Checklists and Illustrative Financial Statements for Common Interest Realty Associations

01 The checklists and illustrative financial statements included in this section have been developed by the staff of the Accounting and Auditing Publications Team of the AICPA as nonauthoritative technical practice aids. Readers should be aware of the following:

- The checklists and illustrative financial statements do not include all disclosures and presentation items promulgated. Disclosures described by pronouncements whose applicability to CIRAs is deemed remote are not included in this document. [For additional disclosures and promulgations, see January 1999, Checklists and Illustrative Financial Statements for Corporations (AICPA Publication 008728).]

- The checklists and illustrative financial statements are “tools” and in no way represent official positions or pronouncements of the AICPA.

FSP Section 4100

Introduction

.01 In the 1960’s new forms of real estate ownership emerged and the terms to describe them, such as condominiums, cooperatives, planned unit development (“PUD”) and timeshare development, became common.

Condominium: Each owner has title to a defined interior space within a building and an undivided ownership interest in common property within a development, such as the grounds and recreational facilities. A condominium association generally owns no real property but is responsible for maintaining the common property and providing necessary services. In certain jurisdictions, condominiums may be established as condominium trusts; such entities may own the real estate and all the improvements. If they do, the accounting and reporting for condominium trusts are the same as for cooperatives.

Cooperative: A form of ownership in which a corporation owns the common property, including all of the improvements, and is responsible for its maintenance, debt service, repairs, and so forth. The owners do not own any of the common property, but they own shares of stock of the corporation. The corporation functions in the same way as other common interest realty associations (CIRA) in maintaining common property and providing services.

Planned Unit Development: A form of land development in which various structures are clustered for optimal use of the property. A PUD owner buys a lot and improvements on the lot. The title to common property is held by a CIRA, generally a Homeowners’ Association (“HOA”).

Timeshare Development: A form of ownership in which each owner has a time-share interest, commonly referred to as interval use, that represents a right to use a unit in a time-share development for a specified number of weeks during a year. These types of entities may also be referred to as fractional ownership associations. A key feature of these forms of real estate ownership is the existence of an association of owners referred to as a common interest realty association (CIRA). A CIRA is responsible for providing certain services and maintaining certain property that all owners share or own in common.

.02 Regardless of the form of ownership of a CIRA, a CIRA member has a defined ownership interest that can be transferred to buyers of the units or shares. Additionally, the CIRA member is entitled to share in the distribution of resources in the event of a liquidation. Membership in a CIRA is generally mandatory for owners and is a condition in the agreement to purchase either a unit in a condominium or shares in a cooperative.

Operating Statutes

.03 The operations of a CIRA are regulated by the individual states and not by the federal government. A CIRA derives authority for all matters from state corporate and not-for-profit statutes, declarations of covenants, master deeds, membership agreements, articles of incorporation, bylaws and board of directors’ actions. Federal regulations, however, apply to the income tax treatment of a CIRA.

Primary Accounting Methods

.04 CIRAs should report financial activities using the accrual basis of accounting. Alternatively, the cash basis of accounting may be used if the results of applying that basis do not differ significantly from the results of using the accrual basis.
.05 Fund reporting, commonly used by not-for-profit organizations, is recommended for condominium associations and homeowners’ associations. The financial statements of a cooperative are generally presented like those of commercial entities. However, a cooperative may present financial statements using fund reporting.

.06 CIRAs can generally present unclassified balance sheets. However, CIRAs having significant commercial operations, such as rental operations, should consider presenting classified balance sheets.

Structure of the Checklist

.07 Because most CIRAs use fund accounting, the checklist presents the fund accounting guidance first. Any modifications needed to reflect nonfund accounting are presented in italicized text and brackets immediately after the related fund accounting guidance.
FSP Section 4200
Checklists—General

.01 AICPA disclosure checklists have been designed as practice aids to assist accountants in the preparation of financial statements and to assist auditors in their evaluation of the adequacy of disclosures in the financial statements they audit. Authoritative literature does not require the use of checklists, nor does it prescribe their format or content.

.02 This checklist consists of a number of questions or statements that are accompanied by references to the established sources of GAAP in which the disclosure requirements are found. These sources include Statements of Financial Accounting Standards, FASB Interpretations, Accounting Principles Board Opinions, Accounting Research Bulletins, AICPA Audit and Accounting Guides, AICPA Statements of Position, and EITF consensuses. Checklists are designed to serve as convenient memory aids but should not be used as a substitute for direct reference to authoritative literature.

.03 To use this checklist, simply check “yes,” “no,” or “not applicable” for each question. If additional information needs to be documented, include separate cross-referenced memoranda.

.04 As you use this checklist, please remember that:

• The exercise of sound professional judgment is of paramount importance in applying the checklist provisions.

• The checklist may require modification based on the engagement circumstances.

• The checklist may not be all-inclusive.

• Users need to modify the checklist for any pronouncements issued subsequent to those mentioned in the checklist.
FSP Section 4300
Financial Statements and Notes Checklist

.01 This checklist has been developed by the AICPA Accounting and Auditing Publications Team as a nonauthoritative practice aid for use by accountants in preparing financial statements and by auditors in auditing financial statements. This checklist and the reporting checklists include disclosures commonly encountered in the financial statements of common interest realty associations and reporting issues likely to be encountered by accountants who audit, compile, and review these types of financial statements. The checklists do not include all disclosures required by GAAP or address all reporting situations that may be encountered in performing engagements in accordance with GAAS and SSARS. The illustrative financial statements are intended to provide financial statement formats and disclosures for a hypothetical CIRA. They are not intended to illustrate all disclosures required by GAAP, nor do they illustrate all of the disclosures covered in the checklist.

.03 Checklist Questionnaire:

This checklist is organized into the sections listed below. Carefully review the topics listed and consider whether they represent potential disclosure items for the entity. Place a check mark by the topics or sections considered not applicable; these sections need not be completed. For example, if the entity did not enter into any nonmonetary transactions during the year, place a check by Other Financial Statement Disclosures, Section G, “Nonmonetary Transactions,” and skip this section when completing the checklist.

[APB 22, par. 12 (AC A10.105)]

3. Do those principles and methods identified in question 2 include all instances in which there:
   
a. Is a selection from existing acceptable alternatives?  
   
   b. Are principles and methods peculiar to the industry in which the reporting entity operates, even if such principles and methods are predominantly followed in that industry?  
   
c. Are unusual or innovative applications of GAAP?  
   [APB 22, par. 12 (AC A10.105)]

4. Is an explanation that the preparation of financial statements in conformity with GAAP requires the use of management’s estimates included?  
[SOP 94-6, par. 11]

**B. Certain Significant Estimates**

1. If known information available before the financial statements are issued indicates that: (a) it is at least reasonably possible that the effect on the financial statements of a condition, situation, or set of circumstances that existed the date of the financial statements will change in the near term due to one or more future confirming events, and (b) the effect of the change would be material to the financial statements:
a. Is disclosure made of the nature of the uncertainty, including an indication that it is at least reasonably possible that a change in the estimate will occur in the near term?  

b. If the estimate involves a loss contingency covered by SFAS 5, does the disclosure include an estimate of the possible range of loss, or state that such an estimate cannot be made?

c. Does the disclosure describe the factors that cause the estimate to be sensitive to change?  

[SOP 94-6, pars. 13 and 14]

Other Financial Statement Disclosures

   b. The CIRA’s compliance, or lack of, with the requirements?

   c. A description of the CIRA’s funding policy, if any, and compliance with that policy?

   d. A statement that funds, if any, are being accumulated based on estimated future (or current) costs, that actual expenditures may vary from these estimates, and that the variations may be material?

   e. Amounts assessed for major repairs and replacements in the current period?

   f. A statement indicating whether a study is conducted to estimate the remaining useful lives and the costs of future major repairs and replacements?

   [AAG, par. 4.27]

---

Note: See sample financial statements in section 4600, Exhibit 1.4, Future Major Repairs and Replacements, footnote 4 and Exhibit 3.4, Future Major Repairs and Replacements, footnote 6 for example disclosures.

---

Practice Tips

Assessments made for future major repairs and replacements should be displayed separately from other items.

CIRAs that employ fund reporting should display assessments relative to repairs and replacements in the replacement fund separately from transactions in the operating fund.

Transfers between funds that are not part of current-period operating revenues should be presented only in a statement of changes in fund balances or in a statement of changes in member’s equity, if a nonfund reporting approach is used.

[AAG, par. 3.09]
B. Required Supplemental Information

1. Is the following unaudited supplementary information disclosed:
   
   a. For estimates of current or future costs of future major repairs and replacements of existing components:

      (2) Methods used to determine the costs?  
      (3) Basis for calculations?  
      (4) Assumptions used for interest and inflation rates?  
      (5) Sources used and the dates of studies, if any?

         (1) Estimates of the remaining useful lives of the components?  
         (2) Estimates of current or future replacement cost?  
         (3) Amounts of funds accumulated for each component as designated by the members of the board?  
         
      [AAG, par. 4.31]

C. Accounting Changes

1. For changes in accounting principle, does disclosure in the period of the change include:
   
   a. Nature of the change?  
   
   b. Justification for the change, including an explanation of why the newly adopted principle is preferable?  
      [APB 20, pars. 17, 18, 20, 22, 26, 28, and 35 (AC A06.113)]

2. For all changes in accounting principle, except those relating to a change in entity and those recognized in paragraphs 27–30 of APB 20:
   
   a. Are prior-period financial statements, included for comparative purposes, presented as previously reported?  
   
   b. Is the effect of adopting the new accounting principle on the excess of revenues over expenses (income) before extraordinary items and on the net excess of revenues over expenses (net income) disclosed in the period of the change?  
   
   c. Does the amount include related income tax effects?  
   
   d. Is the excess of revenues over expenses (income) before extraordinary items and the net excess of revenues over expenses (net income) computed on a pro forma basis shown on the face of the statement of revenues and expenses for all periods presented as if the newly adopted accounting principle had been applied during all periods affected?  
      [APB 20, pars. 19–21, and 25 (AC A06.115, .117, and .121)]

3. Is the reason for not reporting the cumulative effect of the change and not disclosing the pro forma amounts for prior years disclosed if it is impossible to determine such effects?  
   [APB 20, pars. 25 and 26 (AC F43.101 and .102)]

4. For changes in accounting principle that are required to be accounted for by restating prior period financial statements, are prior-period financial statements that are presented restated?  
   [APB 20, par. 27 (AC A06.123)]
5. For changes in accounting principle that are required to be accounted for by applying retrospectively the new method in restatements of prior periods, is the effect of the change on income before extraordinary items and excess of revenues over expenses disclosed?  
   [APB 20, par. 28 (AC A10.115)]

6. For accounting changes that are changes in estimates that affect several future periods that are not ordinary course of business accounting (e.g., uncollectible accounts), is the effect on income before extraordinary items and excess of revenues over expenses of the current period disclosed?  
   [APB 20, par. 33 (AC A06.126)]

7. For accounting changes that are, in effect, a change in entity, are the following disclosed for all periods presented:

   a. The nature of the error?  
   b. The effect of its correction on income before extraordinary items and excess of revenues over expenses?  
      [APB 20, par. 37 (AC A35.105)]

Practice Tip
Only accounting changes that are material need to be disclosed in the financial statements but a change that does not have a material effect in the period of the change but is reasonably certain to have a material effect in later periods should be disclosed whenever the financial statements of the period of change are presented.

9. For summaries of financial information in reports that include an accounting period in which a change in accounting principle was made, is the amount of the cumulative effect of the change that was included in net income of the period of the change shown separately along with the net income of that period in the financial statements (not in a note or parenthetically)?  
   [APB 20, par. 39 (AC A06.134)]

D. Risks, Uncertainties, Commitments, and Contingencies

1. Are the nature and amount of accrued loss contingencies disclosed as necessary to keep the financial statements from being misleading?  
   [SFAS 5, par. 9 (AC C59.108)]

2. For loss contingencies not accrued, do disclosures indicate:
   a. Nature of the contingency?  
   b. Estimate of possible loss or range of loss, or a statement that such estimate cannot be made?

   [SFAS 5, pars. 18 and 19 (AC C59.120)]

   [SAS 59, par. 10 (AU 341.10)]

8. Is a description of the services the CIRA provides and the principal markets, including the location of those markets disclosed in the financial statements?  
   [SOP 94-6, par. 10]

9. Is an explanation that the preparation of financial statements in conformity with GAAP requires the use of management’s estimates included in the financial statements?  
   [SOP 94-6, par. 11]

10. Is disclosure regarding an estimate made when known information available prior to the issuance of the financial statements indicates that the following criteria are met:  
    a. It is at least reasonably possible that the estimate of the effect on the financial statements of a condition, situation, or set of circumstances that existed at the date of the financial statements will change in the near term due to one or more future confirming events (such as the valuation allowance for commercial and real estate loans)?  
       [SOP 94-6, par. 13]
    b. The effect of the change would be material to the financial statements?

F. Financial Instruments and Derivatives

*Note:* If SFAS 133, *Accounting for Derivative Instruments and Hedging Activities*, has been adopted, the following questions do not apply. At the time of this checklist update, the FASB issued an exposure draft that would defer the effective date of SFAS 133 to all fiscal quarters for all fiscal years beginning after June 15, 2000. Readers should be alert to the issuance of a final pronouncement.

1. For financial instruments with off-balance-sheet risk (except for those excluded in SFAS 105), are the following disclosed, either in the body of the financial statements or in the notes, by category of financial instrument:

   *Note:* Category of financial instrument refers to class of financial instrument, business activity, risk, or other category that is consistent with the management of those instruments. If disaggregation of financial instruments is other than by class, the entity also should describe for each category the classes of financial instruments included in that category. Practices for grouping and separately identifying similar financial instruments into classes in statements of financial position, in notes to financial statements, and in various regulatory reports have developed and become generally accepted, largely without being codified in authoritative literature. In SFAS 105 (AC F25), “class of financial instrument” refers to those classifications.

   b. The collateral or other security, if any, for the amount due proved to be of no value to the entity?
   c. The CIRA’s policy of requiring collateral or other security to support financial instruments subject to credit risk, information about the entity’s access to that collateral or other security?
   d. The nature and a brief description of the collateral or other security supporting those financial instruments?

   b. The maximum amount of the accounting loss due to credit risk that, based on the gross fair value of the financial instrument, the CIRA would incur if parties to the financial instruments that make up the concentration failed completely to perform according to the terms of the contracts and the collateral or other security, if any, for the amount due proved to be of no value to the entity?

**Note:** The following disclosures apply only if SFAS 133, *Accounting for Derivative Instruments and Hedging Activities*, has been adopted. At the time of this checklist update, the FASB issued an exposure draft that would defer the effective date of SFAS 133 to all fiscal quarters for all fiscal years beginning after June 15, 2000. Readers should be alert to the issuance of a final pronouncement.

If the CIRA holds or issues derivative instruments (or nonderivative instruments that are designated and qualify as hedging instruments pursuant to paragraphs 37 and 42 of SFAS 133), has disclosure been made of its objectives for holding or issuing those instruments, the context needed to understand those objectives, and its strategies for achieving those objectives?

17. Does the description distinguish between derivative instruments (and nonderivative instruments) designated as fair value hedging instruments, derivative instruments designated as cash flow hedging instruments and all other derivatives?

18. Does the description also indicate the CIRA’s risk management policy for each of those types of hedges, including a description of the items or transactions for which risks are hedged?

19. For derivative instruments not designated as hedging instruments, does the description indicate the purpose of the derivative activity?

[SFAS 133, par. 44 (AC D50)]

20. Do the CIRA’s disclosures for every reporting period for which a complete set of financial statements is presented also include the following:

a. For derivative instruments designated and qualifying as fair value hedging instruments and for the related hedged items:

   (1) The net gain or loss recognized in the statement of revenues and expenses during the reporting period representing (a) the amount of the hedges’ ineffectiveness and (b) the component of the derivative instruments’ gain or loss, if any, excluded from the assessment of hedge effectiveness?
(2) A description of where the net gain or loss is reported in the statement of revenues and expenses or other statement of financial performance?

(3) The amount of net gain or loss recognized in earnings when a hedged firm commitment no longer qualifies as a fair value hedge?

(2) A description of where the net gain or loss is reported in the statement of revenues and expenses or other statement of financial performance?

(3) A description of the transactions or other events that will result in the reclassification into earnings of gains and losses that are reported in accumulated other comprehensive income?

(4) The estimated net amount of the existing gains or losses at the reporting date that is expected to be reclassified into earnings within the next 12 months?

(5) The maximum length of time over which the CIRA is hedging its exposure to the variability in future cash flows for forecasted transactions excluding those forecasted transactions related to the payment of variable interest on existing financial instruments?

Practice Tip

SAS 62, paragraphs 9 and 10 (AU sec. 623.09 and .10), provides guidance on evaluating the adequacy of disclosure in financial statements prepared in conformity with an other comprehensive basis of accounting.
11. If compiled financial statements that omit substantially all of the disclosures required by GAAP are included among the comparative financial statements, do all the periods presented also omit such disclosures?
   [SSARS 2, par. 5 (AR 200.05)]
   a. If the prior-period financial statements do not omit the required disclosures, and the accountant is requested to compile statements for the same period that do omit those disclosures, does the accountant’s compilation report include an additional paragraph that indicates:
      (1) The nature of the previous service rendered (compilation, review, or audit)?
      [SSARS 2, pars. 29–30 (AR 200.29–.30)]
      ____________________________  ____________________________  ____________________________
      Yes   No   N/A

12. If the level of service performed by a continuing accountant on the current-period financial statements is the same as, or higher than, that performed on the financial statements of the prior period presented, is the report on the prior period updated?
   [SSARS 2, par. 8 (AR 200.08)]

Illustrative Financial Statements

.01 The illustrative financial statements are reproduced from the AICPA Audit and Accounting Guide *Common Interest Realty Associations*. These financial statements are intended to provide sample financial statement formats and disclosures for a hypothetical CIRA. They are not intended to illustrate all disclosures required by GAAP or all of the disclosures covered in the financial statement checklist. The following exhibits illustrate a fund accounting presentation for a condominium, as well as a set of nonfund accounting financial statements for a cooperative housing corporation.

- Exhibits 1.1 through 1.7 illustrate financial statements and supplementary information for a condominium association. Condominiums generally do not hold title to property transferred to them by the developers. Exhibits 1.1 and 1.2 present a balance sheet and a statement of revenues and expenses using fund reporting in a multicolour format with a total funds column for the current and prior years. Exhibit 1.3 illustrates a statement of cash flows using the direct method. Exhibit 1.3A illustrates a statement of cash flows using the indirect method. This set of financial statements reflects an interfund receivable and payable of $20,000, which the board of directors intends for the operating fund to repay to the replacement fund in the next fiscal year. The statements also disclose a transfer of $10,000 from the replacement fund to the operating fund, which is an amount that the board of directors does not intend for the operating fund to repay to the replacement fund.

- The illustrative notes in Exhibit 1.4 include alternative presentations for Note 4, which discloses information about a CIRA's fund for future major repairs and replacements. Alternative A illustrates disclosure based on a study conducted by the board of directors. Alternative B is based on a study conducted by an independent consulting firm. Note 4 also illustrates disclosure for a loan from the replacement fund to the operating fund as well as a permanent transfer.

- Exhibits 1.5 and 1.6 present detailed schedules of actual and budgeted amounts of revenues and expenses for the operating fund and of changes in replacement fund balances. These schedules are not a required part of the basic financial statements; however, if they are included with the financial statements in an auditor-submitted document, the auditor should refer to SAS 29, *Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents*, for reporting guidance.

- Exhibit 1.7 presents required unaudited supplementary information. Alternative A illustrates disclosure based on a study conducted by the board of directors and presents estimates of current replacement costs. Alternative B is based on a study conducted by an independent consulting firm and presents estimates of future replacement costs, which are calculated considering inflation and estimated investment income.

- Exhibits 2.1 through 2.4 present financial statements and notes for a cooperative housing corporation.

- Exhibit 2.5 presents unaudited supplementary information, based on a study conducted by the board of directors, required for a cooperative housing corporation and presents estimates of current replacement costs.

.02 Auditors and accountants of financial statements of CIRAs should be familiar with the rules and regulations of the appropriate state regulator that relate to the form and content of the financial statements.
These illustrative financial statements are intended to provide sample financial statement formats and disclosures for a hypothetical CIRA; they are not intended to illustrate all disclosures required by GAAP or all of the disclosures covered in the financial statement checklist.

XYZ CONDOMINIUM ASSOCIATION, INC.

Notes to Financial Statements
December 31, 19X2 and 19X1

Note 1: Organization

The XYZ Condominium Association is a statutory condominium association organized as a not-for-profit corporation for the purposes of maintaining and preserving common property of the XYZ condominium. The XYZ condominium consists of 800 residential units occupying a site of approximately 10 acres located at __________. The Association began its operations in June 19XX.

Note 2: Summary of Significant Accounting Policies

Pervasiveness of Estimates. The preparation of financial statements to conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fund accounting. The Association uses fund accounting, which requires that funds, such as operating funds and funds designated for future major repairs and replacements, be classified separately for accounting and reporting purposes. Disbursements from the operating fund are generally at the discretion of the board of directors and property manager. Disbursements from the replacement fund generally may be made only for designated purposes.

Interest earned. The board’s policy is to allocate to the replacement fund interest earned on all cash accounts net of income taxes.

Recognition of assets and depreciation policy. The Association recognizes personal property assets at cost. The property is depreciated over its estimated useful life using the straight-line method of depreciation.

Note 3: Owners’ Assessments

Monthly assessments to owners were $103.54 and $94.69 in 19X2 and 19X1. Of those amounts, $25.73 and $22.50 were designated to the replacement fund.

The annual budget and assessments of owners are determined by the board of directors and are approved by the owners. The Association retains excess operating funds at the end of the operating year, if any, for use in future operating periods.

Note 4: Future Major Repairs and Replacements

Alternative A. The Association’s governing documents require that funds be accumulated for future major repairs and replacements. Accumulated funds are held in separate savings accounts and generally are not available for expenditures for normal operations.

The board of directors conducted a study in November 19X2 to estimate the remaining useful lives and the replacement costs of the components of common property. The estimates were obtained from licensed contractors who inspected the property. The table included in the unaudited supplementary information on Future Major Repairs and Replacements is based on the study.
The board is funding for major repairs and replacements over the remaining useful lives of the components based on the study’s estimates of current replacement costs and considering amounts previously accumulated in the replacement fund. Accordingly, the funding requirement of $302,000 has been included in the 19X3 budget.

Funds are being accumulated in the replacement fund based on estimates of future needs for repairs and replacements of common property components. Actual expenditures may vary from the estimated future expenditures, and the variations may be material. Therefore, amounts accumulated in the replacement fund may not be adequate to meet all future needs for major repairs and replacements. If additional funds are needed, the Association has the right, subject to membership approval, to increase regular assessments, pass special assessments, or delay major repairs and replacements until funds are available.

The Association used $30,000 from the replacement fund for operations during 19X2. The board intends to repay $20,000 of that amount during 19X3 and has, therefore, reflected $20,000 as an interfund receivable and payable. The board does not intend to repay $10,000 of the amount and has, therefore, reflected $10,000 as a transfer from the replacement to the operating fund.

**Alternative B.** The Association’s governing documents require that funds be accumulated for future major repairs and replacements. Accumulated funds are held in separate savings accounts and are generally not available for expenditures for normal operations.

The ABC Consulting Company conducted a study in November 19X2 to estimate the remaining useful lives and the replacement costs of the components of common property. The estimates were based on future estimated replacement costs. Funding requirements consider an annual inflation rate of 5 percent and interest of 8 percent, net of taxes, on amounts funded for future major repairs and replacements. The table included in the unaudited supplementary information on Future Major Repairs and Replacements is based on the study.

The board is funding for major repairs and replacements over the remaining useful lives of the components based on the study’s estimates of future replacement costs and considering amounts previously accumulated in the replacement fund. Accordingly, the funding requirement of $374,000 has been included in the 19X3 budget.

Funds are being accumulated in the replacement fund based on estimated future costs for repairs and replacements of common property components. Actual expenditures and investment income may vary from the estimated amounts, and the variations may be material. Therefore, amounts accumulated in the replacement fund may not be adequate to meet all future needs for major repairs and replacements. If additional funds are needed, the Association has the right, subject to membership approval, to increase regular assessments, pass special assessments, or delay major repairs and replacements until funds are available.

The Association used $30,000 from the replacement fund for operations during 19X2. The board intends to repay $20,000 of that amount during 19X3 and has, therefore, reflected $20,000 as an interfund receivable and payable. The board does not intend to repay $10,000 of the amount and has, therefore, reflected $10,000 as a transfer from the replacement to the operating fund.

**Note 5: Federal and State Taxes**

In 19X2, the Association filed its income tax return as a regular corporation. The Association had an excess of expenses for the maintenance of the common property over membership source income. That excess may be carried over to future periods to offset future income from membership sources when the Association files as a regular corporation. In 19X1, the Association elected to file as a homeowner’s association in accordance with Internal Revenue Code section 528. Under that section, the Association excludes from taxation exempt function income, which generally consists of revenue from uniform assessments to owners. In both years, the Association’s investment income and other nonexempt income were subject to tax.
Note 6: Lawsuit Settlements

During 19X1, the Association settled a lawsuit against the developer for defective construction and received a partial settlement of $91,000. During 19X2, the Association received another settlement of $141,000. Legal fees of $10,000 were incurred in connection with that lawsuit.

The following net amounts have been added to the replacement fund:

Note 7: Assessments Receivable

The Association’s policy is to retain legal counsel and place liens on the properties of homeowners whose assessments are 30 days in arrears. As of December 31, 19X2, the Association had assessments receivable of $28,000, of which $22,000 were delinquent. As of February 12, 19X3, judgments and settlements of approximately $15,000 have been received. It is the opinion of the board of directors that the Association will ultimately prevail against the remaining homeowners whose assessments are delinquent, and, accordingly, no allowance for uncollectible accounts is deemed necessary.

Note 1: Organization

ABC Cooperative, Inc., a cooperative housing corporation, was incorporated in the state of New York in April, 19XX. The Corporation owns the eighteen-story building known as ABC Apartments located at ___________ in New York City and consisting of 175 residential apartments and ten commercial units.

Note 2: Summary of Significant Accounting Policies

Pervasiveness of Estimates. The preparation of financial statements to conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Property and Equipment. Property and equipment are stated at cost. Depreciation is computed on the straight-line basis, based on a thirty-year life for the building and a ten-year life for building improvements, furniture, and equipment.

Mortgage refinancing costs. Mortgage refinancing costs are amortized by the interest method over the ten-year term of the loan.

Note 3: Revenue

Carrying charges. Carrying charges are based on an annual budget determined by the board of directors. Tenant-shareholders are billed monthly based on their respective stock holdings. The Corporation retains excess operating funds, if any, at the end of the operating year, for use in future operating periods.

Commercial rent. The Corporation has entered into five-year lease agreements with ten commercial tenants providing for annual rentals aggregating $92,000 with increases based on the Consumer Price Index.

Note 4: Mortgage Note Payable

The Corporation has a mortgage note payable, secured by the land and building, to XYZ Bank of New York with interest at the rate of 10 percent. The aggregate amount of required principal payments at December 31, 19X2 is as follows:

Note 5: Federal and State Taxes

The Corporation is subject to federal and state taxation on net income derived from transactions with nonmembers pursuant to section 277 of the Internal Revenue Code. Income tax expense in 19X2 was $2,000.

Note 6: Future Major Repairs and Replacements

The Corporation's governing documents require that funds be accumulated for future major repairs and replacements. The Corporation has not accumulated those funds. When those funds are needed, the Corporation plans to borrow, increase carrying charges, or delay repairs and replacements until funds are available.

The board of directors conducted a study in November 19X2 to estimate the remaining useful lives and the replacement costs of the components of common property. The estimates were obtained from licensed contractors who inspected the property. The table included in the unaudited supplementary information on Future Major Repairs and Replacements is based on the study.
