THE ACADEMY OF ACCOUNTING HISTORIANS 2010 VANGERMEERSCH MANUSCRIPT AWARD

In 1988, The Academy of Accounting Historians established an annual manuscript award to encourage scholars new to the field to pursue historical research. An historical manuscript on any aspect of the field of accounting, broadly defined, is appropriate for submission.

ELIGIBILITY AND GUIDELINES FOR SUBMISSIONS

Any accounting faculty member, who holds a full-time appointment and who received his/her masters/doctorate within seven years previous to the date of submission, is eligible to be considered for this award. Coauthored manuscripts will be considered (if at least one coauthor received his/her master/doctorate within the last seven years). Manuscripts must conform to the style requirements of the *Accounting Historians Journal*. Previously published manuscripts or manuscripts under review are not eligible for consideration.

Each manuscript should be submitted by **August 1, 2010** in a Word file as an e-mail attachment to the chair of the Vangermeersch Manuscript Award Committee, Dr. Gary Giroux (g-giroux@tamu.edu).

A cover letter, indicating the author's mailing address, the date of the award of the masters/doctoral degree, and a statement that the manuscript has not been published or is not currently being considered for publication should be included in the submission packet.

REVIEW PROCESS AND AWARD

The Vangermeersch Manuscript Award Committee will evaluate submitted manuscripts on a blind-review basis and select one recipient each year. The author will receive a \$500 (U.S.) award and a plaque to recognize his/her outstanding achievement in historical research. In the case of coauthored manuscripts, only the junior faculty member(s) will receive prizes. The winning manuscript will be published in the *Accounting Historians Journal* after an appropriate review. The award will be given annually unless the Manuscript Award Committee determines that no submission warrants recognition as an outstanding manuscript.

Following the success of the 1st Imagining Business Workshop (Oxford, 2008), this second event seeks to explore in further detail the impact of images, pictures, and signs on everyday organizational life. Inspired by the principle that any social activity results from how various organisational actors are tied together (Latour's idea of 'socio-ties'), this workshop intends to examine how various organisational performances and material objects of all kinds (e.g. information technologies, forms, charts, plans, models, etc.) help to construct unstable although durable links between organizational actors. This includes exploring how they contribute to the creation of business visions, images and visualizations in ways which allow organizing and organizations to 'succeed' (i.e. to happen), as well as 'fail'.

This workshop thus provides an interdisciplinary arena in which academics and practitioners from a wide range of subject areas can come together to debate issues of imagining. For instance, some examples where a study of imagining business has or would provide interesting reflections and contributions include (but should by no means be limited to):

- the role of images, standards and visual management in the organizing process and how this links to ideas of relational entities and distributed action;
- the role of management practices in creating visions of organization and strategy;
- the role of Information & Communication Technologies in prompting action and accountabilities;
- The role of educative and pedagogical discourses in the creation of entrepreneurial mindsets;
- ways of mapping controversies in science, technology and policy making;
- The role of images, signs and icons in policy making and governmental decision making...

We welcome abstracts (1,500-2,000 words), extended abstracts and draft papers. The format for discussion will include both traditional paper presentations and alternative forums (e.g. performance, exhibition, panel, discussion group, etc).

Deadline for submissions: 27th September 2010

Acceptance: 20 th December 2010

Full paper: April 2011
