Checklists and Illustrative Financial Statements for Corporations

Instructions

General

.01 This publication includes:

- **Financial Statements and Notes Checklist**—For use by preparers of financial statements and by practitioners who audit, review or compile them as they evaluate the adequacy of disclosures.

- **Auditors' Report Checklist**—For use by auditors in reporting on audited financial statements.

- **Accountants' Compilation and Review Report Checklist**—For use by accountants in reporting on compiled or reviewed financial statements of nonpublic business enterprises.

- **Basic Financial Statement Formats**—Illustrating formats commonly used to present financial statements.

- **Illustrative Financial Statements**—Illustrating a full set of financial statements.

.02 These checklists and illustrative materials have been developed by the AICPA Accounting and Auditing Publications Staff to serve as nonauthoritative practice aids for use by preparers and auditors of financial statements. The auditor's report checklist addresses those requirements most likely to be encountered when reporting on financial statements of a commercial enterprise prepared in conformity with generally accepted accounting principles (GAAP). It does not include reporting requirements relating to other matters such as internal control, agreed-upon procedures, etc. The financial statement and notes checklist includes disclosures that should be considered by commercial corporations in preparing financial statements in conformity with generally accepted accounting principles. The checklist does not include disclosures that are applicable only to entities in specific industries (such as insurance enterprises, not-for-profit organizations, etc.); nor does it include disclosures prescribed by pronouncements whose applicability to commercial corporations is considered to be remote.

.03 Users of the financial statements and notes checklist should remember that it is a disclosure checklist only and not a comprehensive GAAP application or measurement checklist. Accordingly, application and measurement issues related to preparing financial statements in conformity with GAAP are not included in the checklist.

.04 The financial statements and notes checklist has been updated to include relevant disclosure guidance in accounting pronouncements issued through November 30, 2001. Those pronouncements include:

- **FASB Statement No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets**

- **FASB Interpretation No. 44, Accounting for Certain Transactions Involving Stock Compensation—an Interpretation of APB Opinion No. 25**

- **FASB Technical Bulletin No. 01-1, Effective Date for Certain Financial Institutions of Certain Provisions of Statement 140 Related to the Isolation of Transferred Financial Assets**
Corporations

- EITF Consensuses adopted through the September 2001 Emerging Issues Task Force (EITF) meeting
- AcSEC Practice Bulletin No. 15, Accounting by the Issuer of Surplus Notes
- AICPA Statement of Position 01-4, Reporting Pursuant to the Association for Investment Management and Research Performance Presentation Standards

.05 The auditor's and accountant's reporting checklists have been updated to include reporting requirements in pronouncements issued through November 30, 2001. Those pronouncements include:

- AICPA Statement on Auditing Standards (SAS) No. 94, The Effect of Information Technology on the Auditor's Consideration of Internal Control in a Financial Statement Audit
- AICPA Statement on Standards for Accounting and Review Services, No. 8, Amendment to Statement on Standards for Accounting and Review Services 1, Compilation and Review of Financial Statements Omnibus Statement on Standards for Accounting and Review Services—1992

.06 These checklists contain numerous references to authoritative accounting and auditing pronouncements. Abbreviations and acronyms used in such references include the following:

Instructions

.07 These checklists consist of a number of questions or statements that are accompanied by references to applicable authoritative pronouncements. The checklists provide spaces for checking off or initialing each question or point to indicate that it has been considered. Users should check or initial—

- Yes—If the disclosure is required and has been made appropriately.
- No—If the disclosure is required but is not made.
- N/A (Not Applicable)—If the disclosure is not required to be made.

Users may find it helpful to include references to the place where each disclosure for which a "Yes" is indicated can be found in the financial statements. It may also be helpful to include either on the checklist or elsewhere the reasons that items marked "N/A" do not apply in the circumstances of the particular report.

FSP §6000.05
.08 It is important that the effect of any “No” response be considered on the auditor’s report. A “No” response that is material to the financial statements may warrant the issuance of a qualified or adverse report on the financial statements. (See paragraphs 35–60 of SAS No. 58, Reports on Audited Financial Statements, as amended [AICPA, Professional Standards, vol. 1, AU sec. 508.35–60]. If a “No” response is indicated, the authors recommend that a notation be made in the margin to explain why the disclosure was not made (for example, because the item was not considered to be material to the financial statements) or to indicate the effect that the response will have on the auditor’s report.

.09 The financial statements and notes checklist is organized into six discrete sections. Disclosures listed in the General, Balance Sheet, Income Statement, Statement of Cash Flows, and Summary of Significant Accounting Policies sections are common to most commercial corporations. Those listed in the Other Financial Statement Disclosures section are required only when circumstances dictate. Carefully review the topics listed and consider whether they represent potential disclosure items for the reporting entity for which you are preparing or auditing financial statements. Place a check mark by the topics or sections that are applicable and complete those sections of the checklist. Other sections may be marked “N/A” or left blank.

.10 The use of these or any other checklists requires the exercise of individual professional judgment. These checklists are not substitutes for original authoritative pronouncements. Users of these checklists and illustrative materials are urged to refer directly to applicable authoritative pronouncements when appropriate. The checklists and illustrative materials may not include all disclosures and presentation items promulgated, nor do they represent minimum standards or requirements. Users of the checklists and illustrative materials are encouraged to tailor them as required to meet specific circumstances of each particular engagement.

.11 These checklists and illustrative materials have been prepared by the AICPA staff. They have not been reviewed, approved, disapproved, or otherwise acted on by any senior technical committee of the AICPA and do not represent official positions or pronouncements of the AICPA.

   a. Is the approximate tax effect of each type of temporary difference and carryforward that gives rise to a significant portion of deferred tax liabilities and deferred tax assets (before valuation allowances) disclosed?
   b. If the reporting entity is not subject to income taxes because its income is taxed directly to its owners, is that fact and the net difference between the tax bases and reported amounts of the enterprises' assets and liabilities disclosed? [SFAS 109, par. 43 (AC I27.142)]

8. If the reporting entity is a nonpublic enterprise, are the types of temporary differences and carryforwards that give rise to a significant portion of deferred tax liabilities and deferred tax assets (before valuation allowances) disclosed? [SFAS 109, par. 43 (AC I27.142)]

### Practice Tip

SFAS 109 requires that deferred taxes be determined separately for each tax-paying component in each tax jurisdiction (for example, federal, state, or local). A component may be an individual entity or a group of entities that is consolidated for tax purposes. A valuation allowance for deferred tax assets in a particular tax jurisdiction should be allocated between current and noncurrent assets for that jurisdiction on a pro rata basis.

      [Generally Accepted]

Are long-term obligations that are or will be callable by the creditor, either because the debtor’s violation of the debt agreement at the balance-sheet date makes the obligation callable or because the violation, if not cured within a specified grace period, will make the obligation callable, reclassified to current unless one of the following conditions is met:

SFAS 95 encourages reporting entities to use the direct method of reporting cash flows. The sample financial statements in section 6400 illustrate a statement of cash flows prepared using the direct method.

4. If the direct method is used, is a separate reconciling schedule provided to reconcile net income to net cash flow from operating activities? [SFAS 95, par. 30 (AC C25.128)]

5. If the direct method of reporting net cash flow from operating activities is not used, is the net cash flow from operating activities reported indirectly by adjusting net income to reconcile it to net cash flow from operating activities? [SFAS 95, par. 28 (AC C25.126)]

FSP §6100
6. Is the reconciliation of net income to net cash flow from operating activities, including separate reporting of all major classes of reconciling items, presented? [SFAS 95, par. 29 (AC C25.127)]

7. If the indirect method of reporting net cash flow from operating activities is used, are amounts of interest paid (net of amounts capitalized) and income taxes paid during the period provided in related disclosures? [SFAS 95, par. 29 (AC C25.127)]

8. Are investing and financing activities that affect recognized assets or liabilities, but that do not result in cash receipts or cash payments in the period, disclosed? [SFAS 95, par. 32 (AC C25.134)]

9. Are cash receipts and cash payments for the following transactions classified as cash flows from investing activities:
   a. Receipts from collections or sales of loans?
   b. Receipts from sales of property, plant, and equipment?
   c. Loans to others?

   e. Receipts from sales of equity instruments of other enterprises exclusive of those carried in the trading account?
   f. Payments to acquire equity instruments of other enterprises, exclusive of those carried in the trading account? [SFAS 95, pars. 16 and 17 (AC C25.114 and .115)]

11. Except for certain items whose turnover is quick, amounts are large, and maturities are short, are cash receipts and cash payments from investing and financing activities shown separately on the statement of cash flows? [SFAS 95, pars. 12, 13, and 31 (AC C25.110, .111, and .129)]

12. If the indirect method is used, is the reduction of income taxes paid as a result of a deduction triggered by employee exercise of stock options classified as an operating cash flow? [EITF 00-15]

13. If a material income tax benefit realized as a result of the deduction triggered by employee exercise of stock options is not presented as a separate line item in the statement of cash flows or in the statement of changes in stockholders' equity, is disclosure made of the material income tax benefit realized? Summary of Significant Accounting Policies

Practice Tip

As you evaluate the completeness of the significant accounting policies, consider whether additions or revisions are required in response to recently issued accounting pronouncements. Also consider whether disclosures of accounting policies covered in other sections of this checklist are included. For example:

- Inventories
- Investments accounted for by the equity method
- Property and equipment
- Business combinations
- Advertising costs
- Statement of cash flows
- Employee stock ownership plans
- Business combinations
- Advertising costs
- Statement of cash flows
- Employee stock ownership plans
- Futures contracts
- Environmental remediation liabilities
- Impaired loans
- Stock compensation plans

If the accounting policy disclosures called for in sections such as these are not included in notes elsewhere in the financial statements, they should be included in the summary of accounting policies.

A. Accounting Policies

   [APB 22, par. 12 (AC 10.105)]

3. Do those principles and methods identified in question 2 include all instances in which there:
   a. Is a selection from existing acceptable alternatives?  
   b. Are principles and methods peculiar to the industry in which the reporting entity operates, even if such principles and methods are predominantly followed in that industry?  
   c. Are unusual or innovative applications of GAAP?  
       [APB 22, par. 12 (AC 10.105)]

4. Is an explanation that the preparation of financial statements in conformity with GAAP requires the use of management's estimates included?  
   [SOP 94-6, par. 11]
The following table lists accounting policies that were most frequently included in the summary of accounting policies of 600 public companies surveyed by the AICPA. Reprinted from the AICPA’s Accounting Trends & Techniques, 2001, Fifty-fifth Edition.

If the reporting entity is first issuing its financial statements for the purpose of (a) obtaining additional equity capital from investors, (b) effecting a business combination, or (c) registering securities, and its securities are not widely held, there is a one time exemption available from the required disclosure rules that allow all prior periods to be retroactively stated.

4. For accounting changes that are changes in estimates that affect several future periods that are not ordinary course of business accounting (e.g., uncollectible accounts), is the effect on income before extraordinary items, net income, and related per share amounts of the current period disclosed? (Note: Disclosure of the effect of a change in estimate that is in the ordinary course of business is recommended if the effect of such changes is material.)

D. Commitments and Contingencies

1. Is disclosure made of the nature of estimated loss contingencies accrued when (a) information available prior to issuance of the financial statements indicates that it is probable that an asset has been impaired or a liability incurred at the date of the financial statements and (b) the amount of loss can be reasonably estimated?
   [SFAS 5, par. 9 (AC C59.108)]
   
2. If necessary to keep the financial statements from being misleading, are the amounts of contingencies accrued as described in question 1 above disclosed?
   [SFAS 5, par. 9 (AC C59.108)]

3. For loss contingencies not accrued because one or both of the conditions described in question 1 are not met or if an exposure to loss exists in excess of the amount accrued for a loss contingency, do disclosures indicate the:
   a. Nature of the contingency?
   b. Estimate of possible loss or range of loss, or a statement that such estimate cannot be made?
   [SFAS 5, par. 10 (AC C59.109)]

4. Are the nature and amount of guarantees disclosed (e.g., guarantees of indebtedness of others, guarantees to repurchase receivables (or, in some cases, the related property) that have been sold or otherwise assigned) even though the possibility of loss may be remote?
   [SFAS 5, par. 12 (AC C59.113); FASBI 34, pars. 1–3 (AC C59.114); EITF 85-20]

5. Are gain contingencies adequately disclosed with care to avoid any misleading implications about likelihood of realization?
   [SFAS 5, par. 17 (AC C59.118)]

6. Is disclosure of the following items made:
   a. Unused letters of credit?
   b. Commitments to reduce debts, maintain working capital, or restrict dividends?
   [SFAS 5, pars. 18 and 19 (AC C59.120)]

7. For long-term unconditional purchase obligations that are not recorded in the purchaser’s balance sheet, are the following disclosed:
   a. Nature and term of the obligations?
   b. Amount of the fixed and determinable portion of the obligations as of the date of the latest balance sheet presented in the aggregate and, if determinable, for each of the next five years?
   c. Nature of any variable components of the obligation?
   d. Amounts of purchases under the obligations for each year for which an income statement is presented?
   [SFAS 47, par. 7 (AC C32.102)]
The following table lists the types of contingencies (loss and gain) and commitments that were most commonly reported in the financial statements of 600 public companies surveyed by the AICPA. Reprinted from the AICPA’s *Accounting Trends & Techniques*, 2001, Fifty-fifth Edition.

**E. Current Vulnerability Due to Certain Concentrations**

1. Is disclosure including information that is adequate to inform users of the general nature of the risk associated with concentrations in the volume of business transacted with a particular customer, supplier, lender, grantor, or contributor; in revenue from particular products, services, or fund-raising events; in the available sources of supply of materials, labor, or services, or licenses or other rights used in the reporting entity’s operations; or in the market or geographic area in which the reporting entity conducts its operations made if, based on information known to management before the financial statements are issued, (a) the concentration existed at the date of the financial statements, (b) made the enterprise vulnerable to the risk of a near-term severe impact, and (c) it is at least reasonably possible that the events that could cause the severe impact will occur in the near term? [SOP 94-6, pars. 21 and 22]

   ____  ____  ____

2. For those concentrations of labor subject to collective bargaining agreements and concentrations of operations located outside the reporting entity’s home country that (a) exist at the date of the financial statements and (b) make the reporting entity vulnerable to the risk of a near-term severe impact, where it is at least reasonably possible that the events that could cause the severe impact will occur in the near term, are the following disclosed:

FSP §6100
F. Employee Stock Ownership Plans

1. For any employee stock ownership plans (ESOPs) sponsored by the reporting entity, do the financial statements include disclosure of:

   a. A description of the plan?  
   b. The basis for determining contributions?  
   c. The employee groups covered? 
   d. The nature and effect of significant matters affecting comparability of information for all periods presented?  
   e. For leveraged ESOPs and pension reversion ESOPs, the basis for releasing shares and how dividends on allocated and unallocated shares are used?  

   [SOP 93-6, par. 53a]

2. A description of the accounting policies followed for ESOP transactions, including:

   a. The method of measuring compensation?  
   b. The classification of dividends on ESOP shares?  
   c. The treatment of ESOP shares for earnings per share (EPS) computation?  

   [SOP 93-6, par. 53b]

3. If the reporting entity has both old ESOP shares for which it does not adopt the guidance in SOP 93-6 and new ESOP shares for which the guidance in SOP 93-6 is required, are the accounting policies set forth in question 2 above disclosed for both blocks of shares?  

   [SOP 93-6, par. 53b]

4. Is the amount of compensation cost recognized during the period disclosed?  

   [SOP 93-6, par. 53c]

5. Is the number of allocated shares, committed-to-be-released shares, and suspense shares held by the ESOP at the balance-sheet date disclosed? (Note: If the reporting entity has both old ESOP shares for which it does not adopt the guidance in SOP 93-6 and new ESOP shares for which the guidance in SOP 93-6 is required, these disclosures should be made separately for both blocks of shares.)  

   [SOP 93-6, par. 53d]

6. Is the fair value of unearned ESOP shares at the balance-sheet date for shares accounted for under SOP 93-6?  

   [SOP 93-6, par. 53e]
7. Is disclosure made of the existence and nature of any repurchase obligation, including disclosure of the fair value of the shares allocated as of the balance-sheet date, which are subject to a repurchase obligation? [SOP 93-6, par. 53f]

8. If the reporting entity issues shares or sells treasury shares to an ESOP or if a leveraged ESOP buys outstanding shares on the market rather than from the employer, has a corresponding charge to unearned ESOP shares, a contra-equity account presented as a separate item in the balance sheet, been reported? ---

¹ For defined benefit pension plans, the benefit obligation is the projected benefit obligation—the actuarial present value as of a date of all benefits attributed by the pension benefit formula to employee service rendered prior to that date. For defined benefit postretirement plans, the benefit obligation is the accumulated postretirement benefit obligation—the actuarial present value of benefits attributed to employee service rendered to a particular date.

[SFAS 132, par. 5g (AC P40.169)]

h. The effect of a one-percentage-point increase and the effect of a one-percentage-point decrease in the assumed health care cost trend rates on (1) the aggregate of the service and interest cost components of net periodic postretirement health care benefit cost and (2) the accumulated postretirement benefit obligation for health care benefits? (For purposes of this disclosure, all other assumptions shall be held constant, and the effects shall be measured based on the substantive plan that is the basis for the accounting.)  
[SFAS 132, par. 5h (AC P40.169)]

i. If applicable, the amounts and types of securities of the employer and related parties included in plan assets, the approximate amount of future annual benefits of plan participants covered by insurance contracts issued by the employer or related parties, and any significant transactions between the employer or related parties and the plan during the period?

j. If applicable, any alternative amortization method used to amortize prior service amounts or unrecognized net gains and losses pursuant to paragraphs 26 and 33 of SFAS 87 or paragraphs 53 and 60 of SFAS 106?  
[SFAS 132, par. 5j (AC P16.150, P40.169)]

k. If applicable, any substantive commitment such as past practice or a history of regular benefit increases, used as the basis for accounting for the benefit obligation?  
[SFAS 132, par. 5k (AC P16.150, P40.169)]

l. If applicable, the cost of providing special or contractual termination benefits recognized during the period and a description of the nature of the event?

m. An explanation of any significant change in the benefit obligation or plan assets not otherwise apparent in the other disclosures required by SFAS 132?  
[SFAS 132, par. 5m (AC P16.150, P40.169)]

2. Are amounts related to the employer’s results of operations disclosed for each period for which an income statement is presented?  
[SFAS 152, par. 5 (AC P16.150, P40.169)]

3. Are amounts related to the employer’s statement of financial position disclosed for each balance sheet presented?  
[SFAS 132, par. 5 (AC P16.150, P40.169)]

**Employers With Two or More Plans**

4. The disclosures required by SFAS 132 may be aggregated for all of an employer’s defined benefit pension plans and may be aggregated for
all of an employer's defined benefit postretirement plans or may be disaggregated in groups if that is considered to provide the most useful information or is otherwise required by paragraph 7 of SFAS 132. Has the entity elected to aggregate these disclosures?

5. Disclosures about pension plans with assets in excess of the accumulated benefit obligation generally may be aggregated with disclosures about pension plans with accumulated benefit obligation in excess of assets. The same aggregation is permitted for postretirement plans. Has the entity elected to aggregate these disclosures?

6. If those disclosures are combined, has the employer disclosed the aggregate benefit obligation and aggregate fair value of plan assets for plans with benefit obligations in excess of plan assets?

7. Has the aggregate pension accumulated benefit obligation and aggregate fair value of plan assets for pension plans with accumulated benefit obligations in excess of plan assets also been disclosed?

8. Do disclosure of amounts recognized in the statement of financial position present prepaid benefit costs and accrued benefit liabilities separately?

[SFAS 132, par. 6 (AC P16.153, P40.172)]

9. An employer may combine disclosures about pension or postretirement benefit plans outside the United States with those for U.S. plans unless the benefit obligations of the plans outside the United States are significant relative to the total benefit obligation and those plans use significantly different assumptions. Has the entity elected to combine these disclosures?

[SFAS 132, par. 7 (AC P16.153A, P40.173)]

  \[\text{[SFAS 132, par. 10 (AC P16.166, P40.178)]}\]

  \item 15. In some situations, withdrawal from a multiemployer plan may result in an employer's having an obligation to the plan for a portion of its unfunded benefit obligations. If withdrawal under circumstances that would give rise to an obligation is either probable or reasonably possible, have the provisions of SFAS 5, \textit{Accounting for Contingencies}, been applied?
  \[\text{[SFAS 132, par. 11 (AC P16.166)]}\]

\[\text{FSP §6100}\]
16. In some situations, withdrawal from a multiemployer plan may result in employer’s having an obligation to the plan for a portion of the plan’s unfunded accumulated postretirement benefit obligation. If it is either probable or reasonably possible that (a) an employer would withdraw from the plan under circumstances that would give rise to an obligation or (b) an employer’s contribution to the fund would be increased during the remainder of the contract period to make up a shortfall in the funds necessary to maintain the negotiated level of benefit coverage (a “maintenance of benefits” clause), has the employer applied the provisions of SFAS 5, Accounting for Contingencies? [SFAS 132, par. 11 (AC 40.179)]

J. Financial Instruments  

**Derivative Instruments and Hedging Activities**  

1. If an entity holds or issues derivative instruments (or non-derivative instruments that are designated and qualify as hedging instruments pursuant to paragraphs 37 and 42 of SFAS 133) has disclosure been made of its objectives for holding or issuing those instruments, the context needed to understand those objectives, and its strategies for achieving those objectives?  

2. Does the description distinguish between derivative instruments (and non-derivative instruments) designated as fair value hedging instruments, derivative instruments designated as cash flow hedging instruments, derivative instruments (and non-derivative instruments) designated as hedging instruments for hedges of the foreign currency exposure of a net investment in a foreign operation, and all other derivatives?  

3. Does the description also indicate the entity’s risk management policy for each of those types of hedges, including a description of the items or transactions for which risks are hedged?  

4. For derivative instruments not designated as hedging instruments, does the description indicate the purpose of the derivative activity?  

5. Qualitative disclosures about an entity’s objectives and strategies for using derivative instruments may be more meaningful if such objectives and strategies are described in the context of an entity’s overall risk management profile. If appropriate, an entity is **encouraged, but not required**, to provide such additional qualitative disclosures. Have such disclosures been made?  
   [SFAS 133, par. 44 (AC D50)]  

FSP §6100
6. Do the entity's disclosures for every reporting period for which a complete set of financial statements is presented also include the following:

*Fair Value Hedges*

a. For derivative instruments, as well as non-derivative instruments that may give rise to foreign currency transaction gains or losses under SFAS 52, that have been designated and have qualified as fair value hedging instruments and for the related hedged items:

(1) The net gain or loss recognized in earnings during the reporting period representing (a) the amount of the hedges' ineffectiveness and (b) the component of the derivative instruments' gain or loss, if any, excluded from the assessment of hedge effectiveness, and a description of where the net gain or loss is reported in the statement of income or other statement of financial performance?

[ ] [ ] [ ]

(2) The amount of net gain or loss recognized in earnings when a hedged firm commitment no longer qualifies as a fair value hedge?

[SFAS 133, par. 45a (AC D50)]

*Cash Flow Hedges*

b. For derivative instruments that have been designated and have qualified as cash flow hedging instruments and for the related hedged transactions:

(1) The net gain or loss recognized in earnings during the reporting period representing (a) the amount of the hedges' ineffectiveness and (b) the component of the derivative instruments' gain or loss, if any, excluded from the assessment of hedge effectiveness, and a description of where the net gain or loss is reported in the statement of income or other statement of financial performance?

[ ] [ ] [ ]

(2) A description of the transactions or other events that will result in the reclassification into earnings of gains and losses that are reported in accumulated other comprehensive income, and the estimated net amount of the existing gains or losses at the reporting date that is expected to be reclassified into earnings within the next 12 months?

[ ] [ ] [ ]

(3) The maximum length of time over which the entity is hedging its exposure to the variability in future cash flows for forecasted transactions excluding those forecasted transactions related to the payment of variable interest on existing financial instruments?

[ ] [ ] [ ]

(4) The amount of gains and losses reclassified into earnings as a result of the discontinuance of cash flow hedges because it is probable that the original forecasted transactions will not occur by the end of the originally specified time period (as documented at the inception of the hedging relationship) or within additional two-month period of time thereafter?

[SFAS 133, par. 45b, as amended by SFAS 138, par. 4r (AC D50)]

[ ] [ ] [ ]
**Hedges of the Net Investment in a Foreign Operation**

**c.** For derivative instruments, as well as non-derivative instruments that may give rise to foreign currency transaction gains or losses under SFAS 52, that have been designated and have qualified as hedging instruments for hedges of the foreign currency exposure of a net investment in a foreign operation, the net amount of gains or losses included in the cumulative translation adjustment during the reporting period?

[SFAS 133, par. 45c (AC D50)]

**7.** The quantitative disclosures about derivative instruments may be more useful, and less likely to be perceived to be out of context or otherwise misunderstood, if similar information is disclosed about other financial instruments or non-financial assets and liabilities to which the derivative instruments are related by activity. Accordingly, in such situations, has the entity presented a more complete picture of its activities by disclosing that information? *(Encouraged, but not required.)*

[SFAS 133, par. 45 (AC D50)]

**Disclosures About Fair Value of Financial Instruments**

**8.** Has the entity disclosed, either in the body of the financial statements or in the accompanying notes, the fair value of financial instruments (except for those excluded in paragraphs 8 and 13 of SFAS 107) for which it is practicable to estimate fair value?

[SFAS 107, par. 10 (AC F25)]

**9.** Has the fair value disclosed in the notes been presented together with the related carrying amount in a form that makes it clear whether the fair value and carrying amount represent assets or liabilities and how the carrying amounts relate to what is reported in the statement of financial position?

[SFAS 107, par. 10 (AC F25)]

**10.** In disclosing the fair value of a financial instrument, has the entity taken care not to net that fair value with the fair value of other financial instruments—even if those financial instruments are of the same class or are otherwise considered to be related, for example, by a risk management strategy—except to the extent that the offsetting of carrying amounts in the statement of financial position is permitted under the general principle in paragraphs 5 and 6 of FASB 39, *Offsetting of Amounts Related to Certain Contracts*, or the exceptions for master netting arrangements in paragraph 10 of FASB 39 and for amounts related to certain repurchase and reverse repurchase agreements in paragraphs 3 and 4 of FASB 41, *Offsetting of Amounts Related to Certain Repurchase and Reverse Repurchase Agreements*?

[SFAS 107, par. 14 (AC F25)]

**11.** If it is not practicable to estimate the fair value of a financial instrument or a class of financial instruments, are the following disclosed:

- **a.** Information pertinent to estimating the fair value of that financial instrument or class of financial instruments, such as the carrying amount, effective interest rate, and maturity?

- **b.** The reasons why it is not practicable to estimate fair value?

[SFAS 107, par. 14 (AC F25)]

---

5 If disclosed in more than a single note, one of the notes shall include a summary table. The summary table shall contain the fair value and related carrying amounts and cross-references to the location(s) of the remaining disclosures required by this Statement as amended.
Practice Tip

SFAS 126, *Exemption from Certain Required Disclosures about Financial Instruments for Certain Non-public Entities*, makes the disclosure about fair values of financial instruments prescribed in SFAS 107 optional for reporting entities that:

- Are nonpublic entities
- Have total assets of less than $100 million on the date of the financial statements, and
- Have no instrument that, in whole or in part, is accounted for as a derivative instrument under FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*, during the reporting period.

Disclosure About Concentrations of Credit Risk of All Financial Instruments

12. Except as indicated in paragraph 15B⁶ of SFAS 107, has the entity disclosed all significant concentrations of credit risk arising from all financial instruments, whether from an individual counterparty or groups of counterparties (Group concentrations of credit risk exist if a number of counterparties are engaged in similar economic characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions)?

[SFAS 107, par. 15A (AC F25)]

13. Has the entity made the following disclosures about each significant concentration:

   a. Information about the (shared) activity, region, or economic characteristic that identifies the concentration?

   b. The maximum amount of loss due to credit risk that, based on the gross fair value of the financial instrument, the entity would incur if parties to the financial instruments that make up the concentration failed completely to perform according to the terms of the contracts and the collateral or other security, if any, for the amount due proved to be of no value to the entity?

   c. The entity’s policy of requiring collateral or other security to support financial instruments subject to credit risk, information about the entity’s access to that collateral or other security, and the nature and a brief description of the collateral or other security supporting those financial instruments?

   d. The entity’s policy of entering into master netting arrangements to mitigate the credit risk of financial instruments, information about the arrangements for which the entity is a party, and a brief description of the terms of those arrangements, including the extent to which they would reduce the entity’s maximum amount of loss due to credit risk?

[SFAS 107, par. 15A (AC F25)]

---

⁶ SFAS 107 paragraph 15B provides that these disclosure requirements do not apply to the following financial instruments, whether written or held:

   a. Financial instruments of a pension plan, including plan assets, when subject to the accounting and reporting requirements of SFAS 87 (Financial instruments of a pension plan, other than the obligations for pension benefits, when subject to the accounting and reporting requirements of SFAS 35, *Accounting and Reporting by Defined Benefit Pension Plans*, are subject to the reporting of paragraph 15A).

   b. The financial instruments described in paragraphs 8(a), 8(c), 8(e), and 8(f) of SFAS 107, as amended by SFAS 112, *Employers’ Accounting for Post-employment Benefits*, SFAS 123, *Accounting for Stock Based Compensation*, and SFAS 125, except for reinsurance receivables and prepaid reinsurance premiums.
14. Has the entity disclosed quantitative information\(^7\) about the market risks of financial instruments that is consistent with the way it manages or adjusts those risks? *(Encouraged, but not required.)*

[SFAS 107, par. 15C (AC F25)]

The following table lists the types of financial instruments that were most commonly reported in the financial statements of 600 public companies surveyed by the AICPA. Reprinted from the AICPA’s *Accounting Trends & Techniques*, 2001, Fifty-fifth Edition.

**K. Foreclosed Assets**

1. Are foreclosed assets held for the production of income reported and accounted for in the same way had they been acquired by other means?  
   [SOP 92-3, par. 15]

2. If foreclosed assets originally classified as held-for-sale are to be held for production of income, is the net effect reported in income from continuing operations in the period in which the decision to retain the asset was made?  
   [SOP 92-3, par. 16]

**L. Foreign Currency Translation**

1. Is the aggregate transaction gain or loss included in net income for the period disclosed? *(Note: For this disclosure, gains and losses on forward contracts determined in conformity with the requirements of paragraphs 18 and 19 of SFAS 52, shall be considered transaction gains or losses.)*[SFAS 52, par. 30 (AC F60.140)]

---

\(^7\) Appropriate ways of reporting the quantitative information encouraged will differ for different entities and will likely evolve over time as management approaches and measurement techniques evolve. Possibilities include disclosing (a) more details about current positions and perhaps activity during the period, (b) the hypothetical effects on comprehensive income (or net assets), or annual income, of several possible changes in market prices, (c) a gap analysis of interest rate re-pricing or maturity dates, (d) the duration of the financial instruments, or (e) the entity’s value at risk from derivatives and from other positions at the end of the reporting period and the average value at risk during the year. This list is not exhaustive, and an entity is encouraged to develop other ways of reporting quantitative information.

\(^8\) If SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, has been adopted, the phrase “forward contracts determined in conformity with the requirements of paragraphs 18 and 19 of SFAS 52 shall be considered transaction gains or losses” is replaced by “derivative instruments shall comply with paragraph 45 of SFAS 133. “SFAS 133 is effective for all fiscal quarters of all fiscal years beginning after June 15, 2000.
2. Is an analysis of changes during the period in the accumulated amount of translation adjustments reported in equity included, and does it disclose:
   a. Beginning and ending amount of cumulative translation adjustments? __________ __________ __________
   b. The aggregate adjustment for the period resulting from translation adjustments and gains and losses from certain hedges and inter-company balances? (Note: Paragraph 45c of SFAS 133 specifies additional disclosures for instruments designated as hedges of the foreign currency exposure of a net investment in a foreign operation. See section J.) __________ __________ __________
   c. The amount of income taxes for the period allocated to translation adjustments? __________ __________ __________
   d. The amounts transferred from cumulative translation adjustments and included in the determination of net income for the period as a result of the sale or complete or substantially complete liquidation of an investment in a foreign entity? [SFAS 52, par. 31 (AC F60.141)] __________ __________ __________

3. If significant rate changes have occurred after the date of the financial statements, are the effects on unsettled balances related to foreign currency translations disclosed? [SFAS 52, par. 32 (AC F60.142)] __________ __________ __________

4. Are any foreign earnings reported in addition to amounts received in the U.S. disclosed, if significant? [ARB 43, Ch. 12, par. 5 (AC F65.102)] __________ __________ __________

5. If the reporting entity entered into a foreign currency swap contract to replace foreign currency debt with reporting currency debt, is the contract accounted for separately and not netted against the foreign currency debt (because they are two separate legal transactions and do not have the legal right of setoff)? [EITF 86-25; FASB 39] __________ __________ __________

6. Is the entire change in the fair value of foreign-currency-denominated available-for-sale debt securities reported in shareholders’ equity? [EITF 96-15] __________ __________ __________

7. Are foreign currency transaction gains and losses on a forward exchange contract or a foreign-currency-denominated liability that is designated as, and is effective as, a hedge of the foreign-currency-denominated available-for-sale debt security also reported in the SFAS 115 component of shareholders’ equity (to offset the portion of the market value change of a foreign-currency-denominated available-for-sale debt security attributable to foreign exchange rates)? [EITF 96-15] __________ __________ __________

M. Long-Lived Assets and Disposal Groups to Be Disposed of

Note: These questions only apply if the provisions of SFAS 144, Accounting for the Impairment or Disposal of Long-Lived Assets, are effective.

Reporting Discontinued Operations

1. Are the results of operations of a component of an entity (as that phrase is defined in SFAS 144) that either has been disposed of or is classified __________ __________ __________
as held for sale reported in discontinued operations in accordance with paragraph 43 of SFAS 144 (questions 2, 3, 4, and 5 below) if both of the following conditions are met:

a. The operations and cash flows of the component have been (or will be) eliminated from the ongoing operations of the entity as a result of the disposal transaction, and—

Auditors' Reports Checklist

\[d.\] Includes either an opinion on whether the accompanying information is fairly stated in all material respects in relation to the basic financial statements taken as a whole or a disclaimer of opinion (depending on whether the information was subjected to the auditing procedures applied in the audit of the basic financial statements)?

Practice Tip

SAS 87, *Restricting the Use of an Auditor's Report*, provides guidance to auditors in determining whether an engagement requires a restricted-use report and, if so, what elements to include in that report.
FSP Section 6300

Accountants’ Reports on Compiled or Reviewed Financial Statements of Nonpublic Entities Checklist

Part I—If the Accountant is Engaged to Report on Compiled Financial Statements or Submits Financial Statements to a Client that Are or Reasonably Might Be Expected to Be Used by a Third Party

1. Is the compilation report appropriately worded?  
   [SSARS 1, par. 11 (AR 100.11)]

2. Does the report exclude a description of any other procedures that the accountant might have performed before or during the engagement?  
   [SSARS 1, par. 11 (AR 100.11)]

3. For compiled financial statements that contain departures\(^1\) from generally accepted accounting principles (GAAP) or, where applicable, an other comprehensive basis of accounting (OCBOA):
   a. If the departure is the omission of substantially all required disclosures, does the accountant’s report clearly indicate such omission?  
      [SSARS 1, pars. 16 and 18 (AR 100.16 and .18)]
   b. If compiled financial statements that omit substantially all of the disclosures required by GAAP include disclosures about only a few matters, are such disclosures labeled “Selected Information—Substantially All Disclosures Required by GAAP (or OCBOA) Are Not Included”?  
      [SSARS 1, par. 16 (AR 100.16)]
   c. If statements that omit substantially all required disclosures are prepared on a basis of accounting other than GAAP, and if such statements do not include disclosure of the basis of accounting used, does the accountant’s report disclose the basis of accounting?  
      [SSARS 1, par. 17 (AR 100.17)]

Practice Tip

SAS 62, paragraphs 9 and 10 (AU 623.09 and .10), provides guidance on evaluating the adequacy of disclosure in financial statements prepared in conformity with an other comprehensive basis of accounting.

d. If the financial statements contain a departure from GAAP or an OCBOA, is the report modified to disclose the departure?  
   [SSARS 1, pars. 40 and 41 (AR 100.40 and .41)]

\(^1\) Other than departures required by a prescribed form or related instructions when the accountant issues a SSARS 3 (AR 300) compilation report on financial statements included in a prescribed form.
(1) If the effects of the departure on the financial statements are determined by management or are known as a result of the accountant's procedures, are these effects also disclosed in the modified report?
   [SSARS 1, par. 41 (AR 100.41)]

(2) If the effects are not determined, is this fact stated in the accountant's report?
   [SSARS 1, par. 41 (AR 100.41)]

4. If the accountant is not independent with respect to the entity for which financial statements are compiled, does the compilation report state “I am (we are) not independent with respect to XYZ Company”?
   [SSARS 1, par. 19 (AR 100.19)]

5. Is the date of completion of the compilation used as the date of the report?
   [SSARS 1, par. 12 (AR 100.12)]

6. Does each page of the financial statements include a reference such as “See Accountant’s Compilation Report”?
   [SSARS 1, par. 13 (AR 100.13)]

7. If the financial statements do not appropriately disclose an uncertainty, including an uncertainty about an entity’s ability to continue as a going concern or an inconsistency in the application of accounting principles, has consideration been given to including a separate paragraph that discloses such matters?
   [SSARS 1, par. 41, fn. 19 (AR 100.41, fn. 19)]

8. If the accountant compiles both the basic financial statements and other data that is presented for supplementary analysis purposes, does the compilation report also include the other data, indicating the degree of responsibility taken?
   [SSARS 1, par. 44 (AR 100.44)]

9. If an audit engagement is changed to a review or compilation, does the report omit reference to:
   a. The original engagement?
   b. Any auditing or review procedures that may have been performed?
   c. Any scope limitation that resulted in the changed engagement?
   [SSARS 1, par. 50 (AR 100.50)]

10. If comparative financial statements are presented, does the accountant’s report cover each period presented?
    [SSARS 2, par. 2 (AR 200.02)]

11. If compiled financial statements that omit substantially all of the disclosures required by GAAP are included among the comparative financial statements, do all the periods presented also omit such disclosures?
    [SSARS 2, par. 5 (AR 200.05)]

FSP §6300
a. If the prior-period financial statements do not omit the required disclosures, and the accountant is requested to compile statements for the same period that do omit those disclosures, does the accountant’s compilation report include an additional paragraph that indicates:

(1) The nature of the previous service rendered (compilation, review, or audit)?
(2) Date of the previous report?

[SSARS 2, pars. 29 and 30 (AR 200.29 and .30)]

12. If the level of service performed by a continuing accountant on the current-period financial statements is the same as, or higher than, that performed on the financial statements of the prior period presented, is the continuing accountant’s report on the prior period updated?

[SSARS 2, par. 8 (AR 200.08)]

13. If the level of service performed by a continuing accountant on the current-period financial statements is lower than that performed on the financial statements of the prior period presented, is the current report modified appropriately or combined with a reissued report from the prior period?

[SSARS 2, pars. 8, 11, and 12 (AR 200.08, .11, and .12)]

14. If the report requires a changed reference to a departure from GAAP regarding the prior period presented, does the explanatory paragraph include the appropriate language?

[SSARS 2, pars. 14 and 15 (AR 200.14 and .15)]

15. If the current-period financial statements were compiled and the financial statements of the prior period presented were audited and the audit report was not reissued, does the current-period report include a separate paragraph that contains the appropriate language?

[SSARS 2, par. 28 (AR 200.28)]

**Predecessor’s Compilation Report**

a. Make appropriate reference in the report to the predecessor’s report in accordance with paragraphs 17–19 of SSARS 2?

FSP §6300
FSP Section 6400

Illustrative Financial Statement Formats

.01 Generally accepted accounting principles (GAAP) do not require that specific formats be used in the presentation of financial statements. Nonetheless, several formats have come to represent common practice among financial statement preparers. The model illustrative financial statement formats included in this section do not represent comprehensive formats for all situations, but rather are general guidelines that may be tailored to fit the requirements of a wide variety of individual circumstances and situations.

Basic Financial Statements

.02 The minimum financial statement presentation required to present fairly a company’s financial position, results of operations, and cash flows in conformity with GAAP is outlined in Statement on Auditing Standards (SAS) No. 29, Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents. According to SAS No. 29, the basic financial statements that are generally covered by an auditor’s report include:

- a balance sheet
- a statement of income
- a statement of retained earnings or changes in stockholders’ equity
- a statement of cash flows
- description of accounting policies
- notes to financial statements
- schedules and explanatory material that are identified as being part of the basic financial statements. (Schedules and explanatory material may be considered either as part of the basic financial statements or as supplementary information.)

The Balance Sheet

.03 Title. The companies surveyed in the AICPA’s Accounting Trends & Techniques generally use the title “balance sheet” for the statement showing assets, liabilities, and stockholder’s equity. Other titles frequently used by those companies include “statement of financial position” and “statement of financial condition.”

.04 Balance Sheet Format. Commonly used balance sheet formats include the account form, the report form, and the financial position form. The account form shows total assets on the left-hand side equal to the sum of liabilities and equity on the right-hand side. The report form shows a downward sequence of either total assets minus total liabilities equal to equity or total assets equal to total liabilities plus equity. The financial position form, a variation of the report form, shows noncurrent assets added to and noncurrent liabilities deducted from working capital to arrive at a balance equal to equity.

.05 The following table summarizes the balance sheet format used by 600 public companies surveyed by the AICPA. Reprinted from the AICPA’s Accounting Trends & Techniques, 2001, Fifty-fifth Edition.

Statement of Income

.07 Title. The companies surveyed for Accounting Trends & Techniques generally use the term “income” in the title of their presentations of the results of operations. Another term used by companies is “earnings.” The Securities and Exchange Commission (SEC) requires the word “operations” in the title when there is a loss in the current period.

.08 Income Statement Format. Commonly used income statement formats include the single-step form and the multi-step form. The single-step format groups the components of net income into two categories: (1) revenues and gains and (2) expenses and losses. The difference between the two subtotals is net income or loss for the period. The multi-step format shows various intermediate components of net income. Generally, operating results are presented separately from nonoperating results (e.g., costs and expenses are deducted from sales followed by nonoperating revenues, gains, expenses, and losses, and are grouped by type or function). Intermediate components of net income that are frequently presented in multiple-step statements are gross profit, income from operations, and other income and expenses.

.09 The following table summarizes the income statement format used by 600 public companies surveyed by the AICPA. Reprinted from the AICPA’s Accounting Trends & Techniques, 2001, Fifty-fifth Edition.

.10 Examples of the single-step and multi-step income statement formats are included as Exhibits 3 and 4 of this section.

.11 Comprehensive Income. Statement of Financial Accounting Standards (SFAS) No. 130, Reporting Comprehensive Income, requires that reporting entities report comprehensive income and its components in a financial statement that is displayed with the same prominence as other financial statements. SFAS No. 130 does not require a specific format for the statement that presents comprehensive, but provides examples of

FSP §6400.06
three different formats. Two such formats—one for a combined statement of income and comprehensive income and another for a separate statement of comprehensive income—are included as Exhibits 5 and 6 of this section.

**Statements of Retained Earnings or Stockholder’s Equity**

.12 Although separate statements of retained earnings and statements of stockholder’s equity are common presentations for public companies, their use by nonpublic companies is much less frequent. Because of the less-complex capital structure of most nonpublic entities and the fact that their securities are not frequently transferred, many have found that the required disclosures can often be made without presenting separate statements. In most cases the only change in stockholder’s equity of a nonpublic company is the change in retained earnings resulting from net income (or loss). That change can usually be adequately disclosed in the statement of income or in the balance sheet.

.13 When nonpublic companies do experience changes in other components of stockholder’s equity (e.g., issuance of stock, purchase of treasury stock, and stock splits) disclosure is often made in the notes to the financial statements or in a separate statement of changes in stockholder’s equity.

.14 An example of a combined statement of income and retained earnings is included as Exhibit 7 of this section.

.15 SFAS No. 130 provides examples of presentations of comprehensive income and its components in the statement of changes in equity.

**Statement of Cash Flows**

.16 SFAS No. 95, *Statement of Cash Flows*, requires that a statement of cash flows be included as part of a full set of financial statements for all business enterprises that report both financial position and results of operations. The primary purpose of a statement of cash flows is to provide relevant information about the cash receipts and cash payments of an entity during a period.

.17 A statement of cash flows classifies cash receipts and payments according to whether they stem from operating, investing, or financing activities. Entities may report cash flows from operating activities directly by showing major classes of operating cash receipts and payments (the direct method) or by reporting net cash flows from operating activities indirectly by adjusting net income to reconcile it to net cash flow from operating activities (the indirect or reconciliation method). If the direct method is used, a reconciliation of net income and net cash flow from operating activities is required to be provided in a separate schedule.

.18 Examples of the statements of cash flow prepared using the indirect method and the direct method are included as Exhibits 8 and 9 of this section.

**Notes to Financial Statements**

.19 Authoritative pronouncements mandate many types of disclosures but do not mandate the manner of presentation. Some disclosures are best presented in separate notes rather than in the basic financial statements. Descriptions of accounting policies and notes to financial statements are recognized in SAS No. 29 as components of the “basic financial statements” necessary for a fair presentation in accordance with generally accepted accounting principles. Thus, notes are an integral part of financial statements. They should be used to present material disclosures required by generally accepted accounting principles that are not otherwise presented on the face of the statements.

* These model illustrative financial statement formats do not reflect the provisions of FASB Statement No. 141, Business Combinations, or FASB Statement No. 142, Goodwill and Other Intangible Assets. FASB Statement No. 141 applies to all business combinations initiated after June 30, 2001. FASB Statement No. 141 also applies to all business combinations accounted for using the purchase method for which the date of acquisition is July 1, 2001, or later. The provisions of FASB Statement No. 142 are required to be applied starting with fiscal years beginning after December 15, 2001. As companies adopt FASB Statement Nos. 141 and 142, and as reporting practices related to these FASB Statements become generally accepted, these model illustrative financial statement formats will be updated accordingly.

Illustrative Financial Statements, Notes, and Auditor’s Report

.01 These illustrative financial statements and notes deliberately do not reflect the provisions of FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities, and FASB Statement No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. See those FASB Statements for their effective date information. As companies adopt FASB Statement Nos. 133 and 144, and as reporting practices related to those FASB Statements become generally accepted, these illustrative financial statements and notes will be updated accordingly.

.02 Preparers and auditors of SEC-registrant financial statements are reminded that as discussed in SAB Topic 11M (SAB No. 74), and AU section 9410, Item 3, The Impact on an Auditor’s Report of an FASB Statement Prior to the Statement’s Effective Date, filings with the SEC that include financial statements for a period ending after the issuance of an accounting standard but before the required date of adoption of that accounting standard should include disclosure of the impact that the recently issued accounting standard will have on the financial position and results of operations of the registrant when such standard is adopted in a future period. The following disclosures should be considered by registrants:

- A brief description of the new standard, the date that adoption is required and the date that the registrant plans to adopt, if earlier;
- A discussion of the methods of adoption allowed by the standard and the method expected to be utilized by the registrant, if determined;
- A discussion of the impact that adoption of the standard is expected to have on the financial statements of the registrant, unless unknown or not reasonably estimable. In that case, a statement to that effect may be made;

Disclosure of the potential impact of other significant matters that the registrant believes might result from the adoption of the new standard (such as technical violations of debt covenant agreements, planned or intended changes in business practices, etc.).

ABC COMPANY AND SUBSIDIARIES
Notes to Consolidated Financial Statements

Note 1: Summary of Significant Accounting Policies

Nature of Operations. ABC Company is engaged in the manufacture, fabrication, and distribution of rail, construction, and tubular products.

The Company’s rail business provides a full line of new and used rail, trackwork, and accessories to railroads, mines, and industry. The Company also designs and produces bonded rail joints, power rail, track fasteners, catenary systems, coverboards, and special accessories for mass transit and other rail systems.

The Company’s construction business sells and rents steel sheet piling and H-bearing pile for foundation and earth retention requirements and pile driving equipment and accessories for driving piling. In addition, the Company sells bridge decking, expansion joints, sign structures, and other products for highway construction and repair.

The Company’s tubular business supplies pipe and pipe coatings for pipelines and utilities. Additionally, the Company manufactures spiralweld pipe for water transmission lines, foundation piling, slurry lines, and many other applications. The Company also produces pipe-related products for special markets, including water wells and irrigation.

The Company markets its products directly in all major industrial areas of the United States through a national sales force.

Basis of Financial Statement Presentation. The consolidated financial statements include the accounts of the Company and its subsidiaries. Intercompany transactions and accounts have been eliminated.

Cash Equivalents. Holdings of highly liquid investments with maturities of three months or less when purchased are considered to be cash equivalents.

Inventories. Inventories are valued at the lower of the last-in, first-out (LIFO) cost or market except for other inventories which are valued at average cost or market, whichever is lower and represented 11% of total inventory in 20X2 and 20X1.

Property, Plant, and Equipment. Property, plant, and equipment are recorded at cost less depreciation and amortization. Depreciation and amortization are primarily accounted for on the straight-line method based on estimated useful lives. The amortization of leasehold improvements is based on the shorter of the lease term or the life of the improvement. Betterments and large renewals which extend the life of the asset are capitalized whereas maintenance and repairs and small renewals are expensed as incurred.

Environmental Remediation. The Company accrues environmental remediation costs if it is probable that an asset has been impaired or a liability incurred at the financial statement date and the amount can be reasonably estimated. Environmental compliance costs are expensed as incurred. Certain environmental costs are capitalized based on estimates and depreciated over their useful lives.

Sales. Revenue is recognized in the financial statements (and the customer billed) either when materials are shipped from stock or when the vendor bills the Company for the order. Net sales are arrived at by deducting discounts, freight, and sales taxes from gross sales.

Income Taxes. The Company uses the asset and liability method as identified in SFAS 109, Accounting for Income Taxes.
Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Stock-Based Compensation. In accordance with the provisions of SFAS 123, the Company follows the intrinsic value based method of accounting as prescribed by APB 25, Accounting for Stock Issued to Employees, for its stock-based compensation. Accordingly, no compensation cost is recognized.

Note 2: Related-Party Transactions

The Company has an agreement with DEF Company whereby DEF will provide certain management services to the Company through 2007 in return for an annual fee plus agreed-upon allocated and out-of-pocket expenses. The Company's chairman and chief executive officer is also the chairman and principal shareholder of DEF. The services provided include consultation and direct management assistance with respect to operations, strategic planning, and other aspects of the business of the Company. Fees and expenses paid to DEF for these services under the agreement amounted to $146 and $169 for the years ended December 31, 20X2 and 20X1, respectively.

During the years ended December 31, 20X2 and 20X1, the Company paid approximately $84 and $76, respectively, in fees to charter an aircraft owned by a company in which the chairman and chief executive officer is the principal shareholder.

A member of the Company's Board of Directors served as a consultant to the Company on various strategic and business issues. Fees paid for such services by the Company during the years ended December 31, 20X2 and 20X1 were $43 and $56, respectively.

The Colton, Pennsylvania, location produces spiralweld pipe used for water transmission and other applications. During 20X2, the Company decided that this product did not meet the Company’s long-term strategic goals. The assets of this operation include machinery and equipment, buildings and leasehold improvements. During 20X2, the location generated net sales and operating profit of approximately $5,150,000 and $150,000, respectively, which are included in the Company’s tubular segment. The Company is currently negotiating with several buyers. However, the outcome of these discussions is uncertain at this time.

The Princeton, New Jersey, location formerly produced pipe and was used for yard storage. Assets of the location consist of land and land improvements no longer used in the Company’s business. The Company anticipates disposing of these assets during 20X3.
The Columbus, Mississippi, location was formerly used for yard storage. Assets of the location consist of land no longer used in the Company’s business. The land is currently being leased to a third party. The Company does not anticipate disposing of the land during 20X3.

The Houston, Texas, location was formerly a pipe coal tar coating facility. Assets of the location consist of land no longer used in the Company’s business. The land has been listed for sale, although no assurances can be given that the land will be sold during 20X3.

The Springfield, Illinois, location produces couplings used in the Company’s threaded products business and is included in the tubular products business segment. The assets of this operation include machinery and equipment, buildings and land. During 20X2, the Company received an offer from a third party to buy the facility and to produce couplings for use in the Company’s operations. The Company has entered into an operating lease agreement with the third party for six months with an option to buy. If the third party does not purchase the property, the operating lease converts to a capital lease for five years based on a market value of $400,000, with an option to buy. Separate net sales and operating profits for this location cannot be identified.

Other consists of various machinery and equipment.

FSP §6500.09
Note 8: Other Assets

At December 31, 20X2 and 20X1, other assets include notes receivable and accrued interest totaling $948,000 and $786,500, respectively, from investors in a private corporation. The notes, which are recorded at face value, are due if there is a change in ownership of the private corporation or March 31, 20X7, whichever occurs earlier. Additionally, the Company owns stock in the private corporation which is recorded at historical cost of $96,500.

Note 9: Short-Term Borrowings

Effective November 1, 20X2, the Company renegotiated its $22,500,000 revolving credit agreement. The interest rate is, at the Company’s option, based on the prime rate, the domestic certificate of deposit rate (CD rate) or the Euro-bank rate. The interest rates are adjusted quarterly based on the fixed charge coverage ratio defined in the agreement. The ranges are prime to prime plus 0.25 percent, the CD rate plus 0.45 percent to the CD rate plus 1.125 percent, and the Euro-bank rate plus 0.45 percent to the Euro-bank rate plus 1.125 percent. Borrowings under the agreement, which expires July 1, 20X9, are secured by accounts receivable and inventory.

This agreement includes financial covenants requiring a minimum net worth, a fixed charge coverage ratio, a leverage ratio and a current ratio. The agreement also places restrictions on dividends, investments, capital expenditures, indebtedness, and sales of certain assets. As of December 31, 20X2, the Company was in compliance with all of the agreement’s covenants. At December 31, 20X2, the Company had borrowed $14,875,000 under the agreement of which $10,000,000 was classified as long-term (see Note 10). Under the agreement, the Company had approximately $7,061,000 in unused borrowing commitment at December 31, 20X2. At December 31, 20X2, $12,485,000 was available for future dividend payments.

Note 10: Long-Term Debt and Related Matters

Long-term debt at December 31, 20X2 and 20X1, consists of the following:

<table>

The $10,000,000 revolving credit borrowings included in long-term debt were obtained under the revolving loan agreement discussed in Note 9 and are subject to the same terms and conditions. This portion of the borrowings is classified as long-term because the Company does not anticipate reducing the borrowings below $10,000,000 during 20X3.

The maturities of long-term debt for each of the succeeding five years subsequent to December 31, 20X2, are as follows: 20X3—$633,000; 20X4—$656,000; 20X5—$661,000; 20X6—$10,515,000; and 20X7 and beyond—$1,085,000.

The Class A and B stock are identical except the Class B stock does not have stockholder voting rights and such stockholders are entitled to one vote per share on issues such as consolidation or merger of the Company. Class B is convertible on demand into Class A stock on a share-for-share basis.

Note 12: Stock Option Plans

Executives and other key employees have been granted options to purchase common shares of the Company’s stock under the Long-Term Incentive Plan (Plan) of the Company which was adopted in the 20XX. In accordance with the terms of the Plan, the option’s maximum term is ten years. Options granted vest ratably over a three-year period. The options include limited stock appreciation rights under which holders have the right, in the event common shares are purchased pursuant to a third party tender offer or in the event a merger or similar transaction in which the Company shall not survive as a publicly held corporation is approved by the Company’s shareholders, to relinquish the option and to receive from the Company an amount per share equal to the excess of the price payable for a common share in such offer or transaction over the option price per share.

In accordance with the provisions of SFAS 123, the Company applies APB 25 and related interpretations in accounting for its stock option plans and, accordingly, does not recognize compensation cost. If the Company had elected to recognize compensation cost based on the fair value of the options granted at grant date as prescribed by SFAS 123, net income and earnings per share would have been reduced to the pro forma amounts indicated in the table below (in thousands except per share amounts):

<table>
<thead>
<tr>
<th></th>
<th>20X2</th>

<td>$0.49</td>
<td>$0.55</td>
</tr>
<tr>
<td>Earnings per share—pro forma</td>
<td>$0.39</td>
<td>$0.48</td>
</tr>
</tbody>
</table>

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions:

- Expected dividend yield: 2.50%
- Expected stock price volatility: 45.0%
- Risk-free interest rate: 6.00%

The weighted average fair value of options granted during 20X2 is $19.29 per share.

The Plan provides that, unless otherwise set forth in the option agreement, options are exercisable in installments of up to 25% annually beginning one year from date of grant. Stock to be offered
under the Plan may be authorized but unissued Common stock or previously issued shares which
have been reacquired by the Company and held as Treasury shares. At December 31, 20X2 and
20X1, Common stock options outstanding under the Plan had option prices ranging from $22.63
to $36.00, with a weighted average price of $23.35 and $33.33 per share, respectively.

The Option Committee of the Board of Directors which administers the Plan may, at its discretion,
grant stock appreciation rights at any time prior to six months before an option's expiration date.
Upon exercise of such rights, the participant surrenders the exercisable portion of the option in
exchange for payment (in cash and/or Common stock valued at its fair market value) of an
amount not greater than the spread, if any, by which the average of the high and low sales prices
quoted in the Over-the-Counter Exchange on the trading day immediately preceding the date of
exercise of the stock appreciation right exceeds the option price. No stock appreciation rights were
issued or outstanding during 20X2 or 20X1.

Options exercised during 20X2 totaled 5,000 shares at an exercise price of $3.00 per share. There
were no options exercised during 20X1.

Certain information for the two years ended December 31, 20X2, relative to employee stock

Note 13: Earnings Per Common Share

Earnings per common share are computed by dividing net income by the average number of
Class A Common shares and common stock equivalents outstanding during the year. The
weighted average number of Class A Common shares outstanding during the year ended
December 31, 20X2, were approximately 4,963,500 and approximately 4,961,500 during the
year ended 20X1.

Common stock equivalents are the net additional number of shares which would be issuable upon
the exercise of the outstanding common stock options (see Note 11), assuming that the Company
reinvested the proceeds to purchase additional shares at market value. Common stock equivalents
had no material effect on the computation of earnings per share for the two years ended December
31, 20X2.

Note 14: Income Taxes

At December 31, 20X2, the Company has available net operating loss carryforwards of approximately
$3,900,000 for federal income tax purposes that expire 20XX. The federal carryforwards
resulted from losses generated in 20XX. The tax benefit of net operating loss carryforwards
available for state income tax purposes was approximately $400,000 as of December 31, 20X2. The

Note 16: Pension and Other Postretirement Benefit Plans

The company has a defined benefit pension plan covering substantially all of its employees. The plan benefits are based on years of service and the employees' compensation during the last five years of covered employment. Contributions are intended to provide not only for benefits attributed to service to date but also for those expected to be earned in the future.

The following table sets forth the changes in benefit obligations, changes in plan assets and components of net periodic benefit cost for both the pension plan and the other postretirement benefit plans:

For measurement purposes, a 7 percent annual rate of increase in the per capita cost of covered health care benefits was assumed for 20X3. The rate was assumed to decrease gradually to 5 percent over the next five years.

The Company is subject to laws and regulations relating to the protection of the environment. While it is not possible to quantify with certainty the potential impact of actions regarding environmental matters, particularly any future remediation and other compliance efforts, in the opinion of management, compliance with the present environmental protection laws will not have a material adverse effect on the financial condition, competitive position or capital expenditures of the Company. However, the Company's efforts to comply with increasingly stringent environmental regulations may have an adverse effect on the Company's future earnings.

The Company is subject to legal proceedings and claims which arise in the ordinary course of its business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the financial position of the Company.

The Company's operations are in part dependent on governmental funding of infrastructure projects. Significant changes in the level of government funding of these projects could have a favorable or unfavorable impact on the operating results of the Company. The Company's operations results may also be affected by the weather.

**Note 19: Fair Values of Financial Instruments**

The following methods and assumptions were used to estimate the fair value of financial instruments:

*Cash and Cash Equivalents.* The carrying amount reported in the balance sheet for cash and cash equivalents approximates its fair value.
Accounts Receivable and Accounts Payable. The carrying amount of accounts receivable and accounts payable in the balance sheet approximates fair value.

Short-Term and Long-Term Debt. The carrying amount of the revolving credit facility approximates fair value.

The carrying amounts of the Company’s financial instruments at December 31, 20X2, approximate fair value.
