Checklists and Illustrative Financial Statements for Common Interest Realty Associations

.01 The checklists and illustrative financial statements included in this section have been developed by the staff of the Accounting and Auditing Publications Team of the AICPA as nonauthoritative technical practice aids. Readers should be aware of the following:

- The checklists and illustrative financial statements do not include all disclosures and presentation items promulgated. Disclosures described by pronouncements whose applicability to CIRAs is deemed remote are not included in this document. [For additional disclosures and promulgations, see December 2002, Checklists and Illustrative Financial Statements for Corporations (AICPA Publication 008933).]

- The checklists and illustrative financial statements are “tools” and in no way represent official positions or pronouncements of the AICPA.

The checklists have been updated to include relevant accounting and auditing pronouncements issued through June 30, 2003:

- Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards (SFAS) No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity

- FASB Interpretation (FASBI) No. 46, Consolidation of Variable Interest Entities

- FASB Emerging Issues Task Force (EITF) consensuses adopted through the June 2003 EITF meeting

- AICPA Statement on Auditing Standards (SAS) No. 101, Auditing Fair Value Measurements and Disclosures

- AICPA Statement of Position (SOP) 02-2, Accounting for Derivative Instruments and Hedging Activities by Not-for-Profit Health Care Organizations, and Clarification of the Performance Indicator

- AICPA Practice Bulletin (PB) No. 15, Accounting by the Issuer of Surplus Notes

- AICPA Statement on Standards for Accounting and Review Services (SSARS) 9, Omnibus Statement on Standards for Accounting and Review Services—2002

- AICPA Audit and Accounting Guide Common Interest Realty Associations (with conforming changes as of May 1, 2003)
• The checklists and illustrative financial statements should be used by, or under the supervision of, persons having adequate technical training and proficiency in the application of generally accepted accounting principles, generally accepted auditing standards, and statements on standards for accounting and review services.

• The checklist questions are to be modified by the user, as needed, for each engagement.

.02 Users of the checklists and illustrative financial statements are urged to refer directly to applicable authoritative pronouncements when appropriate. If you have further questions, call the AICPA Technical Hotline at (888) 777-7077.

Introduction

.01 In the 1960’s new forms of real estate ownership emerged and the terms to describe them, such as condominiums, cooperatives, planned unit development ("PUD") and timeshare development, became common.

*Condominium:* Each owner has title to a defined interior space within a building and an undivided ownership interest in common property within a development, such as the grounds and recreational facilities. A condominium association generally owns no real property but is responsible for maintaining the common property and providing necessary services. In certain jurisdictions, condominiums may be established as condominium trusts; such entities may own the real estate and all the improvements. The accounting and reporting for condominium trusts are the same as for cooperatives.

*Cooperative:* A form of ownership in which a corporation owns the common property, including all of the improvements, and is responsible for its maintenance, debt service, repairs, and so forth. The owners do not own any of the common property, but they own shares of stock of the corporation. The corporation functions in the same way as other common interest realty associations (CIRA) in maintaining common property and providing services.

*Planned Unit Development:* A form of land development in which various structures are clustered for optimal use of the property. A PUD owner buys a lot and improvements on the lot. The title to common property is held by a CIRA, generally a Homeowners’ Association ("HOA").

*Timeshare Development:* A form of ownership in which each owner has a time-share interest, commonly referred to as interval use, that represents a right to use a unit in a time-share development for a specified number of weeks during a year. These types of entities may also be referred to as fractional ownership associations.

.02 A key feature of these forms of real estate ownership is the existence of an association of owners referred to as a common interest realty association (CIRA). A CIRA is responsible for providing certain services and maintaining certain property that all owners share or own in common.

.03 Regardless of the form of ownership of a CIRA, a CIRA member has a defined ownership interest that can be transferred to buyers of the units or shares. Additionally, the CIRA member is entitled to share in the distribution of resources in the event of a liquidation. Membership in a CIRA is generally mandatory for owners and is a condition in the agreement to purchase either a unit in a condominium or shares in a cooperative.

Operating Statutes

.04 The operations of a CIRA are regulated by the individual states and not by the federal government. A CIRA derives authority for all matters from state corporate and not-for-profit statutes, declarations of covenants, master deeds, membership agreements, articles of incorporation, bylaws and board of directors’ actions. Federal regulations, however, apply to the income tax treatment of a CIRA.
Primary Accounting Methods

05 CIRAs should report financial activities using the accrual basis of accounting. Alternatively, the cash basis of accounting may be used if the results of applying that basis do not differ significantly from the results of using the accrual basis.

06 Fund reporting, commonly used by not-for-profit organizations, is recommended for condominium associations and homeowners' associations. The financial statements of a cooperative are generally presented like those of commercial entities. However, a cooperative may present financial statements using fund reporting.

07 CIRAs can generally present unclassified balance sheets. However, CIRAs having significant commercial operations, such as rental operations, should consider presenting classified balance sheets.

Structure of the Checklist

08 Because most CIRAs use fund accounting, the checklist presents the fund accounting guidance first. Any modifications needed to reflect nonfund accounting are presented in italicized text and brackets immediately after the related fund accounting guidance.

Checklists—General

Instructions

.01 These checklists consist of a number of questions or statements that are accompanied by references to applicable authoritative pronouncements. These sources include Statements of Financial Accounting Standards, FASB Interpretations, Accounting Principles Board Opinions, Accounting Research Bulletins, FASB Technical Bulletins, AICPA Audit and Accounting Guides, AICPA Statements on Auditing Standards, AICPA Statements of Position, and EITF consensuses. The checklists provide spaces for checking off or initialing each question or point to indicate that it has been considered. Users should check or initial—

- **Yes**—If the disclosure is required and has been made appropriately.
- **No**—If the disclosure is required but is not made.
- **N/A (Not Applicable)**—If the disclosure is not required to be made.

Users may find it helpful to include references to the place where each disclosure for which a “Yes” is indicated can be found in the financial statements. It may also be helpful to include either on the checklist or elsewhere the reasons that items marked “N/A” do not apply in the circumstances of the particular report.

.02 It is important that the effect of any “No” response be considered on the auditor’s report. A “No” response that is material to the financial statements may warrant the issuance of a qualified or adverse report on the financial statements. (See paragraphs 35–60 of SAS No. 58, *Reports on Audited Financial Statements*, as amended [AICPA, *Professional Standards*, vol. 1, AU sec. 508.35–60]. If a “No” response is indicated, the authors recommend that a notation be made in the margin to explain why the disclosure was not made (for example, because the item was not considered to be material to the financial statements) or to indicate the effect that the response will have on the auditor’s report.

.03 Carefully review the topics listed and consider whether they represent potential disclosure items for the reporting entity for which you are preparing or auditing financial statements. In the right hand margin next to each section is a square cube. Place a checkmark in the cube by those topics or sections that are not applicable and do not complete that section of the checklist.

.04 The use of these or any other checklists requires the exercise of individual professional judgment. These checklists are not substitutes for original authoritative pronouncements. Users of these checklists and illustrative materials are urged to refer directly to applicable authoritative pronouncements when appropriate. The checklists and illustrative materials may not include all disclosures and presentation items promulgated, nor do they represent minimum standards or requirements. Users of the checklists and illustrative materials are encouraged to tailor them as required to meet specific circumstances of each particular engagement.

.05 These checklists and illustrative materials have been prepared by the AICPA staff. They have not been reviewed, approved, disapproved, or otherwise acted on by any senior technical committee of the AICPA and do not represent official positions or pronouncements of the AICPA.

Financial Statements and Notes Checklist

.01 This checklist has been developed by the AICPA Accounting and Auditing Publications Team as a nonauthoritative practice aid for use by accountants in preparing financial statements and by auditors in auditing financial statements. This checklist and the reporting checklists include disclosures commonly encountered in the financial statements of common interest Realty Associations and reporting issues likely to be encountered by accountants who audit, compile, and review these types of financial statements. The checklists do not include all disclosures required by GAAP or address all reporting situations that may be encountered in performing engagements in accordance with GAAS and SSARS. The illustrative financial statements are intended to provide financial statement formats and disclosures for a hypothetical CIRA. They are not intended to illustrate all disclosures required by GAAP, nor do they illustrate all of the disclosures covered in the checklist.

6. Do the CIRA’s disclosures for every reporting period for which a complete set of financial statements is presented also include the following:

Fair Value Hedges

a. For derivative instruments, as well as non-derivative instruments that may give rise to foreign currency transaction gains or losses under SFAS 52, that have been designated and have qualified as fair value hedging instruments and for the related hedged items:

(1) The net gain or loss recognized in the statement of revenues and expenses during the reporting period representing (a) the amount of the hedges’ ineffectiveness and (b) the component of the derivative instruments’ gain or loss, if any, excluded from the assessment of hedge effectiveness, and a description of where the net gain or loss is reported in the statement of revenues and expenses or other statement of financial performance?

b. For derivative instruments that have been designated and have qualified as cash flow hedging instruments and for the related hedged transactions:

(1) The net gain or loss recognized in earnings during the reporting period representing (a) the amount of the hedges’ ineffectiveness and (b) the component of the derivative instruments’ gain or loss, if any, excluded from the assessment of hedge effectiveness, and a description of where the net gain or loss is reported in the statement of revenues and expenses or other statement of financial performance?

(2) A description of the transactions or other events that will result in the reclassification into earnings of gains and losses that are reported in accumulated other comprehensive income, and the estimated net amount of the existing gains or losses at the reporting date that is expected to be reclassified into earnings within the next 12 months?

(3) The maximum length of time over which the CIRA is hedging its exposure to the variability in future cash flows for forecasted transactions excluding those forecasted transactions related to the payment of variable interest on existing financial instruments?

(4) The amount of gains and losses reclassified into earnings as a result of the discontinuance of cash flow hedges because it
is probable that the original forecasted transactions will not occur by the end of the originally specified time period (as documented at the inception of the hedging relationship) or within additional two-month period of time thereafter? [SFAS 133, par. 45b, as amended by SFAS 138, par. 4r (AC D50)]

**Hedges of the Net Investment in a Foreign Operation**

c. For derivative instruments, as well as non-derivative instruments that may give rise to foreign currency transaction gains or losses under SFAS 52, that have been designated and have qualified as hedging instruments for hedges of the foreign currency exposure of a net investment in a foreign operation, the net amount of gains or losses included in the cumulative translation adjustment during the reporting period? [SFAS 133, par. 45c (AC D50)]

7. The quantitative disclosures about derivative instruments may be more useful, and less likely to be perceived to be out of context or otherwise misunderstood, if similar information is disclosed about other financial instruments or non-financial assets and liabilities to which the derivative instruments are related by activity. Accordingly, in such situations, has the CIRA presented a more complete picture of its activities by disclosing that information? *(Encouraged, but not required.)* [SFAS 133, par. 45 (AC D50)]

**Disclosures About Fair Value of Financial Instruments**

8. Has the CIRA disclosed, either in the body of the financial statements or in the accompanying notes, the fair value of financial instruments (except for those excluded in paragraphs 8 and 13 of SFAS 107) for which it is practicable to estimate fair value? [SFAS 107, par. 10 (AC F25)]

9. Has the fair value disclosed in the notes been presented together with the related carrying amount in a form that makes it clear whether the fair value and carrying amount represent assets or liabilities and how the carrying amounts relate to what is reported in the statement of financial position? [SFAS 107, par. 10 (AC F25)]

10. In disclosing the fair value of a financial instrument, has the CIRA taken care not to net that fair value with the fair value of other financial instruments—even if those financial instruments are of the same class or are otherwise considered to be related, for example, by a risk management strategy—except to the extent that the offsetting of carrying amounts in the statement of financial position is permitted under the general principle in paragraphs 5 and 6 of FASB 39, *Offsetting of Amounts Related to Certain Contracts*, or the exceptions for master netting arrangements in paragraph 10 of FASB 39 and for amounts related to certain repurchase and reverse repurchase agreements in paragraphs 3 and 4 of FASB 41, *Offsetting of Amounts Related to Certain Repurchase and Reverse Repurchase Agreements*? [SFAS 107, par. 14 (AC F25)]

11. If it is not practicable to estimate the fair value of a financial instrument or a class of financial instruments, are the following disclosed:

---

1 If disclosed in more than a single note, one of the notes shall include a summary table. The summary table shall contain the fair value and related carrying amounts and cross-references to the location(s) of the remaining disclosures required by this Statement as amended.
Disclosures

Note: public modified December 12.

14. The reasons why it is not practicable to estimate fair value?
   [SFAS 107, par. 14 (AC F25)]

Disclosures About Certain Financial Instruments With Characteristics of Both Liabilities and Equity

Note: SFAS 150 is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003, except for mandatorily redeemable financial instruments of nonpublic entities. For nonpublic entities, mandatorily redeemable financial instruments are subject to the provisions of SFAS 150 for the first fiscal period beginning after December 15, 2003.

12. For items within the scope of SFAS 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity, are they presented as liabilities (or assets in some circumstances)?
   [SFAS 150, par. 18]

13. For financial instruments issued that fall within the scope of SFAS 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity, are the nature and terms of the financial instruments and the rights and obligations embodied in those instruments disclosed?
   [SFAS 150, par. 26]

14. If the above is disclosed, does it include information about settlement alternatives, if any, in the contract and identify the entity that controls the settlement alternatives?
   [SFAS 150, par. 26]

15. Additionally, for all outstanding financial instruments within the scope of SFAS 150 and for each settlement alternative, do issuers disclose:
   a. The amount that would be paid, or the number of shares that would be issued and their fair value, determined under the conditions specified in the contract if the settlement were to occur at the reporting date?
   [SFAS 150, par. 27]

   b. How changes in the fair value of the issuer's equity shares would affect those settlement amounts (for example, "the issuer is obligated to issue an additional x shares or pay an additional y dollars in cash for each $1 decrease in the fair value of one share")?

   c. The maximum amount that the issuer could be required to pay to redeem the instrument by physical settlement, if applicable?

   d. The maximum number of shares that could be required to be issued, if applicable?

   e. That a contract does not limit the amount that the issuer could be required to pay or the number of shares that the issuer could be required to issue, if applicable?

   f. For a forward contract or an option indexed to the issuer's equity shares, the forward price or option strike price, the number of issuer's shares to which the contract is indexed, and the settlement date or dates of the contract, as applicable?
   [SFAS 150, par. 27]
16. For financial instruments in the form of shares, all of which are manda-
torily redeemable financial instruments, are they classified as liabilities
and described as “shares subject to mandatory redemption”?

**Practice Tip**

SFAS 126, *Exemption from Certain Required Disclosures about Financial Instruments for Certain Non-public Entities*, as amended, makes the disclosure about fair values of financial instruments prescribed in SFAS 107 optional for reporting entities that:

- Are nonpublic entities
- Have total assets of less than $100 million on the date of the financial statements, and
- Have no instrument that, in whole or in part, is accounted for as a derivative instrument under FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*, other than commitments related to the origination of mortgage loans to be held for sale during the reporting period.

disclosed all significant concentrations of credit risk arising from all
financial instruments, whether from an individual counterparty or

number of counterparties are engaged in similar economic character-
istics that would cause their ability to meet contractual obligations
to be similarly affected by changes in economic or other conditions)?

---

\(^3\) Appropriate ways of reporting the quantitative information encouraged will differ for different CIRAs and will likely evolve over time as management approaches and measurement techniques evolve. Possibilities include disclosing (a) more details about current positions and perhaps activity during the period, (b) the hypothetical effects on comprehensive income (or net assets), or annual income, of several possible changes in market prices, (c) a gap analysis of interest rate re-pricing or maturity dates, (d) the duration of the financial instruments, or (e) the CIRA's value at risk from derivatives and from other positions at the end of the reporting period and the average value at risk during the year. 4. For product warranties and other guarantee contracts, collectively referred to as product warranties, is the following information disclosed:
   a. The guarantor’s accounting policy and methodology used in determining its liability for product warranties?

If the CIRA presents budget information for expired periods that accompanies audited financial statements in an auditor-submitted document, is that information reported on in accordance with SAS 29, Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents?

[AAG, par. 7.47]

31. If an accountant assists a CIRA in preparing its budget, have the reporting provisions of SSAE No. 10, Attestation Standards: Revision and Recodification, Chapter 3 “Financial Forecasts and Projections” been considered?

[AAG, par. 7.48]

Practice Tip

SAS 87, Restricting the Use of an Auditor’s Report, provides guidance to auditors in determining whether an engagement requires a restricted-use report and, if so, what elements to include in that report.

.02 This checklist is divided into two parts. Part I should be used by accountants engaged to compile financial statements, and Part II should be used by accountants engaged to review financial statements.

.03 Explanation of References:

AAG = AICPA Audit and Accounting Guide Common Interest Realty Associations (with conforming changes as of May 1, 2003)

SSARS = AICPA Statement on Standards for Accounting and Review Services

AR = Reference to section number in AICPA Professional Standards (vol. 2)

3. For compiled financial statements that contain departures\(^1\) from generally accepted accounting principles (GAAP) or, where applicable, an other comprehensive basis of accounting (OCBOA):

   a. If the departure is the omission of substantially all required disclosures, does the accountant's report clearly indicate such omission?  
      [SSARS 1, pars. 16 and 18 (AR 100.16 and .18)]

   b. If compiled financial statements that omit substantially all of the disclosures required by GAAP include disclosures about only a few matters, are such disclosures labeled “Selected Information—Substantially All Disclosures Required by GAAP or (OCBOA) Are Not Included”?  
      [SSARS 1, par. 16 (AR 100.16)]

   [SSARS 1, par. 42, fn. 23 (AR 100.42, fn. 23)]

1. Has one of the following two options been performed:
   a. Issue a compilation report in accordance with the reporting requirements discussed in AR section 100.11-19 and therefore comply with the requirements of Part I of this checklist?
   b. Document an understanding with the entity through the use of an engagement letter, preferably signed by management, regarding the services to be performed and the limitations on the use of those financial statements?
      [SSARS 8, par. 20]

2. If the option to document an understanding is followed, does the documentation of the understanding include the following descriptions or statements:
   a. The nature and limitations of the services to be performed?
   b. A compilation is limited to presenting in the form of financial statements information that is the representation of management?
   c. The financial statements will not be audited or reviewed?
   d. No opinion or any other form of assurance on the financial statements will be provided?

   f. Acknowledgement of management’s representation and agreement that the financial statements are not to be used by third parties.
   g. The engagement cannot be relied upon to disclose errors, fraud, or illegal acts.
      [SSARS 8, par. 21]

   3. A statement that a review consists principally of inquiries of company personnel and analytical procedures applied to financial data?

   or:

   c. The other data accompanying the financial statements are presented only for supplementary analysis purposes and have not been subjected to the inquiry and analytical procedures applied in the review of the basic financial statements, but were compiled from information that is the representation of management, without audit or review, and the accountant does not express an opinion or any other form of assurance on such data.

FSP Section 4600

Illustrative Financial Statements

.01 The illustrative financial statements are reproduced from the AICPA Audit and Accounting Guide Common Interest Realty Associations. These financial statements are intended to provide sample financial statement formats and disclosures for a hypothetical CIRA. They are not intended to illustrate all disclosures required by GAAP or all of the disclosures covered in the financial statement checklist. The following exhibits illustrate a fund accounting presentation for a condominium, as well as a set of nonfund accounting financial statements for a cooperative housing corporation.

- Exhibits A-1 through A-8 illustrate financial statements and supplementary information for a condominium association. Condominiums generally do not hold title to property transferred to them by the developers. Exhibits A-1 and A-2 present a balance sheet and a statement of revenues and expenses using fund reporting in a multicolumn format with a total funds column for the current and prior years. Exhibit A-3 illustrates a statement of cash flows using the direct method. Exhibit A-4 illustrates a statement of cash flows using the indirect method. This set of financial statements reflects an interfund receivable and payable of $20,000, which the board of directors intends for the operating fund to repay to the replacement fund in the next fiscal year. The statements also disclose a transfer of $10,000 from the replacement fund to the operating fund, which is an amount that the board of directors does not intend for the operating fund to repay to the replacement fund.

- The illustrative notes in Exhibit A-5 include alternative presentations for Note 4, which discloses information about a CIRA's fund for future major repairs and replacements. Alternative A illustrates disclosure based on a study conducted by the board of directors. Alternative B is based on a study conducted by an independent consulting firm. Note 4 also illustrates disclosure for a loan from the replacement fund to the operating fund as well as a permanent transfer.

- Exhibits A-6 and A-7 present detailed schedules of actual and budgeted amounts of revenues and expenses for the operating fund and of changes in replacement fund balances. These schedules are not a required part of the basic financial statements; however, if they are included with the financial statements in an auditor-submitted document, the auditor should refer to SAS 29, Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents, for reporting guidance.

- Exhibit A-8 presents required unaudited supplementary information. Alternative A illustrates disclosure based on a study conducted by the board of directors and presents estimates of current replacement costs. Alternative B is based on a study conducted by an independent consulting firm and presents estimates of future replacement costs, which are calculated considering inflation and estimated investment income.

- Exhibits A-14 through A-17 present financial statements and notes for a cooperative housing corporation.

- Exhibit A-18 presents unaudited supplementary information, based on a study conducted by the board of directors, required for a cooperative housing corporation and presents estimates of current replacement costs.

.02 Auditors and accountants of financial statements of CIRAs should be familiar with the rules and regulations of the appropriate state regulator that relate to the form and content of the financial statements.

* In September 2002, the Auditing Standards Board (ASB) issued SAS No. 98, Omnibus Statement on Auditing Standards—2002, which among other matters amends SAS No. 29 by clarifying the reporting guidance with respect to required supplementary information.
These illustrative financial statements are intended to provide sample financial statement formats and disclosures for a hypothetical CIRA; they are not intended to illustrate all disclosures required by GAAP or all of the disclosures covered in the financial statement checklist.

Note 1: Organization
The XYZ Condominium Association is a statutory condominium association organized as a not-for-profit corporation for the purposes of maintaining and preserving common property of the XYZ condominium. The XYZ condominium consists of 800 residential units occupying a site of approximately 10 acres located at __________. The Association began its operations in June 20XX.

Note 2: Summary of Significant Accounting Policies

Pervasiveness of Estimates. The preparation of financial statements to conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fund accounting. The Association uses fund accounting, which requires that funds, such as operating funds, deferred maintenance funds, and funds designated for future major repairs and replacements, be classified separately for accounting and reporting purposes. Disbursements from the operating fund are generally at the discretion of the board of directors and property manager. Disbursements from the replacement fund generally may be made only for designated purposes.

Interest earned. The board’s policy is to allocate to each fund interest earned on all cash accounts net of income taxes.

Recognition of assets and depreciation policy. The Association recognizes personal property assets at cost. The property is depreciated over its estimated useful life using the straight-line method of depreciation.

Note 3: Owners’ Assessments
Monthly assessments to owners were $103.54 and $94.69 in 20X2 and 20X1. Of those amounts, $25.73 and $22.50 were designated to the replacement fund.

The annual budget and assessments of owners are determined by the board of directors and are approved by the owners. The Association retains excess operating funds at the end of the operating year, if any, for use in future operating periods.

Note 4: Future Major Repairs and Replacements

Alternative A. The Association’s governing documents require that funds be accumulated for future major repairs and replacements. Accumulated funds are held in separate savings accounts and generally are not available for expenditures for normal operations.

The board of directors conducted a study in November 20X2 to estimate the remaining useful lives and the replacement costs of the components of common property. The estimates were obtained from licensed contractors who inspected the property. The table included in the unaudited supplementary information on Future Major Repairs and Replacements is based on the study.
The board is funding for major repairs and replacements over the remaining useful lives of the components based on the study’s estimates of current replacement costs and considering amounts previously accumulated in the replacement fund. Accordingly, the funding requirement of $302,000, based on a full funding plan, has been included in the 20X3 budget.

Funds are being accumulated in the replacement fund based on estimates of future needs for repairs and replacements of common property components. Actual expenditures may vary from the estimated future expenditures, and the variations may be material. Therefore, amounts accumulated in the replacement fund may not be adequate to meet all future needs for major repairs and replacements. If additional funds are needed, the Association has the right, subject to membership approval, to increase regular assessments, pass special assessments, or delay major repairs and replacements until funds are available.

The Association used $30,000 from the replacement fund for operations during 20X2. The board intends to repay $20,000 of that amount during 20X3 and has, therefore, reflected $20,000 as an interfund receivable and payable. The board does not intend to repay $10,000 of the amount and has, therefore, reflected $10,000 as a transfer from the replacement to the operating fund.

Alternative B. The Association’s governing documents require that funds be accumulated for future major repairs and replacements. Accumulated funds are held in separate savings accounts and are generally not available for expenditures for normal operations.

The ABC Consulting Company conducted a study in November 20X2 to estimate the remaining useful lives and the replacement costs of the components of common property. The estimates were based on future estimated replacement costs. Funding requirements consider an annual inflation rate of 5 percent and interest of 8 percent, net of taxes, on amounts funded for future major repairs and replacements. The table included in the unaudited supplementary information on Future Major Repairs and Replacements is based on the study.

The board is funding for major repairs and replacements over the remaining useful lives of the components based on the study’s estimates of future replacement costs and considering amounts previously accumulated in the replacement fund. Accordingly, the funding requirement of $374,000, based on a threshold funding plan, has been included in the 20X3 budget.

Funds are being accumulated in the replacement fund based on estimated future costs for repairs and replacements of common property components. Actual expenditures and investment income may vary from the estimated amounts, and the variations may be material. Therefore, amounts accumulated in the replacement fund may not be adequate to meet all future needs for major repairs and replacements. If additional funds are needed, the Association has the right, subject to membership approval, to increase regular assessments, pass special assessments, or delay major repairs and replacements until funds are available.

The Association used $30,000 from the replacement fund for operations during 20X2. The board intends to repay $20,000 of that amount during 20X3 and has, therefore, reflected $20,000 as an interfund receivable and payable. The board does not intend to repay $10,000 of the amount and has, therefore, reflected $10,000 as a transfer from the replacement to the operating fund.

Note 5: Federal and State Taxes

In 20X2, the Association filed its income tax return, form 1120, as a regular corporation. The Association had an excess of expenses for the maintenance of the common property over membership source income. That excess may be carried over to future periods to offset future income from membership sources when the Association files as a regular corporation. In 20X1, the Association elected to file as a homeowner’s association in accordance with Internal Revenue Service Code section 528, using form 1120-H. Under that section, the Association excludes from taxation exempt function income, which generally consists of revenue from uniform assessments to owners. In both years, the Association’s investment income and other nonexempt income were subject to tax.
Note 6: Lawsuit Settlements

During 20X1, the Association settled a lawsuit against the developer for defective construction and received a partial settlement of $91,000. During 20X2, the Association received another settlement of $141,000. Legal fees of $10,000 were incurred in connection with that lawsuit.

The following net amounts have been added to the replacement fund:

Note 7: Assessments Receivable

The Association’s policy is to retain legal counsel and place liens on the properties of homeowners whose assessments are 30 days in arrears and therefore considered delinquent. As of December 31, 20X2, the Association had assessments receivable of $28,000, of which $22,000 were delinquent. As of February 12, 20X3, judgments and settlements of approximately $15,000 have been received. It is the opinion of the board of directors that the Association will ultimately prevail against the remaining homeowners whose assessments are delinquent, and, accordingly, no allowance for uncollectible accounts is deemed necessary.

The ABC Consulting Company conducted a study in November 20X2 to estimate the remaining useful lives and the replacement costs of the components of common property. The estimates were based on future estimated replacement costs. Funding requirements consider an annual inflation rate of 5 percent and interest rate of 8 percent, net of taxes, on amounts funded for future major repairs and replacements.

The following table is based on the study and presents significant information about the components of common property.

Exhibit A-17
ABC COOPERATIVE, INC. (A COOPERATIVE HOUSING CORPORATION)
Notes to Financial Statements
December 31, 20X2

Note 1: Organization
ABC Cooperative, Inc., a cooperative housing corporation, was incorporated in the state of New York in April, 20XX. The Corporation owns the eighteen-story building known as ABC Apartments located at ___________ in New York City and consisting of 175 residential apartments and ten commercial units.

Note 2: Summary of Significant Accounting Policies

Pervasiveness of Estimates. The preparation of financial statements to conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Property and Equipment. Property and equipment are stated at cost. Depreciation is computed on the straight-line basis, based on a thirty-year life for the building and a ten-year life for building improvements, furniture, and equipment.

Mortgage refinancing costs. Mortgage refinancing costs are amortized by the interest method over the ten-year term of the loan.

Note 3: Revenue

Carrying charges. Carrying charges are based on an annual budget determined by the board of directors. Tenant-shareholders are billed monthly based on their respective stock holdings. The Corporation retains excess operating funds, if any, at the end of the operating year, for use in future operating periods.

Commercial rent. The Corporation has entered into five-year lease agreements with ten commercial tenants providing for annual rentals aggregating $92,000 with increases based on the Consumer Price Index.

Note 4: Mortgage Note Payable

The Corporation has a mortgage note payable, secured by the land and building, to XYZ Bank of New York with interest at the rate of 10 percent. The aggregate amount of required principal payments at December 31, 20X2 is as follows:

<table>
<thead>
<tr>

FSP §4600.14
Note 5: Federal and State Taxes
The cooperative pays federal taxes on net income from patronage and non-patronage income in accordance with Subchapter T. Income tax expense in 20X2 was $2,000.

Note 6: Future Major Repairs and Replacements
The Corporation’s governing documents require that funds be accumulated for future major repairs and replacements. The Corporation has not accumulated those funds. When those funds are needed, the Corporation plans to borrow, increase carrying charges, or delay repairs and replacements until funds are available.¹

The board of directors conducted a study in November 20X2 to estimate the remaining useful lives and the replacement costs of the components of common property. The estimates were obtained from licensed contractors who inspected the property. The table included in the unaudited supplementary information on Future Major Repairs and Replacements is based on the study.

¹ Many co-ops have no corporate requirement for reserves; some have a requirement as a condition of a loan. Some states have statutes dealing with reserves, most are vague, but not all. For instance Florida has the opt-out provision for reserves and Hawaii has specific language and examples that address the calculation of reserve fund status.
