These checklists for corporations have not been approved, disapproved, or otherwise acted upon by any senior technical committees of the American Institute of Certified Public Accountants or the Financial Accounting Standards Board and have no official or authoritative status.

American Institute of Certified Public Accountants
The checklists included in this section have been developed by the staff of the Technical Information Division of the AICPA as nonauthoritative technical practice aids. Readers should be aware of the following:

- The checklists are "tools" and in no way represent official positions or pronouncements of the AICPA.

- The checklists have been updated through SAS No. 51, SSARS No. 6, FASB Statement of Financial Accounting Standards No. 93, FASB Interpretation No. 38, and FASB Technical Bulletin No. 87-1. The checklists should be modified, as appropriate, for subsequent pronouncements. In determining the applicability of a pronouncement, its effective date should also be considered.

- The checklists should be used by or under the supervision of persons having adequate technical training and proficiency in the application of generally accepted accounting principles, generally accepted auditing standards, and statements on standards for accounting and review services.

- The checklists do not represent minimum requirements and do not purport to be all inclusive. The checklists were developed for use in respect of the financial statements of general "for profit" companies and probably will require extensive modification if applied to the financial statements of "not-for-profit" organizations and companies in specialized industries. Section 8500 includes a list of FASB Statements and Interpretations related to specialized industries which are not included in this checklist.

Users of these checklists are urged to refer directly to applicable authoritative pronouncements when appropriate. If you have any further questions, call the AICPA Technical Hotline (see back cover).

Disclosure Checklists—General

.01 Many auditors and accountants find it helpful to use checklists as practice aids in the preparation of financial statements and reports. Some firms have developed their own checklists for internal use, and may also have specialized checklists to meet the needs of their practices, such as checklists for clients in particular industries or clients that report to the SEC. Some state CPA societies have developed checklists as practice aids which may be available to other practitioners as well as to their own members. Some commercial publishers also include checklists in certain of their publications. However, authoritative literature does not require the use of such checklists, nor does it prescribe their format or content, which vary.

.02 Checklists typically consist of a number of brief questions or statements that are accompanied by references to Statements on Auditing Standards, Statements on Standards for Accounting and Review Services, Statements of Financial Accounting Standards, Accounting Principles Board Opinions, and Accounting Research Bulletins. Some checklists also include references to FASB Interpretations and to selected SEC disclosure requirements. The extent of detail included in checklists varies with the judgment of the preparers on how extensively to refer to and highlight authoritative literature without developing a checklist that is too long and unwieldy. Accordingly, checklists may serve as convenient memory aids but cannot be used as a substitute for direct reference to the authoritative literature.

.03 Checklists usually provide for checking off or initialing each question or point to show that it has been considered. The format used in these sections is a typical one; it provides for "yes," "no," and "not applicable" answers and presumes that remarks would be prepared on separate cross-referenced memorandums. Some preparers, however, prefer to include space for remarks in the body of the checklist while others prefer alternative checklist formats. For example, a checklist format may provide for the following set of answers: "not applicable," "not material," "in statements" and "in note" (with provisions for indicating a cross reference to the specific statement caption or note). Another format may provide for only two answers, "disclosed" and "not applicable." Firms and practitioners who develop their own checklists should adopt formats that suit their needs and preferences.
Disclosure checklists are generally accompanied by caveats that include all of the following points:

- Use of the checklists requires the exercise of individual professional judgment and may likely require some modification based on the circumstances of individual engagements.
- The checklists are not all inclusive and are not intended to present minimum requirements.
- Users need to modify the checklists for any pronouncements issued subsequent to those mentioned in the checklist.

If widespread circulation is expected, the preparers also generally stress the nonauthoritative or unofficial status of the checklists and disclaim responsibility for the way they may be used.

(2) Whether the disclosed basis of accounting used has been applied in a consistent manner?  

[SAS 51, par. 9 (AU 534.09)]

2If the auditor concludes that the financial statements are not presented fairly on the basis of accounting described, all of the substantive reasons for that conclusion would be disclosed in an additional explanatory paragraph(s) of the report, and the opinion paragraph should include appropriate modifying language as well as a reference to the explanatory paragraph(s). [SAS 51, par. 9 (AU 534.09)]

1A nonpublic entity is any entity other than (a) one whose securities trade in a public market either on a stock exchange (domestic or foreign) or in the over-the-counter market, including securities quoted only locally or regionally, (b) one that makes a filing with a regulatory agency in preparation for the sale of any class of its securities in a public market, or (c) a subsidiary, corporate joint venture, or other entity controlled by an entity covered by (a) or (b) [SSARS No. 2, par. 1 (AR section 200.01)]. This matter is discussed further in Accounting and Review Services Interpretation No. 2 of SSARS No. 1, "Financial Statements Included in SEC Filings," (AR section 9100.03-.05).
A compilation is limited to presenting in the form of financial statements information that is the representation of management (owners)?
[See SSARS No. 3, par. 3 (AR 300.03) for different wording that may be used when the financial statements are included in a prescribed form and the form or related instructions call for departure from generally accepted accounting principles.]

The financial statements have not been audited or reviewed and, accordingly, the accountant does not express an opinion or any other form of assurance on them?
[SSARS No. 1, par. 14 (AR 100.14); SSARS No. 5, par. 1 (AR 500.01)]

b. For reviewed financial statements does the report state that:

A review was performed in accordance with standards established by the American Institute of Certified Public Accountants?

All information included in the financial statements is the representation of the management (owners) of the entity?

A review consists principally of inquiries of company personnel and analytical procedures applied to financial data?

A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements taken as a whole and, accordingly, no such opinion is expressed?

The accountant is not aware of any material modification that should be made to the financial statements in order for them to be in conformity with generally accepted accounting principles or, where applicable, with
another comprehensive basis of accounting, other than those modifications, if any, indicated in his report?

[SSARS No. 1, par. 20 (AR 100.20)]

Yes No N/A
