Checklists and Illustrative Financial Statements for Not-for-Profit Organizations

.01 These checklists and illustrative financial statements are designed to be applied to nongovernmental not-for-profit organizations. The term not-for-profit organization is defined in Appendix D of SFAS 117, Financial Statements for Not-for-Profit Organizations, as:

An entity that possesses the following characteristics that distinguish it from a business enterprise: (a) contributions of significant amounts of resources from resource providers who do not expect commensurate or proportionate pecuniary return, (b) operating purposes other than to provide goods or services at a profit, and (c) absence of ownership interests like those of business enterprises. Not-for-profit organizations have those characteristics in varying degrees (Concepts Statement 4, paragraph 6). Organizations that clearly fall outside this definition include all investor-owned enterprises and entities that provide dividends, lower costs, or other economic benefits directly and proportionately to their owners, members, or participants, such as mutual insurance companies, credit unions, farm and rural cooperatives, and employee benefit plans (Concepts Statement 4, paragraph 7).

The term nongovernmental is explained in paragraph 1.03 of the AICPA Audit and Accounting Guide, Not-for-Profit Organizations. It says, “Nongovernmental organizations are all organizations other than governmental organizations.” The description of a governmental organization is also found in paragraph 1.03 of the Guide. That description, which was agreed to in a joint meeting of the FASB and GASB Boards on March 13, 1996, states:

Public corporations and bodies corporate and politic are governmental organizations. Other organizations are governmental organizations if they have one or more of the following characteristics:

a. Popular election of officers or appointment (or approval) of a controlling majority of the members of the organization’s governing body by officials of one or more state or local governments;

b. The potential for unilateral dissolution by a government with the net assets reverting to a government; or

c. The power to enact and enforce a tax levy.

Furthermore, organizations are presumed to be governmental if they have the ability to issue directly (rather than through a state or municipal authority) debt that pays interest exempt from federal taxation. However, organizations possessing only that ability (to issue tax-exempt debt) and none of the other governmental characteristics may rebut the presumption that they are governmental if their determination is supported by compelling, relevant evidence.

Governmental not-for-profit organizations are under the jurisdiction of the GASB. GASB 15, Governmental College and University Accounting and Financial Reporting Models, and GASB 29, The Use of Not-for-Profit Accounting and Financial Reporting Principles by Governmental Entities, are the two major statements that describe the accounting and financial reporting models for governmental not-for-profit organizations.1

.02 In June 1993, the FASB issued SFAS 117 to enhance the relevance, understandability, and comparability of financial statements of not-for-profit organizations. The Statement requires that all not-for-profit

---

1 In June of 1999 the GASB issued Statement 34, Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments. The Statement will be phased in over a number of years, depending on the size of the government, beginning with fiscal years ending after June 15, 2002; however, earlier implementation is encouraged. When effective, GASB 34 will supersede and amend certain paragraphs of GASB 29.
organizations provide a statement of financial position, a statement of activities, and a statement of cash flows. These financial statements present the organization's total assets, liabilities, and net assets; the balances of and changes in each of three classes of net assets—permanently restricted, temporarily restricted, and unrestricted; and the change in cash and cash equivalents.

.03 Prior to adoption of SFAS 117, most not-for-profit organizations generally presented their expenses classified on a functional basis (according to the purpose for which costs are incurred, such as specific programs and supporting services) with the exception of those receiving no significant support from the general public, which often reported expenses by natural classification (i.e., salaries, employee benefits, and purchased services). Upon adoption of SFAS 117, all not-for-profit organizations are required to report expenses on a functional basis, although that information may appear in the notes to financial statements rather than on the face of the statement of activities. An additional reporting requirement is placed on voluntary health and welfare organizations, which are required to include a separate statement of functional expenses (presenting information about their expenses by both functional and natural classifications) as part of their general-purpose external financial statements.

.04 A wide variety of users are interested in the financial statements of not-for-profit organizations. Among the principal users are (1) contributors to the organization, (2) beneficiaries of the organization, (3) the organization's trustees or directors, (4) employees of the organization, (5) governmental units, (6) the organization's creditors and potential creditors, and (7) constituent organizations.

.05 A principal purpose of a not-for-profit organization's financial statements is to communicate the ways resources have been used to carry out the organization's objectives. In addition, while adequate measures of program accomplishment generally are not available in the context of present financial statements, the financial statements should identify the organization's principal programs and their costs. The financial statements of a not-for-profit organization should also help the user evaluate the organization's ability to continue to carry out its objectives in the future.

.06 Another important aspect of financial reporting for not-for-profit organizations is disclosure of the limitations placed by donors on use of resources. Many not-for-profit organizations receive resources restricted by the donor for particular purposes. The nature and extent of those restrictions determine the classification of resources as permanently restricted, temporarily restricted, or unrestricted. To facilitate observance of limitations, not-for-profit organizations often maintain their accounts using fund accounting, by which resources are classified for internal purposes into funds associated with specific activities or objectives. Each fund is a separate accounting entity with a self-balancing set of accounts for recording assets, liabilities, fund balance, and changes in the fund balance. Although separate accounts may be maintained for each fund for internal purposes, financial statements prepared in accordance with SFAS 117 focus on the organization as a whole rather than on fund balances and changes in fund balances.

.07 These checklists and illustrative financial statements are for financial statements prepared in accordance with generally accepted accounting principles (GAAP). If OCBOA financial statements are presented, the provisions of the auditing interpretation, Evaluating the Adequacy of Disclosure in Financial Statements Prepared on the Cash, Modified Cash, or Income Tax Basis of Accounting, of SAS 62, Special Reports, should be considered. The interpretation, issued in November 1997 by the Audit Issues Task Force of the Auditing Standards Board, applies to cash, modified cash and income tax basis presentations. It addresses the summary of significant accounting policies; disclosures for financial statement items that are the same as, or similar to, those in GAAP statements; issues relating to financial statement presentation; and disclosure of matters not specifically identified on the face of the statements. The interpretation contains examples of how OCBOA disclosures, including presentation, may differ from those in GAAP financial statements.

Instructions

Purpose

.01 The checklists and illustrative financial statements included in this section have been developed by the AICPA Accounting and Auditing Publications Team as nonauthoritative technical practice aids to be used as a memory jogger. This section includes a financial statement and notes checklist, auditors’ reports checklists, an accountants’ reports checklist, and illustrative financial statements.

The checklists have been updated to include relevant accounting and auditing pronouncements through:

- FASB Statement of Financial Accounting Standards No. 135, Recission of FASB Statement No. 75 and Technical Corrections
- FASB Interpretation No. 42, Accounting for Transfers of Assets in Which a Not-for-Profit Organization Is Granted Variance Power
- FASB Technical Bulletin No. 97-1, Accounting under Statement 123 for Certain Employee Stock Purchase Plans with a Look-Back Option
- AICPA Statement on Auditing Standards No. 87, Restricting the Use of an Auditor’s Report
- AICPA Statement of Position 98-9, Modification of SOP 97-2, Software Revenue Recognition, With Respect to Certain Transactions
- AICPA Statement on Standards for Accounting and Review Services No. 7, Omnibus Statement on Standards for Accounting and Review Services—1992
- FASB EITF consensuses adopted up to and including the January 1999 Emerging Issue Task Force meeting

The checklists and illustrative financial statements should be modified, as appropriate, for subsequent pronouncements. In determining the applicability of a pronouncement, its effective date should also be considered.

Instructions

.02 The checklists consist of a number of questions or statements that are accompanied by references to the applicable authoritative pronouncements. The checklists provide for checking off or initializing each question or point to show that it has been considered. Users should check: “yes” if the disclosure has been appropriately made, “no” if the disclosure has not been made, or “n/a” if the disclosure is not applicable to the organization. The auditor should consider the effect of a “no” answer on his/her report. A “no” answer that is material to the financial statements may warrant departures from an unqualified opinion. (See paragraphs 20–63 of SAS No. 58, Reports on Audited Financial Statements, as amended [AICPA, Professional Standards, vol. 1, AU sec. 508.20–.63].) If a “no” answer is checked, the authors recommend that a note be made in the right margin to explain why the disclosure was not made (for example, if the disclosure was not made because it was not material to the financial statements, write “not material” in the right margin). The right margin may be used for other remarks or comments as appropriate, including cross-referencing to applicable workpapers where the support to a disclosure may be found. Use of the checklists requires the exercise of individual professional judgment and may likely require some modification based on the circumstances of individual engagements.
.03 This checklist is not a substitute for the authoritative pronouncements. Users of the checklists and illustrative financial statements are urged to refer directly to applicable authoritative pronouncements when appropriate. The checklists and illustrative financial statements do not include all disclosures and presentation items promulgated nor do they represent minimum requirements. Pronouncements deemed remote for not-for-profit organizations are not included in this practice aid. The checklists and illustrative financial statements are “tools” and in no way represent official positions or pronouncements of the AICPA.

This checklist is organized into the sections listed below. Carefully review the topics listed and consider whether they represent potential disclosure items for the not-for-profit organization. Place a check mark by the topics or sections considered not applicable; these sections need not be completed. For example, if the organization does not have any extraordinary items, place a check by “Extraordinary Items” and skip this section when completing the checklist.

For example, a significant vendor may be unable to supply a product critical to the operations of the organization because of Year 2000 compliance problems. Additional examples of Year 2000 conditions and events and the effects of Year 2000 compliance concerns on the audit are described in auditing interpretation no. 2 of SAS 59 (AU 9341), "Effect of the Year 2000 Issue on the Auditor’s Consideration of an Entity’s Ability to Continue as a Going Concern.”

D. Derivative Instruments and Hedging Activities

Note: SFAS 133, Accounting for Derivative Instruments and Hedging Activities, supersedes SFAS 119, Disclosure about Derivative Financial Instruments and Fair Value of Financial Instruments. SFAS 133 is effective for fiscal years beginning after June 15, 1999. Earlier application of the Statement is encouraged but is permitted only as of the beginning of any fiscal quarter that begins after issuance. Earlier application of selected provisions of the Statement is not permitted. Organizations that have adopted SFAS 133 should complete Steps 1–9. Other organizations should complete Steps 10–13. However, the FASB has issued an exposure draft dated May 20, 1999, of the proposed Statement titled Accounting for Derivative Instruments and Hedging Activities—Deferral of the Effective Date of FASB Statement No. 133, which would amend SFAS 133 to defer its effective date to all fiscal quarters of all fiscal years beginning after June 15, 2000. [SFAS 133, pars. 42 and 43]

4. Does the organization disclose the following information about derivative instruments it holds or issues (or nonderivative instruments it holds or issues that are designated and qualify as hedging instruments pursuant to paragraphs 37 and 42 of SFAS 133):

      [SFAS 133, par. 45a]

   b. A description of where the net gain or loss is reported in the statement of activities?  
      [SFAS 133, par. 45a]

   c. The amount of net gain or loss recognized in earnings when a hedged firm commitment no longer qualifies as a fair value hedge?  
      [SFAS 133, par. 45a]

9. Is the following information about hedges of the net investment in a foreign operation disclosed:
   
   a. The net amount of gains or losses included in the cumulative translation adjustment during the reporting period?

    b. The net gains or losses (net trading revenue) arising from trading activities during the reporting period disaggregated by class, business activity, risk or other category consistent with management of those activities and where those net trading gains or losses are reported in the income statement?
       (1) If the disaggregation is other than by class, did the organization also disclose for each category the classes of derivative financial instruments, other financial instruments, and non-financial assets and liabilities from which the net trading gains and losses arose?
c. The average fair value for assets and liabilities from the trading of other types of financial instruments or nonfinancial assets? *(This disclosure is encouraged but not required.)*

E. Financial Instruments

Note: SFAS 133, Accounting for Derivative Instruments and Hedging Activities, supersedes SFAS 105, Disclosure of Information about Financial Instruments with Off-Balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk. SFAS 133 is effective for fiscal years beginning after June 15, 1999. Earlier application of the Statement is encouraged but is permitted only as of the beginning of any fiscal quarter that begins after issuance. Earlier application of selected provisions of the Statement is not permitted. Organizations that have adopted SFAS 133 should complete Step 1. Other organizations should complete Steps 2–6. All organizations should complete Step 7. However, the FASB has issued an exposure draft dated May 20, 1999, of the proposed Statement titled Accounting for Derivative Instruments and Hedging Activities—Deferral of the Effective Date of FASB Statement No. 133, which would amend SFAS 133 to defer its effective date to all fiscal quarters of all fiscal years beginning after June 15, 2000. The comment deadline is June 19, 1999.

1. Do disclosures of all significant concentrations of credit risk arising from all financial instruments, whether from an individual counterparty or groups of counterparties (except for certain insurance and investment contracts, purchase and pension obligations), include:

   a. Information about the (shared) activity, region, or economic characteristic that identifies the concentration?

   b. The maximum amount of loss due to credit risk that, based on the gross fair value of the financial instrument, the entity would incur if parties failed completely to perform according to the terms of the contracts and the collateral or other security, if any, for the amount due proved to be of no value to the organization?

   c. The organization’s policy of requiring collateral or other security to support financial instruments subject to credit risk, information about the organization’s access to that collateral or other security, and the nature and a brief description of the collateral or other security supporting those financial instruments?

   d. The organization’s policy of entering into master netting arrangements to mitigate the credit risk of financial instruments, information about the arrangements for which the entity is a party, and a brief description of the terms of those arrangements, including the extent to which they would reduce the organization’s maximum amount of loss due to credit risk? [SFAS 133, par. 531]

2. For financial instruments with off-balance-sheet risk (except for those excluded in SFAS 105), are the following disclosed either in the body of the financial statements or in the notes by category of financial instrument:

   a. The face or contract amount (or notional principal amount if there is no face or contract amount)?

---

4 Category of financial instrument refers to class of financial instrument, business activity, risk, or other category that is consistent with the management of those instruments. If disaggregation of financial instruments is other than by class, the entity also should describe for each category the classes of financial instruments included in that category. Practices for grouping and separately identifying similar financial instruments into classes in statements of financial position, in notes to financial statements, and in various regulatory reports have developed and become generally accepted, largely without being codified in authoritative literature. In SFAS 105 (AC P25), “class of financial instrument” refers to those classifications.
b. The nature and terms, including, at a minimum, a discussion of:

3. If the disclosures in Steps 2a. and 2b. are not provided by class of financial instrument, does the organization also describe for each category the classes of financial instruments included in each category? [SFAS 105, par. 17, as amended by SFAS 119, par. 14 (AC F25.112)]

4. Do the disclosures in Steps 2a. and 2b. distinguish between financial instruments with off-balance-sheet risk held or issued for trading purposes, including dealing and other trading activities measured at fair value with gains and losses recognized in earnings, and financial instruments with off-balance-sheet risk held or issued for purposes other than trading? [SFAS 105, par. 17, as amended by SFAS 119, par. 14 (AC F25.112A)]

5. For financial instruments with off-balance-sheet credit risk (except for those excluded in SFAS 105), are the following disclosed either in the body of the financial statements or in the notes by category of financial instrument:

7. If the organization received an asset or liability in a transfer of financial instruments during the period for which it was unable to estimate the fair value, is a description of the asset or liability disclosed and the reasons why it was not practicable to estimate its fair value?

**Note:** SFAS 126, *Exemption from Certain Required Disclosures about Financial Instruments for Certain Nonpublic Entities*, states that disclosures about the fair value of financial instruments prescribed in SFAS 107 shall be optional for an entity that meets all of the following criteria:

- **a.** The entity is a nonpublic company.
- **b.** The entity's total assets are less than $100 million on the date of the financial statements.
- **c.** The entity has not held or issued any derivative financial instruments as defined in SFAS 119 other than loan commitments, during the reporting period.  
  [For organizations that have adopted SFAS 133, criterion (c) is, "The organization has no instrument that, in whole or in part, is accounted for as a derivative instrument under SFAS 133 during the reporting period."]

Consider this exemption when reviewing Steps 8–12 below.

8. Is the fair value of financial instruments for which it is practicable to estimate that value (except for those excluded in paragraphs 8 and 13 of SFAS 107) disclosed, together with the related carrying amount in a form that makes it clear whether the fair value and carrying amount represent assets or liabilities and how the carrying amounts relate to what is reported in the statement of financial position?

1 This includes when the auditor is unable to obtain sufficient evidential matter to support management’s assertions about the nature of a matter involving an uncertainty and its presentation or disclosure in the financial statements. [SAS 58, par. 31, as amended by SAS 79]

2 The auditor should express a qualified or an adverse opinion if the auditor concludes that (a) a matter involving a risk or an uncertainty is not adequately disclosed, (b) the accounting principles used cause the financial statements to be materially misstated when the inability to make a reasonable estimate raises questions about the appropriateness of the accounting principles used, and (c) management’s estimate is unreasonable and that its effect is to cause the financial statements to be materially misstated. [SAS 58, pars. 46–49, as amended by SAS 79 (AU 508.46–49)]

13. If during a GAAS audit of the financial statements the auditor becomes aware that the organization is subject to an audit requirement not encompassed in the terms of the engagement (e.g., the entity is required to have an audit performed in accordance with OMB Circular A-133), the auditor must communicate to management and the audit committee, or to others with equivalent authority and responsibility that a GAAS audit may not satisfy relevant legal, regulatory, or contractual requirements. Did the auditor consider the client's actions in response to such communication (e.g., not arranging for an audit that meets the applicable requirements) including the potential effect on the financial statements and auditor's report?

Auditors’ Reports on Audits Performed Under Government Auditing Standards and Under OMB Circular A-133 Checklist

.01 This checklist has been developed by the staff of the Accounting and Auditing Publications Team of the AICPA as a nonauthoritative practice aid.

.02 This checklist has two parts: Part I is for auditors’ reports on financial audits performed under Government Auditing Standards (GAS, which is also known as the Yellow Book). (This checklist does not address the performance auditing standards of GAS.) Part II contains the additional requirements for auditors’ reports on audits performed under the Single Audit Act Amendments of 1996 in accordance with OMB Circular A-133. For audits performed under Circular A-133, both Parts I and II of this checklist must be completed.

³ For an audit that is not subject to Circular A-133 (that is, in accordance with GAS only), any reportable instances of noncompliance, reportable conditions, and material weaknesses can either be described in the body of the report or the report can refer to a separate schedule that summarizes the findings noted. For an audit in accordance with Circular A-133, all findings, including those required to be reported under GAS, must be included in the schedule of findings and questioned costs. [SOP 98-3, ch.10, fn. 14]

   [SOP 98-3, par. 3.44]  

6. Does the report carry the same date as the report on the financial statements, even if that requires a dual date on the report on compliance with requirements applicable to each major program and on internal control over compliance in accordance with Circular A-133?

**Data Collection Form**

25. Has the auditor completed Part I, item 7, and Parts II and III of the data collection form? [SOP 98-3, par. 10.72]

26. Has the auditor signed the form and dated it as of the date on which he or she completes and signs the form? [SOP 98-3, par. 10.72]

27. Are the following areas of the data collection form properly addressed:

   a. In Part III, question 5, are only those federal agencies affected by audit findings identified as needing to receive a copy of the reporting package? | | |

   b. In Part III, question 5, if no findings were required to be reported under section 510(a) of Circular A-133 (part III, question 4) and the summary schedule of prior audit findings does not report the status of any audit findings relating to federal awards, the box “none” is checked to indicate that no federal agencies are required to receive a copy of the reporting package? | | |

   c. Part III, question 7, is completed in its entirety for every single audit, regardless of whether findings and questioned costs were noted? | | |

   d. In Part III, question 7, the only types of compliance requirements that are listed are those requirements with audit findings associated with them? (If no findings were noted, the auditor should complete this section with the letter O.) | | |

   e. In Part I, question 9, only one federal agency is identified as the cognizant or oversight agency for audit? (This should not be a pass-through entity.) | | |

   f. In Part III, question 2, the dollar threshold used to distinguish between type A and type B programs is no less than $300,000? | | |

---

10 Where appropriate the instances identified should be related to the universe and the number of cases examined and be quantified in terms of the dollar value.

11 If the auditee’s corrective action plan is available and contains the views of the responsible officials, the auditor can indicate in the finding that the auditee disagreed with the finding and refer to the details of the auditee’s position in the plan.
g. In Part III, question 6, an appropriate number is included in the field for CFDA number—either a CFDA number or the first two digits of the CFDA number assigned to the federal awarding agency (that are followed by "RD" for research and development programs)?
[ARA-NFP, pages 17-20]

Program-Specific Audits

28. In a program-specific audit performed in accordance with A-133, are the following reports issued:\(^\text{12}\)
   a. A report on the financial statement(s) of the federal program?
   __ __ __
   b. A report on compliance with requirements applicable to the federal program and on the internal control over compliance in accordance with the program-specific audit option under Circular A-133?
   __ __ __
   [SOP 98-3, pars. 11.8 and 11.9]
   c. A schedule of findings and questions costs for the federal program?
   __ __ __

29. Does the report on compliance and on internal control for a program-specific audit conform to the standard reports illustrated in Examples 6 and 6a in SOP 98-3?
[SOP 98-3, App. D]

\(^{12}\) If the financial statement(s) of the program only present the activity of the federal program, the auditor is not required to issue a separate report to meet the financial reporting requirements of GAS. This is because, in many cases, by definition the financial statements of the program consist only of the schedule of expenditures of federal awards. See the further discussion in paragraph 11.10 of SOP 98-3.

Independent Auditor's Report

The Board of Directors
Big Brothers of Any County, Inc.

We have audited the accompanying statement of financial position of Big Brothers of Any County, Inc. (an Any State not-for-profit corporation) as of December 31, 19X4 and the related statements of activities, cash flows, and functional expenses for the year then ended. These financial statements are the responsibility of the Organization's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Big Brothers of Any County, Inc. as of December 31, 19X4, and the changes in net assets and its cash flows for the year then ended in conformity with generally accepted accounting principles.

As discussed in Note 9 to the financial statements, in 19X4 the Organization changed its method of accounting for contributions, its method of accounting for investments, and its method of financial reporting and financial statement presentation.

Notes to Financial Statements

For the Year Ended December 31, 19X4

Note 1: Nature of Organization and Significant Accounting Policies

Big Brothers of Any County, Inc. (the Organization) is a nonprofit organization dedicated to helping single-parent children in southeastern AnyState by building friendships through a one-on-one matching program with screened adult volunteers. Revenues are derived principally from the Organization’s programs and from contributions.

Support and Expenses. Contributions received and unconditional promises to give are measured at their fair values and are reported as an increase in net assets. The Organization reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets, or if they are designated as support for future periods. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activity as net assets released from restrictions. Donor-restricted contributions whose restrictions are met in the same reporting period are reported as unrestricted support.

The Organization reports gifts of goods and equipment as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

Expenses are recorded when incurred in accordance with the accrual basis of accounting.

Donated Services, Goods, and Facilities. A substantial number of volunteers have donated approximately 20,000 hours to the Organization’s program services and fund-raising campaigns during the year; however, these donated services are not reflected in the financial statements since the services do not require specialized skills. Donated professional services (which include accounting and legal services) are reflected in the statement of activities at their fair value.

Materials and other assets received as donations are recorded and reflected in the accompanying financial statements at their fair values at the date of receipt.

Conditional Promises to Give. As of December 31, 19X4, the Organization had received conditional promises to give aggregating $13,000 that are contingent upon the Organization’s raising matching corporate gifts.

Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents. Cash and cash equivalents consist of cash held in checking and money market accounts and certificates of deposit with maturities of less than 90 days. At year-end and throughout the year, the organization’s cash balances were deposited in several banks. Management believes the Organization is not exposed to any significant credit risk on cash and cash equivalents.

Investments. Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the statement of financial position. Invest-
ment income or loss (including gains and losses on investments, interest, and dividends) is included in the statement of activities as increases or decreases in unrestricted net assets unless the income or loss is restricted by donor or law.

Concentrations of Credit and Market Risk. Financial instruments that potentially expose the Organization to concentrations of credit and market risk consist primarily of cash equivalents and investments. Cash equivalents are maintained at high-quality financial institutions and credit exposure is limited to any one institution. The Organization has not experienced any losses on its cash equivalents. The Organization’s investments do not represent significant concentrations of market risk inasmuch as the Organization’s investment portfolio is adequately diversified among issuers.

Vehicles and Office Equipment. Vehicles and office equipment acquisitions are recorded at cost. Depreciation is provided over the estimated useful lives of the assets and computed on the straight-line method.

Advertising Costs. Advertising costs are expensed as incurred.

Income Taxes. The Organization is a nonprofit corporation whose revenue is derived from contributions and other fund-raising activities and is not subject to federal or state income taxes.

Note 2: Assets to Be Disposed Of

In January 19X4, management decided to dispose of the Organization’s arcade-game equipment due to the age and poor condition of the equipment. In connection with that decision, the Organization incurred a $45,000 charge to write down the arcade-game equipment to fair market value. The arcade-game equipment is expected to be disposed of by March 31, 19X5. After the write-down, the equipment is recorded in unrestricted net assets at $5,000 and is no longer being depreciated.

Note 3: Contributions Receivable

| Contributions receivable (in less than one year) | $52,600 |
| Less allowance for uncollectible contributions | (10,500) |
| **Total** | **$42,100** |

Note 4: Leasehold Interest

In December of 19X4, the Organization received a contribution of leasehold rights for 3,000 square feet of office space for a ten-year term. The Organization’s monthly rent under a signed lease agreement is $5 per month. The present value of the fair market rent of $3,000 per month over the lease term, which was determined using an 8% discount rate, has been recognized as temporarily restricted support in the current year. The amounts are classified as follows:

| Future leasehold rights | $248,450 |
| Less current portion—twelve months | (34,940) |
| Leasehold interest—noncurrent | $212,510 |

The expected time expirations on restrictions of leasehold interests are:

Note 7: Lease Commitments

The Organization leased its Any City office facilities under a noncancellable operating lease which expired December 31, 19X4. Rental expense for the year ended December 31, 19X4 including common area expenses was $42,500.

In December 19X4, the Organization signed a lease agreement for contributed office facilities for a term of ten years. The Organization may cancel the lease at any time with a 30-day notice. See also note 3.

Note 8: Functional Allocation of Expenses

The costs of providing the various programs, fund-raising and other activities have been summarized on a functional basis in the statement of functional expenses. Accordingly, certain costs have been allocated among the programs and fund-raising activities benefited.

During 19X4, the Organization conducted program activities that also included requests for contributions. Those activities included requesting contributions at the Outreach Sports Tournaments and through direct mail campaigns. The costs of those activities included a total of $27,000 of joint costs which were not specifically identifiable to either the program component or the fund-raising component of the activities. These joint costs were allocated $15,000 to program activities and $12,000 to fund raising.

Note 9: Change in Accounting Method

During 19X4, the Organization adopted the accounting treatment prescribed by Statement on Financial Accounting Standards (SFAS) No. 116, Accounting for Contributions Received and Contributions Made, SFAS No. 117, Financial Statements for Not-For-Profit Organizations, and SFAS No. 124, Accounting for Certain Investments Held by Not-for-Profit Organizations. In accordance with SFAS No. 116, contributions received are recorded as unrestricted support depending on the
existence and/or nature of any donor restrictions. As permitted by SFAS No. 116, the Organization may retroactively apply the provisions of this new statement by restating the assets as of December 31, 19X3. The adjustment of $27,000 made to net assets as of December 31, 19X3, represents contributions not previously reported.

**Note 10: Temporarily Restricted Net Assets**

Temporarily restricted net assets are available for the following specific program services:

- Contributions receivable for the Combined Federal Campaign $18,100
- Donated facilities available for future years 248,450
- **Total** $266,550

**Note 11: Permanently Restricted Assets**

Permanently restricted assets of $61,800 are restricted to investments in perpetuity, the income from which is expendable to support the Big Brother Outreach Campaign.

**Note 12: Litigation**

In November 19X4 a legal action was filed against the Organization by a former employee alleging wrongful termination and other charges. The plaintiff is seeking $2,000,000 in damages. The Organization believes the claim is without merit and has not accrued any loss contingency. While the Organization believes it has excellent defenses against the suit, the ultimate resolution of the matter, which is expected to occur within one year, could result in a loss of up to $300,000 after insurance coverage.
