PLEASE FILL OUT AND RETURN AT ONCE

November 5, 1923.

To the Member of New York State Society
of Certified Public Accountants:

At the special meeting of the Society September 25, 1923, a motion was unanimously passed authorizing the President to appoint an indefinite number of special committees on technical subjects, each committee to be composed of members of the Society specializing, or particularly interested, in one or more subjects, the thought being that such committees would be given such time, even up to several years, as would be necessary to survey or investigate the subjects and submit reports to the members in a form which would be most useful to the general membership in active practice.

The success of the Society's efforts in this direction naturally will depend largely upon the willing and active participation of those interested and qualified to work on the committees to be appointed.

In order that the President may be guided in appointing these committees, will you please fill out the attached questionnaire and return at once to the Secretary of the Society?

ROBERT H. MONTGOMERY,

President.

NEW YORK STATE SOCIETY OF CERTIFIED PUBLIC ACCOUNTANTS

Questionnaire on Special Committees for Technical Subjects

To be Returned to the Secretary, James F. Farrell.

110 William Street, New York.

For which of the following subjects would you be willing to accept active membership on a special committee of the Society?

Indicate your first, second and third choice by a cross (X) in the proper column opposite the subject selected.
