companies that may offer innovative products and services that add value, and undermines the securities market.

Without adequate information, users of business reporting cannot judge properly the opportunities and risks of investment alternatives. To make informed decisions, they need a variety of information, including data about the economy, industries, companies, and securities. Complete information provided by the best sources enhances the probability that the best decisions will be made. And for company-specific information—which is key because companies are the sources of cash flows that ultimately result in the return on securities or the repayment of loans—management often is the best source. Business reporting packages management's company-specific information and delivers it to users in a meaningful way.

Few areas are more central to the national economic interest than the role of
