Dear Dr. Jim:

Your letter and article arrived and I find the article very good. Seems to me they are better with each one. We have had several inquiries concerning the articles, especially the months that we did not run them. I think ~~we~~ when we write finis on the series that we should bind them. I know of 3 people that would like to have them. By the way the Eastern University of New Mexico has asked for a complete set and I feel certain from what they said it was the articles they were interested in.

I am quite sure that the ordeal (and I think that is the wrong word) that you and the other faculty members, as well as some of the students have been through is enough to keep ones mind occupied for quite some time. I have read everything I could get my hands on and find that it makes a little sense if you don't take the whole of it. There is a thread of continuity etc. in the articles if you look for it. I agree with you it is exciting times there and I pray that some good will come of it. The article in the Post I am not sure about, will have to re-read it. I have searched the Ancient City over and cannot find a Reporter. If you should have an extra would appreciate it. Carl has claimed the local paper, but I read and absorbed all I could from it first.

I think our friend promised to send you an electric saucepan and will try and get it and get it off to you.

Sincerely,

Larise
