Philadelphia, Pa. Dear Sir -

I am in receipt of your letter in which you state that you will be unable to go to the Board of Trustees in the matter of the petition for admission to the State Bar of Regents. You state that the advantages granted by this State would be of no benefit to you. You are requested to advise the Board of Regents of the above mentioned facts and to advise them of the proper course to be taken in the matter of the petition for admission to the State Bar of Regents.

Dear Sir:

I am in receipt of your favor of the 5th inst. and in reply thereto would state that all present & organized members of the profession are eligible to membership in the Association. The qualifications &c. are fully set forth in the copy of Constitution and By Laws herewith enclosed. The American Association of Public Accountants holds the relation of parent to the New York School of Accountants the Board of Directors of the State of New York thereby legally recognizing its members as professional men. Hitherto the profession has been regarded as a vocation but has not until now attained a legal professional status. Owing to the efforts of these

A
 Association now successfully brought
 to a focus a membership is now vested
 with a peculiar status in the eyes of the pub-
 lic as the possessors of law and medicine.
 You will observe therefore that a mem-
 bership with a main body of Accountants
 practicing in these and other States carries
 with it the sanction and approval of the
 highest educational body of the State the
 laws being founded upon the professions
 hereinbefore mentioned the effect of which
 is already shown by the manner in which
 the Courts of Law and the public generally
 regard members of this Association.
 In case you desire to become a member
 and avail yourself of the advantages
 accruing thereto I enclose blank appli-
 cation and shall be pleased to present
 your name to the Trustees for action.

Dear Sir:

Your favor of the 17th inst., addressed to J. T. Arvon Esq, one of our Trustees, has been forwarded to me and in reply thereto would say that the best way for you to be of service to the profession is to join the Association and thereby help along the good cause. In order that you may do so understandingly I enclose copy of the constitution and Bylaws together with a blank form of application for membership, which if you sign and return to me I will take pleasure in

placing before the Board of Trustees for
action.

Whether you are eligible to become a

in a professional way, doubtless he
would vouch for you to the Trustees.

Dear Sir,

I am in receipt of your letter of 22nd inst, and I thank you for the kind expressions contained therein.

The American Association of Public Accountants holds the relation of parent to the New York School of Accounts which however is a distinct organization established under a University Charter, and subject to all rules and regulations of the University. (You will therefore perceive that it is impossible to issue a diploma unless a full course of study in the school has been followed.) The University however, through

the New York School of Accounts recognizes the efficacy of the present institution, its members being practically post-graduates and the value of such membership fully demonstrated by the recognition received in the law courts and the business world, preference always being given.

Inasmuch as legislation has been commenced with a view that public accountants shall not practice without University license or recognition, this Association is desirous at the present time of giving all who desire to come into the fold a chance to establish their status before the door of admission is made more difficult. The Association takes this ground in order that there shall be none who can say in the future that the opportunity was never presented. A copy of the constitution & bylaws herewith

Dear Sir.

Your letter of March 25th to hand.
With reference to query on fees would say that
the Association has not made any scale or rule
for governing fees or charges. - There is however,
a tacit understanding that the charge for a
principal is \$ 25 per day of 8 hours, or 7 hours
actual working time, which we much prefer to
a fee.

Concerning instruction to be given at the
School of Accountants, it is understood that every
class of accounts will be treated thoroughly
and exhaustively by competent expert accountants
each of whom will teach from actual experience
in his own business. -

Dear Sir,

In reply to your letter of yesterday would state that all present recognized members of the profession are eligible to membership in the Association. The qualifications etc are fully set forth in the copy of Constitution & by laws herewith enclosed. The American Association of Public Accountants holds the relation of parent to the New York School of Accounts, the University of the State of New York thereby legally recognizing its members as professional men. - Hitherto the profession has been regarded as a vocation but has not until now attained a legal professional status. -

2

March 28th 93.

Owing to the efforts of this Association now successfully brought to a focus, a membership is now vested with a similar status in the eyes of the public as the professions of law and medicine. - You will observe therefore that a membership with a main body of Accountants practicing in this and other States carries with it the sanction and approval of the highest educational body of the State, the lines being founded upon the professions herein before mentioned, the effect of which is already shown by the manner in which the courts of law and the public generally regard members of this Association. -

In case you desire to become a member and avail yourself of the advantages

March 28th 90

according thereto I enclose blank application and shall be pleased to put out your name to the Trustees for action. -

The policy of the Association is to unite as far as possible all members of the profession and it is understood and believed that in the near future very favorable additional legislation will be enacted to further the interests of all our members. - We have members in many States & expect we long to have many members in every State.

Very truly yours

Dear Sir,

I am in receipt of your letter of 10th inst. The American Association of Public Accountants holds the relation of parent to the Two Year School of Accounts which however is a distinct organization established under a University Charter, and subject to all rules and regulations of the University.

If you care to impress the foregoing features upon the minds of the gentlemen you have interviewed, I think it would make the matter so clear to them, that they would not hesitate to join the Association, and on hearing from them would be pleased to forward application papers. -

Certainly there has not been any intentional

I entirely agree with you that the time is getting very close at hand when the school must open, and that the necessary that there should be a full attendance of the Faculty.

We have undertaken a matter of considerable importance, and although it may be the fact that professional accounts of the present time will have to undergo some considerable amount of trials and tribulations, yet it must be always borne in mind that there is a large future before us, and the inconveniences to which we are obliged to subject ourselves at present, it will be more than offset by the benefits which will undoubtedly accrue in the future.

Dear Walden:

Monday's meeting was an interesting one & considerable business was transacted; in fact everything is in order for starting next Tuesday, evening. The Dean suggested and promised that he would bring several of his educational & business friends to the opening night in addition to those whom we shall invite in the regular way. The Dean remarked that it was very important upon him as Dean & upon you as President of the School to be prepared with some interesting remarks suitable to the occasion. He also requested some of the members to say something. In order to give you timely notice to prepare your little plaid. I thought I had better advise you. Things are looking well, & more
