# HOW TO USE THIS VOLUME

## NEW CHANGES

This edition contains the following significant additions:

- A completely revamped State and Local Governments section (AAM section 12,000), reflecting all the latest changes and guidance concerning audits of state and local governments.
- Statement on Standards for Attestation Engagements (SSAE) No. 9, *Amendments to Statement on Standards for Attestation Engagements Nos. 1, 2, and 3*, has been incorporated into all the affected report examples in AAM section 10,000.
- Report examples affected by guidance contained in Statement on Auditing Standards (SAS) No. 87, *Restricting the Use of an Auditor's Report*, have been updated.
- Improved guidance for auditing investments has been added to AAM section 5400.
- The sample representation letters for reviews of financial statements have been updated to reflect the Revised Illustrative Representation Letter for SSARS Review Engagements, just issued by the AICPA.

## Scope of the Volume . . .

This Volume, which is a reprint of the looseleaf edition, brings together for continuing reference a set of nonauthoritative audit tools and illustrations prepared by the staff of the Accounting and Auditing Publications Team of the American Institute of Certified Public Accountants.

## How This Volume Is Arranged . . .

The contents of this Volume are arranged as follows:

Introduction  
 Compilation and Review  
 Engagement Planning and Administration  
 Internal Control  
 Audit Approach and Programs  
 Working Papers  
 Correspondence, Confirmations & Representations  
 Audit Risk Alerts  
 Supervision, Review and Report Processing  
 Accountants' Reports  
 Quality Control  
 State and Local Governments

## How to Use This Volume . . .

The arrangement of material is indicated in the general table of contents at the front of the Volume. There is a detailed table of contents covering the material within each major division.

The major divisions are subdivided into sections, each with its own section number. Each paragraph within a section is decimally numbered. For example, AAM section 7100.01 refers to the first paragraph of section 7100, *Control of Confirmations and Correspondence*. Section and paragraph numbers located on each page are provided as corner references at the bottom of each page.

The AICPA *Professional Standards* is referenced by the use of the following abbreviations: AU (Auditing), AT (Attestation Standards), AR (Accounting and Review Services), ET (Code of Professional Conduct), BL (Bylaws), QC (Quality Control), and PR (Peer Review).

The FASB *Accounting Standards Current Text* is referenced in a similar manner by the use of the abbreviation AC before the section and paragraph numbers. The *Current Text* contains an abridged version of the currently effective financial and reporting standards, as amended.

Quotations of accounting standards in this Volume are derived from the original pronouncements and may have been editorially changed in the *Current Text*.

# AAM Section 1100

## *Introduction*

.01 This manual has been prepared by the staff of the American Institute of Certified Public Accountants and issued as a nonauthoritative practice aid. The materials included in it are intended primarily as a reference source for conducting audit, review, and compilation engagements. The objective is to provide practitioners with the tools needed to help plan, perform, and report on their engagements. *The manual is not intended to serve as a complete or comprehensive quality control system.* The materials are not intended as a substitute for the professional judgments that must be applied by practitioners. The manual, where practicable, offers choices and alternatives rather than particular positions. The manual is not a substitute for the authoritative technical literature and users are urged to refer directly to applicable authoritative pronouncements for the text of technical standards.

.02 Some sections of the manual include quotations from Statements on Auditing Standards and other authoritative pronouncements. Those quotations are intended only to illustrate certain matters, not to serve as a substitute for careful study of the relevant pronouncements. References are made throughout the manual to the original authoritative pronouncements and to their section numbers in AICPA *Professional Standards* and the FASB *Accounting Standards Current Text* to help users locate those authoritative pronouncements.

.03 The authors hope that the manual will be helpful to practitioners in the conduct of their audit and accounting practice. However, no generalized material, such as that included in this manual, can be a substitute for development and implementation by a firm of a system of quality control which is appropriately comprehensive and suitably designed in relation to the firm's organizational structure, its policies, and the nature of its practice.

.04 Explanation of References:

AC =	Reference to section number in FASB <i>Accounting Standards Current Text</i>
APB =	AICPA Accounting Principles Board Opinion
AR =	Reference to section number in AICPA <i>Professional Standards</i> (vol. 2)
ARB =	AICPA Accounting Research Bulletin
AT =	Reference to section number in AICPA <i>Professional Standards</i> (vol. 1)
AU =	Reference to section number in AICPA <i>Professional Standards</i> (vol. 1)
EITF =	Emerging Issues Task Force consensus
FASBI =	FASB Interpretation
PB =	AcSEC Practice Bulletin
QC =	Reference to section number in AICPA <i>Professional Standards</i> (vol. 2)
SAS =	AICPA Statement on Auditing Standards
SFAS =	FASB Statement of Financial Accounting Standards
SOP =	AICPA Statement of Position
SQCS =	Statement on Quality Control Standards
SSAE =	Statement on Standards for Attestation Engagements
SSARS =	Statement on Standards for Accounting and Review Services

.05 The manual is in looseleaf format in anticipation of updating and expansion. Changes are expected to arise from three main sources:

- (1) Comments and suggestions from practitioners. Since this manual is a product of AICPA staff, not of a committee of practitioners, it is particularly important that practitioners advise the staff on any suggestions for material that could be improved or added.
- (2) Issuance of new official pronouncements.
- (3) Other additions to or deletions from the manual as a result of continued staff study.

Comments and suggestions should be addressed to:

Accounting and Auditing Publications  
AICPA  
Harborside Financial Center  
201 Plaza III  
Jersey City, NJ 07311-3881

or call Linda Delahanty at (201) 938-3416.

.06 For disclosure checklists and illustrative financial statements, obtain the AICPA looseleaf service entitled *Financial Statement Preparation Manual* (FSP). The FSP includes disclosure checklists and illustrative financial statements for the following:

Banks and Savings Institutions  
Cash- and Tax-Basis Financial Statements  
Common Interest Realty Associations  
Construction Contractors  
Corporations  
Defined Benefit Pension Plans  
Defined Contribution Pension Plans  
Development Stage Enterprises  
Health and Welfare Benefit Plans  
Health Care Organizations  
Investment Companies  
Life Insurance Companies  
Not-for-Profit Organizations  
Oil and Gas Producers  
Personal Financial Statements  
Property and Liability Insurance Companies  
Prospective Financial Statements  
Real Estate Ventures  
State and Local Governmental Units

To order the *Financial Statement Preparation Manual*, write to:

Subscriptions Administration  
AICPA  
P.O. Box 2208  
Jersey City, NJ 07303-9948

Or call the order department at (888) 777-7077.

# AAM Section 1200

## *How to Use the Audit and Accounting Manual*

### Overview

.01 The Audit and Accounting Manual (AAM) is designed to provide practitioners with the tools needed to help plan, perform, and report on audit, review, and compilation engagements. *The AAM is not intended to serve as a complete or comprehensive quality control system.* The AAM is comprised of the following sections:

<u>Section No.</u>	<u>Section Name</u>
2000	Compilation and Review
3000	Engagement Planning & Administration
4000	Internal Control
5000	Audit Approach & Programs
6000	Working Papers
7000	Correspondence, Confirmations & Representations
8000	Audit Risk Alerts
9000	Supervision, Review & Report Processing
10,000	Accountants' Reports
11,000	Quality Control
12,000	State and Local Governments

## Audits

.02 To perform an engagement in accordance with generally accepted auditing standards (GAAS) an auditor must comply with the General Standards, the Standards of Field Work, the Standards of Reporting, and the Quality Control Standards.

.03 The general standards are concerned with the qualifications of the auditor and the qualitative aspect of the work performed. They specifically address the auditor's training and proficiency, independence, and due care in the performance of work.

.04 The standards of field work address the manner used by the auditor to perform the audit. This standard begins with the appointment of the auditor and ends with the auditor communicating to those responsible for the oversight of financial reporting of the entity being audited.

.05 The standards of reporting are concerned with the opinion the auditor renders on the client's financial statements.

.06 The AAM will assist the auditor in performing an audit, in accordance with GAAS, in the following ways:

- a. The Quality Control section [AAM section 11,000] includes sample forms which can be used by a firm to document its adherence to the AICPA requirement for a System of Quality Control for a CPA Firm. Included in this section are forms that relate to the five elements of Quality Control:
  - Independence, Integrity, and Objectivity
  - Personnel Management
  - Acceptance and Continuance of Clients and Engagements
  - Engagement Performance
  - Monitoring
- b. The Engagement Planning & Administration section [AAM section 3000] provides guidance in the planning stage. Included in this section are various formats of audit assignment controls, engagement letters, and a planning program.
- c. The Internal Control section [AAM section 4000] has been updated to conform to the *Internal Control—Integrated Framework*, published by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO report) and the new Audit Guide *Consideration of Internal Control in a Financial Statement Audit*. This section provides guidance in evaluating internal control by utilizing checklists, questionnaires, and other generalized aids.
- d. The Audit Approach & Programs section [AAM section 5000] explains how the auditor should design audit programs as well as providing an illustrative audit program which can be used to assist the auditor in designing an audit program for specific clients.
- e. The Working Papers section [AAM section 6000] provides the auditor with a general discussion of the purpose of working papers.
- f. The Correspondence, Confirmations & Representations section [AAM section 7000] provides the auditor with numerous examples of confirmations, illustrative inquiries to legal counsel, representation letters, communications with audit committees, as well as a reliance letter.
- g. The Supervision, Review & Report Processing section [AAM section 9000] provides the auditor with an overview of supervision and review procedures as well as engagement review programs for the in-charge accountant and the partner responsible for the engagement. It also provides procedures for processing the report.

- h. The Accountants' Reports section [AAM section 10,000] addresses the format of the accountants' report and numerous examples of the auditor's report.

## Compilation and Review Services

.07 To perform either a review or compilation engagement in accordance with Statements on Standards for Accounting and Review Services (SSARS), an accountant must comply with the standards promulgated by the Accounting and Review Services Committee. There have been seven statements issued.

.08 SSARS 1, *Compilation and Review of Financial Statements* (AR section 100), provides guidance to accountants concerning the standards and procedures applicable to compilation and review services for a nonpublic entity. The statement also provides examples of standard single year reports and departures from those reports.

.09 SSARS 2, *Reporting on Comparative Financial Statements* (AR section 200), establishes standards for reporting on comparative financial statements of a nonpublic entity when one or more prior periods have been compiled or reviewed in accordance with SSARS 1 (AR section 100).

.10 SSARS 3, *Compilation Reports on Financial Statements Included in Certain Prescribed Forms* (AR section 300), provides an alternative form of standard compilation report when reporting on a prescribed form calls for a departure from generally accepted accounting principles (GAAP).

.11 SSARS 4, *Communications Between Predecessor and Successor Accountants* (AR section 400), provides guidance to a successor accountant who communicates with a predecessor accountant regarding acceptance of an engagement to compile or review financial statements of a nonpublic entity.

.12 SSARS 5 (Deleted by SSARS 7).

.13 SSARS 6, *Reporting on Personal Financial Statements Included in Written Personal Financial Plans* (AR section 600), provides an exemption from SSARS 1 for personal financial plans.

.14 SSARS 7, *Omnibus Statement on Standards for Accounting and Review Services—1992*.

.15 The AAM will assist the accountant in performing compilation and review engagements in accordance with SSARS in the following ways:

- a. The Engagement Planning and Administration section [AAM section 2200] provides guidance in the planning stage. Addressed are engagement letters, changes in the level of service for the engagement, sample acceptance form, sample information form, and sample engagement letters.
- b. The Working Papers section [AAM section 2300] provides sample procedures for both compilation and review engagements, representation letters, and checklists.
- c. The Form and Content of Financial Statements [AAM section 2400] provides guidance on the statements, notes, supplementary information, and subsequent discovery of facts.
- d. The Accountants' Reports section [AAM section 2500] includes examples of several reports for the engagement.
- e. The Special Areas section [AAM section 2600] addresses prescribed forms and specified elements.

.16 It is suggested that the accountant also review the following areas when performing compilation and review engagements for additional guidance:

Correspondence, Confirmations & Representations [AAM section 7000]

Quality Control [AAM section 11,000]

## Audit Risk Alerts

.17 The Audit Risk Alerts section [AAM section 8000] is intended to provide accountants with an overview of recent economic, professional, and regulatory developments that may affect their engagements.

## Compilation and Review

This manual is a nonauthoritative practice aid and does not include extensive explanation or discussion of authoritative pronouncements. Users of this manual are urged to refer directly to applicable authoritative pronouncements when appropriate.

The exhibits are for illustrative purposes only. They are included as conveniences for users of this manual who may want points of reference when preparing working papers or a report for a compilation or review engagement.

# AAM Section 2100

## *Introduction*

.01 Statements on Standards for Accounting and Review Services (SSARS) are issued by the American Institute of Certified Public Accountants (AICPA) Accounting and Review Services Committee (ARSC), the senior technical committee of the AICPA designated by its Council to issue pronouncements in connection with unaudited financial statements and other unaudited financial information of nonpublic entities (a complete listing of SSARS and the full text can be found in AICPA *Professional Standards*, volume 2, section AR). A nonpublic entity is defined as any entity other than (a) one whose securities trade in a public market either on a stock exchange or over the counter, (b) one that files with a regulatory agency in preparation for the sale of any class of its securities in a public market, or (c) any entity controlled by an entity covered by (a) or (b). Thus, if an entity does not fall into either category (a), (b), or (c) in the above definition, it is a nonpublic entity.

.02 Although SSARS applies only to engagements involving nonpublic entities, there are circumstances when an accountant may perform a review of financial statements of a public entity under SSARS. SSARS 7, *Omnibus Statement on Standards for Accounting and Review Services—1992*, paragraph 1 (AR section 100.01), notes that when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of Statements on Auditing Standards (SAS) No. 26, *Association With Financial Statements* (AU section 504.05).

.03 ARSC has issued seven Statements on Standards for Accounting and Review Services. They are:

- SSARS 1      *Compilation and Review of Financial Statements* [AR section 100] (12/78)
- SSARS 2      *Reporting on Comparative Financial Statements* [AR section 200] (10/79)
- SSARS 3      *Compilation Reports on Financial Statements Included in Certain Prescribed Forms* [AR section 300] (12/81)
- SSARS 4      *Communications Between Predecessor and Successor Accountants* [AR section 400] (12/81)
- SSARS 5      (Deleted by SSARS 7)
- SSARS 6      *Reporting on Personal Financial Statements Included in Written Personal Financial Plans* [AR section 600] (9/86)
- SSARS 7      *Omnibus Statement on Standards for Accounting and Review Services—1992* (11/92)

.04 SSARS 1 (AR section 100) defines a compilation of financial statements and a review of financial statements. A compilation of financial statements is defined as presenting in the form of financial statements information that is the representation of management without expressing any assurance on the statements. A review of financial statements involves performing inquiry and analytical procedures to provide the accountant with a reasonable basis for expressing limited assurance that there are no material modifications that should be made to the financial statements necessary for them to be in conformity with generally accepted accounting principles.

.05 SSARS 1, paragraph 4 (AR section 100.04) [in part, as amended by SSARS 7], defines a financial statement as:

A presentation of financial data, including accompanying notes, derived from accounting records and intended to communicate an entity's economic resources or obligations at a point in time, or the changes therein for a period of time, in accordance with generally accepted accounting principles<sup>1</sup> or a comprehensive basis of accounting other than generally accepted accounting principles.<sup>2</sup> Financial forecasts, projections and similar presentations,<sup>3</sup> and financial presentations included in tax returns are not financial statements for purposes of this statement. SSARSs also gives the following specific examples of financial statements:<sup>4</sup>

- a. Balance sheet
- b. Statement of income
- c. Statement of retained earnings
- d. Statement of cash flows
- e. Statement of changes in owners' equity
- f. Statement of assets and liabilities (with or without owners' equity accounts)
- g. Statement of revenues and expenses
- h. Summary of operations
- i. Statement of operations by product lines
- j. Statement of cash receipts and disbursements

.06 SSARS 2 (AR section 200) establishes the standards for reporting on comparative financial statements of a nonpublic entity when the statements of one or more periods have been compiled or reviewed under SSARS 1 (AR section 100).

---

#### Practice Tip

If prior-period financial statements are not presented in columnar form, they do not meet the SSARS 2 definition of comparative financial statements, and are not subject to the reporting requirements of SSARS 2. In addition, the requirements of SSARS 2 do not apply to prior-period financial statements in a client-prepared document that are presented on separate pages from the financial statements that are reported on by the accountant. However, the document should include an indication (generally, on the face of the financial statements) that the accountant has not compiled or reviewed the prior-period financial statements and assumes no responsibility for them.

---

.07 SSARS 3 (AR section 300) amends SSARS 1 and 2 (AR sections 100 and 200) to provide an alternative form of compilation report when a prescribed form calls for a departure from generally accepted accounting

---

<sup>1</sup> The definition of generally accepted accounting principles and the hierarchy of established accounting principles presented in SAS No. 69, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles in the Independent Auditor's Report* (AU section 411), is also applicable to compilations and reviews of financial statements performed under SSARSs.

<sup>2</sup> The term *comprehensive basis of accounting other than generally accepted accounting principles* is defined in SAS No. 62, *Special Reports*, paragraph 4 (AU section 623.04) . . . reference to generally accepted accounting principles . . . includes, where applicable, another comprehensive basis of accounting . . .

<sup>3</sup> Statement on Standards for Attestation Engagements No. 1, *Attestation Standards* (AT section 200), as well as the AICPA *Guide for Prospective Financial Information*, provide guidance on preparing and reporting on financial forecasts, projections, and similar presentations.

<sup>4</sup> SAS No. 62, paragraph 7 (AU section 623.07), provides guidance with respect to suitable titles for financial statements that are prepared in conformity with a comprehensive basis of accounting other than generally accepted accounting principles.

principles (GAAP). SSARS 3, paragraph 2 (AR section 300.02), defines a prescribed form as any preprinted form designed or adopted by the body to which it is intended to be submitted (e.g., banks, governmental bodies, etc.).

.08 SSARS 3 (AR section 300) does not prohibit the accountant from issuing a SSARS 1 (AR section 100) compilation report which identifies GAAP departures in accordance with SSARS 1, paragraphs 39 through 41 (AR section 100.39–41). A SSARS 3 report is specifically designed to provide an alternative form of reporting when a prescribed form calls for a GAAP departure. This alternative form of reporting is available for a compilation service only and not for a review report.

.09 SSARS 4 (AR section 400), as amended by SSARS 7, provides guidance on required as well as optional communications between predecessor and successor accountants. SSARS 7 amended SSARS 4 (AR section 400) to require the successor accountant to request the client to communicate with the predecessor accountant, if the successor accountant becomes aware of information that may require revision of financial statements reported on by the predecessor accountant.

.10 SSARS 5 (Deleted by SSARS 7).

.11 SSARS 6 (AR section 600) provides an exemption from SSARS 1 (AR section 100) for personal financial statements included in personal financial plans.

.12 Under SSARS 6 (AR section 600), an accountant may submit a written personal financial plan containing unaudited personal financial statements to a client without issuing a report under SSARS 1 (AR section 100), as amended, when—

- a. The accountant establishes and understanding with the client that the financial statements (i) will be used solely to assist the client and the client's advisors to develop the client's personal financial goals and objectives and (ii) will not be used to obtain credit or for any purpose other than developing the aforementioned goals and objectives.
- b. Nothing comes to the accountant's attention during the engagement that would cause him or her to believe that the financial statements will be used to obtain credit or for any purposes other than developing the client's financial goals and objectives.

.13 Examples of implementation of a personal financial plan by a client's advisers include use of the plan by—

- An insurance broker who will identify specific insurance products.
- An investment adviser who will provide specific recommendations about the investment portfolio.
- An attorney who will draft a will or trust documents.

.14 An accountant following the exemption under SSARS 6 (AR section 600) should issue a written report stating that the unaudited financial statements—

- a. Are designed solely to help develop the financial plan.
- b. May be incomplete or contain departures from GAAP and should not be used to obtain credit or for any purpose other than developing the plan.
- c. Have not been audited, reviewed, or compiled.

.15 SSARS 7, which is an omnibus statement—

- a. Clarifies the applicability of SSARS 1 [AR section 100] by indicating that, in certain circumstances, an accountant may perform a review of a public company under the provisions of SSARSs.

- b. Eliminates the prohibition against merely typing or reproducing financial statements without modification and defines the phrase *submission of financial statements*.
- c. Makes explicit that the accountant is not required to communicate to a client errors that are not material and irregularities or illegal acts that are clearly inconsequential.
- d. Modifies the SSARS review report to differentiate it from the review report presented in SAS No. 71, *Interim Financial Information* [AU section 722], as well as modifying the review and compilation report to clarify that the standards referred to in the reports are Statements on Standards for Accounting and Review Services.
- e. Requires a client representation letter when performing a review engagement under SSARS.
- f. Clarifies the accountant's reporting responsibilities in a compilation or review engagement when he or she decides there is an uncertainty about an entity's ability to continue as a going concern.

.16 Illustrative reports to be issued under the provisions of SSARS 1 through 7 can be found in AAM sections 2510, 2520, and 2610.

---

[The next page is 2201.]

## AAM Section 2200

# *Engagement Planning and Administration*

.01 It is important to remember that when engaged to provide compilation or review services, the accountant must comply with both Rules 201 and 202 of the AICPA's Code of Professional Conduct, *General Standards* and *Compliance With Standards*, respectively (ET sections 201.01 and 202.01). Rule 201 requires that an AICPA member comply with the following standards and any interpretations thereof by bodies designated by its Council:

- a. *Professional Competence.* Undertake only those professional services that the member or the member's firm can reasonably expect to be completed with professional competence.
- b. *Due Professional Care.* Exercise due professional care in the performance of professional services.
- c. *Planning and Supervision.* Adequately plan and supervise the performance of professional services.
- d. *Sufficient Relevant Data.* Obtain sufficient relevant data to afford a reasonable basis for conclusions or recommendations in relation to any professional services performed.

.02 Rule 202 requires that an AICPA member who performs auditing, review, compilation, management consulting, tax or other professional services comply with standards promulgated by bodies designated by Council.

.03 Prior to accepting an engagement to perform a compilation or review for a prospective client, the accountant should consider if he or she wishes to be associated with the client. Factors such as the ability of the accountant to adequately serve the client, the fee arrangement, client integrity, etc., need to be considered. It is often useful to complete a "Client Acceptance Form" to assist in determining whether or not to accept a client. An illustrative client acceptance form can be found in AAM section 2200.27.

## Understanding the Engagement

.04 SSARS 1, paragraph 8 (AR section 100.08), states that the accountant should establish an understanding with the entity regarding the services to be performed. This understanding should include a description of the nature and limitations of the services to be performed, and a description of the report the accountant expects to render. The understanding should also include an explanation that the engagement cannot be relied upon to disclose errors, fraud, or illegal acts but should also indicate that if any such matters, that are not inconsequential, come to the accountant's attention, the appropriate level of management will be notified. It is preferable that the understanding be in writing.

.05 It is a requirement of SSARS 1 (AR section 100) that an accountant have a knowledge of the entity's business when performing a compilation or review of its financial statements. The accountant should also possess a level of knowledge of the accounting principles and practices in the industry in which the entity operates.

## Establishing an Understanding and Using Engagement Letters

.06 An engagement letter provides a means of formalizing the understanding between the accountant and the client concerning the services to be rendered. A good engagement letter helps prevent misunderstandings between the client and the accountant as to the services to be provided, including the limitations.

The engagement letter also sets forth the responsibilities of the client, and in most states it becomes a legally binding contract. There are other good reasons to obtain an engagement letter, including the following:

- *Reduces the risk of litigation.* Misunderstandings with clients regarding the nature and limitations of the services can result in litigation with the client.
- *Avoids misunderstandings by the staff.* The staff performing the work can review the engagement letter to obtain a clear understanding of the services to be provided and the required timing of the issuance of the report.

#### ***Overcoming Client Resistance to an Engagement Letter***

.07 Presenting the engagement letter face-to-face usually is sufficient to overcome any resistance on the part of the client.

.08 As an alternative to having the client sign an engagement letter, the accountant may consider developing a letter of understanding and mailing it to the client as a confirmation of the oral understanding. If an engagement letter is not obtained, the accountant should prepare a memorandum for the working papers describing the understanding with the client.

#### ***How Often Should an Engagement Letter Be Obtained?***

.09 Some firms have a policy of obtaining a new engagement letter annually. Others use an automatically renewing (evergreen) letter that is only updated when the services to be provided change or there is a significant change in management or ownership of the client. Another possibility is the use of a general service agreement with separate addendums to the agreement, issued periodically, to describe the services to be provided. If an accountant is engaged to compile or review monthly financial statements, it is not necessary to obtain an engagement letter for each monthly report. An annual engagement letter, covering the services performed during that period, is sufficient.

#### ***The Content of the Understanding/Engagement Letter***

.10 An understanding and an engagement letter should be tailored to the engagement, after the specific services have been agreed upon. A comprehensive engagement letter might include the following:

- A description of the nature and limitations of the services to be performed.
- A description of the client or entities involved.
- The period covered by the financial statements to which the accountant's report will relate.
- A description of the report.
- A statement that the engagement cannot be relied upon to disclose errors, fraud, or illegal acts; and that the accountant will inform the appropriate level of management of any material errors that come to his or her attention and any fraud or illegal acts that come to his or her attention, unless they are clearly inconsequential.
- A statement that if, for any reason, the accountant is unable to complete the engagement, he or she may decline to issue a report as a result of the engagement.
- A statement that management will be requested to sign a representation letter.
- A description of any other services to be performed.

.11 Sample engagement letters for compilation and review engagements are presented in AAM section 2200.28–.31.

---

**Practice Tip**

Be careful when using a proposal or preliminary engagement letter for a client. If the letter describes additional services that are not finally agreed upon, it may be used in litigation as an indication of inadequate performance by you on the engagement. You should also make sure that a final engagement letter is always issued in such circumstances.

---

***Using Engagement Letters to Minimize Liability to Third Parties***

.12 The AICPA's task force on accountant's legal ability developed guidance on using engagement letters to minimize liability to third parties. The task force concluded that clarifying language added to an engagement letter may be useful in states in which the courts adhere to the privity concept of liability to third parties. This clarifying language should identify parties that are known by the accountant to be negotiating or contemplating a transaction with the client, and who will be obtaining a copy of the compiled or reviewed financial statements. An example of such language is as follows:

We understand that you are negotiating with XYZ Bank for a loan in the amount of \$25,000 and the purpose of our report on your financial statements is to enable you to present the (compiled) (reviewed) financial statements to XYZ Bank. We are not aware of any other persons, entities, or limited groups of persons or entities for whose use or benefit this report is intended or contemplated.

---

**Practice Tip**

The clarifying language in AAM section 2200.12 added to an engagement letter is of questionable effectiveness in minimizing legal liability. However, if you decide to use it, you should consult with legal counsel to get advice on the specific wording that may be effective for your particular state.

---

.13 Accountants should try to avoid issuing privity letters. However, this is not always practical, particularly when the client's interests will be adversely affected. With this in mind, the following are some guidelines the authors recommend for accountants who must provide a privity letter:

- Name the third party that has informed the accountant that it intends to rely on the financial statements.
- Address the third party's responsibilities to undertake an investigation and due diligence review of the financial statements and condition of the company or to retain other professionals to assist it in that effort.
- Do not merely acknowledge a third party's intended reliance, but identify the various ways in which that reliance is qualified. This can be accomplished by asking the third party to provide a letter stating that it has performed other due diligence procedures, or by stating in the privity letter that the accountant assumes that the third party has performed due diligence procedures.
- Acknowledge the third party's intention to rely, not the actual reliance. Make it clear that you do not expect the third party to rely solely on your report on the financial statements as the basis for its decision.
- Contrast the scope of the work and level of assurance provided with the level of assurance and scope of an audit.
- State, as precisely as possible, the purpose of the third party's reliance. Avoid comments about the third party's intended after-the-fact general reliance.

.14 An accountant, contemplating use of a privity letter, should consult with legal counsel regarding its effectiveness in minimizing legal liability in the accountant's particular state. Because legal requirements

vary from state to state, the accountant should also consult with legal counsel regarding the appropriate content of the letter.

## Change in Engagement Level of Service

.15 An accountant who has been engaged to perform audit services with respect to financial statements may be requested by his or her client to change the level of service to be performed. SSARS 1, paragraphs 44 through 49 (AR section 100.44–.49), addresses changing the level of service to a lower level. A request to change the engagement to a review or a compilation may result from a change in circumstances affecting the entity's need for an audit (review), a misunderstanding of the nature of an audit, review, or compilation or a restriction on the scope of the audit (review), whether imposed by the client or caused by the circumstances.

.16 SSARS 1, paragraph 45 (AR section 100.45), states that before an accountant who was engaged to perform an audit or a review agrees to change the engagement to a review or compilation, at least the following factors should be considered:

- a. The reason given for the client's request, particularly the implications of a restriction on the scope of the audit (review).
- b. The additional audit effort required to complete the audit (review).
- c. The estimated additional cost to complete the audit (review).

.17 A change in circumstances affecting the entity's need for an audit (review) or a misunderstanding of the nature of an audit, review, or compilation would normally be viewed as a reasonable basis for requesting a change in the level of service.

.18 The accountant should consider the implications of a restriction on the scope of the audit (review) and should evaluate the possibility that information affected by the scope restriction may be incorrect, incomplete, or otherwise unsatisfactory. The following two circumstances would ordinarily preclude an accountant from lowering his or her level of service—

- a. When the accountant has been engaged to audit an entity's financial statements and has been prohibited by the client from corresponding with the entity's legal counsel, the accountant is precluded from issuing a review or compilation report on the financial statements.
- b. For either an audit or review engagement, if the client refuses to provide the accountant with a signed representation letter, the accountant would be precluded from issuing a review report on the financial statements and would ordinarily be precluded from issuing a compilation report on the financial statements.

.19 SSARS 1, paragraph 48 (AR section 100.48), states that in all circumstances, if the auditing (review) procedures are virtually complete or the cost to complete such procedures is relatively insignificant, the accountant should consider the propriety of accepting a change in the engagement.

.20 If the accountant agrees that there is reasonable justification to change the engagement and he or she complies with the standards applicable to the changed engagement, the accountant should issue an appropriate review or compilation report. The report should not include reference to:

- a. the original engagement,
- b. any auditing or review procedures that may been performed, or
- c. scope limitations that resulted in the changed engagement.

.21 Interpretation 1 of SSARS 1, "Omission of Disclosures in Reviewed Financial Statements" (AR section 9100.01–.02), requires an accountant who undertakes to review financial statements and subsequently finds

that his client declines to include substantially all required disclosures, to include the disclosures in his review report. If the disclosures are not known, the report should specifically identify the nature of the omitted disclosures. However, SSARS 1, paragraph 19 [AR section 100.19], permits an accountant to compile financial statements that omit substantially all disclosures provided the omission is not undertaken with the intent to mislead.

**.22** The issue of changing the level of an engagement to a higher level of service is not specifically addressed in SSARS 1 (AR section 100). It is generally agreed that a change to a higher level of service is acceptable. In such circumstances, the accountant should be certain that it is possible to comply with the applicable standards for the revised level of service. It is also wise to revise the accountant's understanding with the client of the changed engagement, preferably by amending the engagement letter.

## Predecessor and Successor Accountant

**.23** SSARS 4 (AR section 400), as amended by SSARS 7, provides guidance to a successor accountant who decides to communicate with a predecessor accountant regarding acceptance of a compilation or review engagement. This statement requires the predecessor accountant to respond promptly and fully in the event of such communications.

**.24** It also requires that a successor accountant who becomes aware of information that leads him or her to believe the financial statements reported on by the predecessor accountant may require revision to request that the client communicate this information to the predecessor accountant.

**.25** The inquiries of the successor accountant will normally include questions concerning: (1) information that might bear on the integrity of management (owners); (2) disagreements with management (owners) about accounting principles or the necessity of performing certain procedures; (3) the cooperation of management in providing additional or revised information, when necessary; and (4) the predecessor's understanding of the reasons for the change of accountants.

**.26** The predecessor accountant is expected to respond both promptly and fully to requests of the type cited above. Valid business reasons (e.g., unpaid fees) may preclude the predecessor from responding to the inquiries of the successor. The predecessor may also decide, due to unusual circumstances such as impending litigation, not to respond fully to the successor. In such an instance, the predecessor should indicate that the response is limited and the successor should consider both the reasons for and implications of such a response in deciding whether to undertake the engagement.

.27

<b>Client Acceptance and Continuance Form—Part I</b>
Client: _____
Financial Statement Date: _____

**INSTRUCTIONS:**

**Part I:** This form should be completed for all prospective clients for which audit, review, or compilation services are to be performed. The date on the form should be completed by the in-charge of the engagement and approved by the engagement partner as a basis for initially accepting the client. Part I should be updated and reviewed annually as a basis for deciding to retain the client.

**Part II:** Part II should be completed by the engagement partner and concurring partner to document the firm's decision to either accept or reject the client.

CLIENT'S LEGAL NAME:
----------------------

ADDRESS:

PHONE:	FISCAL YEAR END:

BAILEY AND POTTER, P.S.

Certified Public Accountants

[Date]

Mr. Thaddeus Gowers, President  
Gowers' Drug Stores  
1 Main Street  
Bedford Falls, New Hampshire 00000

Dear Mr. Gowers:

This will confirm our understanding of the terms and objectives of our engagement and the nature and limitations of the services we will provide:

We will perform the following services:

1. We will compile, from information you provide, the annual and interim balance sheets and related statements of income, retained earnings and cash flows of Gowers' Drug Stores for the year 19XX. We will not audit or review such financial statements. Our report on the annual financial statements of Gowers' Drug Stores is presently expected to read as follows:

We have compiled the accompanying balance sheet of Gowers' Drug Stores as of December 31, 19XX, and the related statements of income, retained earnings and cash flows for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management (owners). We have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

Our report on your interim financial statements, which statements will omit substantially all disclosures, will include an additional paragraph that will read as follows:

Management has elected to omit substantially all of the disclosures required by generally accepted accounting principles. If the omitted disclosures were included in the financial statements, they might influence the user's conclusions about the company's financial position, results of operations, and cash flows. Accordingly, these financial statements are not designed for those who are not informed about such matters.

If, for any reason, we are unable to complete the compilation of your financial statements, we will not issue a report on such statements as a result of this engagement.

2. We will assist your bookkeeper in adjusting the books of account so that he (she) will be able to prepare a working trial balance from which financial statements can be compiled. Your bookkeeper will provide us with a detailed trial balance and any supporting schedules we require.
3. We will also prepare the federal and state *[identify states]* income tax returns for Gowers' Drug Stores for the fiscal year ended December 31, 19XX.

Our engagement cannot be relied upon to disclose errors, fraud, or illegal acts that may exist. However, we will inform the appropriate level of management of any material errors that come to our attention and any fraud or illegal acts that come to our attention, unless they are clearly inconsequential.

Our fees for these services will be billed as work progresses and are based on the amount of time required plus out-of-pocket expenses. Invoices are payable upon presentation. We will notify you immediately of any

circumstances we encounter that could significantly affect our initial estimate of total fees, which will range from \$X,XXX to \$X,XXX.

We shall be pleased to discuss this letter with you at any time.

If the foregoing is in accordance with your understanding, please sign the copy of this letter in the space provided and return it to us.\*

We appreciate the opportunity to serve you and trust that our association will be a long and pleasant one.

Sincerely yours,

---

\* Some accountants prefer not to obtain an acknowledgment, in which case their letter would omit the paragraph beginning "If the foregoing. . ." and the spaces for the acknowledgment. The first paragraph of their letter might begin as follows: "This letter sets forth our understanding of the terms and objectives of our engagement. . ."

**.29 Illustrative Engagement Letter for a Review**

VASHON, VASHON &amp; COMPANY

Certified Public Accountants

[Date]

Mr. Daniel Williams  
Island Security  
50 Main Street  
Honolulu, Hawaii 00000

Dear Mr. Williams:

This will confirm our understanding of the terms and objectives of our engagement and the nature and limitations of the services we will provide:

We will perform the following services:

1. We will review the balance sheet of Island Security as of December 31, 19XX, and the related statements of income, retained earnings, and cash flows for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. Our review will consist primarily of inquiries of company personnel and analytical procedures applied to financial data and we will require a representation letter from management. A review does not contemplate obtaining an understanding of internal control or assessing control risk, tests of accounting records and responses to inquiries by obtaining corroborating evidential matter, and certain other procedures ordinarily performed during an audit. Thus, a review does not provide assurance that we will become aware of all significant matters that would be disclosed in an audit. Our engagement cannot be relied upon to disclose errors, fraud, or illegal acts that may exist. However, we will inform that appropriate level of management of any material errors that come to our attention and any fraud or illegal acts that come to our attention, unless they are clearly inconsequential. We will not perform an audit of such financial statements, the objective of which is the expression of an opinion regarding the financial statements taken as a whole, and, accordingly, we will not express such an opinion on them.

Our report on the financial statements is presently expected to read as follows:

We have reviewed the accompanying balance sheet of Island Security as of December 31, 19XX, and the related statements of income, retained earnings, and cash flows for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management of Island Security.

A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

If, for any reason, we are unable to complete our review of your financial statements, we will not issue a report on such statements as a result of this engagement.

2. We will provide your chief accountant with such consultation on accounting matters as may be required in adjusting and closing the books of account and in drafting financial statements for our review. Your

chief accountant also will provide us with a detailed trial balance and any supporting schedules we require.

3. We will also prepare the federal and state *[identify states]* income tax returns for Island Security for the fiscal year ended *[date]*.

Our fees for these services will be billed as work progresses and are based on the amount of time required plus out-of-pocket expenses. Invoices are payable upon presentation. We will notify you immediately of any circumstances we encounter that could significantly affect our initial estimate of total fees, which will range from \$X,XXX to \$X,XXX.

We shall be pleased to discuss this letter with you at any time and appreciate the opportunity to serve you and trust that our association will be a long and pleasant one.

If the foregoing is in accordance with your understanding, please sign the copy of this letter in the space provided and return it to us.

Sincerely yours,

**.30 Illustrative Engagement Letter for Compilation of Personal Financial Statements**

LONGSTREET, JACKSON &amp; HILL

Certified Public Accountants

[Date]

Mr. John Henry  
643 Chisum Road  
Lincoln, New Mexico 00000

Dear Mr. Henry:

This will confirm our understanding of the terms and objectives of our engagement and the nature and limitations of the services we will provide:

We will perform the following service(s):

1. We will compile, from information you provide, the statement of financial condition of Mr. John Henry as of [date], and the related statement of changes in net worth for the [period] then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. We will not audit or review such financial statements. Our report on the financial statements is presently expected to read as follows:

[Standard Compilation Report]

If, for any reason, we are unable to complete our compilation of your financial statements, we will not issue a report on such statements as a result of this engagement.

2. We will also [discussion of other services, if any].

Our engagement cannot be relied upon to disclose errors, fraud, or illegal acts that may exist. However, we will inform you of any material errors that come to our attention and any fraud or illegal acts that come to our attention, unless they are clearly inconsequential.

Our fees for these services [specify fees or terms].

We shall be pleased to discuss this letter with you at any time.

If the foregoing is in accordance with your understanding, please sign the copy of this letter in the space provided and return it to us.

Sincerely yours,

**.31 Illustrative Engagement Letter for Review of Personal Financial Statements**

LONGSTREET, JACKSON &amp; COMPANY

Certified Public Accountants

[Date]

Mr. John Henry  
643 Chisum Road  
Lincoln, New Mexico 00000

Dear Mr. Henry:

This will confirm our understanding of the terms and objectives of our engagement and the nature and limitations of the services we will provide:

We will perform the following service(s):

1. We will review the statement of financial condition of James and Jane Person as of [date], and the related statement of changes in net worth for the [period] then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. Our review will consist primarily of inquiries of you and analytical procedures applied to financial data and we will require a representation letter from you.

A review does not contemplate obtaining an understanding of internal control or assessing control risk, tests of accounting records and responses to inquiries by obtaining corroborating evidential matter, and certain other procedures ordinarily performed during an audit. Thus, a review does not provide assurance that we will become aware of all significant matters that would be disclosed in an audit. Our report on the financial statements is presently expected to read as follows:

[Standard Review Report]

If, for any reason, we are unable to complete our review of the financial statements, we will not issue a report on such statements as a result of this engagement.

2. We will also [discussion of other services, if any].

Our engagement cannot be relied upon to detect all misstatements that might exist due to error, fraudulent financial reporting, or misappropriation of assets. We will inform you of all matters of fraud and material errors, and all illegal acts, unless they are clearly inconsequential, that come to our attention. We will not perform an audit of such financial statements, the objective of which is the expression of an opinion regarding the financial statements taken as a whole, and, accordingly, we will not express such an opinion on them.

Our fees for these services [specify fees or terms].

We shall be pleased to discuss this letter with you at any time.

If the foregoing is in accordance with your understanding, please sign the copy of this letter in the space provided and return it to us.

Sincerely yours,

# AAM Section 2300

## *Working Papers*

### Compilation Engagements

.01 SSARS 1 (AR section 100) does not address workpaper documentation for a compilation engagement. However, many accountants prefer compilation workpapers that include all necessary documentation to verify that compilation procedures were performed. In determining what workpapers the accountant will need, he or she should consider any peer review requirements that the firm will need to meet. AAM section 11,000 offers a discussion on compliance with the AICPA's quality control standards.

### Compilation Procedures

.02 The following items are generally documented in a CPA's compilation workpapers:

- Documentation of the accountant's knowledge of the client's business and the accounting principles and practices of the industry in which the entity operates
- Documentation of the understanding with the client concerning the services to be rendered, usually in the form of an engagement letter
- Documentation that the accountant has read the compiled financial statements
- Support for a change in the level of service performed, if necessary
- Working trial balance
- Reasons for omitting substantially all disclosures
- Documentation of discussions of unusual items

.03 In addition, if the CPA prepares the financial statements as well as compiles them, he or she should also include in the workpapers the following:

- Support for information in the notes to the financial statements
- Copies of preliminary client records (e.g., working trial balance and adjustments) required to arrive at final compiled financial statements

### Compilation Checklists

.04 Procedural checklists can serve as means of documenting in the workpapers that all the necessary procedures have been performed. When completing a procedural checklist, the accountant should refer to the specific workpaper documenting completion of the checklist step. An illustrative procedural checklist for a compilation can be found in AAM section 2300.14.

### Review Engagements

.05 As noted in AAM section 2100, a review of financial statements involves performing inquiry and analytical procedures. SSARS 1, paragraph 30 (AR section 100.30), discusses workpaper documentation for

review engagements. SSARS 1 (AR section 100) does not specify the form or content of the working papers in connection with a review engagement, but paragraph 30 does state that the working papers should describe the following:

- a. The matters covered in the accountant's inquiry and analytical procedures
- b. Unusual matters that the accountant considered during the performance of the review, including their disposition

### Review Procedures—Inquiry

.06 SSARS 1, paragraph 27 (AR section 100.27), states that the accountant's inquiries should generally consist of the following:

- a. Inquiries concerning the entity's accounting principles and practices and the methods followed in applying them.
- b. Inquiries concerning the entity's procedures for recording, classifying, and summarizing transactions, and accumulating information for disclosure in the financial statements.
- c. Inquiries concerning actions taken at meetings of stockholders, board of directors, committees of the board of directors, or comparable meetings that may affect the financial statements.
- d. Inquiries of persons having responsibility for financial and accounting matters concerning (1) whether the financial statements have been prepared in conformity with generally accepted accounting principles consistently applied, (2) changes in the entity's business activities or accounting principles and practices, (3) matters as to which questions have arisen in the course of applying the foregoing procedures, and (4) events subsequent to the date of the financial statements that would have a material effect on the financial statements.

.07 SSARS 1, Appendix A (AR section 100.52), contains illustrative inquiries in connection with a review engagement. These illustrative inquiries appear in AAM section 2300.15. These inquiries do not necessarily apply to all engagements, nor are they meant to be all-inclusive.

### Review Procedures—Analytical

.08 SSARS 1, paragraph 27c (AR section 100.27c), states that analytical procedures consist of the following:

- a. Comparison of the financial statements with statements for a comparable prior period(s)
- b. Comparison of the financial statements with anticipated results, if available
- c. Study of the relationship of the elements of the financial statements that would be expected to conform to a predictable pattern based on the entity's experience

.09 Three common forms of analytical procedures are ratio analysis, trend analysis, and test for reasonableness of data. Once the accountant performs his analytical procedures, he or she must evaluate the results, usually against past historical results or industry averages. Illustrative analytical procedures workpapers can be found in AAM section 2300.16 and .17.

.10 SSARS 1, paragraph 27 (AR section 100.27), also suggests that the following review procedures be performed:

- a. Reading the financial statements to consider, on the basis of information coming to the accountant's attention, whether the financial statements appear to conform with generally accepted accounting principles

- b. Obtaining reports from other accountants, if any, who have been engaged to audit or review the financial statements of significant components of the reporting entity, its subsidiaries, and other investees

.11 The following items are usually included in the workpapers for a review engagement:

- Documentation of the accountant's knowledge of the client's business and the accounting principles and practices of the industry in which it operates
- An engagement letter
- Support for a change in the level of service, if any
- Documentation of all inquiries and respective responses
- Documentation of all analytical procedures
- A representation letter
- Documentation of discussions of unusual matters
- Copies of reports of other accountants who have performed services with respect to a subsidiary or other significant investee

## Representation Letters

.12 SSARS 7 amended SSARS 1 to require representation letters in all review engagements performed under SSARS. An illustrative representation letter for a review engagement can be found in AAM sections 2300.18 and 7400.02.

## Review Checklists

.13 In the same way that procedural checklists are suggested for compilation engagements, it is wise to prepare such a checklist for a review engagement. An illustrative procedural checklist for a review engagement can be found in AAM section 2300.19.

**.14 Short-Form Checklist for a Compilation Engagement**

	AR Ref.*	Initials
1. Obtain an engagement letter or document an understanding of the engagement in a memorandum. (See section 3175.09 for a sample engagement memorandum.)	.08	_____
2. Acquire the necessary knowledge of client's industry accounting principles and practices.	.10	_____
3. Acquire a general understanding of the client's business transactions, the form of the accounting records, the stated qualifications of the accounting personnel, the accounting basis used, and the form and content of the financial statements. (it is not necessary to make inquiries or perform other procedures unless the information supplied is questionable.)	.11-.12	_____
4. Read the financial statements and determine if they are appropriate in form and free from obvious material error.	.13	_____
5. Consider whether all disclosures required by generally accepted accounting principles (GAAP) or an acceptable comprehensive basis of accounting are provided. If they are not, go to step 6. If they are, go to step 7.	.19	_____
6. If substantially all disclosures required by GAAP or an other comprehensive basis of accounting are omitted, indicate this in a separate paragraph in your report; if a comprehensive basis of accounting other than GAAP is used, disclose this basis either in the financial statements or in your report. If the statement of cash flows is also omitted in GAAP statements, modify the scope paragraph and disclosure deficiency paragraph accordingly. If most, but not all, disclosures are omitted, notes to the financial statements should be labeled "Selected Information—Substantially All Disclosures Required by Generally Accepted Accounting Principles Are Not Included."	.19-.21	_____
7. Consider whether the financial statements contain measurement departures from GAAP or other comprehensive basis of accounting. If they do, go to step 8. If they do not, go to step 9.	.39	_____
8. Get client to revise the financial statements. Failing that, consider modifying your report by adding a separate paragraph or paragraphs. If the impact of the departure has been determined by management or is known by you, disclose the dollar effects in your report. (However, uncertainties and inconsistencies are not measurement departures if they are properly disclosed. See step 5.) Withdraw from the engagement if the GAAP departures are designed to mislead statement users.	.39-.40	_____
9. Determine whether the firm is independent. If the firm is not, go to step 10. If the firm is, go to step 11.	.22	_____
10. If the firm is not independent, add a separate paragraph to your report: "I am (we are) not independent with respect to XYZ Company."	.22	_____
11. If the financial statements are accompanied by information presented for supplementary analysis purposes, include such other data in the compilation report.	.43	_____
12. Mark each page of the financial statements, including any supplemental data, "See accountant's compilation report."	.16	_____
13. Date your report using the date the compilation was completed.	.15	_____
14. Issue the financial statements and related compilation report.	.14	_____
15. If subsequent to the date of the report, facts that would possibly cause the financial statements to be misleading are discovered (and were in existence at the report date), consult SAS No. 1, section 561 (AU section 561), Interpretation No. 4 of SSARS No. 1 (AR section 9100.13-.15), and your attorney.	.42	_____

Completed by \_\_\_\_\_ Date: \_\_\_\_\_

\* The abbreviation "AR Ref." in this checklist means AR section 100. All references in this checklist are to paragraphs in AR section 100.

**.15 Review of Financial Statements—Illustrative Inquiries****a. General**

- (1) What are the procedures for recording, classifying, and summarizing transactions (relates to each section discussed below)?
- (2) Do the general ledger control accounts agree with subsidiary records (for example, receivables, inventories, investments, property and equipment, accounts payable, accrued expenses, non-current liabilities)?
- (3) Have accounting principles been applied on a consistent basis?

**b. Cash**

- (1) Have bank balances been reconciled with book balances?
- (2) Have old or unusual reconciling items between bank balances and book balances been reviewed and adjustments made where necessary?
- (3) Has a proper cutoff of cash transactions been made?
- (4) Are there any restrictions on the availability of cash balances?
- (5) Have cash funds been counted and reconciled with control accounts?

**c. Receivables**

- (1) Has an adequate allowance been made for doubtful accounts?
- (2) Have receivables considered uncollectible been written off?
- (3) If appropriate, has interest been reflected?
- (4) Has a proper cutoff of sales transactions been made?
- (5) Are there any receivables from employees and related parties?
- (6) Are any receivables pledged, discounted, or factored?
- (7) Have receivables been properly classified between current and noncurrent?

**d. Inventories**

- (1) Have inventories been physically counted? If not, how have inventories been determined?
- (2) Have general ledger control accounts been adjusted to agree with physical inventories?
- (3) If physical inventories are taken at a date other than the balance sheet date, what procedures were used to record changes in inventory between the date of the physical inventory and the balance sheet date?
- (4) Were consignments in or out considered in taking physical inventories?
- (5) What is the basis of valuation?
- (6) Does inventory cost include material, labor, and overhead where applicable?
- (7) Have write-downs for obsolescence or cost in excess of net realizable value been made?
- (8) Have proper cutoffs of purchases, goods in transit, and returned goods been made?
- (9) Are there any inventory encumbrances?

**e. Prepaid Expenses**

- (1) What is the nature of the amounts included in prepaid expenses?
- (2) How are these amounts amortized?

- f. Investment, Including Loans, Mortgages, and Intercompany Investments
  - (1) Have gains and losses on disposal been reflected?
  - (2) Has investment income been reflected?
  - (3) Has appropriate consideration been given to the classification of investments between current and noncurrent, and the difference between the cost and market value of investments?
  - (4) Have consolidation or equity accounting requirements been considered?
  - (5) What is the basis of valuation of marketable equity securities?
  - (6) Are investments unencumbered?
- g. Property and Equipment
  - (1) Have gains or losses on disposal of property or equipment been reflected?
  - (2) What are the criteria for capitalization of property and equipment? Have such criteria been applied during the fiscal period?
  - (3) Does the repairs and maintenance account only include items of an expense nature?
  - (4) Are property and equipment stated at cost?
  - (5) What are the depreciation methods and rates? Are they appropriate and consistent?
  - (6) Are there any unrecorded additions, retirements, abandonments, sales, or trade-ins?
  - (7) Does the entity have material lease agreements? Have they been properly reflected?
  - (8) Is any property or equipment mortgaged or otherwise encumbered?
- h. Other Assets
  - (1) What is the nature of the amounts included in other assets?
  - (2) Do these assets represent costs that will benefit future periods? What is the amortization policy? Is it appropriate?
  - (3) Have other assets been properly classified between current and noncurrent?
  - (4) Are any of these assets mortgaged or otherwise encumbered?
- i. Accounts and Notes Payable and Accrued Liabilities
  - (1) Have all significant payables been reflected?
  - (2) Are all bank and other short-term liabilities properly classified?
  - (3) Have all significant accruals, such as payroll, interest, and provisions for pension and profit-sharing plans been reflected?
  - (4) Are there any collateralized liabilities?
  - (5) Are there any payables to employees and related parties?
- j. Long-Term Liabilities
  - (1) What are the terms and other provisions of long-term liability agreements?
  - (2) Have liabilities been properly classified between current and non-current?
  - (3) Has interest expense been reflected?
  - (4) Has there been compliance with restrictive covenants of loan agreements?
  - (5) Are any long-term liabilities collateralized or subordinated?
- k. Income and Other Taxes
  - (1) Has provision been made for current and prior-year federal income taxes payable?

- (2) Have any assessments or reassessments been received? Are there tax examinations in process?
- (3) Are there temporary differences? If so, have deferred taxes been reflected?
- (4) Has provision been made for state and local income, franchise, sales, and other taxes payable?

*l. Other Liabilities, Contingencies, and Commitments*

- (1) What is the nature of the amounts included in other liabilities?
- (2) Have other liabilities been properly classified between current and noncurrent?
- (3) Are there any contingent liabilities, such as discounted notes, drafts, endorsements, warranties, litigation and unsettled asserted claims? Are there any unasserted potential claims?
- (4) Are there any material contractual obligations for construction or purchase of real property and equipment and any commitments or options to purchase or sell company securities?

*m. Equity*

- (1) What is the nature of any changes in equity accounts?
- (2) What classes of capital stock have been authorized?
- (3) What is the par or stated value of the various classes of stock?
- (4) Do amounts of outstanding shares of capital stock agree with subsidiary records?
- (5) Have capital stock preferences, if any, been disclosed?
- (6) Have stock options been granted?
- (7) Has the entity made any acquisitions of its own capital stock?
- (8) Are there any restrictions on retained earnings or other capital?

*n. Revenue and Expenses*

- (1) Are revenues from the sale of major products and services recognized in the appropriate period?
- (2) Are purchases and expenses recognized in the appropriate period and properly classified?
- (3) Do the financial statements include discontinued operations or items that might be considered extraordinary?

*o. Other*

- (1) Are there any events that occurred after the end of the fiscal period that have a significant effect on the financial statements?
- (2) Have actions taken at stockholder, board of directors, or comparable meetings that affect the financial statements been reflected?
- (3) Have there been any material transactions between related parties?
- (4) Are there any material uncertainties? Is there any change in the status of material uncertainties previously disclosed?

**.16 Illustrative Ratio Analysis Worksheet**

Below you will find 24 financial ratios. These financial ratios include liquidity, activity, and efficiency ratios. Accountants should use the ratios deemed necessary and use additional ones as needed.

Ratio Name	Formula	Calculation	Explanation
Current ratio	$\frac{\text{Current Assets}}{\text{Current Liabilities}}$		measures ability to meet short term obligations
Quick ratio (or Acid test ratio)	$\frac{\text{Current Assets} - \text{Inventory}}{\text{Current Liabilities}}$		a more conservative measure of a firm's ability to meet short term obligations
Operating cash flows to current liabilities	$\frac{\text{Cash Provided by Operations}}{\text{Average Current Liabilities}}$		liquidity calculation
Days Sales in Accounts Receivable	$\frac{\text{Net Accounts Receivable}}{\text{Net Sales}/360}$		measures length of time average sales is a receivable
Allowance for bad debts as a % of accounts receivable	$\frac{\text{Allowance for Bad Debts}}{\text{Accounts Receivable}}$		calculation is compared to prior periods and other comparable companies
Bad debt expense as a % of net sales	$\frac{\text{Bad Debt Expense}}{\text{Net Sales}}$		calculation is compared to prior periods and other comparable companies
Inventory Turnover	$\frac{\text{Cost of Sales}}{\text{Inventory}}$		activity ratio – indication of efficiency of operation
Fixed Asset Turnover	$\frac{\text{Net Sales}}{\text{Average Fixed Assets}}$		activity ratio
Receivable Turnover	$\frac{\text{Net Credit Sales}}{\text{Average Receivables}}$		activity ratio
Net Sales to Inventory	$\frac{\text{Net Sales}}{\text{Inventory}}$		activity ratio
Days in Inventory	$\frac{\text{Inventory} \times (\text{Days in a cycle})}{\text{Cost of Sales}}$		identifies how many days of inventory is available
Accounts Payable to Net Sales	$\text{Accounts Payable} \times (\text{Days in a cycle}) / \text{Net Sales} \times (\text{Days in a year})$		compares A/P balance to net sales
Return on Total Assets	$\text{Net Income} \times (\text{Days in a year}) / \text{Total Assets} \times (\text{Days in a cycle})$		measures profitability at a point in time
Return on Net Worth	$\text{Net Income} \times (\text{Days in a year}) / \text{Net Worth} \times (\text{Days in a cycle})$		profitability measure
Return on Net Sales	$\frac{\text{Net Income}}{\text{Net Sales}}$		profit margin
Net Sales to Accounts Receivable	$\frac{\text{Net Sales} \times (\text{Days in a year})}{\text{Net A/R} \times (\text{Days in a cycle})}$		identifies how many times A/R will turn over per year of the operating cycle
Net Sales to Net Fixed Assets	$\frac{\text{Net Sales} \times (\text{Days in a year})}{\text{Fixed Assets} \times (\text{Days in a cycle})}$		identifies efficiency of capital investment

Ratio Name	Formula	Calculation	Explanation
Days Payables in Cost of Sales	$\frac{A/P \times (\text{Days in a cycle})}{\text{Cost of Sales}}$		
Income Before Tax to Net Worth	$\frac{\text{EBIT} \times (\text{Days in a year})}{\text{Net Worth} \times (\text{Days in a cycle})}$		ratio of earnings to net worth per year
Gross Profit Percentage	$\frac{\text{Net Sales} - \text{Cost of Sales}}{\text{Net Sales}}$		profitability calculation
Operating Expenses as a % of Net Sales	$\frac{\text{Operating Expenses}}{\text{Net Sales}}$		efficiency calculation
Times Interest Earned	$\frac{\text{EBIT}}{\text{Interest Expense}}$		profitability calculation
Income Before Tax to Assets	$\frac{\text{EBIT} \times (\text{Days in a year})}{\text{Assets} \times (\text{Days in a cycle})}$		measure of profitability
Altman Z Score	See Below		A composite formula that is widely used to measure the financial "health" of a company. The formula takes financial ratios and multiplies each by a specific constant. The amounts computed are added together to obtain an overall score. This score is then compared to scores from other companies to rate relative financial health.

**For private companies (four variable):**

$\frac{\text{Working Capital}}{\text{Total Assets}}$	×	6.56	=
$\frac{\text{Retained Earnings}}{\text{Total Assets}}$	×	3.26	=
$\frac{\text{Income before Interest and Taxes}}{\text{Total Assets}}$	×	6.72	=
$\frac{\text{Net Worth}}{\text{Total Liabilities}}$	×	1.05	=
Altman Z Score			=====

**For private companies (five variable):**

$\frac{\text{Working Capital}}{\text{Total Assets}}$	×	.717	=
$\frac{\text{Retained Earnings}}{\text{Total Assets}}$	×	.847	=
$\frac{\text{Income before Interest and Taxes}}{\text{Total Assets}}$	×	3.107	=
$\frac{\text{Net Worth (Book Value)}}{\text{Total Liabilities}}$	×	.420	=
$\frac{\text{Sales}}{\text{Total Assets}}$	×	.998	=
Altman Z Score			=====

For public companies:

<u>Working Capital</u>	×	.012	=
Total Assets			
<u>Retained Earnings</u>	×	.014	=
Total Assets			
<u>Income before Interest and Taxes</u>	×	.033	=
Total Assets			
<u>Market Value Equity</u>	×	.006	=
Book Value of Total Liabilities			
<u>Sales</u>	×	.999	=

**.18 Review of Financial Statements—Illustrative Representation Letter**

[Prepared on Client's Letterhead]

[Date of Accountant's Report]

To [Accountant]

In connection with your review of the [identification of financial statements] of [name of client] as of [date] and for the [period of review] for the purpose of expressing limited assurance that there are no material modifications that should be made to the statements in order for them to be in conformity with generally accepted accounting principles (or other comprehensive basis of accounting), we confirm, to the best of our knowledge and belief, the following representations made to you during your review.

1. The financial statements referred to above present the financial position, results of operations, and cash flows of [name of client] in conformity with generally accepted accounting principles. In that connection, we specifically confirm that—
  - a. The Company's accounting principles, and the practices and methods followed in applying them, are as disclosed in the financial statements.
  - b. There have been no changes during the [period reviewed] in the Company's accounting principles and practices.
  - c. We have no plans or intentions that may materially affect the carrying amounts or classification of assets and liabilities.
  - d. There are no material transactions that have not been properly reflected in the financial statements.
  - e. There are no material losses (such as from obsolete inventory or purchase or sales commitments) that have not been properly accrued or disclosed in the financial statements.
  - f. There are no violations or possible violations of laws or regulations whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency, and there are no other material liabilities or gain or loss contingencies that are required to be accrued or disclosed. Also, there are no unasserted claims or assessments that our lawyer has advised us are probable of assertion that must be disclosed in accordance with Financial Accounting Standards Board (FASB) Statement No. 5, *Accounting for Contingencies*.\*
  - g. The Company has satisfactory title to all owned assets, and there are no liens or encumbrances on such assets nor has any asset been pledged, except as disclosed in the financial statements.
  - h. There are no related party transactions including sales, purchases, loans, transfers, leasing arrangements, guarantees, and amounts receivable or payable to related parties that have not been properly disclosed in the financial statements.
  - i. We have complied with all aspects of contractual agreements that would have a material effect on the financial statements in the event of noncompliance.
  - j. To the best of our knowledge and belief, no events have occurred subsequent to the balance-sheet date and through the date of this letter that would require adjustment to or disclosure in the financial statements.
  - k. We have no knowledge of concentrations existing at the date of the financial statements that make the entity vulnerable to the risk of a near-term severe impact that have not been properly disclosed in the financial statements. We understand that concentrations refer to volumes of business, revenues, available sources of supply, or markets or geographic areas for which events could occur that would significantly disrupt normal finances within the next year.

---

\* If management has not consulted a lawyer regarding litigation, claims, and assessments, the representation might be worded as follows:

We are not aware of any pending or threatened litigation, claims, or assessments or unasserted claims or assessments that are required to be accrued or disclosed in the financial statements in accordance with Financial Accounting Standards Board Statement No. 5, *Accounting for Contingencies*, and we have not consulted a lawyer concerning litigation, claims, or assessments.

- l. Management has identified all significant estimates used in the preparation of the financial statements.

The following additional representations may be appropriate in certain situations. This list of additional representations is not intended to be all-inclusive. In drafting a representation letter, the effects of other applicable pronouncements should be considered.

- m. The financial statements disclose all of the matters of which we are aware that are relevant to the entity's ability to continue as a going concern, including significant conditions and events, and our plans.
  - n. We have reviewed long-lived assets and certain identifiable intangibles to be held and used for impairment whenever events or changes in circumstances have indicated that the carrying amount of those assets might not be recoverable and have appropriately recorded the adjustment.
  - o. Debt securities that have been classified as held-to-maturity have been so classified due to our intent to hold such securities to maturity and our ability to do so. All other debt securities have been classified as available-for-sale or trading.
  - p. We consider the decline in value of debt or equity securities classified as either available-for-sale or held-to-maturity to be temporary.
  - q. Receivables reported in the financial statements represent valid claims against debtors for sales or other charges arising on or before the balance-sheet date and have been appropriately reduced to their estimated net realizable value.
  - r. We believe that the carrying amounts of all material assets will be recoverable.
  - s. All agreements to repurchase assets previously sold have been properly disclosed.
  - t. We have made provisions for losses to be sustained in the fulfillment of, or from the inability to fulfill sales commitments.
2. We have advised you of all actions taken at meetings of stockholders, board of directors, and committees of the board of directors (or other similar bodies, as applicable) that may affect the financial statements.
  3. We have responded fully to all inquiries made to us by you during your review.

**Note:** This representation letter should be modified when the financial statements are prepared in accordance with an other comprehensive basis of accounting.

**.19 Review of Personal Financial Statements<sup>1</sup>—Illustrative Representation Letter**

[Prepared on Client's Letterhead]

[Date of Accountant's Report]

[To the Accountant]

In connection with your review, of the statement of financial condition and the related statement of changes in net worth of James and Jane Person as of [date] and for the [period] then ended for the purpose of expressing limited assurance that there are no material modifications that should be made to the statements in order for them to be in conformity with generally accepted accounting principles, we confirm, to the best of our knowledge and belief, the following representations made to you during your review:

1. The financial statements referred to above present the financial condition and changes in net worth of James and Jane Person in conformity with generally accepted accounting principles. All assets are presented at their estimated current values and all liabilities are presented at their estimated current amounts, which have been determined in accordance with guidelines promulgated by the American Institute of Certified Public Accountants. (Because of our limited expertise with generally accepted accounting principles, including financial statement disclosure, we have engaged you to advise us in fulfilling that responsibility.) In that connection, we specifically confirm that—
  - a. The accounting principles, and the practices and methods followed in applying them, are as disclosed in the financial statements.
  - b. There have been no changes during the year ended [date] in our accounting principles and practices.
  - c. We have no plans or intentions that may materially affect the carrying amounts or classification of assets and liabilities.
  - d. There are no material transactions that have not been properly reflected in the financial statements.
  - e. There are no related party transactions, including sales, purchases, loans, transfers, leasing arrangements, and guarantees, and amounts receivable from or payable to related parties that have not been properly disclosed in the financial statements. I understand that related parties include members of my family as well as business entities in which I, or members of my family, have an investment that allows the exercise of control or significant influence.
  - f. Arrangements with financial institutions involving compensating balances or other arrangements involving restrictions on cash balances and line-of-credit or similar arrangements have been properly recorded or disclosed in the financial statements.
  - g. Agreements to repurchase assets previously sold have been properly disclosed.
  - h. There are no violations or possible violations of laws or regulations whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency, and there are no other material liabilities or gain or loss contingencies that are required to be accrued or disclosed. Also, there are no unasserted claims or assessments that our lawyer has advised us are probable of assertion that must be disclosed in accordance with Financial Accounting Standards Board (FASB) Statement No. 5, *Accounting for Contingencies*.<sup>\*</sup>

---

<sup>1</sup> If a representation letter is to be used for a compilation engagement, as discussed in paragraph 1.22 of the AICPA *Personal Financial Statements Guide*, this illustrative representation letter should be modified as necessary to reflect the particular circumstances of the compilation engagement.

<sup>\*</sup> If the individual(s) have not consulted a lawyer regarding litigation, claims, and assessments, the representation might be worded as follows:

We are not aware of any pending or threatened litigation, claims, or assessments or unasserted claims or assessments that are required to be accrued or disclosed in the financial statements in accordance with Financial Accounting Standards Board Statement No. 5, *Accounting for Contingencies*, and we have not consulted a lawyer concerning litigation, claims, or assessments.

- i.* There are no material transactions that have not been properly reflected in the financial statements.
  - j.* We have satisfactory title to all owned assets, and there are no liens or encumbrances on such assets nor has any asset been pledged except as disclosed in the financial statements.
  - k.* We have complied with all aspects of contractual agreements that would have a material effect on the financial statements in the event of noncompliance.
  - l.* To the best of our knowledge and belief, no events have occurred subsequent to the date of the statement of financial condition and through the date of this letter that would require adjustment to or disclosure in the financial statements.
  - m.* We have no knowledge of concentrations existing at the date of the financial statements that make the entity vulnerable to the risk of a near-term severe impact that have not been properly disclosed in the financial statements. We understand that concentrations refer to volumes of business, revenues, available sources of supply, or markets or geographic areas for which events could occur that would significantly disrupt normal finances within the next year.
  - n.* We have identified all significant estimates used in the preparation of financial statements.
2. We have responded fully to all inquiries made to us by you during the engagement.

**.20 Audit of Personal Financial Statements—Illustrative Representation Letter**

[Date]

[To the Independent Auditor]

We are providing this letter in connection with your audit of the statement of financial condition of James and Jane Person as of [date] and the related statement of changes in net worth for the [period] then ended for the purpose of expressing an opinion as to whether the financial statements present fairly, in all material respects, the financial condition and changes in the net worth, of James and Jane Person in conformity with generally accepted accounting principles. We confirm that we are responsible for the fair presentation in the statement of financial condition and changes in net worth in conformity with generally accepted accounting principles.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We confirm, to the best of our knowledge and belief, [as of (date of auditor's report),] the following representations made to you during your audit.

1. The financial statements referred to above are fairly presented in conformity with generally accepted accounting principles.
2. We have made available to you all financial records and related data.
3. There are no material transactions that have not been properly recorded in the accounting records underlying the financial statements.
4. There has been no—
  - a. Fraud involving us, or others who have significant roles in internal control.
  - b. Fraud involving others that could have a material effect on the financial statements.
5. We have no plans or intentions that may materially affect the carrying value or classification of assets and liabilities.
6. The following have been properly recorded or disclosed in the financial statements:
  - a. Related-party transactions, including sales, purchases, loans, transfers, leasing arrangements, and guarantees, and amounts receivable from or payable to related parties.
  - b. Guarantees, whether written or oral, under which we are contingently liable.
  - c. Significant estimates and material concentrations known to us that are required to be disclosed in accordance with the AICPA's Statement of Position 94-6, *Disclosure of Certain Significant Risks and Uncertainties*. [Significant estimates are estimates at the balance sheet date that could change materially within the next year. Concentrations refer to volumes of business, revenues, available sources of supply, or markets or geographic areas for which events could occur that would significantly disrupt normal finances within the next year.]
7. There are no—
  - a. Violations or possible violations of laws or regulations whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency.

- b. Unasserted claims or assessments that our lawyer has advised us are probable of assertion and must be disclosed in accordance with Financial Accounting Standards Board (FASB) Statement No. 5, *Accounting for Contingencies*.<sup>1</sup>
  - c. Other liabilities or gain or loss contingencies that are required to be accrued or disclosed by FASB Statement No. 5.
- 8. We have satisfactory title to all owned assets, and there are no liens or encumbrances on such assets nor has any asset been pledged as collateral.
  - 9. We have complied with all aspects of contractual agreements that would have a material effect on the financial statements in the event of noncompliance.

To the best of our knowledge and belief, no events have occurred subsequent to the statement of financial condition date and through the date of this letter that would require adjustment to or disclosure in the aforementioned financial statements.

---

(James Person)

---

(Jane Person)

---

<sup>1</sup> Footnote 7 of SAS No. 85, *Management Representations*, states that if a lawyer has not been consulted regarding litigation, claims, and assessments, the auditor normally would rely on the review of internally available information and obtain a written representation by management regarding the lack of litigation, claims, and assessments. In the circumstances discussed in footnote 7 to SAS No. 85, this representation might be worded as follows:

We are not aware of any pending or threatened litigation, claims, or assessments or unasserted claims or assessments that are required to be accrued or disclosed in the financial statements in accordance with Financial Accounting Standards Board Statement No. 5, *Accounting for Contingencies*, and we have not consulted a lawyer concerning litigation, claims, or assessments.

**.21 Short-Form Checklist for a Review Engagement**

	AR Ref.*	Initials
1. Obtain an engagement letter or document an understanding of the engagement in a memorandum. (See section 3175.09 for a sample engagement memorandum.)	.08*	_____
2. Determine whether your firm is independent, if the firm is not, go to step 3. If the firm is, go to step 4.	.38	_____
3. Stop. Do not issue a review report. (However, it may be possible to issue a compilation report.)	.38	_____
4. Acquire the necessary knowledge of the client's industry accounting principles and practices.	.24	_____
5. Acquire a general understanding of the nature of the client's business, including (a) its operating characteristics and (b) the nature of its assets, liabilities, revenues, and expenses.	.26	_____
6. Apply appropriate inquiry and analytical procedures in order to obtain a reasonable basis for expressing limited assurance that there are no material modifications that should be made to the financial statements.	.24 & .27	_____
7. Read the financial statements to determine whether, based on the information presented, they appear to conform to generally accepted accounting principles (GAAP) or an other comprehensive basis of accounting. Obtain reports of other accountants for subsidiaries, investee, etc., if any. Indicate division of responsibility if reference is made to other accountants.	.27	_____
8. Perform additional procedures if information appears to be incorrect, incomplete, or otherwise unsatisfactory.	.30	_____
9. Document in your workpapers matters covered in steps 6 and 7 above. Also describe unusual matters that were considered and how they were resolved (step 8).	.31	_____
10. Determine whether the inquiry and analytical procedures considered necessary to achieve limited assurance are incomplete or restricted in any way. If they are, go to step 11; if not, go to step 12.	.36	_____
11. Consider whether a compilation report should be issued rather than a review report. (A review that is incomplete or restricted is not an adequate basis for issuing a review report.) If the client has refused to provide additional or revised information, the accountant should withdraw from the engagement.	.12 & .36	_____
12. Consider whether the financial statements contain known departures from GAAP or an other comprehensive basis of accounting, including disclosure departures. If they do, go to step 13. If they do not, go to step 14.	.39	_____
13. Get client to revise the financial statements. Failing that, consider modifying your report by adding a separate paragraph or paragraphs. If the impact of the departure has been determined by management or is known by you, disclose the dollar effects in your report. (However, uncertainties and inconsistencies should not cause the report to be modified if they are properly disclosed.) Withdraw from the engagement if the departures are designed to mislead financial statement users.	.39 & .40	_____
14. Obtain a representation letter from the client.	.28	_____
15. Determine whether the basic financial statements are accompanied by information presented for supplementary analysis purposes. If they are, go to step 16. If they are not, go to step 17.	.43	_____
16. Indicate the responsibility assumed for the supplementary information in your review report or in a separate report. The report should disclose whether (a) the supplemental information has been reviewed (as part of the basic financial statement review) and you are not aware of any needed material modification or (b) the supplemental information has not been reviewed but only compiled.	.43	_____

# AAM Section 2400

## *Form and Content of Financial Statements*

### Statements Prepared

.01 The basic financial statements for a company that presents its financial statements in accordance with generally accepted accounting principles (GAAP) are:

- Balance Sheet
- Income Statement
- Statement of Cash Flows (either direct or indirect method)
- Statement of Changes in Stockholders' Equity

Examples of financial statement presentations can be found in the AICPA Financial Statement Preparation Manual/Disclosure Checklist Series.

.02 The description of accounting policies and the notes to the financial statements are considered part of the basic financial statements.

.03 Each financial statement presented should include the name of the company, the applicable statement title, and the date or time period covered. SSARS 1, paragraph 16 (AR section 100.16), states that each page of financial statements compiled by the accountant should contain a reference such as "See Accountant's Compilation Report." Each page of reviewed financial statements should refer to the accountant's review report by containing a reference such as "See Accountant's Review Report", as required by SSARS 1, paragraph 34 (AR section 100.34).

.04 When the financial statements are either compiled or reviewed, some accountants prefer to follow the statement title with the word "unaudited." SSARS 1 (AR section 100) does not require use of the word "unaudited" when associated with compiled or reviewed statements nor does it prohibit its use.

### Comparative Financial Statements

.05 There is no requirement to prepare comparative financial statements. However, Accounting Research Bulletin (ARB) No. 43, *Restatement and Revision of Accounting Research Bulletins*, chapter 2, paragraph 1, states that comparative statements in annual and other reports enhance the usefulness of such reports. ARB No. 43 also states that notes of the prior year should be repeated, or referred to, to the extent that they continue to be of significance.

.06 When comparative financial statements are presented, the accountant should issue an appropriate report for each period presented in accordance with SSARS 2 (AR section 200). Comparative financial statements may contain statements for which the level of service provided in each period is different. Oftentimes the level of service is indicated in the statement title as follows:

ABC COMPANY

BALANCE SHEETS

As of December 31, 19X2 (Reviewed) and 19X1 (Compiled)

.07 Illustrative reports on comparative financial statements can be found in AAM sections 2510.11–.16 and 2520.07–.12.

## Notes to Financial Statements

.08 The notes to the financial statements, as a part of the basic statements, are the responsibility of management. The client should understand the statements and related notes in sufficient depth to take full responsibility for them. The practitioner who assists the client in preparing the financial statements or who totally prepares them must be careful in the wording of the notes. The accountant should avoid wording the notes in such a way as would imply that they are the responsibility of the accountant. For example, words such as “we,” “our,” and “the client,” should be avoided. When referring to the client, some accountants prefer to use the terms “the Company” or “Management.”

.09 All of the disclosures required by GAAP should be made either on the face of the financial statements or in the notes thereto. In a compilation engagement, the client may elect to omit substantially all disclosures; a more detailed discussion of this appears in AAM section 2500. For a list of required disclosures, the accountant and the client may wish to review the applicable AICPA disclosure checklists.

## Supplementary Information

.10 The accountant’s report on supplementary information is discussed in SSARS 1, paragraph 43 (AR section 100.43), which states that when the basic financial statements are accompanied by information presented for supplementary analysis purposes, the accountant should clearly indicate the degree of responsibility he or she is taking regarding the other information. The supplementary information is generally separated from the basic financial statements and many accountants believe it should be presented after the basic statements.

.11 When the accountant compiles both the basic financial statements and the other data presented for supplementary analysis purposes only, his or her compilation report should include the supplementary information.

.12 When the basic financial statements are reviewed, the accountant may indicate the degree of responsibility he or she is taking with respect to the other information by an explanation in the review report or in a separate report on the other data. The explanation should state that the review has been made for the purpose of expressing limited assurance and that there are no material modifications that should be made to the financial statements for them to be in conformity with GAAP, and either—

- a. The other data accompanying the financial statements are presented for supplementary analysis purposes only and have been subjected to the inquiry and analytical procedures applied in the review of the financial statements, and the accountant did not become aware of any material modifications that should be made to such data, or
- b. The other data accompanying the financial statements are presented for supplementary analysis purposes and have not been subjected to the inquiry and analytical procedures applied in the review of the financial statements, but were compiled from information that is the representation of management, without audit or review, and the accountant does not express an opinion or any other form of assurance on such data.

.13 Illustrative accountants’ reports on supplementary information accompanying compiled and reviewed financial statements can be found in AAM sections 2510.17, 2520.13, and .14, respectively.

## Subsequent Discovery of Facts

.14 Subsequent to the report date for compiled or reviewed financial statements the accountant may become aware of facts that may have existed at the report date which might have caused the accountant to believe that information supplied by the client was incorrect, incomplete, or otherwise unsatisfactory. SSARS 1, paragraph 42 (AR section 100.42), states that, in those circumstances, the accountant may wish to consider the guidance in SAS No. 1, section 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report* (AU section 561), in determining the proper course of action.

.15 Interpretation 4 of SSARS 1, "Discovery of Information After the Date of the Accountant's Report" (AR section 9100.13–.15), discusses two factors the accountant might consider when determining the appropriate course of action regarding the subsequent discovery. The two factors discussed are (1) the reliability of the information and (2) the existence of persons known to be relying on or likely to rely on the financial statements. If the accountant determines that the information is reliable and there are persons known to be relying on or likely to rely on the information, the accountant would ordinarily conclude that those individuals should be notified in an appropriate manner.

.16 Both SSARS 1, paragraph 42 (AR section 100.42) and Interpretation 4 (AR section 9100.13–.15) indicate that because of the legal implications involved in actions contemplated under SAS No. 1, section 561 (AU section 561) and Interpretation 4 discussed in paragraphs .14 and .15, the accountant should consider consulting an attorney.

---

[The next page is 2501.]

# AAM Section 2500

## *Accountants' Reports*

.01 The users of financial statements should be able to easily identify the degree of responsibility that an accountant is taking with respect to a specific set of financial statements. The usual method of conveying the amount of responsibility taken is the written accountant's report. Therefore, whenever an accountant reviews or compiles financial statements, a report should be prepared in accordance with the AICPA Statements on Standards for Accounting and Review Services (SSARS).

.02 According to SSARS 1, paragraph 6, as amended by SSARS 7 (AR section 100.06), an accountant should not consent to the use of his or her name in a document or written communication containing unaudited financial statements unless

- a. the accountant has compiled or reviewed the financial statements and his (her) report accompanies them,  
or
- b. the financial statements are accompanied by an indication that the accountant has not compiled or reviewed the financial statements and that no responsibility is assumed for them.

.03 If an accountant becomes aware that his or her name has been improperly used in a client-prepared document containing unaudited financial statements, the client should be advised that use of his or her name is inappropriate. The accountant should consider what other courses of action need to be taken, including consulting with his or her attorney.

.04 An accountant should not submit unaudited financial statements to his or her client or third parties unless, as a minimum service, the financial statements have been compiled in accordance with SSARS.

.05 Submission of financial statements under SSARS is defined as presenting to a client or others financial statements that the accountant has—

- a. Generated, either manually or through the use of computer software, or
- b. Modified by materially changing account classification, amounts, or disclosures directly on client-prepared financial statements. (See AR section 100.07.)

.06 If the accountant has performed more than one service, the report issued should be appropriate for the highest level of service performed. For example, if an accountant performs both a compilation and an audit of financial statements, the appropriate report to issue would be the audit report.

### Compilation Report

.07 SSARS 1, paragraph 14, as amended (AR section 100.14), states that financial statements compiled by an accountant should be accompanied by a report that states—

- a. A compilation has been performed in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.
- b. A compilation is limited to presenting in the form of financial statements information that is the representation of management.
- c. The financial statements have not been audited or reviewed and, accordingly, the accountant does not express an opinion or any other form of assurance on them.

Any other procedures performed by the accountant either before or during the compilation engagement should not be described in the accountant's report. An example of the accountant's standard compilation report can be found in AAM section 2510.01.

.08 Each page of the financial statements compiled by the accountant should include a reference to the accountant's report, such as, "See Accountant's Compilation Report" (SSARS 1, paragraph 16 (AR section 100.16)).

.09 The date of the completion of the compilation procedures should be used as the date of the accountant's report.

.10 An accountant may be asked to issue a compilation report on only one financial statement and not on the other related financial statements, for example, reporting on the balance sheet, but not on the related statements of income, retained earnings, and cash flows. SSARS 1, as amended (AR section 100) does not prohibit the accountant from performing such a service.

.11 If an accountant is not independent, a compilation report may still be issued, provided that the accountant has followed the appropriate authoritative literature during his engagement. The accountant should disclose the lack of independence; however, the reason should not be described. The following statement should be included as the last paragraph of the report:

I am (We are) not independent with respect to XYZ Company.

## Review Report

.12 SSARS 1, paragraph 32, as amended (AR section 100.32), states that financial statements reviewed by an accountant should be accompanied by a report that states—

- a. A review has been performed in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.
- b. All information included in the financial statements is the representation of management of the entity.
- c. A review consists principally of inquiries of company personnel and analytical procedures applied to financial data.
- d. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements taken as a whole and, accordingly, no such opinion is expressed.
- e. The accountant is not aware of any material modifications that should be made to the financial statements in order for them to be in conformity with generally accepted accounting principles (GAAP), other than those modifications, if any, indicated in the report.

Any other procedures performed by the accountant either before or during the review engagement should not be described in the accountant's report. An example of the accountant's standard review report can be found in AAM section 2520.01.

.13 Each page of the financial statements reviewed by the accountant should include a reference to the accountant's report, such as, "See Accountant's Review Report" (SSARS 1, paragraph 34, as amended (AR section 100.34)).

.14 The date of the completion of the accountant's inquiry and analytical procedures should be used as the date of the accountant's report (SSARS 1, paragraph 33, as amended (AR section 100.33)).

.15 If an accountant is unable to perform the necessary inquiry and analytical procedures to achieve the limited assurance which is contemplated by a review, or the client does not provide the accountant with a

representation letter, then the review is incomplete. Therefore, he or she would not have an adequate basis for issuing a review report. If this is the case, the accountant should consider whether in this situation the incomplete review also precludes the issuance of a compilation report on the financial statements. A change in the level of service is discussed in AAM section 2200.15 through .22.

.16 An accountant may be asked to issue a review report on only one financial statement and not on the other related financial statements, for example, reporting on the balance sheet, but not on the related statements of income, retained earnings, and cash flows. According to SSARS 1, paragraph 37, as amended (AR section 100.37), the accountant may do so as long as the scope of the analytical procedures has not been limited.

.17 SSARS 1, paragraph 38, as amended (AR section 100.38), precludes the accountant from issuing a review report for an entity with respect to which the accountant is not independent.

## Modifications to Standard Report

### Omission of Substantially All Disclosures

.18 SSARS 1, paragraphs 19 through 21, as amended (AR section 100.19–.21), discuss reporting on financial statements that omit substantially all disclosures. An accountant may compile financial statements that omit substantially all disclosures required by GAAP, provided that this omission is clearly indicated in the report, and is not, to the accountant's knowledge, undertaken with the intention to mislead users of the financial statements. Examples of the appropriate reports under these circumstances can be found in AAM section 2510.02.

.19 If the entity wants to include disclosures about only a few matters in the form of notes to the financial statements, then that information should be clearly labeled as selected information, i.e., "Selected Information—Substantially All Disclosures Required by Generally Accepted Accounting Principles Are Not Included."

.20 If the financial statements are compiled in accordance with a comprehensive basis of accounting other than GAAP and disclosure is not made of the basis used, then the basis should be disclosed in the accountant's report.

### Omission of Statement of Cash Flows

.21 FASB Statement No. 95, *Statement of Cash Flows*, paragraph 3 (AC C25), requires that an entity that provides a set of financial statements that reports both financial position and results of operations should include a statement of cash flows for each period for which results of operations are reported. Therefore, omitting this statement is a departure from GAAP. A GAAP departure must be disclosed in a separate paragraph of the accountant's report. If the statement of cash flows is omitted, then the following paragraph should be added to the accountant's compilation or review report:

A statement of cash flows for the year ended December 31, 19XX, has not been presented. Generally accepted accounting principles require that such a statement be presented when financial statements purport to present financial position and results of operation.

The first paragraph of the report should also be modified accordingly. Examples of the full accountant's reports, both compilation and review, can be found in AAM sections 2510 and 2520, respectively.

### GAAP Departures

.22 An accountant who is engaged to compile or review financial statements may become aware of a GAAP departure that is material to the financial statements taken as a whole. The accountant should ask management to revise the financial statements. If management refuses to revise the financial statements, then the accountant should consider whether modification of the standard report is sufficient to disclose the departure.

.23 SSARS 1, paragraph 40, as amended (AR section 100.40), states that if the accountant decides that modification of the standard report is appropriate, then the departure should be disclosed in a separate paragraph of the report. This disclosure should include the effects of the departure on the financial statements if management has determined these effects or if the accountant has been able to determine the effects through other procedures performed during the engagement. The accountant is not required to determine the effects if management has not done so provided the accountant states in his report that such determination has not been made. Examples of both compilation and review reports can be found in AAM sections 2510.04, .05, and 2520.02–.04, respectively.

.24 If the accountant believes that modification of the standard compilation or review report is not sufficient to indicate the deficiencies of the financial statements taken as a whole, then according to SSARS 1, paragraph 41, as amended (AR section 100.41), the accountant should withdraw from the engagement and provide no further services with respect to that set of financial statements. The accountant may also want to contact his or her attorney.

### Scope Limitations

.25 According to SSARS 1, paragraph 36, as amended (AR section 100.36), if an accountant is unable to perform the necessary inquiry and analytical procedures to achieve the limited assurance contemplated by a review or the client does not provide the accountant with a representation letter then the review is incomplete and the accountant would not have an adequate basis for issuing a review report. If this is the case, then the accountant should consider whether the incomplete review also precludes issuing a compilation report on the financial statements.

.26 In such a situation, the accountant should consider the matter discussed in SSARS 1, paragraphs 44–49, as amended (AR section 100.44–.49), in deciding whether it is appropriate to issue a compilation report on the financial statements.

### Going-Concern Uncertainties

.27 In evaluating the adequacy of disclosure of going-concern uncertainties, the accountant should look to the guidance provided in SAS No. 59, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, paragraphs 10 and 11, as amended by SAS No. 77 (AU section 341.10 and .11).

.28 Normally a going-concern uncertainty would not cause an accountant to modify the standard report provided the financial statements appropriately disclose such matters. If the accountant believes that the disclosure of an uncertainty is inadequate, he or she should consider the guidance provided in SSARS 1, paragraphs 39–41, as amended (AR section 100.39–.41).

.29 Although it is not required, an accountant may wish to add an explanatory paragraph to the compilation or review report to emphasize the existence of a going-concern uncertainty. An example of an explanatory paragraph follows:

As discussed in Note X, certain conditions indicate that the Company may be unable to continue as a going concern. The accompanying financial statements do not include any adjustments to the financial statements that might be necessary should the Company be unable to continue as a going concern.

Examples of full compilation and review reports for this situation can be found in AAM sections 2510.18 and 2520.15, respectively.

## AAM Section 2510

# *Accountants' Reports on Compilation of Financial Statements of a Nonpublic Entity*

### .01 Accountant's Standard Report

Addressee:

I (We) have compiled the accompanying balance sheet of XYZ Company as of December 31, 19XX, and the related statements of income, retained earnings, and cash flows for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management (owners). I (We) have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

[Signature]

[Date]

[Source: SSARS 1, paragraph 17, as amended by SSARS 7 (AR section 100.17).]

---

**Notes:** Statements on Auditing Standards (SASs) provide guidance to the accountant who performs services in connection with the unaudited financial statements of a public entity.

Statements on Standards for Accounting and Review Services (SSARS) provide guidance to the accountant who performs services in connection with unaudited financial statements or other unaudited financial information of a nonpublic entity. However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4).

**.02 Omission of Substantially All Disclosures**

Addressee:

I (We) have compiled the accompanying balance sheet of XYZ Company as of December 31, 19XX, and the related statements of income, retained earnings, (and cash flows)\* for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management (owners). I (We) have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

Management has elected to omit substantially all of the disclosures (and the statement of cash flows) required by generally accepted accounting principles. If the omitted disclosures (and the statement of cash flows) were included in the financial statements, they might influence the user's conclusions about the company's financial position, results of operations, and cash flows. Accordingly, these financial statements are not designed for those who are not informed about such matters.

[Signature]

[Date]

[Source: SSARS 1, paragraph 21, as amended by SSARS 7 (AR section 100.21).]

---

**Notes:** Statements on Auditing Standards (SASs) provide guidance to the accountant who performs services in connection with the unaudited financial statements of a public entity.

Statements on Standards for Accounting and Review Services (SSARS) provide guidance to the accountant who performs services in connection with unaudited financial statements or other unaudited financial information of a nonpublic entity. However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4).

This form of report is appropriate only for a compilation engagement, not for a review engagement.

---

\* If the statement of cash flows is omitted, the first and third paragraphs of the report should be modified accordingly.

**.03 Accountant Not Independent**

Addressee:

I (We) have compiled the accompanying balance sheet of XYZ Company as of December 31, 19XX, and the related statements of income, retained earnings, and cash flows for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management (owners). I (We) have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

I am (We are) not independent with respect to XYZ Company.<sup>1</sup>

[Signature]

[Date]

[Sources: SSARS 1, paragraph 17, as amended by SSARS 7 (AR section 100.17) and SSARS 1, paragraph 22 (AR section 100.22).]

---

**Notes:** Statements on Auditing Standards (SASs) provide guidance to the accountant who performs services in connection with the unaudited financial statements of a public entity.

Statements on Standards for Accounting and Review Services (SSARS) provide guidance to the accountant who performs services in connection with unaudited financial statements or other unaudited financial information of a nonpublic entity. However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4).

---

<sup>1</sup> In making a judgment about whether he is independent, the accountant should be guided by the AICPA Code of Professional Conduct. For example, the accountant should be aware that interpretation 101-3 (ET section 101.05) under rule 101 (ET section 101.01) of the rules of conduct indicates that independence is not necessarily impaired when an accountant provides manual or automated bookkeeping or data processing services to a client.

**.04 Departure From GAAP—Omission of Statement of Cash Flows**

Addressee:

I (We) have compiled the accompanying balance sheet of XYZ Company as of December 31, 19XX, and the related statements of income and retained earnings for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management (owners). I (We) have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them. However, I (we) did become aware of a departure from generally accepted accounting principles that is described in the following paragraph.

A statement of cash flows for the year ended December 31, 19XX, has not been presented. Generally accepted accounting principles require that such a statement be presented when financial statements purport to present financial position and results of operations.

[Signature]

[Date]

[Source: SSARS 1, paragraph 40, as amended by SSARS 7 (AR section 100.40).]

**Note:** Statements on Auditing Standards (SASs) provide guidance to the accountant who performs services in connection with the unaudited financial statements of a public entity. Statements on Standards for Accounting and Review Services (SSARS) provide guidance to the accountant who performs services in connection with unaudited financial statements or other unaudited financial information of a nonpublic entity. However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4).

**.05 Departure from GAAP—Accounting Principles Not Generally Accepted**

Addressee:

I (We) have compiled the accompanying balance sheet of XYZ Company as of December 31, 19XX, and the related statements of income, retained earnings, and cash flows for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management (owners). I (We) have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them. However, I (we) did become aware of a departure (certain departures) from generally accepted accounting principles that is (are) described in the following paragraph(s).

As disclosed in note X to the financial statements, generally accepted accounting principles require that land be stated at cost. Management has informed me (us) that the company has stated its land at appraised value and that, if generally accepted accounting principles had been followed, the land account and stockholders' equity would have been decreased by \$500,000.

Statements on Standards for Accounting and Review Services (SSARS) provide guidance to the accountant who performs services in connection with unaudited financial statements or other unaudited financial information of a nonpublic entity. However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4).

**.06 Cash Basis Statements\*—Full Disclosure.**

Addressee:

I (We) have compiled the accompanying statement of assets and liabilities arising from cash transactions of XYZ Company as of December 31, 19XX, and the related statement of revenue collected and expenses paid for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management (owners). I (We) have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion on any other form of assurance on them.

---

\* When financial statements are prepared in accordance with a comprehensive basis of accounting other than generally accepted accounting principles, the notes ordinarily would state the basis of presentation and describe how that basis differs from generally accepted accounting principles. [Source: Accounting and Review Services Interpretation No. 12 of SSARS 1 (AR section 9100.45).]

**.07 Cash Basis Statements—Omission of Substantially All Disclosures, With No Reference to Basis**

Addressee:

I (We) have compiled the accompanying statement of assets and liabilities arising from cash transactions of XYZ Company as of December 31, 19XX, and the related statement of revenue collected and expenses paid for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The financial statements have been prepared on the cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

A compilation is limited to presenting in the form of financial statements information that is the representation of management (owners). I (We) have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

Management has elected to omit substantially all of the disclosures ordinarily included in financial statements prepared on the cash basis of accounting. If the omitted disclosures were included in the financial statements, they might influence the user's conclusions about the Company's assets, liabilities, equity, revenue and expenses. Accordingly, these financial statements are not designed for those who are not informed about such matters.

**Note:** Statements on Auditing Standards (SASs) provide guidance to the accountant who performs services in connection with the unaudited financial statements of a public entity. Statements on Standards for Accounting and Review Services (SSARS) provide guidance to the accountant who performs services in connection with unaudited financial statements or other unaudited financial information of a nonpublic entity. However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4).

**.16 Continuing Accountant's Compilation Report on Comparative Statements—Prior Period Financial Statements That Omit Substantially All Disclosures Have Been Compiled From Previously Compiled (Reviewed) Financial Statements for the Same Period**

Addressee:

I (We) have compiled the accompanying balance sheets of XYZ Company as of December 31, 19X2 and 19X1, and the related statements of income, retained earnings, and cash flows for the years then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management (owners). I (We) have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

Management has elected to omit substantially all of the disclosures required by generally accepted accounting principles. If the omitted disclosures were included in the financial statements, they might influence the user's conclusions about the company's financial position, results of operations, and its cash flows. Accordingly, these financial statements are not designed for those who are not informed about such matters.

The accompanying 19X1 financial statements were compiled by me (us) from financial statements that did not omit substantially all of the disclosures required by generally accepted accounting principles and that I (we) previously compiled (reviewed) as indicated in my (our) report dated March 1, 19X2.

However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4).

**.17 Compilation Report—Financial Statements Accompanied by Supplementary Information**

Addressee:

I (We) have compiled the accompanying balance sheet of XYZ Company as of December 31, 19XX, and the related statements of income, retained earnings, and cash flows for the year then ended, and the accompanying supplementary information (*identify the supplementary information, for example, schedules of cost of goods sold and selling, general and administrative expenses*), which are presented only for supplementary analysis purposes, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements and supplementary schedules information that is the representation of management (owners). I (We) have not audited or reviewed the accompanying financial statements and supplementary schedules and, accordingly, do not express an opinion or any other form of assurance on them.

However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4).

**.18 Compilation Report—Emphasis of a Going-Concern Uncertainty**

Addressee:

I (We) have compiled the accompanying balance sheet of XYZ Company as of December 31, 19XX, and the related statements of income, retained earnings, and cash flows for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management (owners). I (We) have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

As discussed in note X, certain conditions indicate that the Company may be unable to continue as a going concern. The accompanying financial statements do not include any adjustments to the financial statements that might be necessary should the Company be unable to continue as a going concern.\*

\* The accountant is not required to modify his or her compilation report for a going-concern uncertainty that is appropriately disclosed in the financial statements. However, he or she may wish to draw attention to the going-concern uncertainty in an explanatory paragraph of his or her compilation report as shown above. [Source: Accounting and Review Services Interpretation No. 11 of SSARS 1 (AR section 9100.34–38).]

**.19 Interim Historical Financial Statements Accompanied by a Financial Forecast Labeled as a "Budget"**

Addressee:

I (We) have compiled the accompanying balance sheet of XYZ Company as of December 31, 19XX, and the related statements of income, retained earnings, and cash flows for the six months then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management (owners). I (We) have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

The accompanying budgeted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 19XX, and for the six months then ending, have not been compiled or examined by us and, accordingly, we do not express an opinion or any other form of assurance on them.

Management has (The owners have) elected to omit the summaries of significant assumptions and accounting policies required under established guidelines for presentation of prospective financial statements. If the omitted summaries were included in the budgeted information, they might influence the user's conclusions about the company's budgeted information. Accordingly, this budgeted information is not designed for those who are not informed about such matters.

**.20 Comparative Statements—Current Year Compiled and Prior Year Audited by a Different Accountant Who Has Ceased Operations**

Addressee:

I (We) have compiled the accompanying balance sheet of XYZ Company as of December 31, 19X2 and the related statements of income, retained earnings, and cash flows for the years then ended, in accordance with the Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management (owners). I (We) have not audited or reviewed the accompanying 19X2 financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

The financial statements for the year ended December 31, 19X1, were audited by other accountants who have ceased operations, and they expressed an unqualified opinion on them in their report dated March 1, 19X2, but they have not performed any auditing procedures since that date.

## AAM Section 2520

# *Accountants' Reports on Review of Financial Statements of a Nonpublic Entity*

### .01 Accountant's Standard Report

Addressee:

I (We) have reviewed the accompanying balance sheet of XYZ Company as of December 31, 19XX, and the related statements of income, retained earnings, and cash flows for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management (owners) of XYZ Company.

A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I (we) do not express such an opinion.

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

[Signature]

[Date]

[Source: SSARS 1, paragraph 35, as amended by SSARS 7 (AR section 100.35).]

---

**Note:** Statements on Auditing Standards (SASs) provide guidance to the accountant who performs services in connection with the unaudited financial statements of a public entity. Statements on Standards for Accounting and Review Services (SSARS) provide guidance to the accountant who performs services in connection with unaudited financial statements or other unaudited financial information of a nonpublic entity. However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4).

**.02 Departure From GAAP—Accounting Principle Not Generally Accepted**

Addressee:

I (We) have reviewed the accompanying balance sheet of XYZ Company as of December 31, 19XX, and the related statements of income, retained earnings, and cash flows for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management (owners) of XYZ Company.

A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I (we) do not express such an opinion.

Based on my (our) review, with the exception of the matter described in the following paragraph, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

As disclosed in note X to the financial statements, generally accepted accounting principles require that inventory cost consist of material, labor, and overhead. Management has informed me (us) that the inventory of finished goods and work in process is stated in the accompanying financial statements at material and labor cost only, and that the effects of this departure from generally accepted accounting principles on financial position, results of operations, and cash flows have not been determined.

[Signature]

[Date]

---

**Note:** Statements on Auditing Standards (SASs) provide guidance to the accountant who performs services in connection with the unaudited financial statements of a public entity. Statements on Standards for Accounting and Review Services (SSARS) provide guidance to the accountant who performs services in connection with unaudited financial statements or other unaudited financial information of a nonpublic entity. However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4).

**.03 Departure From GAAP—Change in Accounting Principle Without Reasonable Justification**

Addressee:

I (We) have reviewed the accompanying balance sheet of XYZ Company as of December 31, 19XX, and the related statements of income, retained earnings, and cash flows for the year then ended, in accordance with Statements on Standard for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management (owners) of XYZ Company.

A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I (we) do not express such an opinion.

Based on my (our) review, with the exception of the matter described in the following paragraph, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

As disclosed in note X to the financial statements, the company has adopted (description of newly adopted method), whereas it previously used (description of previous method). Although the (description of newly adopted method) is in conformity with generally accepted accounting principles, the company does not appear to have reasonable justification for making a change as required by Opinion No. 20 of the Accounting Principles Board.

---

**Note:** Statements on Auditing Standards (SASs) provide guidance to the accountant who performs services in connection with the unaudited financial statements of a public entity. Statements on Standards for Accounting and Review Services (SSARS) provide guidance to the accountant who performs services in connection with unaudited financial statements or other unaudited financial information of a nonpublic entity. However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4).

**.04 Departure From GAAP—Omission of Statement of Cash Flows**

Addressee:

I (we) have reviewed the accompanying balance sheet of XYZ Company as of December 31, 19XX, and the related statements of income, and retained earnings, for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management (owners) of XYZ Company.

A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I (we) do not express such an opinion.

Based on my (our) review, with the exception of the matter described in the following paragraph, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

A statement of cash flows for the year ended December 31, 19XX, has not been presented. Generally accepted accounting principles require that such a statement be presented when financial statements purport to present financial position and results of operations.

However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4).

**.05 Cash Basis Statements\*—Full Disclosure**

Addressee:

I (We) have reviewed the accompanying statement of assets and liabilities arising from cash transactions of XYZ Company as of December 31, 19XX, and the related statement of revenue collected and expenses paid for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management (owners) of XYZ Company.

A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I (we) do not express such an opinion.

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with the cash basis of accounting, as described in note X.

Statements on Standards for Accounting and Review Services (SSARS) provide guidance to the accountant who performs services in connection with unaudited financial statements or other unaudited financial information of a nonpublic entity. However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4).

See the AICPA publication, *Preparing and Reporting on Cash- and Tax-Basis Financial Statements*, for further guidance on the unique recognition, measurement, and disclosure issues for OCBOA (other comprehensive basis of accounting) financial statements, including illustrative financial statements and notes.

---

\* When financial statements are prepared in accordance with a comprehensive basis of accounting other than generally accepted accounting principles, the notes ordinarily would state the basis of presentation and describe how that basis differs from generally accepted accounting principles.

**.07 Continuing Accountant's Report on Comparative Statements—Both Periods Reviewed**

Addressee:

I (We) have reviewed the accompanying balance sheets of XYZ Company as of December 31, 19X2 and 19X1, and the related statements of income, retained earnings, and cash flows for the years then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management (owners) of XYZ Company.

A review consists principally of inquiries of company personnel and analytical procedures to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I (we) do not express such an opinion.

Based on my (our) reviews, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

[Signature]

[Date]

[Source: SSARS 2, paragraph 9, as amended by SSARS 7 (AR section 200.09).]

---

**Note:** Statements on Auditing Standards (SASs) provide guidance to the accountant who performs services in connection with the unaudited financial statements of a public entity. Statements on Standards for Accounting and Review Services (SSARS) provide guidance to the accountant who performs services in connection with unaudited financial statements or other unaudited financial information of a nonpublic entity. However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4).

**.08 Continuing Accountant's Report on Comparative Statements—Current Period Reviewed and Prior Period Compiled**

Addressee:

I (We) have reviewed the accompanying balance sheet of XYZ Company as of December 31, 19X2, and the related statements of income, retained earnings, and cash flows for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management (owners) of XYZ Company.

A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I (we) do not express such an opinion.

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the 19X2 financial statements in order for them to be in conformity with generally accepted accounting principles.

The accompanying 19X1 financial statements of XYZ Company were compiled by me (us). A compilation is limited to presenting in the form of financial statements information that is the representation of management (owners). I (We) have not audited or reviewed the 19X1 financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

[Signature]

[Date]

[Source: SSARS 2, paragraph 10, as amended by SSARS 7 (AR section 200.10).]

---

**Note:** Statements on Auditing Standards (SASs) provide guidance to the accountant who performs services in connection with the unaudited financial statements of a public entity. However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4).

**.09 Continuing Accountant's Report on Comparative Statements—Both Periods Reviewed With Restatement of Prior-Period Financial Statements<sup>1</sup>**

Addressee:

I (We) have reviewed the accompanying balance sheet of XYZ Company as of December 31, 19X2 and 19X1, the related statements of income, retained earnings, and cash flows for the years then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management (owners) of XYZ Company.

A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I (we) do not express such an opinion.

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

In my (our) previous review report dated March 1, 19X2, on the 19X1 financial statements, I (we) referred to a departure from generally accepted accounting principles because the company carried its land at appraised values. However, as disclosed in Note X, the company has restated its 19X1 financial statements to reflect its land at costs in accordance with generally accepted accounting principles.

**.12 Continuing Accountant's Report on Comparative Statements—Current Period Reviewed With Reference to Audit Report on Prior Period**

Addressee:

I (We) have reviewed the accompanying balance sheet of XYZ Company as of December 31, 19X2, and the related statements of income, retained earnings, and cash flows for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management (owners) of XYZ Company.

A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I (we) do not express such an opinion.

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

The financial statements for the year ended December 31, 19X1, were audited by me (us) (other accountants) and I (we) (they) expressed an unqualified opinion on them in my (our) (their) report dated March 1, 19X2, but I (we) (they) have not performed any auditing procedures since that date.

**Note:** Statements on Auditing Standards (SASs) provide guidance to the accountant who performs services in connection with the unaudited financial statements of a public entity. Statements on Standards for Accounting and Review Services (SSARS) provide guidance to the accountant who performs services in connection with unaudited financial statements or other unaudited financial information of a nonpublic entity. However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4).

**.13 Review Report—Supplementary Information Subjected to Review Procedures**

Addressee:

I (We) have reviewed the accompanying balance sheet of XYZ Company as of December 31, 19XX, and the related statements of income, retained earnings, and cash flows for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management (owners) of XYZ Company.

A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I (we) do not express such an opinion.

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

My (our) review was conducted for the purpose of expressing limited assurance that there are no material modifications that should be made to the financial statements in order for them to be in conformity with generally accepted accounting principles. The information included in the accompanying (identify the supplementary information, for example, schedules of cost of goods sold and selling, general, and administrative expenses) is presented only for supplementary analysis purposes. Such information has been subjected to the inquiry and analytical procedures applied in the review of the basic financial statements and I am (we are) not aware of any material modifications that should be made thereto.

However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4).

**.15 Review Report—Emphasis of a Going Concern Uncertainty**

Addressee:

I (We) have reviewed the accompanying balance sheet of XYZ Company as of December 31, 19XX, and the related statements of income, retained earnings, and cash flows for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management (owners) of XYZ Company.

A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I (we) do not express such an opinion.

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

As discussed in Note X, certain conditions indicate that the Company may be unable to continue as a going concern. The accompanying financial statements do not include any adjustments to the financial statements that might be necessary should the Company be unable to continue as a going concern.\*

\* The accountant is not required to modify his or her review report for a going-concern uncertainty that is appropriately disclosed in the financial statements. However, he or she may wish to draw attention to the going-concern uncertainty in an explanatory paragraph of his or her review report as shown above. [Source: Accounting and Review Services Interpretation No. 11 of SSARS 1 (AR section 9100.34–38).]

**.16 Comparative Statements—Both Years Reviewed; However, Prior Year by a Different Accountant Who Has Ceased Operations**

Addressee:

I (We) have reviewed the accompanying balance sheet of XYZ Company as of December 31, 19X2, and the related statements of income, retained earnings, and cash flows for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management (owners) of XYZ Company.

A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I (we) do not express such an opinion.

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

The 19X1 financial statements of XYZ Company were reviewed by other accountants who have ceased operations and whose report dated February 1, 19X2, stated that they were not aware of any material modifications that should be made to those statements in order for them to be in conformity with generally accepted accounting principles.

**.17 Comparative Statements—Current Year Reviewed and Prior Year Audited by a Different Accountant Who Has Ceased Operations**

Addressee:

I (We) have reviewed the accompanying balance sheet of XYZ Company as of December 31, 19X2, and the related statements of income, retained earnings, and cash flows for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management (owners) of XYZ Company.

A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I (we) do not express such an opinion.

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

The financial statements for the year ended December 31, 19X1, were audited by other accountants who have ceased operations, and they expressed an unqualified opinion on them in their report dated March 1, 19X2, but they have not performed any auditing procedures since that date.

# AAM Section 2600

## *Special Areas*

### Prescribed Forms

.01 SSARS 3 (AR section 300) allows an accountant to issue a compilation report when a prescribed form calls for a departure from GAAP by using a measurement principle different from GAAP or by not requiring the disclosures required by GAAP. A prescribed form is defined in SSARS 3, paragraph 2 (AR section 300.02), as “any standard preprinted form designed or adopted by a body to which it is to be submitted; for example, forms used by industry trade associations, credit agencies, banks, and governmental and regulatory bodies other than those concerned with the sale or trading of securities.”

.02 Generally, it is assumed that the information required by a prescribed form meets the needs of the body that required the form to be completed, and, therefore, it is not necessary for that body to be advised of departures from GAAP that are required by the form. An example of the compilation report to be issued when the unaudited financial statements of a nonpublic entity are included in a prescribed form that calls for departures from GAAP can be found in AAM section 2610.01.

.03 If, during the compilation engagement, the accountant becomes aware of a departure from GAAP not required by the prescribed form, he should follow the guidance discussed in AAM section 2500.21 through .23 on GAAP departures. If the accountant finds that there is a departure from the requirements of the prescribed form, he or she should consider the departure to be the same as a departure from GAAP in determining the effects on the report. An example of a compilation report for a departure from GAAP which was not called for by the prescribed form can be found in AAM section 2610.02.

.04 SSARS 3, paragraph 5 (AR section 300.05), states that if the accountant is asked to sign a preprinted form that does not conform with the guidance found in SSARS 3 (AR section 300) or SSARS 1 (AR section 100), he or she should not sign the form, but should add the appropriate report to the prescribed form.

.05 If your client applies for a bank loan, the bank loan officer may request financial statements in the format prescribed in the Robert Morris Associates' Business Credit Information Package (BCIP). Those financial statements are required to be in conformity with generally accepted accounting principles, however, they do not contain all disclosures required in complete GAAP presentations. AAM section 2610.03 contains a sample prescribed-form compilation report for a BCIP presentation.

### Specified Elements

.06 SSARS 1 (AR section 100) provides guidance on the compilation and review of financial statements. Some accountants are asked to issue review reports on separate presentations of specified elements, accounts or items of financial statements. Because this type of presentation is not a financial statement, guidance for this type of engagement is not found in the SSARS. This type of engagement should follow the Attestation Standards. (See AAM section 2610.04 for an illustrative review report.) If the accountant is engaged to apply agreed-upon procedures to elements, accounts, or items of a financial statement, he or she should refer to SAS No. 75, *Engagements to Apply Agreed-Upon Procedures to Specified Elements, Accounts, or Items of a Financial Statement* (AU section 622).

---

[The next page is 2611.]

## AAM Section 2610

### *Accountants' Reports on Prescribed Forms, BCIP, and Specified Elements*

#### .01 Financial Statements Included in Certain Prescribed Forms

Addressee:

I (We) have compiled the accompanying balance sheet of XYZ Company as of December 31, 19XX, and the related statements of income, retained earnings, and cash flows for the year then ended included in the accompanying prescribed form, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

My (Our) compilation was limited to presenting in the form prescribed by ABC Bank information that is the representation of management (owners). I (We) have not audited or reviewed the financial statements referred to above and, accordingly, do not express an opinion or any other form of assurance on them.

These financial statements (including related disclosures) are presented in accordance with the requirements of [name of body], which differ from generally accepted accounting principles. Accordingly, these financial statements are not designed for those who are not informed about such differences.

[Signature]

[Date]

[Source; SSARS 3, paragraph 3, as amended by SSARS 7 (AR section 300.03).]

---

**Note:** Statements on Auditing Standards (SASs) provide guidance to the accountant who performs services in connection with the unaudited financial statements of a public entity. Statements on Standards for Accounting and Review Services (SSARS) provide guidance to the accountant who performs services in connection with unaudited financial statements or other unaudited financial information of a nonpublic entity. However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4). SSARS 3 (AR section 300), provides for an alternative form of standard compilation report when a prescribed form or related instructions call for departure from generally accepted accounting principles or another comprehensive basis of accounting.

**.02 Financial Statements Included in Certain Prescribed Forms—Departure From GAAP Not Called for by the Prescribed Forms**

Addressee:

I (We) have compiled the accompanying balance sheet of XYZ Company as of December 31, 19XX, and the related statements of income, retained earnings, and cash flows for the year then ended included in the accompanying prescribed form, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

My (Our) compilation was limited to presenting in the form prescribed by ABC Trade Association information that is the representation of management (owners). I (We) have not audited or reviewed the financial statements referred to above and, accordingly, do not express an opinion or any other form of assurance on them. However, I (we) did become aware of a departure from generally accepted accounting principles that is not called for by the prescribed form or related instructions, as described in the following paragraph.

As disclosed in note X to the financial statements, generally accepted accounting principles require that land be stated at cost. Management has informed me (us) that the company has stated its land at appraised value and that, if generally accepted accounting principles had been followed, the land account and stockholders' equity would have been decreased by \$XXX,XXX.

These financial statements (including related disclosures) are otherwise presented in accordance with the requirements of [name of body], which also differ from generally accepted accounting principles. Accordingly, these financial statements are not designed for those who are not informed about such differences.

---

**Note:** Statements on Auditing Standards (SASs) provide guidance to the accountant who performs services in connection with the unaudited financial statements of a public entity. Statements on Standards for Accounting and Review Services (SSARS) provide guidance to the accountant who performs services in connection with unaudited financial statements or other unaudited financial information of a nonpublic entity. However, when a public entity does not have its annual financial statements audited, an accountant may review the entity's annual or interim financial statements in accordance with SSARS as permitted by footnote 4 of SAS No. 26 (AU section 504.05, footnote 4). SSARS 3 (AR section 300), provides for an alternative form of standard compilation report when a prescribed form or related instructions call for departure from generally accepted accounting principles or another comprehensive basis of accounting.

**.03 Prescribed-Form Compilation Report for BCIP, Accompanying Supplementary Information Has Been Compiled**

---

---

---

I (We) have compiled the [*identify financial statements and supplementary schedules, including periods presented and name of client*] included in the accompanying Business Credit Information Package in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

My (Our) compilation was limited to presenting in the form designed by Robert Morris Associates (the "Business Credit Information Package") and requested by [*name of bank*] information that is the representation of management. I (We) have not audited or reviewed the financial statements or supplementary information referred to above and, accordingly, do not express an opinion or any other form of assurance on them.

These financial statements (including related disclosures) and supplementary information are for the use of [*name of bank*] and are presented in accordance with the requirements of the Business Credit Information Package, which differ from generally accepted accounting principles. Accordingly, these financial statements and supplementary information are not designed for those who are not informed about such differences.

[*Firm's Signature*]

[*Report Date*]

[Sources: SSARS 3, paragraph 3, as amended by SSARS 7 (AR section 300.03) and Robert Morris Associates, Business Credit Information Package.]

**.04 Review Report on Elements, Accounts, or Items of a Financial Statement Under the Attestation Standards\***

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

I (We) have reviewed the accompanying \_\_\_\_\_ [*identify the presentation of assertions relating to schedule(s) of elements, accounts or items*] of \_\_\_\_\_ [*client name*] for the \_\_\_\_\_ [*period*] ended \_\_\_\_\_. My (Our) review was conducted in accordance with standards established by the American Institute of Certified Public Accountants.

A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on the \_\_\_\_\_ [*identify the presentation of assertions relating to schedule(s) of elements, accounts or items*]. Accordingly, I (we) do not express such an opinion.<sup>1</sup>

Based on my (our) review, nothing came to my (our) attention that caused me (us) to believe that the accompanying \_\_\_\_\_ [*identify the presentation of assertions relating to schedule(s) of elements, accounts or items*] is (are) not presented in conformity with generally accepted accounting principles (or other identified basis of accounting).

[*Firm's Signature*]

[*Report Date*]

[Source: Accounting and Review Services Interpretation No. 8 of SSARS 1, as amended by SSARS 7 (AR section 9100.27 and .28) and SSAE No. 1, paragraph 58 (AT section 100.58).]

\_\_\_\_\_  
[*The next page is 3001.*]

\* SSARS 1 (AR section 100) provides guidance concerning the standards and procedures applicable to compilations and reviews of financial statements. Presentations of specified elements, accounts, or items of a financial statement are not financial statements. SAS No. 62 (AU section 623) and Interpretations thereof (AU section 9623) provide guidance with respect to reporting on such presentations when the engagement is intended to result in the expression of an audit opinion. SAS No. 75 (AU section 622) provides guidance with respect to reporting on the results of applying agreed-upon procedures to specified elements, accounts, or items of a financial statement. SSAE No. 1 (AT section 100) provides guidance with respect to reporting on such presentations when the accountant is engaged to express moderate assurance in a review report.

<sup>1</sup> An additional explanatory paragraph may be added after the second paragraph to emphasize matters relating to the attest engagement or the presentation of assertions.

# AAM Section 3000

## Engagement Planning and Administration

---

Sections 3165, 3170, and 3175 include illustrative audit assignment control forms, engagement letters, and an illustrative planning program that can be used by an accountant in the planning phase of an audit engagement.

Various formats of audit assignment controls, engagement letters, and planning checklists are in use; nevertheless, inclusion of the formats in this section in no way means that they are preferable. Readers are urged to refer directly to authoritative pronouncements when appropriate.

Illustrative formats of audit assignment controls, engagement letters, and planning checklists are often helpful in developing a consistent style within a firm. However, no set of illustrative formats can cover all the situations that are likely to be encountered in practice because the circumstances of engagements vary widely.

Readers should consider other sources of illustrative presentations, such as those in authoritative pronouncements and AICPA audit and accounting guides.

# AAM Section 3100

## *Planning the Engagement*

.01 The planning phase is an important part of every engagement. During this phase, the partner and the staff review the client's business and the industry in which the client operates, then develop an overall strategy for the expected conduct and scope of the engagement.

.02 The need for planning is highlighted in Rule 201, General Standards (ET section 201.01), AICPA Code of Professional Conduct, which states: "A member shall adequately plan and supervise an engagement."

.03 The first standard of fieldwork of generally accepted auditing standards states: "The work is to be adequately planned and assistants, if any, are to be properly supervised." Statement on Auditing Standards (SAS) No. 22, *Planning and Supervision* (AU section 311), provides authoritative interpretive guidance on the first standard of fieldwork.

.04 Proper planning also enhances the productivity of engagement personnel and should result in a more profitable engagement.

.05 The planning memo and the planning checklist are two commonly used planning documents. The style and complexity of these documents will depend on engagement needs and firm preference. The same memo or checklist may be referred to in the review process to ensure that the items highlighted in the planning phase are given adequate attention during the engagement.

.06 The steps in audit planning are as follows:

- a. Understand the scope of services and the nature of reports expected to be rendered.
- b. Decide whether or not to accept the engagement.
- c. Assign personnel to the engagement and prepare a preliminary time budget.
- d. Assess independence of firm and audit team.
- e. Understand the entity's business and the industry in which it operates.
- f. Assess the audibility of the entity by—
  1. Gaining an adequate understanding of the internal control structure.
  2. Evaluating management integrity.
- g. Establish an agreement with the client, preferably with an engagement letter.
- h. Assess control risks.
- i. Make a preliminary judgment about materiality levels for audit purposes.
- j. Estimate the level of audit risk and consider its interactive components.
- k. Consider how components of audit risk relate to one another for each cycle or major account.

- l.* Consider cost-effectiveness of different audit strategies.
  - m.* Write the audit program and finalize a time budget.
- 

*[The next page is 3121.]*

# AAM Section 3105

## *Understanding the Assignment*

.01 The auditor should (a) meet with the client to understand the type, scope, and timing of the engagement; (b) understand if reports on compliance, internal control, or segments of the entity are required; (c) understand the client's expectations, both stated and implied; and (d) review the expectations of both the owners and managers. A sample checklist is located in AAM section 3165.

.02 To obtain an adequate understanding of any assignment, the auditor should be familiar with generally accepted accounting principles (GAAP), which includes specialized AICPA industry guides as well as Emerging Issues Task Force (EITF) consensuses.

.03 Statement on Auditing Standards (SAS) No. 69, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles in the Independent Auditor's Report*, sets forth the GAAP hierarchy. Statement on Standards for Accounting and Review Services 7 *Omnibus Statement on Standards for Accounting and Review Services—1992*, indicates that the GAAP hierarchy set forth in SAS No. 69 also applies to compilation and review engagements.

.04 SAS No. 69:

- a. Presents two separate but parallel hierarchies—one for state and local governments and another for nongovernmental entities, and
- b. Establishes a true GAAP hierarchy—each successive category in the hierarchy is a different level of authority.

.05 The table below summarizes the pronouncements that are included in each of the five categories of GAAP for nongovernmental entities and for state and local governments.

.06

**GAAP Hierarchy Summary\***

	<i>Nongovernmental Entities</i>	<i>State and Local Governments</i>
<i>Established Accounting Principles</i>	10a. FASB Statements and Interpretations, APB Opinions, and AICPA Accounting Research Bulletins	12a. GASB Statements and Interpretations, plus AICPA and FASB pronouncements if made applicable to state and local governments by a GASB Statement or Interpretation
	10b. FASB Technical Bulletins, AICPA Industry Audit and Accounting Guides, and AICPA Statements of Position	12b. GASB Technical Bulletins, and the following pronouncements if specifically made applicable to state and local governments by the AICPA: AICPA Industry Audit and Accounting Guides and AICPA Statements of Position
	10c. Consensus positions of the FASB Emerging Issues Task Force and AICPA Practice Bulletins	12c. Consensus positions of the GASB Emerging Issues Task Force† and AICPA Practice Bulletins if specifically made applicable to state and local governments by the AICPA
	10d. AICPA accounting interpretations, "Qs and As" published by the FASB staff, as well as industry practices widely recognized and prevalent	12d. "Qs and As" published by the GASB staff, as well as industry practices widely recognized and prevalent
<i>Other Accounting Literature †</i>	11. Other accounting literature, including FASB Concepts Statements; AICPA Issues Papers; International Accounting Standards Committee Statements; GASB Statements, Interpretations, and Technical Bulletins; pronouncements of other professional associations or regulatory agencies; AICPA <i>Technical Practice Aids</i> ; and accounting textbooks, handbooks, and articles	13. Other accounting literature, including GASB Concepts Statements; pronouncements in categories (a) through (d) of the hierarchy for nongovernmental entities when not specifically made applicable to state and local governments; FASB Concepts Statements; AICPA Issues Papers; International Accounting Standards Committee Statements; pronouncements of other professional associations or regulatory agencies; AICPA <i>Technical Practice Aids</i> ; and accounting textbooks, handbooks, and articles

---

[The next page is 3141.]

\* Paragraph references correspond to the paragraphs of SAS No. 69 (AU section 411) that describe the categories of the GAAP hierarchy.

† In the absence of established accounting principles, the auditor may consider other accounting literature, depending on its relevance in the circumstances.

‡ As of the date of this Manual, the GASB had not organized such a group.

# AAM Section 3110

## *Assigning Personnel to the Engagement*

### General Comments

.01 Engagement planning should include procedures for assigning personnel to the engagement. The procedures established should provide the firm with reasonable assurance that work will be performed by persons having the degree of technical training and proficiency required in the circumstances. Generally, the more able and experienced the personnel assigned to a particular engagement, the less need for direct supervision.

.02 Some procedures regarding assignment of personnel to the engagement are discussed in this section. The specific procedures adopted by a firm would not necessarily include all the procedures or be limited to those discussed. Overall firm requirements for assigning personnel to engagements are addressed in the *Guide for Establishing and Maintaining a System of Quality Control for a CPA Firm's Accounting and Auditing Practice* at AAM section 11,200. Sample quality control forms are available at AAM section 11,300, which are helpful in assigning personnel to engagements.

### Engagement Planning Procedures

.03 A time budget for the engagement should generally be prepared to determine manpower requirements and to schedule field work. The engagement partner should approve the time budget prior to the beginning of field work. A time budget should have columns for budgeted time (in hours) for preliminary and final field work. Time budget forms differ depending upon firm preference and needs. Some firms use separate forms for the time budget report and the job progress report or analysis (see AAM section 3170.01 for "Audit Time Budget—Sample A"), whereas others combine these reports into one form (see AAM section 3170.02 for "Audit Time Budget—Sample B").

.04 Other alternatives include longer, more detailed sets of forms. These forms combine the features of a time budget, a source document for staff scheduling, and a job progress report that compares each assigned person's actual daily hours against the budget. Some firms use a shorter, less detailed form for jobs of less than a predetermined number of staff hours (for example, one hundred hours; see AAM section 3170.03 for "Audit Time Analysis—Short Form") and a longer form for jobs requiring more time (see AAM section 3170.04 for "Audit Time Analysis—Long Form"). Some firms use a weekly (or daily) progress report (see AAM section 3170.05, for example). This report, submitted by the accountant in charge, shows the time actually spent in relation to the estimate, the estimated additional time required, and the estimated variance from the original estimate.

.05 When the combined time budget and progress report form (sample B) is used, it must be kept current as the assignment progresses. This form is carried in the working papers file and is filled in daily by the accountant in charge, for all persons applying time on the engagement. This procedure is vital to identify and control time as it is applied so that it can be compared to the budgeted time for that phase of the engagement.

.06 The following factors should be considered in achieving a balance of engagement manpower requirements, personnel skills, individual development, and utilization:

- a. Engagement size and complexity

- b. Personnel availability
- c. Special expertise
- d. Timing of the work to be performed
- e. Continuity and periodic rotation of personnel
- f. Opportunities for on-the-job training

.07 The knowledge, skill, and ability of personnel assigned significant engagement responsibilities should be commensurate with the auditor's assessment of the level of risk for the engagement (see AAM section 3140). Ordinarily, higher risk requires more experienced personnel or more extensive supervision by the auditor with final responsibility for the engagement during both the planning and the conduct of the engagement.

.08 The scheduling and staffing of the engagement should be approved by the partner with final responsibility for the engagement so that the partner can consider the qualifications, experience, and training of personnel to be assigned. The experience and training of the engagement personnel should be considered in relation to the complexity or other requirements of the engagement and the extent of supervision to be provided.

.09 It is recommended that all procedures discussed in this section be documented in the accountant's work papers. A sample checklist documenting the procedures listed in this section is located in AAM section 3165.

---

*[The next page is 3161.]*

# AAM Section 3115

## *Independence*

### General Comments

.01 Engagement planning should include procedures to provide the firm with reasonable assurance that persons at all organizational levels maintain independence to the extent required by the AICPA Code of Professional Conduct. Interpretation 101-1 of rule 101 of the rules of conduct (ET section 101.02), contains examples of instances wherein a firm's independence will be considered to be impaired.

.02 The procedures employed at the engagement level should be designed to ascertain whether the firm and its partners and employees have complied with all applicable independence rules, with emphasis on those related to financial interest, performance of accounting services for the client, and unpaid fees. Overall firm requirements for independence are addressed in AICPA's Statement on Quality Control Standards No. 2, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice*, paragraphs 7-10 (QC section 20.07-.10). (See AAM section 11,300.06-.07 for independence checklists for employees and other auditors.)

.03 Some procedures regarding independence which a firm may employ in the planning phase of an engagement are discussed in this section. The specific procedures adopted by a firm would not necessarily include all these procedures or be limited to those discussed.

### Engagement Planning Procedures

.04 Annual independence questionnaires should be reviewed for all engagement personnel by the engagement partner to assure that those individuals assigned to the engagement are independent.

.05 Accounts receivable from the client should be reviewed to ascertain whether any outstanding amounts take on some of the characteristics of loans and may, therefore, impair the firm's independence.

.06 According to SAS No. 1, section 543, *Part of Audit Performed by Other Independent Auditors* (AU section 543), the firm, when acting as principal auditor, should obtain confirmation of the independence of another firm engaged to perform segments of the audit. Written confirmation enables the principal auditor to document his assessment of the other auditor's independence in his audit work papers.

.07 In situations in which the accountant is not independent, the type of opinion to be issued should be discussed in the planning stage. A disclaimer of opinion should be issued as discussed in SAS No. 26, *Association With Financial Statements*, paragraphs 8-10 (AU section 504.08-.10), or the engagement should be turned into a compilation.

.08 It is recommended that all procedures discussed in this section be documented in the auditor's work papers. A sample checklist documenting the procedures listed in this section is located in AAM section 3165.

---

[The next page is 3181.]

# AAM Section 3120

## *Knowledge of the Entity's Business*

.01 The accountant should obtain a level of knowledge of the entity's business that will enable the accountant to plan and perform the audit in accordance with generally accepted auditing standards. That level of knowledge should enable the accountant to obtain an understanding of the events, that may have a significant effect on the financial statements. The level of knowledge customarily possessed by management relating to managing the entity's business is substantially greater than that which is obtained by the accountant in performing the audit. Knowledge of the entity's business helps the accountant in—

- a. Identifying areas that may need special consideration.
- b. Assessing conditions under which accounting data and corroborating evidential matter are produced, processed, reviewed, and accumulated within the operation.
- c. Evaluating the reasonableness of estimates, such as valuation of inventories, depreciation, allowances for doubtful accounts, and percentage-of-completion of long-term contracts.
- d. Evaluating the reasonableness of management representations.
- e. Making judgments about the appropriateness of the accounting principles applied and the adequacy of disclosures.<sup>1</sup>

### Engagement Planning Procedures

.02 The accountant should obtain a knowledge of matters that relate to the nature of the entity's business, its organization, and its operating characteristics. Such matters include, for example, the type of business, types of products and services, capital structure, related parties, locations and production, distribution, and compensation methods. The accountant should also consider matters affecting the industry in which the entity operates—such as economic conditions, government regulations, and changes in technology—as they relate to his or her audit. Other matters, such as accounting practices common to the industry, competitive conditions, and, if available, financial trends and ratios, should also be considered by the accountant.

.03 Knowledge of an entity's business is obtained through performing analytical procedures, prior experience with the entity or its industry, and inquiry of the entity's personnel. Working papers from prior years may contain useful information about the nature of the business, organizational structure, operating characteristics, and transactions that may require special consideration. Other sources an accountant may consult include AICPA audit and accounting guides, industry publications, financial statements of other entities in the industry, textbooks, periodicals, and individuals knowledgeable about the industry.

.04 The accountant should give thought to whether specialized skills are needed to consider the effect of computer processing on the audit, to understand the nature of controls or to design and perform audit procedures. If specialized skills are needed, the accountant should seek assistance from a professional who may be or may not be on the accountant's staff. If the use of such a professional is planned, the accountant should have sufficient computer-related knowledge to communicate the objectives of the other professional's work, to evaluate whether the specified procedures will meet the accountant's objectives, and to evaluate

---

<sup>1</sup> See SAS No. 69, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles in the Independent Auditor's Report*, paragraphs 4 and 6 (AU section 411.04 and .06).

the results of the procedures applied as they relate to the nature, timing, and extent of other planned audit procedures. The accountant's responsibilities for using such a professional are equivalent to those for using assistants.<sup>2</sup>

.05 The accountant should consider the methods the entity uses to process information in planning the audit because such methods influence the design of the accounting system and the nature of control procedures. Because of the growth in the use of computers and other information technology, many entities process significant information electronically. In those circumstances, the nature, timing, and extent of audit procedures will be affected in various ways depending upon a number of factors that the auditor should consider, including:

- a. The extent to which computers and other information technology are used in every significant accounting application.
- b. Whether or not the application generates a financial statement line item or provides a basis for an accounting estimate.
- c. The significance of the financial statement line item(s) affected by the client's use of technology.
- d. The controls placed over the application or system.
- e. The effectiveness of the design and operation of those controls.
- f. The complexity of the entity's information technology operations, including the use of an outside service center.<sup>3</sup>
- g. The organizational structure of the information technology activities.
- h. The availability of and access to evidence. Certain electronic evidence may exist at a certain point in time. However, such evidence may not be retrievable after a specified period of time if files are changed and if backup files do not exist.
- i. The use of computer-assisted audit techniques to increase the efficiency of performing audit procedures. Using computer-assisted audit techniques may also provide the accountant with an opportunity to apply certain procedures to an entire population of accounts or transactions. In addition, in some accounting systems, it may be difficult or impossible for the auditor to analyze certain data or test specific control procedures without computer assistance.

---

#### Practice Tip

The AICPA's Auditing Procedure Study entitled, *Auditing With Computers*, provides practical and helpful guidance in using technology to your advantage during an audit. Call the AICPA at 1 (800) 862-4272 and ask for product no. 021057.

---

In addition, certain information generated by the computer for management's internal purposes may be useful in performing substantive tests (particularly analytical procedures).<sup>4</sup>

---

<sup>2</sup> Since the use of a specialist who is effectively functioning as a member of the audit team is not covered by SAS No. 73, *Using the Work of a Specialist* (AU section 336), a computer audit specialist requires the same supervision and review as any assistant.

<sup>3</sup> See SAS No. 70, *Reports on the Processing of Transactions by Service Organizations* (AU section 324), and the related AICPA Auditing Procedure Study, *Implementing SAS No. 70, Reports on the Processing of Transactions by Service Organizations* (product no. 021056), for guidance concerning the use of a service center for computer processing of significant accounting applications.

<sup>4</sup> SAS No. 56, *Analytical Procedures* (AU section 329), describes the usefulness of and guidance pertaining to such procedures.

.06 It is recommended that all procedures discussed in this section be documented in the accountant's work papers. An illustrative planning program for documenting the procedures listed in this section is located in AAM section 3165.

---

*[The next page is 3201.]*

# AAM Section 3125

## *Consideration of Internal Control*

### Introduction

.01 Internal control is broadly defined as a process designed to provide reasonable assurance regarding the achievement of entity objectives. Internal control is accomplished by an entity's board of directors, management, and other personnel.

.02 The above definition reflects certain fundamental concepts:

- *A process.* Internal control is a process. It is not one event or circumstance, but a series of actions that permeate an entity's activities. These actions are pervasive, and are inherent in the way management runs the business.
- *People.* Internal control is effected by people. It is not accomplished by policy manuals and forms, but the people of an organization, what they do and say. People must know their responsibilities and limits of authority.
- *Reasonable assurance.* Internal control, no matter how well designed and operated, can provide only reasonable assurance to management and the board of directors regarding achievement of an entity's objectives.
- *Achievement of objectives.* Internal control is geared to the achievement of entity objectives. The definition of these objectives provides auditors with a useful framework for understanding and analyzing internal controls.

.03 Auditors are required to consider their client's internal control during the planning phase of every audit. SAS No. 55, *Consideration of the Internal Control Structure in a Financial Statement Audit*, as amended by SAS No. 78, *Consideration of Internal Control in a Financial Statement Audit: An Amendment to SAS No. 55* (AU section 319), states the following:

A sufficient understanding of internal control is to be obtained to plan the audit and to determine the nature, timing, and extent of tests to be performed.

.04 As a practical matter, the above requirement raises the following questions.

- What constitutes a "sufficient understanding"? That is, what should an auditor know about the client's internal control?
- How should an auditor obtain this understanding?
- Once an auditor understands the client's internal control, how is that information used to plan the audit?

.05 This section provides answers to each of the above three questions.

### What Auditors Should Understand About Internal Control

.06 A "sufficient" understanding of internal control means:

- An auditor should understand how controls have been designed and whether they have been placed in operation.

- This understanding is generally limited to controls that pertain to the entity's objective of preparing reliable financial statements for external purposes.
- That one objective can be broken into five components, and an auditor should obtain an understanding of each of the five components.

.07 Whether a control has been "placed in operation" is different from its "operating effectiveness." In obtaining knowledge about whether controls have been placed in operation, the auditor determines whether the entity is using them. Operating effectiveness, on the other hand, is concerned with how the control was applied, the consistency with which it was applied, and by whom.

.08 *The Jones family owns and operates several neighborhood grocery stores in Anytown. On a monthly basis, the controller of Jones Grocery performs bank reconciliations for all the bank accounts. For planning purposes, the auditor of Jones Grocery needs to understand whether the controller performs the reconciliations. Not testing, but identifying controls are a key part of audit planning.*

.09 SAS No. 55 (AU section 319), as amended, provides a framework to help auditors obtain their understanding of internal control. That framework is built on two basic concepts: objectives and components.

.10 Internal control is a process designed to provide reasonable assurance regarding the achievement of entity objectives. Entities generally have the following three objectives:

- *Financial reporting.* This objective relates to the preparation of reliable published financial statements.
- *Operations.* This objective relates to effective and efficient use of the entity's resources.
- *Compliance.* This objective relates to the entity's compliance with applicable laws and regulations.

.11 *The bank reconciliation performed by the Jones Grocery controller is an example of a control that relates primarily to the **financial reporting** objective. Jones also has an inventory tracking and management system that allows each store manager to track inventory levels and order new items before they stock-out. This control activity is part of the **operations** objective. Each store also has a small deli that prepares sandwiches and hot entrees. These food preparation activities must comply with state health laws and regulations, and Jones has policies in place to help ensure that those laws and regulations are met. Those policies are directed at the entity's **compliance** objective.*

.12 Generally, relevant controls for an audit relate to the financial reporting objective. Controls relating to operations and compliance objectives that are not relevant to an audit need not be considered.

.13 *The controls having to do with the ordering of inventory or compliance with state health laws and regulations are important to Jones Grocery, but ordinarily will not relate to the audit of the company's financial statement. The auditor of Jones may wish to inquire and document these controls for client service or other purposes, but since these controls are not relevant to the audit, he or she is not required to do so.*

.14 However, if controls relating to operations and compliance objectives pertain to information the auditor evaluates or uses in applying auditing procedures, then they may be relevant to the audit.

.15 For example, the financial reporting system may produce a sales report by inventory stock number for each sales region. If the auditor decided to use information from this report when auditing the proper valuation of inventory, he or she should consider obtaining an understanding of the following:

- Which transactions or classes of transactions are included in the report.
- How significant accounting information about those transactions are entered into and flow through the financial reporting system.
- The files that are processed.

- The nature of processing involved in producing the report.

.16 Controls pertaining to detecting noncompliance with laws and regulations that may have a direct and material effect on the financial statements, such as controls over compliance with income tax laws and regulations used to determine the income tax provision, may be relevant to an audit.

.17 Controls designed to prevent or detect misappropriations of assets may include controls relating to financial reporting and operations objectives. For example, use of a lockbox system for collecting cash or passwords for limiting access to accounts receivable data files may be relevant to a financial statement audit. Conversely, controls to prevent the excess use of materials in production generally are not relevant to a financial statement audit. An auditor's responsibility to understand internal control is generally limited to those controls relevant to the reliability of financial reporting.

.18 An objective is what an entity strives to achieve. But what is needed to achieve that objective?

.19 SAS No. 55 (AU section 319), as amended, provides a framework that separates each financial reporting objective into five components. These components represent what is needed to achieve the entity's objectives. The components of internal control are briefly described as follows:

- *Control environment.* The core of any business is its people—their individual attributes, including integrity, ethical values, and competence—and the environment in which they operate. They are the engine that drives the entity and the foundation on which everything rests.
- *Risk assessment.* The entity must be aware of and deal with the risks it faces. It must set objectives, integrated with the sales, production, marketing, financial, and other activities so that the organization is operating in concert. It also must establish mechanisms to identify, analyze, and manage the related risks.
- *Control activities.* Control policies and procedures must be established and executed to help ensure the actions identified by management as necessary to address risks to achievement of the entity's objectives are effectively carried out.
- *Information and communication.* Surrounding the control activities are information and communication systems, including the financial reporting information system. These systems enable the entity's people to capture and exchange the information needed to conduct, manage, and control its operations.
- *Monitoring.* The entire process must be monitored, and modifications made as necessary. In this way, the system can react dynamically, changing as conditions warrant.

.20 Some control components, for example the control environment, will have a pervasive effect on the entity's activities. Other components, for example control activities, will be directed primarily toward the achievement of one or more of the three objectives described in AAM section 3125.10. Auditors are generally interested only in those components of internal control that have a pervasive effect on the entity and those that are directly related to the reliability of financial reporting.

.21 This internal control framework, the relationship between an entity's objectives and internal control components, is discussed in more detail in AAM section 4200.

.22 The internal control framework described here and in AAM section 4200 is only a means to help auditors consider the impact of an entity's internal control in an audit. An auditor's primary concern is *not* the classification of a specific control into any particular component and related objective. Rather, an auditor's primary concern is whether a specific control affects financial statement assertions.

.23 *Andrea Auditor audits Jones Grocery. As on all audits, she is required to obtain an understanding of internal control sufficient to plan the audit. To achieve this, she organizes her inquiries and other procedures to understand each*

*of the five components of internal control that relate to the financial reporting objective. As a result of performing her procedures, she discovers the client's bank reconciliation procedures. Should a bank reconciliation be considered a "control procedure"? What about the fact that someone follows up and investigates old or unusual reconciling items. Is that considered a "monitoring" activity?*

*.24 The issue of how to classify a particular control is irrelevant for Andrea's purposes. As an auditor, her primary consideration is to understand how the bank reconciliations affect financial statement assertions relating to cash.*

## How an Auditor Obtains an Understanding of Internal Control

*.25 An auditor often obtains an understanding of internal control through previous experience with the entity and the following:*

- Inquiries of appropriate management, supervisory, and staff personnel.
- Inspection of entity documents and records.
- Observation of entity activities and operations.

*.26 Auditors should consider the types of misstatements that occurred in prior audits (e.g., whether they were associated with accounting estimates, whether they were routine errors that resulted from a lack of control consciousness, or whether they resulted from lack of sufficient personnel). This knowledge of prior misstatements can help an auditor focus his or her inquiries on those areas and whether changes have been made to internal control to prevent those misstatements in the future.*

*.27 In a continuing audit, the auditor may already have significant experience with and documentation of internal control. In these situations, this knowledge from previous audits allows the auditor to focus on system changes.*

*.28 Jones Grocery purchased a commercially available software package for independent grocers. During 19X1, Jones installed the general ledger system and the cash receipts/disbursements and accounts payable modules. As part of performing her 19X1 audit, Andrea Auditor obtained an understanding of the software package and the modules that were installed. For her 19X2 audit, Andrea should focus on changes made to the system since 19X1. For example, she might inquire about the installation of other modules (such as inventory) or updated versions of the software package.*

*.29 Some controls are documented in policy and procedure manuals, flowcharts, source documents, journals, and ledgers. In these cases, inspection of the documentation and inquiries of entity personnel may provide a sufficient understanding to plan the audit.*

*.30 When Jones Grocery receives a bill, it is input directly into the accounts payable module of their software package. The computer generates an accounts payable aging and a cash requirements report that indicates when each bill should be paid. The accounts payable module interfaces with the general ledger system to automatically post and update the appropriate general ledger account whenever bills are received or paid. To obtain her understanding of the accounts payable system, Andrea performed a "walk-through." She made inquiries of Jones personnel and obtained copies of bills and the reports generated by the computer. She "walked through" the example bills to see how they were included in the computer reports and how totals from those reports were posted to the general ledger. She also made inquiries related to the completeness assertion, that is, how does Jones ensure that all bills are entered into the system? Andrea observed the Jones employee performing those control procedures.*

*.31 Documentation may not be available for some controls. For example, the understanding of certain aspects of the control environment, such as management integrity, may be obtained through previous experience updated by inquiries of management and observation of their actions. Although documentation may not be available, the auditor is still responsible for documenting his or her understanding of the components of internal control.*

.32 In obtaining an understanding of the design of computer programmed control activities and whether they have been placed in operation, the auditor may make inquiries of appropriate entity personnel and inspect relevant systems documentation to understand control activities design. The auditor may also inspect exception reports generated as a result of such control activities to determine that they have been placed in operation. In actuality, as discussed in AAM section 3125.30, it is possible that the auditor will test controls when obtaining their understanding of internal control.

.33 The auditor's assessment of inherent risk and judgments about materiality for various account balances and transaction classes also affect the nature and extent of the procedure performed to obtain the understanding. For example, the auditor may conclude that planning the audit of the prepaid insurance account does not require specific procedures to obtain an understanding of internal control.

.34 AAM sections 4300 and 4400 contain a series of forms and questionnaires to help auditors perform the procedures to obtain an understanding of internal control.

## Using Internal Control Information to Plan the Audit

.35 Effective audit planning requires the auditor to know what can go wrong in the financial statements. That is, the auditor should identify the types of material misstatements that could occur and assess the risk that they will occur. Understanding the design of internal control and whether it has been placed in operation provides important information about the types and risks of potential material misstatement that could occur in financial statements. The understanding often will affect the auditor's consideration of the significance of fraud risk factors. In addition, when considering the significance of fraud risk factors (see AAM section 3145), the auditor may wish to assess whether there are specific controls that mitigate the risk or whether specific control deficiencies may exacerbate the risk.

*.36 The controller of Jones Grocery performs monthly bank reconciliations, but suppose the controller is not required to follow up on old or unusual reconciling items and that the reconciliation itself is not subject to supervisory review. This is a flaw in the design of internal controls which affects the risk of misstatements occurring in the cash accounts going undetected and increases the risk that a misstatement may not be identified timely.*

.37 Knowledge of internal control is also a primary source of information about the specific processes, methods, records, and reports used in preparing the entity's financial statements. The auditor uses this information to design substantive audit tests.

*.38 In obtaining an understanding of internal control at Jones Grocery, Andrea Auditor determines that the accounting system generates an accounts payable trial balance of all unpaid invoices. This information is useful for Andrea to plan her search for unrecorded liabilities—that is, post-balance sheet disbursements and unpaid invoices will be traced to that report to determine if they have been properly accrued at year end.*

.39 The understanding of internal control is also used by auditors to plan an overall audit *strategy*. There are generally two types of audit strategies:

- A primarily substantive approach (however, see paragraph .40 below), where control risk is assessed at or slightly below the maximum, or
- An approach where control risk is assessed below the maximum.

.40 In entities where significant information is transmitted, processed, maintained, or accessed electronically, the ability to perform an audit consisting entirely of substantive tests may be either absent or ineffective. When using electronic evidence, auditors need to question the appropriateness of the traditional approach

of increasing testing if ineffective controls exist, or if assessed control risk is at the maximum level. **If control risk is assessed at maximum, an auditor who performs only substantive tests of electronic evidence may not be able to obtain sufficient competent evidential matter.** For example, a purchase order transmitted electronically from a customer derives its credibility primarily from the controls within the electronic environment. A fraudulent or altered electronic purchase order exhibits no apparent difference, compared to a valid purchase order, when extracted from the electronic environment of the entity. Without testing the internal control surrounding the electronic evidence, a lack of credibility may not be recognized by the auditor. In such circumstances, the auditor should perform tests of controls surrounding the electronic environment to gather evidential matter to use in assessing control risk, or consider the effect on the auditor's report.

---

### Practice Tip

The AICPA has published a practice aid entitled, *The Information Technology Age: Evidential Matter in the Electronic Environment* (product no. 021068). This publication provides valuable help for practitioners auditing in environments where electronic evidence is significant, by addressing the various issues concerning electronic evidence. Call 1 (800) 862-4272 for more information.

---

.41 When control risk is assessed as below the maximum and it has been determined that reliance on the controls is possible, auditors can modify the nature, timing, and extent of substantive procedures, for example, sample sizes may be reduced or substantive testwork can be performed in advance of the balance sheet date.

.42 The choice of an audit strategy is done at the *assertion* level and is not a global strategy for the entire audit. For some assertions, the auditor may choose a primarily substantive approach (however, see paragraph .40 above), and for other assertions, the auditor may plan to assess control risk below the maximum.

.43 *Andrea Auditor has been the auditor of Jones Grocery for several years. During that time she has helped Jones design and implement the procedures used for the annual inventory count. The count itself is performed by an outside inventory count company that specializes in taking inventory at grocery stores. The outside company is supervised by Jones Grocery employees. Based on this knowledge of the internal controls for the physical inventory count, Andrea plans to assess internal control risk below the maximum for the existence assertion related to inventory.*

.44 In the above example, the audit strategy was determined at the assertion level. The physical count of inventory is a control directly related to the existence assertion. It has little relevance to the valuation assertion and no relevance to the completeness assertion. Thus, the auditor is able to modify tests related to the existence assertion, for example, reducing the number of test counts or stores where inventory is observed. Substantive audit procedures related to other assertions (for example, proper pricing) should not be modified.

## Choosing an Audit Strategy

.45 As described in AAM section 3125.06, on all audits, an auditor is required to understand how controls are designed and whether they have been placed in operation. This understanding is sufficient to plan a primarily substantive audit approach. Nevertheless, even with a primarily substantive approach it is usually necessary to test controls surrounding electronic evidence, given the fact that the competence of electronic evidence usually depends on the effectiveness of internal control over its validity and completeness. See paragraph .40 above.

.46 In order to assess control risk below the maximum, the auditor must also:

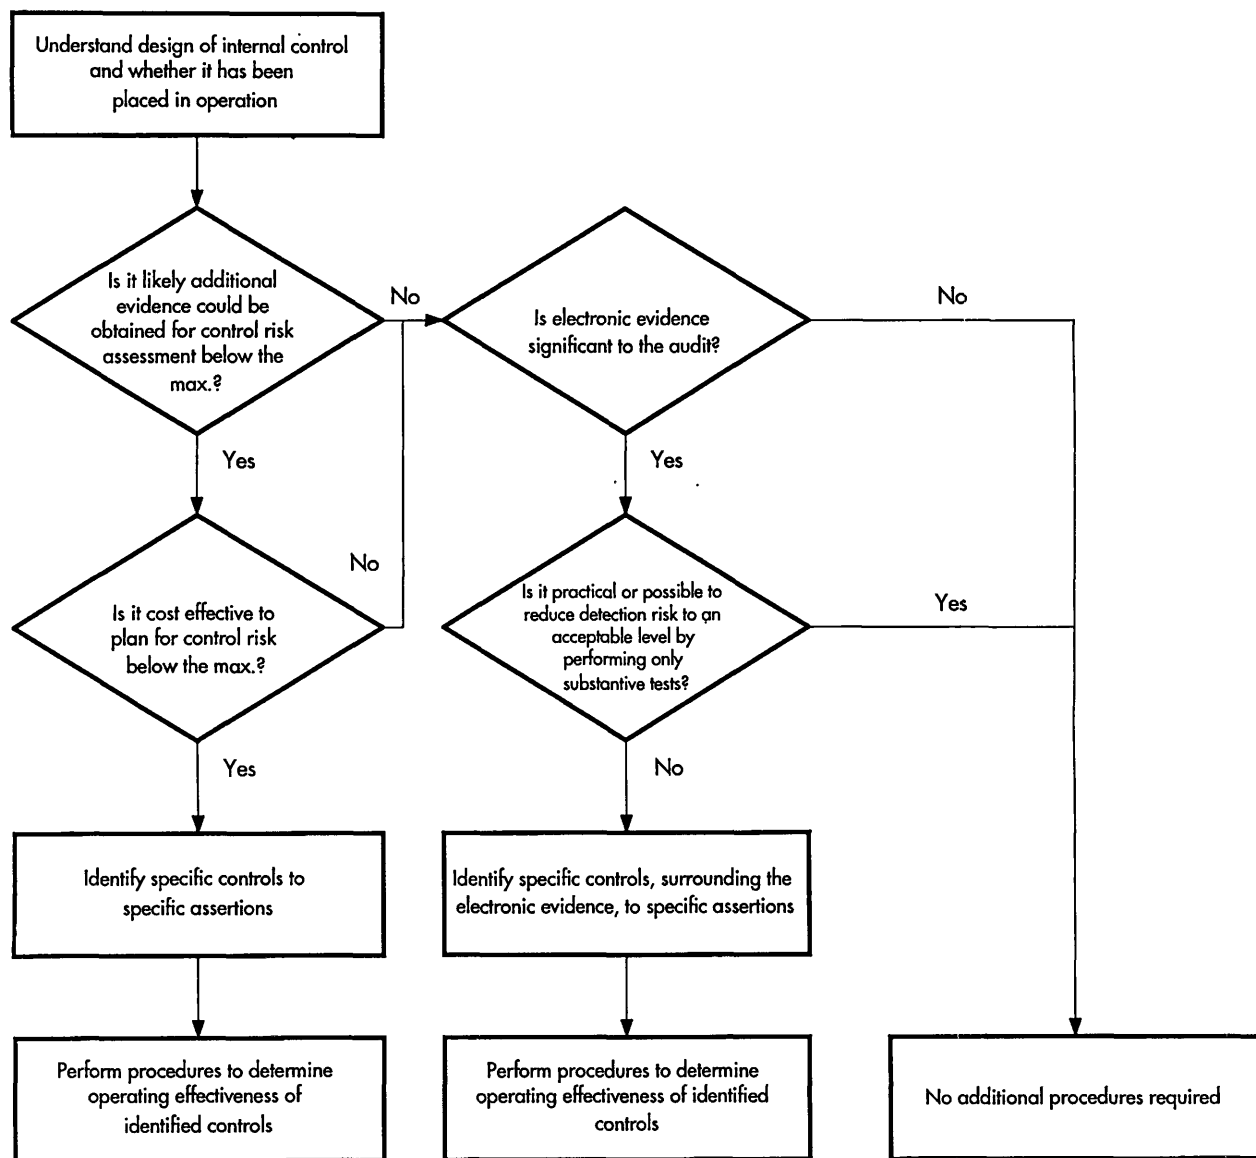

- Identify specific controls relevant to specific assertions that are likely to prevent or detect material misstatements in those assertions, and
- Perform tests of controls to evaluate the effectiveness of such controls.

.47 AAM section 4600 describes in more detail the steps an auditor should take in order to assess control risk below the maximum.

.48 The decision of which audit strategy to pursue is primarily one of audit efficiency. Assessing control risk below the maximum requires the auditor to perform additional procedures to evaluate the effectiveness of controls. However, as a result of assessing control risk below the maximum, the auditor is able to modify his or her substantive tests. In planning the audit, auditors should consider whether the benefits of modifying substantive tests are greater than the costs of performing additional procedures to gauge the effectiveness of controls. Furthermore, as stated above, the appropriateness of relying on substantive tests alone if control risk is assessed at maximum may not be appropriate in environments where electronic evidence is significant.

.49 The following diagram illustrates how an auditor chooses an audit approach.

Lower Control Risk Assessment

Primarily Substantive Approach

## AAM Section 3130

# *Establishing an Understanding With the Client and Preparing an Engagement Letter*

.01 Statement on Auditing Standards (SAS) No. 83, *Establishing an Understanding With the Client* (AU section 310), requires an auditor to gain an understanding with the client regarding the services to be performed for every engagement. The understanding should include the objectives of the engagement, management's responsibilities, the auditor's responsibilities, and limitations of the engagement. Such an understanding reduces the risk that either the auditor or the client may misinterpret the needs or expectations of the other party. The understanding could also include matters such as the timing of field work, report deadlines, and methods of fee determination and payment. The engagement partner should annually confirm an understanding of the nature of the engagement before beginning field work. Such understanding will normally include a pre-engagement client conference.

.02 SAS No. 83 requires the understanding with the client to be documented in the workpapers, preferably through a written communication with the client. There are no authoritative pronouncements requiring a written engagement letter for an audit, although most firms regard their completion as good business practice. An engagement letter helps to prevent misunderstandings between the client and the auditor regarding the services to be provided, including the limitations. The engagement letter also sets forth the responsibilities of the client, and in most states it becomes a legally binding contract on both parties. There are other good reasons to obtain an engagement letter, including the following:

- *Reduce the risk of litigation and avoid misunderstandings with the client.* In today's litigious environment an engagement letter is needed for both old and new clients. To avoid misunderstandings, the engagement letter should describe in detail the services to be rendered, the fee, and other terms and conditions of the engagement. Oral agreements may result in differences of recollection or understanding between the accountant and the client.
- *Avoid misunderstandings by the staff.* The members of the staff working on the engagement must have a complete understanding of what is required of them. A copy of the engagement letter in the working papers provides them with an authoritative reference to supplement their oral instructions.

.03 Often, entities that have never been audited resist signing a client representation letter. To avoid client resistance at the end of the audit, many firms notify the client in the engagement letter that they will be asked to sign a client representation letter.

.04 If the auditor has reason to believe the client may publish all or a portion of an audit report, he should advise the client (preferably in the engagement letter) that firm policy is to read printer's proofs of the report and any other accompanying material. This precaution will protect both the client and accountant against condensation of financial statements, omission of footnotes, erroneous layout, and other errors such as misstatement of figures used in a president's letter, other narrative, or statistics.

.05 The understanding with the client should be obtained and the letter should be prepared before any significant work takes place on the engagement. The partner should personally present the letter to the client to ensure that a complete understanding has been achieved. The understanding or a signed copy of the engagement letter should be filed with the engagement's current working papers and permanent file.

---

### Practice Tip

Be careful when using a proposal or preliminary engagement letter for a client. If the letter describes additional services that are not finally agreed upon, it may be used in litigation as an indication of inadequate performance by you on the engagement. You should always make sure that a final engagement letter is issued in such circumstances.

---

.06 Should the nature of an engagement change during its progress, or should the firm be engaged for additional services during the year, a new engagement letter should be prepared. A step-down to a compilation or review engagement, or a special engagement for preparing a forecast, are examples of changes that would require a new engagement letter. Such changes should be made by the engagement partner after careful consideration of the reasons justifying the change. For example, the reasons justifying a step-down from an audit to a compilation or review may prevent the firm from reporting on the lower level of service.

## Special Considerations

.07 The following matters should be considered while gaining an understanding with the client and while preparing an engagement letter:

- Whether the circumstances preclude an unqualified opinion, as in these examples:
  - The auditor is retained after the beginning of the client's fiscal year, did not observe inventories or confirm receivables at the beginning of the year and was unable to gain satisfaction through application of alternative procedures.
  - The client imposes restrictions on the scope of the audit. (SAS No. 58, *Reports on Audited Financial Statements*, paragraph 42 [AU section 508.42]).
  - Significant litigation or other matters exist which may affect the opinion.
- Whether fee should be stated as a range, in hourly rates, as standard per diem charges for the engagement, or as a maximum or flat fee
- The person or persons to whom reports should be addressed
- The number of copies needed of the report and the people to whom they are to be distributed
- Deadlines for reports or analyses
- Out-of-pocket costs
- Additional work not contemplated in the original engagement
- The condition of records or circumstances other than those contemplated in the engagement letter (for example, deficient internal controls)
- A retainer
- One-time engagements
- Start-up costs when the client changes accountants
- Underwriters' requirements in connection with public offerings
- The part of the work to be done by other accountants

## Contents of Engagement Letters

.08 An understanding with the client and an engagement letter regarding an audit of the financial statements generally includes the following matters:

- The objective of the audit is the expression of an opinion on the financial statements.
- Management is responsible for the entity's financial statements.
- Management is responsible for establishing and maintaining effective internal control over financial reporting.
- Management is responsible for identifying and ensuring that the entity complies with the laws and regulations applicable to its activities.
- Management is responsible for making all financial records and related information available to the auditor.
- At the conclusion of the engagement, management will provide the auditor with a letter that confirms certain representations made during the audit.
- The auditor is responsible for conducting the audit in accordance with generally accepted auditing standards. Those standards require that the auditor obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. Accordingly, a material misstatement may remain undetected. Also, an audit is not designed to detect error or fraud that is immaterial to the financial statements. If, for any reason, the auditor is unable to complete the audit or is unable to form or has not formed an opinion, he or she may decline to express an opinion or decline to issue a report as a result of the engagement.
- An audit includes obtaining an understanding of internal control sufficient to plan the audit and to determine the nature, timing, and extent of audit procedures to be performed. An audit is not designed to provide assurance on internal control or to identify reportable conditions. However, the auditor is responsible for ensuring that the audit committee or others with equivalent authority or responsibility are aware of any reportable conditions which come to his or her attention.

.09 The engagement letter should be addressed to the board of directors, chief executive, or to whomever retained the firm. The engagement partner should sign the letter on behalf of the firm. The client representative responsible for the engagement should sign the letter denoting agreement with the contract. The original letter should be maintained in the engagement workpapers. A copy of the letter should be given to the client.

.10 An understanding with the client and an engagement letter may include other matters, such as the following:

- Arrangements regarding the conduct of the engagement (for example, timing, client assistance regarding the preparation of schedules, and the availability of documents). A client-assistance schedule is often prepared as a separate attachment to the engagement letter.
- Arrangements concerning involvement of specialists or internal auditors.
- Arrangements involving a predecessor auditor.
- Arrangements regarding fees and billing. Estimates of fees should be based on conservative, carefully prepared estimates. The expected billing methods and payment periods should be described.
- Any limitation of or other arrangements regarding the liability of the auditor or the client, such as indemnification to the auditor for liability arising from knowing misrepresentations to the auditor by management (regulators, including the Securities and Exchange Commission, may restrict or prohibit such liability limitation arrangements).
- Conditions under which access to the auditor's workpapers may be granted to others.
- Additional services to be provided relating to regulatory requirements.

- Arrangements regarding other services to be provided in connection with the engagement, such as income tax return preparation or consulting services.
- A description of a particular audit procedure, if requested by the client or deemed necessary for the protection of the auditor. (The detailed audit program should not be made available to client personnel, orally or otherwise.)
- The extent and timing of interim auditing procedures.
- The name of the client's personnel to be contacted during the engagement.

.11 Presented below is a list of analyses, schedules and other items that are often requested from the client prior to the start of an audit engagement. The client assistance schedule should be tailored to each specific engagement.

- The general ledger.
- A reconciliation for each bank account.
- A trade accounts receivable aging.
- Accounts receivable confirmation letters, using drafts to be provided by the accountant.
- A schedule of accounts receivable from officers and employees.
- A schedule of bad debts written off during the year.
- A schedule of notes receivable. The notes should be available for inspection.
- A schedule of transactions with affiliated enterprises.
- An inventory listing.
- An analysis of transactions affecting marketable securities.
- An insurance schedule. The policies should be available for inspection.
- A schedule of property and equipment additions and retirements.
- A depreciation schedule.
- A schedule of life insurance for officers.
- A schedule of accounts payable. The creditor's regular monthly statements for [date] should be retained and made available.
- A schedule of notes payable.
- The corporate stock book and minutes should be up to date and available for inspection.
- A schedule of all transactions to partners' capital and drawing accounts.
- A copy of the partnership agreement or corporate charter should be available for inspection.
- Copies of all leases, including equipment rental contracts, should be available for inspection.
- Copies of employment contracts with salesmen or executives should be available for inspection.
- Copies of pension, profit-sharing, deferred compensation, and stock option agreements, and letters of acceptance from the Treasury Department, should be available for inspection.
- A schedule of repairs in excess of \$ \_\_\_\_\_.
- A schedule of each officer's salary and expense account payments.

- A schedule of contributions.
- A schedule of tax expense.
- A schedule of professional fees.

.12 Following is a list of common engagement letter deficiencies:

- Reference in the letter to audit of the books and records rather than to audit of financial statements
- Adverse comments about other firms
- Failure to specify *in detail* the services to be rendered when a maximum fee is quoted
- Inclusion of a review of internal control as one of the services when what is really intended is a consideration of internal control as required by auditing standards
- Failure to identify accounting or other problems that may have an effect on the opinion
- Failure to change, in writing, the terms of the engagement when conditions are found to be different (such as the inability to express an opinion without extensive additional auditing because internal control was found deficient)
- Failure to include fee basis and payment terms
- Failure to identify subsidiaries
- Failure to identify specific tax returns to be prepared

## Investigatory Procedures for Individuals

.13 When credit information is requested about individuals who are new clients, the investigative procedures are subject to the Fair Credit Reporting Act of 1971.

.14 An individual should be informed in writing that an investigative consumer report, including information about the individual's character, general reputation, personal characteristics, and mode of living is being made. The individual should also be advised, within three days of the time the report is requested, that he or she may within a reasonable time, by written request, be furnished disclosure of the nature and scope of the investigation.

## Sample Engagement Letters

.15 See AAM section 3175 for sample engagement letters.

.16 An Illustrative Planning Program, documenting procedures listed in this section, is located in AAM section 3165.

# AAM Section 3140

## *Assessing Audit Risk and Materiality*

### General

.01 Audit risk and materiality, among other matters, need to be considered together in determining the nature, timing, and extent of auditing procedures and in evaluating the results of those procedures. The existence of audit risk is recognized in the description of the responsibilities and functions of the independent auditor that states, "Because of the nature of audit evidence and the characteristics of fraud, the auditor is able to obtain reasonable, but not absolute, assurance that material misstatements are detected."<sup>1</sup> Audit risk is the risk that the auditor may unknowingly fail to appropriately modify his or her opinion on financial statements that are materially misstated. In other words, audit risk is the risk that the auditor will issue an unqualified opinion on financial statements that are materially incorrect.

.02 Financial statements are **materially** misstated when they contain misstatements whose effect, individually or in the aggregate, are important enough to cause them not to be presented fairly, in all material respects, in conformity with generally accepted accounting principles. Materiality is the criterion used by accountants and auditors to distinguish between unimportant and important matters. The auditor's consideration of materiality is a matter of professional judgment and is influenced by a perception of the needs of a reasonable person who will rely on the financial statements. The perceived needs of a reasonable person are recognized in the discussion of materiality in FASB Concepts Statement No. 2, *Qualitative Characteristics of Accounting Information*, which defines materiality as:

"The magnitude of an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would have been changed or influenced by the omission or misstatement."

### Material Misstatements

.03 Misstatements can result from errors or fraud.<sup>2</sup>

The risk that misstatements will occur results generally from weaknesses in internal control, inherent risks in certain transactions and account balances, material and unusual account balances, and the client's history of misstatements.

.04 Because the auditor's opinion is based on the concept of reasonable assurance, auditors cannot guarantee that financial statements are free from material misstatements due to errors and fraud. However, they must exercise due care in planning, performing, and evaluating the results of the audit and must apply the appropriate level of professional skepticism to achieve reasonable assurance that the material errors and fraud will be detected.

---

<sup>1</sup> See SAS No. 1, sections 110, *Responsibilities and Functions of the Independent Auditor*, as amended by SAS No. 82, and section 230, *Due Professional Care in the Performance of Work* (AU sections 110 and 230), for a further discussion of reasonable assurance.

<sup>2</sup> The auditor's consideration of illegal acts and responsibility for detecting misstatements resulting from illegal acts is defined in SAS No. 54, *Illegal Acts by Clients* (AU section 317). See AAM section 3150, *Illegal Acts*. For those illegal acts that are defined in that Statement as having a direct and material effect on the determination of financial statement amounts, the auditor's responsibility to detect misstatements resulting from such illegal acts is the same as that for errors or fraud.

.05 In planning auditing procedures, the auditor should also consider the nature, cause (if known), and amount of misstatements that he is aware of from the audit of the prior period's financial statements.

## Errors and Fraud

.06 The term "errors" refers to unintentional misstatements or omissions of amounts or disclosures in financial statements. Errors may involve—

- Mistakes in gathering or processing information from which financial statements are prepared.
- Unreasonable accounting estimates arising from oversight or misinterpretation of facts.
- Mistakes in the application of accounting principles relating to amount, classification, manner of presentation, or disclosure.

.07 See AAM section 3145 for a discussion on fraud.

.08 When considering the auditor's responsibility to obtain reasonable assurance that the financial statements are free from material misstatement, there is no important distinction between errors and fraud. There is a distinction, however, in the auditor's response to detected misstatements. Generally, an isolated, immaterial error in processing accounting information or applying accounting principles is not significant to the audit. In contrast, when fraud is detected, the auditor should consider the implications for the integrity of management or employees and the possible effect on other aspects of the audit.

## Consideration at the Financial Statements Level

.09 The auditor should plan the audit so that audit risk will be limited to a low level that is, in his professional judgment, appropriate for expressing an opinion on the financial statements. Audit risk may be assessed in quantitative or nonquantitative terms.

.10 An assessment of the risk of material misstatement (whether caused by error or fraud) should be made during planning. The auditor's understanding of internal control may heighten or mitigate the auditor's concern about the risk of material misstatement. The auditor should specifically assess the risk of material misstatement of the financial statements due to fraud (see AAM section 3145). The auditor should consider the effect of these assessments on the overall audit strategy and the expected conduct and scope of the audit.

.11 Whenever the auditor has concluded that there is significant risk of material misstatement of the financial statements, the auditor should consider this conclusion in determining the nature, timing, or extent of procedures; assigning staff; or requiring appropriate levels of supervision. Ordinarily, higher risk requires more experienced personnel or more extensive supervision. Higher risk may cause the auditor to expand the extent of procedures applied, apply procedures closer to or as of the balance-sheet date, or modify the nature of procedures.

## Materiality

.12 In planning the audit, the auditor should use his or her judgment as to the appropriately low level of audit risk and his or her preliminary judgment about materiality levels in a manner that can be expected to provide, within the inherent limitations of the auditing process, sufficient evidential matter to obtain reasonable assurance about whether the financial statements are free of material misstatement. Materiality levels include an overall level for each financial statement; however, because the statements are interrelated, and for reasons of efficiency, the auditor ordinarily considers materiality for planning purposes in terms of the smallest aggregate level of misstatements that could be considered material to any one of the financial

statements. Accordingly, auditors should establish a preliminary materiality threshold for the purpose of planning the appropriate auditing procedures to detect material misstatements in the financial statements.

.13 The auditor plans the audit to obtain reasonable assurance of detecting misstatements that he or she believes could be large enough, individually or in the aggregate, to be quantitatively material to the financial statements. Although the auditor should be alert for misstatements that could be qualitatively material, it ordinarily is not practical to design procedures to detect them. Obviously, some misstatements could be included in the financial statements without precluding the auditor from expressing an opinion that the financial statements are fairly presented in all material respects in conformity with generally accepted accounting principles. In determining the materiality of an item, the auditor should consider the nature and amount of the item in relation to the financial statements being audited.

.14 In some situations, the auditor considers materiality for planning purposes before the financial statements to be audited are prepared. In other situations, planning takes place after the financial statements under audit have been prepared, but the auditor may be aware that they require significant modification. In both types of situations, the auditor's preliminary judgment about materiality might be based on the entity's annualized interim financial statements or financial statements of one or more prior annual periods, as long as recognition is given to the effects of major changes in the entity's circumstances and relevant changes in the economy as a whole or the industry in which the entity operates.

.15 In planning, the auditor cannot anticipate all the factors that will ultimately influence judgment about materiality in the evaluation of audit findings at the completion of the audit. Thus, materiality in planning may differ from materiality used in evaluating results at the conclusion of the audit. If the materiality amount used in evaluating audit findings is reduced significantly from the amount used in planning, the auditor should reevaluate the sufficiency of the auditing procedures that were performed.

## Quantifying Materiality

.16 Although no authoritative body has established specific guidelines for materiality, there are certain rules of thumb that can be used in making a preliminary assessment of materiality.

.17 Generally, materiality guidelines should be relative rather than absolute. In other words, materiality is usually set as a percentage rather than as an absolute amount. For example, an absolute amount such as \$100,000 may be immaterial to a large, multinational corporation but very material to a small, closely held company. To apply percentage guidelines, auditors must determine what base to use. Generally, auditors select a base that is relatively stable and predictable. Bases commonly used include income before taxes, revenues, and total assets. Generally, misstatements become material to income before they become material to the balance sheet. As a consequence, net income before taxes is often selected as the base.

.18 In small business audits, auditors sometimes make a number of significant audit adjustments. Thus, income before taxes may vary too much to be useful as a base. When income before taxes is not used as a base, auditors sometimes use either total revenue or an average of net income for several prior periods.

## Example

.19 A common rule of thumb for materiality is 5 to 10 percent of pretax income. Some auditors apply this rule of thumb so that items less than 5 percent of normal pretax income are considered immaterial, whereas items that are more than 10 percent are material. For items between 5 and 10 percent, judgment is applied. For example, when unusual factors exist (perhaps the company is about to be sold for a multiple of audited earnings) auditors would tend to classify items between 5 and 10 percent as material. Others use 1 or 1.5 percent of the larger of total assets or revenues. (See Exhibit 1 for a sample planning materiality worksheet.)

**Exhibit 1**

	<u>Initials</u>	<u>Date</u>
Done	_____	_____
Reviewed	_____	_____
Client Name		
Planning Materiality Worksheet		
Balance Sheet Date		
1. Unaudited total assets at balance sheet date		_____
2. Unaudited total revenues at balance sheet date		_____
3. Select the larger of line 1 or line 2		_____
4. Select a multiplier if audit risk is normal, or, if better than normal, select .01		_____
5. Multiply line 3 by line 4		_____
6. Unaudited pretax income (or equivalent if not a for-profit entity)		_____
7. Select a multiplier if audit risk is normal, or, if better than normal, select .1		_____
8. Multiply line 6 by line 7		_____
9. Evaluate line 5 and line 8 along with other relevant factors and determine materiality for audit planning purposes		_____

.20 Consideration of which base to use should include such factors as income variability and the nature of the client's business and industry. For a not-for-profit organization, for example, the auditor would probably use total assets or revenues as a base, since pretax income is not meaningful.

.21 A sample checklist documenting procedures listed in this section is located in AAM section 3165.

## **Consideration at the Individual Account-Balance or Class-of-Transactions Level**

.22 The auditor needs to consider audit risk at the individual account-balance or class-of-transactions level because such consideration directly assists in determining the scope of auditing procedures for the balance or class and related assertions. The auditor should seek to restrict audit risk at the individual balance or class level in such a way that will enable him or her, at the completion of the audit, to express an opinion on the financial statements taken as a whole at an appropriately low level of audit risk. Auditors use various approaches to accomplish their objective.

.23 In determining the nature, timing, and extent of auditing procedures to be applied to a specific account balance or class of transactions, the auditor should design procedures to obtain reasonable assurance of detecting misstatements that he or she believes, based on the preliminary judgment about materiality,

could be material, when aggregated with misstatements in other balances or classes, to the financial statements, taken as a whole. Auditors use various methods to design procedures to detect such misstatements. In some cases, auditors explicitly estimate, for planning purposes, the maximum amount of misstatements in the balance or class, that, when combined with misstatements in other balances or classes, could exist without causing the financial statements to be materially misstated. In other cases, auditors relate their preliminary judgment about materiality to a specific account balance or class of transactions without explicitly estimating such misstatements.

## Components of Risk

**.24** At the account-balance or class-of-transaction level, audit risk consists of:

- a.* The risk (consisting of inherent risk and control risk) that the balance or class and related assertions contain misstatements (whether caused by error or fraud) that could be material to the financial statements when aggregated with misstatements in other balances or classes, and
- b.* The risk (detection risk) that the auditor will not detect such misstatements.

The way the auditor considers these component risks and combines them involves professional judgment and depends on the audit approach.

**.25 *Inherent risk*** is the susceptibility of an assertion to a material misstatement, assuming that there are no related controls. The risk of such misstatement is greater for some assertions and related balances or classes than for others. For example, complex calculations are more likely to be misstated than simple calculations. Cash is more susceptible to theft than an inventory of coal. Accounts consisting of amounts derived from accounting estimates pose greater risks than do accounts consisting of relatively routine, factual data. External factors also influence inherent risk. For example, technological developments might make a particular product obsolete, thereby causing inventory to be more susceptible to overstatement. In addition to those factors that are peculiar to a specific assertion for an account balance or a class of transactions, factors that relate to several or all of the balances or classes may influence the inherent risk related to an assertion for a specific balance or class. These later factors include, for example, a lack of sufficient working capital to continue operations or a declining industry characterized by a large number of business failures.

**.26 *Control risk*** is the risk that a material misstatement that could occur in an assertion will not be prevented or detected on a timely basis by the entity's internal control. That risk is a function of the effectiveness of the design and operation of internal control in achieving the entity's objectives relevant to preparation of the entity's financial statements. Some control risk will always exist because of the inherent limitations of internal control.

**.27 *Detection risk*** is the risk that the auditor will not detect a material misstatement that exists in an assertion. Detection risk is a function of the effectiveness of an auditing procedure and of its application by the auditor. It arises partly from uncertainties that exist when the auditor does not examine 100 percent of an account balance or a class of transactions and partly because of other uncertainties that exist even if he were to examine 100 percent of the balance or class. Such other uncertainties arise because an auditor might select an inappropriate auditing procedure, misapply an appropriate procedure, or misinterpret the audit results. These other uncertainties can be reduced to a negligible level through adequate planning and supervision and conduct of a firm's audit practice in accordance with appropriate quality control standards.

**.28** Inherent risk and control risk differ from detection risk in that they exist independently of the audit of financial statements. Inherent risk and control risk are functions of the client and its environment, regardless of whether an audit is conducted. Detection risk, on the other hand, relates to the auditor's procedures and can be changed at the auditor's discretion. These components of audit risk may be assessed

in quantitative terms such as percentages or in nonquantitative terms that range, for example, from a minimum to a maximum (e.g., low, moderate, high).

## Risk Assessment

.29 The process of assessing risk is aimed at evaluating the risk of the financial statements being materially misstated. During planning, the auditor considers numerous factors—risk at the financial statement level and at the account-balance and class-of-transaction level, inherent risk, control risk, materiality, risk of material misstatement due to fraud, preliminary analytical review, and other matters as appropriate and in accordance with his or her judgment. An audit strategy is devised and carried out. Reliance on and testing of internal control may or may not be a part of that strategy. Based on the outcome of any internal control testing, the nature, timing and extent of substantive tests are reassessed and possibly changed. Substantive tests are performed. At the end of the audit, the auditor considers the audit procedures performed and their results and evaluates the chance that material misstatements have gone undetected by his or her audit procedures. Generally, in an audit that is adequately planned and performed, the auditor will be able to conclude that the risk of the financial statements being materially misstated is acceptably low enough for an unqualified opinion to be issued.

.30 The auditor might make separate or combined assessments of inherent risk and control risk. If the auditor considers inherent risk or control risk, separately or in combination, to be less than the maximum, he should have an appropriate basis for these assessments. This basis may be obtained, for example, through the use of questionnaires, checklists, instructions, or similar generalized materials and; in the case of control risk, the understanding of internal control and the performance of suitable tests of controls. However, professional judgment is required in interpreting, adapting, or expanding such generalized material as appropriate in the circumstances.

.31 In planning the audit engagement, the auditor should assess inherent risk and control risk to determine how much detection risk can be accepted while still restricting audit risk to an acceptably low level. As the auditor's assessment of inherent risk and control risk decreases, the acceptable level of detection risk increases. The auditor should not rely on the assessments of inherent risk and control risk to the exclusion of performing substantive tests. In fact, for a small business with limited segregation of duties, the auditor often assesses inherent risk and control risk at their maximum and relies completely on substantive tests to reduce audit risk to an acceptably low level.

## Quantifying Risk

.32 The auditor's assessment of risk and its components of inherent risk, control risk, and detection risk are matters of professional judgment. The types of risk discussed above are difficult to quantify, given their subjective nature. Most auditors use ratings such as low, moderate, or high when judging risk levels.

.33 Generally accepted auditing standards do not require the auditor to quantify risks. Those standards require the auditor to plan the audit so that there is a low level of risk that an unqualified opinion will be expressed when the financial statements are materially misstated.

## Evaluating Audit Findings

.34 In evaluating whether the financial statements are presented fairly, in all material respects, in conformity with generally accepted accounting principles, the auditor should aggregate misstatements that the entity has not corrected in a way that enables him or her to consider whether, in relation to individual amounts, subtotals, or totals in the financial statements, they materially misstate the financial statements taken as a whole. Qualitative considerations also influence the auditor in reaching a conclusion as to whether misstatements are material.

## Likely Misstatements

.35 The auditor's best estimate of the total misstatements in the account balances or classes of transactions that he or she has examined is referred to as "likely misstatements."

.36 When the auditor tests an account balance or a class of transactions and related assertions by an analytical procedure, he or she ordinarily would not specifically identify misstatements but would only obtain an indication of whether a misstatement might exist in the balance or class and possibly its approximate magnitude. If the analytical procedure indicates that a misstatement might exist, but not its approximate amount, the auditor ordinarily would have to employ other procedures to enable him to estimate the likely misstatement in the balance or class.

.37 When an auditor uses audit sampling to test an assertion for an account balance or a class of transactions, he or she projects the amount of known misstatements identified in the sample to the items in the balance or class from which the sample was selected. For example, if a \$1,000 loan receivable misstatement is found in a sample of 10 percent of the population, the projected misstatement would be \$10,000. That projected misstatement also contributes to the auditor's assessment of likely misstatement.

.38 When auditing accounting estimates (e.g., allowance for inventory obsolescence, allowance for doubtful accounts, warranty obligations, etc.) the audit evidence gathered may support an amount for an estimate different from the amount the client has recorded. That difference may be considered reasonable by the auditor inasmuch as no one accounting estimate can be considered accurate with certainty. In that case, the difference between the estimate that the audit evidence supports and the estimate recorded in the financial statements would not be considered a likely misstatement. However, if the auditor believes the estimated amount included in the financial statements is unreasonable, he or she should treat the difference between that estimate and the closest reasonable estimate as a likely misstatement.

## Known Misstatements

.39 "Known misstatements" are those for which the amount of the error is relatively certain. Such misstatements are often supported by highly reliable evidence, such as third-party documents. An example of a known misstatement would be a failure to record an invoice for repairs expense.

## Misstatements From the Prior Year

.40 Often overlooked is the consideration of misstatements detected in the prior year that affect the current year. For example, assume last year's aggregation of uncorrected misstatements included an item representing an overstatement of prepaid insurance and an understatement of insurance expense. This item would be included in the current year's aggregation of uncorrected misstatements because it affects the current year's insurance expense. Therefore, the prior year's aggregation of uncorrected misstatements should be reviewed for any items that may have an effect on the current year's financial statements.

## Summarizing and Evaluating Misstatements

.41 Most firms prepare a summary of the uncorrected misstatements identified during the audit. This summary may be called the "Summary of Misstatements," or the "Summary of Possible Journal Entries," or other names. The summary presents known, likely, and prior period misstatements separately. The summary is used in evaluating the effect of uncorrected misstatements on the financial statements at the end of the audit.

.42 Some firms establish a predetermined dollar threshold below which misstatements need not be accumulated. This amount should be set so that any such misstatements, either individually, or when aggregated with other such misstatements, would not be material to the financial statements, after the possibility of further undetected misstatements is considered.

.43 Concluding on the effect of misstatements on the financial statements is a matter of judgment and generally involves considering the nature of the misstatements; overall materiality, and their impact on the financial statements taken as a whole.

.44 If the auditor concludes, based on the accumulation of sufficient evidential matter, that the aggregation of uncorrected misstatements causes the financial statements to be materially misstated, the auditor should request management to eliminate the material misstatement. If the material misstatement is not eliminated, the auditor should issue a qualified or an adverse opinion on the financial statements.

## Special Concern—The Year 2000 Issue

### Background

.45 The Year 2000 (Y2K) Issue consists of two shortcomings of many electronic data processing systems that make them unable to process year-date data accurately beyond the year 1999 A.D. It is a broad business and operational problem, as well as an accounting systems problem.

.46 The first shortcoming is that, in the past, computer programmers have consistently abbreviated dates by eliminating the first two digits of the year under the assumption that these two digits would always be 19. Thus, January 1, 1965, became 01/01/65. Unless corrected, this shortcut is expected to create widespread problems when the clock strikes 12:00:01 A.M. on January 1, 2000. On that date, some computer programs may recognize the date as January 1, 1900, and process data inaccurately or stop processing altogether.

.47 The second shortcoming is that the algorithm used in some computers for calculating leap years is unable to detect that the year 2000 A.D. is a leap year. Therefore, systems that are not year 2000 compliant may not register the additional day, and date calculations may be incorrect.

.48 The Y2K Issue also may affect computer applications before January 1, 2000. Failures are expected to occur when systems attempt to perform calculations into the year 2000 (for example, some entities may not be able to process a credit card that expires in the year 2000 or beyond).

.49 In addition, some software programs use several dates in the year 1999 to mean something other than the date. Examples of such dates are 01/01/99, 09/09/99, and 12/31/99. As systems process information using these dates, they may produce erratic results or stop functioning.

.50 The Year 2000 Issue may affect software that is used to control operating equipment, operating systems, database and other information systems, and hardware that is dependent on microchips. The largest area of exposure for many entities is thought to be mainframes, because many of these use older software programs. For other entities, the largest area of exposure may be their operational activities (including production, service, and security activities).

.51 With planning and timely action by management, problems associated with the Y2K Issue may be mitigated or avoided.

.52 An entity should consider whether the Y2K Issue will adversely affect its suppliers' ability to manufacture or make timely deliveries of products or key components of the entity's products. It also should consider whether the Y2K Issue will adversely affect service providers that perform activities that have been outsourced to them. Additionally, if an entity's systems electronically communicate with other entities' systems (for example, through electronic data interchange or electronic funds transfers), the entity should consider the effect of the Year 2000 Issue on these communications.

.53 In summary, the Year 2000 Issue has the potential to affect any entity's accounting and information systems, the ability to manufacture its products or to deliver its services, and other aspects of its day-to-day operations on or before the year 2000. Entities must assess their year 2000 preparedness well in advance of January 1, 2000, and make year 2000 compliance a priority. If an entity has not yet begun to evaluate the possible effects of the Y2K Issue on its systems, new and old, it should begin the process immediately and implement corrective measures as soon as possible. The compliance efforts should include assessing the possible effects of the Y2K Issue on an entity's significant vendors and customers and taking any necessary actions.

## Implications for Auditors

.54 The auditor has a responsibility to plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. Thus, the auditor's responsibility relates to the detection of material misstatement of the financial statements being audited, whether caused by the Y2K Issue or by some other cause. The auditor also has a responsibility to evaluate whether there is substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time following the date of the financial statements being audited. To assist auditors in applying current auditing standards in light of the Y2K issue, the Audit Issues Task Force (AITF) of the AICPA's Auditing Standards Board (ASB) has issued the following interpretations:

- Interpretation No. 4 of SAS No. 22, *Planning and Supervision*, "Audit Considerations for the Year 2000 Issue" (AU section 9311.38), provides guidance concerning:
  - The auditor's responsibility regarding the Y2K issue.
  - The impact of the Y2K issue on planning a financial statement audit conducted in accordance with generally accepted auditing standards.
  - The auditor's responsibilities when, during the course of an audit, he or she becomes aware of a Y2K issue that could adversely affect the organization's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements in periods subsequent to the period under audit.
- Interpretation No. 2 of SAS No. 59, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, "Effect of the Year 2000 Issue on the Auditor's Consideration of an Entity's Ability to Continue as a Going Concern" (AU section 9341.03), provides guidance to auditors regarding the identification and evaluation of conditions and events of the type identified in SAS No. 59 that relate to the Y2K issue. As with the Interpretation of SAS No. 22, this Interpretation incorporates the underlying concept that the auditor does not have to plan and perform procedures solely to identify the conditions and events relating to the Y2K issue. Rather, the auditing procedures performed in planning, gathering evidential matter, and completing the audit are sufficient for identifying conditions and events relating to the Y2K issue.
- Interpretation No. 3 of SAS No. 70, *Reports on the Processing of Transactions by Service Organizations*, "Responsibilities of Service Organizations and Service Auditors With Respect to Information About the Year 2000 Issue in a Service Organization's Description of Controls" (AU section 9324), provides guidance concerning:
  - The type of information about controls at a service organization related to the Y2K issue that would be considered relevant to user organizations and, therefore, should be included in a service organization's description of controls.
  - The service auditor's procedural and reporting responsibilities when relevant information about the Y2K issue is included in or omitted from the service organization's description of controls.
  - Clarification of the service auditor's responsibility, under SAS No. 70, to identify design deficiencies that do not affect processing during the period covered by the service auditor's examination, but may represent potential Y2K problems.

- Clarification about including in the service organization's description of controls information about the service organization's plans to modify its systems to address the Y2K issue.
- The service auditor's procedural and reporting responsibilities if a service organization includes information or a control objective in its description of controls that addresses its plans to modify its systems in response to the Y2K issue.
- Clarification about whether a service auditor's report may be expanded to describe the risk of projecting conclusions to future periods because of a failure to make needed systems changes in response to the Y2K issue.

.55 In addition, the AITF issued Interpretation No. 1 of SSAE No. 8, *Management's Discussion and Analysis*, "Consideration of the Year 2000 Issue When Examining or Reviewing Management's Discussion and Analysis" (AT section 9700.01). This Interpretation discusses the practitioner's responsibilities with respect to the Y2K disclosures in an examination or review of MD&A performed in accordance with SSAE No. 8.

.56 For a complete explanation of the Y2K Issue and an explanation of an auditor's related responsibilities, see the publication entitled *The Year 2000 Issue—Current Accounting and Auditing Guidance*, which can be found on the AICPA's Web site. A questionnaire is included at AAM section 3165.13 to help auditors obtain an understanding of their client's Year 2000 compliance efforts. Additionally, practitioners should consult the most recent AICPA *General Audit Risk Alert* [AAM section 8010] for the latest update on the Year 2000 Issue.

---

# AAM Section 3145

## *Fraud*

### General

.01 SAS No. 1, section 110, *Responsibilities and Functions of the Independent Auditor*, as amended by SAS No. 82, *Consideration of Fraud in a Financial Statement Audit* [appendix A] (AU section 110), states that “The auditor has a responsibility to plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or *fraud*.” Management is responsible for the prevention and detection of fraud. That responsibility is described in paragraph 3 of SAS No. 1, section 110 (AU section 110.03).

.02 An auditor’s responsibilities relating to fraud are stated within the context of materiality to the financial statements taken as a whole. An auditor is not responsible for detecting fraud *per se*, but for obtaining reasonable assurance that *material* misstatements caused by fraud are detected. An auditor is not responsible for detecting immaterial misstatements caused by fraud. To fulfill his or her responsibilities related to fraud, an auditor is required by SAS No. 82 (AU section 316) to:

- Consider the presence of fraud risk factors during all stages of the audit process.
- Based on the risk factors present, make an assessment of the risk of material misstatement due to fraud.
- Based on that assessment, develop an appropriate response.

### Description and Characteristics of Fraud

.03 The primary factor that distinguishes fraud from error is whether the underlying action that results in the misstatement in financial statements is intentional or unintentional. Fraud frequently involves a pressure or an incentive to commit fraud and a perceived opportunity to do so. Fraud may be concealed through falsified documentation, including forgery, and it may be concealed through collusion among management, employees, or third parties. Two types of misstatements are relevant to the auditor’s consideration of fraud in a financial statement audit—misstatements arising from fraudulent financial reporting, and misstatements arising from misappropriation of assets.

### Misstatements Arising From Fraudulent Financial Reporting

.04 Misstatements arising from fraudulent financial reporting are intentional misstatements or omissions of amounts or disclosures in financial statements to deceive financial statement users. Fraudulent financial reporting may involve acts such as the following:

- Manipulation, falsification, or alteration of accounting records or supporting documents from which financial statements are prepared.
- Misrepresentation in, or intentional omission from, the financial statements of events, transactions, or other significant information.
- Intentional misapplication of accounting principles relating to amounts, classification, manner of presentation, or disclosure.

## Misstatements Arising From Misappropriation of Assets

.05 Misstatements arising from misappropriation of assets involve the theft of an entity's assets where the effect of the theft causes the financial statements not to be presented in conformity with generally accepted accounting principles. Misappropriation can be accomplished in various ways, including embezzling receipts, stealing assets, or causing an entity to pay for goods or services not received. Misappropriation of assets may be accompanied by false or misleading records or documents and may involve one or more individuals among management, employees, or third parties.

## Considering the Presence of Fraud Risk Factors

.06 Although fraud usually is concealed, the presence of risk factors or other conditions may alert the auditor to a possibility that fraud may exist. An auditor should become familiar with these risk factors and be alert to their presence at their clients. It is important to remember that the presence of risk factors or other conditions may be the result of circumstances *other than fraud*. Also, risk factors and conditions will be present in entities where the specific circumstances do not present a risk of material misstatement. Finally, specific controls may exist which mitigate the risk of material misstatement due to fraud, even though risk factors or conditions are present.

.07 In fulfilling his or her responsibilities relating to fraud, an auditor should begin by identifying the presence of fraud risk factors. Fraud risk factors may be identified while performing procedures relating to acceptance or continuance of clients and engagements, during engagement planning or while obtaining an understanding of an entity's internal control, or while conducting fieldwork. SAS No. 82 (AU section 316) lists example fraud risk factors arranged in various categories. An auditor is not required to consider all of the risk factors listed in SAS No. 82 (AU section 316) since not all of the examples are relevant in all circumstances. Professional judgment should be used in determining which example risk factors are relevant in a specific audit engagement. An auditor *is required* to consider fraud risk factor categories that embody the substance of the categories listed in SAS No. 82 (AU section 316). These categories are:

## Misstatements Arising From Fraudulent Financial Reporting

.08

- *Management's Characteristics and Influence Over the Control Environment.* These pertain to management's abilities, pressures, style, and attitude relating to internal control and the financial reporting process.
- *Industry Conditions.* These involve the economic and regulatory environment in which the entity operates.
- *Operating Characteristics and Financial Stability.* These pertain to the nature and complexity of the entity and its transactions, the entity's financial condition, and its profitability.

## Misstatements Arising From Misappropriation of Assets

.09

- *Susceptibility of Assets to Misappropriation.* These pertain to the nature of an entity's assets and the degree to which they are subject to theft.
- *Controls.* These involve the lack of controls designed to prevent or detect misappropriations of assets.

---

### Practice Tip

Identifying fraud risk factors, assessing fraud-related risk and complying with your responsibilities under SAS No. 82 (AU section 316) can be challenging. Valuable help can be found in the AICPA's practice aid, *Considering Fraud in a Financial Statement Audit: Practical Guidance for Applying SAS No. 82* (product no. 008883). This plain-speaking publication walks you through the issues likely to be encountered and provides valuable tools, such as sample documentation, descriptions of common frauds, and extended audit procedures. It also includes specific guidance on applying its concepts to eleven different industries, including specific *fraud risk factors tailored to those industries*. To obtain this worthwhile publication call the AICPA Order Department at 1 (800) 862-4272.

---

.10 Auditors should actively seek out the presence of fraud risk factor categories described above, or different categories with the same substance. Fraud risk factors can be identified by any audit team member at any stage of the audit. For that reason, it is important that all engagement members be properly trained to identify fraud risk factors when they are present.

## Assessment of Risk of Material Misstatement Due to Fraud

.11 The auditor should specifically assess the risk of material misstatement of the financial statements due to fraud and should consider that assessment in designing the audit procedures to be performed. In making this assessment, the auditor should consider identified fraud risk factors which relate to the categories presented above. As part of the risk assessment, the auditor also should inquire of management (a) to obtain management's understanding regarding the risk of fraud in the entity and (b) to determine whether they have knowledge of fraud that has been perpetrated on or within the entity.

.12 The assessment of risk of material misstatement due to fraud, although a separate process, can be performed in conjunction with the assessments of inherent risk and control risk, since many of the example fraud risk factors listed in SAS No. 82 (AU section 316) are similar to the factors an auditor would consider when assessing inherent and control risk.

.13 Assessing the risk of material misstatement due to fraud is a cumulative process that includes a consideration of risk factors individually and in combination, using professional judgment. Fraud risk factors cannot be easily ranked in order of importance or combined into effective predictive models. The size, complexity, and ownership characteristics of the entity have a significant influence on the consideration of relevant risk factors. The auditor's understanding of the entity's internal control will also affect his or her consideration of the significance of fraud risk factors. Additionally, if the entity has established a program that includes steps to prevent, deter, and detect fraud, the auditor may consider its effectiveness.

.14 After an assessment of the risk of material misstatement due to fraud is made, other conditions (such as discrepancies in the accounting records, conflicting or missing evidential matter, or problematic or unusual relationships between the auditor and client) may be identified during fieldwork that change or support an auditor's judgment regarding that assessment.

## The Auditor's Response

.15 After an assessment of the risk of material misstatement due to fraud is made, a suitable audit response must be developed. As with other risk assessments, the greater the risk, the more extensive the audit procedures need to be in order to obtain reasonable assurance that the financial statements are free of material misstatement. In some cases, even though fraud risk factors have been identified, the auditor's judgment may be that audit procedures otherwise planned are sufficient to respond to the risk factors. In other circumstances, the auditor may conclude that the conditions indicate a need to modify procedures. In these circumstances, the auditor's response can be (1) an overall response, (2) a response that is specific to a particular account balance, class of transaction, or assertion, or (3) a combination of (1) and (2).

## Overall Response

.16 An auditor may perform an overall response to the risk of material misstatement due to fraud in the following ways:

- *Professional Skepticism.* An auditor may heighten his or her professional skepticism by (1) increasing sensitivity in the selection of the nature and extent of documentation to be examined, and by (2) increasing recognition of the need to corroborate management's explanations or representations.
- *Assignment of Personnel.* Decisions regarding the qualifications of the staff performing the audit work and the level of supervision required should take into account the assessment of the risk of material misstatement due to fraud.
- *Accounting Principles and Policies.* The auditor may intensify his or her consideration of the appropriateness of accounting principles selected and policies adopted by management in light of the fraud risk assessment.
- *Controls.* When a risk of material misstatement due to fraud relates to risk factors that have control implications, the auditor's ability to assess control risk below the maximum may be reduced. An auditor should understand and consider any controls (or lack thereof) the entity has in place to address the identified fraud risk factors. Management's ability to override such controls should also be considered.

.17 Additionally, in an overall response the *nature* of audit procedures performed may need to be changed to obtain evidence that is more reliable or to obtain additional corroboration. Also, the *timing* of substantive tests may need to be altered to be closer to or at year end. Finally, the *extent* of the procedures applied should reflect the assessment of the risk of material misstatement due to fraud.

## Account Balance, Class of Transactions, Assertion Level Response

.18 Specific responses to the auditor's assessment of the risk of material misstatement due to fraud will vary depending upon the types or combinations of fraud risk factors or conditions identified and the account balances, classes of transactions, and assertions they may affect. If these factors or conditions indicate a particular risk applicable to specific account balances or types of transactions, audit procedures addressing these specific areas should be considered that will, in the auditor's judgment, limit audit risk to an appropriate level in light of the risk factors or conditions identified. Presented below are some examples of specific responses to the risk of material misstatement due to fraud.

- Search for and examine unusual expense account activity close to the end of an accounting period (Cash).
- Analyze and review credit memos and other accounts receivable adjustments for the period subsequent to the balance sheet date (Revenue Recognition).
- Review receiving reports and look for indications of alternative shipping sites (Inventory).
- Expand the number of test counts (Inventory).
- Determine if vendors are listed in the yellow pages of the phone book. Call vendors if considered necessary (Purchasing).

## Evaluation of Audit Test Results

.19 At the completion of the audit, the auditor should consider whether the accumulated results of audit procedures and other observations affect the assessment of the risk of material misstatement due to fraud

he or she made when planning the audit. This consideration may provide further insight into the risk of material misstatement due to fraud and whether there is a need for additional or different audit procedures to be performed.

.20 If audit test results identify misstatements in the financial statements, the auditor should consider whether such misstatements may be indicative of fraud. If the auditor has determined that misstatements are or may be the result of fraud, but the effect of the misstatements is not material, the auditor nevertheless should evaluate the implications for other aspects of the audit (e.g., nature, timing, extent of audit procedures, control effectiveness assessment).

.21 If the auditor has determined that the misstatement is, or may be, the result of fraud, and either has determined that the effect could be material to the financial statements or has been unable to evaluate whether the effect is material, the auditor should:

- Consider the implications for other aspects of the audit.
- Discuss the matter and the approach to further investigation with an appropriate level of management.
- Attempt to obtain additional evidential matter.
- If appropriate, suggest that the client consult with legal counsel.

.22 The evaluation of audit test results may lead an auditor to consider withdrawing from the engagement due to the significance of the risk of fraud. The auditor may wish to consult with legal counsel when considering withdrawal from an engagement.

## Documentation

.23 In planning the audit, the auditor should document in the working papers evidence of the performance of the assessment of the risk of material misstatement due to fraud. Documentation should include:

- The risk factors identified as present.
- The auditor's response to those risk factors.
- Fraud risk factors or other conditions, if any, identified during the performance of fieldwork that caused the auditor to believe that an additional audit response is required (any additional responses should also be documented).

It is *not* required that the assessment of the risk of material misstatement due to fraud be labeled ("high," "medium," or "low" for example) *nor* is it required to describe the rationale used to make the assessment. An auditor is only required to document that a separate assessment of the risk of material misstatement due to fraud was performed.

## Communication

---

**Note:** A *Fraud Communication Checklist* is provided at the end of the "General Procedures" program in AAM section 5400.20 to help auditors comply with their responsibilities to report fraud to management, the audit committee, and others.

---

.24 If the auditor has determined that there is evidence that fraud may exist, that matter should be brought to the attention of an appropriate level of management. Fraud involving senior management and fraud (whether caused by senior management or other employees) that causes a material misstatement of the financial statements should be reported directly to the audit committee.

.25 If risk factors have been identified that have continuing control implications, the auditor should consider whether those risk factors represent reportable conditions relating to the entity's internal control that should be communicated to senior management and the audit committee.

.26 The auditor should recognize that in the following circumstances a duty to disclose outside the entity may exist:

- To comply with certain legal and regulatory requirements.
- To a successor auditor when the successor makes inquiries in accordance with SAS No. 84, *Communications Between Predecessor and Successor Auditors* (AU section 315).
- In response to a subpoena.
- To a funding agency or other specified agency in accordance with requirements for the audits of entities that receive governmental financial assistance.

Because potential conflicts with the auditor's ethical and legal obligations for confidentiality may be complex, the auditor may wish to consult with legal counsel before discussing matters of fraud or possible fraud with parties outside the client.

## Using the AICPA *Audit and Accounting Manual* in Considering Fraud

.27 An auditor should complete the Illustrative Planning Program at AAM section 3165. That program includes steps that consider the presence of fraud risk factors, the assessment of material misstatement due to fraud, developing audit responses, and other matters related to a consideration of fraud in a financial statement audit. Included at the end of the program is a *Fraud Risk Factor Memory Jogger*, that (although its completion is not required) is helpful in identifying fraud risk factors and complying with the requirements of SAS No. 82 (AU section 316).

.28 The audit programs in AAM section 5400 require an auditor to consider the fraud risk assessment and to develop and document any additional audit procedures that may be needed. Referencing between the planning program and memory jogger at AAM section 3165 and the audit programs at AAM section 5400 will help to ensure that identified risks related to fraud are appropriately addressed.

.29 The "General Procedures" program at AAM section 5400 includes steps to evaluate the results of audit tests as they relate to fraud. Steps are also included to communicate fraud-related matters to the appropriate people. A *Fraud Communication Checklist* is presented at the end of the "General Procedures" program [AAM section 5400.20] to help auditors comply with their communication responsibilities concerning fraud.

---

# AAM Section 3150

## *Illegal Acts*

### General Comments

.01 The term “illegal acts” refers to violations of laws or governmental regulations. Illegal acts by clients do not include personal misconduct by the entity’s personnel unrelated to their business activities.

.02 Whether an act is illegal is a determination that is normally beyond the auditor’s professional competence. The auditor’s training and experience may provide a basis for recognition that some client acts coming to his or her attention may be illegal.

### Direct and Material Effect Illegal Acts

.03 The auditor considers laws and regulations that are generally recognized by auditors to have a direct and material effect on the determination of financial statement amounts (except disclosure of contingencies). For example, tax laws affect accruals and the amount recognized as expense in the accounting period; applicable laws and regulations may affect the amount of revenue accrued under government contracts.

.04 The auditor considers such laws or regulations from the perspective of their known relation to audit objectives derived from financial statement assertions rather than from the perspective of legality *per se*.

.05 The auditor’s responsibility to detect and report misstatement resulting from illegal acts having a direct and material effect on the determination of financial statement amounts is the same as that for errors or fraud. (See SAS No. 47, *Audit Risk and Materiality in Conducting an Audit*, as amended by SAS No. 82, *Consideration of Fraud in a Financial Statement Audit* [appendix C] (AU section 312), and see SAS No. 82 (AU section 316).) That is, the auditor should design the audit to provide reasonable assurance that financial statement amounts are free from material misstatement resulting from these direct-effect illegal acts.

### Other Illegal Acts

.06 Entities may be affected by many other laws or regulations, including those related to securities trading, occupational safety and health, food and drug administration, environmental protection, equal employment, and price-fixing or other antitrust violations. Generally, these laws and regulations relate more to an entity’s operating aspects than to its financial and accounting aspects and their financial statement effect is indirect.

.07 An auditor ordinarily does not have sufficient basis for recognizing possible violations of such laws and regulations. Their indirect effect is normally the result of the need to disclose a contingent liability because of the allegation or determination of illegality. An audit conducted in accordance with GAAS normally does not include audit procedures specifically designed to detect illegal acts having an indirect effect on financial statements.

### Engagement Planning Procedures

.08 The auditor should assess the risks that the entity has not complied with laws and regulations which have a direct and material effect on the determination of financial statement amounts (except disclosure of contingencies) in the planning phase of the audit.

.09 Matters that may influence the auditor's assessment include:

- a.* Management's understanding of the requirements of laws and regulations pertinent to audit objectives.
- b.* The nature and extent of noncompliance noted in prior audits.
- c.* Changes in requirements since the last audit.
- d.* Internal control components designed to give management reasonable assurance that the entity complies with those laws and regulations.
- e.* The client's policy relative to the prevention of illegal acts.

.10 Normally, there is no need to include audit procedures specifically designed to detect illegal acts. However, if the auditor becomes aware of information that raises suspicions, he or she is obligated to apply additional procedures to determine whether an illegal act has, in fact, occurred.

.11 A sample program documenting the procedures listed in this section is located in AAM section 3165.

---

*[The next page is 3331.]*

# AAM Section 3155

## *Analytical Procedures*

### General Comments

.01 Understanding financial relationships is essential in planning and evaluating the results of analytical procedures and generally requires knowledge of the client and the industry or industries in which the client operates. An understanding of the purposes of analytical procedures and the limitations of those procedures is also important. Accordingly, the identification of the relationships and types of data used, as well as conclusions reached when recorded amounts are compared to expectations, requires judgment by the auditor.

.02 Analytical procedures are used for the following purposes:

- a. To assist the auditor in planning the nature, timing, and extent of other auditing procedures.
- b. As a substantive test to obtain evidential matter about particular assertions related to account balances or classes of transactions.
- c. As an overall review of the financial information in the final review stage of the audit.

Analytical procedures should be applied to some extent for the purposes referred to in (a) and (c) above for all audits of financial statements made in accordance with generally accepted auditing standards. In addition, in some cases, analytical procedures can be more effective or efficient than tests of details for achieving particular substantive testing objectives.

.03 Analytical procedures involve comparisons of recorded amounts or ratios developed from recorded amounts, to expectations developed by the auditor. The auditor develops such expectations by identifying and using plausible relationships that are reasonably expected to exist based on the auditor's understanding of the client and of the industry in which the client operates. Following are examples of sources of information for developing expectations:

- a. Financial information for comparable prior period(s) giving consideration to known changes.
- b. Anticipated results—for example, budgets or forecasts including extrapolations from interim or annual data.
- c. Relationships among elements of financial information within the period.
- d. Information regarding the industry in which the client operates—for example, gross margin information.
- e. Relationships of financial information with relevant nonfinancial information.

### Engagement Planning Procedures

.04 The purpose of applying analytical procedures in planning the audit is to assist in planning the nature, timing, and extent of auditing procedures that will be used to obtain evidential matter for specific account balances or classes of transactions. To accomplish this, the analytical procedures used in planning the audit should focus on (a) enhancing the auditor's understanding of the clients' business and the transactions and events that have occurred since the last audit date, and (b) identifying areas that may represent specific risks relevant to the audit. Thus, the objective of the procedures is to identify such things

as the existence of unusual transactions and events, and amounts, ratios and trends that might indicate matters that have financial statement and audit planning ramifications.

.05 Analytical procedures used in planning the audit generally use data aggregated at a high level. Furthermore, the sophistication, extent and timing of the procedures, which are based on the auditor's judgment, may vary widely depending on the size and complexity of the client. For some entities, the procedures may consist of reviewing changes in account balances from the prior to the current year using the general ledger or the auditor's preliminary or unadjusted working trial balance. In contrast, for other entities, the procedures might involve an extensive analysis of quarterly financial statements. In both cases, the analytical procedures, combined with the auditor's knowledge of the business, serve as a basis for additional inquiries and effective planning.

.06 Although analytical procedures used in planning the audit often use only financial data, sometimes relevant non-financial information is considered as well. For example, number of employees, square footage of selling space, volume of goods produced, and similar information may contribute to accomplishing the purpose of the procedures.

.07 An illustrative program documenting procedures listed in this section is located in AAM section 3165.

# AAM Section 3165

## *Illustrative Planning Program*

	<i>Done by (or "N/A")</i>	<i>Date</i>	<i>W/P Ref.*</i>
<b>.01 A. Understanding the Assignment</b>			
1. Consider the following matters in planning the engagement:			
a. The entity's accounting policies and procedures.	_____	_____	_____
b. Financial statement items likely to require adjustment.	_____	_____	_____
c. The nature of reports expected to be rendered (for example, a report on consolidated or consolidating financial statements, reports on financial statements filed with the SEC, or special reports such as those on compliance with contractual provisions).	_____	_____	_____
2. In planning the audit:			
a. Discuss the type, scope, and timing of the audit with the entity's management, board of directors, or audit committee.	_____	_____	_____
b. Consider the effects of applicable accounting and auditing pronouncements, particularly new ones.	_____	_____	_____
c. Coordinate the assistance of entity personnel in information preparation.	_____	_____	_____
d. Determine the extent of involvement, if any, of consultants, other independent auditors, specialists, and internal auditors.	_____	_____	_____
e. Read reports and related correspondence of internal audit staff (if any) and consider the possible effect of internal audit work and findings on scope of the audit.	_____	_____	_____
3. Discuss the following matters (and others as appropriate) with client personnel:			
a. Changes in key personnel.	_____	_____	_____
b. Significant accounting or reporting problems.	_____	_____	_____
c. Changes in accounting methods or accounting principles.	_____	_____	_____
d. Principle findings of internal auditors.	_____	_____	_____
e. Changes in information processing methods or technology.	_____	_____	_____
f. Disposition of prior year's management letter points.	_____	_____	_____

\* As applicable.

	<i>Done by (or "N/A")</i>	<i>Date</i>	<i>W/P Ref.*</i>
g. Closing information to be prepared, such as closing journal entries and post-closing trial balance.	_____	_____	_____
h. Timing of preliminary audit work, inventory observation, confirmation procedures, final audit work.	_____	_____	_____
i. Adequacy of working space for the audit team.	_____	_____	_____
j. Access to client records.	_____	_____	_____
k. Assistance to be provided by client personnel.	_____	_____	_____
<b>.02 B. Assigning Personnel to the Engagement</b>			
1. Prepare a time budget by audit area for the engagement to determine manpower requirements and to schedule fieldwork.	_____	_____	_____
2. Have the engagement partner approve the time budget prior to the beginning of fieldwork.	_____	_____	_____
3. Consider the following factors in achieving a balance of engagement manpower requirements, personnel skills, individual development, and utilization:			
a. Engagement size and complexity.	_____	_____	_____
b. Personnel availability.	_____	_____	_____
c. Special expertise required.	_____	_____	_____
d. Timing of the work performed.	_____	_____	_____
e. Continuity and periodic rotation of personnel.	_____	_____	_____
f. Opportunities for on-the-job training.	_____	_____	_____
4. Have the scheduling and staffing of the engagement approved by the partner with final responsibility for the engagement, so that the partner can consider the qualifications, experience, and training of personnel to be assigned.	_____	_____	_____
<b>.03 C. Independence</b>			
1. If acting as principal auditor, obtain written confirmation of the independence of other firms engaged to perform segments of the audit.	_____	_____	_____
2. Review annual independent questionnaires for all engagement personnel to assure that those individuals assigned to the engagement are independent.	_____	_____	_____
3. Review accounts receivable from the client to ascertain whether any outstanding amounts take on some of the characteristics of loans and may, therefore, impair the firm's independence.	_____	_____	_____

\* As applicable.

	<u>Done by (or "N/A")</u>	<u>Date</u>	<u>W/P Ref.*</u>
4. In situations in which the firm is not independent, discuss the issuance of a disclaimer of opinion in accordance with Statement on Auditing Standards (SAS) No. 26, <i>Association With Financial Statements</i> , paragraphs 8–10 (AU section 504.08–.10).	_____	_____	_____
<b>.04 D. Knowledge of the Entity's Business</b>			
1. Obtain an initial, overall understanding of the clients' operations by—			
a. Reviewing the prior years' working papers, permanent file, auditor's report, and financial statements.	_____	_____	_____
b. Reviewing any interim financial statements or reports for the current year, including filings with regulatory agencies; or, if such statement or reports have not been prepared, by scanning the general ledger (or trial balance) to determine whether the amounts and relationships appear reasonable in comparison with the prior years.	_____	_____	_____
c. Reviewing most recent management letters.	_____	_____	_____
d. Reviewing the client correspondence file.	_____	_____	_____
e. Obtaining copies of the minutes of meetings of stockholders, the board of directors, and relevant committees.	_____	_____	_____
f. Considering possible impact of nonaudit services rendered to client on the audit.	_____	_____	_____
2. Discuss the following matters with management:			
a. Changes in operations, including planned changes.	_____	_____	_____
b. Significant legal matters and contingencies.	_____	_____	_____
3. Obtain an understanding of the effect of laws, regulations, and ordinances having a direct and material effect on the financial statements, and if necessary prepare a list of such laws for the workpapers.	_____	_____	_____
4. Obtain a knowledge of matters that relate to the nature of the entity's business, its organization, and its operating characteristics such as the following:			
a. The type of business.	_____	_____	_____
b. Types of products and services.	_____	_____	_____
c. Capital structure.	_____	_____	_____
d. Related parties.	_____	_____	_____
e. Locations.	_____	_____	_____
f. Production.	_____	_____	_____

\* As applicable.

	<u>Done by (or "N/A")</u>	<u>Date</u>	<u>W/P Ref.*</u>
g. Distribution methods.	_____	_____	_____
h. Compensation methods.	_____	_____	_____
5. Obtain a knowledge of matters affecting the industry in which the entity operates, such as the following:			
a. Economic conditions.	_____	_____	_____
b. Government regulations.	_____	_____	_____
c. Changes in technology.	_____	_____	_____
d. Accounting practices common to the industry.	_____	_____	_____
e. Competitive conditions.	_____	_____	_____
f. Financial trends and ratios.	_____	_____	_____
6. Obtain an understanding of the potential environmental remediation liabilities to which the client may be exposed. Gaining knowledge of the following matters will help provide that understanding:			
• The industry or industries in which the client operates.	_____	_____	_____
• The types of products or services provided by the client.	_____	_____	_____
• The number and characteristics of the client's locations.	_____	_____	_____
• Applicable governmental regulations.	_____	_____	_____
• Production and distribution processes.	_____	_____	_____
Useful sources of information about such matters include industry publications, financial statements, and other publicly available information from entities in the same industry, and information available from regulatory agencies.			
7. Inquire of accounting, finance, operations, environmental, compliance, or legal personnel about their knowledge of the company's exposure to environmental remediation liabilities.	_____	_____	_____
8. Consult other sources of information that relate to the entity's business, such as the following:			
a. AICPA audit and accounting guides and other publications.	_____	_____	_____
b. Industry publications.	_____	_____	_____
c. Financial statements of other entities in the industry.	_____	_____	_____
d. Textbooks, periodicals, and individuals knowledgeable about the industry.	_____	_____	_____

\* As applicable.

	<i>Done by (or "N/A")</i>	<i>Date</i>	<i>W/P Ref.*</i>
9. Consider methods the entity uses to process accounting information in planning the audit.	_____	_____	_____
10. Consider the following matters in evaluating the effect of the entity's information technology on the audit of financial statements:			
a. The extent to which the computers and other information technology is used in every significant accounting application.	_____	_____	_____
b. Whether or not the application generates a financial statement line item or provides a basis for an accounting estimate.	_____	_____	_____
c. The significance of the financial statement line item(s) affected by the client's use of technology.	_____	_____	_____
d. The controls placed over the application or system.	_____	_____	_____
e. The effectiveness of the design and operation of those controls.	_____	_____	_____
f. The complexity of the entity's information technology operations, including the use of an outside service center.	_____	_____	_____
g. The organizational structure of the information technology activities.	_____	_____	_____
h. The availability of, and access to, evidence.	_____	_____	_____
i. The use of computer-assisted audit techniques to increase the efficiency of performing audit procedures.	_____	_____	_____
11. Consider whether specialized skills are needed to consider the effect of information technology on the audit.	_____	_____	_____
12. Document the matters listed above relating to a knowledge of the entity's business in the workpapers, as deemed necessary.	_____	_____	_____
<b>.05 E. Assessing Auditability</b>			
1. Assess the adequacy of the accounting records for the following factors:			
a. Transactions described in sufficient detail to permit appropriate classification in financial statements.	_____	_____	_____
b. Transactions described in a manner that permits the recording of monetary value in the financial statements.	_____	_____	_____
c. Accounting records include the period in which the transactions occurred to permit the recording of transactions in the appropriate accounting period.	_____	_____	_____

\* As applicable.

	<i>Done by (or "N/A")</i>	<i>Date</i>	<i>W/P Ref.*</i>
2. Obtain sufficient knowledge of the design of the relevant controls pertaining to each of the five internal control components and whether they have been placed in operation. In completing this step, complete the "Internal Control" program at AAM section 5400, as appropriate.	_____	_____	_____
3. Document the understanding of the entity's five components of internal control obtained to plan the audit.	_____	_____	_____
4. Reform the following procedures regarding the integrity of management:			
a. Inquiries of local attorneys, bankers, and other business leaders as to the client's standing in the business community.	_____	_____	_____
b. A check of the client's credit rating.	_____	_____	_____
5. Document the matters listed above relating to the auditability of the entity in the workpapers, as deemed necessary.	_____	_____	_____
<b>.06 F. Understanding With the Client/Engagement Letter</b>			
1. Include the following items in the understanding obtained with the client or the engagement letter:			
a. Name of entity (and subsidiaries, if any) and its year end.	_____	_____	_____
b. Statement(s) to be audited.	_____	_____	_____
c. Scope of services, as detailed as necessary—including limitations of the engagement.	_____	_____	_____
d. Type of report(s) to be rendered.	_____	_____	_____
e. The objective of the audit.	_____	_____	_____
f. Management's responsibilities.	_____	_____	_____
g. A statement that management will provide a representation letter at the conclusion of the audit.	_____	_____	_____
h. The auditor's responsibilities, including the detection of misstatements, and the reporting of reportable conditions that come to the auditor's attention.	_____	_____	_____
i. A statement that the auditor may decline to issue a report if, for any reason, the auditor is unable to complete the audit.	_____	_____	_____
j. A statement that the audit is not designed to provide assurance on internal control or to identify reportable conditions.	_____	_____	_____
k. Provision for client's acceptance signature and date.	_____	_____	_____
l. Expression of thanks for being selected as auditors or to perform other services.	_____	_____	_____

\* As applicable.

	<i>Done by (or "N/A")</i>	<i>Date</i>	<i>W/P Ref.*</i>
2. Include the following optional items in the engagement letter, as deemed necessary:			
a. Obligations of the client's staff to prepare schedules and statements.	_____	_____	_____
b. Arrangements concerning the involvement of specialists or internal auditors.	_____	_____	_____
c. Arrangements involving a predecessor auditor.	_____	_____	_____
d. Fee or method of determining fee.	_____	_____	_____
e. Frequency of billing and client's obligations for payment, including retainer, if applicable.	_____	_____	_____
f. Any limitation of or other arrangements regarding the liability of the auditor or the client.	_____	_____	_____
g. Conditions under which access to the workpapers may be granted.	_____	_____	_____
h. Arrangements regarding other services to be provided.	_____	_____	_____
i. Description of a particular audit procedure, if requested by the client or deemed necessary for protection of the auditor.	_____	_____	_____
j. Extent and timing of interim auditing procedures.	_____	_____	_____
k. Name of client's personnel to be contacted during engagement.	_____	_____	_____
<b>.07 G. Assessing Audit Risk and Materiality</b>			
1. Determine a preliminary judgment about the dollar amount of misstatement that would be material to the financial statements.	_____	_____	_____
2. Relate that amount to tolerable error for specific account balances in planning audit procedures.	_____	_____	_____
3. Assess and document inherent risk and control risk to determine how much detection risk can be accepted while still restricting audit risk to an acceptably low level.	_____	_____	_____
4. Assess and document, by considering the understanding obtained of the internal control components and by considering all other matters influencing audit risk, the risk of material misstatement due to error, illegal acts, and other factors.	_____	_____	_____
5. Consider the presence of fraud risk factors in the following categories:			
a. Management's characteristics.	_____	_____	_____
b. Industry conditions.	_____	_____	_____

\* As applicable.

	<u>Done by (or "N/A")</u>	<u>Date</u>	<u>W/P Ref.*</u>
c. Operating characteristics and financial stability.	_____	_____	_____
d. Susceptibility of assets to misappropriation.	_____	_____	_____
e. Controls over the misappropriation of assets.	_____	_____	_____
6. Complete the "Fraud Risk Factor Memory Jogger" maintained at the end of this planning checklist. (Auditors may decide, based on the circumstances, that completion of the memory jogger is not necessary. However, the risk factor categories in step 5 above should be considered.)	_____	_____	_____

#### Practice Tip

Many firms use the helpful, "plain-english" guidance contained in the AICPA's *Considering Fraud in a Financial Statement Audit: Practical Guidance for Applying SAS No. 82* practice aid. This publication includes industry-specific example risk factors that may exist on your engagement. It also includes valuable help in assessing the risk of fraud (Call 1 (800) 862-4272, product no. 008883).

7. Inquire of management about their understanding regarding the risk of fraud in the entity.	_____	_____	_____
8. Inquire of management about knowledge they may have of fraud that has been perpetrated on or within the entity.	_____	_____	_____
9. Inquire of management about the existence of a program at the entity that includes proactive steps to prevent, deter, and detect fraud and whether the program has identified any fraud risk factors.	_____	_____	_____
10. Assess the risk of material misstatement due to fraud.	_____	_____	_____
11. For identified fraud risk factors, develop an appropriate audit response.	_____	_____	_____
12. Document in the workpapers evidence of the performance of the assessment of the risk of material misstatement due to fraud, including the following items:			
a. Fraud risk factors identified as present.	_____	_____	_____
b. Inquiries and responses made by the auditor of management regarding the risk of fraud in the entity.	_____	_____	_____
c. Inquiries and responses made by the auditor of management whether management has knowledge of fraud that has been perpetrated.	_____	_____	_____
d. Inquiries and responses made by the auditor of management about the existence of a program at the entity that includes	_____	_____	_____

\* As applicable.

	<u>Done by (or "N/A")</u>	<u>Date</u>	<u>W/P Ref.*</u>
proactive steps to prevent, deter, and detect fraud and whether the program has identified any fraud risk factors.	_____	_____	_____
e. Audit responses to the identified fraud risk factors.	_____	_____	_____
13. Consider the risk of material misstatement (due to error, fraud, illegal acts, and other factors) assessment in determining:			
a. Overall audit strategy.	_____	_____	_____
b. The nature, timing, and extent of audit procedures.	_____	_____	_____
c. Staff assignments.	_____	_____	_____
d. Appropriate levels of supervision.	_____	_____	_____
<b>.08 H. Assessment of Control Risk</b>			
1. Assess control risk. In assessing control risk, complete the "Internal Control" program at AAM section 5400.	_____	_____	_____
2. Document conclusions about the control risk assessment, including the bases for assessing control risk at the maximum or below the maximum for financial statement assertions.	_____	_____	_____
3. In circumstances where electronic evidence is significant, reconsider the appropriateness of assessing control risk at the maximum and performing only substantive testing, given the usual dependency of competent electronic evidence on effective internal control.	_____	_____	_____
4. Perform the following procedures in assessing control risk at below the maximum level for some or all financial statement assertions (see "Internal Control" program at AAM section 5400):			
a. Identify specific control relevant to specific assertions that are likely to prevent or detect material misstatements in those assertions.	_____	_____	_____
b. Perform tests of controls to evaluate the effectiveness of such controls.	_____	_____	_____
5. If a further reduction in the assessed level of control risk is desired for some financial statement assertions, perform additional tests of relevant controls.	_____	_____	_____
<b>.09 I. Illegal Acts</b>			
1. Consider the following matters in the assessment of risk that the entity has not complied with laws and regulations that have a direct and material effect on the determination of financial statement amounts:			
a. The client's policy, if any, relative to the prevention of illegal acts.	_____	_____	_____

\* As applicable.

<i>Done by (or "N/A")</i>	<i>Date</i>	<i>W/P Ref.*</i>
-----------------------------------	-------------	----------------------

- |   |       |       |       |
|---|-------|-------|-------|
| b. Management's understanding of the requirements of laws and regulations pertinent to audit objectives.                                  | _____ | _____ | _____ |
| c. The nature and extent of noncompliance noted in prior audits.  | _____ | _____ | _____ |
| d. Internal control components designed to give management reasonable assurance that the entity complies with those laws and regulations. | _____ | _____ | _____ |

**.10 J. Analytical Procedures**

- |  |       |       |       |
|--|-------|-------|-------|
| 1. Use analytical procedures which focus on:   |       |       |       |
| a. Enhancing the auditor's understanding of the client's business and the transactions and events that have accrued since the last audit date. | _____ | _____ | _____ |
| b. Identifying areas that may represent specific risks relevant to the audit.  | _____ | _____ | _____ |

**.11 K. Audit Strategies and the Audit Program**

- |  |       |       |       |
|--|-------|-------|-------|
| 1. Use the information obtained or developed concerning materiality, internal control, the results of preliminary analytical procedures, risk assessments, and other matters used in assessing audit risk to plan: |       |       |       |
| a. The overall strategy for the conduct and scope of the audit.  | _____ | _____ | _____ |
| b. The nature, timing, and extent of testing.  | _____ | _____ | _____ |
| c. Staffing requirements and related levels of supervision.  | _____ | _____ | _____ |
| (Utilize the audit programs maintained at AAM section 5400, as well as auditor-developed audit programs to meet specific situations.)  |       |       |       |
| 2. Have the final audit programs approved by the engagement partner.   | _____ | _____ | _____ |

\* As applicable.

.12

### L. Fraud Risk Factor Memory Jogger

An auditor may find this memory jogger helpful during planning and at other stages of the audit, when considering fraud risk factors and assessing the risk of material misstatement due to fraud. The example risk factors described in SAS No. 82 (AU section 316) have been included in the listing below. If used, this memory jogger should be tailored for the particular client being audited. Identified or possible risk factors should be added to the list. An auditor may also decide to remove the SAS No. 82 (AU section 316) example factors from the list, based on the circumstances. In any event, be sure to consider fraud risk factors that relate to fraudulent financial reporting and misappropriation of assets in every related category (A–E) presented below. This memory jogger will also be useful in documenting compliance with SAS No. 82 (AU section 316), as well as providing links to the workpapers and programs where responses and conclusions regarding the identified risk factors are documented. The memory jogger can be carried forward to succeeding years' audits to help assess fraud risk in those years. An auditor should feel free to use this practice aid as he or she sees fit (e.g., adding attachments, redesigning the form of the memory jogger). Finally, note that SAS No. 82 (AU section 316) does not require an auditor to use a memory jogger or checklist of fraud risk factors.

<i>Fraud Risk Factors Considered</i>		<i>Present at Client?</i>	<i>Audit Response Developed?</i> <sup>1</sup>	<i>Audit Response Documented? (W/P Ref.)</i> <sup>2</sup>	<i>Additional Information</i>
<b>A. Management Characteristics</b>					
1. A significant portion of management's compensation represented by bonuses, stock options, or other incentives, the value of which is contingent upon the entity achieving unduly aggressive targets for operating results, financial position, or cash flow.					
2. An excessive interest by management in maintaining or increasing the entity's stock price or earnings trend through the use of unusually aggressive accounting practices.					
3. A practice by management of committing to analysts, creditors, and other third parties to achieve what appear to be unduly aggressive or clearly unrealistic forecasts.					
4. An interest by management in pursuing inappropriate means to minimize reported earnings for tax-motivated reasons.					
5. An ineffective means of communicating and supporting the entity's values or ethics, or communication of inappropriate values or ethics.					
6. Domination of management by a single person or small group without compensating controls such as effective oversight by the board of directors or audit committee.					
7. Inadequate monitoring of significant controls.					
8. Management failing to correct known reportable conditions on a timely basis.					
9. Management setting unduly aggressive financial targets and expectations for operating personnel.					

<i>Fraud Risk Factors Considered</i>	<i>Present at Client?</i>	<i>Audit Response Developed?<sup>1</sup></i>	<i>Audit Response Documented? (W/P Ref.)<sup>2</sup></i>	<i>Additional Information</i>
10. Management displaying a significant disregard for regulatory authorities.				
11. Management continuing to employ an ineffective accounting, information technology, or internal auditing staff.				
12. Nonfinancial management's excessive participation in, or preoccupation with, the selection of accounting principles or the determination of significant estimates.				
13. High turnover of senior management, counsel, or board members.				
14. Frequent disputes with the current or predecessor auditor on accounting, auditing, or reporting matters.				
15. Unreasonable demands on the auditor including unreasonable time constraints regarding the completion of the audit or the issuance of the auditor's reports.				
16. Formal or informal restrictions on the auditor including unreasonable time constraints regarding the completion of the audit or the issuance of the auditor's reports.				
17. Domineering management behavior in dealing with the auditor, especially involving attempts to influence the scope of the auditor's work.				
18. Known history of securities law violations or claims against the entity or its senior management alleging fraud or violations of securities laws.				
<b>B. Industry Conditions</b>				
1. New accounting, statutory, or regulatory requirements that could impair the financial stability or profitability of the entity.				
2. High degree of competition or market saturation, accompanied by declining margins.				
3. Declining industry with increasing business failures and significant declines in customer demand.				
4. Rapid changes in the industry such as high vulnerability to rapidly changing technology or rapid product obsolescence.				

<i>Fraud Risk Factors Considered</i>		<i>Present at Client?</i>	<i>Audit Response Developed?<sup>1</sup></i>	<i>Audit Response Documented? (W/P Ref.)<sup>2</sup></i>	<i>Additional Information</i>
<b>C. Operating Characteristics &amp; Financial Stability</b>					
1. Inability to generate cash flows from operations while reporting earnings and earnings growth.					
2. Significant pressure to obtain additional capital necessary to stay competitive considering the financial position of the entity—including need for funds to finance major research and development or capital expenditures.					
3. Assets, liabilities, revenues, or expenses based on significant estimates that involve unusually subjective judgments or uncertainties, or that are subject to potential significant change in the near term in a manner that may have a financially disruptive effect on the entity.					
4. Significant related-party transactions not in the ordinary course of business or with related entities not audited or audited by another firm.					
5. Significant unusual, or highly complex transactions, especially those close to year end, that pose difficult “substance over form” questions.					
6. Significant bank accounts or subsidiary or branch operations in tax-haven jurisdictions for which there appears to be no clear business justification.					
7. Overly complex organizational structure involving numerous or unusual legal entities, managerial lines of authority, or contractual arrangements without apparent business purpose.					
8. Difficulty in determining the organization or individual(s) that control(s) the entity.					
9. Usually rapid growth or profitability, especially compared with that of other companies in the same industry.					
10. Especially high vulnerability to changes in interest rates.					
11. Unusually high dependence on debt or marginal ability to meet debt repayment requirements; debt covenants that are difficult to maintain.					
12. Unrealistically aggressive sales or profitability incentive programs.					
13. Threat of imminent bankruptcy or foreclosure, or hostile takeover.					
14. Adverse consequences on significant pending transactions, such as a business combination or contract award, if poor financial results are reported.					
15. Poor or deteriorating financial position when management has personally guaranteed significant debts of the entity.					

<i>Fraud Risk Factors Considered</i>	<i>Present at Client?</i>	<i>Audit Response Developed?<sup>1</sup></i>	<i>Audit Response Documented? (W/P Ref.)<sup>2</sup></i>	<i>Additional Information</i>
<b>D. Susceptibility of Assets to Misappropriation</b>				
1. Large amounts of cash on hand or processed.				
2. Inventory characteristics, such as small size, high value, or high demand.				
3. Easily convertible assets, such as bearer bonds, diamonds, or computer chips.				
4. Fixed asset characteristics, such as small size, marketability, or lack of ownership identification.				
<b>E. Controls</b>				
1. Lack of appropriate management oversight.				
2. Lack of job applicant screening procedures relating to employees with access to assets susceptible to misappropriation.				
3. Inadequate recordkeeping with respect to assets susceptible to misappropriation.				
4. Lack of appropriate segregation of duties or independent checks.				
5. Lack of appropriate system of authorization and approval of transactions.				
6. Poor physical safeguards over cash, investments, inventory, or fixed assets.				
7. Lack of timely and appropriate documentation for transactions.				
8. Lack of mandatory vacations for employees performing key control functions.				

<sup>1</sup> Based on the assessment of risk of material misstatement due to fraud, an auditor may respond to identified risk factors individually or in combination.

<sup>2</sup> The auditor's response to identified risk factors should be documented. Documentation should be maintained at a place in the workpapers considered most suitable, depending upon the type of risk factor and the type of response. Generally, if a response is specific to a particular account balance or class of transactions, documentation of the audit procedures would be placed in the appropriate audit program (e.g., Cash, Investments). If it is determined that audit procedures already planned or normally carried out are a sufficient response to the identified risk factor, that fact should be documented.

### .13 M. Year 2000 Questionnaire

To provide client service and to assist in client communications, auditors may wish to be aware of the steps their clients are taking to address the Year 2000 (Y2K) Issue. The following illustrative questions may help practitioners obtain an understanding of their client's Y2K compliance efforts and, at the same time, increase client awareness of the importance of the Y2K Issue. The list of questions is not meant to be comprehensive. Additionally, practitioners may want to tailor the questionnaire to the specific industry in which their clients operate.

These questions ordinarily would be addressed to the person or persons responsible for the Y2K compliance project within a client's organization, but they also may be useful in addressing the Issue with senior-level management.

Does the company have a year 2000 compliance project? Yes \_\_\_\_\_ No \_\_\_\_\_

If yes, please provide the following information about the project:

#### Project Planning and Program Management

Project Start Date \_\_\_\_\_

Where is the entity in the process?

- Planning Phase      • Assessment Phase
- Conversion Phase    • Implementation

Does the project address domestic and global compliance? Yes \_\_\_\_\_ No \_\_\_\_\_

Does the project address potential information technology (IT) exposure? Yes \_\_\_\_\_ No \_\_\_\_\_

Does the project address non-IT exposure (i.e., card key systems, elevators, etc.) Yes \_\_\_\_\_ No \_\_\_\_\_

Is the project on schedule? Yes \_\_\_\_\_ No \_\_\_\_\_

If no, explain the complications:

Does the project have executive sponsorship? Yes \_\_\_\_\_ No \_\_\_\_\_

Indicate the level: President \_\_\_\_ CFO \_\_\_\_ CIO \_\_\_\_ Controller \_\_\_\_

Does Year 2000 awareness exist throughout the organization (e.g., the IT department, user community, building services)? Yes \_\_\_\_\_ No \_\_\_\_\_

Is the Year 2000 budget separate from the information systems (IS) budget? Yes \_\_\_\_\_ No \_\_\_\_\_

Is the Year 2000 budget included within the IS budget? Yes \_\_\_\_\_ No \_\_\_\_\_

If included in the IS budget, does a process exist or will one be established to rank Year 2000 work according to priority within the context of the total budget? Yes \_\_\_\_\_ No \_\_\_\_\_

What is the estimated cost of compliance? \_\_\_\_\_

What is the anticipated project completion date? \_\_\_\_\_

Do you have a detailed project plan? Yes \_\_\_\_\_ No \_\_\_\_\_

Has a task force or group been created to address the issue? Yes \_\_\_\_\_ No \_\_\_\_\_

Is the task force considering enterprise-level issues as well as the impact on computer systems? Yes \_\_\_\_\_ No \_\_\_\_\_

How many people are included on the task force? \_\_\_\_\_

Does the task force include both internal and external resources?

Yes \_\_\_\_\_ No \_\_\_\_\_

Have accountabilities been clearly delineated between external and internal resources?

Yes \_\_\_\_\_ No \_\_\_\_\_

Are procedures in place to deal with "offshore" resources?

Yes \_\_\_\_\_ No \_\_\_\_\_

Have contingency plans been established to mitigate the risks associated with the project not being completed on time?

Yes \_\_\_\_\_ No \_\_\_\_\_

If yes, please describe:

Have a program management office and project plan been created?

Yes \_\_\_\_\_ No \_\_\_\_\_

Have the right resources and skill sets been identified and assigned?

Yes \_\_\_\_\_ No \_\_\_\_\_

Have critical milestones been established to indicate that current initiatives are on target?

Yes \_\_\_\_\_ No \_\_\_\_\_

### Approach

Has an application inventory been created?

Yes \_\_\_\_\_ No \_\_\_\_\_

Have tools been used to determine which code has been executed in the last year?

## *Sample Engagement Letters*

.01 Following are illustrative engagement letters (and one engagement memorandum). They may be used as guides in the design of specific letters, tailored to satisfy the terms of a particular engagement.

### .02 Audit Engagement Leading to Opinion

LACKO, LYNCH, BROWN & COMPANY

Certified Public Accountants

[Date]

Mr. Matt Decker, President  
Civil War Antiques, Inc.  
111 Burnside Highway  
Sharpsburg, Maryland 00000

Dear Mr. Decker:

This will confirm our understanding of the services we will provide to Civil War Antiques, Inc. for the year ending December 31, 19XX.

We will audit the balance sheet of Civil War Antiques, Inc. as of December 31, 19XX, and the related statements of income, retained earnings, and cash flows for the year then ended, for the purpose of expressing an opinion on them.

The financial statements are the responsibility of the Company's management. Encompassed in that responsibility is the establishment and maintenance of effective internal control over financial reporting, the establishment and maintenance of proper accounting records, the selection of appropriate accounting principles, the safeguarding of assets, and compliance with relevant laws and regulations. Management is also responsible for making all financial records and related information available to us.

Our responsibility is to express an opinion on the financial statements based on our audit, and is limited to the period covered by our audit. If circumstances preclude us from issuing an unqualified opinion, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed an opinion, we may decline to express an opinion or decline to issue a report as a result of the engagement.

We are responsible for conducting the audit in accordance with generally accepted auditing standards. Those standards require that we obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. Accordingly, a material misstatement may remain undetected. Also, an audit is not designed to detect error or fraud that is immaterial to the financial statements. We will inform you of all matters of fraud that come to our attention. We will also inform you of illegal acts that come to our attention, unless they are clearly inconsequential.

An audit includes obtaining an understanding of internal control sufficient to plan the audit and to determine the nature, timing, and extent of audit procedures to be performed. An audit is not designed to provide assurance on internal control or to identify reportable conditions. However, we are responsible for ensuring that you are aware of any reportable conditions which come to our attention.

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Accordingly, the areas and number of transactions selected for testing will involve judgment. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, tests of the physical existence of inventory, and direct confirmation of receivables and certain other assets and liabilities by correspondence with selected customers, creditors, legal counsel, and banks. At the conclusion of our audit, we will request certain written representations from you about the financial statements and related matters.

As part of our engagement for the year ending December 31, 19XX, we will review the federal and state income tax returns for Civil War Antiques, Inc. Further, we will be available during the year to consult with you on the tax effects of any proposed transactions or contemplated changes in business policies.

Assistance to be supplied by your personnel, including the preparation of schedules and analyses of accounts, is described in a separate attachment. Timely completion of this work will facilitate the completion of our audit.

If you intend to publish or otherwise reproduce the financial statements and make reference to our firm, you agree to provide us with printers' proofs or masters for our review and approval before printing. You also agree to provide us with a copy of the final reproduced material for our approval before it is distributed.

Our fees will be billed as work progresses and are based on the amount of time required plus out-of-pocket expenses. Invoices are payable upon presentation. Our initial fee estimate assumes we will receive the aforementioned assistance from your personnel and unexpected circumstances will not be encountered. We will notify you immediately of any circumstances we encounter that could significantly affect our initial estimate of total fees, which will range from \$XX,XXX to \$XX,XXX.

The working papers for this engagement are the property of Lacko, Lynch, Brown & Company and constitute confidential information. However, we may be requested to make certain working papers available to \_\_\_\_\_ [name of regulator] pursuant to authority given to it by law or regulation. If requested, access to such working papers will be provided under the supervision of Lacko, Lynch, Brown & Company personnel. Furthermore, upon request, we may provide photocopies of selected working papers to \_\_\_\_\_ [name of regulator]. The \_\_\_\_\_ [name of regulator] may intend, or decide, to distribute the photocopies or information contained therein to others, including governmental agencies.<sup>1</sup>

If this letter correctly expresses your understanding, please sign the enclosed copy where indicated and return it to us.

We appreciate the opportunity to serve you and trust that our association will be a long and pleasant one.

Sincerely,

LACKO, LYNCH, BROWN & COMPANY

**.03 SEC Engagement: Form 10-K and Annual Report to Shareholders**

RON TRACY &amp; ASSOCIATES

Certified Public Accountants

[Date]

Mr. Joshua Snyder  
Lawnmowers & Snowblowers Unlimited  
731 Nathan Road  
Hatville, NJ 00000

Dear Mr. Snyder:

This letter confirms our understanding of the services we will provide to Lawnmowers & Snowblowers Unlimited for the year ended December 31, 19XX.

We will audit the balance sheet of Lawnmowers & Snowblowers Unlimited as of December 31, 19XX, and the related statements of income, retained earnings, and cash flows for the year then ended, for the purpose of expressing an opinion on them.

The financial statements are the responsibility of the Company's management. Encompassed in that responsibility is the establishment and maintenance of effective internal control over financial reporting, the establishment and maintenance of proper accounting records, the selection of appropriate accounting principles, the safeguarding of assets, and compliance with relevant laws and regulations. Management is also responsible for making all financial records and related information available to us.

Our responsibility is to express an opinion on the financial statements based on our audit, and is limited to the period covered by our audit. If circumstances preclude us from issuing an unqualified opinion, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed an opinion, we may decline to express an opinion or decline to issue a report as a result of the engagement.

We are responsible for conducting the audit in accordance with generally accepted auditing standards. Those standards require that we obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. Accordingly, a material misstatement may remain undetected. Also, an audit is not designed to detect error or fraud that is immaterial to the financial statements. We will inform you of all matters of fraud that come to our attention. We will also inform you of illegal acts that come to our attention, unless they are clearly inconsequential.

An audit includes obtaining an understanding of internal control sufficient to plan the audit and to determine the nature, timing, and extent of audit procedures to be performed. An audit is not designed to provide assurance on internal control or to identify reportable conditions. However, we are responsible for ensuring that you are aware of any reportable conditions which come to our attention.

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Accordingly, the areas and number of transactions selected for testing will involve judgment. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, tests of the physical existence of inventory, and direct confirmation of receivables and certain other assets and liabilities by correspondence with selected customers, creditors, legal counsel, and banks. We will also audit the financial information included in the schedules required by Regulation S-X of the SEC. At the conclusion of our audit, we will request certain written representations from you about the financial statements and related matters.

As part of our engagement for the year ending December 31, 19XX, we will review the federal and state income tax returns for Lawnmowers & Snowblowers Unlimited. Further, we will be available during the year to consult with you on the tax effects of any proposed transactions or contemplated changes in business policies.

Assistance to be supplied by your personnel, including the preparation of schedules and analyses of accounts, is described in a separate attachment. Timely completion of this work will facilitate the completion of our audit.

**.04 Change in Circumstances From Those Contemplated in Original Engagement Letter**

RATZINGER &amp; O'CONNOR, CPA'S

Certified Public Accountants

[Date]

Mr. James Melakon, Treasurer  
Nimbus Country Club  
64 Eagle Road  
Bethel, Ohio 10000

Dear Mr. Melakon:

As we agreed in our original engagement letter dated [date] we are notifying you that our audit of your December 31, 19XX financial statements requires additional procedures.

We have found that certain guest checks are held for only three months after they are paid. Thus, a substantial number of guest checks are not available for examination. Fortunately, your internal control activities allow us to use alternative procedures to satisfy ourselves on this part of the audit. However, this will require substantially more time than examining guest checks.

The fee for these additional services will be billed at our standard per diem rates and added to the fees quoted in our previous letter.

The situation has been discussed with your controller, who assured us that in the future all guest checks will be kept for two years.

If this letter correctly expresses your understanding, please sign the enclosed copy where indicated and return it to us.

Very truly yours,

RATZINGER &amp; O'CONNOR, CPA'S

**.05 Conditions Encountered Which Do Not Permit Expression of Opinion as Anticipated in Original Engagement Letter**

GEROW, COLLINS & PATCH

Certified Public Accountants

[Date]

Mrs. Helene Daestrom, President  
Cohrane Manufacturing, Inc.  
1234 West Street  
Cedar Hill, Tennessee 10000

Dear Mrs. Daestrom:

Our March 15, 19XX letter described our present engagement as an audit for the purpose of expressing an opinion on the financial statements based on our audit. This letter is to inform you that because of the circumstances described below, we will be required to qualify our opinion on these statements.

As you know, the Internal Revenue Service has proposed total income tax assessments of approximately \$XXX,XXX for the three fiscal years ended December 31, 19XX. Your tax counsel has advised us that although you have a defensible position and will protest the assessments, counsel cannot offer an opinion as to your ultimate liability. No provision for this assessment or any portion of it is included in your December 31, 19XX financial statements, nor do you feel any is necessary.

Due to an inability to obtain sufficient evidential matter to support your assertions regarding the tax assessment situation described above, we will be unable to express an unqualified opinion. Our report will state the reasons for the qualification of our opinion.

You and your tax counsel have advised that you will inform us of any new developments in the proposed assessment before our report is issued so that we may consider their effect on your financial statements and on our report.

Sincerely,

GEROW, COLLINS & PATCH

---

[Engagement Partner's Signature]

---

**Note:** The client is not asked to sign this letter. Its purpose is to inform the client of the altered circumstances and the effect on the opinion. There is no change in the terms of the engagement. However, it might be desirable to have the client acknowledge receipt of this letter by signing a copy and returning it where—for example—it is a problem, or when there has been a history of misunderstandings.

**.06 SEC Engagement: Initial Registration, Form S-1**

SHERIDAN, CUSTER, AND STUART, CPAs

Certified Public Accountants

[Date]

Mr. John T. Chance, President

Skynet, Inc.

1 Wilderness Drive

Cold Harbor, Virginia 00000

Dear Mr. Chance:

This will confirm our understanding of the services we will provide in connection with the registration statement Skynet, Inc will file with the Securities and Exchange Commission.

We will audit the consolidated balance sheets of Skynet, Inc. as of December 31, 19X1 and 19X0, and the related consolidated statements of income, retained earnings, and cash flows for each of the years in the three-year period ended December 31, 19X1, which will be included in a Form S-1,<sup>1</sup> registration statement.

The financial statements are the responsibility of the Company's management. Encompassed in that responsibility is the establishment and maintenance of effective internal control over financial reporting the establishment and maintenance of proper accounting records, the selection of appropriate accounting principles, the safeguarding of assets, and compliance with relevant laws and regulations. Management is also responsible for making all financial records and related information available to us.

Our responsibility is to express an opinion on the financial statements based on our audit, and is limited to the period covered by our audit. If circumstances preclude us from issuing an unqualified opinion or we are otherwise unable to comply with the requirements of Form S-1, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed an opinion, we may decline to express an opinion or decline to issue a report as a result of the engagement.

We are responsible for conducting the audit in accordance with generally accepted auditing standards. Those standards require that we obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. Accordingly, a material misstatement may remain undetected. Also, an audit is not designed to detect error or fraud that is immaterial to the financial statements. We will inform you of all matters of fraud that come to our attention. We will also inform you of illegal acts that come to our attention, unless they are clearly inconsequential.

An audit includes obtaining an understanding of internal control sufficient to plan the audit and to determine the nature, timing, and extent of audit procedures to be performed. An audit is not designed to provide assurance on internal control or to identify reportable conditions. However, we are responsible for ensuring that you are aware of any reportable conditions which come to our attention.

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Accordingly, the areas and number of transactions selected for testing will involve judgment. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, tests of the physical existence of inventory, and direct confirmation of receivables and certain other assets and liabilities by correspondence with selected customers, creditors, legal counsel, and banks. We will also audit the financial information included in the schedules required by Regulation S-X of the SEC. At the conclusion of our audit, we will request certain written representations from you about the financial statements and related matters.

We will also fulfill the portion of the underwriter's agreement directed to the independent accountants, provided the requirements are within the purview of Statement on Auditing Standards No. 72, *Letters for*

---

<sup>1</sup> This should be modified to agree with the particular form to be filed.

*Underwriters and Certain Other Requesting Parties* (as amended by Statement on Auditing Standards No. 76), issued by the American Institute of Certified Public Accountants, and provided the material can properly be reported on by accountants pursuant to that Statement. In this regard, we require a copy of the tentative underwriting contract as soon as it is available.

Subsequent to issuance of our auditor's report, we will perform certain procedures required by Statement on Auditing Standards No. 37, *Filings Under Federal Securities Statutes*, issued by the American Institute of Certified Public Accountants, regarding execution of consent letters required for certain SEC filings. In connection therewith, all printer's proofs of reports to be filed with the Securities and Exchange Commission are to be submitted to us for review. This requirement extends to the entire registration statement and all other material that accompanies the financial statements.

As part of our engagement for the years ending December 31, 19X0 and 19X1, we will review the federal and state income tax returns for Skynet, Inc. Further, we will be available during the year to consult with you on the tax effects of any proposed transactions or contemplated changes in business policies.

Assistance to be supplied by your personnel, including the preparation of schedules and analyses of accounts, is described in a separate attachment. Timely completion of this work will facilitate the completion of our audit.

Our fees will be billed as work progresses and are based on the amount of time required plus out-of-pocket expenses. Invoices are payable upon presentation. Our initial fee estimate assumes we will receive the aforementioned assistance from your personnel and unexpected circumstances will not be encountered. We will notify you immediately of any circumstances we encounter that could significantly affect our initial estimate of total fees, which will range from \$XX,XXX to \$XX,XXX.

The working papers for this engagement are the property of Sheridan, Custer, and Stuart, CPAs and constitute confidential information. However, we may be requested to make certain working papers available to \_\_\_\_\_ [name of regulator] pursuant to authority given to it by law or regulation. If requested, access to such working papers will be provided under the supervision of Sheridan, Custer, and Stuart, CPAs personnel. Furthermore, upon request, we may provide photocopies of selected working papers to \_\_\_\_\_ [name of regulator]. The \_\_\_\_\_ [name of regulator] may intend, or decide, to distribute the photocopies or information contained therein to others, including governmental agencies.<sup>1</sup>

We appreciate the opportunity to serve you and trust that our association will be a long and pleasant one.

If this letter correctly expresses your understanding, please sign the enclosed copy where indicated and return it to us.

Sincerely,

SHERIDAN, CUSTER, AND STUART, CPAs

**.07 Sample Engagement Memorandum (When No Formal Engagement Letter Is Sent)****Engagement Memorandum**

The following understanding was agreed to between Gabreski and Bong, CPAs and Kramden Bowling, Inc.

[Date]	February 18, 19XX
Client	Kramden Bowling, Inc.
Address	1 Oak Street, Winchester, Virginia 00000
Phone	(555) 555-5555
Final arrangements made with	Ralph Marshall, President
Date final arrangements made	February 15, 19XX, at a meeting in the Kramden Bowling, Inc. offices
Client's personnel responsible for accounting matters	John Sandoval, Treasurer Bob Wesley, Controller
Objective of engagement	Audit engagement. Expression of an opinion on the financial statements. Also, review of federal and state income tax returns for year ended March 31, 19XX. If, for any reason, we are unable to complete the audit or are unable to form or have not formed an opinion, we may decline to express an opinion or decline to issue a report.
Management's responsibilities	Management is responsible for the entity's financial statements, establishing and maintaining effective internal control over financial reporting, identifying and ensuring that the entity complies with the laws and regulations applicable to its activities, and for making all financial records and related information available to us. At the conclusion of the engagement, management will provide us with a letter that confirms certain representations made during the audit.
Auditor's responsibilities	We are responsible for conducting the audit in accordance with generally accepted auditing standards. Those standards require that we obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. Accordingly, a material misstatement may remain undetected. Also, an audit is not designed to detect error or fraud that is immaterial to the financial statements. We will inform management of all matters of fraud that come to our attention. We will also inform the client of illegal acts that come to our attention, unless they are clearly inconsequential.

Internal control	An audit includes obtaining an understanding of internal control sufficient to plan the audit and to determine the nature, timing, and extent of audit procedures to be performed. An audit is not designed to provide assurance on internal control or to identify reportable conditions. However, we are responsible for ensuring that management is aware of any reportable conditions which come to our attention.
Financial statements to be audited	Balance sheet at March 31, 19XX and statements of income, retained earnings, shareholders' equity, and cash flows for year ended March 31, 19XX
Responsibilities of client's personnel in preparation for engagement	Trial balance of G/L and completion of schedules, a list of which we will submit two weeks before beginning of engagement
Reports to be addressed to	Board of Directors (twelve copies)
Date audit to commence	Approximately April 24, 19XX (check with controller about April 10)
Estimated time required	Approximately three weeks
Staff requirements	Manager, supervisor, in-charge senior, and two staff assistants
Billing arrangements	Every two weeks, at standard plus out-of-pocket costs; invoices to attention of Bob Wesley; payable on presentation
Special accounting problems	Client was involved in a substantial sale and lease-back transaction during the year  Imputed interest may be required on long-term liabilities resulting from purchase of business
Other comments	Client is presently negotiating with machinists' union

**.08 Audit of Personal Financial Statements**

[Firm's Letterhead]

This will confirm our understanding of the terms and objectives of this engagement and the nature and limitations of the services I will provide.

I will perform the following services:

I will audit the statement of financial condition of \_\_\_\_\_ [client's name] as of December 31, 19XX, and the related statement of changes in net worth for the year then ended for the purpose of expressing an opinion on them.

The financial statements are the responsibility of \_\_\_\_\_ [client's name]. Encompassed in that responsibility is the establishment and maintenance of proper accounting records, the selection of appropriate accounting principles, the safeguarding of assets, and compliance with relevant laws and regulations. You are also responsible for making all financial records and related information available to me.

My responsibility is to express an opinion on the financial statements based on my audit, and is limited to the period covered by my audit. If circumstances preclude me from issuing an unqualified opinion, I will discuss the reasons with you in advance. If, for any reason, I am unable to complete the audit or am unable to form or have not formed an opinion, I may decline to express an opinion or decline to issue a report as a result of the engagement.

I am responsible for conducting the audit in accordance with generally accepted auditing standards. Those standards require that I obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. Accordingly, a material misstatement may remain undetected. Also, an audit is not designed to detect error or fraud that is immaterial to the financial statements. I will inform you of all matters of fraud that come to my attention. I will also inform you of illegal acts that come to my attention, unless they are clearly inconsequential.<sup>1</sup>

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Accordingly, the areas and number of transactions selected for testing will involve judgment. An audit also includes assessing the accounting principles used and significant estimates made by \_\_\_\_\_ [client's name], as well as evaluating the overall financial statement presentation. At the conclusion of the audit, I will request certain written representations from you about the financial statements and related matters.

As part of my engagement for the year ending December 31, 19XX, I also will prepare the federal and state income tax returns for \_\_\_\_\_ [client's name]. Further, I will be available during the year to consult with you on the tax effects of any proposed transactions or contemplated changes in business policies.

Assistance to be supplied by you, including the preparation of schedules and analyses of accounts, is described in a separate attachment. Timely completion of this work will facilitate the completion of the audit.

If you intend to publish or otherwise reproduce the financial statements and make reference to my firm, you agree to provide me with printers' proofs or masters for my review and approval before printing. You also agree to provide me with a copy of the final reproduced material for my approval before it is distributed.

---

<sup>1</sup> Some practitioners prefer to include in an engagement letter a clause that would indemnify them against knowing management misrepresentations in jurisdictions where such clauses are permitted. Ruling No. 94 under AICPA Rule of Conduct 101 [ET section 191.188 and .189] states that the following indemnification clause in an engagement letter would not impair a CPA's independence: "The client agrees to release, indemnify, and holds me (us) (and my (our) partners and our heirs, executors, personal representatives, successors, and assigns) harmless from any liability and costs resulting from knowing misrepresentations by management." Auditors of publicly held entities also should consider the applicable Securities and Exchange Commission rules on independence before including an indemnification clause in an engagement letter.

My fees will be billed as work progresses and are based on the amount of time required plus out-of-pocket expenses. Invoices are payable upon presentation. My initial fee estimate assumes no unexpected circumstances will be encountered. I will notify you immediately of any circumstances I encounter that could significantly affect my initial estimate of total fees, which will range from \$XX,XXX to \$XX,XXX.

If this letter correctly expresses your understanding, please sign the enclosed copy where indicated and return it to me. I appreciate the opportunity to serve you and trust that our association will be a long and pleasant one.

Sincerely,

---

## Internal Control

The material included in these sections on internal control is presented for illustrative purposes only. The comments and illustrations are neither all inclusive nor are they prescribed minimums. They are intended as conveniences for users of this manual who may want assistance when developing materials to meet their individual needs.

This manual is a nonauthoritative kit of practice aids and, accordingly, these sections on internal control do not include extensive explanation or discussion of authoritative pronouncements. Users of this manual are urged to refer directly to applicable authoritative pronouncements when appropriate.

# AAM Section 4100

## *Introduction*

### Overview

.01 On every audit, the auditor is required to obtain an understanding of internal control sufficient to plan the audit. A “sufficient” understanding means you should determine how internal controls are designed and whether they have been placed in operation.

.02 Statement on Auditing Standards (SAS) No. 55 (AU section 319), as amended, provides a framework to help you obtain your understanding of internal control. This framework breaks internal control into five components as identified in AAM section 4200.03, which in turn are linked to entity objectives. When planning the audit, you should obtain an understanding of each of the five internal control components that relate to objectives relevant to the audit.

.03 Your understanding of internal control is used to—

- Identify types of potential misstatement.
- Consider factors that affect the risk of material misstatement.
- Design substantive tests.

.04 Your understanding of a client’s internal control should be based on your previous experience with the client and the following:

- Inquiries of appropriate management, supervisory, and staff personnel.
- Inspection of documents and records.
- Observation of the entity’s activities and operations.

.05 Once you obtain an understanding of the design of controls and whether it has been placed in operation, you should develop an overall audit strategy at the assertion level that is generally based on one of the following planned control risk assessments:

- *Control risk at or slightly below the maximum.* This will result in a primarily substantive approach to auditing the assertion. In entities where significant information is transmitted, processed, maintained, or accessed electronically, the ability to perform entirely substantive procedures may be absent or ineffective. In those cases, additional tests to determine the operating effectiveness of controls surrounding the electronic environment are necessary.
- *Control risk below the maximum.* This will require additional tests to determine the operating effectiveness of specified controls, but in return, you will be able to modify the nature, timing, and extent of substantive audit procedures.

.06 AAM section 3125 provides a more detailed description of how to consider internal control at the planning phase of an audit.

.07 The following sections provide additional guidance on how you should consider internal control.

- *AAM section 4200—Internal Control Framework.* This section provides more detail on the internal control framework described in SAS No. 55 (AU section 319), as amended.

- *AAM section 4300—Illustrative Internal Control Forms—Small Business.* The forms in this section serve two purposes: (1) to help you perform the procedures necessary to understand internal control, and (2) to document that understanding. This section is to be used for small business entities.
- *AAM section 4400—Illustrative Internal Control Forms—Medium to Large Business.* These forms are similar to the ones provided in AAM section 4300, except geared to medium to large businesses.
- *AAM section 4500—Flowcharting.* This section provides examples of how you might document your understanding of internal control using flowcharting techniques.
- *AAM section 4600—Assessing Control Risk Below the Maximum.* This section provides guidance on the procedures to be performed when you plan a control risk assessment below the maximum for a specific assertion.

# AAM Section 4200

## *Internal Control Framework*

### Introduction

.01 As described in AAM section 3125, Statement on Auditing Standards (SAS) No. 55 (AU section 319), as amended, provides a framework to help you obtain an understanding of internal control. That framework is built on two concepts: objectives and components.

.02 An *objective* is what the entity is trying to achieve. Generally, an entity tries to achieve objectives in the following three categories:

- Reliability of financial reporting
- Effectiveness and efficiency of operations
- Compliance with applicable laws and regulations

.03 For each of these objectives, internal control consists of the following five interrelated components:

- *Control environment*, which sets the tone of an organization and influences the control consciousness of its people. It is the foundation for all other components of internal control and provides discipline and structure.
- *Risk assessment*, which is the entity's identification and analysis of relevant risks to achievement of its objectives. It forms a basis for determining how the risks should be managed.
- *Control activities*, which are the policies and procedures that help ensure management directives are carried out.
- *Information and communication*, which are the identification, capture, and exchange of information in a form and time frame that enables people to carry out their responsibilities.
- *Monitoring*, which is a process that assesses the quality of internal control performance over time.

.04 Although an entity's internal control addresses objectives referred to in AAM section 4200.02, not all of these objectives and related controls are relevant to the audit of an entity's financial statements. Generally, controls that are relevant to an audit pertain to the entity's objective of preparing reliable financial statements for external purposes. An entity may have controls that relate to operations and compliance with laws and regulations that are not relevant to an audit and therefore need not be considered.

.05 *The Jones family owns and operates several neighborhood grocery stores in Anytown. The bank reconciliation performed by the Jones Grocery controller is an example of a control that relates primarily to the **financial reporting** objective. Jones also has an inventory tracking and management system that allows each store manager to track inventory levels and order new items before they stock-out. This control activity is part of the **operations** objective. Each store has a small deli that prepares sandwiches and some hot foods. These food preparation activities must comply with state health laws and regulations, and Jones has policies in place to help ensure that those laws and regulations are met. Those policies are directed at the **compliance** objective of the entity.*

.06 *The controls having to do with the ordering of inventory or compliance with state health laws and regulations are important to Jones Grocery, but ordinarily will not relate to the audit of the company's financial statement. If you*

*were the auditor of Jones Grocery, you may wish to ask about and document these controls for client service or other purposes, but since these controls are not relevant to the audit, you are not required to do so.*

.07 However, if controls relating to operations and compliance objectives pertain to data you evaluate or use in applying auditing procedures, then they may be relevant to the audit.

.08 For example, the financial reporting system may produce a sales report by inventory stock number for each sales region. If the auditor decided to use information from this report when auditing the proper valuation of inventory, he or she should obtain an understanding of the following:

- Which transactions or classes of transactions are included in the report
- How significant accounting data about those transactions are entered into and flow through the financial reporting system
- The files that are processed
- The nature of processing involved in producing the report

.09 Controls pertaining to detecting noncompliance with laws and regulations that may have a direct and material effect on the financial statements, such as controls over compliance with income tax laws and regulations used to determine the income tax provision, may be relevant to an audit.

.10 Internal control over safeguarding of assets against unauthorized acquisition, use, or disposition may include controls relating to financial reporting and operations objectives. For example, use of a lockbox system for collecting cash or passwords for limiting access to accounts receivable data files may be relevant to a financial statement audit. Conversely, controls to prevent the excess use of materials in production generally are not relevant to a financial statement audit. Your responsibility to understand internal control is generally limited to those controls relevant to the reliability of financial reporting.

.11 The internal control framework described in SAS No. 55 (AU section 319), as amended, is only a means to help you consider the impact of an entity's internal control in an audit. Your primary concern is *not* the classification of a specific control into any particular component and related objective. Rather, your primary concern is whether a specific control affects financial statement assertions.

.12 *Suppose you are the auditor of Jones Grocery. As on all audits, you are required to obtain an understanding of internal control sufficient to plan the audit. To achieve this, you organize your inquiries and other procedures to understand each of the five components of internal control that relate to the financial reporting objectives. As a result of performing your procedures, you discover the client's bank reconciliation procedures. Should a bank reconciliation be considered a "control procedure"? What about the fact that someone follows up and investigates old or unusual reconciling items? Is that considered a "monitoring" activity?*

.13 *These questions are rhetorical since the issue of how to classify a particular control is irrelevant for your purposes. As an auditor, your primary consideration is to understand how the bank reconciliations affect financial statement assertions relating to cash.*

.14 The purpose of this section is to provide guidance on each of the five components that comprise the internal control framework. This guidance should help you perform procedures to obtain an understanding of internal control. These procedures generally require the following steps:

- Understand internal control components that have a pervasive effect on the organization.
- Understand how computers are used to process significant accounting information.
- Understand control activities for significant account balances or transaction cycles.
- Assess the risk of management override and lack of segregation of duties.

## Focus on the Small Business Entity

.15 This section emphasizes the audit of a small business entity. Small business entities are typically characterized by—

- A single owner or a small group of owners who manage the business on a day-to-day basis.
- A small number of employees involved in the accounting function.
- No outside board of directors or internal audit function.
- The use of off-the-shelf, unmodified computer software or the use of an outside computer service organization to process significant accounting information.

.16 This section provides some guidance for the audits of medium to large businesses. Additional guidance is provided in the Audit Guide *Consideration of Internal Control in a Financial Statement Audit*.

## Controls With a Pervasive Effect on the Organization

.17 Your client's control components consist of controls that either have a pervasive effect on the organization or are designed to address specific account balances and classes of transactions or activities. Initially, you should focus on the policies and procedures that have a pervasive effect on the organization.

## Understanding the Control Environment

.18 The control environment sets the tone of an organization. It influences the control consciousness of its people and is the foundation for all other components of internal control. In obtaining an understanding of your client's control environment, you should try to understand the owner-manager's attitude, awareness, and actions concerning the control environment. The following paragraphs describe some factors you should consider when evaluating your client's control environment.

.19 **Integrity and Ethical Values.** The effectiveness of internal control cannot rise above the integrity and ethical values of the owner-manager. Integrity and ethical values are essential elements of the control environment because they affect the design, administration, and monitoring of other internal control components.

.20 Management may *tell you* a great deal about their integrity and ethical values. They may even commit their *words* to a *written document*. Responses to inquiries and written policies are good, but as an auditor you should focus on management's *actions* and how these actions affect the entity on a day-to-day basis.

.21 In order for management's integrity and ethical values to have a positive impact on the entity, the following must exist.

- The business owner and management must personally have high ethical and behavioral standards.
- These standards must be communicated to company personnel. In a small business, this communication is often informal.
- The standards must be reinforced.

.22 When observing and evaluating management's *actions* be alert for the following:

- **Segregation of personal from business funds and activities.** Many small business owners intermingle their personal and business activities, for example, the company may pay the owner's credit card bills even if they contain non-business expenditures. You should consider the owner's attitude and the care with which he or she separates the personal from the business activities. It's not unusual for a business

to pay the owner's credit card bills, but the more important question is "does the owner reimburse the company?" Owners who treat company assets as if they were personal assets set a bad example for employees who may be encouraged to do the same.

- *Dealing with signs of problems.* Consider how management deals with signs that problems exist, particularly when the cost of identifying and solving the problem could be high. For example, suppose your client became aware of a possible environmental contamination on their premises. How would they react? Would they try to hide it, deny its existence, or act evasively if asked about it, or would they actively seek out your advice or the advice of their attorney?
- *Removal or reduction of incentives and temptations.* Individuals may engage in dishonest, illegal or unethical acts simply because the owner-manager gives them strong incentives or temptations to do so. Removing or reducing these incentives and temptations can go a long way toward diminishing undesirable behavior.

The emphasis on results, particularly in the short term, fosters an environment in which the price of failure becomes very high. *Incentives* for engaging in fraudulent or questionable financial reporting practices include—

- Pressure to meet unrealistic performance targets, particularly for short-term results.
- High performance-dependent rewards.
- Upper and lower cutoffs on bonus plans.

*Temptations* for employees to engage in improper practices include—

- Nonexistent or ineffective controls, such as poor segregation of duties in sensitive areas, that offer temptations to steal or conceal questionable financial reporting practices.
  - Owner-managers who are unaware of actions taken by employees.
  - Penalties for improper behavior that are insignificant or unpublicized and thus lose their value as deterrents.
- *Management intervention.* There are certain situations where it is appropriate for management to intervene and overrule prescribed policies or procedures for legitimate purposes. For example, management intervention is usually necessary to deal with non-recurring and non-standard transactions or events that otherwise might be handled by the financial reporting information system. You should consider whether management has provided guidance on the situations and frequency with which intervention of established controls is appropriate. Management intervention should be documented and explained.

**.23 Commitment to Competence.** Competence should reflect the knowledge and skills necessary to accomplish tasks that define an individual's job. Commitment to competence includes management's consideration of the competence levels for particular jobs and how those levels translate into requisite skills and knowledge.

**.24** *Mrs. Jones has always kept the books for Jones Grocery. She is "self-taught," with no formal training in accounting or bookkeeping. There are no plans to replace Mrs. Jones with someone more "qualified." As the auditor of Jones Grocery you recognized the risk of having an untrained bookkeeper and design your audit approach to address such concerns by—*

- *"Training" Mr. and Mrs. Jones to call you whenever they have a transaction out of the ordinary.*
- *Strongly encouraging Mrs. Jones to take training classes on her accounting software package. (She has.)*
- *Explaining to Mrs. Jones the importance of key accounting records such as the accounts payable subledger and inventory reports.*

- *Teaching Mrs. Jones important basic control functions such as bank reconciliations.*

**.25 Management's Philosophy and Operating Style.** Management's philosophy and operating style encompass a broad range of characteristics. Such characteristics may include—

- The owner-manager's approach to taking and monitoring business risks.
- Attitudes and actions toward financial reporting and tax matters.
- Emphasis on meeting budget, profit, and other financial and operating goals.

**.26** Management's philosophy and operating style have a significant influence on the control environment, particularly in a small business where the owner-manager dominates the organization, regardless of the consideration given to the other control environment factors. For example, you may be concerned about your client's unduly aggressive attitude toward financial reporting. Not only might this cause you to assess control risk at the maximum for some or all assertions, but it may heighten concerns about irregularities affecting certain assertions.

**.27** However, a dominant owner-manager does not necessarily cause you to assess control risk at the maximum.

**.28** *Mr. Jones dominates the management of Jones Grocery. He demonstrates a positive attitude toward the control environment and a moderate to conservative attitude toward accepting business risk such as expansion. He is more concerned about taxes than financial reporting. Mr. Jones uses information generated by the financial reporting information system to monitor the financial results of the company and compare it to prior periods. His review of the accounting reports encourages Mrs. Jones and others who help with the accounting to work with greater care. Mr. Jones also performs many control activities himself, such as the review and supervision of the physical inventory counts. Although Mr. Jones is concerned about his income tax liability, you might not view the possible bias to misstate income as a significant risk because of the otherwise positive control environment.*

**.29 Organizational Structure.** Your client's organizational structure provides the framework within which its activities for achieving entity-wide objectives are planned, executed, controlled, and monitored.

**.30** Significant aspects of establishing an organizational structure include considering key areas of authority and responsibility and appropriate lines of reporting. Small business entities usually have fairly simple organizational structures. A highly structured organization with formal reporting lines and responsibilities may be appropriate for large entities, but for a small business, this type of structure may impede the necessary flow of information.

**.31 Assignment of Authority and Responsibility.** The assignment of authority and responsibility includes the following:

- The establishment of reporting relationships and authorization procedures
- The degree to which individuals and groups are encouraged to use initiative in addressing issues and solving problems
- The establishment of limits of authority
- Policies describing appropriate business practices
- Resources provided for carrying out duties

**.32** Alignment of authority and accountability often is designed to encourage individual initiatives, within limits. Delegation of authority means surrendering central control of certain business decisions to lower echelons, to the people who are closest to everyday business transactions.

.33 A critical challenge is to delegate only to the extent required to achieve objectives. This requires ensuring that risk acceptance is based on sound practices for identifying and minimizing risk, including sizing risks and weighing potential losses versus gains in arriving at good business decisions.

.34 Another challenge is ensuring that all personnel understand the entity's objectives. It is essential that each individual knows how his or her actions interrelate and contribute to achievement of the objectives.

.35 *Mr. Jones had to decide how to delegate authority and responsibility when he expanded Jones Grocery from the one, original store to its present eight-store chain spread out over Greater Anytown and the surrounding suburbs. One area that proved problematic was setting prices. Mr. Jones assumed that he would be able to set the prices at all the stores, just like he did for his original store. He felt this was a good procedure because it allowed him some control over profit margins. Problems arose because the competitive pressures were different in different areas of the city. A competitor in the North Suburb ran specials or lowered prices on certain items, while a competitor in the Western Suburb ran specials on different items. It became too difficult for Mr. Jones to keep up with the constantly changing price battles at eight different stores. He eventually delegated this responsibility to the individual store managers. He set a limit on how much a store manager could discount prices without his prior approval, but other than that, the store managers had the freedom to set prices to respond to the changing competitive environment.*

.36 *The responsibility for accounting information was also affected by Jones Grocery's expansion. Mr. Jones' original thought was that each store would be run as a separate business, with separate financial reporting information systems that would be "consolidated" together at the main store. Problems soon developed in several areas, most notably accounts payable. The store managers were responsible for entering vendor invoices into the computer system. But it seemed that no matter how much Mr. Jones threatened, cajoled, and begged his store managers to enter the invoices on a timely basis, they just couldn't do it consistently. The procedure had to be changed. Now, the store managers only have the responsibility to check incoming goods for quantity and condition. Vendor invoices are sent directly to Mrs. Jones at the main store, and she is responsible for maintaining the accounts payable for all the stores.*

.37 The control environment is greatly influenced by the extent to which individuals recognize that they will be held accountable. This holds true all the way to the owner-manager, who has the ultimate responsibility for all activities within the organization, including internal control.

.38 **Human Resource Policies and Practices.** Human resource policies and practices affect an entity's ability to employ sufficient competent personnel to accomplish its goals and objectives. Human resource policies and practices include an entity's policies and procedures for hiring, orienting, training, evaluating, counseling, promoting, compensating, and taking remedial action. In many small businesses, the policies may not be formalized but they should nevertheless exist and be communicated. The owner-manager can orally make explicit his or her expectations about the type of person to be hired to fill a particular job, and may even be active in the hiring process. Formal documentation is not always necessary for a policy to be in place and operating effectively.

.39 *When Mr. and Mrs. Jones added a second store, the hiring of a store manager was easy—they hired their daughter. Adding a third store proved to be more problematic, since the other Jones children had no interest in the family business. Mr. and Mrs. Jones talked at length about the type of person they would hire as a store manager. They finally decided it was more important to hire someone they could trust, someone they felt comfortable with on a personal level rather than someone with an extensive background in the grocery business. They felt they could teach someone the grocery business but not how to be trustworthy. That hiring policy worked, and they've been following it ever since.*

.40 Standards for hiring the most qualified individuals, with emphasis on educational background, prior work experience, past accomplishments, and evidence of integrity and ethical behavior, demonstrate an entity's commitment to competent and trustworthy people. Hiring practices that include formal, in-depth employment interviews and informative and insightful presentations on the company's history, culture, and operating style send a message that the company is committed to its people.

.41 Personnel policies that communicate prospective roles and responsibilities and that provide training opportunities indicate expected levels of performance and behavior. Rotation of personnel and promotions driven by periodic performance appraisals demonstrate the entity's commitment to advancement of qualified personnel to higher levels of responsibility. Competitive compensation programs that include bonus incentives serve to motivate and reinforce outstanding performance. Disciplinary actions send a message that violations of expected behavior will not be tolerated.

## Other Control Components With a Pervasive Effect on the Organization

.42 Elements of other control components may have a pervasive effect on the organization. These are discussed in the following paragraphs.

.43 **Risk Assessment.** An entity should identify, analyze, and manage risks relevant to the preparation of reliable financial statements. For example, risk assessment may address how the entity considers the possibility of unrecorded transactions or identifies and analyzes significant estimates recorded in the financial statements. Risks relevant to reliable financial reporting also relate to specific events or transactions.

.44 Risks relevant to financial reporting include events and circumstances that may adversely affect the company's ability to record, process, summarize, and report financial data. Once risks are identified, management considers their significance, the likelihood of their occurrence, and how they should be managed. Management may initiate plans, programs, or actions to address specific risks or it may decide to accept a risk because of cost or other considerations.

.45 Risks can arise or change due to circumstances such as the following:

- *Changes in the operating environment.* Changes in the regulatory or operating environment can result in changes in competitive pressures and significantly different risks.
- *New personnel.* New personnel may have a different focus on or understanding of internal control. When people change jobs or leave the company, management should consider the control activities they performed and who will perform them going forward. Steps should be taken to ensure new personnel understand their tasks.
- *New or revamped information systems.* Significant and rapid changes in information systems can change the risk relating to internal control. When these systems are changed, management should assess how the changes will impact control activities. Are the existing activities appropriate or even possible with the new systems? Personnel should be adequately trained when information systems are changed or replaced.
- *Rapid growth.* Significant and rapid expansion of operations can strain controls and increase the risk of a breakdown in controls. Management should consider whether accounting and information systems are adequate to handle increases in volume.
- *New technology.* Incorporating new technologies into production processes or information systems may change the risk associated with internal control.
- *New lines, products, or activities.* Entering into business areas or transactions with which an entity has little experience may introduce new risks associated with internal control.
- *Accounting pronouncements.* Adoption of new accounting principles or changing accounting principles may affect risks in preparing financial statements.

.46 Your procedures to assess whether a risk assessment process is placed in operation are generally of an inquiry nature. For example, you may ask accounting personnel what accounts they believe are the most difficult to become satisfied with as they prepare the financial statements. You may also consider asking the same questions of personnel outside the accounting department.

**.47 Control Activities.** Control activities are policies and procedures that help ensure necessary actions are taken to address risks to achieve the entity's objectives. Control activities have various objectives and are applied at various organizational and functional levels.

**.48** At the entity-wide level, control activities may be categorized as policies and procedures that pertain to the following.

- *Performance reviews.* These control activities include reviews of actual performance versus budgets, forecasts, and prior-period performance. They may also involve relating different sets of data (for example, operating or financial) to one another, together with analyses of the relationships, investigating unusual relationships and taking corrective action. Performance reviews may also include a review of functional or activity performance.
- *Information processing.* A variety of controls are performed to check accuracy, completeness, and authorization of transactions. The two broad groupings of information systems control activities are general controls and application controls. General controls commonly include controls over data center operations, system software acquisition and maintenance, and access security. Application controls apply to the processing of individual applications and help ensure that transactions are valid, properly authorized, and completely and accurately processed. These controls are discussed in more detail in AAM section 4200.64–79.
- *Physical controls.* These activities encompass the physical security of assets, including adequate safeguards over access to assets and records such as secured facilities and authorization for access to computer programs and data files and periodic counting and comparison with amounts shown on control records. The extent to which physical controls intended to prevent theft of assets are relevant to the reliability of financial statement preparation, and therefore the audit, depends on the circumstances such as when assets are highly susceptible to misappropriation. For example, these controls would ordinarily not be relevant when inventory losses would be detected pursuant to periodic physical inspection and recorded in the financial statements. However, if for financial reporting purposes management relies solely on perpetual inventory records, the physical security controls would be relevant to the audit.
- *Segregation of duties.* Assigning different people the responsibilities of authorizing transactions, recording transactions, and maintaining custody of assets is intended to reduce the opportunities to allow any person to be in a position to both perpetrate and conceal errors or irregularities in the normal course of his or her duties. Segregation of duties is often a problem for small business entities. See AAM section 4200.106–114 for further discussion and guidance.

**.49** Ordinarily, audit planning does not require you to understand the control activities related to each account balance, transaction class, and disclosure component in the financial statements or to every assertion relevant to them. Your understanding of control activities is sufficient when you can identify types of potential misstatements, consider factors that affect the risk of material misstatement, and design substantive tests.

**.50 Information and Communication.** The information system relevant to financial reporting objectives—which includes the financial reporting information system—consists of the methods and records established to record, process, summarize, and report entity transactions (as well as events and conditions) and to maintain accountability for the related assets and liabilities.

**.51** The quality of system-generated information affects management's ability to make appropriate decisions in controlling the entity's activities and to prepare reliable financial statements. Thus, it is important that management receives the information they need to carry out their responsibilities and that the information is provided at the right level of detail.

**.52** An information system encompasses methods and records that—

- Identify and record all valid transactions.
- Describe on a timely basis the transactions in sufficient detail to permit proper classification of transactions for financial reporting.
- Measure the value of transactions in a manner that permits recording of their proper monetary value in the financial statements.
- Determine the time period in which transactions occurred to permit recording of transactions in the proper accounting period.
- Present properly the transactions and related disclosures in the financial statements.

.53 The financial reporting information system is an integral part of an entity's information and communication system. Your consideration of the system should be made at the individual account and classes of transaction level. See AAM section 4200.89–.105 for additional guidance.

.54 *Monitoring.* Monitoring is a process that assesses the quality of internal control performance over time. It involves assessing the design and operation of controls on a timely basis and taking necessary corrective actions.

.55 Examples of ongoing monitoring activities include the following:

- Communications from external parties corroborate internally generated information or indicate problems. Customers implicitly corroborate billing data by paying their invoices. Conversely, customer complaints about billings could indicate system deficiencies in the processing of sales transactions. Similarly, bankers, regulators or other outside parties may communicate with the company on matters of accounting significance.
- External auditors regularly provide recommendations on the way internal control can be strengthened. Auditors may identify potential weaknesses and make recommendations to management for corrective action.
- Employees may be required to “sign off” to evidence the performance of critical control functions. The sign-off allows management to monitor the performance of these control functions.

## Application to Medium and Large Businesses

.56 The control environments of medium to large businesses may differ from those of small business entities in the following ways:

- The presence of a Board of Directors or audit committee
- The presence of an internal audit function
- More formalized policies and procedures

### Board of Directors or Audit Committee

.57 The control consciousness of a medium or large business is influenced significantly by the entity's board of directors and audit committee. In general, the board of directors should have an appropriate degree of management, technical, and other expertise. It should also have the necessary stature and mind-set so that it can adequately perform the necessary governance, guidance, and oversight responsibilities.

.58 Factors that influence the effectiveness of the board or audit committee include—

- Its independence from management.

- The experience and stature of its members.
- The extent of its involvement and scrutiny of activities.
- The appropriateness of its actions.
- The degree to which difficult questions are raised and pursued with management.
- Its interaction with internal and external auditors.

.59 The board of directors must be prepared to question and scrutinize management's activities, present alternative views and have the courage to act in the face of obvious wrongdoing. Because of this it is necessary that the board contain at least a critical mass of outside directors. The number should suit the entity's circumstances, but more than one outside director normally would be needed for a board to have the requisite balance.

## Internal Audit Function

.60 The internal audit function is established within an entity to monitor and evaluate the adequacy and effectiveness of internal control. For entities with an internal audit function, you ordinarily should make inquiries of appropriate management and internal audit personnel about the internal auditors'—

- Organizational status within the entity.
- Application of professional standards.
- Audit plan, including the nature, timing, and extent of audit work.
- Access to records and any limitations on the scope of their activities.

.61 After obtaining an understanding of the internal audit function you may either—

- Conclude that the internal auditors' activities are not relevant to the financial statement audit and give no further consideration to the internal audit function,
- Identify relevant internal auditor activities, but conclude that it would not be efficient to consider further the work of the internal auditors, or
- Decide that it would be efficient to consider how the internal auditors' work might affect the nature, timing, and extent of the audit. In this case, you should assess the competence and objectivity of the internal audit function as outlined in SAS No. 65, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements* (AU section 322).

.62 You may also request direct assistance from the internal auditors. If so, you should follow the guidance in paragraph 27 of SAS No. 65 (AU section 322.27).

## Formal Policies

.63 Medium and large businesses may communicate their policies in formal, written documents. For example, they may have a written code of conduct or human resource policies. The existence of formal policy documents is good, but as an auditor, your primary consideration is how the policies are implemented.

## Computer Applications

.64 Small business entities are typically characterized by the use of off-the-shelf, unmodified computer software or the use of an outside computer service organization to process significant accounting information.

*.65 Jones Grocery has a stand-alone, state-of-the-art PC at its main store. One other store has a computer—an Apple Macintosh Mr. and Mrs. Jones' daughter used at college. The PC at the main store is used to run the accounting software, which is an off-the-shelf product developed specifically for independent grocers. The payroll is processed by an outside payroll service.*

*.66 In gaining an understanding of how computers are used in the business, you should consider the following:*

- The acquisition of hardware and software
- Physical access
- Logical access
- User controls over outsider service bureau applications

### Acquisition of Hardware and Software

*.67 Companies should take steps to ensure they have compatible hardware and software. The use of compatible software reduces the risk of error, since there will be no need to transfer data from one format into another. Even small businesses should have a coherent plan for the purchase of computer hardware and software. If the business is growing, management should plan for the upgrade of the processor, RAM, or hard-disk storage.*

*.68 Mr. and Mrs. Jones did not plan for the purchase of their computers. For several years, Mrs. Jones processed the accounting applications on an old 286 PC with limited RAM and hard-disk storage. When the Jones' daughter opened the second store, she brought with her the Apple Macintosh she had in college. At first, she tried to transfer data from her store to the main store, but the software had problems converting from the Apple format, so the procedure was abandoned. At a trade show, Mr. Jones discovered a computer software program specifically designed for independent grocers. He was impressed with the program and decided that it fit his needs perfectly. However, his hardware was out of date, and so in order to run the software, he upgraded his hardware. The new software supposedly is able to handle Apple-formatted data, and the company has plans to transfer data from the second store electronically. There are no plans to install computers at the other stores.*

*.69 As the auditor of Jones Grocery, you should use this understanding of the company computer system to help plan the audit. For example, they plan to transfer data from the Apple to the PC. What sort of errors might occur in the transfer? What steps has the client taken to prevent or detect those errors? You also know that stores three through eight are on a manual system. What types of errors might occur in a manual system? What is the risk that those errors will occur?*

*.70 Entities should also establish policies and procedures to mitigate the risk of computer viruses being introduced into their systems. Viruses can cause the loss of data and programs. A virus has the ability to attach itself to a program and infect other programs and systems. Although some viruses merely write messages across the screen, others can cause serious damage to disk files or shut down a network by replicating millions of times and filling all available memory or disk storage.*

*.71 Methods to prevent the introduction of viruses and to recover from a virus attack include the following:*

- Obtain recognized software from reputable sources and only accept delivery of the software in the manufacturer's sealed package.
- Make multiple generations of backups. A virus that is not detected initially may be copied onto more recent backup copies, while the older versions may not be infected.
- Prohibit the use of unauthorized programs introduced by employees.

- Prohibit downloading of untested software from sources such as dial-up bulletin boards.
- Use virus protection software to screen for virus infections.

### Physical Security

.72 Physical security—primarily backup and contingency planning—often is ignored by small businesses in a microcomputer environment. Poor backup procedures can result in the loss of important data that are very difficult, time-consuming and costly to recreate, if they can be recreated at all.

.73 Your clients should have established procedures for the periodic backup of data files and applications. Critical applications and files should be stored off-site with corresponding documentation in the event that on-site files become unavailable.

### Logical Access

.74 Logical access to computer applications and data files may not be formally or rigorously controlled in a small business. This leaves the company exposed to the risk that files could be inappropriately manipulated or unauthorized transactions entered into the system. For example, without logical access controls a user may be able to enter any or all sections of a general ledger or other financial module and perform file maintenance such as changing the address of an accounts receivable customer or data used to calculate payroll.

.75 Management should identify confidential and sensitive data for which access should be restricted. Mechanisms such as password control or the use of menus should be used to limit the access to that data.

.76 In a microcomputer environment, password control may be installed over the operating system using a shell program to prevent the user from accessing menu options of a program. Even if such a restriction exists, a sophisticated user can often bypass the shell by using a utility. Therefore, the use of utility programs should be controlled or monitored carefully.

### User Controls Over Computer Service Organization Applications

.77 Entities may use an outside computer service organization to process significant accounting information. Guidance on auditing entities that use computer service organizations is contained in SAS No. 70, *Reports on the Processing of Transactions by Service Organizations* (AU section 324).

.78 When using an outside computer service organization, most small businesses typically retain the responsibility for authorizing transactions and maintaining the related accountability. The computer service organization merely records user transactions and processes the related data. In these circumstances, the user (the small business) should maintain controls over the input and output to prevent or detect material misstatement.

.79 *Jones Grocery uses an outside computer service to process payroll. Time cards are gathered for each store and reviewed by the store manager before being sent to the main store. Mrs. Jones reviews the time cards for the store managers and checks to make sure all personnel have submitted time cards for the pay period. All other payroll transactions such as pay rates, withholdings, etc. are sent directly to Mrs. Jones. She forwards all information to the payroll service, which prepares the checks and produces a payroll register. Mrs. Jones reviews the register and checks for any obvious misstatements, before she distributes the checks.*

### Application to Medium or Large Businesses

.80 Medium and large businesses typically have more complicated computer processing systems than small businesses. They also tend to use the computer for a greater amount of processing. For example, a small

business may prepare customer invoices manually by looking up prices on a master price list. A medium size business may maintain master price information on a computer file and use the computer to generate packing slips, sales invoices, and reports of unmatched documents.

**.81** Medium and large businesses are also typically characterized by a separate management information services (MIS) department with formally defined job descriptions and responsibilities.

**.82** Instead of using off-the-shelf, unmodified software, the medium or large business will modify standard software or develop their own applications. Their software may be more complicated than that used by the small business; for example, they may use a database management system or telecommunications software.

**.83** Medium and large businesses often use a mainframe computer in conjunction with microcomputers or a local area microcomputer network. Information is frequently transferred between the mainframe and microcomputers that may be located on-site or at a remote location.

**.84** Control activities in a computerized environment generally comprise a combination of the following:

- User control activities
- Programmed control activities and manual follow-up
- Computer general control activities

**.85 *User Controls.*** User control activities are manual checks of the completeness and accuracy of computer output against source documents or other input. For example, an entity may have programmed procedures in a billing system that calculate sales invoice amounts from shipping data and master-price files. The entity may also have a procedure to manually check the completeness and accuracy of the invoices. In many systems, user controls relate only to the completeness of records and not to the accuracy of processing.

**.86 *Programmed Control Activities and Manual Follow-up Activities.*** Programmed control activities are those that are built into the computer processing program; for example, the generation of an exception report. However, an exception report is useless unless the client follows up on the items listed. Thus, in addition to understanding the nature of the programmed control activities, you also need to understand the related manual follow-up procedures.

**.87 *Computer General Control Activities.*** If computer general control activities operate effectively, there is greater assurance that programmed control activities are properly designed and function consistently throughout the period. You may plan to understand computer general control activities to provide evidence that—

- Programs are properly designed and tested in development.
- Changes to programs are properly made.
- Computer operations ensure the proper use of application programs and data files.
- Adequate access controls reduce the risk of unauthorized changes to the program and data files.

.88 The following table summarizes computer general control activities.

<i>Area</i>	<i>Control Objectives</i>	<i>Example Controls</i>
Program Development	<ul style="list-style-type: none"> <li>Controls ensure that new applications systems are suitably authorized, designed, and tested</li> </ul>	<ul style="list-style-type: none"> <li>Users are involved in the design and approval of systems</li> <li>Checkpoints where users review the completion of various phases of the application</li> <li>Development of test data and testing of the program</li> <li>User involvement in the review of tests of the program</li> <li>Adequate procedures to transfer programs from development to production libraries</li> </ul>
Program Changes	<ul style="list-style-type: none"> <li>Controls over changes to existing programs and systems ensure that modifications to application programs are suitably approved, designed, tested, and implemented</li> </ul>	<ul style="list-style-type: none"> <li>Same as systems development</li> <li>User involvement</li> <li>Adequate testing</li> <li>Adequate transfer activities</li> <li>Segregation of duties between programmers and production libraries</li> </ul>
Computer Operations	<ul style="list-style-type: none"> <li>Controls ensure that application programs are used properly and that proper data files are used during processing</li> </ul>	<ul style="list-style-type: none"> <li>Review of lists of regular and unscheduled batch jobs by operations management</li> <li>Use of menu-driven job control instruction sets</li> <li>Jobs executed only from the operator's terminal</li> <li>Adequate procedures for managing and backing up data and program files</li> </ul>
Access	<ul style="list-style-type: none"> <li>Controls should prevent or detect unauthorized changes to programs and to data files supporting the financial statements</li> </ul>	<ul style="list-style-type: none"> <li>Programmers have limited access to production programs, live data files, and job control language</li> <li>Operators have limited access to source code and individual elements of data files</li> <li>Users have access only to defined programs and data files</li> </ul>

## Obtaining an Understanding of Significant Account Balances and Transaction Cycles

.89 You should obtain an understanding of the classes of transactions in your client's operations that are significant to the financial statements. For less significant classes of transactions or account balances, an understanding of controls that have a pervasive effect on the organization is usually sufficient.

.90 For significant transactions and account balances you should obtain an understanding of—

- How those transactions are initiated.
- The records, supporting documents, computer media, and specific accounts in the financial statements involved in the processing and reporting of transactions.
- The accounting processing involved from the initiation of a transaction to its inclusion in the financial statements, including how the computer is used to process data.

- The financial reporting process used to prepare the entity's financial statements, including significant accounting estimates and disclosures.

**.91 *Initiating Transactions.*** You should understand how transactions are initiated. Some transactions may be initiated by customers or others outside the entity. Other transactions may be initiated from inside the organization by the use of a computer program; for example, calculating depreciation expense.

**.92** *At Jones Grocery, sales are initiated by customers and recorded in the cash register. At the end of the day the cash register totals are reconciled to the cash on hand, and a deposit is prepared for the day's receipts. On a weekly basis, the daily cash register tapes are batched for each store, forwarded to Mrs. Jones, and entered into the computer. The computer generates a sales register, a sales analysis report, and posts the sales totals to the general ledger.*

**.93 *Accounting Records, Supporting Documents, Computer Media, and Specific Accounts.*** In general you will want to identify the following for your client's significant accounts and transactions:

- Source documents
- The conversion of documents to computer media
- The nature of computer files that are further processed in the flow of information to the general ledger and the financial statements
- Accounts (subsidiary or general ledger master files) affected by the transaction
- Relevant accounting reports, journals, and ledgers produced in the flow of information to the general ledger and the financial statements

**.94** Your client's accounting systems may create many documents, files, and reports that are useful for managing the organization, but you need to understand only those aspects that are relevant to the financial statements.

**.95** *At Jones Grocery, the sales analysis report described in AAM section 4200.92 is used for management information and analysis. The documents and reports relevant to the financial statements are the daily cash register tapes and the computer-generated sales register.*

**.96 *Accounting Processing.*** You should obtain an understanding of how your client processes accounting information—from the initiation of the transaction to its inclusion in the financial statements. This understanding should include how the computer is used to process data. Your understanding involves knowledge of the ways in which transactions are valued, classified, and summarized in data files, journals, or ledgers. For some transactions, there may be several significant processing activities and accounting records, including the use of computer programs. Other transactions may involve only limited processing activities performed manually.

**.97** *At Jones Grocery, the processing of inventory transactions (receipt of goods, sales, spoilage, etc.) involves several processing activities that are linked in the inventory module of the software package. On the other hand, recording depreciation expense is fairly simple. Fixed assets and the related depreciation are maintained on a computer spreadsheet, and each month, Mrs. Jones prepares a journal entry to record depreciation.*

**.98** Understanding the accounting processing also involves understanding the information used for processing and when processing occurs. For example, when considering the completeness assertion, you normally should understand whether transactions entered into the computer system are processed immediately or in batches and how frequently batches are processed.

**.99** The processing of accounting information may involve "end user computing." End user computing occurs when the user is responsible for the development and execution of the computer application that generates the information used by that same person.

.100 *Mrs. Jones developed and maintains the fixed asset spreadsheet that serves as the source document for her monthly depreciation expense journal entry.*

.101 In general, the product of end user computing may be used to—

- Process significant accounting information outside of the off-the-shelf accounting software package. For example, the fixed-asset spreadsheet is separate from the Jones Grocery general ledger software package.
- Make significant accounting decisions. For example, a spreadsheet application may be used to generate information used to write down inventory.
- Accumulate footnote information. For example, a spreadsheet may be used to calculate the five-year debt maturity disclosure.

.102 Generally, end users have no training in the formal computer application development process. Accordingly, applications developed by end users are often inadequately tested, and the development process is often not documented. This situation can cause significant difficulties for an organization if the end user computing application is critical to making business or financial decisions.

.103 The access to end user computing applications may also be an audit concern. Many computer applications used in end user computing come with on-line systems that are capable of restricting users to specific applications, specific departments, or even specific fields. Often, however, these access restrictions facilities are not implemented.

.104 To address these concerns and to ensure the end user applications process data completely and accurately, you should generally look for control policies and procedures that—

- Require all significant end user applications to be adequately tested before use.
- Prescribe documentation standards for significant end user applications.
- Provide for adequate access controls to data.
- Provide a mechanism to prevent or detect the use of incorrect versions of data files.
- Provide for appropriate applications controls, for example, edit checks, range tests, or reasonableness checks.
- Support meaningful user reconciliations.

.105 *Financial Reporting Process.* When gaining an understanding of the financial reporting process, you may determine the extent of client procedures to prepare accounting estimates (when significant accounting estimates are called for) and information for significant disclosures. You also should understand the way in which general ledger information is summarized to determine how the amounts and disclosures are reported in the financial statements.

## Segregation of Duties and Management Override

.106 Small businesses are typically characterized by—

- A dominant owner-manager.
- A lack of segregation of duties.

.107 If your client has these characteristics, you should be sure to address the risks they pose to the entity.

.108 In general, duties should be divided, or segregated, among different people to reduce the risk of error or inappropriate actions. For instance, responsibilities for authorizing transactions, recording them, and handling the related assets should be divided.

.109 Even small businesses with only a few employees can usually parcel out responsibilities to achieve the necessary checks and balances. If that is not possible—as may occasionally be the case—direct oversight of the incompatible activities by the owner-manager can provide the necessary control. Thus, a dominant owner-manager may be a positive element in the design of internal controls.

.110 A dominant owner-manager may be a negative element in the design of internal control when he or she is able to override established policies and procedures.

.111 Management *override* should be distinguished from management *intervention*. Management *intervention* is discussed in AAM section 4200.22 and is described as the overrule of internal control for legitimate purposes. For example, management intervention is usually necessary to deal with non-recurring and non-standard transactions or events that otherwise might be handled by the system.

.112 In contrast, management *override* is the overrule of internal control for *illegitimate* purposes with the intent of personal gain or enhanced presentation of an entity's financial condition or compliance status.

.113 An owner-manager might override the control system for many reasons: to increase reported revenue, to boost market value of the entity prior to sale, to meet sales or earnings projections, to bolster bonus pay-outs tied to performance, to appear to cover violations of debt covenant agreements, or to hide lack of compliance with legal requirements. Override practices include deliberate misrepresentations to bankers, lawyers, accountants, and vendors, and intentionally issuing false documents such as sales invoices.

.114 When gaining an understanding of internal control, you should assess the risk of management override.

## Assessing Internal Control Strengths and Weaknesses

.115 When obtaining your understanding of internal control, you should consider the *collective* effect of strengths and weaknesses in various control environment factors. Management's strengths and weaknesses may have a pervasive effect on internal control. For example, owner-manager controls may mitigate a lack of segregation of duties. However, human resource policies and practices directed toward hiring competent financial and accounting personnel may not mitigate a strong bias by top management to overstate earnings.

.116 Internal control strengths may indicate account balances, transaction classes or assertions where you can assess control risk below the maximum. See additional guidance in AAM section 4600. Internal control weaknesses usually indicate areas where a primarily substantive audit approach is required. However, in situations where electronic evidence (information transmitted, processed, maintained, or accessed by electronic means) is significant, testing of the related internal control generally will be necessary to obtain competent evidential matter.

.117 In rare circumstances, your understanding of internal control may raise doubts about the auditability of an entity's financial statements. Concerns about the integrity of the entity's management may be so serious as to cause you to conclude that the risk of management misrepresentation in the financial statements is such that an audit cannot be conducted. Concerns about the nature and extent of an entity's records may cause you to conclude it is unlikely that sufficient competent evidential matter will be available to support an opinion on the financial statements.

.118 If you determine the entity is unauditably, you should consider withdrawing from the engagement.

# AAM Section 4300

## *Illustrative Internal Control Forms—Small Business*

.01 The following are illustrative internal control forms you might use to document your understanding of internal control sufficient to plan an audit. The illustrative questions are numbered merely for organizational purposes. The numbers are in no way intended to infer completeness or a preferred sequence. These forms may require modifications to meet the needs, preferences and circumstances of individual firms and their clients. Whenever you use standardized forms, checklists, or questionnaires, you should recognize that important matters in a particular set of circumstances may not be covered.

### Instructions

.02 The forms in AAM sections 4310 and 4320 may be used on all small business audit engagements. Small businesses are typically characterized by—

- A single owner or a small group of owners who manage the business on a day-to-day basis.
- A small number of employees involved in the accounting function.
- No outside board of directors or internal audit function.
- The use of off-the-shelf, unmodified computer software or the use of an outside computer service organization to process significant accounting information.

.03 If your client does not have the characteristics of a small business, you should consider completing the internal control forms for medium to large businesses located in AAM section 4400.

.04 In every audit, you should obtain an understanding of each of the components of internal control sufficient to plan the audit. These forms should be used as a tool in documenting your understanding of internal control, how internal controls for your client are designed, and whether they have been placed in operation.

.05 These forms should be used in conjunction with other forms in certain circumstances:

- *Control Environment Checklist—Small Business Computer Applications* [AAM section 4310]. To be used whenever the client uses microcomputers or outside service organizations to process significant accounting information.
- *Financial Reporting Information Systems and Controls Checklist* [AAM section 4320]. To be used for each significant account and transactions cycle.

.06 These forms are appropriate whenever you plan a primarily substantive audit approach (see paragraph .08 below). That is, their completion generally results in control risk being assessed at or slightly below the maximum for all assertions related to account balances and transactions.

.07 If you plan a lower control risk assessment for certain assertions you are required to—

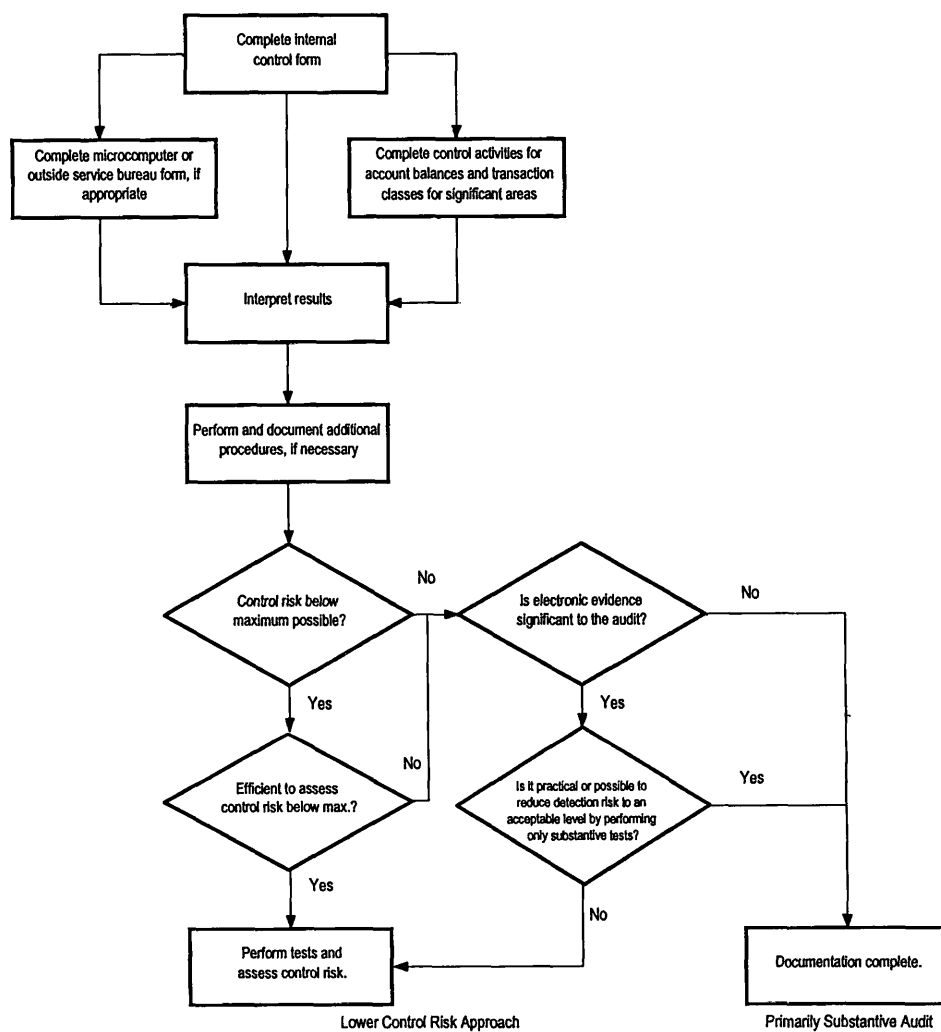

- Identify specific controls relevant to specific assertions that are likely to prevent or detect material misstatements in those assertions, and

- Perform tests of controls to evaluate their effectiveness.

.08 In situations where a significant amount of audit evidence is transmitted, processed, maintained, or accessed electronically, it generally will be necessary to test the internal control surrounding the electronic evidence (for example, controls over generation, storage, manipulation, and transmission), even if a primarily substantive audit approach is followed. This is because the competence of electronic evidence usually depends on the effectiveness of internal control over its validity and completeness. In these situations the auditor should perform tests of controls to gather evidence to support an assessed level of control risk below the maximum for affected assertions. If the auditor concludes control risk must be assessed at the maximum in such situations or the evidence gathered through tests of controls and substantive tests is insufficient, the auditor should qualify or disclaim an opinion because of the scope limitation.

.09 These forms are organized to conform to the control components and overall internal control framework described in the Audit Guide *Consideration of Internal Control in a Financial Statement Audit*. This framework is only a way for you to consider the impact of internal control on an audit. The classification of any specific control into a particular component should not be your primary concern. Rather, your primary consideration is whether a specific control affects financial statement assertions.

.10 The following flowchart describes how this form can be used in conjunction with the other forms included in this section to document your understanding of internal controls.

## Interpreting the Results

.11 When obtaining an understanding of internal control, you should consider the *collective* effect of the strengths and weaknesses in various control components. Management's strengths and weaknesses may have a pervasive effect on internal control. For example, owner-manager controls may mitigate a lack of segregation of duties. However, human resource policies and practices directed toward hiring competent financial and accounting personnel may not mitigate a strong bias by the owner-manager to overstate earnings.

.12 Answers that fall toward the right side of the form ("Strongly Agree" or "Somewhat Agree") indicate areas of strength in the control environment. You should consider whether these areas of strength indicate that a control risk assessment below the maximum may be possible for some assertions.

.13 Answers that fall toward the left side of the form ("Strongly Disagree" or "Somewhat Disagree") indicate areas of weakness in the entity's internal controls. You should assess how these areas of weakness affect the planning of the audit. This assessment should be documented in section V of the form. In making this assessment, you normally focus on—

- The types of material misstatements that could occur as a result of the identified weakness, and
- The risk that those misstatements will occur.

## Documenting a Conclusion

.14 After completing this form, the Financial Reporting Information Systems and Controls Checklist for significant areas, and the Control Environment Checklist—Microcomputers and Outside Service Bureaus, you should document your conclusion regarding internal control. In order to perform a primarily substantive audit, you must understand the entity's internal control sufficiently—

- To assess the risk of material misstatement in assertions related to material financial statement components, and
- To design effective substantive procedures.

.15 If the completion of this form is not sufficient for you to obtain the necessary level of understanding listed in AAM section 4300.13, you should perform and document the results of additional tests to gain that level of understanding.

.16

### I. Document Your Understanding of the Control Environment

In the space provided below, indicate whether you strongly agree, somewhat agree, somewhat disagree, or strongly disagree with the following statements. Your answers should be based on—

- Your previous experience with the entity.
- Inquiries of appropriate management, supervisory, and staff personnel.
- Inspection of documents and records.
- Observation of the entity's activities and operations.

	<u>No Opinion</u>	<u>Strongly Disagree</u>	<u>Some- what Disagree</u>	<u>Some- what Agree</u>	<u>Strongly Agree</u>
<b>A. Control Environment Factors</b>					
<i>Integrity and Ethical Values</i>					
1. The business owners and management have high ethical and behavioral standards.	_____	_____	_____	_____	_____
2. Management has communicated (either formally through written policies or informally by its own behavior) the ethical and behavioral standards for the entity.	_____	_____	_____	_____	_____
3. The owner effectively segregates personal funds, income, and expenses from those of the business.	_____	_____	_____	_____	_____
4. Management reinforces its ethical and behavioral standards.	_____	_____	_____	_____	_____
5. Management appropriately deals with signs that problems exist (e.g., defective products or hazardous waste) even when the cost of identifying and solving the problem could be high.	_____	_____	_____	_____	_____
6. Management has removed or reduced incentives and temptations that might prompt personnel to engage in dishonest, illegal, or unethical acts.	_____	_____	_____	_____	_____
For example, there is generally <i>no</i> —					
• Pressure to meet unrealistic performance targets.	_____	_____	_____	_____	_____
• High performance-dependent rewards.	_____	_____	_____	_____	_____
• Upper and lower cutoffs on bonus plans.	_____	_____	_____	_____	_____
7. Management has provided guidance on the situations and frequency with which intervention of established controls is appropriate.	_____	_____	_____	_____	_____
8. Management intervention is documented and explained appropriately.	_____	_____	_____	_____	_____
<i>Commitment to Competence</i>					
9. Management has appropriately considered the knowledge and skill levels necessary to accomplish financial reporting tasks.	_____	_____	_____	_____	_____

	<u>No Opinion</u>	<u>Strongly Disagree</u>	<u>Some- what Disagree</u>	<u>Some- what Agree</u>	<u>Strongly Agree</u>
10. Employees with financial reporting tasks generally have the knowledge and skills necessary to accomplish those tasks.	_____	_____	_____	_____	_____
<b><i>Management's Philosophy and Operating Style</i></b>					
11. Management moves carefully, proceeding only after carefully analyzing the risks and potential benefits of accepting business risks.	_____	_____	_____	_____	_____
12. Management is generally cautious or conservative in financial reporting and tax matters.	_____	_____	_____	_____	_____
13. There is relatively low turnover of key personnel.	_____	_____	_____	_____	_____
14. There is <i>no</i> undue pressure to meet budget, profit, or other financial and operating goals.	_____	_____	_____	_____	_____
<b><i>Organizational Structure</i></b>					
15. The entity has defined, either formally or informally, key areas of authority and responsibility.	_____	_____	_____	_____	_____
16. The entity has defined, either formally or informally, appropriate lines of reporting.	_____	_____	_____	_____	_____
<b><i>Assignment of Authority and Responsibility</i></b>					
17. Authority and responsibility are delegated only to the degree necessary to achieve the company's objectives.	_____	_____	_____	_____	_____
18. Proper resources are provided for personnel to carry out their duties.	_____	_____	_____	_____	_____
19. Personnel understand the entity's objectives and know how their individual actions interrelate and contribute to those objectives.	_____	_____	_____	_____	_____
20. Personnel recognize how and for what they will be held accountable.	_____	_____	_____	_____	_____
<b><i>Human Resource Policies and Practices</i></b>					
21. The entity generally hires the most qualified people for the job.	_____	_____	_____	_____	_____

	<u>No Opinion</u>	<u>Strongly Disagree</u>	<u>Some- what Disagree</u>	<u>Some- what Agree</u>	<u>Strongly Agree</u>
22. Hiring practices emphasize educational background, prior work experience, past accomplishments, and evidence of integrity and ethical behavior.	_____	_____	_____	_____	_____
23. Hiring practices include formal, in-depth employment interviews.	_____	_____	_____	_____	_____
24. Prospective employees are told of the entity's history, culture and operating style.	_____	_____	_____	_____	_____
25. The entity provides training opportunities, and employees are well-trained.	_____	_____	_____	_____	_____
26. Promotions and rotation of personnel are based on periodic performance appraisals.	_____	_____	_____	_____	_____
27. Methods of compensation, including bonuses, are designed to motivate personnel and reinforce outstanding performance.	_____	_____	_____	_____	_____
28. Management does not hesitate to take disciplinary action when violations of expected behavior occur.	_____	_____	_____	_____	_____
<b>B. Other Internal Control Components With a Pervasive Effect on the Organization</b>					
<i>Risk Assessment</i>					
1. Special action is taken to ensure new personnel understand their tasks.	_____	_____	_____	_____	_____
2. Management appropriately considers the control activities performed by personnel who change jobs or leave the company.	_____	_____	_____	_____	_____
3. Management assesses how new accounting and information systems will impact internal control.	_____	_____	_____	_____	_____
4. Management reconsiders the appropriateness of existing control activities when new accounting and information systems are developed and implemented.	_____	_____	_____	_____	_____
5. Employees are adequately trained when accounting and information systems are changed or replaced.	_____	_____	_____	_____	_____

	<u>No Opinion</u>	<u>Strongly Disagree</u>	<u>Some- what Disagree</u>	<u>Some- what Agree</u>	<u>Strongly Agree</u>
6. Accounting and information system capabilities are upgraded when the volume of information increases significantly.	_____	_____	_____	_____	_____
7. Accounting and data processing personnel are expanded as needed when the volume of information increases significantly.	_____	_____	_____	_____	_____
8. The entity has the ability to reasonably forecast operating and financial results.	_____	_____	_____	_____	_____
<b>General Control Activities</b>					
9. The entity prepares operating budgets and cash flow projections.	_____	_____	_____	_____	_____
10. Operating budgets and projections lend themselves to effective comparisons with actual results.	_____	_____	_____	_____	_____
11. Significant variances between budgeted or projected amounts and actual results are reviewed and explained.	_____	_____	_____	_____	_____
12. The company has adequate safekeeping facilities for custody of the accounting records such as fireproof storage areas and restricted access cabinets.	_____	_____	_____	_____	_____
13. The entity has a suitable record retention plan.	_____	_____	_____	_____	_____
14. Periodically, personnel compare counts of assets to amounts shown on control records.	_____	_____	_____	_____	_____
15. There is adequate segregation of duties among those responsible for authorizing transactions, recording transactions, and maintaining custody of assets.	_____	_____	_____	_____	_____
<b>Information and Communication</b>					
16. Management receives the information they need to carry out their responsibilities.	_____	_____	_____	_____	_____
17. Information is provided at the right level of detail for different levels of management.	_____	_____	_____	_____	_____
18. Information is available on a timely basis.	_____	_____	_____	_____	_____

	<u>No Opinion</u>	<u>Strongly Disagree</u>	<u>Some- what Disagree</u>	<u>Some- what Agree</u>	<u>Strongly Agree</u>
19. Information with accounting significance (for example, slow paying customers) is transmitted across functional lines in a timely manner.	_____	_____	_____	_____	_____
<b>Monitoring</b>					
20. Customer complaints about billings are investigated for their underlying causes.	_____	_____	_____	_____	_____
21. Communications from bankers, regulators, or other outside parties are monitored for items of accounting significance.	_____	_____	_____	_____	_____
22. Management responds appropriately to auditor recommendations on ways to strengthen internal controls.	_____	_____	_____	_____	_____
23. Employees are required to "sign off" to evidence the performance of critical control functions.	_____	_____	_____	_____	_____

## II. Determine Other Areas for Evaluation

The completion of section I of this form is the first of several forms that may be used to document your understanding of internal control sufficiently to plan a primarily substantive audit. It is important to remember that in entities where significant information is transmitted, processed, maintained, or accessed electronically, just gaining an understanding of the controls surrounding the electronic environment may not be enough. Since the competence of electronic evidence usually depends on the effectiveness of internal control over its validity and completeness, an auditor may have to test the internal control surrounding that evidence to gain competent evidential matter—even in a primarily substantive approach. In the space provided below, determine which of the following areas apply. A "Yes" answer generally indicates you should complete the related form.

	<u>No</u>	<u>Yes</u>	<u>W/P Ref.</u>
<b>Microcomputers or Outside Service Bureaus</b>			
1. The company uses microcomputers or outside computer service bureaus to process significant accounting information.	_____	_____	
If "yes," the Control Environment Checklist—Small Business Computer Applications can be found at—			
			_____

### Significant Account Balances and Transaction Cycles

2. The following account balances or transaction cycles are significant to the company's financial statements.			
a. Revenue cycle, including sales, accounts receivable, or cash receipts. (Normally considered significant for most small businesses.)	_____	_____	
If "yes," the related Financial Reporting Information Systems and Controls Checklist can be found at—			
			_____

	<u>No</u>	<u>Yes</u>	<u>W/P Ref.</u>
b. Purchasing cycle, including purchasing, accounts payable, or cash disbursements. (Normally considered significant for most small businesses.)	_____	_____	_____
If “yes,” the related Financial Reporting Information Systems and Controls Checklist can be found at—			_____
c. Inventory, including inventory and cost of sales.	_____	_____	_____
If “yes,” the related Financial Reporting Information Systems and Controls Checklist can be found at—			_____
d. Financing, including investments and debt.	_____	_____	_____
If “yes,” the related Financial Reporting Information Systems and Controls Checklist can be found at—			_____
e. Property, plant, and equipment, including fixed assets and depreciation.	_____	_____	_____
If “yes,” the related Financial Reporting Information Systems and Controls Checklist can be found at—			_____
f. Payroll.	_____	_____	_____
If “yes,” the related Financial Reporting Information Systems and Controls checklist can be found at —			_____

### III. Assess Segregation of Duties

An appropriate segregation of duties often appears to present difficulties in small business organizations, at least on the surface. Even companies that have only a few employees, however, can usually parcel out their responsibilities to achieve the necessary checks and balances. But if that is not possible—as may occasionally be the case—direct oversight of the incompatible activities by the owner-manager can provide the necessary control. For example, it is not uncommon, where there is a risk of improper cash payments, for the owner-manager to be named the only authorized check signer, or to require that monthly bank statements be delivered unopened directly to him or her for review of paid checks. In the space provided below, assess the segregation of duties for the company based on the completion of sections I and II of this form. Your comments should address—

- The person with incompatible responsibilities and the nature of those responsibilities.
- Any mitigating factors or controls, such as direct management oversight.
- The risk that material misstatements might occur as a result of a lack of segregation of duties and the type of those misstatements.
- How substantive procedures will be designed to limit the risk of those misstatements to an acceptable level.

### IV. Assess the Risk of Management Override

Even in effectively controlled entities—those with generally high levels of integrity and control consciousness—a manager might be able to override controls. The term “management override” means—

Overruling prescribed policies or procedures for *illegitimate* purposes with the intent of personal gain or enhanced presentation of an entity’s financial condition or compliance status.

An owner-manager might override controls for many reasons: to increase reported revenue, to boost market value of the entity prior to sale, to meet sales or earnings projections, to bolster bonus pay-outs tied to performance, to appear to cover violations of debt covenant agreements, or to hide lack of compliance with legal requirements. Override practices include deliberate misrepresentations to bankers, lawyers, accountants, and vendors, and intentionally issuing false documents such as sales invoices.

Management override is different from management intervention, which is the overrule of prescribed policies or procedures for legitimate purposes. For example, management intervention is usually necessary to deal with non-recurring and non-standard transactions or events that otherwise might be handled by the system.

In the space below, assess the risk of management *override* for this company. You should consider the risk that management override possibilities exist, the risk that management will take advantage of those possibilities, and any evidence that management has engaged in override practices. If the risk of management override is greater than low, indicate how planned audit procedures will reduce this risk to an acceptable level.

---

---

---

---

---

---

---

---

## V. Interpret Results

You should consider the *collective* effect of the strengths and weaknesses in various control components. Management's strengths and weaknesses may have a pervasive effect on internal control. For example, owner-manager controls may mitigate a lack of segregation of duties. However, human resource policies and practices directed toward hiring competent financial and accounting personnel may not mitigate a strong bias by the owner-manager to overstate earnings.

### A. Areas That May Allow for Control Risk to Be Assessed Below the Maximum

Based on the completion of sections I through IV of this form you may have become aware of certain accounts, transactions and assertions where it may be possible and efficient to plan a control risk assessment below the maximum. In the area below, document those accounts, transactions, and assertions and the related tests of controls.

<u>Accounts, Transactions, and Assertions</u>	<u>Test of Controls Working Paper Reference</u>
<hr/>	<hr/>
<hr/>	<hr/>
<hr/>	<hr/>
<hr/>	<hr/>

### B. Areas of Possible Control Weakness

Based on the completion of sections I through IV of this form you may have become aware of certain areas that may indicate possible control weaknesses, *not including those areas relating to segregation of duties and management override documented in sections III and IV.*

In the space provided below, document those areas of possible weakness and the impact the identified weakness will have on the audit. Discuss—

- The nature of the identified possible weakness.
- Any mitigating factors or controls, such as direct management oversight.
- The risk that material misstatements might occur as a result of the weakness and the type of those misstatements.

## AAM Section 4310

# *Control Environment Checklist—Small Business Computer Applications*

.01 This questionnaire may be used to document your understanding of the way computers are used in the information and communication systems of a small business. This questionnaire should be used when the client uses either or both of the following to process significant accounting information.

- Microcomputers and off-the-shelf, unmodified software
- Outside computer service bureaus

.02

### I. Microcomputer Hardware

Complete the form on the next page to describe the company's microcomputer hardware; for example:

CPU Model/Make:	Digital Starion 942
Processor:	133 MHZ Pentium
RAM:	16 MB
Hard-Disk Storage:	1600 MB
Operating System:	Windows 95 and DOS
Peripherals:	Dedicated printer

[illegible]

## II. Microcomputer Accounting Software

Describe the name and version of the microcomputer accounting software package.

---

---

---

Which of the following modules have been implemented?

<i>Module</i>	<i>Module Implemented</i>		
	<i>Yes</i>	<i>No</i>	<i>N/A</i>
General ledger	<hr/>	<hr/>	<hr/>
Cash receipts	<hr/>	<hr/>	<hr/>
Cash disbursements	<hr/>	<hr/>	<hr/>
Accounts receivable	<hr/>	<hr/>	<hr/>
Accounts payable	<hr/>	<hr/>	<hr/>
Inventory	<hr/>	<hr/>	<hr/>
Fixed assets and depreciation	<hr/>	<hr/>	<hr/>
Other:	<hr/>	<hr/>	<hr/>
<hr/>	<hr/>	<hr/>	<hr/>
<hr/>	<hr/>	<hr/>	<hr/>
<hr/>	<hr/>	<hr/>	<hr/>

## III. Other Microcomputer Software

List the other software products used by the company.

<i>Name and Version</i>
<hr/>
<hr/>
<hr/>
<hr/>
<hr/>
<hr/>
<hr/>
<hr/>
<hr/>

## IV. Local Area Network

If the company processes significant financial information in a local area network (LAN) environment, consider attaching a description of the LAN configuration, including the location of the server and workstations. Describe the following:

<i>Name and Version</i>
Operating system
Network software
Network management software
<hr/>

## V. Microcomputer Control Environment

In the space provided below, indicate whether you strongly agree, somewhat agree, somewhat disagree, or strongly disagree with the following statements. Your answers should be based on—

- Your previous experience with the entity.
- Inquiries of appropriate management, supervisory, and staff personnel.
- Inspection of documents and records.
- Observation of the entity's activities and operations.

	<u>No Opinion</u>	<u>Strongly Disagree</u>	<u>Some- what Disagree</u>	<u>Some- what Agree</u>	<u>Strongly Agree</u>
<b>Acquisition of Hardware</b>					
1. The company has a coherent management plan for the purchase of and continued investment in computer hardware.	_____	_____	_____	_____	_____
2. The processing chips, RAM, and hard-disk storage are sufficient to meet the company's needs.	_____	_____	_____	_____	_____
3. The company's computer hardware is safely and properly installed.	_____	_____	_____	_____	_____
4. The company has standard, regular hardware maintenance procedures	_____	_____	_____	_____	_____
<b>Acquisition of Software</b>					
5. The company has a coherent management plan for the purchase and continued investment in computer software.	_____	_____	_____	_____	_____
6. The company researches software products to determine whether they meet the needs of the intended users.	_____	_____	_____	_____	_____
7. The company's application programs are compatible with each other.	_____	_____	_____	_____	_____
8. The company obtains recognized software from reputable sources and only accepts delivery if the software is in the manufacturer's sealed package.	_____	_____	_____	_____	_____
9. Company policy prohibits the use of unauthorized programs introduced by employees.	_____	_____	_____	_____	_____
10. Company policy prohibits the downloading of untested software from sources such as dial-up bulletin boards.	_____	_____	_____	_____	_____
11. The company uses virus protection software to screen for virus infections.	_____	_____	_____	_____	_____
<b>Physical Security</b>					
12. The company has established procedures for the periodic back-up of files.	_____	_____	_____	_____	_____

	<u>No Opinion</u>	<u>Strongly Disagree</u>	<u>Some- what Disagree</u>	<u>Some- what Agree</u>	<u>Strongly Agree</u>
13. Back-up procedures include multiple generations.	_____	_____	_____	_____	_____
14. Back-up files are stored in a secure, off-site location.	_____	_____	_____	_____	_____

**Logical Access**

15. Management has identified confidential and sensitive data for which access should be restricted.	_____	_____	_____	_____	_____
16. Procedures are in place to restrict access to confidential and sensitive data.	_____	_____	_____	_____	_____
17. Procedures are in place to reduce the risk of unauthorized transactions being entered into processing.	_____	_____	_____	_____	_____
18. The use of utility programs is controlled or monitored carefully.	_____	_____	_____	_____	_____

**General Operations**

19. Clear job descriptions exist for the use of microcomputers.	_____	_____	_____	_____	_____
20. Management periodically assesses the training needs for personnel who use microcomputers to process significant accounting information.	_____	_____	_____	_____	_____
21. Personnel who use microcomputers to process significant accounting information are adequately trained.	_____	_____	_____	_____	_____

**VI. Outside Computer Service Organizations**

This section should be used to document your understanding of how the company uses an outside computer service organization to process significant accounting information. Guidance on auditing entities that use computer service organizations is contained in SAS No. 70, *Reports on the Processing of Transactions by Service Organizations* (AU section 324).

1. List the name of the service organization and the general types of services it provides.

---

---

---

---

---

2. Are the general ledger and other primary accounting records processed by an outside service organization? \_\_\_\_\_ Yes \_\_\_\_\_ No

If yes, describe the source documents provided to the service organization, the reports and other documentation received from the organization, and the controls maintained by the user over input and output to prevent or detect material misstatement.

---

---

---

3. List the type and date of the most recent service auditor's report.

---

---

---

---

[The next page is 4341.]

## AAM Section 4320

# *Financial Reporting Information Systems and Controls Checklist—Small Business*

### Revenue Cycle

#### Revenue, Accounts Receivable, and Cash Receipts

.01 This checklist may be used on any small business audit engagement when the revenue cycle is significant. Normally, the revenue cycle is significant in most small businesses.

.02 The purpose of this checklist is to document your understanding of controls for significant classes of transactions. Your knowledge of the revenue cycle should be sufficient for you to understand—

- How cash and credit sales are initiated.
- How cash receipts are recorded.
- How sales and cash receipts are processed by the financial reporting information system.
- The accounting records and supporting documents involved in the processing and reporting of sales, accounts receivable, and cash receipts.
- The processes used to prepare significant accounting estimates and disclosures.

#### Interpreting Results

.03 This checklist documents your understanding of how internal control over the revenue cycle is designed and whether it has been placed in operation. It should help you in planning a primarily substantive approach. In entities where significant information is transmitted, processed, maintained, or accessed electronically, just gaining an understanding of internal control may not be enough (even in a primarily substantive approach). Since the competence of electronic evidence usually depends on the effectiveness of internal control over its validity and completeness, an auditor may have to test the internal control surrounding that evidence to gather evidence to support an assessed level of control risk below the maximum for affected assertions. In situations where the auditor decides to rely on internal control and assess control risk below the maximum for certain assertions (including instances where the preponderance of electronic evidence necessitates it), tests of controls will need to be designed and then specific controls will need to be tested to determine the effectiveness of their design and operation.

.04 The processes, documents, and controls listed on this questionnaire are typical for small business entities but are by no means all-inclusive. The preponderance of “No” or “N/A” responses may indicate that the entity uses other processes, documents, or controls in their information and communication systems. You should consider supplementing this questionnaire with a memo or flowchart to document significant features of the client’s system that are not covered by this questionnaire. See AAM section 4500 for example flowcharting techniques.

[illegible]

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>C. Estimates and Disclosures for Sales Transactions</b>				
23. The accounting system generates a monthly aging of accounts receivable.	_____	_____	_____	_____
24. The owner uses the accounts receivable aging to investigate, write-off or adjust delinquent accounts receivable.	_____	_____	_____	_____
25. The owner uses the accounts receivable aging and other information to estimate an allowance for doubtful accounts.	_____	_____	_____	_____
26. The person responsible for financial reporting identifies significant concentrations of credit risk.	_____	_____	_____	_____
<b>II. Cash Receipts</b>				
<b>A. Initiating Cash Receipts Transactions</b>				
1. The entity maintains records of payments on accounts by customer.	_____	_____	_____	_____
2. Someone other than the person responsible for maintaining accounts receivable opens the mail and lists the cash receipts.	_____	_____	_____	_____
3. Cash receipts are deposited intact.	_____	_____	_____	_____
4. Cash receipts are deposited in separate bank accounts when required.	_____	_____	_____	_____
<b>B. Processing Cash Received on Account</b>				
5. Cash receipts are posted to the general ledger on a timely basis.	_____	_____	_____	_____
6. Cash receipts are posted to the accounts receivable subsidiary ledger on a timely basis.	_____	_____	_____	_____
7. Standard journal entries are used to post cash receipts.	_____	_____	_____	_____
8. Timely bank reconciliations are prepared or reviewed by the owner or manager or someone independent of the cash receipts function.	_____	_____	_____	_____

## End User Computing in the Revenue Cycle

.06 End user computing occurs when the user is responsible for the development and execution of the computer application that generates the information used by that same person. For example, an accounting clerk prepares a spreadsheet which shows amortization of premiums or discounts, and the information from the spreadsheet is the source of a journal entry.

.07 The Control Environment Checklist—Small Business Computer Applications was used to document your understanding of off-the-shelf computer software accounting applications such as the general ledger. In this section of the Financial Reporting Information Systems and Controls Checklist, you may document your understanding of how end user computing is used in the revenue cycle to process significant accounting information outside of the general accounting software.

.08 You should obtain an understanding of any spreadsheet application, database, or separate computer system that has been developed by end users to—

- Process significant accounting information outside of the off-the-shelf accounting software package. For example, a spreadsheet accumulates invoices for batch processing.

**.09** In the space provided below, describe how end user computing is used in the revenue cycle. Describe—

- The person or department who performs the computing.
- A general description of the application and its type (e.g., spreadsheet).
- The source of the information used in the application.
- How the results of the application are used in further processing or decision making.

[illegible]

## Procedures and Controls Over End User Computing

**.10** Answer the following questions relating to procedures and controls over end user computing related to the revenue cycle.

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>Revenue Cycle</b>				
1. End user applications listed in paragraph .09 of this form have been adequately tested before use.	_____	_____	_____	_____
2. The application has an appropriate level of built-in controls, such as edit checks, range tests, or reasonableness checks.	_____	_____	_____	_____
3. Access controls limit access to the end user application.	_____	_____	_____	_____
4. A mechanism exists to prevent or detect the use of incorrect versions of data files.	_____	_____	_____	_____
5. The output of the end user applications is reviewed for accuracy or reconciled to the source information.	_____	_____	_____	_____

## Information Processed by Outside Computer Service Organizations

.11 The Control Environment Checklist—Small Business Computer Applications was used to document your understanding of the client's use of an outside computer service organization to process entity-wide accounting information such as the general ledger. In this section you will document your understanding of how the entity uses an outside computer service organization to process information relating specifically to the revenue cycle.

.12 In the space below, describe the revenue cycle information processed by the outside computer service bureau. Discuss—

- The general nature of the application.
- The source documents used by the service organization.
- The reports or other accounting documents produced by the service organization.
- The nature of the service organization's responsibilities. Do they merely record entity transactions and process related data, or do they have the ability to initiate transactions on their own?
- Controls maintained by the entity to prevent or detect material misstatement in the input or output.

---

---

---

---

---

---

---

---

## Purchasing Cycle

### Purchasing, Accounts Payable, and Cash Disbursements

.13 This checklist may be used on any small business audit engagement where the purchasing cycle is significant. Normally, the purchasing cycle is significant for most small businesses.

.14 The purpose of this checklist is to document your understanding of controls for significant classes of transactions. Your knowledge of the purchasing cycle should be sufficient for you to understand—

- How purchases are initiated and goods received.
- How cash disbursements are recorded.
- How purchases and cash disbursements are processed by the accounting system.
- The accounting records and supporting documents involved in the processing and reporting of purchases, accounts payable, and cash disbursements.
- The processes used to prepare significant accounting estimates and disclosures.

## Interpreting Results

.15 This checklist documents your understanding of how internal control over the purchasing cycle is designed and whether it has been placed in operation. It should help you in planning a primarily substantive approach. In entities where significant information is transmitted, processed, maintained, or accessed electronically, just gaining an understanding of internal control may not be enough (even in a primarily substantive approach). Since the competence of electronic evidence usually depends on the effectiveness of

internal control over its validity and completeness, an auditor may have to test the internal control surrounding that evidence to gather evidence to support an assessed level of control risk below the maximum for affected assertions. In situations where the auditor decides to rely on internal control and assess control risk below the maximum for certain assertions (including instances where the preponderance of electronic evidence necessitates it), tests of controls will need to be designed and then specific controls will need to be tested to determine the effectiveness of their design and operation.

.16 The processes, documents, and controls listed on this questionnaire are typical for small business entities but are by no means all-inclusive. The preponderance of "No" or "N/A" responses may indicate that the entity uses other processes, documents, or controls in their information and communication systems. You should consider supplementing this questionnaire with a memo or flowchart to document significant features of the client's system that are not covered by this questionnaire. See AAM section 4500 for example flowcharting techniques.

.17

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>I. Purchases and Accounts Payable</b>				
<b>A. Initiating Purchases and Receipt of Goods</b>				
1. All purchases over a predetermined amount are approved by the owner.	_____	_____	_____	_____
2. Non-routine purchases (for example, services, fixed assets, or investments) are approved by the owner.	_____	_____	_____	_____
3. A purchase order system is used, prenumbered purchase orders are accounted for, and physical access to purchase orders is controlled.	_____	_____	_____	_____
4. Open purchase orders are periodically reviewed.	_____	_____	_____	_____
5. All goods are inspected and counted when received.	_____	_____	_____	_____
6. Prenumbered receiving reports, or a log, are used to record the receipt of goods.	_____	_____	_____	_____
7. The receiving reports or log indicate the date the items were received.	_____	_____	_____	_____
<b>B. Processing Purchases</b>				
8. Invoices from vendors are matched with applicable receiving reports.	_____	_____	_____	_____
9. Invoices are reviewed for proper quantity and prices, and mathematical accuracy.	_____	_____	_____	_____
10. Invoices from vendors are posted to the general ledger on a timely basis.	_____	_____	_____	_____
11. Invoices from vendors are posted to the accounts payable subsidiary ledger on a timely basis.	_____	_____	_____	_____
12. Standard journal entries are used to post accounts payable.	_____	_____	_____	_____
13. Accounts payable account per the general ledger is reconciled periodically to the accounts payable subsidiary ledger.	_____	_____	_____	_____
14. Statements from vendors are reconciled to the accounts payable subsidiary ledger.	_____	_____	_____	_____

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>C. Disclosures</b>				
15. Management has the information to identify vulnerability due to concentrations of suppliers (SOP 94-6).	_____	_____	_____	_____
<b>II. Cash Disbursements</b>				
<b>A. Initiating Cash Disbursements</b>				
1. All disbursements except those from petty cash are made by check.	_____	_____	_____	_____
2. All checks are recorded.	_____	_____	_____	_____
3. Supporting documentation such as invoices and receiving reports are reviewed before the checks are signed.	_____	_____	_____	_____
4. Supporting documents are canceled to avoid duplicate payment.	_____	_____	_____	_____
<b>B. Processing Cash Disbursements</b>				
5. Cash disbursements are posted to the general ledger on a timely basis.	_____	_____	_____	_____
6. Cash disbursements are posted to the accounts payable subsidiary ledger on a timely basis.	_____	_____	_____	_____
7. Standard journal entries are used to post cash disbursements.	_____	_____	_____	_____
8. Timely bank reconciliations are prepared or reviewed by the owner or manager or someone independent of the cash receipts function.	_____	_____	_____	_____

## End User Computing in the Purchasing Cycle

.18 End user computing occurs when the user is responsible for the development and execution of the computer application that generates the information used by that same person. For example, an accounting clerk prepares a spreadsheet that amortizes premiums or discounts, and the information from the spreadsheet is the source of a journal entry.

.19 The Control Environment Checklist—Small Business Computer Applications was used to document your understanding of off-the-shelf computer software accounting applications such as the general ledger. In this section of the Financial Reporting Information Systems and Controls Checklist, you may document your understanding of how end user computing is used in the purchasing cycle to process significant accounting information outside of the general accounting software.

.20 You should obtain an understanding of any spreadsheet application, database, or separate computer system that has been developed by end users to—

- Process significant accounting information outside of the off-the-shelf accounting software package. For example, a spreadsheet accumulates non-routine purchases for batch processing.
- Make significant accounting decisions.
- Accumulate footnote information. For example, a database of vendors provides information for possible concentration of risk disclosures.

.21 In the space provided below, describe how end user computing is used in the purchasing cycle. Describe—

- The person or department who performs the computing.

- [illegible]

		<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>Purchasing Cycle</b>					
1.	End user applications listed in paragraph .21 of this form have been adequately tested before use.	_____	_____	_____	_____
2.	The application has an appropriate level of built-in controls, such as edit checks, range tests, or reasonableness checks.	_____	_____	_____	_____
3.	Access controls limit access to the end user application.	_____	_____	_____	_____
4.	A mechanism exists to prevent or detect the use of incorrect versions of data files.	_____	_____	_____	_____
5.	The output of the end user applications is reviewed for accuracy or reconciled to the source information.	_____	_____	_____	_____

- The general nature of the application.
- The source documents used by the service organization.
- The reports or other accounting documents produced by the service organization.
- The nature of the service organization's responsibilities. Do they merely record entity transactions and process related data, or do they have the ability to initiate transactions on their own?

- Controls maintained by the entity to prevent or detect material misstatement in the input or output.

## Inventory

### Inventory and Cost of Sales

.25 This checklist may be used on any small business audit engagement where inventory is a significant transaction cycle.

.26 The purpose of this checklist is to document your understanding of controls for significant classes of transactions. Your knowledge of the inventory cycle should be sufficient for you to understand—

- How costs are capitalized to inventory.
- How cost is relieved from inventory.
- How inventory costs and cost of sales are processed by the financial reporting information system.
- The procedures used to take the physical inventory count.
- The accounting records and supporting documents involved in the processing and reporting of inventory and cost of sales.
- The processes used to prepare significant accounting estimates and disclosures.

### Interpreting Results

.27 This checklist documents your understanding of how internal control over the inventory cycle is designed and whether it has been placed in operation. It should help you in planning a primarily substantive approach. In entities where significant information is transmitted, processed, maintained, or accessed electronically, just gaining an understanding of internal control may not be enough (even in a primarily substantive approach). Since the competence of electronic evidence usually depends on the effectiveness of internal control over its validity and completeness, an auditor may have to test the internal control surrounding that evidence to gather evidence to support an assessed level of control risk below the maximum for affected assertions. In situations where the auditor decides to rely on internal control and assess control risk below the maximum for certain assertions (including instances where the preponderance of electronic evidence necessitates it), tests of controls will need to be designed and then specific controls will need to be tested to determine the effectiveness of their design and operation.

.28 The processes, documents, and controls listed on this questionnaire are typical for small business entities but are by no means all-inclusive. The preponderance of “No” or “N/A” responses may indicate that the entity uses other processes, documents, or controls in their information and communication systems. You should consider supplementing this questionnaire with a memo or flowchart to document significant features of the client’s system that are not covered by this questionnaire. See AAM section 4500 for example flowcharting techniques.

.29

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>I. Inventory and Cost of Sales</b>				
<b>A. Capturing Capitalizable Costs<sup>1</sup></b>				
1. The entity uses a cost accounting system to accumulate capitalizable costs.	_____	_____	_____	_____
2. The cost accounting system distinguishes between costs that should be capitalized for GAAP purposes and those that should be capitalizable for tax purposes.	_____	_____	_____	_____
3. The cost accounting system interfaces with the general ledger.	_____	_____	_____	_____
4. Production cost budgets are periodically compared to actual costs, and significant differences are explained.	_____	_____	_____	_____
<b>B. Inventory Records</b>				
5. The entity maintains adequate inventory records of prices and amounts on hand.	_____	_____	_____	_____
6. Withdrawals from inventory are based on prenumbered finished inventory requisitions, shipping reports, or both.	_____	_____	_____	_____
7. Additions to and withdrawals from inventory are posted to the inventory records and the general ledger.	_____	_____	_____	_____
8. Standard journal entries are used to post inventory transactions to the inventory records and the general ledger.	_____	_____	_____	_____
9. Inventory records are periodically reconciled to the general ledger.	_____	_____	_____	_____
10. Inventory records are reconciled to a physical inventory count.	_____	_____	_____	_____
<b>C. Physical Inventory Counts</b>				
11. Inventory is counted at least once a year.	_____	_____	_____	_____
12. Physical inventory counters are given adequate instructions.	_____	_____	_____	_____
13. Inventory count procedures are sufficient to provide an accurate count, including steps to ensure—				
• Proper cut-off.	_____	_____	_____	_____
• Identification of obsolete items.	_____	_____	_____	_____
• All items are counted once and only once.	_____	_____	_____	_____
• Tag control.	_____	_____	_____	_____
<b>D. Estimates and Disclosures</b>				
14. Management is able to identify excess, slow-moving, or obsolete inventory.	_____	_____	_____	_____

<sup>1</sup> You should also consider completing the Financial Reporting Information Systems and Controls Checklist for the purchasing cycle to document your understanding of how the purchase of inventory is initiated.

## Procedures and Controls Over End User Computing

.34 Answer the following questions relating to procedures and controls over end user computing related to the inventory cycle.

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>Inventory Cycle</b>				
1. End user applications listed in paragraph .33 of this form have been adequately tested before use.	_____	_____	_____	_____
2. The application has an appropriate level of built-in controls, such as edit checks, range tests, or reasonableness checks.	_____	_____	_____	_____
3. Access controls limit access to the end user application.	_____	_____	_____	_____
4. A mechanism exists to prevent or detect the use of incorrect versions of data files.	_____	_____	_____	_____
5. The output of the end user applications is reviewed for accuracy or reconciled to the source information.	_____	_____	_____	_____

## Information Processed by Outside Computer Service Organizations

.35 The Control Environment Checklist—Small Business Computer Applications was used to document your understanding of the client's use of an outside computer service organization to process entity-wide accounting information such as the general ledger. In this section you will document your understanding of how the entity uses an outside computer service organization to process information relating specifically to the inventory cycle.

.36 In the space below, describe the inventory cycle information processed by the outside computer service bureau. Discuss—

- The general nature of the application.
- The source documents used by the service organization.
- The reports or other accounting documents produced by the service organization.
- The nature of the service organization's responsibilities. Do they merely record entity transactions and process related data, or do they have the ability to initiate transactions on their own?
- Controls maintained by the entity to prevent or detect material misstatement in the input or output.

## Financing

### Investments and Debt

.37 This checklist may be used on any small business audit engagement where investments or debt are a significant transaction cycle.

.38 The purpose of this checklist is to document your understanding of controls for significant classes of transactions. Your knowledge of the financing cycle should be sufficient for you to understand—

- How investment decisions are authorized and initiated.
- How financing is authorized and captured by the financial reporting information system.
- How investment and debt transactions are processed by the financial reporting system.
- The accounting records and supporting documents involved in the processing and reporting of investments and debt.
- The processes used to prepare significant accounting estimates, disclosures, and presentation.
- How management classifies investments as either trading, available-for-sale, or held to maturity.

### Interpreting Results

.39 This checklist documents your understanding of how internal control over financing is designed and whether it has been placed in operation. It should help you in planning a primarily substantive approach. In entities where significant information is transmitted, processed, maintained, or accessed electronically, just gaining an understanding of internal control may not be enough (even in a primarily substantive approach). Since the competence of electronic evidence usually depends on the effectiveness of internal control over its validity and completeness, an auditor may have to test the internal control surrounding that evidence to gather evidence to support an assessed level of control risk below the maximum for affected assertions. In situations where the auditor decides to rely on internal control and assess control risk below the maximum for certain assertions (including instances where the preponderance of electronic evidence necessitates it), tests of controls will need to be designed and then specific controls will need to be tested to determine the effectiveness of their design and operation.

.40 The processes, documents, and controls listed on this questionnaire are typical for small business entities but are by no means all-inclusive. The preponderance of “No” or “N/A” responses may indicate that the entity uses other processes, documents, or controls in their information and communication systems. You should consider supplementing this questionnaire with a memo or flowchart to document significant features of the client’s system that are not covered by this questionnaire. See AAM section 4500 for example flowcharting techniques.

.41

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>I. Investments</b>				
<b>A. Authorization and Initiation</b>				
1. Investment transactions are authorized by the owner.	_____	_____	_____	_____
2. The owner assesses and understands the risks associated with the entity’s investments.	_____	_____	_____	_____
3. Investments are registered in the name of the company.	_____	_____	_____	_____
4. At acquisition, investments are classified as trading, available-for-sale, or held-to-maturity.	_____	_____	_____	_____

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>B. Processing</b>				
5. Investment transactions are posted to the general ledger on a timely basis.	_____	_____	_____	_____
6. Account statements received from brokers are reviewed for accuracy.	_____	_____	_____	_____
7. Discounts and premiums are amortized regularly using the interest method.	_____	_____	_____	_____
8. Procedures exist to determine the fair value of trading and available-for-sale securities.	_____	_____	_____	_____
9. The general ledger is periodically reconciled to account statements from brokers or physical counts of securities on hand.	_____	_____	_____	_____
<b>C. Disclosures</b>				
10. Management identifies investments with off-balance-sheet credit risk for proper disclosure.	_____	_____	_____	_____
<b>II. Debt</b>				
<b>A. Authorization and Initiation</b>				
1. Financing transactions are authorized by the owner.	_____	_____	_____	_____
2. The owner assesses and understands all terms, covenants, restrictions of debt transactions.	_____	_____	_____	_____
<b>B. Processing and Documentation</b>				
3. Debt transactions are posted to the general ledger on a timely basis.	_____	_____	_____	_____
4. Any premiums or discount are amortized using the interest method.	_____	_____	_____	_____
5. The company maintains up-to-date files of all notes payable.	_____	_____	_____	_____
<b>C. Disclosure</b>				
6. Procedures exist to determine the fair value of notes payable for proper disclosure.	_____	_____	_____	_____
7. Management reviews their compliance with debt covenants on a timely basis.	_____	_____	_____	_____

## End User Computing in the Financing Cycle

.42 End user computing occurs when the user is responsible for the development and execution of the computer application that generates the information used by that same person. For example, an accounting clerk prepares a spreadsheet that amortizes premiums or discounts, and the information from the spreadsheet is the source of a journal entry.

.43 The Control Environment Checklist—Small Business Computer Applications was used to document your understanding of off-the-shelf computer software accounting applications such as the general ledger. In this section of the Financial Reporting Information Systems and Controls Checklist, you may document your understanding of how end user computing is used in the financing cycle to process significant accounting information outside of the general accounting software.

## Information Processed by Outside Computer Service Organizations

.47 The Control Environment Checklist—Small Business Computer Applications was used to document your understanding of the client's use of an outside computer service organization to process entity-wide accounting information such as the general ledger. In this section you will document your understanding of how the entity uses an outside computer service organization to process information relating specifically to the financing cycle.

.48 In the space below, describe the financing cycle information processed by the outside computer service bureau. Discuss—

- The general nature of the application.
- The source documents used by the service organization.
- The reports or other accounting documents produced by the service organization.
- The nature of the service organization's responsibilities. Do they merely record entity transactions and process related data, or do they have the ability to initiate transactions on their own?
- Controls maintained by the entity to prevent or detect material misstatement in the input or output.

## Property, Plant, and Equipment

### Fixed Assets and Depreciation

.49 This checklist may be used on any audit engagement where fixed assets are a significant transaction cycle.

.50 The purpose of this checklist is to document your understanding of controls for significant classes of transactions. Your knowledge of the property, plant, and equipment cycle should be sufficient for you to understand—

- How fixed asset transactions are authorized and initiated. (Additional information on the acquisition of fixed assets is documented on the Accounting Systems and Control Checklist for the Purchasing Cycle.)
- How fixed asset transactions and depreciation are processed by the financial reporting information system.
- The accounting records and supporting documents involved in the processing and reporting of fixed assets and depreciation.
- The processes used to prepare significant accounting estimates and disclosures.

## Interpreting Results

.51 This checklist documents your understanding of how internal control over property, plant, and equipment is designed and whether it has been placed in operation. It should help you in planning a primarily substantive approach. In entities where significant information is transmitted, processed, maintained, or accessed electronically, just gaining an understanding of internal control may not be enough (even in a primarily substantive approach). Since the competence of electronic evidence usually depends on the effectiveness of internal control over its validity and completeness, an auditor may have to test the internal control surrounding that evidence to gather evidence to support an assessed level of control risk below the maximum for affected assertions. In situations where the auditor decides to rely on internal control and assess control risk below the maximum for certain assertions (including instances where the preponderance of electronic evidence necessitates it), tests of controls will need to be designed and then specific controls will need to be tested to determine the effectiveness of their design and operation.

.52 The processes, documents, and controls listed on this questionnaire are typical for small business entities but are by no means all-inclusive. The preponderance of "No" or "N/A" responses may indicate that the entity uses other processes, documents, or controls in their information and communication systems. You should consider supplementing this questionnaire with a memo or flowchart to document significant features of the client's system that are not covered by this questionnaire. See AAM section 4500 for example flowcharting techniques.

.53

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>I. Fixed Assets and Depreciation</b>				
<b>A. Authorization and Initiation</b>				
1. Fixed asset acquisitions and retirements are authorized by the owner.	_____	_____	_____	_____
<b>B. Processing and Documentation</b>				
2. The company maintains detailed records of fixed assets and the related accumulated depreciation.	_____	_____	_____	_____
3. The general ledger and detailed fixed asset records are updated for fixed assets transactions on a timely basis.	_____	_____	_____	_____
4. A process exists for the timely calculation of depreciation expense for both book and tax purposes.	_____	_____	_____	_____
5. The general ledger and detailed fixed asset records are updated for depreciation expense on a timely basis.	_____	_____	_____	_____
6. The general ledger is periodically reconciled to the detailed fixed asset records.	_____	_____	_____	_____
<b>C. Disclosure and Estimation</b>				
7. Management identifies events or changes in circumstances that may indicate fixed assets have been impaired (SFAS 121).	_____	_____	_____	_____
8. Management assesses and understands the risk of specialized equipment becoming subject to technological obsolescence (SOP 94-6).	_____	_____	_____	_____

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>Property, Plant, and Equipment Cycle</b>				
1. End user applications listed in paragraph .57 of this form have been adequately tested before use.	_____	_____	_____	_____
2. The application has an appropriate level of built-in controls, such as edit checks, range tests, or reasonableness checks.	_____	_____	_____	_____
3. Access controls limit access to the end user application.	_____	_____	_____	_____
4. A mechanism exists to prevent or detect the use of incorrect versions of data files.	_____	_____	_____	_____
5. The output of the end user applications is reviewed for accuracy or reconciled to the source information.	_____	_____	_____	_____

### Information Processed by Outside Computer Service Organizations

.59 The Control Environment Checklist—Small Business Computer Applications was used to document your understanding of the client's use of an outside computer service organization to process entity-wide accounting information such as the general ledger. In this section you will document your understanding of how the entity uses an outside computer service organization to process information relating specifically to the property, plant, and equipment cycle.

.60 In the space below, describe the property, plant, and equipment cycle information processed by the outside computer service bureau. Discuss—

- The general nature of the application.
- The source documents used by the service organization.
- The reports or other accounting documents produced by the service organization.
- The nature of the service organization's responsibilities. Do they merely record entity transactions and process related data, or do they have the ability to initiate transactions on their own?
- Controls maintained by the entity to prevent or detect material misstatement in the input or output.

### Payroll Cycle

#### Payroll Expense

.61 This checklist may be used on any small business audit engagement where the payroll cycle is significant.

.62 The purpose of this checklist is to document your understanding of controls for significant classes of transactions. Your knowledge of the payroll cycle should be sufficient for you to understand—

- How the time worked by employees is captured by the financial reporting information system.

- How salaries and hourly rates are established.
- How payroll and the related withholdings are calculated.
- The accounting records and supporting documents involved in the processing and reporting of payroll.

## Interpreting Results

.63 This checklist documents your understanding of how internal control over the payroll cycle is designed and whether it has been placed in operation. It should help you in planning a primarily substantive approach. In entities where significant information is transmitted, processed, maintained, or accessed electronically, just gaining an understanding of internal control may not be enough (even in a primarily substantive approach). Since the competence of electronic evidence usually depends on the effectiveness of internal control over its validity and completeness, an auditor may have to test the internal control surrounding that evidence to gather evidence to support an assessed level of control risk below the maximum for affected assertions. In situations where the auditor decides to rely on internal control and assess control risk below the maximum for certain assertions (including instances where the preponderance of electronic evidence necessitates it), tests of controls will need to be designed and then specific controls will need to be tested to determine the effectiveness of their design and operation.

.64 The processes, documents, and controls listed on this questionnaire are typical for small business entities but are by no means all-inclusive. The preponderance of "No" or "N/A" responses may indicate that the entity uses other processes, documents, or controls in their information and communication systems. You should consider supplementing this questionnaire with a memo or flowchart to document significant features of the client's system that are not covered by this questionnaire. See AAM section 4500 for example flowcharting techniques.

.65

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>I. Payroll</b>				
<b>A. Initiating Payroll Transactions</b>				
1. Wages and salaries are approved by the owner.	_____	_____	_____	_____
2. Proper authorization is obtained for all payroll deductions.	_____	_____	_____	_____
3. Access to personnel files is limited to the owner or someone who is independent of the payroll or cash functions.	_____	_____	_____	_____
4. Adequate time records are maintained for employees paid by the hour.	_____	_____	_____	_____
5. Time records for hourly employees are approved by a supervisor.	_____	_____	_____	_____
<b>B. Processing Payroll</b>				
6. Payroll is calculated using authorized pay rates, payroll deductions, and time records.	_____	_____	_____	_____
7. Payroll registers are reviewed for accuracy.	_____	_____	_____	_____
8. Standard journal entries are used to post payroll transactions to the general ledger.	_____	_____	_____	_____

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>Payroll Cycle</b>				
1. End user applications listed in paragraph .69 of this form have been adequately tested before use.	_____	_____	_____	_____
2. The application has an appropriate level of built-in controls, such as edit checks, range tests, or reasonableness checks.	_____	_____	_____	_____
3. Access controls limit access to the end user application.	_____	_____	_____	_____
4. A mechanism exists to prevent or detect the use of incorrect versions of data files.	_____	_____	_____	_____
5. The output of the end user applications is reviewed for accuracy or reconciled to the source information.	_____	_____	_____	_____

### Information Processed by Outside Computer Service Organizations

.71 The Control Environment Checklist—Small Business Computer Applications was used to document your understanding of the client's use of an outside computer service organization to process entity-wide accounting information such as the general ledger. In this section you will document your understanding of how the entity uses an outside computer service organization to process information relating specifically to the payroll cycle.

.72 In the space below, describe the payroll cycle information processed by the outside computer service bureau. Discuss—

- The general nature of the application.
- The source documents used by the service organization.
- The reports or other accounting documents produced by the service organization.
- The nature of the service organization's responsibilities. Do they merely record entity transactions and process related data, or do they have the ability to initiate transactions on their own?
- Controls maintained by the entity to prevent or detect material misstatement in the input or output.

# AAM Section 4400

## *Illustrative Internal Control Forms—Medium to Large Business*

.01 The following are illustrative internal control forms you might use to document your understanding of internal controls sufficient to plan an audit. The illustrative questions are numbered merely for organizational purposes. The numbers are in no way intended to infer completeness or a preferred sequence. These forms may require modifications to meet the needs, preferences, and circumstances of individual firms and their clients. Whenever you use standardized forms, checklists, or questionnaires, you should recognize that important matters in a particular set of circumstances may not be covered.

### Instructions

.02 The forms in AAM sections 4410 and 4420 may be used on all audit engagements of medium to large businesses. For audits of small businesses, see AAM section 4300.

.03 In every audit, you should obtain an understanding of each of the components of internal control sufficient to plan the audit. These forms should be used as a tool in documenting your understanding of internal control, how internal control is designed, and whether controls have been placed in operation.

.04 These forms should be used in conjunction with other forms in the following circumstances:

- *Computer Applications Checklist—Medium to Large Business* [AAM section 4410]. To be used to document your understanding of how the entity uses computers and information technology to process significant accounting information.
- *Financial Reporting Information Systems and Controls Checklist* [AAM section 4420]. To be used for each significant account and transactions cycle.

.05 These forms are appropriate whenever you plan a primarily substantive audit approach (see paragraph .07 below). That is, their completion generally results in control risk being assessed at or slightly below the maximum for all assertions related to account balances and transactions.

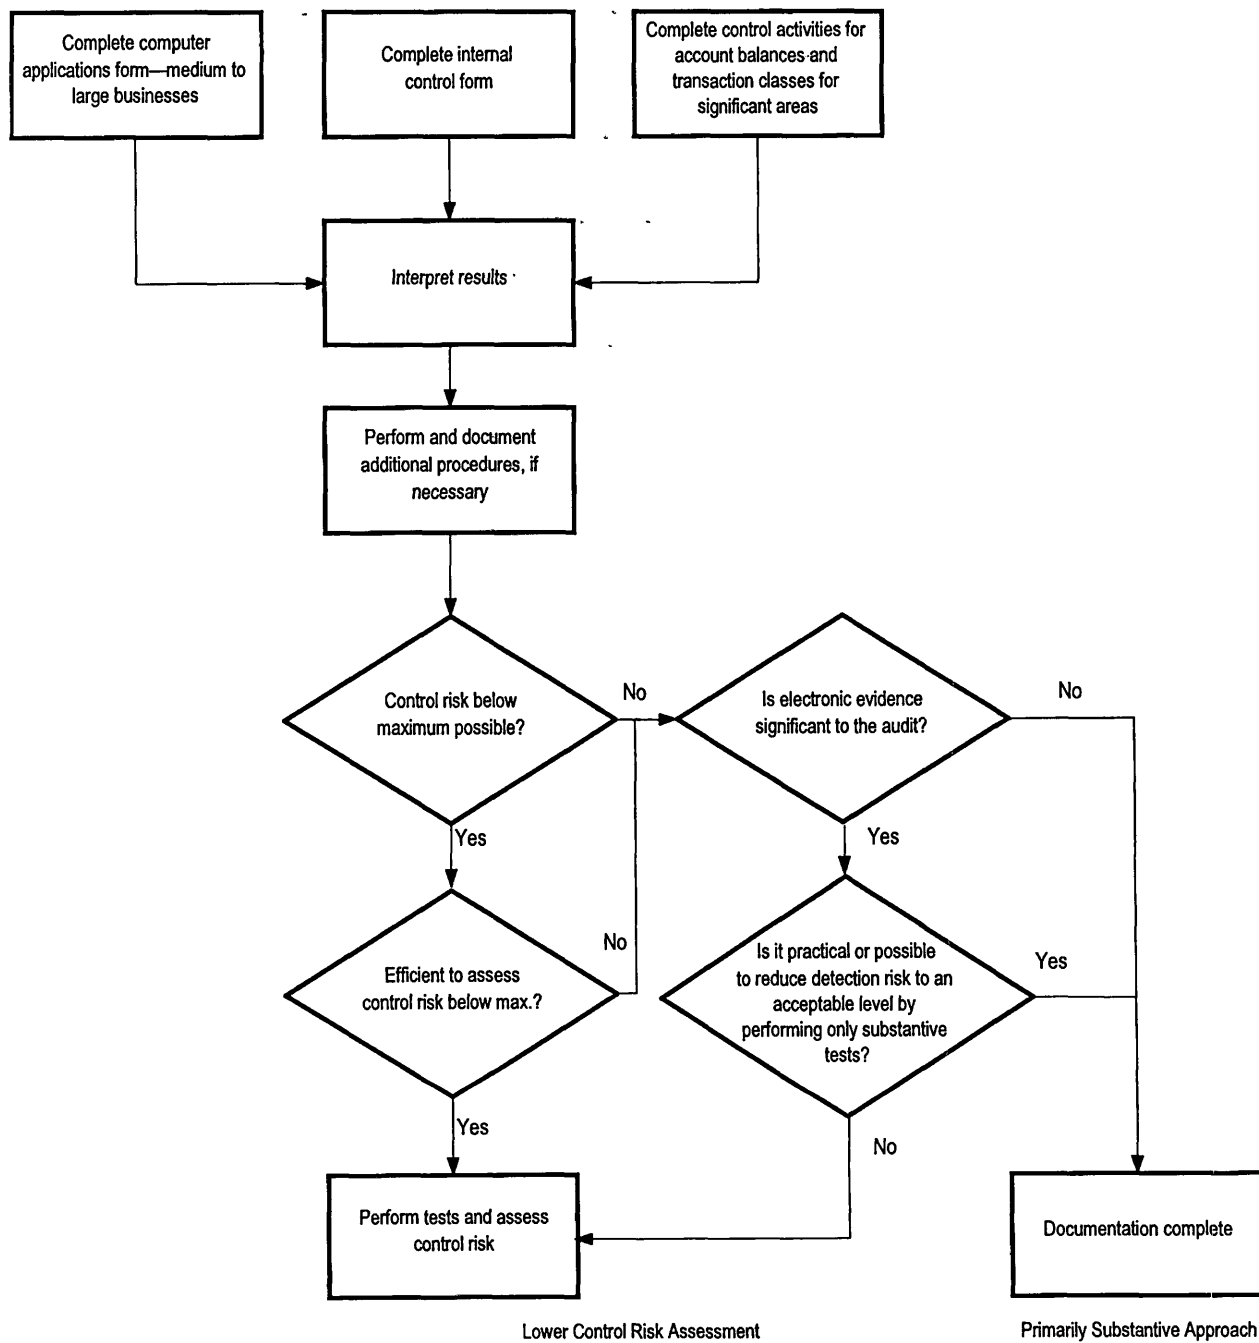

.06 If you plan a lower control risk assessment for certain assertions you are required to—

- Identify specific controls relevant to specific assertions that are likely to prevent or detect material misstatements in those assertions, and
- Perform tests of controls to evaluate their effectiveness.

.07 . In situations where a significant amount of audit evidence is transmitted, processed, maintained, or accessed electronically, it generally will be necessary to test the internal control surrounding the electronic evidence (for example, controls over generation, storage, manipulation, and transmission), even if a primarily substantive audit approach is followed. This is because the competence of electronic evidence usually depends on the effectiveness of internal control over its validity and completeness. In these situations the auditor should perform tests of controls to gather evidence to support an assessed level of control risk below the maximum for affected assertions. If the auditor concludes control risk must be assessed at the maximum in such situations or the evidence gathered through tests of controls and substantive tests is insufficient, the auditor should qualify or disclaim an opinion because of the scope limitation.

.08 These forms are organized to conform to the control components and overall internal control framework described in the Audit Guide *Consideration of Internal Control in a Financial Statement Audit*. This framework is a way for you to consider the impact of internal control on an audit. The classification of any specific control into a particular component should not be your primary concern. Rather, your primary consideration is whether a specific control affects financial statement assertions.

.09 The following flowchart describes how this form can be used in conjunction with the other forms included in this section to document your understanding of internal controls.

## Interpreting the Results

.10 When obtaining an understanding of internal control, you should consider the *collective* effect of the strengths and weaknesses in various control components. Management's strengths and weaknesses may have a pervasive effect on internal control. For example, strong management oversight may mitigate a lack of segregation of duties. However, human resource policies and practices directed toward hiring competent financial and accounting personnel may not mitigate a strong bias by management to overstate earnings.

.11 Answers that fall toward the right side of the form ("Strongly Agree" or "Somewhat Agree") indicate areas of strength in the control environment. You should consider whether these areas of strength indicate that a control risk assessment below the maximum may be possible for some assertions.

.12 Answers that fall toward the left side of the form ("Strongly Disagree" or "Somewhat Disagree") indicate areas of weakness in the entity's internal controls. You should assess how these areas of weakness affect the planning of the audit. This assessment should be documented in section V of the form. In making this assessment, you normally focus on—

- The types of material misstatement that could occur as a result of the identified weakness, and
- The risk that those misstatements will occur.

## Documenting a Conclusion

.13 After completing this form, the Financial Reporting Information Systems and Controls Checklist for significant areas, and the Computer Applications Checklist—Medium to Large Business, you should document your conclusion regarding internal control. In order to perform a primarily substantive audit, you must understand the entity's internal control sufficiently—

- To assess the risk of material misstatement in assertions related to material financial statement components, and
- To design effective substantive procedures.

.14 If the completion of this form is not sufficient for you to obtain the necessary level of understanding listed in AAM section 4400.13, you should perform and document the results of additional tests to gain that level of understanding.

.15

### I. Document Your Understanding of the Control Environment

In the space provided below, indicate whether you strongly agree, somewhat agree, somewhat disagree, or strongly disagree with the following statements. Your answers should be based on—

- Your previous experience with the entity.
- Inquiries of appropriate management, supervisory, and staff personnel.
- Inspection of documents and records.
- Observation of the entity's activities and operations.

	<u>No Opinion</u>	<u>Strongly Disagree</u>	<u>Some- what Disagree</u>	<u>Some- what Agree</u>	<u>Strongly Agree</u>
<b>A. Control Environment Factors</b>					
<i>Integrity and Ethical Values</i>					
1. Management has high ethical and behavioral standards.	_____	_____	_____	_____	_____
2. The company has a written code of ethical and behavioral standards that is comprehensive and periodically acknowledged by all employees.	_____	_____	_____	_____	_____
3. If a written code of conduct does not exist, the management culture emphasizes the importance of integrity and ethical values.	_____	_____	_____	_____	_____
4. Management reinforces its ethical and behavioral standards.	_____	_____	_____	_____	_____
5. Management appropriately deals with signs that problems exist (e.g., defective products or hazardous waste) even when the cost of identifying and solving the problem could be high.	_____	_____	_____	_____	_____
6. Management has removed or reduced incentives and temptations that might prompt personnel to engage in dishonest, illegal, or unethical acts.	_____	_____	_____	_____	_____
For example, there is generally <i>no</i> —					
• Pressure to meet unrealistic performance targets.	_____	_____	_____	_____	_____
• High performance-dependent rewards.	_____	_____	_____	_____	_____
• Upper and lower cutoffs on bonus plans.	_____	_____	_____	_____	_____
7. Management has provided guidance on the situations and frequency with which intervention of established controls is appropriate.	_____	_____	_____	_____	_____
8. Management intervention is documented and explained appropriately.	_____	_____	_____	_____	_____
<i>Commitment to Competence</i>					
9. Management has appropriately considered the knowledge and skill levels necessary to accomplish financial reporting tasks.	_____	_____	_____	_____	_____

	<u>No Opinion</u>	<u>Strongly Disagree</u>	<u>Some- what Disagree</u>	<u>Some- what Agree</u>	<u>Strongly Agree</u>
10. Employees with financial reporting tasks generally have the knowledge and skills necessary to accomplish those tasks.	_____	_____	_____	_____	_____
<b><i>Board of Directors and Audit Committee</i></b>					
11. The board of directors is independent from management.	_____	_____	_____	_____	_____
12. The board constructively challenges management's planned decisions.	_____	_____	_____	_____	_____
13. Directors have sufficient knowledge, industry experience and time to serve effectively.	_____	_____	_____	_____	_____
14. The board regularly receives the information they need to monitor management's objectives and strategies.	_____	_____	_____	_____	_____
15. The audit committee reviews the scope of activities of the internal and external auditors annually.	_____	_____	_____	_____	_____
16. The audit committee meets privately with the chief financial and/or accounting officers, internal auditors and external auditors to discuss the—					
• Reasonableness of the financial reporting process.	_____	_____	_____	_____	_____
• System of internal control.	_____	_____	_____	_____	_____
• Significant comments and recommendations.	_____	_____	_____	_____	_____
• Management's performance.	_____	_____	_____	_____	_____
17. The board takes steps to ensure an appropriate "tone at the top."	_____	_____	_____	_____	_____
18. The board or committee takes action as a result of its findings.	_____	_____	_____	_____	_____
<b><i>Management's Philosophy and Operating Style</i></b>					
19. Management moves carefully, proceeding only after carefully analyzing the risks and potential benefits of accepting business risks.	_____	_____	_____	_____	_____
20. Management is generally cautious or conservative in financial reporting and tax matters.	_____	_____	_____	_____	_____

	<u>No Opinion</u>	<u>Strongly Disagree</u>	<u>Some- what Disagree</u>	<u>Some- what Agree</u>	<u>Strongly Agree</u>
21. There is relatively low turnover of key personnel (e.g., operating, accounting, data processing, internal audit).	_____	_____	_____	_____	_____
22. There is <i>no</i> undue pressure to meet budget, profit, or other financial and operating goals.	_____	_____	_____	_____	_____
23. Management views the accounting and internal audit function as a vehicle for exercising control over the entity's activities.	_____	_____	_____	_____	_____
24. Operating personnel review and "sign off" on reported results.	_____	_____	_____	_____	_____
25. Senior managers frequently visit subsidiary or divisional operations.	_____	_____	_____	_____	_____
26. Group or divisional management meetings are held frequently.	_____	_____	_____	_____	_____

***Organizational Structure***

27. The entity's organizational structure facilitates the flow of information upstream, downstream, and across all business activities.	_____	_____	_____	_____	_____
28. Responsibilities and expectations for the entity's business activities are communicated clearly to the executives in charge of those activities.	_____	_____	_____	_____	_____
29. The executives in charge have the required knowledge, experience, and training to perform their duties.	_____	_____	_____	_____	_____
30. Those in charge of business activities have access to senior operating management.	_____	_____	_____	_____	_____

***Assignment of Authority and Responsibility***

31. Authority and responsibility are delegated only to the degree necessary to achieve the company's objectives.	_____	_____	_____	_____	_____
32. Job descriptions, for at least management and supervisory personnel, exist.	_____	_____	_____	_____	_____
33. Job descriptions contain specific references to control-related responsibilities.	_____	_____	_____	_____	_____

	<u>No Opinion</u>	<u>Strongly Disagree</u>	<u>Some- what Disagree</u>	<u>Some- what Agree</u>	<u>Strongly Agree</u>
34. Proper resources are provided for personnel to carry out their duties.	_____	_____	_____	_____	_____
35. Personnel understand the entity's objectives and know how their individual actions interrelate and contribute to those objectives.	_____	_____	_____	_____	_____
36. Personnel recognize how and for what they will be held accountable.	_____	_____	_____	_____	_____
<b><i>Human Resource Policies and Practices</i></b>					
37. The entity generally hires the most qualified people for the job.	_____	_____	_____	_____	_____
38. Hiring and recruiting practices emphasize educational background, prior work experience, past accomplishments, and evidence of integrity and ethical behavior.	_____	_____	_____	_____	_____
39. Recruiting practices include formal, in-depth employment interviews.	_____	_____	_____	_____	_____
40. Prospective employees are told of the entity's history, culture and operating style.	_____	_____	_____	_____	_____
41. The entity provides training opportunities, and employees are well-trained.	_____	_____	_____	_____	_____
42. Promotions and rotation of personnel are based on periodic performance appraisals.	_____	_____	_____	_____	_____
43. Methods of compensation, including bonuses, are designed to motivate personnel and reinforce outstanding performance.	_____	_____	_____	_____	_____
44. Management does not hesitate to take disciplinary action when violations of expected behavior occur.	_____	_____	_____	_____	_____
<b>B. Other Internal Control Components With a Pervasive Effect on the Organization</b>					
<b><i>Risk Assessment</i></b>					
1. Special action is taken to ensure new personnel understand their tasks.	_____	_____	_____	_____	_____
2. Management appropriately considers the control activities performed by personnel who change jobs or leave the company.	_____	_____	_____	_____	_____

	<u>No Opinion</u>	<u>Strongly Disagree</u>	<u>Some- what Disagree</u>	<u>Some- what Agree</u>	<u>Strongly Agree</u>
3. Management assesses how new accounting and information systems will impact internal control.	_____	_____	_____	_____	_____
4. Management reconsiders the appropriateness of existing control activities when new accounting and information systems are developed and implemented.	_____	_____	_____	_____	_____
5. Employees are adequately trained when accounting and information systems are changed or replaced.	_____	_____	_____	_____	_____
6. Accounting and information system capabilities are upgraded when the volume of information increases significantly.	_____	_____	_____	_____	_____
7. Accounting and data processing personnel are expanded as needed when the volume of information increases significantly.	_____	_____	_____	_____	_____
8. The entity has the ability to reasonably forecast operating and financial results.	_____	_____	_____	_____	_____
9. Management keeps abreast of the political, regulatory, business, and social culture of areas in which foreign operations exist.	_____	_____	_____	_____	_____
<b>General Control Activities</b>					
10. The entity prepares operating budgets and cash flow projections.	_____	_____	_____	_____	_____
11. Operating budgets and projections lend themselves to effective comparison with actual results.	_____	_____	_____	_____	_____
12. Significant variances between budgeted or projected amounts and actual results are reviewed and explained.	_____	_____	_____	_____	_____
13. The company has adequate safekeeping facilities for custody of the accounting records such as fire-proof storage areas and restricted access cabinets.	_____	_____	_____	_____	_____
14. The entity has a suitable record retention plan.	_____	_____	_____	_____	_____
15. The entity has adequate controls to limit access to computer programs and data files.	_____	_____	_____	_____	_____
16. Periodically, personnel compare counts of assets to amounts shown on control records.	_____	_____	_____	_____	_____

	<u>No Opinion</u>	<u>Strongly Disagree</u>	<u>Some- what Disagree</u>	<u>Some- what Agree</u>	<u>Strongly Agree</u>
17. There is adequate segregation of duties among those responsible for authorizing transactions, recording transactions, and maintaining custody of assets.	_____	_____	_____	_____	_____
<b>Information and Communication</b>					
18. Management receives the information they need to carry out their responsibilities.	_____	_____	_____	_____	_____
19. Information is provided at the right level of detail for different levels of management.	_____	_____	_____	_____	_____
20. Information is available on a timely basis.	_____	_____	_____	_____	_____
21. Information with accounting significance (for example, slow-paying customers) is transmitted across functional lines in a timely manner.	_____	_____	_____	_____	_____
<b>Monitoring</b>					
22. Customer complaints about billings are investigated for their underlying causes.	_____	_____	_____	_____	_____
23. Communications from bankers, regulators, or other outside parties are monitored for items of accounting significance.	_____	_____	_____	_____	_____
24. Management responds appropriately to auditor recommendations on ways to strengthen internal controls.	_____	_____	_____	_____	_____
25. Employees are required to "sign off" to evidence the performance of critical control functions.	_____	_____	_____	_____	_____
26. The internal auditors are independent of the activities they audit.	_____	_____	_____	_____	_____
27. Internal auditors have adequate training and experience.	_____	_____	_____	_____	_____
28. Internal auditors document the planning and execution of their work by such means as audit programs and working papers.	_____	_____	_____	_____	_____
29. Internal audit reports are submitted to the board of directors or audit committee.	_____	_____	_____	_____	_____

## II. Determine Other Areas For Evaluation

The completion of section I of this form is the first of several forms that may be used to document your understanding of internal controls sufficiently to plan a primarily substantive audit. It is important to remember that in entities where significant information is transmitted, processed, maintained, or accessed electronically, just gaining an understanding of the controls surrounding the electronic environment may not be enough. Since the competence of electronic evidence usually depends on the effectiveness of internal control over its validity and completeness, an auditor may have to test the internal control surrounding that evidence to gain competent evidential matter—even in a primarily substantive approach. In the space provided below, determine which of the following areas apply. A “Yes” answer generally indicates you should complete the related form.

No      Yes      W/P Ref.

### Significant Account Balances and Transaction Cycles

1. The following account balances or transaction cycles are significant to the company's financial statements.

- a. Revenue Cycle, including sales, accounts receivable, or cash receipts. (Normally considered significant for most businesses.)

\_\_\_\_\_

If “yes,” the related Financial Reporting Information Systems and Controls Checklist can be found at—

\_\_\_\_\_

- b. Purchasing Cycle, including purchasing, accounts payable, or cash disbursements. (Normally considered significant for most businesses.)

\_\_\_\_\_

If “yes,” the related Financial Reporting Information Systems and Controls Checklist can be found at—

\_\_\_\_\_

- c. Inventory, including inventory and cost of sales.

\_\_\_\_\_

If “yes,” the related Financial Reporting Information Systems and Controls Checklist can be found at—

\_\_\_\_\_

- d. Financing, including investments and debt.

\_\_\_\_\_

If “yes,” the related Financial Reporting Information Systems and Controls Checklist can be found at—

\_\_\_\_\_

- e. Property, Plant, and Equipment, including fixed assets and depreciation.

\_\_\_\_\_

If “yes,” the related Financial Reporting Information Systems and Controls Checklist can be found at—

\_\_\_\_\_

- f. Payroll.

\_\_\_\_\_

If “yes,” the related Financial Reporting Information Systems and Controls Checklist can be found at—

\_\_\_\_\_

## III. Assess Lack of Segregation of Duties

In the space provided below, assess risk due to a lack of segregation of duties for the company, based on the completion of sections I and II of this form. Your comments should address—

- The person with incompatible responsibilities and the nature of those responsibilities.

- Any mitigating factors or controls, such as direct management oversight.
- The risk that material misstatements might occur as a result of a lack of segregation of duties, and the type of those misstatements.
- How substantive procedures will be designed to limit the risk of those misstatements to an acceptable level.

---

---

---

---

---

---

---

---

#### IV. Assess the Risk of Management Override

Even in effectively controlled entities—those with generally high levels of integrity and control consciousness—a manager might be able to override controls. The term “management override” means—

Overruling prescribed policies or procedures for *illegitimate* purposes with the intent of personal gain or enhanced presentation of an entity’s financial condition or compliance status.

Management might override the control system for many reasons: to increase reported revenue, to boost market value of the entity prior to sale, to meet sales or earnings projections, to bolster bonus pay-outs tied to performance, to appear to cover violations of debt covenant agreements, or to hide lack of compliance with legal requirements. Override practices include deliberate misrepresentations to bankers, lawyers, accountants, and vendors, and intentionally issuing false documents such as sales invoices.

An active, involved board of directors can significantly reduce the risk of management override.

Management override is different from management intervention, which is the overrule of prescribed policies or procedures for legitimate purposes. For example, management intervention is usually necessary to deal with non-recurring and non-standard transactions or events that otherwise might be handled by the system.

In the space below, assess the risk of management *override* for this company. You should consider the risk that management override possibilities exist, the risk that management will take advantage of those possibilities, and any evidence that management has engaged in override practices. If the risk of management override is greater than low, indicate how planned audit procedures will reduce this risk to an acceptable level.

## II. Computer Software

Describe the entity's main software packages and whether they are unmodified, commercially available packages, or were developed or modified in-house. (End-user computing applications will be considered only for significant account balances and transaction cycles. See the Financial Reporting Information Systems and Control Checklist—Medium to Large Business.)

	<u>Unmodified Commercial</u>	<u>In-House</u>	<u>N/A</u>
Operating system	_____	_____	_____
Access control	_____	_____	_____
General accounting	_____	_____	_____
Network	_____	_____	_____
Database management	_____	_____	_____
Communications	_____	_____	_____
Utilities	_____	_____	_____
Other:			
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

## III. Computer Control Environment

In the space provided below, indicate whether you strongly agree, somewhat agree, somewhat disagree, or strongly disagree with the following statements. Your answers should be based on—

- Your previous experience with the entity.
- Inquiries of appropriate management, supervisory, and staff personnel.
- Inspection of documents and records.
- Observation of the entity's activities and operations.

	<u>No Opinion</u>	<u>Strongly Disagree</u>	<u>Some- what Disagree</u>	<u>Some- what Agree</u>	<u>Strongly Agree</u>
<b>Acquisition of Hardware</b>					
1. The company has a coherent management plan for the purchase and continued investment in computer hardware.	_____	_____	_____	_____	_____
2. The computer hardware is sufficient to meet the company's needs.	_____	_____	_____	_____	_____

	<u>No Opinion</u>	<u>Strongly Disagree</u>	<u>Some- what Disagree</u>	<u>Some- what Agree</u>	<u>Strongly Agree</u>
3. The company's computer hardware is safely and properly installed.	_____	_____	_____	_____	_____
4. The company has standard, regular hardware maintenance procedures.	_____	_____	_____	_____	_____
<b>Acquisition of Software</b>					
5. The company has a coherent management plan for the purchase of and continued investment in computer software.	_____	_____	_____	_____	_____
6. The company researches software products to determine whether they meet the needs of the intended users.	_____	_____	_____	_____	_____
7. The company's application programs are compatible with each other.	_____	_____	_____	_____	_____
8. The company obtains recognized software from reputable sources.	_____	_____	_____	_____	_____
9. Company policy prohibits the use of unauthorized programs introduced by employees.	_____	_____	_____	_____	_____
10. Company policy prohibits the downloading of untested software from sources such as dial-up bulletin boards.	_____	_____	_____	_____	_____
11. The company uses virus protection software to screen for virus infections.	_____	_____	_____	_____	_____
<b>Program Development</b>					
12. Users are involved in the design and approval of systems.	_____	_____	_____	_____	_____
13. Users review the completion of various phases of the application.	_____	_____	_____	_____	_____
14. New programs are thoroughly tested.	_____	_____	_____	_____	_____
15. Users are involved in the review of tests of the program.	_____	_____	_____	_____	_____
16. Adequate procedures exist to transfer programs from development to production libraries.	_____	_____	_____	_____	_____
<b>Program Changes</b>					
17. Users are involved in the design and approval of program changes.	_____	_____	_____	_____	_____

	<u>No Opinion</u>	<u>Strongly Disagree</u>	<u>Some- what Disagree</u>	<u>Some- what Agree</u>	<u>Strongly Agree</u>
18. Program changes are thoroughly tested.	_____	_____	_____	_____	_____
19. Users are involved in the review of tests of the program changes.	_____	_____	_____	_____	_____
20. Adequate procedures exist to transfer changed programs from development to production libraries.	_____	_____	_____	_____	_____

**Logical Access**

21. Management has identified confidential and sensitive data for which access should be restricted.	_____	_____	_____	_____	_____
22. Procedures are in place to restrict access to confidential and sensitive data.	_____	_____	_____	_____	_____
23. Procedures are in place to reduce the risk of unauthorized transactions being entered into processing.	_____	_____	_____	_____	_____
24. The use of utility programs is controlled or monitored carefully.	_____	_____	_____	_____	_____
25. Procedures are in place to detect unauthorized changes to programs supporting the financial statements.	_____	_____	_____	_____	_____
26. Programmer access to production programs, live data files, and job control language is controlled.	_____	_____	_____	_____	_____
27. Operator access to source code and individual elements of data files is controlled.	_____	_____	_____	_____	_____
28. Users have access only to defined programs and data files.	_____	_____	_____	_____	_____

**Physical Security**

29. The company has established procedures for the periodic back-up of files.	_____	_____	_____	_____	_____
30. Back-up procedures include multiple generations.	_____	_____	_____	_____	_____
31. Back-up files are stored in a secure, off-site location.	_____	_____	_____	_____	_____

**Computer Operations**

32. Operations management reviews lists of regular and unscheduled batch jobs.	_____	_____	_____	_____	_____
33. Job control instruction sets are menu-driven.	_____	_____	_____	_____	_____
34. Jobs are executed only from the operator's terminal.	_____	_____	_____	_____	_____

#### IV. Outside Computer Service Organizations

This section should be used to document your understanding of how the company uses an outside computer service organization to process significant accounting information. Guidance on auditing entities that use computer service organizations is contained in SAS No. 70, *Reports on the Processing of Transactions by Service Organizations* (AU section 324).

1. List the name of the service organization and the general types of services it provides.

---

---

2. Are the general ledger and other primary accounting records processed by an outside service organization? \_\_\_\_ Yes \_\_\_\_ No

If "yes," describe the source documents provided to the service organization, the reports and other documentation received from the organization, and the controls maintained by the user over input and output to prevent or detect material misstatement.

---

---

---

3. List the type and date of the most recent service auditor report.

---

---

---

## AAM Section 4420

# *Financial Reporting Information Systems and Controls Checklist—Medium to Large Business*

### Revenue Cycle

#### Revenue, Accounts Receivable, and Cash Receipts

.01 This checklist may be used on any audit engagement of a medium to large company when the revenue cycle is significant. Normally, the revenue cycle is significant in most audit engagements.

.02 The purpose of this checklist is to document your understanding of controls for significant classes of transactions. Your knowledge of the revenue cycle should be sufficient for you to understand—

- How cash and credit sales are initiated.
- How credit limits are established and maintained.
- How cash receipts are recorded.
- How sales and cash receipts are processed by the accounting system.
- The accounting records and supporting documents involved in the processing and reporting of sales, accounts receivable, and cash receipts.
- The processes used to prepare significant accounting estimates and disclosures.

### Interpreting Results

.03 This checklist documents your understanding of how internal control over the revenue cycle is designed and whether it has been placed in operation. It should help you in planning a primarily substantive approach. In entities where significant information is transmitted, processed, maintained, or accessed electronically, just gaining an understanding of internal control may not be enough (even in a primarily substantive approach). Since the competence of electronic evidence usually depends on the effectiveness of internal control over its validity and completeness, an auditor may have to test the internal control surrounding that evidence to gather evidence to support an assessed level of control risk below the maximum for affected assertions. In situations where the auditor decides to rely on internal control and assess control risk below the maximum for certain assertions (including instances where the preponderance of electronic evidence necessitates it), tests of controls will need to be designed and then specific controls will need to be tested to determine the effectiveness of their design and operation.

.04 The processes, documents, and controls listed on this questionnaire are typical for medium to large business entities but are by no means all-inclusive. The preponderance of “No” or “N/A” responses may indicate that the entity uses other processes, documents, or controls in their information and communication systems. You should consider supplementing this questionnaire with a memo or flowchart to document significant features of the client’s system that are not covered by this questionnaire. See AAM section 4500 for example flowcharting techniques.

.05

## I. Revenue and Accounts Receivable

## A. Initiating Sales Transactions

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
1. Credit limits are clearly defined.	_____	_____	_____	_____
2. Credit limits are clearly communicated.	_____	_____	_____	_____
3. The credit of prospective customers is investigated before it is extended to them.	_____	_____	_____	_____
4. Credit limits are periodically reviewed.	_____	_____	_____	_____
5. The people who perform the credit function are independent of—				
• Sales.	_____	_____	_____	_____
• Billing.	_____	_____	_____	_____
• Collection.	_____	_____	_____	_____
• Accounting.	_____	_____	_____	_____
6. Credit limits and changes in credit limits are communicated to persons responsible for approving sales orders on a timely basis.	_____	_____	_____	_____
7. The company has clearly defined policies and procedures for acceptance and approval of sales orders.	_____	_____	_____	_____
8. Prenumbered sales orders are used and accounted for.	_____	_____	_____	_____
9. Prenumbered shipping documents are used to record shipments.	_____	_____	_____	_____
10. Shipping document information is verified prior to shipment.	_____	_____	_____	_____
11. The people who perform the shipping function are independent of—				
• Sales.	_____	_____	_____	_____
• Billing.	_____	_____	_____	_____
• Collection.	_____	_____	_____	_____
• Accounting.	_____	_____	_____	_____
12. All shipping documents are accounted for.	_____	_____	_____	_____
13. Prenumbered credit memos are used to document sales returns.	_____	_____	_____	_____
14. All credit memos are approved and accounted for.	_____	_____	_____	_____
15. Credit memos are matched with receiving reports for returned goods.	_____	_____	_____	_____
16. Cash sales are controlled by cash registers or prenumbered cash receipts forms.	_____	_____	_____	_____
17. Someone other than the cashier has custody to the cash register tape compartment.	_____	_____	_____	_____

	<i>Personnel</i>	<i>N/A</i>	<i>No</i>	<i>Yes</i>
18. Someone other than the cashier takes periodic readings of the cash register and balances the cash on hand.	_____	_____	_____	_____
<b>B. Processing Sales Transactions</b>				
19. Information necessary to prepare invoices (e.g., prices, discount policies) is clearly communicated to billing personnel on a timely basis.	_____	_____	_____	_____
20. Prenumbered invoices are prepared promptly after goods are shipped.	_____	_____	_____	_____
21. Quantities on the invoices are compared to shipping documents.	_____	_____	_____	_____
22. The prices on the invoices are current.	_____	_____	_____	_____
23. The people who perform the billing function are independent of—				
• Sales.	_____	_____	_____	_____
• Credit.	_____	_____	_____	_____
• Collection.	_____	_____	_____	_____
24. Invoices are mailed to customers on a timely basis.	_____	_____	_____	_____
25. Invoices are posted to the general ledger on a timely basis.	_____	_____	_____	_____
26. Standard journal entries are used to record sales.	_____	_____	_____	_____
27. Invoices are posted to the sales and accounts receivable subsidiary ledgers or journals on a timely basis.	_____	_____	_____	_____
28. Credit memos are posted to the general ledger on a timely basis.	_____	_____	_____	_____
29. Credit memos are posted to the sales and accounts receivable subsidiary ledgers or journals on a timely basis.	_____	_____	_____	_____
30. Procedures exist for determining proper cut-off of sales at month-end.	_____	_____	_____	_____
31. The sales and accounts receivable balances shown in the general ledger are reconciled to the sales and accounts receivable subsidiary ledgers on a regular basis.	_____	_____	_____	_____
<b>C. Estimates and Disclosures for Sales Transactions</b>				
32. The accounting system generates a monthly aging of accounts receivable.	_____	_____	_____	_____
33. The people who prepare the aging are independent of—				
• Billing.	_____	_____	_____	_____
• Collection.	_____	_____	_____	_____
34. Management uses the accounts receivable aging to investigate, write off, or adjust delinquent accounts receivable.	_____	_____	_____	_____

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
35. Management uses the accounts receivable aging and other information to estimate an allowance for doubtful accounts.	_____	_____	_____	_____
36. The person responsible for financial reporting identifies significant concentrations of credit risk.	_____	_____	_____	_____

## II. Cash Receipts

### A. Initiating Cash Receipts Transactions

1. The entity maintains records of payments on accounts by customer.	_____	_____	_____	_____
2. Someone other than the person responsible for maintaining accounts receivable opens the mail and lists the cash receipts.	_____	_____	_____	_____
3. Cash receipts are deposited intact.	_____	_____	_____	_____
4. Cash receipts are deposited in separate bank accounts when required.	_____	_____	_____	_____
5. People who handle cash receipts are adequately bonded.	_____	_____	_____	_____
6. Local bank accounts used for branch office collections are subject to withdrawal only by the home office.	_____	_____	_____	_____

### B. Processing Cash Received on Account

7. Cash receipts are posted to the general ledger on a timely basis.	_____	_____	_____	_____
8. Cash receipts are posted to the accounts receivable subsidiary ledger on a timely basis.	_____	_____	_____	_____
9. Standard journal entries are used to post cash receipts.	_____	_____	_____	_____
10. The people who enter cash receipts to the accounting system are independent of the physical handling of collections.	_____	_____	_____	_____
11. Timely bank reconciliations are prepared or reviewed by someone independent of the cash receipts function.	_____	_____	_____	_____

## End User Computing in the Revenue Cycle

.06 End user computing occurs when the user is responsible for the development and execution of the computer application that generates the information used by that same person. For example, an accounting clerk prepares a spreadsheet which shows amortization of premiums or discounts, and the information from the spreadsheet is the source of a journal entry.

.07 The Computer Applications Checklist—Medium to Large Business was used to document your understanding of computer applications operated by the company's MIS department. In this section of the Financial Reporting Information Systems and Controls Checklist, you may document your understanding of how end user computing is used in the revenue cycle to process significant accounting information outside of the MIS department.

.08 You should obtain an understanding of any spreadsheet application, database, or separate computer system that has been developed by end users to—

## Information Processed by Outside Computer Service Organizations

.11 The Computer Applications Checklist—Medium to Large Business Computer Applications was used to document your understanding of the client's use of an outside computer service organization to process entity-wide accounting information such as the general ledger. In this section you will document your understanding of how the entity uses an outside computer service organization to process information relating specifically to the revenue cycle.

.12 In the space below, describe the revenue cycle information processed by the outside computer service bureau. Discuss—

- The general nature of the application.
- The source documents used by the service organization.
- The reports or other accounting documents produced by the service organization.
- The nature of the service organization's responsibilities. Do they merely record entity transactions and process related data, or do they have the ability to initiate transactions on their own?
- Controls maintained by the entity to prevent or detect material misstatement in the input or output.

---

---

---

---

---

---

---

## Purchasing Cycle

### Purchasing, Accounts Payable, and Cash Disbursements

.13 This checklist may be used on any audit engagement of a medium to large business where the purchasing cycle is significant. Normally, the purchasing cycle is significant for most businesses.

.14 The purpose of this checklist is to document your understanding of controls for significant classes of transactions. Your knowledge of the purchasing cycle should be sufficient for you to understand—

- How purchases are initiated and goods received.
- How cash disbursements are recorded.
- How purchases and cash disbursements are processed by the financial reporting information system.
- The accounting records and supporting documents involved in the processing and reporting of purchases, accounts payable, and cash disbursements.
- The processes used to prepare significant accounting estimates and disclosures.

## Interpreting Results

.15 This checklist documents your understanding of how internal control over the purchasing cycle is designed and whether it has been placed in operation. It should help you in planning a primarily substantive

approach. In entities where significant information is transmitted, processed, maintained, or accessed electronically, just gaining an understanding of internal control may not be enough (even in a primarily substantive approach). Since the competence of electronic evidence usually depends on the effectiveness of internal control over its validity and completeness, an auditor may have to test the internal control surrounding that evidence to gather evidence to support an assessed level of control risk below the maximum for affected assertions. In situations where the auditor decides to rely on internal control and assess control risk below the maximum for certain assertions (including instances where the preponderance of electronic evidence necessitates it), tests of controls will need to be designed and then specific controls will need to be tested to determine the effectiveness of their design and operation.

.16 The processes, documents, and controls listed on this questionnaire are typical for medium to large business entities but are by no means all-inclusive. The preponderance of "No" or "N/A" responses may indicate that the entity uses other processes, documents, or controls in their information and communication systems. You should consider supplementing this questionnaire with a memo or flowchart to document significant features of the client's system that are not covered by this questionnaire. See AAM section 4500 for example flowcharting techniques.

.17

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>I. Purchases and Accounts Payable</b>				
<b>A. Initiating Purchases and Receipt of Goods</b>				
1. All purchases over a predetermined amount are approved by management.	_____	_____	_____	_____
2. Non-routine purchases (for example, services, fixed assets, or investments) are approved by management.	_____	_____	_____	_____
3. A purchase order system is used, prenumbered purchase orders are accounted for, and physical access to purchase orders is controlled.	_____	_____	_____	_____
4. Open purchase orders are periodically reviewed.	_____	_____	_____	_____
5. The purchasing function is independent of—				
• Receiving	_____	_____	_____	_____
• Invoice processing	_____	_____	_____	_____
• Cash disbursements	_____	_____	_____	_____
6. All goods are inspected and counted when received.	_____	_____	_____	_____
7. Prenumbered receiving reports, or a log, are used to record the receipt of goods.	_____	_____	_____	_____
8. The receiving reports or log indicate the date the items were received.	_____	_____	_____	_____
9. The receiving function is independent of—				
• Purchasing	_____	_____	_____	_____
• Invoice processing	_____	_____	_____	_____
• Cash disbursements	_____	_____	_____	_____

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>B. Processing Purchases</b>				
10. Invoices from vendors are matched with applicable receiving reports.	_____	_____	_____	_____
11. Invoices are reviewed for proper quantity and prices, and mathematical accuracy.	_____	_____	_____	_____
12. Invoices from vendors are posted to the general ledger on a timely basis.	_____	_____	_____	_____
13. Invoices from vendors are posted to the accounts payable subsidiary ledger on a timely basis.	_____	_____	_____	_____
14. The invoice processing function is independent of—				
• Purchasing	_____	_____	_____	_____
• Receiving	_____	_____	_____	_____
• Cash disbursements	_____	_____	_____	_____
15. Standard journal entries are used to post accounts payable.	_____	_____	_____	_____
16. Accounts payable account per the general ledger is reconciled periodically to the accounts payable subsidiary ledger.	_____	_____	_____	_____
17. Statements from vendors are reconciled to the accounts payable subsidiary ledger.	_____	_____	_____	_____
<b>C. Disclosures</b>				
18. Management has the information to identify vulnerability due to concentrations of suppliers (SOP 94-6).	_____	_____	_____	_____
<b>II. Cash Disbursements</b>				
<b>A. Initiating Cash Disbursements</b>				
1. All disbursements except those from petty cash are made by check.	_____	_____	_____	_____
2. All checks are recorded.	_____	_____	_____	_____
3. Supporting documentation such as invoices and receiving reports are reviewed before the checks are signed.	_____	_____	_____	_____
4. Supporting documents are canceled to avoid duplicate payment.	_____	_____	_____	_____
<b>B. Processing Cash Disbursements</b>				
5. Cash disbursements are posted to the general ledger on a timely basis.	_____	_____	_____	_____
6. Cash disbursements are posted to the accounts payable subsidiary ledger on a timely basis.	_____	_____	_____	_____
7. Standard journal entries are used to post cash disbursements.	_____	_____	_____	_____
8. Timely bank reconciliations are prepared or reviewed by the owner or manager or someone independent of the cash receipts function.	_____	_____	_____	_____

## End User Computing in the Purchasing Cycle

**.18** End user computing occurs when the user is responsible for the development and execution of the computer application that generates the information used by that same person. For example, an accounting clerk prepares a spreadsheet that amortizes premiums or discounts, and the information from the spreadsheet is the source of a journal entry.

**.19 The Computer Applications Checklist—Medium to Large Business** was used to document your understanding of computer applications operated by the company's MIS department. In this section of the Financial Reporting Information Systems and Controls Checklist, you may document your understanding of how end user computing is used in the purchasing cycle to process significant accounting information outside of the MIS department.

**.20** You should obtain an understanding of any spreadsheet application, database, or separate computer system that has been developed by end users to—

- Process significant accounting information outside of the MIS-operated accounting application. For example, a spreadsheet accumulates non-routine purchases for batch processing.
- Make significant accounting decisions.
- Accumulate footnote information. For example, a database of vendors provides information for possible concentration of risk disclosures.

**.21** In the space provided below, describe how end user computing is used in the purchasing cycle. Describe—

- The person or department who performs the computing.
- A general description of the application and its type (e.g., spreadsheet).
- The source of the information used in the application.
- How the results of the application are used in further processing or decision making.

[illegible]

## Procedures and Controls Over End User Computing

**.22 Answer the following questions relating to procedures and controls over end user computing related to the purchasing cycle.**

## Purchasing Cycle

<b>Personnel</b>	<b>N/A</b>	<b>No</b>	<b>Yes</b>
------------------	------------	-----------	------------

1. End user applications listed in paragraph .21 of this form have been adequately tested before use.

\_\_\_\_\_

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
2. The application has an appropriate level of built-in controls, such as edit checks, range tests, or reasonableness checks.	<hr/>	<hr/>	<hr/>	<hr/>
3. Access controls limit access to the end user application.	<hr/>	<hr/>	<hr/>	<hr/>
4. A mechanism exists to prevent or detect the use of incorrect versions of data files.	<hr/>	<hr/>	<hr/>	<hr/>
5. The output of the end user applications is reviewed for accuracy or reconciled to the source information.	<hr/>	<hr/>	<hr/>	<hr/>

**Information Processed by Outside Computer Service Organizations**

.23 The Computer Applications Checklist—Medium to Large Business was used to document your understanding of the client’s use of an outside computer service organization to process entity-wide accounting information such as the general ledger. In this section you will document your understanding of how the entity uses an outside computer service organization to process information relating specifically to the purchasing cycle.

.24 In the space below, describe the purchasing cycle information processed by the outside computer service bureau. Discuss—

- The general nature of the application.
- The source documents used by the service organization.
- The reports or other accounting documents produced by the service organization.
- The nature of the service organization’s responsibilities. Do they merely record entity transactions and process related data, or do they have the ability to initiate transactions on their own?
- Controls maintained by the entity to prevent or detect material misstatement in the input or output.

---

---

---

---

---

---

---

---

---

---

**Inventory**

**Inventory and Cost of Sales**

.25 This checklist may be used on any audit engagement of a medium to large business where inventory is a significant transaction cycle:

.26 The purpose of this checklist is to document your understanding of controls for significant classes of transactions. Your knowledge of the inventory cycle should be sufficient for you to understand—

- How costs are capitalized to inventory.
- How cost is relieved from inventory.
- How inventory costs and cost of sales are processed by the accounting system.
- The procedures used to take the physical inventory count.
- The accounting records and supporting documents involved in the processing and reporting of inventory and cost of sales.
- The processes used to prepare significant accounting estimates and disclosures.

## Interpreting Results

.27 This checklist documents your understanding of how internal control over the inventory cycle is designed and whether it has been placed in operation. It should help you in planning a primarily substantive approach. In entities where significant information is transmitted, processed, maintained, or accessed electronically, just gaining an understanding of internal control may not be enough (even in a primarily substantive approach). Since the competence of electronic evidence usually depends on the effectiveness of internal control over its validity and completeness, an auditor may have to test the internal control surrounding that evidence to gather evidence to support an assessed level of control risk below the maximum for affected assertions. In situations where the auditor decides to rely on internal control and assess control risk below the maximum for certain assertions (including instances where the preponderance of electronic evidence necessitates it), tests of controls will need to be designed and then specific controls will need to be tested to determine the effectiveness of their design and operation.

.28 The processes, documents, and controls listed on this questionnaire are typical for medium to large business entities but are by no means all-inclusive. The preponderance of "No" or "N/A" responses may indicate that the entity uses other processes, documents, or controls in their information and communication systems. You should consider supplementing this questionnaire with a memo or flowchart to document significant features of the client's system that are not covered by this questionnaire. See AAM section 4500 for example flowcharting techniques.

.29

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>I. Inventory and Cost of Sales</b>				
<b>A. Capturing Capitalizable Costs<sup>1</sup></b>				
1. Management prepares production goals and schedules based on sales forecasts.	_____	_____	_____	_____
2. The company budgets its planned inventory levels.	_____	_____	_____	_____
3. All releases from storage of raw materials, supplies, and purchased parts inventory are based on approved requisition documents.	_____	_____	_____	_____
4. Labor costs are reported promptly and in sufficient detail to allow for the proper allocation to inventory.	_____	_____	_____	_____
5. The entity uses a cost accounting system to accumulate capitalizable costs.	_____	_____	_____	_____

<sup>1</sup> You should also consider completing the Financial Reporting Information Systems and Controls Checklist for the purchasing cycle to document your understanding of how the purchase of inventory is initiated.

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
6. The cost accounting system distinguishes between costs that should be capitalized for GAAP purposes and those that should be capitalizable for tax purposes.	_____	_____	_____	_____
7. For standard cost systems:				
a. Standard rates and volume are periodically compared to actual and revised accordingly.	_____	_____	_____	_____
b. Significant variances are investigated.	_____	_____	_____	_____
8. The cost accounting system interfaces with the general ledger.	_____	_____	_____	_____
9. Transfers of completed units from production to custody of finished goods inventory are based on approved completion reports that authorize the transfer.	_____	_____	_____	_____
10. The people responsible for maintaining detailed inventory records are independent from the physical custody and handling of inventories.	_____	_____	_____	_____
11. Production cost budgets are periodically compared to actual costs, and significant differences are explained.	_____	_____	_____	_____
<b>B. Inventory Records</b>				
12. The entity maintains adequate inventory records of prices and amounts on hand.	_____	_____	_____	_____
13. Withdrawals from inventory are based on prenumbered finished inventory requisitions, shipping reports, or both.	_____	_____	_____	_____
14. Additions to and withdrawals from inventory are posted to the inventory records and the general ledger.	_____	_____	_____	_____
15. Standard journal entries are used to post inventory transactions to the inventory records and the general ledger.	_____	_____	_____	_____
16. Inventory records are periodically reconciled to the general ledger.	_____	_____	_____	_____
17. Inventory records are reconciled to a physical inventory count.	_____	_____	_____	_____
<b>C. Physical Inventory Counts</b>				
18. Inventory is counted at least once a year.	_____	_____	_____	_____
19. Physical inventory counters are given adequate instructions.	_____	_____	_____	_____
20. Inventory count procedures are sufficient to provide an accurate count, including steps to ensure—				
• Proper cut-off.	_____	_____	_____	_____
• Identification of obsolete items.	_____	_____	_____	_____
• All items are counted once and only once.	_____	_____	_____	_____

**D. Estimates and Disclosures**

21. Management is able to identify excess, slow-moving, or obsolete inventory.
22. Excess, slow-moving, or obsolete inventory is periodically written off.
23. Management can identify inventory subject to rapid technological obsolescence that may need to be disclosed under SOP 94-6.

<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

**End User Computing in the Inventory Cycle**

.30 End user computing occurs when the user is responsible for the development and execution of the computer application that generates the information used by that same person. For example, an accounting clerk prepares a spreadsheet that amortizes premiums or discounts, and the information from the spreadsheet is the source of a journal entry.

.31 The Computer Applications Checklist—Medium to Large Business was used to document your understanding of computer applications operated by the company's MIS department. In this section of the Financial Reporting Information Systems and Controls Checklist, you may document your understanding of how end user computing is used in the inventory cycle to process significant accounting information outside of the MIS department.

.32 You should obtain an understanding of any spreadsheet application, database, or separate computer system that has been developed by end users to—

- Process significant accounting information outside of the MIS-operated accounting application. For example, a spreadsheet calculates overhead cost allocations.
- Make significant accounting decisions. A spreadsheet application tracks slow-moving items for possible write-off.
- Accumulate footnote information.

.33 In the space provided below, describe how end user computing is used in the inventory cycle. Describe—

- The person or department who performs the computing.
- A general description of the application and its type (e.g., spreadsheet).
- The source of the information used in the application.
- How the results of the application are used in further processing or decision making.

### Procedures and Controls Over End User Computing

.34 Answer the following questions relating to procedures and controls over end user computing related to the inventory cycle.

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>Inventory Cycle</b>				
1. End user applications listed in paragraph .33 of this form have been adequately tested before use.	_____	_____	_____	_____
2. The application has an appropriate level of built-in controls, such as edit checks, range tests, or reasonableness checks.	_____	_____	_____	_____
3. Access controls limit access to the end user application.	_____	_____	_____	_____
4. A mechanism exists to prevent or detect the use of incorrect versions of data files.	_____	_____	_____	_____
5. The output of the end user applications is reviewed for accuracy or reconciled to the source information.	_____	_____	_____	_____

### Information Processed by Outside Computer Service Organizations

.35 The Computer Applications Checklist—Medium to Large Business was used to document your understanding of the client's use of an outside computer service organization to process entity-wide accounting information such as the general ledger. In this section you will document your understanding of how the entity uses an outside computer service organization to process information relating specifically to the inventory cycle.

.36 In the space below, describe the inventory cycle information processed by the outside computer service bureau. Discuss—

- The general nature of the application.
- The source documents used by the service organization.
- The reports or other accounting documents produced by the service organization.
- The nature of the service organization's responsibilities. Do they merely record entity transactions and process related data, or do they have the ability to initiate transactions on their own?
- Controls maintained by the entity to prevent or detect material misstatement in the input or output.

## Financing

### Investments and Debt

.37 This checklist may be used on any audit engagement of a medium to large business where investments or debt are a significant transaction cycle.

.38 The purpose of this checklist is to document your understanding of controls for significant classes of transactions. Your knowledge of the financing cycle should be sufficient for you to understand—

- How investment decisions are authorized and initiated.
- How financing is authorized and captured by the accounting system.
- How management classifies investments as either trading, available-for-sale, or held to maturity.
- How investment and debt transactions are processed by the accounting system.
- The accounting records and supporting documents involved in the processing and reporting of investments and debt.
- The processes used to prepare significant accounting estimates, disclosures, and presentation.

### Interpreting Results

.39 This checklist documents your understanding of how internal control is designed and whether it has been placed in operation. It should help you in planning a primarily substantive approach. In entities where significant information is transmitted, processed, maintained, or accessed electronically, just gaining an understanding of internal control may not be enough (even in a primarily substantive approach). Since the competence of electronic evidence usually depends on the effectiveness of internal control over its validity and completeness, an auditor may have to test the internal control surrounding that evidence to gather evidence to support an assessed level of control risk below the maximum for affected assertions. In situations where the auditor decides to rely on internal control and assess control risk below the maximum for certain assertions (including instances where the preponderance of electronic evidence necessitates it), tests of controls will need to be designed and then specific controls will need to be tested to determine the effectiveness of their design and operation.

.40 The processes, documents, and controls listed on this questionnaire are typical for medium to large business entities but are by no means all-inclusive. The preponderance of "No" or "N/A" responses may indicate that the entity uses other processes, documents, or controls in their information and communication systems. You should consider supplementing this questionnaire with a memo or flowchart to document significant features of the client's system that are not covered by this questionnaire. See AAM section 4500 for example flowcharting techniques.

.41

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>I. Investments</b>				
<b>A. Authorization and Initiation</b>				
1. Investment transactions are authorized by management.				

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
2. The company has established policies and procedures for determining when board of director approval is required for investment transactions.	_____	_____	_____	_____
3. Management and the board assess and understand the risks associated with the entity's investment strategies.	_____	_____	_____	_____
4. Investments are registered in the name of the company.	_____	_____	_____	_____
5. At acquisition, investments are classified as trading, available-for-sale, or held-to-maturity.	_____	_____	_____	_____

**B. Processing**

6. Investment transactions are posted to the general ledger on a timely basis.	_____	_____	_____	_____
7. Account statements received from brokers are reviewed for accuracy.	_____	_____	_____	_____
8. Discounts and premiums are amortized regularly using the interest method.	_____	_____	_____	_____
9. Procedures exist to determine the fair value of trading and available-for-sale securities.	_____	_____	_____	_____
10. The general ledger is periodically reconciled to account statements from brokers or physical counts of securities on hand.	_____	_____	_____	_____

**C. Disclosures**

11. Management identifies investments with off-balance-sheet credit risk for proper disclosure.	_____	_____	_____	_____
12. Management distinguishes between derivatives held or issued for trading purposes and those held or issued for purposes other than trading.	_____	_____	_____	_____
13. The entity accumulates the information necessary to make disclosures about derivatives.	_____	_____	_____	_____

**II. Debt****A. Authorization and Initiation**

1. Financing transactions are authorized by management.	_____	_____	_____	_____
2. The company has established policies and procedures for determining when board of director approval is required for financing transactions.	_____	_____	_____	_____
3. Management and the board assess and understand all terms, covenants, and restrictions of debt transactions.	_____	_____	_____	_____

**B. Processing and Documentation**

4. Debt transactions are posted to the general ledger on a timely basis.	_____	_____	_____	_____
5. Any premiums or discount are amortized using the interest method.	_____	_____	_____	_____
6. The company maintains up-to-date files of all notes payable.	_____	_____	_____	_____

## Procedures and Controls Over End User Computing

.46 Answer the following questions relating to procedures and controls over end user computing related to the financing cycle.

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>Financing Cycle</b>				
1. End user applications listed in paragraph .45 of this form have been adequately tested before use.	_____	_____	_____	_____
2. The application has an appropriate level of built-in controls, such as edit checks, range tests, or reasonableness checks.	_____	_____	_____	_____
3. Access controls limit access to the end user application.	_____	_____	_____	_____
4. A mechanism exists to prevent or detect the use of incorrect versions of data files.	_____	_____	_____	_____
5. The output of the end user applications is reviewed for accuracy or reconciled to the source information.	_____	_____	_____	_____

## Information Processed by Outside Computer Service Organizations

.47 The Computer Applications Checklist—Medium to Large Business was used to document your understanding of the client's use of an outside computer service organization to process entity-wide accounting information such as the general ledger. In this section you will document your understanding of how the entity uses an outside computer service organization to process information relating specifically to the financing cycle.

.48 In the space below, describe the financing cycle information processed by the outside computer service bureau. Discuss—

- The general nature of the application.
- The source documents used by the service organization.
- The reports or other accounting documents produced by the service organization.
- The nature of the service organization's responsibilities. Do they merely record entity transactions and process related data, or do they have the ability to initiate transactions on their own?
- Controls maintained by the entity to prevent or detect material misstatement in the input or output.

## Property, Plant, and Equipment

### Fixed Assets and Depreciation

.49 This checklist may be used on any audit engagement where fixed assets are a significant transaction cycle.

.50 The purpose of this checklist is to document your understanding of controls for significant classes of transactions. Your knowledge of the property, plant, and equipment cycle should be sufficient for you to understand—

- How fixed asset transactions are authorized and initiated. (Additional information on the acquisition of fixed assets is documented on the Accounting Systems and Control Checklist for the Purchasing Cycle.)
- How fixed asset transactions and depreciation are processed by the accounting system.
- The accounting records and supporting documents involved in the processing and reporting of fixed assets and depreciation.
- The processes used to prepare significant accounting estimates and disclosures.

### Interpreting Results

.51 This checklist documents your understanding of how internal control over property, plant, and equipment is designed and whether it has been placed in operation. It should help you in planning a primarily substantive approach. In entities where significant information is transmitted, processed, maintained, or accessed electronically, just gaining an understanding of internal control may not be enough (even in a primarily substantive approach). Since the competence of electronic evidence usually depends on the effectiveness of internal control over its validity and completeness, an auditor may have to test the internal control surrounding that evidence to gather evidence to support an assessed level of control risk below the maximum for affected assertions. In situations where the auditor decides to rely on internal control and assess control risk below the maximum for certain assertions (including instances where the preponderance of electronic evidence necessitates it), tests of controls will need to be designed and then specific controls will need to be tested to determine the effectiveness of their design and operation.

.52 The processes, documents, and controls listed on this questionnaire are typical for medium to large business entities but are by no means all-inclusive. The preponderance of “No” or “N/A” responses may indicate that the entity uses other processes, documents, or controls in their information and communication systems. You should consider supplementing this questionnaire with a memo or flowchart to document significant features of the client’s system that are not covered by this questionnaire. See AAM section 4500 for example flowcharting techniques.

.53

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>I. Fixed Assets and Depreciation</b>				
<b>A. Authorization and Initiation</b>				
1. Fixed asset acquisitions and retirements are authorized by management.	_____	_____	_____	_____
<b>B. Processing and Documentation</b>				
2. The company maintains detailed records of fixed assets and the related accumulated depreciation.	_____	_____	_____	_____

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
3. Responsibilities for maintaining the fixed assets records are segregated from the custody of the assets.	_____	_____	_____	_____
4. The general ledger and detailed fixed asset records are updated for fixed assets transactions on a timely basis.	_____	_____	_____	_____
5. A process exists for the timely calculation of depreciation expense for both book and tax purposes.	_____	_____	_____	_____
6. The general ledger and detailed fixed asset records are updated for depreciation expense on a timely basis.	_____	_____	_____	_____
7. The general ledger is periodically reconciled to the detailed fixed asset records.	_____	_____	_____	_____
<b>C. Disclosure and Estimation</b>				
8. Management identifies events or changes in circumstances that may indicate fixed assets have been impaired (SFAS 121).	_____	_____	_____	_____
9. Management assesses and understands the risk of specialized equipment becoming subject to technological obsolescence (SOP 94-6).	_____	_____	_____	_____

## End User Computing in the Property, Plant, and Equipment Cycle

.54 End user computing occurs when the user is responsible for the development and execution of the computer application that generates the information used by that same person. For example, an accounting clerk prepares a spreadsheet that amortizes premiums or discounts, and the information from the spreadsheet is the source of a journal entry.

.55 The Computer Applications Checklist—Medium to Large Business was used to document your understanding of computer applications operated by the company's MIS department. In this section of the Financial Reporting Information Systems and Controls Checklist, you may document your understanding of how end user computing is used in the revenue cycle to process significant accounting information outside of the MIS department.

.56 You should obtain an understanding of any spreadsheet application, database, or separate computer system that has been developed by end users to—

- Process significant accounting information outside of the MIS-operated accounting application. For example, a spreadsheet application calculates the depreciation expense.
- Make significant accounting decisions. For example, a spreadsheet application is used to analyze lease or buy decisions.
- Accumulate footnote information.

.57 In the space provided below, describe how end user computing is used in the property, plant, and equipment cycle. Describe—

- The person or department who performs the computing.
- A general description of the application and its type (e.g., spreadsheet).
- The source of the information used in the application.
- How the results of the application are used in further processing or decision making.

- The nature of the service organization's responsibilities. Do they merely record entity transactions and process related data, or do they have the ability to initiate transactions on their own?
  - Controls maintained by the entity to prevent or detect material misstatement in the input or output.
- 
- 
- 
- 
- 
- 

## Payroll Cycle

### Payroll Expense

.61 This checklist may be used on any audit engagement of a medium to large business where the payroll cycle is significant.

.62 The purpose of this checklist is to document your understanding of controls for significant classes of transactions. Your knowledge of the payroll cycle should be sufficient for you to understand—

- How the time worked by employees is captured by the accounting system.
- How salaries and hourly rates are established.
- How payroll and the related withholdings are calculated.
- The accounting records and supporting documents involved in the processing and reporting of payroll.

### Interpreting Results

.63 This checklist documents your understanding of how internal control over the payroll cycle is designed and whether it has been placed in operation. It should help you in planning a primarily substantive approach. In entities where significant information is transmitted, processed, maintained, or accessed electronically, just gaining an understanding of internal control may not be enough (even in a primarily substantive approach). Since the competence of electronic evidence usually depends on the effectiveness of internal control over its validity and completeness, an auditor may have to test the internal control surrounding that evidence to gather evidence to support an assessed level of control risk below the maximum for affected assertions. In situations where the auditor decides to rely on internal control and assess control risk below the maximum for certain assertions (including instances where the preponderance of electronic evidence necessitates it), tests of controls will need to be designed and then specific controls will need to be tested to determine the effectiveness of their design and operation.

.64 The processes, documents, and controls listed on this questionnaire are typical for medium to large business entities but are by no means all-inclusive. The preponderance of "No" or "N/A" responses may indicate that the entity uses other processes, documents, or controls in their information and communication systems. You should consider supplementing this questionnaire with a memo or flowchart to document significant features of the client's system that are not covered by this questionnaire. See AAM section 4500 for example flowcharting techniques.

.65

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>I. Payroll</b>				
<b>A. Initiating Payroll Transactions</b>				
1. Wages and salaries are approved by management.	_____	_____	_____	_____
2. Salaries of senior management are based on written authorization of the board of directors.	_____	_____	_____	_____
3. Bonuses are authorized by the board of directors.	_____	_____	_____	_____
4. Employee benefits and perks are granted in accordance with management's authorization.	_____	_____	_____	_____
5. Senior management benefits and perks are authorized by the board of directors.	_____	_____	_____	_____
6. Proper authorization is obtained for all payroll deductions.	_____	_____	_____	_____
7. Access to personnel files is limited to those who are independent of the payroll or cash functions.	_____	_____	_____	_____
8. Wage and salary rates and payroll deductions are reported promptly to employees who perform the payroll processing function.	_____	_____	_____	_____
9. Changes in wage and salary rates and payroll deductions are reported promptly to employees who perform the payroll processing function.	_____	_____	_____	_____
10. Adequate time records are maintained for employees paid by the hour.	_____	_____	_____	_____
11. Time records for hourly employees are approved by a supervisor.	_____	_____	_____	_____
<b>B. Processing Payroll</b>				
12. Payroll is calculated using authorized pay rates, payroll deductions, and time records.	_____	_____	_____	_____
13. Payroll registers are reviewed for accuracy.	_____	_____	_____	_____
14. Standard journal entries are used to post payroll transactions to the general ledger.	_____	_____	_____	_____
15. Payroll cost distributions are reconciled to gross pay.	_____	_____	_____	_____
16. Payroll information such as hours worked is periodically compared to production records.	_____	_____	_____	_____
17. Net pay is distributed by persons who are independent of personnel, payroll preparation, time-keeping, and check preparation functions.	_____	_____	_____	_____
18. The responsibility for custody and follow-up of unclaimed wages is assigned to someone who is independent of personnel, payroll processing, and cash disbursement functions.	_____	_____	_____	_____
19. Procedures are in place to estimate the fair value of stock-based compensation plans.	_____	_____	_____	_____

	<u>Personnel</u>	<u>N/A</u>	<u>No</u>	<u>Yes</u>
<b>Payroll Cycle</b>				
1. End user applications listed in paragraph .69 of this form have been adequately tested before use.	_____	_____	_____	_____
2. The application has an appropriate level of built-in controls, such as edit checks, range tests, or reasonableness checks.	_____	_____	_____	_____
3. Access controls limit access to the end user application.	_____	_____	_____	_____
4. A mechanism exists to prevent or detect the use of incorrect versions of data files.	_____	_____	_____	_____
5. The output of the end user applications is reviewed for accuracy or reconciled to the source information.	_____	_____	_____	_____

### Information Processed by Outside Computer Service Organizations

.71 The Computer Applications Checklist—Medium to Large Business was used to document your understanding of the client's use of an outside computer service organization to process entity-wide accounting information such as the general ledger. In this section you will document your understanding of how the entity uses an outside computer service organization to process information relating specifically to the payroll cycle.

.72 In the space below, describe the payroll cycle information processed by the outside computer service bureau. Discuss—

- The general nature of the application.
- The source documents used by the service organization.
- The reports or other accounting documents produced by the service organization.
- The nature of the service organization's responsibilities. Do they merely record entity transactions and process related data, or do they have the ability to initiate transactions on their own?
- Controls maintained by the entity to prevent or detect material misstatement in the input or output.

# AAM Section 4500

## Flowcharting

### Introduction

.01 AAM sections 4300 and 4400 provided a series of forms you may use to document your understanding of a client's internal control system. Included in those forms were several Financial Reporting Information Systems and Controls Checklists to document your understanding of the accounting system and controls for significant account balances. As an alternative or supplement to those checklists, you may wish to include a flowchart. In some instances, a flowchart may be easier to read and analyze than a checklist or memo.

.02 In general you will want to identify the following for your client's significant accounts and transactions:

- Source documents
- The conversion of documents to computer media
- The nature of computer files that are further processed in the flow of information to the general ledger and the financial statements
- Accounts (subsidiary or general ledger master files) affected by the transaction
- Relevant accounting reports, journals, and ledgers produced in the flow of information to the general ledger and the financial statements

.03 An entity's financial reporting information system may create many documents, files, and reports that are useful for managing the organization. As an auditor you need to understand and document only those aspects that are relevant to the audit of the financial statements. Documents, files, and reports that are not relevant to your audit need not be presented on a flowchart. For example, the same system that produces sales invoices and a sales journal may also produce a report of sales by salesperson. An understanding of this report may not be necessary to plan the audit.

.04 It is *not* necessary for you to understand how every copy of accounting documents may be used by the client. When the client prepares numerous copies of a document, you are concerned only with those relevant to the flow of transactions from initiation to inclusion in the financial statements.

### Example: Jones Grocery

.05 *Jones Grocery is an eight-store chain of independent grocery stores in Anytown. The accounts payable cycle is described in the following paragraphs.*

.06 *When goods are received at each store, the store manager or another responsible employee counts and inspects the goods and checks them against the packing slip. A copy is retained by the store manager and the original is forwarded to the main store for processing.*

.07 *All vendor invoices are mailed directly to the main store, to the attention of Mrs. Jones. Her assistant matches the invoices to the packing slips received from individual stores. He investigates any discrepancies between quantities billed and quantities received, per the packing slips. He also follows up on any invoices received for which the store manager has not forwarded the packing slip.*

*.08 The invoices are coded and then entered into the accounts payable module of the company's accounting software system. The invoices with attached packing slips are stored in a temporary file until they are paid.*

*.09 The computer system automatically updates the general ledger. It also produces two reports: an accounts payable subledger and an accounts payable aging. When statements are received from the vendors, Mrs. Jones checks them against the accounts payable subledger and investigates any differences. Periodically, she reconciles the accounts payable subledger to the general ledger. The accounts payable aging is checked to make sure totals agree to the accounts payable subledger.*

*.10 Mr. Jones writes the checks. There is a module in the software that links the accounts payable module to the cash disbursements module and automatically prints checks, but this was too confusing to install. The volume of checks is not that great, so the company prepares them manually.*

*.11 Vendors are paid by invoice, not by statement. Payments are made monthly. Mr. Jones uses the accounts payable aging to determine which invoices should be paid. He marks these on the report and gives it to his secretary to prepare the checks. The matched vendor invoices and receiving reports that have been stored in temporary files are attached to the typed check for Mr. Jones' signature. Two check copies are retained: one is attached and filed with the invoice and a second is filed numerically.*

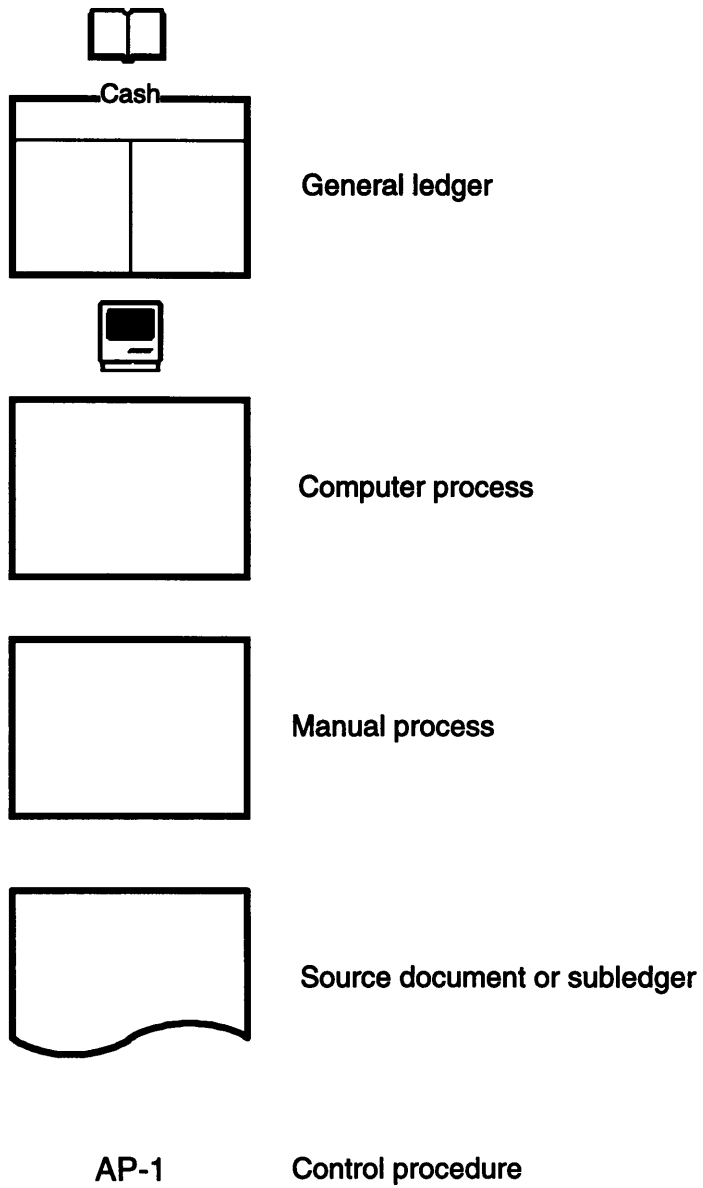

*.12 Once the checks are signed, they are coded and entered into the cash disbursements module of the accounting software package. The software updates the general ledger, the accounts payable subledger and aging, and produces a cash disbursements report. It also produces a cash management report that may be used to estimate the future cash needs of the business.*

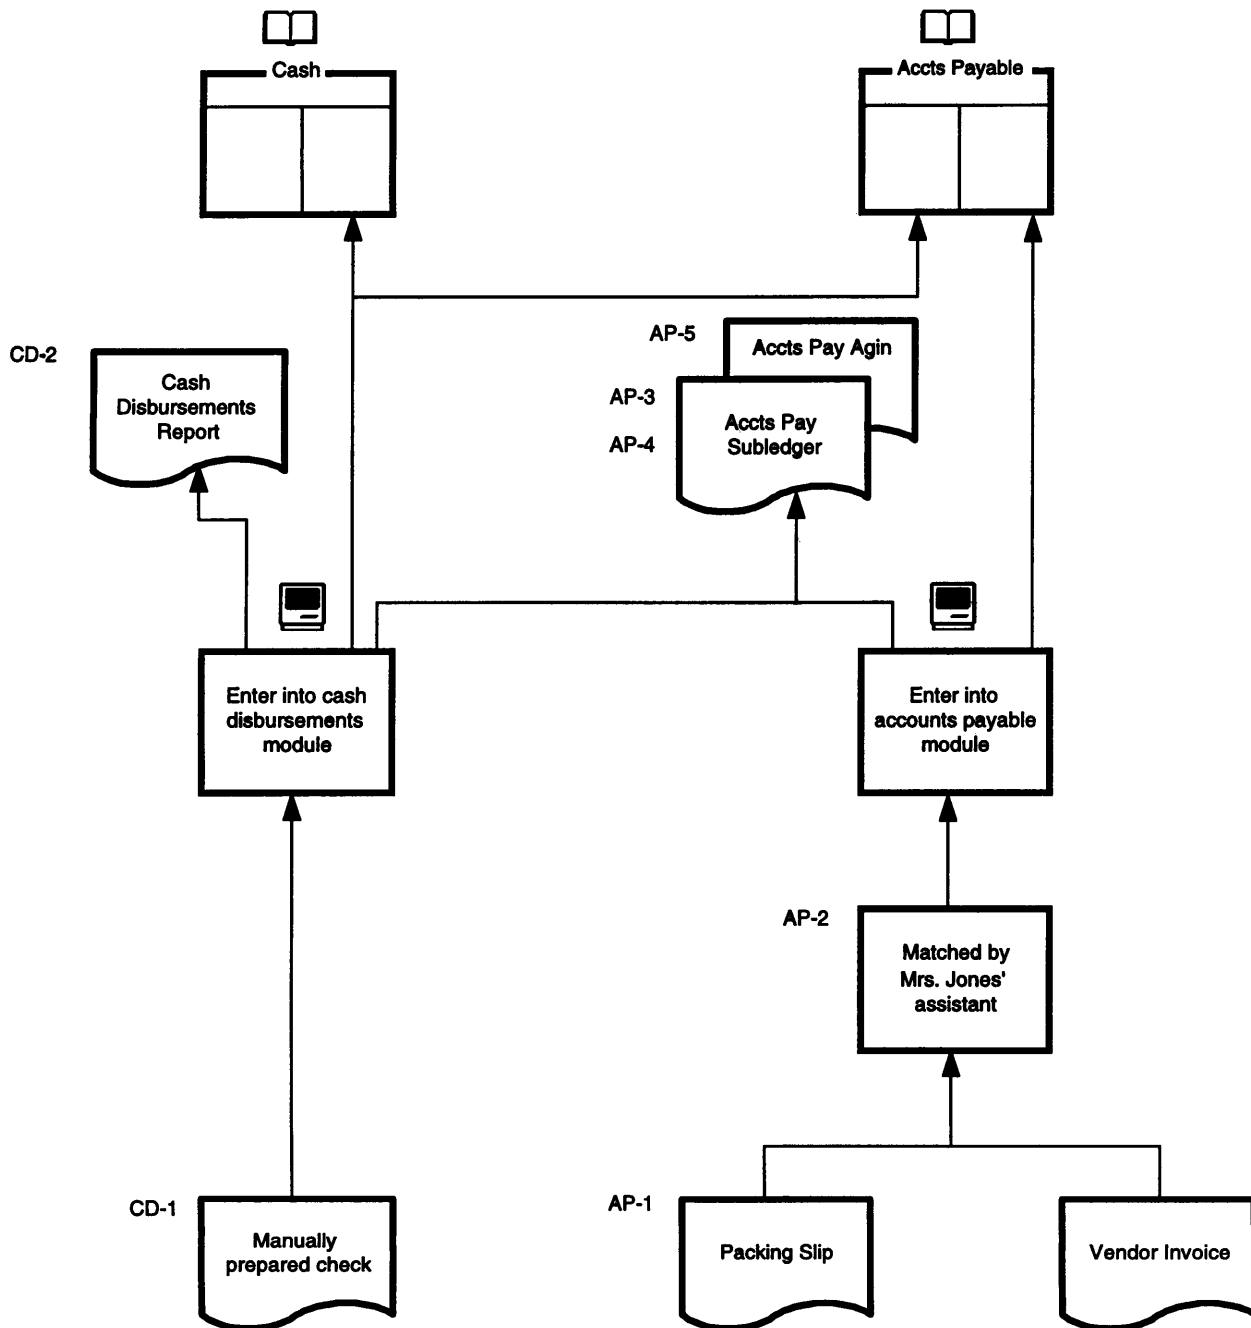

*.13 Monthly, the cash disbursements report is used to reconcile the cash accounts to the bank statements.*

## The Flowchart

*.14 The flowchart on the following page illustrates how an auditor might flowchart the accounts payable system described in AAM section 4500.05 through .13. The following symbols have been used.*

**Jones Grocery  
Accounts Payable**

.15 The flowchart should be read from the bottom to the top. The initiation of transactions and related source documents are depicted at the bottom of the page. The processing is described as an upwards flow until the information reaches the general ledger at the top of the page.

.16 Following the flowchart is a brief memo describing the controls that are documented on the flowchart.

### Jones Grocery Accounts Payable

<u>Control No.</u>	<u>Description</u>
AP-1	Store managers count and inspect goods received and compare to the packing slip.
AP-2	Packing slips are matched to vendor invoices and discrepancies are investigated.
AP-3	Accounts payable subledger is checked against monthly statements received from vendors. Differences are investigated.
AP-4	Accounts payable subledger is reconciled to the general ledger
AP-5	Accounts payable aging is reconciled to accounts payable subledger
CD-1	Accounts payable aging is used to determine which invoices to pay. Invoices and packing slips are attached to checks ready for signature.
CD-2	Cash disbursements journal is used to reconcile cash balances to monthly bank statements.

## Analysis

.17 The flowchart on the preceding page includes only those documents, records, and processes that are relevant to the audit of the financial statements. The narrative description of the system included in AAM section 4500.05 through .13 included several items that are not relevant to the audit. These items are that—

- Individual stores maintain a copy of the packing slip (AAM section 4500.06).
- Invoices and packing slips are stored in a temporary file (AAM section 4500.08).
- Two check copies are retained: one is attached and filed with the invoice and a second is filed numerically (AAM section 4500.11).
- The system generates a cash management report (AAM section 4500.12).

.18 Because the above items are not relevant to the audit, they are not included on the flowchart.

.19 The flowchart starts at the bottom of the page with the initiation of the transaction. In the case of the cash disbursement, the transaction is initiated when Mr. Jones signs and mails the checks. Reviewing the accounts payable aging and checking off invoices is not a transaction that has accounting significance. This is a control activity that is described in narrative form. It is not depicted on the flowchart.

.20 The flowchart depicts the direct flow of accounting information, from the initiation of the transaction to the inclusion in the general ledger. Documents, reports, and processes outside of this direct flow need not be documented.

# AAM Section 4600

## *Assessing Control Risk Below the Maximum*

### Introduction

.01 As described in AAM section 3125, you may choose one of two general audit strategies.

- A primarily substantive approach (however, see paragraph .03 below), where control risk is assessed at or slightly below the maximum, or
- An approach where control risk is assessed below the maximum.

.02 Control risk should be assessed at the maximum (primarily substantive approach) for some or all assertions if—

- Controls are unlikely to pertain to an assertion.
- Controls are unlikely to be effective.
- It would not be efficient for you to obtain evidential matter to evaluate the effectiveness of controls.

.03 In entities where significant information is transmitted, processed, maintained, or accessed electronically, the auditor may determine that it is not practical or possible to reduce detection risk to an acceptable level by performing only substantive tests for one or more financial statement assertions. The competence of electronic evidence usually depends on the effectiveness of internal control over its validity and completeness. (The term electronic evidence means information transmitted, processed, maintained, or accessed by electronic means and used by an auditor to evaluate financial statement assertions.) Without testing the internal control surrounding the electronic evidence, a lack of credibility may not be recognized by the auditor. Therefore, when using electronic evidence, auditors need to question the appropriateness of the approach of performing only substantive testing if ineffective controls exist, or if assessed control risk is at the maximum level. Given the nature of electronic evidence, it usually will be necessary to test the surrounding internal control (to gather evidence to support an assessed level of control risk below the maximum) if that electronic evidence is significant in supporting an auditor's conclusion regarding certain financial statement assertions. If the auditor concludes control risk must be assessed at the maximum in such circumstances, or the evidence gathered through tests of controls and substantive tests is insufficient, the auditor should qualify or disclaim an opinion because of the scope limitation.

---

#### Practice Tip

Read the AICPA's Auditing Procedure Study entitled *The Information Technology Age: Evidential Matter in the Electronic Environment* for helpful and valuable guidance about the implications of electronic evidence on an audit. Call the AICPA at 1 (800) 862-4272 and ask for product number 021068.

---

You may choose to assess control risk at the maximum either for audit efficiency purposes or because of ineffective controls. If you choose a primarily substantive audit because the controls are ineffective, you may have additional concerns about the auditability of the entity and other questions. Assuming you are able to overcome auditability concerns, you may respond by heightening the degree of professional skepticism, assigning more experienced staff, and changing the nature, timing, and extent of substantive procedures.

.04 Assessing control risk below the maximum involves—

- Identifying specific controls relevant to specific assertions that are likely to prevent or detect material misstatements in those assertions.
- Designing and performing tests of controls to evaluate the effectiveness of such controls.

.05 Controls can have either a pervasive effect on many assertions or a specific effect on an individual assertion, depending on the nature of the particular control component involved. The more direct the relationship between the control and the assertion, the more effective that control may be in reducing control risk for that assertion. For example, regular physical inventory count procedures are more likely to detect and correct misstatements than management's monitoring of gross-profit percentages.

.06 Note that the choice of an audit strategy is done at the *assertion* level and is not a global strategy for the entire audit. For some assertions, you may choose a primarily substantive approach; for other assertions, you may plan to assess control risk below the maximum.

*.07 Jones Grocery is a small chain of independent grocery stores in Anytown. Assume you have been the auditor of Jones Grocery for several years. During that time you have helped Mr. and Mrs. Jones design and implement the procedures used for the annual inventory count. The count itself is performed by an outside inventory count company that specializes in taking inventory at grocery stores. The outside company is supervised by Jones Grocery employees. Based on this knowledge of the controls for the physical inventory count, you may assess internal control risk below the maximum for the existence assertion related to inventory.*

.08 In the above example, the audit strategy was determined at the assertion level. The physical count of inventory is a control directly related to the existence assertion. It has little relevance to the valuation assertion and no relevance to the completeness assertion. Thus, you are able to modify tests related to the existence assertion, for example, reducing the number of test counts or stores where inventory is observed. Substantive audit procedures related to other assertions (for example, proper pricing) should not be modified.

## Performing Tests of Controls

.09 Tests of controls are directed toward the effectiveness of either—

- The design of the control, or
- The operation of the control.

.10 Tests directed toward the effectiveness of the *design* of controls are concerned with whether the control is suitably designed to prevent or detect material misstatements in specific financial statement assertions. Tests to obtain such evidential matter ordinarily include—

- Tests performed in previous audits.
- Inquiries of appropriate personnel.
- Inspection of documents and reports.
- Observation of the application of specific controls.

.11 Tests directed toward the effectiveness of the operation of a control are concerned with how the control was applied, the consistency with which it was applied during the audit period, and by whom it was applied. These tests ordinarily include—

- Tests performed in previous audits.

- Inquiries of appropriate personnel.
- Inspection of documents and reports indicating performance of the control.
- Observation of the application of specific controls.
- Reperformance of the application of the controls by the auditor.

.12 For controls for which documentary evidence exists, you may choose to examine the documents. For other controls (for example, segregation of duties) documentation may not exist. These controls often can be tested only by inquiry and observation.

.13 For example, you may decide to obtain evidence of the effectiveness of the design and operation of an entity's budgetary control methods. You could make inquiries of management about what variations from budget are investigated and the controls for reporting the reasons for these variances. Based solely on this inquiry, you would generally assess control risk at the maximum.

.14 The effectiveness of tests of controls may be increased by examining reports generated and asking more detailed question (such as about whether personnel follow up on budgets or about the timeliness of the investigations or the nature of the reports). By combining these inquiries with examination of written explanations of variances, the auditor can determine the operating effectiveness of these controls. This documentation may provide direct evidence for assessing the effectiveness of these controls in preventing or correcting misstatements in the financial statements.

.15 When performing tests of controls, caution is necessary. The tests cannot support an assessment of control risk below the maximum unless they provide evidence to evaluate the effectiveness of design and operation of controls. Accordingly you should consider that—

- Evidence from prior audits may be affected by subsequent changes in internal control.
- Inquiry alone generally will not provide sufficient evidential matter to support a conclusion about the effectiveness of a specific control.
- Evidence from inquiry alone depends on the extent of the inquiries.
- Observation of employees in the performance of their duties may corroborate evidence obtained from other sources, but pertains only to the point in time at which the observation was made.
- Evidence from inspection of documents depends on the extensiveness of inspections made.

## **Evidence From Prior Audits**

.16 You can use evidence from prior audits to help support your assessment of control risk in the current audit. To evaluate the use of such prior period evidential matter for the current audit, you should consider—

- The significance of the assertion involved.
- The specific controls that were evaluated during the prior audits.
- The degree to which the effective design and operation of those controls were evaluated.
- The results of the tests of controls used to make those evaluations.
- The evidential matter about design or operation that may result from substantive tests performed in the current audit.
- The time that has elapsed since the performance of the tests of controls.

.17 When using evidence from prior audits, you should consider that changes—either in the controls themselves or in personnel—may have occurred subsequent to the prior audit. You should obtain current

evidence about whether changes have occurred subsequent to the prior audit, as well as the nature and extent of any changes. You should obtain evidential matter about changes in effectiveness of design and about changes in operating effectiveness.

.18 When changes in internal control between audits are relatively minor, evidential matter obtained in prior audits may provide assurance for the current audit. Conversely, changes may be so significant that evidential matter obtained in prior audits may provide limited or no assurance for the current audit.

.19 You should also obtain evidence in the current audit about the continued operating effectiveness of controls for which the design has remained unchanged. Decisions about the degree of assurance from prior audit evidence and about additional evidential matter needed in the current audit are affected by adverse conditions that may affect whether the controls are likely to continue to operate effectively, such as—

- Changes in the nature of transactions being processed or increases in volume.
- Changes in management attitudes or reduction of supervision.
- High turnover of employees.
- Increases in responsibilities or workloads of employees.
- The effect of related controls that reinforce the continued effective operation of the controls, such as the following:
  - Documented procedures manuals.
  - Close management supervision, including frequent communication and responsibility reporting.
  - Computer general control activities.

.20 You should obtain evidence in the current audit about the operating effectiveness of changed controls. If there are significant changes in design, prior evidence provides little, if any, assurance in the current audit.

## Computer Applications

.21 As described in AAM section 4200, your understanding of the control activities in the computerized environment generally comprise a combination of the following:

- User control activities
- Programmed control activities and manual follow-up activities
- Computer general control activities and manual follow-up activities

.22 User controls may provide evidence that the programmed control activities operate effectively, in which case you may choose to understand and test the user controls. If these controls are designed and operating effectively, these tests may support a lower control risk assessment.

.23 You might plan an audit strategy of testing programmed control activities and the related manual follow-up. For example, you might use computer-assisted audit techniques, such as generalized audit software or the processing of test data, to test the programmed control activities that produce an exception report. These tests provide evidence about the design and operation of programmed control activities; however, they do not provide evidence about the consistent application of the control activities. Evidence is provided only about the point in time when they are performed. The use of computer-assisted audit techniques expands the ability to analyze data, recognize patterns, and test the assertions contained in the financial statements. However, evidence produced for the auditor by software may not be competent due to the functionality of and processing used by the software. When used properly, computer-assisted audit techniques enhance auditor efficiency and effectiveness.

.24 If you test programmed control activities you also need to test the related manual follow-up activities, for example the activities used to follow up on the items listed on an exception report. The effectiveness of the control activities relates to both an accurate computer produced exception report and an effective manual follow-up of the exceptions.

.25 The degree to which you may need to test programmed control activities depends on the effectiveness of computer general control activities, especially the effectiveness of controls over the development of and changes to programs.

## AAM Section 4700

### *The Auditor's Assessment of Control Risk*

.01 Most of the auditor's work in forming an opinion on financial statements consists of obtaining and evaluating evidential matter concerning the assertions in such financial statements. SAS No. 31, *Evidential Matter*, as amended by SAS No. 80 (AU section 326), presents assertions as representations by management that are embodied in financial statement components. In obtaining evidential matter in support of financial statement assertions, the auditor develops specific audit objectives in light of those assertions. There is not necessarily a one-to-one relationship between audit objectives and audit procedures.

.02 Assertions are classified in SAS No. 31, as amended (AU section 326), according to the following broad categories:

- *Existence or occurrence.* Reported assets and liabilities actually exist at the balance-sheet date, and transactions reported in the income statement actually occurred during the period covered.
- *Completeness.* All transactions and accounts that should be included in the financial statements are included, and there are no undisclosed assets, liabilities, or transactions.
- *Rights and obligations.* The entity owns and has clear title to assets and liabilities which are the obligations of the entity.
- *Valuation or allocation.* The assets and liabilities are valued properly and the revenues and expenses are measured properly.
- *Presentation and disclosure.* The assets, liabilities, revenues, and expenses are properly classified, described, and disclosed in the financial statements.

.03 SAS No. 55, *Consideration of the Internal Control Structure in a Financial Statement Audit* (AU section 319), and SAS No. 78, *Consideration of Internal Control in a Financial Statement Audit: An Amendment to SAS No. 55*, state that the auditor should assess control risk in terms of assertions for material components of the financial statements. Many practitioners may consider audit objectives that relate to the assertions when assessing control risk. SAS Nos. 55 and 78 (AU section 319) do not preclude or require any specific approach as long as control risk is ultimately assessed at the assertion level. For example, an approach of identifying internal control policies and procedures and relating those to significant audit objectives for account balances or transaction classes would be appropriate. Practice aids for documenting the assessed level of control risk using this approach are illustrated in AAM section 4700.05-.10.

.04 The following working papers are to be used to document the auditor's assessment of control risk. They are to be completed when it is expected that control risk is to be assessed below maximum for certain assertions. The working papers should be modified as needed and are not meant to cover all types of controls. They are to initially be completed in the planning phase of the audit. Based on the results of tests of controls, the auditor then determines whether the initial assessment of control risk is appropriate and documents their conclusion.

# AAM Section 5000

## Audit Approach and Programs

The material included in these sections on audit approach and programs is presented for illustrative purposes only. The comments, illustrative audit objectives, and illustrative audit procedures are neither all-inclusive nor are they prescribed minimums. The illustrative audit procedures are numbered merely to organize the materials; those numbers are not intended to imply completeness or a prescribed sequence. The nature, extent, and timing of the auditing procedures to be applied on a particular engagement are a matter of professional judgment to be determined by the auditor based on the specific facts and circumstances.

This manual is a nonauthoritative kit of practice aids. Accordingly, these sections include minimal explanation and discussion of authoritative pronouncements. Users of this manual are urged to refer directly to applicable authoritative pronouncements when appropriate. Users should also note that this manual does not deal with specialized industry problems; reference should be made to applicable AICPA Audit and Accounting Guides.

## *Designing the Audit Program*

.01 The objective of an audit is to express an opinion on whether financial statements present fairly in all material respects, an entity's financial position, results of operations, and cash flows in conformity with generally accepted accounting principles. This conclusion may be expressed only when the auditor has formed such an opinion on the basis of an audit performed in accordance with generally accepted auditing standards. The procedures that the auditor plans to use to gather evidence are outlined in an audit program.

.02 Since the audit program describes the evidence-gathering steps to be used in the audit, it should be carefully designed. Designing an audit program involves three major considerations:

- a. Deciding *what* procedures to apply—the *nature* of audit tests
- b. Deciding *when* to apply the procedures—the *timing* of audit tests
- c. Deciding *which* items to apply the procedures to—the *extent* of audit tests

.03 Flowchart 1 presents an overview of the structure of the audit process. To design an audit program that is efficient and effective, the auditor should—

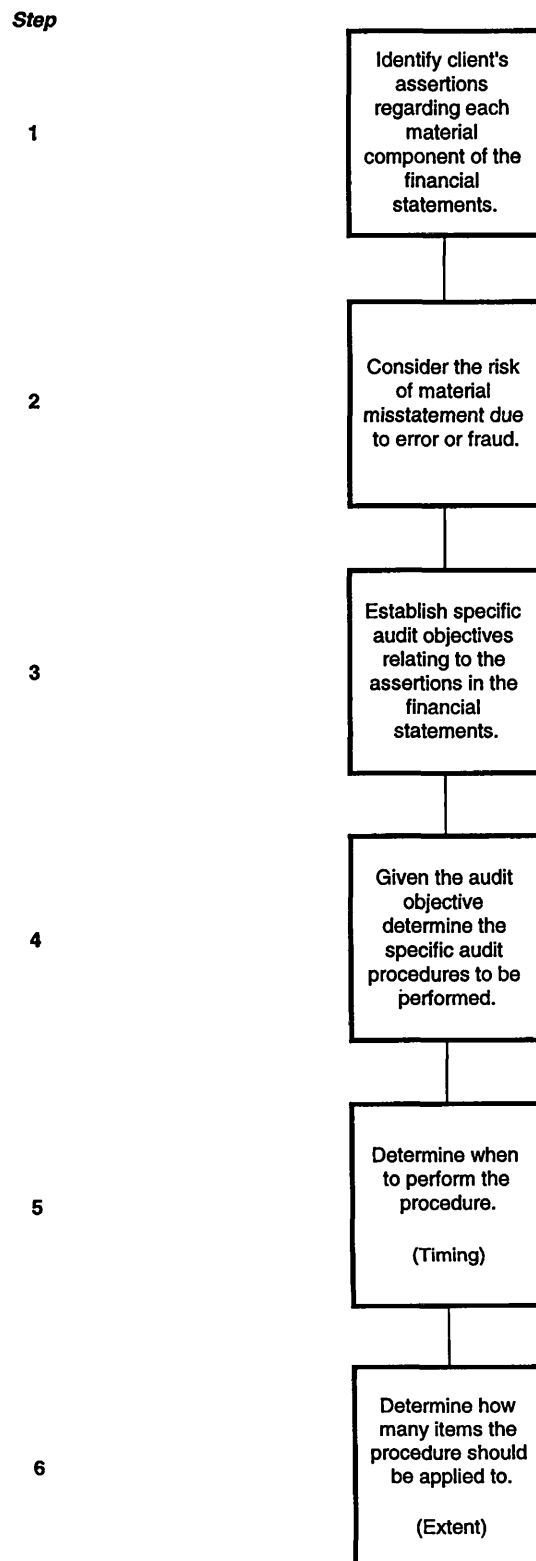

- a. Identify the client's assertions regarding each material component of the financial statements.
- b. Consider the risk of material misstatement due to error or fraud.
- c. Establish specific audit objectives relating to the assertions in the financial statements.
- d. Determine the audit procedures to be performed to accomplish the audit objectives.
- e. Determine when to perform the audit procedures.
- f. Determine which of many items to apply audit procedures to.

.04 The six steps illustrated in flowchart 1 result in a determination of the nature, timing, and extent of audit tests.

## Financial Statement Assertions

.05 According to SAS No. 31, *Evidential Matter*, as amended by SAS No. 48 and SAS No. 80 (AU section 326), the independent auditor's work in forming an opinion on financial statements consists of obtaining and evaluating evidential matter concerning the assertions in such financial statements. These assertions are embodied in the account balance, transaction class, and disclosure components of financial statements and are classified according to the following broad categories:

**Flowchart 1**  
**Audit Logic Process**

- a. *Existence or Occurrence.* Reported assets and liabilities actually exist at the balance-sheet date, and transactions reported in the income statement actually occurred during the period covered.
- b. *Completeness.* All transactions and accounts that should be included in the financial statements are included, or there are no undisclosed assets, liabilities, or transactions.
- c. *Rights and Obligations.* The company owns and has clear title to assets and liabilities are obligations of the company.
- d. *Valuation or Allocation.* The assets and liabilities are valued properly, and the revenues and expenses are measured properly.
- e. *Presentation and Disclosure.* The assets, liabilities, revenues, and expenses are properly classified, described, and disclosed in the financial statements.

## Developing Audit Objectives

.06 A misrepresentation of any of the five financial statement assertions could cause a material misstatement in the financial statements. The auditor should consider the risk of material misstatement for each assertion in the financial statements, and then obtain evidence to support the financial statement assertions to reduce the risk of material misstatement to an acceptably low level. To determine what type of evidence to obtain, the auditor develops specific audit objectives related to each assertion.

.07 In determining audit objectives, the auditor should evaluate each of the five assertions as they relate to the specific account balance or class of transactions being examined. For example, if the auditor is attempting to gather evidence on the assertion of *existence* of inventory, the auditor's objective would be to gather evidence that inventory included in the balance sheet physically existed at the date of the balance sheet.

Figure 1

### Relationship of Assertions and Objectives for Inventory

<u>Financial Statement Assertion</u>	<u>Illustrative Audit Objectives</u>
Existence or occurrence	—Inventories included in the balance sheet physically exist.
Completeness	—Inventory quantities include all products, materials, and supplies on hand. —Inventory quantities include all products, materials, and supplies owned by the client that are in transit or stored at outside locations. —Inventory listings are accurately compiled and the totals are properly included in the inventory accounts.
Right and obligations	—The entity has legal title or similar rights of ownership to the inventory.
Valuation or allocation	—Inventories are properly stated at cost (except when market is lower).
Presentation and disclosure	—Inventories are properly classified in the balance sheet as current assets.

An example of the relationship between financial statement assertions and audit objectives is shown in Figure 1.

## Audit Tests

.08 After the auditor has determined the audit objectives, the method of achieving the objectives should be selected. Although these methods are referred to by various names such as audit procedures, audit techniques, and audit tests, they represent the evidence-gathering methods auditors use. The basic requirement for determining audit procedures, according to SAS No. 31, paragraph 13, as amended (AU section 326.13), is that:

The procedures adopted should be adequate to achieve the auditor's specific objectives and reduce detection risk to a level acceptable to the auditor. The evidential matter obtained should be sufficient for the auditor to form conclusions concerning the validity of the individual assertions embodied in the components of financial statements.

.09 Some audit procedures can satisfy a combination of audit objectives for a given account balance or class of transactions. For example, the auditor's observation of a physical inventory count can provide evidence that inventories physically exist and that inventory quantities include all products, materials, and supplies on hand.

.10 Audit tests or procedures can be classified or categorized in a variety of ways. The most common classifications are by purpose of the test or by type of test.

### Purpose of the Test

.11 According to SAS No. 55, *Consideration of Internal Control in a Financial Statement Audit*, as amended by SAS No. 78 (AU section 319), the purpose of performing audit tests are:

- a. To evaluate the effectiveness of the design and operation of internal controls. These tests are referred to as tests of controls.
- b. To detect material misstatements in financial statement assertions. These tests are referred to as substantive tests.

.12 Substantive tests are procedures applied to account balances or classes of transactions to determine if there are material misstatements in the financial statements. The substantive test that the auditor performs consists of tests of details of transactions and balances and analytical procedures. In assessing control risk, the auditor also may use tests of details of transactions as tests of controls. The objective of tests of details of transactions performed as substantive tests is to detect material misstatements in the financial statements. The objective of tests of details of transactions as tests of controls is to evaluate whether controls operated effectively. Although these objectives are different, both may be accomplished concurrently through performance of a test of details on the same transaction.

.13 If the control risk is assessed at less than the maximum level, the auditor should obtain sufficient evidential matter to support that assessed level. The evidential matter that is sufficient to support a specific assessed level of control risk is a matter of auditor judgment. The type of evidential matter obtained all bear on the degree of assurance provided. Since the auditor's substantive testing is affected by the quality of the controls, the auditor is concerned with whether the controls established are designed and operating effectively. The role of tests of controls is to justify this assertion.

.14 The nature, timing, and extent of substantive tests are generally based on the assessment of inherent risks, control risk, and other risk assessments made during the planning phase of the engagement. For example, the higher the assessment of control risk, the more comprehensive the substantive tests should be. If analytical procedures performed during the planning phase of the engagement suggest that some account balances are unexpectedly high or low, the auditor may determine that those balances warrant more testing. Tests' effectiveness can be modified by changing their nature (for example, tests of balances versus analytical

procedures), timing (testing as of the balance-sheet date versus an interim date), or extent (testing 100 percent versus sampling). Similarly, the auditor may be able to change the same factors to make audits more efficient. While the main objective is to perform an effective audit, if alternative tests are equally effective, the auditor should choose the most efficient one.

.15 Planning occurs throughout the engagement and as a result the auditor might have to reassess risk as the engagement unfolds. For example, even if tests of controls indicated that an area had low risk and the auditor planned substantive tests accordingly, information might come to the auditor's attention during the audit that requires reassessment of the risk. Such information might include, for example, unexpected deviations from control procedures, misstatements that the internal controls should have caught, or new information about transactions or balances.

.16 The most effective and efficient audit strategy for a small business engagement, without a significant electronic environment, generally is to assess the control risk at the maximum level (the greatest probability that a material misstatement that could occur in an assertion will not be prevented or detected on a timely basis by an entity's internal control). In this case, the auditor will use the knowledge obtained from the understanding of internal control and the assessed level of control risk in designing substantive tests for financial statement assertions. In situations where electronic evidence (i.e., information transmitted, processed, maintained, or accessed by electronic means—for example, using a computer, scanner, sensor, or magnetic media) will be significant in gaining competent evidential matter regarding financial statement assertions, the ability to rely solely on substantive tests may not be present inasmuch as the competence of electronic evidence depends on the effectiveness of internal control over its validity and completeness. In such circumstances, the auditor should perform tests of controls to gather evidence to support an assessed level of control risk below the maximum for affected assertions. If the auditor concludes control risk must be assessed at the maximum in such circumstances, or the evidence gathered through tests of controls and substantive tests is insufficient, the auditor should qualify or disclaim an opinion because of the resulting scope limitation.

## Type of Test

.17 Auditors perform four types of tests:

- a. Analytical procedures
- b. Inquiry and observation
- c. Tests of transactions
- d. Tests of balances

The relationship of audit tests by purpose to audit tests by type is shown in figure 2.

## Analytical Procedures

.18 Analytical procedures are tests applied to the *total* recorded amounts and are based on the existence of plausible and consistent relationships among financial statement elements or between financial and nonfinancial amounts. Analytical procedures are used for the following purposes:

- a. To assist the auditor in planning the nature, timing, and extent of other auditing procedures.
- b. As a substantive test to obtain evidential matter about particular assertions related to account balances or classes of transactions.
- c. As an overall review of the financial information in the final review stage of the audit.

.19 Analytical procedures can be effective:

- For certain types of assertions (for example, the completeness assertion, which cannot be tested directly using a test of balances on recorded amounts).
- When the relationships between amounts are very predictable.
- When the data used to develop expectations based on the relationship are reliable.
- When relatively precise expectations can be developed.

.20 Analytical procedures can provide evidence supporting financial statement assertions and, thus, can be used as substantive tests. Because analytical procedures are often the least expensive tests, they should be used whenever practical.

.21 SAS No. 56, *Analytical Procedures* (AU section 329), describes analytical procedures as follows:

Analytical procedures involve comparisons of recorded amounts, or ratios developed from recorded amounts, to expectations developed by the auditor. The auditor develops such expectations by identifying and using plausible relationships that are reasonably expected to exist based on the auditor's understanding of the client and of the industry in which the client operates. Following are examples of sources of information for developing expectations:

- a. Financial information for comparable prior period(s) giving consideration to known changes.
- b. Anticipated results—for example, budgets, or forecasts including extrapolations from interim or annual data.
- c. Relationships among elements of financial information within the period, such as interest income in relation to the average loan balance.
- d. Information regarding the industry in which the client operates—for example, cost of funds information.
- e. Relationships of the financial information with relevant nonfinancial information.

.22 Whenever analytical procedures are applied as substantive tests, the auditor must apply the following procedures:

- a. Consider whether the relationship is plausible and predictable.
- b. Consider whether the data used for the comparison is reliable.
- c. Consider whether the account balance tested is consistent with the auditor's expectations. If it is not consistent, obtain the client's explanation for the variance and get evidence to corroborate the client's explanation.

.23 SAS No. 56 (AU section 329) also requires that analytical procedures be performed at the planning and final review stages of the audit.

## Inquiry and Observation

.24 Testing of controls that leave no audit trail of documentary evidence is usually tested by inquiry and observation. Auditors make inquiries of different individuals and conduct observation tests to determine who performs a particular activity or how or when the activity is done. For example, the auditor may ask different individuals about who posts to the receivables ledger, the auditor may observe who prepares the bank reconciliation, or the auditor may observe when cash is deposited in the bank. Typically, inquiry alone is not sufficient evidence of effective operation of controls.

.25 Inquiry and observation can also be used as substantive tests. For example, an audit procedure such as observation of a *physical asset* to determine that it exists is a substantive test relating to the existence assertion. Likewise, inquiries regarding subsequent events would be a substantive test because they provide evidence regarding the adequacy of disclosures in the financial statements.

Matrix of Audit Tests by Purpose and Type

Figure 2

		Purpose of Test	
		Substantive Test	Test of Controls
Type of Test	Analytical Procedures	Yes Example A	No
	Inquiry and Observation	Yes Example H	Yes Examples B, C, I
	Tests of Transactions	Yes Example D	Yes Examples E, F
	Tests of Balances	Yes Examples G, H	No

*Examples:*

A—Comparison of this year's expenses with last year's expenses

B—Observation by auditor that cash is deposited daily by a specific clerk

C—Inquiry by auditor about who deposits cash and how often

D—Examination of invoices to support additions (specific transactions) to fixed assets account during year

E—Examine sales invoices to see if initials of credit manager are there to indicate a credit file and credit approval (Inspection Test)

F—Vouch from sales invoices to credit files to see if customer has a credit file and has been approved for credit (Reperformance Test)

G—Confirmation of year-end balances in accounts receivable

H—Observation of the existence of a building

I—Extended walk-through of an application

## Tests of Transactions

.26 Tests of transactions consist of the examination of the documents and accounting records involved in the processing of specific transactions. Such procedures can accomplish both testing of controls and substantive testing and are sometimes used concurrently.

.27 Tests of controls are accomplished when the auditor examines transaction documentation to determine if controls have been applied as prescribed. Tests of transactions as tests of controls can be classified as either inspection tests or reperformance tests. If the auditor examines documentation, the tests of controls are classified as an inspection test. Alternatively, if the auditor repeats controls performed by the client, the

tests of controls are classified as reperformance tests. For example, a control may require employees to match vendors' invoices with purchase orders and receiving reports and then initial the invoices to indicate that the procedure was performed. If the auditor tests the control by examining invoices for initials, the test is an inspection test. If the auditor tests the control by comparing vendors' invoices with purchase orders and receiving reports, the test is a reperformance test. Reperformance tests may also take the form of simulated processing, or processing of test data. Regardless of whether the auditor tests by inspection or reperformance, the test of control is a test of transactions.

.28 The substantive objective of tests of transactions is accomplished when the auditor examines transaction documentation to determine if dollar errors exist in a balance. For example, if the auditor examines documentation supporting individual charges (debits) to an equipment account to determine that the account balance is fairly stated, the test is classified as a substantive test of transactions.

## Tests of Balances

.29 Tests of balances are procedures applied to the *individual items* that compose an account balance or class of transactions. The tests involve confirmation, inspection, or observation procedures to provide evidence about the recorded amount. Tests of balances are substantive tests designed to identify misstatements by a direct test of the ending balance rather than by testing the transactions that make up that balance.

.30 Substantive tests of transactions and tests of balances are interrelated in that each class of transactions affects a related account balance. Since financial statement amounts are the accumulation of transactions, an auditor may test the transactions that enter the account (that is, the debits and credits), the account balance itself (that is, the ending balance), or both.

## Linking Audit Procedures to Objectives

.31 To design an audit program, the audit should select audit procedures that achieve specific audit objectives developed from the five broad assertions for each material account balance in the financial statements.

.32 In selecting audit procedures to achieve the audit objectives developed, an auditor considers the following, according to SAS No. 31, as amended:

- a. The risk of material misstatement of the financial statements including the assessed levels of control risk.
- b. The expected efficiency and effectiveness of possible audit procedures.
- c. The nature and materiality of the items being tested.
- d. The kinds and competence of available evidential matter.
- e. The nature of the audit objective to be achieved.

## The Completeness Assertion

.33 SAS No. 31, paragraph 5, as amended (AU section 326.05), discusses the completeness assertion:

Assertions about completeness address whether all transactions and accounts that should be presented in the financial statements are so included. For example, management asserts that all purchases of goods and services are recorded and are included in the financial statements. Similarly, management asserts that notes payable in the balance sheet include all such obligations of the entity.

.34 Substantive tests that provide assurance regarding the completeness assertion are those that provide evidence about whether all transactions have been captured by the client's accounting system and are included in the financial statements.

.35 Gathering evidence about whether all transactions have been recorded is one of the most difficult audit objectives to achieve. Evidence of completeness can be even more difficult to obtain when a client does not have good internal control or has only an informal record-keeping system. Because these two characteristics often apply to small business, satisfying the completeness objective can be difficult for the auditor in a small business engagement.

.36 Completeness relates to whether all items have been included in the financial statements. The completeness assertion is violated if a transaction or account is omitted from the financial statements. If a transaction is merely recorded in the wrong account, there is no violation of the completeness assertion since the transaction is still recorded in the financial statements. In such a situation, the accounts are not incorrect because of a completeness error; rather, they are incorrect because of a classification error. A classification error is a violation of the presentation and disclosure assertion.

.37 For many accounts, the completeness assertion is the most difficult to test. The difficulty arises because the auditor must gather evidence about potential unrecorded items. Sources of audit evidence regarding unrecorded items often are not readily available.

## Lack of Evidence

.38 To give an unqualified opinion, the auditor must gather sufficient, competent evidential matter to reduce the level of audit risk to an appropriately low level. SAS No. 31, paragraph 23, as amended (AU section 326.23), provides the following guidance when the auditor is unable to gather sufficient evidence to be satisfied regarding the completeness assertion:

To the extent the auditor remains in substantial doubt about any assertion of material significance, he must refrain from forming an opinion until he has obtained sufficient competent evidential matter to remove such substantial doubt, or he must express a qualified opinion or a disclaimer of opinion.

.39 SAS No. 1, section 110, *Responsibilities and Functions of the Independent Auditor* (AU section 110.02), states:

The auditor has a responsibility to plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. Because of the nature of audit evidence and the characteristics of fraud, the auditor is able to obtain reasonable, but not absolute, assurance that material misstatements are detected. The auditor has no responsibility to plan and perform the audit to obtain reasonable assurance that misstatements, whether caused by errors or fraud, that are not material to the financial statements are detected.

.40 SAS No. 31, as amended, requires the auditor to obtain evidence concerning inclusion in the financial statements of all types of transactions that the auditor has reason to believe has occurred based on the auditor's knowledge of the client and the industry in which it operates. Utilizing professional skepticism while performing the audit, the auditor should question transactions that are peculiar to the client or industry as well as question the lack of specific types of transactions.

.41 Practitioners sometimes accept management representations as sufficient audit evidence when completeness of recorded transactions cannot be substantiated. Management representations are part of the

evidential matter the auditor gathers, but they should not be used as a substitute for the performance of those procedures considered necessary to form an opinion on the financial statements. An auditor cannot rely on management representations alone as sufficient audit evidence to substantiate the completeness of account balances and classes of transactions. Obtaining such representations complements but does not replace other auditing procedures that the auditor should perform. [See Auditing Interpretation No. 3 of SAS No. 31, "The Auditor's Consideration of the Completeness Assertion" (AU section 9326.18–21).] When an auditor is unable to form an opinion, even though representations from the management have been received, there is a limitation on the scope of the audit that precludes the auditor from issuing an unqualified opinion (SAS No. 85, *Management Representations*, paragraph 14 [AU section 333.14]).

## Controls for Completeness

.42 Controls for completeness are designed (1) to count or otherwise identify transactions executed by the entity and (2) to provide reasonable assurance that all transactions have been accurately recorded by the accounting system. For example, completeness controls over purchases can include reconciliation of all pre-numbered receiving reports that are missing, not recorded, or not otherwise accounted for. Many auditors prefer to rely on controls gathering evidence of completeness since extensive substantive tests for completeness may be more difficult to design than those for other SAS No. 31 assertions.

.43 If the auditor desires to assess control risk at less than the maximum level, tests of controls should be performed to determine that the controls are working as prescribed to make that control risk assessment. Once the control risk is assessed at less than maximum, the auditor may restrict substantive procedures designed to obtain evidential matter regarding the completeness assertion. Taken alone, the assessed level of control risk, ordinarily, is not sufficiently low to eliminate the need to perform any substantive tests. In addition, small businesses often lack segregation of duties, which usually prevents the auditor from assessing control risk at a low level. As a result, it is necessary to perform substantive tests of the completeness assertion.

## Substantive Tests

.44 Many substantive tests are of limited usefulness in detecting errors of omission because they are usually applied to recorded amounts. Unrecorded transactions are not included in the account balances or classes of transactions to which the auditor applies substantive tests.

.45 Of all the financial statement assertions, only completeness involves consideration of whether there are material amounts that are not included in the account balance or class of transactions being tested. Therefore, substantive tests of the completeness assertion differ somewhat from substantive tests of other financial statement assertions. The difference is highlighted by the following excerpt from SAS No. 31, paragraph 11, as amended (AU section 326.11):

In designing substantive tests to achieve an objective related to the assertion of existence or occurrence, the auditor selects from items contained in a financial statement amount and searches for relevant evidential matter. On the other hand, in designing procedures to achieve an objective related to the assertion of completeness, the auditor selects from evidential matter indicating that an item should be included in the relevant financial statement amount and investigates whether that item is so included.

.46 Substantive tests can be designed to provide evidential matter to support a conclusion that specific account balances are not misstated by amounts that would cause the financial statements, taken as a whole, to be materially misstated because of unrecorded transactions.

.47 Important sources of evidential matter for completeness include source documents, such as order logs, shipping and receiving documents, and checks. One common test of completeness involves tracing

amounts from source documents to amounts recorded in the accounting records. For example, the auditor may vouch selected cash disbursements after the end of the audit period to test the completeness of amounts recorded as accounts payable at the balance-sheet date. Other substantive procedures that provide evidence concerning the completeness of financial statement account balances include the following:

- a. Sales-and-purchases cutoff procedures that include tracing shipping and receiving documents processed after the audit period to accounting records for the proper period.
- b. Analytical procedures in which the auditor investigates relationships among data that indicate a financial statement account or balance may be understated. For example, the auditor may obtain evidence that all interest-bearing debt is recorded by examining the relationship between recorded interest expense and the average balance of interest-bearing debt outstanding for the period. Disproportionate relationships based on the auditor's knowledge of interest rates should be investigated. Other examples include: a comparison of investment income to average investments for the period to test whether income earned on investments is recorded; the relationship of average pay times number of employees to payroll expense to substantiate that salaries are recorded; and the relationship of membership fee revenue to the number of members of an organization.
- c. Confirmations of balances or transactions designed to identify unrecorded amounts, such as accounts payable confirmations that request the creditor to specify the amount of the client's obligation.
- d. Tests of bank reconciliations, including examination of checks clearing the bank after the audit period to identify cash disbursements processed but not recorded or inappropriately recorded in the subsequent period.
- e. Reading the minutes of the meetings (of the) board of directors and stockholders and tracing transactions authorized in the minutes to amounts recorded in the accounting records.
- f. Overall reconciliations using financial and nonfinancial data, such as "proofs" of cash and sales.

---

# AAM Section 5200

## *Timing of Substantive Audit Tests*

.01 During the planning stage of the audit, the auditor should consider *when* to apply audit tests. The determination of whether substantive tests can or should be applied prior to year-end is usually based on practical considerations. In making that determination, the auditor evaluates the benefits of performing a substantive test prior to year-end against the potential costs of performing such interim work.

.02 For example, the auditor considers whether the benefits of easing pressures caused by a tight year-end reporting deadline outweigh the cost of gathering additional audit evidence necessitated by the use of a less effective test at an interim date.

.03 Substantive tests can be divided into two categories: those that can generally be applied at an interim date and those that *may be* efficient at an interim date only if certain conditions are met.

.04 If substantive testing is performed at an interim date, roll-forward work should be performed to provide evidence relating to the account balances at the balance-sheet date. In addition, if balances are tested at an interim date, the auditor should:

- Consider whether there are rapidly changing economic conditions that might predispose management to misstate the financial statements in the period after the date tested,
- Compare information concerning the balance at the balance-sheet date with comparable information at the interim date tested to identify unusual amounts,
- Apply additional tests of balances or analytical procedures to provide a reasonable basis for extending the conclusions about the balance at the interim date to the balance at the balance-sheet date, and
- Consider coordinating the tests of interrelated accounts and cutoffs.

Generally balances are tested as of an interim date only when control risk for the related assertions is assessed at below the maximum.

### **Substantive Tests That Can Generally Be Applied at an Interim Date**

.05 Some substantive tests can generally be performed through any date prior to year-end and still be efficient and effective tests. Substantive tests that fall into this category are tests that apply to data readily available prior to year-end. Such tests include:

- a. Substantive tests of transactions to support balance sheet accounts (for example, supporting the details of additions and retirements to a fixed asset account)
- b. Substantive tests of transactions to support income statement accounts (for example, reviewing all charges over a certain dollar amount to the repairs-and-maintenance account)
- c. Analytical procedures that include calculations on an interim basis (for example, comparing actual and budgeted expenses for each month)

.06 In each of these tests, the auditor reviews information that is already available at an interim date. Even if these tests were done at year-end, the same information would be needed and the same procedure performed. Thus, these tests generally can be efficient when performed at an interim date.

.07 For example, auditors frequently support those balance sheet accounts with low activity, such as fixed assets, by analyzing the transactions within the account during the year. Consequently, for property, plant, and equipment the auditor can audit the account by analyzing material additions and retirements rather than by testing the ending balance. To support additions the auditor may vouch material additions to invoices. Vouching such invoices may be performed before year-end without reducing the efficiency or effectiveness of the test. At year-end, the auditor still may have to vouch invoices from the interim date to year-end. However, these invoices would have to be vouched regardless of whether the interim work was performed.

## Conditional Substantive Tests

.08 Other substantive tests may be efficient when applied prior to year-end only if certain conditions are met. Generally, such substantive tests should only be applied prior to year-end if substantive tests for the remaining period from the interim date to year-end can be restricted.

.09 SAS No. 45, *Omnibus Statement on Auditing Standards—1983*, “Substantive Tests Prior to the Balance Sheet Date” (AU section 313), describes several factors that should be considered before applying substantive tests to details of balance sheet accounts at interim dates. Those factors relate to the ability to control the additional risk of not detecting errors that may exist at the balance-sheet date when the balance is tested at an interim date. Factors described include:

- a. Whether the effectiveness of the tests will be impaired because of the auditor’s assessment of the control risk
- b. Whether rapidly changing business conditions or circumstances might predispose management to misstate the financial statements between an interim date and year-end
- c. Whether the year-end balances of the particular balance sheet accounts that might be selected for interim testing, are reasonably predictable with respect to amount, relative significance, and composition

.10 In many small business engagements, the cost of bringing the additional risk to an acceptably low level is too great. SAS No. 45 notes that “applying substantive tests . . . at an interim date may not be cost-effective if substantive tests to cover the remaining period cannot be restricted due to the assessment of control risk.” In the case of a small business with limited segregation of duties, these substantive tests are generally not performed at an interim date because to do so would be inefficient. For example, in a small business engagement, the auditor generally audits cash, accounts receivable, inventory, and accounts payable at year-end.

# AAM Section 5300

## *Extent of Testing*

.01 Once an auditor decides what audit procedures to apply (the nature of the tests) and when to apply them (the timing of the tests), a decision must be made about how many items to apply the procedures to—that is, the extent of testing.

### Authoritative Standards\*

.02 SAS No. 39, *Audit Sampling* (AU section 350), addresses a variety of issues relating to the auditor's use of sampling in an audit engagement. However, SAS No. 39 does not always apply when the auditor is examining less than 100 percent of a population. There has been some confusion in practice over when SAS No. 39 applies.

### When SAS No. 39 Applies

.03 Audit sampling is only one of many tools used by auditors to obtain sufficient, competent evidential matter to support an opinion on financial statements. SAS No. 39 discusses design, selection, and evaluation considerations to be applied by the auditor when using audit sampling. As a general rule, audit sampling can be used—

- a. In tests of controls in internal control to evaluate operating effectiveness from prescribed controls.
- b. In substantive tests of details of account balances and classes of transactions.
- c. In dual-purpose tests that assess control risk and test whether the monetary amount of a transaction is correct.

.04 The portion of SAS No. 39 pertaining to tests of controls applies when sampling techniques are used to assess control risk. The portion pertaining to substantive tests apply when sampling techniques are used to test details of transactions or balances.

.05 According to SAS No. 39, sampling occurs when the auditor tests less than 100 percent of a population *to make some conclusion about the population*. SAS No. 39 applies to tests of controls when such tests are performed and to tests of balances when sampling populations are material. The extent to which sampling is used in an audit depends on the size of the client and the nature of the client's internal control. Also, if the sampling populations are small, it is usually more efficient to audit individually significant items and obtain audit assurance about the remaining balance through analytical procedures than to perform audit sampling. As the size and sophistication of the client's internal control increases, the auditor is more likely to use audit sampling to perform tests of controls and tests of balances.

.06 In determining whether SAS No. 39 is applicable to circumstances in which an auditor examines less than 100 percent of the items making up an account balance or class of transactions, the auditor should consider the purpose of the test. If the auditor intends to project the test results to the entire account balance or class of transactions for the purpose of evaluating a characteristic of the balance or class, the guidance in SAS No. 39 should be followed. For example, if the auditor intends to examine selected sales invoices to draw

---

\* The Audit and Attest Standards Division of the AICPA is developing an Auditing Practice Release (APR) to replace the AICPA Audit and Accounting Guide *Audit Sampling* (the Audit Sampling Guide). This APR is scheduled to be released during the third quarter of 1999.

a conclusion about whether sales are overstated, audit sampling as described in SAS No. 39 should be applied because the auditor intends to draw a conclusion about all sales. On the other hand, if the auditor selects several large sales invoices for certain audit tests and then applies analytical procedures to the remaining invoices, the auditor is not sampling according to SAS No. 39—the examination of the large items is not intended to lead the auditor to a conclusion about the other items. In that case, any conclusion about whether sales are overstated would be based on the combined results of the test of large sales invoices, inquiry and observations, analytical procedures, and other auditing procedures performed related to overstatement of sales.

.07 The auditor should remember that the way in which the population is defined can determine whether the requirements of SAS No. 39 apply. The auditor might choose to divide a single reporting line on the financial statements into several populations. For example, accounts receivable might be divided into wholesale receivables, retail receivables, and employee receivables. Each of these populations can be tested using a different audit strategy—some using audit sampling and others not. The sampling concepts in SAS No. 39 apply only to populations for which audit sampling is used. Use of audit sampling on one population does not mandate its use on remaining populations.

## Authoritative Guidance About the Application of Audit Sampling to Substantive Tests Provided by SAS No. 39

.08 There has been confusion in the accounting profession regarding what requirements are imposed by SAS No. 39. SAS No. 39 added the following seven specific provisions to professional standards.

- a. The concept that some items exist for which, in the auditor's judgment, acceptance of some sampling risk is not justified, and that these should be examined 100 percent (paragraph 21 [AU section 350.21]). This simply reminds the auditor that some of the items encountered in an examination of financial statements may be so significant individually or may have such a high likelihood of being in error or misstated that *all* such items should be examined.
- b. The suggestion that the efficiency of a sample may be improved by separating items subject to sampling into relatively homogeneous groups based on some characteristic (paragraph 22 [AU section 350.22]). This indicates that audit efficiency can sometimes be improved by, for example, stratifying or segregating the items constituting a balance or class of transactions into groups based on individual dollar value or some other characteristic.
- c. A requirement that the auditor consider tolerable misstatement in planning audit sampling applications in the examination of account balances and classes of transactions (paragraph 18 [AU section 350.18]). This asks the auditor to consider, in the early stages of an audit, how much misstatement the auditor will be able to tolerate for each balance and class of transactions that is sampled, in combination with misstatements in other accounts, and still render an unqualified opinion on the financial statements. SAS No. 39 asks the auditor to consider tolerable misstatement and to recognize that it is one of the factors influencing sample size. There is no requirement to document or quantify tolerable misstatement.
- d. A requirement that the auditor select a sample that can be expected to be representative of the population (paragraph 24 [AU section 350.24]). Simply put, this means that each item in the population being sampled should have a *chance* of being selected, not necessarily an *equal chance* of being selected. This does not mean that the auditor is required to use a random or probability sample.
- e. A requirement that the auditor consider selected sample items to which the auditor is unable to apply planned audit procedures to determine their effect on the evaluation of the sample (paragraph 25 [AU section 350.25]). For example, sometimes the auditor may not be able to apply planned audit procedures to selected sample items because supporting documentation may be missing. If the auditor's

evaluation of the sample results would not be altered by considering those unexamined items to be in error, it is not necessary to examine the items. However, if considering those unexamined items to be misstated would lead to a conclusion that the balance or class is materially in error, the auditor should consider alternative procedures that would provide sufficient evidence to form a conclusion.

- f. A requirement that the auditor project the misstatement results of the sample to the items from which the sample was selected (paragraph 26 [AU section 350.26]). Since the sample is expected to be representative of the population from which it was selected, misstatements found are also expected to be representative of the population. This merely asks the auditor to measure the likely misstatement in the population from which the sample was drawn and to consider it in reaching conclusions.
- g. A requirement that the auditor consider, in the aggregate, project misstatement results for all audit sampling applications and all known misstatements from nonsampling applications when evaluating whether the financial statements taken as a whole may be materially misstated (paragraph 30 [AU section 350.30]).

### Documentation Requirements in SAS No. 39

.09 SAS No. 39 contains no new or specific documentation requirements. However, the documentation standards set forth in the Statements on Auditing Standards dealing with documentation apply to audit sampling applications just as they apply to other auditing procedures. For example, SAS No. 22, *Planning and Supervision* (AU section 311), states that the auditor should prepare a written audit program and SAS No. 41, *Working Papers* (AU section 339), requires the auditor to prepare working papers recording the work that the auditor has done and the conclusions that the auditor has reached concerning significant matters. Thus, with regard to audit sampling applications, the audit program might document such items as the objectives of the sampling application and the audit procedures related to those objectives. Documentation might also include the definition of the population and the sampling unit, including: (1) how the auditor considered completeness of the population, (2) the definition of misstatement, (3) the method of sample selection, (4) a list of misstatements identified in the sample, (5) an evaluation of the result of the sampling application, and (6) conclusions reached by the auditor.

### Determining Extent of Testing in a Small Business Without Sampling

.10 Small businesses have certain characteristics that may influence the auditor's decision to use audit sampling. Because of the limited segregation of duties common in small businesses, auditors frequently choose to assess control risk at the maximum level, so generally the auditor of a small business will not have to consider tests of controls, including sampling of documentary evidence, to determine if controls are working as prescribed.

.11 For substantive testing, small businesses frequently have small populations of accounting data in both account balances and classes of transactions. Consequently, sampling may not be as useful since there may be large populations of data.

.12 SAS No. 39, paragraph 1 (AU section 350.01), defines audit sampling: "The application of an audit procedure to less than 100 percent of the items within an account balance or class of transactions for the purpose of evaluating some characteristic of the balance or class." This definition allows some alternative approaches to sampling to determine the extent of testing in a small business engagement. These alternatives, by not using audit sampling and thus eliminating the requirements of SAS No. 39, may provide a more effective and efficient audit approach for a small business engagement.

.13 These alternative approaches include:

- a. Procedures applied to 100 percent of a certain group (strata) of transactions or balances.
- b. Testing unusual items without applying procedures to the remainder of the population.

- c. Other tests that involve application of procedures to less than 100 percent of the items in the population without drawing a conclusion about the entire account or class of transactions.

.14 The auditor should decide what audit procedures to perform to meet the established audit objectives. Once this decision is made, the auditor needs to determine the extent of testing.

.15 An effective and efficient approach to determining the extent of testing in a small business engagement is shown in flowchart 1. This approach involves four important steps.

### Identification of Individual Items to Be Examined

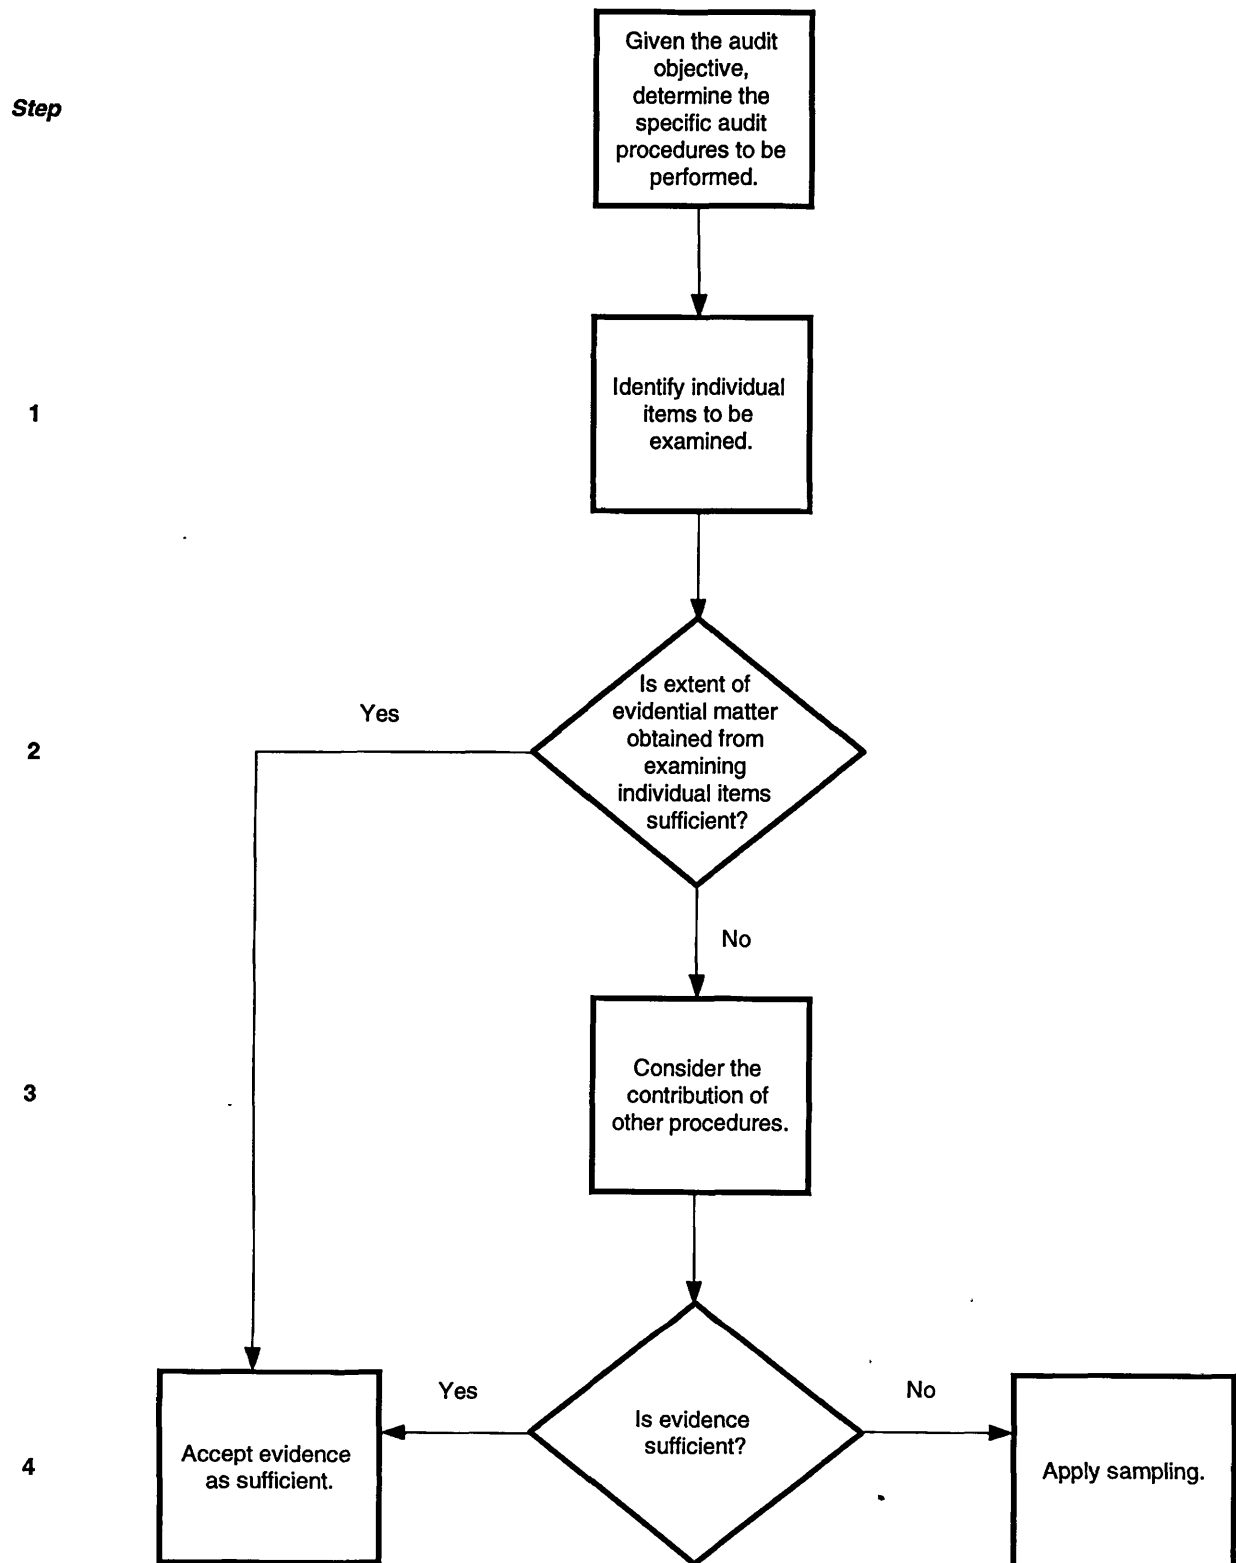

.16 An auditor should apply professional judgment in determining which individual items in an account balance or class of transactions need to be examined. In evaluating individual items, the auditor should consider factors such as size of the item, whether the item is unusual, prior experience with the client, and whether the item involves a related party.

.17 For example, consider the following information for accounts receivable of a small business.

<i>Number of Accounts</i>	<i>Balances</i>	<i>Total Accounts</i>
4	\$100,000 or more	\$ 625,000
7	\$25,000–99,999	375,000
62	\$1–24,999	300,000
<u>73</u>		<u>\$1,300,000</u>

In this case, if the eleven largest accounts are confirmed by the auditor, most of the accounts receivable balance is supported (\$1,000,000 out of \$1,300,000, or 77 percent). Also, the auditor may decide to confirm the receivables that have unusual characteristics (for example, receivables with either large credit balances or those that are very delinquent).

**Flowchart 1**  
**An Audit Sampling Approach for a Small Business**

## Is Extent of Evidential Matter Obtained Sufficient?

.18 Some factors which have been identified in SAS No. 39 in evaluating the sufficiency of evidential matter obtained in tests of details for a particular account balance or class of transactions are:

- a. The individual importance of the items examined. If the items examined, account for a high percentage of the total population, then the auditor may be reasonably assured that there is an acceptably low risk of an undetected misstatement.
- b. The nature and cause of misstatements. If during the course of the audit, misstatements are discovered, those misstatements should be evaluated to determine if they are due to differences in principle or in application, are errors or fraud or are due to misunderstanding of instructions or carelessness.
- c. Possible relationship of the misstatement to other phases of the audit. If it is determined that the misstatement is due to fraud this would require a broader consideration of the possible implications than would the discovery of an error.
- d. The characteristics of the sample to the population. The auditor may obtain some knowledge of the types of items in the population if the characteristics in the sample are similar in nature and the same controls are followed for processing the transactions.

.19 If an auditor has examined a substantial number of individual amounts and found no evidence of problems from the other procedures performed—and the remaining population totals less than an amount that would be material to the financial statements—there is often no need to sample the remaining population. Otherwise, the auditor should extend tests to the remaining population unless an alternative approach can be justified.

## Consider Contribution of Other Procedures

.20 The auditor should also consider whether other evidence obtained contributes to conclusions regarding the account balance or class of transactions. The auditor often considers the contribution of other procedures at the same time the extent of evidential matter obtained from examining individual items is considered.

.21 The auditor may use a combination of analytical procedures and substantive tests of details to support an opinion on the financial statements. A small business audit does not typically include assessing control risk at less than the maximum level, so the auditor would rely primarily on analytical procedures and other substantive tests of details. In deciding whether other audit procedures make a contribution, the auditor should consider whether they support the audit objectives in the area, whether they indicate potential problems, and whether the evidence is consistent with the previous evidence obtained.

.22 In considering the contribution of other procedures, the auditor should use professional judgment in determining whether an unqualified opinion can be given without performing additional tests in the form of audit sampling.

## Evaluation of Sufficiency of Evidence

.23 There are three factors that the auditor may consider in evaluating the sufficiency of audit evidence obtained from examining individual items and contributed by other procedures, and in determining whether the remaining items in the population should be tested.

.24 First, the auditor should consider whether the dollar amount of the remaining population is equal to or greater than an amount that would be material to the financial statements. If the remaining population is less than material, the auditor may decide that no additional testing by sampling is necessary. Second, the

auditor should consider the degree of risk involved (that is, how susceptible the account is to misstatement, and whether there have been problems with this area in prior audits). Third, the auditor should consider the sufficiency of all the audit evidence obtained so far (the extent of evidential matter obtained by testing individual items along with the contribution of other procedures).

## Audit Sampling for Tests of Controls

.25 SAS No. 39 indicates that an auditor may use nonstatistical or statistical sampling in performing tests of controls. This section provides guidance for both approaches. Regardless of whether nonstatistical or statistical sampling is being used, audit sampling for tests of controls involves the following steps:

- a. *Determine the objective of the test.* The objective of a test of control is to determine whether particular controls are being applied as prescribed. Audit sampling for tests of controls is generally appropriate when application of the controls leaves documentary evidence of performance. Normally, audit sampling for tests of controls will involve selecting a sample of documents and examining them for evidence that the relevant controls were applied. Tests of controls involving observation of performance of procedures or inquiries of the client are not normally subject to audit sampling.
- b. *Define the deviation conditions.* A deviation condition is a situation that indicates that the controls were not performed. For example, if the auditor is examining purchase invoices for evidence of approval of an expenditure (e.g., the initials of the approving individual), a deviation condition would be an invoice that is not initialed by the appropriate individual. Adequate performance of controls consists of all the steps the auditor believes are necessary to support the assessed level of control risk. For example, assume that a prescribed procedure requires that support for every disbursement should include an invoice, a voucher, a receiving report, and a purchase order, all stamped "Paid." The auditor believes that the existence of an invoice and a receiving report, both stamped "Paid," is necessary to indicate adequate performance of the procedure for purposes of supporting the assessed level of control risk. Therefore, a deviation may be defined as "a disbursement not supported by an invoice and a receiving report that have been stamped 'Paid.'"
- c. *Define the population.* The population selected must be appropriate for the objective being tested. For example, if the auditor is testing the operating effectiveness of control activities designed to determine if all shipments were billed, the auditor would not detect deviations by sampling from billed items. An appropriate population for detecting such deviations usually includes the record of all items shipped.

For samples to be representative of the period under audit, the population generally should include all transactions processed during the period. However, sometimes the results of tests performed at an interim date may be sufficient to generalize about the population for the entire period. In determining whether interim tests are sufficient, the auditor should consider the results of the tests, responses to inquiries concerning the remaining period, the length of the remaining period, the nature and amounts of the transactions or balances involved, and related evidence obtained from the tests of balances. If controls have been changed during the year, the auditor will often decide that it is efficient to only test the new controls.

For sample results to be reliable, the sample must be selected from the complete population. Completeness of the population can be determined by either physical or numerical control. Normally, the auditor can establish the completeness of the population by inspecting the documents to see that it appears that they have all been accounted for.

- d. *Determine the method of selecting the sample.* Any sample that is selected should be representative of the population and all items should have an opportunity to be selected. Random-number selection should generally be used when statistical sampling is being applied. When nonstatistical sampling

is applied, random-number sampling, systematic sampling, and haphazard sampling are methods that might be used to obtain a representative sample. Methods of selecting samples are discussed beginning at AAM section 5300.61.

- e. *Determine the sample size.* Sample sizes for tests of controls are affected by (a) the risk of assessing control risk too low, (b) the tolerable deviation rate, (c) the expected population deviation rate, and (d) any effects of small population sizes.

Guidance for determining sample size when performing nonstatistical sampling begins with AAM section 5300.28. A description of statistical sampling begins with AAM section 5300.31.

- f. *Perform the sampling plan.* Once the sample has been selected, the auditor should examine each item for evidence of performance of the controls. If the auditor selects an item that is unused (e.g., a voided document), the auditor should select another item, at random. However, the auditor should make sure that the item really represents an unused item. If the document is valid, but cannot be found, the item should be treated as a deviation in evaluating the sample results.
- g. *Evaluate the sample results.* Guidance for evaluating nonstatistical sampling results begins with AAM section 5300.30 and guidance for evaluating statistical sampling results begins with AAM section 5300.32.
- h. *Document the sampling procedure.* The audit working papers should document the following matters:
- The objectives of the test.
  - A description of the deviation conditions.
  - The acceptable risk of assessing control risk too low.
  - The tolerable deviation rate.
  - The expected deviation rate.
  - The sample results, including the disposition of any deviations found.
  - The effect of the results on the auditors assessed level of control risk.

**.26 Factors Affecting Sample Sizes for Tests of Controls.** Sample sizes for tests of controls are affected by the following factors:

- a. *Acceptable risk of assessing control risk too low.* The risk of assessing control risk too low is the risk that the sample supports a lower level of control risk than is in fact the case. Decreasing the risk of assessing control risk too low will increase the sample size.
- b. *Expected population deviation rate.* The expected population deviation rate represents the rate of deviations the auditor expects to find in the population. As the expected population deviation rate increases, the sample size will increase.
- c. *Tolerable deviation rate.* Tolerable deviation rate is the maximum rate (%) of deviations from a control procedure that the auditor is willing to accept without increasing the assessed level of control risk. Higher tolerable deviation rates will permit smaller sample sizes.
- d. *Population size.* Populations over 500 items have little or no effect on sample size. For populations under 500 in size, the auditor may slightly reduce the size of the sample.

.27 The effects of these factors may be summarized as follows:

<i>Factor</i>	<i>Effect on Sample Size</i>
Acceptable risk of assessing control risk too low—increase (decrease)	Smaller (larger)
Tolerable deviation rate—increase (decrease)	Smaller (larger)
Expected population deviation rate—increase (decrease)	Larger (smaller)
Population size	Populations less than 500 items should be adjusted to slightly smaller sample sizes

.28 **Sample Sizes Using Nonstatistical Sampling.** Nonstatistical sample sizes for tests of controls may be determined using the sample size selection tables in AAM section 5300.29, or they may be selected on a purely judgmental basis. For each method of selection, the auditor should document consideration of the relevant factors. For example, the rationale for selecting tests of controls sample sizes of 30 from the first table in AAM section 5300.29 may be:

- a. Control risk will be assessed at a moderate level, and
- b. The expected population deviation rate is at or near zero.

.29 The following tables should be used for a nonstatistical approach to determine sample sizes for tests of controls:

<b>Controls Testing Nonstatistical Sample Size Selection Table</b>	
<i>Assessed Level of Control Risk</i>	<i>Sample Size</i>
Maximum	0
Slightly below the maximum	15
Moderate	30
Low	40

The numbers in the table were determined using a risk of assessing control risk too low of 10 percent and an expected population deviation rate of 0 percent. When deviations are expected or found in a sample, the following table may be used to determine the sample size or evaluate the sample results:

<i>Deviations (Expected or Actual)</i>	<i>Assessment of Control Risk</i>		
	<i>Slightly Below Maximum</i>	<i>Moderate</i>	<i>Low</i>
0	15	30	40
1	25	50	65
2	34	67	90
3	43	85	115

.30 In evaluating the results of the sample, the auditor should consider the number of deviations found and the nature of the deviations. If the auditor uses the first table in AAM section 5300.29 to determine sample size, the discovery of one or more deviations will require the auditor to reassess the planned level of control risk. In these cases, the second table in AAM section 5300.29 may be used to evaluate the assessed level of control risk that is supported by the sample results. When looking at the nature of the deviations, the auditor is concerned with the following questions:

- Was the cause of the deviation an error or does it indicate an intentional violation of the control?
- Are there implications for other audit areas?

**.31 Sample Sizes Using Statistical Sampling.** The appropriate statistical method for tests of controls is attributes sampling, which is a technique designed to estimate qualitative characteristics of a population. Attributes sampling results may be used to estimate the frequency of deviations from performance of controls.

**.32** Applying attributes sampling involves performing the following steps:

- a. *Decide on the attributes to test.* The tests of controls may include the testing of one or more attributes. Proper evaluation of the results may require testing and evaluating each attribute separately.
- b. *Define the population from which the sample items should be selected.* The auditor should make sure that the population is appropriate for the audit objective as described in AAM section 5300.25.
- c. Specify the following factors:
  - *Acceptable risk of assessing control risk too low.* The risk of assessing control risk too low is the risk the sample supports a lower level of control risk than is the case. Since sample evidence represents the only evidence typically obtained about the operating effectiveness of a particular control, the risk of assessing control risk too low is usually set at 5 percent or 10 percent.
  - *Tolerable deviation rate.* Tolerable deviation rate is the maximum rate (%) of deviations from a control procedure the auditor is willing to accept without increasing the assessed level of control risk. Higher assessments of control risk will permit higher tolerable deviation rates as shown in the following table:

<i>Planned Assessed Level of Control Risk</i>	<i>Tolerable Rate</i>
Low	2%–7%
Moderate	6%–12%
Slightly below the maximum	11%– 20%
Maximum	Omit test

- *Expected population deviation rate.* The expected population deviation rate represents the rate of deviations the auditor expects to find in the population. The auditor's expectations may be based on prior years' experience with the client, or experience with similar clients. Sample sizes will increase significantly as the expected population deviation rate increases from zero. If the deviation rate in the sample turns out to be higher than the rate specified by the auditor in determining the sample size, the sample results will not support the auditor's planned assessed level of control risk.
- d. *Determine the appropriate sample size.* Sample sizes are found in the tables in AAM section 5300.33 and .34. The table in AAM section 5300.35 is designed for a risk of assessing control risk too low of 5 percent, and the table in AAM section 5300.36 is designed for a 10 percent risk of assessing control risk too low. With the tolerable deviation rate and the expected deviation rate, the auditor may find the sample size from the table. The numbers in parentheses are the number of deviations that may be found in the sample and still support the auditor's planned assessed level of control risk.
  - e. *Randomly select the sample from the population.* The section beginning at AAM section 5300.61 describes the methods that may be used to select a random sample.
  - f. *Perform the audit procedures to identify deviations in the sample.*
  - g. *Calculate the statistical results.* Using the tables in AAM section 5300.35 and .36 or the appropriate risk of assessing control risk too low, determine the actual tolerable deviation rate from the sample size and the actual number of deviations found in the sample.

- h. Reassess the level of control risk.* If the actual deviation rate in the sample is higher than that specified in determining the sample, the sample results will not support the auditor's planned assessed level of control risk. In these situations, the auditor should increase the assessed level of control risk. The auditor should also consider the causes of the deviations found, and whether they have implications for other audit areas.
- i. Document the Sampling Procedures.* The audit working papers should document the matters set forth in AAM section 5300.25 (Item No. 8).

## Audit Sampling for Tests of Balances

.37 In planning tests of balances, the auditor should decide on the most efficient approach to performing the tests. For some recorded populations, instead of sampling, it may be more efficient to examine individually significant items comprising a majority, or near majority, of the recorded population. Audit assurance about the remaining balance may then be obtained by (1) performing analytical procedures, or (2) concluding that the risk of material misstatement of the remaining balance is low. For example, confirmation of 50 percent to 80 percent of the dollar amount of accounts receivable may be necessary when risk is high; 40 percent to 60 percent may be sufficient when risk is low.

.38 Obviously, when the remaining balance, after auditing the individually significant items, is immaterial, no testing of the remaining balance is necessary.

.39 The decision to sample, or not to sample, should be documented in the *working papers*.

.40 Selecting all individually significant items is not considered a sampling application. Items such as large receivables are usually examined individually. Procedures used for examining such items should ordinarily be the most reliable under the circumstances, such as positive confirmation requests.

.41 When planning a sampling application for tests of balances, the in-charge should consider the financial statement assertions and audit objectives and their relationship to populations selected. For example, understatements cannot be detected by sampling recorded amounts; instead, units from populations of all existing transactions must be selected.

.42 The following is an approach to nonstatistical sampling for tests of balances.

- a. Determine the sampling population by identifying and deducting the individually significant items.
- b. Determine the sample size by considering the following factors:
  - The amount of tolerable misstatement.
  - The assessed level of inherent and control risk for the assertions being tested.
  - The risk that other substantive procedures (e.g., analytical procedures) will fail to detect a material misstatement.
  - Variations within the population.
- c. Select the sample.
- d. Perform the test procedure.
- e. Evaluate the results.
  - Project the misstatement.
  - Consider sampling risk.
  - Consider qualitative aspects of the test results.

.43 Sample selection methods should produce representative samples and may include random selection, systematic selection, or haphazard selection methods. Care should be taken to avoid bias, however, when a haphazard selection method is used. AAM section 5300.61 describes these sample selection methods.

.44 **Determine the Sample Size for Tests of Balances.** Sample sizes for tests of balances are affected by the following factors:

- *Tolerable misstatement.* As the amount of tolerable misstatement increases, the sample size decreases. Conversely, larger sample sizes are required to compensate for a smaller amount of tolerable misstatement.
- *Assessed level of inherent and control risk.* As the combined level of inherent and control risk increases, the sample size increases.
- *The risk that other substantive procedures will fail to detect a material misstatement.* As the risk that other substantive procedures will fail to detect a material misstatement increases, the sample size increases. This risk is determined by considering the effectiveness of these procedures.
- *Variations within the population.* Sample sizes are smaller when the sampling population is stratified into homogeneous groups. Larger sample sizes are usually required to obtain a representative sample from sampling populations with high variations.

.45 Illustration 1 summarizes the impact of the factors above on sample size planning.

.46 *Nonstatistical Sampling Approaches.* At the direction of the engagement partner, either of the following nonstatistical approaches can be used for selecting tests of balances sample sizes:

- Judgmental method.
- Model approach.

### Illustration 1

#### Factors Influencing Sample Sizes for Substantive Tests of Balances

<u>Factor</u>	<u>Conditions Leading to:</u>	
	<u>Smaller Sample Size</u>	<u>Larger Sample Size</u>
a. Tolerable misstatement.	Larger amount	Smaller amount
b. Assessed level of inherent and control risk	Lower	Higher
c. Risk that other procedures will fail to detect a material misstatement.	Lower	Higher
d. Variation within the population.	Less variation	More variation

.47 *Judgmental Method.* Sample sizes can be selected judgmentally after considering the influence of the factors described above. The in-charge should describe the factors that influence the sample sizes selected for substantive tests of balances. The engagement partner should approve the planned sample sizes before the substantive tests of balances work is begun.

.48 Judgmentally selected samples are considered in terms of audit coverage of a total population. Large dollar coverage generally includes individually significant items, and units from the sampling population that cover more than 50 percent of the dollar amount of the total population.

.49 The coverage of the total population will also be affected by the nature of the population and the degree of the engagement risks. For example, a large coverage of accounts receivable for confirmation in high-risk circumstances may be from 50 percent to 80 percent of the total dollar population. A large coverage for an inventory price test in the same circumstances may only be 30 percent to 40 percent of total inventory because the risk of inventory price misstatement is generally less. In low-risk circumstances, a large coverage of accounts receivable may be 40 percent to 60 percent, a large inventory coverage may be 20 percent to 30 percent. These percentages are not presented as specific guidelines for decision making, but as illustrations of the factors influencing nonsampling decisions. Since the auditor's opinion is expressed on the financial statements taken as a whole, evidence should be designed to include tests of a majority of the dollars in the financial statements, but should also be, overall, the most efficient in the circumstances.

**.50 The Model Approach.** The model approach is a nonstatistical sampling method that is based on Probability Proportional To-Size (PPS) Sampling. Because the approach is based on PPS theory, the overall materiality limit does not have to be allocated to each account to determine tolerable misstatements. Instead, the basic allowance for unknown misstatement, i.e., overall materiality limit minus estimates for unadjusted misstatement from nonsampling tests, expected projected misstatement from sampling tests and related allowances for imprecision, may be used in place of tolerable misstatement for each sampling application. An acceptable approach would be to use 66⅔ percent, or a smaller percentage, of the overall materiality limit for the basic allowance. Under PPS theory, the overall materiality limit does not have to be allocated to accounts because the financial statements may be viewed as one population and the basic allowance for unknown error applies to the financial statements taken as a whole. The basic allowance must also be considered, however, when measuring misstatements.

**.51** It is important to recognize that when sample sizes are selected nonstatistically based on some statistical theory such as PPS, it is assumed that the population will be stratified. A simple method of stratification is as follows:

- Determine the mean of the population to be sampled.
- Select 2/3 of the sample items from those items equal to or greater than the mean.
- Select 1/3 of the sample items from those items less than the mean.

**.52** If it is not practical to stratify the sampling population, the sample size should be increased by a factor of 20 percent, or multiplied by 1.2.

**.53** A more time consuming, yet more accurate method would, of course, be a PPS statistical selection method. For the sake of time, however, this statistical method ordinarily is not used. When populations are unusually large and engagement risks are high, however, a PPS statistical method may be appropriate. Guidance for PPS statistical sampling may be found in the AICPA Audit and Accounting Guide *Audit Sampling*\*.

**.54** Developed from the model in the AICPA Audit and Accounting Guide *Audit Sampling* (paragraphs 4.57 through 4.60), the Model Approach follows:

Sampling Population Tolerable Misstatement	×	Assurance Factor	=	Preliminary Sample Size (units)
Preliminary Sample Size (units)	×	Marginal Risk Factors (1.2 to 1.5)	=	Adjusted Sample Size (Units)

**.55** The assurance factors, also based on PPS statistical theory, are as follows:

Assessment of Inherent and Control Risk	Risk That Other Substantive Procedures (e.g., analytical procedures) Will Fail to Detect a Material Misstatement		
	Maximum	Moderate	Low
Maximum	3.0	2.3	1.9
Slightly below maximum	2.7	2.0	1.6
Moderate	2.3	1.6	1.2
Low	1.9	1.2	1.0

\* The Audit and Attest Standards Division of the AICPA is developing an Auditing Procedure Study (APS) to replace the AICPA Audit and Accounting Guide *Audit Sampling*.

.56 The steps to be taken in determining the sample size using the Model Approach are as follows:

- a. Assess the combination of inherent and control risk:
  - (1) Maximum—Control and inherent risk are assessed at the maximum for the particular assertions. No tests of controls are required to support this assessment.
  - (2) Slightly below the maximum—Control and inherent risk are assessed at slightly below the maximum for the particular assertions. Minimal tests of controls are required for this assessment.
  - (3) Moderate—Control and inherent risk are assessed at a moderate level for this particular assertion. Moderately effective tests of controls are required for this assessment.
  - (4) Low—Control and inherent risk are assessed at a low level for the particular assertions. Very effective tests of controls are required for this assessment.
- b. Determine the basic allowance for unknown misstatements (tolerable misstatement). This is related to preliminary estimates of materiality for the engagement.
- c. Assess the risk that other substantive procedures (such as analytical procedures) designed to test the same assertions will fail to detect a material misstatement in a particular assertion as follows:
  - (1) Maximum—No other substantive procedures are performed that are designed to test the same assertions.
  - (2) Moderate—Other substantive procedures to test the assertions are expected to be moderately effective in detecting material misstatements.
  - (3) Low—Other substantive procedures to test the assertions are expected to be highly effective in detecting material misstatements.
- d. Determine the population's recorded amount after deducting any items that will be audited 100 percent (all items that are more than 1/3 of tolerable misstatement).
- e. Use the appropriate assurance factor from the table in AAM section 5300.55 and the formula below to determine the initial sample size.

Calculate the initial sample size with the following formula:

<i>Sampling Population</i>		<i>Basic Allowance (Tolerable Misstatement)*</i>		<i>Assurance Factor</i>		<i>Initial Sample Size</i>
\$ _____	+	\$ _____	×	_____	=	\$ _____

.57 Depending on the amount of the basic allowance for unknown misstatements, sample sizes computed with this model may approximate those sizes selected judgmentally. Because the model is based on a highly stratified approach, and this approach usually will include minimal or no stratification, the sample should be somewhat larger than the preliminary size if there are significant variations in the population. If stratification is necessary and is not practical, an acceptable approach would be to multiply the preliminary sample size by a marginal risk factor of 1.2 to compensate for the sampling risk associated with not stratifying. The marginal risk factor should *not* be used when the population is stratified or when stratification is not necessary.

.58 **Evaluating the Sample Results.** The misstatement in the sample must be projected to the population. One method of projecting the amount of misstatement found in a sample is to divide the amount of misstatement by the fraction of total dollars in the population to total dollars included in the sample. For example, if a \$1,000 misstatement is found in a sample of 10 percent of the population, the projected misstatement would be \$10,000 (\$1,000/.10).

---

\* Amount should be two-thirds of overall materiality limit.

.59 A second method for projecting the misstatement uses the average difference between the audited and the recorded amounts of each item included in the sample. For example, if \$200 of misstatement is found in a sample of 100 items, the average difference between audited and recorded amounts for items in the sample is \$2 (\$200/100). An estimate of the amount of misstatement in the population may be calculated by multiplying the total number of items in the population (in this case 25,000 items) by the average difference of \$2 for each sample item. The estimate of misstatement in the population is \$50,000 (25,000 × 2).

.60 If the projected misstatement is less than tolerable misstatement for the account balance, consideration must be given to the risk that actual misstatement exceeds the amount of tolerable misstatement. If the projected misstatement is less than 1/3 of tolerable misstatement, it is generally safe to conclude that sampling risk is sufficiently low. If it is greater than 1/3, consideration should be given to performing additional tests of the account.

## Selecting Samples

.61 SAS No. 39 permits random number selection, systematic selection with or without random starts and haphazard selection methods for nonstatistical sampling. Block sampling is not acceptable. A random number selection method should be used for statistical sampling.

.62 Random-based selection methods can be applied using random number tables or computer or calculator programs.

.63 To use a random number table:

- a. Assign each element in the population a unique address that corresponds to the random number table.
- b. Decide how to read the table, i.e., the number of digits and location, and if top to bottom, left to right.
- c. Place a pencil on a page to determine a random starting point.
- d. Modify the population numbers to the smallest possible number of digits to reduce discards.

.64 The procedure for using a program or calculator to generate random numbers varies with the programs. However, these techniques generally require the auditor to provide the smallest and largest item numbers, and the number of sample items needed.

.65 Systematic sampling requires the calculation of an interval. An interval is determined by dividing the population size by the number of sample units desired. For example:

$$\begin{array}{rclcl}
 N & = & \text{Sample Size} & = & 4,000 \\
 n & = & \text{Desired Units} & = & 50 \\
 I & = & \text{Interval} & & \\
 I & = & \frac{N}{n} & = & \frac{4,000}{50} = 80
 \end{array}$$

.66 After selecting a random number within the interval as a starting point, each 80th unit would be selected.

.67 Haphazard sampling involves selecting items on a purely judgmental basis, without any bias towards the selection of particular items.

---

[The next page is 5401.]

## AAM Section 5400

### *Illustrative Audit Program for Corporations*

.010 The audit programs contained in this section have been designed to provide substantive evidence (when combined with appropriate planning and with appropriate tests of controls) that is sufficient to support the assertions in the client's financial statements. The programs should be modified to reflect overall engagement risk, risks of potential misstatements, the results of analytical procedures, and the selection of the most cost-beneficial audit approaches and procedures.

.011 The programs address the financial statement assertions discussed in SAS No. 31, *Evidential Matter*, as amended by SAS No. 80 (AU section 326):

- *Existence or occurrence.* Whether the assets or liabilities exist at a given date and whether recorded transactions have occurred during a given period.
- *Completeness.* Whether all transactions and accounts that should be presented in the financial statements are so included.
- *Rights and obligations.* Whether assets are the rights of the entity and liabilities are obligations of the entity at a given date.
- *Valuation or allocation.* Whether asset, liability, equity, revenue, and expense components have been included in the financial statements at appropriate amounts.
- *Presentation and disclosure.* Whether particular components of the financial statements are properly classified, described, and disclosed.

.012 The right mix of tests of details and analytical procedures should be made for each audit area, based on the auditor's risk assessment, and planning conclusions, the auditor's understanding of internal control components, materiality, and other relevant factors. In most cases, analytical procedures should be relied upon to the maximum extent possible, because they are often more efficient to perform than tests of details. Accordingly, all of the substantive tests listed in a program may not need to be performed.

.013 The auditor's professional judgment must be applied in deciding whether the program includes all of the procedures required in the particular circumstances. The program serves solely as a timesaver. Users of manuscript aids must remain alert to needs such as the following:

- Developing steps for required procedures which are not covered by the program.
- Excluding extraneous and unnecessary procedures which are covered by the program.
- Editing or modifying the program to suit the needs and preferences of the auditor in the circumstances.

.014 The programs that follow contain illustrative audit objectives and procedures which are numbered merely to organize the materials; the numbers are not intended to imply completeness or a prescribed sequence. This list is merely illustrative. Users of this material must use professional judgment and be alert for the important matters in a particular set of circumstances which may not be covered in the illustrative material.

.015 The illustrative audit program permits the auditor to select audit procedures to be performed based on the assessed level of risk. Based on the auditor's understanding of internal control, it may be necessary to extend testing. See AAM section 3165 for an illustrative audit planning program.

The material included in this section is presented for illustrative purposes only. The illustrative audit objectives and illustrative audit procedures are neither all-inclusive nor are they prescribed minimums. The illustrative audit procedures are numbered merely to organize the materials; those numbers are not intended to imply completeness or a prescribed sequence. The nature, extent and timing of the auditing procedures to be applied on a particular engagement are a matter of professional judgment to be determined by the auditor based on the specific facts and circumstances.

## I. General Procedures

### Financial Statement Assertions:

1. Existence or occurrence.
2. Completeness.
3. Rights and obligations.
4. Valuation or allocation.
5. Presentation and disclosure.

### Procedures:

#### A. Planning

- |   |       |       |       |
|---|-------|-------|-------|
| 1. Complete the illustrative planning program. (See AAM section 3165.)  | _____ | _____ | _____ |
| 2. Determine that the decision to accept the engagement (in case of new client) or to retain the client has been documented. (See AAM section 11,300.23.)   | _____ | _____ | _____ |
| 3. If this is a new client, ascertain that required communications with predecessor auditors, if any, have been made.   | _____ | _____ | _____ |
| 4. If other auditors are performing parts of the audit, ascertain that appropriate communications have been made.   | _____ | _____ | _____ |
| 5. Determine that a signed engagement letter covering the current engagement is on file. Read letter for any special provisions. List any special provisions and determine that the audit program addresses the provisions. | _____ | _____ | _____ |
| 6. Discuss the audit plan with the engagement personnel. If considered necessary, prepare a planning memorandum for review by engagement staff.   | _____ | _____ | _____ |
| 7. Prepare listing of schedules/analyses to be prepared by the client (and working paper set-ups, if considered necessary) and deliver to client.   | _____ | _____ | _____ |
| 8. Update the permanent file(s) for new agreements, copies or extracts of minutes and other important documents.  | _____ | _____ | _____ |

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
9. For trial balances and other schedules and analyses prepared by the client, document and perform the following (these steps can be performed during substantive testing):			
a. Trace amounts to the general ledger.	_____	_____	_____
b. Re-perform the footings and crossfootings (test basis may be appropriate).	_____	_____	_____
c. Trace opening balances to final balances per the working papers for the preceding year (period).	_____	_____	_____
d. Determine that working papers are marked "Prepared by Client" or "PBC."	_____	_____	_____
10. If considered necessary, based on the assessment of audit risk, review journal and general ledger entries made during the period for propriety and accuracy.	_____	_____	_____
<b>B. Conclusion of Audit</b>			
1. Perform the following analytical procedures:			
a. Re-examine the comparison of current-period amounts with amounts from prior periods, after correction of the amounts for any adjustments and reclassifications.	_____	_____	_____
b. Perform any additional analytical procedures, such as ratio analysis, that were not performed during the planning stage because preliminary amounts were unreliable.	_____	_____	_____
c. Identify significant or unexpected fluctuations and other unusual items.	_____	_____	_____
d. Based on the knowledge of the client's operations and the results of audit procedures, evaluate whether all significant or unexpected fluctuations have been adequately explained.	_____	_____	_____
2. Evaluate the effects of unadjusted misstatements on the financial statements.	_____	_____	_____
3. If audit test results identify misstatements in the financial statements, consider whether such misstatements may be indicative of fraud.	_____	_____	_____
4. Complete a subsequent events review. (See AAM section 5400.180.)	_____	_____	_____
5. Based on the results on the audit procedures performed, evaluate whether there is substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time:			
a. Ascertain if any of the following negative trends exist:			
(1) Recurring operating losses	_____	_____	_____
(2) Working capital deficiencies	_____	_____	_____

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
(3) Negative cash flows from operations	_____	_____	_____
(4) Adverse key financial ratios	_____	_____	_____
(5) Calculate the Altman Z Score (the formula can be found in the AAM section 2300.16)	_____	_____	_____
b. Ascertain if any of the following have occurred:			
(1) Default on loans or similar agreements	_____	_____	_____
(2) Arrearages in dividends	_____	_____	_____
(3) Denial of usual trade credit	_____	_____	_____
(4) Restructuring of debt	_____	_____	_____
(5) Noncompliance with statutory or contractual capital arrangements	_____	_____	_____
(6) Need for new sources or methods of financing	_____	_____	_____
(7) Need to dispose of substantial assets	_____	_____	_____
c. Ascertain if the following internal matters have occurred:			
(1) Work stoppages	_____	_____	_____
(2) Other labor difficulties	_____	_____	_____
(3) Substantial dependence on a particular project or customer	_____	_____	_____
(4) Uneconomic long-term commitments	_____	_____	_____
(5) Need to revise operations significantly	_____	_____	_____
d. Ascertain if the following external matters have occurred:			
(1) Legal proceedings	_____	_____	_____
(2) Adverse legislation	_____	_____	_____
(3) Loss of key franchise, license or plant	_____	_____	_____
(4) Loss or principal customer or supplier	_____	_____	_____
(5) Uninsured or underinsured catastrophe	_____	_____	_____
6. Consider whether the accumulated results of audit procedures and other observations affect the assessment of the risk of material misstatement due to fraud made when planning the audit.	_____	_____	_____
7. If, after considering the matters in step 4 above, a substantial doubt exists regarding the entity's ability to continue as a going concern for a reasonable period of time:			
a. Obtain information about management's plans, assess the expected effectiveness of the plans, and gather evidence to evaluate pertinent provisions of those plans and to support audit conclusions concerning the company's ability or inability to continue as a going concern;	_____	_____	_____
b. Evaluate the adequacy of the related financial statement disclosures; and	_____	_____	_____
c. Consider the effects on the audit report.	_____	_____	_____

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
8. Obtain written representation from management of the client (SAS No. 85 [AU section 333]) and the company's legal representatives.	_____	_____	_____
9. Read the financial statements and related notes and consider the following:			
a. The adequacy of the evidence gathered in response to unusual or unexpected balances identified in planning the audit or in the course of the audit.	_____	_____	_____
b. Unusual or unexpected balances or relationships that were not previously identified.	_____	_____	_____
10. Determine that all applicable disclosure checklists and review programs have been completed. (See Financial Statement Preparation Manual and AAM sections 9200-9500.)	_____	_____	_____
11. Ensure that all work performed has been properly reviewed to determine whether it was adequately performed and to determine whether the results of the work are consistent with the conclusions to be presented in the auditor's report.	_____	_____	_____
12. Ascertain that all working papers have been headed, indexed, cross-referenced, initialed, and dated.	_____	_____	_____
13. Accumulate all pending items in one listing, and dispose of all other follow-up or "TO DO" sheets and any other similar notations in the files.	_____	_____	_____
14. Ascertain that all time has been posted to the daily time control records, and record totals on the engagement time summary. Write explanations for any significant variations between budgeted and actual time.	_____	_____	_____
<hr/> <b>Note:</b> Some firms include other matters in the general section of programs, such as disposition of proposed adjustments, report preparation and review, reconciliation of actual and estimated time, preparation of fee estimate, evaluation of staff, etc. <hr/>			
15. Determine that any required communications in accordance with SAS No. 61, <i>Communication With Audit Committees</i> (AU section 380), have been made, including the following matters:			
a. The auditor's responsibility under generally accepted auditing standards (e.g., matters relating to internal control, whether the financial statements are free of material misstatement, etc.).	_____	_____	_____
b. Significant accounting policies (initial selection of and changes in significant accounting policies, or their application).	_____	_____	_____
c. Management judgments and accounting estimates (the process followed by management in formulating sensitive			

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
accounting estimates and, the basis for the auditor's conclusions regarding the reasonableness of management's estimates).	_____	_____	_____
d. Significant audit adjustments (whether recorded or not, it is a proposed correction of the financial statements, correction would not have been detected except through the auditing process).	_____	_____	_____
e. Other information in documents containing audited financial statements.	_____	_____	_____
f. Disagreements with management, whether or not satisfactorily resolved, about matters that could be significant individually, or in the aggregate, to the entity's financial statements or the auditor's report.	_____	_____	_____
g. Consultation with other accountants about any accounting or auditing matters.	_____	_____	_____
h. Major issues discussed with management prior to retention (e.g., issues relating to the application of accounting principles and auditing standards).	_____	_____	_____
i. Difficulties encountered in performing the audit (e.g., unreasonable delays in commencement of the audit, providing information, client personnel, etc.).	_____	_____	_____
16. Communicate internal control related matters noted (SAS No. 60 [AU section 325]).	_____	_____	_____
17. Determine that required communications, proper as to form and content, have been made as necessary to disclose fraud and/or illegal acts noted during the course of the audit (SAS No. 82 [AU section 316.38-.40] and SAS No. 54 [AU section 317]).	_____	_____	_____

### Practice Tip

To help comply with an auditor's communication responsibilities regarding fraud-related matters (SAS No. 82 [AU section 316]), a **checklist** has been provided at the end of this program. When fraud is identified, the auditor should complete the checklist to ensure that he or she has fulfilled his or her communication responsibilities.

### C. Section Completion

This audit program section has been completed in accordance with firm policy.

Done by \_\_\_\_\_

Reviewed by \_\_\_\_\_

### Fraud Communication Checklist

When fraud is identified during an audit, an auditor should complete the appropriate checklist below to facilitate compliance with communication requirements.

*SAS No. 82 Communication Requirements  
for Material Fraud and Any Fraud Involving Senior Management*

No.	Action	Sign-Off or N/A
1.	Consider implications for other aspects of the audit.	
2.	Reevaluate the assessment of the risk of fraud.	
3.	Discuss matter and the approach to further investigation with appropriate level of management.	
4.	Obtain additional evidential matter, including suggesting that client consult with legal counsel.	
5.	Consider whether any risk factors identified represent reportable conditions (SAS No. 60).	
6.	Consider withdrawing from engagement and communicating reasons to audit committee (or board of directors, etc.).	
7.	Report the fraud to audit committee.*	
8.	Insist that the financial statement be revised and, if it is not, express a qualified or adverse opinion. If precluded from obtaining needed evidence, disclaim an opinion or withdraw.	

---

\* **Notes:** (A) If perpetrator controls audit committee or board of directors, go directly to client's legal counsel.

(B) If perpetrator is general partner acting against interest of limited partners, obtain legal advice and consider communicating to limited partners.

(C) If perpetrator is owner-manager of a small business, auditor has little choice but to communicate with perpetrator and has no obvious course of action but to withdraw. However, first consult with legal counsel.

**SAS No. 82 Communication Requirements  
for Immaterial Fraud, Not Involving Senior Management**

<i>No.</i>	<i>Action</i>	<i>Sign-Off or N/A</i>
1.	Evaluate implications for other aspects of audit, especially organizational position of persons involved.	
2.	Bring to attention of and discuss with appropriate level of management (even if inconsequential).	
3.	Communicate matter to audit committee unless auditor has reached agreement concerning communication threshold with audit committee.	
4.	Consider whether any risk factors identified represent reportable conditions (SAS No. 60).	

The material included in this section is presented for illustrative purposes only. The illustrative audit objectives and illustrative audit procedures are neither all-inclusive nor are they prescribed minimums. The illustrative audit procedures are numbered merely to organize the materials; those numbers are not intended to imply completeness or a prescribed sequence. The nature, extent and timing of the auditing procedures to be applied on a particular engagement are a matter of professional judgment to be determined by the auditor based on the specific facts and circumstances.

## II. Internal Control

### Financial Statement Assertions:

1. Existence or occurrence.
2. Completeness.
3. Rights and obligations.
4. Valuation or allocation.
5. Presentation and disclosure.

### Procedures:

#### A. Understanding the Client's Internal Control Components (Control Environment, Risk Assessment, Control Activities, Information and Communication, and Monitoring)

1. Obtain sufficient knowledge of the control environment to understand management's and the board of directors' attitude, awareness, and actions concerning the control environment considering both the substance of controls and their collective effect. Knowledge of the control environment can be obtained from previous experience with the entity, inquiries of appropriate management, supervisory, and staff personnel, inspection of entity documents and records, and observation of entity activities and operations.
2. In obtaining knowledge of the control environment, consider the following factors:
  - a. Integrity and ethical values
  - b. Commitment to competence
  - c. Board of directors or audit committee participation
  - d. Management's philosophy and operating style
  - e. Organizational structure
  - f. Assignment of authority and responsibility
  - g. Human resource policies and practices

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
3. Obtain sufficient knowledge of the entity's risk assessment process to understand how management considers risks relevant to financial reporting objectives and decides about actions to address those risks. Knowledge of the risk assessment process can be obtained from previous experience with the entity, inquiries of appropriate management, supervisory, and staff personnel, inspection of entity documents and records, and observation of entity activities and operations.	_____	_____	_____
4. In obtaining knowledge of the entity's risk assessment process, consider the following:			
a. How management identifies risks.	_____	_____	_____
b. How management estimates the significance of the risks.	_____	_____	_____
c. How management assesses the likelihood of the occurrence of risks.	_____	_____	_____
d. How management relates the risks to financial reporting.	_____	_____	_____
5. Obtain an understanding of those control activities relevant to planning the audit. Knowledge about control activities will often be derived from considering the other components of internal control, previous experience with the entity, inquiries of appropriate management, supervisory, and staff personnel, inspection of entity documents and records, and observation of entity activities and operations.	_____	_____	_____
<hr/> <b>Note:</b> Ordinarily, audit planning does not require an understanding of the control activities related to every account balance, transaction class, and disclosure component in the financial statements or to every assertion relevant to them. <hr/>			
6. In obtaining an understanding of control activities, consider policies and procedures that pertain to the following:			
a. Performance reviews	_____	_____	_____
b. Information processing	_____	_____	_____
c. Physical controls	_____	_____	_____
d. Segregation of duties	_____	_____	_____
7. Obtain sufficient knowledge of the information system relevant to financial reporting to understand:			
a. The classes of transactions in the entity's operations that are significant to the financial statements.	_____	_____	_____
b. How those transactions are initiated.	_____	_____	_____
c. The accounting records, supporting information, and specific accounts in the financial statements involved in the processing and reporting of transactions.	_____	_____	_____
d. The accounting processing involved from the initiation of a transaction to its inclusion in the financial statements, includ-			

ing electronic means (such as computers and electronic data interchange) used to transmit, process, maintain, and access information.

- e. The financial reporting process used to prepare the entity's financial statements, including significant accounting estimates and disclosures.

Knowledge of the information system relevant to financial reporting can be obtained from previous experience with the entity, inquiries of appropriate management, supervisory, and staff personnel, inspection of entity documents and records, and observation of entity activities and operations.

8. Obtain sufficient knowledge of the means the entity uses to communicate financial reporting roles and responsibilities and significant matters relating to financial reporting.
9. Obtain sufficient knowledge of the major types of activities the entity uses to monitor internal control over financial reporting, including how those activities are used to initiate corrective actions. Knowledge of monitoring activities can be obtained from previous experience with the entity, inquiries of appropriate management, supervisory, and staff personnel, inspection of entity documents and records, and observation of entity activities and operations.

#### **B-1. Revenues, Receivables, and Receipts—Understanding and Risk Assessment**

1. Obtain and document a sufficient understanding of the design of the relevant controls that relate to the revenues and receivables account balances and transactions and whether they have been placed in operation. An understanding can be obtained from previous experience with the entity, inquiries of appropriate management, supervisory, and staff personnel, inspection of entity documents and records, and observation of entity activities and operations (the form and extent of documentation is influenced by the size, complexity, and nature of internal control). (Review AAM section 4000 for sample internal control questionnaires.)
2. Assess the level of control risk:
- a. If the control risk is assessed at the maximum level, document this assessment (the basis for the assessment need not be documented) and go to section C-1. If the control risk is assessed at this level, the auditor will have to expand substantive tests to compensate for this level of control risk. Some examples of substantive tests which may be affected are shown in step 3 below.
- b. If control risk is assessed at less than the maximum level, document the basis for this conclusion and obtain sufficient

<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

evidential matter to support this assessed level of control risk. Some examples of evidential matter which can be used to support this assessed level are shown in section B-2, below—Tests of Controls.

---

**Remember:** Assessing control risk and choosing an audit strategy is made at the assertion level, not a global level. A primarily substantive testing approach may be chosen for some assertions, while less rigorous substantive tests may be performed for other assertions due to a less than maximum control risk assessment.

---

- |   | <u>Done<br/>by</u> | <u>Date</u> | <u>W/P<br/>Ref.</u> |
|---|--------------------|-------------|---------------------|
| 3. Based on the assessed level of control risk the timing and extent of substantive tests may be affected. Consider the following matters as appropriate. Cross-reference to AAM section 5400.060.  |                    |             |                     |
| a. The use of confirmations.  |                    |             |                     |
| b. If confirmations are used:   |                    |             |                     |
| (1) Extent and method of selection of accounts for confirmation.  |                    |             |                     |
| (2) Use of positive or negative forms of confirmation request, or a combination of both.  |                    |             |                     |
| (3) Timing of confirmation procedures.  |                    |             |                     |
| (4) Type of information needed on the confirmation request.   |                    |             |                     |
| (5) Anticipated scope of alternative procedures as to significant accounts which do not respond to confirmation requests.   |                    |             |                     |
| c. Nature and extent of tests to substantiate sales cut-off.  |                    |             |                     |
| d. Nature and extent of tests to substantiate deferral and realization of revenue in such situations as unearned subscription income or unearned finance charges on installment receivables.  |                    |             |                     |
| e. Approach to reviewing and evaluating adequacy of the allowance provided for doubtful accounts (review of allowances for specific accounts, comparison of experience relating to write-offs with sales and receivables, and the client's past and present credit policies and practices, etc.). |                    |             |                     |

## B-2. Revenues, Receivables, and Receipts—Tests of Controls

---

**Note:** Tests directed toward the effectiveness of the operation of a control are concerned with how the control was applied, the consistency with which it was applied during the audit period, and by whom it was applied. The examples that follow assume that the client has controls in place which can be either inspected, observed or reperformed.

---

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
1. Obtain the sales journal and for a selected period(s):			
a. Trace totals from the sales journal to the general ledger control accounts for revenues, receivables, and such other accounts as salesmen's commissions, provisions, and allowances for product warranties, etc.	_____	_____	_____
b. Trace selected individual items from the sales journal to such other subsidiary records as the salesmen's commissions detail, and entries to charge cost.	_____	_____	_____
c. Reconcile the sales journal to the entries to charge cost of sales and credit inventory.	_____	_____	_____
d. Test the arithmetic accuracy of the footings and crossfootings of the journals.	_____	_____	_____
2. Obtain the cash receipts journal and perform the following on a test basis for a selected period(s):			
a. Trace totals to the general ledger for both the cash account and applicable account distributions such as accounts receivable, cash sales, investment income, and additions to notes payable (re: proceeds).	_____	_____	_____
b. Test the arithmetic accuracy of the footings and crossfootings of the cash receipts journal; reconcile total receipts to total deposits per the bank statement.	_____	_____	_____
3. Select _____ entries from the sales journal made at various times throughout the year, obtain the supporting documents, and perform the following tests:			
a. Compare the sales invoices with the entries in the sales journal for invoice date, invoice number, identity of customer, dollar amount, and any related items such as sales tax, salesmen's commissions, etc.	_____	_____	_____
b. Trace the sales invoice to the accounts receivable subsidiary (customers) ledger and to evidence of subsequent payment (remittance advice and cash receipts records).	_____	_____	_____
c. If the client charges cost of sales and credits inventory as items are sold, trace detail per the sales invoice to subsidiary records for cost of sales and inventory.	_____	_____	_____
d. Compare the sales invoice for customer identity, description of product, price, quantities, and amounts, to the applicable sales order, and customer's purchase order or job contract. Note evidence of approval of prices and credit as prescribed by management.	_____	_____	_____
e. Compare customer identity, description of product, and quantities per the sales invoice to the documents evidencing shipment; test computations of related freight and insurance charges. Ascertain whether sales are recorded in the proper months.	_____	_____	_____

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
f. Trace prices, discount, and payment terms to such sources as price lists, job quotations, and job contracts.	_____	_____	_____
g. Test arithmetic accuracy of extensions, footings, and computation of discounts. Note evidence of performance of a clerical check by client staff, where applicable.	_____	_____	_____
4. Review the numerical sequence file of shipping orders for a selected period and account for missing numbers.	_____	_____	_____
5. Select _____ shipping orders prepared at various times during the year:	_____	_____	_____
a. Obtain related sales invoices and trace them to the sales journal.	_____	_____	_____
b. Note whether billings are timely for shipments made.	_____	_____	_____
6. Select _____ credit memorandums issued at various times during the year.	_____	_____	_____
a. Ascertain whether credits were authorized in accordance with prescribed procedures.	_____	_____	_____
b. Review available supporting documentation.	_____	_____	_____
c. Trace the memorandums to the sales journal or other appropriate journal and to the accounts receivable subsidiary ledger.	_____	_____	_____
d. If the credit is granted for return of goods, inspect evidence of return and ascertain whether accounting for the returned goods is consistent with reported condition of the returned goods.	_____	_____	_____
7. From the cash receipts journal, select _____ cash receipts entered during the year; obtain the supporting remittance advices and perform the following:			
a. Compare the remittance advices with applicable entries per the cash receipts journal and trace to deposits per the bank statement(s). Ascertain the promptness of the deposit and recording of the entries.	_____	_____	_____
b. Trace detail posting of cash receipts to the accounts receivable, notes receivable, or other appropriate subsidiary ledgers. Ascertain whether cash receipts and related credits to accounts receivable are recorded consistently in the proper period.	_____	_____	_____

### B-3. Revenue, Receivables, and Receipts—Evaluation of Tests of Controls

1. Evaluate whether the assessed level of risk was appropriate based on the results of the tests of control and:
  - a. Document matters considered and conclusions reached in making the control risk assessment in accordance with firm policy (completion of questionnaires, checklists, preparation or required memoranda, etc.).

\_\_\_\_\_

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
b. Based on the control risk assessment, make necessary modifications to applicable sections of the program for substantive tests.	_____	_____	_____
c. Identify and note reportable conditions in internal control to be brought to the client's attention.	_____	_____	_____
d. Identify and note other internal control matters to be brought to the client's attention.	_____	_____	_____

### Practice Tip

When performing tests of controls, caution is necessary. The tests cannot support an assessment of control risk below the maximum unless they provide evidence to evaluate the effectiveness of the design and operation of controls. See AAM section 4600.15.

### C-1. Purchases, Accounts Payable, and Disbursements—Understanding and Risk Assessment

1. Obtain and document a sufficient understanding of the design of relevant controls which relate to classifications of costs or expenses and charges to accounts such as property and equipment and prepaid expenses and whether assets purchased have been placed in operation. An understanding can be obtained from previous experience with the entity, inquiries of appropriate management, supervisory, and staff personnel, inspection of entity documents and records, and observation of entity activities and operations (the form and extent of documentation is influenced by the size and complexity and nature of internal control). (Review AAM section 4000 for sample internal control questionnaires.)
2. Assess the level of control risk:
  - a. If the assessment of control risk is at the maximum level, document this assessment (the basis for the assessment need not be documented) and go to section D-1. If the control risk is assessed at this level, the auditor will have to expand substantive tests to compensate for this level of control risk. Some examples of substantive tests which may be affected are shown in step 3 below.
  - b. If control risk is assessed at less than the maximum level, document the basis for this conclusion and obtain sufficient evidential matter to support this assessed level of control risk. Some examples of evidential matter which can be used to support this assessed level are shown in section C-2 below—Tests of Controls.

**Remember:** Assessing control risk and choosing an audit strategy is made at the assertion level, not a global level. A primarily substantive testing approach may be chosen for some assertions, while less rigorous substantive tests may be performed for other assertions due to a less than maximum control risk assessment.

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
3. Based on the assessed level of control risk the timing and extent of substantive tests may be affected. Consider the following matters as appropriate. Cross-reference to AAM section 5400.100 and 5400.160.			
a. Extent of analytical procedures and tests of details of transactions and balances regarding classification of costs or expenses and charges to accounts such as property and equipment and prepaid expenses.	_____	_____	_____
b. Extent of testing of details of transactions and balances to substantiate recorded payables and search for unrecorded liabilities as of the balance-sheet date.	_____	_____	_____
c. Need for and extent of confirmation of payables from vendors.	_____	_____	_____
d. The number of days following the balance-sheet date for which cut-off bank statements should be obtained.	_____	_____	_____
e. The extent to which (if any) tests of cash balances can be performed at interim dates.	_____	_____	_____
f. The extent to which testing of outstanding checks, deposits in transit, and other reconciling items can be restricted.	_____	_____	_____
g. The number of days before and after the balance-sheet date which should be used for the testing of bank transfers.	_____	_____	_____
h. Whether all bank transfers during the selected period or only those over a selected dollar amount should be tested.	_____	_____	_____
i. Whether petty cash funds should be counted or confirmed with the custodian as of the balance-sheet date.	_____	_____	_____
j. Whether petty cash funds should be counted on a surprise basis.	_____	_____	_____
k. The need for coordination of cash counts with inspection of marketable securities and other investments.	_____	_____	_____

#### C-2. Purchases, Accounts Payable, and Disbursements—Tests of Controls

**Note:** Tests directed toward the effectiveness of the operation of a control are concerned with how the control was applied, the consistency with which it was applied during the audit period, and by whom it was applied. The examples that follow assume that the client has controls in place which can be either inspected, observed or reperformed.

- |  |       |       |       |
|--|-------|-------|-------|
| 1. Obtain the voucher register and for a selected period(s):                                   |       |       |       |
| a. Trace postings to other subsidiary registers, if used (for example, property tax register). | _____ | _____ | _____ |

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
b. Test the arithmetic accuracy of the footings and crossfootings of the voucher register for a test period(s).	_____	_____	_____
c. Trace totals to the general ledger for both accounts (vouchers) payable and the various account distributions.	_____	_____	_____
2. Select _____ entries from the voucher register for various months throughout the year, obtain supporting documents and perform the following tests:			
a. Compare the entry in the voucher register to the vendor's invoice as to date, payee, description, and amount and test the clerical accuracy of the invoice.	_____	_____	_____
b. Determine that the invoice is supported by (i) an approved purchase order or payment request form and, if applicable, a properly executed purchase requisition and (ii) a signed receiving report or other evidence of receipt of services or goods, or otherwise authorized in accordance with prescribed procedures.	_____	_____	_____
c. Determine that the account distribution in the voucher register is reasonable and in agreement with the purchase order.	_____	_____	_____
d. Determine that purchase discounts have been properly recorded.	_____	_____	_____
e. Determine that freight has been billed in conformity with the purchase order.	_____	_____	_____
f. Examine the canceled check issued to payment of the invoice for date, payee, amount, signature, and endorsement. Trace to cash disbursements journal.	_____	_____	_____
g. Inspect the voucher for evidence of clerical check, approval of payment as prescribed by management, and appropriate cancellation.	_____	_____	_____
3. Review the numerical sequence files of receiving reports and of purchase orders and determine whether missing numbers are accounted for. (Failure by the client to do so increase the risk that unrecorded liabilities may exist.)	_____	_____	_____
4. Obtain the cash disbursements journal and perform the following on a test basis:			
a. Trace postings for a selected period(s) to the general ledger for both the cash accounts and applicable account distributions.	_____	_____	_____
b. Trace postings for a selected period(s) to other applicable subsidiary records, if present (for example, voucher or purchase journal, insurance and property tax registers, plant ledger, etc.).	_____	_____	_____
c. For a selected period(s), foot and crossfoot the cash disbursements journal; reconcile total disbursements to the bank statement.	_____	_____	_____

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
5. Review the numerical sequence of checks issued for a selected period and account for missing numbers as void or included on the list of outstanding checks. Select ____ checks drawn at various times during the year from the disbursements journal and obtain the paid checks and supporting detail for the disbursements:			
a. Examine the paid checks and trace identity of signatures to the list of authorized check signers. (Consider requesting confirmations from banks of authorized check signers.)	_____	_____	_____
b. Compare identity of payee to endorsement; review checks for unusual endorsements and schedule those found for further investigation.	_____	_____	_____
c. Compare paid check and supporting detail to the cash disbursements journal for check number, date drawn, payee, amount, and account distribution.	_____	_____	_____
6. Review the client's bank reconciliations; for a selected period(s) perform the following tests of the bank reconciliation(s) and related listings of outstanding checks:			
a. Prove the arithmetic accuracy of the bank reconciliation, including the list of outstanding checks.	_____	_____	_____
b. Trace the bank balance to the bank statement and the book balance to the general ledger account.	_____	_____	_____
c. Trace the paid checks accompanying the bank statement to the cash disbursements journal and outstanding check list for the preceding month-end.	_____	_____	_____
d. Trace deposits per the bank statement to the cash receipts journal and deposits in transit per bank reconciliations of the preceding month-end.	_____	_____	_____
e. Trace deposits in transit to the bank statement for the following month; note whether the time interval between the dates per book and bank appear reasonable.	_____	_____	_____
f. Trace outstanding checks to paid checks which accompany the bank statement for the month(s) subsequent to the reconciliation tested; compare paid checks to the cash disbursements journal and inspect signature(s) and endorsements.	_____	_____	_____
g. Trace other reconciling items to supporting documents and check subsequent disposition.	_____	_____	_____
7. Consider preparing a proof of cash for a test period including the tests described in step 6 above and the following:			
a. Trace totals per the cash receipts and disbursements journals to the general ledger cash accounts; identify and obtain explanations for significant and unusual cash entries in the general ledger during the test period. Foot the receipts and			

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
disbursements journals and prove the arithmetic between the opening and closing general ledger cash balances for the test period.	_____	_____	_____
b. Prove the arithmetic accuracy of the bank statement by footing the deposits and disbursements, adding the opening balance and deducting the closing balance and ascertaining that the resulting differences equal total disbursements.	_____	_____	_____
c. Account for all deposits per books as deposits per bank or deposits in transit. Determine that deposits are made on a timely basis.	_____	_____	_____
d. Review the numerical sequence of checks issued during the period, accounting for them as paid during the period, included on the list of outstanding checks, or void. Determine that void checks have been properly mutilated.	_____	_____	_____
<p><b>Note:</b> The working paper format for this step would present reconciliations of total receipts and disbursements per cash books to the respective total credits and charges per the bank statement(s) in addition to reconciliations of the bank and book balances at the beginning and end of the selected period. This working paper format may be used to reconcile total activity per the cash books and bank statements for various time periods such as a month or several months.</p>			
8. Select the paid check(s) to reimburse the petty cash fund(s) from the cash disbursements journal; examine the voucher and paid check for consistency with the disbursements journal and prescribed approval and account distribution, and perform the following tests:			
a. Foot supporting evidence by account distribution and trace total to reimbursement voucher.	_____	_____	_____
b. Trace reimbursement voucher to cash disbursements journal and petty cash book.	_____	_____	_____
c. Examine petty cash vouchers for the following:			
(1) Prepared in ink	_____	_____	_____
(2) Approved	_____	_____	_____
(3) Canceled after reimbursement	_____	_____	_____
(4) Dated	_____	_____	_____
(5) Payee	_____	_____	_____
(6) Amount	_____	_____	_____
(7) Signature	_____	_____	_____
(8) Account charged	_____	_____	_____
(9) Numbered consecutively	_____	_____	_____
(10) Reasonableness of amount and business purpose	_____	_____	_____

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
<b>C-3. Purchases, Accounts Payable, and Disbursements—Evaluation of Tests of Controls</b>			
1. Evaluate whether the assessed level of risk was appropriate based on the results of the tests of controls and:			
a. Document matters considered and conclusions reached in making the control risk assessment in accordance with firm policy (completion of questionnaires, checklists, preparation of required memoranda, etc.).	_____	_____	_____
b. Based on the control risk assessment, make necessary modifications to applicable sections of the program for substantive tests.	_____	_____	_____
c. Identify and note reportable conditions in internal control to be brought to the client's attention.	_____	_____	_____
d. Identify and note other internal control matters to be brought to the client's attention.	_____	_____	_____

**Practice Tip**

When performing tests of controls, caution is necessary. The tests cannot support an assessment of control risk below the maximum unless they provide evidence to evaluate the effectiveness of design and operation of controls. See AAM section 4600.15.

<b>D-1. Payroll—Understanding and Risk Assessment</b>			
1. Obtain and document a sufficient understanding of the design of relevant controls which relate to the payroll account balances and transactions and whether they have been placed in operation. An understanding can be obtained from previous experience with the entity, inquiries of appropriate management, supervisory, and staff personnel, inspection of entity documents and records, and observation of entity activities and operations (the form and extent of documentation is influenced by the size and complexity and nature of internal control). (Review AAM section 4000 for sample internal control questionnaires.)	_____	_____	_____
2. Assess the level of control risk:			
a. If control risk is assessed at the maximum level, document this conclusion (the basis for the conclusion need not be documented) and go to section E-1. If the control risk is assessed at this level the auditor will have to expand substantive tests to compensate for this level of risk. Some examples of substantive tests which may be affected are shown in step 3 below.	_____	_____	_____
b. If control risk is assessed at less than the maximum level, document the basis for this conclusion and obtain sufficient evidential matter to support this assessed level. Some examples of evidential matter which can be used to support this assessed level are shown in section D-2—Tests of Controls.	_____	_____	_____

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
<hr/>			
<b>Remember:</b> Assessing control risk and choosing an audit strategy is made at the assertion level, not a global level. A primarily substantive testing approach made be chosen for some assertions, while less rigorous substantive tests may be performed for other assertions due to a less than maximum control risk assessment.			
<hr/>			
3. Based on the assessed level of control risk the timing and extent of substantive tests may be affected. Consider the following matters as appropriate. Cross-reference to AAM section 5400.160.			
a. The extent to which analytical procedures are applied to payroll costs and expenses and the extent to which fluctuations are investigated.	_____	_____	_____
b. Whether, and to what extent, gross pay is reconciled to individual earnings records.	_____	_____	_____
c. Whether, and to what extent, a payoff is made.	_____	_____	_____
d. The extent to which labor charges to property and equipment and to inventory are tested.	_____	_____	_____
e. The extent to which payroll taxes withheld and accrued are tested.	_____	_____	_____

#### D-2. Payroll—Tests of Controls

**Note:** Tests directed toward the effectiveness of the operation of a control are concerned with how the control was applied, the consistency with which it was applied during the audit period, and by whom it was applied. The examples that follow assume that the client had controls in place which can be either inspected, observed or reperformed.

1. Obtain the payroll register for a selected period(s):
  - a. Trace totals per the register through applicable payroll summaries to the paid check used to transfer cash for net pay to the payroll bank account, and to postings in the general ledger (and cost accounting records, if applicable) for wage and salary cost and expense distributions, and liabilities for payroll withheld and deducted.
  - b. Trace payroll withheld through applicable subsidiary records to the payroll tax returns. Review the payroll tax returns; examine the check remitting withholdings to the governments (federal and state) and trace to the general ledger liability accounts.
  - c. Determine whether payroll was approved in accordance with prescribed procedures. (For example, approval might be a signature on a payroll summary and request for the deposit of net pay to the payroll bank account; the signature on the check used to transfer money to the payroll bank account; approvals directly on the registers; etc.)

_____	_____	_____
_____	_____	_____
_____	_____	_____

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
d. Test the arithmetical accuracy of the footings and crossfootings of the payroll register.	_____	_____	_____
2. Select _____ entries from the payroll register made at various times throughout the year, and perform the following procedures:			
a. Examine authorization for rate of pay and evidence in support of payment (for example, time records, piece-work production reports or other documentation which has been approved as prescribed by management) and on a test basis recompute gross pay.	_____	_____	_____
b. Examine proper authorizations for payroll withholdings such as signed W-4 forms and on a test basis recompute amounts withheld.	_____	_____	_____
c. Test arithmetical accuracy of net pay based on gross pay less deductions.	_____	_____	_____
d. Examine canceled checks noting date, check number, name of payee and comparing net pay to the payroll register, signature to list of authorized check signers, and endorsement to the signed W-4 forms.	_____	_____	_____
e. Examine signed receipt for employees paid by cash, compare amount on the receipt with the payroll register and compare signature to the signed W-4 form.	_____	_____	_____
f. Compare the individual payroll entry on the payroll register to the records used to accumulate year-to-date employee compensation for such purposes as preparation of payroll tax returns and W-2 forms.	_____	_____	_____
3. Authorization of rate of pay. (For example, memoranda in the personnel files evidencing approval as prescribed by management, union contracts, approved rate or salary schedules, authorization of officer's salaries per minutes of board of director's meetings.)	_____	_____	_____
4. Evidence in support of payment. For example:			
a. Time cards or records, which have been approved as prescribed, for employees paid on an hourly basis and for employees paid for overtime.	_____	_____	_____
b. Production reports, which have been approved as prescribed, for employees paid on a piece-work basis.	_____	_____	_____
c. Sales and commission registers, and evidence that advance drawings for commission salesmen had been approved as prescribed.	_____	_____	_____
5. Evidence in support of payroll withholdings. (For example, signed W-4 forms or other proper authorization.)	_____	_____	_____

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
6. Evidence of review of payroll for clerical accuracy, reasonableness, and account distribution, as prescribed by management.	_____	_____	_____
7. Evidence of individual payroll records. (For example, the individual payroll entry to the records used to accumulate year to date employee compensation for such purposes as preparation of payroll, tax returns and W-2 forms.)	_____	_____	_____
8. Consider, based on the preliminary evaluation, whether to:			
a. Observe the distribution of payroll checks or cash, including control of unclaimed wages.	_____	_____	_____
b. Physically observe selected employees in the performance of their duties.	_____	_____	_____

### D-3. Payroll—Evaluation of Tests of Controls

- |   |       |       |       |
|---|-------|-------|-------|
| 1. Evaluate whether the assessed level of risk was appropriate based on the results of the tests of control and:  |       |       |       |
| a. Document matters considered and conclusions reached in making the control risk assessment in accordance with firm policy (completion of questionnaires, checklists, preparation of required memoranda, etc.) | _____ | _____ | _____ |
| b. Based on the control risk assessment, propose necessary modifications to applicable sections of the program for substantive tests.   | _____ | _____ | _____ |
| c. Identify and note reportable conditions in internal control to be brought to the client's attention (SAS No. 55 [AU section 319]).   | _____ | _____ | _____ |
| d. Identify and note other internal control matters to be brought to the client's attention.  | _____ | _____ | _____ |

### Practice Tip

When performing tests of controls, caution is necessary. The tests cannot support an assessment of control risk below the maximum unless they provide evidence to evaluate the effectiveness of design and operation of controls. See AAM section 4600.15.

### E-1. Inventories and Cost of Sales—Understanding and Risk Assessment

- |   |       |       |       |
|---|-------|-------|-------|
| 1. Obtain and document a sufficient understanding of the design of relevant controls which relate to the inventory, cost of sales account balances and transactions and whether they have been placed in operation. An understanding can be obtained from previous experience with the entity, inquiries of appropriate management, supervisory, and staff personnel, inspection of entity documents and records, and observation of entity activities and operations (the form and extent of documentation is influenced by the size, complexity, and nature of internal control). (Review AAM section 4000 for sample internal control questionnaires.) | _____ | _____ | _____ |
|---|-------|-------|-------|

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
2. Assess the level of control risk:			
a. If control risk is assessed at the maximum level, document this conclusion (the basis for the conclusion need not be documented). If the control risk is assessed at this level the auditor will have to expand substantive tests to compensate for this level of risk. Some examples of the substantive tests which may be affected are shown in step 3 below.	_____	_____	_____
b. If control risk is assessed at less than the maximum level, document the basis for this conclusion and obtain sufficient evidential matter to support this assessed level. Some examples of evidential matter which can be used to support this assessed level are shown in section E-2—Tests of Controls.	_____	_____	_____
<hr/> <b>Remember:</b> Assessing control risk and choosing an audit strategy is made at the assertion level, not a global level. A primarily substantive testing approach made be chosen for some assertions, while less rigorous substantive tests may be performed for other assertions due to a less than maximum control risk assessment.			
3. Based on the assessed level of control risk the timing and extent of substantive tests may be affected in, for example, the following aspects:			
a. The extent to which physical inventories are observed and/or perpetual records tested.	_____	_____	_____
b. Whether physical inventories are taken at a preliminary date or at the balance-sheet date.	_____	_____	_____
c. The extent to which consigned inventories are confirmed.	_____	_____	_____
d. The extent to which inventory prices are tested to supporting documentation.	_____	_____	_____
e. The extent to which analytical procedures are applied to cost of sales and the extent to which fluctuations are investigated.	_____	_____	_____
f. The extent to which cutoffs are tested.	_____	_____	_____
g. The extent to which inventories are tested for obsolete or excess stock.	_____	_____	_____

## E-2. Inventories and Cost of Sales—Tests of Controls

**Note:** Tests directed toward the effectiveness of the operation of a control are concerned with how the control was applied, the consistency with which it was applied during the audit period, and by whom it was applied. The examples that follow assume that the client has controls in place which can be either inspected, observed or reperformed.

- |  |       |       |       |
|--|-------|-------|-------|
| 1. Tour the client's manufacturing or production facilities with a member of the client's organization familiar with production. | _____ | _____ | _____ |
|--|-------|-------|-------|

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
2. Select a sample of transactions for additions and deletions of inventory from such sources as receiving reports, requisitions to place materials into production, and shipping documents. Note the reference or control number, date, description, quantity and dollar amount for each transaction selected. Trace the transactions to the perpetual inventory record and the cost accounting records, if any, used to determine unit or job costs. Perform similar tests selecting the transactions from the perpetual inventory records and/or cost accounting records and trace the transactions to receiving reports, requisitions and shipping documents.	_____	_____	_____
<b>Note:</b> This testing may be coordinated with tests of controls for purchases, payables, and disbursements, and for revenues, receivables, and receipts.			
3. Obtain an analysis of overhead costs charged to inventories and over- or under-absorbed overhead. Review the amounts included in the overhead pool for propriety and perform the following:			
a. Determine that overhead costs are being charged to inventory in accordance with an appropriate policy (for example, as a percent, as a percent of direct labor).	_____	_____	_____
b. Identify disposition of variances, if any, between actual overhead costs incurred and overhead costs applied to production and inventory. Determine that variances are reasonable. Determine that no excessive costs for idle plant are being charged to inventory.	_____	_____	_____
4. If a job order cost system is used, obtain the job order ledger (or tabulation), select a period(s) and perform the following:			
a. Trace total costs incurred to the voucher register (or cash disbursements journal), the payroll distribution, and support for overhead applied.	_____	_____	_____
b. Test the footings of the job order ledger by refooting the detail for selected subtotals and refooting the subtotals.	_____	_____	_____
c. Select _____ job orders for jobs in process and completed jobs and perform the following:			
(1) Examine authorization for the job order.	_____	_____	_____
(2) Trace materials used on a test basis at various times since inception of the job order to such supporting details as requisitions, purchase orders, receiving reports, and processed invoices. (Consider coordination with compliance tests for purchases.)	_____	_____	_____
(3) Trace direct labor costs to account distributions of the payroll registers and on a test basis to individual time	_____	_____	_____

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
reports or time cards. (Consider coordination with tests of controls for payroll.)	_____	_____	_____
(4) Trace application of overhead costs to analyses used to accumulate overhead costs; test computations and review for reasonableness.	_____	_____	_____
(5) Identify the status of the job (work in process, finished goods, or goods shipped) and trace through necessary summarization to the applicable general ledger account. Obtain explanation for any unreasonable time lag between completion and shipping dates for job orders performed for specific customers.	_____	_____	_____
5. For process cost systems, obtain the cost of production reports for each department within the production process for a selected period(s) and:			
a. Trace quantities and dollar amounts for units received for selected departments to the quantities and dollar amounts transferred out per the preceding department in the sequence of production.	_____	_____	_____
b. For each selected department, review the computations of total and unit costs for production transferred to the next department; on a test basis recompute unit costs and ascertain that costs for units lost in process are properly reallocated to surviving units.	_____	_____	_____
c. Trace materials costs charged to the selected departments to appropriate journals and on a test basis to individual requisitions.	_____	_____	_____
d. Trace labor costs incurred to account distribution analyses of the payroll registers.	_____	_____	_____
e. Review the allocation of overhead.	_____	_____	_____

### E-3. Inventories and Cost of Sales—Evaluation of Tests of Controls

1. Evaluate whether the assessed level of risk was appropriate based on the results of the tests of controls and:			
a. Document matters considered and conclusions reached in making the control risk assessment in accordance with firm policy (completion of questionnaires, checklists, preparation of required memoranda, etc.).	_____	_____	_____
b. Based on the control risk assessment, make necessary modifications to applicable sections of the program for substantive tests.	_____	_____	_____
c. Identify and note reportable conditions in internal control to be brought to the client's attention.	_____	_____	_____

	<u>Done by</u>	<u>Date</u>	<u>W/P Ref.</u>
d. Identify and note other internal control matters to be brought to the client's attention.	_____	_____	_____

**Practice Tip**

When performing tests of controls, caution is necessary. The tests cannot support an assessment of control risk below the maximum unless they provide evidence to evaluate the effectiveness of design and operation of controls. See AAM section 4600.15.

**F. Section Completion**

This audit program section has been completed in accordance with firm policy.

Ref.**III. Cash****Financial Statement Assertions:**

1. Existence or occurrence.
2. Completeness.
3. Rights and obligations.
4. Valuation or allocation.
5. Presentation and disclosure.

**Objectives:**

- A. Existence of cash—To determine that cash exists and is owned by the entity. (Assertions 1 and 3)
- B. Proper cut-off—To determine that cash balances reflect a proper cut-off of cash receipts and disbursements. (Assertions 1, 2, and 4)
- C. Cash complete—To determine that cash balances as presented in the balance-sheet properly reflect all cash and cash items on hand, in transit, or on deposit with third parties. (Assertions 1, 2, and 5)
- D. Proper classification—To determine that cash balances are properly classified in the financial statements and any restrictions on the availability of funds are properly disclosed. (Assertions 3 and 5)

---

**Note:** The letters preceding each of the above audit objectives serve as identification codes. These codes are presented in the objective column when the audit step accomplishes the specific objective. If the letter appears in brackets, i.e., [A], [B], etc., the audit procedure only secondarily accomplishes the objective.

---

**Procedures:****A. Preliminary Procedures**

1. Review the results of applicable sections of the following to determine the nature, timing, and extent of procedures:
  - a. Preliminary analytical review

---

---

---

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
b. Internal control documentation and test results	_____	_____	_____
c. Assessment of risk of material misstatement (due to error, fraud, illegal acts, or other factors)	_____	_____	_____
d. Other planning documents and risk assessments	_____	_____	_____
2. Based on the risk assessment made during planning (including the risk of material misstatement due to error or fraud), determine whether additional procedures, beyond those included in this program, are necessary. Consult all relevant planning documents (e.g., Fraud Risk Factor Memory Jogger [AAM section 3165.12]) when making this decision. If additional procedures are necessary, add them to this program.	_____	_____	_____
<b>[A] B. Substantive Analytical Procedures</b>			
<b>[B] [C] [D] 1. Compare account balances with preceding year's balances (or expected balances) and investigate any significant deviations from expected balances.</b>			
	_____	_____	_____
2. Compute quick current ratios (cash, and net receivables) and compare with preceding year's ratios or expected ratios. Investigate any significant deviations from the expected ratios.	_____	_____	_____
<b>C. Cash in Banks—Detailed Tests</b>			
<b>A C D 1. Confirm bank balances (using standard forms to confirm account balance information with financial institutions) as of the balance-sheet date for ____ bank accounts used during the year. (Confirmation of and information about certificates of deposit and compensating balances arrangements should also be requested.)</b>			
	_____	_____	_____
<b>B [C] 2. Arrange to obtain cut-off bank statements and related paid checks directly from the banks for ____ days following the balance-sheet date.</b>			
	_____	_____	_____
<b>C 3. Obtain or prepare a comparative listing of the component bank account(s) and petty cash fund balances as of the closing and opening balance-sheet dates for the year (period) being audited:</b>			
a. Refoot the schedule and trace totals to the financial statement assembly sheets.	_____	_____	_____
b. Trace closing balances to the general ledger and working papers on bank reconciliations and petty cash funds.	_____	_____	_____
c. Trace opening balances to the working papers for the preceding audit.	_____	_____	_____
d. For bank accounts opened and closed during the year (period) trace to authorization in the minutes of the board of directors meetings.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
A B C [D]	4. Obtain copies of the bank reconciliations as of the balance sheet date and perform the following:			
	a. Trace the book balance to the balance per the general ledger control account and to the working lead schedule or trial balance.	_____	_____	_____
	b. Compare the bank balance to the cut-off bank statement and to the confirmation received from the respective bank.	_____	_____	_____
	c. Test the clerical accuracy of the reconciliation.	_____	_____	_____
	d. Review and explain unusual reconciling items and trace to appropriate subsequent disposition.	_____	_____	_____
	e. Trace deposits in transit to the cut-off bank statement(s) and ascertain whether the time lag is reasonable.	_____	_____	_____
	f. Inspect selected paid checks returned with the cut-off bank statement. Examine the cancellation date on the paid checks to identify any checks that were not recorded in the period under audit. Trace checks drawn prior to the end of the period under audit to the list of outstanding checks and to the cash disbursements journal and agree items such as date, payee, and amount.	_____	_____	_____
	g. List and investigate any unusual checks including checks drawn to "bearer" or "cash."	_____	_____	_____
	h. List and investigate any outstanding checks of \$ _____ or over, which did not clear the banks within a reasonable period to ascertain that the disbursements are proper.	_____	_____	_____
B C	5. Prepare a bank transfer schedule providing column headings for the following:			
	a. Name of disbursing bank	_____	_____	_____
	b. Check number or other reference	_____	_____	_____
	c. Amount	_____	_____	_____
	d. Date disbursed per books	_____	_____	_____
	e. Date disbursed per bank	_____	_____	_____
	f. Name of receiving bank	_____	_____	_____
	g. Date deposited per books	_____	_____	_____
	h. Date deposited per bank	_____	_____	_____
	i. Perform the following:			
	(1) Review the cash receipts and disbursements journals, bank statements and related paid checks (including the cut-off bank statements) for the last _____ days before			

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	the first ____ days after the closing date of the year (period) and list all bank transfers (or each transfer of \$ ____ or over) on the transfer schedule.	_____	_____	_____
	(2) Review the schedule to determine that the deposit and disbursement side of each transfer is recorded in the proper period and that any time lag between book and bank entries appears reasonable. Trace incompleting transfers to the schedule of outstanding checks and/or deposits in transit.	_____	_____	_____
B	6. If cut-off statements and related paid checks are not independently received by the auditor directly from the bank, obtain the bank statements and related paid checks for the month following the balance-sheet date and perform the following:			
	a. Inspect bank statements for erasures and prove arithmetic accuracy of the statements (opening balance plus total deposits and other credits, less the closing balance equals total disbursements and other charges).	_____	_____	_____
	b. Examine paid date of each check and debit memo to ascertain it was paid by the bank during the period covered by the bank statements.	_____	_____	_____
	c. Foot the paid checks and debit memos to ascertain that the total agrees with total charges per the bank statements.	_____	_____	_____
	d. Request banks to confirm the balance at the end of the statement period.	_____	_____	_____
A B C D	7. On receiving the bank confirmation relies:			
	a. Ascertain that all of the inquiries have been answered. If any inquiries have not been answered, telephone or correspond with the bank to obtain the missing information (in writing).	_____	_____	_____
	b. Review bank confirmations for details applicable to other areas of the financial statements such as liabilities, debt, commitments, and contingencies.	_____	_____	_____
	c. Determine whether there are any restrictions on the account balances, including minimum balance requirements.	_____	_____	_____
	d. Determine whether there are any guarantee arrangements.	_____	_____	_____
<b>D. Cash Funds and Petty Cash—Detailed Tests</b>				
	1. The auditor should consider performing the following procedures if cash balances on hand are deemed significant:			
A B C D	a. Identify all funds, including locations, custodians, amounts and purpose and decide:			
	(1) Which funds are to be counted and, if so, whether to count them simultaneously and whether simultaneous			

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	control and inspection of other assets, such as negotiable securities, is also necessary.	_____	_____	_____
	(2) Timing of counts to be at a preliminary date, the balance-sheet date or subsequent to the balance-sheet date.	_____	_____	_____
A B C D	b. Count all (or on a test basis, depending upon risk assessment) undeposited cash, petty cash, unclaimed wages, stamps, etc., in the presence of the custodian (A client's representative should be present at all times during the count.) and:			
	(1) List currency and coins counted by denomination.	_____	_____	_____
	(2) List other items such as stamps, checks, and vouchers; examine vouchers as to date, amount, payer, authorization, signature, account charged, and documentation. Identify large or unusual amounts for possible follow-up.	_____	_____	_____
	(3) Trace the fund balance per the count to the balance per the general ledger.	_____	_____	_____
	(4) List all unusual items such as postdated checks or vouchers prepared in pencil for discussion with a responsible member of the client's staff.	_____	_____	_____
	(5) If petty cash reimbursement checks are included in the fund, trace the amounts to cash book entries dated prior to the count.	_____	_____	_____
	(6) Have the custodian sign a receipt at the conclusion of the count.	_____	_____	_____

#### Practice Tip

It is often a good idea to scan petty cash vouchers to determine types of expenses that are paid out of petty cash. Be on the lookout for items that might need to be capitalized.

A B C D	3. Consider whether to confirm funds at branch offices and other locations which are not scheduled for a physical count.	_____	_____	_____
---------	--	-------	-------	-------

#### IV. Investments and Derivatives

##### Financial Statement Assertions:

1. Existence or occurrence.
2. Completeness.
3. Rights and obligations.
4. Valuation or allocation.
5. Presentation and disclosure.

##### Objectives:

- A. Existence of investment—To determine that the entity owns the investments at the balance-sheet date and has physical evidence of ownership (securities, receipts from responsible custodians, etc.). (Assertions 1, 2, and 3)
- B. Proper valuation—To determine that the market or other fair value of the investments has been determined as objectively as practicable. (Assertion 4)
- C. Income recognition—To determine that related income from the investments is properly recorded and received. (Assertions 2, 3, and 4)
- D. Restrictions identified—To determine that restrictions, pledges or liens on any of the investments and related liabilities are identified and adequately disclosed in the financial statements. (Assertions 1, 2, 3, and 5)
- E. GAAP conformity—To determine that the financial statement presentation and disclosure investments, including off-balance-sheet items such as options and other derivative instruments, and related income is in conformity with generally accepted accounting principles consistently applied. (Assertion 5)

---

**Note:** The letters preceding each of the above audit objectives serve as identification codes. These codes are presented in the objective column when the audit step accomplishes the specific objective. If the letter appears in brackets, i.e., [A], [B], etc., the audit procedure only secondarily accomplishes the objective.

---

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
<b>Procedures:</b>			
<b>A. Preliminary Procedures</b>			
1. Review the results of applicable sections of the following to determine the nature, timing, and extent of procedures:			
a. Preliminary analytical review	_____	_____	_____
b. Internal control documentation and test results	_____	_____	_____
c. Assessment of risk of material misstatement (due to error, fraud, illegal acts or other factors)	_____	_____	_____
d. Other planning documents and risk assessments	_____	_____	_____
2. Based on the risk assessment made during planning (including the risk of material misstatement due to error or fraud), determine whether additional procedures, beyond those included in this program, are necessary. Consult all relevant planning documents (e.g., Fraud Risk Factor Memory Jogger [AAM section 3165.12]) when making this decision. If additional procedures are necessary, add them to this program.	_____	_____	_____
<b>[A] B. Substantive Analytical Procedures</b>			
<b>[B][C][D]</b>			
1. Compare investment account balances with preceding year's balances (or expected balances) and investigate any significant deviations from the expected balances.	_____	_____	_____
2. Compute the following ratios and compare with prior years:			
a. Investments divided by total assets (indication of earning asset mix).	_____	_____	_____
b. Major categories of investments divided by total investments (measure of investments and risk portfolio mix).	_____	_____	_____
c. Investment income divided by average total investments, by category (measure of investment portfolio yield).	_____	_____	_____
<b>C. Detailed Tests</b>			
<b>A B C E</b>			
1. (Some of the following information may not be necessary, depending upon the judgment of the auditor.) Obtain or prepare detailed analyses of investments showing:			
a. Classification between held-to-maturity, available-for-sale, or trading securities, and securities accounted for under the equity or cost methods.	_____	_____	_____
b. Classification between current and noncurrent portfolios of held-to-maturity securities and available-for-sale securities.	_____	_____	_____
c. Description of the security, including any interest rate and maturity of debt, the dividend rate on cumulative preference shares, etc.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	d. Number of shares, par value, or face amount held at the end of the preceding period, and the balance at cost and at market or equity, if applicable, together with any unamortized premium or discount on bonds.	_____	_____	_____
	e. Additions including date, number of shares, par values or face amounts, and cost.	_____	_____	_____
	f. Sales and dispositions including date, number of shares, par value or face amounts, cost, proceeds, and realized gain or loss.	_____	_____	_____
	g. Number of shares, par values, or face amounts held at the end of the period, and the balance at cost and at fair value or equity, if applicable, together with any unamortized premium or discount on bonds.	_____	_____	_____
	h. Related holding gains and losses at the beginning and the end of the period and changes therein.	_____	_____	_____
	i. Investment income (dividends, interest, etc.) for individual investments—accrued at the end of the previous period, earned during the current period, collected during the period and accrued at the end of the current period.	_____	_____	_____
B	2. Foot and crossfoot the analyses.	_____	_____	_____
[E]	3. Trace ending totals to the general ledger and trace opening balances to the prior period audit working papers.	_____	_____	_____
A B [D] [E]	4. Inspect securities on hand in the presence of the custodian (including treasury stock and securities held as collateral) at the balance-sheet date or at a date shortly before or after, and examine supporting evidence (for example, bank and broker advices) for transactions between the inspection date and balance-sheet date:			
	a. Ascertain that certificates issued in nominee names are owned by the client.	_____	_____	_____
	b. Note certificate or serial numbers, if useful.	_____	_____	_____
	c. If the investment is in the debt or equity of a nonpublic entity, consider obtaining confirmation from the issuer or trustee.	_____	_____	_____
	d. Obtain a signed receipt.	_____	_____	_____
A	5. Obtain positive confirmation as of the balance-sheet date for investments held by independent custodian; consider whether inspection of investments held by custodians is necessary.	_____	_____	_____
A D E	6. Read executed partnership, debt security, preferred stock and similar agreements to determine that management's assertions regarding those investments are consistent with their contractual terms.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
E	7. Ascertain whether the accounting policies adopted by the entity for investments are in conformity with generally accepted accounting principles (i.e., certain investments should be accounted for under FASB Statement No. 115, other investments may require the application of the cost or equity methods of accounting).	_____	_____	_____
E	8. Obtain an understanding of the process used by management to classify investments.	_____	_____	_____
E	9. Determine that all debt and equity securities accounted for under FASB Statement No. 115, as amended, are properly classified as either held-to-maturity, available-for-sale, or trading by:			
	a. Evaluating management's intent in purchasing and holding the investment.*	_____	_____	_____
	b. Considering whether the client's actual investment activities corroborate or conflict with management's stated intent. Examine, as appropriate, evidence such as:			
	(1) Written and approved records of investment strategies	_____	_____	_____
	(2) Records of investment activities	_____	_____	_____
	(3) Instructions to portfolio managers	_____	_____	_____
	(4) Minutes of meetings of the board of directors or investment committee	_____	_____	_____
	c. Evaluating the client's ability to hold a debt security to maturity.* Consider, as appropriate, factors such as:			
	(1) Financial position	_____	_____	_____
	(2) Working capital needs	_____	_____	_____
	(3) Operating results	_____	_____	_____
	(4) Debt agreements	_____	_____	_____
	(5) Guarantees and other relevant contractual obligations	_____	_____	_____
	(6) Laws and regulations	_____	_____	_____
	(7) Existing operating cash flow projections or forecasts	_____	_____	_____
E	10. For investments accounted for under FASB Statement No. 115, obtain written representations from management confirming that the client has properly classified securities as held-to-maturity, trading, or available-for-sale, and, with respect to held-to-maturity debt securities, obtain a representation that management has the intent and the client has the ability to hold such investments to maturity.	_____	_____	_____
E	11. For investments accounted for under the equity method (APB Opinion No. 18), determine the appropriateness of that accounting method (investor must exercise significant influence, but not control, over an investee). Procedures should include:			
	a. Inquiry of management as to:			

\* See the appendix to this audit program for nonauthoritative guidance on auditing management's ability and intent in purchasing and holding securities.

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	(1) Whether the client has the ability to exercise significant influence over the operating and financial policies of the investee under the criteria set forth in paragraph 17 of APB Opinion No. 18.	_____	_____	_____
	(2) The attendant circumstances that serve as a basis for management's conclusion.	_____	_____	_____
E	12. If the client accounts for an investment in an investee contrary to the applicable presumption contained in paragraph 17 of APB Opinion No. 18, obtain sufficient competent evidential matter about whether that presumption has been overcome and whether appropriate disclosure is made regarding the reasons for not accounting for the investment in keeping with the presumption.	_____	_____	_____
A B C E	13. For investments accounted for under the equity method, agree the investment to the proper audited financial statements of the investee (There may be a time lag in reporting between the date of the financial statements of the investor (client) and the investee.):			
	a. If the financial statements of the investee are not audited, apply (or have the investee's auditor apply) appropriate auditing procedures to such financial statements, considering the materiality of the investment in relation to the financial statements of the investor (client).	_____	_____	_____
	b. With respect to subsequent events and transactions of the investee occurring after the date of the investee's financial statements but before the date of the report of the investor (client), read available interim financial statements of the investee and make appropriate inquiries of the client to identify subsequent events and transactions that are material to the client's financial statements.	_____	_____	_____
B C E	14. For investments accounted for using the equity method, obtain evidence relating to material transactions between the investor (client) and investee and evaluate the propriety of the elimination of unrealized intercompany profits and losses and the adequacy of the disclosures about material related-party transactions.	_____	_____	_____
	15. For investments carried at cost or amortized cost (and for disclosures regarding the cost basis of investments):			
	a. Determine that they are valued at cost. Procedures may include inspection of documentation indicating the purchase price of the security, and confirmation with the issuer or custodian.	_____	_____	_____
	b. Recalculate the amortized cost.	_____	_____	_____
B E	16. For investments carried at fair value (and for disclosures regarding the fair value of investments), obtain evidence corroborating their fair value by performing the following procedures as applicable:			
	a. For investments listed on national exchanges or over-the-counter markets, agree the fair value to quoted market prices listed in financial publications, the exchanges, or the National Association of Securities Dealers Automated Quotations System (NASDAQ).	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	b. For other investments, agree the fair value to quoted market prices obtained from broker-dealers who are market makers in those investments.	_____	_____	_____
	c. For investments which do not have available quoted market prices, obtain estimates of fair value from third-party sources based on proprietary models or obtain estimates of fair value from the client based on internally developed or acquired models.	_____	_____	_____
	d. For fair-value estimates obtained from broker-dealers and other third-party sources, consider the applicability of the guidance in SAS No. 73 or SAS No. 70.	_____	_____	_____
	e. For investments valued by the client using a valuation model, assess the reasonableness and appropriateness of the model, and determine whether the market variables and assumptions used are reasonable and appropriately supported.	_____	_____	_____
	f. For investments valued by the client using a valuation model, determine whether the client has made appropriate disclosures about the method(s) and significant assumptions used to estimate the fair values of such investments.	_____	_____	_____
	g. If debt securities have collateral assigned to them and that collateral is an important factor in evaluating fair value and collectibility of the investment, obtain evidence regarding the existence, fair value, and transferability of such collateral as well as the client's rights to the collateral.	_____	_____	_____
B C E	17. For debt and equity securities classified as available-for-sale, recalculate unrealized gains and losses and determine whether they are properly included as a separate component of stockholders' equity.	_____	_____	_____
B C E	18. For debt and equity securities classified as trading, recalculate unrealized gains and losses and determine whether they are properly included in earnings.	_____	_____	_____
	19. Evaluate whether management has considered relevant information in determining whether a decline in fair value below the amortized cost basis of investments is other than temporary.	_____	_____	_____
<p><b>Note:</b> Examples of factors that may indicate an other-than-temporary impairment condition include the following:</p> <ul style="list-style-type: none"> <li>• Fair value is significantly below cost.</li> <li>• The decline in fair value is attributable to specific adverse conditions affecting a particular investment.</li> <li>• The decline in fair value is attributable to specific conditions, such as conditions in an industry or in a geographic area.</li> <li>• Management does not possess both the intent and the ability to hold the investment for a period of time sufficient to allow for any anticipated recovery in fair value.</li> <li>• The decline in fair value has existed for an extended period of time.</li> <li>• A debt security has been downgraded by a rating agency.</li> <li>• The financial condition of the issuer has deteriorated.</li> <li>• Dividends have been reduced or eliminated, or scheduled interest payments on debt securities have not been made.</li> </ul>				

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
B E	20. Evaluate management's conclusions regarding whether a decline in fair value below the amortized cost basis of investments is other than temporary.	_____	_____	_____

### Practice Tip

The FASB has published a special report entitled, *A Guide to Implementation of Statement 115 on Accounting for Certain Investments in Debt and Equity Securities*. This publication may be helpful in answering questions regarding the application of FASB Statement No. 115.

[A]	21. Determine that sales and purchases were properly approved; trace transactions to minutes of the board of directors or finance committee meetings.	_____	_____	_____
A C E	22. Examine bank or broker's advices and custodian's reports in support of purchases and sales.	_____	_____	_____
C E	23. Determine that gain or loss on disposition of a security has been computed and accounted for properly.	_____	_____	_____
A C E	24. Trace payments for purchases to canceled checks and proceeds from sales to entries in cash book.	_____	_____	_____
	25. Test accrued interest on investment securities as follows:			
	a. Obtain or prepare a trial balance of accrued interest receivable on investment securities and agree to the general ledger.	_____	_____	_____
	b. Recalculate accrued interest for selected securities.	_____	_____	_____
	c. Review the client's procedures for calculating monthly accruals and:			
	(1) Test the posting of monthly accruals by tracing to applicable accounts in the general ledger.	_____	_____	_____
	(2) Test detail calculations supporting the monthly entries.	_____	_____	_____
B C E	26. Determine that the amortization of premium and discount on debt securities, where applicable, has been properly computed and accounted for.	_____	_____	_____
E	27. Determine that any transfers between categories of investments have been properly recorded.	_____	_____	_____
	28. Obtain a list of all derivative transactions.			
A D	a. Examine evidence of the transactions and directors' approval of the transactions.	_____	_____	_____
E	b. Obtain confirmations of outstanding transactions as of year end.	_____	_____	_____
A	c. Review subsequent transactions to determine completeness of the list.	_____	_____	_____
E	d. For disclosure purposes obtain and evaluate information concerning significant individual or group concentrations of credit risk.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
B E	e. If FASB Statement No. 133, <i>Accounting for Derivative Instruments and Hedging Activities</i> (AC D50), has been adopted, determine whether financial instruments or other contracts that meet the definition of "derivative instruments," as defined in paragraph 6 of FASB Statement No. 133, have been properly accounted for under the requirements of FASB Statement No. 133.	_____	_____	_____
B E	f. If FASB Statement No. 133 (AC D50) has not been adopted, determine whether financial instruments, derivatives, and other contracts have been accounted for in accordance with the related accounting guidance (e.g., futures contracts are accounted for in accordance with FASB Statement No. 80 [AC F80]).	_____	_____	_____
D	29. Determine if any securities are pledged or restricted.	_____	_____	_____
A	30. Evaluate the credit quality of the investments and determine whether purchases and sales conform to policy.	_____	_____	_____
E	31. Ensure that all information needed for financial statement disclosures has been accumulated and documented in the working papers.	_____	_____	_____
E	32. Obtain information about the fair value of investments, and perform the following:			
<p><b>Note:</b> Disclosures about the fair value of financial instruments prescribed in FASB Statement No. 107 are optional for nonpublic entities that meet certain criteria (see FASB Statement No. 126, as amended). Also, FASB Statement No. 107 does not apply to investments accounted for under the equity method.</p>				
	a. Determine that the fair value amounts are determined in accordance with FASB Statement No. 107, as amended (AC F25).	_____	_____	_____
	b. Determine that the valuation principles are being consistently applied.	_____	_____	_____
	c. Determine that the fair value amounts are supported by the underlying documentation.	_____	_____	_____
	d. Determine that the method of estimation and significant assumptions used are properly disclosed.	_____	_____	_____
	33. Determine that all disclosures, as required by FASB Statement No. 107, as amended (AC F25), are properly made.	_____	_____	_____
<b>D. Accounting by a Transferor and Transferee for All Transfers of Financial Assets</b>				
	1. Determine that the proceeds received from the transfer of financial assets have been recognized as a sale, if all of the following conditions are met:			

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
a. The transferred assets have been isolated from the transferor—put presumptively beyond the reach of the transferor and its creditors, even in bankruptcy or other receivership.	_____	_____	_____
b. Each transferee has either obtained the right, free of conditions that constrain it from taking advantage of that right, to pledge or exchange the transferred assets, or the transferee is a qualifying special-purpose entity and the holders of beneficial interests in that entity have the right, free of conditions that constrain them from taking advantage of that right, to pledge or exchange those interests.	_____	_____	_____
c. The transferor does not maintain effective control over the transferred assets through either an agreement that both entitles and obligates the transferor to repurchase or redeem them before their maturity or an agreement that entitles the transferor to repurchase or redeem transferred assets that are not readily obtainable.	_____	_____	_____
2. Determine that the proceeds received from the transfer of financial assets that do not meet the aforementioned conditions of a sale have been accounted for as a secured borrowing with a pledge of collateral.	_____	_____	_____
3. Upon completion of any transfer of financial assets, determine that the transferor has:			
a. Continued to carry in its statement of financial position any retained interest in the transferred assets, including, if applicable, servicing assets, beneficial interests in assets transferred to a qualifying special-purpose entity in a securitization, and retained undivided interests.	_____	_____	_____
b. Allocated the previous carrying amount between the assets sold, if any, and the retained interests, if any, based on their relative fair values at the date of transfer.	_____	_____	_____
4. Upon completion of a transfer of assets that satisfies the conditions to be accounted for as a sale (see step 1 above), determine that the <i>transferor</i> has:			
a. Derecognized all assets sold.	_____	_____	_____
b. Recognized all assets obtained and liabilities incurred in consideration as proceeds of the sale, including cash, put or call options held or written (e.g., guarantee or recourse obligations), forward commitments (e.g., commitments to deliver additional receivables during the revolving periods of some securitizations), swaps (e.g., provisions that convert interest rates from fixed to variable), and servicing liabilities, if applicable.	_____	_____	_____
c. Initially measured at fair value assets obtained and liabilities incurred in a sale or, if it is not practicable to estimate the fair value of an asset or a liability, applied alternative measures.	_____	_____	_____
d. Recognized in earnings any gain or loss on the sale.	_____	_____	_____

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
5. If the client is the <i>transferee</i> , determine that upon the completion of a transfer of assets that satisfies the conditions to be accounted for as a sale, the <i>transferee</i> recognizes all assets obtained and any liabilities incurred and initially measures them at fair value (in aggregate, presumptively the price paid).	_____	_____	_____
6. If it is not practicable to estimate the fair values of assets, determine that the transferor recorded those assets at zero.	_____	_____	_____
7. If it is not practicable to estimate the fair values of liabilities, determine that the transferor recognizes no gain on the transaction and records those liabilities at the greater of:			
a. The excess, if any, of (1) the fair values of assets obtained less the fair values of other liabilities incurred, over (2) the sum of the carrying values of the assets transferred.	_____	_____	_____
b. The amount that would be recognized in accordance with FASB Statement No. 5, as interpreted by FASB Interpretation No. 14.	_____	_____	_____
8. Determine that all the necessary disclosures have been made (see FASB Statement No. 125, paragraph 17).	_____	_____	_____

**E. Additional Procedures (if any)**

---

---

---

---

---

---

---

---

---

---

**F. Section Completion**

- Based on the results of the audit procedures performed, reassess the risk of material misstatement due to error and due to fraud, and determine whether additional procedures need to be performed to obtain sufficient evidence regarding the financial statement assertions for investments.
- The objectives of this audit program have been met.

This audit program section has been completed in accordance with firm policy.

## Appendix to Illustrative Audit Program for Investments and Derivatives

### Guidance on Auditing Management's Ability and Intent

The following nonauthoritative guidance is extracted from the AICPA's practice aid entitled, *Auditing Estimates and Other Soft Accounting Information*. Practitioners who wish to purchase the full practice aid can order a copy for \$45.00 by calling the AICPA at (888) 777-7077 and asking for product number 010010.

#### *Distinguish Between a Plan and What Management Might Do*

Management's plans are different from management's options. Be sure that the assumptions underlying soft accounting information are based on management's positive intent to take action. The accounting for debt securities depends, in part, on whether management intends to hold those securities to maturity. Paragraph 59 of Statement No. 115 states:

An enterprise should determine if it has the positive intent and ability to hold a security to maturity, which is distinct from the mere absence of an intent to sell. The Board believes that, if management's intention to hold a debt security to maturity is uncertain, it is not appropriate to carry that investment at amortized cost.

Logic can be applied to other areas for the purpose of assessing management's intent. Positive intent to take action is not the same as the absence of intent to take a contrary action.

#### *Inquiries of Management*

A primary source of audit evidence relating to management's intent and ability will come from inquiries of management. As audit evidence, inquiries may be less reliable than other sources of evidence (for example, your direct personal knowledge or confirmations from third parties). The following techniques can help make your inquiries more reliable.

- *Corroborate management's response with additional inquiries outside of management.* You should extend your inquiries to include people outside of management and outside of the accounting department. You might even make inquiries of people outside the entity.
- *Have a rigorous, purposeful approach for making inquiries.* Maintain a healthy professional skepticism when evaluating management's responses. Look for inconsistencies in their responses or between their responses and those of others outside the department. Look for discrepancies between what they say and what they do. Be sure to follow up on all identified inconsistencies.

#### *Written Plans and Other Documentation*

Keep in mind that the mere existence of written documentation is not sufficient for you to reach a conclusion about the reasonableness of management's plans. Like any other audit evidence, documentation received from management must be valid and relevant. Guidance on assessing the validity and relevance of audit evidence is contained in SAS No. 31, *Evidential Matter*, as amended by SAS No. 80 (AICPA, *Professional Standards*, vol. 1, AU sec. 326.21), paragraph 21.

The absence of written documentation and even written documentation that contradicts management's stated plans does not necessarily mean that management's intentions are unsupported.

#### *Assess Management's Ability to Carry Out Their Intentions and Plan*

Be alert for audit evidence that contradicts management's stated intentions. What are the risks the company will encounter in carrying out their intentions, and what are management's plans for identifying and mitigating those risks?

### Guidance on Auditing Fair Value

The best sources of audit evidence for corroborating the fair value of investments are market quotations from published sources. For some investments, market quotations may be obtained from broker-dealers who are market makers in those investments. If market quotations are not available (for example, on securities that do not trade regularly) fair value frequently can be obtained from third-party sources based on proprietary models or from the client based on internally developed or acquired models.

- *Third-party estimates.* Many broker-dealers and other third parties have developed models to estimate the fair value of investments. When obtaining estimates from third parties, be alert for situations where the third party has a relationship with your client that might impair its objectivity. When the third party derives the fair value of a security by using modeling or similar techniques, the guidance in SAS No. 73, *Using the Work of a Specialist* (AICPA, *Professional Standards*, vol. 1, AU sec. 336), usually is applicable. The guidance in SAS No. 70, *Reports on the Processing of Transactions by Service Organizations* (AICPA, *Professional Standards*, vol. 1, AU sec. 324), may also be appropriate if the pricing service extracts market quotes from other sources and prices the investments based on that information.
- *Client modeling.* When the client uses their own valuation model to estimate fair value, treat it like any other determination of soft accounting information. Assess the reasonableness of the model and the support for the assumptions. Consider involving a specialist if you think you don't possess the necessary expertise. Investments in debt securities are often collateralized by real estate, negotiable securities, or other property. If collateral is an important factor in evaluating fair value and collectibility of an investment, you should obtain evidence regarding the existence, transferability, and fair value of that collateral.

The material included in this section is presented for illustrative purposes only. The illustrative audit objectives and illustrative audit procedures are neither all-inclusive nor are they prescribed minimums. The illustrative audit procedures are numbered merely to organize the materials; those numbers are not intended to imply completeness or a prescribed sequence. The nature, extent and timing of the auditing procedures to be applied on a particular engagement are a matter of professional judgment to be determined by the auditor based on the specific facts and circumstances.

Ref.**V. Trade Accounts and Notes Receivable****Financial Statement Assertions:**

1. Existence or occurrence.
2. Completeness.
3. Rights and obligations.
4. Valuation or allocation.
5. Presentation and disclosure.

**Objectives:**

- A. Existence of accounts receivable—To determine that the receivables exist, are authentic obligations owed to the entity, contain no significant amounts that should be written off, and that allowances for doubtful accounts are adequate and not excessive. (Assertions 1, 3, and 4)
- B. Proper disclosure—To determine that proper disclosure is made of any pledged, discounted or assigned receivables. (Assertions 3 and 5)
- C. Revenue recognition—To determine that interest on accounts and notes receivable has been properly recorded. (Assertions 2, 3, and 4)
- D. GAAP conformity—To determine that presentation and disclosure of receivables is in conformity with generally accepted accounting principles consistently applied. (Assertion 5)

---

**Note:** The letters preceding each of the above audit objectives serve as identification codes. These codes are presented in the objective column when the audit step accomplishes the specific objective. If the letter appears in brackets, i.e., [A], [B], etc., the audit procedure only secondarily accomplishes the objective.

---

**Procedures:****A. Preliminary Procedures**

1. Review the results of applicable sections of the following to determine the nature, timing, and extent of procedures:
  - a. Preliminary analytical review

\_\_\_\_\_

[The next page is 5445.]

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
b. Internal control documentation and test results	_____	_____	_____
c. Assessment of risk of material misstatement (due to error, fraud, illegal acts, or other factors)	_____	_____	_____
d. Other planning documents and risk assessments	_____	_____	_____
2. Based on the risk assessment made during planning (including the risk of material misstatement due to error or fraud), determine whether additional procedures, beyond those included in this program, are necessary. Consult all relevant planning documents (e.g., Fraud Risk Factor Memory Jogger [AAM section 3165.12]) when making this decision. If additional procedures are necessary, add them to this program.	_____	_____	_____
<b>[A] B. Substantive Analytical Procedures</b>			
<b>[B] [C] [D] 1. Compare receivable account balances with preceding year's balances (or expected balances) and investigate any significant deviations from the expected balances.</b>			
2. Analyze the relationship of receivables and sales (day's sales in accounts receivable) and compare with relationships for the preceding period(s). Investigate results as deemed necessary.	_____	_____	_____
3. Compute the ratio of interest earned to the average notes receivable outstanding and compare with preceding year's ratio (or expected ratio). Investigate results as deemed necessary.	_____	_____	_____
4. Compare balances in allowance for doubtful accounts, bad debts, sales returns and allowances with the preceding year's balances (or expected balances). Investigate any significant deviations from the expected balances.	_____	_____	_____
5. Compute the following ratios and compare with the preceding year's ratios (or expected ratios). Investigate results as deemed necessary.			
a. Sales returns and allowances as a percentage of gross sales.	_____	_____	_____
b. Sales returns and allowances as a percentage of gross sales by product/service line.	_____	_____	_____
c. Bad debts expense as a percentage of gross sales.	_____	_____	_____
d. Allowance for doubtful accounts as a percentage of trade accounts receivable.	_____	_____	_____
e. Aging categories as a percentage of total accounts receivable compared to prior year's.	_____	_____	_____
<b>C. Detailed Tests</b>			
<b>[A] 1. Review activity in the general ledger control accounts for trade accounts receivable for the period being audited and:</b>			
a. Note and investigate any significant entries which appear unusual in amount or source.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	b. Compare the opening balance for the period with the final closing balances per the working papers and reports for the preceding period.	_____	_____	_____
[A]	2. Obtain or prepare an aged trial balance of trade receivables as of the date selected for confirmation procedures. (Note: In some situations, it may not be practicable to obtain an aged trial balance until after the mailing of confirmation requests, especially when confirmation procedures are coordinated with the client's regular billing cycle. In such instances obtain a trial balance (which may be an annotated tape) of trade receivables as of the confirmation date.) Perform the following:			
	a. Test the clerical accuracy of the trial balance.	_____	_____	_____
	b. Reconcile the total per the aged trial balance to the general ledger control account and, if as of the balance-sheet date, to the lead schedule or working trial balance.	_____	_____	_____
	<b>Note:</b> When the aged trial balance and the general ledger do not agree, a monthly accounts receivable reconciliation between the two reports is an essential internal control feature.			
	c. On a test basis, trace entries for individual customers on the aging analysis (totals and aging detail) to the individual accounts in the accounts receivable subsidiary ledger and select individual accounts from the subsidiary ledger and trace totals and aging detail to the aged trial balance. Test footings of individual customer accounts in the subsidiary ledger.	_____	_____	_____
[A]	3. Select individual customer accounts for confirmation procedures from the aged trial balance (or trial balance) and arrange for the preparation of confirmation requests to be mailed under the auditor's control and tested as follows:			
	a. Positive requests on individually significant accounts with balances in excess of \$ ____.	_____	_____	_____
	b. Positive requests on accounts from the sampling population as follows:			
	_____			
	_____			
	_____			
	_____			
	_____	_____	_____	_____
	<b>Note:</b> Due to risk assessment and planning decisions, confirmation of receivables may not be part of the audit approach. If so, complete alternative procedures as described in this program.			
	c. Trace individual confirmation requests as to balances and addresses to the subsidiary accounts receivable records. Send confirmations (using envelopes with the auditor's return address) and prepare confirmation statistics.	_____	_____	_____

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
d. If client requests that any accounts be excluded from the confirmation process, obtain explanations and determine if such a restriction will have a significant affect on your ability to meet the audit objectives. (Consider reviewing such records as correspondence files to substantiate the explanation.) Perform appropriate alternative procedures with respect to the amounts.	_____	_____	_____
e. Trace confirmation replies to the trial balance and investigate and reconcile replies with differences.	_____	_____	_____
<b>Note:</b> The auditor may prepare a control of exceptions such as copies of replies or a list and arrange for the client's staff to investigate the differences and accumulate supporting documentation for the auditor's review. Be alert to explanations that may be evidence of overall conditions affecting the financial statements. Follow up on such conditions.			
f. Obtain new addresses for all confirmations returned by the post office and remail.	_____	_____	_____
g. Send second requests for all unanswered positive confirmation requests. Consider sending third requests by registered or certified mail, and performing alternative auditing procedures.	_____	_____	_____
h. Perform alternative auditing procedures for unanswered positive confirmation requests.	_____	_____	_____

#### Practice Tip

Be alert to large credits claimed by customers (especially close to the balance-sheet date). These credits may represent goods which were never shipped.

[A]	4. For positive confirmation requests to which no reply was received, accounts which declined to provide confirmation information and accounts which the client requested not be confirmed:			
	a. Test balances subsequently paid to remittance advices which identify the specific invoices paid.	_____	_____	_____
	b. For balances on which no payment has yet been received, examine customer's purchase orders, related invoices and shipping documents.	_____	_____	_____
	c. Establish the existence of the customer by reference to such sources as Dun and Bradstreet Reference Book.	_____	_____	_____
[A]	5. If accounts receivable were confirmed as of a date other than the balance-sheet date, obtain an analysis of transactions between the confirmation and balance-sheet dates, trace amounts to books of original entry, and review the analysis and books for significant unusual entries.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	6. Summarize the results of the confirmation procedures.	_____	_____	_____
A B C	7. Obtain or prepare an analysis of notes receivable including the following information:			
	a. Maker	_____	_____	_____
	b. Date made/date due	_____	_____	_____
	c. Original terms of repayment	_____	_____	_____
	d. Collateral, if any	_____	_____	_____
	e. Interest rate	_____	_____	_____
	f. Balance at the end of last period	_____	_____	_____
	g. Principal—additions, payments	_____	_____	_____
	h. Interest income—at the end of the preceding period, earned during the current period, received during the current period, and accrued at the end of the current period.	_____	_____	_____
A B C	8. Foot schedule and trace totals to applicable general ledger accounts.	_____	_____	_____
A B C	9. Physically inspect all notes in possession of the client.	_____	_____	_____
A B C	10. As deemed necessary, request positive confirmation of the terms and balances of notes with makers (as of the balance-sheet date or other date). Investigate any differences.	_____	_____	_____
A B C	11. Confirm notes out for collection with collection agents as deemed necessary.	_____	_____	_____
A B C	12. Examine evidence of periodic or subsequent payments on notes not responding to confirmation requests.	_____	_____	_____
A B C	13. Reconcile any confirmation exceptions received.	_____	_____	_____
A B C	14. Inspect notes for collateral, if any, making sure that items were not included in corresponding asset accounts of the company.	_____	_____	_____
A B C	15. Recompute interest income, accrued interest and unearned discount; trace interest collections, if any, to the cash receipts journal. Ascertain that computations of interest and recognition of interest income is in conformity with APB Opinion No. 21. (AC I69)	_____	_____	_____
A B [D]	16. Ascertain whether any accounts or notes have been assigned, pledged, guaranteed, sold or discounted by reference to minutes, review of agreements, confirmation with banks, etc.	_____	_____	_____
A [D]	17. Ascertain whether any accounts or notes receivable are owed by employees or related parties such as officers, directors, shareholders and affiliates, and:			
	a. Obtain an understanding of the business purpose for the transactions which resulted in balances.	_____	_____	_____

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
b. Ascertain that transactions were properly authorized.	_____	_____	_____
c. Obtain positive confirmations of the balances (as the balance-sheet date or some other date) except for intercompany accounts with affiliated companies which the firm is concurrently examining.	_____	_____	_____
d. Determine if any notes repaid prior to the balance-sheet date have since been renewed.	_____	_____	_____
A B C [D] 18. Obtain or prepare an analysis of the allowance for doubtful accounts for the period, and:			
a. Review accounts written off during the period and determine that significant write-offs have been properly authorized. Examine supporting documentation, including correspondence with the customer. (Such correspondence may indicate a broader problem.)	_____	_____	_____
b. Review adequacy of the allowance and related provision:			
(1) Review the aged trial balance as of the balance-sheet date with the client's credit manager or other responsible individual to identify accounts of a doubtful nature and allowances required; review correspondence files and other relevant data in support of client's representations. Items reviewed should include past due amounts and significant amounts whether or not past due.	_____	_____	_____
(2) Examine credit reports for delinquent and large accounts.	_____	_____	_____
(3) Review confirmation exceptions for indication of amounts in dispute.	_____	_____	_____
(4) Consider whether accounts receivable that have been connected to notes receivable pose any unusual credit risk.	_____	_____	_____
c. Identify differences, if any, between the book and tax basis for the allowance for doubtful accounts and related expense provision; summarize information required for determining income taxes currently payable and deferred.	_____	_____	_____
d. Review revenue, receivable and cash receipts transactions after the balance-sheet date including discounts taken, credits allowed, and write-offs for unusual transactions (especially concerning past-due balances and large accounts).	_____	_____	_____
A 19. Summarize the results of the procedures above and evaluate the adequacy of the allowance for doubtful accounts.	_____	_____	_____
D 20. Determine that accounts and notes receivable have been properly classified between current and noncurrent.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
D	21. Determine that the following are properly presented and/or disclosed in the financial statements:			
	a. Related party receivables.	_____	_____	_____
	b. Significant credit balances that should be reclassified.	_____	_____	_____
A C	22. To determine if receivables are recorded in the proper period, test the sales cutoff as follows:			
	a. Trace _____ entries in the sales journal for _____ days before and after the balance-sheet date to shipping documents. Based on the information provided by the shipping documents, determine whether the sales/receivables were recorded in the proper period.	_____	_____	_____
	b. Trace _____ shipping documents for _____ days before and after the balance-sheet date to the sales journal. Based on the information provided by the shipping documents, determine whether the sales/receivables were recorded in the proper period.	_____	_____	_____
D	23. In accordance with FASB Statement No. 107, <i>Disclosures about Fair Value of Financial Instruments</i> (AC F25), obtain information about the fair value of notes payable and long-term debt, and perform the following:			
	<u>Note:</u> Disclosures about the fair value of financial instruments prescribed in FASB Statement No. 107 are optional for nonpublic entities that meet certain criteria (see FASB Statement No. 126). Determine if the client is making FASB Statement No. 107 disclosures.			
	a. Determine that the fair value amounts are determined in accordance with FASB Statement No. 107 (AC F25).	_____	_____	_____
	b. Determine that the valuation principles are being consistently applied.	_____	_____	_____
	c. Determine that the fair value amounts are supported by the underlying documentation.	_____	_____	_____
	d. Determine that the method of estimation and significant assumptions used are properly disclosed.	_____	_____	_____

#### Practice Tip

Normally, the carrying amount of receivables will approximate their fair values. However, factors such as extended payment terms, creditworthiness, and interest rates significantly different from market rates may lead to situations where the carrying amount of the receivables does not approximate their fair value. See FASB Statement No. 107 (AC F25) and Auditing Interpretation No. 1 of SAS No. 57, *Auditing Accounting Estimates*, titled "Performance and Reporting Guidance Related to Fair Value Disclosures (AU section 9342.01-.10)," for further guidance.

| A | 24. For accounts and notes receivable with terms exceeding one year, if it is probable that all of the amounts due will not be collected |
|---|--|

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
according to their contractual terms, determine that impairment of those receivables has been measured by one of the following methods:			
a. The present value of expected future cash flows discounted at the loan's effective interest rate.	_____	_____	_____
Or			
b. The receivable's observable market price.	_____	_____	_____
Or			
c. The fair value of the collateral if the receivable is collateral dependent.	_____	_____	_____
<hr/>			
<i>Note:</i> See FASB Statement No. 114, <i>Accounting by Creditors for Impairment of a Loan</i> , and FASB Statement No. 118, <i>Accounting by Creditors for Impairment of a Loan—Income Recognition and Disclosures</i> (AC 108), for further guidance.			
<hr/>			

#### D. Receivables Sold (Transferred) With Recourse

1. Determine that the proceeds received from the transfer of receivables with recourse have been recognized as a sale, if all of the following conditions are met:
  - a. The receivables have been isolated from the transferor—put presumptively beyond the reach of the transferor and its creditors, even in bankruptcy or other receivership.
  - b. Each transferee has either obtained the right, free of conditions that constrain it from taking advantage of that right, to pledge or exchange the transferred assets, or the transferee is a qualifying special-purpose entity and the holders of beneficial interests in that entity have the right, free of conditions that constrain them from taking advantage of that right, to pledge or exchange those interests.
  - c. The transferor does not maintain effective control over the transferred assets through either an agreement that both entitles and obligates the transferor to repurchase or redeem them before their maturity or an agreement that entitles the transferor to repurchase or redeem transferred assets that are not readily obtainable.
2. Determine that the proceeds received from the transfer of receivables with recourse that do not meet the aforementioned conditions of a sale have been accounted for as a secured borrowing with a pledge of collateral.
3. Upon completion of any transfer of financial assets, determine that the transferor has:
  - a. Continued to carry in its statement of financial position any retained interest in the transferred assets, including, if applicable, servicing assets, beneficial interests in assets trans-

- ferred to a qualifying special-purpose entity in a securitization, and retained undivided interests. \_\_\_\_\_
- b. Allocated the previous carrying amount between the assets sold, if any, and the retained interests, if any, based on their relative fair values at the date of transfer. \_\_\_\_\_
4. Upon completion of a transfer of assets that satisfies the conditions to be accounted for as a sale (see step 1 above), determine that the transferor has:
- a. Derecognized all assets sold. \_\_\_\_\_
- b. Recognized all assets obtained and liabilities incurred in consideration as proceeds of the sale, including cash, put or call options held or written (e.g., guarantee or recourse obligations), forward commitments (e.g., commitments to deliver additional receivables during the revolving periods of some securitizations), swaps (e.g., provisions that convert interest rates from fixed to variable), and servicing liabilities, if applicable. \_\_\_\_\_
- c. Initially measured at fair value assets obtained and liabilities incurred in a sale or, if it is not practicable to estimate the fair value of an asset or a liability, applied alternative measures. \_\_\_\_\_
- d. Recognized in earnings any gain or loss on the sale. \_\_\_\_\_

E. Additional Procedures (if any)

F. Section Completion

1. Based on the initial planning conclusions, on the results of the audit procedures performed, and upon the assessed level of risk for receivables, determine whether additional procedures need to be performed to obtain sufficient evidence regarding the financial statement assertions for receivables. \_\_\_\_\_
2. The objectives of this audit program have been met. \_\_\_\_\_

This audit program section has been completed in accordance with firm policy.

Done by \_\_\_\_\_

Reviewed by \_\_\_\_\_

The material included in this section is presented for illustrative purposes only. The illustrative audit objectives and illustrative audit procedures are neither all-inclusive nor are they prescribed minimums. The illustrative audit procedures are numbered merely to organize the materials; those numbers are not intended to imply completeness or a prescribed sequence. The nature, extent and timing of the auditing procedures to be applied on a particular engagement are a matter of professional judgment to be determined by the auditor based on the specific facts and circumstances.

Ref.**VI. Inventories****Financial Statement Assertions:**

1. Existence or occurrence.
2. Completeness.
3. Rights and obligations.
4. Valuation or allocation.
5. Presentation and disclosure.

**Objectives:**

- A. Inventory exists—To determine that the inventory exists and is the client's property. (Assertions 1 and 3)
- B. Quantity and condition—To determine that the client has taken reasonable care in determining the physical quantities and identifying the condition (normal, slow moving, obsolete) of its inventory. (Assertions 2 and 4)
- C. Clerical accuracy—To determine that the inventories are summarized and priced with clerical accuracy, and the records have been adjusted to the physical inventory. (Assertions 2 and 4)
- D. GAAP conformity—To determine that inventory classifications and carrying amounts are determined and presented in the financial statements in conformity with generally accepted accounting principles consistently applied (for example, assumptions about the cost flow, such as FIFO and LIFO, and lower of cost or market considerations). (Assertion 5)
- E. Encumbrances identified—To determine that any encumbrances such as pledges or liens are identified and adequately disclosed in the financial statements. (Assertion 3, 4, and 5)

---

**Note:** The letters preceding each of the above audit objectives serve as identification codes. These codes are presented in the objective column when the audit step accomplishes the specific objective. If the letter appears in brackets, i.e., [A], [B], etc., the audit procedure only secondarily accomplishes the objective.

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
<b>Procedures:</b>			
<b>A. Preliminary Procedures</b>			
1. Review the results of applicable sections of the following to determine the nature, timing, and extent of procedures:			
a. Preliminary analytical review	_____	_____	_____
b. Internal control documentation and test results	_____	_____	_____
c. Assessment of risk of material misstatement (due to error, fraud, illegal acts, or other factors)	_____	_____	_____
d. Other planning documents and risk assessments	_____	_____	_____
2. Based on the risk assessment made during planning (including the risk of material misstatement due to error or fraud), determine whether additional procedures, beyond those included in this program, are necessary. Consult all relevant planning documents (e.g., Fraud Risk Factor Memory Jogger [AAM section 3165.12]) when making this decision. If additional procedures are necessary, add them to this program.	_____	_____	_____
<b>A B B. Substantive Analytical Procedures</b>			
<b>D</b>			
1. Compare inventory balances with preceding year's balances (or expected balances) and investigate any significant deviations from the expected balances.	_____	_____	_____
2. Compare inventory classifications (i.e., raw materials, work in process, finished goods) as a percentage of total inventory with the preceding year's percentages and investigate any significant fluctuations.	_____	_____	_____
3. Compute gross margin and compare with preceding year's (or expected) gross margin. Investigate any significant fluctuation.	_____	_____	_____
4. Compute gross margin by product line or division and compare with preceding year's (or expected) gross margins. Investigate any significant fluctuations.	_____	_____	_____
5. Compute inventory turnover and compare with preceding year's (or expected) turnover. Investigate any significant fluctuation.	_____	_____	_____
6. Compute inventory turnover by major product or division and compare with preceding year's (or expected) turnover. Investigate any significant fluctuations.	_____	_____	_____
<b>C. Detailed Tests—General</b>			
1. Identify the locations of the physical inventories and their relative materiality by location.	_____	_____	_____
2. Review the client's plans and instructions for taking the physical inventory and accumulating, pricing, and summarizing the results. Also review the client's plans for controlling tags and count sheets, identifying obsolete items, identifying and handling con-			

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
signed and customer's goods, and for controlling the movement of inventory during the count and controlling shipping and receiving during the count.	_____	_____	_____
3. Determine whether involvement of specialists is required. If a specialist is to be involved, review and evaluate the professional qualifications and reputation of the specialist; obtain an understanding of the nature of the work to be performed by the specialist.	_____	_____	_____
A B C D E 4. For significant amounts of inventory stored at outside locations, consider performing the following procedures:			
a. Review and test the owner's control procedures for investigating the warehouseman and evaluating the warehouseman's performance.	_____	_____	_____
b. Obtain an independent auditor's report on the warehouseman's system of internal accounting control relevant to custody of goods and, if applicable, pledging of receipts, or apply alternative procedures at the warehouse to gain reasonable assurance that the information received from the warehouseman is reliable.	_____	_____	_____
c. Observe physical counts of the goods, if practicable and reasonable.	_____	_____	_____
d. If warehouse receipts have been pledged as collateral, confirm with lenders pertinent details of the pledged receipts (on a test basis, if appropriate).	_____	_____	_____
e. Confirm goods out on consignment or at outside warehouses.	_____	_____	_____
[B] [C] [D] [E] 5. Discuss with the client and assess the impact of any changes in accounting policies regarding inventory, such as the manner in which costs are accumulated and the pricing methods used.	_____	_____	_____

#### D. Before Observation of the Physical Inventory

**Note:** Some auditing procedures may serve to accomplish the purpose of both tests of controls and substantive tests. Certain steps that are listed here as illustrative substantive tests are also listed among illustrative tests of controls for inventory. They are listed as tests of controls because they may serve to clarify and confirm the auditor's understanding of internal control for inventory and cost of sales.

1. Tour the client's manufacturing or production facilities with a member of the client's organization familiar with production.	_____	_____	_____
A B [D] 2. On a test basis, select transactions for additions and deletions of inventory from such sources as receiving reports, requisitions to place materials into production, and shipping advices. Note the reference or control number, date, description, quantity, and dollar amount for each transaction selected. Trace the transactions to the perpetual inventory record and the cost accounting records, if any, used to determine unit or job costs. Perform simi-			

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	lar tests selecting the transactions from the perpetual inventory records and/or cost accounting records and trace the transactions to receiving reports, requisitions, and shipping advices.	_____	_____	_____
	<b>Note:</b> This test may be coordinated with tests of controls for purchases, payables, and disbursements, and for revenues, receivables, and receipts.			
D	3. Obtain an analysis of overhead costs charged to inventories and over- and under-absorbed overhead. Review the amounts included in the overhead pool for propriety and perform the following:			
	a. Determine that overhead costs are being charged to inventory in accordance with an appropriate policy (for example, as a percent of direct labor).	_____	_____	_____
	b. Identify disposition of variances, if any, between actual overhead costs incurred and overhead costs applied to production and inventory. Determine that variances are reasonable. Determine that no excessive costs for idle plant are being charged to inventory.	_____	_____	_____
C D	4. If a job order cost system is used, obtain the job order ledger (or tabulation), select a period(s) and perform the following:			
	a. Trace total costs incurred to the voucher register (or cash disbursements journal), the payroll distribution, and support for overhead applied.	_____	_____	_____
	b. Test the footings of the job order ledger by refooting the detail for selected subtotals and refooting the subtotals.	_____	_____	_____
	c. Select _____ job orders for jobs in process and completed jobs and perform the following:			
	(1) Examine authorization for the job order.	_____	_____	_____
	(2) Trace materials used on a test basis at various times since inception of the job order to such supporting details as requisitions, purchase orders, receiving reports, and processed invoices. (Consider coordination with tests of controls for purchases.)	_____	_____	_____
	(3) Trace direct labor costs to account distributions of the payroll registers and on a test basis to individual time reports or time cards. (Consider coordination with tests of controls for payroll.)	_____	_____	_____
	(4) Trace application of overhead costs to analyses used to accumulate overhead costs; test computations and review for reasonableness.	_____	_____	_____
	(5) Identify the status of the job (work in process, finished goods, or goods shipped) and trace through necessary			

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	summarization to the applicable general ledger account. Obtain explanation for any unreasonable time lag between completion and shipping dates for job orders performed for specific customers.	_____	_____	_____
C D	5. For process cost systems, obtain the cost of production reports for each department within the production process for a selected period(s) and: <ul style="list-style-type: none"> <li>a. Trace quantities and dollar amounts for units received for selected departments to the quantities and dollar amount transferred out per the preceding department in the sequence of production.</li> <li>b. For each selected department, review the computations of total and unit costs for production transferred to the next department; on a test basis recompute unit costs and ascertain that costs for units lost in process are properly reallocated to surviving units.</li> <li>c. Trace material costs charged to the selected departments to appropriate journals and on a test basis to individual requisitions.</li> <li>d. Trace labor costs incurred to account distribution analyses of the payroll registers.</li> <li>e. Review the allocation of overhead.</li> </ul>	_____	_____	_____
	<b>E. Observation of the Physical Inventory</b>			
	1. Tour the premises on arrival and ascertain whether the inventory arrangement is conducive to a satisfactory count; if the arrangement appears obviously unsatisfactory, recommend rearrangement.	_____	_____	_____
A	2. Ascertain that items on hand which are not the property of the client are clearly identified, segregated, and excluded from the count. Note such references as descriptions, quantities, serial numbers, and shipping advice numbers so that in subsequent tests of inventory summarization the auditor may determine whether the items were excluded from the physical count.	_____	_____	_____
[A]	3. Visit the shipping and receiving departments and record the control numbers for the last shipping advice and receiving report prepared prior to the physical count for subsequent tracing to accounting department records. Consider recording a few additional shipping advice and receiving report numbers for subsequent tracing.	_____	_____	_____
A B	4. Ascertain that receiving and shipping departments are informed that receipts after and shipments before the inventory cut-off are to be excluded from the count. Ascertain that receiving reports for items not included in the count are prominently marked "after inventory."	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
B	5. Observe and note client's provision for segregation and/or clear identification of slow-moving, obsolete and/or damaged items; also be alert for such items among regular stock and if present, bring to the client's attention and note for subsequent consideration.	_____	_____	_____
[A] [B]	6. Inspect representative items of inventory and ascertain the source of their identification, description, status (work in process, finished goods, etc.), basis for count or measure (volume, weight, item tally, etc.). Inquire of both production personnel and personnel involved in the count about such items.	_____	_____	_____
[A] [B]	7. Observe and ascertain that the client's inventory instructions and procedures are being followed.	_____	_____	_____
[A] [B]	8. Ascertain that prenumbered inventory tickets on count sheets are properly controlled including:			
	a. Accounting for all tickets or sheets issued to count personnel.	_____	_____	_____
	b. Accounting for return of all tickets or sheets issued including those unused and spoiled as well as those used, at completion of the inventory.	_____	_____	_____
	c. Note series of tickets or count sheet numbers used and those unused or spoiled for subsequent tracing in tests of summarization.	_____	_____	_____
[A] [B]	9. Observe the count process and make test counts ascertaining that the identifications, descriptions, and quantities are being properly noted on the inventory tickets or count sheets. If inventory count sheets are used, select some items from the floor, make test counts and trace them to the sheets; select some entries from the sheets (include some items of greater dollar value) and trace them to items on the floor.	_____	_____	_____
[C]	10. Prepare a worksheet listing some items (include some items of greater dollar value) test counted, for subsequent tracing into the client's inventory summarization. Include on the worksheet for each item the inventory ticket or count sheet number, location, description, quantity per client, quantity per your test count, and other particulars essential for subsequent tracing to the inventory summarization. Bring test count differences to the client's attention during the count so they may be resolved in a timely manner. If test count differences are not isolated, it may be necessary to request a recount of a particular area or department.	_____	_____	_____
B C	11. Observe that all items of inventory are clearly ticketed or marked when counted to avoid omissions and/or duplications of counts.	_____	_____	_____
B C	12. Observe whether any items are not being counted and obtain an adequate explanation for their omission.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
A B	13. Note any movement of inventory during the count; obtain an explanation for the movement and record details from the applicable authorizing documents for consideration in review of the cut off.	_____	_____	_____
	14. Prepare a memorandum on the observation of the physical inventory including:			
	a. Comment on the physical inventory arrangements.	_____	_____	_____
	b. Implementation of the client's inventory instructions.	_____	_____	_____
<b>F. Summarization—Physical Quantities</b>				
A B C	1. Relate and trace information, noted during observations of the physical, about control number for count tickets or count sheets used, to the client's summarization of the physical for reasonable assurance that only tickets or sheets used for the physical are included in the summarization of quantities. (Summarization of quantities may consist of the quantities per the final priced inventory or an intermediate tabulation of count tickets. In some instances the original count sheets may provide for entry of prices, extensions, and summarization of dollar amounts.)	_____	_____	_____
B C	2. Trace test counts noted during the physical to the client's summarization of quantities.	_____	_____	_____
A	3. Trace quantities confirmed by third parties to the summarization of quantities.	_____	_____	_____
B C	4. Depending on the extent of the work in step 2 above and on internal control over inventory summarization, select quantities for particular items from the summarization and trace them to the count tickets or count sheets; select quantities for particular items from the count tickets or sheets and trace them to the summarization of quantities.	_____	_____	_____
A B C	5. If the client uses perpetual inventory records and the perpetuals are to be used to determine the year-end balance, trace items on a test basis to and from the physical inventory summaries; ascertain that the perpetuals were adjusted to the physical.	_____	_____	_____
B C	6. Trace notes made at the observation for slow moving, obsolete, and/or damaged items to the client's summarization of quantities and determine if they are clearly identified as such.	_____	_____	_____
B C	7. Test the cut-off information noted at the observation of the physical inventory as follows:			
	a. Select the last few shipping advices used before the count to the sales register; determine that the shipments were recorded as sales and charges to cost of sales as the dates shipped.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	b. Select a few shipping advices used after the count to the sales register and determine that the shipments were recorded as sales in the period after the date of the inventory.	_____	_____	_____
	c. Select the last few receiving reports used before the count and determine that the related liability was recorded prior to or as of the count date.	_____	_____	_____
B C	8. If the client uses a process cost system, trace selected quantities per the physical inventory to the departmental cost of production reports and determine that quantities have been adjusted to the physical inventory as of the date of the physical count.	_____	_____	_____

### G. Prices and Summarization—Monetary Units

**Note:** Judgment should be used in determining which of the following steps should be used when testing the cost of inventory. Depending on the system used by the client to assign costs to their inventory items, certain steps may not be applicable.

D	1. Ascertain the methods followed concerning the flow of costs (FIFO, LIFO, moving average, etc.) and compare with working papers of the preceding year to ascertain whether the methods have been consistently applied.	_____	_____	_____
CD	2. Determine client's pricing method for raw materials and purchased finished goods per the final inventory summary and make a selection of items for price testing from the sampling population as follows: _____ _____ _____	_____	_____	_____
CD	3. Compare prices to vendor invoices or price lists. If client uses LIFO method, additional procedures for testing base prices and computations should be designed and performed. Determine that the method is consistent.	_____	_____	_____
CD	4. Perform price tests for all individually significant items of raw materials and purchased finished goods that were included in test counts.	_____	_____	_____
CD	5. Determine client's pricing method for work-in-process and finished goods per the final inventory summary and make a selection of items for price testing from the sampling population as follows: _____ _____ _____	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
C D	6. Trace unit costs of work-in-process and finished goods to the cost accounting records and perform the following:			
	<p><b>Note:</b> Cost accounting records will differ depending upon the cost accounting system (e.g., process cost system, job order system, etc.). For the finished good item or work-in-process item selected for testing, cost accounting records should be obtained which present the various costs associated with the item selected.</p>			
	a. Agree raw material quantities used in producing the finished goods or work-in-process items to supporting documents, such as bills of material.	_____	_____	_____
	b. Agree the cost of raw materials used in producing the finished goods or work-in-process items to vendor invoices and the final inventory summary.	_____	_____	_____
	c. Agree labor used in producing the finished goods or work-in-process items to supporting documents, such as time cards.	_____	_____	_____
	d. Agree labor rates to payroll records.	_____	_____	_____
	e. Recalculate the client's overhead rate and ascertain the reasonableness of the assumptions and methods used.	_____	_____	_____
	f. Obtain and review trial balances or tabulations of detailed components of production costs incurred for the year (period) and compare with the equivalent for the preceding year (period).	_____	_____	_____
	(1) Obtain and note explanations for apparent inconsistencies in classification and significant fluctuations in amounts.	_____	_____	_____
	(2) Ascertain that the cost classifications accumulated as production costs and absorbed in inventory are in conformity with generally accepted accounting principles.	_____	_____	_____
	g. Review activity in the general ledger control accounts for raw materials, supplies, work in process, and finished goods inventories; investigate any significant unusual entries or fluctuations.	_____	_____	_____
	h. Review labor and overhead allocations to inventory and cost of sales; compare to actual labor and overhead costs incurred and ascertain that variances appear reasonable in amount and have been properly accounted for.	_____	_____	_____
C	7. Perform the following tests for clerical accuracy of the final summarized inventory:			
	a. Recompute extensions of quantities and unit costs on a test basis.	_____	_____	_____
	b. Refoot accumulation of dollar subtotals on a test basis.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	c. Refoot dollar subtotals to test total dollar amounts per the physical inventory listing for the major classifications (i.e., raw materials, work in process, finished goods, supplies, etc.).	_____	_____	_____
	d. Review the inventory listings for significant quantities and amounts that appear unusual.	_____	_____	_____
	e. Ascertain that the general ledger control accounts have been adjusted to include the findings of the physical inventory. (This may consist of tracing the totals per the physical to an analysis which supports journal entries, or an involved trail of tracing through the cost accounting records to the general ledger control accounts.)	_____	_____	_____
C	8. Review the pricing, extensions, and summarization of the physical inventory summary for items identified as slow-moving, damaged, and/or obsolete to ascertain that the items are carried at dollar amounts in conformity with the lower of cost or market principle:			
	a. Examine documentation for the proceeds of recent scrap or salvage sales.	_____	_____	_____
	b. Review client's criteria for considering items as slow-moving or obsolete and evaluate whether criteria appear reasonable and realistic. (For example, are a certain number of months used to determine when an item becomes slow-moving? Are predetermined quantities used to determine that quantities on hand are not in excess of reasonable economic need?)	_____	_____	_____
	<b>H. Lower of Cost or Market Considerations</b>			
B D	1. Determine whether adequate allowances have been recorded for obsolete and slow-moving inventory.	_____	_____	_____
C	2. On a test basis select items of raw materials and purchased finished goods inventory including some items with relatively significant carrying amounts (because of high unit costs or large quantities on hand) and:			
	a. Compare the inventory unit prices with prices per recent (prior to year end) vendors' invoices, vendor quotations, vendor price lists, and published market quotations.	_____	_____	_____
	b. Review purchase records and production requisitions for indications of whether items may be on hand in excess quantities, slow moving, or obsolete.	_____	_____	_____
[A] [B] C	3. On a test basis select items or classifications of finished goods and work-in-process inventories including some items with relatively significant carrying amounts (because of high unit costs or large quantities on hand) and:			
	a. Review and note current selling prices and quantities sold for the items or classifications by reference to recent sales in-			

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	voices, customer orders, and published market quotations, and supplementary discussion with the client's marketing and sales executives.	_____	_____	_____
	b. Compare inventory carrying amounts and recent selling prices for the selected finished goods items or classifications noted in terms of current relationships of sales to gross profit, selling and shipping expenses; ascertain that the carrying amounts of the selected finished goods items are not in excess of net realizable value.	_____	_____	_____
	c. For the selected work-in-process items, ascertain their stage of completion and estimated cost to complete by reference to the cost accounting records, production reports, and inquiry of the client's production supervisors. Apply the estimated costs to complete to the selected work-in-process items and apply steps <i>a.</i> and <i>b.</i> above.	_____	_____	_____
	d. Compare quantities on hand for selected items with quantities noted per recent sales invoices and customer orders; be alert that quantities on hand are not in excess of the client's requirements.	_____	_____	_____
B D	4. Review the prior year working papers on obsolete inventory and compare to the current year's inventory summary and obsolete inventory listing. Determine the reasonableness of any changes in prior year valuations.	_____	_____	_____
B D	5. Based on the procedures performed, determine the results of the audit procedures as they relate to the inventory valuation.	_____	_____	_____
<b>I. Other</b>				
[A]	1. If the physical count was not taken as of the balance-sheet date, analyze and reconcile the balance per the physically counted inventory to inventory per the balance sheet:			
	a. Review and analyze the general ledger control accounts for inventory from the date counted to the balance-sheet date; trace additions to such sources as the purchase journal or voucher register, the cost accounting records, and charges to cost of sales.	_____	_____	_____
	b. Compare the current activity between the count date and balance-sheet date to activity of the equivalent period in the preceding year. Investigate unusual fluctuations.	_____	_____	_____
E	2. Determine whether any inventory is pledged as collateral or subject to any liens; coordinate with work on debt payable.	_____	_____	_____
D	3. Inspect open purchase order file at the balance-sheet date for significant commitments that should be considered for disclosure.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
D	4. Determine that any intercompany or interdepartmental profit in inventory is eliminated in consolidation.	_____	_____	_____

## VII. Property, Plant, and Equipment, and Related Depreciation

### Financial Statement Assertions:

1. Existence or occurrence.
2. Completeness.
3. Rights and obligations.
4. Valuation or allocation.
5. Presentation and disclosure.

### Objectives:

- A. Property exists—To determine that the property exists and is owned by the entity. (Assertion 1)
- B. Additions appropriate—To determine that additions to property are authentic, recorded at cost, and properly distinguished from maintenance and repairs expense. (Assertions 1, 2, and 3)
- C. Retirements recorded—To determine that retirements of property together with the proceeds from salvage and related cost to remove are properly recognized. (Assertions 1, 2, and 4)
- D. Depreciation appropriate—To determine that a proper amount of depreciation expense is allocated to the period based on the asset cost, estimated life and salvage, and use of acceptable methods consistently applied, and adequately presented in the financial statements. (Assertions 4 and 5)
- E. Recoverable value—To determine that the net carrying value as presented in the financial statements is expected to be recoverable through the ordinary course of business. (Assertion 4)
- F. Encumbrances identified—To determine that any encumbrances and liens are identified and adequately disclosed in the financial statements. (Assertion 5)
- G. Proper classification—To determine that significant amounts of idle property, plant, and equipment are properly stated, classified and described. (Assertion 5)
- H. Proper disclosure—To determine that significant amounts of fully depreciated assets are considered for disclosure. (Assertion 5)

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
<p><b>Note:</b> The letters preceding each of the above audit objectives serve as identification codes. These codes are presented in the objective column when the audit step accomplishes the specific objective. If the letter appears in brackets, i.e. [A], [B], etc., the audit procedure only secondarily accomplishes the objective.</p>				
<b>Procedures:</b>				
<b>A. Preliminary Procedures</b>				
	1. Review the results of applicable sections of the following to determine the nature, timing, and extent of procedures:			
	a. Preliminary analytical review	_____	_____	_____
	b. Internal control documentation and test results	_____	_____	_____
	c. Assessment of risk of material misstatement (due to error, fraud, illegal acts, or other factors)	_____	_____	_____
	d. Other planning documents and risk assessments	_____	_____	_____
	2. Based on the risk assessment made during planning (including the risk of material misstatement due to error or fraud), determine whether additional procedures, beyond those included in this program, are necessary. Consult all relevant planning documents (e.g., Fraud Risk Factor Memory Jogger [AAM section 3165.12]) when making this decision. If additional procedures are necessary, add them to this program.	_____	_____	_____
<b>B. Substantive Analytical Procedures</b>				
A B C D E	1. Compare balances in fixed assets, capitalized leased assets, accumulated depreciation, accumulated amortization, depreciation, repairs and maintenance, rents, supplies, and similar expense accounts with prior year balances or expected balances. Investigate significant deviations from expected amounts.	_____	_____	_____
[A] [B] [C] [D] [E]	2. Compute the following ratios to help conclude upon the reasonableness of fixed asset balances. Investigate any unusual ratio results.	_____	_____	_____
	a. Fixed assets divided by total assets (indication of nonearning asset trend).	_____	_____	_____
	b. Fixed assets divided by equity (indication of funding source for fixed assets).	_____	_____	_____
<b>C. Detailed Tests</b>				
	1. Obtain (or update) an understanding of the client's policies concerning capitalization of assets and related depreciation methods and depreciable lives.	_____	_____	_____
	2. Consider a tour of the client's facilities for new staff assigned to the engagement, or for the entire audit team if significant changes have occurred.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	3. Consider the extent to which it may be practicable to perform substantive tests prior to the balance-sheet date.	_____	_____	_____
[A] [B] [C] [D]	4. Obtain or prepare the following schedules:			
	a. Summary schedule of property, plant and equipment, and related depreciation (by major asset classification) including the following:			
	(1) Beginning and ending asset balances at cost.	_____	_____	_____
	(2) Asset additions at cost.	_____	_____	_____
	(3) Asset retirements and dispositions.	_____	_____	_____
	(4) Other changes.	_____	_____	_____
	(5) Depreciation method and life.	_____	_____	_____
	(6) Beginning and ending balances of the allowances for depreciation.	_____	_____	_____
	(7) Additions to the allowances for depreciation accompanied by an analysis of amounts expensed, absorbed in inventory, and capitalized.	_____	_____	_____
	(8) Reductions of the allowances for depreciation for retirements and dispositions.	_____	_____	_____
	b. Additions at cost showing the description, date acquired, transaction reference (purchase order number, check number, work order number, etc.), estimated useful life, and cost for all additions of \$_____ or over.	_____	_____	_____
	c. Retirements and dispositions showing the description, date of acquisition, date of retirement or disposition, cost, accumulated depreciation, net carrying value, proceeds of disposition, and gain or loss on disposition.	_____	_____	_____
	d. Analysis of maintenance expense showing each transaction of \$_____ or greater (or all transactions) for the year or period.	_____	_____	_____
[A] [B] [C]	5. Trace opening balances per the summary schedules to closing balances per the prior year's working papers.	_____	_____	_____
B C	6. Trace amounts per the summary schedule to the general ledger, the detailed asset records, and to the schedules of additions, and retirements and dispositions; recompute the footings and cross-footings of the schedules.	_____	_____	_____
A B [C] F	7. Perform the following tests of selected additions:			
	a. Determine the addition has been authorized by reference to such sources as minutes of the meetings of the Board of Directors or Finance Committee and/or capital asset budgets reviewed by the Board of Directors or Finance Committee or by evidence of approval by appropriate, responsible personnel, in accordance with prescribed policies.	_____	_____	_____

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
b. Examine such supporting documents as purchase contracts, paid checks, vendors' invoices, purchase orders, receiving reports, work orders, engineers' reports, etc.	_____	_____	_____
c. Trace transactions to appropriate entries in the detailed records.	_____	_____	_____
d. For construction in progress examine supporting work orders, documentation in support of costs incurred such as contractors' invoices, reports and correspondence from engineers and/or architects regarding completion and trace transfers from the construction in progress accounts to other property accounts.	_____	_____	_____
e. Physically inspect selected (or all) major additions.	_____	_____	_____
f. Inquire about related dispositions.	_____	_____	_____
g. Determine whether additions conform with the company's capitalization policy.	_____	_____	_____
h. Determine that installment purchases, if any, are properly recorded.	_____	_____	_____
i. By reference to purchase contracts and contractors billings identify related liabilities to be recorded in connection with debt or other payables.	_____	_____	_____
j. Examine deeds and title insurance policies, as necessary.	_____	_____	_____
k. Review insurance policies, coinsurance clauses and coverage limits versus replacement costs, as necessary.	_____	_____	_____
l. Identify any indications of employees' involvement in ownership or sales interest in the asset. Ascertain the propriety of any identified employee involvement.	_____	_____	_____
A C [D] 8. Perform the following tests of dispositions:			
a. Determine disposition has been properly authorized.	_____	_____	_____
b. Examine such supporting documents as bills of sale, contracts, delivery memoranda, etc.	_____	_____	_____
c. Trace retirements to the detailed property records.	_____	_____	_____
d. Determine that deductions from the asset accounts and related accumulated depreciation are correct.	_____	_____	_____
e. Determine that gain or loss on disposition has been correctly classified and recorded.	_____	_____	_____
A C G H 9. For fully depreciated assets, determine whether the assets are still used and not retired from service. Determine whether disclosure in the financial statements is necessary.	_____	_____	_____
A C G H 10. Determine that assets retired from service, if material, have been removed from the property, plant, equipment accounts and related accumulated depreciation accounts, and are carried at amounts which are not in excess of realizable value.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
D [E]	11. Review provisions for depreciation and amortization, and:			
	a. Determine whether the methods and depreciable lives used in the current year are consistent with the preceding year and are reasonable.	_____	_____	_____
	b. Perform a reasonableness test of depreciation and amortization by using average rates and lives and one-half year for additions and disposals.	_____	_____	_____
	c. Test computations of depreciation and amortization. Consider deleting this step if step <i>b</i> results are acceptable.	_____	_____	_____
	d. Determine that amounts of depreciation capitalized in construction in progress are reasonable and appropriate.	_____	_____	_____
	e. Ascertain that obsolescence, if any, is being properly recognized by adjustments of depreciable lives.	_____	_____	_____
	f. Trace additions to the depreciation allowance to the applicable general ledger expense accounts.	_____	_____	_____
DEGH	12. Based on all of the procedures performed above, ascertain the reasonableness of the remaining useful lives of assets and ascertain the recoverability of the net carrying values of the client's fixed assets.	_____	_____	_____
B	13. Review maintenance and repairs expense, supplies, small tools and other appropriate accounts for any assets that should be capitalized.	_____	_____	_____
EH	14. Determine the investment credit and recapture on disposals. Summarize for tax return and provision computation.	_____	_____	_____
H	15. Determine the carrying amount of assets pledged on notes or other indebtedness for possible financial statement disclosure.	_____	_____	_____
H	16. Inquire as to any significant expansion plans and determine any need for disclosure.	_____	_____	_____
H	17. Review rental income and expense accounts to determine leased and subleased assets.	_____	_____	_____
ADEGH	18. In accordance with FASB Statement No. 121 (ACI08), if any events or changes in circumstances have occurred indicating that the carrying amount of a long-lived asset may not be recoverable:			
H	a. Determine if an impairment loss should be recognized. [An impairment loss should be recognized if the carrying amount of an asset exceeds estimated future cash flows (undiscounted and without interest charges).]	_____	_____	_____
	(1) Review the estimate of future cash flows for mathematical accuracy and, through discussion with management and review of any supporting documentation, determine whether assumptions used are reasonable.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	b. If an impairment loss should be recognized, test the calculation of the loss. [The impairment loss is measured as the amount by which the carrying amount of an asset exceeds its fair value.]	_____	_____	_____
	(1) Test the fair value calculation by vouching to quoted market prices in active markets or by reviewing the valuation technique used.	_____	_____	_____
	(2) If the fair value is based on the present value of estimated future cash flows, test for mathematical accuracy and ensure that the assumptions used in the present value calculation, including the discount rate, are reasonable.	_____	_____	_____
<b>D. Leases</b>				
A E	1. Review the permanent file to determine whether updated copies of lease agreements and other data of continuing application are included and that changes made during the year are appropriately noted.	_____	_____	_____
A B D F H	2. Examine new lease agreements and significant amendments to existing lease agreements to determine whether they are accounted for in accordance with the appropriate accounting standards (properly capitalized, appropriate depreciation, etc.), determine whether they are in accordance with established policies and procedures and document the conclusions in the permanent file.	_____	_____	_____
A F	3. Consider the advisability of obtaining from the lessor confirmation of compliance with restrictive covenants and other pertinent details of significant lease agreements.	_____	_____	_____

### Practice Tip

Items to be considered for leases:

- Facilities.
- Authorization and approval of terms.
- Parties.
- Location and description of premises.
- Period covered.
- Rentals.
- Contingent payments and escalator clauses.
- Payment of ownership expenses.
- Restrictions.
- Options and renewal provisions.
- Methods and terms of cancellation.
- Subleases.
- Nature and amount of related guarantees made or obligations assumed.
- Other contractual arrangements which have the economic characteristics of a lease.
- Investment tax credit.
- Criteria for lease capitalization as set forth in appropriate accounting standards.

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
A B C D E F G H	4. Obtain an analysis of capitalized lease obligations, including related lease rights and interest, and:			
	a. Compare beginning balances to prior period audit work papers.	_____	_____	_____
	b. Test the clerical accuracy of the analysis.	_____	_____	_____
	c. Compare balances to the general ledger accounts.	_____	_____	_____
	d. Review the general ledger accounts for the period, investigate unusual entries, and document the results of such investigation.	_____	_____	_____
	e. Examine the lease agreements to verify the terms used in the computations.	_____	_____	_____
	f. Test payments and examine other supporting data, where appropriate.	_____	_____	_____
	g. Test the computations of current maturities.	_____	_____	_____
	h. Determine whether the accounting method for lease cancellations has been applied in accordance with applicable accounting standards and that the method has been consistently applied.	_____	_____	_____
	i. Test new leases or significant changes to existing leases as follows:			
	(1) Determine whether the accounting method has been applied in accordance with GAAP and that the method has been consistently applied.	_____	_____	_____
	(2) Review the reasonableness of the interest rate used to discount the lease obligation. Consider the following:			
	(a) Interest rates implicit in the lease terms.	_____	_____	_____
	(b) Interest rates applicable to the financing of purchases of similar property by the lessee at the times of entering into the lease agreements.	_____	_____	_____
	(c) Fair value of the leased property as compared to the discounted amount of the lease obligation.	_____	_____	_____
	(3) Determine whether proper consideration was given to noncapitalizable costs (such as taxes, insurance, maintenance) in computing the amount of lease cost capitalized.	_____	_____	_____
	(4) Review the reasonableness of the method and period for amortization of capitalized lease rights.	_____	_____	_____
A B C D E F G H	5. Select work paper formats that will facilitate grouping information regarding operating leases that may require disclosure in the financial statements and:			
	a. Obtain the appropriate analyses above and proceed as follows:			
	(1) Compare pertinent information to the lease agreements.	_____	_____	_____
	(2) Test the clerical accuracy of the analyses.	_____	_____	_____

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
(3) Determine whether the calculations have been made in accordance with the lease agreements.	_____	_____	_____
(4) Compare prepaid and accrued rentals and rental expenses to the respective general ledger accounts.	_____	_____	_____
(5) Review the general ledger accounts for the period, investigate unusual entries and document the results of such investigation.	_____	_____	_____
(6) Test the computations of minimum rental commitments applicable to succeeding periods.	_____	_____	_____

#### Practice Tip

Refer to the applicable accounting standards for a description of disclosure information, such as, rental expenses, minimum future rental payments, noncancelable sublease rentals to be received in the future, contingent rentals, sublease rentals, and general description of leasing arrangements.

b. Review lease agreement covenants that relate to limitations and default provisions as follows:			
(1) Review the client's correspondence file for information related to leases, such as modifications, waivers and notification of significant events.	_____	_____	_____
(2) Review confirmation replies for notations of known matters of noncompliance.	_____	_____	_____
(3) Cross-reference factors entering into the computations and compute amounts.	_____	_____	_____
(4) If a default appears to exist with respect to any lease agreement, determine its effect on such agreement, other agreements, the financial statements and our report thereon.	_____	_____	_____
c. Gather and document information for financial statement disclosure and tax return preparation.	_____	_____	_____
d. Consider and compute any capitalized interest.	_____	_____	_____

#### Practice Tip

Consider preparing a schedule for inclusion in the permanent file that sets forth, by section and paragraph number, the limitations and each computation or item involved in the determination of whether the client is in compliance with lease covenants.

#### E. Additional Procedures (if any)

Ref.**VIII. Prepaid Expenses, Deferred Charges, Intangibles, and Other Assets****Financial Statement Assertions:**

1. Existence or occurrence.
2. Completeness.
3. Rights and obligations.
4. Valuation or allocation.
5. Presentation and disclosure.

**Objectives:**

- A. Properly recorded—To determine that the balances represent costs which are properly allocable to future periods in conformity with generally accepted accounting principles. (Assertions 1, 2, 3, and 4)
- B. Additions supported—To determine that additions are adequately supported. (Assertions 1, 2, 3, and 5)
- C. Amortization appropriate—To determine that amortization is determined by a rational and systematic method consistently applied. (Assertions 4 and 5)
- D. Impairment recognized—To determine that any permanent impairment of balance is recognized by write-downs charged to operations. (Assertions 1, 2, 4, and 5)
- E. Proper classification—To determine that balances and related expenses are properly described and classified in the financial statements. (Assertion 5)
- F. Contingencies disclosed—To determine whether there are uninsured risks that should be considered for disclosure. (Assertion 5)

---

**Note:** The letters preceding each of the above audit objectives serve as identification codes. These codes are presented in the objective column when the audit step accomplishes the specific objective. If the letter appears in brackets, i.e. [A], [B], etc., the audit procedure only secondarily accomplishes the objective.

---

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
<b>Procedures:</b>				
<b>A. Preliminary Procedures</b>				
	1. Review the results of applicable sections of the following to determine the nature, timing, and extent of procedures:			
	a. Preliminary analytical review	_____	_____	_____
	b. Internal control documentation and test results	_____	_____	_____
	c. Assessment of risk of material misstatement (due to error, fraud, illegal acts, or other factors)	_____	_____	_____
	d. Other planning documents and risk assessments	_____	_____	_____
	2. Based on the risk assessment made during planning (including the risk of material misstatement due to error or fraud), determine whether additional procedures, beyond those included in this program, are necessary. Consult all relevant planning documents (e.g., Fraud Risk Factor Memory Jogger [AAM section 3165.12]) when making this decision. If additional procedures are necessary, add them to this program.	_____	_____	_____
<b>B. Substantive Analytical Procedures</b>				
A B C D	1. Compare balances in prepaid expense, deferred charges, intangibles, other assets, and accumulated amortization accounts to the preceding year's balances or expected balances. Investigate any significant deviations from the expected amounts.	_____	_____	_____
<b>C. Detailed Tests</b>				
A B C E	1. Obtain or prepare an analysis for each significant classification of prepaid expenses, deferred charges, other assets or intangibles. The analysis should include adequate description of significant components and the following:			
	a. Balance at the beginning of the year (or period).	_____	_____	_____
	b. Additions at cost.	_____	_____	_____
	c. Deductions charged to expense, and to other accounts.	_____	_____	_____
	d. Balance at the end of the year (or period).	_____	_____	_____

### Practice Tip

Ordinarily, extensive detailed schedules showing computations of prepaid balances or analyses of transactions for the period are not necessary, particularly in cases where the balances are not significant. A brief summary of limited reviews and comparisons of balances with prior period amounts or tests of the client's detailed records may be satisfactory.

	2. Foot analysis and trace totals to general ledger; trace opening balance to the audit working papers for the preceding year (or period).	_____	_____	_____
A B [C] D E	3. Examine supporting documents for material charges during the year.	_____	_____	_____
[A] C [D]	4. Review and recompute amortization; determine that the amortization period and method is reasonable.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
A C [D]	5. Determine that the carrying amount of the item does not exceed amounts properly allocable to future periods.	_____	_____	_____
C	6. Trace amounts amortized during the period to the related general ledger expense accounts.	_____	_____	_____
A	7. Confirm significant deposits and assets held by others.	_____	_____	_____
A F	8. For prepaid insurance accounts (including life insurance) with balances of \$_____ or more at _____, obtain or prepare a prepaid insurance schedule and agree prepaids and expense to the general ledger; perform the following additional tests:			
	a. Examine selected policies noting identity of insurer, descriptions and amounts of coverage, premiums, and period covered; compare particulars with the analysis.	_____	_____	_____
	b. Ascertain by review of the policy and related billing advices for the insurance premiums whether the premiums are being financed and/or the policy or cash surrender value has been pledged; determine that related liabilities and finance cost have been properly recorded.	_____	_____	_____
	c. Obtain confirmation of cash surrender values; consider confirmation of policies especially if premium financing is involved to determine that payments are current and coverage is still in force.	_____	_____	_____
	d. Ascertain whether all significant insurable risks have been considered.	_____	_____	_____
	e. Recompute amortization and trace amounts to the applicable expense accounts.	_____	_____	_____

### Practice Tip

Be alert to insurance confirmations indicating locations of inventory. Trace locations listed to inventory totals to determine all locations listed as covered by insurance have been included in the inventory summary.

	f. Vouch premiums of \$_____ or more to premium notices.	_____	_____	_____
	g. Ascertain propriety of accounting treatment for premium deposits and dividends.	_____	_____	_____
	h. Examine latest audit reports, when applicable, made by insurance companies.	_____	_____	_____
	i. For life insurance, reconcile prepaid premiums at beginning of period, premiums paid and increase in cash surrender value with life insurance expense.	_____	_____	_____
A	9. For property taxes, where significant, obtain or prepare an analysis which relates both repayments and accruals as of the beginning and end of the period with tax expense. Examine tax billings and determine whether the timing of the period covered by the tax and the payment due dates result in prepayment or an accrual as of the balance-sheet date. Trace charges to expense to the proper expense account.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
A D	10. Obtain a list of the detail of all suspense accounts and follow-up on the clearance of all items. (Note: suspense accounts should clear in one day). Investigate any large or unusual uncleared items.	_____	_____	_____
A B C	11. For intangible assets:			
	a. Trace authorization for major transactions to minutes of Board of Directors meetings.	_____	_____	_____
	b. Examine supporting documents.	_____	_____	_____
	c. Ascertain whether amortization has been properly computed in conformity with generally accepted accounting principles, and trace charges to related expense accounts.	_____	_____	_____
A D	12. Determine that there has been no permanent impairment of value for prepaid expenses, deferred charges, intangible assets, etc.	_____	_____	_____
E	13. Determine that balances are properly classified in the balance sheet (current v. noncurrent, etc.)	_____	_____	_____
F	14. Determine that there have been no uninsured events which would affect the value of other assets.	_____	_____	_____

IX. Accounts Payable

Financial Statement Assertions:

- 1. Existence or occurrence.
- 2. Completeness.
- 3. Rights and obligations.
- 4. Valuation or allocation.
- 5. Presentation and disclosure.

Objectives:

- A. Payables exist—To determine that accounts payable represent authorized current obligations. (Assertions 1 and 2)
- B. Proper classification—To determine that amounts included in accounts payable are properly classified. (Assertion 5)
- C. Obligations complete—To determine that accounts payable include all significant current obligations. (Assertions 2, 3, and 4)
- D. Proper disclosure—To determine that adequate disclosure has been made of any pledged assets. (Assertion 5)

Note: The letters preceding each of the above audit objectives serve as identification codes. These codes are presented in the objective column when the audit step accomplishes the specific objective. If the letter appears in brackets, i.e. [A], [B], etc., the audit procedure only secondarily accomplishes the objective.

Procedures:

A. Preliminary Procedures

- 1. Review the results of applicable sections of the following to determine the nature, timing, and extent of procedures:
  - a. Preliminary analytical review
  - b. Internal control documentation and test results
  - c. Assessment of risk of material misstatement (due to error, fraud, illegal acts, or other factors)
  - d. Other planning documents and risk assessments

_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	2. Based on the risk assessment made during planning (including the risk of material misstatement due to error or fraud), determine whether additional procedures, beyond those included in this program, are necessary. Consult all relevant planning documents (e.g., Fraud Risk Factor Memory Jogger [AAM section 3165.12]) when making this decision. If additional procedures are necessary, add them to this program.	_____	_____	_____
	<b>B. Substantive Analytical Procedures</b>			
A B C	1. Compare balances in trade accounts payable and purchases with the preceding year's balances or expected balances. Investigate any significant deviations from the expected amounts.	_____	_____	_____
	<b>C. Detailed Tests</b>			
	1. Were the following items considered:			
	a. Whether to request positive confirmation from vendors and, if so, when and to what extent.	_____	_____	_____
	<hr/> <i>Note:</i> Some auditors send confirmations to major vendors to obtain independent outside evidence that all liabilities have been recorded. Other auditors believe that evidential matter can be obtained more efficiently through other procedures. <hr/>			
	b. Potential efficiencies to be gained from coordination of accounts payable work with substantive tests of inventory when the physical is taken at the balance-sheet date. (For example, tests of cut off, and using vouchers obtained from client's files in substantiating recent inventory prices as well as accounts payable work.)	_____	_____	_____
A B C D	2. Obtain or prepare a schedule of accounts payable (subsidiary ledger) as of the balance-sheet date.			
	a. Foot schedule/subsidiary ledger and reconcile to the general ledger control account.	_____	_____	_____
	b. Segregate amounts due to officers, employees, stockholders, affiliates and other related parties.	_____	_____	_____
	c. Discuss with client old or disputed payables.	_____	_____	_____
	d. Investigate debit balances and, if significant, consider requesting positive confirmations and propose reclassification of the amounts.	_____	_____	_____
	e. Ascertain by review of minutes, agreements and by inquiry whether any assets are pledged to collateralize payables.	_____	_____	_____
	f. Identify intercompany accounts and:			
	(1) Arrange to have balances traced to corresponding receivables in the affiliate's books if affiliate is being currently audited by the firm.	_____	_____	_____
	(2) Obtain confirmation from the affiliate.	_____	_____	_____
	(3) Investigate and reconcile differences.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
A B C [D]	3. Consider confirmation procedures such as the following:			
	a. Obtain and review a list of major vendors, or identify major vendors by reviewing voucher registers or subsidiary accounts payable records.	_____	_____	_____
	b. Request vendors to provide a statement of the account balance as of the date selected (ordinarily, the physical inventory date and/or balance-sheet date).	_____	_____	_____
	c. Investigate and reconcile differences.	_____	_____	_____

#### Practice Tip

Vendors should be instructed to mail confirmation replies directly to the auditor. The auditor should control the mailing of all confirmations.

A B [D]	4. Confirm balances due to officers and employees; ascertain business purpose of the transactions and, if significant, trace to authorization in the minutes of the Board of Directors meetings.	_____	_____	_____
A C	5. Test selected unconfirmed balances by examination of vouchers, invoices, and receiving reports.	_____	_____	_____
A B C	6. Obtain the purchases journal and trace all entries over \$_____ for a period of _____ days after the balance-sheet date to supporting documents to determine recording in the proper period.	_____	_____	_____
A B C	7. Obtain the cash disbursements journal and trace all entries over \$_____ for a period of _____ days after the balance-sheet date to supporting documents to determine recording in the proper period.	_____	_____	_____
A B C	8. Review the open receiving report, open purchase order and open purchase requisition files for _____ days after the balance-sheet date for unrecorded liabilities.	_____	_____	_____
A B C	9. Review the open vendor invoice files for _____ days after the balance-sheet date to determine recording in the proper period and for unrecorded liabilities.	_____	_____	_____
A C	10. Inquire of responsible client staff about their knowledge of additional sources of unprocessed invoices, unrecorded commitments, or contingent liabilities.	_____	_____	_____
A B C	11. Liabilities for payroll taxes withheld:			
	a. Trace liabilities to payments made subsequent to the balance-sheet date; examine the payroll tax deposit receipts.	_____	_____	_____
	b. Compare liability to accrued payroll taxes for reasonableness.	_____	_____	_____
	c. Trace liabilities to summaries of the applicable payroll registers.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
A B C	12. Determine that credit memos received ____ days after the balance-sheet date have been recorded in the proper period.	_____	_____	_____
B C D	13. Identify any payables due after one year and consider the imputation of interest.	_____	_____	_____
D	14. Consider the need for any disclosures.	_____	_____	_____

**X. Accrued Liabilities Other Than Income Taxes and Deferred Credits**

**Financial Statement Assertions:**

1. Existence or occurrence.
2. Completeness.
3. Rights and obligations.
4. Valuation or allocation.
5. Presentation and disclosure.

**Objectives:**

- A. Liabilities complete—To determine that expense accounts include costs and expenses applicable to the period. (Assertions 1, 2, and 5)
- B. GAAP conformity—To determine that all contingencies and estimated future expenses that should be accrued in the period have been accrued, classified, and described in accordance with generally accepted accounting principles consistently applied. (Assertion 1, 2, 3, 4, and 5)

---

*Note:* The letters preceding each of the above audit objectives serve as identification codes. **Procedures:**

**A. Preliminary Procedures**

1. Review the results of applicable sections of the following to determine the nature, timing, and extent of procedures:
  - a. Preliminary analytical review \_\_\_\_\_
  - b. Internal control documentation and test results \_\_\_\_\_
  - c. Assessment of risk of material misstatement (due to error, fraud, illegal acts, or other factors) \_\_\_\_\_
  - d. Other planning documents and risk assessments \_\_\_\_\_

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	2. Based on the risk assessment made during planning (including the risk of material misstatement due to error or fraud), determine whether additional procedures, beyond those included in this program, are necessary. Consult all relevant planning documents (e.g., Fraud Risk Factor Memory Jogger [AAM section 3165.12]) when making this decision. If additional procedures are necessary, add them to this program.	_____	_____	_____
<b>B. Substantive Analytical Procedures</b>				
A B	1. Compare balances in accrued expense and other liability accounts with the preceding year's balances or expected balances. Investigate any significant deviations from the expected amounts.	_____	_____	_____
<b>C. Detailed Tests</b>				
[A]	1. Obtain or prepare analysis of accrued liability accounts and agree to the general ledger.	_____	_____	_____
A B	2. For accrued salaries, wages, vacation pay and bonus accounts:			
	a. Test the clerical accuracy of the analyses.	_____	_____	_____
	b. Determine whether the calculations have been made in accordance with related agreements and the corporate policies established by the board of directors or other appropriate executive groups.	_____	_____	_____
	c. Trace bonuses and similar accruals to the board of directors minutes or other proper authorizations.	_____	_____	_____
	d. Compare amounts to subsequent payments.	_____	_____	_____
A B	3. Test computations of accrued salaries and wages by tracing last payment date to payroll journals and estimating the accrual by reference to subsequent payrolls.	_____	_____	_____
A B	4. Review compensation agreements for possible additional liabilities.	_____	_____	_____
A B	5. Determine whether a liability should be accrued for employees' compensation for future absences.	_____	_____	_____

#### Practice Tip

Ordinarily, a liability is accrued when all of the following conditions are met:

- The employer's obligation relating to employees' rights to receive compensation for future absences is attributable to employees' services already rendered,
- The obligation relates to rights that vest or accumulate,
- Payment of the compensation is probable, and
- The amount can be reasonably estimated.

The fact that an accrual has not been made because of an inability to meet the last condition ordinarily should be disclosed.

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
A B	6. Review deferred compensation agreements and the method of accounting:			
	a. Determine whether the method of accounting recognizes deferred compensation costs in accordance with FASB Statement No. 106 (AC P40).	_____	_____	_____
	b. Consider whether individual contracts, if taken together, constitute a pension plan.	_____	_____	_____
A B	7. Obtain an analysis of deferred compensation and:			
	a. Test the clerical accuracy of the analysis and compare balances to the general ledger.	_____	_____	_____
	b. Verify the computations by reference to provisions of the agreements.	_____	_____	_____
	c. Test current payments by examining appropriate supporting data.	_____	_____	_____
	d. Consider the advisability of confirming unpaid balances and the terms of payment.	_____	_____	_____
A B	8. Review the general ledger liability accounts for other accruals that may exist and proceed as follows:			
	a. Inquire into the nature and purpose of such accounts and document the results of the inquiry.	_____	_____	_____
	b. Identify the accounts selected for further analysis. (To be done by the in-charge.)	_____	_____	_____
	_____	_____	_____	_____
	c. Verify the year-end balance of the accounts selected by computation, examination of subsequent payments or examination of other data.	_____	_____	_____
	d. Compare recorded transactions to available supporting data on a test basis, where deemed necessary.	_____	_____	_____
A B	9. Evaluate whether management has recorded all accrued liabilities (including those based on significant accounting estimates) that could be material to the financial statements. Consider:			
	a. Information from reading available minutes of meetings of stockholders, directors, and appropriate committees.	_____	_____	_____
	b. Information contained in regulatory or examination reports, supervisory correspondence, and similar materials from applicable regulatory agencies.	_____	_____	_____
	c. Information included on confirmation replies received from financial institutions or other entities.	_____	_____	_____
	d. Information concerning identified litigation, claims, and assessments and other contingencies.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	e. Management replies to inquiries regarding possible accruals.	_____	_____	_____
A B	10. For those accrued liabilities based on significant accounting estimates, evaluate the reasonableness of the estimate by employing one or a combination of the following approaches:			
	a. Review and test the process used by management to develop the estimate. Consider performing the following procedures:			
	(1) Identify whether there are controls over the preparation of accounting estimates and supporting information that may be useful in the evaluation.	_____	_____	_____
	(2) Identify the sources of information that management used in forming the assumptions, and consider whether such information is relevant, reliable, and sufficient for the purpose.	_____	_____	_____
	(3) Consider whether there is additional key information or alternative assumptions about the information.	_____	_____	_____
	(4) Evaluate whether the assumptions are consistent with each other, the supporting information, relevant historical data, and industry data.	_____	_____	_____
	(5) Analyze historical data used in developing the assumptions to assess whether the data is comparable and consistent with data of the period under audit, and consider whether such data is sufficiently reliable for the purpose.	_____	_____	_____
	(6) Consider whether changes in the business or industry may cause other information to become more significant to the assumptions.	_____	_____	_____
	(7) Review available documentation of the assumptions used in developing the accounting estimates and inquire about any other plans, goals, and objectives of the client, as well as consider their relationship to the assumptions.	_____	_____	_____
	(8) Consider using the work of a specialist regarding certain assumptions.	_____	_____	_____
	(9) Test the calculations used by management to translate the assumptions and key information into the accrued liability estimate.	_____	_____	_____
	b. Develop an independent expectation of the estimate to corroborate the reasonableness of management's estimate.	_____	_____	_____
	c. Review subsequent events or transactions occurring prior to completion of fieldwork.	_____	_____	_____
A B	11. For environmental remediation liabilities identified during planning and other stages of the engagement, perform substantive tests as follows:			

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
a. Test the accounting estimate recorded by management. (See step 10 above.)	_____	_____	_____
<b>Practice Tip</b>			
Read AICPA Statement of Position 96-1, <i>Environmental Remediation Liabilities</i> (appendix C), for guidance in applying step 10 above to environmental remediation liabilities. When auditing environmental remediation liabilities, steps 10a and 10b above, or a combination thereof, usually will be most effective.			
b. Request information about environmental remediation liabilities and loss contingencies in the letter of inquiry sent to the client's counsel.	_____	_____	_____
c. Obtain, as deemed necessary, written representations from management about estimates and disclosures of environmental remediation liabilities and loss contingencies affecting the financial statements, including specific representations as to the adequacy of such disclosures and the expected outcomes of uncertainties.	_____	_____	_____
d. If disclosure is required of environmental remediation liabilities and loss contingencies, assess the adequacy of the disclosures, including any conclusions expressed by management regarding the expected outcome of such contingencies.	_____	_____	_____
A B 12. Review revenue accounts and determine whether income recorded in the current period should be deferred to future periods.	_____	_____	_____
A B 13. Obtain appropriate analyses of other deferred credits:			
a. Review and document the nature of the account and the policies and method of accounting.	_____	_____	_____
b. Test computations of current additions and reductions by examination of appropriate supporting data or by analytical review of appropriate revenue and expense accounts.	_____	_____	_____
c. Determine whether the basis of recording and method of amortization is consistent with the prior year.	_____	_____	_____
d. Determine if the ending balance is reasonable.	_____	_____	_____
[A] [B] 14. Determine that amounts accrued that are not currently deductible for income tax purposes have been identified for consideration in the computation of income taxes.	_____	_____	_____
A B 15. Determine whether management replies to our inquiries provide adequate explanations for significant fluctuations and consider whether such replies are corroborated by our audit procedures and knowledge of the business or whether additional audit procedures are required.	_____	_____	_____
A B 16. Obtain and verify disclosure information for multi-employer plans and vouch expense for the period.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
A B	17. For defined contribution plans:			
	a. If applicable, obtain copy of trustee's fund report. Consider confirming contents of report with trustee.	_____	_____	_____
	b. Determine if there have been any adoptions or amendments of plans during the period and obtain copies. Note for financial statement disclosures and:			
	(1) Agree expense to minutes, when applicable.	_____	_____	_____
	(2) Verify computations, where applicable.	_____	_____	_____
	c. Where applicable, test employee data. Test should consist of analytical procedures, and additional procedures as considered necessary.	_____	_____	_____
[A] [B]	18. For defined benefit plans obtain the following, where applicable:			
	a. Copy of actuarial report as of a date no earlier than three months prior to balance-sheet date.	_____	_____	_____
	b. If applicable, copy of trustee's report.	_____	_____	_____
	c. Form 5500 for prior year and for current year, if already prepared.	_____	_____	_____
	d. Actuary's certificate on Schedule B for Form 5500 for prior year and for current year if already prepared.	_____	_____	_____
	e. Plan document(s).	_____	_____	_____
	f. Census and plan asset date given to actuary.	_____	_____	_____
A B	19. Consider confirming contents of Trustee report with Trustee.	_____	_____	_____
A B	20. Reconcile aggregate census data, such as number of employees covered, compensation, to amounts shown in the actuarial valuation report or if not in the report, consider obtaining confirmation of such data from the actuary.	_____	_____	_____
A B	21. For selected employees, check census data (age, sex, marital status, current pay, term of employment, benefit election, etc.) to payroll records. [Check only that data important to the valuation. If analytical review of data and valuation report appear reasonable, a sample of 15 will generally be acceptable. If not, a sample up to 40 may be required.]	_____	_____	_____
A B	22. Based on plan documents, make appropriate tests to determine whether all eligible employees are included in the census data provided to the actuary.	_____	_____	_____
A B	23. Reconcile plan assets per the trustee's report to amounts shown in the actuarial valuation report.	_____	_____	_____
[A] [B]	24. Ascertain that the actuary is professionally qualified. (Membership in the Society of Actuaries, the Conference of Actuaries in Public Practice, American Academy of Actuaries is usually sufficient to indicate that actuary is qualified.)	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
[A] [B]	25. Inquire as to any relationships between the actuary and the client that would impair independence.	_____	_____	_____
A B	26. Review the actuary's most recent certificate on Schedule B, Form 5500, and determine the reasons for qualifications expressed, if any.	_____	_____	_____
B	27. Determine if there have been any adoptions or amendments of plans during the period. Obtain copies of any and note for financial statement disclosure.	_____	_____	_____
A B	28. Review the latest plan document and compare with key provisions included in the actuarial valuation report. If the report does not include a description of key plan provisions, it may be necessary to confirm the actuary's understanding of such provisions.	_____	_____	_____
A B	29. Vouch the payment of the prior year's accrual to determine that it was paid prior to the filing of the year tax return. (If not paid at the tax return due date, or extended due date, the bank loses its tax deduction.)	_____	_____	_____
A B	30. Trace the authorization for the contribution to the plan to the board of directors' minutes, or obtain the management representation in the representation letter.	_____	_____	_____
B	31. Inquire of the client as to any intent to terminate the plan.	_____	_____	_____
B	32. Obtain and check disclosure information.	_____	_____	_____
A B	33. If not previously audited, obtain net transition obligation computations and agree amounts to actuarial report, trustees report, or other evidential sources. Recheck compensation.	_____	_____	_____
A B	34. Obtain calculation of pension cost for the current period and agree components to actuarial report or trustee's report.	_____	_____	_____
A B	35. Determine that a liability is recorded for unfunded accrued pension cost whenever the client's contribution is less than its related expense or that prepaid pension costs is recorded when the amount funded exceeds the related expenses.	_____	_____	_____
A B	36. Determine that an additional liability is recorded equal to the excess, if any, of the accumulated benefit obligation over the fair value of plan assets. (Similar assets are not recorded except when the excess follows a business combination treated as a purchase.)	_____	_____	_____
[A] [B]	37. If the work of a specialist is used in performing the audit, has the auditor documented his satisfaction concerning the following:			
	a. Review the professional certification, license, or other recognition of the competence of the specialist.	_____	_____	_____

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
b. The reputation and standing of the specialist in view of those familiar with his capability or performance.	_____	_____	_____
c. The specialist's experience in the type of work under consideration.	_____	_____	_____
d. Review the relationship, if any, of the specialist to the client.	_____	_____	_____
e. If the work of a specialist is used in performing the audit, obtain and document the auditor's understanding of the nature of the work to be performed.	_____	_____	_____
[A] [B] 38. Prepare conclusion memo as to whether or not audit objectives have been met and accordingly whether or not the pension and related accounts are fairly stated for inclusion in the (consolidated, if applicable) financial statements in accordance with generally accepted accounting principles. (If not, document details of exception.)	_____	_____	_____

---

**Procedures:****A. Preliminary Procedures**

1. Review the results of applicable sections of the following to determine the nature, timing, and extent of procedures:
  - a. Preliminary analytical review

\_\_\_\_\_

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
b. Internal control documentation and test results	_____	_____	_____
c. Assessment of risk of material misstatement (due to error, fraud, illegal acts, or other factors)	_____	_____	_____
d. Other planning documents and risk assessments	_____	_____	_____
2. Based on the risk assessment made during planning (including the risk of material misstatement due to error or fraud), determine whether additional procedures, beyond those included in this program, are necessary. Consult all relevant planning documents (e.g., Fraud Risk Factor Memory Jogger [AAM section 3165.12]) when making this decision. If additional procedures are necessary, add them to this program.	_____	_____	_____
<b>B. Detailed Tests</b>			
A B C [D] 1. Obtain or prepare analyses of the various current and deferred income tax liabilities and assets and related provisions showing:			
a. Balances at the beginning of the year (period).	_____	_____	_____
b. Amounts provided.	_____	_____	_____
c. Refunds received.	_____	_____	_____
d. Payments made, indicating date and nature.	_____	_____	_____
e. Balances at the end of the year (period).	_____	_____	_____
A 2. Compare opening balances to the prior year's working papers.	_____	_____	_____
A B 3. Trace payments to cash books and general ledger; examine canceled checks for evidence of timely payment.	_____	_____	_____
A B 4. Compare payments and refunds to copies of income tax returns.	_____	_____	_____
A B C 5. Ascertain latest year that income tax returns have been examined and which periods, if any, are being contested. Examine recent Revenue Agent Reports; determine that adequate consideration has been given to items challenged in the past. Also consider disclosure of the examination.	_____	_____	_____
A B C 6. Review or prepare a reconciliation of earnings (loss) per books with taxable income for the period.	_____	_____	_____
A B C 7. Review or compute the provisions for federal and other income taxes.	_____	_____	_____
D 8. Determine that the nature of any significant differences between pretax earnings and income tax expense are disclosed.	_____	_____	_____
A B C 9. Determine that the accrual and provision is adequate considering:			
a. Tax positions taken by the client that might be challenged by the taxing authorities or other tax contingencies.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	b. Possible assessments, penalties or interest indicated by tax return examinations completed during the year or in progress, including similar adjustments applicable to years not yet examined.	_____	_____	_____
A B C	10. Compute or obtain and test the client's computation of deferred tax assets and liabilities to determine conformity with FASB Statement No. 109 (AC I27). Test the reasonableness.	_____	_____	_____
A B C D	11. For deferred tax assets, determine the likelihood that all or part of the recorded amount will not be realized. In making that determination, consider all available evidence, both positive and negative.	_____	_____	_____

---

**Practice Tip**

For tax benefits to be realized, there must be adequate taxable income in the future when deductible temporary differences reverse and when net operating loss carryforwards are available.

---

A B C D	12. If it is determined that it is more likely than not that all or part of the deferred tax asset will not be realized, evaluate the adequacy of the valuation allowance account by performing the following:			
	a. Review and test the process used by management to develop the estimate, or develop an independent expectation of the estimate, to corroborate the reasonableness of management's estimate.	_____	_____	_____
	b. Determine whether any subsequent events or transactions have occurred prior to the completion of field work that could effect the adequacy of the valuation allowance.	_____	_____	_____

---

**Practice Tip**

See FASB Statement No. 109, paragraphs 17–26 (AC I27.116–.125), for guidance on valuation allowance computation.

---

D	13. Review a schedule of net operating loss carryovers and unused investment tax credits for propriety.	_____	_____	_____
A B	14. Consider additional tax liabilities to any new states in which the client does business.	_____	_____	_____
A B C	15. If the auditor is to prepare the returns, ascertain that all necessary information is obtained.	_____	_____	_____

### D. Section Completion

1. Based on the initial planning conclusions, on the results of the audit procedures performed, and upon the assessed level of risk for income taxes, determine whether additional procedures need to be performed to obtain sufficient evidence regarding the financial statement assertions for income taxes.
2. The objectives of this audit program have been met.

This audit program section has been completed in accordance with firm policy.

Ref.**XII. Notes Payable and Long-Term Debt****Financial Statement Assertions:**

1. Existence or occurrence.
2. Completeness.
3. Rights and obligations.
4. Valuation or allocation.
5. Presentation and disclosure.

**Objectives:**

- A. Payables exist—To determine that notes payable and long-term debt are authorized, properly classified, and described in the financial statements. (Assertions 3 and 5)
- B. Period recorded proper—To determine that liabilities are recorded in the proper period at the correct amounts. (Assertions 1, 2, and 4)
- C. Expense recognized—To determine that related interest expense (including discount or premium) is accounted for in conformity with generally accepted accounting principles consistently applied. (Assertions 2 and 5)
- D. Adequate disclosure—To determine that the financial statements include adequate disclosure of restrictive covenants of loan agreements, pledged assets, etc. (Assertion 5)

---

**Note:** The letters preceding each of the above audit objectives serve as identification codes. These codes are presented in the objective column when the audit step accomplishes the specific objective. If the letter appears in brackets, i.e., [A], [B], etc., the audit procedure only secondarily accomplishes the objective.

---

**Procedures:****A. Preliminary Procedures**

1. Review the results of applicable sections of the following to determine the nature, timing, and extent of procedures:
  - a. Preliminary analytical review

---

---

---

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
b. Internal control documentation and test results	_____	_____	_____
c. Assessment of risk of material misstatement (due to error, fraud, illegal acts, or other factors)	_____	_____	_____
d. Other planning documents and risk assessments	_____	_____	_____
2. Based on the risk assessment made during planning (including the risk of material misstatement due to error or fraud), determine whether additional procedures, beyond those included in this program, are necessary. Consult all relevant planning documents (e.g., Fraud Risk Factor Memory Jogger [AAM section 3165.12]) when making this decision. If additional procedures are necessary, add them to this program.	_____	_____	_____
<b>A B B. Substantive Analytical Procedures</b>			
<b>C</b>			
1. Compare balances in notes payable, long-term debt, and the related interest expense accounts with the preceding year's balances or expected balances. Investigate any significant deviations from the expected amounts.	_____	_____	_____
2. Compute the following ratios and compare to preceding year's ratios or expected ratios. Investigate any significant deviations from the expected ratios.			
a. Long-term debt to stockholders' equity.	_____	_____	_____
b. Interest expense as a percentage of average balance of notes payable and long-term debt outstanding.	_____	_____	_____
<b>C. Detailed Tests</b>			
<b>[A] [B]</b>			
<b>[C] [D]</b>			
1. Obtain or prepare an analysis of notes payable, long-term debt, lines of credit, and other financing arrangements showing the following:			
a. Description:			
(1) Date of origin	_____	_____	_____
(2) Type of debt and maturity	_____	_____	_____
(3) Face amount	_____	_____	_____
(4) Interest rate	_____	_____	_____
(5) Timing and amount payments	_____	_____	_____
b. Principal:			
(1) Balance at the beginning of the year (period)	_____	_____	_____
(2) Additions	_____	_____	_____
(3) Payments	_____	_____	_____
(4) Balance at the end of the year (period)	_____	_____	_____
c. Related Interest:			
(1) Accrued interest at the beginning of the year (period)	_____	_____	_____
(2) Unamortized discount or premium at the beginning of the year (period)	_____	_____	_____
(3) Expense incurred during the year (period)	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	(4) Amount paid during the year (period)	_____	_____	_____
	(5) Accrued at the end of the year (period)	_____	_____	_____
	(6) Unamortized discount of premium at the end of the year (period)	_____	_____	_____
[D]	2. Foot and crossfoot analysis, and trace totals to general ledger and subsidiary ledgers for notes payable and long-term debt.	_____	_____	_____
A [D]	3. Trace authorization for all new debt to the minutes of the Board of Directors meetings.	_____	_____	_____
A B C D	4. Examine supporting documentation for all debt and related interest expense (for example, note and loan agreements, bond indentures, correspondence from legal counsel, etc.); obtain copies of debt agreements and highlight restrictive covenants. Note and investigate any apparent violations. Maintain copies of all notes and related agreements in the permanent file.	_____	_____	_____
A D	5. Confirm outstanding balances, terms, conditions, and compliance with covenants with the credit grantor or independent trustee.	_____	_____	_____

#### Practice Tip

Confirming responses should be mailed back directly to the auditor. The auditor should always control the mailing of confirmations. Second requests should be mailed as necessary for nonreplies.

A B	6. Examine canceled or paid notes and bonds. Consider confirming large notes paid or canceled during the year (period).	_____	_____	_____
D	7. Determine if any assets are subject to lien and obtain carrying amount for disclosure.	_____	_____	_____
D	8. Examine notes for guarantees. Be alert for related-party guarantees. All guarantee relationships should be disclosed.	_____	_____	_____
A B D	9. Examine notes and debt agreements and review compliance with restrictive loan covenants. Gather information for financial statement disclosures.	_____	_____	_____
D	10. Separate short-term notes and the current portion of long-term debt for report classification. Categorize by type of lender (related party, banks, loan company, etc.). Determine five year maturities for all long-term obligations.	_____	_____	_____
C	11. Test interest expense and amortization of debt discount or premium by:			
	a. Performing reasonableness tests. For example, multiplying average balances of debt outstanding by average interest rates.	_____	_____	_____
	Or			
	b. Recomputing the balances.	_____	_____	_____
C	12. Consider the need to impute interest on noninterest bearing notes.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
A B D	13. Confirm and verify line of credit agreements and gather information for financial statement disclosures.	_____	_____	_____
D	14. In accordance with FASB Statement No. 107, <i>Disclosures about Fair Value of Financial Instruments</i> , as amended (AC F25), obtain information about the fair value of notes payable and long-term debt, and perform the following:			
	<p><b>Note:</b> Disclosures about the fair value of financial instruments prescribed in FASB Statement No. 107 are optional for nonpublic entities that meet certain criteria (see FASB Statement No. 126). Determine if the client is making FASB No. 107 disclosures.</p>			
	a. Determine that the fair value amounts are determined in accordance with FASB Statement No. 107, as amended (AC F25).	_____	_____	_____
	b. Determine that the valuation principles are being consistently applied.	_____	_____	_____
	c. Determine that the fair value amounts are supported by the underlying documentation.	_____	_____	_____
	d. Determine that the method of estimation and significant assumptions used are properly disclosed.	_____	_____	_____

#### Practice Tip

Normally, the carrying amount of notes payable and long-term debt will approximate their fair values. However if the interest rate on the debt is significantly different from market rates, the carrying amount of the debt may not approximate their fair value. See FASB Statement No. 107 (AC F25) and Auditing Interpretation No. 1 of SAS No. 57, *Auditing Accounting Estimates*, titled "Performance and Reporting Guidance Related to Fair Value Disclosures (AU section 9342.01-.10)," for further guidance.

#### D. Extinguishments of Liabilities

A D	1. Determine that a liability has been derecognized if and only if it has been extinguished. A liability has been extinguished if either of the following conditions is met:			
	a. The debtor pays the creditor and is relieved of its obligation for the liability. Paying the creditor includes delivery of cash, other financial assets, goods or services, or reacquisition by the debtor of its outstanding debt securities whether the securities are canceled or held as so-called treasury bonds.	_____	_____	_____
	b. The debtor is legally released from being the primary obligor under the liability, either judicially or by the creditor.	_____	_____	_____
D	2. If debt was considered to be extinguished by in-substance defeasance under the provisions of FASB Statement No. 76 prior to the effective date of FASB Statement No. 125, determine that a general description of the transaction and the amount of debt that is considered extinguished at the end of the period so long as that debt remains outstanding has been disclosed.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
D	3. If assets are set aside after the effective date of FASB Statement No. 125 solely for satisfying scheduled payments of a specific obligation, determine that a description of the nature of restrictions placed on those assets has been disclosed.	_____	_____	_____

**Procedures:****A. Preliminary Procedures**

1. Review the results of applicable sections of the following to determine the nature, timing, and extent of procedures:
  - a. Preliminary analytical review

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
b. Internal control documentation and test results	_____	_____	_____
c. Assessment of risk of material misstatement (due to error, fraud, illegal acts, or other factors)	_____	_____	_____
d. Other planning documents and risk assessments	_____	_____	_____
2. Based on the risk assessment made during planning (including the risk of material misstatement due to error or fraud), determine whether additional procedures, beyond those included in this program, are necessary. Consult all relevant planning documents (e.g., Fraud Risk Factor Memory Jogger [AAM section 3165.12]) when making this decision. If additional procedures are necessary, add them to this program.	_____	_____	_____
<b>B. Substantive Analytical Procedures</b>			
1. Compare balances in shareholders' equity accounts with the preceding year's balances or expected balances. Investigate any significant deviations from the expected amounts.	_____	_____	_____
<b>C. Capital Stock and Additional Paid-In Capital—Detailed Tests</b>			
[C] 1. For each class of stock, identify the number of authorized shares, par or stated value, privileges, and restrictions.	_____	_____	_____
[C] 2. Obtain or prepare an analysis of the activity in the accounts; trace opening balances to the balance sheet as of the close of the year (period) previously audited and trace closing balances to the general ledger.	_____	_____	_____
A B 3. Examine minutes, bylaws, and articles of incorporation for provisions relating to capital stock and support for all changes in the accounts including authorization per minutes of Board of Directors and stockholders meetings, and correspondence from legal counsel.	_____	_____	_____
A B 4. Account for all proceeds from stock issues (including stock issued under stock option and stock purchase plans):			
a. Recompute sales price and applicable proceeds.	_____	_____	_____
b. Determine that proceeds have been properly distributed between capital stock and additional paid-in capital.	_____	_____	_____
A B [C] 5. Verify outstanding stock by agreeing open stubs in stock certificate book to the listing or confirm with the transfer agent the total issued shares and the total shares issued in the company's name. Determine that surrendered certificates have been canceled and accounted for.	_____	_____	_____
A B [C] 6. For stock options and stock option plans, trace authorization to the minutes of the Board of Directors meetings, review the plan and the option contracts. Obtain or prepare and test analyses of stock options which include the following information:			

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	a. For option plans, the date of the plan, number and class of shares reserved for option, method for determining the option price, period during which options may be granted, and identity of persons to whom options may be granted.	_____	_____	_____
	b. For options granted, identity of persons to whom granted, date of grant, number of shares under option, option price, option period, number of shares as to which options are exercisable, and the market price and value of shares under option as of the date of grant or measurement (first date on which are known both (1) the number of shares individual is entitled to receive, and (2) the option of purchase price, if any).	_____	_____	_____
	c. For options outstanding, number of shares subject to option at the beginning of the period, activity during the period (additional shares subjected to option, number of shares exercised under options, number of shares associated with options which expired during the period), and number of shares subject to option at the end of the year (period).	_____	_____	_____
A B C	7. If the client has a stock-based compensation plan (such as a stock option plan mentioned in the step above, or a stock purchase plan or any arrangement by which employees receive shares of stock or other equity instruments), perform the following steps:			
	a. Determine that the appropriate accounting treatment is being applied to all transactions that result from such stock compensation plans:			
	(1) If the client is following the provisions of FASB Statement No. 123, <i>Accounting for Stock-Based Compensation</i> (AC C36), determine that the fair-value method of accounting is being properly complied with, as described in the applicable sections of FASB Statement No. 123 (AC C36).	_____	_____	_____
	(2) If the client is following the provisions of APB Opinion No. 25, <i>Accounting for Stock Issued to Employees</i> (AC C47), determine that the intrinsic value method of accounting is being properly complied with, as described in the applicable sections of APB Opinion No. 25 (AC C47).	_____	_____	_____
	b. Summarize in the working papers all information required for disclosure as described in the appropriate accounting guidance.	_____	_____	_____
B C	8. Identify all stock rights and warrants outstanding as of the balance-sheet date including the number of shares involved, period during which exercisable, and exercise price; determine that the rights and warrants were authorized.	_____	_____	_____
A B C	9. Identify any stock subscriptions receivable, and:			
	a. Determine if they were authorized.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	b. Obtain confirmation from subscribers.	_____	_____	_____
	c. Ascertain that subscriptions receivable are classified as a reduction of stockholders' equity on the balance sheet.	_____	_____	_____
A B C	10. Obtain or prepare an analysis of the treasury stock account and:			
	a. Inspect the paid checks and other documentation in support of the treasury stock acquisitions.	_____	_____	_____
	b. Inspect or confirm the treasury stock certificates; ascertain that the certificates are in the company's name or endorsed to the company.	_____	_____	_____
	c. Reconcile treasury stock to the general ledger.	_____	_____	_____
A B C	11. Determine that declared and unpaid dividends are properly recorded. Compare paid dividends to director's minutes.	_____	_____	_____
<b>D. Retained Earnings—Detailed Tests</b>				
[B]	1. Analyze activity during the period; trace the opening balance to the balance sheet as of the end of the year (period) previously audited; trace net income and other activity to the proper general ledger accounts and cross reference to other working paper analyses.	_____	_____	_____
A B	2. Determine that dividends paid or declared have been authorized by the Board of Directors and:			
	a. Examine paid checks and supporting documents for dividends paid (selected checks to shareholders or to a dividend disbursing agent).	_____	_____	_____
	b. Recompute amounts of dividends paid and/or payable.	_____	_____	_____
B C	3. Investigate any prior period adjustments and determine if they were made in accordance with GAAP.	_____	_____	_____
A B C	4. Examine supporting documents and authorization for all other transactions in the account, considering conformity with generally accepted accounting principles.	_____	_____	_____
<b>E. Other</b>				
C	1. Determine and document any restrictions on equity accounts.	_____	_____	_____
C	2. For disclosure purposes, obtain information concerning the pertinent rights and privileges of the various securities outstanding. Information includes dividend and liquidation preferences, participation rights, call prices and dates, conversion or exercise prices or rates and pertinent dates, sinking-fund requirements, unusual voting rights, significant terms of contracts to issue additional shares, and redemption requirements. Determine that such information is accurate.	_____	_____	_____

Ref.**XIV. Revenues and Other Income****Financial Statement Assertions:**

1. Existence or occurrence.
2. Completeness.
3. Rights and obligations.
4. Valuation or allocation.
5. Presentation and disclosure.

**Objectives:**

- A. Proper recognition—To determine that revenue transactions represent consideration applicable to goods shipped and/or completed services rendered to customers (or clients) in the normal course of business during the year (period). (Assertions 1, 3, 4, and 5)
- B. Revenue realized—To determine that revenue transactions have resulted in collections or bona fide receivables. (Assertions 1 and 2)
- C. Revenue recorded—To determine that all revenues earned during the year (period) are recorded and included in the financial statements. (Assertions 1, 2, and 5)
- D. Proper classification—To determine that revenues are properly classified and described in the financial statements and accompanied by adequate disclosure. (Assertions 4 and 5)
- E. Proper classification of other income—To determine that other income has been properly recognized, classified and described in the statement of income. (Assertions 2 and 5)
- F. GAAP conformity—To determine that the income statement is prepared in conformity with generally accepted accounting principles consistently applied. (Assertion 5)

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
<b>Procedures:</b>			
<b>A. Preliminary Procedures</b>			
1. Review the results of applicable sections of the following to determine the nature, timing, and extent of procedures:			
a. Preliminary analytical review	_____	_____	_____
b. Internal control documentation and test results	_____	_____	_____
c. Assessment of risk of material misstatement (due to error, fraud, illegal acts, or other factors)	_____	_____	_____
d. Other planning documents and risk assessments	_____	_____	_____
2. Based on the risk assessment made during planning (including the risk of material misstatement due to error or fraud), determine whether additional procedures, beyond those included in this program, are necessary. Consult all relevant planning documents (e.g., Fraud Risk Factor Memory Jogger [AAM section 3165.12]) when making this decision. If additional procedures are necessary, add them to this program.	_____	_____	_____
<b>B. Substantive Analytical Procedures</b>			
1. Compare current year sales and other income balances to the preceding year's balances or expected balances. Balances may include gross sales, discounts granted, returns, credits allowed, and net sales. Consider disaggregating the data, such as by product line, division, seasons of the year, etc. Investigate any significant deviations from the expected balances.	_____	_____	_____
<b>C. Detailed Tests</b>			
1. Obtain the sales journal and for a selected period(s):			
a. Trace totals from the sales journal to the general ledger control accounts for revenues, receivables, and such other accounts as salesmen's commissions, provisions, and allowances for product warranties, etc.	_____	_____	_____
b. Trace selected individual items from the sales journal to such other subsidiary records as the salesmen's commissions detail, and entries to charge cost.	_____	_____	_____
c. Reconcile the sales journal to the entries to charge cost of sales and credit inventory.	_____	_____	_____
d. Test the arithmetic accuracy of the footings and crossfootings of the journals.	_____	_____	_____
2. Obtain the cash receipts journal and perform the following on a test basis for a selected period(s):			
a. Trace totals to the general ledger for both the cash account and applicable account distributions such as accounts receivable, cash sales, investment income, and additions to notes payable (re: proceeds).	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	b. Test the arithmetic accuracy of the footings and crossfootings of the cash receipts journal; reconcile total receipts to total deposits per the bank statement.	_____	_____	_____
A B C D	3. Select (using appropriate sampling techniques) _____ shipping orders prepared during the year and vouch to related sales invoices and trace into the sales journal.	_____	_____	_____
[A] [B] [C] [D] [E] [F]	4. Scan source journals for the period for unusual transactions. Determine that they are accounted for properly. Follow up on any unusual or related-party transactions.	_____	_____	_____
A B D	5. Review the source journal for any large or unusual sales transactions, especially near year end. Examine invoice and shipping document.	_____	_____	_____
A F	6. Ascertain whether the entity ships goods to be held on consignment by others, and if so:			
	a. Identify the control accounts, procedures, and entities to whom consignment shipments are made.	_____	_____	_____
	b. Examine consignment agreements.	_____	_____	_____
	c. Review subsidiary accounts for entities to whom consignment shipments are made; examine supporting detail and ascertain that shipments on consignment are properly recorded.	_____	_____	_____
	d. Review shipping advices and trace consignment shipments to the applicable subsidiary records and control accounts; ascertain that consignment shipments are correctly classified and recorded.	_____	_____	_____
	e. Investigate old or significant consignments to determine whether there are any unrecorded sales.	_____	_____	_____
A [F]	7. Identify amounts of sales to affiliates, obtain an understanding of their business purpose, and note for disclosure and/or tracing to consolidation eliminating entries. Identify amounts of sales to other related parties.	_____	_____	_____
A B C	8. For sales cut off as of the closing date for the year (period) and/or the date of the physical inventory:			
	a. Select sales invoices for testing from the sales register for several days before and after the year end (or at the physical inventory date) and examine shipping records and determine that they were recorded in the proper period.	_____	_____	_____
	b. Select credit memos issued after year end and examine underlying documentation (for example, record of receipt of returned goods) to determine period to which credit memo is applicable and whether it was recorded in the proper period.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	c. Inquire of the client if there are unprocessed sales or customer credit memos. Inspect supporting documents to determine whether they should have been recorded prior to year end.	_____	_____	_____
A C E	9. Ascertain that the following income accounts have been traced to the analysis working papers for examination of the related balance-sheet accounts:			
	a. Interest income (notes receivable, debt securities, capitalized leases, etc.).	_____	_____	_____
	b. Dividend income and realized gain (investment securities).	_____	_____	_____
	c. Increase in investments accounted for on the equity method (investments).	_____	_____	_____
	d. Gain on sale of property and equipment (property and equipment).	_____	_____	_____
	e. Other miscellaneous revenue amounts, as appropriate.	_____	_____	_____
A E	10. Obtain (or prepare) an analysis of rent and royalty income and examine supporting agreements (should be related to examination of leases and other agreements). Determine reasonableness of amounts.	_____	_____	_____
A B C D	11. Determine proper income recognition when the right of return exists.	_____	_____	_____
A B C D F	12. Determine that any product financing arrangements are accounted for properly.	_____	_____	_____
A B C D	13. Determine that sales of extended warranty and product maintenance contracts are accounted for properly.	_____	_____	_____
A	14. If earnings-per-share information is presented, determine that the computation and presentation of such amounts are in conformity with the requirements of FASB Statement No. 128, <i>Earnings per Share</i> .	_____	_____	_____

d. Assessment of risk of material misstatement (due to error, fraud, illegal acts, or other factors)	_____	_____	_____
e. Other planning documents and risk assessments	_____	_____	_____
2. Based on the risk assessment made during planning (including the risk of material misstatement due to error or fraud), determine whether additional procedures, beyond those included in this program, are necessary. Consult all relevant planning documents (e.g., Fraud Risk Factor Memory Jogger [AAM section 3165.12]) when making this decision. If additional procedures are necessary, add them to this program.	_____	_____	_____
<b>A B C B. Substantive Analytical Procedures</b>			
<b>D E F</b>			
1. Compare cost of sales and expense account balances to the preceding year's balances or expected balances. Investigate any significant deviations from the expected balances.	_____	_____	_____
2. While completing the procedures in step 1 above, examine the propriety of the balances in the following accounts, as deemed necessary.	_____	_____	_____
a. Officers' salaries and bonuses. Determine board of directors' authorization.	_____	_____	_____
b. Officers' expenses (for tax return).	_____	_____	_____
c. Contributions (eligible for deduction).	_____	_____	_____
d. Rents (look for potential capitalizable leases).	_____	_____	_____
e. Legal and professional services (look for any payments that may represent undisclosed legal matters).	_____	_____	_____
f. Taxes (for tax return).	_____	_____	_____
g. Repairs and maintenance (look for capitalizable items).	_____	_____	_____
h. Supplies (look for capitalizable items).	_____	_____	_____
i. Travel, conference, spousal travel, and entertainment expenses (look for adequate documentation and abuse).	_____	_____	_____
j. Property tax expense (for unrecorded property).	_____	_____	_____
k. Other miscellaneous expenses.	_____	_____	_____

#### Practice Tip

An analysis of trial balance expense accounts can prove to be a valuable tool for both the audit and any tax engagements you have with the client. At tax time, it's beneficial to have the details of expenses required to prepare the client's tax return. It will save you time (and money) to prepare these schedules during the audit.

- Calculate gross profit percentages by product line (or other method as deemed appropriate). Compare percentages to the preceding year's percentages or expected percentages and investigate significant deviations from the expected percentages.

\_\_\_\_\_

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	4. Calculate individual expense categories as a percentage of total expenses. Compare to similar percentages for the prior year or to expected percentages. Investigate any significant deviations from expected percentages.	_____	_____	_____
<b>C. Detailed Tests</b>				
	1. Obtain the cash disbursements journal and for a selected period(s):			
	a. Trace totals from the cash disbursements journal to the general ledger control account for accounts payable, cash, and such other accounts as payroll expense, rent expense, insurance expense, interest expense, etc.	_____	_____	_____
	b. Select a sample of individual expenses from the cash disbursements journal for detailed testing. Trace selected expenses to supporting documentation, such as vendor invoices, canceled checks, or other subsidiary records. Determine that expenses are recorded in the proper amount and in the proper period.	_____	_____	_____
	c. Test the arithmetic accuracy of the footings and crossfootings of the journals.	_____	_____	_____
A B D	2. Scan source journals for the period for large or unusual transactions and determine that they are properly recorded.	_____	_____	_____
A B C F	3. Determine that the following expense accounts have been traced to the analysis working papers for examination of the related asset and liability balances:			
	a. Bad debt expense (allowance for doubtful accounts—trade receivables).	_____	_____	_____
	b. Insurance expense (prepaid insurance and accrued premiums for workmen's compensation).	_____	_____	_____
	c. Property taxes (prepaid and/or accrued property taxes).	_____	_____	_____
	d. Depreciation expense (property and equipment and accumulated depreciation).	_____	_____	_____
	e. Amortization costs (intangible assets).	_____	_____	_____
	f. Interest expense (notes payable, long-term debt, capitalized leases).	_____	_____	_____
	g. Provision for income taxes (liability for income taxes currently payable, deferred income taxes).	_____	_____	_____
	h. Loss on sale or disposition of property and equipment (property and equipment).	_____	_____	_____
	i. Other expenses, as deemed appropriate.	_____	_____	_____
	4. Determine that advertising costs are accounted for in accordance with SOP 93-7, <i>Reporting on Advertising Costs</i> .	_____	_____	_____
A B	5. If the client has incurred external or internal costs associated with modifying internal-use software for the year 2000, determine that those costs have been charged to expense as incurred.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	6. Consider whether the classification of expenses is in conformity with generally accepted accounting principles consistently applied.	_____	_____	_____
<b>D. Payroll</b>				
A B F	1. Compute the following as a percentage of total revenues and compare to prior year's percentages or expected percentages. Investigate any significant deviations from the expected percentages. a. Payroll (direct and indirect labor, officers' salaries) b. Benefits c. Commissions	_____	_____	_____
A B F	2. Compute average compensation and fringes divided by number of full-time equivalents (FTEs) and compare to prior years and peer group statistics.	_____	_____	_____
A B F	3. Calculate and investigate total payroll and benefits costs divided by average assets, compare to prior year's ratio or expected ratio, and correlate results to other analytical procedures. Investigate significant or unexpected results.	_____	_____	_____
A B F	4. Compute payroll tax expense as a percentage of total wages and salaries and compare to prior year's percentage or expected percentage. Investigate significant deviations from expected percentages.	_____	_____	_____
A B F	5. Reconcile gross wages on payroll tax returns to general ledger.	_____	_____	_____
A B F	6. Review payroll tax returns to determine that they are being properly filed; and tax liabilities are paid timely.	_____	_____	_____
A B F	7. If analytical procedures are not deemed sufficient, select a sample of payroll transactions for detailed testing as follows: a. Trace selected employee to personnel records, to verify existence of employee, pay rate, legal status, etc. b. Recalculate gross and net pay for propriety. c. Trace pay amount into proper recording into subledgers and general ledger.	_____	_____	_____

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
-------------	--------------------	-------------	---------------------

XVI. Contingencies, Commitments, and Litigation

Financial Statement Assertions:

- 1. Existence or occurrence.
- 2. Completeness.
- 3. Rights and obligations.
- 4. Valuation or allocation.
- 5. Presentation and disclosure.

Objectives:

- A. Contingencies exist—Identify the existence of any contingencies arising from litigation, claims, and assessments; when the underlying cause occurred; the likelihood of an unfavorable outcome, and the amount or range of possible loss. (Assertions 1, 2, 3, and 4)
- B. Proper recording and disclosure—The financial statements include proper accruals and/or disclosure of the contingencies. (Assertion 5)

**Note:** The letters preceding each of the above audit objectives serve as identification codes. These codes are presented in the objective column when the audit step accomplishes the specific objective. If the letter appears in brackets, i.e., [A], [B], etc., the audit procedure only secondarily accomplishes the objective.

Procedures:

A. Preliminary Procedures

- 1. Review the results of applicable sections of the following to determine the nature, timing, and extent of procedures:
  - a. Preliminary analytical review
  - b. Assessment of risk of material misstatement (due to error, fraud, illegal acts, or other factors)
  - c. Other planning documents and risk assessments

_____	_____	_____
_____	_____	_____
_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	2. Based on the risk assessment made during planning (including the risk of material misstatement due to error or fraud), determine whether additional procedures, beyond those included in this program, are necessary. Consult all relevant planning documents (e.g., Fraud Risk Factor Memory Jogger [AAM section 3165.12]) when making this decision. If additional procedures are necessary, add them to this program.	_____	_____	_____
	<b>B. Contingencies</b>			
A B	1. If it appears the client may have engaged in any questionable or illegal acts or irregularities, obtain an understanding of the nature of the act, the circumstances in which it occurred, and sufficient other information to evaluate the effect on the financial statements. Procedures are to include inquiry of management at a level above those involved, if possible.	_____	_____	_____
A B	2. If management does not provide satisfactory information that there has been no illegal acts or irregularities, consult with the client's legal counsel or other specialists about the application of relevant laws and regulations. Arrangements for such consultation with client's legal counsel should be made by the client.	_____	_____	_____
A B	3. Review minutes of directors' meetings and discuss all pertinent items with management. Make excerpts and agree to applicable working papers.	_____	_____	_____
A B	4. Inquire of management as to the existence, amount, and accrual of contingencies, with respect to such matters as: (If none, so indicate.)			
	a. Litigation in process or threatened.	_____	_____	_____
	b. Receivables or other assets sold or assigned with recourse.	_____	_____	_____
	c. Discounted receivables.	_____	_____	_____
	d. Debt guarantees of others.	_____	_____	_____
	e. Accommodation endorsements.	_____	_____	_____
	f. Potential tax assessments (property, sales, etc.).	_____	_____	_____
	g. Additional federal or state income taxes.	_____	_____	_____
	h. Governmental laws, regulations, or determinations with adverse effect (wage-hour, safety, etc.).	_____	_____	_____
	i. Pension plans.	_____	_____	_____
	j. Revenue subject to renegotiation.	_____	_____	_____
	k. Self-insurance.	_____	_____	_____
	l. Product warranties.	_____	_____	_____
A B	5. Review legal fees for the period for indication of possible contingent liabilities.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
A B	6. Obtain from management a description and evaluation of litigation, claims, and assessments that existed at the balance-sheet date to the date the information is furnished, including an identification of those matters referred to legal counsel.	_____	_____	_____
A B	7. Examine documents in the client's possession concerning litigation, claims, and assessments, including correspondence and invoices from lawyers.	_____	_____	_____
A B	8. Obtain assurance from management, ordinarily in writing, that it has disclosed all unasserted claims that the lawyer has advised them are probable of assertion and must be disclosed in accordance with FASB Statement No. 5 (AC C59). With the client's permission, inform the lawyer that the client has given the firm this assurance.	_____	_____	_____
A B	9. Have the client prepare a letter to its lawyer(s) to respond directly to us, as of the balance-sheet date, his or her summary and opinion as to the outcome of (a) all claims and lawsuits, threatened or pending, (b) tax assessments, proposed or made, (c) unbilled legal fees if any, (d) any other contingent liabilities of which the lawyer(s) have knowledge.	_____	_____	_____
<u>List of All Lawyer Letters Requested</u>		<u>Date Requested</u>	<u>Received</u>	
_____		_____	_____	
_____		_____	_____	
_____		_____	_____	
_____		_____	_____	
_____		_____	_____	
A B	10. Evaluate responses from lawyers and document conclusions:			
	a. If a response date is earlier than 2 weeks prior to date of auditors' report, obtain a written or oral update.	_____	_____	_____
	b. If update not obtained, document why. (If lawyer does not report any matters to us and management represents to us there are no litigation or unasserted claims, it <i>may</i> not be necessary to obtain an update.)	_____	_____	_____
	c. Cross-reference all recorded reported liabilities to current working papers.	_____	_____	_____
	d. Document your conclusion(s) as to the effect(s) on the financial statements and our report of matters included in the attorney letter(s).	_____	_____	_____
B	11. Consider the adequacy of financial statement disclosure for contingencies.	_____	_____	_____

**C. Commitments**

- A B 1. Inquire of appropriate officials as to the existence and amount of commitments, with respect to such matters as: (If none, so indicate.)

<u>Obj.</u>	<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
a. Unfilled purchase commitments in excess of normal requirements or at prices materially in excess of prevailing market prices.	_____	_____	_____
b. Contractual obligations for purchase or sale of property, plant, and equipment or other investments.	_____	_____	_____
c. Unused letters of credit.	_____	_____	_____
d. Long-term leases.	_____	_____	_____
e. Assets pledged as collateral for loans or deposits.	_____	_____	_____
f. Cumulative preferred stock dividends in arrears.	_____	_____	_____
g. Mergers or acquisitions pending.	_____	_____	_____
h. Capital stock repurchase agreements.	_____	_____	_____
i. Futures contracts.	_____	_____	_____
j. Other.	_____	_____	_____

**Procedures:****A. Substantive Test Procedures**

- A B C    1. Perform at or near the completion of field work the following auditing procedures with respect to the period after the balance-

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	sheet date for the purpose of identifying subsequent events that may require adjustment or disclosure in the financial statements:			
	a. Read the latest available interim financial statements; compare them with the financial statements being reported upon; and make any other comparisons considered appropriate in the circumstances. (Inquire of officers and other executives having responsibility for financial and accounting matters as to whether the interim statements have been prepared on the same basis as that used for the statements under audit.)	_____	_____	_____
	b. Read the available minutes of the stockholders, directors, and appropriate committees to the date of the auditor's report. As to meetings for which minutes are not available, obtain written information regarding matters dealt with at such meetings. Indicate minutes read, persons questioned, and any significant information found.	_____	_____	_____
	c. Scan the general ledger and journals for the period from the balance-sheet date to the date of the auditor's report and inquire into and investigate any large, unusual amounts or transactions. This test may be limited to the areas not covered in audit procedures applied in other programs, such as in the search for unrecorded liabilities.	_____	_____	_____
A B C	2. As of the date of the auditor's report, inquire of and discuss with officers and other executives having responsibility for financial and accounting matters as to:			
	a. The client's operations and management.	_____	_____	_____
	b. Changes in accounting/financial policies.	_____	_____	_____
	c. New borrowings or other financing.	_____	_____	_____
	d. Substantial contingent liabilities or commitments.	_____	_____	_____
	e. Whether there has been any significant change in assets or liabilities.	_____	_____	_____
	f. The current status of items in the financial statements being reported on that were accounted for on the basis of tentative, preliminary, or inconclusive data.	_____	_____	_____
	g. Unusual adjustments made during the subsequent period.	_____	_____	_____
	h. Commitments or plans for major purchases of capital additions or materials, and consideration of possible losses due to price trends.	_____	_____	_____
	i. Events occurring that have caused a decline in the value of any assets or have made any significant portion of fixed assets inoperable or obsolete.	_____	_____	_____
	j. Settlement of any liabilities for less than face value.	_____	_____	_____

<u>Obj.</u>		<u>Done By</u>	<u>Date</u>	<u>W/P Ref.</u>
	k. Liabilities in dispute or being contested.	_____	_____	_____
	l. Litigation, claims, and assessments.	_____	_____	_____
	m. Recent profit trends, losses of significant customers, unusual losses, substantial increases in costs, etc.	_____	_____	_____
	n. Examinations or audits instituted by regulatory agencies.	_____	_____	_____
	o. Employee benefit plans/pension plans.	_____	_____	_____
	p. Potential losses on marketable securities, carrying amounts of equity investments, loans, or other assets not already considered.	_____	_____	_____
	q. Regulatory commissions, governmental body requirements, or laws that could adversely affect the client.	_____	_____	_____
	r. Related-party transactions.	_____	_____	_____
	s. Expiration or cancellation of significant insurance coverage.	_____	_____	_____
	t. Whether any other unusual events or transactions occurred since the balance-sheet date.	_____	_____	_____
A	3. Assemble pertinent findings resulting from response of client's legal counsel and other auditing procedures concerning litigation, claims, and assessments.	_____	_____	_____
A B C	4. Obtain a letter of representation, dated as of the date of the auditor's report, from appropriate officials, generally the chief executive officer and chief financial officer in accordance with SAS No. 19 (AU section 333).	_____	_____	_____
A B C	5. Make such additional inquiries or perform such procedures deemed necessary and appropriate to dispose of questions that arise in carrying out the foregoing procedures, inquiries, and discussions.	_____	_____	_____
C	6. Consider adjustment of year-end financial statements or disclosure of any items resulting from the above procedures.	_____	_____	_____
C	7. Consider the possible effects on financial statements and disclosures of any matters causing substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time.	_____	_____	_____

## *Suggested Supplemental Reference Materials for Use With Illustrative Audit Program for Corporations*

### .01 Suggested Supplemental Reference Materials

The following publications are useful in helping to determine the nature, timing, and extent of audit procedures. To order AICPA products, call 1-888-777-7077.

- **Audit and Accounting Guides (AICPA)**

*Each guide describes relevant matters, conditions, and procedures unique to a particular industry, and illustrates treatments of financial statements and reports to caution auditors and accountants about unusual problems.*

- **Audit Risk Alerts (AICPA)**

*Audit Risk Alerts complement the guidance provided in many of the Audit and Accounting Guides by describing current economic, regulatory, and professional developments that can have a significant impact on engagements.*

- **Professional Standards (AICPA)**

*The publication features the outstanding pronouncements on professional standards issued by the AICPA, including standards for audits, compilations, and reviews.*

- **Accounting Standards—Original Pronouncements (FASB)**

*This publication contains the original text of accounting standards pronouncements with superseded sections and amendments clearly noted.*

- **Accounting Standards—Current Text (FASB)**

*This publication is organized as follows: General Standards—generally applicable to all enterprises; Industry Standards—applicable to enterprises operating in specific industries. It includes comprehensive summaries of each subject, plus applicable standards, illustrations and examples.*

- **Financial Statement Preparation Manual (AICPA)**

*This publication provides sample statements and checklists for a variety of business enterprises and governmental units.*

- **Disclosure Checklist series (AICPA)** (individual paperback versions of sections of the Financial Statement Preparation Manual)

*The practice aids are invaluable to anyone who prepares financial statements and reports. The material has been updated to reflect AICPA, FASB, and GASB pronouncements and interpretations as well as SEC regulations.*

- **Considering Fraud in a Financial Statement Audit (AICPA)**

*This practice guide provides nonauthoritative guidance in implementing Statement on Auditing Standards (SAS) No. 82, Consideration of Fraud in a Financial Statement Audit. The purpose of this book is to help you make informed professional judgments when you consider fraud in a financial statement audit.*

- **Auditing Estimates and Other Soft Accounting Information (AICPA)**

*This practice guide provides nonauthoritative guidance for handling the audit problems related to the audit of soft accounting information, including how SAS No. 57, Auditing Accounting Estimates, may be applied by practicing auditors.*

- **Accounting Trends & Techniques (AICPA)**

*This publication contains reporting methods, based on a cumulative survey; significant accounting presentations, discussions and trends. By following the lead of these industry front-runners, you can apply the latest techniques and improve your own reporting performance.*

- **Technical Practice Aids (AICPA)**

*This publication contains all outstanding AICPA Statements of Position and Practice Bulletins and offers carefully thought-out responses to selected inquiries received by the AICPA Technical Hotline and AICPA Technical and Industry Committees.*

- **Auditing Practice Releases (AICPA)**

*These publications are intended to provide practitioners with non-authoritative practical assistance concerning auditing procedures. Topics include: Confirmation of accounts receivable and audits of inventories.*

- **Solving the Year 2000 Dilemma (AICPA)**

*This guidebook features case studies and gives timely, quality information on the problem in easily understood language.*

- **Audits of Futures Commission Merchants, Introducing Brokers, and Commodity Pools (AICPA)**

*By focusing on unique reporting and auditing matters of commodity entities, this publication gives you nonauthoritative practical guidance on reporting on and auditing these financial statements.*

- **Audit Issues in Revenue Recognition (AICPA)**

*This publication enables preparers, auditors, and audit committees to better understand the importance of accurate revenue recognition. It also reinforces best practices and summarizes the applicable accounting and auditing standards.*

## *Working Papers—General*

.01 Working papers serve both as tools to aid the auditor in performing his work, and as written evidence of the work done to support the auditor's report. SAS No. 41, *Working Papers* (AU section 339), provides authoritative guidance on the functions and nature, general content, and ownership and custody of working papers.

### General Discussion

.02 These sections present points of view on the organization and preparation of working papers.

.03 Proper planning is important in the design of specific working papers if they are to serve the objective of aiding the auditor in the conduct of his work. For example, a well-planned working paper may be designed to provide information that will be needed later in the preparation of tax returns and other required reports, such as those to regulatory bodies, and may therefore eliminate the need for examining the same documents twice to obtain necessary information. The format and content of the working papers may vary with the individual preferences of auditors and firms. These preferences may be informal common practices or expressed as part of a firm's formal written policies and procedures. A firm should consider the nature of its practice and the services commonly provided to its clients, as well as professional standards in developing its procedures and policies on working papers. Those procedures and policies should permit the flexibility necessary to meet the needs of individual engagements.

---

[The next page is 6201.]

# AAM Section 6200

## *Basic Elements of Format*

.01 Working paper formats generally include at least the following for identification purposes:

- A title or heading comprised of (a) the name of the client, (b) a caption that briefly describes the paper's contents, (c) the nature of the engagement, and (d) the applicable period or closing date covered by the engagement.
- The initials or names of the auditors who performed and reviewed the work presented in the paper and the date the paper was completed.

.02 In instances when one working paper requires more than one page, some auditors present the heading on only the lead page, fasten or staple all the applicable pages together as a unit and number each page, for example, 1 of 5, 2 of 5, and so forth. Many auditors index each working paper in some organized pre-established manner. This provides for ease in cross-referencing to other relevant papers, for more organized indexing and filing, and for a form of control over the working papers. (See AAM section 6400.)

.03 Some auditors purchase standard analysis paper that includes preprinted blocks for the initials or signature of the preparer and reviewer, and the dates on which the paper was prepared and reviewed. Others design their own signature and reference blocks and have them imprinted on all of their analysis paper and lined pads. These signature blocks may include captions such as the following:

- prepared by client and tested by
- prepared by
- date prepared
- date tested
- reviewed by
- date reviewed
- source
- work paper reference
- footed by
- extensions checked by

.04 Some auditors prefer to identify client preparation of schedules and analysis by notations or codes, such as "PBC," for prepared by client, rather than use a detailed signature and reference block.

---

# AAM Section 6300

## *Content of Working Papers*

.01 The content of working papers varies with the circumstances and needs of the auditors on individual engagements. Some firms, however, include various general and specific instructions on working paper content in their policies concerning working papers.

### General Considerations

.02 The following are some general considerations on working paper content that may be helpful.

- Working papers should be sufficiently intelligible, clear and neat so that another auditor who has had no previous association with the engagement can review the papers and determine the nature and extent of the work done and how the conclusions were reached that support the resulting auditor's report.
- The content of an individual working paper or group of related papers should include identification of the (1) source of the information presented (e.g., fixed assets ledger, cash disbursements journal), (2) the nature and extent of the work done and conclusions reached (by symbols and legend, narrative, or a combination of both), and (3) appropriate cross-references to other working papers.
- Before completion of the engagement, all questions or exceptions in the working papers should be resolved. If for some reason the auditor must leave the assignment without resolving all items, he should provide an open items listing on a separate temporary paper for the in-charge auditor's attention. An unresolved exception or incomplete explanation in the working papers may be construed by some as indication of an inadequate audit.
- Information and comments in the working papers generally represent statements of fact and professional conclusions. Accordingly, language should be clear and free from such vague judgmental adjectives as "good" or "bad." Conclusions should be supported by documented facts, especially if they concern the adequacy of the client's records.
- Working papers should be viewed as an integrated presentation of information. The auditor should cross-reference working papers to call attention to interaccount relationships and to reference a paper to other working papers summarizing or detailing related information.
- The preparer should view the working papers as if he were the in-charge auditor. All inferences and conclusions should be supported in the working papers and no misleading or irrelevant statements should be made.
- It is preferable to have negative figures in working papers indicated by parentheses instead of red figures to preserve their identity if the papers are photocopied or microfilmed.

### Timesaving Considerations

.03 There are a number of ways to save time and avoid unnecessary detail in working paper preparation. The following examples may be helpful.

- Whenever possible, have the client's employees prepare schedules and analyses. (This, of course, presupposes that the client has the necessary personnel to prepare the materials.)

- Use of a detailed audit program may eliminate the need for lengthy comments in the working papers on the scope of audit procedures. (However, some believe that such comments are still necessary when a detailed program is used; this is a matter of individual firm judgment.)
- Analyze asset (or liability) accounts and their related expense or income accounts on the same working paper. Examples include property, plant, and equipment, accumulated depreciation and related depreciation expense; notes receivable, accrued interest receivable and interest income; notes payable, accrued or prepaid interest, and interest expense; and accrued taxes and related provisions for tax expense.
- Avoid unnecessary computations. For example, if only the totals are meaningful and can be tested by a single independent computation, check the total and avoid unnecessary checking of details.
- Consider using carryforward analyses for accounts that tend to remain constant each year or vary only in accordance with a constant predetermined formula. Examples may include long-term assets and related depreciation or amortization such as plant, equipment, and intangibles, long-term debt with predetermined payment schedules, and capital stock.
- Consider using adding machine tapes instead of writing separate lists. Enter names or explanations on the tapes, when appropriate.
- Do not manually copy a document when photographic reproduction is feasible.
- If in doubt, use a larger sheet of paper—an unused portion is less of a problem than running out of space.
- Use symbols (tick marks) whenever possible, especially when the same symbol applies to several working papers.

## Symbols (Tick Marks)

.04 When using symbols, it should be helpful to consider the following basic concepts:

- Symbols are merely a shorthand means of explaining a work step performed on a particular item of data. Symbols serve as means of conserving time and space and, if properly used, may ease review of the working papers.
- For a working paper to be clear to a reviewer or other reader, each symbol must be clearly explained. The explanation may be located on the same page as the items subjected to the work step, or on a separate legend that is clearly cross-referenced to and from the page that presents the applicable items.
- Symbols should be kept simple, distinctive and clear so they can be quickly written by the preparer and easily identified by a reviewer.

.05 Applying these basic concepts is not that simple. Various auditors have conflicting notions about symbols. For example, on the matter of color, some believe all tick marks should be in color to make it easy to spot them in the working papers. Others believe it is a waste of time to keep “switching pencils” and observe that the color distinction is lost in photocopying. On another matter, some believe a set of standardized symbols can expedite preparation and review. Others believe that a set of standardized symbols is impractical because it lacks flexibility. Because it is generally agreed that symbols are an effective timesaver, it is desirable for firms to establish and communicate a policy on their use to maximize their potential effectiveness.

.06 Commonly used symbols, as noted, should be simple and distinctive, not elaborate hieroglyphics. The most common are variations on a simple checkmark—for example, a checkmark with a slash, a check-

mark with a circle at the end, a double checkmark, and any one of these within a circle. This abbreviated listing alone provides eight distinctive tick marks. Symbols may also include circled letters or numbers.

---

*[The next page is 6401.]*

# AAM Section 6400

## *Organization and Filing (Indexing)*

.01 Some auditors organize their working papers during the course of an engagement into general categories such as the following:

- Planning and administration.
- Internal control understanding and assessment of control risk.
- Substantive test working papers arranged in order of the balance sheet and income statement classifications.
- Trial balances, consolidating working papers, journal entries (adjustments, reclassifications, eliminations for consolidation), and potential entries.
- Draft reports, financial statements, and notes.
- Programs, checklists, and questionnaires (some keep these as separate units, others interfile them among working papers by statement classifications).
- General matters such as current minutes, contracts, and articles of incorporation that may apply to future engagements as well as current work.

Under this approach, actual indexing and filing would be deferred until the conclusion of the engagement.

### Predetermined Indexing

.02 Other practitioners and firms may use a predetermined indexing approach so that working papers can be indexed while the field work is still in progress. This offers the following advantages:

- Better control over working papers during the performance of field work.
- Constant arrangement of working papers in logical order to aid in review.
- Less time required in assembling and binding them into indexed files.
- Quicker access to specific working papers after they are filed.

.03 Predetermined indexing involves establishing a standard code for each section of the working papers, using letters and numbers, or numbers only. For example—

	<i>Two Possible Alternatives</i>	
Working trial balance—assets . . . . .	B/S-A	T/B-1
Working trial balance—liabilities . . . . .	B/S-L	T/B-2
Working trial balance—income & expense . . . . .	P/L	T/B-3
Cash summary schedule . . . . .	A	10
Receivables summary schedule . . . . .	B	20
Inventory summary schedule . . . . .	C	30

.04 Predetermined indexing requires recognition of the need for flexibility to meet unanticipated working paper needs or specialized industry requirements and it requires care to avoid undue complexity. Excessively complex references may obstruct rather than ease working paper preparation, cross-referencing

and filing. Accordingly, it is helpful to develop an organizational plan adaptable to each section of the working papers. For example, some accountants classify working papers as lead schedules, primary detail, and secondary detail which might result in the following classification scheme for the above examples for cash:

	<i>Using Letters and Numbers</i>	<i>Using Only Numbers</i>
Lead schedule . . . . .	(A)	(10)
Primary detail schedules . . . . .	(A-1) (A-2) etc.	(10-1) (10-2) etc.
Secondary detail schedules . . . . .	(A-1-1) (A-1-2) (A-1-3) (A-2-1) (A-2-2) (A-2-3)	(10-1-1) (10-1-2) (10-2-1) (10-2-2)

.05 Predetermined (standardized) indexing systems may be printed on separate pages for reference during the performance of field work and insertion in the front of working paper binders or files when the work is completed. Some firms have their uniform indexing systems printed directly on their file or binder covers.

.06 A well-organized indexing system need not be too complex. On a fairly small engagement, the indexing system may be a lead schedule divider tab between each major group of accounts with the name of the account on it (e.g., cash or accounts receivable) with the related workpapers filed behind the lead schedule without being individually indexed. At the completion of the engagement, the pages can be consecutively numbered within each account group (e.g., 1 of 10, 2 of 10, etc.), since there typically are not numerous or complex layers of supporting schedules, extensive cross-referencing can be avoided.

.07 On large engagements, particularly those with detailed charts of accounts, firms may consider it necessary to develop more complex indexing systems. In one such system, standard index number series are assigned as follows:

Current workpaper file . . . . .	1000—7000
Permanent file . . . . .	7100—9999

.08 In this system, each index number consists of four digits, with the addition decimals if necessary. Numbers ending with double zero are reserved for lead schedules whose total agrees with a line item on the working trial balance (index 1400). Single zeros are used for specific types of accounts (such as 2010, petty cash funds).

.09 Certain index numbers can be permanently assigned to each major financial statement classification. For instance, index 2000 may be assigned to cash. If various bank accounts exist, the cash schedules are assigned index numbers 2002, 2003, etc. Documentation such as supporting confirmations and lists of outstanding checks would be assigned index numbers commencing with 2001.1, 2001.2, etc. As for the permanent workpaper file, index 9300, for example, may be assigned to internal control. Accordingly, flowcharts and related questionnaires would be assigned index numbers in that series.

**Current and Permanent Files**

.10 Working paper files are generally classified as current files and permanent (continuing) files. Current files contain information that is pertinent to a single engagement. Permanent files include information relevant to several recurring engagements. Some firms have their binder or file covers preprinted as current or permanent accompanied by pertinent portions of their uniform working paper indexes.

.11 A common challenge to many auditors is to keep the permanent file complete and current, and free from outdated or irrelevant materials that belong in an inactive file of superseded materials.

.12 Some auditors who have confronted one too many unwieldy permanent files believe all working papers should be classified as current with certain materials designated as *matters of continuing interest* to

be carried forward each year until they become outdated. Under this approach, a firm may preprint its complete index on one type of file or binder cover and provide space to indicate whether specific contents are continuing or carryforward in nature.

.13 The permanent files should be reviewed and updated, as needed, annually. Examples of documents that may be found in permanent files are listed in AAM section 6400.15(p).

---

#### Practice Tip

The work-paper files should contain copies of final executed documents. Any drafts or unsigned versions of documents should be replaced with final versions.

---

## Work-Paper Retention

.14 Determining the proper periods for retaining records is a major decision for practitioners. Records should be preserved for only as long as they serve a useful purpose or until all legal requirements are met. Record retention periods vary among firms; however, retention periods should generally correspond with the longest statute of limitations prevailing in each state for breach of contract, breach of fiduciary duty, and professional liability claims.

.15 Work-papers may be retained permanently or for periods corresponding with the longest state statute of limitations, as noted above. Generally, certain audited financial statement work-paper data, such as accounts receivable confirmations are destroyed after ten years. Examples of workpapers that should be retained permanently include auditor's reports, reports filed with the SEC, tax returns for current clients, and audit work-papers for current clients. Some firms divide the retention period into two parts, records are first filed in the office and later placed in storage (e.g., three years in the office and then permanently in storage). Other records, such as work-paper files for former clients, may be retained for three years in the office, seven years in storage and then destroyed after the retention period. No material should be destroyed without the specific approval of the engagement partner. An annual schedule should be established for reviewing and purging firm data. Since there is substantial variation in the retention periods used by firms, each firm should carefully consider its requirements and consult with legal counsel before adopting a retention period.

.16 For further guidance on record retention, see the *AICPA Management of an Accounting Practice Handbook*.

## Index Topics

.17 The following is a list of topics to consider in developing a standard index for working papers. This list is detailed, but is by no means all-inclusive. For example, specialized industries such as life insurance and banking need other specialized topics. Several of the topics may be eliminated, condensed or expanded, depending on the auditor's needs and preferences. Topics that some auditors prefer to include in both the permanent and current files or only in the permanent files are followed by the letter (P).

### Planning and administration

- Time & budget data
- General correspondence & memos
- Planning memos—current
- Planning notes & confirm copies for use in next engagement
- Engagement letters

- Schedules & analyses to be prepared by client
- Minutes
- Checklist of an administrative nature if required by firm policy

Audit or work program (Note 1)

Matters of continuing concern

- Client's industry—background (P)
- Description & brief history of client (P)
- Data & ratio analysis of client's operations (P)
- Client's facilities (P)
- Articles of incorporation (P)
- Bylaws (P)
- Current contracts & agreements (P)
  - Debt agreements (P)
  - Leases (P)
  - Labor contracts (P)
  - Agreements with officers & key people (P)
  - Pension plans (P)
  - Profit-sharing plans (P)
  - Stock warrants (P)
  - Stock options (P)
  - Other agreements (P)

- Client's accounting policies & procedures (P)
- Carryforward analyses (Note 2)

Internal control

- Internal control questionnaire, narratives, flowcharts, etc. (Note 3)
- Initial assessment of control risk memos
- Tests of controls

Reports, financial statements and footnotes, trial balances, and assembly sheets

- Reports & financial statements (including letter, if any, on reportable conditions in internal control)
- Consolidating working papers
- Consolidation eliminating entries
- Trial balance

- Adjusting journal entries
- Reclassification journal entries
- Recap of possible adjusting entries
- Assembly sheets supporting footnote disclosures (if the information is not included elsewhere in the working papers)
- Disclosure checklists (if required by firm policy)
- Supporting schedules (if required for reports to regulatory bodies or other reports)
- Tax return information & work sheets (Note 4)

#### Assets

- Cash
- Marketable securities (and related income)
- Notes receivable (and related interest)
- Accounts receivable
  - Summary and analyses
  - Confirmation procedures (Notes 2 and 5)
- Allowance for doubtful accounts & notes (Note 2)
- Inventories
  - Summary and analyses
  - Price tests, cost & market
  - Obsolescence review
  - Observation, test counts & cutoff data
  - LIFO determinations
- Prepaid expenses
- Other current assets
- Investments
- Property, plant & equipment, and accumulated depreciation, depletion & amortization (Note 2)
- Intangible assets, deferred charges & amortization (Note 2)
- Other assets
- Intercompany accounts

#### Liabilities

- Notes payable (and related interest)
- Accounts payable
- Accrued liabilities other than income taxes

- Accrued income taxes (current & deferred), related provisions & credits (Note 2)
  - Federal
  - State & local
- Other current liabilities
- Long-term debt (including current maturities and capitalized leases) (Note 2)
- Other long-term liabilities
- Deferred income (Note 2)

Commitments and contingencies

- Attorneys' letters
- Abstracts of commitments & contingencies noted during review of minutes, contracts & agreements, confirmation responses, etc.
- Subsequent events review
- Management representation letter

Equity (capital accounts) (Note 2)

- Capital stock
- Additional paid-in capital
- Treasury stock
- Retained earnings
- Partnership capital

Revenue and expenses

- Operating revenues
- Cost of sales
- Selling, general & administrative
- Other operating expenses
- Other income
- Other expense
- Extraordinary & unusual items
- Secondary schedules
  - Maintenance & repairs
  - Taxes other than income taxes
  - Rents
  - Royalties
  - Advertising costs
  - Legal fees
  - Interest expense recap

---

**Notes to User:**

1. Alternate practices of filing audit programs include:
    - (a) Putting the program in a binder that is separate and distinct from the current and permanent files.
    - (b) Putting the signed off program in the current file.
    - (c) Keeping a master copy of the program in the permanent file with the signed off copies dispersed among the related working paper segments in the current file.
  2. Certain classifications may lend themselves to carry-forward working papers. Examples include allowances for doubtful accounts, brief summaries of confirmation response statistics, accumulated depreciation and amortization, deferred income taxes and open tax positions, long-term debt, and capital accounts.
  3. Internal control questionnaires may be filed as separate binders or as part of current of permanent files.
  4. Some firms and practitioners keep tax return preparation working papers in files that are completely separate from other types of engagement working papers.
  5. For situations involving voluminous confirmation responses or bulk inventory listings, the bulk materials may be filed in separate binders that are cross referenced to the pertinent working papers (for example: accounts receivable, accounts payable, and inventory).
-

## Correspondence, Confirmation & Representations

These samples are presented for illustrative purposes only. They are intended as mere conveniences for users of this Manual who may want points of departure when designing their own formats to meet their individual needs. These illustrations are neither all inclusive nor are they prescribed minimums. Auditors and accountants are to rely on professional standards and their individual professional judgment in determining what may be needed in the circumstances.

# AAM Section 7100

## *Control of Confirmations and Correspondence*

.01 Generally, clients prepare correspondence and confirmation requests on their own letterhead and submit to the auditor the signed originals and copies. The auditor may obtain one or more copies to serve as file copies for the current working papers, second requests and manuscript copies for the next engagement.

.02 There are two types of confirmation requests: the positive form and the negative form. Some positive forms request the respondent to indicate whether he or she agrees with the information stated on the request. Other positive forms, referred to as blank forms, do not state the amount (or other information) on the confirmation request, but request the recipient to fill in the balance or furnish other information.

.03 The negative form requests the recipient to respond only if he or she disagrees with the information stated on the request. Negative confirmation requests may be used to reduce audit risk to an acceptable level when: (a) the combined assessed level of inherent and control risk is low, (b) a large number of small balances is involved, and (c) the auditor has no reason to believe that the recipients of the requests are unlikely to give them consideration.

.04 The confirmation requests should be reviewed to the extent the auditor considers necessary. For example, the auditor may perform the following for accounts receivable confirmation requests before they are mailed:

- Compare the names and addresses to the client's records.
- Compare balances per confirmation requests to the subsidiary ledger.

.05 The requests would then be stuffed in envelopes and submitted to the post office under the auditor's control.

.06 The auditor controls the mailings and receipt of responses so that the confirmation process is independent of the client.

.07 Mailing envelopes have the auditor's office or post office box number as the return address so that undeliverable letters are returned to the auditor and not to the client. For mailings, the auditor may provide the envelopes or affix a label on the client's envelope that covers the client's return address and replaces it with the auditor's address.

.08 Reply envelopes addressed to the auditor are enclosed with the request letter. Reply envelopes generally have prepaid postage to encourage responses. Some auditors also use codes on the reply envelopes so that responses may be sorted by engagement before the mail is opened. This feature may be particularly useful when there are several engagements that involve voluminous mailings.

.09 If the client objects to use of the auditor's name and address, some auditors suggest that a post office box in the client's name be used, with the returns to be opened under the auditor's control for the confirmation process, and that the post office be instructed that after the box is closed subsequent mail be forwarded to the auditor.

---

[The next page is 7201.]

# AAM Section 7200

## *Requests for Confirmations and Related Materials*

### Wording of Confirmation Request Forms

.01 Forms and correspondence used for confirmation requests should state clearly that the client is requesting that a reply be sent to the CPA. Forms and correspondence used for information requests for engagements other than audits should not refer to "an audit." They should also use the term "accountant(s)" rather than "auditors." Suggested wording follows:

Please send the following information to our certified public accountants (*name and address of accountants*) who are performing accounting services for the company.

.02 The samples of correspondence in this section include language that refers to auditors and an audit of the client's financial statements on the assumption that an audit is being performed. This language needs to be modified if services other than an audit are being performed.

**.03 Request for Bank Cutoff Statement***[Prepared on Client's Letterhead]**[Date]*

Financial Institution Official  
 First United Bank  
 Anytown, USA 00000

In connection with an audit of the financial statements of *(name of client)* as of *(balance-sheet date)* and for the *(period)* then ended, we request that you send the following information directly to our auditors *(name and address of auditors)* as of close of business *(balance-sheet date)*:

1. The information requested on the enclosed standard form(s) to confirm account balance information with your financial institution.
2. For the account numbers listed below, statement(s) of our account(s) and the related paid checks for the period from *(balance-sheet date)* to *(two weeks subsequent to the balance-sheet date)* inclusive.

<i>Account Number</i>	<i>Account Name</i>
_____	_____
_____	_____
_____	_____
_____	_____

Sincerely,

*[Name of Customer]*

\_\_\_\_\_

By: \_\_\_\_\_

\_\_\_\_\_

**Notes:** (A) This letter should be addressed to a financial institution official who is responsible for the financial institution's relationship with the client or is knowledgeable about the transactions or arrangements. Some financial institutions centralize this function by assigning responsibility for responding to confirmation requests to a separate function. Independent auditors should ascertain the appropriate recipient.

(B) The request should be sent at least ten days prior to the audit date so the bank will be able to provide the information requested and to render the cutoff statements as requested. If the request does not reach the bank before the cutoff date, the cutoff statement will include transactions after that date.

(C) The letter may also include requests for:

- Confirmation of all securities or other items held for the clients account as of the closing date for collection or safekeeping, or as agent or trustee (a listing should be provided including titles and account numbers).
- Confirmation of the list of authorized signers for the above accounts. (This may have been previously requested at a preliminary date in connection with assessment of control risk.)

.04

### STANDARD FORM TO CONFIRM ACCOUNT BALANCE INFORMATION WITH FINANCIAL INSTITUTIONS

\_\_\_\_\_  
CUSTOMER NAME

Financial Institution's Name and Address [ ] We have provided to our accountants the following information as of the close of business on \_\_\_\_\_, 19\_\_\_\_, regarding our deposit and loan balances. Please confirm the accuracy of the information, noting any exceptions to the information provided. If the balances have been left blank, please complete this form by furnishing the balance in the appropriate space below.\* Although we do not request nor expect you to conduct a comprehensive, detailed search of your records, if during the process of completing this confirmation additional information about other deposit and loan accounts we may have with you comes to your attention, please include such information below. Please use the enclosed envelope to return the form directly to our accountants.

1. At the close of business on the date listed above, our records indicated the following deposit balance(s):

ACCOUNT NAME	ACCOUNT NO.	INTEREST RATE	BALANCE*

2. We were directly liable to the financial institution for loans at the close of business on the date listed above as follows:

ACCOUNT NO./ DESCRIPTION	BALANCE*	DATE DUE	INTEREST RATE	DATE THROUGH WHICH INTEREST IS PAID	DESCRIPTION OF COLLATERAL

\_\_\_\_\_  
(Customer's Authorized Signature)

\_\_\_\_\_  
(Date)

The information presented above by the customer is in agreement with our records. Although we have not conducted a comprehensive, detailed search of our records, no other deposit or loan accounts have come to our attention except as noted below.

\_\_\_\_\_  
(Financial Institution Authorized Signature)

\_\_\_\_\_  
(Date)

\_\_\_\_\_  
(Title)

EXCEPTIONS AND/OR COMMENTS

Please return this form directly to our accountants:

[ ]

\* Ordinarily, balances are intentionally left blank if they are not available at the time the form is prepared.

[ ]

**.05 Request for Confirmation of Petty Cash Fund and Advances to Employees***[Prepared on Client's Letterhead]**[Date]**[Name]**[Address]*

Our auditors, *(name and address of auditors)* are conducting an audit of our financial statements. Accordingly, please confirm directly to our auditors the balance of the petty cash fund (or amount of advances) in your possession as of December 31, 19XX which was shown by our records as \$\_\_\_\_\_.

Please indicate in the space provided below whether the amount above agrees with your records. If not, please send the auditors any information you have that will help them reconcile the difference.

After signing and dating your reply, please return it directly to the auditors. A stamped, addressed enveloped is enclosed for your convenience.

Very truly yours,

*[Client's Authorized Signature]*

---

The foregoing information is in agreement with my records as of December 31, 19XX with the following exceptions (if any):

---

---

---

Date: \_\_\_\_\_ Signed: \_\_\_\_\_

**.06 Securities and Cash in Custodian or Trust Accounts***[Prepared on Client's Letterhead]**[Date]**[Name of Custodian or Trustee]**[Address]*

Our auditors, *(name and address of auditors)* are conducting an audit of our financial statements. Accordingly, please confirm directly to our auditors the enclosed list of securities owned at *(date)* and the amount of principal and income of cash held by you at that date for each of the following accounts [Notes (B) & (C)]:

(If a list is not obtained from the client, the auditor should complete the following for each account:

	Name of Account	Account No. [Note (A)]	Amount Held
1.	_____	_____	_____
2.	_____	_____	_____
3.	_____	_____	_____ )

Please also indicate to the auditors whether to your knowledge any of the securities are pledged or otherwise encumbered.

Please mail your reply directly to the auditors. A stamped, addressed envelope is enclosed for your convenience.

Very truly yours,

*[Client's Authorized Signature]*

**Notes:** (A) Use the custodian or trustee's account number.

(B) This letter may be expanded, if necessary, to request cutoff statements of activity (principal and interest) in the accounts.

(C) Sometimes this request is combined with a request for cutoff bank statements and the standard form to confirm account balance information with financial institutions. However, it may be more practical to send separate letters because a bank's commercial banking and trust departments are usually separate operations.

**.07 Securities Held by Brokers**

*[Prepared on Client's Letterhead]*

*[Date]*

*[Broker's Name]*

*[Address]*

In connection with the audit of our financial statements, please send directly to our auditors (*name and address of auditors*), a statement of our account(s) with you as of (*date*), indicating the following information:

1. Securities held by you for our account.
2. Securities out for transfer to our name.
3. Any amounts payable to or due from us.

Please mail your reply directly to the auditors. A stamped, addressed envelope is enclosed for your convenience.

Very truly yours,

*[Client's Authorized Signature]*

---

**Notes:** (A) The request should be sent so it reaches the broker sufficiently in advance of the listing date for the broker to respond in a practical manner.

(B) It may be helpful to include the account number(s) used by the broker for the client's account(s).

**.08 Sample Receipts for Return of Cash or Securities Counted by Auditor's Representative, and Cutoff Bank Statements Received Directly by the Auditors**

**Cash Count**

The above detailed items were counted in my presence and returned to me intact by *(individual's name)*, representative of *(auditor's firm name)*.

*(Date and Time)*

Custodian: \_\_\_\_\_  
*(Custodian's Signature)*

**Securities Count**

Received intact from *(individual's name)*, representative of *(auditor's firm name)*, the securities listed above contained in Box \_\_\_\_\_ of the *(name of bank or custodian)* which were counted by him or her in my presence (or presented to him or her for count).

Date and Time: \_\_\_\_\_

Signed: \_\_\_\_\_

Title: \_\_\_\_\_

**Cutoff Bank Statement(s)**

Received intact from *(individual's name)*, representative of *(auditor's firm name)*, the cutoff bank statements and related paid checks for the period from \_\_\_\_\_ to \_\_\_\_\_ *(periods indicated)* for the accounts listed below:

Date and Time: \_\_\_\_\_

Signed: \_\_\_\_\_

Title: \_\_\_\_\_

\_\_\_\_\_  
**Notes:** (A) Receipt(s) should be written and signed in *ink*.

(B) For counts of petty cash funds, the receipt may be written directly on the bottom of the petty cash-count working paper. For security counts and returns of cutoff bank statements, the receipt may be prepared as a separate working paper.

**.09 Accounts Receivable—Positive***[Prepared on Client's Letterhead]**[Customer Name]**[Address]*

In connection with the audit of our financial statements, please confirm directly to our auditors (*name and address of auditors*) the amount of your indebtedness to us which according to our records as of (*date*) amounted to \$\_\_\_\_\_.

If the amount shown is in agreement with your records. Please check "A" below.

If the amount is not in agreement with your records, please check and complete "B" below.

After checking the appropriate response, please sign and date your reply and mail it directly to our auditors in the enclosed envelope. DO NOT SEND ANY PAYMENTS to our auditors.

Very truly yours,

*[Client's Authorized Signature]*

A \_\_\_\_\_ The balance above agrees with my records.

B \_\_\_\_\_ My records show a balance of \$\_\_\_\_\_.

The difference may be due to the following:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

\_\_\_\_\_  
*[Signed by]*

\_\_\_\_\_  
*[Date]*

**.10 Accounts Receivable—Negative**

*[May be a sticker or stamp used on client's statements to customers]*

**PLEASE CHECK THIS STATEMENT**

If this statement is *not correct* please write promptly (using the enclosed envelope), giving details of any differences, directly to our auditors,

*[Name of auditors]*

*[Address of auditors]*

who are now conducting an audit of our financial statements.

If you do not write to our auditors, they will consider this statement to be correct.

Remittances should NOT be sent to the auditors.

**Notes:** (A) A negative confirmation may also be requested in letter form using similar wording.

- (B) The auditor should consider sending confirmation requests at the time of the client's regular monthly billings. Coordination of confirmation procedures with the client's routine preparation and mailing of statements may offer efficiency to both the auditor and client.
- (C) Negative confirmation requests may be used as substantive procedure to reduce audit risk *only* when three conditions exist: (1) the combined assessed level of inherent and control risk is low, (2) a large number of small balances is involved, and (3) the auditor has no reason to believe that the recipients of the request are unlikely to give them consideration.

**.11 Notes Receivable**

[Prepared on Client's Letterhead]

[Date]

[Name]

[Address]

Our auditors (*name and address of auditors*) are performing an audit of our financial statements. Accordingly, please confirm directly to our auditors the amount of your indebtedness due us as of (*date*), which our records show as follows:

Type of indebtedness	_____
Initial date of indebtedness	_____
Original amount of indebtedness	_____
Unpaid principal	_____
Interest rate	_____
Interest paid to	_____
Periodic payments required	_____
Description of collateral	_____

If the above information is in agreement with your records, please so indicate by signing in the place provided below and return the copy of this letter directly to our auditors in the enclosed envelope.

If the above is not in agreement with your records, please so note in the space provided the particulars shown in your records and any information which may help reconcile the difference from our records. **Payments should not be sent to the auditors.**

Very truly yours,

[Client's Authorized Signature]

The above information is correct as of (*date*) with the following exceptions (if any): \_\_\_\_\_

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Date: \_\_\_\_\_ Signed: \_\_\_\_\_

**.12 Inventories Held by Warehouses or Others When Listing Is Not Provided by Client***[Prepared on Client's Letterhead]**[Date]**[Name of Warehouse]**[Address]*

Our auditors (*name and address of auditors*) are conducting an audit of our financial statements. Accordingly, please send directly to our auditors the following information about merchandise held in your custody for our account at (*date*):

1. Quantities on hand; for each lot please indicate the following:
  - a. Lot number (list each lot separately)
  - b. Date received
  - c. Kind of merchandise
  - d. Unit of measure or package
    - (1) Number of units
    - (2) Kind of units (box, can, crate, quart, pound, dozen, etc.)
2. A statement about how you determined the above requested quantities; specify whether they were determined by physical count, weight or measure, or if they represent your book record.
3. A list of negotiable or nonnegotiable warehouse receipts issued, if any, and whether or not such receipts have, to your knowledge, been assigned or pledged.
4. Statement of any known liens against this merchandise.
5. Amount of unpaid charges, if any, as of (*date*).

Please mail your reply directly to the auditors. A stamped, addressed envelope is enclosed for your convenience.

Very truly yours,

*[Client's Authorized Signature]*

**.13 Inventories Held by Warehouses or Others When Listing Is Provided by Client**

[Prepared on Client's Letterhead]

[Date]

[Name of Warehouse]

[Address]

Our auditors (*name and address of auditors*) are conducting an audit of our financial statements. Accordingly, please confirm directly to our auditors the following information about the merchandise held by you for our account as of (*date*):

1. The correctness of the quantities shown on the enclosed listing of such merchandise prepared from our records (a second copy is enclosed for your files). If the enclosed listing differs from the quantities you held for us as of (*date*), please include details of the specific differences in your response to our auditors.
2. Your statement on how you determined the correctness of the quantities you are confirming; please specify whether determined by physical count, weight or measure, or whether the quantities are from your records.
3. A list of negotiable or nonnegotiable warehouse receipts issued, if any, and whether or not such receipts have, to your knowledge, been assigned or pledged.
4. Statement of any known liens against these goods.
5. Amount of any unpaid charges as of (*date*).

Please mail your reply directly to (*name and address of auditors*). A stamped, addressed envelope is enclosed for your convenience.

Very truly yours,

[Client's Authorized Signature]

**.15 Pension Plan Actuarial Information***[Prepared on Client's Letterhead]**[Date]**[Name of Actuary]**[Address]*

In connection with the audit of our financial statements for the period ending (*balance-sheet date*) by our independent auditors (*name and address of auditors*), please furnish them the information described below as it pertains to the XYZ Pension Plan, which is a defined benefit plan. For your convenience in response to those requests, you may supply pertinent sections, properly signed and dated, of your actuarial report, or pension expense report, if they are available and if they contain the requested information.

**A. Please provide a brief description of the following:**

1. The employee group covered.
2. The benefit provisions of the plan used in the calculation of the net periodic pension cost for the period and of the accumulated benefit obligation and the projected benefit obligation at the end of the period. Please identify any such benefit provisions that had not taken effect in the year. Please also provide the date of the most recent plan amendment included in your calculation. Please identify any participants or benefits excluded from the calculations, such as benefits guaranteed under an insurance or annuity contract.
3. The plan sponsor's funding policy for the plan.
4. Any significant liabilities other than for benefits, such as for legal or accounting fees.
5. The method and the amortization period, if any, used for the following:
  - a. Calculation of a market-related value of plan assets, if different from the fair value.
  - b. Amortization of any transition asset or obligation.
  - c. Amortization of unrecognized prior service cost.
  - d. Amortization of unrecognized net gain or loss.
6. Any substantive commitments for benefits that exceed the benefits defined by the written plan that are included in the calculations.
7. Determination of the value of any insurance or annuity contracts included in the assets.
8. Nature and effect of significant plan amendments and other significant matters affecting comparability of net periodic pension cost, funded status, and other information for the current period with that for the prior period.
9. The following information relating to the employee census data used in calculating the benefit obligations and pension cost:
  - a. The source and nature of the data is \_\_\_\_\_ and the date as of which the census data was collected is \_\_\_\_\_.
  - b. The following information concerning participants:

<u>Participants</u>	<u>Number of Persons</u>	<u>Compensation (if applicable)</u>
Currently receiving payments	_____	_____
Active with vested benefits	_____	_____
Terminated with deferred vested benefits	_____	_____
Active without vested benefits	_____	_____
Other (describe)	_____	_____

*Note: If information is not available for all the above categories, please indicate the categories that have been grouped and describe any group or groups of participants excluded from the above information.*

c. Information for the following individuals contained in the census:

<u>Participant's Name or Number</u>	<u>Age or Birth Date</u>	<u>Sex</u>	<u>Salary</u>	<u>Date Hired or Years of Service</u>
---	------------------------------	------------	---------------	---

*Note to Auditor: The auditor should select information from employer records to compare with the census data used by the actuary. In addition, the auditor may wish to have the actuary select certain census data from his/her files to compare with the employer's records.*

B. Please provide the following information on the net periodic pension cost for the period ending on \_\_\_\_\_:

1. Service cost \$ \_\_\_\_\_

2. Interest cost

3. Actual return on assets

4. Other components

a. Net asset gain or (loss) during the period deferred for later recognition

b. Amortization of net loss or (gain) from earlier periods

c. Amortization of unrecognized prior service cost

d. Amortization of the remaining unrecognized net obligation or (asset) existing at the date of the initial application of FASB Statement No. 87—transition obligation or (asset)

e. Net total of components  
(a + b + c + d)

\$ \_\_\_\_\_

5. Net periodic pension cost:  
(1 + 2 - 3 + 4e)

\$ \_\_\_\_\_

6. The above measurement of the net periodic pension cost is based on the following assumptions:

Weighted-average discount rate \_\_\_\_\_ %

Weighted-average rate of compensation increase \_\_\_\_\_ %

Weighted-average expected long-term rate of return on plan assets \_\_\_\_\_ %

Please describe the basis on which the above rates were selected and whether the basis is consistent with the prior period.

Please briefly describe the other assumptions used in the above measurement.

7. The calculations of the items shown in B1 and B5 are based on the following:

Asset information at \_\_\_\_\_

Census data \_\_\_\_\_

Measurement date (must not be more than three months before the end of the last fiscal year) \_\_\_\_\_

Please describe any adjustments made to project the census data forward to the measurement date or to project the results calculated at an earlier date to those shown in B1 to B5.

- C. Please provide the following information on the benefit obligations for disclosure in the financial statements for the period ending \_\_\_\_\_:

1. Pension Benefit Obligation *Estimated*

- a. Accumulated benefit obligation

— vested \_\_\_\_\_

— nonvested \_\_\_\_\_

— total \_\_\_\_\_

- b. Additional benefits based on estimated future salary levels

\$ \_\_\_\_\_

- c. Projected benefit obligation ( $a + b$ )

\_\_\_\_\_

2. Fair Value of Plan Assets

3. Unfunded Projected Benefit Obligation:  
( $1c - 2$ )

4. Unrecognized Prior Service Cost

5. Unrecognized Net Loss or (Gain)

6. Unrecognized Net Transition Liability or (Asset)

7. Additional Liability

8. Accrued or (prepaid) pension cost in the company financial statements  
( $3 - 4 - 5 - 6 + 7$ )

\$ \_\_\_\_\_

9. The above amount of the projected benefit obligation is measure based on the following assumptions:

Weighted-average discount rate \_\_\_\_\_

%

Weighted-average rate of compensation increase \_\_\_\_\_

%

Please provide a brief description of the other assumptions used in the measurement.

10. The calculation of the items shown in C1 to C8 is based on the following:

Asset information at \_\_\_\_\_

Census data at \_\_\_\_\_

Measurement date (must be not more than three months before the current fiscal year end) \_\_\_\_\_

Please describe any adjustments made to project the census data forward to the measurement date or to project the results calculated at an earlier date to those shown in C1 to C8.

11. Please describe any significant events noted subsequent to the current year's measurement date and as of the date of your reply to this request and the effects of those events; such as a large plant closing, which could materially affect the amounts shown in C1 to C8.

- D. Please provide an analysis for the period showing beginning amounts, additions, reductions, and ending amounts of the:

1. Projected benefit obligation,
2. Unrecognized prior service cost,
3. Unrecognized net loss (gain), and
4. Net transition obligation (asset).

- E. Please provide our independent auditors with descriptions and the amounts of gains or losses from settlements, curtailments or termination benefits during the year, such as:
1. Purchases of annuity contracts,
  2. Lump-sum cash payments to plan participants,
  3. Other irrevocable actions that relieved the company or the plan of primary responsibility for a pension obligation, and eliminates significant risks related to the obligation and assets,
  4. Any events that significantly reduced the expected years of future service of employees,
  5. Any events that eliminated for a significant number of employees the accrual of defined benefits for some or all of their future service, or
  6. Any special or contractual termination benefits offered to employees.
- F. Was all of the information above determined in accordance with FASB Statements No. 87 and No. 88 (including the FASB's Guides to Implementation of Statements 87 and 88 and the American Academy of Actuaries', "An Actuary's Guide to Compliance with Statement of Financial Accounting Standards No. 87") to the best of your knowledge? If not, please describe any differences.
- G. Describe the nature of your relationship, if any, with the plan or the plan sponsor that may impair or appear to impair the objectivity of your work.

Very truly yours,

---

[Client's Authorized Signature]

**.16 Pension Plan Assets Held by Trustee**

[Prepared on Client's Letterhead]

[Date]

[Name of Trustee or Custodian]

[Address]

Our auditors (*name and address of auditor*) are conducting an audit of our financial statements. Accordingly, please provide our auditors directly with a listing of the assets including market values as of (*date*) for our employees' pension trust (*title and trustee's account number*).

Please also provide the auditors with the following information about our employees' pension trust for the period from (*beginning of period*) to (*end of period*) [see note below]:

1. Contributions by the Company during the above period.
2. Contributions by employees during the above period.
3. Payments to beneficiaries during the above period.
4. Any unpaid fees due for services rendered to (*balance-sheet date*).

Please send your reply directly to our auditors. A stamped, addressed envelope is enclosed for your convenience.

Very truly yours,

[Client's Authorized Signature]

---

**Note:** A listing of the assets might not be requested if one had already been received by the client. In that case, the auditor might want the trustee to confirm the total market value per the listing.

**.17 Actuary of a PERS for Disclosure in Financial Reports Incorporating the PERS' Financial Statements and/or Actuary of a Single-Employer PERS or an Agent Multiple-Employer PERS for Disclosure in the Financial Reports of a Contributing Governmental Employer or Nonemployer Contributor That Does Not Include the PERS in Its Reporting Entity\***

[Prepared on PERS or Contributing Governmental Employer or Nonemployer Contributor Letterhead]

[Date]

[Name of Actuary of PERS]

[Address]

Dear \_\_\_\_\_:

In connection with the audit of our financial statements for the period ending (*fiscal year end*) by our independent auditors, (*name and address of independent auditors*), please furnish directly to them the information described below as it relates to the (*name of PERS*) and participation therein of employees of the (*name of governmental employer*). Also, please provide a copy of the most recent actuarial valuation report.

For your convenience in response to these requests, you may supply pertinent sections, properly signed and dated, of your actuarial report, or pension expense report, if they are available and if they contain the requested information.

If any figures presented herein are estimates, please so indicate and briefly describe the estimation technique used.

A. Please provide a brief description of the following:

1. Types of employees covered and current membership with separate identification of the number of (a) retirees and beneficiaries currently receiving benefits, and terminated employees entitled to benefits but not yet receiving them and (b) full vested, partially vested, and nonvested active employees covered by the plan.
2. If agent or cost-sharing multiple-employer PERS, (*name of governmental employer*) current-year covered payroll.

B. Please provide, for each of the following participants, the indicated information relating to the employee census data used in performing the actuarial valuation(s) described in C1 and E2. Also, please identify the source, nature, and date as of which the census data was collected.

<u>Participant's Name or Number</u>	<u>Age or Birth Date</u>	<u>Sex</u>	<u>Salary</u>	<u>Date Hired or Years of Service</u>
---	------------------------------	------------	---------------	---

(Note to auditor—Select sample participants from records and list them here.)

C. Please indicate, with respect to the actuarial present value of credited projected benefits (hereinafter referred to as the APV of CPB or "pension benefit obligation")

1. Date of the most recent actuarial valuation in which the APV of CPB was calculated and the date of any subsequent actuarial update.
2. Significant actuarial assumptions used to compute the APV of CPB, including rate of return on investment of present and future assets, projected salary increases due to (a) inflation and (b) merit or seniority, and postretirement benefit increases.

\* Disclosures are required pursuant to GASB Codification of Governmental Accounting and Financial Reporting Standards, paragraphs Pe6.130–.132, P20.123–.127, and .131, as of June 15, 1987.

3. Amount of the entire APV of CPB, for the entire PERS, in total and segregated as follows:
    - a. Retirees and beneficiaries currently receiving benefits and terminated employees entitled to benefits but not yet receiving them.
    - b. Current employees:
      - (1) Accumulated employee contributions including allocated investment income, if any.
      - (2) Employer-financed vested.
      - (3) Employer-financed nonvested.
  4. If agent multiple-employer PERS, amount of the APV of CPB applicable to (*name of governmental employer*) participants, in total and segregated as follows:
    - a. Retirees and beneficiaries currently receiving benefits and terminated employees entitled to benefits but not yet receiving them. (If the pension benefit obligation applicable to retirees and beneficiaries currently receiving benefits, and related net assets available for benefits, are transferred to the PERS as a whole, please state that fact and provide here only the APV of CPB applicable to terminated employees entitled to benefits but not yet receiving them, and related net assets available for benefits.)
    - b. Current employees:
      - (1) Accumulated employee contributions including allocated investment income, if any.
      - (2) Employer-financed vested.
      - (3) Employer-financed nonvested.
  5. Net assets available for benefits as of the same date as the pension benefit obligation determined in accordance with the method used to value assets for balance-sheet purposes; also identify the method used to value assets.
  6. Explanation, including separate dollar effects on the APV of CPB described in C3 and C4, of any current-year changes in (a) actuarial assumptions or (b) benefit provisions.
- D. Please indicate, with respect to plan assets:
1. Market value of the entire net assets available for benefits, for the entire PERS, on the same date as the APV of CPB.
  2. Amortized cost value of the entire net assets available for benefits, for the entire PERS, on the same date as the APV of CPB, with disclosure of the method used to account for exchanges of "swaps" of securities.\*\*
  3. If agent or cost-sharing multiple-employer PERS that is included in the employer's reporting entity, market value of net assets available for benefits applicable to (*name of governmental employer*) participants on the same date as the APV of CPB. (Do not include net assets available for benefits applicable to retirees and beneficiaries currently receiving benefits, if pension benefit obligation applicable to them is transferred to the PERS as a whole.)
  4. If agent or cost-sharing multiple-employer PERS that is included in the employer's reporting entity, amortized cost value of net assets available for benefits applicable to (*name of governmental employer*) participants on the same date as the APV of CPB, with disclosures of the method used to account

---

\*\* Information on amortized cost values and the method used to account for exchanges or "swaps" of securities need be obtained only if the plan is accounted for in accordance with the requirements of National Council on Governmental Accounting Statements Nos. 1, *Governmental Accounting and Financial Reporting Principles*, or 6, *Pension Accounting and Financial Reporting: Public Employee Retirement Systems, and State and Local Government Employers*, as permitted by GASB Statement No. 5, *Disclosure of Pension Information by Public Employee Retirement Systems and State and Local Governmental Employers*, paragraph 4.

for exchanges or “swaps” of securities.”” (Do not include net assets available for benefits applicable to retirees and beneficiaries currently receiving benefits, if the pension benefit obligation applicable to them is transferred to the PERS as a whole.)

E. Please indicate, with respect to contributions required and contributions made:

1. A brief description of funding policy, including the role of actuarially determined contribution requirements in carrying out that policy.
2. Date of the most recent actuarial valuation performed to compute actuarially determined contribution requirements.
3. Actuarial funding method used to compute actuarially determined contribution requirements and the period and method for amortization of any unfunded actuarial accrued liability.
4. That significant actuarial assumptions used to compute actuarially determined contribution requirements are the same as those used to compute the APV or CPB, or explain the differences.
5. Total actuarially determined contribution requirement for the entire PERS, and the amounts intended to (a) cover normal cost and (b) amortize any unfunded actuarial accrued liability, expressed in dollar amounts and as percentages of current-year covered payroll.
6. Total contributions actually made for the entire PERS by (a) contributing governmental employers or nonemployer contributors and (b) employees, expressed in dollar amounts and as percentages of current-year covered payroll.
7. If agent or cost-sharing multiple-employer PERS that is included in employer’s reporting entity, actuarially determined contribution requirements applicable to (*name of governmental employer*) participants and the amounts intended to (a) cover normal cost and (b) amortize any unfunded actuarial accrued liability, expressed both in dollar amounts and as percentages of current-year covered payroll.
8. If agent or cost-sharing multiple-employer PERS that is included in employer’s reporting entity, contributions actually made, applicable to (*name of governmental employer*) participants, by (*name of contributing governmental employer or nonemployer contributor*) and by (*name of governmental employer*) employees, expressed both in dollar amounts and as percentages of current-year covered payroll.
9. Explanations, including the separate dollar effects on the actuarially determined contribution requirements described in E5, E6, E7, and E8 of any current-year changes in (a) actuarial assumptions, (b) benefit provisions, (c) actuarial funding method, or (d) other significant factors.

F. Please describe any significant events noted, subsequent to the dates described in C1 and E2 and as of the date of your response to this request, that could materially affect (the auditor should indicate the amount considered material) the information described in A to E. Also describe the effects of those events.

G. Please indicate that the information you provide has been determined in accordance with the provisions of GASB Statement No. 5, or explain any exceptions.

H. Please describe the nature of any relationship you have with the (*name of PERS*) or (*name of contributing governmental employer or nonemployer contributor*) that may impair, or appear to impair, the independence and objectivity of your work.

---

”” Information on amortized cost values and the method used to account for exchanges or “swaps” of securities need be obtained only if the plan is accounted for in accordance with the requirements of National Council on Governmental Accounting Statements Nos. 1, *Governmental Accounting and Financial Reporting Principles*, or 6, *Pension Accounting and Financial Reporting: Public Employee Retirement Systems, and State and Local Government Employers*, as permitted by GASB Statement No. 5, *Disclosure of Pension Information by Public Employee Retirement Systems and State and Local Governmental Employers*, paragraph 4.

- I. Please advise if notification has been received of a decision to partially or fully terminate the plan and explain the effect of the decision.
- J. Please provide any additional information you consider necessary.

Very truly yours,

**.18 Actuary of a Cost-Sharing Multiple-Employer PERS, for Disclosure in Financial Reports of a Contributing Governmental Employer or Nonemployer Contributor That Does Not Include the Cost-Sharing Multiple-Employer PERS in Its Reporting Entity\***

[Prepared on Contributing Governmental Employer or Nonemployer Contributor Letterhead]

[Date]

[Name of Actuary of PERS]

[Address]

In connection with the audit of our financial statements for the period ending (*fiscal year end*) by our independent auditors, (*name and address of independent auditors*), please furnish directly to them the information described below as it relates to the participation of employees of the (*name of governmental employer*) in the (*name of PERS*). Also, please provide a copy of the most recent actuarial valuation report.

For your convenience in response to these requests, you may supply pertinent sections, properly signed and dated, of your actuarial report, or pension expense report, if they are available and if they contain the requested information.

If any figures presented herein are estimates, please so indicate and briefly describe the estimation technique used.

Please provide the following:

- A. (*Name of governmental employer*) current-year covered payroll.
- B. For each of the following participants, the indicated information relating to the employee census data used in performing the actuarial valuation(s) in which the amounts described in C and G were computed.

<u>Participant's Name or Number</u>	<u>Age or Birth Date</u>	<u>Sex</u>	<u>Salary</u>	<u>Date Hired or Years of Service</u>
---	------------------------------	------------	---------------	---

(*Note to auditor*—Select sample participants from records and list them here.)

- C. Actuarially determined contribution requirement applicable to (*name of governmental employer*) participants, expressed both in a dollar amount and as a percentage of current-year covered payroll. Also, describe any current-year changes in actuarial assumptions, benefit provisions, actuarial funding method, or other significant factors, and the aggregate effect on the actuarially determined contribution requirement applicable to (*name of governmental employer*) participants, expressed as a percentage of current-year covered payroll.
- D. The total PERS actuarial present value of credited projected benefits (APV of CPB).
- E. Market value of the total PERS net assets available for benefits (as of the same date as the APV of CPB).
- F. Amortized cost value of the total PERS net assets available for benefits (as of the same date as the APV of CPB)."

\* Disclosures are required pursuant to GASB Codification of Governmental Accounting and Financial Reporting Standards, paragraph P20.127, as of June 15, 1987.

" Information on amortized cost values need be obtained only if the plan is accounted for in accordance with the requirements of National Council on Governmental Accounting Statements Nos. 1, *Governmental Accounting and Financial Reporting Principles*, or 6, *Pension Accounting and Financial Reporting: Public Employee Retirement Systems, and State and Local Government Employers*, as permitted by GASB Statement No. 5, *Disclosure of Pension Information by Public Employee Retirement Systems and State and Local Governmental Employers*, paragraph 4.

- G. The actuarially determined contribution requirement applicable to *(name of governmental employer)* participants, expressed as a percentage of the total current-year actuarially determined contribution requirement for the PERS as a whole.
- H. Please indicate that the information you provide has been determined in accordance with the provisions of GASB Statement No. 5, or explain any exceptions.
- I. Please describe the nature of any relationship you have with the *(name of PERS)* or *(name of contributing governmental employer or nonemployer contributor)* that may impair, or appear to impair, the independence and objectivity of your work.
- J. Please provide information relating to subsequent events that could affect the information provided herein.
- K. Please advise if notification has been received of a decision to partially or fully terminate the plan and explain the effect of the decision.
- L. Please provide any additional information you consider necessary.

Very truly yours,

*[Name of Contributing Governmental  
Employer or Nonemployer Contributor]*

By *[Name and Title of Requesting Official  
of Contributing Governmental Employer  
or Nonemployer Contributor]*

**.19 Notes Payable**

[Prepared on Client's Letterhead]

[Date]

[Name]

[Address]

Our auditors (*name and address of auditors*) are conducting an audit of our financial statements.

Accordingly, please confirm directly to them the following information relating to our note(s) payable to you, as of (*date*):

Date of note	_____
Original amount	\$ _____
Unpaid principal	
Balance	\$ _____
Periodic payments required	\$ _____
Payment periods	_____
Maturity date	_____
Interest rate	_____ %
Date to which interest has been paid	_____
Amount and description of collateral	_____
Description of terms, e.g., demand provisions, prepayment penalties, etc.	_____
Any other direct or contingent liabilities to you ("None" or description)	_____

If the above information is in agreement with your records at that date, please so indicate by signing in the place provided below and return the copy of this letter directly to our auditors in the enclosed envelope.

If the above is not in agreement with your records, please note in the space provided the particulars shown in your records and any information which may help reconcile the difference from our records.

Very truly yours,

[Client's Authorized Signature]

\_\_\_\_\_

The above information is correct as of (*date*) with the following exceptions (*if any*): \_\_\_\_\_

\_\_\_\_\_

Date: \_\_\_\_\_

**.28 Confirmation of Compensating Balances**

[Date]

Financial Institution Official\*  
First United Bank  
Anytown, USA 00000

Dear Financial Institution Official:

In connection with an audit of the financial statements of *(name of customer)* as of *(balance-sheet date)* and for the *(period)* then ended, we have advised our independent auditors that as of the close of business on *(balance-sheet date)* there *(were)* *(were not)* compensating balance arrangements as described in our agreement dated *(date)*. Although we do not request nor expect you to conduct a comprehensive, detailed search of your records, if during the process of completing this confirmation additional information about other compensating balance arrangements between *(name of customer)* and your financial institution comes to your attention, please include such information below. Withdrawal by *(name of customer)* of the compensating balance *(was)* *(was not)* legally restricted at *(date)*. The terms of the compensating arrangements at *(date)* were:

---

**EXAMPLES:**

1. The Company has been expected to maintain an average compensating balance of 20 percent of its average loan understanding, as determined from the financial institution's ledger records adjusted for estimated average uncollected funds.
2. The Company has been expected to maintain an average compensating balance of \$100,000 during the year, as determined from the financial institution's ledger records without adjustment for uncollected funds.
3. The Company has been expected to maintain a compensating balance, as determined from the financial institution's ledger records without adjustment for uncollected funds, of 15 percent of its outstanding loans plus 10 percent of its unused line of credit.
4. The Company has been expected to maintain as a compensating balance noninterest bearing time deposits of 10 percent of its outstanding loans.

---

In determining compliance with compensating balance arrangements, the Company uses a factor for uncollected funds of \_\_\_\_ *(business)* *(calendar)* days.<sup>1</sup>

There *(were the following)* *(were no)* changes in the compensating balance arrangements during the *(period)* and subsequently through the date of this letter.

The Company *(was)* *(was not)* in compliance with the compensating balance arrangements during the *(period)* and subsequently through the date of this letter.

There *(were the following)* *(were no)* sanctions *(applied or imminent)* by the financial institution because of noncompliance with compensating balance arrangements.<sup>2</sup>

---

\* This letter should be addressed to a financial institution official who is responsible for the financial institution's relationship with the client or is knowledgeable about the compensating balance arrangements. Some financial institutions centralize this function by assigning responsibility for responding to confirmation requests to a separate function. Independent auditors should ascertain the appropriate recipient.

<sup>1</sup> Not applicable if compensating balances are based on the financial institution's ledger records without adjustment for uncollected funds. If some other method is used for determining collected funds for compensating balance purposes, the method used should be described.

<sup>2</sup> Applicable only if the financial institution has applied sanctions during the *(period)* or notified the Company that sanctions may be applied. Indicate details.

During the (*period*), and subsequently through the date of this letter, (no) (the following) compensating balances were maintained by the Company at the financial institution on behalf of an affiliate, director, officer, or any other third party and (no) (the following) third party maintained compensating balances at the bank on behalf of the Company. (Withdrawal of such compensating balances (was) (was not) legally restricted.)

Please confirm whether the information about compensating balances presented above is correct by signing below, and returning this letter directly to our independent auditors (*name and address of CPA Firm*).

**.30 Related-Party Confirmation**

[Date]

[Name]

[Address]

In connection with an audit of our financial statements, please furnish answers to the attached questionnaire, sign your name, and return the questionnaire in the enclosed envelope directly to our auditors (*name and address of auditors*). The questionnaire is designed to provide the auditors with information about the interests of officers, directors, and other related parties in transactions with our Company.

Please answer all questions. If the answer to any question is "yes," please explain. Certain terms used in the questions are defined at the end of the questionnaire.

Very truly yours,

---

[Client's Authorized Signature]

---

[Title]

[Client Name]

**Related-Party Questionnaire**

1. Have you or any related-party of yours had any material interest, direct or indirect, in any sales, purchases, transfers, leasing arrangements or guarantees or other transactions since (*beginning of period of audit*) to which the Company (or specify any pension, retirement, savings, or similar plan provided by the client) was, or is to be, a party?
2. Do you or any related-party of yours have any material interest, direct or indirect, in any pending or incomplete sales, purchases, transfers, leasing arrangements, guarantees or other transactions to which the Company (or specify any pension, retirement, savings, or similar plan provided by the client) was, or is to be, a party?
3. Have you or any related-party of yours been indebted to the Company (or specify any pension, retirement, savings, or similar plan provided by the client) at any time since (*beginning of period of audit*)? Please exclude amounts due for purchases on usual trade terms and for ordinary travel and expense advances.

The answers to the foregoing questions are correctly stated to the best of my knowledge and belief.

\_\_\_\_\_  
[Signature]\_\_\_\_\_  
[Date]

See definitions which follow.

**Definitions**

**Company:** Parent company and any subsidiary.

**Related Party:** Any (1) corporation or organization (other than the Company) of which you are an officer, director, or partner or are, directly or indirectly, the beneficial owner of 10 percent or more of any class of equity securities; (2) any trust or other estate in which you have a substantial beneficial ownership or for which you serve as a trustee or in a similar fiduciary capacity; and (3) any close relative of yours or your spouse's, or other person you may significantly influence (control) or be significantly influenced by.

**Control:** Possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a party, whether through ownership, by contract, or otherwise.

**Person:** An individual, a corporation, a partnership, an association, a joint-stock company, a business trust, or an unincorporated organization.

**Beneficial Owner:** Person who enjoys, or has the right to secure, benefits substantially equivalent to those of the ownership of securities, even though the securities are not registered in the person's name. Examples of beneficial ownership include securities held for the person's benefit in the name of others, such as nominees, custodians, brokers, trustees, executors and other fiduciaries; a partnership of which the person is a partner; and a corporation for which the person owns substantially all of the stock. Shares (1) held (individually or in a fiduciary capacity) by the person's spouse, the person's or his or her spouse's minor children, or a relative of the person or his or her spouse who shares the same home with the person; or (2) as to which the person can vest or revest title in himself or herself at once or at some future time are also considered as being beneficially owned.

Our auditors, \_\_\_\_\_ [name and address of auditors], are conducting an audit of our financial statements. Accordingly, please confirm there has been no access to our safe deposit box number \_\_\_\_ between \_\_\_\_ and \_\_\_\_ o'clock.

Please indicate in the space below if the above is in agreement with your records. If it is not, please furnish the auditors any details concerning access to our safe deposit box during the period indicated.

After signing and dating your reply, please mail it directly to our auditors in the enclosed envelope.

Very truly yours,

---

[Client's Authorized Signature]

According to our records, there has been no access to the above described safe deposit box during the period specified, except as follows: \_\_\_\_\_

Signed: \_\_\_\_\_ Date: \_\_\_\_\_  
[Name and Title]

**.32 Insurance In Force Confirmation Request**

[Date]

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

Our auditors, \_\_\_\_\_ [name and address of auditors], are conducting an audit of our financial statements. In that connection, please confirm the details of our insurance coverage in force at \_\_\_\_\_ [balance-sheet date] as described below:

Policy number	_____	_____
Insurance company	_____	_____
Type of coverage	_____	_____
Amount of coverage	_____	_____
Co-insurance, if any	_____	_____
Term of policy	_____	_____
Gross premium	_____	_____
Amount of unpaid premiums	_____	_____
Loss payees, if other than us	_____	_____
Claims pending at _____ [date]	_____	_____

Please compare this information with your records and inform our auditors, in the space, if it is, or is not, in agreement with your records. After signing and dating your reply, please mail it directly to our auditors in the enclosed envelope.

Very truly yours,

\_\_\_\_\_

**.33 Illustrative Letter To Actuary Requesting Employer's Benefit Cost Information**

[Client's Letterhead]

[Date]

---

---

---

In connection with the audit of our financial statements for the period ending \_\_\_\_\_ [fiscal year end] by our independent auditors \_\_\_\_\_ [name, address], please furnish them a copy of the most recent actuarial valuation report for \_\_\_\_\_ [name of plan]. If a complete actuarial valuation was not prepared as of \_\_\_\_\_ [date], please provide any reports or letters that summarize end-of-period amounts. If the information requested below is included in the valuation report, you may refer to the location in your report rather than repeating such information.

**A. Please provide a brief description of the following:**

1. The participant group(s) (for example, employee, retiree and dependent group[s]) covered, and the types of benefits provided.
2. The provisions of the substantive plan at the beginning of the period used in the calculation of the net periodic postretirement benefit cost for the period.
3. Any changes between the provisions of the substantive plan at the beginning of the period used in the calculation of net periodic postretirement benefit costs and the substantive plan used in the calculation of the accumulated postretirement benefit obligation (APBO) at the disclosure date. Additionally, please specify the following:
  - a. The disclosure date (which cannot be more than three months prior to the end of the period).
  - b. How these changes were included in the net periodic postretirement benefit costs for the period.
4. The date and description of plan amendments adopted during the period and whether the amendment(s) were included in items 2 and 3 above.
5. Any participants, benefits or plan terms excluded from the calculations and the reasons for their exclusion.
6. The funding policy for the plan if other than pay-as-you-go.
7. Any significant liabilities other than for benefits.
8. The method and the amortization period, if any, used for amortizing:
  - a. Any transition asset or obligation.
  - b. Unrecognized prior service cost.
  - c. Unrecognized net gain or loss.
9. If the plan is funded, provide:
  - a. The amounts and types of securities used to value plan assets.
  - b. Calculation of fair value of plan assets.
  - c. The date as of which fair value was calculated.
  - d. The method of determining the value of any contracts with insurance companies and participation provisions included in the plan assets.

10. The following information relating to the participants' demographic and compensation data used in calculating the APBO and net periodic postretirement benefit cost:

- a. The source of the demographic data and the date as of which the data were collected.
- b. The following information concerning the participants and their beneficiaries in the following (or a comparable) format. Please indicate any groups of participants excluded from the information.

<u>Participants</u>	<u>Number of persons</u>	<u>Compensation (if applicable)</u>
Retirees and beneficiaries eligible for benefits	_____	_____
Dependents of retirees eligible for benefits	_____	_____
Active employees fully eligible for benefits	_____	_____
Terminated employees fully eligible for benefits	_____	_____
Active employees not fully eligible for benefits	_____	_____
Other (identify)	_____	_____

- c. Information for the following participants:

<u>Participants' name or number</u>	<u>Age or birth date</u>	<u>Sex</u>	<u>Salary</u>	<u>Date hired or year of initial eligibility</u>
_____	_____	_____	_____	_____

11. A summary of the per-capita claims costs used in the valuation and the basis for their development, including:

- a. In employer-specific claims data were used in connection with the development of per-capita claims cost by age, a description of the data, its source and the period from which it was taken.
- b. If an external data source was used in connection with the development of per-capita claims costs by age, describe the nature of the external data source and how it was used.
- c. The extent to which external data sources were used to adjust the historical claims data.

B. Please provide the following components of the net periodic postretirement benefit cost for the period (see A.2. above):

1. Service cost \$ \_\_\_\_\_
2. Interest cost \_\_\_\_\_
3. Actual return on plan assets \_\_\_\_\_
4. Other components, net:
  - a. Net asset gain (loss) during the period deferred for later recognition \$ \_\_\_\_\_
  - b. Amortization of net loss (gain) from earlier periods \_\_\_\_\_
  - c. Amortization of unrecognized prior service cost \_\_\_\_\_
  - d. Amortization of the transition obligation \_\_\_\_\_
  - e. Net total of other components ( $a + b + c + d$ ) \_\_\_\_\_
5. Net periodic postretirement benefit cost ( $1 + 2 - 3 + 4e$ ) \$ \_\_\_\_\_

C. Please provide the following information related to the APBO as of the disclosure date (see A.3. above):

	End of period
1. Accumulated postretirement benefit obligation (APBO)	\$ _____
a. Retirees and beneficiaries eligible for benefits	_____
b. Dependents of retirees eligible for benefits	_____
c. Active employees fully eligible for benefits	_____
d. Terminated employees fully eligible for benefits	_____
e. Active employees, not fully eligible for benefits	_____
f. Other (identify)	_____
g. Total (sum of 1a-1f)	_____
2. Fair value of plan assets	_____
3. Funded status (1g-2)	_____
4. Unrecognized prior service cost	_____
5. Unrecognized net loss (gain)	_____
6. Unrecognized transition obligation (asset)	_____
7. Accrued (prepaid) postretirement benefit cost (3 less items 4-6)	\$ _____

D. Please provide the following information regarding the assumptions used to compute the net periodic postretirement benefit cost and APBO. If a published standard table was used, provide its name.

#### ECONOMIC ASSUMPTIONS

	Net periodic cost	APBO
1. General inflation (e.g., CPI)	_____ %	_____ %
2. Weighted-average discount rate	_____ %	_____ %
3. Weighted-average rate of compensation increase	_____ %	_____ %
4. Weighted-average expected long-term rate of return on plan assets	_____ %	_____ %
5. Estimated income tax rate included in rate of return	_____ %	_____ %
6. Method used to determine market-related value of assets	_____ %	_____ %

#### EMPLOYEE DEMOGRAPHIC DATA

7. Employee turnover rates by age	Describe or attach table
8. Rates of retirement by age	Describe or attach table
9. Rates of disability by age	Describe or attach table
10. Rates of mortality by age	Describe or attach table
11. Percentage of employees with dependents at retirement	_____ % _____ %
12. Spouse age difference	_____ % _____ %

If participants in this plan are covered by a defined benefit pension plan for which expense is determined in accordance with FASB Statement No. 87, *Employers' Accounting for Pensions*, please state whether the above assumptions are consistent with those used in calculations in determining those pension amounts. If not, please explain the difference and the reasons for the difference.

**SPECIFIC ASSUMPTIONS FOR RETIREE HEALTH CARE BENEFITS**

	<u>Net periodic cost</u>	<u>APBO</u>
13. Weighted-average administrative (e.g., claims settlement, legal, accounting, plan administration, etc.) as a percentage of claims or other basis for assumption	_____ %	_____ %
14. Percentage expecting to elect coverage under the plan:		
a. Future retirees	_____ %	_____ %
b. Their dependents	_____ %	_____ %
15. Health care cost trend rates (please provide rates for each year to the ultimate rate)	Describe or attach table	
a. Please state whether these rates are applicable to gross eligible charges or net incurred claims cost. If applied to net incurred claims, please state what adjustments were made and what rates are to be shown for disclosure.		
b. The effect of a one-percentage-point increase in assumed health care cost trend rate on:		
(1) The aggregate of service and interest cost components of net periodic postretirement benefit costs.		
(2) APBO.		
16. Please state whether the above assumptions are consistent with the prior period, and, if not, explain the reason for the changes.		
17. Please describe any other significant assumptions used in the above measurement and the basis on which they were determined.		
E. Please provide a description and the amounts of gains or losses from settlements, curtailments or termination benefits during the year, such as:		
1. Purchase of insurance contracts where the risk of benefit payments is fully assumed by the insurance company.		
2. Lump-sum cash payments to plan participants.		
3. Other irrevocable actions that relieved the employer, plan sponsor or the plan of primary responsibility for a postretirement benefit obligation and eliminated significant risks related to the obligation and assets.		
4. Any events that significantly reduced the expected years of future service of employees.		
5. Any events that eliminated for a significant number of employees the accrual of defined benefits for some or all of their future service.		
6. Any special or contractual termination benefits offered to employees.		
F. Please describe any significant events (for example, plant closings) noted subsequent to the current year's measurement date, and the effects of those events, that could materially affect the amounts shown in B or C.		
G. If you have been notified of a decision by the plan to fully or partially terminate the plan, please describe the effect on the APBO and the net periodic postretirement benefit cost.		
H. Was all of the information above determined in accordance with FASB Statement No. 106 to the best of your knowledge? If not, please describe any differences.		

- I. Describe the nature of your relationship, if any, with the plan or the plan sponsor that may impair or appear to impair the objectivity of your work.
- J. Indicate your professional qualifications for performing actuarial valuations under FASB Statement No. 106.

Yours very truly,

---

## *Inquiries to Legal Counsel<sup>A</sup>*

### .01 Illustrative Inquiry Letter to Legal Counsel<sup>B</sup>

[Prepared on Client's Letterhead (see Note C)]

[Date (see Note D)]

[Name of Lawyer]

[Address of Lawyer]

Dear \_\_\_\_\_ :

In connection with an audit of our financial statements at (*balance-sheet date*) and for the (*period*) then ended, management of the Company has prepared, and furnished to our auditors (*name and address of auditors*), a description and evaluation of certain contingencies, including those set forth below involving matters with respect to which you have been engaged and to which you have devoted substantive attention on behalf of the Company in the form of legal consultation or representation. These contingencies are regarded by management of the Company as material for this purpose (management may indicate a materiality limit if an understanding has been reached with the auditor). Your response should include matters that existed at (*balance-sheet date*) and during the period from that date to the date of your response.

#### **Pending or Threatened Litigation**

(excluding unasserted claims)

[Ordinarily the information would include the following: (1) the nature of the litigation, (2) the progress of the case to date, (3) how management is responding or intends to respond to the litigation (for example, to contest the case vigorously or to seek an out-of-court settlement), and (4) an evaluation of the likelihood of an unfavorable outcome and an estimate, if one can be made, of the amount or range of potential loss.]

Please furnish to our auditors such explanation, if any, that you consider necessary to supplement the foregoing information, including an explanation of those matters as to which your views may differ from those stated and an identification of the omission of any pending or threatened litigation, claims, and assessments or a statement that the list of such matters is complete.

#### **Unasserted Claims and Assessments**

(considered by management to be probable of assertion, and that, if asserted, would have at least a reasonable possibility of an unfavorable outcome)

[Ordinarily management's information would include the following: (1) the nature of the matter, (2) how management intends to respond if the claim is asserted, and (3) an evaluation of the likelihood of an unfavorable outcome and an estimate, if one can be made, of the amount or range of potential loss.]

Please furnish to our auditors such explanation, if any, that you consider necessary to supplement the foregoing information, including an explanation of those matters as to which your views may differ from those stated.

We understand that whenever, in the course of performing legal services for us with respect to a matter recognized to involve an unasserted possible claim or assessment that may call for financial statement dis-

closure, if you have formed a professional conclusion that we should disclose or consider disclosure concerning such possible claim or assessment, as a matter of professional responsibility to us, you will so advise us and will consult with us concerning the question of such disclosure and the applicable requirements of Statement of Financial Accounting Standards No. 5. Please specifically confirm to our auditors that our understanding is correct.

Please specifically identify the nature of and reasons for any limitation on your response.

[The auditor may request the client to inquire about additional matters, for example, unpaid or unbilled charges or specified information on certain contractually assumed obligations of the company, such as guarantees of indebtedness of others.]

Very truly yours,

[Authorized Signature for Client]

---

**Notes:** (A) If a client has not needed to retain legal counsel, the auditor may express an unqualified opinion on the financial statements even though he has not obtained a letter from legal counsel of the Company. In these circumstances, the auditor should obtain written representation from the Company that legal counsel has not been retained for matters concerning business operations that may involve current or prospective litigation.

(B) Extracted from the Appendix to Statement on Auditing Standards No. 12, *Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments* [AU section 337A]. [See Note D.]

(C) Auditors should carefully consider the provisions of SAS No. 12 [AU section 337] in drafting this letter.

(D) Sending of this letter should be timed so that the lawyer's response is dated as close to the auditor's opinion date as practicable. However, the auditor and client should consider early mailing of a draft inquiry as a convenience for the lawyer in preparing a timely response to the formal inquiry letter.

**.02 Illustrative Inquiry Letter to Legal Counsel If Management Has Not Provided Details About Pending or Threatened Litigation**

[Prepared on Client's Letterhead]

[Date]

[Name of Lawyer]  
[Address of Lawyer]

In connection with an audit of our financial statements at (*balance-sheet date*) and for the (*period*) then ended, please furnish to our auditors (*name and address of auditors*), the information requested below for which you have been engaged to provide legal consultation or representation.

**Pending or Threatened Litigation, Claims and Assessments**

(excluding unasserted claims and assessments)

Please furnish a list of all pending or threatened litigation, claims, and assessments your firm is handling on our behalf including the following:

1. The nature of the litigation (including the amount of monetary or other damages sought).
2. The progress of the case to date.
3. How management is responding or intends to respond to the litigation (e.g., to contest the case vigorously or to seek an out-of-court settlement).
4. An evaluation of the likelihood of an unfavorable outcome and an estimate, if one can be made, of the amount or range of potential loss.

**Unasserted Claims and Assessments**

We understand that whenever, in the course of performing legal services for us with respect to a matter recognized to involve an unasserted possible claim or assessment that may call for financial statement disclosure, if you have formed a professional conclusion that we should disclose or consider disclosing concerning such possible claim or assessment, you will so advise us and will consult with us concerning the question of such disclosure and the applicable requirements of Statement of Financial Accounting Standards No. 5, as a matter of professional responsibility to us. *Please specifically confirm to our auditors that our understanding is correct.*

We have represented to our auditors that there are no unasserted claims which are not specifically identified in this letter that you advised us are probable of assertion and must be disclosed in accordance with Statement of Financial Accounting Standards No. 5.

(If unasserted claims exist, management's listed information should include the following: (1) the nature of the matter; (2) how management intends to respond if the claim is asserted; and (3) an evaluation of the likelihood of an unfavorable outcome and an estimate, if one can be made, of the amount or range of potential loss.)

Please furnish our auditors any explanation you consider necessary to supplement the foregoing information, including an explanation of these matters as to which your views may differ from those stated.

Please specifically identify the nature of and reasons for any limitation on your response.

[The auditor may request the client to inquire about additional matters, for example, unpaid or unbilled charges or specified information on certain contractually assumed obligations of the organization, such as guarantees of indebtedness of others.]

Very truly yours,

[*Authorized Signature for Client*]

---

**Notes:** (A) Auditors should carefully consider the provisions of SAS No. 12, *Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments* [AU section 337] in drafting this letter.

- (B) Sending of this letter should be timed so that the lawyer's response is dated as close to the auditor's opinion date as practicable. However, the auditor and client should consider early mailing of a draft inquiry as a convenience for the lawyer in preparing a timely response to the formal inquiry letter.
- (C) If a client has not needed to retain legal counsel, an unqualified opinion may be expressed on the financial statements even though a letter from legal counsel has not been obtained. In these circumstances, a written representation should be obtained from the Company that legal counsel has not been retained for matters concerning its operations that involve current or prospective litigation.

### .03 Improving Inquiry Techniques

If inquiries to legal counsel are not sufficiently detailed or specific, deficiencies in attorneys' responses may result. A conference between the auditor and the attorney may be necessary to clarify the attorney's written response and SAS No. 12, *Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments*, paragraph 10 [AU section 337.10] provides for such a conference. However, to improve the auditor's ability to receive all of the information necessary to complete his/her audit, he/she may wish to consider the following matters in an inquiry to legal counsel:

- a. A request that the attorney specify the effective date of his/her response if it is other than the date of the reply.
- b. A request that the attorney mail the response so that it will be received by a certain date.
- c. A request that the nature of any litigation specifically identify (i) the proceedings, (ii) the claim(s) asserted, (iii) the amount of monetary damages sought, or if no amounts are indicated in preliminary case filings, a statement to that effect, and (iv) the objectives sought by the plaintiff, if any, other than monetary or other damages, such as performance or discontinued performance of certain actions.
- d. A request that the attorney avoid such vague phrases as "meritorious defenses," "without substantial merit," and "reasonable chance" in expressing an opinion on the outcome of litigation.
- e. If an opinion cannot be expressed on the outcome of litigation, a request that the attorney so state together with his/her reasons for that position.
- f. A request that the attorney specify to what extent potential damages are covered by insurance. (It may be possible to obtain the opinion of the insurer's counsel regarding the applicability of insurance coverage.)
- g. A request that the attorney provide a summary of material litigation, claims, and assessments settled during the period.
- h. A statement that confirmation of the understanding regarding disclosure of unasserted claims and assessments is an integral part of the audit inquiry and that failure to so confirm will require a follow-up contact.
- i. A statement that the attorney's response will not be quoted or referred to in the financial statements without first consulting with him/her.

---

[The next page is 7401.]

# AAM Section 7400

## *Management Representations and Representation Letters*

.01 Statement on Auditing Standards (SAS) No. 85, *Management Representations* (AU section 333), requires an auditor to obtain written representations from management for all financial statements and periods covered by the auditor's report. The specific written representations obtained by the auditor will depend on the circumstances of the engagement and the nature and basis of presentation of the financial statements.

.02 Written representations from management ordinarily confirm representations explicitly or implicitly given to the auditor, indicate and document the continuing appropriateness of such representations, and reduce the possibility of misunderstanding concerning the matters that are the subject of the representations. Such representations from management are part of the evidential matter the independent auditor obtains, but they are not a substitute for the application of those auditing procedures necessary to afford a reasonable basis for an opinion regarding the financial statements under audit.

### Specific Representations

.03 In connection with an audit of financial statements presented in accordance with generally accepted accounting principles, specific representations should relate to the following matters:

#### *Financial Statements*

- a. Management's acknowledgment of its responsibility for the fair presentation in the financial statements of financial position, results of operations, and cash flows in conformity with generally accepted accounting principles.
- b. Management's belief that the financial statements are fairly presented in conformity with generally accepted accounting principles.

#### *Completeness of Information*

- c. Availability of all financial records and related data.
- d. Completeness and availability of all minutes of meetings of stockholders, directors, and committees of directors.
- e. Communications from regulatory agencies concerning noncompliance with or deficiencies in financial reporting practices.
- f. Absence of unrecorded transactions.

#### *Recognition, Measurement, and Disclosure*

- g. Information concerning fraud involving (1) management, (2) employees who have significant roles in internal control, or (3) others where the fraud could have a material effect on the financial statements.
- h. Plans or intentions that may affect the carrying value or classification of assets or liabilities.

- i. Information concerning related-party transactions and amounts receivable from or payable to related parties.
- j. Guarantees, whether written or oral, under which the entity is contingently liable.
- k. Significant estimates and material concentrations known to management that are required to be disclosed in accordance with the AICPA's Statement of Position 94-6, *Disclosure of Certain Significant Risks and Uncertainties*.
- l. Violations or possible violations of laws or regulations whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency.
- m. Unasserted claims or assessments that the entity's lawyer has advised are probable of assertion and must be disclosed in accordance with Financial Accounting Standards Board (FASB) Statement No. 5, *Accounting for Contingencies* (AC C59). (See footnote 7 of SAS No. 85, if the entity has not consulted with a lawyer.)
- n. Other liabilities and gain or loss contingencies that are required to be accrued or disclosed by FASB Statement No. 5.
- o. Satisfactory title to assets, liens or encumbrances on assets, and assets pledged as collateral.
- p. Compliance with aspects of contractual agreements that may affect the financial statements.

#### *Subsequent Events*

- q. Information concerning subsequent events.

The representation letter ordinarily should be tailored to include additional appropriate representations from management concerning matters specific to the entity's business or industry.

## Materiality Considerations

.04 Management's representations may be limited to matters that are considered either individually or collectively material to the financial statements, provided management and the auditor have reached an understanding on materiality for this purpose. Materiality may be different for different representations. A discussion of materiality may be included explicitly in the representation letter, in either qualitative or quantitative terms. Materiality considerations would not apply to those representations that are not directly related to amounts included in the financial statements.

## Addressing and Dating

.05 The written representations should be addressed to the auditor. Because the auditor is concerned with events occurring through the date of his or her report that may require adjustment to or disclosure in the financial statements, the representations should be made as of a date no earlier than the date of the auditor's report.

## Management's Signatures

.06 The letter should be signed by those members of management with overall responsibility for financial and operating matters whom the auditor believes are responsible for and knowledgeable about, directly or through others in the organization, the matters covered by the representations. Such members of management normally include the chief executive officer and chief financial officer or others with equivalent positions in the entity.

## Scope Limitations

.07 Management's refusal to furnish written representations constitutes a limitation on the scope of the audit sufficient to preclude an unqualified opinion and is ordinarily sufficient to cause an auditor to disclaim an opinion or withdraw from the engagement. However, based on the nature of the representations not obtained or the circumstances of the refusal, the auditor may conclude that a qualified opinion is appropriate. Further, the auditor should consider the effects of the refusal on his or her ability to rely on other management representations.

## Illustrative Representation Letter—Audit of Financial Statements

.08 The following letter, which relates to an audit of financial statements prepared in conformity with generally accepted accounting principles, is presented for illustrative purposes only. The introductory paragraph should specify the financial statements and periods covered by the auditor's report, for example, "balance sheets of XYZ Company as of December 31, 19X1 and 19X0, and the related statements of income and retained earnings and cash flows for the years then ended." The written representations to be obtained should be based on the circumstances of the engagement and the nature and basis of presentation of the financial statements being audited.

.09 If matters exist that should be disclosed to the auditor, they should be indicated by listing them following the representation. For example, if an event subsequent to the date of the balance sheet has been disclosed in the financial statements, the final paragraph could be modified as follows: "To the best of our knowledge and belief, except as discussed in Note X to the financial statements, no events have occurred. . ." Similarly, in appropriate circumstances, item 6 could be modified as follows: "The company has no plans or intentions that may materially affect the carrying value or classification of assets and liabilities, except for our plans to dispose of segment A, as disclosed in Note X to the financial statements, which are discussed in the minutes of the December 7, 19X1, meeting of the board of directors."

.10 The qualitative discussion of materiality used in the illustrative letter is adapted from FASB Statement of Financial Accounting Concepts No. 2, *Qualitative Characteristics of Accounting Information*.

.11 Certain terms are used in the illustrative letter that are described elsewhere in authoritative literature. Examples are fraud, in SAS No. 82, *Consideration of Fraud in a Financial Statement Audit* (AU section 316), and related parties, in SAS No. 45, *Related Parties*, footnote 1 (AU section 334). To avoid misunderstanding concerning the meaning of such terms, the auditor may wish to furnish those definitions to management or request that the definitions be included in the written representations.

.12 The illustrative letter assumes that management and the auditor have reached an understanding on the limits of materiality for purposes of the written representations. However, it should be noted that a materiality limit would not apply for certain representations, as explained in paragraph 8 of SAS No. 85.

**.13 Illustrative Representation Letter**

[Prepared on Client's Letterhead]

[Date]

To [Independent Auditor]

We are providing this letter in connection with your audit(s) of the [identification of financial statements] of [name of entity] as of [dates] and for the [periods] for the purpose of expressing an opinion as to whether the (consolidated) financial statements present fairly, in all material respects, the financial position, results of operations, and cash flows of [name of entity] in conformity with generally accepted accounting principles. We confirm that we are responsible for the fair presentation in the (consolidated) financial statements of financial position, results of operations, and cash flows in conformity with generally accepted accounting principles.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We confirm, to the best of our knowledge and belief, (as of [date of auditor's report],) the following representations made to you during your audit(s):

1. The financial statements referred to above are fairly presented in conformity with generally accepted accounting principles.
2. We have made available to you all—
  - a. Financial records and related data.
  - b. Minutes of the meetings of stockholders, directors, and committees of directors, or summaries of actions of recent meetings for which minutes have not yet been prepared.
3. There have been no communications from regulatory agencies concerning noncompliance with or deficiencies in financial reporting practices.
4. There are no material transactions that have not been properly recorded in the accounting records underlying the financial statements.
5. There has been no—
  - a. Fraud involving management or employees who have significant roles in internal control.
  - b. Fraud involving others that could have a material effect on the financial statements.
6. The company has no plans or intentions that may materially affect the carrying value or classification of assets and liabilities.
7. The following have been properly recorded or disclosed in the financial statements—
  - a. Related-party transactions, including sales, purchases, loans, transfers, leasing arrangements, and guarantees, and amounts receivable from or payable to related parties.
  - b. Guarantees, whether written or oral, under which the company is contingently liable.
  - c. Significant estimates and material concentrations known to management that are required to be disclosed in accordance with the AICPA's Statement of Position 94-6, *Disclosure of Certain Significant Risks and Uncertainties*. (Significant estimates are estimates at the balance sheet date that could change materially within the next year. Concentrations refer to volumes of business, revenues, available sources of supply, or markets or geographic areas for which events could occur that would significantly disrupt normal finances within the next year.)

8. There are no—
- Violations or possible violations of laws or regulations whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency.
  - Unasserted claims or assessments that our lawyer has advised us are probable of assertion and must be disclosed in accordance with Financial Accounting Standards Board (FASB) Statement No. 5, *Accounting for Contingencies*.<sup>1</sup>
  - Other liabilities or gain or loss contingencies that are required to be accrued or disclosed by FASB Statement No. 5.
9. The company has satisfactory title to all owned assets, and there are no liens or encumbrances on such assets nor has any asset been pledged as collateral.
10. The company has complied with all aspects of contractual agreements that would have a material effect on the financial statements in the event of noncompliance.

*[Add additional representations that are unique to the entity's business or industry. (See paragraph 7 and appendix B, "Additional Illustrative Representations," of SAS No. 85).]*

To the best of our knowledge and belief, no events have occurred subsequent to the balance-sheet date and through the date of this letter that would require adjustment to or disclosure in the aforementioned financial statements.

---

*[Name of Chief Executive  
Officer and Title]*

---

*[Name of Chief Financial  
Officer and Title]*

---

<sup>1</sup> In the circumstances discussed in footnote 7 of SAS No. 85, this representation might be worded as follows:  
We are not aware of any pending or threatened litigation, claims, or assessments or unasserted claims or assessments that are required to be accrued or disclosed in the financial statements in accordance with FASB Statement No. 5, *Accounting for Contingencies*, and we have not consulted a lawyer concerning litigation, claims, or assessments.

**.14 Illustrative Representation Letter—Audit of Personal Financial Statements**

[Date]

[To the Independent Auditor]

We are providing this letter in connection with your audit of the statement of financial condition of James and Jane Person as of [date] and the related statement of changes in net worth for the [period] then ended for the purpose of expressing an opinion as to whether the financial statements present fairly, in all material respects, the financial condition and changes in the net worth, of James and Jane Person in conformity with generally accepted accounting principles. We confirm that we are responsible for the fair presentation in the statement of financial condition and changes in net worth in conformity with generally accepted accounting principles.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We confirm, to the best of our knowledge and belief, [as of (date of auditor's report),] the following representations made to you during your audit.

1. The financial statements referred to above are fairly presented in conformity with generally accepted accounting principles.
2. We have made available to you all financial records and related data.
3. There are no material transactions that have not been properly recorded in the accounting records underlying the financial statements.
4. There has been no—
  - a. Fraud involving us, or others who have significant roles in internal control.
  - b. Fraud involving others that could have a material effect on the financial statements.
5. We have no plans or intentions that may materially affect the carrying value or classification of assets and liabilities.
6. The following have been properly recorded or disclosed in the financial statements:
  - a. Related-party transactions, including sales, purchases, loans, transfers, leasing arrangements, and guarantees, and amounts receivable from or payable to related parties.
  - b. Guarantees, whether written or oral, under which we are contingently liable.
  - c. Significant estimates and material concentrations known to us that are required to be disclosed in accordance with the AICPA's Statement of Position 94-6, *Disclosure of Certain Significant Risks and Uncertainties*. [Significant estimates are estimates at the balance sheet date that could change materially within the next year. Concentrations refer to volumes of business, revenues, available sources of supply, or markets or geographic areas for which events could occur that would significantly disrupt normal finances within the next year.]
7. There are no—
  - a. Violations or possible violations of laws or regulations whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency.

- b. Unasserted claims or assessments that our lawyer has advised us are probable of assertion and must be disclosed in accordance with Financial Accounting Standards Board (FASB) Statement No. 5, *Accounting for Contingencies*.<sup>1</sup>
  - c. Other liabilities or gain or loss contingencies that are required to be accrued or disclosed by FASB Statement No. 5.
- 8. We have satisfactory title to all owned assets, and there are no liens or encumbrances on such assets nor has any asset been pledged as collateral.
  - 9. We have complied with all aspects of contractual agreements that would have a material effect on the financial statements in the event of noncompliance.

To the best of our knowledge and belief, no events have occurred subsequent to the statement of financial condition date and through the date of this letter that would require adjustment to or disclosure in the aforementioned financial statements.

---

(James Person)

---

(Jane Person)

---

<sup>1</sup> Footnote 7 of SAS No. 85, *Management Representations*, states that if a lawyer has not been consulted regarding litigation, claims, and assessments, the auditor normally would rely on the review of internally available information and obtain a written representation by management regarding the lack of litigation, claims, and assessments. In the circumstances discussed in footnote 7 to SAS No. 85, this representation might be worded as follows:

We are not aware of any pending or threatened litigation, claims, or assessments or unasserted claims or assessments that are required to be accrued or disclosed in the financial statements in accordance with Financial Accounting Standards Board Statement No. 5, *Accounting for Contingencies*, and we have not consulted a lawyer concerning litigation, claims, or assessments.

**.15 Illustrative Representation Letter to Other Accountants**

[Firm's Letterhead]

[Date]

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

In connection with the report you have been requested to reissue on the financial statements of \_\_\_\_\_ [client's name] for the year ended \_\_\_\_\_ [date], which statements are to be included comparatively with similar statements for the year ended \_\_\_\_\_ [date], we make the following representations.

We have audited (or reviewed or compiled) the balance sheet of \_\_\_\_\_ [client's name] as of \_\_\_\_\_ [balance-sheet date] and the related statements of earnings, retained earnings, and cash flows for the year then ended. Our procedures in connection with the engagement did not disclose any events or transactions subsequent to \_\_\_\_\_ [predecessor's balance-sheet date] which, in our opinion, would have a material effect upon the financial statements, or which would require mention in the notes to the financial statements of \_\_\_\_\_ [client's name] for the year then ended.

Should anything come to our attention prior to the date our report is issued which, in our judgment, would have a material effect upon the financial statements covered by your report, we shall notify you promptly.

Very truly yours,

\_\_\_\_\_  
[Engagement Partner's Signature]

**Note:** If any matters come to the firm's attention that may require revision of the previous financial statements, they should be included in a separate paragraph after approval by the engagement partner.

**.16 Letter to Other Accountants Upon Whose Work We Plan to Rely**

[Firm's Letterhead]

[Date]

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

We are auditing the financial statements of \_\_\_\_\_ [client's name], \_\_\_\_\_ [parent company]. The financial statements of \_\_\_\_\_ [other accountants' client's name] that you are auditing are to be included in the financial statements of \_\_\_\_\_ [client's name]. We will rely on your report on the financial statements in expressing an opinion on the (consolidated) financial statements of \_\_\_\_\_ [client's name] (and subsidiaries). In that connection, we will refer to your report.

Please confirm to us that your firm is independent with respect to \_\_\_\_\_ [client's name] and \_\_\_\_\_ [other accountant's client's name] within the meaning of Rule 101 of the Code of Professional Conduct of the American Institute of Certified Public Accountants.

Please provide us promptly, in writing, with the following information in connection with your current examination of the financial statements of \_\_\_\_\_ [other accountant's client's name] with respect to:

1. Related-party transactions or other matters that have come to your attention. We are aware of the following related parties: \_\_\_\_\_ [names of known related parties].
2. Any limitation on the scope of your examination that is related to the financial statements of \_\_\_\_\_ [client's name], or that limits your ability to respond to this inquiry.

Please update your letter to indicate any additional matters of the type designated above that have come to your attention through the date of your report on the financial statements of \_\_\_\_\_ [other accountants' client's name].

Very truly yours,

\_\_\_\_\_  
[Engagement Partner's Signature]

**.17 Illustrative Updating Management Representation Letter**

The following letter is presented for illustrative purposes only. It may be used in the circumstances described in paragraph 12 of SAS No. 85. Management need not repeat all of the representations made in the previous representation letter.

If matters exist that should be disclosed to the auditor, they should be indicated by listing them following the representation. For example, if an event subsequent to the date of the balance sheet has been disclosed in the financial statements, the final paragraph could be modified as follows: "To the best of our knowledge and belief, except as discussed in Note X to the financial statements, no events have occurred. . . ."

[Firm's Letterhead]

[Date]

To [Auditor]

In connection with your audit(s) of the [identification of financial statements] of [name of entity] as of [dates] and for the [periods] for the purpose of expressing an opinion as to whether the (consolidated) financial statements present fairly, in all material respects, the financial position, results of operations, and cash flows of [name of entity] in conformity with generally accepted accounting principles, you were previously provided with a representation letter under date of [date of previous representation letter]. No information has come to our attention that would cause us to believe that any of those previous representations should be modified.

To the best of our knowledge and belief, no events have occurred subsequent to [date of latest balance sheet reported on by the auditor] and through the date of this letter that would require adjustment to or disclosure in the aforementioned financial statements.

## *Communication With Audit Committees*

### .01 Illustrative Communication With Audit Committees

#### Addressee:<sup>\*</sup>

Statement on Auditing Standards (SAS) No. 61, *Communication With Audit Committees* (AU section 380) issued by the AICPA Auditing Standards Board requires the auditor to communicate certain matters to those responsible for the oversight of the financial reporting process. The following comments regarding the scope and results of our audit of (*name of client*) for the year ended December 31, 19X2 will assist you in overseeing the financial reporting and disclosure process for which management is responsible.

#### *Scope of Audit*

Our responsibility is to express an opinion on the financial statements based on our audit. This audit is to be conducted in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements presentation.

#### *Results of Audit*

This part of the letter would address the following:

1. Management's choice of significant accounting policies and their application. This includes methods proposed for new transactions or events, significant unusual transactions, or controversial areas such as equity investments, off-balance-sheet financing or revenue recognition;
2. Procedures used by management to determine accounting estimates and the data the auditor has considered to determine the reasonableness of the estimates;
3. Effects of audit adjustments that have or have not been recorded in the financial statements. Such adjustments, whether or not recorded, may have significant effects on current and future financial statements or on the company's internal control (i.e., a proposed adjustment may have resulted from errors detected during the audit that result from weaknesses in internal control);
4. Other information presented by management that is included with the entity's audited financial statements. The auditor should discuss the nature of his/her responsibility for such information with the audit committee,<sup>\*</sup> including procedures performed, if any, and the results;
5. Nature of and circumstances surrounding any disagreements with management about the application of GAAP, the determination of accounting estimates, or scope of the audit that could be significant to the entity's annual reporting;
6. Auditor's views about any accounting or auditing matters discussed by management with other auditors (opinion shopping);
7. Major discussions by management with the auditor about the initial or continued retention of the auditor; and

---

<sup>\*</sup> Audit Committee, or other formally designated oversight group which is equivalent to the audit committee such as a finance committee or budget committee.

8. Any serious difficulties encountered in conducting the audit.

This report is intended solely for the information and use of the audit committee,\* management and others in the organization (or specified regulatory agency) and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

[Source: SAS No. 61, as amended by SAS No. 87 (AU section 380)]

---

**Note:** SAS No. 61 (AU section 380), is required to be followed for (1) entities that either have an audit committee or that have otherwise formally designated oversight of the financial reporting process to a group equivalent to an audit committee (such as a finance committee or budget committee) and (2) all Securities and Exchange Commission (SEC) engagements.

---

\* Audit Committee, or other formally designated oversight group which is equivalent to the audit committee such as a finance committee or budget committee.

**.02 Report on Reportable Conditions**

[Date of Auditor's Report on the Financial Statements]

In planning and performing our audit of the financial statements of the \_\_\_\_\_ (client's name) for the year ended \_\_\_\_\_ (financial statement date), we considered its internal control in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control. However, we noted the following matters involving internal control and its operation that we consider to be reportable conditions under standards established by the American Institute of Certified Public Accountants. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design and operation of internal control that, in our judgment, could adversely affect the entity's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.

**Bank Reconciliations**

Bank reconciliations have been prepared for the operating cash account, but they have not been in agreement with the general ledger, often by as much as \_\_\_\_\_. At \_\_\_\_\_, the general ledger balance varied from the bank reconciliation by \$\_\_\_\_\_.

In prior years, the bank reconciliations did not reconcile exactly to the general ledger; however, the variances were not as significant as in 199X. To maintain effective internal controls over cash, it is critical that bank accounts be reconciled to the general ledger monthly with differences identified and resolved immediately. At the present time, an adjusting journal entry should be made to bring the general ledger balance into agreement with the reconciled balance.

**Accounts Payable**

A listing of accounts payable as of \_\_\_\_\_ could not be produced to support the general ledger amount. We were able to reconcile accounts payable to the general ledger amount by reviewing computer-generated payable listings dated \_\_\_\_\_, along with examining unpaid invoices at the time of our field work.

As indicated in previous letters to the Board, accounts payable has been an ongoing problem due to the fact that the accounts payable listing is not reconciled to the general ledger monthly. Proper recording of accounts payable is a key to maintaining adequate financial statements. Whether computer-generated or manually prepared, a detailed accounts payable listing should be reconciled monthly to the general ledger balance. All reconciliations should be reviewed and approved by someone other than the preparer, with the reviewer being responsible for ensuring that all differences are resolved.

**Property and Equipment**

Documentation provided to support the changes in property and equipment was not in agreement with the changes in the general ledger balances, for some categories, by as much as \_\_\_\_\_. Also, the computer-generated list of property and equipment was not in agreement with the total property and equipment recorded in the general ledger; therefore, this listing was not a useful resource.

The property and equipment computer listing should be reviewed, revised, and reconciled to the general ledger. Changes in property and equipment should be recorded timely and the detailed property and equipment listing should be reconciled to the general ledger balances monthly.

The procedures for recording fixed asset additions and deletions should be reviewed to determine their adequacy. Adjusting journal entries with regard to trade-ins, sales and other retirements of fixed assets should be reviewed by the Treasurer or someone other than the person preparing the entry. Examples of problems encountered include improper capitalization of assets when a like kind exchange or trade-in is involved and improper recording of gain or loss on sale of assets.

An annual or biannual physical inventory of equipment is an effective management tool to help maintain detail property and equipment records and strengthen controls of safeguarding equipment. The Board should consider making a physical inventory a standard procedure.

This report is intended solely for the information and the use of the Board of Directors, management, and others within the entity and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

---

*[Engagement Partner]*

**.03 Report on Reportable Conditions That Also Identifies a Material Weakness**

[Date of Auditor's Report on the Financial Statements]

In planning and performing our audit of the financial statements of the \_\_\_\_\_ (client's name) for the year ended \_\_\_\_\_ (financial statement date), we considered its internal control in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control. However, we noted the following matters involving internal control and its operation that we consider to be reportable conditions under standards established by the American Institute of Certified Public Accountants. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design and operation of internal control that, in our judgment, could adversely affect the entity's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.

**Accrued Vacation**

Although accrued vacation has not been recorded on the financial statements, the amount of accrued vacation must be considered in determining the fair presentation of the financial statements. The year end analysis of accrued vacation had a balance significantly lower than the prior year's balance. The details of the analysis were traced to the "attendance control cards." We found (1) the number of days earned on the listing did not agree to that recorded in the cards, (2) individuals were reported in the cards with earned vacation but were not on the listing, and (3) some of the cards appeared to not have been maintained.

Detailed records of vacation days earned and used by employees should be timely and accurately maintained. At least annually, these days should be converted to dollar amounts. Management should review the conversion and consider reporting this liability on the financial statements for complete recognition of liabilities.

Discussions with the Office Manager revealed that not all employees are required to notify her when they use vacation days. All employees should be required to inform the Office Manager of all vacation days taken. Employees should also be asked to periodically review their vacation records with the Office Manager and to indicate their agreement by signing the records.

**Bad Debts**

During 19XX, the Board approved the write-off of accounts receivable of about \_\_\_\_\_. The write-off was charged to revenue rather than to bad-debt expense.

Procedures for recording bad debt write-offs should be reviewed for adequacy. All adjusting entries should be reviewed by the Treasurer or a member of management other than the person preparing the journal entry.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses as defined above. However, we believe that the following reportable condition is a material weakness.

**Blank Checks**

Blank checks are maintained in an unlocked cabinet along with the check signing machine.

Blank checks and the check signing machine should be locked in separate locations so as to prevent the embezzlement of funds.

This report is intended solely for the information and use of the Board of Directors, management, and others within the entity and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

---

## *Reliance Letter*

### .01 Illustrative Reliance Letter

Addressee:

The following is in response to your letter to our firm dated \_\_\_\_\_ .

We performed an audit of ABC Company's balance sheet dated December 31, 19X0, and the related statements of income, retained earnings, and cash flow for the year then ended. The financial statements were audited as of the financial statement date and the audit procedures performed were completed on March 28, 19X1 (*audit report date*). No additional audit procedures were performed subsequent to March 28, 19X1.

The audit was conducted in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. However, a properly designed and executed audit may not detect a material irregularity. For example, generally accepted auditing standards do not require that an auditor authenticate documents, nor is an auditor trained to do so. Also audit procedures that are effective for detecting a misstatement that is unintentional may not be effective for a misstatement that is intentional and is concealed through collusion between client personnel and third parties or among management or employees of the client.

We understand that you intend to rely on the report and associated statements in connection with (*describe as precisely as possible the transaction in connection with which the third party intends to rely on the report and statements*). It should be noted that the audit procedures performed in order to render an opinion on the financial statements of ABC Company may not be adequate or appropriate for this purpose. Because of the limitations inherent in the audit process we may not have detected all material misstatements. Accordingly, our audit was not intended for your benefit and should not be taken to supplant the inquiries and procedures that you should take to satisfy yourself as to ABC Company's credit-worthiness. We recommend that you perform your own due diligence investigation which should include but not be limited to the following steps (*itemize*). We emphasize that this list of procedures may not be all inclusive and that we cannot provide any assurance that the procedures we have mentioned will be sufficient for your purposes.

## *Proposal Letter*

### .01 Illustrative Proposal Letter

[Date]

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

We appreciate this opportunity to present a proposal for (*nature of services*) and a brief description of our firm and services.

Our firm was formed in 19\_\_\_\_. We have \_\_\_\_ partners and \_\_\_\_ staff and support personnel working with clients in accounting and auditing, taxation, and various consulting services. Although we serve all size clients, our clientele consists primarily of small and medium-size businesses such as yours.

Our professional objectives are to provide the highest quality services on a timely basis. As a member of the AICPA Division for Firm's Private Companies Practice Section, our accounting and auditing practice has been subjected to a review by another firm of CPAs. We received an unqualified opinion as a result of that review. We extend our client relationships to include ongoing contact and services to achieve our services objectives.

We have extensive experience in the \_\_\_\_\_ industry. This experience and related understanding of your industry's operations permit us to design, perform, and complete engagements for your company effectively and at a reasonable cost.

Our services include the following:

- Accounting, Auditing, and Attestation Services

Our accounting, auditing, and attestation services include annual or special audits, compilations and reviews of financial statements, and the examination and review of financial and other information under the attestation standards. We accompany our report on audited financial statements with a reportable conditions letter and a management letter that include suggestions to correct internal control weaknesses and recommendations for operational efficiencies. Our purpose in making these suggestions is to help you accomplish your operational objectives. These suggestions often result in cost savings.

- Tax Services

We offer diversified tax services, including assistance in all phases of federal, state, and local income taxes; estate, inheritance, and gift taxes; and payroll and other taxes. These services include tax return preparation, tax research, and representation of clients at administrative proceedings before the various taxing authorities. The objectives of our tax services are to minimize taxes and potential problems.

- Consulting Services

Our consulting services are designed to assist clients in improving efficiency and profitability. Our approach offers assistance in such areas as developing plans for problem identification or implementing more effective operating controls, evaluating information systems and installing or upgrading data processing systems.

\_\_\_\_\_, an audit partner, will be primarily responsible for your engagement.

As you requested, our proposal is for \_\_\_\_\_ (*state nature of services*).

We estimate that our fees for the proposed services will be approximately \$\_\_\_\_\_, plus out-of-pocket expenses, billable as the work progresses. Our fees are based on time spent on the engagement. Should we encounter any unforeseen circumstances requiring additional time, you will be notified promptly of the situation.

Our fee estimate is based on the assumption that your personnel will prepare certain schedules and analyses for us. We also anticipate their assistance in locating invoices and other documents for our examination.

Our firm is organized and staffed to help you satisfy our business needs. Please call \_\_\_\_\_ with questions about this proposal.

Very truly yours,

\_\_\_\_\_  
[Firm Signature]

## *Audit Risk Alert—1998/99*

### In This Year's Alert...

- What is the purpose of this Audit Risk Alert? What are the risks associated with the audit process?
- What are the current conditions in the U.S. economy?
- Will the Asian crisis have an impact on your audit this year?
- What are some of the accounting and auditing issues that arise in a corporate consolidation?
- What is the year 2000 issue? How will it affect your audits?
- What are the responsibilities of predecessor and successor auditors under the new auditing standard?
- What factors are frequently cited in cases involving improper revenue recognition? What factors might indicate an intentional misstatement of revenues? How are side-agreements used to improperly recognize revenues?
- What will be the impact of Europe's adoption of a new reporting currency?
- What are some of the recurring auditing and accounting issues of concern to the SEC?
- How can auditors adopt a business adviser approach to add value to their audits?
- What are assurance services?
- What are the Auditing Standards Board's operating priorities for the coming years?
- What new auditing and attestation pronouncements have been issued this year?
- What new accounting pronouncements have been issued this year?

\* \* \* \*

### Introduction

*What is the purpose of this Audit Risk Alert?  
What are the risks associated with the audit process?*

.01 This Audit Risk Alert is intended to help auditors plan their 1998 year-end audits. Successful audits are the result of a number of factors, including the acceptance of clients with integrity; adequate partner involvement in planning, supervising, and performing audits; an appropriate level of professional skepticism; and the allocation of sufficient audit resources to high-risk areas. Addressing these factors in each audit engagement requires substantial professional judgment based, in part, on a knowledge of professional standards and current developments in business and government.

.02 Throughout the audit process, from the initial consideration of whether to accept a client to the issuance of the audit report, auditors should consider overall engagement risk. According to the AICPA SEC Practice Section *Practice Alert* (September 1994) engagement risk consists of the following three components:

1. *Client's business risk*—The risk associated with the entity's survival and profitability

2. *Audit risk*—The risk that the auditor may unknowingly fail to appropriately modify his or her opinion on financial statements that are materially misstated
3. *Auditor's business risk*—The risk of potential litigation costs from an alleged audit failure and the risk of other costs (whether an audit failure is alleged or not), such as fee realization and the effect on the auditor's reputation resulting from association with the client

Although this Audit Risk Alert does not provide a complete list of the risk factors to be considered, and the items discussed do not affect risk in every audit, it can be used as a planning tool for matters that may be especially significant for a specific audit. During the conduct of all engagements, auditors must remember that their paramount responsibilities are to boards of directors, shareholders, creditors, and the public. This requires traits that are the hallmarks of auditors: independence, objectivity, and integrity.

## Economic Environment

### *What are the current conditions in the U. S. economy?*

.03 The current economic expansion, now in its eighth year, ranks as one of the nation's strongest growth cycles in almost five decades. The economy's impressive performance during 1998 was clearly demonstrated by key indicators such as the following.<sup>1</sup>

- The nation's unemployment rate, which dropped below 4.5 percent, was near its lowest level in almost thirty years.
- Inflation remained low at a modest 2 percent.
- Consumer confidence reached its highest level in years, thus fueling continued spending. In fact, confidence throughout much of the year was so high that Americans spent 96 cents of every dollar they earned.
- Interest rates remained low by historical standards. For example, average mortgage interest rates on thirty-year fixed loans fell below 7 percent; the federal funds overnight bank lending rate was cut to 5.25 percent by the Federal Reserve Bank in September.
- Gross domestic product (GDP), the broadest measure of total national output, soared to an annualized rate of 5.5 percent for the first quarter. GDP for 1998 was expected to reach 3 percent, despite a decline to 1.4 percent in the second quarter.

Economists expect a number of these conditions to continue into 1999, and are thus predicting another year of economic expansion. Nevertheless, most agree that the pace of growth is likely to moderate, as follows:

- GDP is expected to decline slightly, reaching 2 percent to 2½ percent in 1999.
- Inflation is expected to increase moderately to 2½ percent.
- Job growth should continue, but at a slower pace.
- Unemployment rates are expected to edge up toward 5 percent, but not enough to ease continued labor shortages.

.04 Despite these favorable conditions and forecasts, the *Asian crisis*, as it is commonly called, presents a potential threat to continued domestic growth. The problems in Asia relate to economic instability arising out of the deep and prolonged recessions in countries that include Indonesia, Thailand, South Korea, Singapore, Malaysia, and Japan. These economies have been plagued by rising unemploy-

---

<sup>1</sup> Statement on Auditing Standards (SAS) No. 56 *Analytical Procedures* (AICPA, *Professional Standards*, vol. 1, AU sec. 329), requires the use of analytical procedures in the planning and overall review stages of all audits. Statistical information of the kind shown may be useful to auditors in applying the provisions of SAS No. 56. The appendix—“The Internet—An Auditor's Research Tool,” of this Audit Risk Alert provides a listing of Internet Web sites from which such economic and other financial data may be obtained.

ment, upward pressure on interest rates, and falling asset prices. The resulting declines in currency values and financial markets has led to the weakening or failure of many of their major financial institutions. Moreover, the risk of further adverse developments in Asia remains substantial, with the prospect of economic recovery at least two or three years away. Given the pervasive interconnections of virtually all economies and financial systems in the world today, the associated uncertainties for the U.S. economy remains substantial as well. Although there is no way to know just how much of an impact the Asian crisis will have on the nation, the general sense is that there is a very real danger of an Asia-induced recession.

.05 A likely scenario for such a recession would include the slowing of production and reduced employment levels by U.S. businesses in response to falling export sales, rising inventory levels, and slower domestic sales. Entities with significant reliance on Asian trade, for example, exporters and manufacturers, will be among the first to feel the impact of the crisis. These circumstances could develop as the strength of the dollar makes American-made products more expensive abroad, thus reducing demand. Conversely, currency declines in Asia will make imported cars, clothing, and other items less expensive for Americans. Evidence that this had already happened was reflected in the midyear record high trade deficit showing little demand abroad for U.S. goods while domestic demand for foreign goods was strong. Auditors should understand the implications, direct and indirect, of the Asian economic crisis on their clients. Examples of the audit and accounting issues that might arise are discussed in the section entitled “Current Audit Issues” in this Audit Risk Alert under the heading, “The Asian Crisis—An Auditor’s Perspective.” In addition, auditors may wish to consider what impact, if any, the current economic uncertainties in Russia and Latin America will have on their clients.

.06 Another noteworthy economic event of 1998 has been the unusually high number of corporate consolidations. Across the industry spectrum, from retailing to banking, from pharmaceuticals to insurers, merger and acquisition deals have generated a wave of consolidations dwarfing anything that has preceded it. Driven by the prevailing philosophy that bigger is better in the global marketplace, the value of mergers and acquisitions in the United States through midyear soared by 153 percent from the same point a year earlier, to \$910 billion. Worldwide deals doubled to \$1.3 trillion, rapidly approaching a record \$1.6 trillion for 1997. Thus, in the current environment, auditors are more likely to face the variety of issues that arise out of business combinations. A few examples of matters that could increase audit risk are presented in the section entitled “Current Audit Issues” of this Audit Risk Alert under the heading, “Audit Implications of Business Combinations.”

.07 Numerous reports of improper financial accounting and reporting received widespread coverage in the business media during 1998. Some of these cases involved significant adjustments to previously issued financial statements, some going back several years. One reported incident apparently involved the improper use of merger reserves to create “fictitious” revenues, the fabrication of accounts receivable to inflate reported assets, and other misapplications of generally accepted accounting principles (GAAP), including inappropriate depreciation calculations and the failure to recognize the impact of insurance claims. Another report cited the premature recognition of revenue because of the existence of *side-agreements*, agreements hidden from the entity’s board of directors and outside auditors, that materially altered the terms and conditions of recorded sales. In some of these cases, intentional misstatement of the financial statements—fraudulent financial reporting—is alleged. In others, the accounting is deemed “overly aggressive.”

.08 Another area of concern is the issue of “managing earnings,” that is, the manipulation of accounting practices to ensure that reported financial results meet predetermined expectations. The U.S. Securities and Exchange Commission (SEC) has cited the following five accounting practices that companies employ to manage their earnings:

- “Big bath” restructuring charges, whereby management inappropriately includes in a restructuring charge unrelated charges and accruals
- Creative acquisition accounting (in particular, overly aggressive write-offs of in-process research and development)
- “Cookie jar reserves,” whereby accruals, for the purpose of providing a “cushion” are made in times when earnings are exceeding expectations

- “Immaterial” misapplications of accounting principles, without regard to the qualitative effects
- Premature recognition of revenue

The profession’s self-monitoring mechanisms and investigations undertaken by the SEC confirm that some auditors continue to struggle with these issues. As a result, the SEC met with leaders from the financial reporting, auditing, and standard-setting communities to assess the situation and consider what actions should be taken. The Auditing Standards Board has undertaken a review of the auditing literature to determine whether it needs to be strengthened in the areas of auditing revenues and reserves. The AICPA staff, with the oversight of AICPA technical committees, is preparing a nonauthoritative “toolkit” to help financial statement preparers and auditors better understand issues surrounding revenue recognition, and the AICPA SEC Practice Section Professional Issues Task Force is preparing a Practice Alert, *Revenue Recognition Issues*. These two publications will be available on the AICPA Web site by the end of 1998. In addition, SEC Chairman Levitt’s comments on these and other issues are contained in a recent speech entitled *The Numbers Game*, which is available on the SEC Web site at [www.sec.gov](http://www.sec.gov).

.09 Examining incidents of improper financial accounting and reporting can provide useful lessons for auditors in helping them understand, the following, among other things:

- The manner in which internal control can be circumvented through collusion or management override
- The weakness(es) in internal control that failed to prevent or detect material misstatement on a timely basis
- The audit procedure(s) that might have uncovered the misstatements
- The audit procedure(s) performed that failed to uncover the misstatements
- The presence of fraud risk factors or other conditions that might have alerted the auditors to the possibility that fraud existed

Further discussion of this issue is provided in the section entitled “Current Audit Issues” of this Audit Risk Alert under the heading “Improper Revenue Recognition.” Specific issues of concern to the SEC staff are addressed in other sections of this Alert.

.10 Finally, 1998 brought us yet another year closer to the year 2000 issue. However, not everyone will have to wait until the year 2000 to confront the millenium bug. The year 2000 issue may begin to have an impact on some of your clients this year. For example, auditors should be alert to the fact that some computer systems may have assigned special meanings to date entries coded *xx/xx/98* or *xx/xx/99* (sometimes used for “dummy” transactions intended to test software modifications), and therefore may not process these transactions correctly. Failures may also occur this year if systems perform calculations into or beyond the year 2000. A complete discussion of the year 2000 issue, along with a discussion of some of the updated guidance developed by the AICPA, is presented in the “Current Audit Issues” section of this Audit Risk Alert.

#### **Executive Summary—Economic Environment**

- Now in its eighth year, the current economic expansion ranks as one of the nation’s strongest growth cycles. Economists expect current trends to continue, although the economic crisis in Asia presents a potential threat to continued domestic growth.
- Driven by the philosophy that bigger is better in the global marketplace, 1998 has seen a significant increase in the number of corporate consolidations.
- A number of high-profile cases of improper financial accounting and reporting were widely reported in the business media. The problems were numerous and severe enough to raise concerns with the SEC.
- 1998 brought us another year closer to the year 2000 problem. But for some, year-2000-related problems may arise this year.

## Current Audit Issues

### The Asian Crisis—An Auditor's Perspective

*Will the Asian crisis have an impact on your audit this year?*

.11 The Asian crisis was one of the most significant economic developments in 1998. The deep recessions plaguing a number of Asian countries pose a potential threat to continued growth in various segments of the global economy, including the United States. But to what extent should this be an issue of concern to auditors?

.12 To begin with, auditors should be aware of their responsibilities pursuant to the guidance set forth in Statement of Auditing Standards (SAS) No. 22, *Planning and Supervision* (AICPA, *Professional Standards*, vol. 1, AU sec. 311). SAS No. 22 requires, in part, that in planning the audit, the auditor should consider matters affecting the industry in which the entity operates, including current economic conditions. As such, auditors should assess the potential impact that the Asian crisis may have on their clients when considering the nature, extent, and timing of work to be performed. Factors to be considered in making the assessment might include whether Asian businesses are among the client's major customers or suppliers, the extent to which the client's product or service competes with low-priced Asian imports, or indirect effects, such as the extent to which a client's major customer is dependent upon Asian trade.

.13 If it appears likely that the Asian crisis may have an impact on any aspect of the client's operations, consideration should be given to the possible audit and accounting issues that might arise. Examples could include the following.

- The collectibility of amounts due from troubled Asian entities or from entities with significant reliance on Asian trade may be called into question. Auditors should carefully consider whether management has properly assessed the collectibility of these receivables, as well as whether adequate consideration has been given to possible loan impairment issues pursuant to Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 114, *Accounting by Creditors for Impairment of a Loan* (FASB, *Current Text*, vol. 1, sec. I08).
- Going-concern issues may arise for those entities with significant reliance on Asian trade or for those entities whose major customers have such reliance. In addition, entities whose products compete directly with less expensive Asian imports may also be at risk. In such circumstances, auditors should consider the guidance set forth under SAS No. 59, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern* (AICPA, *Professional Standards*, vol. 1, AU sec. 341).
- FASB Statement No. 121, *Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of* (FASB, *Current Text*, vol. 1, sec. I08), requires that long-lived and certain identifiable intangible assets to be held and used by an entity be reviewed for impairment whenever events or changes in circumstances indicate that the assets' carrying amount may not be recoverable. For some entities, the Asian crisis may represent a significant adverse change in the business climate that indicates that the recoverability of the carrying amount of an asset should be assessed. Auditors should evaluate management's consideration of FASB Statement No. 121 issues for assets that are directly or indirectly affected by the Asian crisis.
- The appropriate classification of investments in debt and equity securities of Asian entities, or entities with material dealings with Asian entities accounted for under FASB Statement No. 115, *Accounting for Certain Investments in Debt and Equity Securities* (FASB, *Current Text*, vol. 1, sec. I80), could be an area of increased audit risk. There may be a greater risk of inappropriate classification of such securities as available-for-sale rather than as trading securities so that any unrealized losses are reported in other comprehensive income rather than in current earnings. SAS No. 81, *Auditing Investments* (AICPA, *Professional Standards*, vol. 1, AU sec. 332), provides auditing guidance for investments accounted for under FASB Statement No. 115, as well as Accounting Principles Board

(APB) Opinion 18, *The Equity Method of Accounting for Investments in Common Stock* (FASB, *Current Text*, vol. 1, sec. I82), and FASB Statement No. 124, *Accounting for Certain Investments Held by Not-for-Profit Organizations* (FASB, *Current Text*, vol. 1, sec. I82).

- Entities with significant export activities curtailed by the Asian crisis may experience declines in the salability of its inventory and hence its valuation. Auditors should ensure that such inventories have been properly valued at the lower of historical cost (using an acceptable cost-flow assumption) or market.
- Greater risk may be associated with entities involved in Asian foreign-currency-related transactions. Auditors should consider whether management has appropriately accounted for and made all required disclosures relating to foreign-currency translation and transactions arising from the translation of asset and liability positions and revenue and expense transactions in currencies other than the U.S. dollar pursuant to FASB Statement No. 52, *Foreign Currency Translation* (FASB, *Current Text*, vol. 1, sec. F60).
- For some clients, the economic impact of the Asian crisis may engender fraud risk factors that suggest an increased possibility of misstatements arising from fraudulent financial reporting. For example, to offset losses incurred from a slowdown in sales to Asian customers, an entity may resort to the inappropriate acceleration of revenue recognition or the improper deferral of expenses. SAS No. 82, *Consideration of Fraud in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 316), sets forth the auditor's responsibilities concerning fraud in a financial statement audit.
- The Asian crisis is likely to result in more risks and uncertainties for many entities, particularly with regard to current vulnerability due to certain concentrations. Auditors should consider whether management has appropriately evaluated all such risks and uncertainties and made the necessary disclosures pursuant to SOP 94-6, *Disclosure of Certain Significant Risks and Uncertainties*. In addition, auditors should also evaluate management's consideration of related contingencies arising from the Asian crisis, pursuant to FASB Statement No. 5, *Accounting for Contingencies* (FASB, *Current Text*, vol. 1, sec. C59).

These examples call attention to some of the possible auditing and accounting implications of the Asian crisis, but should not be viewed as an exhaustive list of all the issues that might arise. Auditors should continue to monitor the crisis and carefully assess its impact on their clients by considering all relevant facts and circumstances.

#### **Executive Summary—The Asian Crisis—an Auditor's Perspective**

- The deep recessions plaguing a number of Asian countries (commonly referred to as the Asian crisis) pose a potential threat to continued growth in various segments of the global economy, including the United States.
- Auditors should assess the potential impact that the Asian crisis may have on their clients when considering the nature, extent, and timing of work to be performed.
- Auditors should consider the possible audit and accounting issues that might arise as a result of the Asian crisis, including going concern, valuation, impairment, collectibility, and fraud.

## **Audit Implications of Business Combinations**

*What are some of the accounting and auditing issues that arise in a corporate consolidation?*

.14 Auditors face a greater likelihood of addressing issues relating to business combinations this year given the surge in corporate consolidations. A business combination, according to Accounting Principles Board (APB) Opinion No. 16, *Business Combinations* (FASB, *Current Text*, vol. 1, sec. B50), occurs when a corporation and one or more incorporated or unincorporated businesses are brought together into one accounting entity. The single entity that results carries on the activities of the previously separate, independent enterprises. The auditing and accounting issues that arise out of corporate consolidations are numerous and varied. Auditors should carefully consider the individual circumstances of the client to identify those issues and to then develop an appropriate audit strategy. Examples of some of the issues that should be considered by auditors include the following.

- Careful consideration should be given to management's accounting for the business combination to ensure that all relevant GAAP have been considered. For example, if the pooling-of-interests method has been used, have the specific criteria of APB Opinion 16 been met?<sup>2</sup> If not, has the purchase price been allocated to the assets and liabilities acquired with goodwill properly calculated in accordance with the purchase method of accounting? If specialists have been used in asset or liability valuation, auditors relying on such information should consider the guidance set forth under SAS No. 73, *Using the Work of a Specialist* (AICPA, *Professional Standards*, vol. 1, AU sec. 336). The SEC has viewed the issue of goodwill with some concern recently and, accordingly, audit risk in this area may be especially acute for public companies. Auditors should also be alert to consensus positions reached this year by the FASB's Emerging Issues Task Force (EITF) relating to business combinations. See the "EITF Consensus Positions" section of this Audit Risk Alert for more information.
- With consolidation comes dramatic change in the structure of an entity. In an effort to create greater cost efficiencies in the consolidated entity, departments may be combined and duplicative functions eliminated. Auditors should consider the impact of such changes on their client's internal control when making the assessment of control risk. SAS No. 55, *Consideration of Internal Control in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 319), as amended by SAS No. 78, *Consideration of Internal Control in a Financial Statement Audit, An Amendment to SAS No. 55* (AICPA, *Professional Standards*, vol. 1, AU sec. 319), provides guidance on the auditor's consideration of an entity's internal control in an audit of financial statements in accordance with generally accepted auditing standards (GAAS).
- Business combinations often result in the gain of a client for one auditor and a loss of a client for another. Thus, in the current environment, auditors may be more likely to find themselves in the role of either a predecessor or successor auditor. SAS No. 84, *Communications Between Predecessor and Successor Auditors* (AICPA, *Professional Standards*, vol. 1, AU sec. 315), provides guidance on communications between predecessor and successor auditors when a change of auditors is in process or has taken place. Further discussion of this topic appears in the "Current Audit Issues" section of this Audit Risk Alert.
- Mergers and acquisitions may be effected in part through the use of debt financing. Auditors should carefully evaluate the terms of the debt agreement to identify, among other things, whether there are any loan covenants, and if so, the terms. Auditors should evaluate compliance with restrictive covenants and the implications of any loan covenant violations.
- The acquisition of an entity by one party may mean that another party has disposed of a business segment. Accordingly, auditors of the selling party should consider whether management has followed the accounting and disclosure requirements of APB Opinion 30, *Reporting the Results of Operations—Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions* (FASB, *Current Text*, vol. 1, sec. I13). Audit risk may be significant for discontinued operations involving an extended phase-out period. Auditors should give careful consideration to management's estimates when the disposal date of the segment occurs after year-end. SAS No. 57, *Auditing Accounting Estimates* (AICPA, *Professional Standards*, vol. 1, AU sec. 342), provides guidance on obtaining and evaluating sufficient competent evidential matter to support significant accounting estimates.
- Subsequent to the business combination, auditors should consider whether management has prepared the financial statements of the combined entity in accordance with appropriate accounting standards including FASB Statement No. 94, *Consolidation of All Majority-Owned Subsidiaries* (FASB, *Current Text*, vol. 1, sec. C51), and Accounting Research Bulletin (ARB) No. 51, *Consolidated Financial Statements* (FASB, *Current Text*, vol. 1, sec. C51).

---

<sup>2</sup> Accountants, other than the continuing accountant, who have been requested to provide advice on the application of accounting principles to specified transactions, such as whether a proposed business combination is in compliance with the pooling requirements of APB Opinion 16 and other related GAAP, should refer to the guidance set forth under SAS No. 50, *Reports on the Application of Accounting Principles* (AICPA, *Professional Standards*, vol. 1, AU sec. 625).

- A business combination involving a public business enterprise may result in an operating segment subject to the disclosure requirements of FASB Statement No. 131, *Disclosures about Segments of an Enterprise and Related Information*. In such circumstances, auditors should consider the guidance set forth under Auditing Interpretation No. 4 of SAS No. 31, *Evidential Matter* (AICPA, *Professional Standards*, vol. 1, AU sec. 326), "Applying Auditing Procedures to Segment Disclosures in Financial Statements" (AICPA, *Professional Standards*, vol. 1, AU sec. 9326.22). See the "New Auditing Interpretations" section for further information about this Interpretation.

#### **Executive Summary—Audit Implications of Business Combinations**

- This year's surge in corporate consolidations suggest that auditors are more likely to face the numerous and varied issues relating to business combinations.
- Auditors should carefully consider the individual circumstances of the client to identify the auditing and accounting issues that arise out of corporate consolidations.
- Auditors should consider the possible auditing and accounting issues that might arise as a result of a business combination, including the accounting methods used, effects on internal control, predecessor and successor communications, and discontinued operations.

### **The Year 2000 Issue**

*What is the year 2000 issue? How will it affect your audits?*

.15 The year 2000 issue relates to the inability of many electronic data processing (EDP) systems to accurately process year-date data beyond the year 1999. This is attributable to the fact that the majority of computer programs in use today were designed to store dates in the date/month/year (dd/mm/yy) format, thus allowing only two digits for each date component. So, for example, the date December 31, 1998, is stored in most computers as 12/31/98. Inherent in programming for dates in this manner is the assumption that the designation 98 refers to the year 1998. Initially developed as a cost-saving technique, this long-standing practice of using two-digit-year input fields will cause many computers to treat the entry 00 as 1900. Therefore, such programs will recognize the date January 1, 2000 (01/01/00), as January 1, 1900, and process data incorrectly, or perhaps not at all.

.16 There are other possible complications as well. The year 2000 is a leap year. Systems that are not year 2000 ready may not register the additional day, thus producing incorrect results for date-related calculations. In addition, certain year 2000 problems may occur this year. For example, some software programs may have assigned special meanings to entries date coded as xx/xx/98 or xx/xx/99 to allow for the testing of software modifications. Therefore, actual transactions using such dates may not be processed correctly or stop functioning. Failures may also take place currently when systems perform calculations into or beyond the year 2000.

.17 Unless these year 2000 problems are remedied, significant problems relating to the integrity of all electronically processed information based on time will occur. For example, inventory control systems might treat new items as obsolete, receivables may be erroneously identified as past due, interest calculations will be incorrect, paid up insurance policies may be considered expired, computerized equipment maintenance schedules could be affected, as will expiration dates for credit cards and periodical subscriptions, and so on. To further complicate the issue, even if an entity's computer software and hardware are year 2000 ready, the entity may be affected by the computer systems of customers, vendors, or third-party data processing services that have made no such modifications.

.18 Clearly, the year 2000 issue has the potential to adversely affect the operations of entities that rely, directly or indirectly, on information technology. But what are the auditor's responsibilities for the year 2000 issue?

.19 First, it must be understood that it is the responsibility of an entity's management to assess and remediate the effects of the year 2000 issue on an entity's systems—not the auditor's. The year 2000 issue does not create additional responsibilities for the auditor. Under GAAS, the auditor has a responsibility to plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. Thus, the auditor's responsibility relates to the detection of material misstatement of the financial statements being audited, whether caused by the year 2000 issue or by some other cause.

.20 Auditing guidance relating to the year 2000 issue has been developed by the Audit Issues Task Force (AITF) of the Auditing Standards Board (ASB). The AITF has issued the following Auditing Interpretations.

- Interpretation No. 4 of AU Section 311, *Planning and Supervision*, "Audit Considerations for the Year 2000 Issue" (AICPA, *Professional Standards*, vol. 1, AU sec. 9311.38), discusses the auditor's responsibility for the year 2000 issue, how it affects planning for an audit of financial statements conducted in accordance with GAAS, and under what circumstances the year 2000 issue may result in a reportable condition under SAS No. 60, *Communication of Internal Control Related Matters Noted in an Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 325).
- Interpretation No. 3 of SAS No. 70, *Reports on the Processing of Transactions by Service Organizations* (AICPA, *Professional Standards*, vol. 1, AU sec. 324), "Responsibilities of Service Organizations and Service Auditors With Respect to Information About the Year 2000 Issue in a Service Organization's Description of Controls" (AICPA, *Professional Standards*, vol. 1, AU sec. 9324.19), clarifies the responsibilities of service organizations and service auditors for information about the year 2000 issue in a service organization's description of controls.
- Interpretation No. 2 of SAS No. 59, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, "Effect of the Year 2000 Issue on the Auditor's Consideration of an Entity's Ability to Continue as a Going Concern" (AICPA, *Professional Standards*, vol. 1, AU sec. 9341.03), provides guidance regarding the identification and evaluation of conditions and events of the kind identified in SAS No. 59 that relate to the year 2000 issue.

In addition, the AITF issued Attestation Interpretation No. 1 of SSAE No. 8, *Management's Discussion and Analysis* (AICPA, *Professional Standards*, vol. 1, AT sec. 700), "Consideration of the Year 2000 Issue When Examining or Reviewing Management's Discussion and Analysis" (AICPA, *Professional Standards*, vol. 1, AT sec. 9700.01), that provides guidance on the practitioner's responsibility with respect to year 2000 disclosures.

.21 A summary of these interpretations can be found in the "New Auditing and Attestation Pronouncements" section of this Audit Risk Alert.

.22 Auditors may wish to specifically address the year 2000 issue in connection with obtaining an understanding with their client, pursuant to SAS No. 83, *Establishing an Understanding With the Client* (AICPA, *Professional Standards*, vol. 1, AU sec. 310). SAS No. 83 requires auditors to obtain an understanding with the client about the service to be performed, including the objectives and limitations of an audit of financial statements. With regard to the year 2000 issue, auditors may wish to consider adding language such as the following to their engagement letter:

Because many computerized systems use only two digits to record the year in date fields (for example, the year 1998 is recorded as 98), such systems may not be able to process dates accurately in the year 2000 and after. The effects of this problem vary from system to system and may adversely affect an entity's operations as well as its ability to prepare financial statements.

An audit of financial statements conducted in accordance with generally accepted auditing standards is not designed to detect whether the entity's systems are year 2000 ready. Further, we have no responsibility with regard to the Company's efforts to make its systems, or any other systems such as those of the Company's vendors, service providers, or any other third parties, year 2000 ready or provide assurance on whether the Company has addressed or

will be able to address all of the affected systems on a timely basis. These are responsibilities of the Company's management. However, for the benefit of management, we may choose to communicate matters that come to our attention relating to the year 2000 issue.

The auditor also may wish to consider whether year-2000-related problems should be highlighted in his or her management comment letters. Through inquiries of client personnel, the auditor may obtain information regarding the client's understanding of the year 2000 issue and, if applicable, the progress of its year 2000 project efforts. The auditor may wish to communicate to senior management and the audit committee the results of such inquiries and any observations regarding the year 2000. However, auditors should be cautious in these communications not to imply an assumption of assuring year 2000 readiness.

.23 Depending on the entity's reliance on date-dependent processing and the state of preparedness for the year 2000, the auditor also may want to address certain other situations relating to the year 2000 issue in his or her management letter. Situations such as the following may occur.

- The client has not begun to address the year 2000 issue. The client recognizes the issue but needs to develop a year 2000 project plan.
- The client recognizes the issue but needs to assess the effect of the year 2000 issue on its systems.
- The client needs to consider the budget and resource implications of the plan.
- The client is not currently meeting its year 2000 project plan timetables.

.24 Auditors should also be alert to the numerous accounting considerations that arise out of the year 2000 issue. For example, auditors should consider whether the costs associated with their client's modifications of computer systems pursuant to the year 2000 issue have been properly accounted for. The EITF has considered this matter in EITF Issue No. 96-14, *Accounting for the Costs Associated with Modifying Computer Software for the Year 2000*. This issue addresses accounting for the external and internal costs specifically associated with the modification of internal use computer software for the year 2000. The issue does not address purchases of hardware or software that replace existing software that is not year 2000 ready, nor does it address impairment or amortization issues relating to existing assets. The task force reached a consensus that external and internal costs specifically associated with modifying internal use software for the year 2000 should be charged to expense as incurred. In addition, EITF Issue No. 97-13, *Accounting for Costs Incurred in Connection with a Consulting Contract or an Internal Project That Combines Business Process Reengineering and Information Technology Transformation*, provides relevant guidance when an entity's year 2000 project involves business process reengineering.

.25 The year 2000 issue may render certain client assets (such as computer hardware and software) obsolete or inoperable. Accordingly, auditors may wish to consider whether the client has properly accounted for such events by appropriately adjusting useful lives, residual values, or both, or recognizing impairment losses pursuant to the guidelines set forth under FASB Statement No. 121, *Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of*.

.26 Other accounting issues that may arise include the following:

- Revenue recognition principles for software transactions are set forth in AICPA Statement of Position (SOP) 97-2, *Software Revenue Recognition*. This SOP provides guidance on the amount and timing of revenue recognition in arrangements that may include the presence of specific factors, including uncertainty of customer acceptance; customer cancellation privileges; and multiple elements, including upgrades and enhancements and postcontract customer support. Entities should be aware that the year 2000 issue could affect one or more of these factors and have an unexpected effect on future revenue recognition.
- The year 2000 issue may create product warranty and product defect liability and product returns issues for software and hardware vendors. These vendors should consider FASB Statement No. 5,

*Accounting for Contingencies*, paragraphs 24 to 26, if there are product warranty or product defect liability issues and FASB Statement No. 48, *Revenue Recognition When Right of Return Exists* (FASB, *Current Text*, vol. 1, sec. R75), for product return issues.

- Software developers should evaluate arrangements to address the year 2000 issue performed for other entities for a fee that are being accounted for under SOP 81-1, *Accounting for Performance of Construction-Type and Certain Production-Type Contracts*. For any contract expected to result in a loss, the vendor should record a provision for the entire loss in the period in which it becomes evident.
- FASB Statement No. 86, *Accounting for the Costs of Computer Software to Be Sold, Leased, or Otherwise Marketed* (FASB, *Current Text*, vol. 2, sec. Co2), is the authoritative standard on accounting for costs incurred to produce or purchase software that is to be sold, leased, or otherwise marketed. Only certain costs qualify for capitalization under this standard. In accordance with the guidance in the Statement, a write-down or an acceleration of amortization may be necessary if estimated future gross sales are lower than expected because of the year 2000 issue.
- Inventories of hardware devices that are not year 2000 ready would be subject to the lower of cost or market test described in ARB No. 43, *Restatement and Revision of Accounting Research Bulletins*, chapter 4, paragraph 8 (FASB, *Current Text*, vol. 1, sec. I78).
- In addition to the disclosure requirements under the pronouncements previously mentioned, practitioners should be aware of the requirements of SOP 94-6, *Disclosure of Certain Significant Risks and Uncertainties*. Although the need for disclosure by an entity depends on facts and circumstances, disclosure may be required in areas such as impairment or amortization of capitalized software costs, inventory valuation, long-term contract accounting, or litigation if it is reasonably possible that the amounts reported in the financial statements could change by a material amount within one year from the date of the financial statements. Disclosures also may be required of current vulnerability due to certain concentrations if, for example, a significant vendor has not satisfactorily addressed the year 2000 issue.

.27 Auditors of publicly held companies should consider the guidance set forth by the SEC in its Interpretation entitled “Statement of the Commission Regarding Disclosure of Year 2000 Issues and Consequences by Public Companies, Investment Advisers, Investment Companies, and Municipal Securities Issuers,” (the Interpretation). The Interpretation—

- Provides guidance to public companies so they can determine whether their year 2000 issues are known material events, trends, or uncertainties that should be disclosed in the Management’s Discussion and Analysis of Financial Condition and Results of Operations (MD&A) section of their disclosure documents.
- Sets forth SEC guidance regarding specific matters for companies to address in their MD&A year 2000 issue disclosure.
- Addresses the need for companies to consider the year 2000 issue in connection with other rules and regulations and when they prepare financial statements.
- Reminds registrants that the antifraud provisions of the federal securities laws apply to disclosure about the year 2000 issue.

The Interpretation supersedes the guidance previously set forth in the revised Staff Legal Bulletin No. 5. The full text of the Interpretation can be viewed on the SEC Web site, <http://www.sec.gov>.

.28 Auditors should also be aware of the risk of litigation relating to the year 2000 issue. Some clients may be uninformed about the year 2000 issue, while others may underestimate its magnitude. Those who mistakenly believe that the year 2000 issue should be addressed and resolved as part of the audit process may seek legal recourse if that outcome is not achieved. Therefore, auditors may wish to educate their clients

on the year 2000 issue and its implications. As previously discussed, auditors may wish to incorporate these issues in the engagement letter by outlining the responsibilities of both the client and the auditor. By advising the client and planning ahead, auditors may avoid any potential dispute with the client, while at the same time offering the opportunity of helping the client understand the seriousness of the problem and identifying resources that may be needed to address the issues.

.29 A more comprehensive discussion of the numerous auditing and accounting issues related to the year 2000 issue is presented in the AICPA publication "The Year 2000 Issue— Current Accounting and Auditing Guidance."<sup>3</sup> The publication has been updated for recent developments and provides a wealth of information for auditors including discussions relating to the following:

- Introduction to and implication of the year 2000 issue
- Industry specific considerations
- Financial reporting issues
- Auditing issues
- Disclosure considerations
- Auditor communications
- Practice management issues

This document can be obtained, free of charge, at the AICPA's Web site at <http://www.aicpa.org>. The AICPA Web site provides a year 2000 resource page with links to many useful sites as well. Additional information relating to the year 2000 issue is also available on the Internet at the following Web sites:

- The National Bulletin Board for the Year 2000 at <http://www.year2000.com>
- Management Support Technology at <http://www.mstnet.com/year2000>
- National Software Testing Laboratory at <http://www.nstl.com> (free downloadable diagnostic program)

In addition, the AICPA publication, *Accounting Trends and Techniques—1998* (Product No. 009890), contains examples of year 2000 issue financial statement disclosures made by publicly held entities.

#### **Executive Summary—The Year 2000 Issue**

- Unless corrective actions are taken, the year 2000 may cause accounting and financial information systems to produce inaccurate date related output.
- The AITF has issued Interpretations providing guidance to auditors on the year 2000 issue.
- Auditors may wish to include references to the year 2000 issue in their engagement and management letters.
- Auditors should consider client accounting for the year 2000 issue pursuant to such pronouncements as EITF Issue No. 96-14; SOP Nos. 81-1, 94-6, and 97-2; ARB 43; and FASB Statement Nos. 5, 48, 86, and 121. For publicly held entities, SEC rules and regulations should be considered.
- Auditors should be alert to the litigation threats that may arise from the year 2000 issue.

---

<sup>3</sup> With regard to this publication, the SEC Interpretation on year 2000 issues states that "Although the term may is used throughout the AICPA's guidance, perhaps suggesting that the guidance is discretionary, we believe that the procedures outlined by the AICPA should be considered appropriate practice at this time and we expect companies and their auditors to comply with that guidance. If they do not, they should be prepared to justify why the procedures were not followed."

## A Change of Auditors

### *What are the responsibilities of predecessor and successor auditors under the new auditing standard?*

.30 With the increasing level of consolidation activity comes a corresponding increase in changes in auditors. Thus, auditors may be more likely to find themselves in either the role of a predecessor or successor auditor this year. SAS No. 84, *Communications Between Predecessor and Successor Auditors* (AICPA, *Professional Standards*, vol. 1, AU sec. 315), which superseded SAS No. 7 of the same name, provides guidance in communications between predecessor and successor auditors when a change of auditors is in process or has taken place.

.31 To begin with, SAS No. 84 redefines the terms *predecessor* and *successor* auditors. A predecessor auditor (the predecessor) is defined as an auditor who—

1. Has reported on the most recent audited financial statements or was engaged to perform but did not complete an audit of any subsequent financial statements.
2. Has resigned, declined to stand for reappointment, or been notified that his or her services have been, or may be, terminated

A successor auditor (the successor) is defined as an auditor who is considering accepting an engagement to audit financial statements but has not communicated with the predecessor auditor, as required by SAS No. 84, and to an auditor who has accepted such an engagement.

.32 SAS No. 84 cites as a necessary procedure on the part of the successor, the inquiry of the predecessor. The successor, upon receiving permission from the prospective client, should make specific and reasonable inquiries of the predecessor regarding matters that will assist the successor in determining whether to accept the engagement. Though the successor may consider making any reasonable inquiry, SAS No. 84 requires that matters subject to inquiry should include the following:

- Information that might bear on the integrity of management
- Disagreements with management as to accounting principles, auditing procedures, or other similarly significant matters<sup>4</sup>
- Communications to audit committees or others with equivalent authority and responsibility regarding fraud, illegal acts by clients, and internal-control-related matters
- The predecessor's understanding as to the reasons for the change of auditors

The predecessor should respond promptly and fully to the successor's reasonable inquiries. If, due to unusual circumstances, the predecessor decides to offer a limited response, this fact should be clearly stated. The successor should consider the implications of a limited response in deciding whether to accept the engagement.

.33 SAS No. 84 also states that the successor should request the client to authorize the predecessor to allow a review of his or her working papers. (An illustrative client consent and acknowledgement letter documenting this authorization is included in SAS No. 84.) The successor's review of the predecessor's working papers may affect the nature, timing, and extent of the successor's procedures with respect to the opening balances and consistency of accounting principles. However, the work performed and the conclusions reached are solely the responsibility of the successor. The predecessor should ordinarily permit the successor to review his or her working papers, but SAS No. 84 provides that the extent, if any, to which a predecessor permits access to the working papers is a matter of judgment.

---

<sup>4</sup> The SEC's Chief Accountant noted at the July 9, 1998, joint meeting of the AICPA SEC Regulations Committee with the SEC staff that a successor auditor who agrees with the proposed accounting treatment that led to the resignation or dismissal of a predecessor auditor should contact the SEC staff prior to accepting the audit engagement. He added that the staff would be "very interested and concerned" if a successor auditor allowed an accounting treatment that a predecessor auditor did not.

.34 SAS No. 84 also discusses audits of financial statements that have been previously audited, as well as providing communications guidance when possible misstatements are discovered in financial statements reported on by a predecessor auditor. Auditors who find themselves in the role of predecessor or successor auditors should refer to the full text of SAS No. 84 to determine the extent of their responsibilities under GAAS. SAS No. 84 became effective with respect to the acceptance of engagements after March 31, 1998.

#### **Executive Summary—A Change of Auditors**

- The increase in consolidation activity this year suggests that auditors will be more likely to become successor or predecessor auditors.
- SAS No. 84 provides guidance on communications between predecessor and successor auditors.
- SAS No. 84 also addresses issues such as a review of predecessor working papers, previously audited financial statements, discovery of misstatements by the successor, as well as providing illustrative letters for predecessor-or-successor-related communications.

### **Improper Revenue Recognition**

*What factors are frequently cited in cases involving improper revenue recognition?*

*What factors might indicate an intentional misstatement of revenues?*

*How are side-agreements used to improperly recognize revenues?*

.35 High-profile incidents of improper revenue recognition reported during 1998 should serve to remind auditors of the significant risks that may be associated with this area of the financial statements. Auditors should consider whether what appear to be routine revenue transactions have been properly accounted for; however, greater levels of audit risk may more likely be associated with unusual or complex revenue transactions, especially those that occur at or near the end of a reporting period. Therefore, auditors should have a sufficient understanding of the nature of the entity's business to be able to distinguish routine transactions from those that are unusual or complex.

.36 Auditors should be alert for significant unusual or complex transactions, especially those that occur at or near the end of a reporting period. Also suspect are high volumes of revenues recognized in the last few weeks—or days—of a reporting period. The following are examples of additional circumstances of concern to auditors regarding the issue of recognition of revenue:

- Sales for which the customer has a right to return the goods
- Partial shipments if the portion not shipped is a critical component of the product
- Revenue transactions with related parties
- Lack of involvement by the accounting or finance department in unusual or complex sales transactions
- Sales in which evidence indicates the customer's obligation to pay for the merchandise depends on the following:
  - Receipt of financing from another party
  - Resale to another party (meaning, sale to distributor, or a consignment sale)
  - Fulfillment by the seller of material unsatisfied conditions
  - Final acceptance by the customer following an evaluation period
- Existence of longer than usual payment terms or installment receivables
- Sales terms do not comply with the company's normal policies
- Sales that require substantial continuing vendor involvement after delivery of merchandise (for example, software sales requiring installation, debugging, extensive modifications, or other significant support commitments)

- Shipments of merchandise to customers without proper authorization from the customer
- Shipments of merchandise to company-owned warehouses
- Billing fictitious customers
- Shipments made on canceled or duplicate orders
- Pre-invoicing of goods in process of being assembled or invoicing prior to or in the absence of actual shipment

.37 Not all instances of improper revenue recognition involve the intentional misstatement of the financial statements. Management's use of aggressive accounting policies may reflect their understanding of the substance of the transactions and the consistency with which their policies reflect industry practices. Others with an independent perspective (such as auditors or regulators) may determine that such accounting policies are inappropriate. Thus, auditors should be aware of the possibility that revenues are misstated even if there is no indication that management might intend to deceive. However, auditors also should consider whether there is a risk that the entity has intentionally misstated the financial statements.

.38 What factors might indicate an intentional misstatement of revenues? Statement on Auditing Standards No. 82, *The Auditor's Consideration of Fraud in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 316), requires auditors to assess the risk of material misstatement of the financial statements due to fraud. As a part of that assessment, the auditor is required to consider whether fraud risk factors are present. The following are examples of fraud risk factors included in SAS No. 82 that are relevant to the audit of revenues.

- There is a motivation for management to engage in fraudulent financial reporting. Specific indicators might include the following:
  - A significant portion of management's compensation is represented by bonuses, stock options, or other incentives, the value of which is contingent upon the entity achieving unduly aggressive targets for operating results, financial position, or cash flow.
  - Management is excessively interested in maintaining or increasing the entity's stock price or earnings trend through the use of unusually aggressive accounting practices.
  - Management makes a practice of committing to analysts, creditors, and other third parties to achieve what appear to be unduly aggressive or clearly unrealistic forecasts.
- Management fails to display and communicate an appropriate attitude regarding internal control and the financial reporting process. Specific indicators might include the following:
  - An ineffective means of communicating and supporting the entity's values or ethics, or communication of inappropriate values or ethics
  - Unduly aggressive financial targets and expectations set by management for operating personnel
  - A significant disregard by management for regulatory authorities
- Rapid changes occur in the industry, such as high vulnerability to rapidly changing technology or rapid product obsolescence.
- There is an inability to generate cash flows from operations while reporting earnings and earnings growth.
- Assets, liabilities, revenues, or expenses are based on significant estimates that involve unusually subjective judgments or uncertainties, or are subject to potential significant change in the near term in a manner that may have a financially disruptive effect on the entity such as ultimate collectibility of receivables, timing of revenue recognition, realizability of financial instruments based on the highly subjective valuation of collateral or difficult-to-assess repayment sources, or significant deferral of costs.

- Unusually rapid growth or profitability, occurs especially compared with that of other companies in the same industry.
- Unrealistically aggressive sales or profitability incentive programs exist.

If these or other fraud risk factors are present, the auditor is required to make certain considerations, as outlined in SAS No. 82. Above all, the auditor should maintain an appropriate attitude of professional skepticism. Specific responses to these risks might include the assignment of more senior or experienced personnel to plan and perform the auditing procedures related to revenues, increased sensitivity in the selection of the nature and extent of documentation to be examined, and increased recognition of the need to corroborate management explanations or representations. Additional guidance on the response to the presence of fraud risk factors is contained in SAS No. 82 and in the AICPA publication, *Considering Fraud in a Financial Statement Audit: Practical Guidance for Applying SAS No. 82* (Product No. 008883).

**.39** How are side agreements used to improperly recognize revenues? One specific example of fraudulent financial reporting involves the use of *side-agreements*—agreements hidden from the entity's board of directors and outside auditors. Side-agreements are used to alter the terms and conditions of recorded sales transactions to entice customers to accept delivery of goods and services. They may create obligations or contingencies relating to financing arrangements or to product installation or customization that may relieve the customer of some of the risks and rewards of ownership.

**.40** Typically, very few individuals within an entity are aware of the use of side-agreements. Although side-agreements may be difficult to discover, auditors should consider their possible existence. SAS No. 82 states that, "If there is a risk of material misstatement due to fraud that may involve or result in improper revenue recognition, it may be appropriate to confirm with customers certain relevant contract terms and the absence of side-agreements—inasmuch as the appropriate accounting is often influenced by such terms or agreements. For example, acceptance criteria, delivery and payment terms and the absence of future or continuing vendor obligations, the right to return the product, guaranteed resale amounts, and cancellation or refund provisions often are relevant in the circumstances." Because it is unlikely that alternative procedures to nonreplies will provide information relevant to the existence of side-agreements, auditors should make reasonable efforts to obtain responses.

**.41** What kinds of auditing procedures will help uncover the improper recognition of revenue? The following are examples of procedures auditors can apply to the audit of revenues.

#### *Planning*

As mentioned earlier, it is important for the auditor to understand the client's industry and business. The understanding would include the kinds of products and services sold, and the client's terms and the industry's customary terms over their sales. The auditor also obtains an understanding of the controls surrounding the shipment of goods and the recognition of revenue.

#### *Assignment of Personnel*

Unusual or complex sales contracts may call for consideration by more experienced audit personnel.

#### *Physical Observation*

In connection with the observation of inventories at the end of a reporting period, auditors frequently obtain information pertaining to the final shipments of goods made during the period. This information later is compared to the client's sales records to determine whether a proper cut-off of sales occurred. Additional procedures include inspecting the shipping areas at the observation site and making inquiries about whether goods in the shipping area will be included in inventory. If they are not to be included in inventory, the auditor may need to obtain information about the nature of the goods and the quantities, and make additional inquiries of management. Auditors also might inspect the site to determine if any other inventory has been segregated.

### *Inquiry of Relevant Personnel*

In many instances, particularly those involving unusual or complex transactions, the auditor should consider making inquiries of marketing, inventory control personnel, and other client personnel familiar with the transactions to gain an understanding of the nature of the transactions and any special terms that may be associated with them. Inquiries of legal staff also may be appropriate. In some circumstances, the auditor may wish to obtain written representatives from such personnel.

### *Analytical Procedures*

Well-planned and detailed analytical procedures used in planning the audit and as substantive tests can identify situations that warrant additional consideration. Examples of these procedures include monthly or weekly analyses of sales volume, comparison of sales volume to prior periods, ratio of sales in the last month or week to total sales for the quarter or year, and the client's record of making or exceeding budgeted sales amounts.

### *Confirmations*

Standard confirmation requests (confirming only the outstanding balance) alone do not always provide sufficient evidence that only appropriate revenue transactions have been recorded. Auditors should consider the need to confirm significant terms of contracts and whether to inquire about the existence of oral or written contract modifications (side-agreements).

### *Reading and Understanding the Contracts*

In many entities, the majority of sales are made pursuant to standard terms and is not evidenced by other than the normal purchase orders and shipping documentation. In addition to understanding the client's normal terms of sale, the auditor should read and understand contracts related to those significant transactions that are unusual or complex. In some entities, the majority of revenues are comprised of complex transactions evidenced by individual contracts. In these circumstances, the need for the auditor to read and understand individual contract terms may be increased.

### **Executive Summary—Improper Revenue Recognition**

- High-profile incidents of improper revenue recognition reported during 1998 should serve to remind auditors of the significant risks that may be associated with this area.
- Auditors should be alert for significant unusual or complex transactions, especially those that occur at or near the end of a reporting period, along with a variety of other circumstances that may raise concerns about improper revenue recognition.
- Auditors should be alert to the possible existence of *side-agreements*, agreements hidden from the entity's board of directors and outside auditors that may have an impact revenue recognition.
- Auditors should consider the issue of revenue recognition with regard to its impact on engagement planning, assignment of personnel, physical observation, inquiry of relevant personnel, analytical procedures, confirmations, and reading and understanding contractual arrangements.

## **Europe's New Reporting Currency—The Euro**

### *What will be the impact of Europe's adoption of a new reporting currency?*

**.42** On January 1, 1999, the European Economic and Monetary Union (EMU) goes into effect. Under the EMU, only one reporting currency will exist—the Euro. From that point on, every entity that trades with or has subsidiaries in Europe will be affected by the change to a common currency.

**.43** Under the current system, published currency exchange rates and cross-currency exchange rates are used to convert, for example, the U.S. dollar into the German Deutschmark and the Deutschmark into the French franc, respectively. Under the new system (a process called *triangulation*), the old currencies will continue to exist for a three-and-a half year transition period, but the only published exchange rates will be

that of the Euro. Accordingly, the conversion of U.S. dollars to Deutschmarks will involve an intermediate step—first dollars to Euros using published exchange rates, then Euros to Deutschmarks using official published conversion rates (which will be finalized on December 31, 1998).

.44 The implications for computerized accounting systems is clear. All software designed for the current system will have to be modified to convert, for example, U.S. dollars to Euros (using daily exchange rates), and then to convert the Euro into the national currency, such as the Deutschmark. Although there is uncertainty as to the cost and impact of the EMU on financial information systems, some are predicting that it may be more demanding than the year 2000 issue. In addition, addressing the problem may be difficult, given that a significant level of technology-related resources are now being allocated to resolve the year 2000 issue.

.45 Many U.S. companies have paid little attention to the implications of the Euro—which are numerous and detailed—because they are focusing on year 2000 problems. Accordingly, auditors should consider the increased risks that may be associated with this issue. For auditors of entities issuing calendar year-end financial statements, the impact of the Euro will likely be limited to type II subsequent events that may require financial statement disclosure, as discussed in “Subsequent Events” (AICPA, *Professional Standards*, vol. 1, AU sec. 560). However, auditors of entities issuing financial statements for fiscal years ending after January 1, 1999, should consider the following:

1. The audit risks that may be associated with management’s accounting for foreign-currency transactions involving the Euro,
2. Control risk assessment relating to the Euro, such as revamped information systems or changes in foreign operations,
3. The fraud risk factors that might arise with the adoption of the Euro, along with the adequacy of financial statement disclosures that may be required in the circumstances.

FASB Staff Announcement, Topic D-71, *Accounting Issues Relating to the Introduction of the European Economic and Monetary Union (EMU)*, discusses upgrade costs for projects to adapt information systems software for the Euro, and the preparation of comparative financial statements if there has been a change in reporting currency to the Euro. In addition, the SEC’s Divisions of Corporation Finance, Market Regulation, and Investment Management issued Staff Legal Bulletin No. 6, which provides guidance on Euro-conversion-related issues such as the disclosure requirements that could arise.

## SEC Concerns

*What are some of the recurring auditing and accounting issues of concern to the SEC?*

.46 During informal discussions with representatives of the AICPA, the SEC staff have expressed concerns with regard to certain recurring auditing and accounting issues that they have encountered. Auditors of entities subject to the SEC reporting requirements may wish to consider the issues discussed below.

### ***Disclosures About Restructuring Charges and Liabilities Recognized in Connection With Purchase Business Combinations***

.47 When liabilities are accrued in accordance with the guidance in EITF Issues Nos. 94-3, *Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)*, and 95-3, *Recognition of Liabilities in Connection with a Purchase Business Combination*, certain disclosures are required. The thresholds for making the required disclosures are related to the materiality of the amounts accrued or the significance of the activities that will not be continued. Therefore, when the disclosure thresholds have been met, all the disclosures are required, not just those that are individually material.

.48 Some of the disclosures are required until the plan of termination is completed or until all actions under a plan to exit an activity or involuntarily terminate employees of an acquired company have been fully

executed. For instance, under EITF Issue No. 94-3, the amount of actual termination benefits paid and charged against the liability and the number of employees actually terminated as a result of the plan to terminate the employees must be disclosed. The amount of any adjustments to the liability also must be disclosed.

.49 The SEC staff have observed an increasing frequency of subsequent reductions to restructuring liabilities, which suggests that management may be “providing a cushion” in establishing such reserves. When reviewing management’s accruals, auditors should be aware of the kinds of charges that are allowed to be accrued for pursuant to EITF Issue Nos. 94-3 and 95-3 (and other relevant accounting literature, as appropriate), and be mindful that management’s estimates are not overly conservative.

.50 Additionally, the SEC staff have stated that liabilities accrued in accordance with EITF Issues Nos. 94-3 and 95-3 are valuation accounts that should be disclosed on Schedule VIII, Valuation and Qualifying Accounts, of SEC Registrants’ annual reports filed on Form 10-K.

### ***Accounting for Impairment of Long-Lived Assets***

.51 FASB Statement No. 121, *Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of*, requires entities to review long-lived assets and certain identifiable intangibles for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Statement provides examples of events or changes in circumstances that indicate that the recoverability of the carrying amount of an asset should be assessed. The SEC staff have identified instances in which they believe the accounting guidance in FASB Statement No. 121 has been applied inappropriately. For example, a significant change in the manner in which an asset is used may initiate management’s assessment and the recognition of an impairment loss. The SEC staff believe some of these charges are the result of the failure of management to make appropriate and timely changes to depreciable lives needed as a result of other events—general economic or industry conditions, for example—that may cause the remaining estimated useful lives of assets to decrease. Such changes should be accounted for as changes in estimates in accordance with APB Opinion 20, *Accounting Changes*. APB Opinion 20 specifically lists service lives of depreciable assets as an example of items for which estimates are necessary. Auditors may wish to discuss with management the procedures used to periodically monitor the remaining estimated useful lives of significant classes of long-lived assets.

### ***Communicating With the Audit Committee***

.52 SAS No. 61, *Communication With Audit Committees* (AICPA, *Professional Standards*, vol. 1, AU sec. 380), requires auditors to determine that certain matters related to the conduct of an audit are communicated to those who have responsibility for oversight of the financial reporting process. Communication about significant accounting policies is one of the matters outlined in SAS No. 61. In some recent instances in which the SEC staff have questioned the accounting used by a registrant, the SEC staff have found that neither the auditor nor management had consulted with the registrant’s audit committee prior to meeting with the SEC staff to discuss the accounting. Although for a variety of reasons, including timing, this situation may not be indicative of a violation of the auditing standards, the SEC staff suggest that this situation is not desirable. They strongly recommend that management discuss significant issues raised by SEC staff with both the auditor and the audit committee. In situations in which the auditor will participate in discussions with the SEC staff and management, it is advisable for the auditor to participate in any discussions management has with the audit committee or be apprised of the substance of those discussions.

.53 The following is an excerpt from SAS No. 61.

#### **Significant Accounting Policies**

.07 The auditor should determine that the audit committee is informed about the initial selection of and changes in significant accounting policies or their application. The auditor should also determine that the audit committee is informed about the methods used to

account for significant unusual transactions and the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus. For example, significant accounting issues may exist in areas such as revenue recognition, off-balance-sheet financing, and accounting for equity investments.

## Other Practice Issues

### Make Audits Pay

*How can auditors adopt a business adviser approach to add value to their audits?*

.54 As a mature product, the audit has some attributes of a commodity, distinguishable to many clients only on the basis of price. Accordingly, many CPAs are recognizing the need to broaden their audit practice by providing consulting services to their clients. But what approach should auditors use to enter the consulting field?

.55 One choice is the business adviser approach. This approach provides clients with consulting services driven by customer need. Although the most common tack is to develop a consulting product first, and then try to sell that product to the audit client, the business adviser approach starts by identifying customer needs. Once those needs have been identified, specific guidance is presented to the client. This allows the auditor to provide the client with total business solutions that are more valuable than off-the-shelf consulting products.

.56 The business adviser approach uses the audit to understand the client and identify needs across a broad range of business issues. The auditor using the business adviser approach should—

- Understand the client's business processes, not just the client's accounting systems.
- Analyze the client's industry according to how it affects the client's business plan, in addition to how it affects audit risk.
- Identify client needs across a broad range of business issues and offer suggestions for addressing those needs.
- Engage the client in a dialogue about broad business matters, in addition to matters of audit significance.

These procedures will identify not only new consulting opportunities, the deeper insights gained into client operations will also improve audit effectiveness and efficiency.

.57 With this knowledge in hand, the auditor can use existing firm resources, including the relationship with the client, knowledge of the client and the industry in which it operates, and in-firm expertise, to incrementally and selectively build a consulting practice. Auditors can build on strengths and skills they already have in areas in which business owners would most naturally look to a CPA for advice, such as cost analysis and reduction, internal control, information management, and technology.

.58 The basic steps in the business adviser process are the following.

- *Target selected clients.* Choose those clients from which a reasonable return on investment can be expected,
- *Develop a strategy with the audit team.* Develop a tentative plan for identifying client needs,
- *Conduct a dialogue with the client.* Meet with the client to discuss plans for implementing the business adviser program,
- *Conduct the audit considering client needs.* Perform the audit and identify client needs while developing possible solutions over a wide range of business issues.

For further information on this subject, the AICPA publication, *Make Audits Pay: Leveraging the Audit into Consulting Services*, provides a detailed roadmap for auditors interested in adopting the business adviser approach for providing consulting services to their clients. Included in the book are diagnostic practice aids to help identify client needs along with recommended solutions. This publication will be available in early 1999.

## Assurance Services

### *What are assurance services?*

.59 The AICPA's Special Committee on Assurance Services (the Committee), whose charge was to assess the economics of auditing and its likely future, concluded that financial statement auditing is no longer a growth industry. In response, after extensive research, the Committee concluded that there are opportunities for additional work in the audit tradition, suggesting that a wider variety of assurance engagements could be offered. The Committee defines these assurance services as independent professional services that improve the quality of information or its context for decision makers. This information can be financial or nonfinancial, historical or prospective. In recognition of the importance of assurance services, the ASB has established a strategic initiative to broaden the utility of the attestation standards to facilitate new assurance services that respond to emerging user needs.

.60 The Committee has identified six new assurance services for which business plans were developed. The business plans assessed the market potential of each service, and identified the steps that CPAs should take to begin offering these services. The services identified by the Committee are the following.

- *Risk assessment.* This service provides assurance that an entity's profile of business risks is comprehensive and evaluates whether the entity has appropriate systems in place to effectively manage those risks.
- *Business performance measurement.* This service evaluates whether an entity's performance measurement system contains relevant and reliable measures for assessing the degree to which the entity's goals and objectives are achieved.
- *Information systems reliability.* This service assesses whether an entity's internal information systems (financial and nonfinancial) provide reliable information for operating and financial decisions.
- *Electronic commerce.* This service assesses whether the systems and tools used in electronic commerce provide appropriate data integrity, security, privacy, and reliability.
- *Health care performance measurement.* This service provides assurance about the effectiveness of health care services provided by health maintenance organizations, hospitals, doctors, and other providers.
- *ElderCare.* This service assesses whether specified goals regarding care for the elderly are being met by various caregivers. The AICPA publication *CPA ElderCare: A Practitioner's Resource Guide* (Product No. 002504) provides valuable information to assist in conducting this kind of assurance service engagement.

Seven other assurance services, viewed as good opportunities but for which the Committee did not develop business plans, have also been described. They are policy compliance, trading partner accountability, mergers and acquisitions, outsourced internal auditing, ISO 9000, Association for Investment Management and Research (AIMR) compliance, and World Wide Web assertions.

.61 The Assurance Services Executive Committee was given the charge of carrying on the work of the Special Committee on Assurance Services in identifying and developing new assurance services for the profession. Readers should refer to the AICPA Web site at <http://www.aicpa.org> for the full report of the Special committee on Assurance services. In addition, the AICPA is hoping to develop a new series of Alerts during 1999 that address the emerging practice area of assurance services.

## Strategic Initiative of the ASB

### *What are the Auditing Standards Board's operating priorities for the coming years?*

.62 In recognition of the many challenges facing the profession, the ASB undertook to consider its priorities and establish a set of initiatives to serve as a planning tool for its activities over the next few years. In developing these strategic initiatives, the ASB, through its Horizons Task Force, considered major trends affecting the profession, notably the following:

- The impact of information and communications technology, internationalism, and the inroad of non-CPAs into the provision of assurance services
- Significant recent recommendations from both within and outside the profession
- The strategic initiatives adopted by the AICPA

The result of the task force's deliberation was a document titled "Horizons for the Auditing Standards Board—Strategic Initiatives Toward the Twenty-First Century" (Horizon report), in which the ASB defines the following priorities for its operational plan over the next three to five years.

1. Improve the core audit service to serve the public, the preparers, and the profession through the following:
  - The use of information technology, with the ultimate objective of providing real-time assurance on the systems and processes that generate outputs
  - An improvement in meeting public expectations about audit assurance, including evaluation of the efficacy of the fraud standard
  - The delivery of value-added services to enhance and differentiate audit engagements
2. Broaden the utility of the attestation standards to facilitate new assurance services that respond to emerging user needs. Key actions are to do the following.
  - Establish a framework for attestable measurement criteria for use by industry associations, regulatory bodies, and others to facilitate development of new attestation services.
  - Increase the understandability and flexibility of the attestation model.
3. Significantly strengthen the ASB's leadership role in developing international auditing standards and quality control processes that meet the needs of a global marketplace. A subcommittee of the ASB will be created to do the following.
  - Participate directly in, or identify U.S. volunteer participants for, the development of specific International Standards on Auditing (ISAs).
  - Identify and promote opportunities for joint projects with other audit or attest standards setters.
  - Recommend changes regarding significant differences between U.S. and international auditing and attestation standards and the processes by which they are developed.
  - Recommend changes regarding significant differences between U.S. and international standards and processes regarding professional qualification, quality control, ethical standards, and peer review.
  - Develop a strategy for the eventual endorsement of international auditing standards.
4. Enhance the utility of audit and attest guidance by implementing process improvements in ASB operations. ASB actions will include the following.
  - Simplify and clarify the various kinds of guidance and enhance their accessibility.
  - Implement process improvements in ASB operations.

The ASB's Horizon report can be viewed in its entirety at the AICPA's Web site at <http://www.aicpa.org/members/div/auditstd/horizon/index.htm>.

## New Auditing and Attestation Pronouncements

*What new auditing and attestation pronouncements have been issued this year?*

### New Auditing Standards

#### **SAS No. 86, Amendment to Statement on Auditing Standards No. 72, Letters for Underwriters and Certain Other Requesting Parties**

.63 SAS No. 86, *Amendment to Statement on Auditing Standards No. 72, Letters for Underwriters and Certain Other Requesting Parties* (AICPA, *Professional Standards*, vol. 1, AU sec. 634), was issued in March 1998 by the ASB to reflect the issuance of SSAE No. 8, *Management's Discussion and Analysis* (AICPA, *Professional Standards*, vol. 1, AT sec. 700). SAS No. 86 allows practitioners that have examined or reviewed MD&A in accordance with the provisions of SSAE No. 8 to state that fact in the introductory section of the comfort letter (a special agreed-upon procedures report that may be issued in connection with a securities offering) and attach a copy of the SSAE No. 8 report to the comfort letter. SAS No. 86 presents examples of comfort letters that contain references to either an examination of annual MD&A or a review of interim MD&A. SAS No. 86 is effective for comfort letters issued on or after June 30, 1998.

#### **SAS No. 87, Restricting the Use of an Auditor's Report**

.64 SAS No. 87, *Restricting the Use of an Auditor's Report* (AICPA, *Professional Standards*, vol. 1, AU sec. 532), was issued in September 1998 by the ASB and is effective for reports issued after December 31, 1998. SAS No. 87 provides guidance to auditors in determining whether an engagement requires a restricted-use report and, if so, what elements to include in that report. The SAS states that an auditor should restrict the use of a report if the following occur.

- The subject matter of the auditor's report or the presentation being reported on is based on measurement or disclosure criteria contained in contractual agreements or regulatory provisions that are not in conformity with GAAP or other comprehensive basis of accounting (OCBOA).
- The accountant's report is based on procedures that are specifically designed and performed to satisfy the needs of specified parties who accept responsibility for the sufficiency of the procedures.
- The auditor's report is issued as a by-product of a financial statement audit and is based on the results of procedures designed to enable the auditor to express an opinion on the financial statements taken as a whole, not to provide assurance on the specific subject matter of the report.

In addition to describing the circumstances in which the use of an auditor's report should be restricted, SAS No. 87, among other things, defines the terms *general use* and *restricted use*, specifies the language to be used in restricted-use reports, and requires an auditor to restrict a single combined report if it covers subject matter or presentations that ordinarily do not require a restriction on use and subject matter or presentations that require such a restriction. It permits auditors to include a separate general-use report in a document that also contains a restricted-use report.

#### **SAS No. 21, Segment Information—Rescinded**

.65 SAS No. 21, *Segment Information* (AICPA, *Professional Standards*, vol. 1, AU sec. 435), contained guidance for auditing disclosures made in accordance with the provisions of FASB Statement No. 14, *Financial Reporting for Segments of a Business Enterprise* (FASB, *Current Text*, vol. 1, sec. S20). FASB Statement No. 14 was superseded upon the issuance of FASB Statement No. 131, *Disclosures about Segments of an Enterprise and Related Information* (FASB, *Current Text*, vol. 1, sec. S30), which is effective for fiscal years beginning after December 15, 1997 with earlier application encouraged. Accordingly, the ASB has rescinded SAS No. 21 effective for audits of financial statements to which FASB Statement No. 131 has been applied. In its place,

Auditing Interpretation No. 4 of SAS No. 31, *Evidential Matter*, "Applying Auditing Procedures to Segment Disclosures in Financial Statements," has been issued. See the "New Auditing Interpretations" section of this Audit Risk Alert for a more detailed discussion of the new Interpretation.

.66 Statements of Position issued this year by the ASB are included in the section entitled "New AICPA Statements of Position" in this Audit Risk Alert.

.67 And don't forget the following ASB pronouncements that became effective during 1998:

- SAS No. 83, *Establishing an Understanding With the Client* (effective for engagements for periods ending on or after June 15, 1998)
- SAS No. 84, *Communications Between Predecessor and Successor Auditor* (effective for engagements accepted after March 31, 1998)
- SAS No. 85, *Management Representations* (AICPA, *Professional Standards*, vol. 1, AU sec. 333) (effective for audits of financial statements for periods ending on or after June 30, 1998)
- SSAE No. 7, *Establishing an Understanding With the Client* (AICPA, *Professional Standards*, vol. 1, AT sec. 100) (effective for engagements for periods ending on or after June 15, 1998)

## New Attestation Standard

.68 *SSAE No. 8, Management's Discussion and Analysis*. Issued by the ASB in March 1998, SSAE No. 8 (AICPA, *Professional Standards*, vol. 1, AT sec. 700) provides guidance to a practitioner on the performance of a review or examination of MD&A prepared pursuant to the rules and regulations of the SEC. The presentation of MD&A in annual reports to shareholders and in other documents constitutes a written assertion upon which an attest engagement may be performed. Specifically, SSAE No. 8 provides the following:

- Conditions for engagement performance for both examinations and reviews of MD&A
- Extensive guidance on planning, performing, and reporting on examinations and reviews of MD&A
- A comparison of activities performed for engagements covered by SAS No. 8, *Other Information in Documents Containing Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1, AU sec. 550), with those performed under SSAE No. 8

SSAE No. 8 became effective upon issuance.

.69 In September 1998, the ASB voted to issue the exposure draft *Amendments to SSAE No. 1, Attestation Standards; SSAE No. 2, Reporting on an Entity's Internal Control Over Financial Reporting; SSAE No. 3, Compliance Attestation* as a final standard. See the "Exposure Draft Issued by the Auditing Standards Board" section of this Audit Risk Alert for further information.

## New Auditing Interpretations

.70 Auditing Interpretations are issued by the Audit Issues Task Force (AITF) of the ASB to provide timely guidance on the application of ASB pronouncements. Interpretations are reviewed by the ASB, but are not as authoritative as ASB pronouncements. Nevertheless, a departure from an Interpretation may have to be justified if the quality of a member's work is questioned. Interpretations become effective upon their publication in the *Journal of Accountancy*. A summary of recently issued Interpretations is presented below.

### *Interpretation No. 4 of AU Section 311, Planning and Supervision, "Audit Considerations for the Year 2000 Issue"*

.71 Issued in January 1998, this Interpretation provides guidance on three audit considerations relating to the year 2000 issue. The first addresses the auditor's responsibility regarding the year 2000 issue in an

audit of financial statements conducted in accordance with GAAS. The second discusses the impact of the year 2000 issue on planning for an audit of financial statements conducted in accordance with GAAS. Finally, the Interpretation discusses the auditor's responsibilities when, during the course of an audit, he or she becomes aware of a year 2000 issue that could adversely affect the organization's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements in periods subsequent to the period under audit.

***Interpretation No. 1 of SAS No. 73, Using the Work of a Specialist, "The Use of Legal Interpretations as Evidential Matter to Support Management's Assertion That a Transfer of Financial Assets Has Met the Isolation Criterion in Paragraph 9(a) of Financial Accounting Standards Board Statement No. 125"***

.72 Issued in February 1998, Interpretation No. 1 of SAS No. 73, "The Use of Legal Interpretations as Evidential Matter to Support Management's Assertion That a Transfer of Financial assets Qualifies as a Sale" (AICPA, *Professional Standards*, vol. 1, AU sec. 9336), provides guidance regarding the use of a legal specialist's findings as audit evidence to support management's assertion that a transfer of financial assets meets the legal isolation criterion of paragraph 9(a) of FASB Statement No. 125, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* (FASB, *Current Text*, vol. 1, sec. F38). The Interpretation addresses when the use of a legal specialist's work may be appropriate; factors that should be considered in assessing the adequacy of the legal response; and the use, as audit evidence, of legal responses that are restricted to the client's use. The Interpretation is effective for auditing procedures related to transactions required to be accounted for under FASB Statement No. 125 that were entered into on or after January 1, 1998. The AITF has amended the Interpretation to include the form of letter that adequately communicates permission for the auditor to use the legal specialist's opinion for the purpose of evaluating management's assertion as well as sample language that does not adequately communicate such permission. The amended Interpretation appeared in the October 1998 issue of the *Journal of Accountancy*.

***Interpretation No. 3 of SAS No. 70, Reports on the Processing of Transactions by Service Organizations, "Responsibilities of Service Organizations and Service Auditors With Respect to Information About the Year 2000 Issue in a Service Organization's Description of Controls"***

.73 Issued in March 1998, this Interpretation provides guidance on the following:

- The type of information about controls at a service organization related to the year 2000 issue that would be considered relevant to user organizations and therefore should be included in a service organization's description of controls
- The service auditor's procedural and reporting responsibilities when relevant information about the year 2000 issue is included in or omitted from the service organization's description of controls
- Whether SAS No. 70 (AU sec. 324.32) requires a service auditor to identify in his or her report, design deficiencies that do not affect processing during the period covered by the service auditor's examination, but may represent potential year 2000 problems
- Whether a service organization may include in its description of controls, information about its plans to modify its systems to address the year 2000 issue
- The service auditor's procedural and reporting responsibilities if a service organization includes information or a control objective in its description of controls that addresses its plans to modify its systems in response to the year 2000 issue
- Whether a service auditor's report may be expanded to describe the risk of projecting conclusions to future periods because of a failure to make needed changes, such as changes to address the year 2000 issue

***Interpretation No. 2 of SAS No. 59, The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern, "Effect of the Year 2000 Issue on the Auditor's Consideration of an Entity's Ability to Continue as a Going Concern"***

.74 Issued in July 1998, the Interpretation provides guidance to auditors regarding the identification and evaluation of conditions and events of the type identified in SAS No. 59 that relate to the year 2000 issue. The Interpretation states that the year 2000 issue can cause conditions or events of the type identified in of SAS No. 59 (AU sec. 341.03a). It also incorporates the concept underlying the Interpretation of AU section 311, *Planning and Supervision*, that the year 2000 issue does not create additional responsibilities for the auditor. Thus, in terms of SAS No. 59, the auditor does not have a responsibility to plan and perform procedures solely to identify conditions and events relating to the year 2000 issue. Rather, the auditing procedures performed in planning, gathering evidential matter, and completing the audit are sufficient for that purpose. In addition, the Interpretation—

- Provides guidance on the auditor's responsibilities if conditions or events relating to the year 2000 issue come to his or her attention.
- Highlights management's responsibility for assessing the effects of the year 2000 issue and developing an effective year 2000 remediation plan.
- Provides guidance on using a specialist in considering management's remediation plans.
- Includes a list of matters about which the auditor might consider obtaining management representations to complement other auditing procedures. (An auditor would consider obtaining those representations only if he or she identified conditions and events relating to the year 2000 issue and considered management's plans in accordance with of SAS No. 59 (AU sec. 341.07-.09).

***Interpretation No. 4 of SAS No. 31, Evidential Matter, "Applying Auditing Procedures to Segment Disclosures in Financial Statements"***

.75 Issued in August 1998, the Interpretation replaces rescinded SAS No. 21 by providing guidance for audits of financial statements of entities that have implemented FASB Statement No. 131. The Interpretation suggests procedures that auditors should consider in (1) planning the audit, (2) evaluating whether an entity has appropriately identified its reportable operating segments in accordance with FASB Statement No. 131, and (3) evaluating the adequacy and completeness of management's disclosures about reportable operating segments and related information, including products and services, geographic areas, and major customers. The Interpretation also includes reporting guidance.

***Interpretation No. 3 of SAS No. 72, Letters for Underwriters and Certain Other Requesting Parties, "Commenting in a Comfort Letter on Quantitative and Qualitative Disclosures About Market Risk Made in Accordance With Item 305 of Regulation S-K"***

.76 Interpretation No. 3 of SAS No. 72, *Letters for Underwriters and Certain Other Requesting Parties* (AICPA, *Professional Standards*, vol. 1, AU sec. 9634), as amended by SAS No. 86 (AICPA, *Professional Standards*, vol. 1, AU sec. 634), is entitled "Commenting in a Comfort Letter on Quantitative and Qualitative Disclosures About Market Risk Made in Accordance With Item 305 of Regulation S-K" was issued in August 1998. This Interpretation provides guidance on whether an accountant may provide positive or negative assurance on conformity with Item 305 of Regulation S-K and whether an accountant may otherwise provide comments in a comfort letter on items disclosed by registrants in accordance with Item 305 of Regulation S-K.

## New Attestation Interpretation

### ***Interpretation No. 1 of SSAE No. 8, Management's Discussion and Analysis, "Consideration of the Year 2000 Issue When Examining or Reviewing Management's Discussion and Analysis"***

.77 Issued in August 1998, the Interpretation provides guidance on the practitioner's responsibility with respect to year 2000 disclosures in MD&A, such as those required by Staff Legal Bulletin No. 5 issued by the SEC's Divisions of Corporation Finance and Investment Management; how the practitioner might test year 2000 disclosures in MD&A, including using the work of a specialist; how the practitioner's approach to testing year 2000 disclosures would differ if a review rather than an examination engagement is performed; and what written management representations concerning year 2000 disclosures the practitioner might obtain to supplement other procedures.

## New Audit Issues Task Force Advisories<sup>5</sup>

.78 ***AITF Advisory Concerning Comprehensive Income.*** In June 1997, the FASB issued Statement No. 130, *Reporting Comprehensive Income* (FASB, *Current Text*, vol. 1, sec. C49). The Statement, which is effective for fiscal years beginning after December 15, 1997, establishes standards for the reporting and display of comprehensive income and its components in a full set of general-purpose financial statements, including interim-period reporting. FASB Statement No. 130 requires that comprehensive income and its components be reported in a financial statement that is displayed with the same prominence as other financial statements. Although it does not require a specific format, the Statement provides illustrations that display comprehensive income and its components in a separate statement, as an add-on to the statement of income, or integrated with the statement of changes in equity. The AITF is advising auditors as follows.

- The introductory paragraph of the auditor's report should specifically identify each financial statement audited. The adoption of FASB Statement No. 130 would require either adding a reference for a separate statement of comprehensive income, if presented, or reflecting a modified financial statement title.
- Adoption of FASB Statement No. 130 does not affect the opinion paragraph of the auditor's report because comprehensive income is part of the presentation of financial position, results of operations, and cash flows.

Because adoption of FASB Statement No. 130 only involves reclassification of prior-period information presented for comparative purposes, it is not an accounting change that affects consistency. Accordingly, an explanatory paragraph about the statement's effects is not required to be included in the auditor's report on financial statements.

### ***AITF Advisory—Concerning Practice Issues Regarding Language to Permit the Use of Legal Opinions by Auditors***

.79 Note that the guidance in this AITF Advisory has been incorporated into an amendment of the interpretation that appeared in the October *Journal of Accountancy*. See the "New Auditing Interpretations" section of this Audit Risk Alert. In December 1997, the AITF issued an Interpretation of SAS No. 73, *Using the Work of a Specialist*, "The Use of Legal Interpretations as Evidential Matter to Support Management's Assertion That a Transfer of Financial Assets Has Met the Isolation Criterion in Paragraph 9(a) of FASB Statement No. 125." Paragraph 16 of the Interpretation notes that if a legal letter restricts use of the findings expressed therein to the client or to third parties other than the auditor, then the auditor should request that the client obtain the legal specialist's written permission for the auditor to use the opinion for the purpose of evaluating management's assertion that a transfer of financial assets meets the isolation criterion of FASB Statement No. 125.

---

<sup>5</sup> From time to time the AITF issues, AITF Advisories to provide nonauthoritative guidance on current developments or recently issued authoritative literature.

.80 The AITF has been made aware that some legal letters addressed to clients authorize the client to make copies of the legal opinion available to auditors to use in their evaluation of management's assertion that a transfer of financial assets meets the isolation criterion of FASB Statement No. 125, but then state that the auditor is not authorized to rely thereon. The AITF is advising auditors that, effective with the publication of this Advisory, such "use but not rely on" language, or other language that similarly restricts the auditor's use of the legal specialist's opinion, should not be used as audit evidence. The auditor may wish to consult with his or her legal counsel concerning circumstances in which it is not clear that the auditor may use the legal specialist's opinion.

#### **Executive Summary—New Auditing and Attestation Pronouncements**

New Auditing Standards include the following:

- SAS No. 86, *Amendment to SAS No. 72, Letters for Underwriters and Certain Other Requesting Parties*
- SAS No. 87, *Restricting the Use of an Auditor's Report*
- Rescission of SAS No. 21, *Segment Information*

ASB Pronouncements with effective dates in 1998 are the following:

- SAS No. 83, *Establishing an Understanding With the Client*
- SAS No. 84, *Communications Between Predecessor and Successor Auditors*
- SAS No. 85, *Management Representations*
- SSAE No. 7, *Establishing an Understanding With the Client*

The new Attestation Standard is SSAE No. 8, *Management's Discussion and Analysis*. Also, in September 1998, the ASB voted to issue the exposure draft *Amendments to SSAE No. 1, Attestation Standards; SSAE No. 2, Reporting on an Entity's Internal Control Over Financial Reporting; SSAE No. 3, Compliance Attestation* as a final standard. See the "Exposure Draft Issued by the Auditing Standards Board " section of this Audit Risk Alert for further information.

New Auditing Interpretations include the following:

- Interpretation No. 14 of SAS No. 62, *Special Reports* (AICPA, *Professional Standards*, vol. 1, AU sec. 623), "Evaluating the Adequacy of Disclosure in Financial Statements prepared on the Cash, Modified Cash, or Income Tax Basis of Accounting" (AICPA, *Professional Standards*, vol. 1, AU sec. 9623) (discussed in *Audit Risk Alert—1997/98*)
- Interpretation No. 4 of AU Section 311, *Planning and Supervision*, "Audit Considerations for the Year 2000 Issue"
- Interpretation No. 1 of SAS No. 73, *Using the Work of a Specialist*, "The Use of Legal Interpretations as Evidential Matter to Support Management's Assertion that a Transfer of Financial Assets Has Met the Isolation Criterion in Paragraph 9(a) of Financial Accounting Standards Board Statement No. 125"
- Interpretation No. 3 of SAS No. 70, *Reports on the Processing of Transactions by Service Organizations*, "Responsibilities of Service Organizations and Service Auditors With Respect to Information About the Year 2000 Issue in a Service Organization's Description of Controls"
- Interpretation No. 2 of SAS No. 59, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, "Effect of the Year 2000 Issue on the Auditor's Consideration of an Entity's Ability to Continue as a Going Concern"
- Interpretation No. 4 of SAS No. 31, *Evidential Matter*, "Applying Auditing Procedures to Segment Disclosures in Financial Statements"
- Interpretation No. 3 of SAS No. 72, *Letters for Underwriters and Certain Other Requesting Parties*, "Commenting in a Comfort Letter on Quantitative and Qualitative Disclosures About Market Risk Made in Accordance With Item 305 of Regulation S-K"

The new Attestation Interpretation is Interpretation No. 1 of SSAE No. 8, *Management's Discussion and Analysis*, "Consideration of the Year 2000 Issue When Examining or Reviewing Management's Discussion and Analysis."

The new AITF Advisories address the following:

- Reporting comprehensive income
- Practice Issues regarding language to permit the use of legal opinions by auditors (Note that this Advisory was an intermediary document. It was replaced by the amended Interpretation that appears in the "New Auditing Interpretations" section of this Audit Risk Alert.)

New ASB Statements of Position (SOP) are the following:

- SOP 98-3, *Audits of States, Local Governments, and Not-for-Profit Organizations Receiving Federal Awards*
- SOP 98-6, *Reporting on Management's Assessment Pursuant to the Life Insurance Marketplace Standards Association*
- SOP 98-8, *Engagements to Perform Year 2000 Agreed-Upon Procedures Attestation Engagements Pursuant to Rule 17a-5 of the Securities Exchange Act of 1934; Rule 17Ad-18 of the Securities Exchange Act of 1934; and Advisories No. 17-98 and No. 42-98 of the Commodity Futures Trading Commission*

Summaries of these SOPs are presented in the New AICPA Statements of Position section of this Audit Risk Alert.

## Recent GAAP Pronouncements

*What new accounting pronouncements have been issued this year?*

### New FASB Pronouncements

#### ***FASB Statement No. 132, Employers' Disclosures about Pensions and Other Postretirement Benefits, an Amendment of FASB Statements No. 87, 88, and 106***

.81 In February 1998, the FASB issued Statement No. 132, *Employers' Disclosures about Pensions and Other Postretirement Benefits, an amendment of FASB Statements No. 87, 88, and 106* (FASB, *Current Text*, vol. 1, secs. P16 and P40)

.82 FASB Statement No. 132 revises employers' disclosures about pension and other postretirement benefit plans. It does not change the measurement or recognition of those plans. It standardizes the disclosure requirements for pensions and other postretirement benefits to the extent practicable, requires additional information on changes in the benefit obligations and fair values of plan assets that will facilitate financial analysis, and eliminates certain disclosures that are no longer as useful as they were when FASB Statements No. 87, *Employers' Accounting for Pensions* (FASB, *Current Text*, vol. 1, sec. P16), No. 88, *Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits* (FASB, *Current Text*, vol. 1, sec. P16), and No. 106, *Employers' Accounting for Postretirement Benefits Other Than Pensions* (FASB, *Current Text*, vol. 1, sec. P40), were issued. FASB Statement No. 132 suggests combined formats for presentation of pension and other postretirement benefit disclosures. It also permits reduced disclosures for nonpublic entities.

.83 FASB Statement No. 132 is effective for fiscal years beginning after December 15, 1997. Earlier application is encouraged. Restatement of disclosures for earlier periods provided for comparative purposes is required unless the information is not readily available, in which case the notes to the financial statements should include all available information and a description of the information not available.

**FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities**

.84 In June 1998, the FASB issued FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities* (FASB, *Current Text*, vol. 1, sec. D50). FASB Statement No. 133 establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives), and for hedging activities. It requires that an entity recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. If certain conditions are met, a derivative may be specifically designated as (1) a hedge of the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment, (2) a hedge of the exposure to variable cash flows of a forecasted transaction, or (3) a hedge of the foreign currency exposure of a net investment in a foreign operation, an unrecognized firm commitment, an available-for-sale security, or a foreign-currency-denominated forecasted transaction.

.85 The accounting for changes in the fair value of a derivative (that is, gains and losses) depends on the intended use of the derivative and the resulting designation.

.86 For a derivative designated as hedging the exposure to changes in the fair value of a recognized asset or liability or a firm commitment (referred to as a *fair value hedge*), the gain or loss is recognized in earnings in the period of change together with the offsetting loss or gain on the hedged item attributable to the risk being hedged. The effect of that accounting is to reflect in earnings the extent to which the hedge is not effective in achieving offsetting changes in fair value.

.87 For a derivative designated as hedging the exposure to variable cash flows of a forecasted transaction (referred to as a *cash flow hedge*), the effective portion of the derivative's gain or loss is initially reported as a component of other comprehensive income (outside earnings) and subsequently reclassified into earnings when the forecasted transaction affects earnings. The ineffective portion of the gain or loss is reported in earnings immediately.

.88 For a derivative designated as hedging the foreign currency exposure of a net investment in a foreign operation, the gain or loss is reported in other comprehensive income (outside earnings) as part of the cumulative translation adjustment. The accounting for a fair value hedge described above applies to a derivative designated as a hedge of the foreign currency exposure of an unrecognized firm commitment or an available-for-sale security. Similarly, the accounting for a cash flow hedge described above applies to a derivative designated as a hedge of the foreign currency exposure of a foreign-currency-denominated forecasted transaction.

.89 For a derivative not designated as a hedging instrument, the gain or loss is recognized in earnings in the period of change.

.90 Under FASB Statement No. 133, an entity that elects to apply hedge accounting is required to establish, at the inception of the hedge, the method it will use for assessing the effectiveness of the hedging derivative and the measurement approach for determining the ineffective aspect of the hedge. Those methods must be consistent with the entity's approach to managing risk.

.91 FASB Statement No. 133 applies to all entities. A not-for-profit organization should recognize the change in fair value of all derivatives as a change in net assets in the period of change. In a fair value hedge, the changes in the fair value of the hedged item attributable to the risk being hedged also are recognized. However, because of the format of their statement of financial performance, not-for-profit organizations are not permitted special hedge accounting for derivatives used to hedge forecasted transactions. FASB Statement No. 133 does not address how a not-for-profit organization should determine the components of an operating measure if one is presented.

.92 FASB Statement No. 133 precludes designating a nonderivative financial instrument as a hedge of an asset, liability, unrecognized firm commitment, or forecasted transaction except that a nonderivative instru-

ment denominated in a foreign currency may be designated as a hedge of the foreign currency exposure of an unrecognized firm commitment denominated in a foreign currency or a net investment in a foreign operation.

.93 FASB Statement No. 133 amends FASB Statement No. 52, *Foreign Currency Translation* (FASB, *Current Text*, vol. 1, sec. F60), to permit special accounting for a hedge of a foreign currency forecasted transaction with a derivative. It supersedes FASB Statements No. 80, *Accounting for Futures Contracts* (FASB, *Current Text*, vol. 1, sec. F80), No. 105, *Disclosure of Information about Financial Instruments with Off-Balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk* (FASB, *Current Text*, vol. 1, sec. F25), and No. 119, *Disclosure about Derivative Financial Instruments and Fair Value of Financial Instruments* (FASB, *Current Text*, vol. 1, sec. F25). It amends FASB Statement No. 107, *Disclosures about Fair Value of Financial Instruments* (FASB, *Current Text*, vol. 1, sec. F25), to include in FASB Statement No. 107 the disclosure provisions about concentrations of credit risk from FASB Statement No. 105. FASB Statement No. 133 also nullifies or modifies the consensus reached in a number of issues addressed by the EITF.

.94 FASB Statement No. 133 is effective for all fiscal quarters of fiscal years beginning after June 15, 1999. Initial application of this Statement should be as of the beginning of an entity's fiscal quarter; on that date, hedging relationships must be designated anew and documented pursuant to the provisions of this Statement. Earlier application of all of the provisions of this Statement is encouraged, but it is permitted only as of the beginning of any fiscal quarter that begins after issuance of this Statement. This Statement should not be applied retroactively to financial statements of prior periods.

.95 FASB Statement No. 134, *Accounting for Mortgage-Backed Securities Retained after the Securitization of Mortgage Loans Held for Sale by a Mortgage Banking Enterprise*, an amendment of FASB Statement No. 65 (issued October, 1998).

### **FASB Technical Bulletin No. 97-1**

.96 FASB Technical Bulletin No. 97-1, *Accounting Under Statement 123 for Certain Employee Stock Purchase Plans with a Look-Back Option*, provides guidance on accounting for certain employee stock purchase plans under FASB Statement No. 123, *Accounting for Stock-Based Compensation* (FASB, *Current Text*, vol. 1, sec. C36). The bulletin does not address the accounting for those plans under APB Opinion 25, *Accounting for Stock Issued to Employees* (FASB, *Current Text*, vol. 1, sec. C47). The Bulletin applies to stock-based awards granted, renewed, or modified on or after January 1, 1998.

#### **Executive Summary—New FASB Pronouncements**

- FASB Statement No. 132, *Employers' Disclosures about Pensions and Other Postretirement Benefits*, an amendment of FASB Statement Nos. 87, 88, and 106
- FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*
- FASB Statement No. 134, *Accounting for Mortgage-Backed Securities Retained after the Securitization of Mortgage Loans Held for Sale by a Mortgage Banking Enterprise*, an amendment of FASB Statement No. 65 (issued October, 1998)
- FASB Technical Bulletin No. 97-1, *Accounting Under Statement 123 for Certain Employee Stock Purchase Plans with a Look-Back Option*

### **New AICPA Statements of Position**

#### **Statement of Position 97-2, Software Revenue Recognition**

.97 Issued in October 1997 by the Accounting Standards Executive Committee (AcSEC), SOP 97-2, *Software Revenue Recognition*, supersedes SOP 91-1, *Software Revenue Recognition*, and is effective for transactions entered into in fiscal years beginning after December 15, 1997.

.98 The SOP provides guidance on applying GAAP in recognizing revenue on software transactions, and includes the following in its requirements:

- If an arrangement to deliver software or a software system, either alone or together with other products or services, requires significant production, modification, or customization of software, the entire arrangement should be accounted for in conformity with ARB No. 45, *Long-Term Construction-Type Contracts* (FASB, *Current Text*, vol. 2, sec. Co4), using the relevant guidance in SOP 81-1, *Accounting for Performance of Construction-Type and Certain Production-Type Contracts*, unless specified criteria for separate accounting for any service element are met.
- Separate accounting for a service element of an arrangement to which contract accounting applies is required if both of the following criteria are met.
  1. The services are not essential to the functionality of any other element of the transaction.
  2. The services are stated separately in the contract such that the total price of the arrangement would be expected to vary as the result of inclusion or exclusion of the services.
- If an arrangement to deliver software or a software system does not require significant production, modification, or customization of software, revenue should be recognized when all of the following criteria are met.
  1. Persuasive evidence of an agreement exists.
  2. Delivery has occurred.
  3. The vendor's fee is fixed or determinable.
  4. Collectibility is probable.
- Software arrangements may consist of multiple elements, that is, additional software products, upgrades or enhancements, postcontract customer support (PCS), or services, including elements deliverable only on a when-and-if-available basis. If contract accounting does not apply, the vendor's fee must be allocated to the various elements based on vendor-specific objective evidence (VSOE) of fair values. If sufficient VSOE of fair values does not exist, all revenue from the arrangement should be deferred until such sufficient evidence exists, or until all elements have been delivered. Exceptions to this guidance are provided for PCS, services that do not involve significant customization, subscriptions, and arrangements in which the fee is based on the number of copies. VSOE of fair value is limited to (1) the price charged when the element is sold separately, or (2) if not yet being sold separately, the price for each element established by management having the relevant authority.
- The portion of the license fee allocated to an element should be recognized as revenue when all of the revenue recognition criteria have been met. In applying those criteria, delivery of an element is considered not to have occurred if there are undelivered elements that are essential to the functionality of any delivered elements. Additionally, collectibility of that portion of the fee is not considered to be probable if the amount of the fees attributable to delivered elements is subject to forfeiture, refund, or other concession if the undelivered elements are not delivered.

### **SOP 97-3, Accounting by Insurance and Other Enterprises for Insurance-Related Assessments**

.99 In December 1997, AcSEC issued SOP 97-3, *Accounting by Insurance and Other Enterprises for Insurance-Related Assessments*. This SOP applies to all entities, not just insurance enterprises, subject to insurance-related assessments, including self-insurers and participants in second injury funds.

.100 This SOP addresses the accounting by insurance and other enterprises for assessments related to insurance activities. The SOP provides the following:

- Guidance for determining when an entity should recognize a liability for guaranty-fund and other insurance-related assessments

- Guidance on how to measure the liability (It allows for the discounting of the liability if the amount and timing of the cash payments are fixed or reliably determinable.)
- Guidance on when an asset may be recognized for a portion or all of the assessment liability or paid assessment that can be recovered through premium tax offsets or policy surcharges
- Requirements for disclosure of certain information

.101 SOP 97-3 is effective for financial statements for fiscal years beginning after December 15, 1998. Early adoption is encouraged; retroactive application is prohibited. Initial application of this SOP should be as of the beginning of an entity's fiscal year (that is, should an entity adopt the SOP prior to the effective date and during an interim period other than the first interim period, all prior interim periods should be restated). Entities subject to insurance-related assessments should report the effect of initially adopting this SOP in a manner similar to the reporting of a cumulative effect of a change in accounting principle.

### **SOP 98-1, Accounting for the Costs of Computer Software Developed or Obtained for Internal Use**

.102 In March 1998, AcSEC issued SOP 98-1, *Accounting for the Costs of Computer Software Developed or Obtained for Internal Use*. This SOP provides guidance on accounting for the costs of computer software developed or obtained for internal use. It requires the following.

- Computer software costs that are incurred in the preliminary project stage should be expensed as incurred. Once the capitalization criteria of the SOP have been met, external direct costs of materials and services consumed in developing or obtaining internal-use computer software; payroll and payroll-related costs for employees who are directly associated with and who devote time to the internal-use computer software project (to the extent of the time spent directly on the project); and interest costs incurred when developing computer software for internal use should be capitalized. Training costs and many kinds of data conversion costs should be expensed as incurred.
- Internal costs incurred for upgrades and enhancements that add functionality should be expensed or capitalized using the same criteria as for new software. Internal costs incurred for maintenance should be expensed as incurred. Entities that cannot separate internal costs on a reasonably cost-effective basis between maintenance and relatively minor upgrades and enhancements should expense such costs as incurred.
- External costs incurred under agreements related to specified upgrades and enhancements should be expensed or capitalized using the same criteria as for new software. However, external costs related to maintenance, unspecified upgrades and enhancements, and costs under agreements that combine the costs of maintenance and unspecified upgrades and enhancements should be recognized in expense over the contract period on a straight-line basis unless another systematic and rational basis is more representative of the services received.
- Impairment should be recognized and measured in accordance with the provisions of FASB Statement No. 121, *Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of* (FASB, *Current Text*, vol. 1, sec. I08).
- The capitalized costs of computer software developed or obtained for internal use should be amortized on a straight-line basis unless another systematic and rational basis is more representative of the software's use.
- If, after the development of internal-use software is completed, an entity decides to market the software, proceeds received from the license of the computer software, net of direct incremental costs of marketing, should be applied against the carrying amount of that software.

SOP 98-1 identifies the characteristics of internal-use software and provides examples to assist in determining when computer software is for internal use. The SOP applies to all nongovernmental entities and is effective

for financial statements for fiscal years beginning after December 15, 1998. It should be applied to internal-use software costs incurred in those fiscal years for all projects, including those projects in progress upon initial application of the SOP. Earlier application is encouraged in fiscal years for which annual financial statements have not been issued. Costs incurred prior to initial application of this SOP, whether capitalized or not, should not be adjusted to the amounts that would have been capitalized had this SOP been in effect when those costs were incurred.

### **SOP 98-2, Accounting for Costs of Activities of Not-for-Profit Organizations and State and Local Governmental Entities That Include Fund Raising**

.103 In March 1998, AcSEC issued SOP 98-2, *Accounting for Costs of Activities of Not-for-Profit Organizations and State and Local Governmental Entities That Include Fund Raising*. It applies to all nongovernmental not-for-profit organizations (NPOs) and all state and local governmental entities that solicit contributions. This SOP requires the following:

- If the criteria of purpose, audience, and content as defined in this SOP are met, the costs of joint activities that are identifiable with a particular function should be charged to that function, and joint costs should be allocated between fund raising and the appropriate program or management and general function.
- If any of the criteria of purpose, audience, and content are not met, all costs of the activity should be reported as fund-raising costs, including costs that otherwise might be considered program or management and general costs if they had been incurred in a different activity, subject to the exception in the following sentence. Costs of goods or services provided in exchange transactions that are part of joint activities, such as costs of direct donor benefits of a special event (for example, a meal), should not be reported as fund raising.
- Certain financial statement disclosures must be made if joint costs are allocated.

The SOP also describes and illustrates some commonly used and acceptable allocation methods although no methods are prescribed or prohibited. This SOP amends existing guidance in AICPA Audit and Accounting Guides *Health Care Organizations* and *Not-for-Profit Organizations* (which was issued in August 1996 and supersedes SOP 87-2, *Accounting for Joint Costs of Informational Materials and Activities of Not-for-Profit Organizations That Include a Fund-Raising Appeal*, because the provisions of SOP 87-2 are incorporated into the Guide), and *Audits of State and Local Governmental Units*.

.104 This SOP is effective for financial statements for years beginning on or after December 15, 1998. Earlier application is encouraged in fiscal years for which financial statements have not been issued. If comparative financial statements are presented, retroactive application is permitted but not required.

### **SOP 98-3, Audits of States, Local Governments, and Not-For-Profit Organizations Receiving Federal Awards**

.105 In March 1998, SOP 98-3, *Audits of States, Local Governments, and Not-For-Profit Organizations Receiving Federal Awards*, was issued under the authority of the ASB. This SOP provides guidance on conducting a single audit or program-specific audit in accordance with the Single Audit Act Amendments of 1996 and the June 1997 revision to OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. It supersedes SOP 92-9, *Audits of Not-For-Profit Organizations Receiving Federal Awards*, and Part VII of the AICPA Audit and Accounting Guide *Audits of State and Local Governmental Units*. In addition to providing an overview of the auditor's responsibilities in an audit of federal awards, the SOP describes the auditor's responsibility for considering internal control and performing tests of compliance with applicable laws, regulations, and program compliance requirements under GAAS, *Government Auditing Standards*, and OMB Circular A-133; and describes the auditor's responsibility for reporting and provides examples of the reports required by *Government Auditing Standards* and OMB Circular A-133.

.106 The requirements of the Single Audit Act and OMB Circular A-133 are effective for audits of fiscal years beginning after June 30, 1996. This SOP also includes auditing guidance through AICPA SAS No. 85, *Management Representations*. The effective dates of this auditing guidance should be applied as provided for in the related literature. This SOP does not change the effective dates of the auditing standards, the Act, and OMB Circular A-133. The remaining provisions of this SOP are applicable to audits of fiscal years beginning after June 30, 1996, in which the related fieldwork commences on or after March 1, 1998. Earlier application is encouraged.

#### **SOP 98-4, Deferral of the Effective Date of a Provision of SOP 97-2, Software Revenue Recognition**

.107 In March 1998, AcSEC issued SOP 98-4, *Deferral of the Effective Date of a Provision of SOP 97-2, Software Revenue Recognition*. This SOP defers for one year the application of the following passages in SOP 97-2, which limit what is considered VSOE of the fair value of the various elements in a multiple-element arrangement:

1. The second sentences of paragraphs 10, 37, 41, and 57
2. Example 3 in "Multiple-Element Arrangements—Products" on page 67 (appendix A)
3. Example 3 in "Multiple-Element Arrangement—Products and Services" on page 70 (appendix A)

All other provisions of SOP 97-2 remain in effect.

.108 This SOP applies to all multiple-element software arrangements, as defined in paragraph 9 of SOP 97-2, and is effective as of March 31, 1998. If an enterprise had applied SOP 97-2 in an earlier period for financial statements or information already issued prior to the promulgation of this SOP, amounts reported in those financial statements or as part of that information may be restated.

#### **SOP 98-5, Reporting on the Costs of Start-Up Activities**

.109 In April 1998, AcSEC issued SOP 98-5, *Reporting on the Costs of Start-Up Activities*. This SOP provides guidance on the financial reporting of start-up costs and organization costs. It requires costs of start-up activities and organization costs to be expensed as incurred.

.110 The SOP broadly defines start-up activities and provides examples to help entities determine what costs are and are not within the scope of this SOP. This SOP applies to all nongovernmental entities and, except for certain investment companies, is effective for financial statements for fiscal years beginning after December 15, 1998. Earlier application is encouraged in fiscal years for which annual financial statements previously have not been issued. Except for certain entities noted in the following paragraph, initial application of this SOP should be reported as the cumulative effect of a change in accounting principle, as described in APB Opinion 20, *Accounting Changes*. When adopting this SOP, entities are not required to report the pro forma effects of retroactive application. Entities that report substantially all investments at market value or fair value, issue and redeem shares, units, or ownership interests at net asset value, and have sold their shares, units, or ownership interests to independent third parties before the later of June 30, 1998, or the date that the SOP is issued should adopt the SOP prospectively.

#### **SOP 98-6, Reporting on Management's Assessment Pursuant to the Life Insurance Ethical Market Conduct Program of the Insurance Marketplace Standards Association**

.111 In April 1998, SOP 98-6, *Reporting on Management's Assessment Pursuant to the Life Insurance Ethical Market Conduct Program of the Insurance Marketplace Standards Association*, was issued under the authority of the ASB. This SOP pertains to the sales and marketing policies and procedures of life insurance entities. The SOP provides guidance to practitioners in conducting and reporting on an independent examination of management's assertion about those policies and procedures performed under SSAE No. 1, *Attestation Standards* (AICPA, *Professional Standards*, vol. 1, AT sec. 100), to assist an entity in meeting the requirements

of the Insurance Marketplace Standards Association (IMSA) program. IMSA requires that such engagements use the criteria it sets forth; consequently, users of this SOP should be familiar with the IMSA program and its Assessment Handbook and requirements.

.112 This SOP amends chapter 9, "Auditors Reports," of the AICPA Audit and Accounting Guide *Audits of Property and Liability Insurance Companies* and chapter 11, "Auditors' Reports," of the AICPA Industry Audit Guide *Audits of Stock Life Insurance Companies*.

### **SOP 98-7, Deposit Accounting: Accounting for Insurance and Reinsurance Contracts That Do Not Transfer Insurance Risk**

.113 In November 1998, AcSEC will issue SOP 98-7, *Deposit Accounting: Accounting for Insurance and Reinsurance Contracts That Do Not Transfer Insurance Risk*. The SOP will address deposit accounting for certain insurance and reinsurance contracts and direct business by insurance enterprises and other enterprises. SOP 98-7 will provide guidance on how to account for insurance and reinsurance contracts that do not transfer insurance risk. It applies to all entities and all insurance and reinsurance contracts that do not transfer insurance risk, except for long-duration life and health insurance contracts. The method used to account for insurance and reinsurance contracts that do not transfer insurance risk is referred to in the SOP as deposit accounting. SOP 98-7 does not address when deposit accounting should be applied.

.114 The SOP specifies the following.

1. Insurance and reinsurance contracts for which the deposit method is appropriate should be classified as one of the following, which are those—
  - That transfer only significant timing risk.
  - That transfer neither significant timing nor underwriting risk.
  - With indeterminate risk.
2. At inception, a deposit asset or liability should be recognized for insurance and reinsurance contracts accounted for under deposit accounting and should be measured based on the consideration paid or received, less any explicitly identified premiums or fees to be retained by the insurer or reinsurer, irrespective of the experience of the contract.

The SOP would adopt the interest method as described in FASB Statement No. 91, *Accounting for Nonrefundable Fees and Costs Associated with Originating or Acquiring Loans and Initial Direct Costs of Leases* (FASB, *Current Text*, vol. 1, sec L10), for insurance and reinsurance contracts that transfer only significant timing risk and insurance and reinsurance contracts that transfer neither significant timing nor underwriting risk.

.115 Insurance and reinsurance contracts that transfer only significant underwriting risk would be accounted for by measuring the deposit based on the unexpired portion of the coverage provided until losses are incurred that will be reimbursed under the contract. Once a loss is incurred that will be reimbursed under the contract, the deposit would be measured by the present value of the expected future cash flows arising from the contract plus the remaining unexpired portion of the coverage provided. Changes in the recorded amount of the deposit, other than the expired portion of the coverage provided, would be included in the income statement of the insured as an offset to the loss that will be reimbursed under the contract.

.116 Insurance and reinsurance contracts with indeterminate risk, would be accounted for in a manner similar to the open-year method described in SOP 92-5, *Accounting for Foreign Property and Liability Reinsurance*.

.117 SOP 98-7 is effective for financial statements for fiscal years beginning after June 15, 1999, with earlier adoption encouraged. Restatement of previously issued annual financial statements is not permitted. Initial application of this SOP is as of the beginning of an entity's fiscal year (that is, if the SOP were adopted before

the effective date and during an interim period, all prior interim periods are required to be restated). The effect of initially adopting this SOP should be reported as a cumulative effect of a change in accounting principle (in accordance with the provisions of APB Opinion 20, *Accounting Changes*).

**SOP 98-8, Engagements to Perform Year 2000 Agreed-Upon Procedures Attestation Engagements Pursuant to Rule 17a-5 of the Securities Exchange Act of 1934; Rule 17Ad-18 of the Securities Exchange Act of 1934; and Advisories No. 17-98 and No. 42-98 of the Commodity Futures Trading Commission**

.118 This SOP has been posted in its entirety on the AICPA Web site <http://www.aicpa.org>.

**Executive Summary—New AICPA Statements of Position**

- SOP 97-2, *Software Revenue Recognition*
- SOP 97-3, *Accounting by Insurance and Other Enterprises for Insurance-Related Assessments*
- SOP 98-1, *Accounting for the Costs of Computer Software Developed or Obtained for Internal Use*
- SOP 98-2, *Accounting for Costs of Activities of Not-for-Profit Organizations and State and Local Governmental Entities That Include Fund Raising*
- SOP 98-3, *Audits of States, Local Governments, and Not-for-Profit Organizations Receiving Federal Awards*
- SOP 98-4, *Deferral of the Effective Date of a Provision of SOP 97-2, Software Revenue Recognition*
- SOP 98-5, *Reporting on the Costs of Start-Up Activities*
- SOP 98-6, *Reporting on Management's Assessment Pursuant to the Life Insurance Ethical Market Conduct Program of the Insurance Marketplace Standards Association*
- 98-7, *Deposit Accounting: Accounting for Insurance and Reinsurance contracts That Do Not Transfer Insurance Risk*

*Note:* AcSEC's Proposed Statement of Position: *Modification of the Limitations on Evidence of Fair Value in Software Arrangements*, which would affect SOP Nos. 97-2 and 98-4 is expected to be issued as a final SOP before year end.

**EITF Consensus Positions**

.119 The Emerging Issues Task Force (EITF) was established by the FASB in July 1984 to assist in improving financial reporting through the timely identification, discussion, and resolution of financial issues within the framework of existing authoritative literature. The application of EITF consensus (category c of the GAAP hierarchy) effective after March 15, 1992 is mandatory under SAS No. 69, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles in the Independent Auditor's Report* (AICPA, *Professional Standards*, vol. 1, AU sec. 411). EITF consensus issued before March 16, 1992 become effective in the hierarchy for initial application of an accounting principle after March 15, 1993. The EITF meets approximately every eight weeks. All meetings are announced by the FASB in its *Action Alert*, together with a listing of the topics on the meeting agenda.

EITF Issue No.	Description	Date of Consensus/Status
96-19	<i>Debtor's Accounting for a Substantive Modification and Exchange of Debt Instruments</i>	Implementation guidelines added July 23, 1998
97-2	<i>Application of APB 16 and SFAS 94 to Physician's Practice Entities</i>	Consensus reached November 20, 1997

(Continued)

<i>EITF Issue No.</i>	<i>Description</i>	<i>Date of Consensus/Status</i>
97-5	<i>Accounting for the Delayed Receipt of Option Shares Upon Exercise Under APB Opinion No. 25, Accounting for Stock Issued to Employee</i>	FASB Staff Announcement July 23-24, 1997
97-8	<i>Accounting for Contingent Consideration Issued in a Purchase Business Combination</i>	Consensus reached July, 1997
97-9	<i>Effect on Pooling-of-Interests Accounting of Certain Contingently Exercisable Options or Other Equity Instruments</i>	Consensus reached September 18, 1997
97-10	<i>The Effect of Lessee Involvement in Asset Construction</i>	Consensus reached May 21, 1998. (Changes made to consensus July 23, 1998)
97-11	<i>Accounting for Internal Costs Relating to Real Estate Property Acquisitions</i>	Consensus reached March 18, 1998
97-12	<i>Accounting for Increased Share Authorization in an IRS Section 423 Employee Stock Purchase Plan under APB Opinion No. 25, Accounting for Stock Issued to Employees</i>	Consensus reached September 18, 1997
97-13	<i>Accounting for Costs Incurred in Connection with a Consulting Contract or an Internal Project That Combines Business Process Reengineering and Information Technology Transformation</i>	Consensus reached November 20, 1997
97-14	<i>Accounting for Deferred Compensation Arrangements Where Amounts Earned Are Held in a Rabbi Trust and Invested</i>	Consensus reached May 21, 1998; Consensus reached on transition July 23, 1998.
97-15	<i>Accounting for Contingency Arrangements Based on Security Prices in a Purchase Business Combination</i>	Consensus reached March 18-19, 1998
98-1	<i>Valuation of Debt Assumed in a Purchase Business Combination</i>	Consensus reached March 18-19, 1998
98-2	<i>Accounting by a Subsidiary for an Investment in Its Parent Company's Stock</i>	No consensus reached. Further discussion expected.
98-3	<i>Determining Whether a Transaction Is an Exchange of Similar Productive Assets or a Business Combination</i>	Further discussion planned March 18-19, 1998.
98-4	<i>Accounting by a Joint Venture for Businesses Received at Its Formation</i>	Further discussion planned March 18-19, 1998.
98-5	<i>Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios</i>	September 23-24, 1998 discussed but not asked to reach a consensus. Further discussion planned.
98-6	<i>Investor's Accounting For an Investment in a Limited Partnership Investment When The Investor Is The General Partner And The Limited Partners Have Certain Approval Or Veto Rights</i>	September 23-24, 1998. Further discussion planned.

<i>EITF Issue No.</i>	<i>Description</i>	<i>Date of Consensus/Status</i>
98-7	<i>Accounting for Exchanges of Similar Equity Method Investments</i>	Consensus reached May 21, 1998.
98-8	<i>Accounting for Transfers of Investments that Are in Substance Real Estate</i>	Consensus reached May 21, 1998.
98-9	<i>Accounting for Contingent Rent in Interim Financial Periods</i>	September 23-24, 1998. Prior consensus on lessee accounting withdrawn, new consensus reached. Further discussion planned.
98-10	<i>Accounting for Energy Trading and Risk Management Activities</i>	September 23-24, 1998. Further discussion planned.
98-11	<i>Accounting For Acquired Temporary Differences In Certain Purchase Transactions That Are Not Accounted For As Business Combinations</i>	Consensus reached on one issue September 23, 1998. Further discussion planned.
98-12	<i>Application of EITF Issue No. 96-13, "Accounting For Derivative Financial Instruments Indexed To, And Potentially Settled In, A Company's Own Stock, To Certain Derivative Financial Instruments Issued With Other Instruments."</i>	September 23-24, 1998. Further discussion planned.
98-13	<i>Accounting by an Equity Method Investor for Investee Losses When the Investor Has Loans to and Investments in Other Securities of the Investee</i>	September 23-24, 1998. Further discussion planned.
98-14	<i>Debtor's Accounting for Changes in Line-of-Credit or Revolving-Debt Arrangements</i>	September 23-24, 1998. Further discussion planned.

## Exposure Draft Issued by the Auditing Standards Board

.120 In June 1998, the ASB issued an exposure draft of a proposed SSAE entitled: *Amendments to SSAE No. 1, Attestation Standards; SSAE No. 2, Reporting on an Entity's Internal Control Over Financial Reporting; SSAE No. 3, Compliance Attestation*. This proposed SSAE would—

- Enable a practitioner to directly report on specified subject matter, such as an entity's internal control over financial reporting, rather than on management's assertion about the internal control. In either case, the practitioner would continue to be required to obtain management's assertion as condition of engagement performance.
- Eliminate, in certain cases, the requirement for a separate presentation of management's assertion if the assertion is included in the introductory paragraph of the practitioner's report.
- Revise the reporting guidance on the SSAEs so that SSAE reports would contain elements that are similar to those included in auditors' reports on historical financial statements, as prescribed in SAS No. 58, *Reports on Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1, AU sec. 508).
- Provide guidance on the relationship between the SSAEs and the Statements on Quality Control Standards.

In September 1998, the ASB voted to issue this exposure draft as a final standard.

## Guides and Audit Risk Alerts

### AICPA Audit and Accounting Guides

.121 The Audit and Accounting Guides summarize the practices applicable to specific industries and describe relevant matters, conditions, and procedures unique to these industries. The accounting guidance included in AICPA Audit and Accounting Guides is in the GAAP hierarchy as authoritative GAAP. Guides are available from the AICPA for the following industries (product numbers are shown in parentheses):

- Agricultural Producers and Cooperatives (012353)
- Airlines (013182)
- Banks and Savings Institutions (011177)
- Brokers and Dealers in Securities (012180)
- Casinos (013149)
- Colleges and Universities<sup>6</sup> (013323)
- Common Interest Realty Associations (012487)
- Construction Contractors (012095)
- Credit Unions (012058)
- Employee Benefit Plans (012338)
- Entities With Oil and Gas Producing Activities (012105)
- Federal Government Contractors (012437)
- Finance Companies (012465)
- Health Care Organizations (012438)
- Investment Companies (012362)
- Not-for-Profit Organizations (013391)
- Property and Liability Insurance Companies (011921)
- State and Local Governmental Units (012057)
- Voluntary Health and Welfare Organizations<sup>6</sup> (012158)

The following general Audit and Accounting Guides also may be of interest to CPAs performing audit and attest engagements:

- Consideration of Internal Control in a Financial Statement Audit (012451)
- Personal Financial Statements (011135)
- Prospective Financial Information (012067)
- Use of Real Estate Appraisal Information (013159)

---

<sup>6</sup> Use of this Guide is limited to certain governmental units accounted for under Statements on Governmental Accounting Standards (SGAS) Nos. 15 and 29.

## AICPA Annual Industry Audit Risk Alerts

.122 The AICPA's annual Risk Alerts series provides information about current economic, regulatory, and professional developments in specified industries and practice areas. They assist CPAs in planning and performing such engagements. 1998/99 Audit Risk Alerts are available from the AICPA for the following industries (product numbers are shown in parentheses):

- Auto Dealerships [AAM section 8160]
- Compilation and Review [AAM section 8015]
- Construction Contractors [AAM section 8120]
- Common Interest Realty Associations [AAM section 8100]
- Depository and Lending Institutions [AAM section 8050]
- Employee Benefit Plans [AAM section 8060]
- Health Care [AAM section 8030]
- HighTechnology [AAM section 8200]
- Insurance [AAM section 8040]
- Investment Companies [AAM section 8150]
- NotforProfit Organizations [AAM section 8180]
- Real Estate [AAM section 8210]
- Retail Enterprises [AAM section 8230]
- Securities [AAM section 8170]
- State and Local Governments [AAM section 8070]

## Other Accounting and Auditing Team Publications

.123 *Audit and Accounting Manual (Product Number 007258)*. The manual is designed to provide assistance for audit, review, and compilation engagements. It contains numerous practice aids, samples, and illustrations—including audit programs and sample letters.

.124 *AICPA Practice Aid Series*. The publications that constitute the AICPA Practice Aid Series have been designed to address a broad range of topics that affect today's CPA. From enhancing the efficiency of your practice to developing the new skill sets required for a successful transition to meet the challenges of the new millennium, this series provides practical guidance and information to assist in making sense out of a changing and complex business environment. The series includes the following:

- Preparing and Reporting on Cash- and Tax-Basis Financial Statements (Product Number 006701)
- Financial Statement Reporting and Disclosure Practices for Employee Benefit Plans (Product Number 008725)
- Auditing Recipients of Federal Awards: Practical Guidance for Applying OMB Circular A-133 Audits of States, Local Governments, and Non-Profit Organizations June 1997 revisions (Product Number 008730)
- Considering Fraud in a Financial Statement Audit: Practical Guidance for Applying SAS No. 82 (Product Number 008883)

- Auditing Estimates and Other Soft Accounting Information (Product Number 010010)
- Make Audits Pay—Leveraging the Audit into Consulting Services (Available beginning in early 1999)
- CPA ElderCare: A Practitioner's Resource Guide (Product Number 022504)
- Audits of Futures Commission Merchants, Introducing Brokers, and Commodity Pools (Product Number 006600)

**.125 *Financial Statement Preparation Manual/Disclosure Checklists (Product Number G01027).*** The manual is a loose-leaf service of nineteen disclosure checklists and sample financial statements for various industries that is updated to reflect the issuance of new authoritative guidance. The checklists are the individual paperback versions that are generated from the loose-leaf and published annually.

**.126 *Accounting Trends and Techniques—1998 (Product Number 009890).*** Highlights the latest trends in corporate financial statements are presented for practitioners in industry and public practice. The publication, which is based on a survey of over 600 public companies, illustrates accounting practices and trends, including presentations and disclosures.

## AICPA Services

### Order Department

**.127** To order AICPA products, call (888) 777-7077; write AICPA Order Department, CLA10, P.O. Box 2209, Jersey City, NJ 07303-2209; fax (800) 362-5066. Prices do not include shipping and handling. The best times to call are 8:30 to 11:30 A.M. and 2:00 to 7:30 P.M., EST. Obtaining product information and placing online orders can be done at the AICPA's Web site <http://www.aicpa.org>.

### Accounting and Auditing Technical Hotline

**.128** The AICPA Technical Hotline answers members' inquiries about accounting, auditing, attestation, compilation, and review services. Call (888) 777-7077.

### Ethics Hotline

**.129** Members of the AICPA's Professional Ethics Team answer inquiries concerning independence and other behavioral issues related to the application of the AICPA Code of Professional Conduct. Call (888) 777-7077.

### World Wide Web Site

**.130** The AICPA has a home page on the World Wide Web. "AICPA Online," the Web site (URL or uniform resource locator: <http://www.aicpa.org>), offers CPAs the unique opportunity to stay abreast of developments in accounting and auditing, including exposure drafts. The home page is updated daily. The Web site includes *In Our Opinion*, the newsletter of the AICPA Audit and Attest Standards Team. The newsletter provides valuable and timely information on technical activities and developments in auditing and attestation standard setting.

**.131** This Audit Risk Alert replaces *Audit Risk Alert—1997/98*.

**.132** Practitioners Publishing Company (PPC) and the AICPA currently offer a CD-ROM disk, entitled *The Practitioner's Library—Accounting and Auditing*, publications issued by PPC, the AICPA, and the FASB. The disk contains the following publications issued by the FASB: *Original Pronouncements*, *Current Text*, *Emerging Issues Task Force Abstracts*, and *FASB Implementation Guides*; and the following publications issued

by the AICPA: *Professional Standards*, *Technical Practice Aids*, *Audit and Accounting Guides*, and *Peer Review Program Manual*. The disk also contains eighteen PPC engagement manuals. The disk may be customized so that purchasers pay for and receive only selected segments of the material

**.133** The Audit Risk Alert is published annually. As you encounter audit issues that you believe warrant discussion in next year's Audit Risk Alert, please feel free to share those with us. Any other comments that you have about the Audit Risk Alert would also be greatly appreciated. You may email these comments to [GDietz@aicpa.org](mailto:GDietz@aicpa.org) or write to:

George Dietz, CPA

# AAM Section 8015

## *Compilation and Review Alert—1998/99*

### NOTICE TO READERS

This Compilation and Review Alert is intended to provide CPAs with an update on recent practice issues and professional standards that affect compilation and review engagements. This document has not been approved, disapproved, or otherwise acted upon by any senior technical committee of the AICPA.

### In This Year's Alert . . .

- What's the authority of the *Compilation and Review Alert—1998/99*?
- What's the current status of the Accounting and Review Services Committee's deliberations on how to clarify the applicability of SSARS No. 1?
- What are the performance standards in a compilation engagement? Is it permissible for paraprofessionals to perform the compilation engagement and to issue the report?
- Can a CPA be required to compile financial statements if he or she was not engaged to do so? When is a review required?
- What working papers are required for a compilation engagement? What working papers are required for a review engagement?
- Are successor accountants required to obtain the working papers of predecessor accountants who compiled, reviewed, or audited the financial statements of the prior year?
- If the prior year's financial statements are audited by a predecessor accountant and the successor accountant proposes to perform a review or compilation under SSARS No. 1, is the successor accountant obligated to communicate with the predecessor?
- What guidance is available to assist with reporting on comparative financial statements when a change of accountants or a change in the level of service has occurred?
- When SSARS No. 1 refers to "knowledge acquired in performing other accounting services," what does the phrase "may result in modification" mean?
- What kinds of analytical procedures does the accountant perform and how should they be applied?
- When should an accountant add a paragraph to a compilation or review report to emphasize a matter about the financial statements?
- Are accountants performing compilation and review engagements required to resolve complex technical and ethical questions through consultation? If consultation is used, should the working papers document the question and conclusion reached?
- Does SAS No. 82, *Consideration of Fraud in a Financial Statement Audit*, apply to compilation and review engagements?

- Does ARSC plan to revise the illustrative review representation letter presented in appendix D of SSARS No. 1 to reflect the issuance of SAS No. 85?
- What responsibility do accountants have for the year 2000 issue in compilation and review engagements? What year 2000 issue accounting guidance is available to help accountants follow GAAP in compiled or reviewed financial statements?
- Are accountants required to consider GAAP disclosures in reporting on compiled or reviewed cash- and income tax-basis financial statements?
- What publications are included in the hierarchy of “must-know” GAAP for accountants performing compilations and reviews?
- What new GAAP pronouncements have been published since October 1997 (publication of last year’s *Compilation and Review Alert*)?
- How do I obtain AICPA publications related to compilation and review practice?
- What is the best CPE course for getting a basic understanding of SSARS Nos. 1 to 7 or introducing new staff accountants and paraprofessionals to those standards?

\* \* \* \*

## Introduction

### *What’s the authority of the Compilation and Review Alert—1998/99?*

.01 The *Compilation and Review Alert—1998/99* is a nonauthoritative practice aid designed to help accountants plan and perform their 1998 and 1999 compilation and review engagements. It clarifies certain existing Statements on Standards for Accounting and Review Services (SSARSs), suggests ways of implementing those standards in special circumstances, points out pitfalls that frequently occur in compilation and review engagements, and addresses emerging practice problems.

## Current Issues

### Developments at the ARSC

#### *What’s the current status of the Accounting and Review Services Committee’s deliberations on how to clarify the applicability of SSARS No. 1?*

.02 Since 1994, the Accounting and Review Services Committee (ARSC) has been trying to clarify the applicability of SSARS No. 1, *Compilation and Review of Financial Statements* (AICPA, *Professional Standards*, vol. 2, AR sec. 100), and to make sure that the existing standards square with developments in technology and regulation. To understand where ARSC is today, the following is a summary of the major developments in the history of this project.

- September 1995—ARSC issues an exposure draft of a proposed SSARS entitled “Assembly of Financial Statements for Internal-Use Only” that would have permitted CPAs to prepare financial statements for clients without having to compile them.
- February and May 1996—ARSC meets to discuss the more than 500 comment letters received on the exposure draft and seeks additional information about the kinds of problems CPAs encounter when performing compilation engagements.
- August 1997—After extensive discussion and fact-finding, ARSC conducts a two-day public hearing to solicit views on (1) the applicability of SSARS, (2) additional exemptions from SSARS, and (3) the

acceptability of plain-paper financial statements (meaning, statements that do not disclose the identity of the CPA who has prepared them). Nineteen speakers participated in the public hearing. There were divergent views on the first two issues listed above; seventeen of the nineteen participants were opposed to plain-paper financial statements.

- October 1997—ARSC meets to discuss the public hearing, votes to withdraw the assembly exposure draft, and concludes that plain-paper financial statements should not be permitted.
- February 1998—ARSC concludes that along with a major educational effort, the practice problems emanating from SSARS No. 1 can be best remedied by three exposure drafts that (1) clarify the applicability of SSARS, (2) preclude a CPA from compiling financial statements for a client if the CPA performs controllership services for that client, and (3) exempt financial statements included in written business valuations from the applicability of SSARS.
- July 1998—ARSC discusses the effect of recent rules enacted by the Florida Legislature to comply with a federal court ruling decreeing that CPAs employed by unlicensed firms (firms such as American Express Tax and Business Services that are not CPA firms) be permitted to hold out as CPAs and be associated with financial statements. The Florida rules enable CPAs working for such firms to be associated with financial statements of their clients. However, Florida rules and the AICPA Bylaws prohibit CPAs in unlicensed firms from compiling financial statements in accordance with the SSARS. The dilemma can best be summarized as follows.
  1. According to the Florida rules, CPAs in nontraditional firms can report on financial statements that they issue to clients or others via an assembly service.
  2. Such CPAs cannot compile or report on those financial statements in accordance with the SSARS.
  3. CPAs who issue financial statements to clients or others outside of SSARS, as permitted in item 1 in the preceding, are in violation of AICPA rules.

No matter what, something has to change. Because of the complexity and far-reaching consequences of the issues, the ARSC voted to hold in abeyance the three exposure drafts discussed above. Currently, the AICPA Board of Directors is considering alternative solutions to the problem—stay tuned.

## The Compilation—A Professional Service

*What are the performance standards in a compilation engagement? Is it permissible for paraprofessionals to perform the compilation engagement and issue the report?*

.03 A compilation involves more than merely reading the client's financial statements and attaching a compilation report to those financial statements. And although a compilation report provides no assurance that the financial statements are in conformity with generally accepted accounting principles (GAAP) or another comprehensive basis of accounting (OCBOA), there are performance requirements that must be followed. As a refresher, the following is a summary of the compilation performance requirements. The accountant should do the following.

1. Establish an understanding with the entity about the services to be performed and the report the accountant expects to issue.
2. Have or obtain knowledge of the accounting principles and practices of the entity's industry (GAAP or OCBOA) and a general understanding of the following:
  - a. Nature of the entity's transactions
  - b. Form of its accounting records
  - c. Stated qualifications of its accounting personnel
  - d. Accounting basis on which the financial statements are to be presented and the form and content of those financial statements

3. Consider whether it is necessary to perform other accounting services before compiling the financial statements.
4. Perform additional work if information supplied by the client appears to be incorrect, incomplete, or otherwise unsatisfactory.
5. Read the compiled financial statements and consider whether they appear to be appropriate in form and free from obvious material error.

In general, a compilation requires an informal reading of the client's financial statements to determine whether they are in proper form (GAAP or OCBOA) and whether they contain obvious material errors. A staff person or a paraprofessional may perform the compilation, prepare the accountant's report, and submit them to a client provided that they meet the aforementioned performance requirements and provided that the CPA firm retains responsibility for the engagement and the representations in the compilation report. Of course, this would entail appropriate supervision and review of the staff person or paraprofessional performing the compilation procedures. The extent of the supervision and review would vary depending on the experience and knowledge of the person performing the work. Finally, accountants should remember that a compilation is a professional service and, although it is not an assurance engagement, they should always follow the performance and reporting standards in the SSARSs.

### Required Compilations, Required Reviews

*Can a CPA be required to compile financial statements if he or she was not engaged to do so? When is review required?*

#### Required Compilations

.04 The accountant must perform a compilation whenever all of the following conditions are met.

1. Financial statements, including a single financial statement such as a balance sheet or a statement of cash receipts and disbursements are presented.
2. The financial statements are not audited or reviewed.
3. The client is a nonpublic entity, for example, a corporation, a combined group of affiliated entities, a not-for-profit organization, a governmental unit, an estate or trust, a partnership, a proprietorship, a segment of any of these, or an individual.
4. The accountant submits the financial statements to clients or anyone else.

.05 There are four specific exemptions from the general compilation performance and reporting standards. These are as follows:

1. *Certain personal financial statements.* See SSARS No. 6, *Reporting on Personal Financial Statements Included in Written Personal Financial Plans*, (AICPA, *Professional Standards*, vol. 2, AR sec. 600).
2. *Tax returns, including Forms 990 for organizations exempt from income tax, and 5500 for employee benefit plans.* See Interpretation No. 10, "Reporting on Tax Returns," of SSARS No. 1 (AICPA, *Professional Standards*, vol. 2, AR sec. 9100.31 and .32).
3. *Certain prescribed forms when designed by the user, not the client.* See SSARS No. 3, *Compilation Reports on Financial Statements Included in Certain Prescribed Forms* (AICPA, *Professional Standards*, vol. 2, AR sec. 300).
4. *Certain litigation support services that involve pending or potential formal legal or regulatory proceedings before a trier of fact.* See Interpretation No. 20, "Applicability of Statements on Standards for Accounting and Review Services to Litigation Services," of SSARS No. 1 (AICPA, *Professional Standards*, vol. 2, AR sec. 9100.76-.78).

Notably absent from the preceding exemptions are financial statements included in consulting engagements and so-called plain paper financial statements that are printed without an accountant's name thereon. Plain paper financial statements are not permitted, and the financial statements included in consulting reports are required to be at least compiled.

### ***Required Reviews***

**.06** An accountant is required to do a review only when engaged by his or her client to perform a review. Application of analytical procedures or other review-type procedures in a compilation engagement does not obligate the accountant to step up a compilation to a review engagement. For example, in a compilation engagement, if the accountant has concerns about a material account balance and resolves the matter by the application of review-type procedures (or even audit procedures), the accountant is not required to assess whether the expanded work causes the engagement to become a review. The accountant should report based on what the engagement letter or agreement calls for—in this case a compilation, not a review. This dovetails with Interpretation No. 13, "Additional Procedures" of SSARS No. 1 (AICPA, *Professional Standards*, vol. 2, AR sec. 9100.46–49). Interpretation No. 13 permits the accountant to perform additional procedures in a compilation or review engagement without requiring the accountant to change the level of the engagement. Furthermore, it is consistent with Interpretation No. 3, "Reporting on the Highest Level of Service," of SSARS No. 1 (AICPA, *Professional Standards*, vol. 2, AR sec. 9100.06–12). Interpretation No. 3 addresses engagements in which the accountant provides more than one level of service on the same financial statements. Interpretation No. 3 does not preclude the accountant from applying procedures that go beyond a compilation or a review and does not require the accountant to step up the engagement to another level of service.

### **Working Papers Requirements**

*What working papers are required for a compilation engagement?*

*What working papers are required for a review engagement?*

#### ***Compilation Working Papers***

**.07** SSARS No. 1 does not require any working papers for a compilation engagement. Nevertheless, accountants may find it helpful from a risk minimization and quality control perspective to include the following items in their client compilation engagement documentation:

1. Engagement letter
2. Trial balance information to bridge the client's records to the compiled financial statements
3. Notes on how incorrect, incomplete, or unsatisfactory matters were resolved, if any
4. If required by firm policy, compilation work program checklist and GAAP disclosure checklist

#### ***Review Working Papers***

**.08** SSARS No. 1 (AR sec. 100.31), states that in a review engagement the accountant should have working papers to describe the following:

1. Matters covered in the accountant's inquiry and analytical procedures such as matters listed in items a through g in AR sec. 100.27 and the inquiries included in appendix A of SSARS No. 1.
2. Unusual matters (incorrect, incomplete, or unsatisfactory information) that the accountant considered and how those matters were resolved.

In addition to these two items, accountants typically include the following in their review working papers:

1. An engagement letter
2. A bridging trial balance (See the preceding section entitled "Compilation Working Papers" above.)

3. The client's representation letter (SSARS No. 1, AR sec. 100.28, requires that a client provide the accountant with a representation letter in a review engagement.)
4. If required by firm policy for quality control purposes, a GAAP disclosure checklist, which the accountant might include (Because accountants cannot review financial statements that omit substantially all disclosures, checklists that include disclosure requirements are commonly used in review engagements.)

## Working Papers of Predecessor Accountants

*Are successor accountants required to obtain the working papers of predecessor accountants who compiled, reviewed, or audited the financial statements of the prior year?*

.09 SSARS No. 4, *Communications Between Predecessor and Successor Accountants* (AICPA, *Professional Standards*, vol. 2, AR sec. 400), does not require successor accountants to communicate with or obtain access to working papers of predecessor accountants in accepting compilation or review engagements. Nevertheless, if the successor accountant decides that circumstances justify communicating with the predecessor accountant and also decides that access to the predecessor's working papers may be useful, the successor accountant should inquire about the nature of the working papers before deciding that access would be helpful.

## Communications Between Predecessor Accountant and Successor Accountant

*If the prior year's financial statements are audited by a predecessor accountant and the successor accountant proposes to perform a review or compilation under SSARS No. 1, is the successor accountant obligated to communicate with the predecessor?*

.10 Neither SSARS No. 4 nor SAS No. 84, *Communications Between Predecessor and Successor Auditors* (AICPA, *Professional Standards*, vol. 1, AU sec. 315), applies if the prior year's financial statements are audited by a predecessor accountant and the successor accountant proposes to perform a review or compilation under SSARS No. 1. Accordingly, the successor accountant is not obligated to communicate with the predecessor. However, the successor accountant may find the guidance in SSARS No. 4 useful in generating information about whether to accept the engagement.

## Reporting on Comparative Financial Statements

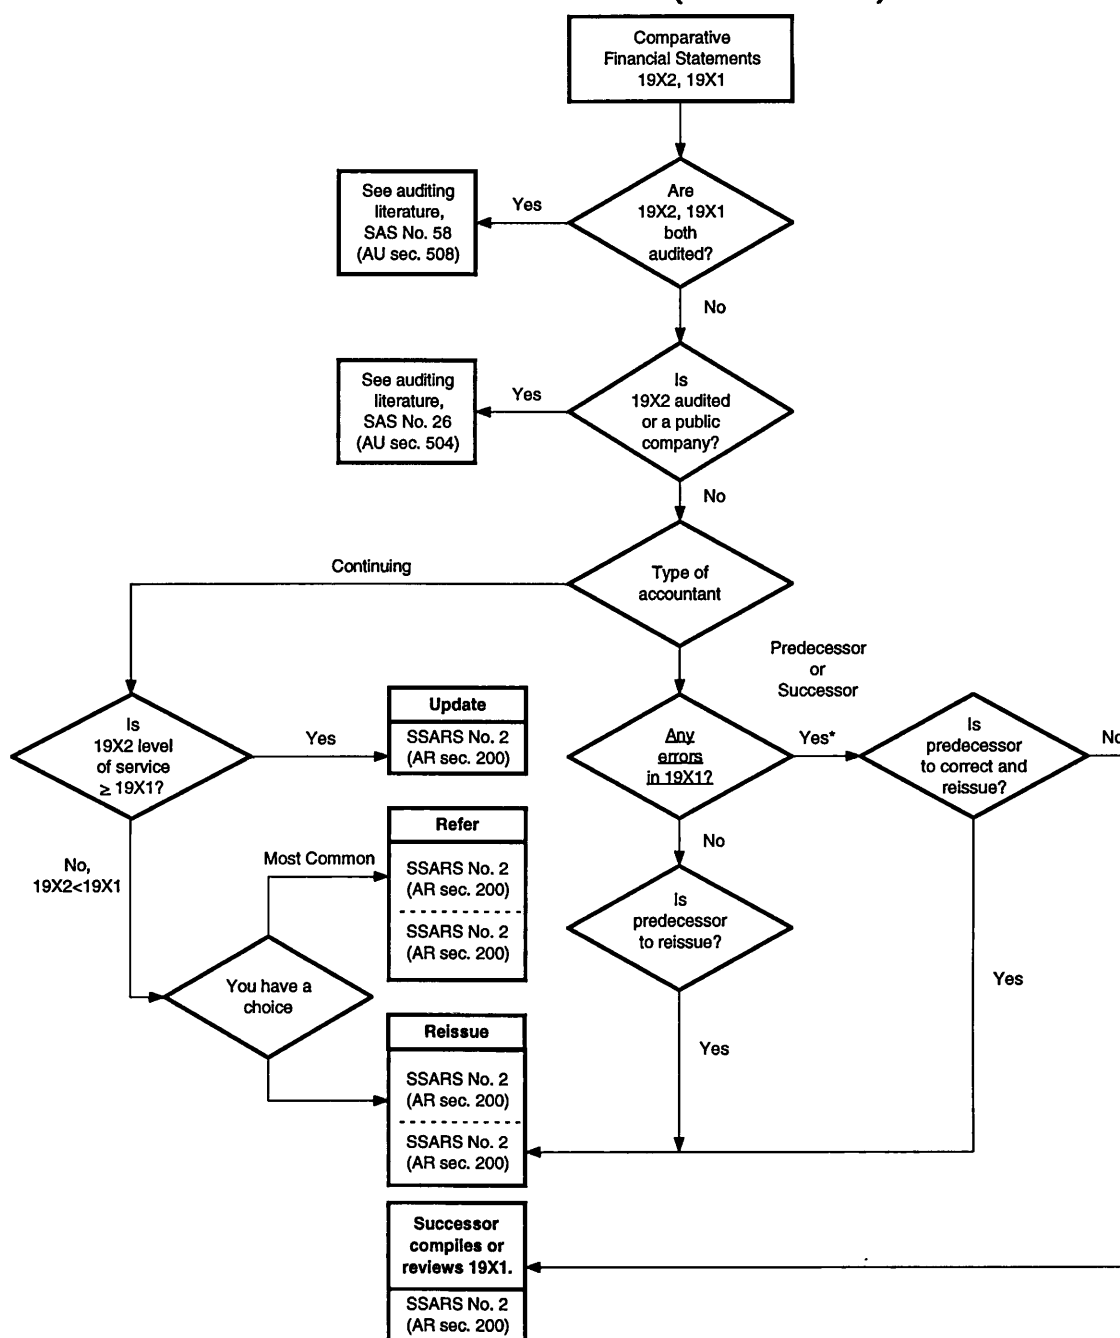

*What guidance is available to assist with reporting on comparative financial statements when a change of accountants or a change in the level of service has occurred?*

.11 SSARS No. 2, *Reporting on Comparative Financial Statements* (AICPA, *Professional Standards*, vol. 2, AR sec. 200), sets forth the authoritative requirements that obligate the accountant to report on each period when financial statements of two or more periods are presented in columnar form. Reporting is simple unless a change of accountants has occurred, the level of service (compilation or review) differs from period to period, or a change in the nonpublic status of the entity has occurred. In these situations, accountants face some rather complex reporting decisions. Because accountants don't frequently face these complexities, applying SSARS No. 2 can be daunting. A very useful flowchart (following this paragraph) can help to make SSARS No. 2 more user friendly. Accountants may consult the flowchart whenever questions about reporting on comparatives arise. All references in the flowchart are to SSARS No. 2. The flowchart covers both predecessor and successor accountants. The flowchart also references the appropriate SAS if the client's comparative financial statements are audited, such as SAS No. 58, *Reports on Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1, AU sec. 508), or if the client's status has changed from a nonpublic to a public entity, such as SAS No. 26, *Association With Financial Statements* (AICPA, *Professional Standards*, vol. 1, AU sec. 504).<sup>1</sup>

---

<sup>1</sup> The flowchart is reproduced with permission from *Guide to Compilation and Review Engagements*, written by Clay, Guy, McMurrian, and McElroy (Fort Worth: Practitioners Publishing Company, 1998).

## Flowchart of SSARS No. 2 (AR sec. 200)

\* SSARS No. 4 (AR sec. 400.10) requires the successor to request the client to notify the predecessor when the successor believes that the prior-period financial statements need to be restated.

### .12 Here are some definitions from SSARS No. 2 that facilitate the use of the flowchart.

1. **Updated Report**—A continuing accountant issues this kind of report, which considers new information from the current engagement and re-expresses the previous conclusions or expresses different conclusions on the prior period financial statements as of the current report date.
2. **Reissued Report**—Issued subsequent to the date of the original report but bearing the same date as the original report, a reissued report may need to be revised and dual-dated for the effects of specific events.

To demonstrate the use of the flowchart, assume that a successor accountant is performing a review of the current year's financial statements. The prior year's financial statements were reviewed by another accountant. The prior year's financial statements had to be corrected because of an error in applying GAAP. The predecessor accountant has refused to correct and reissue the review report. Using the flowchart (following paragraph .11), what course of action should the successor accountant take? The answer is that the successor accountant will have to compile or review the prior year's financial statements, and he or she should not refer to the predecessor accountant in his or her report.

## Knowledge Acquired While Performing Accounting Services

*When SSARS No. 1 refers to "knowledge acquired in performing other accounting services," what does the phrase "may result in modification" mean?*

.13 According to SSARS No. 1 (AR sec. 100.29), knowledge acquired in performing other accounting services (such as providing bookkeeping or data-processing services) may result in the modification of the inquiries and analytical procedures performed in a review engagement. What does "may result in modification" mean?

.14 In a review, the accountant performs inquiries and applies analytical procedures to obtain a reasonable basis for expressing limited assurance on the financial statements. In practice, situations in which the accountant does a pure review are rare. That is, the accountant frequently performs other accounting services and may even compile the client's financial statements prior to performing the review engagement. In those situations, the accountant uses his or her knowledge, gained in the performance of those other services, to modify the inquiries and analytical procedures in areas in which additional evidence is needed to achieve limited assurance. Finally, in situations in which the accountant has compiled the financial statements, Interpretation No. 3 of SSARS No. 1 (AR sec. 9100.06-.12), states that the accountant should only issue the review report—the report appropriate for the highest level of service.

## Applying Analytical Procedures

*What kinds of analytical procedures does the accountant perform and how should they be applied?*

.15 SSARS No. 1 (AR sec. 100.04) states that a review consists of performing inquiry and analytical procedures to provide the accountant with a reasonable basis for expressing limited assurance on the financial statements. What kinds of analytical procedures does the accountant perform and how should those analytical procedures be applied?

.16 SSARS No. 1 (AR sec. 100.27(c)) indicates that analytical procedures consist of the following:

1. Comparison of financial statements with statements for comparable prior period(s)
2. Comparison of the financial statements with budgets and forecasts
3. Study of the relationships of the elements of the financial statements that would be expected to conform to a predictable pattern

Other kinds of analytical procedures may also be used to supplement some of the preceding three types. For example, if available, industry information may be used or relationships to nonfinancial information (for example, sales to square footage of selling space) may be used.

.17 In applying analytical procedures in a review engagement, the accountant may achieve both effectiveness and efficiency by using the following decision approach.

1. Identify immaterial account balances or classes of transactions. Apply no analytical procedures to them if the risk of understatement is low.

2. Identify account balances or classes of transactions in which you have applied significant other accounting services. Consider the evidence that you already have and whether any material errors are likely to remain—do not apply analytical procedures to them.
3. For remaining account balances and classes of transactions, develop expectations (for example, using historical trends adjusted for known changes) for them.
4. Consider how close the existing account balance or class of transactions comes to the expectation developed in item 3. If the results are close, no additional evidence is needed.
5. If the differences are large, material errors could exist. Inquire about valid business reasons for the difference. If results of inquiry are plausible and agree with other evidence, no additional evidence may be needed.
6. If additional evidence is needed, apply other analytical procedures or obtain other suitable evidence.

## Emphasis Paragraphs

*When should an accountant add a paragraph to a compilation or review report to emphasize a matter about the financial statements?*

.18 Footnote 18 of SSARS No. 1 (AR sec. 100) states, “Nothing in this statement . . . is intended to preclude an accountant from emphasizing in a separate paragraph of his or her report a matter regarding the financial statements.” Footnote 18 permits, but never requires, an emphasis paragraph.

.19 Accountants frequently add voluntary emphasis paragraphs to compilation and review reports to call attention to matters disclosed in notes to the financial statements such as going-concern problems, litigation matters, and related-party transactions.

.20 When an accountant decides to add an emphasis paragraph, the following practice guidelines should be followed:

1. Emphasis paragraphs should not introduce new information about the financial statements; they should only highlight or emphasize a matter disclosed in the financial statements.
2. If the financial statements are deficient or do not contain a needed disclosure and the client does not correct the statements, the accountant is required to state, in a separate paragraph of the report, that the financial statements contain a departure from GAAP or OCBOA. This required paragraph differs from a voluntary emphasis paragraph.
3. Emphasis paragraphs should not contain information about the procedures the accountant has performed or has not performed.
4. Emphasis paragraphs should not contain the accountant’s conclusions or opinions.
5. If the accountant decides to add an emphasis paragraph to highlight a going-concern disclosure in the client’s financial statements, the term *substantial doubt* should not be used in that paragraph. (Substantial doubt is an audit-evidence-based concept that should only be used in audit reports.)

## Consulting on Complex Technical and Ethical Question

*Are accountants performing compilation and review engagements required to resolve complex technical and ethical questions through consultation? If consultation is used, should the working papers document the question and conclusion reached?*

.21 SSARS No. 1 (AR sec. 100.10 and 100.25) requires the accountant to possess or obtain a level of knowledge of the accounting principles and practices of the client’s industry. Such knowledge may be ob-

tained, among other ways, by consulting in-firm or outside firm individuals knowledgeable about the industry. Likewise, Statement on Quality Control Standards (SQCS) No. 2, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice* (AICPA, *Professional Standards*, vol. 2, QC sec. 20.19), indicates that accounting firms should establish policies and procedures on consulting, on a timely basis, with individuals within or outside the firm, when appropriate for addressing complex, unusual, or unfamiliar issues. Finally, an interpretation of Rule 201 on general standards of the AICPA's *Code of Professional Conduct* (AICPA, *Professional Standards*, vol. 2, ET sec. 201.02), recognizes that consultation with others may be necessary during the performance of professional services.

.22 A widely used approach that many accountants use when addressing complex technical and ethical questions is to consult with the AICPA's Technical Hotline and the Ethics Hotline (see paragraph .45 for toll free telephone numbers).

.23 Good practice suggests that when consultation takes place and it involves complex technical or ethical questions, it's a good idea to document the following in the compilation or review working papers:

1. Individual(s) consulted
2. Description of question/problem
3. Conclusion reached
4. Firm's position on item 3 above

## A Reminder About Fraud

### *Does SAS No. 82, Consideration of Fraud in a Financial Statement Audit apply to compilation and review engagements?*

.24 In February 1997, the ASB issued SAS No. 82, *Consideration of Fraud in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 316). Because of that standard and renewed emphasis on consideration of fraud in a financial statement audit, accountants frequently raise questions about applying SAS No. 82 in compilation and review engagements.

.25 SAS No. 82 does not apply to compilation and review engagements.<sup>2</sup> However, appendix A, "Review of Financial Statements—Illustrative Inquiries" of SSARS No. 1 (AICPA, *Professional Standards*, vol. 2, AR sec. 100.52), indicates that an accountant in designing inquiries may consider the likelihood of misstatement. Compilation and review performance standards do not require an assessment of the risk of fraud. Nevertheless, according to SSARS No. 1, compilation performance standards (AR sec. 100.12) and review performance standards (AR sec. 100.30) do oblige the accountant to obtain additional or revised information when he or she becomes aware of information that is incorrect, incomplete, or otherwise unsatisfactory. The obligation to investigate questionable information emanates from the responsibility established in the *1136 Tenants' Corp.* case. That is, when suspicion is aroused, the accountant has to pursue the matter.

.26 In *1136 Tenants'*, the courts held the accountant liable to the client, a cooperative apartment corporation, for negligence in failing to detect fraud by the building manager. The court awarded damages of \$174,000, plus interest of \$60,000, less the accountant's counterclaim of \$1,000. The accountant's annual fee was \$600. In short, both SSARS No. 1 and the courts require accountants to investigate incorrect, incomplete, or otherwise unsatisfactory information. Don't put on blinders just because it's not an audit engagement. Investigate suspicious information and circumstances in all compilation and review engagements.

---

<sup>2</sup> One of the changes introduced by SAS No. 82 is the substitution of the word *fraud* for *irregularities*. As a result of that change, editorial changes were made to the *Codification of Statements on Standards for Accounting and Review Services*, specifically to SSARS No. 1, to replace *irregularities* with *fraud*. In that process, the compilation and review engagement letters presented in appendices to SSARS No. 1 were also changed. The *Codification* issued as of January 1, 1998 reflected those changes (AICPA, *Professional Standards*, vol. 2, AR sec. 100.08, 100.53, and 100.54).

## Revision of the Review Representation Letter

*Does the ARSC plan to revise the illustrative review representation letter presented in appendix D of SSARS No. 1 to reflect the issuance of SAS No. 85?*

.27 In November 1997, the ASB issued SAS No. 85, *Management Representations* (AICPA, *Professional Standards*, vol. 1, AU sec. 333), to expand, among other things, the list of specific representations to be obtained that are consistent with current practice and reflect new accounting standards. Does the ARSC plan to revise the illustrative review representation letter presented in appendix D of SSARS No. 1 (AR sec. 100.55)?

.28 Yes, ARSC has proposed certain updates to the illustrative representation letter to reflect recently issued accounting standards. The revisions will be treated as editorial changes (exposure is not required) to SSARS No. 1 and will become effective upon issuance. The revision should be available by year-end and will be announced in the *CPA Letter*.

## The Year 2000 Issue—Time Is Running Out

*What responsibility do accountants have for the year 2000 issue in compilation and review engagements? What year 2000 issue accounting guidance is available to help accountants follow GAAP in compiled or reviewed financial statements?*

.29 On January 1, 2000, at 12:00 a.m., some computer systems may begin to deliver wrong answers on date calculations. In fact, applications that use future dates may fail before January 1, 2000. The reason is that date calculations for many computer programs use two digits instead of four to represent years, such as 98 instead of 1998, to conserve what once was very expensive computer memory. In these programs, the year 2000 will be represented as 00. Some computer systems may recognize 00 as 1900 and not 2000.

.30 Another problem with many systems is that they have been programmed to recognize the year 99 to mean something other than the date. Thus, those systems may not function or they may produce incorrect information. Finally, another year 2000 problem is that the year 2000 is a leap year and some systems may not recognize the extra day.

.31 Year 2000 problems affect entity information systems that produce financial statements and operating systems such as production, security, and telephone systems. Even if a given client is year 2000 ready, that entity may still be at risk because of supplier, customer, and service entities that are not year 2000 ready. The year 2000 issue was addressed in last year's *Compilation and Review Alert—1997/98*. It remains the case that accountants have no responsibility when performing compilation and reviews to detect a client's year 2000 problems. Nevertheless, if the accountant becomes aware of financial statement information that is inaccurate, incomplete, or misleading, he or she must obtain revised or additional information without regard to its cause.

.32 To make sure that clients understand that a compilation or review engagement is not designed to detect whether an entity's information system is year 2000 ready, we suggested last year that the following be included in all compilation and review engagement letters.

.33 A compilation (review) of financial statements conducted in accordance with SSARSs is not designed to detect whether an entity's information systems are year 2000 ready. However, we may choose to communicate matters that come to our attention relating to the year 2000 issue for the benefit of management.

.34 The AICPA has issued nonauthoritative guidance relating to year 2000, available free of charge on the AICPA's Web site at <http://www.aicpa.org>. This document summarizes the applicable accounting and disclosure guidance, including EITF Issue No. 96-14, *Accounting for the Costs Associated with Modifying Computer Software for the Year 2000*.

.35 EITF No. 96-14 indicates that internal and external costs associated with modifying existing internal-use hardware and software for year 2000 should be expensed as incurred. The costs should not be accrued or capitalized. Nevertheless, costs to replace existing systems with new systems that are year 2000 ready should be capitalized and written off over their estimated useful lives.

.36 If an entity voluntarily includes disclosures (for example, total costs incurred to date, total projected costs, and estimated date of completion) about year 2000 in notes to its financial statements, what responsibility does an accountant have for those items in a compiled or reviewed financial statement? The disclosures ordinarily should not be reviewed because of the difficulty of applying inquiry and analytical procedures to such information. The information could usually be compiled, but an alternative course of action is to recommend to the client that the information be presented as client-prepared supplementary information that is not compiled or reviewed. Under no circumstances should the disclosure, without regard to its location, state that the entity is year 2000 ready. Given all of the software and hardware applications related to accounting, operations, and compliance, it is very difficult to be certain that all systems are year 2000 ready.

.37 What responsibility does an accountant have for year 2000 matters in a compilation or review engagement that may cause the entity to have going-concern problems? According to Interpretation No. 11, "Reporting on Uncertainties," of SSARS No. 1 (AICPA, *Professional Standards*, vol. 2, AR sec. 100.33–40), the accountant's responsibility is to review the adequacy of disclosure about the going-concern problems. In evaluating the disclosure, the accountant is obligated to look to the guidance in paragraphs 10 and 11 of SAS No. 59, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern* (AICPA, *Professional Standards*, vol. 1, AU sec. 341.10 and .11). Year 2000 problems could cause conditions and events of the kind that might cause the entity to have a going-concern problem. The accountant may, but is not required to, read a June 1998 Auditing Interpretation No. 2 of SAS No. 59, "Effect of the Year 2000 Issue on the Auditor's Consideration of an Entity's Ability to Continue as a Going Concern," issued by the ASB. The Interpretation provides examples of conditions and events caused by year 2000 (such as, revenue losses due to manufacturing equipment that is not year 2000 ready and year 2000 remediation costs in excess of available resources). These examples may be useful in helping an accountant evaluate going concern disclosures in compiled or reviewed financial statements.

## Disclosures in Cash- and Income Tax-Basis Financial Statements—A Reminder

*Are accountants required to consider GAAP disclosures in reporting on compiled or reviewed cash- and income tax-basis financial statements?*

.38 As discussed in the *Compilation and Review Alert—1997/98*, Interpretation No. 14, "Evaluating the Adequacy of Disclosure in Financial Statements Prepared on the Cash, Modified Cash, or Income Tax-Basis of Accounting" of SAS No. 62, *Special Reports* (AICPA, *Professional Standards*, vol. 1, AU sec. 9623.88–.93), issued in January 1998, applies to compiled or reviewed cash- and income tax-basis financial statements. It states that if these financial statements have items for which GAAP would require disclosure, the statements should provide either the disclosure that would be required by GAAP or information that communicates the substance of that disclosure. The bottom line is that accountants have to know GAAP and what GAAP disclosures are to properly compile or review financial statements.

.39 This Interpretation will significantly affect many accountants who believed that accounting standards were developed solely for GAAP financial statements; therefore, GAAP standards do not apply to cash- and tax-basis financial statements. The debate is over. The guidance in SAS No. 62, *Special Reports* (AICPA, *Professional Standards*, vol. 1, AU sec. 623.10), has been clarified by Interpretation No. 14 to clearly state that cash- and tax-basis financial statements are required to have similar disclosure, although qualitative disclosures may be substituted for some quantitative GAAP disclosures. For example, disclosing estimated percentages of total revenues, rather than amounts, may convey the significance of certain related-party transactions. Given this clarification for those accountants who practiced otherwise, the best course of action is to study Interpretation No. 14 and consider the use of disclosure checklists modified when appropriate for cash- and income tax-basis financial statements. The AICPA also has published a new 1998 edition of a non-

authoritative book, *Preparing and Reporting on Cash-and Tax-Basis Financial Statements* (Product No. 006701). The new edition provides guidance on preparing and reporting on cash-and tax-basis financial statements, example financial statements, disclosures, and other practice aids.

## The GAAP Hierarchy for Compiled and Reviewed Financial Statements

*What publications are included in the hierarchy of “must-know”  
GAAP for accountants performing compilations and reviews?*

.40 Although there are different reporting and performance standards for compilation, review, and audit engagements, GAAP for compiled and reviewed financial statements are the same as those for audited financial statements. Footnote 3 of SSARS No. 1 (AR sec. 100.14) states that the GAAP hierarchy presented in SAS No. 69, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles in the Independent Auditor’s Report* (AICPA, *Professional Standards*, vol. 1, AU sec. 411), is also applicable to compilations and reviews of financial statements performed under SSARSs.

.41 An exception to that rule is found in SSARS No. 1, which permits an accountant to compile financial statements that omit substantially all the disclosures required by GAAP (or OCBOA). If the accountant compiles such financial statements, he or she issues a special compilation report to alert readers to the fact that the disclosures have been omitted. An accountant is not permitted to review financial statements that omit substantially all the disclosures required by GAAP.

.42 Because several standard-setting bodies establish GAAP, there is no single publication that contains all the GAAP pronouncements. Each of the following publications contains certain pronouncements included in the GAAP hierarchy (that is, the “must-know” GAAP).

- *FASB Original Pronouncements—Accounting Standards*, a two-volume set, contains the original text of accounting pronouncements. It includes FASB Statements of Financial Accounting Standards and Interpretations, Accounting Principles Board Opinions, AICPA Accounting Research Bulletins, FASB Technical Bulletins, and AICPA Accounting Interpretations. The pronouncements are arranged chronologically and the text includes a topical index (available from the AICPA).
- *AICPA Technical Practice Aids* includes all Statements of Position and Practice Bulletins issued by the AcSEC. This publication also contains a selection of nonauthoritative audit, review, compilation, and accounting questions answered by the AICPA’s Technical Information Service (available from the AICPA).
- *FASB Emerging Issues Task Force Abstracts* contain a summary of the proceedings of the FASB’s EITF. Each abstract summarizes the accounting issues involved and the results of the discussion, including any consensus reached on the issue (available from the FASB).
- *FASB Implementation Guides (Qs and As)* are published by the FASB staff and provide guidance, in the form of questions and answers, on the implementation of certain FASB Statements (available from the FASB).
- Practitioners who compile or review the financial statements of state and local governmental entities should supplement their professional libraries with the *Codification of Governmental Accounting and Financial Reporting Standards*. This text contains current authoritative accounting and financial reporting standards for state and local governmental entities. GASB Statements, Interpretations, and Technical Bulletins are included (available from the GASB).
- *AICPA Audit and Accounting Guides* summarize the practices applicable to specific industries and describe accounting principles and audit procedures unique to these industries. The accounting guidance included in AICPA Audit and Accounting Guides is in the GAAP hierarchy as authoritative GAAP. When an accountant compiles or reviews the financial statements of an entity, SSARS No. 1 requires that the accountant have or acquire a level of knowledge of the accounting principles and practices of the industry in which the entity operates. Although the audit guidance included in the Audit and Accounting Guides may not be relevant to practitioners performing compilation and

review engagements, the industry background, accounting guidance, and illustrative financial statements that are provided should help accountants acquire knowledge of a specific industry. The following industry Audit and Accounting Guides are available from the AICPA (product numbers are shown in parentheses):

- Agricultural Producers and Cooperatives (012353)
- Airlines (013182)
- Banks and Savings Institutions (011177)
- Brokers and Dealers in Securities (012180)
- Casinos (013149)
- Colleges and Universities<sup>3</sup> (013323)
- Common Interest Realty Associations (CIRAs) (This Audit and Accounting Guide contains a chapter on compilations and reviews of CIRAs.) (012487)
- Construction Contractors (012095)
- Credit Unions (012058)
- Employee Benefit Plans (012338)
- Entities With Oil and Gas Producing Activities (012105)
- Federal Government Contractors (012437)
- Finance Companies (012465)
- Health Care Organizations (012438)
- Investment Companies (012362)
- Not-for-Profit Organizations (013391)
- Property and Liability Insurance Companies (011921)
- State and Local Governmental Units (012057)
- Voluntary Health and Welfare Organizations<sup>3</sup> (012158)

The following general Audit and Accounting Guides also may be of interest to CPAs performing compilation and review engagements:

- Personal Financial Statements (011135)
- Use of Real Estate Appraisal Information (013159)

## Recent GAAP Pronouncements

*What new GAAP pronouncements have been published since October 1997 (publication of last year's Compilation and Review Alert)?*

.43 New publications from the FASB include Statements, Technical Bulletins, and Emerging Issue Consensus Positions, which are listed in the following:

- FASB Statement No. 132, *Employers' Disclosures about Pensions and Other Postretirement Benefits, an amendment of FASB Statements No. 87, 88, and 106* (February 1998).

---

<sup>3</sup> Use of these Guides is limited to certain governmental units accounted for under Statements on Governmental Accounting Standards No. 15, *Governmental College and University Accounting and Financial Reporting Models* and No. 29, *The Use of Not-For-Profit Accounting and Financial Reporting Principles by Governmental Entities*.

- FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities* (June 1998).
- FASB Statement No. 134, *Accounting for Mortgage-Backed Securities Retained after the Securitization of Mortgage Loans Held for Sale by a Mortgage Banking Enterprise*, an amendment of FASB Statement No. 65 (October 1998).
- FASB Technical Bulletin No. 97-1, *Accounting Under Statement 123 for Certain Employee Stock Purchase Plans with a Look-Back Option* (December 1997).

## EITF CONSENSUS POSITIONS

EITF Issue No.	Description	Date of Consensus/Status
96-19	<i>Debtor's Accounting for a Substantive Modification and Exchange of Debt Instruments</i>	Implementation guidelines added July 23, 1998
97-2	<i>Application of APB 16 and SFAS 94 to physician's practice entities</i>	Consensus reached November 20, 1997
97-5	<i>Accounting for the Delayed Receipt of Option Shares Upon Exercise Under APB Opinion No. 25, Accounting for Stock Issued to Employees</i>	FASB Staff Announcement July 23-24, 1997
97-8	<i>Accounting for Contingent Consideration Issued in a Purchase Business Combination</i>	Consensus reached July, 1997
97-9	<i>Effect on Pooling-of-Interests Accounting of Certain Contingently Exercisable Options or Other Equity Instruments</i>	Consensus reached September 18, 1997
97-10	<i>The Effect of Lessee Involvement in Asset Construction</i>	Consensus reached May 21, 1998. (Changes made to consensus July 23, 1998)
97-11	<i>Accounting for Internal Costs Relating to Real Estate Property Acquisitions</i>	Consensus reached March 18, 1998
97-12	<i>Accounting for Increased Share Authorization in an IRS Section 423 Employee Stock Purchase Plan under APB Opinion No. 25, Accounting for Stock Issued to Employees</i>	Consensus reached September 18, 1997
97-13	<i>Accounting for Costs Incurred in Connection with a Consulting Contract or an Internal Project That Combines Business Process Reengineering and Information Technology Transformation</i>	Consensus reached November 20, 1997
97-14	<i>Accounting for Deferred Compensation Arrangements Where Amounts Earned Are Held in a Rabbi Trust and Invested</i>	Consensus reached May 21, 1998; Consensus reached on transition July 23, 1998.
97-15	<i>Accounting for Contingency Arrangements Based on Security Prices in a Purchase Business Combination</i>	Consensus reached March 18-19, 1998
98-1	<i>Valuation of Debt Assumed in a Purchase Business Combination</i>	Consensus reached March 18-19, 1998
98-2	<i>Accounting by a Subsidiary for an Investment in Its Parent Company's Stock</i>	No consensus reached. Further discussion expected.

EITF Issue No.	Description	Date of Consensus/Status
98-3	<i>Determining Whether a Transaction Is an Exchange of Similar Productive Assets or a Business Combination</i>	Further discussion planned March 18-19, 1998.
98-4	<i>Accounting by a Joint Venture for Businesses Received at Its Formation</i>	Further discussion planned March 18-19, 1998.
98-5	<i>Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios</i>	September 23-24, 1998 discussed but not asked to reach a consensus. Further discussion planned.
98-6	<i>Investor's Accounting For an Investment in a Limited Partnership Investment When The Investor Is The General Partner and the Limited Partners Have Certain Approval Or Veto Rights</i>	September 23-24, 1998. Further discussion planned.
98-7	<i>Accounting for Exchanges of Similar Equity Method Investments</i>	Consensus reached May 21, 1998.
98-8	<i>Accounting for Transfers of Investments that Are in Substance Real Estate</i>	Consensus reached May 21, 1998.
98-9	<i>Accounting for Contingent Rent in Interim Financial Periods</i>	September 23-24, 1998. Prior consensus on lessee accounting withdrawn, new consensus reached. Further discussion planned.
98-10	<i>Accounting for Energy Trading and Risk Management Activities</i>	September 23-24, 1998. Further discussion planned.
98-11	<i>Accounting For Acquired Temporary Differences In Certain Purchase Transactions That Are Not Accounted For As Business Combinations</i>	Consensus reached on one issue September 23, 1998. Further discussion planned.
98-12	<i>Application of EITF Issue No. 96-13, "Accounting For Derivative Financial Instruments Indexed To, and Potentially Settled In, A Company's Own Stock, To Certain Derivative Financial Instruments Issued with Other Instruments.</i>	September 23-24, 1998. Further discussion planned.
98-13	<i>Accounting by an Equity Method Investor for Investee Losses When the Investor Has Loans to and Investments in Other Securities of the Investee</i>	September 23-24, 1998. Further discussion planned.
98-14	<i>Debtor's Accounting for Changes in Line-of-Credit or Revolving-Debt Arrangements</i>	September 23-24, 1998. Further discussion planned.

**.44 New Statements of Position from the AICPA:<sup>4</sup>**

- SOP 97-2, *Software Revenue Recognition* (October 1997).
- SOP 97-3, *Accounting by Insurance and Other Enterprises for Insurance-Related Assessments* (December 1997).

<sup>4</sup> SOPs 98-3, *Audits of States, Local Governments, and Not-for-Profit Organizations Receiving Federal Awards*, 98-6, *Reporting on Management's Assessment Pursuant to the Life Insurance Ethical Market Conduct Program of the Insurance Marketplace Standards Association*, and 98-8, *Engagements to Perform Year 2000 Agreed-Upon Procedures Attestation Engagements Pursuant to Rule 17a-5 of the Securities Exchange Act of 1934; Rule 17Ad-18 of the Securities Exchange Act of 1934; and Advisories No. 17-98 and No. 42-98 of the Commodity Futures Trading Commission*, are auditing pronouncements and are excluded.

- SOP 98-1, *Accounting for the Costs of Computer Software Developed or Obtained for Internal Use* (March 1998).
- SOP 98-2, *Accounting for Costs of Activities of Not-for-Profit Organizations and State and Local Governmental Entities That Include Fund Raising* (March 1998).
- SOP 98-4, *Deferral of the Effective Date of a Provision of SOP 97-2, Software Revenue Recognition* (March 1998).
- SOP 98-5, *Reporting on the Costs of Start-Up Activities* (April 1998).
- SOP 98-7, *Deposit Accounting: Accounting for Insurance and Reinsurance Contracts That Do Not Transfer Insurance Risk*

## AICPA Services and Publications

*How do I obtain AICPA publications related to my compilation and review practice?*

.45 To order AICPA products, call (888) 777-7077 (menu selection #1); write AICPA Order Department, CLA 10, P.O. Box 2209, Jersey City, NJ 07303-2209; fax (800) 362-5066. Prices do not include shipping and handling. The best times to call are 8:30 to 11:30 A.M. and 2:00 to 7:30 P.M., EST. Obtaining product information and placing online orders can be done at the AICPA's Web site <http://www.aicpa.org>.

*Who do you consult with at the AICPA if you have a complex technical or ethics question related to compilation or review practice?*

- Accounting and Auditing Technical Hotline. The AICPA Technical Hotline answers members' inquiries about compilation and review services. Call (888) 777-7077.
- Ethics Hotline. Members of the AICPA's Professional Ethics Team answer inquiries concerning independence and other behavioral issues related to the application of the AICPA Code of Professional Conduct. Call (888) 777-7077.

.46 What's a good way to stay current on developments in the compilation and review arena? The AICPA has a home page on the World Wide Web. "AICPA Online," the Web site (URL or uniform resource locator: <http://www.aicpa.org>), offers CPAs the unique opportunity to stay abreast of developments in compilation, review, and accounting. The home page is updated daily. The Web site includes "In Our Opinion," the newsletter of the AICPA Audit and Attest Standards Team. The newsletter includes information on technical activities and developments in compilation and review matters. The Web site also includes highlights of ARSC meetings.

.47 What's a good source for keeping up with authoritative pronouncements that affect compilation and review engagements? Practitioners Publishing Company (PPC) and the AICPA currently offer a CD-ROM disk, *The Practitioner's Library—Accounting and Auditing*. Publications issued by PPC, the AICPA, and the FASB are included in *The Practitioner's Library*. The disk contains the following publications issued by the FASB: *Original Pronouncements*, *Current Text*, *Emerging Issues Task Force Abstracts*, and *FASB Implementation Guides*; and the following publications issued by the AICPA: *Professional Standards* (which includes all of the SSARs and their interpretations), *Technical Practice Aids*, *Audit and Accounting Guides*, and the *Peer Review Program Manual*. The disk also contains eighteen PPC engagement manuals. The disk may be customized so that purchasers pay for and receive only selected segments of the material. For more information about this product call (888) 777-7077.

.48 Are there other AICPA publications that cover compilation and review engagements that may be useful? The following AICPA publications include guidance relevant to compilation and review engagements (product numbers are shown in parentheses):

- *Audit and Accounting Manual* (007259)—The manual is designed to provide assistance for audit, review, and compilation engagements. It contains numerous practice aids, samples, and illustrations.
- *Financial Statement Preparation Manual/Disclosure Checklists* (G01027)—The manual is a loose-leaf service of nineteen disclosure checklists and sample financial statements for various industries that is updated quarterly to reflect the issuance of new authoritative guidance. The checklists are the individual paperback versions that are generated from the loose-leaf and published annually.

## New CPE Course on Compilation and Review

*What is the best CPE course for getting a basic understanding of SSARS Nos. 1 to 7 or introducing new staff accountants and paraprofessionals to those standards?*

.49 During the four years of extensive discussions, debates, comment letters, and public hearings about the assembly exposure draft and the applicability of the SSARS (see the second section of this Compilation and Review Alert), one item emerged that everyone agreed on—the need for additional education about compilation and review standards.

.50 Quite frankly, a number of individuals writing comment letters or participating in the discussions and debates on the assembly exposure draft demonstrated a significant misunderstanding about the fundamental requirements of the existing standards—what's required and what's not. Consequently, one of the things that the AICPA promised to do was to develop a new CPE course for self-study and for group study on the compilation and review standards. That has been done and the course is in production. Starting with the 1999 CPE year, the AICPA will be offering a new *Introduction to Compilation and Review Engagements*, written by Dan M. Guy, the former Vice President at the Institute in charge of compilation and review standards.

.51 The *Compilation and Review Alert*—1998/99 is published annually. As you encounter problems in performing compilation and review engagements, please share those with us so that next year's Compilation and Review Alert will be even better. You may email these comments to [dmguy@worldnet.att.net](mailto:dmguy@worldnet.att.net) or write to:

## Appendix B

### Test Your Knowledge

For the questions and statements shown below, indicate whether the statement is true or false or select the correct answer for multiple choice questions.

- \_\_\_\_\_ 1. SSARS No. 1 permits a paraprofessional to perform the compilation engagement, but the paraprofessional should not issue the compilation report.
- \_\_\_\_\_ 2. Which of the following is not a specific exemption from certain aspects of SSARS No. 1?
  - a. Litigation support services
  - b. Tax returns
  - c. Financial statements in a consulting engagement
  - d. Certain prescribed forms
- \_\_\_\_\_ 3. An accountant is required to do a review only when engaged to do so.
- \_\_\_\_\_ 4. Although working papers are not required in a compilation engagement, which of the following items would least likely be included in compilation engagement working papers?
  - a. Representation letter
  - b. Engagement letter
  - c. Resolution of questionable items
  - d. Bridging trial balance
- \_\_\_\_\_ 5. GAAP disclosure checklists are more commonly used in compilation engagements than in review engagements.
- \_\_\_\_\_ 6. A successor accountant is required to communicate with the predecessor accountant before accepting an engagement to review the current year's financial statements.
- \_\_\_\_\_ 7. A continuing accountant is required to update his or her report on comparative financial statements (years 1998/1999).
- \_\_\_\_\_ 8. An accountant who performs bookkeeping services for a client followed by a review engagement cannot consider evidence generated from the bookkeeping work as evidence to support the review report.
- \_\_\_\_\_ 9. If a client has a going-concern problem, the accountant's compilation or review report must call attention to the problem by the addition of an emphasis paragraph.
- \_\_\_\_\_ 10. SSARS No. 1, under certain circumstances requires consultation to resolve complex and material technical issues.
- \_\_\_\_\_ 11. SAS No. 82, *Consideration of Fraud in a Financial Statement Audit*, does not apply to compilation or review engagements.
- \_\_\_\_\_ 12. An accountant has a responsibility to detect a client's Y2K problem in a review engagement, but not a compilation engagement.
- \_\_\_\_\_ 13. In preparing modified cash financial statements that are compiled, the accountant should be familiar with and consider GAAP disclosures where applicable.

- \_\_\_\_\_ 14. The GAAP hierarchy for compiled and reviewed financial statements is the same as for audited financial statements.
- \_\_\_\_\_ 15. An AICPA audit and accounting guide addressing a specialized industry may be useful to an accountant compiling or reviewing financial statements in that industry but is not part of the GAAP hierarchy.

**Answers to Test Your Knowledge:**

1. False, the paraprofessional may also issue the report. 2. c 3. True 4. a 5. False 6. False 7. True 8. False 9. False, the accountant may elect to do so. 10. False 11. True 12. False 13. True 14. True 15. False

# AAM Section 8030

## *Health Care Industry Developments—1998/99*

### In This Year's Alert . . .

- What are the industry and economic conditions facing health care organizations in the current year?
- What significant regulatory and legislative initiatives should auditors of health care organizations be aware of?
- What are some of the adverse consequences facing health care organizations that do not have an effective compliance program?
- How do the amendments to the Single Audit Act affect audits of federal awards?
- What are the current tax issues that may affect audits of health care organizations?
- What are the significant provisions of the Balanced Budget Act of 1997 that will affect health care organizations in the current year?
- How will the new SOP 98-3 assist auditors in performing audits of federal awards?
- What effect do the allegations of violations of laws and regulations in the health care industry have on this year's audits?
- Can obligated group financial statements be included in a public offering?
- What is the Year 2000 Issue? How will it affect health care organizations?
- What are the recently issued auditing and accounting pronouncements affecting health care organizations?
- What are some issues of concern this year for health care organizations subject to SEC regulations?
- What other AICPA publications can be of value to auditors of health care organizations?

\* \* \* \*

### Industry and Economic Developments

*What are the industry and economic conditions facing  
health care organizations in the current year?*

.01 The demand for health care services continues to trend upward in 1998 due largely to the baby-boom generation. As this population segment ages, driving up the average age of the American people as a whole, and as the number of people with chronic conditions grows, overall health care spending will continue to climb.

.02 Despite increasing demand, however, health care organizations are feeling pressure from the bill-payers—predominantly employers, third-party payers, and the government—for more efficiency in a system with too much capacity and too few productivity improvements. The federal government is aggressively pursuing health care cost savings, in large part to balance the federal budget. More private-market

approaches are being adopted, and greater resources are being allocated to the ongoing crackdown on fraud, waste, and abuse in governmental health care programs. The impact on auditors of efforts to uncover fraud in governmental programs is addressed in this Audit Risk Alert, in the Regulatory, Legislative, and Other Developments section, under Governmental Investigations Relating to Fraud and Abuse Violations.

.03 Managed care plans are also feeling pressure for more efficiency, reduced utilization, better quality measures, and increased choice to recipients. In an effort to maintain and grow market share in recent years, managed care plans did not increase premiums sufficiently to cover significant cost increases. As a result, many managed care plans, both regional and national, now find themselves operating at losses and have a need to increase premiums substantially, against significant employer resistance. Further, many state governments, which have shifted to Medicaid managed care, have begun to curtail funding. Consequently, many managed care plans that rely substantially on Medicaid enrollment are suffering significant operating losses, while others are curtailing Medicaid managed care growth initiatives. Auditors should consider whether such circumstances raise going-concern issues or suggest the presence of fraud risk factors.

.04 Consumers are becoming more demanding for greater responsiveness from health care organizations while also having higher expectations of service. Quality of service is therefore more likely to take the center stage as health care organizations seek a competitive advantage by investing more in the measures and standards of quality. Consumers' desire for greater choice and availability will also grow.

.05 Thus, health care organizations increasingly find themselves caught between the cost-conscious major purchasers of health care services on the one hand, and service-conscious individual consumers on the other. One of the means through which organizations are achieving the dual objectives of cutting health care costs and increasing the quality of services provided is by combining resources. The numbers of independent hospitals and physicians continue to diminish, as most of them join organizations that have greater power to negotiate prices. Undercapitalized physician groups are being forced increasingly to align with hospital systems or physician practice management companies (PPMs) (the exceptions are large multi-specialty groups with a strong primary care physician base). As a result, most industry sectors, including both for-profit and not-for-profit entities, are consolidating. This trend points to continuing concentration in an industry increasingly dominated by large and capital-intensive providers.

.06 The number of mergers and acquisitions announced last year rose by nearly 19 percent, but this was a slower rate than the prior year. That deceleration will likely continue in the near term, as recently acquired health care organizations and facilities are assimilated. Nevertheless, as long as the average hospital is filling just 60 percent of its beds, merger pressure will continue. As health care gradually shifts from more costly settings to home and noninstitutional care, the drive to reduce capacity is also prompting consolidation in nursing homes, assisted-living centers, providers of home health care, and other lower-cost alternatives to hospital beds. The movement of large, well-capitalized providers into these traditionally fragmented industry segments underlies the consolidation trend. Investor-owned physician management companies, which continue to grow in number, are also choosing to consolidate. A comprehensive discussion of the auditing and accounting issues that arise out of the business combinations is addressed in the AICPA *Audit Risk Alert—1998/99* [AAM section 8010].

.07 With consolidation comes dramatic change in the structure of an entity. In an effort to create greater cost efficiencies, departments are combined and duplicate functions are eliminated. Auditors should consider the impact of such changes on their client's internal control. Statement on Auditing Standards (SAS) No. 55, *Consideration of Internal Control in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 319), outlines the auditor's responsibilities with regard to considering a client's internal control in planning and performing an audit. In addition, auditors should consider whether management has appropriately accounted for the consolidation. For example, goodwill arising in purchase transactions may be an especially judgmental area and is therefore likely to require close scrutiny. The issue of goodwill as it relates to entities reporting to the Securities and Exchange Commission (SEC) is addressed in the Accounting Issues and Developments section of this Alert.

.08 Competitive forces are strong within the industry and are particularly a threat to smaller, local health care organizations. Many health care enterprises are regional and national, with major players capable of moving into new markets within a very short time frame. Market segments unheard of just a few years ago, such as physician practice management, get major infusions of Wall Street capital and become forces to reckon with overnight. Changes in policy emphasis from Washington create new forms of competition, such as Medicare and Medicaid managed care. Auditors should consider the effect of such competitive forces on their client's ability to continue as a going concern. SAS No. 59, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern* (AICPA, *Professional Standards*, vol. 1, AU sec. 341), provides guidance to the auditor in conducting an audit in accordance with generally accepted auditing standards (GAAS) with respect to evaluating whether there is substantial doubt about an entity's ability to continue as a going concern.

.09 In the past, concentrations of credit risks for many health care organizations have generally been confined to the amount of business or receivables outstanding with governmental payers (Medicare and Medicaid). In recent years, however, many governmental payers have turned to private managed care plans for health care services. As a result, governmental payers no longer make up the majority of receivables of some health care organizations. These organizations may now find that a significant amount of their business activity or receivables relies on potentially insolvent organizations, such as managed care plans that are suffering operating losses. In addition, certain managed care plans may have a concentration of significant business activity with major employers of a community, state government, or both through the Medicaid managed care initiatives of that state. In certain states, many Medicaid-reliant managed care plans find themselves operating at significant losses due in large part to reduced state government funding of Medicaid managed care premiums. In such circumstances, auditors should consider whether a health care organization's management has followed the guidance in Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 105, *Disclosure of Information about Financial Instruments with Off-Balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk* (FASB, *Current Text*, vol. 1, sec. F25), to ensure that appropriate disclosures have been made regarding credit risk concentrations.

.10 Health care organizations are increasingly shifting their attention to the essentials of information technology, placing more emphasis on, and investment in, basic information technology infrastructure. Among the top priorities include the computerization of patient records, and as consumers demand more health care information, doctors, hospitals, and health plans are becoming more active in relaying that information to consumers, especially through the Internet. As a result, auditors of health care organizations are increasingly likely to be confronted with evaluating evidential matter that may exist only in an electronic format. Traditional source documents are increasingly being replaced by electronic communications between the audit client and its patients and vendors. SAS No. 31, *Evidential Matter* (AICPA, *Professional Standards*, vol. 1, AU sec. 326), provides guidance to auditors who have been engaged to audit the financial statements of an entity that transmits, processes, maintains, or accesses significant information electronically.

#### **Executive Summary—Industry and Economic Developments**

- The demand for health care services continues to trend upward; however, health care organizations are feeling pressure from bill payers for more efficiency in a system burdened by excess capacity and minimal productivity improvements.
- To meet consumer demands, health care organizations are striving to cut costs and increase quality by combining resources. Thus, industry mergers and acquisitions continue in the current year, though at a slower rate than previous years.
- Competitive forces within the industry remain strong, and may call into question some entities' ability to continue as a going concern. In such circumstances, auditors should be aware of their responsibilities pursuant to SAS No. 59, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.
- Health care organizations are increasingly placing more emphasis on, and investment in, basic information technology infrastructure. As such, auditors should be familiar with the guidance set forth in SAS No. 31, *Evidential Matter*.

## Regulatory, Legislative, and Other Developments

*What significant regulatory and legislative initiatives should auditors of health care organizations be aware of?*

### Governmental Investigations Relating to Fraud and Abuse Violations

.11 The federal government and many states have aggressively increased enforcement efforts under Medicare and Medicaid antifraud and abuse legislation. Thus far, those efforts have achieved significant success. For example, in fiscal 1997 alone, the Health and Human Services Office of Inspector General (OIG) reported \$1.2 billion in recoveries. As such, these enforcement efforts appear likely to increase during 1998 and beyond.

.12 Laws addressing false claims for payments under a federal health care program (including Medicare and Medicaid) and applications of the civil False Claims Act to such claims are exposing health care organizations to potential civil penalties ranging from \$5,000 to \$10,000 per false claim and treble damages. A whistle-blower statute that rewards private parties for false-claim identification has spurred enforcement activity and increased provider risk. Recent broad interpretations of these statutes by federal enforcement agencies and whistle-blowers are exposing billing violations and unlawful remuneration arrangements to scrutiny and penalty consideration as potential false claims. In addition, the government has recently begun to investigate managed care plans for denying medically necessary care.

.13 Similarly, as a result of recent legislative changes criminalizing false statements made in connection with private health care benefits, fraud against private insurers and self-insured employers can now be more easily prosecuted by government authorities. Meanwhile, private insurers are apparently increasing their own efforts to detect fraudulent activities (including false claims and kickbacks) and recoup related reimbursements, sometimes based on the Racketeer Influenced and Corrupt Organizations (RICO) law.

.14 Although government investigations may focus on a broad range of practices, the OIG has indicated that the following areas are of special concern:

- Assignment of inappropriate Diagnosis-Related Groupings (DRGs), for example, related to pneumonia
- Billing for items and services not rendered, and providing medically unnecessary services
- "Upcoding," or using a code that provides for higher payment than what reflects the service actually provided
- Claims for outpatient services that should have been considered part of an inpatient stay
- Teaching hospitals' practices of billing for services actually performed by interns and residents (Physicians At Teaching Hospitals or [PATH] initiative)
- Duplicate billing (more than one claim for the same service or filing claims with multiple primary payers), false cost reports (particularly, home health agencies and other providers continuing to be cost reimbursed), unbundling (fragmenting what is considered a single service—for example, a lab test—to increase reimbursement), and billing for a patient discharge rather than a transfer
- Patients' freedom of choice, particularly related to discharge planning activities
- Failure to refund credit balances
- Hospital incentives that violate the antikickback statutes or other similar federal or state laws (including excessive payments to physicians for services or for their medical practices)
- Joint ventures or other financial arrangements between hospitals and hospital-based physicians

- The Limitations on Certain Physician Referrals law, also known as the Stark physician self-referral law (see the Stark II Issues section of this Audit Risk Alert for more information)
- A knowing failure to provide covered services or necessary care to a member of a health maintenance organization (HMO)
- Patient dumping

The Balanced Budget Act of 1997 (BBA), as described in the New Issues discussion later in this section, did not make fundamental changes to the fraud and abuse laws to the same extent as the previous year's Health Insurance Portability and Accountability Act. However, the BBA provides for imposition of a civil money penalty of \$50,000 and damages of up to three times the amount of money involved against an entity that: (1) arranges or contracts with an individual or entity that it knows or should know has been excluded from a federal health care program; or (2) violates the antikickback provision of the Medicare and Medicaid statute.

.15 This heightened enforcement activity should remind auditors of their professional responsibilities pursuant to SAS No. 54, *Illegal Acts by Clients* (AICPA, *Professional Standards*, vol. 1, AU sec. 317), in planning and performing their audits of health care organizations. The discussion titled Fraud and Abuse in the Health Care Industry in the Audit Issues and Developments section of this Audit Risk Alert has additional information.

## Corporate Compliance

*What are some of the adverse consequences facing health care organizations that do not have an effective compliance program?*

.16 Government enforcement activities such as those discussed in previous sections have brought corporate compliance to the planning forefront for many health care organizations. The formal adoption of a corporate compliance program can assist a health care organization in avoiding unlawful activities, detecting such activities before significant potential damages are incurred, and establishing that any unlawful activities in which it was engaged were inadvertent. A written corporate compliance program should consist of procedures and controls to prevent, detect, and correct wrongdoing within an organization based on the standards included in the Federal Sentencing Guidelines. Potential adverse consequences to health care organizations of not having an effective compliance program include the following:

- Probation and court-imposed program
- Government-designed integrity program
- Fines in amounts sufficient to divest the organization of all its net assets
- Exclusion from Medicare, Medicaid, or both
- Civil liability

In addition, it is of interest to note that a recent court ruling suggests that, in certain instances, a health care entity's board of directors may have breached its fiduciary duty by not considering the adoption of a compliance plan.

.17 Corporate compliance programs are an integral part of an organization's internal control. SAS No. 55, *Consideration of Internal Control in a Financial Statement Audit*, explains how an independent auditor should consider internal control in planning and performing an audit. Auditors may wish to consider communicating with the client's board of directors or committee thereof about the organization's activities or plans regarding corporate compliance. If an organization does not have an effective corporate compliance program, the auditor should determine whether this represents a reportable condition to be reported to the audit committee. SAS No. 60, *Communication of Internal Control Related Matters Noted in an Audit* (AICPA, *Professional*

*Standards*, vol. 1, AU sec. 325), provides guidance in identifying and reporting conditions related to an entity's internal control that are observed during a financial statement audit.

### ***Guidance for Corporate Compliance***

.18 The OIG recently issued *Compliance Program Guidance for Hospitals* (Compliance Guidelines). This publication is intended to help hospitals implement effective internal control that promotes adherence to applicable federal and state laws and program requirements of federal, state, and private health plans. As explained by the OIG, a hospital's compliance plan should demonstrate its commitment to compliance, and "... should become part of the fabric of routine hospital operations."

### ***Components of the Compliance Guidelines***

.19 ***Compliance Policies.*** Hospitals should develop and distribute written compliance policies that identify specific areas of risk to the hospital, including those specified in the Governmental Investigations Relating to Fraud and Abuse Violations section of this Alert. These policies and procedures should reflect and reinforce current legal requirements regarding submission of claims and Medicare cost reports and should—

- Create a mechanism for effective communications between billing or reimbursement staff and clinical staff.
- Provide for proper, timely, and legible documentation of all physician and other services before billing to ensure accuracy.
- Emphasize that claims should be submitted only when there is supporting documentation and require that information on claims reflect medical records and the availability of documentation necessary for accurate code assignment to coding staff.

In addition, compensation for billing department coders and billing consultants should not provide a financial incentive to improperly "upcode" claims.

.20 ***Standards of Conduct.*** Hospitals should develop written standards of conduct (that is, employee handbooks) for all affected employees that include a clear commitment to compliance by the hospital. Hospitals should designate a compliance officer and provide the officer with authority necessary to implement the compliance program. The compliance function should not be subordinate to the hospital's general counsel or financial officer.

.21 ***Education and Training.*** A hospital should require corporate officers, managers, employees, physicians, and other health care professionals to participate in regularly scheduled education and training activities. Training programs should address the hospital's compliance program, fraud and abuse laws, coding requirements, claims development and submission processes, and marketing practices. In addition to specifically identified risk areas, the educational programs should address—

- Government and private payer reimbursement principles.
- General prohibitions on paying or receiving remuneration for referrals.
- Proper confirmation of diagnoses.
- Claims for physician services rendered by nonphysicians (that is, the "incident to" rule and the physician physical-presence requirement).
- Prohibitions against signing a form for a physician without the physician's authorization, altering medical records, or prescribing medications and procedures without proper authorization.
- Proper documentation of services rendered.
- Duty to report misconduct.

Hospitals should maintain an open line of communication between the compliance officer and hospital personnel using a hotline (including an anonymous hotline), email, written memoranda, and newsletters. Employees should be permitted to report matters anonymously. Written confidentiality and nonretaliation policies should be developed and distributed to encourage reporting. The compliance officer should document and immediately investigate all reported matters and should maintain a log of calls. Information relating to reported incidents should be reported to the hospital's governing body, chief financial officer, and compliance committee.

**.22** An effective compliance program should include guidelines addressing disciplinary action for corporate officers, managers, employees, physicians, and other health care professionals who fail to comply with the hospital's standards of conduct, policies and procedures, or federal and state law. Intentional or reckless noncompliance should result in significant sanctions. Disciplinary actions may also be appropriate, based on an employee's failure to detect a violation resulting from his or her negligence or recklessness.

**.23 *Precautions Against Employing Health Care Offenders.*** Hospitals should conduct a reasonable background investigation of any new employee who will have discretionary authority regarding legal compliance or compliance oversight, including a reference check. The applicant should be required to disclose any prior criminal conviction or exclusion action. Employment of individuals recently convicted of a criminal offense related to health care, or debarred, excluded, or otherwise ineligible for participation in a federal health program should be prohibited.

**.24 *Auditing and Monitoring.*** Hospitals should continually audit and monitor their compliance programs, conducting regular compliance audits focusing on the programs, including their external relationships with third-party contractors. Regular, periodic compliance audits by internal or external auditors with expertise in federal and state regulatory requirements is an effective tool to promote and ensure compliance. These audits should address a hospital's compliance with applicable laws. Self-monitoring techniques may include sampling protocols that permit review of variations from established baselines and a review of any reserves the hospital has established for payments owed to a federal health care program to evaluate the need for repayment.

**.25** A hospital should evaluate periodically whether elements of its compliance program have been satisfied by conducting on-site visits, personnel interviews, and trend analyses to discover specific deviations. Additional auditing activities may include use of personnel questionnaires and review of records supporting claims for reimbursement and materials prepared by various hospital divisions. The hospital should document efforts to comply with various regulatory requirements.

**.26 *Responding to Reported Offenses.*** A hospital should respond to "detected offenses" and develop corrective action initiatives. The OIG emphasizes that "detected but uncorrected misconduct can seriously endanger the mission, reputation, and legal status of the hospital." Consequently, upon receipt of any report or reasonable indication of noncompliance, the hospital should determine whether a violation of the law or compliance program has occurred, and if so, resolve the problem, including, as appropriate, an immediate referral to law enforcement authorities, a corrective action plan, a report to the government, and return of overpayments. A hospital with credible evidence of misconduct in violation of applicable law should report the misconduct to the appropriate government authority within sixty days to "demonstrate the hospital's good faith and willingness to work with governmental authorities to correct and remedy the problem."

**.27** In addition to the corporate compliance guidance for hospitals, the OIG also published compliance program guidance for clinical laboratories and home health agencies. The OIG is also expected to issue compliance guidance for other health care organizations, such as durable medical equipment suppliers and managed care organizations. Until such guidance is issued, these organizations should refer to the existing OIG compliance guidelines.

.28 The OIG's Web site contains the full text of all compliance program guidance as well as its semiannual reports and work plans. The Web site can be located at <http://www.dhhs.gov/progorg/oig>.

### Executive Summary—Corporate Compliance

- Government enforcement activities have brought corporate compliance to the planning forefront for many health care organizations. A formal corporate compliance program can assist in avoiding unlawful activities, detecting such activities before damages are incurred, and establishing that any unlawful activities were inadvertent.
- Auditors of health care organizations that do not have an effective program in place should consider whether this constitutes a reportable condition to be reported to the audit committee. SAS No. 60, *Communication of Internal Control Related Matters Noted in an Audit*, provides guidance in such circumstances.
- The OIG's *Compliance Program Guidance for Hospitals* outlines the components of compliance guidelines, which include: compliance policies, standards of conduct, education and training, precautions against employing health care offenders, auditing and monitoring, and responding to reported offenses.

## Major Changes to Single Audits of Federal Awards

*How do the amendments to the Single Audit Act affect audits of federal awards?*

### Single Audit Act Amendments of 1996

.29 Legislation amending the Single Audit Act of 1984 (Public Law 104-156), was signed into law on July 5, 1996, as the Single Audit Act Amendments of 1996 and is effective for fiscal years beginning after June 30, 1996. A brief description of the 1996 amendments as contrasted with the Single Audit Act of 1984 is shown in the following table.

	1996 Act	1984 Act
Applicability	State and local governments, Indian tribal governments, and not-for-profit organizations (including hospitals)	State and local governments and Indian tribal governments
Single audit threshold	\$300,000 in federal awards <i>expended</i> in year	\$100,000 in federal assistance <i>received</i> in year
Major federal program	Generally determined by the auditor on a risk-based approach	Larger of \$300,000 or 3% of federal financial award expenditures
Reporting deadline	Within 9 months of year end (after transition period)	Within 13 months of year end
Program-specific audits	Permitted if \$300,000 or more expended is for 1 federal program	Not addressed

Copies of the 1996 amendments are available through the AICPA Fax Hotline, by dialing (201) 938-3787 from a fax machine and selecting document number 402.

### OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations

.30 On April 22, 1996, the Office of Management and Budget (OMB) issued a revised Circular A-133, applicable only to not-for-profit organizations. Once the 1996 amendments were passed (see the discussion

in the previous section), it became necessary for the OMB to propose another revision to OMB Circular A-133 to add state and local governments to the scope of the Circular, to comply with certain other aspects of the 1996 amendments, and to rescind Circular A-128, which is the existing regulation governing audits of federal awards for states and local governments. The revised Circular A-133 was issued on June 30, 1997, and it applies to audits of fiscal years beginning after June 30, 1996.

.31 The major differences between the revised Circular A-133 and Circulars A-128 and A-133 are outlined in the following table.

	<i>Revised A-133</i>	<i>A-128</i>	<i>A-133</i>
Applicability	State and local governments, Indian tribal governments, and not-for-profit organizations (including hospitals)	State and local governments and Indian tribal governments	Not-for-profit organizations
Audit Threshold	\$300,000 expended, single audit if more than 1 federal program	\$100,000 received, mandatory single audit	\$100,000 received, either single audit or program-specific audit
	\$300,000 expended, program-specific audit if only one program	\$25,000–\$100,000 received, option for single audit or program-specific audit	\$25,000–\$100,000 received, option for single audit or program-specific audit
	Below \$300,000 expended, no single audit requirements	Below \$25,000 received, no audit required	Below \$25,000 received, no audit required
Major federal program	Generally determined by the auditor on a risk-based approach	Larger of \$300,000 or 3% of federal financial award expenditures	Larger of \$100,000 or 3% of federal financial award expenditures
Reporting deadline	Within 9 months of year end (after transition period)	Within 13 months of year end	Within 13 months of year end

Some additional provisions of the revised Circular include the following:

- The required level of testing of internal control over major programs is clarified as being based on auditors' planning for a low assessed level of control risk.
- Guidance is included for conducting program-specific audits covering those situations in which a federal grantor agency has not issued a program-specific audit guide, as well as those situations in which a program-specific audit guide has been issued by the grantor agency.
- Minimum requirements for the schedule of expenditures of federal awards are provided.
- Guidance is included concerning the following:
  1. Reporting audit findings in a single schedule of findings and questioned costs, which includes a summary of the auditor's results, and findings and questioned costs related to the financial statement audit as well as to federal awards
  2. Thresholds for determining which audit findings should be included in the schedule of findings and questioned costs
  3. Descriptions of what information auditors should include in an audit finding
  4. Required follow-up on audit findings

- Auditee management is required to provide a corrective action plan for current-year audit findings and a summary schedule reporting the status of prior-year audit findings.
- Restrictions are imposed on auditor selection whereby auditors who prepare the indirect cost proposal or cost allocation plan are prohibited from being selected as the auditor if the indirect costs recovered in the prior year are greater than \$1 million in total. This provision is effective for audits of fiscal years beginning after June 30, 1998.

.32 As a result of the issuance of the 1996 amendments and revisions to OMB Circular A-133, questions have arisen about the status of position statements issued by the President's Council on Integrity and Efficiency (PCIE). These position statements were originally developed to address issues related to audits conducted under the Single Audit Act of 1984, OMB Circular A-128, and the March 1990 version of OMB Circular A-133. Therefore, with the exception of PCIE Statement No. 4, none of the remaining position statements is applicable to audits conducted under the 1996 amendments or the new OMB Circular A-133 requirements.

.33 For a copy of the revised Circular A-133, refer to the June 30, 1997, *Federal Register* or call the OMB Fax Information Line at (202) 395-9068, document number 1133.

### Compliance Supplement

.34 In the June 10, 1998, *Federal Register*, OMB published notice of the availability of the 1998 Circular A-133 *Compliance Supplement* (1998 Supplement). The revised OMB 1998 *Compliance Supplement* supersedes all previously issued Supplements and sets forth the material compliance requirements that are to be included in an audit in accordance with OMB Circular A-133. It covers states, local governments, and not-for-profit organizations and applies to audits of fiscal years beginning after June 30, 1997. The significance of this document is stated in Part I of the *Compliance Supplement*:

This document serves to identify existing important compliance requirements which the Federal Government expects to be considered as part of an audit required by the 1996 amendments. Without this Supplement, auditors would need to research many laws and regulations for each program under audit to determine which compliance requirements are important to the Federal Government and could have a direct and material effect on a program. Providing this Supplement is a more efficient and cost effective approach to performing this research. For the programs contained herein, this Supplement provides a source of information for auditors to understand the Federal program's objectives, procedures, and compliance requirements relevant to the audit as well as audit objectives and suggested audit procedures for determining compliance with these requirements.

This Supplement also provides guidance to assist auditors in determining compliance requirements relevant to the audit, audit objectives, and suggested audit procedures for programs not included herein. For single audits, this Supplement replaces agency audit guides and other audit requirement documents for individual Federal programs.

OMB Circular A-133 provides that Federal agencies are responsible to annually inform OMB of any updates needed to this Supplement. This responsibility includes ensuring that program objectives, procedures, and compliance requirements, noncompliance with which could have a direct and material effect on these individual Federal programs, are provided to OMB for inclusion in this Supplement, and that agencies keep current these program objectives, procedures, and compliance requirements (including statutory and regulatory citations).

A copy of the *Compliance Supplement* may be ordered from the Government Printing Office (Document 041-001-00507-2). See the Information Sources table at the end of this Audit Risk Alert (under U.S. General Accounting Office).

### ***AICPA Statement of Position***

.35 Given the changes described in the preceding sections, Statement of Position (SOP) 92-9, *Audits of Not-for-Profit Organizations Receiving Federal Awards*, and certain sections of the Audit and Accounting Guide *Audits of State and Local Governmental Units* (the Guide) have become outdated. In response, the AICPA has issued a new SOP that supersedes them. SOP 98-3, *Audits of States, Local Governments, and Not-for-Profit Organizations Receiving Federal Awards*, was issued on March 17, 1998, and provides guidance on the auditor's responsibilities and reporting requirements for audits performed and corresponding reports issued under the 1996 amendments and OMB Circular A-133. It also includes revised simplified single audit illustrative audit reports that include one report on the financial statements, one report that meets the requirements for reporting on compliance and internal control under Government Auditing Standards (GAS, also known as the Yellow Book), and one report that meets the requirements of the 1996 amendments and OMB Circular A-133 for reporting on single audits of federal awards. See the Auditing Issues and Developments section of this Alert for a more detailed discussion of the provisions of SOP 98-3.

.36 In addition, the AICPA Practice Aid *Auditing Recipients of Federal Awards: Practical Guidance for Applying OMB A-133*, *Audits of States, Local Governments, and Non-Profit Organizations*, contains comprehensive analyses and guidance on implementing the provisions of the revised OMB Circular.

.37 The illustrative reports can be obtained through the AICPA Fax Hotline—by dialing (201) 938-3787 from a fax machine and selecting document number 311—or at the AICPA Web site, [www.aicpa.org/belt/a133.htm](http://www.aicpa.org/belt/a133.htm).

#### **Executive Summary—Major Changes to Single Audits of Federal Awards**

- The Single Audit Act Amendments of 1996 made changes to the Single Audit Act of 1984 with regard to applicability, audit threshold, major federal program, reporting deadline, and program-specific audits. In response to these changes, OMB Circular A-133 was revised to conform to the 1996 act and OMB Circular A-128 was rescinded.
- A revised OMB 1998 *Compliance Supplement*, which became available in June 1998, sets forth material compliance requirements that are to be included in an audit in accordance with OMB Circular A-133. The Supplement is an efficient and cost-effective approach to researching the laws and regulations for each program under audit to determine which compliance requirements are important to the federal government and that could have a direct and material effect on the program.
- The AICPA SOP 98-3 provides guidance on the work performed and the reports issued for audits under the 1996 amendments and OMB Circular A-133.

### **Internal Revenue Service Developments**

#### ***What are the current tax issues that may affect audits of health care organizations?***

.38 Auditors should be aware of relevant tax laws and regulations and their potential effect on health care organizations and their financial statements. A not-for-profit health care organization's failure to maintain its tax-exempt status could have serious tax consequences and affect both its financial statements and related disclosures, and such failure could possibly require modification of the auditor's report. Failure by both for-profit and not-for-profit health care organizations to comply with tax laws and regulations could have either a direct effect on the determination of financial statement amounts or an indirect effect on the financial statements that would require appropriate disclosures. In addition, intermediate sanctions allow the Internal Revenue Service (IRS) to monetarily penalize officers, directors, and other disqualified persons directly for their participation in excess benefit transactions. Although such a penalty would likely not materially affect financial statements, the excess-benefit transaction that triggers the penalty may require disclosure.

#### ***IRS Focus on Joint Ventures***

.39 Increasingly, tax-exempt hospitals have joined forces with for-profit entities to enlarge the resource base available with which to provide quality, low-cost health care to the public. In connection with joint

ventures of this type, concerns arise about whether a hospital could jeopardize its tax-exempt status or be subjected to the unrelated business income tax.

.40 The IRS has indicated that its Coordinated Examination Program (CEP), which involves audits of large, complex exempt organizations such as nonprofit hospitals, will focus more on such joint ventures between tax-exempt organizations and taxable entities. CEP audits will be a major component of the IRS Exempt Organizations Division's work plan for this fiscal year and likely for the next fiscal year as well.

.41 This is a follow-up to the IRS's release of Revenue Ruling 98-15, in which two situations involving whole hospital joint ventures between tax-exempt hospitals and taxable entities are discussed. According to the ruling, an Internal Revenue Code Section 501(c)(3) organization may form and participate in a partnership arrangement if—

1. Such participation furthers a charitable purpose.
2. The partnership arrangement permits the exempt organization to act exclusively in furtherance of its exempt purpose and only incidentally for the benefit of the for-profit partners.

The central message of the ruling appears to be that the analysis is one of facts and circumstances; the fundamental issue is whether the exempt participant has sufficient control to ensure that the venture will be operated in an exempt manner and to prevent private inurement or impermissible private benefit.

### ***Proposed Regulation on Disclosure***

.42 Final regulations are being developed relating to tax-exempt organization disclosure requirements under Internal Revenue Code Section 6104(e), which requires exempt organizations to provide copies of their exemption applications and three most recent information returns on request. The new public inspection rules provide that—

1. Requests made in person must be responded to immediately.
2. Written requests must be responded to within thirty days.

Reasonable fees to cover administrative costs for postage and reproduction are permissible. Exceptions to this rule are provided if—

1. The documents are requested to harass an organization; however, the IRS has indicated that harassment campaigns probably will be "narrowly construed."
2. The documents are made "widely available" (that is, making materials available via electronic means, such as the Internet).

Failure to comply with the public inspection rules could result in a \$20-per-day penalty with a \$10,000 maximum, with a \$5,000 penalty for willful failure.

#### **Executive Summary—Internal Revenue Service Developments**

- Auditors should be aware of relevant tax laws and regulations to assess their potential effect on health care organizations and their financial statements. For example, a not-for-profit health care organization's failure to maintain its tax-exempt status could have serious tax consequences and affect both its financial statements and related disclosures, and such failure could possibly require modification of the auditor's report.
- The IRS has indicated that its Coordinated Examination Program will focus more on joint ventures between tax-exempt organizations and taxable entities. Concerns arise in such arrangements about whether a hospital could jeopardize its tax-exempt status or be subjected to the unrelated business income tax.
- Final regulations are being developed relating to tax exempt organization disclosure requirements—they must provide copies of exemption applications and the three most recent information returns on request.

## Stark II Issues

.43 Effective January 1, 1995, the Limitations on Certain Physician Referrals law (the Stark Law) prohibits physicians from referring patients to health care organizations with which the physicians have a financial relationship for the furnishing of “designated health services” covered under Medicare or Medicaid. Although this legislation has been in effect for more than three years, little guidance has been available to the health care industry, particularly on the types of financial arrangements prohibited, the health care services covered under the statute, and how various statutory exceptions should be interpreted. On January 9, 1998, the Health Care Financing Administration (HCFA) issued proposed regulations likely to be of special interest to health care organizations, including the following:

- A physician furnishing services to a hospital as an employee or as an independent contractor cannot be required to refer patients to the hospital; otherwise, his or her compensation will impermissibly reflect the volume or value of referrals, even though payments from the hospital do not fluctuate in amount.
- A statutory requirement that leases and contracts for personal services have a contract term of at least one year does not preclude contract provisions permitting earlier contract termination for “good cause,” so long as the parties do not enter into another contract arrangement within the initial one-year period.
- There is an exception for hospitals’ payment of physician recruitment incentives; however, according to the proposed regulations, it protects only arrangements in which a physician residing outside a hospital’s geographic area relocates to join the hospital’s medical staff. Payments to a hospital resident or other physician living within the hospital’s geographic area are not protected under this exception.
- There is an exception for “in-office ancillary services,” such as physician office labs operated by physicians or “group practices”; however, according to the proposed regulations, a group practice member cannot be credited directly with revenues from designated health services he or she orders for a Medicare or Medicaid patient, even if the physician actually performs the service.

## Balanced Budget Act

*What are the significant provisions of the Balanced Budget Act of 1997 that will affect health care organizations in the current year?*

.44 The Balanced Budget Act of 1997 (BBA) has been characterized as having the greatest impact on the Medicare program since the inpatient prospective payment system was implemented in 1983. Overall, the federal government expects to reduce expenditures by \$116 billion over five years. The BBA has such a far-reaching impact that no providers are untouched. Although certain provisions do not take effect until 1999, several were implemented in 1998, and providers will soon be subject to the remaining provisions. The home health changes, for example, are so significant that certain providers may not continue to offer this service. Other provisions not only reduce reimbursement, but also may affect the way care is delivered. The following is a brief summary of certain of the more significant provisions whose impact will be felt during 1998.

### *Hospital Inpatients*

.45 For federal fiscal year 1998 (through September 30, 1998) payment rates for inpatient services were generally frozen at prior-year levels. Future annual updates are tied to health care inflation less 1 percent to 2 percent. The federal fiscal year 1999 (effective October 1, 1998) is estimated at 0.5 percent for most providers. Additionally, for ten Diagnosis-Related Groupings (DRGs), certain discharges from the inpatient setting to post-acute-care settings, such as home health or skilled nursing, are to be considered transfers rather than discharges. This provision, which is effective October 1, 1998, will affect reimbursement by reducing DRG payments to offset reimbursement to other providers, such as home health care or skilled nursing facilities. In addition, academic medical centers and teaching hospitals will see significant cuts in indirect medical education funding in federal fiscal year 1999, increasing each fiscal year until 2002.

### ***Skilled Nursing Facilities***

.46 Effective for cost-reporting periods beginning on or after July 1, 1998, a skilled nursing facility (SNF) prospective payment system (PPS) is to be implemented. SNF PPS rates, which will be phased in over three years, are to include all costs of furnishing covered SNF services (routine, ancillary, and capital-related costs). SNFs are also required to provide Medicare with consolidated billing, a comprehensive billing requirement (similar to the one in effect for inpatient hospital services for more than a decade) under which the SNF itself is responsible for billing Medicare for virtually all the services to its residents.

### ***Home Health***

.47 Home health services are to be covered by a PPS for years beginning on or after October 1, 1999. Payments under the PPS are the lesser of allowable costs, per-visit limits or per-beneficiary limits. The per-beneficiary limits in particular will have a very negative impact on reimbursement for agencies that treat complex patients requiring high levels of service.

### ***Hospital Outpatients***

.48 BBA introduced a PPS methodology for hospital outpatients. Beginning January 1, 1999, Medicare payments for outpatient services will be housed in this PPS, much like inpatient care is paid for today. All hospital departments will be covered except those already covered by another fee schedule (for example, ambulance, dialysis, and laboratory). Payments for services will include drugs, supplies, and operating room observation. The ambulatory payment classification (APC) system will be used to establish a distinct payment for each group of diagnosis or procedure circles. Because of year 2000 information system issues, the HCFA has announced it is delaying the implementation of an outpatient PPS methodology until after January 1, 2000.

### ***Other Hospital Provisions***

.49 The BBA also reduced Medicare reimbursement by eliminating the formula-driven overpayment for outpatient services.

## **Capital Risk Requirements for Managed Care Organizations**

### ***Risk-Based Capital Requirements***

.50 The risk-based capital (RBC) formula is one of the tools used by regulators to evaluate the financial health of regulated entities. It is a method of measuring the minimum amount of capital appropriate for a health care organization to support its overall business operations in consideration of its size, structure, and risk profile.

.51 The final National Association of Insurance Commissioners (NAIC) formula for managed care organizations (MCO), RBC was approved at the December 1997 NAIC meeting. Health care organizations will be required to report RBC results for the first time in their 1998 annual statements. Five principal risk elements to the MCO RBC formula are: affiliated investment risk, asset risk, underwriting risk, credit risk, and general business risk. Four action levels (in order of increasingly stringent level of regulatory response) are: company action level, regulatory action level, authorized control level, and mandatory control level. At a minimum, the company action-level event requires the filing with the respective state insurance commissioner an RBC plan detailing conditions leading to the event and proposals of corrective action.

### ***Codification of Statutory Accounting Principles for Managed Care Entities***

.52 In March 1998, the NAIC finalized the Codification of Statutory Accounting Principles (SAP) guidance, which will replace the current *Accounting Practices and Procedures* manual as the NAIC's primary

guidance on statutory accounting. The Codification provides guidance for areas in which statutory accounting has been silent and changes current statutory accounting in some areas; for example, deferred income taxes are recorded.

.53 The NAIC adopted a recommendation to state insurance departments that they adopt the Codification guidance as soon as possible, with an effective date of January 1, 2001. States may, however, elect effective dates before or after that date.

.54 Companies will not be required to follow the Codification guidance until it is adopted by the state of domicile. Until the state of domicile adopts the Codification, consideration should be given to disclosure in the financial statements prepared in conformity with generally accepted accounting principles (GAAP), if the effect of the adoption is expected to be material or in situations in which the client has not determined the effect of the Codification. In addition, practitioners should consider whether going-concern issues exist as a result of the financial statement effect of the adoption of Codification. This includes consideration of the effect on RBC.

.55 There are eight proposed Statements of Statutory Accounting Principles (SSAPs) for managed health care entities that have been specifically modified to address issues related to managed care. It is anticipated that all other SSAPs will apply if applicable to the entity. This could lead to significant changes in accounting for some companies, because statutory accounting guidance for health care organizations was silent in many areas.

## Audit Issues and Developments

### New SOP on Auditing Federal Awards Issued

*How will the new SOP 98-3 assist auditors in performing audits of federal awards?*

.56 As a result of the numerous changes in the single audit arena (described in the Regulatory, Legislative, and Other Developments section of this Alert), the AICPA has issued SOP 98-3, *Audits of States, Local Governments, and Not-for-Profit Organizations Receiving Federal Awards*. The SOP provides auditors of states, local governments, and not-for-profit organizations with guidance relating to their responsibilities and reporting requirements in audits performed and corresponding reports issued under the Single Audit Act Amendments of 1996 and Circular A-133. In addition to providing an overview of the auditor's responsibilities in an audit of federal awards, SOP 98-3—

- Describes the auditor's responsibility for testing and reporting on the financial statements and the schedule of expenditures of federal awards.
- Discusses various planning and other special audit considerations of Circular A-133, including establishing an understanding with the auditee, initial-year audit considerations, the additional requirements of *Government Auditing Standards*, and audit materiality considerations.
- Describes the auditor's responsibility for considering internal control and for performing tests of compliance with applicable laws, regulations, and program compliance requirements under GAAS, *Government Auditing Standards*, and Circular A-133.
- Includes an entire chapter devoted to the determination of major programs and the risk-based approach.
- Describes the auditor's responsibility for reporting and provides illustrations of the reports required by *Government Auditing Standards* and Circular A-133.
- Describes the auditor's responsibility for testing and reporting in a program-specific audit and provides illustrations of the related reports.
- Includes an illustrative schedule of findings and questioned costs and illustrative schedules of expenditures of federal awards.

Further, the SOP incorporates guidance from the following documents:

- The Single Audit Act Amendments of 1996 and Circular A-133 (Both of these documents are included as appendixes to the SOP.)
- Various AICPA SASs, including SAS No. 74, *Compliance Auditing Considerations in Audits of Governmental Entities and Recipients of Governmental Financial Assistance* (AICPA, *Professional Standards*, vol. 1, AU sec. 801)
- *Government Auditing Standards* (1994 revision)
- The OMB Circular A-133, *Compliance Supplement* (June 1997 revision)

## Compliance With Medicare and Medicaid Laws and Regulations

.57 The government's recent focus on health care fraud and abuse, as previously discussed, has resulted in instances of fines and penalties that were material to the provider's financial statements, for violations of billing laws and regulations and violations of cost report reimbursement regulations. Many providers of service to Medicare have potential exposure to fines and penalties as a result of billing or cost reporting issues.

.58 A corporate compliance program (see the Regulatory, Legislative, and Other Developments section of this Alert) or similar controls are a component of a health care organization's internal control.

## Fraud and Abuse in the Health Care Industry

*What effect do the allegations of violations of laws and regulations in the health care industry have on this year's audits?*

.59 Allegations of violations of laws and government regulations continue to increase in virtually all sectors of the health care industry. The allegations concern violations of a wide variety of laws and regulations, such as the Medicare and Medicaid Anti-Kickback Statute, Limitations on Certain Physician Referrals (the Stark law), and the False Claims Act, among others. Penalties for violating the laws may include denial of otherwise valid Medicare and Medicaid claims, fines, and civil money penalties (for example, treble damages, plus \$5,000 to \$10,000 per claim) and exclusion from the Medicare and Medicaid programs.

.60 When auditing health care organizations, auditors should be alert to the possibility of illegal acts. SAS No. 54, *Illegal Acts by Clients*, prescribes the nature and extent of the consideration that auditors should give to the possibility of illegal acts by a client in audits of financial statements in accordance with GAAS and provides guidance on the auditor's responsibilities when a possible illegal act is detected. The AICPA Audit and Accounting Guide *Health Care Organizations* further describes the application of SAS No. 54 in audits of financial statements of health care organizations.

## Audit Procedures

.61 SAS No. 54 notes that even in the absence of evidence concerning illegal acts, auditors should make certain inquiries of management about such matters as the client's policies relative to the prevention of illegal acts, the use of directives issued by the client, and periodic representations obtained by the client from management at appropriate levels of authority concerning compliance with laws and regulations. (Refer to the discussion titled Corporate Compliance, in the Regulatory, Legislative, and Other Developments section of this Audit Risk Alert for additional information.) Certain procedures, although not specifically designed to detect illegal acts, may bring possible illegal acts to an auditor's attention. Such procedures include reading minutes of board of directors meetings; inquiring of the client's management and legal counsel concerning litigation, claims, and assessments; or performing substantive tests of details of transactions or balances. These considerations take on increasing importance when conditions such as those currently encountered in the health care industry exist.

.62 Pursuant to SAS No. 85, *Management Representations* (AICPA, *Professional Standards*, vol. 1, AU sec. 333), auditors ordinarily obtain written representations from management concerning the absence of violations or possible violations of laws or regulations whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency. Given the increase in allegations of violations of laws and government regulations in the health care industry, the auditor may consider obtaining additional representations relating to, for example, management's knowledge of potential fraud and abuse violations. Some of the representations that the auditor might consider obtaining include the following:

- Receivables
  - Adequate provision has been made for estimated adjustments to revenue, such as for denied claims, changes to (DRG) assignments, and cost-report audits.
  - Recorded reserves are necessary, appropriate, and properly supported.
  - All peer review organizations, fiscal intermediary, and third-party payer reports and information have been made available.
  - All required Medicare, Medicaid, and similar reports have been properly filed.
  - Appropriate provision has been made for audit adjustments by intermediaries, third-party payers, or other regulatory agencies.
- Contingencies
  - There are no violations or possible violations of laws or regulations, such as those related to the Medicare and Medicaid antifraud and abuse statutes, including but not limited to the Medicare and Medicaid Anti-Kickback Statute, Limitations on Certain Physician Referrals (the Stark law), and the False Claims Act, in any jurisdiction whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency other than those disclosed or accrued in the financial statements.
  - Billings to third-party payers comply in all respects with applicable coding principles and laws and regulations (including those dealing with Medicare and Medicaid antifraud and abuse), and reflect charges only for goods and services that were medically necessary; properly approved by regulatory bodies (for example, the Food and Drug Administration), if required; and properly rendered.
  - There have been no communications (oral or written) from regulatory agencies, governmental representatives, employees, or others concerning investigations or allegations of noncompliance with laws and regulations in any jurisdiction (including those related to the Medicare and Medicaid antifraud and abuse statutes), deficiencies in financial reporting practices, or other matters that could have a material adverse effect on the financial statements.

In addition, auditors should refer to the guidance in SAS No. 85, *Management Representations* (AICPA, *Professional Standards*, vol. 1, AU sec. 333).

.63 SAS No. 54 also provides guidance on auditors' responsibilities if specific information concerning a possible illegal act comes to their attention. The SAS states that when the auditor concludes, based on information obtained and, if necessary, consultation with legal counsel, that an illegal act has or is likely to have occurred, the auditor should consider the effect on the financial statements as well as the implication for other aspects of the audit.

.64 When such circumstances occur, evaluating the adequacy of accrual for or disclosure of the potential effects of illegal acts in the financial statements of health care organizations is a matter that is likely to require a high level of professional judgment.

.65 Because of the complex nature of Medicare and Medicaid laws and because such laws are subject to interpretation, auditors should suggest that health care organizations with material amounts of Medicare or Medicaid revenues disclose the significance of such revenues (in dollars or percentages) and describe the com-

plex nature of applicable laws and regulations. They might also consider suggesting that the financial statements state management's belief that they are in compliance with the applicable laws and regulations, but indicate that the possibility of future government review and interpretation exists.

.66 If investigations of alleged illegal acts are currently in process, or if claims have been threatened or asserted, additional disclosures may be required by FASB Statement No. 5, *Accounting for Contingencies* (FASB, *Current Text*, vol. 1, sec. C59). Auditors also may want to consider whether, in view of the far-reaching nature of alleged violations of laws and regulations in the health care industry, the disclosure requirements of SOP 94-6, *Disclosures of Certain Significant Risks and Uncertainties*, have been met.

.67 Representations from legal counsel are often key audit evidence. The inability of an attorney to form an opinion on matters about which he or she has been consulted may be indicative of an uncertainty that should be disclosed in the financial statements in accordance with FASB Statement No. 5 or SOP 94-6. SAS No. 58, *Reports on Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1, AU sec. 508), states that if the auditor concludes that a matter involving a risk or an uncertainty is not adequately disclosed in the financial statements in conformity with GAAP, the auditor should express a qualified or an adverse opinion. Such judgments should be made in the context of the financial statements taken as a whole and in light of the surrounding circumstances. When considering procedures for identifying litigation, claims, and assessments and for the financial accounting and reporting for such matters when performing an audit in accordance with GAAS, auditors should refer to the guidance set forth in SAS No. 12, *Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments* (AICPA, *Professional Standards*, vol. 1, AU sec. 337).

### ***Reporting to the Government***

.68 Instances have been noted in practice in which officials of various federal regulatory agencies (such as assistant inspectors general) have indicated that auditors have an obligation to report any identified illegal acts directly to the inspectors general or other regulatory officials. In evaluating their responsibilities in response to such requests, auditors should consider the guidance in paragraph 23 of SAS No. 54, which provides guidance on disclosure of an illegal act to parties other than the client's senior management and its audit committee, and consult with their legal counsel.

#### **Executive Summary—Fraud and Abuse in the Health Care Industry**

- Allegations of violation of laws and governmental regulations continue throughout the health care industry concerning the Medicare and Medicaid Anti-Kickback Statute, Limitations on Certain Physician Referrals, and the False Claims Act, among others. Thus, auditors should be aware of their responsibilities pursuant to SAS No. 54, *Illegal Acts by Clients*.
- Obtaining representations from the client's management and from legal counsel may be especially important in the current environment. Auditors should consider the guidance set forth in SAS No. 85, *Management Representations*, and SAS No. 12, *Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments*.

### **Obligated Group Financial Statements**

#### ***Can obligated group financial statements be included in a public offering?***

.69 *Obligated group* is a term used to denote a group of entities, sometimes a parent corporation and several of its subsidiaries, that is liable for the repayment of an obligation, such as a tax-exempt bond. Financial information related to the obligated group is useful to the owner of the debt instrument. Obligated group financial statements often exclude entities that are required to be consolidated by GAAP. Such financial statements cannot be used as the reporting entity's general-purpose financial statements because they are

not prepared in accordance with GAAP. They may, however, be issued as special-purpose financial statements with distribution limited to specified users (that is, the company and other parties to the debt agreement). It would not be appropriate to include such special-purpose financial statements in a public offering (see Interpretation No. 13, "Reporting on a Special-Purpose Financial Statement That Results in an Incomplete Presentation But Is Otherwise in Conformity With Generally Accepted Accounting Principles," of SAS No. 62, *Special Reports* [AICPA, *Professional Standards*, vol. 1, AU sec. 9623.80–.81]).

.70 With respect to public offerings, two alternatives are available to auditors:

1. The auditor may opine on consolidated financial statements and include supplementary consolidating financial information that displays totals for the obligated group. Because the consolidated financial statements include all entities required to be consolidated under GAAP, the auditor's report on the consolidated statements need not be limited in its distribution.
2. The auditor may opine on the consolidated financial statements that are included as an appendix in the public offering, with management providing an unaudited reconciliation of the amounts in the obligated group financial statements to the audited consolidated financial statements.

## New Auditing Pronouncements

### SAS No. 86

.71 In March 1998, the Auditing Standards Board (ASB) issued SAS No. 86, *Amendment to Statement on Auditing Standards No. 72, Letters for Underwriters and Certain Other Requesting Parties* (AICPA, *Professional Standards*, vol. 1, AU sec. 634), to reflect the March issuance of Statement on Standards for Attestation Engagements (SSAE) No. 8, *Management's Discussion and Analysis* (AICPA, *Professional Standards*, vol. 1, AT sec. 700). SSAE No. 8 provides guidance on the performance of examinations and reviews of management's discussion and analysis (MD&A) prepared pursuant to the SEC's rules and regulations. SAS No. 86 allows practitioners that have examined or reviewed MD&A in accordance with SSAE No. 8 to state that fact in the introductory section of the comfort letter and attach a copy of the SSAE No. 8 report to the comfort letter. SAS No. 86 presents examples of comfort letters that contain references to either an examination of annual MD&A or a review of interim MD&A. SAS No. 86 is effective for comfort letters issued on or after June 30, 1998.

### SAS No. 87

.72 In September 1998, the ASB issued SAS No. 87, *Restricting the Use of an Auditor's Report* (AICPA, *Professional Standards*, vol. 1, AU sec. 532), which is effective for reports issued after December 31, 1998. SAS No. 87 provides guidance to auditors in determining whether an engagement requires a restricted-use report and, if so, what elements to include in that report. The SAS states that an auditor should restrict the use of a report in the following circumstances:

1. The subject matter of the auditor's report, or the presentation being reported on, is based on measurement or disclosure criteria contained in contractual agreements or regulatory provisions that are not in conformity with GAAP or other comprehensive basis of accounting (OCBOA).
2. The accountant's report is based on procedures that are specifically designed and performed to satisfy the needs of specified parties who accept responsibility for the sufficiency of the procedures.
3. The auditor's report is issued as a by-product of a financial statement audit and is based on the results of procedures designed to enable the auditor to express an opinion on the financial statements taken as a whole, not to provide assurance on the specific subject matter of the report.

In addition to describing the circumstances in which the use of an auditor's report should be restricted, the Statement, among other things, defines the terms *general use* and *restricted use*, specifies the language to be

used in restricted-use reports, and requires an auditor to restrict a "combined" report if it covers subject matter or presentations that ordinarily do not require a restriction on use and subject matter or presentations that require such a restriction. It permits auditors to include a separate general-use report in a document that also contains a restricted-use report.

.73 Both the report on compliance and internal control over financial reporting issued by the auditor in an audit of financial statements performed in accordance with *Government Auditing Standards* and the report issued on compliance and internal control over compliance in a Circular A-133 audit are considered restricted-use reports. Auditors of health care organizations for whom such reports must be issued should consider the provisions of SAS No. 87.

.74 For information on other auditing pronouncements issued this year, see the *Audit Risk Alert—1998/99* [AAM section 8010].

## Year 2000 Issues

### *What is the Year 2000 Issue? How will it affect health care organizations?*

.75 The Year 2000 Issue relates to the inability of many electronic data processing systems to accurately process year-date data beyond the year 1999. This is because the majority of computer programs in use today have been designed to store dates in the dd/mm/yy (date/month/year) format, thus allowing only two digits for each date component. So, for example, the date December 31, 1998, is stored in most computers as "12/31/98." Inherent in programming for dates in this manner is the assumption that the designation "98" refers to the year 1998. Initially developed as a cost-saving technique, this long-standing practice of using two-digit-year input fields will cause many computers to treat the entry "00" as 1900. Therefore, such programs will recognize the date January 1, 2000 (01/01/00), as January 1, 1900, and process that data incorrectly, or perhaps not at all.

.76 There are other possible complications as well. The year 2000 is a leap year. Systems that are not year 2000 ready may not register the additional day, thus producing incorrect results for date-related calculations. In addition, certain year 2000 problems may occur this year. For example, some software programs may have assigned special meanings to date entries coded "xx/xx/98" or "xx/xx/99" to allow for the testing of software modifications. Therefore, actual transactions using such dates may not be processed correctly or stop functioning. Failures may take place currently when systems perform calculations into or beyond the year 2000.

.77 Health care organizations face unique year 2000 issues that may affect the entire organization, not just those departments that are affected by information technology. Although the Year 2000 Issue may seem more likely to affect areas relating to information processing, such as patient accounting—that is, invoice dates, dates of services, billing and due dates, and aging—problems could also arise that compromise patient care, disrupt business functions, and increase exposure to business and legal risks. To complicate matters, the health care industry's year 2000 readiness efforts appear to be significantly behind those of other industry groups. Recent research suggests that almost two-thirds of health care organizations have not yet started to address the Year 2000 Issue, and hospitals in particular are behind. Those organizations that have started appear to be in the early stages of addressing the issue.

.78 The Year 2000 Issue is also a concern to federal regulators. For example, the HCFA is warning Medicare contractors to become year 2000 ready by 1999 or face losing their Medicare business. The HCFA is establishing guidelines to contractors for intended year 2000 remediation plans.

.79 Among the factors that pose significant, unique risks for health care organizations are the following:

- The Year 2000 Issue is not necessarily limited to computers but may extend to medical devices with imbedded computer chips that are date-sensitive. Such equipment could include life-saving mechanisms, such as heart defibrillators, pacemakers, and intravenous pumps.<sup>1</sup> Though it is estimated that less than 20 percent of such equipment may have year 2000 problems, they must nevertheless be inventoried and assessed.
- Health care organizations will have to make sure that vendor-supplied software is year 2000 ready. This problem is likely to be particularly acute, given that approximately 70 percent to 80 percent of computer software used by health care organizations is developed by third-party vendors. Remediation of such software may be beyond the control of internal information technology staff. As such, there will be heavy reliance on outside vendors to provide information technology solutions. The risk is therefore greater that health care organizations will be exposed to a vendor's failure to support installed versions of a product or applications.
- Financial pressures related to consolidation and regulation in the insurance and health care industry are putting pressure on information-technology budgets, thus limiting the resources available to address the Year 2000 Issue.
- Many health care organizations make extensive use of the electronic exchange of information and payments with insurers and claims processors, physician practices, and affiliated organizations, raising the risks of external contamination as well as the effort associated with ensuring that these external interfaces are all documented and year 2000 ready.
- As hospitals move toward "just-in-time" computerized delivery systems, supply-chain year 2000 readiness must be assessed and appropriate contingency plans put in place, because vital supplies, goods, and services come from businesses outside of the health care organization. Assessments must extend beyond distributors to materials manufacturers.

Auditors should be aware of the many auditing and accounting issues that arise from the Year 2000 Issue, including audit planning, going-concern issues, establishing an understanding with the client, valuation, impairment, revenue and expense recognition, and disclosure. A more comprehensive discussion of this topic can be found in the *Audit Risk Alert—1998/99* [AAM section 8010].

.80 In addition, Internet Web sites that might provide useful year 2000 information to auditors include the following:

- <http://www.Rx2000.org>—Rx2000 Solutions Institute, health care's year 2000 information clearing-house
- <http://www.hcfa.gov>—the HCFA's Web site
- <http://www.aicpa.org>—the AICPA's Web site
- <http://www.sec.gov>—Statement of the Commission Regarding Disclosure of Year 2000 Issues and Consequences by Public Companies, Investment Advisers, Investment Companies, and Municipal Securities Issuers
- <http://www.y2kgov.au/biomed/index.html>—Biomedical Database, sponsored by the Australian government

---

<sup>1</sup> An independent project is being conducted to develop a shared database that assesses the potential impact of the Year 2000 Issue on the proper functioning of certain medical devices. The study divides medical devices into three categories: those with no reliance on dates, those with date reliance that is not expected to affect the operation of the device, and those with date reliance that could be affected by the Year 2000 Issue. The results data have been provided by different hospitals and primary owners of such data with the intent to share this information with others in the health care field. Further information can be obtained by calling (212) 539-3072.

**Executive Summary—Year 2000 Issues**

- Unless corrective actions are taken, the Year 2000 Issue may cause accounting and financial information systems to produce inaccurate date-related output. Certain problems could arise during 1998 and 1999.
- Year 2000 failures may affect more than just patient accounting. Health care organizations may see disruptions in patient care, as well.
- Health care organizations may be exposed to risks with medical equipment containing imbedded computer chips that are date sensitive, with vendor-supplied software for which no support is available, and with electronic information exchange that is not year 2000 ready.
- Many auditing and accounting issues arise from the Year 2000 Issue, including audit planning, going-concern issues, establishing an understanding with the client, valuation, impairment, revenue and expense recognition, and disclosure. A more comprehensive discussion of this topic can be found in the *Audit Risk Alert—1998/99* [AAM section 8010].

**Accounting Issues and Developments**

*What are the recently issued auditing and accounting pronouncements affecting health care organizations?*

**Newly Issued SOPs*****Joint Activities***

.81 In March 1998, the AICPA issued SOP 98-2, *Accounting for Costs of Activities of Not-for-Profit Organizations and State and Local Governmental Entities That Include Fund Raising*. The SOP applies to not-for-profit organizations and state and local governmental entities in determining fund-raising costs. It supersedes SOP 87-2, *Accounting for Joint Costs of Informational Materials and Activities of Not-for-Profit Organizations That Include a Fund-Raising Appeal*, and amends existing guidance in the *Audit and Accounting Guide Health Care Organizations* (as well as the *Not-for-Profit* and *State and Local* Guides). SOP 98-2 requires entities to report as fund-raising costs the costs of all materials and activities that include a fund-raising appeal. These costs include those that otherwise might be considered program or management and general costs if they had been incurred in a different activity, unless the criteria of purpose, audience, and content, as defined in the SOP, are each met, subject to the following exception. Costs of goods or services provided in exchange transactions, such as costs of direct donor benefits of a special event (for example, a meal), should not be reported as fund raising. If the criteria of purpose, audience, and content are met, the joint costs of those activities should be allocated and costs that are clearly identifiable with fund-raising, program, or management and general functions should be charged to those cost objectives.

.82 SOP 98-2 applies to all nongovernmental not-for-profit organizations and all state and local governmental entities that solicit contributions and is effective for years beginning on or after December 15, 1998. Some entities will undoubtedly change the way they conduct their activities to meet the allocation criteria. The lead time on conducting such activities can be as long as six months. Auditors should discuss the SOP with their clients and start reviewing their activities now to plan for implementation of the SOP.

.83 Because of pressure to portray fund-raising expenses within certain percentages of revenue and expenses, there continues to be an increased risk that the cost of mailing materials or conducting other communications with the public may not be properly allocated between program expenses and fund-raising or management and general expenses.

.84 Some state attorneys general continue to criticize the manner in which some organizations allocate joint costs. They believe that some organizations have been too liberal in their allocation of costs to program expenses, especially those costs incurred to educate the public.

.85 Not-for-profit health care organizations and auditors should carefully review the requirements of the applicable SOP and consider the sufficiency of evidence that exists to support any allocations of such joint costs.

### ***Internal Use Software***

.86 In March 1998, Accounting Standards Executive Committee (AcSEC) issued SOP 98-1, *Accounting for the Costs of Computer Software Developed or Obtained for Internal Use*. The SOP requires that entities capitalize certain internal-use software costs once certain criteria are met. The SOP identifies the characteristics of internal-use software and provides examples to assist in determining whether computer software is for internal use. The SOP applies to all nongovernmental entities and is effective for financial statements for fiscal years beginning after December 15, 1998, though earlier adoption is encouraged.

### ***Start-Up Activities***

.87 In April 1998, AcSEC issued SOP 98-5, *Reporting on the Costs of Start-Up Activities*. The SOP requires that entities expense the costs of start-up activities and organization costs as incurred. The SOP broadly defines start-up activities and provides examples, including an example specific to not-for-profit organizations, to help entities determine what costs are and are not within the scope of the SOP. The SOP applies to all nongovernmental entities and, except for certain investment companies, is generally effective for financial statements for fiscal years beginning after December 15, 1998, though earlier adoption is encouraged.

## **SEC Issues and Developments**

*What are some issues of concern this year for health care organizations subject to SEC regulations?*

### ***Goodwill Lives***

.88 The SEC staff continues its scrutiny of goodwill lives, both for initial and existing registrants, as well as registrants with business combinations accounted for as purchases and those that have recently experienced significant events, such as a writeoff of goodwill, a major restructuring, a history of recent losses or the sale of a division at a loss. Although the SEC staff has not objected to longer-term amortization periods in certain circumstances, amortization periods of twenty-five years or less are often appropriate. Accordingly, health care organizations should be prepared specifically to support their assertion of long-term lives and should conduct a continuing assessment of initial and remaining goodwill lives. Some factors to consider when assessing initial and remaining goodwill lives include—

- Increased competition and industry consolidation.
- Changing third-party reimbursement requirements.
- Technological medical innovation.
- Employment agreements with key operating personnel or relationships with key operating personnel.
- Changing regulatory environment.

Additionally, health care organizations should be aware that the use of a “blended life” for goodwill and other intangible assets of fifteen to twenty-five years, resulting from the “blending” of goodwill with a life of forty years and other shorter-lived intangibles, is generally not supportable. APB Opinion 16, *Business Combinations*, requires that identifiable assets be separately valued and amortized.

.89 The SEC has recently focused considerable attention on amortization periods for goodwill and management services agreement (MSA) intangibles recorded by physician practice management companies. Their most recent reviews were put forward on July 27, 1998, when a member of the SEC staff spoke at the AICPA's National HealthCare Industry Conference. In a speech on physician practice management (PPM) accounting and reporting matters, the SEC staff member noted that:

PPMs with current amortization periods in excess of 25 years should reevaluate their amortization policy immediately and change to a shorter amortization period. While the staff believes the use of periods exceeding 25 years may have been an error in the application of GAAP, it will not object if registrants conclude that the effects should be reported as a change in estimate (as opposed to correction of an error) prospectively over the remaining revised period.

While these remarks are not binding on the SEC, PPMs should consider the necessity of conducting a thorough, continuing assessment of the lives of their recorded goodwill, MSA intangibles and other intangible assets. Factors unique to PPMs that may be considered include—

- Ability of a management company and the medical practices to perform under the terms of a service arrangement over an extended period.
- Ability to continue revenues upon departure of key owners or physicians of the practice.
- Term(s) of employment contracts with key owners or physicians.
- Revised incentive structures.
- Ability to withstand legal challenges concerning the corporate practice of medicine.

### ***Accounting and Disclosure by Physician Practice Management Companies***

.90 The SEC staff has issued a number of informal views on PPM accounting and reporting issues.

.91 **Financial Issues.** During the consideration of the FASB Emerging Issues Task Force (EITF) Issue No. 97-2, *Accounting and Disclosure by Physician Practice Management Companies*, the SEC staff did not object to the following: The revenues and expenses of the medical practice could be displayed in the PPM's statement of operations if the management agreement terms provide the PPM with a net profits or equivalent interest in the preponderance of the medical services furnished by the medical group. A net-profits interest arises when the management fee is derived from the profit of the medical practice.

.92 If the revenue and expenses of the medical practice are displayed in the PPM's financial statements, they must be disclosed separately on the face or in the notes. Management fee and lease income from the medical group should also be disclosed. Actual aggregate management fee income and selling general and administrative costs of the PPM must be clearly disclosed on the face of the statement of operations with note disclosure of the material contract terms bearing on their calculation. After compliance with EITF Issue No. 97-2 is required, the staff will object to the continued display of revenues and expenses of the medical practice in this manner.

.93 **Separate Financial Statements of the Medical Practices.** If the PPM is expected to have a material dependence on the medical practice, separate financial information about the practice would be material to investors. The SEC staff has accepted unaudited summary financial information for the three most recent fiscal years if audited financial statements are not readily available and its owners are not significant shareholders or promoters of the PPM. Also, if a PPM guarantees a practice's income, extends unusual credit terms, funds operating losses, or otherwise provides loans to the practice, separate financial information about that practice would be material to investors. Disclosure issues include the following:

- Business and contractual relationships should be clearly and accurately described by the offering documents and ongoing reports.

- The nature of the PPM's business and relationship to the medical practice should be included (cover topics such as contractual relationships, how PPM fees are determined, whether management fee agreements are subject to adjustment, and loan arrangements between the PPM and the medical practice).
- PPM's relationship with care providers and payors should be described (description of contracts, who bears risk, whether or not there are regulatory considerations).
- State or federal regulations applicable to the PPM should be described (including corporate practice of medicine laws, antikickback and self-referral restrictions).
- Management discussion and analysis should discuss financial terms of the management contracts and detailed disclosure of individually material agreements.
- Acquisition agreements and material management agreements should be filed.

#### **EITF Issue No. 97-2**

.94 The EITF recently has considered matters relating to financial statement preparation as Issue No. 97-2, *Accounting and Disclosure by Physician Practice Management Companies*. On November 30, 1997, the EITF reached consensus on the various issues embodied in the Issue No. 97-2 project. Transition guidance was established in March 1998.

.95 The Issue provides a list of criteria which, when applied to contractual arrangements between PPMs and medical practices, indicate whether the PPM should consolidate the assets and operations of the medical practice. If a contractual arrangement meets all the criteria, the PPM must consolidate the physician practice(s). Conversely, if a single area is not met, the PPM cannot consolidate the physician practice(s). The EITF concluded that when a PPM acquires the net assets and enters into long-term management service agreements with the medical entity, rather than acquiring the medical entity's stock outright, it should be considered an APB Opinion 16 business combination accounted for as a purchase if the medical entity is "a business" (this should be based on facts and circumstances), and the PPM is required to consolidate the medical entity. This acquisition cannot be accounted for as a pooling of interest. If the consolidation criteria are not met or the physician practice is not a business, the management agreement should be accounted for as a service contract.

.96 If a PPM consolidates the physician practice, the physicians or dentists employed by the practice would be considered as employees of the PPM issuing stock options. If not, the physicians and dentists would not be considered employees. In such cases, the accounting treatment for nonemployee options under FASB Statement No. 123, *Accounting for Stock-Based Compensation* (FASB, *Current Text*, vol. 1, sec. C36), would be required.

.97 **Transition Guidance.** The transition guidance provided in EITF Issue No. 97-2 is extensive and complex and therefore should be read in its entirety.

#### **Executive Summary—Securities and Exchange Commission Issues and Developments**

- The SEC staff continues its scrutiny of goodwill lives for both initial and existing registrants, and accordingly could be an area of greater audit risk this year.
- The SEC staff has issued a number of informal views on physician practice management companies relating to financial and disclosure issues.
- Accounting and disclosure by physician practice management companies have also been considered by the FASB's EITF in Issue No. 97-2.

## Proposed SOP on Certain Managed Care Arrangements

.98 AcSEC has undertaken a project on accounting for certain managed care arrangements. The proposed SOP would affect both entities following the insurance model (FASB Statement No. 60, *Accounting and Reporting by Insurance Enterprises* [FASB, *Current Text*, vol. 2, sec. In6]) and entities following the health care model (AICPA Audit and Accounting Guide *Health Care Organizations*, which incorporates SOP 89-5, *Financial Accounting and Reporting by Providers of Prepaid Health Care Services*). The SOP will likely amend *Health Care Organizations* and may amend the AICPA Audit and Accounting Guide *Audits of Stock Life Insurance Companies*. The SOP would apply to all nongovernmental entities, and potentially to certain governmental entities, undertaking managed care transactions.

.99 The project addresses the following issues:

- *Bifurcation*. Should revenues be bifurcated between premiums and administrative fees? If so, how?
- *Reinsurance*. Should reinsurance transactions be presented gross or net in the income statement?
- *Accounting for loss contracts*. For purposes of determining whether a premium deficiency exists, should contracts be grouped? If so, how? How should costs that do not vary with a contract or group of contracts be treated? Should anticipated investment income be considered?
- *Incurred-but-not-reported (IBNR) claims*. How should IBNR claims be determined?
- *Deferred acquisition costs*. Should acquisition costs be capitalized? If so, which costs should be eligible for capitalization?

AcSEC expects to release an exposure draft of a proposed SOP for public comment in the first quarter of 1999.

## Accounting for Derivatives

.100 Issued in June 1998, FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities* (FASB, *Current Text*, vol. 1, sec. D50), establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives), and for hedging activities. It requires that an entity recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. If certain conditions are met, a derivative may be specifically designated as (1) a hedge of the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment; (2) a hedge of the exposure to variable cash flows of a forecasted transaction; or (3) a hedge of the foreign currency exposure of a net investment in a foreign operation, an unrecognized firm commitment, an available-for-sale security, or a foreign-currency-denominated forecasted transaction.

.101 FASB Statement No. 133 applies to all entities. A not-for-profit organization should recognize the change in fair value of all derivatives as a change in net assets in the period of the change. In a fair value hedge, the changes in the fair value of the hedged item attributable to the risk being hedged also are recognized. However, because of the format of their statement of financial performance, not-for-profit organizations are not permitted special hedge accounting for derivatives used to hedge forecasted transactions. FASB Statement No. 133 does not address how a not-for-profit organization should determine the components of an operating measure if one is presented.

.102 FASB Statement No. 133 amends FASB Statement No. 52, *Foreign Currency Translation* (FASB, *Current Text*, vol. 1, sec. F60), to permit special accounting for a hedge of a foreign currency forecasted transaction with a derivative. It supersedes FASB Statements No. 80, *Accounting for Futures Contracts* (FASB, *Current Text*, vol. 1, sec. F80), No. 105, *Disclosure of Information about Financial Instruments with Off-Balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk*, and No. 119, *Disclosure about Derivative Financial Instruments and Fair Value of Financial Instruments* (FASB, *Current Text*, vol. 1, sec. F25). It amends FASB State-

ment No. 107, *Disclosures about Fair Value of Financial Instruments* (FASB, *Current Text*, vol. 1, sec. F25), to include in FASB Statement No. 107 the disclosure provisions about concentrations of credit risk from FASB Statement No. 105. FASB Statement No. 133 also nullifies or modifies the consensus reached in a number of issues addressed by the EITF.

.103 FASB Statement No. 133 is effective for all fiscal quarters of fiscal years beginning after June 15, 1999. Initial application of this Statement should be as of the beginning of an entity's fiscal quarter; on that date, hedging relationships must be designated anew and documented pursuant to the provisions of this Statement. Earlier application of all of the provisions of this Statement is encouraged, but it is permitted only as of the beginning of any fiscal quarter that begins after issuance of this Statement. This Statement should not be applied retroactively to financial statements of prior periods.

.104 For a comprehensive summary of accounting pronouncements issued this year, see the *Audit Risk Alert*—1998/99 [AAM section 8010].

## AICPA Audit and Accounting Literature

*What other AICPA publications can be of value to auditors of health care organizations?*

### Audit and Accounting Guide

.105 The AICPA Audit and Accounting Guide *Health Care Organizations* (Product No. 012438), is available through the AICPA's loose-leaf subscription service. In the loose-leaf service, conforming changes (those necessitated by the issuance of new authoritative pronouncements) and other minor changes that do not require due process are incorporated periodically. Paperback editions of Audit and Accounting Guides as they appear in the service are printed annually. Copies may be obtained by calling the AICPA Order Department at (888) 777-7077 or faxing a request to (800) 362-5066.

### Health Care Financial Reporting Checklist

.106 The AICPA's Accounting and Auditing Publications Division has published a revised version of the *Checklists and Illustrative Financial Statements for Health Care Organizations* (Product No. 008722), a nonauthoritative practice aid for preparers or reviewers of financial statements of health care entities. Copies may be obtained by calling the AICPA Order Department at (888) 777-7077 or faxing a request to (800) 362-5066.

### Technical Practice Aids Publication

.107 *AICPA Technical Practice Aids* includes questions received by the AICPA's Technical Hotline on various subjects and the service's response to those questions. Section 6400 of *Technical Practice Aids* contains questions and answers specifically pertaining to health care entities. *Technical Practice Aids* is available both as a subscription service (Product No. G01013) and in paperback form (Product No. 005058). Copies may be obtained by calling the AICPA Order Department at (888) 777-7077 or faxing a request to (800) 362-5066.

### National Health Care Conference

.108 Each summer the AICPA and the Health Care Financial Management Association cosponsor a National Health Care Conference that is specifically designed to update auditors and health care financial executives on significant accounting, legal, financial, and tax developments affecting the health care industry. Information on the conference may be obtained by calling the AICPA Conferences Division at (201) 938-3556.

### Continuing Professional Education

.109 The AICPA offers the following group-study courses:

- Advising Doctors on Practice-Related Agreements in a Managed Care Environment
- Fraud in the Health Care Industry
- Health Care Industry and Medical Practice Valuation
- Managed Care Issues Into the Next Century—What the CPA Needs to Know
- Optimizing Medicare Reimbursement for Skilled Nursing Facilities
- Preparing the Medicare Cost Report for Skilled Nursing Facilities

.110 The AICPA offers the following self-study courses:

- Doctors' Practice-Related Agreements (Product No. 732031JK)
- Fraud in the Health Care Industry (Product No. 735205JK)
- Medicare Payment Systems (Product No. 739010JK)

## References for Additional Guidance

.111 This Alert contains a listing of publications pertaining to health care industry trends and statistics that may be of interest to auditors of health care organizations (see the table at the end of this Alert titled Information Sources). The list is not all-inclusive and is presented for informational purposes only. It is not to be construed as an endorsement of any of the publications or organizations. Many nongovernment and some government publications and services involve a charge or membership requirement.

.112 Fax services allow users to follow voice cues and request selected documents to be sent by fax machine. Some fax services require the user to call from the handset of the fax machine; others allow the user to call from any phone. Most fax services offer an index document, which lists titles and other information describing available documents.

.113 Electronic bulletin board services and Web sites allow users to read, copy, and exchange information electronically. Most are available using a modem and standard communications software. Some bulletin board services are also available using one or more Internet protocols.

.114 Recorded announcements allow users to listen to announcements about a variety of recent or scheduled actions or meetings.

.115 All phone numbers listed are voice lines, unless otherwise designated as fax (f) or data (d) lines.

.116 This Audit Risk Alert replaces *Health Care Industry Developments—1997/98*.

.117 Auditors should also be aware of the economic, regulatory, and professional developments that may affect the audits they perform, as described in *Audit Risk Alert—1998/99* [AAM section 8010].

.118 Copies of AICPA publications referred to in this document may be obtained by calling the AICPA Order Department at (888) 777-7077 or faxing a request to (800) 362-5066. Copies of FASB and GASB publications referred to in this document may be obtained directly from the FASB or GASB by calling the FASB/GASB Order Department at (203) 847-0700, ext. 10.

.119 Copies of federal documents referred to in this document are available for sale from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20401; order desk telephone: (202) 783-3238; fax: (202) 512-2250.

.120 The Health Care Industry Audit Risk Alert is published annually. As you encounter audit or industry issues that you believe warrant discussion in next year's Alert, please feel free to share them with us. Any other comments that you have about the Alert would also be greatly appreciated. You may mail these comments to [Gdietz@aicpa.org](mailto:Gdietz@aicpa.org) or write to:

## Appendix

### Applicable Authoritative Guidance for Health Care Organizations

In recent years, the AICPA, the Financial Accounting Standards Board (FASB), and the Governmental Accounting Standards Board (GASB) have issued a number of documents that clarify accounting and reporting requirements for governmental and nongovernmental entities. This section summarizes these documents and provides a roadmap to applicable guidance for various accounting and reporting issues facing investor-owned, not-for-profit, and governmental health care organizations.

In January 1992, the AICPA issued Statement on Auditing Standards (SAS) No. 69, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles in the Independent Auditor's Report* (AICPA, *Professional Standards*, vol. 1, AU sec. 411), which redefined the generally accepted accounting principles (GAAP) hierarchy. SAS No. 69 describes the sources of established accounting principles for governmental entities and nongovernmental entities and how these sources relate to the new GAAP hierarchy.

In September 1993, the GASB issued Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and other Governmental Entities That Use Proprietary Fund Accounting*, which clarifies how FASB statements affect governmental entities that use business-type accounting and financial reporting. In all cases, governmental health care organizations are required to follow GASB pronouncements unless excluded from the scope of a particular pronouncement. GASB Statement No. 20 provides two alternatives for FASB pronouncements. Under the first, governmental health care organizations should apply FASB pronouncements (and those of its predecessors, such as the Accounting Principles Board [APB]) issued through November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. Under the second alternative, organizations may also elect to apply FASB pronouncements issued after that date, again, provided that they do not conflict with or contradict GASB pronouncements. Either alternative must be used consistently and disclosed in the summary of significant accounting policies note to the financial statements.

An entity meeting the definition of a governmental organization as defined in paragraph 1.02 of the AICPA Audit and Accounting Guide *Health Care Organizations* is subject to the rules promulgated by the GASB. The following matrix illustrates how an organization's classification as investor-owned, not-for-profit, or governmental determines the appropriate authoritative guidance to be applied to various accounting and reporting issues.

Area	Investor-Owned	Not-for-Profit	Government
Reporting Entity	Accounting Principles Board (APB) Opinion 18, <i>The Equity Method of Accounting for Investments in Common Stock</i> (FASB, <i>Current Text</i> , vol. 1, sec. I82), and FASB Statement No. 94, <i>Consolidation of All Majority-Owned Subsidiaries</i> (FASB, <i>Current Text</i> , vol. 1, sec. C51)	AICPA Statement of Position (SOP) 94-3, <i>Reporting of Related Entities by Not-for-Profit Organizations</i>	GASB Statement No. 14

(continued)

Area	Investor-Owned	Not-for-Profit	Government
Contributions and Financial Statement Display	FASB Statement No. 116, <i>Accounting for Contributions Received and Contributions Made</i> (FASB, <i>Current Text</i> , vol. 1, sec. C67)	FASB Statement No. 116 and FASB Statement No. 117, <i>Financial Statement of Not-for-Profit Organizations</i>	GASB Statement No. 29 prohibits following FASB Statement Nos. 116 and 117; NCGAS 2, <i>Grant, Entitlement and Shared Revenue Accounting by State and Local Governments</i>
Cash Flows	FASB Statement No. 95, <i>Statement of Cash Flows</i> (FASB, <i>Current Text</i> , vol. 1, sec. C25)	FASB Statement No. 95	GASB Statement No. 9
Deposits with Financial Institutions	FASB Statement No. 105, <i>Disclosure of Information about Financial Instruments with Off-Balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk</i> (FASB, <i>Current Text</i> , vol. 1, sec. F25)	FASB Statement No. 105	GASB Statement No. 3
Investments	FASB Statement No. 115, <i>Accounting for Certain Investments in Debt and Equity Securities</i> (FASB, <i>Current Text</i> , vol. 1, sec. I80), and Audit and Accounting Guide <i>Health Care Organizations</i> (the Guide), chapter 4	FASB Statement No. 124, <i>Accounting for Certain Investments Held by Not-for-Profit Organizations</i> (FASB, <i>Current Text</i> , vol. 2, sec. No5), and the Guide, chapter 4	GASB Statement No. 31; GASB Statement No. 3; GASB Statement No. 28; TB 94-1
Operating Leases	FASB Statement No. 13, <i>Accounting for Leases</i> (FASB, <i>Current Text</i> , vol. 1, sec. L10)	FASB Statement No. 13	GASB Statement No. 13
Prepaid Healthcare Arrangements and Self-Insurance Programs	The Guide, chapters 8 and 14	The Guide, chapters 8 and 14	GASB Statement No. 10 as amended by GASB Statement No. 30; the Guide, chapter 14, if following the "FASB Option" provided in paragraph 7 of GASB Statement No. 20
Compensated Absences	FASB Statement No. 43, <i>Accounting for Compensated Absences</i> (FASB, <i>Current Text</i> , vol. 1, sec. C44), and FASB Statement No. 112, <i>Employers' Accounting for Postemployment Benefits</i> (FASB, <i>Current Text</i> , vol. 1, various sections)	FASB Statement Nos. 43 and 112	GASB Statement No. 16

(continued)

Area	Investor-Owned	Not-for-Profit	Government
Debt Refundings	APB Opinion 26, <i>Early Extinguishment of Debt</i> (FASB, <i>Current Text</i> , vol. 1, sec. L35), FASB Statement No. 4, <i>Reporting Gains and Losses from Extinguishment of Debt</i> (FASB, <i>Current Text</i> , vol. 1, sec. I17), and FASB Statement No. 125, <i>Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities</i> (FASB, <i>Current Text</i> , vol. 1, secs. F35 and F38)	APB Opinion 26 and FASB Statement Nos. 4 and 125	GASB Statement Nos. 7 and 23
Pensions	FASB Statement No. 87, <i>Employers' Accounting for Pensions</i> (FASB, <i>Current Text</i> , vol. 1, sec. P16), and FASB Statement No. 132, <i>Employers' Disclosures about Pensions and Other Postretirement Benefits</i> (FASB, <i>Current Text</i> , vol. 1, secs. P16, P40)	FASB Statement No. 87	GASB Statement No. 27
Risks and Uncertainties	AICPA SOP 94-6, <i>Disclosure of Certain Significant Risks and Uncertainties</i>	AICPA SOP 94-6	GASB Statements Nos. 10 and 30
Post Retirement Benefits	FASB Statement No. 106, <i>Employers' Accounting for Postretirement Benefits Other Than Pensions</i> (FASB, <i>Current Text</i> , vol. 1, sec. P40)	FASB Statement No. 106	GASB Statement No. 12 supplemented by GASB Statement No. 27

The Audit Risk Alert *State and Local Governmental Developments—1998* [AAM section 8070] includes a discussion of recently released GASB accounting pronouncements and projects. That Audit Risk Alert also contains valuable information on current issues and audit risks facing governmental organizations.

## *Insurance Industry Developments—1998/99*

### In This Year's Alert . . .

- Are there any special concerns currently about an insurer's investment?
- How and why are some mutual insurance companies restructuring?
- What should auditors be aware of during merger and acquisition activity?
- What are some matters affecting property and casualty insurers?
- What are some matters affecting life and health insurers?
- What new regulatory developments have occurred in the insurance industry?
- What should an auditor know about reinsurance arrangements?
- Do conditions exist that make liabilities for unpaid claims a high-risk audit area?
- What are some matters an auditor should be on the lookout for concerning surplus enhancement?
- Are there special concerns this year related to investments in hedge funds?
- When an insurance company invests in derivatives, what should an auditor be concerned with?
- Will international accounting standards for insurance companies be developed?
- What is the Year 2000 issue and how will it affect insurance companies?
- If an insurance company uses "permitted accounting practices," what guidance should an auditor follow?
- What new auditing and attestation standards have been issued?
- What new accounting developments have occurred?
- What are some organizations that can provide more information about the insurance industry?

\* \* \* \*

### Industry and Economic Developments

.01 The insurance industry may categorize 1998 as an eventful year. The robust stock market has been beneficial to the insurance industry for the first part of 1998; however, recent uncertainty in the U.S. stock market and in global markets has raised serious concerns about the future health of the market and the economy. Because the assets of an insurance company consist mainly of investments, which include bonds, stocks, mortgage loans, and real estate, fluctuations in the bond and stock markets have an indirect effect on an insurance enterprise's investment income, comprehensive income, and surplus. For an overall review of the performance of the U.S. economy, read the AICPA general *Audit Risk Alert—1998/99* [AAM section 8010]. This publication can be obtained by calling the AICPA Order Department at (888) 777-7077.

## Investments

### *Are there any special concerns currently about an insurer's investments?*

.02 Consideration should be given to the recent downturn in financial markets around the world. Given the interdependence of most of the world's economies, the United States could suffer serious financial troubles due to the financial crises taking place in Asia, Russia, and other areas. In this environment, the auditor should consider whether declines in fair value of securities will recover quickly or whether such declines are other—than temporary, as discussed in paragraph 16 of Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 115, *Accounting for Certain Investments in Debt and Equity Securities* (FASB, *Current Text*, vol. 1, sec. I08). The documentation of the evaluation of the other-than-temporary declines in fair value should be formal and well documented.

.03 Because audit risk can vary significantly depending on the types of investments that an insurance enterprise purchases, auditors should develop a thorough understanding of the insurer's investment strategy and the controls for monitoring compliance with its investment guidelines. In addition, audit procedures should focus on the following:

- The kinds of investments in an insurance company's portfolio
- The insurance enterprise's risk-management procedures
- The effectiveness of its asset-liability-matching strategies
- The concentration of investments (for example, collateralized mortgage obligations, bonds within a particular industry, common stock, or mortgage loans)
- The control procedures to ensure that investments are recorded at their proper values
- Whether any investments violate any restrictions included in the insurance company's domiciliary insurance laws and regulations

.04 Auditors also should be alert to valuation issues related to classification and impairment of securities. Paragraph 16 of FASB Statement No. 115 requires that for individual securities classified as either available for sale or held-to-maturity (as defined), an entity shall determine whether a decline in fair value below the amortized cost basis is other than temporary and provides related guidance.

.05 Paragraph 69 of FASB Statement No. 115 states, "if the sale of a held-to-maturity security occurs without justification, the materiality of that contradiction of the enterprise's previously asserted intent must be evaluated." The Securities and Exchange (SEC) staff has indicated that if held-to-maturity securities are sold for reasons other than those listed in paragraph 8 of FASB Statement No. 115, the SEC staff will challenge management's—

- Previous assertion regarding the classification of the sold securities.
- Assertions regarding the classification of other held-to-maturity securities.
- Future assertions regarding the classification of securities purchased subsequently for an extended period of time (two years).

See the section titled "Investments in Hedge Funds" in this Alert for a further discussion of investment risks.

**Executive Summary—Investments**

- The global economic crisis may affect the valuation of investment securities. Auditors should consider whether declines in the fair values of securities will recover quickly, or whether such declines are other-than-temporary.
- In addition to other steps, auditors should develop an understanding of the insurer's investment strategy, and the controls for monitoring compliance with its investment guidelines.
- The SEC staff has indicated that if held-to-maturity securities are sold for reasons other than those listed in paragraph 8 of FASB Statement No. 115, the SEC staff will challenge management's assertions.

**Mutual Insurance Company Restructuring***How and why are some mutual insurance companies restructuring?*

.06 Mutual insurance companies are seeking better access to raise capital to enhance their financial flexibility and to support long-term growth. Because of many economic and regulatory factors, as well as increased competition, there has been a recent trend for mutual insurance companies to form mutual holding companies or to demutualize.

.07 Almost all states have some form of demutualization statute. There are a range of demutualization statutes and regulations that exist for life and property and casualty insurers. Typically, these laws contemplate a direct and full reorganization of the mutual insurer to a stock form. Some statutes permit policyholders to be compensated for their membership value through shares. Under some statutes, subscription rights or policy credits, rather than stock or cash, are offered. Once the company has determined an aggregate amount of compensation, the converting insurer is required to make a fair and equitable distribution to eligible policyholders.

.08 An alternative to demutualization is for a mutual insurance company to form a mutual insurance holding company (MIHC). The mutual insurer is converted to stock form and becomes a stockholder-owned entity that operates as a subsidiary of the newly formed MIHC. All the initial stock of the reorganized company is issued to the MIHC, which remains controlled by the former mutual insurance company's board of directors. The new stock insurer can now generate capital through an initial public offering. However, most statutes specify that the MIHC must own greater than 50 percent of the voting shares to ensure that it maintains effective control of the insurer. The policyholders become members of the MIHC through the transfer of their mutual membership interests to the MIHC, retaining the same voting rights they had previously. Policyholders remain participating life insurance contract policyholders in the converted stock insurer, but unlike with a demutualization, there is no distribution of equity or subscription rights to policyholders. The formation of an MIHC is usually quicker than a demutualization and tends to be less expensive. Because of the growth of this type of transaction, a number of states have enacted or are currently contemplating enacting MIHC statutes. Auditors should be aware that accounting and reporting issues may arise when these types of transactions take place.

**Mergers and Acquisitions***What should auditors be aware of during merger and acquisition activity?*

.09 Merger activity continues for both the life and property and casualty insurance industries. An overcapitalized industry and pressures on profit margins are factors contributing to the continuing merger and acquisition activity. Some believe that the financial services industry may see a regulation overhaul. Integration of banks, insurance companies, and securities firms has continued this year, and this consolidation trend will likely continue.

## Auditing Concerns

.10 The auditing and accounting issues that arise out of business combinations are numerous and varied. Auditors should carefully consider the individual client's circumstances first to identify those issues and then to develop an appropriate audit strategy. Examples of some of the issues that should be considered by auditors include the following:

- Careful consideration should be given to management's accounting for the business combination to ensure that all relevant generally accepted accounting principles (GAAP) have been considered. For example, if the pooling-of-interests method has been used, have the specific criteria of Accounting Principles Board (APB) Opinion No. 16, *Business Combinations*, been met?<sup>1</sup> If not, has the purchase price been allocated to the assets and liabilities acquired with goodwill properly calculated in accordance with the purchase method of accounting? If specialists have been used in asset or liability valuation, auditors relying on such information should consider the guidance set forth under Statement on Auditing Standards (SAS) No. 73, *Using the Work of a Specialist* (AICPA, *Professional Standards*, vol. 1, AU sec. 336). The SEC has viewed the issue of goodwill with some concern recently and, accordingly, audit risk in this area may be especially acute for public companies. The SEC is also concerned that the discount rates commonly used in determining the fair value of the intangible asset representing in-force life insurance contracts (referred to in Emerging Issues Task Force [EITF] Issue No. 92-9, *Accounting for the Present Value of Future Profits Resulting from the Acquisition of a Life Insurance Company*, as present value of future profits [PVP]) may be inappropriately high in light of prevailing market interest rates and other current economic circumstances. Use of an excessive discount rate would result in understatement of the PVP asset and overstatement of goodwill. Auditors should also be alert to consensus positions reached this year by the FASB's EITF relating to business combinations. See the "EITF Consensus Positions" section of the AICPA general *Audit Risk Alert—1998/99* [AAM section 8010] for more information.
- With consolidation comes dramatic change in the structure of an entity. In an effort to create greater cost efficiencies in the consolidated entity, departments may be combined and duplicative functions eliminated. Auditors should consider the impact of such changes on their client's internal control when making the assessment of control risk. SAS No. 55, *Consideration of Internal Control in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 319), as amended by SAS No. 78, *Consideration of Internal Control in a Financial Statement Audit: An Amendment to Statement on Auditing Standards No. 55* (AICPA, *Professional Standards*, vol. 1, AU sec. 319), provides guidance on the auditor's consideration of an entity's internal control in an audit of financial statements in accordance with generally accepted auditing standards (GAAS).
- Business combinations often result in the gain of a client for one auditor and a loss of a client for another. Thus, in the current environment, auditors may be more likely to find themselves in the role of either a predecessor or successor auditor. SAS No. 84, *Communications Between Predecessor and Successor Auditors* (AICPA, *Professional Standards*, vol. 1, AU sec. 315), provides guidance on communications between predecessor and successor auditors when a change of auditors is in process or has taken place.
- Mergers and acquisitions may be effected in part through the use of debt financing. Auditors should carefully evaluate the terms of the debt agreement to identify, among other things, whether there are any loan covenants and, if so, the terms. Auditors should evaluate compliance with restrictive covenants and the implications of any loan covenant violations.
- The acquisition of an entity by one party may mean that another party has disposed of a business segment. Accordingly, auditors of the selling party should consider whether management has fol-

---

<sup>1</sup> Accountants, other than the continuing accountant, who have been requested to provide advice on the application of accounting principles to specified transactions, such as whether a proposed business combination is in compliance with the pooling requirements of Accounting Principles Board Opinion No. 16 and other related generally accepted accounting principles, should refer to the guidance set forth under Statement on Auditing Standards No. 50, *Reports on the Application of Accounting Principles* (AICPA, *Professional Standards*, vol. 1, AU sec. 625).

lowed the accounting and disclosure requirements of APB Opinion 30, *Reporting the Results of Operations—Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions* (FASB, *Current Text*, vol. 1, sec. I13). Audit risk may be significant for discontinued operations involving an extended phase-out period. Auditors should give careful consideration to management's estimates when the disposal date of the segment occurs after year end. SAS No. 57, *Auditing Accounting Estimates* (AICPA, *Professional Standards*, vol. 1, AU sec. 342), provides guidance on obtaining and evaluating sufficient competent evidential matter to support significant accounting estimates.

- Subsequent to the business combination, auditors should consider whether management has prepared the financial statements of the combined entity in accordance with appropriate accounting standards, including FASB Statement No. 94, *Consolidation of All Majority-Owned Subsidiaries* (FASB, *Current Text*, vol. 1, sec. C51), and Accounting Research Bulletin (ARB) No. 51, *Consolidated Financial Statements* (FASB, *Current Text*, vol. 1, sec. C51).
- A business combination involving a public business enterprise may result in an operating segment subject to the disclosure requirements of FASB Statement No. 131, *Disclosures about Segments of an Enterprise and Related Information*. In such circumstances, auditors should consider the guidance set forth under Auditing Interpretation No. 4, "Applying Auditing Procedures to Segment Disclosures in Financial Statements," of SAS No. 31, *Evidential Matter* (AICPA, *Professional Standards*, vol. 1, AU sec. 9326.22–.35).
- In purchase business combinations involving acquisitions of property and casualty insurance companies, the SEC staff has taken the position that needed changes in liabilities for claim losses and loss-adjustment expenses of an acquired insurance company ordinarily should be made through losses incurred in the income statement rather than through purchase accounting adjustments (see Staff Accounting Bulletin (SAB) No. 61, *Loan Losses*, for further discussion).

Auditors involved with business combinations may want to be familiar with the information presented in the "Reserve Guarantees" part of the "Reinsurance Arrangements" section of this Alert.

#### Executive Summary—Mergers and Acquisitions

- Auditors should consider the possible auditing and accounting issues that might arise as a result of a business combination, including the accounting methods used, effects on internal control, predecessor and successor communications, and discontinued operations.
- The SEC has viewed the issue of goodwill with some concern recently, and has also been concerned that the discount rates commonly used in determining the fair value of the intangible asset representing in-force life insurance contracts may be inappropriately high.
- The SEC staff has taken the position that needed changes in liabilities for claim losses and loss-adjustment expenses of an acquired insurance company ordinarily should be made through losses incurred in the income statement rather than through purchase accounting adjustments.

### Property and Casualty Insurers

#### *What are some matters affecting property and casualty insurers?*

.11 Pricing issues continue for property and casualty insurers. Several property and casualty companies have taken down reserves in response to earnings pressure. Combined ratios to date are higher than last year. The unusually calm weather seen last year, thanks to El Niño's influence, has not been the case this year, as the hurricane season has produced a flurry of stormy weather so far.

## ***Alternative Risk Vehicles***

.12 Property and casualty insurers are exploring the capital markets as a way to finance risks and provide liquidity needed to grow their businesses. Insurers are looking to the capital markets as an alternative to traditional reinsurance. Some of the products include catastrophe-linked structured notes and traded catastrophe options. Reinsurers also are looking at opportunities provided by the capital market and have begun to take on capital-market risks. Examples include protecting companies against financial risk, such as foreign exchange and commodity price changes. Auditors need to evaluate the transactions carefully to determine whether to account for the transaction under the insurance or reinsurance GAAP models, or as a financial instrument. Some of these transactions may need to be accounted for under FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities* (FASB, *Current Text*, vol. 1, sec. D50), when it becomes effective (see the “New Accounting Developments” section of this Alert for a discussion of FASB Statement No. 133). In addition, auditors should be aware of any potential audit risk associated with these transactions and consolidation issues.

## **Life and Health Insurers**

### *What are some matters affecting life and health insurers?*

.13 It appears that the life insurance industry has turned itself around by operating more efficiently and experiencing a stronger credit quality in insurers’ asset portfolios than in past years. The life insurance industry is making a strong attempt to battle a tarnished reputation caused by market conduct litigation cases. Many companies are responding to the market conduct concerns by joining the Insurance Marketplace Standards Association in hopes that their participation will provide a vehicle to detect the early emergence of market conduct problems.

## ***Nontraditional Life and Annuity Long-Duration Contracts***

.14 Life insurers have been selling fixed and variable annuities for many years. A traditional fixed, deferred annuity provides for a fixed rate of interest over some specified period, with the insurance enterprise bearing the investment risk associated with the cash received and invested in the insurance enterprise’s general account assets. A traditional variable annuity provides for the passage of all investment risks to the policyholder, with no guarantees of return of principal, minimum interest rates, or minimum death benefits. In the past several years, annuity products with nontraditional terms have been and continue to be developed. These products may have both fixed and variable features, or other, nontraditional features, such as:

- Variable annuity contracts with guaranteed return of principal or guaranteed return of principal plus minimum stated interest rate
- Fixed annuity contracts with guaranteed minimum interest rate plus a contingent return based on some internal or external index, most often the Standard & Poor’s 500 Stock Index (these are known as equity-indexed annuities)
- Contracts that provide for return of principal and interest if held until maturity, or a specified “market adjusted value” if surrendered at an earlier date (known as a market-value-adjusted annuity)
- Fixed annuities that provide a higher “teaser” rate in the first year of the contract, or a bonus interest rate if the contract is held for a specified period of time
- Variable annuity contracts that offer a minimum-death-benefit-guarantee option that varies depending on the performance of the related separate account investments

The features of these nontraditional contracts are numerous and complex; they may be offered in different combinations, so there are numerous variations of the same basic products being sold in the marketplace. In addition, such products may be sold as general account or separate account products. Auditors should be alert to the existence of these new products. The AICPA Accounting Standards Executive Committee (AcSEC) is currently studying the accounting and reporting issues associated with these new products.

## Regulatory Developments

*What new regulatory developments have occurred in the insurance industry?*

.15 The regulatory developments contained in this section include matters that affect audits of financial statements prepared in conformity with statutory accounting practices (SAP). Regulation of the insurance industry is the responsibility of the individual states. All states require domiciled insurance entities to submit to the state insurance commissioner an annual statement on forms developed by the National Association of Insurance Commissioners (NAIC). The states also require that audited SAP-basis financial statements be provided as a supplement to the annual statement.

### Codification of Statutory Accounting Principles

.16 Insurance enterprises currently prepare SAP-basis financial statements in accordance with the accounting practices and principles prescribed or permitted by the insurance department of their state of domicile. These practices are considered to be an other comprehensive basis of accounting (OCBOA) under SAS No. 62, *Special Reports* (AICPA, *Professional Standards*, vol. 1, AU sec. 623).

.17 The NAIC has completed its project of codifying statutory accounting practices (the codification) for certain insurance enterprises. The codification project was originally designed to streamline accounting guidelines for regulators and insurers in one comprehensive source because current prescribed or permitted statutory accounting practices vary widely—not only from state to state, but also between insurance enterprises within a state. Furthermore, it will provide uniform statutory guidance that will facilitate analysis of annual statements filed by insurers.

.18 The effective date for codification is January 1, 2001. States may adopt the codification before January 1, 2001. The codification project title will be *Accounting Practices and Procedures Manual as of 19XX*. The year will be defined by the publication date, which is scheduled for 1999. In addition, the NAIC Ad Hoc Task Force on Codification Implementation recommended that the Financial Regulation Standards and Accreditation Subcommittee develop an approach that will make codification effective as an accreditation standard beginning January 1, 2002. The recommendation of the NAIC Ad Hoc Task Force on Codification Implementation has been adopted by the NAIC's Executive Committee.

.19 The AICPA currently is reviewing its guidance on reporting on SAP and will modify existing guidance as deemed necessary. Because the codification is not effective for 1998 statutory financial statements, auditors will continue to report on statutory financial statements prepared in conformity with the accounting practices prescribed or permitted by the insurance department of the state of domicile.

### Changes to Letter of Qualifications

.20 On November 3, 1995, the AICPA issued Statement of Position (SOP) 95-4, *Letters for State Insurance Regulators to Comply With the NAIC Model Audit Rule*, to provide guidance to auditors on the form and content of communications with state insurance regulators. Such communications are required by the NAIC's *Annual Statement Instructions Requiring Annual Audited Financial Statements*, which incorporates the January 1991 *Model Audit Rule (Regulation) Requiring Annual Audited Financial Statements*. The guidance in the SOP was effective for audits of statutory financial statements for periods ending on or after December 15, 1995.

.21 One of the illustrative letters that appears in SOP 95-4 is the accountant's letter of qualifications. Changes to the accountant's letter of qualifications have been made to comply with SAS No. 82, *Consideration of Fraud in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 316). Paragraph *c* of the illustrative accountant's letter of qualifications has been revised as follows. (Please note that deletions appear as struck-out text and additions appear as underlined text.)

*Illustrative Accountant's Letter of Qualifications*

c. We understand that the Company intends to file its audited statutory financial statements and our report thereon with the Insurance Department of [name of state of domicile] and other state insurance departments in states in which the Company is licensed and that the insurance commissioners of those states will be relying on that information in monitoring and regulating the statutory financial condition of the Company.

While we understand that an objective of issuing a report on the statutory financial statements is to satisfy regulatory requirements, our audit was not planned to satisfy all objectives or responsibilities of insurance regulators. In this context, the Company and the insurance commissioners should understand that the objective of an audit of statutory financial statements in accordance with generally accepted auditing standards is to form an opinion and issue a report on whether the statutory financial statements present fairly in all material respects, the admitted assets, liabilities, and capital and surplus, results of operations and cash flow in conformity with accounting practices prescribed or permitted by the Insurance Department of [name of state of domicile]. Consequently, under generally accepted auditing standards, we have the responsibility, within the inherent limitations of the auditing process, to design plan and perform our audit to obtain reasonable assurance about whether the statutory financial statements are free of material misstatement, whether caused by error or fraud, ~~that errors and irregularities that have a material effect on the statutory financial statements will be detected~~ and to exercise due professional care in the conduct of the audit. The concept of selective testing of the data being audited, which involves judgment both as to the number of transactions to be audited and the areas to be tested, has been generally accepted as a valid and sufficient basis for an auditor to express an opinion on financial statements. Audit procedures that are effective for detecting errors, if they exist, may be ineffective for detecting ~~irregularities~~ misstatements resulting from fraud. Because of the characteristics of ~~irregularities~~ fraud, particularly those involving ~~forgery and collusion, a properly designed and executed~~ concealment and falsified documentation (including forgery), a properly planned and performed audit may not detect a material ~~irregularity~~ misstatement resulting from fraud. In addition, an audit does not address the possibility that material ~~errors or irregularities~~ misstatements caused by fraud may occur in the future. Also, our use of professional judgment and the assessment of materiality for the purpose of our audit means that matters may exist that would have been assessed differently by insurance commissioners.

It is the responsibility of the management of the Company to adopt sound accounting policies, to maintain an adequate and effective system of accounts, and to establish and maintain an internal control ~~structure~~ that will, among other things, provide reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with accounting practices prescribed or permitted by the Insurance Department of [name of state of domicile].

The Insurance Commissioner should exercise due diligence to obtain whatever other information that may be necessary for the purpose of monitoring and regulating the statutory financial position of insurers and should not rely solely upon the independent auditor's report.

**Executive Summary—Regulatory Developments**

- The NAIC has completed its project of codifying statutory accounting practices (SAP) for certain insurance enterprises. The effective date for codification is January 1, 2001. The AICPA is reviewing its guidance on reporting on SAP and will modify existing guidance as deemed necessary.
- Changes to the accountant's letter of qualifications in SOP 95-4 have been made to comply with SAS No. 82.

## Audit Issues

### Reinsurance Arrangements

#### *What should an auditor know about reinsurance arrangements?*

.22 Reinsurance is an important part of many insurance companies' business, and accordingly it is important for auditors to obtain an understanding of the reinsurance programs of the insurance companies they audit. The lack of an adequate reinsurance program may expose an insurance enterprise to risks that can jeopardize its financial stability, particularly if its risks are concentrated by type or geographic area. In contrast, excessive reinsurance coverage can significantly reduce the margins available to cover fixed expenses.

.23 A class of reinsurance agreements has been evolving in the insurance industry. Such contracts have the characteristics of derivative financial instruments and raise significant accounting issues, including whether—

- The insurance risk-transfer criteria of FASB Statement No. 113, *Accounting and Reporting for Reinsurance of Short-Duration and Long-Duration Contracts* (FASB, *Current Text*, vol. 2, sec. In6), have been met.
- How to apply deposit accounting to such contracts that do not meet the insurance risk-transfer criteria of FASB Statement No. 113. (AcSEC will release its final SOP by the end of 1998, effective for years beginning after June 15, 1999.)
- In substance, the contract is a derivative financial instrument and, if so, what accounting is appropriate. Each contract should be evaluated based on the facts and circumstances. (FASB Statement No. 133 may be deemed to be applicable, which is effective for all fiscal quarters of fiscal years beginning after June 15, 1999. See the "New Accounting Developments" section of this Alert for a discussion of FASB Statement No. 133.)

A number of these new variations of traditional reinsurance contracts are perceived to be vehicles for insurance companies to better manage or fund their catastrophe exposures. Auditors should be aware that these kinds of reinsurance arrangements may also indicate increased audit risk.

### *Risk-Transfer Issues*

.24 Paragraph 9 of FASB Statement No. 113 provides the following two risk-transfer conditions, both of which must be met for short-duration reinsurance contracts to be accounted for as reinsurance:

1. The reinsurer assumes significant insurance risk under the reinsured portions of the underlying insurance contracts.
2. It is reasonably possible that the reinsurer may realize a significant loss from the transaction.

Contracts that do not meet the conditions for reinsurance accounting should be accounted for as deposits. Some contracts may be difficult to evaluate, such as nonassumption reinsurance. Auditors should carefully evaluate all significant contracts.

.25 For many reinsurance contracts, a great deal of judgment is involved in determining whether the risk-transfer conditions are met, particularly for multiple-year, retrospectively rated reinsurance contracts with one or more adjustable features and contracts with undefined terms. Such contracts have become increasingly complex, containing many varieties of terms and features that may influence the assessment of risk transfer. Auditors should consider the guidance in EITF Issue Nos. 93-6, *Accounting for Multiple-Year Retrospectively Rated Insurance Contracts by Ceding and Assuming Enterprises*, and 93-14, *Accounting for Multiple-Year Retrospectively Rated Insurance Contracts by Insurance Enterprises and Other Enterprises*.

### ***Reserve Guarantees***

.26 The FASB made two staff announcements at EITF meetings, one in November 1996 and one in November 1997, regarding the accounting by the purchaser for a seller's guarantee of the adequacy of liabilities for losses and loss-adjustment expenses of an insurance enterprise acquired in a purchase business combination. The announcements can be found in *EITF Abstracts*, Topic D-54, and provide guidance about what accounting guidance should be applied to certain transactions where loss and loss-adjustment expenses are guaranteed in a business combination accounted for as a purchase.

### ***Reinsurance Recoverables***

.27 An important audit procedure in the reinsurance area is the evaluation of credit risk related to reinsurance recoverables. The AICPA Audit and Accounting Guide *Audits of Property and Liability Insurance Companies* discusses the controls or procedures that ceding companies should implement to evaluate and monitor the financial stability of assuming companies. In addition, the AICPA Industry Guide *Audits of Stock Life Insurance Companies*<sup>2</sup> includes as an appendix the SOP, *Auditing Life Reinsurance*, which provides guidance on auditing reinsurance for life and health insurance enterprises.

### ***Disclosures About Reinsurance***

.28 Auditors should consider whether the disclosures of concentrations of credit risk associated with reinsurance receivables and prepaid reinsurance premiums are adequate as required by the provisions of FASB Statement No. 105, *Disclosure of Information about Financial Instruments with Off-Balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk* (FASB, *Current Text*, vol. 1, sec. F25). Furthermore, auditors of financial statements of publicly held insurance companies should be aware that the SEC staff has expressed concern about the adequacy of disclosures regarding reinsurance arrangements. The SEC staff expects registrants with material reinsurance recoverables to disclose information about the composition and quality of the asset balances. Meeting the SEC staff expectations may involve the identification of individually material reinsurers and may also require disclosure of the reinsurers' related balances. If the aggregate recoverable consists primarily of numerous small balances, breakdowns of the aggregate according to claims-paying ratings also may be necessary. Significant delinquent balances and allowances for uncollectible amounts should be disclosed, as should significant transactions and balances with related parties.

### ***Reinsurance Arrangements and Statutory Capital and Surplus***

.29 Paragraph 60(h) of FASB Statement No. 60, *Accounting and Reporting by Insurance Enterprises* (FASB, *Current Text*, vol. 2, sec. In6), requires that financial statements contain disclosures regarding the amount of statutory capital and surplus of insurance enterprises calculated pursuant to state-mandated SAP. Auditors of insurance enterprises should carefully review reinsurance agreements and consider corresponding directly with state insurance departments to obtain sufficient evidence that material amounts of reserve credits used to reduce statutory reserves and increase the insurance enterprise's statutory capital and surplus have been properly computed in accordance with state laws. Most state insurance laws prohibit insurance enterprises from recognizing reserve credits pursuant to reinsurance agreements that do not transfer a sufficient amount of risk to the reinsurer. If material amounts of reserve credits associated with reinsurance arrangements do not qualify under state law, statutory capital and surplus may be materially misstated. Further, failure to meet the state's minimum capital and surplus requirements can lead to state-imposed restrictions on the enterprise's ability to sell insurance products in the state and its ability to distribute dividends and may call into question an enterprise's ability to operate as a going concern. In these situations, auditors should refer to SAS No. 59, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern* (AICPA, *Professional Standards*, vol. 1, AU sec. 341).

---

<sup>2</sup> On September 4, 1998, the AICPA released for public comment proposed Audit and Accounting Guide *Life and Health Insurance Entities* that will supersede the current guide upon final issuance.

### Executive Summary—Reinsurance Arrangements

- An evolving class of reinsurance agreements that have the characteristics of derivatives has been evolving in the insurance industry. These derivative-like agreements raise significant issues, including whether FASB Statement No. 113 risk-transfer criteria have been met, and what accounting is appropriate. The existence of these agreements may increase audit risk.
- Certain reinsurance contracts, such as nonassumption reinsurance, and multiple-year, retrospectively rated reinsurance, may be difficult to evaluate in determining whether FASB Statement No. 113 risk transfer conditions are met, in order to apply reinsurance accounting. Auditors should carefully evaluate all significant contracts.
- EITF Topic D-54 provides recent guidance about reserve guarantees.
- The SEC staff expects registrants with material reinsurance recoverables to disclose information about the composition and quality of the asset balances.
- Auditors should consider corresponding with state insurance departments to obtain sufficient evidence that material amounts of reserve credits used to reduce statutory reserves and increase the insurance enterprise's statutory capital and surplus have been properly computed in accordance with state laws.

## Liabilities for Unpaid Claims

*Do conditions exist that make liabilities for unpaid claims a high-risk audit area?*

.30 The liability for unpaid claims is inherently a high-risk audit area for several reasons. First, the liability is significant to property and casualty insurers' balance sheets and earnings. Second, estimating the amount to report is usually highly subjective. Finally, history shows that these estimates will continuously change for long-tailed business.

.31 A number of conditions may be particularly indicative of a higher risk audit. They include the circumstances described in the following sections.

### *Exposure to Environmental and Asbestos-Related Claims*

.32 The ultimate exposure of insurers to environmental and asbestos-related claims is subject to an unusually high degree of uncertainty. Since the early 1980s, certain environmental and asbestos exposures have been a major concern for insurance enterprises. There is still significant uncertainty surrounding defendant activity, unresolved coverage issues, and policy and claim data availability issues for many insurers.

.33 FASB Statement No. 113 requires that the assets and liabilities relating to reinsured contracts be recorded on a gross basis without netting of reinsurance receivables against claim reserves. FASB Statement No. 5, *Accounting for Contingencies* (FASB, *Current Text*, vol. 1, sec. C59), and SEC SAB No. 92, *Accounting and Disclosures Relating to Loss Contingencies*, provide that if there is at least a reasonable possibility that a loss exceeding amounts already recognized may have been incurred and the amount of the loss would be material, the enterprise must either (1) disclose the estimated additional loss or range of loss or (2) state that the loss cannot be estimated. Disclosure of the gross amounts of reasonably possible losses is required. Disclosure of the gross amounts of the reasonably possible reinsurance recoveries may be made, but care should be exercised to avoid misleading implications about the likelihood of realization of such recoveries. Auditors of insurance enterprises that face environmental and asbestos claims should carefully evaluate whether the accounting and disclosure requirements of SOP 94-5, *Disclosures of Certain Matters in the Financial Statements of Insurance Enterprises*, FASB Statement No. 5, and SAB No. 92 have been met. AcSEC is current-

ly working on a project to develop a proposed SOP, *Accounting for Mass Tort Exposures of Insurance Enterprise Including Environmental and Asbestos Claims*, and anticipates releasing an exposure draft in the second quarter of 1999.

### ***Estimating Environmental Claim Losses***

.34 As indicated in SAB No. 92, an insurance enterprise that is estimating reserves for environmental contamination claims should consider available evidence, including a particular policyholder's prior experience in the remediation of contaminated sites, other companies' clean-up experience, and data released by the Environmental Protection Agency or other organizations. The continued expansion of environmental databases has resulted in the availability of more information to support a reasonable estimate of the amount or range of loss. When evaluating an insurance enterprise's reserves for environmental contamination claims, the auditor should consider the evidence currently provided by these expanded environmental databases.

.35 Furthermore, the auditors of publicly held insurance companies should consider whether the disclosures are in accordance with the requirements of SAB No. 87, *Views on Contingency Disclosures on Property-Casualty Insurance Reserves for Unpaid Claim Costs*.

### ***Long-Term Exposures***

.36 Long-term exposures (commonly referred to as mass tort exposures) involve bodily injury or property damage that arises from and is related to exposure over time to any alleged toxic, harmful, or defective material, device, substance, agent, activity, or condition, including but not limited to chemicals, drugs, petroleum-based products, pharmaceutical products, medical devices, radiation, noise, electromagnetic fields, or repetitive motion. Recent reports indicate that insurers may be liable to cover certain long-term exposures that range from tobacco-related illnesses to injuries caused by use of computer equipment, such as carpal tunnel syndrome. The extent to which claims will be made by tobacco companies on their insurance carriers remains unclear. Auditors should consider these potential exposures when evaluating a company's loss reserves and adequacy of related disclosures.

### ***Changes in Product Mix to More Long-Tail Lines of Business***

.37 This factor would usually indicate more uncertainty in determining the ultimate exposure to claims.

### ***Intense Price Competition and Unexplained Premium Growth***

.38 Intense price competition may lead to unsound pricing, crediting, or dividend policies that may be evidenced in unexplained premium growth. Market pressures may lead insurers to accept unanticipated risks or to price risks inappropriately, which also could affect the recoverability of deferred acquisition costs and result in premium deficiencies.

### ***Participation in Involuntary Pools***

.39 Insurance enterprises continue to be exposed to large amounts of claims through their participation in involuntary pools and associations. This factor may indicate increased exposure to loss development from previously reported results.

.40 SAS No. 57, *Auditing Accounting Estimates*, provides guidance to auditors on obtaining and evaluating sufficient competent evidential matter to support significant accounting estimates in an audit of financial statements in accordance with GAAS. SOP 92-4, *Auditing Insurance Entities' Loss Reserves*, provides guidance to help auditors understand the loss-reserving process and to develop an effective audit approach when auditing loss reserves of insurance entities.

**Executive Summary—Liabilities for Unpaid Claims**

- Auditors of insurance enterprises that face environmental and asbestos claims should evaluate whether the accounting and disclosure requirements of SOP 94-5, FASB Statement No. 5, and SAB No. 92 have been met.
- When evaluating reserves and disclosures related to environmental contamination claims, the auditor should consider the evidence provided by environmental databases, and the requirements of SAB No. 87.
- Auditors may want to consider potential exposure to tobacco-related illnesses and injuries related to extensive computer use when evaluating a company's loss reserves and the adequacy of related disclosures.
- Auditors should be alert to unsound pricing, crediting, or dividend policies, evidenced by unexplained premium growth.
- Auditors should be familiar with the guidance contained in SAS No. 57 and SOP 92-4, when auditing loss reserves.

**Surplus Enhancement**

*What are some matters an auditor should be on the lookout for concerning surplus enhancement?*

.41 In all audits of GAAP-basis and SAP-basis financial statements, consideration should be given to the effects of unusual transactions as well as audit differences on solvency and the adequacy of the company's SAP-basis capital and surplus. Auditors should evaluate transactions that materially affect SAP-basis income or surplus, or transactions for which the proposed effects on SAP-basis financial statements would be substantially different from the effects on GAAP-basis financial statements. That evaluation is especially important when an insurer's surplus is at or near minimum levels or when an insurer's risk-based capital ratio is at or near a regulatory action or control level.

.42 In addition, auditors should be alert for significant and unusual transactions or events at or near year end that may require significant judgment as to the proper accounting treatment, including:

- Financially oriented reinsurance transactions.
- Parking of securities.
- Loaning or borrowing securities.
- Intercompany transactions.
- Transactions involving special-purpose entities.
- Asset swaps.
- Asset reclassifications.
- Other types of potential "window dressing" transactions.

**Investments in Hedge Funds**

*Are there special concerns this year related to investments in hedge funds?*

.43 A hedge fund is a private-investment limited partnership that invests in a variety of securities. The hedge fund often uses money from investors to speculate on the difference in interest rates among securities and frequently trades in initial public offerings. Hedge funds use computer modeling and derivatives (which are often complex financial instruments whose value is derived from an underlying security, commodity, or asset) in hopes of producing a profit.

.44 There are two types of partners in a hedge fund, a general partner and limited partners. The general partner is the individual or entity who started the hedge fund. The general partner also handles all the trading activity and day-to-day operations of running a hedge fund. The limited partners supply most of the capital but do not participate in trading or day-to-day activities of running the hedge fund.

.45 Hedge funds typically engage in complicated trading strategies. Such strategies, designed to “hedge” investors from changes in currency and interest rates, require traders to predict the direction of those changes. Recently, a severe global economic and financial crisis has occurred, rendering the trading strategies of some hedge funds inadequate and causing serious losses. As investments broke down, hedge fund operators struggled to meet the demand for investor redemptions and margin calls from lenders who had financed the fund’s investments. In one well-publicized case, the Federal Reserve Bank organized a \$3.6 billion private bailout of Long-Term Capital Management Fund, L.P., a huge hedge fund with an estimated \$1.25 trillion exposure to international markets. The Federal Reserve Bank feared that the fund’s imminent collapse would further damage world markets.

.46 Currently, hedge funds are not subject to the same kind of strict disclosure requirements and oversight rules as mutual funds and are not currently required to disclose investors’ names or investment strategies. Banks, brokerage firms, and other financial institutions lending to a fund that collapses could face substantial losses, and unwinding of the fund’s positions could spur panic selling and losses for other investors.

.47 Auditors should be aware if their clients invest in hedge funds and should assess the risk related to those investments in light of the current difficulties some hedge funds are experiencing. SAS No. 81, *Auditing Investments* (AICPA, *Professional Standards*, vol. 1, AU sec. 332), provides guidance on auditing investments. Auditors should also consider whether disclosure in the financial statements is necessary.

## Investments in Derivatives

*When an insurance company invests in derivatives, what should an auditor be concerned with?*

.48 For many companies, proper asset and liability management requires the use of derivative products. Insurance companies enter into derivative contracts for a variety of reasons, including investing, trading, and hedging. In recent years, the use of innovative financial instruments that are often complex and involve a substantial exposure to loss in the form of credit, market, pricing, and liquidity risk has become more frequent. Users and issuers of derivatives need the expertise to understand and manage the related risks. The use of derivatives creates unique audit concerns and may increase audit risk. For companies that use derivatives, an auditor’s assessment of audit risk requires an evaluation of the client’s systems and risk-management strategies.

.49 It is essential that auditors understand both the economics of derivatives used by their clients and the nature and business purpose of their clients’ derivative activities. In addition, auditors should carefully evaluate their clients’ accounting for such instruments.

.50 The determination of the fair value of derivative financial instruments may be a highly complicated matter. Varying methodologies can produce valuations that are materially different. Accordingly, along with understanding the products, the auditor should identify how the products are valued by the company and how those market valuations are independently verified.

.51 The fair value of certain securities and derivatives, such as exchange-traded options, generally is available from independent pricing sources (for example, financial publications and broker-dealers not affiliated with the entity). Determining fair value can be particularly difficult, however, if a transaction has been customized to meet individual user needs. Determining the value of customized interest rate swaps,

for example, requires various quantitative assumptions and modeling. Determining values for financial instruments that contain embedded derivatives requires complicated analysis using statistical modeling with numerous subjective inputs. Calculations of fair value for derivatives are complicated by the subjective value adjustments that are dependent on the specifics of the transaction, such as association of credit risk with the specified counter-party. Complex valuation models also involve risk of errors in data entry or assumptions, or the adequacy of the model.

.52 In auditing the values of derivatives, it is important to remember that in many cases quotations solely from a broker that is a counterparty to the transaction will not provide sufficient audit evidence to support the underlying value. Auditors should consider consulting with a valuation expert to test client valuations or to perform sensitivity analyses on the resulting values. Auditors should evaluate the work of any specialist used as required by SAS No. 73.

.53 In June 1998, the FASB issued Statement No. 133. See the “New Accounting Developments” section of this Alert for a description of the requirements of FASB Statement No. 133.

## International Matters

### *Will international accounting standards for insurance companies be developed?*

.54 The insurance industry, like many other industries, has entered the international arena. Certain differences exist between the U.S. insurance accounting model and other countries’ accounting models. Difficulties may arise when the U.S. accounting model is applied to non-U.S. insurance products, such as unit-linked products or non-U.S. participating contracts. The International Accounting Standards Committee (IASC) has set up a working group of practitioners and industry representatives from various countries to develop international accounting standards for insurance transactions. The IASC expects to expose an issues paper in early 1999 identifying all the insurance accounting issues for all countries.

## The Third Millennium Bug

### *What is the Year 2000 Issue and how will it affect insurance companies?*

.55 The inability of most computer programs to distinguish the year 1900 AD from the year 2000 AD poses substantial risks to all insurance enterprises. A significant number of computer operating systems and programs currently in use have six-digit date fields (YY/MM/DD), which represent, for example, December 31, 1999, by 99/12/31. The six-digit field, with only two digits for the year, is the basis for all date-related calculations within most computer systems today, particularly mainframes. The fundamental problem posed for these systems by the arrival of the year 2000 is that they have no way of expressing a date past year end 1999; 00/01/01 will be interpreted by them as January 1, 1900.

.56 The year 2000 problem is pervasive and complex. Virtually every organization will have its computing operations affected in some way by the rollover of the two-digit year value to 00. Insurance enterprises, service providers, and vendors need to address the risks associated with the coming millennium. Assuring that computer systems and applications are year 2000-compliant presents a complex managerial and technological challenge for all enterprises, both public and private. Achieving year 2000 compliance in mission-critical systems is essential not only for maintaining the quality and continuity of services, but also for assuring the very survival of the entity itself.

.57 The year 2000 is not only an information systems issue, but also an enterprise wide challenge that must be addressed at the very highest level of an insurance enterprise. Senior management and the board of directors should actively manage efforts to plan, allocate resources, and monitor progress to correct year 2000 problems.

## Auditing Issues

.58 First, it must be understood that it is the responsibility of an enterprise's management—not of the auditor—to assess and remedy the effects of the year 2000 on an entity's systems. Under GAAS, the auditor has a responsibility to plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. Thus, the auditor's responsibility relates to the detection of material misstatement of the financial statements being audited, whether caused by the year 2000 or by some other cause.

.59 Many auditing and accounting issues exist related to the Year 2000 Issue, including audit planning, going-concern issues, establishing an understanding with the client, valuation, impairment, revenue and expense recognition, and disclosure. These issues are fully discussed in the AICPA general *Audit Risk Alert—1998/99* [AAM section 8010]. Auditors should be aware of these auditing and accounting issues and should understand the various auditing and accounting guidance that has been issued on the Year 2000 Issue. The general *Audit Risk Alert—1998/99* [AAM section 8010] can be obtained by calling the AICPA Order Department at (888) 777-7077.

## Permitted Statutory Accounting Practices

*If an insurance company uses "permitted accounting practices,"  
what guidance should an auditor follow?*

.60 Prescribed SAP are dispersed among the following:

- The insurance laws, regulations, and administrative rulings of each state
- The NAIC *Accounting Practices and Procedures* manuals
- The NAIC *Annual Statement Instructions*
- The NAIC *Financial Condition Examiners Handbook*
- The NAIC *Purposes and Procedures of the Securities Valuation Office* manual
- NAIC committee, task force, and working group minutes

.61 If an insurance company adopts an accounting practice (including an actuarial practice with accounting implications) that is not specifically prescribed in one of the aforementioned sources, that practice often is referred to as a permitted accounting practice. In that situation, the insurer should have received permission to use that practice from its domiciliary insurance department. Nevertheless, many insurers have considered certain accounting practices to be permitted even though they had not received specific written permission from their domiciliary insurance departments. Companies considered those practices permitted under a variety of circumstances, including the following:

- The practice had not been challenged during a regulatory examination.
- The practice was being used by other insurers.
- The company had notified the insurance department of the accounting practice but had not received a response.

.62 SOP 94-1, *Inquiries of State Insurance Regulators*, requires that, if a permitted accounting practice is material to an insurance enterprise's financial statements, the auditor obtain sufficient competent evidential matter to corroborate management's assertion that the accounting treatment is permitted. In many situations, that requirement will cause the auditor to obtain written confirmation, on an annual basis, from the domiciliary state insurance department that the accounting practice continues to be permissible.

.63 If the financial effect of such permitted practices is material, either individually or in the aggregate, to a company's SAP-basis surplus, sufficient competent evidential matter should be received before the issuance of an auditor's report on either the company's GAAP-basis or SAP-basis financial statements. When an auditor is unable to obtain such competent evidential matter for material permitted accounting practices, auditors should consider a qualification or disclaimer in their auditors' opinion on the GAAP-basis and the SAP-basis financial statements due to a scope limitation in accordance with SAS No. 58, *Reports on Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1, AU sec. 508).

## New Auditing and Attestation Developments

### *What new auditing and attestation standards have been issued?*

.64 Presented below are descriptions of recently issued auditing and attestation pronouncements that may be applicable to insurance enterprises. For a complete list and description of all new auditing and attestation developments, including Audit Issues Task Force (AITF) Interpretations and AITF Advisories, auditors should read the AICPA general *Audit Risk Alert—1998/99* [AAM section 8010]. Call the AICPA Order Department at (888) 777-7077 to order.

### New Auditing Standards

#### **SAS No. 86, Amendment to Statement on Auditing Standards No. 72, Letters for Underwriters and Certain Other Requesting Parties**

.65 The Auditing Standards Board (ASB) issued SAS No. 86, *Amendment to Statement on Auditing Standards No. 72, Letters for Underwriters and Certain Other Requesting Parties* (AICPA, *Professional Standards*, vol. 1, AU sec. 634), in March 1998 to reflect the issuance of Statement on Standards for Auditing Engagements (SSAE) No. 8, *Management's Discussion and Analysis* (AICPA, *Professional Standards*, vol. 1, AT sec. 700). SAS No. 86 allows practitioners that have examined or reviewed management's discussion and analysis (MD&A) in accordance with the provisions of SSAE No. 8 to state that fact in the introductory section of the comfort letter (a special type of agreed-upon procedures report that may be issued in connection with a securities offering) and attach a copy of the SSAE No. 8 report to the comfort letter. SAS No. 86 presents examples of comfort letters that contain references to either an examination of annual MD&A or a review of interim MD&A. SAS No. 86 is effective for comfort letters issued on or after June 30, 1998.

#### **SAS No. 87, Restricting the Use of an Auditor's Report**

.66 The ASB issued SAS No. 87, *Restricting the Use of an Auditor's Report*, in September 1998, and it is effective for reports issued after December 31, 1998. SAS No. 87 provides guidance to auditors in determining whether an engagement requires a restricted-use report and, if so, what elements to include in that report. The SAS states that an auditor should restrict the use of a report when—

- The subject matter of the auditor's report or the presentation being reported on is based on measurement or disclosure criteria contained in contractual agreements or regulatory provisions that are not in conformity with GAAP or OCBOA.
- The accountant's report is based on procedures that are specifically designed and performed to satisfy the needs of specified parties who accept responsibility for the sufficiency of the procedures.
- The auditor's report is issued as a by-product of a financial statement audit and is based on the results of procedures designed to enable the auditor to express an opinion on the financial statements taken as a whole, not to provide assurance on the specific subject matter of the report.

In addition to describing the circumstances in which the use of an auditor's report should be restricted, SAS No. 87, among other things, defines the terms *general use* and *restricted use*, specifies the language to be used

in restricted-use reports, and requires an auditor to restrict a combined report if it covers subject matter or presentations that ordinarily do not require a restriction on use and subject matter or presentations that require such a restriction. It permits auditors to include a separate general-use report in a document that also contains a restricted-use report.

### **SAS No. 21, Segment Information—Rescinded**

.67 SAS No. 21, *Segment Information* (AICPA, *Professional Standards*, vol. 1, AU sec. 435), contained guidance for auditing disclosures made in accordance with the provisions of FASB Statement No. 14, *Financial Reporting for Segments of a Business Enterprise* (FASB, *Current Text*, vol. 1, sec. S20). FASB Statement No. 14 was superseded upon the issuance of FASB Statement No. 131, *Disclosures about Segments of an Enterprise and Related Information*, which is effective for fiscal years beginning after December 15, 1997. Accordingly, the ASB has rescinded SAS No. 21 effective for audits of financial statements to which FASB Statement No. 131 has been applied. In its place, auditing Interpretation No. 4, “Applying Auditing Procedures to Segment Disclosures in Financial Statements,” of SAS No. 31, *Evidential Matter* (AICPA, *Professional Standards*, vol. 1, AU sec. 9326.22–35), has been issued. See the “New Auditing Interpretations and AITF Advisory” section of the general *Audit Risk Alert—1998/99* [AAM section 8010] for a more detailed discussion of the new Interpretation.

### **New Attestation Standard**

.68 Issued by the ASB in March 1998, SSAE No. 8, *Management’s Discussion and Analysis*, provides guidance to a practitioner concerning the performance of a review or examination of MD&A prepared pursuant to the SEC’s rules and regulations. The presentation of MD&A in annual reports to shareholders and in other documents constitutes a written assertion upon which an attest engagement may be performed. Specifically, SSAE No. 8—

1. Sets conditions for engagement performance for both examinations and reviews of MD&A.
2. Provides extensive guidance on planning, performing, and reporting on examinations and reviews of MD&A.
3. Provides a comparison of activities performed for engagements covered by SAS No. 8, *Other Information in Documents Containing Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1, AU sec. 550), with those performed under SSAE No. 8.

SSAE No. 8 became effective upon issuance.

.69 In September 1998, the ASB voted to issue the exposure draft *Amendments to SSAE No. 1, Attestation Standards; SSAE No. 2, Reporting on an Entity’s Internal Control Over Financial Reporting; SSAE No. 3, Compliance Attestation* as a final standard. See the “Exposure Draft Issued by the Auditing Standards Board” section of the general *Audit Risk Alert—1998/99* [AAM section 8010] for further information.

### **New Statement of Position**

.70 In April 1998, SOP 98-6, *Reporting on Management’s Assessment Pursuant to the Life Insurance Ethical Market Conduct Program of the Insurance Marketplace Standards Association*, was issued under the authority of the ASB. This SOP pertains to the sales and marketing policies and procedures of life insurance entities. The SOP provides guidance to practitioners in conducting and reporting on an independent examination of management’s assertion about those policies and procedures performed under SSAE No. 1, *Attestation Standards* (AICPA, *Professional Standards*, vol. 1, AT sec. 100), to assist an entity in meeting the requirements of the Insurance Marketplace Standards Association (IMSA) program. IMSA requires that such engagements use the criteria it sets forth; consequently, users of this SOP should be familiar with the IMSA program and its Assessment Handbook and requirements.

.71 This SOP amends chapter 9, "Auditors Reports," of the AICPA Audit and Accounting Guide *Audits of Property and Liability Insurance Companies* and chapter 11, "Auditors' Reports," of the AICPA Industry Audit Guide *Audits of Stock Life Insurance Companies*.

### ***Life and Health Insurance Entities Audit and Accounting Guide***

.72 On September 4, 1998, the AICPA released for public comment a proposed Audit and Accounting Guide, *Life and Health Insurance Entities*. The proposed Guide would supersede the AICPA Industry Audit Guide *Audits of Stock Life Insurance Companies*. Comments are due December 4, 1998.

.73 The proposed Guide discusses those aspects of accounting and auditing unique to life and health insurance entities; it was developed to assist life and health insurance entities in preparing financial statements in conformity with GAAP and to assist independent auditors in auditing and reporting on those financial statements. In addition, the proposed Guide contains significant discussions of SAP, including laws, regulations, and administrative rulings adopted by the various states that govern the operations and reporting requirements of life insurance entities. The proposed Guide does not reflect SAP under the NAIC codification and will be updated to reflect those standards during the exposure period.

.74 The proposed Guide also incorporates accounting and financial reporting requirements issued by the FASB and the AcSEC since the issuance of the AICPA Industry Audit Guide *Audits of Stock Life Insurance Companies*. Also incorporated in this proposed Guide are new auditing standards issued by the ASB since the issuance of original audit and accounting guide.

.75 The proposed Audit and Accounting Guide *Life and Health Insurance Entities* is not intended to establish any new accounting standards or interpret any existing accounting standards, except for the inclusion of an SEC staff announcement of the accounting for the interaction of (a) unrealized gains and losses reported for marketable securities classified as available for sale under FASB Statement No. 115 and (b) minority interest, liabilities for Guaranteed Interest Contracts (GICs), and policyholders' share of investment results with assets, in particular, deferred policy acquisition costs (DAC) and present value of future profits of acquired life insurance companies made at the July 12, 1994, EITF meeting.

.76 One free copy of the exposure draft can be obtained from the AICPA Order Department by calling (888) 777-7077 and asking for Product No. 800122. The exposure draft is also available on the AICPA Web site ([www.aicpa.org](http://www.aicpa.org)). Written comments should reference File 3162.LG and be emailed to [elehnert@aicpa.org](mailto:elehnert@aicpa.org) or sent to Elaine M. Lehnert, Technical Manager, Accounting Standards, AICPA, 1211 Avenue of the Americas, New York, NY 10036-8775.

#### **Executive Summary—New Auditing and Attestation Developments**

- See the AICPA general *Audit Risk Alert—1998/99* [AAM section 8010] for a thorough listing of new auditing and attestation developments.
- SAS No. 86, Amendment to SAS No. 72, *Letters for Underwriters and Certain Other Requesting Parties*
- SAS No. 87, *Restricting the Use of an Auditor's Report*
- SAS No. 21, *Segment Information—Rescinded*
- SSAE No. 8, *Management's Discussion and Analysis*
- SOP 98-6, *Reporting on Management's Assessment Pursuant to the Life Insurance Ethical Market Conduct Program of the Insurance Marketplace Standards Association*
- Proposed Audit and Accounting Guide *Life and Health Insurance Entities*

## New Accounting Developments

### *What new accounting developments have occurred?*

.77 Presented below are descriptions of some recent accounting developments that may affect the financial statements of insurance enterprises. Auditors should read the AICPA general *Audit Risk Alert—1998/99* [AAM section 8010] for a complete listing and description of recent GAAP developments, including FASB EITF consensus positions and AICPA SOPs. Call the AICPA Order Department at (888) 777-7077 to order.

### New FASB Statements

#### **FASB Statement No. 132, Employers' Disclosures about Pensions and Other Postretirement Benefits, an amendment of FASB Statements No. 87, 88, and 106**

.78 In February 1998, the FASB issued Statement No. 132, *Employers' Disclosures about Pensions and Other Postretirement Benefits, an amendment of FASB Statements No. 87, 88, and 106* (FASB, *Current Text*, vol. 1, secs. P16 and P40). FASB Statement No. 132 revises employers' disclosures about pension and other postretirement benefit plans. It does not change the measurement or recognition of those plans. It standardizes the disclosure requirements for pensions and other postretirement benefits to the extent practicable, requires additional information on changes in the benefit obligations and fair values of plan assets that will facilitate financial analysis, and eliminates certain disclosures that are no longer as useful as they were when FASB Statements No. 87, *Employers' Accounting for Pensions* (FASB, *Current Text*, vol. 1, sec. P16), No. 88, *Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits* (FASB, *Current Text*, vol. 1, sec. P16), and No. 106, *Employers' Accounting for Postretirement Benefits Other Than Pensions* (FASB, *Current Text*, vol. 1, sec. P40), were issued. Statement No. 132 suggests combined formats for presentation of pension and other postretirement benefit disclosures. It also permits reduced disclosures for nonpublic entities.

.79 Statement No. 132 is effective for fiscal years beginning after December 15, 1997. Earlier application is encouraged. Restatement of disclosures for earlier periods provided for comparative purposes is required unless the information is not readily available, in which case the notes to the financial statements should include all available information and a description of the information not available.

#### **FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities**

.80 In June 1998, the FASB issued Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*. FASB Statement No. 133 establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities. It requires that an entity recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. If certain conditions are met, a derivative may be specifically designated as (a) a hedge of the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment; (b) a hedge of the exposure to variable cash flows of a forecasted transaction; or (c) a hedge of the foreign-currency exposure of a net investment in a foreign operation, an unrecognized firm commitment, an available-for-sale security, or a foreign-currency-denominated forecasted transaction.

.81 The accounting for changes in the fair value of a derivative (that is, gains and losses) depends on the intended use of the derivative and the resulting designation.

.82 For a derivative designated as hedging the exposure to changes in the fair value of a recognized asset or liability or a firm commitment (referred to as a fair-value hedge), the gain or loss is recognized in earnings

in the period of change together with the offsetting loss or gain on the hedged item attributable to the risk being hedged. The effect of that accounting is to reflect in earnings the extent to which the hedge is not effective in achieving offsetting changes in fair value.

.83 For a derivative designated as hedging the exposure to variable cash flows of a forecasted transaction (referred to as a cash-flow hedge), the effective portion of the derivative's gain or loss is initially reported as a component of other comprehensive income (outside earnings) and subsequently reclassified into earnings when the forecasted transaction affects earnings. The ineffective portion of the gain or loss is reported in earnings immediately.

.84 For a derivative designated as hedging the foreign-currency exposure of a net investment in a foreign operation, the gain or loss is reported in other comprehensive income (outside earnings) as part of the cumulative translation adjustment. The accounting for a fair-value hedge described above applies to a derivative designated as a hedge of the foreign-currency exposure of an unrecognized firm commitment or an available-for-sale security. Similarly, the accounting for a cash-flow hedge described earlier applies to a derivative designated as a hedge of the foreign-currency exposure of a foreign-currency-denominated forecasted transaction.

.85 For a derivative not designated as a hedging instrument, the gain or loss is recognized in earnings in the period of change.

.86 Under FASB Statement No. 133, an entity that elects to apply hedge accounting is required to establish, at the inception of the hedge, the method it will use for assessing the effectiveness of the hedging derivative and the measurement approach for determining the ineffective aspect of the hedge. Those methods must be consistent with the entity's approach to managing risk.

.87 FASB Statement No. 133 precludes designating a nonderivative financial instrument as a hedge of an asset, liability, unrecognized firm commitment, or forecasted transaction, except that a nonderivative instrument denominated in a foreign currency may be designated as a hedge of the foreign-currency exposure of an unrecognized firm commitment denominated in a foreign currency or a net investment in a foreign operation.

.88 FASB Statement No. 133 amends FASB Statement No. 52, *Foreign Currency Translation* (FASB, *Current Text*, vol. 1, sec. F60), to permit special accounting for a hedge of a foreign-currency-forecasted transaction with a derivative. It supersedes FASB Statements No. 80, *Accounting for Futures Contracts* (FASB, *Current Text*, vol. 1, sec. F80), No. 105, *Disclosure of Information about Financial Instruments with Off-Balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk*, and No. 119, *Disclosure about Derivative Financial Instruments and Fair Value of Financial Instruments* (FASB, *Current Text*, vol. 1, sec. F25). It amends FASB Statement No. 107 to include in FASB Statement No. 107 the disclosure provisions about concentrations of credit risk from FASB Statement No. 105. Statement No. 133 also nullifies or modifies the consensuses reached in a number of issues addressed by the EITF.

.89 FASB Statement No. 133 is effective for all fiscal quarters of fiscal years beginning after June 15, 1999. Initial application of this Statement should be as of the beginning of an entity's fiscal quarter; on that date, hedging relationships must be designated anew and documented pursuant to the provisions of this Statement. Earlier application of all the provisions of this Statement is encouraged, but it is permitted only as of the beginning of any fiscal quarter that begins after issuance of this Statement. This Statement should not be applied retroactively to financial statements of prior periods.

### ***Accounting for Mortgage-Backed Securities***

.90 In October 1998, the FASB issued Statement No. 134, *Accounting for Mortgage-Backed Securities Retained after the Securitization of Mortgage Loans Held for Sale by a Mortgage Banking Enterprise*, an amendment of FASB

*Statement No. 65.* FASB Statement No. 65, as amended by FASB Statement Nos. 115, *Accounting for Certain Investments in Debt and Equity Securities*, and 125, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* (FASB, *Current Text*, vol. 2, sec. No4), requires that, after the securitization of a mortgage loan held for sale, an entity engaged in mortgage banking activities classify the resulting mortgage-backed security as a trading security. This Statement further amends FASB Statement No. 65 to require that after the securitization of mortgage loans held for sale, an entity engaged in mortgage banking activities classify the resulting mortgage-backed securities or other retained interests based on its ability and intent to sell or hold those investments. This Statement conforms the subsequent accounting for securities retained after the securitization of mortgage loans by a mortgage-banking enterprise with the subsequent accounting for securities retained after the securitization of other types of assets by a nonmortgage-banking enterprise.

.91 This Statement shall be effective for the first fiscal quarter beginning after December 15, 1998. Early application is encouraged and is permitted as of the issuance of this Statement. On the date this Statement is initially applied, an enterprise may reclassify mortgage-backed securities and other beneficial interests retained after the securitization of mortgage loans held for sale from the trading category, except for those with sales commitments in place.<sup>3</sup> Those securities and other interests shall be classified based on the entity's ability and intent, on the date this Statement is initially applied, to hold those investments. Transfers from the trading category that result from implementing this Statement shall be accounted for in accordance with paragraph 15(a) of FASB Statement No. 115.

## New Statements of Position

### **SOP 97-3, Accounting by Insurance and Other Enterprises for Insurance-Related Assessments**

.92 On December 10, 1997, the AICPA issued SOP 97-3, *Accounting by Insurance and Other Enterprises for Insurance-Related Assessments* (formerly titled *Accounting by Insurance and Other Enterprises for Guaranty-Fund and Certain Other Insurance-Related Assessments*). This SOP provides guidance on accounting by insurance and other enterprises for insurance-related assessments. The SOP states that:

- An enterprise should recognize a liability for insurance-related assessments when all the following conditions are met:
  1. An assessment has been imposed or information available before issuance of the financial statements indicates it is probable that an assessment will be imposed.
  2. The event obligating an entity to pay (underlying cause of) an imposed or probable assessment has occurred on or before the date of the financial statements.
  3. The amount of assessment can be reasonably estimated.

.93 **Retrospective-Premium-Based Guaranty Fund Assessments.** An assessment is probable of being imposed when a formal determination of insolvency occurs. At that time, the premium that obligates the entity for the assessment liability has already been written. Accordingly, an entity that has the ability to reasonably estimate the amount of the assessment should recognize a liability for the entire amount of future assessments related to a particular insolvency when a formal determination of insolvency is rendered.

.94 **Prospective-Premium-Based Guaranty Fund Assessments.** The event that obligates the entity for the assessment liability generally is the writing of, or becoming obligated to write or renew, the premiums on which the expected future assessments are to be based. Therefore, the event that obligates the entity generally will not have occurred at the time of the insolvency.

---

<sup>3</sup> Mortgage-backed securities and other beneficial interests may be reclassified from the trading category when initially applying this Statement without regard for the provisions in paragraph 15 of FASB Statement No. 115, which states that "given the nature of a trading security, transfers into or from the trading category . . . should be rare."

**.95 Prefunded-Premium-Based Guaranty Fund Assessments.** A liability for an assessment arises when premiums are written. Accordingly, an entity that has the ability to reasonably estimate the amount of the assessment should recognize a liability as the related premiums are written.

**.96 Other Premium-Based Assessments.** Other premium-based assessments would be accounted for in the same manner as prefunded-premium-based guaranty fund assessments.

**.97 Loss-Based Assessments.** An assessment is probable of being asserted when the loss occurs. The obligating event of the assessment also has occurred when the loss occurs. Accordingly, an entity that has the ability to reasonably estimate the amount of the assessment should recognize a liability as the related loss is incurred.

**.98** This SOP is effective for financial statements for fiscal years beginning after December 15, 1998. Early adoption is encouraged. Previously issued annual financial statements should not be restated. Initial application of this SOP should be as of the beginning of an enterprise's fiscal year (that is, if the SOP is adopted before the effective date and during an interim period other than the first interim period, all prior interim periods should be restated). Enterprises should report the effect of initially adopting this SOP in a manner similar to a cumulative effect of a change in accounting principle (refer to paragraph 20 of APB Opinion 20, *Accounting Changes*).

### **SOP 98-7, Deposit Accounting: Accounting for Insurance and Reinsurance Contracts That Do Not Transfer Insurance Risk**

**.99** In October 1998, AcSEC issued SOP 98-7, *Deposit Accounting: Accounting for Insurance and Reinsurance Contracts that Do Not Transfer Insurance Risk*. The SOP will address deposit accounting for certain insurance and reinsurance contracts and direct business by insurance enterprises and other enterprises. SOP 98-7 will provide guidance on how to account for insurance and reinsurance contracts that do not transfer insurance risk. It applies to all entities and all insurance and reinsurance contracts that do not transfer insurance risk, except for long-duration life and health insurance contracts. The method used to account for insurance and reinsurance contracts that do not transfer insurance risk is referred to in the SOP as deposit accounting. SOP 98-7 does not address when deposit accounting should be applied.

**.100** The SOP specifies the following:

1. Insurance and reinsurance contracts for which the deposit method is appropriate should be classified as one of the following, which are those—
  - That transfer only significant timing risk.
  - That transfer only significant underwriting risk.
  - That transfer neither significant timing nor underwriting risk.
  - With indeterminate risk.
2. At inception, a deposit asset or liability should be recognized for insurance and reinsurance contracts accounted for under deposit accounting and should be measured based on the consideration paid or received, less any explicitly identified premiums or fees to be retained by the insurer or reinsurer, irrespective of the experience of the contract.

The SOP would adopt the interest method as described in FASB Statement No. 91, *Accounting for Nonrefundable Fees and Costs Associated with Originating or Acquiring Loans and Initial Direct Costs of Leases* (FASB, *Current Text*, vol. 1, sec L10), for insurance and reinsurance contracts that transfer only significant timing risk and insurance and reinsurance contracts that transfer neither significant timing nor underwriting risk.

**.101** Insurance and reinsurance contracts that transfer only significant underwriting risk would be accounted for by measuring the deposit based on the unexpired portion of the coverage provided until losses

are incurred that will be reimbursed under the contract. Once a loss is incurred that will be reimbursed under the contract, the deposit would be measured by the present value of the expected future cash flows arising from the contract plus the remaining unexpired portion of the coverage provided. Changes in the recorded amount of the deposit, other than the expired portion of the coverage provided, would be included in the income statement of the insured as an offset to the loss that will be reimbursed under the contract.

.102 Insurance and reinsurance contracts with indeterminate risk would be accounted for in a manner similar to the open-year method described in SOP 92-5, *Accounting for Foreign Property and Liability Reinsurance*.

.103 SOP 98-7 is effective for financial statements for fiscal years beginning after June 15, 1999, with earlier adoption encouraged. Restatement of previously issued annual financial statements is not permitted. Initial application of this SOP is as of the beginning of an entity's fiscal year (that is, if the SOP were adopted before the effective date and during an interim period, all prior interim periods are required to be restated). The effect of initially adopting this SOP should be reported as a cumulative effect of a change in accounting principle (in accordance with the provisions of APB Opinion 20).

#### Executive Summary—New Accounting Developments

- See the AICPA general *Audit Risk Alert—1998/99* [AAM section 8010] for a thorough listing of new accounting developments.
- FASB Statement No. 132, *Employers' Disclosures about Pensions and Other Postretirement Benefits, an amendment of FASB Statement Nos. 87, 88, and 106*
- FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*
- FASB Statement No. 134, *Accounting for Mortgage-Backed Securities Retained after the Securitization of Mortgage Loans Held for Sale by a Mortgage Banking Enterprise, an amendment of FASB Statement No. 65*
- SOP 97-3, *Accounting by Insurance and Other Enterprises for Insurance-Related Assessments*
- SOP 98-7, *Deposit Accounting: Accounting for Insurance and Reinsurance Contracts That Do Not Transfer Insurance Risk*

## References for Additional Guidance

*What are some organizations that can provide more information about the insurance industry?*

.104 Further information on matters addressed in this Audit Risk Alert is available through various publications and services listed in the table at the end of this document. Many nongovernment and some government publications and services involve a charge or membership requirement.

.105 Fax services allow users to follow voice cues and request that selected documents be sent by fax machine. Some fax services require the user to call from the handset of the fax machine; others allow the user to call from any phone. Most fax services offer an index document, which lists titles and other information describing available documents.

.106 Many private companies, professional and trade associations, and government agencies allow users to read, copy, and exchange information electronically through the Internet's World Wide Web.

.107 Recorded announcements allow users to listen to announcements about a variety of recent or scheduled actions or meetings.

## AAM Section 8050

# *Depository Institutions and Lending Industry Developments—1998/99*

### In This Year's Alert . . .

- What fundamental changes are occurring in the industry?
- How has the depository institutions and lending industry been generally performing?
- What matters affecting credit risk should a CPA be aware of?
- What, briefly, are these global economic problems all about, and how do they affect financial institutions?
- What is the SEC saying about provisions for credit losses?
- What has resulted from the huge legislative battle over credit union membership?
- What efforts are under way to update the nation's laws and regulations governing her financial institutions?
- Is management of financial institution clients subject to unusual stresses these days?
- What is the Year 2000 Issue and how will it affect financial institutions?
- What are EMU and the Euro all about?
- What should a CPA know about banks getting involved in securities underwriting?
- Why are financial institutions offering brokerage accounts to customers, and what concerns exist?
- What are the issues connected to the ongoing movement of financial institutions into the insurance business?
- Why are institutions engaging in the business of leasing cars and equipment to customers, and what should a CPA be aware of in auditing such activities?
- Are dwindling deposit levels a concern?
- How does the current wave of refinancings affect financial institutions and audit risk?
- Are there concerns over the outsourcing of internal audit activities?
- What does one need to be concerned with regarding repurchase agreements?
- Given the upswing in loan participations, what should a CPA remember about such transactions?
- What precisely is money laundering all about, and what are a CPA's responsibilities?
- With what countries and entities are financial institutions prohibited from doing business?
- What significant regulatory developments have occurred?
- What new auditing and attestation standards have been issued?

- What new standards have been issued by the FASB?
- What are some organizations that can provide more information about the industry?

\* \* \* \*

## Purpose of This Alert

.01 CPAs, as trusted professionals, deliver value to their clients by communicating the events, issues, and risks occurring in an industry with clarity and objectivity. CPAs provide assurance to their clients by performing valuable audit services and rendering an audit opinion. In addition, CPAs provide a variety of assurance services that improves the quality of information, or its context, for decision makers.

.02 This Alert helps CPAs provide top-quality audit services to their clients in the depository institutions and lending industry and helps CPAs provide relevant information to those clients, thus adding value to the business decision-making process. The information in this Alert bolsters a CPA's audit planning efforts in considering industry matters, such as economic conditions, government regulations, competitive conditions, and other risks and issues affecting financial institutions. Moreover, this Alert helps CPAs analyze and interpret relevant information and converging information.

.03 CPAs who understand what is happening in the depository institutions and lending industry, and who can interpret and add value to that information, will be able to offer valuable service and advice to their clients. This Alert assists CPAs in making solid and rapid strides in gaining that industry information and understanding it.

.04 It is best to read this Alert in conjunction with the AICPA general *Audit Risk Alert—1998/99* [AAM section 8010]. To order, call the AICPA Order Department at 1-888-777-7077.

## Industry and Economic Developments

### Fundamental Changes in the Financial Services World

*What fundamental changes are occurring in the industry?*

.05 The financial services industry is changing rapidly and fundamentally. Commercial banks, credit unions, investment banks, thrifts, mortgage servicers, brokerages, insurance companies, mutual funds, credit card issuers, and finance companies are involved in sweeping mergers and acquisitions across the country and worldwide. Institutions at all levels of the industry are merging. Significant consolidations have been occurring for years, but the rate of consolidations has now skyrocketed to unprecedented heights. In addition to the unparalleled consolidations taking place, the different sectors within the financial services industry are converging. The banking industry, brokerage industry, insurance industry, and other financial sectors are losing their distinctions from one another, leaving one industry—financial services. Indeed, the financial institution is being reinvented.

.06 The proposed merger of Citicorp and Travelers Group (Citigroup) has accelerated the already furious consolidation and convergence pace within the industry. This proposed financial behemoth will be the largest financial services company in the world, with \$700 billion in assets. The new Citigroup will represent a global financial service supermarket offering a full line of financial products through many diversified distribution channels to corporate and consumer customers worldwide. Another prominent proposed merger includes BankAmerica Corp. and NationsBank Corp., which formed BankAmerica, a \$570 billion-asset coast-to-coast banking kingdom. Banc One Corp. merged with First Chicago NBD Corp., creating a \$230 billion company.

Additionally, Washington Mutual, Inc. joined with H.F. Ahmanson & Co., forging the largest thrift in the country, with \$149 billion in assets. Three enormous deals—First Union Corp. and the Money Store, Conseco Inc. and Green Tree Financial Corp., and Household International Inc. and Beneficial Corp.—have radically reshaped the world of consumer finance. Other noteworthy combinations include—

- Fleet Financial Group and Quick & Reilly Group.
- U.S. Bancorp and Piper Jaffray Cos.
- Norwest Corp. and Wells Fargo & Co.
- National City Corp. and First of America Bank Corp.
- Star Banc Corp. and Firststar Corp.
- SunTrust Banks Inc. and Crestar Financial Corp.

.07 Many people in the industry predict a polarized financial services world will eventually exist, dominated by a handful of very large, super institutions coexisting with small community institutions and specialty niche players.

.08 Congress and regulators have not been able to keep up with the rapid consolidation and convergence of the financial services industry. The Citicorp/Travelers Group merger runs afoul of the current regulatory environment, by combining banking and insurance underwriting in one company. Under current law, Citigroup would have to divest its underwriting business in five years. However, Citigroup is betting that the current regulatory structure will change in its favor before then. Without a doubt, important questions about financial regulations have arisen in this current environment. Congress and the various regulatory authorities must rethink how financial institutions are regulated and allowed to operate. Many believe that financial modernization legislation (see “Modernizing the Country’s Financial Framework” section of this Alert) may be needed to address the fundamental transformation occurring in the industry.

.09 As a result of the frenzied pace of mergers and acquisitions, the financial services industry continues to shrink. However, this industry-wide consolidation and convergence has also contributed to a very significant increase in the number of new, smaller, community institutions, which are taking advantage of readily available capital. With the market for small business loans growing rapidly, community institutions are also targeting small business owners and customers who enjoy highly personalized service.

.10 The idea of global financial service supermarkets (integrating lending and deposit taking, insurance activities, investment banking, and brokerage activities under one roof) is back in fashion. This idea has been in and out of fashion before. In Europe and Canada, the convergence of different financial service sectors is commonplace. However, success stories are few. European financial conglomerates have not lived up to expectations, and in the United States one can find past examples of failed attempts to create financial supermarkets.

.11 The fundamental changes taking place in the industry are expected to continue for years to come. More mergers and acquisitions are likely to occur because of the number of potential targets and potential acquirers. A series of combinations among small and medium-sized institutions is possible because regional and superregional institutions may search for partners, to remain competitive. Combinations of financial institutions and brokerage firms are also expected to continue. Many believe that size and scale are essential to survival, and those who fail to act today will not be around tomorrow. Others see promising opportunities for small community organizations, catering to customers disenchanted with mega financial institutions. More combinations are likely to come, and many management teams are trying to figure out how to react.

### *The Reasons for and Benefits of Combining*

.12 When financial institutions combine, they hope to achieve the following results:

- Boost earnings and share price
- Boost revenue sources
- Diversify geographically
- Expand and diversify product lines
- Increase access to capital
- Reduce cost of capital
- Gain economies of scale; achieve efficiencies
- Broaden customer base or market share
- Beat the competition
- Cross-sell products
- Enhance investment specialist role
- Cut expenses and jobs
- Lower prices
- Create convenience for customers
- Participate in securities underwriting
- Increase productivity

These goals are certainly not new. Today, however, certain conditions exist that make the time ripe for institutions to combine and race to become full-service companies, grabbing as much market share and revenue as they can. Those conditions include the following:

- The traditional business of lending and taking deposits currently produces very thin profit margins due to intense competition and inexpensive distribution channels. This business exhibits slow growth and overcapacity. Growth must come from elsewhere.
- Mutual funds and similar enterprises are increasingly swallowing up investment dollars from potential customers. The money pouring into these funds is in large part due to the growing widespread use of personal retirement plans. Financial institutions want to provide their customers with mutual fund and brokerage services to gain a piece of those investment dollars.
- Rapid deregulation in the financial services industry is creating a conducive environment for the strong forces of consolidation and convergence.
- Significant write-downs among some consumer finance companies, caused by a wave of refinancings, have contributed to the mergers taking place among those companies.
- Certain segments of the population have amassed great wealth, owing in large part to the extended U.S. economic boom. Many of these people are sophisticated investors who demand new investment options. Financial institutions are gearing up and trying to meet those demands and gain a share of that wealth.
- Peer pressure influences management to pursue deals, lest their institutions fall behind.
- The well-documented globalization trend is convincing many that the future belongs to extremely large financial supermarkets.
- The mortgage servicing and securities sectors have very thin profit margins. As such, merging into bigger entities creates the large volume of transactions necessary to generate sufficient earnings.

A confluence of these conditions and the advantages of combining foster the sweeping changes taking place in the financial services industry.

.13 Institutions that combine believe bigger is better. They are convinced that their corporate and consumer customers desire one-stop shopping for all their financial needs. Ever-improving technology is an important factor in making that one-stop financial shopping possible. By gaining size, institutions will be able to offer their customers unprecedented access to capital and a wide array of financial products. One of the keys to success will be the combined institution's ability to cross-sell its new array of products to an enlarged customer base. For example, by combining with a finance company, an insurance entity hopes to sell its various insurance products to the finance company's large base of subprime loan customers. This cross-selling will be enhanced by the combined entity's ability to invest heavily in technology, enabling it to mine its customer databases and target its products effectively.

.14 Many would also argue that a big advantage to the intense industry consolidation and convergence is a healthier U.S. banking system. Larger institutions tend to be geographically diversified, which protects them from severe economic problems in any one region of the nation. In addition, these larger institutions can further diversify their risks by offering many different financial products.

### *Merged Institutions Face Many Challenges*

.15 Institutions engaged in consolidation and convergence face significant challenges. They include the following:

- The combining institutions will integrate their systems with much difficulty. The institutions normally maintain different computer systems and normally possess many independent internal applications. They will have to integrate such important operations as credit card systems, risk management, credit risk, and trading. The combining entities will pay substantial bills to integrate operations, and they will normally take years to complete the integration. Moreover, these entities have already committed their resources to year 2000 and Euro conversion projects (see these topics in following sections). If system integration is mishandled, combining institutions may not fully know their financial position and operating results.
- Customers may leave financial institutions that merge. These customers may not receive the same personal service that they received before the merger. For instance, they may be forced to call automated phone centers instead of real people or may be charged higher fees for services. Small business customers may be neglected by the larger, combined institution as well. Keeping these disenfranchised customers will be a serious issue for combining entities.
- The merged entities may not achieve the revenue growth they expected. They may not be able to easily cross-sell products and aggressively market a national brand name.
- Management of the combining institutions could be choosing the wrong vision of the future. After the combination, management will promote their house brands of financial products. In contrast, management of other financial services companies, such as discount brokerage firms, are promoting financial products from a variety of manufacturers that specialize in particular areas. Have the management teams of the merging entities miscalculated the trend of more and more customers performing their own research and using inexpensive companies to do their investing? Furthermore, has management miscalculated investors' willingness to explore the Internet and purchase financial products offered by a multiplicity of institutions?
- The combined entity may suffer internal control weaknesses. Through cost-cutting and layoffs, the institution may strip away important control-related positions and functions. At the same time, the entity will be integrating two different company cultures and making many personnel decisions. As a result, the entity could encounter control problems caused by disgruntled employees.

- Management of the newly merged entity may not realize the cost savings they expected. In fact, management may incur unexpected merger-related expenses. In addition, management's failure to cut costs and meet market expectations could cause the institution's stock price to tumble.
- Consumer groups and certain lawmakers are raising a chorus of protests over the consolidation of the industry. They believe that mergers reduce competition and hurt the average customer.

In brief, management of the newly merged entity must manage the institution well for the merger to succeed. They must adequately appreciate other important measurements such as profitability and productivity, in addition to asset size.

.16 Beyond the challenging issues confronting the merged institutions, the country may also be facing certain challenging concerns. The nation may find danger in very concentrated allocations of capital. When insurance and trading losses penetrate firewalls and cut into an institution's capital, will the nation be willing to spend significant tax dollars to bail out huge financial supermarkets and other large institutions? To be sure, the nation and the banking industry will be dealing with some weighty issues.

### *The Merger Mania Presents Challenges and Opportunities for Mid- and Small-Sized Institutions*

.17 Mid- and small-sized institutions will find difficulty competing with the larger, combined institutions. They will not possess the economies of scale that the merged entities possess and they generally will not enjoy the geographic and product diversity that the larger institutions covet. Moreover, mid- and small-sized entities' customers will be targeted by the immense marketing efforts of the newly combined institutions. High-priced and high-cost financial institutions are predicted to be driven out of the market by the tremendous consolidating forces in the industry. In fact, mid-sized institutions are predicted by some industry analysts to disappear altogether, leaving behind very large financial entities and small community institutions.

.18 Management of mid- and small-sized institutions will find opportunities arising from the consolidation and convergence occurring in the industry. Customers, in general, distrust large financial institutions and can become dissatisfied with the poor, impersonal service and higher fees they sometimes receive from newly combined organizations. Management of mid- and small-sized entities can gain customers and improve their businesses by providing good relationship-based service, convenience, and low fees. They must also invest in technology and broaden their product lines to prosper in the current environment. Owing to the smaller size of their businesses, management of mid- and small-sized institutions generally are better able to manage their operations and focus on their markets. By leveraging those advantages and seizing the above-mentioned opportunities, management of mid- and small-sized financial entities can lead their businesses to higher levels of growth, earnings, and profitability.

### *Auditing Issues*

.19 *Accounting for Mergers and Acquisitions.* A business combination, according to Accounting Principles Board (APB) Opinion 16, *Business Combinations* (FASB, *Current Text*, vol. 1, sec. B50), occurs when a corporation and one or more incorporated or unincorporated businesses are brought together into one accounting entity. The single entity that results carries on the activities of the previously separate independent enterprises. The auditing and accounting issues that arise out of corporate consolidations are numerous and varied. Auditors should evaluate the accounting for merger-related transactions. Significant financial statement misstatements can result if management of the combined institution improperly values assets or mishandles the complicated accounting for the merger. While examining the accounting for the combination, auditors should consider the consensus positions reached by the Financial Accounting Standards Board's (FASB) Emerging Issues Task Force (EITF) relating to business combinations, including the guidance contained in EITF Issue No. 95-3, *Recognition of Liabilities in Connection with a Purchase Business Combination*. Subsequent to the business combination, auditors should consider whether management has prepared the financial statements of the combined entity in accordance with appropriate accounting stan-

dards, including FASB Statement No. 94, *Consolidation of All Majority-Owned Subsidiaries* (FASB, *Current Text*, vol. 1, sec. C51), and Accounting Research Bulletin (ARB) No. 51, *Consolidated Financial Statements* (FASB, *Current Text*, vol. 1, sec. C51).

**.20** Furthermore, auditors should assess whether pooling-of-interests accounting or purchase accounting is appropriate for the combination. The Securities and Exchange Commission (SEC) has expressed concern over the wide use of and possible misapplication of pooling-of-interests accounting. Auditors and management may need to consult with specialists to assess the appropriateness of pooling-of-interests accounting. Finally, auditors should read chapter 14 of the AICPA Audit and Accounting Guide *Banks and Savings Institutions* for further guidance.

**.21 *Accounting for Restructuring Charges.*** Combining financial institutions often restructure their operations. They eliminate redundant functions and attempt to create an efficient and streamlined organization. Management and auditors should be aware of the requirements of EITF Issue Nos. 94-3, *Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (Including Certain Costs Incurred in a Restructuring)*, and 95-3. When liabilities are accrued in accordance with the guidance in EITF Issue Nos. 94-3 and 95-3, certain disclosures are required. The thresholds for making the required disclosures are related to the materiality of the amounts accrued or the significance of the activities that will not be continued. Therefore, when the disclosure thresholds have been met, all the disclosures are required, not just those that are individually material.

**.22** Some of the disclosures are required until the plan of termination is completed or until all actions under a plan to exit an activity or involuntarily terminate employees of an acquired company have been fully executed. For instance, under EITF Issue No. 94-3, the amount of actual termination benefits paid and charged against the liability and the number of employees actually terminated as a result of the plan to terminate the employees must be disclosed. The amount of any adjustments to the liability also must be disclosed.

**.23** The SEC staff has observed an increasing frequency of subsequent reductions to restructuring liabilities, which suggests that management may be “providing a cushion” in establishing such reserves. When reviewing management’s accruals, auditors should be aware of the kinds of charges that are allowed to be accrued for pursuant to EITF Issue Nos. 94-3 and 95-3 (and other relevant accounting literature, as appropriate), and be mindful that management’s estimates are not overly conservative.

**.24** Additionally, the SEC staff has stated that liabilities accrued in accordance with EITF Issue Nos. 94-3 and 95-3 are valuation accounts that should be disclosed on Schedule VIII, Valuation and Qualifying Accounts, of SEC registrants’ annual reports filed on Form 10-K.

**.25 *Internal Control Weaknesses Resulting From Mergers.*** Subsequent to a merger, management typically reduces personnel and eliminates positions and functions in hopes of saving money and gaining efficiencies. Management’s actions may cause gaps in internal control. For instance, management may eliminate a supervisory position at a branch. That supervisor may have performed internal control activities that now will no longer exist. Management may shift personnel to different positions and alter the way things have always been done. By making these moves, they risk creating deficiencies in internal control and in business operations. Also, in dealing with the many internal control issues arising from a merger, management may forget about basic internal controls and assume that such controls are operating when in fact they may not be. Auditors should take these issues into account in their consideration of internal control and their assessment of control risk. These gaps and deficiencies in internal control may represent reportable conditions or weaknesses in internal control that should be communicated to management and the audit committee. Auditors should refer to the guidance set forth under Statement on Auditing Standards (SAS) No. 55, *Consideration of Internal Control in a Financial Statement Audit*, as amended by SAS No. 78, *Consideration of Internal Control in a Financial Statement Audit: An Amendment to Statement on Auditing Standards No. 55* (AICPA, *Professional Standards*, vol. 1, AU sec. 319).

**.26 Effects of Adding and Expanding Product Lines, Services, and Businesses.** Financial institutions that add or expand products, services, and businesses generate risks to themselves and to auditors. Often, institutions that combine, and those that have not undergone a merger, add and expand products, services, and businesses. Combining institutions may join together different financial sector products and services (for example, insurance, checking accounts, loans, asset management, and brokerage services) under one roof. The CPA should consider the following factors when the institution, whether it is involved in a combination or not, is adding or expanding products, services, or businesses.

- Management may lack expertise in the new areas. For example, management may not possess the knowledge and skills needed to manage the business and risk of selling insurance. CPAs may want to assess management's level of expertise in the new areas of business and consider that assessment in the determination of their audit procedures.
- Management may not properly implement industry-specific accounting principles related to the new areas. Auditors should determine that proper accounting principles are being applied concerning the new areas of business, if such matters are material.
- The accounting, operations, and other systems related to the new areas may lack adequate testing and proper integration with core systems. Thus, these new systems may have inadequate internal control, which may result in unreliable accounting data. Auditors should consider this when planning and performing the audit. In addition, auditors should be familiar with the requirements of SAS No. 60, *Communication of Internal Control Related Matters Noted in an Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 325). According to SAS No. 60, auditors may become aware of matters relating to internal control that, in their judgment, should be communicated to the audit committee. Such matters represent significant deficiencies in the design or operation of internal control, which could adversely affect the institution's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.
- The institution may fail to comply with regulations attendant to the new area of business. The institution's failure to comply may result from an unfamiliarity with the regulations and a lack of expertise in the new area. Auditors may want to inquire about the regulations that exist in new business areas (to the extent necessary to perform a proper audit). SAS No. 54, *Illegal Acts by Clients* (AICPA, *Professional Standards*, vol. 1, AU sec. 317), describes an auditor's responsibilities regarding violations of laws or governmental regulations.

In short, management should enter only new areas of business that are appropriate to the nature of their financial institution. They should establish a risk-management function that accounts for the risks that the entity is assuming upon entering into their new venture. Auditors may want to assess management's depth and an institution's strategic plans when a client enters complicated, new areas of business.

**.27** Also, auditors should consider the need to apply certain auditing standards to their engagement, due to the entity's expansion into new products, services, or businesses. For example, if a finance company client ventures into insurance-related activities, the auditor should consider the guidance in SAS No. 73, *Using the Work of a Specialist* (AICPA, *Professional Standards*, vol. 1, AU sec. 336).

**.28** In addition, as stated in SAS No. 22, *Planning and Supervision* (AICPA, *Professional Standards*, vol. 1, AU sec. 311), auditors should obtain a knowledge of matters that relate to the nature of the entity's business, its organization, and its operating characteristics. Such matters include, for example, the type of business; types of products or services; capital structure; related parties; locations; and production, distribution, and compensation methods. Auditors should also consider matters affecting the industry in which the entity operates, such as economic conditions, government regulations, and changes in technology, as they relate to their audits.

**.29 Increased Opportunity for Fraud.** Employees may have an increased opportunity to commit fraud, when financial institutions merge. With the restructuring and shake-ups taking place, employees can take

advantage of a breakdown in internal control, a lack of segregation of duties, and missing supervisory reviews to commit fraud. Furthermore, some employees become embittered after a merger. An employee's honesty can be influenced by an embittered attitude, motivating a rationalization to commit fraud.

.30 The auditor should specifically assess the risk of material misstatement of the financial statements due to fraud and should consider that assessment in designing the audit procedures to be performed. In making this assessment, the auditor should consider fraud risk factors that relate to both (a) misstatements arising from fraudulent financial reporting and (b) misstatements arising from misappropriation of assets in each of the related categories presented in SAS No. 82, *Consideration of Fraud in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 316.16 and .18).

.31 In implementing SAS No. 82, auditors can consult the AICPA's publication titled *Considering Fraud in a Financial Statement Audit: Practical Guidance for Applying SAS No. 82* (Product No. 008883). This publication contains example fraud risk factors specifically developed for financial institutions. Call the AICPA Order Department at 1-888-777-7077 to order.

#### **Executive Summary—Fundamental Changes in the Financial Services World**

- The financial services industry is changing rapidly and fundamentally. All kinds of financial institutions are involved in sweeping mergers and acquisitions across the country and worldwide.
- Certain conditions exist that make the time ripe for institutions to combine.
- Merged institutions and the nation face many challenges; however, the merger mania presents opportunities for mid- and small-sized institutions.
- Auditors may need to address a variety of issues when institutions merge, including accounting for the merger and acquisition; accounting for restructuring charges; internal control weaknesses; the effects of adding and expanding product lines, services, and businesses; and increased opportunity for fraud.

### **Industry Financial Performance**

*How has the depository institutions and lending industry been generally performing?*

.32 Financial institutions, for the most part, have been performing well. Earnings, profits, return on equity, and return on assets have all flourished at many institutions. The larger institutions within the industry have grown the fastest. The number of troubled institutions and failed institutions is remarkably low, and loan delinquency problems are less worrisome. However, a number of large financial institutions have recorded substantial losses recently due to the economic troubles spreading through the world. Trading in the securities of, and bad loans to, economically troubled nations are the reasons behind the losses. Financial institutions' ability to maintain impressive operating results could be challenged by the global financial crisis and a possible economic slowdown at home, if the U.S. economy fails to perform at its robust pace. In fact, signs of a credit crunch affecting larger commercial entities are appearing, as financial institutions may be assuming a more cautious approach when lending to riskier borrowers. (See the "Global Economic Crisis" section of this Alert for further information.) Following are some brief discussions about the financial performance of some specific areas of the industry. In addition, readers should also read the AICPA general *Audit Risk Alert—1998/99* [AAM section 8010] for a discussion of the general U.S. economy.

#### **Thrifts**

.33 The thrift industry has posted increased earnings and improved return on assets. These positive results are attributable to a strong economy and record home sales and housing starts. The core business of the thrift industry remains home loans, even though many thrifts have diversified into consumer lending and commercial lending. Profit margins on the home loan business are thin, which contributes to the consolidation taking place in the industry. In addition to increased earnings, the thrift industry has also raised

its asset levels, although this has occurred mostly at large thrifts. The thrift industry will not find it easy to maintain its track record of increased earnings due to slowing home sales and fewer refinancings of existing mortgages.

### ***Credit Unions***

.34 Credit unions have generally shown growth in most performance categories. Earnings, membership, and assets have increased. Credit unions have also experienced strong loan growth, including first mortgage loans, used auto loans, and other real estate loans. Larger credit unions have tended to post better earnings improvements than smaller credit unions, due partly to relatively higher operating expenses at smaller credit unions. Larger credit unions tend to have better economies of scale than do smaller credit unions. As a result, smaller credit unions offset the higher operating expenses with slightly lower cost of funds.

### ***Commercial Banks***

.35 The commercial bank sector has for the most part recorded sizeable increases in earnings, profits, return on assets, and return on equity. The major factor fueling this strong performance is fee income. These fees come from many sources, including—

- Mortgage origination and servicing
- Trust services
- Asset management
- Fund transfers
- Traditional deposit service
- Credit cards
- Investment banking
- Securities servicing

Other factors contributing to the industry's improved performance have been the introduction of cost-control initiatives at numerous banks and a tendency to better utilize capital.

.36 Commercial banks have experienced moderate loan growth during 1998. Furthermore, loan growth comprises more loans to businesses and fewer to consumers, as solid profits at corporations and businesses are generating demand for loans.

.37 As mentioned above, some large banks have incurred significant trading losses and loan impairment losses, as a result of the economic turmoil around the world and volatile global financial markets. If severe enough, these losses may lead to layoffs and restructurings at some institutions.

### ***Community Banks***

.38 Community banks generally have also been performing well. Their solid performance is largely attributable to strong local economies that have sparked excellent loan growth at the banks and have sparked a notable proliferation of new community bank starts. In contrast to the positive news, community banks are experiencing diminishing deposit levels, which has raised concern in the industry. See the "Dwindling Deposits" section of this Alert for more information on that issue.

### ***Credit Card Issuers***

.39 The chargeoff crisis of the previous year seems to have ended for many credit card issuers. The latest reports indicate that late payments on credit card balances and chargeoffs of balances have declined drama-

tically. This credit quality improvement is attributable to issuers' "get tough" stance on underwriting practices and aggressive collection efforts. Whether the credit quality of outstanding balances has truly improved remains to be seen; nevertheless, current indicators do point to a broad improvement in the quality of credit card balances.

### ***Mortgage Bankers and Home Equity Lenders***

.40 Mortgage bankers and home equity lenders have recorded remarkable loan-origination increases as interest rates remain very low and a resulting refinancing wave carries the industry. Subprime lenders are experiencing positive loan growth as well. These low interest rates and refinancings can be a double-edged sword, however. For every new loan originated in a refinancing, an old loan is repaid. Mortgage bankers and home equity lenders that rely on income from servicing loans have seen their servicing portfolios decline rapidly, as loans are prepaid. This can be a problem if the institution cannot originate new loans quickly enough to replace the lost volume. In addition, the massive refinancing prepayments have forced some lenders to record substantial write-downs of the original gains they recorded on loans that they securitized and sold. See the "Refinancing Rage, Prepayment Risk, and FASB Statement No. 125 Accounting" section of this Alert for more detailed information.

#### **Executive Summary—Industry Financial Performance**

- Generally, financial institutions have performed well recently, with strong earnings, profits, return on equity, and return on assets.
- Global economic turmoil is causing substantial losses at some large banks and threatening the future growth of the U.S. economy and the financial performance of the industry.
- Some community banks are experiencing diminishing deposit levels.
- A wave of refinancings and related loan prepayments is hitting the mortgage banking and home equity sectors.

### **Credit Risk: Loan Performance Bright, but Storm Clouds on the Horizon**

*What matters affecting credit risk should a CPA be aware of?*

.41 Loan performance in the industry is generally healthy, but credit problems may arise in the near future; indeed, some institutions are already experiencing credit problems. A vigorous overall U.S. economy has contributed to solid loan performance, but that same strong economic growth has also contributed to an easing of loan-underwriting standards. History teaches that underwriting standards usually decline during periods of economic prosperity, because of the fierce competition for borrowers and loans that strong economic growth engenders. If carried too far, the easing of terms can undermine an institution's financial health, especially if the economy weakens or the extraordinary recent performance of business profits and cash flows does not persist.

#### ***Easing of Underwriting Standards***

.42 The erosion of underwriting standards has occurred across almost all sectors of the industry, including commercial, industrial, consumer, mortgage, and home equity loans. Credit card issuers, however, have tightened their underwriting standards. The slippage in standards includes such items as—

- Fewer loan covenants
- Longer loan maturities
- A lack of future cash-flow projections
- An easing or lack of guarantees

- Relying too heavily on expected, rather than proven, cash flows
- Inadequate documentation of financial strength to support the loan

In addition, lenders are offering lower rates and lower fees in their competition to attract customers, which can diminish loan spreads. As a result, lenders receive too little compensation for the larger risks they are taking. Complacent from years of economic prosperity, many lenders are loosening repayment and recourse terms to compete effectively for loans.

.43 Adding to the underwriting concerns, a number of lenders have not been diligent in stress testing their loan portfolios and tracking their loan concentrations by industry and geographic area. Many lenders have not made proper assessments of how their loan portfolios would react to changing economic conditions in their areas and industries.

.44 Although not currently causing significant credit problems, the easing of underwriting standards and the other matters mentioned previously may bear bitter fruit when economic conditions sour. When economic conditions crumble, many consumers and businesses suffer under heavy debt loads that they find hard to repay. Loan losses can mount up rapidly when the good times stop rolling. Already, consumer bankruptcies have been soaring, and that can only worsen if the economy falters. Presented next are some brief overviews of certain specific loan sectors.

### *Subprime Lending*

.45 Subprime lending consists of lending to people with tarnished credit histories, low incomes, little or no experience in handling debt, and in lending money that far exceeds any underlying collateral. Subprime lending can involve various loan types, but the majority of the business comprises mortgage and home equity loans. This type of lending has been growing substantially, due to the fierce competition in the lending industry and to the desire to find new customers and sources of revenue to fuel an institution's financial performance. Subprime lending provides financial institutions with high profit margins, through higher fees and interest rates. Those benefits are accompanied by higher volatility and default rates, however.

.46 Given the increasing rate at which lenders are jumping into the subprime sector, concern exists over the credit risks involved. Consumer bankruptcies are at elevated levels, and many subprime borrowers have overextended credit lines, increasing the chances of defaulting. Other risks include the following:

- Lenders moving into this type of lending may not have the necessary expertise or understand fully the risks involved. Every type of subprime lending, whether it be auto loans or home equity lines of credit, requires its own unique expertise.
- Subprime borrowers are often loaded with debt. If local economic conditions deteriorate, those borrowers may lose their jobs or see their financial situations worsen. Consequently, they may not be able to pay their debts.
- In subprime lending, little or no collateral normally exists to cover bad loans.

.47 Another escalating form of subprime lending is high loan-to-value (LTV) loans. More and more, lenders are allowing customers to borrow money beyond the value of the underlying collateral, in some cases up to 150 percent of a home's worth. This is a risky form of lending insofar as the lender may suffer serious losses if the borrower is unable to keep up with the high loan payments. Here is a common example of the way high LTV loans are used:

A borrower has a large outstanding credit card balance. That borrower accepts a high LTV home equity loan from a financial institution. With the loan money, the borrower pays off the credit card balance and now has a loan outstanding. That situation is not necessarily a problem. What often happens, though, is the borrower goes out and runs up another large

credit card balance. Now the borrower has payments on the high LTV loan and payments on the credit card. If the borrower is overwhelmed by the debt payments and declares bankruptcy, the institution is left with two nonperforming loans.

One should also remember that in a high LTV situation, the amount of the loan that exceeds the value of the collateral is unsecured. As such, there are reporting and risk-based capital ramifications for the lender.

### ***Loans to REITs and Real Estate Entities***

.48 Loans to real estate investment trusts (REITs) and real estate entities have escalated sharply, in part due to a construction and real estate boom. Many REIT loans are unsecured, and typically they are large and syndicated. As with most other loan types, lenders have relaxed their underwriting standards on many loans to REITs and real estate loans, due to the intense competitive environment.

.49 Lenders should treat their REIT loans as part of their exposure to real estate. If real estate prices decline, the REITs will be hard-pressed to acquire enough cash to pay back their loans. Lenders should consider their REIT customers' ability to repay their loans if commercial real estate markets falter. Also, like the high LTV loans discussed above, REIT loans are often unsecured, thus triggering certain reporting and risk-based capital ramifications for the lender.

.50 No alarm is currently being sounded for real estate loans. However, the reduced underwriting standards could cause future problems, if the economy slows and commercial real estate markets suffer. Many real estate loans currently being made are speculative and are attached to construction projects that have few tenant or buyer commitments. If economic trouble arises, the people who constructed those buildings may not find tenants or buyers. Consequently, the real estate loan borrowers could end up defaulting on their loans. Lenders need to consider their borrowers' sources of payments, besides the construction project.

### ***Agricultural Loans***

.51 Serious financial problems are developing for farmers and ranchers, due to sinking commodity prices and severe weather problems in certain parts of the nation. Added to these problems is the reduced amount of exports due to the crisis in Asia and other parts of the world, which will cause many farmers and ranchers to earn substantially less money. Consequently, they may have difficulty paying back their loans and also will cut back on their business investments, reducing the amount of loans they would have otherwise taken from lenders.

.52 Most farmers and ranchers deal with community institutions for their loan needs. These institutions need to carefully monitor loans to farmers and ranchers who are affected by falling commodity prices and falling exports. Many of these community institutions may have risks related to concentrations of loans to farmers or ranchers in specific geographic areas.

### ***Steps for Lenders to Reduce Credit Risk***

.53 Lenders should consider different scenarios in evaluating their credit risks, for instance, how loans would perform if certain financial and economic conditions changed. Also, management should remember that many institutions have failed throughout history because of concentrations of loans in geographic areas and specific industries. Accordingly, management should be alert to possible economic trends in the areas and industries they serve. Moreover, lenders should resist any tendency to assume in evaluating loans that the unusually favorable economic environment of the last few years will continue indefinitely.

.54 Directors and senior management of financial institutions have the obligation to monitor lending practices and to ensure that their policies are enforced and that lending practices generally remain within the overall ability of the institution to manage.

.55 In addition to the aforementioned practices, lenders should—

- Ensure that they have the expertise to collect and work subprime accounts. Such collection expertise is crucial to successfully operating in the subprime business.
- Have rapid delinquency intervention processes, comprehensive counseling, and reduced layering of multiple risk factors in place.
- Base loan-loss allowances on probable credit losses that have been incurred as of the balance-sheet date, and not solely on what has happened in the past, or regulatory formulas.
- Maintain solid underwriting standards and base them on long-term strategic portfolio objectives and the level of risk an institution is willing to tolerate over the long run.

### ***Auditing Issues***

.56 When evaluating credit risk, the quality of loans, and the adequacy of loan-loss allowances, auditors should consider the matters discussed in this section and determine if there is a heightened level of risk on their clients due to those matters. It may be necessary to alter the nature, timing, and extent of audit procedures and increase the level of testing due to the matters mentioned in this section. In addition, auditors should be aware of the aforementioned practices that should be adopted by lenders and factor into the risk assessment and planned audit procedures the absence of any of those practices at their clients. The evaluation of loan quality and loss allowances is a complicated process. FASB Statement No. 114, *Accounting by Creditors for Impairment of a Loan* (FASB, *Current Text*, vol. 1, sec. I08), and FASB Statement No. 5, *Accounting for Contingencies* (FASB, *Current Text*, vol. 1, sec. C59), are the primary sources of guidance on accounting for loan losses. Also, auditors should read chapters 6 and 7 of the *Audit and Accounting Guide Banks and Savings Institutions*, chapters 5 and 6 of the *Audit and Accounting Guide Audits of Credit Unions*, and chapter 2 of the *Audit and Accounting Guide Audits of Finance Companies*, as applicable, for a thorough discussion of auditing procedures regarding loans and loan-loss allowances.

#### **Executive Summary—Credit Risk: Loan Performance Bright, but Storm Clouds on the Horizon**

- Loan performance in the industry is healthy, but credit problems may arise in the near future.
- There have been a general easing of underwriting standards and an increase in risky subprime lending. Also, farmers and ranchers may be facing problems that could affect their ability to repay their loans.
- Auditors may want to look carefully at underwriting standards, subprime lending, and the types of customers with outstanding loans, in determining the nature, timing, and extent of audit procedures related to loans and loan allowances.

### **Global Economic Crisis**

*What, briefly, are these global economic problems all about  
and how do they affect financial institutions?*

.57 A global financial and economic crisis is shaping up that could be one of the most exacting economic shocks of the century. Beginning in the foreign exchange markets and mushrooming into the banking sector of Asia, this crisis has spread to Russia and Latin America and is threatening to destabilize the European and American economies. A global recession may result, with serious implications for U.S. financial institutions and corporations.

#### ***Asia***

.58 In Asia, the Japanese economy has been suffering in a prolonged recession that has dragged down the economies of other Asian nations. The Japanese yen has sunk to very low levels, and the Japanese stock

market continues to lose value. In addition, the Japanese banking system is unstable, as it sits atop significant sums of bad loans. These banks have responded to their financial difficulties by withdrawing credit lines from other Asian nations, which has caused further financial distress in those countries.

.59 Outside of Japan, the currencies and stock markets of Asian nations continue to fall. Countries such as Indonesia, the Republic of Korea (ROK), Thailand, and Malaysia are experiencing severe currency devaluations, recession, unemployment, plummeting capital markets, dried-up credit sources, and falling consumption. China is under pressure to devalue its currency, the yuan, because its exports are being undercut by exports from the other Asian nations whose currencies are lower. A devaluation of the yuan would most likely trigger a devaluation in the Hong Kong dollar and a further round of currency devaluations in the area, thus worsening the situation.

.60 As Asian currencies lose value, those nations and the companies in those nations cannot buy enough U.S. dollars to pay off their U.S. dollar-denominated loans. Defaults and bankruptcies may occur. This would worsen the recession in those Asian countries, worsen the banking crisis in Japan, and could trigger a banking crisis in Europe, whose financial institutions are much more exposed in Asia than U.S. institutions.

### *Russia*

.61 The Russian economy has completely crashed. Its currency has been tremendously devalued and a large chunk of its economy is operating on a barter system. In addition, the current oil glut and low oil prices have substantially reduced very important oil revenues to Russia. The devaluation of the Russian ruble has spread panic throughout other emerging markets, such as Latin America. The Russian government is mired in a state of chaos and has refused to pay some of its foreign debts. In fact, large-scale debt restructurings will be necessary. All of this has led to a complete loss of investor confidence in Russia and has led to shakiness in Western and other financial markets, as a nuclear-armed, unpredictable, and chaotic Russia continues to implode.

### *Europe*

.62 The Russian financial and economic collapse will detrimentally affect the economies of former Soviet republics and the Baltic states, given their dependence on the Russian economy. Moreover, the Russian crisis may drag down Eastern European countries such as Poland and the Czech Republic.

.63 In Western Europe, economic malaise and high unemployment continue. The financial crisis in Russia and other emerging markets will slow the economic recovery of Western European countries. Already, the German and Spanish stock markets have tumbled as a result of the Russian collapse.

### *Latin America*

.64 The problems in Asia and Russia have spread to the emerging markets of Latin America, and investors have begun pulling out of those markets. The economies of Latin America have already been struggling with difficulties, such as low exports and low commodities (for example, oil) prices. Now, with investors pulling out, capital sources will become scarcer. In addition, a wave of currency devaluations could hit Latin American nations, because they may have to devalue their currencies to not lose exports to Asian nations, whose currencies are already low.

### *Hedge Funds*

.65 The rapidly deteriorating conditions in world financial markets have hit some hedge funds particularly hard. Hedge funds typically engage in complex trading strategies. Such strategies, designed to hedge investors from changes in currency and interest rates, require traders to predict the direction of those changes. Many of those strategies were proven woefully inadequate when confronted with the volatile global financial

situation. As these investments broke down, hedge fund operators struggled to meet the demand for investor redemptions and margin calls from lenders who had financed these investments, dumping their holdings and incurring huge losses. Firms that used leverage to make hedges magnified those losses. In one highly publicized case, the Federal Reserve Bank organized a \$3.6 billion private bailout of Long-Term Capital Management Fund, a large hedge fund with an estimated \$1.25 trillion exposure to international markets. The Federal Reserve Bank feared that the fund's imminent collapse would further damage world markets.

### *Effects of Currency Devaluations*

.66 When currencies devalue, the price of imported goods increases, which causes inflation to rise. Also, institutions and companies that borrowed in U.S. dollars pay out more money in local currencies, when the local currency devalues. Some of these institutions and companies may default and go bankrupt. Investors suffer, since they cannot retrieve their money. In addition, the local economies worsen, with increased unemployment and recession.

### *What Caused the Current Crisis*

.67 The causes of the global financial and economic crisis are complicated and numerous. The International Monetary Fund (IMF), a primary agency of the global economy, has continually bailed out the bankrupt countries of the emerging markets with massive loans. These countries are not forced to undergo market-induced reforms of their aberrant economic and financial structures and markets. As a result, no real fundamental reform occurs in those countries and the underlying problems remain. For example, the financial and political institutions and processes in Russia have not fundamentally changed since the Soviet Union lost the cold war in 1991. Western governments have poured massive amounts of loans into Russia. These bailouts have kept a dysfunctional and discredited system on life support.

.68 Often, the massive loans made to these emerging markets are never repaid, currency devaluations become widespread, and economies hurtle into recession.

.69 The crisis is also the result of inordinate and imprudent investments in and loans to unprofitable businesses, real estate developers, pampered state enterprises, and other projects. Additionally, the crisis is due to a decades-old reluctance by Asian nations, especially Japan, to allow more foreign access to its markets and foreign equity ownership of its corporations.

### *Solutions*

.70 Currently, the countries embroiled in the crisis and the Western nations do not know how to solve this global problem. The governments of the Asian nations, and the other nations similarly affected, are constrained to clean up the financial mess and institute radical reforms. They need to ensure that draconian measures, writing off large nonperforming loans and reorganizing or closing problem institutions, are introduced. In fact, Asian governments, such as those in Thailand, ROK, and Japan, have instituted reform programs.

.71 The emerging market nations immersed in this crisis may not succeed in reforming their financial and economic infrastructures. There is always the tendency to conceal bad loans, and political pressures may prevent necessary reforms. For instance, powerful constituencies in those nations fear the changes that financial reform will bring and may attempt to stymie those changes. Also, immense amounts of public money are needed to write off the many bad loans, and large layoffs may result from the restructuring of businesses and institutions. Those measures will create a tremendous uproar among the populations of those countries. Riots, such as those in Indonesia, are a real possibility.

.72 How long the crisis will last and how much worse it will get is impossible to predict. Too many variables are involved, and the problems are too complicated.

### *Effects on the United States*

.73 Instability in foreign countries affects the American economy, financial institutions, and companies. Some of the effects of the global crisis on the United States could be perceived as beneficial. For instance, the Federal Reserve has refused to raise interest rates, due in no small part to the Asian turmoil, since the Fed does not want to trigger further currency devaluations. Lower interest rates have boosted home building, commercial construction, and consumer spending. The negative effects of the global crisis, however, could far outweigh any perceived positive effects. Miserable economic conditions in emerging market countries and a strong U.S. dollar can be seriously detrimental to U.S. corporations, by causing a decline in demand for U.S. goods and slow domestic sales, due to competition from cheaper imports. Also, financial institutions and companies that have links or are thought to have links to those countries embroiled in the financial turmoil may see their stock prices lose substantial value, as investors run away from such entities. Some economists predict that the full effect of the global troubles will strike the U.S. in early 1999. The effects of the crisis will be varied across the country. Manufacturers, oil producers, ranchers, farmers, high-technology companies, and aerospace businesses that rely on exports may be seriously affected.

.74 In particular, the Western U.S., including California, Idaho, Arizona, Oregon, and Washington, is much more heavily dependent on Asian exports than other parts of the country. Grain-producing states in the Great Plains and Midwest also rely on Asian markets to sell their agricultural products. States such as Texas, Arkansas, and Oklahoma may suffer economic slowdowns due to dwindling oil exports to Asia. In addition, Hawaii could experience a decline in the tourism industry, as fewer Asians are able to travel due to harsh financial conditions.

### *Effects of the Global Crisis on Financial Institutions*

.75 Borrowers whose businesses are adversely affected by the global crisis, such as farmers, ranchers, and manufacturers, may be under stress to repay their debts, as their revenue and profits decline. Management of financial institutions will need to carefully monitor the loan portfolios of those borrowers. Furthermore, people who are employed in industries whose production levels are slowed by the global financial disaster may face unemployment or reduced wages. These people will also be under stress to repay their outstanding debts. Management will therefore need to carefully monitor the performance of those loans.

.76 Larger international financial institutions are suffering large losses due to bad loans and trading setbacks. Many of these institutions will most likely see the quality of their assets and derivatives in Russia, Asia, and other troubled areas deteriorate. Consequently, material chargeoffs of those assets and derivatives may be necessary. In some cases, losses at some institutions may be significant enough to trigger layoffs and restructurings.

.77 In addition to the loan-quality problems just mentioned, financial institutions could face reduced levels of business growth, including fewer commercial loans, if the effect of the global crisis is severe enough to seriously slow U.S. economic growth.

### *Auditing Issues*

.78 As mentioned above, lenders may be confronted with a deterioration in the quality of their loans to customers adversely affected by the global financial and economic crisis. Auditors should be aware of these worldwide financial troubles and whether their clients' loan portfolios are affected. Auditors should read the "Credit Risk: Loan Performance Bright, but Storm Clouds on the Horizon" section of this Alert for guidance on steps to take regarding loan-quality evaluations.

.79 Also, greater risk exists with institutions involved in derivatives, assets, and foreign-currency-related transactions related to troubled countries. Based on the materiality of the amounts involved, auditors may need to determine whether management has appropriately assessed the performance of its assets and deri-

vatives related to Asia, and whether such balances should be charged off. Also, auditors should consider whether management has appropriately accounted for, and made all required disclosures relating to, foreign currency translation, transactions arising from the translation of asset and liability positions, and revenue and expense transactions in currencies other than the U.S. dollar pursuant to FASB Statement No. 52, *Foreign Currency* (FASB, *Current Text*, vol. 1, sec. F60).

.80 The global crisis may also result in a greater number of risks and uncertainties for many institutions, particularly with regard to current vulnerability due to certain concentrations. Auditors should consider whether management has appropriately evaluated all such risks and uncertainties and made the necessary disclosures pursuant to Statement of Position (SOP) 94-6, *Disclosure of Certain Significant Risks and Uncertainties*. In addition, auditors should also evaluate management's consideration of related contingencies arising from the global crisis, pursuant to FASB Statement No. 5, *Accounting for Contingencies* (FASB, *Current Text*, vol. 1, sec. C59).

.81 These are just some examples of some of the possible auditing and accounting implications of the global economic crisis and should not be viewed as an exhaustive list of all the issues that might arise. Auditors should continue to monitor the crisis and assess its impact on their clients, considering all relevant facts and circumstances.

#### **Executive Summary—Global Economic Crisis**

- A global economic and financial crisis exists that is affecting emerging markets, such as Asia and Russia. The crisis involves currency devaluations, loan defaults, and severe recession.
- The causes of the crisis are complicated and numerous. They include poor policy decisions by the IMF and Western governments, and inordinate and imprudent investments and loans.
- Financial institutions may suffer from the crisis in a variety of ways, including the possible financial deterioration of borrowers, losses on trading and loan activity connected to troubled nations, and lower demand for loans by businesses and people adversely affected by the crisis.
- Auditors should be aware of the potential risks to institutions that have loans and derivative transactions with institutions and governments in those countries affected by the crisis. In addition, auditors should pay attention to the credit quality of loans to people and businesses affected by the global crisis, such as businesses that export goods to Asia.

### **SEC Staff Views on Provisions for Credit Losses**

#### *What is the SEC saying about provisions for credit losses?*

.82 The SEC staff believes that obligations for credit losses on certain off-balance-sheet financial instruments (for example, forwards and swaps) should be classified separately as liabilities and not combined with the allowance for loan losses. In addition, for on-balance-sheet financial instruments, allowances for credit losses are valuation accounts that should be presented as a reduction of the carrying value of the related balance-sheet item. That is, the allowance for credit losses for different balance-sheet instruments may not be aggregated and presented on a separate stand-alone basis in the balance sheet.

.83 As to the treatment of the provisions for credit losses in the income statement, article 9 of Regulation S-X indicates that the provision for loan losses should appear on the face of the income statement or in the notes. This item is included in the amount reported as net interest income after provision for loan losses and is before other income and other expenses. Based on its account title in article 9 and its relation to net interest income in the income statement, the SEC staff does not believe that it is appropriate for credit loss provisions on other types of balance-sheet and off-balance-sheet items that do not affect net interest income to be included in the provision for loan losses account. The staff believes that these other provisions should be recorded in other income and expenses. In addition, the SEC staff believes that it is inappropriate to transfer general reserve amounts between the different allowance accounts established for credit losses.

## Credit Union Membership Legislation

*What has resulted from the huge legislative battle over credit union membership?*

.84 On August 7, 1998, legislation was signed into law that eases membership restrictions on credit unions and allows them to expand. The legislation, known as H.R. 1151, The Credit Union Membership Access Act, will permit occupation-based credit unions to take in groups of members from unrelated companies, as long as each group has fewer than 3,000 employees.

.85 The passage of this legislation negates a February 1998 Supreme Court ruling that restricted credit union membership and ended the expansion considered critical to the credit union industry. Siding with banks, the Supreme Court decided that the current law required credit unions to serve members joined by a single common bond, not multiple groups, each with its own common bond. However, Congress, largely sympathetic to credit unions and their millions of members, changed that law.

## Auditing Issues

.86 H.R. 1151 includes credit union audit provisions. The need for those provisions arose because the National Credit Union Association (NCUA) adopted a regulation that allows nonlicensed persons to audit a federal credit union's financial information. This is in direct contravention of most state accountancy statutes. The credit union audit provisions of H.R. 1151 require—

1. Insured credit unions with assets greater than \$10 million to file reports or statements with the NCUA that are consistent with generally accepted accounting principles (GAAP), or are no less stringent than GAAP.
2. Insured credit unions with assets greater than \$500 million to have annual independent audits of their financial statements performed in accordance with generally accepted auditing standards (GAAS) by independent CPAs or licensed public accountants.
3. Federal credit unions with assets greater than \$10 million, that use an independent auditor to perform the audit required by the credit union supervisory committee, to use an auditor licensed pursuant to the state accountancy statute.

CPAs engaged with credit unions facing the new GAAP requirements should obtain a copy of the AICPA's Audit and Accounting Guide *Audits of Credit Unions* for an understanding of the financial accounting and reporting principles and practices for credit unions. The Guide can be ordered by calling the AICPA Order Department at 1-888-777-7077

## Modernizing the Country's Financial Framework

*What efforts are under way to update the nation's laws and regulations governing her financial institutions?*

## Current Legislative Efforts

.87 Many believe that financial modernization legislation is needed to create an effective legal framework for financial institutions and other financial services companies to operate and compete in. The current legal framework has been rendered largely obsolete by the rapid changes occurring in the financial services industry (see the "Fundamental Changes in the Financial Services World" section of this Alert for more information) and by aggressive regulatory changes. Legislation may be needed to ensure that all financial institutions are given the chance to compete in many different financial services on a level playing field.

.88 The Senate is currently debating legislation (H.R. 10) that significantly reforms the laws governing the activities of financial institutions. The bill was passed by a one-vote margin in the House of Representatives on May 14, 1998. As it stands, H.R. 10 allows banks, securities firms, and insurance companies to

merge and operate as affiliates under a financial holding company, supervised by the Federal Reserve Board (the "Fed"). Among other provisions, this legislation allows banks to underwrite securities and insurance through affiliates and codifies the insurance and securities activities that financial institutions have already been engaging in.

.89 If eventually passed into law, H.R. 10 would eliminate the Glass-Steagall Act, passed in 1933 during the Great Depression to prevent abusive activities by banks. The Act prohibits commercial banks from dealing in or underwriting securities. Regulators, especially the Office of the Comptroller of the Currency (OCC), have been eroding the restrictions of the Glass-Steagall Act for years. Many analysts believe that Glass-Steagall is no longer necessary, as the abuses it was meant to prevent are now illegal. Furthermore, financial institutions have simply outgrown the antiquated restrictions placed on their activities in nonbanking areas. Barriers between banking and insurance activities were erected in the mid 1950s. H.R. 10 would eliminate those barriers as well by allowing banks to underwrite insurance.

### *Support for and Opposition to the Current Legislation*

.90 H.R. 10's prospects for passage into law are not bright. Many powerful interests oppose the bill as currently written. Those interests include a majority of the banking industry, the Treasury Department, and groups that claim to represent consumers. The securities industry, the insurance industry, and the Fed support the bill.

.91 Some analysts see the disagreement between the Treasury Department and the Fed over the bill as a turf war. H.R. 10 requires financial institutions to operate their securities and insurance businesses in holding company affiliates. These affiliates would fall under the supervision of the Fed. The Treasury Department, whose regulatory arm is the OCC, wants securities and insurance activities to be housed in operating subsidiaries, where they hold regulatory sway.

.92 Beyond a simple turf war, serious concerns exist over whether the Fed or the OCC should have primary supervision over banks' new business activities. For instance, H.R. 10's requirement that banks' insurance and securities businesses operate out of holding companies would insulate those activities from bank activities insured under the Federal Deposit Insurance Corporation (FDIC). In contrast, if insurance and securities businesses are housed in bank operating subsidiaries, then such businesses would in effect be subsidized by FDIC insurance. Banks would therefore maintain an unfair advantage over their nonbank competitors, and the FDIC insurance system would be exposed to possible failures in those activities. In addition, the Fed is an independent agency, whereas the OCC is part of the executive branch of the government. As such, allowing the OCC to maintain primary supervision would result in the potentially dangerous situation of having politicians regulate a significant amount of the banking industry.

.93 Banks dislike the current bill because they believe it contains muddled provisions that limit their ability to engage in insurance activities. They also oppose the bill's provisions that give securities and insurance regulators authority over banking products. In addition, banks oppose the bill because it diminishes the capacity of national banks to operate businesses from operating subsidiaries, because H.R. 10 would have banks operate their securities and insurance activities from holding companies. These holding company affiliates are expensive to create and, as discussed earlier, would be regulated by the Fed and not the OCC. Banks favor OCC supervision inasmuch as the OCC has broadened the powers of banks to expand into new business areas during these changing times. Smaller banks oppose H.R. 10 mostly because they believe the bill will help very large financial institutions expand and threaten their business.

.94 Some groups claiming to represent consumers have brought considerable pressure to bear on legislators in hopes of defeating or changing H.R. 10. Their primary fear is that the bill's shifting of a bank's activities to holding company affiliates would weaken the Community Reinvestment Act (CRA). Bank holding affiliates are not subject to the CRA's provisions. Thrift institutions oppose H.R. 10 legislation because they believe the bill would restrict the powers of thrifts and weaken their competitive standing in the industry.

.95 Insurance company management and management of securities firms are ardent supporters of H.R. 10, believing that the bill levels the playing field on which they compete against banks and other financial institutions.

.96 Auditors should monitor the development of financial-modernization efforts, inasmuch as new laws governing the activities of financial institutions will obviously have a significant effect on clients that engage in lending and depository activities.

#### **Executive Summary—Modernizing the Country's Financial Framework**

- Congress is debating important and historic legislation that would change the laws and regulations that govern the activities of financial institutions.
- The prospects for passage of this legislation are not bright. Many powerful interests oppose the bill.
- Auditors should keep abreast of developments.

### **Management Under Pressure and Possible Audit Risk**

*Is management of financial institution clients subject to unusual stresses these days?*

.97 Although management of financial institutions is always under pressure to perform, the circumstances that exist currently may be more strenuous than usual. Some of those circumstances are described in the following sections.

#### **Earnings Expectations**

.98 Management of financial institutions has been under unusual pressure to release earnings statements that meet analysts' expectations. If management does not report such earnings, the market value of the institution's stock decreases and management normally suffers.

#### **Merger Expectations**

.99 Management of institutions that have combined during this current consolidation trend is under stress to justify the combination to shareholders by delivering the promised fruits of those mergers—such as reduced expenses, expanded product lines, expanded product channels, synergies, and improved profit margins. Management may find it quite difficult and distressing to make these mergers and acquisitions work and keep shareholders happy. See the "Fundamental Changes in the Financial Services World" section of this Alert for a further discussion.

#### **Fierce Competition**

.100 Competition within the financial services industry is especially fierce these days, as the consolidation and convergence mania demonstrates. This intense competition is forcing financial institutions to battle for all types of loans and deposits by offering better service and more attractive interest rates to customers. No sector within the industry seems untouched by this heightened level of rivalry. Some examples of this competition follow.

- Community banks and credit unions are competing for deposits and consumer loans within a similar area and with large multi-state banking organizations.
- Financial institutions are vying among themselves and with mutual funds and insurance companies for deposit dollars.
- Commercial banks contend with insurance companies in expanding their operations to include asset management businesses and annuity products.

- Several insurance companies have applied for thrift charters, in hopes of lending money to their policyholders, thus posing another competitive threat to traditional lenders.
- Many credit card issuers must offer incentives, such as low teaser rates, no annual fees, balance transfer options, and rebates to attract new customers.
- Home equity lenders have struggled furiously to take customers away from one another by offering lower rates or bigger loans, in a tremendous round of refinancings.

### ***Auditing Issues***

**.101** Some specific matters auditors should be concerned with, when auditing a client subject to intense pressures, include the risk of material misstatement due to fraud, possible loan-quality issues, liquidity, aggressive accounting methods, and internal-control weaknesses.

**.102 *Risk of Material Misstatement Due to Fraud.*** SAS No. 82, *Consideration of Fraud in a Financial Statement Audit*, points out the following factors that may indicate an increased risk of fraudulent financial reporting at the institution:

- An excessive interest by management in maintaining or increasing the entity's stock price or earnings trend through the use of unusually aggressive accounting practices
- A management practice of committing to analysts, creditors, and other third parties to achieve what appear to be unduly aggressive or clearly unrealistic forecasts
- Management setting unduly aggressive financial targets and expectations for operating personnel
- High turnover of senior management, counsel, or board members
- High degree of competition or market saturation, accompanied by declining margins
- Rapid changes in the industry
- Significant pressure to obtain additional capital necessary to stay competitive, considering the financial position of the entity
- Unrealistically aggressive sales or profitability incentive programs
- Adverse consequences on significant pending transactions, such as a business combination, if poor financial results are reported

When one or more of these risk factors is identified, professional judgment should be exercised when assessing their significance and relevance. Auditors assessing the risk of material misstatement due to fraud should keep in mind that the presence of a risk factor should not be considered in isolation, but rather in combination with other risk factors and conditions or mitigating circumstances. SAS No. 82 provides guidance to the auditor when considering risk factors in assessing the risk of material misstatement of the financial statements due to fraud.

**.103 *Loan Quality Issues.*** Some lenders choose to combat the intense competitive pressures by sacrificing loan quality to achieve desired levels of volume. These lenders may relax underwriting standards to gain market share. Read the "Credit Risk" section of this Alert for guidance regarding loan-quality issues.

**.104 *Liquidity.*** As pressure increases to maintain or expand earnings, the institution may sacrifice liquidity by seeking investments and loans with higher risks and returns. If market interest rates subsequently increase, the value of the investment portfolio, held for liquidity purposes, will decline.

**.105 *Aggressive Accounting.*** To achieve expected results or report improved financial results, management may adopt aggressive accounting positions. For example, management may be unusually aggressive

in recognizing income related to complicated lending arrangements or capital-markets transactions. Perhaps management may establish excessive reserves in good times to be used during a downturn. Another example would be an unusually aggressive interpretation of authoritative guidance related to hedge accounting. Auditors should be alert to aggressive accounting positions taken by management and determine whether the accounting is appropriate under the circumstances.

**.106 *Overriding Internal Control.*** Management of financial institutions engaged in a severely competitive environment may aggressively engage in transactions and bypass normal internal control. For instance, a financial institution aggressively pursuing the home-mortgage loan business may risk originating loans that do not properly flow through the institution's lending-approval system, by exceeding credit limits, skipping certain approvals, or failing to collect adequate loan documentation. Internal control may therefore not be operating effectively, and loan quality problems may arise. If auditors determine that there is a risk of this occurring, they will need to take this into account in their consideration of internal control and perhaps increase control testing, such as additional inspections of loan documents. Poor internal control over loan origination may necessitate more test work in assessing the adequacy of the allowance for loan losses. In such instances, the auditor will want to make extensive management letter comments about controls over loans. The auditor may wish to recommend an examination of, or an agreed-upon procedures engagement on, internal control.

**Executive Summary—Management Under Pressure and Possible Audit Risk**

- Management is under unusual pressure stemming from earnings expectations, merger expectations, and fierce competition.
- Auditors should be aware of the risks involved when that kind of management pressure exists. Those risks include motivation to commit fraud, loan-quality issues, liquidity, aggressive accounting, and the potential to override internal control.

## Financial Institutions and the Year 2000

### *What is the Year 2000 Issue and how will it affect financial institutions?*

**.107** The inability of most computer programs to distinguish the year 1900 from the year 2000 poses substantial risks to all financial institutions. The majority of computer operating systems and programs currently in use have six-digit date fields (YY/MM/DD), which represent, for example, December 31, 1999, by 99/12/31. The six-digit field, with only two digits for the year, is the basis for all date-related calculations within most computer systems today, particularly mainframes. The fundamental problem posed for these systems by the arrival of the year 2000 is that they have no way of expressing a date past year-end 1999; 00/01/01 will be interpreted by them as January 1, 1900.

**.108** The year 2000 problem is pervasive and complex. Virtually every organization will have its computing operations affected in some way by the rollover of the two-digit year value to 00. Financial institutions, service providers, and vendors need to address the risks associated with the coming millennium. Assuring that computer systems and applications are year 2000-compliant presents a complex managerial and technological challenge for all institutions, both public and private. Achieving year 2000 compliance in mission-critical systems is essential not only for maintaining the quality and continuity of services, but also for assuring the very survival of the entity itself.

**.109** The year 2000 is not only an information systems issue, but also an enterprise-wide challenge that must be addressed at the very highest level of a financial institution. Senior management and the board of directors should actively manage efforts to plan, allocate resources, and monitor progress to correct year 2000 problems.

.110 The federal banking agencies have undertaken extensive supervisory efforts to make sure that financial institutions understand their obligation to be ready for the century date change and that they take the necessary steps to achieve year 2000 compliance. Many policy statements and advisory letters have been issued by the Federal Financial Institutions Examination Council (FFIEC) and the federal agencies addressing the year 2000. These documents can be obtained at the Web sites of the various agencies. See the "Information Sources" section at the end of this Alert for Web site addresses.

### ***Some Important Year 2000 Considerations***

.111 ***Creditworthiness of Borrowers.*** The approach of the year 2000 creates potentially adverse effects on the creditworthiness of borrowers. The credit quality of a loan may be affected by the failure of a borrower's operating or other systems as a consequence of a Year 2000 Issue or a borrower's failure to comply with debt covenant terms regarding Year 2000 Issues. An institution's allowances for loan losses, however, should be provided only for losses incurred as of the balance-sheet date, and should not be based on the effects of future events. Financial institutions should develop processes to identify, assess, and control the potential year 2000 credit risk in their lending and investment portfolios.

.112 ***Contingency Planning.*** Year 2000 contingency planning is needed to provide assurance that an institution's mission-critical functions will continue if one or more systems fail. The board of directors and senior management of a financial institution should ensure that their institution's year 2000 contingency-planning process encompasses a plan of action should there be systems failures at critical dates. Contingency planning must take into account the impact of external systems, including those of service providers, other financial institutions, customers, business partners, and infrastructure providers. Contingency planning will vary depending on the size and complexity of the financial institution. Every institution must evaluate its own unique circumstances and environment to develop a comprehensive plan to ensure its ability to continue as a functioning business entity after January 1, 2000.

.113 The FFIEC has issued an interagency statement titled "Guidance Concerning Contingency Planning in Connection with Year 2000 Readiness." Readers can obtain this document at the FFIEC Web site, at [www.ffiec.gov/y2k/contplan.htm](http://www.ffiec.gov/y2k/contplan.htm).

.114 ***Customer Awareness.*** Customers will look to financial institutions for assurances that the institutions are taking appropriate steps to prepare for the century date change. Financial institutions should consider the types of customers with whom they need to communicate and develop appropriate ways of reaching their customers. In developing customer awareness programs, financial institutions should consider some of the issues customers might be interested in discussing and effectively communicate with them about what could happen and what they should do if problems arise. The FFIEC has issued an interagency statement titled "Guidance on Year 2000 Customer Awareness Programs." Readers can obtain this document at the FFIEC Web site, at [www.ffiec.gov](http://www.ffiec.gov).

.115 ***Service Providers and Software Vendors.*** Many financial institutions use the services of information systems service providers and software vendors in operating critical business functions and, as a result, are relying on these entities to ensure that their products operate correctly after the century date change. Also, U.S. financial institutions are vulnerable to unprepared foreign institutions and businesses that seriously lag the U.S. in year 2000 preparedness. Even though the U.S. entity is year 2000 compliant, the foreign entity it is doing business with may not be, thus posing a risk to the U.S. institution.

.116 Financial institutions relying on vendors for information-processing services or products should establish a process to determine their vendors' progress in resolving year 2000 issues and the readiness of their own systems and data for appropriate testing. This process should enable an institution's management to identify the obligations of the institution and its service providers and software vendors, to establish an effective monitoring program of the renovation phase, to establish a process for testing the renovated pro-

ducts and services, and to adopt contingency plans in the event of information systems disruptions. The FFIEC has issued an interagency policy statement titled “Guidance Concerning Institution Due Diligence in Connection with Service Provider and Software Vendor Year 2000 Readiness.” Readers can obtain this document at the FFIEC Web site, at [www.ffiec.gov/y2k/vendor.htm](http://www.ffiec.gov/y2k/vendor.htm).

### ***Auditing Issues***

.117 First, it must be understood that it is the responsibility of an institution’s management—not of the auditor—to assess and remedy the effects of the Year 2000 on an institution’s systems. The year 2000 does not create additional responsibilities for the auditor. Under GAAS, the auditor has a responsibility to plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. Thus, the auditor’s responsibility relates to the detection of material misstatement of the financial statements being audited, whether caused by the year 2000 or by some other cause.

.118 Many auditing and accounting issues exist related to the Year 2000 Issue, including audit planning, going concern issues, establishing an understanding with the client, valuation, impairment, revenue and expense recognition, and disclosure. These issues are fully discussed in the AICPA general *Audit Risk Alert—1998/99* [AAM section 8010]. Auditors should be aware of these auditing and accounting issues and should understand the various auditing and accounting guidance that has been issued on the Year 2000 Issue.

.119 The Appendix to this Alert contains informative year 2000 question-and-answer guidance that CPAs will find helpful in understanding the issue and their responsibilities.

#### **Executive Summary—Financial Institutions and the Year 2000**

- The inability of most computer programs to distinguish the year 1900 from the year 2000 poses substantial risk to all financial institutions. Achieving year 2000 compliance in mission-critical systems is essential.
- The federal banking agencies have undertaken extensive supervisory efforts to make sure that financial institutions achieve year 2000 compliance. Many policy statements and advisory letters have been issued.
- Some year 2000 considerations include the creditworthiness of borrowers, contingency planning, customer awareness, and the readiness of service providers and software vendors.
- Auditors should read the AICPA general *Audit Risk Alert—1998/99* [AAM section 8010] for a thorough description of audit issues. Also, the Appendix to this Alert contains helpful year 2000 question-and-answer guidance.

### **European Economic and Monetary Union**

#### ***What are EMU and the Euro all about?***

.120 On May 2, 1998, eleven of the fifteen countries constituting the European Union (EU) formally elected to enter Economic and Monetary Union (EMU) on January 1, 1999. The advent of EMU is an international event of a singular magnitude, with far-reaching implications for companies that conduct trade and business in and with Europe, and for the international financial industry. Considered to be the biggest economic event in Europe in the past quarter century, EMU will introduce only one reporting currency for Europe—the Euro. In addition, the European Central Bank (ECB) will become operational on January 1, 1999.

.121 The eleven founding countries of EMU are Austria, Belgium, Finland, France, Germany, Ireland, Italy, Luxembourg, Netherlands, Portugal, and Spain. Greece anticipates joining in 2001, and Denmark, Great Britain, and Sweden have elected to stay out of EMU for the time being.

### *How EMU Works*

.122 The establishment of the Euro as the single currency of the eleven countries will occur over a three-year period, from January 1, 1999, to July 1, 2002. At first, over the long holiday weekend of December 31, 1998, through January 4, 1999, all the currencies of the eleven European nations will be converted to the Euro at rates locked in on December 31, 1998. Cross-currency exchange rates between the countries (for example French francs to Belgian francs) will no longer exist. Only one conversion rate will be published—national currencies to the Euro. During the next three years, the Euro will be used only for commercial and wholesale purposes. Actual Euro currency and coins will not be introduced until the end of the three-year period. Thus, Europeans will still carry their traditional national currencies in their wallets during the initial transition period.

.123 Once EMU occurs on January 1, 1999, an intermediate step will be introduced to currency conversions. For example, to convert dollars to French francs, the dollars will first need to be converted to Eurasia, using normal currency exchange rates. Then, the Eurasia need to be converted to French francs, using officially published conversion rates. This process is known as triangulation.

.124 After the initial three-year period, Euro currency will be released, the Euro will become the only legal tender of the participating member countries of the EU, and those countries' traditional currencies will be valueless.

### *Reasons for EMU*

.125 European countries are joining economically and monetarily for the following primary reasons:

- EMU will change fundamentally the way business is conducted in Europe by consolidating capital markets, further enhancing efficiencies in the European common market, and facilitating freer movement of goods, services, labor, and capital across national boundaries.
- EMU, if ultimately successful, promises to give the Euroland countries powerful financial and political clout. The Euro will be the sole currency of a large economic bloc of nations that will attempt to rival and more successfully compete with the economic and financial power of the United States.
- Related to the second point, EMU will offer the Euro as an alternative reserve currency to the U.S. dollar. Currently, the U.S. dollar is the preeminent currency in the world, used in most international transactions and forming the bulk of many countries' currency reserves. That fact bestows upon the U.S. tremendous financial and political power to wield on the world stage. The EU hopes that the Euro will substantially erode the strong position of the U.S. dollar and gain acceptance as a viable and sought-after currency reserve.

### *EMU's Effect on U.S. Businesses and U.S. Financial Institutions*

.126 U.S. businesses that trade with European customers or suppliers or have European operations will be faced with assorted challenges due to EMU. The immediate concern is the preparation of a company's financial systems to handle the Euro. Many companies, preoccupied with Year 2000 Issues, have not properly addressed Euro-system issues. The three-year phase in period further complicates the system problems, because businesses will be dealing in Eurasia through the banking system and dealing in traditional European currencies with customers. Thus, financial systems need to be able to handle the multiple conversions.

.127 The advent of the Euro will require that organizations reassess their operations in Euroland, including the geographic locations of operations, the products offered, and product-delivery methods. Management will need to understand how their investments and derivatives denominated in traditional European currencies will be converted to Eurasia and what effect EMU will have on their investment and business strategies and investment earnings. Also, entities will spend significant sums of money on EMU-related matters, including renovating systems, updating contracts, and modifying their product lines.

.128 On June 12, 1998, the Fed issued a letter (SR 98-16) that provides an overview of EMU and its impact on banking organizations. The letter addresses information technology implications, contractual and market issues, communication requirements, and payment system developments. Financial institutions that use foreign markets, or engage in commercial dealings with Euroland nations, will be substantially affected by EMU. Readers should read the Fed letter for a thorough review of EMU's impact.

.129 Finally, some financial institutions may suffer heavy losses in business areas, such as foreign exchange and international payments.

### ***Auditing Issues***

.130 Auditors working with institutions that will be affected by EMU will want to make inquiries about how the institution is preparing for EMU. Failure to prepare adequately for EMU could result in difficulties in transacting on clearing and settlement systems and in financial statement misstatements due to problems with accounting and other information systems that have not been appropriately renovated. In addition, auditors may need to consider accounting issues related to foreign currency translations and transactions, whether costs related to preparing for EMU have been properly accounted for, and the need for possible disclosures. Since EMU is not effective until January 1, 1999, some of these matters may not apply to December 31, 1998, financial statements. However, management letter comments on the institution's readiness for EMU could be helpful in making management aware of the importance of this issue.

.131 For auditors of institutions issuing calendar year-end financial statements, the effect of EMU will likely represent a Type II subsequent event, as discussed in AU section 560 of the AICPA *Professional Standards*.

.132 FASB EITF Topic D-71, *Accounting Issues Relating to the Introduction of the European Economic and Monetary Union (EMU)*, discusses upgrade costs for projects to adapt information systems software for the Euro, and the preparation of comparative financial statements if there has been a change in reporting currency to the Euro. In addition, the SEC's Divisions of Corporation Finance, Market Regulation, and Investment Management issued Staff Legal Bulletin No. 6, which provides guidance on Euro-conversion-related issues such as the disclosure requirements that could arise.

#### **Executive Summary—European Economic and Monetary Union**

- A majority of the nations in the European Union (EU) have entered economic and monetary union (EMU) and have adopted the Euro as their currency.
- After an initial three-year phase in period, beginning on January 1, 1999, the Euro currency will become the only legal tender in the participating member countries of the EU.
- Financial institutions and other companies may need to prepare their financial systems to handle the Euro. Additionally, U.S. entities may need to reassess their operations in Euroland, and determine what effect EMU will have on their business and investment strategies.
- Auditors working with institutions that will be affected by EMU will want to make inquiries about how the institution is preparing for EMU. For auditors of institutions issuing calendar year-end financial statements, the effect of EMU will likely represent a type II subsequent event.
- The FASB has issued EITF Topic D-71 dealing with EMU.

### **Big Commercial Banks Dealing in Securities Underwriting**

*What should a CPA know about banks getting involved in securities underwriting?*

.133 Large banking companies are increasing their securities underwriting activities. As discussed in the Fundamental Changes in the Financial Services World section in this Alert, top-tier commercial banks have

been merging with investment banks and brokerages at a rapid pace. In fact, almost every bank holding company in the top twenty-five owns a securities subsidiary. These subsidiaries engage in capital markets activities such as underwriting state and local government revenue bonds, equities, commercial paper, corporate bonds, and mortgage-backed securities. Regulators have, over the past decade, eased restrictions on a commercial bank's ability to engage in capital markets activities, believing that banks must be allowed to engage in new businesses.

.134 Management of commercial banks have wanted to enter the lucrative securities underwriting business for decades. They realize that corporate customers often avoid costly traditional lending, in favor of raising money in the capital markets. Bank management can add significant revenue and profits to their operations by underwriting debt and equity securities. Moreover, management of commercial banks can enhance their investment client base and provide one-stop shopping to their corporate customers for all their financial services needs.

.135 Commercial banks will confront a clash of cultures when they combine with a brokerage or investment bank. They will have to absorb brokers who are more risk tolerant and more highly compensated than those who work at the bank. In combining the organizations, bank management will need to create an environment in which brokers can ply their trade in an effective and profitable manner. They will also need to structure carefully the new organization, assigning clear lines of authority to achieve a successful merger.

### ***Auditing Issues***

.136 Auditors should read the Effects of Adding and Expanding Product Lines, Services, and Businesses part of the Auditing Issues section under Fundamental Changes in the Financial Services World in this Alert for a description of auditing issues. Clearly, if the client is newly engaged in securities operations, the auditing team must possess adequate expertise in the securities industry to properly perform the audit.

## **Financial Institutions Offering Brokerage Accounts to Customers**

*Why are financial institutions offering brokerage accounts to customers, and what concerns exist?*

.137 More and more, financial institutions are offering asset-management accounts to their retail customers. These accounts combine a bank account with a brokerage account and contain a sweep feature, where idle cash sitting in the account is swept into an investment such as a money-market mutual fund.

### ***Benefits of Providing Asset-Management Accounts***

.138 Management of financial entities hope to gain customers and their investment dollars by offering asset-management accounts. They are trying to gain and retain customers who are investment-savvy and seek investment vehicles for their money beyond traditional bank products. Management of these institutions, including smaller community institutions, are looking for ways to increase earnings and expand the range of financial services they offer the public. Providing asset-management accounts helps financial institutions achieve those goals.

### ***Management and Regulator Concerns***

.139 The asset-management accounts offered by some financial institutions are sometimes more expensive and offer fewer investment options than the accounts offered by competitors in the brokerage industry. Additionally, these accounts can depress profit margins, because they pay higher interest rates than normal checking accounts and they lower deposit levels by sweeping excess cash into investments.

.140 A customer who invests his money in an institution's asset management account may mistakenly believe that his money is insured by the Federal Deposit Insurance Corporation (FDIC). That customer could

suffer significant losses if the institution fails and the money sitting in the asset-management account is uninsured. A statement issued by the four federal banking agencies provides instructions to institutions offering nondeposit investment products to retail customers. This statement is titled FIL 9-94 and can be obtained at the Web sites of the banking agencies. See "Information Sources" at the end of this Alert for Web site addresses.

**.141** In the statement, the banking agencies state that sales activities for nondeposit investment products should ensure that customers for these products are clearly and fully informed of the nature and risk associated with these products. Customers should be told that such products are not FDIC insured. An entity involved in selling these investment products should adopt a written statement that addresses the risks associated with the sales program and contains a summary of policies and procedures outlining the entity's program and addressing, at a minimum, the concerns described in the interagency statement. These are just some of the points made in the statement. Readers should read the statement to fully understand its requirements.

### ***Auditing Issues***

**.142** Auditors should read the Effects of Adding and Expanding Product Lines, Services, and Businesses part of the Auditing Issues section under Fundamental Changes in the Financial Services World in this Alert for a description of auditing issues that may apply to a situation in which a client has begun offering asset-management accounts to their customers. In addition, institutions may incur high acquisition costs when adding these accounts to their product mix. Auditors of those institutions may need to focus on the recoverability of those costs and the appropriateness of the related accounting. Finally, auditors may need to determine that their client complies with the interagency statement discussed above.

## **Financial Institutions Continue Their Advance Into the Insurance Industry**

### ***What are the issues connected to the ongoing movement of financial institutions into the insurance business?***

**.143** In a search for higher earnings and fee-generated income, management of financial entities continue to expand their insurance operations. Management has been helped by recent favorable court decisions and regulatory rulings that have paved the way for further penetration of the insurance industry by financial institutions. For instance, a recent OCC ruling allows banks to sell insurance from urban areas, not just small towns. Also helping management is the changing attitudes of the insurance industry, which has become more agreeable to the entrance of financial organizations.

**.144** Financial institutions engage in insurance activities in various ways. Currently, most institutions are not allowed to own insurance companies. Instead, institutions form alliances with insurers, set up direct marketing programs with them, and sometimes acquire insurance agencies. Insurers underwrite and service the insurance product, and the financial institution handles the other aspects of the business, such as marketing. The institution sells insurance by referring its customers to the insurance representative, by direct mail and by other methods.

### ***Challenges to Management***

**.145** Management's insurance activities may not always succeed. They may have difficulty integrating the insurance business with their core businesses. Management may have to resolve the cultural differences that exist between insurance representatives and banking employees. Often, account managers at financial institutions are reluctant to let others interact with their customers. Thus, there may be tension between the insurance representative and the account or relationship manager. Furthermore, insurance activities generally require a high volume of sales to be profitable. Management at larger institutions will therefore find it easier to succeed.

### ***Auditing Issues***

.146 Auditors should read the Effects of Adding and Expanding Product Lines, Services, and Businesses part of the Auditing Issues section under Fundamental Changes in the Financial Services World in this Alert for a description of auditing issues that may apply to a situation in which a client has begun engaging in insurance activities. Insofar as insurance activities can be complicated, auditors may need to ensure that their engagement team possesses the necessary insurance expertise or specialists to properly conduct the audit.

.147 Auditors of institutions engaged in insurance activities should consider whether management has appropriately accounted for transactions related to those activities. Review the AICPA Audit and Accounting Guides *Property and Liability Insurance Companies* and *Stock Life Insurance Companies* for a description of applicable guidance.

### **Auto and Equipment Leasing**

*Why are institutions engaging in the business of leasing cars and equipment to customers, and what should a CPA be aware of in working with such activities?*

.148 Numerous financial institutions, especially community banks and credit unions, are entering the business of consumer vehicle leasing and equipment leasing. This trend is part of the overall convergence taking place in the financial services industry. Institutions are looking at related business areas to increase revenue and profits. The popularity of leasing over ownership is increasing with consumers. Financial institutions recognize that if they fail to finance their customers' automobiles and equipment through leasing arrangements, those customers will go elsewhere.

.149 Of course, finance companies have been involved in leasing operations for many years. However, to many other institutions, leasing is a new business. Understanding the complicated accounting for leasing activities can be risky for newcomers.

.150 FASB Statement No. 13, *Accounting for Leases* (FASB, *Current Text*, vol. 1, sec. L10), and its related interpretations and amendments provide authoritative guidance on accounting for leases. Operating leases generally run for periods considerably shorter than the useful lives of related assets. At the expiration of such leases, the assets generally are sold or leased again. Direct financing leases are similar to other forms of installment lending in that lessors generally do not retain benefits and risks incidental to ownership of the property subject to leases. Such arrangements are essentially financing transactions that permit lessees to acquire and use property.

.151 Auditors should read the Effects of Adding and Expanding Product Lines, Services, and Businesses part of the Auditing Issues section under Fundamental Changes in the Financial Services World in this Alert for a description of auditing issues that may apply to a situation in which a client has begun engaging in leasing activities. Insofar as leasing activities can be complicated, auditors may need to ensure that their engagement team possesses the necessary expertise or specialists to properly conduct the audit.

### **Dwindling Deposits**

*Are dwindling deposit levels a concern?*

.152 Core deposits, such as checking accounts and certificates of deposit (CDs), have been declining significantly or have experienced limited growth at many financial institutions, especially smaller community institutions. At the same time, loan demand at most of these institutions has been increasing at a higher pace. Deposits are vital to institutions because they are a primary wellspring of money used to generate revenue. The main reason for this deposit decline is customers' growing preference to place their money in

high-earning mutual funds and stocks. Financial institutions cannot compete for those deposit dollars by offering their low-rate CDs and other time deposits. Many younger customers have never lived through a long period of decline in the stock markets. They see financial institutions as places to process their paychecks and maintain a little cash liquidity.

.153 Management of many institutions are therefore involved in a liquidity struggle. They cannot use their normal deposit base to meet growing loan demand and withdrawals. So they must seek alternate sources of ready money. These sources include borrowing cash from the Federal Home Loan Bank (FHLB) or other institutions (Fed funds), selling assets, or increasing interest rates. Smaller institutions are harder pressed to find alternate sources of funds, since they cannot avail themselves of the capital markets like larger entities do. Using alternate sources of cash decreases profit margins inasmuch as borrowed money is generally more costly than deposit sources with low rates. Management of financial institutions should carefully manage their sources of liquidity and be ready and able to respond to market conditions that affect their funding sources.

### ***Auditing Issues***

.154 Auditors of institutions facing serious declines in deposits should carefully assess the liquidity risk of their clients. An institution may default on its obligations, if a liquidity deficiency becomes severe. Also, failure to gain additional funding sources may depress earnings growth. Auditors should assess whether an institution possesses the necessary liquidity to continue as a going concern. SAS No. 59, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern* (AICPA, *Professional Standards*, vol. 1, AU sec. 341), provides guidance to the auditor in conducting an audit in accordance with GAAS with respect to evaluating whether there is substantial doubt about an entity's ability to continue as a going concern.

.155 If management plans to sell assets to procure additional funding, auditors should conclude whether those assets are properly classified and valued. In addition, if management borrows funds, auditors need to perform auditing procedures applicable to debt balances (see chapter 13 of the *Audit and Accounting Guide Banks and Savings Institutions* for guidance).

### **Refinancing Rage, Prepayment Risk, and Accounting Issues Related to the Sale or Securitization of Financial Assets**

*How does the current wave of refinancings affect financial institutions and audit risk?*

.156 People are refinancing their mortgages and other home equity loans at a remarkable rate due to the low interest rate environment. By refinancing their loans, these people are generating extraordinary loan volume for mortgage bankers and home equity lenders. At the same time, refinancings also generate some problems and risks.

### ***Accounting***

.157 Institutions that record gains on sales of loans, in accordance with FASB Statement No. 125, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* (FASB, *Current Text*, vol. 1, sec. F38), may record sizeable write-downs of servicing assets or other retained interests during periods of heavy refinancings. This has occurred to a number of subprime mortgage lenders recently. Many institutions securitize and sell their loans to institutional investors. Upon selling the loans, lenders estimate a fair value of retained interests and record a gain on the sale. (Note that FASB Statement No. 107, *Disclosures about Fair Value of Financial Instruments* (FASB, *Current Text*, vol. 1, sec. F25), requires creditors to disclose assumptions used to value new or retained interests in a securitization.) Lenders are required to estimate delinquencies and prepayments when recording the residual interest and sale of assets. A serious risk lies in not estimating appropriate prepayment rates when calculating the gain booked to income. When the massive refinancing wave hits, institutions that failed to adequately anticipate the refinancing prepayments must write down the residuals and record a loss. These losses can be significant.

### ***Servicers Take a Hit***

.158 Mortgage loan servicers will see their businesses diminish as their servicing portfolios are prepaid and taken off the books. Some of these servicers lack large enough loan origination networks to generate new loan volume and thus will suffer more serious financial difficulties.

### ***Auditing Issues***

.159 During a period of intense refinancings, auditors should evaluate carefully the assumptions used in valuing residual interests in sold loans. These assumptions may be overly optimistic. A determination should be made about the reasonableness of the gains recorded in the financial statements. In these circumstances, auditors should consider SAS No. 57, *Auditing Accounting Estimates* (AICPA, *Professional Standards*, vol. 1, AU sec. 342), which provides guidance on obtaining and evaluating sufficient competent evidential matter to support significant accounting estimates. Auditors should also analyze prepayment data used by management to calculate servicing rights at sale date and the systems used to update prepayment data over time for actual prepayment experience.

.160 The SEC staff is becoming increasingly concerned over the application of GAAP to a sale or securitization of financial assets, and assets that are retained or received, or liabilities that are incurred. Management and auditors should be aware of EITF Topic D-69 *Gain Recognition on Transfers of Financial Assets under FASB Statement No. 125*, which reminds financial statement preparers of the requirements for recognition, measurement, and disclosure.

.161 When an entity securitizes a loan or receivable it is often required to place the initial residual cash flows from the paydown of the trust in an over collateralization account to enhance the credit rating on the senior tranches of the trust. Such cash will then remain in the trust as collateral until certain performance targets (for example, delinquencies or losses) are met. Once such targets are met and sustained, cash is released to the transferor.

.162 There are currently two methods used to present value these cash flows. The first method (cash in) assumes that the residual cash placed in the over collateralization account are available to the entity when placed in this account. In contrast, the second method (cash out) assumes that the cash flows placed in an over collateralization account are not considered income until such cash flows are actually received by the entity.

.163 The SEC staff believes that the cash out is the appropriate method to use in valuing this interest only residual.

.164 Auditors may want to consider the effects of declining business and portfolios at servicers that are being adversely affected by the voluminous refinancings occurring in the industry. A servicer's operations, earnings, and profits may suffer substantial decline. Also, a servicer's management will probably experience intense pressure under these circumstances. See, therefore, the "Auditing Issues" part of the "Management Under Pressure and Possible Audit Risk" section in this Alert for possible other issues.

.165 In addition, auditors may need to consider how management is managing the risks inherent in their servicing portfolios, if such portfolios are not hedged.

.166 Finally, auditors should be familiar with the guidance in FASB Statement No. 125 and assess management's application of its requirements. Auditors should read chapter 8 of the Audit and Accounting Guide *Banks and Savings Institutions*, chapter 7 of the Audit and Accounting Guide *Audits of Credit Unions*, and chapter 2 of the Audit and Accounting Guide *Audits of Finance Companies*, as applicable, for a more thorough discussion of accounting and auditing matters related to this topic.

## Internal Audit Outsourcing

### *Are there concerns over the outsourcing of internal audit activities?*

.167 In addressing various quality and resource issues, many institutions have been engaging independent public accounting firms to perform work that has been traditionally done by internal auditors. These arrangements are called internal audit outsourcing. The federal banking agencies are concerned that the structure, scope, and management of some internal audit outsourcing arrangements may not contribute to the institution's safety and soundness. Furthermore, the agencies want to ensure that these arrangements with outsourcing accounting firms do not leave management and directors with the impression that they have been relieved of their responsibility for maintaining an effective system of internal control and for overseeing the internal audit function.

### *Policy Statement Issued*

.168 As a result of their concerns, on December 22, 1997, the four federal banking agencies issued an interagency policy statement on the internal audit function of insured depository institutions, bank holding companies, and the U.S. operations of foreign banking organizations. The Fed, FDIC, OCC, and the Office of Thrift Supervision (OTS) issued the policy to provide guidance and sound practices to help financial institutions effectively manage their internal audit function, whether performed by an institution's own employees or by outside experts under an outsourcing arrangement. The policy statement sets forth some characteristics of sound practices for the internal audit function and the use of outsourcing accounting firms for audit activities. Additionally, the policy statement discusses the effect that outsourcing arrangements may have on the independence of an external auditor who is also providing external audit services to an institution.

.169 A client may have outsourced some of its internal audit function to the auditor's firm. Even though the auditor may be providing internal audit services, the board of directors and senior management of an institution are still responsible for ensuring that the system of internal control (including the internal audit function) operates effectively. The outsourcing arrangement should not increase the risk that a breakdown of internal control can occur. A written contract or engagement letter should clearly set forth the internal audit duties of the institution and the duties of the auditor's firm. It is preferable that the letter indicates that the auditor may not perform management functions, make management decisions, or act or appear to act in a capacity equivalent to that of an employee (see Independence Issues as follows).

### *Independence Issues*

.170 Questions have been raised about whether external auditors who perform an audit of the institution's financial statements or provide any other service that requires independence can also perform internal audit services and still be considered independent. The AICPA has issued guidance to CPAs on independence that addresses these issues. Interpretation No. 101-13 of the AICPA *Code of Professional Conduct* states that the CPA's performance of services, required by the outsourcing arrangement, would not be considered to impair independence with respect to an institution for which the CPA also performs a service requiring independence, provided the CPA, or the CPA's firm, does not act or appear to act in a capacity equivalent to a member of the institution's management or as an employee.

.171 Interpretation No. 101-13 lists activities that would impair a CPA's independence, if the CPA performs those activities as part of internal audit services. Some of those activities are—

- Performing ongoing monitoring activities or control activities that affect the execution of transactions or ensure that transactions are properly executed, accounted for, or both, and performing routine activities in connection with the institution's operating processes that are equivalent to those of an ongoing compliance or quality control function. An example is reviewing loan originations as part of the institution's approval process.

- Reporting to the board of directors or audit committee on behalf of management or the individual responsible for the internal audit function.
- Authorizing, executing, or consummating transactions or otherwise exercising authority on behalf of the institution.

Interpretation No. 101-13 contains a complete listing of activities that would impair independence.

.172 The federal banking agencies are concerned that outsourcing arrangements may involve activities that compromise, in fact or appearance, the independence of the external auditor. The agencies believe that other actions compromise independence in addition to those in Interpretation 101-13. Such actions include—

1. Contributing in a decision-making capacity or otherwise actively participating (for example, advocating positions or actions rather than merely advising) in committees, task forces, and meetings that determine the institution's strategic direction
2. Contributing in a decision-making capacity to the design, implementation, and evaluation of new products, services, internal controls or software that are significant to the institution's business activities.

### ***Further Information***

.173 Auditors should read the interagency policy statement and the AICPA's Interpretation No. 101-13 for a full understanding of this issue. The policy statement is available on the FDIC Web site, at [www.fdic.gov/banknews/fils/1997/fil97133.html](http://www.fdic.gov/banknews/fils/1997/fil97133.html), or by calling the Federal Reserve Freedom of Information Office at 202-452-3684. Interpretation No. 101-13 can be found in the AICPA's *Code of Professional Conduct* (call 1-888-777-7077 for ordering information).

#### **Executive Summary—Internal Audit Outsourcing**

- Many institutions have been engaging independent public accounting firms to perform work that has been traditionally done by internal auditors. The federal banking agencies are concerned that these internal audit outsourcing arrangements may not contribute to the institution's safety and soundness.
- Auditors should become familiar with the AICPA Interpretation 101-13, "Extended Audit Services," of the Rules of Conduct and a related interagency statement issued by banking regulators to gain a better knowledge of what is acceptable when it comes to internal audit outsourcing.

### **Repurchase and Reverse Repurchase Agreements**

*What does one need to be concerned with regarding repurchase agreements?*

#### ***Risks***

.174 Depository institutions and others involved with repurchase and reverse repurchase agreements have sometimes incurred significant losses as a result of a default or fraud by the counter-party to the transaction. Inadequate credit risk management and the failure to exercise effective control over securities collateralizing the transactions are the most important factors causing these heavy losses.

.175 Repurchase and reverse repurchase agreements can be a useful asset and liability management tool, but these agreements can expose a depository institution to serious risks if they are not managed appropriately. It is possible to reduce repurchase and reverse repurchase agreement risk if the depository institution executes written agreements with all counterparties and custodian banks. Compliance with these written agreements should be monitored on a daily basis.

### ***Revised FFIEC Policy Statement***

.176 The FFIEC recently revised its supervisory policy statement on repurchase and reverse repurchase agreements. It provides guidance to financial institutions on those agreements, including guidelines for written repurchase agreements, policies and procedures, credit risk management, and collateral management. The FFIEC policy statement has three principal revisions. First, a new section covering the requirements of the Government Securities Act has replaced an obsolete section dealing with unregulated securities dealers. Second, the policy statement has been streamlined and updated to generally cover other laws and regulations. Third, the list of written repurchase agreement provisions has been updated to reflect current market practice. For more information on the revised policy statement, call the FDIC's Division of Supervision at (202) 898-3618. The revised policy statement can be obtained at the FFIEC's Web site, at [www.ffiec.gov](http://www.ffiec.gov).

### ***Auditing Issues***

.177 Auditors should read chapter 12 of the AICPA Audit and Accounting Guide *Banks and Savings Institutions* and chapter 4 of the Audit and Accounting Guide *Audits of Credit Unions*, as applicable, for a thorough discussion of repurchase and reverse repurchase agreements. Those chapters suggest possible auditing steps, including—

- Auditors may want to review the latest audited financial statements of the counterparties to the institution's repurchase and reverse repurchase agreements. They may also want to review other available reports, such as reports on internal control or special-purpose reports by the dealer's accountant, to determine whether the dealer has net capital in excess of statutory requirements. If there is reason to question the creditworthiness of the counterparty, the auditor should consider consulting with legal counsel regarding whether, in the event of the counterparty's inability to return (sell back) the collateral securities, the institution has the right to set off the loan liability against the collateral.
- Whenever a buyer-lender or its agent does not take delivery of the securities, the auditor should consider confirming not only the occurrence and terms of the transaction and the obligation to repurchase the securities but also that they have not been delivered and are being held on the institution's behalf. The auditor should also recognize that, when delivery is not made, the transaction has many of the attributes of an unsecured loan. Accordingly, the auditor should consider assessing the reputation and financial strength of the seller-borrower and of the custodian.

### ***Loan Participations***

*Given the upswing in loan participations, what should a CPA remember about such transactions?*

.178 Loan participation arrangements have been on the upswing in the credit union industry. As such, auditors are reminded of the following matters:

- Entities that participate in a loan should clearly delineate the responsibilities of each participant, such as who has servicing responsibility.
- The purchaser of a loan participation is responsible for conducting a credit analysis. Loan files for purchased participations should be available at the institution and should contain pertinent documents, or copies of them.
- The auditor generally will want to obtain copies of any reports issued under SAS No. 70, *Reports on the Processing of Transactions by Service Organizations* (AICPA, *Professional Standards*, vol. 1, AU sec. 324), by the servicer's independent accountants when planning the extent of test work necessary in the loan area.
- The auditor should be familiar with the requirements of paragraphs 5.18–5.21, 5.70, and 5.71 of the AICPA Audit and Accounting Guide *Audits of Credit Unions* (with conforming changes as of May 1, 1998), and

with the requirements of paragraphs 6.38, 6.39, and 6.112 of the AICPA Audit and Accounting Guide *Banks and Savings Institutions* (with conforming changes as of May 1, 1998), as applicable.

## Money Laundering<sup>1</sup>

*What precisely is money laundering all about, and what are a CPA's responsibilities?*

.179 The Treasury Department has recently intensified its review of anti-money laundering measures at financial institutions. Keeping in step with the Treasury Department, auditors should refresh their understanding of money laundering and its implications.

.180 Criminals use financial institutions to launder the proceeds of crime. The evolving dynamics in the depository institutions and lending industry generate great business opportunities for financial institutions, but they also generate risks for institutions, including increased money laundering vulnerability. Banks are the most vulnerable of financial institutions, because they provide the broadest range of financial services that money launderers want and need.

### *Definition of Money Laundering*

.181 Money laundering is the funneling of cash or other funds generated from illegal activities through legitimate businesses to conceal the initial source of the funds. Money laundering is a global activity and, like the illegal activities that give it sustenance, it seldom respects local, national or international jurisdiction. Current estimates of the size of the global annual "gross money laundering product" range from \$300 billion to \$1 trillion.

.182 While money laundering activity and methods become increasingly complex and ingenious, its "operations" tend to consist of three basic stages or processes: placement, layering, and integration.

.183 *Placement* is the process of transferring the actual criminal proceeds, whether in cash or in any other form, into the financial system in such a manner as to avoid detection by bank and nonbank financial institutions and government authorities. Money launderers pay careful attention to national laws, regulations, governance, trends, and law-enforcement strategies and techniques, to keep their proceeds concealed, their methods secret, and their professional resources anonymous. The most common placement techniques include structuring<sup>2</sup> cash deposits into legitimate bank and other financial institution accounts and converting cash into other monetary instruments.

.184 *Layering* is the process of generating a series or layers of transactions to distance the proceeds from their illegal source and to obfuscate the audit trail in doing so. Common layering techniques include outbound electronic funds transfer, usually directly or subsequently into a "bank secrecy haven" or a jurisdiction with more liberal recordkeeping and reporting requirements; withdrawals of already-placed deposits in the form of highly liquid monetary instruments, such as money orders and travelers checks; and internal transfers between accounts, increasing the likelihood of hold removal and nominee accounts controlled by an inside perpetrator.

.185 *Integration*, the final money-laundering stage, is the unnoticed reinsertion of successfully laundered, untraceable proceeds into an economy. This is accomplished through a wide variety of spending, investing, and lending techniques and cross-border, legitimate-appearing transactions.

---

<sup>1</sup> The Treasury Department has had significant input in drafting the content of this section of the Alert. As such, it provides auditors of financial institutions with a unique insight into how federal regulators view this important area of concern.

<sup>2</sup> Structuring means breaking up large amounts of currency into smaller amounts to conduct transactions in such a manner as to avoid suspicion and detection.

.186 The world's largest and wealthiest economies tend to serve as the primary hosts for money launderers and their operations. These economies tend to harbor the greatest demand for illegal drugs, still the primary predicate money-laundering activity. Also, sophisticated money launderers need similarly sophisticated financial services sectors to successfully launder—to place, layer, and integrate proceeds.

### ***Related Laws and Regulations***

.187 The Bank Secrecy Act (BSA), enacted to address the problem of money laundering, authorizes the Treasury Department to issue regulations requiring financial institutions to file reports, keep certain records, implement anti-money-laundering programs and compliance procedures, and report suspicious transactions to the government (see 31 CFR Part 103). Failure to comply with BSA reporting and recordkeeping provisions may result in the assessment of severe penalties.

.188 The BSA contains a suspicious activity reporting (SAR) requirement. All financial institutions operating in the U.S. are required to report suspicious activity following the discovery of: insider abuse involving any amount, violations aggregating \$5,000 or more when a suspect can be identified, violations aggregating \$25,000 or more regardless of a potential suspect, or transactions aggregating \$5,000 or more that involve potential money laundering or violations of the BSA.

.189 The BSA also contains regulations requiring financial institutions to file currency transaction reports (CTRs) for cash transactions greater than \$10,000. A new rule on CTR exemptions took effect on January 1, 1998 (see the FDIC's Financial Institution Letter 10-98 for details about the exemptions).

### ***Money Laundering and Financial Statements***

.190 Money laundering usually results in large quantities of illicit proceeds that need to be distanced from their source as quickly as possible in an undetected manner. Consequently, it is less likely that money laundering will be detected in financial statement audits than other types of illegal activities. In addition, the activity is more likely to cause assets to be overstated rather than understated, with shorter-term fluctuations in account balances rather than cumulative changes. Thus, money laundering is considered to be an illegal act with an *indirect* effect on financial statement amounts under SAS No. 54, *Illegal Acts by Clients*, (AICPA, *Professional Standards*, vol. 1, AU sec. 317). Under SAS No. 54, the auditor should be aware of the possibility that such illegal acts have occurred. If specific information comes to the auditor's attention that provides evidence concerning the existence of possible illegal acts that could have a material indirect effect on the financial statements, the auditor should apply audit procedures specifically directed to ascertaining whether an illegal act has occurred.

.191 Auditors should also note that laundered funds and their proceeds could be subject to asset seizure and forfeiture (claims) by law enforcement agencies that could result in material contingent liabilities during prosecution and adjudication of cases.

#### **Executive Summary—Money Laundering**

- The Treasury Department has recently intensified its review of anti-money laundering measures at financial institutions. Auditors should have an awareness of what money laundering is and should understand their responsibilities regarding money laundering.
- Money laundering is a global activity in which cash or other funds from illegal activities are funneled through legitimate businesses to conceal the initial source of funds.
- Money laundering usually results in large amounts of illicit proceeds that need to be distanced from their source as quickly as possible, and it is less likely to be detected in a financial statement audit than other types of illegal activities.
- Under SAS No. 54, money laundering is considered to be an illegal act with an indirect effect on financial statement amounts. The auditor does not have a detection responsibility for such illegal acts. However, auditors should be aware of the possibility that such illegal acts have occurred.

## New Sanctions

*With what countries and entities are financial institutions prohibited from doing business?*

.192 The Department of the Treasury's Office of Foreign Assets Control (OFAC) announced on June 10, 1998, that new sanctions have been imposed against the governments of Serbia, Montenegro, and the Federal Republic of Yugoslavia (Serbia and Montenegro) (FRY S&M). All property in which these governments have an interest is blocked immediately and financial transactions involving them are prohibited, except for transactions within the FRY S&M conducted exclusively through its domestic banking system in dinars or using bank notes or barter. OFAC also administers sanction programs against Libya, Iraq, Cuba, the National Union for the Total Independence of Angola (UNITA), North Korea, Syria, Sudan, Bosnian-Serb-controlled areas of the Republic of Bosnia and Herzegovina, international terrorists, and international narcotics traffickers.

.193 OFAC administers and enforces economic and trade sanctions based on U.S. foreign policy and national security goals. Information concerning OFAC rules, lists of prohibited entities, and general OFAC information can be obtained on the Web at [www.ustreas.gov/treasury/services/fac/fac.html](http://www.ustreas.gov/treasury/services/fac/fac.html).

## Regulatory Matters

*What significant regulatory developments have occurred?*

### New Independence Standards Board

.194 In an anticipated move, the SEC has given authority to the Independence Standards Board (ISB) to develop independence standards for public companies and provide guidance on specific auditor independence issues.

.195 According to Financial Reporting Release (FRR) No. 50, issued on February 18, 1998, the SEC will allow the ISB to provide auditor independence principles, standards, interpretations, and practices, which means the commission no longer will promulgate separate independence rules. However, the SEC has not abdicated its own statutory responsibilities, it will provide oversight of the ISB and will take enforcement action when appropriate. According to the reporting release, the SEC's relationship with the ISB will be similar to the one it currently has with the FASB.

.196 The ISB has an independence issues committee made up of nine representatives from the AICPA SEC practice section and a full-time staff located in the AICPA's New York City offices. All SEC practice section member firms should now contact the ISB staff rather than the SEC staff for guidance on auditor independence issues related to SEC registrants.

.197 The following are unchanged:

- Auditors of private companies will comply with the AICPA Professional Ethics Executive Committee's independence rules.
- The state boards of accountancy and the AICPA ethics committee will undertake their own disciplinary actions regarding auditor independence.

### Credit Union Investment and Deposit Activities

.198 In 1997, the National Credit Union Administration (NCUA) issued a final rule on Investment and Deposit Activities (Part 703) of credit unions that clarifies a number of areas, adds restrictions on some securities, broadens authority in certain areas, and attempts to ensure that both credit unions' management and board of directors can authorize only the purchase of investments they understand. Subsequently, the

NCUA adopted certain amendments to the ruling that revise the broker-dealer and safekeeping provisions. Auditors should read the new amendments, as deemed necessary. The ruling and amendments on credit union investment and deposit activities can be obtained from the NCUA Web site, at [www.ncua.gov](http://www.ncua.gov), or by calling the NCUA at (703)-518-6360.

### External Audits for Small Banks and Thrifts

**.199** The Fed, FDIC, OCC, and the OTS, under the auspices of the FFIEC, published in the *Federal Register* on Feb. 17, 1998, a proposed policy statement on external audit programs for banks and thrifts. The proposal is available on the FDIC Web site, at [www.fdic.gov/banknews/fils/1998/fil9816.html](http://www.fdic.gov/banknews/fils/1998/fil9816.html).

**.200** Banks and savings institutions with assets of \$500 million or more are already required to have annual audits under section 36 of the Federal Deposit Improvement Act. Therefore, the FFIEC proposal applies only to banks and thrifts under the asset threshold that are not otherwise subject to audit requirements. The FFIEC encourages each institution, as part of its external audit program, to obtain an annual audit of its financial statements by an independent public accountant. If an institution's board of directors or audit committee determines that an audit is not appropriate, two other acceptable alternatives are described: a report on the institution's balance sheet or an attestation report on internal controls over specified schedules of its regulatory reports, including those relating to loans and securities. Both engagements should be performed by an independent public accountant.

**.201** The FFIEC also encourages banks and thrifts to establish an audit committee consisting entirely of outside directors, if practicable.

### Directors Exam Policy Rescinded

**.202** The FDIC has rescinded its outdated Policy Statement Providing Guidance on External Auditing Procedures for State Nonmember Banks, effective December 31, 1997. The Policy Statement recommended, as an alternative to an audit for banks not subject to the audit requirement in section 36 of the Federal Deposit Improvement Act, that the board of directors or audit committee consider having certain specified auditing procedures performed by an independent public accountant as its external auditing program. However, the FDIC has now determined that the specific procedures recommended in the Policy Statement no longer are an acceptable alternative to a financial statement audit nor are they the best method for meeting the FDIC's supervisory objectives with respect to external auditing work. Furthermore, under the requirements of the Statement on Standards for Attestation Engagements (SSAE) No. 4, *Agreed-Upon Procedures Engagements* (AICPA, *Professional Standards*, vol. 1, AT sec. 600), these specific procedures are unworkable. Accordingly, the FDIC has withdrawn this Policy Statement.

**.203** Auditors are reminded that for state-mandated directors examinations and other agreed-upon procedures engagements performed, the requirements of SSAE No. 4 and SAS No. 75, *Engagements to Apply Agreed-Upon Procedures to Specified Elements, Accounts, or Items of a Financial Statement* (AICPA, *Professional Standards*, vol. 1, AU sec. 622), must be met. As required by AT sec. 600.11 and AU sec. 622.10, if the practitioner cannot obtain agreement from a party (such as the state bank regulator or FDIC) on the procedures to be performed or the party's acceptance of responsibility for sufficiency of the agreed-upon procedures for the party's purposes, the practitioner should not include that party as a specified user. Further, those Standards say practitioners should not report on an engagement when specified users do not agree upon the procedures to be performed and do not take responsibility for the sufficiency of the procedures for their purposes.

### Bank Independent Audit and Reporting Requirements Revised

**.204** The FDIC has amended the Annual Independent Audit and Reporting Requirements (Part 363) to implement the provision of the Economic Growth and Regulatory Paperwork Reduction Act of 1996 that

repealed section 36(e) of the Federal Deposit Insurance Act (*Federal Register*, November 28, 1997). Section 36(e) had required each insured depository institution with \$500 million or more in total assets to have an independent public accountant perform specific procedures for determining compliance with designated safety and soundness laws. To conform Part 363 to the revised statute, the amendment eliminates from the regulation Schedule A to appendix A, "Agreed Upon Procedures for Determining Compliance with Designated Laws." Bank management is still required to file with the FDIC and appropriate federal and state banking agencies an annual report that includes a statement of its responsibilities for complying with designated laws and an assessment of the bank's compliance with such laws and regulations. The amendment also updates certain references to other documents, eliminates an unnecessary filing by independent public accountants, and aligns the filing requirements with the FDIC's current approach for supervising banking organizations.

## Investment Securities and End-User Derivatives Activities

.205 The Fed, FDIC, OCC, OTS, and the NCUA (the agencies), under the auspices of the FFIEC have issued a Supervisory Policy Statement on Investment Securities and End-User Derivatives Activities. The Statement rescinds the Supervisory Policy Statement on Securities Activities, published in 1992. Many elements of that prior Statement are retained in the 1998 Statement, whereas other elements have been revised or eliminated.

.206 The 1998 Statement provides guidance to financial institutions on sound practices for managing the risks of investment securities and end-user derivatives activities. In adopting the 1998 Statement, the agencies are removing the specific constraints in the 1992 Statement concerning investments by insured depository institutions in high-risk mortgage derivative products. The agencies believe that it is sound practice for institutions to understand the risks related to all their investment holdings. Accordingly, the 1998 Statement substitutes broader guidance than the specific pass/fail requirements contained in the 1992 Statement. Other than for the supervisory guidance contained in the 1992 Statement, the 1998 Statement does not supersede any other requirements of the respective agencies' statutory rules, regulations, policies, or supervisory guidance. Each agency has issued or will issue separate, additional guidance on this issue, including guidance on reporting of securities activities.

.207 The guidance in the 1998 Statement applies to all securities in held-to-maturity and available-for-sale accounts as defined in FASB Statement No. 115, *Investments in Debt and Equity Securities* (FASB, *Current Text*, vol. 1, sec. I80), certificates of deposit held for investment purposes, and end-user derivative contracts not held in trading accounts. This guidance covers all securities used for investment purposes, including money market instruments, fixed-rate and floating-rate notes and bonds, structured notes, mortgage pass-through and other asset-backed securities, and mortgage-derivative products. Additionally, the 1998 Statement covers all end-user derivative instruments used for nontrading purposes, such as swaps, futures, and options. The 1998 Statement applies to all federally insured commercial banks, savings banks, savings associations, and federally chartered credit unions.

.208 Management and auditors should read the new Statement and understand its provisions, as deemed necessary based on the circumstances of the engagement. The Statement can be obtained on the FFIEC Web site, at [www.ffiec.gov](http://www.ffiec.gov), or by calling the individual agencies (see the "Information Sources" section at the end of this Alert for phone numbers).

## Credit Union Service Organizations

.209 The NCUA has updated, clarified, and streamlined existing rules concerning credit union service organizations (CUSOs), a common means of outside provision of services to federal credit unions (FCUs) and to credit union members. The final rule clarifies NCUA's authority to review CUSO books, records, and operations; adds corporate separateness requirements and additional permissible services; changes the legal opinion requirements; maintains safety and soundness criteria; and ensures the continuity and growth of

services to FCUs and their members conducted through CUSOs. Related conforming changes are also made to credit union service contract, fixed asset, and corporate credit union rules. Information is available at the NCUA Web site, at [www.ncua.gov](http://www.ncua.gov).

## **Market Risk**

.210 The FDIC, OCC, and the Fed have amended their respective risk-based capital requirements to reduce the regulatory burden for banks with significant trading activities. The market-risk rule applies to banks whose trading activity equals 10 percent or more of their total assets, or whose trading activity equals \$1 billion or more. The interim final rule amends the risk-based capital requirement of the market-risk rule to eliminate a requirement that an affected institution must hold capital for specific risk equal to at least 50 percent for what would be derived using a standardized calculation. The interim final rule became effective on December 31, 1997.

## **Treasury Department Studies Credit Unions**

.211 The Treasury Department completed its study of credit unions and NCUA's management of the Share Insurance Fund (NCUASIF) in December 1997. The report concluded that the credit union community was in overall good condition. It recommended that the NCUASIF remain under NCUA purview. The report called for no major changes in credit union supervision or regulation.

.212 The report recommended that Congress and NCUA make important safety and soundness rules readily accessible; increase the asset reserve target for federal credit unions from 6 percent to 7 percent; adopt a prompt corrective action system for federally insured credit unions, similar to FDIC's system; require that federally insured credit unions over \$500 million obtain independent financial audits by CPAs; and, develop risk-based net-worth requirements for large, complex credit unions.

.213 The report also made several recommendations specifically requiring congressional action, including establishment of a Share Insurance Fund available assets ratio of 1 percent of insured shares.

## **Bank Holding Company Tier 1 Leverage Capital Standard**

.214 The Fed has issued a final rule amending the Tier 1 leverage capital standard for bank holding companies. The amendment to Regulation Y establishes a minimum ratio of Tier 1 capital to total assets (leverage ratio) of 3 percent for bank holding companies that either are rated composite "1" under the BOPEC rating system or have implemented the Fed's risk-based capital market risk measure. The minimum leverage ratio for all other bank holding companies is 4 percent. Bank holding companies are expected to maintain higher-than-minimum capital ratios if they have supervisory, financial, operational, or managerial weaknesses, or if they are anticipating or experiencing significant growth. The rule is effective June 30, 1998.

## **Tax Court Decision Affects Loan Expense Deductions**

.215 On June 8, 1998, a Tax Court ruled that institutions should, for income-tax purposes, deduct loan expenses over the life of the loan and should not deduct the expenses immediately in the year the loan is originated. This will increase an institution's taxable income, since the loan expenses will be spread out over a number of years. This decision upholds a 1992 Internal Revenue Service (IRS) ruling that was not immediately enforced by the IRS. Loan expenses include costs that are incurred in extending loans to customers, such as the cost of obtaining property appraisals. A decision has not yet been made about whether this court ruling will be appealed. CPAs should monitor this issue for further developments.

## **International Rules Streamlined**

.216 The FDIC revised three groups of rules and regulations for international banking, consolidating them into one regulation, Part 347. The new regulation reduces filing requirements, allowing banks to com-

pete abroad more effectively. Most important for CPAs, Part 347 simplifies accounting for fees on international loans. Instead of requiring specific accounting procedures, the new regulation directs banks to follow GAAP. Not only does the new regulation ease filing burdens for banks that wish to open a foreign branch or make a foreign investment, but it also amends regulations governing insured branches of foreign banks and specifies deposit rules for uninsured state-licensed branches of foreign banks. New Part 347 is effective July 1, 1998. For more information, contact the FDIC Division of Supervision at (202) 898-3671.

## New Auditing and Attestation Pronouncements

### *What new auditing and attestation standards have been issued?*

.217 Presented below are descriptions of recently issued auditing and attestation pronouncements that may be applicable to financial institutions. For a complete list and description of all new auditing and attestation standards, auditors should read the AICPA general *Audit Risk Alert—1998/99* [AAM section 8010]. Call the AICPA Order Department at 1-888-777-7077 to order.

### New Auditing Standards

#### ***SAS No. 86, Amendment to Statement on Auditing Standards No. 72, Letters for Underwriters and Certain Other Requesting Parties***

.218 The Auditing Standards Board (ASB) issued SAS No. 86 in March 1998 to reflect the issuance of SSAE No. 8, *Management's Discussion and Analysis* (AICPA, *Professional Standards*, vol. 1, AT sec. 700). SAS No. 86 allows practitioners that have examined or reviewed management's discussion and analysis (MD&A) in accordance with the provisions of SSAE No. 8 to state that fact in the introductory section of the comfort letter (a special type of agreed-upon procedures report that may be issued in connection with a securities offering) and attach a copy of the SSAE No. 8 report to the comfort letter. SAS No. 86 presents examples of comfort letters that contain references to either an examination of annual MD&A or a review of interim MD&A. SAS No. 86 is effective for comfort letters issued on or after June 30, 1998.

#### ***SAS No. 87, Restricting the Use of an Auditor's Report***

.219 The ASB issued SAS No. 87 in September 1998 and it is effective for reports issued after December 31, 1998. SAS No. 87 provides guidance to auditors in determining whether an engagement requires a restricted-use report and, if so, what elements to include in that report. The SAS states that an auditor should restrict the use of a report when—

- The subject matter of the auditor's report or the presentation being reported on is based on measurement or disclosure criteria contained in contractual agreements or regulatory provisions that are not in conformity with generally accepted accounting principles or other comprehensive basis of accounting (OCBOA).
- The accountant's report is based on procedures that are specifically designed and performed to satisfy the needs of specified parties who accept responsibility for the sufficiency of the procedures.
- The auditor's report is issued as a by-product of a financial statement audit and is based on the results of procedures designed to enable the auditor to express an opinion on the financial statements taken as a whole, not to provide assurance on the specific subject matter of the report.

In addition to describing the circumstances in which the use of an auditor's report should be restricted, SAS No. 87, among other things, defines the terms *general use* and *restricted use*, specifies the language to be used in restricted-use reports, and requires an auditor to restrict a combined report if it covers subject matter or presentations that ordinarily do not require a restriction on use and subject matter or presentations that require such a restriction. It permits auditors to include a separate general-use report in a document that also contains a restricted-use report.

### **SAS No. 21, Segment Information—Rescinded**

.220 SAS No. 21, *Segment Information* (AICPA, *Professional Standards*, vol. 1, AU sec. 435), contained guidance for auditing disclosures made in accordance with the provisions of FASB Statement No. 14, *Financial Reporting for Segments of a Business Enterprise* (FASB, *Current Text*, vol. 1, sec. S20). FASB Statement No. 14 was superseded upon the issuance of FASB Statement No. 131, *Disclosures about Segments of an Enterprise and Related Information* (FASB, *Current Text*, vol. 1, sec. S30), which is effective for fiscal years beginning after December 15, 1997. Accordingly, the ASB has rescinded SAS No. 21 effective for audits of financial statements to which FASB Statement No. 131 has been applied. In its place, auditing Interpretation No. 4, "Applying Auditing Procedures to Segment Disclosures in Financial Statements," of SAS No. 31 has been issued. See the "New Auditing Interpretations and AITF Advisory" section of the general *Audit Risk Alert—1998/99* [AAM section 8010] for a more detailed discussion of the new Interpretation.

### **New Attestation Standard**

#### **SSAE No. 8, Management's Discussion and Analysis**

.221 Issued by the ASB in March 1998, SSAE No. 8 provides guidance to a practitioner concerning the performance of a review or examination of MD&A prepared pursuant to the rules and regulations of the SEC. The presentation of MD&A in annual reports to shareholders and in other documents constitutes a written assertion upon which an attest engagement may be performed. Specifically, SSAE No. 8—

1. Sets conditions for engagement performance for both examinations and reviews of MD&A.
2. Provides extensive guidance on planning, performing, and reporting on examinations and reviews of MD&A.
3. Provides a comparison of activities performed for engagements covered by SAS No. 8, *Other Information in Documents Containing Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1, AU sec. 550), with those performed under SSAE No. 8.

SSAE No. 8 became effective upon issuance.

.222 In September 1998, the ASB voted to issue the exposure draft *Amendments to SSAE No. 1, Attestation Standards; SSAE No. 2, Reporting on an Entity's Internal Control Over Financial Reporting; SSAE No. 3, Compliance Attestation* as a final standard. See the "Exposure Draft Issued by the Auditing Standards Board" section of the general *Audit Risk Alert—1998/99* [AAM section 8010] for further information.

### **New Auditing Interpretation and Audit Issues Task Force Advisory**

.223 Presented below are descriptions of a new auditing Interpretation and a recently issued Audit Issues Task Force (AITF) Advisory that have special significance for auditors of financial institutions. As stated above, auditors should read the AICPA general *Audit Risk Alert—1998/99* [AAM section 8010] for a comprehensive list and description of new auditing interpretations and AITF advisories.

#### ***Interpretation No. 1, "The Use of Legal Interpretations as Evidential Matter to Support Management's Assertion that a Transfer of Financial Assets Has Met the Isolation Criterion in Paragraph 9(a) of Financial Accounting Standards Board Statement No. 125," of SAS No. 73***

.224 Issued in February 1998, Interpretation No. 1, "The Use of Legal Interpretations as Evidential Matter to Support Management's Assertion that a Transfer of Financial Assets Has Met the Isolation Criterion in Paragraph 9(a) of Financial Accounting Standards Board Statement No. 125," of SAS No. 73, *Using the Work of a Specialist* (AU sec. 9336.01-.18), provides guidance regarding the use of a legal specialist's findings as audit evidence to support management's assertion that a transfer of financial assets meets the legal isolation criterion of paragraph 9(a) of FASB Statement No. 125, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* (FASB, *Current Text*, vol. 1, sec. F38). The Interpretation addresses when the

use of a legal specialist's work may be appropriate; factors that should be considered in assessing the adequacy of the legal response; and the use, as audit evidence, of legal responses that are restricted to the client's use. The Interpretation is effective for auditing procedures related to transactions required to be accounted for under FASB Statement No. 125 that were entered into on or after January 1, 1998. The AITF has amended the Interpretation to include the form of letter that adequately communicates permission for the auditor to use the legal specialist's opinion for the purpose of evaluating management's assertion as well as sample language that does not adequately communicate such permission. The amended Interpretation appeared in the October 1998 issue of the *Journal of Accountancy*.

### ***AITF Advisory, Practice Issues Regarding Language to Permit the Use of Legal Opinions by Auditors***

.225 In February 1998, the AITF issued an Interpretation, "The Use of Legal Interpretations as Evidential Matter to Support Management's Assertion That a Transfer of Financial Assets Has Met the Isolation Criterion in Paragraph 9(a) of FASB Statement No. 125," of SAS No. 73. (Note that the guidance in this AITF Advisory has been incorporated into an amendment of the interpretation that appeared in the October *Journal of Accountancy*.) Paragraph 16 of the interpretation notes that if a legal letter restricts use of the findings expressed therein to the client or to third parties other than the auditor, the auditor should request that the client obtain the legal specialist's written permission for the auditor to use the opinion for the purpose of evaluating management's assertion that a transfer of financial assets meets the isolation criterion of FASB Statement No. 125.

.226 The AITF has been made aware that some legal letters addressed to clients authorize the client to make copies of the legal opinion available to auditors to use in their evaluation of management's assertion that a transfer of financial assets meets the isolation criterion of FASB Statement No. 125, but then state that the auditor is not authorized to rely thereon. The AITF is advising auditors that, effective with the publication of this Advisory, such "use but not rely on" language, or other language that similarly restricts the auditor's use of the legal specialist's opinion, should not be used as audit evidence. The auditor may wish to consult with his or her legal counsel in circumstances in which it is not clear that the auditor may use the legal specialist's opinion.

## **New FASB Pronouncements**

### ***What new standards have been issued by the FASB?***

.227 Presented below are descriptions of recently issued FASB Statements that affect the financial statements of financial institutions. Auditors should read the AICPA general *Audit Risk Alert—1998/99* [AAM section 8010] for a complete listing and description of recent GAAP developments, including FASB Emerging Issues Task Force (EITF) consensus positions and AICPA Statements of Position. Call the AICPA at 1-888-777-7077 to order.

### ***FASB Statement No. 132, Employers' Disclosures about Pensions and Other Postretirement Benefits, an amendment of FASB Statements No. 87, 88, and 106***

.228 In February 1998, the FASB issued Statement No. 132, *Employers' Disclosures about Pensions and Other Postretirement Benefits, an amendment of FASB Statements No. 87, 88, and 106* (FASB, *Current Text*, vol. 1, secs. P16 and P40). FASB Statement No. 132 revises employers' disclosures about pension and other postretirement benefit plans. It does not change the measurement or recognition of those plans. It standardizes the disclosure requirements for pensions and other postretirement benefits to the extent practicable, requires additional information on changes in the benefit obligations and fair values of plan assets that will facilitate financial analysis, and eliminates certain disclosures that are no longer as useful as they were when FASB Statements No. 87, *Employers' Accounting for Pensions* (FASB, *Current Text*, vol. 1, sec. P16), No. 88, *Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits* (FASB,

*Current Text*, vol. 1, sec. P16), and No. 106, *Employers' Accounting for Postretirement Benefits Other Than Pensions* (FASB, *Current Text*, vol. 1, sec. P40), were issued. Statement No. 132 suggests combined formats for presentation of pension and other postretirement benefit disclosures. It also permits reduced disclosures for nonpublic entities.

.229 Statement No. 132 is effective for fiscal years beginning after December 15, 1997. Earlier application is encouraged. Restatement of disclosures for earlier periods provided for comparative purposes is required unless the information is not readily available, in which case the notes to the financial statements should include all available information and a description of the information not available.

### **FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities***

.230 In June 1998, the FASB issued Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*. FASB Statement No. 133 establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities. It requires that an entity recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. If certain conditions are met, a derivative may be specifically designated as (a) a hedge of the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment; (b) a hedge of the exposure to variable cash flows of a forecasted transaction; or (c) a hedge of the foreign-currency exposure of a net investment in a foreign operation, an unrecognized firm commitment, an available-for-sale security, or a foreign-currency-denominated forecasted transaction.

.231 The accounting for changes in the fair value of a derivative (that is, gains and losses) depends on the intended use of the derivative and the resulting designation.

.232 For a derivative designated as hedging the exposure to changes in the fair value of a recognized asset or liability or a firm commitment (referred to as a fair-value hedge), the gain or loss is recognized in earnings in the period of change together with the offsetting loss or gain on the hedged item attributable to the risk being hedged. The effect of that accounting is to reflect in earnings the extent to which the hedge is not effective in achieving offsetting changes in fair value.

.233 For a derivative designated as hedging the exposure to variable cash flows of a forecasted transaction (referred to as a cash-flow hedge), the effective portion of the derivative's gain or loss is initially reported as a component of other comprehensive income (outside earnings) and subsequently reclassified into earnings when the forecasted transaction affects earnings. The ineffective portion of the gain or loss is reported in earnings immediately.

.234 For a derivative designated as hedging the foreign-currency exposure of a net investment in a foreign operation, the gain or loss is reported in other comprehensive income (outside earnings) as part of the cumulative translation adjustment. The accounting for a fair-value hedge described above applies to a derivative designated as a hedge of the foreign-currency exposure of an unrecognized firm commitment or an available-for-sale security. Similarly, the accounting for a cash flow hedge described above applies to a derivative designated as a hedge of the foreign-currency exposure of a foreign-currency-denominated forecasted transaction.

.235 For a derivative not designated as a hedging instrument, the gain or loss is recognized in earnings in the period of change.

.236 Under FASB Statement No. 133, an entity that elects to apply hedge accounting is required to establish, at the inception of the hedge, the method it will use for assessing the effectiveness of the hedging derivative and the measurement approach for determining the ineffective aspect of the hedge. Those methods must be consistent with the entity's approach to managing risk.

.237 FASB Statement No. 133 precludes designating a nonderivative financial instrument as a hedge of an asset, liability, unrecognized firm commitment, or forecasted transaction, except that a nonderivative instrument denominated in a foreign currency may be designated as a hedge of the foreign-currency exposure of an unrecognized firm commitment denominated in a foreign currency or a net investment in a foreign operation.

.238 FASB Statement No. 133 amends FASB Statement No. 52, *Foreign Currency Translation* (FASB, *Current Text*, vol. 1, sec. F60), to permit special accounting for a hedge of a foreign-currency-forecasted transaction with a derivative. It supersedes FASB Statements No. 80, *Accounting for Futures Contracts* (FASB, *Current Text*, vol. 1, sec. F80), No. 105, *Disclosure of Information about Financial Instruments with Off-Balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk* (FASB, *Current Text*, vol. 1, sec. F25), and No. 119, *Disclosure about Derivative Financial Instruments and Fair Value of Financial Instruments* (FASB, *Current Text*, vol. 1, sec. F25). It amends FASB Statement No. 107 to include in FASB Statement No. 107 the disclosure provisions about concentrations of credit risk from FASB Statement No. 105. Statement No. 133 also nullifies or modifies the consensus reached in a number of issues addressed by the EITF.

.239 FASB Statement No. 133 is effective for all fiscal quarters of fiscal years beginning after June 15, 1999. Initial application of this Statement should be as of the beginning of an entity's fiscal quarter; on that date, hedging relationships must be designated anew and documented pursuant to the provisions of this Statement. Earlier application of all of the provisions of this Statement is encouraged, but it is permitted only as of the beginning of any fiscal quarter that begins after issuance of this Statement. This Statement should not be applied retroactively to financial statements of prior periods.

### **FASB Statement No. 134, *Accounting for Mortgage-Backed Securities Retained after the Securitization of Mortgage Loans Held for Sale by a Mortgage Banking Enterprise, an amendment of FASB Statement No. 65***

.240 In October 1998, the FASB issued Statement No. 134, *Accounting for Mortgage-Backed Securities Retained after the Securitization of Mortgage Loans Held for Sale by a Mortgage Banking Enterprise, an amendment of FASB Statement No. 65*. FASB Statement No. 65, as amended by FASB Statements No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, and No. 125, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, requires that, after the securitization of a mortgage loan held for sale, an entity engaged in mortgage banking activities classify the resulting mortgage-backed security as a trading security. This Statement further amends Statement No. 65 to require that after the securitization of mortgage loans held for sale, an entity engaged in mortgage banking activities classify the resulting mortgage-backed securities or other retained interests based on its ability and intent to sell or hold those investments. This Statement conforms the subsequent accounting for securities retained after the securitization of mortgage loans by a mortgage banking enterprise with the subsequent accounting for securities retained after the securitization of other types of assets by a nonmortgage banking enterprise.

.241 This Statement shall be effective for the first fiscal quarter beginning after December 15, 1998. Early application is encouraged and is permitted as of the issuance of this Statement. On the date this Statement is initially applied, an enterprise may reclassify mortgage-backed securities and other beneficial interests retained after the securitization of mortgage loans held for sale from the trading category, except for those with sales commitments in place.<sup>3</sup> Those securities and other interests shall be classified based on the entity's ability and intent, on the date this Statement is initially applied, to hold those investments. Transfers from the trading category that result from implementing this Statement shall be accounted for in accordance with paragraph 15(a) of FASB Statement No. 115.

---

<sup>3</sup> Mortgage-backed securities and other beneficial interests may be reclassified from the trading category when initially applying this Statement without regard for the provisions in paragraph 15 of FASB Statement No. 115, which states that "given the nature of a trading security, transfers into or from the trading category . . . should be rare."

## Proposed Interpretation or Amendment of FASB Statement No. 125

.242 The FASB is currently deliberating proposed Interpretations or a proposed Amendment of FASB Statement No. 125, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. The issues the FASB plans to address in these deliberations are as follows.

- The impact of the powers of the FDIC as receiver for a failed financial institution on the isolation of transferred assets under paragraph 9(a) of FASB Statement No. 125
- The effects of conditions that may constrain a transferee's ability to pledge or exchange transferred assets on the accounting for those transfers
- Circumstances in which a special-purpose entity (SPE) with the ability to sell transferred financial assets can be considered qualifying under the criteria in paragraph 26 of FASB Statement No. 125
- The effect of provisions that entitle a transferor to repurchase or redeem transferred assets (including the impact of "removal of accounts provisions") on the accounting for those transfers
- Conditions for deciding whether a transferor that transfers financial assets to a qualifying SPE should include the SPE in its consolidated financial statements
- The initial measurement of retained interests in transferred financial assets and the subsequent measurement of those retained interests and of new assets or liabilities received as proceeds of a sale
- Whether transfers of financial assets measured using the equity method of accounting should continue to be included in the scope of FASB Statement No. 125
- Whether the disclosure requirements in paragraph 17 of FASB Statement No. 125 should be enhanced to disclose (1) assumptions used to measure the fair value of "new" financial instruments or to allocate the carrying amount sold and retained interests resulting from transfers of financial assets, (2) the volume of transfers and resulting gains and losses during the period, and (3) continuing rights or obligations to repurchase transferred financial assets
- Whether to modify certain conditions for the recognition of transferred collateral included in paragraph 15 of FASB Statement No. 125

Readers should go to the following Web site for complete information on these issues: [www.rutgers.edu/Accounting/raw/fasb/project/fas125.html](http://www.rutgers.edu/Accounting/raw/fasb/project/fas125.html). The information on this Web site includes tentative decisions reached by the FASB regarding the above issues. An exposure draft of the proposed Interpretation or Amendment is expected to be issued during the fourth quarter of 1998. Also, the FASB is working on an implementation guide for FASB Statement No. 125, to answer various questions related to the pronouncement.

.243 Auditors should keep abreast of the status of the proposed interpretation or amendment, and the implementation guide, based upon the relevancy of these issues to their clients.

## References for Additional Guidance

*What are some organizations that can provide more information about the industry?*

.244 Further information on matters addressed in this Audit Risk Alert is available through various publications and services listed at the end of this document. Many nongovernment and some government publications and services involve a charge or membership requirement.

.245 Fax services allow users to follow voice cues and request that selected documents be sent by fax machine. Some fax services require the user to call from the handset of the fax machine, others allow the user to call from any phone. Most fax services offer an index document, which lists titles and other information describing available documents.

.246 Many private companies, professional and trade associations, and government agencies allow users to read, copy, and exchange information electronically through the Internet's World Wide Web.

.247 Recorded announcements allow users to listen to announcements about a variety of recent or scheduled actions or meetings.

## Appendix

### Year 2000 Question-and-Answer Guidance—External Auditor Involvement

1. Do auditors provide assurance on an entity's year 2000 readiness (or whether an entity's systems are year 2000 "compliant"), as a result of performing a financial statement audit?

No. An auditor's opinion on financial statements does not provide assurance on an entity's year 2000 readiness.

The objective of an audit of financial statements conducted in accordance with generally accepted auditing standards (GAAS) is to form an opinion on whether the financial statements are presented fairly in accordance with generally accepted accounting principles (GAAP). Thus, auditors are focused on assertions embodied in the financial statements. In performing an audit conducted in accordance with GAAS, the auditor has responsibility to plan and perform the audit to obtain reasonable assurance about whether financial statements are free of material misstatement. This responsibility relates to detection of material misstatements in the financial statements being audited, whether caused by the year 2000 or by some other cause. An auditor does not have responsibility to detect current or future effects of the year 2000 on operational matters that do not affect an entity's ability to prepare financial statements in accordance with GAAP.

The AICPA has published year 2000 guidance for auditors, which is available on its Web site at <http://www.aicpa.org/members/y2000/index.htm>. The guidance includes interpretations issued by the AICPA Auditing Standards Board.

2. In an audit of financial statements conducted in accordance with GAAS, what is the auditor's responsibility regarding the Year 2000 Issue?

In the planning the audit, auditors consider, among other matters, the entity's methods to process significant accounting information. In doing so, the auditor may determine that it is necessary to consider whether data-processing errors caused by the Year 2000 Issue could result in a material misstatement of the financial statements under audit. The results of the consideration may affect the auditor's testing of internal controls and substantive audit procedures. However, auditors are not required to assess whether data-processing errors caused by the Year 2000 Issue could result in material misstatements of financial statements in periods subsequent to the period under audit.

3. What if, during the course of an audit, the auditor becomes aware that the entity's computer programs, which are correctly processing current data, would not function correctly if used to process data in the year 2000?

In all likelihood, the auditor will report this condition to management or the board of directors. However, because the computer programs are correctly processing current data, and are not currently affecting the entity's ability to prepare financial statements, this situation is not a "reportable condition," and the auditor is not obligated by GAAS to report it.

This situation also may be a condition or event that indicates there could be substantial doubt about an entity's ability to continue as a going concern. The auditor is obligated to consider whether such conditions and events, in conjunction with other conditions and events, cast significant doubt on the entity's ability to continue as a going concern. The Auditing Standards Board issued Interpretation No. 2, "Effect of the Year 2000 Issue on the Auditor's Consideration of an Entity's Ability to Continue as a Going Concern," of SAS No. 59, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern* (AICPA, *Professional Standards*, vol. 1, AU sec. 9341.03-.27), to provide guidance to auditors on the application of SAS No. 59 to the year 2000.

4. Can a CPA state (or provide assurance) that an entity is year 2000 compliant?

No. Year 2000 compliance is an extraordinarily complex matter. The AICPA's professional standards allow independent accountants to provide assurance on subject matter or assertions when they are capable of evaluation against reasonable criteria. No reasonable criteria have been established for year 2000 compliance, and it would be very difficult to do so.

5. In an audit of financial statements, is the auditor required to determine compliance with regulations or regulatory guidelines on year 2000, including Federal Financial Institutions Examination Council guidance?

No. In performing an audit of financial statements in accordance with GAAS, the auditor considers how laws and regulations might affect the financial statements being audited. The auditor's responsibility to detect and report misstatements arising from illegal acts, including noncompliance with laws and regulations, depends on the relationship of the noncompliance with the financial statements. The auditor has a responsibility to plan and perform the audit to detect misstatements resulting from illegal acts that have a *direct and material* effect on the determination of financial statement amounts. Noncompliance with year 2000 regulatory guidance would *not* have a direct and material effect on the determination of financial statement amounts.

6. What is the nature of the services an independent accountant can provide to assist management and the Board of Directors in understanding or evaluating the entity's plans to address the year 2000?

Independent accountants are able to provide services to help entities address the problems associated with the year 2000. Two alternatives are generally available: agreed-upon procedures and consulting services. These engagements are very specific to the entity and are governed by the terms of the contract between the parties.

In an agreed-upon procedures engagement, the independent accountant is engaged to perform procedures agreed upon by the accountant and all the specified users of the accountant's report. No assurance is expressed by the accountant; rather, the accountant reports the procedures performed and the findings. Each user of the report must agree to take responsibility for the sufficiency of the procedures for their purposes, since they best understand their own needs. In this type of engagement, the entity is usually the user of the report; however, other parties also may be users, provided they take responsibility for the sufficiency of the procedures performed. Use of the report is restricted to the users specified in the report.

In a consulting engagement, the nature and scope of the work and the matters to be reported are determined solely by agreement between the independent accountant and the entity. No assurance is expressed by the independent accountant. Such services ordinarily are performed only for the use and benefit of the entity.

An independent accountant can be engaged by an entity to assist with many aspects of its year 2000 plans. Such services may relate to, for example, the institution's year 2000 testing plan, the year 2000 contingency plan, or understanding the institution's year 2000 processes and related regulatory guidance. An independent accountant is not required to make available to financial institution examiners working papers related to those types of engagements.

Some independent accountants do not have the necessary resources to provide, or are not interested in providing, such services. There is no obligation that they do so.

## AAM Section 8060

# *Employee Benefit Plans Industry Developments—1999*

### NOTICE TO READERS

This Audit Risk Alert is intended to provide auditors of financial statements of employee benefit plans with an overview of recent industry, regulatory, and professional developments that may affect the audits they perform. This document has been prepared by the AICPA staff and the AICPA Employee Benefit Plans Committee. It has not been approved, disapproved, or otherwise acted on by any senior technical committee of the AICPA. The AICPA staff wishes to thank the Office of the Chief Accountant of the U.S. Department of Labor Pension and Welfare Benefits Administration for contributing to this Audit Risk Alert.

### In This Year's Alert . . .

- What are the current industry conditions employee benefit plans are facing?
- What is the Year 2000 Issue and how will it affect your audits?
- What guidance has the DOL issued regarding the Year 2000 Issue?
- When will the DOL reject an annual report of a multiemployer health and welfare benefit plan, qualified due to a failure to comply with the requirements of SOP 92-6?
- When will the new Form 5500 become effective?
- What should you know about the legislative proposal "The ERISA Enforcement Improvement Act of 1999"?
- What information should an audit report include when SOP 92-6 is first adopted and the updated report on prior period financial statements has a different opinion from the opinion previously expressed?
- What new accounting standards that affect employee benefit plans have been proposed or issued recently?

\* \* \* \*

### Industry Developments

*What are the current industry conditions employee benefit plans are facing?*

**.01** This year saw a continued emphasis on individuals providing for their own financial retirement. The number of investment choices offered by 401(k) plans continues to grow. More and more 401(k) plans offer employer stock as an option, and with the stock market as favorable as it has been, employer stock accounts for a large portion of many 401(k) plans. However, in light of the volatility of financial markets, auditors

should continue to be particularly sensitive to concerns about the valuation of plan investments—especially derivative products<sup>1</sup>—and the adequacy of related disclosures.

.02 Many plans are now offering their participants online access to their 401(k) plans either through the Internet or Intranet. A 1998 survey performed by Merrill Lynch found that 12 percent of companies are now using a Web site for communications relating to employees' retirement plans. This is up from 8 percent a year earlier. Making access to retirement plans easier encourages employees to take advantage of these savings plans. Online access enables plan participants to review their accounts and change their investment elections at any time, even from home. Such an environment is a good vehicle for educating participants and allows them to perform such tasks as:

- Daily transfers
- Loans modeling and initiation, including review and approval of loan
- Statements on demand
- Salary deferral changes
- Enrollment
- Retirement remodeling
- Confirming balances

.03 Because plan participants can change their investments daily, by phone, or via Internet or Intranet sites, daily valuations of such plans are becoming more commonplace. More and more these services are being "bundled" and provided by one service provider. These service providers execute transactions and maintain accountability on behalf of the plan administrator. For example, outside service organizations such as recordkeepers, bank trust departments, insurance companies, and benefits administrators may keep records and process benefit payments. Often, the plan does not maintain independent accounting records of transactions executed by the service provider. In fact, many plan sponsors no longer maintain records such as participant enrollment forms detailing the contribution percentage and the allocation by fund option, and this amount can be changed by telephone or online without any record. In these situations, the auditor may not be able to obtain a sufficient understanding of internal controls relevant to transactions executed by the service organization to plan the audit and to determine the nature, timing, and extent of testing to be performed. This understanding can be efficiently achieved by obtaining and reviewing a report prepared in accordance with Statement on Auditing Standards (SAS) No. 70, *Reports on the Processing of Transactions by Service Organizations* (AICPA, *Professional Standards*, vol. 1, AU sec. 324).

.04 The auditor should read the entire SAS No. 70 document to determine the scope of the engagement (the applications covered), the period covered, the tests performed, and the results of the tests, including instances of noncompliance. This information can be found in the auditor's report and in the body of the document (where the tests and results of testing are described). If the service organization's SAS No. 70 report identifies instances of noncompliance with the service organization's controls, the plan auditor should consider the effect of the findings on the assessed level of control risk for the audit of the plan's financial statements and, as a result, the plan auditor may decide to perform additional tests at the service organization or, if possible, perform additional audit procedures for the plan. In certain situations, the SAS No. 70 report may identify instances of noncompliance with the service organization's controls but the plan auditor concludes that no additional tests or audit procedures are required because the noncompliance does not affect the assessment of control risk for the plan.

---

<sup>1</sup> In June 1998, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities* (FASB, *Current Text*, vol. 2, sec. D50), which establishes accounting and reporting standards for derivative instruments. FASB Statement No. 133 applies to employee benefit plans. See "New FASB Pronouncements" section of this Audit Risk Alert for a more detailed discussion of FASB Statement No. 133.

.05 If during the planning phase of an audit, a SAS No. 70 report is not available from the service provider, the user auditor should consider information available at the user organization about the controls at the service organization (for example, user manuals, system overviews, technical manuals, and so on). If the user auditor concludes that the available information is not adequate to obtain a sufficient understanding of the service organization's controls to plan the audit, consideration should be given to having the auditor and plan sponsor call the service provider directly and ask specific questions that will enable the auditor to document his or her understanding of the internal controls at the service provider. The auditor may also consider confirming certain parameters, such as copayment deductibles, directly with the service provider.

.06 Further, when SAS No. 70 reports are not available auditors may consider confirming directly with participants—

- Specific changes made to their elections throughout the year.
- Year-end balances.

Auditors may be able to obtain printouts of the daily activity from the service provider throughout the year to confirm directly with the participants. Auditors should keep in mind that in the daily valuation environment, many service providers are on the cash basis and auditors should be alert to accrual basis adjustments, for example, contributions receivable reconciliation between the recordkeeper and the trustee.

## Year 2000 Issue

*What is the Year 2000 Issue and how will it affect your audits?*

.07 As we move closer to the year 2000, the Year 2000 Issue becomes more critical for auditors. Problems resulting from the millennium bug may have significant effects on clients currently, which auditors will need to address. One of the many issues discussed regarding the Year 2000 Issue is that the year 2000 is a leap year. Systems that are not year-2000-ready may not register the additional day, thus producing incorrect results for date-related calculations. In addition, certain year 2000 problems may occur in 1999. For example, some software programs may have assigned special meanings to entries date-coded as "XX/XX/99" to allow for the testing of software modifications. Therefore actual transactions using such dates may not be processed correctly or may stop functioning. Failures may also take place in 1999 when systems perform calculations into or beyond the year 2000.

.08 Unless these year 2000 problems are remedied, significant problems relating to the integrity of electronically processed information based on time may occur. To further complicate the issue, even if a plan's computer software and hardware have been modified to resolve the problem, the entity may be affected by the computer systems of third-party data processing services, third-party administrators, actuaries, plan sponsors, or claims administrators that have not made such modifications. The Year 2000 Issue may affect the ability of a service organization's computerized systems to provide services to employee benefit plans. This in turn may affect the ability of employee benefit plans to record, process, summarize, and report financial data. For example, a system unprepared for the year 2000 might fail to recognize when an active participant has attained normal retirement age to qualify for full vesting under the plan. Other areas related to age or service that could be affected include the following:

- Eligibility requirements
- Reinstatement of forfeited account balances
- Funding calculations and lump-sum distribution calculations
- Defined contribution age or service allocations
- Nondiscrimination testing
- Start dates for required minimum distribution

- Employee stock ownership plan (ESOP) diversification rights
- Qualified domestic relations orders (QDROs)
- Early retirement supplements
- Postretirement medical benefits
- Funding assumptions for postretirement benefits in a funded welfare plan
- Benefit calculations based on relevant Financial Accounting Standards Board (FASB) Statements

It is the responsibility of an entity's management—not the auditor—to assess and remediate the effects of the Year 2000 Issue on an entity's systems. Under generally accepted auditing standards (GAAS), the auditor has a responsibility to plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. Thus, the auditor's responsibility relates to the detection of material misstatement of the financial statements being audited, whether caused by the Year 2000 Issue or by some other cause.

.09 Auditing guidance relating to the Year 2000 Issue has been developed by the Audit Issues Task Force (AITF) of the Auditing Standards Board (ASB). The AITF has issued the following auditing Interpretations:

- Interpretation No. 4, "Audit Considerations for the Year 2000 Issue," of AU section 311, *Planning and Supervision* (AICPA, *Professional Standards*, vol. 1, AU sec. 9311.38), discusses the auditor's responsibility for the Year 2000 Issue, how it affects planning for an audit of financial statements conducted in accordance with GAAS, and in what circumstances the Year 2000 Issue may result in a reportable condition under SAS No. 60, *Communication of Internal Control Related Matters Noted in an Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 325).
- Interpretation No. 3, "Responsibilities of Service Organizations and Service Auditors With Respect to Information About the Year 2000 Issue in a Service Organization's Description of Controls," of SAS No. 70 (AICPA, *Professional Standards*, vol. 1, AU sec. 9324.19), addresses the responsibilities of service auditors with respect to information about the Year 2000 Issue in a service organization's description of controls.
- Interpretation No. 2, "Effect of the Year 2000 Issue on the Auditor's Consideration of an Entity's Ability to Continue as a Going Concern," of SAS No. 59, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern* (AICPA, *Professional Standards*, vol. 1, AU sec. 9341.03), provides guidance regarding the identification and evaluation of conditions and events of the type identified in SAS No. 59 that relate to the Year 2000 Issue.

Auditors should be aware of the auditing and accounting issues that arise from the Year 2000 Issue, including audit planning, going-concern issues, establishing an understanding with the client, impairment, revenue and expense recognition, and disclosure. A more comprehensive discussion of this topic can be found in *Audit Risk Alert—1998/99* [AAM section 8010].

## Department of Labor (DOL) Issues Guidance on Year 2000 Compliance

*What guidance has the DOL issued regarding the Year 2000 Issue?*

.10 On December 14, 1998, the U.S. DOL Pension and Welfare Benefits Administration (PWBA) issued a press release addressing concerns about fiduciary liability and the year 2000 computer problem. To help the employee benefit industry understand these issues, the PWBA released sample questions used by its investigators to evaluate year 2000 compliance in the course of investigations of benefit plans across the United States. This release was in response to hundreds of inquiries from concerned employee benefit plan administrators and trustees and from their service providers who want to know what information the PWBA is seeking from the plans to show they are working to solve their internal computer problems and to avert

any potential disruption in service to their participants and beneficiaries. Like most business operations, employee benefit plans rely on computers to perform critical operations such as benefit calculations and payments. The sample fiduciary questions have been reprinted in appendix B [paragraph .73], "Sample Fiduciary Questions Regarding The Year 2000 Problem," of this Audit Risk Alert and are available on the PWBA's Web site: <http://www.dol.gov/dol/pwba>.

.11 Earlier in 1998, the PWBA issued two news releases emphasizing that plans need to address year 2000 issues relating to their own computer systems. In addition, the agency widely distributed a Year 2000 Issue pamphlet on commonly asked questions and answers. "PWBA Year 2000 Questions and Answers" is reprinted in appendix C [paragraph .74] of this Audit Risk Alert and is also available on the PWBA's Web site: <http://www.dol.gov/dol/pwba>. The pamphlet concentrates on the fiduciary liability of plan officials and service providers in addressing the Year 2000 Issue in connection with any computer systems their plans utilize.

#### Note

Internet Web sites that might provide useful year 2000 information to auditors include the following:

PWBA Web site—<http://www.dol.gov/dol/pwba>

AICPA Web site—<http://www.aicpa.org>

The National Bulletin Board for the Year 2000—<http://www.year2000.com>

Management Support Technology—<http://www.msnet.com/year2000>

#### Executive Summary—Year 2000 Issue

- Unless corrective actions are taken, the year 2000 may cause accounting and financial information systems to produce inaccurate date-related output.
- The Audit Issues Task Force has issued Interpretations providing guidance to auditors on the Year 2000 Issue.
- Several auditing and accounting issues arise from the Year 2000 Issue, including audit planning, going-concern issues, establishing an understanding with the client, impairment, and disclosure. A more comprehensive discussion of this topic can be found in *Audit Risk Alert—1998/99* [AAM section 8010].
- The Pension and Welfare Benefits Administration (PWBA) of the DOL has issued guidance for plan administrators and service providers regarding the Year 2000 Issue, including posting Sample Fiduciary Questions and Qs&As on its Web site. Such guidance has also been reprinted in appendixes B and C [paragraphs .73 and .74] of this Audit Risk Alert.

## Regulatory Developments

*When will the DOL reject an annual report of a multiemployer health and welfare benefit plan, qualified due to a failure to comply with the requirements of SOP 92-6?*

### DOL Nonenforcement of GAAP Disclosures of Postretirement Benefit Obligations by Multiemployer Health and Welfare Benefit Plans

.12 On November 25, 1998, the PWBA announced that it will not adopt a proposed nonenforcement policy affecting Form 5500s filed by multiemployer health and welfare benefit plans. Accordingly, annual reports of multiemployer health and welfare benefit plans filed for plan years commencing on or after January 1, 2000, will be subject to rejection by the PWBA if there is any material qualification in the accountant's opinion accompanying the annual report due to a failure to comply with the requirements of Statement of Position (SOP) 92-6, *Accounting and Reporting by Health and Welfare Benefit Plans*.

.13 To ensure that multiemployer health and welfare plans have an adequate opportunity to prepare their financial recordkeeping and other related systems to comply with SOP 92-6, the PWBA also stated that these plans may continue to rely on its previously announced interim nonenforcement relief for their 1999 Form 5500 reports. It is important to point out, however, that SOP 92-6 requires restatement of prior period financial statements only if they are presented together with the current year's financial statements. Therefore, when SOP 92-6 is adopted for plan year 2000, it will be necessary to restate the 1999 statement of net assets to comply with the provisions of SOP 92-6. Plan administrators should consider engaging an actuary in 1999 to perform the calculations for the 1999 plan year. Plan administrators who rely on the interim relief must, however, comply with the AICPA's pre-SOP 92-6 requirements in their financial statement treatment of the matters now covered by SOP 92-6. See the section entitled "Multiemployer Health and Welfare Benefit Plan Accounting for Postretirement Benefit Obligations" in this Audit Risk Alert for further discussion of this issue.

## Update on the Proposed Revisions of the Form 5500 Series

### *When will the new Form 5500 become effective?*

.14 On June 23, 1998, the DOL, Internal Revenue Service (IRS), and Pension Benefit Guaranty Corporation (PBGC) submitted the new Form 5500 to the Office of Management and Budget (OMB) for approval under the Paperwork Reduction Act. The submission to OMB followed the completion of the agencies' evaluation of more than sixty public comments and a day of testimony from employer groups, employee representatives, financial institutions, service organizations, and others, on the form streamlining proposal that was published in the *Federal Register* in September 1997. Following OMB's review and approval of the new data collection form, the final computer-scannable forms that will be mandatory for 1999 plan year filings and electronic filing options will be developed and published in the *Federal Register*. The Form 5500 Annual Return/Report is used by more than 800,000 pension, welfare, and fringe benefit plans that file information with the federal government. The new Form 5500 is intended to streamline the report and the methods by which it is filed and processed. The proposal was patterned after tax returns familiar to individuals and corporate taxpayers—a simple, one-page main form with basic information and a checklist that guides each filer to the more detailed schedules that are applicable to the filer's specific type of plan.

.15 Since the Employee Retirement Income Security Act of 1974 (ERISA) requires the attachment of several schedules to the Form 5500, auditors should be aware of several changes. The most notable changes follow.

#### *Information on Which Auditors Are Required to Report*

- *Schedule G (Financial Transaction Schedules)*—As a result of a planned shift to computer-scannable forms, the use of this schedule will be mandatory for reporting loans, leases, and fixed income obligations in default or uncollectible, and prohibited transactions.
- *Schedule of Assets Held for Investment Purposes and Schedule of Reportable Transactions*—Plans that have assets held for investment purposes and reportable transactions will continue to complete these schedules. While no mandatory form is required for this information, the instructions provide the format for the schedules. Auditors should note:
  - Historical cost information is no longer required on the Schedule of Assets Held for Investment Purposes for participant-directed investments.
  - Participant or beneficiary-directed transactions are no longer required to be taken into account for purposes of preparing the Schedule of Reportable Transactions.
  - In a plan's initial year, the 5 percent threshold for the schedule of reportable transactions is based on the end-of-year balance of the plan's assets.

#### *Changes to Other Schedules*

- *Schedule A (Insurance Information)*—Information required by this schedule will now be permitted to be reported on an insurance contract or policy year basis.

- *Schedule C (Service Provider Information)*—This schedule will be limited to the top forty paid service providers and will require explanations of service provider terminations for only accountants and enrolled actuaries. In addition, this schedule eliminates the requirement to identify plan trustees annually.
- *Schedule D (Direct Filing Entity[DFE]/Participating Plan Information)*—This schedule was created as part of an overall effort to make the Form 5500 the standardized reporting format for all filers. It was also part of the proposal to standardize the way information is filed about insurance company pooled separate accounts (PSAs), bank common or collective trusts (CCTs), master trust investment accounts (MTIAs), 103-12 investment entities (103-12 IEs), and group insurance arrangements (GIAs).
- *Schedule H (Financial Information for Large Plans and DFEs)*—This schedule contains the financial information formerly contained in the Form 5500 and a series of questions regarding activities of the plan. Additional guidance has been provided on reporting “deemed distributions” of participant loans, “corrective distributions” from pension plans and “incurred but not reported” (IBNR) claims for welfare plans.

.16 The DOL is simultaneously developing a new computerized system to process the Form 5500 (the ERISA Filing Acceptance System or “EFAST”) to reduce government and filer costs associated with filing, receiving, and processing annual reports. The new computerized system will simplify and expedite the receipt and processing of the Form 5500 by relying on computer-scannable forms and electronic filing technologies.

.17 On December 10, 1998, the DOL published in the *Federal Register* a notice proposing amendments to ERISA’s reporting and disclosure regulations. These amendments would make technical and conforming changes to the regulations necessary to implement the revised Form 5500 Series. Among other changes, the proposed regulatory amendments would update the references in sections of ERISA to reflect the new structure of the Form 5500 Series:

- Section 2520.103 provides for special reporting rules for plans that participate in a master trust. The proposed amendments do not change the information required to be reported regarding the master trust, but rather establish the Form 5500 Series as the standard reporting format for master trusts.
- Section 2520.103-12 provides an exemption and an alternative method of reporting for plans investing in certain investment entities, the assets of which are deemed to include plan assets under Section 2520.103-101. The proposed amendments do not change the information required to be reported by the 103-12 investment entity, but rather establish the Form 5500 Series as the standard reporting format.
- Section 2520.103-5 implements Section 103(a)(2) of ERISA, which deals with insurance carriers or other organizations that provide some or all of the benefits under a plan or hold plan assets, and banks or similar institutions that hold plan assets. In the case of CCTs or PSAs, the proposed amendments would require that such CCTs or PSAs notify their participating plans of whether or not they intend to file a Form 5500 as a new direct filing entity, and to furnish the plan administrators with the information about the assets held by such CCTs or PSAs needed by the plan administrators to satisfy their obligations under Title I of ERISA.

## PWBA Review of Plan Audits

.18 The PWBA has established an ongoing quality review program to assess the quality of audit work performed by independent auditors in audits of plan financial statements that are required by ERISA. Practitioners deemed by the PWBA to have performed significantly substandard audit work are referred to either state licensing boards or the AICPA Professional Ethics Division for further investigation. Because ERISA holds plan administrators responsible for assuring that plan financial statements are audited in accordance with GAAS, deficient audit work can also expose plan administrators to significant penalties under ERISA Section 502(c)(2).

.19 The PWBA continues its aggressive reporting compliance program to ensure that plan administrators comply with ERISA's reporting and disclosure requirements. The DOL's 1999 budget contained a major performance goal that no more than 12 percent of 1999 plan year audits would contain deficiencies with professional and regulatory standards and that no more than 3 percent of Form 5500 filings would contain reporting and disclosure deficiencies. During 2001, the PWBA plans to conduct a nationwide study to once again assess the quality of employee benefit plan audits and evaluate compliance with its goal.

### **AICPA Peer Review Developments**

.20 The AICPA, working with the PWBA, has made a concerted effort to improve the guidance and training available to auditors of employee benefit plans. The AICPA self-regulatory teams continue to be concerned about deficiencies noted on audits of employee benefit plans, and practitioners need to understand that severe consequences can result from inadequate plan audits, including loss of membership in the AICPA and loss of license. Some common recurring deficiencies noted by the AICPA Peer Review Board in its review of employee benefit plans follow:

- Inadequate testing of participant data
- Inadequate testing of investments
- Failure to understand testing requirements on a limited-scope engagement
- Inadequate or no documentation of the auditor's understanding of internal control
- Inadequate consideration of prohibited transactions
- Incomplete description of the plan and its provisions
- Inadequate or missing disclosures related to investments
- Inadequate or missing disclosures related to participant data
- Failure to properly report on or include the required supplemental schedules required by ERISA and DOL

The AICPA Audit and Accounting Guide *Audits of Employee Benefit Plans* provides guidance concerning areas where the Peer Review Board noted deficiencies.

.21 In 1998 the AICPA Peer Review Board revised Interpretation No. 2, *Engagement Selection in On-Site Peer Reviews*. This Interpretation now requires that, among other types of engagements, an employee benefit plan engagement subject to ERISA be selected for review in an on-site peer review. The Interpretation states that

Regulatory and legislative developments have made it clear that there is a significant public interest in, and a higher risk associated with, audits conducted pursuant to the Employee Retirement Income Security Act of 1974 (ERISA). Therefore, if a firm performs the audit of one or more entities subject to ERISA, at least one such audit engagement conducted pursuant to ERISA should be selected for review.

*Standards for Performing and Reporting on Peer Reviews* (AICPA, *Professional Standards*, vol. 2, and *Peer Review Program Manual*, PRP sec. 3100.48), states that the AICPA Peer Review Board, by Interpretations, can require specific types of engagements to be selected for review.

### **Timeliness of Participant Contributions Remains an Enforcement Initiative for the PWBA**

.22 The PWBA continues to focus on the timeliness of remittance of participant contributions in contributory employee benefit plans. Participant contributions are required to be remitted as soon as they

can reasonably be segregated from an employer's general assets. A DOL regulation requires employers who sponsor pension plans (both defined benefit and defined contribution) to remit employee contributions as soon as practicable, but in no event more than fifteen business days after the month in which the participant contribution was withheld or received by the employer.

.23 The regulation establishes a procedure by which an employer may obtain an extension of the fifteen-business-day limit for an additional ten business days. This regulation does not change the maximum period for remittance of employee contributions to welfare plans, that is, as soon as practicable, but in no event more than ninety days after the day the contribution was withheld or received by the employer.

.24 Failure to remit or untimely remittance of participant contributions may constitute a prohibited transaction (either a use of plan assets for the benefit of the employer or a prohibited extension of credit) and, in certain circumstances, may constitute embezzlement of plan assets. Additionally, such information should be properly presented on the required Form 5500 supplemental schedule of nonexempt transactions with parties-in-interest. GAAS requires that the auditor's report on financial statements included in an annual report filed with the DOL cover the information in the required supplementary schedules when they are presented along with the basic financial statements. If the auditor concludes that the plan has entered into a prohibited transaction, and the transaction has not been properly disclosed in the required supplementary schedule, the auditor should (a) express a qualified opinion or an adverse opinion on the supplementary schedule if the transaction is material to the financial statements, or (b) modify his or her report on the supplementary schedule by adding a paragraph to disclose the omitted transaction if the transaction is not material to the financial statements. See chapter 11, "Party in Interest Transactions," of the AICPA Audit and Accounting Guide *Audits of Employee Benefit Plans* for further discussion of prohibited transactions.

.25 For questions or further information, contact the Office of Regulations and Interpretations at the DOL at (202) 219-7461.

## **PWBA Outreach and Customer Service Efforts**

.26 The PWBA continues to encourage auditors and plan filers to call its Division of Accounting Services at (202) 219-8794 with ERISA-related accounting and auditing questions. Questions concerning the filing requirements and preparation of Form 5500 should be directed to the Division of Reporting Compliance at (202) 219-8770.

.27 In addition to handling technical telephone inquiries, the PWBA is involved in numerous outreach efforts designed to provide information to practitioners to help their clients comply with ERISA's reporting and disclosure requirements. Questions regarding these outreach efforts should be directed to the Office of the Chief Accountant at (202) 219-8818. Practitioners and other members of the public may also wish to contact the PWBA at its Web site: <http://www.dol.gov/dol/pwba>. The Web site provides information on PWBA's organizational structure, current regulatory activities, and customer service and public outreach efforts.

## **Delinquent Filer Voluntary Compliance Program**

.28 In April 1995, the PWBA initiated an ongoing Delinquent Filer Voluntary Compliance (DFVC) Program designed to encourage filer compliance by allowing plan administrators who failed to file or filed their Form 5500 Series annual reports late to apply for relief from full delinquency penalties. Auditors should be aware of this program if their clients' plan reports have not been filed or have been filed late.

.29 Questions concerning the DFVC Program should be directed to the PWBA's Division of Reporting Compliance at (202) 219-8770. Practitioners and other members of the public may also wish to contact the PWBA at its Web site: <http://www.dol.gov/dol/pwba>.

### *PWBA Proposed Rule on Claims Procedures for Employee Benefit Plans*

.30 On September 9, 1998, the PWBA published a proposed rule to ensure plan participants a timely, fair internal review when they have a grievance against their health plan and an expedited review for urgent claims. On February 16–18, 1999, PWBA held public hearings to address the over 600 comment letters received from the public. One area of agreement was that the new rules should be rewritten to make a distinction between services that must be pre-authorized and claims that are paid after services have been provided.

.31 In addition, the PWBA published an interim amendment to its rules relating to the way health care plans explain coverage required by the Newborns' and Mothers' Health Protection Act of 1996. The interim amendment tells providers to disclose that a mother and baby may be discharged earlier than the minimum time an insurance plan must cover. Generally a health plan or health insurance issuer may not restrict benefits for any hospital stay to less than forty-eight hours for most deliveries and ninety-six hours for a cesarean section. What may not have been clear in plan disclosures was that an attending provider (such as a physician or licensed nurse midwife) may discharge them sooner, although only after consultation with the mother.

### *Section 401(k) Plan Fees*

.32 On July 1, 1998, the DOL released "A Look at 401(k) Plan Fees," a 19-page, educational booklet to help consumers understand the fees and expenses associated with 401(k) plan accounts. The booklet answers commonly asked questions regarding plan fees and expenses, highlights the most common fees, and encourages participants to make informed investment decisions, consider fees as one of several factors when making a decision, compare all services received with the total cost, and realize that cheaper is not necessarily better. The booklet is available from the PWBA's Publication Hotline at (800) 998-7542 and on the PWBA's Web site at: <http://www.dol.gov/dol/pwba>. In addition, the PWBA is making available on its Web site the results of recent research on the subject. "Study of 401(k) Plan Fees and Expenses" examines current practices relating to which fees and expenses are paid by employers sponsoring 401(k) plans and which are paid by employees participating in the plan.

### *National Summit on Retirement Savings*

.33 The first National Summit on Retirement Savings, called for by the Savings Are Vital to Everyone's Retirement Act of 1997 (SAVER Act) was held on June 4–5, 1998, in Washington, DC. The Summit was co-hosted by the President and the congressional leadership in the House and Senate. The SAVER Act calls for a second Summit in 2001 and a third in 2005.

.34 The purpose of the Summit was to increase public awareness of the importance of retirement planning and to identify ways to promote greater retirement savings by all Americans. The final report on the 1998 National Summit on Retirement Savings was published on September 3, 1998, and may be found on the PWBA's Web site at: <http://www.dol.gov/dol/pwba>.

### *Health Benefits Education Campaign*

.35 On December 16, 1998, the DOL launched a national health benefits education campaign designed to help millions of working Americans understand their medical benefits when they experience changes in life and work—such as marriage, childbirth, job layoff, or retirement. Seventy public and private organizations have joined this education campaign and will help distribute three new brochures to advise workers and spouses covered by employer-sponsored health plans.

.36 The brochures are available through the DOL's publication hotline at (800) 998-7542 or its Web site at: <http://www.dol.gov>. The titles are "Top 10 Ways to Make Your Health Benefits Work for You," "Changes in Your Work Status May Affect Your Health Benefits," and "Life Changes Require Health Choices—Know Your Options."

*DOL Announces Procedure for State-Registered Investment Advisers to Obtain ERISA Investment Manager Status*

.37 On January 14, 1998, the DOL announced a new procedure that state-registered investment advisers must follow in order to obtain investment manager status under federal pension law. Under Public Law 105-72, signed into effect on November 10, 1997, state-registered investment advisers seeking investment manager status under ERISA must file with the DOL a copy of their most recently filed state registration form and any subsequent filings. Generally, the new filing requirement applies to investment advisers who manage less than \$25 million and who are required to register under state law. Advisers who are required to register in multiple states need only provide the department a copy of the registration form filed in the state where they maintain their principal office and place of business.

.38 Investment advisers could initially file their registration forms with the department any time prior to November 10, 1998, to satisfy the new requirement for ERISA investment manager status. Any subsequent filings with the state should be filed with the department at the same time. The PWBA has prepared a brief on the new filing requirement. Copies may be obtained by calling the DOL's Publication Hotline at (800) 998-7542. This brief, along with other publications concerning ERISA provisions that may be applicable to investment advisers, is also available on the PWBA's Web site at: <http://www.dol.gov/dol/pwba/public/pubs/brief2.htm>.

*DOL Proposes Rule on Electronic Communications and Recordkeeping by Employee Benefit Plans*

.39 On January 29, 1999, the DOL issued proposed regulations addressing electronic communications of certain information by employee benefit plans and minimum standards for maintenance and retention of employee benefit records in electronic form.

.40 The proposed rule on electronic communications expands to pension and other welfare plans the existing "safe harbor" for group health plans using electronic media to furnish summary plan descriptions and summaries of material modifications to plan participants. The proposal also would expand the "safe harbor" to cover summary annual reports. In addition, the proposed rule would provide minimum standards regarding the use of electronic media for the maintenance and retention of records under ERISA.

**Executive Summary—Regulatory Developments**

- The PWBA announced that it will not adopt a proposed nonenforcement policy affecting Form 5500s filed by multiemployer health and welfare benefit plans. Accordingly, annual reports of multiemployer health and welfare benefit plans filed for plan years commencing on or after January 1, 2000, will be subject to rejection by the PWBA if there is any material qualification in the accountant's opinion accompanying the annual report due to a failure to comply with the requirements of SOP 92-6.
- Since SOP 92-6 requires restatement of prior period financial statements, plan administrators should consider engaging an actuary in 1999 to perform the calculations for the 1999 plan year as the actuarial amounts will be needed for the financial statements issued for plan year 2000.
- Pending approval from the OMB, the new Form 5500 schedules will become effective for the 1999 plan year filings.
- The AICPA Peer Review Board revised Interpretation No. 2, *Engagement Selection in On-Site Peer Reviews*. This Interpretation requires that, among other types of engagements, an employee benefit plan engagement subject to ERISA be selected for review in an on-site peer review.

## Legislative Developments

*What should you know about the legislative proposal  
"The ERISA Enforcement Improvement Act of 1999"?*

### Pension Audit Legislation

.41 The Administration has developed a legislative proposal, "The ERISA Enforcement Improvement Act of 1999," aimed at improving the quality and integrity of employee benefit plans. The proposal includes:

1. Retaining the limited-scope audit provision in lower risk circumstances where:
  - a. At least 95 percent of a plan's assets have a "readily ascertainable market value";
  - b. The regulated financial institution certifies to statements as "complete and accurate" and to the "current value" of each asset at the end of the plan year;
  - c. Within an eighteen-month period preceding the certification, the financial institution receives a GAAS report from an independent qualified public accountant (IQPA), which comments on the adequacy of the internal controls of the financial institution (or affiliates) pertaining to the execution, maintenance of accountability, recording, and processing of transactions related to plan or participant recordkeeping;
  - d. The certified information is considered part of the plan's annual report; and
  - e. The IQPA providing the certification satisfies the requirements of the proposal's enhanced auditor qualifications.
2. Enhancing ERISA's auditor qualifications by requiring IQPAs to undergo periodic external quality control reviews and complete continuing professional educational training related to employee benefit plan matters;
3. Requiring speedy reporting of serious ERISA violations and imposing substantial civil penalties on plan administrators and IQPAs who fail to comply with the notification provisions; and
4. Making 502(l) penalties discretionary. Section 502(l) penalties are mandatory civil penalties paid by plan fiduciaries that apply to amounts paid under "settlement agreements" or court orders in cases where the Secretary of Labor is a party.

## Audit Developments

*What information should an audit report include when SOP 92-6 is first adopted and the updated report on prior period financial statements has a different opinion from the opinion previously expressed?*

## Multiemployer Health and Welfare Benefit Plan Accounting for Postretirement Benefit Obligations

.42 Employee health and welfare benefit plans that prepare financial statements in accordance with generally accepted accounting principles (GAAP) must follow the accounting and reporting requirements set forth in chapter 4, "Accounting and Reporting by Health and Welfare Benefit Plans," of the AICPA Audit and Accounting Guide *Audits of Employee Benefit Plans*, which incorporates the guidance of AICPA SOP 92-6. SOP 92-6 is effective for all single-employer plans, and became effective for multiemployer plans for plan years beginning after December 15, 1995.

.43 Among other requirements, SOP 92-6 requires plans that provide postretirement benefits to include in their financial statements the amount of the accumulated postretirement benefit obligation representing the actuarial present value of all future benefits attributed to plan participants' services rendered to date. Accounting changes adopted to conform to the provisions of the SOP should be made retroactively. Because ERISA requires comparative statements of net assets available for plan benefits, it will be necessary to restate the prior year's statement of net assets in the year of adoption in an ERISA audit to comply with the provisions of the SOP.<sup>2</sup>

---

<sup>2</sup> If accounting changes were necessary to conform to the provisions of Statement of Position (SOP) 92-6, *Accounting and Reporting by Health and Welfare Benefit Plans*, that fact should be disclosed when financial statements for the year in which the SOP is first applied are presented either alone or with financial statements of prior years.

.44 As noted in the “Regulatory Developments” section of this Audit Risk Alert, the DOL will not enforce the postretirement benefit obligation disclosure requirements in SOP 92-6 for multiemployer health and welfare benefit plans for plan years 1996, 1997, 1998, and 1999. However, annual reports of multiemployer health and welfare benefit plans filed for plan years beginning on or after January 1, 2000, will be subject to rejection if there is any material qualification in the accountant’s opinion accompanying the annual report due to a failure to comply with the requirements of SOP 92-6. Since SOP 92-6 requires restatement of prior period financial statements, plan administrators should consider engaging an actuary in 1999 to perform the calculations for the 1999 plan year as the actuarial amounts will be needed for the financial statements issued on the year 2000.

.45 SAS No. 58, *Reports on Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1, AU sec. 508.68 and .69), provides guidance when an auditor has previously qualified his or her opinion or expressed an adverse opinion on financial statements of prior periods because of a departure from GAAP and the prior period financial statements are restated in the current period to conform with GAAP. SAS No. 58 requires the auditor’s updated report on the financial statements of the prior period to indicate that the statements have been restated and to express an unqualified opinion with respect to the restated financial statements. Further, when the updated report has a different opinion from the opinion previously expressed on the prior period financial statements, the auditor should disclose all the substantive reasons for the different opinion in a separate explanatory paragraph(s) preceding the opinion paragraph of his or her report. The explanatory paragraph(s) should disclose—

- a. The date of the auditor’s previous report.
- b. The type of opinion previously expressed.
- c. The circumstances or events that caused the auditor to express a different opinion.
- d. That the auditor’s updated opinion on the financial statements of the prior period is different from his or her previous opinion on those statements.

If a plan does not adopt all of the provisions of SOP 92-6, including presenting the postretirement benefit obligation amount in the statement of plan’s benefit obligations and statement of changes in plan’s benefit obligations, which is required to fairly present the plan’s financial statements in conformity with GAAP, the auditor should consider the effect of this departure from GAAP on his or her report.<sup>3</sup> SAS No. 58 describes the circumstances that may require a qualified or adverse opinion when the financial statements contain a departure from a generally accepted accounting principles (see AICPA, *Professional Standards*, vol. 1, AU sec. 508.35–.60). A qualified opinion is expressed when the auditor believes, on the basis of his or her audit, that the financial statements contain a departure from GAAP, the effect of which is material, and he or she has concluded not to express an adverse opinion. An auditor should express an adverse opinion when, in the auditor’s judgment, the financial statements taken as a whole are not presented fairly in conformity with GAAP.

.46 Over the past two years, members of the AICPA Employee Benefit Plans Committee noted that when multiemployer plans did not adopt SOP 92-6 for postretirement benefit obligations, the postretirement benefit obligation amount was material enough that the financial statements taken as a whole were not fairly presented in conformity with GAAP and an adverse opinion was issued. The members of the committee also noted that only in rare instances, such as if very few retirees remained in the plan, was a qualified opinion issued. Further, when the plan administrator did not quantify the amount of or change in the plan’s postretirement benefit obligation, or in the absence of an actuarial determination, the committee members presumed the effects of the omission on the financial statements to be material.

---

<sup>3</sup> The AICPA Employee Benefit Plans Committee currently has a proposed SOP on certain health and welfare benefit plan transactions that is awaiting FASB clearance for exposure. Among other things, this proposed SOP would allow the information about benefit obligations to be presented in a note to the financial statements. See the “Proposed Statements of Position for Employee Benefit Plans” section of this Audit Risk Alert for a further discussion of this proposed SOP.

.47 If the auditor issues an adverse opinion on the plan's financial statements, the auditor cannot express an opinion on the supplemental schedules required by ERISA. An expression of an opinion on the supplemental schedules in those circumstances would be inappropriate because it may overshadow or contradict the adverse opinion on the plan's basic financial statements. See SAS No. 29, *Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents* (AICPA, Professional Standards, vol. 1, AU sec. 551.10).

## 1999 Audit and Accounting Guide Revisions

.48 The following list summarizes some of the revisions that will be included in the AICPA Audit and Accounting Guide *Audits of Employee Benefit Plans* (the Guide), with conforming changes as of May 1, 1999.

- There are new sections on the following:
  - Auditing changes in actuaries
  - Auditing self-directed accounts
- The Guide has been updated to reflect FASB Statement No. 133.
- The SOP, *Accounting For and Reporting of Postretirement Medical Benefit (401(h)) Features of Defined Benefit Pension Plans* will be included in the Guide.

## Accounting Developments

*What new accounting standards that affect employee benefit plans have been proposed or issued recently?*

## New FASB Pronouncements

### **FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities<sup>4</sup>**

.49 In June 1998, the FASB issued Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities* (FASB, *Current Text*, vol. 1, sec. D50). FASB Statement No. 133 establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as *derivatives*), and for hedging activities. FASB Statement No. 133 applies to employee benefit plans. As such, certain investments held by plans will fall under this statement. Paragraph 43 of FASB Statement No. 133 provides specific guidance to entities that do not report earnings, such as defined benefit pension plans. Paragraphs 44 through 47 of FASB Statement No. 133 set forth the disclosure requirements.

.50 FASB Statement No. 133 is effective for all fiscal quarters of fiscal years beginning after June 15, 1999. Initial application of FASB Statement No. 133 should be as of the beginning of an entity's fiscal quarter; on that date, hedging relationships must be designated anew and documented pursuant to the provisions of the Statement. Earlier application of all of the provisions of FASB Statement No. 133 is encouraged, but it is permitted only as of the beginning of any fiscal quarter that begins after issuance of the Statement. FASB Statement No. 133 should not be applied retroactively to financial statements of prior periods.

---

<sup>4</sup> FASB Statement No. 133 amends FASB Statement No. 52, *Foreign Currency Translation* (FASB, *Current Text*, vol. 1, sec. F60), to permit special accounting for a hedge of a foreign currency forecasted transaction with a derivative. It supersedes FASB Statements No. 80, *Accounting for Futures Contracts* (FASB, *Current Text*, vol. 1, sec. F80), No. 105, *Disclosure of Information about Financial Instruments with Off-Balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk* (FASB, *Current Text*, vol. 1, sec. F25), and No. 119, *Disclosure about Derivative Financial Instruments and Fair Value of Financial Instruments* (FASB, *Current Text*, vol. 1, sec. F25). It amends FASB Statement No. 107, *Disclosures about Fair Value of Financial Instruments* (FASB, *Current Text*, vol. 1, sec. F25), to include in FASB Statement No. 107 the disclosure provisions about concentrations of credit risk from FASB Statement No. 105. FASB Statement No. 133 also nullifies or modifies the consensus reached in a number of issues addressed by the Emerging Issues Task Force (EITF).

## New AICPA Statements of Position

### **Statement of Position Accounting For and Reporting of Postretirement Medical Benefit (401(h)) Features of Defined Benefit Pension Plans**

.51 As of April 1999, the *SOP Accounting For and Reporting of Postretirement Medical Benefit (401(h)) Features of Defined Benefit Pension Plans* was due to be released shortly. This SOP amends chapters 2 and 4 of the AICPA Audit and Accounting Guide *Audits of Employee Benefit Plans* (the Guide), and specifies the accounting for and disclosure of 401(h) features of defined benefit pension plans, by both defined benefit pension plans and health and welfare benefit plans.

.52 The SOP requires—

1. Defined benefit pension plans to record assets held in a 401(h) account related to health and welfare plan obligations for retirees as both assets and liabilities on the face of the statement of net assets available for pension benefits in order to arrive at net assets available for pension benefits.
2. 401(h) account assets used to fund health and welfare benefits, and the changes in those assets, to be reported in the financial statements of the health and welfare benefit plan. Benefit obligations related to the 401(h) account are also required to be reflected in the health and welfare plan financial statements.
3. Defined benefit pension plans to disclose the fact that the assets are available only to pay retirees' health benefits.
4. Health and welfare benefit plans to disclose in the notes to the financial statements the fact that retiree health benefits are funded partially through a 401(h) account of the defined benefit pension plan.

The SOP is effective for financial statements for plan years beginning after December 15, 1998, with earlier application encouraged. Accounting changes adopted to conform to the provisions of this SOP should be made retroactively.

## Proposed Statements of Position for Employee Benefit Plans

.53 The AICPA Employee Benefit Plans Committee currently has two SOP projects underway.

.54 *Accounting and Reporting for Certain Employee Benefit Plan Investments and Other Disclosure Matters*. The first proposed SOP, *Accounting and Reporting for Certain Employee Benefit Plan Investments and Other Disclosure Matters*, was cleared for exposure by the FASB at the February 24, 1999, meeting pending certain changes. This SOP was discussed at the March 8–9, 1999, AcSEC meeting for final clearance for exposure. The exposure draft is expected to be released in the second quarter 1999. This proposed SOP amends chapters 3 and 4 of the AICPA Audit and Accounting Guide *Audits of Employee Benefit Plans* (the Guide), SOP 94-4, *Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined-Contribution Pension Plans*, and SOP 92-6. This proposed SOP simplifies disclosures for certain investments and would supersede AICPA Practice Bulletin (PB) 12, *Reporting Separate Investment Fund Option Information of Defined Contribution Pension Plans*.

.55 Specifically this proposed SOP—

- a. Revises Guide, paragraphs 3.28k and 3.28l and supersedes PB 12 to eliminate the required disclosures by defined contribution pension plans for participant-directed investment programs.
- b. Revises Guide, paragraph 3.20 to eliminate the required disclosures by defined contribution pension plans to present plan investments by general type in the statement of net assets available for benefits for participant-directed investment options.
- c. Revises Guide, paragraph 3.28g to require identification of those investments that represent 5 percent or more of net assets available for benefits that are nonparticipant-directed for defined contribution pension plans.

- d. Revises SOP 94-4, paragraph 15, SOP 92-6, paragraph 58, and Guide, paragraphs 3.28p and 4.57 to eliminate the required disclosures by investment fund option for defined contribution pension and health and welfare plans relating to benefit responsive investment contracts.

.56 This proposed SOP is effective for financial statements for plan years ending after December 15, 1999, with earlier application encouraged for fiscal years for which annual financial statements have not been issued. When the required "by-fund" disclosures of this statement are eliminated as proposed by this SOP, reclassification of comparative amounts in financial statements for earlier periods is required.

.57 *Accounting For and Reporting on Certain Health and Welfare Benefit Plan Transactions.* The second proposed SOP, on the accounting for and reporting on certain health and welfare benefit plan transactions, was discussed at the January 1999 AcSEC meeting and was cleared for exposure pending FASB clearance. The exposure draft is expected to be released for exposure in the second quarter of 1999. This proposed SOP amends chapter 4 of the AICPA Audit and Accounting Guide *Audits of Employee Benefit Plans*, and SOP 92-6. This proposed SOP revises the standards for measuring, reporting, and disclosing estimated future postretirement benefit payments that are to be funded partially or entirely by plan participants. It specifies the presentation requirements for benefit obligation information and establishes standards of financial accounting and reporting for certain postemployment benefits provided by health and welfare benefit plans. Specifically, it allows information about the benefit obligations to be presented in a separate statement, combined with other information in a financial statement, or presented in a note to the financial statements. The proposed SOP also clarifies the measurement date for benefit obligations and clarifies the identification of 5 percent investment disclosures.

.58 The provisions of this proposed SOP would be effective for financial statements for plan years beginning after December 15, 2000, with earlier application encouraged. Financial statements for prior plan years are required to be restated to comply with the provisions of this proposed SOP.

#### Note

Practitioners should note that the purpose of AICPA exposure drafts is to solicit comments from preparers, auditors, users of financial statements, and other interested parties. They are nonauthoritative and cannot be used as a basis for changing GAAP.

#### Executive Summary—Proposed Statements of Position

- *Accounting and Reporting for Certain Employee Benefit Plan Investments and Other Disclosure Matters* (expected to be released for exposure by the second quarter 1999)
- *Accounting For and Reporting on Certain Health and Welfare Benefit Plan Transactions* (expected to be released for exposure by the second quarter 1999)

## Professional Ethics Division Interpretations and Rulings

### Omnibus Proposal of Professional Ethics Division Interpretations and Rulings

.59 On February 18, 1999, the AICPA Professional Ethics Executive Committee adopted, with modification, most of the proposals from the November 1998 exposure draft, *Omnibus Proposal of Professional Ethics Division Interpretations and Rulings*. In particular, the Professional Ethics Executive Committee has adopted revisions of Interpretation 101-3 under Rule 101, *Independence* (AICPA, *Professional Standards*, vol. 2, ET sec. 101.05), to address the various types of other services that a member may perform for an attest client in today's practice environment and the impact of such services on the member's independence. The proposal sets forth general principles that the member should consider in evaluating the effect on independence of performing a service, and provides examples of general activities that would be considered to impair inde-

pendence. Specifically, the proposed revision to Interpretation 101-3 sets forth specific examples of when independence is and is not impaired when performing various benefit plan administration services. This interpretation is scheduled to be published in the May 1999 *Journal of Accountancy*. The interpretation can also be found on the AICPA Web site at <http://www.aicpa.org>. It is important to point out that, for ERISA engagements, the DOL has separate independence standards, which may be more restrictive than those of the AICPA. See paragraph A.79 in appendix A of the AICPA Audit and Accounting Guide *Audits of Employee Benefit Plans* for a listing of the DOL's independence standards.

## AICPA Services

.60 For a complete listing of AICPA services see *Audit Risk Alert*—1998/99 [AAM section 8010] (product no. 022223).

  - *Defined Benefit Pension Plans* (product no. 008720)
  - *Defined Contribution Pension Plans* (product no. 008735)
  - *Health and Welfare Benefit Plans* (product no. 008721)
- "A Wake-Up Call"—An Employee Benefit Plan Audit Video (product no. 013800)

## National Conference

.62 Each spring the AICPA sponsors a National Conference on Employee Benefit Plans that is specifically designed to update auditors, plan administrators, and industry or plan sponsors on various topics including recent and proposed employee benefit plan legislative and regulatory issues, and significant accounting, auditing, and tax developments. The 2000 National Conference on Employee Benefit Plans will be held May 7-10, 2000, at the Hilton Walt Disney World, Orlando, Florida. Information on the conference may be obtained by calling the AICPA Conferences Division at (201) 938-3556.

## Continuing Professional Education

.63 The AICPA offers the following self-study courses (also available in group study form):

- *Audits of Employee Benefit Plans*
- *Audits of 401(k) Plans*

For group study courses, visit the AICPA Web site, at <http://www.aicpa.org/store/csearch.htm>, for a current schedule of where these courses are offered, or call your state society for complete details. Registration for all group study courses is done through your state CPA society.

## Order Information

.64 Copies of AICPA publications referred to in this document may be obtained by calling the AICPA Order Department at (888) 777-7077 or faxing a request to (800) 362-5066. Copies of FASB publications

referred to in this document may be obtained directly from the FASB by calling the FASB Order Department at (203) 847-0700, ext. 10.

## Accounting and Auditing Technical Hotline and Ethics Hotline

.65 The AICPA Technical Hotline answers members' inquiries about accounting, auditing, attestation, compilation, and review services. Members of the AICPA's Professional Ethics Team answer inquiries concerning independence and other behavioral issues related to the application of the AICPA Code of Professional Conduct. To reach either hotline, call (888) 777-7077.

## World Wide Web Site

.66 The AICPA has a home page on the World Wide Web. "AICPA Online," the Web site (URL or uniform resource locator: <http://www.aicpa.org>), offers CPAs the unique opportunity to stay abreast of developments in accounting and auditing, including exposure drafts. The home page is updated daily. The Web site includes *In Our Opinion*, the newsletter of the AICPA Audit and Attest Standards Team. The newsletter provides valuable and timely information on technical activities and developments in auditing and attestation standard setting.

.67 This Audit Risk Alert replaces *Employee Benefit Plans Industry Developments—1998*.

\* \* \* \*

.68 The AICPA is currently offering a new CD-ROM product, entitled *reSource: AICPA's Accounting and Auditing Literature*. This CD-ROM enables subscription access to the following AICPA Professional Literature products in a Windows format: *Professional Standards*, *Technical Practice Aids*, and *Audit and Accounting Guides* (available for purchase as a set which includes all twenty-five Guides and the related Risk Alerts, or as individual publications). This dynamic product allows you to purchase the specific titles you need, and includes hypertext links to references within and between all products. To order any publications included on the CD-ROM, call (888) 777-7077.

.69 Practitioners Publishing Company (PPC) and the AICPA are currently offering publications issued by PPC, the AICPA, and the FASB on one CD-ROM disk, entitled *The Accounting and Auditing Library*. The FASB publications include *Original Pronouncements*, *Current Text*, *Emerging Issues Task Force Abstracts*, and *FASB Implementation Guides*; and the AICPA publications include *Professional Standards*, *Technical Practice Aids*, *Audit and Accounting Guides*, and *Peer Review Program Manual*. The disk also contains eighteen PPC engagement manuals. The disk may be customized so that purchasers pay for and receive only selected segments of the material. For more information about this product call (888) 777-7077.

.70 The Audit Risk Alert *Employee Benefit Plans Industry Developments* is published annually. As you encounter audit and industry issues that you believe warrant discussion in next year's Alert, please feel free to share them with us. Any other comments that you have about the Alert would also be greatly appreciated. You may email them to [ldelahanty@aicpa.org](mailto:ldelahanty@aicpa.org) or write to:

### IRS Limits on Benefits and Compensation

	<u>1999</u>	<u>1998</u>	<u>1997</u>
<b>Defined Benefit</b>			
Maximum Annual Pension	\$130,000	\$130,000	\$125,000
<b>Defined Contribution</b>			
Maximum Annual Addition	\$ 30,000	\$ 30,000	\$ 30,000
<b>401(k) Plan</b>			
Maximum Elective Deferral	\$ 10,000	\$ 10,000	\$ 9,500
<b>403(b) Plan</b>			
Maximum Elective Deferral	\$ 10,000	\$ 10,000	\$ 9,500
<b>457 Plans</b>	\$ 8,000	\$ 8,000	\$ 7,500
<b>SIMPLE Plans</b>	\$ 6,000	\$ 6,000	\$ 6,000
<b>Qualified Plans</b>			
Maximum Compensation Limits	\$160,000	\$160,000	\$160,000
Highly Compensated Limits	\$ 80,000	\$ 80,000	\$ 80,000
Officer Limits (Key Employee)	\$ 65,000	\$ 65,000	\$ 62,500
FICA Taxable Wage Base	\$ 72,600	\$ 68,400	\$ 65,400
Employer and Employee Social Security Tax	6.20%	6.20%	6.20%

## Appendix B

### Sample Fiduciary Questions Regarding the Year 2000 Problem\*

The guidance issued to PWBA's field offices states that Year 2000 reviews will be conducted in all new and ongoing civil investigations. The attached list of sample fiduciary questions was provided to the field offices to assist the staff in the initial stages of conducting those reviews. In addition, the guidance provides that a Y2K warning will be issued in those cases where a determination is made that a plan fiduciary has failed to take appropriate measures to protect the interests of the plan and its participants and beneficiaries from the potential harm posed by the Year 2000 problem. The issuance of a warning is intended to place the plan fiduciary on notice of his or her obligation and to encourage voluntary compliance in addressing the Year 2000 issue. Regardless of whether a warning is received by an individual fiduciary, however, in those cases where plan fiduciaries fail to act prudently in performing their plan duties and plan participants and beneficiaries are adversely affected, appropriate enforcement action may be pursued.

#### *A. Plan's Internal Computer Operations*

1. Provide the name, position title, and telephone number of the person in your organization responsible for addressing the Year 2000 compliance of the plan's computer system.
2. If applicable, provide the name and telephone number of the person or entity hired to address the Year 2000 compliance of the plan's computer system. Provide a copy of the service contract.
3. If applicable, describe how the plan's Year 2000 service provider was selected and what information was reviewed in the course of the selection process.
4. What stages have been completed in addressing the Year 2000 problem (e.g., inventory development, assessment, remedial action, testing, contingency planning)?
5. If applicable, provide a copy of the strategy or planning document addressing how Year 2000 compliance will be ensured with respect to plan operations.
6. Has an inventory of plan-related computer information systems been developed for purposes of assessing Year 2000 compliance? Please provide a copy.
7. Has a Year 2000 compliance assessment been conducted? Please provide a copy.
8. What information has been reviewed by the plan fiduciaries regarding the plan's Year 2000 compliance?
9. What corrective measures have been identified to date? What remedial action, if any, has been taken? By whom? How much did it cost?
10. Who determined the remedial actions to be taken by the plan? What information provided the basis for the decision?
11. Has the plan been "certified" as Year 2000 compliant? If so, please explain and provide a copy of the certification.
12. Has a testing schedule been devised for the plan's computer systems? Who will perform the test?
13. Has a contingency plan been devised in the event critical computer operations are disrupted? If so, provide a copy.

---

\* These sample questions were issued by the U.S. Department of Labor Pension and Welfare Benefits Administration (PWBA) to help the employee benefit industry understand these issues.

14. What information has been provided, or will be provided, to plan participants regarding the Year 2000 problem?
15. Who is responsible for paying the costs of addressing the Year 2000 problem?

***B. External Computer Operations of Plan Service Providers***

1. Has the plan compiled a list of service providers for purposes of determining Year 2000 compliance? Has the plan determined which of these providers renders essential or critical services? Provide a copy of the list.
2. Provide the name and telephone number of the plan fiduciary responsible for hiring the plan service providers.
3. Has the plan notified service providers of its expectations regarding Year 2000 compliance? If so, provide a copy of the notification.
4. Have contracts between the plan and its service providers been amended to address the plan's expectations regarding Year 2000 compliance? If so, provide copies of the contract amendments.
5. Has each plan service provider been contacted to determine their Year 2000 compliance? If so, please provide copies of the information requested and obtained from the service providers.
6. Has the plan fiduciary reviewed documentation from plan service providers regarding their Year 2000 compliance? If so, what information was reviewed and what action was taken by the plan fiduciary to ensure the plan's interests, and those of participants and beneficiaries, were protected?
7. Were any concerns expressed by the plan regarding the service provider's Year 2000 compliance? If so, what were those concerns and what actions were taken to address them?
8. What action has the plan taken to ensure that the remedial measures required to bring the service provider's computer system into Year 2000 compliance have been or will be implemented?
9. Has the plan determined that the service provider has scheduled or conducted testing of its computer systems for purposes of determining Year 2000 compliance?
10. Has the plan obtained documentation describing the service provider's contingency plan or the measures the service provider intends to implement in the event essential plan operations are disrupted due to a Year 2000 problem?

***C. Plan Sponsor's Computer System***

1. Has the plan obtained appropriate and timely information from the plan's sponsor regarding the Year 2000 compliance of its computer system?
2. Has the plan's fiduciary considered the potential impact of a Year 2000 problem in the plan sponsor's computer system in developing the plan's contingency plan?

***D. Investigations Focused on Financial Institutions (banks, insurance companies, brokers, investment managers, etc.)***

1. Identify the types of services provided to ERISA-covered employee benefit plans (e.g., trustee services, banking, brokerage, investment management, and record keeping). Describe the measures that have been taken to ensure that all such services have been evaluated for Year 2000 compliance.
2. If the financial institution is subject to regulation by a federal, state or other regulatory agency, what actions were taken to comply with that agency's requirements?
3. Has any governmental agency (state or federal) or other independent organization reviewed the company's computer operations for Year 2000 compliance? If so, identify the agency or agencies. If any report was produced and provided to the institution, please provide a copy.
4. What actions have been taken by the financial institution to ensure that its service providers and vendors are Year 2000 compliant (e.g., have investment managers checked on the Year 2000 compliance of their brokers)?

***E. Investment-Related Issues***

1. If the fiduciary makes investment decisions on behalf of the plan, what specific procedures are followed to determine that the investments are Year 2000 compliant?
2. If the plan offers investment options in connection with individually directed accounts under section 404(c) of ERISA, has the plan fiduciary taken appropriate steps to ensure that the investment options and related information systems are Year 2000 compliant?
3. If a plan has delegated investment responsibility or authority, in whole or in part, to an investment manager or other fiduciary, what procedures has the fiduciary implemented to monitor that fiduciary's investment decisions in connection with the Year 2000 problem?
4. In selecting, hiring, and retaining an investment adviser or manager, has the plan fiduciary obtained and reviewed appropriate information aimed at determining that investment decisions are made with consideration of Year 2000 compliance?

## Appendix C

### PWBA Year 2000 Questions and Answers\*

**Q.** *What is the Year 2000 problem and how does it affect employee benefit plans?*

- A.** The Year 2000 (Y2K) problem arises when a computer performing date-dependent computations or operations produces erroneous results because its system recognizes years only by the last two digits, causing a "00" entry to be read as the year "1900" rather than "2000." Because the computer systems, both hardware and software, produced in the past have commonly used the two-digit date designation, virtually all businesses are now faced with the enormous task of determining the extent to which their systems will be affected by the Year 2000 problem. Computer systems that are found to have a problem must be converted to a compliant format, i.e., and a format that reflects the correct date. As a general matter, the conversion process is recognized as both time-consuming and expensive.

Like most business operations, employee benefit plans rely on computers for most of their critical operations such as benefit calculations and payments. The Year 2000 problem may affect these operations in serious and potentially unpredictable ways. For example, assume a plan provides that an employee becomes eligible to participate in the plan at age 21 with one year of service. For a participant born in 1979 and employed beginning in December 1998, on January 1, 2000, the plan's computer system may miscalculate eligibility by showing the employee as *minus* 21 years of age and as having worked *minus* 99 years.

In addition, the Y2K problem is an issue for all of the businesses that provide critical services to employee benefit plans, such as banks, insurance companies, actuarial firms and investment management companies. The extent to which these businesses are affected by the Year 2000 problem could have serious consequences for their client plans.

**Q.** *What is a plan fiduciary's potential liability under the Employee Retirement Income Security Act (ERISA) with respect to the Year 2000 problem?*

- A.** As stated in the Department of Labor's February 9, 1998, press release, plan fiduciaries, such as plan administrators and trustees, are responsible for ensuring that plans and their participants and beneficiaries are protected. Such protection includes the establishment and implementation of a prudent procedure for ensuring that the plans' own computers, and, to the extent possible, those of the plans' service providers, are Year 2000 compliant. ERISA establishes comprehensive standards to govern fiduciary conduct. Among other things, a plan fiduciary must discharge his or her duties with respect to a plan solely in the interest of the plan's participants and beneficiaries. In addition, a plan fiduciary must discharge those duties with "the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims." A fiduciary's failure to comply with ERISA's fiduciary responsibility requirements may result in personal liability for losses incurred by a plan or its participants and beneficiaries.

**Q.** *What constitutes a prudent procedure for ensuring Year 2000 compliance?*

- A.** Because the Year 2000 problem could have a substantial impact on plan investments, benefit payments and other essential plan operations, plan fiduciaries are responsible for establishing and implementing a strategy to evaluate and ensure Year 2000 compliance. Because of the complex and technological nature of this problem, however, plan fiduciaries may choose to hire outside consultants and experts to inventory, review, assess, convert and test the computer systems relating to the plan. The plan fiduciary's selection of those service providers is subject to the same fiduciary considerations as the selection of other plan service providers.

---

\* Written and produced by the Pension and Welfare Benefits Administration, July 1998.

In addition to addressing the Year 2000 problem as it relates to computer systems under their control, plan fiduciaries have an obligation to determine whether the plan's critical operations will be endangered by the computer systems of unrelated service providers, such as third party administrators. In this regard, plan fiduciaries have an obligation to obtain information sufficient to evaluate each service provider's Year 2000 compliance and to monitor that compliance to ensure the plan's interests are protected.

Because of the pervasive nature of the Year 2000 problem, it may not be possible to prevent a disruption of computer operations. In recognition of that possibility, a plan fiduciary must determine how best to protect the plan and its participants and beneficiaries through the establishment of a contingency plan that will be implemented in the event the plan's essential operations are affected.

*Q. To what extent are plan fiduciaries responsible for Year 2000 problems that are caused by unrelated plan service providers?*

A. Plan fiduciaries are responsible for obtaining in a timely fashion appropriate information to evaluate the Year 2000 compliance of all of the plan's service providers and determining what action is appropriate to ensure that the interests of the plan and its participants and beneficiaries are protected. In addition, when selecting service providers, plan fiduciaries should include Year 2000 compliance as another factor to be considered. Finally, the plan fiduciary is responsible for monitoring the service provider's operations to ensure ongoing compliance and protection of the plan's interests.

*Q. Can the plan be charged for the costs associated with the Year 2000 problem?*

A. ERISA provides that reasonable expenses relating to the administration of an employee benefit plan may be charged to the plan. Also, the plan document should identify which costs may be charged to the plan. The issue of whether the cost of ameliorating the Year 2000 problem of a specific plan may be passed through depends on the terms of the plan document and whether the cost constitutes a reasonable administrative expense related to the plan.

For example, Company Y is a manufacturer and offers its employees a 401(k) plan through payroll deductions. Y has determined that its computerized payroll system is not Year 2000 compliant and large portions of its complex software system must be converted. As a general matter, Y is responsible for the costs of achieving Year 2000 compliance for its corporate payroll system. However, because the plan document permits charging the plan reasonable administrative fees, that portion of the cost relating directly to the plan's administration may be charged to the plan.

*Q. Is the Department planning to implement an enforcement initiative with respect to the Year 2000 problem?*

A. The Department's Pension and Welfare Benefits Administration (PWBA) investigators have already begun addressing the Year 2000 problem in the course of new and ongoing investigations. In those cases where plan fiduciaries have failed to act prudently in performing their plan duties and plan participants and beneficiaries have been adversely affected, appropriate enforcement action will be determined and pursued.

*Q. What should a plan administrator disclose about the plan's year 2000 activities to participants and beneficiaries?*

A. The Department strongly encourages plan administrators to disclose to their participants and beneficiaries the extent of the plan's Y2K preparedness. The administrator is encouraged to inform participants and beneficiaries as to the steps being taken to ensure the Y2K issue does not interrupt the operation of the plan or participants' and beneficiaries' access to their individual accounts.

Administrators are recommended to inform their participants and beneficiaries about:

- The plan's current level of readiness
- The strategy for bringing the plan's systems into Y2K compliance
- A timetable for when the critical systems will become Y2K compliant

- The level of compliance for service provider companies
- Possible effect on the participants and their beneficiaries should the plan become impaired in any way due to Y2K problems
- Any contingency, or backup, plans that have been devised in the event the plan is not Y2K compliant in time.

**Q.** *Are plan auditors, as part of their current engagements, required to detect potential record keeping problems associated with the year 2000?*

**A.** No. It is the plan administrator's responsibility for assessing and remedying any problems associated with the Y2K problem. Under generally accepted auditing standards (GAAS), the auditor does not have a responsibility to determine the effects of the Y2K issue on operational matters that do not affect the plan's ability to prepare financial statements for other than the year being audited.

SAS No. 83, *Establishing an Understanding With the Client*, requires auditors to obtain an understanding with the client regarding the services to be performed. This understanding is usually documented in an engagement letter addressed to the plan administrator and signed by the auditor. The Department of Labor encourages plan administrators to have language in engagement letters in order to clarify the auditor's responsibilities regarding the Y2K issue. This should minimize any confusion surrounding the auditor's duties and responsibilities. Engagement letters also should clarify how auditors intend to exercise their discretion to communicate matters that come to their attention relating to the Y2K issue in management letters or otherwise.

**Q.** *What information will be disclosed to the plan administrator by the plan's auditor relative to the Y2K problem?*

**A.** In general, the auditor is only obligated to list current system failures as reportable conditions and is not obligated to forecast future system failures. Therefore, the plan administrator cannot rely upon the plan's auditor to comment on potential record keeping problems regarding the Y2K issue that may arise in the future. Plan auditors are extremely cautious about being associated with any assertions that their clients' systems are Year 2000 compliant. The plan auditor's responsibility is limited to planning and performing an audit with the goal of obtaining reasonable assurance about whether the financial statements are free of material misstatement. The auditor is also responsible for reporting significant problems to the plan's management if such problems exist during the period being audited. The auditor's focus is on the current period, not future periods. Therefore, even in the event of an auditor becoming aware that in some period after the period being audited, the Y2K issue could adversely affect the plan's ability to process financial information, this potential future problem does not constitute a reportable condition in the current year.

**Q.** *What assurances will the Reports on the Processing of Transactions by Service Organizations (commonly referred to as SAS No. 70 reports) provide to plan administrators and their auditors regarding the Y2K issue?*

**A.** None. The Reports on the Processing of Transactions by Service Organizations (SAS No. 70 reports) are typically prepared by a service organization's independent auditors. These reports can provide a level of assurance to plan administrators and auditors regarding the system of internal controls in place at the service organization. Because these reports deal with a historical perspective, they do not provide assurances for prospective periods regarding deficiencies, which may affect those future periods (such as the Y2K issue). Accordingly, plan administrators and auditors should not expect the Reports on the Processing of Transactions by Service Organizations to provide any assurance on the organization's Y2K compliance.

**Q.** *Whom should I call if I have questions about how to address the Year 2000 problem?*

**A.** The Department of Labor is not in a position to provide guidance regarding the technical issue of how to resolve the Y2K problem. However, a large amount of information on the topic is available through the Internet. Some useful Websites include:

- **Federal Financial Institutions Examination Council (FFIEC)**—[www.ffiec.gov](http://www.ffiec.gov)—which provides a list of resources (bank association Websites and documents) useful to federally supervised financial institutions as well as trade groups, vendors and companies providing services to institutions.
- **American Institute of Certified Public Accountants (AICPA)**—[www.aicpa.org](http://www.aicpa.org)—which also has established hyperlinks to many private-sector and governmental Websites where helpful resources are identified.
- **The Small Business Administration (SBA)**—[www.sba.gov/y2k/](http://www.sba.gov/y2k/)—which offers specific assistance to the small business owner on the Y2K problem.
- **Office of the Comptroller of the Currency (OCC)**—[www.occ.ustreas.gov](http://www.occ.ustreas.gov)—which regulates and supervises national banks to ensure a safe, sound and competitive national banking system.
- **General Accounting Office (GAO)**—[www.gao.gov](http://www.gao.gov)—which even includes an auditor's checklist for the computer crisis.
- **Securities and Exchange Commission (SEC)**—[www.sec.gov](http://www.sec.gov)—which is responsible for administering the federal securities laws designed to protect investors in securities markets that operate fairly and ensure that investors have access to disclosure of all material information concerning publicly traded securities.
- **Information Technology Association of America (ITAA)**—[www.itaa.org/year2000.htm](http://www.itaa.org/year2000.htm)—which is a trade association representing the interests of the information technology industry.
- **General Services Administration (GSA)**—[www.itpolicy.gsa.gov/mks/yr2000/y2khome.htm](http://www.itpolicy.gsa.gov/mks/yr2000/y2khome.htm)—which contains information about planning, testing and contingency policy and also links to hundreds of private and public sites that offer advice and examples. (The Pension and Welfare Benefits Administration, while providing a direct linkage to these resources, neither guarantees or assumes responsibility for the information provided by these Websites.)

**Q.** *Whom should I call if I have questions about my potential fiduciary liability?*

**A.** If you have questions regarding your potential fiduciary liability, you may contact the Pension and Welfare Benefits Administration's Regional or District Office nearest you. A list of the agency's field offices follows:

- Atlanta Regional Office: (404) 562-2156
- Boston Regional Office: (617) 565-9600
- Chicago Regional Office: (312) 353-0900
- Cincinnati Regional Office: (606) 578-4680
- Dallas Regional Office: (214) 767-6831
- Detroit District Office: (313) 226-7450
- Kansas City Regional Office: (816) 426-5131
- Los Angeles Regional Office: (626) 583-7862
- Miami District Office: (954) 424-4022
- New York Regional Office: (212) 399-5191
- Philadelphia Regional Office: (215) 596-1134
- San Francisco Regional Office: (415) 975-4600

- St. Louis District Office: (314) 539-2693
  - Seattle District Office: (206) 553-4244
  - Washington, D.C. District Office: (202) 254-7013

## *State and Local Governmental Developments—1998*

### In This Year's Alert . . .

- What is the economic outlook for state and local governments in 1998?
- Has the additional guidance needed to implement the Single Audit Act Amendments of 1996 been issued yet?
- Are there going to be any upcoming revisions to *Government Auditing Standards*?
- Have there been any IRS developments that auditors of state and local governments should be aware of?
- During the past few years, the SEC has ordered several large local governments to cease and desist certain financial reporting practices with regard to municipal bond issuances. What is the auditor's responsibility with respect to a government's official statement?
- Do governmental entities need to be concerned with the Taxpayer Relief Act of 1997?
- How will the new SOP 98-3, *Audits of States, Local Governments, and Not-for-Profit Organizations Receiving Federal Awards*, assist auditors in performing audits of federal awards?
- How will the arrival of the year 2000 affect a government's accounting and financial information systems? What issues need to be addressed this year?
- What are the auditor's responsibilities when using the work of an actuary?
- What is the significance of an indemnification clause in an engagement letter? Should an auditor indemnify a client?
- What GASB Statements become effective during the next year?
- What other GASB Statements have been issued recently?

### Industry and Economic Developments

#### *What is the economic outlook for state and local governments in 1998?*

.01 The extraordinary expansion of the U.S. economy over the past several years has resulted in a flood of tax revenue to state and local governments. The overall financial picture for many governments is better than it has been in a decade. Total state tax revenue rose 6.2 percent in 1997, up from 5.4 percent growth in 1996, according to the Center for Study of the States. Local governments have experienced similar growth. These increases in revenues are largely related to an unexpected spurt in personal and corporate income tax payments. A rise in sales taxes also contributed to the increases.

.02 As a result of this growth, many governments began 1998 in an unusually strong financial position and are now facing the pleasant task of deciding what to do with budget surpluses. According to a recent

report from the National Conference of State Legislatures, thirty-four states and many local governments passed tax cuts in 1997 in response to the increased collections, although many of the reductions were relatively small. Other state and local governments directed the extra revenue into reserves to serve as a buffer against potential future economic slumps. Some directed the funds to increased spending, and still others used the funds to pay off debts.

.03 These trends are likely to continue in 1998. According to the Center for the Study of the States, the temptation to cut taxes will likely continue to be attractive for many states in a year when almost three-fourths of governors and four-fifths of all legislative seats will be up for election. However, tax cuts will most likely be small, amid forecasts of slower economic growth in the future. Other key issues to be addressed by governments in 1998 will be funding for K-12 education, for corrections programs, and for transportation.

.04 Although state and local officials were concerned in 1997 about the impact of federal tax changes, the Taxpayer Relief Act of 1997 (Public Law 105-34) will have only a minor effect. For example, the capital gains rate reductions, the new federal child tax credit, and the education incentives included in the Act will not have a flow-through effect to states that base their state income taxes on either federal taxable or adjusted gross income. Likewise, the revenue-producing provisions in the Act generally will not have an impact. However, state and local governments may enjoy an unexpectedly large jump in capital gains tax revenues later in 1998 if investors rush to cash in on the new, lower federal rates.

.05 With all the recent glowing financial news, several items are on the radar screen of many state and local governments officials and will be watched closely. They are welfare reform, state and local taxation of electronic commerce, changes in the electric power industry, and other local government issues.

## **Welfare Reform**

.06 Welfare reform continues to be an area that could result in significant financial repercussions for some states. In the wake of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (Public Law 104-193), state and local governments are addressing a wide range of issues to implement sweeping changes in services to poor families and children. The law eliminated the automatic entitlement to welfare benefits for mothers and children who qualify. Instead, beginning in October 1996, states gained broad authority over their own welfare programs, and the form of federal funding was changed to block grants. The legislation also established a threshold level for the amount of state funding that is required. Although the law provides states with more flexibility to design and administer assistance programs that meet their own unique needs, they are now required to use federal funding to meet certain targets. Primary among these are work participation rates. States are eligible for a bonus for exceptional performance. However, if states do not meet these targets, the amount of state funding that is required could increase.

.07 Under the act, state and local governments are free to contract out a wider range of services than ever before. Some states have already turned to private companies to handle large portions of welfare programs or to take on lesser roles, such as redesigning computer systems for welfare programs. Others are in the process of considering some level of welfare privatization, including determination of eligibility, subject to federal approval. This new flexibility raises a number of issues for governments from the loss of public-sector jobs to monitoring the quality of work provided by the contractor. These privatizing activities could result in deep structural changes for many state and local governments. Auditors should consider the effect of these changes on their consideration of internal control.

## **State and Local Taxation of Electronic Commerce**
