Checklist Supplement and Illustrative Financial Statements for Investment Companies

.01 The checklist and illustrative financial statements included in this section have been developed by the staff of the Accounting and Auditing Publications Team of the AICPA as nonauthoritative technical practice aids. Readers should be aware of the following:

- These checklists include disclosures commonly encountered in investment company financial statements; they do not include all disclosures required by GAAP. Further, the illustrative financial statements are intended to provide sample financial statement formats and disclosures for a hypothetical investment company; they are not intended to illustrate all disclosures required by GAAP, nor do they illustrate all of the disclosures covered in the checklist.

- The checklist and illustrative financial statements are “tools” and in no way represent official positions or pronouncements of the AICPA.

- The checklist and illustrative financial statements are to be used in conjunction with the “Checklists and Illustrative Financial Statements for Corporations” (FSP sections 6000-6500) and have been updated to include relevant accounting pronouncements through FASB Statement of Financial Accounting Standards No. 134, FASB Interpretation No. 42, FASB Technical Bulletin No. 97-1, AICPA Statement of Position No. 98-9, AICPA Practice Bulletin No. 15, AICPA Audit and Accounting Guide Audits of Investment Companies (with conforming changes as of May 1, 1998), and EITF consensuses adopted up to and including the September 1998, Emerging Issues Task Force meeting. The checklist and illustrative financial statements should be modified, as appropriate, for subsequent pronouncements. In determining the applicability of a pronouncement, its effective date should also be considered.

- The checklist and illustrative financial statements should be used by, or under the supervision of, persons having adequate technical training and proficiency in the application of generally accepted accounting principles, generally accepted auditing standards, and statements on standards for accounting and review services.

.02 Users of the checklist and illustrative financial statements are urged to refer directly to applicable authoritative pronouncements when appropriate. If you have further questions, call the AICPA Technical Hotline at 1-888-777-7077 (AICPA members only).

Note: This publication was extracted from sections 12,000 through 12,400 of the AICPA Financial Statement Preparation Manual (FSP).
FSP Section 12,100

Introduction

.01 Investment companies generally are companies that pool shareholders’ funds and invest the proceeds for the benefits of shareholders under the supervision of professional investment management. The investments are generally in securities that are intended to meet the investment objectives of the entity. The entity distributes the net income and realized net gains to its shareholders.

.02 The industry is subject to extensive governmental regulation by the Securities and Exchange Commission (“SEC”). The industry is also the subject of special tax treatment. The investment company industry usually is categorized by the type of security or the investment objective.

.03 There are many types of investment companies: management investment companies, unit investment trusts, collective trust funds, investment partnerships, certain separate accounts of life insurance companies, and offshore funds. Management investment companies are further divided into many sub-classifications, the most predominant of which is open-end funds, also called mutual funds. There are also closed-end funds and Small Business Investment Companies (SBICs).

.04 The checklist has been designed primarily for auditors of mutual funds and closed-end investment companies that register with the SEC under the Investment Company Act of 1940. However, the checklist would generally apply to all types of investment companies.

.05 Investment companies covered by the checklist are required to report their investment assets at fair value and have the following attributes (not applicable to real estate investment trusts):

a. Investment activity. The primary activity is the investment in securities of nonaffiliates or entities not under common management for current income, appreciation, or both.

b. Unit ownership. Ownership in the investment company is evidenced by units of investments, such as shares of stock or partnership interests to which proportionate shares of net assets can be attributed.

c. Pooling-of-funds. The funds of the owners are pooled to avail owners of professional investment management.

d. Reporting entity. The investment company is the primary reporting entity.

.06 The major accounting and auditing literature and applicable regulations for investment companies are as follows:

a. AICPA Audit and Accounting Guide Audits of Investment Companies.

b. SOP 89-2, Reports on Audited Financial Statements of Investment Companies.

c. SOP 93-1, Financial Accounting and Reporting for High-Yield Debt Securities by Investment Companies.

d. SOP 93-2, Determination, Disclosure, and Financial Statement Presentation of Income, Capital Gain, and Return of Capital Distributions by Investment Companies.

e. SOP 93-4, Foreign Currency Accounting and Financial Statement Presentation for Investment Companies.

f. SOP 95-2, Financial Reporting by Nonpublic Investment Partnerships.

g. SOP 95-3, Accounting for Certain Distribution Costs of Investment Companies.

h. Article 6 of Regulation S-X of the Securities and Exchange Commission.
i. The Securities Act of 1933.

j. Investment Company Act of 1940.

Checklists—General

.01 AICPA disclosure checklists have been designed as practice aids to assist accountants in the preparation of financial statements and to assist auditors in their evaluation of the adequacy of disclosures in the financial statements they audit. Authoritative literature does not require the use of checklists, nor does it prescribe their format or content.

.02 This checklist consists of a number of questions or statements that are accompanied by references to the established sources of GAAP in which the disclosure requirements are found. These sources include Statements of Financial Accounting Standards, FASB Interpretations, Accounting Principles Board Opinions, Accounting Research Bulletins, AICPA Audit and Accounting Guides, AICPA Statements of Position, and EITF consensuses. Checklists are designed to serve as convenient memory aids but should not be used as a substitute for direct reference to authoritative literature.

.03 To use this checklist, simply check "yes," "no," or "not applicable" for each question. If additional information needs to be documented, include separate cross-referenced memoranda.

.04 As you use this checklist, please remember that:

- The exercise of sound professional judgment is of paramount importance in applying the checklist provisions.
- The checklist may require modification based on the engagement circumstances.
- The checklist may not be all-inclusive.
- Users need to modify the checklist for any pronouncements issued subsequent to those mentioned in the checklist.

Financial Statements and Notes Checklist

.01 This checklist has been developed by the staff of the Accounting and Auditing Publications Team of the AICPA as a nonauthoritative practice aid and is to be used in conjunction with the "Checklists and Illustrative Financial Statements for Corporations" (FSP sections 6000-6500).

.02 The form and content of the investment companies' financial statements required in SEC filings are governed by Regulation S-X, Article 6 that deals specifically with investment companies (SBIC's are covered in Article 5).

.03 Explanation of references:

AAG-INV = AICPA Audit and Accounting Guide Audits of Investment Companies (with conforming changes as of May 1, 1998)
SFAS = FASB Statement of Financial Accounting Standards
Reg. S-X = SEC Regulation S-X
SOP = AICPA Statement of Position

.04 Checklist Questionnaire:

This checklist is organized into the sections listed below. Carefully review the topics listed and consider whether they represent potential disclosure items for the investment company. Place a check mark by the topics or sections considered not applicable; these sections need not be completed.

**Note:** For general disclosures relating to areas such as Financial Instruments, Risks and Uncertainties, etc., refer to “Financial Statements and Notes Checklist for Corporations.”

Illustrative Financial Statements

.01 The following illustrative auditor’s report and financial statements demonstrate one form of currently acceptable practice. The checklists and illustrative financial statements do not include all disclosures and presentation items required by GAAP. The financial statements are reproduced from the AICPA Audit and Accounting Guide Audits of Investment Companies. Other forms of financial statements are acceptable. More or less detail should appear either in the financial statements or in the notes, depending on the circumstances.

Independent Auditor’s Report

To the Shareholders and Board of Directors

XYZ Management Investment Company:

We have audited the accompanying statement of assets and liabilities of XYZ Management Investment Company (or Statement of Net Assets), including the schedules of investments in securities, covered call options written, and securities sold short as of December 31, 19X4, the related statement of operations for the year then ended, the statement of changes in net assets for each of the two years in the period then ended, and the selected per share data and ratios for each of the five years in the period then ended. These financial statements, schedules, and selected per share data and ratios are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements, schedules, and per share data and ratios based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and per share data and ratios are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 19X4 by correspondence with the custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements, schedules, and selected per share data and ratios referred to above present fairly, in all material respects, the financial position of XYZ Management Investment Company as of December 31, 19X4, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the selected per share data and ratios for each of the five years in the period then ended, in conformity with generally accepted accounting principles.

Notes to Financial Statements

The following notes to the financial statements are illustrative only. In some circumstances, the information may be better presented within the financial statements; in other circumstances, information not required by regulation may not be sufficiently material to be disclosed.

Note 1: Significant Accounting Policies

The Company is registered under the Investment Company Act of 1940 as a diversified, open-end management investment company.

Security valuation. Investments in securities traded on a national securities exchange (or reported on the NASDAQ national market) are stated at the last reported sales price on the day of valuation. Other securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are stated at the last quoted bid price, except for short positions and call options written, for which the last quoted asked price is used. Short-term notes are stated at amortized cost, which is equivalent to value. Restricted securities and other securities for which quotations are not readily available are valued at fair value as determined by the board of directors.

Federal income taxes. The Company’s policy is to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Equalization. The Company uses the accounting practice of equalization, by which a portion of the proceeds from sales and costs of redemption of capital shares, equivalent on a per share basis to the amount of undistributed net investment income on the date of the transactions, is credited or charged to undistributed income. As a result, undistributed net investment income per share is unaffected by sales or redemptions of capital shares.

Distributions to shareholders. Dividends to shareholders are recorded on the ex-dividend date.

Other. The Company follows industry practice and records security transactions on the trade date. Dividend income is recognized on the ex-dividend date, and interest income is recognized on an accrual basis. Discounts and premiums on securities purchased are amortized over the life of the respective securities.

Note 2: Restricted Securities

The investment in 10,000 shares of Amalgamated Buggy Whips, Inc. common stock, the sale of which is restricted, has been valued by the board of directors after considering certain pertinent factors, including the results of operations of Amalgamated since the date of purchase in 19X1 and the sales price of recent private placements in its common stock. There is no quoted market for Amalgamated shares.

Note 3: Covered Call Options Written

As of December 31, 19X4, portfolio securities valued at $1,908,000 were held in escrow by the custodian in connection with covered call options written by the Company.

* If several restricted security investments are held, a general statement on the valuation methods may be given rather than individual descriptions.
Note 4: Distributions to Shareholders

On January 3, 19X5, a distribution of $0.20 aggregating $840,000 was declared from net realized gains from investment transactions (including $0.02 applicable to short-term gains that are taxable to shareholders as ordinary income dividends) during 19X4. The dividend was paid on January 20, 19X5, to shareholders of record on January 10, 19X5.

As of December 31, 19X4, the Company had available for federal income tax purposes an unused capital loss carryover of approximately $1,500,000 which will expire in 19X5.*

Note 5: Bank Loans

The Company has an unsecured $3,000,000 bank line of credit. Borrowings under this arrangement bear interest at 11.0 percent of the bank’s prime rate. As of December 31, 19X4, the Company was paying interest at 11 percent per year on its outstanding borrowings. No compensating balances are required.

Note 6: Capital Share Transactions

As of December 31, 19X4, there were 25,000,000 shares of $0.50 par value capital stock authorized and capital paid-in aggregated $15,184,000.

Transactions in capital stock were as follows:

Note 7: Investment Transactions

Purchases and sales of investment securities (excluding short-term securities) were $32,000,000 and $23,300,000, respectively, for common stocks and bonds; purchases and sales of U.S. government obligations were $3,300,000 and $2,000,000. Net loss on investments for the year ended December 31, 19X4, was $560,000. That amount represents the net decrease in value of investments held during the year. The components are as follows:

- Long transactions $501,000
- Short sale transactions $75,000
- Covered call options written 16,000

Total $560,000

As of December 31, 19X4, the unrealized appreciation of securities was $2,189,000; accumulated undistributed net realized gains on investment transactions totaled $850,000.

Note 8: Investment Advisory Fees and Other Transactions with Affiliates

The Company pays advisory fees for investment management and advisory services under a management agreement (Agreement) that provides for fees to be computed at an annual rate of 0.5 percent of the Company’s average daily net assets. Certain officers and directors of the Company are also officers and directors of the investment adviser. The Agreement provides for

* This would be disclosed if the Company had an available capital loss carryover as of December 31, 19X4.
an expense reimbursement from the investment adviser if the Company’s total expenses, exclusive of taxes, interest on borrowings, dividends on securities sold short, brokerage commissions, and extraordinary expenses, exceed 1.5 percent of the Company’s average daily net assets for any full fiscal year. An expense reimbursement was not required for either 19X4 or 19X3. An expense reimbursement of $0.01 per share was required in 19X0.

The investment adviser also received $10,000 in 19X4 and $15,000 in 19X3 from commissions earned on sales of XYZ Management Investment Company capital stock and $5,000 in 19X4 and $8,000 in 19X3 from brokerage fees on its executions of purchases and sales of portfolio investments.

During 19X4, the Company incurred legal fees of $7,000 to Brown and Smith, counsel for the Company. John F. Smith, a partner of the firm, is a director of the Company. MNO Service Company, an affiliate of the investment adviser, received $4,000 in expense reimbursements for shareholder-related distribution expenses undertaken pursuant to a shareholder-approved plan.

Note 9: Portfolio Securities Loaned

As of December 31, 19X4, the Company loaned common stocks having a value of approximately $570,000 and received cash collateral of $620,000 for the loan.
