10-.11. Accordingly, depending on the nature and extent of the auditor's knowledge and experience, the auditor may consult with persons having expertise in the audit reporting practices of the other country and associated legal responsibilities to obtain the understanding needed to issue that country's report.

**.A9** An entity that prepares financial statements in accordance with GAAP also may prepare financial statements in accordance with a financial reporting framework generally accepted in another country for use outside the United States (for example, financial statements prepared in accordance with a jurisdictional variation of IFRS such that the entity's financial statements do not contain an explicit and unreserved statement of compliance with IFRS as issued by the IASB). In such circumstances, the auditor may report on the financial statements that are in accordance with a financial reporting framework generally accepted in another country by reporting in accordance with paragraph .12. The auditor may include in one or both of the reports a statement that another report has been issued on the financial statements for the entity that have been prepared in accordance with a financial reporting framework generally accepted in another country. The auditor's statement may also reference any note disclosure in the financial statements that describes significant differences between the accounting principles used and GAAP. An example of such a statement, which may be included in an emphasis-of-matter paragraph, is as follows:

We also have reported separately on the financial statements of ABC Company for the same period presented in accordance with [*specify the financial reporting framework generally accepted*] in [*name of country*]. (The significant differences between the [*specify the financial reporting framework generally accepted*] in [*name of country*] and accounting principles generally accepted in the United States of America are summarized in Note X.)

**Reporting—Use in the United States (Ref: par. .13)**

**.A10** When reporting on financial statements prepared in accordance with a financial reporting framework generally accepted in another country that will be used in the United States and outside the United States, the auditor may issue two reports: one of the reports described in paragraph .12 for use outside the United States and the U.S. form of report with an emphasis-of-matter paragraph, as described in paragraph .13, for use in the United States.

.A11

## Exhibit—Illustrations of Auditor’s Reports on Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country (Ref: par. .A7)

Illustration 1—U.S. Form of Independent Auditor's Report to Report on Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country That Are Intended for Use Only Outside the United States

Illustration 2—U.S. Form of Independent Auditor's Report To Report on Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country That Also Are Intended for Use in the United States

### Illustration 1 — U.S. Form of Independent Auditor’s Report to Report on Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country That Are Intended for Use Only Outside the United States

#### Independent Auditor's Report

*[Appropriate Addressee]*

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, which, as described in note X to the financial statements, have been prepared on the basis of *[specify the financial reporting framework generally accepted]* in *[name of country]*.

#### ***Management’s Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with *[specify the financial reporting framework generally accepted]* in *[name of country]*; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor’s Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America (and *[in name of country]*). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with [*specify the financial reporting framework generally accepted*] in [*name of country*].

[*Auditor's signature*]

[*Auditor's city and state*]

[*Date of the auditor's report*]

## **Illustration 2—U.S. Form of Independent Auditor's Report To Report on Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country That Also Are Intended for Use in the United States**

### **Independent Auditor's Report**

*[Appropriate Addressee]*

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, which, as described in note X to the financial statements, have been prepared on the basis of *[specify the financial reporting framework generally accepted]* in *[name of country]*.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with *[specify the financial reporting framework generally accepted]* in *[name of country]*; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America (and *[in name of country]*). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### ***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with *[specify the financial reporting framework generally accepted]* in *[name of country]*.

#### ***Emphasis of Matter***

As discussed in Note X to the financial statements, the Company prepares its financial statements in accordance with *[specify the financial reporting*

*framework generally accepted*] in [*name of country*], which differ(s) from accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

## AU-C Section 915

# *Reports on Application of Requirements of an Applicable Financial Reporting Framework*

Source: SAS No. 122; SAS No. 123; SAS No. 125.

Effective for engagements that end on or after December 15, 2012.

## Introduction

### Scope of This Section

**.01** This section addresses the reporting accountant's responsibilities when requested to issue a written report on

- a. the application of the requirements of an applicable financial reporting framework to a specific transaction or
- b. the type of report that may be issued on a specific entity's financial statements. (Ref: par. .A1)

**.02** This section also applies to oral advice provided by the reporting accountant

- a. that the reporting accountant concludes is intended to be used by a principal to the transaction as an important factor considered in reaching a decision on the application of the requirements of an applicable financial reporting framework to a specific transaction or
- b. on the type of report that may be issued on a specific entity's financial statements.

**.03** Differing interpretations may exist concerning whether and, if so, how existing accounting policies in an applicable financial reporting framework apply to new transactions or how new accounting policies in an applicable financial reporting framework apply to existing transactions. Management and others may consult with accountants on the application of the requirements of an applicable financial reporting framework to those transactions or to increase their knowledge of specific financial reporting issues. Such consultations may provide relevant information and insights not otherwise available.

**.04** This section does not apply to

- a. a continuing accountant with respect to the specific entity whose financial statements the continuing accountant has been engaged to report on,
- b. engagements either to assist in litigation involving accounting or auditing matters or to provide expert testimony in connection with such litigation, or
- c. professional advice provided to another accountant in public practice.

.05 This section also does not apply to communications such as position papers prepared by an accountant for the purpose of presenting views on an issue involving the application of the requirements of an applicable financial reporting framework, provided that these communications are not intended to provide guidance on the application of these requirements to a specific transaction. Position papers include newsletters, articles, speeches, and texts thereof; lectures and other forms of public presentations; and letters for the public record to professional and governmental standards-setting bodies.

## Effective Date

.06 This section is effective for engagements that end on or after December 15, 2012.

## Objective

.07 The objective of the reporting accountant, when engaged to issue a written report or provide oral advice on the application of the requirements of an applicable financial reporting framework to a specific transaction or on the type of report that may be issued on a specific entity's financial statements, is to address appropriately

- a. the acceptance of the engagement.
- b. the planning and performance of the engagement.
- c. reporting on the specific transaction or type of report.

## Definitions

.08 For purposes of this section, the following terms have the meanings attributed as follows:

**Continuing accountant.** An accountant who has been engaged to report on the financial statements of a specific entity or entities of which the specific entity is a component.

**Hypothetical transaction.** A transaction or financial reporting issue that does not involve facts or circumstances of a specific entity.

**Reporting accountant.** An accountant, other than a continuing accountant, in public practice, as described in ET section 0.400, *Definitions*, who prepares a written report or provides oral advice on the application of the requirements of an applicable financial reporting framework to a specific transaction or on the type of report that may be issued on a specific entity's financial statements.<sup>[1]</sup> (A reporting accountant who is also engaged to provide accounting and reporting advice to a specific entity on a recurring basis is commonly referred to as an advisory accountant.) (Ref: par. .A4)

**Specific transaction.** A completed or proposed transaction or group of related transactions or a financial reporting issue involving facts and circumstances of a specific entity.

**Written report.** Any written communication that provides a conclusion on the appropriate application of the requirements of an applicable financial reporting framework to a specific transaction

---

<sup>[1]</sup> [Footnote deleted, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

or on the type of report that may be issued on a specific entity's financial statements.

[Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

## Requirements

### Engagement Acceptance

**.09** In determining whether to accept the engagement, the reporting accountant should consider

- a.* the circumstances under which the written report or oral advice is requested,
- b.* the purpose of the request, and
- c.* the intended use of the written report or oral advice.

For purposes of this section, the reporting accountant is not required to be independent of the entity.

**.10** The reporting accountant should accept an engagement to issue a written report on the application of the requirements of an applicable financial reporting framework to a specific transaction only when the transaction involves facts or circumstances of a specific entity. The reporting accountant should not accept an engagement to issue a written report on hypothetical transactions.

**.11** If the reporting accountant has determined in accordance with paragraphs .09–.10 that it is appropriate to accept an engagement to be performed in accordance with this section, the reporting accountant should establish an understanding with the requesting party that

- a.* responsibility for the proper accounting treatment rests with management, who is expected to consult with its continuing accountant;
- b.* management acknowledges that the reporting accountant may need to consult with the continuing accountant and that, upon request, management will authorize the continuing accountant to respond fully to the reporting accountant's inquiries; and
- c.* management will notify those charged with governance and the continuing accountant concerning the nature of the engagement.

If management refuses to agree to authorize the continuing accountant to respond fully to the reporting accountant's inquiries, the reporting accountant should inquire about the reasons and consider the implications of that refusal when determining whether to accept the engagement.

### Engagement Planning and Performance

**.12** The reporting accountant should

- a.* obtain an understanding of the form and substance of the specific transaction(s) or the conditions relevant to the type of report that may be issued on a specific entity's financial statements;
- b.* review the relevant requirements of the applicable financial reporting framework, if appropriate;
- c.* consult with other professionals, experts, or regulatory authorities, if appropriate;

- d. perform research or other procedures, as appropriate, to identify and consider existing creditable precedents or analogies;
- e. except as provided in paragraph .13, request permission from the entity's management to consult with the continuing accountant and request the entity's management to authorize the continuing accountant to respond fully to the reporting accountant's inquiries; and
- f. except as provided in paragraph .13, consult with the continuing accountant to determine the available facts relevant to forming a conclusion. (Ref: par. .A2–.A3)

### ***Consulting With the Continuing Accountant***

**.13** The reporting accountant should consult with the continuing accountant to determine whether the reporting accountant has obtained the available facts relevant to form a conclusion, unless

- a. the reporting accountant is engaged to issue a written report or provide oral advice on the application of the requirements of an applicable financial reporting framework to a specific transaction, as described in paragraphs .01*a* and .02*a*, and
- b. the reporting accountant is engaged to provide recurring accounting and reporting advice (for example, bookkeeping or assistance in formulating accounting positions in selected matters, which are services commonly performed by an advisory accountant) and
  - i. does not believe that a second opinion is being requested,
  - ii. has full access to management, and
  - iii. believes that the relevant information has been obtained in order to issue a written report or provide oral advice regarding the application of the requirements of an applicable financial reporting framework to an entity's specific transaction.

If the reporting accountant determines in accordance with the preceding *a–b* that it is not necessary to consult with the continuing accountant, the reporting accountant should document the rationale for not consulting. (Ref: par. .A2–.A4)

### **Written Report (Ref: par. .A5–.A7)**

**.14** The reporting accountant's written report should be addressed to the requesting party (for example, management or those charged with governance) and should include the following:

- a. A brief description of the nature of the engagement and a statement that the engagement was performed in accordance with this section.
- b. Identification of the specific entity; a description of the specific transaction(s), if applicable; a statement of the relevant facts, circumstances, and assumptions; and a statement about the source of such information.
- c. A statement describing the appropriate application of the requirements of an applicable financial reporting framework (including the country of origin) to the specific transaction or type of report that may be issued on the entity's financial statements and, if appropriate, a description of the reasons for the reporting accountant's conclusion.

- d. A statement that the responsibility for the proper accounting treatment rests with the preparers of the financial statements, who should consult with their continuing accountant.
- e. A statement that any difference in the facts, circumstances, or assumptions presented may change the report.
- f. An alert that restricts the use of the report solely to the specified parties, as required by section 905, *Alert That Restricts the Use of the Auditor's Written Communication*.<sup>2</sup>
- g. If the reporting accountant is not independent of the entity, a statement indicating the reporting accountant's lack of independence. The reporting accountant is neither required to provide, nor precluded from providing, the reasons for the lack of independence; however, if the reporting accountant chooses to provide the reasons for the lack of independence, the reporting accountant should include all the reasons therefor.

[As amended, December 2011, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

## Application and Other Explanatory Material

### Scope of This Section (Ref: par. .01b)

.A1 Examples of the types of reports or illustrative report wording that a reporting accountant may provide include the following:

- A report expressing a modified opinion versus a report expressing an unmodified opinion
- A report prepared in accordance with auditing standards generally accepted in the United States of America versus a report prepared in accordance with international auditing standards
- Wording that might be included in a modified opinion

### Engagement Planning and Performance

.A2 The responsibilities of an entity's continuing accountant to respond to inquiries by the reporting accountant are the same as the responsibilities of a predecessor auditor to respond to inquiries by the auditor. Section 210, *Terms of Engagement*, addresses the responsibilities of a predecessor auditor.<sup>3</sup> (Ref: par. .12f-.13)

.A3 The continuing accountant may provide information related to the form and substance of the specific transaction that is not otherwise available to the reporting accountant regarding, for example, the following:

- How management has applied the requirements of an applicable financial reporting framework to similar transactions
- Whether the method of accounting recommended by the continuing accountant is disputed by management

---

<sup>2</sup> See paragraphs .06a-b and .07 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. [Footnote added, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

<sup>3</sup> Paragraph .A30 of section 210, *Terms of Engagement*. [Footnote renumbered by the issuance of SAS No. 125, December 2012.]

- The continuing accountant's conclusion on the application of the requirements of an applicable financial reporting framework to the specific transaction or the type of report that may be issued on the entity's financial statements (Ref: par. .12f-.13)

**.A4** When determining whether the criteria in paragraph .13 are satisfied such that consultation with the continuing accountant is not necessary, the reporting accountant may consider the following:

- The nature of the engagement
- Whether the reporting accountant believes that full knowledge of the form and substance of the transaction has been obtained
- How management has applied the requirements of the applicable financial reporting framework to similar transactions in the past
- Whether management has discussed the method of accounting with the continuing accountant

A recurring engagement for a reporting accountant may constitute the effective outsourcing of certain controllership or other financial reporting functions or involve financial reporting advisory services. Such an engagement may allow the reporting accountant to have complete access to management. (Ref: par. .08 and .13)

### **Written Report (Ref: par. .14)**

**.A5** Although the reporting requirements in paragraph .14 only apply to written reports, reporting accountants may find the requirements useful when providing oral advice.

**.A6** The alert that restricts the use of the reporting accountant's written report referred to in paragraph .14f is not intended to preclude distribution of the report to the continuing accountant. [As amended, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

**.A7** The exhibit "Illustrative Written Report to the Requesting Entity" provides an example of a written report to the requesting party.

.A8

## Exhibit—Illustrative Written Report to the Requesting Party

The following is an illustration of the reporting accountant's written report to the requesting party (for example, management or those charged with governance) on the application of the requirements of accounting principles generally accepted in the United States of America to a specific transaction.

### Introduction

We have been engaged to report on the appropriate application of the requirements of accounting principles generally accepted in the United States of America to the specific transaction described below. This report is being issued to ABC Company for assistance in evaluating accounting policies for the described specific transaction. Our engagement has been conducted in accordance with Statement on Auditing Standards No. 122 section 915, *Reports on Application of Requirements of an Applicable Financial Reporting Framework*.

### Description of Transaction

The facts, circumstances, and assumptions relevant to the specific transaction as provided to us by the management of ABC Company are as follows: *[Text discussing the facts, circumstances, and assumptions relevant to the specific transaction]*

### Appropriate Accounting Principles

*[Text discussing accounting principles generally accepted in the United States of America and how they apply to the described transaction]*

### Concluding Comments

The ultimate responsibility for the decision on the appropriate application of the requirements of accounting principles generally accepted in the United States of America for an actual transaction rests with the preparers of financial statements, who should consult with their continuing accountant. Our conclusion on the appropriate application of the requirements of accounting principles generally accepted in the United States of America for the described specific transaction is based solely on the facts provided to us as previously described; should these facts and circumstances differ, our conclusion may change.

### Restricted Use

This report is intended solely for the information and use of those charged with governance and management of ABC Company and is not intended to be and should not be used by anyone other than these specified parties.

## AU-C Section 920

# ***Letters for Underwriters and Certain Other Requesting Parties***

Source: SAS No. 122; SAS No. 125; SAS No. 129.

Effective for comfort letters issued on or after December 15, 2014.

## Introduction

### Scope of This Section

**.01** This section addresses the auditor's responsibilities when engaged to issue letters (commonly referred to as *comfort letters*) to requesting parties in connection with a nonissuer entity's financial statements included in registration statements filed with the Securities and Exchange Commission (SEC) under the Securities Act of 1933 (the 1933 Act) (for example, inclusion of the non-issuer entity's financial statements as required by either Rule 3-05 or 3-09 of Regulation S-X) or included in other securities offerings.

**.02** Auditors' services include audits or reviews of financial statements included in securities offerings. In connection with the securities offerings, auditors are often requested to issue comfort letters to certain requesting parties. The auditor is not required by generally accepted auditing standards (GAAS) to accept an engagement to issue a comfort letter.

**.03** The service of providing letters for underwriters developed following the passing of the 1933 Act. Section 11 of the 1933 Act provides that underwriters, among others, could be liable if any part of a registration statement contains material omissions or misstatements. The 1933 Act also provides for an affirmative defense for underwriters if it can be demonstrated that, after a reasonable investigation, the underwriter has reasonable grounds to believe that no material omissions or misstatements existed in a securities offering. An auditor issuing a comfort letter is one of a number of procedures that may be used to establish that an underwriter has conducted a reasonable investigation. Consequently, underwriters may request auditors to assist them in developing a record of reasonable investigation.

**.04** The subjects that may be covered in a comfort letter include

- the independence of the auditor.
- whether the audited financial statements included in the securities offering comply regarding form, in all material respects, with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC.
- unaudited financial statements, condensed interim financial information, capsule financial information, pro forma financial information, financial forecasts, management's discussion and analysis (MD&A), and changes in selected financial statement items during a period subsequent to the date and period of the latest financial statements included in the securities offering.

- tables, statistics, and other financial information included in the securities offering.
- negative assurance about whether certain nonfinancial statement information included in the securities offering complies regarding form, in all material respects, with Regulation S-K.<sup>1</sup>

## Effective Date

.05 This section is effective for comfort letters issued on or after December 15, 2012.

## Objectives

.06 The objectives of the auditor, when engaged to issue a letter to a requesting party in connection with an entity's financial statements included in a securities offering, are to

- a. address appropriately the acceptance of the engagement and the scope of services; and
- b. issue a letter with the appropriate form and content.

## Definitions

.07 For purposes of this section, the following terms have the meanings attributed as follows:

**Capsule financial information.** Unaudited summarized interim financial information for periods subsequent to the periods covered by the audited financial statements or unaudited interim financial information included in the securities offering. Capsule financial information may be presented in narrative or tabular form and is often provided for the most recent interim period and for the corresponding period of the prior year.

**Change period.** The period ending on the cut-off date and ordinarily beginning, for balance sheet items, immediately after the date of the latest balance sheet in the securities offering and, for income statement items, immediately after the latest period for which such items are presented in the securities offering.

**Closing date.** The date on which the issuer of the securities or selling security holder delivers the securities in exchange for the proceeds of the offering.

**Comfort letter.** A letter issued by an auditor in accordance with this section to requesting parties in connection with an entity's financial statements included in a securities offering.

**Comparison date and comparison period.** The date as of which, and period for which, data at the cut-off date and data for the change period are to be compared.

**Cut-off date.** The date through which certain procedures described in the comfort letter are to relate.

**Effective date.** The date on which the securities offering becomes effective.

---

<sup>1</sup> Regulation S-K, "Standard Instructions for Filing Forms Under Securities Act of 1933, Securities Exchange Act of 1934 and Energy Policy and Conservation Act of 1975."

**Entity.** The party whose financial statements are the subject of the engagement.

**Negative assurance.** A statement that, based on the procedures performed, nothing has come to the auditor's attention that caused the auditor to believe that specified matters do not meet specified criteria (for example, that nothing came to the auditor's attention that caused the auditor to believe that any material modifications should be made to the unaudited interim financial information for it to be in accordance with generally accepted accounting principles).

**Requesting party.** One of the following specified parties requesting a comfort letter, which has negotiated an agreement with the entity:

- An underwriter
- Other parties that are conducting a review process that is, or will be, substantially consistent with the due diligence process performed when the securities offering is, or if the securities offering was, being registered pursuant to the 1933 Act, as follows:
  - A selling shareholder, sales agent, or other party with a statutory due diligence defense under Section 11 of the 1933 Act
  - A broker-dealer or other financial intermediary acting as principal or agent in a securities offering in connection with the following types of securities offerings:
    - Foreign offerings, including Regulation S, Eurodollar, and other offshore offerings
    - Transactions that are exempt from the registration requirements of Section 5 of the 1933 Act, including those pursuant to Regulation A, Regulation D, and Rule 144A
    - Offerings of securities issued or backed by governmental, municipal, banking, tax-exempt, or other entities that are exempt from registration under the 1933 Act
  - The buyer or seller in connection with acquisition transactions in which there is an exchange of stock (Ref: par. .A1)

**Securities offerings.** One of the following types of securities offerings:

- Registration of securities with the SEC under the 1933 Act
- Foreign offerings, including Regulation S, Eurodollar, and other offshore offerings
- Transactions that are exempt from the registration requirements of Section 5 of the 1933 Act, including those pursuant to Regulation A, Regulation D, and Rule 144A
- Offerings of securities issued or backed by governmental, municipal, banking, tax-exempt, or other entities that are exempt from registration under the 1933 Act

- Acquisition transactions in which there is an exchange of stock

**Underwriter.** As defined in the 1933 Act

any person who has purchased from an issuer with a view to, or offers or sells for an issuer in connection with, the distribution of any security, or participates or has a direct or indirect participation in any such undertaking, or participates or has a participation in the direct or indirect underwriting of any such undertaking; but such term shall not include a person whose interest is limited to a commission from an underwriter or dealer not in excess of the usual and customary distributors' or sellers' commission. As used in this paragraph, the term "issuer" shall include, in addition to an issuer, any person directly or indirectly controlling or controlled by the issuer, or any person under direct or indirect common control with the issuer.

Except when the context otherwise requires, the word *underwriter*, as used in this section, refers to the managing, or lead, underwriter, who typically negotiates the underwriting agreement or purchase agreement (hereafter referred to as the *underwriting agreement*) for a group of underwriters whose exact composition is not determined until shortly before a securities offering becomes effective. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.08** References in this section to information that is *included* in a document are to be read to also encompass information that is *incorporated by reference* in that document.

## Requirements

### Engagement Acceptance

**.09** The auditor should determine whether to accept an engagement to issue a comfort letter in connection with financial statements included in a securities offering. The auditor is neither required to accept such an engagement nor required to provide comfort on every matter requested when accepting an engagement to issue a comfort letter. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.10** The auditor should provide a comfort letter in connection with financial statements included in a securities offering only to

- a. underwriters.
- b. other parties meeting the definition of a *requesting party* in paragraph .07.

**.11** The auditor should request the requesting party to provide either

- a. a written opinion from external legal counsel that the requesting party has a statutory due diligence defense under Section 11 of the 1933 Act; or (Ref: par. .A2)
- b. a representation letter that
  - i. is addressed to the auditor;
  - ii. contains the statement, "The review process applied to the information relating to the issuer of the securities is (will

be) substantially consistent with the due diligence process that we would perform if this securities offering were being registered pursuant to the Securities Act of 1933. We are knowledgeable with respect to that due diligence process." and (Ref: par. .A3–.A4)

- iii. is signed by the requesting party. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.12** If a requesting party, other than an underwriter, requests a comfort letter but does not provide the legal opinion or representation letter described in paragraph .11, the auditor should not provide negative assurance on the financial statements as a whole, or on any of the specified elements, accounts, or items thereof. In such circumstances, the comfort letter should include the following statements: (Ref: par. .A5)

- a. It should be understood that we have no responsibility for establishing (and did not establish) the scope and nature of the procedures enumerated in the preceding paragraphs; rather, the procedures enumerated therein are those that the requesting party asked us to perform. Accordingly, we make no representations regarding questions of legal interpretation or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraphs; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages previously listed as set forth in the *[offering memorandum]*. Further, we have addressed ourselves solely to the foregoing data and make no representations regarding the adequacy of disclosures or whether any material facts have been omitted. This letter relates only to the financial statement items previously specified and does not extend to any financial statement of the company as a whole. (Ref: par. .A6)
- b. The foregoing procedures do not constitute an audit or a review conducted in accordance with generally accepted auditing standards. Had we performed additional procedures or had we conducted an audit or a review of the company's *[give dates of any interim financial statements]* consolidated financial statements in accordance with auditing standards generally accepted in the United States of America, other matters might have come to our attention that would have been reported to you.
- c. These procedures should not be taken to supplant any additional inquiries or procedures that you would undertake in your consideration of the proposed offering.
- d. This letter is solely for your information and to assist you in your inquiries in connection with the offering of the securities covered by the *[offering memorandum]*. It is not to be used, circulated, quoted, or otherwise referred to for any other purpose, including but not limited to, the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the offering document or any other document, except that reference may be made to it in any list of closing documents pertaining to the offering of the securities covered by the offering document.
- e. We have no responsibility to update this letter for events and circumstances occurring after *[cut-off date]*. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.13** The auditor should not provide a comfort letter to any parties other than a requesting party as defined in this section. (Ref: par. .A7)

**.14** When issuing a letter in accordance with this section, the auditor should not circumvent the requirements of this section by issuing any additional letters or reports to a requesting party in connection with the securities offering in which the auditor comments on items for which commenting is otherwise precluded by this section.

## **Agreeing Upon the Scope of Services**

**.15** The auditor should obtain an understanding of the specific matters to be addressed in the comfort letter. (Ref: par. .A8)

**.16** The auditor should ask to meet with the requesting party and the entity to discuss the procedures to be followed in connection with an engagement to issue a comfort letter. (Ref: par. .A9–.A10)

**.17** The auditor should clearly communicate that the auditor cannot provide any assurance regarding the sufficiency of the procedures for the requesting party's purposes. (Ref: par. .A11–.A14) [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.18** The auditor should provide the requesting party with a draft of the form of the letter the auditor expects to furnish. To the extent possible, the draft should deal with all matters to be covered in the final letter and should use exactly the same terms as those to be used in the final letter, subject to the understanding that the comments in the final letter cannot be determined until the procedures underlying it have been performed. The draft letter should be identified as a draft to avoid giving the impression that the procedures described therein have been performed. (Ref: par. .A15) [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.19** In both the draft and final forms of the comfort letter, the auditor should clearly describe the procedures performed by the auditor. The auditor should not state or imply that the auditor is carrying out such procedures as the auditor considers necessary because such statements or implications may lead to misunderstanding about the responsibility for the sufficiency of the procedures for the requesting party purposes.

**.20** If the auditor has been unable to have a discussion with the requesting party about the auditor's planned procedures, the auditor should describe in the draft letter those procedures specified in the draft underwriting agreement that the auditor is willing to perform. (Ref: par. .A16–.A17)

**.21** Situations may exist in which one or more component auditor's report is included in the securities offering. When comfort letters are issued to requesting parties by those component auditors, the auditor of the group financial statements should read those comfort letters. The auditor of the group financial statements should state in the comfort letter that the procedures relating to those components consisted solely of reading the component auditors' comfort letters. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.22** When comfort letters are requested from more than one auditor, the requirements of this section apply to each auditor. (Ref: par. .A19)

**.23** In competitive bidding situations in which legal counsel for the requesting party acts as the requesting party's representative prior to opening and acceptance of the bid, the auditor should carry out the discussions and other communications required by this section with the legal counsel until the requesting party is selected. In such circumstances, the auditor should not agree

to provide a comfort letter addressed to the entity, legal counsel, or a nonspecific addressee, such as "any or all underwriters to be selected." If the auditor agrees to provide a draft comfort letter, the draft comfort letter should include a legend describing the letter's purpose and limitations. (Ref: par. .A20–.A23)

## Format and Contents of Comfort Letters

### Dating

.24 The letter should state that the inquiries and other procedures described in the letter did not cover the period from the cut-off date to the date of the letter. (Ref: par. .A24–.A25)

.25 When an additional letter, dated at or shortly before the closing date, is requested, the auditor should carry out the specified procedures and inquiries as of the cut-off date for each letter. The subsequent letter should relate only to information in the securities offering as most recently amended. (Ref: par. .A26)

### Addressee

.26 The letter should be addressed only to the requesting party, or both the requesting party and the entity, and should not be provided to any other parties. (Ref: par. .A27)

### Introductory Paragraph

.27 The letter should contain an introductory paragraph that identifies the financial statements and the securities offering.

### Auditor's Report

.28 The auditor should, in the comfort letter, make reference to, but not repeat, the report on the audited financial statements included in the securities offering. (Ref: par. .A28)

.29 When the auditor's report on the audited financial statements included in the securities offering contains an emphasis-of-matter or other-matter paragraph addressing matters other than consistency of application of accounting policies,<sup>2</sup> the auditor should refer to that fact in the comfort letter and discuss the subject matter of the paragraph. In those instances in which the SEC accepts a modified opinion on historical financial statements, the auditor should refer to the modification in the opening paragraph of the comfort letter and discuss the subject matter of the modification. (Ref: par. .A29–.A30)

.30 The auditor should not provide negative assurance regarding the auditor's report or regarding financial statements that have been audited and are reported on in the securities offering by other auditors. (Ref: par. .A31)

.31 In the introductory paragraph of the comfort letter, if the auditor refers to reports that the auditor has previously issued other than the report on the audited financial statements included in the securities offering, the auditor should not repeat the reports in the comfort letter or otherwise imply that the auditor is reporting as of the date of the comfort letter or assuming responsibility for the sufficiency of the procedures for the requesting party's purposes. (Ref: par. .A32–.A33)

---

<sup>2</sup> See section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

[.32] [Paragraph deleted, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

.33 The auditor should not mention, refer to, or attach to the comfort letter any report or other auditor's written communication that includes an alert that restricts the use of the auditor's written communication, in accordance with section 905, *Alert That Restricts the Use of the Auditor's Written Communication*, or any restricted use reports issued in accordance with Statements on Standards for Attestation Engagements or Statements on Standards for Accounting and Review Services. (Ref: par. .A34) [As amended, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

### **Representations**

.34 The auditor should refer in the comfort letter to the requesting party's representations when the representation letter described in paragraph .11 has been provided. (Ref: par. .A35)

### **Independence**

.35 The auditor should state in the comfort letter that the auditor is independent, or the date through which the auditor was independent, with respect to the entity, and identify the applicable independence rules. (Ref: par. .A36–.A38)

### **Compliance With SEC Requirements**

.36 If the auditor is requested to include an opinion in the comfort letter on whether the financial statements covered by the auditor's report comply as to form with the pertinent accounting requirements adopted by the SEC, the auditor's opinion should refer to compliance as to form, in all material respects, with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC. (Ref: par. .A39–.A41)

.37 Certain financial statements may be incorporated in a registration statement under the 1933 Act by reference to filings under the Securities Exchange Act of 1934 (the 1934 Act). If the auditor is requested to include an opinion in the comfort letter on whether the financial statements covered by the auditor's report comply as to form with the pertinent accounting requirements adopted by the SEC, the auditor's opinion should refer to whether the audited financial statements incorporated by reference in the registration statement comply as to form, in all material respects, with the applicable accounting requirements of the 1934 Act and the related rules and regulations adopted by the SEC. However, the auditor should not opine on compliance with the provisions of the 1934 Act regarding internal control over financial reporting.

.38 If the auditor has been requested to include an opinion in the comfort letter on whether the financial statements covered by the auditor's report comply as to form with the pertinent accounting requirements adopted by the SEC, and a material departure from the pertinent rules and regulations adopted by the SEC exists, the auditor should disclose the departure in the comfort letter. (Ref: par. .A42)

.39 The auditor should express an opinion on compliance as to form with requirements under the rules and regulations adopted by the SEC only with respect to those rules and regulations applicable to the form and content of financial statements that the auditor has audited. When the financial statements or financial statement schedules have not been audited, the auditor is limited to providing negative assurance on compliance as to form.

.40 The auditor should not comment in a comfort letter on compliance as to form of MD&A with rules and regulations adopted by the SEC. (Ref: par. .A43)

## Commenting in a Comfort Letter on Information Other Than Audited Financial Statements

### General

.41 When commenting in a comfort letter on information other than audited financial statements, the auditor should

- a. describe the procedures performed by the auditor, as required by paragraph .19. (Ref: par. .A44–.A46)
- b. describe the criteria specified by the requesting party.
- c. state that the procedures performed with respect to interim periods may not disclose matters of significance regarding certain matters about which negative assurance is requested. (Ref: par. .A47–.A48)

.42 The auditor should not, in the comfort letter

- a. make any statements, or imply, that the auditor has applied procedures that the auditor determined to be necessary or sufficient for the requesting party's purposes.
- b. use terms of uncertain meaning (such as *general review*, *limited review*, *reconcile*, *check*, or *test*) in describing the work unless the procedures encompassed by these terms are described in the comfort letter.
- c. make a statement that nothing else has come to the auditor's attention that would be of interest to the requesting party as a result of carrying out the specified procedures. (Ref: par. .A49)

.43 When the report on the audited financial statements in the securities offering is a modified report, the auditor should consider the effect on providing negative assurance in the comfort letter regarding subsequent interim financial information included in the securities offering or regarding an absence of specified subsequent changes. The auditor should also follow the requirements of paragraph .29. (Ref: par. .A50)

### Knowledge of Internal Control

.44 The auditor should obtain an understanding of the entity's internal control over financial reporting for both annual and interim periods when commenting in a comfort letter on

- a. unaudited interim financial information, including unaudited condensed interim financial information;
- b. capsule financial information;
- c. a financial forecast when historical financial statements provide a basis for one or more significant assumptions for the forecast; or
- d. subsequent changes in specified financial statement items. (Ref: par. .A51)

### Unaudited Interim Financial Information

.45 The auditor should provide negative assurance on unaudited interim financial information included in the securities offering only if the auditor has

conducted a review of the interim financial information in accordance with GAAS applicable to reviews of interim financial information. If the auditor has not conducted a review in accordance with GAAS applicable to reviews of interim financial information, the auditor is limited to reporting procedures performed and findings obtained. (Ref: par. .A52)

**.46** The negative assurance provided regarding such unaudited interim financial information should be about whether

- a. any material modifications should be made to the unaudited interim financial information for it to be in accordance with the applicable financial reporting framework, and
- b. the unaudited interim financial information complies as to form in all material respects with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC, if applicable. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.47** If the auditor states in the comfort letter that the auditor has issued a review report on the unaudited interim financial information, the auditor should attach the review report to the letter unless the review report is already included in the securities offering. (Ref: par. .A53) [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.48** The auditor should specifically identify, in the comfort letter, any unaudited interim financial information and should state that the auditor has not audited the interim financial information in accordance with GAAS and does not express an opinion concerning such information. (Ref: par. .A54–.A55)

### ***Capsule Financial Information***

**.49** The auditor should not provide negative assurance regarding whether the selected capsule financial information is in accordance with the applicable financial reporting framework unless

- a. the auditor has performed a review of the financial statements underlying the capsule financial information in accordance with GAAS applicable to reviews of interim financial information, and
- b. the selected capsule financial information is in accordance with minimum disclosure requirements of the applicable financial reporting framework for interim financial information.

If these conditions have not been met, the auditor is limited to reporting procedures performed and findings obtained. (Ref: par. .A56) [Renumbered by the issuance of SAS No. 129, July 2014.]

**.50** The auditor should not provide negative assurance on selected capsule financial information regarding whether the dollar amounts were determined on a basis substantially consistent with that of the corresponding amounts in the audited financial statements unless the auditor has performed a review of the financial statements underlying the capsule financial information in accordance with GAAS applicable to reviews of interim financial information. Otherwise, the auditor is limited to reporting procedures performed and findings obtained. [Renumbered and amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.51** When the auditor is requested by the requesting party to provide negative assurance on unaudited condensed interim financial information, or information extracted therefrom, for a period ending after the latest financial statements included in the securities offering, the requirements in paragraphs

.45-.48 apply. When the auditor provides negative assurance on such information, a copy of the unaudited interim financial information should be attached to the comfort letter. (Ref: par. .A57) [Renumbered and amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

### **Pro Forma Financial Information**

**.52** The auditor should not comment in a comfort letter on pro forma financial information unless the auditor has an appropriate level of knowledge of the accounting and financial reporting practices of the entity. (Ref: par. .A58)

**.53** The auditor should not provide negative assurance in a comfort letter on pro forma financial information, including negative assurance on

- the application of pro forma adjustments to historical amounts,
- the compilation of pro forma financial information, or
- whether the pro forma financial information complies as to form in all material respects with the applicable accounting requirements of Rule 11-02 of Regulation S-X,<sup>3</sup> or with the pro forma bases as described in the pro forma financial information, as applicable,

unless the auditor has obtained the required knowledge described in paragraph .52 and has performed

- a. an audit of the annual financial statements, or
- b. a review of the interim financial information, in accordance with GAAS applicable to reviews of interim financial information,

of the entity (or, in the case of a business combination, of a significant constituent part of the combined entity) to which the pro forma adjustments were applied. In the case of a business combination, the historical financial statements of each constituent part of the combined entity on which the pro forma financial information is based should be audited or reviewed. If these conditions are not met, the auditor is limited to reporting procedures performed and findings obtained. (Ref: par. .A59) [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

### **Financial Forecasts**

**.54** When performing procedures agreed to with the requesting party on a financial forecast and commenting thereon in a comfort letter, the auditor should

- a. obtain an understanding of the entity's internal control over financial reporting for both annual and interim periods, as required by paragraph .44;
- b. perform procedures required by AR-C section 80, *Compilation Engagements*, for reporting on the compilation of a forecast;<sup>[4]</sup>
- c. issue a report on the compilation of prospective financial information in accordance with AR-C section 80 and attach the report thereon to the comfort letter;<sup>[5]</sup> and

---

<sup>3</sup> Regulation S-X, "Form and Content of and Requirements for Financial Statements, Securities Act of 1933, Securities Exchange Act of 1934, Public Utility Holding Company Act of 1935, Investment Company Act of 1940, and Energy Policy and Conservation Act of 1975."

<sup>[4]</sup> [Footnote deleted, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18 and SSARS No. 23.]

<sup>[5]</sup> [Footnote deleted, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18 and SSARS No. 23.]

- d. perform additional procedures as requested by the requesting party and report the findings in the comfort letter. (Ref: par. .A60–.A61)

[Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18 and SSARS No. 23.]

**.55** The auditor should not provide negative assurance on the results of procedures performed on a financial forecast.

**.56** The auditor should not provide negative assurance with respect to compliance of the financial forecast with Rule 11-03 of Regulation S-X unless the auditor has performed an examination of the financial forecast in accordance with AT-C section 305, *Prospective Financial Information*. [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

**.57** If a financial forecast that the auditor has not examined is included in the securities offering, the auditor should not issue a comfort letter unless the financial forecast is accompanied by an indication that the auditor has not examined the financial forecast and, therefore, does not express an opinion on it. (Ref: par. .A62) [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

### **Subsequent Changes**

**.58** The auditor should base comments regarding subsequent changes in specified financial statement items solely on the limited procedures performed with respect to the change period as determined by the requesting party. (Ref: par. .A63–.A65)

**.59** The auditor should provide negative assurance in the comfort letter regarding subsequent changes in specified financial statement items only as of a date less than 135 days from the end of the most recent period for which the auditor has performed an audit or a review. (Ref: par. .A66)

**.60** When the requesting party requests negative assurance regarding subsequent changes in specified financial statement items as of a date 135 days or more from the end of the most recent period for which the auditor has performed an audit or a review, the auditor is limited to reporting procedures performed and findings obtained. (Ref: par. .A67) [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.61** In commenting on subsequent changes, the auditor should not characterize subsequent changes using ambiguous terms, such as referring to the change as "adverse." The auditor should note in the comfort letter if there has been a change in the application of the requirements of the applicable financial reporting framework. (Ref: par. .A68) [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.62** The auditor should comment only on the occurrence of subsequent changes in specified financial statement items that are not disclosed in the securities offering. Accordingly, the auditor should include the phrase *except for changes, increases, or decreases that the securities offering discloses have occurred or may occur* in the comfort letter when it has come to the auditor's attention that a change, increase, or decrease has occurred during the change period, and the amount of such change, increase, or decrease is disclosed in the securities offering. This phrase need not be included in the letter when no changes, increases, or decreases in the specified financial statement items are disclosed in the securities offering. (Ref: par. .A69–.A70)

**.63** The auditor should identify in the comfort letter in both draft and final form the dates as of which, and periods for which, data at the cut-off date and data for the change period are to be compared, whether or not specified in the underwriting agreement. (Ref: par. .A71–.A72)

**.64** If the requesting party requests the use of a change period or periods other than those described in paragraph .07, the auditor should explain to the requesting party the implications of using an earlier date. If the requesting party, nonetheless, requests the use of a change period or periods other than those described in paragraph .07, the auditor is permitted to use the period or periods requested. (Ref: par. .A73)

### **Tables, Statistics, and Other Financial Information**

**.65** The auditor should not comment in a comfort letter on tables, statistics, and other financial information appearing in the securities offering unless the information

- a. is expressed in dollars (or percentages derived from such dollar amounts) and has been obtained from accounting records that are subject to internal control over financial reporting, or
- b. has been derived directly from such accounting records by analysis or computation. (Ref: par. .A74)

**.66** The auditor should not comment in a comfort letter on quantitative information that has been obtained from accounting records unless the information is subject to the same controls over financial reporting as the dollar amounts.

**.67** The auditor should not comment in a comfort letter on tables, statistics, and other financial information relating to an unaudited period unless the auditor has

- a. performed an audit of the entity's financial statements for a period including, or immediately prior to, the unaudited period or completed an audit for a later period, or
- b. otherwise obtained knowledge of the entity's internal control over financial reporting.

**.68** The auditor should not use the term *presents fairly* in comments concerning tables, statistics, and other financial information (Ref: par. .A75) and should not comment on

- a. information subject to legal interpretation, such as beneficial share ownership;
- b. nonfinancial data presented in MD&A, unless the auditor has conducted an examination or review of MD&A in accordance with AT-C section 395, *Management's Discussion and Analysis*; or (Ref: par. .A76)
- c. matters merely because the auditor is capable of reading, counting, measuring, or performing other functions that might be applicable.

[Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

**.69** The auditor's comments in the comfort letter concerning tables, statistics, and other financial information included in the securities offering should include

- a. a clear identification of the specific information commented on;

- b. a description of the procedures performed; and
- c. the findings, expressed in terms of agreement between items compared. (Ref: par. .A77–.A78)

**.70** With respect to the acceptability of methods of allocation used in deriving the figures commented on, the auditor should comment only to the extent to which such allocation is made in, or can be derived directly by analysis or computation from, the entity's accounting records. Such comments, if made, should make clear that

- a. such allocations may be, to a substantial extent, arbitrary.
- b. the method of allocation used is not the only acceptable method.
- c. other acceptable methods of allocation might produce significantly different results.

**.71** The comfort letter should state that the auditor makes no representations regarding

- a. any matter of legal interpretation;
- b. the completeness or adequacy of disclosure; and
- c. the adequacy of the procedures followed, and that such procedures would not necessarily disclose material misstatements or omissions in the information to which the comments relate. (Ref: par. .A79–.A80)

### ***Compliance as to Form With Regulation S-K***

**.72** The auditor should not provide negative assurance about whether certain financial information in registration statements, included because of specific requirements of Regulation S-K, is in conformity with the disclosure requirements of Regulation S-K unless the following conditions are met:

- a. The information is derived, directly or by analysis or computation, from the accounting records subject to internal control over financial reporting.
- b. The information is capable of evaluation against reasonable criteria that have been established by the SEC. (Ref: par. .A81 and .A84–.A87)

**.73** The auditor should not express an opinion on conformity with the disclosure requirements of Regulation S-K. (Ref: par. .A82–.A83)

### ***Concluding Paragraph***

**.74** The comfort letter should include a concluding paragraph restricting the use of the comfort letter for the information of the addressees and to assist the requesting parties in connection with the securities offering. (Ref: par. .A88)

### ***Disclosure of Subsequently Discovered Matters***

**.75** The auditor should inform the entity when the auditor has discovered matters that require mention in the final comfort letter but were not mentioned in the draft letter that has been furnished to the requesting party. If the entity decides that disclosure will not be made in the securities offering, the auditor should inform the entity that the matters will be mentioned in the comfort letter and should recommend that the requesting party be informed promptly. (Ref: par. .A89–.A90)

## Application and Other Explanatory Material

### Definitions (Ref: par. .07)

**.A1** An example of a comfort letter in connection with an acquisition transaction in which there is an exchange of stock is a cross-comfort letter related to a typical Form S-4 or merger proxy situation. An auditor's report on a preliminary investigation in connection with a proposed transaction (for example, a merger, an acquisition, or a financing) is not covered by this section; the guidance in AT-C section 215, *Agreed-Upon Procedures Engagements*, may apply to such engagements. [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

### Engagement Acceptance (Ref: par. .09–.13)

**.A2** An attorney's letter indicating that a party "may" be deemed to be an underwriter or has liability substantially equivalent to that of an underwriter under the securities laws would not meet this requirement.

**.A3** What is "substantially consistent" may vary from situation to situation and may not be the same as that done in a registered offering of the same securities for the same entity. Whether the procedures being, or to be, followed will be "substantially consistent" is determined by the requesting party on a case-by-case basis. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.A4** Exhibit A, "Illustration of Representation Letter From Requesting Party," contains illustrative wording for a representation letter when the requesting party is not an underwriter.

**.A5** Exhibit B, "Examples of Comfort Letters," contains examples of comfort letters. Example Q, "Letter to a Requesting Party That Has Not Provided the Legal Opinion or the Representation Letter Required by Paragraph .11," of this exhibit provides an example of a comfort letter issued to a requesting party that has not provided the representation letter described in paragraph .11.

**.A6** Interpretation No. 1, "Responding to Requests for Reports on Matters Relating to Solvency" (AT-C sec. 9105 par. .01–.11), of AT-C section 105, *Concepts Common to All Attestation Engagements*, contains guidance on additional statements to be included if this comfort letter is requested in connection with a secured debt offering. [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

**.A7** Although the auditor is not permitted to provide a comfort letter other than to requesting parties, the auditor, instead, may provide a report on agreed-upon procedures. AT-C section 215 provides guidance on such reports. [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

### Agreeing Upon the Scope of Services (Ref: par. .15–.23)

**.A8** The underwriting agreement may specify the matters to be addressed in the comfort letter. If the underwriting agreement or draft underwriting agreement is not available or does not specify the matters to be addressed, the understanding of the scope of the comfort letter may be obtained from a description furnished by the entity or requesting party. Obtaining this understanding as early as possible, and before the auditor provides a draft of the form

of the letter the auditor expects to furnish, assists the auditor in determining whether the auditor will be able to furnish a letter in acceptable form.

**.A9** If the requesting party refuses to meet together with the entity, the auditor may consider the implications in determining whether to accept the engagement.

**.A10** During this meeting, the auditor may describe procedures that are frequently followed. Exhibit B provides examples of comfort letters that include these procedures. Because of the auditor's knowledge of the entity, such a meeting may assist the requesting party in reaching a decision about procedures to be followed by the auditor.

**.A11** When financial information in a securities offering has not been audited in accordance with GAAS and, accordingly, is not covered by an auditor's opinion, the nature of the comments that the auditor can properly make with respect to that financial information is limited. As noted in paragraph .03, obtaining a comfort letter from an auditor is one procedure used by a requesting party to establish that the requesting party has conducted a "reasonable investigation," as a defense against possible claims under Section 11 of the 1933 Act. What constitutes a reasonable investigation of unaudited financial information sufficient to satisfy a requesting party's purposes is a matter of legal interpretation. Consequently, only the requesting party can determine what is sufficient for the requesting party's purposes.

**.A12** The assistance that the auditor can provide by way of a comfort letter is subject to limitations. One limitation is that auditors can properly comment in their professional capacity only on matters to which their professional expertise is relevant. Another limitation is that procedures contemplated in a comfort letter, which do not constitute an audit of financial statements, do not provide the auditor with a basis for expressing an opinion. Such limited procedures may bring to the auditor's attention significant findings or issues affecting the financial information, but they do not provide assurance that the auditor will become aware of any or all significant findings or issues that would be disclosed in an audit. Accordingly, a risk exists that the auditor may have provided negative assurance on the absence of conditions or matters that may prove to have existed.

**.A13** Comfort letters are not required under the 1933 Act, and copies are not filed with the SEC. Nonetheless, it is a common condition of an underwriting agreement in connection with the offering for sale of securities registered with the SEC under the 1933 Act that the auditor is to furnish a comfort letter. Some underwriters do not make the receipt of a comfort letter a condition of the underwriting agreement but, nevertheless, ask for such a letter.

**.A14** Exhibit B, example A-1, "Typical Comfort Letter for a 1933 Act Offering," provides an illustration of an appropriate way of expressing that the auditor cannot provide any assurance regarding the sufficiency of the procedures for the requesting party's purposes.<sup>6</sup>

**.A15** By providing a draft letter early in the process, the auditor has the opportunity to clearly show the requesting party what they may expect to receive from the auditor. Thus, the requesting party has the opportunity to discuss further with the auditor the procedures that the auditor expects to perform and to request any additional procedures that the requesting party may desire. If the additional procedures pertain to matters relevant to the auditor's professional

---

<sup>6</sup> Paragraph 4 of example A-1, "Typical Comfort Letter for a 1933 Act Offering," in exhibit B, "Examples of Comfort Letters."

competence and the auditor is willing to perform them, a revised draft may be prepared.

**.A16** Acceptance by the requesting party of the draft comfort letter (and subsequently by acceptance of the comfort letter in final form) is an indication to the auditor that the requesting party considers the procedures described to be sufficient for the requesting party's purposes. Clearly describing the procedures to be followed by the auditor in the comfort letter avoids misunderstanding about the basis on which the auditor's comments have been made and assists the requesting party in deciding whether the procedures performed are sufficient for the requesting party's purposes.

**.A17** The following is an example of a paragraph that may be placed on the draft letter for identification and explanation of its purposes and limitations.

This draft is furnished solely for the purpose of indicating the form of letter that we would expect to be able to furnish [*name of requesting party*] in response to their request, the matters expected to be covered in the letter, and the nature of the procedures that we would expect to carry out with respect to such matters. Based on our discussions with [*name of requesting party*], it is our understanding that the procedures outlined in this draft letter are those they wish us to follow. Unless [*name of requesting party*] informs us otherwise, we shall assume that there are no additional procedures they wish us to follow. The text of the letter itself will depend, of course, on the results of the procedures, which we would not expect to complete until shortly before the letter is given and in no event before the cut-off date indicated therein.

If the auditor has not had any discussions with the requesting party about the auditor's planned procedures, the second sentence in this paragraph would be revised as follows: "In the absence of any discussions with [*name of requesting party*], we have set out in this draft letter those procedures referred to in the draft underwriting agreement (of which we have been furnished a copy) that we are willing to follow."

**[.A18]** [Paragraph deleted by the issuance of SAS No. 129, July 2014.]

**.A19** Comfort letters are requested occasionally from more than one auditor, for example, in connection with securities offerings to be used in the subsequent sale of shares issued in recently effected mergers and from predecessor auditors. In such circumstances, it is the entity's responsibility, at the earliest practicable date, to inform any other auditors who may be involved about any letter that may be requested of them and arrange for them to receive a draft of the underwriting agreement so that they may make arrangements at an early date for the preparation of a draft of their letter and for the performance of their procedures. The entity or requesting party is also responsible for arranging for a copy of the comfort letters of component auditors in draft and final form to be provided to the auditor of the group financial statements.

**.A20** In certain circumstances, regulations under the 1933 Act permit companies to register a designated amount of securities for continuous or delayed offerings during an extended period by filing one "shelf" registration statement. At the effective date of a shelf registration statement, the registrant may not yet have selected an underwriter. An entity or the legal counsel designated to represent the underwriting group may, however, ask the auditor to issue a comfort letter at the effective date of a shelf registration statement to expedite the due diligence activities of the underwriter when subsequently designated and to avoid later corrections of financial information included in an effective prospectus. However, as stated in paragraph .A11, only the underwriter can determine the procedures that will be sufficient for the underwriter's purposes.

**.A21** The auditor may agree to furnish the entity or legal counsel for the underwriting group with a draft comfort letter describing the procedures that the auditor has performed and the comments that the auditor is willing to express as a result of those procedures.

**.A22** The following is an example of a legend describing the letter's purpose and limitations.

This draft describes the procedures that we have performed and represents a letter we would be prepared to sign if the managing underwriter had been chosen and requested such a letter. The text of the final letter will depend, of course, on whether the managing underwriter who is selected requests that these and other procedures be performed to meet his or her needs and whether the managing underwriter requests that any of the procedures be updated to the date of issuance of the signed letter.

**.A23** A signed comfort letter may be issued to the underwriter selected for the portion of the issue then being offered when the underwriting agreement for an offering is signed and on each closing date.

## Format and Contents of Comfort Letters

### **Dating (Ref: par. .24–.25)**

**.A24** The letter ordinarily is dated on, or shortly after, the underwriting agreement is signed.

**.A25** The underwriting agreement ordinarily specifies the date, often referred to as the *cut-off date*, to which certain procedures described in the letter are to relate, for example, a date five days before the date of the letter. A factor in considering whether to accept the engagement is whether the period between the cut-off date and the date of the letter provides sufficient time to allow the auditor to perform the procedures and prepare the letter.

**.A26** Comments included in an earlier letter that relate to information in the securities offering as most recently amended may be incorporated by reference in a subsequent letter. Exhibit B, example C, "Letter Reaffirming Comments as of a Later Date," provides an example of such reference. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

### **Addressee (Ref: par. .26)**

**.A27** An example of an appropriate form of address for this purpose is "The Blank Company and XYZ & Company, as Representative of the Several Underwriters." Copies of a comfort letter addressed in accordance with the requirements in paragraph .26 may be provided to the auditor of the group financial statements when a comfort letter related to a component included in group financial statements is issued by a component auditor.

### **Auditor's Report (Ref: par. .28–.33)**

**.A28** The requesting party might request that the auditor repeat in the comfort letter the report on the audited financial statements included in the securities offering. Because of the significance of the date of the auditor's report, the auditor is not permitted to agree to this request. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.A29** Examples of matters addressed in emphasis-of-matter or other-matter paragraphs in the auditor's report that do not affect the opinion on the basic financial statements are

- interim financial information accompanying or included in the notes to audited financial statements,<sup>7</sup> or
- required supplementary information described in section 730, *Required Supplementary Information*.<sup>8</sup>

**.A30** A requesting party may request that the auditor comment in the comfort letter on

- unaudited interim financial information required by item 302(a) of Regulation S-K, or
- required supplementary information.

Section 930, *Interim Financial Information*, applies to unaudited interim financial information, and section 730 applies to required supplementary information. These sections require the auditor to modify the auditor's report on the audited financial statements to refer to such information when

- the scope of the procedures with regard to the information was restricted, or
- when the information appears not to be presented in accordance with the applicable financial reporting framework or, for required supplementary information, applicable guidelines.

Such modifications of the auditor's report in the securities offering would ordinarily be referred to in the opening paragraph of the comfort letter (see also paragraph .43). Additional comments on such unaudited information are, therefore, unnecessary. However, if the requesting party requests that the auditor perform procedures with regard to such information in addition to those procedures performed in connection with the review or audit as prescribed by section 930 and section 730, the auditor may do so and report the findings. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.A31** The requesting party might request negative assurance regarding the auditor's report. Because auditors have a statutory responsibility with respect to their opinion as of the effective date of a securities offering and because the additional significance, if any, of negative assurance is unclear and such assurance may, therefore, give rise to misunderstanding, the auditor is not permitted to provide such negative assurance. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.A32** In the introductory paragraph of the comfort letter, the auditor may refer to the fact that the auditor has issued reports on

- summary financial statements that are derived from audited financial statements.<sup>9</sup>
- interim financial information.<sup>10</sup>
- pro forma financial information.<sup>11</sup>
- a financial forecast.<sup>12</sup>

<sup>7</sup> Paragraphs .40–.41 of section 930, *Interim Financial Information*.

<sup>8</sup> Paragraphs .07–.09 of section 730, *Required Supplementary Information*.

<sup>9</sup> See section 810, *Engagements to Report on Summary Financial Statements*.

<sup>10</sup> See section 930.

<sup>11</sup> See AT-C section 310, *Reporting on Pro Forma Financial Information*, and AR-C section 120, *Compilation of Pro Forma Financial Information*. [Footnote revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18 and SSARS No.22].

<sup>12</sup> See AR-C section 80. [Footnote revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18 and SSARS No. 23.]

- MD&A.<sup>13</sup>

**.A33** When the auditor makes reference to having issued a review report on the interim financial information, the auditor is required by paragraph .47 to attach the review report to the comfort letter if the review report is not included in the securities offering. The other reports listed in paragraph .A32 may also be attached to the comfort letter. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.A34** An example of an auditor's written communication that includes an alert that restricts the use of the auditor's written communication that is not permitted to be mentioned, referred to, or attached to the comfort letter is an auditor's written communication issued in accordance with section 265, *Communicating Internal Control Related Matters Identified in an Audit*. Examples of restricted use reports that are not permitted to be mentioned, referred to, or attached to the comfort letter include a report on agreed-upon procedures and any restricted use report issued in connection with procedures performed on the entity's internal control over financial reporting, in accordance with section 940, *An Audit of Internal Control Over Financial Reporting That Is Integrated With an Audit of Financial Statements*. [As amended, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125; Revised, December 2016, to reflect conforming changes necessary to reflect the issuance of SAS No. 130.]

### **Representations (Ref: par. .34)**

**.A35** Exhibit B, example A-2, "Typical Comfort Letter for a Non-1933 Act Offering When the Required Representation Letter Has Been Obtained," contains a reference to the requesting party's representations.

### **Independence (Ref: par. .35)**

**.A36** Exhibit B, example A-1 contains an illustration of an appropriate statement confirming the auditor's independence under SEC rules and regulations in conjunction with SEC filings.

**.A37** Exhibit B, example A-2 includes an illustration of an appropriate statement confirming the auditor's independence in conjunction with a securities offering when the auditor is independent under AICPA standards.

**.A38** The auditors for previously nonaffiliated entities recently acquired by the registrant would not be required to have been independent with respect to the entity whose shares are being registered. Exhibit B, example B, "Letter When a Short-Form Registration Statement Is Filed Incorporating Previously Filed Form 8-K by Reference," includes an illustration of an appropriate statement concerning the auditor's independence in such a case.

### **Compliance With SEC Requirements (Ref: par. .36–.40)**

**.A39** Although the guidance in this section generally addresses comfort letters issued in connection with securities offerings registered pursuant to the 1933 Act, it also provides guidance on comfort letters issued in other securities transactions. However, the guidance that specifically refers to compliance of the information commented on with SEC rules and regulations, such as compliance with Regulation S-X or S-K, generally applies only to comfort letters issued in connection with securities offerings registered pursuant to the 1933 Act.

---

<sup>13</sup> See AT-C section 395, *Management's Discussion and Analysis*. [Footnote revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

**.A40** The phrase *rules and regulations adopted by the SEC* is used because auditors are not expected to be familiar with, or express opinions on compliance with, informal positions of the SEC staff.

**.A41** An illustration of an appropriate opinion regarding compliance as to form with pertinent accounting requirements adopted by the SEC is as follows:

In our opinion [*include phrase except as disclosed in the registration statement if applicable*], the [*identify the financial statements and financial statement schedules*] audited by us and included in the registration statement comply as to form in all material respects with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC.

**.A42** Exhibit B, example K, "Alternate Wording When the SEC Has Agreed to a Departure From Its Accounting Requirements," illustrates an appropriate manner of disclosing a material departure from the pertinent rules and regulations adopted by the SEC.

**.A43** The auditor may agree to examine or review MD&A in accordance with AT-C section 395. [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

## Commenting in a Comfort Letter on Information Other Than Audited Financial Statements

### General (Ref: par. .41–.43)

**.A44** Comments included in the letter will often concern

- unaudited interim financial information.
- capsule financial information.
- pro forma financial information.
- financial forecasts.
- subsequent changes in specified financial statement items.

When the auditor has been requested to provide negative assurance on interim financial information or capsule financial information, the procedures involved in a review performed in accordance with GAAS applicable to reviews of interim financial information need not be specified.

**.A45** Exhibit B, example A-1 contains an illustration of how the procedures performed by the auditor may be described.<sup>14</sup>

**.A46** If the auditor states that the auditor has performed a review in accordance with GAAS applicable to reviews of interim financial information, this does not imply that those procedures are sufficient for the requesting party's purposes. The requesting party may ask the auditor to perform additional procedures. For example, the requesting party may request that the auditor apply additional procedures and specify items of financial information to be reviewed and the materiality level for changes in those items that would necessitate further inquiry by the auditor.

**.A47** The procedures performed with respect to interim periods may not disclose subsequent changes in the specified financial statement items, inconsistencies in the application of the applicable financial reporting framework, instances of noncompliance as to form with accounting requirements of the SEC, or other matters about which negative assurance is requested.

---

<sup>14</sup> Paragraph 4 of example A-1 in exhibit B.

**.A48** An illustration of an appropriate manner of noting the limitations of procedures performed is shown in example A-1 of exhibit B.<sup>15</sup>

**.A49** Because there is no way for the auditor to anticipate other matters that would be of interest to a requesting party, the auditor is precluded, in accordance with paragraph .42, from making a statement that nothing else has come to the auditor's attention that would be of interest to the requesting party.

**.A50** Exhibit B, example I, "Alternate Wording When Auditor's Report on Audited Financial Statements Contains an Emphasis-of-Matter Paragraph," contains an illustration of alternate wording when the auditor's report on audited financial statements is a modified report.

### ***Knowledge of Internal Control (Ref: par. .44)***

**.A51** The auditor may have obtained a sufficient understanding of an entity's internal control over financial reporting for both annual and interim periods through performing an audit on the entity's financial statements for one or more periods.

### ***Unaudited Interim Financial Information (Ref: par. .45–.48)***

**.A52** The SEC requirements specify condensed financial statements. However, the requirements in paragraphs .45–.48 also apply to complete financial statements. For purposes of this section, interim financial information may be for a 12-month period ending on a date other than the entity's normal year-end. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.A53** The auditor may, but is not required to, state in the comfort letter that the auditor has performed a review of interim financial information in accordance with GAAS applicable to reviews of interim financial information, and has issued a report on the review.

**.A54** Exhibit B, example A-1 provides an illustration of a description related to the procedures specified for a review in accordance with GAAS applicable to reviews of interim financial information.<sup>16</sup> Exhibit B, example O, "Alternate Wording When the Procedures That the Requesting Party Has Requested the Auditor to Perform on Interim Financial Information Are Less Than a Review in Accordance With Generally Accepted Auditing Standards Applicable to Reviews of Interim Financial Information," provides an illustration of alternate wording when the procedures that the requesting party has requested the auditor to perform on interim financial information are less than a review in accordance with GAAS applicable to reviews of interim financial information.

**.A55** Exhibit B, example A-1 includes an illustration of an appropriate manner of making clear that the auditor is not expressing an opinion on unaudited interim financial information.<sup>17</sup>

### ***Capsule Financial Information (Ref: par. .50–.51)***

**.A56** In some securities offerings, supplementary capsule financial information comprising unaudited summarized interim financial information for subsequent periods accompanies the information shown in the audited financial statements or unaudited interim financial information. This capsule

---

<sup>15</sup> See the last three sentences in paragraph 4 of example A-1 in exhibit B.

<sup>16</sup> Paragraphs 4a and 5a of example A-1 in exhibit B.

<sup>17</sup> Paragraph 3 of example A-1 in exhibit B.

financial information (either in narrative or tabular form) often is provided for the most recent interim period and for the corresponding period of the prior year.

**.A57** The requesting party may ask the auditor to provide negative assurance with respect to the unaudited interim financial information, or unaudited condensed interim financial information that underlie the capsule financial information, and ask the auditor to state that the capsule financial information agrees with amounts set forth in such financial information. Exhibit B, example L, "Alternate Wording When Recent Earnings Data Are Presented in Capsule Form," provides an illustration of the auditor's comments in these circumstances.<sup>18</sup>

### ***Pro Forma Financial Information (Ref: par. .52–.53)***

**.A58** An appropriate level of knowledge of the accounting and financial reporting practices of the entity may be obtained by the auditor auditing or reviewing, in accordance with GAAS, historical financial statements of the entity (or, in the case of a business combination, of a significant constituent part of the combined entity) for the most recent annual or interim period for which the pro forma financial information is presented.

**.A59** Exhibit B, example D, "Comments on Pro Forma Financial Information," provides illustrations of wording regarding negative assurance on pro forma financial information as to compliance with the applicable accounting requirements of Rule 11-02 of Regulation S-X or with the pro forma bases as described in the pro forma financial information. Exhibit B, example O, provides an illustration of wording regarding procedures performed and findings obtained for pro forma financial information. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

### ***Financial Forecasts (Ref: par. .54–.57)***

**[.A60]** [Paragraph deleted by the issuance of SAS No. 129, July 2014.]

**.A61** Exhibit B, example E, "Comments on a Financial Forecast," provides illustrations of appropriate wording describing procedures performed on a financial forecast.

**.A62** The attestation standards that apply to financial forecasts provide for examinations of and agreed-upon procedures related to financial forecasts but not reviews. AR-C section 80, *Compilation Engagements*, applies when reporting on the compilation of a financial forecast. If a compilation report on the financial forecast has been issued in connection with the comfort letter, the report need not be included in the securities offering. [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18 and SSARS No. 23.]

### ***Subsequent Changes (Ref: par. .58–.64)***

**.A63** Comments regarding subsequent changes typically relate to whether, during the change period, there has been any

- change in capital stock;
- increase in long-term debt; or
- decreases in other specified financial statement items.

---

<sup>18</sup> Paragraphs 4b and 5b of example L, "Alternate Wording When Recent Earnings Data Are Presented in Capsule Form," in exhibit B.

These comments might also address such matters as subsequent changes in the amounts of

- net current assets or stockholders' equity attributable to the entity.
- net sales and income from continuing operations and of net income or net income attributable to the entity. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.A64** Procedures may include

- reading minutes and discussing with those charged with governance those meetings for which minutes have not been approved, and
- making inquiries of entity officials relating to the whole of the change period and obtaining appropriate written representations of the entity officials to support the answers to the inquiries.

**.A65** Exhibit B, example A-1 provides an illustration of a description of procedures related to subsequent changes.<sup>19</sup>

**.A66** Examples of the application of the requirements of paragraph .59 are as follows:

- When the auditor has audited the December 31, 20X0 financial statements, the auditor may provide negative assurance about changes in specified financial statement items as of any date through May 14, 20X1 (134 days subsequent to December 31).
- When the auditor has audited the December 31, 20X0 financial statements and has also conducted a review of the interim financial information as of and for the quarter ended March 31, 20X1, in accordance with GAAS applicable to reviews of interim financial information, the auditor may provide negative assurance about changes in specified financial statement items as of any date through August 12, 20X1 (134 days subsequent to March 31).

**.A67** An appropriate manner of expressing negative assurance regarding subsequent changes is shown in exhibit B, in example A-1 if there has been no change, increase, or decrease, as applicable, and in example M, "Alternate Wording When Auditors Are Aware of a Decrease in a Specified Financial Statement Item," if there has been a decrease.<sup>20</sup> Example M may be modified when auditors are aware of a change or increase. Exhibit B, example O provides an illustration of reporting procedures performed and findings obtained relating to the subsequent change period. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.A68** In commenting on subsequent changes, the auditor may use terms such as *change*, *increase*, or *decrease*. Terms such as *adverse* are not clearly understood and may cause the comments on subsequent changes to be ambiguous.

**.A69** The comparison for the change period relates to the entire period and not to portions of that period. A decrease during one part of the period may be offset by an equal or larger increase in another part of the period. Because no decrease for the period as a whole existed, the comfort letter would not report

---

<sup>19</sup> Paragraph 6 of example A-1 in exhibit B.

<sup>20</sup> Paragraphs 5b and 6 of example A-1 in exhibit B.

the decrease occurring during one part of the period. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.A70** When more than one auditor is involved, the auditor of the group financial statements may comment that there were no decreases in the consolidated financial statement items, when appropriate, despite the possibility that decreases have been mentioned in a comfort letter issued by a component auditor. Exhibit B, example J, "Alternate Wording When Component Auditors Are Involved," contains an illustration of wording when more than one auditor is involved. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.A71** The underwriting agreement usually specifies the dates as of which, and periods for which, data at the cut-off date and data for the change period are to be compared. For balance sheet items, the comparison date is normally that of the latest balance sheet included in the securities offering (that is, immediately prior to the beginning of the change period). For income statement items, the comparison period or periods might be, but are not limited to, the corresponding period of the preceding year or a period of corresponding length immediately preceding the change period.

**.A72** The reasons for identifying the date and period used for comparison are to avoid misunderstandings about the matters being compared, and so that the requesting party can determine whether the comparison period is suitable for the requesting party's purposes.

**.A73** The requesting party might request that the change period begin immediately after the date of the latest audited balance sheet (which is, ordinarily, also the closing date of the latest audited statement of income) in the securities offering, even though the securities offering includes a more recent unaudited balance sheet and statement of income. The use of the earlier date may defeat the requesting party's purpose because it is possible that an increase in one of the items referred to in paragraph .A63 occurring between the dates of the latest audited and unaudited balance sheets included in the securities offering might more than offset a decrease occurring after the latter date. A similar situation might arise in the comparison of income statement items. In these circumstances, the decrease occurring after the date of the latest unaudited interim financial information included in the securities offering would not be reported in the comfort letter. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

### **Tables, Statistics, and Other Financial Information (Ref: par. .65–.71)**

**.A74** Other financial information appearing in the securities offering does not include financial information that is covered by the auditor's opinion on the financial statements.

**.A75** Because the term *presents fairly*, when used by independent auditors, ordinarily relates to presentations of financial statements, the use of the term in commenting on other types of information may be misleading.

**.A76** When the auditor has conducted an examination or a review of MD&A in accordance with AT-C section 395, the auditor may agree to trace nonfinancial data presented outside MD&A to similar data included in the MD&A presentation. When the auditor does not perform a review or an examination of MD&A or does not attach or refer to a report on MD&A, the auditor may perform procedures agreed to with the requesting party with respect to items in MD&A subject to internal control over financial reporting. [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

**.A77** Options for describing the procedures performed and the findings obtained include

- describing them individually for each item of specific information commented on.
- grouping or summarizing some or all of the descriptions, as long as
  - the procedures and findings are adequately described,
  - the applicability of the descriptions to items in the securities offering is clear, and
  - the descriptions do not imply that the auditor assumes responsibility for the adequacy of the procedures.
- presenting a matrix listing the financial information and common procedures employed and indicating the procedures applied to the specific items.
- identifying procedures performed with specified symbols and identifying items to which those procedures have been applied directly on a copy of the securities offering, which is attached to the comfort letter. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.A78** Exhibit B, examples F, "Comments on Tables, Statistics, and Other Financial Information—Complete Description of Procedures and Findings," G, "Comments on Tables, Statistics, and Other Financial Information—Summarized Description of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information," and H, "Comments on Tables, Statistics, and Other Financial Information: Descriptions of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information—Attached Securities Offering (or Selected Pages) Identifies Items to Which Procedures Were Applied Through the Use of Designated Symbols," provide illustrations of appropriate ways of expressing comments on tables, statistics, and other financial information.

**.A79** Except with respect to requirements for financial statements and certain Regulation S-K items discussed in paragraph .72, the question of what constitutes appropriate information for compliance with the requirements of a particular item of the securities offering form is a matter of legal interpretation outside the competence of auditors.

**.A80** Exhibit B, example F contains an illustration of an appropriate way of stating the limitations regarding the sufficiency of the auditor's procedures.<sup>21</sup>

### ***Compliance as to Form With Regulation S-K (Ref: par. .72–.73)***

**.A81** The following are the disclosure requirements of Regulation S-K that generally meet the criteria in paragraph .72:

- Item 301, "Selected Financial Data"
- Item 302, "Supplementary Financial Information"
- Item 402, "Executive Compensation"
- Item 503(d), "Ratio of Earnings to Fixed Charges"

---

<sup>21</sup> Paragraph 9 of example F, "Comments on Tables, Statistics, and Other Financial Information—Complete Description of Procedures and Findings," in exhibit B.

**.A82** Because information relevant to Regulation S-K disclosure requirements other than those noted previously is generally not derived from the accounting records subject to internal control over financial reporting, it is not appropriate for the auditor to comment on conformity of this information with Regulation S-K.

**.A83** The auditor's inability to comment on conformity with Regulation S-K does not preclude the auditor from performing procedures and reporting findings with respect to this information.

**.A84** Item 305, "Quantitative and Qualitative Disclosures About Market Risk," of Regulation S-K does not meet the criteria in paragraph .65 for the auditor to provide comments on the Item 305 qualitative disclosures because the disclosures are not derived from the accounting records but are descriptive and hypothetical or forward-looking in nature.

**.A85** Item 305 does not meet the criteria in paragraph .72 for the auditor to provide negative assurance on conformity with Item 305. Although some information needed to comply with Item 305 is derived from the accounting records, registrants must also provide a substantial amount of information that is not derived from accounting records subject to internal control over financial reporting.

**.A86** Item 305 requires quantitative disclosures that may be presented in the form of a tabular presentation, sensitivity analysis, or value-at-risk disclosures. The auditor may perform limited procedures related to tabular presentations to the extent that such information is derived from the accounting records subject to internal control over financial reporting.

**.A87** The appendix, "Commenting in a Comfort Letter on Quantitative Disclosures About Market Risk Made in Accordance With Item 305 of Regulation S-K," provides guidance on providing comments on Item 305 quantitative disclosures and examples of very simplified procedures, findings, and limitations related to Item 305 tabular presentation disclosures.

### ***Concluding Paragraph (Ref: par. .74)***

**.A88** An illustration of an appropriate concluding paragraph is shown in exhibit B, examples A-1, A-2, and B.

### ***Disclosure of Subsequently Discovered Matters (Ref: par. .75)***

**.A89** Subsequently discovered matters may include changes in specified items not disclosed in the securities offering, as discussed in paragraph .62.

**.A90** The auditor's participation in the meeting may be helpful when the entity and requesting party discuss such matters.

.A91

## Appendix—Commenting in a Comfort Letter on Quantitative Disclosures About Market Risk Made in Accordance With Item 305 of Regulation S-K

**.A91-1** Regulation S-K, Item 305, Quantitative and Qualitative Disclosures About Market Risk, requires certain quantitative and qualitative disclosures with respect to derivative financial instruments, generally as defined in Financial Accounting Standards Board *Accounting Standards Codification* glossary.

**.A91-2** In addition to qualitative (that is, descriptive) disclosures, Item 305 requires quantitative disclosures that may be presented in the form of a tabular presentation, sensitivity analysis, or value-at-risk disclosures. Disclosures generally include a combination of historical and fair value data and the hypothetical effects on such data of assumed changes in interest rates, foreign currency exchange rates, commodity prices, and other relevant market rates. The quantitative and qualitative information required by Item 305 are disclosed outside the financial statements and related notes thereto.

**.A91-3** Item 305 does not meet the criteria in paragraph .65 for the auditor to provide comments on the Item 305 qualitative disclosures because the disclosures are descriptive and are not derived from the accounting records because they are hypothetical or forward-looking in nature.

**.A91-4** Although some information needed to comply with Item 305 is derived from the accounting records, registrants must also provide a substantial amount of information that is not derived from accounting records subject to internal control over financial reporting. As a result, Item 305 does not meet the criteria in paragraph .72 for the auditor to provide negative assurance on conformity with Item 305 of Regulation S-K.

**.A91-5** The three alternative forms of quantitative disclosures under Item 305 reflect hypothetical effects on market risk sensitive instruments and result in differing presentations. The forward-looking information used to prepare these presentations may be substantially removed from the accounting records that are subject to internal control over financial reporting. Further, paragraph .68 also states that the auditor should not comment on matters merely because the auditor is capable of reading, counting, measuring, or performing other functions that might be applicable. Accordingly, an auditor's ability to comment on these disclosures is largely dependent upon the degree to which the forward-looking information used to prepare these disclosures is linked to such accounting records.

**.A91-6** The tabular presentation includes the fair values of market risk sensitive instruments and contract terms to determine the future cash flows from those instruments that are categorized by expected maturity dates. This approach may require the use of yield curves and implied forward rates to determine expected maturity dates, as well as assumptions regarding prepayments and weighted average interest rates.

**.A91-7** The term *sensitivity analysis* describes a general class of models that are designed to assess the risk of loss in market risk sensitive instruments, based upon hypothetical changes in market rates or prices. Sensitivity analysis does not refer to any one, specific model and may include duration analysis or other

"sensitivity" measures. The disclosures are dependent upon assumptions about theoretical future market conditions and, therefore, are not derived from the accounting records.

**.A91-8** The term *value at risk* describes a general class of models that provide a probabilistic assessment of the risk of loss in market risk sensitive instruments over a selected period of time, with a selected likelihood of occurrences based upon selected confidence intervals. Value-at-risk disclosures are extremely aggregated and, in addition to the assumptions made for sensitivity analyses, may include additional assumptions regarding correlation between asset classes and future market volatilities. As a result, these disclosures are not derived from the accounting records.

**.A91-9** Of the three disclosure alternatives, the tabular presentation contains the most limited number of assumptions and least complex mathematical calculations. Furthermore, certain information, such as contractual terms, included in a tabular presentation is derived from the accounting records. Accordingly, auditors may perform limited procedures related to tabular presentations to the extent that such information is derived from the accounting records subject to internal control over financial reporting.

**.A91-10** The modeling techniques and underlying assumptions utilized for sensitivity analysis and value-at-risk disclosures generally will be highly complex. The resultant disclosures may be substantially different from the basic historical financial input derived directly from the accounting records. Due to the hypothetical and forward-looking nature of these disclosures and the potentially limited usefulness of any procedures that may be performed, sensitivity analysis or value-at-risk disclosures do not meet the criteria in paragraph .65 for the auditor to agree to make any comments or perform any procedures related to sensitivity analysis or value-at-risk disclosures.

**.A91-11** When performing procedures related to tabular presentation disclosures, the auditor is required by paragraph .65 to consider whether the entity's documentation of its contractual positions in derivatives, commodities, and other financial instruments is subject to internal control over financial reporting and whether it provides a complete record of the entity's market risk sensitive instruments. In addition, the auditor is not permitted to express positive or negative assurance about the reasonableness of the assumptions underlying the disclosures.

**.A91-12** Item 305 requires registrants to stratify financial instruments according to market risk category, that is, interest rate risk, foreign exchange risk, and equity price risk. Item 305 stipulates that if an instrument is at risk in more than one category, the instrument should be included in the disclosures for each applicable category. The stratifications and the company's determination of market risk categories are not derived from the company's accounting records. Accordingly, the auditor is not permitted to provide any findings that the company's stratifications are complete or comply as to form with Item 305 requirements and should disclaim with respect to the company's determination of market risk categories.

**.A91-13** Item 305 encourages registrants to provide quantitative and qualitative information about market risk in terms of, among other things, the magnitude of actual past market movements and estimates of possible near-term market movements. As market data is not derived from the company's accounting records, the auditor is not permitted to agree to perform any procedures related to such market data.

**.A91-14** Further, the auditor may need to utilize a specialist in performing procedures related to those disclosures.

**.A91-15** The following examples, based on example H, "Comments on Tables, Statistics, and Other Financial Information: Descriptions of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information—Attached Securities Offering (or Selected Pages) Identifies Items to Which Procedures Were Applied Through the Use of Designated Symbols," of exhibit B, "Examples of Comfort Letters," provide very simplified procedures, findings, and limitations related to Item 305 tabular presentation disclosures. In practice, the procedures generally will be substantially more complex.

<i>Symbol</i>	<i>Procedures and Findings</i>
√	Compared with a schedule prepared by the Company from its accounting records. We (a) compared the amounts on the schedule to corresponding amounts appearing in the accounting records and found such amounts to be in agreement, and (b) determined that the schedule was mathematically correct. However, we make no comment as to the appropriateness or completeness of the Company's classification of its market-risk-sensitive instruments into market risk categories, nor as to its determination of the expected maturity dates or amounts. (Note: This is an example of procedures related to tabular presentations of face amounts, carrying amounts, fair values, and notional amounts, which stratify such amounts as to interest rate risk.)
⊗	Compared with a schedule prepared by the Company from its accounting records to calculate weighted average fixed interest rates and weighted average fixed pay and receive rates and found such percentages to be in agreement. We (a) compared the amounts on the schedule to corresponding amounts appearing in the accounting records and found such amounts to be in agreement, and (b) determined that the schedule was mathematically correct. However, we make no comment as to the appropriateness of the Company's methodology in calculating weighted average fixed rates.  (Note: It may be necessary to provide a more complete description of the procedures performed in other circumstances.)  We make no comment as to the appropriateness or completeness of the Company's determination of the Regulation S-K requirements for quantitative and qualitative disclosures about market risks or with respect to the reasonableness of the assumptions underlying the disclosures.

*[The following is an extract from a registration statement that illustrates how an auditor can document procedures performed on a tabular presentation of market risk disclosures made in accordance with Item 305 of Regulation S-K.]*

### **INTEREST RATE SENSITIVITY**

The following table provides information about the Company's derivative financial instruments and other financial instruments that are sensitive to changes in interest rates, including interest rate swaps and debt obligations. For debt obligations, the table presents principal cash flows and related weighted average interest rates by expected maturity dates. For interest rate swaps, the table presents notional amounts and weighted average interest rates by expected maturity dates. Notional amounts are used to calculate the contractual payments to be exchanged under the contract. Weighted average variable rates

are based on implied forward rates in the yield curve at the reporting date. The information is presented in U.S. dollar equivalents, which is the Company's reporting currency. The instrument's actual cash flows are denominated in both U.S. dollars (\$US) and German deutschmarks (DM), as indicated in parentheses.

	<i>Expected maturity dates</i>					<i>Total</i>	<i>Fair Value</i>
	<i>20X2<sup>1</sup></i>	<i>20X3<sup>1</sup></i>	<i>20X4<sup>1</sup></i>	<i>20X5<sup>1</sup></i>	<i>Thereafter<sup>1</sup></i>		
<i>Liabilities</i>							
Long-Term Debt:	<i>(\$US equivalent in millions)</i>						
Fixed Rate (\$US)	\$XXX	\$XXX	\$XXX	\$XXX	\$XXX	\$XXX √	\$XXX √
Average interest rate	XX%	XX%	XX%	XX%	XX%	XX% ⊗	
Fixed Rate (DM)	XXX	XXX	XXX	XXX	XXX	XXX √	XXX √
Average interest rate	XX%	XX%	XX%	XX%	XX%	XX% ⊗	
Variable Rate (\$US)	XXX	XXX	XXX	XXX	XXX	XXX √	XXX √
Average interest rate	XX%	XX%	XX%	XX%	XX%	XX% <sup>1</sup>	
<hr/>							
Interest Rate Derivatives	<i>(\$US equivalent in millions)</i>						
Interest Rate Swaps:							
Variable to fixed (\$US)	\$XXX	\$XXX	\$XXX	\$XXX	\$XXX	\$XXX √	\$XXX √
Average pay rate-fixed	XX%	XX%	XX%	XX%	XX%	XX% ⊗	
Average receive rate-variable	XX%	XX%	XX%	XX%	XX%	XX% <sup>1</sup>	
Fixed to Variable (\$US)	XXX	XXX	XXX	XXX	XXX	XXX √	XXX √
Average pay rate-variable	XX%	XX%	XX%	XX%	XX%	XX% <sup>1</sup>	
Average receive rate-fixed	XX%	XX%	XX%	XX%	XX%	XX% ⊗	

<sup>1</sup> Because these disclosures include either management's expectations of future cash flows or the use of implied forward rates applied to such expected cash flows, such information does not meet the criteria of paragraph .65. Accordingly, the auditor is not permitted to express findings on amounts in these columns.

.A92

## Exhibit A—Illustration of Representation Letter From Requesting Party (Ref: par. .A4)

The following is an example of a letter from a nonunderwriter when the securities offering is not being registered under the Securities Act of 1933. If requested to provide a definition of substantially consistent, the following language may be added to the letter:

What is substantially consistent may vary from situation to situation and may not be the same as that done in a registered offering of the same securities for the same entity. Whether the procedures being, or to be, followed will be substantially consistent is determined by us on a case-by-case basis.

[Date]

Dear ABC Accountants:

[Name of requesting party], as principal or agent, in the placement of [identify securities] to be issued by [name of issuer of the securities], will be reviewing certain information relating to [issuer of the securities] that will be included (incorporated by reference) in the document [if appropriate, identify the document], which may be delivered to investors and utilized by them as a basis for their investment decision. This review process, applied to the information relating to the issuer of the securities, is (will be) substantially consistent with the due diligence review process that an underwriter would perform if this placement [issuance] of securities were being registered pursuant to the Securities Act of 1933 (the Act). We are knowledgeable with respect to the due diligence review process that would be performed if this placement of securities were being registered pursuant to the Act. We hereby request that you deliver to us a "comfort" letter concerning the financial statements of the issuer of the securities and certain statistical and other data included in the offering document. We will contact you to identify the procedures we wish you to follow and the form we wish the comfort letter to take.

Very truly yours,

[Name of Requesting Party]

[As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

**.A93**

## **Exhibit B—Examples of Comfort Letters**

**Example A—Typical Comfort Letters .A93-3–.A93-4**

**Example A-1—Typical Comfort Letter for a 1933 Act Offering .A93-3**

**Example A-2—Typical Comfort Letter for a Non-1933 Act Offering When the Required Representation Letter Has Been Obtained .A93-4**

**Example B—Letter When a Short-Form Registration Statement Is Filed Incorporating Previously Filed Form 8-K by Reference .A93-5**

**Example C—Letter Reaffirming Comments as of a Later Date .A93-6**

**Example D—Comments on Pro Forma Financial Information .A93-7–.A93-8**

**Example D-1—Negative Assurance on Pro Forma Financial Information as to Compliance With The Applicable Accounting Requirements of Rule 11-02 of Regulation S-X .A93-7**

**Example D-2—Negative Assurance on Pro Forma Financial Information as to Compliance With Pro Forma Bases as Described in the Pro Forma Financial Information .A93-8**

**Example E—Comments on a Financial Forecast .A93-9**

**Example F—Comments on Tables, Statistics, and Other Financial Information—Complete Description of Procedures and Findings .A93-10**

**Example G—Comments on Tables, Statistics, and Other Financial Information—Summarized Description of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information .A93-11**

**Example H—Comments on Tables, Statistics, and Other Financial Information: Descriptions of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information—Attached Securities Offering (or Selected Pages) Identifies Items to Which Procedures Were Applied Through the Use of Designated Symbols .A93-12**

**Example I—Alternate Wording When Auditor's Report on Audited Financial Statements Contains an Emphasis-of-Matter Paragraph .A93-13**

**Example J—Alternate Wording When Component Auditors Are Involved .A93-14**

**Example K—Alternate Wording When the SEC Has Agreed to a Departure From Its Accounting Requirements .A93-15**

**Example L—Alternate Wording When Recent Earnings Data Are Presented in Capsule Form .A93-16**

**Example M—Alternate Wording When Auditors Are Aware of a Decrease in a Specified Financial Statement Item .A93-17**

**Example N—Alternate Wording of the Letter for Companies That Are Permitted to Present Interim Earnings Data for a 12-Month Period .A93-18**

Example O—Alternate Wording When the Procedures That the Requesting Party Has Requested the Auditor to Perform on Interim Financial Information Are Less Than a Review in Accordance With Generally Accepted Auditing Standards Applicable to Reviews of Interim Financial Information **.A93-19**

Example P—Intentionally Omitted (See example A-2)

Example Q—Letter to a Requesting Party That Has Not Provided the Legal Opinion or the Representation Letter Required by Paragraph .11 **.A93-20**

Example R—Alternate Wording When Reference to Examination of Annual Management's Discussion and Analysis and Review of Interim Management's Discussion and Analysis Is Made **.A93-21**

## Introduction

**.A93-1** The contents of comfort letters vary depending on the extent of the information in the securities offering and the wishes of the requesting party. Shelf registration statements may have several closing dates and different underwriters. Descriptions of procedures and findings regarding interim financial information, tables, statistics, or other financial information that is incorporated by reference from previous Securities Exchange Act of 1934 filings may have to be repeated in several comfort letters. To avoid restating these descriptions in each comfort letter, the auditor may initially issue the comments in a format (such as an appendix) that can be referred to in, and attached to, subsequently issued comfort letters.

**.A93-2** A typical comfort letter includes

- a. a statement regarding the independence of the auditor. (Ref: par. .35)
- b. if applicable, an opinion regarding whether the audited financial statements included (incorporated by reference) in the securities offering comply as to form in all material respects with the applicable accounting requirements of the Securities Act of 1933 (the 1933 Act) and related rules and regulations adopted by the Securities and Exchange Commission (SEC). (Ref: par. .36–.40)
- c. negative assurance on whether
  - i. if applicable, the unaudited interim financial information included (incorporated by reference) in the securities offering (Ref: par. .45–.48) complies as to form in all material respects with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC.
  - ii. any material modifications should be made to the unaudited interim financial information included (incorporated by reference) in the securities offering for them to be in conformity with the applicable financial reporting framework.
- d. negative assurance on whether, during a specified period following the date of the latest financial statements in the securities offering, there has been any change in capital stock, increase in

long-term debt, or any decrease in other specified financial statement items. (Ref: par. .58–.64)

Example A-1 contains a typical comfort letter for a 1933 Act offering and example A-2 contains a typical comfort letter for a non-1933 Act offering. Letters that cover some of the items may be developed by omitting inapplicable portions of these examples. Examples B, D–O, and R contain additional or alternate wording for examples A-1 or A-2, as applicable, for various scenarios.

Although the illustrations in this exhibit describe procedures that may be followed by auditors as a basis for their comments, this section does not necessarily prescribe such procedures.

## Example A—Typical Comfort Letters

### *Example A-1—Typical Comfort Letter for a 1933 Act Offering*

**.A93-3** Example A-1 is an example of a letter that the auditor of a nonissuer may provide when a registrant is including the nonissuer's financial statements in a securities offering to be filed with the SEC. Appropriate modifications would be made if additional financial information is covered by the comfort letter. Example A-1 assumes the following circumstances:

- The prospectus includes audited consolidated balance sheets as of December 31, 20X5 and 20X4, and audited consolidated statements of income, stockholders' equity, and cash flows for each year in the three-year period ended December 31, 20X5. Note that the example assumes all the net income is attributable to the company. If that were not the case, the references to net income would be modified, or additional references would be included as appropriate.
- The prospectus also includes an unaudited condensed consolidated balance sheet as of March 31, 20X6, and unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, reviewed in accordance with generally accepted auditing standards applicable to reviews of interim financial information; however the review report is not included in the securities offering. If the review report is included in the securities offering, the auditor may state that the auditor has issued a review report on the interim financial information in the introductory paragraph of the comfort letter, as follows:

Also, we have reviewed the unaudited condensed consolidated financial statements as of March 31, 20X6, and for the three-month periods ended March 31, 20X6 and 20X5, as indicated in our report dated May 15, 20X6, which is included (incorporated by reference) in the registration statement.

The cut-off date is June 23, 20X6, and the letter is dated June 28, 20X6. The effective date is June 28, 20X6.

- The auditors are reporting independence under the SEC rules and regulations. If the auditors were not required to be independent under the SEC rules and regulations in conjunction with an SEC filing, paragraph 1 in example A-1 would be replaced with paragraph 1 in example A-2.

The auditor may agree to comment in the comfort letter on whether the interim financial information complies as to form in all material respects with the

applicable accounting requirements of the rules and regulations adopted by the SEC.

The example also assumes that there has been no change in the application of a requirement of generally accepted accounting principles during the interim period. If there has been such a change, a reference to that change would be included in paragraph 5 of example A-1.

Each of the comments in the letter is in response to a requirement of the underwriting agreement. For purposes of example A-1, the income statement items of the current interim period are to be compared with those of the corresponding period of the preceding year.

June 28, 20X6

[Addressee]

Dear Ladies and Gentlemen:

We have audited the consolidated financial statements of The Nonissuer Company, Inc. (the company) and subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X5 and 20X4, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, and the related notes to the consolidated financial statements, all included in The Issuer Company's (the registrant) registration statement (no. 33-00000) on Form S-1 filed by the registrant under the Securities Act of 1933 (the Act); our report with respect thereto is also included in that registration statement. The registration statement, as amended on June 28, 20X6, is herein referred to as the registration statement.

In connection with the registration statement—

1. We are independent certified public accountants with respect to the company within the meaning of the 1933 Act and the applicable rules and regulations thereunder adopted by the SEC.
2. In our opinion [*include the phrase* except as disclosed in the registration statement *if applicable*], the consolidated financial statements audited by us and included in the registration statement comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.
3. We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 20X5; although, we have conducted an audit for the year ended December 31, 20X5, the purpose (and, therefore, the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 20X5, and for the year then ended, but not on the financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the registration statement, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 20X5.
4. For purposes of this letter we have read the 20X6 minutes of meetings of the stockholders, the board of directors, and [*include*

*other appropriate committees, if any*] of the company and its subsidiaries as set forth in the minute books at June 23, 20X6, of officials of the company having advised us that the minutes of all such meetings through that date were set forth therein and having discussed with us the unapproved minutes of meetings held on [dates]; we have carried out other procedures to June 23, 20X6, as follows (our work did not extend to the period from June 24, 20X6 to June 28, 20X6, inclusive):

- a. With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—
  - (i) Performed the procedures specified for a review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information, on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the registration statement.
  - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in a(i) comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.
- b. With respect to the period from April 1, 20X6 to May 31, 20X6, we have—
  - (i) Read the unaudited consolidated financial information of the company and subsidiaries for April and May of both 20X5 and 20X6 furnished us by the company, officials of the company having advised us that no financial statements as of any date or for any period subsequent to May 31, 20X6, were available. [*If applicable: The financial information for April and May of both 20X5 and 20X6 is incomplete in that it omits the statements of cash flows and other disclosures.*]
  - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited consolidated financial information referred to in b(i) is stated on a basis substantially consistent with that of the audited consolidated financial statements included in the registration statement.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations regarding the sufficiency of the foregoing procedures for your purposes.

5. Nothing came to our attention as a result of the foregoing procedures, however, that caused us to believe that—

- a.*
- (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in 4*a*(i), included in the registration statement, for them to be in conformity with generally accepted accounting principles.<sup>1</sup>
  - (ii) The unaudited condensed consolidated financial statements described in 4*a*(i) do not comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.
- b.*
- (i) At May 31, 20X6, there was any change in the capital stock, increase in long-term debt, or decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the registration statement, or
  - (ii) for the period from April 1, 20X6 to May 31, 20X6, there were any decreases, as compared to the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.
6. As mentioned in 4*b*, company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to May 31, 20X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 20X6, have, of necessity, been even more limited than those with respect to the periods referred to in 4. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at June 23, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6, unaudited condensed consolidated balance sheet included in the registration statement, or (b) for the period from April 1, 20X6 to June 23, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income. On the basis of these inquiries and our reading of the minutes as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

---

<sup>1</sup> Section 930, *Interim Financial Information*, does not require the auditor to modify the report on a review of interim financial information for a lack of consistency in the application of accounting policies provided that the interim financial information appropriately discloses such matters.

7. This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or otherwise referred to within or without the underwriting group for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or in any list of closing documents pertaining to the offering of the securities covered by the registration statement.

***Example A-2—Typical Comfort Letter for a Non-1933 Act Offering When the Required Representation Letter Has Been Obtained***

**.A93-4** Example A-2 is applicable when a comfort letter is issued in a non-1933 Act offering. Example A-2 assumes the following:

- The offerer is not an SEC registrant.
- The requesting party has given the auditor a representation letter as required by paragraph .11 and illustrated in paragraph .A92.
- The securities offering includes audited consolidated balance sheets as of December 31, 20X5 and 20X4, and audited consolidated statements of income, stockholders' equity, and cash flows for each year in the three-year period ended December 31, 20X5. Note that the example assumes all the net income is attributable to the company. If that were not the case, the references to net income would be modified, or additional references would be included as appropriate.
- The securities offering also includes an unaudited condensed consolidated balance sheet as of March 31, 20X6, and unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, reviewed in accordance with generally accepted auditing standards applicable to reviews of interim financial information; however, the review report is not included in the securities offering. If the review report is included in the securities offering, the auditor may state that the auditor has issued a review report on the interim financial information. in the introductory paragraph of the comfort letter, as follows:

Also, we have reviewed the unaudited condensed consolidated financial statements as of March 31, 20X6, and for the three-month periods ended March 31, 20X6 and 20X5, as indicated in our report dated May 15, 20X6, which is included (incorporated by reference) in the securities offering.

- The auditor did not perform an audit of the effectiveness of internal control over financial reporting in any period.
- There has not been a change in the application of a requirement of generally accepted accounting principles during the interim period. If there has been such a change, a reference to that change would be included in paragraph 4.

The cut-off date is June 23, 20X6, and the letter is dated June 28, 20X6.

Each of the comments in the letter is in response to a request from the requesting party. For purposes of example A-2, the income statement items of the current interim period are to be compared with those of the corresponding period of the preceding year.

June 28, 20X6

[Addressee]

Dear Ladies and Gentlemen:

We have audited the consolidated financial statements of The Nonissuer Company, Inc. (the company) and subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X5 and 20X4, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, and the related notes to the consolidated financial statements, all included [or incorporated by reference] in the offering memorandum for \$30,000,000 of Senior Debt due May 30, 20Z6. Our report with respect thereto is included in the offering memorandum. This offering memorandum, dated June 28, 20X6, is herein referred to as the Offering Memorandum.

This letter is being furnished in reliance upon your representation to us that—

- a. You are knowledgeable with respect to the due diligence review process that would be performed if this placement of securities were being registered pursuant to the Securities Act of 1933 (the Act).
- b. In connection with the offering of Senior Debt, the review process you have performed is substantially consistent with the due diligence review process that you would have performed if this placement of securities were being registered pursuant to the Act.

In connection with the Offering Memorandum—

1. We are independent certified public accountants with respect to the company under the "Independence Rule" of the AICPA's Code of Professional Conduct and its interpretations.
2. We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 20X5; although, we have conducted an audit for the year ended December 31, 20X5, the purpose (and, therefore, the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 20X5, and for the year then ended, but not on the financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, of cash flows, and of changes in stockholders' equity for the three-month periods ended March 31, 20X5 and 20X6, included in the Offering Memorandum, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 20X5.
3. For purposes of this letter, we have read the 20X6 minutes of meetings of the stockholders, the board of directors, and [include other appropriate committees, if any] of the company and its subsidiaries as set forth in the minute books at June 23, 20X6, of officials of the company having advised us that the minutes of all

such meetings through that date were set forth therein and having discussed with us the unapproved minutes of meetings held on [dates]; we have carried out other procedures to June 23, 20X6, as follows (our work did not extend to the period from June 24, 20X6 to June 28, 20X6, inclusive):

- a. With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—
  - (i) Performed the procedures specified for a review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information, on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the Offering Memorandum.
- b. With respect to the period from April 1, 20X6 to May 31, 20X6, we have—
  - (i) Read the unaudited consolidated financial information of the company and subsidiaries for April and May of both 20X5 and 20X6 furnished us by the company, officials of the company having advised us that no financial statements as of any date or for any period subsequent to May 31, 20X6, were available. [If applicable: The financial information for April and May of both 20X5 and 20X6 is incomplete in that it omits the statement of cash flows and other disclosures.]
  - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited consolidated financial information referred to in b(i) is stated on a basis substantially consistent with that of the audited consolidated financial statements included in the Offering Memorandum.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations regarding the sufficiency of the foregoing procedures for your purposes.

4. Nothing came to our attention as a result of the foregoing procedures, however, that caused us to believe that—
  - a.
    - (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in 3a(i), included in the Offering Memorandum, for them to be in conformity with generally accepted accounting principles.<sup>2</sup>

---

<sup>2</sup> Section 930 does not require the auditor to modify the report on a review of interim financial information for a lack of consistency in the application of accounting policies provided that the interim financial information appropriately discloses such matters.

- b.*
- (i) At May 31, 20X6, there was any change in the capital stock, increase in long-term debt, or decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the Offering Memorandum, or
  - (ii) for the period from April 1, 20X6 to May 31, 20X6, there were any decreases, as compared to the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income, except in all instances for changes, increases, or decreases that the Offering Memorandum discloses have occurred or may occur.
5. As mentioned in 3*b*, company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to May 31, 20X6 are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 20X6, have, of necessity, been even more limited than those with respect to the periods referred to in 3. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at June 23, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the Offering Memorandum, or (b) for the period from April 1, 20X6 to June 23, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income. On the basis of these inquiries and our reading of the minutes as described in 3, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the Offering Memorandum discloses have occurred or may occur.
6. This letter is solely for the information of the addressees and to assist the requesting party in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the Offering Memorandum, and it is not to be used, circulated, quoted, or otherwise referred to for any purpose, including but not limited to the purchase or sale of securities, nor is it to be filed with or referred to in whole or in part in the Offering Memorandum or any other document, except that reference may be made to it in the Purchase Contract or in any list of closing documents pertaining to the offering of the securities covered by the Offering Memorandum.

[Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

## Example B—Letter When a Short-Form Registration Statement Is Filed Incorporating Previously Filed Form 8-K by Reference

**.A93-5** Example B is an example of modifications to the letter that the auditor of a nonissuer may provide when a registrant has acquired the nonissuer, and the registrant uses a short-form registration statement (for example, Form S-3), which incorporates a previously filed Form 8-K that includes the nonpublic company's financial statements. The auditor was independent of the nonissuer but is not independent with respect to the registrant.

June 28, 20X6

[Addressee]

Dear Ladies and Gentlemen:

We have audited the consolidated financial statements of The Nonissuer Company, Inc. (the company) and subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X5 and 20X4, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, and the related notes to the consolidated financial statements, all included in The Issuer Company's (the registrant) current report on Form 8-K dated May 15, 20X6, and incorporated by reference in the registration statement (no. 33-00000) on Form S-3 filed by the registrant under the Securities Act of 1933 (the Act); our report with respect thereto is also incorporated by reference in that registration statement. The registration statement, as amended on June 28, 20X6, is herein referred to as the registration statement.

In connection with the registration statement—

1. As of [insert date of the auditor's most recent report on the financial statements of the entity] and during the period covered by the financial statements on which we reported, we were independent certified public accountants with respect to the company under the "Independence Rule" of the AICPA's Code of Professional Conduct and its interpretations.
2. In our opinion, the consolidated financial statements audited by us and incorporated by reference in the registration statement comply as to form in all material respects with the applicable accounting requirements of the Act and the Securities Exchange Act of 1934 and the related rules and regulations adopted by the SEC.
3. We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 20X5; although we have conducted an audit for the year ended December 31, 20X5, the purpose (and, therefore, the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 20X5, and for the year then ended, but not on the consolidated financial statements for any interim period within that year. Therefore, we are unable to, and do not express any opinion on, the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the registrant's current report on Form 8-K dated May 15, 20X6, incorporated by reference in the registration statement, or on the financial position, results of

operations, or cash flows as of any date or for any period subsequent to December 31, 20X5.

4. For purposes of this letter, we have read the 20X6 minutes of the meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company and its subsidiaries as set forth in the minute books at June 23, 20X6, of officials of the company having advised us that the minutes of all such meetings through that date were set forth therein, and having discussed with us the unapproved minutes of meetings held on [*dates*]; we have carried out other procedures to June 23, 20X6, as follows (our work did not extend to the period from June 24, 20X6 to June 28, 20X6, inclusive):

With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—

- (i) Performed a review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the registrant's current report on Form 8-K dated May 15, 20X6, incorporated by reference in the registration statement.
- (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in (i) comply as to form in all material respects with the applicable accounting requirements of the Securities Exchange Act of 1934 and the related rules and regulations adopted by the SEC.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations about the sufficiency of the foregoing procedures for your purposes.

5. Nothing came to our attention as a result of the foregoing procedures, however, that caused us to believe that—
  - (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in 4(i), incorporated by reference in the registration statement, for them to be in conformity with generally accepted accounting principles.
  - (ii) The unaudited condensed consolidated financial statements described in 4(i) do not comply as to form in all material respects with the applicable accounting requirements of the Securities Exchange Act of 1934 and the related rules and regulations adopted by the SEC.
6. This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement,

and for use of the auditors of the registrant in furnishing their letter to the underwriters, and it is not to be used, circulated, quoted, or otherwise referred to within the underwriting group for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to, in whole or in part, in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or any list of closing documents pertaining to the offering of the securities covered by the registration statement.

[Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

### Example C—Letter Reaffirming Comments as of a Later Date

**.A93-6** If more than one comfort letter is requested, the subsequent letter may, in appropriate situations, refer to information appearing in the earlier letter without repeating such information (see paragraph .25 of this section and paragraph .A93-1 of this exhibit). Example C reaffirms and updates the information in example A-1. In a non-1933 Act offering, the last paragraph in example C would be replaced with the last paragraph in example A-2.

July 25, 20X6

[Addressee]

Dear Ladies and Gentlemen:

We refer to our letter of June 28, 20X6, relating to the registration statement (no. 33-00000) of The Nonissuer Company, Inc. (the company). We reaffirm as of the date hereof (and as though made on the date hereof) all statements made in that letter except that, for the purposes of this letter

- a. The registration statement to which this letter relates is as amended on July 13, 20X6 [effective date].
- b. The reading of minutes described in paragraph 4 of that letter has been carried out through July 20, 20X6 [the new cut-off date].
- c. The procedures and inquiries covered in paragraph 4 of that letter were carried out to July 20, 20X6 [the new cut-off date] (our work did not extend to the period from July 21, 20X6 to July 25, 20X6 [date of letter], inclusive).
- d. The period covered in paragraph 4b of that letter is changed to the period from April 1, 20X6 to June 30, 20X6, officials of the company having advised us that no financial statements as of any date or for any period subsequent to June 30, 20X6, were available.
- e. The references to May 31, 20X6 in paragraph 5b of that letter are changed to June 30, 20X6.
- f. The references to May 31, 20X6 and June 23, 20X6 in paragraph 6 of that letter are changed to June 30, 20X6 and July 20, 20X6, respectively.

This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or otherwise referred to within or without the underwriting group for any other purpose, including but not limited to the registration,

purchase, or sale of securities, nor is it to be filed with or referred to, in whole or in part, in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or any list of closing documents pertaining to the offering of the securities covered by the registration statement.

## Example D—Comments on Pro Forma Financial Information

### ***Example D-1—Negative Assurance on Pro Forma Financial Information as to Compliance With The Applicable Accounting Requirements of Rule 11-02 of Regulation S-X***

**.A93-7** Example D-1 is applicable when the auditor is asked to provide negative assurance on (a) whether the pro forma financial information included in a securities offering complies as to form in all material respects with the applicable accounting requirements of Rule 11-02 of Regulation S-X, and (b) the application of pro forma adjustments to historical amounts in the compilation of the pro forma financial information (see paragraphs .52–.53). The material in this example is intended to be inserted between paragraphs 6 and 7 in example A-1 or between paragraphs 5 and 6 in example A-2. The example assumes that the auditor has not previously reported on the pro forma financial information. If the auditor did previously report on the pro forma financial information, the auditor may refer in the introductory paragraph of the comfort letter to the fact that the auditor has issued a report, and the report may be attached to the comfort letter (see paragraphs .A31–.A32). In that circumstance, the procedures in 7b(i) and 7c ordinarily would not be performed, and therefore the auditor would not separately comment on the application of pro forma adjustments to historical financial information because that assurance is encompassed in the auditor's report on pro forma financial information. The auditor may, however, agree to comment on compliance as to form with the applicable accounting requirements of Rule 11-02 of Regulation S-X.

7. At your request, we have—
  - a. Read the unaudited pro forma condensed consolidated balance sheet as of March 31, 20X6, and the unaudited pro forma condensed consolidated statements of income for the year ended December 31, 20X5, and the three-month period ended March 31, 20X6, included in the [registration statement or Offering Memorandum, as applicable].
  - b. Inquired of certain officials of the company who have responsibility for financial and accounting matters about
    - (i) the basis for their determination of the pro forma adjustments and
    - (ii) whether the unaudited pro forma condensed consolidated financial statements referred to in 7a comply as to form in all material respects with the applicable accounting requirements of Rule 11-02 of Regulation S-X.
  - c. Proved the arithmetic accuracy of the application of the pro forma adjustments to the historical amounts in the unaudited pro forma condensed consolidated financial statements.

The foregoing procedures are substantially less in scope than an examination or review, the objective of which is the expression of an opinion or conclusion on management's assumptions, the pro

forma adjustments, and the application of those adjustments to historical financial information. Accordingly, we do not express such an opinion or conclusion. The foregoing procedures would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representation about the sufficiency of such procedures for your purposes.

8. Nothing came to our attention as a result of the procedures specified in paragraph 7, however, that caused us to believe that the unaudited pro forma condensed consolidated financial statements referred to in 7a included in the [registration statement or Offering Memorandum, as applicable] do not comply as to form in all material respects with the applicable accounting requirements of Rule 11-02 of Regulation S-X and that the pro forma adjustments have not been properly applied to the historical amounts in the compilation of the unaudited pro forma condensed consolidated financial statements. Had we performed additional procedures or had we made an examination or review of the pro forma condensed consolidated financial statements, other matters might have come to our attention that would have been reported to you.

**Example D-2—Negative Assurance on Pro Forma Financial Information as to Compliance With Pro Forma Bases as Described in the Pro Forma Financial Information**

.A93-8 Example D-2 is applicable when the auditor is asked to provide negative assurance on (a) whether the pro forma financial information included in a securities offering complies as to form in all material respects with the pro forma bases described in the pro forma financial statements, and (b) the application of pro forma adjustments to historical amounts in the compilation of the pro forma financial information (see paragraphs .52–.53). The material in this example is intended to be inserted between paragraphs 5 and 6 in example A-2.

The example assumes that the auditor has not previously reported on the pro forma financial information. If the auditor did previously report on the pro forma financial information, the auditor may refer in the introductory paragraph of the comfort letter to the fact that the auditor has issued a report, and the report may be attached to the comfort letter (see paragraphs .A31–.A32). In that circumstance, the procedures in 6b(i) and 6c ordinarily would not be performed, and therefore the auditor would not separately comment on the application of pro forma adjustments to historical financial information because that assurance is encompassed in the auditor's report on pro forma financial information. The auditor may, however, agree to comment on compliance as to form with the pro forma bases described in the pro forma financial statements.

6. At your request, we have—
  - a. Read the unaudited pro forma condensed consolidated balance sheet as of March 31, 20X6, and the unaudited pro forma condensed consolidated statements of income for the year ended December 31, 20X5, and the three-month period ended March 31, 20X6, included in the Offering Memorandum.
  - b. Inquired of certain officials of the company who have responsibility for financial and accounting matters about
    - (i) the basis for their determination of the pro forma adjustments, and

- (ii) whether the unaudited pro forma condensed consolidated financial statements referred to in 6*a* comply as to form in all material respects with the pro forma bases described in the pro forma condensed consolidated financial statements.
- c. Proved the arithmetic accuracy of the application of the pro forma adjustments to the historical amounts in the unaudited pro forma condensed consolidated financial statements.

The foregoing procedures are substantially less in scope than an examination or review, the objective of which is the expression of an opinion or conclusion on management's assumptions, the pro forma adjustments, and the application of those adjustments to historical financial information. Accordingly, we do not express such an opinion or conclusion. The foregoing procedures would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representation about the sufficiency of such procedures for your purposes.

- 7. Nothing came to our attention as a result of the procedures specified in paragraph 6, however, that caused us to believe that the unaudited pro forma condensed consolidated financial statements referred to in 6*a* included in the Offering Memorandum do not comply in all material respects with the pro forma bases described in the pro forma condensed consolidated financial statements and that the pro forma adjustments have not been properly applied to the historical amounts in the compilation of the unaudited pro forma condensed consolidated financial statements. Had we performed additional procedures or had we made an examination or a review of the pro forma condensed consolidated financial statements, other matters might have come to our attention that would have been reported to you.

## Example E—Comments on a Financial Forecast

**.A93-9** Example E is applicable when an auditor is asked to comment on a financial forecast (see paragraph .54). The material in this example is intended to be inserted between paragraphs 6 and 7 in example A-1 or between paragraphs 5 and 6 in example A-2. The example assumes that the auditor has previously reported on the compilation of the financial forecast and that the report is attached to the letter (see paragraphs .A31–.A32).

- 7. At your request, we performed the following procedure with respect to the forecasted consolidated balance sheet and consolidated statements of income and cash flows as of December 31, 20X6, and for the year then ending. With respect to forecasted rental income, we compared the occupancy statistics about expected demand for rental of the housing units to statistics for existing comparable properties and found them to be the same.
- 8. Because the procedure described above does not constitute an examination of prospective financial statements in accordance with standards promulgated by the American Institute of Certified Public Accountants, we do not express an opinion on whether the prospective financial statements are presented in conformity with AICPA presentation guidelines or on whether the underlying assumptions provide a reasonable basis for the presentation.

Had we performed additional procedures or had we made an examination of the forecast in accordance with standards promulgated by the AICPA, matters might have come to our attention that would have been reported to you. Furthermore, there will usually be differences between the forecasted and actual results because events and circumstances frequently do not occur as expected, and those differences may be material.

### Example F—Comments on Tables, Statistics, and Other Financial Information—Complete Description of Procedures and Findings

**.A93-10** Example F is applicable when the auditor is asked to comment on tables, statistics, or other compilations of information appearing in a securities offering (paragraphs .65–.71). Each of the comments is in response to a specific request. The paragraphs in example F are intended to follow paragraph 6 in example A-1 or paragraph 5 in example A-2. In a non-1933 Act securities offering, paragraph 9c(iii) generally would not be included.

In some cases, the auditor may choose to combine in one paragraph the substance of paragraphs 7 and 9 shown as follows. This may be done by expanding the identification of items in paragraph 9 to provide the identification information included in paragraph 7. In such cases, the introductory sentences in paragraphs 7 and 9 and the text of paragraph 8 might be combined as follows: "For purposes of this letter, we have also read the following information and have performed the additional procedures stated below with respect to such information. Our audit of the consolidated financial statements. . ."

7. For purposes of this letter, we have also read the following, set forth in the [registration statement or Offering Memorandum, as applicable] securities offering on the indicated pages.

<i>Item</i>	<i>Page</i>	<i>Description</i>
<i>a</i>	4	"Capitalization." The amounts under the captions "Amount Outstanding as of May 31, 20X6" and "As Adjusted." The related notes, except the following in Note 2: "See Transactions With Interested Persons." From the proceeds of this offering the company intends to prepay \$900,000 on these notes, pro rata. See "Use of Proceeds."
<i>b</i>	13	"History and Business—Sales and Marketing." The table following the first paragraph.
<i>c</i>	33	"Selected Financial Data."

8. Our audit of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements as a whole. For none of the periods referred to therein, or any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions such as those enumerated above, and, accordingly, we express no opinion thereon.
9. However, for purposes of this letter, we have performed the following additional procedures, which were applied as indicated with respect to the items enumerated above.

Item in 7	Procedures and Findings
a	<p>We compared the amounts and numbers of shares listed under the caption, "Amount Outstanding as of May 31, 20X6," with the balances in the appropriate accounts in the company's general ledger and found them to be in agreement. We compared the amounts and numbers of shares listed under the caption, "Amount Outstanding as of May 31, 20X6," adjusted for the issuance of the debentures to be offered by means of the securities offering and for the proposed use of a portion of the proceeds thereof to prepay portions of certain notes, as described under "Use of Proceeds," with the amounts and numbers of shares shown under the caption, "As Adjusted," and found such amounts and numbers of shares to be in agreement. (However, we make no comments regarding the reasonableness of the "Use of Proceeds" or whether such use will actually take place.)</p>
b	<p>We compared the amounts of military sales, commercial sales, and total sales shown in the securities offering with the balances in the appropriate accounts in the company's accounting records for the respective fiscal years and for the unaudited interim periods and found them to be in agreement. We proved the arithmetic accuracy of the percentages of such amounts of military sales and commercial sales to total sales for the respective fiscal years and for the unaudited interim periods. We compared such computed percentages with the corresponding percentages appearing in the [registration statement or Offering Memorandum, as applicable] and found them to be in agreement.</p>
c	<ol style="list-style-type: none"> <li data-bbox="319 831 966 1038">i. We compared the amounts of net sales and income from continuing operations for the years ended December 31, 20X5, 20X4, and 20X3, with the respective amounts in the consolidated financial statements on pages 27 and 28 and the amounts for the years ended December 31, 20X2 and 20X1, with the respective amounts in the consolidated financial statements for 20X2 and 20X1 and found them to be in agreement.</li> <li data-bbox="319 1046 966 1253">ii. We compared the amounts of total assets, long-term obligations, and redeemable preferred stock at December 31, 20X5 and 20X4, with the respective amounts in the consolidated financial statements on pages 27 and 28 and the amounts at December 31, 20X3, 20X2, and 20X1, with the corresponding amounts in the consolidated financial statements for 20X3, 20X2, and 20X1 and found them to be in agreement.</li> <li data-bbox="319 1262 966 1541">iii. We compared the information included under the heading "Selected Financial Data" with the disclosure requirements of Item 301 of Regulation S-K. We also inquired of certain officials of the company who have responsibility for financial and accounting matters whether this information conforms in all material respects with the disclosure requirements of Item 301 of Regulation S-K. Nothing came to our attention as a result of the foregoing procedures that caused us to believe that this information does not conform in all material respects with the disclosure requirements of Item 301 of Regulation S-K.</li> </ol>

10. It should be understood that we make no representations regarding questions of legal interpretation or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraph; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages listed above. Further, we have addressed ourselves solely to the foregoing data as set forth in the [*registration statement or Offering Memorandum, as applicable*] and make no representations regarding the adequacy of disclosure or regarding whether any material facts have been omitted.

### **Example G—Comments on Tables, Statistics, and Other Financial Information—Summarized Description of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information**

**.A93-11** Example G illustrates, in paragraph 8a, a method of summarizing the descriptions of procedures and findings regarding tables, statistics, and other financial information in order to avoid repetition in the comfort letter. Each of the comments is in response to a specific request. The paragraphs in example G are intended to follow paragraph 6 in example A-1 or paragraph 5 in example A-2. In a non-1933 Act securities offering, paragraph 9a(ii) generally would not be included.

Other methods of summarizing the descriptions may also be appropriately used. For example, the letter may present a matrix listing the financial information and common procedures employed and indicating the procedures applied to specific items.

7. For purposes of this letter, we have also read the following, set forth in the [*registration statement or Offering Memorandum, as applicable*] on the indicated pages.

<i>Item</i>	<i>Page</i>	<i>Description</i>
<i>a</i>	4	"Capitalization." The amounts under the captions "Amount Outstanding as of May 31, 20X6" and "As Adjusted." The related notes, except the following in Note 2: "See Transactions With Interested Persons." From the proceeds of this offering the company intends to prepay \$900,000 on these notes, pro rata. See "Use of Proceeds."
<i>b</i>	13	"History and Business—Sales and Marketing." The table following the first paragraph.
<i>c</i>	33	"Selected Financial Data."

8. Our audit of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements as a whole. For none of the periods referred to therein, or any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions, such as those enumerated above, and, accordingly, we express no opinion thereon.

9. However, for purposes of this letter and with respect to the items enumerated in 7 above—
  - a.
    - i. Except for item 7a, we have (i) compared the dollar amounts either with the amounts in the audited consolidated financial statements described in the introductory paragraph of this letter or, for prior years, included in the company's accounting records, or with amounts in the unaudited consolidated financial statements described in paragraph 3 to the extent such amounts are included in or can be derived from such statements and found them to be in agreement; (ii) compared the amounts of military sales, commercial sales, and total sales with amounts in the company's accounting records and found them to be in agreement; (iii) compared other dollar amounts with amounts shown in analyses prepared by the company and found them to be in agreement; and (iv) proved the arithmetic accuracy of the percentages based on the data in the above-mentioned financial statements, accounting records, and analyses.
    - ii. We compared the information in item 6c with the disclosure requirements of Item 301 of Regulation S-K. We also inquired of certain officials of the company who have responsibility for financial and accounting matters whether this information conforms in all material respects with the disclosure requirements of Item 301 of Regulation S-K. Nothing came to our attention as a result of the foregoing procedures that caused us to believe that this information does not conform in all material respects with the disclosure requirements of Item 301 of Regulation S-K.
  - b. With respect to item 7a, we compared the amounts and numbers of shares listed under the caption "Amount Outstanding as of May 31, 20X6" with the balances in the appropriate accounts in the company's general ledger at May 31, 20X6, and found them to be in agreement. We compared the amounts and numbers of shares listed under the caption "Amount Outstanding as of May 31, 20X6," adjusted for the issuance of the debentures to be offered by means of the securities offering and for the proposed use of a portion of the proceeds thereof to prepay portions of certain notes, as described under "Use of Proceeds," with the amounts and numbers of shares shown under the caption, "As Adjusted" and found such amounts and numbers of shares to be in agreement. (However, we make no comments regarding the reasonableness of "Use of Proceeds" or whether such use will actually take place.)
10. It should be understood that we make no representations regarding questions of legal interpretation or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraph; also, such procedures would not necessarily

reveal any material misstatement of the amounts or percentages listed above. Further, we have addressed ourselves solely to the foregoing data as set forth in the [registration statement or Offering Memorandum, as applicable] and make no representations regarding the adequacy of disclosure or regarding whether any material facts have been omitted.

### **Example H—Comments on Tables, Statistics, and Other Financial Information: Descriptions of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information—Attached Securities Offering (or Selected Pages) Identifies Items to Which Procedures Were Applied Through the Use of Designated Symbols**

**.A93-12** This example illustrates an alternate format, which could facilitate reporting when the auditor is requested to perform procedures on numerous statistics included in a securities offering. Each of the comments is in response to a specific request. The paragraph in example H is intended to follow paragraph 6 in example A-1 or paragraph 5 in example A-2.

7. For purposes of this letter, we have also read the items identified by you on the attached copy of the [registration statement or Offering Memorandum, as applicable] and have performed the following procedures, which were applied as indicated with respect to the symbols explained below:
  - ✓ Compared the amount with The Nonissuer Company, Inc.'s financial statements for the period indicated included in the securities offering and found them to be in agreement.
8. Our audit of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements as a whole. For none of the periods referred to therein, nor any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions, such as those enumerated above, and, accordingly, we express no opinion thereon.
9. It should be understood that we make no representations regarding questions of legal interpretation or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraph; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages listed above. Further, we have addressed ourselves solely to the foregoing data as set forth in the [registration statement or Offering Memorandum, as applicable] and make no representations regarding the adequacy of disclosure or regarding whether any material facts have been omitted.

*[The following is an extract from a securities offering that illustrates how an auditor can document procedures performed on numerous statistics included in the securities offering.]*

**Summary Financial Information of The Nonissuer Company, Inc.  
(In thousands)**

Income statement data	<i>The Nonissuer Company, Inc. Year Ended December 31,</i>		
	20X3	20X4	20X5
Revenue from home sales	\$104,110√	\$115,837√	\$131,032√
Gross profit from sales	23,774√	17,099√	22,407√
Income from home building net of tax	7,029√	1,000√	3,425√

### Example I—Alternate Wording When Auditor's Report on Audited Financial Statements Contains an Emphasis-of-Matter Paragraph

**.A93-13** Example I is applicable when the auditor's report on the audited financial statements included in the securities offering contains an emphasis-of-matter paragraph regarding a matter that would also affect the unaudited condensed consolidated interim financial information included in the securities offering. The introductory paragraph would be revised as follows:

Our report with respect thereto (which contains an emphasis-of-matter paragraph that describes a lawsuit to which the company is a defendant, discussed in note 8 to the consolidated financial statements), is also included in the [*registration statement or Offering Memorandum, as applicable*].

The matter described in the emphasis-of-matter paragraph would also be evaluated to determine whether it also requires mention in the comments on the unaudited condensed consolidated interim financial information (paragraph 5*b* of example A-1 and paragraph 4*b* of example A-2). If it is concluded that mention of such a matter in the comments on unaudited condensed consolidated financial information is appropriate, a sentence would be added at the end of paragraph 5*b* in example A-1 and paragraph 4*b* of example A-2 as follows:

Reference should be made to the introductory paragraph of this letter, which states that our audit report covering the consolidated financial statements as of and for the year ended December 31, 20X5, includes an emphasis-of-matter paragraph that describes a lawsuit to which the company is a defendant, discussed in note 8 to the consolidated financial statements.

### Example J—Alternate Wording When Component Auditors Are Involved

**.A93-14** Example J applies when one or more component auditors are involved in the audit of group financial statements, and the group engagement team has obtained a copy of the comfort letter of the component auditors (see paragraph .21). Example J consists of an addition to paragraph 4, a substitution for the applicable part of paragraph 5, and an addition to paragraph 6 of example A-1 and corresponding changes to paragraphs 3, 4, and 5 of example A-2, respectively.

- [4]c. We have read the letter dated \_\_\_\_\_ of [*the other auditors*] with regard to [*the related company*].
5. Nothing came to our attention as a result of the foregoing procedures (which, so far as [*the related company*] is concerned,

consisted solely of reading the letter referred to in 4c), however, that caused us to believe that . . .

6. ...On the basis of these inquiries and our reading of the minutes and the letter dated \_\_\_\_\_ of [*the other auditors*] with regard to [*the related company*], as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the [*registration statement or Offering Memorandum, as applicable*] discloses have occurred or may occur.

### Example K—Alternate Wording When the SEC Has Agreed to a Departure From Its Accounting Requirements

**.A93-15** Example K is applicable when (a) there is a departure from the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC, and (b) representatives of the SEC have agreed to the departure. Paragraph 2 of example A-1 would be revised to read as follows:

2. In our opinion [*include the phrase except as disclosed in the registration statement if applicable*], the consolidated financial statements and financial statement schedules audited by us and included (incorporated by reference) in the registration statement comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC; however, as agreed to by representatives of the SEC, statements of assets acquired and liabilities assumed and statements of revenues and direct operating expenses of The Nonissuer Company, Inc. have been presented in lieu of separate financial statements required by Rule 3-05 of Regulation S-X.

### Example L—Alternate Wording When Recent Earnings Data Are Presented in Capsule Form

**.A93-16** Example L is applicable when (a) the statement of income in the securities offering is supplemented by later information regarding sales and earnings (capsule financial information), (b) the auditor is asked to comment on that information (paragraphs .49–.51), and (c) the auditor has conducted a review in accordance with generally accepted auditing standards applicable to reviews of interim financial information of the financial statements from which the capsule financial information is derived. The same facts exist as in example A-1, or for a non-1933 Act filing as in example A-2, except for the following:

- Sales and net income (no extraordinary items) for the six-month periods ended June 30, 20X6 and 20X5 (both unaudited), are included in capsule form more limited than that specified by Financial Accounting Standards Board *Accounting Standards Codification* 270, *Interim Reporting*.
- No financial statements later than those for June 20X6 are available.
- The letter is dated July 25, 20X6, and the cut-off date is July 20, 20X6.

Paragraphs 4, 5, and 6 of example A-1, or paragraphs 3, 4 and 5 of example A-2, would be revised to read as follows; in a non-1933 Act securities offering, paragraphs 4a(ii) and 5a(ii) generally would not be included:

4. For purposes of this letter, we have read the 20X6 minutes of the meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company and its subsidiaries as set forth in the minute books at July 20, 20X6, officials of the company having advised us that the minutes of all such meetings through that date were set forth therein and discussed with us the unapproved minutes of meetings held on [*dates*]; we have carried out other procedures to July 20, 20X6, as follows (our work did not extend to the period from July 21, 20X6 to July 25, 20X6, inclusive):
  - a. With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—
    - (i) Performed the procedures specified for a review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information, on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the [*registration statement or Offering Memorandum, as applicable*].
    - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in a(i) comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.
  - b. With respect to the six-month periods ended June 30, 20X6 and 20X5, we have—
    - (i) Read the unaudited amounts for sales and net income for the six-month periods ended June 30, 20X6 and 20X5, as set forth in paragraph [*identify location*].
    - (ii) Performed the procedures specified for a review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information, on the unaudited condensed consolidated balance sheet as of June 30, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the six-month periods ended June 30, 20X6 and 20X5, from which the unaudited amounts referred to in b(i) are derived.
    - (iii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited amounts referred to in b(i) are stated on a basis substantially consistent with that of the corresponding amounts in the audited consolidated statements of income.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations regarding the sufficiency of the foregoing procedures for your purposes.

5. Nothing came to our attention as a result of the foregoing procedures, however, that caused us to believe that—
  - a.
    - (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in 4a(i), included in the [registration statement or Offering Memorandum, as applicable], for them to be in conformity with generally accepted accounting principles.
    - (ii) The unaudited condensed consolidated financial statements described in 4a(i) do not comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.
  - b.
    - (i) The unaudited amounts for sales and net income for the six-month periods ended June 30, 20X6 and 20X5, referred to in 4b(i) do not agree with the amounts set forth in the unaudited condensed consolidated financial statements for those same periods.
    - (ii) The unaudited amounts referred to in 4b(i) were not determined on a basis substantially consistent with that of the corresponding amounts in the audited consolidated statements of income.
  - c. At June 30, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the [registration statement or Offering Memorandum, as applicable], except in all instances for changes, increases, or decreases that the [registration statement or Offering Memorandum, as applicable] discloses have occurred or may occur.
6. Company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to June 30, 20X6 are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after June 30, 20X6 have, of necessity, been even more limited than those with respect to the periods referred to in 4. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at July 20, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance

sheet included in the [registration statement or Offering Memorandum, as applicable]; or (b) for the period from July 1, 20X6 to July 20, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income. On the basis of these inquiries and our reading of the minutes as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the [registration statement or Offering Memorandum, as applicable] discloses have occurred or may occur.

### Example M—Alternate Wording When Auditors Are Aware of a Decrease in a Specified Financial Statement Item

.A93-17 Example M covers a situation in which auditors are aware of a decrease in a financial statement item on which they are requested to comment (see paragraphs .58–.64). Example M may be modified when auditors are aware of a change or increase. The same facts exist as in example A-1 or example A-2, as applicable, except for the decrease covered in the following change in paragraph 5b in example A-1 or paragraph 4b in example A-2:

b.

- (i) At May 31, 20X6, there was any change in the capital stock, increase in long-term debt, or any decrease in consolidated stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the [registration statement or Offering Memorandum, as applicable], or
- (ii) for the period from April 1, 20X6 to May 31, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or income from continuing operations or of net income, except in all instances for changes, increases, or decreases that the [registration statement or Offering Memorandum, as applicable] discloses have occurred or may occur and except that the unaudited consolidated balance sheet as of May 31, 20X6, which we were furnished by the company, showed a decrease from March 31, 20X6, in consolidated net current assets as follows (in thousands of dollars):

	<i>Current Assets</i>	<i>Current Liabilities</i>	<i>Net Current Assets</i>
March 31, 20X6	\$4,251	\$1,356	\$2,895
May 31, 20X6	3,986	1,732	2,254

6. As mentioned in 4b, company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to May 31, 20X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 20X6, have, of necessity, been even

more limited than those with respect to the periods referred to in 4. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at June 23, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the [registration statement or Offering Memorandum, as applicable]; or (b) for the period from April 1, 20X6 to June 23, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income. On the basis of these inquiries and our reading of the minutes as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the [registration statement or Offering Memorandum, as applicable] discloses have occurred or may occur and except as described in the following sentence: We have been informed by officials of the company that there continues to be a decrease in net current assets that is estimated to be approximately the same amount as set forth in 5b [or whatever other disclosure fits the circumstances].

### **Example N—Alternate Wording of the Letter for Companies That Are Permitted to Present Interim Earnings Data for a 12-Month Period**

**.A93-18** Certain types of companies are permitted to include earnings data for a 12-month period to the date of the latest balance sheet furnished in lieu of earnings data for both the interim period between the end of the latest fiscal year and the date of the latest balance sheet and the corresponding period of the preceding fiscal year. The following would be substituted for the applicable part of paragraph 3 of example A-1:

3. ...was to enable us to express our opinion on the financial statements as of December 31, 20X5, and for the year then ended, but not on the financial statements for any period included in part within that year. Therefore, we are unable to, and do not express any opinion on, the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the related unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the 12 months then ended included in the registration statement.

### **Example O—Alternate Wording When the Procedures That the Requesting Party Has Requested the Auditor to Perform on Interim Financial Information Are Less Than a Review in Accordance With Generally Accepted Auditing Standards Applicable to Reviews of Interim Financial Information**

**.A93-19** The example assumes that the requesting party has asked the auditor to perform specified procedures on the interim financial information and report

thereon in the comfort letter. The letter is dated June 28, 20X6; procedures were performed through June 23, 20X6, the cut-off date. Because a review in accordance with generally accepted auditing standards applicable to reviews of interim financial information was not performed on the interim financial information as of March 31, 20X6, and for the quarter then ended, the auditor is limited to reporting procedures performed and findings obtained on the interim financial information.

The following would be substituted for paragraphs 4–6 of example A-1 or paragraphs 3–5 of example A-2. In a non-1933 Act securities offering, the two statements in paragraph 4(a)(ii) with respect to compliance as to form, in all material respects, with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC, would not be included. Example O assumes there has not been a change in the application of a requirement of generally accepted accounting principles during the interim period. If there has been such a change, a reference to that change would be included in subparagraph *a*(ii) that follows:

4. For purposes of this letter, we have read the 20X6 minutes of meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company and its subsidiaries as set forth in the minute books at June 23, 20X6, of officials of the company having advised us that the minutes of all such meetings through that date were set forth therein and having discussed with us the unapproved minutes of meetings held on [*dates*]; we have carried out other procedures to June 23, 20X6, as follows (our work did not extend to the period from June 24, 20X6 to June 28, 20X6, inclusive):
  - a. With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—
    - (i) Read the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the [*registration statement or Offering Memorandum, as applicable*], and agreed the amounts included therein with the company's accounting records as of March 31, 20X6, and for the three-month periods ended March 31, 20X6 and 20X5.
    - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in *a*(i): (1) are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited consolidated financial statements included in the [*registration statement or Offering Memorandum, as applicable*], and (2) comply as to form, in all material respects, with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC. Those officials stated that the unaudited condensed consolidated

financial statements (1) are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited consolidated financial statements, and (2) comply as to form, in all material respects, with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.

b. With respect to the period from April 1, 20X6 to May 31, 20X6, we have—

- (i) Read the unaudited consolidated financial information of the company and subsidiaries for April and May of both 20X5 and 20X6 furnished us by the company, and agreed the amounts contained therein to the company's accounting records. Officials of the company have advised us that no financial statements as of any date or for any period subsequent to May 31, 20X6, were available. *[If applicable: The financial information for April and May of both 20X5 and 20X6 is incomplete in that it omits the statements of cash flows and other disclosures.]*
- (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether (1) the unaudited consolidated financial information referred to in b(i) is stated on a basis substantially consistent with that of the audited consolidated financial statements included in the *[registration statement or Offering Memorandum, as applicable]*; (2) at May 31, 20X6, there was any change in the capital stock, increase in long-term debt, or any decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the *[registration statement or Offering Memorandum, as applicable]*; and (3) for the period from April 1, 20X6 to May 31, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income.

Those officials stated that (1) the unaudited consolidated financial information referred to in 4b(i) is stated on a basis substantially consistent with that of the audited consolidated financial statements included in the *[registration statement or Offering Memorandum, as applicable]*; (2) at May 31, 20X6, there was no change in the capital stock, no increase in long-term debt, and no decrease in net current assets or stockholders' equity of the consolidated companies as compared

with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the [registration statement or Offering Memorandum, as applicable]; and (3) there were no decreases for the period from April 1, 20X6 to May 31, 20X6, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income.

- c. As mentioned in 4b(i), company officials have advised us that no financial statements as of any date or for any period subsequent to May 31, 20X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 20X6, have, of necessity, been even more limited than those with respect to the periods referred to in 4a and 4b. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at June 23, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the [registration statement or Offering Memorandum, as applicable], or (b) for the period from April 1, 20X6 to June 23, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income. Those officials stated that (1) at June 23, 20X6, there was no change in the capital stock, no increase in long-term debt, and no decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet, and (2) for the period from April 1, 20X6 to June 23, 20X6, there were no decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income.

The foregoing procedures do not constitute an audit or a review conducted in accordance with generally accepted auditing standards. We make no representations regarding the sufficiency of the foregoing procedures for your purposes. Had we performed additional procedures or had we conducted an audit or a review of the company's March 31, April 30, or May 31, 20X6 and 20X5 condensed consolidated financial statements, other matters might have come to our attention that would have been reported to you.

5. At your request, we also—
  - a. Read the unaudited pro forma condensed consolidated balance sheet as of March 31, 20X6, and the unaudited pro forma condensed consolidated statements of income for the year ended December 31, 20X5, and the three-month period ended March 31, 20X6, included in the [registration statement or Offering Memorandum, as applicable].

- b. Inquired of certain officials of the company and of XYZ Company (the company being acquired) who have responsibility for financial and accounting matters as to whether all significant assumptions regarding the business combination had been reflected in the pro forma adjustments and whether the unaudited pro forma condensed consolidated financial statements referred to in (a) comply as to form in all material respects with the *[applicable accounting requirements of Rule 11-02 of Regulation S-X or pro forma bases described in the pro forma condensed consolidated financial statements, as applicable]*.

Those officials referred to above stated, in response to our inquiries, that all significant assumptions regarding the business combination had been reflected in the pro forma adjustments and that the unaudited pro forma condensed consolidated financial statements referred to in (a) comply as to form in all material respects with the *[applicable accounting requirements of Rule 11-02 of Regulation S-X or pro forma bases described in the pro forma condensed consolidated financial statements, as applicable]*.

- c. Compared the historical financial information for the company included on page 20 in the *[registration statement or Offering Memorandum, as applicable]* with historical financial information for the company on page 12 and found them to be in agreement.

We also compared the financial information included on page 20 of the *[registration statement or Offering Memorandum, as applicable]* with the historical information for XYZ Company on page 13 and found them to be in agreement.

- d. Proved the arithmetic accuracy of the application of the pro forma adjustments to the historical amounts in the unaudited pro forma condensed consolidated financial statements.

The foregoing procedures are less in scope than an examination or review, the objective of which is the expression of an opinion or conclusion on management's assumptions, the pro forma adjustments, and the application of those adjustments to historical financial information. Accordingly, we do not express such an opinion or conclusion. We make no representation about the sufficiency of the foregoing procedures for your purposes. Had we performed additional procedures or had we made an examination or review of the pro forma financial information, other matters might have come to our attention that would have been reported to you.

**Example P—Intentionally Omitted (See example A-2)<sup>3</sup>****Example Q—Letter to a Requesting Party That Has Not Provided the Legal Opinion or the Representation Letter Required by Paragraph .11**

**.A93-20** This example illustrates the letter to be provided in accordance with paragraph .11 in which the auditor does not provide negative assurance. This example assumes that these procedures are being performed at the request of the placement agent on information included in an offering memorandum in connection with a private placement of unsecured notes. The letter is dated June 30, 20X6; procedures were performed through June 25, 20X6, the cut-off date. The statements in paragraphs 4–8 of the example are illustrative of the statements required to be included by paragraph .12.

This example may also be used in connection with a filing under the 1933 Act when a party other than a named underwriter (for example, a selling shareholder) has not provided the auditor with the representation letter described in paragraph .11. In such a situation, this example may be modified to include the auditor's comments on independence and compliance as to form of the audited financial statements and financial statements schedules with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC. Paragraph 1a(ii) may include an inquiry, and the response of company officials, on compliance as to form of the unaudited condensed interim financial information.

June 30, 20X6

[Addressee]

Dear Ladies and Gentlemen:

We have audited the consolidated financial statements of The Nonissuer Company, Inc. (the company) and subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X5 and 20X4, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, and the related notes to the consolidated financial statements, all included in the offering memorandum for \$30,000,000 of notes due June 30, 20Z6. Our report with respect thereto is included in the offering memorandum. The offering memorandum dated June 30, 20X6, is herein referred to as the Offering Memorandum.

We are independent certified public accountants with respect to the company under the "Independence Rule" of the AICPA's Code of Professional Conduct and its interpretations.

We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 20X5; although, we have conducted an audit for the year ended December 31, 20X5, the purpose (and, therefore, the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 20X5, and for the year then ended, but not on the financial statements for any interim

---

<sup>3</sup> Example P, "A Typical Comfort Letter in a Non-1933 Act Offering, Including the Required Underwriter Representations," in AU section 634, *Letters for Underwriters and Certain Other Requesting Parties*, was moved to example A-2, "Typical Comfort Letter for a Non-1933 Act Offering When the Required Representation Letter Has Been Obtained," in this section when AU section 634 was redrafted for clarity, and is intentionally blank to retain the letters assigned to the other examples.

period within that year. Therefore, we are unable to, and do not express any opinion on, the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the Offering Memorandum, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 20X5.

1. At your request, we have read the 20X6 minutes of meetings of the stockholders, the board of directors, and *[include other appropriate committees, if any]* of the company as set forth in the minute books at June 25, 20X6, officials of the company having advised us that the minutes of all such meetings through that date were set forth therein and having discussed with us the unapproved minutes of meetings held on *[dates]*; we have carried out other procedures to June 25, 20X6, as follows (our work did not extend to the period from June 26, 20X6 to June 30, 20X6, inclusive):
  - a. With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—
    - (i) Read the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows of the company for the three-month periods ended March 31, 20X6 and 20X5, included in the Offering Memorandum, and agreed the amounts included therein with the company's accounting records as of March 31, 20X6, and for the three-month periods ended March 31, 20X6 and 20X5.
    - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in *a*(i) are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited consolidated financial statements included in the Offering Memorandum. Those officials stated that the unaudited condensed consolidated financial statements are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited consolidated financial statements.
  - b. With respect to the period from April 1, 20X6 to May 31, 20X6, we have—
    - (i) Read the unaudited condensed consolidated financial information of the company for April and May of both 20X5 and 20X6, furnished us by the company, and agreed the amounts included therein with the company's accounting records. Officials of the company have advised us that no financial statements as of any date or for any period subsequent to May 31, 20X6, were available. *[if applicable: The financial information for April and May of both 20X5 and 20X6 is incomplete*

in that it omits the statements of cash flows and other disclosures.]

- (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether (1) the unaudited condensed consolidated financial information referred to in *b(i)* is stated on a basis substantially consistent with that of the audited consolidated financial statements included in the Offering Memorandum; (2) at May 31, 20X6, there was any change in the capital stock, increase in long-term debt, or any decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the Offering Memorandum; and (3) for the period from April 1, 20X6 to May 31, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income.

Those officials stated that (1) the unaudited condensed consolidated financial information referred to in *b(ii)* is stated on a basis substantially consistent with that of the audited consolidated financial statements included in the Offering Memorandum; (2) at May 31, 20X6, there was no change in the capital stock, no increase in long-term debt, and no decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the Offering Memorandum; and (3) there were no decreases for the period from April 1, 20X6 to May 31, 20X6, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income.

- c. As mentioned in *1b*, company officials have advised us that no financial statements as of any date or for any period subsequent to May 31, 20X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 20X6, have, of necessity, been even more limited than those with respect to the periods referred to in *1a* and *1b*. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (i) at June 25, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the Offering Memorandum, or (ii) for the period from April 1, 20X6 to June 25, 20X6, there were any

decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income.

Those officials referred to above stated that (i) at June 25, 20X6, there was no change in the capital stock, no increase in long-term debt, and no decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6, unaudited condensed consolidated balance sheet, and (ii) there were no decreases for the period from April 1, 20X6 to June 25, 20X6, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income.

2. For purposes of this letter, we have also read the items identified by you on the attached copy of the Offering Memorandum and have performed the following procedures, which were applied as indicated with respect to the symbols explained below:
  - ☑ Compared the amount with the company's financial statements for the period indicated and found them to be in agreement.
  - ✓ Compared the amount with the company's financial statements for the period indicated included in the Offering Memorandum and found them to be in agreement.
  - Ⓣ Compared with a schedule or report prepared by the company and found them to be in agreement.
3. Our audit of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements as a whole. For none of the periods referred to therein, nor for any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions, such as those enumerated above, and, accordingly, we express no opinion thereon.
4. It should be understood that we have no responsibility for establishing (and did not establish) the scope and nature of the procedures enumerated in paragraphs 1–3 above; rather, the procedures enumerated therein are those the requesting party asked us to perform. Accordingly, we make no representations regarding questions of legal interpretation<sup>4</sup> or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraphs; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages listed above as set forth in the Offering Memorandum. Further, we have addressed ourselves solely to the foregoing data and make no representations regarding the adequacy of disclosures or whether any material facts have been omitted. This letter relates only to the financial statement items specified above and does not extend to any financial statement of the company as a whole.

---

<sup>4</sup> Paragraph .A6 of this section.

5. The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Had we performed additional procedures or had we conducted an audit or a review of the company's March 31, April 30, or May 31, 20X6 and 20X5 condensed consolidated financial statements in accordance with generally accepted auditing standards, other matters might have come to our attention that would have been reported to you.
6. These procedures should not be taken to supplant any additional inquiries or procedures that you would undertake in your consideration of the proposed offering.
7. This letter is solely for your information and to assist you in your inquiries in connection with the offering of the securities covered by the Offering Memorandum, and it is not to be used, circulated, quoted, or otherwise referred to for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to, in whole or in part, in the Offering Memorandum or any other document, except that reference may be made to it in any list of closing documents pertaining to the offering of the securities covered by the offering document.
8. We have no responsibility to update this letter for events and circumstances occurring after June 25, 20X6.

[Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

### **Example R—Alternate Wording When Reference to Examination of Annual Management's Discussion and Analysis and Review of Interim Management's Discussion and Analysis Is Made**

**.A93-21** This example is applicable when the auditor is making reference to an examination of annual MD&A and a review of interim MD&A. The same facts exist as in example A-1, except for the following:

- The auditor has examined the company's Management's Discussion and Analysis (MD&A) for the year ended December 31, 20X5, in accordance with AT-C section 395, *Management's Discussion and Analysis*.
- The auditor has also performed reviews of the company's unaudited condensed consolidated financial statements in accordance with generally accepted auditing standards applicable to reviews of interim financial information and the company's MD&A for the three-month period ended March 31, 20X6, in accordance with AT-C section 395.
- The accountant's reports on the examination and review of MD&A have been previously issued, but not distributed publicly; none of these reports is included in the securities offering. In this example, the auditor has elected to attach the previously issued reports to the comfort letter (see paragraph .A32).

Appropriate modifications would be made to the opening paragraph of the comfort letter if the auditor has performed a review of the company's annual MD&A.

The following would be substituted for the first paragraph of example A-1.

We have audited the consolidated financial statements of The Nonissuer Company, Inc. (the company) and subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X5 and 20X4, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, the related notes to the consolidated financial statements, and the related financial statement schedules, all included in The Issuer Company's (the registrant) registration statement (no. 33-00000) on Form S-1 filed by the registrant under the Securities Act of 1933 (the Act); our reports with respect thereto are also included in that registration statement. The registration statement, as amended on June 28, 20X6, is herein referred to as the registration statement. Also, we have examined the company's Management's Discussion and Analysis (MD&A) for the year ended December 31, 20X5, included in the registration statement, as indicated in our report dated March 28, 20X6; our report with respect thereto is attached. We have also reviewed the unaudited condensed consolidated financial statements as of March 31, 20X6 and 20X5, and for the three-month periods then ended, included in the registration statement, as indicated in our report dated May 15, 20X6, and have also reviewed the company's MD&A for the three-month period ended March 31, 20X6, included in the registration statement, as indicated in our report dated May 15, 20X6; our reports with respect thereto are attached.

The following paragraph would be added after paragraph 3 of example A-1:

4. We have not examined any MD&A of the company as of or for any period subsequent to December 31, 20X5; although we have made an examination of the company's MD&A for the year ended December 31, 20X5, included in the registration statement, the purpose (and, therefore, the scope) of the examination was to enable us to express our opinion on such MD&A, but not on the MD&A for any interim period within that year. Therefore, we are unable to and do not express any opinion on the MD&A for the three-month period ended March 31, 20X6, included in the registration statement, or for any period subsequent to March 31, 20X6.

[As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129. Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

---

## AU-C Section 925

# *Filings With the U.S. Securities and Exchange Commission Under the Securities Act of 1933*

Source: SAS No. 122.

Effective for filings under the Securities Act of 1933 that include audited financial statements for periods ending on or after December 15, 2012.

## Introduction

### Scope of This Section (Ref: par. .A1)

.01 This section addresses the auditor's responsibilities in connection with financial statements of a nonissuer included or incorporated by reference in a registration statement filed with the U.S. Securities and Exchange Commission (SEC) under the Securities Act of 1933, as amended. Exhibit A, "Background," provides background information on certain liability provisions of Section 11 of the Securities Act of 1933, including Section 11(b)(3)(B).

### Effective Date

.02 This section is effective for filings under the Securities Act of 1933 that include audited financial statements for periods ending on or after December 15, 2012.

### Objective

.03 The objective of the auditor, in connection with audited financial statements of a nonissuer that are separately included or incorporated by reference in a registration statement filed under the Securities Act of 1933, is to perform specified procedures at or shortly before the effective date of the registration statement to sustain the burden of proof that the auditor has performed a reasonable investigation, as referred to in Section 11(b)(3)(B) of the Securities Act of 1933.

### Definitions

.04 For purposes of this section, the following terms have the meanings attributed as follows:

**Auditor's consent.** A statement signed and dated by the auditor that indicates that the auditor consents to the use of the auditor's report, and other references to the auditor, in a registration statement filed under the Securities Act of 1933.

**Awareness letter.** A letter signed and dated by the auditor to acknowledge the auditor's awareness that the auditor's review report on unaudited interim financial information is being used in a registration statement filed under the Securities Act of 1933. This letter is not considered to be part of the registration statement and is also commonly referred to as an *acknowledgment letter*.

**Effective date of the registration statement.** The date on which the registration statement filed under the Securities Act of 1933 becomes effective for purposes of evaluating the auditor's liability under Section 11 of the Securities Act of 1933. (Ref: par. .A2 and .A14)

.05 References to *included* or *the inclusion of* in a registration statement in this section means *included* or *incorporated by reference* in a registration statement filed under the Securities Act of 1933.

## Requirements

### Effective Date of the Registration Statement (Ref: par. .A3)

.06 Because the effective date of a registration statement filed under the Securities Act of 1933 may not necessarily coincide with the filing date, the auditor should request management to keep the auditor advised of the progress of the registration proceedings through the effective date of the registration statement.

### The Prospectus and Other Information (Ref: par. .A4–.A8)

.07 When the auditor's report on audited financial statements is included in a registration statement filed under the Securities Act of 1933, the auditor should perform the procedures described in section 720, *Other Information in Documents Containing Audited Financial Statements*, on the prospectus and pertinent portions of the registration statement (including material that is incorporated by reference).

.08 In connection with the procedures required by paragraph .07, the auditor should determine that the auditor's name is not being used in a way that indicates that the auditor's responsibility is greater than the auditor intends.

### Subsequent Events Procedures (Ref: par. .A9–.A11)

.09 When the most recent separate financial statements of the entity and related auditor's report are included in the registration statement, the auditor should perform the following procedures described in section 560, *Subsequent Events and Subsequently Discovered Facts*, at or shortly before the effective date of the registration statement:<sup>1</sup>

- a. Audit procedures designed to identify events occurring between the date of the auditor's report and the effective date of the registration statement that require adjustment to, or disclosure in, the financial statements. Such procedures, which take into account the auditor's risk assessment in determining the nature and extent of such audit procedures, should include
  - i. obtaining an understanding of any procedures that management has established to ensure that such events are identified.
  - ii. inquiring of management and, when appropriate, those charged with governance about whether any such events have occurred that might affect the financial statements.

---

<sup>1</sup> Paragraphs .09–.10 of section 560, *Subsequent Events and Subsequently Discovered Facts*.

- iii. reading minutes, if any, of the meetings of the entity's owners, management, and those charged with governance that have been held after the date of the financial statements and inquiring about matters discussed at any such meetings for which minutes are not yet available.
  - iv. reading the entity's latest subsequent interim financial statements, if any.
- b. Obtain updated written representations from management at or shortly before the effective date of the registration statement, about whether
- i. any information has come to management's attention that would cause management to believe that any of the previous representations should be modified.
  - ii. any events have occurred subsequent to the date of the financial statements that would require adjustment to, or disclosure in, those financial statements.

**.10** When the auditor has audited the most recent period for which separate audited financial statements of the entity are included in the registration statement and

- a. the entity has been acquired by another entity,
- b. the acquirer's audited financial statements included in the registration statement reflect a period that includes the date of acquisition, and
- c. the auditor is a predecessor auditor because the auditor is not the continuing auditor of the entity,

the auditor may be unable to perform all of the procedures in paragraph .09. In such circumstances, the auditor should obtain written representations from management and the successor auditor as described in section 560 at or shortly before the effective date of the registration statement.<sup>2</sup>

**.11** If a predecessor auditor audited the entity's separate financial statements for a prior period included in the registration statement but has not audited the entity's separate financial statements for the most recent audited period for which the entity's audited financial statements are included in the registration statement, then the predecessor auditor should perform the following procedures described in section 560 through a date at or shortly before the effective date of the registration statement:<sup>3</sup>

- a. Read the financial statements of the subsequent period to be presented on a comparative basis
- b. Compare the prior period financial statements that the predecessor auditor reported on with the financial statements of the subsequent period to be presented on a comparative basis
- c. Obtain written representations from management at or shortly before the effective date
- d. Obtain a representation letter from the successor auditor stating whether the successor auditor's audit revealed any matters that, in the successor auditor's opinion, might have a material effect

---

<sup>2</sup> Paragraph .19c–d of section 560.

<sup>3</sup> Paragraph .19 of section 560.

on, or require disclosure in, the financial statements reported on by the predecessor auditor

**.12** If the auditor becomes aware of subsequently discovered facts, the auditor should not provide the auditor's consent until the auditor's consideration of subsequently discovered facts, including the effect on the auditor's report on the financial statements, has been satisfactorily completed in accordance with section 560.<sup>4</sup> If management does not revise the audited financial statements in circumstances in which the auditor believes they need to be revised, then the auditor should determine whether to withhold the auditor's consent (and the awareness letter, if applicable). (Ref: par. .A11)

## Unaudited Annual Financial Statements or Unaudited Interim Financial Information

**.13** If the auditor concludes, based on known facts, that unaudited annual financial statements or unaudited interim financial information included in a registration statement filed under the Securities Act of 1933 is not in conformity with the requirements of the applicable financial reporting framework, then the auditor should request that management revise the unaudited annual financial statements or unaudited interim financial information appropriately.

**.14** If management does not revise the unaudited annual financial statements or unaudited interim financial information appropriately and

- a. the auditor has reported on a review of the unaudited annual financial statements or unaudited interim financial information,
- b. the auditor's review report is included in the registration statement, and
- c. the subsequently discovered facts are such that they would have affected the report had they been known to the auditor at the date of the report,

the auditor should perform the applicable procedures described in section 560.<sup>5</sup>

**.15** If management does not revise the unaudited annual financial statements or unaudited interim financial information appropriately and

- a. the auditor has not reported on a review of the unaudited annual financial statements or unaudited interim financial information or
- b. the auditor's review report is not included in the registration statement,

the auditor should modify the report on the audited financial statements to describe the departure from the requirements of the applicable financial reporting framework contained in the unaudited annual financial statements or unaudited interim financial information, as described in section 930, *Interim Financial Information*.<sup>6</sup>

**.16** Additionally, the auditor should determine whether to withhold the auditor's consent (and the awareness letter, if applicable). (Ref: par. .A11)

---

<sup>4</sup> Paragraphs .15–.18 of section 560.

<sup>5</sup> Paragraphs .14 and .17–.18 of section 560.

<sup>6</sup> Paragraph .35 of section 930, *Interim Financial Information*.

## Application and Other Explanatory Material

### Scope of This Section (Ref: par. .01)

.A1 This section is written from the perspective of a registration statement filed under the Securities Act of 1933. The liability provisions under the Securities Act of 1933 differ from those (Section 10[b] and Rule 10[b][5], in particular) under the Securities Exchange Act of 1934.

### Definitions

#### ***Effective Date of the Registration Statement (Ref: par. .04)***

.A2 Exhibit A describes the process commonly referred to as *shelf registration*. Exhibit A also provides additional guidance about the effective date of a registration statement, including situations in which a posteffective amendment is made or a prospectus supplement is filed.<sup>7</sup> Both of these situations may create a new effective date. Exhibit A also discusses the auditor's liability under Section 11 of the Securities Act of 1933 with regard to these situations.

#### **Effective Date of the Registration Statement (Ref: par. .06)**

.A3 Requesting management to keep the auditor advised of the progress of the registration proceedings through the effective date is important so that the auditor's consideration of events occurring after the date of the auditor's report up to the effective date, or as close thereto as reasonable and practicable, can be completed by the effective date of the registration statement. Generally, the filing date of a registration statement will precede the effective date. In addition to performing the procedures required by this section at or shortly before the effective date, the auditor may also perform some or all of the procedures in this section at or shortly before the filing date.

#### **The Prospectus and Other Information (Ref: par. .07–.08)**

.A4 The reading of the entire prospectus (including any supplemental prospectuses and documents incorporated by reference—such as forms 10-K, 10-Q, and 8-K) assists the auditor in fulfilling the auditor's statutory responsibilities to perform a reasonable investigation, as described in Section 11(c) of the Securities Act of 1933.

#### ***References to the Auditor as an Expert in Connection With a Securities Act of 1933 Registration Statement***

.A5 The requirements in paragraphs .07–.08 assist the auditor in determining that the references to the auditor in the Securities Act of 1933 registration statement are appropriate. For example, management's disclosure in the "experts" section cannot imply that the financial statements have been prepared by the auditor or that the financial statements are not the direct representations of management.

.A6 The SEC does not require an entity to include an auditor's review report on unaudited interim financial information in the registration statement unless the registration statement states that the unaudited interim financial information has been reviewed by an independent auditor. If the registration

---

<sup>7</sup> Paragraphs 8–12 of exhibit A, "Background."

statement includes the auditor's review report on interim financial information, then the requirements in paragraphs .07–.08 assist the auditor in determining that the issuer discloses the fact that an interim review report is not a report on, or a part of, the registration statement prepared or certified by the auditor, within the meaning of Section 7 and Section 11 of the Securities Act of 1933, and that the auditor's liability under Section 11 does not extend to the auditor's review report.

**.A7** The auditor is not considered an expert with respect to the auditor's review report on interim financial information and, therefore, it is important that this fact is clearly described. For example, the disclosures relating to the auditor's report on the audited financial statements may be included under a heading titled "Experts," and the disclosures in paragraph .A6 would then be included under a heading titled "Independent Auditors." Alternatively, the disclosures described in paragraph .A6 may be included under an "experts" section together with language stating the fact that an interim review report is not a report on, or a part of, the registration statement prepared or certified by the auditor, within the meaning of Section 7 and Section 11 of the Securities Act of 1933, and that the auditor's liability under Section 11 does not extend to the auditor's review report.

**.A8** Exhibit A describes the disclosures relating to the auditor's report on the audited financial statements. Exhibit B, "Illustrative Disclosures and Reports," provides an illustration of this disclosure.

### Subsequent Events Procedures (Ref: par. .09–.12)

**.A9** An example of the conditions described in paragraphs .09–.11 would be a situation in which an issuer recently acquired a nonissuer that is considered significant to the issuer based on quantitative thresholds specified in the SEC's rules and regulations. In this case, the issuer's registration statement may need to include the separate audited financial statements of the acquired nonissuer for one or more periods.

**.A10** In addition to the procedures required by paragraph .09, the auditor may consider it necessary and appropriate to inquire of, or extend previous oral or written inquiries to, the entity's legal counsel concerning litigation, claims, and assessments, as described in section 501, *Audit Evidence—Specific Considerations for Selected Items*.

**.A11** In making the determination whether to withhold the auditor's consent, the auditor may consider it appropriate to obtain legal advice. (Ref: par. .12 and .16)

### Exhibits

**.A12** Exhibit A provides detailed background guidance on the following: (Ref: par. .04)

- The liability provisions of Section 11 of the Securities Act of 1933
- The auditor's consent and awareness letter
- The effective date of the registration statement
- References to the auditor as an expert in connection with a Securities Act of 1933 registration statement
- References to the auditor as an expert in a document other than a Securities Act of 1933 registration statement

- Letters similar to a consent prepared in connection with a document that is not a Securities Act of 1933 registration statement

**.A13** Exhibit B provides illustrative disclosures and reports.

.A14

## Exhibit A—Background

*Exhibit A is intended to provide limited background information only.*

*Exhibit A is not intended to be, and does not constitute, a comprehensive or complete discussion of the liability provisions of the Securities Act of 1933, as amended. Exhibit A is not legal advice and reading it as such is inappropriate. Auditors are advised to consult with their legal counsel regarding the information provided in Exhibit A and the entire content of Section 11 of the Securities Act of 1933.*

1. When an auditor's report is included in a registration statement filed under the Securities Act of 1933, the auditor's responsibility, generally, is in substance no different from that involved in other types of reporting. However, the nature and extent of this responsibility are specified in some detail in the applicable statutes and the related rules and regulations.

### Liability Provisions of Section 11 of the Securities Act of 1933

2. Liability under the Securities Act of 1933 is defined in several sections of that act. One important section for auditors is Section 11.

3. Section 11(a) imposes civil liability on a number of parties that are involved in a registration statement filed under the Securities Act of 1933. One of the parties specifically mentioned in Section 11(a) is an auditor who has consented to the use of the auditor's report on audited financial statements in connection with a registration statement filed under the Securities Act of 1933 (Section 11[a][4]).

4. Section 11(b)(3)(B) of the Securities Act of 1933 provides that the auditor is not liable under Section 11(a) if the auditor

sustain[s] the burden of proof . . . that . . . as regards any part of the registration statement purporting to be made upon his authority as an expert or purporting to be a copy of or extract from a report or valuation of himself as an expert, (i) he had, after reasonable investigation, reasonable ground to believe and did believe, at the time such part of the registration statement became effective, that the statements therein were true and that there was no omission to state a material fact required to be stated therein or necessary to make the statements therein not misleading, or (ii) such part of the registration statement did not fairly represent his statement as an expert or was not a fair copy of or extract from his report or valuation as an expert.

5. Section 11(c) of the Securities Act of 1933 indicates that for the purpose of determining what constitutes reasonable investigation and reasonable ground to believe, "the standard of reasonableness shall be that required of a prudent man in the management of his own property."

### Auditor's Consent and Awareness Letter

6. Section 7 of the Securities Act of 1933 requires an issuer to provide the consent of any auditor whose report on audited financial statements is included in a Securities Act of 1933 registration statement. The issuer's responsibility to file the auditor's consent is further discussed in Rule 436 of the Securities Act of 1933.

7. Rule 436(c) of the Securities Act of 1933 indicates that an auditor's report based on a review of interim financial information is not a report within the meaning of Section 11. Thus, the auditor does not have a similar statutory responsibility for such reports as of the effective date of the registration statement. Accordingly, the auditor's consent would not refer to the auditor's report on interim financial statements. However, the issuer is required to file an awareness letter from an auditor if the auditor's review report on interim financial information is included in a registration statement filed under the Securities Act of 1933.

## Effective Date of the Registration Statement

8. The information in a registration statement filed under the Securities Act of 1933 is evaluated as of its effective date. Accordingly, the auditor who has consented to the inclusion of the auditor's report on audited financial statements in such a registration statement has a statutory responsibility that is determined in light of the circumstances on that date. The effective date for purposes of evaluating liability under Section 11 may be different for different parties. For instance, the effective date for determining liability under Section 11 for the issuer or for an underwriter may be later than the effective date for determining Section 11 liability for the auditor.

9. Certain Securities Act of 1933 rules and forms (for example, Rule 415 and Form S-3) permit issuers to register offerings of securities to be offered and sold on a delayed or continuous basis. This process is commonly referred to as *shelf registration*.

10. The prospectus included in a shelf registration statement at the time it becomes effective is commonly referred to as a *base prospectus*. Many issuers follow a "bare bones" approach to preparing the base prospectus by relying entirely on the documents incorporated by reference (for example, forms 10-K, 10-Q, and 8-K) to provide most, if not all, of the issuer-related disclosures. The base prospectus also generally omits information relating to the specific amount of each security to be offered and pricing information. That information is typically provided through a prospectus supplement filed pursuant to Rule 424(b) of the Securities Act of 1933 at the time the securities are sold (commonly referred to as *taken off the shelf* or a *shelf takedown*).

11. At the time of filing a shelf registration statement, the issuer undertakes to update the prospectus for a number of items. The issuer's undertakings are set forth in Item 512 of Regulation S-K. Information omitted from the base prospectus, as well as the information that the issuer has undertaken to provide at a later date, may be conveyed to investors

- by a posteffective amendment to the registration statement,
- by a prospectus supplement filed pursuant to Rule 424(b) of the Securities Act of 1933, or
- through the incorporation by reference of the information from a report filed under the Securities Exchange Act of 1934 (for example, Form 10-K or Form 8-K).

12. As previously discussed, liability under Section 11 of the Securities Act of 1933 is assessed based on the information included in the registration statement as of its effective date. As also previously noted, the effective date for purposes of evaluating liability under Section 11 as it relates to the auditor may differ from the effective date as it relates to other parties (for example, the issuer or any underwriters). From the auditor's perspective, the effective date

in connection with a Securities Act of 1933 registration statement is the latest of the following:

- The date the original registration statement (for example, on Form S-3) becomes effective
- The effective date of any posteffective amendment
- The filing date of a prospectus supplement if the filing of the prospectus supplement creates a new effective date for the auditor (for example, the prospectus supplement may contain new or revised audited financial statements or other information about which the auditor is an expert and for which a new consent is required, as described in Rule 430B[f][3] of the Securities Act of 1933)
- The filing date of any report (for example, under the Securities Exchange Act of 1934) that includes or amends audited financial statements and is incorporated by reference into the already effective registration statement

For example, assume an issuer with an already effective shelf registration statement on Form S-3 acquires a private company, and the issuer is required to file the acquired company's audited financial statements pursuant to the requirements of Form 8-K. In this case, the issuer will be required to file an auditor's consent from the acquired company's auditor as an exhibit to Form 8-K. The guidance in this section is applicable to the acquired company's auditor in connection with providing the auditor's consent to the issuer.

### **References to the Auditor as an Expert in Connection With a Securities Act of 1933 Registration Statement**

13. Although not required, most Securities Act of 1933 registration statements relating to underwritten offerings contain a section titled "Experts." This section can be defined as management's disclosure in a Securities Act of 1933 registration statement that states that audited financial statements are included in the registration statement in reliance upon the auditor's report on the audited financial statements. The "experts" section also typically indicates that the auditor's report on the audited financial statements has been given on the auditor's authority as an expert in accounting and auditing.

14. Exhibit B, "Illustrative Disclosures and Reports," provides an example of a typical "experts" section.

15. As with all sections of the registration statement, the disclosures in the "experts" section are the issuer's responsibility. However, Rule 436(b) of the Securities Act of 1933 requires the issuer to file an auditor's consent to being named as an expert.

### **References to the Auditor as an Expert in a Document Other Than a Securities Act of 1933 Registration Statement**

16. The term *expert* has a specific statutory meaning under the Securities Act of 1933. Outside the Securities Act of 1933 context, the term *expert* is typically undefined. Accordingly, except as described in paragraph 18 of this exhibit, when an issuer wishes to make reference to the auditor's role in an offering document in connection with a securities offering that is not registered under the Securities Act of 1933, the caption to that section of the document would generally be titled "Independent Auditors" (or something similar) rather than "Experts," with no reference to the auditor as an expert anywhere in the document.

17. Exhibit B provides an example of a typical description of the auditor's role when an issuer wishes to make reference to the auditor in an offering document in connection with a securities offering that is not registered under the Securities Act of 1933.

18. There may be situations in which the term *expert* is sufficiently defined such that the auditor may agree to be referred to as an expert outside the context of a registration statement filed under the Securities Act of 1933. For example, if the term *expert* is defined under applicable state law, the auditor may agree to be named as an expert in an offering document in an intrastate securities offering. The auditor may also agree to be named as an expert, as that term is used by the Office of Thrift Supervision (OTS), in securities offering documents that are subject to the jurisdiction of the OTS. An understanding of any auditor liability provisions that may be included in the applicable federal or state statutes is an important consideration.

### **Letters Similar to Consents Prepared in Connection With a Document That Is Not a Securities Act of 1933 Registration Statement**

19. When an auditor's report is used in connection with an offering transaction that is not registered under the Securities Act of 1933, it is not usually necessary for the auditor to provide any type of written consent. If the auditor is asked to provide a written consent for use in connection with a document other than a Securities Act of 1933 registration statement, then the auditor may provide a letter indicating that the auditor agrees to the inclusion of the auditor's report on the audited financial statements in the offering materials. This letter would typically not be included in the offering materials.

20. Exhibit B provides an example of language the auditor might use to indicate that the auditor agrees to the inclusion of the auditor's report on the audited financial statements in the offering materials when the auditor's report is used in connection with an offering transaction that is not registered under the Securities Act of 1933.

.A15

## Exhibit B—Illustrative Disclosures and Reports

The following is an example of a typical "experts" section in a registration statement filed under the Securities Act of 1933:

### Experts

The consolidated balance sheets of Company X as of December 31, 20X2 and 20X1, and the related consolidated statements of income and comprehensive income, changes in stockholders' equity, and cash flows for each of the three years in the period ended December 31, 20X2, included in this prospectus, have been so included in reliance on the report of ABC & Co, independent auditors, given on the authority of that firm as experts in auditing and accounting.

The following is an example of a disclosure for a registration statement filed under the Securities Act of 1933 that includes the auditor's review report on unaudited interim financial information when such disclosure is included in a separate section. This disclosure may also be included under a section titled "Experts":

### Independent Auditors

With respect to the unaudited interim financial information of Company X for the three-month periods ended March 31, 20X3 and 20X2, included in this prospectus, ABC & Co. has reported that they have applied limited procedures in accordance with professional standards for a review of such information. However, their separate report dated May XX, 20X3, included herein, states that they did not audit and they do not express an opinion on that interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. ABC & Co. is not subject to the liability provisions of section 11 of the Securities Act of 1933 for their report on the unaudited interim financial information because that report is not a "report" or a "part" of the registration statement prepared or certified by the accountants within the meaning of Sections 7 and 11 of the Act.

The following is an example of a typical description of the auditor's role when an issuer wishes to make reference to the auditor in an offering document prepared in connection with a securities offering that is not registered under the Securities Act of 1933:

### Independent Auditors

The financial statements of Company X as of December 31, 20X2 and for the year then ended, included in this offering circular, have been audited by ABC & Co., independent auditors, as stated in their report appearing herein.

Although generally not necessary, the following is an example of language the auditor might use indicating that the auditor agrees to the inclusion of the auditor's report on the audited financial statements in offering materials prepared in connection with a securities offering that is not registered under the Securities Act of 1933:

We agree to the inclusion in the offering circular of our report, dated February 5, 20X3, on our audit of the financial statements of Company X.

---

## AU-C Section 930

### *Interim Financial Information*

Source: SAS No. 122.

Effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2012.

#### NOTE

In February 2017 the Auditing Standards Board issued SAS No. 132, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern* (sec. 570), which contains amendments to this section.

The amendments are effective for audits of financial statements for periods ending on or after December 15, 2017, and can be viewed in the appendix of section 570.

## Introduction

### Scope of This Section

.01 This section addresses the auditor's responsibilities when engaged to review interim financial information under the conditions specified in this section. The term *auditor* is used throughout this section, not because the auditor is performing an audit but because the scope of this section is limited to a review of interim financial information performed by an auditor of the financial statements of the entity.

.02 This section applies to a review of interim financial information when

- a. the entity's latest annual financial statements have been audited by the auditor or a predecessor auditor;
- b. the auditor either
  - i. has been engaged to audit the entity's current year financial statements or
  - ii. audited the entity's latest annual financial statements, and in situations in which it is expected that the current year financial statements will be audited, the engagement of another auditor to audit the current year financial statements is not effective prior to the beginning of the period covered by the review; (Ref: par. .A1)
- c. the entity prepares its interim financial information in accordance with the same financial reporting framework as that used to prepare the annual financial statements; and
- d. all of the following conditions are met if the interim financial information is condensed:
  - i. The condensed interim financial information purports to be prepared in accordance with an appropriate financial reporting framework, which includes appropriate form and content of interim financial information. (Ref: par. .A2)

- ii. The condensed interim financial information includes a note that the financial information does not represent complete financial statements and is to be read in conjunction with the entity's latest audited annual financial statements.
- iii. The condensed interim financial information accompanies the entity's latest audited annual financial statements, or such audited annual financial statements are made readily available by the entity. (Ref: par. .A3)

Statements on Standards for Accounting and Review Services provide guidance for review engagements for which this section is not applicable.

**.03** An auditor may find this section, adapted as necessary in the circumstances, useful when that auditor has not been engaged to perform a review of interim financial information but has nonetheless decided to perform review procedures on such financial information (for example, in connection with the inclusion of the auditor's report on the annual financial statements in an unregistered securities offering document).

## Effective Date

**.04** This section is effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2012.

## Objective

**.05** The objective of the auditor when performing an engagement to review interim financial information is to obtain a basis for reporting whether the auditor is aware of any material modifications that should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework through performing limited procedures. (Ref: par. .A4–.A5)

## Definition

**.06** For purposes of this section, the following term has the meaning attributed as follows:

**Interim financial information.** Financial information prepared and presented in accordance with an applicable financial reporting framework that comprises either a complete or condensed set of financial statements covering a period or periods less than one full year or covering a 12-month period ending on a date other than the entity's fiscal year end.

## Requirements

### Acceptance

**.07** Before accepting an engagement to review an entity's interim financial information for a new client, the auditor should follow the procedures for initial engagements required by section 210, *Terms of Engagement*.<sup>1</sup>

**.08** Before accepting an engagement to perform a review of interim financial information, the auditor should

---

<sup>1</sup> Paragraphs .11–.12 of section 210, *Terms of Engagement*.

- a. determine whether the financial reporting framework to be applied in the preparation of the interim financial information is acceptable and
- b. obtain the agreement of management that it acknowledges and understands its responsibility
  - i. for the preparation and fair presentation of the interim financial information in accordance with the applicable financial reporting framework;
  - ii. for the design, implementation, and maintenance of internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with the applicable financial reporting framework;
  - iii. to provide the auditor with
    - (1) access to all information of which management is aware that is relevant to the preparation and fair presentation of the interim financial information, such as records, documentation, and other matters;
    - (2) additional information that the auditor may request from management for the purpose of the review; and
    - (3) unrestricted access to persons within the entity of whom the auditor determines it necessary to make inquiries;<sup>2</sup> and
  - iv. to include the auditor's review report in any document containing interim financial information that indicates that such information has been reviewed by the entity's auditor.

**.09** The auditor should not accept an engagement to review interim financial information if

- a. the auditor has determined that the financial reporting framework to be applied in the preparation of the interim financial information is unacceptable.
- b. the agreement referred to in paragraph .08b has not been obtained.

### **Agreement on Engagement Terms**

**.10** The auditor should agree upon the terms of the engagement with management or those charged with governance, as appropriate. The agreed-upon terms of the engagement should be recorded in an engagement letter or other suitable form of written agreement and should include the following: (Ref: par. .A6)

- a. The objectives and scope of the engagement
- b. The responsibilities of management set forth in paragraph .08b
- c. The responsibilities of the auditor
- d. The limitations of a review engagement

---

<sup>2</sup> Paragraph .06 of section 210.

- e. Identification of the applicable financial reporting framework for the preparation of the interim financial information

## Procedures for a Review of Interim Financial Information

### *Understanding the Entity and Its Environment, Including Its Internal Control*

.11 To plan and conduct the engagement, the auditor should have an understanding of the entity and its environment, including its internal control as it relates to the preparation and fair presentation of both annual and interim financial information, sufficient to be able to

- a. identify the types of potential material misstatements in the interim financial information and consider the likelihood of their occurrence.
- b. select the inquiries and analytical procedures that will provide the auditor with a basis for reporting whether the auditor is aware of any material modifications that should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework.

.12 To update or, in the case of an auditor who has not yet performed an audit of the entity's annual financial statements, obtain the understanding required by paragraph .11, the auditor should perform the following procedures: (Ref: par. .A7–.A8)

- a. Read available documentation of the preceding year's audit and of reviews of the prior interim period(s) of the current year and the corresponding interim period(s) of the prior year to the extent necessary, based on the auditor's judgment, to enable the auditor to identify matters that may affect the current period interim financial information. (Ref: par. .A9–.A10) In reading such documents, the auditor should specifically consider the nature of any
  - i. corrected material misstatements;
  - ii. matters identified in any summary of uncorrected misstatements;
  - iii. identified risks of material misstatement due to fraud, including the risk of management override of controls; and
  - iv. significant financial accounting and reporting matters that may be of continuing significance, such as significant deficiencies and material weaknesses.
- b. Read the most recent annual and comparable prior interim period financial information.
- c. Consider the results of any audit procedures performed with respect to the current year's financial statements.
- d. Inquire of management about changes in the entity's business activities.
- e. Inquire of management about the identity of, and nature of transactions with, related parties.
- f. Inquire of management about whether significant changes in internal control, as it relates to the preparation and fair presentation of interim financial information, have occurred subsequent to the preceding annual audit or prior review of interim financial information, including changes in the entity's policies, procedures, and personnel, as well as the nature and extent of such changes.

**Analytical Procedures, Inquiries, and Other Review Procedures***Analytical Procedures*

**.13** The auditor should apply analytical procedures to the interim financial information to identify and provide a basis for inquiry about the relationships and individual items that appear to be unusual and that may indicate a material misstatement. Such analytical procedures should include the following: (Ref: par. .A11–.A13)

- a. Comparing the interim financial information with comparable information for the immediately preceding interim period, if applicable, and with the corresponding period(s) in the previous year, giving consideration to knowledge about changes in the entity's business and specific transactions
- b. Considering plausible relationships among both financial and, when relevant, nonfinancial information (Ref: par. .A14)
- c. Comparing recorded amounts or ratios developed from recorded amounts to expectations developed by the auditor through identifying and using relationships that are reasonably expected to exist, based on the auditor's understanding of the entity and the industry in which the entity operates
- d. Comparing disaggregated revenue data (Ref: par. .A15)

*Inquiries and Other Review Procedures*

**.14** The auditor should make the following inquiries and perform the following other review procedures when conducting a review of interim financial information:

- a. Read the available minutes of meetings of stockholders, directors, and appropriate committees and inquire about matters dealt with at meetings for which minutes are not available to identify matters that may affect the interim financial information. (Ref: par. .A16)
- b. Obtain reports from component auditors, if any, related to reviews performed of the interim financial information of significant components of the reporting entity, including its investees, or inquire of those auditors if reports have not been issued. (Ref: par. .A17)
- c. Inquire of management about
  - i. whether the interim financial information has been prepared and fairly presented in accordance with the applicable financial reporting framework consistently applied.
  - ii. unusual or complex situations that may have an effect on the interim financial information. (Ref: par. .A18)
  - iii. significant transactions occurring or recognized in the interim period, particularly those in the last several days of the interim period.
  - iv. the status of uncorrected misstatements identified during the previous audit and interim review (that is, whether adjustments had been recorded subsequent to the periods covered by the prior audit or interim review and, if so, the amounts recorded and period in which such adjustments were recorded).
  - v. matters about which questions have arisen in the course of applying the review procedures.

- vi. events subsequent to the date of the interim financial information that could have a material effect on the fair presentation of such information.
  - vii. its knowledge of any fraud or suspected fraud affecting the entity involving (1) management, (2) employees who have significant roles in internal control, or (3) others when the fraud could have a material effect on the financial information.
  - viii. whether management is aware of allegations of fraud or suspected fraud affecting the entity communicated by employees, former employees, regulators, or others.
  - ix. significant journal entries and other adjustments.
  - x. communications from regulatory agencies.
  - xi. significant deficiencies and material weaknesses in the design or operation of internal control as it relates to the preparation and fair presentation of both annual and interim financial information.
  - xii. changes in related parties or significant new related party transactions.
- d. Obtain evidence that the interim financial information agrees or reconciles with the accounting records. In addition, the auditor should inquire of management about the reliability of the records to which the interim financial information was compared or reconciled. (Ref: par. .A19)
- e. Read the interim financial information to consider whether, based on the results of the review procedures performed and other information that has come to the auditor's attention, the information to be reported is in accordance with the applicable financial reporting framework.
- f. Read other information in documents containing the interim financial information to consider whether such information or the manner of its presentation is materially inconsistent with the interim financial information. If the auditor concludes that a material inconsistency exists or becomes aware of information that the auditor believes is a material misstatement of fact, the auditor should take action based on the auditor's professional judgment. (Ref: par. .A20–.A21)

#### *Inquiry Concerning Litigation, Claims, and Assessments*

**.15** If information comes to the auditor's attention regarding litigation, claims, or assessments that leads the auditor to question whether the interim financial information has been prepared, in all material respects, in accordance with the applicable financial reporting framework, and the auditor believes that the entity's internal or external legal counsel may have relevant information, the auditor should inquire of such legal counsel concerning litigation, claims, and assessments. (Ref: par. .A22)

#### *Inquiry Concerning an Entity's Ability to Continue as a Going Concern*

**.16** If (a) conditions or events that may indicate substantial doubt about an entity's ability to continue as a going concern existed at the date of prior period financial statements, regardless of whether the substantial doubt was alleviated by the auditor's consideration of management's plans, or (b) in the course of performing review procedures on the current period interim financial information, the auditor becomes aware of conditions or events that might be

indicative of the entity's possible inability to continue as a going concern, the auditor should

- a. inquire of management about its plans for dealing with the adverse effects of the conditions and events, and (Ref: par. .A23)
- b. consider the adequacy of the disclosure about such matters in the interim financial information. (Ref: par. .A24)

#### *Consideration of Management's Responses and Extension of Interim Review Procedures*

**.17** The auditor should consider the reasonableness and consistency of management's responses in light of the results of other review procedures and the auditor's knowledge of the entity's business and its internal control. However, the auditor is not required to corroborate management's responses with other evidence.

**.18** When a matter comes to the auditor's attention that leads the auditor to question whether the interim financial information has been prepared in accordance with the applicable financial reporting framework in all material respects, the auditor should make additional inquiries of management or others or perform other procedures to provide a basis for reporting whether the auditor is aware of any material modifications that should be made to the interim financial information. (Ref: par. .A25)

### **Evaluating the Results of Interim Review Procedures**

**.19** The auditor should accumulate misstatements, including inadequate disclosure, identified by the auditor in performing the review procedures or brought to the auditor's attention during the performance of the review. (Ref: par. .A26)

**.20** The auditor should evaluate, individually and in the aggregate, misstatements, including inadequate disclosure, accumulated in accordance with paragraph .19 to determine whether material modification should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework. (Ref: par. .A27–.A28)

### **Written Representations From Management**

**.21** For all interim financial information presented and for all periods covered by the review, the auditor should request management to provide written representations, as of the date of the auditor's review report (Ref: par. .A29–.A30)

- a. that management has fulfilled its responsibility for the preparation and fair presentation of the interim financial information, in accordance with the applicable financial reporting framework, as set out in the terms of the engagement.
- b. that management acknowledges its responsibility for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of interim financial statements, including its responsibility to prevent and detect fraud.
- c. that management has disclosed to the auditor all significant deficiencies and material weaknesses in the design or operation of internal control of which management is aware as it relates to the preparation and fair presentation of both annual and interim financial information.

- d.* that management has provided the auditor with all relevant information and access, as agreed upon in the terms of the engagement.
- e.* that all transactions have been recorded and are reflected in the interim financial information.
- f.* that management has disclosed to the auditor the results of its assessment of the risk that the interim financial information may be materially misstated as a result of fraud.
- g.* that management has disclosed to the auditor its knowledge of fraud or suspected fraud affecting the entity involving
  - i.* management,
  - ii.* employees who have significant roles in internal control, or
  - iii.* others when the fraud could have a material effect on the interim financial information.
- h.* that management has disclosed to the auditor its knowledge of any allegations of fraud or suspected fraud affecting the entity's interim financial information communicated by employees, former employees, regulators, or others.
- i.* that management has disclosed to the auditor all known instances of noncompliance or suspected noncompliance with laws and regulations whose effects should be considered when preparing interim financial information.
- j.* about whether management believes that the effects of uncorrected misstatements are immaterial, individually and in the aggregate, to the interim financial information as a whole. A summary of such items should be included in, or attached to, the written representation. (Ref: par. .A31)
- k.* that management has disclosed to the auditor all known actual or possible litigation and claims whose effects should be considered when preparing the interim financial information, and it has appropriately accounted for and disclosed such litigation and claims in accordance with the applicable financial reporting framework.
- l.* about whether management believes that significant assumptions used by it in making accounting estimates are reasonable.
- m.* that management has disclosed to the auditor the identity of the entity's related parties and all the related party relationships and transactions of which it is aware, and it has appropriately accounted for and disclosed such relationships and transactions.
- n.* that all events occurring subsequent to the date of the interim financial information and for which the applicable financial reporting framework requires adjustment or disclosure have been adjusted or disclosed.

**.22** If the auditor has concerns about the reliability of the representations or if management does not provide the requested written representations, the auditor should take appropriate action. When management does not provide the written representations described in paragraph .21*a–e*, the auditor should withdraw from the engagement to review the interim financial information. (Ref: par. .A32)

## Communications With Management and Those Charged With Governance

### *Matters Affecting the Completion of the Review*

**.23** If the auditor cannot complete the review, the auditor should communicate to the appropriate level of management and those charged with governance

- a. the reason why the review cannot be completed;
- b. that an incomplete review does not provide a basis for reporting and, accordingly, that the auditor is precluded from issuing a review report; and
- c. any material modifications of which the auditor has become aware that should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework, in accordance with paragraphs .24–.26. (Ref: par. .A33)

**.24** The auditor should communicate to the appropriate level of management, as soon as practicable, matters that come to the auditor's attention during the conduct of the review that cause the auditor to believe that

- a. material modification should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework, or
- b. the entity issued the interim financial information before the completion of the review.

**.25** If, in the auditor's judgment, management does not respond appropriately to the auditor's communication within a reasonable period of time, the auditor should inform those charged with governance of the matters as soon as practicable.

**.26** If, in the auditor's judgment, those charged with governance do not respond appropriately to the auditor's communication within a reasonable period of time, the auditor should consider whether to withdraw (a) from the engagement to review the interim financial information and (b) if applicable, from serving as the entity's auditor. (Ref: par. .A34)

### *Other Matters*

**.27** If the auditor becomes aware that fraud may have occurred, the auditor should communicate the matter as soon as practicable to the appropriate level of management. If the fraud involves senior management or results in a material misstatement of the interim financial information, the auditor should communicate the matter directly to those charged with governance. If the auditor becomes aware of matters involving identified or suspected noncompliance with laws and regulations whose effects should be considered when preparing interim financial information, the auditor should communicate the matters to those charged with governance, other than when the matters are clearly inconsequential.

**.28** The auditor should communicate relevant matters of governance interest arising from the review of interim financial information to those charged with governance, including the following:

- a. Significant deficiencies or material weaknesses in internal control as it relates to the preparation and fair presentation of annual and interim financial information (Ref: par. .A35)
- b. Any of the matters described in section 260, *The Auditor's Communication With Those Charged With Governance*, that have been

identified, as they relate to the interim financial information (Ref: par. .A36–.A38)

## The Auditor's Report on a Review of Interim Financial Information

### *Form of the Auditor's Review Report*

.29 The auditor's review report should be in writing. (Ref: par. .A39)

.30 The written review report should include the following: (Ref: par. .A40–.A41)

- a. A title that includes the word *independent* to clearly indicate that it is the report of an independent auditor.
- b. An addressee as appropriate for the circumstances of the engagement.
- c. An introductory paragraph that
  - i. identifies the entity whose interim financial information has been reviewed,
  - ii. states that the interim financial information identified in the report was reviewed,
  - iii. identifies the interim financial information, and
  - iv. specifies the date or period covered by each financial statement comprising the interim financial information.
- d. A section with the heading "Management's Responsibility for the Financial Statements" that includes an explanation that management is responsible for the preparation and fair presentation of the interim financial information in accordance with the applicable financial reporting framework; this responsibility includes the design, implementation, and maintenance of internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with the applicable financial reporting framework.
- e. A section with the heading "Auditor's Responsibility" that includes the following statements:
  - i. The auditor's responsibility is to conduct the review of interim financial information in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information.
  - ii. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters.
  - iii. A review of interim financial information is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is an expression of an opinion regarding the financial information as a whole, and accordingly, no such opinion is expressed.
- f. A concluding section with an appropriate heading that includes a statement about whether the auditor is aware of any material modifications that should be made to the accompanying interim financial information for it to be in accordance with the applicable

financial reporting framework and that identifies the country of origin of those accounting principles, if applicable.

- g. The manual or printed signature of the auditor's firm.
- h. The city and state where the auditor practices.
- i. The date of the review report, which should be dated as of the date of completion of the review procedures.

**.31** The auditor should determine that management has clearly marked as unaudited each page of the interim financial information accompanying the review report.

### ***Comparative Interim Financial Information That Has Not Been Reviewed Presented With Reviewed Interim Financial Information***

**.32** If an auditor is engaged to perform a review of the most recent interim period in accordance with this section, and such financial information will be presented in comparative form with interim financial information of a prior period that has not been reviewed, such interim financial information should be accompanied by an indication in the auditor's review report that the auditor has not reviewed the prior period interim financial information and that the auditor assumes no responsibility for it. (Ref: par. .A42)

### ***Interim Financial Information Presented With Condensed Balance Sheet Information for the Most Recent Year End***

**.33** When a condensed balance sheet derived from audited financial statements is presented on a comparative basis with the interim financial information, the auditor should report on the condensed balance sheet only when the auditor audited the financial statements from which the condensed balance sheet was derived. The auditor should compare the condensed balance sheet with the related information in the audited financial statements to determine whether the condensed balance sheet agrees with, or can be recalculated from, the related information in the audited financial statements. The auditor's report on the interim financial information should include a paragraph addressing the condensed balance sheet that

- a. identifies the condensed balance sheet on which the auditor is reporting.
- b. identifies the audited financial statements from which the condensed balance sheet was derived and indicates that such financial statements are not separately presented.
- c. refers to the auditor's report on the audited financial statements, the date of that report, and the type of opinion expressed and, if the opinion is modified, the basis for the modification.
- d. describes the nature of any emphasis-of-matter paragraph or other-matter paragraph included in the auditor's report.
- e. includes an opinion about whether the condensed balance sheet is consistent, in all material respects, in relation to the audited financial statements from which it has been derived. (Ref: par. .A43)

### ***Modification of the Auditor's Review Report***

**.34** When the interim financial information has not been prepared in accordance with the applicable financial reporting framework in all material respects, the auditor should consider whether modification of the auditor's review

report on the interim financial information is sufficient to address the departure from the applicable financial reporting framework. (Ref: par. .A44–.A47)

**.35** If the auditor concludes that modification of the standard review report is sufficient to address the departure, the auditor should modify the review report. The modification should describe the nature of the departure and, if practicable, should state the effects on the interim financial information. If the departure is due to inadequate disclosure, the auditor should, if practicable, include the information in the report that the auditor believes is necessary for adequate disclosure in accordance with the applicable financial reporting framework. (Ref: par. .A48)

**.36** If the auditor believes that modification of the review report is not sufficient to address the deficiencies in the interim financial information, the auditor should withdraw from the review engagement and provide no further services with respect to such interim financial information.

## Subsequent Discovery of Facts Existing at the Date of the Auditor's Review Report

**.37** If, subsequent to the date of the auditor's review report, the auditor becomes aware that facts existed at the date of the review report that might have affected the auditor's review report had the auditor then been aware of those matters, the auditor should apply the requirements and guidance, adapted as necessary, in section 560, *Subsequent Events and Subsequently Discovered Facts*.

## Other Considerations

**.38** If management does not include the auditor's review report in a report, document, or written communication containing the reviewed interim financial information that indicates that such information has been reviewed by the entity's auditor, despite having agreed in the terms of the engagement to do so, the auditor should perform the following procedures:

- Request that management amend the report, document, or written communication to include the auditor's review report and reissue the report, document, or written communication
- If management does not comply with the request to amend and reissue the report, document, or written communication, request that the auditor's name not be associated with the interim financial information or referred to in the report, document, or written communication because the auditor will not permit either the use of the auditor's name or reference to the auditor unless the auditor's review report is included with the reviewed interim financial information in these circumstances
- Communicate management's noncompliance with the requests to those charged with governance
- When appropriate, recommend that the entity consult with its legal counsel about the application of relevant laws and regulations to the circumstances
- Consider what other actions might be appropriate (Ref: par. .A49)

**.39** If the auditor has issued a modified review report due to a departure from the applicable financial reporting framework, and management issues the

interim financial information without including the review report in the document containing the interim financial information, the auditor should determine the appropriate course of action in the circumstances, including whether to withdraw from the engagement to audit the annual financial statements.

## Interim Financial Information Accompanying Audited Financial Statements

**.40** The auditor should include an other-matter paragraph in the auditor's report on the audited financial statements when all the following conditions exist:

- a. The interim financial information that has been reviewed in accordance with this section is included in a document containing audited financial statements.
- b. The interim financial information accompanying audited financial statements does not appear to be presented in accordance with the applicable financial reporting framework.
- c. The auditor's separate review report, which refers to the departure from the applicable financial reporting framework, is not presented with the interim financial information.

**.41** The auditor is required by section 700, *Forming an Opinion and Reporting on Financial Statements*, to address in the auditor's report on the audited financial statements information that is not required by the applicable financial reporting framework but is nevertheless presented as part of the basic financial statements if it cannot be clearly differentiated.<sup>3</sup> When the interim financial information included in a note to the financial statements, including information that has been reviewed in accordance with this section, is not appropriately marked as unaudited, the auditor should, in the auditor's report on the audited financial statements, disclaim an opinion on the interim financial information. (Ref: par. .A50–.A51)

## Documentation

**.42** The auditor should prepare documentation in connection with a review of interim financial information that will enable an experienced auditor, having no previous connection to the review, to understand

- a. the nature, timing, and extent of the review procedures performed;
- b. the results of the review procedures performed and the evidence obtained; and
- c. significant findings or issues arising during the review, the conclusions reached thereon, and significant professional judgments made in reaching those conclusions.

**.43** The documentation should include the communications required by this section, whether written or oral. (Ref: par. .A52–.A53)

---

<sup>3</sup> Paragraph .58 of section 700A, *Forming an Opinion and Reporting on Financial Statements*.

## Application and Other Explanatory Material

### Scope of This Section (Ref: par. .02)

**.A1** The ability to apply this section even when the auditor does not expect to be engaged to audit the current year financial statements provides for appropriate transitions between the predecessor auditor and the auditor of the current year financial statements.

**.A2** Appropriate financial reporting frameworks for condensed interim financial information may include, for example, Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 270, *Interim Reporting*, and Article 10 of Securities and Exchange Commission (SEC) Regulation S-X, with respect to accounting principles generally accepted in the United States of America, or International Accounting Standard 34, *Interim Financial Reporting*, with respect to International Financial Reporting Standards issued by the International Accounting Standards Board. FASB ASC 270 outlines the application of U.S. generally accepted accounting principles (GAAP) to the determination of income when interim financial information is presented, provides for the use of estimated effective income tax rates, and specifies certain disclosure requirements for condensed interim financial information issued by public companies and may be adapted by nonissuers as a fair presentation framework for condensed interim financial information. In addition to FASB ASC 270, other FASB ASC topics also include disclosure requirements for interim financial information.

### The Meaning of Readily Available (Ref: par. .02d(iii))

**.A3** Audited financial statements are deemed to be readily available if a third-party user can obtain the financial statements without any further action by the entity (for example, financial statements on an entity's website may be considered readily available, but being available upon request is not considered readily available).

### Objective (Ref: par. .05)

**.A4** The objective of a review of interim financial information differs significantly from that of an audit conducted in accordance with auditing standards generally accepted in the United States of America. A review of interim financial information does not provide a basis for expressing an opinion about whether the interim financial information is presented fairly, in all material respects, in accordance with the applicable financial reporting framework.

**.A5** A review, in contrast to an audit, is not designed to provide the auditor with a basis for obtaining reasonable assurance that the interim financial information is free from material misstatement. A review consists principally of performing analytical procedures and making inquiries of persons responsible for financial and accounting matters and does not contemplate (a) tests of accounting records through inspection, observation, or confirmation; (b) tests of controls to evaluate their effectiveness; (c) the obtainment of corroborating evidence in response to inquiries; or (d) the performance of certain other procedures ordinarily performed in an audit. A review may bring to the auditor's attention significant findings or issues affecting the interim financial information, but it does not provide assurance that the auditor will become aware of all significant findings or issues that would be identified in an audit.

## Acceptance

### **Agreement on Engagement Terms (Ref: par. .10)**

.A6 The engagement letter or other suitable form of written agreement documenting the agreed-upon terms of the engagement with the entity regarding a review of interim financial information may use the following wording to include the information necessary to meet the requirements of paragraph .10:

#### *Objectives and scope of the engagement*

- The objective of a review of interim financial information is to provide the auditor with a basis for reporting whether the auditor is aware of any material modifications that should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework.
- A review includes obtaining sufficient knowledge of the entity's business and internal control, as it relates to the preparation and fair presentation of both annual and interim financial information, to enable the auditor to
  - identify the types of potential material misstatements in the interim financial information and consider the likelihood of their occurrence.
  - select the inquiries and analytical procedures that will provide the auditor with a basis for reporting whether the auditor is aware of any material modifications that should be made to the interim financial information for it to conform with the applicable financial reporting framework.

#### *Management's responsibilities*

- Management is responsible for the following:
  - Preparing and presenting the interim financial information in accordance with the applicable financial reporting framework.
  - Designing, implementing, and maintaining internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with the applicable financial reporting framework.
  - Providing the auditor with (a) access to all information of which management is aware that is relevant to the preparation and fair presentation of the interim financial information, such as records, documentation, and other matters; (b) additional information that the auditor may request from management for the purpose of the review; and (c) unrestricted access to persons within the entity of whom the auditor determines it necessary to make inquiries.
  - Including the auditor's review report in any document containing interim financial information that indicates that such information has been reviewed by the entity's auditor.
  - Identifying and ensuring that the entity complies with the laws and regulations applicable to its activities.

- Providing the auditor, at the conclusion of the engagement, with a letter confirming certain representations made during the review.
- Adjusting the interim financial information to correct material misstatements. Although a review of interim financial information is not designed to provide the auditor with reasonable assurance that the interim financial information is free from material misstatement, management nonetheless is responsible for affirming in its representation letter to the auditor that the effects of any uncorrected misstatements aggregated by the auditor during the current engagement and pertaining to the current year period(s) under review are immaterial, both individually and in the aggregate, to the interim financial information as a whole.

#### *The auditor's responsibilities*

- The auditor is responsible for conducting the review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information. A review of interim financial information consists principally of performing analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial information as a whole. Accordingly, the auditor will not express an opinion on the interim financial information.

#### *Limitations of the engagement*

- A review does not provide a basis for expressing an opinion about whether the interim financial information is presented fairly, in all material respects, in accordance with the applicable financial reporting framework.
- A review does not provide the auditor with a basis for obtaining reasonable assurance that the auditor will become aware of all significant findings or issues that would be identified in an audit.
- A review is not designed to provide the auditor with a basis for obtaining reasonable assurance on internal control or to identify significant deficiencies or material weaknesses in internal control; however, the auditor is responsible for communicating to management and those charged with governance any significant deficiencies or material weaknesses in internal control that the auditor identifies during the performance of review procedures.

## **Procedures for a Review of Interim Financial Information**

### ***Understanding the Entity and Its Environment, Including Its Internal Control (Ref: par. .11–.12)***

.A7 As required by section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, the auditor who has audited the entity's financial statements for one or more annual periods would have obtained an understanding of the entity and its environment, including

its internal control as it relates to the preparation and fair presentation of annual financial information, that was sufficient to conduct the audit. Internal control over the preparation and fair presentation of interim financial information may differ from internal control over the preparation and fair presentation of annual financial statements because certain accounting principles and practices used for interim financial information may differ from those used for the preparation of annual financial statements (for example, the use of estimated effective income tax rates for the preparation of interim financial information).

**.A8** The auditor is unable to complete the review if the entity's internal control appears to contain deficiencies so significant that it would be impracticable for the auditor to effectively perform review procedures that would achieve the objective stated in paragraph .05. Paragraph .23 addresses the auditor's responsibilities when the review cannot be completed.

**.A9** In an initial review of interim financial information, when performing the procedures for a new client required by paragraph .07, the auditor also may consider requesting access to review the predecessor auditor's documentation related to reviews of an interim period or interim periods in the prior year. However, the inquiries made and analytical procedures performed, or other procedures performed in the initial review, and the conclusions reached are solely the responsibility of the auditor. Therefore, the auditor is not permitted to make reference to the report or work of the predecessor auditor as the basis, in part, for the auditor's own report.

**.A10** If the predecessor auditor does not respond to the auditor's inquiries or does not allow the auditor to review the predecessor auditor's documentation, the auditor may inquire why and use alternative procedures to obtain the understanding required by paragraph .11.

### **Analytical Procedures, Inquiries, and Other Review Procedures**

*Analytical Procedures (Ref: par. .13)*

**.A11** Procedures for conducting a review of interim financial information generally are limited to analytical procedures, inquiries, and other procedures that address significant accounting and disclosure matters relating to the interim financial information. The auditor's understanding of the entity and its environment, including its internal control, the results of the risk assessments relating to the preceding audit, and the auditor's consideration of materiality as it relates to the interim financial information, influences the nature and extent of the inquiries made and analytical procedures performed. For example, if the auditor becomes aware of a significant change in the entity's control activities at a particular location, the auditor may consider the following procedures:

- Making additional inquiries, such as whether management monitored the changes and considered whether they were operating as intended
- Employing analytical procedures with a more precise expectation

**.A12** Examples of analytical procedures that an auditor may consider performing when conducting a review of interim financial information are contained in appendix A, "Analytical Procedures the Auditor May Consider Performing When Conducting a Review of Interim Financial Information." The auditor also may find the guidance in section 520, *Analytical Procedures*, useful in conducting a review of interim financial information.

**.A13** Expectations developed by the auditor in performing analytical procedures in connection with a review of interim financial information ordinarily

are less precise than those developed in an audit. Also, in a review, the auditor is not required to corroborate management's responses with other evidence.

**.A14** In considering plausible relationships, the auditor may consider information developed and used by the entity (for example, analyses prepared for management or those charged with governance).

**.A15** To compare disaggregated revenue data, the auditor may compare, for example, revenue reported by month and product line or operating segment during the current interim period with that of comparable prior periods.

*Inquiries and Other Review Procedures (Ref: par. .14)*

**.A16** Many of the inquiries and review procedures can be performed before, or simultaneously with, the entity's preparation of the interim financial information. For example, the auditor may update the understanding of the entity's internal control and begin reading applicable minutes before the end of an interim period. Performing some of the review procedures earlier in the interim period also permits early identification and consideration of significant findings and issues affecting the interim financial information. In addition, when the auditor performing the review of interim financial information is also engaged to perform an audit of the annual financial statements of the entity, certain auditing procedures associated with the annual audit of the financial statements may be performed concurrently with the review of interim financial information. For example, information gained from reading the minutes of meetings of the board of directors in connection with the review also may be relevant to the annual audit. Also, there may be significant or unusual transactions occurring during an interim period (for example, business combinations, restructurings, or significant revenue transactions) for which the procedures that would need to be performed for purposes of the audit of the annual financial statements could be performed, to the extent practicable, at the time of the review of the interim period in which the transactions are first recorded.

**.A17** The auditor may find the guidance in section 600, *Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)*, useful in conducting a review of interim financial information for an entity that prepares group financial statements.

**.A18** Examples of unusual or complex situations about which the auditor may inquire of management are contained in appendix B, "Unusual or Complex Situations to Be Considered by the Auditor When Conducting a Review of Interim Financial Information."

**.A19** To obtain evidence that the interim financial information agrees or reconciles with the accounting records, the auditor may compare the interim financial information to (a) the accounting records, such as the general ledger; (b) a consolidating schedule derived from the accounting records; or (c) other supporting data in the entity's records.

**.A20** The auditor may find the guidance in section 720, *Other Information in Documents Containing Audited Financial Statements*, useful in considering other information included in documents containing interim financial information.

**.A21** The auditor may request component auditors involved in the engagement, if any, to read the other information.

*Inquiry Concerning Litigation, Claims, and Assessments (Ref: par. .15)*

**.A22** A review of interim financial information does not contemplate obtaining corroborating evidence for responses to inquiries, such as those concerning litigation, claims, and assessments. Consequently, the auditor is not

required to send an inquiry letter to an entity's legal counsel concerning litigation, claims, and assessments.

*Inquiry Concerning an Entity's Ability to Continue as a Going Concern (Ref: par. .16)*

**.A23** A review of interim financial information is not designed to identify conditions or events that may indicate substantial doubt about an entity's ability to continue as a going concern. However, conditions or events that may cast substantial doubt on the entity's ability to continue as a going concern may have existed at the date of the prior period financial statements or may be identified as a result of inquiries of management or in the course of performing other review procedures. When performing a review engagement, the auditor is not required to obtain evidence in support of the information that mitigates the effects of the conditions and events.

**.A24** Section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, may provide useful guidance to the auditor when considering whether there is adequate and appropriate disclosure in the interim financial information about the entity's possible inability to continue as a going concern.<sup>4</sup> When

- a. conditions or events exist as of the interim reporting date covered by the review that might be indicative of the entity's possible inability to continue as a going concern, or
- b. the auditor's report for the prior year end contained an emphasis-of-matter paragraph indicating the existence of substantial doubt about the entity's ability to continue as a going concern, and the conditions that raised such doubt continued to exist as of the interim reporting date covered by the review,

the auditor is not required to modify the report if there is adequate and appropriate disclosure about these conditions or events in the interim financial information. However, if the auditor determines that the disclosure about the entity's possible inability to continue as a going concern is inadequate, resulting in a departure from the applicable financial reporting framework, the auditor is required by paragraph .34 to modify the report.

*Consideration of Management's Responses and Extension of Interim Review Procedures (Ref: par. .18)*

**.A25** The auditor's interim review procedures may lead the auditor to make additional inquiries, such as questioning whether, for example, a significant sales transaction is recorded in accordance with the applicable financial reporting framework. Additional procedures that the auditor may perform to resolve such questions include discussing the terms of the transaction with senior sales and accounting personnel, reading the sales contract, or both.

## Evaluating the Results of Interim Review Procedures (Ref: par. .19–.20)

**.A26** The auditor may designate an amount below which misstatements would be clearly trivial and would not need to be accumulated because the auditor expects that the accumulation of such amounts would not have a material effect on the interim financial information.<sup>5</sup>

---

<sup>4</sup> Paragraph .12 of section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*. [Footnote revised, August 2012, to reflect conforming changes necessary due to the issuance of SAS No. 126.]

<sup>5</sup> Paragraph .A2 of section 450, *Evaluation of Misstatements Identified During the Audit*.

**.A27** As noted in paragraph .A2, appropriate financial reporting frameworks for interim financial information may include, for example, FASB ASC 270 and Article 10 of SEC Regulation S-X. FASB ASC 270 describes the applicability of GAAP to interim financial information and indicates the types of disclosures necessary to report on a meaningful basis for a period of less than one full year. FASB ASC 270-10-45-16 provides guidance on assessing materiality in interim periods. For example, it states that in determining materiality for the purpose of reporting the correction of an error, amounts shall be related to the estimated income for the full fiscal year and also to the effect on the trend of earnings. Further, Rule 10-01(a)(5) of SEC Regulation S-X states the following:

The interim financial information shall include disclosures either on the face of the financial statements or in accompanying footnotes sufficient so as to make the interim information presented not misleading. Registrants may presume that users of the interim financial information have read or have access to the audited financial statements for the preceding fiscal year and that the adequacy of additional disclosure needed for a fair presentation, except in regard to material contingencies may be determined in that context. Accordingly, footnote disclosure which would substantially duplicate the disclosure contained in the most recent annual report to security holders or latest audited financial statements, such as a statement of significant accounting policies and practices, details of accounts which have not changed significantly in amount or composition since the end of the most recently completed fiscal year, and detailed disclosures prescribed by Rule 4-08 of this Regulation, may be omitted. However, disclosure shall be provided where events subsequent to the end of the most recent fiscal year have occurred which have a material impact on the registrant. Disclosures should encompass for example, significant changes since the end of the most recently completed fiscal year in such items as: accounting principles and practices; estimates inherent in the preparation of the financial statements; status of long-term contracts; capitalization including significant new borrowings or modification of existing financing arrangements; and the reporting entity resulting from business combinations or dispositions. Notwithstanding the above, where material contingencies exist, disclosure of such matters shall be provided even though a significant change since year end may not have occurred.

**.A28** Considerations that may affect the evaluation of whether uncorrected misstatements, individually or in the aggregate, are material include the following:

- The nature, cause (if known), and amount of the misstatements
- Whether the misstatements originated in the preceding year or interim periods of the current year
- Materiality judgments made in conjunction with the current or prior year's annual audit
- The potential effect of the misstatements on future interim or annual periods
- The appropriateness of offsetting a misstatement of an estimated amount with a misstatement of an item capable of precise measurement
- Recognition that an accumulation of immaterial misstatements in the balance sheet could contribute to material misstatements in future periods

Section 450, *Evaluation of Misstatements Identified During the Audit*, provides guidance regarding qualitative considerations in evaluating whether misstatements are material.

## Written Representations From Management (Ref: par. .21–.22)

**.A29** Exhibit A, "Illustrative Management Representation Letters for a Review of Interim Financial Information," contains illustrative representation letters for engagements to review interim financial information.

**.A30** The auditor may request additional representations regarding matters specific to the entity's business or industry.

**.A31** If no uncorrected misstatements were identified, the representation regarding uncorrected misstatements is not relevant and, accordingly, is not required.

**.A32** Appropriate action when management does not provide one or more requested written representations or when the auditor has concerns about the reliability of the representations may include

- discussing the matter with management and, when relevant, those charged with governance;
- reevaluating the integrity of management and evaluating the effect that this may have on the reliability of representations (oral or written) and evidence in general; and
- considering whether to withdraw from the engagement to review the interim financial information and, if applicable, as the entity's auditor.

## Communications With Management and Those Charged With Governance

### *Matters Affecting the Completion of the Review (Ref: par. .23–.26)*

**.A33** When an auditor is unable to perform the procedures that the auditor considers necessary to achieve the objective of a review of interim financial information, or management does not provide the auditor with the written representations that the auditor believes are necessary, the review will be incomplete.

**.A34** The auditor may seek legal advice when considering whether to withdraw from the engagement to review the interim financial information and as the entity's auditor.

### *Other Matters (Ref: par. .27–.28)*

**.A35** Section 265, *Communicating Internal Control Related Matters Identified in an Audit*, provides guidance on identifying and communicating deficiencies in internal control.

**.A36** As a result of performing the review of the interim financial information, the auditor may become aware of matters that, in the opinion of the auditor, are both significant and relevant to those charged with governance in overseeing the financial reporting and disclosure process. Examples of such matters include the following:

- A change in a significant accounting policy affecting the interim financial information
- Adjustments that either individually or in the aggregate could have a significant effect on the entity's financial reporting process
- Uncorrected misstatements aggregated by the auditor that were determined by management to be immaterial, both individually

and in the aggregate, to the interim financial information as a whole

**A37** The objective of a review of interim financial information differs significantly from that of an audit. Therefore, any communication that the auditor may make about the quality, not just the acceptability, of the entity's accounting principles as applied to its interim financial reporting generally is limited to the effect of significant events, transactions, and changes in accounting estimates that the auditor considered when conducting the review of interim financial information. Further, interim review procedures do not provide assurance that the auditor will become aware of all matters that might affect the auditor's judgments about the quality of the entity's accounting principles that would be identified as a result of an audit.

**A38** The communications required by paragraphs .23–.28 may be oral or written. The communications are most helpful when made on a sufficiently timely basis to enable management or those charged with governance to take appropriate action.

## The Auditor's Report on a Review of Interim Financial Information

### *Form of the Auditor's Review Report (Ref: par. .29–.30)*

**A39** Entities may be required by third parties to engage auditors to perform a review of interim financial information, but such third parties may choose to not require that a written auditor's review report on such information be provided to users of the entity's interim financial information. For example, entities that trade unregistered private equity securities on electronic trading platforms, often referred to as private equity exchanges, may be required to provide financial and other information to the qualified investors on the exchange's website. The ongoing reporting requirements of these exchanges are substantially similar to the reporting required of issuers, wherein entities trading securities on such exchanges are required to engage auditors to review their interim financial information but are not required to include written review reports with interim financial information provided to qualified investors. Nonetheless, in accordance with paragraph .29, the auditor's report on the review of the interim financial information is required to be in writing.

**A40** Reporting considerations related to the dating of reports or subsequent events encountered during a review are similar to those encountered in an audit of financial statements. Sections 560 and 700 provide guidance on these issues.

**A41** Exhibit B, "Illustrations of Auditor's Review Reports on Interim Financial Information," contains illustrations of review reports.

### *Comparative Interim Financial Information That Has Not Been Reviewed Presented With Reviewed Interim Financial Information (Ref: par. .32)*

**A42** The indication that the auditor has not reviewed the prior period interim financial information and that the auditor assumes no responsibility for it may be worded, for example, as follows:

The accompanying [describe the interim financial information or statements] of ABC Company and subsidiaries as of September 30, 20X1, and for the three-month period then ended were not reviewed by us, and accordingly, we do not express any form of assurance on it.

***Interim Financial Information Presented With Condensed Balance Sheet Information for the Most Recent Year End (Ref: par. .33)***

**.A43** Because interim financial reporting is intended to be an update to year-end reporting, condensed balance sheet information as of the most recent year end often is presented for comparative purposes with the corresponding information as of the latest interim period. Appendix B includes an illustration of a review report on comparative interim financial information that includes a condensed balance sheet derived from audited financial statements.

***Modification of the Auditor's Review Report (Ref: par. .34–.35)***

**.A44** Departures from the applicable financial reporting framework include inadequate disclosure and changes in accounting policies that are not in accordance with the applicable financial reporting framework.

**.A45** Section 700 addresses the reporting requirements when the circumstances contemplated by the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct are present. [Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

**.A46** If the interim financial information adequately discloses the existence of substantial doubt about the entity's ability to continue as a going concern (see paragraph .16) or a lack of consistency in the application of accounting principles affecting the interim financial information, the auditor may, but is not required to, include an emphasis-of-matter paragraph in the auditor's review report.

**.A47** Exhibit C, "Illustrations of Example Modifications to the Auditor's Review Report Due to Departures From the Applicable Financial Reporting Framework," contains illustrative examples of paragraphs modifying the auditor's review report.

**.A48** The information necessary for adequate disclosure is influenced by the form and context in which the interim financial information is presented. For example, the disclosures considered necessary for interim financial information presented in accordance with the minimum disclosure requirements of FASB ASC 270-10-50-1, which is applicable to condensed financial statements of public companies, are considerably less extensive than those necessary for annual financial statements that present financial position, results of operations, and cash flows in accordance with the applicable financial reporting framework. FASB ASC 270-10-50-3 states that a presumption exists that users of summarized interim financial data will have read the latest published annual report, including the financial disclosures required by GAAP and management's commentary concerning the annual financial results, and that the summarized interim data will be viewed in that context.

***Other Considerations (Ref: par. .38)***

**.A49** The auditor may seek legal advice in considering what actions, if any, may be appropriate in these circumstances.

***Interim Financial Information Accompanying Audited Financial Statements (Ref: par. .40–.41)***

**.A50** Interim financial information may accompany audited financial statements. If management chooses or is required to present interim financial

information in a note to the audited financial statements, management is responsible for clearly marking the information as unaudited in the note.

**.A51** Because the interim financial information has not been audited and is not required for the audited financial statements to be fairly stated in accordance with the applicable financial reporting framework, the auditor ordinarily need not modify the auditor's report on the audited financial statements to refer to the interim financial information accompanying the audited financial statements, including when the auditor has performed a review in accordance with this section.

### **Documentation (Ref: par. .42–.43)**

**.A52** The auditor may find the guidance in section 230, *Audit Documentation*, useful in determining the form and content of the review documentation, including guidance on the timing of the final assembly of the engagement documentation.

**.A53** Examples of findings or issues that, in the auditor's judgment, are significant include the results of review procedures that indicate that the interim financial information could be materially misstated, including actions taken to address such findings, and the basis for the final conclusions reached.

## Appendix A—Analytical Procedures the Auditor May Consider Performing When Conducting a Review of Interim Financial Information (Ref: par. .A12)

Analytical procedures are designed to identify relationships and individual items that appear to be unusual and that may reflect a material misstatement of the interim financial information. Examples of analytical procedures that an auditor may consider performing in a review of interim financial information include the following:

- Comparing current interim financial information with the interim financial information of the immediately preceding interim period, the interim financial information of the corresponding interim period of the preceding financial year, and the most recent audited annual financial statements.
- Comparing current interim financial information with anticipated results, such as budgets or forecasts (for example, comparing tax balances and the relationship between the provision for income taxes and pretax income in the current interim financial information with corresponding information in (a) budgets, using expected rates, and (b) financial information for prior periods). Caution is necessary when comparing and evaluating current interim financial information with budgets, forecasts, or other anticipated results because of the inherent lack of precision in estimating the future and the susceptibility of such information to manipulation and misstatement by management to reflect desired interim results.
- Comparing current interim financial information with relevant nonfinancial information.
- Comparing ratios and indicators for the current interim period with expectations based on prior periods (for example, performing gross profit analysis by product line and operating segment using elements of the current interim financial information and comparing the results with corresponding information for prior periods). Examples of key ratios and indicators are the current ratio, receivable turnover or days sales outstanding, inventory turnover, depreciation to average fixed assets, debt to equity, gross profit percentage, net income percentage, and plant operating rates.
- Comparing ratios and indicators for the current interim period with those of entities in the same industry.
- Comparing relationships among elements in the current interim financial information with corresponding relationships in the interim financial information of prior periods (for example, expense by type as a percentage of sales, assets by type as a percentage of total assets, and percentage of change in sales to percentage of change in receivables).
- Comparing disaggregated data. The following are examples of how data may be disaggregated:

**Special Considerations in the United States**

- By period (for example, interim financial information items disaggregated into quarterly, monthly, or weekly amounts)
- By product line or operating segment
- By location (for example, subsidiary, division, or branch)

Analytical procedures may include such statistical techniques as trend analysis or regression analysis and may be performed manually or with the use of computer-assisted techniques.

.A55

## **Appendix B—Unusual or Complex Situations to Be Considered by the Auditor When Conducting a Review of Interim Financial Information (Ref: par. .A18)**

The following are examples of situations about which the auditor may inquire of management:

- Business combinations
- New or complex revenue recognition methods
- Impairment of assets
- Disposal of a segment of a business
- Use of derivative instruments and hedging activities
- Sales and transfers that may call into question the classification of investments in securities, including management's intent and ability with respect to the remaining securities classified as held to maturity
- Adoption of new stock compensation plans or changes to existing plans
- Restructuring charges taken in the current and prior quarters
- Significant, unusual, or infrequently occurring transactions
- Changes in litigation or contingencies
- Changes in major contracts with customers or suppliers
- Application of new accounting principles
- Changes in accounting principles or the methods of applying them
- Trends and developments affecting accounting estimates, such as allowances for bad debts and excess or obsolete inventories, provisions for warranties and employee benefits, and realization of unearned income and deferred charges
- Compliance with debt covenants
- Changes in related parties or significant new related party transactions
- Material off-balance-sheet transactions, special purpose entities, and other equity investments
- Unique terms for debt or capital stock that could affect classification

.A56

## Exhibit A—Illustrative Management Representation Letters for a Review of Interim Financial Information (Ref: par. .A29)

The following management representation letters, which relate to a review of interim financial information, are presented for illustrative purposes only.

Illustration 1—Short Form Representation Letter for a Review of Interim Financial Information

Illustration 2—Detailed Representation Letter for a Review of Interim Financial Information

It is assumed in these illustrations that the applicable financial reporting framework is accounting principles generally accepted in the United States of America, that no conditions or events exist that might be indicative of the entity's possible inability to continue as a going concern, and that no exceptions exist to the requested written representations. If circumstances differ from these assumptions, the representations would need to be modified to reflect the actual circumstances.

### Illustration 1—Short Form Representation Letter for a Review of Interim Financial Information

This representation letter is to be used in conjunction with the representation letter for the audit of the financial statements of the prior year. Management confirms the representations made in the representation letter for the audit of the financial statements of the prior year end, as they apply to the interim financial information, and makes additional representations that may be needed for the interim financial information.

[Date]

To [Independent Auditor]:

This representation letter is provided in connection with your review of the [consolidated] balance sheet as of June 30, 20X1 and the related [consolidated] statements of income, changes in equity, and cash flows for the six-month period then ended of ABC Company for the purpose of reporting whether any material modifications should be made to the [consolidated] interim financial information for it to be in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) [including, if appropriate, an indication as to the appropriate form and content of interim financial information (for example, Article 10 of SEC Regulation S-X)].

We confirm that [, to the best of our knowledge and belief, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves] [as of (date of auditor's review report),]:

**Interim Financial Information**

1. We have fulfilled our responsibilities, as set out in the terms of the engagement letter dated *[insert date]* for the preparation and fair presentation of interim financial information in accordance with U.S. GAAP; in particular the interim financial information is presented in accordance therewith.
2. We acknowledge our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of interim financial information that is free from material misstatement, whether due to fraud or error.
3. The interim financial information has been adjusted or includes disclosures for all events subsequent to the date of the interim financial information for which U.S. GAAP requires adjustment or disclosure.
4. The effects of uncorrected misstatements are immaterial, both individually and in the aggregate, to the interim financial information as a whole. A list of the uncorrected misstatements is attached to the representation letter.

*[Any other matters that the auditor may consider appropriate]*

**Information Provided**

5. We have provided you with:
  - Access to all information of which we are aware that is relevant to the preparation and fair presentation of the interim financial information such as records, documentation, and other matters;
  - Minutes of the meetings of stockholders, directors, and committees of directors, or summaries of actions of recent meetings for which minutes have not yet been prepared;
  - Additional information that you have requested from us for the purpose of the review; and
  - Unrestricted access to persons within the entity of whom you determined it necessary to make inquiries.
6. We have disclosed to you all significant deficiencies or material weaknesses in the design or operation of internal control of which we are aware, as it relates to the preparation and fair presentation of both annual and interim financial information.
7. We have disclosed to you the results of our assessment of the risk that the interim financial information may be materially misstated as a result of fraud.
8. We have *[no knowledge of any]* *[disclosed to you all information of which we are aware in relation to]* fraud or suspected fraud that affects the entity and involves:
  - Management;
  - Employees who have significant roles in internal control; or
  - Others when the fraud could have a material effect on the interim financial information.
9. We have *[no knowledge of any]* *[disclosed to you all information in relation to]* allegations of fraud, or suspected fraud, affecting

the entity's interim financial information communicated by employees, former employees, analysts, regulators, or others.

10. We have disclosed to you the identity of the entity's related parties and all the related party relationships and transactions of which we are aware.

*[Any other matters that the auditor may consider necessary]*

11. We have reviewed our representation letter to you dated *[date of representation letter relating to most recent audit]* with respect to the audited consolidated financial statements as of and for the year ended *[prior year-end date]*. We believe that representations *[references to applicable representations]* within that representation letter do not apply to the interim financial information referred to above. We now confirm those representations *[references to applicable representations]*, as they apply to the interim financial information referred to above, and incorporate them herein, with the following changes:

*[Indicate any changes.]*

12. *[Add any representations related to new accounting or auditing standards that are being implemented for the first time.]*

---

*[Name of Chief Executive Officer and Title]*

---

*[Name of Chief Financial Officer and Title]*

*[Name of Chief Accounting Officer and Title]*

## Illustration 2—Detailed Representation Letter for a Review of Interim Financial Information

This representation letter is similar in detail to the management representation letter used for the audit of the financial statements of the prior year and, thus, need not refer to the written management representations received in the most recent audit.

*[Date]*

To *[Independent Auditor]*:

This representation letter is provided in connection with your review of the *[consolidated]* balance sheet as of June 30, 20X1 and the related *[consolidated]* statements of income, changes in equity, and cash flows for the six-month period then ended of ABC Company for the purpose of reporting whether any material modifications should be made to the *[consolidated]* interim financial information for it to be in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) *[including, if appropriate, an indication as to the appropriate form and content of interim financial information (for example, Article 10 of SEC Regulation S-X)]*.

We confirm that *[, to the best of our knowledge and belief, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves] [as of (date of auditor's review report),]*:

**Interim Financial Information**

1. We have fulfilled our responsibilities, as set out in the terms of the engagement letter dated *[insert date]* for the preparation and fair presentation of the interim financial information in accordance with U.S. GAAP; in particular the interim financial information is presented in accordance therewith.
2. We acknowledge our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of interim financial information that is free from material misstatement, whether due to fraud or error.
3. Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable.
4. Related party relationships and transactions have been appropriately accounted for and disclosed in accordance with the requirements of U.S. GAAP.
5. The interim financial information has been adjusted or includes disclosures for all events subsequent to the date of the interim financial information for which U.S. GAAP requires adjustment or disclosure.
6. The effects of uncorrected misstatements are immaterial, both individually and in the aggregate, to the interim financial information as a whole. A list of the uncorrected misstatements is attached to the representation letter.

*[Any other matters that the auditor may consider appropriate]*

**Information Provided**

7. We have provided you with:
  - Access to all information of which we are aware that is relevant to the preparation and fair presentation of the interim financial information such as records, documentation, and other matters;
  - Minutes of the meetings of stockholders, directors, and committees of directors, or summaries of actions of recent meetings for which minutes have not yet been prepared;
  - Additional information that you have requested from us for the purpose of the review; and
  - Unrestricted access to persons within the entity of whom you determined it necessary to make inquiries.
8. All transactions have been recorded in the accounting records and are reflected in the interim financial information.
9. We have disclosed to you all significant deficiencies or material weaknesses in the design or operation of internal control of which we are aware, as it relates to the preparation and fair presentation of both annual and interim financial information.
10. We have disclosed to you the results of our assessment of the risk that the interim financial information may be materially misstated as a result of fraud.
11. We have *[no knowledge of any]**[disclosed to you all information of which we are aware in relation to]* fraud or suspected fraud that affects the entity and involves:

## Special Considerations in the United States

- Management;
  - Employees who have significant roles in internal control; or
  - Others when the fraud could have a material effect on the interim financial information.
12. We have *[no knowledge of any]**[disclosed to you all information in relation to]* allegations of fraud, or suspected fraud, affecting the entity's interim financial information communicated by employees, former employees, analysts, regulators, or others.
  13. We have disclosed to you all known instances of non-compliance or suspected non-compliance with laws and regulations whose effects should be considered when preparing interim financial information.
  14. There have been no communications from regulatory agencies concerning noncompliance with or deficiencies in financial reporting practices.
  15. We have disclosed to you the identity of the entity's related parties and all the related party relationships and transactions of which we are aware.

*[Any other matters that the auditor may consider necessary]*

## Exhibit B—Illustrations of Auditor’s Review Reports on Interim Financial Information (Ref: par. .A41)

Illustration 1—A Review Report on Interim Financial Information

Illustration 2—A Review Report on Condensed Comparative Interim Financial Information

Illustration 3—A Review Report That Refers to a Component Auditor's Review Report on the Interim Financial Information of a Significant Component of a Reporting Entity

Illustration 4—A Review Report on Comparative Interim Financial Information When the Prior Period Was Reviewed by Another Auditor

### Illustration 1—A Review Report on Interim Financial Information

Circumstances include the following:

- A review of interim financial information presented as a complete set of financial statements, including disclosures

#### **Independent Auditor's Review Report**

[Appropriate Addressee]

#### **Report on the Financial Statements**

We have reviewed the accompanying [describe the interim financial information or statements reviewed] of ABC Company and subsidiaries as of September 30, 20X1, and for the three-month and nine-month periods then ended.

#### ***Management’s Responsibility***

The Company's management is responsible for the preparation and fair presentation of the interim financial information in accordance with [identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]; this responsibility includes the design, implementation, and maintenance of internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with [identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America].

#### ***Auditor’s Responsibility***

Our responsibility is to conduct our review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial information. Accordingly, we do not express such an opinion.

**Conclusion**

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

**Illustration 2—A Review Report on Condensed Comparative Interim Financial Information**

The following is an example of a review report on a condensed balance sheet as of March 31, 20X1; the related condensed statements of income and cash flows for the three-month periods ended March 31, 20X1 and 20X0; and a condensed balance sheet derived from audited financial statements as of December 31, 20X0. If the auditor's report on the preceding year-end financial statements was other than unmodified or included an emphasis-of-matter paragraph because of a going concern matter or an inconsistency in the application of accounting principles, the last paragraph of the illustrative report would be appropriately modified.

**Independent Auditor's Review Report**

*[Appropriate Addressee]*

**Report on the Financial Statements**

We have reviewed the condensed consolidated financial statements of ABC Company and subsidiaries, which comprise the balance sheet as of March 31, 20X1, and the related condensed consolidated statements of income and cash flows for the three-month periods ended March 31, 20X1 and 20X0.

***Management's Responsibility***

The Company's management is responsible for the preparation and fair presentation of the condensed financial information in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*; this responsibility includes the design, implementation, and maintenance of internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

***Auditor's Responsibility***

Our responsibility is to conduct our reviews in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial information. Accordingly, we do not express such an opinion.

**Conclusion**

Based on our reviews, we are not aware of any material modifications that should be made to the condensed financial information referred to above for it

to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

**Report on Condensed Balance Sheet as of [Date]**

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet as of December 31, 20X0, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the year then ended (not presented herein); and we expressed an unmodified audit opinion on those audited consolidated financial statements in our report dated February 15, 20X1. In our opinion, the accompanying condensed consolidated balance sheet of ABC Company and subsidiaries as of December 31, 20X0, is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

**Illustration 3—A Review Report That Refers to a Component Auditor's Review Report on the Interim Financial Information of a Significant Component of a Reporting Entity**

Circumstances include the following:

- A review of interim financial information presented as a complete set of financial statements, including disclosures.
- The auditor is making reference to another auditor's review report on the interim financial information of a significant component of a reporting entity.

**Independent Auditor's Review Report**

*[Appropriate Addressee]*

**Report on the Financial Statements**

We have reviewed the accompanying *[describe the interim financial information or statements reviewed]* of ABC Company and subsidiaries as of September 30, 20X1, and for the three-month and nine-month periods then ended.

**Management's Responsibility**

The Company's management is responsible for the preparation and fair presentation of the interim financial information in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*; this responsibility includes the design, implementation, and maintenance of internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

**Auditor's Responsibility**

Our responsibility is to conduct our review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less

in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial information. Accordingly, we do not express such an opinion.

We were furnished with the report of other auditors on their review of the interim financial information of DEF subsidiary, whose total assets as of September 30, 20X1, and whose revenues for the three-month and nine-month periods then ended, constituted 15 percent, 20 percent, and 22 percent, respectively, of the related consolidated totals.

### **Conclusion**

Based on our review and the review report of other auditors, we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

## **Illustration 4—A Review Report on Comparative Interim Financial Information When the Prior Period Was Reviewed by Another Auditor**

Circumstances include the following:

- A review of interim financial information presented as a complete set of financial statements, including disclosures as of March 31, 20X1, and for the three-month period then ended.
- Comparative information is presented for the balance sheet as of December 31, 20X0, and for the statements of income and cash flows for the comparable interim period.
- The December 31, 20X0, financial statements were audited, and the March 31, 20X0, interim financial information was reviewed, by another auditor.

### **Independent Auditor's Review Report**

*[Appropriate Addressee]*

#### **Report on the Financial Statements**

We have reviewed the accompanying *[describe the interim financial information or statements reviewed]* of ABC Company and subsidiaries as of March 31, 20X1, and for the three-month period then ended. The consolidated statements of income and cash flows of ABC Company and subsidiaries for the three-month period ended March 31, 20X0, were reviewed by other auditors whose report dated June 1, 20X0, stated that based on their review, they were not aware of any material modifications that should be made to those statements in order for them to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*. The consolidated balance sheet of the Company as of December 31, 20X0, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the year then ended (not presented herein), were audited by other auditors whose report dated March 15, 20X1, expressed an unmodified opinion on those statements.

***Management's Responsibility***

The Company's management is responsible for the preparation and fair presentation of the interim financial information in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*; this responsibility includes the design, implementation, and maintenance of internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

***Auditor's Responsibility***

Our responsibility is to conduct our review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial information. Accordingly, we do not express such an opinion.

***Conclusion***

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial information as of and for the three months ended March 31, 20X1, for it to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

## Exhibit C—Illustrations of Example Modifications to the Auditor's Review Report Due to Departures From the Applicable Financial Reporting Framework (Ref: par. .A47)

Illustration 1—Modification Due to a Departure From the Applicable Financial Reporting Framework

Illustration 2—Modification Due to Inadequate Disclosure

Illustration 3—Emphasis-of-Matter Paragraph When a Going Concern Emphasis-of-Matter Paragraph Was Included in the Prior Year's Audit Report, and Conditions Giving Rise to the Emphasis-of-Matter Paragraph Continue to Exist

Illustration 4—Emphasis-of-Matter Paragraph When a Going Concern Emphasis-of-Matter Paragraph Was Not Included in the Prior Year's Audit Report, and Conditions or Events Exist as of the Interim Reporting Date Covered by the Review That Might Be Indicative of the Entity's Possible Inability to Continue as a Going Concern

### Illustration 1—Modification Due to a Departure From the Applicable Financial Reporting Framework

The following is an example of a modification of the auditor's review report due to a departure from the applicable financial reporting framework:

*[Basis for Modification Paragraph]*

Based on information furnished to us by management, we believe that the Company has excluded from property and debt in the accompanying balance sheet certain lease obligations that we believe should be capitalized to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*. This information indicates that if these lease obligations were capitalized at September 30, 20X1, property would be increased by \$\_\_\_\_\_, long-term debt would be increased by \$\_\_\_\_\_, and net income would be increased (decreased) by \$\_\_\_\_\_ and \$\_\_\_\_\_, respectively, for the three-month and nine-month periods then ended.

*[Conclusion]*

Based on our review, with the exception of the matter(s) described in the preceding paragraph(s), we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

### Illustration 2—Modification Due to Inadequate Disclosure

The following is an example of a modification of the auditor's review report due to inadequate disclosure:

*[Basis for Modification Paragraph]*

Management has informed us that the Company is presently defending a claim regarding *[describe the nature of the loss contingency]* and that the extent of the Company's liability, if any, and the effect on the accompanying interim financial information is not determinable at this time. The interim financial information fails to disclose these matters, which we believe are required to be disclosed in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

*[Conclusion]*

Based on our review, with the exception of the matter(s) described in the preceding paragraph(s), we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

### **Illustration 3—Emphasis-of-Matter Paragraph When a Going Concern Emphasis-of-Matter Paragraph Was Included in the Prior Year's Audit Report, and Conditions Giving Rise to the Emphasis-of-Matter Paragraph Continue to Exist**

The following is an example of an emphasis-of-matter paragraph when a going concern emphasis-of-matter paragraph was included in the prior year's audit report, and conditions giving rise to the emphasis-of-matter paragraph continue to exist:

*[Emphasis-of-Matter Paragraph]*

Note 4 of the Company's audited financial statements as of December 31, 20X1, and for the year then ended, discloses that the Company was unable to renew its line of credit or obtain alternative financing at December 31, 20X1. Our auditor's report on those financial statements includes an emphasis-of-matter paragraph referring to the matters in note 4 of those financial statements and indicating that these matters raised substantial doubt about the Company's ability to continue as a going concern. As indicated in note 3 of the Company's unaudited interim financial information as of March 31, 20X2, and for the three months then ended, the Company was still unable to renew its line of credit or obtain alternative financing as of March 31, 20X2. The accompanying interim financial information does not include any adjustments that might result from the outcome of this uncertainty.

### **Illustration 4—Emphasis-of-Matter Paragraph When a Going Concern Emphasis-of-Matter Paragraph Was Not Included in the Prior Year's Audit Report, and Conditions or Events Exist as of the Interim Reporting Date Covered by the Review That Might Be Indicative of the Entity's Possible Inability to Continue as a Going Concern**

The following is an example of an emphasis-of-matter paragraph when a going concern emphasis-of-matter paragraph was not included in the prior year's audit report, and conditions or events exist as of the interim reporting date covered by the review that might be indicative of the entity's possible inability to continue as a going concern:

*[Emphasis-of-Matter Paragraph]*

As indicated in note 3, certain conditions indicate that the Company may be unable to continue as a going concern. The accompanying interim financial information does not include any adjustments that might result from the outcome of this uncertainty.

---

## AU-C Section 935

### *Compliance Audits*

(Supersedes SAS No. 74.)

Source: SAS No. 117; SAS No. 122; SAS No. 123; SAS No. 125; SAS No. 130.

**Effective for compliance audits for fiscal periods ending on or after June 15, 2010, unless otherwise indicated. Earlier application is permitted.**

#### NOTE

To address practice issues, Statement on Auditing Standards (SAS) No. 117, *Compliance Audits*, was issued in December 2009 as a SAS resulting from the Clarification and Convergence Project of the Auditing Standards Board, and became effective for compliance audits for fiscal periods ending on or after June 15, 2010.

SAS No. 117 was previously codified as AU section 801 until December 2013, when all AU sections were deleted from AICPA *Professional Standards*, as described in the AU-C Foreword. SAS No. 122, *Statement on Auditing Standards: Clarification and Recodification*, redesignated AU section 801 as section 935 but did not supersede SAS No. 117.

This section contains conforming changes necessary in specific paragraphs and footnotes due to the issuance of SAS No. 122.

## Introduction and Applicability

**.01** Governments frequently establish governmental audit requirements for entities to undergo an audit of their compliance with applicable compliance requirements. This section is applicable when an auditor is engaged, or required by law or regulation, to perform a compliance audit in accordance with all of the following:

- Generally accepted auditing standards (GAAS)
- The standards for financial audits under *Government Auditing Standards*
- A governmental audit requirement that requires an auditor to express an opinion on compliance (Ref: par. .A1–.A2)

**.02** This section addresses the application of GAAS to a compliance audit. Compliance audits usually are performed in conjunction with a financial statement audit. This section does not apply to the financial statement audit component of such engagements. Although certain AU-C sections are not applicable to a compliance audit, as identified in the appendix "AU-C Sections That Are Not Applicable to Compliance Audits," all AU-C sections other than this section are applicable to the audit of financial statements performed in

conjunction with a compliance audit. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.03** This section is not applicable when the governmental audit requirement calls for an examination, in accordance with Statements on Standards for Attestation Engagements, of an entity's compliance with specified requirements or an examination of an entity's internal control over compliance. AT-C section 315, *Compliance Attestation*, is applicable to an examination of an entity's compliance with specified requirements and AT-C section 205, *Examination Engagements*, is applicable to an examination of an entity's internal control over compliance. If the entity is required to undergo a compliance audit and an examination of internal control over compliance, this section is applicable to performing and reporting on the compliance audit, and AT-C section 205 is applicable to performing and reporting on the examination of internal control over compliance. (Ref: par. .A2) [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

**.04** AU-C sections 200–800 address audits of financial statements, as well as other kinds of engagements. Generally, these AU-C sections can be adapted to the objectives of a compliance audit. However, those AU-C sections, or portions thereof, identified in the appendix cannot be adapted to a compliance audit because they address the matters that are not applicable to a compliance audit. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.05** Except for the AU-C sections that are listed in the appendix as not applicable to a compliance audit, all of the other AU-C sections are applicable to a compliance audit. However, the auditor is not required, in planning and performing a compliance audit, to make a literal translation of each procedure that might be performed in a financial statement audit, but rather to obtain sufficient appropriate audit evidence to support the auditor's opinion on compliance. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.06** Some AU-C sections can be adapted and applied to a compliance audit with relative ease, for example, by simply replacing the word *misstatement* with the word *noncompliance*. Other AU-C sections are more difficult to adapt and apply and entail additional modification. For that reason, this section provides more specific guidance on how to adapt and apply certain AU-C sections to a compliance audit. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.07** *Government Auditing Standards* and governmental audit requirements contain certain standards and requirements that are supplementary to those in GAAS, as well as guidance on how to apply those standards and requirements.

## Management's Responsibilities

**.08** A compliance audit is based on the premise that management is responsible for the entity's compliance with compliance requirements. Management's responsibility for the entity's compliance with compliance requirements includes the following:

- a. Identifying the entity's government programs and understanding and complying with the compliance requirements
- b. Establishing and maintaining effective controls that provide reasonable assurance that the entity administers government programs in compliance with the compliance requirements

- c. Evaluating and monitoring the entity's compliance with the compliance requirements
- d. Taking corrective action when instances of noncompliance are identified, including corrective action on audit findings of the compliance audit

## Effective Date

.09 The provisions of this section are effective for compliance audits for fiscal periods ending on or after June 15, 2010. Earlier application is permitted.

## Objectives (Ref: par. .A3)

.10 The auditor's objectives in a compliance audit are to

- a. obtain sufficient appropriate audit evidence to form an opinion and report at the level specified in the governmental audit requirement on whether the entity complied in all material respects with the applicable compliance requirements; and
- b. identify audit and reporting requirements specified in the governmental audit requirement that are supplementary to GAAS and *Government Auditing Standards*, if any, and perform procedures to address those requirements.

## Definitions

.11 For purposes of adapting GAAS to a compliance audit, the following terms have the meanings attributed as follows:

**Applicable compliance requirements.** Compliance requirements that are subject to the compliance audit.

**Audit findings.** The matters that are required to be reported by the auditor in accordance with the governmental audit requirement.

**Audit risk of noncompliance.** The risk that the auditor expresses an inappropriate audit opinion on the entity's compliance when material noncompliance exists. Audit risk of noncompliance is a function of the risks of material noncompliance and detection risk of noncompliance.

**Compliance audit.** A program-specific audit or an organization-wide audit of an entity's compliance with applicable compliance requirements.

**Compliance requirements.** Laws, regulations, rules, and provisions of contracts or grant agreements applicable to government programs with which the entity is required to comply.

**Deficiency in internal control over compliance.** A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A deficiency in *design* exists when (a) a control necessary to meet the control objective is missing, or (b) an existing control is not properly designed so that, even if the control operates as designed, the control objective would not be met. A deficiency in *operation* exists when a properly designed control does

not operate as designed or the person performing the control does not possess the necessary authority or competence to perform the control effectively.

**Detection risk of noncompliance.** The risk that the procedures performed by the auditor to reduce audit risk of noncompliance to an acceptably low level will not detect noncompliance that exists and that could be material, either individually or when aggregated with other instances of noncompliance.

**Government Auditing Standards.** Standards and guidance issued by the Comptroller General of the United States, U.S. Government Accountability Office for financial audits, attestation engagements, and performance audits. *Government Auditing Standards* also is known as generally accepted government auditing standards (GAGAS) or the Yellow Book.

**Government program.** The means by which governmental entities achieve their objectives. For example, one of the objectives of the U.S. Department of Agriculture is to provide nutrition to individuals in need. Examples of government programs designed to achieve that objective are the Supplemental Nutrition Assistance Program and the National School Lunch Program. Government programs that are relevant to this section are those in which a grantor or pass-through entity provides an award to another entity, usually in the form of a grant, contract, or other agreement. Not all government programs provide cash assistance; sometimes noncash assistance is provided (for example, a loan guarantee, commodities, or property).

**Governmental audit requirement.** A government requirement established by law, regulation, rule, or provision of contracts or grant agreements requiring that an entity undergo an audit of its compliance with applicable compliance requirements related to one or more government programs that the entity administers. (Ref: par. .A4)

**Grantor.** A government agency from which funding for the government program originates.

**Known questioned costs.** Questioned costs specifically identified by the auditor. Known questioned costs are a subset of likely questioned costs.

**Likely questioned costs.** The auditor's best estimate of total questioned costs, not just the known questioned costs. Likely questioned costs are developed by extrapolating from audit evidence obtained, for example, by projecting known questioned costs identified in an audit sample to the entire population from which the sample was drawn.

**Material noncompliance.** In the absence of a definition of material noncompliance in the governmental audit requirement, a failure to follow compliance requirements or a violation of prohibitions included in the applicable compliance requirements that results in noncompliance that is quantitatively or qualitatively material, either individually or when aggregated with other noncompliance, to the affected government program.

**Material weakness in internal control over compliance.** A deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis. In this section, a reasonable possibility exists when the likelihood of an event occurring is either reasonably possible or probable as defined as follows:

**Reasonably possible.** The chance of the future event or events occurring is more than remote but less than likely.

**Probable.** The future event or events are likely to occur.

**Organization-wide audit.** An audit of an entity's financial statements and an audit of its compliance with the applicable compliance requirements as they relate to one or more government programs that the entity administers.

**Pass-through entity.** An entity that receives an award from a grantor or other entity and distributes all or part of it to another entity to administer a government program.

**Program-specific audit.** An audit of an entity's compliance with applicable compliance requirements as they relate to one government program that the entity administers. The compliance audit portion of a program-specific audit is performed in conjunction with either an audit of the entity's or the program's financial statements.

**Questioned costs.** Costs that are questioned by the auditor because (1) of a violation or possible violation of the applicable compliance requirements, (2) the costs are not supported by adequate documentation, or (3) the incurred costs appear unreasonable and do not reflect the actions that a prudent person would take in the circumstances.

**Risk of material noncompliance.** The risk that material noncompliance exists prior to the audit. This consists of two components, described as follows:

**Inherent risk of noncompliance.** The susceptibility of a compliance requirement to noncompliance that could be material, either individually or when aggregated with other instances of noncompliance, before consideration of any related controls over compliance.

**Control risk of noncompliance.** The risk that noncompliance with a compliance requirement that could occur and that could be material, either individually or when aggregated with other instances of noncompliance, will not be prevented, or detected and corrected, on a timely basis by the entity's internal control over compliance.

**Significant deficiency in internal control over compliance.** A deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in

internal control over compliance, yet important enough to merit attention by those charged with governance.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. As amended, effective for integrated audits for periods ending on or after December 15, 2016, by SAS No. 130.]

## Requirements

### Adapting and Applying the AU-C Sections to a Compliance Audit (Ref: par. .A5 and .A38)

.12 When performing a compliance audit, the auditor, using professional judgment, should adapt and apply the AU-C sections to the objectives of a compliance audit, except for the AU-C sections listed in the appendix. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

### Establishing Materiality Levels (Ref: par. .A6–.A8)

.13 The auditor should establish and apply materiality levels for the compliance audit based on the governmental audit requirement.

### Identifying Government Programs and Applicable Compliance Requirements (Ref: par. .A9–.A11)

.14 As discussed in paragraph .08, a compliance audit is based on the premise that management is responsible for identifying the entity's government programs and understanding and complying with the compliance requirements. The auditor should determine which of those government programs and compliance requirements to test (that is, the applicable compliance requirements) in accordance with the governmental audit requirement.

### Performing Risk Assessment Procedures (Ref: par. .A12–.A15)

.15 For each of the government programs and applicable compliance requirements selected for testing, the auditor should perform risk assessment procedures to obtain a sufficient understanding of the applicable compliance requirements and the entity's internal control over compliance with the applicable compliance requirements.<sup>1</sup>

.16 In performing risk assessment procedures, the auditor should inquire of management about whether there are findings and recommendations in reports or other written communications resulting from previous audits, attestation engagements, and internal or external monitoring that directly relate to the objectives of the compliance audit. The auditor should gain an understanding of management's response to findings and recommendations that could have a material effect on the entity's compliance with the applicable compliance requirements (for example, taking corrective action). The auditor should use this information to assess risk and determine the nature, timing, and extent of the audit procedures for the compliance audit, including determining the extent to

---

<sup>1</sup> Paragraphs .03–.12b and .12d–.25 of section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

which testing the implementation of any corrective actions is applicable to the audit objectives.

## Assessing the Risks of Material Noncompliance (Ref: par. .A16–.A18)

.17 The auditor should assess the risks of material noncompliance whether due to fraud or error for each applicable compliance requirement and should consider whether any of those risks are pervasive to the entity's compliance because they may affect the entity's compliance with many compliance requirements.<sup>2</sup>

## Performing Further Audit Procedures in Response to Assessed Risks

.18 If the auditor identifies risks of material noncompliance that are pervasive to the entity's compliance, the auditor should develop an overall response to such risks. (Ref: par. .A19)

.19 The auditor should design and perform further audit procedures, including tests of details (which may include tests of transactions) to obtain sufficient appropriate audit evidence about the entity's compliance with each of the applicable compliance requirements in response to the assessed risks of material noncompliance. Risk assessment procedures, tests of controls, and analytical procedures alone are not sufficient to address a risk of material noncompliance. (Ref: par. .A20–.A23)

.20 The auditor should design and perform further audit procedures in response to the assessed risks of material noncompliance. These procedures should include performing tests of controls over compliance if

- the auditor's risk assessment includes an expectation of the operating effectiveness of controls over compliance related to the applicable compliance requirements;
- substantive procedures alone do not provide sufficient appropriate audit evidence; or
- such tests of controls over compliance are required by the governmental audit requirement.

If any of the conditions in this paragraph are met, the auditor should test the operating effectiveness of controls over each applicable compliance requirement to which the conditions apply in each compliance audit. (Ref: par. .A24–.A25)

## Supplementary Audit Requirements

.21 The auditor should determine whether audit requirements are specified in the governmental audit requirement that are supplementary to GAAS and *Government Auditing Standards* and perform procedures to address those requirements, if any. (Ref: par. .A26)

.22 In instances where audit guidance provided by a governmental agency for the performance of compliance audits has not been updated for, or otherwise conflicts with, current GAAS or *Government Auditing Standards*, the auditor should comply with the most current applicable GAAS and *Government Auditing Standards* instead of the outdated or conflicting guidance. (Ref: par. .A27)

---

<sup>2</sup> Paragraphs .28–.32 of section 315. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

## Written Representations

.23 The auditor should request from management written representations<sup>3</sup> that are tailored to the entity and the governmental audit requirement: (Ref: par. .A28)

- a. acknowledging management's responsibility for understanding and complying with the compliance requirements;
- b. acknowledging management's responsibility for establishing and maintaining controls that provide reasonable assurance that the entity administers government programs in accordance with the compliance requirements;
- c. stating that management has identified and disclosed to the auditor all of its government programs and related activities subject to the governmental audit requirement;
- d. stating that management has made available to the auditor all contracts and grant agreements, including amendments, if any, and any other correspondence relevant to the programs and related activities subject to the governmental audit requirement;
- e. stating that management has disclosed to the auditor all known noncompliance with the applicable compliance requirements or stating that there was no such noncompliance;
- f. stating whether management believes that the entity has complied with the applicable compliance requirements (except for noncompliance it has disclosed to the auditor);
- g. stating that management has made available to the auditor all documentation related to compliance with the applicable compliance requirements;
- h. identifying management's interpretation of any applicable compliance requirements that are subject to varying interpretations;
- i. stating that management has disclosed to the auditor any communications from grantors and pass-through entities concerning possible noncompliance with the applicable compliance requirements, including communications received from the end of the period covered by the compliance audit to the date of the auditor's report;
- j. stating that management has disclosed to the auditor the findings received and related corrective actions taken for previous audits, attestation engagements, and internal or external monitoring that directly relate to the objectives of the compliance audit, including findings received and corrective actions taken from the end of the period covered by the compliance audit to the date of the auditor's report;
- k. stating that management has disclosed to the auditor all known noncompliance with the applicable compliance requirements subsequent to the period covered by the auditor's report or stating that there were no such known instances; and
- l. stating that management is responsible for taking corrective action on audit findings of the compliance audit.

---

<sup>3</sup> See section 580, *Written Representations*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.24** If the auditor determines that it is necessary to obtain additional representations related to the entity's compliance with the applicable compliance requirements, the auditor should request such additional representations.

## Subsequent Events

**.25** The auditor should perform audit procedures up to the date of the auditor's report to obtain sufficient appropriate audit evidence that all subsequent events related to the entity's compliance during the period covered by the auditor's report on compliance have been identified. (Ref: par. .A29)

**.26** The auditor should take into account the auditor's risk assessment in determining the nature and extent of such audit procedures, which should include, but are not limited to, inquiring of management about and considering

- relevant internal auditors' reports issued during the subsequent period.
- other auditors' reports identifying noncompliance that were issued during the subsequent period.
- reports from grantors and pass-through entities on the entity's noncompliance that were issued during the subsequent period.
- information about the entity's noncompliance obtained through other professional engagements performed for that entity.

**.27** The auditor has no obligation to perform any audit procedures related to the entity's compliance during the period subsequent to the period covered by the auditor's report. However, if before the report release date, the auditor becomes aware of noncompliance in the period subsequent to the period covered by the auditor's report that is of such a nature and significance that its disclosure is needed to prevent report users from being misled, the auditor should discuss the matter with management and, if appropriate, those charged with governance, and should include an other-matter paragraph in the auditor's report describing the nature of the noncompliance. (Ref: par. .A30) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

## Evaluating the Sufficiency and Appropriateness of the Audit Evidence and Forming an Opinion (Ref: par. .A31–.A32)

**.28** The auditor should evaluate the sufficiency and appropriateness of the audit evidence obtained.<sup>4</sup>

**.29** The auditor should form an opinion, at the level specified by the governmental audit requirement, on whether the entity complied in all material respects with the applicable compliance requirements, and report appropriately. In forming an opinion, the auditor should evaluate likely questioned costs, not just known questioned costs, as well as other material noncompliance that, by its nature, may not result in questioned costs.

---

<sup>4</sup> Paragraphs .27–.29 of section 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

## Reporting

### Report on Compliance Only

.30 The auditor's report on compliance should be in writing and include the following elements:

- a. A title that includes the word *independent*.
- b. An addressee appropriate for the circumstances of the engagement.
- c. An introductory paragraph that includes the following:
  - i. Identification of the one or more government programs covered by the compliance audit or reference to a separate schedule containing that information
  - ii. Identification of the applicable compliance requirements or a reference to where they can be found
  - iii. Identification of the period covered by the report
- d. A section with the heading "Management's Responsibility" that includes a statement that compliance with the applicable compliance requirements is the responsibility of the entity's management. If the document containing the auditor's report contains a separate statement by management about its responsibility for the applicable compliance requirements, the auditor's report should not include a reference to such statement by management.
- e. A section with the heading "Auditor's Responsibility" that includes the following statements:
  - i. A statement that the auditor's responsibility is to express an opinion on the entity's compliance with the applicable compliance requirements based on the compliance audit
  - ii. A statement that the compliance audit was conducted in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, and the governmental audit requirement
  - iii. A statement that the compliance audit included examining, on a test basis, evidence about the entity's compliance with those requirements and performing such other procedures as the auditor considered necessary in the circumstances
  - iv. A statement that the auditor believes the compliance audit provides a reasonable basis for the auditor's opinion
  - v. A statement that the compliance audit does not provide a legal determination of the entity's compliance
- f. If noncompliance results in a modified opinion, a section with an appropriate heading, indicating the basis for the modified opinion that includes a description of such noncompliance, or a reference to a description of such noncompliance in an accompanying schedule.<sup>5</sup> (Ref: par. .A34)

---

<sup>5</sup> Paragraph .17 of section 705, *Modifications to the Opinion in the Independent Auditor's Report*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

- g. A section with the heading "Opinion" that includes the auditor's opinion, at the level specified by the governmental audit requirement, on whether the entity complied, in all material respects, with the applicable compliance requirements.
- h. If other noncompliance that is required to be reported by the governmental audit requirement is identified (that is, noncompliance that does not result in a modified opinion), an other-matter paragraph<sup>6</sup> that includes a description of such noncompliance or a reference to a description of such noncompliance in an accompanying schedule. (Ref: par. .A34)
- i. If the criteria used to evaluate compliance are
  - i. established or determined by contractual agreement or regulatory provisions that are developed solely for the parties to the agreement or regulatory agency responsible for the provisions or
  - ii. available only to the specified parties,an alert describing the purpose of the auditor's report and that the report is not suitable for any other purpose, as required by section 905, *Alert That Restricts the Use of the Auditor's Written Communication*.<sup>7</sup>
- j. The manual or printed signature of the auditor's firm.
- k. The city and state where the auditor practices.
- l. The date of the auditor's report.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. As amended, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

### **Combined Report on Compliance and Internal Control Over Compliance**

**.31** If the governmental audit requirement requires the auditor to report on internal control over compliance and the auditor combines the auditor's report on compliance with a report on internal control over compliance, the following should be added to the report elements listed in paragraph .30 in a section with the heading "Internal Control Over Compliance" that appears before the section required by paragraph 30*i*, if any:

- a. A statement that management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, rules, and provisions of contracts or grant agreements applicable to government programs.
- b. A statement that in planning and performing the compliance audit, the auditor considered the entity's internal control over compliance with the applicable compliance requirements to determine the auditing procedures for the purpose of expressing an opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance.

---

<sup>6</sup> Paragraph .08 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123.]

<sup>7</sup> See paragraphs .06*a-b*, .11, and .A11 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. [Footnote added, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

- c. A statement that the auditor is not expressing an opinion on internal control over compliance.
- d. A statement that the auditor's consideration of the entity's internal control over compliance was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses in internal control over compliance.
- e. The definition of *deficiency in internal control over compliance* and *material weakness in internal control over compliance*.
- f. A description of any identified material weaknesses in internal control over compliance or a reference to an accompanying schedule containing such a description.
- g. If significant deficiencies in internal control over compliance were identified, the definition of *significant deficiency in internal control over compliance* and a description of the deficiencies or a reference to an accompanying schedule containing such a description.
- h. If no material weaknesses in internal control over compliance were identified, a statement to that effect.
- i. The alert described in paragraph .30i. The alert should be included in all combined reports on the entity's compliance and internal control over compliance.

A combined report on compliance and internal control over compliance is presented in the exhibit "Illustrative Combined Report on Compliance With Applicable Requirements and Internal Control Over Compliance—(Unmodified Opinion on Compliance; No Material Weaknesses or Significant Deficiencies in Internal Control Over Compliance Identified)." [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. As amended, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

### **Separate Report on Internal Control Over Compliance**

**.32** If the governmental audit requirement requires the auditor to report on internal control over compliance and the auditor chooses to issue a separate report on internal control over compliance, the auditor should include in that separate report the elements in paragraph .31a–i and the following additional elements:

- a. A title that includes the word *independent*
- b. A statement that the auditor audited the entity's compliance with applicable compliance requirements pertaining to [*identify the government program(s) and the period audited*] and a reference to the auditor's report on compliance
- c. A statement that the compliance audit was conducted in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, and the governmental audit requirement
- d. The manual or printed signature of the auditor's firm
- e. The date of the auditor's report

**.33** The auditor should report noncompliance as well as other matters that are required to be reported by the governmental audit requirement in the manner specified by the governmental audit requirement. If the other matters required to be reported by the governmental audit requirement are not

appropriate for the auditor to report on, the auditor should follow paragraph .38. (Ref: par. .A34)

**.34** The auditor should modify the auditor's opinion on compliance in accordance with section 705, *Modifications to the Opinion in the Independent Auditor's Report*, if any of the following conditions exist:

- a. The compliance audit identifies noncompliance with the applicable compliance requirements that the auditor believes has a material effect on the entity's compliance.
- b. A restriction on the scope of the compliance audit.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.35** The auditor should modify the report described in paragraphs .30 and .32 when the auditor makes reference to the report of another auditor as the basis, in part, for the auditor's report.

**.36** In the absence of a governmental audit requirement to report on internal control over compliance, the auditor should, nevertheless, communicate in writing to management and those charged with governance identified significant deficiencies and material weakness in internal control over compliance.<sup>8</sup> (Ref: par. .A35–.A36)

**.37** The auditor also should communicate to those charged with governance of the auditor's responsibilities under GAAS, *Government Auditing Standards*, and the governmental audit requirement, an overview of the planned scope and timing of the compliance audit, and significant findings from the compliance audit.<sup>9</sup> [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.38** Printed forms, schedules, or reports designed or adopted by government agencies with which they are to be filed sometimes contain prescribed wording. If a printed form, schedule, or report requires the auditor to make a statement that the auditor has no basis to make, the auditor should accordingly reword the form, schedule, or report or attach an appropriately worded separate report. (Ref: par. .A37)

## Documentation (Ref: par. .A38)

**.39** The auditor should document the risk assessment procedures performed, including those related to gaining an understanding of internal control over compliance.<sup>10</sup>

**.40** The auditor should document the auditor's responses to the assessed risks of material noncompliance, the procedures performed to test compliance

---

<sup>8</sup> See section 265, *Communicating Internal Control Related Matters Identified in an Audit*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

<sup>9</sup> See section 260, *The Auditor's Communication With Those Charged With Governance*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

<sup>10</sup> Paragraph .33a–b and .33d of section 315. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

with the applicable compliance requirements, and the results of those procedures, including any tests of controls over compliance.<sup>11</sup>

.41 The auditor should document materiality levels and the basis on which they were determined.

.42 The auditor should document how the auditor complied with the specific governmental audit requirements that are supplementary to GAAS and *Government Auditing Standards*.

## Reissuance of the Compliance Report (Ref: par. .A39–.A40)

.43 If an auditor reissues the auditor's report, the reissued report should include an other-matter paragraph stating that the report is replacing a previously issued report and describing the reasons why the report is being reissued, and any changes from the previously issued report. If additional procedures are performed to obtain sufficient appropriate audit evidence for all of the government programs being reported on, the auditor's report date should be updated to reflect the date the auditor obtained sufficient appropriate audit evidence regarding the events that caused the auditor to perform the new procedures. If, however, additional procedures are performed to obtain sufficient appropriate audit evidence for only some of the government programs being reported on, the auditor should dual date the report with the updated report date reflecting the date the auditor obtained sufficient appropriate audit evidence regarding the government programs affected by the circumstances and referencing the government programs for which additional audit procedures have been performed. Reissuance of an auditor-prepared document required by the governmental audit requirement that is incorporated by reference into the auditor's report is considered to be a reissuance of the report. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

## Application and Other Explanatory Material

### Introduction and Applicability

.A1 An example of an engagement to which this section is applicable is an audit performed in accordance with the provisions of Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. This section is applicable because OMB Circular A-133 is a governmental audit requirement that requires the auditor to perform a compliance audit in accordance with both GAAS and *Government Auditing Standards* and to express an opinion on compliance. Another example is a department specific requirement such as the U.S. Department of Housing and Urban Development *Audit Requirements Related to Entities Such As Public Housing Agencies, Nonprofit and For-Profit Housing Projects, and Certain Lenders*. An example of an engagement to which this section is not applicable is an engagement performed to satisfy a law or regulation requiring the entity to have an auditor determine whether the entity has spent transportation excise tax monies in accordance with the specific purposes outlined in the law or regulation, but not requiring that the audit be performed in accordance with both GAAS and

---

<sup>11</sup> Paragraph .30 of section 330. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

*Government Auditing Standards.* Such an engagement could be performed under AT-C section 315; AT-C section 205; or AT-C section 215, *Agreed-Upon Procedures Engagements*, depending on the requirements of the government.

Law or regulation will not always indicate which standards to follow. In such cases, professional judgment will be needed to determine, based on the circumstances, the appropriate standards to follow. (Ref: par. .01) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

**.A2** An example of a governmental audit requirement that calls for an examination of an entity's compliance with specified requirements in accordance with AT-C section 315 is the U.S. Department of Education's audit guide *Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers*. (Ref: par. .01 and .03) [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

## Objectives

**.A3** Most governmental audit requirements specify that the auditor's opinion on compliance is at the program level. However, some governmental audit requirements may specify a different level (for example, at the applicable compliance requirement level). (Ref: par. .10) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

## Definitions

### ***Governmental Audit Requirement***

**.A4** Governmental audit requirements also may set forth specific supplementary requirements of the compliance audit (for example, procedures to be performed by the auditor, documentation requirements, the form of reporting, and continuing professional education requirements with which the auditor is required to comply). (Ref: par. .11) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

## **Adapting and Applying the AU-C Sections to a Compliance Audit (Ref: par. .12)**

**.A5** AU-C sections often identify audit procedures and contain examples that are specific to a financial statement audit. The auditor is not expected to adapt or apply all such procedures to the compliance audit, only those that, in the auditor's professional judgment, are relevant and necessary to meet the objectives of the compliance audit. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

## **Establishing Materiality Levels (Ref: par. .13)**

**.A6** In a compliance audit, the auditor's purpose for establishing materiality levels is to

- a. determine the nature and extent of risk assessment procedures.
- b. identify and assess the risks of material noncompliance.
- c. determine the nature, timing, and extent of further audit procedures.

- d. evaluate whether the entity complied with the applicable compliance requirements.
- e. report findings of noncompliance and other matters required to be reported by the governmental audit requirement.

**.A7** Generally, for all of the purposes identified in paragraph .A6, the auditor's consideration of materiality is in relation to the government program taken as a whole. However, the governmental audit requirement may specify a different level of materiality for one or more of these purposes. For example, for purposes of reporting findings of noncompliance, OMB Circular A-133 requires that noncompliance that is material in relation to one of the 14 types of compliance requirements identified in the OMB *Compliance Supplement* (*Compliance Supplement*) be reported. (See paragraph .A10 for further information about the *Compliance Supplement*.)

**.A8** Because the governmental audit requirement usually is established by the grantors and the auditor's report on compliance is primarily for their use, the auditor's determination of materiality usually is influenced by the needs of the grantors. However, in a compliance audit, the auditor's judgment about matters that are material to users of the auditor's report also is based on consideration of the needs of users as a group, including grantors.

## Identifying Government Programs and Applicable Compliance Requirements (Ref: par. .14)

**.A9** Some governmental audit requirements specifically identify the applicable compliance requirements. Other governmental audit requirements provide a framework for the auditor to determine the applicable compliance requirements. For example, the *Compliance Supplement* provides such a framework for OMB Circular A-133 audits.

**.A10** The following are some of the sources an auditor may consult when identifying and obtaining an understanding of the applicable compliance requirements:

- a. The *Compliance Supplement*, which is issued by OMB, and used in OMB Circular A-133 audits, contains the compliance requirements that typically are applicable to federal government programs, as well as suggested audit procedures when compliance requirements are applicable and have a direct and material effect on the entity's compliance. Part 7 of the *Compliance Supplement* provides guidance for identifying compliance requirements for programs not included therein.
- b. The applicable program-specific audit guide issued by the grantor agency, which contains the compliance requirements pertaining to the government program and suggested audit procedures to test for compliance with the applicable compliance requirements.

**.A11** The following are procedures the auditor may perform to identify and obtain an understanding of the applicable compliance requirements if the *Compliance Supplement* or a program-specific audit guide is not applicable:

- a. Reading laws, regulations, rules, and provisions of contracts or grant agreements that pertain to the government program
- b. Making inquiries of management and other knowledgeable entity personnel (for example, the chief financial officer, internal auditors, legal counsel, compliance officers, or grant or contract administrators)

- c. Making inquiries of appropriate individuals outside the entity, such as
  - i. the office of the federal, state, or local program official or auditor, or other appropriate audit oversight organizations or regulators, about the laws and regulations applicable to entities within their jurisdiction, including statutes and uniform reporting requirements
  - ii. a third-party specialist, such as an attorney
- d. Reading the minutes of meetings of the governing board of the entity being audited
- e. Reading audit documentation about the applicable compliance requirements prepared during prior years' audits or other engagements
- f. Discussing the applicable compliance requirements with auditors who performed prior years' audits or other engagements

The procedures listed in this paragraph also may assist the auditor in obtaining a further understanding of the applicable compliance requirements even when the *Compliance Supplement* or program-specific audit guide is applicable.

### Performing Risk Assessment Procedures (Ref: par. .15–.16)

**.A12** Obtaining an understanding of the government program, the applicable compliance requirements, and the entity's internal control over compliance establishes a frame of reference within which the auditor plans the compliance audit and exercises professional judgment about assessing risks of material noncompliance and responding to those risks throughout the compliance audit.

**.A13** The nature and extent of the risk assessment procedures the auditor performs may vary from entity to entity and are influenced by factors such as the following:

- The newness and complexity of the applicable compliance requirements
- The auditor's knowledge of the entity's internal control over compliance with the applicable compliance requirements obtained in previous audits or other professional engagements
- The nature of the applicable compliance requirements
- The services provided by the entity and how they are affected by external factors
- The level of oversight by the grantor or pass-through entity
- How management addresses findings

**.A14** Performing risk assessment procedures to obtain an understanding of the entity's internal control over compliance includes an evaluation of the design of controls and whether the controls have been implemented. Internal control consists of the following five interrelated components: the control environment, the entity's risk assessment, information and communication systems, control activities, and monitoring.<sup>[12]</sup> Section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*,

---

<sup>[12]</sup> [Footnote deleted, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

contains a detailed discussion of these components.<sup>13</sup> [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.A15** The auditor's procedures described in paragraph .16, related to understanding how management has responded to findings and recommendations that could have a material effect on the entity's compliance with the applicable compliance requirements, are performed to assist the auditor in understanding whether management responded appropriately to such findings. Examples of external monitoring include regulatory reviews, program reviews by government agencies or pass-through entities, and grantor reviews. Examples of internal monitoring include reports prepared by the internal audit function and internal quality assessments.

## Assessing the Risks of Material Noncompliance (Ref: par. .17)

**.A16** Factors the auditor may consider in assessing the risks of material noncompliance are as follows:

- The complexity of the applicable compliance requirements
- The susceptibility of the applicable compliance requirements to noncompliance
- The length of time the entity has been subject to the applicable compliance requirements
- The auditor's observations about how the entity has complied with the applicable compliance requirements in prior years
- The potential effect on the entity of noncompliance with the applicable compliance requirements
- The degree of judgment involved in adhering to the compliance requirements
- The auditor's assessment of the risks of material misstatement in the financial statement audit

**.A17** In assessing the risks of material noncompliance, the auditor may evaluate inherent risk of noncompliance and control risk of noncompliance individually or in combination.

**.A18** Examples of situations in which there may be a risk of material noncompliance that is pervasive to the entity's noncompliance are as follows:

- An entity that is experiencing financial difficulty and for which there is an increased risk that grant funds will be diverted for unauthorized purposes
- An entity that has a history of poor recordkeeping for its government programs

## Performing Further Audit Procedures in Response to Assessed Risks

**.A19** Section 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*, provides guidance that

---

<sup>13</sup> Paragraphs .15–.25 and appendix B, "Internal Control Components," of section 315. [Footnote added to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

may be adapted when developing an overall response to the risks of material noncompliance.<sup>14</sup> (Ref: par. .18) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.A20** A compliance audit includes designing procedures to detect both intentional and unintentional material noncompliance. The auditor can obtain reasonable, but not absolute, assurance about the entity's compliance because of factors such as the need for judgment, the use of sampling, the inherent limitations of internal control over compliance with applicable compliance requirements, and the fact that much of the evidence available to the auditor is persuasive rather than conclusive in nature. Also, procedures that are effective for detecting noncompliance that is unintentional may be ineffective for detecting noncompliance that is intentional and concealed through collusion between entity personnel and a third party or among management or employees of the entity. Therefore, the subsequent discovery that material noncompliance with applicable compliance requirements exists does not, in and of itself, evidence inadequate planning, performance, or judgment on the part of the auditor. (Ref: par. .19)

**.A21** An auditor may decide to use audit sampling to obtain sufficient appropriate audit evidence in a compliance audit. Section 530, *Audit Sampling*, discusses the factors to be considered in planning, designing, and evaluating audit samples, including sampling for tests of controls. In addition, the AICPA Audit Guide Government Auditing Standards and *Circular A-133 Audits* contains guidance on sampling in the context of a compliance audit. (Ref: par. .19) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.A22** To test for compliance with applicable laws and regulations, tests of details (including tests of transactions) may be performed in the following areas:

- Grant disbursements or expenditures
- Eligibility files
- Cost allocation plans
- Periodic reports filed with grantor agencies (Ref: par. .19)

**.A23** The use of analytical procedures to gather substantive evidence is generally less effective in a compliance audit than it is in a financial statement audit. However, substantive analytical procedures may contribute some evidence when performed in addition to tests of transactions and other auditing procedures necessary to provide the auditor with sufficient appropriate audit evidence. (Ref: par. .19)

**.A24** Section 330 provides guidance related to designing and performing further audit procedures in response to the assessed risks of material noncompliance.<sup>15</sup> Section 330, which also addresses the use of audit evidence about the operating effectiveness of controls obtained in prior audits, are not

---

<sup>14</sup> Paragraphs .A1–.A3 of section 330. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

<sup>15</sup> Paragraphs .06–.12, .15–.18, and .22–.25 of section 330. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

applicable to a compliance audit.<sup>16</sup> (Ref: par. .20) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**.A25** Some governmental audit requirements, for example, OMB Circular A-133, require tests of the operating effectiveness of controls identified as likely to be effective, even if the auditor believes that such testing would be inefficient. (Ref: par. .20)

## Supplementary Audit Requirements

**.A26** Examples of supplementary audit requirements are the requirements in OMB Circular A-133 for the auditor to

- perform specified procedures to identify major programs.
- follow up on prior audit findings and perform procedures to assess the reasonableness of the summary schedule of prior audit findings. (Ref: par. .21)

**.A27** When there is conflicting guidance, the auditor may decide to consult with the government agency responsible for establishing audit guidance or that provides the funding. (Ref: par. .22)

## Written Representations

**.A28** In some cases, management may include qualifying language in the written representations to the effect that representations are made to the best of management's knowledge and belief. However, such qualifying language is not appropriate for the representations in paragraph .23a–b and .23l. (Ref: par. .23)

## Subsequent Events

**.A29** Two types of subsequent events may occur. The first type consists of events that provide additional evidence with respect to conditions that existed at the end of the reporting period that affect the entity's compliance during the reporting period. The second type consists of events of noncompliance that did not exist at the end of the reporting period but arose subsequent to the reporting period. (Ref: par. .25)

**.A30** An example of a matter of noncompliance that may occur subsequent to the period being audited but before the report release date that may warrant disclosure to prevent report users from being misled is the discovery of noncompliance in the subsequent period of such magnitude that it caused the grantor to stop funding the program. (Ref: par. .27)

## Evaluating the Sufficiency and Appropriateness of the Audit Evidence and Forming an Opinion (Ref: par. .28–.29)

**.A31** In determining whether an entity has materially complied with the applicable compliance requirements, the auditor may consider the following factors:

- a. The frequency of noncompliance with the applicable compliance requirements identified during the compliance audit

---

<sup>16</sup> Paragraph .13–.14 of section 330. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

- b. The nature of the noncompliance with the applicable compliance requirements identified
- c. The adequacy of the entity's system for monitoring compliance with the applicable compliance requirements and the possible effect of any noncompliance on the entity
- d. Whether any identified noncompliance with the applicable compliance requirements resulted in likely questioned costs that are material to the government program

**.A32** The auditor's evaluation of whether the entity materially complied with applicable compliance requirements includes consideration of noncompliance identified by the auditor, regardless of whether the entity corrected the noncompliance after the auditor brought it to management's attention.

## Reporting

[.A33] [Paragraph deleted by the issuance of SAS No. 125, December 2011.]<sup>[17]</sup>

**.A34** If the report is a matter of public record or available for public inspection, removing personally identifiable information in the compliance audit report and findings of noncompliance will reduce the likelihood of sensitive information being disclosed. (Ref: par. .30*l*–*m* and .33)

**.A35** When the auditor communicates significant deficiencies or material weaknesses in internal control over compliance to management and those charged with governance, *Government Auditing Standards* also requires the auditor to obtain a response from the responsible officials, preferably in writing, concerning their views on the findings, conclusions, and recommendations included in the auditor's report on internal control over compliance and include a copy of any written response in the auditor's report.<sup>18</sup> (Ref: par. .36)

**.A36** If such a written response is included in a document containing the auditor's written communication to management and those charged with governance concerning identified significant deficiencies or material weaknesses in internal control over compliance, the auditor may add a paragraph to the auditor's written communication disclaiming an opinion on such information. Following is an example of such a paragraph: (Ref: par. .36)

ABC Agency's written response to the significant deficiencies [*and material weaknesses*] in internal control over compliance identified in our compliance audit was not subjected to the auditing procedures applied in the compliance audit of ABC Agency's compliance and, accordingly, we express no opinion on it.

**.A37** If the auditor is submitting a reworded form, schedule, or report or appropriately worded separate report, the auditor may include a separate communication to the agency explaining why the auditor's report was modified. (Ref: par. .38)

---

<sup>[17]</sup> [Footnote renumbered and revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered and deleted by the issuance of SAS No. 125, December 2011.]

<sup>18</sup> See the "Reporting Views of Responsibilities Officials" section of *Government Auditing Standards*. [Footnote renumbered and revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011.]

**Documentation (Ref: par. .12 and .39–.42)**

**.A38** The auditor is not expected to prepare specific documentation of how the auditor adapted and applied each of the applicable AU-C sections to the objectives of a compliance audit. The documentation of the audit strategy, audit plan, and work performed cumulatively demonstrate whether the auditor has complied with the requirement in paragraph .12. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

**Reissuance of the Compliance Report (Ref: par. .43)**

**.A39** The following are examples of situations in which the auditor might reissue the compliance report:

- A quality control review performed by a governmental agency indicates that the auditor did not test an applicable compliance requirement.
- The discovery subsequent to the date of the compliance report that the entity had another government program that was required to be tested.

**.A40** An example of an auditor-prepared document required by a governmental audit requirement that is incorporated by reference in the auditor's report is the schedule of findings and questioned costs in a compliance audit under OMB Circular A-133.

.A41

## Appendix—AU-C Sections That Are Not Applicable to Compliance Audits<sup>[1]</sup>

The following AU-C sections and individually enumerated requirement paragraphs of specific AU-C sections are not applicable to a compliance audit performed under this section either because (a) they are not relevant to a compliance audit environment, (b) the procedures and guidance would not contribute to meeting the objectives of a compliance audit, or (c) the subject matter is specifically covered in this section. Where the table in this appendix specifies individual requirement paragraphs rather than an entire AU-C section, the application and other explanatory material paragraphs related to such requirement paragraphs also do not apply. However, an auditor may apply these AU-C sections and paragraphs if the auditor believes doing so will provide appropriate audit evidence in the specific circumstances to support the auditor's opinion on compliance.

<i>AU-C Section</i>	<i>Paragraphs Not Applicable to Compliance Audits</i>
<i>210, Terms of Engagement</i>	Paragraphs .06a and .08a
<i>240, Consideration of Fraud in a Financial Statement Audit</i>	Paragraphs .26 and .32b
<i>250, Consideration of Laws and Regulations in an Audit of Financial Statements</i>	All
<i>315, Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement</i>	Paragraphs .12c, .26–.27, and .33c
<i>330, Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained</i>	Paragraphs .13–.14, .19–.21, .26, and .31–.32
<i>501, Audit Evidence—Specific Considerations for Selected Items</i>	All
<i>505, External Confirmations</i>	All
<i>510, Opening Balances—Initial Audit Engagements, Including Reaudit Engagements</i>	Paragraphs .06, .08–.13, and .15–.17
<i>540, Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures</i>	All
<i>550, Related Parties</i>	All
<i>560, Subsequent Events and Subsequently Discovered Facts</i>	Paragraphs .09–.11 and .19–.20
<i>570, The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern</i>	All
<i>600, Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)</i>	Paragraphs .25a, .38, .40c, .54, and .55c

(continued)

<sup>[1]</sup> [Footnote deleted, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

<i>AU-C Section</i>	<i>Paragraphs Not Applicable to Compliance Audits</i>
<i>700A, Forming an Opinion and Reporting on Financial Statements</i>	Paragraphs .14–.18, .21–.41, and .44–.58
<i>705, Modifications to the Opinion in the Independent Auditor's Report</i>	Paragraphs .18–.20
<i>706, Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report</i>	Paragraphs .06–.07
<i>708, Consistency of Financial Statements</i>	All
<i>720, Other Information in Documents Containing Audited Financial Statements</i>	All
<i>725, Supplementary Information in Relation to the Financial Statements as a Whole</i>	All
<i>730, Required Supplementary Information</i>	All
<i>800, Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks</i>	All
<i>805, Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement</i>	All
<i>806, Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements</i>	All
<i>810, Engagements to Report on Summary Financial Statements</i>	All
<i>910, Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country</i>	All
<i>915, Reports on Application of Requirements of an Applicable Financial Reporting Framework</i>	All
<i>920, Letters for Underwriters and Certain Other Requesting Parties</i>	All
<i>925, Filings With the U.S. Securities and Exchange Commission Under the Securities Act of 1933</i>	All

## **Exhibit—Illustrative Combined Report on Compliance With Applicable Requirements and Internal Control Over Compliance—(Unmodified Opinion on Compliance, No Material Weaknesses or Significant Deficiencies in Internal Control Over Compliance Identified)**

The following is an illustrative combined report on compliance with applicable requirements and internal control over compliance that contains the elements in paragraphs .30–.31. This illustrative report contains an unmodified opinion on compliance with no material weaknesses or significant deficiencies in internal control over compliance identified. The AICPA Audit Guide *Government Auditing Standards and Circular A-133 Audits* contains illustrative language for other types of reports, including reports containing qualified or adverse opinions on compliance with either material weaknesses in internal control over compliance, significant deficiencies in internal control over compliance, or both identified.

### **Independent Auditor's Report**

[Addressee]

#### **Compliance**

We have audited Example Entity's compliance with the [identify the applicable compliance requirements or refer to the document that describes the applicable compliance requirements] applicable to Example Entity's [identify the government program(s) audited or refer to a separate schedule that identifies the program(s)] for the year ended June 30, 20X1.

#### **Management's Responsibility**

Compliance with the requirements referred to above is the responsibility of Example Entity's management.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on Example Entity's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*<sup>1</sup> issued by the Comptroller General of the United States; and [insert the name of the governmental audit requirement or program-specific audit guide]. Those standards and [insert the name of the governmental audit requirement or program-specific audit guide] require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on [identify the government program(s) audited or refer to a separate schedule that identifies the program(s)] occurred. An audit includes examining, on a test basis, evidence about Example Entity's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our

---

<sup>1</sup> The standards applicable to financial audits are in chapters 1–5 of *Government Auditing Standards*.

audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Example Entity's compliance with those requirements.

### **Opinion**

In our opinion, Example Entity complied, in all material respects, with the compliance requirements referred to above that are applicable to [*identify the government program(s) audited*] for the year ended June 30, 20X1.

### **Internal Control Over Compliance**

Management of Example Entity is responsible for establishing and maintaining effective internal control over compliance with the compliance requirements referred to above. In planning and performing our audit, we considered Example Entity's internal control over compliance to determine the auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Example Entity's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A *material weakness* in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses in internal control over compliance. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the [*insert the name of the governmental audit requirement or program-specific audit guide*]. Accordingly, this report is not suitable for any other purpose.

[*Signature*]

[*Date*]

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Revised, April 2013, to reflect conforming changes necessary due to the issuance of SAS No. 125.]

## AU-C Section 940

# ***An Audit of Internal Control Over Financial Reporting That Is Integrated With an Audit of Financial Statements***

**Source:** SAS No. 130.

**Effective for integrated audits for periods ending on or after December 15, 2016.**

## **Introduction**

### **Scope of This Section**

**.01** This section establishes requirements and provides guidance that applies only when an auditor is engaged to perform an audit of internal control over financial reporting (ICFR) that is integrated with an audit of financial statements (*integrated audit*). (Ref: par. .A1)

**.02** Generally accepted auditing standards (GAAS) are written in the context of an audit of financial statements but are to be adapted as necessary in the circumstances when applied to an audit of ICFR that is integrated with an audit of financial statements.<sup>1</sup> This section includes special considerations related to performing an integrated audit.

### **Effective Date**

**.03** This section is effective for integrated audits for periods ending on or after December 15, 2016.

### **Objectives**

- .04** The objectives of the auditor in an audit of ICFR are to
- a. obtain reasonable assurance about whether material weaknesses exist as of the date specified in management's assessment about the effectiveness of ICFR (*as of date*) and
  - b. express an opinion on the effectiveness of ICFR in a written report, and communicate with management and those charged with governance as required by this section, based on the auditor's findings. (Ref: par. .A2–.A4)

### **Definitions**

**.05** For purposes of GAAS, the following terms have the meanings attributed as follows:

---

<sup>1</sup> Paragraph .02 of section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*.

**Audit of ICFR.** An audit of the design and operating effectiveness of an entity's ICFR.

**Control objective.** The aim or purpose of specified controls. Control objectives address the risks that the controls are intended to mitigate. In the context of ICFR, a control objective generally relates to a relevant assertion for a significant class of transactions, account balance, or disclosure and addresses the risk that the controls in a specific area will not provide reasonable assurance that a misstatement or omission in that relevant assertion is prevented, or detected and corrected, on a timely basis.

**Criteria.** The benchmarks used to measure or evaluate the subject matter. (Ref: par. .A5)

**Detective control.** A control that has the objective of detecting and correcting errors or fraud that have already occurred that could result in a misstatement of the financial statements.

**Internal control over financial reporting (ICFR).** A process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with the applicable financial reporting framework and includes those policies and procedures that

- i. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity;
- ii. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with the applicable financial reporting framework, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and
- iii. provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

ICFR has inherent limitations. ICFR is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. ICFR also can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements will not be prevented, or detected and corrected, on a timely basis by ICFR. (Ref: par. .A6–.A7)

**Management's assessment about ICFR.** Management's conclusion about the effectiveness of the entity's ICFR, based on suitable and available criteria. Management's assessment is included in management's report on ICFR. (Ref: par. .A8)

**Preventive control.** A control that has the objective of preventing errors or fraud that could result in a misstatement of the financial statements.

## Requirements

### Preconditions for the Audit of ICFR

**.06** Section 210, *Terms of Engagement*, requires the auditor to establish whether the preconditions for an audit are present.<sup>2</sup> In an audit of ICFR, the auditor should

- a. obtain the agreement of management that it acknowledges and understands its responsibility for
  - i. designing, implementing, and maintaining effective ICFR.
  - ii. evaluating the effectiveness of the entity's ICFR using suitable and available criteria.
  - iii. providing management's assessment about ICFR in a report that accompanies the auditor's report (see paragraph .55).
  - iv. supporting its assessment about the effectiveness of the entity's ICFR with sufficient evaluations and documentation.
  - v. providing the auditor with
    - (1) access to all information of which management is aware that is relevant to management's assessment of ICFR, such as records, documentation, and other matters;
    - (2) additional information that the auditor may request from management for the purpose of the audit of ICFR; and
    - (3) unrestricted access to persons within the entity from whom the auditor determines it necessary to obtain audit evidence. (Ref: par. .A9–.A12)
- b. determine that the as of date corresponds to the balance sheet date (or period ending date) of the period covered by the financial statements. (Ref: par. .A13)

**.07** The auditor should evaluate the effectiveness of the entity's ICFR using the same suitable and available criteria used by management for its assessment. (Ref: par. .A14–.A17)

### Requesting a Written Assessment

**.08** In accordance with paragraph .06a(iii), the auditor should request from management a written assessment about the effectiveness of the entity's ICFR. Management's refusal to provide a written assessment represents a scope limitation, and the auditor should apply the requirements in paragraphs .74–.77.

### Integrating the Audit of ICFR With the Financial Statement Audit

**.09** Although the objectives of an audit of ICFR and an audit of financial statements are not the same, the auditor should plan and perform the integrated audit to achieve their respective objectives simultaneously. The auditor should design tests of controls

---

<sup>2</sup> Paragraph .06 of section 210, *Terms of Engagement*.

- a. to obtain sufficient appropriate audit evidence to support the auditor's opinion on ICFR as of the date specified in management's assessment about ICFR and
- b. to obtain sufficient appropriate audit evidence to support the auditor's control risk assessments for purposes of the audit of financial statements. (Ref: par. .A18–.A19)

.10 If the auditor is engaged to audit the effectiveness of an entity's ICFR for a period of time, the requirements and guidance in this section should be modified accordingly, and the auditor should integrate the audit of ICFR with an audit of financial statements covering the same period of time.

.11 The auditor should consider the effect of the results of the financial statement auditing procedures on the auditor's risk assessments and the testing necessary to conclude on the operating effectiveness of a control.

.12 If, during the audit of ICFR, the auditor identifies a deficiency in ICFR, the auditor should determine the effect of the deficiency, if any, on the nature, timing, and extent of substantive procedures to be performed to reduce audit risk in the audit of the financial statements to an acceptably low level. See paragraphs .52–.54 for requirements on evaluating the effects of findings, including those from the financial statement audit, when forming an opinion on the effectiveness of ICFR.

.13 When concluding on the effectiveness of controls for the purpose of the financial statement audit, the auditor should evaluate the results of any additional tests of controls performed by the auditor to achieve the objective related to expressing an opinion on the entity's ICFR. (Ref: par. .A20)

## Planning the Audit of ICFR

.14 In accordance with section 300, *Planning an Audit*, the auditor should establish an overall audit strategy that sets the scope, timing, and direction of the audit of ICFR and that guides the development of the audit plan.<sup>3</sup> (Ref: par. .A21)

### Role of Risk Assessment

.15 The auditor should focus more attention on areas of higher risk. A direct relationship exists between the degree of risk that a material weakness could exist in a particular area of the entity's ICFR and the amount of attention that would be devoted to that area. In addition, an entity's ICFR is less likely to prevent, or detect and correct, a misstatement caused by fraud than a misstatement caused by error. It is not necessary to test controls that, even if deficient, would not present a reasonable possibility of material misstatement to the financial statements. (Ref: par. .A22–.A24)

### Addressing the Risk of Fraud

.16 The auditor should evaluate whether the entity's controls sufficiently address identified risks of material misstatement due to fraud and the risk of management override of other controls. (Ref: par. .A25)

.17 Section 240, *Consideration of Fraud in a Financial Statement Audit*, requires the auditor to consider whether other information obtained by the auditor indicates risks of material misstatement due to fraud.<sup>4</sup> If the auditor

---

<sup>3</sup> Paragraph .07 of section 300, *Planning an Audit*.

<sup>4</sup> Paragraph .23 of section 240, *Consideration of Fraud in a Financial Statement Audit*.

identifies deficiencies in controls designed to prevent, or detect and correct, misstatements caused by fraud during the audit of ICFR, the auditor should take into account those deficiencies when developing the response to risks of material misstatement during the financial statement audit.<sup>5</sup>

### ***Using the Work of Internal Auditors or Others***

**.18** The external auditor should obtain an understanding of the work of the internal audit function and others sufficient to identify those activities related to the effectiveness of ICFR that are relevant to planning and performing the audit of ICFR. (Ref: par. .A26)

**.19** The external auditor should evaluate the extent to which the external auditor will use the work of internal auditors or others to modify the nature or timing, or reduce the extent, of audit procedures to be performed directly by the external auditor. When using the work of internal auditors, section 610, *Using the Work of Internal Auditors*, is applicable. When the external auditor plans to use the work of others in obtaining audit evidence or to provide direct assistance in the audit of ICFR, the external auditor should apply the requirements in section 610 as if others were internal auditors. (Ref: par. .A27–.A30)

### ***Materiality***

**.20** The auditor should use the same materiality for planning and performing the audit of ICFR and the financial statement audit. (Ref: par. .A31)

### ***Using a Top-Down Approach***

**.21** The auditor should use a top-down approach to the audit of ICFR to select the controls to test. (Ref: par. .A32–.A33)

### ***Entity-Level Controls***

**.22** The auditor should identify and test those entity-level controls that are important to the auditor's conclusion about whether the entity has effective ICFR. (Ref: par. .A34–.A37)

### ***Evaluating the Components of ICFR***

**.23** In an integrated audit, the auditor should evaluate the components of ICFR and determine whether

- a. the components are present and functioning in the design, implementation, and operation of ICFR, and
- b. the components are operating together in an integrated manner to achieve the entity's financial reporting objectives. (Ref: par. .A38–.A48)

### ***Period-End Financial Reporting Process***

**.24** Because of its importance to financial reporting and to the integrated audit, the auditor should evaluate the period-end financial reporting process, which includes the following:

- a. Procedures used to enter transaction totals into the general ledger
- b. Procedures related to the selection and application of accounting policies

---

<sup>5</sup> See paragraphs .28–.33 of section 240.

- c. Procedures used to initiate, authorize, record, and process journal entries in the general ledger
- d. Procedures used to record recurring and nonrecurring adjustments to the financial statements
- e. Procedures for preparing financial statements (Ref: par. .A49)

**.25** As part of evaluating the period-end financial reporting process, the auditor should assess

- a. the inputs, procedures performed, and outputs of the processes the entity uses to produce its financial statements;
- b. the extent of IT involvement in the period-end financial reporting process;
- c. who participates from management;
- d. the locations involved in the period-end financial reporting process;
- e. the types of adjusting and consolidating entries; and
- f. the nature and extent of the oversight of the process by management and those charged with governance.

### ***Identifying Significant Classes of Transactions, Account Balances, and Disclosures, and Their Relative Assertions***

**.26** The auditor should identify significant classes of transactions, account balances, and disclosures, and their relevant assertions. To identify significant classes of transactions, account balances, and disclosures, and their relevant assertions, the auditor should evaluate the qualitative and quantitative risk factors related to the financial statement line items and disclosures. (Ref: par. .A50–.A52)

**.27** As part of identifying significant classes of transactions, account balances, and disclosures, and their relevant assertions, the auditor should determine the likely sources of potential misstatements that would cause the financial statements to be materially misstated. (Ref: par. .A53–.A54)

**.28** When an entity has components, the auditor should identify significant classes of transactions, account balances, and disclosures, and their relevant assertions, based on the group financial statements. (Ref: par. .A55)

### ***Understanding Likely Sources of Misstatement***

**.29** To further understand the likely sources of potential misstatements, and as a part of selecting the controls to test, the auditor should

- a. understand the flow of transactions related to the relevant assertions, including how these transactions are initiated, authorized, recorded, processed, and reported.
- b. identify the points within the entity's processes at which a misstatement, including a misstatement due to fraud, could arise that, individually or in combination with other misstatements, would be material (for example, points at which information is initiated, transferred, or otherwise modified).
- c. identify the controls that management has implemented to address these potential misstatements.
- d. identify the controls that management has implemented over the prevention, or timely detection and correction, of unauthorized acquisition, use, or disposition of the entity's assets that could

have a material effect on the financial statements. (Ref: par. .A56–.A57)

**.30** Because of the degree of judgment necessary, the auditor should either directly perform the procedures that achieve the requirements in paragraph .29 or supervise the work of the internal auditors or others who provide direct assistance to the auditor.

**.31** The auditor should understand how IT affects the entity's flow of transactions and, as required by section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, how the entity has responded to risks arising from IT.<sup>6</sup> (Ref: par. .A58)

### **Selecting Controls to Test**

**.32** The auditor should identify and test those controls that are important to the auditor's conclusion about whether the entity's controls sufficiently address the assessed risk of material misstatement to each relevant assertion. (Ref: par. .A59–.A60)

## **Testing Controls**

### **Evaluating Design Effectiveness**

**.33** The auditor should evaluate the design effectiveness of controls by determining whether the entity's controls, if operated as prescribed by persons possessing the necessary authority and competence to perform them effectively, satisfy the entity's control objectives, and can effectively prevent, or detect and correct, misstatements caused by errors or fraud that could result in material misstatements in the financial statements. (Ref: par. .A61–.A62)

### **Testing Operating Effectiveness**

**.34** The auditor should test the operating effectiveness of a control by determining whether the control is operating as designed and whether the person performing the control possesses the necessary authority and competence to perform the control effectively. (Ref: par. .A63–.A64)

### **Relationship of Risk to the Evidence to Be Obtained**

**.35** As the risk associated with the control being tested increases, the sufficiency and appropriateness of evidence that the auditor obtains should also increase. (Ref: par. .A65–.A68)

**.36** The auditor should obtain evidence about the effectiveness of selected controls for each relevant assertion. The auditor is not responsible for obtaining sufficient appropriate audit evidence to support an opinion about the effectiveness of each individual control. (Ref: par. .A69–.A75)

**.37** To obtain evidence about whether a selected control is effective, the auditor should test the control.

**.38** When the auditor identifies control deviations, the auditor should determine the effect of the deviations on the auditor's assessment of the risk associated with the control being tested and the evidence to be obtained, as well as on the operating effectiveness of the control. (Ref: par. .A76)

---

<sup>6</sup> Paragraph .22 of section 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*.

*Timing and Extent of Tests of Controls*

**.39** To express an opinion on ICFR as of a point in time, the auditor should obtain evidence that ICFR has operated effectively for a sufficient period of time, which may be less than the entire period (ordinarily one year) covered by the entity's financial statements. The auditor should balance performing the tests of controls closer to the as of date with the need to test controls over a sufficient period of time to obtain sufficient appropriate audit evidence of operating effectiveness. (Ref: par. .A77–.A80)

*Rollforward Procedures*

**.40** When the auditor reports on the effectiveness of controls as of a specific date and obtains evidence about the operating effectiveness of controls at an interim date, the auditor should determine what additional evidence concerning the operation of the controls for the remaining period is necessary. (Ref: par. .A81–.A82)

**Special Considerations for Subsequent Years' Audits**

**.41** In subsequent years' audits, the auditor should incorporate knowledge obtained during past audits performed by the auditor of the entity's ICFR into the decision-making process for determining the nature, timing, and extent of testing necessary. (Ref: par. .A83–.A85)

**.42** The auditor should vary the nature, timing, and extent of testing of controls from period to period to introduce unpredictability into the testing and respond to changes in circumstances. (Ref: par. .A86)

**Identifying Deficiencies in ICFR**

**.43** The auditor should determine whether, on the basis of the audit work performed, the auditor has identified one or more deficiencies in ICFR. (Ref: par. .A87)

**Determination of Whether Material Weaknesses Exist as of the Date Specified in Management's Assessment About ICFR**

**.44** For purposes of forming an opinion on the effectiveness of ICFR, the auditor should evaluate the severity of each deficiency in ICFR to determine whether the deficiency, individually or in combination, is a material weakness as of the date specified in management's assessment about ICFR. In performing such evaluation, the auditor should determine whether deficiencies that affect the same significant class of transactions, account balance, or disclosure; relevant assertion; or component of ICFR, collectively result in a material weakness. (Ref: par. .A88–.A94)

**.45** The auditor should evaluate the effect of compensating controls when determining whether a deficiency, or combination of deficiencies, in ICFR is a material weakness as of the date specified in management's assessment about ICFR. The auditor should test the operating effectiveness of such compensating controls to determine whether they operate at a level of precision that would prevent, or detect and correct, a material misstatement. (Ref: par. .A95)

**.46** If the auditor initially determines that a deficiency, or a combination of deficiencies, in ICFR is not a material weakness, the auditor should consider whether prudent officials, having knowledge of the same facts and circumstances, would likely reach the same conclusion. (Ref: par. .A96)

***Determination of Whether Significant Deficiencies Exist During the Integrated Audit***

.47 The auditor should evaluate the severity of each deficiency in ICFR to determine whether the deficiency, individually or in combination, is a significant deficiency. In performing such evaluation, the auditor should determine whether deficiencies that affect the same significant class of transactions, account balance, or disclosure; relevant assertion; or component of ICFR collectively result in a significant deficiency. (Ref: par. .A97–.A98)

**Subsequent Events**

.48 The auditor should inquire of management and, when appropriate, those charged with governance, about whether there were any changes in ICFR or conditions that might significantly affect ICFR subsequent to the as of date but before the date of the auditor's report. To obtain additional information about changes in ICFR or other conditions that might significantly affect the effectiveness of the entity's ICFR, the auditor should inquire about and read, for this subsequent period, the following: (Ref: par. .A99)

- a. Relevant internal audit (or similar functions, such as loan review in a financial institution) reports issued during the subsequent period
- b. Reports regarding deficiencies issued by other independent auditors
- c. Regulatory agency reports on the entity's ICFR
- d. Information about the effectiveness of the entity's ICFR obtained through other engagements performed for the entity by the auditor

.49 If, as a result of the subsequent events procedures, the auditor obtains knowledge about a material weakness that existed as of the date specified in management's assessment about ICFR, the auditor should issue an adverse opinion, as required by paragraph .68. The auditor should also follow paragraph .72 if management's assessment about ICFR states that ICFR is effective. If the auditor is unable to determine the effect of the subsequent event on the effectiveness of the entity's ICFR as of the date specified in management's assessment about ICFR, the auditor should disclaim an opinion. The auditor should disclaim an opinion on management's disclosures about corrective actions taken by the entity, if any. (Ref: par. .A100)

.50 If the auditor obtains knowledge about conditions that did not exist at the as of date but arose subsequent to that date and before the release of the auditor's report and such subsequent information has a material effect on the entity's ICFR, the auditor should include in the auditor's report an emphasis-of-matter paragraph directing the reader's attention to the subsequently discovered fact and its effects as disclosed in management's report or an other-matter paragraph describing the subsequently discovered fact and its effects. (Ref: par. .A101)

.51 The auditor has no responsibility to keep informed of events subsequent to the date of the auditor's report; however, the auditor should respond appropriately to facts that become known to the auditor after the date of the auditor's report that, had they been known to the auditor at that date, may have caused the auditor to revise the auditor's report.

## Concluding Procedures

### *Forming an Opinion*

**.52** The auditor should form an opinion on the effectiveness of ICFR by evaluating evidence obtained from all sources, including

- a. the auditor's testing of controls for the ICFR audit,
- b. any additional tests of controls performed to achieve the objective related to expressing an opinion on the financial statements,
- c. misstatements detected during the financial statement audit, and
- d. any identified deficiencies.

**.53** As part of evaluating evidence obtained from all sources, the auditor should review reports issued during the year by the internal audit function (or similar functions) that address controls related to ICFR and evaluate deficiencies identified in those reports.

**.54** In addition to evaluating the findings from the auditor's testing of controls for the audit of ICFR, the auditor should evaluate the effect of the findings of the substantive procedures performed in the audit of financial statements on the effectiveness of ICFR. This evaluation should include, at a minimum,

- a. the risk assessments in connection with the selection and application of substantive procedures, especially those related to fraud;
- b. findings with respect to noncompliance with laws and regulations;
- c. findings with respect to related party transactions and complex or unusual transactions;
- d. indications of management bias in making accounting estimates and selecting accounting principles; and
- e. the nature and extent of misstatements detected by substantive procedures.

**.55** After forming an opinion on the effectiveness of the entity's ICFR, the auditor should evaluate management's report, which will accompany the auditor's report, to determine whether it contains the following:

- a. A statement regarding management's responsibility for ICFR
- b. A description of the subject matter of the audit (for example, controls over the preparation of the entity's financial statements in accordance with accounting principles generally accepted in the United States of America)
- c. An identification of the criteria against which ICFR is measured
- d. Management's assessment about ICFR
- e. A description of the material weakness(es), if any
- f. The date as of which management's assessment about ICFR is made

**.56** If the auditor determines that any required element of management's report is incomplete or improperly presented, the auditor should request management to revise its report. (Ref: par. .A102)

### *Obtaining Written Representations*

**.57** In an audit of ICFR, the auditor should obtain written representations from management

- a. acknowledging management's responsibility for establishing and maintaining effective ICFR;

- b. stating that management has performed an assessment of the effectiveness of the entity's ICFR and specifying the criteria;
- c. stating that management did not use the auditor's procedures performed during the integrated audit as part of the basis for management's assessment about ICFR;
- d. stating management's assessment about the effectiveness of the entity's ICFR based on the criteria as of a specified date;
- e. stating that management has disclosed to the auditor all deficiencies in the design or operation of ICFR, including separately disclosing to the auditor all such deficiencies that it believes to be significant deficiencies or material weaknesses;
- f. describing any fraud resulting in a material misstatement to the entity's financial statements and any other fraud that does not result in a material misstatement to the entity's financial statements, but involves senior management or management or other employees who have a significant role in the entity's ICFR;
- g. stating whether the significant deficiencies and material weaknesses identified and communicated to management and those charged with governance during previous engagements pursuant to paragraph .59 have been resolved and specifically identifying any that have not; and
- h. stating whether there were, subsequent to the date being reported on, any changes in ICFR or other conditions that might significantly affect ICFR, including any corrective actions taken by management with regard to significant deficiencies and material weaknesses (Ref: par. .A103)

**.58** If management does not provide the written representations required by paragraph .57, the auditor should apply the requirements in paragraph .73. (Ref: par. .A104)

### ***Communicating ICFR-Related Matters***

**.59** The auditor should communicate in writing to management and those charged with governance significant deficiencies and material weaknesses identified during the integrated audit, including those that were remediated during the integrated audit and those that were previously communicated but have not yet been remediated. (Ref: par. .A105–.A107)

**.60** If the auditor concludes that the oversight of the entity's financial reporting and ICFR by the audit committee (or similar subgroups with different names) is ineffective, the auditor should communicate that conclusion in writing to the board of directors or other similar governing body.

**.61** The written communications referred to in paragraphs .59–.60 should be made by the report release date, which is the date the auditor grants the entity permission to use the auditor's report. For a governmental entity, if such written communications would be publicly available prior to management's report on ICFR, the entity's financial statements, and the auditor's report thereon, the auditor is not required to make the written communications by the report release date. In that circumstance, the written communications should be made as soon as practicable, but no later than 60 days following the report release date. (Ref: par. .A108–.A109)

**.62** The auditor should communicate in writing to management all deficiencies identified during the integrated audit on a timely basis, but no later than 60 days following the report release date, and inform those charged with

governance when such a communication was or is expected to be made. In making the written communication referred to in this paragraph, the auditor is not required to communicate those deficiencies that are not material weaknesses or significant deficiencies that were included in previous written communications, regardless of whether those communications were made by the auditor, internal auditors, or others within the organization. (Ref: par. .A110–.A112)

**.63** Because the integrated audit does not provide the auditor with reasonable assurance that the auditor has identified all deficiencies less severe than a material weakness, the auditor should not issue a report stating that no such deficiencies were identified during the integrated audit. Also, because the auditor issues a report that expresses an opinion on the effectiveness of the entity's ICFR, the auditor should not issue a report indicating that no material weaknesses were identified during the integrated audit.

## Reporting on ICFR

**.64** The auditor's report on the audit of ICFR should be in writing and should include the following elements:

- a. A title that includes the word *independent* to clearly indicate that it is the report of an independent auditor
- b. An addressee as required by the circumstances of the engagement
- c. An introductory paragraph that includes the following:
  - i. Identification of the entity whose ICFR has been audited
  - ii. A statement that the entity's ICFR has been audited
  - iii. Identification of the as of date
  - iv. Identification of the criteria against which ICFR is measured
- d. A section with the heading "Management's Responsibility for Internal Control Over Financial Reporting" that includes the following:
  - i. A statement that management is responsible for designing, implementing, and maintaining effective ICFR
  - ii. A statement that management is responsible for its assessment about the effectiveness of ICFR
  - iii. A reference to management's report on ICFR
- e. A section with the heading "Auditor's Responsibility" that includes the following:
  - i. A statement that the auditor's responsibility is to express an opinion on the entity's ICFR based on the audit
  - ii. A statement that the audit was conducted in accordance with auditing standards generally accepted in the United States of America (Ref: par. .A113)
  - iii. A statement that such standards require that the auditor plan and perform the audit to obtain reasonable assurance about whether effective ICFR was maintained in all material respects
  - iv. A description of the audit by stating that
    - (1) an audit of ICFR involves performing procedures to obtain audit evidence about whether a material weakness exists

- (2) the procedures selected depend on the auditor's judgment, including the assessment of the risks that a material weakness exists
- (3) an audit includes obtaining an understanding of ICFR and testing and evaluating the design and operating effectiveness of ICFR based on the assessed risk
- v. A statement about whether the auditor believes that the audit evidence the auditor has obtained is sufficient and appropriate to provide a basis for the audit opinion
- f. A section with the heading "Definition and Inherent Limitations of Internal Control Over Financial Reporting" or other appropriate heading that includes the following:
  - i. A definition of ICFR (the auditor should use the same description of the entity's ICFR as management uses in its report)
  - ii. A paragraph stating that because of inherent limitations, ICFR may not prevent, or detect and correct, misstatements and that projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate
- g. A section with the heading "Opinion" that includes the auditor's opinion on whether the entity maintained, in all material respects, effective ICFR as of the specified date, based on the criteria
- h. The manual or printed signature of the auditor's firm
- i. The city and state where the auditor practices
- j. The date of the auditor's report, as required by paragraph .66

**.65** If the auditor issues a separate report on ICFR, the auditor should add the following paragraph, in an other-matter paragraph with an appropriate heading, in accordance with section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*, to the auditor's report on the financial statements:

We also have audited, in accordance with auditing standards generally accepted in the United States of America, [entity name]'s internal control over financial reporting as of December 31, 20X8, based on [identify criteria] and our report dated [date of report, which should be the same as the date of the report on the financial statements] expressed [include nature of opinion].

The auditor also should add the following other-matter paragraph to the report on ICFR:

We also have audited, in accordance with auditing standards generally accepted in the United States of America, the [identify financial statements] of [entity name] and our report dated [date of report, which should be the same as the date of the report on ICFR] expressed [include nature of opinion]. (Ref: par. .A114–.A116)

### **Report Date**

**.66** The auditor should date the report on ICFR no earlier than the date on which the auditor has obtained sufficient appropriate audit evidence to support the auditor's opinion, including evidence that the audit documentation has been reviewed. Because the audit of ICFR is integrated with the audit of the financial

statements, when issuing separate reports on the entity's financial statements and on ICFR, the dates of the reports should be the same.

## Report Modifications

.67 The auditor should modify the report on ICFR if any of the following conditions exist:

- a. One or more material weaknesses exist.
- b. Elements of management's report are incomplete or improperly presented.
- c. There is a limitation on the scope of the engagement. (Ref: par. .A117)
- d. The auditor decides to refer to the report of a component auditor as the basis, in part, for the auditor's own opinion.
- e. There is other information contained in management's report.

## Adverse Opinions

.68 If there are deficiencies that, individually or in combination, result in one or more material weaknesses as of the date specified in management's assessment about ICFR, the auditor should express an adverse opinion on the entity's ICFR, unless there is a limitation on the scope of the engagement. (Ref: par. .A118–A119)

.69 When ICFR is not effective because one or more material weaknesses exist, the auditor's report should include

- a. the definition of a material weakness and
- b. a statement that one or more material weaknesses have been identified and an identification of the material weaknesses described in management's assessment about ICFR. (Ref: par. .A120)

.70 If one or more material weaknesses have not been included in management's report accompanying the auditor's report, the auditor's report should be modified to state that one or more material weaknesses have been identified but not included in management's report. Additionally, the auditor's report should include a description of each material weakness not included in management's report. The auditor's description should include specific information about the nature of each material weakness and its actual and potential effect on the presentation of the entity's financial statements issued during the existence of the weakness. In this case, the auditor also should communicate, in writing, to those charged with governance that one or more material weaknesses were not disclosed or identified as a material weakness in management's report. If one or more material weaknesses have been included in management's report but the auditor concludes that the disclosure of such material weaknesses is not fairly presented in all material respects, the auditor's report should describe this conclusion as well as the information necessary to fairly describe each material weakness.

.71 The auditor should determine the effect an adverse opinion on ICFR has on the auditor's opinion on the financial statements. Additionally, the auditor should disclose, in an other-matter paragraph or as part of the paragraph that identifies the material weakness, whether the auditor's opinion on the financial statements was affected by the material weakness. (Ref: par. .A121)

***Elements of Management's Report Are Incomplete or Improperly Presented***

.72 If the auditor determines that any required element of management's report, as described in paragraph .55, is incomplete or improperly presented and management does not revise its report, the auditor should modify the report on ICFR to include an other-matter paragraph describing the reasons for this determination. If the auditor determines that the required disclosure about one or more material weaknesses is not fairly presented in all material respects, the auditor should apply the requirements in paragraph .70.

***Scope Limitations***

.73 If, after accepting the integrated audit engagement, there is a limitation on the scope of the engagement with respect to ICFR, the auditor should withdraw from the integrated audit engagement or disclaim an opinion on ICFR and consider the implications on the financial statement audit.

.74 When a scope limitation arises because management refuses to furnish a written assessment about the effectiveness of ICFR, the auditor should withdraw from the integrated audit engagement. When withdrawal is not possible under applicable law or regulation, the auditor should disclaim an opinion on ICFR and consider the implications on the financial statement audit. (Ref: par. .A122)

.75 When disclaiming an opinion because of a scope limitation, the auditor should state that the auditor does not express an opinion on the effectiveness of ICFR and the substantive reasons for the disclaimer. The auditor should not identify the procedures that were performed nor include the statements describing the characteristics of an audit of ICFR, as described in paragraph .64e; to do so might overshadow the disclaimer. (Ref: par. .A123–.A124)

.76 When the auditor disclaims an opinion but has concluded that one or more material weaknesses exist, the auditor's report also should include

- a. the definition of a material weakness and
- b. a description of any material weaknesses identified in the entity's ICFR. This description should address the requirements in paragraph .69 and should provide the users of the report with specific information about the nature of any material weakness and its actual and potential effect on the presentation of the entity's financial statements issued during the existence of the weakness.

The auditor also should apply the requirements in paragraph .71. (Ref: par. .A125)

.77 If the auditor concludes that the auditor cannot express an opinion because there has been a limitation on the scope of the audit, the auditor should communicate, in writing, to management and those charged with governance that the audit of ICFR cannot be satisfactorily completed.

***Making Reference to a Component Auditor and Assuming Responsibility for the Work of a Component Auditor***

.78 When an entity includes one or more components, the group engagement partner should evaluate whether the group engagement team will be able to obtain sufficient appropriate audit evidence through the group engagement team's work or use of the work of component auditors (that is, through assuming responsibility for the work of component auditors or making reference to the audit of ICFR of a component auditor in the auditor's report) to act as the auditor of the ICFR over the group financial statements and report as such on the ICFR over the group financial statements, as required by section 600,

*Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)*.<sup>7</sup> (Ref: par. .A126)

**.79** As required by section 600, the group engagement partner should determine whether to make reference to a component auditor in the report on the ICFR over the group financial statements.<sup>8</sup> Reference to the audit of a component auditor in the auditor's report on the ICFR over the group financial statements should not be made unless

- a. the engagement partner has determined that the component auditor has performed an audit of the component's ICFR in accordance with the relevant requirements of GAAS (or, if applicable, the standards promulgated by the PCAOB) and
- b. the component auditor has issued an auditor's report on ICFR that is not restricted as to use. (Ref: par. .A127–.A128)

### **Additional Information**

**.80** When management includes, either within management's report or in a document containing management's report, information in addition to the elements that are subject to the auditor's evaluation as described in paragraph .55, the auditor should

- a. disclaim an opinion, in an other-matter paragraph, on the additional information when such information is included in management's report. (Ref: par. .A129)
- b. read the additional information to identify material inconsistencies with management's report and material misstatements of fact when such information is included outside management's report in a document containing management's report and the related auditor's report. If, upon reading the additional information, the auditor becomes aware of an apparent material inconsistency or misstatement of fact, the auditor should apply the requirements in section 720, *Other Information in Documents Containing Audited Financial Statements*, adapted as necessary, to the audit of ICFR. (Ref: par. .A130)

## **Special Topics**

### **Entities With Multiple Components**

**.81** In determining the components at which to perform tests of controls, the group engagement team should assess the risk of material misstatement to the financial statements associated with the component and correlate the amount of attention devoted to the component with the degree of risk. (Ref: par. .A131–.A133)

**.82** In assessing and responding to risk, the group engagement team should test, or have a component auditor test on the group engagement team's behalf, controls over specific risks that present a reasonable possibility of material misstatement to the group financial statements. (Ref: par. .A134)

**.83** In applying the requirement in paragraph .42 regarding special considerations for subsequent years' audits, the group engagement team should

---

<sup>7</sup> Paragraph .15 of section 600, *Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)*.

<sup>8</sup> Paragraph .24 of section 600.

vary the nature, timing, and extent of tests of controls at components from year to year.

### *Special Situations*

**.84** For equity method investment components, the scope of the audit should include controls over the reporting in the entity's financial statements of the entity's portion of the investees' income or loss, the investment balance, adjustments to the income or loss and investment balance, and related disclosures, in accordance with the applicable financial reporting framework. (Ref: par. .A135)

**.85** Except as indicated in paragraph .86, the scope of the audit should include entities that are acquired on or before the date specified in management's assessment about ICFR and operations that are accounted for as discontinued operations on the date specified in management's assessment about ICFR that are reported in accordance with the applicable financial reporting framework in the entity's financial statements.

**.86** In situations in which management elects to limit its assessment by excluding certain entities, the auditor should evaluate whether it is appropriate, in the auditor's judgment, to do so. If the auditor concludes that it is appropriate, the auditor should include in the introductory paragraph of the report a disclosure similar to management's regarding the exclusion of an entity from the scope of both management's assessment about ICFR and the auditor's audit of ICFR. Additionally, the auditor should evaluate the appropriateness of management's disclosure related to such a limitation. (Ref: par. .A136)

**.87** If the auditor believes that management's disclosure about the limitation requires modification, the auditor should communicate the matter to the appropriate level of management. If, in the auditor's judgment, management does not respond appropriately to the auditor's communication within a reasonable period of time, the auditor should inform those charged with governance of the matter as soon as practicable. If management and those charged with governance do not respond appropriately, the auditor should modify the auditor's report on the audit of ICFR to include an other-matter paragraph describing the reasons why the auditor believes management's disclosure requires modification.

### **Use of Service Organizations**

**.88** When the entity uses the services of a service organization, the auditor should consider the activities of the service organization when determining the evidence required to support the auditor's opinion on the effectiveness of an entity's ICFR. (Ref: par. .A137–.A138)

**.89** The auditor is required to perform the procedures in section 402, *Audit Considerations Relating to an Entity Using a Service Organization*, with respect to the activities performed by the service organization.<sup>9</sup> In an audit of ICFR, the auditor should also obtain evidence that controls at the service organization that are relevant to the auditor's opinion on ICFR are operating effectively. (Ref: par. .A139–.A140)

**.90** If the auditor plans to use a type 2 report as audit evidence that controls are operating effectively, the auditor should determine whether the type 2 report provides sufficient appropriate audit evidence about the effectiveness of the controls to support the auditor's opinion by evaluating

---

<sup>9</sup> Paragraphs .09–.19 of section 402, *Audit Considerations Relating to an Entity Using a Service Organization*.

- a. the time period covered by the tests of controls and its relation to the as of date;
- b. the scope of the service auditor's work and the services and processes covered, the controls tested, and the tests that were performed and the way in which tested controls relate to the entity's controls; and
- c. the results of those tests of controls and the service auditor's opinion on the operating effectiveness of the controls. (Ref: par. .A141)

**.91** The auditor should determine whether complementary user entity controls identified in the type 2 report are relevant in addressing the risks of material misstatement and, if so, evaluate the entity's design and implementation of the relevant complementary user entity controls and test their operating effectiveness. (Ref: par. .A142)

**.92** In determining whether the type 2 report provides sufficient appropriate audit evidence to support the auditor's opinion on ICFR, the auditor should be satisfied regarding the following:

- a. The service auditor's professional competence and independence from the service organization. (Ref: par. .A143)
- b. The adequacy of the standards under which the type 2 report was issued. (Ref: par. .A144)

**.93** The auditor should inquire of management to determine whether management has identified any changes in the service organization's controls subsequent to the period covered by the service auditor's report. If management has identified such changes, the auditor should evaluate the effect of such changes on the effectiveness of the entity's ICFR. The auditor also should evaluate whether the results of other procedures the auditor performed indicate that there have been changes in the controls at the service organization. (Ref: par. .A145)

**.94** The auditor should determine whether to obtain additional evidence about the operating effectiveness of controls at the service organization based on the procedures performed by management or the auditor and the results of those procedures and on an evaluation of the following risk factors:

- a. The elapsed time between the time period covered by the tests of controls in the service auditor's report and the as of date
- b. The significance of the activities of the service organization
- c. Whether there are errors that have been identified in the service organization's processing
- d. The nature and significance of any changes in the service organization's controls identified by management or the auditor (Ref: par. .A146)

**.95** When a significant period of time has elapsed between the time period covered by the tests of controls in the service auditor's report and the as of date, additional procedures should be performed to obtain sufficient appropriate audit evidence about the operating effectiveness of the controls at the service organization that are relevant to the auditor's opinion on ICFR.

**.96** The auditor should not refer to the service auditor's report when expressing an opinion on ICFR.

### **Benchmarking of Automated Controls**

**.97** To determine whether to use a benchmarking strategy for testing an automated application control, the auditor should assess the following risk factors:

- a. The extent to which the application control can be matched to a defined program within an application
- b. The extent to which the application is stable (that is, there are few changes from period to period)
- c. The availability and reliability of a report of the compilation dates of the programs placed in production (Ref: par. .A147–.A150)

**.98** When using a benchmarking strategy, the auditor should obtain evidence to determine that the automated application control has not changed. (Ref: par. .A151–.A152)

**.99** After a period of time, the length of which depends upon the circumstances, the baseline of the operation of an automated application control should be reestablished. To determine when to reestablish a baseline, the auditor should evaluate the following factors:

- a. The effectiveness of the IT control environment, including controls over application and system software acquisition and maintenance, access controls, and computer operations
- b. The auditor's understanding of the nature of changes, if any, on the specific programs that contain the controls
- c. The nature and timing of other related tests
- d. The consequences of errors associated with the application control that was benchmarked
- e. Whether the control is sensitive to other business factors that may have changed (Ref: par. .A153)

## **Application and Other Explanatory Material**

### **Scope of This Section (Ref: par. .01–.02)**

**.A1** Certain regulatory bodies, such as the FDIC, require the audit of ICFR and the audit of financial statements to be performed by the same auditor.<sup>10</sup> Inherent difficulties exist when integrating the audit of ICFR and the audit of the financial statements to meet the requirements of this section when the audit of the financial statements is performed by a different auditor. Nonetheless, if the audit of the financial statements and the audit of ICFR are performed by different auditors, the audits are required by this section to be integrated.

### **Objectives (Ref: par. .04)**

**.A2** See section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*, for additional explanation related to the auditor's objective to obtain reasonable assurance.<sup>11</sup>

---

<sup>10</sup> See Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA) (Section 36 of the Federal Deposit Insurance Act [FDI Act], 12.U.S.C. 1831m) and its implementing regulation, 12 CFR Part 363.3(b).

<sup>11</sup> Paragraph .06 of section 200.

**.A3** Effective ICFR provides an entity with reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with the applicable financial reporting framework. If one or more material weakness exists, the entity's ICFR cannot be considered effective. The evaluation of the effectiveness of the entity's ICFR required by this section encompasses all relevant control objectives of the entity's ICFR; therefore, the identification of one material weakness in ICFR does not justify the auditor ceasing to perform procedures to evaluate the effectiveness of all relevant control objectives of the entity's ICFR.

**.A4** The auditor is not required to plan and perform the integrated audit to identify deficiencies that, individually or in combination, are less severe than a material weakness.

## Definitions (Ref: par. .05)

### Criteria

**.A5** For purposes of this section, the subject matter is ICFR.

### Internal Control Over Financial Reporting

**.A6** The auditor's procedures performed as part of the integrated audit are not part of an entity's ICFR.

**.A7** For insured depository institutions (IDIs) subject to the internal control reporting requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA), ICFR includes controls over the preparation of the IDI's financial statements in accordance with generally accepted accounting principles (GAAP) and with the instructions to the Consolidated Financial Statements for Bank Holding Companies. ICFR also includes controls over the preparation of the IDI's financial statements in accordance with GAAP and controls over the preparation of schedules equivalent to the basic financial statements in accordance with the Federal Financial Institutions Examination Council Instructions for Consolidated Reports of Condition and Income (Call Report Instructions).

### Management's Assessment About ICFR

**.A8** Exhibit C, "Illustrative Management Report," includes an illustration of a management report.

## Preconditions for the Audit of ICFR (Ref: par. .06–.07)

**.A9** Management is responsible for identifying and documenting the controls and the control objectives that they were designed to achieve. Such documentation serves as a basis for management's assessment about ICFR. Documentation of the design of controls, including changes to those controls, is evidence that controls upon which management's assessment about ICFR is based are

- identified.
- capable of being communicated to those responsible for their performance.
- capable of being monitored and evaluated by the entity.

**.A10** Management's documentation may take various forms, for example, entity policy manuals, accounting manuals, narrative memoranda, flowcharts,

decision tables, procedural write-ups, or completed questionnaires. No one particular form of documentation is prescribed, and the extent of documentation may vary depending upon the size and complexity of the entity and the entity's monitoring activities.

**.A11** Management's monitoring activities also may provide evidence of the design and operating effectiveness of ICFR in support of management's assessment about ICFR. Monitoring of controls is a process to assess the effectiveness of ICFR performance over time. It involves assessing the effectiveness of controls on a timely basis, identifying and reporting deficiencies to appropriate individuals within the organization, and taking necessary corrective actions. Management accomplishes monitoring of controls through ongoing evaluations, separate evaluations, or a combination of the two.

**.A12** Ongoing evaluations are often built into the normal recurring activities of an entity and include regular management and supervisory activities. The greater the degree and effectiveness of ongoing evaluations, the less need for separate evaluations. Management may perform a combination of ongoing and separate evaluations. The scope and frequency of separate evaluations is a matter of management judgment.

**.A13** Ordinarily, the auditor is engaged to audit the effectiveness of the entity's ICFR as of the end of the entity's fiscal year; however, management may select a different date. If the auditor is engaged to audit the effectiveness of an entity's ICFR at a date different from the end of the entity's fiscal year, the audit is, nevertheless, required by paragraph .06*b* to be integrated with a financial statement audit as of the date specified in management's assessment.

**.A14** Appropriate criteria are both suitable and available to the intended users of management's report on ICFR. Suitable criteria exhibit all of the following characteristics:

- *Relevance.* Criteria are relevant to ICFR.
- *Objectivity.* Criteria are free from bias.
- *Measurability.* Criteria permit reasonably consistent measurements, qualitative or quantitative, of ICFR.
- *Completeness.* Criteria are complete when the evaluation of the effectiveness of ICFR prepared in accordance with the criteria does not omit relevant factors that could reasonably be expected to affect decisions of the intended users made on the basis of management's report on ICFR.

**.A15** Management may select criteria for ICFR that are available publicly in published frameworks or criteria that are available only to specified parties (for example, terms of a contract or criteria issued by an industry association that are available only to those in the industry). When criteria are available only to specified parties, section 905, *Alert That Restricts the Use of the Auditor's Written Communication*, requires that the auditor's report include an other-matter paragraph that restricts the use of the auditor's report.<sup>12</sup>

**.A16** *Internal Control—Integrated Framework* (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 COSO framework) and the U.S. Government Accountability Office's *Standards for Internal Control in the Federal Government* (the Green Book), provide suitable and available criteria against which management may evaluate and report on the

---

<sup>12</sup> Paragraph .06 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*.

effectiveness of the entity's ICFR. If management selects another framework, see paragraph .A14 for guidance on evaluating the suitability of the framework selected by management.

**.A17** *Internal control*, as defined by the framework used by management, may be more broadly defined than ICFR. However, this section focuses only on ICFR.

## **Integrating the Audit of ICFR With the Financial Statement Audit (Ref: par. .09–.13)**

**.A18** Obtaining sufficient appropriate audit evidence to support the operating effectiveness of controls for purposes of the financial statement audit ordinarily allows the auditor to modify the substantive procedures that otherwise would have been necessary to opine on the financial statements.

**.A19** Section 500, *Audit Evidence*, provides additional explanation with respect to obtaining sufficient appropriate audit evidence.

**.A20** Consideration of the results of tests of controls may cause the auditor to alter the nature, timing, and extent of substantive procedures and to plan and perform further tests of controls, particularly in response to identified deficiencies.

## **Planning the Audit of ICFR (Ref: par. .14)**

**.A21** Evaluating whether the following matters are important to the entity's financial statements and ICFR and, if so, how they may affect the auditor's procedures may assist the auditor in planning the audit of ICFR:

- Knowledge of the entity's ICFR obtained during other engagements performed by the auditor or, if applicable, during a review of a predecessor auditor's working papers
- Matters affecting the industry in which the entity operates, such as financial reporting practices, economic conditions, laws and regulations, and technological changes
- Matters relating to the entity's business, including its organization, operating characteristics, and capital structure
- The extent of recent changes, if any, in the entity, its operations, or its ICFR
- The auditor's preliminary judgments about financial statement materiality, risk, and other factors relating to the determination of material weaknesses
- Deficiencies previously communicated to those charged with governance or management
- Legal or regulatory matters of which the entity is aware
- The type and extent of available evidence related to the effectiveness of the entity's ICFR
- Preliminary judgments about the effectiveness of ICFR
- Public information about the entity relevant to the evaluation of the likelihood of material financial statement misstatements and the effectiveness of the entity's ICFR

- Knowledge about risks related to the entity evaluated as part of the auditor's client acceptance and retention evaluation
- The relative complexity of the entity's operations

### ***Role of Risk Assessment (Ref: par. .15)***

**.A22** Risk assessment underlies the entire audit process described by this section, including the determination of significant classes of transactions, account balances, and disclosures, and their relevant assertions, the selection of controls to test, and the determination of the evidence necessary to conclude on the effectiveness of a given control. The risk assessment procedures described in section 315 support both the financial statement audit and the audit of ICFR.

#### *Scaling the Audit*

**.A23** The size and complexity of the entity, its business processes, and structure may affect the way in which the entity achieves many of its control objectives. Many smaller entities have less complex operations. Additionally, some larger, complex entities may have less complex units or processes. Factors that might indicate less complex operations include fewer business lines; less complex business processes and financial reporting systems; more centralized accounting functions; extensive involvement by senior management in the day-to-day activities of the business; and fewer levels of management, each with a wide span of control. Accordingly, a smaller, less complex entity, or even a larger, less complex entity might achieve its control objectives differently from a more complex entity.

**.A24** The size and complexity of the entity, its business processes, and structure also may affect the auditor's risk assessment and the determination of the necessary procedures and the controls necessary to address those risks. Scaling is most effective as a natural extension of the risk-based approach and applicable to audits of all entities.

### ***Addressing the Risk of Fraud (Ref: par. .16–.17)***

**.A25** Section 240 addresses the auditor's identification and assessment of the risks of material misstatement due to fraud.<sup>13</sup> Controls that might address these risks include

- controls over significant, unusual transactions, particularly those that result in late or unusual journal entries;
- controls over journal entries and adjustments made in the period-end financial reporting process;
- controls over related party transactions;
- controls related to significant management estimates; and
- controls that mitigate incentives for, and pressures on, management to falsify or inappropriately manage financial results.

### ***Using the Work of Internal Auditors or Others (Ref: par. .18–.19)***

**.A26** The extent of the procedures necessary to obtain the understanding required by paragraph .18 will vary, depending on the nature of those activities. In performing risk assessment procedures, the auditor is required to inquire of appropriate individuals within the internal audit function (if such function

---

<sup>13</sup> Paragraphs .25–.27 of section 240.

exists).<sup>14</sup> Section 315 provides guidance with respect to such inquiries and certain additional procedures based on the responses to such inquiries.<sup>15</sup>

**.A27** In an audit of ICFR, the external auditor may use the work of the internal audit function in obtaining audit evidence or use internal auditors to provide direct assistance under the direction, supervision, and review of the external auditor. For purposes of the audit of ICFR, however, the auditor also may use the work performed by, or receive direct assistance from, others. Others include entity personnel (in addition to internal auditors) and third parties working under the direction of management or those charged with governance that provide evidence about the effectiveness of ICFR. In an integrated audit, the auditor also may use the work of internal auditors or others to obtain evidence supporting the assessment of control risk for purposes of the financial statement audit.

**.A28** As the risk associated with a control increases, the need for the auditor to directly perform work on the control increases (for example, for controls that address specific fraud risks, use of the work of the internal audit function or others would be limited, if it could be used at all).

**.A29** For purposes of evaluating the competence and objectivity of others in accordance with section 610, *competence* means the attainment and maintenance of a level of understanding, knowledge, and skills that enables that person to ably perform the tasks assigned to them, and *objectivity* means the ability to perform those tasks impartially and with intellectual honesty, without allowing bias, conflict of interest, or undue influence of others to override professional judgments.<sup>16</sup> The more objective and the higher level of competence, the more likely the external auditor may use the work of others and make use of it in more areas.

**.A30** Others may have an approach that differs from that of an internal audit function, particularly with respect to the level of formality. However, it would be inappropriate to use the work of others that do not have a systematic and disciplined approach, including quality control, as required by section 610. Section 610 provides additional requirements and guidance in determining when to use the work, in which areas, and to what extent.

### **Materiality (Ref: par. .20)**

**.A31** Section 320, *Materiality in Planning and Performing an Audit*, provides additional explanation of materiality.

### **Using a Top-Down Approach (Ref: par. .21)**

**.A32** The *top-down approach* describes the auditor's sequential thought process in identifying risks and the controls to test, not necessarily the order in which the auditor will perform the audit procedures.

**.A33** A top-down approach involves

- beginning at the financial statement level;
- using the auditor's understanding of the overall risks to ICFR;
- focusing on entity-level controls;

---

<sup>14</sup> Paragraph .06a of section 315.

<sup>15</sup> Paragraphs .A9–.A13 of section 315.

<sup>16</sup> Paragraphs .13 and .A5–.A9 of section 610, *Using the Work of Internal Auditors*.

- working down to significant classes of transactions, account balances, and disclosures, and their relevant assertions;
- directing attention to classes of transactions, accounts, disclosures, and assertions that present a reasonable possibility of material misstatement of the financial statements;
- verifying the auditor's understanding of the risks in the entity's processes; and
- selecting controls for testing that sufficiently address the assessed risk of material misstatement to each relevant assertion.

### ***Entity-Level Controls (Ref: par. .22)***

**.A34** The auditor's evaluation of entity-level controls can result in increasing or decreasing the testing that the auditor otherwise would have performed on other controls.

**.A35** Entity-level controls include

- controls related to the control environment;
- controls over management override;
- the entity's risk assessment process;
- centralized processing and controls, including shared service environments;
- controls to monitor results of operations;
- controls to monitor other controls, including activities of the internal audit function, those charged with governance, and self-assessment programs;
- controls over the period-end financial reporting process; and
- programs and controls that address significant business risks.

**.A36** Entity-level controls vary in nature and precision:

- Some entity-level controls, such as certain control environment controls, have an important but indirect effect on the likelihood that a misstatement will be prevented, or detected and corrected, on a timely basis. These controls might affect the other controls that the auditor selects for testing and the nature, timing, and extent of procedures the auditor performs on other controls.
- Some entity-level controls monitor the effectiveness of other controls. Such controls might be designed to identify possible breakdowns in lower level controls, but not at a level of precision that would, by themselves, sufficiently address the assessed risk that material misstatements to a relevant assertion will be prevented, or detected and corrected, on a timely basis. These controls, when operating effectively, might allow the auditor to reduce the testing of other controls.
- Some entity-level controls might be designed to operate at a level of precision that would adequately prevent, or detect and correct, on a timely basis misstatements to one or more relevant assertions. If an entity-level control sufficiently addresses the assessed risk of material misstatement, the auditor need not test additional controls relating to that risk.

*Considerations Specific to Smaller, Less Complex Entities*

**.A37** Controls over management override are important to effective ICFR for all entities and may be particularly important at smaller, less complex entities because of the increased involvement of senior management in performing controls and in the period-end financial reporting process. For smaller, less complex entities, the controls that address the risk of management override might be different from those at a larger entity. For example, a smaller, less complex entity might rely on more detailed oversight by those charged with governance that focuses on the risk of management override.

***Evaluating the Components of ICFR (Ref: par. .23)***

**.A38** ICFR is often described as consisting of five components: control environment, risk assessment, control activities, information and communication, and monitoring. The components are necessary to an effective system of ICFR.<sup>17</sup> This description does not necessarily reflect how an entity designs, implements, and maintains ICFR nor how it may classify any particular component. Auditors may use different terminology or frameworks to describe the various aspects of ICFR and their effect on the audit other than those used in this section, provided that all the components described in this section are addressed. Entities select and develop controls within each component. Controls are inter-related and may support multiple objectives.

**.A39** The 2013 COSO framework includes principles related to each component that are suitable to all entities. The 2013 COSO framework presumes that all principles are relevant because they have a significant bearing on the presence and functioning of an associated component. There may be a rare industry, operating, or regulatory situation in which management has determined that a principle is not relevant to a component. Considerations in applying this judgment may include the entity structure recognizing any legal, regulatory, industry, or contractual requirements for governance of the entity, and the level of use and dependence on technology used by the entity. The 2013 COSO framework states that management must support its determination that a principle is not relevant with the rationale of how, in the absence of that principle, the associated component can be present and functioning.<sup>18</sup>

**.A40** When management uses the 2013 COSO framework, the guidance described in paragraphs .A41–.A48 to evaluate the five components is applicable. When management uses the Green Book or another framework, the auditor may adapt the guidance in paragraphs .A41–.A48, as necessary, based on the criteria contained in the framework used by management. For example, when management uses the Green Book, the auditor assesses the relevant principles in the Green Book in lieu of the principles listed in paragraphs .A41–.A48.

*Control Environment*

**.A41** The following principles are relevant to the auditor's evaluation of whether the control environment is present and functioning in the design, implementation, and operation of ICFR to achieve the entity's financial reporting objectives:

- The entity demonstrates a commitment to integrity and ethical values.

---

<sup>17</sup> Some material in this section relies upon the Committee of Sponsoring Organizations of the Treadway Commission's (COSO) *Internal Control—Integrated Framework*. The copyright is held by COSO, and the material is used with COSO's permission.

<sup>18</sup> "Suitability and Relevance of Components and Principles" in section 3, "Effective Internal Control" of *Internal Control—Integrated Framework* (COSO, 2013).

- Those charged with governance demonstrate independence from management and exercise oversight of the development and performance of ICFR.
- Management establishes, with oversight of those charged with governance, structures, reporting lines, and appropriate authorities and responsibilities in the pursuit of the entity's financial reporting objectives.
- The entity demonstrates a commitment to attract, develop, and retain competent individuals in alignment with the entity's financial reporting objectives.
- The entity holds individuals accountable for their ICFR responsibilities in the pursuit of the entity's financial reporting objectives.

**.A42** The evaluation of whether those charged with governance demonstrate independence from management and exercise oversight of the development and performance of ICFR is performed in the context of the entity's governance structure. As described in section 260, *The Auditor's Communication With Those Charged With Governance*, governance structures may vary by entity, reflecting influences such as size and ownership characteristics.<sup>19</sup> For example, in some smaller entities, those charged with governance and management may be the same people. In such smaller entities, the independence of those charged with governance from management may not be necessary to support the achievement of the entity's financial reporting objectives.

**.A43** The Green Book refers to those charged with governance as the oversight body.

#### *Risk Assessment*

**.A44** The following principles are relevant to the auditor's evaluation of whether the entity's risk assessment is present and functioning in the design, implementation, and operation of ICFR to achieve the entity's financial reporting objectives:

- a. The entity specifies financial reporting objectives with sufficient clarity to enable the identification and assessment of risks related to these objectives.
- b. The entity identifies risks to the achievement of financial reporting objectives across the entity and analyzes risks as a basis for determining how the risks need to be managed.
- c. The entity considers the potential for fraud in assessing risks to the achievement of financial reporting objectives.
- d. The entity identifies and assesses changes that could significantly impact ICFR.

#### *Control Activities Relevant to the Audit of ICFR*

**.A45** The following principles are relevant to the auditor's evaluation of whether the entity's control activities relevant to the audit of ICFR are present and functioning in the design, implementation, and operation of ICFR to achieve the entity's financial reporting objectives:

- a. The entity selects and develops control activities that contribute to the mitigation of risks to the achievement of financial reporting objectives to acceptable levels.

---

<sup>19</sup> Paragraph .A6 of section 260, *The Auditor's Communication With Those Charged With Governance*.

- b. The entity selects and develops general control activities over technology to support the achievement of financial reporting objectives.
- c. The entity deploys control activities through policies that establish what is expected and procedures that put policies into action.

**.A46** Control activities relevant to the audit of ICFR include those related to each significant class of transactions, account balance, and disclosure, and its relevant assertions (see paragraphs .26–.28).

#### *Information and Communication*

**.A47** The following principles are relevant to the auditor's evaluation of whether the entity's information and communication, including the related business processes relevant to financial reporting, is present and functioning in the design, implementation, and operation of ICFR to achieve the entity's financial reporting objectives:

- a. The entity obtains or generates and uses relevant, quality information to support the functioning of ICFR.
- b. The entity internally communicates information, including financial reporting objectives and responsibilities, necessary to support the functioning of ICFR.
- c. The entity communicates with external parties regarding matters affecting the functioning of ICFR.

#### *Monitoring Activities*

**.A48** The following principles are relevant to the auditor's evaluation of whether the entity's monitoring activities are present and functioning in the design, implementation, and operation of ICFR to achieve the entity's financial reporting objectives:<sup>20</sup>

- a. The entity selects, develops, and performs ongoing or separate evaluations to ascertain whether the components of internal control are present and functioning.
- b. The entity evaluates and communicates deficiencies in ICFR in a timely manner to those parties responsible for taking corrective action, including senior management and those charged with governance, as appropriate.

#### ***Period-End Financial Reporting Process (Ref: par. .24–.25)***

**.A49** Because the annual period-end financial reporting process normally occurs after the as of date, those controls usually cannot be tested until after the as of date.

#### ***Identifying Significant Classes of Transactions, Account Balances, and Disclosures, and Their Relative Assertions (Ref: par. .26–.28)***

**.A50** Risk factors relevant to the identification of significant classes of transactions, account balances, and disclosures, and their relevant assertions include

- size and composition of the account;
- susceptibility to misstatement due to errors or fraud;

---

<sup>20</sup> Paragraphs .A102–.A107 and appendix B, "Internal Control Components," of section 315.

- volume of activity, complexity, and homogeneity of the individual transactions processed through the account or reflected in the disclosure;
- nature of the account, class of transactions, or disclosure;
- accounting and reporting complexities associated with the account, class of transactions, or disclosure;
- exposure to losses in the account;
- possibility of significant contingent liabilities arising from the activities reflected in the account or disclosure;
- existence of related party transactions in the account; and
- changes from the prior period in the account, class of transactions, or disclosure characteristics.

**.A51** The risk factors in paragraph .26 that the auditor is required to evaluate in the identification of significant classes of transactions, account balances, and disclosures, and their relevant assertions, are the same in the audit of ICFR as in the audit of the financial statements; accordingly, significant classes of transactions, account balances, and disclosures, and their relevant assertions, are the same in an integrated audit.

**.A52** The risk assessment procedures performed in connection with a financial statement audit are described in section 315.

**.A53** The auditor might determine the likely sources of potential misstatements by asking himself or herself "What could go wrong?" within a given significant class of transactions, account balance, or disclosure.

**.A54** The components of a potential significant class of transactions, account balance, or disclosure might be subject to significantly different risks. If so, different controls might be necessary to adequately address those risks.

**.A55** Multiple components are discussed further beginning in paragraphs .78 and .81.

### ***Understanding Likely Sources of Misstatement (Ref: par. .29–.31)***

**.A56** Performing walk-throughs will frequently be the most effective way of achieving the objectives in paragraph .29. A *walk-through* involves following a transaction from origination through the entity's processes, including information systems, until it is reflected in the entity's financial statements, using the same documents and IT that entity personnel use. Walk-through procedures are inquiry of appropriate personnel, observation of the application of specific controls, inspection of relevant documentation, and control reperformance. The auditor may choose any combination of these procedures; however, inquiry alone is not sufficient for achieving the objectives in paragraph .29.

**.A57** A walk-through includes questioning the entity's personnel about their understanding of what is required by the entity's prescribed procedures and controls at the points at which important processing procedures occur. These probing questions, combined with the other walk-through procedures, allow the auditor to gain a sufficient understanding of the process and to be able to identify important points at which a necessary control is missing or not designed effectively. Additionally, probing questions that go beyond a narrow focus on the single transaction used as the basis for the walk-through may provide an understanding of the different types of significant transactions handled by the process.

**.A58** The identification of risks and controls within IT is not a separate evaluation. Instead, it is an integral part of the top-down approach used to identify likely sources of misstatement and the controls to test, as well as to assess risk and allocate audit effort.

### **Selecting Controls to Test (Ref: par. .32)**

**.A59** There might be more than one control that addresses the assessed risk of material misstatement to a particular relevant assertion; conversely, one control might address the assessed risk of material misstatement to more than one relevant assertion. It may not be necessary to test all controls related to a relevant assertion nor necessary to test redundant controls, unless redundancy is, itself, a control objective.

**.A60** The decision concerning whether a control would be selected for testing depends on which controls, individually or in combination, sufficiently address the assessed risk of material misstatement to a given relevant assertion rather than on how the control is labeled (for example, entity-level control, transaction-level control, control activity, monitoring control, preventive control, or detective control).

## **Testing Controls**

### **Evaluating Design Effectiveness (Ref: par. .33)**

**.A61** Procedures performed to evaluate design effectiveness may include a mix of inquiry of appropriate personnel, observation of the application of specific controls, and inspection of relevant documentation. Walk-throughs that include these procedures ordinarily are sufficient to evaluate design effectiveness.

#### *Considerations Specific to Smaller, Less Complex Entities*

**.A62** A smaller, less complex entity might achieve its control objectives in a different manner from a larger, more complex organization. For example, a smaller, less complex entity might have fewer employees in the accounting function, limiting opportunities to segregate duties and leading the entity to implement different controls to achieve its control objectives.

### **Testing Operating Effectiveness (Ref: par. .34)**

**.A63** Procedures performed to test operating effectiveness may include a mix of inquiry of appropriate personnel, observation of the application of specific controls, inspection of relevant documentation, and reperformance of the control. Inquiry alone, however, is not sufficient for such purposes. Section 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*, provides additional guidance on other audit procedures, in combination with inquiry, which may be appropriate when testing the operating effectiveness of controls.<sup>21</sup>

**.A64** In some situations, particularly in smaller, less complex entities, an entity might use a third party to provide assistance with certain financial reporting functions. When assessing the competence of personnel responsible for an entity's financial reporting and associated controls, the auditor may take into account the combined competence of entity personnel and other parties that assist with functions related to financial reporting.

---

<sup>21</sup> Paragraphs .A28–.A30 of section 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*.

***Relationship of Risk to the Evidence to Be Obtained (Ref: par. .35–.38)***

**.A65** For each control selected for testing, the evidence necessary to persuade the auditor that the control is effective depends upon the risk associated with the control. The risk associated with a control consists of the risk that the control might not be effective and, if not effective, the risk that a material weakness exists.

**.A66** Factors that affect the risk associated with a control may include

- the nature and materiality of misstatements that the control is intended to prevent, or detect and correct;
- the inherent risk associated with the related account(s) and assertion(s);
- whether there have been changes in the volume or nature of transactions that might adversely affect control design or operating effectiveness;
- whether the account has a history of errors;
- the effectiveness of entity-level controls, especially controls that monitor other controls;
- the nature of the control and the frequency with which it operates;
- the degree to which the control relies on the effectiveness of other controls (for example, the control environment or IT general controls);
- the competence of the personnel who perform the control or monitor its performance and whether there have been changes in key personnel who perform the control or monitor its performance;
- whether the control relies on performance by an individual or is automated (that is, an automated control would generally be expected to be lower risk if relevant IT general controls are effective); and
- the complexity of the control and the significance of the judgments that would be made in connection with its operation.

**.A67** Generally, a conclusion that a control is not operating effectively can be supported by less evidence than is necessary to support a conclusion that a control is operating effectively.

***Considerations Specific to Smaller, Less Complex Entities***

**.A68** A smaller, less complex entity or component with simple business processes and centralized accounting operations might have relatively simple information systems that make greater use of off-the-shelf packaged software without modification. In the areas where off-the-shelf software is used, the auditor's testing of IT controls might focus on the application controls built into the prepackaged software that management relies on to achieve its control objectives and the IT general controls that are important to the effective operation of those application controls.

**.A69** The auditor's objective is to express an opinion on the entity's ICFR overall. This allows the auditor to vary the evidence obtained regarding the effectiveness of individual controls selected for testing based on the risk associated with the individual control.

**.A70** The evidence provided by the auditor's tests of the effectiveness of controls depends upon the mix of the nature, timing, and extent of the auditor's procedures. Further, for an individual control, different combinations of the

nature, timing, and extent of testing may provide sufficient appropriate audit evidence in relation to the risk associated with the control.

**.A71** Walk-throughs might provide sufficient appropriate audit evidence of operating effectiveness, depending on

- the risk associated with the control being tested,
- the frequency of operation of the control,
- whether the control is an IT application control,
- the specific procedures performed as part of the walk-through, and
- the results of those procedures.

**.A72** The operating effectiveness of a control cannot be inferred from the absence of misstatements detected by substantive procedures. The absence of misstatements detected by substantive procedures, however, informs the auditor's risk assessments in determining the testing necessary to conclude on the operating effectiveness of a control.

#### *Nature of Tests of Controls*

**.A73** Some types of tests, by their nature, produce greater evidence of the effectiveness of controls than other tests. The following tests that the auditor might perform are presented in order of the evidence that they ordinarily would produce, from least to most: inquiry, observation, inspection of relevant documentation, and reperformance of a control. Inquiry alone, however, does not provide sufficient appropriate audit evidence to support a conclusion about the effectiveness of a control.

**.A74** The nature of the tests of effectiveness that will provide sufficient appropriate audit evidence depends, to a large degree, on the nature of the control to be tested, including whether the operation of the control results in documentary evidence of its operation. Documentary evidence of the operation of some controls, such as management's philosophy and operating style, might not exist.

#### *Considerations Specific to Smaller, Less Complex Entities*

**.A75** A smaller, less complex entity or unit might have less formal documentation regarding the operation of its controls. In those situations, testing controls through inquiry combined with other procedures, such as observation of the application of specific controls, inspection of less formal documentation, or reperformance of certain controls, might provide sufficient appropriate audit evidence about whether the control is effective.

**.A76** A *control deviation* occurs when a control does not operate as designed. Control deviations are evaluated when determining whether a deficiency in internal control exists. Because effective ICFR cannot and does not provide absolute assurance of achieving the entity's control objectives, an individual control does not necessarily have to operate without any deviation to achieve the entity's control objectives and to be considered effective.

#### *Timing and Extent of Tests of Controls (Ref: par. .39)*

**.A77** The objective of the tests of controls in an audit of ICFR is to obtain evidence about the effectiveness of controls to support the auditor's opinion on the entity's ICFR. The auditor's opinion relates to the effectiveness of the entity's ICFR as of a point in time and as a whole. Accordingly, an audit of ICFR may entail testing the design and operating effectiveness of controls not tested when expressing an opinion only on the financial statements; however, in both an audit of ICFR and a financial statement audit, the auditor directs attention

to controls that present a reasonable possibility that, if missing or deficient, would result in a material misstatement of the financial statements.

**.A78** Testing controls over a longer period of time provides more evidence of the effectiveness of controls than testing over a shorter period of time. Further, testing performed closer to the as of date provides more evidence than testing performed earlier in the year.

**.A79** The more extensively a control is tested, the greater the evidence obtained from that test.

**.A80** Prior to the as of date, management might implement changes to the entity's controls to make them more effective or efficient or to address deficiencies. If the auditor determines that the new controls achieve the related objectives of the criteria and have been in effect for a sufficient period to permit the auditor to assess their design and operating effectiveness by performing tests of controls, the auditor will not need to test the design and operating effectiveness of the superseded controls for purposes of expressing an opinion on ICFR. If the operating effectiveness of the superseded controls is important to the auditor's control risk assessment in the financial statement audit, the auditor tests the design and operating effectiveness of those superseded controls, as appropriate.

*Rollforward Procedures (Ref: par. .40)*

**.A81** The additional evidence that is necessary to update the results of testing from an interim date to the entity's period-end depends on the following factors:

- The specific control tested prior to the as of date, including the risks associated with the control, the nature of the control, and the results of those tests
- The sufficiency of the evidence of operating effectiveness obtained at an interim date
- The length of the remaining period
- The possibility that there have been any significant changes in ICFR subsequent to the interim date

**.A82** In some circumstances, such as when evaluation of these factors indicates a low risk that the controls are no longer effective during the rollforward period, inquiry alone might be sufficient as a rollforward procedure.

***Special Considerations for Subsequent Years' Audits (Ref: par. .41–.42)***

**.A83** Factors that affect the risk associated with a control in subsequent years' audits include those in paragraph .A66 and the following:

- The nature, timing, and extent of procedures performed in previous audits
- The results of the previous years' testing of the control
- Whether there have been changes in the control or the process in which it operates since the previous audit

**.A84** After taking into account the risk factors identified in paragraphs .A66 and .A83, the additional information available in subsequent years' audits might permit the auditor to assess the risk as lower than in the initial year. This, in turn, might permit the auditor to reduce testing in subsequent years.

**.A85** The auditor also may use a benchmarking strategy for automated application controls in subsequent years' audits. Benchmarking is described further beginning in paragraph .97.

**.A86** The auditor might test controls at a different interim period, increase or reduce the number and types of tests performed, or change the combination of procedures used.

## Identifying Deficiencies in ICFR (Ref: par. .43)

**.A87** The findings from audit work performed on the financial statements and on ICFR are relevant in determining whether the auditor has identified any deficiencies in ICFR.

### ***Determination of Whether Material Weaknesses Exist as of the Date Specified in Management's Assessment About ICFR (Ref: par. .44-.46)***

**.A88** The severity of a deficiency, or a combination of deficiencies, in ICFR depends on

- the magnitude of the potential misstatement resulting from the deficiency or deficiencies and
- whether there is a reasonable possibility that the entity's controls will fail to prevent, or detect and correct, a misstatement of a class of transaction, an account balance, or a disclosure.

A material weakness may exist even though the auditor has not identified misstatements during the integrated audit. Paragraph .A96 provides indicators of material weaknesses.

**.A89** Factors that affect the magnitude of a misstatement that might result from a deficiency, or deficiencies, in ICFR include, but are not limited to, the following:

- The financial statement amounts or total of transactions exposed to the deficiency
- The volume of activity (in the current period or expected in future periods) in the account or class of transactions exposed to the deficiency

**.A90** In evaluating the magnitude of the potential misstatement, the maximum amount by which an account balance or total of transactions can be overstated is generally the recorded amount, whereas understatements could be larger.

**.A91** Risk factors affect whether there is a reasonable possibility that a deficiency, or a combination of deficiencies, in ICFR will result in a misstatement of an account balance or a disclosure. The factors include the following:

- The nature of the financial statement, classes of transactions, account balances, disclosures, and assertions involved
- The cause and frequency of the exceptions detected as a result of the deficiency, or deficiencies, in ICFR
- The susceptibility of the related asset or liability to loss or fraud
- The subjectivity, complexity, or extent of judgment required to determine the amount involved
- The interaction or relationship of the control(s) with other controls
- The interaction with other deficiencies in ICFR

- The possible future consequences of the deficiency, or deficiencies, in ICFR
- The importance of controls, such as the following, to the financial reporting process:
  - General monitoring controls (such as oversight of management)
  - Controls over the prevention and detection of fraud
  - Controls over the selection and application of significant accounting policies
  - Controls over significant transactions with related parties
  - Controls over significant transactions outside the entity's normal course of business
  - Controls over the period-end financial reporting process (such as controls over nonrecurring journal entries)

**.A92** The evaluation of whether a deficiency in ICFR presents a reasonable possibility of misstatement may be made without quantifying the probability of occurrence as a specific percentage or range. Also, in many cases, the probability of a small misstatement will be greater than the probability of a large misstatement.

**.A93** Controls may be designed to operate individually, or in combination, to effectively prevent, or detect and correct, misstatements. For example, controls over accounts receivable may consist of both automated and manual controls designed to operate together to prevent, or detect and correct, misstatements in the account balance.

**.A94** A deficiency in ICFR on its own may not be sufficiently important to constitute a material weakness. However, a combination of deficiencies affecting the same significant class of transactions, account balance, or disclosure; relevant assertion; or component of ICFR may increase the risks of misstatement to such an extent to give rise to a material weakness. A combination of deficiencies that affect the same significant class of transactions, account balance, or disclosure; relevant assertion; or component of ICFR also may collectively result in a significant deficiency.

**.A95** A compensating control can limit the severity of a deficiency in ICFR and prevent it from being a material weakness. Only compensating controls that operate at a level of precision that would prevent, or detect and correct, a material misstatement are capable of having a mitigating effect. Although compensating controls can mitigate the effects of a deficiency in ICFR, they do not eliminate the deficiency.

**.A96** Indicators of material weaknesses in ICFR include

- identification of fraud, whether or not material, on the part of senior management. For the purpose of this indicator, the term *senior management* includes the principal executive and financial officers as well as any other members of senior management who play a significant role in the entity's financial reporting process;
- restatement of previously issued financial statements to reflect the correction of a material misstatement due to fraud or error;
- identification by the auditor of a material misstatement of the financial statements under audit in circumstances that indicate that the misstatement would not have been detected and corrected by the entity's ICFR; and

- ineffective oversight of the entity's financial reporting and ICFR by those charged with governance.

### ***Determination of Whether Significant Deficiencies Exist During the Integrated Audit (Ref: par. .47)***

.A97 Paragraphs .A88–.A95 provide guidance related to evaluating the severity of identified deficiencies in ICFR. Paragraph .A96 provides indicators of material weaknesses.

.A98 The evaluation of the severity of each deficiency in ICFR to determine whether the deficiency, individually or in combination, is a significant deficiency is made for purposes of communicating in writing to management and those charged with governance significant deficiencies identified during the integrated audit. See paragraphs .59–.63 for the communication requirements.

### **Subsequent Events (Ref: par. .48–.51)**

.A99 Section 560, *Subsequent Events and Subsequently Discovered Facts*, establishes requirements and provides guidance on subsequent events for a financial statement audit that are adapted and applied, as necessary, to the audit of ICFR. The auditor is required by paragraph .57 to obtain certain written representations from management relating to subsequent events.

.A100 Refer to paragraph .80 when disclaiming an opinion on management's disclosures about corrective actions.

.A101 The evaluation of such subsequently discovered facts is similar to the evaluation of subsequently discovered facts in an audit of financial statements, as described in section 560.

### **Concluding Procedures (Ref: par. .52–.56)**

.A102 If management does not revise its report, paragraph .72 applies. Paragraph .70 also applies if the auditor determines that management's required disclosure about one or more material weaknesses is not fairly presented in all material respects. If management refuses to furnish a report that includes management's assessment about ICFR, paragraph .74 applies.

### ***Obtaining Written Representations (Ref: par. .57–.58)***

.A103 See section 580, *Written Representations*, for additional requirements and guidance with respect to obtaining written representations from management as part of an audit of financial statements. Section 580 addresses matters such as who should sign the letter, the period to be covered by the letter, and when to obtain an updated letter.

.A104 Management's refusal to furnish written representations constitutes a limitation on the scope of the audit.

### ***Communicating ICFR-Related Matters (Ref: par. .59–.63)***

.A105 Section 265, *Communicating Internal Control Related Matters Identified in an Audit*, does not apply to integrated audits.

.A106 Early communication to management or those charged with governance may be important for some matters because of their relative significance and the urgency of corrective follow-up action. Regardless of the timing of the written communication of significant deficiencies and material weaknesses, the auditor may communicate these orally in the first instance to management and, when appropriate, those charged with governance to assist them in taking

timely remedial action to minimize the risks of material misstatement. However, oral communication does not relieve the auditor of the responsibility to communicate the significant deficiencies and material weaknesses in writing.

**.A107** If a previously communicated significant deficiency or material weakness remains, the current year's communication may repeat the description from the previous communication or simply reference the previous communication and the date of that communication.

**.A108** See section 230, *Audit Documentation*, for additional guidance related to the report release date.<sup>22</sup>

**.A109** The auditor's written communication for a governmental entity would generally not be made prior to management's report on ICFR, the entity's financial statements, and the auditor's report thereon, being made publicly available. This is in order to provide the user with the appropriate context to evaluate the significant deficiencies or material weaknesses identified during the integrated audit that are contained in the written communication.

**.A110** The auditor is not required to perform procedures that are sufficient to identify all deficiencies; rather, the auditor need only communicate deficiencies of which the auditor is aware.

**.A111** Unlike in an audit of financial statements that is not integrated with an audit of ICFR, the auditor is required to communicate in writing deficiencies that do not rise to the level of significant deficiencies or material weaknesses. This is because identifying deficiencies in ICFR is the focus of an audit of ICFR, whereas identifying deficiencies is incidental to an audit of financial statements (that is not integrated with an audit of ICFR), which is focused on identifying misstatements of the financial statements.

**.A112** Because the auditor's written communication of deficiencies identified during the integrated audit forms part of the final audit file, the written communication is subject to the overriding requirement for the auditor to complete the assembly of the final audit file on a timely basis, no later than 60 days following the report release date.<sup>23</sup>

## Reporting on ICFR (Ref: par. .64–.65)

### *Considerations Specific to Governmental Entities*

**.A113** When the audit is also conducted in accordance with *Government Auditing Standards* (also known as the Yellow Book), the auditor may state that the audit was conducted in accordance with the auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. If significant deficiencies in ICFR are identified in such an audit and the auditor's report refers to *Government Auditing Standards*, those standards require the auditor to add the following other-matter paragraphs to the report:

In accordance with *Government Auditing Standards*, we are required to report findings of significant deficiencies. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies in ABC Company's internal control

---

<sup>22</sup> Paragraph .A2 of section 230, *Audit Documentation*.

<sup>23</sup> Paragraph .16 of section 230.

described below [or in the accompanying schedule of findings] to be significant deficiencies.

ABC Company's response to the findings identified in our examination is described below [or in the accompanying schedule of findings]. We did not examine ABC Company's response and, accordingly, we express no opinion on the response.

**.A114** When an other-matter paragraph relating to ICFR is included in a financial statement audit report, the auditor may include a heading above the other-matter paragraph such as "Report on Internal Control Over Financial Reporting." When an other-matter paragraph relating to the financial statement audit is included in an ICFR report, the auditor may include a heading above the other-matter paragraph such as "Report on the Financial Statements."

**.A115** The auditor may choose to issue a combined report (that is, one report containing both an opinion on the financial statements and an opinion on ICFR) or separate reports on the entity's financial statements and on ICFR.

**.A116** If the auditor issues a separate report on ICFR and expresses an adverse opinion on ICFR, the disclosure required by paragraph .71 related to the effect of the adverse opinion on ICFR on the auditor's opinion on the financial statements may be combined with the report language described in paragraph .65.

## Report Modifications (Ref: par. .67)

**.A117** A *limitation on the scope of the audit* refers to the auditor's inability to obtain sufficient appropriate audit evidence, which may arise from the following:

- Circumstances beyond the entity's control
- Circumstances relating to the nature or timing of the auditor's work
- Limitations imposed by management

## Adverse Opinions (Ref: par. .68–.71)

**.A118** Paragraphs .44–.47 describe the evaluation of deficiencies. See paragraphs .73–.77 when the scope of the engagement has been limited.

**.A119** Section 705, *Modifications to the Opinion in the Independent Auditor's Report*, establishes requirements and provides guidance on adverse opinions for a financial statement audit that are adapted and applied, as necessary, to the audit of ICFR. Exhibit A, "Illustrative Reports," of this section includes an illustration of the application of the reporting requirements in section 705.<sup>24</sup>

**.A120** The auditor's report need only refer to the "material weaknesses described in management's report" and need not include a description of each material weakness, provided each material weakness is included and fairly presented in all material respects in management's report, as described in paragraph .70.

**.A121** As described in paragraph .A116, if the auditor issues a separate report on ICFR in this circumstance, the disclosure required by paragraph .71 may be combined with the report language described in paragraph .65.

---

<sup>24</sup> Illustration 2, "Adverse Opinion on ICFR," of exhibit A, "Illustrative Reports."

**Scope Limitations (Ref: par. .73–.77)**

**.A122** The auditor may be separately engaged to audit only the financial statements after withdrawing from the integrated audit. In such circumstances, the auditor cannot disregard knowledge obtained in the integrated audit engagement in determining whether to accept, or in performing, the financial statement audit.

**.A123** Section 705 establishes requirements and provides guidance on disclaimers of opinion for a financial statement audit that are adapted and applied, as necessary, to the audit of ICFR. Exhibit A of this section includes an illustration of the application of the reporting requirements in section 705.<sup>25</sup>

**.A124** In an audit of ICFR, the auditor is not required to perform any additional work prior to issuing a disclaimer when the auditor concludes that the auditor will not be able to obtain sufficient appropriate audit evidence to express an opinion.

**.A125** The auditor's report need only refer to the "material weaknesses described in management's report" and need not include a description of each material weakness, provided each material weakness is included and fairly presented in all material respects in management's report.

**Making Reference to a Component Auditor and Assuming Responsibility for the Work of a Component Auditor (Ref: par. .78–.79)**

**.A126** Section 600 addresses special considerations that apply to group audits, in particular those that involve component auditors. Section 600 is applicable, adapted as necessary, to the audit of ICFR, considering the requirements and guidance related to multiple components discussed beginning in paragraphs .28 and .81.

**.A127** The group engagement partner may decide to assume responsibility for the work of the component auditor or to make reference to the component auditor in the report on the ICFR over the group financial statements. The decision about whether to make reference to a component auditor in the report on the audit of ICFR might differ from the corresponding decision as it relates to the audit of the financial statements. For example, the audit report on the group financial statements may make reference to the audit of a significant equity investment performed by a component auditor, but the report on the ICFR over the group financial statements might not make a similar reference because management's assessment about ICFR ordinarily would not extend to controls at the equity method investee. See paragraph .84 for further discussion of the evaluation of the controls for an equity method investment.

**.A128** Section 600 establishes requirements and provides guidance when assuming responsibility for the work of a component auditor and when making reference to a component auditor in the auditor's report on the financial statements that are adapted and applied, as necessary, to the audit of ICFR. Exhibit A of this section includes an illustration of the application of the reporting requirements in section 600.<sup>26</sup>

**Additional Information (Ref: par. .80)**

**.A129** The following is an example of wording used to disclaim an opinion on such additional information:

---

<sup>25</sup> Illustration 3, "Disclaimer of Opinion on ICFR," of exhibit A.

<sup>26</sup> Illustration 4, "Unmodified Opinion on ICFR Making Reference to a Component Auditor," of exhibit A.

**Other Matter**

We did not perform auditing procedures on [describe additional information, such as management's cost-benefit statement], and accordingly, we do not express an opinion or provide any assurance on it.

**.A130** An entity may publish various documents that contain information in addition to management's report and the auditor's report on ICFR. Section 250, *Consideration of Laws and Regulations in an Audit of Financial Statements*, as well as section 720, may require the auditor to take additional action.

**Special Topics****Entities With Multiple Components (Ref: par. .81–.83)**

**.A131** As indicated in paragraph .A126 of this section, section 600 is applicable, adapted as necessary, to the audit of ICFR, considering the requirements and guidance related to components discussed in this section.

**.A132** In determining the components at which to perform tests of controls, the group engagement team may also take into account work performed by the internal audit function or others on behalf of management. For example, if the internal audit function's planned procedures include relevant audit work at various components, the auditor may coordinate work with the internal auditors and reduce the number of components at which the group engagement team, or a component auditor on the group engagement team's behalf, would otherwise need to perform audit procedures.

**.A133** The group engagement team may eliminate from further consideration components that, individually or when aggregated with others, do not present a reasonable possibility of material misstatement to the group financial statements.

**.A134** In lower risk components, the group engagement team first might evaluate whether testing entity-level controls, including controls in place to provide assurance that appropriate controls exist throughout the organization, provides sufficient appropriate audit evidence. The group engagement team or a component auditor on the group engagement team's behalf may test the operating effectiveness of controls over specific risks or group-wide controls.

**Special Situations (Ref: par. .84–.87)**

**.A135** The audit of ICFR ordinarily would not extend to controls at the equity method investee.

**.A136** The auditor may conclude it is appropriate for management to limit the assessment by excluding certain entities when, for example, management has insufficient time to assess the controls at the as of date for a recently acquired business or does not have sufficient access to a consolidated variable interest entity. However, in the case of an acquired entity, it would not be appropriate for management to limit its assessment if the period of such limitation extends beyond one year from the date of acquisition, nor would it be appropriate for management's assessment to be limited for more than one annual management report on ICFR. Law or regulation may specifically address situations in which it is appropriate for management to limit its assessment by excluding certain entities and also may require specific disclosures in these cases. If, in the auditor's judgment, it is appropriate for management to limit its assessment by excluding certain entities, the auditor may limit the audit of ICFR in the same manner, and the auditor's opinion would not be affected by a scope limitation.

**Use of Service Organizations (Ref: par. .88–.96)**

**.A137** Section 402 contains the requirements and application guidance for auditors of the financial statements of entities that use a service organization (user auditors). Section 402 addresses an auditor's responsibility for obtaining sufficient appropriate audit evidence in an audit of the financial statements of an entity that uses one or more service organizations (a user entity). Refer to section 402 for guidance when the service organization uses a subservice organization.<sup>27</sup>

**.A138** Section 402 identifies the situations in which a service organization's services and controls over them are part of a user entity's information system.<sup>28</sup> If the service organization's services are part of the user entity's information system, as described therein, then they are part of the user entity's ICFR.

**.A139** Evidence that the controls that are relevant to the auditor's opinion on ICFR are operating effectively may be obtained by following the procedures described in section 402.<sup>29</sup> These procedures include one or more of the following:

- a. Obtaining and reading a service auditor's report on management's description of a service organization's system and the suitability of the design and operating effectiveness of controls, which includes a description of the service auditor's tests of controls and results (a type 2 report), if available
- b. Performing appropriate tests of controls at the service organization
- c. Using another auditor to perform tests of controls at the service organization on behalf of the auditor

**.A140** A report on management's description of a service organization's system and the suitability of the design of controls (a type 1 report) does not include a description of the service auditor's tests of controls and results of those tests or the service auditor's opinion on the operating effectiveness of controls and, therefore, does not provide evidence of the operating effectiveness of controls. Type 1 and type 2 reports are described in section 402.

**.A141** These factors are similar to factors the auditor would consider in determining whether the report provides sufficient appropriate audit evidence to support the auditor's assessed level of control risk in an audit of the financial statements, as described in section 402.<sup>30</sup>

**.A142** Section 402 defines *complementary user entity controls* as those controls that management of the service organization assumes, in the design of its service, will be implemented by user entities, and, if necessary to achieve the control objectives stated in management's description of the service organization's system, are identified as such in that description.

**.A143** Appropriate sources of information concerning the service auditor's professional competence and independence are discussed in section 402.<sup>31</sup>

**.A144** Standards promulgated by a body designated by Council, pursuant to the "Compliance With Standards Rule" of the AICPA Code of Professional

---

<sup>27</sup> Paragraph .A20 of section 402.

<sup>28</sup> Paragraph .03 of section 402.

<sup>29</sup> Paragraphs .16–.17 of section 402.

<sup>30</sup> Paragraphs .A32–.A39 of section 402.

<sup>31</sup> Paragraphs .A21–.A22 of section 402.

Conduct, are presumed to be adequate. Although the International Auditing and Assurance Standards Board (IAASB) is not such a body, AT-C section 320, *Reporting on an Examination of Controls at a Service Organization Relevant to User Entities' Internal Control Over Financial Reporting*, may be helpful when the service auditor's report is issued in accordance with International Standard on Assurance Engagements 3402, *Assurance Reports on Controls at a Service Organization*, promulgated by the IAASB.<sup>[32]</sup> [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

**.A145** Changes in the service organization's controls may include

- changes communicated to management from the service organization, including those related to the service organization's processes and information systems.
- changes in personnel at the service organization with whom management interacts.
- changes in the design or implementation of controls that were necessary to achieve the control objectives.
- changes in reports or other data received from the service organization.
- changes in contracts or service level agreements with the service organization.
- errors identified in the service organization's processing or incidents of noncompliance with laws and regulations or fraud.

**.A146** As risk increases, the need for the auditor to obtain additional evidence increases. If the auditor concludes that additional evidence about the operating effectiveness of controls at the service organization is required, the auditor's additional procedures might include

- evaluating procedures performed by management and the results of those procedures.
- contacting the service organization, through the user entity, to obtain specific information.
- requesting that a service auditor be engaged to perform procedures that will supply the necessary information.
- visiting the service organization and performing such procedures.

### ***Benchmarking of Automated Controls (Ref: par. .97–.99)***

**.A147** Entirely automated application controls are generally less susceptible to breakdowns due to human failure. This feature may allow the auditor to use a benchmarking strategy. *Benchmarking* is the process of testing an automated application control to establish a baseline that can be combined with effective IT general controls to allow the auditor to conclude that the automated application controls are effective without repeating the specific tests of operating effectiveness.

**.A148** When the risk factors assessed in determining a benchmarking strategy indicate lower risk, the control being evaluated might be well-suited for benchmarking. When these factors indicate increased risk, the control being evaluated is less suited for benchmarking.

---

<sup>[32]</sup> [Footnote deleted, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

**.A149** A report of the compilation dates of the programs placed in operation may be used as evidence that controls within the program have not changed.

**.A150** Benchmarking automated application controls can be especially effective for entities using purchased software when the possibility of program changes is remote (for example, when the vendor does not allow access or modification to the source code).

**.A151** If general controls over program changes, access to programs, and computer operations are effective and continue to be tested, and if the auditor determines that the automated application control has not changed since the auditor established a baseline (that is, last tested the application control), the auditor may conclude that the automated application control continues to be effective without repeating the prior year's specific tests of the operation of the automated application control. The nature and extent of the evidence that the auditor obtains to determine that the control has not changed may vary depending on the circumstances, including the strength of the entity's program change controls.

**.A152** The consistent and effective functioning of the automated application controls may be dependent upon the related files, tables, data, and parameters. For example, an automated application for calculating interest income might be dependent on the continued integrity of a rate table used by the automated calculation.

**.A153** A control may be sensitive to other business factors that may have changed. For example, an automated control may have been designed with the assumption that only positive amounts will exist in a file. Such a control would no longer be effective if negative amounts (credits) begin to be posted to the account.

.A154

## Exhibit A—Illustrative Reports

The following illustrate the report elements described in this section. The illustrations assume that the audit of internal control over financial reporting (ICFR) and the audit of the financial statements were performed by the same auditor. Report modifications are discussed beginning in paragraph .67 of this section.

Illustration 1—Unmodified Opinion on ICFR

Illustration 2—Adverse Opinion on ICFR

Illustration 3—Disclaimer of Opinion on ICFR

Illustration 4—Unmodified Opinion on ICFR Making Reference to a Component Auditor

Illustration 5—Combined Report Expressing an Unmodified Opinion on ICFR and an Unmodified Opinion on the Financial Statements

### Illustration 1—Unmodified Opinion on ICFR

The following is an illustrative report expressing an unmodified opinion on ICFR.

#### Independent Auditor's Report

[Appropriate Addressee]

#### **Report on Internal Control Over Financial Reporting<sup>1</sup>**

We have audited ABC Company's internal control over financial reporting as of December 31, 20XX, based on *[identify criteria]*.<sup>2</sup>

#### ***Management's Responsibility for Internal Control Over Financial Reporting***

Management is responsible for designing, implementing, and maintaining effective internal control over financial reporting, and for its assessment about the effectiveness of internal control over financial reporting, included in the accompanying *[title of management's report]*.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on the entity's internal control over financial reporting based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

<sup>1</sup> The subtitle "Report on Internal Control Over Financial Reporting" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

<sup>2</sup> For example, the following may be used to identify the criteria: "criteria established in the *Internal Control—Integrated Framework* (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."

An audit of internal control over financial reporting involves performing procedures to obtain audit evidence about whether a material weakness exists. The procedures selected depend on the auditor's judgment, including the assessment of the risks that a material weakness exists. An audit includes obtaining an understanding of internal control over financial reporting and testing and evaluating the design and operating effectiveness of internal control over financial reporting based on the assessed risk.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Definition and Inherent Limitations of Internal Control Over Financial Reporting***

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America], and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements. Also, projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### ***Opinion***

In our opinion, ABC Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20XX, based on [identify criteria].

### ***Report on Financial Statements***

We also have audited, in accordance with auditing standards generally accepted in the United States of America, the [identify financial statements] of ABC Company, and our report dated [date of report, which should be the same as the date of the report on the audit of ICFR] expressed [include nature of opinion].

### ***Report on Other Legal and Regulatory Requirements***

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

## Illustration 2—Adverse Opinion on ICFR

The following is an illustrative report expressing an adverse opinion on ICFR. In this example, the opinion on the financial statements is not affected by the adverse opinion on ICFR.

### **Independent Auditor's Report**

[Appropriate Addressee]

#### **Report on Internal Control Over Financial Reporting<sup>1</sup>**

We have audited ABC Company's internal control over financial reporting as of December 31, 20XX, based on [identify criteria].<sup>2</sup>

#### ***Management's Responsibility for Internal Control Over Financial Reporting***

Management is responsible for designing, implementing, and maintaining effective internal control over financial reporting, and for its assessment about the effectiveness of internal control over financial reporting, included in the accompanying [title of management's report].

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on the entity's internal control over financial reporting based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

An audit of internal control over financial reporting involves performing procedures to obtain evidence about whether a material weakness exists. The procedures selected depend on the auditor's judgment, including the assessment of the risks that a material weakness exists. An audit includes obtaining an understanding of internal control over financial reporting and testing and evaluating the design and operating effectiveness of internal control over financial reporting based on the assessed risk.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our adverse audit opinion.

#### ***Definition and Inherent Limitations of Internal Control Over Financial Reporting***

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as

---

<sup>1</sup> The subtitle "Report on Internal Control Over Financial Reporting" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

<sup>2</sup> For example, the following may be used to identify the criteria: "criteria established in the *Internal Control—Integrated Framework* (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."

necessary to permit preparation of financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America], and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction, of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements. Also, projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

#### ***Basis for Adverse Opinion***

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. The following material weakness has been identified and included in the accompanying [title of management's report].

[Identify the material weakness described in management's report.]<sup>3</sup>

#### ***Adverse Opinion***

In our opinion, because of the effect of the material weakness described in the Basis for Adverse Opinion paragraph on the achievement of the objectives of [identify criteria], ABC Company has not maintained effective internal control over financial reporting as of December 31, 20XX, based on [identify criteria].

#### ***Report on Financial Statements***

We also have audited, in accordance with auditing standards generally accepted in the United States of America, the [identify financial statements] of ABC Company, and our report dated [date of report, which should be the same as the date of the report on the audit of ICFR] expressed [include nature of opinion]. We considered the material weaknesses identified above in determining the nature, timing, and extent of audit procedures applied in our audit of the 20XX financial statements, and this report does not affect such report on the financial statements.

#### ***Report on Other Legal and Regulatory Requirements***

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

---

<sup>3</sup> See paragraphs .68–.71 of this section for specific reporting requirements. The auditor's report need only refer to the material weaknesses described in management's report and need not include a description of each material weakness, provided each material weakness is included and fairly presented in all material respects in management's report.

### Illustration 3—Disclaimer of Opinion on ICFR

The following is an illustrative report expressing a disclaimer of opinion on ICFR. In this example, the auditor is applying paragraph .76 of this section because a material weakness was identified during the limited procedures performed by the auditor.

#### **Independent Auditor's Report**

[Appropriate Addressee]

#### **Report on Internal Control Over Financial Reporting<sup>1</sup>**

We were engaged to audit ABC Company's internal control over financial reporting as of December 31, 20XX, based on [identify criteria].<sup>2</sup>

#### ***Management's Responsibility for Internal Control Over Financial Reporting***

Management is responsible for designing, implementing, and maintaining effective internal control over financial reporting and for its assessment about the effectiveness of internal control over financial reporting included in the accompanying [title of management's report].

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on ABC Company's internal control over financial reporting based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

#### ***Definition and Inherent Limitations of Internal Control Over Financial Reporting***

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America], and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

---

<sup>1</sup> The subtitle "Report on Internal Control Over Financial Reporting" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

<sup>2</sup> For example, the following may be used to identify the criteria: "criteria established in the *Internal Control—Integrated Framework* (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements. Also, projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### ***Basis for Disclaimer of Opinion***

*[Provide a description of the matter giving rise to the disclaimer of opinion.]*

### ***Material Weakness***

Because of the matter described above, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. However, a material weakness has been identified. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. If one or more material weaknesses exist, an entity's internal control over financial reporting cannot be considered effective. The following material weakness has been included in the accompanying *[title of management's report]*.

*[Identify the material weakness described in management's report and include a description of the material weakness, including its nature and its actual and potential effect on the presentation of the entity's financial statements issued during the existence of the material weakness.]*

### ***Disclaimer of Opinion***

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the effectiveness of ABC Company's internal control over financial reporting.

### ***Report on Financial Statements***

We have audited, in accordance with auditing standards generally accepted in the United States of America, the *[identify financial statements]* of ABC Company, and our report dated *[date of report, which should be the same as the date of the report on the audit of ICFR]* expressed *[include nature of opinion]*. We considered the material weakness identified above in determining the nature, timing, and extent of audit procedures applied in our audit of the 20XX financial statements, and this report does not affect such report on the financial statements.

### ***Report on Other Legal and Regulatory Requirements***

*[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]*

*[Auditor's signature]*

*[Auditor's city and state]*

*[Date of the auditor's report]*

## Illustration 4—Unmodified Opinion on ICFR Making Reference to a Component Auditor

The following is an illustrative report expressing an unmodified opinion on ICFR when the engagement partner decides to make reference to the report of a component auditor.

### Independent Auditor's Report

[Appropriate Addressee]

#### **Report on Internal Control Over Financial Reporting<sup>1</sup>**

We have audited ABC Company's internal control over financial reporting as of December 31, 20XX, based on [identify criteria].<sup>2</sup>

#### ***Management's Responsibility for Internal Control Over Financial Reporting***

Management is responsible for designing, implementing, and maintaining effective internal control over financial reporting and for its assessment about the effectiveness of internal control over financial reporting included in the accompanying [title of management's report].

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on the entity's internal control over financial reporting based on our audit. We did not audit the effectiveness of internal control over financial reporting of B Company, a wholly owned subsidiary, whose financial statements reflect total assets and revenues constituting 20 percent and 30 percent, respectively, of the related consolidated financial statement amounts as of and for the year ended December 31, 20XX. The effectiveness of B Company's internal control over financial reporting was audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the effectiveness of B Company's internal control over financial reporting, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

An audit of internal control over financial reporting involves performing procedures to obtain audit evidence about whether a material weakness exists. The procedures selected depend on the auditor's judgment, including the assessment of the risks that a material weakness exists. An audit includes obtaining an understanding of internal control over financial reporting and testing and evaluating the design and operating effectiveness of internal control over financial reporting based on the assessed risk.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

---

<sup>1</sup> The subtitle "Report on Internal Control Over Financial Reporting" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

<sup>2</sup> For example, the following may be used to identify the criteria: "criteria established in the *Internal Control—Integrated Framework* (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."

***Definition and Inherent Limitations of Internal Control Over Financial Reporting***

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America], and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements. Also, projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

***Opinion***

In our opinion, based on our audit and the report of the other auditors, ABC Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20XX, based on [identify criteria].

***Report on Financial Statements***

We also have audited, in accordance with auditing standards generally accepted in the United States of America, the [identify financial statements] of ABC Company, and our report dated [date of report, which should be the same as the date of the report on the audit of ICFR] expressed [include nature of opinion], based on our audit and the report of the other auditors.

***Report on Other Legal and Regulatory Requirements***

[Form and content of this section of the auditor's report will vary depending on the nature of the auditor's other reporting responsibilities.]

[Auditor's signature]

[Auditor's city and state]

[Date of the auditor's report]

## Illustration 5—Combined Report Expressing an Unmodified Opinion on ICFR and an Unmodified Opinion on the Financial Statements

The following is an illustrative combined report expressing an unmodified opinion on ICFR and an unmodified opinion on the financial statements. The circumstances include an audit of a complete set of general purpose financial statements (single year) prepared in accordance with accounting principles generally accepted in the United States of America.

### **Independent Auditor's Report**

[Appropriate Addressee]

#### **Report on the Financial Statements and Internal Control<sup>1</sup>**

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements. We also have audited ABC Company's internal control over financial reporting as of December 31, 20XX, based on [identify criteria].<sup>2</sup>

#### ***Management's Responsibility for the Financial Statements and Internal Control Over Financial Reporting***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of effective internal control over financial reporting relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management is also responsible for its assessment about the effectiveness of internal control over financial reporting, included in the accompanying [title of management's report].

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements and an opinion on the entity's internal control over financial reporting based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement and whether effective internal control over financial reporting was maintained in all material respects.

An audit of financial statements involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the

---

<sup>1</sup> The subtitle "Report on the Financial Statements and Internal Control" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

<sup>2</sup> For example, the following may be used to identify the criteria: "criteria established in the *Internal Control—Integrated Framework* (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."

financial statements in order to design audit procedures that are appropriate in the circumstances. An audit of financial statements also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

An audit of internal control over financial reporting involves performing procedures to obtain evidence about whether a material weakness exists. The procedures selected depend on the auditor's judgment, including the assessment of the risk that a material weakness exists. An audit of internal control over financial reporting also involves obtaining an understanding of internal control over financial reporting and testing and evaluating the design and operating effectiveness of internal control over financial reporting based on the assessed risk.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Definition and Inherent Limitations of Internal Control Over Financial Reporting***

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with accounting principles generally accepted in the United States of America. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements. Also, projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20XX, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. Also, in our opinion, ABC Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20XX, based on *[identify criteria]*.

## Exhibit B—Illustrative Written Communication of Significant Deficiencies and Material Weaknesses

The following is an illustrative written communication of significant deficiencies and material weaknesses.

To Management and *[identify the body or individuals charged with governance, such as the entity's board of directors]* of ABC Company:

In connection with our audit of ABC Company's (the Company) financial statements as of December 31, 20XX, and for the year then ended, and our audit of the Company's internal control over financial reporting as of December 31, 20XX (integrated audit), auditing standards generally accepted in the United States of America require that we advise you of the following matters relating to internal control over financial reporting (internal control) identified during our integrated audit.

Our responsibility is to plan and perform our integrated audit to obtain reasonable assurance about whether the financial statements are free from material misstatement, whether due to fraud or error, and whether effective internal control was maintained in all material respects (that is, whether material weaknesses exist as of the date specified in management's assessment). The integrated audit is not designed to detect deficiencies that, individually or in combination, are less severe than a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *[We consider the following deficiencies in the Company's internal control to be material weaknesses:*

*[Describe the material weaknesses that were identified during the integrated audit and provide an explanation of their potential effects. The auditor may separately identify those material weaknesses that exist as of the date specified in management's assessment about ICFR by referring to the auditor's report.]*

*[A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the Company's internal control over financial reporting to be significant deficiencies:]*

*[Describe the significant deficiencies that were identified during the integrated audit and provide an explanation of their potential effects.]*

This communication is intended solely for the information and use of management, *[identify the body or individuals charged with governance]*, others within the organization, and *[identify any governmental authorities to which the*

*auditor is required to report*] and is not intended to be and should not be used by anyone other than these specified parties.<sup>1</sup>

[*Auditor's signature*]

[*Auditor's city and state*]

[*Date*]

---

<sup>1</sup> When the engagement is also performed in accordance with *Government Auditing Standards*, see paragraph .11 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*, for alternative reporting requirements.

.A156

## Exhibit C—Illustrative Management Report

The following is an illustrative management report containing the reporting elements described in paragraph .55 of this section with no material weaknesses reported.

### Management's Report on Internal Control Over Financial Reporting

ABC Company's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America], and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction, of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Management of ABC Company is responsible for designing, implementing, and maintaining effective internal control over financial reporting. Management assessed the effectiveness of ABC Company's internal control over financial reporting as of December 31, 20XX, based on [identify criteria].<sup>1</sup> Based on that assessment, management concluded that, as of December 31, 20XX, ABC Company's internal control over financial reporting is effective, based on [identify criteria].

Internal control over financial reporting has inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements. Also, projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

ABC Company  
Report signers, if applicable  
Date

<sup>1</sup> For example, the following may be used to identify the criteria: "criteria established in the *Internal Control—Integrated Framework* (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."

.A157

## Exhibit D—Reporting Under Section 112 of the Federal Deposit Insurance Corporation Improvement Act

1. The Federal Deposit Insurance Corporation (FDIC) has provided guidance on the meaning of the term *financial reporting* for purposes of compliance by insured depository institutions (IDIs) with Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA) (Section 36 of the Federal Deposit Insurance Act [FDI Act], 12.U.S.C. 1831m), and its implementing regulation, 12 CFR Part 363. The FDIC's guidance indicates that financial reporting, at a minimum, includes both financial statements prepared in accordance with generally accepted accounting principles (GAAP) for the IDI (or its holding company) and financial statements prepared for regulatory reporting purposes. Financial statements prepared for regulatory reporting purposes include the schedules equivalent to the GAAP-based financial statements that are included in an IDI's (or its holding company's) appropriate regulatory report (for example, Schedules RC, RI, and RI-A in the Consolidated Reports of Condition and Income [Call Report]). Accordingly, to comply with the FDICIA and Part 363, management of the IDI (or its holding company) and the auditor are required to identify and test controls over the preparation of GAAP-based financial statements as well as the schedules equivalent to the GAAP-based financial statements that are included in the IDI's (or its holding company's) appropriate regulatory report. Further, both management and the auditor are required to include in their report on the IDI's (or its holding company's) internal control over financial reporting (ICFR) a specific description indicating that the scope of ICFR included controls over the preparation of the IDI's (or its holding company's) GAAP-based financial statements as well as the schedules equivalent to the GAAP-based financial statements that are included in the IDI's (or its holding company's) appropriate regulatory report.<sup>1</sup>

### Definition of ICFR for FDICIA Purposes

2. In accordance with paragraph .64 of this section, the auditor's report is required to include a definition of ICFR that uses the same description of ICFR that management uses in its report. The following is an illustrative definition paragraph that may be used when an IDI that is an insured bank (which is not subject to Section 404 of the Sarbanes-Oxley Act of 2002) elects to report on controls for FDICIA purposes at the bank holding company level:

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with accounting principles generally accepted in the United States of America. Because management's assessment and our audit were conducted to meet the reporting requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA), our audit of [*Holding Company's*] internal control over financial reporting included controls over the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America and with the instructions to the Consolidated Financial Statements for Bank Holding

---

<sup>1</sup> Refer to Section 36 of the Federal Deposit Insurance Act (FDI Act), Section 363.1: Scope and Definitions, for the requirements pertaining to compliance by subsidiaries of holding companies.

Companies (Form FR Y-9C).<sup>2</sup> An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

### **Requirements When the IDI Is Required to Report on ICFR at the IDI Level**

3. This paragraph and the following paragraphs are applicable and provide guidance when an IDI is required by 12 CFR Part 363 to report on ICFR at the IDI level. An IDI that is a subsidiary of a holding company may use the consolidated holding company's financial statements (group financial statements) to satisfy the audited financial statements requirement of 12 CFR Part 363, provided certain criteria are met.<sup>3</sup> For some IDIs, however, an audit of ICFR is required at the IDI level. An audit of ICFR is required to be integrated with an audit of financial statements. Accordingly, to comply with the integrated audit requirements in this section, when the IDI elects to use the holding company's group financial statements to satisfy the audited financial statements requirement of 12 CFR Part 363 and the audit of ICFR is required to be performed at the IDI level, the auditor would be required to perform procedures necessary to obtain sufficient appropriate audit evidence to enable the auditor to express an opinion on the IDI's financial statements and on its ICFR. When the IDI does not prepare financial statements at the IDI level for external distribution, "financial statements" for this purpose may consist of the IDI's financial information in a reporting package or equivalent schedules and analyses that include the IDI information necessary for the preparation of the holding company's group financial statements, including disclosures. The measurement of materiality is determined based on the IDI's financial information rather than the holding company's group financial statements.<sup>4</sup> If the auditor is unable to apply the procedures necessary to obtain sufficient appropriate audit evidence with respect to the IDI's financial information, the auditor is required by paragraph .73 of this section to withdraw from the engagement or disclaim an opinion on the effectiveness of ICFR at the IDI level.

### **Evaluation of IDI Financial Reporting Process**

4. As previously described, the FDIC indicated that financial reporting, at a minimum, includes both financial statements prepared in accordance with generally accepted accounting principles (GAAP) for the IDI (or its holding company) and financial statements prepared for regulatory purposes. Financial statements prepared for regulatory reporting purposes include the schedules equivalent to the GAAP-based financial statements that are included in an IDI's

---

<sup>2</sup> This sentence would be modified if the insured depository institution (IDI) reports at the institution level rather than at the bank holding company level to refer to the Federal Financial Institutions Examination Council Instructions for Consolidated Reports of Condition and Income instead of to the Form FR Y-9C. This sentence would also be modified if the IDI reports at a holding company level and employs another approach to reporting on controls over the preparation of regulatory reports as permitted by Section 36 of the FDI Act.

<sup>3</sup> See footnote 1.

<sup>4</sup> See paragraph .10 of section 320, *Materiality in Planning and Performing an Audit*.

(or its holding company's) appropriate regulatory report. When the IDI does not prepare financial statements for external distribution, the auditor is, nevertheless, required by paragraph .24 of this section to evaluate the IDI's period-end financial reporting process. This process includes, among other things, the IDI's procedures for preparing financial information for purposes of the holding company's group financial statements, which are prepared in accordance with GAAP, and the schedules equivalent to the GAAP-based financial statements that are included in the IDI's appropriate regulatory report.

### **Organization Structure**

5. The period-end financial reporting process may occur either at the IDI or the holding company, or both. The organizational structure, including where the controls relevant to the IDI's financial information operate, may affect how the auditor evaluates this process. For example

- a. when the period-end financial reporting process occurs at the holding company and the IDI comprises substantially all of the consolidated total assets, there may be no distinguishable difference between the IDI's and its holding company's process for purposes of the integrated audit. This is because the auditor's risk assessment, including the determination of significant classes of transactions, account balances, and disclosures, and their relevant assertions, the selection of controls to test, and the determination of the evidence necessary to conclude on the effectiveness of a given control, would likely be the same for the IDI and the holding company.<sup>5</sup> In this circumstance, the period-end financial reporting process of the holding company would be, in effect, the period-end financial reporting process of the IDI and, therefore, would be included in the scope of the integrated audit of the IDI.
- b. when the period-end financial reporting process occurs at the holding company and the IDI does not comprise substantially all of the consolidated total assets, the IDI's financial reporting process may be sufficient for the auditor to meet the requirement in paragraph .24 of this section, if the necessary GAAP information is prepared by the IDI or the holding company, and the process can be evaluated by the auditor. The auditor may determine that the IDI's preparation of the IDI's appropriate regulatory report, together with other financial information at the IDI level that is incorporated into the holding company's group financial statements, is sufficient for this purpose. In this circumstance, both the period-end financial reporting process of the holding company, as it relates to the financial information of the IDI, and the period-end financial reporting process of the IDI, with respect to the preparation of the schedules equivalent to the basic financial statements that are included in the IDI's appropriate regulatory report, would be included in the scope of the integrated audit of the IDI.

### **IDI Not Subject to Section 404 of Sarbanes-Oxley Act of 2002**

6. The illustrative reports in exhibit A, "Illustrative Reports," of this section may be used to report on the effectiveness of the IDI's ICFR. Because 12 CFR Part 363 does not require the auditor to issue a separate auditor's report on the IDI's financial statements, the requirement in paragraph .65 of this section to add an other-matter paragraph to the ICFR report that references the financial

---

<sup>5</sup> See paragraph .A22 of this section.

statement audit will not apply when the auditor does not issue a separate auditor's report on the IDI's financial statements. In accordance with paragraph .64 of this section, the auditor's report on ICFR is required to include a definition of ICFR that uses the same description of ICFR as management uses in its report. The following is an illustrative definition paragraph that may be used when an IDI that is not subject to Section 404 of the Sarbanes-Oxley Act of 2002 is required to report on controls for FDICIA purposes at the IDI level, and the IDI uses the holding company's group financial statements to satisfy the audited financial statements requirement of 12 CFR Part 363:

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with generally accepted accounting principles. Because management's assessment and our audit were conducted to meet the reporting requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA), our audit of [IDI's] internal control over financial reporting included controls over the preparation of financial information for purposes of [consolidated holding company's] financial statements in accordance with accounting principles generally accepted in the United States of America and controls over the preparation of schedules equivalent to basic financial statements in accordance with the Federal Financial Institutions Examination Council Instructions for Consolidated Reports of Condition and Income (Call Report Instructions). An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

### **Use of the *Internal Control—Integrated Framework* (2013) (COSO)**

7. Management may evaluate and report on the effectiveness of the IDI's ICFR based on the report *Internal Control—Integrated Framework* (2013), issued by Committee of Sponsoring Organizations of the Treadway Commission's (COSO). For purposes of reporting under Section 112 of FDICIA, the COSO criteria relevant to internal reporting objectives are appropriate only for the IDI and its regulatory agencies that are presumed to have an adequate understanding of the level of the auditor's service on historical financial information, considering the IDI does not prepare external GAAP-based financial statements. Accordingly, the report is required to include an other-matter paragraph, under an appropriate heading, that restricts its use.<sup>6</sup> An example of such a restriction is as follows:

#### ***Restriction on Use***<sup>7</sup>

This report is intended solely for the information and use of management, [*identify the body or individuals charged with governance*], others within the organization, the Federal Deposit Insurance Corporation and [*other federal bank*

---

<sup>6</sup> See paragraphs .06a and .07 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. Although reports on internal control issued in accordance with the guidance in this appendix are required to be restricted as to use, Section 36 of the FDI Act and Title 12 U.S. Code of Federal Regulations Part 363 require that these reports be available for public inspection.

<sup>7</sup> Another appropriate heading may be used.

*regulatory agency*] and is not intended to be and should not be used by anyone other than these specified parties.

8. Likewise, the auditor's report and management's assessment about ICFR refer to the COSO criteria relevant to internal reporting objectives. For example, the following may be used to identify the criteria: "criteria established in the *Internal Control—Integrated Framework* (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) relevant to internal reporting objectives for the express purpose of meeting the regulatory requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA)."

## AU-C Appendix A

### *Historical Background*

In 1917, the American Institute of Certified Public Accountants, then known as the American Institute of Accountants, at the request of the Federal Trade Commission, prepared "a memorandum on balance-sheet audits," which the Federal Trade Commission approved and transmitted to the Federal Reserve Board.

The Federal Reserve Board, after giving the memorandum its provisional endorsement, published it in the *Federal Reserve Bulletin* of April 1917; reprints were widely disseminated for the consideration of "banks, bankers, banking associations; merchants, manufacturers, and associations of manufacturers; auditors, accountants, and associations of accountants" in pamphlet form with the title of "Uniform Accounting: a Tentative Proposal Submitted by the Federal Reserve Board."

In 1918, it was reissued under the same sponsorship, with a new title "Approved Methods for the Preparation of Balance-Sheet Statements." There was practically no change from 1917 except that, as indicated by the respective titles and corresponding change in the preface, instead of the objective of "a uniform system of accounting to be adopted by manufacturing and merchandising concerns," the new objective was "the preparation of balance-sheet statements" for the same businesses.

In 1929, a special committee of the Institute undertook revision of the earlier pamphlet in the light of the experience of the past decade; again under the auspices of the Federal Reserve Board, the revised pamphlet was issued in 1929 as "Verification of Financial Statements."

The preface of the 1929 pamphlet spoke of its predecessors as having been criticized, on the one hand, by some accountants for being "more comprehensive than their conception of the so-called balance-sheet audit," and, on the other hand, by other accountants because "the procedure would not bring out all the desired information." This recognition of opposing views evidenced the growing realization of the impracticability of uniform procedures to fit the variety of situations encountered in practice. Of significance is the appearance in the opening paragraph of "General Instructions" in the 1929 publication of the statement:

The extent of the verification will be determined by the conditions in each concern. In some cases, the auditor may find it necessary to verify a substantial portion or all of the transactions recorded upon the books. In others, where the system of internal check is good, tests only may suffice. The responsibility for the extent of the work required must be assumed by the auditor.

Between 1932 and 1934, there was correspondence, dealing with both accounting and auditing matters, between the Institute's special committee on cooperation with stock exchanges and the committee on stock list of the New York Stock Exchange. The views expressed were an important development in the recognition of the position of accountancy in finance and business. The series of letters was published in 1934 under the title *Audits of Corporate Accounts*.

In 1936, a committee of the Institute prepared and published a further revision of the earlier pamphlets under the title of "Examination of Financial Statements by Independent Public Accountants." The Institute availed itself of the views of persons outside the ranks of the profession whose opinions would be helpful, but the authority behind and responsibility for the publication of the pamphlet rested wholly with the Institute as the authoritative representative of a profession that had by that time become well established in the business community.

In the 1936 revision, aside from the very briefly noted "Modifications of Program for Larger or Smaller Companies," the detailed procedures were restrictively stated to be an "outline of examination of financial statements of a small or moderate size company." Moreover, the nature and extent of such examinations were based on the purpose of the examination, the required detail to be reported on, the type of business, and, most important of all, the system of internal control; variations in the extent of the examination were specifically related to "the size of the organization and the personnel employed" and were said to be "essentially a matter of judgment which must be exercised by the accountant."

It is possible from the foregoing narrative to trace the development of the profession's view of an audit based on the experience of three decades. The succession of titles is illustrative. The earliest ambition for "uniform accounting" was quickly realized to be unattainable, and the same listed procedures were related instead to "balance-sheet statements." Then, with the gradually greater emphasis on periodic earnings, the earlier restrictive consideration of the balance sheet was superseded in the 1929 title, "Verification of Financial Statements," by according the income statement at least equal status. When in turn the 1936 revision was undertaken, there was a growing realization that, with the complexity of modern business and the need of the independent auditor to rely on testing, such a word as "verification" was not an accurate portrayal of the independent auditor's function. Accordingly, the bulletin of that year was stated to cover an "examination" of financial statements.

## Statements on Auditing Procedure

The Committee on Auditing Procedure had its beginning on January 30, 1939, when the executive committee of the Institute authorized the appointment of a small committee "to examine into auditing procedure and other related questions in the light of recent public discussion."

On May 9 of that year, the report "Extensions of Auditing Procedure" of this special committee was adopted by the Council of the Institute and authority given for its publication and distribution, and in the same year the bylaws were amended to create a standing Committee on Auditing Procedure.

In 1941, the executive committee authorized the issuance to Institute members, in pamphlet form, of the Statements on Auditing Procedure, prepared by the Committee on Auditing Procedure, previously published only in *The Journal of Accountancy*.

The Statements on Auditing Procedure were designed to guide the independent auditor in the exercise of his judgment in the application of auditing procedures. In no sense were they intended to take the place of auditing textbooks; by their very nature textbooks must deal in a general way with the description of procedures and refinement of detail rather than the variety of circumstances encountered in practice that require the independent auditor to exercise his judgment.

Largely to meet this need, the Institute began the series of Statements on Auditing Procedure. The first of these presented the report of the original special committee, as modified and approved, at the Institute's annual meeting on September 19, 1939, and issued under the title of "Extensions of Auditing Procedure."

Statement No. 1 presented conclusions drawn from the experience and tradition of the profession which largely furnished the foundation for the Committee's present structural outline of auditing standards; the other Statements on Auditing Procedure appropriately fit into that structural outline.

The "Codification of Statements on Auditing Procedure" was issued by the Committee on Auditing Procedure in 1951 to consolidate the features of the first 24 pronouncements, which were of continuing usefulness.

When the SEC adopted the requirement that a representation on compliance with generally accepted auditing standards be included in the independent auditor's report on financial statements filed with the SEC, it became apparent that a pronouncement was needed to define these standards. Accordingly, the Committee on Auditing Procedure undertook a special study of auditing standards (as distinguished from auditing procedures) and submitted a report that was published in October 1947 under the title "Tentative Statement of Auditing Standards—Their Generally Accepted Significance and Scope." The recommendations of this brochure ceased to be tentative when, at the September 1948 meeting, the membership of the Institute approved the summarized statement of auditing standards.

In 1954 the tentative brochure was replaced by the booklet *Generally Accepted Auditing Standards—Their Significance and Scope*, which was issued as a special report of the Committee on Auditing Procedure. This pronouncement also gave recognition to the approval of Statement on Auditing Procedure No. 23 (Revised), *Clarification of Accountant's Report When Opinion Is Omitted* (1949) and the issuance of the codification (1951).

Statement on Auditing Procedure No. 33 was issued in 1963 as a consolidation of, and a replacement for, the following pronouncements of the Committee on Auditing Procedure: *Internal Control* (1949), *Generally Accepted Auditing Standards* (1954), *Codification of Statements on Auditing Procedure* (1951), and Statements on Auditing Procedure Nos. 25–32, which were issued between 1951 and 1963. Statement No. 33 was a codification of earlier committee pronouncements that the committee believed to be of continuing interest to the independent auditor.

## Statements on Auditing Standards

After issuance of Statement on Auditing Procedure No. 33, 21 additional Statements on Auditing Procedure, Nos. 34–54, were issued by the Committee on Auditing Procedure. In November 1972, these pronouncements were codified in Statement on Auditing Standards (SAS) No. 1, *Codification of Auditing Standards and Procedures*. Also, in 1972, the name of the committee was changed to the Auditing Standards Executive Committee to recognize its role as the AICPA's senior technical committee charged with interpreting generally accepted auditing standards.

The Auditing Standards Executive Committee issued 22 additional statements through No. 23. These statements were incorporated in this publication, which provides a continuous codification of SASs.

## Creation of the Auditing Standards Board

As a result of the recommendations of the Commission on Auditors' Responsibilities, an independent study group appointed by the AICPA, a special committee was formed to study the structure of the AICPA's auditing standard-setting activity. In May 1978, the AICPA Council adopted the recommendations of that committee to restructure the Committee. Accordingly, in October 1978 the Auditing Standards Board (ASB) was formed as the successor to prior senior technical committees on auditing matters. The ASB was given the following charge:

The AICPA Auditing Standards Board shall be responsible for the promulgation of auditing standards and procedures to be observed by members of the AICPA in accordance with the Institute's rules of conduct.

The board shall be alert to new opportunities for auditors to serve the public, both by the assumption of new responsibilities and by improved ways of meeting old ones, and shall as expeditiously as possible develop standards and procedures that will enable the auditor to assume those responsibilities.

Auditing standards and procedures promulgated by the board shall—

- a. Define the nature and extent of the auditor's responsibilities.
- b. Provide guidance to the auditor in carrying out his duties, enabling him to express an opinion on the reliability of the representations on which he is reporting.
- c. Make special provision, where appropriate, to meet the needs of small enterprises.
- d. Have regard to the costs which they impose on society in relation to the benefits reasonably expected to be derived from the audit function.

The Auditing Standards Board shall provide auditors with all possible guidance in the implementation of its pronouncements, by means of interpretations of its statements, by the issuance of guidelines, and by any other means available to it.

## Changes Created by Sarbanes-Oxley Act of 2002

AICPA members who perform auditing and other related professional services have been required to comply with SASs promulgated by the AICPA ASB. These standards constitute what is known as generally accepted auditing standards (GAAS). Prior to Sarbanes-Oxley, the ASB's auditing standards have applied to audits of all entities.

However, as a result of the passage of the Sarbanes-Oxley Act of 2002 (the Act), the PCAOB was designated as the body to establish standards relating to the preparation and issuance of audit reports for entities within its jurisdiction as defined by the Act. Public accounting firms auditing those entities are required to be registered with the PCAOB and to adhere to all PCAOB rules and standards in those audits. In 2003, the PCAOB adopted the then-existing Audit and Attest Standards as its interim auditing standards.

The preparation and issuance of audit reports for those entities not subject to the Act, as amended, (that is, those audits that are not within the PCAOB's jurisdiction) continue to be governed by GAAS promulgated by the ASB.

## The Reconstituted ASB

In February 2004, the AICPA's Board of Directors unanimously recommended that the AICPA's Governing Council take the following action at its meeting in May 2004:

- Designate the PCAOB as a body with the authority to promulgate auditing and related attestation standards, quality control, ethics, independence, and other standards relating to the preparation and issuance of audit reports for entities as defined by the Act, as amended.
- Amend the ASB's current designation to recognize the ASB as a body with the authority to promulgate auditing, attestation, and quality control standards relating to the preparation and issuance of audit reports for entities not within the PCAOB's jurisdiction.

As a result of this action, the ASB was reconstituted and its jurisdiction amended by AICPA Council to recognize the ASB as a body with the authority to promulgate auditing, attestation and quality control standards relating to the preparation and issuance of audit and attestation reports for entities not within the PCAOB's jurisdiction.

## U.S. Auditing Standards—AICPA (Clarified)

In October 2011, the ASB issued SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, which was the culmination of a multi-year Clarity Project to clarify the SASs and converge them with the International Standards on Auditing. Beginning with SAS No. 122, all new SASs are now included in the section *U.S. Auditing Standards—AICPA (Clarified)*. SAS No. 122 is effective for audits of financial statements for periods ending on or after December 15, 2012. Refer to individual AU-C sections for specific effective date language.

ISA 805	Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts or Items of a Financial Statement
ISA 810	Engagements to Report on Summary Financial Statements

This analysis was prepared by the AICPA Audit and Attest Standards staff to highlight substantive differences between the Statements on Auditing Standards and International Standards on Auditing, and the rationales therefore. This analysis is not authoritative and is prepared for informational purposes only. It has not been acted on, or reviewed by, the Auditing Standards Board.

Statements on Auditing Standards (SASs) are issued by the Auditing Standards Board (ASB), the senior committee of the AICPA designated to issue pronouncements on auditing matters for nonissuers.<sup>1</sup> The "Compliance With Standards Rule" (ET sec. 1.310.001) of the AICPA Code of Professional Conduct

\* In July 2012, Statement on Auditing Standards (SAS) No. 126, *The Auditor's Consideration of the Entity's Ability to Continue as a Going Concern* (sec. 570), was issued. The Auditing Standards Board (ASB) moved forward with the clarity redraft of AU section 341, *The Auditor's Consideration of the Entity's Ability to Continue as a Going Concern* [SAS No. 59, as amended], in order to be consistent with the format of the other clarified SASs that were recently issued as SAS Nos. 117–120 and 122–125. However, the ASB has decided to delay convergence with International Standard on Auditing 570, *Going Concern*, pending FASB's anticipated development of accounting guidance addressing going concern.

<sup>1</sup> See the definition of the term *nonissuer* in the AU-C Glossary. [Footnote revised, February 2017, to better reflect the AICPA Council Resolution designating the PCAOB to promulgate technical standards.]

requires an AICPA member who performs an audit of a nonissuer to comply with standards promulgated by the ASB.

In 2007, the ASB began a project to clarify its standards to make them easier to read, understand, and apply, and to converge its standards with those developed by the International Auditing and Assurance Standards Board (IAASB) of the International Federation of Accountants (IFAC). Accordingly, the ASB established clarity drafting conventions and has revised all its SASs in accordance with those conventions, using corresponding International Standards on Auditing (ISAs) as a base. Each clarified SAS differs from its corresponding ISA only where the ASB believes compelling reasons exist for the differences. As described in this appendix, nearly all ISA requirements are also requirements of auditing standards generally accepted in the United States of America (GAAS). However, GAAS contain additional requirements that address issues specific to the United States of America or have been retained from previous SASs.

An AICPA member practicing in the United States of America may be engaged to audit the financial statements of a nonissuer in accordance with the ISAs. In those circumstances where the auditor's report states that the audit was conducted in accordance with the ISAs, the U.S. auditor should comply with both the ISAs and, as required by the AICPA Code of Professional Conduct, GAAS. An engagement of this nature is normally conducted by performing an audit in accordance with GAAS plus performing any additional procedures required by the ISAs.

The purpose of this appendix is to assist the U.S. auditor in planning and performing an engagement in accordance with the ISAs. This document provides a brief description of how each ISA differs from the comparable U.S. standard. However, to fully understand how the ISA might affect the nature, timing, and extent of the procedures performed in an engagement in accordance with GAAS, the auditor should consider the ISAs in their entirety by considering the standards together with the related guidance included in the ISAs. In performing an audit in accordance with the ISAs, the auditor also needs to comply with IFAC's Code of Ethics.

This analysis compares the ISAs included in the 2010 edition of the *Handbook of International Quality Control, Auditing, Review, Other Assurance, and Related Services Pronouncements*, to the AICPA's *Professional Standards*. References to GAAS are made to the relevant AU-C sections. This analysis describes the differences in terms of

- a. differences in language,
- b. requirements in the ISAs not in GAAS,
- c. requirements in GAAS not in the ISAs,
- d. differences between requirements, and
- e. the placement of certain requirements within GAAS.

## General

In converging with the ISAs, the ASB has made various changes to the language of the ISAs throughout the SASs. Such changes have been made to use terms applicable in the United States and to make the SASs easier to read and apply in the United States. The ASB believes that such changes do not create differences

between the application of the ISAs and the application of GAAS. Selected changes are described in the analysis that follows.

## ***ISA 200, Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with International Standards on Auditing, Compared to Section 200, Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards***

### **Requirements in the ISAs Not in GAAS**

The ISAs provide for reporting on financial statements that are prepared in accordance with fair presentation financial reporting frameworks and compliance financial reporting frameworks. In the ISAs, compliance frameworks do not necessarily require fair presentation. GAAS address reporting on financial statements that are prepared in accordance with fair presentation frameworks only, because the ASB believes that fair presentation frameworks are the only financial reporting frameworks used in the United States.

### **Requirements in GAAS Not in the ISAs**

GAAS, as described in paragraph .25 of section 200, contain two categories of professional requirements: unconditional requirements and presumptively mandatory requirements. Paragraph .25 of section 200 describes the auditor's obligation to comply with (1) an unconditional requirement in all cases where such requirement is relevant, and (2) a presumptively mandatory requirement in all cases where such a requirement is relevant except in rare circumstances. The ISAs contain only one category of professional requirements, with which paragraphs 22–23 of ISA 200 require the auditor to comply when such requirements are relevant except in rare circumstances. The ASB retained two categories of professional requirements so as not to create unnecessary differences with the application of the auditing standards promulgated by the PCAOB, which contain the same two categories of professional requirements as described in section 200.

Paragraphs .27–.28 of section 200 contain requirements relating to interpretive publications and other auditing publications. The ISAs do not address interpretive publications or other auditing publications.

## ***ISA 210, Agreeing the Terms of Audit Engagements, Compared to Section 210, Terms of Engagement***

### **Requirements in the ISAs Not in GAAS**

Paragraphs 11–12 of ISA 210 contain requirements relating to situations when law or regulation prescribes management's responsibilities. Paragraph 18 of ISA 210 contains requirements relating to situations when law or regulation supplements financial reporting standards established by an authorized or recognized standards-setting organization. The ASB believes that these situations are not applicable to nonissuers in the United States and, accordingly, such requirements are not included in GAAS.

## Requirements in GAAS Not in the ISAs

Paragraphs .11–.12 of section 210 address the auditor's communications with predecessor auditors in initial audit or reaudit engagements. ISA 210 does not contain these requirements. The ASB believes these requirements and related application material are appropriate for inclusion in GAAS.

Paragraph 13 of ISA 210 requires that for recurring audits, the auditor should assess whether there is a need to remind the entity of the existing terms of the engagement. Paragraph .13 of section 210 requires the auditor to remind the entity of the existing terms of the engagement and to document the reminder. The ASB believes that it is important to review the terms of the engagement with the entity each year.

## Placement of Certain Requirements Within GAAS

Paragraphs 19–20 of ISA 210 contain requirements relating to situations when the financial reporting framework is prescribed by law or regulation. These requirements are addressed in section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*. The different placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

## ***ISA 220, Quality Control for an Audit of Financial Statements, Compared to Section 220, Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards***

## Requirements in the ISAs Not in GAAS

Paragraph 21 of ISA 220 contains requirements relating to audits of listed entities. Such requirements are not applicable to audits of nonissuers in the United States and, accordingly, such requirements are not included in GAAS.

## Differences Between Requirements

Paragraph .21 of section 220 requires that when an engagement quality control review is performed, the engagement quality control review be completed before the engagement partner releases the auditor's report. Paragraph 19 of ISA 220 requires that the quality control review be completed before the engagement partner dates the auditor's report. The ASB believes that an engagement quality control review is an independent review of the engagement team's significant judgments, including the date selected by the engagement team to date the report. As noted in the application material to section 220, when the engagement quality control review results in additional procedures being performed, the date of the report would be changed.

## ISA 230, *Audit Documentation*, Compared to Section 230, *Audit Documentation*

### Requirements in GAAS Not in the ISAs

Paragraph .10 of section 230 requires the auditor to include abstracts or copies of significant contracts or agreements in documentation of auditing procedures related to inspection of those significant contracts or agreements. ISA 230 does not require the auditor to include abstracts or copies of the entity's records. Paragraph A3 of ISA 230 (which is application material relating to the requirement in paragraph 8 of ISA 230, which corresponds to paragraph .08 in section 230) states, "the auditor may include abstracts or copies of the entity's records (for example, significant and specific contracts and agreements) as part of audit documentation."

When performing auditing procedures related to inspection of significant contracts or agreements, the ASB believes that, in the context of the preparation of audit documentation that is sufficient to enable an experienced auditor to understand the audit evidence obtained, it is important to include abstracts or copies of such contracts or agreements. Further, the PCAOB standards include a requirement that documentation of auditing procedures related to the inspection of significant contracts or agreements should include abstracts or copies of the documents.<sup>2</sup> The ASB does not want to create a difference with PCAOB standards in this regard.

### Differences Between Requirements

Paragraph 14 of ISA 230 requires the auditor to assemble the audit documentation in an audit file and complete the administrative process of assembling the final audit file on a timely basis after the date of the auditor's report, and the related application and other explanatory material indicates that an appropriate time limit within which to complete the assembly of the final audit file is ordinarily not more than 60 days after the date of the auditor's report. Paragraph .16 of section 230 requires the auditor to assemble the audit documentation in an audit file and complete the administrative process of assembling the final audit file on a timely basis, no later than 60 days following the report release date. The auditor is required by paragraph .15 of section 230 to document the report release date in the audit documentation.

Paragraph 15 of ISA 230 requires that after the assembly of the final audit file has been completed, the auditor not delete or discard audit documentation of any nature before the end of its retention period. Paragraph A23 of ISA 230 states, "the retention period for audit engagements is ordinarily no shorter than five years from the date of the auditor's report, or, if later, the date of the group auditor's report." Paragraph .17 of section 230 requires that after the documentation completion date, the auditor not delete or discard audit documentation before the end of the specified retention period, and goes on to state that "such retention period, however, should not be shorter than five years from the report release date."

The ASB believes that it is appropriate to be consistent with the standards of the PCAOB in relation to the date from which the documentation completion

---

<sup>2</sup> Paragraph 10 of PCAOB Auditing Standard No. 3, *Audit Documentation* (AICPA, *PCAOB Standards and Related Rules*).

and retention periods are measured.<sup>3</sup> Notwithstanding that the documentation completion period is measured from the same date in GAAS and in the PCAOB standard, the ASB continues to believe that a 60-day period is appropriate for GAAS as opposed to the 45-day period in the PCAOB standard.

## **ISA 240, *The Auditor's Responsibilities Relating to Fraud in an Audit of Financial Statements*, Compared to Section 240, *Consideration of Fraud in a Financial Statement Audit***

### **Differences in Language**

Paragraph 11 of ISA 240 and paragraph .11 of section 240 define *fraud*. However, the definition of fraud in paragraph .11 of section 240 was revised by changing the words "to obtain illegal or unjust advantage" to "results in a misstatement in financial statements that are the subject of an audit." The ASB believes that (a) the definition in ISA 240 is too broad and could inappropriately expose auditors to additional liability in the United States, and (b) the meaning of *unjust* could be interpreted very broadly and subjectively in its application and could imply a scope well beyond the intent of the standard. The ASB believes that the change in the definition does not create significant differences between the application of ISA 240 and the application of section 240.

### **Requirements in GAAS Not in the ISAs**

Section 240 contains requirements, consistent with requirements of AU section 316, *Consideration of Fraud in a Financial Statement Audit* [SAS No. 99, as amended], that have been expanded from the requirements of ISA 240, or elevated from application material in ISA 240, as follows:

- The requirement in paragraph 14 of ISA 240 for the auditor to investigate inconsistent responses to auditor inquiries of management or those charged with governance has been expanded in paragraph .14 of section 240 to also include responses that are otherwise unsatisfactory (for example, vague or implausible responses).
- The requirement in paragraph 15 of ISA 240 that requires members of the engagement team to discuss the susceptibility of the entity's financial statements to material misstatements has been expanded in paragraph .15 of section 240 to include additional discussion items from application and other explanatory material in ISA 240 to requirements in section 240. These include a required brainstorming session focused very specifically on, among other things, internal and external fraud factors and the possibility of management override of controls. In addition, section 240 further clarifies the requirement for participation of key engagement team members and the engagement partner in the discussion and brainstorming sessions. Lastly, section 240 requires appropriate communication throughout the audit among the engagement team members. Several of these discussion items have been elevated from paragraphs A10–A11 of ISA 240.

---

<sup>3</sup> Paragraphs 14–15 of PCAOB Auditing Standard No. 3.

- The requirement in paragraph 44 of ISA 240 to document the significant decisions reached during the discussion among the engagement team regarding fraud-related matters has been expanded in paragraph .43 of section 240 to also require documenting how and when the discussion occurred and the audit team members who participated.
- Procedures elevated from paragraph A18 of ISA 240 to requirements in paragraph .19 of section 240, related to making inquiries of internal audit as part of performing risk assessment procedures, include determining (a) whether internal audit has performed any procedures to identify or detect fraud during the year, and (b) whether management has satisfactorily responded to any findings resulting from these inquiries.
- The requirement in paragraph 34 of ISA 240 to evaluate whether the results of analytical procedures at or near the end of the reporting period indicate a previously unrecognized risk of material misstatement due to fraud has been expanded in paragraph .34 of section 240 to include the accumulated results of auditing procedures, including analytical procedures performed as substantive tests or when forming an overall conclusion. Section 240 also specifically requires performance of analytical procedures relating to revenue accounts through the end of the reporting period, in light of the generally higher risk of financial statement fraud involving revenue.
- The requirements in paragraph 32(a) of ISA 240 address designing and performing auditing procedures to test the appropriateness of journal entries. In addition to essential guidance about addressing the risk of possible management override of controls, included in paragraph .32a of section 240 are requirements to
  - obtain an understanding of the entity's financial reporting process and controls over journal entries and other adjustments, and determine whether such controls are suitably designed and have been implemented.
  - consider fraud risk factors, the nature and complexity of accounts, and entries processed outside the normal course of business, elevated from the application and other explanatory material contained in paragraph A43 of ISA 240 in order to emphasize the importance of these considerations.
  - include identification and testing of specific journal entries regardless of controls.
- The requirement for the auditor to design and perform auditing procedures to review accounting estimates for biases and evaluate whether the circumstances producing the bias, if any, represent a risk of material misstatement due to fraud, in paragraph 32(b) of ISA 240, has been expanded in paragraph .32b of section 240 to include those estimates that are based on highly sensitive assumptions.

## **ISA 250, Consideration of Laws and Regulations in an Audit of Financial Statements, Compared to Section 250, Consideration of Laws and Regulations in an Audit of Financial Statements**

### **Differences in Language**

Changes to the language of section 250 include:

- In paragraphs .10a and .13, changing the phrase "compliance with the provisions of those laws and regulations generally recognized to have a direct and material effect on the determination of material amounts and disclosures in the financial statements" to the phrase "material amounts and disclosures in the financial statements that are determined by the provisions of those laws and regulations generally recognized to have a direct effect on their determination." This change was made to address the ASB's concerns that the language in ISA 250 expanded the auditor's responsibility to encompass all aspects of those laws and regulations described in paragraph .06a of section 250, as opposed to focusing on the amounts and disclosures included in the financial statements. The ASB has discussed this issue with the IAASB, and the wording in section 250 reflects the intent of ISA 250. The IAASB made subsequent changes to the application material in ISA 250 to make this clear.
- In paragraphs .10b and .14, changing "to help identify" to "that may identify." The ASB believes that the wording of section 250 better conveys the intent of ISA 250.
- In paragraph .18, adding the phrase "(at a level above those involved with the suspected noncompliance, if possible)."

Such changes have been made to make section 250 easier to read and apply. The ASB believes that such changes do not create differences between the application of ISA 250 and the application of section 250.

### **Placement of Certain Requirements Within GAAS**

Paragraph 16 of ISA 250 requires the auditor to request management and, when appropriate, those charged with governance to provide written representations regarding identified or suspected instances of noncompliance with relevant laws and regulations. The ASB believes this requirement is more appropriately placed in section 580, *Written Representations*. The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

## **ISA 260, Communication with Those Charged with Governance, Compared to Section 260, The Auditor's Communication With Those Charged With Governance**

### **Differences in Language**

Changes to the language of section 260 from ISA 260 include

- in paragraph .12, requiring that the auditor communicate with those charged with governance "the auditor's views about qualitative aspects of the entity's significant accounting practices" compared with the requirement in paragraph 16 of ISA 260 that the auditor communicate with those charged with governance "the auditor's views about significant qualitative aspects of the entity's accounting practices." The ASB believes that the wording of section 260 better conveys the intent of ISA 260.
- in paragraph .16, changing the language in ISA 260 from "Written communications need not include all matters that arose during the course of the audit" to "This communication need not include matters that arose during the course of the audit that were communicated with those charged with governance and satisfactorily resolved."

Such changes have been made to make section 260 easier to read and apply. The ASB believes that such changes do not create differences between the application of ISA 260 and the application of section 260.

## Requirements in the ISAs Not in GAAS

Paragraphs 17 and 20 of ISA 260 require the auditor to communicate certain matters regarding independence in the case of listed entities. These requirements are not applicable to the audits of nonissuers in the United States and, therefore, are not included in section 260.

## Requirements in GAAS Not in the ISAs

Paragraph .12a of section 260 requires the auditor, when applicable, to determine that those charged with governance are informed about the process used by management in formulating particularly sensitive accounting estimates and about the basis for the auditor's conclusions regarding the reasonableness of those estimates.

Paragraph .14a and c of section 260 require, when not all of those charged with governance are involved in managing the entity, the auditor to communicate (a) material, corrected misstatements that were brought to the attention of management as a result of audit procedures, and (b) the auditor's views about significant matters that were the subject of management's consultations with other accountants on accounting or auditing matters when the auditor is aware that such consultation has occurred. Paragraph .12c of section 260 requires the auditor to communicate disagreements with management, if any. ISA 260 does not require communication of these matters. The ASB believes that it is important for these matters to be communicated to those charged with governance of nonissuers in the United States.

Paragraph .17 of section 260 requires the auditor, when communicating matters in accordance with section 260 in writing, to indicate in the communication that it is intended solely for the information and use of those charged with governance and, if appropriate, management and is not intended to be, and should not be, used by anyone other than these specified parties. ISA 260 does not require this indication, nor does it prohibit it. The ASB believes that this communication meets the criteria for a by-product report under section 905, *Alert That Restricts the Use of the Auditor's Written Communication*.

## Placement of Certain Requirements Within GAAS

Consistent with requirements in paragraphs 12–13 of ISA 450, *Evaluation of Misstatements Identified during the Audit*, paragraph .13 of section 260 contains a requirement for the auditor to communicate certain matters regarding uncorrected misstatements. The ASB believes that this communication with those charged with governance is more appropriately placed in section 260. Paragraph 12(c)(i) of ISA 260 requires the auditor to communicate material weaknesses in internal control identified during an audit to those charged with governance. The ASB believes this requirement is more appropriately placed in section 265, *Communicating Internal Control Related Matters Identified in an Audit*. The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

[Revised, December 2013, to reflect conforming changes necessary due to the issuance of SAS No. 125.]

## **ISA 265, *Communicating Deficiencies in Internal Control to Those Charged with Governance and Management*, Compared to Section 265, *Communicating Internal Control Related Matters Identified in an Audit***

### Differences in Language

Section 265 includes and defines the term *material weakness*, whereas ISA 265 does not.

Both section 265 and the standards of the PCAOB use the terms *material weakness*, *deficiency in internal control*, and *significant deficiency in internal control*. The definitions of these terms in section 265 are consistent with those used in the standards of the PCAOB. The ASB believes that consistency between its standards and those of the PCAOB in the use and definition of these terms is essential in the United States due to legal and regulatory requirements, including those pertaining to the evaluation of the effectiveness of an entity's internal control over financial reporting.

The ASB believes that the definitions are consistent with the intent of ISA 265 and that the modifications do not create differences between the application of ISA 265 and the application of section 265.

### Requirements in GAAS Not in the ISAs

Section 265 requires the auditor to evaluate each deficiency to determine, on the basis of the audit work performed, whether, individually or in combination, the deficiencies constitute significant deficiencies or material weaknesses. ISA 265 does not explicitly refer to the auditor's evaluation of each deficiency in making this determination. The ASB believes that the requirement in section 265 is consistent with the intent of ISA 265.

Section 265 requires the auditor to communicate significant deficiencies and material weaknesses to management and those charged with governance.

Because ISA 265 does not include or define the term *material weakness*, ISA 265 does not contain a requirement to separately identify or communicate material weaknesses.

Section 265 includes an additional requirement for the auditor to consider, if the auditor determines that a deficiency, or a combination of deficiencies, in internal control is not a material weakness, whether prudent officials, having knowledge of the same facts and circumstances, would likely reach the same conclusion (paragraph .10).

Section 265 explicitly requires the auditor to document the communication of other deficiencies in internal control that are communicated orally to management (paragraph .12b).

Paragraphs 9–10 of ISA 265 require the auditor to communicate to those charged with governance and management on a timely basis. Paragraph .13 of section 265 requires the communication to be made no later than 60 days following the report release date. ISA 265 recognizes in paragraph A13 that the written communication of significant deficiencies forms part of the final audit file and is subject to the overriding requirement for the auditor to complete the assembly of the final audit file on a timely basis. ISA 230 states that an appropriate time limit within which to complete the assembly of the final audit file is ordinarily not more than 60 days after the date of the auditor's report.

In addition to the required elements of the written communication identified in paragraph 11 of ISA 265, paragraph .14 of section 265 requires that the following additional items/elements be included in the written communication:

- The definition of *material weakness* and, when relevant, the definition of *significant deficiency*
- An explanation that the auditor is not expressing an opinion on the effectiveness of internal control
- An explanation that the auditor's consideration of internal control was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies
- A statement restricting the use of the communication to management, those charged with governance, others within the organization, and any governmental authority to which the auditor is required to report

Paragraph .15 of section 265 includes reporting requirements when the auditor issues a written communication stating that no material weaknesses were identified during the audit of the financial statements. Paragraph .16 of section 265 prohibits the issuance of a written communication stating that no significant deficiencies were identified during the audit. ISA 265 does not address the issuance of communications indicating no material weaknesses or no significant deficiencies.

## **ISA 300, *Planning an Audit of Financial Statements*, Compared to Section 300, *Planning an Audit***

### **Requirements in GAAS Not in the ISAs**

Paragraph .12 of section 300 contains requirements regarding the auditor's obligations for determining the extent of involvement of professionals possessing

specialized skills. ISA 300 does not contain these requirements. The ASB believes these requirements, and the related application material, are necessary for the auditor's consideration of the need for specialized skills and knowledge in the audit.

## ***ISA 315, Identifying and Assessing the Risks of Material Misstatement through Understanding the Entity and Its Environment, Compared to Section 315, Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement***

### **Differences in Language**

Paragraph .10 of section 315 uses different wording than paragraph 9 of ISA 315 to describe the auditor's requirement regarding the relevance of information obtained. Paragraphs .19 and .25 of section 315 include additional modifiers to conform to the comparable auditing standard issued by the Public Company Accounting Oversight Board.

Both ISA 240 and section 240 contain requirements for the auditor to consider the risks of material misstatement due to fraud. Paragraph .09 of section 315 contains a specific requirement for the auditor to consider the results of the assessment of the risk of material misstatement due to fraud during planning, whereas ISA 315 does not. In addition, certain requirements in paragraphs .21 and .33 of section 315 contain more specificity than do the equivalent requirements in ISA 315.

These differences do not create differences between the application of ISA 315 and the application of section 315.

## ***ISA 320, Materiality in Planning and Performing an Audit, Compared to Section 320, Materiality in Planning and Performing an Audit***

There are no differences between the application of ISA 320 and the application of section 320.

## ***ISA 330, The Auditor's Responses to Assessed Risks, Compared to Section 330, Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained***

### **Requirements in GAAS Not in the ISAs**

Paragraph .20 of section 330 includes a requirement to confirm accounts receivable unless certain conditions exist. This requirement is not in the ISAs. The ASB believes it is appropriate to retain the requirement in paragraph .34 of AU section 330, *The Confirmation Process* [SAS No. 67].

## Differences Between Requirements

To be consistent with the wording of the comparable requirements in the comparable auditing standard issued by the PCAOB, the requirement in paragraph .07 of section 330 has been modified with the words "relevant" and "material," and the requirement in paragraph .10 of section 330 has been expanded to specifically include addressing, when applicable, whether the person performing the control possesses the necessary authority and competence to perform the control effectively. The ASB believes these differences do not create differences between the application of ISA 330 and the application of section 330.

## Placement of Certain Requirements Within GAAS

Paragraph .25 of section 330 includes a requirement for the auditor addressing the means of selecting items for testing. This requirement is in the ISAs in ISA 500, *Audit Evidence*. The ASB believes this requirement is more appropriately placed in section 330. The placement of this requirement does not create a difference between the ISAs as a whole and GAAS as a whole.

## **ISA 402, *Audit Considerations Relating to an Entity Using a Service Organization*, Compared to Section 402, *Audit Considerations Relating to an Entity Using a Service Organization***

### Differences in Language

The definitions of *Report on a description of a service organization's system and the suitability of the design of controls (type 1 report)* and *Report on a description of a service organization's system and the suitability of the design and operating effectiveness of controls (type 2 report)*, in paragraph .08 of section 402, indicate that management's written assertion is an element of these reports. This is consistent with the definitions of these terms in International Standard on Assurance Engagements 3402, *Assurance Reports on Controls at a Service Organization*. The definitions of these terms in paragraph 8 of ISA 402 do not include management's written assertion as an element of the reports. The ASB believes that the definitions are consistent with the intent of ISA 402 and that the modifications do not create differences between the application of ISA 402 and the application of section 402.

## **ISA 450, *Evaluation of Misstatements Identified during the Audit*, Compared to Section 450, *Evaluation of Misstatements Identified During the Audit***

### Placement of Certain Requirements Within GAAS

Paragraphs 12–13 of ISA 450 require the auditor to communicate certain matters regarding uncorrected misstatements to those charged with governance. The ASB believes that the requirements for this communication are more appropriately placed in section 260.

Paragraph 14 of ISA 450 requires the auditor to request written representations from management and, where appropriate, those charged with governance regarding uncorrected misstatements. The ASB believes this requirement is more appropriately placed in section 580.

The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

## **ISA 500, *Audit Evidence*, Compared to Section 500, *Audit Evidence***

### **Placement of Certain Requirements Within GAAS**

Paragraph 10 of ISA 500 includes a requirement for the auditor addressing the means of selecting items for testing. The ASB believes this requirement is more appropriately placed in section 330. The placement of this requirement does not create a difference between the ISAs as a whole and GAAS as a whole.

## **ISA 501, *Audit Evidence—Specific Considerations for Selected Items*, Compared to Section 501, *Audit Evidence—Specific Considerations for Selected Items***

### **Requirements in GAAS Not in the ISAs**

Section 501 contains specific requirements relating to auditing investments in securities and derivative instruments that are not in ISA 501. The ASB concluded that it was appropriate to retain these specific requirements of AU section 332, *Auditing Derivatives Instruments, Hedging Activities, and Investments in Securities* [SAS No. 92].

AU section 337, *Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments* [SAS No. 12], is based on the premise that the applicable financial reporting framework complies with Financial Accounting Standards Board *Accounting Standards Codification* 450, *Contingencies*. In addition, the audit inquiry letters required under AU section 337 [SAS No. 12] have been subjected to the provisions of the 1975 agreement between the AICPA and the American Bar Association (ABA treaty). Consequently, section 501 contains specific requirements relating to litigation, claims and assessments consistent with the requirements of AU section 337 [SAS No. 12] that are not contained in ISA 501. The ASB decided to retain such content in section 501 because it is particular to the U.S. environment and continues to be relevant in practice.

### **Placement of Certain Requirements Within GAAS**

Paragraph 12 of ISA 501 requires the auditor to request written representations from management and, where appropriate, those charged with governance regarding litigation and claims. The ASB believes this requirement is more appropriately placed in section 580. The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

## **ISA 505, External Confirmations, Compared to Section 505, External Confirmations**

### **Differences in Language**

The definition of *external confirmation* has been expanded to include an example of a medium through which a response may be obtained. The example—direct access by the auditor to information held by a third party—addresses a situation that is increasingly common. The ASB believes that the inclusion of this concept clarifies the definition and is consistent with the intent of the definition in ISA 505.

## **ISA 510, Initial Audit Engagements—Opening Balances, Compared to Section 510, Opening Balances—Initial Audit Engagements, Including Reaudit Engagements**

### **Requirements in GAAS Not in the ISAs**

Paragraph .07 of section 510 carries forward a requirement from paragraph .11 of AU section 315, *Communications Between Predecessor and Successor Auditors* [SAS No. 84, as amended], as amended, which states that the auditor, when the prior period financial statements were audited by a predecessor auditor, should request management to authorize the predecessor auditor to allow a review of the predecessor auditor's audit documentation and to respond fully to inquiries by the auditor. Other requirements related to reviewing the predecessor auditor's audit documentation do not differ between ISA 510 and section 510.

Paragraph .13 of section 510 incorporates requirements from paragraph .22 of AU section 315 [SAS No. 84, as amended], concerning the auditor's response when management refuses to inform the predecessor auditor that the prior period financial statements may need revision or if the auditor is not satisfied with the resolution of the matter. The ASB believes it is important to address this situation.

Paragraph .14 of section 510 incorporates a requirement from paragraph .13 of AU section 315 [SAS No. 84, as amended], that states that the auditor should not make reference to the report or work of the predecessor auditor as the basis, in part, for the successor auditor's own opinion. The ASB believes this requirement is necessary in the United States to clearly distinguish this situation from the circumstances in section 600, *Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)*, in which the auditor determines to make reference to the audit of a component auditor in the auditor's report on the group financial statements.

### **Differences Between Requirements**

Paragraph 6(c) of ISA 510 requires the auditor to perform one or more of three identified procedures, in addition to the procedures required in paragraph 6(a–b) of ISA 510, to obtain sufficient appropriate audit evidence about whether the opening balances contain misstatements that materially affect the current period's financial statements. Two of the three procedures are (a) reviewing the predecessor auditor's audit documentation to obtain evidence regarding opening balances, and (b) evaluating whether audit procedures performed in

the current audit provide evidence relevant to the opening balances. The ASB does not believe that either of these procedures, on its own, provides sufficient evidence regarding opening balances, and accordingly, the ASB has redrafted paragraph .08c of section 510 to require the auditor to evaluate whether audit procedures performed in the current period provide evidence relevant to the opening balances and also to perform one or both of the other procedures identified in paragraph .08c(i–ii) of section 510.

## **ISA 520, Analytical Procedures, Compared to Section 520, Analytical Procedures**

### **Differences in Language**

The ASB has made various changes to the language throughout section 520 in comparison with ISA 520. The changes to section 520 include the following:

- In paragraph .05c, adding the parenthetical "(taking into account whether substantive analytical procedures are to be performed alone or in combination with tests of details)" to clarify that the auditor can use as audit evidence a substantive analytical procedure that is less precise than performance materiality when such analytical procedure is combined with other substantive audit procedures.
- In paragraph .05d, adding "compare the recorded amounts, or ratios developed from recorded amounts, with the expectations." The ASB is of the understanding that such procedure is presumed in ISA 520.

Such changes have been made to make section 520 easier to read and apply. The ASB believes that the changes made do not create differences between the application of ISA 520 and the application of section 520.

### **Requirements in GAAS Not in the ISAs**

Section 520 includes specific documentation requirements, in paragraph .08, which ISA 520 does not. Such requirements are contained in AU section 329, *Analytical Procedures* [SAS No. 56, as amended], which section 520 supersedes, and the ASB believes that the requirements are appropriate and should be retained.

## **ISA 530, Audit Sampling, Compared to Section 530, Audit Sampling**

### **Differences in Language**

The definition of *audit sampling* in paragraph 5 of ISA 530 was revised in section 530 because the ASB believes that the ISA 530 wording defining audit sampling to require the auditor to select items such that "each item has a chance of selection" is too imprecise to be meaningful. The definition was revised to (a) focus on conclusions about the population, and (b) include the fundamental concept of representativeness. Paragraph .08 of section 530, which establishes a requirement with respect to the selection of items in a population, reflects the revised definition of *audit sampling*.

The wording in paragraph .13 of section 530 was broadened from the wording in paragraph 14 of ISA 530 to better encompass the related application material.

### **Requirements in the ISAs Not in GAAS**

The requirement in paragraph 13 of ISA 530 that addresses the issue of anomalies is not included in section 530. The ASB expressed concerns about terms used in paragraph 13 of ISA 530, such as "in the extremely rare circumstances" and "a high degree of certainty." These terms are not used in GAAS and the ASB believes these terms would not be consistently interpreted in practice. The ASB also believes that the deletion from section 530 of the option to consider a misstatement an anomaly will enhance audit quality because misstatements identified by the auditor during audit sampling will be treated in the same manner as any other misstatement identified by the auditor and, thus, will prevent the misuse of anomalies.

Paragraph 14 of ISA 530 requires, for tests of details, the projection of misstatements found in a sample to the population. The ASB believes that projection of misstatements is also relevant to tests of controls and tests of compliance, and accordingly, has broadened the requirement in paragraph .14 of section 530 to project the results of audit sampling to also include tests of controls and tests of compliance.

### **Other**

The appendixes of ISA 530 were not been included in section 530 because the guidance contained therein is covered by the AICPA Audit Guide *Audit Sampling*.

### **ISA 540, Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures, Compared to Section 540, Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures**

#### **Placement of Certain Requirements Within GAAS**

Paragraph 22 of ISA 540 requires the auditor to obtain written representations from management and, when appropriate, those charged with governance about whether management and, when appropriate, those charged with governance believe significant assumptions used in making accounting estimates are reasonable. The ASB believes this requirement is more appropriately placed in section 580. The placement of this requirement does not create a difference between the ISAs as a whole and GAAS as a whole.

### **ISA 550, Related Parties, Compared to Section 550, Related Parties**

#### **Requirements in GAAS Not in the ISAs**

ISA 550 distinguishes between fair presentation and compliance frameworks and between financial reporting frameworks that contain related party

requirements and financial reporting frameworks that have minimal or no related party requirements. However, the ASB believes that fair presentation frameworks are the only financial reporting framework used in the United States. Further, to achieve fair presentation, disclosures related to related parties, such as those required by generally accepted accounting principles (GAAP), are necessary and, accordingly, section 550 defines *related party* as "a party as defined in GAAP." Thus, section 550 does not refer to applicable financial reporting frameworks; the applicability, objectives, and requirements of section 550 are the same regardless of the applicable financial reporting framework.

## Placement of Certain Requirements Within GAAS

Paragraph 26 of ISA 550 requires the auditor to request that management and, when appropriate, those charged with governance, provide written representations regarding related party transactions. The ASB believes this requirement is more appropriately placed in section 580. The placement of this requirement does not create a difference between the ISAs as a whole and GAAS as a whole.

## ISA 560, *Subsequent Events*, Compared to Section 560, *Subsequent Events and Subsequently Discovered Facts*

### Differences in Language

Paragraph 5 of ISA 560 defines *subsequent events* to include both events occurring between the date of the financial statements and the date of the auditor's report and facts that become known to the auditor after the date of the auditor's report. Section 560 includes separate definitions for *subsequent events* and *subsequently discovered facts* to clearly distinguish the auditor's responsibilities for each. The definition of *subsequently discovered facts* was also expanded to use language that is consistent with language in the objectives and requirements of ISA 560 (paragraphs 4(b) and 14) but that is not specifically included in the definition in ISA 560.

Paragraph 5 of ISA 560 further defines *the date the financial statements are issued*, which is the date the auditor's report and audited financial statements are made available to third parties. This term was deleted from section 560 because the applicable financial reporting framework may define the financial statement issuance date. In addition, because GAAS define the report release date, the ASB believes the definition could cause confusion with respect to the release versus the issuance of the auditor's report. Although the definition was deleted, the requirements in section 560 were modified to use terms that are well understood in the United States and to be consistent with the intent of the requirements in ISA 560.

Paragraph 12 of ISA 560 permits the auditor to dual date the auditor's report when law or regulation does not prohibit management from restricting the revision of the financial statements to the effects of the subsequent event or events causing that revision and those responsible for approving the financial statements are not prohibited from restricting their approval to that revision. In the United States, no such prohibition by law or regulation exists. Accordingly, paragraph .13b of section 560 omits the reference to law or regulation.

Because the date of the auditor's report and the report release date are within the auditor's control, the requirements in paragraphs .12–.18 of section 560 were restructured with reference to the report release date in lieu of reference to the date that the financial statements were issued. Similar changes were made to the related application and other explanatory material.

Paragraph 15(b) of ISA 560 requires the auditor to review the steps taken by management to ensure that anyone in receipt of the previously issued financial statements, together with the auditor's report thereon, is informed of the situation. Paragraphs .16*b* and .17*b* of section 560 require the auditor to determine whether management's steps are timely and appropriate. The ASB believes this is consistent with the intent of the requirements of ISA 560.

The ASB believes these changes do not create differences between the application of ISA 560 and the application of section 560.

## Requirements in the ISAs Not in GAAS

Certain requirements in ISA 560 also require the auditor to provide the auditor's report or a new or revised auditor's report. These references were eliminated from the requirements in section 560 because the ASB believes that it is not necessary to require the auditor to provide the auditor's report.

Paragraph 12(b) of ISA 560, which is an optional form of dual dating, was not included in section 560 because it is uncommon in the United States to provide a new or revised auditor's report that includes a statement in an emphasis-of-matter paragraph that conveys that the auditor's procedures on subsequent events are restricted solely to the revision of the financial statements, as described in the relevant note to the financial statements.

## Requirements in GAAS Not in the ISAs

Section 560 includes an additional objective in paragraph .06, requirements in paragraphs .19–.20, and application and other explanatory material in paragraphs .A27–.A30 related to a predecessor auditor's responsibilities when reissuing the auditor's report on previously issued financial statements that are to be presented on a comparative basis with audited financial statements of a subsequent period. ISA 560 does not include such requirements.

Paragraph 9 of ISA 560 requires the auditor to request that management and, when appropriate, those charged with governance provide written representations regarding subsequent events. This requirement is included in paragraph .18 of section 580. However, if the financial statements are subsequently revised, paragraph .13*a–b* of section 560 include additional requirements for the auditor to request management to provide certain representations when the auditor either dates the auditor's report as of a later date or includes an additional date limited to the revision (that is, dual dates the auditor's report for that revision). These representations are not included in ISA 560.

## Placement of Certain Requirements Within GAAS

Paragraph 5 of ISA 560 defines *the date of approval of the financial statements*. This definition was deleted from the definitions of section 560 because the ASB did not believe it was necessary to its application and because the term is described in paragraph .A41 of section 700, *Forming an Opinion and Reporting on Financial Statements*.

Paragraphs 11(b)(ii) and 15(c)(i) of ISA 560 require that the new auditor's report not be dated earlier than the date of approval of the revised financial statements. This requirement is not included in section 560 because the requirements for dating the report are addressed in section 700.

As noted in the preceding section, the requirement in paragraph 9 of ISA 560 regarding written representations has been moved to section 580.

Paragraph 16 of ISA 560 requires the auditor to include in the new or revised auditor's report an emphasis-of-matter paragraph or other-matter paragraph in situations when the financial statements are revised after the financial statements have been issued. Paragraph 16 of ISA 710, *Comparative Information—Corresponding Figures and Comparative Financial Statements*, includes a similar requirement related to comparative financial statements and the auditor's opinion on prior period financial statements, when reporting on prior period financial statements in connection with the current period's audit, differs from the opinion previously expressed. Requirements have been placed in paragraph .16c of section 560 and paragraphs .13–.14 of section 708, *Consistency of Financial Statements*, that when considered together, achieve the intent of the requirements in paragraph 16 of ISA 560 and paragraph 16 of ISA 710.

The ASB believes such placements do not create differences between the ISAs as a whole and GAAS as a whole.

## **ISA 580, Written Representations, Compared to Section 580, Written Representations**

### **Differences in Language**

Paragraph 8 of ISA 580 describes management's responsibility in the case of a fair presentation framework. The ASB believes that all the acceptable financial reporting frameworks in the United States are fair presentation frameworks, and, thus, the requirements of section 580 reflect this perspective.

### **Requirements in the ISAs Not in GAAS**

Paragraph 15 of ISA 580 contains a requirement related to situations in which law or regulation requires management to make written public statements about its responsibilities. The ASB believes that these situations are not applicable to nonissuers in the United States and, accordingly, such requirements are not included in section 580.

### **Differences Between Requirements**

Paragraph 14 of ISA 580 requires that the date of the written representations be as near as practicable to, but not after, the date of the auditor's report on the financial statements. Paragraph .20 of section 580 requires that the date of the written representations be as of the date of the auditor's report, which is consistent with AU section 333, *Management Representations* [SAS No. 85, as amended]. Paragraph .A27 of section 580 states that, occasionally, circumstances may prevent management from signing the representation letter and returning it to the auditor on the date of the auditor's report. In these circumstances, the auditor may accept management's oral confirmation, on or before the date of the representations, that management has reviewed the final representation letter and will sign the representation letter without exception as providing sufficient appropriate audit evidence for the auditor to date the report. However, possession of the signed management representation letter prior to releasing the auditor's report is necessary because paragraph .21

of section 580 requires that the representations be in the form of a written letter from management.

## Placement of Certain Requirements Within GAAS

The following ISAs contain requirements for requesting written representations:

- Paragraph 39 of ISA 240
- Paragraph 16 of ISA 250
- Paragraph 14 of ISA 450
- Paragraph 12 of ISA 501
- Paragraph 22 of ISA 540
- Paragraph 26 of ISA 550
- Paragraph 9 of ISA 560

Such requirements have been included in paragraphs .12–.19 of section 580. The ASB believes these requirements, which relate to representations that would be obtained for every audit engagement, are more appropriately placed in section 580. The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

## ***ISA 600, Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors), Compared to Section 600, Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)***

### Differences in Language

All the requirements in ISA 600 are addressed to either the group engagement partner or the group engagement team. In section 600, requirements that, in the circumstances, may be appropriately fulfilled by the firm are addressed to the auditor of the group financial statements. These requirements, in paragraphs .16 and .29, relate to engagement acceptance and modification of the auditor's opinion on the group financial statements. The ASB believes that this does not create a substantive difference between the requirements of ISA 600 and the requirements of section 600.

### Requirements in the ISAs Not in GAAS

ISA 600 does not permit the auditor's report on the group financial statements to make reference to a component auditor unless required by law or regulation to include such reference. Section 600, consistent with AU section 543, *Part of Audit Performed by Other Independent Auditors* [SAS No. 1 section 543, as amended], permits the auditor, in the auditor's report on the group financial statements, to make reference to the audit of a component auditor.

The ASB believes that the ability to make reference to the report of another auditor is appropriate in the United States for several reasons. No compelling practice issues suggest a need to change an approach that has always been permitted by GAAS in the United States. The size, complexity, and diversity of some audits, in particular the audit of the federal government in which withdrawing from the engagement or disclaiming an opinion are not viable options, make eliminating the option to make reference to a component auditor problematic. In addition, the ASB believes that there will be considerable practical problems with access issues, particularly with equity investments, under the approach in ISA 600. The ASB believes that there is no difference in the effectiveness of the audit in either approach when the audits are conducted in accordance with GAAS. Accordingly, section 600 contains requirements and application and other explanatory material relating to making reference to the report of another auditor that are not in ISA 600, which results in substantive differences in the wording of the objectives, requirements, and application material between ISA 600 and section 600. A group audit conducted in accordance with GAAS when the group engagement partner determines to make reference to the audit performed by a component auditor would not comply with the ISAs. As such, in an audit conducted under both GAAS and the ISAs, the auditor of the group financial statements would need to assume responsibility for the work of all component auditors and, therefore, plan the audit accordingly to comply with both sets of standards.

When no reference is made to a component auditor in the auditor's report on the group financial statements, no substantive differences exist between the requirements ISA 600 and the requirements of section 600.

## ***ISA 610 (Revised 2013), Using the Work of Internal Auditors, Compared to Section 610, Using the Work of Internal Auditors***

### **Differences in Language**

Various changes to the language of ISA 610 (Revised 2013) were made throughout section 610 to use terms or phrases that are more commonly used in the United States and to tailor examples and guidance to be more appropriate to the U.S. environment. The ASB believes that such changes do not create differences between the application of ISA 610 (Revised 2013) and the application of section 610.

### **Requirements in the ISAs Not in GAAS**

#### ***Using Internal Auditors to Provide Direct Assistance***

*Determining the Nature and Extent of Work That Can Be Assigned to Internal Auditors Providing Direct Assistance*

GAAS do not include paragraph 30 of ISA 610 (Revised 2013) in section 610 because the paragraph precludes the external auditor's use of internal auditors to provide direct assistance in specified circumstances. The ASB believes that the requirements in paragraphs 30a and 30b were not necessary in the context

of audits of nonissuers in the United States. These requirements are partly redundant when compared to the requirement in paragraph .27 of section 610 regarding the need for the auditor to consider the amount of judgment involved in determining the nature and extent of work to assign to internal auditors and the nature, timing, and extent of the review thereof. Additional application guidance was added to paragraph .A42 section 610 to further emphasize that as materiality of the financial statement amounts increases, and either the assessed risks of material misstatement or the amount of judgment involved increases, the need for the external auditor to perform procedures directly increases. The ASB further concluded that the requirements in paragraphs 30c and 30d were not necessary because an appropriate assessment of the objectivity of the internal auditors in accordance with section 610 would result in a conclusion that it would not be appropriate for internal auditors' work to be used in the situations addressed by those paragraphs.

#### *Using Internal Auditors to Provide Direct Assistance*

Paragraph 33b of ISA 610 (Revised 2013) requires that, prior to using internal auditors to provide direct assistance for purposes of the audit, the external auditor obtain written agreement from the internal auditors that they will keep confidential specific matters as instructed by the external auditor and inform the external auditor of any threat to their objectivity. Given the established practice and historical experience of using internal auditors to provide direct assistance, the ASB did not believe that it was necessary to include this requirement for the audits of nonissuers in the United States. However, the ASB added application material to indicate that the auditor may determine it necessary to instruct the internal auditors to keep specific matters confidential and, in some situations, may determine it to be necessary to request written acknowledgment from the internal auditors of having understood such instruction (paragraph .A41 of section 610).

## **Differences Between Requirements**

### ***Using Internal Auditors to Provide Direct Assistance***

#### *Determining the Nature and Extent of Work That Can Be Assigned to Internal Auditors Providing Direct Assistance*

Paragraph 31 of ISA 610 (Revised 2013) establishes a requirement that, in communicating with those charged with governance, an overview of the planned scope and timing of the audit in accordance with ISA 260, *Communication with Those Charged with Governance*, the external auditor should communicate the nature and extent of the planned use of internal auditors to provide direct assistance *so as to reach a mutual understanding that such use is not excessive in the circumstances of the engagement*. The ASB decided to revise paragraph 31 of ISA 610 (Revised 2013) to improve the clarity of the requirement and eliminate the requirement to explicitly obtain a mutual understanding with those charged with governance that the proposed nature and extent of the use of internal auditors to provide direct assistance is not excessive because it was not considered necessary in the context of audits of nonissuers in the United States. Making the communication required by paragraph .28 of section 610 provides those charged with governance the opportunity to voice any concerns.

*Using Internal Auditors to Provide Direct Assistance*

Paragraph 34a of ISA 610 (Revised 2013) states the following:

The external auditor shall direct, supervise and review the work performed by internal auditors on the engagement in accordance with ISA 220. In so doing:

- a. The nature, timing and extent of direction, supervision, and review shall recognize that the internal auditors are not independent of the entity and be responsive to the outcome of the evaluation of the factors in paragraph 29 of this ISA.

In paragraph .31a of section 610, the ASB decided to delete the phrase *recognize that the internal auditors are not independent of the entity* because the ASB did not believe there was any incremental effect of the phrase on the nature, timing, and extent of the external auditor's required actions. The ASB also believes that the fact that internal auditors are not independent of the entity is already implicit in, and encompassed by, the external auditor's evaluation of the factors in paragraph .27 of section 610.

In paragraph .31c of section 610, the ASB decided to revise paragraph 34b of ISA 610 (Revised 2013) to express the requirement in terms more commonly understood in the United States and that are more consistent with the terminology in section 610.

## Requirements in GAAS Not in the ISAs

### *Using Internal Auditors to Provide Direct Assistance*

The ASB decided to add paragraph 31b, which represents a requirement to instruct internal auditors to bring accounting and auditing issues to the attention of the external auditors. The ASB believes that it is important to include this requirement, which is included section 610.

## **ISA 620, Using the Work of an Auditor's Expert, Compared to Section 620, Using the Work of an Auditor's Specialist**

### **Differences in Language**

Paragraph 12(b) of ISA 620 requires the auditor to evaluate the significant assumptions and methods of the auditor's specialist. The ASB expanded the wording of this requirement to more clearly articulate the auditor's responsibility in this regard. The ASB believes this does not create a difference between the application of ISA 620 and the application of section 620.

## **Requirements in the ISAs Not in GAAS**

Paragraph 14 of ISA 620 contains a conditional requirement regarding the auditor's reference to the auditor's specialist in the auditor's report when such reference is required by law or regulation. Because such reference is not required by law or regulation in the United States, such requirement is not included in section 620.

## **ISA 700, Forming an Opinion and Reporting on Financial Statements, Compared to Section 700, Forming an Opinion and Reporting on Financial Statements**

### **Requirements in the ISAs Not in GAAS**

#### ***Compliance Framework***

Paragraphs 7(b), 19, and 36 of ISA 700 discuss financial statements prepared in accordance with a compliance framework. GAAS do not include any references to compliance frameworks because the ASB believes that all financial reporting frameworks used in the United States are fair presentation frameworks. Accordingly, section 700 is written in the context of a complete set of general purpose financial statements prepared in accordance with a fair presentation framework.

#### ***Definitions***

Paragraph 7(b) of ISA 700 defines *fair presentation framework*. Section 700 does not include this definition because fair presentation framework is already defined section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*. As noted previously, section 700 does not include any references to compliance frameworks; therefore, there is no need to emphasize the differences between a fair presentation framework and a compliance framework in section 700.

#### ***Use of True and Fair View***

Paragraphs 27, 32, and 35(b) of ISA 700 indicate that the description in the auditor's report can refer either to the preparation and fair presentation of the financial statements or the preparation of financial statements that give a true and fair view. GAAS do not include any references to "true and fair view" because such wording has not historically been used in the United States; GAAS continues to require the use of "present fairly, in all material respects" in the auditor's opinion. The ASB believes this does not result in a difference in the application of the ISAs and the application of GAAS.

#### ***Introductory Paragraph***

Paragraph 23(d) of ISA 700 requires the introductory paragraph in the auditor's report to refer to the summary of significant accounting policies and other explanatory information. Section 700 does not include this requirement because the ASB believes the notes to the financial statements are an integral part of the financial statements, and specific notes need not be identified in the introductory paragraph. Because the notes to the financial statements are an integral part of the financial statements, the ASB has included a reference to the related notes to the financial statements in the illustrative auditor's reports in the exhibit, "Illustrations of Auditor's Reports on Financial Statements," of section 700. The ASB believes this does not create a difference between the application of ISA 700 and the application of section 700.

Paragraph 24 of ISA 700 requires the report to use a term that is appropriate in the context of the legal framework in the relevant jurisdiction when the

auditor's report discusses management's responsibilities. Section 700 does not include this requirement because the ASB believes this paragraph relates to jurisdictions where the structure of the boards and corporate law are different than in the United States. In the United States, the ASB believes reference to management is sufficient. The ASB believes this does not create a difference between the application of ISA 700 and the application of section 700.

### ***Auditor's Responsibility***

Paragraph 30 of ISA 700 requires the auditor's report to include in the "Auditor's Responsibilities" section a statement that the auditing standards require that the auditor comply with ethical requirements. Paragraph .31 of section 700 does not contain this requirement because in the United States, auditors must comply with the ethical standards contained in the AICPA Code of Professional Conduct. Accordingly, the ASB believes that the title indicating that it is the report of an independent auditor affirms that the auditor has met the ethical requirements and, therefore, need not make an additional reference in the auditor's report. Further, the ASB was mindful to minimize the differences between the PCAOB form of the auditor's report and section 700. The ASB believes a reference to ethical requirements in one report and not the other would cause confusion in the United States and that such differentiation between the two reports is not necessary.

### ***Information Presented in the Financial Statements***

Paragraph 46 of ISA 700 contains requirements when supplementary information that is not required by the applicable financial reporting framework is presented with the audited financial statements. If such supplementary information is not clearly differentiated from the audited financial statements, ISA 700 requires the auditor to ask management to change how the unaudited supplementary information is presented and if management refuses to do so, the auditor should explain in the auditor's report that such supplementary information has not been audited. In the United States, section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*, addresses the auditor's responsibility when engaged to report on supplementary information. At the present time, no ISAs exist that correspond to section 725. GAAS do not include the requirement for the auditor to ask management to change how the unaudited supplementary information is presented when the supplementary information is not clearly differentiated from the audited financial statements.

## **Requirements in GAAS Not in the ISAs**

### ***Management's Responsibilities***

Paragraph .28 of section 700 adds a requirement that the description of management's responsibilities for the financial statements in the auditor's report should not be referenced to a separate statement by management about such responsibilities if such a statement is included in a document containing the auditor's report.

Paragraph .41 of section 700 includes a requirement that sufficient appropriate audit evidence includes evidence that the audit documentation has been reviewed.

ISA 700 does not contain these requirements, which the ASB believes are appropriate for inclusion in GAAS to retain the pre-clarity requirements.

## Differences Between Requirements

### *Management's Responsibilities*

Paragraph 26 of ISA 700 requires the report to describe management's responsibilities for the preparation of the financial statements. The description should include an explanation that management is responsible for the preparation of the financial statements in accordance with the applicable financial reporting framework and for such internal control as it determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. Section 700 requires the auditor's report to state that this responsibility includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements. The ASB believes section 700 better conveys management's responsibility in the United States.

### *Auditor's Report for Audits Conducted in Accordance With Both Auditing Standards of a Specific Jurisdiction and ISAs*

Paragraphs 44–45 of ISA 700 contain requirements when an auditor is required to conduct an audit in accordance with the auditing standards of a specific jurisdiction but may additionally have complied with the ISAs in the conduct of the audit. Paragraphs .42–.43 of section 700 have been revised to reflect reporting conventions in the United States.

The ASB believes these differences do not create a difference between the application of ISA 700 and the application of section 700.

## Placement of Certain Requirements Within GAAS

### *Comparative Financial Statements*

Section 700 addresses comparative financial statements and comparative information, which are not addressed in ISA 700 but are addressed in ISA 710, *Comparative Information—Corresponding Figures and Comparative Financial Statements*. See the section "ISA 710, *Comparative Information—Corresponding Figures and Comparative Financial Statements*, Compared to Section 700, *Forming an Opinion and Reporting on Financial Statements*," following for a comparison of the requirements of section 700 and the requirements of ISA 710. ISA 710 addresses reporting in other jurisdictions that are not common to the United States, including corresponding figures that are not covered by the auditor's report. For simplicity, the ASB decided to include those requirements and application material that apply in the United States in section 700 rather than have a separate AU-C section.

### *Auditor's Report Prescribed by Law or Regulation*

Paragraph 43 of ISA 700 discusses the auditor's report prescribed by law or regulation. Section 700 does not contain this section because it does not pertain to general purpose financial statements in the United States. Auditor's reports prescribed by law or regulation are addressed in section 800.

The ASB believes that the placement of these requirements does not create differences between the application of the ISAs as a whole and the application of GAAS as a whole.

## **ISA 705, Modifications to the Opinion in the Independent Auditor's Report, Compared to Section 705, Modifications to the Opinion in the Independent Auditor's Report**

### **Requirements in the ISAs Not in GAAS**

#### ***Compliance Framework***

GAAS do not include any references to compliance frameworks because the ASB believes that all financial reporting frameworks used in the United States are fair presentation frameworks. Accordingly, the reference to compliance frameworks in paragraph 23(b) of ISA 705 has not been included in paragraph .25 of section 705.

#### ***Use of True and Fair View***

GAAS do not include any references to "true and fair view" because such wording has not historically been used in the United States; GAAS continues to require the use of "present fairly, in all material respects" in the auditor's opinion. Accordingly, the references to "true and fair view" in paragraphs 23(a) and 24(a) of ISA 705 are not included in paragraphs .24–.25 of section 705. The ASB believes this does not result in a difference in the application of the ISAs and the application of GAAS.

#### ***Multiple Uncertainties***

Paragraph 10 of ISA 705 requires the auditor to disclaim an opinion when, in extremely rare circumstances involving multiple uncertainties, the auditor concludes that, notwithstanding having obtained sufficient appropriate audit evidence regarding each of the individual uncertainties, it is not possible to form an opinion on the financial statements due to the potential interaction of the uncertainties and their possible cumulative effect on the financial statements. Section 705 does not include this requirement because the ASB believes that a disclaimer of opinion is appropriate only when the auditor is not able to obtain sufficient appropriate audit evidence. The ASB believes the guidance in paragraph .30 of AU section 508, *Reports on Audited Financial Statements* [SAS No. 58, as amended], is appropriate in these circumstances; therefore, paragraph .A13 of section 705 includes this guidance.

### **Differences Between Requirements**

#### ***Management-Imposed Scope Limitation***

Paragraph 13(b)(i) of ISA 705 requires the auditor to withdraw from the audit when the auditor is unable to obtain sufficient appropriate audit evidence, and the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be both material and pervasive so that a qualification of the opinion would be inadequate to communicate the gravity of the situation. Paragraph .13 of section 705 changes this requirement so that the auditor should consider withdrawal from the engagement under such circumstances. The ASB believes that in the United States, the auditor should not be required to withdraw from an engagement but, rather, should consider whether to withdraw or disclaim an opinion on the financial statements. The

ASB believes this does not create differences between the application of ISA 705 and the application of section 705.

## **ISA 706, *Emphasis of Matter Paragraphs and Other Matter Paragraphs in the Independent Auditor's Report*, Compared to Section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report***

There are no substantive differences between ISA 706 and section 706.

## **ISA 710, *Comparative Information—Corresponding Figures and Comparative Financial Statements*, Compared to Section 700, *Forming an Opinion and Reporting on Financial Statements***

### **Differences in Language**

The definitions of *comparative information* and *comparative financial statements* in paragraph 6(a) and (c) of ISA 710 have been revised to reflect U.S. conventions.

### **Requirements in the ISAs Not in GAAS**

ISA 710 addresses reporting in other jurisdictions that are not common in the United States, including corresponding figures that are not covered by the auditor's report. GAAS do not include any references to corresponding figures because these are not common in the United States.

### **Requirements in GAAS Not in the ISAs**

#### ***Comparative Information***

Paragraph .46 of section 700 requires that when expressing an opinion on all periods presented, the auditor should update the report on the individual financial statements of one or more prior periods presented on a comparative basis with those of the current period. The auditor's report on comparative financial statements should not be dated earlier than the date on which the auditor has obtained sufficient appropriate audit evidence on which to support the opinion for the most recent audit.

Paragraph .48 of section 700 contains a requirement that if comparative information is presented, and the entity requests the auditor to express an opinion on all periods presented, the auditor should consider whether the information included for the prior period contains sufficient detail to constitute a fair presentation in accordance with the applicable financial reporting framework.

#### ***Audit Procedures***

Paragraph .49 of section 700 contains a requirement that the audit procedures in paragraphs .50–.52 of section 700 should apply regardless of whether comparative financial statements or comparative information is presented for the prior period.

### ***Prior Period Financial Statements***

Paragraph .54 of section 700 includes requirements on what to disclose in an other-matter paragraph when reporting on prior period financial statements in connection with the current period's audit, and the auditor's opinion on such prior period financial statements differs from the opinion the auditor previously expressed.

Paragraph .55 of section 700 adds "and the predecessor auditor's report on the prior period's financial statements is not reissued" to the requirement. This was added to clarify that if the report was reissued, section 560 would apply. In addition, a requirement was added to include in the other-matter paragraph the nature of any emphasis-of-matter paragraph or other-matter paragraph included in the predecessor auditor's report, if any.

### ***Prior Period Financial Statements Not Audited***

Paragraphs .57–.58 of section 700 include requirements on how to report when prior period financial statements were not audited, reviewed, or compiled, to better clarify what is covered in section 700 related to comparative financial statements and comparative information.

ISA 710 does not contain these requirements. The ASB believes these requirements and related application material are appropriate for inclusion in GAAS.

## **Placement of Certain Requirements Within GAAS**

ISA 710 addresses reporting in other jurisdictions that are not common to the United States, including corresponding figures that are not covered by the auditor's report. For simplicity, the ASB decided to include certain requirements and application material for comparative financial statements and comparative information in section 700 rather than having a separate AU-C section. The ASB believes that the requirements in section 700 related to comparative financial statements and comparative information are consistent with the intent of ISA 710 and that the placement of these requirements does not create differences between the application of the ISAs as a whole and the application of GAAS as a whole.

## ***ISA 720, The Auditor's Responsibilities Relating to Other Information in Documents Containing Audited Financial Statements, Compared to Section 720, Other Information in Documents Containing Audited Financial Statements***

### **Differences in Language**

The ASB has made various changes to the language throughout section 720, in comparison with ISA 720. The changes to section 720 include the following:

- In paragraph .01, clarifying that "auditor's opinion" is the opinion on the financial statements.
- In paragraph .02, adding clarifying language that documents containing audited financial statements refer to "annual reports of governments and organizations for charitable or philanthropic purposes that are available to the public" and that section 720 also applies to "other documents to which the auditor, at management's request, devotes attention."

- In paragraph .05, deleting the phrase "either by law, regulation or custom" from the definition of *other information* to avoid confusion with required supplementary information.
- In paragraph .12, adding the phrase "other-matter" to clarify the report modification.
- In paragraph .17, adding the wording "by the entity in determining whether such matter is a material misstatement of fact" to clarify that the advice is received by the entity.

Such changes have been made to make section 720 easier to read and apply. The ASB believes that such changes do not create differences between the application of ISA 720 and the application of section 720.

## Differences Between Requirements

Section 720 clarifies that the auditor's objective is to respond appropriately (in paragraph .04), and the requirement is to read the other information (in paragraph .06) when the auditor becomes aware that documents containing audited financial statements and the auditor's report thereon include other information that could undermine the credibility of those financial statements and the auditor's report. The objective in ISA 720 and the corresponding requirement are not specifically limited to documents of which the auditor is aware. However, ISA 720 states that "documents containing audited financial statements" refers to annual reports (or similar documents) that are issued to owners (or similar stakeholders) containing audited financial statements and the auditor's report thereon. ISA 720 further states that it may be applied, adapted as necessary in the circumstances, to other documents containing audited financial statements. The ASB believes that the language added to section 720 limiting the auditor's responsibilities clarifies the intent of the objective and the requirement in ISA 720 and is appropriate in the U.S. legal environment.

Section 720 applies the requirement in paragraph .07 for the auditor to make appropriate arrangements with management or those charged with governance to obtain the other information, and the requirements in paragraphs .10–.15 regarding the auditor's identification of material inconsistencies, to the report release date, but ISA 720 applies the corresponding requirements to the date of the auditor's report. The ASB determined that the report release date, as defined in GAAS, is more appropriate in the U.S. environment.

## ***ISA 800, Special Considerations—Audits of Financial Statements Prepared in Accordance with Special Purpose Frameworks, Compared to Section 800, Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks***

### Differences in Language

#### ***Definitions***

Paragraph 6 of ISA 800 defines a *special purpose framework* as a financial reporting framework (a fair presentation framework or a compliance framework)

designed to meet the financial information needs of specific users. Section 800 defines a special purpose framework as one of the following bases of accounting: cash, tax, regulatory, contractual, or other basis of accounting, all of which are fair presentation frameworks in the United States. An other basis of accounting is a basis of accounting that uses a definite set of logical, reasonable criteria that is applied to all material items appearing in financial statements.

### ***Considerations When Planning and Performing the Audit***

Paragraph 9 of ISA 800 requires the auditor to determine whether application of the ISAs requires special consideration in the circumstances of the engagement. However, paragraph .12 of section 800 requires the auditor to adapt all AU-C sections relevant to the audit as necessary in the circumstances of the engagement. The ASB believes that the requirement in section 800 is consistent with the intent of ISA 800 and that such changes do not create differences between the application of ISA 800 and the application of section 800.

## **Requirements in GAAS Not in the ISAs**

### ***Considerations When Accepting the Engagement***

Paragraph .11 of section 800 includes a requirement for the auditor, when accepting the engagement, to obtain the agreement of management that it acknowledges and understands its responsibility to include all informative disclosures, including specified disclosures, that are appropriate for the special purpose framework used to prepare the entity's financial statements.

### ***Description of the Applicable Financial Reporting Framework***

Paragraph .15 of section 800 includes a requirement for the auditor to evaluate whether the financial statements are suitably titled, include a summary of significant accounting policies, and adequately describe how the special purpose framework differs from GAAP.

### ***Fair Presentation***

If the special purpose financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP, paragraph .17 of section 800 includes a requirement for the auditor to evaluate whether the financial statements include informative disclosures similar to those required by GAAP. Paragraph .17 of section 800 also requires the auditor to evaluate whether additional disclosures, beyond those specifically required by the framework, related to matters that are not specifically identified on the face of the financial statements or other disclosures may be necessary for the financial statements to achieve fair presentation.

### ***Restricting the Use of the Auditor's Report***

Paragraph .20 of section 800 requires the auditor's report to include an other-matter paragraph that restricts the use of the auditor's report when the special purpose financial statements are prepared in accordance with a contractual basis of accounting, a regulatory basis of accounting, or an other basis of accounting when required pursuant to paragraphs .06a–b of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*, except for the circumstances described in paragraph .21 of section 800. In accordance with paragraph .21 of section 800, the other-matter paragraph is not required when

the special purpose financial statements are prepared in accordance with a regulatory basis of accounting and the special purpose financial statements together with the auditor's report are intended for general use. In this circumstance, the auditor is required to express an opinion on whether the financial statements are prepared in accordance with GAAP and, in a separate paragraph, an opinion on whether the financial statements are prepared in accordance with the special purpose framework.

### ***Auditor's Report Prescribed by Law or Regulation***

Paragraphs .22–.23 of section 800 include requirements when the auditor is required by law or regulation to use a specific layout, form, or wording of the auditor's report.

These requirements are not included in ISA 800.

## **Differences Between Requirements**

### ***Auditor's Report***

Paragraph 13 of ISA 800 requires the auditor's report to describe the purpose for which the financial statements are prepared and, if necessary, the intended users, or refer to a note in the special purpose financial statements that contains that information. Section 800 does not require this description when the special purpose financial statements are prepared in accordance with the cash or tax basis of accounting.

### ***Alerting Readers That the Financial Statements Are Prepared in Accordance With a Special Purpose Framework***

Paragraph 14 of ISA 800 requires the auditor's report to include an emphasis-of-matter paragraph alerting users of the auditor's report that the financial statements are prepared in accordance with a special purpose framework and that, as a result, the financial statements may not be suitable for another purpose. Section 800 does not require the auditor's report to state that the "financial statements may not be suitable for another purpose." However, paragraph .19c of section 800 requires the emphasis-of-matter paragraph to state that the special purpose framework is a basis of accounting other than GAAP. In accordance with paragraph .21 of section 800, the emphasis-of-matter paragraph is not required when the special purpose financial statements are prepared in accordance with a regulatory basis of accounting and the special purpose financial statements together with the auditor's report are intended for general use.

[Revised, July 2013, to reflect conforming changes necessary due to the issuance of SAS No. 127.]

## ***ISA 805, Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts or Items of a Financial Statement, Compared to Section 805, Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement***

### **Requirements in the ISAs Not in GAAS**

#### ***Form of Opinion***

Paragraph 9 of ISA 805 requires the auditor to consider whether the expected form of opinion is appropriate in the circumstances. This requirement was not included in section 805 because the circumstances to which it relates are not applicable in the United States.

### **Requirements in GAAS Not in the ISAs**

#### ***Considerations When Accepting the Engagement and Planning and Performing the Audit***

Paragraph .10 of section 805 requires the auditor to obtain an understanding of (a) the purpose for which the single financial statement or specific element of a financial statement is prepared, (b) the intended users, and (c) the steps taken by management to determine that the application of the financial reporting framework is acceptable in the circumstances. The ASB believes this requirement is necessary in determining the acceptability of the financial reporting framework that is applicable to a single financial statement or a specific element of a financial statement.

Paragraph .09 of section 805 requires the auditor to determine whether the auditor will be able to perform procedures on interrelated items as a consideration when accepting the engagement. Paragraph .13 of section 805 includes a requirement for the auditor to perform procedures on interrelated items as necessary to meet the objective of the audit. In the case of an audit of a specific element that is, or is based upon, the entity's stockholders' equity or net income (or the equivalents thereto), paragraph .13 of section 805 further requires the auditor to perform procedures necessary to obtain sufficient appropriate audit evidence about financial position, or financial position and results of operations, respectively, because of the interrelationship between the element and the balance sheet accounts and the income statement accounts.

#### ***Materiality***

Paragraph .14 of section 805 requires the auditor to determine materiality for the single financial statement being reported on, and in the case of an audit of one or more specific elements of a financial statement, materiality for each individual element reported on.

### ***Reporting on an Incomplete Presentation but One That Is Otherwise in Accordance With GAAP***

When the auditor reports on an incomplete presentation but one that is otherwise in accordance with GAAP, paragraph .24 of section 805 requires the auditor to include an emphasis-of-matter paragraph in the auditor's report, alerting users as to the purpose of the presentation and that the presentation is incomplete. ISA 805 does not address reporting on incomplete presentations that are otherwise in accordance with the applicable financial reporting framework.

ISA 805 does not contain these requirements.

## **Differences Between Requirements**

### ***Reporting on the Entity's Complete Set of Financial Statements and a Single Financial Statement or a Specific Element of Those Financial Statements***

Paragraph 12 of ISA 805 requires the auditor to express a separate opinion for each engagement when undertaking an engagement to report on a single financial statement or a specific element of a financial statement in conjunction with an engagement to audit the entity's complete set of financial statements. Paragraph .16 of section 805 requires that the separate opinions be in separate auditor's reports and that the report on a specific element include certain information about the auditor's report on the entity's complete set of financial statements.

Paragraph .20 of section 805 address the case of an audit of a specific element of a financial statement when the opinion in the auditor's report on an entity's complete set of financial statements is modified and the modification of the auditor's opinion is relevant to the audit of the specific element. In such cases, the auditor is required to express either an adverse opinion or disclaim an opinion on the specific element, depending on the reasons for the modification of the auditor's opinion on the complete set of financial statements. ISA 805 does not specifically require an adverse opinion or disclaimer of opinion in such circumstances.

Paragraph 16 of ISA 805 addresses situations when the auditor concludes that it is necessary to express an adverse opinion or disclaim an opinion on the entity's complete set of financial statements as a whole, but in the context of a separate audit of a specific element that is included in those financial statements, the auditor nevertheless considers it appropriate to express an unmodified opinion on that element. In addition to the matters in ISA 805, paragraph .21 of section 805 precludes such reporting when the specific element is, or is based upon, the entity's stockholders' equity or net income (or the equivalent thereto).

## ***ISA 810, Engagements to Report on Summary Financial Statements, Compared to Section 810, Engagements to Report on Summary Financial Statements***

### **Differences in Language**

Paragraph .05 of section 810 includes more specificity than is in paragraph 3 of ISA 810, including an objective to perform the procedures necessary as the basis for the auditor's opinion on the summary financial statements, and a

description of the opinion. The ASB believes that these changes do not create differences between the intent of ISA 810 and the intent of section 810.

Paragraph 6(b)(ii) of ISA 810 requires that management make the audited financial statements available to the intended users of the summary financial statements without undue difficulty. Section 810 requires in paragraph .09b(ii) that management make the audited financial statements readily available. This is not a substantive difference between ISA 810 and the section 810. The terminology in section 810 aligns with section 930, *Interim Financial Information*.

If the summary financial statements contain comparatives that were reported on by another auditor, both ISA 810 and section 810 require the auditor's report on the summary financial statements to contain certain matters. Such matters are included directly in paragraph .23 of section 810 and incorporated in paragraph 22 of ISA 810 by reference to ISA 710.

## Requirements in the ISAs Not in GAAS

Paragraphs 6–7 of ISA 810 include requirements pertaining to (a) criteria established by law or regulation, (b) situations in which law or regulation does not require the audited financial statements to be made available, and (c) accepting the engagement when required by law or regulation to do so. These requirements were not included in section 810 because they are not applicable to the United States.

Paragraph 9 of ISA 810 permits the use of two different phrases when opining on summary financial statements. Paragraph .14 of section 810 only includes one of these phrases, which is consistent with practice.

Paragraphs 10–11 of ISA 810 address situations when regulation prescribes the wording of the opinion on the summary financial statements in terms that are different from those described in ISA 810. These requirements were not included in section 810 as they are not applicable in the United States.

Paragraph 15 of ISA 810 requires the auditor to evaluate the appropriateness of using a different addressee, if the addressee of the summary financial statements is not the same as the addressee of the auditor's report on the audited financial statements. Section 810 does not include this requirement because the ASB believes having different addressees is never appropriate.

## Requirements in GAAS Not in the ISAs

Paragraph 6(a) of ISA 810 requires the auditor to determine whether the applied criteria are acceptable. The requirement in paragraph .09a of section 810 was expanded to clarify what constitutes acceptable criteria.

Paragraph .09b(iii) of section 810 requires the auditor to obtain the agreement of management that it acknowledges and understands its responsibility to provide the auditor with written representations, as described in paragraph .12 of section 810. ISA 810 does not include such a requirement.

Paragraphs .12–.13 of section 810 include requirements for the auditor to request management to provide written representations related to the summary financial statements. Such representations are necessary in the United States, particularly in situations when the auditor's report on the summary financial statements is dated later than the auditor's report on the audited financial statements. ISA 810 does not include any requirements for written representations.

Paragraph .16 of section 810 was expanded to require the auditor to withdraw from the engagement to report on the summary financial statements when

withdrawal is possible under applicable law or regulation and when the auditor's report on the audited financial statements contains an adverse opinion or a disclaimer of opinion. Paragraph .16*d* of section 810 further clarifies the reporting elements when the auditor issues a report on the summary financial statements in those situations when it is not possible to withdraw from the engagement.

Paragraph .17*e*(i–ii) of section 810 includes additional elements for the auditor's report on the summary financial statements with regard to the nature of the procedures that were performed by the auditor on the summary financial statements, including that the auditor did not perform audit procedures regarding the audited financial statements after the date of the report on those financial statements if the date of the auditor's report on the summary financial statements is later than the date of the auditor's report on the audited financial statements.

Paragraph .24 of section 810 includes an additional reporting requirement if the summary financial statements contain comparatives that were not reported on by the auditor or another auditor.

Paragraph .27 of section 810 includes additional requirements related to other information, which require the auditor to discuss the matter with management if the auditor identifies a material inconsistency and to consider appropriate further action in the circumstances if the auditor identifies a material inconsistency or becomes aware of an apparent material misstatement of fact.

## Differences Between Requirements

Paragraph 17 of ISA 810 addresses the reporting elements when the auditor's report on the audited financial statements contains a qualified opinion, an emphasis-of-matter paragraph, or an other-matter paragraph. In ISA 810, the requirement in this paragraph only applies when the auditor expresses an unmodified opinion on the summary financial statements. In section 810, the requirement in paragraph .20 applies when the auditor expresses either an unmodified opinion or an adverse opinion on the summary financial statements.

Section 810, in paragraph .21, eliminated the reference to the restriction on distribution of the auditor's report in paragraph 20 of ISA 810. In the United States, use of an auditor's report is restricted, not its distribution. An auditor is not responsible for controlling management's distribution of restricted-use reports.

[Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014. Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

- An auditor's report on consolidated comparative financial statements prepared in accordance with accounting principles generally accepted in the United States of America when the audit has been conducted in accordance with both auditing standards generally accepted in the United States of America and international standards on auditing ..... 700.A63
- An auditor's report on a single year prepared in accordance with accounting principles generally accepted in the United States of America when comparative summarized financial information derived from audited financial statements for the prior year is presented ..... 700.A63
- An auditor's report on a single year prepared in accordance with accounting principles generally accepted in the United States of America when comparative summarized financial information derived from unaudited financial statements for the prior year is presented ..... 700.A63
- An auditor's report on supplementary information ..... 9725.03-.04
- An auditor's report with an emphasis-of-matter paragraph because there is uncertainty relating to a pending unusually important litigation matter ..... 706.A13
- An auditor's report with an other-matter paragraph that may be appropriate when an auditor issues an updated report on the financial statements of a prior period that contains an opinion different from the opinion previously expressed ..... 706.A13
- An auditor's report with a qualified opinion due to a material misstatement of the financial statements and an emphasis-of-matter paragraph because there is uncertainty relating to a pending unusually important litigation matter ..... 706.A13
- An other-matter paragraph to disclaim and opinion on other information ..... 720.A13
- An other-matter paragraph when the auditor is disclaiming an opinion on the financial statements ..... 725.A17
- An other-matter paragraph when the auditor is issuing an adverse opinion on the financial statements ..... 725.A17
- An other-matter paragraph when the auditor is issuing a qualified opinion on the financial statements and a qualified opinion on the supplementary information ..... 725.A17
- An other-matter paragraph when the auditor is issuing an unmodified opinion on the financial statements and an unmodified opinion on the supplementary information ..... 725.A17

**ILLUSTRATIONS**—continued

- An adverse opinion is expressed on the audited financial statements (as a result of the adverse opinion on the audited financial statements, it is inappropriate to express, and the auditor does not express, an opinion on the summary financial statements) ..... 810.A22
- An adverse opinion is expressed on the summary financial statements because they are not consistent, in all material respects, with the audited financial statements, in accordance with the applied criteria ..... 810.A22
- An unmodified opinion is expressed on the summary financial statements and a qualified opinion is expressed on the audited financial statements ..... 810.A22
- An unmodified opinion is expressed on the summary financial statements (the auditor's report on the summary financial statements is dated later than the date of the auditor's report on the financial statements from which the summary financial statements are derived) ..... 810.A22
- Auditor's consideration of the internal audit function in an audit of financial statements ..... 610.A4
- Auditor's written communication ..... 265.A38
- Combined report expressing an unmodified opinion on ICFR and an unmodified opinion on the financial statements ..... 940.A155
- Combined report on compliance with applicable requirements and internal control over compliance ..... 935.A42
- Comments on a financial forecast ..... 920.A93-9
- Comments on pro forma financial information ..... 920.A93-7
- Comments on tables, statistics, and other financial information—complete description of procedures and findings ..... 920.A93-10
- Comments on tables, statistics, and other financial information: descriptions of procedures and findings regarding tables, statistics, and other financial information—attached securities offering (or selected pages) identifies items to which procedures were applied through the use of designated symbols ..... 920.A93-12
- Comments on tables, statistics, and other financial information—summarized description of procedures and findings regarding tables, statistics, and other financial information ..... 920.A93-11
- Component auditor's confirmation letter ..... 600.A95
- Detailed representation letter for a review of interim financial information ..... 930.A56
- Disclaimer of opinion on ICFR ..... 940.A154
- Emphasis-of-matter paragraph when a going concern emphasis-of-matter paragraph was included in the prior year's audit report, and conditions giving rise to the emphasis-of-matter paragraph continue to exist ..... 930.A58

**ILLUSTRATIONS**—continued

- Emphasis-of-matter paragraph when a going concern emphasis-of-matter paragraph was not included in the prior year's audit report, and conditions or events exist as of the interim reporting date covered by the review that might be indicative of the entity's possible inability to continue as a going concern ..... 930.A58
- Experts section in a registration statement filed under the Securities Act of 1933 ... 925.A15
- Illustration of report with disclaimer of opinion on results of
  - operations and cash flows and unmodified opinion on financial position ..... 510.A19
- Illustrative audit inquiry letter to legal counsel ..... 501.A69
- Illustrative entity consent and acknowledgment letter ..... 510.A20
- Illustrative letter to regulator ..... 9230.06
- Illustrative representation letter ..... 580.A35
- Illustrative specific written representations ..... 580.A36
- Illustrative successor auditor acknowledgment letter ..... 510.A21
- Illustrative updating management representation letter ..... 580.A37
- Language restricting use of the auditor's communication ..... 905.A8
- Engagement performed in accordance with Government Auditing Standards ..... 905.A11
- Letter reaffirming comments in example A-1 as of a later date ..... 920.A93-6
- Letter to a requesting party that has not provided the legal opinion or the representation letter required by paragraph .11 ..... 920.A93-20
- Letter when a short-form registration statement is filed incorporating previously filed form 8-K by reference ..... 920.A93-5
- Material departures from prescribed guidelines identified ..... 730.A3
- Modification due to a departure from the applicable financial reporting ..... 930.A58
- Modification due to inadequate disclosure ..... 930.A58
- No material weakness communication ..... 265.A39
- Report in which the auditor of the group financial statements is making reference to the audit of a component auditor ..... 600.A94
- Report of the subcommittee on audit inquiry responses ..... 501.A71
- Report with a qualified opinion when the group engagement team is not able to obtain sufficient appropriate audit evidence on which to base the group audit opinion ..... 600.A94

**ILLUSTRATIONS**—continued

- Representation letter from requesting party ..... 920.A92
- Review report on comparative interim financial information when the prior period was reviewed by another auditor ..... 930.A57
- Review report on condensed comparative interim financial information ..... 930.A57
- Review report on interim financial information ..... 930.A57
- Review report that refers to a component auditor's review report on the interim financial information of a significant component of a reporting entity ..... 930.A57
- Short form representation letter for a review of interim financial information ..... 930.A56
- Significance of a component ..... 600.A76
- Significant deficiencies and material weaknesses identified during an audit ..... 9265.03, 9265.07
- Some required supplementary information is omitted and some is presented in accordance with the prescribed guidelines ..... 730.A3
- Specified procedures not completed ..... 730.A3
- The required supplementary information is included, the auditor has applied the specified procedures, and no material departures from prescribed guidelines have been identified ..... 730.A3
- Transfer of assets under receivership under FDIC ..... 9620.14
- Transfer of assets under U.S. Bankruptcy Code ..... 9620.13
- Typical comfort letter for a 1933 Act offering ..... 920.A93-3
- Typical comfort letter for a non-1933 Act offering when the required representation letter has been obtained ..... 920.A93-4
- Unmodified opinion on ICFR ..... 940.A154
- Unmodified opinion on ICFR making reference to a component auditor ..... 940.A154
- U.S. form of independent auditor's report to report on financial statements prepared in accordance with a financial reporting framework generally accepted in another country that also are intended for use in the United States ..... 910.A11
- U.S. form of independent auditor's report to report on financial statements prepared in accordance with a financial reporting framework generally accepted in another country that are intended for use only outside the United States ..... 910.A11
- Unresolved doubts about whether the required supplementary information is in accordance with prescribed guidelines ..... 730.A3
- Written report to the requesting party ..... 915.A8

**INDEPENDENCE**

- Auditor not independent, but required by law or regulation to report on financial statements ..... 705.16

**INDEPENDENT AUDITOR. See auditor, independent****INQUIRIES**

\* This table lists Statements on Standards for Attestation Engagements (SSAEs) issued subsequent to SSAE No. 18, *Attestation Standards: Clarification and Recodification*, which was issued in April 2016. Refer to part II, "List of Statement on Standards for Attestation Engagements Nos. 1–17," of this section for SSAEs issued prior to SSAE No. 18.

<sup>1</sup> SSAE No. 18 created various sections throughout *U.S. Attestation Standards—AICPA (Clarified)*. See the following section, "Sources of Sections in Current Text," for a full list.

<sup>2</sup> SSAE No. 18 does not supersede chapter 7, "Management's Discussion and Analysis," of SSAE No. 10, *Attestation Standards: Revision and Recodification*, which is currently codified as AT section 701. The Auditing Standards Board (ASB) has not clarified AT section 701 because practitioners rarely perform attest engagements to report on management's discussion and analysis prepared pursuant to the rules and regulations adopted by the SEC. Therefore, the ASB decided that it would retain AT section 701 in its current unclarified format as AT-C section 395 until further notice.

## AT-C Introduction

### Foreword

#### Attestation Clarity Project

To address concerns over the clarity, length, and complexity of its standards, the Auditing Standards Board (ASB) established clarity drafting conventions and undertook a project to redraft all the standards it issues in clarity format. The redrafting of Statements on Standards for Attestation Engagements (SSAEs or attestation standards) in SSAE No. 18, *Attestation Standards: Clarification and Recodification*, represents the culmination of that process. This section redrafts all SSAEs, except for the following:

- Chapter 7, "Management's Discussion and Analysis," of SSAE No. 10, *Attestation Standards: Revision and Recodification* (AT sec. 701)

The ASB decided not to clarify AT section 701 because practitioners rarely perform attestation engagements to report on management's discussion and analysis prepared pursuant to the rules and regulations adopted by the U.S. Securities and Exchange Commission. Therefore, the ASB decided that AT section 701 should be retained in its current unclarified format as section 395 until further notice.

- SSAE No. 15, *An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements*, and related Attestation Interpretation No. 1, "Reporting Under Section 112 of the Federal Deposit Insurance Corporation Improvement Act" (AT sec. 501 and 9501)

The ASB concluded that because engagements performed under AT section 501 are required to be integrated with an audit of financial statements, the content of AT section 501 should be moved to the Statements on Auditing Standards (SASs). As a result, in October 2015, the ASB issued SAS No. 130, *An Audit of Internal Control Over Financial Reporting That Is Integrated With an Audit of Financial Statements* (AU-C sec. 940). AT section 501 and the related interpretation will be withdrawn when SAS No. 130 becomes effective; the effective date for SAS No. 130 is for integrated audits for periods ending on or after December 15, 2016.

The attestation standards are developed and issued in the form of SSAEs and are codified into sections. This section recodifies the "AT" section numbers designated by SSAE Nos. 10–17 using the identifier "AT-C" to differentiate the sections of the clarified attestation standards ("AT-C sections") from the attestation standards that are superseded by SSAE No. 18 ("AT sections"). The AT sections remain effective through April 2017, by which time substantially all engagements for which the AT sections were still effective are expected to be completed.

The attestation standards have been redrafted in accordance with the clarity drafting conventions, which include the following:

- Establishing objectives for each AT-C section

- Including a definitions section, where relevant, in each AT-C section
- Separating requirements from application and other explanatory material
- Numbering application and other explanatory material paragraphs using an A- prefix and presenting them in a separate section that follows the requirements section
- Using formatting techniques, such as bulleted lists, to enhance readability
- Including, when appropriate, special considerations relevant to audits of smaller, less complex entities within the text of the AT-C section
- Including, when appropriate, special considerations relevant to examination, review, or agreed-upon procedures engagements for governmental entities within the text of the AT-C section

## Convergence

It is the ASB's general strategy to converge its standards with those of the International Auditing and Assurance Standards Board. Accordingly, the foundation for section 105, *Concepts Common to All Attestation Engagements*; section 205, *Examination Engagements*; and section 210, *Review Engagements*, is International Standard on Assurance Engagements (ISAE) 3000 (Revised), *Assurance Engagements Other Than Audits or Reviews of Historical Financial Information*. Many of the paragraphs in this section have been converged with the related paragraphs in ISAE 3000 (Revised), with certain changes made to reflect U.S. professional standards. Other content included in this section is derived from the extant SSAEs.

The ASB decided not to adopt certain provisions of ISAE 3000 (Revised), for example, in this section, a practitioner is not permitted to issue an examination or review report if the practitioner has not obtained a written assertion from the responsible party, except when the engaging party is not the responsible party. In the ISAEs, an assertion (or representation about the subject matter against the criteria) is not required in order for the practitioner to report.

Section 215, *Agreed-Upon Procedures Engagements*, is based on a redrafting of extant AT section 201, *Agreed-Upon Procedures Engagements*, in clarified format. ISAE 3000 (Revised) does not address agreed-upon procedures engagements.

## Authority of the SSAEs

SSAEs are issued by senior committees of the AICPA designated to issue pronouncements on attestation matters applicable to the preparation and issuance of attestation reports for entities that are nonissuers.<sup>1</sup> The "Compliance With Standards Rule" (ET sec. 1.310.001) of the AICPA Code of Professional Conduct requires an AICPA member performing an attestation engagement for a nonissuer (a practitioner) to comply with standards promulgated by the ASB. A practitioner must comply with an unconditional requirement in all cases in

---

<sup>1</sup> See the definition of the term *nonissuer* in the AU-C Glossary. [Footnote added, February 2017, to better reflect the AICPA Council Resolution designating the Public Company Accounting Oversight Board to promulgate technical standards.]

which such requirement is relevant. A practitioner also must comply with a presumptively mandatory requirement in all cases in which such requirement is relevant. However, if, in rare circumstances, a practitioner judges it necessary to depart from a relevant presumptively mandatory requirement, the practitioner must document the justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the intent of that requirement.

Exhibits and interpretations to SSAEs are *interpretive publications*, as defined in section 105. Section 105 requires the practitioner to consider applicable interpretive publications in planning and performing the attestation engagement. Interpretive publications are not attestation standards. Interpretive publications are recommendations on the application of the SSAEs in specific circumstances, including engagements for entities in specialized industries. An interpretive publication is issued under the authority of the relevant senior technical committee after all members of the committee have been provided an opportunity to consider and comment on whether the proposed interpretive publication is consistent with the SSAEs. Attestation interpretations are included in AT-C sections. AICPA Guides and Attestation Statements of Position are listed in AT-C appendix A, "AICPA Guides and Statements of Position."

## AT-C Preface\*

# Preface to the Attestation Standards

**.01** The Statements on Standards for Attestation Engagements (SSAEs or attestation standards) establish requirements and provide application guidance for performing and reporting on examination, review, and agreed-upon procedures engagements (attestation engagements). Examples of subject matter for attestation engagements are a schedule of investment returns, the effectiveness of an entity's controls over the security of a system, or a statement of greenhouse gas emissions.

**.02** The attestation standards are issued under the "Compliance With Standards Rule" (ET section 1.310.001) of the AICPA Code of Professional Conduct, which requires an AICPA member who performs an attestation engagement to comply with standards promulgated by bodies designated by AICPA council. AICPA council has granted the Auditing Standards Board authority to promulgate the attestation standards, which are issued through a due process that includes deliberation in meetings open to the public, public exposure of proposed attestation standards, and a formal vote by an authorized standard-setting body.

**.03** This preface provides an overview of the attestation standards but does not establish requirements and does not carry any authority. It is intended to be helpful in understanding attestation engagements.

**.04** The attestation standards are developed and issued in the form of SSAEs and are codified into sections. The identifier "AT-C" is used to differentiate the sections of the clarified attestation standards issued in April 2016 (AT-C sections) from the sections of the attestation standards they supersede (identified as AT sections).

## Structure of the Attestation Standards

**.05** The attestation standards apply to three levels of service—examination, review, and agreed-upon procedures—and can be applied to innumerable types of subject matter. The applicability of specific AT-C sections to an engagement depends on both the level of service provided and the subject matter on which the practitioner is engaged to report.

**.06** Section 105, *Concepts Common to All Attestation Engagements*, contains concepts that are relevant to any attestation engagement. The level of service sections are section 205, *Examination Engagements*; section 210, *Review Engagements*; and section 215, *Agreed-Upon Procedures Engagements*, which contain additional requirements and application guidance specific to examination, review, or agreed-upon procedures engagements, respectively. Under the attestation standards, the applicable requirements and application guidance for any attestation engagement are contained in at least two sections: section 105 and section 205, 210, or 215, depending on the level of service being provided. In addition, incremental performance and reporting requirements and application guidance unique to specific subject matters, such as prospective financial information or compliance with laws and regulations, are contained in

---

\* This section contains an "AT-C" identifier, instead of an "AT" identifier, to avoid confusion with references to existing "AT" sections, which remain effective through April 2017.

the subject-matter sections. The applicable requirements and application guidance for a subject-matter-specific engagement is contained in three sections: section 105; section 205, 210, or 215, as applicable; and the applicable subject-matter section.

## Purpose of the Engagement and Premise on Which an Attestation Engagement Is Conducted

.07 The purpose of an attestation engagement is to provide users of information, generally third parties, with an opinion, conclusion, or findings regarding the reliability of subject matter or an assertion about the subject matter, as measured against suitable and available criteria. (An examination engagement results in an opinion; a review engagement results in a conclusion; and an agreed-upon procedures engagement results in findings.) The practitioner's report is intended to enhance the degree of confidence that intended users can place in the subject matter.

## Responsibilities

.08 An engagement in accordance with the attestation standards is conducted on the premise that the responsible party is responsible for

- the subject matter (and, if applicable, the preparation and presentation of the subject matter) in accordance with (or based on) the criteria
- its assertion about the subject matter;
- measuring, evaluating, and, when applicable, presenting subject matter that is free from material misstatement, whether due to fraud or error; and
- providing the practitioner with
  - access to all information of which the responsible party is aware that is relevant to the measurement, evaluation, or disclosure of the subject matter;
  - access to additional information that the practitioner may request from the responsible party for the purpose of the engagement; and
  - unrestricted access to persons within the appropriate party(ies) from whom the practitioner determines it is necessary to obtain evidence.

.09 Practitioners are responsible for complying with the relevant performance and reporting requirements established in the attestation standards when they are engaged to issue, or do issue, an examination, review, or agreed-upon procedures report on subject matter or an assertion about subject matter that is the responsibility of another party (the responsible party). Although a practitioner may assist the responsible party in developing or presenting the subject matter, the responsible party remains responsible for the subject matter.

## Performance

.10 In all services provided under the attestation standards, practitioners are responsible for

- having the appropriate competence and capabilities to perform the engagement,
- complying with relevant ethical requirements,
- maintaining professional skepticism, and
- exercising professional judgment throughout the planning and performance of the engagement.

**.11** To express an opinion in an examination, the practitioner obtains reasonable assurance about whether the subject matter, or an assertion about the subject matter, is free from material misstatement, whether due to fraud or error. To obtain reasonable assurance, which is a high but not absolute level of assurance, the practitioner

- plans the work and properly supervises other members of the engagement team.
- identifies and assesses the risks of material misstatement, whether due to fraud or error, based on an understanding of the subject matter, its measurement or evaluation, the criteria, and other engagement circumstances.
- obtains sufficient appropriate evidence about whether material misstatements exist by designing and implementing appropriate responses to the assessed risks. Examination procedures may involve inspection, observation, analysis, inquiry, reperformance, recalculation, or confirmation with outside parties.

**.12** To express a conclusion in a review, the practitioner obtains limited assurance about whether any material modification should be made to the subject matter in order for it to be in accordance with (or based on) the criteria or to an assertion about the subject matter in order for it to be fairly stated. In a review, the nature and extent of the procedures are substantially less than in an examination. To obtain limited assurance in a review, the practitioner

- plans the work and properly supervises other members of the engagement team.
- focuses procedures in those areas in which the practitioner believes increased risks of misstatements exist, whether due to fraud or error, based on the practitioner's understanding of the subject matter, its measurement or evaluation, the criteria, and other engagement circumstances.
- obtains review evidence, through the application of inquiry and analytical procedures or other procedures as appropriate, to obtain limited assurance that no material modifications should be made to the subject matter in order for it to be in accordance with (or based on) the criteria.

**.13** To report on the application of agreed-upon procedures, the practitioner applies procedures determined by the specified parties who are the intended users of the practitioner's report and who are responsible for the sufficiency of the procedures for their purposes. As a result of the engagement, the practitioner reports on the results of the engagement but does not provide an opinion or conclusion on the subject matter or assertion. In an agreed-upon procedures engagement, the practitioner

- plans the work and properly supervises other members of the engagement team.

- applies the procedures agreed to by the specified parties and reports on their results.

## Reporting

.14 Based on evidence obtained, the practitioner expresses an opinion in an examination, expresses a conclusion in a review, or reports findings in an agreed-upon procedures engagement. In the case of an examination, the practitioner's report provides an opinion about whether the subject matter, as measured against the criteria, is in accordance with (or based on) the criteria (or whether the assertion about the subject matter is fairly stated), in all material respects. In a review, the report expresses a conclusion about whether, based on the limited procedures, the practitioner is aware of any material modification that should be made to the subject matter in order for it to be in accordance with (or based on) the criteria or to the assertion in order for it to be fairly stated. In an agreed-upon procedures report, the practitioner describes the specified procedures that were applied to the subject matter and the results of those procedures.

---

## AT-C Glossary

### Glossary of Terms<sup>1</sup>

**Appropriate party.** Reference to this term should be read as the *responsible party* or the *engaging party*, as appropriate. Also see **engaging party** and **responsible party**.

**Appropriateness of evidence (in the context of section 205, *Examination Engagements*).** The measure of the quality of evidence, that is, its relevancy and reliability in providing support for the practitioner's opinion. Also see **evidence**.

**Appropriateness of review evidence (in the context of section 210, *Review Engagements*).** The measure of the quality of review evidence, that is, its relevancy and reliability in providing support for the practitioner's conclusion. Also see **review evidence**.

**Assertion.** Any declaration or set of declarations about whether the subject matter is in accordance with (or based on) the criteria.

**Attestation engagement.** An examination, review, or agreed-upon procedures engagement performed under the attestation standards related to subject matter or an assertion that is the responsibility of another party. The following are the three types of attestation engagements:

- **Examination engagement.** An attestation engagement in which the practitioner obtains reasonable assurance by obtaining sufficient appropriate evidence about the measurement or evaluation of subject matter against criteria in order to be able to draw reasonable conclusions on which to base the practitioner's opinion about whether the subject matter is in accordance with (or based on) the criteria or the assertion is fairly stated, in all material respects.
- **Review engagement.** An attestation engagement in which the practitioner obtains limited assurance by obtaining sufficient appropriate review evidence about the measurement or evaluation of subject matter against criteria in order to express a conclusion about whether any material modification should be made to the subject matter in order for it be in accordance with (or based on) the criteria or to the assertion in order for it to be fairly stated.
- **Agreed-upon procedures engagement.** An attestation engagement in which a practitioner performs specific procedures on subject matter or an assertion and reports the findings without providing an opinion or a conclusion on it. The parties to the engagement (*specified parties*) agree upon and are responsible for the sufficiency of the procedures for their purposes.

Also see **specified party** and **attestation standards**.

---

<sup>1</sup> This glossary lists terms defined in the "Definitions" sections of the attestation standards as well as certain terms defined or explained in other sections of the attestation standards. Terms defined for purposes of a specific section are denoted as such. Terms may appear in more than one section.

**Attestation risk.** In an examination or review engagement, the risk that the practitioner expresses an inappropriate opinion or conclusion, as applicable, when the subject matter or assertion is materially misstated.

**Attestation standards.** The Statements on Standards for Attestation Engagements (SSAEs), which are also known as the *attestation standards*, establish requirements and provide guidance for performing and reporting on examination, review, and agreed-upon procedures engagements (attestation engagements). Examples of subject matter for attestation engagements are a schedule of investment returns, the effectiveness of an entity's controls over the security of a system, or a statement of greenhouse gas emissions. The SSAEs apply only to attestation engagements performed under the SSAEs. They are issued under the "Compliance With Standards Rule" (ET sec. 1.310.001) of the AICPA Code of Professional Conduct, which requires an AICPA member who performs an attestation engagement to comply with standards promulgated by bodies designated by AICPA Council. AICPA Council has granted the Auditing Standards Board authority to promulgate the attestation standards, which are issued through a due process that includes deliberation in meetings open to the public, public exposure of proposed attestation standards, and a formal vote by an authorized standard-setting body. Also see **attestation engagement**.

**Carve-out method (in the context of section 320, *Reporting on an Examination of Controls at a Service Organization Relevant to User Entities' Internal Control Over Financial Reporting*).** Method of addressing the services provided by a subservice organization, whereby management's description of the service organization's system identifies the nature of the services performed by the subservice organization and excludes from the description and from the scope of the service auditor's engagement the subservice organization's relevant control objectives and related controls.

**Complementary subservice organization controls (in the context of section 320).** Controls that management of the service organization assumes, in the design of the service organization's system, will be implemented by the subservice organizations and are necessary to achieve the control objectives stated in management's description of the service organization's system.

**Complementary user entity controls (in the context of section 320).** Controls that management of the service organization assumes, in the design of the service organization's system, will be implemented by user entities and are necessary to achieve the control objectives stated in management's description of the service organization's system.

**Compliance with specified requirements (in the context of section 315, *Compliance Attestation*).** An entity's compliance with specified laws, regulations, rules, contracts, or grants.

**Control objectives (in the context of section 320).** The aim or purpose of specified controls at the service organization. Control objectives address the risks that controls are intended to mitigate.

**Controls at a service organization (in the context of section 320).** The policies and procedures at a service organization likely to be relevant to user entities' internal control over financial reporting. These policies and procedures are designed, implemented, and documented by the service organization to provide reasonable assurance about the achievement of the

control objectives relevant to the services covered by the service auditor's report.

In the context of section 320, the policies and procedures include aspects of the information and communications component of user entities' internal control maintained by the service organization and control activities related to the information and communications component and may also include aspects of one or more of the other components of internal control at a service organization. For example, the definition of *controls at a service organization* may include aspects of the service organization's control environment, risk assessment, monitoring activities, and control activities when they relate to the services provided. Such definition does not, however, include controls at a service organization that are not related to the achievement of the control objectives stated in management's description of the service organization's system, for example, controls related to the preparation of the service organization's own financial statements.

**Criteria.** The benchmarks used to measure or evaluate the subject matter.

**Criteria for the preparation of pro forma financial information (in the context of section 310, *Reporting on Pro Forma Financial Information*).** The basis disclosed in the pro forma financial information that management used to develop the pro forma financial information, including the assumptions underlying the pro forma financial information. Paragraph .11 of section 310 contains the attributes of suitable criteria for an examination or review of pro forma financial information.

**Documentation completion date.** The date on which the practitioner has assembled for retention a complete and final set of documentation in the engagement file.

**Engagement circumstances.** The broad context defining the particular engagement, which includes the terms of the engagement; whether it is an examination, review, or agreed-upon procedures engagement; the characteristics of the subject matter; the criteria; the information needs of the intended users; relevant characteristics of the responsible party and, if different, the engaging party and their environment; and other matters, for example, events, transactions, conditions and practices, and relevant laws and regulations, that may have a significant effect on the engagement.

**Engagement documentation.** The record of procedures performed, relevant evidence obtained, and, in an examination or review engagement, conclusions reached by the practitioner, or in an agreed-upon procedures engagement, findings of the practitioner. (Terms such as *working papers* or *workpapers* are also sometimes used).

**Engagement partner.** The partner or other person in the firm who is responsible for the attestation engagement and its performance and for the practitioner's report that is issued on behalf of the firm and who, when required, has the appropriate authority from a professional, legal, or regulatory body. *Engagement partner*, *partner*, and *firm* refer to their governmental equivalents when relevant. Also see **firm** and **practitioner**.

**Engagement team.** All partners and staff performing the engagement and any individuals engaged by the firm or a network firm who perform attestation procedures on the engagement. This excludes a practitioner's external specialist and engagement quality control reviewer engaged by the firm or a network firm. The term *engagement team* also excludes individuals within the client's internal audit function who provide direct assistance.

**Engaging party.** The party(ies) that engages the practitioner to perform the attestation engagement. Also see **appropriate party** and **responsible party**.

**Entity (in the context of section 305, *Prospective Financial Information*).** Any unit, existing or to be formed for which financial statements could be prepared in accordance with generally accepted accounting principles or special purpose frameworks. For example, an entity can be an individual, partnership, corporation, trust, estate, association, or governmental unit.

**Evidence.** Information used by the practitioner in arriving at the opinion, conclusion, or findings on which the practitioner's report is based. Also see **appropriateness of evidence** and **sufficiency of evidence**.

**Financial forecast (in the context of section 305).** Prospective financial statements that present, to the best of the responsible party's knowledge and belief, an entity's expected financial position, results of operations, and cash flows. A financial forecast is based on the responsible party's assumptions reflecting conditions it expects to exist and the course of action it expects to take. A financial forecast may be expressed in specific monetary amounts as a single-point estimate of forecasted results or as a range, when the responsible party selects key assumptions to form a range within which it reasonably expects, to the best of its knowledge and belief, the item or items subject to the assumptions to actually fall. If a forecast contains a range, the range is not selected in a biased or misleading manner (for example, a range in which one end is significantly less expected than the other).

**Financial projection (in the context of section 305).** Prospective financial statements that present, to the best of the responsible party's knowledge and belief, given one or more hypothetical assumptions, an entity's expected financial position, results of operations, and cash flows. A financial projection is sometimes prepared to present one or more hypothetical courses of action for evaluation, as in response to a question such as, "What would happen if...?" A financial projection is based on the responsible party's assumptions reflecting conditions it expects would exist and the course of action it expects would be taken, given one or more hypothetical assumptions. A projection, like a forecast, may contain a range.

**Firm.** A form of organization permitted by law or regulation whose characteristics conform to resolutions of the Council of the AICPA and that is engaged in the practice of public accounting. Also see **engagement partner** and **practitioner**.

**Forecast (in the context of section 305).** Used alone, this term means forecasted information, which can be either a full presentation (a financial forecast) or a partial presentation. Also see **financial forecast**.

**Fraud.** An intentional act involving the use of deception that results in a misstatement in the subject matter or the assertion.

**General use.** Use of a practitioner's report that is not restricted to specified parties.

**General use of prospective financial statements (in the context of section 305).** Refers to the use of the statements by persons with whom the responsible party is not negotiating directly, for example, in an offering statement of an entity's debt or equity interests. Also see **limited use of**

**prospective financial statements** and **prospective financial statements**.

**Guide (in the context of section 305).** The AICPA Guide *Prospective Financial Information*.

**Hypothetical assumption (in the context of section 305).** An assumption used in a financial projection or in a partial presentation of projected information to present a condition or course of action that is not necessarily expected to occur but is consistent with the purpose of the projection.

**Inclusive method (in the context of section 320).** Method of addressing the services provided by a subservice organization whereby management's description of the service organization's system includes a description of the nature of the services provided by the subservice organization as well as the subservice organization's relevant control objectives and related controls.

**Internal audit function.** A function of an entity that performs assurance and consulting activities designed to evaluate and improve the effectiveness of the entity's governance, risk management, and internal control processes.

**Internal control over compliance (in the context of section 315).** An entity's internal control over compliance with specified requirements. The internal control addressed in section 315 may include part of, but is not the same as, internal control over financial reporting.

**Interpretive publications.** Interpretive publications are not attestation standards. Interpretive publications are recommendations on the application of the attestation standards in specific circumstances, including engagements for entities in specialized industries. An interpretive publication is issued under the authority of the relevant senior technical committee after all members of the committee have been provided an opportunity to consider and comment on whether the proposed interpretive publication is consistent with the attestation standards. Examples of interpretive publications are interpretations of the attestation standards, exhibits to the attestation standards, attestation guidance included in AICPA guides and attestation Statements of Position (SOPs). Interpretations of the attestation standards and exhibits are included within the sections of the attestation standards. AICPA guides and attestation SOPs are listed in AT-C appendix A, "AICPA Guides and Statements of Position," of the attestation standards. Also see **other attestation publications**.

**Key factors (in the context of section 305).** The significant matters on which an entity's future results are expected to depend. Such factors are basic to the entity's operations and, thus, encompass matters that affect, among other things, the entity's sales, production, service, and financing activities. Key factors serve as a foundation for prospective financial information and are the bases for the assumptions.

**Limited use of prospective financial statements (in the context of section 305).** Refers to the use of prospective financial statements by the responsible party alone or by the responsible party and third parties with whom the responsible party is negotiating directly. Examples include use in negotiations for a bank loan, submission to a regulatory agency, and use solely within the entity. Also see **general use of prospective financial statements** and **prospective financial statements**.

**Management's description of a service organization's system and a service auditor's report on that description and on the suitability of**

**the design of controls (referred to in the context of section 320 as a *type 1 report*).** A service auditor's report that comprises the following:

- i. Management's description of the service organization's system
- ii. A written assertion by management of the service organization about whether, based on the criteria
  - (1) management's description of the service organization's system fairly presents the service organization's system that was designed and implemented as of a specified date
  - (2) the controls related to the control objectives stated in management's description of the service organization's system were suitably designed to achieve those control objectives as of the specified date
- iii. A service auditor's report that expresses an opinion on the matters in (ii)(1)–(ii)(2)

**Management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design and operating effectiveness of controls (referred to in the context of section 320 as a *type 2 report*).** A service auditor's report that comprises the following:

- i. Management's description of the service organization's system
- ii. A written assertion by management of the service organization about whether, based on the criteria
  - (1) management's description of the service organization's system fairly presents the service organization's system that was designed and implemented throughout the specified period
  - (2) the controls related to the control objectives stated in management's description of the service organization's system were suitably designed throughout the specified period to achieve those control objectives
  - (3) the controls related to the control objectives stated in management's description of the service organization's system operated effectively throughout the specified period to achieve those control objectives
- iii. A service auditor's report that
  - (1) expresses an opinion on the matters in (ii)(1)–(ii)(3)
  - (2) includes a description of the tests of controls and the results thereof

**Material noncompliance (in the context of section 315).** A failure to follow compliance requirements or a violation of prohibitions included in the specified requirements that results in noncompliance that is quantitatively or qualitatively material, either individually or when aggregated with other noncompliance.

**Misstatement.** A difference between the measurement or evaluation of the subject matter by the responsible party and the proper measurement or evaluation of the subject matter based on the criteria. Misstatements can be intentional or unintentional, qualitative or quantitative, and include omissions. In certain engagements, a misstatement may be referred to as a *deviation, exception, or instance of noncompliance*. Also see **risk of material misstatement**.

**Modified opinion (in the context of section 205).** A qualified opinion, an adverse opinion, or a disclaimer of opinion.

**Monitoring of controls (in the context of section 320).** A process to assess the effectiveness of internal control performance over time. It involves assessing the effectiveness of controls on a timely basis, identifying and reporting deficiencies to appropriate individuals within the service organization, and taking necessary corrective actions.

**Network firm.** A firm or other entity that belongs to a network, as defined in ET section 0.400, *Definitions*.

**Noncompliance with laws or regulations.** Acts of omission or commission by the entity, either intentional or unintentional, that are contrary to the prevailing laws or regulations. Such acts include transactions entered into by, or in the name of, the entity or on its behalf by those charged with governance, management, or employees. *Noncompliance* does not include personal misconduct (unrelated to the subject matter) by those charged with governance, management, or employees of the entity.

**Nonparticipant party (in the context of section 215, *Agreed-Upon Procedures Engagements*).** An additional specified party the practitioner is requested to add as a user of the report subsequent to the completion of the agreed-upon procedures engagement. Also see **specified party**.

**Other attestation publications.** Publications other than interpretive publications. These include AICPA attestation publications not defined as interpretive publications; attestation articles in the *Journal of Accountancy* and other professional journals; continuing professional education programs and other instruction materials, textbooks, guidebooks, attestation programs, and checklists; and other attestation publications from state CPA societies, other organizations, and individuals. Other attestation publications have no authoritative status; however, they may help the practitioner understand and apply the attestation standards. The practitioner is not expected to be aware of the full body of other attestation publications. Also see **interpretive publications**.

**Other practitioner.** An independent practitioner who is not a member of the engagement team who performs work on information that will be used as evidence by the practitioner performing the attestation engagement. An other practitioner may be part of the practitioner's firm, a network firm, or another firm.

**Partial presentation (in the context of section 305).** A presentation of prospective financial information that excludes one or more of the applicable items required for prospective financial statements as described in chapter 8, "Presentation Guidelines," of the AICPA Guide *Prospective Financial Information*.

**Pervasive (in the context of section 205).** Describes the effects on the subject matter of misstatements or the possible effects on the subject matter of misstatements, if any, that are undetected due to an inability to obtain sufficient appropriate evidence. Pervasive effects on the subject matter are those that, in the practitioner's professional judgment

- a. are not confined to specific aspects of the subject matter;
- b. if so confined, represent or could represent a substantial proportion of the subject matter; or
- c. in relation to disclosures, are fundamental to the intended users' understanding of the subject matter.

**Practitioner.** The person or persons conducting the attestation engagement, usually the engagement partner or other members of the engagement team, or, as applicable, the firm. When a section of the attestation standards expressly intends that a requirement or responsibility be fulfilled by the engagement partner, the term *engagement partner*, rather than *practitioner*, is used. *Engagement partner* and *firm* are to be read as referring to their governmental equivalents when relevant. Also see **engagement partner** and **firm**.

**Practitioner's specialist.** An individual or organization possessing expertise in a field other than accounting or attestation, whose work in that field is used by the practitioner to assist the practitioner in obtaining evidence for the service being provided. A practitioner's specialist may be either a practitioner's internal specialist (who is a partner or staff, including temporary staff, of the practitioner's firm or a network firm) or a practitioner's external specialist. *Partner* and *firm* refer to their governmental equivalents when relevant.

**Presentation guidelines (in the context of section 305).** The criteria for the presentation and disclosure of prospective financial information.

**Presumptively mandatory requirements.** The category of professional requirements with which the practitioner must comply in all cases in which such a requirement is relevant, except in rare circumstances discussed in paragraph .20 of section 105, *Concepts Common to All Attestation Engagements*. The attestation standards use the word *should* to indicate a presumptively mandatory requirement. Also see **attestation standards** and **unconditional requirements**.

**Pro forma financial information (in the context of section 310).** A presentation that shows what the significant effects on historical financial information might have been had a consummated or proposed transaction (or event) occurred at an earlier date.

**Professional judgment.** The application of relevant training, knowledge, and experience, within the context provided by attestation and ethical standards in making informed decisions about the courses of action that are appropriate in the circumstances of the attestation engagement.

**Professional skepticism.** An attitude that includes a questioning mind, being alert to conditions that may indicate possible misstatement due to fraud or error, and a critical assessment of evidence.

**Projection (in the context of section 305).** This term can refer to either a financial projection or a partial presentation of projected information. Also see **financial projection**.

**Prospective financial information (in the context of section 305).** Any financial information about the future. The information may be presented as complete financial statements or limited to one or more elements, items, or accounts.

**Prospective financial statements (in the context of section 305).** Either financial forecasts or financial projections, including the summaries of significant assumptions and accounting policies. Although prospective financial statements may cover a period that has partially expired, statements for periods that have completely expired are not considered to be prospective financial statements. Pro forma financial statements and partial presentations are not considered to be prospective financial statements. Also

see **general use of prospective financial statements** and **limited use prospective financial statements**.

**Reasonable assurance.** A high but not absolute level of assurance.

**Report release date.** The date on which the practitioner grants the engaging party permission to use the practitioner's report.

**Responsible party.** The party(ies) responsible for the subject matter. If the nature of the subject matter is such that no such party exists, a party who has a reasonable basis for making a written assertion about the subject matter may be deemed to be the responsible party. Also see **appropriate party** and **engaging party**.

**Review evidence (in the context of section 210).** Information used by the practitioner in obtaining limited assurance on which the practitioner's review report is based. Also see **appropriateness of review evidence** and **sufficiency of review evidence**.

**Risk of material misstatement (in the context of section 205).** The risk that the subject matter is not in accordance with (or based on) the criteria in all material respects or that the assertion is not fairly stated, in all material respects. Also see **misstatement**.

**Service auditor (in the context of section 320).** A practitioner who reports on controls at a service organization.

**Service organization (in the context of section 320).** An organization or segment of an organization that provides services to user entities, which are likely to be relevant to those user entities' internal control over financial reporting.

**Service organization's assertion (in the context of section 320).** A written assertion about the matters referred to in item ii of the definition of *Management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design and operating effectiveness of controls*, for a type 2 report, and, for a type 1 report, the matters referred to in part (b) of the definition of *Management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design of controls*.

**Service organization's system (in the context of section 320).** The policies and procedures designed, implemented, and documented by management of the service organization to provide user entities with the services covered by the service auditor's report. Management's description of the service organization's system identifies the services covered, the period to which the description relates (or in the case of a type 1 report, the date to which the description relates), the control objectives specified by management or an outside party, the party specifying the control objectives (if not specified by management), and the related controls.

In the context of section 320, the policies and procedures refer to the guidelines and activities for providing transaction processing and other services to user entities and include the infrastructure, software, people, and data that support the policies and procedures.

**Specified party.** The intended user(s) to whom use of the practitioner's written report is limited. Also see **nonparticipant party**.

**Statements on Standards for Attestation Engagements (SSAEs).** See **attestation standards**.

**Subject matter.** The phenomenon that is measured or evaluated by applying criteria.

**Subservice organization (in the context of section 320).** A service organization used by another service organization to perform some of the services provided to user entities that are likely to be relevant to those user entities' internal control over financial reporting.

**Sufficiency of evidence (in the context of section 205).** The measure of the quantity of evidence. The quantity of the evidence needed is affected by the risks of material misstatement and also by the quality of such evidence. Also see **evidence**.

**Sufficiency of review evidence (in the context of section 210).** The measure of the quantity of review evidence. The quantity of the review evidence needed is affected by the risks of material misstatement and also by the quality of such evidence. Also see **review evidence**.

**Suitable criteria.** Criteria that exhibit all the following characteristics:

- *Relevance.* Criteria are relevant to the subject matter.
- *Objectivity.* Criteria are free from bias.
- *Measurability.* Criteria permit reasonably consistent measurements, qualitative or quantitative, of subject matter.
- *Completeness.* Criteria are complete when subject matter prepared in accordance with them does not omit relevant factors that could reasonably be expected to affect decisions of the intended users made on the basis of that subject matter.

**Test of controls (in the context of section 205).** A procedure designed to evaluate the operating effectiveness of controls in preventing, or detecting and correcting, material misstatements in the subject matter.

**Test of controls (in the context of section 320).** A procedure designed to evaluate the operating effectiveness of controls in achieving the control objectives stated in management's description of the service organization's system.

**Type 1 report.** See **management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design of controls**.

**Type 2 report.** See **management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design and operating effectiveness of controls**.

**Unconditional requirements.** The category of professional requirements with which the practitioner must comply in all cases in which such requirement is relevant. The attestation standards use the word *must* to indicate an unconditional requirement. Also see **attestation standards** and **presumptively mandatory requirements**.

**User auditor (in the context of section 320).** An auditor who audits and reports on the financial statements of a user entity.

**User entity (in the context of section 320).** An entity that uses a service organization for which controls at the service organization are likely to be relevant to that entity's internal control over financial reporting.

**Working papers or workpapers.** See **engagement documentation.**

---

# AT-C Section 100

## COMMON CONCEPTS

The following is a Codification of Statements on Standards for Attestation Engagements (SSAEs) resulting from the Auditing Standards Board's (ASB) project to clarify the SSAEs and related attestation interpretations. SSAEs are issued by senior committees of the AICPA designated to issue pronouncements on attestation matters applicable to the preparation and issuance of attestation reports for entities that are nonissuers.<sup>1</sup> The "Compliance With Standards Rule" (ET sec. 1.310.001) of the AICPA Code of Professional Conduct requires an AICPA member performing an attestation engagement for a nonissuer (a practitioner) to comply with standards promulgated by the ASB. A practitioner must comply with an unconditional requirement in all cases in which such requirement is relevant. A practitioner also must comply with a presumptively mandatory requirement in all cases in which such requirement is relevant; however, if, in rare circumstances, a practitioner judges it necessary to depart from a relevant presumptively mandatory requirement, the practitioner must document the justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the intent of that requirement.

Attestation interpretations are interpretive publications, as defined in section 105, *Concepts Common to All Attestation Engagements*. Section 105 requires the practitioner to consider applicable interpretive publications in planning and performing the attestation engagement. Interpretive publications are not attestation standards. Interpretive publications are recommendations on the application of the SSAEs in specific circumstances, including engagements for entities in specialized industries. An interpretive publication is issued under the authority of the relevant senior technical committee after all members of the committee have been provided an opportunity to consider and comment on whether the proposed interpretive publication is consistent with the SSAEs. Attestation interpretations are included in AT-C sections. AICPA Guides and Attestation Statements of Position are listed in AT-C appendix A, "AICPA Guides and Statements of Position."

**AT-C Section 105\*****Concepts Common to All Attestation Engagements**

Source: SSAE No. 18.

Effective for practitioners' reports dated on or after May 1, 2017.

**Introduction**

**.01** This section applies to engagements in which a CPA in the practice of public accounting is engaged to issue, or does issue, a practitioner's examination, review, or agreed-upon procedures report on subject matter or an assertion about subject matter (hereinafter referred to as an *assertion*) that is the responsibility of another party. (Ref: par. .A1)

**.02** An attestation engagement is predicated on the concept that a party other than the practitioner makes an assertion about whether the subject matter is measured or evaluated in accordance with suitable criteria. Section 205, *Examination Engagements*; section 210, *Review Engagements*; and section 215, *Agreed-Upon Procedures Engagements*, require the practitioner to request such an assertion in writing when performing an examination, review, or agreed-upon procedures engagement.<sup>1</sup> In examination and review engagements, when the engaging party is the responsible party, the responsible party's refusal to provide a written assertion requires the practitioner to withdraw from the engagement when withdrawal is possible under applicable laws and regulations.<sup>2</sup> In examination and review engagements, when the engaging party is not the responsible party and the responsible party refuses to provide a written assertion, the practitioner need not withdraw from the engagement but is required to disclose that refusal in the practitioner's report and restrict the use of the report to the engaging party.<sup>3</sup> In an agreed-upon procedures engagement, the responsible party's refusal to provide a written assertion requires the practitioner to disclose that refusal in the report.<sup>4</sup>

**.03** This section is not applicable to professional services for which the AICPA has established other professional standards, for example, services performed in accordance with (Ref: par. .A2–.A3)

- a. Statements on Auditing Standards,
- b. Statements on Standards for Accounting and Review Services, or
- c. Statements on Standards for Tax Services.

**.04** An attestation engagement may be part of a larger engagement, for example, a feasibility study or business acquisition study that also includes an

<sup>1</sup> Paragraph .10 of section 205, *Examination Engagements*; paragraph .11 of section 210, *Review Engagements*; and paragraph .15 of section 215, *Agreed-Upon Procedures Engagements*.

<sup>2</sup> Paragraph .82 of section 205 and paragraph .59 of section 210.

<sup>3</sup> Paragraph .84 of section 205 and paragraph .60 of section 210.

<sup>4</sup> Paragraph .36 of section 215.

examination of prospective financial information. In such circumstances, the attestation standards apply only to the attestation portion of the engagement.

## Compliance With the Attestation Standards

.05 The "Compliance With Standards Rule" (ET sec. 1.310.001) of the AICPA Code of Professional Conduct requires members who perform professional services to comply with standards promulgated by bodies designated by the Council of the AICPA.

## Relationship of Attestation Standards to Quality Control Standards

.06 Quality control systems, policies, and procedures are the responsibility of the firm in conducting its attestation practice. Under QC section 10, *A Firm's System of Quality Control*, the firm has an obligation to establish and maintain a system of quality control to provide it with reasonable assurance that<sup>5</sup> (Ref: par. .A4–.A6)

- a. the firm and its personnel comply with professional standards and applicable legal and regulatory requirements and
- b. practitioners' reports issued by the firm are appropriate in the circumstances.

.07 Attestation standards relate to the conduct of individual attestation engagements; quality control standards relate to the conduct of a firm's attestation practice as a whole. Thus, attestation standards and quality control standards are related, and the quality control policies and procedures that a firm adopts may affect both the conduct of individual attestation engagements and the conduct of a firm's attestation practice as a whole. However, deficiencies in or instances of noncompliance with a firm's quality control policies and procedures do not, in and of themselves, indicate that a particular engagement was not performed in accordance with the attestation standards.

## Effective Date

.08 This section is effective for practitioners' reports dated on or after May 1, 2017.

## Objectives

.09 In conducting an attestation engagement, the overall objectives of the practitioner are to

- a. apply the requirements relevant to the attestation engagement;
- b. report on the subject matter or assertion, and communicate as required by the applicable AT-C section, in accordance with the results of the practitioner's procedures; and
- c. implement quality control procedures at the engagement level that provide the practitioner with reasonable assurance that the attestation engagement complies with professional standards and applicable legal and regulatory requirements.

---

<sup>5</sup> Paragraph .12 of QC section 10, *A Firm's System of Quality Control*.

## Definitions

.10 For purposes of the attestation standards, the following terms have the meanings attributed as follows:

**Assertion.** Any declaration or set of declarations about whether the subject matter is in accordance with (or based on) the criteria.

**Attestation engagement.** An examination, review, or agreed-upon procedures engagement performed under the attestation standards related to subject matter or an assertion that is the responsibility of another party. The following are the three types of attestation engagements:

- a. **Examination engagement.** An attestation engagement in which the practitioner obtains reasonable assurance by obtaining sufficient appropriate evidence about the measurement or evaluation of subject matter against criteria in order to be able to draw reasonable conclusions on which to base the practitioner's opinion about whether the subject matter is in accordance with (or based on) the criteria or the assertion is fairly stated, in all material respects. (Ref: par. .A7)
- b. **Review engagement.** An attestation engagement in which the practitioner obtains limited assurance by obtaining sufficient appropriate review evidence about the measurement or evaluation of subject matter against criteria in order to express a conclusion about whether any material modification should be made to the subject matter in order for it be in accordance with (or based on) the criteria or to the assertion in order for it to be fairly stated. (Ref: par. .A8)
- c. **Agreed-upon procedures engagement.** An attestation engagement in which a practitioner performs specific procedures on subject matter or an assertion and reports the findings without providing an opinion or a conclusion on it. The parties to the engagement (*specified party*), as defined later in this paragraph, agree upon and are responsible for the sufficiency of the procedures for their purposes.

**Attestation risk.** In an examination or review engagement, the risk that the practitioner expresses an inappropriate opinion or conclusion, as applicable, when the subject matter or assertion is materially misstated. (Ref: par. .A9–A15)

**Criteria.** The benchmarks used to measure or evaluate the subject matter. (Ref: par. .A16)

**Documentation completion date.** The date on which the practitioner has assembled for retention a complete and final set of documentation in the engagement file.

**Engagement circumstances.** The broad context defining the particular engagement, which includes the terms of the engagement; whether it is an examination, review, or agreed-upon procedures engagement; the characteristics of the subject matter; the criteria; the information needs of the intended users; relevant characteristics of the responsible party and, if different, the engaging party and their environment; and other matters, for example, events,

transactions, conditions and practices, and relevant laws and regulations, that may have a significant effect on the engagement.

**Engagement documentation.** The record of procedures performed, relevant evidence obtained, and, in an examination or review engagement, conclusions reached by the practitioner, or in an agreed-upon procedures engagement, findings of the practitioner. (Terms such as *working papers* or *workpapers* are also sometimes used).

**Engagement partner.** The partner or other person in the firm who is responsible for the attestation engagement and its performance and for the practitioner's report that is issued on behalf of the firm and who, when required, has the appropriate authority from a professional, legal, or regulatory body. *Engagement partner*, *partner*, and *firm* refer to their governmental equivalents when relevant.

**Engagement team.** All partners and staff performing the engagement and any individuals engaged by the firm or a network firm who perform attestation procedures on the engagement. This excludes a practitioner's external specialist and engagement quality control reviewer engaged by the firm or a network firm. The term *engagement team* also excludes individuals within the client's internal audit function who provide direct assistance.

**Engaging party.** The party(ies) that engages the practitioner to perform the attestation engagement. (Ref: par. .A17)

**Evidence.** Information used by the practitioner in arriving at the opinion, conclusion, or findings on which the practitioner's report is based.

**Firm.** A form of organization permitted by law or regulation whose characteristics conform to resolutions of the Council of the AICPA and that is engaged in the practice of public accounting.

**Fraud.** An intentional act involving the use of deception that results in a misstatement in the subject matter or the assertion.

**General use.** Use of a practitioner's report that is not restricted to specified parties.

**Internal audit function.** A function of an entity that performs assurance and consulting activities designed to evaluate and improve the effectiveness of the entity's governance, risk management, and internal control processes.

**Misstatement.** A difference between the measurement or evaluation of the subject matter by the responsible party and the proper measurement or evaluation of the subject matter based on the criteria. Misstatements can be intentional or unintentional, qualitative or quantitative, and include omissions. In certain engagements, a misstatement may be referred to as a *deviation*, *exception*, or *instance of noncompliance*.

**Network firm.** A firm or other entity that belongs to a network, as defined in ET section 0.400, *Definitions*.

**Noncompliance with laws or regulations.** Acts of omission or commission by the entity, either intentional or unintentional, that are contrary to the prevailing laws or regulations. Such acts include transactions entered into by, or in the name of, the entity or on its behalf by those charged with governance, management, or

employees. *Noncompliance* does not include personal misconduct (unrelated to the subject matter) by those charged with governance, management, or employees of the entity.

**Other practitioner.** An independent practitioner who is not a member of the engagement team who performs work on information that will be used as evidence by the practitioner performing the attestation engagement. An other practitioner may be part of the practitioner's firm, a network firm, or another firm.

**Practitioner.** The person or persons conducting the attestation engagement, usually the engagement partner or other members of the engagement team, or, as applicable, the firm. When an AT-C section expressly intends that a requirement or responsibility be fulfilled by the engagement partner, the term *engagement partner*, rather than *practitioner*, is used. *Engagement partner* and *firm* are to be read as referring to their governmental equivalents when relevant.

**Practitioner's specialist.** An individual or organization possessing expertise in a field other than accounting or attestation, whose work in that field is used by the practitioner to assist the practitioner in obtaining evidence for the service being provided. A practitioner's specialist may be either a practitioner's internal specialist (who is a partner or staff, including temporary staff, of the practitioner's firm or a network firm) or a practitioner's external specialist. *Partner* and *firm* refer to their governmental equivalents when relevant.

**Professional judgment.** The application of relevant training, knowledge, and experience, within the context provided by attestation and ethical standards in making informed decisions about the courses of action that are appropriate in the circumstances of the attestation engagement.

**Professional skepticism.** An attitude that includes a questioning mind, being alert to conditions that may indicate possible misstatement due to fraud or error, and a critical assessment of evidence.

**Reasonable assurance.** A high, but not absolute, level of assurance.

**Report release date.** The date on which the practitioner grants the engaging party permission to use the practitioner's report.

**Responsible party.** The party(ies) responsible for the subject matter. If the nature of the subject matter is such that no such party exists, a party who has a reasonable basis for making a written assertion about the subject matter may be deemed to be the responsible party.

**Specified party.** The intended user(s) to whom use of the written practitioner's report is limited.

**Subject matter.** The phenomenon that is measured or evaluated by applying criteria.

.11 For the purposes of the attestation standards, references to appropriate party(ies) should be read hereafter as the responsible party or the engaging party, as appropriate. (Ref: par. .A18)

## Requirements

### Conduct of an Attestation Engagement in Accordance With the Attestation Standards

#### *Complying With AT-C Sections That Are Relevant to the Engagement*

.12 When performing an attestation engagement, the practitioner should comply with

- this section;
- sections 205, 210, or 215, as applicable; and
- any subject-matter AT-C section relevant to the engagement when the AT-C section is in effect and the circumstances addressed by the AT-C section exist.

.13 The practitioner should not represent compliance with this or any other AT-C section unless the practitioner has complied with the requirements of this section and all other AT-C sections relevant to the engagement.

.14 Reports issued by a practitioner in connection with services performed under other professional standards should be written to be clearly distinguishable from and not confused with reports issued under the attestation standards. (Ref: par. .A19–.A20)

#### *Text of an AT-C Section*

.15 The practitioner should have an understanding of the entire text of each AT-C section that is relevant to the engagement being performed, including its application and other explanatory material, to understand its objectives and apply its requirements properly. (Ref: par. .A21–.A26)

#### *Complying With Relevant Requirements*

.16 Subject to paragraph .20, the practitioner should comply with each requirement of the AT-C sections that is relevant to the engagement being performed, including any relevant subject-matter AT-C section, unless, in the circumstances of the engagement,

- a. the entire AT-C section is not relevant, or
- b. the requirement is not relevant because it is conditional, and the condition does not exist.

.17 When a practitioner undertakes an attestation engagement for the benefit of a government body or agency and agrees to follow specified government standards, guides, procedures, statutes, rules, and regulations, the practitioner should comply with those governmental requirements as well as the applicable AT-C sections. (Ref: par. .A27)

#### *Practitioner's Report Prescribed by Law or Regulation*

.18 If the practitioner is required by law or regulation to use a specific layout, form, or wording of the practitioner's report and the prescribed form of report is not acceptable or would cause a practitioner to make a statement that the practitioner has no basis to make, the practitioner should reword the prescribed form of report or attach an appropriately worded separate practitioner's report. (Ref: par. .A28)

### **Defining Professional Requirements in the Attestation Standards**

.19 The attestation standards use the following two categories of professional requirements, identified by specific terms, to describe the degree of responsibility it imposes on practitioners:

- *Unconditional requirements.* The practitioner must comply with an unconditional requirement in all cases in which such requirement is relevant. The attestation standards use the word *must* to indicate an unconditional requirement.
- *Presumptively mandatory requirements.* The practitioner must comply with a presumptively mandatory requirement in all cases in which such a requirement is relevant, except in rare circumstances discussed in paragraph .20. The attestation standards use the word *should* to indicate a presumptively mandatory requirement.

### **Departure From a Relevant Requirement**

.20 In rare circumstances, the practitioner may judge it necessary to depart from a relevant presumptively mandatory requirement. In such circumstances, the practitioner should perform alternative procedures to achieve the intent of that requirement. The need for the practitioner to depart from a relevant, presumptively mandatory requirement is expected to arise only when the requirement is for a specific procedure to be performed and, in the specific circumstances of the engagement, that procedure would be ineffective in achieving the intent of the requirement. (Ref: par. .A29)

### **Interpretive Publications**

.21 The practitioner should consider applicable interpretive publications in planning and performing the attestation engagement. (Ref: par. .A30)

### **Other Attestation Publications**

.22 In applying the attestation guidance included in an other attestation publication, the practitioner should, exercising professional judgment, assess the relevance and appropriateness of such guidance to the circumstances of the attestation engagement. (Ref: par. .A31–.A33)

## **Acceptance and Continuance**

.23 The engagement partner should be satisfied that appropriate procedures regarding the acceptance and continuance of client relationships and attestation engagements have been followed and should determine that conclusions reached in this regard are appropriate.

## **Preconditions for an Attestation Engagement**

.24 The practitioner must be independent when performing an attestation engagement in accordance with the attestation standards unless the practitioner is required by law or regulation to accept the engagement and report on the subject matter or assertion. (Ref: par. .A34)

.25 In order to establish that the preconditions for an attestation engagement are present, the practitioner should determine both of the following:

- a. The responsible party is a party other than the practitioner and takes responsibility for the subject matter. (Ref: par. .A35)
- b. The engagement exhibits all of the following characteristics:

- i. The subject matter is appropriate. (Ref: par. .A36–.A41)
- ii. The criteria to be applied in the preparation and evaluation of the subject matter are suitable and will be available to the intended users. (Ref: par. .A42–.A52)
- iii. The practitioner expects to be able to obtain the evidence needed to arrive at the practitioner's opinion, conclusion, or findings, including (Ref: par. .A53–.A54)
  - (1) access to all information of which the responsible party is aware that is relevant to the measurement, evaluation, or disclosure of the subject matter;
  - (2) access to additional information that the practitioner may request from the responsible party for the purpose of the engagement; and
  - (3) unrestricted access to persons within the appropriate party(ies) from whom the practitioner determines it necessary to obtain evidence.
- iv. The practitioner's opinion, conclusion, or findings, in the form appropriate to the engagement, is to be contained in a written practitioner's report.

**.26** If the preconditions in paragraphs .24–.25 are not present, the practitioner should discuss the matter with the engaging party to attempt to resolve the issue.

**.27** The practitioner should accept an attestation engagement only when the practitioner

- a. has no reason to believe that relevant ethical requirements, including independence, will not be satisfied;
- b. is satisfied that those persons who are to perform the engagement collectively have the appropriate competence and capabilities (see also paragraph .32);
- c. has determined that the engagement to be performed meets all the preconditions for an attestation engagement (see also paragraphs .24–.25); and
- d. has reached a common understanding with the engaging party of the terms of the engagement, including the practitioner's reporting responsibilities.

**.28** If it is discovered after the engagement has been accepted that one or more of the preconditions for an attestation engagement is not present, the practitioner should discuss the matter with the appropriate party(ies) and should determine

- a. whether the matter can be resolved;
- b. whether it is appropriate to continue with the engagement; and
- c. if the matter cannot be resolved but it is still appropriate to continue with the engagement, whether, and if so how, to communicate the matter in the practitioner's report.

## Acceptance of a Change in the Terms of the Engagement

**.29** The practitioner should not agree to a change in the terms of the engagement when no reasonable justification for doing so exists. If a change

in the terms of the engagement is made, the practitioner should not disregard evidence that was obtained prior to the change. (Ref: par. .A55–.A56)

**.30** If the practitioner concludes, based on the practitioner's professional judgment, that there is reasonable justification to change the terms of the engagement from the original level of service that the practitioner was engaged to perform to a lower level of service, for example, from an examination to a review, and if the practitioner complies with the AT-C sections applicable to the lower level of service, the practitioner should issue an appropriate practitioner's report on the lower level of service. The report should not include reference to (a) the original engagement, (b) any procedures that may have been performed, or (c) scope limitations that resulted in the changed engagement.

## Using the Work of an Other Practitioner

**.31** When the practitioner expects to use the work of an other practitioner, the practitioner should (Ref: par. .A57–.A58)

- a. obtain an understanding of whether the other practitioner understands and will comply with the ethical requirements that are relevant to the engagement and, in particular, is independent.
- b. obtain an understanding of the other practitioner's professional competence.
- c. communicate clearly with the other practitioner about the scope and timing of the other practitioner's work and findings.
- d. if assuming responsibility for the work of the other practitioner, be involved in the work of the other practitioner.
- e. evaluate whether the other practitioner's work is adequate for the practitioner's purposes.
- f. determine whether to make reference to the other practitioner in the practitioner's report.

## Quality Control

### *Assignment of the Engagement Team and the Practitioner's Specialists*

**.32** The engagement partner should be satisfied that

- a. the engagement team, and any practitioner's external specialists, collectively, have the appropriate competence, including knowledge of the subject matter, and capabilities to (Ref: par. .A59–.A60)
  - i. perform the engagement in accordance with professional standards and applicable legal and regulatory requirements and
  - ii. enable the issuance of a practitioner's report that is appropriate in the circumstances.
- b. to an extent that is sufficient to accept responsibility for the opinion, conclusion, or findings on the subject matter or assertion, the engagement team will be able to be involved in the work of
  - i. a practitioner's external specialist when the work of that specialist is to be used and (Ref: par. .A61)
  - ii. an other practitioner, when the work of that practitioner is to be used.

- c. those involved in the engagement have been informed of their responsibilities, including the objectives of the procedures they are to perform and matters that may affect the nature, timing, and extent of such procedures.
- d. engagement team members have been directed to bring to the engagement partner's attention significant questions raised during the engagement so that their significance may be assessed.

### ***Leadership Responsibilities for Quality in Attestation Engagements***

**.33** The engagement partner should take responsibility for the overall quality on each attestation engagement. This includes responsibility for the following:

- a. Appropriate procedures being performed regarding the acceptance and continuance of client relationships and engagements
- b. The engagement being planned and performed (including appropriate direction and supervision) to comply with professional standards and applicable legal and regulatory requirements
- c. Reviews being performed in accordance with the firm's review policies and procedures and reviewing the engagement documentation on or before the date of the practitioner's report (Ref: par. .A62)
- d. Appropriate engagement documentation being maintained to provide evidence of achievement of the practitioner's objectives and that the engagement was performed in accordance with the attestation standards and relevant legal and regulatory requirements
- e. Appropriate consultation being undertaken by the engagement team on difficult or contentious matters

### **Engagement Documentation**

**.34** The practitioner should prepare engagement documentation on a timely basis. (Ref: par. .A63)

**.35** The practitioner should assemble the engagement documentation in an engagement file and complete the administrative process of assembling the final engagement file no later than 60 days following the practitioner's report release date. (Ref: par. .A64)

**.36** After the documentation completion date, the practitioner should not delete or discard documentation of any nature before the end of its retention period.

**.37** If the practitioner finds it necessary to amend existing engagement documentation or add new engagement documentation after the documentation completion date, the practitioner should, regardless of the nature of the amendments or additions, document

- a. the specific reasons for making the amendments or additions and
- b. when, and by whom, they were made and reviewed.

**.38** Engagement documentation is the property of the practitioner, and some jurisdictions recognize this right of ownership in their statutes. The practitioner should adopt reasonable procedures to retain engagement documentation for a period of time sufficient to meet the needs of the practitioner and to satisfy any applicable legal or regulatory requirements for records retention.

**.39** Because engagement documentation often contains confidential information, the practitioner should adopt reasonable procedures to maintain the confidentiality of that information.

**.40** The practitioner also should adopt reasonable procedures to prevent unauthorized access to engagement documentation.

**.41** If, in rare circumstances, the practitioner judges it necessary to depart from a relevant, presumptively mandatory requirement, the practitioner must document the justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the intent of that requirement. (See paragraph .20.)

## Engagement Quality Control Review

**.42** For those engagements, if any, for which the firm has determined that an engagement quality control review is required (Ref: par. .A65)

- a. the engagement partner should take responsibility for discussing with the engagement quality control reviewer significant findings or issues arising during the engagement, including those identified during the engagement quality control review, and not release the practitioner's report until completion of the engagement quality control review and
- b. the engagement quality control reviewer should perform an objective evaluation of the significant judgments made by the engagement team and the conclusions reached in formulating the report. This evaluation should include the following:
  - i. Discussion of significant findings or issues with the engagement partner
  - ii. Reading the written subject matter or assertion and the proposed report
  - iii. Reading selected engagement documentation relating to the significant judgments the engagement team made and the related conclusions it reached
  - iv. Evaluation of the conclusions reached in formulating the report and consideration of whether the proposed report is appropriate

## Professional Skepticism and Professional Judgment

### *Professional Skepticism*

**.43** The practitioner should plan and perform an attestation engagement with professional skepticism. (Ref: par. .A66–.A68)

**.44** Unless the practitioner has reason to believe the contrary, the practitioner may accept records and documents as genuine. If conditions identified during the attestation engagement cause the practitioner to believe that a document may not be authentic or that terms in a document have been modified but not disclosed to the practitioner, the practitioner should investigate further.

### *Professional Judgment*

**.45** The practitioner should exercise professional judgment in planning and performing an attestation engagement. (Ref: par. .A69–.A74)

## Application and Other Explanatory Material

### Introduction (Ref: par. .01 and .03)

**.A1** The subject matter of an attestation engagement may take many forms, including the following:

- a. Historical or prospective performance or condition, for example, historical or prospective financial information, performance measurements, and backlog data
- b. Physical characteristics, for example, narrative descriptions or square footage of facilities
- c. Historical events, for example, the price of a market basket of goods on a certain date
- d. Analyses, for example, break-even analyses
- e. Systems and processes, for example, internal control
- f. Behavior, for example, corporate governance, compliance with laws and regulations, and human resource practices

The subject matter may be as of a point in time or for a period of time.

**.A2** The attestation standards do not apply to litigation services that involve pending or potential legal or regulatory proceedings before a trier of fact when the practitioner has not been engaged to issue, and does not issue, a practitioner's examination, review, or agreed-upon procedures report on subject matter or an assertion that is the responsibility of another party and any of the following circumstances exist:

- a. The service comprises being an expert witness.
- b. The service comprises being a trier of fact or acting on behalf of one.
- c. The practitioner's work under the rules of the proceedings is subject to detailed analysis and challenge by each party to the dispute.
- d. The practitioner is engaged by an attorney to do work that will be protected by the attorney's work product or attorney-client privilege, and such work is not intended to be used for other purposes.

**.A3** Because performance audits performed pursuant to *Government Auditing Standards* do not require a practitioner's examination, review, or agreed-upon procedures report as described in this section, this section does not apply to performance audits unless the practitioner engaged to conduct a performance audit is also engaged to conduct an AICPA attestation engagement or issues such an examination, review, or agreed-upon procedures report.

### Relationship of Attestation Standards to Quality Control Standards (Ref: par. .06)

**.A4** The nature and extent of a firm's quality control policies and procedures depend on factors such as its size, the degree of operating autonomy allowed its personnel and its practice offices, the nature of its practice, its organization, and appropriate cost-benefit considerations.

**.A5** Within the context of the firm's system of quality control, engagement teams have a responsibility to implement quality control procedures that are applicable to the attestation engagement and provide the firm with relevant

information to enable the functioning of that part of the firm's quality control relating to independence.

**.A6** Engagement teams are entitled to rely on the firm's system of quality control, unless the engagement partner determines that it is inappropriate to do so based on information provided by the firm or other parties.

## Definitions

### **Examination Engagement (Ref: par. .10)**

**.A7** The practitioner obtains the same level of assurance in an examination engagement as the practitioner does in a financial statement audit.

### **Review Engagement (Ref: par. .10)**

**.A8** The practitioner obtains the same level of assurance in a review engagement as the practitioner does in a review of financial statements.

### **Attestation Risk (Ref: par. .10)**

**.A9** Attestation risk does not refer to the practitioner's business risks, such as loss from litigation, adverse publicity, or other events arising in connection with the subject matter or assertion reported on.

**.A10** In general, attestation risk can be represented by the following components, although not all of these components will necessarily be present or significant for all engagements:

- a. Risks that the practitioner does not directly influence, which consist of
  - i. the susceptibility of the subject matter to a material misstatement before consideration of any related controls (inherent risk) and
  - ii. the risk that a material misstatement that could occur in the subject matter will not be prevented, or detected and corrected, on a timely basis by the appropriate party(ies)'s internal control (control risk)
- b. Risk that the practitioner does directly influence, which consists of the risk that the procedures to be performed by the practitioner will not detect a material misstatement (detection risk)

**.A11** The degree to which each of these components of attestation risk is relevant to the engagement is affected by the engagement circumstances, in particular

- the nature of the subject matter or assertion. (For example, the concept of control risk may be more useful when the subject matter or assertion relates to the preparation of information about an entity's performance than when it relates to information about the existence of a physical condition.)
- the type of engagement being performed. (For example, in a review engagement, the practitioner may often decide to obtain evidence by means other than tests of controls, in which case, consideration of control risk may be less relevant than in an examination engagement on the same subject matter or assertion.)

**.A12** The consideration of risks is a matter of professional judgment, rather than a matter capable of precise measurement.

**.A13** In an examination engagement, the practitioner reduces attestation risk to an acceptably low level in the circumstances of the engagement as the basis for the practitioner's opinion. Reducing attestation risk to zero is not contemplated in an examination engagement and, therefore, reasonable assurance is less than absolute assurance as a result of factors such as the following:

- The use of selective testing
- The inherent limitations of internal control
- The fact that much of the evidence available to the practitioner is persuasive, rather than conclusive
- The use of professional judgment in gathering and evaluating evidence and forming conclusions based on that evidence
- In some cases, the characteristics of the subject matter when evaluated or measured against the criteria

**.A14** In a review engagement, attestation risk is greater than it is in an examination engagement. Because the practitioner obtains limited assurance in a review engagement, the types of procedures performed are less extensive than they are in an examination engagement and generally are limited to inquiries and analytical procedures.

**.A15** Attestation risk is not applicable to an agreed-upon procedures engagement because in such engagements, the practitioner performs specific procedures (the design of which is the responsibility of the specified parties) on subject matter or an assertion and reports the findings without providing an opinion or conclusion.

### ***Criteria (Ref: par. .10)***

**.A16** Suitable criteria are required for reasonably consistent measurement or evaluation of subject matter within the context of professional judgment. Without the frame of reference provided by suitable criteria, any conclusion is open to individual interpretation and misunderstanding. The suitability of criteria is context-sensitive, that is, it is determined in the context of the engagement circumstances. Even for the same subject matter, there can be different criteria, which will yield a different measurement or evaluation. For example, one responsible party might select the number of customer complaints resolved to the acknowledged satisfaction of the customer for the subject matter of customer satisfaction; another responsible party might select the number of repeat purchases in the three months following the initial purchase. The suitability of criteria is not affected by the level of assurance, that is, if criteria are unsuitable for an examination engagement, they are also unsuitable for a review engagement and vice versa.

### ***Engaging Party (Ref: par. .10)***

**.A17** The engaging party, depending on the circumstances, may be management or those charged with governance of the responsible party, a governmental body or agency, the intended users, or another third party.

### ***Appropriate Party(ies) (Ref: par. .11)***

**.A18** Management and governance structures vary by entity, reflecting influences such as size and ownership characteristics. Such diversity means that it is not possible for the attestation standards to specify for all engagements the person(s) with whom the practitioner is to interact regarding particular matters. For example, an entity may be a segment of an organization and not

a separate legal entity. In such cases, identifying the appropriate management personnel or those charged with governance with whom to communicate may require the exercise of professional judgment.

## Conduct of an Attestation Engagement in Accordance With the Attestation Standards

### ***Complying With AT-C Sections That Are Relevant to the Engagement (Ref: par. .14)***

**.A19** A practitioner's report that merely excludes the phrase "was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants" but is otherwise similar to a practitioner's examination, review, or agreed-upon procedures attestation report is an example of a practitioner's report that is not clearly distinguishable from, and could be confused with, a report issued under the attestation standards.

**.A20** Paragraph .14 does not prohibit combining reports issued by a practitioner under the attestation standards with reports issued under other professional standards.

### ***Text of an AT-C Section (Ref: par. .15)***

**.A21** The AT-C sections contain the objectives of the practitioner and requirements designed to enable the practitioner to meet those objectives. In addition, they contain related guidance in the form of application and other explanatory material, introductory material that provides context relevant to a proper understanding of the section, and definitions.

**.A22** Introductory material may include, as needed, such matters as an explanation of the following:

- The purpose and scope of the AT-C section, including how the AT-C section relates to other AT-C sections
- The subject matter of the AT-C section
- The respective responsibilities of the practitioner and others regarding the subject matter of the AT-C section
- The context in which the AT-C section is set

**.A23** The application and other explanatory material provides further explanation of the requirements of an AT-C section and guidance for carrying them out. In particular, it may

- a. explain more precisely what a requirement means or is intended to cover and
- b. include examples of procedures that may be appropriate in the circumstances.

Although such guidance does not, in itself, impose a requirement, it may explain the proper application of the requirements of an AT-C section. The application and other explanatory material may also provide background information on matters addressed in an AT-C section. They do not, however, limit or reduce the responsibility of the practitioner to apply and comply with the requirements in applicable AT-C sections.

**.A24** The practitioner is required by paragraph .15 to understand the application and other explanatory material. How the practitioner applies the guidance in the engagement depends on the exercise of professional judgment

in the circumstances consistent with the objective of the section. The words *may*, *might*, and *could* are used to describe these actions and procedures.

**.A25** An AT-C section may include, in a separate section under the heading "Definition(s)," a description of the meanings attributed to certain terms for purposes of the AT-C section. These are provided to assist in the consistent application and interpretation of the AT-C section and are not intended to override definitions that may be established for other purposes, whether in law, regulation, or otherwise. Unless otherwise indicated, those terms will carry the same meanings in all AT-C sections.

**.A26** Appendixes form part of the application and other explanatory material. The purpose and intended use of an appendix are explained in the body of the related AT-C section or within the title and introduction of the appendix itself.

### ***Complying With Relevant Requirements (Ref: par. .17)***

**.A27** In certain attestation engagements, the practitioner also may be required to comply with other requirements in addition to the attestation standards. The attestation standards do not override law or regulation that governs the attestation engagement. In the event that such law or regulation differs from attestation standards, an attestation engagement conducted only in accordance with law or regulation will not necessarily comply with the attestation standards.

### ***Practitioner's Report Prescribed by Law or Regulation (Ref: par. .18)***

**.A28** Some report forms can be made acceptable by inserting additional wording to include the elements required by sections 205, 210, and 215.<sup>6</sup> Some report forms required by law or regulation can be made acceptable only by complete revision because the prescribed language of the practitioner's report calls for statements by the practitioner that are not consistent with the practitioner's function or responsibility, for example, a report form that requests the practitioner to "certify" the subject matter.

### ***Departure From a Relevant Requirement (Ref: par. .20)***

**.A29** Paragraph .41 prescribes documentation requirements when the circumstances described in paragraph .20 occur.

### ***Interpretive Publications (Ref: par. .21)***

**.A30** *Interpretive publications* are not attestation standards. Interpretive publications are recommendations on the application of the attestation standards in specific circumstances, including engagements for entities in specialized industries. An interpretive publication is issued under the authority of the relevant senior technical committee after all members of the committee have been provided an opportunity to consider and comment on whether the proposed interpretive publication is consistent with the attestation standards. Examples of interpretive publications are interpretations of the attestation standards, exhibits to the AT-C sections, and attestation guidance included in AICPA guides and attestation Statements of Position (SOPs). Interpretations of the AT-C sections and exhibits are included within the AT-C sections. AICPA guides and attestation SOPs are listed in AT-C appendix A, "AICPA Guides and Statements of Position."

---

<sup>6</sup> Paragraphs .63–.66 of section 205, paragraphs .46–.49 of section 210, and paragraph .35 of section 215.

**Other Attestation Publications (Ref: par. .22)**

**.A31** *Other attestation publications* are publications other than interpretive publications. These include AICPA attestation publications not defined as interpretive publications; attestation articles in the *Journal of Accountancy* and other professional journals; continuing professional education programs and other instruction materials, textbooks, guidebooks, attestation programs, and checklists; and other attestation publications from state CPA societies, other organizations, and individuals. Other attestation publications have no authoritative status; however, they may help the practitioner understand and apply the attestation standards. The practitioner is not expected to be aware of the full body of other attestation publications.

**.A32** Although the practitioner determines the relevance of these publications in accordance with paragraph .22, the practitioner may presume that other attestation publications published by the AICPA that have been reviewed by the AICPA Audit and Attest Standards staff are appropriate. These other attestation publications are listed in AT-C appendix B, "Other Attestation Publications."

**.A33** In determining whether an other attestation publication that has not been reviewed by the AICPA Audit and Attest Standards staff is appropriate to the circumstances of the attestation engagement, the practitioner may wish to consider the degree to which the publication is recognized as being helpful in understanding and applying the attestation standards and the degree to which the publisher or author is recognized as an authority in attestation matters. [Revised, February 2017, to better reflect the AICPA Council Resolution designating the Public Company Accounting Oversight Board to promulgate technical standards.]

**Preconditions for an Attestation Engagement  
(Ref: par. .24-.25b(ii))**

**.A34** The "Independence Standards for Engagements Performed in Accordance With Statements on Standards for Attestation Engagements" interpretation (ET sec. 1.297) establishes special requirements for independence for services provided under the attestation standards. In addition, the "Conceptual Framework Approach" interpretation (ET sec. 1.210.010) discusses threats to independence not specifically detailed elsewhere, for example, when the practitioner has an interest in the subject matter.

**.A35** The responsible party may acknowledge its responsibility for the subject matter or for the written assertion as it relates to the objective of the engagement in a number of ways, for example, in an engagement letter, a representation letter, or the presentation of the subject matter, including the notes thereto, or the written assertion. Examples of other evidence of the responsible party's responsibility for the subject matter include reference to legislation, a regulation, or a contract.

**Appropriateness of Subject Matter (Ref: par. .25b(i))**

**.A36** An element of the appropriateness of subject matter is the existence of a reasonable basis for measuring or evaluating the subject matter. The responsible party in an attestation engagement is responsible for having a reasonable basis for measuring or evaluating the subject matter. What constitutes a reasonable basis will depend on the nature of the subject matter and other engagement circumstances. In some cases, a formal process with extensive internal control may be needed to provide the responsible party with a reasonable basis for concluding that the measurement or evaluation of the subject

matter is free from material misstatement. The fact that the practitioner will report on the subject matter or assertion is not a substitute for the responsible party's own processes to have a reasonable basis for measuring or evaluating the subject matter or assertion.

**.A37** An appropriate subject matter

- a. is identifiable and capable of consistent measurement or evaluation against the criteria and
- b. can be subjected to procedures for obtaining sufficient appropriate evidence to support an opinion, conclusion, or findings, as appropriate.

**.A38** If the subject matter is not appropriate for an examination engagement, it also is not appropriate for a review engagement.

**.A39** Different subject matters have different characteristics, including the degree to which information about them is qualitative versus quantitative, objective versus subjective, historical versus prospective, and relates to a point in time or covers a period. Such characteristics affect the following:

- a. Precision with which the subject matter can be measured or evaluated against criteria
- b. The persuasiveness of available evidence

**.A40** Identifying such characteristics and considering their effects assists the practitioner when assessing the appropriateness of the subject matter and also in determining the content of the practitioner's report.

**.A41** In some cases, the attestation engagement may relate to only one part of a broader subject matter. For example, the practitioner may be engaged to examine one aspect of an entity's contribution to sustainable development, such as the programs run by the entity that have positive environmental outcomes, and may be aware that the practitioner has not been engaged to examine more significant programs with less favorable outcomes. In such cases, in determining whether the engagement exhibits the characteristic of having an appropriate subject matter, it may be appropriate for the practitioner to consider whether information about the aspect that the practitioner is asked to examine is likely to meet the information needs of intended users.

### ***Suitable and Available Criteria (Ref: par. .25b)(ii)***

**.A42** Suitable criteria exhibit all of the following characteristics:

- *Relevance.* Criteria are relevant to the subject matter.
- *Objectivity.* Criteria are free from bias.
- *Measurability.* Criteria permit reasonably consistent measurements, qualitative or quantitative, of subject matter.
- *Completeness.* Criteria are complete when subject matter prepared in accordance with them does not omit relevant factors that could reasonably be expected to affect decisions of the intended users made on the basis of that subject matter.

The relative importance of each characteristic to a particular engagement is a matter of professional judgment.

**.A43** Criteria can be developed in a variety of ways, for example, they may be

- embodied in laws or regulations.
- issued by authorized or recognized bodies of experts that follow a transparent due process.

- developed collectively by a group that does not follow a transparent due process.
- published in scholarly journals or books.
- developed for sale on a proprietary basis.
- specifically designed for the purpose of measuring, evaluating, or disclosing the subject matter or assertion in the particular circumstances of the engagement.

How criteria are developed may affect the work that the practitioner carries out to assess their suitability.

**.A44** Criteria that are established or developed by groups composed of experts that follow due process procedures, including exposure of the proposed criteria for public comment, are ordinarily considered suitable. Criteria promulgated by a body designated by the Council of the AICPA under the AICPA Code of Professional Conduct are, by definition, considered to be suitable.

**.A45** In some cases, laws or regulations prescribe the criteria to be used for the engagement. In the absence of indications to the contrary, such criteria are presumed to be suitable.

**.A46** Criteria may be established or developed by the engaging party, the responsible party, industry associations, or other groups that do not follow due process procedures or do not as clearly represent the public interest. The practitioner's determination of whether such criteria are suitable is based on the characteristics described in paragraph .A42.

**.A47** Regardless of who establishes or develops the criteria, the responsible party or the engaging party is responsible for selecting the criteria, and the engaging party is responsible for determining that such criteria are appropriate for its purposes.

**.A48** Some criteria may be suitable for only a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria. For example, criteria set forth in a lease agreement for override payments may be suitable only for reporting to the parties to the agreement because of the likelihood that such criteria would be misunderstood or misinterpreted by parties other than those who have specifically agreed to the criteria. Such criteria can be agreed upon directly by the parties or through a designated representative.

**.A49** Even when established criteria exist for a subject matter, specific users may agree to other criteria for their specific purposes. For example, various frameworks can be used as established criteria for evaluating the effectiveness of internal control. Specific users may, however, develop a more detailed set of criteria that meet their specific information needs.

**.A50** If criteria are specifically designed for the purpose of measuring, evaluating, or disclosing the subject matter or assertion in the particular circumstances of the engagement, they are not suitable if they result in subject matter, an assertion, or a practitioner's report that is misleading to the intended users. It is desirable for the intended users or the engaging party to acknowledge that specifically developed criteria are suitable for the intended users' purposes. The absence of such an acknowledgement may affect what is to be done to assess the suitability of the criteria and the information provided about the criteria in the report.

**.A51** Criteria need to be available to the intended users to allow them to understand how the subject matter has been measured or evaluated. Criteria are made available to the intended users in one or more of the following ways:

- a. Publicly
- b. Through inclusion in a clear manner in the presentation of the subject matter
- c. Through inclusion in a clear manner in the practitioner's report
- d. By general understanding, for example, the criterion for measuring time in hours and minutes
- e. Available only to specified parties, for example, terms of a contract or criteria issued by an industry association that are available only to those in the industry

**.A52** When criteria are available only to specified parties, sections 205 and 210 require a statement restricting the use of the practitioner's report.<sup>7</sup>

### **Access to Evidence (Ref: par. .25b(iii))**

**.A53** The nature of the relationship between the responsible party and, if different, the engaging party, may affect the practitioner's ability to access records, documentation, and other information the practitioner may require as evidence to arrive at the practitioner's opinion, conclusion, or findings. Therefore, the nature of that relationship may be a relevant consideration when determining whether or not to accept the engagement.

**.A54** The quantity or quality of available evidence is affected by both of the following:

- a. The characteristics of the subject matter, for example, less objective evidence might be expected when the subject matter is future-oriented, rather than historical
- b. Other circumstances, such as when evidence that could reasonably be expected to exist is not available, for example, because of the timing of the practitioner's appointment, an entity's document retention policy, inadequate information systems, or a restriction imposed by the responsible party

### **Acceptance of a Change in the Terms of the Engagement (Ref: par. .29)**

**.A55** A change in circumstances that affects the requirements of the responsible party or, if different, the engaging party, or a misunderstanding concerning the nature of the engagement originally requested, may be considered reasonable justification for requesting a change in the engagement, for example, from an attestation engagement to a consulting engagement or from an examination engagement to a review engagement. A change may not be considered reasonable if it appears that the change relates to information that is incorrect, incomplete, or otherwise unsatisfactory. An example of such a circumstance is a request to change the engagement from an examination to a review to avoid a modified opinion or a disclaimer of opinion in a situation in which the practitioner is unable to obtain sufficient appropriate evidence regarding the subject matter.

**.A56** If the practitioner and the engaging party are unable to agree to a change in the terms of the engagement and the practitioner is not permitted to continue the original engagement, the practitioner may withdraw from the engagement when possible under applicable laws and regulations.

---

<sup>7</sup> Paragraph .64b of section 205 and paragraph .47b of section 210.

## Using the Work of an Other Practitioner (Ref: par. .31)

**.A57** The practitioner is responsible for (a) the direction, supervision, and performance of the engagement in compliance with professional standards; applicable regulatory and legal requirements; and the firm's policies and procedures and (b) determining whether the practitioner's report that is issued is appropriate in the circumstances. The practitioner may, however, use the work of other practitioners to obtain sufficient appropriate evidence to express an opinion, conclusion, or findings on the subject matter or assertion.

**.A58** The engagement partner may decide to assume responsibility for the work of the other practitioner or to make reference to the other practitioner in the practitioner's report. Regardless of whether the engagement partner decides to assume responsibility or make reference, the practitioner is required to communicate clearly with the other practitioner and evaluate whether the other practitioner's work is adequate for the purposes of the engagement. The nature, timing, and extent of this involvement are affected by the practitioner's understanding of the other practitioner, such as previous experience with, or knowledge of, the other practitioner and the degree to which the engagement team and the other practitioner are subject to common quality control policies and procedures.

## Quality Control

### *Assignment of the Engagement Team and the Practitioner's Specialists (Ref: par. .32a–b[i])*

**.A59** The practitioner may obtain knowledge about the specific subject matter to which the procedures are to be applied through formal or continuing education, practical experience, or consultation with others.

**.A60** When considering the appropriate competence and capabilities expected of those involved in the engagement, the engagement partner may take into consideration such matters as their

- understanding of, and practical experience with, engagements of a similar nature and complexity through appropriate training and participation.
- understanding of professional standards and applicable legal and regulatory requirements.
- technical expertise, including expertise with relevant IT and specialized areas relevant to the subject matter.
- knowledge of relevant industries in which the entity operates.
- ability to apply professional judgment.
- understanding of the firm's quality control policies and procedures.

**.A61** Some of the attestation work may be performed by a multidisciplinary team that includes one or more practitioner's specialists. For example, in an examination engagement, a practitioner's specialist may be needed to assist the practitioner in obtaining an understanding of the subject matter and other engagement circumstances or in assessing or responding to the risk of material misstatement.

### ***Leadership Responsibilities for Quality in Attestation Engagements*** **(Ref: par. .33c)**

**.A62** Under QC section 10, the firm's review responsibility policies and procedures are determined on the basis that suitably experienced team members review the work of other team members. The engagement partner may delegate part of the review responsibility to other members of the engagement team, in accordance with the firm's system of quality control.

### **Engagement Documentation (Ref: par. .34-.35)**

**.A63** Documentation prepared at the time work is performed or shortly thereafter is likely to be more accurate than documentation prepared at a much later time.

**.A64** The completion of the assembly of the final engagement file is an administrative process that does not involve the performance of new procedures or the drawing of new conclusions. Changes may, however, be made to the documentation during the final assembly process if they are administrative in nature. Examples of such changes include the following:

- Deleting or discarding superseded documentation
- Sorting, collating, and cross-referencing working papers
- Signing off on completion checklists relating to the file assembly process
- Documenting evidence that the practitioner has obtained, discussed, and agreed with the relevant members of the engagement team before the date of the practitioner's report
- Adding information received after the date of the report, for example, an original confirmation that was previously faxed

### **Engagement Quality Control Review (Ref: par. .42)**

**.A65** Other matters that may be considered in an engagement quality control review include the following:

- a. The engagement team's evaluation of the firm's independence in relation to the engagement
- b. Whether appropriate consultation has taken place on matters involving differences of opinion or other difficult or contentious matters and the conclusions arising from those consultations
- c. Whether engagement documentation selected for review reflects the work performed in relation to the significant judgments and supports the conclusions reached

### **Professional Skepticism and Professional Judgment**

#### ***Professional Skepticism (Ref: par. .43)***

**.A66** Professional skepticism includes being alert to matters such as the following:

- Evidence that contradicts other evidence obtained
- Information that brings into question the reliability of documents and responses to inquiries to be used as evidence

- Circumstances that may indicate fraud
- Circumstances that suggest the need for procedures in addition to those required by relevant AT-C sections

**.A67** Professional skepticism is necessary to the critical assessment of evidence. This includes questioning contradictory evidence and the reliability of documents and responses to inquiries and other information obtained from the appropriate party. It also includes consideration of the sufficiency and appropriateness of evidence obtained in light of the circumstances.

**.A68** The practitioner neither assumes that the appropriate party is dishonest nor assumes unquestioned honesty. The practitioner cannot be expected to disregard past experience of the honesty and integrity of those who provide evidence. Nevertheless, a belief that those who provide evidence are honest and have integrity does not relieve the practitioner of the need to maintain professional skepticism or allow the practitioner to be satisfied with less than sufficient appropriate evidence for the service being provided.

### ***Professional Judgment (Ref: par. .45)***

**.A69** Professional judgment is essential to the proper conduct of an attestation engagement. This is because interpretation of relevant ethical requirements and relevant AT-C sections and the informed decisions required throughout the engagement cannot be made without the application of relevant knowledge and experience to the facts and circumstances.

**.A70** For examination and review engagements, professional judgment is necessary regarding decisions about the following matters:

- Materiality and attestation risk
- The nature, timing, and extent of procedures used to meet the requirements of relevant AT-C sections and gather evidence
- Evaluating whether sufficient appropriate evidence for the service being provided has been obtained and whether more needs to be done to achieve the objectives of this section, section 205, or section 210, and any relevant subject-matter-specific AT-C sections and thereby the overall objectives of the practitioner
- The evaluation of the responsible party's judgments in applying the criteria
- The drawing of conclusions based on the evidence obtained, for example, assessing the reasonableness of the evaluation or measurement of subject matter or an assertion

**.A71** The distinguishing feature of professional judgment expected of a practitioner is that such judgment is exercised based on competencies necessary to achieve reasonable judgments developed by the practitioner through relevant training, knowledge, and experience.

**.A72** The exercise of professional judgment in any particular case is based on the facts and circumstances that are known by the practitioner. Consultation on difficult or contentious matters during the course of the engagement, both within the engagement team and between the engagement team and others at the appropriate level within or outside the firm, assist the practitioner in making informed and reasonable judgments.

**.A73** Professional judgment can be evaluated based on whether the judgment reached reflects a competent application of the attestation standards and measurement or evaluation principles and is appropriate in light of, and

consistent with, the facts and circumstances that were known to the practitioner up to the date of the practitioner's report.

**.A74** The requirement to exercise professional judgment applies throughout the engagement. Professional judgment also needs to be appropriately documented as required by sections 205 and 210.

---

## AT-C Section 9105

# Concepts Common to All Attestation Engagements: Attestation Interpretations of Section 105

## 1. Responding to Requests for Reports on Matters Relating to Solvency

**.01 Question**—Lenders, as a requisite to the closing of certain secured financings in connection with leveraged buyouts, recapitalizations, and certain other financial transactions, have sometimes requested written assurance from an accountant regarding the prospective borrower's solvency and related matters.<sup>1</sup> The lender is concerned that such financings not be considered to include a fraudulent conveyance or transfer under the United States Bankruptcy Code<sup>2</sup> or the relevant state fraudulent conveyance or transfer statute.<sup>3</sup> If the financing is subsequently determined to have included a fraudulent conveyance or transfer, repayment obligations and security interests may be set aside or subordinated to the claims of other creditors.

**.02** May a practitioner provide assurance concerning *matters relating to solvency*, as hereinafter defined?

**.03 Interpretation**—No. For reasons set forth subsequently, a practitioner should not provide any form of assurance, through an examination, review, or agreed-upon procedures engagement, that an entity

---

<sup>1</sup> Although this interpretation describes requests from secured lenders and summarizes the potential effects of fraudulent conveyance or transfer laws upon such lenders, the interpretation is not limited to requests from lenders. All requests for assurance on matters relating to solvency are governed by this interpretation.

<sup>2</sup> Chapter 5 of the United States Bankruptcy Code addresses *fraudulent transfers and obligations* and states the following:

(a)(1)The trustee may avoid any transfer of an interest of the debtor in property or any obligation incurred by the debtor, that was made or incurred on or within two years before the date of the filing of the petition, if the debtor voluntarily or involuntarily—

(A) made such transfer or incurred such obligation with actual intent to hinder, delay, or defraud any entity to which the debtor was or became, on or after the date that such transfer occurred or such obligation was incurred, indebted; or

(B)(i) received less than a reasonably equivalent value in exchange for such transfer or obligation; and

(ii)(I) was insolvent on the date that such transfer was made or such obligation was incurred, or became insolvent as a result of such transfer or obligation;

(II) was engaged in business or a transaction, or was about to engage in business or a transaction, for which any property remaining with the debtor was an unreasonably small capital;

(III) intended to incur, or believed that the debtor would incur, debts that would be beyond the debtor's ability to pay as such debts matured; or

(IV) made such transfer to or for the benefit of an insider, or incurred such obligation to or for the benefit of an insider, under an employment contract and not in the ordinary course of business.

<sup>3</sup> State fraudulent conveyance or transfer statutes such as the Uniform Fraudulent Conveyance Act and the Uniform Fraudulent Transfer Act reflect substantially similar provisions. These state laws may be employed absent a declaration of bankruptcy or by a bankruptcy trustee under Section 544(1) of the United States Bankruptcy Code. Although the statute of limitations varies from state to state, in some states, financing transactions may be vulnerable to challenge for up to six years from closing.

- is not insolvent at the time the debt is incurred or would not be rendered insolvent thereby.
- does not have unreasonably small capital.
- has the ability to pay its debts as they mature.

In the context of particular transactions, other terms are sometimes used or defined by the parties as equivalents of or substitutes for the preceding terms (for example, *fair salable value of assets exceeds liabilities*). These terms, and those matters listed previously, are hereinafter referred to as *matters relating to solvency*. The prohibition extends to providing assurance concerning all such terms.

**.04** Section 105, *Concepts Common to All Attestation Engagements*, indicates that one of the preconditions for performing an attestation engagement is that the criteria to be applied in the preparation and evaluation of the subject matter are suitable and will be available to the intended users.<sup>4</sup> Section 105 also indicates that suitable criteria exhibit all the following characteristics:<sup>5</sup>

- *Relevance*. Criteria are relevant to the subject matter.
- *Objectivity*. Criteria are free from bias.
- *Measurability*. Criteria permit reasonably consistent measurements, qualitative or quantitative, of subject matter.
- *Completeness*. Criteria are complete when subject matter prepared in accordance with them does not omit relevant factors that could reasonably be expected to affect decisions of the intended users made on the basis of the subject matter.

**.05** The matters relating to solvency mentioned in paragraph .03 of this interpretation are subject to legal interpretation under, and varying legal definition in, the United States Bankruptcy Code and various state fraudulent conveyance and transfer statutes. Because these matters are not clearly defined in an accounting sense and, therefore, are subject to varying interpretations, they do not provide the practitioner with suitable criteria required to evaluate the subject matter or an assertion. In addition, lenders are concerned with legal issues on matters relating to solvency, and the practitioner is generally unable to evaluate or provide assurance on these matters of legal interpretation. Therefore, practitioners are precluded from giving any form of assurance on matters relating to solvency or any financial presentation of matters relating to solvency.

**.06** Under existing AICPA standards, the practitioner may provide a client with various professional services that may be useful to the client in connection with a financing. These services include the following:

- Audit of historical financial statements
- Review of historical financial information (a review in accordance with AU-C section 930, *Interim Financial Information*, of interim financial information or in accordance with AR-C section 90, *Review of Financial Statements*)
- Examination or review of pro forma financial information (section 310, *Reporting on Pro Forma Financial Information*).

---

<sup>4</sup> Paragraph .25b(ii) of section 105, *Concepts Common to All Attestation Engagements*.

<sup>5</sup> Paragraph .A42 of section 105.

- Examination of prospective financial information in accordance with section 305, *Prospective Financial Information*, or compilation of prospective financial information in accordance with AR-C section 80, *Compilation Engagements*.<sup>6</sup>

**.07** Although a practitioner may not provide an agreed-upon procedures report under section 215, *Agreed-Upon Procedures Engagements*, that addresses matters related to solvency, a practitioner may provide an agreed-upon procedures report that addresses other subject matter that can be useful to a client or lender in connection with a financing. For example, the practitioner may perform an agreed-upon procedures engagement in which the client and lender specify the procedures to be applied to various financial presentations, such as historical financial information, pro forma financial information, and prospective financial information, which can be useful to a client or lender in connection with a financing.

**.08** The practitioner should be aware that certain of the services described in paragraph .06 require that the practitioner have an appropriate level of knowledge of the entity's accounting and financial reporting practices and its internal control. This has ordinarily been obtained by the practitioner auditing historical financial statements of the entity for the most recent annual period or by otherwise obtaining an equivalent knowledge base. When considering acceptance of an engagement relating to a financing, the practitioner should consider whether he or she can perform these services without an equivalent knowledge base.

**.09** Section 215 indicates that the practitioner's agreed-upon procedures report should not express an opinion or conclusion about whether the subject matter is in accordance with (or based on) the criteria or whether the assertion is fairly stated.<sup>7</sup> Accordingly, a report on agreed-upon procedures should not express an opinion or conclusion on matters relating to solvency or any financial presentation of matters relating to solvency (for example, fair salable value of assets less liabilities or fair salable value of assets less liabilities, contingent liabilities, and other commitments). A practitioner's report on the results of applying agreed-upon procedures should contain the report elements set forth in section 215 (or section 305 if applying agreed-upon procedures to prospective financial information).<sup>8</sup> The practitioner's report on the results of applying agreed-upon procedures should state that

- the service has been requested in connection with a financing (no reference should be made to any solvency provisions in the financing agreement).
- no representations are provided regarding questions of legal interpretation.
- no assurance is provided concerning the borrower's
  - solvency,
  - adequacy of capital, or
  - ability to pay its debts.

---

<sup>6</sup> Paragraph .01 of AR-C section 80, *Compilation Engagements*. Section 305, *Prospective Financial Information*, does not address compilations of prospective financial information—a service that is included in AT section 301, *Financial Forecasts and Projections*. Paragraph .01 of AR-C section 80 states that AR-C section 80 (which is applicable to compilations of historical financial statements) also may be applied, adapted as necessary in the circumstances, to other historical or prospective financial information.

<sup>7</sup> Paragraph .25 of section 215, *Agreed-Upon Procedures Engagements*.

<sup>8</sup> Paragraph .35 of section 215 and paragraph .39 of section 305.

- the procedures should not be taken to supplant any additional inquiries and procedures that the lender should undertake in its consideration of the proposed financing.
- where applicable, an audit of recent historical financial statements has previously been performed and that no audit of any historical financial statements for a subsequent period has been performed. In addition, if any services have been performed pursuant to paragraph .06, they may be referred to.

**.10** The financing agreement ordinarily specifies the date, often referred to as the *cut-off date*, to which the report is to relate (for example, a date three business days before the date of the report). The report should state that the inquiries and other procedures carried out in connection with the report did not cover the period from the cut-off date to the date of the report.

**.11** The practitioner might consider furnishing the client with a draft of the agreed-upon procedures report. The draft report should deal with all matters expected to be covered in terms expected to be used in the final report. The draft report should be identified as a draft in order to avoid giving the impression that the procedures described therein have been performed. This practice of furnishing a draft report at an early point permits the practitioner to make clear to the client and lender what they may expect the accountant to furnish and gives them an opportunity to change the financing agreement or the agreed-upon procedures if they so desire.

[Issue Date: May 1988; Amended: February 1993; Revised: January 2001; November 2006; Revised: December 2012; Revised: April 2016, effective for practitioners' reports dated on or after May 1, 2017.]

## 2. Applicability of Attestation Standards to Litigation Services

**.12 Question**—Does Interpretation No. 1, "Responding to Requests for Reports on Matters Relating to Solvency," of section 105 prohibit a practitioner from providing expert testimony, as described in section 105, before a trier of fact on matters relating to solvency?<sup>9</sup>

**.13 Interpretation**—No. Matters relating to solvency mentioned in paragraph .03 of Interpretation No. 1 are subject to legal interpretation under, and varying legal definition in, the United States Bankruptcy Code and various state fraudulent conveyance and transfer statutes. Because these matters are not clearly defined in an accounting sense and, therefore, subject to varying interpretations, they do not provide the practitioner with the suitable criteria required to evaluate the assertion. Thus, Interpretation No. 1 prohibits a practitioner from providing any form of assurance in reporting upon examination, review, or agreed-upon procedures engagements about matters relating to solvency (as defined in paragraph .03 of Interpretation No. 1).

**.14** However, a practitioner who is involved with pending or potential formal legal or regulatory proceedings before a trier of fact in connection with the resolution of a dispute between two or more parties may provide an expert opinion or consulting advice about matters relating to solvency. The prohibition in Interpretation No. 1 does not apply in such engagements because as part of the legal or regulatory proceedings, each party to the dispute has the opportunity to analyze and challenge the legal definition and interpretation of the matters relating to solvency and the criteria the practitioner uses to evaluate

<sup>9</sup> Paragraph .A2 of section 105.

matters related to solvency. Such services are not intended to be used by others who do not have the opportunity to analyze and challenge such definitions and interpretations.

[Issue Date: July 1990; Revised: January 2001; Revised: April 2016, effective for practitioners' reports dated on or after May 1, 2017.]

### 3. Providing Access to or Copies of Engagement Documentation to a Regulator<sup>10, 11</sup>

**.15 Question**—Section 105 states that "Because engagement documentation often contains confidential information, the practitioner should adopt reasonable procedures to maintain the confidentiality of that information."<sup>12</sup> However, practitioners are sometimes required by law, regulation, or contract<sup>13</sup> to provide a regulator, or a duly appointed representative, access to engagement documentation. For example, a regulator may request access to the engagement documentation to fulfill a quality review requirement or to assist in establishing the scope of a regulatory examination. Furthermore, as part of the regulator's review of the engagement documentation, the regulator may request copies of all or selected portions of the engagement documentation during or after the review. The regulator may intend, or decide, to make copies (or information derived from the engagement documentation) available to others, including other governmental agencies, for their particular purposes, with or without the knowledge of the practitioner or the client. When a regulator requests the practitioner to provide access to (and possibly copies of) engagement documentation pursuant to law, regulation, or contract, what actions might the practitioner consider?

**.16 Interpretation**—When a regulator requests access to engagement documentation pursuant to law, regulation, or contract, the practitioner may take the following steps:

- a. Consider advising the client that the regulator has requested access to (and possibly copies of) the engagement documentation and that the practitioner intends to comply with such request.<sup>14</sup>

---

<sup>10</sup> The term *regulator(s)* includes federal, state, and local government officials with legal oversight authority over the entity. Examples of regulators who may request access to engagement documentation include, but are not limited to, state insurance and utility regulators, various health care authorities, and federal agencies such as the Federal Deposit Insurance Corporation, the Department of Housing and Urban Development, the Department of Labor, and the Rural Electrification Administration.

<sup>11</sup> The guidance in this interpretation does not apply to requests from the IRS; firm practice-monitoring programs, to comply with AICPA or state professional requirements such as peer or quality reviews; proceedings relating to alleged ethics violations; or subpoenas.

<sup>12</sup> Paragraph .39 of section 105.

<sup>13</sup> Paragraphs .26–.30 of this interpretation address situations in which the practitioner is not required by law, regulation, or contract to provide a regulator access to the engagement documentation.

<sup>14</sup> The practitioner may wish (and, in some cases, may be required by law, regulation, or contract) to confirm in writing with the client that the practitioner may be required to provide a regulator access to the engagement documentation. Sample language that may be used follows:

The engagement documentation for this engagement is the property of [name of firm] and constitutes confidential information. However, we may be requested to make certain engagement documentation available to [name of regulator] pursuant to authority given to it by law or regulation. If requested, access to such engagement documentation will be provided under the supervision of [name of firm] personnel. Furthermore, upon request, we may provide copies of selected engagement documentation to [name of regulator]. The [name of regulator] may intend, or decide, to distribute the copies or information contained therein to others, including other governmental agencies.

- b. Make appropriate arrangements with the regulator for the review.
- c. Maintain control over the engagement documentation, and
- d. Consider submitting the letter described in paragraph .19 of this interpretation to the regulator.

**.17** Making appropriate arrangements with the regulator may include establishing the specific details, such as the date, time, and location of the review. The engagement documentation may be made available to a regulator at the offices of the client, the practitioner, or a mutually agreed-upon location. However, maintaining control of engagement documentation is necessary in order for the practitioner to maintain the integrity of the engagement documentation and the confidentiality of client information. For example, the practitioner (or the practitioner's representative) may be present when the engagement documentation is reviewed by the regulator.

**.18** Ordinarily, the practitioner may not agree to transfer ownership of the engagement documentation to a regulator. Furthermore, the practitioner may not agree, without client authorization, that the information contained therein about the client may be communicated to or made available to any other party. In this regard, the action of a practitioner providing access to, or copies of, the engagement documentation shall not constitute transfer of ownership or authorization to make them available to any other party.

**.19** An engagement performed in accordance with the attestation standards is not intended to, and does not, satisfy a regulator's oversight responsibilities. To avoid any misunderstanding, prior to allowing a regulator access to the engagement documentation, the practitioner may submit a letter to the regulator that

- a. sets forth the practitioner's understanding of the purpose for which access is being requested;
- b. describes the examination, review, or agreed-upon procedures process, as applicable, and the limitations inherent in the applicable attestation engagement;
- c. explains the purpose for which the engagement documentation was prepared, and that any individual conclusions or findings must be read in the context of the practitioner's report on the subject matter (or assertion);
- d. states, except when not applicable, that the engagement was not planned or conducted in contemplation of the purpose for which access is being granted or to assess the entity's compliance with laws and regulations;
- e. states that the examination, review, or agreed-upon procedures engagement, as applicable, and the engagement documentation should not supplant other inquiries and procedures that should be undertaken by the regulator for its purposes;
- f. requests confidential treatment under the Freedom of Information Act or similar laws and regulations,<sup>15</sup> when a request for the engagement documentation is made, and that written notice be given to the practitioner before transmitting any information

---

<sup>15</sup> The practitioner may need to consult the regulations of individual agencies and, if necessary, consult with legal counsel regarding the specific procedures and requirements necessary to gain confidential treatment.

contained in the engagement documentation to others, including other governmental agencies, except when such transfer is required by law or regulation; and

- g. states that if any copies are to be provided, they will be identified as "Confidential Treatment Requested by [*name of firm, address, telephone number*]."

The practitioner may obtain a signed acknowledgment copy of the letter as evidence of the regulator's receipt of the letter. The letter to a regulator should be tailored to meet the individual engagement characteristics or the purpose of the regulatory request, for example, a quality control review. Illustrative letters for an examination engagement performed in accordance with section 315, *Compliance Attestation*, and an agreed-upon procedures engagement performed in accordance with section 215 follow.

**.20** Illustrative letter for an examination engagement:

**Illustrative Letter to Regulator**<sup>16</sup>

[*Date*]

[*Name and Address of Regulatory Agency*]

Your representatives have requested access to our engagement documentation in connection with our engagement to examine XYZ Company's compliance with [*identify the specified requirements*] during the period [*date*] to [*date*] [*or management's assertion about its compliance with (identify the specified requirements) during the period (date) to (date)*]. It is our understanding that the purpose of your request is [*state purpose: for example, "to facilitate your regulatory examination"*]<sup>17</sup>

Our examination was conducted in accordance with attestation standards<sup>18</sup> established by the American Institute of Certified Public Accountants, the objective of which is to obtain reasonable assurance about whether XYZ Company complied with [*identify the specified requirements*] during the period [*date*] to [*date*], in all material respects, and to express an opinion in a written report about whether XYZ Company complied with [*identify the specified requirements*] during the period [*date*] to [*date*] [*or whether management's assertion about its compliance with (identify the specified requirements) during the period (date) to (date) is fairly stated*], in all material respects, based on our examination. Under these standards, we have the responsibility to plan and perform our examination to provide a reasonable basis for our opinion and to exercise due professional care in the performance of our examination. Our examination is subject to the inherent risk that material noncompliance, if it exists, would not be detected. In addition, our examination does not address the possibility that material noncompliance may occur in the future. Also, our use of professional judgment and the assessments of attestation risk and materiality for the

---

<sup>16</sup> The letter may be modified appropriately when the engagement has been conducted in accordance with Statements on Standards for Attestation Engagements (SSAEs) and also in accordance with additional attestation requirements specified by a regulatory agency (for example, the requirements specified in *Government Auditing Standards* issued by the Comptroller General of the United States).

<sup>17</sup> See footnote 13. Also, if the practitioner is not required by law, regulation, or contract to provide a regulator access to the engagement documentation but otherwise intends to provide such access, the letter should include a statement that "Management of [*name of entity*] has authorized us to provide you access to our attest documentation for [*state purpose*]." [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126. Revised: April 2016, effective for practitioners' reports dated on or after May 1, 2017.]

<sup>18</sup> See footnote 16.

purpose of our examination means that matters may have existed that would have been assessed differently by you. Our examination does not provide a legal determination on *[name of entity]*'s compliance with specified requirements.

The engagement documentation was prepared for the purpose of providing a sufficient and appropriate record of the basis of our opinion on *[name of entity]*'s compliance and to aid in the performance and supervision of our examination. The engagement documentation is the principal record of attestation procedures performed, relevant evidence obtained, and conclusions reached by the practitioner in the examination. The procedures that we performed were limited to those we considered necessary under attestation standards<sup>19</sup> established by the American Institute of Certified Public Accountants to provide us with reasonable basis for our opinion. Accordingly, we make no representation as to the sufficiency or appropriateness, for your purposes, of either the procedures or information in our engagement documentation. In addition, any notations, comments, and individual conclusions appearing on any of the engagement documentation do not stand alone and should not be read as an opinion on any part of management's assertion or the related subject matter.

Our examination was conducted for the purpose stated above and was not planned or performed in contemplation of your *[state purpose: for example, "regulatory examination"]*. Therefore, items of possible interest to you may not have been specifically addressed. Accordingly, our examination, and the engagement documentation prepared in connection therewith, should not supplant other inquiries and procedures that should be undertaken by the *[name of regulatory agency]* for the purpose of monitoring and regulating *[name of entity]*. In addition, we have not performed any procedures since the date of our report with respect to the subject matter *[or management's assertion related thereto]*, and significant events or circumstances may have occurred since that date.

The engagement documentation constitutes and reflects work performed or information obtained by us in the course of our examination. The documents contain trade secrets and confidential commercial and financial information of our firm and *[name of entity]* that is privileged and confidential, and we expressly reserve all rights with respect to disclosures to third parties. Accordingly, we request confidential treatment under the Freedom of Information Act or similar laws and regulations<sup>20</sup> when requests are made for the engagement documentation or information contained therein or any documents created by the *[name of regulatory agency]* containing information derived there from. We further request that written notice be given to our firm before distribution of the information in the engagement documentation (or copies thereof) to others, including other governmental agencies, except when such distribution is required by law or regulation.

*[If it is expected that copies will be requested, add the following:]*

Any copies of our engagement documentation we agree to provide you will contain a legend "Confidential Treatment Requested by *(name of firm, address, telephone number)*."

*[Firm signature]*

---

<sup>19</sup> See footnote 16.

<sup>20</sup> This illustrative paragraph may not, in and of itself, be sufficient to gain confidential treatment under the rules and regulations of certain regulatory agencies. The practitioner should consider tailoring this paragraph to the circumstances after consulting the regulations of each applicable regulatory agency and, if necessary, consult with legal counsel regarding the specific procedures and requirements necessary to gain confidential treatment.

.21 The following is an illustrative letter for an agreed-upon procedures engagements:

**Illustrative Letter to Regulator**<sup>21</sup>

[Date]

[Name and Address of Regulatory Agency]

Your representatives have requested access to our engagement documentation in connection with our engagement to perform agreed-upon procedures on [identify the subject matter or management's assertion]. It is our understanding that the purpose of your request is [state purpose: for example, "to facilitate your regulatory examinations."] <sup>22</sup>

Our agreed-upon procedures engagement was conducted in accordance with attestation standards<sup>23</sup> established by the American Institute of Certified Public Accountants. Under these standards, we have the responsibility to perform the agreed-upon procedures to provide a reasonable basis for the findings expressed in our report. We were not engaged to, and did not, perform an examination, the objective of which would be to form an opinion on [identify the subject matter or management's assertion]. Our engagement is subject to the inherent risk that material misstatement of [identify the subject matter or management's assertion], if it exists, would not be detected. [The practitioner may add the following: "In addition, our engagement does not address the possibility that material misstatement of (identify the subject matter or management's assertion) may occur in the future."] The procedures that we performed were limited to those agreed to by the specified users, and the sufficiency of these procedures is solely the responsibility of the specified users of the report. Further, our engagement does not provide a legal determination on [name of entity]'s compliance with specified requirements.

The engagement documentation was prepared to document agreed-upon procedures applied, information obtained, and related findings in the engagement. Accordingly, we make no representation, for your purposes, as to the sufficiency or appropriateness of the information in our engagement documentation. In addition, any notations, comments, and individual findings appearing on any of the engagement documentation should not be read as an opinion on [identify the subject matter or management's assertion], or any part thereof.

Our engagement was performed for the purpose stated above and was not performed in contemplation of your [state purpose: for example, "regulatory examination"]. Therefore, items of possible interest to you may not have been specifically addressed. Accordingly, our engagement, and the engagement documentation prepared in connection therewith, should not supplant other inquiries and procedures that should be undertaken by the [name of regulatory agency] for the purpose of monitoring and regulating [name of client]. In addition, we have not performed any procedures since the date of our report with respect to the subject matter or management's assertion related thereto, and significant events or circumstances may have occurred since that date.

The engagement documentation constitutes and reflects procedures performed or information obtained by us in the course of our engagement. The documents

---

<sup>21</sup> See footnote 16.

<sup>22</sup> See footnotes 13 and 17. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126. Revised, April 2016.]

<sup>23</sup> See footnote 16.

contain trade secrets and confidential commercial and financial information of our firm and *[name of client]* that is privileged and confidential, and we expressly reserve all rights with respect to disclosures to third parties. Accordingly, we request confidential treatment under the Freedom of Information Act or similar laws and regulations when requests are made for the engagement documentation or information contained therein or any documents created by the *[name of regulatory agency]* containing information derived therefrom. We further request that written notice be given to our firm before distribution of the information in the engagement documentation (or copies thereof) to others, including other governmental agencies, except when such distribution is required by law or regulation.<sup>24</sup>

*[If it is expected that copies will be requested, add the following:*

Any copies of our engagement documentation we agree to provide you will contain a legend "Confidential Treatment Requested by *(name of firm, address, telephone number)*."

*[Firm signature]*

[Issue Date: May 1996; Revised: January 2001; January 2002; Revised: December 2012; Revised: April 2016, effective for practitioners' reports dated on or after May 1, 2017.]

**.22 Question**—A regulator may request access to the engagement documentation before the attestation engagement has been completed and the report released. May the practitioner allow access in such circumstances?

**.23 Interpretation**—When the engagement has not been completed, the engagement documentation is necessarily incomplete because (a) additional information may be added as a result of further tests and review by supervisory personnel, and (b) any results of the engagement and conclusions reflected in the incomplete engagement documentation may change. Accordingly, it is preferable that access be delayed until all attestation procedures have been completed and all internal reviews have been performed. If access is provided prior to completion of the engagement, the practitioner may issue the letter referred to in paragraph .19 of this interpretation, modified appropriately. The following is an example of additional language that may be included in the letter:

We have been engaged to examine, in accordance with attestation standards established by the American Institute of Certified Public Accountants, XYZ Company's compliance with *[identify the specified requirements]* during the period *[date]* to *[date]* (or management's assertion about its compliance during the period *[date]* to *[date]*), but have not yet completed our examination. Accordingly, at this time, we do not express any opinion on XYZ Company's compliance with *[identify the specified requirements]* during the period *[date]* to *[date]* (or management's assertion about its compliance during the period *[date]* to *[date]*). Furthermore, the contents of the engagement documentation may change as a result of additional attestation procedures and review of the engagement documentation by supervisory personnel of our firm. Accordingly, our engagement documentation is incomplete.

Because the engagement documentation may change prior to completion of the engagement, it is preferable that the practitioner not provide copies of the engagement documentation until the engagement has been completed.

---

<sup>24</sup> See footnote 20.

**.24 Question**—Some regulators may engage an independent party, such as another independent public accountant, to perform the engagement documentation review on behalf of the regulatory agency. Are there any special precautions the practitioner may observe in these circumstances?

**.25 Interpretation**—The practitioner may obtain acknowledgment, preferably in writing, from the regulator stating that the third party is acting on behalf of the regulator and agreement from the third party that he or she is subject to the same restrictions on disclosure and use of engagement documentation and the information contained therein as the regulator.

**.26 Question**—When a regulator requests the practitioner to provide access to (and possibly copies of) engagement documentation and the practitioner is not otherwise required by law, regulation, or contract to provide such access, what steps may the practitioner take?

**.27 Interpretation**—The practitioner may obtain an understanding of the reasons for the regulator's request for access to the engagement documentation and may consider consulting with legal counsel regarding the request. If the practitioner decides to provide such access, reasonable procedures to maintain the confidentiality of client information include obtaining the client's consent, preferably in writing, to provide the regulator access to the engagement documentation.

**.28** Following is an example of language that may be used in the written communication to the client:

The engagement documentation for this engagement is the property of [name of firm] and constitutes confidential information. However, we have been requested to make certain engagement documentation available to [name of regulator] for [describe the regulator's basis for its request]. Access to such engagement documentation will be provided under the supervision of [name of firm] personnel. Furthermore, upon request, we may provide copies of selected engagement documentation to [name of regulator].

You have authorized [name of firm] to allow [name of regulator] access to the engagement documentation in the manner discussed above. Please confirm your agreement to the above by signing below and returning to [name of firm, address].

[Firm signature]

Agreed and acknowledged:

[Name and title]

[Date]

**.29** If the client requests to review the engagement documentation before allowing the regulator access, the practitioner may provide the client with the opportunity to obtain an understanding of the nature of the information about the subject matter contained in the engagement documentation that is being made available to the regulator. When a client reviews the engagement documentation, the need to maintain control of the engagement documentation is as discussed in paragraph .17 of this interpretation.

**.30** The guidance in paragraphs .17–.25 of this interpretation, which provide guidance on making arrangements with the regulator for access to the engagement documentation, maintaining control over the engagement

documentation, and submitting a letter describing various matters to the regulator, is also applicable.

[Issue Date: July, 1994; Revised: June, 1996; Revised: October, 2000; Revised: January, 2002; Revised: December, 2005; Revised: October, 2011, effective for audits of financial statements for periods ending on or after December 15, 2012; Revised: April 2016, effective for practitioners' reports dated on or after May 1, 2017.

## 4. Performing and Reporting on an Attestation Engagement Under Two Sets of Attestation Standards

**.31 Question**—Do the AICPA attestation standards permit the performance of, and reporting on, an attestation engagement in which the practitioner follows both the AICPA attestation standards and another set of attestation standards, such as those issued by the International Auditing and Assurance Standards Board or the PCAOB?

**.32 Interpretation**—Yes, a practitioner may perform and report on an attestation engagement in accordance with AICPA attestation standards in addition to another set of attestation standards, as long as both sets of attestation standards are followed in their entirety.

**.33 Question**—If a practitioner performs an attestation engagement in accordance with the AICPA attestation standards and the PCAOB interim attestation standards, how would the practitioner reference both sets of attestation standards if the practitioner chooses to do so in the attestation report?

**.34 Interpretation**—If the practitioner chooses to reference both sets of attestation standards, the statement that the attestation engagement was conducted in accordance with attestation standards established by the AICPA would be amended to add that the engagement was also conducted in accordance with the interim attestation standards of the PCAOB. A reference to "the standards" of the PCAOB indicates that the auditor has complied not only with the PCAOB interim attestation standards, but also with the related professional practice standards of the PCAOB, including its independence rules; whereas, a reference to "the attestation standards" of the PCAOB is limited to compliance with the interim attestation standards of the PCAOB.

**.35** Following are illustrative reports with examples of additional language (in ***bold italics***) that a practitioner may include in attestation reports to indicate that the engagement was conducted in accordance with the AICPA attestation standards and the PCAOB interim attestation standards:

### Examination Engagement

#### Independent Accountant's Report

[*Same first paragraph as the standard report*]

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants ***and in accordance with the standards of the Public Company Accounting Oversight Board (United States)***. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether [*identify the subject matter; for example, the schedule of investment returns*] is in accordance with (or based on) the criteria, in all material respects. An examination involves performing procedures to obtain evidence about [*identify the subject matter; for example, the schedule of investment returns*]. The nature, timing, and extent of the procedures selected depend on our judgment, including an

assessment of the risks of material misstatement of [*identify the subject matter; for example, the schedule of investment returns*], whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

### **Review Engagement**

#### **Independent Accountant's Report**

[*Same first paragraph as the standard report*]

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants **and in accordance with the standards of the Public Company Accounting Oversight Board (United States)**. Those standards require that we plan and perform the review to obtain limited assurance about whether any material modifications should be made to [*identify the subject matter; for example, the schedule of investment returns*] in order for it to be in accordance with (or based on) the criteria. A review is substantially less in scope than an examination, the objective of which is to obtain reasonable assurance about whether [*identify the subject matter; for example, the schedule of investment returns*] is in accordance with (or based on) the criteria, in all material respects, in order to express an opinion. Accordingly, we do not express such an opinion. We believe that our review provides a reasonable basis for our conclusion.

### **Agreed-Upon Procedures Engagement**

#### **Independent Accountant's Report**

[*Same first paragraph as the standard report*]

[*Include paragraphs to enumerate procedures and findings*]

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants **and in accordance with the standards of the Public Company Accounting Oversight Board (United States)**. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on [*identify the subject matter; for example, the accompanying Statement of Investment Performance Statistics of XYZ Fund for the year ended December 31, 20X1*]. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

## AT-C Section 205\*

# Examination Engagements

Source: SSAE No. 18.

Effective for practitioners' examination reports dated on or after May 1, 2017.

## Introduction

.01 This section contains performance and reporting requirements and application guidance for all examination engagements. The requirements and guidance in this section supplement the requirements and guidance in section 105, *Concepts Common to All Attestation Engagements*.

## Effective Date

.02 This section is effective for practitioners' examination reports dated on or after May 1, 2017.

## Objectives

.03 In conducting an examination engagement, the objectives of the practitioner are to

- a. obtain reasonable assurance about whether the subject matter as measured or evaluated against the criteria is free from material misstatement;
- b. express an opinion in a written report about whether
  - i. the subject matter is in accordance with (or based on) the criteria, in all material respects, or
  - ii. the responsible party's assertion is fairly stated, in all material respects; and
- c. communicate further as required by relevant AT-C sections.

## Definitions

.04 For purposes of this section, the following terms have the meanings attributed as follows:

**Appropriateness of evidence.** The measure of the quality of evidence, that is, its relevancy and reliability in providing support for the practitioner's opinion.

**Modified opinion.** A qualified opinion, an adverse opinion, or a disclaimer of opinion.

**Risk of material misstatement.** The risk that the subject matter is not in accordance with (or based on) the criteria in all material

---

\* This section contains an "AT-C" identifier, instead of an "AT" identifier, to avoid confusion with references to existing "AT" sections, which remain effective through April 2017.

respects or that the assertion is not fairly stated, in all material respects.

**Sufficiency of evidence.** The measure of the quantity of evidence. The quantity of the evidence needed is affected by the risks of material misstatement and also by the quality of such evidence.

**Test of controls.** A procedure designed to evaluate the operating effectiveness of controls in preventing, or detecting and correcting, material misstatements in the subject matter.

## Requirements

### Conduct of an Examination Engagement

**.05** In performing an examination engagement, the practitioner should comply with this section, section 105, and any subject-matter AT-C section that is relevant to the engagement. A subject-matter AT-C section is relevant to the engagement when it is in effect, and the circumstances addressed by the AT-C section exist. (Ref: par. .A1)

### Preconditions for an Examination Engagement

**.06** Section 105 indicates that a practitioner must be independent when performing an attestation engagement in accordance with the attestation standards, unless the practitioner is required by law or regulation to accept the engagement and report on the subject matter or assertion.<sup>1</sup> When the practitioner is not independent but is required by law or regulation to accept the engagement and report on the subject matter or assertion, the practitioner should disclaim an opinion and should specifically state that the practitioner is not independent. The practitioner is neither required to provide, nor precluded from providing, the reasons for the lack of independence; however, if the practitioner chooses to provide the reasons for the lack of independence, the practitioner should include all the reasons therefor.

### Agreeing on the Terms of the Engagement

**.07** The practitioner should agree upon the terms of the engagement with the engaging party. The agreed-upon terms of the engagement should be specified in sufficient detail in an engagement letter or other suitable form of written agreement. (Ref: par. .A2)

**.08** The agreed-upon terms of the engagement should include the following:

- a. The objective and scope of the engagement
- b. The responsibilities of the practitioner (Ref: par. .A3)
- c. A statement that the engagement will be conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants
- d. The responsibilities of the responsible party and the responsibilities of the engaging party, if different
- e. A statement about the inherent limitations of an examination engagement (Ref: par. .A4)

---

<sup>1</sup> Paragraph .24 of section 105, *Concepts Common to All Attestation Engagements*.

- f.* Identification of the criteria for the measurement, evaluation, or disclosure of the subject matter
- g.* An acknowledgement that the engaging party agrees to provide the practitioner with a representation letter at the conclusion of the engagement

**.09** Although an engagement may recur, each engagement is considered a separate engagement. The practitioner should assess whether circumstances require revision to the terms of a preceding engagement. If the practitioner concludes that the terms of the preceding engagement need not be revised for the current engagement, the practitioner should remind the engaging party of the terms of the current engagement, and the reminder should be documented.

## Requesting a Written Assertion

**.10** The practitioner should request from the responsible party a written assertion about the measurement or evaluation of the subject matter against the criteria. When the engaging party is the responsible party and refuses to provide a written assertion, paragraph .82 requires the practitioner to withdraw from the engagement when withdrawal is possible under applicable law or regulation. When the engaging party is not the responsible party, and the responsible party refuses to provide a written assertion, the practitioner need not withdraw from the engagement. In that case, paragraph .84 requires the practitioner to disclose that refusal in the practitioner's report and restrict the use of the report to the engaging party. (Ref: par. .A5–.A8 and .A97)

## Planning and Performing the Engagement

**.11** The practitioner should establish an overall engagement strategy that sets the scope, timing, and direction of the engagement and guides the development of the engagement plan. (Ref: par. .A9–.A12)

**.12** In establishing the overall engagement strategy, the practitioner should

- a.* identify the characteristics of the engagement that define its scope and ascertain the reporting objectives of the engagement in order to plan the timing of the engagement and the nature of the communications required;
- b.* consider the factors that, in the practitioner's professional judgment, are significant in directing the engagement team's efforts;
- c.* consider the results of preliminary engagement activities, such as client acceptance, and, when applicable, whether knowledge gained on other engagements performed by the engagement partner for the entity is relevant; and
- d.* ascertain the nature, timing, and extent of resources necessary to perform the engagement.

**.13** The practitioner should develop a plan that includes a description of the following items:

- a.* The nature, timing, and extent of planned risk assessment procedures
- b.* The nature, timing, and extent of planned further procedures (see paragraph .21)
- c.* Other planned procedures that are required to be carried out so that the engagement complies with the attestation standards

## Risk Assessment Procedures

.14 The practitioner should obtain an understanding of the subject matter and other engagement circumstances sufficient to (Ref: par. .A13–.A14)

- a. enable the practitioner to identify and assess the risks of material misstatement in the subject matter and
- b. provide a basis for designing and performing procedures to respond to the assessed risks and to obtain reasonable assurance to support the practitioner's opinion.

.15 In obtaining an understanding of the subject matter in accordance with paragraph .14, the practitioner should obtain an understanding of internal control over the preparation of the subject matter relevant to the engagement. This includes evaluating the design of those controls relevant to the subject matter and determining whether they have been implemented by performing procedures in addition to inquiry of the personnel responsible for the subject matter.

## Materiality in Planning and Performing the Engagement

.16 When establishing the overall engagement strategy, the practitioner should consider materiality for the subject matter. (Ref: par. .A15–.A21)

.17 The practitioner should reconsider materiality for the subject matter if the practitioner becomes aware of information during the engagement that would have caused the practitioner to have initially determined a different materiality.

## Identifying Risks of Material Misstatement

.18 The practitioner should identify and assess risks of material misstatement as the basis for designing and performing further procedures whose nature, timing, and extent (Ref: par. .A22–.A23)

- a. are responsive to assessed risks of material misstatement and
- b. allow the practitioner to obtain reasonable assurance about whether the subject matter is in accordance with (or based on) the criteria, in all material respects.

## Responding to Assessed Risks and Obtaining Evidence

.19 To obtain reasonable assurance, the practitioner should obtain sufficient appropriate evidence to reduce attestation risk to an acceptably low level and thereby enable the practitioner to draw reasonable conclusions on which to base the practitioner's opinion.

.20 The practitioner should design and implement overall responses to address the assessed risks of material misstatement for the subject matter or assertion. (Ref: par. .A24–.A25)

## Further Procedures

.21 The practitioner should design and perform further procedures whose nature, timing, and extent are based on, and responsive to, the assessed risks of material misstatement.

.22 In designing and performing further procedures in accordance with paragraph .21, the practitioner should

- a. consider the reasons for the assessment given to the risk of material misstatement, including
  - i. the likelihood of material misstatement due to the particular characteristics of the subject matter and
  - ii. whether the practitioner intends to rely on the operating effectiveness of controls in determining the nature, timing, and extent of other procedures, and
- b. obtain more persuasive evidence the higher the practitioner's assessment of risk.

**.23** When designing and performing procedures, the practitioner should consider the relevance and reliability of the information to be used as evidence. If

- a. evidence obtained from one source is inconsistent with that obtained from another,
- b. the practitioner has doubts about the reliability of information to be used as evidence, or
- c. responses to inquiries of the responsible party or others are inconsistent or otherwise unsatisfactory (for example, vague or implausible),

the practitioner should determine what modifications or additions to procedures are necessary to resolve the matter and should consider the effect of the matter, if any, on other aspects of the engagement.

### ***Tests of Controls***

**.24** The practitioner should design and perform tests of controls to obtain sufficient appropriate evidence about the operating effectiveness of relevant controls if

- a. the practitioner intends to rely on the operating effectiveness of controls in determining the nature, timing, and extent of other procedures;
- b. procedures other than tests of controls cannot alone provide sufficient appropriate evidence; or
- c. the subject matter is internal control.

**.25** If the practitioner designed and performed tests of controls to rely on their operating effectiveness and identified deviations in those controls, the practitioner should make specific inquiries and perform other procedures as necessary to understand these matters and their potential consequences. The practitioner also should determine whether

- a. the tests of controls that have been performed provide an appropriate basis for reliance on the controls,
- b. additional tests of controls are necessary, or
- c. the potential risks of misstatement need to be addressed using other procedures.

### ***Procedures Other Than Tests of Controls***

**.26** Irrespective of the assessed risks of material misstatement, the practitioner should design and perform tests of details or analytical procedures related to the subject matter, except when the subject matter is internal control.

**Analytical Procedures Performed in Response to Assessed Risks**

.27 When designing and performing analytical procedures in response to assessed risks, the practitioner should (Ref: par. .A26–.A27)

- a. determine the suitability of particular analytical procedures for the subject matter, taking into account the assessed risks of material misstatement and any related tests of details;
- b. evaluate the reliability of data from which the practitioner's expectation is developed, taking into account the source, comparability, nature, and relevance of information available, and controls over their preparation; and
- c. develop an expectation that is sufficiently precise to identify possible material misstatements (taking into account whether analytical procedures are to be performed alone or in combination with tests of details).

.28 If analytical procedures identify fluctuations or relationships that are inconsistent with other relevant information or that differ significantly from expected amounts or ratios, the practitioner should investigate such differences by

- a. inquiring of the responsible party and obtaining additional evidence relevant to its responses and
- b. performing other procedures as necessary in the circumstances.

**Procedures Regarding Estimates**

.29 Based on the assessed risks of material misstatement, the practitioner should evaluate whether

- a. the responsible party has appropriately applied the requirements of the criteria relevant to any estimated amounts and
- b. the methods for making estimates are appropriate and have been applied consistently and whether changes, if any, in reported estimates or in the method for making them from the prior period, if applicable, are appropriate in the circumstances.

.30 When responding to an assessed risk of material misstatement related to an estimate, the practitioner should undertake one or more of the following, taking into account the nature of the estimates:

- a. Determine whether events occurring up to the date of the practitioner's report provide evidence regarding the estimate.
- b. Test how the responsible party made the estimate and the data on which it is based. In doing so, the practitioner should evaluate whether the
  - i. method of measurement used is appropriate in the circumstances,
  - ii. assumptions used by the responsible party are reasonable, and
  - iii. data on which the estimate is based are sufficiently reliable for the practitioner's purposes.
- c. Test the operating effectiveness of the controls over how the responsible party made the estimate, together with other appropriate further procedures.
- d. Develop a point estimate or a range to evaluate the responsible party's estimate. For this purpose, if the practitioner

- i. uses assumptions or methods that differ from those of the responsible party, the practitioner should obtain an understanding of the responsible party's assumptions or methods sufficient to establish that the practitioner's point estimate or range takes into account relevant variables and to evaluate any significant differences from the responsible party's point estimate.
- ii. concludes that it is appropriate to use a range, the practitioner should narrow the range, based on evidence available, until all outcomes within the range are considered reasonable.

### **Sampling**

**.31** If sampling is used, the practitioner should, when designing the sample, consider the purpose of the procedure and the characteristics of the population from which the sample will be drawn. Sampling involves (Ref: par. .A28)

- a. determining a sample size sufficient to reduce sampling risk to an acceptably low level.
- b. selecting items for the sample in such a way that the practitioner can reasonably expect the sample to be representative of the relevant population and likely to provide the practitioner with a reasonable basis for conclusions about the population.
- c. treating a selected item to which the practitioner is unable to apply the designed procedures or suitable alternative procedures as a deviation from the prescribed control in the case of tests of controls or a misstatement in the case of tests of details.
- d. investigating the nature and cause of deviations or misstatements identified and evaluating their possible effect on the purpose of the procedure and on other areas of the engagement.
- e. evaluating the results of the sample, including sampling risk and projecting misstatements found in the sample to the population, and
- f. evaluating whether the use of sampling has provided an appropriate basis for conclusions about the population that has been tested.

### **Fraud, Laws, and Regulations**

**.32** The practitioner should

- a. consider whether risk assessment procedures and other procedures related to understanding the subject matter indicate risk of material misstatement due to fraud or noncompliance with laws or regulations.
- b. make inquiries of appropriate parties to determine whether they have knowledge of any actual, suspected, or alleged fraud or noncompliance with laws or regulations affecting the subject matter.
- c. evaluate whether there are unusual or unexpected relationships within the subject matter, or between the subject matter and other related information, that indicate risks of material misstatement due to fraud or noncompliance with laws or regulations.

- d. evaluate whether other information obtained indicates risk of material misstatement due to fraud or noncompliance with laws or regulations.

**.33** The practitioner should respond appropriately to fraud or suspected fraud and noncompliance or suspected noncompliance with laws or regulations affecting the subject matter that is identified during the engagement. (Ref: par. .A29–.A30)

## Revision of Risk Assessment

**.34** The practitioner's assessment of the risks of material misstatement may change during the course of the engagement as additional evidence is obtained. In circumstances in which the practitioner obtains evidence from performing further procedures, or if new information is obtained, either of which is inconsistent with the evidence on which the practitioner originally based the assessment, the practitioner should revise the assessment and modify the planned procedures accordingly. (Ref: par. .A31–.A32)

## Evaluating the Reliability of Information Produced by the Entity

**.35** When using information produced by the entity, the practitioner should evaluate whether the information is sufficiently reliable for the practitioner's purposes, including, as necessary, the following: (Ref: par. .A33–.A34)

- a. Obtaining evidence about the accuracy and completeness of the information
- b. Evaluating whether the information is sufficiently precise and detailed for the practitioner's purposes

## Using the Work of a Practitioner's Specialist

**.36** When the practitioner expects to use the work of a practitioner's specialist, the practitioner should do the following:

- a. Evaluate whether the practitioner's specialist has the necessary competence, capabilities, and objectivity for the practitioner's purposes. In the case of a practitioner's external specialist, the evaluation of objectivity should include inquiry regarding interests and relationships that may create a threat to the objectivity of the practitioner's specialist. (Ref: par. .A38–.A41)
- b. Obtain a sufficient understanding of the field of expertise of a practitioner's specialist to enable the practitioner to (Ref: par. .A42)
  - i. determine the nature, scope, and objectives of that specialist's work for the practitioner's purposes and
  - ii. evaluate the adequacy of that work for the practitioner's purposes.
- c. Agree with the practitioner's specialist regarding (Ref: par. .A43)
  - i. the nature, scope, and objectives of that practitioner's specialist's work;
  - ii. the respective roles and responsibilities of the practitioner and that specialist;
  - iii. the nature, timing, and extent of communication between the practitioner and that specialist, including the form of

- any report or documentation to be provided by that specialist; and
- iv. the need for the practitioner's specialist to observe confidentiality requirements.
- d. Evaluate the adequacy of the work of the practitioner's specialist for the practitioner's purposes, including
- i. the relevance and reasonableness of the findings and conclusions of the practitioner's specialist and their consistency with other evidence;
  - ii. if the work of the practitioner's specialist involves the use of significant assumptions and methods
    - (1) obtaining an understanding of those assumptions and methods and
    - (2) evaluating the relevance and reasonableness of those assumptions and methods in the circumstances, giving consideration to the rationale and support provided by the practitioner's specialist, and in relation to the practitioner's other findings and conclusions;
  - iii. if the work of the practitioner's specialist involves the use of source data that are significant to the work of the practitioner's specialist, the relevance, completeness, and accuracy of that source data.

**.37** If the practitioner determines that the work of the practitioner's specialist is not adequate for the practitioner's purposes, the practitioner should

- a. agree with the practitioner's specialist on the nature and extent of further work to be performed by the practitioner's specialist or
- b. perform additional procedures appropriate to the circumstances.

**.38** The nature, timing, and extent of the procedures a practitioner performs when the practitioner expects to use the work of a practitioner's specialist will vary depending on the circumstances. In determining the nature, timing, and extent of those procedures, the practitioner should consider the following: (See section 105.<sup>2</sup>)

- a. The significance of that specialist's work in the context of the engagement (See also paragraphs .A35–.A36.)
- b. The nature of the matter to which that specialist's work relates
- c. The risks of material misstatement in the matter to which that specialist's work relates
- d. The practitioner's knowledge of, and experience with, previous work performed by that specialist
- e. Whether that specialist is subject to the practitioner's firm's quality control policies and procedures (see also paragraph .A37)

## Using the Work of Internal Auditors

**.39** When the practitioner expects to use the work of the internal audit function in obtaining evidence or to use internal auditors to provide direct assistance, the practitioner should determine whether the work can be used for purposes of the examination by evaluating (Ref: par. .A44–.A46)

---

<sup>2</sup> Paragraph .32 of section 105.

- a. the level of competence of the internal audit function or the individual internal auditors providing direct assistance;
- b. the extent to which the internal audit function's organizational status and relevant policies and procedures support the objectivity of the internal audit function or for internal auditors providing direct assistance, the existence of threats to the objectivity of those internal auditors and the related safeguards applied to reduce or eliminate those threats; and
- c. when using the work of the internal audit function, the application by the internal audit function of a systematic and disciplined approach, including quality control.

**.40** When using the work of the internal audit function, the practitioner should perform sufficient procedures on the body of work of the internal audit function as a whole that the practitioner plans to use to determine its adequacy for the purpose of the examination engagement, including reperforming some of the body of work of the internal audit function that the practitioner intends to use in obtaining evidence.

**.41** Prior to using internal auditors to provide direct assistance, the practitioner should obtain written acknowledgment from the responsible party that internal auditors providing direct assistance to the practitioner will be allowed to follow the practitioner's instructions, and that the responsible party will not intervene in the work the internal auditor performs for the practitioner.

**.42** When using internal auditors to provide direct assistance to the practitioner, the practitioner should direct, supervise, and review the work of the internal auditors.

**.43** Because the practitioner has sole responsibility for the opinion expressed, the practitioner should make all significant judgments in the examination engagement, including when to use the work of the internal audit function in obtaining evidence. To prevent undue use of the internal audit function in obtaining evidence, the practitioner should plan to use less of the work of the function and perform more of the work directly:

- a. The more judgment is involved in
  - i. planning and performing relevant procedures or
  - ii. evaluating the evidence obtained
- b. the higher the assessed risk of material misstatement;
- c. the less the internal audit function's organizational status and relevant policies and procedures adequately support the objectivity of the internal auditors; and
- d. the lower the level of competence of the internal audit function.

**.44** Before the conclusion of the engagement, the practitioner should evaluate whether the use of the work of the internal audit function or the use of internal auditors to provide direct assistance results in the practitioner still being sufficiently involved in the examination given the practitioner's sole responsibility for the opinion expressed.

## Evaluating the Results of Procedures

**.45** The practitioner should accumulate misstatements identified during the engagement other than those that are clearly trivial. (Ref: par. .A47–.A48)

**.46** The practitioner should evaluate the sufficiency and appropriateness of the evidence obtained in the context of the engagement and, if necessary,

attempt to obtain further evidence. The practitioner should consider all relevant evidence, regardless of whether it appears to corroborate or contradict the measurement or evaluation of the subject matter against the criteria. (Ref: par. .A49–.A53)

**.47** If the practitioner is unable to obtain necessary further evidence, the practitioner should consider the implications for the practitioner's opinion in paragraphs .68–.84.

## Considering Subsequent Events and Subsequently Discovered Facts

**.48** The practitioner should inquire whether the responsible party, and if different, the engaging party, is aware of any events subsequent to the period (or point in time) covered by the examination engagement up to the date of the practitioner's report that could have a significant effect on the subject matter or assertion and should apply other appropriate procedures to obtain evidence regarding such events. If the practitioner becomes aware, through inquiry or otherwise, of such an event, or any other event that is of such a nature and significance that its disclosure is necessary to prevent users of the report from being misled, and information about that event is not adequately disclosed by the responsible party in the subject matter or in its assertion, the practitioner should take appropriate action. (Ref: par. .A54–.A56)

**.49** The practitioner has no responsibility to perform any procedures regarding the subject matter or assertion after the date of the practitioner's report. Nevertheless, the practitioner should respond appropriately to facts that become known to the practitioner after the date of the report that, had they been known to the practitioner at that date, may have caused the practitioner to revise the report. (Ref: par. .A57–.A58)

## Written Representations

**.50** The practitioner should request from the responsible party written representations in the form of a letter addressed to the practitioner. The representations should (Ref: par. .A59–.A62)

- a.* include the responsible party's assertion about the subject matter based on the criteria. (Ref: par. .A97)
- b.* state that all relevant matters are reflected in the measurement or evaluation of the subject matter or assertion.
- c.* state that all known matters contradicting the subject matter or assertion and any communication from regulatory agencies or others affecting the subject matter or assertion have been disclosed to the practitioner, including communications received between the end of the period addressed in the written assertion and the date of the practitioner's report.
- d.* acknowledge responsibility for
  - i.* the subject matter and the assertion;
  - ii.* selecting the criteria, when applicable; and
  - iii.* determining that such criteria are appropriate for the responsible party's purposes.
- e.* state that any known events subsequent to the period (or point in time) of the subject matter being reported on that would have a

material effect on the subject matter or assertion have been disclosed to the practitioner. (Ref: par. .A61)

- f.* state that it has provided the practitioner with all relevant information and access.
- g.* if applicable, state that the responsible party believes the effects of uncorrected misstatements are immaterial, individually and in the aggregate, to the subject matter. (Ref: par. .A62)
- h.* if applicable, state that significant assumptions used in making any material estimates are reasonable.
- i.* state that the responsible party has disclosed to the practitioner
  - i.* all deficiencies in internal control relevant to the engagement of which the responsible party is aware;
  - ii.* its knowledge of any actual, suspected, or alleged fraud or noncompliance with laws or regulations affecting the subject matter; and
  - iii.* other matters as the practitioner deems appropriate.

**.51** When the engaging party is not the responsible party, and the responsible party refuses to provide the representations in paragraph .50 in writing, the practitioner should make inquiries of the responsible party about, and seek oral responses to, the matters in paragraph .50. (Ref: par. .A63)

**.52** When the engaging party is not the responsible party, the practitioner should request written representations from the engaging party, in addition to those requested from the responsible party, in the form of a letter addressed to the practitioner. The representations should

- a.* acknowledge that the responsible party is responsible for the subject matter and assertion.
- b.* acknowledge the engaging party's responsibility for selecting the criteria, when applicable.
- c.* acknowledge the engaging party's responsibility for determining that such criteria are appropriate for its purposes.
- d.* state that the engaging party is not aware of any material misstatements in the subject matter or assertion.
- e.* state that the engaging party has disclosed to the practitioner all known events subsequent to the period (or point in time) of the subject matter being reported on that would have a material effect on the subject matter or assertion. (Ref: par. .A61)
- f.* address other matters as the practitioner deems appropriate.

**.53** When written representations are directly related to matters that are material to the subject matter, the practitioner should

- a.* evaluate their reasonableness and consistency with other evidence obtained, including other representations (oral or written) and
- b.* consider whether those making the representations can be expected to be well informed on the particular matters.

**.54** The date of the written representations should be as of the date of the practitioner's report. The written representations should address the subject matter and periods covered by the practitioner's opinion.

## Requested Written Representations Not Provided or Not Reliable

**.55** When the engaging party is the responsible party, and one or more of the requested written representations are not provided, or the practitioner concludes that there is sufficient doubt about the competence, integrity, ethical values, or diligence of those providing the written representations, or the practitioner concludes that the written representations are otherwise not reliable, the practitioner should (Ref: par. .A64)

- a.* discuss the matter with the appropriate party(ies);
- b.* reevaluate the integrity of those from whom the representations were requested or received and evaluate the effect that this may have on the reliability of representations and evidence in general; and
- c.* if any of the matters are not resolved to the practitioner's satisfaction, take appropriate action.

**.56** When the engaging party is not the responsible party

- a.* if one or more of the requested representations are not provided in writing by the responsible party, but the practitioner receives satisfactory oral responses to the practitioner's inquiries performed in accordance with paragraph .51 sufficient to enable the practitioner to conclude that the practitioner has sufficient appropriate evidence to form an opinion about the subject matter, the practitioner's report should contain a separate paragraph that restricts the use of the report to the engaging party. (Paragraphs .65–.66 contain requirements for the contents of such a paragraph.) (Ref: par. .A63 and .A65)
- b.* if one or more of the requested representations are provided neither in writing nor orally from the responsible party in accordance with paragraph .51, a scope limitation exists, and the practitioner should determine the effect on the report, or the practitioner should withdraw from the engagement. (Ref: par. .A66)

## Other Information

**.57** If prior to or after the release of the practitioner's report on subject matter or an assertion, the practitioner is willing to permit the inclusion of the report in a document that contains the subject matter or assertion and other information, the practitioner should read the other information to identify material inconsistencies, if any, with the subject matter, assertion, or the report. If upon reading the other information, in the practitioner's professional judgment (Ref: par. .A67–.A68)

- a.* a material inconsistency between that other information and the subject matter, assertion, or the report exists or
- b.* a material misstatement of fact exists in the other information, the subject matter, assertion, or the report

the practitioner should discuss the matter with the responsible party and take further action as appropriate.

## Description of Criteria

**.58** The practitioner should evaluate whether the written description of the subject matter or assertion adequately refers to or describes the criteria. (Ref: par. .A69–.A70)

## Forming the Opinion

**.59** The practitioner should form an opinion about whether the subject matter is in accordance with (or based on) the criteria, in all material respects, or the assertion is fairly stated, in all material respects. In forming that opinion, the practitioner should evaluate

- a. the practitioner's conclusion regarding the sufficiency and appropriateness of evidence obtained and (Ref: par. .A71)
- b. whether uncorrected misstatements are material, individually or in the aggregate. (Ref: par. .A72)

**.60** The practitioner should evaluate, based on the evidence obtained, whether the presentation of the subject matter or assertion is misleading within the context of the engagement. (Ref: par. .A73–.A74)

## Preparing the Practitioner's Report

**.61** The practitioner's report should be in writing. (Ref: par. .A75–.A76)

**.62** A practitioner should report on a written assertion or should report directly on the subject matter. If the practitioner is reporting on the assertion, the assertion should be bound with or accompany the practitioner's report, or the assertion should be clearly stated in the report. (Ref: par. .A77)

## Content of the Practitioner's Report

**.63** The practitioner's report should include the following, unless the practitioner is disclaiming an opinion, in which case, items .63*f*, and .63*g* should be omitted:

- a. A title that includes the word *independent*. (Ref: par. .A78)
- b. An appropriate addressee as required by the circumstances of the engagement.
- c. An identification or description of the subject matter or assertion being reported on, including the point in time or period of time to which the measurement or evaluation of the subject matter or assertion relates.
- d. An identification of the criteria against which the subject matter was measured or evaluated. (Ref: par. .A79)
- e. A statement that identifies (Ref: par. .A80–.A81)
  - i. the responsible party and its responsibility for the subject matter in accordance with (or based on) the criteria or for its assertion, and
  - ii. the practitioner's responsibility to express an opinion on the subject matter or assertion, based on the practitioner's examination.
- f. A statement that
  - i. the practitioner's examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.
  - ii. those standards require that the practitioner plan and perform the examination to obtain reasonable assurance about whether

- (1) the subject matter is in accordance with (or based on) the criteria, in all material respects (or equivalent language regarding the subject matter and criteria, such as the language used in the examples in paragraph .A82) or
  - (2) the responsible party's assertion is fairly stated, in all material respects.
- iii. the practitioner believes the evidence the practitioner obtained is sufficient and appropriate to provide a reasonable basis for the practitioner's opinion.
- g.* A description of the nature of an examination engagement. (Ref: par. .A83–.A85)
  - h.* A statement that describes significant inherent limitations, if any, associated with the measurement or evaluation of the subject matter against the criteria. (Ref: par. .A86)
  - i.* The practitioner's opinion about whether (Ref: par. .A87–.A90)
    - i. the subject matter is in accordance with (or based on) the criteria, in all material respects or
    - ii. the responsible party's assertion is fairly stated, in all material respects.
  - j.* The manual or printed signature of the practitioner's firm.
  - k.* The city and state where the practitioner practices. (Ref: par. .A91)
  - l.* The date of the report. (The report should be dated no earlier than the date on which the practitioner has obtained sufficient appropriate evidence on which to base the practitioner's opinion, including evidence that
    - i. the attestation documentation has been reviewed,
    - ii. if applicable, the written presentation of the subject matter has been prepared, and
    - iii. the responsible party has provided a written assertion or, in the circumstances described in paragraph .A66, an oral assertion.)

### **Restricted Use Paragraph**

**.64** In the following circumstances, the practitioner's report should include an alert, in a separate paragraph, that restricts the use of the report: (Ref: par. .A94–.A97)

- a.* The practitioner determines that the criteria used to evaluate the subject matter are appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria.
- b.* The criteria used to evaluate the subject matter are available only to specified parties.
- c.* The engaging party is not the responsible party, and the responsible party does not provide the written representations required by paragraph .50, but does provide oral responses to the practitioner's inquiries about the matters in paragraph .50, as provided for in paragraph .51 and .56a. In this case, the use of the practitioner's report should be restricted to the engaging party. (Ref: par. .A97)

**.65** The alert should

- a. state that the practitioner's report is intended solely for the information and use of the specified parties,
- b. identify the specified parties for whom use is intended, and (Ref: par. .A98)
- c. state that the report is not intended to be, and should not be, used by anyone other than the specified parties. (Ref: par. .A99–.A101)

**.66** When the engagement is also performed in accordance with *Government Auditing Standards*, the alert that restricts the use of the practitioner's report should include the following information, rather than the information required by paragraph .65:

- a. A description of the purpose of the report
- b. A statement that the report is not suitable for any other purpose

## Reference to the Practitioner's Specialist

**.67** The practitioner should not refer to the work of a practitioner's specialist in the practitioner's report containing an unmodified opinion. (Ref: par. .A102)

## Modified Opinions

**.68** The practitioner should modify the opinion when either of the following circumstances exist and, in the practitioner's professional judgment, the effect of the matter is or may be material: (Ref: par. .A103–.A104)

- a. The practitioner is unable to obtain sufficient appropriate evidence to conclude that the subject matter is in accordance with (or based on) the criteria, in all material respects.
- b. The practitioner concludes, based on evidence obtained, that the subject matter is not in accordance with (or based on) the criteria, in all material respects.

**.69** When the practitioner modifies the opinion, the practitioner should include a separate paragraph in the practitioner's report that provides a description of the matter(s) giving rise to the modification.

**.70** The practitioner should express a qualified opinion when (Ref: par. .A105–.A109)

- a. the practitioner, having obtained sufficient appropriate evidence, concludes that misstatements, individually or in the aggregate, are material, but not pervasive to the subject matter or
- b. the practitioner is unable to obtain sufficient appropriate evidence on which to base the opinion, but the practitioner concludes that the possible effects on the subject matter of undetected misstatements, if any, could be material, but not pervasive.

**.71** When the practitioner expresses a qualified opinion due to a material misstatement of the subject matter, the practitioner should state that, in the practitioner's opinion, except for the effects of the matter(s) giving rise to the modification, the subject matter is presented in accordance with (or based on) the criteria, in all material respects. When the modification arises from an inability to obtain sufficient appropriate evidence, the practitioner should use the corresponding phrase "except for the possible effects of the matter(s) ..." for the modified opinion.

**.72** The practitioner should express an adverse opinion when the practitioner, having obtained sufficient appropriate evidence, concludes that misstatements, individually or in the aggregate, are both material and pervasive to the subject matter.

**.73** When the practitioner expresses an adverse opinion, the practitioner should state that, in the practitioner's opinion, because of the significance of the matter(s) giving rise to the modification, the subject matter is not presented in accordance with (or based on) the criteria, in all material respects.

**.74** The practitioner should disclaim an opinion when the practitioner is unable to obtain sufficient appropriate evidence on which to base the opinion, and the practitioner concludes that the possible effects on the subject matter of undetected misstatements, if any, could be both material and pervasive. (Ref: par. .A110)

**.75** When the practitioner disclaims an opinion due to an inability to obtain sufficient appropriate evidence, the practitioner's report should state that

- a. because of the significance of the matter(s) giving rise to the modification, the practitioner has not been able to obtain sufficient appropriate evidence to provide a basis for an examination opinion and
- b. accordingly, the practitioner does not express an opinion on the subject matter.

#### ***Description of the Practitioner's Responsibility When the Practitioner Expresses a Qualified or an Adverse Opinion***

**.76** When the practitioner expresses a qualified or an adverse opinion, the practitioner should amend the description of the practitioner's responsibility to state that the practitioner believes that the evidence the practitioner has obtained is sufficient and appropriate to provide a basis for the practitioner's modified opinion.

#### ***Description of the Practitioner's Responsibility When the Practitioner Disclaims an Opinion***

**.77** When the practitioner disclaims an opinion due to an inability to obtain sufficient appropriate evidence, the practitioner should amend the practitioner's report to state that the practitioner was engaged to examine the subject matter (or assertion). The practitioner should also amend the description of the practitioner's responsibility and the description of an examination to state only the following:

Our responsibility is to express an opinion on the subject matter (or assertion) based on conducting the examination in accordance with attestation standards established by the American Institute of Certified Public Accountants. Because of the limitation on the scope of our examination discussed in the preceding paragraph, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on whether the subject matter is in accordance with (or based on) the criteria, in all material respects.

**.78** If the practitioner expresses a modified opinion because of a scope limitation but is also aware of a matter(s) that causes the subject matter to be materially misstated, the practitioner should include in the practitioner's report a clear description of both the scope limitation and the matter(s) that causes the subject matter to be materially misstated.

**.79** If the practitioner has concluded that conditions exist that, individually or in combination, result in one or more material misstatements based on

the criteria, the practitioner should modify the opinion and express a qualified or adverse opinion directly on the subject matter, not on the assertion, even when the assertion acknowledges the misstatement.

**.80** The practitioner's opinion on the subject matter or assertion should be clearly separated from any paragraphs emphasizing matters related to the subject matter or any other reporting responsibilities.

**.81** When the opinion is modified, reference to an external specialist is permitted when such reference is relevant to an understanding of the modification to the practitioner's opinion. The practitioner should indicate in the practitioner's report that such reference does not reduce the practitioner's responsibility for that opinion.

## Responsible Party Refuses to Provide a Written Assertion

**.82** If the engaging party is the responsible party and refuses to provide the practitioner with a written assertion as required by paragraph .10, the practitioner should withdraw from the engagement when withdrawal is possible under applicable law or regulation.

**.83** If law or regulation does not allow the practitioner to withdraw from the engagement, the practitioner should disclaim an opinion.

**.84** When the engaging party is not the responsible party and the responsible party refuses to provide the practitioner with a written assertion, the practitioner may report on the subject matter but should disclose in the practitioner's report the responsible party's refusal to provide a written assertion and should restrict the use of the practitioner's report to the engaging party. (Ref: par. .A111–.A113)

## Communication Responsibilities

**.85** The practitioner should communicate to the responsible party known and suspected fraud and noncompliance with laws or regulations, uncorrected misstatements, and, when relevant to the subject matter, internal control deficiencies identified during the engagement. When the engaging party is not the responsible party, the practitioner should also communicate this information to the engaging party. (Ref: par. .A114)

**.86** If the practitioner has identified or suspects noncompliance with laws or regulations that are not relevant to the subject matter, the practitioner should determine whether the practitioner has a responsibility to report the identified or suspected noncompliance to parties other than the responsible party and the engaging party (if different). (Ref: par. .A115–.A116)

## Documentation

**.87** The practitioner should prepare engagement documentation that is sufficient to determine (Ref: par. .A117–.A120)

- a. the nature, timing, and extent of the procedures performed to comply with relevant AT-C sections and applicable legal and regulatory requirements, including
  - i. the identifying characteristics of the specific items or matters tested;
  - ii. who performed the engagement work and the date such work was completed;

- iii. the discussions with the responsible party or others about findings or issues that, in the practitioner's professional judgment, are significant, including the nature of the significant findings or issues discussed, and when and with whom the discussions took place;
  - iv. when the engaging party is the responsible party and the responsible party will not provide one or more of the requested written representations or the practitioner concludes that there is sufficient doubt about the competence, integrity, ethical values, or diligence of those providing the written representations; or that the written representations are otherwise not reliable, the matters in paragraph .55;
  - v. when the engaging party is not the responsible party and the responsible party will not provide the written representations regarding the matters in paragraph .50, the oral responses from the responsible party to the practitioner's inquiries regarding the matters in paragraph .50, in accordance with paragraph .51; and
  - vi. who reviewed the engagement work performed and the date and extent of such review.
- b. the results of the procedures performed and the evidence obtained.

**.88** If the practitioner identified information that is inconsistent with the practitioner's final conclusion regarding a significant finding or issue, the practitioner should document how the practitioner addressed the inconsistency.

**.89** If, in circumstances such as those described in paragraph .49, the practitioner performs new or additional procedures or draws new conclusions after the date of the practitioner's report, the practitioner should document

- a. the circumstances encountered;
- b. the new or additional procedures performed, evidence obtained, and conclusions reached and their effect on the report; and
- c. when and by whom the resulting changes to the documentation were made and reviewed.

## Application and Other Explanatory Material

### Conduct of an Examination Engagement (Ref: par. .05)

**.A1** For example, if a practitioner were examining prospective financial information, section 105, this section, and section 305, *Prospective Financial Information*, would be relevant.

### Agreeing on the Terms of the Engagement (Ref: par. .07, .08b, and .08e)

**.A2** It is in the interests of both the engaging party and the practitioner to document the agreed-upon terms of the engagement before the commencement of the engagement to help avoid misunderstandings. The form and content of the engagement letter or other suitable form of written agreement will vary with the engagement circumstances.

**.A3** A practitioner may further describe the responsibilities of the practitioner by adding the following items to the engagement letter or other suitable form of written agreement:

- a. A statement that an examination is designed to obtain reasonable assurance about whether the subject matter as measured or evaluated against the criteria is free from material misstatement
- b. A statement that the objective of an examination is the expression of an opinion in a written practitioner's report about whether the subject matter is in accordance with (or based on) the criteria, in all material respects, or whether the responsible party's assertion is fairly stated, in all material respects

**.A4** If relevant, a statement about the inherent limitations of an examination engagement may indicate that "because of the inherent limitations of an examination engagement, together with the inherent limitations of internal control, an unavoidable risk exists that some material misstatements may not be detected, even though the examination is properly planned and performed in accordance with the attestation standards."

### **Requesting a Written Assertion (Ref: par. .10)**

**.A5** The language of the responsible party's written assertion in paragraph .10 may need to be tailored to reflect the nature of the subject matter and criteria for the engagement. Examples of language that meet the requirements in paragraph .10 include the following:

- The entity maintained effective internal control over the subject matter based on the criteria.
- The subject matter is presented in accordance with (or based on) the criteria.
- The subject matter achieved the objectives, for example, when the objectives are the criteria.
- The subject matter is presented fairly, based on the criteria.

**.A6** Situations may arise in which the current responsible party was not present during some or all of the period covered by the practitioner's report. Such persons may contend that they are not in a position to provide a written assertion that covers the entire period because they were not in place during some or all of the period. This fact, however, does not diminish such persons' responsibilities for the subject matter as a whole. Accordingly, the requirement for the practitioner to request a written assertion from the responsible party that covers the entire relevant period(s) still applies.

**.A7** Paragraph .50a requires the practitioner to request a written representation from the responsible party that is the same as the responsible party's assertion. If the responsible party provides the practitioner with the written representation in paragraph .50a, the practitioner need not request a separate written assertion unless a separate written assertion is called for by the engagement circumstances.

**.A8** A practitioner may also be engaged to assist the responsible party in measuring or evaluating the subject matter against the criteria in connection with the responsible party providing a written assertion. Regardless of the procedures performed by the practitioner, the responsible party is required to

accept responsibility for its assertion and the subject matter and may not base its assertion solely on the practitioner's procedures.<sup>3</sup>

## Planning and Performing the Engagement (Ref: par. .11)

**.A9** Planning involves the engagement partner and other key members of the engagement team and may involve the practitioner's specialists in developing

- an overall strategy for the scope, timing, and conduct of the engagement and
- an engagement plan, consisting of a detailed approach for the nature, timing, and extent of procedures to be performed.

Adequate planning helps the practitioner to devote appropriate attention to important areas of the engagement, identify potential problems on a timely basis, and properly organize and manage the engagement in order for it to be performed in an effective and efficient manner. Adequate planning also assists the practitioner in properly assigning work to engagement team members and facilitates the direction, supervision, and review of their work. Further, it assists, when applicable, the coordination of work performed by other practitioners and practitioner's specialists. The nature and extent of planning activities will vary with the engagement circumstances, for example, the complexity of the assessment or evaluation of the subject matter and the practitioner's previous experience with it. Examples of relevant matters that may be considered include the following:

- The characteristics of the engagement that define its scope, including the terms of the engagement, the characteristics of the underlying subject matter, and the criteria
- The expected timing and the nature of the communications required
- The results of preliminary engagement activities, such as client acceptance, and, when applicable, whether knowledge gained on other engagements performed by the engagement partner for the appropriate party(ies) is relevant
- The engagement process, including possible sources of evidence, and choices among alternative measurement or evaluation methods
- The practitioner's understanding of the appropriate party(ies) and its (their) environment, including the risks that the subject matter may be materially misstated
- Identification of intended users and their information needs and consideration of materiality and the components of attestation risk
- The risk of fraud relevant to the engagement
- The effect on the engagement of using the internal audit function

**.A10** The practitioner may decide to discuss elements of planning with the appropriate party(ies) to facilitate the conduct and management of the engagement (for example, to coordinate some of the planned procedures with the work

---

<sup>3</sup> The "Nonattest Services" subtopic (ET sec. 1.295) of the AICPA Code of Professional Conduct addresses the practitioner's provision of nonattest services for an attest client.

of the responsible party's personnel). Although these discussions often occur, the overall engagement strategy and the engagement plan remain the practitioner's responsibility. When discussing matters included in the overall engagement strategy or engagement plan, care is needed to avoid compromising the effectiveness of the engagement. For example, discussing the nature and timing of detailed procedures with the responsible party may compromise the effectiveness of the engagement by making the procedures too predictable.

**.A11** Planning is not a discrete phase but, rather, a cumulative and iterative process throughout the engagement. As a result of unexpected events, changes in conditions, or evidence obtained, the practitioner may need to revise the overall strategy and engagement plan and, thereby, the resulting nature, timing, and extent of planned procedures.

**.A12** In smaller or less complex engagements, the entire engagement may be conducted by a very small engagement team, possibly involving the engagement partner (who may be a sole practitioner) working without any other engagement team members. With a smaller team, coordination of, and communication among, team members is easier. In such cases, establishing the overall engagement strategy need not be a complex or time-consuming exercise; it varies according to the size of the entity, complexity of the engagement, and size of the engagement team.

## Risk Assessment Procedures (Ref: par. .14)

**.A13** Obtaining an understanding of the subject matter and other engagement circumstances provides the practitioner with a frame of reference for exercising professional judgment throughout the engagement, for example, when

- considering the characteristics of the subject matter;
- assessing the suitability of criteria;
- considering the factors that, in the practitioner's professional judgment, are significant in directing the engagement team's efforts, including situations in which special consideration may be necessary (for example, when there is a need for specialized skills or the work of a specialist);
- establishing and evaluating the continued appropriateness of quantitative materiality levels (when appropriate) and considering qualitative materiality factors;
- developing expectations when performing analytical procedures;
- designing and performing procedures;
- evaluating evidence, including the reasonableness of the written representations received by the practitioner.

**.A14** In assessing inherent risk, the practitioner may consider factors relevant to examination engagements, such as the following:

- The complexity of the subject matter or assertion
- The length of time during which the entity has had experience with the subject matter or assertion
- Prior experience with the entity's assessment of the subject matter or assertion

## Materiality in Planning and Performing the Engagement (Ref: par. .16)

**.A15** Materiality is considered in the context of qualitative factors and, when applicable, quantitative factors. The relative importance of qualitative factors and quantitative factors when considering materiality in a particular engagement is a matter for the practitioner's professional judgment.

**.A16** Professional judgments about materiality are made in light of surrounding circumstances, but they are not affected by the level of assurance, that is, for the same intended users, materiality for an examination engagement is the same as it is for a review engagement because materiality is based on the information needs of intended users and not the level of assurance.

**.A17** In general, misstatements, including omissions, are considered to be material if, individually or in the aggregate, they could reasonably be expected to influence relevant decisions of intended users that are made based on the subject matter. The practitioner's consideration of materiality is a matter of professional judgment and is affected by the practitioner's perception of the common information needs of intended users as a group. In this context, it is reasonable for the practitioner to assume that intended users

- a. have a reasonable knowledge of the subject matter and a willingness to study the subject matter with reasonable diligence.
- b. understand that the subject matter is measured or evaluated and examined to appropriate levels of materiality and have an understanding of any materiality concepts included in the criteria.
- c. understand any inherent uncertainties involved in measuring or evaluating the subject matter.
- d. make reasonable decisions on the basis of the subject matter taken as a whole.

Unless the engagement has been designed to meet the particular information needs of specific users, the possible effect of misstatements on specific users, whose information needs may vary widely, is not ordinarily considered.

**.A18** Qualitative factors may include the following:

- The interaction between, and relative importance of, various aspects of the subject matter, such as numerous performance indicators
- The wording chosen with respect to subject matter that is expressed in narrative form, for example, the wording chosen does not omit or distort the information
- The characteristics of the presentation adopted for the subject matter when the criteria allow for variations in that presentation
- The nature of a misstatement, for example, the nature of observed deviations in the operation of a control when the responsible party asserts that the control is effective
- Whether a misstatement affects compliance with laws or regulations
- In the case of periodic reporting on a subject matter, whether the effect of an adjustment affects past or current information about the subject matter or is likely to affect future information about the subject matter

- Whether a misstatement is the result of an intentional act or is unintentional
- Whether a misstatement is significant with regard to the practitioner's understanding of known previous communications to users, for example, in relation to the expected outcome of the measurement or evaluation of the subject matter
- Whether a misstatement relates to the relationship between the responsible party, and if different, the engaging party or its relationship with other parties

**.A19** Quantitative factors relate to the magnitude of misstatements relative to reported amounts for those aspects of the subject matter, if any, that are

- expressed numerically or
- otherwise related to numerical values, for example, the number of observed deviations in the operation of a control when the examination involves the effectiveness of the control.

**.A20** When quantitative factors are applicable, planning the engagement solely to detect individually material misstatements overlooks the fact that the aggregate of individually immaterial misstatements may cause the subject matter to be materially misstated. Applying materiality to elements of the subject matter ordinarily is not a simple mechanical calculation but involves the exercise of professional judgment. It is affected by the practitioner's understanding of the subject matter and the responsible party, updated during the performance of the risk assessment procedures, and consideration of the nature and extent of misstatements identified in previous attestation engagements.

**.A21** The criteria may discuss the concept of materiality in the context of the preparation and presentation of the subject matter and thereby provide a frame of reference for the practitioner in considering materiality for the engagement. Although criteria may discuss materiality in different terms, the concept of materiality generally includes the matters discussed in paragraphs .A15–.A20. If the criteria do not include a discussion of the concept of materiality, these paragraphs provide the practitioner with a frame of reference.

## Identifying Risks of Material Misstatement (Ref: par. .18)

**.A22** Most of the practitioner's work in forming an opinion consists of obtaining and evaluating evidence. Procedures to obtain evidence can include inspection, observation, confirmation, recalculation, reperformance, and analytical procedures, often in some combination, in addition to inquiry.

**.A23** In some cases, a subject-matter-specific section may include requirements that affect the nature, timing, and extent of procedures. For example, a subject-matter-specific section may describe the nature or extent of particular procedures to be performed in a particular type of engagement. Even in such cases, determining the exact nature, timing, and extent of procedures is a matter of professional judgment and will vary from one engagement to the next.

## Responding to Assessed Risks and Obtaining Evidence (Ref: par. .20)

**.A24** Overall responses to address the assessed risks of material misstatement of the subject matter or assertion may include

- emphasizing to the engagement team the need to maintain professional skepticism;
- assigning more experienced staff or those with specialized skills or using specialists;
- providing more supervision;
- incorporating additional elements of unpredictability in the selection of further procedures to be performed; and
- making changes to the nature, timing, or extent of procedures (for example, performing procedures at period-end instead of at an interim date or modifying the nature of procedures to obtain more persuasive evidence).

**.A25** The assessment of the risks of material misstatement of the subject matter or assertion is affected by the practitioner's understanding of the control environment. An effective control environment may allow the practitioner to have more confidence in internal control and the reliability of evidence generated internally within the entity and, thus, for example, may allow the practitioner to conduct some procedures at an interim date, rather than at the period-end. Deficiencies in the control environment, however, have the opposite effect, for example, the practitioner may respond to an ineffective control environment by

- conducting more procedures as of the period-end, rather than at an interim date,
- obtaining more extensive evidence from procedures other than tests of controls, and
- increasing the number of locations to be included in the examination scope.

## Further Procedures

### ***Analytical Procedures Performed in Response to Assessed Risks (Ref: par. .27)***

**.A26** An understanding of the purposes of analytical procedures and the limitations of those procedures is important. Accordingly, the identification of the relationships and types of data used, as well as conclusions reached when recorded amounts are compared to expectations, requires professional judgment by the practitioner.

**.A27** Analytical procedures involve comparisons of expectations developed by the practitioner to recorded amounts or ratios developed from recorded amounts. The practitioner develops such expectations by identifying and using plausible relationships that are reasonably expected to exist based on the practitioner's understanding of the subject matter; the practices used by the responsible party to measure, recognize, and record the subject matter; and, if applicable, the industry in which the entity operates.

### ***Sampling (Ref: par. .31)***

**.A28** The AICPA Audit Guide *Audit Sampling* provides guidance that may be useful to a practitioner who has decided to use sampling in performing attestation procedures.

## Fraud, Laws, and Regulations (Ref: par. .33)

**.A29** In responding to fraud or suspected fraud identified during the engagement, it may be appropriate, unless prohibited by law, regulation, or ethics standards, for the practitioner to, for example,

- discuss the matter with the appropriate party(ies).
- request that the responsible party consult with an appropriately qualified third party, such as the entity's legal counsel or a regulator.
- consider the implications of the matter in relation to other aspects of the engagement, including the practitioner's risk assessment and the reliability of written representations from the responsible party.
- obtain legal advice about the consequences of different courses of action.
- communicate with third parties (for example, a regulator).
- withdraw from the engagement.

**.A30** The actions noted in paragraph .A29 also may be appropriate in responding to noncompliance or suspected noncompliance with laws or regulations identified during the engagement. It may be appropriate to describe the matter in a separate paragraph in the practitioner's report, unless the practitioner

- a. is precluded by the responsible party from obtaining sufficient appropriate evidence to evaluate whether noncompliance that may be material to the subject matter has, or is likely to have, occurred, in which case, paragraphs .68a and .77 apply, or
- b. concludes that the noncompliance results in a material misstatement of the subject matter, in which case, paragraph .68b applies.

## Revision of Risk Assessment (Ref: par. .34)

**.A31** Information may come to the practitioner's attention that differs significantly from that on which the determination of planned procedures was based. As the practitioner performs planned procedures, the evidence obtained may cause the practitioner to perform additional procedures. Such procedures may include asking the responsible party to examine the matter identified by the practitioner and to make adjustments to the subject matter if appropriate.

**.A32** The practitioner may become aware of a matter(s) that causes the practitioner to believe the subject matter may be materially misstated, for example, when performing analytical procedures the practitioner identifies a fluctuation or relationship that is inconsistent with other relevant information or that differs significantly from expectations.

## Evaluating the Reliability of Information Produced by the Entity (Ref: par. .35)

**.A33** Reliable information is sufficiently accurate and complete.

**.A34** Obtaining evidence about the accuracy and completeness of information produced by the entity may be accomplished concurrently with the actual procedure applied to the information when obtaining such evidence is an integral part of the procedure itself. In other situations, the practitioner may have

obtained evidence of the accuracy and completeness of such information by testing controls over the preparation and maintenance of the information. In some situations, however, the practitioner may determine that additional procedures are needed.

## Using the Work of a Practitioner's Specialist

### *Integrating the Work of a Practitioner's Specialist (Ref: par. .38a)*

**.A35** Examination engagements may be performed on a wide range of subject matters that require specialized skills and knowledge beyond those possessed by the practitioner and for which the work of a practitioner's specialist is used. In some situations, the practitioner's specialist will be consulted to provide advice on an individual matter, but the greater the significance of the work of the practitioner's specialist in the context of the engagement, the more likely it is that the specialist will work as part of a multidisciplinary team comprising subject-matter specialists and other attestation personnel. The more that specialist's work is integrated in nature, timing, and extent with the overall work effort, the more important effective two-way communication is between the practitioner's specialist and other attestation personnel. Effective two-way communication facilitates the proper integration of the specialist's work with the work of others on the engagement.

**.A36** When the work of a practitioner's specialist is to be used, it may be appropriate to perform some of the procedures required by paragraph .36 at the engagement acceptance or continuance stage. This is particularly so when the work of the practitioner's specialist is to be used in the early stages of the engagement, for example, during initial planning and risk assessment.

### *The Practitioner's Firm's Quality Control Policies and Procedures (Ref: par. .38e)*

**.A37** Engagement teams are entitled to rely on their own firm's system of quality control, unless information provided by the firm or other parties suggests otherwise. The extent of that reliance will vary with the circumstances and may affect the nature, timing, and extent of the practitioner's procedures with respect to matters, such as the following:

- Competence and capabilities, through recruitment and training programs
- The practitioner's evaluation of the objectivity of the practitioner's internal specialist (The practitioner's internal specialists are subject to relevant ethical requirements, including those pertaining to independence.)
- The practitioner's evaluation of the adequacy of the practitioner's internal specialist's work (For example, the firm's training programs may provide the practitioner's internal specialists with an appropriate understanding of the interrelationship of their expertise with the evidence-gathering process. Reliance on such training and other firm processes, such as protocols for scoping the work of the practitioner's internal specialists, may affect the nature, timing, and extent of the practitioner's procedures to evaluate the adequacy of the practitioner's specialist's work.)
- Adherence to regulatory and legal requirements through monitoring processes
- Agreement with the practitioner's specialist

Such reliance does not reduce the practitioner's responsibility to meet the requirements of this section.

***The Competence, Capabilities, and Objectivity of a Practitioner's Specialist (Ref: par. .36a)***

**.A38** Information regarding the competence, capabilities, and objectivity of a practitioner's specialist may come from a variety of sources, such as the following:

- Personal experience with previous work of that specialist
- Discussions with that specialist
- Discussions with other practitioners or others who are familiar with that specialist's work
- Knowledge of that specialist's qualifications, membership of a professional body or industry association, license to practice, or other forms of external recognition
- Published papers or books written by that specialist
- The firm's quality control policies and procedures

**.A39** Although a practitioner's specialist does not require the same proficiency as the practitioner in performing all aspects of an examination engagement, a practitioner's specialist whose work is used may need a sufficient understanding of relevant AT-C sections to enable that specialist to relate the work assigned to that specialist to the engagement objective.

**.A40** The evaluation of the significance of threats to objectivity and of whether there is a need for safeguards may depend upon the role of the practitioner's specialist and the significance of the specialist's work in the context of the engagement. There may be some circumstances in which safeguards cannot reduce threats to an acceptable level, for example, if in an examination engagement a practitioner's specialist is an individual who has played a significant role in measuring, evaluating, or disclosing the subject matter.

**.A41** When evaluating the objectivity of a practitioner's external specialist, it may be relevant to

- inquire of the appropriate party(ies) about any known interests or relationships that the appropriate party(ies) has with the practitioner's external specialist that may affect that specialist's objectivity.
- discuss with that specialist any applicable safeguards, including any professional requirements that apply to that specialist, and evaluate whether the safeguards are adequate to reduce threats to an acceptable level. Interests and relationships that may be relevant to discuss with the practitioner's specialist include
  - financial interests.
  - business and personal relationships.
  - provision of other services by the specialist, including by the organization in the case of an external specialist that is an organization.

In some cases, it may also be appropriate for the practitioner to obtain a written representation from the practitioner's external specialist about any interests or relationships with the appropriate party(ies) of which that specialist is aware.

***Obtaining an Understanding of the Field of Expertise of a Practitioner's Specialist (Ref: par. .36b)***

**.A42** Aspects of a practitioner's specialist's field of expertise relevant to the practitioner's understanding may include the following:

- Whether that specialist's field has areas of specialty within it that are relevant to the engagement
- Whether any professional or other standards and regulatory or legal requirements apply
- What assumptions and methods, including models, when applicable, are used by the practitioner's specialist and whether they are generally accepted within that specialist's field and appropriate in the circumstances of the engagement
- The nature of internal and external data or information the practitioner's specialist uses

***Agreement With a Practitioner's Specialist (Ref: par. .36c)***

**.A43** The matters noted in paragraph .A37 may affect the level of detail and formality of the agreement between the practitioner and the practitioner's specialist, including whether it is appropriate that the agreement be in writing. The agreement between the practitioner and a practitioner's external specialist is often in the form of an engagement letter.

***Using the Work of Internal Auditors (Ref: par. .39)***

**.A44** Activities similar to those performed by an internal audit function may be conducted by functions with other titles within an entity. Some or all of the activities of an internal audit function may also be outsourced to a third-party service provider. Neither the title of the function nor whether it is performed by the entity or a third-party service provider are sole determinants of whether or not the practitioner can use the work of internal auditors. Rather, it is the nature of the activities, the extent to which the internal audit function's organizational status and relevant policies and procedures support the objectivity of the internal auditors, the competence of the internal auditors, and the systematic and disciplined approach of the function that are relevant. References in this section to the work of the internal audit function include relevant activities of other functions or third-party providers that have these characteristics.

**.A45** A practitioner planning to use the work of the internal audit function to obtain evidence may find it effective and efficient to discuss the planned use of the work with the internal audit function as a basis for coordinating activities.

**.A46** The practitioner has sole responsibility for the opinion expressed, and that responsibility is not reduced by the practitioner's use of the work of internal auditors on the engagement. The objectivity and competence of internal auditors are important in determining whether to use their work and, if so, the nature and extent of the use of their work. However, a high degree of objectivity cannot compensate for a low degree of competence, nor can a high degree of competence compensate for a low degree of objectivity. Additionally, neither a high level of competence nor strong support for the objectivity of the internal auditors compensates for the lack of a systematic and disciplined approach when using the work of the internal audit function.

## Evaluating the Results of Procedures (Ref: par. .45–.46)

**.A47** Uncorrected misstatements are accumulated during the engagement for the purpose of evaluating whether, individually or in aggregate, they are material when forming the practitioner's opinion. (See also paragraph .59b)

**.A48** "Clearly trivial" is not another expression for "not material." Matters that are clearly trivial will be of a wholly different (smaller) order of magnitude than materiality and will be matters that are clearly inconsequential, whether taken individually or in the aggregate and whether judged by any criteria of size, nature, or circumstances. When there is any uncertainty about whether one or more items are clearly trivial, the matter is considered not to be clearly trivial.

**.A49** Sufficient appropriate evidence is necessary to support the practitioner's opinion and report. It is cumulative in nature and is primarily obtained from procedures performed during the course of the engagement. It may, however, also include information obtained from other sources such as previous engagements (provided the practitioner has determined whether changes have occurred since the previous engagement that may affect its relevance to the current engagement) or a firm's quality control procedures for client acceptance and continuance. Evidence may come from sources inside and outside the appropriate party(ies). Also, information that may be used as evidence may have been prepared by a specialist employed or engaged by the appropriate party(ies). *Evidence* comprises both information that supports and corroborates aspects of the subject matter and any information that contradicts aspects of the subject matter. In addition, in some cases, the absence of information (for example, refusal by the appropriate party(ies) to provide a requested representation) is considered by the practitioner and, therefore, also constitutes evidence.

**.A50** The sufficiency and appropriateness of evidence are interrelated. Sufficiency of evidence is the measure of the quantity of evidence. The quantity of the evidence needed is affected by the risks of material misstatement and also by the quality of such evidence.

**.A51** *Appropriateness of evidence* is the measure of the quality of evidence, that is, its relevance and reliability in providing support for the practitioner's opinion. The reliability of evidence is influenced by its source and nature and is dependent on the individual circumstances under which it is obtained. Generalizations about the reliability of various kinds of evidence can be made; however, such generalizations are subject to important exceptions. Even when evidence is obtained from sources external to the responsible party, circumstances may exist that could affect its reliability. For example, evidence obtained from an independent external source may not be reliable if the source is not knowledgeable. Recognizing that exceptions may exist, the following generalizations about the reliability of evidence may be useful:

- Evidence is more reliable when it is obtained from independent sources outside the appropriate party(ies).
- Evidence that is generated internally is more reliable when the related controls are effective.
- Evidence obtained directly by the practitioner (for example, observation of the application of a control) is more reliable than evidence obtained indirectly or by inference (for example, inquiry about the application of a control).

- Evidence is more reliable when it exists in documentary form, whether paper, electronic, or other media (for example, a contemporaneously written record of a meeting is ordinarily more reliable than a subsequent oral representation of what was discussed).
- Evidence provided by original documents is more reliable than evidence provided by photocopies, facsimiles, or documents that have been filmed, digitized, or otherwise transformed into electronic form, the reliability of which may depend on the controls over their preparation and maintenance.

**.A52** Evidence obtained from different sources or of a different nature ordinarily provides more assurance than evidence from items considered individually. In addition, obtaining evidence from different sources or of a different nature may indicate that an individual item of evidence is not reliable. For example, corroborating information obtained from a source independent of the responsible party may increase the assurance the practitioner obtains from a representation from the responsible party. Conversely, when evidence obtained from one source is inconsistent with that obtained from another, the practitioner determines what additional procedures are necessary to resolve the inconsistency.

**.A53** Whether sufficient appropriate evidence has been obtained on which to base the practitioner's opinion is a matter of professional judgment.

## Considering Subsequent Events and Subsequently Discovered Facts (Ref: par. .48–.49)

**.A54** For certain subject-matter AT-C sections, specific subsequent events requirements and related application guidance have been developed for engagement performance and reporting.

**.A55** Procedures that a practitioner may perform to identify subsequent events include inquiring about and considering information

- contained in relevant reports issued during the subsequent period by internal auditors, other practitioners, or regulatory agencies.
- obtained through other professional engagements for that entity.

**.A56** If the responsible party refuses to disclose a subsequent event for which disclosure is necessary to prevent users of the practitioner's report from being misled, appropriate actions the practitioner may take include

- disclosing the event in the practitioner's report and modifying the practitioner's opinion.
- withdrawing from the engagement.

**.A57** Subsequent to the date of the practitioner's report, the practitioner may become aware of facts that, had they been known to the practitioner at that date, may have caused the practitioner to revise the report. In such circumstances, the practitioner undertakes to determine whether the facts existed at the date of the report and, if so, whether persons who would attach importance to these facts are currently using, or are likely to use, the report and related subject matter or assertion. This may include discussing the matter with the appropriate party(ies) and requesting the appropriate party(ies)'s cooperation in whatever investigation or further action that may be necessary. The specific actions to be taken in a particular case by the appropriate party(ies) and the practitioner may vary with the circumstances. Consideration may be given to,

among other things, the time elapsed since the date of the report and whether issuance of a subsequent report is imminent. The practitioner may need to perform additional procedures deemed necessary to determine whether the subject matter or assertion needs revision and whether the previously issued report continues to be appropriate.

**.A58** Depending on the circumstances, the practitioner may determine that notification of the situation by the appropriate party(ies) to persons who would attach importance to the facts and who are currently using, or are likely to use, the practitioner's report is necessary. This may be the case, for example, when

- a. the report is not to be relied upon because the subject matter or assertion needs revision or the practitioner is unable to determine whether revision is necessary, and
- b. issuance of a subsequent report is not imminent.

If the appropriate party(ies) failed to take the necessary steps to prevent reliance on the report, the practitioner's course of action depends upon the practitioner's legal and ethical rights and obligations. Consequently, the practitioner may consider it appropriate to seek legal advice prior to making any disclosure of the situation. Disclosure of the situation directly by the practitioner may include a description of the nature of the matter and its effect on the subject matter or assertion and the report, avoiding comments concerning the conduct or motives of any person.

## Written Representations (Ref: par. .50–.51, .52e, and .56a)

**.A59** Written confirmation of oral representations reduces the possibility of misunderstandings between the practitioner and the responsible party. The person(s) from whom the practitioner requests written representations is ordinarily a member of senior management or those charged with governance depending on, for example, the management and governance structure of the responsible party(ies), which may vary by entity, reflecting influences such as size and ownership characteristics.

**.A60** Representations by the responsible party cannot replace other evidence the practitioner could reasonably expect to be available. Although written representations provide evidence, they do not provide sufficient appropriate evidence on their own about any of the matters with which they deal. Furthermore, the fact that the practitioner has received reliable written representations does not affect the nature or extent of other evidence that the practitioner obtains.

**.A61** A discussion of what is considered a material effect on the subject matter or assertion may be included explicitly in the representation letter in qualitative or quantitative terms.

**.A62** A summary of uncorrected misstatements ordinarily is included in or attached to the written representation.

**.A63** Certain subject-matter AT-C sections do not permit the practitioner to perform the alternative procedures described in paragraphs .51 and .56a (making inquiries of the responsible party and restricting the use of the practitioner's report).

## Requested Written Representations Not Provided or Not Reliable (Ref: par. .55–.56)

**.A64** In the situation discussed in paragraph .55, the refusal to furnish such evidence in the form of written representations constitutes a limitation on the scope of an examination sufficient to preclude an unmodified opinion and may be sufficient to cause the practitioner to withdraw from the engagement.

**.A65** Even when the responsible party provides oral responses to the matters in paragraph .50, the practitioner may find it appropriate to consider whether there are significant concerns about the competence, integrity, ethical values, or diligence of those providing the oral responses or whether the oral responses are otherwise not reliable and the potential effect, if any, on the practitioner's report.

**.A66** Paragraph .10 provides an exception to the requirement for a written assertion when the engaging party is not the responsible party. Nonetheless, because the assertion is the representation called for by paragraph .50*a*, application of paragraph .56*a* requires the practitioner to obtain an oral assertion when a written assertion is not obtained. Paragraph .56*b* applies when the responsible party provides neither a written nor an oral assertion.

## Other Information (Ref: par. .57)

**.A67** Further actions that may be appropriate if the practitioner identifies a material inconsistency or becomes aware of a material misstatement of fact include, for example, the following:

- Requesting the appropriate party(ies) to consult with a qualified third party, such as the appropriate party(ies)'s legal counsel
- Obtaining legal advice about the consequences of different courses of action
- If required or permissible, communicating with third parties (for example, a regulator)
- Describing the material inconsistency in the practitioner's report
- Withdrawing from the engagement, when withdrawal is possible under applicable laws and regulations

**.A68** Other information does not include information contained on the appropriate party(ies)'s website. Websites are a means of distributing information and are not, themselves, documents for the purposes of paragraph .57.

## Description of Criteria (Ref: par. .58)

**.A69** The description of the criteria on which the subject matter or assertion is based is particularly important when there are significant differences among various criteria regarding how particular matters may be treated in the subject matter.

**.A70** A description of the criteria that states that the subject matter is prepared in accordance with (or based on) particular criteria is appropriate only if the subject matter complies with all relevant requirements of those criteria that are effective.

## Forming the Opinion (Ref: par. .59–.60)

**.A71** The practitioner's professional judgment regarding what constitutes sufficient appropriate evidence is influenced by such factors as the following:

- The significance of a potential misstatement and the likelihood that it will have a material effect, individually or aggregated with other potential misstatements, on the subject matter or assertion
- The effectiveness of the responsible party's responses to address the known risks
- The experience gained during previous examination or review engagements with respect to similar potential misstatements
- The results of procedures performed, including whether such procedures identified specific misstatements
- The source and reliability of the available information
- The persuasiveness of the evidence
- The practitioner's understanding of the responsible party and its environment

**.A72** An examination engagement is a cumulative and iterative process. As the practitioner performs planned procedures, the evidence obtained may cause the practitioner to change the nature, timing, or extent of other planned procedures. Information that differs significantly from the information on which the risk assessments and planned procedures were based may come to the practitioner's attention, for example

- the extent of the misstatements that the practitioner detects is greater than expected. (This may alter the practitioner's professional judgment about the reliability of particular sources of information.)
- the practitioner may become aware of discrepancies in relevant information or conflicting or missing evidence.
- procedures performed toward the end of the engagement may indicate a previously unrecognized risk of material misstatement. In such circumstances, the practitioner may need to reevaluate the planned procedures.

**.A73** In making the evaluation required by paragraph .60, the practitioner may consider whether additional disclosures are necessary to describe the subject matter, assertion, or criteria. Additional disclosures may, for example, include

- the measurement or evaluation methods used when the criteria allow for choice among methods;
- significant interpretations made in applying the criteria in the engagement circumstances;
- subsequent events, depending on their nature and significance; and
- whether there have been any changes in the measurement or evaluation methods used.

**.A74** Paragraph .60 does not require the practitioner to determine whether the presentation discloses all matters related to the subject matter, assertion, or criteria or all matters intended users may consider in making decisions based on the presentation.

## Preparing the Practitioner's Report (Ref: par. .61–.62)

**.A75** Oral and other forms of expressing an opinion can be misunderstood without the support of a written practitioner's report. For this reason, the practitioner may not report orally or by use of symbols (such as a web seal) under the attestation standards without also providing a written report that is readily available whenever the oral report is provided or the symbol is used. For example, a symbol could be hyperlinked to a written report on the Internet.

**.A76** This section does not require a standardized format for reporting on all examination engagements. Instead, it identifies the basic elements that the practitioner's report is to include. The report is tailored to the specific engagement circumstances. The practitioner may use headings, separate paragraphs, paragraph numbers, typographical devices (for example, the bolding of text), and other mechanisms to enhance the clarity and readability of the report.

**.A77** All of the following reporting options are available to a practitioner, except when the circumstances described in paragraph .79 exist:

<i>The practitioner's report may state that the practitioner examined</i>	<i>and</i>	<i>expresses an opinion on</i>
the subject matter		the subject matter
the responsible party's assertion		the responsible party's assertion
the responsible party's assertion		the subject matter

## Content of the Practitioner's Report

### **Title (Ref: par. .63a)**

**.A78** A title indicating that the practitioner's report is the report of an independent practitioner (for example, "Independent Practitioner's Report," "Report of Independent Certified Public Accountant," or "Independent Accountant's Report") affirms that the practitioner has met all the relevant ethical requirements regarding independence and, therefore, distinguishes the independent practitioner's report from reports issued by others.

### **Criteria (Ref: par. .63d)**

**.A79** The practitioner's report may include the criteria or refer to them if they are included in the subject matter presentation, in the assertion, or are otherwise readily available. It may be relevant in the circumstances to disclose the source of the criteria or the relevant matters discussed in paragraph .A73.

### **Relevant Responsibilities (Ref: par. .63e)**

**.A80** Identifying relative responsibilities informs the intended users that the responsible party is responsible for the subject matter, and the practitioner's role is to independently express an opinion about it.

**.A81** The practitioner may wish to expand the discussion of the responsible party's responsibility, for example, to indicate that the responsible party is responsible for the preparation and presentation of the subject matter in accordance with (or based on) the criteria, including the design, implementation, and maintenance of internal control to prevent, or detect and correct, misstatement of the subject matter, due to fraud or error.

**Statement About the Subject Matter and the Criteria (Ref: par. .63f(ii)[1])**

.A82 The language in paragraph .63f(ii)(1) may need to be tailored to reflect the nature of the subject matter and criteria for the engagement. Examples of language that meet the requirements in paragraph .63f(ii)(1) include, "to obtain reasonable assurance about whether

- the entity maintained effective internal control over the subject matter, based on the criteria, in all material respects."
- the subject matter is presented in accordance with (or based on) the criteria, in all material respects."
- the subject matter achieves the objectives, in all material respects." (For example, when the objectives are the criteria.)
- the subject matter is presented fairly, in all material respects, based on the criteria." (The practitioner's professional judgment concerning the fairness of the presentation of the subject matter relates to whether the measurement, recognition, presentation, and disclosure of all material items in the presentation of the subject matter achieve fair presentation.)

**Description of the Nature of an Examination Engagement (Ref: par. .63g)**

.A83 A description of the nature of an examination engagement may state, for example, that

- an examination involves performing procedures to obtain evidence about the subject matter and that the nature, timing, and extent of the procedures selected depend on the practitioner's judgment, including an assessment of the risks of material misstatement of the subject matter, whether due to fraud or error.
- an examination also involves examining evidence about the subject matter or assertion.
- in making an assessment of the risks of material misstatement, the practitioner considered and obtained an understanding of internal control relevant to the subject matter in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, no such opinion is expressed.

.A84 The practitioner may decide to more fully describe the practitioner's responsibility, for example, to

- perform procedures to obtain evidence based on the practitioner's assessment of the risk of material misstatement about whether the subject matter is presented in accordance with (or based on) the criteria.
- obtain an understanding of internal control over the subject matter.

.A85 A practitioner may be requested to provide in a separate section of the practitioner's report a description of the procedures performed and the results thereof in support of the practitioner's opinion. The following factors are relevant when determining whether to include such a description in the report:

- Whether such a description is likely to overshadow the practitioner's overall opinion or cause report users to misunderstand the opinion

- Whether the parties making the request have an appropriate business need or reasonable basis for requesting the information (for example, the specified parties are required to maintain and monitor controls that either encompass or are dependent on controls that are the subject of an examination and, therefore, need information about the tests of controls to enable them to have a basis for concluding that they have met the requirements applicable to them)
- Whether the parties have an understanding of the nature and subject matter of the engagement and experience in using the information in such reports
- Whether the practitioner's procedures performed directly relate to the subject matter of the engagement

The addition of procedures performed and the results thereof in a separate section of an examination report may increase the potential for the report to be misunderstood when taken out of the context of the knowledge of the requesting parties. This potential for an increase in the risk of misunderstanding may lead the practitioner to add a restricted-use paragraph to the practitioner's report.

### ***Inherent Limitations (Ref: par. .63h)***

**.A86** In some cases, identification of specific inherent limitations is required by an AT-C section. For example, section 305, *Prospective Financial Information*, requires that the practitioner's report include a statement indicating that the prospective results may not be achieved.<sup>4</sup> To implement that requirement, the illustrative practitioner's examination report on a forecast in section 305 states, "There will usually be differences between the forecasted and actual results because events and circumstances frequently do not occur as expected, and those differences may be material."<sup>5</sup> When not explicitly required by an AT-C section, identification in the report of inherent limitations is based on the practitioner's judgment

### ***Opinion (Ref: par. .63i)***

**.A87** The practitioner's opinion can be worded either in terms of the subject matter and the criteria (for example, "In our opinion, the schedule of investment returns of XYZ Company for the year ended December 31, 20XX, is in accordance with [or based on] the ABC criteria set forth in Note 1, in all material respects."), or in terms of an assertion made by the responsible party (for example, "In our opinion, management's assertion that the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX, is presented in accordance with [or based on] the ABC criteria set forth in Note 1 is fairly stated, in all material respects.").

**.A88** The language of the practitioner's opinion in paragraph .63i(i) may need to be tailored to reflect the nature of the subject matter and criteria for the engagement. Examples of language that meet the requirements in paragraph .63i(i) include the following:

- The entity maintained effective internal control over the subject matter, in all material respects, based on the criteria.
- The subject matter is presented in accordance with (or based on) the criteria, in all material respects.

---

<sup>4</sup> Paragraph .32i of section 305, *Prospective Financial Information*.

<sup>5</sup> Example 1 in paragraph .A43 of section 305.

- The subject matter achieved the objectives, in all material respects (when the objectives are the criteria).
- The subject matter is free from material misstatement based on the criteria.
- The subject matter is presented fairly, in all material respects, based on the criteria. (The practitioner's professional judgment concerning the fairness of the presentation of the subject matter relates to whether the measurement, recognition, presentation, and disclosure of all material items in the presentation of the subject matter achieve fair presentation.)

**.A89** A single practitioner's report may cover more than one aspect of a subject matter or an assertion about the subject matter. When that is the case, the report may contain separate opinions or conclusions on each aspect of the subject matter or assertion (for example, examination level related to some aspects or assertions and review level related to others, or an unmodified opinion on some aspects or assertions and a modified opinion on others).

**.A90** A practitioner may report on subject matter or an assertion at multiple dates or covering multiple periods during which criteria have changed (for example, a practitioner's report on comparative information). Criteria are clearly described when they identify the criteria for each period and how the criteria have changed from one period to the next. If the criteria for the current date or period have changed from the criteria for a preceding date or period, changes in the criteria may be significant to users of the report. If so, the criteria and the fact that they have changed may be disclosed in the presentation of the subject matter, in the written assertion, or in the report, even if the subject matter for the preceding date or period is not presented.

#### ***Location (Ref: par. .63k)***

**.A91** In the United States, the location of the issuing office is the city and state. In another country, it may be the city and country.

#### ***Date (Ref: par. .63l)***

**.A92** Including the date of the practitioner's report informs the intended users that the practitioner has considered the effect of the events that occurred up to that date on the subject matter and the report.

**.A93** Because the practitioner expresses an opinion on the subject matter or assertion and the subject matter or assertion is the responsibility of the responsible party, the practitioner is not in a position to conclude that sufficient appropriate evidence has been obtained until evidence is obtained that all the elements that the subject matter or assertion comprises, including any related notes, when applicable, have been prepared, and the responsible party has accepted responsibility for them.

#### ***Restricted-Use Paragraph (Ref: par. .10, .50, .64, and .65b–c)***

**.A94** A practitioner's report for which the conditions in paragraph .64 do not apply need not include an alert that restricts its use. However, nothing in the attestation standards precludes a practitioner from including such an alert in any practitioner's report or other practitioner's written communication.

**.A95** A practitioner's report that is required by paragraph .64 to include an alert that restricts the use of the report may be included in a document that also contains a practitioner's report that is for general use. In such circumstances, the use of the general use report is not affected.

**.A96** A practitioner may also issue a single combined practitioner's report that includes (a) a practitioner's report that is required by paragraph .64 to include an alert that restricts its use, and (b) a report that is for general use. If these two types of reports are clearly differentiated within the combined report, such as through the use of appropriate headings, the alert that restricts the use of the report may be limited to the report required by paragraph .64 to include such an alert. In such circumstances, the use of the general use report is not affected.

**.A97** The written representations required by paragraph .50 include an assertion. If the engaging party is not the responsible party and the responsible party provides an oral assertion rather than a written assertion, paragraph .64c calls for an alert that restricts the use of the practitioner's report to the engaging party.

**.A98** The practitioner may identify the specified parties by naming them, referring to a list of those parties, or identifying the class of parties, for example, "all customers of XYZ Company during some or all of the period January 1, 20XX to December 31, 20XX." The method of identifying the specified parties is determined by the practitioner.

**.A99** In some cases, the criteria used to measure or evaluate the subject matter may be designed for a specific purpose. For example, a regulator may require certain entities to use particular criteria designed for regulatory purposes. To avoid misunderstandings, the practitioner alerts users of the practitioner's report to this fact and, therefore, that the report is intended solely for the information and use of the specified parties.

**.A100** The alert that restricts the use of the practitioner's report is designed to avoid misunderstandings related to the use of the report, particularly if the report is taken out of the context in which the report is intended to be used. A practitioner may consider informing the responsible party and, if different, the engaging party or other specified parties that the report is not intended for distribution to parties other than those specified in the report. The practitioner may, in connection with establishing the terms of the engagement, reach an understanding with the responsible party or, if different, the engaging party, that the intended use of the report will be restricted and may obtain the responsible party's agreement that the responsible party and specified parties will not distribute such report to parties other than those identified therein. A practitioner is not responsible for controlling, and cannot control, distribution of the report after its release.

**.A101** In some cases, a restricted-use practitioner's report filed with regulatory agencies is required by law or regulation to be made available to the public as a matter of public record. Also, a regulatory agency, as part of its oversight responsibility for an entity, may require access to a restricted-use report in which it is not named as a specified party.

## **Reference to the Practitioner's Specialist (Ref: par. .67)**

**.A102** The practitioner has sole responsibility for the opinion expressed, and that responsibility is not reduced by the practitioner's use of the work of a practitioner's specialist.

## **Modified Opinions (Ref: par. .68, .70, and .74)**

**.A103** The three types of modified opinions are a qualified opinion, an adverse opinion, and a disclaimer of opinion. The decision regarding which type of modified opinion is appropriate depends upon the following:

- a. The nature of the matter giving rise to the modification (that is, whether the subject matter of the engagement is in accordance with [or based on] the criteria, in all material respects or, in the case of an inability to obtain sufficient appropriate evidence, may be materially misstated)
- b. The practitioner's professional judgment about the pervasiveness of the effects or possible effects of the matter on the subject matter of the engagement

**.A104** A practitioner may express an unmodified opinion only when the engagement has been conducted in accordance with the attestation standards. Such standards will not have been complied with if the practitioner has been unable to apply all the procedures that the practitioner considers necessary in the circumstances.

**.A105** The term *pervasive* describes the effects on the subject matter of misstatements or the possible effects on the subject matter of misstatements, if any, that are undetected due to an inability to obtain sufficient appropriate evidence. Pervasive effects on the subject matter are those that, in the practitioner's professional judgment

- a. are not confined to specific aspects of the subject matter;
- b. if so confined, represent or could represent a substantial proportion of the subject matter; or
- c. in relation to disclosures, are fundamental to the intended users' understanding of the subject matter.

**.A106** The following table illustrates how the practitioner's professional judgment about the nature of the matter giving rise to the modification and the pervasiveness of its effects or possible effects on the subject matter affects the type of practitioner's report to be issued.

<i>Nature of Matter Giving Rise to the Modification</i>	<i>Practitioner's Professional Judgment About the Pervasiveness of the Effects or Possible Effects on the Subject Matter</i>	
	<i>Material but Not Pervasive</i>	<i>Material and Pervasive</i>
Scope limitation. An inability to obtain sufficient appropriate evidence.	Qualified opinion	Disclaimer of opinion
Subject matter is materially misstated.	Qualified opinion	Adverse opinion

**.A107** A scope limitation may arise from the following:

- a. Circumstances beyond the control of the appropriate party(ies). For example, documentation that the practitioner considers necessary to inspect may have been accidentally destroyed.
- b. Circumstances relating to the nature or timing of the practitioner's work. For example, a physical process that the practitioner considers necessary to observe may have occurred before the practitioner's engagement.
- c. Limitations imposed by the responsible party or the engaging party on the practitioner that, for example, may prevent the practitioner from performing a procedure that the practitioner

considers necessary in the circumstances. Limitations of this kind may have other implications for the engagement, such as for the practitioner's consideration of risks of material misstatement and engagement acceptance and continuance.

**.A108** The inability to obtain written representations from the responsible party ordinarily would result in a scope limitation. However, when the engaging party is not the responsible party, paragraph .51 enables the practitioner to make inquiries of the responsible party and if the responsible party's oral responses enable the practitioner to conclude that the practitioner has sufficient appropriate evidence to form an opinion about the subject matter, paragraph .56a indicates this would not cause a scope limitation. Further, paragraph .56a requires that the practitioner's report in these circumstances contain an alert paragraph that restricts the use of the report to the engaging party.

**.A109** The practitioner's decision to express a qualified opinion, disclaim an opinion, or withdraw from the engagement because of a scope limitation depends on an assessment of the effect of the omitted procedure(s) on the practitioner's ability to express an opinion. This assessment will be affected by the nature and magnitude of the potential effects of the matters in question and by their significance to the subject matter or assertion.

**.A110** An inability to perform a specific procedure does not constitute a scope limitation if the practitioner is able to obtain sufficient appropriate evidence by performing alternative procedures.

## **Responsible Party Refuses to Provide a Written Assertion (Ref: par. .84)**

**.A111** The following is an example of the disclosure required by paragraph .84:

Attestation standards established by the American Institute of Certified Public Accountants require that we request a written statement from *[identify the responsible party]* stating that *[identify the subject matter]* that we examined has been accurately measured or evaluated. We requested that *[identify the responsible party]* provide such a written statement but *[identify the responsible party]* refused to do so.

**.A112** The practitioner's report discussed in paragraph .84 is appropriate only when the engagement is to report on the subject matter; it is not appropriate for a report on an assertion. When reporting on an assertion, the practitioner is required to obtain a written assertion from the responsible party.

**.A113** If the responsible party's failure to provide the practitioner with written representations causes the practitioner to conclude that a scope limitation exists and, thus, qualify or disclaim an opinion, the practitioner need not restrict the use of the practitioner's report but is required by paragraph .69 to describe the matter that gave rise to the modified opinion. Paragraph .A94 notes, however, that the practitioner is not precluded from restricting the use of any report.

## **Communication Responsibilities (Ref: par. .85–.86)**

**.A114** Other matters that may be appropriate to communicate to the responsible party or, if different, the engaging party, include bias in the measurement, evaluation, or disclosure of the subject matter. (Ref: par. .85)

**.A115** The practitioner's professional duty to maintain the confidentiality of client information may preclude the practitioner from reporting identified or suspected noncompliance with laws or regulations that is not relevant to the

subject matter to a party other than the responsible party and, if different, the engaging party. However, the practitioner's legal responsibilities may vary by jurisdiction, and in certain circumstances, the duty of confidentiality may be overridden by statute, the law, or courts of law. In the following circumstances, a duty to notify parties outside the entity may exist:

- In response to a court order
- In compliance with requirements for examinations of entities that receive financial assistance from a government agency

Because potential conflicts with the practitioner's ethical and legal obligations for confidentiality may be complex, the practitioner may consult with legal counsel before discussing noncompliance with parties outside the entity. (Ref: par. .86)

**.A116** If the practitioner is performing an examination engagement in accordance with *Government Auditing Standards*, the practitioner may be required to report on compliance with laws, regulations, and provisions of contracts or grant agreements as part of the examination. The practitioner also may be required to communicate instances of noncompliance to appropriate oversight bodies and funding agencies. (Ref: par. .86)

## Documentation (Ref: par. .87)

**.A117** Documentation includes a record of the practitioner's reasoning on all significant findings or issues that require the exercise of professional judgment and related conclusions. The existence of difficult questions of principle or professional judgment calls for the documentation to include the relevant facts that were known by the practitioner at the time the conclusion was reached.

**.A118** It is neither necessary nor practical to document every matter considered, or professional judgment made, during an engagement. Further, it is unnecessary for the practitioner to document separately (as in a checklist, for example) compliance with matters for which compliance is demonstrated by documents included in the engagement file. Similarly, the practitioner need not include in the engagement file superseded drafts of working papers, notes that reflect incomplete or preliminary thinking, previous copies of documents corrected for typographical or other errors, and duplicates of documents.

**.A119** In applying professional judgment to assess the extent of documentation to be prepared and retained, the practitioner may consider what is necessary to provide an experienced practitioner, having no previous connection with the engagement, with an understanding of the work performed and the basis of the principal decisions made.

**.A120** Documentation ordinarily includes a record of

- issues identified with respect to compliance with relevant ethical requirements and how they were resolved.
- conclusions on compliance with independence requirements that apply to the engagement and any relevant discussions with the firm that support these conclusions.
- conclusions reached regarding the acceptance and continuance of client relationships and attestation engagements.
- the nature and scope of, and conclusions resulting from, consultations undertaken during the course of the engagement.

.A121

## Exhibit—Illustrative Practitioner’s Examination Reports

The illustrative practitioner's examination reports in this exhibit meet the applicable reporting requirements in paragraphs .61–.84. A practitioner may use alternative language in drafting an examination report, provided that the language meets the applicable requirements in paragraphs .61–.84. The criteria for evaluating the subject matter in examples 1–3 and 5–6 have been determined by the practitioner to be suitable and available to all users of the practitioner's report; therefore, these practitioner's reports may be for general use. The criteria for evaluating the subject matter in example 4 are suitable but available only to specified parties; therefore, use of this practitioner's report is restricted to the specified parties who either participated in the establishment of the criteria or can be presumed to have an adequate understanding of the criteria. (See paragraph .65 for the information to be included in a separate paragraph of the report that contains an alert that restricts the use of the report and paragraph .66 for the content of that paragraph when the engagement is also performed in accordance with *Government Auditing Standards*.)

### Example 1: Practitioner’s Examination Report on Subject Matter; Unmodified Opinion

The following is an illustrative practitioner's report for an examination engagement in which the practitioner has examined the subject matter and is reporting on the subject matter.

#### Independent Accountant's Report

*[Appropriate Addressee]*

We have examined *[identify the subject matter, for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*. XYZ Company's management is responsible for *[identify the subject matter, for example, presenting the schedule of investment returns]* in accordance with (or based on) *[identify the criteria, for example, the ABC criteria set forth in Note 1]*. Our responsibility is to express an opinion on *[identify the subject matter, for example, the schedule of investment returns]* based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether *[identify the subject matter, for example, the schedule of investment returns]* is in accordance with (or based on) the criteria, in all material respects. An examination involves performing procedures to obtain evidence about *[identify the subject matter, for example, the schedule of investment returns]*. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of *[identify the subject matter, for example, the schedule of investment returns]*, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

*[Include a description of significant inherent limitations, if any, associated with the measurement or evaluation of the subject matter against the criteria.]*

*[Additional paragraph(s) may be added to emphasize certain matters relating to the attestation engagement or the subject matter.]*

In our opinion, *[identify the subject matter, for example, the schedule of investment returns of XYZ Company for the year ended December 31, 20XX or the schedule of investment returns referred to above]*, is presented in accordance with (or based on) *[identify the criteria, for example, the ABC criteria set forth in Note 1]*, in all material respects.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

## **Example 2: Practitioner's Examination Report on an Assertion; Unmodified Opinion**

The following is an illustrative practitioner's report for an examination engagement in which the practitioner has examined the responsible party's assertion and is reporting on that assertion.

### **Independent Accountant's Report**

*[Appropriate Addressee]*

We have examined management of XYZ Company's assertion that *[identify the assertion, including the subject matter and the criteria, for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX, is presented in accordance with [or based on] the ABC criteria set forth in Note 1]*. XYZ Company's management is responsible for its assertion. Our responsibility is to express an opinion on management's assertion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertion is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about management's assertion. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management's assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

*[Include a description of significant inherent limitations, if any, associated with the measurement or evaluation of the subject matter against the criteria.]*

*[Additional paragraph(s) may be added to emphasize certain matters relating to the attestation engagement or the subject matter.]*

In our opinion, management's assertion that *[identify the assertion, including the subject matter and the criteria, for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX, is presented in accordance with [or based on] the ABC criteria set forth in Note 1]* is fairly stated, in all material respects.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

**Example 3: Practitioner's Examination Report in Which the Practitioner Examines Management's Assertion and Reports Directly on the Subject Matter; Unmodified Opinion**

The following is an illustrative practitioner's report for an examination engagement in which the practitioner has examined the responsible party's assertion and is reporting directly on the subject matter.

**Independent Accountant's Report**

*[Appropriate Addressee]*

We have examined management of XYZ Company's assertion that *[identify the assertion, including the subject matter and the criteria, for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX, is presented in accordance with [or based on] the ABC criteria set forth in Note 1]*. XYZ Company's management is responsible for its assertion. Our responsibility is to express an opinion on *[identify the subject matter, for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*, based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether *[identify the subject matter, for example, the schedule of investment returns]* is presented in accordance with (or based on) the criteria, in all material respects. An examination involves performing procedures to obtain evidence about *[identify the subject matter, for example, the schedule of investment returns]*. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of *[identify the subject matter, for example, the schedule of investment returns]*, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

*[Include a description of significant inherent limitations, if any, associated with the measurement or evaluation of the subject matter against the criteria.]*

*[Additional paragraph(s) may be added to emphasize certain matters relating to the attestation engagement or the subject matter.]*

In our opinion, *[identify the subject matter, for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX or the schedule of investment returns referred to above]* is presented in accordance with (or based on) *[identify the criteria, for example, the ABC criteria set forth in Note 1]*, in all material respects.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

**Example 4: Practitioner's Examination Report on Subject Matter; Unmodified Opinion; Use of the Practitioner's Report Is Restricted to Specified Parties**

The following is an illustrative practitioner's report for an examination engagement in which the criteria are suitable, but available only to specified parties; therefore, use of the report is restricted to the specified parties who either participated in the establishment of the criteria or can be presumed to have an adequate understanding of the criteria. The practitioner has examined the subject matter and is reporting on the subject matter.

**Independent Accountant's Report**

[Appropriate Addressee]

We have examined [identify the subject matter, for example, the number of widgets sold by XYZ Company to ABC Company (or tons of coal mined by XYZ Company... or gallons of gas sold in the United States by XYZ Company to ABC Company) during the year ended December 31, 20XX,] to determine whether it has been calculated in accordance with (or based on) [identify the criteria, for example, the agreement dated (date) between ABC Company and XYZ Company, as further described in Note 1]. XYZ Company's management is responsible for [identify the subject matter, for example, calculating the number of widgets sold]. Our responsibility is to express an opinion on [identify the subject matter, for example, the number of widgets sold by XYZ Company to ABC Company (or tons of coal mined by XYZ Company... or gallons of gas sold in the United States by XYZ Company to ABC Company) during the year ended December 31, 20XX,] based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether [identify the subject matter, for example, the number of widgets sold, tons of coal mined, or gallons of gas sold] is in accordance with (or based on) the criteria, in all material respects. An examination involves performing procedures to obtain evidence about [identify the subject matter, for example, the number of widgets sold, tons of coal mined, or gallons of gas sold]. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of [identify the subject matter, for example, the number of widgets sold by XYZ Company to ABC Company (or tons of coal mined by XYZ Company, or gallons of gas sold in the United States by XYZ Company to ABC Company)], whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

[Include a description of significant inherent limitations, if any, associated with the measurement or evaluation of the subject matter against the criteria.]

[Additional paragraph(s) may be added to emphasize certain matters relating to the attestation engagement or the subject matter.]

In our opinion, [identify the subject matter, for example, the number of widgets sold by XYZ Company to ABC Company (or tons of coal mined by XYZ Company, or gallons of gas sold in the United States by XYZ Company to ABC Company) during the year ended December 31, 20XX,] has been calculated in accordance with (or based on) [identify the criteria, for example, the agreement dated (date) between ABC Company and XYZ Company, as further described in Note 1], in all material respects.

This report is intended solely for the information and use of [identify the specified parties, for example, ABC Company and XYZ Company], and is not intended to be and should not be used by anyone other than the specified parties.

[Practitioner's signature]

[Practitioner's city and state]

[Date of practitioner's report]

**Example 5: Practitioner's Examination Report on Subject Matter;  
Qualified Opinion**

The following is an illustrative practitioner's report for an examination engagement in which the practitioner expresses a qualified opinion because conditions

exist that, individually or in combination, result in one or more material, but not pervasive, misstatements of the subject matter based on (or in certain engagements, deviations from, exceptions to, or instances of noncompliance with) the criteria. The practitioner has examined the subject matter and is reporting on the subject matter. Paragraph .79 states, "If the practitioner has concluded that conditions exist that, individually or in combination, result in one or more material misstatements based on the criteria, the practitioner should modify the opinion and should express a qualified or adverse opinion directly on the subject matter, not on the assertion, even when the assertion acknowledges the misstatement."

### **Independent Accountant's Report**

*[Appropriate Addressee]*

We have examined *[identify the subject matter, for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*. XYZ Company's management is responsible for *[identify the subject matter, for example, presenting the schedule of investment returns]* in accordance with (or based on) *[identify the criteria, for example, the ABC criteria set forth in Note 1]*. Our responsibility is to express an opinion on *[identify the subject matter, for example, the schedule of investment returns]* based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether *[identify the subject matter, for example, the schedule of investment returns]* is presented in accordance with (or based on) the criteria, in all material respects. An examination involves performing procedures to obtain evidence about *[identify the subject matter, for example, the schedule of investment returns]*. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of *[identify the subject matter, for example, the schedule of investment returns]*, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

*[Include a description of significant inherent limitations, if any, associated with the measurement or evaluation of the subject matter against the criteria.]*

*[Additional paragraph(s) may be added to emphasize certain matters relating to the attestation engagement or the subject matter.]*

Our examination disclosed *[describe condition(s) that, individually or in the aggregate, resulted in a material misstatement or deviation from the criteria]*.

In our opinion, except for the material misstatement *[or deviation from the criteria]* described in the preceding paragraph, *[identify the subject matter, for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX, or the schedule of investment returns referred to above]*, is presented in accordance with (or based on) *[identify the criteria, for example, the ABC criteria set forth in Note 1]*, in all material respects.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

**Example 6: Practitioner's Examination Report; Practitioner Engaged to Report on Subject Matter; Disclaimer of Opinion Because of Scope Limitation**

The following is an illustrative practitioner's report for an examination engagement in which the practitioner was engaged to report on the subject matter but is disclaiming an opinion because of a scope limitation. (See paragraphs .68–.84 and the related application guidance for reporting guidance when a scope limitation exists.)

**Independent Accountant's Report**

*[Appropriate Addressee]*

We were engaged to examine *[identify the subject matter, for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*, in accordance with (or based on) *[identify the criteria, for example, the ABC criteria set forth in Note 1]*. XYZ Company's management is responsible for *[identify the subject matter, for example, presenting the schedule of investment returns]*. Our responsibility is to express an opinion on *[identify the subject matter, for example, the schedule of investment returns]* based on conducting the examination in accordance with attestation standards established by the American Institute of Certified Public Accountants.

*[The first sentence of the practitioner's report has been revised to state, "We were engaged to examine" rather than "We have examined." The standards under which the practitioner conducts an examination have been identified at the end of the second sentence of the report, rather than in a separate sentence in the second paragraph of the report.]*

*[The report should omit statements*

- *indicating what those standards require of the practitioner.*
- *indicating that the practitioner believes the evidence obtained is sufficient and appropriate to provide a reasonable basis for the practitioner's opinion.*
- *describing the nature of an examination engagement.]*

*[Include a paragraph to describe scope limitations.]*

Because of the limitation on the scope of our examination discussed in the preceding paragraph, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on whether *[identify the subject matter, for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX, or the schedule of investment returns referred to above]* is in accordance with (or based on) *[identify the criteria, for example, the ABC criteria set forth in Note 1]*, in all material respects.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

## AT-C Section 9205

# Examination Engagements: Attestation Interpretations of Section 205

## 1. Reporting on Attestation Engagements Performed in Accordance With Government Auditing Standards<sup>1</sup>

**.01 Question**—Chapter 5, "Standards for Attestation Engagements," of the 2011 revision of *Government Auditing Standards* (referred to herein as the Yellow Book) sets forth additional fieldwork and reporting standards for attestation engagements performed pursuant to generally accepted government auditing standards (GAGAS). Practitioners performing attestation engagements under GAGAS are also required to follow the general standards set forth in chapter 3, "General Standards," of the Yellow Book, as well as the guidance and requirements in chapter 1, "Government Auditing: Foundation and Ethical Principles," and chapter 2, "Standards for Use and Application of GAGAS." For examination attestation engagements performed pursuant to GAGAS, paragraph 5.18 of the Yellow Book prescribes additional reporting standards<sup>2</sup> that go beyond the standards of reporting set forth in section 205, *Examination Engagements*, and section 210, *Review Engagements*.<sup>3</sup> When a practitioner performs an attestation examination in accordance with GAGAS, how should the report be modified?

**.02 Interpretation**—The practitioner should modify the scope paragraph of the attestation report to indicate that the examination or review was "conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States."

**.03** Additionally, GAGAS requires the practitioner's attestation report to disclose any matters (often referred to as *findings*) that are set forth in paragraphs 5.20–.26 of the Yellow Book. Paragraphs 5.27–.28 of the Yellow Book set forth the presentation requirements that the practitioner should use, to the extent possible, in reporting a finding. The following illustration is a standard examination report modified to make reference to a schedule of findings when any of the matters set forth in paragraphs 5.20–.26 have been identified. This

---

<sup>1</sup> Although separate interpretations for other AT-C sections have not been issued to address attestation engagements performed in accordance with *Government Auditing Standards*, a practitioner may use this guidance to help the practitioner appropriately modify an attestation report pursuant to other AT-C sections.

<sup>2</sup> Paragraph 5.18 of the Yellow Book sets forth the additional reporting requirements: (a) reporting auditors' compliance with generally accepted government auditing standards, (b) reporting deficiencies in internal control, fraud, noncompliance with provisions of laws, regulations, contracts, and grant agreements, and abuse, (c) reporting views of responsible officials, (d) reporting confidential or sensitive information, and (e) distributing reports. [Footnote revised, January 2008, to reflect conforming changes necessary due to the issuance of the 2007 revised *Government Auditing Standards*. Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of the 2011 revision of *Government Auditing Standards*.]

<sup>3</sup> Paragraphs .61–.84 of section 205, *Examination Engagements*, and paragraphs .44–.60 of section 210, *Review Engagements*.

report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. A written assertion has been obtained from the responsible party. Although the following illustrative report modifications would comply with the Yellow Book requirement, this illustration is not intended to preclude a practitioner from complying with these additional Yellow Book reporting requirements in other ways. In this illustrative report, the practitioner is reporting on the subject matter.

### **Independent Accountant's Report**

We have examined *[identify the subject matter, for example, the accompanying schedule of performance measures of XYZ Agency for the year ended December 31, 20XX]*<sup>4</sup> XYZ Agency's management is responsible for presenting the *[identify the subject matter, for example, the schedule of performance measures]* in accordance with *[identify the criteria]*. Our responsibility is to express an opinion on *[identify the subject matter, for example, the accompanying schedule of performance measures of XYZ Agency for the year ended December 31, 20XX]*, based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's *[identify the subject matter, for example, the accompanying schedule of performance measures of XYZ Agency for the year ended December 31, 20XX]* is in accordance with *[identify the criteria]*, in all material respects. An examination involves performing procedures to obtain evidence about *[identify the subject matter, for example, the accompanying schedule of performance measures of XYZ Agency for the year ended December 31, 20XX]*. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of the *[identify the subject matter, for example, the accompanying schedule of performance measures of XYZ Agency for the year ended December 31, 20XX]*, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

*[Additional paragraph(s) may be added to emphasize certain matters relating to the attestation engagement or the subject matter.]*

In our opinion, the schedule referred to above presents *[identify the subject matter, for example, the performance measures of XYZ Agency for the year ended December 31, 20XX]*, in accordance with *[identify criteria, for example, the criteria set forth in Note 1]*, in all material respects.

*[When any of the matters set forth in paragraphs 5.20–26 of the Yellow Book have been identified, the following paragraph would be added.]*

In accordance with *Government Auditing Standards*, we are required to report all deficiencies that are considered to be significant deficiencies or material weaknesses in internal control; fraud and noncompliance with provisions

---

<sup>4</sup> If the practitioner is reporting on an assertion about the subject matter, the practitioner would identify the assertion, rather than the subject matter, for example, "management's assertion that the accompanying schedule presents the performance measures of XYZ Agency for the year ended December 31, 20XX, in conformity with the criteria in Note 1." [Footnote added, December 2012, to reflect conforming changes necessary due to the issuance of the 2011 revision of *Government Auditing Standards*.]

of laws or regulations that have a material effect on [*identify the subject matter, for example, XYZ Agency's schedule of performance measures*]; and any other instances that warrant the attention of those charged with governance; noncompliance with provisions of contracts or grant agreements, and abuse that has a material effect on the subject matter.<sup>5</sup> We are also required to obtain and report the views of responsible officials concerning the findings, conclusions, and recommendations, as well as any planned corrective actions. We performed our examination to express an opinion on whether [*identify the subject matter, for example, XYZ Agency's schedule of performance measures*] is presented in accordance with the criteria described above and not for the purpose of expressing an opinion on the internal control over [*identify the subject matter, for example, reporting of performance measures*] or on compliance and other matters; accordingly, we express no such opinions. Our examination disclosed certain findings that are required to be reported under *Government Auditing Standards* and those findings, along with the views of responsible officials, are described in the attached Schedule of Findings.<sup>6</sup>

[*Practitioner's signature*]  
 [*Practitioner's city and state*]

###### Criteria

###### Condition

###### Cause

###### Effect or Potential Effect

###### Management's Response

<sup>5</sup> Note that paragraph 5.25 of the Yellow Book states that when auditors detect instances of noncompliance with provisions of contracts or grant agreements or abuse that have an effect on the subject matter or an assertion about the subject matter that is less than material but warrant the attention of those charged with governance, they should communicate those findings in writing to entity officials. When auditors detect any instances of fraud, noncompliance with provisions of laws, regulations, contracts, or grant agreements, or abuse that do not warrant the attention of those charged with governance, the auditors' determination of whether and how to communicate such instances to audited entity officials is a matter of professional judgment. [Footnote added, January 2008, to reflect conforming changes necessary due to the issuance of the 2007 revised *Government Auditing Standards*. ## 2. Reporting on the Design of Internal Control

**.04 Question**—A practitioner may be asked to report on the suitability<sup>8</sup> of the design of an entity's internal control over financial reporting (internal control) for preventing, or detecting and correcting, material misstatements of the entity's financial statements on a timely basis. Such requests may be made by, for example,

- an entity applying for a government grant or contract that is required to submit a written pre-award survey by management about the suitability of the design of the entity's internal control or a portion of the entity's internal control, together with a practitioner's report thereon.
- a new casino applying for a license to operate that is required by a regulatory agency to submit a practitioner's report on whether the entity's internal control *that it plans to implement* is suitably designed to provide reasonable assurance that the control objectives specified in the regulatory agency's regulations would be achieved. (In this situation, the casino would not yet have begun operations, and audited financial statements or financial data relevant to the period covered by the engagement may not exist.)

May a practitioner report on the suitability of the design of an entity's internal control based on the risk assessment procedures the auditor performs to obtain a sufficient understanding of the entity and its environment, including its internal control, in an audit of the entity's financial statements?

**.05 Interpretation**—No. In a financial statement audit, the purpose of the auditor's understanding of the entity and its environment, including its internal control, is to enable the auditor to assess the risk of material misstatement of the financial statements whether due to error or fraud, and to design the nature, timing, and extent of further audit procedures. The understanding obtained in a financial statement audit does not provide the practitioner with a sufficient basis to report on the suitability of the design of an entity's internal control or any portion thereof.

**.06 Question**—How may a practitioner report on the suitability of the design of an entity's internal control or a portion thereof?

---

<sup>8</sup> In this interpretation, the *suitability of the design of internal control* means the same thing as the *design effectiveness of an entity's internal control*. [Footnote renumbered, December 2012, to reflect conforming changes necessary due to the issuance of the 2011 revision of *Government Auditing Standards*.]

**.07 Interpretation**—The practitioner may perform an examination of the suitability of the design of an entity's internal control under section 205 or apply agreed-upon procedures to that subject matter under section 215. AU-C section 940, *An Audit of Internal Control Over Financial Reporting That Is Integrated With an Audit of Financial Statements*, does not directly apply when a practitioner is engaged to examine the suitability of design of an entity's internal control. However, it may be useful in planning and performing such engagements. Paragraphs .33 and .A61–.A62 of AU-C section 940 discuss how the auditor evaluates the design effectiveness of controls.

**.08** When the engagement involves the application of agreed-upon procedures related to the suitability of the design of an entity's internal control over compliance with specified requirements, the practitioner should follow the provisions of section 315, *Compliance Attestation*.<sup>9</sup>

**.09** The following is an illustrative report a practitioner may issue when reporting on the suitability of the design of an entity's internal control that has been implemented. The report may be modified, as appropriate, to fit the particular circumstances.

### **Independent Accountant's Report**

#### *[Introductory paragraph]*

We have examined the suitability of the design of W Company's internal control over financial reporting to prevent, or detect and correct, material misstatements in its financial statements on a timely basis as of December 31, 20XX.<sup>10</sup> W Company's management is responsible for the suitability of the design of W Company's internal control over financial reporting, based on *[identify the criteria]*. Our responsibility is to express an opinion on the suitability of the design of W Company's internal control over financial reporting based on our examination.

#### *[Scope paragraph]*

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether W Company's internal control over financial reporting was suitably designed based on *[identify the criteria]*, in all material respects. An examination involves performing procedures to obtain evidence about the suitability of the design of W Company's internal control over financial reporting. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of a material weakness in the suitability of the design of W Company's internal control over financial reporting. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion. We were not engaged to examine and report on the operating effectiveness of W Company's internal control over financial reporting as of December 31, 20XX, and, accordingly, we express no opinion on operating effectiveness.

#### *[Inherent limitations paragraph]*

Because of its inherent limitations, internal control over financial reporting may not prevent or detect and correct misstatements. Also, projections of any

---

<sup>9</sup> Paragraphs .01–.05, .07–.08, and .23–.26 of section 315, *Compliance Attestation*.

<sup>10</sup> This report assumes that the control criteria are both suitable and available to users as discussed in paragraph .25b(ii) of section 105, *Concepts Common to All Attestation Engagements*. Therefore, the use of this report is not restricted. [Footnote renumbered, December 2012, to reflect conforming changes necessary due to the issuance of the 2011 revision of *Government Auditing Standards*.]

evaluation of the suitability of the design or effectiveness of W Company's internal control over financial reporting to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

*[Opinion paragraph]*

In our opinion, W Company's internal control over financial reporting was suitably designed to prevent, or detect and correct, material misstatements in the financial statements on a timely basis as of December 31, 20XX, based on *[identify criteria]*.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

**.10** When reporting on the suitability of the design of an entity's internal control that has not yet been implemented, the practitioner would be unable to confirm that the controls have been implemented and should disclose that information in the practitioner's report. In those circumstances, the practitioner should modify (1) the scope paragraph of the illustrative report in paragraph .09 to inform readers that the controls identified in the report have not yet been implemented and (2) the inherent limitations paragraph to reflect the related risk. Following are modified illustrative report paragraphs for use when controls have not yet been implemented.

(New language is shown in boldface italics. Deleted language is shown in strikethrough.)

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether W Company's internal control over financial reporting was suitably designed based on *[identify the criteria]*, in all material respects. An examination involves performing procedures to obtain evidence about the suitability of the design of W Company's internal control over financial reporting. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of a material weakness in the suitability of the design of W Company's internal control over financial reporting. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion. ***Because operations had not begun as of December 31, 20XX, we could not confirm that the specified controls were implemented. Accordingly, our report solely addresses the suitability of the design of the Company's internal control and does not address whether the controls were implemented. Furthermore, because the specified controls have not yet been implemented, we were unable to test, and did not test,*** the operating effectiveness of W Company's internal control over financial reporting as of December 31, 20XX, and, accordingly, we express no opinion on operating effectiveness.

*[Inherent limitations paragraph]*

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements. Also, projections of any evaluation of the suitability of the design or effectiveness of W Company's internal control over financial reporting to future periods are subject to the risk that controls ***may not be implemented as intended when operations begin*** or may become inadequate because of changes in conditions, ~~or that the degree of compliance with the policies or procedures may deteriorate.~~

**.11 Question**—A practitioner may be asked to sign a prescribed form developed by the party to whom the form is to be submitted regarding the design

of an entity's internal control. What are the practitioner's responsibilities when requested to sign such a form if it includes language that is not consistent with the practitioner's function or responsibility or with the reporting requirements of professional standards?

**.12 Interpretation**—In the circumstances described in paragraph .11 of this interpretation, section 105, *Concepts Common to All Attestation Engagements*, requires the practitioner to reword the prescribed form of report or attach an appropriately worded separate report.<sup>11</sup> Section 105 indicates that some report forms can be made acceptable by inserting additional wording to include the report elements required by the applicable section.<sup>12</sup> However, some report forms required by law or regulation can be made acceptable only by complete revision because the prescribed language of the practitioner's report calls for statements by the practitioner that are not consistent with the practitioner's function or responsibility, for example, a report form that requests the practitioner to "certify" the subject matter. When reporting on the suitability of the design of an entity's internal control under section 205, the practitioner's report should contain all of the report elements required by section 205, which can be accomplished by either rewording the prescribed form of report or attaching an appropriately worded separate report in place of the prescribed form.<sup>13</sup>

**.13 Question**—An entity may be required to submit a practitioner's report about an entity's *ability* to establish suitably designed internal control (or its assertion thereon). May a practitioner issue such a report based on (a) the risk assessment procedures related to existing internal control that the auditor performs in an audit of an entity's financial statements or (b) the performance of an attestation engagement?

**.14 Interpretation**—No. Neither the risk assessment procedures the auditor performs in an audit of an entity's financial statements nor the performance of an attestation engagement provide the practitioner with a basis for issuing a report on the *ability* of an entity to establish suitably designed internal control. There are no suitable criteria for evaluating an entity's ability to establish suitably designed internal control. The requesting party may be willing to accept a report of the practitioner on a consulting service. The practitioner may include in the consulting service report

- a. a statement that the practitioner is unable to perform an attestation engagement that addresses the entity's ability to establish suitably designed internal control because there are no suitable criteria for evaluating the entity's ability to do so;
- b. a description of the nature and scope of the practitioner's services; and
- c. the practitioner's findings.

The practitioner may refer to the guidance in CS section 100, *Consulting Services: Definitions and Standards*.

[Issue Date: December 2008; Revised: December 2012; Revised: April 2016, effective for practitioners' reports dated on or after May 1, 2017.]

<sup>12</sup> Paragraph .A28 of section 105.

<sup>13</sup> Paragraph .63–.66 of section 205.

## AT-C Section 210\*

### *Review Engagements*

**Source:** SSAE No. 18.

**Effective for practitioners' review reports dated on or after May 1, 2017.**

#### **Introduction**

.01 This section contains performance and reporting requirements and application guidance for all review engagements. The requirements and guidance in this section supplement the requirements and guidance in section 105, *Concepts Common to All Attestation Engagements*.

#### **Effective Date**

.02 This section is effective for practitioners' review reports dated on or after May 1, 2017.

#### **Objectives**

.03 In conducting a review engagement, the objectives of the practitioner are to

- a. obtain limited assurance about whether any material modifications should be made to the subject matter in order for it to be in accordance with (or based on) the criteria;
- b. express a conclusion in a written report about whether the practitioner is aware of any material modifications that should be made to
  - i. the subject matter in order for it to be in accordance with (or based on) the criteria or
  - ii. the responsible party's assertion in order for it to be fairly stated; and
- c. communicate further as required by relevant AT-C sections.

#### **Definitions**

.04 For purposes of this section, the following terms have the meanings attributed as follows:

**Appropriateness of review evidence.** The measure of the quality of review evidence, that is, its relevancy and reliability in providing support for the practitioner's conclusion.

**Review evidence.** Information used by the practitioner in obtaining limited assurance on which the practitioner's review report is based.

---

\* This section contains an "AT-C" identifier, instead of an "AT" identifier, to avoid confusion with references to existing "AT" sections, which remain effective through April 2017.

**Sufficiency of review evidence.** The measure of the quantity of review evidence. The quantity of the review evidence needed is affected by the risks of material misstatement and also by the quality of such evidence.

## Requirements

### Conduct of a Review Engagement

**.05** In performing a review engagement, the practitioner should comply with this section, section 105, and any subject-matter AT-C section that is relevant to the engagement. A subject-matter AT-C section is relevant to the engagement when it is in effect, and the circumstances addressed by the AT-C section exist. (Ref: par. .A1)

**.06** The practitioner should consider whether the nature of review procedures would enable the practitioner to obtain sufficient appropriate review evidence to obtain limited assurance. (Ref: par. .A2)

**.07** A practitioner should not perform a review of (Ref: par. .A2)

- a. prospective financial information,
- b. internal control, or
- c. compliance with requirements of specified laws, regulations, rules, contracts, or grants.

### Agreeing on the Terms of the Engagement

**.08** The practitioner should agree upon the terms of the engagement with the engaging party. The agreed-upon terms of the engagement should be specified in sufficient detail in an engagement letter or other suitable form of written agreement. (Ref: par. .A3)

**.09** The agreed-upon terms of the engagement should include the following:

- a. The objective and scope of the engagement
- b. The responsibilities of the practitioner (Ref: par. .A4)
- c. A statement that the engagement will be conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants
- d. The responsibilities of the responsible party and the responsibilities of the engaging party, if different
- e. A statement that a review is substantially less in scope than an examination, the objective of which is to obtain reasonable assurance about whether the subject matter is in accordance with (or based on) the criteria, in all material respects, or the assertion is fairly stated, in all material respects, in order to express an opinion, and that, accordingly, the practitioner will not express such an opinion
- f. Identification of the criteria for the measurement, evaluation, or disclosure of the subject matter
- g. An acknowledgement that the engaging party agrees to provide the practitioner with a representation letter at the conclusion of the engagement

**.10** Although an engagement may recur, each engagement is considered a separate engagement. The practitioner should assess whether circumstances require revision to the terms of a preceding engagement. If the practitioner concludes that the terms of the preceding engagement need not be revised for the current engagement, the practitioner should remind the engaging party of the terms of the current engagement, and the reminder should be documented.

### Requesting a Written Assertion

**.11** The practitioner should request from the responsible party a written assertion about the measurement or evaluation of the subject matter against the criteria. When the engaging party is the responsible party and refuses to provide a written assertion, paragraph .59 requires the practitioner to withdraw from the engagement, when withdrawal is possible under applicable laws and regulations. When the engaging party is not the responsible party, and the responsible party refuses to provide a written assertion, the practitioner need not withdraw from the engagement. In that case, paragraph .60 requires the practitioner to disclose that refusal in the practitioner's report and restrict the use of the report to the engaging party. (Ref: par. .A5–.A8 and .A76)

### Planning and Performing the Engagement

**.12** The practitioner should set the scope, timing, and direction of the engagement and determine the nature, timing, and extent of the planned procedures that are required to be carried out in order to achieve the objectives of the engagement. (Ref: par. .A9–.A12)

**.13** The practitioner should obtain an understanding of the subject matter and other engagement circumstances sufficient to provide a basis for designing and performing procedures in order to achieve the objectives of the engagement. That understanding should include the practices used to measure, recognize, and record the subject matter. (Ref: par. .A13)

### Materiality in Planning and Performing the Engagement

**.14** The practitioner should consider materiality when (Ref: par. .A14–.A19)

- planning and performing the review engagement, including when determining the nature, timing, and extent of procedures.
- evaluating whether the practitioner is aware of any material modifications that should be made to the subject matter in order for it to be in accordance with (or based on) the criteria or the assertion in order for it to be fairly stated.

### Procedures to Be Performed

**.15** To obtain limited assurance, the practitioner should obtain sufficient appropriate review evidence in order to express a conclusion about whether any material modifications should be made to the subject matter in order for it to be in accordance with (or based on) the criteria, or the assertion, in order for it to be fairly stated.

**.16** The practitioner should apply professional judgment in determining the specific nature, timing, and extent of review procedures. Based on (Ref: par. .A20–.A23)

- a.* the practitioner's understanding of

- i. the subject matter and the practices used by the responsible party to measure, recognize, and record the subject matter and
  - ii. the engagement circumstances, and
- b. the practitioner's awareness of the risk that the practitioner may unknowingly fail to modify the practitioner's report when the subject matter is materially misstated,

the practitioner should design and perform analytical procedures and make inquiries and perform other procedures, as appropriate, to accumulate review evidence in obtaining limited assurance about whether any material modifications should be made to the subject matter in order for it to be in accordance with (or based on) the criteria, or the assertion, in order for it to be fairly stated.

**.17** Analytical procedures may not be possible when the subject matter is qualitative, rather than quantitative. In those circumstances, the practitioner should perform other procedures, in addition to inquiries, that provide equivalent levels of review evidence. (Ref: par. .A24)

**.18** The practitioner should place increased focus in those areas in which the practitioner believes there are increased risks that the subject matter may be materially misstated. (Ref: par. .A25–.A26)

## Analytical Procedures

**.19** When designing and performing analytical procedures, the practitioner should (Ref: par. .A27–.A28)

- a. determine the suitability of particular analytical procedures for the subject matter, taking into account the practitioner's awareness of risks;
- b. evaluate the reliability of data from which the practitioner's expectation is developed, taking into account the source, comparability, nature, and relevance of information available; and
- c. develop an expectation with respect to recorded amounts or ratios.

**.20** If analytical procedures identify fluctuations or relationships that are inconsistent with other relevant information or that differ significantly from expected amounts or ratios, the practitioner should (Ref: par. .A29)

- a. inquire of the responsible party about such differences and
- b. consider the responses to these inquiries to determine whether other procedures are necessary in the circumstances.

## Inquiries and Other Review Procedures

**.21** The practitioner should inquire of the responsible party about the following: (Ref: par. .A30)

- a. Whether the subject matter has been prepared in accordance with (or based on) the criteria
- b. The practices used by the responsible party to measure, recognize, and record the subject matter
- c. Questions that have arisen in the course of applying the review procedures
- d. Communications from regulatory agencies or others, if relevant

**.22** The practitioner should consider the reasonableness and consistency of the responsible party's responses in light of the results of other review procedures and the practitioner's knowledge of the subject matter, criteria, and responsible party.

## **Fraud, Laws, and Regulations**

**.23** The practitioner should make inquiries of appropriate parties to determine whether they have knowledge of any actual, suspected, or alleged fraud or noncompliance with laws or regulations affecting the subject matter.

**.24** The practitioner should respond appropriately to fraud or suspected fraud and noncompliance or suspected noncompliance with laws or regulations affecting the subject matter that is identified during the engagement. (Ref: par. A31–A32)

## **Incorrect, Incomplete, or Otherwise Unsatisfactory Information**

**.25** During the performance of review procedures, if the practitioner becomes aware that information coming to the practitioner's attention is incorrect, incomplete, or otherwise unsatisfactory, the practitioner should request that the responsible party consider the effect of these matters on the subject matter and communicate the results of its consideration to the practitioner. The practitioner should consider the results communicated to the practitioner by the responsible party and the potential effect, if any, on the practitioner's report.

**.26** If the practitioner believes the subject matter may be materially misstated, the practitioner should perform additional procedures sufficient to obtain limited assurance about whether any material modifications should be made to the subject matter in order for it to be in accordance with (or based on) the criteria or the assertion in order for it to be fairly stated.

## **Using the Work of a Practitioner's Specialist or Internal Auditors**

**.27** When the practitioner expects to use the work of a practitioner's specialist or internal auditors, the practitioner should apply the requirements in section 205, *Examination Engagements*, and the related application guidance, as appropriate, for a review engagement.<sup>1</sup>

## **Evaluating the Results of Review Procedures**

**.28** The practitioner should accumulate misstatements identified during the engagement, other than those that are clearly trivial. (Ref: par. A33–A34)

**.29** The practitioner should evaluate the sufficiency and appropriateness of the review evidence obtained in the context of the engagement and, if necessary, attempt to obtain further review evidence. The practitioner should consider all relevant review evidence, regardless of whether it appears to corroborate or contradict the measurement or evaluation of the subject matter against the criteria. (Ref: par. A35–A37)

**.30** If the practitioner concludes that the subject matter is materially misstated or is unable to obtain review evidence sufficient for limited assurance, the practitioner should consider the implications for the practitioner's conclusion in paragraphs .51–.60.

---

<sup>1</sup> Paragraphs .36–.44 of section 205, *Examination Engagements*.

## Considering Subsequent Events and Subsequently Discovered Facts

**.31** The practitioner should inquire whether the responsible party, and if different, the engaging party, is aware of any events subsequent to the period (or point in time) covered by the review engagement up to the date of the practitioner's report that could have a significant effect on the subject matter or assertion. If the practitioner becomes aware, through inquiry or otherwise, of such an event, or any other event that is of such a nature and significance that its disclosure is necessary to prevent users of the report from being misled, and information about that event is not adequately disclosed by the responsible party in the subject matter or in its assertion, the practitioner should take appropriate action. (Ref: par. .A38–.A40)

**.32** The practitioner has no responsibility to perform any procedures regarding the subject matter or assertion after the date of the practitioner's report. Nevertheless, the practitioner should respond appropriately to facts that become known to the practitioner after the date of the report that, had they been known to the practitioner at that date, may have caused the practitioner to revise the report. (Ref: par. .A41–.A42)

## Written Representations

**.33** The practitioner should request from the responsible party written representations in the form of a letter addressed to the practitioner. The representations should (Ref: par. .A43–.A46)

- a. include the responsible party's assertion about the subject matter based on the criteria. (Ref: par. .A76)
- b. state that all relevant matters are reflected in the measurement or evaluation of the subject matter or assertion.
- c. state that all known matters contradicting the subject matter or assertion and any communication from regulatory agencies or others affecting the subject matter or assertion have been disclosed to the practitioner, including communications received between the end of the period addressed in the written assertion and the date of the practitioner's report.
- d. acknowledge responsibility for
  - i. the subject matter and the assertion;
  - ii. selecting the criteria, when applicable; and
  - iii. determining that such criteria are appropriate for the responsible party's purposes.
- e. state that any known events subsequent to the period (or point in time) of the subject matter being reported on that would have a material effect on the subject matter or assertion have been disclosed to the practitioner. (Ref: par. .A45)
- f. state that it has provided the practitioner with all relevant information and access.
- g. if applicable, state that the responsible party believes the effects of uncorrected misstatements are immaterial, individually and in the aggregate, to the subject matter. (Ref: par. .A46)
- h. if applicable, state that significant assumptions used in making any material estimates are reasonable.
- i. state that the responsible party has disclosed to the practitioner

- i. all deficiencies in internal control relevant to the engagement of which the responsible party is aware;
- ii. its knowledge of any actual, suspected, or alleged fraud or noncompliance with laws or regulations affecting the subject matter; and
- iii. other matters as the practitioner deems appropriate.

**.34** When the engaging party is not the responsible party, and the responsible party refuses to provide the representations in paragraph .33 in writing, the practitioner should make inquiries of the responsible party about, and seek oral responses to, the matters in paragraph .33. (Ref: par. .A47)

**.35** When the engaging party is not the responsible party, the practitioner should request written representations from the engaging party, in addition to those requested from the responsible party, in the form of a letter addressed to the practitioner. The representations should

- a. acknowledge that the responsible party is responsible for the subject matter and assertion.
- b. acknowledge the engaging party's responsibility for selecting the criteria, when applicable.
- c. acknowledge the engaging party's responsibility for determining that such criteria are appropriate for its purposes.
- d. state that the engaging party is not aware of any material misstatements in the subject matter or assertion.
- e. state that the engaging party has disclosed to the practitioner all known events subsequent to the period (or point in time) of the subject matter being reported on that would have a material effect on the subject matter or assertion. (Ref: par. .A45)
- f. address other matters as the practitioner deems appropriate.

**.36** When written representations are directly related to matters that are material to the subject matter, the practitioner should

- a. evaluate their reasonableness and consistency with other review evidence obtained, including other representations (oral or written) and
- b. consider whether those making the representations can be expected to be well informed on the particular matters.

**.37** The date of the written representations should be as of the date of the practitioner's report. The written representations should address the subject matter and periods covered by the practitioner's conclusion.

## **Requested Written Representations Not Provided or Are Unreliable**

**.38** When the engaging party is the responsible party, and one or more of the requested written representations are not provided, or the practitioner concludes that there is sufficient doubt about the competence, integrity, ethical values, or diligence of those providing the written representations, or the practitioner concludes that the written representations are otherwise not reliable, the practitioner should

- a. discuss the matter with the appropriate party(ies),
- b. reevaluate the integrity of those from whom the representations were requested or received and evaluate the effect that this may

have on the reliability of representations and review evidence in general, and

- c. if any of the matters are not resolved to the practitioner's satisfaction, withdraw from the engagement.

**.39** When the engaging party is not the responsible party (Ref: par. .A47–.A49)

- a. if one or more of the requested representations are not provided in writing by the responsible party, but the practitioner receives satisfactory oral responses to the practitioner's inquiries performed in accordance with paragraph .34 sufficient to enable the practitioner to conclude that the practitioner has sufficient appropriate review evidence to form a conclusion about the subject matter, the practitioner's report should contain a separate paragraph that restricts the use of the practitioner's report to the engaging party. (Paragraphs .48–.49 contain requirements for the contents of such a paragraph.)
- b. if one or more of the requested representations are provided neither in writing nor orally from the responsible party in accordance with paragraph .34, a scope limitation exists, and the practitioner should withdraw from the engagement.

## Other Information

**.40** If prior to or after the release of the practitioner's report on subject matter or an assertion, the practitioner is willing to permit the inclusion of the practitioner's report in a document that contains the subject matter or assertion and other information, the practitioner should read the other information to identify material inconsistencies, if any, with the subject matter, assertion, or the practitioner's report. If on reading the other information, in the practitioner's professional judgment (Ref: par. .A50–.A51)

- a. a material inconsistency between that other information and the subject matter, assertion, or the practitioner's report exists, or
- b. a material misstatement of fact exists in the other information, the subject matter, assertion, or the practitioner's report

the practitioner should discuss the matter with the responsible party and take further action as appropriate.

## Description of Criteria

**.41** The practitioner should evaluate whether the written description of the subject matter or assertion adequately refers to or describes the criteria. (Ref: par. .A52–.A53)

## Forming the Conclusion

**.42** The practitioner should form a conclusion about whether the practitioner is aware of any material modifications that should be made to the subject matter in order for it to be in accordance with (or based on) the criteria or to the responsible party's assertion in order for it to be fairly stated. In forming that conclusion, the practitioner should evaluate

- a. the practitioner's conclusion regarding the sufficiency and appropriateness of the review evidence obtained and (Ref: par. .A54)

- b. whether uncorrected misstatements are material, individually or in the aggregate. (Ref: par. .A55)

**.43** The practitioner should evaluate, based on the review evidence obtained, whether the presentation of the subject matter or assertion is misleading within the context of the engagement. (Ref: par. .A56–.A57)

## Preparing the Practitioner's Report

**.44** The practitioner's report should be in writing. (Ref: par. .A58–.A59)

**.45** A practitioner should report on a written assertion or should report directly on the subject matter. If the practitioner is reporting on the assertion, the assertion should be bound with or accompany the practitioner's report, or the assertion should be clearly stated in the report. (Ref: par. .A60)

## Content of the Practitioner's Report

**.46** The practitioner's report should include the following:

- a. A title that includes the word *independent*. (Ref: par. .A61)
- b. An appropriate addressee as required by the circumstances of the engagement.
- c. An identification or description of the subject matter or assertion being reported on, including the point in time or period of time to which the measurement or evaluation of the subject matter or assertion relates.
- d. An identification of the criteria against which the subject matter was measured or evaluated. (Ref: par. .A62)
- e. A statement that identifies
  - i. the responsible party and its responsibility for the subject matter in accordance with (or based on) the criteria or for its assertion and (Ref: par. .A63–.A64)
  - ii. the practitioner's responsibility to express a conclusion on the subject matter or assertion, based on the practitioner's review. (Ref: par. .A63)
- f. A statement that
  - i. the practitioner's review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.
  - ii. those standards require that the practitioner plan and perform the review to obtain limited assurance about whether any material modifications should be made to
    - (1) the subject matter in order for it to be in accordance with (or based on) the criteria (or equivalent language regarding the subject matter and criteria, such as the language used in the examples in paragraph .A65) or
    - (2) the responsible party's assertion in order for it to be fairly stated.
  - iii. a review is substantially less in scope than an examination, the objective of which is to obtain reasonable assurance about whether the subject matter is in accordance with (or based on) the criteria, in all material respects, or

- the responsible party's assertion is fairly stated, in all material respects, in order to express an opinion. Accordingly, the practitioner does not express such an opinion.
- iv. the practitioner believes the review provides a reasonable basis for the practitioner's conclusion.
- g. A statement that describes significant inherent limitations, if any, associated with the measurement or evaluation of the subject matter against the criteria. (Ref: par. .A66)
  - h. The practitioner's conclusion about whether, based on the review, the practitioner is aware of any material modifications that should be made to (Ref: par. .A67–.A69)
    - i. the subject matter in order for it be in accordance with (or based on) the criteria (or equivalent language regarding the subject matter and criteria, such as the language used in the examples in paragraph .A67) or
    - ii. the responsible party's assertion in order for it to be fairly stated.
  - i. The manual or printed signature of the practitioner's firm.
  - j. The city and state where the practitioner practices. (Ref: par. .A70)
  - k. The date of the report. (The report should be dated no earlier than the date on which the practitioner has obtained sufficient appropriate review evidence on which to base the practitioner's conclusion, including evidence that
    - i. the attestation documentation has been reviewed,
    - ii. if applicable, the written presentation of the subject matter has been prepared, and
    - iii. the responsible party has provided a written assertion or, in the circumstance described in paragraph .A49, an oral assertion.) (Ref: par. .A71–.A72)

### ***Restricted-Use Paragraph***

**.47** In the following circumstances, the practitioner's report should include an alert, in a separate paragraph, that restricts the use of the report: (Ref: par. .A73–.A76)

- a. The practitioner determines that the criteria used to evaluate the subject matter are appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria.
  - b. The criteria used to evaluate the subject matter are available only to specified parties.
  - c. The engaging party is not the responsible party, and the responsible party does not provide the written representations required by paragraph .33, but does provide oral responses to the practitioner's inquiries about the matters in paragraph .33, as provided for in paragraphs .34 and .39a. In this case, use of the report should be restricted to the engaging party. (Ref: par. .A76)
- .48** The alert should
- a. state that the practitioner's report is intended solely for the information and use of the specified parties,
  - b. identify the specified parties for whom use is intended, and (Ref: par. .A77)

- c. state that the report is not intended to be, and should not be, used by anyone other than the specified parties. (Ref: par. .A78–.A80)

**.49** When the engagement is also performed in accordance with *Government Auditing Standards*, the alert that restricts the use of the practitioner's report should include the following information, rather than the information required by paragraph .48:

- a. A description of the purpose of the report
- b. A statement that the report is not suitable for any other purpose

## Reference to the Practitioner's Specialist

**.50** The practitioner should not refer to the work of a practitioner's specialist in the practitioner's report containing an unmodified conclusion. (Ref: par. .A81)

## Modified Conclusions

### *Misstatement of Subject Matter*

**.51** A practitioner who is engaged to perform a review engagement may become aware that the subject matter is misstated. If the misstatement is not corrected, the practitioner should consider whether qualification of the conclusion in the standard practitioner's report is adequate to disclose the misstatement of the subject matter. (Ref: par. .A82)

**.52** When the practitioner qualifies the conclusion, the practitioner should include a separate paragraph in the practitioner's report that provides a description of the matter(s) giving rise to the qualification.

**.53** The practitioner should express a qualified conclusion when the effects of a matter are material but not pervasive. A qualified conclusion is expressed as being "except for the effects" of the matter to which the qualification relates. When the effects of a matter are material and also pervasive, the practitioner should withdraw from the engagement, when withdrawal is possible under applicable laws and regulations. (Ref: par. .A83)

**.54** If the practitioner has concluded that the material misstatement results in a qualified conclusion, the practitioner should report directly on the subject matter, not on the assertion, even when the assertion acknowledges the misstatement.

**.55** If the practitioner believes that qualification of the conclusion in the standard practitioner's report is not adequate to indicate the misstatements in the subject matter, the practitioner should withdraw from the engagement.

**.56** The practitioner's conclusion on the subject matter or assertion should be clearly separated from any paragraphs emphasizing matters related to the subject matter or any other reporting responsibilities.

**.57** When the conclusion is qualified, reference to an external specialist is permitted when such reference is relevant to an understanding of the qualification to the practitioner's conclusion. The practitioner should indicate in the practitioner's report that such reference does not reduce the practitioner's responsibility for that conclusion.

### *Scope Limitations*

**.58** If the practitioner is unable to obtain sufficient appropriate review evidence, a scope limitation exists. When a scope limitation exists, the practitioner

should withdraw from the engagement, when withdrawal is possible under applicable laws and regulations. (Ref: par. .A84–.A86)

## Responsible Party Refuses to Provide a Written Assertion

**.59** If the engaging party is the responsible party and refuses to provide the practitioner with a written assertion as required by paragraph .11, the practitioner should withdraw from the engagement when withdrawal is possible under applicable law or regulation.

**.60** When the engaging party is not the responsible party and the responsible party refuses to provide the practitioner with a written assertion, the practitioner may report on the subject matter but should disclose in the practitioner's report the responsible party's refusal to provide a written assertion and should restrict the use of the practitioner's report to the engaging party. (Ref: par. .A87–.A88)

## Communication Responsibilities

**.61** The practitioner should communicate to the responsible party known and suspected fraud and noncompliance with laws or regulations, as well as uncorrected misstatements. When the engaging party is not the responsible party, the practitioner should also communicate this information to the engaging party. (Ref: par. .A89)

## Documentation

**.62** The practitioner should prepare engagement documentation that is sufficient to determine (Ref: par. .A90–.A93)

- a. the nature, timing, and extent of the procedures performed to comply with relevant AT-C sections and applicable legal and regulatory requirements, including
  - i. the identifying characteristics of the specific items or matters tested;
  - ii. who performed the engagement work and the date such work was completed;
  - iii. the discussions with the responsible party or others about findings or issues that, in the practitioner's professional judgment, are significant, including the nature of the significant findings or issues discussed, and when and with whom the discussions took place;
  - iv. when the engaging party is the responsible party and the responsible party will not provide one or more of the requested written representations; the practitioner concludes that there is sufficient doubt about the competence, integrity, ethical values, or diligence of those providing the written representations; or that the written representations are otherwise not reliable, the matters in paragraph .38;
  - v. when the engaging party is not the responsible party and the responsible party will not provide the written representations regarding the matters in paragraph .33, the oral responses from the responsible party to the practitioner's inquiries regarding the matters in paragraph .33, in accordance with paragraph .34; and

- vi. who reviewed the engagement work performed and the date and extent of such review.
- b. the results of the procedures performed and the review evidence obtained.

**.63** If the practitioner identified information that is inconsistent with the practitioner's final conclusion regarding a significant finding or issue, the practitioner should document how the practitioner addressed the inconsistency.

**.64** If, in circumstances such as those described in paragraph .32, the practitioner performs new or additional procedures or draws new conclusions after the date of the practitioner's report, the practitioner should document

- a. the circumstances encountered;
- b. the new or additional procedures performed, evidence obtained, and conclusions reached and their effect on the report; and
- c. when and by whom the resulting changes to the documentation were made and reviewed.

## Application and Other Explanatory Material

### Conduct of a Review Engagement (Ref: par. .05–.07)

**.A1** For example, if a practitioner was reviewing pro forma financial information, section 105, this section, and section 310, *Reporting on Pro Forma Financial Information*, would be relevant.

**.A2** Review procedures generally are limited to inquiries and analytical procedures. In circumstances in which inquiry and analytical procedures are not expected to provide sufficient appropriate review evidence, or when the nature of the subject matter does not lend itself to the application of analytical procedures, the practitioner may perform other procedures that he or she believes can provide the practitioner with a level of assurance equivalent to that which inquiries and analytical procedures would have provided. If the practitioner cannot design other procedures to obtain sufficient appropriate review evidence, a review engagement may not be appropriate.

### Agreeing on the Terms of the Engagement (Ref: par. .08 and .09b)

**.A3** It is in the interests of both the engaging party and the practitioner to document the agreed-upon terms of the engagement before the commencement of the engagement to help avoid misunderstandings. The form and content of the engagement letter or other suitable form of written agreement will vary with the engagement circumstances.

**.A4** A practitioner may further describe the responsibilities of the practitioner by adding the following items to the engagement letter or other suitable form of written agreement:

- a. A statement that a review is designed to obtain limited assurance about whether any material modifications should be made to the subject matter in order for it to be in accordance with (or based on) the criteria
- b. A statement that the objective of a review is the expression of a conclusion in a written practitioner's report about whether the

practitioner is aware of any material modifications that should be made to

- i. the subject matter in order for it be in accordance with (or based on) the criteria or
- ii. the responsible party's assertion in order for it to be fairly stated

### **Requesting a Written Assertion (Ref: par. .11)**

**.A5** The language of the responsible party's written assertion in paragraph .11 may need to be tailored to reflect the nature of the subject matter and criteria for the engagement. Examples of language that meet the requirements in paragraph .11 include the following:

- The subject matter is presented in accordance with (or based on) the criteria.
- The subject matter achieved the objectives, for example, when the objectives are the criteria.

**.A6** Situations may arise in which the current responsible party was not present during some or all of the period covered by the practitioner's report. Such persons may contend that they are not in a position to provide a written assertion that covers the entire period because they were not in place during some or all of the period. This fact, however, does not diminish such persons' responsibilities for the subject matter as a whole. Accordingly, the requirement for the practitioner to request a written assertion from the responsible party that covers the entire relevant period(s) still applies.

**.A7** Paragraph .33a requires the practitioner to request a written representation from the responsible party that is the same as the responsible party's assertion. If the responsible party provides the practitioner with the written representation in paragraph .33a, the practitioner need not request a separate written assertion, unless a separate written assertion is called for by the engagement circumstances. (Ref: par. .11)

**.A8** A practitioner may also be engaged to assist the responsible party in measuring or evaluating the subject matter against the criteria in connection with the responsible party providing a written assertion. Regardless of the procedures performed by the practitioner, the responsible party is required to accept responsibility for its assertion and the subject matter and may not base its assertion solely on the practitioner's procedures.<sup>2</sup>

### **Planning and Performing the Engagement (Ref: par. .12–.13)**

**.A9** Planning involves the engagement partner and other key members of the engagement team and may involve the practitioner's specialists. Adequate planning helps the practitioner devote appropriate attention to important areas of the engagement, identify potential problems on a timely basis, and properly organize and manage the engagement in order for it to be performed in an effective and efficient manner. Adequate planning also assists the practitioner in properly assigning work to engagement team members, and facilitates the direction, supervision, and the review of their work. Further, it assists, when applicable, the coordination of work performed by other practitioners and practitioner's specialists. The nature and extent of planning activities will vary with

---

<sup>2</sup> The "Nonattest Services" subtopic (ET sec. 1.295) of the AICPA Code of Professional Conduct addresses the practitioner's provision of nonattest services for an attest client.

the engagement circumstances, for example, the complexity of the assessment or evaluation of the subject matter and the practitioner's previous experience with it. Examples of relevant matters that may be considered include the following:

- The characteristics of the engagement that define its scope, including the terms of the engagement, the characteristics of the underlying subject matter, and the criteria
- The expected timing and nature of the communications required
- The results of preliminary engagement activities, such as client acceptance, and, when applicable, whether knowledge gained on other engagements performed by the engagement partner for the appropriate party(ies) is relevant
- The engagement process, including possible sources of review evidence, and choices among alternative measurement or evaluation methods
- The practitioner's understanding of the appropriate party(ies) and its (their) environment, including the risks that the subject matter may be materially misstated
- Identification of intended users and their information needs and consideration of materiality and the components of attestation risk
- The risk of fraud relevant to the engagement
- The effect on the engagement of using the internal audit function

**.A10** The practitioner may decide to discuss elements of planning with the appropriate party(ies) to facilitate the conduct and management of the engagement (for example, to coordinate some of the planned procedures with the work of the responsible party's personnel). Although these discussions often occur, the elements of planning remain the practitioner's responsibility. When discussing planning matters, care is needed to avoid compromising the effectiveness of the engagement. For example, discussing the nature and timing of detailed procedures with the responsible party may compromise the effectiveness of the engagement by making the procedures too predictable.

**.A11** Planning is not a discrete phase but, rather, a cumulative and iterative process throughout the engagement. As a result of unexpected events, changes in conditions, or review evidence obtained, the practitioner may need to revise the nature, timing, and extent of planned procedures.

**.A12** In smaller or less complex engagements, the entire engagement may be conducted by a very small engagement team, possibly involving the engagement partner (who may be a sole practitioner) working without any other engagement team members. With a smaller team, coordination of, and communication among, team members is easier. In such cases, planning the engagement need not be a complex or time-consuming exercise; it varies according to the size of the entity, the complexity of the engagement, and the size of the engagement team.

**.A13** Obtaining an understanding of the subject matter and other engagement circumstances provides the practitioner with a frame of reference for exercising professional judgment throughout the engagement, for example, when

- considering the characteristics of the subject matter;
- assessing the suitability of the criteria;

- considering the factors that, in the practitioner's professional judgment, are significant in directing the engagement team's efforts, including situations in which special consideration may be necessary (for example, when there is a need for specialized skills or the work of a specialist);
- establishing and evaluating the continued appropriateness of quantitative materiality levels (when appropriate) and considering qualitative materiality factors;
- developing expectations when performing analytical procedures;
- designing and performing procedures; and
- evaluating review evidence, including the reasonableness of the written representations received by the practitioner.

In some review engagements, the practitioner may obtain an understanding of internal control over the measurement, evaluation, or disclosure of the subject matter.

## Materiality in Planning and Performing the Engagement (Ref: par. .14)

**.A14** Materiality is considered in the context of qualitative factors and, when applicable, quantitative factors. The relative importance of qualitative factors and quantitative factors when considering materiality in a particular engagement is a matter for the practitioner's professional judgment.

**.A15** Professional judgments about materiality are made in light of surrounding circumstances, but they are not affected by the level of assurance, that is, for the same intended users, materiality for a review engagement is the same as it is for an examination engagement because materiality is based on the information needs of intended users and not the level of assurance.

**.A16** In general, misstatements, including omissions, are considered to be material if, individually or in the aggregate, they could reasonably be expected to influence relevant decisions of intended users that are made based on the subject matter. The practitioner's consideration of materiality is a matter of professional judgment and is affected by the practitioner's perception of the common information needs of intended users as a group. In this context, it is reasonable for the practitioner to assume that intended users

- a. have a reasonable knowledge of the subject matter and a willingness to study the subject matter with reasonable diligence.
- b. understand that the subject matter is measured or evaluated and reviewed to appropriate levels of materiality and have an understanding of any materiality concepts included in the criteria.
- c. understand any inherent uncertainties involved in measuring or evaluating the subject matter.
- d. make reasonable decisions on the basis of the subject matter taken as a whole.

Unless the engagement has been designed to meet the particular information needs of specific users, the possible effect of misstatements on specific users, whose information needs may vary widely, is not ordinarily considered.

**.A17** Qualitative factors may include the following:

- The interaction between, and relative importance of, various aspects of the subject matter, such as numerous performance indicators
- The wording chosen with respect to subject matter that is expressed in narrative form, for example, the wording chosen does not omit or distort the information
- The characteristics of the presentation adopted for the subject matter when the criteria allow for variations in that presentation
- The nature of a misstatement
- Whether a misstatement affects compliance with laws or regulations
- In the case of periodic reporting on a subject matter, the effect of an adjustment that affects past or current information about the subject matter or is likely to affect future information about the subject matter
- Whether a misstatement is the result of an intentional act or is unintentional
- Whether a misstatement is significant with regard to the practitioner's understanding of known previous communications to users, for example, in relation to the expected outcome of the measurement or evaluation of the subject matter
- Whether a misstatement relates to the relationship between the responsible party and, if different, the engaging party or its relationship with other parties

**.A18** Quantitative factors relate to the magnitude of misstatements relative to reported amounts for those aspects of the subject matter, if any, that are

- expressed numerically or
- otherwise related to numerical values.

**.A19** The criteria may discuss the concept of materiality in the context of the preparation and presentation of the subject matter and thereby provide a frame of reference for the practitioner in considering materiality for the engagement. Although criteria may discuss materiality in different terms, the concept of materiality generally includes the matters discussed in paragraphs .A14–.A18. If the criteria do not include a discussion of the concept of materiality, these paragraphs provide the practitioner with a frame of reference.

## **Procedures to Be Performed (Ref: par. .16–.18)**

**.A20** Review evidence obtained through the performance of analytical procedures and inquiry will ordinarily provide the practitioner with a reasonable basis for obtaining limited assurance. However, the practitioner may determine it is appropriate to perform additional procedures if the practitioner determines such procedures to be necessary in order to meet the objectives of this section.

**.A21** The degree to which procedures beyond analytical procedures and inquiry may be performed may be influenced by factors specific to the engagement. The practitioner may substitute other procedures that provide equivalent levels of review evidence.

**.A22** Information may come to the practitioner's attention that differs significantly from that on which the determination of planned procedures was

based. As the practitioner performs planned procedures, the review evidence obtained may cause the practitioner to perform additional procedures. Such procedures may include asking the responsible party to examine the matter identified by the practitioner and to make adjustments to the subject matter, if appropriate.

**.A23** In some cases, a subject-matter AT-C section may include requirements that affect the nature, timing, and extent of procedures. For example, a subject-matter AT-C section may describe the nature or extent of particular procedures to be performed in a particular type of engagement. Even in such cases, determining the exact nature, timing, and extent of procedures is a matter of professional judgment and will vary from one engagement to the next.

**.A24** Review procedures generally are limited to inquiries and analytical procedures. In circumstances in which inquiry and analytical procedures are not expected to provide sufficient appropriate review evidence, or when the nature of the subject matter does not lend itself to the application of analytical procedures, the practitioner may perform other procedures that he or she believes can provide the practitioner with a level of assurance equivalent to that which inquiries and analytical procedures would have provided. If the practitioner cannot design other procedures to obtain sufficient appropriate review evidence, a review engagement may not be appropriate.

**.A25** The results of the practitioner's analytical procedures and inquiries may modify the practitioner's risk awareness.

**.A26** The practitioner may become aware of a matter(s) that causes the practitioner to believe that the subject matter may be materially misstated when, for example, performing analytical procedures if the practitioner identifies a fluctuation or relationship that is inconsistent with other relevant information or that differs significantly from expected amounts or ratios. In such cases, the practitioner's investigation of such differences may include inquiring of the responsible party or performing other procedures as appropriate in the circumstances.

## **Analytical Procedures (Ref: par. .19–.20)**

**.A27** An understanding of the purposes of analytical procedures and the limitations of those procedures is important. Accordingly, the identification of the relationships and types of data used, as well as conclusions reached when recorded amounts are compared to expectations, requires professional judgment by the practitioner.

**.A28** Analytical procedures involve comparisons of expectations developed by the practitioner to recorded amounts or ratios developed from recorded amounts. The practitioner develops such expectations by identifying and using plausible relationships that are reasonably expected to exist based on the practitioner's understanding of the subject matter; the practices used by the responsible party to measure, recognize, and record the subject matter; and, if applicable, the industry in which the entity operates.

**.A29** Analytical procedures in a review engagement are not designed to identify misstatements with the level of precision expected in an examination engagement. Further, when significant fluctuations, relationships, or differences are identified, appropriate review evidence in a review engagement may often be obtained by making inquiries of the responsible party and considering responses received in the light of known engagement circumstances without obtaining additional evidence required in the case of an examination engagement.

## **Inquiries and Other Review Procedures (Ref: par. .21)**

**.A30** The practitioner is not ordinarily required to corroborate the responsible party's responses with other review evidence.

## **Fraud, Laws, and Regulations (Ref: par. .24)**

**.A31** In responding to fraud or suspected fraud identified during the engagement, it may be appropriate, unless prohibited by law, regulation, or ethics standards, for the practitioner to, for example

- discuss the matter with the appropriate party(ies).
- request that the responsible party consult with an appropriately qualified third party, such as the entity's legal counsel or a regulator.
- consider the implications of the matter in relation to other aspects of the engagement, including the practitioner's planning and the reliability of written representations from the responsible party.
- obtain legal advice about the consequences of different courses of action.
- communicate with third parties (for example, a regulator).
- withdraw from the engagement.

**.A32** The actions noted in paragraph .A31 also may be appropriate in responding to noncompliance or suspected noncompliance with laws or regulations identified during the engagement. It may also be appropriate to describe the matter in a separate paragraph of the practitioner's report, unless the practitioner

- a. is precluded by the responsible party from obtaining sufficient appropriate review evidence to evaluate whether noncompliance that may be material to the subject matter has, or is likely to have, occurred, in which case, paragraph .58 applies or
- b. concludes that the noncompliance results in a material misstatement of the subject matter, in which case, paragraphs .51–.57 apply.

## **Evaluating the Results of Review Procedures (Ref: par. .28–.29)**

**.A33** Uncorrected misstatements are accumulated during the engagement for the purpose of evaluating whether, individually or in aggregate, they are material when forming the practitioner's conclusion. (See paragraph .42b.)

**.A34** "Clearly trivial" is not another expression for "not material." Matters that are clearly trivial will be of a wholly different (smaller) order of magnitude than materiality and will be matters that are clearly inconsequential, whether taken individually or in the aggregate and whether judged by any criteria of size, nature, or circumstances. When there is any uncertainty about whether one or more items are clearly trivial, the matter is considered not to be clearly trivial.

**.A35** Sufficient appropriate review evidence is necessary to support the practitioner's conclusion and report.

**.A36** The sufficiency and appropriateness of review evidence are interrelated. Sufficiency of review evidence is the measure of the quantity of review

evidence. The quantity of the review evidence needed is affected by the risks of material misstatement and also by the quality of such review evidence.

**.A37** Whether sufficient appropriate review evidence has been obtained on which to base the practitioner's conclusion is a matter of professional judgment.

## Considering Subsequent Events and Subsequently Discovered Facts (Ref: par. .31–.32)

**.A38** For certain subject-matter AT-C sections, specific subsequent events requirements and related application guidance have been developed for engagement performance and reporting.

**.A39** Procedures that a practitioner may perform to identify subsequent events include inquiring about and considering information

- contained in relevant reports issued during the subsequent period by internal auditors, other practitioners, or regulatory agencies
- obtained through other professional engagements for that entity

**.A40** If the responsible party refuses to disclose a subsequent event for which disclosure is necessary to prevent users of the practitioner's report from being misled, appropriate actions the practitioner may take include

- disclosing the event in the report and modifying the practitioner's conclusion.
- withdrawing from the engagement.

**.A41** Subsequent to the date of the practitioner's report, the practitioner may become aware of facts that, had they been known to the practitioner at that date, may have caused the practitioner to revise the report. In such circumstances, the practitioner undertakes to determine whether the facts existed at the date of the report and, if so, whether persons are currently using or likely to use the report and related subject matter or assertion who would attach importance to these facts. This may include discussing the matter with the appropriate party(ies) and requesting the appropriate party(ies)'s cooperation in whatever investigation or further action that may be necessary. The specific actions to be taken in a particular case by the appropriate party(ies) and the practitioner may vary with the circumstances. Consideration may be given to, among other things, the time elapsed since the date of the report and whether issuance of a subsequent report is imminent. The practitioner may need to perform additional procedures deemed necessary to determine whether the subject matter or assertion needs revision and whether the previously issued report continues to be appropriate.

**.A42** Depending on the circumstances, the practitioner may determine that notification of the situation by the appropriate party(ies) to persons who would attach importance to these facts and who are currently using, or are likely to use, the practitioner's report who would attach importance to the facts is necessary. This may be the case, for example, when

- a. the report is not to be relied upon because the subject matter or assertion needs revision or the practitioner is unable to determine whether revision is necessary, and
- b. issuance of a subsequent report is not imminent.

If the appropriate party(ies) failed to take the necessary steps to prevent reliance on the report, the practitioner's course of action depends upon the practitioner's legal and ethical rights and obligations. Consequently, the practitioner may consider it appropriate to seek legal advice prior to making any disclosure

of the situation. Disclosure of the situation directly by the practitioner may include a description of the nature of the matter and of its effect on the subject matter or assertion and the report, avoiding comments concerning the conduct or motives of any person.

### **Written Representations (Ref: par. .33–.34, .35e, and .39a)**

**.A43** Written confirmation of oral representations reduces the possibility of misunderstandings between the practitioner and the responsible party. The person(s) from whom the practitioner requests written representations is ordinarily a member of senior management or those charged with governance depending on, for example, the management and governance structure of the responsible party(ies), which may vary by entity, reflecting influences such as size and ownership characteristics.

**.A44** Representations by the responsible party cannot replace other review evidence the practitioner could reasonably expect to be available. Although written representations provide review evidence, they do not provide sufficient appropriate review evidence on their own about any of the matters with which they deal. Furthermore, the fact that the practitioner has received reliable written representations does not affect the nature or extent of other review evidence that the practitioner obtains.

**.A45** A discussion of what is considered a material effect on the subject matter or assertion may be included explicitly in the representation letter in qualitative or quantitative terms.

**.A46** A summary of uncorrected misstatements ordinarily is included in or attached to the written representation.

**.A47** Certain subject-matter AT-C sections do not permit the practitioner to perform the alternative procedures described in paragraphs .34 and .39a (making inquiries of the responsible party and restricting the use of the practitioner's report).

### **Requested Written Representations Not Provided or Not Reliable (Ref: par. .39)**

**.A48** Even when the responsible party provides oral responses to the matters in paragraph .33, the practitioner may find it appropriate to consider whether there are significant concerns about the competence, integrity, ethical values, or diligence of those providing the oral responses or whether the oral responses are otherwise not reliable and the potential effect, if any, on the practitioner's report.

**.A49** Paragraph .11 provides an exception to the requirement for a written assertion when the engaging party is not the responsible party. Nonetheless, because the assertion is the representation called for by paragraph .33a, application of paragraph .39a requires the practitioner to obtain an oral assertion, when a written assertion is not obtained. Paragraph .39b applies when the responsible party provides neither a written nor an oral assertion.

### **Other Information (Ref: par. .40)**

**.A50** Further actions that may be appropriate if the practitioner identifies a material inconsistency or becomes aware of a material misstatement of fact include, for example, the following:

- Requesting the appropriate party(ies) to consult with a qualified third party, such as the appropriate party(ies)'s legal counsel
- Obtaining legal advice about the consequences of different courses of action
- If required or permissible, communicating with third parties (for example, a regulator)
- Describing the material inconsistency in the practitioner's report
- Withdrawing from the engagement, when withdrawal is possible under applicable law or regulation

**.A51** Other information does not include information contained on the appropriate party(ies)'s website. Websites are a means of distributing information and are not, themselves, documents for the purposes of paragraph .40.

### Description of Criteria (Ref: par. .41)

**.A52** The description of the criteria on which the subject matter or assertion is based is particularly important when there are significant differences between various criteria regarding how particular matters may be treated in the subject matter.

**.A53** A description of the criteria that states that the subject matter is prepared in accordance with (or based on) particular criteria is appropriate only if the subject matter complies with all relevant requirements of those criteria that are effective.

### Forming the Conclusion (Ref: par. .42–.43)

**.A54** The practitioner's professional judgment regarding what constitutes sufficient appropriate review evidence is influenced by such factors as the following:

- The significance of a potential misstatement and the likelihood that it will have a material effect, individually or aggregated with other potential misstatements, on the subject matter or assertion
- The effectiveness of the responsible party's responses to address the known risks
- The experience gained during previous examination or review engagements with respect to similar potential misstatements
- The results of procedures performed, including whether such procedures identified specific misstatements
- The source and reliability of the available information
- The persuasiveness of the review evidence
- The practitioner's understanding of the responsible party and its environment

**.A55** A review engagement is a cumulative and iterative process. As the practitioner performs planned procedures, the review evidence obtained may cause the practitioner to change the nature, timing, or extent of other planned procedures. Information that differs significantly from the information on which the planned procedures were based may come to the practitioner's attention, for example

- the extent of the misstatements that the practitioner detects is greater than expected. (This may alter the practitioner's

professional judgment about the reliability of particular sources of information.)

- the practitioner may become aware of discrepancies in relevant information or conflicting or missing review evidence.
- procedures performed toward the end of the engagement may indicate a previously unrecognized risk of material misstatement. In such circumstances, the practitioner may need to reevaluate the planned procedures.

**.A56** In making the evaluation required by paragraph .43, the practitioner may consider whether additional disclosures are necessary to describe the subject matter, assertion, or criteria. Additional disclosures may, for example, include

- the measurement or evaluation methods used when the criteria allow for choice among methods;
- significant interpretations made in applying the criteria in the engagement circumstances;
- subsequent events, depending on their nature and significance; and
- whether there have been any changes in the measurement or evaluation methods used.

**.A57** Paragraph .43 does not require the practitioner to determine whether the presentation discloses all matters related to the subject matter, assertion, or criteria or all matters users may consider in making decisions based on the presentation.

### Preparing the Practitioner’s Report (Ref: par. .44–.45)

**.A58** Oral and other forms of expressing a conclusion can be misunderstood without the support of a written practitioner’s report. For this reason, the practitioner may not report orally or by use of symbols (such as a web seal) under the attestation standards without also providing a written report that is readily available whenever the oral report is provided or the symbol is used. For example, a symbol could be hyperlinked to a written report on the Internet.

**.A59** This section does not require a standardized format for reporting on all review engagements. Instead, it identifies the basic elements that the practitioner’s report is to include. The report is tailored to the specific engagement circumstances. The practitioner may use headings, separate paragraphs, paragraph numbers, typographical devices (for example, the bolding of text), and other mechanisms to enhance the clarity and readability of the report.

**.A60** All of the following reporting options are available to a practitioner, except when the circumstances described in paragraph .54 exist.

<i>The practitioner's report may state that the practitioner examined</i>	<i>and</i>	<i>expresses an opinion on</i>
the subject matter		the subject matter
the responsible party's assertion		the responsible party's assertion
the responsible party's assertion		the subject matter

## Content of the Practitioner's Report

### ***Title (Ref: par. .46a)***

**.A61** A title indicating that the practitioner's report is the report of an independent practitioner (for example, "Independent Practitioner's Report," "Report of Independent Certified Public Accountant," or "Independent Accountant's Review Report") affirms that the practitioner has met all the relevant ethical requirements regarding independence and, therefore, distinguishes the independent practitioner's report from reports issued by others.

### ***Criteria (Ref: par. .46d)***

**.A62** The practitioner's report may include the criteria or refer to them if they are included in the subject matter presentation, in the assertion, or are otherwise readily available.

### ***Relative Responsibilities (Ref: par. .46e)***

**.A63** Identifying relative responsibilities informs the intended users that the responsible party is responsible for the subject matter, and the practitioner's role is to independently express a conclusion about it.

**.A64** The practitioner may wish to expand the discussion of the responsible party's responsibility, for example, to indicate that the responsible party is responsible for the preparation and presentation of the subject matter in accordance with (or based on) the criteria, including the design, implementation, and maintenance of internal control to prevent, or detect and correct, misstatement of the subject matter, due to fraud or error.

### ***Statement About the Subject Matter and Criteria (Ref: par. 46f(ii)[1])***

**.A65** The language in paragraph .46f(ii)(1) may need to be tailored to reflect the nature of the subject matter and criteria for the engagement. Examples of language that meet the requirements in paragraph .46f(ii)(1) include, "to obtain limited assurance about whether any material modifications should be made to the subject matter in order for it to

- be presented in accordance with (or based on) the criteria."
- meet the objectives," for example, when the objectives are the criteria.

### ***Inherent Limitations (Ref: par. .46g)***

**.A66** In some cases, identification of specific inherent limitations may be required by an AT-C section. To communicate specific inherent limitations, the illustrative practitioner's report on a review of pro forma financial information under section 310, for example, indicates that the objective of pro forma financial information is to show what the significant effects on the historical financial information might have been had the transaction (or event) occurred at an earlier date and that the pro forma condensed financial statements are not necessarily indicative of the results of operations or related effects on financial position that would have been attained had the specified transaction (or event) actually occurred earlier.<sup>3</sup> When not explicitly required by an AT-C section, identification in the report of inherent limitations is based on the practitioner's judgment.

---

<sup>3</sup> Paragraph .18k and examples 2 and 3 in paragraph .A24 of section 310, *Reporting on Pro Forma Financial Information*.

**Conclusion (Ref: par. .46h)**

**.A67** The practitioner's conclusion can be worded either in terms of the subject matter and the criteria (for example, "Based on our review, we are not aware of any material modifications that should be made to the XYZ schedule in order for it to be in accordance with [or based on] the ABC criteria.") or in terms of an assertion made by the responsible party (for example, "Based on our review, we are not aware of any material modifications that should be made to management of XYZ Company's assertion in order for it to be fairly stated.").

**.A68** A single practitioner's report may cover more than one aspect of a subject matter or an assertion about the subject matter. When that is the case, the report may contain separate opinions or conclusions on each aspect of the subject matter or assertion (for example, examination level related to some aspects or assertions and review level related to others, or an unmodified conclusion on some aspects or assertions and a modified conclusion on others).

**.A69** A practitioner may report on subject matter or an assertion at multiple dates or covering multiple periods during which criteria have changed (for example, a practitioner's report on comparative information). Criteria are clearly described when they identify the criteria for each period and how the criteria have changed from one period to the next. If the criteria for the current date or period have changed from the criteria for a preceding date or period, changes in the criteria may be significant to users of the report. If so, the criteria and the fact that they have changed may be disclosed in the presentation of the subject matter, in the written assertion, or in the report, even if the subject matter for the preceding date or period is not presented.

**Location (Ref: par. .46j)**

**.A70** In the United States, the location of the issuing office is the city and state. In another country, it may be the city and country.

**Date (Ref: par. .46k)**

**.A71** Including the date of the practitioner's report informs the intended users that the practitioner has considered the effect on the subject matter and on the report of events that occurred up to that date.

**.A72** Because the practitioner expresses a conclusion on the subject matter or assertion and the subject matter or assertion is the responsibility of the responsible party, the practitioner is not in a position to conclude that sufficient appropriate review evidence has been obtained until evidence is obtained that all of the elements that the subject matter or assertion comprises, including any related notes, when applicable, have been prepared, and the responsible party has accepted responsibility for them.

**Restricted Use Paragraph (Ref: par. .47 and .48b-c)**

**.A73** A practitioner's report for which the conditions in paragraph .47 do not apply need not include an alert that restricts its use. However, nothing in the attestation standards precludes a practitioner from including such an alert in any practitioner's report or other practitioner's written communication.

**.A74** A practitioner's report that is required by paragraph .47 to include an alert that restricts the use of the report may be included in a document that also contains a practitioner's report that is for general use. In such circumstances, the use of the general use report is not affected.

**.A75** A practitioner may also issue a single combined practitioner's report that includes (a) a practitioner's report that is required by paragraph .47 to

include an alert that restricts its use, and (b) a report that is for general use. If these two types of reports are clearly differentiated within the combined report, such as through the use of appropriate headers, the alert that restricts the use of the report may be limited to the report required by paragraph .47 to include such an alert. In such circumstances, the use of the general use report is not affected.

**.A76** The representations required by paragraph .33 include an assertion. If the engaging party is not the responsible party and the responsible party provides an oral assertion, rather than a written assertion, paragraph .47c calls for an alert that restricts the use of the practitioner's report to the engaging party.

**.A77** The practitioner may identify the specified parties by naming them, referring to a list of those parties, or identifying the class of parties, for example, "all customers of XYZ Company during some or all of the period January 1, 20XX to December 31, 20XX." The method of identifying the specified parties is determined by the practitioner.

**.A78** In some cases, the criteria used to measure or evaluate the subject matter may be designed for a specific purpose. For example, a regulator may require certain entities to use particular criteria designed for regulatory purposes. To avoid misunderstandings, the practitioner alerts users of the practitioner's report to this fact and, therefore, that the report is intended solely for the information and use of the specified parties.

**.A79** The alert that restricts the use of the practitioner's report is designed to avoid misunderstandings related to the use of the report, particularly if the report is taken out of the context in which the report is intended to be used. A practitioner may consider informing the responsible party and, if different, the engaging party or other specified parties that the report is not intended for distribution to parties other than those specified in the report. The practitioner may, in connection with establishing the terms of the engagement, reach an understanding with the responsible party or, if different, the engaging party, that the intended use of the report will be restricted and may obtain the responsible party's agreement that the responsible party and specified parties will not distribute such report to parties other than those identified therein. A practitioner is not responsible for controlling, and cannot control, distribution of the report after its release.

**.A80** In some cases, a restricted-use practitioner's report filed with regulatory agencies is required by law or regulation to be made available to the public as a matter of public record. Also, a regulatory agency, as part of its oversight responsibility for an entity, may require access to the restricted-use report in which it is not named as a specified party.

## **Reference to the Practitioner's Specialist (Ref: par. .50)**

**.A81** The practitioner has sole responsibility for the conclusion expressed, and that responsibility is not reduced by the practitioner's use of the work of a practitioner's specialist.

## **Modified Conclusions (Ref: par. .51–.53)**

**.A82** A practitioner may issue an unmodified conclusion only when the engagement has been conducted in accordance with the attestation standards. Such standards will not have been complied with if the practitioner has been unable to apply all the procedures that the practitioner considers necessary in the circumstances.

**.A83** Pervasive effects on the subject matter are those that, in the practitioner's professional judgment

- a. are not confined to specific aspects of the subject matter;
- b. if so confined, represent or could represent a substantial proportion of the subject matter; or
- c. in relation to disclosures, are fundamental to the intended users' understanding of the subject matter.

### **Scope Limitations (Ref: par. .58)**

**.A84** The procedures performed in a review engagement are, by definition, limited compared with those performed in an examination engagement. Limitations known to exist prior to accepting a review engagement are a relevant consideration when establishing whether the preconditions for a review engagement are present, in particular, whether the practitioner expects to be able to obtain the evidence needed to arrive at the practitioner's conclusion. (See section 105.)<sup>4</sup> If a further limitation is imposed by the appropriate party(ies) after a review engagement has been accepted, it may be appropriate to withdraw from the engagement, when withdrawal is possible under applicable laws and regulations.

**.A85** The inability to obtain written representations from the responsible party ordinarily would result in a scope limitation. However, when the engaging party is not the responsible party, paragraph .34 enables the practitioner to make inquiries of the responsible party, and if the responsible party's oral responses enable the practitioner to conclude that the practitioner has sufficient appropriate review evidence to form a conclusion about the subject matter, paragraph .39a indicates that this would not cause a scope limitation. Further, paragraph .39a requires that the practitioner's report, in these circumstances, contain an alert paragraph that restricts the use of the report to the engaging party.

**.A86** An inability to perform a specific procedure does not constitute a scope limitation if the practitioner is able to obtain sufficient appropriate review evidence by performing alternative procedures.

### **Responsible Party Refuses to Provide a Written Assertion (Ref: par. .60)**

**.A87** The following is an example of the disclosure required by paragraph .60:

Attestation standards established by the American Institute of Certified Public Accountants require that we request a written statement from [identify the responsible party] stating that [identify the subject matter] that we reviewed has been accurately measured or evaluated. We requested that [identify the responsible party] provide such a written statement but [identify the responsible party] refused to do so.

**.A88** The practitioner's report discussed in paragraph .60 is appropriate only when the engagement is to report on the subject matter; it is not appropriate for a report on an assertion. When reporting on an assertion, the practitioner is required to obtain a written assertion from the responsible party.

---

<sup>4</sup> Paragraph .25b(iii) of section 105, *Concepts Common to All Attestation Engagements*.

## Communication Responsibilities (Ref: par. .61)

**.A89** Other matters that may be appropriate to communicate to the responsible party or, if different, the engaging party, include deficiencies in internal control identified during the engagement, or bias in the measurement, evaluation, or disclosure of the subject matter.

## Documentation (Ref: par. .62)

**.A90** Documentation includes a record of the practitioner's reasoning on all significant findings or issues that require the exercise of professional judgment and related conclusions. The existence of difficult questions of principle or professional judgment calls for the documentation to include the relevant facts that were known by the practitioner at the time the conclusion was reached.

**.A91** It is neither necessary nor practical to document every matter considered, or professional judgment made, during an engagement. Further, it is unnecessary for the practitioner to document separately (as in a checklist, for example) compliance with matters for which compliance is demonstrated by documents included in the engagement file. Similarly, the practitioner need not include in the engagement file superseded drafts of working papers, notes that reflect incomplete or preliminary thinking, previous copies of documents corrected for typographical or other errors, and duplicates of documents.

**.A92** In applying professional judgment to assess the extent of documentation to be prepared and retained, the practitioner may consider what is necessary to provide an experienced practitioner, having no previous connection with the engagement, with an understanding of the work performed and the basis of the principal decisions made.

**.A93** Documentation ordinarily includes a record of

- issues identified with respect to compliance with relevant ethical requirements and how they were resolved.
- conclusions on compliance with independence requirements that apply to the engagement and any relevant discussions with the firm that support these conclusions.
- conclusions reached regarding the acceptance and continuance of client relationships and attestation engagements.
- the nature and scope of, and conclusions resulting from, consultations undertaken during the course of the engagement.

.A94

## Exhibit—Illustrative Practitioner’s Review Reports

The illustrative practitioner's review reports in this exhibit meet the applicable reporting requirements in paragraphs .44–.60. A practitioner may use alternative language in drafting a review report, provided that the language meets the applicable requirements in paragraphs .44–.60. The criteria for evaluating the subject matter in examples 1 and 3 have been determined by the practitioner to be suitable and available to all users of the report; therefore, these reports may be for general use. The criteria for evaluating the subject matter in example 2 are suitable but available only to specified parties; therefore, use of this report is restricted to the specified parties who either participated in the establishment of the criteria or can be presumed to have an adequate understanding of the criteria. (See paragraph .48 for the information to be included in a separate paragraph of the report that contains an alert that restricts the use of the report and paragraph .49 for the content of that paragraph when the engagement is also performed in accordance with *Government Auditing Standards*.)

### Example 1: Practitioner’s Review Report on Subject Matter; Unmodified Conclusion

The following is an illustrative practitioner's review report in which the practitioner has reviewed the subject matter and is reporting on the subject matter.

#### Independent Accountant's Review Report

*[Appropriate Addressee]*

We have reviewed *[identify the subject matter, for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*. XYZ Company's management is responsible for *[identify the subject matter, for example, presenting the schedule of investment returns]* in accordance with (or based on) *[identify the criteria, for example, the ABC criteria set forth in Note 1]*. Our responsibility is to express a conclusion on *[identify the subject matter, for example, the schedule of investment returns]* based on our review.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the review to obtain limited assurance about whether any material modifications should be made to *[identify the subject matter, for example, the schedule of investment returns]* in order for it to be in accordance with (or based on) the criteria. A review is substantially less in scope than an examination, the objective of which is to obtain reasonable assurance about whether *[identify the subject matter, for example, the schedule of investment returns]* is in accordance with (or based on) the criteria, in all material respects, in order to express an opinion. Accordingly, we do not express such an opinion. We believe that our review provides a reasonable basis for our conclusion.

*[Include a description of significant inherent limitations, if any, associated with the measurement or evaluation of the subject matter against the criteria.]*

*[Additional paragraph(s) may be added to emphasize certain matters relating to the attestation engagement or the subject matter.]*

Based on our review, we are not aware of any material modifications that should be made to *[identify the subject matter; for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*, in order for it to be in accordance with (or based on) *[identify the criteria, for example, the ABC criteria set forth in Note 1]*.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

## **Example 2: Practitioner's Review Report on an Assertion; Unmodified Conclusion; Use of the Report Is Restricted to Specified Parties**

The following is an illustrative practitioner's report for a review engagement in which the practitioner has reviewed the responsible party's assertion and is reporting on that assertion. Although suitable criteria exist for the subject matter, use of the report is restricted to specified parties because the criteria are available only to the specified parties.

### **Independent Accountant's Review Report**

*[Appropriate Addressee]*

We have reviewed management of XYZ Company's assertion that *[identify the assertion, including the subject matter and the criteria, for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX, is presented in accordance with (or based on) the ABC criteria set forth in Note 1]*. XYZ Company's management is responsible for its assertion. Our responsibility is to express a conclusion on management's assertion based on our review.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the review to obtain limited assurance about whether any material modifications should be made to management's assertion in order for it to be fairly stated. A review is substantially less in scope than an examination, the objective of which is to obtain reasonable assurance about whether management's assertion is fairly stated, in all material respects, in order to express an opinion. Accordingly, we do not express such an opinion. We believe that our review provides a reasonable basis for our conclusion.

*[Include a description of significant inherent limitations, if any, associated with the measurement or evaluation of the subject matter against the criteria.]*

*[Additional paragraph(s) may be added to emphasize certain matters relating to the attestation engagement or the subject matter.]*

Based on our review, we are not aware of any material modifications that should be made to management of XYZ Company's assertion in order for it to be fairly stated.

This report is intended solely for the information and use of *[identify the specified parties, for example, ABC Company and XYZ Company]*, and is not intended to be, and should not be, used by anyone other than the specified parties.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

**Example 3: Practitioner's Review Report on Subject Matter;  
Qualified Conclusion**

The following is an illustrative practitioner's report for a review engagement in which the practitioner expresses a qualified conclusion because the review identified conditions that, individually or in combination, result in one or more material, but not pervasive, misstatements of the subject matter, based on the criteria. The practitioner has reviewed the subject matter and is also reporting on the subject matter. Paragraph .53 states, "If the practitioner has concluded that the material misstatement results in a qualified conclusion, the practitioner should report directly on the subject matter, not on the assertion, even when the assertion acknowledges the misstatement."

**Independent Accountant's Review Report**

*[Appropriate Addressee]*

We have reviewed *[identify the subject matter, for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*. XYZ Company's management is responsible for *[identify the subject matter, for example, presenting the schedule of investment returns]* based on *[identify the criteria, for example, the ABC criteria set forth in Note 1]*. Our responsibility is to express a conclusion on *[identify the subject matter, for example, the schedule of investment returns]* based on our review.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the review to obtain limited assurance about whether any material modifications should be made to *[identify the subject matter, for example, the schedule of investment returns]* in order for it to be in accordance with (or based on) the criteria. A review is substantially less in scope than an examination, the objective of which is to obtain reasonable assurance about whether *[identify the subject matter, for example, the schedule of investment returns]* is in accordance with (or based on) the criteria, in all material respects, in order to express an opinion. Accordingly, we do not express such an opinion. We believe that our review provides a reasonable basis for our conclusion.

*[Include a description of significant inherent limitations, if any, associated with the measurement or evaluation of the subject matter against the criteria.]*

*[Additional paragraph(s) may be added to emphasize certain matters relating to the attestation engagement or the subject matter.]*

Our review identified *[describe condition(s) that, individually or in the aggregate, resulted in a material misstatement, or deviation from, the criteria]*.

Based on our review, except for the matter(s) described in the preceding paragraph, we are not aware of any material modifications that should be made to *[identify the subject matter, for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*, in order for it to be in accordance with (or based on) *[identify the criteria, for example, the ABC criteria set forth in Note 1]*.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

## AT-C Section 215\*

# Agreed-Upon Procedures Engagements

Source: SSAE No. 18

Effective for agreed-upon procedures reports dated on or after May 1, 2017.

## Introduction

.01 This section contains performance and reporting requirements and application guidance for all agreed-upon procedures engagements. The requirements and guidance in this section supplement the requirements and guidance in section 105, *Concepts Common to All Attestation Engagements*.

.02 An *agreed-upon procedures engagement* is one in which a practitioner is engaged to issue, or does issue, a practitioner's report of findings based on specific agreed-upon procedures applied to subject matter for use by specified parties. Because the specified parties require that findings be independently derived, the services of a practitioner are obtained to perform procedures and report the practitioner's findings. The specified parties determine the procedures they believe to be appropriate to be applied by the practitioner. Because the needs of specified parties may vary widely, the nature, timing, and extent of the agreed-upon procedures may vary, as well; consequently, the specified parties assume responsibility for the sufficiency of the procedures because they best understand their own needs. In an engagement performed under this section, the practitioner does not perform an examination or a review and does not provide an opinion or conclusion. Instead, the report on agreed-upon procedures is in the form of procedures and findings.

.03 When a practitioner performs services pursuant to an engagement to apply agreed-upon procedures to subject matter as part of or in addition to another form of service, this section applies only to those services described herein; other professional standards would apply to the other services. Other services may include an audit, review, or compilation of a financial statement, another attestation service performed pursuant to the attestation standards, or a nonattestation service. A practitioner's report on applying agreed-upon procedures to subject matter may be combined with a report on such other services, provided the types of services can be clearly distinguished, and the applicable standards for each service are followed. (Ref: par. .A1)

.04 This section does not apply to engagements to issue letters (commonly referred to as *comfort letters*) to underwriters and certain other requesting parties.<sup>1</sup>

## Effective Date

.05 This section is effective for agreed-upon procedures reports dated on or after May 1, 2017.

---

\* This section contains an "AT-C" identifier, instead of an "AT" identifier, to avoid confusion with references to existing "AT" sections, which remain effective through April 2017.

<sup>1</sup> See AU-C section 920, *Letters for Underwriters and Certain Other Requesting Parties*.

## Objectives

.06 In conducting an agreed-upon procedures engagement, the objectives of the practitioner are to

- a. apply to the subject matter procedures that are established by specified parties who are responsible for the sufficiency of the procedures for their purposes; (Ref: par. .A2)
- b. issue a written practitioner's report that describes the procedures applied and the practitioner's findings; and
- c. communicate further as required by relevant AT-C sections.

## Definition

.07 For purposes of this section, the following term has the meaning attributed as follows:

**Nonparticipant party.** An additional specified party the practitioner is requested to add as a user of the practitioner's report subsequent to the completion of the agreed-upon procedures engagement. (The term *specified party* is defined in section 105.<sup>2</sup>)

## Requirements

### Conduct of an Agreed-Upon Procedures Engagement

.08 In performing an agreed-upon procedures engagement, the practitioner should comply with this section, section 105, and any subject-matter section that is relevant to the engagement. A subject-matter AT-C section is relevant to the engagement when it is in effect, and the circumstances addressed by the AT-C section exist. (Ref: par. .A3–.A4)

### Preconditions for an Agreed-Upon Procedures Engagement

.09 Section 105 indicates that a practitioner must be independent when performing an attestation engagement in accordance with the attestation standards unless the practitioner is required by law or regulation to accept the engagement and report on the subject matter or assertion.<sup>3</sup> When the practitioner is not independent but is required by law or regulation to accept an agreed-upon procedures engagement and report on the procedures performed and findings obtained, the practitioner's report should specifically state that the practitioner is not independent. The practitioner is neither required to provide, nor precluded from providing, the reasons for the lack of independence; however, if the practitioner chooses to provide the reasons for the lack of independence, the practitioner should include all the reasons therefor.

.10 In order to establish that the preconditions for an agreed-upon procedures engagement are present, the practitioner should determine that the following conditions, in addition to the preconditions identified in section 105, are present:<sup>4</sup> (Ref: par. .A5–.A6)

---

<sup>2</sup> Paragraph .10 of section 105, *Concepts Common to All Attestation Engagements*.

<sup>3</sup> Paragraph .24 of section 105.

<sup>4</sup> Paragraphs .24–.28 of section 105.

- a. The specified parties agree on the procedures performed, or to be performed, by the practitioner.
- b. The specified parties take responsibility for the sufficiency of the agreed-upon procedures for their purposes. (Ref: par. .A6)
- c. The practitioner determines that the procedures can be performed and reported on in accordance with this section.
- d. The procedures to be applied to the subject matter are expected to result in reasonably consistent findings using the criteria.
- e. When applicable, the practitioner agrees to apply any materiality limits established by the specified parties for reporting purposes.
- f. Use of the practitioner's report is to be restricted to the specified parties.

**.11** The practitioner should not accept an agreed-upon procedures engagement when the specified parties do not agree upon the procedures performed, or to be performed, or do not take responsibility for the sufficiency of the procedures for their purposes. (See paragraphs .38–.40 for the requirements and related application guidance on satisfying these requirements when the practitioner is requested to add a nonparticipant party.) (Ref: par. .A6)

## Agreeing on the Terms of the Engagement

**.12** The practitioner should agree upon the terms of the engagement with the engaging party. The agreed-upon terms of the engagement should be specified in sufficient detail in an engagement letter or other suitable form of written agreement. (Ref: par. .A7)

**.13** The agreement should be addressed to the engaging party.

**.14** The agreed-upon terms of the engagement should include the following:

- a. The nature of the engagement
- b. Identification of the subject matter or assertion, the responsible party, and the criteria to be used (Ref: par. .A8)
- c. Identification of specified parties
- d. Acknowledgment by the specified parties of their responsibility for the sufficiency of the procedures (Ref: par. .A6)
- e. The responsibilities of the practitioner (Ref: par. .A9–.A10)
- f. A statement that the engagement will be conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants
- g. Agreement on procedures by enumerating (or referring to) the procedures
- h. Disclaimers expected to be included in the practitioner's report
- i. Use restrictions
- j. Assistance to be provided to the practitioner
- k. Involvement of a practitioner's external specialist, if applicable
- l. Agreed-upon materiality limits specified by the specified parties, if applicable

## Requesting a Written Assertion

.15 The practitioner should request from the responsible party a written assertion about the measurement or evaluation of the subject matter against the criteria. (Ref: par. .A11–.A15)

.16 If the engaging party is not the responsible party, and the practitioner is aware that the responsible party refuses to provide the practitioner with a written assertion, the written agreement required by paragraph .12 should make clear that no such assertion will be provided to the practitioner. (Ref: par. .A15)

## Procedures to Be Performed

.17 The procedures agreed upon pursuant to paragraph .14g should specify the nature, timing, and extent of the procedures. (Ref: par. .A16–.A20)

.18 In some circumstances, the procedures agreed upon evolve or are modified over the course of the engagement. In such circumstances, the practitioner should amend the engagement letter or other suitable form of written agreement, as applicable, to reflect the modified procedures.

.19 The practitioner should not agree to perform procedures that are open to varying interpretations. Terms of uncertain meaning (such as *general review*, *limited review*, *check*, or *test*) should not be used in describing the procedures unless such terms are defined within the agreed-upon procedures. (Ref: par. .A21)

.20 The practitioner should obtain evidence from applying the agreed-upon procedures to provide a reasonable basis for the finding or findings expressed in the practitioner's report but need not perform additional procedures outside the scope of the engagement to gather additional evidence.

## Using the Work of a Practitioner's External Specialist

.21 The practitioner and the specified parties should explicitly agree to the involvement of a practitioner's external specialist if assisting a practitioner in the performance of an agreed-upon procedures engagement. (Ref: par. .A22–.A24)

.22 The practitioner's report should describe the nature of the assistance provided by the practitioner's external specialist.

## Using the Work of Internal Auditors or Other Practitioners

.23 The agreed-upon procedures to be enumerated or referred to in the practitioner's report should be performed entirely by the engagement team or other practitioners. (Ref: par. .A25–.A27)

## Findings

.24 A practitioner should present the results of applying agreed-upon procedures to specific subject matter in the form of findings.

.25 The practitioner's report should not express an opinion or conclusion about whether the subject matter is in accordance with (or based on) the criteria or whether the assertion is fairly stated, for example, the report should not state, "Nothing came to our attention that caused us to believe that the

subject matter is not in accordance with (or based on) the criteria, in all material respects, or that the assertion is not fairly stated, in all material respects."

**.26** The practitioner should report all findings from application of the agreed-upon procedures. Any agreed-upon materiality limits should be described in the practitioner's report. (Ref: par. .A28)

**.27** The practitioner should avoid vague or ambiguous language in reporting findings. (Ref: par. .A29)

## Written Representations

**.28** The practitioner should request from the responsible party written representations in the form of a letter addressed to the practitioner. The representations should (Ref: par. .A30)

- a. include the responsible party's assertion about the subject matter based on the criteria.
- b. state that all known matters contradicting the subject matter or assertion and any communication from regulatory agencies or others affecting the subject matter or assertion have been disclosed to the practitioner, including communications received between the end of the period addressed in the written assertion and the date of the practitioner's report.
- c. acknowledge responsibility for
  - i. the subject matter and the assertion;
  - ii. selecting the criteria, when applicable; and
  - iii. determining that such criteria are appropriate for the responsible party's purposes.
- d. state that it has provided the practitioner with access to all records relevant to the subject matter and the agreed-upon procedures.
- e. state that the responsible party has disclosed to the practitioner other matters as the practitioner deems appropriate.

**.29** When the engaging party is not the responsible party, the practitioner should request written representations from the engaging party, in addition to those requested from the responsible party, in the form of a letter addressed to the practitioner. The representations should

- a. acknowledge that the responsible party is responsible for the subject matter and assertion.
- b. acknowledge the engaging party's responsibility for selecting the criteria, when applicable.
- c. acknowledge the engaging party's responsibility for determining that such criteria are appropriate for its purposes.
- d. state that the engaging party is not aware of any material misstatements in the subject matter or assertion.
- e. state that the engaging party has disclosed to the practitioner all known events subsequent to the period (or point in time) of the subject matter being reported on that would have a material effect on the subject matter or assertion.
- f. address other matters as the practitioner deems appropriate.

.30 The date of the written representations should be as of the date of the practitioner's report. The written representations should address the subject matter and periods covered by the practitioner's findings.

### **Requested Written Representations Not Provided or Not Reliable**

.31 When the engaging party is the responsible party, and one or more of the requested written representations are not provided, or the practitioner concludes that there is sufficient doubt about the competence, integrity, ethical values, or diligence of those providing the written representations, or the practitioner concludes that the written representations are otherwise not reliable, the practitioner should

- a. discuss the matter with the appropriate party(ies);
- b. reevaluate the integrity of those from whom the representations were requested or received and evaluate the effect, if any, on the engagement; and
- c. if any of the matters are not resolved to the practitioner's satisfaction, take appropriate action. (Ref: par. .A31)

.32 When the engaging party is not the responsible party

- a. if one or more of the requested representations in paragraph .28 are not provided in writing by the responsible party, the practitioner should make inquiries of the responsible party about, and seek oral responses to, the matters in paragraph .28. (Ref: par. .A32)
- b. if one or more of the requested representations are not provided in writing or orally from the responsible party, the practitioner should take appropriate action. (Ref: par. .A33)

### **Preparing the Practitioner's Report**

.33 The practitioner's report should be in writing. (Ref: par. .A34)

.34 The practitioner's report should be in the form of procedures and findings.

### **Content of the Practitioner's Agreed-Upon Procedures Report**

.35 The practitioner's agreed-upon procedures report should include the following:

- a. A title that includes the word *independent*. (Ref: par. .A35)
- b. An appropriate addressee as required by the circumstances of the engagement.
- c. An identification of the subject matter or assertion and the nature of an agreed-upon procedures engagement. (Ref: par. .A36)
- d. An identification of the specified parties.
- e. A statement that the procedures performed were those agreed to by the specified parties identified in the report.
- f. A statement that identifies the responsible party and its responsibility for the subject matter or its assertion.
- g. A statement that
  - i. the sufficiency of the procedures is solely the responsibility of the parties specified in the report.

- ii. the practitioner makes no representation regarding the sufficiency of the procedures either for the purpose for which the report has been requested or for any other purpose.
- h. A list of the procedures performed (or reference thereto) and related findings. (The practitioner should not provide a conclusion. See paragraph .25.)
- i. When applicable, a description of any agreed-upon materiality limits.
- j. A statement that
  - i. the agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.
  - ii. the practitioner was not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on the subject matter.
  - iii. the practitioner does not express such an opinion or conclusion.
  - iv. had the practitioner performed additional procedures, other matters might have come to the practitioner's attention that would have been reported. (Ref: par. .A37)
- k. When applicable, a description of the nature of the assistance provided by a practitioner's external specialist, as discussed in paragraphs .21–.22.
- l. When applicable, reservations or restrictions concerning procedures or findings. (Ref: par. .A38)
- m. An alert, in a separate paragraph, that restricts the use of the report. The alert should
  - i. state that the practitioner's report is intended solely for the information and use of the specified parties,
  - ii. identify the specified parties for whom use is intended, and
  - iii. state that the report is not intended to be, and should not be, used by anyone other than the specified parties. (Ref: par. .A39 –.A40)
- n. When the engagement is also performed in accordance with Government Auditing Standards, the alert that restricts the use of the report should include the following information, rather than the information required by paragraph .35m:
  - i. A description of the purpose of the report, and
  - ii. A statement that the report is not suitable for any other purpose.
- o. The manual or printed signature of the practitioner's firm.
- p. The city and state where the practitioner practices. (Ref: par. .A41)
- q. The date of the report. (The report should be dated no earlier than the date on which the practitioner completed the procedures and determined the findings, including that
  - i. the attestation documentation has been reviewed,
  - ii. if applicable, the written presentation of the subject matter has been prepared, and

- iii. the responsible party has provided a written assertion, unless the responsible party refuses to provide an assertion.)

## Responsible Party Refuses to Provide a Written Assertion

.36 When the responsible party refuses to provide the practitioner with a written assertion, the practitioner should disclose in the practitioner's report the responsible party's refusal to provide a written assertion. (Ref: par. .A42–.A43)

## Restrictions on the Performance of Procedures

.37 When circumstances impose restrictions on the performance of the agreed-upon procedures, the practitioner should attempt to obtain agreement from the specified parties for modification of the agreed-upon procedures. When such agreement cannot be obtained (for example, when the agreed-upon procedures are published by a regulatory agency that will not modify the procedures), the practitioner should describe any restrictions on the performance of procedures in the practitioner's report or withdraw from the engagement.

## Adding Specified Parties (Nonparticipant Parties)

.38 If the practitioner agrees to add a nonparticipant party, the practitioner should obtain affirmative acknowledgment, normally in writing, from the nonparticipant party agreeing to the procedures performed and of its taking responsibility for the sufficiency of the procedures. (Ref: par. .A44)

.39 If the practitioner's report is reissued to acknowledge the nonparticipant party, the date of the report should not be changed. (Ref: par. .A44)

.40 If the practitioner provides written acknowledgment that the nonparticipant party has been added as a specified party, such written acknowledgment ordinarily should state that no procedures have been performed subsequent to the date of the practitioner's report.

## Knowledge of Matters Outside Agreed-Upon Procedures

.41 Although the practitioner need not perform procedures beyond the agreed-upon procedures, if in connection with the application, and through the completion of, the agreed-upon procedures engagement, matters come to the practitioner's attention by other means that significantly contradict the subject matter or assertion referred to in the practitioner's report, the practitioner should include this matter in the practitioner's report. (Ref: par. .A45–.A46)

## Communication Responsibilities

.42 The practitioner should communicate to the responsible party known and suspected fraud and noncompliance with laws or regulations. When the engaging party is not the responsible party, the practitioner should also communicate this information to the engaging party.

## Documentation

.43 The practitioner should prepare engagement documentation that is sufficient to determine (Ref: par. .A47)

- a. the specified parties' agreement on the procedures.

- b. the nature, timing, and extent of the procedures performed to comply with relevant AT-C sections and applicable legal and regulatory requirements, including
  - i. the identifying characteristics of the specific items or matters tested;
  - ii. who performed the engagement work and the date such work was completed;
  - iii. when the engaging party is the responsible party and the responsible party will not provide one or more of the requested written representations or the practitioner concludes that there is sufficient doubt about the competence, integrity, ethical values, or diligence of those providing the written representations, or that the written representations are otherwise not reliable, the matters in paragraph .31a–c;
  - iv. when the engaging party is not the responsible party and the responsible party will not provide the written representations regarding the matters in paragraph .28, the oral responses from the responsible party to the practitioner's inquiries regarding the matters in paragraph .28, in accordance with paragraph .32; and (Ref: par. .A32)
  - v. who reviewed the engagement work performed and the date and extent of such review.
- c. the results of the procedures performed and the evidence obtained.

## Application and Other Explanatory Material

### Introduction (Ref: par. .03)

.A1 A practitioner may issue a single combined practitioner's report that includes (a) a practitioner's report on subject matter or a presentation that requires a restriction on use to specified parties and (b) a report on subject matter or a presentation that ordinarily does not require such a restriction. The use of such a single combined report may be restricted to the specified parties. In some instances, a separate restricted use report may be included in a document that also contains a general use report. The inclusion of a separate restricted use report in a document that contains a general use report does not affect the intended use of either report. The restricted use report remains restricted as to use, and the general use report continues to be for general use.

### Objectives (Ref: par. .06a)

.A2 In an agreed-upon procedures engagement, the practitioner applies procedures to the subject matter of the engagement. Even though the procedures are established by the specified parties, the requirements and guidance related to the subject matter and criteria in section 105 apply.

### Conduct of an Agreed-Upon Procedures Engagement (Ref: par. .08, .10, and .14d)

.A3 For example, if a practitioner were performing agreed-upon procedures related to an entity's compliance with requirements of specified laws,

regulations, rules, contracts, or grants, section 105, this section, and section 315, *Compliance Attestation*, would be relevant.

**.A4** Although independence is required for agreed-upon procedures engagements, the "Agreed-Upon Procedures Engagements Performed in Accordance With SSAEs" interpretation (ET sec. 1.297.020) establishes independence requirements unique to such engagements.

**.A5** To satisfy the requirements that the specified parties agree upon, the procedures performed or to be performed, and that the specified parties take responsibility for the sufficiency of the agreed-upon procedures for their purposes, the practitioner ordinarily communicates directly with and obtains affirmative acknowledgment from each of the specified parties. For example, this may be accomplished by meeting with the specified parties or by distributing a draft of the anticipated practitioner's report or a copy of an engagement letter to the specified parties and obtaining their agreement. If the practitioner is not able to communicate directly with all the specified parties, the practitioner may satisfy these requirements by applying any one or more of the following or similar procedures:

- Compare the procedures to be applied to written requirements of the specified parties.
- Discuss the procedures to be applied with appropriate representatives of the specified parties involved.
- Review relevant contracts with or correspondence from the specified parties.

**.A6** Specified parties are responsible for the sufficiency (nature, timing, and extent) of the agreed-upon procedures because they best understand their own needs. The specified parties assume the risk that such procedures might be insufficient for their purposes. In addition, the specified parties assume the risk that they might misunderstand or otherwise inappropriately use findings properly reported by the practitioner.

### **Agreeing on the Terms of the Engagement (Ref: par. .12 and .14b and e)**

**.A7** It is in the interests of both the engaging party and the practitioner to document the agreed-upon terms of the engagement before the commencement of the engagement to help avoid misunderstandings. The form and content of the engagement letter or other suitable form of written agreement will vary with the engagement circumstances.

**.A8** The criteria may be indicated in the procedures as opposed to being described separately.

**.A9** The responsibility of the practitioner is to carry out the procedures and report the findings in accordance with the attestation standards. The practitioner assumes the risk that misapplication of the procedures may result in inappropriate findings being reported. Furthermore, the practitioner assumes the risk that appropriate findings may not be reported or may be reported inaccurately. The practitioner's risks can be reduced through adequate planning and supervision and due professional care in performing the procedures, accumulating the findings, and preparing the practitioner's report.

**.A10** The practitioner has no responsibility to determine the differences between the agreed-upon procedures to be performed and the procedures that the practitioner would have determined to be necessary had the practitioner

been engaged to perform another form of attestation engagement. The procedures that the practitioner agrees to perform pursuant to an agreed-upon procedures engagement may be more or less extensive than the procedures that the practitioner would determine to be necessary had he or she been engaged to perform another form of engagement.

### Requesting a Written Assertion (Ref: par. .15–.16)

**.A11** Situations may arise in which the current responsible party was not present during some or all of the period covered by the practitioner's report. Such persons may contend that they are not in a position to provide a written assertion that covers the entire period because they were not in place during some or all of the period. This fact, however, does not diminish such persons' responsibilities for the subject matter as a whole. Accordingly, the requirement for the practitioner to request a written assertion from the responsible party that covers the entire relevant period(s) still applies.

**.A12** Paragraph .28a requires the practitioner to request a written representation from the responsible party that is the same as the responsible party's assertion. If the responsible party provides the practitioner with the written representation in paragraph .28a, the practitioner need not request a separate written assertion, unless a separate written assertion is called for by the engagement circumstances.

**.A13** In an agreed-upon procedures engagement, the procedures that the practitioner is asked to perform frequently consist of comparing information from one source with information from another source to determine whether they agree. For that reason, the criteria identified in the assertion might be the agreement of one amount with another amount.

**.A14** The following are examples of assertions the responsible party might make related to accounts receivable in the engagement that results in the practitioner's report illustrated in example 2 of paragraph .A48:

- General ledger account 250, "Accounts Receivable," as of December 31, 20XX, accurately summarizes the accounts receivable aged trial balance, which accurately summarizes individual customer account balances as of that date.
- The accounts receivable subsidiary ledger as of December 31, 20XX accurately summarizes individual account balances in the aged trial balance of accounts receivable as of that date.
- The aged trial balance of accounts receivable as of December 31, 20XX, accurately ages outstanding invoices in the accounts receivable subledger as of that date.
- The accounts receivable trial balance as of December 31, 20XX, accurately summarizes amounts due from customers at that date.

Alternatively, a single assertion such as the following might be appropriate:

- The accounts receivable aged trial balance as of December 31, 20XX, accurately presents the general ledger balance and the amounts and ages of individual customer balances as of that date.
- Additional assertions would be necessary for the engagement resulting in the report in example 2 of paragraph .A48, for example, an assertion about cash, or in the case of a single assertion, the assertion would need to be modified to address cash.

**.A15** Paragraph .36 contains reporting requirements for situations in which the responsible party refuses to provide the practitioner with a written assertion.

### **Procedures to Be Performed (Ref: par. .17 and .19)**

**.A16** The procedures that the practitioner and specified parties agree upon may be as limited or as extensive as the specified parties desire. However, mere reading of an assertion or specified information about the subject matter does not constitute a procedure sufficient to permit a practitioner to report on the results of applying agreed-upon procedures.

**.A17** Examples of appropriate procedures include the following:

- Execution of a sampling application after agreeing on relevant parameters
- Inspection of specified documents evidencing certain types of transactions or detailed attributes thereof
- Confirmation of specific information with third parties
- Comparison of documents, schedules, or analyses with certain specified attributes
- Performance of specific procedures on work performed by others
- Performance of mathematical computations

**.A18** Examples of inappropriate procedures include the following:

- Mere reading of the work performed by others solely to describe their findings
- Evaluating the competency or objectivity of another party
- Obtaining an understanding about a particular subject
- Interpreting documents outside the scope of the practitioner's professional expertise

**.A19** If the practitioner is selecting a sample, stating the size of the sample and how the selection was made (after agreement by the specified parties regarding the relevant parameters) contributes to the specificity of the description of procedures performed (for example, 50 items starting at the eighth item and selecting every fifteenth item thereafter or invoices issued from May 1 to July 31, 20XX).

**.A20** Examples of other information the practitioner may include are the date the procedure was performed and the sources of information used in performing the procedure.

**.A21** To avoid vague or ambiguous language, the procedures to be performed are characterized by the action to be taken at a level of specificity sufficient for a reader to understand the nature and extent of the procedures performed. Examples of acceptable descriptions of actions are the following:

- Inspect
- Confirm
- Compare
- Agree
- Trace

- Inquire
- Recalculate
- Observe
- Mathematically check

Conversely, the following descriptions of actions (unless defined to indicate the nature, timing, and extent of the procedures associated with these actions) generally are not acceptable because they are not sufficiently precise or have an uncertain meaning:

- Note
- Review
- General review
- Limited review
- Evaluate
- Analyze
- Check
- Test
- Interpret
- Verify
- Examine

### Using the Work of a Practitioner's External Specialist (Ref: par. .21)

**.A22** The practitioner's education and experience enable the practitioner to be knowledgeable about business matters in general, but the practitioner is not expected to have the expertise of a person trained for or qualified to engage in the practice of another profession or occupation. In certain circumstances, it may be appropriate to involve a practitioner's external specialist to assist the practitioner in the performance of one or more procedures. The following are examples of such circumstances:

- An attorney providing assistance concerning the interpretation of legal terminology in laws, regulations, rules, contracts, or grants
- A medical specialist providing assistance in understanding the characteristics of diagnosis codes documented in patient medical records
- An environmental engineer providing assistance in interpreting environmental remedial action regulatory directives that may affect the agreed-upon procedures applied to an environmental liabilities account in a financial statement
- A geologist providing assistance in distinguishing between the physical characteristics of a generic minerals group related to information to which the agreed-upon procedures are applied

**.A23** The agreement regarding the involvement of a practitioner's external specialists may be reached when obtaining agreement on the procedures performed, or to be performed, and acknowledgment of responsibility for the sufficiency of the procedures, as discussed in paragraph .10*b*.

**.A24** A practitioner may agree to apply procedures to the report or work product of a practitioner's external specialist that does not constitute assistance by the external specialist to the practitioner in an agreed-upon procedures engagement. For example, the practitioner may make reference to information contained in a report of a practitioner's external specialist in describing an agreed-upon procedure. However, it is inappropriate for the practitioner to agree to merely read the external specialist's report solely to describe or repeat the findings or to take responsibility for all or a portion of any procedures performed by a practitioner's external specialist or the external specialist's work product.

## Using the Work of Internal Auditors or Other Practitioners (Ref: par. .23)

**.A25** Internal auditors or other personnel may prepare schedules and accumulate data or provide other information for the practitioner's use in performing the agreed-upon procedures. Also, internal auditors may perform and report separately on procedures that they have carried out. Such procedures may be similar to those that a practitioner may perform under this section.

**.A26** A practitioner may agree to perform procedures on information documented in the working papers of internal auditors. For example, the practitioner may agree to

- repeat all or some of the procedures.
- determine whether the internal auditors' documentation indicates procedures performed and whether the findings documented are presented in a report by the internal auditors.

**.A27** It is inappropriate for the practitioner to

- agree to merely read the internal auditors' report solely to describe or repeat their findings.
- take responsibility for all or a portion of any procedures performed by internal auditors by reporting those findings as the practitioner's own.
- report in any manner that implies shared responsibility for the procedures with the internal auditors.

## Findings (Ref: par. .26–.27)

**.A28** The concept of materiality does not apply to findings to be reported in an agreed-upon procedures engagement unless the definition of materiality is agreed to by the specified parties. An example of language that describes a materiality limit is "For purposes of performing these agreed-upon procedures, no exceptions were reported for differences of \$1,000 or less resulting solely from the rounding of amounts disclosed."

**.A29** The following table provides examples of appropriate and inappropriate descriptions of findings resulting from the application of certain agreed-upon procedures.

<b><i>Procedures Agreed Upon</i></b>	<b><i>Appropriate Description of Findings</i></b>	<b><i>Inappropriate Description of Findings</i></b>
Inspect the shipment dates for a sample (agreed-upon) of specified shipping documents and determine whether any such dates were subsequent to [date].	No shipment dates shown on the sample of shipping documents were subsequent to [date].	Nothing came to my attention as a result of applying that procedure.
Recalculate the number of blocks of streets paved during the year ended [date], shown on contractors' certificates of project completion; compare the resultant number to the number in an identified chart of performance statistics as of [date].	The number of blocks of streets paved in the chart of performance statistics was Y blocks more than the number calculated from the contractors' certificates of project completion.	The number of blocks of streets paved approximated the number of blocks included in the chart of performance statistics.
Recalculate the rate of return on a specified investment (according to an agreed-upon formula) and determine whether the resultant percentage agrees to the percentage in an identified schedule.	No exceptions were found as a result of applying the procedure.	The resultant percentage approximated the predetermined percentage in the identified schedule.
Inspect the quality standards classification codes in identified performance test documents for products produced during [specified period]; compare such codes to those shown in the [identified] computer printout for [specified period] as of [date].	All classification codes inspected in the identified documents were the same as those shown in the computer printout, except for the following: [List all exceptions.]	All classification codes appeared to comply with such performance documents.
Trace all outstanding checks appearing on a bank reconciliation as of [date] to checks cleared in the bank statement of the subsequent month.	All outstanding checks appearing on the bank reconciliation were traced to the list of cleared checks in the subsequent month's bank statement, except for the following: [List all exceptions.]	Nothing came to my attention as a result of applying the procedure.

(continued)

<b><i>Procedures Agreed Upon</i></b>	<b><i>Appropriate Description of Findings</i></b>	<b><i>Inappropriate Description of Findings</i></b>
Compare the amounts of the invoices included in the "over 90 days" column shown in an identified schedule of aged accounts receivable of a specific customer as of [date] to the amount and invoice date shown on the corresponding outstanding invoice. Determine whether the dates on the corresponding outstanding invoices precede the date indicated on the schedule by more than 90 days.	All outstanding invoice amounts agreed with the amounts shown on the schedule in the "over 90 days" column, and the dates shown on such outstanding invoices preceded the date indicated on the schedule by more than 90 days.	The outstanding invoice amounts agreed within approximation of the amounts shown on the schedule in the "over 90 days" column, and nothing came to our attention that the dates shown on such outstanding invoices preceded the date indicated on the schedule by more than 90 days.
Obtain from XYZ Company [personnel specified by management], the [date] bank reconciliations. Confirm with the bank the cash on deposit as of [date]. Compare the balance confirmed by the bank to the amount shown on the bank reconciliations.	Obtained from XYZ Company [personnel specified by management], the [date] bank reconciliations. Obtained bank confirmations of the cash on deposit as of [date]. Compared the balance confirmed by the bank to the amount shown on the bank reconciliations. [List all exceptions.]	No exceptions were identified in the confirmations received, and nothing came to our attention as a result of applying the procedures.

### Written Representations (Ref: par. .28)

**.A30** Written confirmation of oral representations reduces the possibility of misunderstandings between the practitioner and the responsible party. The person(s) from whom the practitioner requests written representations is ordinarily a member of senior management or those charged with governance depending on, for example, the management and governance structure of the responsible party(ies), which may vary by entity, reflecting influences such as size and ownership characteristics.

### Requested Written Representations Not Provided or Not Reliable (Ref: par. .31c, .32, and .43b[iv])

**.A31** Appropriate actions the practitioner might consider in the circumstances described in paragraph .31c include

- withdrawing from the engagement.
- determining the effect on the practitioner's report.

.A32 Documentation requirements regarding the responsible party's oral responses to the practitioner's inquiries about the matters in paragraph .28 are included in paragraph .43b(iv).

.A33 Appropriate action the practitioner might consider in the circumstances described in paragraph .32b include

- withdrawing from the engagement.
- determining the effect on the practitioner's report.

## **Preparing the Practitioner's Report (Ref: par. .33)**

.A34 This section does not require a standardized format for reporting on all agreed-upon procedures engagements. Instead, it identifies the basic elements that the report is to include. The report is tailored to the specific engagement circumstances. The practitioner may use headings, separate paragraphs, paragraph numbers, typographical devices (for example, the bolding of text), and other mechanisms to enhance the clarity and readability of the report.

## **Content of the Practitioner's Agreed-Upon Procedures Report**

### ***Title (Ref: par. .35a)***

.A35 A title indicating that the practitioner's report is the report of an independent practitioner (for example, "Independent Practitioner's Report," "Report of Independent Certified Public Accountant," or "Independent Accountant's Report") affirms that the practitioner has met all of the relevant ethical requirements regarding independence and, therefore, distinguishes the independent practitioner's report from reports issued by others.

### ***Identification of the Subject Matter or Assertion (Ref: par. .35c)***

.A36 A practitioner may be asked to apply agreed-upon procedures to more than one subject matter or assertion. In these engagements, the practitioner may issue one practitioner's report that refers to all subject matter covered or assertions presented. Section 315 contains an example of language that may be used in the introductory paragraph to address such circumstances.<sup>5</sup>

### ***Statement When the Subject Matter Consists of Elements, Accounts, or Items of a Financial Statement (Ref: par. .35j)***

.A37 If the subject matter consists of elements, accounts, or items of a financial statement, the practitioner's report might, instead, state that the agreed-upon procedures do not constitute an audit (or a review) of financial statements or any part thereof, the objective of which is the expression of an opinion (or conclusion) on the financial statements or a part thereof.

### ***Reservations or Restrictions Concerning Procedures or Findings (Ref: par. .35l)***

.A38 The practitioner also may include a separate paragraph(s) in the practitioner's report about matters such as the following:

---

<sup>5</sup> Paragraph .A32 of section 315, *Compliance Attestation*.

- Disclosure of stipulated facts, assumptions, or interpretations (including the source thereof) used in the application of agreed-upon procedures
- Description of the condition of records, controls, or data to which the procedures were applied
- Explanation that the practitioner has no responsibility to update the practitioner's report
- Explanation that the sample may not be representative of the population

### ***Restricted Use (Ref: par. .35m)***

**.A39** The purpose of the restriction on the use of the practitioner's report on applying agreed-upon procedures is to restrict its use to only those parties that have agreed upon the procedures performed and taken responsibility for the sufficiency of the procedures. Paragraph .38 describes the process for adding parties who were not originally contemplated in the agreed-upon procedures engagement.

**.A40** In some cases, a restricted-use practitioner's report filed with regulatory agencies is required by law or regulation to be made available to the public as a matter of public record. Also, a regulatory agency, as part of its oversight responsibility for an entity, may require access to a restricted use report in which they are not named as a specified party.

### ***Location (Ref: par. .35p)***

**.A41** In the United States, the location of the issuing office is the city and state. In another country, it may be the city and country.

## **Responsible Party Refuses to Provide a Written Assertion (Ref: par. .36)**

**.A42** The disclosure in the practitioner's report required by paragraph .36 applies regardless of whether the engaging party is the responsible party.

**.A43** The following is an example of the disclosure required by paragraph .36:

Attestation standards established by the American Institute of Certified Public Accountants require that we request a written statement from *[identify the responsible party]* stating that *[identify the subject matter]* to which we applied procedures has been accurately measured or evaluated. We requested that *[identify the responsible party]* provide such a statement but *[identify the responsible party]* refused to do so.

## **Adding Specified Parties (Nonparticipant Parties) (Ref: par. .38–.39)**

**.A44** Subsequent to the completion of the agreed-upon procedures engagement, a practitioner may be requested by the engaging party to consider the addition of another party as a specified party (a nonparticipant party). The practitioner may agree to add a nonparticipant party as a specified party, based on consideration of such factors as the identity of the nonparticipant party and the intended use of the practitioner's report. If the nonparticipant party is added after the practitioner has issued the report, the report may be reissued, or the

practitioner may provide other written acknowledgment that the nonparticipant party has been added as a specified party.

### **Knowledge of Matters Outside Agreed-Upon Procedures (Ref: par. .41)**

**.A45** For example, if, during the course of applying agreed-upon procedures regarding an entity's internal control, the practitioner becomes aware of a material weakness by means other than performance of the agreed-upon procedures, this matter would be included in the practitioner's report.

**.A46** When the practitioner applies agreed-upon procedures to an element, account, or item of a financial statement and has performed (or has been engaged to perform) an audit of the entity's related financial statements, and the auditor's report on such financial statements includes a departure from the standard report, the practitioner may include a reference to the auditor's report and the departure from the standard report in the practitioner's agreed-upon procedures report.

### **Documentation (Ref: par. .43)**

**.A47** The practitioner need not include in the engagement file superseded drafts of working papers, notes that reflect incomplete or preliminary thinking, previous copies of documents corrected for typographical or other errors, and duplicates of documents.

.A48

## Exhibit—Illustrative Practitioner’s Agreed-Upon Procedures Reports

The illustrative practitioner's agreed-upon procedures reports in this exhibit meet the applicable reporting requirements in paragraphs .33–.41. A practitioner may use alternative language in drafting an agreed-upon procedures report, provided that the language meets the applicable requirements in paragraphs .33–.41. Example 1 is an illustrative agreed-upon procedures report related to a Statement of Investment Performance Statistics. Examples 2–3 provide illustrations of reports in which the practitioner has applied agreed-upon procedures to elements, accounts, or items of a financial statement.

### Example 1: Practitioner’s Agreed-Upon Procedures Report Related to a Statement of Investment Performance Statistics

#### Independent Accountant's Report on Applying Agreed-Upon Procedures

*[Appropriate Addressee]*

We have performed the procedures enumerated below, which were agreed to by *[identify the specified party(ies), for example, the audit committees and managements of ABC Inc. and XYZ Fund]*, on *[identify the subject matter, for example, the accompanying Statement of Investment Performance Statistics of XYZ Fund for the year ended December 31, 20X1]*. XYZ Fund's management is responsible for *[identify the subject matter, for example, the Statement of Investment Performance Statistics for the year ended December 31, 20X1]*. The sufficiency of these procedures is solely the responsibility of the parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures enumerated below either for the purpose for which this report has been requested or for any other purpose.

*[Include paragraphs to enumerate procedures and findings.]*

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on *[identify the subject matter, for example, the accompanying Statement of Investment Performance Statistics of XYZ Fund for the year ended December 31, 20X1]*. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

*[Additional paragraph(s) may be added to describe other matters.]*

This report is intended solely for the information and use of *[identify the specified party(ies), for example, the audit committees and managements of ABC Inc. and XYZ Fund]*, and is not intended to be, and should not be, used by anyone other than the specified parties.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

**Example 2: Practitioner’s Agreed-Upon Procedures Report Related to Cash and Accounts Receivable**

**Independent Accountant's Report on Applying Agreed-Upon Procedures**

[Appropriate Addressee]

We have performed the procedures enumerated below, which were agreed to by [identify the specified party(ies), for example, the boards of directors and managements of ABC Company and XYZ Company], on [identify the subject matter, for example, the cash and accounts receivable information of XYZ Company as of December 31, 20XX, included in the accompanying information provided to us by management of ABC Company]. XYZ Company is responsible for [identify the subject matter, for example, the cash and accounts receivable information of XYZ Company as of December 31, 20XX, included in the accompanying information provided to us by management of ABC Company]. The sufficiency of these procedures is solely the responsibility of the parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures enumerated below either for the purpose for which this report has been requested or for any other purpose.

The procedures and the associated findings are as follows:

**Cash**

1. For the four bank accounts listed below, we obtained
  - a. the December 31, 20XX, bank reconciliations from XYZ Company management and
  - b. the December 31, 20XX, general ledger from XYZ Company management.
2. We performed the following procedures:
  - a. Obtained a bank confirmation directly from each bank of the cash on deposit as of December 31, 20XX
  - b. Compared the balance confirmed by the bank to the amount shown on the respective bank reconciliations.
  - c. Mathematically checked the bank reconciliations
  - d. Compared the cash balances per book listed in the reconciliations below to the respective general ledger account balances.

*Cash December 31, 20XX*

<i>Bank</i>	<i>Cash Balance per Book</i>
DEF National Bank, general ledger account 123	\$5,000
LMN State Bank, general ledger account 124	3,776
RST Trust Company regular account, general ledger account 125	86,912
RST Trust Company payroll account, general ledger account 126	5,000
	\$110,688

We found no exceptions as a result of the procedures.

**Accounts Receivable**

3. We obtained the accounts receivable aged trial balance as of December 31, 20XX, from XYZ Company (attached as exhibit A). We mathematically checked that the individual customer account balance subtotals in the aged trial balance of accounts receivable agreed to the total accounts receivable per the aged trial balance. We compared the total accounts receivable per the accounts receivable aged trial balance to the total accounts receivable per general ledger account 250.

We found no exceptions as a result of the procedures.

4. We obtained the accounts receivable subsidiary ledger as of December 31, 20XX, from XYZ Company. We compared the individual customer account balance subtotals shown in the accounts receivable aged trial balance (exhibit A) as of December 31, 20XX, to the balances shown in the accounts receivable subsidiary ledger.

We found no exceptions as a result of the procedures.

5. We selected 50 customer account balances from exhibit A by starting at the eighth item and selecting every fifteenth item thereafter until 50 were selected. The sample size selected represents 9.8 percent of the aggregate amount of the customer account balances. We obtained the corresponding invoices from XYZ Company and traced the aging (according to invoice dates) for the 50 customer account balances shown in exhibit A to the details of outstanding invoices in the accounts receivable subsidiary ledger.

We found no exceptions as a result of the procedures.

6. We mailed confirmations directly to the customers representing the 150 largest customer account balance subtotals selected from the accounts receivable aged trial balance, and we received responses as indicated below. As agreed, any individual differences in a customer account balance of less than \$300 were to be considered minor, and no further procedures were performed.

Of the 150 customer balances confirmed, we received responses from 140 customers; 10 customers did not reply.

No exceptions were identified in 120 of the confirmations received. The differences in the remaining 20 confirmation replies were less than \$300.

For the 10 customers that did not reply, we traced the items constituting the outstanding customer account balance to invoices and supporting shipping documents.

A summary of the confirmation results according to the respective aging categories is as follows.

<i>Accounts Receivable December 31, 20XX</i>			
<i>Aging Categories</i>	<i>Customer Account Balances</i>	<i>Confirmations Requested</i>	<i>Confirmations Received</i>
Current	\$156,000	\$76,000	\$65,000
Past due:			
Less than one month	60,000	30,000	19,000
One to three months	36,000	18,000	10,000
Over three months	48,000	48,000	8,000
	\$300,000	\$172,000	\$102,000

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on *[identify the subject matter, for example, the cash and accounts receivable information of XYZ Company as of December 31, 20XX, included in the accompanying information provided to us by management of ABC Company]*. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

*[Additional paragraph(s) may be added to describe other matters.]*

This report is intended solely for the information and use of *[identify the specified party(ies), for example, the boards of directors and managements of ABC Company and XYZ Company]*, and is not intended to be and should not be used by anyone other than the specified parties.

*[Practitioner's signature]*  
*[Practitioner's city and state]*  
*[Date of practitioner's report]*

**Example 3: Practitioner's Agreed-Upon Procedures Report in Connection With Claims of Creditors**

**Independent Accountant's Report on Applying  
 Agreed-Upon Procedures**

*[Appropriate Addressee]*

We have performed the procedures enumerated below, which were agreed to by *[identify the specified party(ies), for example, the Trustee of XYZ Company]*, on *[identify the subject matter, for example, the claims of creditors of XYZ Company as of May 31, 20XX, as set forth in the accompanying Schedule A]*. XYZ Company is responsible for maintaining records of *[identify the subject matter, for example, the claims of creditors of XYZ Company as of May 31, 20XX, as set forth in the accompanying Schedule A]*. The sufficiency of these procedures is solely the responsibility of the party specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures enumerated below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

1. Obtained the general ledger and the accounts payable trial balance as of May 31, 20XX, from XYZ Company. Compared the total of the accounts payable trial balance to the total accounts payable balance in general ledger account 450.

The total of the accounts payable trial balance agreed with the total accounts payable balance in the general ledger account number 450.

2. Obtained the claim form submitted by creditors in support of the amounts claimed from XYZ Company. Compared the creditor name and amounts from the claim form to the respective name and amounts shown in the accounts payable trial balance obtained in procedure 1. For any differences identified, requested XYZ Company to provide supporting detail. Compared such identified differences to the supporting detail provided.

All differences noted are presented in column 3 of Schedule A. Except for those amounts shown in column 4 of Schedule A, all such differences were agreed to *[describe supporting detail]*.

3. Using the claim form obtained in procedure 2, compared the name and amount to invoices, and if applicable, receiving reports, provided by XYZ Company.

No exceptions were found as a result of this procedure.

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on *[identify the subject matter, for example, the claims of creditors of XYZ Company as of May 31, 20XX, as set forth in the accompanying Schedule A]*. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

*[Additional paragraph(s) may be added to describe other matters.]*

This report is intended solely for the information and use of *[identify the specified party(ies), for example, the Trustee of XYZ Company]*, and is not intended to be, and should not be, used by anyone other than the specified party.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

## AT-C Section 9215

# Agreed-Upon Procedures Engagements: Attestation Interpretations of Section 215

## 1. Third-Party Due Diligence Services Related to Asset-Backed Securitizations: SEC Release No. 34-72936

.01 SEC Release No. 34-72936, *Nationally Recognized Statistical Rating Organizations* (the release),<sup>1</sup> acknowledges that certain procedures often performed by practitioners as agreed-upon procedures (AUP) engagements related to asset-backed securitizations (ABS) are considered third-party *due diligence services* (as defined in the release). These include due diligence services that relate to checking the accuracy of the information or data about the assets provided by the securitizer or originator of the assets. For example, comparing the information on a loan tape with the information contained on the hard copy documents in a loan file is an activity that falls within the definition of *due diligence services*.

.02 For an AUP engagement performed that is considered due diligence services, as defined in the release, the specified parties are typically only the issuer or the underwriter(s), or both.

.03 The release requires the following:

- The issuer or underwriter of any ABS to make publicly available the findings and conclusions of any third-party due diligence report obtained by the issuer or underwriter. The release further describes that the disclosure of the findings and conclusions includes disclosure of the criteria against which the loans were evaluated and how the evaluated loans compared to those criteria, along with the basis for including any loans not meeting those criteria. This is accomplished by including such information in Form ABS-15G, "Asset-Backed Securitization Report Pursuant to Section 15G of the Securities Exchange Act of 1934," which is required to be furnished by the issuer or underwriter to the SEC through the Electronic Data Gathering, Analysis, and Retrieval (EDGAR) system.
- Any third-party due diligence service provider to complete Form ABS Due Diligence-15E, "Certification of Provider of Third-Party Due Diligence Services for Asset-Backed Securities" (the prescribed form). The prescribed form elicits information about the due diligence performed, including a description of the work performed (item 4 of the prescribed form) and a summary of findings and conclusions of the third party (item 5 of the prescribed form).

---

<sup>1</sup> For purposes of this interpretation, the term *release* refers to the SEC rules amended by SEC Release No. 34-72936, *Nationally Recognized Statistical Rating Organizations*, and the accompanying release text.

**.04** The release states the following:

The Commission understands there may be particular considerations that would need to be taken into account under applicable professional standards that govern certain services provided by the accounting profession. The requirements and limitations resulting from relevant professional standards generally are described within the reports issued and, to the extent such requirements or limitations are based upon professional standards, the Commission would not object to the inclusion of the same description in the written certifications on [the prescribed form].

**.05** The prescribed form is required to be signed by the due diligence provider. The prescribed form is also required to be provided to any nationally recognized statistical rating organization (NRSRO) that produces a credit rating for an ABS to which such due diligence services relate. The release describes that the due diligence provider will be deemed to have met this obligation by providing the prescribed form to the issuer, sponsor, or underwriter of the securitization that maintains the Rule 17g-5 website. The purpose of the Rule 17g-5 website is to make information related to ABS transactions accessible to all NRSROs. Additionally, the release requires the prescribed form to be provided to any NRSRO that specifically requests it.

**.06** When the NRSRO produces a credit rating, the release requires that it publicly disclose each prescribed form that was posted to the Rule 17g-5 website. Such information is expected to be posted on the website of the specific NRSRO, not on the EDGAR system. The release indicates that the decision to allow the NRSRO to disclose the prescribed form in the manner previously described, instead of through the EDGAR system, was to limit additional cost that would be incurred from having the NRSRO submit the prescribed forms through the EDGAR system.

**.07** In most instances, Form ABS-15G will be furnished through the EDGAR system, either prior to or at the same time as the prescribed form is posted to the Rule 17g-5 website.

**.08** Therefore, the procedures or findings, or both, of due diligence services (as defined in the release) conducted as AUP engagements are made public via Form ABS-15G through the EDGAR system or via the prescribed form through the process by which the NRSRO publishes its credit ratings, or both.

**.09** *Question*—The release requires the public disclosure of the procedures or findings, or both, of the practitioner's due diligence services in the prescribed form and Form ABS-15G, as applicable. Is the distribution of such procedures or findings, or both, prohibited under section 215, *Agreed-Upon Procedures Engagements*, when such services are performed as an AUP engagement?

**.10** *Interpretation*—No. The distribution of the procedures or findings, or both, of the practitioner's due diligence services in the prescribed form or Form ABS-15G is not prohibited. A practitioner is not required to prohibit the distribution of the procedures or findings, or both, contained in the AUP report that may be disclosed in the prescribed form or Form ABS-15G because the distribution of that information is required by regulation to be made available to the public, as described in paragraphs .01–.08 of this interpretation.

**.11** Section 205, *Examination Engagements*, states "In some cases, restricted-use reports filed with regulatory agencies are required by law or regulation to be made available to the public as a matter of public record. Also, a regulatory agency as part of its oversight responsibility for an entity may

require access to restricted-use reports in which they are not named as a specified party."<sup>2</sup>

**.12 Question**—The prescribed form contains certain language that is inconsistent with language commonly used in AUP reports and could be misinterpreted by those who have access to the prescribed form (for example, the term *review* is included in the prescribed form). In addition, the prescribed form does not include all elements of an AUP report required by section 215.<sup>3</sup>

**.13** What are the practitioner's responsibilities when due diligence services (as defined in the release) have been performed as an AUP engagement and the practitioner is required to complete the prescribed form, which includes language that is inconsistent with the practitioner's function or responsibility, or is incomplete with respect to the reporting requirements of the professional standards?

**.14 Interpretation**—In the circumstances described in paragraph .13 of this interpretation, section 105, *Concepts Common to All Attestation Engagements*, requires the practitioner to reword the prescribed form of report or attach an appropriately worded separate report.<sup>4</sup> Section 105 indicates that some report forms can be made acceptable by inserting additional wording to include the report elements required by the applicable section.<sup>5</sup> However, some report forms required by law or regulation can be made acceptable only by complete revision because the prescribed language of the practitioner's report calls for statements by the practitioner that are not consistent with the practitioner's function or responsibility, for example, a report form that requests the practitioner to "certify" the subject matter. Therefore, when completing the prescribed form for due diligence services that have been performed as an AUP engagement, the practitioner should include all the report elements required by section 215 and any clarifying wording to avoid any misinterpretation.<sup>6</sup> This may be accomplished by either adding wording to the prescribed form or attaching an appropriately worded separate report to the prescribed form, or both.

**.15 Question**—How might the practitioner modify the illustrative report wording in section 215 in order to clarify the requirements and limitations of AUP engagements and reports as it relates to due diligence services as defined in the release?

**.16 Interpretation**—Section 215 requires that an AUP report include an alert stating that the practitioner's report is intended solely for the information and use of the specified parties, identifying the specified parties, and stating that the report is not intended to be and should not be used by anyone other than the specified parties.<sup>7</sup> Section 205 states the following:<sup>8</sup>

The alert that restricts the use of the practitioner's report is designed to avoid misunderstandings related to the use of the report, particularly if the report is taken out of the context in which it was intended to be used. A practitioner may consider informing the responsible party and, if different, the engaging party or other specified parties that the report is not intended for distribution to parties other than those specified in the report. The practitioner may, in connection with establishing the terms of the engagement, reach an understanding

<sup>3</sup> Paragraph .35 of section 215, *Agreed-Upon Procedures Engagements*.

<sup>4</sup> Paragraph .18 of section 105, *Concepts Common to All Attestation Engagements*.

<sup>5</sup> Paragraph .A28 of section 105.

<sup>6</sup> Paragraph .35 of section 215.

<sup>7</sup> Paragraph .35m of section 215.

<sup>8</sup> Paragraph .A100 of section 205.

with the responsible party or, if different, the engaging party, that the intended use of the report will be restricted and may obtain the responsible party's agreement that the responsible party and specified parties will not distribute such report to parties other than those identified therein. A practitioner is not responsible for controlling, and cannot control, distribution of the report after its release.

**.17** As noted in section 215, a practitioner does have a responsibility to disclose certain limitations of AUP engagements in the AUP report.<sup>9</sup> However, the modifications can be made only to meet the requirements of the professional standards.

**.18** Because distribution of procedures or findings, or both, to non-specified parties may cause those non-specified parties to misunderstand the restricted use limitations of AUP reports, the practitioner may modify the language in the illustrative reports in section 215,<sup>10</sup> consistent with the requirements of section 215,<sup>11</sup> to clarify in the AUP report or prescribed form that the information with respect to the procedures or findings, or both, contained therein is not intended to be used by non-specified parties that may have access to the procedures or findings, or both, as required by the release (for example, NRSROs and investors).

**.19** Because the prescribed form utilizes the term *review*, the practitioner may also add language in the prescribed form that the practitioner did not conduct a review in accordance with the AICPA attestation standards.

[Issue Date: February 2015; Revised: April 2016, effective for practitioners' reports dated on or after May 1, 2017.]

## AT-C Section 305 \*

### ***Prospective Financial Information***

Source: SSAE No. 18.

**Effective for practitioners' examination and agreed-upon procedures reports on prospective financial information dated on or after May 1, 2017.**

#### **Introduction**

**.01** This section contains performance and reporting requirements and application guidance for a practitioner examining or performing agreed-upon procedures on prospective financial information.

**.02** Prospective financial information can take the form of prospective financial statements or partial presentations.

**.03** The AICPA Guide *Prospective Financial Information* (guide) provides comprehensive guidance regarding prospective financial information. Chapter 6, "Preparation Guidelines," chapter 7, "Reasonably Objective Basis," chapter 8, "Presentation Guidelines," and chapter 9, "Illustrative Prospective Financial Statements," of the guide establish the preparation and presentation guidelines for financial forecasts and financial projections. The guide also includes information about the types and uses of prospective financial information and interpretive guidance for applying this section.

**.04** In addition to complying with this section, a practitioner is required to comply with section 105, *Concepts Common to All Attestation Engagements*, and either section 205, *Examination Engagements*, for examinations of prospective financial information, or section 215, *Agreed-Upon Procedures Engagements*, for agreed-upon procedures engagements that address prospective financial information. In some cases, this section repeats or refers to requirements found in sections 105, 205, and 215 when describing those requirements in the context of engagements that address prospective financial information. Although not all the requirements in sections 105, 205, and 215 are repeated or referred to in this section, the practitioner is responsible for complying with all the requirements in sections 105 and 205, or 105 and 215, as applicable.

**.05** Section 210, *Review Engagements*, prohibits a practitioner from performing a review of prospective financial information.<sup>1</sup>

#### **Effective Date**

**.06** This section is effective for practitioners' examination and agreed-upon procedures reports on prospective financial information dated on or after May 1, 2017.

---

\* This section contains an "AT-C" identifier, instead of an "AT" identifier, to avoid confusion with references to existing "AT" sections, which remain effective through April 2017.

<sup>1</sup> Paragraph .07 of section 210, *Review Engagements*.

## Objectives of an Examination Engagement

.07 In conducting an examination of prospective financial information, the objectives of the practitioner are to

- a. obtain reasonable assurance about whether, in all material respects,
  - i. the prospective financial information is presented in accordance with the guidelines for the presentation of prospective financial information established by the AICPA (AICPA presentation guidelines) (Ref: par. .A1) and
  - ii. the assumptions underlying the forecast are suitably supported and provide a reasonable basis for the responsible party's forecast, or the assumptions underlying the projection are suitably supported and provide a reasonable basis for the responsible party's projection, given the hypothetical assumptions. (Ref: par. .A2)
- b. express an opinion in a written report on the matters in paragraph .07a.

## Objectives of an Agreed-Upon Procedures Engagement

.08 In conducting an agreed-upon procedures engagement for which the subject matter is prospective financial information, the objectives of the practitioner are to

- a. apply to the prospective financial information procedures that are established by specified parties who are responsible for the sufficiency of the procedures for their purposes and
- b. issue a written report that describes the procedures applied and the practitioner's findings.

## Definitions

.09 For purposes of this section, the following terms have the meanings attributed as follows:<sup>2</sup>

**Entity.** Any unit, existing or to be formed, for which financial statements could be prepared in accordance with generally accepted accounting principles or special purpose frameworks. For example, an entity can be an individual, partnership, corporation, trust, estate, association, or governmental unit. (Ref: par. .A3)

**Financial forecast.** Prospective financial statements that present, to the best of the responsible party's knowledge and belief, an entity's expected financial position, results of operations, and cash flows. A financial forecast is based on the responsible party's assumptions reflecting conditions it expects to exist and the course of action it expects to take. A financial forecast may be expressed in specific monetary amounts as a single-point estimate of forecasted results or as a range, when the responsible party selects key assumptions to form a range within which it reasonably expects, to the best of its knowledge and belief, the item or items subject to the assumptions to actually fall. If a forecast contains

---

<sup>2</sup> All definitions in this section, with the exception of the term *presentation guidelines*, are taken from chapter 3, "Definitions," of the AICPA guide *Prospective Financial Information*.

a range, the range is not selected in a biased or misleading manner (for example, a range in which one end is significantly less expected than the other). (Ref: par. .A4)

**Financial projection.** Prospective financial statements that present, to the best of the responsible party's knowledge and belief, given one or more hypothetical assumptions, an entity's expected financial position, results of operations, and cash flows. A financial projection is sometimes prepared to present one or more hypothetical courses of action for evaluation, as in response to a question such as, "What would happen if...?" A financial projection is based on the responsible party's assumptions reflecting conditions it expects would exist and the course of action it expects would be taken, given one or more hypothetical assumptions. A projection, like a forecast, may contain a range. (Ref: par. .A5–.A6)

**Guide.** The AICPA Guide *Prospective Financial Information*.

**Hypothetical assumption.** An assumption used in a financial projection or in a partial presentation of projected information to present a condition or course of action that is not necessarily expected to occur, but is consistent with the purpose of the projection.

**Key factors.** The significant matters on which an entity's future results are expected to depend. Such factors are basic to the entity's operations and, thus, encompass matters that affect, among other things, the entity's sales, production, service, and financing activities. Key factors serve as a foundation for prospective financial information and are the bases for the assumptions.

**Partial presentation.** A presentation of prospective financial information that excludes one or more of the applicable items required for prospective financial statements as described in chapter 8 of the guide. (Ref: par. .A7)

**Presentation guidelines.** The criteria for the presentation and disclosure of prospective financial information. (Ref: par. .A8)

**Prospective financial information.** Any financial information about the future. The information may be presented as complete financial statements or limited to one or more elements, items, or accounts.

**Prospective financial statements.** Either financial forecasts or financial projections, including the summaries of significant assumptions and accounting policies. Although prospective financial statements may cover a period that has partially expired, statements for periods that have completely expired are not considered to be prospective financial statements. Pro forma financial statements and partial presentations are not considered to be prospective financial statements. (Ref: par. .A9–.A10)

## Requirements

### Preconditions for an Examination Engagement

.10 Because a financial projection is not appropriate for general use, a practitioner should not agree to the use of the practitioner's name in conjunction with a financial projection that the practitioner believes will be distributed

to those who will not be negotiating directly with the responsible party. (Ref: par. .A4–.A5 and .A11)

**.11** Unless required by law or regulation to do so, a practitioner should not accept an engagement to examine

- a. a forecast or projection, unless the responsible party has agreed to disclose the significant assumptions
- b. a projection, unless the responsible party has agreed to identify in the presentation which of the assumptions are hypothetical and to describe the limitations on the usefulness of the projection.
- c. a partial presentation that does not describe the limitations on the usefulness of the presentation.

**.12** A practitioner should not examine a forecast or projection that discloses none of the significant assumptions. If after accepting the engagement the practitioner determines that the forecast or projection discloses none of the significant assumptions, the practitioner should withdraw from the engagement, unless required by law or regulation to report on the forecast or projection, in which case, the practitioner should express an adverse opinion in the practitioner's report.

**.13** If after accepting the engagement, the practitioner determines that the forecast or projection fails to disclose one or more of the significant assumptions, the practitioner should describe the assumption(s) in the practitioner's report and express an adverse opinion.

**.14** If after accepting the engagement the practitioner determines that a projection fails to identify which of the assumptions are hypothetical or describe the limitations on the usefulness of the projection, the practitioner should withdraw from the engagement, unless required by law or regulation to report on the projection, in which case, the practitioner should express an adverse opinion in the practitioner's report.

## Training and Proficiency

**.15** The practitioner should understand the guidelines for the preparation and presentation of prospective financial information contained in the guide.

**.16** The practitioner should possess or obtain a level of knowledge of the industry and the accounting principles and practices of the industry in which the entity operates, or will operate, that will enable the practitioner to examine prospective financial information that is appropriate for an entity operating in that industry.

**.17** The practitioner should obtain knowledge of the key factors on which the entity's prospective financial information is based. (Ref: par. .A12)

## Requesting a Written Assertion

**.18** The practitioner should request from the responsible party a written assertion. If the responsible party refuses to provide a written assertion, the practitioner should withdraw from the engagement when withdrawal is possible under applicable law or regulation. (Ref: par. .A13)

## Planning

**.19** In accordance with section 205, the practitioner should establish an overall engagement strategy that sets the scope, timing, and direction of the

engagement and guides the development of the engagement plan.<sup>3</sup> (Ref: par. .A14)

## Examination Procedures

**.20** The examination procedures should be based on the practitioner's consideration of the following:

- a. The nature and materiality of the information to the prospective financial information taken as a whole
- b. The likelihood of material misstatements
- c. Knowledge obtained during current and previous engagements
- d. The responsible party's competence with respect to prospective financial information
- e. The extent to which the prospective financial information is affected by the responsible party's judgment, for example, its judgment in selecting the significant assumptions used to prepare the prospective financial information
- f. The support for the responsible party's assumptions

**.21** The practitioner should evaluate whether the responsible party has a reasonably objective basis for the forecast and should consider whether sufficiently objective assumptions can be developed for each key factor. (Ref: par. .A15)

**.22** The practitioner should perform those procedures the practitioner considers necessary in the circumstances to report on whether the assumptions underlying the forecast are suitably supported and provide a reasonable basis for the forecast, or whether the assumptions underlying the projection are suitably supported and provide a reasonable basis for the projection, given the hypothetical assumptions. (Ref: par. .A16–.A17)

**.23** The practitioner should evaluate the support for the significant assumptions individually and in the aggregate. Assumptions are suitably supported if the preponderance of the information supports each significant assumption. In an examination of a projection, the practitioner need not obtain support for the hypothetical assumptions, although the practitioner should evaluate whether they are consistent with the purpose of the presentation. (Ref: par. .A18–.A20)

**.24** In an evaluation of whether the assumptions provide a reasonable basis for the forecast, the practitioner should evaluate the assumptions in the aggregate. If certain assumptions do not have a material effect on the presentation, they may not have to be individually evaluated. Nonetheless, the practitioner should evaluate the aggregate effect of individually insignificant assumptions in making the practitioner's overall evaluation.

**.25** The practitioner should evaluate the assumptions related to an expired portion of the prospective period. (Ref: par. .A21–.A23)

**.26** In evaluating the preparation and presentation of the prospective financial information, the practitioner should perform procedures to obtain reasonable assurance about whether the

- a. presentation reflects the identified assumptions,

---

<sup>3</sup> Paragraph .11 of section 205, *Examination Engagements*.

- b. computations made to translate the assumptions into prospective amounts are mathematically accurate,
- c. assumptions are internally consistent,
- d. accounting principles used in the forecast or projection are appropriate, (Ref: par. .A24)
- e. prospective financial information is presented in accordance with the AICPA presentation guidelines, and
- f. assumptions have been adequately disclosed in accordance with the AICPA presentation guidelines.

**.27** The practitioner should conclude whether the prospective financial information, including related disclosures, should be revised because of any of the following: (Ref: par. .A25)

- a. Mathematical errors
- b. Unreasonable or internally inconsistent assumptions
- c. Inappropriate or incomplete presentation
- d. Inadequate disclosure

### Written Representations in an Examination Engagement

**.28** In an examination of a forecast, in addition to the written representations from the responsible party required by section 205, the practitioner should request from the responsible party written representations that<sup>4</sup>

- a. the forecast presents the expected financial position, results of operations, and cash flows for the forecast period and that the forecast reflects the responsible party's judgment, based on present circumstances, of the expected conditions and its expected course of action;
- b. the assumptions on which the forecast is based are reasonable and suitably supported; and
- c. if the forecast contains a range, the item or items subject to the assumptions are reasonably expected to fall within the range and that the range was not selected in a biased or misleading manner.

**.29** In an examination of a projection, in addition to the written representations from the responsible party required by section 205, the practitioner should request from the responsible party written representations that<sup>5</sup>

- a. identify the hypothetical assumptions;
- b. identify which of the hypothetical assumptions, if any, are improbable;
- c. describe the limitations of the usefulness of the presentation;
- d. the projection presents the expected financial position, results of operations, and cash flows for the projection period given the hypothetical assumptions, and that the projection reflects the responsible party's judgment, based on present circumstances, of expected conditions and its expected course of action given the occurrence of the hypothetical events;

---

<sup>4</sup> Paragraph .50 of section 205.

<sup>5</sup> See footnote 4.

- e. the assumptions other than the hypothetical assumptions are reasonable, given the hypothetical assumptions, and are suitably supported; and
- f. if the projection contains a range, given the hypothetical assumptions, the item or items subject to the assumption are reasonably expected to actually fall within the range and that the range was not selected in a biased or misleading manner.

**.30** In an examination of prospective information, the written representation required by section 205 regarding whether the subject matter is in accordance with (or based on) the criteria should indicate that the forecast (or projection) is presented in accordance with (or based on) the guidelines for the presentation of a forecast (or financial projection) established by the American Institute of Certified Public Accountants.<sup>6</sup> (Ref: par. .A26)

**.31** In an examination of prospective financial information, the practitioner should request from the responsible party the written representations required by section 205 and paragraphs .28 or .29 of this section, as applicable, even if the engaging party is not the responsible party.<sup>7</sup> The alternative to obtaining the required written representations provided for in section 205 is not permitted in an engagement to examine prospective financial information.<sup>8</sup> The responsible party's refusal to furnish the written representations required by section 205 and paragraphs .28 or .29 of this section, as applicable, constitutes a limitation on the scope of the engagement sufficient to preclude an unmodified opinion and may be sufficient to cause the practitioner to withdraw from the examination engagement, when withdrawal is possible under applicable laws and regulations.<sup>9</sup>

## Content of the Practitioner's Examination Report

**.32** The practitioner's examination report on prospective financial information should include the following, unless the practitioner is disclaiming an opinion, in which case, items .32f, and .32g should be omitted: (Ref: par. .A27–.A30)

- a. A title that includes the word *independent*.
- b. An appropriate addressee as required by the circumstances of the engagement.
- c. An identification of the prospective financial information being reported on, including the period of time to which the prospective financial information relates.
- d. An indication that the criteria against which the prospective financial information was measured or evaluated are the guidelines for the presentation of a forecast (or projection) established by the American Institute of Certified Public Accountants.
- e. A statement that identifies
  - i. the responsible party and its responsibility for preparing and presenting the prospective financial information in accordance with the guidelines for the presentation of a forecast (or projection) established by the American Institute of Certified Public Accountants.

---

<sup>6</sup> Paragraph .50a of section 205.

<sup>7</sup> See footnote 4.

<sup>8</sup> Paragraph .51 of section 205.

<sup>9</sup> Paragraphs .50, .55, and .A64 of section 205.

- ii. the practitioner's responsibility is to express an opinion on the prospective financial information, based on the practitioner's examination.
- f. A statement that
  - i. the practitioner's examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.
  - ii. those standards require that the practitioner plan and perform the examination to obtain reasonable assurance about whether the forecast (or projection) is presented in accordance with the guidelines for the presentation of a forecast (or projection) established by the American Institute of Certified Public Accountants, in all material respects.
  - iii. the practitioner believes the evidence obtained is sufficient and appropriate to provide a reasonable basis for the practitioner's opinion.
- g. A description of the nature of an examination engagement.
- h. The practitioner's opinion about whether the forecast (or projection) is presented, in all material respects, in accordance with the guidelines for the presentation of a forecast (or projection) established by the American Institute of Certified Public Accountants, and whether the underlying assumptions are suitably supported and provide a reasonable basis for the forecast or a reasonable basis for the projection given the hypothetical assumptions.
- i. A statement indicating that the prospective results may not be achieved and describing other significant inherent limitations, if any.
- j. A statement that the practitioner has no responsibility to update the report for events and circumstances occurring after the date of the report.
- k. The manual or printed signature of the practitioner's firm.
- l. The city and state where the practitioner practices.
- m. The date of the report. (The report should be dated no earlier than the date on which the practitioner has obtained sufficient appropriate evidence on which to base the practitioner's opinion, including evidence that
  - i. the attestation documentation has been reviewed,
  - ii. the prospective financial information has been prepared, and
  - iii. the responsible party has provided a written assertion.)

**.33** When a practitioner examines a projection, the practitioner's opinion regarding the assumptions should be conditioned on the hypothetical assumptions, that is, the practitioner should express an opinion on whether the assumptions provide a reasonable basis for the projection, given the hypothetical assumptions. In addition to the required elements for a practitioner's report on an examination of a forecast, a report on an examination of a projection should include (Ref: par. .A27 and .A31–.A32)

- a. an identification of the hypothetical assumptions,
- b. a description of the special purpose for which the projection was prepared, and

- c. an alert, in a separate paragraph, that restricts the use of the report. The alert should
  - i. state that the report is intended solely for the information and use of the specified parties,
  - ii. identify the specified parties for whom use is intended, and
  - iii. state that the report is not intended to be, and should not be, used by anyone other than the specified parties.
- d. When the engagement is also performed in accordance with *Government Auditing Standards*, the alert that restricts the use of the report should include the following information, rather than the information required by paragraph .33c:
  - i. a description of the purpose of the report, and
  - ii. a statement that the report is not suitable for any other purpose.

**.34** When the prospective financial information contains a range, the practitioner's report should also include a separate paragraph that states that the responsible party has elected to portray the expected results of one or more assumptions as a range. (Ref: par. .A27 and .A33)

## Modified Opinions

**.35** The following are circumstances that require the practitioner to modify the opinion and the type of modified opinion the practitioner should express in each circumstance: (Ref: par. .A34–.A38)

- a. If, in the practitioner's judgment, the prospective financial information materially departs from AICPA presentation guidelines, the practitioner should express a qualified or adverse opinion. (Ref: par. .A35–.A36)
- b. If the prospective financial information fails to disclose assumptions that, in the practitioner's professional judgment, are significant, or misapplies the accounting principles, the practitioner should express an adverse opinion. (Ref: par. .A37)
- c. If the practitioner believes that one or more significant assumptions are not suitably supported or do not provide a reasonable basis for the forecast, or for the projection given the hypothetical assumptions, the practitioner should express an adverse opinion. (Ref: par. .A37)
- d. If the practitioner is unable to obtain sufficient appropriate evidence, the practitioner should disclaim an opinion and describe the scope limitation in the practitioner's report. (Ref: par. .A38)

## Partial Presentations

**.36** When examining a partial presentation, the practitioner should give appropriate consideration to whether key factors affecting elements, accounts, or items that are interrelated with those in the partial presentation have been considered, including key factors that may not necessarily be obvious to the user of a partial presentation (for example, production capacity relative to a sales forecast), and whether all significant assumptions have been disclosed. (Ref: par. .A39–.A40 and .A29)

**.37** Because partial presentations are generally appropriate only for limited use, practitioners' reports on partial presentations of both forecasted and

projected financial information should include a description of any limitations on the usefulness of the presentation.

## Preconditions for an Agreed-Upon Procedures Engagement

.38 In addition to determining that the preconditions for accepting or continuing an agreed-upon procedures engagement enumerated in section 105 and section 215 are met, the practitioner should not perform an agreed-upon procedures engagement on a forecast or projection unless the prospective financial information includes a summary of significant assumptions.

## Content of the Practitioner's Agreed-Upon Procedures Report

.39 The practitioner's report on the application of agreed-upon procedures to a forecast or projection should include the following: (Ref: par. .A41-.A42)

- a. A title that includes the word *independent*.
- b. An appropriate addressee as required by the circumstances of the engagement.
- c. An identification of the prospective financial information and the nature of an agreed-upon procedures engagement.
- d. An identification of the specified parties.
- e. A statement that the procedures performed were those agreed to by the specified parties identified in the report.
- f. A statement that identifies the responsible party and its responsibility for preparing and presenting the forecast (or projection) in accordance with the guidelines for the presentation of a forecast (or projection) established by the American Institute of Certified Public Accountants.
- g. A statement that
  - i. the sufficiency of the procedures is solely the responsibility of the parties specified in the report.
  - ii. the practitioner makes no representation regarding the sufficiency of the procedures either for the purpose for which the report has been requested or for any other purpose.
- h. A list of the procedures performed (or reference thereto) and related findings. (The practitioner should not provide a conclusion.)
- i. When applicable, a description of any agreed-upon materiality limits.
- j. A statement that
  - i. the agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.
  - ii. the practitioner was not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or a conclusion, respectively, on
    - (1) whether the presentation of the forecast (or projection) is in accordance with guidelines for the presentation of a forecast (or projection) established by the American Institute of Certified Public Accountants,

- (2) whether the underlying assumptions are suitably supported, and
    - (3) whether the underlying assumptions provide a reasonable basis for the forecast or a reasonable basis for the projection given the hypothetical assumptions.
  - iii. the practitioner does not express such an opinion or conclusion.
  - iv. had the practitioner performed additional procedures, other matters might have come to the practitioner's attention that would have been reported.
- k. When applicable, a description of the nature of the assistance provided by a practitioner's external specialist.
- l. A statement indicating that the prospective results may not be achieved and describing other significant inherent limitations, if any.
- m. A statement that the practitioner has no responsibility to update the report for events and circumstances occurring after the date of the report.
- n. When applicable, reservations or restrictions concerning procedures or findings.
- o. An alert, in a separate paragraph, that restricts the use of the report. The alert should
  - i. state that the report is intended solely for the information and use of the specified parties,
  - ii. identify the specified parties for whom use is intended, and
  - iii. state that the report is not intended to be, and should not be, used by anyone other than the specified parties.
- p. When the engagement is also performed in accordance with *Government Auditing Standards*, the alert that restricts the use of the report should include the following information, rather than the information required by paragraph .39o.
  - i. A description of the purpose of the report
  - ii. A statement indicating that the report is not suitable for any other purpose
- q. The manual or printed signature of the practitioner's firm.
- r. The city and state where the practitioner practices.
- s. The date of the report. (The report should be dated no earlier than the date on which the practitioner completed the procedures and determined the findings, including that
  - i. the attestation documentation has been reviewed,
  - ii. the prospective financial information has been prepared, and
  - iii. the responsible party has provided a written assertion, unless the responsible party refuses to provide an assertion.)

## Application and Other Explanatory Material

### Objectives of an Examination Engagement (Ref: par. .07a)

**.A1** The practitioner's objective in an examination of prospective financial information is to obtain sufficient appropriate evidence to reduce attestation risk to a level that is, in the practitioner's professional judgment, acceptably low to express an opinion about whether the prospective financial information is presented in accordance with AICPA presentation guidelines and the assumptions are suitably supported and provide either a reasonable basis for the responsible party's forecast or a reasonable basis for the responsible party's projection, given the hypothetical assumptions. The practitioner's opinion does not address whether the prospective results can be achieved because events and circumstances frequently do not occur as expected, and achievement of the prospective results is dependent on the actions, plans, and assumptions of the responsible party.

**.A2** The concept of *suitably supported* is discussed in paragraphs .23 and .A18–.A20.

### Definitions

#### Entity (Ref: par. .09)

**.A3** The term *entity* is used elsewhere in the attestation standards. However, the definition of the term *entity* in paragraph .09 is applicable only to this section.

#### Financial Forecast (Ref: par. .09–.10)

**.A4** As indicated in chapter 4, "Types of Prospective Financial Information and Their Uses," of the guide, prospective financial statements are for either general use or limited use. *General use of prospective financial statements* refers to the use of the statements by persons with whom the responsible party is not negotiating directly—for example, in an offering statement of an entity's debt or equity interests. Because recipients of prospective financial statements distributed for general use are unable to ask the responsible party directly about the presentation, the presentation most useful to them is one that portrays, to the best of the responsible party's knowledge and belief, the expected results. Thus, only a financial forecast is appropriate for general use.

#### Financial Projection (Ref: par. .09–.10)

**.A5** *Limited use of prospective financial statements* refers to the use of prospective financial statements by the responsible party alone or by the responsible party and third parties with whom the responsible party is negotiating directly. Examples include use in negotiations for a bank loan, submission to a regulatory agency, and use solely within the entity. Third-party recipients of prospective financial statements intended for limited use can ask questions of the responsible party and negotiate terms directly with it. Any type of prospective financial statements that would be useful in the circumstances would normally be appropriate for limited use. Thus, the presentation may be a financial forecast or a financial projection.

**.A6** Generally, as the number or significance of the hypothetical assumptions increases, the less likely that it is appropriate for the responsible party to present a financial projection.

**Partial Presentation (Ref: par. .09)**

.A7 Chapter 23, "Partial Presentations of Prospective Financial Information," of the guide establishes a limitation on the use of partial presentations. Chapter 23 of the guide states, in part

...partial presentations are not ordinarily appropriate for general use. Accordingly, a partial presentation ordinarily should not be distributed to third parties who will not be *negotiating directly* with the responsible party (for example, in an offering document for an entity's debt or equity interests). In this context, negotiating directly is defined as a third-party user's ability to ask questions of, and negotiate the terms or structure of a transaction directly with, the responsible party.

**Presentation Guidelines (Ref: par. .09)**

.A8 Chapter 8 of the guide contains the guidelines for the presentation and disclosure of prospective financial information.

**Prospective Financial Statements (Ref: par. .09)**

.A9 Prospective financial statements may take the form of complete financial statements or may be summarized or condensed, as described in chapter 8 of the guide. Presentations that exclude one or more relevant elements described in that section are defined as *partial presentations*. For the purposes of this section, the term *forecast* used alone means forecasted information, which can be either a full presentation (a financial forecast) or a partial presentation. The term *projection* can refer to either a financial projection or a partial presentation of projected information.

.A10 The objective of pro forma financial information is to show what the significant effects on the historical financial statements might have been had a consummated or proposed transaction or event occurred at an earlier date. Although the transaction in question might be prospective, this section does not apply to such presentations because they are essentially historical financial statements and do not purport to be prospective financial statements. See section 310, *Reporting on Pro Forma Financial Information*.

**Preconditions for an Examination Engagement (Ref: par. .10)**

.A11 Paragraph .10 indicates that it is not appropriate for a practitioner to agree to the use of the practitioner's name in conjunction with a financial projection that the practitioner believes will be distributed to those who will not be negotiating directly with the responsible party. An example of such a situation is the inclusion of a financial projection in an offering statement of an entity's debt or equity interests, unless the projection is used to supplement a financial forecast for the period covered by the forecast (that is, the financial projection would be presented in the same document as the financial forecast and the period covered by the projection would not begin before, or extend beyond, the period covered by the forecast).

**Training and Proficiency (Ref: par. .17)**

.A12 In obtaining knowledge of the entity's business, accounting policies, and the key factors upon which its future financial results appear to depend, the practitioner may focus on areas such as the following:

- The availability and cost of resources needed to operate, for example, raw materials, labor, short-term and long-term financing, and plant and equipment.

- The nature and condition of markets in which the entity sells its goods or services, including final consumer markets if the entity sells to intermediate markets
- Factors specific to the industry, including competitive conditions, sensitivity to economic conditions, accounting policies, specific regulatory requirements, and technology
- Patterns of past performance for the entity or comparable entities, including trends in revenue and costs, turnover of assets, uses and capacities of physical facilities, and management policies

### Requesting a Written Assertion (Ref: par. .18)

.A13 Paragraph .18 applies regardless of whether the responsible party is the engaging party.

### Planning (Ref: par. .19)

.A14 Factors that may be considered by the practitioner in planning the examination of prospective financial information include the following:

- The financial reporting framework to be used and the type of presentation
- Preliminary judgments about materiality levels
- Items within the prospective financial information that are subject to risk of material misstatement
- Conditions that may require extension or modification of the practitioner's examination procedures
- Knowledge of the entity's business and its industry
- The responsible party's experience in preparing prospective financial information
- The length of the period covered by the prospective financial information
- The process by which the responsible party develops its prospective financial information

### Examination Procedures (Ref: par. .21–.23, .25, .26d, and .27)

.A15 Chapter 7 of the guide indicates that a reasonably objective basis for a forecast cannot exist if the premise on which the assumptions are based is too subjective. A forecast has to be based on a realistic premise, which has to be supportable. In contrast, the basic premise for a projection does not have to be supportable, although the hypothetical assumptions should be consistent with the purpose of the presentation. Accordingly, in a projection, the responsible party need not have a reasonably objective basis for the hypothetical assumptions.

.A16 *Forecast.* The practitioner can form an opinion that the assumptions provide a reasonable basis for the financial forecast if the responsible party represents that the presentation reflects, to the best of its knowledge and belief, its estimate of expected financial position, results of operations, and cash flows for the prospective period, and the practitioner concludes that, based on the practitioner's examination, (a) the responsible party has explicitly identified all key factors expected to materially affect the operations of the entity during

the prospective period and has developed appropriate assumptions with respect to such factors, and (b) the assumptions are suitably supported.

**.A17 Projection.** The practitioner can form an opinion that the assumptions provide a reasonable basis for the financial projection given the hypothetical assumptions if the responsible party represents that the presentation reflects, to the best of its knowledge and belief, expected financial position, results of operations, and cash flows for the prospective period given the hypothetical assumptions, and the practitioner concludes, based on the practitioner's examination, that

- a. the responsible party has explicitly identified all key factors that would materially affect the operations of the entity during the prospective period if the hypothetical assumptions were to materialize and has developed appropriate assumptions with respect to such factors, and
- b. the other assumptions are suitably supported given the hypothetical assumptions. However, as the number and significance of the hypothetical assumptions increase, the practitioner may not be able to be satisfied about the presentation as a whole by obtaining support for the remaining assumptions.

**.A18** A preponderance of information exists for an assumption if the weight of available information supports that assumption. Furthermore, because of the judgments involved in developing assumptions, different people may arrive at somewhat different, but equally reasonable, assumptions based on the same information.

**.A19** In evaluating support for assumptions other than hypothetical assumptions in a projection, the practitioner can conclude that they are suitably supported if the preponderance of information supports each significant assumption given the hypothetical assumptions.

**.A20** Appropriate considerations for forecasts and projections include whether

- a. sufficient pertinent sources of information about the assumptions have been considered. Examples of external sources the practitioner might consider are government publications, industry publications, economic forecasts, existing or proposed legislation, and reports of changing technology. Examples of internal sources are budgets, labor agreements, patents, royalty agreements and records, sales backlog records, debt agreements, and actions of the board of directors involving entity plans.
- b. the assumptions are consistent with the sources from which they are derived.
- c. the assumptions are consistent with each other.
- d. the historical financial information and other data used in developing the assumptions are sufficiently reliable for that purpose. Reliability can be assessed by inquiry and analytical or other procedures, some of which may have been completed in past audits or reviews of the historical financial statements.
- e. the historical financial information and other data used in developing the assumptions are comparable over the periods specified or whether the effects of any lack of comparability were considered in developing the assumptions.
- f. the logical arguments or theory, considered with the data supporting the assumptions, are reasonable.

**.A21** The procedures the practitioner performs to evaluate these assumptions depends on

- the significance of the period,
- whether financial statements have been prepared for the expired period, and
- whether the forecast or projection incorporates the historical results.

**.A22** The practitioner may obtain evidence regarding the actual results by applying audit or review procedures to the historical results.

**.A23** At some point the historical results become such a large portion of the prospective results that the practitioner might consider it inappropriate to examine the prospective financial information.

**.A24** Under the AICPA presentation guidelines, the accounting principles used in a projection need not be those expected to be used in the historical financial statements for the prospective period if use of a different principle is consistent with the purpose of the presentation.

**.A25** The practitioner's consideration of materiality is discussed in section 205.<sup>10</sup> Materiality is a concept that is judged in light of the expected range of reasonableness of the information; therefore, users would not expect prospective financial information (information about events that have not yet occurred) to be as precise as historical information.

## **Written Representations in an Examination Engagement (Ref: par. .30)**

**.A26** Section 205 requires the practitioner to request written representations from the responsible party, including a representation that it has disclosed to the practitioner all known matters contradicting the subject matter.<sup>11</sup> Because no one can know the future, "known matters," in the context of prospective financial information, refers to what the responsible party expects. The required disclosure in the written representations relates to assumptions that are not consistent with the responsible party's expectations, or in the case of a projection, not consistent with the responsible party's expectations given the occurrence of the hypothetical assumptions.

## **Content of the Practitioner's Examination Report (Ref: par. .32–.34, and .36)**

**.A27** The list of elements in paragraphs .32–.34 constitutes all the required elements for a practitioner's report on an examination of prospective financial information, including the elements required by section 205.<sup>12</sup> Application guidance regarding the elements of an examination report is included in section 205.<sup>13</sup>

**.A28** Example 1 in the exhibit, "Illustrative Practitioner's Examination and Agreed-Upon Procedures Reports Related to Prospective Financial

---

<sup>10</sup> Paragraph .16 of section 205.

<sup>11</sup> Paragraph .50c of section 205.

<sup>12</sup> Paragraphs .63–.66 of section 205.

<sup>13</sup> Paragraphs .A78–.A101 of section 205.

Information," to this section provides an illustration of a practitioner's report on an examination of a financial forecast.

**.A29** The requirements in paragraph .32 are applicable to practitioners' reports on prospective financial statements and on partial presentations.

**.A30** When the practitioner's examination of prospective financial information is part of a larger engagement, for example, a financial feasibility study or business acquisition study, the practitioner may expand the practitioner's report on the examination of the prospective financial information to describe the entire engagement. Chapter 17, "The Practitioner's Examination Report," of the guide addresses reporting when the examination engagement is part of a larger engagement.

**.A31** Section 205 notes that the specified parties may be identified by naming them, referring to a list of them, or identifying them as a class.<sup>14</sup>

**.A32** Example 2 in the exhibit to this section provides an illustration of a practitioner's examination report on a financial projection.

**.A33** The following is an example of a separate paragraph to be added to the practitioner's report when the practitioner examines prospective financial statements, in this case, a forecast that contains a range:

As described in the summary of significant assumptions, management of XYZ Company has elected to portray forecasted *[describe the financial statement element or elements for which the expected results of one or more assumptions fall within a range, and identify assumptions expected to fall within a range, for example, revenue in the amounts of \$X,XXX and \$Y,YYY, which is predicated upon occupancy rates of XX percent and YY percent of available apartments]* rather than as a single point estimate. Accordingly, the accompanying forecast presents forecasted financial position, results of operations, and cash flows *[describe one or more assumptions expected to fall within a range, for example, "at such occupancy rates"]*. However, there is no assurance that the actual results will fall within the range of *[describe one or more assumptions expected to fall within a range, for example, occupancy rates]* presented.

## Modified Opinions (Ref: par. .35)

**.A34** Because of the nature, sensitivity, and interrelationship of prospective financial information, a user of a practitioner's report may find it difficult to interpret a practitioner's opinion that is qualified because of a misapplication of accounting principles, the failure to disclose a significant assumption, the unreasonableness of the underlying assumptions, an assumption that is not suitably supported, or a scope limitation. Using language such as "except for . . ." in the practitioner's opinion about these items may result in misunderstanding by users of the report. For that reason, when a misapplication of accounting principles, a failure to disclose a significant assumption, an unreasonable assumption, an assumption that is not suitably supported, or a limitation on the scope of the practitioner's examination has led the practitioner to conclude that the practitioner cannot express an unmodified opinion, paragraph .35 identifies the type of modified opinion to be expressed.

**.A35** A qualified opinion may result from the failure to disclose matters (other than the significant assumptions) required by AICPA presentation guidelines, for example, the failure to disclose significant accounting policies, which is required by chapter 8 of the guide. (As indicated in paragraph

---

<sup>14</sup> Paragraph .A98 of section 205.

.35*b*, the failure to disclose significant assumptions would result in an adverse opinion.)

**A36** Section 205 indicates that a qualified opinion is expressed as being "except for the effects of the matter to which the qualification relates."<sup>15</sup> Section 205 also requires that the practitioner's opinion be separated from any paragraphs emphasizing matters related to the subject matter or any other reporting responsibilities.<sup>16</sup> Accordingly, the opinion paragraph would refer to a separate paragraph that describes the matter giving rise to the qualification. The following is an illustration of the separate paragraph that describes the matter giving rise to the qualification and the opinion paragraph when a financial forecast contains a departure from AICPA presentation guidelines:

The forecast does not disclose significant accounting policies. Disclosure of such policies is required by guidelines for the presentation of a forecast established by the American Institute of Certified Public Accountants.

In our opinion, except for the omission of the disclosures related to significant accounting policies as discussed in the preceding paragraph, the accompanying forecast is presented in accordance with the guidelines for the presentation of a forecast established by the American Institute of Certified Public Accountants, and the underlying assumptions are suitably supported and provide a reasonable basis for management's forecast.

**A37** In an adverse opinion, the practitioner's opinion states that the presentation is not in accordance with the AICPA presentation guidelines and, when applicable, also states that in the practitioner's opinion, the assumptions are not suitably supported and do not provide a reasonable basis for the prospective financial statements. The following are illustrative paragraphs for use when the practitioner expresses an adverse opinion because the financial forecast contains a significant assumption that is unreasonable:

As discussed under the caption "Sales" in the summary of significant forecast assumptions, the forecasted sales include, among other things, revenue from the Company's federal defense contracts continuing at the current level. The Company's present federal defense contracts will expire in March 20XX. No new contracts have been signed, and no negotiations are underway for new federal defense contracts. Furthermore, the federal government has entered into contracts with another company to supply the items being manufactured under the Company's present contracts.

In our opinion, the accompanying forecast is not presented in accordance with the guidelines for the presentation of a forecast established by the American Institute of Certified Public Accountants because management's assumptions, as discussed in the preceding paragraph, are not suitably supported and do not provide a reasonable basis for management's forecast.

**A38** In a disclaimer of opinion, the paragraph of the practitioner's report that describes the matters giving rise to the opinion modification describes the respects in which the examination did not comply with attestation standards applicable to an examination engagement. The practitioner states that because of the respects in which the examination did not comply with such standards, the scope of the examination was not sufficient to enable the practitioner to express, and the practitioner does not express, an opinion on the presentation of or the assumptions underlying the forecast or projection. The following is an illustrative report on an examination of prospective financial statements, in

---

<sup>15</sup> Paragraph .71 of section 205.

<sup>16</sup> Paragraph .80 of section 205.

this case, a financial forecast, for which a significant assumption could not be evaluated.

We were engaged to examine the accompanying forecast of XYZ Company, which comprises the forecasted balance sheet as of December 31, 20XX, and the related forecasted statements of income, stockholders' equity, and cash flows for the year then ending. XYZ Company's management is responsible for preparing and presenting the forecast in accordance with the guidelines for the presentation of a forecast established by the American Institute of Certified Public Accountants.

As discussed under the caption, "Income From Investee" in the summary of significant forecast assumptions, the forecast includes income from an equity investee constituting 23 percent of forecasted net income, which is management's estimate of the Company's share of the investee's income to be accrued for 20XX. The investee has not prepared a forecast for the year ending December 31, 20XX, and we were, therefore, unable to obtain suitable support for this assumption.

Because, as described in the preceding paragraph, we are unable to evaluate management's assumption regarding income from an equity investee and other assumptions that depend thereon, the scope of our work was not sufficient to express, and we do not express, an opinion with respect to the presentation of or the assumptions underlying the accompanying forecast.

We have no responsibility to update this report for events and circumstances occurring after the date of this report.

## Partial Presentations (Ref: par. .36)

**.A39** Chapter 23 of the guide addresses partial presentations.

**.A40** The practitioner's procedures on a partial presentation may be affected by the nature of the information presented. Many elements of prospective financial statements are interrelated. The nature and extent of the procedures performed in an examination of some partial presentations may need to be similar to the procedures performed in an examination of a full presentation of prospective financial statements. For example, the scope of a practitioner's procedures when the practitioner examines forecasted results of operations (a partial presentation) would likely be similar to that of procedures used for the examination of prospective financial statements because the practitioner would most likely need to consider the interrelationships of all accounts in the examination of results of operations.

## Content of the Practitioner's Agreed-Upon Procedures Report (Ref: par. .39)

**.A41** The list of elements in paragraph .39 constitutes all the required elements for a practitioner's report on the application of agreed-upon procedures to a forecast or projection, including the elements required by section 215.<sup>17</sup> Application guidance regarding the elements of an agreed-upon procedures report is included in section 215.<sup>18</sup>

**.A42** Example 3 in the exhibit to this section provides an illustration of a practitioner's agreed-upon procedures report.

---

<sup>17</sup> Paragraph .35 of section 215, *Agreed-Upon Procedures Engagements*

<sup>18</sup> Paragraphs .A35--A41 of section 215.

.A43

## Exhibit—Illustrative Practitioner’s Examination and Agreed-Upon Procedures Reports Related to Prospective Financial Information

### Example 1: Practitioner’s Examination Report on a Financial Forecast

The following is an illustrative practitioner's report for an examination of a financial forecast that does not contain a range.

#### Independent Accountant's Report

[Appropriate Addressee]

We have examined the accompanying forecast of XYZ Company, which comprises [identify the statements, for example, the forecasted balance sheet as of December 31, 20XX, and the related forecasted statements of income, stockholders' equity, and cash flows for the year then ending], based on the guidelines for the presentation of a forecast established by the American Institute of Certified Public Accountants. XYZ Company's management<sup>1</sup> is responsible for preparing and presenting the forecast in accordance with the guidelines for the presentation of a forecast established by the American Institute of Certified Public Accountants.<sup>2</sup> Our responsibility is to express an opinion on the forecast based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the forecast is presented in accordance with the guidelines for the presentation of a forecast established by the American Institute of Certified Public Accountants, in all material respects. An examination involves performing procedures to obtain evidence about the forecast. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of the forecast, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

In our opinion, the accompanying forecast is presented, in all material respects, in accordance with the guidelines for the presentation of a forecast established by the American Institute of Certified Public Accountants, and the underlying assumptions are suitably supported and provide a reasonable basis for management's forecast.

There will usually be differences between the forecasted and actual results because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

[Practitioner's signature]

[Practitioner's city and state]

[Date of practitioner's report]

---

<sup>1</sup> If the responsible party is other than management, the references to management in this illustrative practitioner's report would be changed to refer to the party who has responsibility for the assumptions.

<sup>2</sup> When the presentation is summarized as illustrated in exhibit 9-2 of the AICPA Guide *Prospective Financial Information*, this sentence might read, "We have examined the accompanying summarized forecast of XYZ Company as of December 31, 20XX, and for the year then ending..."

## Example 2: Practitioner's Examination Report on a Financial Projection

The following is an illustrative practitioner's report for an examination of a financial projection that does not contain a range.

### **Independent Accountant's Report**

*[Appropriate Addressee]*

We have examined the accompanying projection of XYZ Company, which comprises *[identify the statements, for example, the projected balance sheet as of December 31, 20XX, and the related projected statements of income, stockholders' equity, and cash flows for the year then ending]* based on the guidelines for the presentation of a projection established by the American Institute of Certified Public Accountants.<sup>3</sup> XYZ Company's management<sup>4</sup> is responsible for preparing and presenting the projection based on *[identify the hypothetical assumption, for example, the granting of the requested loan as described in the summary of significant assumptions]* in accordance with the guidelines for the presentation of a projection established by the American Institute of Certified Public Accountants. The projection was prepared for *[describe the special purpose, for example, the purpose of negotiating a loan to expand XYZ Company's plant]*. Our responsibility is to express an opinion on the projection based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the projection is presented in accordance with the guidelines for the presentation of a projection established by the American Institute of Certified Public Accountants, in all material respects. An examination involves performing procedures to obtain evidence about the projection. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of the projection, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

In our opinion, *[describe the hypothetical assumption(s), for example, assuming the granting of the requested loan for the purpose of expanding XYZ Company's plant as described in the summary of significant assumptions]* the projection referred to above is presented, in all material respects, in accordance with the guidelines for the presentation of a projection established by the American Institute of Certified Public Accountants, and the underlying assumptions are suitably supported and provide a reasonable basis for management's projection given the hypothetical assumption(s).

Even if *[identify the hypothetical assumption, for example, the loan is granted and the plant is expanded,]* there will usually be differences between the projected and actual results because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

---

<sup>3</sup> When the presentation is summarized as illustrated in exhibit 9-2 of the AICPA Guide *Prospective Financial Information*, this sentence might read, "We have examined the accompanying summarized projection of XYZ Company as of December 31, 20XX, and for the year then ending..."

<sup>4</sup> If the responsible party is other than management, the references to management in this illustrative practitioner's report would be changed to refer to the party who has responsibility for the assumptions.

The accompanying projection and this report are intended solely for the information and use of *[identify specified parties, for example, XYZ Company and DEF National Bank]*, and are not intended to be and should not be used by anyone other than these specified parties.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

### **Example 3: Practitioner's Agreed-Upon Procedures Report Related to a Financial Forecast**

The following is an illustrative practitioner's report for an engagement to apply agreed-upon procedures to a financial forecast.

#### **Independent Accountant's Agreed-Upon Procedures Report**

*[Appropriate Addressee]*

We have performed the procedures enumerated below, which were agreed to by *[identify the specified parties, for example, the boards of directors of XYZ Corporation and ABC Company]*, on *[identify the statements, for example, the forecasted balance sheet as of December 31, 20XX and the related forecasted statements of income, stockholders' equity, and cash flows of DEF Company, a subsidiary of ABC Company, for the year then ending]*. DEF Company's management<sup>5</sup> is responsible for preparing and presenting the forecast in accordance with the guidelines for the presentation of a forecast established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures enumerated below either for the purpose for which this report has been requested or for any other purpose.

*[Include paragraphs to enumerate procedures and findings.]*

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, about whether the forecast is presented in accordance with the guidelines for the presentation of a forecast established by the American Institute of Certified Public Accountants or whether the underlying assumptions are suitably supported or provide a reasonable basis for management's forecast. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

There will usually be differences between the forecasted and actual results because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

This report is intended solely for the information and use of *[identify the specified parties, for example, the boards of directors of ABC Company and XYZ*

---

<sup>5</sup> If the responsible party is other than management, the references to management in this illustrative report would be changed to refer to the party who has responsibility for the assumptions.

*Corporation*], and is not intended to be, and should not be, used by anyone other than these specified parties.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

---

## AT-C Section 310\*

# Reporting on Pro Forma Financial Information

Source: SSAE No. 18.

Effective for practitioners' examination and review reports on pro forma financial information dated on or after May 1, 2017.

## Introduction

**.01** This section contains performance and reporting requirements and application guidance for a practitioner examining or reviewing pro forma financial information.

**.02** This section does not apply when

- a practitioner is performing agreed-upon procedures related to pro forma financial information. Section 105, *Concepts Common to All Attestation Engagements*, and section 215, *Agreed-Upon Procedures Engagements*, are applicable to such engagements.
- certain requesting parties request a comfort letter or ask a practitioner to perform procedures on pro forma financial information in connection with an offering. AU-C section 920, *Letters for Underwriters and Certain Other Requesting Parties*, is applicable to such engagements.
- pro forma financial information is presented outside the basic financial statements but within the same document, and the practitioner is not engaged to report on the pro forma financial information. AU-C section 720, *Other Information in Documents Containing Audited Financial Statements*, and AU-C section 925, *Filings With the U.S. Securities and Exchange Commission Under the Securities Act of 1933*, may be applicable to such engagements.
- for purposes of a more meaningful presentation, a transaction consummated after the balance sheet date is reflected in the historical financial statements (such as a revision of debt maturities or a revision of earnings per share calculations for a stock split).
- the applicable financial reporting framework requires the presentation of pro forma financial information in the financial statements or the accompanying notes. For example, generally accepted accounting principles require pro forma financial information in FASB *Accounting Standards Codification* (ASC) 805, *Business Combinations*, FASB ASC 250, *Accounting Changes and Error Corrections*, or, in some cases, pro forma financial information relating to subsequent events.

**.03** In addition to complying with this section, a practitioner is required to comply with section 105 and either section 205, *Examination Engagements*,

---

\* This section contains an "AT-C" identifier, instead of an "AT" identifier, to avoid confusion with references to existing "AT" sections, which remain effective through April 2017.

for examinations of pro forma financial information or section 210, *Review Engagements*, for reviews of pro forma financial information. In some cases, this section repeats or refers to requirements found in sections 105, 205, and 210 when describing those requirements in the context of an examination or review of pro forma financial information. Although not all the requirements in sections 105, 205, and 210 are repeated or referred to in this section, the practitioner is responsible for complying with all the requirements in sections 105, 205, and 210, as applicable.

## Effective Date

.04 This section is effective for practitioners' examination and review reports on pro forma financial information dated on or after May 1, 2017.

## Objectives of an Examination Engagement

.05 In conducting an examination of pro forma financial information, the objectives of the practitioner are to

- a. obtain reasonable assurance about whether, in accordance with (or based on) the criteria
  - i. management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event), (Ref: par. .A1)
  - ii. and, in all material respects
    - (1) the related pro forma adjustments give appropriate effect to those assumptions, and
    - (2) the pro forma amounts reflect the proper application of those adjustments to the historical financial statement amounts.
- b. express an opinion in a written report on the matters in paragraph .05a.

## Objectives of a Review Engagement

.06 In conducting a review of pro forma financial information, the objectives of the practitioner are to

- a. obtain limited assurance about whether, in accordance with (or based on) the criteria, any material modifications should be made to
  - i. management's assumptions in order for them to provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event),
  - ii. the related pro forma adjustments in order for them to give appropriate effect to those assumptions, or
  - iii. the pro forma amounts in order for them to reflect the proper application of those adjustments to the historical financial statement amounts.
- b. express a conclusion in a written report on the matters in paragraph .06a.

## Definitions

.07 For the purposes of this section, the following terms have the meanings attributed as follows: (Ref: par. .A2–.A5)

**Criteria for the preparation of pro forma financial information.** The basis disclosed in the pro forma financial information that management used to develop the pro forma financial information, including the assumptions underlying the pro forma financial information. Paragraph .11 contains the attributes of suitable criteria for an examination or review of pro forma financial information.

**Pro forma financial information.** A presentation that shows what the significant effects on historical financial information might have been had a consummated or proposed transaction (or event) occurred at an earlier date.

## Requirements

### Preconditions for an Examination or Review Engagement

.08 In order to accept an attestation engagement to examine or review pro forma financial information, in addition to the preconditions for an attestation engagement included in sections 105 and 205, the practitioner<sup>1</sup>

- a. should determine that the document that contains the pro forma financial information includes historical financial statements of the entity for the most recent year (or for the preceding year if financial statements for the most recent year are not yet available) or that such financial statements are readily available and, if pro forma financial information is presented for an interim period, the document also either includes historical interim financial information for that period (which may be presented in condensed form) or such interim information is readily available. In the case of a business combination, the document includes the relevant historical financial information for the significant constituent parts of the combined entity. (Ref: par. .A6–.A7)
- b. should determine that the historical financial statements of the entity (or in the case of a business combination, of each significant constituent part of the combined entity) on which the pro forma financial information is based, in the case of (Ref: par. .A7–.A8)
  - i. an examination of pro forma financial information, have been audited, or
  - ii. a review of pro forma financial information, have been audited or reviewed, (Ref: par. .A8)

and the audit report (or the review report, if issued) is included in the document containing the pro forma financial information (or is readily available) to the extent that the historical financial information is included in the document pursuant to paragraph .08a.

---

<sup>1</sup> Paragraphs .24–.28 of section 105, *Concepts Common to All Attestation Engagements*, and paragraph .06 of section 205, *Examination Engagements*.

- c. will be able to obtain an appropriate level of knowledge of the accounting and financial reporting practices of the entity (or in the case of a business combination, of each significant constituent part of the combined entity) that will enable the practitioner to perform the procedures necessary to report on the pro forma financial information.

**.09** The level of service provided by the practitioner on the pro forma financial information should not exceed that provided on the related historical financial statements. An examination can be performed on pro forma financial information only if the related historical financial statements were audited. A review can be performed on pro forma financial information only if the related historical financial statements were audited or reviewed. In the case of a business combination, the level of service provided by the practitioner on the pro forma financial information should not exceed the lowest level of service provided on the underlying historical financial statements of any significant constituent part of the combined entity. (Ref: par. .A9)

### Requesting a Written Assertion

**.10** The practitioner should request from management a written assertion. If management refuses to provide a written assertion, the practitioner should withdraw from the engagement when withdrawal is possible under applicable law or regulation (Ref: par. .A10)

### Assessing the Suitability of the Criteria

**.11** As required by section 105, the practitioner should determine whether management has used suitable criteria in preparing and presenting the pro forma financial information.<sup>2</sup> In assessing the suitability of the criteria, the practitioner should determine whether the criteria include, at a minimum, that

- a. the financial information be extracted from audited or reviewed historical financial statements;
- b. the pro forma adjustments be
  - i. directly attributable to the transaction (or event),
  - ii. factually supportable (Ref: par. .A11),
  - iii. consistent with the entity's applicable financial reporting framework and its accounting policies under that framework; and
- c. the pro forma financial information be appropriately presented and include disclosures that enable intended users to understand the information conveyed.

### Understanding the Entity's Accounting and Financial Reporting Policies

**.12** The practitioner who is reporting on the pro forma financial information should have or obtain an appropriate level of knowledge of the accounting and financial reporting practices of the entity (or, in the case of a business combination, each significant constituent part of the combined entity). (Ref: par. .A12)

---

<sup>2</sup> Paragraph .25b(ii) of section 105.

## Examination and Review Procedures

.13 The procedures the practitioner should apply to the assumptions and pro forma adjustments for either an examination or a review engagement are as follows:

- a. Obtain an understanding of the underlying transaction (or event). (Ref: par. .A13)
- b. Obtain an understanding of the accounting and financial reporting practices of each significant constituent part of the combined entity in a business combination that will enable the practitioner to perform the required procedures. If another practitioner has performed an audit or a review of the most recent annual or interim period for which the pro forma financial information is presented (or the most recent annual or interim period of a significant constituent part of the combined entity), the need, by a practitioner reporting on the pro forma financial information, for an understanding of such entity's accounting and financial reporting practices is not diminished. In such circumstances, the practitioner should consider whether the practitioner can acquire sufficient knowledge of these matters to perform the procedures necessary to report on the pro forma financial information.
- c. Discuss with management their assumptions regarding the effects of the transaction (or event).
- d. Evaluate whether pro forma adjustments are included for all significant effects directly attributable to the transaction (or event).
- e. Obtain sufficient evidence in support of such adjustments. (Ref: par. .A14)
- f. Evaluate whether management's assumptions that underlie the pro forma adjustments are presented in a sufficiently clear and comprehensive manner.
- g. Evaluate whether the pro forma adjustments are consistent with each other and with the data used to develop them.
- h. Evaluate whether computations of pro forma adjustments are mathematically correct and whether the pro forma column reflects the proper application of those adjustments to the historical financial statements.
- i. Read the pro forma financial information and evaluate whether
  - i. the underlying transaction (or event), the pro forma adjustments, the significant assumptions, and the significant uncertainties, if any, about those assumptions have been appropriately described.
  - ii. the source of the historical financial information on which the pro forma financial information is based has been appropriately identified.

## Written Representations in an Examination and Review Engagement

.14 In addition to the written representations from management required by section 205 for an examination engagement or by section 210 for a review

engagement, the practitioner should request written representations from management that<sup>3</sup>

- a. it is responsible for the assumptions used in determining the pro forma adjustments;
- b. the assumptions are factually supportable;
- c. the assumptions provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event); the related pro forma adjustments give appropriate effect to those assumptions; and the pro forma amounts reflect the proper application of those adjustments to the historical financial statement amounts
- d. the pro forma adjustments are consistent with the entity's applicable financial reporting framework and its accounting policies under that framework
- e. the pro forma financial information is appropriately presented and discloses the significant effects directly attributable to the transaction (or event). (See paragraph .11c.)

**.15** In an examination or a review engagement, the practitioner should request from management the written representations required by section 205 or section 210, as applicable, and paragraph .14 of this section, even if the engaging party is not management. The alternative to obtaining the required written representations provided for in sections 205 and 210 is not permitted in an engagement to examine or review pro forma financial information.<sup>4</sup> Management's refusal to furnish the written representations required by section 205 and paragraph .14 of this section constitutes a limitation on the scope of the examination engagement sufficient to preclude an unmodified opinion and may be sufficient to cause the practitioner to withdraw from the examination engagement, when withdrawal is possible under applicable laws and regulations.<sup>5</sup> Management's refusal to furnish the written representations required by section 210 and paragraph .14 of this section constitutes a limitation on the scope of the review engagement sufficient to cause the practitioner to withdraw from the review engagement.<sup>6</sup>

## Reporting

**.16** The practitioner's report on pro forma financial information may be added to the practitioner's report on historical financial information, or it may appear separately. If the reports are combined and the date of completion of the procedures for the examination or review of the pro forma financial information is after the date the practitioner obtained the evidence necessary to issue a report on the audit or review of the historical financial information, the combined report should be dual-dated. (Ref: par. .A15)

## Content of the Practitioner's Examination Report

**.17** The practitioner's examination report on pro forma financial information should include the following, unless the practitioner is disclaiming an opinion, in which case, items .17j and .17k should be omitted: (Ref: par. .A16)

---

<sup>3</sup> Paragraph .50 of section 205 and paragraph .33 of section 210, *Review Engagements*.

<sup>4</sup> Paragraph .51 of section 205 and paragraph .34 of section 210.

<sup>5</sup> Paragraphs .50, .55, and .A64 of section 205.

<sup>6</sup> Paragraphs .33–.38c of section 210.

- a. A title that includes the word *independent*.
- b. An appropriate addressee as required by the circumstances of the engagement.
- c. A reference to the pro forma adjustments included in the pro forma financial information.
- d. A reference to management's description of the transaction (or event) to which the pro forma adjustments give effect. (The description is included in the pro forma financial information.)
- e. An identification or description of the pro forma financial information being reported on, including the point in time or period of time to which the measurement or evaluation of the pro forma financial information relates.
- f. An identification of the criteria against which the pro forma financial information was measured or evaluated.
- g. A reference to the financial statements from which the historical financial information is derived, a statement that such financial statements were audited, and, if applicable, whether the financial statements were audited by another auditor. (The report on pro forma financial information should refer to any modification in the auditor's report on the historical financial statements. In the case of a business combination, this paragraph applies to each significant constituent part of the combined entity.) (Ref: par. .A17)
- h. A statement that the pro forma adjustments are based on management's assumptions.
- i. A statement that identifies
  - i. management and its responsibility for the pro forma financial information.
  - ii. the practitioner's responsibility to express an opinion on the pro forma financial information based on the practitioner's examination.
- j. A statement that
  - i. the practitioner's examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.
  - ii. those standards require that the practitioner plan and perform the examination to obtain reasonable assurance about whether, in accordance with (or based on) the criteria
    - (1) management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event),
    - (2) and, in all material respects,
      - (a) the related pro forma adjustments give appropriate effect to those assumptions, and
      - (b) the pro forma amounts reflect the proper application of those adjustments to the historical financial statement amounts.
  - iii. an examination involves performing procedures to obtain evidence about

## Subject Matter

- (1) management's assumptions, (Ref: par. .A18)
  - (2) the related pro forma adjustments, and
  - (3) the pro forma amounts.
- iv. the practitioner believes that the evidence the practitioner obtained is sufficient and appropriate to provide a reasonable basis for the practitioner's opinion.
- k. A description of the objectives and limitations of pro forma financial information
- l. The practitioner's opinion about whether, in accordance with (or based on) the criteria
- i. management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the transaction (or event), (Ref: par. .A19)
  - ii. and, in all material respects
    - (1) the related pro forma adjustments give appropriate effect to those assumptions, and
    - (2) the pro forma amounts reflect the proper application of those adjustments to the historical financial statement amounts.
- m. When the circumstances identified in section 205 are applicable, an alert, in a separate paragraph, that restricts the use of the report or describes the purpose of the report, as applicable.<sup>7</sup>
- n. The manual or printed signature of the practitioner's firm.
- o. The city and state where the practitioner practices.
- p. The date of the report. (The report should be dated no earlier than the date on which the practitioner has obtained sufficient appropriate evidence on which to base the practitioner's opinion, including evidence that
- i. the attestation documentation has been reviewed,
  - ii. the pro forma financial information has been prepared, and
  - iii. management has provided a written assertion.)

## Content of the Practitioner's Review Report

.18 The practitioner's review report on pro forma financial information should include the following: (Ref: par. .A20)

- a. A title that includes the word *independent*.
- b. An appropriate addressee as required by the circumstances of the engagement.
- c. A reference to the pro forma adjustments included in the pro forma financial information.
- d. A reference to management's description of the transaction (or event) to which the pro forma adjustments give effect. (The description is included in the pro forma financial information.)

---

<sup>7</sup> Paragraph .64 of section 205.

- e.* An identification or description of the pro forma financial information being reported on, including the point in time or period of time to which the measurement or evaluation of the pro forma financial information relates.
- f.* An identification of the criteria against which the pro forma financial information was measured or evaluated.
- g.* A reference to the financial statements from which the historical financial information is derived and (Ref: par. .A21)
  - i.* a statement that such financial statements were audited or reviewed, as applicable.
  - ii.* if the practitioner issued a review report on the historical financial statements, a statement that a review report was issued, and, if applicable, whether the financial statements were reviewed by another accountant. (The report on pro forma financial information should refer to any modification in the accountant's report on the historical financial information. In the case of a business combination, this paragraph applies to each significant constituent part of the combined entity.)
- h.* A statement that the pro forma adjustments are based on management's assumptions.
- i.* A statement that identifies
  - i.* management and its responsibility for the pro forma financial information.
  - ii.* the practitioner's responsibility to express a conclusion on the pro forma financial information based on the practitioner's review.
- j.* A statement that
  - i.* the practitioner's review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.
  - ii.* those standards require that the practitioner plan and perform the review to obtain limited assurance about whether, in accordance with (or based on) the criteria, any material modifications should be made to
    - (1) management's assumptions in order for them to provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event), (Ref: par. .A22)
    - (2) the related pro forma adjustments in order for them to give appropriate effect to those assumptions, or
    - (3) the pro forma amounts in order for them to reflect the proper application of those adjustments to the historical financial statement amounts.
  - iii.* a review is substantially less in scope than an examination, the objective of which is to obtain reasonable assurance about whether, in accordance with (or based on) the criteria, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event), and, in all material respects, the related pro forma adjustments

- give appropriate effect to those assumptions, and the pro forma amounts reflect the proper application of those adjustments to the historical financial statement amounts in order to express an opinion. Accordingly, the practitioner does not express such an opinion.
- iv. the practitioner believes that the practitioner's review provides a reasonable basis for the practitioner's conclusion.
  - k. a description of the objectives and limitations of pro forma financial information.
  - l. the practitioner's conclusion about whether, based on the review and in accordance with (or based on) the criteria, the practitioner is aware of any material modifications that should be made to
    - i. management's assumptions in order for them to provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event), (Ref: par. .A23)
    - ii. the related pro forma adjustments in order for them to give appropriate effect to those assumptions, or
    - iii. the pro forma amounts in order for them to reflect the proper application of those adjustments to the historical financial statement amounts.
  - m. When the circumstances identified in section 210 are applicable, an alert, in a separate paragraph, that restricts the use of the report or describes the purpose of the report, as applicable.<sup>8</sup>
  - n. The manual or printed signature of the practitioner's firm.
  - o. The city and state where the practitioner practices.
  - p. The date of the report. (The report should be dated no earlier than the date on which the practitioner has obtained sufficient appropriate review evidence on which to base the practitioner's conclusion, including evidence that
    - i. the attestation documentation has been reviewed,
    - ii. the pro forma financial information has been prepared, and
    - iii. management has provided a written assertion.)

## Application and Other Explanatory Material

### Objectives of an Examination Engagement (Ref: par. .05a[i])

.A1 For the purposes of this section, the responsible party is management of the entity for which the practitioner is reporting on pro forma financial information.

### Definitions (Ref: par. .07)

#### *Pro Forma Financial Information*

.A2 Pro forma financial information is developed by applying pro forma adjustments to historical financial information. Appropriate pro forma

---

<sup>8</sup> Paragraph .47c of section 210.

adjustments are based on management's assumptions, give effect to all significant effects directly attributable to the transaction (or event), and are stated on a basis consistent with the financial reporting framework of the reporting entity and its accounting policies under that framework.

**.A3** Pro forma financial information is commonly used to show the effects of transactions such as the following:

- Business combination
- Change in capitalization
- Disposition of a significant portion of the business
- Change in the form of business organization or status as an autonomous entity
- Proposed sale of securities and the application of the proceeds

**.A4** Adequately disclosed pro forma financial information

- is labeled as such to distinguish it from historical financial information.
- describes the transaction (or event) that is reflected in the pro forma financial information, the date on which the transaction (or event) is assumed to occur, the financial reporting framework of the historical financial statements, the source of the historical financial information on which it is based, the significant assumptions used to develop the pro forma adjustments, and any significant uncertainties about those assumptions.
- indicates that the pro forma financial information should be read in conjunction with related historical financial information and that the pro forma financial information is not necessarily indicative of the results (such as financial position and results of operations, as applicable) that would have been attained had the transaction (or event) actually taken place earlier.

**.A5** Article 11 of Regulation S-X provides further guidance on the presentation of pro forma financial information included in filings with the SEC.

## Preconditions for an Examination or Review Engagement (Ref: par. .08-.09)

**.A6** For pro forma financial information included in an SEC Form 8-K, historical financial information previously included in an SEC filing would meet this requirement. Interim historical financial information may be presented as a column in the pro forma financial information.

**.A7** Historical financial statements, historical interim financial information, and audit reports are deemed to be *readily available* if they are obtainable by a third-party user without any further action by the entity. (For example, historical interim financial information on an entity's website may be considered readily available, but being available upon request is not considered readily available.)

**.A8** For entities within the PCAOB's jurisdiction as defined by the Sarbanes-Oxley Act of 2002, as amended, the review may be as defined in AU section 722, *Interim Financial Information*, of the PCAOB's interim auditing standards. For nonissuers, the review may be an interim or annual review as described in AR-C section 90, *Review of Financial Statements*, or an interim review as discussed in AU-C section 930, *Interim Financial Information*, when the

review of interim financial information meets the provisions of that section.<sup>9</sup> Although AU section 722 does not require an accountant to issue a written report on a review of interim financial information, the SEC requires the report to be filed if, in any filing, the entity states that the interim financial information has been reviewed by an independent public accountant.<sup>10</sup> [Revised, February 2017, to better reflect the AICPA Council Resolution designating the Public Company Accounting Oversight Board to promulgate technical standards.]

**.A9** If the underlying historical financial statements of the entity (or, in the case of a business combination, of each significant constituent part of the combined entity) have been audited at year-end and reviewed at an interim date, the practitioner may perform an examination or a review of the pro forma financial information at year-end, but is limited to performing a review of the pro forma financial information at the interim date.

### **Requesting a Written Assertion (Ref: par. .10)**

**.A10** Paragraph .10 applies regardless of whether the responsible party is the engaging party.

### **Assessing the Suitability of the Criteria (Ref: par. .11b(ii))**

**.A11** Management is responsible for having factually supportable pro forma adjustments. The pro forma adjustments are factually supportable if the preponderance of the information supports each significant assumption underlying the adjustments.

### **Understanding the Entity's Accounting and Financial Reporting Policies (Ref: par. .12)**

**.A12** Procedures to obtain knowledge of each significant constituent part of the combined entity in a business combination may include communicating with other practitioners who have audited or reviewed the historical financial information on which the pro forma financial information is based. Matters that may be considered include

- accounting principles and financial reporting practices followed;
- transactions between the entities;
- material contingencies; and
- relevant industry, legal and regulatory, and other external factors pertaining to the entity and any acquiree or divestee.

### **Examination and Review Procedures (Ref: par. .13a and e)**

**.A13** An understanding of the underlying transaction (or event) may be obtained, for example, by reading relevant contracts and minutes of meetings of the board of directors and by making inquiries of appropriate officials of the entity, and, if considered necessary in the circumstances, of the entity acquired or to be acquired.

**.A14** The evidence required to support the level of assurance obtained is a matter of professional judgment. Sections 205 and 210 provide guidance about

---

<sup>9</sup> Paragraph .04 of AR-C section 90, *Review of Financial Statements*.

<sup>10</sup> Paragraph .03 of AU section 722, *Interim Financial Information*.

the evidence to be obtained in examination and review engagements, respectively. Examples of evidence that the practitioner might consider obtaining are purchase, merger or exchange agreements, appraisal reports, debt agreements, employment agreements, actions of the board of directors, and existing or proposed legislation or regulatory actions.

### **Reporting (Ref: par. .16)**

**.A15** The following is an example of how the report would be dual dated:

February 15, 20X2, except for the paragraphs regarding pro forma financial information for which the date is March 20, 20X2.

### **Content of the Practitioner's Examination Report (Ref: par. .17)**

**.A16** The list of elements in paragraph .17 constitutes all the required elements for a practitioner's examination report on pro forma financial information, including the elements required by section 205.<sup>11</sup> Application guidance regarding the elements of an examination report is included in section 205.<sup>12</sup>

#### ***Reference to Financial Statements From Which Historical Financial Information is Derived (Ref: par. .17g)***

**.A17** If the historical financial information was previously included in an SEC filing, the practitioner's report would be modified to indicate that the historical financial statements are "incorporated by reference."

#### ***Statement That Examination Involves Performing Procedures to Obtain Evidence About Management's Assumptions (Ref: par. .17[iii][1])***

**.A18** Because a business combination accounted for in a manner similar to a pooling-of-interests combines the historical amounts of the combined entities retroactively, pro forma adjustments for a transaction that is not yet reflected in the historical financial statements or a proposed transaction generally affect only the equity section of the pro forma condensed balance sheet. Such business combinations would not ordinarily involve a choice of assumptions by management. Accordingly, a practitioner's report on a business combination that will be accounted for in a manner similar to a pooling-of-interests need not address management's assumptions unless the pro forma financial information includes adjustments to conform the accounting principles of the combining entities or gives effect to other transactions (for example, a new contractual arrangement or reduction in interest expense attributable to repayment of debt).

#### ***Opinion About Management's Assumptions (Ref: par. .17[i])***

**.A19** Uncertainty about whether the transaction (or event) will be consummated would not ordinarily require a modification of the practitioner's report.

### **Content of the Practitioner's Review Report (Ref: par. .18)**

**.A20** The list of elements in paragraph .18 constitutes all the required elements for a practitioner's report on a review of pro forma financial information,

---

<sup>11</sup> Paragraphs .63–.66 of section 205.

<sup>12</sup> Paragraphs .A78–.A101 of section 205.

including the elements required by section 210.<sup>13</sup> Application guidance regarding the elements of a review report is included in section 210.<sup>14</sup>

***Reference to Financial Statements From Which Historical Financial Information is Derived (Ref: par. .18g)***

**.A21** If the historical financial information was previously included in an SEC filing, the practitioner's report would be modified to indicate that the historical financial statements are "incorporated by reference."

***Statement That the Practitioner Plans and Performs Review to Obtain Limited Assurance About Management's Assumptions (Ref: par. .18j[iii][1])***

**.A22** Because a business combination accounted for in a manner similar to a pooling-of-interests combines the historical amounts of the combined entities retroactively, pro forma adjustments for a transaction that is not yet reflected in the historical financial statements or a proposed transaction generally affect only the equity section of the pro forma condensed balance sheet. Such business combinations would not ordinarily involve a choice of assumptions by management. Accordingly, a practitioner's report on a business combination that will be accounted for in a manner similar to a pooling-of-interests need not address management's assumptions unless the pro forma financial information includes adjustments to conform the accounting principles of the combining entities or gives effect to other transactions (for example, a new contractual arrangement or reduction in interest expense attributable to a repayment of debt).

***Conclusion About Management's Assumptions (Ref: par. .18l[i])***

**.A23** Uncertainty about whether the transaction (or event) will be consummated would not ordinarily require a modification of the practitioner's report.

## Exhibit—Illustrative Practitioner's Reports for Examinations and Reviews of Pro Forma Financial Information

The illustrative practitioner's examination reports in this exhibit (examples 1, 3, 4, 5, and 6) meet the reporting requirements of section 205, *Examination Engagements*, and of paragraph .17 of this section.<sup>1</sup> A practitioner may use alternative language in drafting an examination report, provided that the language meets the applicable requirements of section 205 and paragraph .17 of this section.<sup>2</sup>

The illustrative practitioner's review reports in this exhibit (examples 2 and 3) meet the applicable reporting requirements of section 210, *Review Engagements*, and of paragraph .18 of this section.<sup>3</sup> A practitioner may use alternative language in drafting a review report, provided that the language meets the applicable requirements of section 210 and paragraph .18 of this section.<sup>4</sup>

The language in these illustrative examination and review reports assume that one column of pro forma financial information is presented without presenting separate columns of historical financial information and pro forma adjustments.

### Example 1: Practitioner's Examination Report on Pro Forma Financial Information: Unmodified Opinion

#### Independent Accountant's Report

[Appropriate Addressee]

We have examined the pro forma adjustments giving effect to the underlying transaction (or event) described in Note 1 and the application of those adjustments to the historical amounts in the accompanying pro forma condensed balance sheet of X Company as of December 31, 20X1, and the related pro forma condensed statement of income for the year then ended (pro forma financial information), based on the criteria in Note 1. The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were audited by other accountants, appearing elsewhere herein [or "*and are readily available*"]. The pro forma adjustments are based on management's assumptions described in Note 1. X Company's management is responsible for the pro forma financial information. Our responsibility is to express an opinion on the pro forma financial information based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether, based on the criteria in Note 1, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event), and, in all material respects, the related pro forma adjustments give appropriate effect to

---

<sup>1</sup> Paragraphs .61–.84 of section 205, *Examination Engagements*.

<sup>2</sup> Paragraphs .61–.84 of section 205.

<sup>3</sup> Paragraphs .44–.60 of section 210, *Review Engagements*.

<sup>4</sup> See footnote 3.

those assumptions, and the pro forma amounts reflect the proper application of those adjustments to the historical financial statement amounts. An examination involves performing procedures to obtain evidence about management's assumptions, the related pro forma adjustments, and the pro forma amounts in the pro forma condensed balance sheet of X Company as of December 31, 20X1, and the related pro forma condensed statement of income for the year then ended. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of the pro forma financial information, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

The objective of this pro forma financial information is to show what the significant effects on the historical financial information might have been had the underlying transaction (or event) occurred at an earlier date. However, the pro forma condensed financial statements are not necessarily indicative of the results of operations or related effects on financial position that would have been attained had the above-mentioned transaction (or event) actually occurred at such earlier date.

In our opinion, based on the criteria in Note 1, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction (or event) described in Note 1, and, in all material respects, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma amounts reflect the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet of X Company as of December 31, 20X1, and the related pro forma condensed statement of income for the year then ended.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

## **Example 2: Practitioner's Review Report on Pro Forma Financial Information: Unmodified Conclusion**

### **Independent Accountant's Report**

*[Appropriate Addressee]*

We have reviewed the pro forma adjustments giving effect to the transaction (or event) described in Note 1 and the application of those adjustments to the historical amounts in the accompanying pro forma condensed balance sheet of X Company as of March 31, 20X2, and the related pro forma condensed statement of income for the three months then ended (pro forma financial information), based on the criteria in Note 1. These historical condensed financial statements are derived from the historical unaudited financial statements of X Company, which were reviewed by us, and of Y Company, which were reviewed by other accountants,<sup>5</sup> appearing elsewhere herein *[or "and are readily available"]*. The pro forma adjustments are based on management's assumptions as described

---

<sup>5</sup> When one set of historical financial statements is audited and the other set is reviewed, wording similar to the following would be appropriate:

The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were reviewed by other accountants, appearing elsewhere herein *[or "and are readily available"]*.

in Note 1. X Company's management is responsible for the pro forma financial information. Our responsibility is to express a conclusion based on our review.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform our review to obtain limited assurance about whether, based on the criteria in Note 1, any material modifications should be made to management's assumptions in order for them to provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event); the related pro forma adjustments, in order for them to give appropriate effect to those assumptions; or the pro forma amounts, in order for them to reflect the proper application of those adjustments to the historical financial statement amounts. A review is substantially less in scope than an examination, the objective of which is to obtain reasonable assurance about whether, based on the criteria, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event), and, in all material respects, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma amounts reflect the proper application of those adjustments to the historical financial statement amounts, in order to express an opinion. Accordingly, we do not express such an opinion. We believe that our review provides a reasonable basis for our conclusion.

The objective of this pro forma financial information is to show what the significant effects on the historical financial information might have been had the underlying transaction (or event) occurred at an earlier date. However, the pro forma condensed financial statements are not necessarily indicative of the results of operations or related effects on financial position that would have been attained had the above-mentioned transaction (or event) actually occurred at such earlier date.

Based on our review, we are not aware of any material modifications that should be made to management's assumptions in order for them to provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction (or event) described in Note 1, the related pro forma adjustments in order for them to give appropriate effect to those assumptions, or the pro forma amounts, in order for them to reflect the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet of X Company as of March 31, 20X2, and the related pro forma condensed statement of income for the three months then ended, based on the criteria in Note 1.

*[Practitioner's city and state]*

*[Date of practitioner's report]*

### **Example 3: Practitioner's Examination Report on Pro Forma Financial Information at Year-End With a Review of Pro Forma Financial Information for a Subsequent Interim Date: Unmodified Opinion and Unmodified Conclusion**

#### **Independent Accountant's Report**

*[Appropriate Addressee]*

We have examined the pro forma adjustments giving effect to the transaction (or event) described in Note 1 and the application of those adjustments to the historical amounts in the accompanying pro forma condensed balance sheet

of X Company as of December 31, 20X1, and the related pro forma condensed statement of income for the year then ended (pro forma financial information) based on the criteria in Note 1. The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were audited by other accountants, appearing elsewhere herein [or "*and are readily available*"]. The pro forma adjustments are based on management's assumptions described in Note 1. X Company's management is responsible for the pro forma financial information. Our responsibility is to express an opinion on the pro forma financial information based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether, based on the criteria in Note 1, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event), and, in all material respects, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma amounts reflect the proper application of those adjustments to the historical financial statement amounts. An examination involves performing procedures to obtain evidence about management's assumptions, the related pro forma adjustments, and the pro forma amounts in the pro forma condensed balance sheet of X Company as of December 31, 20X1, and the related pro forma condensed statement of income for the year then ended. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of the pro forma financial information, whether due to fraud or error. We believe that the evidence we have obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

In addition, we have reviewed the pro forma adjustments and the application of those adjustments to the historical amounts in the accompanying pro forma condensed balance sheet of X Company as of March 31, 20X2, and the related pro forma condensed statement of income for the three months then ended (pro forma financial information), based on the criteria in Note 1. The historical condensed financial statements are derived from the historical financial statements of X Company, which were reviewed by us, and of Y Company, which were reviewed by other accountants,<sup>6</sup> appearing elsewhere herein [or "*and are readily available*"]. The pro forma adjustments are based on management's assumptions as described in Note 1. X Company's management is responsible for the pro forma financial information. Our responsibility is to express a conclusion based on our review.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform our review to obtain limited assurance about whether, based on the criteria in Note 1, any material modifications should be made to management's assumptions in order for them to provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event); the related pro forma adjustments, in order for them to give appropriate effect to those assumptions; or the pro forma amounts, in order for them to reflect the proper application of those

---

<sup>6</sup> When one set of historical financial statements is audited and the other set is reviewed, wording similar to the following would be appropriate:

The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were reviewed by other accountants, appearing elsewhere herein [or "*and are readily available*"].

adjustments to the historical financial statement amounts. A review is substantially less in scope than an examination, the objective of which is to obtain reasonable assurance about whether, based on the criteria, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event), and, in all material respects, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma amounts reflect the proper application of those adjustments to the historical financial statement amounts, in order to express an opinion. Accordingly, we do not express such an opinion on the pro forma adjustments or on the application of such adjustments to the pro forma condensed balance sheet as of March 31, 20X2, and the pro forma condensed statement of income for the three months then ended. We believe that our review provides a reasonable basis for our conclusion.

The objective of this pro forma financial information is to show what the significant effects on the historical financial information might have been had the underlying transactions (or event) occurred at an earlier date. However, the pro forma condensed financial statements are not necessarily indicative of the results of operations or related effects on financial position that would have been attained had the above-mentioned transaction (or event) actually occurred at such earlier date.

In our opinion, based on the criteria in Note 1, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction (or event) described in Note 1, and, in all material respects, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma amounts reflect the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet of X Company as of December 31, 20X1, and the related pro forma condensed statement of income for the year then ended.

Based on our review, we are not aware of any material modifications that should be made to management's assumptions in order for them to provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction (or event) described in Note 1, the related pro forma adjustments in order for them to give appropriate effect to those assumptions, or the pro forma amounts in order for them to reflect the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet of X Company as of March 31, 20X2, and the related pro forma condensed statement of income for the three months then ended based on the criteria in Note 1.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

## **Example 4: Practitioner's Examination Report: Qualified Opinion Because of a Scope Limitation**

### **Independent Accountant's Report**

*[Appropriate Addressee]*

We have examined the pro forma adjustments giving effect to the transaction (or event) described in Note 1 and the application of those adjustments to the historical amounts in the accompanying pro forma condensed balance sheet of X Company as of December 31, 20X1, and the related pro forma condensed

statement of income for the year then ended (pro forma financial information), based on the criteria in Note 1. The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were audited by other accountants, appearing elsewhere herein [or "*and are readily available*"]. The pro forma adjustments are based upon management's assumptions described in Note 1. X Company's management is responsible for the pro forma financial information. Our responsibility is to express an opinion on the pro forma financial information based on our examination.

Except as discussed below, our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether, based on the criteria in Note 1, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event), and, in all material respects, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma amounts reflect the proper application of those adjustments to the historical financial statement amounts. An examination involves performing procedures to obtain evidence about management's assumptions, the related pro forma adjustments, and the pro forma amounts in the pro forma condensed balance sheet of X Company as of December 31, 20X1, and the related pro forma condensed statement of income for the year then ended. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of the pro forma financial information, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We were unable to perform the examination procedures we considered necessary with respect to the assumptions relating to the proposed loan described in Adjustment E in Note 1.

The objective of this pro forma financial information is to show what the significant effects on the historical financial information might have been had the underlying transaction (or event) occurred at an earlier date. However, the pro forma condensed financial statements are not necessarily indicative of the results of operations or related effects on financial position that would have been attained had the above-mentioned transaction (or event) actually occurred at such earlier date.

In our opinion, based on the criteria in Note 1, except for the effects of such changes, if any, as might have been determined to be necessary had we been able to satisfy ourselves as to the assumptions relating to the proposed loan, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction (or event) described in Note 1, and, in all material respects, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma amounts reflect the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet of X Company as of December 31, 20X1, and the related pro forma condensed statement of income for the year then ended.

*[Appropriate Addressee]*

*[Same first three paragraphs as examination report in example 1.]*

As discussed in Note 1 to the pro forma financial statements, the pro forma adjustments reflect management's assumption that X Division of the acquired company will be sold. The net assets of this division are reflected at their historical carrying amount; generally accepted accounting principles require these net assets to be recorded at fair value less cost to sell.

In our opinion, based on the criteria in Note 1, except for inappropriate valuation of the net assets of X Division, management's assumptions described in Note 1 provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction (or event) described in Note 1, and, in all material respects, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma amounts reflect the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet of X Company as of December 31, 20X1, and the related pro forma condensed statement of income for the year then ended.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of the practitioner's report]*

## **Example 6: Practitioner's Examination Report: Disclaimer of Opinion Because of a Scope Limitation**

### **Independent Accountant's Report**

*[Appropriate Addressee]*

We were engaged to examine the pro forma adjustments giving effect to the transaction (or event) described in Note 1 and the application of those adjustments to the historical amounts in the accompanying pro forma financial condensed balance sheet of X Company as of December 31, 20X1, and the related pro forma condensed statement of income for the year then ended (pro forma financial information), based on the criteria in Note 1. The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were audited by other accountants, appearing elsewhere herein [*or "and are readily available"*]. The pro forma adjustments are based on management's assumptions described in Note 1. X Company's management is responsible for the pro forma financial information.

As discussed in Note 1 to the pro forma financial statements, the pro forma adjustments reflect management's assumptions that the elimination of duplicate facilities would have resulted in a 30 percent reduction in operating costs. Management could not supply us with sufficient evidence to support this assertion.

*[The third paragraph in the practitioner's examination report in example 1 is intentionally omitted from the report with a disclaimer of opinion.]*

Because we were unable to evaluate management's assumptions regarding the reduction in operating costs and other assumptions related thereto, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on whether, based on the criteria in Note 1, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction (or event) described in Note 1, or on whether, in all material respects, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma amounts reflect the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet of X Company as of December 31, 20X1, and the related pro forma condensed statement of income for the year then ended.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

## AT-C Section 315\*

### Compliance Attestation

Source: SSAE No. 18.

**Effective for practitioners' examination reports on compliance with specified requirements and for practitioners' agreed-upon procedures reports related to compliance or internal control over compliance with specified requirements dated on or after May 1, 2017.**

#### Introduction

**.01** This section contains performance and reporting requirements and application guidance for a practitioner (Ref: par. .A1–.A3)

- a. examining an entity's compliance with requirements of specified laws, regulations, rules, contracts, or grants (specified requirements) or an assertion about compliance with specified requirements.
- b. performing agreed-upon procedures related to an entity's compliance with specified requirements.
- c. performing agreed-upon procedures related to an entity's internal control over compliance with specified requirements.

**.02** This section does not apply to

- a. reviews of compliance with specified requirements or an entity's internal control over compliance or an assertion thereon because section 210, *Review Engagements*, specifically prohibits such engagements.<sup>1</sup>
- b. examination engagements in which a practitioner is reporting on an entity's internal control over compliance with specified requirements. (Ref: par. .A4)
- c. situations in which an auditor reports on specified requirements based solely on an audit of financial statements, as addressed in AU-C section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements*.
- d. engagements in which a governmental audit requirement requires an auditor to express an opinion on compliance in accordance with AU-C section 935, *Compliance Audits*.

**.03** A practitioner's report issued in accordance with the provisions of this section does not provide a legal determination of an entity's compliance with specified requirements. However, such a report may be useful to legal counsel or others in making such determinations.

**.04** In addition to complying with this section, a practitioner is required to comply with section 105, *Concepts Common to All Attestation Engagements*, and

---

\* This section contains an "AT-C" identifier, instead of an "AT" identifier, to avoid confusion with references to existing "AT" sections, which remain effective through April 2017.

<sup>1</sup> Paragraph .07 of section 210, *Review Engagements*.

either section 205, *Examination Engagements*, for examinations of compliance, or section 215, *Agreed-Upon Procedures Engagements*, for agreed-upon procedures engagements that address compliance. In some cases, this section repeats or refers to requirements found in sections 105, 205, and 215 when describing those requirements in the context of engagements that address compliance. Although not all the requirements in sections 105, 205, and 215 are repeated or referred to in this section, the practitioner is responsible for complying with all the requirements in sections 105 and 205 or 105 and 215, as applicable.

## Effective Date

.05 This section is effective for practitioners' examination reports on compliance with specified requirements and for practitioners' agreed-upon procedures reports related to compliance or internal control over compliance with specified requirements dated on or after May 1, 2017.

## Objectives of an Examination Engagement

.06 In conducting an examination of an entity's compliance with specified requirements, the objectives of the practitioner are to (Ref: par. .A5)

- a. obtain reasonable assurance about whether the entity complied with the specified requirements, in all material respects,
- b. express an opinion in a written report about whether
  - i. the entity complied with the specified requirements, in all material respects, or
  - ii. management's assertion about its compliance with the specified requirements is fairly stated, in all material respects.

## Objectives of an Agreed-Upon Procedures Engagement

.07 In conducting an agreed-upon procedures engagement for which the subject matter is compliance or internal control over compliance with specified requirements, the objectives of the practitioner are to

- a. apply to an entity's compliance with specified requirements or an entity's internal control over compliance with specified requirements procedures that are established by specified parties who are responsible for the sufficiency of the procedures for their purposes and
- b. issue a written report that describes the procedures applied and the practitioner's findings.

## Definitions

.08 For the purposes of this section, the following terms have the meanings attributed as follows:

**Compliance with specified requirements.** An entity's compliance with specified laws, regulations, rules, contracts, or grants.

**Internal control over compliance.** An entity's internal control over compliance with specified requirements. The internal control addressed in this section may include part of, but is not the same as, internal control over financial reporting. (Ref: par. .A6)

**Material noncompliance.** A failure to follow compliance requirements or a violation of prohibitions included in the specified requirements that results in noncompliance that is quantitatively or qualitatively material, either individually or when aggregated with other noncompliance. (Ref: par. .A7)

## Requirements

### Preconditions for Examination Engagements

**.09** In order to accept an attestation engagement to examine compliance with specified requirements, in addition to the preconditions for an examination engagement in sections 105 and 205, the practitioner should determine that<sup>2</sup> (Ref: par. .A8–.A9)

- a. management accepts responsibility for the entity's compliance with specified requirements and the entity's internal control over compliance.
- b. management evaluates the entity's compliance with specified requirements. (Ref: par. .A9)

**.10** In performing an examination under this section, the practitioner should request from management a written assertion. If management refuses to provide a written assertion, the practitioner should withdraw from the engagement when withdrawal is possible under applicable law or regulation. (Ref: par. .A10–.A11)

### Reasonable Assurance

**.11** In an engagement to examine compliance with specified requirements, the practitioner should seek to obtain reasonable assurance that the entity complied with the specified requirements, in all material respects, including designing the examination to detect both intentional and unintentional material noncompliance.

### Materiality

**.12** As required by section 205, the practitioner should consider materiality when establishing the overall engagement strategy.<sup>3</sup> (Ref: par. .A12–.A13)

### Examination Procedures

**.13** The practitioner should obtain an understanding of the specified requirements. The practitioner's procedures to obtain that understanding should include the following: (Ref: par. .A14)

- a. Consideration of laws, regulations, rules, contracts, and grants that pertain to the specified requirements, including published requirements
- b. Consideration of knowledge about the specified requirements obtained through prior engagements and regulatory reports

---

<sup>2</sup> Paragraphs .24–.28 of section 105, *Concepts Common to All Attestation Engagements*, and paragraph .06 of section 205, *Examination Engagements*.

<sup>3</sup> Paragraph .16 of section 205.

- c. Discussion with appropriate individuals within the entity (for example, the chief financial officer, internal auditors, legal counsel, compliance officer, or grant or contract administrators)

**.14** In an engagement to examine an entity's compliance with specified requirements when the entity has operations in several components (for example, locations, branches, subsidiaries, or programs), the practitioner should determine the nature, timing, and extent of testing to be performed at individual components. In making such a determination and in selecting the components to be tested, the practitioner should evaluate factors such as the following:

- a. The degree to which the specified requirements apply at the component level
- b. Judgments about materiality
- c. The degree of centralization of records
- d. The effectiveness of the control environment, particularly management's direct control over the exercise of authority delegated to others and its ability to supervise activities at various locations effectively
- e. The nature and extent of operations conducted at the various components
- f. The similarity of operations over compliance for different components

**.15** The practitioner should obtain an understanding of relevant portions of internal control over compliance sufficient to plan the engagement and to assess control risk for compliance with specified requirements. In planning the examination, such knowledge should be used to identify types of potential non-compliance, to consider factors that affect the risk of material noncompliance, and to design appropriate tests of compliance. (Ref: par. .A15–.A16)

**.16** For engagements involving compliance with regulatory requirements, the practitioner's procedures should include reviewing reports of relevant examinations and related communications between regulatory agencies and the entity and, when appropriate, making inquiries of the regulatory agencies, including inquiries about examinations in progress.

## Written Representations in an Examination Engagement

**.17** In an examination engagement, in addition to the written representations from management required by section 205, the practitioner should request written representations from management that<sup>4</sup> (Ref: par. .A17)

- a. acknowledge management's responsibility for establishing and maintaining effective internal control over compliance.
- b. state that management has performed an evaluation of the entity's compliance with specified requirements.
- c. state management's interpretation of any compliance requirements that have varying interpretations.

**.18** In an examination of compliance, the practitioner should request from management the written representations required by section 205 and paragraph .17 of this section, even if the engaging party is not management.<sup>5</sup> The alternative to obtaining the required written representations provided for in

---

<sup>4</sup> Paragraph .50 of section 205.

<sup>5</sup> See footnote 4.

section 205 is not permitted in an engagement to examine compliance.<sup>6</sup> Management's refusal to furnish the written representations required by section 205 and paragraph .17 of this section constitutes a limitation on the scope of the engagement sufficient to preclude an unmodified opinion and may be sufficient to cause the practitioner to withdraw from the examination engagement, when withdrawal is possible under applicable laws and regulations.<sup>7</sup>

## Forming the Opinion

.19 In evaluating whether the entity has complied with the specified requirements, in all material respects, (or whether management's assertion about its compliance with the specified requirements is fairly stated, in all material respects), the practitioner should evaluate (a) the nature and frequency of the noncompliance identified and (b) whether such noncompliance is material relative to the nature of the compliance requirements.

## Content of the Practitioner's Examination Report

.20 The practitioner's examination report on compliance should include the following, unless the practitioner is disclaiming an opinion, in which case, items .20g and .20h should be omitted: (Ref: par. .A18–.A20)

- a. A title that includes the word *independent*.
- b. An appropriate addressee as required by the circumstances of the engagement.
- c. An identification of the compliance matters that are being reported on or the assertion about such matters, including the point in time or period of time to which the measurement or evaluation of compliance relates.
- d. An identification of the specified requirements against which compliance was measured or evaluated. (Ref: par. .A21)
- e. A statement that identifies
  - i. management and its responsibility for compliance with the specified requirements (when reporting on the subject matter) or for its assertion (when reporting on the assertion).
  - ii. the practitioner's responsibility to express an opinion on the entity's compliance with the specified requirements or on management's assertion about the entity's compliance with the specified requirements, based on the practitioner's examination.
- f. A statement that
  - i. the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.
  - ii. those standards require that the practitioner plan and perform the examination to obtain reasonable assurance about whether
    - (1) the entity complied with the specified requirements, in all material respects, or

---

<sup>6</sup> Paragraph .51 of section 205.

<sup>7</sup> Paragraphs .50, .55, and .A64 of section 205.

- (2) management's assertion about compliance with the specified requirements is fairly stated, in all material respects.
- iii. the practitioner believes the evidence obtained is sufficient and appropriate to provide a reasonable basis for the practitioner's opinion.
- g. A description of the nature of an examination engagement.
- h. A statement that describes significant inherent limitations, if any, associated with the measurement or evaluation of the entity's compliance with specified requirements or its assertion thereon.
- i. A statement that the examination does not provide a legal determination on the entity's compliance with specified requirements.
- j. The practitioner's opinion about whether, in all material respects
  - i. the entity complied with the specified requirements or
  - ii. management's assertion about the entity's compliance with specified requirements is fairly stated.
- k. When the circumstances identified in section 205 are applicable, an alert in a separate paragraph that restricts the use of the report or describes the purpose of the report, as applicable.<sup>8</sup>
- l. The manual or printed signature of the practitioner's firm.
- m. The city and state where the practitioner practices.
- n. The date of the report. (The report should be dated no earlier than the date on which the practitioner has obtained sufficient appropriate evidence on which to base the practitioner's opinion, including evidence that
  - i. the attestation documentation has been reviewed, and
  - ii. management has provided a written assertion.)

**.21** Frequently, criteria will be contained in the compliance requirements, in which case, it is not necessary to repeat the criteria in the practitioner's report; however, if the criteria are not included in the compliance requirement, the report should identify the criteria. (Ref: par. .A21–.A23)

## Modified Opinions

**.22** If the practitioner determines that there is material noncompliance, the practitioner's report should describe the material noncompliance, and the opinion should be modified in accordance with section 205.<sup>9</sup> (Ref: par. .A24–.A28)

## Preconditions for an Agreed-Upon Procedures Engagement

**.23** In order to accept an attestation engagement to apply agreed-upon procedures related to compliance with specified requirements or internal control over compliance with specified requirements, in addition to the preconditions for an agreed-upon procedures engagement in sections 105 and 215, the practitioner should determine that<sup>10</sup> (Ref: par. .A29–.A30)

---

<sup>8</sup> Paragraph .64c of section 205.

<sup>9</sup> Paragraphs .68–.84 of section 205.

<sup>10</sup> Paragraphs .24–.28 of section 105 and paragraphs .09–.11 of section 215, *Agreed-Upon Procedures Engagements*.

- a. management accepts responsibility for the entity's compliance with specified requirements and the entity's internal control over compliance.
- b. management evaluates the entity's compliance with specified requirements or the entity's internal control over compliance.

**.24** The practitioner should obtain an understanding of the specified requirements. The practitioner's procedures to obtain that understanding should include the following:

- a. Consideration of laws, regulations, rules, contracts, and grants that pertain to the specified requirements, including published requirements
- b. Consideration of knowledge about the specified requirements obtained through prior engagements and regulatory reports
- c. Discussion with appropriate individuals within the entity (for example, the chief financial officer, internal auditors, legal counsel, compliance officer, or grant or contract administrators)

### Written Representations in an Agreed-Upon Procedures Engagement

**.25** In an agreed-upon procedures engagement, in addition to the written representations from management required by section 215, the practitioner should request written representations from management that<sup>11</sup>

- a. acknowledge management's responsibility for establishing and maintaining effective internal control over compliance.
- b. state that management has performed an evaluation of (i) the entity's compliance with specified requirements or (ii) the entity's controls for establishing and maintaining internal control over compliance and detecting noncompliance with requirements, as applicable.
- c. state management's interpretation of any compliance requirements that have varying interpretations.
- d. state that management has disclosed any known noncompliance occurring subsequent to the period covered by the practitioner's report.

### Content of the Practitioner's Agreed-Upon Procedures Report

**.26** The practitioner's agreed-upon procedures report on compliance (or internal control over compliance) should include the following: (Ref: par. .A31–.A34)

- a. A title that includes the word *independent*.
- b. An appropriate addressee as required by the circumstances of the engagement.
- c. An indication that the subject matter of the engagement is the entity's compliance (or internal control over compliance) during a period or as of a point in time.
- d. An identification of the specified requirements against which the entity's compliance (or internal control over compliance) was measured or evaluated.

---

<sup>11</sup> Paragraph .28 of section 215.

- e. A statement that the procedures performed were those agreed to by the specified parties identified in the report.
- f. An indication that management of the entity is responsible for the entity's compliance (or internal control over compliance) with the specified requirements.
- g. An identification of the specified parties.
- h. A statement that
  - i. the sufficiency of the procedures is solely the responsibility of the parties specified in the report.
  - ii. the practitioner makes no representation regarding the sufficiency of the procedures either for the purpose for which the report has been requested or for any other purpose.
- i. A list of the procedures performed (or reference thereto) and related findings. (The practitioner should not provide a conclusion.)
- j. When applicable, a description of any agreed-upon materiality limits.
- k. A statement that
  - i. the agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.
  - ii. the practitioner was not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on compliance with specified requirements (or internal control over compliance with specified requirements).
  - iii. the practitioner does not express such an opinion or conclusion.
  - iv. had the practitioner performed additional procedures, other matters might have come to the practitioner's attention that would have been reported.
- l. When applicable, a description of the nature of the assistance provided by a practitioner's external specialist.
- m. When applicable, reservations or restrictions concerning procedures or findings.
- n. An alert, in a separate paragraph, that restricts the use of the report. The alert should
  - i. state that the report is intended solely for the information and use of the specified parties,
  - ii. identify the specified parties for whom use is intended, and
  - iii. state that the report is not intended to be, and should not be, used by anyone other than the specified parties.
- o. When the engagement is also performed in accordance with *Government Auditing Standards*, the alert that restricts the use of the report should include the following information, rather than the information required by paragraph .26n:
  - i. A description of the purpose of the report
  - ii. A statement indicating that the report is not suitable for any other purpose
- p. The manual or printed signature of the practitioner's firm.
- q. The city and state where the practitioner practices.

- r. The date of the report. (The report should be dated no earlier than the date on which the practitioner completed the procedures and determined the findings, including that
  - i. the attestation documentation has been reviewed, and
  - ii. management has provided a written assertion, unless management refuses to provide an assertion).

## Application and Other Explanatory Material

### Introduction (Ref: par. .01 and .02b)

**.A1** Compliance requirements may be either financial or nonfinancial in nature.

**.A2** The criteria for evaluating or measuring compliance with specified requirements ordinarily are included in the specified requirements but may be otherwise identified.

**.A3** A practitioner may be engaged to provide other types of services in connection with an entity's compliance with specified requirements or its internal control over compliance with specified requirements. For example, the practitioner may be engaged to provide recommendations on how to improve the entity's compliance or related internal control. Such an engagement is governed by the guidance in CS section 100, *Consulting Services: Definitions and Standards*.

**.A4** An engagement to examine internal control over compliance is governed by sections 105 and 205. Additionally, AU-C section 940, *An Audit of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements*, may be helpful to a practitioner in such an engagement.

### Objectives of an Examination Engagement (Ref: par. .06)

**.A5** For the purposes of this section, the responsible party is management of the entity for which the practitioner is reporting on compliance.

## Definitions

### *Internal Control Over Compliance*

**.A6** An entity's internal control over compliance is the process by which management obtains reasonable assurance of compliance with specified requirements. Although management's internal control may include a wide variety of objectives and related policies and procedures, only some of these may be relevant to an entity's compliance with specified requirements. An entity's internal control over compliance may vary based on the nature of the compliance requirements. For example, internal control over compliance with a capital requirement would generally include accounting procedures, whereas internal control over compliance with a requirement to practice nondiscriminatory hiring may not include accounting procedures.

### *Material Noncompliance*

**.A7** Government requirements or other requirements may define material noncompliance for the purpose of the engagement.

## Preconditions for Examination Engagements (Ref: par. .09–.10)

**.A8** Management is responsible for ensuring that the entity complies with the requirements applicable to its activities. That responsibility encompasses the following:

- a. Identifying the specified requirements
- b. Designing, implementing, and maintaining internal control to provide reasonable assurance that the entity complies with those requirements
- c. Evaluating and monitoring the entity's compliance
- d. Specifying reports that satisfy legal, regulatory, or contractual requirements

**.A9** Management's evaluation may include documentation such as accounting or statistical data, entity policy manuals, accounting manuals, narrative memoranda, procedural write-ups, flowcharts, completed questionnaires, or internal auditors' reports. The form and extent of documentation will vary depending on the nature of the compliance requirements and the size and complexity of the entity.

**.A10** Management's written assertion about compliance with specified requirements may take many forms. Throughout this section, for example, the phrase "management's assertion that W Company complied with [*specify compliance requirement*] as of [*date*]," illustrates such an assertion. Other phrases may also be used. A statement that is so subjective (for example, *substantially complied*) that people having competence in and using the same or similar criteria would not ordinarily be able to arrive at similar conclusions is not an appropriate written assertion.

**.A11** Paragraph .10 applies regardless of whether the responsible party is the engaging party.

## Materiality (Ref: par. .12)

**.A12** The terms of an engagement may provide for a supplemental practitioner's report of all or certain noncompliance discovered. Such terms would not affect the practitioner's judgments about materiality in establishing the overall engagement strategy or in forming an opinion on an entity's compliance with specified requirements or on management's assertion about such compliance.

**.A13** In an examination of an entity's compliance with specified requirements, the practitioner's consideration of materiality is affected by (a) the nature of the compliance requirements, which may or may not be quantifiable in monetary terms, (b) the nature and frequency of noncompliance identified with appropriate consideration of sampling risk, and (c) qualitative considerations, including the needs and expectations of the users of the practitioner's report.

## Examination Procedures (Ref: par. .13 and .15)

**.A14** In certain circumstances, the practitioner may determine that it is necessary to discuss the specified requirements with appropriate individuals outside the entity (for example, a regulator or specialist).

**.A15** A practitioner generally obtains an understanding of the design of specific controls by performing the following:

- a. Inquiries of appropriate management, supervisory, and staff personnel

- b. Inspection of the entity's documents
- c. Observation of the entity's activities and operations

**.A16** The nature and extent of procedures a practitioner performs vary from entity to entity and are influenced by factors such as the following:

- The newness and complexity of the specified requirements
- The practitioner's knowledge of internal control over compliance obtained in previous professional engagements
- The nature of the specified requirements
- An understanding of the industry in which the entity operates
- Judgments about materiality

## Written Representations in an Examination Engagement (Ref: par. .17)

**.A17** At the beginning of the engagement, the practitioner may want to consider discussing with management the need for management to provide the practitioner with a written representation letter at the conclusion of the engagement.

## Content of the Practitioner's Examination Report (Ref: par. .20–.21)

**.A18** The list of elements in paragraph .20 constitutes all the required elements for a practitioner's report on an examination of compliance with specified requirements, including the elements required by section 205.<sup>12</sup> Application guidance regarding the elements of an examination report is included in section 205.<sup>13</sup>

**.A19** Examples 1 and 2 in the exhibit to this section provide illustrations of practitioner's examination reports on compliance.

**.A20** Paragraph .20*d* represents the criteria for measuring or evaluating compliance with the specified requirements.

**.A21** Ordinarily, the criteria are included in the specified requirements. In that case, the identification may say, "We have examined management of XYZ Company's compliance with *[identify the specified requirements...]*."

**.A22** If a compliance requirement is to "maintain \$25,000 in capital," it would not be necessary to identify the \$25,000 in the practitioner's report; however, if the requirement is subjectively worded, for example, to "maintain adequate capital," the criteria used to define *adequate* would be included in the report.

**.A23** When evaluating compliance with certain requirements requires interpretation of the laws, regulations, rules, contracts, or grants that establish those requirements, the practitioner evaluates whether the criteria are suitable for evaluating compliance. If these interpretations are significant, the practitioner may include a paragraph describing the interpretations and identifying

---

<sup>12</sup> Paragraphs .63–.66 of section 205.

<sup>13</sup> Paragraphs .A78–.A101 of section 205.

the source of the interpretations made by the entity's management. The following is an example of such a paragraph:

We have been informed that, under *[name of entity]*'s interpretation of *[identify the compliance requirement]*, *[explain the source and nature of the relevant interpretation]*.

## Modified Opinions (Ref: par. .22)

### Qualified Opinion

**.A24** The following is an example of

- a. a paragraph that would be added to the practitioner's report to describe the matter giving rise to the qualified opinion, and
- b. an opinion paragraph of a report containing the qualified opinion:

Our examination disclosed the following material noncompliance with *[type of compliance requirement]* applicable to *[name of entity]* during the *[period]* ended *[date]*. *[Describe noncompliance.]*

In our opinion, except for the material noncompliance described in the preceding paragraph, *[name of entity]* complied, in all material respects, with the aforementioned requirements for the *[period]* ended *[date]*.

### Adverse Opinion

**.A25** The following is an example of

- a. a paragraph that would be added to the practitioner's report to describe the matter(s) giving rise to the adverse opinion, and
- b. an opinion paragraph of a report containing an adverse opinion:

Our examination disclosed the following material noncompliance with *[type of compliance requirement]* applicable to *[name of entity]* during the *[period]* ended *[date]*. *[Describe noncompliance.]*

In our opinion, because of the effect of the noncompliance described in the preceding paragraph, *[name of entity]* has not complied with the aforementioned requirements for the *[period]* ended *[date]*.

**.A26** If the practitioner's report containing a qualified or adverse opinion on the entity's compliance with specified requirements is included in a document that also includes the practitioner's audit report on the entity's financial statements, the compliance report may indicate that the noncompliance was considered during the audit.

**.A27** The following is an example of an additional sentence that may be included in the opinion paragraph of a practitioner's examination report that describes material noncompliance:

We considered the effect of these conditions on our audit of the 20XX financial statements. This report on XYZ Company's compliance with *[identify the specified requirements]* does not affect our audit report dated *[date of report]* on those financial statements.

**.A28** The practitioner also may include the preceding sentence when the two practitioner's reports are not included in the same document.

## Preconditions for an Agreed-Upon Procedures Engagement (Ref: par. .23)

**.A29** Management is responsible for ensuring that the entity complies with the requirements applicable to its activities. That responsibility encompasses the following:

- a. Identifying the specified requirements
- b. Establishing and maintaining internal control to provide reasonable assurance that the entity complies with those requirements
- c. Evaluating and monitoring the entity's compliance
- d. Specifying reports that satisfy legal, regulatory, or contractual requirements

**.A30** Management's evaluation may include documentation such as accounting or statistical data, entity policy manuals, accounting manuals, narrative memoranda, procedural write-ups, flowcharts, completed questionnaires, or internal auditors' reports. The form and extent of documentation will vary depending on the nature of the compliance requirements and the size and complexity of the entity.

## Content of the Practitioner's Agreed-Upon Procedures Report (Ref: par. .26)

**.A31** The list of elements in paragraph .26 of this section constitutes all the required elements for a practitioner's report on the application of agreed-upon procedures related to an entity's compliance with specified requirements, including the elements required by section 215.<sup>14</sup> Application guidance regarding the elements of an agreed-upon procedures report is included in section 215.<sup>15</sup>

**.A32** In some agreed-upon procedures engagements, procedures may relate to both compliance with specified requirements and the entity's internal control over compliance. In these engagements, the practitioner may issue one practitioner's report that addresses both. For example, the first sentence of the introductory paragraph may state the following:

We have performed the procedures enumerated below, related to *[name of entity]*'s compliance with *[identify the specified requirements]* during the *[period]* ended *[date]* and *[name of entity]*'s internal control over compliance with the aforementioned compliance requirements as of *[date]*.

**.A33** When performing agreed-upon procedures related to an entity's compliance with specified requirements, or an entity's internal control over compliance with certain requirements requires interpretation of the laws, regulations, rules, contracts, or grants that establish those requirements, the practitioner evaluates whether the criteria are suitable for performing such agreed-upon procedures and reporting findings. If these interpretations are significant, the practitioner may include a paragraph describing the interpretations made by management and the source of the interpretations. An example of such a paragraph, which would precede the procedures and findings paragraph(s), follows:

We have been informed that, under *[name of entity]*'s interpretation of *[identify the compliance requirement]*, *[explain the nature and source of the relevant interpretation.]*

<sup>14</sup> Paragraphs .35–.36 of section 215.

<sup>15</sup> Paragraphs .A35–.A43 of section 215.

**A34** Example 3 in the exhibit to this section provides an illustration of a practitioner's agreed-upon procedures report related to compliance with specified requirements. Example 4 in the exhibit to this section provides an illustration of an agreed-upon procedures report related to internal control over compliance with specified requirements.

.A35

## Exhibit—Illustrative Practitioner’s Examination and Agreed-Upon Procedures Reports Related to Compliance, and Agreed-Upon Procedures Report Related to Internal Control Over Compliance

The illustrative practitioner's examination reports in this exhibit (examples 1 and 2) meet the reporting requirements of section 205, *Examination Engagements*, and of paragraphs .20–.22 of this section.<sup>1</sup> A practitioner may use alternative language in drafting an examination report, provided that the language meets the applicable requirements of section 205 and paragraphs .20–.22 of this section.<sup>2</sup>

The illustrative practitioner's agreed-upon procedures reports in this exhibit (examples 3 and 4) meet the applicable reporting requirements of section 215, *Agreed-Upon Procedures Engagements*, and paragraph .26 of this section.<sup>3</sup> A practitioner may use alternative language in drafting an agreed-upon procedures report, provided that the language meets the applicable requirements of section 215 and paragraph .26 of this section.<sup>4</sup>

### Example 1: Practitioner’s Examination Report on Compliance; Unmodified Opinion

The following is an illustrative practitioner's examination report for an engagement in which the practitioner is reporting on subject matter (an entity's compliance with specified requirements during a period of time).

#### Independent Accountant's Report

[Appropriate addressee]

We have examined XYZ Company's compliance with [identify the specified requirements, for example, the requirements listed in Attachment 1] during the period January 1, 20X1, to December 31, 20X1. Management of XYZ Company is responsible for XYZ Company's compliance with the specified requirements. Our responsibility is to express an opinion on XYZ Company's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether XYZ Company complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether XYZ Company complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

---

<sup>1</sup> Paragraphs .61–.84 of section 205.

<sup>2</sup> See footnote 1.

<sup>3</sup> Paragraphs .33–.41 of section 215.

<sup>4</sup> See footnote 3.

Our examination does not provide a legal determination on XYZ Company's compliance with specified requirements.

In our opinion, XYZ Company complied, in all material respects, with *[identify the specified requirements, for example, the requirements listed in Attachment 1]* during the period January 1, 20X1 to December 31, 20X1.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

## **Example 2: Practitioner's Examination Report on an Assertion About Compliance; Unmodified Opinion**

The following is an illustrative practitioner's examination report for an engagement in which the practitioner is reporting on the management's assertion about compliance with specified requirements and management's assertion accompanies the report.

### **Independent Accountant's Report**

*[Appropriate Addressee]*

We have examined management of XYZ Company's assertion that XYZ Company complied with *[identify the specified requirements, for example, the requirements listed in Attachment 1]* during the period January 1, 20X1 to December 31, 20X1.<sup>5</sup> XYZ Company's management is responsible for its assertion. Our responsibility is to express an opinion on management's assertion about XYZ Company's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertion about compliance with the specified requirements is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about whether management's assertion is fairly stated, in all material respects. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management's assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on XYZ Company's compliance with the specified requirements.

In our opinion, management's assertion that XYZ Company complied with *[identify the specified requirements, for example, the requirements listed in Attachment 1]*, is fairly stated, in all material respects.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

---

<sup>5</sup> If management's assertion accompanies the practitioner's report, the practitioner would refer to management's assertion by using the same title as management used for its assertion. The report also would use the same description of the specified requirements that management used in its assertion. If management's assertion is stated in the report, rather than accompanying the report, the word *accompanying* would be omitted.

### Example 3: Practitioner's Agreed-Upon Procedures Report Related to Compliance

The following is an illustrative practitioner's agreed-upon procedures report related to an entity's compliance with specified requirements in which the procedures and findings are enumerated, rather than referenced.

#### Independent Accountant's Report on Applying Agreed-Upon Procedures

[Appropriate Addressee]

We have performed the procedures enumerated below, which were agreed to by [identify the specified parties, for example, the management and board of directors of XYZ Company], related to XYZ Company's compliance with [identify the specified requirements, for example, the requirements listed in Attachment 1] during the period January 1, 20X1 to December 31, 20X1.<sup>6</sup> XYZ Company's management is responsible for its compliance with those requirements. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representations regarding the sufficiency of the procedures enumerated below either for the purpose for which this report has been requested or for any other purpose.

[Include paragraphs to enumerate procedures and findings.]

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on compliance with specified requirements. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of [identify the specified parties, for example, the management and board of directors of XYZ Company] and is not intended to be, and should not be, used by anyone other than the specified parties.

[Practitioner's signature]

[Practitioner's city and state]

[Date of practitioner's report]

### Example 4: Practitioner's Agreed-Upon Procedures Report Related to Internal Control Over Compliance

The following is an illustrative practitioner's agreed-upon procedures report related to an entity's internal control over compliance in which the procedures and findings are enumerated rather than referenced.

---

<sup>6</sup> If the agreed-upon procedures have been published by a third-party user (for example, a regulator in regulatory policies or a lender in a debt agreement), this sentence might begin as follows: "We have performed the procedures included in [title of publication or other document] and enumerated below..."

**Independent Accountant's Report on Applying  
Agreed-Upon Procedures**

*[Appropriate Addressee]*

We have performed the procedures enumerated below, which were agreed to by *[identify the specified parties, for example, the management and board of directors of XYZ Company]*, related to XYZ Company's internal control over compliance with *[identify the specified requirements for example, the requirements listed in Attachment I]*, as of December 31, 20X1.<sup>7</sup> XYZ Company's management is responsible for its internal control over compliance with those requirements. The sufficiency of these procedures is solely the responsibility of the parties specified in this report. Consequently, we make no representations regarding the sufficiency of the procedures enumerated below either for the purpose for which this report has been requested or for any other purpose.

*[Include paragraphs to enumerate procedures and findings.]*

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on internal control over compliance with specified requirements. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of *[identify the specified parties, for example, the management and board of directors of XYZ Company]* and is not intended to be, and should not be, used by anyone other than the specified parties.

*[Practitioner's signature]*

*[Practitioner's city and state]*

*[Date of practitioner's report]*

---

---

<sup>7</sup> If the agreed-upon procedures have been published by a third-party user (for example, a regulator in regulatory policies or a lender in a debt agreement), this sentence might begin as follows: "We have performed the procedures included in *[title of publication or other documents]* and enumerated below..."

**AT-C Section 320\*****Reporting on an Examination of Controls at a Service Organization Relevant to User Entities' Internal Control Over Financial Reporting**

**Source:** SSAE No. 18

**Effective for service auditors' reports dated on or after May 1, 2017.**

**Introduction**

**.01** This section contains performance and reporting requirements and application guidance for a service auditor examining controls at organizations that provide services to user entities when those controls are likely to be relevant to user entities' internal control over financial reporting. It complements AU-C section 402, *Audit Considerations Relating to an Entity Using a Service Organization*, in that a service auditor's report prepared in accordance with this section may provide appropriate evidence under AU-C section 402. (Ref: par. .A1)

**.02** In addition to complying with this section, a practitioner is required to comply with section 105, *Concepts Common to All Attestation Engagements*, and section 205, *Examination Engagements*. In some cases, this section repeats or refers to requirements in sections 105 and 205 when describing those requirements in the context of examinations that address controls at a service organization likely to be relevant to user entities' internal control over financial reporting. Although not all the requirements in sections 105 and 205 are repeated or referred to in this section, the practitioner is responsible for complying with all the requirements in sections 105 and 205. (Ref: par. .A2)

**.03** Section 205 indicates that when performing an attestation engagement, a practitioner should report on a written assertion or should report directly on the subject matter.<sup>1</sup> For engagements conducted under this section, the service auditor reports directly on the subject matter.

**.04** The focus of this section is on controls at service organizations likely to be relevant to user entities' internal control over financial reporting. The guidance herein also may be helpful to a practitioner performing an engagement under section 205 to report on controls at a service organization

- a.* other than those that are likely to be relevant to user entities' internal control over financial reporting (for example, controls that affect user entities' compliance with specified requirements of laws, regulations, rules, contracts, or grants or controls that affect user entities' production or quality control). Section 315,

---

\* This section contains an "AT-C" identifier, instead of an "AT" identifier, to avoid confusion with references to existing "AT" sections, which remain effective through April 2017.

<sup>1</sup> Paragraph .62 of section 205, *Examination Engagements*.

*Compliance Attestation*, is applicable if a practitioner is performing agreed-upon procedures related to an entity's internal control over compliance with specified requirements. Section 205 is applicable if a practitioner is examining an entity's controls over compliance with specified requirements. (Ref: par. .A3–.A4)

- b. when management of the service organization does not provide an assertion about the suitability of the design of controls because it is not responsible for the design of the controls (for example, when the controls have been designed by the user entity or the design is stipulated in a contract between the user entity and the service organization). (Ref: par. .A5)

.05 In addition to performing an examination of a service organization's controls, a service auditor may be engaged to (a) examine and report on a user entity's transactions or balances maintained by a service organization, or (b) perform and report under section 215, *Agreed-Upon Procedures Engagements*, the results of agreed-upon procedures related to the controls of a service organization or to transactions or balances of a user entity maintained by a service organization. However, these engagements are not addressed in this section.

## Effective Date

.06 This section is effective for service auditors' reports dated on or after May 1, 2017.

## Objectives

.07 The objectives of the service auditor are to

- a. obtain reasonable assurance about whether, in all material respects, based on the criteria
  - i. management's description of the service organization's system fairly presents the service organization's system that was designed and implemented throughout the specified period (or in the case of a type 1 report, as of a specified date)
  - ii. the controls related to the control objectives stated in management's description of the service organization's system were suitably designed to provide reasonable assurance that the control objectives would be achieved if the controls operated effectively throughout the specified period (or in the case of a type 1 report, as of a specified date).
  - iii. when included in the scope of the engagement, the controls operated effectively to provide reasonable assurance that the control objectives stated in management's description of the service organization's system were achieved throughout the specified period.
- b. express an opinion in a written report about the matters in paragraph .07a.

## Definitions

.08 For the purposes of this section, the following definitions apply:

**Carve-out method.** Method of addressing the services provided by a subservice organization, whereby management's description of

the service organization's system identifies the nature of the services performed by the subservice organization and excludes from the description and from the scope of the service auditor's engagement the subservice organization's relevant control objectives and related controls.

**Complementary subservice organization controls.** Controls that management of the service organization assumes, in the design of the service organization's system, will be implemented by the subservice organizations and are necessary to achieve the control objectives stated in management's description of the service organization's system.

**Complementary user entity controls.** Controls that management of the service organization assumes, in the design of the service organization's system, will be implemented by user entities and are necessary to achieve the control objectives stated in management's description of the service organization's system. (Ref: par. .A6)

**Control objectives.** The aim or purpose of specified controls at the service organization. Control objectives address the risks that controls are intended to mitigate.

**Controls at a service organization.** The policies and procedures at a service organization likely to be relevant to user entities' internal control over financial reporting. These policies and procedures are designed, implemented, and documented by the service organization to provide reasonable assurance about the achievement of the control objectives relevant to the services covered by the service auditor's report. (Ref: par. .A7)

**Inclusive method.** Method of addressing the services provided by a subservice organization whereby management's description of the service organization's system includes a description of the nature of the services provided by the subservice organization as well as the subservice organization's relevant control objectives and related controls.

**Management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design of controls (referred to in this section as a *type I report*).** A service auditor's report that comprises the following:

- a. Management's description of the service organization's system
- b. A written assertion by management of the service organization about whether, based on the criteria
  - i. management's description of the service organization's system fairly presents the service organization's system that was designed and implemented as of a specified date
  - ii. the controls related to the control objectives stated in management's description of the service organization's system were suitably designed to achieve those control objectives as of the specified date
- c. A report that expresses an opinion on the matters in *b*(i)–(ii)

**Management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design and operating effectiveness of controls (referred to in this section as a *type 2 report*).** A service auditor's report that comprises the following:

- a. Management's description of the service organization's system
- b. A written assertion by management of the service organization about whether, based on the criteria
  - i. management's description of the service organization's system fairly presents the service organization's system that was designed and implemented throughout the specified period
  - ii. the controls related to the control objectives stated in management's description of the service organization's system were suitably designed throughout the specified period to achieve those control objectives
  - iii. the controls related to the control objectives stated in management's description of the service organization's system operated effectively throughout the specified period to achieve those control objectives
- c. A report that
  - i. expresses an opinion on the matters in *b(i)–(iii)*
  - ii. includes a description of the tests of controls and the results thereof

**Service auditor.** A practitioner who reports on controls at a service organization.

**Service organization.** An organization or segment of an organization that provides services to user entities, which are likely to be relevant to those user entities' internal control over financial reporting.

**Service organization's assertion.** A written assertion about the matters referred to in part (b) of the definition of **management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design and operating effectiveness of controls**, for a type 2 report, and, for a type 1 report, the matters referred to in part (b) of the definition of **management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design of controls**.

**Service organization's system.** The policies and procedures designed, implemented, and documented by management of the service organization to provide user entities with the services covered by the service auditor's report. Management's description of the service organization's system identifies the services covered, the period to which the description relates (or in the case of a type 1 report, the date to which the description relates), the control objectives specified by management or an outside party, the party specifying the control objectives (if not specified by management), and the related controls. (Ref: par. .A8)

**Subservice organization.** A service organization used by another service organization to perform some of the services provided to user entities that are likely to be relevant to those user entities' internal control over financial reporting. (Ref: par. .A9)

**Test of controls.** A procedure designed to evaluate the operating effectiveness of controls in achieving the control objectives stated in management's description of the service organization's system.

**Type 1 report.** See **management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design of controls.**

**Type 2 report.** See **management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design and operating effectiveness of controls.**

**User auditor.** An auditor who audits and reports on the financial statements of a user entity.

**User entity.** An entity that uses a service organization for which controls at the service organization are likely to be relevant to that entity's internal control over financial reporting.

## Requirements

### Management and Those Charged With Governance

**.09** When this section requires the service auditor to inquire of, request representations from, communicate with, or otherwise interact with management of the service organization, the service auditor should determine the appropriate person(s) within the service organization's management or governance structure with whom to interact. This should include consideration of which person(s) has the appropriate responsibilities for and knowledge of the matters concerned. (Ref: par. .A10–.A11)

### Preconditions

**.10** A service auditor should accept or continue an engagement to report on controls at a service organization pursuant to this section only if the preconditions for an attestation engagement identified in section 105 and the following conditions are met:<sup>2</sup> (Ref: par. .A12–.A13)

- a. The service auditor's preliminary knowledge of the engagement circumstances indicates that the scope of the engagement and management's description of the service organization's system will not be so limited that they are unlikely to be useful to user entities and their auditors.
- b. Management acknowledges and accepts its responsibility for the following:
  - i. Preparing its description of the service organization's system and its assertion, including the completeness, accuracy, and method of presentation of the description and assertion (Ref: par. .A14)
  - ii. Having a reasonable basis for its assertion (Ref: par. .A15)

---

<sup>2</sup> Paragraphs .24–.28 of section 105, *Concepts Common to All Attestation Engagements*.

- iii. Selecting the criteria to be used and stating them in the assertion
- iv. Specifying the control objectives, stating them in the description of the service organization's system, and, if the control objectives are specified by law, regulation, or another party (for example, a user group or a professional body), identifying in the description the party specifying the control objectives (Ref: par. .A16)
- v. Identifying the risks that threaten the achievement of the control objectives stated in the description and designing, implementing, and documenting controls that are suitably designed and operating effectively to provide reasonable assurance that the control objectives stated in the description of the service organization's system will be achieved (Ref: par. .A17)
- vi. Providing a written assertion that accompanies management's description of the service organization's system, both of which will be provided to user entities (Ref: par. .A18)

.11 When the inclusive method is used, the service auditor should apply the requirements in sections 105, 205, and this section to the services provided by the subservice organization, as applicable, including the requirement to obtain management of the service organization's acknowledgement and acceptance of responsibility for the matters in paragraph .10b of this section as they relate to the subservice organization. (Ref: par. .A19–.A20)

### ***Request to Change the Scope of the Engagement***

.12 As required by section 105, if management requests a change in the scope of the engagement before the completion of the engagement, the service auditor should not agree to a change in the terms of the engagement when no reasonable justification for doing so exists.<sup>3</sup> (Ref: par. .A21–.A22 and .A57)

### **Requesting a Written Assertion**

.13 The practitioner should request from management of the service organization a written assertion. If management refuses to provide a written assertion, the practitioner should withdraw from the engagement when withdrawal is possible under applicable law or regulation. (Ref: par. .A23)

### **Assessing the Suitability of the Criteria**

.14 As required by section 105, the service auditor should assess whether management has used suitable criteria in<sup>4</sup> (Ref: par. .A25–.A26)

- a. preparing its description of the service organization's system,
- b. evaluating whether controls were suitably designed to achieve the control objectives stated in the description, and
- c. evaluating whether controls operated effectively throughout the specified period to achieve the control objectives stated in the description of the service organization's system, in the case of a type 2 report.

---

<sup>3</sup> Paragraph .29 of section 105.

<sup>4</sup> Paragraph .25b(ii) of section 105.

.15 In assessing the suitability of the criteria to evaluate whether management's description of the service organization's system is fairly presented, the service auditor should determine if the criteria include, at a minimum

- a. whether management's description of the service organization's system presents how the service organization's system was designed and implemented, including the following information about the service organization's system, if applicable:
  - i. The types of services provided, including, as appropriate, the classes of transactions processed.
  - ii. The procedures, within both automated and manual systems, by which services are provided, including, as appropriate, procedures by which transactions are initiated, authorized, recorded, processed, corrected as necessary, and transferred to the reports and other information prepared for user entities.
  - iii. The information used in the performance of the procedures, including, if applicable, related accounting records, whether electronic or manual, and supporting information involved in initiating, authorizing, recording, processing, and reporting transactions. This includes the correction of incorrect information and how information is transferred to the reports and other information prepared for user entities.
  - iv. How the service organization's system captures and addresses significant events and conditions other than transactions.
  - v. The process used to prepare reports and other information for user entities.
  - vi. Services performed by a subservice organization, if any, including whether the carve-out method or the inclusive method has been used in relation to them. (Ref: par. .A37)
  - vii. The specified control objectives and controls designed to achieve those objectives, including, as applicable, complementary user entity controls and complementary subservice organization controls assumed in the design of the service organization's controls.
  - viii. Other aspects of the service organization's control environment, risk assessment process, information and communications (including the related business processes), control activities, and monitoring activities that are relevant to the services provided. (Ref: par. .A15 and .A27)
- b. in the case of a type 2 report, whether management's description of the service organization's system includes relevant details of changes to the service organization's system during the period covered by the description. (Ref: par. .A50)
- c. whether management's description of the service organization's system does not omit or distort information relevant to the service organization's system, while acknowledging that management's description of the service organization's system is prepared to meet the common needs of a broad range of user entities and their user auditors, and may not, therefore, include every aspect of the service organization's system that each individual user entity and

its user auditor may consider important in its own particular environment.

**.16** In assessing the suitability of the criteria to evaluate whether the controls are suitably designed, the service auditor should determine if the criteria include, at a minimum, whether

- a. the risks that threaten the achievement of the control objectives stated in management's description of the service organization's system have been identified by management.
- b. the controls identified in management's description of the service organization's system would, if operating effectively, provide reasonable assurance that those risks would not prevent the control objectives stated in the description from being achieved.

**.17** In assessing the suitability of the criteria to evaluate whether controls operated effectively to provide reasonable assurance that the control objectives stated in management's description of the service organization's system were achieved, the service auditor should determine if the criteria include, at a minimum, whether the controls were consistently applied as designed throughout the specified period, including whether manual controls were applied by individuals who have the appropriate competence and authority.

**.18** Section 205 requires a practitioner to request from the responsible party a written assertion about the measurement or evaluation of the subject matter against the criteria.<sup>5</sup> The practitioner should determine that management's assertion addresses all the criteria management used to evaluate the fairness of the presentation of the description, the suitability of the design of the controls, and in a type 2 engagement, the operating effectiveness of the controls. (Ref: par. .A24)

## Materiality

**.19** The service auditor's consideration of materiality should include the fair presentation of management's description of the service organization's system, the suitability of the design of controls to achieve the related control objectives stated in the description and, in the case of a type 2 report, the operating effectiveness of the controls to achieve the related control objectives stated in the description. (Ref: par. .A28–.A30)

## Obtaining an Understanding of the Service Organization's System and Assessing the Risk of Material Misstatement

**.20** The service auditor should obtain an understanding of the service organization's system, including controls that are included in the scope of the engagement. That understanding should include service organization processes used to (Ref: par. .A31–.A33)

- a. prepare the description of the service organization's system, including the determination of control objectives,
- b. identify controls designed to achieve the control objectives,
- c. assess the suitability of the design of the controls, and
- d. in a type 2 report, assess the operating effectiveness of controls.

---

<sup>5</sup> Paragraph .10 of section 205.

**.21** If the service organization has an internal audit function, part of the service auditor's understanding of the service organization's system should include the following:

- a.* The nature of the internal audit function's responsibilities and how the internal audit function fits in the service organization's organizational structure
- b.* The activities performed, or to be performed, by the internal audit function as it relates to the service organization

**.22** As required by section 205, the service auditor should identify the risks of material misstatement.<sup>6</sup> (Ref: par. .A34–.A35)

**.23** The service auditor should read the reports of the internal audit function and regulatory examinations that relate to the services provided to user entities and the scope of the engagement, if any, to obtain an understanding of the nature and extent of the procedures performed and the related findings. The findings should be taken into consideration as part of the risk assessment and in determining the nature, timing, and extent of the tests.

## Responding to Assessed Risks and Further Procedures

**.24** As required by paragraphs .25–.39 of this section and section 205, the service auditor should<sup>7</sup>

- a.* design and implement overall responses to address the assessed risks of material misstatement for the subject matter and
- b.* design and perform further procedures whose nature, timing, and extent are based on, and responsive to, the assessed risks of material misstatement.

## Obtaining Evidence Regarding Management's Description of the Service Organization's System

**.25** The service auditor should obtain and read management's description of the service organization's system and should evaluate whether those aspects of the description that are included in the scope of the engagement are presented fairly, in all material respects, based on the criteria in management's assertion, including whether (Ref: par. .A28–.A29 and .A36–.A40)

- a.* the control objectives stated in management's description of the service organization's system are reasonable in the circumstances;
- b.* controls identified in management's description of the service organization's system were implemented;
- c.* complementary user entity controls and complementary subservice organization controls, if any, are adequately described; and
- d.* services performed by a subservice organization, if any, are adequately described, including whether the carve-out method or the inclusive method has been used in relation to them.

**.26** The service auditor should determine through inquiries made in combination with other procedures whether the service organization's system has been implemented. (Ref: par. .A40)

---

<sup>6</sup> Paragraph .18 of section 205.

<sup>7</sup> Paragraphs .20–.21 of section 205.

## Obtaining Evidence Regarding the Design of Controls

.27 The service auditor should assess whether the controls that management identified in its description of the service organization's system as the controls that achieve the control objectives were suitably designed to achieve those control objectives by (Ref: par. .A28–.A29, .A36, and .A41–.A45)

- a. obtaining an understanding of management's process for identifying and evaluating the risks that threaten the achievement of the control objectives and assessing the completeness and accuracy of management's identification of those risks,
- b. evaluating the linkage of the controls identified in management's description of the service organization's system with those risks, including risks arising from each of the described classes of transactions and risks that IT poses to the user entity's internal control over financial reporting, and
- c. determining that the controls have been implemented.

## Obtaining Evidence Regarding the Operating Effectiveness of Controls

.28 When performing a type 2 engagement, the service auditor should test those controls that management has identified in its description of the service organization's system as the controls that achieve the control objectives and should assess the operating effectiveness of those controls throughout the period. Evidence obtained in prior engagements about the satisfactory operation of controls in prior periods does not provide a basis for a reduction in testing, even if it is supplemented with evidence obtained during the current period. (Ref: par. .A28–.A30, .A36, and .A46–.A51)

.29 When performing a type 2 engagement, the service auditor should obtain an understanding of changes in the service organization's system that were implemented during the period covered by the service auditor's report. If the service auditor believes the changes would be considered significant by user entities and their auditors, the service auditor should determine whether those changes are included in management's description of the service organization's system. If such changes are not included in the description, the service auditor should describe the changes in the report and determine the effect on the report. If superseded controls are relevant to the achievement of the control objectives stated in the description, the service auditor should, if possible, test the superseded controls before the change. If the service auditor cannot test superseded controls relevant to the achievement of the control objectives stated in the description, the service auditor should determine the effect on the report. (Ref: par. .A50–.A51)

## *Evaluating the Reliability of Information Produced by the Service Organization*

.30 When using information produced by the service organization, section 205 requires the service auditor to evaluate whether such information is sufficiently reliable for the service auditor's purposes by obtaining evidence about its accuracy and completeness and evaluating whether the information is sufficiently precise and detailed.<sup>8</sup> (Ref: par. .A52)

---

<sup>8</sup> Paragraph .35 of section 205.

**.31** When designing and performing tests of controls, the service auditor should

- a. perform other procedures such as inspection, observation, or reperformance in combination with inquiry to obtain evidence about the following:
  - i. How the control was applied
  - ii. The consistency with which the control was applied
  - iii. By whom or by what means the control was applied
- b. determine whether the controls to be tested depend on other controls, and if so, whether it is necessary to obtain evidence supporting the operating effectiveness of those other controls.
- c. determine an effective method for selecting the items to be tested to meet the objectives of the procedure.

### ***Nature and Cause of Deviations***

**.32** The service auditor should investigate the nature and cause of any deviations identified and should determine whether

- a. identified deviations are within the expected rate of deviation and are acceptable. If so, the testing that has been performed provides an appropriate basis for concluding that the control operated effectively throughout the specified period.
- b. additional testing of the control or other controls is necessary to reach a conclusion about whether the controls related to the control objectives stated in management's description of the service organization's system operated effectively throughout the specified period.
- c. the testing that has been performed provides an appropriate basis for concluding that the control did not operate effectively throughout the specified period.

**.33** If, as a result of performing the procedures in paragraph .32, the service auditor becomes aware that any identified deviations have resulted from fraud by service organization personnel, the service auditor should assess the risk that management's description of the service organization's system is not fairly presented, the controls are not suitably designed and, in a type 2 engagement, the controls are not operating effectively. (Ref: par. A36)

**.34** If the service auditor becomes aware of incidents of noncompliance with laws or regulations, fraud or uncorrected misstatements attributable to management or other service organization personnel that are not clearly trivial and that may affect one or more user entities, the service auditor should determine the effect of such incidents on management's assertion, management's description of the service organization's system, the achievement of the control objectives, and the service auditor's report.

### **Subsequent Events**

**.35** In performing subsequent events procedures as required by section 205, if the service auditor becomes aware of an event that is of such a nature and significance that its disclosure is necessary to prevent users of a type 1 or

type 2 report from being misled, and information about that event is not disclosed by management in its description, the service auditor should disclose such event in the service auditor's report.<sup>9</sup>

## Written Representations

**.36** In addition to the written representations from management required by section 205, the service auditor should request written representations indicating that it has disclosed to the service auditor any of the following of which it is aware:<sup>10</sup> (Ref: par. .A53–.A56)

- a. Instances of noncompliance with laws and regulations or uncorrected misstatements attributable to the service organization that may affect one or more user entities
- b. Knowledge of any actual, suspected, or alleged fraud by management or the service organization's employees that could adversely affect the fairness of the presentation of management's description of the service organization's system or the completeness or achievement of the control objectives stated in the description

**.37** If a service organization uses a subservice organization and management's description of the service organization's system uses the inclusive method, the service auditor should also obtain the written representations identified in section 205 and paragraph .36 of this section from management of the subservice organization.<sup>11</sup> (Ref: par. .A53–.A56)

**.38** In a type 1 or type 2 engagement, the practitioner should request from the responsible party (in this case, management of the service organization), the written representations required by section 205 and paragraph .36 of this section, even if the engaging party is not the responsible party. The alternative to obtaining the required written representations provided for in section 205 is not permitted in a type 1 or type 2 engagement.<sup>12</sup> The refusal by management of the service organization (or by management of a subservice organization that is being presented using the inclusive method) to furnish the written representations required by section 205 and paragraph .36 of this section constitutes a limitation on the scope of the engagement sufficient to preclude an unmodified opinion and may be sufficient to cause the service auditor to withdraw from the examination engagement when withdrawal is possible under applicable law or regulation.<sup>13</sup> (Ref: par. .A53–.A57)

## Other Information

**.39** Section 205 contains requirements for situations in which prior to or after the release of the practitioner's report on subject matter or an assertion, the practitioner is willing to permit the inclusion of the report in a document that contains the subject matter or assertion on which the service auditor reported and other information.<sup>14</sup> (Ref: par. .A58)

---

<sup>9</sup> Paragraph .48 and .A56 of section 205.

<sup>10</sup> Paragraph .50 of section 205.

<sup>11</sup> See footnote 10.

<sup>12</sup> Paragraph .51 of section 205.

<sup>13</sup> Paragraphs .50, .55, and .A64 of section 205.

<sup>14</sup> Paragraph .57 of section 205.

## Content of the Service Auditor's Report

.40 A service auditor's type 2 report should include the following: (Ref: par. .A59–.A60)

- a. A title that includes the word *independent*.
- b. An appropriate addressee as required by the circumstances of the engagement.
- c. Identification of the following:
  - i. Management's description of the service organization's system, the function performed by the system, and the period to which the description relates
  - ii. The criteria identified in management's assertion against which the fairness of the presentation of the description and the suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description were evaluated
  - iii. Any information included in a document containing the report that is not covered by the report (Ref: par. .A58)
  - iv. Any services performed by a subservice organization and whether the carve-out method or the inclusive method was used in relation to them. Depending on which method is used, the following should be included:
    - (1) If the carve-out method was used, a statement indicating that (Ref: par. .A61)
      - (a) management's description of the service organization's system excludes the control objectives and related controls of the relevant subservice organizations
      - (b) certain control objectives specified by the service organization can be achieved only if complementary subservice organization controls assumed in the design of the service organization's controls are suitably designed and operating effectively
      - (c) the service auditor's procedures do not extend to such complementary subservice organization controls
    - (2) If the inclusive method was used, a statement that management's description of the service organization's system includes the subservice organization's specified control objectives and related controls, and that the service auditor's procedures included procedures related to the subservice organization
- d. A statement that the controls and control objectives included in the description are those that management believes are likely to be relevant to user entities' internal control over financial reporting, and the description does not include those aspects of the system that are not likely to be relevant to user entities' internal control over financial reporting.

- e. If management's description of the service organization's system refers to the need for complementary user entity controls, a statement that the service auditor has not evaluated the suitability of the design or operating effectiveness of complementary user entity controls, and that the control objectives stated in the description can be achieved only if complementary user entity controls are suitably designed and operating effectively, along with the controls at the service organization.
- f. A reference to management's assertion and a statement that management is responsible for
  - i. preparing the description of the service organization's system and the assertion, including the completeness, accuracy, and method of presentation of the description and assertion.
  - ii. providing the services covered by the description of the service organization's system.
  - iii. specifying the control objectives and stating them in the description of the service organization's system.
  - iv. identifying the risks that threaten the achievement of the control objectives.
  - v. selecting the criteria.
  - vi. designing, implementing, and documenting controls that are suitably designed and operating effectively to achieve the related control objectives stated in the description of the service organization's system.
- g. A statement that the service auditor is responsible for expressing an opinion on the fairness of the presentation of management's description of the service organization's system and on the suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description based on the service auditor's examination.
- h. A statement that
  - i. the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.
  - ii. those standards require that the service auditor plan and perform the examination to obtain reasonable assurance about whether, in all material respects, based on the criteria in management's assertion, management's description of the service organization's system is fairly presented and the controls are suitably designed and operating effectively throughout the specified period to achieve the related control objectives.
  - iii. the service auditor believes the evidence obtained is sufficient and appropriate to provide a reasonable basis for the service auditor's opinion.
- i. A statement that an examination of management's description of a service organization's system and the suitability of the design and operating effectiveness of the service organization's controls to achieve the related control objectives stated in the description involves

- i. performing procedures to obtain evidence about the fairness of the presentation of the description and the suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description based on the criteria in management's assertion.
  - ii. assessing the risks that management's description of the service organization's system is not fairly presented and that the controls were not suitably designed or operating effectively to achieve the related control objectives.
  - iii. testing the operating effectiveness of those controls that management considers necessary to provide reasonable assurance that the related control objectives stated in management's description of the service organization's system were achieved.
  - iv. evaluating the overall presentation of management's description of the service organization's system, suitability of the control objectives stated in the description, and suitability of the criteria specified by the service organization in its assertion.
- j. A description of the inherent limitations of controls, including that projecting to the future any evaluation of the fairness of the presentation of management's description of the service organization's system or conclusions about the suitability of the design or operating effectiveness of the controls to achieve the related control objectives is subject to the risk that controls at a service organization may become ineffective.
- k. A reference to a description of the service auditor's tests of controls and the results thereof that includes (Ref: par. .A62)
  - i. an identification of the controls that were tested.
  - ii. whether the items tested represent all or a selection of the items in the population.
  - iii. the nature of the tests in sufficient detail to enable user auditors to determine the effect of such tests on their risk assessments.
  - iv. any identified deviations in the operation of controls included in the description, the extent of testing performed by the service auditor that led to the identification of the deviations (including the number of items tested), and the number and nature of the deviations noted (even if, on the basis of tests performed, the service auditor concludes that the related control objective was achieved). (Ref: par. .A63)
  - v. if the work of the internal audit function has been used in tests of controls to obtain evidence, a description of the internal auditor's work and of the service auditor's procedures with respect to that work. (Ref: par. .A64–.A66)
- l. The service auditor's opinion on whether, in all material respects, based on the criteria described in management's assertion
  - i. management's description of the service organization's system fairly presents the service organization's system that was designed and implemented throughout the specified period.

- ii. the controls related to the control objectives stated in management's description of the service organization's system were suitably designed to provide reasonable assurance that the control objectives would be achieved if the controls operated effectively throughout the specified period.
  - iii. the controls operated effectively to provide reasonable assurance that the control objectives stated in management's description of the service organization's system were achieved throughout the specified period.
  - iv. if the application of complementary user entity controls is necessary to achieve the related control objectives stated in management's description of the service organization's system, a statement to that effect.
  - v. if the application of complementary subservice organization controls is necessary to achieve the related control objectives stated in management's description of the service organization's system, a statement to that effect.
- m. An alert, in a separate paragraph, that restricts the use of the report. The alert should (Ref: par. .A67–.A72)
- i. state that the report, including the description of tests of controls and results thereof, is intended solely for the information and use of management of the service organization, user entities of the service organization's system during some or all of the period covered by the report, and the auditors who audit and report on such user entities' financial statements or internal control over financial reporting.
  - ii. state that the report is not intended to be, and should not be, used by anyone other than the specified parties.<sup>15</sup>
- n. The manual or printed signature of the service auditor's firm.
- o. The city and state where the service auditor practices.
- p. The date of the report. (The report should be dated no earlier than the date on which the service auditor has obtained sufficient appropriate evidence on which to base the service auditor's opinion, including evidence that
- i. management's description of the service organization system has been prepared,
  - ii. management has provided a written assertion, and
  - iii. the attestation documentation has been reviewed.)

**.41** A service auditor's type 1 report should include the following: (Ref: par. .A59 and .A72)

- a. A title that includes the word *independent*.
- b. An appropriate addressee as required by the circumstances of the engagement.
- c. Identification of the following:
  - i. Management's description of the service organization's system, the function performed by the system, and the specified date to which the description relates.

---

<sup>15</sup> Paragraph .65 or .66 of section 205.

- ii. The criteria identified in management's assertion against which the fairness of the presentation of the description and the suitability of the design of the controls to achieve the related control objectives stated in the description were evaluated.
- iii. Any information included in a document containing the report that is not covered by the report. (Ref: par. .A58)
- iv. Any services performed by a subservice organization and whether the carve-out method or the inclusive method was used in relation to them. Depending on which method is used, the following should be included:
  - (1) If the carve-out method was used, a statement indicating that (Ref: par. .A61)
    - (a) management's description of the service organization's system excludes the control objectives and related controls of the relevant subservice organizations.
    - (b) certain control objectives specified by the service organization can be achieved only if complementary subservice organization controls assumed in the design of the service organization's controls are suitably designed and operating effectively.
    - (c) the service auditor's procedures do not extend to such complementary subservice organization controls.
  - (2) If the inclusive method was used, a statement that management's description of the service organization's system includes the subservice organization's specified control objectives and related controls, and that the service auditor's procedures included procedures related to the subservice organization.
- d. A statement that the controls and control objectives included in the description are those that management believes are likely to be relevant to user entities' internal control over financial reporting, and the description does not include those aspects of the system that are not likely to be relevant to user entities' internal control over financial reporting.
- e. If management's description of the service organization's system refers to the need for complementary user entity controls, a statement that the service auditor has not evaluated the suitability of the design or operating effectiveness of complementary user entity controls, and that the control objectives stated in the description can be achieved only if complementary user entity controls are suitably designed and operating effectively, along with the controls at the service organization.
- f. A reference to management's assertion and a statement that management is responsible for
  - i. preparing the description of the service organization's system and the assertion, including the completeness,

## Subject Matter

- accuracy, and method of presentation of the description and assertion.
- ii. providing the services covered by the description of the service organization's system.
  - iii. specifying the control objectives and stating them in the description of the service organization's system.
  - iv. identifying the risks that threaten the achievement of the control objectives.
  - v. selecting the criteria.
  - vi. designing, implementing, and documenting controls that are suitably designed and operating effectively to achieve the related control objectives stated in the description of the service organization's system.
- g.* A statement that the service auditor is responsible for expressing an opinion on the fairness of the presentation of management's description of the service organization's system and on the suitability of the design of the controls to achieve the related control objectives stated in the description, based on the service auditor's examination.
- h.* A statement that
- i. the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.
  - ii. those standards require that the service auditor plan and perform the examination to obtain reasonable assurance about whether, in all material respects, based on the criteria in management's assertion, management's description of the service organization's system is fairly presented, and the controls are suitably designed as of the specified date to achieve the related control objectives.
  - iii. the service auditor believes the evidence obtained is sufficient and appropriate to provide a reasonable basis for the service auditor's opinion.
- i.* A statement that an examination of management's description of a service organization's system and the suitability of the design of the service organization's controls to achieve the related control objectives stated in the description involves
- i. performing procedures to obtain evidence about the fairness of the presentation of the description and the suitability of the design of the controls to achieve the related control objectives stated in the description, based on the criteria in management's assertion.
  - ii. assessing the risks that management's description of the service organization's system is not fairly presented and that the controls were not suitably designed to achieve the related control objectives.
  - iii. evaluating the overall presentation of management's description of the service organization's system, suitability of the control objectives stated in the description, and suitability of the criteria specified by the service organization in its assertion.

- j.* A description of the inherent limitations of controls, including that projecting to the future any evaluation of the fairness of the presentation of management's description of the service organization's system or conclusions about the suitability of the design of the controls to achieve the related control objectives is subject to the risk that controls at a service organization may become ineffective.
- k.* A statement the service auditor has not performed any procedures regarding the operating effectiveness of controls and, therefore, expresses no opinion thereon.
- l.* The service auditor's opinion on whether, in all material respects, based on the criteria described in management's assertion
  - i.* management's description of the service organization's system fairly presents the service organization's system that was designed and implemented as of the specified date.
  - ii.* the controls related to the control objectives stated in management's description of the service organization's system were suitably designed to provide reasonable assurance that the control objectives would be achieved if the controls operated effectively as of the specified date.
  - iii.* if the application of complementary user entity controls is necessary to achieve the related control objectives stated in management's description of the service organization's system, a statement to that effect.
  - iv.* if the application of complementary subservice organization controls is necessary to achieve the related control objectives stated in management's description of the service organization's system, a statement to that effect.
- m.* An alert, in a separate paragraph, that restricts the use of the report. The alert should (Ref: par. .A67–.A72)
  - i.* state that the report is intended solely for the information and use of management of the service organization, user entities of the service organization's system as of the specified date, and the auditors who audit and report on such user entities' financial statements or internal control over financial reporting.
  - ii.* state that the report is not intended to be, and should not be, used by anyone other than the specified parties.<sup>16</sup>
- n.* The manual or printed signature of the service auditor's firm.
- o.* The city and state where the service auditor practices.
- p.* The date of the report. (The report should be dated no earlier than the date on which the service auditor has obtained sufficient appropriate evidence on which to base the service auditor's opinion, including evidence that
  - i.* management's description of the service organization system has been prepared,
  - ii.* management has provided a written assertion, and
  - iii.* the attestation documentation has been reviewed.)

---

<sup>16</sup> Paragraph .65 or .66 of section 205.

## Modified Opinions

**.42** The service auditor's opinion should be modified, and the service auditor's report should contain a clear description of all the reasons for the modification, if the service auditor concludes that, based on the criteria in management's assertion (Ref. par. .A73)

- a. management's description of the service organization's system is not fairly presented, in all material respects;
- b. the controls are not suitably designed to provide reasonable assurance that the control objectives stated in management's description of the service organization's system would be achieved if the controls operated effectively, in all material respects;
- c. in the case of a type 2 report, the controls did not operate effectively throughout the specified period to achieve the related control objectives stated in management's description of the service organization's system, in all material respects; or
- d. the service auditor is unable to obtain sufficient appropriate evidence.

**.43** If the service auditor plans to disclaim an opinion because of the inability to obtain sufficient appropriate evidence, and, based on the limited procedures performed, has concluded that, in all material respects, based on the criteria in management's assertion

- a. certain aspects of management's description of the service organization's system are not fairly presented,
- b. certain controls were not suitably designed to provide reasonable assurance that the control objectives stated in management's description of the service organization's system would be achieved if the controls operated effectively, or
- c. in the case of a type 2 report, certain controls did not operate effectively throughout the specified period to achieve the related control objectives stated in management's description of the service organization's system, then

the service auditor should identify these findings in the service auditor's report.

**.44** If the service auditor plans to disclaim an opinion, the service auditor *should not* identify the procedures that were performed nor include statements describing the characteristics of a service auditor's engagement in the service auditor's report—to do so might overshadow the disclaimer.

## Other Communication Responsibilities

**.45** In addition to the communication responsibilities in section 205, if the service auditor becomes aware of the matters identified in paragraph .34, the service auditor should determine whether this information has been communicated appropriately to affected user entities.<sup>17</sup> If the information has not been so communicated, and management of the service organization refuses to do so, the service auditor should take appropriate action. (Ref: par. .A74)

---

<sup>17</sup> Paragraphs .85–.86 of section 205.

## Application and Other Explanatory Material

### Introduction (Ref: par. .01–.02 and .04)

**.A1** Controls related to a service organization's operations and compliance objectives may be relevant to a user entity's internal control over financial reporting. Such controls may pertain to assertions about presentation and disclosure relating to account balances, classes of transactions or disclosures, or may pertain to evidence that the user auditor evaluates or uses in applying auditing procedures. For example, a payroll processing service organization's controls related to the timely remittance of payroll deductions to government authorities may be relevant to a user entity because late remittances could incur interest and penalties that would result in a liability to the user entity. Similarly, a service organization's controls over the acceptability of investment transactions from a regulatory perspective may be considered relevant to a user entity's presentation and disclosure of transactions and account balances in its financial statements.

**.A2** Section 105 requires the practitioner to consider applicable interpretive publications when planning and performing an attestation engagement.<sup>18</sup> Additional interpretive guidance for a practitioner examining controls at a service organization relevant to user entities' internal control over financial reporting is provided in the AICPA Guide *Service Organizations: Reporting on Controls at a Service Organization Relevant to User Entities' Internal Control Over Financial Reporting*.

**.A3** Paragraph .04 of this section refers to other engagements the practitioner may perform and report on under section 205 when reporting on controls at a service organization. Paragraph .04 is not, however, intended to

- alter the definitions of a *service organization* and *service organization's system* in paragraph .08 to permit reports issued under this section to include in the description of the service organization's system aspects of their services (including relevant control objectives and related controls) not likely to be relevant to user entities' internal control over financial reporting, or
- permit a practitioner's report to be issued that combines reporting under this section on a service organization's controls that are likely to be relevant to user entities' internal control over financial reporting, with reporting under section 205 on controls that are not likely to be relevant to user entities' internal control over financial reporting.

**.A4** When a service auditor conducts an engagement under section 205 to report on controls at a service organization other than those controls likely to be relevant to user entities' internal control over financial reporting, and the service auditor intends to use the guidance in this section in planning and performing that engagement, the service auditor may encounter matters that differ significantly from those associated with engagements to report on a service organization's controls likely to be relevant to user entities' internal control over financial reporting. The following are examples of such matters:

- Identification of suitable and available criteria, as prescribed in section 105, for evaluating the fairness of presentation of management's description of the service organization's system and the

---

<sup>18</sup> Paragraph .21 of section 105.

suitability of the design and the operating effectiveness of the controls<sup>19</sup>

- Identification of appropriate control objectives, and the basis for evaluating the reasonableness of the control objectives in the circumstances of the particular engagement
- Identification of the intended users of the report and the manner in which they intend to use the report
- Relevance and appropriateness of the definitions in paragraph .08, many of which specifically relate to internal control over financial reporting
- Application of references to auditing standards (AU-C sections) that are intended to provide the service auditor with guidance relevant to internal control over financial reporting
- Application of the concept of materiality in the circumstances of the particular engagement
- Developing the language to be used and identifying the elements to be included in a practitioner's examination report, as discussed in section 205<sup>20</sup>

**.A5** In some circumstances, management of the service organization may not be in a position to assert that the controls are suitably designed, for example, because the controls have been designed by management of the user entity. If management is unable to assert that the controls are suitably designed, management would also be precluded from asserting that the controls are operating effectively because of the inextricable link between the suitability of the design of controls and their operating effectiveness. The absence of an assertion with respect to the suitability of design of controls would preclude the service auditor from expressing an opinion on the operating effectiveness of controls. As an alternative, the practitioner may report under section 205 on whether the controls were operating as described or may perform agreed-upon procedures under section 215.

## Definitions (Ref: par. .08)

### **Complementary User Entity Controls**

**.A6** Complementary user entity controls are specific and relevant to the services provided by the service organization applicable to user entities' internal control over financial reporting.

### **Controls at a Service Organization**

**.A7** The policies and procedures referred to in the definition of *controls at a service organization* in paragraph .08 include aspects of the information and communications component of user entities' internal control maintained by the service organization and control activities related to the information and communications component and may also include aspects of one or more of the other components of internal control at a service organization. For example, the definition of *controls at a service organization* may include aspects of the service organization's control environment, risk assessment, monitoring activities, and control activities when they relate to the services provided. Such

---

<sup>19</sup> Paragraph .25b(ii) of section 105.

<sup>20</sup> Paragraphs .63–.66 of section 205.

definition does not, however, include controls at a service organization that are not related to the achievement of the control objectives stated in management's description of the service organization's system, for example, controls related to the preparation of the service organization's own financial statements.

### ***Service Organization's System***

.A8 The policies and procedures referred to in the definition of *service organization's system* refer to the guidelines and activities for providing transaction processing and other services to user entities and include the infrastructure, software, people, and data that support the policies and procedures.

### ***Subservice Organization***

.A9 There may be instances in which a subservice organization uses the services of another service organization to perform services that are likely to be relevant to user entities' internal control over financial reporting. In those circumstances, the service organization that provides services to the subservice organization is also a subservice organization.

## **Management and Those Charged With Governance (Ref: par. .09)**

.A10 For the purposes of this section, the responsible party is management of the service organization.

.A11 Management and governance structures vary by entity, reflecting influences such as size and ownership characteristics. Such diversity means that it is not possible for this section to specify for all engagements the person(s) with whom the service auditor is to interact regarding particular matters. For example, the service organization may be a segment of an organization and not a separate legal entity. In such cases, identifying the appropriate management personnel or those charged with governance from whom to request written representations may require the exercise of professional judgment.

## **Preconditions**

### ***Service Auditor Need Not Be Independent of User Entities (Ref: par. .10)***

.A12 In performing a service auditor's engagement, the service auditor need not be independent of each user entity.

### ***Law or Regulation Requires Acceptance or Continuance of Engagement (Ref: par. .10)***

.A13 If one or more of the conditions in paragraph .10 of this section or in section 105 are not met and the service auditor is, nevertheless, required by law or regulation to accept or continue an engagement to report on controls at a service organization, the service auditor is required, in accordance with paragraphs .42–.44, to determine the effect on the service auditor's report of one or more of such conditions not being met.<sup>21</sup>

---

<sup>21</sup> Paragraphs .24–.28 of section 105.

***Management's Responsibility for Documenting the Service Organization's System (Ref: par. .10b[i])***

.A14 Management of the service organization is responsible for documenting the service organization's system. No one particular form of documentation is prescribed, and the extent of documentation may vary depending on the size and complexity of the service organization and its monitoring activities.

***Reasonable Basis for Management's Assertion (Ref: par. .10b[ii] and .15a[viii])***

.A15 Management's monitoring activities may provide evidence of the design and operating effectiveness of controls in support of management's assertion. *Monitoring of controls* is a process to assess the effectiveness of internal control performance over time. It involves assessing the effectiveness of controls on a timely basis, identifying and reporting deficiencies to appropriate individuals within the service organization, and taking necessary corrective actions. Management accomplishes monitoring of controls through ongoing activities, separate evaluations, or a combination of the two. Ongoing monitoring activities are often built into the normal recurring activities of an entity and include regular management and supervisory activities. Internal auditors or personnel performing similar functions may contribute to the monitoring of a service organization's activities. Monitoring activities may also include using information communicated by external parties, such as customer complaints, which may indicate problems or highlight areas in need of improvement. The greater the degree and effectiveness of ongoing monitoring, the less need for separate evaluations. Usually, some combination of ongoing monitoring and separate evaluations will ensure that internal control maintains its effectiveness over time. The service auditor's report on controls is not a substitute for the service organization's own processes to provide a reasonable basis for its assertion.

***Management's Responsibility for Control Objectives (Ref. par. 10b[iv])***

.A16 The control objectives stated in management's description of the service organization's system relate to the types of financial statement assertions commonly embodied in the broad range of user entities' financial statements to which controls at the service organization could reasonably be expected to relate.

***Management's Responsibility for Identifying Risks (Ref: par. .10b[v])***

.A17 Control objectives relate to risks that controls seek to mitigate. For example, the risk that a transaction is recorded at the wrong amount or in the wrong period can be expressed as a control objective that transactions are recorded at the correct amount and in the correct period. Management is responsible for identifying the risks that threaten achievement of the control objectives stated in management's description of the service organization's system. A service organization's controls may be designed with the assumption that user entities will have implemented complementary user entity controls or that subservice organizations will have implemented complementary subservice organization controls that are necessary to achieve the control objectives. The risks that management identifies also include the risk that such controls were not implemented by user entities or subservice organizations or that those controls were not operating effectively. Management may have a formal or informal process for identifying relevant risks. A formal process may include estimating the significance of identified risks, assessing the likelihood of their occurrence, and deciding about actions to address them. However, because control

objectives relate to risks that controls seek to mitigate, thoughtful identification by management of control objectives when designing, implementing, and documenting the service organization's system may itself comprise an informal process for identifying relevant risks.

### **Providing a Written Assertion (Ref: par. .10b(vi))**

**.A18** The service organization's assertion may be attached to the description of the service organization's system or may be included in the description if clearly segregated from the description, for example, through the use of headings. Segregating the assertion from the description clarifies that the assertion is not part of the description. (See subparagraph (b) of the definitions of *management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design of controls* and *management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design and operating effectiveness of controls* in paragraph .08.)

### **Inclusive Method (Ref: par. .11)**

**.A19** The inclusive method is generally feasible if, for example, the service organization and the subservice organization are related, or if the contract between the service organization and the subservice organization provides for the use of the inclusive method. In such circumstances, the service organization is the engaging party, and the requirements relative to agreeing on the terms of the engagement may not be applicable.

**.A20** If the inclusive method is used, matters to be agreed upon or coordinated by the service organization and the subservice organization include

- the scope of the examination and the period to be covered by the service auditor's report.
- acknowledgment from management of the subservice organization that it will provide the service auditor with a written assertion and representation letter. (Both management of the service organization and management of the subservice organization are responsible for providing the service auditor with a written assertion and representation letter.)
- the planned content and format of the inclusive description.
- the representatives of the subservice organization and the service organization who will be responsible for
  - providing each entity's description.
  - integrating the descriptions.
- for a type 2 report, the timing of the tests of controls.

### **Request to Change the Scope of the Engagement (Ref: par. .12)**

**.A21** A request to change the scope of the engagement may not have a reasonable justification if, for example, the request is made

- to exclude certain control objectives at the service organization from the scope of the engagement because of the likelihood that the service auditor's opinion would be modified with respect to those control objectives.
- to prevent the disclosure of deviations identified at a subservice organization by requesting a change from the inclusive method to the carve-out method.

**.A22** A request to change the scope of the engagement may have a reasonable justification when, for example, the request is made because the service organization, a transfer agent, after providing the description of its system to the service auditor, decides that it would like to remove a control objective related to new fund setup because only one fund was set up during the reporting period, and management of the fund had performed its own testing. The service auditor concluded that the removal of the control objective related to new fund setup was reasonable in the circumstances because the objective was not relevant to a broad range of user entities during the examination period.

### **Requesting a Written Assertion (Ref: par. .13 and .18)**

**.A23** Paragraph .13 applies regardless of whether the responsible party is the engaging party.

**.A24** Exhibit B, "Illustrative Assertions by Management of a Service Organization," contains illustrative management assertions for type 1 and type 2 engagements.

### **Assessing the Suitability of the Criteria (Ref: par. .14)**

**.A25** Section 105 requires a practitioner, among other things, to determine whether the subject matter is capable of evaluation against criteria that are suitable and available to users.<sup>22</sup> Section 105 also indicates that one of the attributes of an appropriate subject matter is that it is identifiable and capable of consistent measurement or evaluation against the criteria.<sup>23</sup> As indicated in section 105, the responsible party (in this case, management of the service organization) or the engaging party is responsible for selecting the criteria, and the engaging party is responsible for determining that such criteria are appropriate for its purposes.<sup>24</sup> Section 105 defines the *subject matter* as the phenomenon that is measured or evaluated by applying criteria.<sup>25</sup>

**.A26** For the purposes of engagements performed in accordance with this section, criteria need to be available to user entities and their auditors to enable them to understand the basis for the service organization's assertion about the fair presentation of management's description of the service organization's system, the suitability of the design of controls that address control objectives stated in the description of the system and, in the case of a type 2 report, the operating effectiveness of such controls. Information about suitable criteria is provided in section 105.<sup>26</sup> Paragraphs .15–.17 discuss the criteria for evaluating the fairness of the presentation of management's description of the service organization's system and the suitability of the design and operating effectiveness of the controls.

### **Monitoring the Effectiveness of Controls at Subservice Organizations (Ref: par. .15a[viii])**

**.A27** Management's description of the service organization's system and the scope of the service auditor's engagement includes controls at the service organization that monitor the effectiveness of controls at the subservice organization, which may include some combination of ongoing monitoring to

---

<sup>22</sup> Paragraph .25b(ii) of section 105.

<sup>23</sup> Paragraph .A37a of section 105.

<sup>24</sup> Paragraph .A47 of section 105.

<sup>25</sup> Definition of *subject matter* in paragraph .10 of section 105.

<sup>26</sup> See footnote 22.

determine that potential issues are identified timely and separate evaluations to determine that the effectiveness of internal control is maintained over time. Such monitoring activities may include

- reviewing and reconciling output reports,
- holding periodic discussions with the subservice organization,
- making regular site visits to the subservice organization,
- testing controls at the subservice organization by members of the service organization's internal audit function,
- reviewing type 1 or type 2 reports on the subservice organization's system prepared pursuant to this section or section 205, and
- monitoring external communications, such as customer complaints relevant to the services by the subservice organization.

### **Materiality (Ref: par. .19, .25, and .27–.28)**

**.A28** In an engagement to report on controls at a service organization, the concept of materiality relates to the information being reported on, not the financial statements of user entities. The service auditor plans and performs procedures to determine whether, in all material respects, based on the criteria in management's assertion, management's description of the service organization's system is fairly presented; controls at the service organization are suitably designed to achieve the control objectives stated in the description; and, in the case of a type 2 report, controls at the service organization operated effectively throughout the specified period to achieve the control objectives stated in the description. The concept of materiality takes into account that the service auditor's report provides information about the service organization's system to meet the common information needs of a broad range of user entities and their auditors who have an understanding of the manner in which the system is being used by a particular user entity for financial reporting.

**.A29** Materiality with respect to the fair presentation of management's description of the service organization's system and with respect to the design of controls primarily includes the consideration of qualitative factors, for example, whether

- management's description of the service organization's system includes the significant aspects of the processing of transactions.
- management's description of the service organization's system omits or distorts relevant information.
- the controls have the ability, as designed, to provide reasonable assurance that the control objectives stated in management's description of the service organization's system would be achieved.

Materiality with respect to the operating effectiveness of controls includes the consideration of both quantitative and qualitative factors, for example, the tolerable rate and observed rate of deviation (a quantitative matter) and the nature and cause of any observed deviations (a qualitative matter).

**.A30** The concept of materiality is not applied when disclosing, in the description of the tests of controls, the results of those tests when deviations have been identified. This is because in the particular circumstances of a specific user entity or user auditor, a deviation may have significance beyond whether or not, in the opinion of the service auditor, it prevents a control from operating effectively. For example, the control to which the deviation relates may be

particularly significant in preventing a certain type of error that may be material in the particular circumstances of a user entity's financial statements.

## **Obtaining an Understanding of the Service Organization's System and Assessing the Risk of Material Misstatement (Ref: par. .20 and .22)**

**.A31** Obtaining an understanding of the service organization's system, including related controls, assists the service auditor in the following:

- Identifying the boundaries of the system and how it interfaces with other systems
- Assessing whether management's description of the service organization's system fairly presents the service organization's system that has been designed and implemented
- Understanding which controls are necessary to achieve the control objectives stated in management's description of the service organization's system, whether controls were suitably designed to achieve those control objectives, and, in the case of a type 2 report, whether controls were operating effectively throughout the specified period to achieve those control objectives.
- When a separate type 1 or type 2 report exists for a subservice organization, whether management has identified controls that are necessary, either at the service organization or at user entities, to address relevant complementary user entity controls identified in the carved-out subservice organization's description of its system.

**.A32** Paragraph .15a(viii) indicates that the criteria for assessing whether management's description of the service organization's system is fairly presented should include other aspects of the service organization's control environment, risk assessment process, information and communications (including relevant business processes), control activities, and monitoring activities that are relevant to the services provided. Although aspects of the service organization's control environment, risk assessment process, and monitoring activities may not be presented in the description in the context of control objectives, they may, nevertheless, be necessary to achieve the specified control objectives stated in the description. Likewise, deficiencies in these controls may have an effect on the service auditor's assessment of whether the controls, taken as a whole, were suitably designed or operating effectively to achieve the specified control objectives.

**.A33** The service auditor's procedures to obtain the understanding may include the following:

- Inquiring of management and others within the service organization who, in the service auditor's judgment, may have relevant information
- Observing operations and inspecting documents, reports, and printed and electronic records of transaction processing
- Inspecting a selection of agreements between the service organization and user entities to identify their common terms
- Reperforming the application of a control

One or more of the preceding procedures may be accomplished through the performance of a walkthrough.

**.A34** In a type 1 or type 2 engagement, the risk of material misstatement relates to the risk that, in all material respects, based on the criteria in management's assertion

- a. management's description of the service organization's system is not fairly presented;
- b. the controls are not suitably designed to provide reasonable assurance that the control objectives stated in management's description of the service organization's system would be achieved if the controls operated effectively; and
- c. in the case of a type 2 report, the controls did not operate effectively throughout the specified period to achieve the related control objectives stated in management's description of the service organization's system.

**.A35** The risks identified in paragraph .A34 may include those related to new or changed controls, system changes, significant changes in processing volume, new personnel or significant changes in key management or personnel, new types of transactions, new products or technologies, or modifications to the service auditor's opinion in the service auditor's report for the prior year.

### ***Reasonable Assurance (Ref: par. .25, .27–.28, and .33)***

**.A36** In a service auditor's examination engagement, the service auditor plans and performs the engagement to obtain reasonable assurance of detecting misstatements in management's description of the service organization's system and instances in which control objectives were not achieved. Absolute assurance is not attainable because of factors such as the need for judgment, the use of sampling, and the inherent limitations of controls at the service organization that affect whether the description is fairly presented and the controls are suitably designed and operating effectively to achieve the control objectives, and because much of the evidence available to the service auditor is persuasive, rather than conclusive, in nature. Also, procedures that are effective for detecting unintentional misstatements in the description, and instances in which control objectives were not achieved, may be ineffective for detecting misstatements in the description resulting from fraud and instances in which the control objectives were not achieved that are concealed through collusion between service organization personnel and a third party or among management or employees of the service organization. Therefore, the subsequent discovery of the existence of material misstatements in the description or instances in which control objectives were not achieved does not, in and of itself, evidence inadequate planning, performance, or judgment on the part of the service auditor.

### **Obtaining Evidence Regarding Management's Description of the Service Organization's System (Ref: par. .15a[vi] and .25–.26)**

**.A37** Considering the following questions may assist the service auditor in determining whether management's description of the service organization's system is fairly presented, in all material respects, based on the criteria in management's assertion:

- Is the description prepared at a level of detail that could reasonably be expected to provide a broad range of user auditors with sufficient information to obtain an understanding of internal control in accordance with AU-C section 402? The description need not address every aspect of the service organization's processing or the services provided to user entities and need not be so detailed

that it would potentially enable a reader to compromise security or other controls at the service organization.

- Is the description prepared in a manner that does not omit or distort information that might affect the decisions of a broad range of user auditors, for example, does the description contain any significant omissions or inaccuracies regarding processing of which the service auditor is aware?
- Does the description include relevant details of changes to the service organization's system during the period covered by the description when the description covers a period of time?
- Have the controls identified in the description actually been implemented?
- If the inclusive method has been used, does the description separately identify controls at the service organization and controls at the subservice organization? Does the description include activities at the service organization that monitor the effectiveness of controls at the subservice organization?
- Are complementary user entity controls, if any, adequately described? In most cases, the control objectives stated in the description are worded so that they are capable of being achieved through the effective operation of controls implemented by the service organization alone. In some cases, however, the control objectives stated in the description cannot be achieved by the service organization alone because their achievement requires particular controls to be implemented by user entities. For example, to achieve the specified control objectives, a user entity may need to review the completeness and accuracy of input provided to the service organization before submitting it to the service organization or the completeness and accuracy of reports provided to the user entity subsequent to processing. When the description does include complementary user entity controls, the description separately identifies those controls, along with the specific control objectives that cannot be achieved by the service organization alone.
- If the carve-out method has been used, does the description identify the functions that are performed by the subservice organization? (When the carve-out method has been used, the description does not describe the detailed processing or controls at the subservice organization.) Does the description include activities at the service organization that monitor the effectiveness of controls at the subservice organization as well as complementary subservice organization controls?

**.A38** The service auditor's procedures to evaluate the fair presentation of management's description of the service organization's system may include the following:

- Considering the nature of the user entities and how the services provided by the service organization are likely to affect them, for example, the predominant types of user entities, and whether the user entities are regulated by government agencies
- Reading contracts with user entities to gain an understanding of the service organization's contractual obligations
- Observing procedures performed by service organization personnel

- Reviewing the service organization's policy and procedure manuals and other documentation of the system, for example, flowcharts and narratives
- Performing walkthroughs of transactions through the service organization's system

**.A39** Paragraph .25a requires the service auditor to evaluate whether the control objectives stated in management's description of the service organization's system are reasonable in the circumstances. Considering the following questions may assist the service auditor in this evaluation:

- Do the control objectives stated in the description relate to the types of assertions commonly embodied in the broad range of user entities' financial statements to which controls at the service organization could reasonably be expected to relate (for example, assertions about existence and accuracy that are affected by access controls that prevent or detect unauthorized access to the system)? Although the service auditor ordinarily will not be able to determine how controls at a service organization specifically relate to the assertions embodied in individual user entities' financial statements, the service auditor considers matters, such as the following, when identifying the types of assertions to which the controls are likely to relate:
  - The types of services provided by the service organization, including the classes of transactions processed
  - The contents of reports and other information prepared for user entities
  - The information used in the performance of procedures
  - The types of significant events other than transactions that occur in providing the services
  - Services performed by a subservice organization, if any
  - The responsibility of the service organization to implement controls, including responsibilities established in contracts and agreements with user entities
  - The risks to a user entity's internal control over financial reporting arising from information technology used or provided by the service organization
- Are the control objectives stated in the description complete? Although a complete set of control objectives can provide a broad range of user auditors with a framework to assess the effect of controls at the service organization on assertions commonly embodied in user entities' financial statements, the service auditor ordinarily will not be able to determine how controls at a service organization specifically relate to the assertions embodied in individual user entities' financial statements and cannot, therefore, determine whether control objectives are complete from the viewpoint of individual user entities or user auditors. It is the responsibility of individual user entities or user auditors to assess whether the service organization's description addresses the particular control objectives that are relevant to their needs. If the control objectives are specified by an outside party, including control objectives specified by law or regulation, the outside party is responsible for their completeness and reasonableness.

**.A40** The service auditor's procedures to determine whether the system described by the service organization has been implemented may be similar to, and performed in conjunction with, procedures to obtain an understanding of that system. Other procedures that the service auditor may use in combination with inquiry of management and other service organization personnel include observation, inspection of records and other documentation, and reperformance of the manner in which transactions are processed through the system and controls are applied.

## **Obtaining Evidence Regarding the Design of Controls (Ref: par. .27)**

**.A41** The risks and control objectives identified in paragraph .27 encompass fraud and unintentional acts that threaten the achievement of the control objectives.

**.A42** From the viewpoint of a user auditor, a control is suitably designed to achieve the control objectives stated in management's description of the service organization's system if individually or in combination with other controls, it would, when complied with satisfactorily, provide reasonable assurance that material misstatements are prevented, or detected and corrected. A service auditor, however, is not aware of the circumstances at individual user entities that would affect whether or not a misstatement is material to those user entities. Therefore, from the viewpoint of a service auditor, a control is suitably designed if individually or in combination with other controls, it would, when complied with satisfactorily, provide reasonable assurance that the control objective(s) stated in the description of the service organization's system are achieved.

**.A43** A service auditor may consider using flowcharts, questionnaires, or decision tables to facilitate understanding the design of the controls.

**.A44** Controls may consist of a number of activities directed at the achievement of various control objectives. Consequently, if the service auditor evaluates certain activities as being ineffective in achieving a particular control objective, the existence of other activities may allow the service auditor to conclude that controls related to the control objective are suitably designed to achieve the control objective. (Ref: par. .27)

**.A45** The service organization may have different controls in place to address each of the risks associated with the control objective; therefore, multiple controls may be needed in order for the service auditor to conclude on the design of controls relating to each of the risks associated with the control objective.

## **Obtaining Evidence Regarding the Operating Effectiveness of Controls (Ref: par. .15b and .28-.29)**

**.A46** From the viewpoint of a user auditor, a control is operating effectively if individually or in combination with other controls, it provides reasonable assurance that material misstatements are prevented, or detected and corrected. A service auditor, however, is not aware of the circumstances at individual user entities that would affect whether or not a misstatement resulting from a control deviation is material to those user entities. Therefore, from the viewpoint of a service auditor, a control is operating effectively if, individually or in combination with other controls, it provides reasonable assurance that the control objectives stated in management's description of the service organization's system are achieved. Similarly, a service auditor is not in a position to determine

whether any observed control deviation would result in a material misstatement from the viewpoint of an individual user entity.

**.A47** Obtaining an understanding of controls sufficient to opine on the suitability of their design is not sufficient evidence regarding their operating effectiveness unless some automation provides for the consistent operation of the controls as they were designed and implemented. For example, obtaining information about the implementation of a manual control at a point in time does not provide evidence about operation of the control at other times. However, because of the inherent consistency of IT processing, performing procedures to determine the design of an automated application control and whether it has been implemented may serve as evidence of that control's operating effectiveness, depending on the service auditor's assessment and testing of IT general controls such as those over program changes.

**.A48** Evidence about the satisfactory operation of controls in prior periods does not provide evidence of the operating effectiveness of controls during the current period. The service auditor expresses an opinion on the effectiveness of controls throughout each period; therefore, sufficient appropriate evidence about the operating effectiveness of controls throughout the current period is required for the service auditor to express that opinion for the current period. Knowledge of modifications to the service auditor's report or deviations observed in prior engagements may, however, be considered in assessing risk and lead the service auditor to increase the extent of testing during the current period.

**.A49** Generally, a type 2 report(s) is most useful to user entities and their auditors when it covers a substantial portion of the period covered by the user entity's financial statements being audited.

**.A50** Determining the effect of changes in the service organization's controls that were implemented during the period covered by the service auditor's report involves gathering information about the nature and extent of such changes, how they affect processing at the service organization, and how they might affect assertions in the user entities' financial statements.

**.A51** Certain controls may not leave evidence of their operation that can be tested at a later date and, accordingly, the service auditor may find it appropriate to test the operating effectiveness of such controls at various times throughout the reporting period.

### ***Evaluating the Reliability of Information Produced by the Service Organization (Ref: par. .30)***

**.A52** The following are examples of information produced by a service organization that are commonly used by a service auditor:

- Population lists the service auditor uses to select a sample of items for testing
- Lists of data that have specific characteristics
- Exception reports
- Transaction reconciliations
- Documentation that provides evidence of the operating effectiveness of controls, such as user access lists
- System-generated reports
- Other system-generated data

## Written Representations (Ref: par. .12 and .36–.38)

**.A53** Written representations reaffirming the service organization's assertion about the effective operation of controls may be based on ongoing monitoring activities, separate evaluations, or a combination of the two.

**.A54** In certain circumstances, a service auditor may obtain written representations from parties in addition to management of the service organization, such as those charged with governance.

**.A55** The written representations required by paragraph .36 are separate from and in addition to the assertion that accompanies management's description of the service organization's system.

**.A56** In addition to the written representations required by paragraph .36, the service auditor may consider it necessary to request other written representations.

**.A57** If the service auditor is unable to obtain written representations regarding relevant control objectives and related controls at the subservice organization, management of the service organization may be able to use the carve-out method.

## Other Information (Ref: par. .39, .40c(iii), and .41c(iii))

**.A58** The other information referred to in paragraph .39 may include

- information provided by the service organization and included in a separate section of the type 1 or type 2 report, or
- information outside the type 1 or type 2 report included in a document that contains the service auditor's report. This other information may be provided by the service organization or another party.

## Content of the Service Auditor's Report (Ref: par. .40 and .41)

**.A59** Examples of service auditors' reports are presented in exhibit A of this section, and illustrative assertions by management of the service organization are presented in exhibit B.

**.A60** The list of report elements in paragraphs .40 and .41 constitutes all the required report elements for a service auditor's type 2 and type 1 engagement, respectively, including the elements required by section 205.<sup>27</sup> Application guidance regarding the elements of a practitioner's examination report is included in section 205.<sup>28</sup> (Ref: par. .40)

**.A61** The following is an example of the information required by paragraphs .40c(iv)(1) and .41c(iv)(1):

As indicated in the description, XYZ Service Organization uses a subservice organization for all of its computerized application processing. The description includes only the control objectives and related controls of XYZ Service Organization and excludes the control objectives and related controls of the subservice organization. The description also indicates that certain control objectives specified by XYZ Service Organization can be achieved only if complementary

---

<sup>27</sup> Paragraphs .63–.66 of section 205.

<sup>28</sup> Paragraphs .A78–.A101.

subservice organization controls assumed in the design of XYZ Service Organization's controls are suitably designed and operating effectively, along with related controls at XYZ Service Organization. Our examination did not extend to controls of the subservice organization, and we have not evaluated the suitability of the design or operating effectiveness of such complementary subservice organization controls.

### ***Description of the Service Auditor's Tests of Controls and the Results Thereof (Ref: par. .40k)***

**.A62** The service auditor may include in the description of tests of controls and results the procedures the service auditor performed to verify the completeness and accuracy of information provided by the service organization.

**.A63** In describing the service auditor's tests of controls and results thereof for a type 2 report, it is helpful to readers if the service auditor's report includes information about causative factors for identified deviations, to the extent the service auditor has identified such factors.

**.A64** When the work of the internal audit function has been used in performing tests of controls, the service auditor's description of that work and of the service auditor's procedures with respect to that work may be presented in a number of ways, for example

- by including introductory material to the description of tests of controls indicating that certain work of the internal audit function was used in performing tests of controls and describing the service auditor's procedures with regard to that work.
- by attributing individual tests to internal audit and describing the service auditor's procedures with regard to that work.

**.A65** The work of the internal audit function referred to in paragraph .40k(v) does not include tests of controls performed by internal auditors as a part of direct assistance.

**.A66** Other than the description of the work of the internal auditors referred to in paragraph .40k(v), the service auditor's report does not make any reference to the use of the work of the internal audit function to obtain evidence or to the use of internal auditors to provide direct assistance.

### ***Use of the Service Auditor's Report (Ref: par. .40m and .41m)***

**.A67** Section 205 requires that the use of a practitioner's report be restricted to specified parties when the criteria used to evaluate or measure the subject matter are available only to specified parties or appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria.<sup>29</sup> The criteria used for engagements to report on controls at a service organization are relevant only for the purpose of providing information about the service organization's system, including controls, to those who have an understanding of how the system is used for financial reporting by user entities and, accordingly, the service auditor's report states that the report and the description of tests of controls are intended only for use by management of the service organization, user entities of the service organization ("during some or all of the period covered by the service auditor's report" for a type 2 report, and "as of the specified date" for a type 1 report), and their user auditors. (The illustrative reports in

---

<sup>29</sup> Paragraph .64b of section 205.

exhibit A of this section illustrate language for a paragraph restricting the use of the report.)

**.A68** Section 205 indicates that the need for restriction on the use of a practitioner's report may result from a number of circumstances, including the potential for the report to be misunderstood when taken out of the context in which it was intended to be used, and the extent to which the procedures performed are known or understood.<sup>30</sup>

**.A69** Although the alert language in the service auditor's report restricts the use of the report, a service auditor is not responsible for controlling a service organization's distribution of a report. A service auditor may inform the service organization of the following:

- A service auditor's type 1 report is not intended for distribution to parties other than the service organization, user entities of the service organization's system as of the end of the period covered by the report, and their user auditors.
- A service auditor's type 2 report is not intended for distribution to parties other than the service organization, user entities of the service organization's system during some or all of the period covered by the report, and their user auditors.

**.A70** A user entity is also considered a user entity of the service organization's subservice organizations if controls at subservice organizations are relevant to internal control over financial reporting of the user entity. In such case, the user entity is referred to as an *indirect* or *downstream* user entity of the subservice organization. Consequently, an indirect or downstream user entity may be included in the group to whom use of the service auditor's report is restricted if controls at the service organization are relevant to internal control over financial reporting of such indirect or downstream user entity.

**.A71** In engagements in which the inclusive method is used, the users of a subservice organization's system that are not users of the service organization's system, are not *user entities*, as defined in paragraph .08.

**.A72** In engagements in which the inclusive method is used, management of a subservice organization may be identified as a specified party and, if so, would be included in the alert language described in paragraphs .40m and .41m.

## Modified Opinions (Ref: par. .42)

**.A73** The AICPA Guide *Service Organizations: Reporting on Controls at a Service Organization Relevant to User Entities' Internal Control Over Financial Reporting* contains examples of elements of modified service auditor's reports.

## Other Communication Responsibilities (Ref: par. .45)

**.A74** Actions that a service auditor may take when the service auditor becomes aware of noncompliance with laws or regulations, fraud, or uncorrected misstatements at the service organization (after giving additional consideration to instances in which the service organization has not appropriately communicated this information to affected user entities, and the service organization refuses to do so) include the following:

- Obtaining legal advice about the consequences of different courses of action

---

<sup>30</sup> Paragraph .A100 of section 205.

- Communicating with those charged with governance of the service organization
- Disclaiming an opinion, modifying the service auditor's opinion, or adding a separate paragraph to the practitioner's report that describes the matter
- Communicating with third parties, for example, a regulator, when required to do so
- Withdrawing from the engagement
- Considering the nature of the user entities and how the services provided by the service organization are likely to affect them, for example, the predominant types of user entities, and whether the user entities are regulated by government agencies
- Reading contracts with user entities to gain an understanding of the service organization's contractual obligations
- Observing procedures performed by service organization personnel
- Reviewing the service organization's policy and procedure manuals and other documentation of the system, for example, flowcharts and narratives
- Performing walkthroughs of transactions through the service organization's system

.A75

## Exhibit A—Illustrative Service Auditor's Reports

The following illustrative service auditor's reports contain text in ***boldface italics*** that would be added to the report if the situation described in the text is applicable. These illustrative reports are for guidance only and are not intended to be exhaustive or applicable to all situations. The inclusion of headings in the report may be useful but is not required by this section or section 205.<sup>1</sup> The AICPA Guide *Service Organizations: Reporting on Controls at a Service Organization Relevant to User Entities' Internal Control Over Financial Reporting* includes additional illustrative reports, including reports with modified opinions.

### Example 1: Type 2 Service Auditor's Report

#### **Independent Service Auditor's Report<sup>2</sup> on XYZ Service Organization's Description of Its [*type or name of*] System and the Suitability of the Design and Operating Effectiveness of Controls**

To: XYZ Service Organization

##### *Scope*

We have examined XYZ Service Organization's description of its [*type or name of*] system entitled "XYZ Service Organization's Description of Its [*type or name of*] System" for processing user entities' transactions [*or identification of the function performed by the system*] throughout the period [*date*] to [*date*] (description) and the suitability of the design and operating effectiveness of the controls included in the description to achieve the related control objectives stated in the description, based on the criteria identified in "XYZ Service Organization's Assertion" (assertion). The controls and control objectives included in the description are those that management of XYZ Service Organization believes are likely to be relevant to user entities' internal control over financial reporting, and the description does not include those aspects of the [*type or name of*] system that are not likely to be relevant to user entities' internal control over financial reporting.

*[A statement such as the following is added to the service auditor's report when information that is not covered by the report is included in the description of the service organization's system.]*

***The information included in [section number where the other information is presented], "Other Information Provided by XYZ Service Organization" is presented by management of XYZ Service Organization to provide additional information and is not a part of XYZ Service Organization's description of its [name or type of] system made available to user entities during the period [date] to [date]. Information about XYZ Service Organization's [describe the nature of the information, for example, business continuity planning, privacy practices, and so on] has not been subjected to the procedures applied in the examination of the description of the [name or type of] system and of the suitability of the design and operating effectiveness of controls to achieve the related control objectives stated in the description of the [name or type of] system.***

<sup>1</sup> Paragraph .A76 of section 205.

<sup>2</sup> May also be "Report of Independent Service Auditors."

*[A statement such as the following is added to the service auditor's report when the service organization uses a subservice organization, the carve-out method is used to present the subservice organization, and complementary subservice organization controls are required to meet the control objectives.]*

***XYZ Service Organization uses a subservice organization to [identify the function or service provided by the subservice organization]. The description includes only the control objectives and related controls of XYZ Service Organization and excludes the control objectives and related controls of the subservice organization. The description also indicates that certain control objectives specified by XYZ Service Organization can be achieved only if complementary subservice organization controls assumed in the design of XYZ Service Organization's controls are suitably designed and operating effectively, along with the related controls at XYZ Service Organization. Our examination did not extend to controls of the subservice organization, and we have not evaluated the suitability of the design or operating effectiveness of such complementary subservice organization controls.***

*[A statement such as the following is added to the assertion when complementary user entity controls are required to meet the control objectives.]*

***The description indicates that certain control objectives specified in the description can be achieved only if complementary user entity controls assumed in the design of XYZ Service Organization's controls are suitably designed and operating effectively, along with related controls at the service organization. Our examination did not extend to such complementary user entity controls, and we have not evaluated the suitability of the design or operating effectiveness of such complementary user entity controls.***

#### *Service Organization's Responsibilities*

In [section number where the assertion is presented], XYZ Service Organization has provided an assertion about the fairness of the presentation of the description and suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description. XYZ Service Organization is responsible for preparing the description and assertion, including the completeness, accuracy, and method of presentation of the description and assertion, providing the services covered by the description, specifying the control objectives and stating them in the description, identifying the risks that threaten the achievement of the control objectives, selecting the criteria stated in the assertion, and designing, implementing, and documenting controls that are suitably designed and operating effectively to achieve the related control objectives stated in the description.

#### *Service Auditor's Responsibilities*

Our responsibility is to express an opinion on the fairness of the presentation of the description and on the suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description, based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether, in all material respects, based on the criteria in management's assertion, the description is fairly presented and the controls were suitably designed and operating effectively to achieve the related control

objectives stated in the description throughout the period [date] to [date]. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

An examination of a description of a service organization's system and the suitability of the design and operating effectiveness of controls involves

- performing procedures to obtain evidence about the fairness of the presentation of the description and the suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description, based on the criteria in management's assertion.
- assessing the risks that the description is not fairly presented and that the controls were not suitably designed or operating effectively to achieve the related control objectives stated in the description.
- testing the operating effectiveness of those controls that management considers necessary to provide reasonable assurance that the related control objectives stated in the description were achieved.
- evaluating the overall presentation of the description, suitability of the control objectives stated in the description, and suitability of the criteria specified by the service organization in its assertion.

#### *Inherent Limitations*

The description is prepared to meet the common needs of a broad range of user entities and their auditors who audit and report on user entities' financial statements and may not, therefore, include every aspect of the system that each individual user entity may consider important in its own particular environment. Because of their nature, controls at a service organization may not prevent, or detect and correct, all misstatements in processing or reporting transactions [*or identification of the function performed by the system*]. Also, the projection to the future of any evaluation of the fairness of the presentation of the description, or conclusions about the suitability of the design or operating effectiveness of the controls to achieve the related control objectives, is subject to the risk that controls at a service organization may become ineffective.

#### *Description of Tests of Controls*

The specific controls tested and the nature, timing, and results of those tests are listed in [section number where the description of tests of controls is presented].

#### *Opinion*

In our opinion, in all material respects, based on the criteria described in XYZ Service Organization's assertion

- a. the description fairly presents the [type or name of] system that was designed and implemented throughout the period [date] to [date].
- b. the controls related to the control objectives stated in the description were suitably designed to provide reasonable assurance that the control objectives would be achieved if the controls operated effectively throughout the period [date] to [date] **and subservice organizations and user entities applied the complementary controls assumed in the design of XYZ Service Organization's controls throughout the period [date] to [date].**

- c. the controls operated effectively to provide reasonable assurance that the control objectives stated in the description were achieved throughout the period [date] to [date] **if complementary subservice organization and user entity controls assumed in the design of XYZ Service Organization's controls operated effectively throughout the period [date] to [date].**

*Restricted Use*

This report, including the description of tests of controls and results thereof in [section number where the description of tests of controls is presented], is intended solely for the information and use of management of XYZ Service Organization, user entities of XYZ Service Organization's [type or name of] system during some or all of the period [date] to [date], and their auditors who audit and report on such user entities' financial statements or internal control over financial reporting and have a sufficient understanding to consider it, along with other information, including information about controls implemented by user entities themselves, when assessing the risks of material misstatement of user entities' financial statements. This report is not intended to be, and should not be, used by anyone other than the specified parties.

## Example 2: Type 1 Service Auditor's Report

### Independent Service Auditor's Report<sup>3</sup> on XYZ Service Organization's Description of Its [type or name of] System and the Suitability of the Design of Controls

To: XYZ Service Organization

We have examined XYZ Service Organization's description of its [type or name of] system entitled, "XYZ Service Organization's Description of Its [type or name of] System," for processing user entities' transactions [or identification of the function performed by the system] as of [date] (description) and the suitability of the design of the controls included in the description to achieve the related control objectives stated in the description, based on the criteria identified in "XYZ Service Organization's Assertion" (assertion). The controls and control objectives included in the description are those that management of XYZ Service Organization believes are likely to be relevant to user entities' internal control over financial reporting, and the description does not include those aspects of the [type or name of] system that are not likely to be relevant to user entities' internal control over financial reporting.

[A statement such as the following is added to the service auditor's report when information that is not covered by the report is included in the description of the service organization's system.]

**The information included in [section number where the other information is presented], "Other Information Provided by XYZ Service Organization," is presented by management of XYZ Service Organization to provide additional information and is not a part of XYZ Service Organization's description of its [name or type of] system made available**

<sup>3</sup> May also be "Report of Independent Service Auditors."

***to user entities as of [date]. Information about XYZ Service Organization's [describe the nature of the information, for example, business continuity planning, privacy practices, and so on] has not been subjected to the procedures applied in the examination of the description of the [name or type of] system and of the suitability of the design of controls to achieve the related control objectives stated in the description of the [name or type of] system.***

*[A statement such as the following is added to the report when the service organization uses a subservice organization, the carve-out method is used to present the subservice organization, and complementary subservice organization controls are required to meet the control objectives.]*

***XYZ Service Organization uses a subservice organization to [identify the function or service provided by the subservice organization]. The description includes only the control objectives and related controls of XYZ Service Organization and excludes the control objectives and related controls of the subservice organization. The description also indicates that certain control objectives specified by XYZ Service Organization can be achieved only if complementary subservice organization controls assumed in the design of XYZ Service Organization's controls are suitably designed and operating effectively, along with the related controls at XYZ Service Organization. Our examination did not extend to controls of the subservice organization, and we have not evaluated the design or operating effectiveness of such complementary subservice organization controls.***

*[A statement such as the following is added to the assertion when complementary user entity controls are required to meet the control objectives.]*

***The description indicates that certain control objectives specified in the description can be achieved only if complementary user entity controls assumed in the design of XYZ Service Organization's controls are suitably designed and operating effectively, along with related controls at the service organization. Our examination did not extend to such complementary user entity controls, and we have not evaluated the suitability of the design or operating effectiveness of such complementary user entity controls.***

#### *Service Organization's Responsibilities*

In [section number where assertion is presented], XYZ Service Organization has provided an assertion about the fairness of the presentation of the description and suitability of the design of the controls to achieve the related control objectives stated in the description. XYZ Service Organization is responsible for preparing the description and its assertion, including the completeness, accuracy, and method of presentation of the description and assertion, providing the services covered by the description, specifying the control objectives and stating them in the description, identifying the risks that threaten the achievement of the control objectives, selecting the criteria stated in the assertion, and designing, implementing, and documenting controls that are suitably designed and operating effectively to achieve the related control objectives stated in the description.

#### *Service Auditor's Responsibilities*

Our responsibility is to express an opinion on the fairness of the presentation of the description and on the suitability of the design of the controls to achieve the related control objectives stated in the description, based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether, in all material respects, based on the criteria in management's assertion, the description is fairly presented and the controls were suitably designed to achieve the related control objectives stated in the description as of [date]. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

An examination of a description of a service organization's system and the suitability of the design of controls involves

- performing procedures to obtain evidence about the fairness of the presentation of the description and the suitability of the design of the controls to achieve the related control objectives stated in the description, based on the criteria in management's assertion.
- assessing the risks that the description is not fairly presented and that the controls were not suitably designed to achieve the related control objectives stated in the description.
- evaluating the overall presentation of the description, suitability of the control objectives stated in the description, and suitability of the criteria specified by the service organization in its assertion.

#### *Inherent Limitations*

The description is prepared to meet the common needs of a broad range of user entities and their auditors who audit and report on user entities' financial statements and may not, therefore, include every aspect of the system that each individual user entity may consider important in its own particular environment. Because of their nature, controls at a service organization may not prevent, or detect and correct, all misstatements in processing or reporting transactions [or identification of the function performed by the system]. Also, the projection to the future of any evaluation of the fairness of the presentation of the description, or conclusions about the suitability of the design of the controls to achieve the related control objectives, is subject to the risk that controls at a service organization may become ineffective.

#### *Other Matter*

We did not perform any procedures regarding the operating effectiveness of controls stated in the description and, accordingly, do not express an opinion thereon.

#### *Opinion*

In our opinion, in all material respects, based on the criteria described in XYZ Service Organization's assertion

- a. the description fairly presents the [type or name of] system that was designed and implemented as of [date].
- b. the controls related to the control objectives stated in the description were suitably designed to provide reasonable assurance that the control objectives would be achieved if the controls operated effectively as of [date] **and subservice organizations and user entities applied the complementary controls assumed in the design of XYZ Service Organization's controls as of [date].**

#### *Restricted Use*

This report is intended solely for the information and use of management of XYZ Service Organization, user entities of XYZ Service Organization's [type or name of] system as of [date], and their auditors who audit and report on

such user entities' financial statements or internal control over financial reporting and have a sufficient understanding to consider it, along with other information, including information about controls implemented by user entities themselves, when assessing the risks of material misstatements of user entities' financial statements. This report is not intended to be, and should not be, used by anyone other than the specified parties.

## Exhibit B—Illustrative Assertions by Management of a Service Organization

Paragraph .10b(vi) indicates that one of the preconditions for a service auditor to accept or continue an engagement is that management acknowledge and accept responsibility for providing a written assertion that accompanies management's description of the service organization's system. Paragraph .A18 indicates that the service organization has the option of attaching the assertion to the description of the service organization's system or including it in the description and clearly segregating the assertion from the description, for example, through the use of headings. Segregating the assertion from the description clarifies that the assertion is not part of the description.

The following illustrative management assertions contain text in boldface italics that would be added to management's assertion if the situation described in the text is applicable. These illustrative assertions are for guidance only and are not intended to be exhaustive or applicable to all situations.

### Example 1: Assertion by Management of a Service Organization for a Type 2 Report

XYZ Service Organization's Assertion

We have prepared the description of XYZ Service Organization's [*type or name of*] system entitled, "XYZ Service Organization's Description of Its [*type or name of*] System," for processing user entities' transactions [*or identification of the function performed by the system*] throughout the period [*date*] to [*date*] (description) for user entities of the system during some or all of the period [*date*] to [*date*], and their auditors who audit and report on such user entities' financial statements or internal control over financial reporting and have a sufficient understanding to consider it, along with other information, ***including information about controls implemented by subservice organizations and user entities of the system themselves***, when assessing the risks of material misstatement of user entities' financial statements.

[*A statement such as the following is added to the assertion when the service organization uses a subservice organization, the carve-out method is used to present the subservice organization, and complementary subservice organization controls are required to meet the control objectives.*]

***XYZ Service Organization uses a subservice organization to [identify the function or service provided by the subservice organization]. The description includes only the control objectives and related controls of XYZ Service Organization and excludes the control objectives and related controls of the subservice organization. The description also indicates that certain control objectives specified in the description can be achieved only if complementary subservice organization controls assumed in the design of our controls are suitably designed and operating effectively, along with the related controls. The description does not extend to controls of the subservice organization.***

[*A statement such as the following is added to the service auditor's report when complementary user entity controls are required to meet the control objectives.*]

***The description indicates that certain control objectives specified in the description can be achieved only if complementary user entity controls assumed in the design of XYZ Service Organization's controls are suitably designed and operating effectively, along with related controls at the service organization. The description does not extend to controls of the user entities.***

We confirm, to the best of our knowledge and belief, that

- a. the description fairly presents the [type or name of] system made available to user entities of the system during some or all of the period [date] to [date] for processing their transactions [or identification of the function performed by the system] as it relates to controls that are likely to be relevant to user entities' internal control over financial reporting. The criteria we used in making this assertion were that the description
  - i. presents how the system made available to user entities of the system was designed and implemented to process relevant user entity transactions, including, if applicable,
    - (1) the types of services provided, including, as appropriate, the classes of transactions processed.
    - (2) the procedures, within both automated and manual systems, by which those services are provided, including, as appropriate, procedures by which transactions are initiated, authorized, recorded, processed, corrected as necessary, and transferred to the reports and other information prepared for user entities of the system.
    - (3) the information used in the performance of the procedures including, if applicable, related accounting records, whether electronic or manual, and supporting information involved in initiating, authorizing, recording, processing, and reporting transactions; this includes the correction of incorrect information and how information is transferred to the reports and other information prepared for user entities.
    - (4) how the system captures and addresses significant events and conditions other than transactions.
    - (5) the process used to prepare reports and other information for user entities.
    - (6) services performed by a subservice organization, if any, including whether the carve-out method or the inclusive method has been used in relation to them.
    - (7) the specified control objectives and controls designed to achieve those objectives, including, as applicable, complementary user entity controls and complementary subservice organization controls assumed in the design of the service organization's controls.
    - (8) other aspects of our control environment, risk assessment process, information and communications (including the related business processes),

- control activities, and monitoring activities that are relevant to the services provided.
- ii. includes relevant details of changes to the service organization's system during the period covered by the description.
  - iii. does not omit or distort information relevant to the service organization's system, while acknowledging that the description is prepared to meet the common needs of a broad range of user entities of the system and their user auditors, and may not, therefore, include every aspect of the [type or name of] system that each individual user entity of the system and its auditor may consider important in its own particular environment.
- b. the controls related to the control objectives stated in the description were suitably designed and operating effectively throughout the period [date] to [date] to achieve those control objectives ***if subservice organizations and user entities applied the complementary controls assumed in the design of XYZ Service Organization's controls throughout the period [date] to [date].*** The criteria we used in making this assertion were that
- i. the risks that threaten the achievement of the control objectives stated in the description have been identified by management of the service organization.
  - ii. the controls identified in the description would, if operating effectively, provide reasonable assurance that those risks would not prevent the control objectives stated in the description from being achieved.
  - iii. the controls were consistently applied as designed, including whether manual controls were applied by individuals who have the appropriate competence and authority.

## Example 2: Assertion by Management of a Service Organization for a Type 1 Report

### XYZ Service Organization's Assertion

We have prepared the description of XYZ Service Organization's [type or name of] system entitled, "XYZ Service Organization's Description of Its [type or name of] System," for processing user entities' transactions [or identification of the function performed by the system] as of [date] (description) for user entities of the system as of [date], and their auditors who audit and report on such user entities' financial statements or internal control over financial reporting and have a sufficient understanding to consider it, along with other information, including information about controls ***implemented by subservice organizations and user entities themselves***, when obtaining an understanding of user entities' information and communication systems relevant to financial reporting.

[A statement such as the following is added to the assertion when the service organization uses a subservice organization, the carve-out method is used to present the subservice organization, and complementary subservice organization controls are required to meet the control objectives.]

***XYZ Service Organization uses a subservice organization to [identify the function or service provided by the subservice organization]. The description includes only the control objectives and related controls of***

***XYZ Service Organization and excludes the control objectives and related controls of the subservice organization(s). The description also indicates that certain control objectives specified in the description can be achieved only if complementary subservice organization controls assumed in the design of our controls are suitably designed and operating effectively, along with the related controls. The description does not extend to controls of the subservice organization.***

[A statement such as the following is added to the service auditor's report when complementary user entity controls are required to meet the control objectives.]

***The description indicates that certain control objectives specified in the description can be achieved only if complementary user entity controls assumed in the design of XYZ Service Organization's controls are suitably designed and operating effectively, along with related controls at the service organization. The description does not extend to controls of the user entities.***

We confirm, to the best of our knowledge and belief, that

- a. the description fairly presents the [*type or name of*] system made available to user entities of the system as of [*date*] for processing their transactions [*or identification of the function performed by the system*] as it relates to controls that are likely to be relevant to user entities' internal control over financial reporting. The criteria we used in making this assertion were that the description
  - i. presents how the system made available to user entities of the system was designed and implemented to process relevant transactions, including, if applicable
    - (1) the types of services provided, including, as appropriate, the classes of transactions processed.
    - (2) the procedures, within both automated and manual systems, by which those services are provided, including, as appropriate, procedures by which transactions are initiated, authorized, recorded, processed, corrected as necessary, and transferred to the reports and other information prepared for user entities of the system.
    - (3) the information used in the performance of the procedures including, if applicable, related accounting records, whether electronic or manual, and supporting information involved in initiating, authorizing, recording, processing, and reporting transactions; this includes the correction of incorrect information and how information is transferred to the reports and other information prepared for user entities.
    - (4) how the system captures and addresses significant events and conditions other than transactions.
    - (5) the process used to prepare reports and other information for user entities.
    - (6) services performed by a subservice organization, if any, including whether the carve-out method or the inclusive method has been used in relation to them.

- (7) the specified control objectives and controls designed to achieve those objectives, including, as applicable, complementary user entity controls and complementary subservice organization controls assumed in the design of the service organization's controls.
    - (8) other aspects of our control environment, risk assessment process, information and communication systems (including the related business processes), control activities, and monitoring activities that are relevant to the services provided.
  - ii. does not omit or distort information relevant to the service organization's system, while acknowledging that the description is prepared to meet the common needs of a broad range of user entities of the system and their user auditors, and may not, therefore, include every aspect of the [type or name of] system that each individual user entity of the system and its auditor may consider important in its own particular environment.
  - b. the controls related to the control objectives stated in the description were suitably designed as of [date] to achieve those control objectives ***if subservice organizations and user entities applied the complementary controls assumed in the design of XYZ Service Organization's controls as of [date].*** The criteria we used in making this assertion were that
    - i. the risks that threaten the achievement of the control objectives stated in the description have been identified by management of the service organization.
    - ii. the controls identified in the description would, if operating effectively, provide reasonable assurance that those risks would not prevent the control objectives stated in the description from being achieved.
-

**AT-C Section 395\******[Designated for AT Section 701,  
Management's Discussion and Analysis]*****NOTE**

SSAE No. 18 does not supersede chapter 7, "Management's Discussion and Analysis," of SSAE No. 10, *Attestation Standards: Revision and Recodification*, which is currently codified as AT section 701.

The Auditing Standards Board (ASB) has not clarified AT section 701 because practitioners rarely perform attest engagements to report on management's discussion and analysis prepared pursuant to the rules and regulations adopted by the U.S. Securities and Exchange Commission. Therefore, the ASB decided that it would retain AT section 701 in its current unclarified format as section 395 until further notice.

**AT Section 701—Management's Discussion and Analysis**

Source: SSAE No. 10.

**Effective when management's discussion and analysis is for a period ending on or after June 1, 2001. Earlier application is permitted.**

**General**

.01 This section sets forth attestation standards and provides guidance to a practitioner concerning the performance of an attest engagement<sup>1</sup> with respect to management's discussion and analysis (MD&A) prepared pursuant to the rules and regulations adopted by the Securities and Exchange Commission (SEC), which are presented in annual reports to shareholders and in other documents.<sup>2</sup>

**Applicability**

.02 This section is applicable to the following levels of service when a practitioner is engaged by (a) a public<sup>3</sup> entity that prepares MD&A in accordance

\* This section contains an "AT-C" identifier, instead of an "AT" identifier, to avoid confusion with references to existing "AT" sections, which remain effective through April 2017.

<sup>1</sup> Paragraph .01 of section 101, *Attest Engagements*, defines an attest engagement as one in which a practitioner "is engaged to issue or does issue an examination, a review, or an agreed-upon procedures report on subject matter, or an assertion about the subject matter (hereafter referred to as the *assertion*), that is the responsibility of another party."

<sup>2</sup> Because this section provides guidance specific to attest engagements concerning MD&A presentations, a practitioner should not perform a compliance attestation engagement under section 601, *Compliance Attestation*, with respect to an MD&A presentation.

<sup>3</sup> For purposes of this section, a public entity is any entity (a) whose securities trade in a public market either on a stock exchange (domestic or foreign) or in the over-the-counter (OTC) market, including securities quoted only locally or regionally, (b) that makes a filing with a regulatory agency in preparation for the sale of any class of its securities in a public market, or (c) a subsidiary, corporate joint venture, or other entity controlled by an entity covered by (a) or (b).

with the rules and regulations adopted by the SEC (see paragraph .04) or (b) a nonpublic entity that prepares an MD&A presentation and whose management provides a written assertion that the presentation has been prepared using the rules and regulations adopted by the SEC:<sup>4</sup>

- An examination of an MD&A presentation
- A review of an MD&A presentation for an annual period, an interim period, or a combined annual and interim period<sup>5</sup>

A practitioner<sup>6</sup> engaged to examine or review MD&A and report thereon should comply with the general, fieldwork, and reporting standards established in section 50, *SSAE Hierarchy*, and the specific standards set forth in this section. A practitioner engaged to perform agreed-upon procedures on MD&A should follow the guidance set forth in section 201, *Agreed-Upon Procedures Engagements*.<sup>7</sup> [Revised, November 2006, to reflect conforming changes necessary due to the issuance of SSAE No. 14.]

**.03** This section does not—

- a. Change the auditor's responsibility in an audit of financial statements performed in accordance with generally accepted auditing standards (GAAS).
- b. Apply to situations in which the practitioner is requested to provide management with recommendations to improve the MD&A rather than to provide assurance. A practitioner engaged to provide such nonattest services should refer to CS section 100, *Consulting Services: Definitions and Standards*.
- c. Apply to situations in which the practitioner is engaged to provide attest services with respect to an MD&A presentation that is prepared based on criteria other than the rules and regulations adopted by the SEC. A practitioner engaged to perform an examination or a review based upon such criteria should refer to the guidance in section 101, or to section 201 if engaged to perform an agreed-upon procedures engagement.<sup>8</sup>

<sup>4</sup> Such assertion may be made by any of the following:

- (a) Including a statement in the body of the MD&A presentation that it has been prepared using the rules and regulations adopted by the SEC.
- (b) Providing a separate written assertion to accompany the MD&A presentation.
- (c) Providing a written assertion in a representation letter to the practitioner.

<sup>5</sup> As discussed in paragraph .85*k*, a review report is not intended to be filed with the SEC as a report under the Securities Act of 1933 (the 1933 Act) or the Securities Exchange Act of 1934 (the 1934 Act) and, accordingly, the review report should contain a statement of restrictions on the use of the report to specified parties if the entity is (a) a public entity or (b) a nonpublic entity that is making or has made an offering of securities and it appears that the securities may subsequently be registered or subject to a filing with the SEC or other regulatory agency.

<sup>6</sup> In this section, the terms *practitioner* or *accountant* generally refer to a person engaged to perform an attest service on MD&A. The term *accountant* may also refer to a person engaged to review financial statements. The term *auditor* refers to a person engaged to audit financial statements. As this section includes certain requirements for the practitioner to have audited or performed a review of financial statements in accordance with AU-C section 930, *Interim Financial Information*, the terms *auditor*, *practitioner*, or *accountant* may refer, in this section, to the same person. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

<sup>7</sup> Practitioners should follow guidance in AU-C section 920, *Letters for Underwriters and Certain Other Requesting Parties*, when requested to perform agreed-upon procedures on MD&A and report thereon in a letter for an underwriter. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

<sup>8</sup> The guidance in this section may be helpful when performing an engagement to provide attest services with respect to an MD&A presentation that is based on criteria other than the rules and regulations adopted by the SEC. Such other criteria would have to be suitable and available as discussed in paragraphs .23–.33 of section 101.

.04 The requirements for MD&A have changed periodically since the first requirement was adopted by the SEC in 1974. As of the date of issuance of this SSAE, the rules and regulations for MD&A adopted by the SEC are found in Item 303 of Regulation S-K, as interpreted by Financial Reporting Release (FRR) No. 36, *Management's Discussion and Analysis of Financial Condition and Results of Operations; Certain Investment Company Disclosures* (Chapter 5 of the "Codification of Financial Reporting Policies"); Item 303 of Regulation S-B for small business issuers; and Item 9 of Form 20-F for Foreign Private Issuers.<sup>9</sup> Item 303 of Regulation S-K, as interpreted by FRR No. 36, Item 303 of Regulation S-B for small business issuers, and Item 9 of Form 20-F for Foreign Private Issuers, provide the relevant rules and regulations adopted by the SEC that meet the definition of suitable criteria in paragraphs .23–.32 of section 101. The practitioner should consider whether the SEC has adopted additional rules and regulations with respect to MD&A subsequent to the issuance of this section.

## Conditions for Engagement Performance

### Examination

.05 The practitioner's objective in an engagement to examine MD&A is to express an opinion on the MD&A presentation taken as a whole by reporting whether—

- a. The presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC.<sup>10</sup>
- b. The historical financial amounts have been accurately derived, in all material respects, from the entity's financial statements.<sup>11</sup>
- c. The underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein.<sup>12</sup>

.06 A practitioner may accept an engagement to examine MD&A of a public or nonpublic entity, provided the practitioner audits, in accordance with GAAS,<sup>13</sup> the financial statements for at least the latest period to which the

---

<sup>9</sup> The SEC staff from time to time issues guidance related to the SEC's adopted requirements; for example, Staff Accounting Bulletins (SABs), Staff Legal Bulletins, and speeches. Although such guidance may provide additional information with respect to the adopted requirements for MD&A, the practitioner should not be expected to attest to assertions on compliance with such guidance. The practitioner may find it helpful to also familiarize himself or herself with material contained on the SEC's website [www.sec.gov](http://www.sec.gov) that provides further information with respect to the SEC's views concerning MD&A disclosures.

<sup>10</sup> The required elements as of the date of issuance of this SSAE include a discussion of the entity's financial condition, changes in financial condition, and results of operations, including a discussion of liquidity and capital resources.

<sup>11</sup> Whether historical financial amounts are accurately derived from the financial statements includes both amounts that are derived from the face of the financial statements (which includes the notes to the financial statements) and financial statement schedules and those that are derived from underlying records supporting elements, accounts, or items included in the financial statements.

<sup>12</sup> Whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein requires consideration of management's interpretation of the disclosure criteria for MD&A, management's determinations as to the relevancy of information to be included, and estimates and assumptions made by management that affect reported information.

<sup>13</sup> Restrictions on the scope of the audit of the financial statements will not necessarily preclude the practitioner from accepting an engagement to examine MD&A. Note that the SEC will generally not accept an auditor's report that is modified for a scope limitation. The practitioner should consider the nature and magnitude of the scope limitation and the form of the auditor's report in assessing whether an examination of MD&A could be performed.

MD&A presentation relates and the financial statements for the other periods covered by the MD&A presentation have been audited by the practitioner or a predecessor auditor. A base knowledge of the entity and its operations gained through an audit of the historical financial statements and knowledge about the industry and the environment is necessary to provide the practitioner with sufficient knowledge to properly evaluate the results of the procedures performed in connection with the examination.

**.07** If a predecessor auditor has audited the financial statements for a prior period covered by the MD&A presentation, the practitioner (the successor auditor) should also consider whether, under the particular circumstances, he or she can acquire sufficient knowledge of the business and of the entity's accounting and financial reporting practices for such period so that he or she would be able to—

- a. Identify types of potential material misstatements in MD&A and consider the likelihood of their occurrence.
- b. Perform the procedures that will provide the practitioner with a basis for expressing an opinion as to whether the MD&A presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC.
- c. Perform the procedures that will provide the practitioner with a basis for expressing an opinion on the MD&A presentation with respect to whether the historical financial amounts have been accurately derived, in all material respects, from the entity's financial statements for such period.
- d. Perform the procedures that will provide the practitioner with a basis for expressing an opinion as to whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein.

Refer to paragraphs .99–.101 for guidance regarding the review of the predecessor auditor's working papers.

### Review

**.08** The objective of a review of MD&A is to report whether any information came to the practitioner's attention to cause him or her to believe that—

- a. The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC.
- b. The historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements.
- c. The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein.

A review consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. A review ordinarily does not contemplate (a) tests of accounting records through inspection, observation, or confirmation, (b) obtaining corroborating evidential matter in response to inquiries, or (c) the application of certain other procedures ordinarily performed during an examination of MD&A. A review may bring to the practitioner's attention significant matters affecting the

MD&A, but it does not provide assurance that the practitioner will become aware of all significant matters that would be disclosed in an examination.

**.09** A practitioner may accept an engagement to review the MD&A presentation of a public entity for an annual period provided the practitioner has audited, in accordance with GAAS, the financial statements for at least the latest annual period to which the MD&A presentation relates and the financial statements for the other periods covered by the MD&A presentation have been audited by the practitioner or a predecessor auditor.<sup>14</sup> A base knowledge of the entity and its operations gained through an audit of the historical financial statements and knowledge about the industry and the environment is necessary to provide the practitioner with sufficient knowledge to properly evaluate the results of the procedures performed in connection with the review.

**.10** If a predecessor auditor has audited the financial statements for a prior period covered by the MD&A presentation, the practitioner should also consider whether, under the particular circumstances, he or she can acquire sufficient knowledge of the business and of the entity's accounting and financial reporting practices for such period so he or she would be able to—

- a. Identify types of potential material misstatements in the MD&A and consider the likelihood of their occurrence.
- b. Perform the procedures that will provide the practitioner with a basis for reporting whether any information has come to the practitioner's attention to cause him or her to believe any of the following.
  - (1) The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC.
  - (2) The historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements for such period.
  - (3) The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein.

**.11** A practitioner may accept an engagement to review the MD&A presentation of a public entity for an interim period provided that both of the following conditions are met.

- a. The practitioner performs either (1) a review of the historical financial statements for the related comparative interim periods and issues a review report thereon in accordance with AU-C section 930, *Interim Financial Information*, or (2) an audit of the interim financial statements.
- b. The MD&A presentation for the most recent fiscal year has been or will be examined or reviewed by either the practitioner or a predecessor auditor.

[Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

---

<sup>14</sup> As discussed in paragraph .85*k*, a review report is not intended to be filed with the SEC as a report under the 1933 Act or the 1934 Act and, accordingly, the review report should contain a statement of restrictions on the use of the report to specified parties if the entity is (a) a public entity or (b) a nonpublic entity that is making or has made an offering of securities and it appears that the securities may subsequently be registered or subject to a filing with the SEC or other regulatory agency.

**.12** If a predecessor auditor examined or reviewed the MD&A presentation of a public entity for the most recent fiscal year, the practitioner should not accept an engagement to review the MD&A presentation for an interim period unless he or she can acquire sufficient knowledge of the business and of the entity's accounting and financial reporting practices for the interim period to perform the procedures described in paragraph .10.

**.13** If a nonpublic entity chooses to prepare MD&A, the practitioner should not accept an engagement to perform a review of such MD&A for an annual period under this section unless both of the following conditions are met.

- a. The annual financial statements for the periods covered by the MD&A presentation have been or will be audited and the practitioner has audited or will audit the most recent year (refer to paragraph .07 if the financial statements for prior years were audited by a predecessor auditor).
- b. Management will provide a written assertion that the presentation has been prepared using the rules and regulations adopted by the SEC as the criteria. (See paragraph .02.)

**.14** A practitioner may accept an engagement to review the MD&A presentation of a nonpublic entity for an interim period provided that all of the following conditions are met.

- a. The practitioner performs one of the following:
  - (1) A review of the historical financial statements for the related interim periods under the Statements on Standards for Accounting and Review Services (SSARSs) and issues a review report thereon
  - (2) A review of the condensed interim financial information for the related interim periods under AU-C section 930 and issues a review report thereon, and such interim financial information is accompanied by complete annual financial statements for the most recent fiscal year that have been audited
  - (3) An audit of the interim financial statements
- b. The MD&A presentation for the most recent fiscal year has been or will be examined or reviewed.
- c. Management will provide a written assertion stating that the presentation has been prepared using the rules and regulations adopted by the SEC as the criteria. (See paragraph .02.)

[Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

## Engagement Acceptance Considerations

**.15** In determining whether to accept an engagement, the practitioner should consider whether management (and others engaged by management to assist them, such as legal counsel) has the appropriate knowledge of the rules and regulations adopted by the SEC to prepare MD&A.

## Responsibilities of Management

**.16** Management is responsible for the preparation of the entity's MD&A pursuant to the rules and regulations adopted by the SEC. The preparation of MD&A in conformity with the rules and regulations adopted by the SEC

requires management to interpret the criteria, accurately derive the historical amounts from the entity's books and records, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information.

.17 An entity should not name the practitioner in a client-prepared document as having examined or reviewed MD&A unless the MD&A presentation and related practitioner's report and the related financial statements and auditor's (or accountant's review) report are included in the document (or, in the case of a public entity, incorporated by reference to such information filed with a regulatory agency). If such a statement is made in a document that does not include (or incorporate by reference) such information, the practitioner should request that neither his or her name nor reference to the practitioner be made with respect to the MD&A information, or that such document be revised to include the required presentations and reports. If the client does not comply, the practitioner should advise the client that he or she does not consent to either the use of his or her name or the reference to the practitioner, and he or she should consider what other actions might be appropriate.<sup>15</sup>

## Obtaining an Understanding of the SEC Rules and Regulations and Management's Methodology for the Preparation of MD&A

.18 The practitioner should obtain an understanding of the rules and regulations adopted by the SEC for MD&A. (Refer to paragraph .04.)

.19 The practitioner should inquire of management regarding the method of preparing MD&A, including matters such as the sources of the information, how the information is gathered, how management evaluates the types of factors having a material effect on financial condition (including liquidity and capital resources), results of operations, and cash flows, and whether there have been any changes in the procedures from the prior year.

## Timing of Procedures

.20 Proper planning by the practitioner contributes to the effectiveness of the attest procedures in an examination or a review of MD&A. Performing some of the work in conjunction with the audit of the historical financial statements or the review of interim financial statements may permit the work to be carried out in a more efficient manner and to be completed at an earlier date. When performing an examination or a review of MD&A, the practitioner may consider the results of tests of controls, analytical procedures,<sup>16</sup> and substantive tests performed in a financial statement audit or analytical procedures and inquiries made in a review of financial statements or interim financial information.

---

<sup>15</sup> In considering what other actions, if any, may be appropriate in these circumstances, the practitioner may wish to consult his or her legal counsel.

<sup>16</sup> AU-C section 520, *Analytical Procedures*, defines analytical procedures as "evaluations of financial information through analysis of plausible relationships among both financial and nonfinancial data. Analytical procedures also encompass such investigation, as is necessary, of identified fluctuations or relationships that are inconsistent with other relevant information or that differ from expected values by a significant amount." In applying analytical procedures to MD&A, the practitioner develops expectations of matters that would be discussed in MD&A by identifying and using plausible relationships that are reasonably expected to exist based on the practitioner's understanding of the client and of the industry in which the client operates, and the knowledge of relationships among the various financial elements gained through the audit of financial statements or review of interim financial information. Refer to AU-C section 520 for further discussion of analytical procedures. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

## Materiality

.21 The practitioner should consider the concept of materiality in planning and performing the engagement. The objective of an examination or a review is to report on the MD&A presentation taken as a whole and not on the individual amounts and disclosures contained therein. In the context of an MD&A presentation, the concept of materiality encompasses both material omissions (for example, the omission of trends, events, and uncertainties that are currently known to management that are reasonably likely to have material effects on the entity's financial condition, results of operations, liquidity, or capital resources) and material misstatements in MD&A, both of which are referred to herein as a misstatement. Assessing the significance of a misstatement of some items in MD&A may be more dependent upon qualitative than quantitative considerations. Qualitative aspects of materiality relate to the relevance and reliability of the information presented (for example, qualitative aspects of materiality are considered in assessing whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures in the MD&A). Furthermore, quantitative information is often more meaningful when accompanied by qualitative disclosures. For example, quantitative information about market risk-sensitive instruments is more meaningful when accompanied by qualitative information about an entity's market risk exposures and how those exposures are managed. Materiality is also a concept that is judged in light of the expected range of reasonableness of the information; therefore, users should not expect prospective information (information about events that have not yet occurred) to be as precise as historical information.

.22 In expressing an opinion, or providing the limited assurance of a review engagement, on the presentation, the practitioner should consider the omission or misstatement of an individual assertion (see paragraph .34) to be material if the magnitude of the omission or misstatement—individually or when aggregated with other omissions or misstatements—is such that a reasonable person using the MD&A presentation would be influenced by the inclusion or correction of the individual assertion. The relative rather than absolute size of an omission or misstatement may determine whether it is material in a given situation.

## Inclusion of Pro Forma Financial Information

.23 Management may include pro forma financial information with respect to a business combination or other transactions in MD&A. The practitioner should consider the guidance in paragraph .10 of section 401, *Reporting on Pro Forma Financial Information*, when performing procedures with respect to such information, even if management indicates in MD&A that certain information has been derived from unaudited financial statements. For example, in an examination of MD&A, the practitioner's procedures would ordinarily include obtaining an understanding of the underlying transaction or event, discussing with management their assumptions, obtaining sufficient evidence in support of the adjustments, and other procedures for the purpose of expressing an opinion on the MD&A presentation taken as a whole and not for expressing an opinion on (or providing the limited assurance of a review of) the pro forma financial information included therein under section 401.

## Inclusion of External Information

.24 An entity may also include in its MD&A information external to the entity, such as the rating of its debt by certain rating agencies or comparisons

with statistics from a trade association. Such external information should also be subjected to the practitioner's examination or review procedures. For example, in an examination, the practitioner might compare information concerning the statistics of a trade organization to a published source; however, the practitioner would not be expected to test the underlying support for the trade association's calculation of such statistics.

## Inclusion of Forward-Looking Information

**.25** An entity may include certain forward-looking disclosures in the MD&A presentation, including cautionary language concerning the achievability of the matters disclosed. Although any forward-looking disclosures that are included in the MD&A presentation should be subjected to the practitioner's examination or review, such information is subjected to testing only for the purpose of expressing an opinion that the underlying information, determinations, estimates, and assumptions provide a reasonable basis for the disclosures contained therein or providing the limited assurance of a review on the MD&A presentation taken as a whole. The practitioner may consider the guidance in section 301, *Financial Forecasts and Projections*, when performing procedures with respect to forward-looking information. The practitioner may also consider whether meaningful cautionary language has been included with the forward-looking information.

**.26** Section 27A of the Securities Act of 1933 (the 1933 Act) and Section 21E of the Securities Exchange Act of 1934 (the 1934 Act) provide a safe harbor from liability in private litigation with respect to forward-looking statements that include or make reference to meaningful cautionary language. However, such sections also include exclusions from safe harbor protection in certain situations. Whether an entity's forward-looking statements and the practitioner's report thereon qualify for safe harbor protection is a legal matter.

## Inclusion of Voluntary Information

**.27** An entity may voluntarily include other information in the MD&A presentation that is not required by the rules and regulations adopted by the SEC for MD&A. When the entity includes in MD&A additional information required by other rules and regulations of the SEC (for example, Item 305 of Regulation S-K, *Quantitative and Qualitative Disclosures About Market Risk*), the practitioner should also consider such other rules and regulations in subjecting such information to his or her examination or review procedures.<sup>17</sup>

## Examination Engagement

**.28** To express an opinion about whether (a) the presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC, (b) the historical financial amounts have been accurately derived, in all material respects, from the entity's financial statements, and (c) the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein, the practitioner seeks to obtain reasonable assurance by accumulating sufficient evidence in support of the disclosures and assumptions, thereby restricting attestation risk to an appropriately low level.

---

<sup>17</sup> To the extent that the voluntary information includes forward-looking information, refer to paragraphs .25–.26.

## Attestation Risk

.29 In an engagement to examine MD&A, the practitioner plans and performs the examination to obtain reasonable assurance of detecting both intentional and unintentional misstatements that are material to the MD&A presentation taken as a whole. Absolute assurance is not attainable because of factors such as the need for judgment regarding the areas to be tested and the nature, timing, and extent of tests to be performed; the concept of selective testing of the data; and the inherent limitations of the controls applicable to the preparation of MD&A. The practitioner exercises professional judgment in assessing the significant determinations made by management as to the relevancy of information to be included, and the estimates and assumptions that affect reported information. As a result of these factors, in the great majority of cases, the practitioner has to rely on evidence that is persuasive rather than convincing. Also, procedures may be ineffective for detecting an intentional misstatement that is concealed through collusion among client personnel and third parties or among management or employees of the client. Therefore, the subsequent discovery that a material misstatement exists in the MD&A does not, in and of itself, evidence (a) failure to obtain reasonable assurance; (b) inadequate planning, performance, or judgment on the part of the practitioner; (c) the absence of due professional care; or (d) a failure to comply with this section.

.30 Factors to be considered by the practitioner in planning an examination of MD&A include (a) the anticipated level of attestation risk related to assertions embodied in the MD&A presentation, (b) preliminary judgments about materiality for attest purposes, (c) the items within the MD&A presentation that are likely to require revision or adjustment, and (d) conditions that may require extension or modification of attest procedures. For purposes of an engagement to examine MD&A, the components of attestation risk are defined as follows.

- a. *Inherent risk* is the susceptibility of an assertion within MD&A to a material misstatement, assuming that there are no related controls. (See paragraphs .34–.38.)
- b. *Control risk* is the risk that a material misstatement that could occur in an assertion within MD&A will not be prevented or detected on a timely basis by the entity's controls; some control risk will always exist because of the inherent limitations of any internal control.
- c. *Detection risk* is the risk that the practitioner will not detect a material misstatement that exists in an assertion within MD&A.

### Inherent Risk

.31 The level of inherent risk varies with the nature of the assertion. For example, the inherent risk concerning financial information included in the MD&A presentation may be low, whereas the inherent risk concerning the completeness of the disclosure of the entity's risks or liquidity may be high.

### Control Risk

.32 The practitioner should assess control risk as discussed in paragraphs .53–.57. Assessing control risk contributes to the practitioner's evaluation of the risk that material misstatement in the MD&A exists. In the process of assessing control risk (together with assessing inherent risk), the practitioner may obtain evidential matter about the risk that such misstatement may exist. The practitioner uses this evidential matter as part of the reasonable basis for his or her opinion on the MD&A presentation taken as a whole.

### **Detection Risk**

**.33** In determining an acceptable level of detection risk, the practitioner assesses inherent risk and control risk, and considers the extent to which he or she seeks to restrict attestation risk. As assessed inherent risk or control risk decreases, the acceptable level of detection risk increases. Accordingly, the practitioner may alter the nature, timing, and extent of tests performed based on the assessments of inherent risk and control risk.

### **Nature of Assertions**

**.34** Assertions are representations by management that are embodied in the MD&A presentation. They can be either explicit or implicit and can be classified according to the following broad categories:

- a. Occurrence
- b. Consistency with the financial statements
- c. Completeness
- d. Presentation and disclosure

**.35** Assertions about occurrence address whether reported transactions or events have occurred during a given period. Assertions about consistency with the financial statements address whether—

- a. Reported transactions, events, and explanations are consistent with the financial statements.
- b. Historical financial amounts have been accurately derived from the financial statements and related records.
- c. Nonfinancial data have been accurately derived from related records.

**.36** Assertions about completeness address whether descriptions of transactions and events necessary to obtain an understanding of the entity's financial condition (including liquidity and capital resources), changes in financial condition, results of operations, and material commitments for capital resources are included in MD&A; and whether known events, transactions, conditions, trends, demands, commitments, or uncertainties that will result in or are reasonably likely to result in material changes to these items are appropriately described in the MD&A presentation.

**.37** For example, if management asserts that the reason for an increase in revenues is a price increase in the current year, they are explicitly asserting that both an increase in revenues and a price increase have occurred in the current year, and implicitly asserting that any historical financial amounts included are consistent with the financial statements for such period. They are also implicitly asserting that the explanation for the increase in revenues is complete; that there are no other significant reasons for the increase in revenues.

**.38** Assertions about presentation and disclosure address whether information included in the MD&A presentation is properly classified, described, and disclosed. For example, management asserts that any forward-looking information included in MD&A is properly classified as being based on management's present assessment and includes an appropriate description of the expected results. To further disclose the nature of such information, management may also include a statement that actual results in the future may differ materially from management's present assessment. (See paragraphs .25–.26.)

**.39** The auditor of the underlying financial statements is responsible for designing and performing audit procedures to obtain sufficient appropriate audit evidence to be able to draw reasonable conclusions on which to base the auditor's opinion, as discussed in AU-C section 500, *Audit Evidence*. Although procedures designed to achieve the practitioner's objective of forming an opinion on the MD&A presentation taken as a whole may test certain assertions embodied in the underlying financial statements, the practitioner is not expected to test the underlying financial statement assertions in an examination of MD&A. For example, the practitioner is not expected to test the completeness of revenues or the existence of inventory when testing the assertions in MD&A concerning an increase in revenues or an increase in inventory levels; assurance related to completeness of revenues or for existence of inventory would be obtained as part of the audit. The practitioner is, however, responsible for testing the completeness of the explanation for the increase in revenues or the increase in inventory levels. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

## Performing an Examination Engagement

**.40** The practitioner should exercise (a) due professional care in planning, performing, and evaluating the results of his or her examination procedures and (b) the proper degree of professional skepticism to obtain reasonable assurance that material misstatements will be detected.

**.41** In an examination of MD&A, the practitioner should perform the following.

- a. Obtain an understanding of the rules and regulations adopted by the SEC for MD&A and management's method of preparing MD&A. (See paragraphs .18–.19.)
- b. Plan the engagement. (See paragraphs .42–.48.)
- c. Consider relevant portions of the entity's internal control applicable to the preparation of MD&A. (See paragraphs .49–.58.)
- d. Obtain sufficient evidence, including testing completeness. (See paragraphs .59–.64.)
- e. Consider the effect of events subsequent to the balance-sheet date. (See paragraphs .65–.66.)
- f. Obtain written representations from management concerning its responsibility for MD&A, completeness of minutes, events subsequent to the balance-sheet date, and other matters about which the practitioner believes written representations are appropriate. (See paragraphs .110–.112.)
- g. Form an opinion about whether the MD&A presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC, whether the historical financial amounts included therein have been accurately derived, in all material respects, from the entity's financial statements, and whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained in the MD&A. (See paragraph .67.)

## Planning the Engagement

### *General Considerations*

**.42** Planning an engagement to examine MD&A involves developing an overall strategy for the expected scope and performance of the engagement.

When developing an overall strategy for the engagement, the practitioner should consider factors such as the following:

- Matters affecting the industry in which the entity operates, such as financial reporting practices, economic conditions, laws and regulations, and technological changes
- Knowledge of the entity's internal control applicable to the preparation of MD&A obtained during the audit of the financial statements and the extent of recent changes, if any
- Matters relating to the entity's business, including its organization, operating characteristics, capital structure, and distribution methods
- The types of relevant information that management reports to external analysts (for example, press releases and presentations to lenders and rating agencies, if any, concerning past and future performance)
- How the entity analyzes actual performance compared to budgets and the types of information provided in documents submitted to the board of directors for purposes of the entity's day-to-day operations and long-range planning
- The extent of management's knowledge of and experience with the rules and regulations adopted by the SEC for MD&A
- If the entity is a nonpublic entity, the intended use of the MD&A presentation
- Preliminary judgments about (a) materiality, (b) inherent risk at the individual assertion level, and (c) factors (for example, matters identified during the audit or review of the historical financial statements) relating to significant deficiencies in internal control applicable to the preparation of MD&A (See paragraph .58.)
- The fraud risk factors or other conditions identified during the audit of the most recent annual financial statements and the practitioner's response to such risk factors
- The type and extent of evidential matter supporting management's assertions and disclosures in the MD&A presentation
- The nature of complex or subjective matters potentially material to the MD&A presentation that may require special skill or knowledge and whether such matters may require using the work of a specialist to obtain sufficient evidential matter (See paragraph .47.)
- The presence of an internal audit function (See paragraph .48.)

**.43** In planning an engagement when MD&A has not previously been examined, the practitioner should consider the degree to which the entity has information available for such prior periods and the continuity of the entity's personnel and their ability to respond to inquiries with respect to such periods. In addition, the practitioner should obtain an understanding of the entity's internal control in prior years applicable to the preparation of MD&A.

### **Consideration of Audit Results**

**.44** The practitioner should also consider the results of the audits of the financial statements for the periods covered by the MD&A presentation on the examination engagement, such as matters relating to the following:

- The availability and condition of the entity's records
- The nature and magnitude of audit adjustments
- Misstatements<sup>18</sup> that were not corrected in the financial statements that may affect MD&A disclosures (for example, misclassifications between financial statement line items)

[Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

.45 The practitioner should also consider the possible impact on the scope of the examination engagement of any modification or contemplated modification of the auditor's report, including matters addressed in explanatory language. For example, if the auditor has modified the auditor's report to include a going-concern uncertainty explanatory paragraph, the practitioner would consider such a matter in assessing attestation risk.

### **Multiple Components**

.46 In an engagement to examine MD&A, if the entity has operations in several components (for example, locations, branches, subsidiaries, or programs), the practitioner examining the group's MD&A should determine the components to which procedures should be applied. In making such a determination and in selecting the components to be tested, the practitioner examining the group's MD&A should consider factors such as the following:

- The relative importance of each component to the applicable disclosure in the group's MD&A
- The degree of centralization of records
- The effectiveness of controls, particularly those that affect group management's direct control over the exercise of authority delegated to others and its ability to supervise activities at various locations effectively
- The nature and extent of operations conducted at the various components
- The similarity of operations and internal control for different components

The practitioner examining the group's MD&A should consider whether the audit base of the components is consistent with the components that are disclosed in MD&A. Accordingly, it may be desirable for the practitioner examining the group's MD&A to coordinate the audit work with the components that will be disclosed. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

### **Using the Work of a Specialist**

.47 In some engagements to examine MD&A, the nature of complex or subjective matters potentially material to the MD&A presentation may require specialized skill or knowledge in a particular field other than accounting or auditing. For example, the entity may include information concerning plant production capacity, which would ordinarily be determined by an engineer. In

---

<sup>18</sup> Refer to paragraphs .05–.06 and .11–.13 of AU-C section 320, *Materiality in Planning and Performing an Audit*, and paragraph .10 of AU-C section 450, *Evaluation of Misstatements Identified During the Audit*. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

such cases, the practitioner may use the work of a specialist and should consider the relevant guidance in AU-C section 620, *Using the Work of an Auditor's Specialist*. An auditor's specialist may be either an auditor's internal specialist (for example, a partner of the auditor's firm) or an external specialist. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

### **Internal Audit Function**

.48 Another factor the practitioner should consider when planning the engagement is whether the entity has an internal audit function and the extent to which internal auditors are involved in directly testing the MD&A presentation, in monitoring the entity's internal control applicable to the preparation of MD&A, or in testing the underlying records supporting disclosures in the MD&A. A practitioner should consider the guidance in AU-C section 610, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, when addressing the competence and objectivity of internal auditors; the nature, timing, and extent of work to be performed; and other related matters. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

## **Consideration of Internal Control Applicable to the Preparation of MD&A**

.49 The practitioner should obtain an understanding of the entity's internal control applicable to the preparation of MD&A sufficient to plan the engagement and to assess control risk. Generally, controls that are relevant to an examination pertain to the entity's objective of preparing MD&A in conformity with the rules and regulations adopted by the SEC, and may include controls within the control environment, risk assessment, information and communication, control activities, and monitoring components.

.50 The controls relating to operations and compliance objectives may be relevant to an examination if they pertain to data the practitioner evaluates or uses in applying examination procedures. For example, controls over the gathering of information, which are different from financial statement controls, and controls relating to nonfinancial data that are included in the MD&A presentation, may be relevant to an examination engagement.

.51 In planning the examination, knowledge of such controls should be used to identify types of potential misstatement (including types of potential material omissions), to consider factors that affect the risk of material misstatement and to design appropriate tests.

.52 A practitioner generally obtains an understanding of the design of the entity's internal control applicable to the preparation of MD&A by making inquiries of appropriate management, supervisory, and staff personnel; by inspection of the entity's documents; and by observation of the entity's relevant activities, including controls over matters discussed, nonfinancial data included, and management evaluation of the reasonableness of information included. The nature and extent of procedures a practitioner performs vary from entity to entity and are influenced by factors such as the entity's complexity, the length of time that the entity has prepared MD&A pursuant to the rules and regulations adopted by the SEC, the practitioner's knowledge of the entity's controls obtained in audits and previous professional engagements, and judgments about materiality.

**.53** After obtaining an understanding of the entity's internal control applicable to the preparation of MD&A, the practitioner assesses control risk for the assertions embodied in the MD&A presentation. (Refer to paragraphs .34–.39.) The practitioner may assess control risk at the maximum level (the greatest probability that a material misstatement that could occur in an assertion will not be prevented or detected on a timely basis by an entity's controls) because the practitioner believes controls are unlikely to pertain to an assertion, are unlikely to be effective, or because evaluating their effectiveness would be inefficient. Alternatively, the practitioner may obtain evidential matter about the effectiveness of both the design and operation of a control that supports a lower assessed level of control risk. Such evidential matter may be obtained from tests of controls planned and performed concurrently with obtaining the understanding of the internal control or from procedures performed to obtain the understanding that were not specifically planned as tests of controls.

**.54** After obtaining the understanding and assessing control risk, the practitioner may desire to seek a further reduction in the assessed level of control risk for certain assertions. In such cases, the practitioner considers whether evidential matter sufficient to support a further reduction is likely to be available and whether performing additional tests of controls to obtain such evidential matter would be efficient.

**.55** When seeking to assess control risk below the maximum for controls over financial and nonfinancial data, the practitioner should perform tests of controls to obtain evidence to support the assessed level of control risk. For example, the practitioner may perform tests of controls directed toward the effectiveness of the design or operation of internal control over the accumulation of the number of units sold for a manufacturing company, average interest rates earned and paid for a financial institution, or average net sales per square foot for a retail entity.

**.56** The practitioner uses the knowledge provided by the understanding of internal control applicable to the preparation of MD&A and the assessed level of control risk in determining the nature, timing, and extent of substantive tests for the MD&A assertions.

**.57** The practitioner should document the understanding of the internal control components obtained to plan the examination and the assessment of control risk. The form and extent of this documentation is influenced by the size and complexity of the entity, as well as the nature of the entity's controls applicable to the preparation of MD&A.

**.58** During the course of an engagement to examine MD&A, the practitioner may become aware of control deficiencies in the design or operation of controls applicable to the preparation of MD&A that could adversely affect the entity's ability to prepare MD&A in accordance with the rules and regulations adopted by the SEC. The practitioner should consider the implications of such control deficiencies on his or her ability to rely on management's explanations and on comparisons to summary accounting records. A practitioner's responsibility to communicate these control deficiencies in an examination of MD&A is similar to the auditor's responsibility described in AU-C section 265, *Communicating Internal Control Related Matters Identified in an Audit*, and AU-C section 260, *The Auditor's Communication With Those Charged With Governance*. [Revised, March 2006, to reflect conforming changes necessary due to the issuance of SAS No. 112. Revised, January 2010, to reflect conforming changes necessary due to the issuance of SAS No. 115. Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

## Obtaining Sufficient Evidence

**.59** The practitioner should apply procedures to obtain reasonable assurance of detecting material misstatements. In an audit of historical financial statements, the practitioner will have applied audit procedures to some of the information included in the MD&A. However, because the objective of those audit procedures is to have a reasonable basis for expressing an opinion on the financial statements taken as a whole rather than on the MD&A, certain additional examination procedures should be performed as discussed in paragraphs .60–.64. Determining these procedures and evaluating the sufficiency of the evidence obtained are matters of professional judgment.

**.60** The practitioner ordinarily should apply the following procedures.

- a. Read the MD&A and compare the content for consistency with the audited financial statements; compare financial amounts to the audited financial statements or related accounting records and analyses; recompute the increases, decreases, and percentages disclosed.
- b. Compare nonfinancial amounts to the audited financial statements, if applicable, or to other records. (Refer to paragraphs .62–.64.)
- c. Consider whether the explanations in MD&A are consistent with the information obtained during the audit; investigate further those explanations that cannot be substantiated by information in the audit working papers through inquiry (including inquiry of officers and other executives having responsibility for operational areas) and inspection of client records.
- d. Examine internally generated documents (for example, variance analyses, sales analyses, wage cost analyses, sales or service pricing sheets, and business plans or programs) and externally generated documents (for example, correspondence, contracts, or loan agreements) in support of the existence, occurrence, or expected occurrence of events, transactions, conditions, trends, demands, commitments, and uncertainties disclosed in the MD&A.
- e. Obtain available prospective financial information (for example, budgets; sales forecasts; forecasts of labor, overhead, and materials costs; capital expenditure requests; and financial forecasts and projections) and compare such information to forward-looking MD&A disclosures. Inquire of management as to the procedures used to prepare the prospective financial information. Evaluate whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the MD&A disclosures of events, transactions, conditions, trends, demands, commitments, or uncertainties.<sup>19</sup>
- f. Consider obtaining available prospective financial information relating to prior periods and comparing actual results with forecasted and projected amounts.
- g. Make inquiries of officers and other executives having responsibility for operational areas (such as sales, marketing, and production) and financial and accounting matters, as to their plans and

---

<sup>19</sup> Refer to paragraph .26 for a discussion concerning the safe harbor rules for forward-looking statements.

expectations for the future that could affect the entity's liquidity and capital resources.

- h.* Consider obtaining external information concerning industry trends, inflation, and changing prices and comparing the related MD&A disclosures to such information.
- i.* Compare the information in MD&A with the rules and regulations adopted by the SEC and consider whether the presentation includes the required elements of such rules and regulations.
- j.* Read the minutes of meetings to date of the board of directors and other significant committees to identify matters that may affect MD&A; consider whether such matters are appropriately addressed in MD&A.
- k.* Inquire of officers as to the entity's prior experience with the SEC and the extent of comments received upon review of documents by the SEC; read correspondence between the entity and the SEC with respect to such review, if any.
- l.* Obtain public communications (for example, press releases and quarterly reports) and the related supporting documentation dealing with historical and future results; consider whether MD&A is consistent with such communications.
- m.* Consider obtaining other types of publicly available information (for example, analyst reports and news articles); compare the MD&A presentation with such information.

## Testing Completeness

**.61** The practitioner should design procedures to test the presentation for completeness, including tests of the completeness of explanations that relate to historical disclosures as discussed in paragraphs .36–.37. The practitioner should also consider whether the MD&A discloses matters that could significantly impact future financial condition and results of operations of the entity by considering information that he or she obtained through the following:

- a.* Audit of the financial statements
- b.* Inquiries of the entity's officers and other executives directed to current events, conditions, economic changes, commitments and uncertainties, within both the entity and its industry
- c.* Other information obtained through procedures such as those listed in paragraphs .60 and .65–.66

As discussed in paragraph .31, the inherent risk concerning the completeness of disclosures may be high; if it is, the practitioner may extend the procedures (for example, by making additional inquiries of management or by examining additional internally generated documents).

## Nonfinancial Data

**.62** Management may include nonfinancial data (such as units produced; the number of units sold, locations, or customers; plant utilization; or square footage) in the MD&A. The practitioner should consider whether the definitions used by management for such nonfinancial data are reasonable for the particular disclosure in the MD&A and whether there are suitable criteria (for example, industry standards with respect to square footage for retail operations), as discussed in paragraphs .23–.32 of section 101.

**.63** In some situations, the nonfinancial data or the controls over the nonfinancial data may have been tested by the practitioner in conjunction with

the financial statement audit; however, the practitioner's consideration of the nature of the procedures to apply to nonfinancial data in an examination of MD&A is based on the concept of materiality with respect to the MD&A presentation. The practitioner should consider whether industry standards exist for the nonfinancial data or whether there are different methods of measurement that may be used, and, if such methods could result in significantly different results, whether the method of measurement selected by management is reasonable and consistent between periods covered by the MD&A presentation. For example, the number of customers reported by management could vary depending on whether management defines a customer as a subsidiary or "ship to" location of a company rather than the company itself.

**.64** In testing nonfinancial data included in the MD&A, the practitioner may seek to assess control risk below the maximum for controls over such nonfinancial data, as discussed in paragraph .55. The practitioner weighs the increase in effort of the examination associated with the additional tests of controls that is necessary to obtain evidential matter against the resulting decrease in examination effort associated with the reduced substantive tests. For those nonfinancial assertions for which the practitioner performs additional tests of controls, the practitioner determines the assessed level of control risk that the results of those tests will support. This assessed level of control risk is used in determining the appropriate detection risk to accept for those nonfinancial assertions and, accordingly, in determining the nature, timing, and extent of substantive tests for such assertions.

## Consideration of the Effect of Events Subsequent to the Balance-Sheet Date

**.65** As there is an expectation by the SEC that MD&A considers events through a date at or near the filing date,<sup>20</sup> the practitioner should consider information about events<sup>21</sup> that comes to his or her attention after the end of the period addressed by MD&A and prior to the issuance of his or her report that may have a material effect on the entity's financial condition (including liquidity and capital resources), changes in financial condition, results of operations, and material commitments for capital resources. Events or matters that should be disclosed in MD&A include those that—<sup>22</sup>

- Are reasonably expected to have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations.
- Are reasonably likely to result in the entity's liquidity increasing or decreasing in any material way.
- Will have a material effect on the entity's capital resources.
- Would cause reported financial information not to be necessarily indicative of future operating results or of future financial condition.

---

<sup>20</sup> A registration statement under the 1933 Act speaks as of its effective date.

<sup>21</sup> Such events are only referred to as *subsequent events* in relation to an MD&A presentation if they occur after the MD&A presentation has been issued. The annual MD&A presentation ordinarily would not be updated for subsequent events if an MD&A presentation for a subsequent interim period has been issued or the event has been reported through a filing on Form 8-K.

<sup>22</sup> The practitioner should refer to the rules and regulations adopted by the SEC for other examples of events that should be disclosed.

The practitioner should consider whether events identified during the examination of the MD&A presentation or the audit of the related financial statements require adjustment to or disclosure in the MD&A presentation. When MD&A will be included or incorporated by reference in a 1933 Act document that is filed with the SEC, the practitioner's procedures should extend up to the filing date or as close to it as is reasonable and practicable in the circumstances.<sup>23</sup> If a public entity's MD&A presentation is to be included only in a filing under the 1934 Act (for example, Forms 10-K or 10-KSB), the practitioner's responsibility to consider subsequent events does not extend beyond the date of the report on MD&A. Paragraphs .94–.98 provide guidance when the practitioner is engaged subsequent to the filing of the MD&A presentation.

**.66** In an examination of MD&A, the practitioner's fieldwork ordinarily extends beyond the date of the auditor's report on the related financial statements.<sup>24</sup> Accordingly, the practitioner generally should—

- a. Read available minutes of meetings of stockholders, the board of directors, and other appropriate committees; as to meetings for which minutes are not available, inquire about matters dealt with at such meetings.
- b. Read the latest available interim financial statements for periods subsequent to the date of the auditor's report, compare them with the financial statements for the periods covered by the MD&A, and inquire of and discuss with officers and other executives having responsibility for operational, financial, and accounting matters (limited where appropriate to major locations) matters such as the following:
  - Whether interim financial statements have been prepared on the same basis as the audited financial statements
  - Whether there were any significant changes in the entity's operations, liquidity, or capital resources in the subsequent period
  - The current status of items in the financial statements for which the MD&A has been prepared that were accounted for on the basis of tentative, preliminary, or inconclusive data
  - Whether any unusual adjustments were made during the period from the balance-sheet date to the date of inquiry
- c. Make inquiries of members of senior management as to the current status of matters concerning litigation, claims, and assessments identified during the audit of the financial statements and

---

<sup>23</sup> Additionally, if the practitioner's report on MD&A is included or incorporated by reference in a 1933 Act document, the practitioner should extend his or her procedures with respect to subsequent events from the date of his or her report on MD&A up to the effective date or as close thereto as is reasonable and practicable in the circumstances.

<sup>24</sup> Undertaking an engagement to examine MD&A does not extend the auditor's responsibility to update the subsequent events review procedures for the financial statements beyond the date of the auditor's report. However, see AU-C section 560, *Events and Subsequently Discovered Facts*. Also, see AU-C section 925, *Filings With the U.S. Securities and Exchange Commission Under the Securities Act of 1933*, as to an auditor's responsibility when his or her report is included in a registration statement filed under the 1933 Act. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

of any new matters or unfavorable developments. Consider obtaining updated legal letters from legal counsel.<sup>25</sup>

- d. Consider whether there have been any changes in economic conditions or in the industry that could have a significant effect on the entity.
- e. Obtain written representations from appropriate officials as to whether any events occurred subsequent to the latest balance-sheet date that would require disclosure in the MD&A. (See paragraphs .110–.112.)
- f. Make such additional inquiries or perform such other procedures as considered necessary and appropriate to address questions that arise in carrying out the foregoing procedures, inquiries, and discussions.

## Forming an Opinion

**.67** The practitioner should consider the concept of materiality discussed in paragraphs .21–.22, and the impact of any modification of the auditor's report on the historical financial statements in forming an opinion on the examination of MD&A, including the practitioner's ability to evaluate the results of inquiries and other procedures.

## Reporting

**.68** In order for the practitioner to issue a report on an examination of MD&A, the financial statements for the periods covered by the MD&A presentation and the related auditor's report(s) should accompany the MD&A presentation (or, with respect to a public entity, be incorporated in the document containing the MD&A by reference to information filed with a regulatory agency). In addition, if the entity is a nonpublic entity, one of the following conditions should be met.

- a. A statement should be included in the body of the MD&A presentation that it has been prepared using the rules and regulations adopted by the SEC.
- b. A separate written assertion should accompany the MD&A presentation or such assertion should be included in a representation letter obtained from the entity.

**.69** The practitioner's report on an examination of MD&A should include the following:

- a. A title that includes the word *independent*
- b. An identification of the MD&A presentation, including the period covered
- c. A statement that management is responsible for the preparation of the MD&A pursuant to the rules and regulations adopted by the SEC, and a statement that the practitioner's responsibility is to express an opinion on the presentation based on his or her examination

---

<sup>25</sup> See paragraphs .16–.24 of AU-C section 501, *Audit Evidence—Specific Considerations for Selected Items*, for guidance concerning obtaining legal letters. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

- d. A reference to the auditor's report on the related financial statements, and if the report was other than a standard report, the substantive reasons therefor
- e. A statement that the examination was conducted in accordance with attestation standards established by the AICPA and a description of the scope of an examination of MD&A
- f. A statement that the practitioner believes the examination provides a reasonable basis for his or her opinion
- g. A paragraph stating that—
  - (1) The preparation of MD&A requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information
  - (2) Actual results in the future may differ materially from management's present assessment of information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties
- h. If the entity is a nonpublic entity, a statement that, although the entity is not subject to the rules and regulations of the SEC, the MD&A presentation is intended to be a presentation in accordance with the rules and regulations adopted by the SEC
- i. The practitioner's opinion on whether—
  - (1) The presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC
  - (2) The historical financial amounts have been accurately derived, in all material respects, from the entity's financial statements
  - (3) The underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein
- j. The manual or printed signature of the practitioner's firm
- k. The date of the examination report

Appendix A [paragraph .114], "Examination Reports," includes a standard examination report. (See Example 1.)

### **Dating**

**.70** The practitioner's report on the examination of MD&A should be dated as of the completion of the practitioner's examination procedures. That date should not precede the date of the auditor's report on the latest historical financial statements covered by the MD&A.

### **Report Modifications**

**.71** The practitioner should modify the standard report described in paragraph .69, if any of the following conditions exist.

- The presentation excludes a material required element under the rules and regulations adopted by the SEC. (See paragraph .72.)

- The historical financial amounts have not been accurately derived, in all material respects, from the entity's financial statements. (See paragraph .72.)
- The underlying information, determinations, estimates, and assumptions used by management do not provide the entity with a reasonable basis for the disclosure in the MD&A. (See paragraph .72.)
- There is a restriction on the scope of the engagement. (See paragraph .73.)
- The practitioner decides to refer to the report of another practitioner as the basis in part for his or her report. (See paragraph .74.)
- The practitioner is engaged to examine the MD&A presentation after it has been filed with the SEC or other regulatory agency. (See paragraphs .94–.98.)

**.72** The practitioner should express a qualified or an adverse opinion if (a) the MD&A presentation excludes a material required element, (b) historical financial amounts have not been accurately derived in all material respects, or (c) the underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures; for example, if there is a lack of consistency between management's method of measuring nonfinancial data between periods covered by the MD&A presentation. The basis for such opinion should be stated in the practitioner's report. Appendix A [paragraph .114] includes several examples of such modifications. (See Example 2.) Also refer to paragraph .107 for required communications with the audit committee.

**.73** If the practitioner is unable to perform the procedures he or she considers necessary in the circumstances, the practitioner should modify the report or withdraw from the engagement. If the practitioner modifies the report, he or she should describe the limitation on the scope of the examination in an explanatory paragraph and qualify his or her opinion, or disclaim an opinion. However, limitations on the ability of the practitioner to perform necessary procedures could also arise because of the lack of adequate support for a significant representation in the MD&A. That circumstance may result in a conclusion that the unsupported representation constitutes a material misstatement of fact and, accordingly, the practitioner may qualify his or her opinion or express an adverse opinion, as described in paragraph .72.

### ***Reference to Report of Another Practitioner***

**.74** If another practitioner examined the MD&A presentation of a component (refer to paragraph .46), the practitioner examining the group's MD&A may decide to make reference to such report of the component practitioner as a basis for his or her opinion on the group's consolidated MD&A presentation. The practitioner examining the group's MD&A should disclose this fact in the introductory paragraph of the report and should refer to the report of the component practitioner in expressing an opinion on the group's consolidated MD&A presentation. These references indicate (1) that the practitioner examining the group's MD&A is not taking responsibility for the work of the component practitioner, and (2) the source of the examination evidence with respect to those components for which reference to the examination of component practitioners is made. Appendix A [paragraph .114] provides an example of a report for such a situation. (See example 3.) Refer to paragraph .105 for guidance when the

other practitioner does not issue a report. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

### ***Emphasis of a Matter***

.75 In a number of circumstances, the practitioner may wish to emphasize a matter regarding the MD&A presentation. For example, he or she may wish to emphasize that the entity has included information beyond the required elements of the rules and regulations adopted by the SEC. Such explanatory comments should be presented in a separate paragraph of the practitioner's report.

## **Review Engagement**

.76 The objective of a review engagement, including a review of MD&A for an interim period, is to accumulate sufficient evidence to provide the practitioner with a basis for reporting whether any information came to the practitioner's attention to cause him or her to believe that (a) the MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC, (b) the historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements, or (c) the underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein. MD&A for an interim period may be a free-standing presentation or it may be combined with the MD&A presentation for the most recent fiscal year. Procedures for conducting a review of MD&A generally are limited to inquiries and analytical procedures, rather than also including search and verification procedures, concerning factors that have a material effect on financial condition, including liquidity and capital resources, results of operations, and cash flows. In a review engagement, the practitioner should—

- a. Obtain an understanding of the rules and regulations adopted by the SEC for MD&A and management's method of preparing MD&A. (See paragraphs .18–.19.)
- b. Plan the engagement. (See paragraph .77.)
- c. Consider relevant portions of the entity's internal control applicable to the preparation of the MD&A. (See paragraph .78.)
- d. Apply analytical procedures and make inquiries of management and others. (See paragraphs .79–.80.)
- e. Consider the effect of events subsequent to the balance-sheet date. The practitioner's consideration of such events in a review of MD&A is similar to the practitioner's consideration in an examination. (See paragraphs .65–.66.)
- f. Obtain written representations from management concerning its responsibility for MD&A, completeness of minutes, events subsequent to the balance-sheet date, and other matters about which the practitioner believes written representations are appropriate. (See paragraph .110.)
- g. Form a conclusion as to whether any information came to the practitioner's attention that causes him or her to believe any of the following.
  - (1) The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC.

- (2) The historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements.
- (3) The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein.

## Planning the Engagement

.77 Planning an engagement to review MD&A involves developing an overall strategy for the analytical procedures and inquiries to be performed. When developing an overall strategy for the review engagement, the practitioner should consider factors such as the following:

- Matters affecting the industry in which the entity operates, such as financial reporting practices, economic conditions, laws and regulations, and technological changes
- Matters relating to the entity's business, including its organization, operating characteristics, capital structure, and distribution methods
- The types of relevant information that management reports to external analysts (for example, press releases or presentations to lenders and rating agencies concerning past and future performance)
- The extent of management's knowledge of and experience with the rules and regulations adopted by the SEC for MD&A
- If the entity is a nonpublic entity, the intended use of the MD&A presentation
- Matters identified during the audit or review of the historical financial statements relating to MD&A reporting, including knowledge of the entity's internal control applicable to the preparation of MD&A and the extent of recent changes, if any
- Matters identified during prior engagements to examine or review MD&A
- Preliminary judgments about materiality
- The nature of complex or subjective matters potentially material to the MD&A that may require special skill or knowledge
- The presence of an internal audit function and the extent to which internal auditors are involved in directly testing the MD&A presentation or underlying records

## Consideration of Internal Control Applicable to the Preparation of MD&A

.78 To perform a review of MD&A, the practitioner needs to have sufficient knowledge of the entity's internal control applicable to the preparation of MD&A to—

- Identify types of potential misstatements in MD&A, including types of material omissions, and consider the likelihood of their occurrence.

- Select the inquiries and analytical procedures that will provide a basis for reporting whether any information causes the practitioner to believe the following.
  - The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC, or the historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements.
  - The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein.

## Application of Analytical Procedures and Inquiries

.79 The practitioner ordinarily would not obtain corroborating evidential matter of management's responses to the practitioner's inquiries in performing a review of MD&A. The practitioner should, however, consider the consistency of management's responses in light of the results of other inquiries and the application of analytical procedures. The practitioner ordinarily should apply the following analytical procedures and inquiries.

- a. Read the MD&A presentation and compare the content for consistency with the audited financial statements (or reviewed interim financial information if MD&A includes interim information); compare financial amounts to the audited or reviewed financial statements or related accounting records and analyses; recompute the increases, decreases, and percentages disclosed.
- b. Compare nonfinancial amounts to the audited (or reviewed) financial statements, if applicable, or to other records. (Refer to paragraph .80.)
- c. Consider whether the explanations in MD&A are consistent with the information obtained during the audit or the review of interim financial information; make further inquiries of officers and other executives having responsibility for operational areas as necessary.
- d. Obtain available prospective financial information (for example, budgets; sales forecasts; forecasts of labor, overhead, and materials costs; capital expenditure requests; and financial forecasts and projections) and compare such information to forward-looking MD&A disclosures. Inquire of management as to the procedures used to prepare the prospective financial information. Consider whether information came to the practitioner's attention that causes him or her to believe that the underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures of trends, demands, commitments, events, or uncertainties.<sup>26</sup>
- e. Make inquiries of officers and other executives having responsibility for operational areas (such as sales, marketing, and production) and financial and accounting matters, as to any plans and

---

<sup>26</sup> Refer to paragraph .26 for a discussion concerning the safe harbor rules for forward-looking statements.

expectations for the future that could affect the entity's liquidity and capital resources.

- f.* Compare the information in MD&A with the rules and regulations adopted by the SEC and consider whether the presentation includes the required elements of such rules and regulations.
- g.* Read the minutes of meetings to date of the board of directors and other significant committees to identify actions that may affect MD&A; consider whether such matters are appropriately addressed in the MD&A presentation.
- h.* Inquire of officers as to the entity's prior experience with the SEC and the extent of comments received upon review of documents by the SEC; read correspondence between the entity and the SEC with respect to such review, if any.
- i.* Inquire of management regarding the nature of public communications (for example, press releases and quarterly reports) dealing with historical and future results and consider whether the MD&A presentation is consistent with such communications.

**.80** If nonfinancial data are included in the MD&A presentation, the practitioner should inquire as to the nature of the records from which such information was derived and observe the existence of such records, but need not perform other tests of such records beyond analytical procedures and inquiries of individuals responsible for maintaining them. The practitioner should consider whether such nonfinancial data are relevant to users of the MD&A presentation and whether such data are clearly defined in the MD&A presentation. The practitioner should make inquiries regarding whether the definition of the nonfinancial data was consistently applied during the periods reported.

**.81** However, if the practitioner becomes aware that the presentation may be incomplete or contain inaccuracies, or is otherwise unsatisfactory, the practitioner should perform the additional procedures he or she deems necessary to achieve the limited assurance contemplated by a review engagement.

## Reporting

**.82** In order for the practitioner to issue a report on a review of MD&A for an annual period, the financial statements for the periods covered by the MD&A presentation and the related auditor's report(s) should accompany the MD&A presentation (or with respect to a public entity be incorporated in the document containing the MD&A by reference to information filed with a regulatory agency).

**.83** If the MD&A presentation relates to an interim period and the entity is a public entity, the financial statements for the interim periods covered by the MD&A presentation and the related accountant's review report(s) should accompany the MD&A presentation, or be incorporated in the document containing the MD&A by reference to information filed with a regulatory agency. The comparative financial statements for the most recent annual period and the related MD&A should accompany the MD&A presentation for the interim period, or be incorporated by reference to information filed with a regulatory agency. Generally, the requirement for inclusion of the annual financial statements and related MD&A is satisfied by a public entity that has met its reporting responsibility for filing its annual financial statements and MD&A in its annual report on Form 10-K.

.84 If the MD&A presentation relates to an interim period and the entity is a nonpublic entity, the following documents should accompany the interim MD&A presentation in order for the practitioner to issue a review report:

- a. The MD&A presentation for the most recent fiscal year and related accountant's examination or review report(s)
- b. The financial statements for the periods covered by the respective MD&A presentations (most recent fiscal year and interim periods) and the related auditor's report(s) and accountant's review report(s)

In addition, one of the following conditions should be met.

- A statement should be included in the body of the MD&A presentation that it has been prepared using the rules and regulations adopted by the SEC.
- A separate written assertion should accompany the MD&A presentation or such assertion should be included in a representation letter obtained from the entity.

.85 The practitioner's report on a review of MD&A should include the following:

- a. A title that includes the word *independent*
- b. An identification of the MD&A presentation, including the period covered
- c. A statement that management is responsible for the preparation of the MD&A pursuant to the rules and regulations adopted by the SEC
- d. A reference to the auditor's report on the related financial statements, and, if the report was other than a standard report, the substantive reasons therefor
- e. A statement that the review was conducted in accordance with attestation standards established by the AICPA
- f. A description of the procedures for a review of MD&A
- g. A statement that a review of MD&A is substantially less in scope than an examination, the objective of which is an expression of opinion regarding the MD&A presentation, and accordingly, no such opinion is expressed
- h. A paragraph stating that—
  - (1) The preparation of MD&A requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information
  - (2) Actual results in the future may differ materially from management's present assessment of information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties
- i. If the entity is a nonpublic entity, a statement that although the entity is not subject to the rules and regulations of the SEC, the MD&A presentation is intended to be a presentation in accordance with the rules and regulations adopted by the SEC

- j.* A statement about whether any information came to the practitioner's attention that caused him or her to believe that—
- (1) The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC
  - (2) The historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements
  - (3) The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein
- k.* If the entity is a public entity as defined in paragraph .02, or a nonpublic entity that is making or has made an offering of securities and it appears that the securities may subsequently be registered or subject to a filing with the SEC or other regulatory agency (for example, certain offerings of securities under Rule 144A of the 1933 Act that purport to conform to Regulation S-K), a statement of restrictions on the use of the report to specified parties, because it is not intended to be filed with the SEC as a report under the 1933 Act or the 1934 Act.
- l.* The manual or printed signature of the practitioner's firm
- m.* The date of the review report

Appendix B [paragraph .115], "Review Reports," provides examples of a standard review report for an annual and interim period.

### **Dating**

**.86** The practitioner's report on the review of MD&A should be dated as of the completion of the practitioner's review procedures. That date should not precede the date of the accountant's report on the latest historical financial statements covered by the MD&A.

### **Report Modifications**

**.87** The practitioner should modify the standard review report described in paragraph .86 if any of the following conditions exist.

- The presentation excludes a material required element of the rules and regulations adopted by the SEC. (See paragraph .89.)
- The historical financial amounts have not been accurately derived, in all material respects, from the entity's financial statements. (See paragraph .89.)
- The underlying information, determinations, estimates, and assumptions used by management do not provide the entity with a reasonable basis for the disclosures in the MD&A. (See paragraph .89.)
- The practitioner decides to refer to the report of another practitioner as the basis, in part, for his or her report. (See paragraph .90.)
- The practitioner is engaged to review the MD&A presentation after it has been filed with the SEC or other regulatory agency. (See paragraphs .94–.98.)

**.88** When the practitioner is unable to perform the inquiry and analytical procedures he or she considers necessary to achieve the limited assurance

provided by a review, or the client does not provide the practitioner with a representation letter, the review will be incomplete. A review that is incomplete is not an adequate basis for issuing a review report. If the practitioner is unable to complete a review because of a scope limitation, the practitioner should consider the implications of that limitation with respect to possible misstatements of the MD&A presentation. In those circumstances, the practitioner should also refer to paragraphs .107–.109 for guidance concerning communications with the audit committee.

**.89** If the practitioner becomes aware that the MD&A is materially misstated, the practitioner should modify the review report to describe the nature of the misstatement. Appendix B [paragraph .115] contains an example of such a modification of the accountant's report. (See Example 3.)

**.90** If another practitioner reviewed or examined the MD&A for a material component, the practitioner may decide to make reference to such report of the other practitioner in reporting on the consolidated MD&A presentation. Such reference indicates a division of responsibility for performance of the review.

### ***Emphasis of a Matter***

**.91** In some circumstances, the practitioner may wish to emphasize a matter regarding the MD&A presentation. For example, he or she may wish to emphasize that the entity has included information beyond the required elements of the rules and regulations adopted by the SEC. Such explanatory comments should be presented in a separate paragraph of the practitioner's report.

## **Combined Examination and Review Report on MD&A**

**.92** A practitioner may be engaged both to examine an MD&A presentation as of the most recent fiscal year-end and to review a separate MD&A presentation for a subsequent interim period. If the examination and review are completed at the same time, a combined report may be issued. Appendix C [paragraph .116], "Combined Reports," contains an example of a combined report on an examination of an annual MD&A presentation and the review of a separate MD&A presentation for an interim period. (See Example 1.)

**.93** If an entity prepares a combined MD&A presentation for annual and interim periods in which there is a discussion of liquidity and capital resources only as of the most recent interim period but not as of the most recent annual period, the practitioner is limited to performing the highest level of service that is provided with respect to the historical financial statements for any of the periods covered by the MD&A presentation. For example, if the annual financial statements have been audited and the interim financial statements have been reviewed, the practitioner may be engaged to perform a review of the combined MD&A presentation. Appendix C [paragraph .116] contains an example of a review report on a combined MD&A presentation for annual and interim periods. (See Example 2.)

## **When Practitioner Is Engaged Subsequent to the Filing of MD&A**

**.94** Management's responsibility for updating an MD&A presentation for events occurring subsequent to the issuance of MD&A depends on whether the entity is a public or nonpublic entity. A public entity is required to report significant subsequent events in a Form 8-K or Form 10-Q, or in a registration

statement; therefore, a public company would ordinarily not modify its MD&A presentation once it is filed with the SEC (or other regulatory agency).

**.95** Therefore, if the practitioner is engaged to examine (or review) an MD&A presentation of a public entity that has already been filed with the SEC (or other regulatory agency), the practitioner should consider whether material subsequent events are appropriately disclosed in a Form 8-K or 10-Q, or a registration statement that includes or incorporates by reference such MD&A presentation. Refer to paragraphs .65–.66 for guidance concerning consideration of events up to the filing date when the practitioner's report on MD&A will be included (or incorporated by reference) in a 1933 Act document filed with the SEC that will require a consent.

**.96** If subsequent events of a public entity are appropriately disclosed in a Form 8-K or 10-Q, or in a registration statement, or if there have been no material subsequent events, the practitioner should add the following paragraph to his or her examination or review report following the opinion or concluding paragraph, respectively.

The accompanying Management's Discussion and Analysis does not consider events that have occurred subsequent to Month XX, 20X6, the date as of which it was filed with the Securities and Exchange Commission.

**.97** If there has been a material subsequent event that has not been disclosed in a manner described in paragraph .95 and if the practitioner determines that it is appropriate to issue a report even though the MD&A presentation has not been updated for such material subsequent event (for example, because the filing of the Form 10-Q that will disclose such events has not yet occurred), the practitioner should express a qualified or an adverse opinion (or appropriately modify the review report) on the MD&A presentation. As discussed in paragraph .107, if such material subsequent event is not appropriately disclosed, the practitioner should evaluate (a) whether to resign from the engagement related to the MD&A presentation and (b) whether to remain as the entity's auditor or stand for re-election to audit the entity's financial statements.

**.98** Because a nonpublic entity is not subject to the filing requirements of the SEC, an MD&A presentation of a nonpublic entity should be updated for material subsequent events through the date of the practitioner's report.

## When a Predecessor Auditor Has Audited Prior Period Financial Statements

**.99** If a predecessor auditor has audited the financial statements for a prior period covered by the MD&A, the need by the practitioner reporting on the MD&A for an understanding of the business and the entity's accounting and financial reporting practices for such prior period, as discussed in paragraph .07, is not diminished and the practitioner should apply the appropriate procedures. In applying the appropriate procedures, the practitioner may consider reviewing the predecessor auditor's working papers with respect to audits of financial statements and examinations or reviews of MD&A presentations for such prior periods.

**.100** Information that may be obtained from the audit or attest working papers of the predecessor auditor will not provide a sufficient basis in itself for the practitioner to express an opinion with respect to the MD&A disclosures for such prior periods. If the practitioner has audited the current year, the results of such audit may be considered in planning and performing the examination

of MD&A and may provide evidential matter that is useful in performing the examination, including with respect to matters disclosed for prior periods. For example, an increase in salaries expense may be the result of an acquisition in the last half of the prior year. Auditing procedures applied to payroll expense in the current year that validate the increase as a result of the acquisition may provide evidential matter with respect to the increase in salaries expense in the prior year attributed to the acquisition.

**.101** In addition to the procedures described in paragraphs .49–.66, the practitioner will need to make inquiries of the predecessor auditor and management as to audit adjustments proposed by the predecessor auditor that were not recorded in the financial statements.

## Communications Between Predecessor and Successor Auditors

**.102** If the practitioner is appointed as the successor auditor, he or she follows the guidance AU-C section 210, *Terms of Engagement*, in considering whether or not to accept the engagement. If, at the time of the appointment as auditor, the practitioner is also being engaged to examine or review MD&A, the practitioner should also make specific inquiries of the predecessor auditor regarding MD&A. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

**.103** The practitioner's examination may be facilitated by (a) making specific inquiries of the predecessor regarding matters that the successor believes may affect the conduct of the examination (or review), such as areas that required an inordinate amount of time or problems that arose from the condition of the records, and (b) if the predecessor previously examined or reviewed MD&A, reviewing the predecessor's working papers for the predecessor's examination or review engagement.

**.104** If, subsequent to his or her engagement to audit the financial statements, the practitioner is requested to examine MD&A, the practitioner should request the client to authorize the predecessor auditor to allow a review of the predecessor's audit working papers related to the financial statement periods included in the MD&A presentation. Although the practitioner may previously have had access to the predecessor auditor's working papers in connection with the successor's audit of the financial statements, ordinarily the predecessor auditor should permit the practitioner to review those audit working papers relating to matters that are disclosed or that would likely be disclosed in MD&A.

## Another Auditor Audits a Significant Part of the Financial Statements

**.105** When one or more component auditors audits a significant part of a group's financial statements, the practitioner<sup>27</sup> may request that the component auditor perform procedures with respect to the MD&A or the practitioner may perform the procedures directly with respect to such component(s).<sup>28</sup>

---

<sup>27</sup> The practitioner serving as auditor of the group's financial statements is presumed to have an audit base for purposes of examining or reviewing the consolidated MD&A presentation. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

<sup>28</sup> The practitioner should consider whether he or she has sufficient industry expertise with respect to a subsidiary audited by a component auditor to take sole responsibility for the group's consolidated MD&A presentation. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

Unless the component auditor issues an examination or review report on a separate MD&A presentation of such component(s) (see paragraph .74), the practitioner examining the group's MD&A should not make reference to the work of the component practitioner on MD&A in his or her report on MD&A.<sup>29</sup> Accordingly, if the practitioner examining the group's MD&A has requested such component auditor to perform procedures, the practitioner examining the group's MD&A should perform those procedures that he or she considers necessary to take responsibility for the work of the other auditor. Such procedures may include one or more of the following:

- a. Visiting the component auditor and discussing the procedures followed and the results thereof.
- b. Reviewing the working papers of the component auditor with respect to the component.
- c. Participating in discussions with the component's management regarding matters that may affect the preparation of the component's MD&A.
- d. Making supplemental tests with respect to such component.

The determination of the extent of the procedures to be applied by the practitioner examining the group's MD&A rests with that practitioner alone in the exercise of his or her professional judgment and in no way constitutes a reflection on the adequacy of the component auditor's work. Because the practitioner examining the group's MD&A in this case assumes responsibility for his or her opinion on the MD&A presentation without making reference to the procedures performed by the other auditor, the judgment of the practitioner examining the group's MD&A should govern as to the extent of procedures to be undertaken. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

## Responsibility for Other Information in Documents Containing MD&A

**.106** A client may publish annual reports containing MD&A and other documents to which the practitioner, at the client's request, devotes attention. See paragraphs .91–.94 of section 101 for pertinent guidance in these circumstances. See Appendix D of this section [paragraph .117], "Comparison of Activities Performed Under SAS No. 8, *Other Information in Documents Containing Audited Financial Statements*, Versus a Review or an Examination Attest Engagement." The guidance in AU-C section 925, *Filings With the U.S. Securities and Exchange Commission Under the Securities Act of 1933*, is pertinent when the practitioner's report on MD&A is included in a registration statement, proxy statement, or periodic report filed under the federal securities statutes. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

## Communications With the Audit Committee

**.107** If the practitioner concludes that the MD&A presentation contains material inconsistencies with other information included in the document

---

<sup>29</sup> This does not preclude the practitioner from referring to the component auditor's report on the financial statements in his or her report on the group's MD&A. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

containing the MD&A presentation or with the historical financial statements,<sup>30</sup> material omissions, or material misstatements of fact, and management refuses to take corrective action, the practitioner should inform the audit committee or others with equivalent authority and responsibility. If the MD&A is not revised, the practitioner should evaluate (a) whether to resign from the engagement related to the MD&A, and (b) whether to remain as the entity's auditor or stand for re-election to audit the entity's financial statements. The practitioner may wish to consult with his or her attorney when making these evaluations.

**.108** If the practitioner is engaged after the MD&A presentation has been filed with the SEC (or other regulatory agency), and becomes aware that such MD&A presentation on file with the SEC (or other regulatory agency) has not been revised for a matter for which the practitioner has or would qualify his or her opinion, the practitioner should discuss such matter with the audit committee and request that the MD&A presentation be revised. If the audit committee fails to take appropriate action, the practitioner should consider whether to resign as the independent auditor of the company. The practitioner may consider paragraphs .21–.23 and .27 of AU-C section 250, *Consideration of Laws and Regulations in an Audit of Financial Statements*, concerning communication with the audit committee and other considerations. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

**.109** If, as a result of performing an examination or a review of MD&A, the practitioner has determined that there is evidence that fraud may exist, that matter should be brought to the attention of an appropriate level of management. This is generally appropriate even if the matter might be considered clearly inconsequential. If the matter relates to the audited financial statements, the practitioner should consider the guidance in AU-C section 240, *Consideration of Fraud in a Financial Statement Audit*, concerning communication responsibilities, and the effect on the auditor's report on the financial statements. [Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

## Obtaining Written Representations

**.110** In an examination or a review engagement, the practitioner should obtain written representations from management.<sup>31</sup> The specific written representations obtained by the practitioner will depend on the circumstances of the engagement and the nature of the MD&A presentation. Specific representations should relate to the following matters:

- a. Management's acknowledgment of its responsibility for the preparation of MD&A and management's assertion that the

---

<sup>30</sup> See AU-C section 720, *Information in Documents Containing Audited Financial Statements*, for guidance on the impact of material inconsistencies or material misstatements of fact on the auditor's report on the related historical financial statements. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

<sup>31</sup> Paragraph .21 of AU-C section 580, *Written Representations*, requires that written representations be in the form of a representation letter addressed to the auditor. Paragraph .09b of AU-C section 925 requires the auditor to obtain updated written representations from management at or shortly before the effective date of the registration statement, about (a) whether any information has come to management's attention that would cause management to believe that any of the previous representations should be modified, and (b) whether any events have occurred subsequent to the date of the financial statements that would require adjustment to, or disclosure in, those financial statements. (See paragraph .65.) [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

MD&A presentation has been prepared in accordance with the rules and regulations adopted by the SEC for MD&A<sup>32</sup>

- b. A statement that the historical financial amounts included in MD&A have been accurately derived from the entity's financial statements
- c. Management's belief that the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained in the MD&A
- d. A statement that management has made available all significant documentation related to compliance with SEC rules and regulations for MD&A
- e. Completeness and availability of all minutes of meetings of stockholders, directors, and committees of directors
- f. For a public entity, whether any communications from the SEC were received concerning noncompliance with or deficiencies in MD&A reporting practices
- g. Whether any events occurred subsequent to the latest balance-sheet date that would require disclosure in the MD&A
- h. If forward-looking information is included, a statement that—
  - The forward-looking information is based on management's best estimate of expected events and operations, and is consistent with budgets, forecasts, or operating plans prepared for such periods
  - The accounting principles expected to be used for the forward-looking information are consistent with the principles used in preparing the historical financial statements
  - Management has provided the latest version of such budgets, forecasts, or operating plans, and has informed the practitioner of any anticipated changes or modifications to such information that could affect the disclosures contained in the MD&A presentation
- i. If voluntary information is included that is subject to the rules and regulations adopted by the SEC (for example, information required by Item 305, *Quantitative and Qualitative Disclosures About Market Risk*), a statement that such voluntary information has been prepared in accordance with the related rules and regulations adopted by the SEC for such information
- j. If pro forma information is included, a statement that—
  - Management is responsible for the assumptions used in determining the pro forma adjustments
  - Management believes that the assumptions provide a reasonable basis for presenting all the significant effects directly attributable to the transaction or event, that the related pro forma adjustments give appropriate effect to those assumptions, and that the pro forma column reflects

---

<sup>32</sup> Management should specify the SEC rules (for example, Item 303 of Regulation S-K, Item 303 of Regulation S-B, or Item 9 of Form 20-F). For nonpublic entities, the practitioner also obtains a written assertion that the presentation has been prepared using the rules and regulations adopted by the SEC. (See paragraph .02.)

the proper application of those adjustments to the historical financial statements

- Management believes that the significant effects directly attributable to the transaction or event are appropriately disclosed in the pro forma financial information

**.111** In an examination, management's refusal to furnish written representations constitutes a limitation on the scope of the engagement sufficient to preclude an unqualified opinion and is ordinarily sufficient to cause a practitioner to disclaim an opinion or withdraw from the examination engagement. However, based on the nature of the representations not obtained or the circumstances of the refusal, the practitioner may conclude that a qualified opinion is appropriate in an examination engagement. In a review engagement, management's refusal to furnish written representations constitutes a limitation of the scope of the engagement sufficient to require withdrawal from the review engagement. Further, the practitioner should consider the effects of the refusal on his or her ability to rely on other management representations.

**.112** If the practitioner is precluded from performing procedures he or she considers necessary in the circumstances with respect to a matter that is material to the MD&A presentation, even though management has given representations concerning the matter, there is a limitation on the scope of the engagement, and the practitioner should qualify his or her opinion or disclaim an opinion in an examination engagement, or withdraw from a review engagement.

## Effective Date

**.113** This section is effective when management's discussion and analysis is for a period ending on or after June 1, 2001. Early application is permitted.

## Appendix A—Examination Reports

### Example 1: Standard Examination Report

1. The following is an illustration of a standard examination report.

#### Independent Accountant's Report

##### *[Introductory paragraph]*

We have examined XYZ Company's Management's Discussion and Analysis taken as a whole, included [*incorporated by reference*] in the Company's [*insert description of registration statement or document*]. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. Our responsibility is to express an opinion on the presentation based on our examination. We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, which comprise the balance sheets as of December 31, 20X5 and 20X4, and the related statements of income, changes in stockholder's equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, and the related notes to the financial statements. In our report dated [*Month*] XX, 20X6, we expressed an unmodified opinion on those financial statements.<sup>33</sup>

##### *[Scope paragraph]*

Our examination of Management's Discussion and Analysis was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting the historical amounts and disclosures in the presentation. An examination also includes assessing the significant determinations made by management as to the relevancy of information to be included and the estimates and assumptions that affect reported information. We believe that our examination provides a reasonable basis for our opinion.

---

<sup>33</sup> If prior financial statements were audited by other auditors, this sentence would be replaced by the following:

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X5, and the related statement of income, changes in stockholder's equity, and cash flows for the year then ended, and the related notes to the financial statements. In our report dated [*Month*] XX, 20X6, we expressed an unmodified opinion on those financial statements. The financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X4, and the related statement of income, changes in stockholder's equity, and cash flows for each of the years in the two-year period then ended, and the notes to the financial statements; were audited by other auditors, whose report dated [*Month*] XX, 20X5, expressed an unmodified opinion on those financial statements.

If the practitioner's opinion on the financial statements is based on the report of component auditors, this sentence would be replaced by the following:

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company which comprise the balance sheets as of December 31, 20X5 and 20X4, and the related statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, and the notes to the financial statements. In our report dated [*Month*] XX, 20X6, we expressed an unmodified opinion on those financial statements based on our audits and the report of component auditors.

Refer to Example 3 if the practitioner's opinion on MD&A is based on the report of another practitioner on a component of the entity. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

*[Explanatory paragraph]*<sup>34</sup>

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

*[Opinion paragraph]*

In our opinion, the Company's presentation of Management's Discussion and Analysis includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

*[Signature]*

*[Date]*

### **Example 2: Modifications to Examination Report for a Qualified Opinion**

2. An example of a modification of an examination report for a qualified opinion due to a material omission described in paragraph .72 follows.

*[Additional explanatory paragraph preceding the opinion paragraph]*

Based on information furnished to us by management, we believe that the Company has excluded a discussion of the significant capital outlay required for its plans to expand into the telecommunications industry and the possible effects on the Company's financial condition, liquidity, and capital resources.

*[Opinion paragraph]*

In our opinion, except for the omission of the matter described in the preceding paragraph, the Company's presentation of Management's Discussion and Analysis includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

3. An example of a modification of an examination report for a qualified opinion when overly subjective assertions are included in MD&A follows.

---

<sup>34</sup> The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .69h:

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

*[Additional explanatory paragraph preceding the opinion paragraph]*

Based on information furnished to us by management, we believe that the underlying information, determinations, estimates, and assumptions used by management do not provide the Company with a reasonable basis for the disclosure concerning *[describe]* in the Company's Management's Discussion and Analysis.

*[Opinion paragraph]*

In our opinion, except for the disclosure regarding *[describe]* discussed in the preceding paragraph, the Company's presentation of Management's Discussion and Analysis includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

### **Example 3: Examination Report With Reference to the Report of Another Practitioner**

4. The following is an illustration of an examination report indicating a division of responsibility with another practitioner, who has examined a separate MD&A presentation of a wholly-owned subsidiary, when the practitioner reporting is serving as the auditor of the related group's consolidated financial statements.

#### Independent Accountant's Report

*[Introductory paragraphs]*

We have examined XYZ Company's Management's Discussion and Analysis taken as a whole, included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]*. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. Our responsibility is to express an opinion on the presentation based on our examination. We did not examine Management's Discussion and Analysis of ABC Corporation, a wholly-owned subsidiary, included in ABC Corporation's *[insert description of registration statement or document]*. Such Management's Discussion and Analysis was examined by other accountants, whose report has been furnished to us, and our opinion, insofar as it relates to information included for ABC Corporation, is based solely on the report of the other accountants.

We have audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated financial statements of XYZ Company, which comprise the consolidated balance sheets as of December 31, 20X5 and 20X4, and the related consolidated statements of income, changes in stockholders' equity, and cash flows, for each of the years in the three-year period ended December 31, 20X5. In our report dated *[Month]* XX, 20X6, we expressed an unmodified opinion on those financial statements based on our audits and the report of other auditors.

*[Scope paragraph]*

Our examination of Management's Discussion and Analysis was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test

basis, evidence supporting the historical amounts and disclosures in the presentation. An examination also includes assessing the significant determinations made by management as to the relevancy of information to be included and the estimates and assumptions that affect reported information. We believe that our examination and the report of other accountants provide a reasonable basis for our opinion.

*[Explanatory paragraph]*<sup>35</sup>

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

*[Opinion paragraph]*

In our opinion, based on our examination and the report of other accountants, the Company's presentation of Management's Discussion and Analysis included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]* includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

## Appendix B—Review Reports

### Example 1: Standard Review Report on an Annual MD&A Presentation

1. The following is an illustration of a standard review report on an annual MD&A presentation.

#### Independent Accountant's Report

##### *[Introductory paragraph]*

We have reviewed XYZ Company's Management's Discussion and Analysis taken as a whole, included [*incorporated by reference*] in the Company's [*insert description of registration statement or document*]. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, which comprise the balance sheets as of December 31, 20X5 and 20X4, and the related statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5. In our report dated [*Month*] XX, 20X6, we expressed an unqualified opinion on those financial statements.

##### *[Scope paragraph]*

We conducted our review of Management's Discussion and Analysis in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review of Management's Discussion and Analysis consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. It is substantially less in scope than an examination, the objective of which is the expression of an opinion on the presentation. Accordingly, we do not express such an opinion.

##### *[Explanatory paragraph]*<sup>36</sup>

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

##### *[Concluding paragraph]*

Based on our review, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis

---

<sup>36</sup> The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .85i.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's financial statements, or that the underlying information, determinations, estimates and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

*[Restricted use paragraph]*<sup>37</sup>

This report is intended solely for the information and use of *[list or refer to specified parties]* and is not intended to be and should not be used by anyone other than the specified parties.

*[Date]*

### **Example 2: Standard Review Report on an Interim MD&A Presentation**

2. The following is an illustration of a standard review report on an MD&A presentation for an interim period.

#### Independent Accountant's Report

*[Introductory paragraph]*

We have reviewed XYZ Company's Management's Discussion and Analysis taken as a whole included in the Company's *[insert description of registration statement or document]*. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. We have reviewed, in accordance with standards established by the American Institute of Certified Public Accountants, the interim financial information of XYZ Company as of June 30, 20X6 and 20X5, and for the three-month and six-month periods then ended, and have issued our report thereon dated July XX, 20X6.

*[Scope paragraph]*

We conducted our review of Management's Discussion and Analysis in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review of Management's Discussion and Analysis consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. It is substantially less in scope than an examination, the objective of which is the expression of an opinion on the presentation. Accordingly, we do not express such an opinion.

*[Explanatory paragraph]*<sup>38</sup>

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of

<sup>37</sup> This paragraph may be omitted for certain nonpublic entities. (Refer to paragraph .85k.)

<sup>38</sup> The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .85i.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

*[Concluding paragraph]*

Based on our review, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's financial statements, or that the underlying information, determinations, estimates, and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

*[Restricted use paragraph]*<sup>39</sup>

This report is intended solely for the information and use of *[list or refer to specified parties]* and is not intended to be and should not be used by anyone other than the specified parties.

*[Signature]*

*[Date]*

### **Example 3: Modification to Review Report for a Material Misstatement**

3. An example of a modification of the accountant's report when MD&A is materially misstated, as discussed in paragraph .89, follows.

*[Additional explanatory paragraph preceding the concluding paragraph]*

Based on information furnished to us by management, we believe that the Company has excluded a discussion of the significant capital outlay required for its plans to expand into the telecommunications industry and the possible effects on the Company's financial condition, liquidity, and capital resources.

*[Concluding paragraph]*

Based on our review, with the exception of the matter described in the preceding paragraph, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's financial statements, or that the underlying information, determinations, estimates and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

[Revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

---

<sup>39</sup> This paragraph may be omitted for certain nonpublic entities. (Refer to paragraph .85k.)

.116

## Appendix C—Combined Reports

### **Example 1: Combined Examination and Review Report on MD&A**

1. An example of a combined report on an examination of an annual MD&A presentation and the review of MD&A for an interim period discussed in paragraph .92 follows.

#### Independent Accountant's Report

##### *[Introductory paragraph]*

We have examined XYZ Company's Management's Discussion and Analysis taken as a whole for the three-year period ended December 31, 20X5, included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]*. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. Our responsibility is to express an opinion on the annual presentation based on our examination. We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20X5 and 20X4, and for each of the years in the three-year period ended December 31, 19X5, and in our report dated *[Month]* XX, 20X6, we expressed an unqualified opinion on those financial statements.

##### *[Scope paragraph]*

Our examination of Management's Discussion and Analysis was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting the historical amounts and disclosures in the presentation. An examination also includes assessing the significant determinations made by management as to the relevancy of information to be included and the estimates and assumptions that affect reported information. We believe that our examination provides a reasonable basis for our opinion.

##### *[Explanatory paragraph]*<sup>40</sup>

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

---

<sup>40</sup> The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .69*h*.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

*[Opinion paragraph]*

In our opinion, the Company's presentation of Management's Discussion and Analysis for the three-year period ended December 31, 20X5, includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

*[Paragraphs on interims]*

We have also reviewed XYZ Company's Management's Discussion and Analysis taken as a whole for the six-month period ended June 30, 20X6 included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]*. We have reviewed, in accordance with standards established by the American Institute of Certified Public Accountants, the interim financial information of XYZ Company as of June 30, 20X6 and 20X5, and for the six-month periods then ended, and have issued our report thereon dated July XX, 20X6.

We conducted our review of Management's Discussion and Analysis in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review of Management's Discussion and Analysis consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. It is substantially less in scope than an examination, the objective of which is the expression of an opinion on the presentation. Accordingly, we do not express such an opinion.

Based on our review, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis for the six-month period ended June 30, 20X6, does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's unaudited interim financial statements, or that the underlying information, determinations, estimates, and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

*[Restricted use paragraph]*<sup>41</sup>

This report is intended solely for the information and use of *[list or refer to specified parties]* and is not intended to be and should not be used by anyone other than the specified parties.

## Appendix D—Comparison of Activities Performed Under SAS No. 118, *Other Information in Documents Containing Audited Financial Statements* [AU-C Section 720], Versus a Review or an Examination Attest Engagement \*

<i>Activities</i>	<i>SAS No. 118 (AU-C Section 720)</i>	<i>Review</i>	<i>Examination</i>
Obtain an understanding of SEC rules and regulations and management's methodology for the preparation of Management's Discussion and Analysis (MD&A).	Not applicable (N/A)—Auditor is only required to read the information in the MD&A in order to identify material inconsistencies, if any, with the audited financial statements.	Obtain an understanding of the rules and regulations adopted by the SEC for MD&A.  Inquire of management regarding the method of preparing MD&A.	Same as for a review.
Plan the engagement.	N/A	Develop an overall strategy for the analytical procedures and inquiries to be performed to provide negative assurance.	Develop an overall strategy for the expected scope and performance of the engagement to obtain reasonable assurance to express an opinion.
Consider internal control.	N/A	Consider relevant portions of the entity's internal control applicable to the preparation of MD&A to identify the types of potential misstatements and to select the inquiries and analytical procedures; no testing of controls would be performed.	Obtain an understanding of internal control applicable to the preparation of MD&A sufficient to plan the engagement and to assess control risk; controls may be tested by performing inquiries of client personnel, inspection of documents, and observation of relevant activities.

\* Refer to AU-C section 720, *Other Information in Documents Containing Audited Financial Statements*. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126.]

<i>Activities</i>	<i>SAS No. 118 (AU-C Section 720)</i>	<i>Review</i>	<i>Examination</i>
Test assertions.	N/A	<p>Apply the following analytical procedures and make inquiries of management and others; no corroborating evidential matter is obtained:</p> <ul style="list-style-type: none"> <li>● Read the MD&amp;A and compare the content for consistency with the financial statements; compare financial amounts to the financial statements or related accounting records and analyses; recompute increases, decreases and percentages disclosed.</li> <li>● Compare nonfinancial amounts to the financial statements or other records.</li> <li>● Consider whether MD&amp;A explanations are consistent with information obtained during the audit or review of financial statements; make further inquiries, as necessary. (Note: Such additional inquiries may result in a decision to perform other procedures or detail tests.)</li> </ul>	<p>Apply the following analytical and corroborative procedures to obtain reasonable assurance of detecting material misstatements:</p> <ul style="list-style-type: none"> <li>● Read the MD&amp;A and compare the content for consistency with the financial statements; compare financial amounts to the financial statements or related accounting records and analyses; recompute increases, decreases and percentages disclosed.</li> <li>● Compare nonfinancial amounts to the financial statements or other records; perform tests on other records based on the concept of materiality.</li> <li>● Consider whether explanations are consistent with the information obtained during the audit of financial statements; investigate further explanations that cannot be substantiated by information in the audit working papers through inquiry and inspection of client records.</li> </ul>

moves the content of AT section 501, *An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements*, from the SSAEs to the SASs. SAS No. 130 was issued in October 2015 and becomes effective for integrated audits (audits of internal control over financial reporting that are integrated with audits of financial statements) for periods ending on or after December 15, 2016. Upon its effective date, SAS No. 130 withdraws SSAE No. 15, *An Examination of an Entity's Internal Control Over Financial Reporting That Is Integrated With an Audit of Its Financial Statements*, and related Attestation Interpretation No. 1, "Reporting Under Section 112 of the Federal Deposit Insurance Corporation Improvement Act" (AT sec. 501 and 9501).

<sup>4</sup> The Auditing Standards Board did not clarify AT section 701, *Management's Discussion and Analysis*, because practitioners rarely perform attestation engagements to report on management's discussion and analysis prepared pursuant to the rules and regulations adopted by the SEC. AT section 701 will be retained in its current unclarified format as AT-C section 395, *Management's Discussion and Analysis*, until further notice.

**ATTESTATION PUBLICATIONS**

- Interpretive ..... 105.21
- Other ..... 105.22; 105.A31-A33

**ATTESTATION RISK**

- Control risk ..... 315.15; 395.32
- Detection risk ..... 395.33
- Examination engagement ..... 315.15; 395.29-33
- Identification ..... 320.A17
- Inherent risk ..... 395.31
- Management's discussion and  
analysis ..... 395.29-33
- Material misstatement ..... 320.20-23;  
..... 320.A31-A36
- Responding to assessed risk ..... 320.24

**ATTESTATION STANDARDS**

- Agreed-upon procedures  
engagements ..... 215.03
- Applicability to litigation  
services ..... 9105.12-14
- Compliance with ..... 105.05
- Conduct of an engagement in accordance  
with ..... 105.12-22; 105.A19-A33
- Definitions ..... 105.10; 105.A7-A18
- Effective date ..... 105.08; 205.02; 210.02;  
..... 215.05; 305.06; 310.04;  
..... 315.05; 395.113
- Professional requirements ..... 105.19
- Relationship of attestation standards to quality  
control standards ..... 105.06-07
- System of quality control—See system of  
quality control

**AUDITOR, INDEPENDENT**

- Attest engagements—See practitioner
- Communications between predecessor and  
successor ..... 395.102-104
- Definition ..... 395.02
- Predecessor auditor has audited prior period  
financial statements ..... 395.99-104
- Significant part of financial statements  
audited by another ..... 395.105

**AUDITOR, INTERNAL**

- Agreed-upon procedures ..... 215.23;  
..... 215.A25-A27
- Another audits significant part of financial  
statements ..... 395.105
- Management's discussion and  
analysis ..... 395.48
- Using the work of the internal audit  
function ..... 320.21-23; 320.A63-A66

**B****BUSINESS COMBINATIONS**

- Pro forma financial information .... 310.08-09;  
... 310.12-13; 310.A3; 310.A18; 310.A22

**C****COMBINED REPORTS**

- Agreed-upon procedures  
engagements ..... 215.A1
- Illustrations—See illustrations
- Management's discussion and  
analysis ..... 395.92-93; 395.116

**COMMON CONCEPTS**

- Acceptance and continuance ..... 105.23
- Change in terms of  
engagement ..... 105.29-30; 105.A55-A56
- Compliance with attestation  
standards ..... 105.05
- Conduct of an engagement in compliance with  
standards ..... 105.12-22; 105.A19-A33
- Definitions ..... 105.10; 105.A7-A18

References are to AT-C section and paragraph numbers.

**COMMON CONCEPTS**—continued

- Engagement documentation ..... 105.34-41;  
..... 105.A63-A64
- Engagement quality control review ..... 105.42;  
..... 105.A65
- Preconditions for an attestation  
engagement ..... 105.24-28; 105.A34-A54
- Professional skepticism and professional  
judgment ..... 105.43-44; 105.A66-A74
- Quality control ..... 105.32-33; 105.A59-A62
- Relationship to quality control  
standards ..... 105.06-07; 105.A4-A6
- Using the work of an other  
practitioner ..... 105.31; 105.A57-58

**COMMUNICATION**

- Other responsibilities ..... 320.45; 320.A74
- Predecessor and successor  
auditors ..... 395.102-104

**COMPARATIVE HISTORICAL FINANCIAL INFORMATION**

- Financial forecasts and  
projections ..... 305.A20-A25
- Prospective financial statements ..... 305.A10

**COMPLETENESS**

- Definition ..... 105.A42
- Tests of, management's discussion and  
analysis ..... 395.61

**COMPLIANCE ATTESTATION**

- Content of the practitioner's agreed-upon  
procedures report ..... 315.26; 315.A31-A34
- Content of the practitioner's examination  
report ..... 315.20-21; 315.A18
- Definitions ..... 315.08; 315.A6-A7
- Examination procedures ..... 315.13-16;  
..... 315.A14-A16
- Forming the opinion ..... 315.19
- Illustrations ..... 315.A35
- Materiality ..... 315.12; 315.A12-13
- Modified opinions ..... 315.22; 315.A24-A28
- Objectives of an examination  
engagement ..... 315.06; 315.A5
- Objectives of an agreed-upon procedures  
engagement ..... 315.07
- Preconditions for an agreed-upon procedures  
engagement ..... 315.23-24; 315.A29-A30
- Preconditions for examination  
engagements ..... 315.09-10; 315.A8-A11
- Reasonable assurance ..... 315.11
- Written representations in an examination  
engagement ..... 315.17-18; 315.A17
- Written representations in an agreed-upon  
procedures engagement ..... 315.25

**CONTROL RISK**

- Attestation risk ..... 395.29-33
- Compliance attestation ..... 315.15
- Definition ..... 395.30

**CONTROL RISK**—continued

- Examination engagement ..... 315.15; 395.32
- Management's discussion and  
analysis ..... 395.32

**CRITERIA**

- Attest engagements, availability and suitability  
of ..... 105.A42-A52; 320.14-18;  
..... 320.A25-A27
- Definition ..... 105.10; 105.A16
- Examination engagements ..... 205.58;  
..... 205.A69-A70
- Review engagements ..... 210.41;  
..... 210.A52-A53

**D****DATE OF REPORT**

- Agreed-upon procedures ..... 215.28-30;  
..... 215.39
- Management's discussion and  
analysis ..... 395.70; 395.86
- Pro forma financial information ..... 310.17

**DEFINITIONS**

- Accountant ..... 395.02
- Agreed-upon procedures  
engagement ..... 105.10; 215.02
- Analytical procedures ..... 395.20
- Appropriateness of evidence ..... 205.04
- Appropriateness of review evidence ..... 210.04
- Assertion ..... 105.10
- Attest engagement ..... 105.10; 395.01
