The Research Consortium is intended to bring together selected young researchers in accounting history from various countries and to develop a global cooperation in advancing accounting history research. Officers and Trustees of the Academy and twenty-five participants, representing nine countries, inaugurated the First Comparative International Accounting History Research Consortium. The invited members of the Research Consortium met at the end of the research program to discuss issues regarding the purpose, organization, and future of the Research Consortium. Keith McMillan, Rockhurst College, and Stephen Walker, University of Edinburgh, co-chaired.

Program: May 21, 1999

Plenary Session: The Academy, International Scholarship, and the Future of Accounting History Research
