A17: The auditor is allowed to provide limited assistance to management in documenting internal controls and making recommendations for changes to internal controls. However, management has the ultimate responsibility for the assessment, documentation and testing of the registrant's internal controls over financial reporting.

Q18: What sources of guidance are available to management to assist them in fulfilling their responsibilities regarding management's assessment and documentation of the internal control over financial reporting?

A18: Several sources of guidance are available on the topic of management's assessment of internal control including, for example: the existing books and records requirements; the Commission's final rule on Management's Reports on Internal Control Over Financial Reporting and Certification of Disclosure in Exchange Act Periodic Reports (Release No. 34-47986); and, as referenced in the release on the final rule, the reports published by the Committee of Sponsoring Organizations of the Treadway Commission on internal control.

Q19: How should management treat an inability to assess certain aspects of their internal control over financial reporting in their written report? For example, management has outsourced a significant process to a service organization and it has determined that evidence of the operating effectiveness of the controls over that process is necessary. In addition, the service organization is unwilling to provide either a Type 2 SAS 70 report or access to assess the controls in place at the service organization. Finally, management does not have compensating controls in place within the registrant's internal control over financial reporting that allow them to determine the effectiveness of the controls over the process in an alternative manner.

A19: Item 308 of Regulations S-K and S-B, 17 CFR 229.308(a)(3) and 228.308(a)(3), states that management's annual report on internal control over financial reporting must include a statement as to whether or not internal control over financial reporting is effective. While the staff will allow the exceptions outlined in Questions 1, 2, and 3 above, the disclosure requirement does not permit management to issue a report on internal control over financial reporting with a scope limitation. Therefore, management must determine whether the inability to assess controls over a particular process is significant enough to conclude in their report that internal control over financial reporting is not effective. Further, management is precluded from concluding that the registrant's internal control over financial reporting is effective if there are one or more material weaknesses in the internal control over financial reporting.

Q20: The Commission's rules specify that management's report must include disclosure of any material weakness in the registrant's internal control over financial reporting identified by management in the course of its evaluation. Must management's report specifically use the term "material weakness"?

A20: While the Commission's rule does not require management to use any specific language in their report, the staff would generally expect that, in order for management to provide full disclosure relating to any material weakness identified by management, management would use the term "material weakness" in their disclosures.

Q21: If a Form 10-K or Form 10-KSB is incorporated into a 1933 Securities Act filing, is a consent required related to the auditor's report on management's assessment of internal control over financial reporting?

A21: Yes. Securities Act Rule 436 (17 CFR 230.436) requires filings under the 1933 Act to include a consent for all accountants' reports included or incorporated into that filing. This includes a consent for the auditor's report on management's assessment of internal control over financial reporting as well as the auditor's report on the financial statements. A new consent for the auditor's report on management's assessment of internal control over financial reporting is required in an amendment to the registration statement (*a*) whenever a change, other than typographical is made to the audited annual financial statements and (*b*) when facts are discovered that may impact the auditor's report on management's assessment of internal control over financial reporting.

Q22: Is an annual report to shareholders that meets the requirements of Exchange Act Rules 14a-3(b) or 14c-3(a) required to include management's report on internal control over financial reporting and the auditor's report on management's assessment of internal control over financial reporting?

A22: We believe that the intent of Section 404 of the Sarbanes-Oxley Act and the Commission's rules is that a registrant's audited financial statements with an accompanying audit report that are contained in or accompany a proxy statement or consent solicitation statement also be accompanied by management's report on internal control over financial reporting and the auditor's report on management's assessment of internal control over financial reporting. We intend to recommend to the Commission that amendments be made to Rules 14a-3 and 14c-3(a) and Item 13 of Schedule 14A to include such a requirement. In the interim, we encourage issuers to include both management's report on internal control over financial reporting and the auditor's report on management's assessment of internal control over financial reporting in the annual report to shareholders when their audited financial statements are included. If management states in their report that internal control over financial reporting is ineffective or the auditor's report takes any form other than an unqualified opinion and these reports are not included in the annual report to shareholders, our view is that an issuer would have to consider whether the annual report to shareholders contained a material omission that made the disclosures in the annual report misleading.

Q23: The Commission's rules implementing Section 404, announced in Release No. 34-47986, require management to perform an assessment of internal control over financial reporting which includes the "preparation of financial statements for external purposes in accordance with generally accepted accounting principles." Does management's assessment under the Commission's rule specifically require management to assess internal control over financial reporting of required supplementary information? Supplementary information includes the financial statement schedules required by Regulation S-X as well as any supplementary disclosures required by the FASB. One of the most common examples of such supplementary information is certain disclosures required by the FASB Statement No. 69, *Disclosures about Oil and Gas Producing Activities.*

A23: Adequate internal controls over the preparation of supplementary information are required and therefore should be in place and assessed regularly by management. The Commission's rules in Release No. 34-47986 did not specifically address whether the supplementary information should be included in management's assessment of internal control over financial reporting under Section 404. A question has been raised as to whether the supplementary information included in the financial statements should be encompassed in the scope of management's report on their assessment of internal control over financial reporting.

The Commission staff is considering this question for possible rule making. Additionally, the Commission staff is evaluating broader issues relating to oil and gas disclosures and will include in its evaluation whether rulemaking in this area may be appropriate. Should there be any proposed changes to the current requirements in this area, they will be subject to the Commission's standard rulemaking procedures, including a public notice and comment period in advance of rulemaking. As a result, internal control over the preparation of this supplementary information need not be encompassed in management's assessment of internal control over financial reporting until such time that the Commission has completed its evaluation of this area and issues new rules addressing such requirements.

Until then, registrants are reminded that they must fulfill their responsibilities under current requirements including Section 13(b)(2) of the Exchange Act and Exchange Act Rules 13(b)(2) of the Exchange Act and Exchange Act Rules 13a-14, 13a-15, 15d-14, and 15d-15.

AAM Section 8260

SEC and PCAOB Alert—2007/08

A ROUNDUP OF RECENT SEC AND PCAOB RULES AND DEVELOPMENTS OCCURRING DURING 2007, THROUGH THE DATE OF THIS PUBLICATION, AND DURING THE FOURTH QUARTER OF 2006

Kristy L. Illuzzi, CPA
Technical Manager
Accounting and Auditing Publications

Acknowledgments

The AICPA Accounting and Auditing Publications staff wishes to thank Kellie Sclafani, CPA, for her indispensable review of this publication.

Securities and Exchange Commission Developments

.01 The summaries below are for informational purposes only and should not be relied upon as a substitute for a complete reading of the applicable rule or development. In addition, the information presented below does not encompass all of the recent issuances and activities of the U.S. Securities and Exchange Commission (SEC). See the SEC Web site at www.sec.gov for complete information.

SEC Final Rules

Definition of a Significant Deficiency

.02 On August 3, 2007, the SEC posted a final rule whereby it defined the term *significant deficiency* for the purpose of implementing Section 302 and Section 404 of the Sarbanes-Oxley Act of 2002. The term is defined as "a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of the registrant's financial reporting." The full text of this rule can be found at www.sec.gov/rules/final/2007/33-8829.pdf.

Executive Compensation Disclosure

.03 The SEC issued Release Nos. 33-8765 and 34-55009 on December 22, 2006, in which they adopted, as interim final rules, amendments to the disclosure requirements for executive and director compensation. The amendments to Item 402 of Regulation S-K and S-B revise the Summary Compensation Table and Director Compensation Table disclosure with respect to stock awards and option rewards to provide disclosure of the compensation cost of awards over the requisite service period, as described in Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 123R, *Share-Based Payment*. The amendments revise the Grants of Plan-Based Awards Table to include information concerning repriced or materially modified options, stock appreciation rights, and similar option-like instruments, disclosing the incremental fair value computed as of the repricing or modification date. The amendments to the Director Compensation Table require footnote disclosure corresponding to the new Grants of Plan-Based Awards Table fair value disclosures. The amendments are intended to provide investors with more complete and useful disclosure about executive compensation. These releases are effective December 29, 2006. The complete text of the final releases can be found at www.sec.gov/rules/final/2006/33-8765.pdf.

Internal Control Over Financial Reporting in Securities Exchange Act of 1934 Periodic Reports of Nonaccelerated Filers or Newly Public Companies

.04 The SEC issued a final rule on December 15, 2006, further extending the dates for which smaller public companies and newly public companies must comply with internal control reporting requirements mandated under Section 404 of the Sarbanes Oxley Act of 2002. Under this new rule, a nonaccelerated filer is not required to provide management's report on internal control over financial reporting until it files an annual report for its first fiscal year ending on or after December 15, 2007. A nonaccelerated filer is also not required to file the auditor's attestation report on internal control over financial reporting until it files an annual report for its first fiscal year ending on or after December 15, 2008. In response to inquiries from the SEC commissioners regarding the possibility of further extensions of compliance dates for small businesses, the staff indicated that they do not believe there is a need to extend the compliance date for management's assessment required by Section 404(a). With respect to Section 404(b), the SEC staff stated that while no extension is planned at this time, they will continue to monitor compliance by larger companies to determine whether further extensions are warranted. The SEC is also adopting amendments that provide for a transition period for a newly public company before it becomes subject to the internal control over financial reporting requirements. The complete text of the rule can be found at www.sec.gov/rules/final/2006/33-8760.pdf.

Amendments to Rules Regarding Management's Report on Internal Control Over Financial Reporting (Technical Amendment, Corrected)

.05 On June 20, 2007, the SEC posted an amendment to its rules to clarify that an evaluation of internal control over financial reporting that complies with the SEC's interpretive guidance published in Release No. 34-55929 is one way to satisfy the requirement for management to evaluate the effectiveness of the issuer's internal control over financial reporting. The SEC has also amended its rules to define the term *material weakness* and to revise the requirements regarding the auditor's attestation report on the effectiveness of internal control over financial reporting. The amendments are intended to facilitate more effective and efficient evaluations of internal control over financial reporting by management and auditors. Access www.sec.gov/rules/final/2007/33-8809.pdf for the entire release. See the "PCAOB Approved Rules and Standards" section of this alert (paragraphs .49–.58) for more information on Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements* (AICPA, *PCAOB Standards and Related Rules*, Rules of the Board, "Standards"), which was approved by the SEC in July 2007.

SEC Interpretive Releases

Commission Guidance Regarding Management's Report on Internal Control Over Financial Reporting

.06 The SEC posted Interpretive Release No. 33-8810 and 34-55929 on June 20, 2007, to provide guidance for management regarding its evaluation and assessment of internal control over financial reporting. This guidance is organized around two broad principles. The first principle is that management should evaluate whether it has implemented controls that adequately address the risk that a material misstatement of the financial statements would not be prevented or detected in a timely manner. This guidance describes a top-down, risk-based approach to this principle. The second principle is that management's evaluation of evidence about the operation of its controls should be based on its assessment of risk. This guidance provides an approach for making risk-based judgments about the evidence needed for the evaluation. More specifically, this interpretive guidance does the following:

- Explains how to vary evaluation approaches for gathering evidence based on risk assessments
- Explains the use of "daily interaction," self-assessment, and other ongoing monitoring activities as evidence in the evaluation
- Explains the purpose of documentation and how management has flexibility in documenting support for its assessment
- Provides management significant flexibility in making judgments regarding what constitutes adequate evidence in low-risk areas
- Allows for management and the auditor to have different testing approaches

.07 The text of the full interpretation can be found at www.sec.gov/rules/interp/2007/33-8810.pdf.

SEC No-Action and Exemptive Orders

.08 The SEC issues Securities Exchange Act of 1934 no-action and exemptive orders, both of which are typically in response to an inquiry from a public company. Exemptive orders are similar to no-action letters in that they provide a green light from the SEC to move forward on a new initiative. However, exemptive orders apply only to the situation for which they are granted. No-action letters may be relied upon by other firms as precedent. Recently issued no-action and exemptive orders can be found at www.sec.gov/interps/noaction.shtml.

SEC Proposed Rules

Smaller Reporting Company Regulatory Relief and Simplification

.09 On July 5, 2007, the SEC proposed rule amendments relating to disclosure and reporting requirements for smaller companies under the Securities Act of 1933 and the Securities Exchange Act of 1934. Further details regarding this proposed rule can be found in the "SEC Small Business Initiatives" section of this alert (paragraphs .34–.40).

Acceptance From Foreign Private Issuers of Financial Statements Prepared in Accordance With International Financial Reporting Standards Without Reconciliation to U.S. Generally Accepted Accounting Principles

.10 On July 2, 2007, the SEC proposed to accept from foreign private issuers their financial statements prepared in accordance with International Financial Reporting Standards (IFRS) without reconciliation to

U.S. generally accepted accounting principles (GAAP). To implement this, the SEC has proposed amendments to Form 20-F and conforming changes to Regulation S-X to accept financial statements prepared in accordance with the English language version of IFRS as published by the International Accounting Standards Board (IASB) without reconciliation to U.S. GAAP when contained in the filings of foreign private issuers with the SEC. Current requirements regarding the reconciliation to U.S. GAAP will not change for foreign private issuers that use a basis of accounting other than the English language version of IFRS. The full text of this release can be viewed at www.sec.gov/rules/proposed/2007/33-8818.pdf.

Revisions to Rules 144 and 145 to Shorten Holding Period for Affiliates and Nonaffiliates

.11 On June 22, 2007, the SEC proposed a 6-month holding period under Rule 144 (the "safe harbor" rule) for restricted securities of companies that are subject to the reporting requirements of the Securities Exchange Act of 1934. Additional information regarding this proposal can be found in the "SEC Small Business Initiatives" section of this alert (paragraphs .34–.40).

SEC Concept Releases

Allowing U.S. Issuers to Prepare Financial Statements in Accordance With IFRS Standards

.12 On August 7, 2007, the SEC published a concept release to obtain information about the extent and nature of the public's interest in allowing U.S. issuers, including investment companies subject to the Investment Company Act of 1940, to prepare financial statements in accordance with IFRS. Comments are due by November 13, 2007. The full text of this release, as well as information on where to submit comments, can be found at www.sec.gov/rules/concept/2007/33-8831.pdf.

SEC Staff Accounting Bulletins

.13 A Staff Accounting Bulletin (SAB) reflects the SEC staff's views regarding accounting-related disclosure practices. They represent interpretations and policies followed by the Division of Corporation Finance and the Office of the Chief Accountant in administering the disclosure requirements of the federal securities laws. There have been no additional SAB's issued since the last publication of this Audit Risk Alert. The most recent SAB issued was SAB No. 108, Topic 1N, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements*, on September 13, 2006. For a listing of the most recent SAB issuances, see www.sec.gov/interps/account.shtml.

SEC Office of the Chief Accountant: Staff Letters to Industry

.14 Readers should be aware of the following staff letters to industry that provide helpful guidance and clarification regarding the SEC staff's interpretation of certain accounting issues and their application under U.S. GAAP.

Letter From SEC Chief Accountant to Council of Institutional Investors Concerning the Use of Market Instruments for the Purpose of Valuing Employee Share-Based Payment Awards Under FASB Statement No. 123R (February 23, 2007)

.15 This letter points out that while the best evidence of fair value for employee stock options is observable market prices of identical or similar instruments in active markets, the FASB did not provide detailed guidance on how one might comply with this principles-based objective. The SEC staff noted that factors to consider when applying FASB Statement No. 123R include the size of the offering relative to market demand, the number and characteristics of bidders, the functionality of the technology, and purchaser perceptions concerning costs of holding, hedging, or trading the instrument. The full text of the letter can be found at www.sec.gov/info/accountants/staffletters/cii022307.htm.

Letter From SEC Chief Accountant to Zions Bancorporation Concerning Its Proposal to Issue Employee Stock Option Appreciation Rights Securities for the Purpose of Valuing Employee Share-Based Payment Awards Under FASB Statement No. 123R (January 25, 2007)

.16 This letter provides guidance regarding Employee Stock Option Appreciation Rights Securities instruments and whether they are sufficiently designed to be used as a market-based approach under FASB Statement No.123R. The full text of the letter can be accessed at www.sec.gov/info/accountants/staffletters/zions012507.pdf.

Recent Guidance Provided by the SEC's Division of Corporation Finance

.17 Readers should be aware of the current accounting and disclosure issues document prepared by the staff of the Division of Corporate Finance available at www.sec.gov/divisions/corpfin/cfacctdisclosureissues.pdf, which was last updated on November 30, 2006. The updated document contains references to new and updated items that were recently incorporated into the document. The items recently incorporated as new (as opposed to updated) current accounting and disclosure items are in the following areas:

- Final rules regarding executive compensation
- Accounting for employee stock options
- Quantifying misstatements
- Final rule regarding tender offer-best price rule
- Rule proposal related to Foreign Private Issuer deregistration
- Electronic access to comment and response letters and electronic notifications of effectiveness
- Five recent enforcement actions involving U.S. GAAP
- Adoption of a new accounting standard in an interim period
- Statement of cash flows (discontinued operations and insurance proceeds)
- Discussion in Management's Discussion and Analysis of contingencies, loss reserves, and uncertain tax positions
- Segment disclosure (operating segments and goodwill impairment)
- Shortcut method of assessing hedge effectiveness
- Disclosure of off-balance sheet arrangements
- Disclosure of liability for unpaid claims and claims adjustment expenses and reinsurance recoverables on paid and unpaid claims

.18 The items incorporated as updated (as opposed to new) current accounting and disclosure issues are in the following areas:

- Final rules regarding use of Form S-8, Form 8-K, and Form 20-F by public shell companies
- Rules and concept release regarding the use of tagged data and incentives to voluntarily submit Extensible Business Reporting Language (XBRL) information
- Accelerated filer definitions and deadlines for filing periodic reports
- Management's report on internal control over financial reporting and certification of disclosure in Securities Exchange Act of 1934 periodic reports

- One recent enforcement action involving U.S. GAAP
- Classification and measurement of warrants and embedded conversion features
- Statement of Cash Flows
- Oil and gas industry issues
- Revenue (buy/sell arrangements)
- Investments and other-than-temporary declines in value
- Contingencies, loss reserves, and uncertain tax positions
- Segment disclosure (aggregation of operating segments)
- Financial statement presentation and disclosure under FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*
- Corporation finance staffing and phone numbers
- Division employment opportunities (professional academic fellowships)

Updated Frequently Asked Questions Regarding Management's Report on Internal Control Over Financial Reporting

.19 On September 24, 2007, the SEC revised their frequently asked questions (FAQs) document related to management's report on internal control over financial reporting and certification of disclosure in Securities Exchange Act of 1934 periodic reports. The SEC noted that these revisions were made to eliminate FAQs that the staff believed were no longer relevant, necessary, or were addressed by the SEC's issuance of Interpretive Guidance for Management on May 23, 2007 (Release No. 33-8810).

.20 The specific changes that were made resulted in the elimination of previously existing FAQs numbered 5, 7, 10–13, and 15–20. The remaining FAQs are substantially the same and have been renumbered as a result of the elimination of the 12 previously referenced FAQs. In addition, four new FAQs have been added pertaining to foreign private issuers. Please note that these FAQs represent the views of the staffs of the Office of the Chief Accountant and the Division of Corporation Finance. They are not rules, regulations, or statements of the SEC. Further, the SEC has neither approved nor disapproved them.

.21 The updated FAQs can be found at www.sec.gov/info/accountants/controlfaq.htm.

Accounting Guidance to Certain Registrants in the Form of Sample Letters

.22 In February 2005, the staff of the Division of Corporation Finance publicly posted sample letters sent to certain registrants to promote widespread awareness of certain accounting issues and to provide examples of comments that other registrants should consider as they prepare future SEC filings, as applicable. A number of letters have been posted. Below is one letter related to stock options. There are other letters posted related specifically to oil and gas, coal mining, and banking industries. Readers who are involved in those industries may want to review this additional guidance, which can be found at www.sec.gov/divisions/corpfin/cfreportingguidance.shtml.

.23 *Sample letter sent in response to inquiries related to filing restated financial statements for errors in accounting for stock option grants*. In December 2006, the Division of Corporation Finance responded to inquiries from several public companies requesting filing guidance as they prepare to restate previously issued financial statements for errors in accounting for stock option grants. The full text of the sample letter can be found at www.sec.gov/divisions/corpfin/guidance/oilgasltr012007.htm.

Staff Observations in the Review of IFRS Financial Statements and on Annual Reports Containing Financial Statements Prepared for the First Time on the Basis of IFRS Standards

.24 In 2006, the SEC staff reviewed the annual reports of more than 100 foreign private issuers containing financial statements prepared for the first time on the basis of IFRS. The staff comments include the following topics:

- Assertion of compliance with IFRS
- Manner of presentation
- Topical areas, including revenue recognition, intangible assets and goodwill, impairment of long-lived assets, leases, contingent liabilities, and financial instruments

.25 The full text of the staff observations along with other IFRS information can be found at www.sec.gov/divisions/corpfin/cfreportingguidance.shtml.

Recent Guidance Provided by the SEC's Division of Investment Management

.26 The SEC's Division of Investment Management regulates investment companies, such as mutual funds, closed-end funds, unit investment trusts, exchange-traded funds, and interval funds, including variable insurance products, and federally registered investment advisors. It has recently issued the guidance discussed in the following paragraph.

Staff Interpretive Guidance on Implementation of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109

.27 The Division of Investment Management staff has issued a letter, dated June 28, 2007, in response to a request for additional guidance regarding interpretive guidance on FASB Interpretation No. 48. The letter specifically addresses how to deal with provisions for adequate time to allow for proper accruals, as well as the impact of accruals on net asset values of investments. The letter can be accessed at www.sec.gov/divisions/investment/fin48_letter_062807.htm.

.28 In addition, the staff issued a letter dated December 22, 2006, regarding the application of FASB Interpretation No. 48 to the fund industry and specific challenges to this industry. For further guidance and a copy of the letter, see www.sec.gov/divisions/investment/letter_mutual_fund_fin_48.htm.

.29 Other Division of Investment Management guidance can be accessed at www.sec.gov/divisions/investment/guidance.shtml.

SEC Independence Initiatives

SEC Updates FAQs on Auditor Independence

.30 On August 6, 2007, the SEC updated its FAQs guidance related to the application of the SEC's rules on auditor independence. Specifically, the SEC issued new FAQs on the following topics:

- Prohibited and nonaudit services
- Audit committee preapproval
- Fee disclosures
- "Cooling off" period

.31 The complete set of updated FAQs can be accessed at www.sec.gov/info/accountants/ocafaqaudind080607.htm.

SEC Brochure on Audit Committees and Auditor Independence

.32 The SEC recently posted to its Web site a useful document related to audit committees and auditor independence. The purpose of this brochure is to highlight certain SEC rules and other authoritative pronouncements relevant to audit committee oversight responsibilities regarding the auditor's independence. The brochure specifically highlights the following:

- General standard of auditor independence
- Specific prohibited nonaudit services
- Preapproval of permitted services
- Prohibited relationships
- Communications between the audit committee and the independent auditor
- Change of independent auditors
- Addressing independence issues
- Guidance on consulting with the Office of the Chief Accountant

.33 More information on the topic of independence is available on the SEC Web site at www.sec.gov/about/offices/oca/ocaprof.htm.

SEC Small Business Initiatives

SEC Proposals Related to Small Businesses

.34 The SEC has issued six rule proposals related to small businesses' capital raising and disclosure requirements. Such proposals are trying to make reporting easier for small companies. The six most recently issued proposals are discussed in the following paragraphs.

.35 *Release No. 33-8812, "Revisions to the Eligibility Requirements for Primary Securities Offerings on Form S-3 and F-3."* The SEC is proposing to amend the eligibility requirements of Form S-3 and Form F-3 to allow domestic and foreign private issuers to conduct primary securities offerings on these forms without regard to the size of their public float or the rating of debt they are offering as long as they satisfy the other eligibility conditions of the respective form and do not sell more than the equivalent of 20 percent of their public float in primary offerings pursuant to the instructions on these forms over any period of 12 calendar months. More information can be found at www.sec.gov/rules/proposed/2007/33-8812.pdf.

.36 *Release Nos. 33-8819, 34-56013, and 39-2447, "Smaller Reporting Company Regulatory Relief and Simplification."* On July 5, 2007, the SEC proposed extending the benefits of the current optional disclosures and reporting requirements for smaller companies to a much larger group of companies. This proposal would allow companies with a public float of less than $75 million to qualify for smaller company requirements, up from $25 million for most companies today. The proposals also would combine for most purposes the small business issuer and nonaccelerated filer categories of smaller companies into a single category of smaller reporting companies. The full text of this release can be viewed at www.sec.gov/rules/proposed/2007/33-8819.pdf.

.37 *Release No. 33-8813, "Revisions to Rule 144 and Rule 145 to Shorten Holding Period for Affiliates and Non-Affiliates."* Under this release, the proposed holding period of six months would be extended for up to an additional six months, by the amount of time during which the security holder has engaged in hedging transactions. Restricted securities of companies that are not subject to the Securities Exchange Act of 1934 reporting requirements would continue to be subject to a one-year holding period prior to any public resale. They also propose to substantially reduce the restrictions on the resale of securities by nonaffiliates. This proposal will also simplify the Preliminary Note to Rule 144 in order to eliminate the manner of sale restrictions with respect to debt securities, increase Form 144 filing thresholds, and codify several staff interpretation positions that relate to Rule 144. In addition, the SEC proposes amendments to Securities Act Rule 145, which establishes resale limitations on certain persons who acquire securities in business combination transactions. The full text of this release can be found at www.sec.gov/rules/proposed/2007/33-8813.pdf.

.38 *Release No. 34-56010, "Exemption of Compensatory Employee Stock Options From Registration Under Section 12(g) of the Securities Exchange Act of 1934."* The SEC is proposing two exemptions from the registration requirements of the Securities Exchange Act of 1934 for compensatory employee stock options. The first exemption would be available to issuers that are not required to file periodic reports under the Securities Exchange Act of 1934. The proposed exemption would apply only to the issuer's compensatory employee stock options and would not extend to the class of securities underlying those options. The second exemption would be available to issuers that are required to file those reports because they have registered under Securities Exchange Act of 1934 Section 12 the class of securities underlying the compensatory employee stock options. The full text of this proposal can be found at www.sec.gov/rules/proposed/2007/34-56010.pdf.

.39 *Release No. 33-8828, "Revisions of Limited Offering Exemptions in Regulation D."* The SEC is proposing revision to Regulation D to provide additional flexibility to issuers and to clarify and improve the application of the rules. It proposes to create a new exemption from the registration provisions of the Securities Act of 1933 for offers and sales of securities to large accredited investors. The exemption would permit limited advertising in an exempt offering where each purchaser meets the definition of *large accredited investor*. They also propose revision to the term *accredited investor* in Regulation D to clarify the definition and reflect developments since its adoption. In addition, it proposes to shorten the timing required by the integration safe harbor in Regulation D and to apply uniform disqualification provisions to all offerings seeking to rely on Regulation D. It is soliciting comments on possible revisions to Rule 504 and on the definition of *accredited natural person* for certain pooled investment vehicles in Securities Act Rules 216 and 509 that it proposed in December 2006. The full text of this proposal can be found at www.sec.gov/rules/proposed/2007/33-8828.pdf.

.40 *Release Nos. 33-8814, 34-55980, and 39-2446, "Electronic Filing and Simplification of Form D."* The SEC has published for comment proposals that would mandate the electronic filing of information required by Securities Act of 1933 Form D. It is also proposing revisions to Form D and to Regulation D to simplify and restructure Form D and update and revise its information requirements. Additional information can be found at www.sec.gov/rules/proposed/2007/33-8814.pdf.

Other SEC Initiatives

IFRS "Roadmap"

.41 The SEC has outlined several initiatives concerning the proposed acceptance of foreign private issuers of financial statements prepared in accordance with IFRS without reconciliation to U.S. GAAP in the "Spotlight" section of its Web site. This section provides information regarding the SEC Roundtable on IFRS "Roadmap," SEC press releases on the issue, staff reviews of IFRS financial statements, and SEC speeches and public statements on the issue. This information can be accessed at www.sec.gov/spotlight/ifrsroadmap.htm.

Interactive Data and XBRL Initiatives

.42 On March 6, 2006, the SEC announced a series of roundtables to be conducted that will focus on speeding the implementation of new Internet tools that will help provide investors and analysts with better financial information about companies and funds. Interactive data permit Internet users to search for and use individual items of information from financial reports, such as net income and executive compensation. In July 2007, the SEC expanded the interactive data voluntary program to include mutual fund information. The most recent roundtable on this topic was held on March 19, 2007, in which they discussed using interactive data to create better disclosure documents and preparation of financial reports using interactive data, with a focus on mutual funds and public companies.

.43 On September 25, 2007, SEC Chairman Christopher Cox held a news conference regarding XBRL, where he announced the completion of all work on developing data tags for the entire system of U.S. GAAP. The project team has managed to map "every unique concept of U.S. GAAP to its own unique data tag," said Cox. He also remarked that a review for U.S. GAAP compliance by the Financial Accounting Foundation is nearing completion, and critical stakeholder groups including analysts, public company preparers, and software providers will be reviewing the draft taxonomies first, before a broad-based public view is initiated.

.44 If all goes according to plan, Cox said that the SEC staff would prepare recommendations on proposed rulemaking concerning XBRL and submit them to the SEC commissioners in the spring of 2008. Provided no major problems are uncovered, the SEC may be ready to adopt a final rule in the fall of 2008 that would mandate the use of XBRL in regulatory filings. For further information on interactive data and XBRL initiatives, as well as project updates, see www.sec.gov/spotlight/xbrl.htm.

SEC Advisory Committee

.45 In June 2006, the SEC established the Advisory Committee on Improvements to Financial Reporting. This committee held its first meeting on August 2, 2007. The SEC has appointed 17 members representing investors, companies, and various other entities within the securities markets. Five others will serve as official observers of the advisory committee, representing the FASB, Public Company Accounting Oversight Board (PCAOB), Department of the Treasury, IASB, and federal banking regulators. The advisory committee will examine the U.S. financial reporting system and provide recommendations about how to improve its usefulness for investors and reduce unnecessary complexity for U.S. companies. More specifically, the advisory committee will explore ways to redesign the financial reporting system to take advantage of interactive data and the XBRL computer language for financial reporting.

.46 The SEC's charter identifies the following more specific areas of inquiry for the advisory committee:

- The current approach to setting financial accounting and reporting standards, including (*a*) the principles-based versus rules-based standards; (*b*) the inclusion within standards of exceptions, bright lines, and safe harbors; and (*c*) the process for providing timely guidance on implementation issues and emerging issues
- The current process of regulating compliance with accounting and reporting standards
- The current system for delivering financial information to investors and accessing that information
- Other environmental factors that drive unnecessary complexity, including the possibility of being second-guessed, the structuring of transactions to achieve an accounting result, and whether there is hesitation by professionals to exercise professional judgment in the absence of detailed rules
- Whether there are current accounting and reporting standards that do not result in useful information to investors or impose costs that outweigh the resulting benefits

- Whether the growing use of international accounting standards has an impact on the relevant issues relating to complexity of U.S. accounting and reporting standards and the usefulness of the U.S. financial reporting system

.47 Additional information on this advisory committee can be found at www.sec.gov/about/offices/oca/acifr.shtml.

PCAOB Developments

.48 The summaries that follow are for informational purposes only and should not be relied upon as a substitute for a complete reading of the applicable rule or development. In addition, the information presented in this section does not encompass all of the recent issuances and activities of the PCAOB. See the PCAOB Web site at www.pcaob.org for complete information.

PCAOB Approved Rules and Standards

Auditing Standard No. 5, An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements

.49 On May 24, 2007, the PCAOB adopted Auditing Standard No. 5 that supersedes its Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction With an Audit of Financial Statements* (AICPA, *PCAOB Standards and Related Rules*, Rules of the Board, "Standards"), and an independence rule relating to the auditor's provision of internal control-related nonaudit services. It also adopted certain amendments to its interim standards. The SEC approved the standard on July 25, 2007.

.50 The PCAOB has closely monitored the implementation of Auditing Standard No. 2, and came to two conclusions:

1. The audit of internal control over financial reporting has produced significant benefits related to corporate processes and controls.
2. These benefits have come at a significant, higher than anticipated cost, and at times, the effort has appeared greater than necessary to conduct an effective audit of internal control over financial reporting.

.51 The PCAOB adopted the new Auditing Standard No. 5 to replace Auditing Standard No. 2 with the primary objective of focusing the auditor on matters most important to internal control. Goals of this new standard are to eliminate unnecessary procedures, to simplify and shorten the standard by reducing detail and specificity, and to make the audit more scalable for smaller and less complex companies. Some examples of important differences between Auditing Standard No. 5 and Auditing Standard No. 2 follow:

- The new standard is less prescriptive, with fewer mandatory requirements and more reliance on auditor judgment.
- The new standard makes the audit scalable so it can change to fit the size and complexity of any company.
- The new standard directs the auditor to focus on what matters most and eliminates unnecessary procedures from the audit.
- The new standard includes a principles-based approach to determining when and to what extent the auditor can use the work of others.

.52 The adopted standard will do the following, among other things:

- Direct the auditor to the most important controls and emphasize the importance of risk assessment using a top-down approach.
- Emphasize fraud controls, with an emphasis on assessing fraud risk in the planning process and additional guidance on the types of controls that may address fraud risk.
- Identify management fraud as an area of higher risk, directing the auditor to focus more attention in this area.
- Recalibrate the walkthrough requirement.
- Permit consideration of knowledge obtained during prior audits.
- Revise the definitions of significant deficiency and material weakness, as well as the "strong indicators" of a material weakness.
- Adopt communication requirements, which require, among other things, that the auditor consider and communicate any identified significant deficiencies to the audit committee.
- Direct the auditor to tailor the audit to reflect attributes of smaller and less complex companies.
- Remove the requirement to evaluate management's process, which the PCAOB believes could contribute to a checklist approach to compliance by the auditors.
- Provide auditors with further guidance regarding scoping decisions for multiple location audits.

.53 Auditing Standard No. 5 is effective for audits of internal control over financial reporting required by Section 404(b) of the Sarbanes-Oxley Act of 2002 for fiscal years ending on or after November 15, 2007. Earlier adoption is permitted at any point after SEC approval, which occurred on July 25, 2007. Auditors who elect to comply with Auditing Standard No. 5 after July 25, 2007, but before its effective date must also comply, at the same time, with Rule 3525 and other PCAOB standards as amended by Auditing Standard No. 5. Auditors who elect to comply with Auditing Standard No. 5 before its effective date should use the definition of *material weakness* contained in Auditing Standard No. 5. See www.pcaob.org/Standards/Standards_and_Related_Rules/Auditing_Standard_No.5.aspx for the full release document.

.54 Upon approval of the new standard by the SEC on July 25, 2007, the PCAOB announced that it is undertaking several initiatives to support the successful implementation of the standard. These initiatives include working closely with the audit firms, early in their process, as they evaluate how the new standard will affect their firms' audits of internal control. Other initiatives include continued outreach to public companies and smaller audit firms regarding the new standard. See full text of the press release at www.pcaob.org/News_and_Events/News/2007/07-25.aspx.

Considering and Using the Work of Others

.55 At the time the PCAOB proposed Auditing Standard No. 5 for public comment, the PCAOB also proposed an auditing standard titled *Considering and Using the Work of Others*, which would have superseded AU section 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements* (AICPA, *PCAOB Standards and Related Rules*). However, after considering all comments, the PCAOB decided to retain AU section 322 for both the financial statement audit and audit of internal control over financial reporting and incorporate language into Auditing Standard No. 5 that establishes integration concepts rather than adopting the proposed standard. Some of the key concepts in Auditing Standard No. 5 as they relate to using the work of others are as follows:

- Allows the auditor to use the work of others to obtain evidence about the design and operating effectiveness of controls for both the internal control audit and the financial statement audit, eliminating a barrier to integration of the two audits

- Eliminates the principal evidence provision
- Allows the auditor to use the work of company personnel other than internal auditors, as well as third parties working under the direction of management or the audit committee
- Requires the auditor to use a risk-based approach to the extent that the auditor can use the work of others

.56 For additional information, see paragraphs 16–19 of Auditing Standard No. 5 at www.pcaob.org/Rules/Rules_of_the_Board/Auditing_Standard_5.pdf.

Rule 3525, Audit Committee Pre-Approval of Non-Audit Services Related to Internal Control Over Financial Reporting

.57 The PCAOB also adopted a new rule related to the auditor's responsibilities when seeking audit committee preapproval of internal control related nonaudit services. The rule is intended to ensure that audit committees are provided relevant information for them to make an informed decision on how the performance of internal control-related services may affect independence. Specifically, the public accounting firm shall describe, in writing, the scope of the service and submit to the audit committee, as well as discuss with the audit committee, the potential effects of the service on the firm's independence. Registered firms are also required to document the substance of such discussions in writing. This rule is effective for audits of fiscal years ending on or after November 15, 2007 (the same effective date as Auditing Standard No. 5). The full text of this rule can be found at www.pcaob.org/Rules/Rules_of_the_Board/Rule_3525.pdf.

Conforming Amendments to Interim Auditing Standards

.58 In conjunction with the PCAOB's adoption of Auditing Standard No. 5, the PCAOB also adopted a number of conforming amendments to its interim standards. The conforming amendments due to the issuance of Auditing Standard No. 5 can be found at www.pcaob.org/Rules/Rules_of_the_Board/Conforming_Amendments_AS5.pdf.

PCAOB Proposed Rules and Standards

Proposed Ethics and Independence Rule 3526, Communication with Audit Committees Concerning Independence *and Proposed Amendment to Rule 3523,* Tax Services for Persons in Financial Reporting Oversight Roles

.59 On July 24, 2007, the PCAOB proposed an ethics and independence rule, Rule 3526, that would supersede the PCAOB's interim independence requirement, Independence Standards Board (ISB) Standard No. 1, *Independence Discussions with Audit Committees*, and two related interpretations (ISB Interpretation 00-1 and ISB Interpretation 00-2). As part of the proposal, the PCAOB also proposed an amendment to Rule 3523 and further adjusted the implementation schedule for Rule 3523. See the "PCAOB Independence Initiatives" section of this alert (paragraphs .74–.79) for more information.

Proposed Auditing Standard Evaluating Consistency of Financial Statements and Proposed Amendments to Interim Auditing Standards

.60 On April 3, 2007, the PCAOB proposed changes to its auditing standards in light of the issuance of FASB Statement No. 154, *Accounting Changes and Error Corrections*, and the proposed FASB Statement *The Hierarchy of Generally Accepted Accounting Principles*. This proposal, if adopted and approved by the SEC, would do the following:

- Supersede AU section 420, *Consistency of Application of Generally Accepted Accounting Principles* (AICPA, *PCAOB Standards and Related Rules*), with a new auditing standard.

- Remove the U.S. GAAP hierarchy from the PCAOB's interim audit standards.
- Make conforming amendments to the PCAOB's interim auditing standards.

.61 For the full text of the proposal, see www.pcaob.org/Rules/Docket_023/2007-04-03_Release_No._2007-003.pdf.

PCAOB Standing Advisory Group

.62 The PCAOB Standing Advisory Group (SAG) is a 31-person panel representing the auditing profession, public companies, investors, and others charged with advising the PCAOB on the establishment of auditing and related professional practice standards. The SAG was established in April 2004 and meets approximately three times a year. Six organizations have been granted observer status at these meetings and include the:

- FASB
- Government Accountability Office (GAO)
- International Auditing and Assurance Standards Board
- SEC
- Department of Labor
- Auditing Standards Board of the AICPA

.63 The meetings can be heard via Webcast, and briefing papers can be accessed at www.pcaob.org/Standards/Standing_Advisory_Group/index.aspx.

June 2007 SAG Meeting

.64 On June 21, 2007, the SAG met to discuss auditing accounting estimates and fair value measurements, the PCAOB's interim standard on related parties, and engagement team performance. Additional details on each topic are noted in the following list:

- Accounting estimates, fair value measurements, and, more specifically, auditing procedures used for accounting estimates and fair value measurements were addressed. The SAG also discussed whether there is still a need for two separate PCAOB standards, one for accounting estimates and one for fair value measurements. The briefing paper from the meeting also discusses some of the similarities and differences in the auditing procedures required pursuant to the respective auditing standards.
- Engagement team performance was also a focus of the group, with the panel discussing whether more direction should be included in the PCAOB auditing and related professional practice standards about which members of the engagement team are responsible for performing the auditing procedures during an audit engagement. More specifically, they discussed the audit partner's involvement in the planning and supervision of the audit engagement and higher risk areas or areas that involve high risk and extensive use of professional judgment.
- A new project undertaken by the group is related parties, and a discussion of the interim auditing standard on related parties took place. The discussion focused mainly on the auditor's role in assessing risks relevant to related party transactions and performing sufficient audit procedures in identifying related parties and auditing transactions with those parties.

February 2007 SAG Meeting

.65 On February 22, 2007, the SAG met specifically to discuss proposed changes to Auditing Standard No. 2. In particular, they discussed the following:

- Whether the proposed standard for an audit of internal control allows for appropriate use of auditor judgment while sufficiently safeguarding the quality of the audit
- Whether the proposed standard for an audit of internal control adequately emphasizes the importance of company-level controls and the effect they may have on the auditor's testing
- Whether the direction in the standard on scaling the audit sufficiently addresses differences in company size and complexity
- Whether the standard would result in audit implementation issues

.66 In addition, the SAG discussed whether the proposed auditing standard on considering and using the work of others would meet the objective of removing unnecessary barriers to using the work of others and promote better integration of audits.

.67 The next SAG meeting will be held in October 2007, which will also be the PCAOB's annual meeting. Updated information related to this meeting, including an agenda, will be available at www.pcaob.org/Standards/Standing_Advisory_Group/index.aspx.

PCAOB Inspections

.68 Section 404 of Sarbanes-Oxley requires the PCAOB to conduct inspections of registered public accounting firms. In the inspections, the PCAOB assesses compliance with Sarbanes-Oxley, the rules of the PCAOB, and the rules of the SEC and professional standards in connection with the firm's performance of audits, issuance of audit reports, and related matters involving issuers. Sarbanes-Oxley requires the PCAOB to conduct those inspections annually for firms that provide audit reports for more than 100 issuers and at least triennially for firms that provide audit reports for fewer than 100 issuers. The PCAOB makes portions of the inspection reports public, and they can be accessed at www.pcaob.org/Inspections/Public_Reports/index.aspx.

.69 On May 24, 2007, the PCAOB held an open meeting and approved the PCAOB Inspection Frequency Rule. This rule eliminates the June 30, 2007, tentative sunset date for Rule 4003(d). Rule 4003(d) extends the time period during which the PCAOB must conduct the first and second inspections of firms that registered in 2003 and 2004. The PCAOB's action allows the rule to remain in place to provide ongoing, albeit limited, flexibility concerning the timing of the first two inspections of firms that registered in 2003 and 2004. That flexibility allows the PCAOB to make scheduling adjustments that will result in a mix of inspected firms (in terms of the size and nature of audit practices) that is relatively consistent from year to year, while avoiding significant year to year fluctuations in inspection resource requirements. The PCAOB has previously submitted Rule 4003(d) to the SEC for approval, and that submission is pending. In this meeting, the PCAOB also proposed for public comment an amendment to Rule 4003 that would remove the rule's requirement that the PCAOB regularly inspect certain firms that do not regularly issue audit reports, including firms that play a substantial role in audits but do not issue audit reports. Additional information regarding this meeting can be found at www.pcaob.org/news_and_events/news/2007/05-24.aspx.

Report on the Second Year Implementation of Auditing Standard No. 2

.70 On April 18, 2007, the PCAOB issued a report regarding issues identified in the implementation of Auditing Standard No. 2, which partly came about due to inspections that occurred during 2006. During 2006, the PCAOB reviewed portions of approximately 275 audits of internal control over financial reporting. These inspections revealed that progress was made in improving the efficiency of internal control audits. Many of these improvements resulted from the easing of time constraints that auditors and issuers faced in the first year, issuers' and auditors' additional experience, and changes that auditors made in their methodologies and staff training. However, the PCAOB also noted several areas where auditors can further improve their implementation of Auditing Standard No. 2. The PCAOB considered these areas of improvement when they introduced the new Auditing Standard No. 5. The full text of this release can be found at www.pcaob.org/Inspections/Other/2007/04-18_Release_2007-004.pdf.

PCAOB Accounting and Support Fee and Funding Process

.71 On April 18, 2007, the PCAOB staff published updated FAQs regarding the accounting support fee and funding process. The statements contained in these FAQs are not rules of the PCAOB, nor have they been approved by the PCAOB. The entire release can be accessed at www.pcaob.org/Support_Fees/SupportFeeFAQ.pdf.

.72 In May 2006, the PCAOB exposed for public comment rules for annual and special reporting of information in *Proposed Rules on Periodic Reporting by Registered Public Accounting Firms.* Under the proposed rules, all registered firms would be required to file an annual report with the PCAOB on Form 2. According to the proposed rules, the annual reports on Form 2 would be due on July 31st of each year. Recently, the PCAOB has clarified that because the rules have not yet been finalized, the first annual reports and annual fees will not be due by the June 30, 2007, and July 31, 2007, dates. The PCAOB stated that when it adopts final rules, it will set deadlines with reasonably sufficient lead time to allow firms to be able to comply. The PCAOB's statement on this matter can be found at www.pcaob.org/rules/docket_019/asr.pdf.

.73 On December 4, 2006, the SEC approved the PCAOB's 2007 annual budget and accounting fee. For more information, visit www.pcaob.org/news_and_events/news/2006/11-30.aspx. In addition, the PCAOB also posted its 2006 Annual Report, *Strengthening Investor Confidence*, to its Web site. A copy of the report can be found at www.pcaob.org/about_the_pcaob/annual_reports/2006.pdf.

PCAOB Independence Initiatives

Proposed Ethics and Independence Rule 3526 and Proposed Amendment to Rule 3523

.74 Proposed Rule 3526 would require a registered public accounting firm to communicate to an issuer's audit committee about any relationships between the firm and the issuer that may reasonably be thought to bear on the firm's independence. These communications would be required both before the firm accepts a new engagement pursuant to the standards of the PCAOB and at least annually for continuing engagements.

.75 As part of the same proposal, the PCAOB also proposed an amendment to Rule 3523 and further adjusted the implementation schedule for Rule 3523 as it applies to tax services provided during the audit period. Specifically, Rule 3523 will not apply to tax services provided on or before April 30, 2008, when those services are provided during the audit period and are completed before the professional engagement period begins. In addition, if the PCAOB does amend Rule 3523 as described, registered firms would remain responsible for considering the relevant facts and circumstances of a specific tax engagement and determining whether their independence is impaired under the SEC's general standard of independence.

.76 Lastly, the PCAOB also proposed to add a note to Rule 3523 with respect to an initial public offering (IPO). The note would state that in the context of an IPO, the provision of tax services to a person covered by Rule 3523 before the date that the firm either (1) signed an initial engagement letter or other agreement to perform an audit pursuant to the standards of the PCAOB or (2) began procedures to do so (whichever date is earlier) does not impair a registered public accounting firm's independence under Rule 3523. Comments on this proposal were due back by September 7, 2007.

.77 The full text of the release can be found at www.pcaob.org/Rules/Docket_017/2007-07-24_Release_2007-008.pdf.

Staff Questions and Answers on Ethics and Independence Rules Concerning Independence, Tax Services, and Contingent Fees

.78 On April 3, 2007, the PCAOB issued staff questions and answers on ethics and independence rules as they relate to tax services and contingent fees. Topics covered include the following:

- The application of Rule 3522(a) when conditions of confidentiality are imposed by tax advisors who are not employed by or affiliated with the registered public accounting firm
- Whether a public accounting firm can advise an audit client on the tax consequences of structuring a particular transaction
- Whether a registered public accounting firm's independence is affected by the IRS's subsequent listing of a transaction that the firm marketed, planned, or opined in favor of, as described in Rule 3522(b)
- Clarification that the auditor must evaluate whether a person is in a financial reporting oversight role at affiliates and not just the audit client itself
- Clarification of the term *other change in employment event* as it relates to Rule 3522(c)

.79 The full text of the staff questions and answers can be found at www.pcaob.org/Standards/Staff_Questions_and_Answers/2007/Tax_Services.pdf.

PCAOB Small Business Initiatives

Forum on Auditing in the Small Business Environment

.80 The series of forums on Auditing in the Small Business Environment is a program for registered accounting firms and public companies in the small business community to learn more about the work of the PCAOB. The PCAOB began holding small business forums in 2004. To date, the forums have enabled board members and staff to meet with more than 1,600 representatives of small registered public accounting firms and small public companies to provide insight to the work of the PCAOB, particularly the inspections process and impact of the new auditing standards. The next forum will be held on October 22nd and 23rd in New York, NY. For more information regarding the small business forums, readers can access www.pcaob.org/News_and_Events/News/2007/01-03a.aspx.

Recent Speeches From the PCAOB Regarding Small Business Issues

.81 PCAOB Chairman Olson testified before the Committee on Small Business on June 5, 2007, regarding small business initiatives. Mr. Olson focused his remarks on the PCAOB's oversight and interaction with small firms. He described various PCAOB activities and initiatives, including the following:

- Outreach efforts involving discussion sessions that are designed to assist small registered firms become better equipped with information to address the challenges of the regulatory environment
- The PCAOB's supervisory inspection program that helps small firms focus on audit quality necessary to compete in the market to provide public company audit services
- The PCAOB standard setting activities that are performed with the needs and challenges of smaller firms in mind

.82 With respect to smaller firm activity in the SEC audit marketplace, he noted that smaller CPA firms are gaining ground in the market for SEC audits. He noted that while the Big Four firms have reduced their public company audit client bases by more than 1,000 clients since 2002, he said that "the next 4 and even smaller firms have increased the number of public companies that they audit: the next 4 have added more than 250 audit clients among them, and smaller firms have taken on more than 580 audit clients." Mr. Olson expressed confidence that smaller firms will continue to seize opportunities to grow in the marketplace. You can find further information regarding this testimony at www.pcaobus.org/news_and_events/events/2007/testimony/06-05_olson.aspx.

Other PCAOB Initiatives

Observations on Auditors' Implementation of PCAOB Standards Relating to Auditors' Responsibilities With Respect to Fraud

.83 On January 22, 2007, the PCAOB issued a report that addresses the auditors' responsibility as it relates to fraud, principally as it relates to AU Section 316, *Consideration of Fraud in a Financial Statement Audit* (AICPA, *PCAOB Standards and Related Rules*). Major topics discussed include the following:

- Auditors' overall approach to the detection of fraud
- Brainstorming sessions and fraud-related inquiries
- Auditors' response to fraud risk factors
- Financial statement misstatements
- Risk of management override of controls
- Other areas to improve fraud detection

.84 The full report can be accessed at www.pcaob.org/Inspections/Other/2007/01-22_Release_2007-001.pdf.

Other Related Developments and Resources

Committee for Sponsoring Organizations of the Treadway Commission Developments

.85 On January 8, 2007, the Committee for Sponsoring Organizations of the Treadway Commission (COSO) announced the selection of Grant Thornton LLP to develop guidance designed to help organizations monitor the quality of their internal control systems. The end product will serve as a tool for effectively monitoring internal controls and complying with the Sarbanes-Oxley Act of 2002.

.86 On September 17, 2007, COSO released for public comment a Discussion Document titled "Guidance on Monitoring Internal Control Systems." The second phase of the monitoring project, scheduled for release after comments are received on this Discussion Document, will provide examples, case studies, and tools to assist all organizations in implementing effective and efficient monitoring. Then COSO plans to release an exposure draft of the full implementation guidance later this year and to release the final guidance in the first quarter of 2008.

.87 In addition to the COSO project team, COSO has assembled an oversight task force consisting of representatives from its five sponsoring organizations as well as other experts. It will also have observers from the SEC, PCAOB, the U.S. GAO, and representatives from Europe, as well as both small and large companies. Updates on COSO's monitoring project will be posted to www.coso.org as available.

Resource Central

.88 The following are various resources that practitioners may find beneficial.

Publications

.89 Practitioners may find the following publications useful with respect to accounting and auditing of public companies:

- AICPA *Audit Risk Alert—2007/08* (product no. 022338kk)
- Audit Risk Alert *Independence and Ethics—2007/08* (product no. 022478kk)
- Audit Risk Alert *Understanding the New Auditing Standards Related to Risk Assessment*(product no. 022526kk)
- AICPA *Audit and Accounting Manual* (2007) (product no. 005137kk)
- *Accounting Trends & Techniques, 61st Edition* (product no. 009899kk)
- *PCAOB Standards and Related Rules* (product no. 057207kk)

AICPA reSOURCE: Accounting and Auditing Literature

.90 The AICPA has created your core accounting and auditing library online. AICPA reSOURCE is now customizable to suit your preferences or your firm's needs. Or, if you prefer to have access to the entire library, that is available too. Get access—anytime, anywhere—to the AICPA's latest *Professional Standards*, TPAs, Audit and Accounting Guides (more than 20), Audit Risk Alerts (more than 15), and *Accounting Trends & Techniques*. To subscribe to this essential online service for accounting professionals, go to www.cpa2biz.com.

Continuing Professional Education

.91 The AICPA offers a number of continuing professional education (CPE) courses that are valuable to CPAs working in public practice and industry, including the following:

- *AICPA's Annual Accounting and Auditing Update Workshop* (2007 Edition) (product no. 736183kk [text] or 187191 [DVD]). Whether you are in industry or public practice, this course keeps you current and informed and shows you how to apply the most recent standards.
- *SEC Reporting* (product no. 736774kk [text] or 186755 [DVD]). Confidently comply with the latest SEC reporting requirements with this comprehensive course. It clarifies new, difficult, and important reporting and disclosure requirements while giving you examples and tips for ensuring compliance.

.92 Visit www.cpa2biz.com for a complete list of CPE courses.

Online CPE

.93 AICPA CPExpress (formerly AICPA InfoBytes), offered exclusively through CPA2Biz.com, is AICPA's flagship online learning product. AICPA CPExpress now offers a free trial subscription to the entire product for up to 30 days. AICPA members pay $149 ($369 for nonmembers) for a new subscription and $119 ($369 for nonmembers) for the annual renewal. Divided into 1-credit and 2-credit courses that are available 24 hours a day, 7 days a week, AICPA CPExpress offers hundreds of hours of learning in a wide variety of topics. Some courses currently available related to SEC and PCAOB developments follow:

- *SEC Reporting* (product no. 736774)
- *Annual Public Company Update: SEC, PCAOB, and Other Developments* (product no. 731883)
- *PCAOB Standards and Related Rules* (product no. 057207 [text] or WPC-BX [online subscription])
- *SEC Quarterly Update Webcast Series* (product no. SEC-XX)

.94 To register or learn more, visit www.cpa2biz.com.

Webcasts

.95 Stay plugged in to what is happening and earn CPE credit right from your desktop. AICPA Webcasts are high quality, two-hour CPE programs that bring you the latest topics from the profession's leading experts. Broadcast live, they allow you to interact with the presenters and join in the discussion. If you cannot make the live event, each Webcast is archived and available on CD-ROM.

CFO Quarterly Roundtable Series

.96 The CFO Quarterly Roundtable Webcast Series, brought to you each calendar quarter, covers a broad array of *hot topics* that successful organizations employ and subjects that are important to the CFO's personal success. From financial reporting and budgeting and forecasting to asset management and operations, the roundtable helps CFOs, treasurers, controllers, and other financial executives excel in their demanding roles.

SEC Quarterly Update Series

.97 The SEC Quarterly Update Webcast Series, brought to you each calendar quarter, showcases the profession's leading experts on what is *hot* at the SEC. From corporate accounting reform legislation and new regulatory initiatives to accounting and reporting requirements and corporate finance activities, these hard-hitting sessions will keep you *plugged in* to what is important. A must for preparers in public companies and practitioners who have public company clients, this is the place to be when it comes to knowing about the areas of current interest at the SEC.

Member Service Center

.98 To order AICPA products, receive information about AICPA activities, and find help on your membership questions, call the AICPA Service Operations Center at (888) 777-7077.

Hotlines

Accounting and Auditing Technical Hotline

.99 Do you have a complex technical question about U.S. GAAP, other comprehensive bases of accounting, or other technical matters? If so, use the AICPA's Accounting and Auditing Technical Hotline. AICPA staff will research your question and call you back with the answer. You can reach the Technical Hotline at (888) 777-7077.

Ethics Hotline

.100 In addition to the Technical Hotline, the AICPA also offers an Ethics Hotline. Members of the AICPA's Professional Ethics Team answer inquiries concerning independence and other behavioral issues related to the application of the AICPA Code of Professional Conduct. You can reach the Ethics Hotline at (888) 777-7077.

Annual Conference

.101 The AICPA sponsors an annual National Conference on Current SEC and PCAOB Developments in December each year. The National Conference on Current SEC and PCAOB Developments is a three-day conference designed to provide comprehensive SEC and PCAOB updates directly from the regulators. For more information about the conference, call (888) 777-7077 or visit www.cpa2biz.com.

SEC Research

.102 The SEC has posted two useful guides to its Web site. The first guide provides an overview of how to research the federal securities laws through the SEC Web site and has been provided by the SEC as a service to investors and members of the public. This guide can be accessed at www.sec.gov/investor/pubs/securitieslaws.htm. The second guide provides information on how to research public companies through EDGAR on the SEC Web site by providing tips and answers to FAQs. EDGAR provides free public access to corporate information and SEC filings. The guide states that to use EDGAR effectively, you should know which categories of information appear in which SEC filings and which search methods would work best. In addition, you should also understand the limitations of EDGAR. The guide will help you achieve this. This guide can be accessed at www.sec.gov/investor/pubs/edgarguide.htm.

Center for Audit Quality

.103 The Center for Audit Quality (CAQ) (formerly the Center for Public Company Audit Firms) was created to serve investors, public company auditors, and the markets. The CAQ's mission is to foster confidence in the audit process and to aid investors and the capital markets by advancing constructive suggestions for change rooted in the profession's core values of integrity, objectivity, honesty, and trust.

.104 To accomplish this mission, the CAQ works to make public company audits even more reliable and relevant for investors in a time of growing financial complexity and market globalization. The CAQ also undertakes research, offers recommendations to enhance investor confidence and the vitality of the capital markets, issues technical support for public company auditing professionals, and helps facilitate the public discussion about modernizing business reporting. The CAQ is a voluntary membership center that supports member firms that audit or are interested in auditing public companies with education, communication, representation, and other means. To learn more about the CAQ, visit www.thecaq.org or the members-only site at http://thecaq.aicpa.org.

SEC Regulations Committee

.105 The SEC Regulations Committee meets periodically with the staff of the SEC to discuss emerging technical accounting and reporting issues relating to SEC rules and regulations. The mission of the SEC Regulations Committee is to protect investors by improving the quality of public-company financial reporting by identifying, discussing, and facilitating resolution of issues relating to the promulgation, interpretation, and application of SEC rules, regulations, and policies with the assistance of SEC staff and communicating those matters publicly on a timely basis. To view highlights of issues discussed at the SEC Regulations Committee joint meetings with SEC staff, go to the CAQ Web page at http://thecaq.aicpa.org/Resources/SEC+Regulations+Committee/SEC+Regulations+Committee+Highlights.htm.

.106 The International Practices Task Force (IPTF) is a task force of the SEC Regulations Committee. IPTF also meets periodically with the staff of the SEC to discuss and focus on international emerging technical accounting and reporting issues relating to SEC rules and regulations. The mission of the IPTF is to protect investors by improving the quality of public-company financial reporting by identifying, discussing, and facilitating resolution of issues relating to the promulgation, interpretation, and application of SEC rules, regulations, and policies with the assistance of the SEC staff and communicating those matters publicly on a timely basis. You can visit the IPTF Web page at http://thecaq.aicpa.org/Resources/International+Practices+Task+Force/ for more information.

Current Accounting Issues and Risks—2005/06

STRENGTHENING FINANCIAL REPORTING

NOTICE TO READERS
CURRENT ACCOUNTING ISSUES AND RISKS—2005/06

This Financial Reporting Alert is intended to provide accountants with an overview of recent economic, industry, technical, and professional developments that may affect their financial reporting.

This document has not been approved, disapproved, or otherwise acted on by a senior technical committee of the AICPA.

AICPA Staff

How This Alert Can Help You

.01 The knowledge that this Financial Reporting Alert delivers can assist you in achieving a more robust understanding of the business environment in which your company operates. Also, this Alert delivers information about current accounting and regulatory developments.

New Pronouncements and Other Guidance

Recent Accounting Pronouncements and Related Guidance

.02 Presented below is a list of accounting pronouncements and other guidance issued since last fall. For information on accounting standards issued subsequent to the writing of this Alert, please refer to the AICPA Web site at www.aicpa.org, and the Financial Accounting Standards Board (FASB) Web site at www.fasb.org. You may also look for announcements of newly issued standards in the *CPA Letter* and *Journal of Accountancy*.

FASB Statement of Financial Accounting Standards No. 152 (December 2004)	*Accounting for Real Estate Time-Sharing Transactions—an amendment of FASB Statements No. 66 and 67* This Statement amends FASB Statement No. 66, *Accounting for Sales of Real Estate*, to reference the financial accounting and reporting guidance for real estate time-sharing transactions that is provided in AICPA Statement of Position (SOP) 04-2, *Accounting for Real Estate Time-Sharing Transactions*. This Statement also amends FASB Statement No. 67, *Accounting for Costs and Initial Rental Operations of Real Estate Projects*, to state that the guidance for (*a*) incidental operations and (*b*) costs incurred to sell real estate projects does not apply to real estate time-sharing transactions. The accounting for those operations and costs is subject to the guidance in SOP 04-2.

(continued)

FASB Statement No. 153 (December 2004)	*Exchanges of Nonmonetary Assets—an amendment of APB Opinion No. 29* (See summary that follows in this section.)
FASB Statement No. 123(R) (December 2004)	*Share-Based Payment* (See summary that follows in this section.)
FASB Statement No. 154 (May 2005)	*Accounting Changes and Error Corrections—a replacement of APB Opinion No. 20 and FASB Statement No. 3* (See summary that follows in this section.)
FASB Interpretation No. 47 (March 2005)	*Accounting for Conditional Asset Retirement Obligations—an interpretation of FASB Statement No. 143* This Interpretation clarifies that the term *conditional asset retirement obligations* describes a legal obligation to perform an asset retirement activity in which the timing and/or method of settlement are conditional on a future event that may not be under the entity's control.
FASB EITF Issues (Various dates)	Go to www.fasb.org/eitf/ for a complete list of EITF Issues.
FASB Staff Positions (Various dates)	Go to www.fasb.org/fasb_staff_positions/ for a complete list of FASB Staff Positions (FSPs). Some of the recently issued FSPs address issues relating to FASB Statements No. 123(R), No. 13, No. 115, No. 124, and No. 150, among others, as well as to FASB Interpretation No. 46(R).
AICPA SOP 05-1	*Accounting by Insurance Enterprises for Deferred Acquisition Costs in Connection With Modifications or Exchanges of Insurance Contracts*
AICPA Technical Practice Aid (TPA) section 1200.06–1200.15 (February 2005) (Nonauthoritative)	"Accounting by Noninsurance Enterprises for Property and Casualty Insurance Arrangements That Limit Insurance Risk"
AICPA TPA section 5400.05 (September 2005) (Nonauthoritative)	"Accounting and Disclosures Guidance for Losses from Natural Disasters—Nongovernmental Entities"
AICPA TPA section 6930.09 (August 2005) (Nonauthoritative)	"Accounting and Disclosure Requirements for Single-Employer Employee Benefit Plans Related to the Medicare Prescription Drug, Improvement and Modernization Act of 2003"

AICPA TPA section 6930.10 (August 2005) (Nonauthoritative)	"Accounting and Disclosure Requirements for Multiemployer Employee Benefit Plans Related to the Medicare Prescription Drug, Improvement and Modernization Act of 2003"

.03 Some of the standards are summarized in the following sections. These summaries are for informational purposes only and should not be relied upon as a substitute for a complete reading of the applicable standard.

FASB Statement No. 153, *Exchanges of Nonmonetary Assets—an amendment of APB Opinion No. 29*

.04 In December 2004, the FASB issued FASB Statement No. 153, *Exchanges of Nonmonetary Assets—an amendment of APB Opinion No. 29*. The guidance in Accounting Principles Board (APB) Opinion No. 29, *Accounting for Nonmonetary Transactions*, is based on the principle that exchanges of nonmonetary assets should be measured based on the fair value of the assets exchanged. The guidance in that Opinion, however, included certain exceptions to that principle. This Statement amends APB Opinion No. 29 to eliminate the exception for nonmonetary exchanges of similar productive assets and replaces it with a general exception for exchanges of nonmonetary assets that do not have commercial substance. A nonmonetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange.

.05 FASB Statement No. 153 is effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005 (prospective application).

FASB Statement No. 123 (Revised), *Share-Based Payment*

.06 This Statement is a revision of FASB Statement No. 123, *Accounting for Stock-Based Compensation*. This Statement supersedes APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and its related implementation guidance.

.07 This Statement establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. This Statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. This Statement does not change the accounting guidance for share-based payment transactions with parties other than employees provided in FASB Statement No. 123 as originally issued and Emerging Issues Task Force (EITF) Issue No. 96-18, "Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring, or in Conjunction With Selling, Goods or Services." This Statement does not address the accounting for employee share ownership plans, which are subject to AICPA SOP 93-6, *Employers' Accounting for Employee Stock Ownership Plans*.

.08 A nonpublic entity will measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of those instruments, except in certain circumstances. Specifically, if it is not possible to reasonably estimate the fair value of equity share options and similar instruments because it is not practicable to estimate the expected volatility of the entity's share price, a nonpublic entity is required to measure its awards of equity share options and similar instruments based on a value calculated using the historical volatility of an appropriate industry sector index instead of the expected volatility of its share price.

.09 A nonpublic entity may elect to measure its liability awards at their intrinsic value through the date of settlement.

.10 The grant-date fair value of employee share options and similar instruments will be estimated using option-pricing models adjusted for the unique characteristics of those instruments (unless observable market prices for the same or similar instruments are available). If an equity award is modified after the grant date, incremental compensation cost will be recognized in an amount equal to the excess of the fair value of the modified award over the fair value of the original award immediately before the modification.

.11 Excess tax benefits, as defined by this Statement, will be recognized as an addition to paid-in capital. Cash retained as a result of those excess tax benefits will be presented in the statement of cash flows as financing cash inflows. The write-off of deferred tax assets relating to unrealized tax benefits associated with recognized compensation cost will be recognized as income tax expense unless there are excess tax benefits from previous awards remaining in paid-in capital to which it can be offset.

.12 The notes to financial statements will disclose information to assist users of financial information to understand the nature of share-based payment transactions and the effects of those transactions on the financial statements.

.13 This Statement eliminates the alternative to use APB Opinion No. 25's intrinsic value method of accounting that was provided in FASB Statement No. 123 as originally issued. Under APB Opinion No. 25, issuing stock options to employees generally resulted in recognition of no compensation cost. This Statement requires entities to recognize the cost of employee services received in exchange for awards of equity instruments based on the grant-date fair value of those awards (with limited exceptions). Recognition of that compensation cost helps users of financial statements to better understand the economic transactions affecting an entity and to make better resource allocation decisions. Such information specifically will help users of financial statements understand the effect that share-based compensation transactions have on an entity's financial condition and results of operations. This Statement also will improve comparability by eliminating one of two different methods of accounting for share-based compensation transactions and thereby also will simplify existing U.S. generally accepted accounting principles (GAAP). Eliminating different methods of accounting for the same transactions leads to improved comparability of financial statements because similar economic transactions will be accounted for similarly.

.14 The fair-value-based method in this Statement is similar to the fair-value-based method in FASB Statement No. 123 in most respects. However, the following are the key differences between the two:

- Nonpublic entities may elect to measure their liabilities to employees incurred in share-based payment transactions at their intrinsic value. Under FASB Statement No. 123, all share-based payment liabilities were measured at their intrinsic value.
- Nonpublic entities are required to account for awards of equity instruments using the fair-value-based method unless it is not possible to reasonably estimate the grant-date fair value of awards of equity share options and similar instruments because it is not practicable to estimate the expected volatility of the entity's share price. In that situation, the entity will account for those instruments based on a value calculated by substituting the historical volatility of an appropriate industry sector index for the expected volatility of its share price. FASB Statement No. 123 permitted a nonpublic entity to measure its equity awards using either the fair-value-based method or the minimum value method.
- Entities are required to estimate the number of instruments for which the requisite service is expected to be rendered. FASB Statement No. 123 permitted entities to account for forfeitures as they occur.
- Incremental compensation cost for a modification of the terms or conditions of an award is measured by comparing the fair value of the modified award with the fair value of the award immediately

before the modification. FASB Statement No. 123 required that the effects of a modification be measured as the difference between the fair value of the modified award at the date it is granted and the award's value immediately before the modification determined based on the shorter of (*a*) its remaining initially estimated expected life or (*b*) the expected life of the modified award.

- This Statement also clarifies and expands FASB Statement No. 123's guidance in several areas, including measuring fair value, classifying an award as equity or as a liability, and attributing compensation cost to reporting periods.
- In addition, this Statement amends FASB Statement No. 95, *Statement of Cash Flows*, to require that excess tax benefits be reported as a financing cash inflow rather than as a reduction of taxes paid.

.15 This Statement is effective for nonpublic entities as of the beginning of the first annual reporting period that begins after December 15, 2005.

.16 This Statement applies to all awards granted after the required effective date and to awards modified, repurchased, or cancelled after that date. The cumulative effect of initially applying this Statement, if any, is recognized as of the required effective date.

.17 As of the required effective date, all entities that used the fair-value-based method for either recognition or disclosure under FASB Statement No. 123 will apply this Statement using a modified version of prospective application. Under that transition method, compensation cost is recognized on or after the required effective date for the portion of outstanding awards for which the requisite service has not yet been rendered, based on the grant-date fair value of those awards calculated under FASB Statement No. 123 for either recognition or pro forma disclosures. For periods before the required effective date, those entities may elect to apply a modified version of retrospective application under which financial statements for prior periods are adjusted on a basis consistent with the pro forma disclosures required for those periods by FASB Statement No. 123. Nonpublic entities that used the minimum value method in FASB Statement No. 123 for either recognition or pro forma disclosures are required to apply the prospective transition method as of the required effective date.

.18 The FASB has also issued three FSPs related to FASB Statement No. 123(R). They are as follows:

- FSP FAS 123(R)-1, "Classification and Measurement of Freestanding Financial Instruments Originally Issued in Exchange for Employee Services under FASB Statement No. 123(R)" (Issued August 2005)
- FSP FAS 123(R)-2, "Practical Accommodation to the Application of Grant Date as Defined in FASB Statement No. 123(R)" (Issued October 2005)
- FSP FAS 123(R)-3, "Transition Election Related to Accounting for the Tax Effects of Share-Based Payment Awards" (Issued November 2005)

You should refer to the FASB Web site at www.fasb.org for additional information.

FASB Statement No. 154, *Accounting Changes and Error Corrections—a replacement of APB Opinion No. 20 and FASB Statement No. 3*

.19 In May 2005, the FASB issued FASB Statement No. 154, *Accounting Changes and Error Corrections—a replacement of APB Opinion No. 20 and FASB Statement No. 3*. FASB Statement No. 154 replaces APB Opinion No. 20, *Accounting Changes*, and FASB Statement No. 3, *Reporting Accounting Changes in Interim Financial Statements*, and changes the requirements for the accounting for and reporting of a change in accounting principle. This Statement applies to all voluntary changes in accounting principle. It also applies to changes required by an accounting pronouncement in the unusual instance that the pronouncement does not include specific transition provisions. When a pronouncement includes specific transition provisions, those provisions should be followed.

.20 APB Opinion No. 20 previously required that most voluntary changes in accounting principle be recognized by including in net income of the period of the change the cumulative effect of changing to the new accounting principle. This Statement requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. When it is impracticable to determine the period-specific effects of an accounting change on one or more individual prior periods presented, FASB Statement No. 154 requires that the new accounting principle be applied to the balances of assets and liabilities as of the beginning of the earliest period for which retrospective application is practicable and that a corresponding adjustment be made to the opening balance of retained earnings (or other appropriate components of equity or net assets in the statement of financial position) for that period rather than being reported in an income statement. When it is impracticable to determine the cumulative effect of applying a change in accounting principle to all prior periods, this Statement requires that the new accounting principle be applied as if it were adopted prospectively from the earliest date practicable.

.21 FASB Statement No. 154 defines *retrospective application* as the application of a different accounting principle to prior accounting periods as if that principle had always been used or as the adjustment of previously issued financial statements to reflect a change in the reporting entity. This Statement also redefines *restatement* as the revising of previously issued financial statements to reflect the correction of an error.

.22 In addition, FASB Statement No. 154 requires that:

- Retrospective application of a change in accounting principle be limited to the direct effects of the change. Indirect effects of a change in accounting principle, such as a change in nondiscretionary profit-sharing payments resulting from an accounting change, should be recognized in the period of the accounting change.
- A change in depreciation, amortization, or depletion method for long-lived, nonfinancial assets be accounted for as a change in accounting estimate effected by a change in accounting principle.

.23 This Statement carries forward without change the guidance contained in APB Opinion No. 20 for reporting the correction of an error in previously issued financial statements and a change in accounting estimate. This Statement also carries forward the guidance in APB Opinion No. 20 requiring justification of a change in accounting principle on the basis of preferability.

.24 FASB Statement No. 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005.

Recent FASB EITF Issues and FSPs

.25 The FASB is very active in issuing EITF Issues and FSPs. You should visit the FASB Web site to stay abreast of these many issues and understand those accounting requirements that may pertain to your company's financial statements. Listed below are selected EITF Issues and FSPs that have been issued recently and may have a broad interest.

EITF Issue or FSP	*Title*
EITF Issue No. 01-9	"Accounting for Consideration Given by a Vendor to a Customer (Including a Reseller of the Vendor's Products)"
EITF Issue No. 03-1	"The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments"
EITF Issue No. 03-13	"Applying the Conditions in Paragraph 42 of FASB Statement No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, in Determining Whether to Report Discontinued Operations"

EITF Issue or FSP	*Title*
EITF Issue No. 04-1	"Accounting for Preexisting Relationships between the Parties to a Business Combination"
EITF Issue No. 04-5	"Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights"
EITF Issue No. 04-10	"Determining Whether to Aggregate Operating Segments That Do Not Meet the Quantitative Thresholds"
EITF Issue No. 04-13	"Accounting for Purchases and Sales of Inventory with the Same Counterparty"
EITF Issue No. 05-6	"Determining the Amortization Period for Leasehold Improvements"
FSP FAS 13-1	"Accounting for Rental Costs Incurred during a Construction Period"
FSP FAS 115-1 and FAS 124-1	"The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments"
FSP FAS 123(R)-1	"Classification and Measurement of Freestanding Financial Instruments Originally Issued in Exchange for Employee Services under FASB Statement No. 123(R)"
FSP FAS 123(R)-2	"Practical Accommodation to the Application of Grant Date as Defined in FASB Statement No. 123(R)"
FSP FAS 123(R)-3	"Transition Election Related to Accounting for the Tax Effects of Share-Based Payment Awards"
FSP FAS 140-2	"Clarification of the Application of Paragraphs 40(b) and 40(c) of FASB Statement No. 140"
FSP 150-5	"Issuer's Accounting under FASB Statement No. 150 for Freestanding Warrants and Other Similar Instruments on Shares That Are Redeemable"
FSP FIN 45-3	"Application of FASB Interpretation No. 45 to Minimum Revenue Guarantees Granted to a Business or Its Owners"
FSP FIN 46(R)-5	"Implicit Variable Interests under FASB Interpretation No. 46(R)"
FSP APB 18-1	"Accounting by an Investor for Its Proportionate Share of Accumulated Other Comprehensive Income of an Investee Accounted for under the Equity Method in Accordance with APB Opinion No. 18 upon a Loss of Significant Influence"

Present Business and Economic Developments That May Affect Your Company

Rising Interest Rates, Rising Energy Costs, Rising Debt Levels, and a Softening Housing Boom

.26 A number of serious threats to the economy and business environment exist. They include:

- Rising interest rates. Remember that approximately half of all U.S. corporate debt outstanding has floating interest rates. Moreover, trillions of dollars worth of derivatives exist, many of which are based on interest rates.
- Soaring gasoline prices. Rising prices threaten a key pillar of the U.S. economy—consumer spending.
- Dangerously high and rising consumer debt levels.
- A softening housing boom in some markets.

Although the economy has been performing nicely, these threats could derail economic growth, possibly affecting your company's business and financial condition.

Hurricanes Katrina and Rita—Accounting Considerations

.27 Hurricanes Katrina and Rita, which severely damaged the Gulf Coast region, present unique issues to accountants. In addition, Katrina and Rita will likely cause disruption to the nation's near-term economic growth, inasmuch as the hurricanes inflicted severe damage to key areas of the nation's energy and shipping infrastructure. However, significant long-term economic effects are not expected. Beyond the possible economic impact the hurricanes may have, accountants should be aware of the issues and information presented here.

Accounting Considerations

.28 As companies assess Katrina and Rita's financial impact on their operations, management will need to properly report the impact in their financial statements. The following questions may arise for losses incurred as a result of the hurricanes:

1. How should losses from a natural disaster of a type that is reasonably expected to reoccur be classified in the statement of operations?
2. When should an asset impairment loss related to a natural disaster be recognized?
3. When should a liability for nonimpairment losses and costs related to a natural disaster be recognized?
4. What is the accounting for insurance recoveries to cover losses sustained in a natural disaster? Also, what are the additional considerations related to business interruption insurance recoveries?
5. What are the required disclosures regarding the impact of a natural disaster?

.29 The AICPA has issued TPA section 5400.05, "Accounting and Disclosures Guidance for Losses from Natural Disasters—Nongovernmental Entities." This guidance answers the above questions and can be obtained at www.aicpa.org/download/acctstd/Natural_disaster_TPA_5400.05.pdf.

.30 The guidance in TPA section 5400.05 states that a natural disaster of a type that is reasonably expected to recur would not meet the conditions of classifying the losses as "extraordinary" in the income statement. The magnitude of loss from a particular natural disaster does not cause that disaster to be unusual in nature or unlikely to recur (the two conditions for an extraordinary item). As of the writing of this Alert, indications are the FASB will conclude that losses from the hurricanes should not be classified as extraordinary. Readers should keep alert to any statements from the FASB on this matter.

Securities and Exchange Commission, IRS, and Department of Labor Activities Related to the Hurricanes

.31 The Securities and Exchange Commission (SEC), the IRS, and the Department of Labor (DOL) are providing relief to victims of the hurricanes in various ways, such as extension of filing deadlines, exemptions from filing requirements, and tax relief. Visit the SEC, IRS, and DOL Web sites at www.sec.gov, www.irs.gov, and www.dol.gov for further information.

Other AICPA Activities Related to Katrina

.32 In addition to the activities previously discussed, the AICPA has implemented several relief efforts and is reaching out to members in the Gulf Coast to help with relief efforts. A Disaster Recovery Resource Center has been established at www.aicpa.org/news/2005/disaster_recovery_resources.htm. This site is full of many resources and information about relief activities related to Katrina, including a disaster response checklist to help financial executives navigate through the complicated task of disaster recovery. The checklist, entitled "Disaster Response: What to Do First—A Checklist for CFOs and Controllers," outlines the issues that need to be addressed including ensuring employee safety, maintaining operations, and evaluating the company's financial situation.

Risks to Developing Economies

.33 Skyrocketing energy costs are threatening many developing economies. Developing economies, especially in Asia (for example, Indonesia, India, Philippines, Thailand, and South Korea), rely heavily on oil and gas. They also import a great deal of that energy. These developing nations spend heavily to subsidize energy prices. As they spend increasing amounts of money, the buying power and soundness of their currencies erode. These nations then face great pressure to raise interest rates to restore the value of their currencies and keep inflation in check. These factors could undermine investor confidence in these developing economies and cause an economic downturn. Energy subsidies were an issue in the 1997 and 1998 Asian economic crisis. Accountants may want to keep an eye on these developing economies. If serious economic difficulty develops, accountants may need to consider the effect such events would have on the company's financial condition. Some of the risks or issues that may need to be considered include the following:

- Economic downturns in foreign economies directly affect the U.S. economy and the business and financial health of U.S. companies.
- Manufacturers, oil producers, ranchers, farmers, high-technology companies, and aerospace businesses are some of the industries that could be affected negatively.
- U.S. companies that have links to countries experiencing economic trouble may see their stock prices lose substantial value.
- Greater risk may exist for entities involved in derivatives, assets, and foreign-currency transactions related to countries embroiled in economic hardships.
- Serious economic difficulty abroad may result in a greater risk of current vulnerability due to certain concentrations.

.34 Accountants involved in financial reporting may need to perform the following if the company is affected by any of these risks or issues:

- Accountants may need to assess the performance of assets and derivatives related to economically troubled nations.
- Accountants may need to consider the appropriate accounting and required disclosures relating to foreign currency translation, transactions arising from the translation of asset and liability positions, and revenue and expense transactions in currencies other than U.S. dollar pursuant to FASB Statement No. 52, *Foreign Currency*.
- Accountants may need to appropriately evaluate the risk of current vulnerabilities due to certain concentrations. Also, accountants should comply with the requirements of SOP 94-6, *Disclosure of Certain Significant Risks and Uncertainties*, if applicable.
- Accountants may need to evaluate related contingencies arising from economic troubles abroad, pursuant to FASB Statement No. 5, *Accounting for Contingencies*.

Underfunded Pension Plans and Other Considerations in Pension Plan Accounting

.35 Many companies across all industries are facing a mounting crisis—underfunded pension plans. A recent Government Accountability Office (GAO) report stated that more than half of the 29,000 private pension plans insured by the federal Pension Benefit Guaranty Corporation (PBGC) were underfunded, and a quarter of the plans were less than 90 percent funded. Simply put, many companies have defined benefit plans in which the obligations owed to retirees exceed the assets in the plans. These companies are faced with pouring large amounts of cash into those plans to meet legal requirements and make up the shortfall. As this crisis worsens, a number of companies are opting to terminate their pension plans.

.36 In addition, many companies have been updating and changing the assumptions they use in accounting for pension plans and other postretirement benefit plans to reflect a changing economic environment.

.37 From a financial reporting perspective, management needs to continuously monitor the key assumptions used in measuring pension benefit obligations, returns on plan assets, and periodic service cost. Principal actuarial assumptions include discount rates, participation rates, and factors affecting the amount and timing of future benefit payments. Changes to key assumptions, even small changes, can significantly affect a company's earnings and financial statements. FASB Statements No. 87, *Employers' Accounting for Pensions*, and No. 106, *Employers' Accounting for Postretirement Benefits Other Than Pensions*, indicate that each assumption shall reflect the best estimate solely with respect to that individual assumption on the applicable measurement date. Certain financial statement disclosures may be required and if activity within an existing plan, such as earnings or returns on invested plan assets, has a material impact on the company's liquidity, capital resources, or results of operations, that activity should be discussed in Management's Discussion and Analysis (MD&A).

Classification of Payments Related to Settlement of Pension Liabilities

.38 Contributions to pension plans are reported as operating cash flows because they relate to employee compensation, an item reported as an expense in the income statement. Companies that have entered into agreements with the PBGC typically make payments to the PBGC related to the defined benefit plans that were assumed by the PBGC. Despite the fact that payments made to the PBGC may continue for several years, the cash outflows should not be classified as financing activities in the statement of cash flows.

New Bankruptcy Law's Effect on Small Businesses

.39 The Bankruptcy Abuse Prevention and Consumer Protection Act of 2005 was signed into law on April 20, 2005. For small businesses, the new law contains special bankruptcy provisions and is both positive and negative. On the positive side, small businesses will be able to collect debts from individuals and other businesses who have filed for bankruptcy. On the negative side, small businesses that wish to reorganize under the Chapter 11 bankruptcy law will find it more difficult, and more small businesses may not survive bankruptcy.

Other Accounting Issues and Developments

> **Help Desk**—See the "New Pronouncements and Other Guidance" section of this Alert for information about recently issued accounting guidance.

.40 Presented in the following sections are discussions about accounting topics that are of particular interest lately or that have been identified as areas that some accountants have been improperly treating in the financial statements.

Finite Insurance Accounting Risks

.41 Recently, a number of issues have arisen concerning the determination of whether an insurance or reinsurance contract transfers significant insurance (reinsurance) risk. The determination of significant risk transfer is necessary to determine whether the contract is accounted for as an insurance or reinsurance arrangement or whether it is accounted for as a financing arrangement (similar to a loan). These issues have been at the heart of some recent large accounting scandals, in which certain companies improperly treated transactions as insurance, when evidence of risk transfer was lacking. By improperly treating these transactions as insurance, the companies were able to spruce up their financial statements.

.42 Finite insurance, in its most common form, involves a company paying very large premiums to an insurer. These premiums come close to the maximum coverage. If the claim losses end up being less than the premiums, the insurer returns the excess premiums to the company. The insurance company receives a fee and may not risk severe loss if the premiums are very large. The question arises as to whether risk was truly transferred to the insurer.

Accounting Guidance

.43 Paragraph 44 of FASB Statement No. 5, *Accounting for Contingencies*, requires that all insurance and reinsurance contracts indemnify the insured against loss or liability. FASB Statement No. 113, *Accounting and Reporting for Reinsurance of Short-Duration and Long-Duration Contracts*, provides further guidance for determining the transfer of significant insurance risk for reinsurance arrangements. Those contracts that do not transfer significant insurance risk are accounted for as deposits (similar to a financing or loan, with loan repayments taking the form of periodic insurance premium payments).

.44 Regardless of whether a policyholder is a noninsurance or insurance enterprise, an insurance (or reinsurance) contract qualifies for insurance accounting only to the extent that it indemnifies or transfers significant insurance risk from the policyholder to the insurer.

FASB Project Underway to Address Insurance Risk Transfer

.45 The FASB is developing guidance to clarify what constitutes transfer of significant insurance risk in insurance and reinsurance contracts. The project's objective is to define an insurance contract and provide further assistance in identifying those contracts that transfer significant insurance risk. In addition, this project is exploring the notion of bifurcation of insurance contracts into risk transfer and financing segments for purposes of establishing the appropriate accounting for those contract segments.

Expensing Stock Options and Complying With FASB Statement No. 123(R)

.46 As the compliance deadline nears, management at many companies will be adopting the requirements of FASB Statement No. 123(R), *Accounting for Stock-Based Compensation*, and expensing their stock options. The effect on a company's financial statements of expensing stock options could be significant. Data suggests that approximately 20 percent of reported earnings of many corporations would be erased if they had expensed their stock options. Other pronouncements related to FASB Statement No. 123(R) have been issued, including:

- *SEC Staff Accounting Bulletin (SAB) No. 107*. This SAB summarizes the views of the SEC staff regarding the interaction between FASB Statement No. 123(R) and certain SEC rules and regulations and provides the SEC staff's views regarding the valuation of share-based payment arrangements for public companies.
- *FASB Staff Position (FSP) FAS 123(R)-1, "Classification and Measurement of Freestanding Financial Instruments Originally Issued in Exchange for Employee Services under FASB Statement No. 123(R)."*

- *FSP FAS 123(R)-2, "Practical Accommodation to the Application of Grant Date as Defined in FASB Statement No. 123 (R)."*
- *FSP FAS 123(R)-3, "Transition Election Related to Accounting for the Tax Effects of Share-Based Payment Awards."*
- *SEC Staff Progress Report on Market Approaches to Valuing Employee Stock Options Under SFAS 123R.* This document reports on the SEC's progress in evaluating proposals to value employee stock options.

SEC Statements on Use of Market Instruments to Value Stock Options for FASB Statement No. 123(R)

.47 The SEC Staff Progress Report provides useful information related to the valuation of employee stock options. Among other matters, the documents contained in the progress report state:

- "[W]e have significant doubts based on OEA's [the SEC's Office of Economic Analysis] views as to whether it would be possible to design an instrument that would achieve the measurement objective of Statement 123R by relying on similar contractual terms and conditions." [*Chief Accountant's Statement*]
- "[O]ur analysis indicates that instruments that replicate the terms and conditions of employee stock options or other share-based compensation do not produce reasonable estimates of fair value." [*Office of Economic Analysis*]
- "Differences between the preferences of employees and investors will generally prevent their exercise behaviors from being similar." [*Office of Economic Analysis*]
- "We conclude that the terms-and-conditions approach to the design of a market instrument does not yield a transaction price that is a reasonable measure of the cost of the option grant to the issuer and, thus, will not meet the fair value measurement objective of the standard." [*Office of Economic Analysis*]

If stock option accounting is an issue for your company, you should be familiar with FASB Statement No. 123(R) and its related pronouncements and comply with all requirements.

Buy/Sell Arrangements/Purchases and Sales of Inventory With the Same Counterparty

.48 Buy/sell transactions typically involve contractual arrangements that establish the terms of the agreements to buy and sell a commodity either jointly in a single contract, or separately in individual contracts that are entered into concurrently or in contemplation of one another with a single counterparty. There may be provisions accommodating differences in quantities or grades, receipt and delivery locations, and stipulating that monetary consideration accompany the exchange. Such arrangements may be employed to facilitate the procurement of feedstock for a refinery operation, or to otherwise manage the supply chain or inventory in general. Some companies may find it necessary to enter into a series of these transactions with different counterparties in an effort to obtain a given quantity of feedstock or inventory for a single location. These arrangements are undertaken due to market forces of supply and demand, and they may serve to increase the efficiency with which transportation assets are utilized or to reduce the overall cost of acquiring inventory.

Accounting Guidance

.49 Questions have been raised regarding the accounting for these types of transactions, including:

1. Under what circumstances should two or more transactions with the same counterparty (counterparties) be viewed as a single nonmonetary transaction within the scope of APB Opinion No. 29?

2. If nonmonetary transactions within the scope of APB Opinion No. 29 involve inventory, are there any circumstances under which the transactions should be recognized at fair value?

.50 The FASB has issued EITF Issue No. 04-13, "Accounting for Purchases and Sales of Inventory with the Same Counterparty," which addresses these accounting issues. In addition, the SEC staff has issued letters to certain registrants on the accounting, presentation, and disclosure of buy/sell transactions. An example of the letter is posted on the SEC's Web site at www.sec.gov/divisions/corpfin/guidance/oilgas021105.htm. Registrants who engage in buy/sell transactions should provide the disclosure requested in the sample letter.

Leasing-Related Errors and Restatements

.51 There have been a number of restatements for lease accounting in the following areas: (*a*) amortization of leasehold improvements by a lessee in an operating lease with lease renewals, (*b*) the pattern of recognition of rent when the lease term in an operating lease contains a period where there are free or reduced rents (commonly referred to as "rent holidays"), and (*c*) incentives related to leasehold improvements provided by a landlord/lessor to a tenant/lessee in an operating lease. Presented here is accounting guidance related to these three areas, as communicated recently by the SEC staff.

Amortization of Leasehold Improvements

.52 Leasehold improvements in an operating lease should be amortized by the lessee over the shorter of their economic lives or the lease term, as defined in paragraph 5(f) of FASB Statement No. 13, *Accounting for Leases*, as amended. Amortizing leasehold improvements over a term that includes assumption of lease renewals is appropriate only when the renewals have been determined to be *reasonably assured*, as that term is contemplated by FASB Statement No. 13.

Rent Holidays

.53 Pursuant to the response in paragraph 2 of FASB Technical Bulletin (FTB) 85-3, *Accounting for Operating Leases with Scheduled Rent Increases*, rent holidays in an operating lease should be recognized by the lessee on a straight-line basis over the lease term (including any rent holiday period) unless another systematic and rational allocation is more representative of the time pattern in which leased property is physically employed.

Landlord/Tenant Incentives

.54 Leasehold improvements made by a lessee that are funded by landlord incentives or allowances under an operating lease should be recorded by the lessee as leasehold improvement assets and amortized over a term consistent with the guidance in the section in this Alert titled "Amortization of Leasehold Improvements."

.55 The incentives should be recorded as deferred rent and amortized as reductions to lease expense over the lease term in accordance with paragraph 15 of FASB Statement No. 13 and the response to Question 2 of FTB 88-1, *Issues Relating to Accounting for Leases*, and therefore, it is inappropriate to net the deferred rent against the leasehold improvements.

.56 A company's statement of cash flows should reflect cash received from the lessor that is accounted for as a lease incentive within operating activities and the acquisition of leasehold improvements for cash within investing activities. Evaluating when improvements should be recorded as assets of the lessor or assets of the lessee may require significant judgment.

Revenue Arrangements With Multiple Deliverables

.57 Numerous entities need to comply with the requirements of FASB EITF Issue No. 00-21, "Revenue Arrangements with Multiple Deliverables." Many companies offer multiple solutions to their customers' needs. Those solutions may involve the delivery or performance of multiple products, services, or rights to use assets, and performance may occur at different points in time or over different periods of time. In these situations, accounting for the revenue related to those terms can be complicated.

.58 EITF Issue No. 00-21 addresses how to determine whether an arrangement involving multiple deliverables contains more than one unit of accounting. In applying this Issue, separate contracts with the same entity or related parties that are entered into at or near the same time are presumed to have been negotiated as a package and should, therefore, be evaluated as a single arrangement in considering whether there are one or more units of accounting. That presumption may be overcome if there is sufficient evidence to the contrary. This Issue also addresses how arrangement consideration should be measured and allocated to the separate units of accounting in the arrangement. Readers should refer to the full text of the Issue to understand all of its requirements.

Guidance on Impairment of Investments—Update on EITF Issue No. 03-1

.59 In 2004, to answer questions on evaluating other-than-temporary impairment, the FASB issued EITF Issue No. 03-1, "The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments." The project included two stages. The first, a disclosure stage, included additional numerical and narrative disclosures for debt and marketable equity securities that have unrealized losses. The second stage included specific measurement and impairment accounting guidance.

Disclosures

.60 In summary, for investments accounted for under paragraph 5(b) and for investments with unrealized losses that have not been recognized as other than temporary, one needs to disclose in tabular form, aggregated unrealized losses by category of investment and the related fair value of those investments. Additionally, these disclosures need to be segregated by current and noncurrent status. Finally, additional, narrative information should be provided, sufficient to allow financial statement users to understand the quantitative disclosures and the information that the investor considered (both positive and negative) in reaching the conclusion that the impairments are not other than temporary. There are also additional disclosures for cost method investments, if applicable. For specific instructions, see the EITF Issue.

Impairment Evaluation

.61 The second stage included accounting guidance, which was set to be effective for reporting periods beginning after June 15, 2004. However, when entities started to put the impairment requirements of the EITF into practice, a number of issues became problematic.

.62 In response to concerns, the FASB issued FSP EITF Issue No. 03-1-1, "Effective Date of Paragraphs 10-20 of EITF Issue No. 03-1," which delayed the recognition and measurement guidance contained in paragraphs 10 through 20 of EITF Issue No. 03-1. The FASB also issued proposed FSP EITF Issue No. 03-1-a, "Implementation Guidance for the Application of Paragraph 16 of EITF Issue No. 03-1," which was renamed and issued as final in November 2005 as FSP FAS 115-1 and FAS 124-1, "The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments." This FSP nullifies certain requirements of EITF Issue No. 03-1 and supersedes EITF Topic No. D-44, "Recognition of Other-Than-Temporary Impairment upon the Planned Sale of a Security Whose Cost Exceeds Fair Value." This FSP specifically:

1. Nullifies the requirements of paragraphs 10–18 of EITF Issue No. 03-1
2. Carries forward the requirements of paragraphs 8 and 9 of EITF Issue No. 03-1 with respect to cost-method investments

3. Carries forward the disclosure requirements included in paragraphs 21 and 22 of EITF Issue No. 03-1 and related examples

4. References existing other-than-temporary impairment guidance

.63 This FSP is effective for other-than-temporary impairment analyses conducted in periods beginning after December 15, 2005.

Reminder About the Classification of Cash Receipts From Inventory Sales

.64 Companies may finance the sale of inventory in various ways, such as on account or with a note or sales-type lease receivable (whether long or short term), using various entities in the consolidated group. Paragraph 22a of FASB Statement No. 95, *Statement of Cash Flows*, states that cash receipts from the sales of goods or services are operating cash flows. Paragraph 22a clarifies that classification as an operating activity is required regardless of whether those cash flows stem from the collection of the receivable from the customer or the sale of the customer receivable to others, regardless of whether those receivables are on account or stem from the issuance of a note, and regardless of whether they are collected in the short term or the long term.

.65 Presenting cash flows between a company and its consolidated subsidiaries as an investing cash outflow and an operating cash inflow when there has not been a cash inflow to the company on a consolidated basis from the sale of inventory is not in accordance with GAAP. Similarly, presenting cash receipts from receivables generated by the sale of inventory as investing activities in the company's consolidated statements of cash flows is not in accordance with GAAP.

.66 Management should ensure that footnote disclosure identifies where the cash flows related to the sale of inventory are classified in the consolidated statements of cash flows and explains the nature of the receivables/notes/loans and where the cash flows from these transactions are classified in the consolidated statements of cash flows. Management should also ensure that the line item descriptors on the consolidated statements of cash flows are consistent with those on the consolidated balance sheets and in the financial statement footnotes detailing the components of finance receivables.

Internal Control Deficiencies—Learning From Reported 404 Flaws

.67 Internal control deficiencies reported by public companies, in accordance with regulations related to the Sarbanes-Oxley Act of 2002 (that is, section 404), have been numerous. Looking at the kinds of control weaknesses being reported can be informative to management. Some of those common control weaknesses include:

- Approximately half of internal control weaknesses reported relate to financial systems and procedures. These weaknesses often related to the financial closing process, account reconciliation, and inventory processes.

- Personnel issues, such as unqualified or inadequate finance staffs, were common.

- Other weaknesses related to documentation, revenue recognition, IT systems and controls, lease accounting, and tax accounting.

On The Horizon

.68 You should keep abreast of accounting developments and upcoming guidance that may affect your company. You should check the appropriate standard-setting Web sites (listed below) for a complete picture of all accounting projects in progress. Presented in this section is brief information about certain projects that are expected to result in final standards in the near future. Remember that exposure drafts are nonauthoritative and cannot be used as a basis for changing GAAP or generally accepted auditing standards (GAAS).

.69 The following table lists the various standard-setting bodies' Web sites, where information may be obtained on outstanding exposure drafts, including downloading a copy of the exposure draft. These Web sites contain much more in-depth information about proposed standards and other projects in the pipeline.

Standard-Setting Body	*Web Site*
AICPA Accounting Standards Executive Committee (AcSEC)	www.aicpa.org/members/div/acctstd/edo/index.htm
Financial Accounting Standards Board (FASB)	www.fasb.org
Governmental Accounting Standards Board (GASB)	www.gasb.org

Help Desk—The AICPA's standard-setting committees publish exposure drafts of proposed professional standards exclusively on the AICPA Web site (www.aicpa.org). The AICPA will notify interested parties by e-mail about new exposure drafts. To be added to the notification list for all AICPA exposure drafts, send your e-mail address to memsat@aicpa.org. Indicate "exposure draft e-mail list" in the subject header field to help process your submission more efficiently. Include your full name, mailing address and, if known, your membership and subscriber number in the message.

Project on Revenue Recognition

.70 Revenue usually is the largest single item in financial statements, and issues involving revenue recognition are among the most important and difficult that standard setters and accountants face. Because no comprehensive standard on revenue recognition exists, there is a significant gap between the broad conceptual guidance in the FASB's Concepts Statements and the detailed guidance in the authoritative literature. Most of the authoritative literature provides industry or transaction-specific implementation guidance, and it has been developed largely on an ad hoc basis and issued in numerous pronouncements with differing degrees of authority. Those pronouncements include APB Opinions, FASB Statements, AICPA Audit and Accounting Guides, AICPA SOPs, FASB Interpretations, EITF Issues, SEC SABs, and the like. Each focuses on a specific practice problem and has a narrow scope, and the guidance is not always consistent across pronouncements.

.71 The SEC sought to fill the gap in the accounting literature with SAB No. 101, *Revenue Recognition in Financial Statements*, which was issued in December 1999, and the companion document, *Revenue Recognition in Financial Statements—Frequently Asked Questions and Answers*, which was issued in October 2000. SAB No. 101 was superseded by SAB No. 104, *Revenue Recognition*, in December 2003. SAB No. 104 states that if a transaction falls within the scope of specific authoritative literature on revenue recognition, that guidance should be followed; in the absence of such guidance, the revenue recognition criteria in Concepts Statement No. 5, *Recognition and Measurement in Financial Statements of Business Enterprises* (namely, that revenue should not be recognized until it is (*a*) *realized or realizable* and (*b*) *earned*), should be followed. However, SAB No. 104 is more specific, stating additional requirements for meeting those criteria, and reflects the SEC staff's view that the four basic criteria for revenue recognition in AICPA SOP 97-2, *Software Revenue Recognition*, should be a foundation for all basic revenue recognition principles. Those criteria are:

- Persuasive evidence of an arrangement exists.
- Delivery has occurred.

- The vendor's fee is fixed or determinable.
- Collectibility is probable.

.72 Some criticized SAB No. 101 on the basis that the criteria in SOP 97-2 were developed for a particular industry and that broader application of those criteria was neither contemplated nor intended. They asserted that that guidance may not be appropriate for certain recognition issues, including some that the EITF has considered. Others noted that an SAB is designed to provide the SEC staff's interpretive responses and not to change GAAP. For that reason, SABs are issued without an invitation for comment. Critics argued that SAB No. 101 had in fact changed GAAP by promulgating changes in industry practice without the full due process and deliberation that characterize the FASB's decision-making process. Even though the SEC guidance for revenue recognition applies only to SEC registrants, the work done in developing and implementing SAB No. 101 has focused attention on revenue recognition issues and will be very useful in this project.

.73 In response to these issues, the FASB has undertaken a project to develop a comprehensive statement on revenue recognition that is conceptually based and framed in terms of principles. The FASB is partnering with the International Accounting Standards Board (IASB) on this project.

.74 The planned comprehensive revenue recognition Statement will (*a*) eliminate the inconsistencies in the existing authoritative literature and accepted practices, (*b*) fill the voids that have emerged in revenue recognition guidance in recent years, and (*c*) provide a conceptual basis for addressing issues that arise in the future.

Proposed FASB Statements, Interpretations, and Other Guidance

Proposed FASB Statement The Hierarchy of Generally Accepted Accounting Principles

.75 This proposed Statement would identify the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental companies that are presented in conformity with U.S. GAAP (or the GAAP hierarchy). The GAAP hierarchy is currently presented in AICPA AU section 411, *The Meaning of* Present Fairly in Conformity With Generally Accepted Accounting Principles. However, the FASB believes that the GAAP hierarchy should be directed specifically to companies because it is the company, not the auditor, who is responsible for selecting its accounting principles for financial statements. Accordingly, the FASB concluded that the GAAP hierarchy should reside in the accounting literature established by the FASB. The FASB decided to carry forward the GAAP hierarchy as set forth in AU section 411, subject to certain modifications. The proposed Statement would be effective for fiscal periods beginning after September 15, 2005. Readers should be alert for the issuance of a final Statement, which is expected at the end of 2005.

Proposed FASB Statements Business Combinations *and* Consolidated Financial Statements, Including Accounting and Reporting of Noncontrolling Interests in Subsidiaries

.76 In these proposed Statements, the FASB plans to revise the existing guidance on the application of the purchase method. The following are among the main proposals:

1. That all acquisitions of businesses be measured at the fair value of the business acquired.
2. That substantially all of the assets acquired and liabilities assumed of the acquired business be recognized and measured at their fair values at the acquisition date.
3. That entities that follow U.S. GAAP and international standards apply substantially the same accounting requirements for their business combinations.

.77 Exposure drafts on business combinations, purchase method procedures, and noncontrolling interests were issued in mid-2005. The FASB's goal is to issue the two final Standards in the fourth quarter of 2006. The target effective date for the two proposed Statements is for fiscal years beginning on or after December 15, 2006.

Proposed FASB Statements Accounting for Transfers of Financial Assets, Accounting for Servicing of Financial Assets, *and* Accounting for Certain Hybrid Financial Instruments

.78 The exposure draft *Accounting for Transfers of Financial Assets* is a revision of a June 2003 exposure draft, *Qualifying Special-Purpose Entities and Isolation of Transferred Assets*, and would amend FASB Statement No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. The proposed Statement seeks to (*a*) clearly specify the circumstances that require the use of a qualifying special-purpose entity (SPE) in order to derecognize all or a portion of financial assets, (*b*) provide additional guidance on permitted activities of qualifying SPEs, (*c*) eliminate the prohibition on a qualifying SPE's ability to hold passive derivative financial instruments that pertain to beneficial interests held by a transferor, and (*d*) revise the initial measurement of interests related to transferred financial assets held by a transferor. The effective dates associated with this proposed Statement vary; refer to the exposure draft for further information.

.79 The exposure draft *Accounting for Servicing of Financial Assets* would also amend FASB Statement No. 140. The proposed Statement would (*a*) require all separately recognized servicing rights to be initially measured at fair value, if practicable; (*b*) permit an entity to choose between two measurement methods for each class of separately recognized servicing assets and liabilities; and (*c*) require additional disclosures for all separately recognized servicing rights. The proposed Statement would be effective for transactions occurring in the earlier of the first fiscal year beginning after December 15, 2005, or fiscal years that begin during the fiscal quarter in which the Statement is issued.

.80 The proposed Statement *Accounting for Certain Hybrid Financial Instruments* would amend Statement No. 140 and Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*. Specifically, the proposed Statement would (*a*) permit fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation, (*b*) clarify which interest-only strips and principal-only strips are not subject to the requirements of FASB Statement No. 133, (*c*) establish a requirement to evaluate beneficial interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation, (*d*) clarify that concentrations of credit risk in the form of subordination are not embedded derivatives, and (*e*) eliminate restrictions on a qualifying SPE's ability to hold passive derivative financial instruments that pertain to beneficial interests that are themselves or that contain a derivative financial instrument. The proposed Statement would be effective after the earlier of fiscal years beginning after December 15, 2005, or fiscal years that begin during the fiscal quarter in which the Statement is issued.

.81 Readers should be alert for the issuance of final Statements, which is expected in the first quarter of 2006. See the FASB Web site at www.fasb.org for complete information.

Proposed FASB Statement Fair Value Measurements

.82 In June 2004, the FASB published an exposure draft of a proposed Statement, *Fair Value Measurements*, which seeks to establish a framework for measuring fair value that would apply broadly to financial and nonfinancial assets and liabilities, improving the consistency, comparability, and reliability of the measurements. The fair value framework would clarify the fair value measurement objective and its application under authoritative pronouncements that require fair value measurements. The exposure draft would replace any current guidance for measuring fair value in those pronouncements and would expand current disclosures. Readers should be alert for the issuance of a final Statement, which is expected in the fourth quarter of 2005. Refer to the FASB Web site at www.fasb.org for complete information.

Proposed FASB Statement Earnings per Share—an amendment of FASB Statement No. 128

.83 This proposed Statement would amend the computations guidance in FASB Statement No. 128, *Earnings per Share*, for calculating the number of incremental shares included in diluted shares when applying the Treasury stock method. Also, this proposed Statement would eliminate the provisions of Statement No. 128 that allow an entity to rebut the presumption that contracts with the option of settling in either cash or stock will be settled in stock. In addition, this proposed Statement would require that shares that will be issued upon conversion of a mandatorily convertible security be included in the weighted-average number of ordinary shares outstanding used in computing basic earnings per share from the date when conversion becomes mandatory. Readers should be alert for the issuance of a final Statement, which is expected to be released in the first quarter of 2006.

Proposed FASB Interpretation Accounting for Uncertain Tax Positions

.84 In July 2005, the FASB published an exposure draft of a proposed Interpretation, *Accounting for Uncertain Tax Positions*, which seeks to reduce the significant diversity in practice associated with recognition and measurement in the accounting for income taxes. It would apply to all tax positions accounted for in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. Specifically, the exposure draft requires that a tax position meet a "probable recognition threshold" for the benefit of the uncertain tax position to be recognized in the financial statements. This threshold is to be met assuming that the tax authorities will examine the uncertain tax position. The exposure draft also contains guidance with respect to the measurement of the benefit that is recognized for an uncertain tax position, when that benefit should be derecognized, and other matters. The effective date of the proposed Interpretation would be as of the end of the first fiscal year ending after December 15, 2005. A final Interpretation is expected to be released in the first quarter of 2006.

Proposed FASB EITF Issues

.85 Numerous open issues are under deliberation by the EITF. Readers should visit the FASB Web site at www.fasb.org/eitf/agenda.shtml for complete information.

Proposed FASB Staff Positions

.86 A number of proposed FASB Staff Positions are in progress that address issues related to FASB Statements No. 13, and No. 133, and FIN 46(R). Readers should visit the FASB Web site at www.fasb.org/fasb_staff_positions/proposed_fsp.shtml for complete information.

AICPA Resource Central

.87 The following publications deliver valuable guidance and practical assistance.

- *Corporations Checklists and Illustrative Financial Statements* (product no. 008935kk). Developed by the AICPA's Accounting and Auditing Publications staff, this practice aid is invaluable to anyone who prepares financial statements and reports for corporations. These disclosure checklists have been designed to help you prepare financial statements and assist you in determining the adequacy of disclosures in the financial statements.

- *Accounting Trends & Techniques—2005* (product no. 009897kk). It is the must-have resource for any CPA who frequently creates or uses financial reports. Filled with current reporting techniques and methods used by the nation's top organizations, this 650-page AICPA bestseller will provide guidance you need to improve your accounting preparation and procedures.

- Practice Aid *Preparing and Reporting on Cash- and Tax-Basis Financial Statements* (product no. 006701kk). Authoritative guidance on cash- and tax-basis financial statements is rather vague and leaves a great deal to professional judgment. Section One of this publication provides nonauthoritative, practical guidance on preparing and reporting on cash- and tax-basis financial statements. Section Two includes example financial statements, disclosures, and other engagement practice aids. The Appendix provides an example checklist to be used for cash- and tax-basis financial statements.

AICPA reSOURCE: Online Accounting and Auditing Literature

.88 AICPA has created your core accounting and auditing library online. AICPA reSOURCE is now customizable to suit your preferences or your firm's needs. Or, if you prefer to have access to the entire library—that's available too! Get access—anytime, anywhere—to the AICPA's latest *Professional Standards*, *Technical Practice Aids*, Audit and Accounting Guides (more than 20!), Audit Risk Alerts (more than 15!), and *Accounting Trends & Techniques*. To subscribe to this essential online service for accounting professionals, go to www.cpa2biz.com.

Educational Courses

.89 The AICPA has developed a number of continuing professional education (CPE) courses that are valuable to CPAs. Those courses include:

- *FASB Review for Industry* (2005-2006 edition) (product no. 730562kk). Comprehensive coverage of recent FASB, AcSEC, IASB, and EITF pronouncements is provided in this course geared to the specific interests of the CPA in corporate management.

- *Accounting Update: A Review of Recent Activities* (2005 edition) (732761kk). This course keeps you current and shows you how to apply the most recent financial accounting and reporting standards. Highlights include FASB Interpretation No. 46 on variable interest entities, fair value concepts and measurements, and the revised FASB Statement No. 123 on share-based payment.

- *AICPA's Annual Accounting and Auditing Update Workshop* (2005 edition) (product no. 736181kk, text; also available in video and DVD formats with a manual). Whether you are in industry or public practice, this course keeps you current and informed and shows you how to apply the most recent standards.

- *Accounting for Income Taxes: Applying SFAS No. 109* (product no. 732790kk). No other area in accounting is as far reaching, and requires knowledge of a vast number of topics in financial and tax accounting, as accounting for deferred taxes. This course addresses the application of this complex standard to many common differences between financial accounting and tax compliance. You will gain a sound knowledge of the theory of deferred taxes and how this theory can be applied to practical situations. Many practical examples are included to illustrate the theory, and the information is presented so you will be able to apply this theory to any other situation that you may encounter.

- *The AICPA's Guide to Consolidations, Goodwill and Other Consolidation Issues* (product no. 735129kk). Learn how FASB Statements No. 141 and No. 142 have changed the rules for business combinations and goodwill accounting. Develop standards for applying purchase accounting and how to allocate the acquired entity now that it's the only game in town under FASB Statement No. 141. Identify variable interest entities' impact under FASB Interpretation No. 46(R). Learn how FASB Statement No. 142 deals with goodwill from initial recognition to the annual impairment review requirements.

.90 For a listing of additional courses available, please download the *Fall/Winter 2005 AICPA CPE Catalog* at https://media.cpa2biz.com/Publication/05_fall_winter_FINAL.pdf. You can also check at https://www.cpa2biz.com/CPE/default.htm for availability of any more recent catalogs.

Online CPE

.91 AICPA InfoBytes, offered exclusively through CPA2Biz.com, is AICPA's flagship online learning product. Selected as one of *Accounting Today's* top 100 products for 2003, AICPA InfoBytes now offers a free trial subscription to the entire product for up to 30 days. AICPA members pay $149 ($369 nonmembers) for a new subscription and $119 ($319 nonmembers) for the annual renewal. Divided into one- and two-credit courses that are available 24/7, AICPA InfoBytes offers hundreds of hours of learning in a wide variety of topics. To register or learn more, visit www.cpa2biz.com/infobytes.

Webcasts

.92 Stay plugged in to what's happening and earn CPE credit right from your desktop. AICPA Webcasts are high-quality two-hour CPE programs that bring you the latest topics from the profession's leading experts. Broadcast live, they allow you to interact with the presenters and join in on the discussion. If you can't make the live event, each Webcast is archived and available on CD-ROM.

CFO Quarterly Roundtable Series

.93 The CFO Roundtable Webcast Series—brought to you each calendar quarter—is designed to cover a broad array of "hot topics" that successful organizations employ and subjects that are important to the CFO's personal success. From financial reporting and budgeting and forecasting, to asset management and operations, the roundtable helps CFOs, treasurers, controllers, and other financial executives excel in their demanding roles.

SEC Quarterly Update Series

.94 The SEC Quarterly Update Webcast Series—brought to you each calendar quarter—showcases the profession's leading experts on what's "hot" at the SEC. From corporate accounting reform legislation and new regulatory initiatives to accounting and reporting requirements and CorpFin activities, these hard-hitting sessions will keep you "plugged-in" to what's important. A must for both preparers in public companies and practitioners who have public company clients, this is the place to be when it comes to knowing about the areas of current interest at the SEC.

Member Satisfaction Center

.95 To order AICPA products, receive information about AICPA activities, and find help on your membership questions, call the AICPA Service Operations Center at (888) 777-7077.

Technical Hotline and Ethics Hotline

.96 Do you have a complex technical question about GAAP, other comprehensive bases of accounting (OCBOA), or other technical matters? If so, use the AICPA's Accounting and Auditing Technical Hotline. AICPA staff will research your question and call you back with their answer. You can reach the Technical Hotline at (888) 777-7077.

.97 In addition to the Technical Hotline, the AICPA also offers an Ethics Hotline. Members of the AICPA's Professional Ethics Team answer inquiries concerning independence and other behavioral issues related to the application of the AICPA Code of Professional Conduct. You can reach the Ethics Hotline at (888) 777-7077.

Conferences

.98 Among the many interesting conferences the AICPA offers, there is one that might interest you. Held late each fall, the AICPA National Construction Industry Conference presents a comprehensive program revealing latest trends and developments in the construction industry. The conference offers a national perspective and addresses the newest trends in conducting business, among other topics.

.99 For additional information, contact CPA2biz at its Web site, www.cpa2biz.com.

Employee Stock Option Accounting: FASB Statement No. 123(R), SEC SAB No. 107, and Other Recent Authoritative Developments

NOTICE TO READERS
EMPLOYEE STOCK OPTION ACCOUNTING:
FASB STATEMENT NO. 123(R),
SEC SAB NO. 107, AND OTHER
RECENT AUTHORITATIVE DEVELOPMENTS

This Financial Reporting Alert was authored by Louis P. Le Guyader, Ph.D., CPA, under a commission from the AICPA. Some of the passages in this Alert represent the views of the author. This Financial Reporting Alert has not been approved, disapproved, or otherwise acted upon by any senior technical committee of the AICPA and has no official or authoritative status. Authoritative accounting guidance in the United States is issued principally by the Financial Accounting Standards Board and the Securities and Exchange Commission.

Written by Louis P. Le Guyader, Ph.D., CPA

Edited by Karin Glupe, CPA
Technical Manager
Accounting and Auditing Publications

Robert Durak, CPA
Director
Accounting and Auditing Publications

Preface and Acknowledgements

The author thanks the AICPA for commissioning this Financial Reporting Alert and is especially grateful for the support shown by the principal editor, Robert Durak. Thanks are also due to the reviewer, who has prompted many useful changes. The author also thanks his students and colleagues at Princeton University for the opportunity to discuss various aspects of this accounting rule and to test ways to explain it. Particular thanks are due to Burt Malkiel, Bob Kimmel, David Blair, and Yacine Ait-Shalia at Princeton's Bendheim Center for Finance; Alan Blinder of Princeton's Center for Economic Policy Studies; and John Mulvey of the Financial Engineering Department at Princeton's School of Engineering. The author thanks Trevor Harris, Stephen Penman, and Jim Ohlson, and the other active members of the Columbia University Graduate School of Business' Center for Excellence in Accounting and Security Analysis. Thanks are also due to the accounting faculty of New York University's Stern School, who share my continued interest in fair value accounting and accounting for risk and financial instruments. Thanks are due to students at Columbia University's School of International and Public Affairs and Princeton University's Woodrow Wilson School for helping demonstrate that the central accounting principles of Financial Accounting Standards Board (FASB) Statement of

Financial Accounting Standards No. 123(R), *Share-Based Payment*, can easily be mastered. The author thanks particularly Whit Broome and the faculty of the University of Virginia's McIntire School and the joint finance and accounting seminars at Marquette University for screening methods of presenting valuation methodologies for ESOs.

Errors communicated to the author in this description of FASB Statement No. 123(R) will be corrected and posted at www.kerlouet.org (see below). For those readers responsible for compliance with these rules, there is no substitute for reading FASB Statement No. 123(R) and Securities and Exchange Commission (SEC) Staff Accounting Bulletin (SAB) No. 107 and they should do so.

Internet Support for This Financial Reporting Alert

The author will support this work from time to time with an Internet depository located at www.kerlouet.org (see the Stock Options tab). This electronic depository will contain any corrections to the work that come to the attention of the author. It will also feature periodic updates on new SEC rules and announcements relevant to FASB Statement No. 123(R) and additional resources as the topics of fair value estimation and employee stock option (ESO) accounting policy progresses. This Internet site will contain downloadable copies or links to documents cited in this work. Purchasers of this Financial Reporting Alert should obtain their user name and password by writing to the author; readers who identify errors requiring corrections, or who have information requests, should also write directly to the author. The Author can be reached at lleguyad@aol.com.

The AICPA does not monitor the author's content on the Web site indicated above and is not connected in any way with that Web site. The AICPA is not responsible for the content contained at www.kerlouet.org.

About the Author

Louis P. Le Guyader has been active in the capital markets as an accountant and banker for over 30 years. He returned to PricewaterhouseCoopers (PWC) while completing his doctorate in accounting at Columbia University, where he was the Coopers and Lybrand Scholar. At PWC he specialized in various aspects of accounting and disclosure for financial instruments, hedging, risk management, and fair value methodology as a member of the National Office and as a founder of the Financial Risk Management Group. He has published several texts on accounting policies for derivatives, hedging, and the use of special-purpose entities in structured finance. As a banker he has specialized in international and cross-border financings, including the use of derivative and structured finance. At Columbia, his dissertation in financial accounting addressed the topic of financial risk and risk modification. He has been an independent accounting consultant since 2000 and has held faculty positions at Columbia University's Graduate School of Business and Princeton University. He is a New York State CPA.

Executive Overview of FASB Statement No. 123(R)[1]

.01 The accounting for employee stock options (ESOs) and other equity and equity-linked instruments that are exchanged by a public entity in return for services is governed by Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment*. The measurement of the cost of the service must now be based on the grant-date fair value of the award (generally, the ESO). The cost must be recognized over the period over which the employee renders the service, most often understood to be the vesting period of the ESO. If the award is a liability instrument, its recognized cost based on fair value must be remeasured at each reporting date through the instrument's settlement date; the fair value changes will be recognized as a cost of compensation. A nonpublic entity that finds that it is not possible to reasonably estimate the fair value of the award because the expected volatility to the fair value cannot be estimated practicably can base the fair value of the award using an appropriate industry sector

[1] The full summary of Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment*, can be found on pages ii and iii of the full text of the accounting standard.

volatility index. A nonpublic entity may elect to measure its award of liability instruments at their intrinsic value. The grant-date fair value of the equity-linked instruments will be measured using option pricing models with adjustments to parameters and other inputs to reflect the unique characteristics of the instruments. Modifications of equity awards require the recognition of additional fair value. Excess tax benefits will be recognized as an addition to paid-in capital and cash retained as a result will be presented as a financing cash flow in the statement of cash flows. The write-off of unrealized tax benefits, absent an offsetting amount, will be recognized as income tax expense. The notes to the financial statements will disclose information on the nature of share-based transactions and their effects on the financial statements as a whole.

Introduction

.02 U.S. generally accepted accounting principles (GAAP) will require companies to expense the cost of ESOs, starting with their fiscal years that begin after June 15, 2005. The effective date for FASB Statement No. 123(R) was delayed by the Securities and Exchange Commission (SEC), in a press release dated April 14, 2005. That announcement was made after the release of SEC Staff Accounting Bulletin (SAB) No. 107, *Share-Based Payment,* on March 29, 2005, and FASB Statement No. 123(R) on December 14, 2005. The original effective date was interim periods beginning after June 15, 2005 (that is, the quarter beginning July 1, 2005, for calendar year companies). Voluntary expensing of the cost of ESOs has been permitted since the issuance of FASB Statement No. 123, *Accounting for Stock-Based Compensation,* in October 1995. The central requirements for this accounting principle are described in FASB Statement No. 123(R) and additional implementation guidance has been provided through the issuance of SAB No. 107. This Alert explains the accounting for ESOs by describing FASB Statement No. 123(R), summarizing SAB No. 107, and supplementing this knowledge with additional information developed by the capital markets and the accounting field.

.03 The FASB issued FASB Statement No. 123(R) in December 2004, after nearly two years of redeliberation of FASB Statement No. 123, which was originally issued in 1995.[2] The central provisions of FASB Statement No. 123(R) require "[a] public entity to measure [and recognize] the cost of [ESOs] based on [their] grant-date fair value"[3] where the "grant-date fair value of [the ESOs] . . . will be estimated using option-pricing models adjusted for the unique characteristics of those instruments. . . . "[4] The statement also contains related guidance on certain tax issues associated with ESOs (see Appendix B of FASB Statement No. 123(R)) and disclosures that must be provided in the notes to the financial statements.

.04 SAB No. 107 contains implementation guidance emphasizing that the "grant-date fair value" per FASB Statement No. 123(R) should be the equivalent of an "exchange price" for ESOs, a provision that must be evaluated by the SEC issuer in light of the fact that ESOs are neither traded nor transferred in any market.

.05 The accounting rules for ESOs in FASB Statement No. 123(R) and SAB No. 107 have three main parts: fair value measurement of the financial instruments, recognition on the balance sheet, and recognition of the compensation cost of ESOs in the income statement. Users will need to understand their ESO contracts completely to apply the relevant provisions of FASB Statement No. 123(R); "Section I: What Are Employee Stock Options?" in this Alert describes the characteristics of ESOs. A description of the economic controversies that surround ESOs, including the accounting issues addressed by FASB Statement No. 123(R), are discussed in this Alert in "Section II: What Is the Controversy Behind Stock Option Expensing?" FASB Statement No. 123(R) is summarized in the third section, and the likely effects of FASB Statement No. 123(R) are addressed in the fourth section. A summary of SAB No. 107 is presented in Section V. The fair value measurement of ESOs is further described in Section VI. Methods of minimizing ESO expense are summarized in Section VII. Section VIII provides a summary of the most recent authoritative developments from the SEC and the FASB.

---

[2] The controversy surrounding the question of accounting policy for employee stock options (ESOs) has been significant to the FASB's standard-setting agenda for at least eight years.

[3] FASB Statement No. 123(R), page ii.

[4] FASB Statement No. 123(R), page iii.

Section I: What Are Employee Stock Options?

.06 The scope of FASB Statement No. 123(R) and the accompanying guidance of SAB No. 107 provide accounting rules for "share-based payments," which are compensation arrangements in which "an entity exchanges its equity instruments for goods or services." Generally, FASB Statement No. 123(R) will apply when (1) the employing entity issues an equity-linked derivative contract to its employee in exchange for the employee's time and effort[5] and (2) the equity derivative contract is settled by the delivery of equity shares, instead of cash or access to some cash-producing market mechanism. The equity-based contract is labeled an ESO for the purposes of this Alert. For an ESO, the employer's contract counterpart must be an employee, and the contract must generally take the form of an over-the-counter derivative contract, which is a type of executory contract.

.07 The status of the contract counterpart is a critical characteristic of ESOs. ESOs almost always combine some element of compensation in lieu of salary with an equity-sharing between business partners. Employees could certainly describe ESOs as rewards for their "sweat equity." There is a wide range of compensation agreements across entities. Sometimes the ESO is the only compensation paid, but more frequently it is one of several components of a compensation package that includes salary, incentive pay, and benefits. Under the provisions of FASB Statement No. 123(R), ESOs must be treated as a substitute for cash salary. In SAB No. 107, the SEC buttresses this policy decision by pointing out that in the income statement, the ESO compensation cost should be displayed on the same line item as any other salary expense.

.08 The form of the ESO contract fits easily into the general definition of a derivative as displayed in paragraph 6 of FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as described in the following table.

Defining an Employee Stock Option as a Derivative Instrument Using FASB Statement No. 133 Definitions [1]

FASB Statement No. 133, Paragraph 6: Characteristics of a Derivative	*Standardized Employee Stock Options Terms*
At least one "underlying," and at least one "notional amount" or payment provision or both	The employee stock option (ESO) underlying is the issuer's equity stock. One way to express the notional amount is the number of shares times the market price at the grant date.
Requires "no initial investment" or an initial investment below the exchange price for similar instruments [2]	Options are normally exchanged for an up-front premium, which satisfies this initial investment characterization. [3]
Terms require net settlement and (in the case where it cannot be settled outside the contract) it provides for delivery of an asset with a value that is equivalent to net settlement.	When an ESO is exercised, the employee-holder pays the strike value in cash to the issuing employer-entity and receives equity shares. The equity shares can be sold into the market for cash at the current market price without restriction.

[1] Copyright © 2005, Louis P. Le Guyader. Used by permission.

[2] Please refer to the article "Feltham-Ohlson Parameterization of ESOs," by Louis P. Le Guyader, 2005, which is available at www.kerlouet.org.

[3] In ESOs, the premium exchanged is not cash, but the employee's labor. The fair value of the ESO estimated at the grant date is both the best estimate of the exchange price for the ESO and the initial investment that satisfies this definition.

[5] An employee may receive an equity award in the form of an equity derivative (generally, an ESO) or shares with some restrictions (generally, restricted stock). It is easiest to consider option-pricing models as suiting the valuation of ESOs and similar derivative instruments.

.09 Immediately after a series of derivative losses in the period 1993–1994, the SEC Chief Accountant staff explained that there could be a high risk of unexpected potential loss for derivative financial instruments that were not adequately presented in the entity's SEC reports. Within the category of derivatives, options and all short positions in general were considered the riskiest form of contracts for the purpose of achieving transparent reporting. The FASB's response to this concern in the case of most financial derivatives was the issuance of FASB Statement No. 133, which imposes the central requirement that derivatives should be recognized on the balance sheet and measured at the carrying amount, which should equal the fair value of that instrument. FASB Statement No. 123(R) was the FASB's specialized response to the case of ESOs. (The FASB chose not to include ESOs under the scope of FASB Statement No. 133 because of the special considerations that apply to ESOs as compared with other financial derivative instruments. See paragraph 11(b) of FASB Statement No. 133.)

.10 The ESO contract is normally more complex than exchange-traded options or shorter maturity over-the-counter options. The contract terms that differentiate ESOs from other options include:[6]

- A long time to maturity, usually more than three years and normally five years or longer.
- An initial period before the contract is "vested" and during which (1) the employee is sometimes considered to be delivering the services for which the contract is exchanged and (2) exercise is not permitted.
- An exercise period[7] during which the holder can exercise at any time.
- A fixed expiration date.[8]
- Forfeiture in the case of termination of employment.
- No transferability.
- No secondary market trading possibility.
- Relative ease in altering the contract terms after the initial grant date.

.11 The last contract term deserves some elaboration. Each ESO is a contract that can stand "on its own" with respect to the context in which it is issued and the prospect that it can be altered. Alteration normally occurs in a voluntary renegotiation between the employer and the employee. Two instances have occurred frequently as examples of the ability to alter the terms of the ESO after the initial grant date:

---

[6] This list is not meant to be exhaustive. The contract form of ESOs remains very diverse and relatively uncatalogued. A separate issue is the frequency with which ESOs are awarded in a form that they should be considered equity or liability items for purposes of financial statement presentations. The author and the AICPA reviewers of this text know of no study that has yet been completed on this question. ESO arrangements designed to be settled with cash or a cash-producing market mechanism should be reviewed for potential classification as a liability; ESOs designed to be settled through the transfer of shares should be reviewed for potential classification as equity. The accountant's and auditor's examination of whether a financial instrument is designed to or actually does result in cash settlement has proven a systematically difficult topic, including similar questions of classification under FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*. Users of FASB Statement No. 123(R) should conduct complete reviews of the ESO contract, their settlement provisions, and the issuer's experience with settlement practice before accepting a suggested balance sheet classification as liability or equity.

[7] The exercise period within an ESO contract term can be clearly documented within the ESO contract but is affected by other contracts or policies of the issuer to which the ESO holder-employee is subject. For example, senior executives may hold exercisable ESOs but may be prohibited from exercising during "blackout" periods around, for example, earnings releases, other key developments, or the normal operations of the Securities and Exchange Commission (SEC) Regulation FD.

[8] ESOs are contracts and, as such, when documented normally carry a fixed expiration date. This is akin to the "maturity date" of a debt instrument issued as a liability or purchased as an "investment in a marketable security." The ESO contract can end before the contractual maturity date if it is "accelerated." Acceleration is sometimes triggered by an event that the accountant and auditor can verify, such as the termination of the holder's employment. Fixed expiration dates that are subject to acceleration and the restrictions identified in FASB Statement No. 123(R) give rise to the need to carefully estimate the expected term of the ESO or in some cases derecognize it from the financial statements.

1. When the market for the entity's equity drops without chances of near-term recovery, the expiration date is extended, or the strike price is lowered as a means of preserving the use of the contract as an incentive tool.

2. Due to the transition provisions included in FASB Statement No. 123(R), the entity asks to accelerate the vesting date, thereby carving out the altered ESO from the provisions of FASB Statement No. 123(R).[9]

.12 In a typical ESO option contract, the entity issues the option to the employee and assumes the prospective risk that it will have to deliver its equity shares to the holder at the strike price when the market price is above that level. The entity is an "option writer" and the ESO represents a "written" or "short" option position. A written option means that the entity is placed in the position of prospectively delivering shares to the employee. The standard ESO contract never provides for the delivery of shares from the employee to the entity.[10] The entity must obtain shares for delivery in the market or, if permitted, use shares already in its possession.[11]

.13 The "option" form of the contract represents a one-sided bargain for the employee. The employee is permitted but not required to exercise the ESOs; if the market price equals or is less than the strike price, the ESO is presumably not exercised. However, if the employee decides to exercise the ESO when the market price is greater than the strike price, the entity is required to honor the exercise of the option and deliver the shares; therefore, the entity can only suffer an economic loss, and never a gain, as a result of the exercise of the ESO contracts.[12] That loss equals the option's intrinsic value, which the employee perceives as the bargain element of the ESO. In financial economics, the intrinsic value[13] of an option is always:

Number of shares × (Market price – Strike price) subject to exercise

.14 Employees are normally very favorable to an ESO grant due to the "limited liability" conditions that are standard to every option: The employee can never lose money; the minimum outcome is never less than a "zero" payout; the exercise of the option normally is only accompanied by an economic gain; and it is normally easy to "cash out" on the date of exercise by selling the shares in the market.[14]

.15 From the entity's point of view, the ESO represents a prospective loss at least equal to the intrinsic value that is reserved for the employee. In this respect, the ESO is a cost that represents a discount to the market value of the shares issued to the ESO holder.

.16 For example, if an ESO is issued with a strike price of $10 per share for 100 shares and exercise is permitted, the employee may choose to exercise the shares when the shares are trading in the market for $15

---

[9] For a recent research report on this phenomenon see the Bear-Stearns Equity Research, Accounting and Tax Policy, "Spring-Cleaning: Companies Accelerate Vesting of Stock Options," April 7, 2005.

[10] If the employee would be able to deliver shares to the entity, the contract would take the form of a written put option from the entity's point of view.

[11] In some state jurisdictions and in many ESO issuers, there are some combinations of legal and governance limitations placed on the way the entity obtains shares to service its ESO obligations.

[12] This ignores the potential economic benefit and creation of wealth the entity receives from the employee's labor.

[13] FASB Statement No. 123(R)'s definition of *intrinsic value* is consistent with the financial economics definition of the term. The glossary of FASB Statement No. 123(R) states in part that intrinsic value is "the amount by which the fair value of the underlying stock exceeds the exercise price of the option." In the case of a public entity, the market price of its stock is generally understood to be the best estimate for the fair value of its stock. For a nonpublic entity, volatility of the entity's stock cannot be determined from observable changes in its stock price, as the stock is not traded. In these cases FASB Statement No. 123(R) defines a *calculated value* as a measure based on a substituted historical volatility. See the FASB Statement No. 123(R) Glossary, which is Appendix E to the accounting standard.

[14] The employee's retail broker sometimes can advise on whether exercise of the options is appropriate, or whether retaining the shares is preferable to selling them for cash. The broker could be called on to execute the trades of the equity securities.

(assuming exercise is permitted). If exercise occurs, the entity receives $10 per share and issues all the shares. Before FASB Statement No. 123(R), the entity would only record the option exercise on the exercise date. On the exercise date the entity would record:

Debit cash (at $10 per share)	$1,000	
Credit common stock (net of discount of $5 per share)		$1,000

.17 The reader of the financial statements could ascertain the realized dilution effect on the exercise date by observing the number of shares issued below market price as reported in the equity section of the balance sheet. If the company had to enter the market to obtain the 100 shares to cover the written ESOs, the company would have paid $15 per share for shares that it would distribute under the ESOs for only $10. The $5 per share loss would be a true cash outflow, but by convention, before FASB Statement No. 123(R), that loss would not have been reported as an earnings loss. However, it is rare that an entity places itself in this position. Most entities cover their ESO exposure by either reissuing shares held in treasury (to the extent this is both legal and permitted) or issuing new shares (to the extent this has been properly authorized).[15]

.18 Thus, the employee is paid whatever intrinsic value the market will permit; the amount and the timing presumably depend on external market factors outside of the entity's control. The intrinsic value cash flows are derived not from the entity but between the market and the employee. On the other hand, the equity financing cash flows (cash flows upon exercise) do flow between the employee and the entity at the strike price within the ESO contract.

.19 The complexity of ESO contracts is self-evident. The fact that ESOs are derivatives in the entity's own equity and that they create a legal and economic obligation to deliver shares at an unfavorable price has created some unique accounting policy issues and matters of debate. Since the issuance of FASB Statement No. 123(R) in December 2004 it has also become apparent that management of the issuer's ESO profile adds to this complexity. Employees may perceive some benefit from renegotiation of ESO contract terms after the initial grant date, especially if these contract alterations increase the chance of a profitable ESO exercise. In some cases contractual changes may not represent appropriate managerial conduct (for example, back dating ESO awards to reflect favorable current market conditions or to address the financial needs of an employee). The transition provisions for FASB Statement No. 123(R) also permitted some relief from the provisions of the accounting standard for ESOs whose terms were modified before the standard took effect. (The issuer's incentive to modify the ESOs in this case was to achieve a grandfathering of the contract and so exempt it from the recognition provisions of FASB Statement No. 123(R).) The financial statement preparer and the issuer's auditor should be particularly attentive to all contract alteration activity.

Section II: What Is the Controversy Behind Stock Option Expensing?

.20 ESO compensation that appeared to be excessive triggered the perceived need for FASB Statement No. 123(R) and "stock option expensing." Two other factors contributed to this need: earnings manipulation and the element of surprise investors felt when ESO pay was reported. Detractors of FASB Statement No. 123(R) suggest that the standard should not take effect because they believe it cannot be implemented efficiently and because it damages ESO use as one of the most powerful incentive formulas available to the labor market. The tension between these opposing camps has led to the controversy that continues to this day.

ESO Compensation and Earnings Manipulation

.21 Potential ESO pay rises with an entity's stock price. If that stock price has been conditioned to respond to earnings, and if managers are unscrupulous and manipulate earnings upward, the stock price

[15] The use of the law and the emergence of best practices in corporate governance could be used to temper some of the excesses in the use of ESOs.

can be improperly inflated. Two overriding themes in recent accounting scandals have been the improper accounting treatment of off-balance-sheet transactions, and earnings manipulation.[16] The complaint that ESO compensation is excessive seems appropriate in cases where the executive responsible for earnings manipulation also benefits from an artificially high stock price.[17]

ESO Compensation as Undisclosed Compensation

.22 That ESO compensation exists at all sometimes comes as a surprise to many investors. Some investors see ESO compensation as "secret pay," especially when they learn of it not from the audited financial statements but from press releases that are sometimes tied to SEC enforcement actions. In the last 10-year period before the introduction of FASB Statement No. 123(R), the accounting for ESOs was governed by FASB Statement No. 123, *Accounting for Stock-Based Compensation*, and FASB Statement No. 148, *Accounting for Stock-Based Compensation—Transition and Disclosure—an amendment of FASB Statement No. 123*. These standards encouraged but did not require the recognition of stock compensation expense related to ESOs; they only required audited disclosures about ESOs in the notes to the financial statements. The persistent anecdotal reports of investors' surprise regarding the uses of ESO compensation suggest that these disclosures were not informative, or worse, never read.

.23 At the same time, there is an intuitive rejection of the notion that a paper contract can yield high compensation and a common misunderstanding about where the cash paid to the employee comes from. The cash comes from the market when the employee sells the shares he or she has purchased at a bargain. It does not come from the SEC issuer—it is not a cash outflow of the entity, but it is the entity's opportunity cost.[18] The leverage that is inherent to every derivative sometimes works against the ability to communicate the prospective cash flow attributes of the ESO transparently.

The FASB's Solution—Fair Value Accounting

.24 Financial instruments that are derivatives, options, and written or short positions, and that are significantly leveraged, have concerned the SEC for some time, because of their accounting complexity. ESOs possess all four of the aforementioned characteristics. When faced with a similar concern about unwanted surprises from other financial derivatives, the FASB sought to make the use of financial instruments understandable,[19] by issuing FASB Statement No. 133 in 1998.

.25 The FASB's philosophy to improve accounting for all financial instruments has been to recognize them on the balance sheet, using the fair value of the instrument as the carrying amount. Fair value accounting had been introduced by certain FASB accounting standards, including FASB Statement No. 133, in an attempt to change the traditional historical-cost-based accounting model. Appendix A of this Alert provides a summary of other key standards that have been issued as part of the FASB's project on financial instruments.

.26 The current accounting model requires the measurement of fair value of certain items, while other values are required to be determined by their historic costs. Most financial statements prepared under

---

[16] For a summary of the concern that the Securities and Exchange Commission (SEC) has shown about earnings manipulation, see the 1998 speech, "Numbers Games," given by former SEC Chairman Arthur Levitt at New York University's Law School. The speech can be found in the SEC Chairman archives on www.sec.gov.

[17] See, for example, the details of compensation arrangements and earnings manipulation tactics within evidentiary deposits used to gain guilty pleas from or convict former WorldCom executives.

[18] In his economics textbook, N. Gregory Mankiw explains the difference between economic profit and accounting profit. Not all opportunity costs, especially implicit opportunity costs, are captured by the accounting model. FASB Statement No. 123(R) creates a method for recording the opportunity costs associated with ESOs in a manner that hastens the convergence of economic and accounting profit.

[19] This paraphrases one of 10 points, or policy imperatives, designed to clean up the capital markets discussed by President George W. Bush immediately after the fall of Enron.

1994–2005 era GAAP therefore represent a "mixed attributes" accounting model, combining some historic cost measures with fair value measures.[20] A complete fair value accounting model requires that:

- An item that is recognized in the financial statements must be carried on the balance sheet using a carrying value equal to its fair value.
- This carrying value should be updated to the item's current fair value at each reporting date, with the changes in fair value from the previous reporting date recorded in income (earnings or other comprehensive income).

.27 The FASB considers fair value to be the best measure for reporting financial instruments. The FASB has documented its preference to display unrealized gains and losses related to fair value fluctuations from financial instruments in income generally because, among other things, the opportunity costs of these values are considered to be relevant—they should be provided to the investor. FASB Statement No. 123(R) is the newest effort to apply that concept to yet another class of financial instruments.[21] FASB Statement No. 123(R) uses elements of both fair value and historic cost approaches to account for ESOs, starting from the estimation of the grant-date fair value of the ESOs. (See "Section VI: What Is the Value of a Stock Option?" in this Alert for an explanation of the logic underlying this approach.)

.28 FASB Statement No. 123(R) therefore requires that ESOs be recognized on the balance sheet at fair value, and that the cost represented by the grant date fair value be recorded or charged to earnings as an expense. The resulting increase in expenses would potentially reduce the combined ill effects of earnings manipulation and "secret pay" sentiment felt by investors as a result of the use of ESOs. The threefold accounting improvements (balance sheet recognition, fair value measurement, and expensing through earnings) are expected to help mitigate inappropriate forms of ESO compensation and the lack of accounting transparency that accompanied such ESO transactions.

Arguments Against the Implementation of FASB Statement No. 123(R), and the FASB's Response

.29 FASB Statement No. 123(R) detractors have assembled a powerful arsenal of arguments against the fair value accounting approach. Due to the forcefulness of their arguments, they have successfully delayed the effective date of FASB Statement No. 123(R) from 2005 to an effective date starting with fiscal 2006.

.30 Public policy makers who are involved in the "capital markets cleanup" are concerned that FASB Statement No. 123(R) will not add to an understanding of how these financial instruments are used. They point out that until earnings are made more transparent, the inclusion of ESO expenses on the income statement provides new manipulation opportunities, thereby causing the income statement to be even less transparent. Financial engineers and financial economists also suggest that FASB Statement No. 123(R) should be further postponed or rescinded because it cannot be implemented. They claim there is no reliable way to estimate an ESO fair value: the ESO contract is too complex to fit into models that were not intended for valuing ESOs, and the value derived in a mark-to-model valuation methodology will never be akin to an exchange price. However, accounting regulators have recently reminded the market, that, in effect, a potentially flawed statistic can still be sufficient for purposes of achieving the policy objectives of FASB Statement No. 123(R). The SEC has also stated that it would accept future improvements in any SEC issuer's valuation methodology if the issuer made a retrospective criticism of values lodged in previous financial statements; this level of reasonableness is almost a safe harbor that enables FASB Statement No. 123(R) to move forward with an acceptable level of measurement risk.

---

[20] For an explanation of the mixed attributes accounting model, see the FASB Financial Accounting Series Special Report, "Major Issues Related to Hedge Accounting," Jane B. Adams and Corliss J. Montesi, October 1995.

[21] FASB and SEC rules generally split all financial instruments into two categories: derivatives and other financial instruments, which include debt and equity.

.31 Computer scientists and systems experts point out that FASB Statement No. 123(R) requires substantial computer support, which may not be available. If systems have not been configured to support FASB Statement No. 123(R) and enable fair value measurement, or the available systems cannot be integrated into a general ledger package, according to systems experts, either FASB Statement No. 123(R) may not be feasible or more time should be given before it becomes effective. Similar arguments won postponements of the effective dates of FASB Statement No. 125, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities,* and FASB Statement No. 133. The SEC considered these comments when it delayed the effective date for FASB Statement No. 123(R) to fiscal 2006.

.32 The labor market reaction to the FASB Statement No. 123(R) ESO controversy has been mixed. In larger manufacturing organizations, labor unions have supported ESO expensing. They believe that union members have effectively been impoverished to the extent that the employer's resources are allocated to executives through ESOs.[22] On the other hand, high tech industry workers in particular have taken the position that the decreased use of ESOs, which has been the secondary effect of the accounting deliberations, has hurt the high tech industry as a whole. In the high tech industry, ESOs are seen as the most efficient incentive for workers to perform at a time when the employing entity has an insufficient cash flow to pay salaries at the entity level. A repeated defense of ESO compensation is that the cash payment received by the employee is paid by the market, not by the entity. Such compensation strategy uses a sweat equity philosophy: the market value of the entity increases only if workers perform; otherwise the entity becomes bankrupt. ESOs are merely a means to give workers their share of the market wealth that has been created by their own efforts.

.33 That argument then provokes an expected reaction from outside existing shareholders, who decry the dilution risk that accompanies the exercise of ESOs. However, certain segments of investors remain convinced that ESOs will not lead to dilution if there is a compensating increase in the market value of the entity. The dominant reason the entity becomes more valuable is that wealth is created by the properly induced worker. These FASB Statement No. 123(R) detractors, including the high tech industry, see ESOs as equity transactions, not as earnings events. Recall the siren call of the Enron whistleblower who reminded Congress that a basic accounting concept is that earnings are not derived from changes in equity. However, FASB Statement No. 123(R)'s response to this argument is that basic accounting exclusions may not apply because of the way the ESO equity derivative contract is structured or because of the way the ESO derivative is settled in practice.

.34 Accounting theoreticians at major universities, after accepting the inevitability of expensing, have joined the arguments by asking for improvements to FASB Statement No. 123(R). This has been incorrectly perceived by the "antiexpensing crowd" as further evidence that FASB Statement No. 123(R) should be terminated. To the contrary, the FASB has a successful record of updating standards after their issue date to reflect new information from the market that justifies renewed deliberations. For example, FASB Statement No. 133 has been amended by three subsequent accounting standards (FASB Statement No. 137, *Accounting for Derivative Instruments and Hedging Activities—Deferral of the Effective Date of FASB Statement No. 133—an amendment of FASB Statement No. 133*; FASB Statement No. 138, *Accounting for Certain Derivative Instruments and Certain Hedging Activities—an amendment of FASB Statement No. 133*; and FASB Statement No. 149, *Amendment of Statement 133 on Derivative Instruments and Hedging Activities*), and there are ongoing deliberations in various FASB venues (the Emerging Issues Task Force (EITF), the Derivative Implementation Group (DIG), and the full FASB itself).

.35 Proposals to amend FASB Statement No. 123(R) have mostly focused on aligning its accounting policies to a full fair value accounting model, including:

---

[22] In the case of accounting irregularities such as those uncovered at WorldCom and Tyco, the claim that executives have impoverished workers and investors alike seems valid. One would wonder how union members would argue their cause if they were granted ESOs and those grants were terminated by the company as a reaction to FASB Statement No. 123(R).

- Marking-to-market the ESOs on every reporting date, as with any other derivative.
- Recognizing and developing a link to one form of the underlying item, on which ESOs may be matched to treasury shares.
- Eliminating some inefficiencies in the way ESO fair values are recorded (see Section V).
- Removing, or reversing, the expense from the financial statements on the ESO expiration date if they expire and are worthless.
- Finding ways to account for the equity financing attribute of the ESO transaction more transparently.
- Opening the possibility that other comprehensive income (see FASB Statement No. 130) should be used to charge ESO expenses and subsequent fair value changes, rather than earnings.
- Urging that the balance sheet location for the "ESO derivative account" be either in equity or liabilities, but not both (see FASB Statement No. 150, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity*).

.36 These proposals signify the heated nature of the ESO controversy over the past 10 years. By far, the stock option expensing debate outside of the FASB has focused on "no expensing through earnings" and informing the market that "no valid valuation methodology exists." For many years, these two critical policy controversies dwarfed other stock-compensation-related issues before the FASB; with the release of FASB Statement No. 123(R), related accounting topics are now being debated in depth.[23]

Section III: Summary of FASB Statement No. 123(R)

.37 FASB Statement No. 123(R) requires expensing the cost of ESOs and also provides accounting policies for other types of share-based payments.

Scope[24]

.38 FASB Statement No. 123(R) applies to any transaction in which the entity makes payment through a share-based contract or other arrangement:

1. A share-based payment is one where the entity issues or offers to issue share instruments or incurs a certain type of liability.
   a. The share instruments may be the entity's shares, options on its shares, or certain other equity instruments.
   b. The liability must be based on, or indexed to, the share price or the price of some other equity instrument, or the liability requires or may require settlement by issuing the entity's shares or other equity instrument.
2. The payment (that is, share issuances) may be made in return for goods or services.
3. The payee may be an employee or other supplier.

ESOs are share-based payments to employees exchanged for services and settled with the issue of shares.

---

[23] ESO accounting is enabled by the migration to fair value accounting for all financial instruments. Some of the more recent suggestions for improvements of FASB Statement No. 123(R) did not appear within the FASB discussions since the fair value principles had only recently been applied in FASB Statement No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, and FASB Statement No. 133. The FASB's approach is to provide for extensive deliberations and due process when considering all accounting policy suggestions.

[24] FASB Statement No. 123(R), paragraph 4.

The Central Accounting Policies

.39 The central accounting policies of this statement pertain to recognition and measurement.

1. *Recognition.* The entity must recognize the cost of share-based payments (including ESOs) in the financial statements when the goods or services are received. The entity may need to recognize an asset when the share-based payment contract is created in advance of the receipt of the goods or services.[25] The compensation represented by the share-based contract may represent an expense (compensation expense) in current earnings or may be capitalized as part of the cost to acquire an asset (compensation cost).[26]

2. *Measurement.* The value of the payment shall be measured at fair value as follows:

   a. *If the payment is to a nonemployee.* The value is that of the goods or services received if that value is more reliably measurable than the fair value of the equity instruments in question.

   b. *In all other cases.* The value is the fair value of the equity instruments issued, *except in certain cases when the payment is to an employee,* the calculated value or intrinsic value may be used in place of the fair value.[27]

.40 FASB Statement No. 123(R) addresses transactions with employees and nonemployees as well as various forms of share-based payment contracts. For nonemployee transactions or transactions in which the payee is not clearly an employee, the reader should consult FASB Statement No. 123(R) or other governing GAAP.[28] The remainder of this summary is focused on employee share-based payments in the form of an equity-based option contract (an ESO transaction).

.41 In addition, the full text of FASB Statement No. 123(R) must be consulted for the treatment of certain transactions with related parties and certain other exceptions. Some employee purchase plans are not governed by FASB Statement No. 123(R) because they are not ESOs (see paragraphs 12 and 13 and Appendix A of FASB Statement No. 123(R)); these plans are "noncompensatory." However, the introduction of option features to a noncompensatory plan may cause that plan to be considered an ESO and so require the application of FASB Statement No. 123(R). Examples of such features include the right to purchase shares at a discount to the market price (akin to an option strike price), or the right to withdraw from the plan without financial penalty (akin to the right but not the obligation to exercise an option). If the services are paid for by incurring a liability to the employee, the fair value of that liability must be remeasured[29] at the end of each reporting period through settlement. (For other remeasurement provisions, see the following section.)

Specific Accounting Rules for ESOs

.42 Paragraph 10 of FASB Statement No. 123(R) states: "[The] cost of services received from employees in exchange for [employee stock options] . . . shall be measured based on the *grant-date fair value* of the . . . [ESOs issued]."

---

[25] FASB Statement No. 123(R), paragraph 5 and footnote 4.

[26] FASB Statement No. 123(R), paragraph 5 and footnote 5.

[27] For the definitions of fair value, calculated value and intrinsic value as used in FASB Statement No. 123(R), see paragraph 7 and the Glossary of FASB Statement No. 123(R). See Section V for a discussion of fair values for use in FASB Statement No. 123(R). The reader is urged to consult expected FASB standard *Fair Value Measurement,* when that guidance is released, as it may apply to FASB Statement No. 123(R).

[28] The term *employee* is defined in FASB Statement No. 123(R)'s Appendix E, the Glossary.

[29] The FASB Statement No. 123(R) notion of "remeasurement" is the same as the financial economics notion of "marking a financial instrument to market," also expressed colloquially sometimes as truing-up the value of an instrument.

The Fair Value Accounting Principles Within FASB Statement No. 123(R)

.43 FASB Statement No. 123(R) recognizes that exchange prices for ESOs or similar instruments are not available to use as the fair value. In such a case, a valuation methodology must be used to estimate the fair value. The fair value of an ESO is expected to have a value different from its intrinsic value, that is, it has time value. The underlying equity share itself does not have time value.[30]

.44 ***The Fair-Value-Based Method.*** Under the fair-value-based method, the grant-date fair value is "[estimated] . . . based on the share price and other pertinent factors . . . at the grant date." The fair value is "not re-measured in subsequent periods"[31] unless the compensation award qualifies for treatment as a liability. "Liabilities . . . are . . . remeasured . . . [subsequent to the grant-date] . . . [on] each reporting date until the liability is settled."[32]

.45 The fair value estimate must reflect the terms of the ESO contract that are considered relevant to the value of that contract. The effects of nontransferability and nonhedgeability, as well as any postvesting restrictions on selling shares, are thought to be factors that could be represented in the entity's estimate of the "expected term" of the ESO.[33] However, certain ESO terms, including some forfeiture provisions, would not affect the fair value.[34] Other contingent events such as a "clawback" are excluded from the fair value calculation until they actually occur.[35]

.46 ***The Calculated Value Method.*** The calculated value method estimates the ESOs' fair value by substituting "the historical volatility of an appropriate industry sector index for the expected volatility . . . in an option-pricing model."[36] This method is used by a nonpublic entity when it is impracticable to estimate the expected volatility of its equity security price. In other words, attempts to arrive at estimates of expected volatility, including comparison with another public entity's historical, expected, or implied volatility, have not yielded a suitable estimate. Only in the case of nonpublic entities may a "calculated value" be substituted for the fair value.[37]

.47 ***The Intrinsic Value Method***. In certain limited cases it is not "possible to reasonably estimate the fair value of an [ESO] because of the complexity of its terms."[38] In this case the accounting for the instrument is "based on its intrinsic value, re-measured each reporting date through the date of exercise or settlement."[39]

Rules for Estimating the Fair Value of ESOs and Valuation Techniques

.48 Paragraph A7 of FASB Statement No. 123(R) relies on the Glossary from FASB Concepts Statement No. 7, *Using Cash Flow Information and Present Value in Accounting Measurements,* for a definition of *fair value*:

---

[30] FASB Statement No. 123(R), paragraph 22 and footnote 12. See Section V of this Alert for a summary of Staff Accounting Bulletin (SAB) No. 107, *Share-Based Payment*, and Section VI of this Alert regarding the fair value of an option.

[31] FASB Statement No. 123(R), paragraph A2.

[32] FASB Statement No. 123(R), paragraph A6.

[33] FASB Statement No. 123(R), paragraph A3.

[34] FASB Statement No. 123(R), paragraph A4.

[35] FASB Statement No. 123(R), paragraph A6.

[36] FASB Statement No. 123(R), Appendix E.

[37] See FASB Statement No. 123(R), paragraph 23, and Section VI of this Alert.

[38] FASB Statement No. 123(R), paragraph 24.

[39] FASB Statement No. 123(R), paragraph 25.

"[Fair value is the] . . . amount at which that asset (or liability) could be bought (or incurred) or sold (or settled) in a current transaction between willing parties, that is, other than in a forced or liquidation sale."[40]

.49 FASB Statement No. 123(R) uses the concept of *value in a current exchange*[41] and applies it to ESOs that are classified as either liabilities or equity instruments. The FASB Statement No. 123(R) rules summarized below generally apply to the estimation of fair value for ESO-type contracts, focusing on the "fair-value-based method" described above.

.50 The valuation technique applied should satisfy certain conditions. The resulting fair value, while representing an "exchange price," must also have certain substantive characteristics. FASB Statement No. 123(R) lists "the minimum set of substantive characteristics"[42] that should be considered in valuing any option-like instrument, assuming that "the market price is not available":

a. The exercise price of the option.

b. The expected term of the option. . . .

c. The current price of the underlying share.

d. The expected volatility of the price or the underlying share for the expected term of the option.

e. The expected dividends on the underlying share . . . ([subject to certain exceptions]).

f. The risk-free interest rate(s) for the expected term of the option."[43]

.51 Acceptable valuation techniques for ESOs "estimate the fair value . . . at a single point in time (for example, at the grant date) . . . [which] is not a forecast of what the estimated fair value of those instruments may be in the future."[44] Potentially appropriate valuation methodologies include the use of "an option-pricing model." "A lattice model (for example, a binomial model) and a closed-form model (for example, the Black-Scholes-Merton formula)" are examples of option-pricing models "based on established principles of financial economic theory" that "meet the requirements of FASB Statement No. 123(R)" and can be modified to incorporate the critical characteristics of ESOs.[45] Having identified these models, the FASB has not stated a "preference for a particular valuation technique"[46] and the work of the FASB Options Valuation Group has not been used to establish such a preference. The entity is responsible for establishing reasonable and consistent assumptions and estimates[47] in the course of using a valuation technique and is expected to change techniques on a prospective basis if the new choice is likely to result in a "better estimate of fair value."[48]

.52 Estimation of fair value in the case of ESOs is considered difficult in part because of the lack of a traded market in the instruments and the restrictions that the terms of the instruments represent, which some

[40] Readers of this Alert and FASB Statement No. 123(R) implementers in general are encouraged to stay abreast of regulatory evolution of the term *fair value*. After the issuance of FASB Statement No. 123(R) in December 2004, the SEC issued a number of documents summarizing their view of valuation methodologies and addressed some specific attempts at market innovation for purposes of FASB Statement No. 123(R) implementation. More broadly, at the date this Alert was written, the FASB was in the final stages of completing and issuing its new accounting standard on fair value, *Fair Value Measurements*. That standard, in particular, should be considered in one's ongoing implementation of FASB Statement No. 123(R), pursuant to the spirit expressed by the SEC staff in SAB No. 107 that improvements in valuation methodologies over the course of time would be expected.

[41] FASB Statement No. 123(R), paragraph A7.

[42] FASB Statement No. 123(R), paragraph A11.

[43] FASB Statement No. 123(R), paragraph A18.

[44] FASB Statement No. 123(R), paragraph A12.

[45] See FASB Statement No. 123(R), paragraph A13.

[46] FASB Statement No. 123(R), paragraph A14.

[47] FASB Statement No. 123(R), paragraphs A23 and A24.

[48] FASB Statement No. 123(R), paragraphs A17 and A23.

financial economists believe should affect the fair value estimate. FASB Statement No. 123(R) provides for this difficult setting when noting that "*restrictions* and conditions inherent in equity instruments awarded to employees are treated differently depending on whether they continue in effect after the requisite service period" (that is, the vesting period). For example, the "inability to transfer *vested* equity share options to third parties or the inability to sell vested shares . . . is considered in estimating the fair value [of the ESOs and the] effect of nontransferability and nonhedgeability . . . is taken into account . . . [in] an option's *expected term*."[49] By contrast, the notion that ESOs may be forfeited before the ESO rights have been earned (presumably some time before the end of the vesting period or in certain cases, loss of employment) is addressed by FASB Statement No. 123(R) by "recognizing compensation cost only for awards for which employees render the requisite service."[50]

.53 SAB No. 107 provides further implementation guidance on ESO valuation using fair value models (see the following section). FASB Statement No. 123(R) also includes several examples to demonstrate its accounting policies with special attention paid to valuation considerations. In addition, Appendix A of FASB Statement No. 123(R) and SAB No. 107 address certain limitations to valuation techniques and manners in which to address such limitations within the measurement goals of FASB Statement No. 123(R).

Balance Sheet Classification of ESO instruments

.54 The expense or cost of the ESO instrument is recorded in the income statement, according to the provisions of FASB Statement No. 123(R). The offset to the recognition of cost is a balance sheet account that recognizes the existence of the derivative contract (much as FASB Statement No. 133 requires balance sheet recognition of all derivative instruments within its scope). ESO transactions may be classified as a liability or as a component of equity, depending on the circumstances surrounding the transaction.

.55 The reader must examine the details of the ESO contract arrangement and follow the detailed rules within FASB Statement No. 123(R) to arrive at the proper classification (see paragraphs 29 through 35 of FASB Statement No. 123(R) and, where applicable, references to other FASB guidance, including FASB Statement No. 150). These classification provisions provide specific guidance on the following types of ESO arrangements:

1. A call option on another instrument classified as equity.
2. Puttable or callable shares requiring the employer to repurchase them.
3. Options that are indexed to shares that are classified as liabilities.
4. Certain option settlement provisions that will require that the ESO instruments are settled in cash.
5. Options with certain indexing to market factors other than an underlying equity instrument.
6. Certain conditions or the occurrence of contingent events, under which the substantive arrangement of the ESO contract calls into question the issuing entity's ability to deliver the equity shares when the ESO is exercised or requires cash settlement.
7. Certain provisions requiring the employer to withhold part or all of an award.
8. A broker arrangement permitting the employee to execute a "broker-assisted cashless exercise."[51]

Timing for the Recognition of Compensation Cost

.56 Generally FASB Statement No. 123(R) treats the requisite service period (RSP) as the vesting period in the ESO contract. If the RSP extends over more than one reporting period, the accounting should reflect

---

[49] FASB Statement No. 123(R), paragraph 17. For the terms that are in *italics* please refer to the Glossary in FASB Statement No. 123(R).

[50] FASB Statement No. 123(R), paragraph 18.

[51] FASB Statement No. 123(R), paragraph 35.

not only the recognition of the ESO cost but also the RSP; the cost of the ESO should be matched to the RSP. FASB Statement No. 123(R) also contains detailed guidance on how to estimate the RSP.

.57 ***If the ESO Is Accounted for as an Equity Instrument.*** If the ESO is classified as equity, the compensation cost is "recognized over the [RSP], with a corresponding credit to equity (paid-in capital)."[52] In addition, "previously recognized compensation cost . . . is not reversed . . . if the [RSP has ended and the instrument] expires unexercised (or unconverted)."[53]

.58 Paragraphs 51 through 57 of FASB Statement No. 123(R) also provide guidance on how to account for modification of ESOs that are treated as equity instruments. Modifications are "treated as an exchange of the original award for a new award."[54] Examples of some of the modifications covered include inducements, equity restructurings, repurchases or cancellations of awards, and cancellation and replacement of awards.

.59 ***If an ESO Is Accounted for as a Liability Instrument.*** Changes in fair value (or the value used for FASB Statement No. 123(R) recognition purposes) after the grant date and during the RSP for an ESO accounted for as a liability should be recognized as compensation cost over that RSP. Changes in fair value (or the value used for FASB Statement No. 123(R) recognition purposes) after the RSP for an ESO accounted for as a liability should be recognized as compensation cost in the period in which the changes occur.

FASB Statement No. 123(R) Share-Based Payments and Taxation

.60 Paragraph 58 of FASB Statement No. 123(R) summarizes the tax issues and related accounting that are relevant to the ESO issuer.

> Income tax regulations specify allowable tax deductions for [ESO] instruments. [As of December 2004 . . . IRS regulations allowed] tax deductions . . . [for the] intrinsic value of [the ESO] on a specified date.

.61 The treatment for timing differences that arise due to differences in tax law as compared with GAAP require application of FASB Statement No. 109, *Accounting for Income Taxes*. There are other potential GAAP reporting issues that may arise due to differences between the GAAP and tax treatment of ESOs, over the period ranging from the grant date to the expiration date, which are described in paragraphs 59 through 63 of FASB Statement No. 123(R), and illustrated in that Statement's Appendix A.

Required Disclosures

.62 Reporting entities must disclose for each share-based arrangement. According to paragraph 64 of FASB Statement 123(R):

a. The nature and terms of [the arrangement] . . . and the potential effects on shareholders

b. The effect of compensation cost [of the arrangement] on the income statement

c. The method of estimating the fair value of the goods or services received, or the fair value of the equity instruments granted [under the arrangements] during the period

d. The cash flow effects [from the arrangements].[55]

Additional guidance is contained in paragraphs 64, 65, A240, and A241 of FASB Statement No. 123(R).

---

[52] FASB Statement No. 123(R), paragraph 39.

[53] FASB Statement No. 123(R), paragraph 45.

[54] FASB Statement No. 123(R), paragraph 51.

[55] FASB Statement No. 123(R), paragraph 64.

EPS Implications

.63 Under FASB Statement No. 128, *Earnings per Share*, share-based arrangements covered by FASB Statement No. 123(R) must be treated as "potential common shares in computing diluted earnings per share"[56] with some conditions and exceptions. See paragraphs 30 to 35 of FASB Statement No. 128 for additional guidance on "contingently issuable shares" and paragraphs 21 through 23 for guidance on "the treasury stock method for equity instruments."[57]

.64 Appendix B to this Alert contains a listing that can be used as an index to the examples and illustrations contained in FASB Statement No. 123(R).

Section IV: What Are the Likely Effects of FASB Statement No. 123(R)?

.65 The issuance of FASB Statement No. 123(R) has resulted in significant alteration in compensation behavior. The FASB Statement No. 123(R) requirement to expense ESO compensation will most likely lead to a substantial reduction in the use of the ESO contracts, a trend to less favorable contract terms, and the evolution of financial engineering and accounting measurement technology to facilitate the measurements required by FASB Statement No. 123(R).

.66 ESO contracts are being replaced by restricted stock, issued with less favorable terms, or deleted from entity compensation plans entirely. There is now a decreased likelihood that ESOs will be a pervasive uncontrolled form of enrichment. At the same time, younger high tech companies may now be more reluctant to use ESOs as a means of retaining high quality talent.

.67 It should come as no surprise that the pace of innovation in financial engineering for ESO valuations has quickened since FASB Statement No. 123(R) was issued. Now that fair value calculations are mandatory for ESOs, improved valuation models are being announced. Most important, the responsibility for creating a suitable valuation methodology has migrated from financial economists to accountants and auditors.[58] The SEC has facilitated this valuable improvement in knowledge through some of the valuation guidance contained in SAB No. 107.[59]

.68 The end of the antiexpensing debate and the new period of financial engineering have also seen a renewed consideration of improvements to accounting policy for ESOs, including some proposed amendments to FASB Statement No. 123(R) that have been presented to the SEC and the FASB.[60]

Section V: Summary of SEC SAB No. 107

.69 On March 29, 2005, the SEC Staff, acting through the Office of the Chief Accountant and the Division of Corporation Finance, issued SAB No. 107 to provide "guidance regarding the application of . . . FASB Statement No. 123(R)." The SEC staff issued SAB No. 107 as an effort to explain and simplify the detailed technical provisions of FASB Statement No. 123(R), especially the guidance on fair value measurement, which incorporates the current GAAP measurement guidance of FASB Statement No. 107, *Disclosures about Fair Value of Financial Instruments*, and the implementation experience of other standards on financial instruments.

Below is a summary of the key provisions of SAB No. 107, with emphasis on the guidance that should be applied to the fair value measurement process for stock options. A full copy of the text is available for download on the SEC Web site at www.sec.gov.

A Summary of Stock Option Accounting Under FASB Statement No. 123(R), as Interpreted by SAB No. 107

.70 Stock option expensing covers three major topics:

1. The determination of what constitutes compensation for accounting purposes.

2. The accounting policy for the recognition of compensation costs.

3. The measurement principles that should be used to arrive at that cost.

.71 SAB No. 107 interprets FASB Statement No. 123(R) to require that any compensation for services provided by employees be recognized as a cost in the financial statements, and to eliminate past accounting practices to defer compensation on the balance sheet *before* services are provided.

.72 The effect of FASB Statement No. 123(R) and SAB No. 107 is that if an SEC issuer uses any form of stock options in lieu of cash payments to employees for services rendered, the cost of the stock options is measured on the grant date at their fair value, and charged to earnings over the period of time that the compensated services are provided. In releasing SAB No. 107, the SEC staff's goal was to assist SEC issuers in their implementation of FASB Statement No. 123(R), thereby improving the quality of the accounting information given to investors and other users of accounting information. The following table summarizes the topics addressed by SAB No. 107.

Principal Topics Covered by SAB No. 107

1. Use of FASB Statement No. 123(R) for nonemployee transactions.
2. Nonpublic entities that become public.
3. Valuation methods.
4. Assumptions used in valuation methods.
5. FASB Statement No. 123(R) and certain redeemable financial instruments.
6. Classification of compensation expense.
7. Non-GAAP financial measures.
8. First-time adoption of FASB Statement No. 123(R) in an interim period.
9. Capitalization of compensation cost.
10. Accounting for income taxes.
11. Modification of stock option contracts before the adoption of FASB Statement No. 123(R).
12. Foreign private issuers.
13. Management's discussion and analysis disclosures after the adoption of FASB Statement No. 123(R).

.73 The SEC staff has been well versed in the complexities of other implementation periods for accounting standards on financial instruments or those standards requiring software to enable implementation.[61] SAB No. 107 therefore uses the notion of a "reasonable" range of actions to comply with the valuation requirements of FASB Statement No. 123(R). Indeed, the opposite would be cause for concern: It is unlikely that any singular valuation method to determine the fair value of stock options would be so preferable as to cause the SEC to dispose of alternative methods as "incorrect" or "wrong." Nonetheless, the flexibility of implementation that the SEC staff has extended is meant to apply to the initial implementation period of FASB Statement No. 123(R). The SEC expects that, as with any other business process, over time the range of choices and reasonable actions will narrow and "best practices" will emerge.

Summary of Key SAB No. 107 Guidance

Use of FASB Statement No. 123(R) for Nonemployee Transactions

.74 FASB Statement No. 123(R) is not meant to supersede existing GAAP for nonemployee transactions. In general, if a particular nonemployee share-based payment transaction does not appear to be specifically governed by GAAP, selected FASB Statement No. 123(R) provisions can be used as analogies to account for such transactions.

Nonpublic Entities That Become Public

.75 A private company (a nonpublic entity) may measure its liabilities under stock options at their intrinsic value under FASB Statement No. 123(R) as described in paragraph 38 or select the alternative "calculated value," as described in footnote 23 to FASB Statement No. 123(R) and paragraphs A43 through A48. The choice of intrinsic value given to nonpublic entities "is an exception from what the [FASB] considers to be" a preferable measurement method. (see paragraph B142). However, nonpublic entities retain the choice to use "fair value [that] is the conceptually preferable measurement attribute" (see paragraph B143). The SEC's SAB No. 107 highlights the special case of "nonpublic entities" that are transitioning to "public entity" status (see the Glossary of FASB Statement No. 123(R) for definitions of those terms). For share options that are granted prior to the date it becomes a public entity, and for which the nonpublic entity had selected the calculated value method, the SEC staff believes the entity should continue to use that approach. If the share options are subsequently modified, repurchased, or canceled by the public entity, the form of the change should be evaluated under FASB Statement No. 123(R). Under the appropriate circumstances, any incremental compensation cost would be measured under fair value. If on the other hand the nonpublic entity had issued stock options that are liability awards accounted for using intrinsic value (which is not preferable to fair value), then upon the date the entity becomes a public entity, it should measure the liability awards at their fair value. The public entity, however, may not retrospectively apply the "fair-value-based" approach to awards granted prior to the date it becomes public (see SEC SAB No. 107, Section B). The entity must also disclose in public filings any change in measurement policy and the basis for value estimation in management's discussion and analysis (MD&A). Such disclosure should also conform to other SEC policies.

Valuation Methods

.76 The objective of FASB Statement No. 123(R) is to measure stock options at the grant date, which is the earliest possible date, using the fair value, which is the most reliable measure for financial instruments

---

[61] The provisions of FASB Statement No. 125, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, were postponed to allow time to complete software development. A similar need for systems support led the FASB to postpone the effective date for FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*, which became the primary reason for FASB Statement No. 137, *Accounting for Derivative Instruments and Hedging Activities—Deferral of the Effective Date of FASB Statement No. 133—an amendment of FASB Statement No. 133*. FASB Statement No. 133 then was amended a total of four times in the hope of perfecting the accounting implementation. The issuance of FASB Statement No. 123(R) resulted in further modifications to FASB Statement No. 133.

accepted by GAAP. Since observable market prices for stock options, or similar financial instruments, are not available as the best evidence of fair value, SEC issuers must rely on a "second best" fair value. SEC issuers are therefore expected to estimate the fair value using a valuation technique also known as the mark-to-model approach.

.77 The value of an ESO can reasonably be expected to change from the grant date to the expiration date (or exercise date) as market factors including the underlying stock price and expectations about the future changes in the stock price of the issuer change over time. The fair values used for reporting should be proxies for the actual price that would be paid for the stock options. It is possible that good faith estimates may significantly differ from the settlement value of the stock options.

.78 FASB Statement No. 123(R) does not specify any one valuation method as preferable. Any valuation technique used must satisfy three characteristics to meet the fair value measurement objective:

1. The method used must be applied consistently in conformity with FASB Statement No. 123(R).
2. The method must be based upon established principles of financial economics theory as generally applied in that field.
3. The method must reflect all substantive characteristics of the stock option instrument.[62]

.79 The SEC staff has indicated that SEC issuers will be granted flexibility in selecting models as long as each of these three characteristics has been met. Therefore, an SEC issuer does not necessarily have to select the most complex valuation model because the SEC would not object to the use of other models that meet the aforementioned characteristics. Third-party or expert valuation is neither required nor expected. However, the entity should acquire the requisite expertise to value the stock options.

.80 Future changes in valuation methods (techniques or models) are permitted within the reporting goals of FASB Statement No. 123(R). This type of change would not be considered a change in accounting principle and would not require a preferability letter from its independent accountants; disclosure of the change would, however, be appropriate. The SEC staff warns that frequent changes would not be expected.

Assumptions Used in Valuation Methods

.81 FASB Statement No. 123(R) discusses two specific technical terms used in the accounting rules for stock options: expected volatility and expected term.

.82 ***Expected Volatility.*** Some option models, such as the Black-Scholes-Merton model, use a parameter known as volatility, which is a measure of how much an entity's stock price changes (equity prices are the option's "underlying market factor").[63] Volatility can be estimated, depending on the circumstances, in forms known as implied volatility and historical volatility. Expected volatility is the estimated future volatility of equity prices for use in valuation models.

.83 FASB Statement No. 123(R) does not specify how to measure expected volatility. The estimate used by the SEC issuer should be a "likely" match to the estimate that a marketplace participant would use. The SEC staff believes that SEC issuers should use best faith estimates to identify and use sufficient information, including implied volatility, historical volatility, or both measures, to estimate expected volatility.

---

[62] In general, the reader can think of "substantive characteristics" to include any term of the financial contract that would affect its valuation in efficient markets under normal circumstances.

[63] *Market factor* is a term used by the SEC in FR-48, "The Market Risk Rule." Market factors include interest rates, foreign exchange rates, commodity prices, and equity prices.

.84 *Implied volatility.* This is the volatility assumption inherent in the market prices of an entity's traded options or financial instruments with characteristics similar to options. SEC issuers are reminded that implied volatility is likely to be a suitable measure if the SEC issuer has other equity instruments traded in the market, including options and embedded options. The estimation process should be applied consistently; however, if new or different information becomes available that is relevant to estimating the expected volatility, this information should be incorporated into the model.

.85 If traded options are used to estimate expected volatility, the following should be considered in evaluating the market data:

1. The volume of market activity in the underlying shares and traded options.
2. The ability to "synchronize" variables used to derive implied volatility by selecting prices from markets trading at similar times and by measuring volatility as close as possible to the grant date of each series of options.
3. The similarity of the exercise price and term length of the traded options to the exercise price and term length of the employee stock options.

.86 *Historical volatility.* SEC issuers who estimate expected volatility by computing historical volatility should consider the period of time over which volatility is calculated—either the estimated or contractual term of the options—and should also note the following:

1. Weighing more recent periods more heavily than earlier periods in contracts with long terms may not be appropriate.
2. Use of other periods of time, other than the expected or contractual term of the option, to derive the estimate of volatility is admissible if it results in improving the estimate.
3. The intervals over which data is taken to form the estimate must be "appropriate and regular."
4. The selection of the frequency in data points must be sufficient to provide enough data points.
5. A consistent point in time within each interval should be selected.
6. The selection and use of data should be sensitized and adjusted to consider future events that would alter the volatility estimate.

In rare cases, a certain period of time may be excluded from the data; if any such exclusion exists, the SEC issuer must be prepared to support this statistical decision.

.87 It is expected that SEC issuers could, in certain circumstances, reasonably conclude that exclusive reliance on either historical or implied volatility would provide an estimate of expected volatility that meets the measurement objectives of FASB Statement No. 123(R). FASB Statement No. 123(R) contains a list of factors that SEC issuers should consider in this regard; SAB No. 107 contains further criteria for the SEC issuer to consider if intending to rely on only either implied volatility or historical volatility.

.88 FASB Statement No. 123(R) requires the SEC issuer to disclose the expected volatility and the method used to establish it. The SEC staff expects the disclosure to include whether implied volatility, historical volatility, or some combination of both is used to derive expected volatility. In addition, the SEC issuer is expected to satisfy the requirements of other SEC disclosure rules regarding critical accounting estimates, such as SEC Release No. FR-60, "Cautionary Advice Regarding Disclosure About Critical Accounting Policies." and SEC Release No. FR-72, "Commission Guidance Regarding Management's Discussion and Analysis of Financial Condition and Results of Operations," by including an explanation of the method used, and the basis for the company's conclusions.

.89 Other methods of estimating expected volatility are acceptable, assuming the SEC issuer includes appropriate adjustments as detailed in the full text of SAB No. 107. The overall goal is for each SEC issuer to use an expected volatility estimate that as closely as possible suits the volatility that the market ascribes to its securities, thereby achieving the measurement objectives of FASB Statement No. 123(R).

.90 ***Expected Term.*** The FASB documented its opinion that the expected term of stock options should be the assumed basis for the fair value estimates on the ESO contracts. The contractual term is not used, since the option holder typically exercises the option before the end of the option's contractual term. The expected term is a valuation parameter that can capture the effects of nonhedgability, nontransferability, and forfeitability of stock options. In such cases where the expected term captures these effects, no other adjustments to the valuation parameters are needed. The expected term, however, may not be shorter than the vesting period of the option contract; the end of the vesting period coincides with the first possible exercise date and this date would represent the shortest time span that the options can exist.

.91 The complexity of valuing financial instruments can be overcome by placing similar instruments in groups and applying the valuation techniques to the group as a whole. The SEC staff believes that this can be accomplished for an entity that frequently grants options with as few as one or two groups. Approaches to estimating the expected term are considered reasonable if they result in an option fair value that is an equivalent to an "exchange price" for the option. Subsequent changes to the term estimates may be reasonable if new evidence is found; changes would not invalidate the reasonableness of the original expected term assumption.[64] SAB No. 107 details additional comparative information that might, if used, contribute to estimates of the expected term, when a company determines that its historical stock option exercise activity does not provide a reasonable basis for the estimate of the expected term.

.92 The SEC staff recognizes the following terms as "plain vanilla" stock option terms:

1. Options are granted at-the-money.
2. Exercisability depends only on the employee performing the necessary services through the vesting period.
3. Employment termination before vesting results in option forfeiture.
4. Employment termination after vesting results in a limited time to exercise the stock options.
5. The options are nontransferable and nonhedgeable.

.93 If a company has issued plain vanilla stock options and chooses not to rely on historical exercise data, the SEC staff would accept a "simplified" method for estimating the expected term:

Expected Term = (Vesting Term + Original Contract Term)/2

Once elected, the simplified method must be applied consistently to all "plain vanilla" stock options and this choice should be disclosed in the financial statement footnotes. The SEC staff expects that a sufficient amount of market data on stock options exercises will become available over time, so that the simplified method would not be used after December 31, 2007.

FASB Statement No. 123(R) and Certain Redeemable Financial Instruments

.94 SEC issuers must evaluate whether stock options should be presented as liabilities under FASB Statement No. 123(R), or alternatively, as either equity or outside of permanent equity (also known as "temporary equity") in accordance with SEC Accounting Series Release No. 268, *Presentation in Financial Statements of "Redeemable Preferred Stocks"* (ASR 268) and related guidance. Certain redeemable financial

[64] *Expected term* in the case of FASB Statement No. 123(R) is similar to *expected maturity* as it is used in FR-48, "The Market Risk Rule."

instruments may cease to be governed by FASB Statement No. 123(R) because "the rights conveyed by the instrument to the holder are no longer dependent on the holder being an employee of the entity." In this instance, the financial instruments should be reviewed for application of ASR 268 or other accounting rules under GAAP.

.95 If an instrument qualifies for recognition as temporary equity, the amount that should be presented as temporary equity is generally equal to the fair value of the instrument multiplied by the percentage vested.

Classification of Compensation Expense

.96 The compensation expense to employees from stock options, even if a noncash amount, should be reported in the income statement on the same line as the cash basis salary paid to those employees. There is no guidance given as to the exact line item in the income statement that should be used to disclose these amounts. Separate disclosure to highlight the location and amount of compensation expense related to share-based payment transactions may be appropriate.

Non-GAAP Financial Measures

.97 SEC issuers may wish to provide a non-GAAP measure of earnings in which the cost of stock options is excluded from net income; such disclosures must abide by the provisions of Regulation G and Item 10(e) of Regulation S-K. If such non-GAAP measures are shown, the SEC issuer must demonstrate the usefulness of excluding stock option expenses to the extent that they are nonrecurring items; the disclosure should not be used as an attempt to smooth earnings. If the stock option expense is excluded from the entity's internal accounts to evaluate performance, the SEC issuer may have a basis to conclude that the exclusion of the expense in a non-GAAP measure disclosure satisfies the requirements of Item 10(e) of Regulation S-K. In such cases, disclosures should include both the reason for the presentation of the non-GAAP financial measure and, if material, the additional purposes for using that measure within the entity. SEC issuers should also consult the June 2003 SEC document *Frequently Asked Questions Regarding the Use of Non-GAAP Measures* to confirm that the disclosures are not misleading.

.98 In MD&A, SEC issuers should discuss the trends and variability of the entity's earnings and analyze specific line items if it is relevant to understanding a company's performance. Such narratives may be especially helpful in the case of noncash expenses from stock options that are likely to be nonrecurring. The SEC issuer must also be aware of certain prohibitions in FASB Statement No. 123(R) and SEC rules regarding the exclusion of stock option expense in pro forma income statements.

First Time Adoption of FASB Statement No. 123(R) in an Interim Period

.99 This section of SAB No. 107, issued on March 29, 2005, has largely been superseded by the April 14, 2005, announcement from the SEC Chief Accountant that the effective date of FASB Statement No. 123(R) would be postponed to the start of fiscal years beginning on or after June 15, 2005.

.100 SEC issuers are not permitted to apply FASB Statement No. 123(R) retrospectively. This means that in general, cumulative effects adjustments should be recorded on the date of adoption of FASB Statement No. 123(R), and *not* any date before the adoption date (including the beginning of the fiscal year in which adoption occurs).

.101 While the action of the SEC Chief Accountant postpones the required effective date of FASB Statement No. 123(R), SEC issuers may still early adopt the provisions of FASB Statement No. 123(R).

Capitalization of Compensation Cost

.102 SEC issuers may accumulate inventory costs during a manufacturing process in the form of compensation paid through stock options. SAB No. 107 states that:

1. Deferral of FASB Statement No. 123(R) costs through inventory accounts is expected as long as the costs are properly reflected in subsequent periods through earnings, normally through cost of sales; this deferral process is consistent with the matching principle and relies on inventory accounting rules outside of FASB Statement No. 123(R).

2. Inventory tracking systems that predate FASB Statement No. 123(R) may not be able to incorporate FASB Statement No. 123(R) costs at the same level of detail as more recent stock compensation costs. A period-end adjustment to the overall inventory balance for FASB Statement No. 123(R) costs would be acceptable and would not in itself negate the claim that internal controls are effective, as required by the SEC's rules implementing Section 404 of the Sarbanes-Oxley Act of 2002 (see SEC Release No. 34-47986).

Accounting for Income Taxes

.103 If the entity deducts more in compensation costs for tax purposes than for financial reporting purposes, any resulting excess tax benefits must be reported as additional paid-in capital. If current period tax deductions are less than the cumulative compensation cost reported for financial reporting, the entity should write off the deferred tax asset, net of any valuation allowance, against any remaining additional paid-in-capital from previous awards. The remaining balance of the write-off, if any, should be recognized in the income statement. Thus, FASB Statement No. 123(R) necessitates the tracking of tax attributes relating to share-based payment transactions. FASB Statement No. 123(R) does not specify the date that the entry to additional paid-in capital should be calculated, though the SEC notes that the calculation would not be required on the date FASB Statement No. 123(R) is adopted. FASB Statement No. 123(R) also does not require disclosure of the additional paid-in capital available for offset; the SEC notes that a company only needs to calculate the additional paid-in capital available for offset when the company's deductions per the tax return are less than the relevant deferred tax asset, and to ensure that a sufficient amount of paid-in capital is available for the offset of the deduction shortfall.

Modification of Stock Option Contracts Before the Adoption of FASB Statement No. 123(R)

.104 Under certain circumstances, the earnings' impact on some stock options under FASB Statement No. 123(R) can be mitigated if those contracts are modified before the adoption of FASB Statement No. 123(R) by accelerating the vesting date. The SEC interprets FASB Statement No. 123(R) to mean that this specific modification would result in the recognition of the remaining amount of the compensation cost in the period in which the modification is made. The test of whether such a modification has been made is if the employee could exercise the options after the modification, whereas before the modification he or she could not. Since the entire amount of the compensation cost would have been recognized under rules in effect before the adoption of FASB Statement No. 123(R), no further cost would be recognized in the income statement after adopting FASB Statement No. 123(R). Significant modification of option terms necessitates disclosures of the terms of the modifications and the reasons for the modifications, particularly if a company accelerates the vesting of out-of-the-money options before adopting FASB Statement No. 123(R).

Foreign Private Issuers

.105 The SEC staff believes that application of the measurement provisions of International Financial Reporting Standard No. 2, *Share-Based Payment*, would result in a fair value measurement that is consistent with the fair value objective of FASB Statement No. 123(R). Thus, reconciling items between International Financial Reporting Standards and U.S. GAAP should typically not occur within the guidelines of SEC Form 20-F, though certain other reconciling items may still in fact occur.

MD&A Disclosures After the Adoption of FASB Statement No. 123(R)

.106 An SEC issuer may use different accounting policies subsequent to the adoption of FASB Statement No. 123(R) than with previous applicable rules for stock option accounting reflected in Accounting Principles

Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*; FASB Statement No. 123, *Accounting for Stock-Based Compensation*; and FASB Statement No. 148, *Accounting for Stock-Based Compensation—Transition and Disclosure—an amendment of FASB Statement No. 123* Also, changes to measurements required by FASB Statement No. 123(R) may occur as SEC issuers refine their ability to form assumptions and estimates. Both differences may result in material changes to the SEC issuer's financial statements over time and so affect the comparability of financial statements.

.107 SEC issuers should consider including the following MD&A disclosures:

- The transition method selected and the financial statement impact in current and future reporting periods.
- The accounting method for stock options before adoption of FASB Statement No. 123(R), and the impact, or lack of impact, on the prior financial statements.
- Modifications made to stock options before adoption of FASB Statement No. 123(R) and the rationale behind such modifications.
- Differences in valuation methodologies or assumptions used to estimate fair value upon adoption of FASB Statement No. 123(R), as compared to the methodologies or assumptions previously used.
- Changes in quantity or type of instruments used in share-based plans (for example, changes from stock options to restricted shares).
- Changes in the terms of share-based payment arrangements.
- Discussion of any one-time effect upon the adoption of FASB Statement No. 123(R), such as any cumulative adjustments.
- Total compensation cost for nonvested awards that are not yet recognized and the weighted average period over which the nonvested awards are expected to be recognized.

Special Topics

Receivables From Sale of Stock

.108 When capital stock is issued to the entity's officers in return for a receivable before cash payment is made, the receivable is deducted from equity and is not presented as an asset, as consistent with Rule 5-02.30 of Regulation S-X; the requirement remains to separately list those receivables in the balance sheet.

Accounting for Expenses or Liabilities Paid by Principal Stockholder(s)

.109 If a company is named as a defendant in litigation, and a principal stockholder transfers a portion of his or her shares to the plaintiff in order to settle such litigation, the value of the shares transferred should be recorded as an expense in the company's income statement and as a credit to additional paid-in capital. The SEC staff believes that the substance of such a transaction is the payment of a company expense through contributions by a stockholder, and that such accounting treatment is in accordance with the provisions of paragraph 11 of FASB Statement No. 123(R).

Section VI: What Is the Value of a Stock Option?

.110 While SAB No. 107 provided guidance on a variety of topics related to FASB Statement No. 123(R), much of the guidance in SAB No. 107 focused on assumptions used in fair value methodologies; this section will further explore fair value accounting for ESOs, as required by FASB Statement No. 123(R) and SAB No. 107. An in-depth discussion of fair value accounting is necessary, as a complete implementation of FASB Statement No. 123(R) requires the understanding of how accounting entries related to FASB Statement No. 123(R) incorporate the use of fair value estimates, what the estimates represent, and the validity of the valuation methodology that is used to derive the estimate.

The Debits and Credits for ESO Fair Values

.111 The most basic accounting entry related to FASB Statement No. 123(R) would be to record the entire ESO fair value estimate as an expense, or debit, and to record a balancing credit in equity (or in some cases liabilities). Therefore, if an ESO's grant-date fair value is determined to be $200, the required entry would be to debit compensation cost for $200 and to credit an employee stock option liability account (or, depending on the circumstances, an equity account) for $200.

.112 A subtle aspect of FASB Statement No. 123(R) is that in cases in which the ESO is to be recorded in the equity portion of the balance sheet, the fair value will not be remeasured.[65] In these cases, the measurement process is greatly simplified and conducted on only one date, the ESO grant date.

.113 The use of the grant-date as the proper time to recognize the cost of the ESO in the financial statements reflects the FASB's objective of recognizing the value of contractual compensation arrangements in the financial statements. It also reflects the goal of applying recognition criteria for financial instruments consistently. The use of the grant date to recognize ESOs is consistent with the requirement to recognize other classes of derivatives on the analogous date: the start date for swaps, the purchase date for exchange traded futures and options, and the transaction date for forwards and over-the-counter options. The use of the grant date for recognizing compensation cost is also consistent with the policy of recognizing securities on the trade or acquisition date, not the settlement date.

.114 The overall valuation methodology must consider all the critical terms of the ESO derivative contract through its expiration date.[66] The valuation methodology also needs to use the best estimate of each parameter on the grant date. For example, the use of a volatility estimate that is two years old for a current valuation would not be appropriate; also, the use of interest rate and volatility estimates from different periods would possibly lead to an estimation error. As a result the valuation methodology must be robust enough to capture all contract terms and yet be flexible enough to use parameters that can be retrieved efficiently. The methodology also must be verifiable.

ESO Fair Value Within the GAAP Definition of Fair Value

.115 SAB No. 107 explains that the ESO fair value measurement should be the equivalent of an exchange price for the ESO. Some consider this to be an unrealistically high measurement standard because ESOs are more illiquid than most over-the-counter derivatives contracts; they are principal-to-principal contracts that are not traded, not transferable, and not hedgeable. Because no current price exists for ESOs, the issuing entity must rely on a mark-to-model methodology. FASB Statement No. 123 explained that the fair value of

---

[65] In the complete form of fair value accounting for a financial instrument, the instrument is recognized at its fair value when purchased, if exchange traded, or created, or if in the form of a principal-to-principal contract. At each subsequent reporting date, the fair value is updated and changes from the original fair value (so-called fair value flows) are recorded in income (either earnings or other comprehensive income). The updating of the fair value measure is generally the same as marking-to-market or remeasurement. Various permutations of fair value accounting for financial instruments are found in FASB Statement No. 115 and FASB Statement No. 133. Fair value notions are also used throughout GAAP to record the cost of an asset or liability on the date it is acquired or to restate carrying amounts on the balance sheet to the lower-of-cost-or-market (LCM) when a permanent impairment of the item's fair value has occurred.

[66] It is understood that a "critical term" is one that is value-relevant—the decision to include it or exclude it from the valuation methodology alters the fair value estimate itself.

ESOs could be extracted from option models such as the Black-Scholes-Merton Option model. More recently binomial models have been highlighted as an effective alternative.[67]

.116 Neither the FASB nor the SEC has selected any one model or approach as the most suitable approach for the measurement tasks within FASB Statement No. 123(R). Experts continue to disagree, and change their opinions, as they consider approaches that might meet the SEC goal of estimating fair values that are, in effect, exchange prices.

.117 The full fair value of the ESO can change over time as the entity issues new contracts. In SAB No. 107, the SEC recognizes that the market's skill in valuing ESOs will increase once FASB Statement No. 123(R) is implemented. In some cases, the full fair value is not used if the entity's own stock (the underlying) is not traded in an exchange market, as is the case for private companies. The absence of a public market in the private entity's stock is an example of the setting that may cause estimating the expected volatility of the entity's stock to be impracticable. The alternative measures for fair value permitted under FASB Statement No. 123(R) discussed elsewhere in this Alert can then be used as a fair value for reporting purposes if the appropriate conditions for such a substitution are met.

Valuation Methodologies: The Accounting and Auditing Approach Compared to the Financial Engineering Approach

The Financial Engineering Approach

.118 This is a valuation methodology that relies on a mark-to-model approach using any one of a number of models and associated estimates of parameters that the entity in its judgment believes is suitable to its form of ESO contract and that achieves the measurement objective of FASB Statement No. 123(R) of estimating the equivalent of an ESO exchange price. Examples of those approaches include "closed form" solutions such as the family of models within the Black-Scholes-Merton models, the lattice models that include the binomial model, and separate methods of estimating parameters such as expected maturity and expected volatility that are needed to operate these models.

.119 The difficulties in applying these methods are numerous: public policy issues, limits on the use of the financial economic theory underlying the valuation methodology, and the apparent inability to achieve an "exchange price equivalent."

.120 ***Public Policy Issues.*** Substantial arguments were displayed to the FASB to discourage the financial statement recognition of ESOs due to the perceived inability to value the derivatives with sufficient quality to justify placement in the financial statements. SAB No. 107 must be consulted for guidance on how to implement FASB Statement No. 123(R) using models that are "flawed but the best available." SAB No. 107 also gives guidance on how to migrate to improved methods over time and reconcile future values based on those improved methods to weaker methods used at the effective date of the standard.

.121 ***Limitations on Available Financial Economic Theory.*** Existing financial economics has taken the approach that existing models or attempts to modify those models for the purpose of ESO valuation are producing superior valuations as compared to the simple and unadjusted use of basic option pricing methods. A consistent observation is that the resulting values, at least at grant date, are high as compared with the valuation experts' "economic intuition" of a preferred but as-yet unsubstantiated fair value. However, there is also uniform agreement that the specific contract provisions of ESOs result in many potential valuation errors, with only limited narrowing since December 2004, when FASB Statement No. 123(R) was released.

---

[67] During the deliberations for FASB Statement No. 123(R), the FASB established the Options Valuation Group, which met with the FASB to provide information on the choice of and operation of various methodologies. At various times in the last 15 years of ESO deliberations that led to the issuance of FASB Statement No. 123(R), the FASB has also met with leading academic financial economists who are experts in the use of option valuation tools.

.122 ***Inability to Achieve a Verifiable "Exchange Price Equivalent."*** The continued dialogue within the financial engineering community is that even a new class of improved valuation methodologies continues to fall short of an "exchange price equivalent." Only one valuation technique has the attribute that Wall Street traders, not valuation experts, have informally considered it a replication of the pricing methodology that is performed on their trading desks.[68]

.123 While the FASB considered the advice of the Options Valuation Group to formulate the fair value guidelines in FASB Statement No. 123(R), it declined to specify any one model as the best alternative, nor would it list the models that may be considered suitable for the entity. FASB Statement No. 123(R) only specifies that the methodology must rely either on current prices (which are not available for ESOs as well as the similar assets that might be used as proxies) or a model that applies fundamental principles of "financial economic theory . . . [that] are generally applied in that field."[69]

The Accounting and Auditing Approach

.124 Accountants often describe the fair value of an option as having two parts:

Fair Value FOR ANY OPTION = [Time Value + Intrinsic Value]MAX VALUE ZERO[70]

The accounting formula applies to any option regardless of the complexity of the option contract or the nature of, or lack of, the "price discovery" system for the contract as a financial instrument.[71] Many financial instrument portfolios contain illiquid positions in derivatives and other financial instruments. The valuation issues in this instance are identical to those presented by ESOs. In both cases current exchange prices do not exist, broker confirmations are not available, and standard financial engineering approaches fail (see below).

.125 Unlike other option contracts, the intrinsic value will not be realizable until the vesting date. On the date the ESO option holder chooses to exercise, the time value becomes irrelevant and one can think of the option value as being its intrinsic value, even if that value is zero. The fair value of the ESO might become much greater than the grant date fair value if the option becomes in-the-money (for instance, early during the exercise period, when there is still substantial time value). Conversely, the fair value of the ESO may be zero by the time the expiration date is reached, in the case when the ESO is both out-of-the-money and not exercised, as there would be no time left to allocate to the time value estimate.

.126 The grant-date fair value will normally entirely reflect time value as ESOs are written at-the-money or out-of-the-money. But does this fair value represent the actual compensation cost if the realizable intrinsic value may be a different amount, even zero? The answer is yes: the grant-date fair value is a reasonable estimate of the future expected compensation cost because it is based on option valuation methodology that estimates the future cash flow and then discounts it to the present. The estimate of an option's fair value is similar to the estimate of the fair value of a debt security based on the simple "net present value" calculation. The option methodology arrives at a discounted present value by using both interest rate and probability-type factors (regardless of the model selected), whereas the net present value method applied to a fixed income security uses only an interest rate in the discounting process.

.127 FASB Statement No. 123(R) applies the following remeasurement principles to ESOs. (See Section III on the detailed accounting provisions of FASB Statement No. 123(R).)

1. *If the ESO is recorded as a liability.* Subsequent to the grant date, the ESO is treated as a derivative classified as a liability; in a manner consistent with FASB Statement No. 133, the ESO is remeasured on every reporting date and changes in its fair value are recorded as compensation costs using the earnings rules that apply to the ESO contract.

---

[68] See Le Guyader paper, "A Simple Way to Recognize Stock Options at Fair Value in Income" (2006) available at www.kerlouet.org.

[69] See FASB Statement No. 123(R), paragraph A13.

[70] See the Internet support site for this Alert, www.kerlouet.org, for the paper that discusses this type of notation.

[71] *Price discovery* is a term of art used by financial engineers. It means that the market price for an item is readily observable. The quality of price discovery depends on the nature of the market for the item, including volume and frequency of trading.

2. *If the ESO is classified as equity.* Subsequent to the grant date, the ESO is treated as an equity instrument; in a manner consistent with GAAP for other equity instruments, the ESO is not remeasured, thereby preventing the recognition of earnings from an equity item.

.128 The method easily defeats the criticisms that an ESO cannot be valued for reporting purposes. It can be used to measure the fair value of the ESO on the grant date and at any subsequent remeasurement date required under FASB Statement No. 123(R). The audit approach locates proxies for the ESO that are traded or efficiently valued and that, with a possible adjustment factor, can act as substitutes for the ESO. These proxies can result in a reportable fair value that meets the SEC description of an exchange price.

.129 The auditing approach to ESO valuation is based on established principles of financial economic theory, specifically the equivalency of a derivative to its replicating portfolio under no arbitrage conditions. In turn the grant-date fair value is the sum of the fair value of component instruments in the replicating portfolio. These fair values are market values of similar instruments, or mark-to-model values of similar instruments when observable market prices are not available. When valuations are performed, the modeling techniques are applications of the fundamental propositions of corporate finance, including the time value of money and risk-neutral valuation.[72] Finally the auditing approach to valuation is consistent with the FASB Statement of Financial Concepts No. 7 definition of *fair value*, which is designed to be a "*value in a current exchange*."[73] The component values and the aggregation of an ESO fair value mirror the "amount [at which] instruments with the same characteristics . . . would be exchanged."[74]

Matching Valuation Methodology to Contract Terms and Parameter Specifications

.130 The principle valuation difficulty with respect to ESOs is that they contain many contract terms that are relevant to valuation, but such terms are either excluded from valuations or poorly specified in newer models built for ESOs. The ESO contract terms that reappear as valuation issues include:

1. The length of the contracts.
2. The treatment of the vesting period.
3. The contract provisions for termination or alteration of the contract if employment is terminated.

.131 Even if a model perfectly reflected the ESO contract terms, there would still be difficulty in selecting the parameter values to be used as inputs to the model to generate fair values. Since ESOs are both long dated and permit exercise at any time during a potentially lengthy exercise period, the expiration date of the ESO contract seems to consistently overstate the expected maturity of the contract.[75] Option models and modern financial economic theory have many ways to estimate the volatility and associated probability factors. In the case of ESOs, the volatility estimate must suit the particular ESO issuer and must also be consistent with the terms of the ESO contract: a three-year volatility estimate on the S&P 500 would not be a likely estimate of volatility for a seven-year ESO contract on a small biotechnology company that has just gone public. The summary of SAB No. 107 includes a discussion of the issues that should be considered in specifying expected maturity and expected volatility.

---

[72] For more detailed guidance, see the fair value guidelines of FASB Statement No. 123(R) incorporated in its Appendix A under the title "Fair Value of Instruments Granted in a Share-based Payment Transaction."

[73] See FASB Statement No. 123(R), paragraph A7.

[74] See FASB Statement No. 123(R), paragraph A8.

[75] In other regulations on the market risk posed by derivatives, the SEC has recognized that any financial instrument with an imbedded put or prepayment option (with the option being held by the entity's counterpart or investor) is likely to result in an expected maturity shorter than the stated maturity. Residential mortgages are one class of assets with this prepayment risk. See the SEC Market Risk Rule in SEC FRR 48.

Section VII: How Can Stock Option Expense Be Minimized?[76]

.132 Companies will most likely begin to seek ways of reducing their stock compensation expense, as a large percentage of the reporting entities within the FASB constituency continue to debate the provisions of FASB Statement No. 123(R). The battle against FASB Statement No. 123(R) was focused on two fronts: opposition to recognizing compensation expense and claims that the value used for expensing was not determinable for accounting purposes. Although the press has recounted that FASB Statement No. 123(R) has generally been well received, some rough surveys show the acceptance rate to be no more than 50 percent in various industry segments.

.133 Given this history, it is not surprising to find evidence of alternative means of compensation or modified ESO contract terms designed to minimize the expense reported for stock options. The four general strategies that have emerged are (1) ESO contract modification, (2) substitution of other forms of compensation, (3) adjustment of the valuation parameters, and (4) the potential deferral of compensation charges.

ESO Contract Modification

.134 If an entity wishes to minimize the expense representing ESO compensation, it can alter ESO contract terms that are captured in valuation methodologies in order to produce a favorable measurement outcome. The form of the contract modification would need to reflect some care over whether the goal is minimizing grant-date fair value or minimizing the cumulative fair values recorded over the life of the contract. In addition, many of these contract modifications can act only to reduce the entity's expense by reducing the compensation paid to the worker.

.135 Regardless of the valuation methodology, some of the following contract changes to standard option contract provisions would reduce the contract value and the expense recognized:

1. The term of the option is shortened.
2. The vesting period of the option is lengthened.
3. The strike price is raised.
4. The exercise features are constrained in some way that makes exercise during an in-the-money period less likely.

Substitution of Other Forms of Compensation

.136 In the early stages of the FASB Statement No. 123(R) deliberations, some proponents of stock option expensing were discovered to be using restricted stock and eliminating the ESO as a compensation tool. Even those who opposed stock option expensing on policy grounds (the need to define core earnings and eliminate manipulation of earnings before adding another expense variable to the income statement) favored the substitution of restricted stock for ESOs.

.137 The use of restricted stock is thought to minimize the moral hazard opportunities represented by ESOs. As a leveraged option derivative, ESOs escaped easy detection and measurement; the accounting standards before FASB Statement No. 123(R), which were more disclosure-based, were criticized for the poor way in which they reported the dilution risk of ESOs. The award of restricted stock, however, attacks the problem of dilution risk by actually issuing shares. Investors are more able to encourage control of unwanted

[76] The author and the AICPA staff do not mean to suggest or support earnings management schemes or devices that would bias fair value to a minimum or a maximum value. The reader is reminded that the goal of ESO fair value measurement is to provide a fair value in financial statements that reflects an "exchange price" (see Section III).

dilution when they see issuances of additional shares. Also, employees are more likely to have an incentive attachment to the entity when they own shares that may be lost, rather than have a choice but not an obligation to purchase shares sometime in the future, as in the case of ESOs.

.138 However, the substitution of restricted stock for ESOs comes at a price. The incentive arrangement between the entity-employer and the stock holder-employee does not duplicate the contractual relationship of the ESO, and the dilution risk becomes realized at an early stage of the compensation arrangement.

Adjustment of the Valuation Parameters

.139 The structure of most fair-value models used in the ESO valuation process calls for estimating relatively sophisticated financial variables. These variables are estimated from more basic capital market variables. Capital market estimates of volatility ranging from implied volatility to historical volatility may appear in the form of “expected volatility.” The probability that the ESO will be exercised before its expiration date is reflected in an estimate of the “expected maturity” of the contract. Aside from the “no exercise” feature during the vesting period, exercise features may be limited by other specific contract terms, including forfeiture and nontransferability.

.140 The value of any option can be minimized by any one of the following means:

1. Reducing the estimate of volatility.
2. Shortening its term.
3. Interpreting the contract to contain a legal exercise limitation.

The Potential Deferral of Compensation Charges

.141 FASB Statement No. 123(R) includes guidance for amortizing the cost of the ESO over the life of the vesting period, as described in the previous sections. In addition, SAB No. 107 states that some ESO costs may be capitalized as inventory, as such ESO costs may be deemed to be a labor cost related to inventory. The compensation expense related to the ESOs would subsequently be recognized as cost of sales once the inventory is sold.

Section VIII: Regulatory Actions Affecting FASB Statement No. 123(R) Since Issuance

.142 After the issuance of FASB Statement No. 123(R) in December 2004, the SEC and the FASB acted promptly to issue additional guidance and clarification on topics such as the effective date of the accounting standard, guidelines for measuring the fair value of the instruments recognized in the financial statements, and other issues that the constituents of the accounting rulemaking process have put to these regulators. The additional guidance began with the issuance of SEC SAB No. 107 and continues with the issuance of FASB staff positions on specific implementation topics. The following sections summarize the key provisions of the items that the SEC and FASB have issued since December 2004.

Statements of the SEC Chief Accountant

.143 The SEC Chief Accountant has been very active in the implementation of FASB Statement No. 123(R). On the date FASB Statement No. 123(R) was issued, the SEC Chief Accountant noted that the standard resulted in the principal regulatory goal of providing "more comparable information in financial statements."[77] In this statement he encouraged financial statement preparers and their auditors to "use their best judgment" concerning the difficult tasks of "[using] assumptions and estimates . . . and some of the inputs to valuation models" and noted that the SEC staff was preparing to provide appropriate implementation guidance.

.144 On March 29, 2005, the Chief Accountant announced the release of SAB No. 107, which among other things "provides the staff's views regarding the valuation of [ESOs]."[78] This announcement reiterates the general understanding that the issuance of FASB Statement No. 123(R) had been "controversial . . . [and the result of FASB deliberations and discussions that were] extensive and far-reaching." As forecasted in FASB Statement No. 123(R) and SAB No. 107, the hoped-for improvement in FASB Statement No. 123(R) should be an ongoing process in which the SEC "will continue to monitor [FASB Statement No. 123(R)] implementation . . . and . . . consider the need for additional guidance as necessary." That additional guidance has been issued through subsequent announcements of the SEC and further implementation guidance and accounting rules issued by the FASB described below. SAB No. 107 is described in Section V of this Alert.

.145 On April 14, 2005, the SEC Chief Accountant announced a postponement of the required effective date of FASB Statement No. 123(R) to the beginning of the next fiscal year after June 15, 2005, which for most public SEC reporting companies with calendar year ends means that the statement can be implemented as of January 1, 2006. The SEC noted that the additional implementation time, among other things, would allow companies to "change their accounting systems in a more orderly fashion and should allow auditors to conduct more consistent audit and review procedures."[79]

Statement of the SEC Chairman

.146 On September 9, 2005, the SEC Chairman announced the release of informal SEC staff progress reports on the "evaluation of proposals to value employee stock options for financial reporting purposes."[80] When FASB Statement No. 123(R) was issued, the FASB noted that in its early implementation fair values might need to be estimated from "mark-to-model" procedures as employee stock options and similar instruments were not traded; the FASB also expressed the hope that eventually, traded markets in such instruments would emerge, and that the resulting market prices would represent an improvement in fair values used for financial reporting purposes. One SEC issuer had worked for some months to create a traded instrument whose values could be used as a proxy or an indirect indicator of the fair value of ESOs that the company issued to employees. As part of this innovation, the issuer sought the assurances of the SEC that the proxy market prices would be suitable, and possibly the best estimate, of ESO fair values. It is widely understood that SEC Chairman Cox's announcement was the strongest statement that the SEC was willing to make on the proposed innovation; the SEC's announcement did not mention the issuer directly.

SEC Chairman Announcement

.147 The SEC Chairman encouraged continued market innovation, which he saw as "robust efforts . . . that have the potential to accurately measure the cost of [ESOs, although the current SEC views are] subject to ongoing assessment." He emphasized the current position of the SEC and the FASB that when available, current market prices, for example, those derived from "the use of an appropriate market instrument . . . [have] distinct advantages over a [mark-to-model] approach." The SEC announcement included separate

[78] See SEC Office of the Chief Accountant and Division of Corporation Finance Release Staff Accounting Bulletin, March 29, 2005.

[79] See "Commission Amends Compliance Dates for FAS123(R) on Employee Stock Options," issued April 14, 2005.

[80] See SEC Press Release 2005-129 of September 9, 2005, "Statement of Chairman Christopher Cox regarding use of Market Instruments in Valuing Employee Stock Options," available at www.sec.gov/news/press/2005-129.htm.

announcements by the SEC Chief Accountant and the release of reports on the topic of ESO valuation by the SEC's Office of Economic Analysis.

Statement by the SEC Chief Accountant

.148 Simultaneously with the SEC Chairman's announcement, the SEC Chief Accountant issued a statement concerning the SEC staff's assessment of "several different strategies being considered by issuers in an attempt to bring market forces to bear on the valuation of employee stock options."[81] He notes that while the "measurement objective [of FASB Statement No. 123(R)] is to estimate the grant-date fair value of the [ESOs], . . . the FASB did not attempt to consider the appropriate design of an instrument that might [proxy for the ESOs in order to derive] a market-based value of [ESOs]." The SEC Chief Accountant stated that he and the SEC staff were now "comfortable that it should be possible to design [such proxy] instruments . . . and further . . . [the SEC had] significant doubts based on [Office of Economic Analysis]'s views, as to whether it would be possible to design [such a proxy] . . . instrument . . . by relying on similar contractual terms and conditions [of an actual ESO contract]." While this speech could not address the specific discussion brought before the SEC Chief Accountant by an identified SEC issuer, he encouraged "continuing . . . research on methods to obtain estimates of fair value for [ESOs]." Thus, as of November 30, 2005, absent other regulatory findings, mark-to-model approaches to estimate the fair value of ESOs continue to appear to be more efficient ways to meet the measurement objectives of FASB Statement No. 123(R) than market-based approaches.

Memorandum Issued by the SEC Office of Economic Analysis

.149 The SEC Chief Accountant's statement of September 9, 2005, references an August 31, 2005, Memorandum issued by members of the SEC Office of Economic Analysis on the topic of the use of proxy instruments to derive a FASB Statement No. 123(R) fair value for ESOs.[82] The memorandum describes "[a] market-based approach [as involving a proxy] instrument that will be traded among willing buyers and sellers, and the use of the instrument's market price as a reasonable estimate of the grant-date fair value of the [ESOs]." The summary of the economic analysis is that attempts at replicating the contractual terms of the ESOs fail to produce a reasonable estimate of fair value for purposes of FASB Statement No. 123(R) but that approaches that "track the future flows of *net obligations* facing the company or *net receipts* . . . can yield reasonable estimates of fair value as defined in [FASB Statement No. 123(R)]." Of interest is that the SEC's SAB No. 107 prompted many approaches with various instruments designed for market trading in the hopes of allowing the derivative of a FASB Statement No. 123(R) fair value; thus while SAB No. 107 prompted valuable market research and potential innovation, further work is anticipated to map those market innovations into sound accounting policy and compliance. The memorandum then addresses two approaches within the question of *instrument design*: the "tracking" approach, and the "terms and conditions" approach.

.150 In the tracking approach, one attempts to create an instrument whose cash payouts "are identical to the [net cash flows under the ESO contract]." Such traded instruments would not face the restrictions common to ESO contracts on trading or hedging. Without these restrictions, the SEC holds out the possibility that the resulting market price would be a "reasonable estimate of fair value."

.151 In the terms and conditions approach, the traded contract replicates all the terms and conditions of an ESO contract, including the restrictions mentioned above. The SEC's current belief is that there are inherent

---

[81] See "Speech by SEC Staff: Statement Regarding Use of Market Instruments in Valuing Employee Stock Options," by Donald T. Nicolaisen, Chief Accountant, U.S. Securities and Exchange Commission, September 9, 2005, available at www.sec.gov/news/speech/spch090905dtn.htm.

[82] See the SEC Office of Economic Analysis Memorandum, "Economic Evaluation of Alternative Market Instrument Designs: Toward a Market-based Approach to Estimating the Fair Value of Employee Stock Options," August 31, 2005, available at www.sec.gov/news/extra/memo083105.htm.

difficulties with such an instrument that will likely prevent its market price from being a reasonable estimate of fair value.

.152 In a previous memorandum, the SEC Office of Economic Analysis had characterized the valuation methods cited in FASB Statement No. 123(R), notably the Black-Scholes-Merton and Binomial option pricing models, as "conventional and well-known."[83] This memorandum, which prepared the ground for the issuance of SAB No. 107, summarizes the rationale for the accounting policy required by FASB Statement No. 123(R) (the expensing of ESOs), the historical reliance of the FASB and the SEC on the identified pricing models for purposes of ESO valuation, and the SEC's economic perspective on the difficulty SEC issuers face in obtaining "reliable parameters and inputs . . . for estimating the value" of ESOs by the identified standard methods. The body of that memorandum represents an incentive for all auditors to rely on the detailed valuation guidance the FASB and the SEC have already issued on the estimation of ESO fair value in the body of FASB Statement No. 123(R) and SAB No. 107 and their precursors in the regulatory literature, notably, FASB Statement No. 123.

FASB Actions: FASB Statement No. 123(R) FSPs, FASB Statement No. 133 Revisions, and New Standards

.153 The FASB has continued to improve accounting guidance on financial instruments by issuing specific implementation guidance for FASB Statement No. 123(R). The DIG has taken action on FASB Statement No. 133 that may affect FASB Statement No. 123(R) implementation and the new proposed accounting standard, "Fair Value Measurement."

New FASB Statement No. 123(R) Implementation Guidance From FASB Staff Positions

.154 The FASB has posted three relevant FASB Staff Positions (FSPs) and one proposed FSP to its Web site since August 2005.

1. FSP FAS123(R)-1. This staff position is on the topic of balance sheet recognition and measurement of financial instruments representing share-based payments under FASB Statement No. 123(R) whose holder ceases to be an employee of the issue of the freestanding instrument. It was posted to the FASB Web site on August 31, 2005. If the freestanding instrument was subject to FASB Statement No. 123(R) when issued to the holder, the issuer should continue to recognize and measure that instrument under FASB Statement No. 123(R), unless the instrument is modified after the holder ceases employment; in the case of such modification, "recognition and measurement of the instrument should be determined [by] . . . other applicable GAAP."[84] The financial statement preparer is expected to implement this guidance effective with its adoption of FASB Statement No. 123(R) using one of two methods described in paragraph 7 of the FSP.

2. FSP FAS123(R)-2. This staff position is on the topic of the grant-date share-based payments being subject to FASB Statement No. 123(R) on the date they are granted, but the determination of that date can be difficult. It was posted to the FASB Web site on October 18, 2005. The grant date is the date when "mutual understanding of the key terms and conditions of [the share-based payment to an employee] shall be presumed to exist . . . if . . . the award is a unilateral grant [which will not be further negotiated] . . . and [notice of the award to the employee can be expected] within a relatively short time period from the date [the award is approved under the issuer's relevant rules of corporate governance]."[85] The financial statement preparer is expected to implement this guidance effective with the adoption of FASB Statement No. 123(R) or, if that date preceded the posting of the FSP on

[83] See the Office of Economic Analysis Memorandum, "Economic Perspective on Employee Option Expensing: Valuation and Implementation of FAS123(R)," March 18, 2005, available at www.sec.gov or www.kerlouet.org.

[84] FSP FASB Statement No. 123(R)-1, paragraph 6.

[85] FSP FASB Statement No. 123(R)-2, paragraph 5.

the FASB Web site, the first reporting period for which financial statements are prepared after the FASB Web site posting date.

3. FSP FAS123(R)-3. This staff position is on the topic of "accounting for the tax effects of share-based payment awards [subject to FASB Statement No. 123(R)]."[86] It was posted to the FASB Web site on November 10, 2005. The FSP details the method described in paragraphs 68 and 81 of FASB Statement No. 123(R) for allocating amounts representing tax benefits to the additional paid-in capital account of the financial statement preparer and provides an alternative transition method of financial statement recognition, together with examples. The financial statement preparer is expected to implement the transition guidance in paragraph 81 until such time as it elects to implement the modified guidance permitted under FSP FASB Statement No. 123(R)-3; the election to use the modified guidance is a one-time election that must be taken not later than one year from the initial adoption of FASB Statement No. 123(R).

4. Proposed FSP FAS123(R)–d. The FASB staff is proposing a new FSP on the topic of the balance sheet classification as liability or equity of certain ESOs. At the date of the publication of this Financial Reporting Alert, the topic had been posted on the FASB Web site (www.fasb.org) and remained open for comment through January 31, 2006. The proposed guidance would amend paragraphs 32 and A229 of FASB Statement No. 123(R) concerning ESOs that "allow for cash settlement upon occurrence of a contingent event" and addresses two issues: (1) the stipulation of "the probability of the contingent cash settlement event occurring" and (2) an alternative "grandfathering [of] existing" ESOs. The final form of the FSP would be applied upon initial adoption of FASB Statement No. 123(R) with an effective date stated upon posting of the final FSP on the FASB Web site, which is expected to occur some time after January 31, 2006. A link to the final FSP will be available to readers of this Financial Reporting Alert on www.kerlouet.org (see Stock Options tab).[87]

New Implementation Guidance on FASB Statement No. 133 Derivatives

.155 There has been a significant change in guidance on how to implement the fair value provisions of FASB Statement No. 133 with respect to certain derivative instruments. Share-based payments that take the form of equity-linked derivatives are subject to the fair value guidance provided in FASB Statement No. 123(R). However, as the FASB proceeds to issue a standard on fair value measurement, the additional implementation on fair value for derivatives in the case of FASB Statement No. 133 is relevant. This new FASB Statement No. 133 guidance is consistent with the guidance on fair value provided by the SEC as previously described, and the guidance that is expected to be part of the fair value guidance within the new accounting standard is expected shortly.

.156 On December 17, 2004, the FASB DIG posted a revision to FASB Statement No. 133 Implementation Issue No. C3 to the FASB Web site (DIG No. C3[88]). DIG No. C3 was originally issued on February 17, 1999, and this revision was cleared on December 15, 2004, in coordination with the FASB's issuance of FASB Statement No. 123(R). DIG No. C3 addresses which accounting rules apply to contracts such as ESOs after the employee ceases to be an employee of the ESO issuer. In such a circumstance, FASB Statement No. 123(R) would cease to apply, but the equity-linked derivative would then be subject to the provisions of FASB Statement No. 133. In addition, contracts that take the form of ESOs but are granted to nonemployees are subject to the accounting rules of FASB Statement No. 133, not FASB Statement No. 123(R), although certain scope exceptions within FASB Statement No. 133 may continue to apply.

---

[86] FSP FASB Statement No. 123 (R)-3, paragraph 4.

[87] The Final FSP was posted on the FASB Web site after the date this Alert was finalized. A summary of the final FSP is available at the Internet support Web site for the Alert.

[88] See FASB Statement No. 133 Implementation Issue No. C3, "Scope Exceptions: Exception related to Share-Based Payment Arrangements," posted on the FASB Web site at www.fasb.org.

New Fair Value Measurement Guidance Expected

.157 The FASB is planning to issue a new accounting standard tentatively titled *Fair Value Measurements*. The standard is expected to "define fair value [and establish] a framework for measuring fair value." It is understood to address the problem of "different definitions of fair value and limited guidance for applying those definitions within GAAP."[89]

.158 The accounting standard is expected to define *fair value* as the price that would be received for an asset or paid to transfer a liability in a current transaction between marketplace participants in the reference market for the asset or liability. In the absence of a transaction involving the entity, the estimate of fair value is determined by reference to a hypothetical transaction for the asset or liability at the measurement date (the effective valuation date).

.159 This is understood to be consistent with the guidance on fair value contained in FASB Statement No. 123(R) and the additional guidance provided by the SEC. In particular, while the estimate of fair value from actual market prices is preferred, in the case of ESOs and under the current valuation conditions examined in the most recent memorandum issued by the SEC Office of Economic Analysis, a mark-to-model approach with special attention to the selection of model inputs and parameters is expected to require the continued best judgment of financial statement preparers and their auditors.

Additional Disclosures Proposed by the SEC

.160 The Securities and Exchange Commission acted on January 17, 2006 to promulgate additional disclosures about executive compensation that would rely upon and emphasize the need for FASB Statement No. 123(R) information. (See SEC Press Release 2006-10, available at www.sec.gov/news/press/2006-10.htm.) The proposed rule is intended to require new narrative disclosure to "elicit clear and more complete disclosures on the compensation of the [entity's] principal executive officer, principal financial officer, [and] the three other highest paid executive officers and directors." As proposed, the rule will require a new narrative section on compensation that will include a reorganized "Summary Compensation Table." Among other things, this table would include "[a] dollar value will be shown for all stock-based awards, including stock and stock options, measured at grant date fair value, computed pursuant to Financial Accounting Standards Board's Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment*, to provide a more complete picture of compensation and facilitate reporting total compensation." A full copy of the SEC press release is available at the SEC Web site (www.sec.gov) and the Web site supporting this Financial Reporting Alert (www.kerlouet.org); the latter will be updated from time to time for new portions of the proposed SEC disclosure rule that must interact with FASB Statement No. 123(R).

Summary

.161 Fair value accounting for ESOs has been the matter of much heated debate over the past few years. FASB Statement No. 123(R) is the FASB's attempt to bring an end to such debate and brings consistency to voluntary expensing and valuation practices that were permitted before its effective date. The FASB recognizes that valuation methodology for ESOs is a relatively young branch of financial economic theory; therefore, both FASB Statement No. 123(R) and SAB No. 107 emphasize the need to tailor generic option-pricing models to the intricate and detailed contract terms of the ESOs. Users of FASB Statement No. 123(R) must be prepared to acquire the requisite knowledge to evaluate their ESO contracts, obtain a reliable and verifiable fair value, and prepare the required accounting and disclosure entries.

---

.162

Appendix A: Summary of the FASB Project on Financial Instruments

Key Milestones in the FASB's Financial Instruments Project Leading to FASB Statement No. 123(R), *Share-Based Payment* [1]

Statement of Standards	*Issued (Amended)*	*Title*	*Key Developments Within the FASB Financial Instruments Project for ESO Accounting*
AICPA Issues Paper 86-2	March 1986	*Accounting for Options*	1. Demonstrates common features of all option and related fair value attributes. 2. Documents for options "Fair value = Time value + Intrinsic value."
FASB Statement No. 105	March 1990	*Disclosure of Information about Financial Instruments with Off-Balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk*	1. Requires disclosure of the notional amounts of financial instruments in the notes to financial statements (as part of disclosures about financial instruments with off-balance-sheet risk of accounting loss).
FASB Statement No. 107	December 1991	*Disclosures about Fair Value of Financial Instruments*	1. Requires disclosure of fair value for financial instruments, both on- and off-balance-sheet. 2. Extends the use of fair value as the relevant measure.
FASB Statement No. 115	May 1993	*Accounting for Certain Investments in Debt and Equity Securities*	1. Extends the use of fair value as the measurement principle to all asset classes for securities within the scope except for "held-to-maturity securities." 2. Provides income recognition rules for fair value changes (charge to earnings or OCI [2]).
FASB Statement No. 119	October 1994	*Disclosure about Derivative Financial Instruments and Fair Value of Financial Instruments*	1. Excludes ESOs from scope. 2. Extends the fair value disclosure requirements for financial instruments to include derivatives.
FASB Statement No. 123	October 1995	*Accounting for Stock-Based Compensation*	1. Defines but does not require a *fair value-based method* for ESOs.

(continued)

Statement of Standards	*Issued (Amended)*	*Title*	*Key Developments Within the FASB Financial Instruments Project for ESO Accounting*
			2. Permits the use of the *intrinsic value method* with required pro forma disclosures of income using the fair value method. *Result: ESOs remain "off balance sheet."*
FASB Statement No. 128	February 1997	*Earnings per Share*	1. Specifies methods for computing EPS for both common stock and potential common stock. 2. Relates treasury stock method to ESOs.
FASB Statement No. 133	June 1998 (1999, 2000, and 2001)	*Accounting for Derivative Instruments and Hedging Activities*	1. Excludes ESOs from scope. 2. Reaffirms fair value as the measurement principle for derivatives. Result: Derivatives are recognized on-balance-sheet.
FASB Statement No. 123R	December 2004	*Share-Based Payment*	Requires mandatory ESO expensing at grant-date fair value.

[1] Copyright © 2005 Louis P. Le Guyader. All rights reserved. This exhibit is an update of an exhibit presented by the author during his dissertation defense at Columbia University in 1998. *Used by permission.*

[2] The FASB Concepts Statements define *comprehensive income* as the sum of earnings and "other comprehensive income (OCI)." OCI rules can be found in FASB Statement No. 130, *Reporting Comprehensive Income*.

FASB Statement No. 123(R) represents the FASB's most recent progression to recognize all derivatives on the balance sheet using fair value as the measure. Much of the fair value measurement, recognition, and disclosure principles had been developed for derivatives and financial instruments other than ESOs.

AAM Section 8290

Understanding the New Auditing Standards Related to Risk Assessment

NOTICE TO READERS
UNDERSTANDING THE NEW AUDITING STANDARDS
RELATED TO RISK ASSESSMENT

This Audit Risk Alert is intended to provide auditors with an overview of the new risk assessment standards to be used in the planning and performance of a financial statement audit.

This publication is an *Other Auditing Publication* as defined in AU section 150, *Generally Accepted Auditing Standards* (AICPA, *Professional Standards*, vol. 1). Other Auditing Publications have no authoritative status; however, they may help the auditor understand and apply the Statements on Auditing Standards.

If an auditor applies the auditing guidance included in an Other Auditing Publication, he or she should be satisfied that, in his or her judgment, it is both appropriate and relevant to the circumstances of his or her audit. The auditing guidance in this document has been reviewed by the AICPA Audit and Attest Standards staff and published by the AICPA and is presumed to be appropriate. This document has not been approved, disapproved, or otherwise acted on by a senior technical committee of the AICPA.

Written by Michael J. Ramos, CPA

Edited by Lori L. Pombo, CPA
Technical Manager
Accounting and Auditing Publications

Acknowledgments

The AICPA Accounting and Auditing Publications staff express our special thanks to Hiram Hasty, CPA, who made extensive contributions to this publication. His knowledge of the risk assessment standards and auditing in general was invaluable. In addition, the staff expresses our thanks to Chuck Landes, CPA, for his indispensable review of this publication and to Lyn Graham, CPA, for working closely with the author on key aspects of the risk assessment standards.

Introduction

.01 This audit Alert provides a summary of eight Statements on Auditing Standards (SASs) that provide extensive guidance on how you should apply the audit risk model in the planning and performance of a financial statement audit. These SASs were issued in March 2006 and become effective for audits of financial statements for periods beginning on or after December 15, 2006. Earlier application is permitted. While the time period between the issuance and effective date of the standards may seem long, you should not underestimate the standards' significance and the far-reaching effect they will have on your audits.

.02 The eight SASs[1] consist of:

---

[1] Statements on Auditing Standards issued by the Auditing Standard Board are applicable to audits of privately held entities and other *nonissuers*. The term *issuer* means entities that are subject to the rules and regulations of the U.S. Securities and Exchange Commission and the Sarbanes-Oxley Act of 2002.

- SAS No. 104, *Amendment to Statement on Auditing Standards No. 1*, Codification of Auditing Standards and Procedures *("Due Professional Care in the Performance of Work")*
- SAS No. 105, *Amendment to Statement on Auditing Standards No. 95*, Generally Accepted Auditing Standards
- SAS No. 106, *Audit Evidence*
- SAS No. 107, *Audit Risk and Materiality in Conducting an Audit*
- SAS No. 108, *Planning and Supervision*
- SAS No. 109, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*
- SAS No. 110, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*
- SAS No. 111, *Amendment to Statement on Auditing Standards No. 39*, Audit Sampling

.03 The Auditing Standards Board (ASB) believes that the SASs represent a significant strengthening of auditing standards that will improve the quality and effectiveness of audits. The primary objective of the SASs is to enhance your application of the audit risk model in practice by requiring, among other things:

- A more in-depth understanding of your audit client and its environment, including its internal control. This knowledge will be used to identify the risk of material misstatement in the financial statements (whether caused by error or fraud) and what the client is doing to mitigate them.
- A more rigorous assessment of the risk of material misstatement of the financial statements based on that understanding.
- Improved linkage between the assessed risks and the nature, timing, and extent of audit procedures performed in response to those risks.

.04 The development of these SASs was undertaken in response to recommendations to the ASB made by the former Public Oversight Board's Panel on Audit Effectiveness. In addition, the major corporate failures of the past several years have undermined the public's confidence in the effectiveness of audits and led to an intense scrutiny of the work of auditors, and the development of the SASs also have been influenced by these events.

How the Risk Assessment Standards Affect Current Practice

.05 The SASs incorporate many of the underlying concepts and detailed performance requirements that exist in the current standards. However, the SASs do create significant new requirements for auditors.

.06 In most cases, implementation of the SASs will result in an overall increased work effort by the audit team. It also is anticipated that, to implement the SASs appropriately, many firms will have to make significant revisions to their audit methodologies and train their personnel accordingly. To ease the implementation process, it is recommended that firms adopt at least some of the provisions of the standards in advance of the required implementation date.

How This Alert Is Organized

.07 This Alert is organized into three different parts.

- *Part One: Key Provisions of the SASs and How They Differ From Current Standards*. This part provides a summary of some of the key provisions of the SASs and how they differ, if at all, from current audit standards.

- *Part Two: Fundamental Concepts*. This part summarizes the guidance in the SASs relating to fundamental audit concepts such as materiality, financial statement assertions, and audit evidence.
- *Part Three: Applying the Audit Risk Model*. This part of the Alert provides a summary of the application of the audit risk model as described by the SASs.

Part One: Key Provisions of the SASs and How They Differ From Current Standards

.08 This section discusses the key provisions of each of the SASs and provides a summary of how each of the SASs differs, if at all, from the current AICPA generally accepted audit standards.

SAS No. 104, *Amendment to Statement on Auditing Standards No. 1*, Codification of Auditing Standards and Procedures *("Due Professional Care in the Performance of Work")*

.09

Key Provisions	*How the SAS Differs From Current Standards*
• SAS No. 104 defines *reasonable assurance* as a "high level of assurance."	• SAS No. 104 clarifies the meaning of reasonable assurance.

SAS No. 105, *Amendment to Statement on Auditing Standards No. 95*, Generally Accepted Auditing Standards

.10

Key Provisions	*How the SAS Differs From Current Standards*
• SAS No. 105 expands the scope of the understanding that the auditor must obtain in the second standard of field work from "internal control" to "the entity and its environment, including its internal control." • The quality and depth of the understanding to be obtained is emphasized by amending its purpose from "planning the audit" to "assessing the risk of material misstatement of the financial statements whether due to error or fraud and to design the nature, timing, and extent of further audit procedures."	• Previous guidance considered the understanding of the entity to be a part of audit planning, and emphasized that the understanding of internal control also was primarily part of audit planning. • By stating that the purpose of your understanding of the entity and its internal control is part of assessing the risk of material misstatement, SAS No. 105 essentially considers this understanding to provide audit evidence that ultimately supports your opinion on the financial statements. • The new standard emphasizes the link between understanding the entity, assessing risks, and the design of further audit procedures. It is anticipated that "generic" audit programs will not be an appropriate response for all engagements because risks vary between entities.

(continued)

Key Provisions	How the SAS Differs From Current Standards
	• The term *further audit procedures*, which consists of test of controls and substantive tests, replaces the term *tests to be performed* in recognition that risk assessment procedures are also performed. • The term *audit evidence* replaces the term *evidential matter.*

SAS No. 106, *Audit Evidence*

.11

Key Provisions	How the SAS Differs From Current Standards
• SAS No. 106 defines *audit evidence* as "all the information used by the auditor in arriving at the conclusions on which the audit opinion is based."	• Previous guidance did not define audit evidence. • SAS No. 106 also describes basic concepts of audit evidence. • The term *sufficient, appropriate audit evidence,* defined in SAS No. 106, replaces the term *sufficient, competent evidence.*
• SAS No. 106 recategorizes assertions by classes of transactions, account balances, and presentation and disclosure; expands the guidance related to presentation and disclosure; and describes how the auditor uses relevant assertions to assess risk and design audit procedures.	• SAS No. 106 recategorizes assertions to add clarity. • *Assertion relating to presentation and disclosure* has been expanded and includes a new assertion that information in disclosures should be "expressed clearly" (understandability).
• SAS No. 106 defines *relevant* assertions as those assertions that have a meaningful bearing on whether the account is fairly stated.	• The term *relevant assertions* is new, and it is used repeatedly throughout SAS No. 106.
• SAS No. 106 provides additional guidance on the reliability of various kinds of audit evidence.	• The previous standard included a discussion of the competence of evidential matter and how different types of audit evidence may provide more or less valid evidence. SAS No. 106 expands on this guidance.
• SAS No. 106 identifies "risk assessment procedures" as audit procedures performed on all audits to obtain an understanding of the entity and its environment, including its internal control, to assess the risk of material misstatement at the financial statement and relevant assertion levels.	• SAS No. 106 introduces the concept of risk assessment procedures, which are necessary to provide a basis for assessing the risk of material misstatement. The results of risk assessment procedures, along with the results of further audit procedures, provide audit evidence that ultimately supports the auditor's opinion on the financial statements.
• SAS No. 106 provides that evidence obtained by performing risk assessment procedures, as well as that obtained by performing tests of controls and substantive procedures, is part of the	

(continued)

Key Provisions	*How the SAS Differs From Current Standards*
evidence the auditor obtains to draw reasonable conclusions on which to base the audit opinion, although such evidence is not sufficient in and of itself to support the audit opinion.	
• SAS No. 106 describes the types of audit procedures that the auditor may use alone or in combination as risk assessment procedures, tests of controls, or substantive procedures, depending on the context in which they are applied by the auditor.	• Risk assessment procedures include: — Inquiries of management and others within the entity — Analytical procedures — Observation and inspection
• SAS No. 106 includes guidance on the uses and limitations of inquiry as an audit procedure.	• Inquiry alone is not sufficient to evaluate the design of internal control and to determine whether it has been implemented.

SAS No. 107, *Audit Risk and Materiality in Conducting an Audit*

.12

Key Provisions	*How the SAS Differs From Current Standards*
• The auditor must consider audit risk and must determine a materiality level for the financial statements taken as a whole for the purpose of: 1. Determining the extent and nature of risk assessment procedures. 2. Identifying and assessing the risk of material misstatement. 3. Determining the nature, timing, and extent of further audit procedures. 4. Evaluating whether the financial statements taken as a whole are presented fairly, in conformity with generally accepted accounting principles.	• Previous guidance said that auditors "should consider" audit risk and materiality for certain specified purposes. SASs state that the auditor "must" consider. • New guidance explicitly states that audit risk and materiality are used to identify and assess the risk of material misstatement.
• Combined assessment of inherent and control *risks* is termed the *risk of material misstatement*.	• SAS No. 107 consistently uses the term *risks of material misstatement*, which often is described as a combined assessment of inherent and control risk. However, auditors may make separate assessment of inherent risk and control risks.
• The auditor should assess the risk of material misstatement as a basis for further audit procedures. Although that risk assessment is a judgment rather than a precise measurement of risk, the auditor should have an appropriate basis for that assessment.	• SAS No. 107 states that the auditor should have and document an appropriate basis for the audit approach. • These two provisions of the risk assessment standards effectively eliminate the ability of the auditor to assess control risk "at the maximum"

(continued)

Key Provisions	*How the SAS Differs From Current Standards*
• Assessed risks and the basis for those assessments should be documented.	without having a basis for that assessment. In other words, you can no longer "default" to maximum control risk.
• The auditor must accumulate all known and likely misstatements identified during the audit, other than those that the auditor believes are trivial, and communicate them to the appropriate level of management.	• SAS No. 107 provides additional guidance on communicating misstatements to management. • The concept of not accumulating misstatements below a certain threshold is included in the previous standards, but the SAS No. 107 provides additional specific guidance on how to determine this threshold.
• The auditor should request management to respond appropriately when misstatements (known or likely) are identified during the audit.	• SAS No. 107 provides specific guidance regarding the appropriate auditor's responses to the types of misstatements (known or likely) identified by the auditor.

SAS No. 108, *Planning and Supervision*

.13

Key Provisions	*How the SAS Differs From Current Standards*
SAS No. 108 provides guidance on: • Appointment of the independent auditor. • Establishing an understanding with the client. • Preliminary engagement activities. • The overall audit strategy. • The audit plan. • Determining the extent of involvement of professionals possessing specialized skills. • Using a professional possessing information technology (IT) skills to understand the effect of IT on the audit. • Additional considerations in initial audit engagements. • Supervision of assistants.	• Much of the guidance provided in SAS No. 108 has been consolidated from several existing standards. • However, SAS No. 108 provides new guidance on preliminary engagement activities, including the development of an overall audit strategy and an audit plan. — The overall audit strategy is what previously was commonly referred to as the audit approach. It is a broad approach to how the audit will be conducted, considering factors such as the scope of the engagement, deadlines for performing the audit and issuing the report, and recent financial reporting developments. — The audit plan is more detailed than the audit strategy and is commonly referred to as the audit program. The audit plan describes in detail the nature, timing, and extent of risk assessment and further audit procedures you perform in an audit. • SAS No. 108 states that you should obtain a written understanding with your client.

SAS No. 109, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*

.14

Key Provisions	*How the SAS Differs From Current Standards*
• SAS No. 109 describes audit procedures that the auditor should perform to obtain the understanding of the entity and its environment, including its internal control.	• The auditor should perform "risk assessment procedures" to gather information and gain an understanding of the entity and its environment. These procedures include inquiries, observation, inspection, and analytical procedures. Previous standards did not describe the procedures that should be performed to gain an understanding of the client. • Information about the entity may be provided by a variety of sources, including knowledge about the entity gathered in previous audits (provided certain conditions are met), and the results of client acceptance and continuance procedures. • SAS No. 109 also directs the auditor to perform a variety of risk assessment procedures, and it describes the limitations of inquiry.
• The audit team should discuss the susceptibility of the entity's financial statements to material misstatement.	• Previous standards did not require a "brainstorming" session to discuss the risk of material misstatements. SAS No. 109 requires such a brainstorming session, which is similar (and may be performed together with) the brainstorming session to discuss fraud.
• The purpose of obtaining an understanding of the entity and its environment, including its internal control, is to identify and assess "the risk of material misstatement" and design and perform further audit procedures responsive to the assessed risk.	• SAS No. 109 directly links the understanding of the entity and its internal control with the assessment of risk and design of further audit procedures. Thus, the understanding of the entity and its environment, including its internal control, provides the audit evidence necessary to support the auditor's assessment of risk.
• SAS No. 109 states the auditor should assess the risk of material misstatement at both the financial statement and relevant assertion levels.	• The previous standard included the concept of assessing risk at the financial statement level, but SAS No. 109 provides expanded and more explicit guidance. • SAS No. 109 also directs the auditor to determine how risks at the financial statement level may result in risks at the assertion level.
• SAS No. 109 provides directions on how to evaluate the design of the entity's controls and determine whether the controls are adequate and have been implemented.	• Under the previous standard, the primary purpose of gaining an understanding of internal control was to plan the audit. Under SAS No. 109, your understanding of internal control is used to assess risks. Thus, the

(continued)

Key Provisions	How the SAS Differs From Current Standards
	understanding of internal control provides audit evidence that ultimately supports the auditor's opinion on the financial statements. • The previous standard directs the auditor to obtain an understanding of internal control as part of obtaining an understanding of the entity and its environment. SAS No. 109 requires auditors to evaluate the design of controls and determine whether they been implemented. Evaluating the design of a control involves considering whether the control, individually or in combination with other controls, is capable of effectively preventing or detecting and correcting material misstatements. It is anticipated that this phase of the audit will require more work than simply gaining understanding of internal control.
• SAS No. 109 directs the auditor to consider whether any of the assessed risks are significant risks that require special audit consideration or risks for which substantive procedures alone do not provide sufficient appropriate audit evidence.	• Previous standard did not include the concept of "significant risks." • Significant risks exist on most engagements. • The auditor should gain an understanding of internal control and also perform substantive procedures for all identified significant risks. Substantive analytical procedures alone are not sufficient to test significant risks.
• SAS No. 109 provides extensive guidance on the matters that should be documented.	• The guidance provided by SAS No. 109 relating to documentation is significantly greater than that provided by previous standards. • Part three of this Alert lists the documentation requirements of the SASs.

SAS No. 110, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*

.15

Key Provisions	How the SAS Differs From Current Standards
• SAS No. 110 provides guidance on determining overall responses to address the risk of material misstatement at the financial statement level and the nature of those responses.	• The concept of addressing the risk of material misstatement at the financial statement level and developing an appropriate overall response is similar to the requirement in previous standards relating to the consideration of audit risk at the financial statement level. However, that guidance was placed in the context of audit planning. SAS No. 110 "repositions" your consideration of risk at the financial statement level so you make this assessment as a result of and in

(continued)

Key Provisions	*How the SAS Differs From Current Standards*
	conjunction with your performance of risk assessment procedures. In some cases, this assessment may not be able to be made during audit planning. • SAS No. 110 requires you to consider how your assessment of risks at the financial statement level affect individual financial statement assertions, so that you may design and perform tailored further audit procedures (substantive tests or tests of controls). • The list of possible overall responses to the risk of material misstatement at the financial statement level also has been expanded.
• Further audit procedures, which may include tests of controls, or substantive procedures should be responsive to the assessed risk of material misstatement at the relevant assertion level.	• Although the previous standards included the concept that audit procedures should be responsive to assessed risks, this idea was embedded in the discussion of the audit risk model. The SASs repeatedly emphasize the need to provide a clear linkage between your understanding of the entity, your risk assessments, and the design of further audit procedures. • SAS No. 110 requires you to document the linkage between assessed risks and further audit procedures, which was not a requirement under the previous standards.
• SAS No. 110 provides guidance on matters the auditor should consider in determining the nature, timing, and extent of such audit procedures.	• The new guidance on determining the nature, timing, and extent of tests of controls and substantive tests has been expanded greatly and addresses issues that previously were not included in the authoritative literature. • SAS No. 110 states that the nature of further audit procedures is of most importance in responding to your assessed risk of material misstatement. That is, increasing the extent of your audit procedures will not compensate for procedures that do not address the specifically identified risks of misstatement. • SAS No. 110 states that you should perform certain substantive procedures on all engagements. These procedures include: — Performing substantive tests for all relevant assertion related to each material class of transactions, account balance, and disclosure regardless of the assessment of the risk of material misstatements.

(continued)

Key Provisions	How the SAS Differs From Current Standards
	— Agreeing the financial statements, including their accompanying notes, to the underlying accounting records — Examining material journal entries and other adjustments made during the course of preparing the financial statements

SAS No. 111, *Amendment to Statement on Auditing Standards No. 39,* Audit Sampling

.16

Key Provisions	How the SAS Differs from Current Standards
• SAS No. 111 provides guidance relating to the auditor's judgment about establishing tolerable misstatement for a specific audit procedure and on the application of sampling to tests of controls.	• SAS No. 111 provides enhanced guidance on tolerable misstatement. In general, tolerable misstatement in an account should be less than materiality to allow for aggregation in final assessment.

Part Two: Fundamental Concepts

.17 The SASs describe a process for applying the audit risk model to gather audit evidence and form an opinion about your client's financial statements. To apply this process appropriately, you will need to have a working knowledge of the key concepts upon which it is built. Those concepts include the following.

- The meaning of *reasonable assurance*
- Audit risk and the risk of material misstatement
- Materiality and tolerable misstatement
- Financial statement assertions
- Internal control
- Information technology
- Audit evidence

.18 This part of the Alert provides a summary of these key concepts and a description of how they are used.

Reasonable Assurance

.19 The auditing standards make numerous references to your responsibility for obtaining "reasonable assurance." For example, your audit opinion states that generally accepted auditing standards require you to "obtain reasonable assurance about whether the financial statements are free of material misstatement." "Reasonable assurance" is the fundamental threshold you use to design and perform your audit procedures. For this reason, it is important that you have a working knowledge of the term.

.20 SAS No. 104 clarifies that reasonable assurance is a high, but not absolute, level of assurance. Put another way, you must plan and perform your audit in such a way to obtain sufficient appropriate audit evidence to reduce audit risk to a low level. Although "reasonable assurance" is a high level of assurance, it is not absolute assurance. Absolute level of assurance is not attainable because an auditor does not examine 100 percent of the entity's transactions or events and because of the limitations of the entity's internal control.

Audit Risk and the Risk of Material Misstatement

.21 Audit risk (AR) is the risk that the financial statements are materially misstated and you fail to detect such a misstatement or appropriately modify your opinion. You should perform your audit to reduce audit risk to a low level. You need to consider audit risk at all stages of your audit.

.22 Audit risk is a function of two components:

1. *Risk of material misstatement (RMM)*, which is the risk that an account or disclosure item contains a material misstatement. The risk of material misstatement is a combination of inherent and control risk.

2. *Detection risk*, which is the risk that you will not detect such misstatements in an account or disclosure item.

.23 Reducing audit risk to a low level requires you to:

1. Assess the risk of material misstatement.

2. Based on that assessment, design and perform further audit procedures to reduce audit risk to an appropriate low level.

Assessing the Risk of Material Misstatement

.24 The risk of material misstatement exists independently of detection risk. Many factors affect the risk of material misstatement, including the following.

- The client's industry, its regulatory environment, and other external factors
- The nature of the entity, for example, its operations, ownership, and financing
- The client's objectives, strategies, and related business risks
- How client management measures and reviews the company's financial performance
- The client's internal control, which includes the selection and application of accounting policies

Thus, the first step in assessing the risk of material misstatement is to gather information and gain an understanding of these and other items that create risks. Part Three of this Alert describes an audit process that begins with your gaining an understanding of these matters.

.25 The risk of material misstatement may reside at either the financial statement level or the assertion level.

- *Financial statement-level risks* potentially affect many different assertions. For example, a lack of qualified personnel in financial reporting roles (an element of the client's control environment) may affect many different accounts and several assertions.

- *Assertion-level risks* are limited to a single assertion, for example, the valuation of inventory or the occurrence of sales.

.26 Your response to assessed risks will differ depending on whether they reside at the financial statement or assertion level.

- Financial statement-level risks typically require an overall response, such as providing more supervision to the engagement team or incorporating additional elements of unpredictability in the selection of your audit procedures.
- Assertion-level risks are addressed by the nature, timing, and extent of further audit procedures.

For this reason, you should assess the risk of material misstatement at both the financial statement and the assertion level.

.27 Your assessment of the risk of material misstatement (at both the financial statement and the assertion level) should be directly linked to the design and performance of further audit procedures. For example, if your understanding of the client, its environment, and its internal control lead you to assess that there is a high inherent risk that inventory quantities could be misstated, you would design tailored further audit procedures to specifically respond to that risk.

.28 To perform audit procedures that are appropriately responsive to your assessed risks, you should define these risks in a way that incorporates the unique circumstances at the client. Generic checklists and standard audit programs may serve as a starting point for helping you to understand and assess risk, but to be truly effective, these generic audit tools need to be tailored to the specific circumstances of your client.

.29 The process for applying the audit risk model, which is summarized in Part Three of this Alert, describes in more detail how you should link your assessment of risk to the design and performance of further audit procedures.

.30 ***Risks of Material Misstatement at the Assertion Level.*** At the assertion level, the risk of material misstatement consists of two components:

- *Inherent risk (IR),* which is the susceptibility of an assertion to a material misstatement, assuming that there are no related controls. Inherent risk is greater for some assertions and related account balances, classes of transactions, and disclosures than for others.
- *Control risk (CR)*, which is the risk that a material misstatement that could occur in an assertion will not be prevented or detected on a timely basis by the client's internal control. Control risk is a function of the effectiveness of the design and operation of the client's internal control.

Detection Risk

.31 Detection risk is the risk that you will not detect a material misstatement that exists in an assertion. It is a function of the nature, timing, and effectiveness of audit procedures and how you apply them.

.32 Detection risk relates to your substantive audit procedures and is managed by how you respond to the risk of material misstatement at both the financial statement and the assertion level.

- *Financial statement-level risks.* Your responses to financial statement-level risks may include assignment of more experienced personnel to the engagement team, emphasizing of the application of professional skepticism, and providing more supervision and review of the audit work performed. Appropriate choices related to these matters will help you mitigate the risks that you might select an inappropriate audit procedure, misapply audit procedures, or misinterpret the results.
- *Assertion-level risks.* In response to assertion-level risks you will determine the nature, timing, and extent of your further audit procedures that are appropriate to respond to the assessed risk.

Thus, the effectiveness of further audit procedures depends on whether you have:

1. Acquired a sufficient depth and breadth of understanding of your client to make an informed assessment of the risk of material misstatements.

2. Used your assessment of the risks of material misstatement to drive the nature, timing, and extent of your further audit procedures.

.33 ***An Inverse Relationship Between the Risk of Material Misstatement and Detection Risk.*** At the assertion level, detection risk has an inverse relationship to the risk of material misstatement. The greater the risk of material misstatement, the less the detection risk that you should be willing to accept. Put another way, the greater the risk of material misstatement, the more reliable your substantive tests should be.

.34 Conversely, when the risk of material misstatement is low, you can accept a greater level of detection risk. However, you are always required to perform substantive tests on all relevant assertions related to each material account balance, class of transactions, and disclosure, regardless of your assessment of the risk of material misstatement.

.35 The model AR = RMM x DR expresses the general relationship of audit risk and its components. You may find this model useful when planning appropriate risk levels for your audit procedures, keeping in mind your overall desire to reduce audit risk to an appropriate low level.

Materiality and Tolerable Misstatement

The Concept of Materiality

.36 The concept of materiality recognizes that some matters are more important for the fair presentation of the financial statements than are others. In performing your audit, you are concerned with matters that could be material to the financial statements. Your responsibility is to plan and perform the audit to obtain reasonable assurance that material misstatements, whether caused by error or fraud, are detected.

.37 Financial Accounting Standards Board Statement of Financial Accounting Concepts No. 2, *Qualitative Characteristics of Accounting Information*, defines *materiality* as "the magnitude of an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would have been changed by the omission or misstatement." Thus, materiality is influenced by your perception of the needs of financial statement users who will rely on the financial statements to make judgments about your client's financial position and results of operations.

How Materiality Is Used in Your Audit

.38 Though defined by the accounting literature, materiality also is an audit concept of critical importance. Audit materiality represents the maximum amount that you believe the financial statements could be misstated and still fairly present the client's financial position and results of operations. Audit materiality affects:

1. *The nature, timing, and extent of audit procedures.* During audit planning, you should determine a materiality level for the financial statements taken as a whole. This initial determination of materiality will help you:

   — Make judgments when identifying and assessing the risk of material misstatement

   — Determine the nature, timing, and extent of your further audit procedures

2. *The evaluation of audit findings.* To form an opinion about the financial statements, you must evaluate audit findings and determine whether the misstatements that are not corrected by the client, individually or in the aggregate, are material to the financial statements.

Quantitative and Qualitative Considerations

.39 Although materiality commonly is expressed in quantitative terms, your determination of materiality is a matter of professional judgment that includes both quantitative and qualitative considerations. During the course of your audit, you should be alert for misstatements that could be qualitatively material. However, it ordinarily is not practical to design audit procedures to detect misstatements that qualitatively are material, and for that reason, materiality used for planning purposes considers primarily quantitative matters.

Tolerable Misstatement

.40 During audit planning you must determine an initial level of materiality for the purposes of designing and performing your audit procedures. This initial determination of materiality is determined for the financial statements taken as a whole. However, in designing your audit procedures, you should take into account the possibility that several misstatements of amounts less than financial statement materiality could—in the aggregate—result in a material misstatement of the financial statements. That is, errors in an account or disclosure may still exist and your audit procedures may fail to detect them. For that reason, you need to allow for these undetected misstatements that may exist. You build this allowance into the overall audit strategy process by setting tolerable misstatement.

.41 Tolerable misstatement (also referred to as tolerable error) is defined as the maximum error in a population (for example, the class of transactions or account balance) that you are willing to accept. Tolerable misstatement normally is lower than materiality for the financial statements as a whole. For each class of transactions, account balance, and disclosure, you should determine at least one level of tolerable misstatement.

.42 For example, if for planning purposes you determined materiality to be $100,000, you could set tolerable misstatement at $60,000. Then, you would use this tolerable misstatement level to determine the nature, timing, and extent of your further audit procedures. You could use different levels of tolerable misstatement for other account balances, classes of transactions, or assertions. See AU section 350, *Audit Sampling*, of volume 1 of the AICPA *Professional Standards* for more guidance about tolerable misstatement.

Financial Statement Assertions

Why Financial Statement Assertions Are Important

.43 Your audit results in an opinion of the financial statements taken as a whole. However, to reach this opinion of the financial statements, most of your audit procedures should be directed at a much more detailed level, the assertion level.

.44 Assertions are management's implicit or explicit representations regarding the recognition, measurement, presentation, and disclosure of information in the financial statements and related disclosures. Assertions fall into three categories: (1) classes of transactions, (2) account balances, and (3) presentation and disclosure.

.45 For example, by presenting the information "Cash . . . .$XXX" in the financial statements, management implies that:

- The cash truly exists and company has the right to use it.
- The amount presented represents all the company's cash.
- The amount presented is accurate.

.46 Many of your audit procedures are performed not on the financial statements taken as a whole nor even at the account or disclosure level, but rather, they are directed at individual assertions.

.47 Relating identified risks of material misstatement to misstatements that might occur at the assertion level is necessary for you to properly link assessed risks to further audit procedures.

.48 The table titled "Categories of Assertions" provides a summary of how assertions might be grouped into various categories. You may express these assertions differently, as long as your descriptions encompass all the aspects described in the table.

Categories of Assertions

	Description of Assertions		
	Classes of Transactions and Events During the Period	*Account Balances at the End of the Period*	*Presentation and Disclosure*
Occurrence/Existence	Transactions and events that have been recorded have occurred and pertain to the entity.	Assets, liabilities, and equity interests exist.	Disclosed events and transactions have occurred and pertain to the entity.
Rights and Obligations	—	The entity holds or controls the rights to assets, and liabilities are the obligations of the entity.	
Completeness	All transactions and events that should have been recorded have been recorded.	All assets, liabilities, and equity interests that should have been recorded have been recorded.	All disclosures that should have been included in the financial statements have been included.
Accuracy/Valuation and Allocation	Amounts and other data relating to recorded transactions and events have been recorded appropriately.	Assets, liabilities, and equity interests are included in the financial statements at appropriate amounts and any resulting valuation or allocation adjustments are recorded appropriately.	Financial and other information is disclosed fairly and at appropriate amounts.
Cut-off	Transactions and events have been recorded in the correct accounting period.	—	—
Classification and Understandability	Transactions and events have been recorded in the proper accounts.	—	Financial information is appropriately presented and described and information in disclosures is expressed clearly.

How You Use Assertions in Your Audit

.49 Most of your tests of controls and substantive audit procedures are directed at specific assertions. For example, confirmation of receivables provides strong, direct evidence about the existence of those receivables and it may provide some evidence about accuracy of the gross balance. However, confirmations alone are not sufficient appropriate audit evidence to test the valuation of receivables, and the auditor should perform other appropriate procedures, such as looking at subsequent cash receipts and applying analytical procedures in testing the allowance for doubtful accounts. For this reason, to establish a clear link between your assessment of the risk of material misstatement and further audit procedures, your risk assessment procedures should be performed at the assertion level as well.

Internal Control

Definition and Description of Internal Control

.50 Internal control is a process—effected by those charged with governance, management, and other personnel—designed to provide reasonable assurance about the achievement of the entity's objectives. These objectives fall into three categories: financial reporting, operations, and compliance with laws and regulations. In general, when performing a financial statement audit, you are most concerned with the client's financial reporting objectives, which relate to the preparation of audited financial statements.

.51 In trying to achieve its objectives, your client faces certain risks. Internal control helps the entity achieve its objectives by mitigating the risk of "what can go wrong" in the pursuit of its objectives. Thus, there is a direct link between the entity's objectives, the risks to achieving those objectives, and internal control. Your assessment of internal control is a consideration of whether the controls mitigate financial reporting risks.

.52 Internal control consists of five interrelated components:

1. *Control environment* sets the tone of an organization, influencing the control-consciousness of its people. It is the foundation for all other components of internal control, providing discipline and structure.

2. Entity's *risk assessment* is the entity's identification and analysis of relevant risks to achievement of its objectives, forming a basis for determining how the risks should be managed.

3. *Information and communication systems* support the identification, capture, and exchange of information in a form and time frame that enable people to carry out their responsibilities.

4. *Control activities* are the policies and procedures that help ensure that management directives are carried out.

5. *Monitoring* is a process that assesses the quality of internal control performance over time.

.53 This division of internal control into five components provides a useful framework for you to consider how different aspects of your client's internal control may affect your audit. You are not required to classify controls into a particular component. Rather, your understanding of internal control involves determining whether and how a specific control may prevent or detect and correct material misstatements.

Controls May Be Pervasive to the Entity or Restricted to an Account or Assertion

.54 Your client's financial reporting risks (and therefore its controls) may relate to one of the following:

1. To specific classes of transactions, account balances, and disclosures

2. More pervasively to the financial statements taken as a whole (And potentially the risks may affect many assertions.)

.55 For example, a weak control environment potentially affects many assertions and therefore is considered to operate at the financial statement level. In contrast, a control to ensure that all valid purchases are captured and recorded is restricted to specific accounts and classes of transactions and thus operates at the assertion level.

.56 Understanding whether a control is restricted to specific classes of transactions, account balances, or disclosures or pertains pervasively to the financial statements will help you:

1. Design appropriate audit procedures to obtain information about the design of the control and whether it has been placed in operation
2. Assess the risk of material misstatement in the financial statements
3. Design substantive audit procedures
4. Assess the results of the tests of operating effectiveness of controls, if any

Control Design

.57 The evaluation of internal control design involves considering whether the control, individually or in combination with other controls, is capable of effectively preventing or detecting and correcting material misstatements.

.58 On every audit you should evaluate the design of internal control and determine whether controls have been implemented over all relevant assertions related to each material account balance, class of transactions, or disclosures.

Control Operations

.59 The concept of the effective operation of controls is different from their design and implementation. The operating effectiveness of controls involves the consideration of:

— How controls were applied during the audit period

— The consistency with which they were applied

— By whom they were applied

.60 To assess the operating effectiveness of controls, you should perform tests of controls. Unlike the evaluation of control design, tests of controls are not required on every audit, only on those audits where the auditor's risk assessment procedures includes an expectation that the controls will be effective or when substantive procedures alone do not provide sufficient audit evidence at the assertion level.

Information Technology

.61 Your understanding of the client and its environment, including its internal control, includes an understanding of how it uses information technology (IT). A client's use of IT may affect any of the five components of internal control relevant to the achievement of the entity's financial reporting, operations, compliance objectives, and its operating units or business functions. Examples in which IT affects the entity and its environment are as follows.

- *External factors.* For example, technological innovations may have lowered the barriers to entry into the client's industry, which in turn increases competition not only for customers, but perhaps also for raw materials or qualified personnel.

- *Client operations.* For example, your client's manufacturing process may rely more on manual processes and less on technology than its competitors. Consequently, your client's financial and nonfinancial ratios will differ from others in the industry.

- *Objectives, strategies, and business risks.* For example, your not-for-profit client's innovative use of technology may allow it to raise contributions from groups of supporters who otherwise would not contribute to the organization.

- *Measurement and review of the client's financial performance.* For example, management frequently relies on information produced by the company's IT processing system to measure and review the company's financial performance. Management's ability to make decisions appropriately may rely on the accuracy, availability, and timeliness of the information processed by the IT system.

.62 The way in which IT is deployed may vary among entities. For example, your client may use IT as part of discrete systems that support only particular business units, functions, or activities, such as a unique accounts receivable system for a particular business unit or a system that controls the operation of factory equipment. Alternatively, other entities in the same industry may have complex, highly integrated systems that share data and that are used to support all aspects of the company.

Implications of IT on Your Understanding of Internal Control

.63 The nature and characteristics of your client's use of IT in its financial information system affect its internal control. For example:

- Multiple users may access a common database of information. In such circumstances, a lack of control at a single user entry point might compromise the security of the entire database, potentially resulting in improper changes to or destruction of data.

- When IT personnel or users are given, or can gain, access privileges beyond those necessary to perform their assigned duties, a breakdown in segregation of duties can occur. This breakdown could result in unauthorized transactions or changes to programs or data that affect the financial statements.

.64 ***General vs. IT Application Controls.*** IT general computer controls are polices and procedures that relate to many applications and support the effective functioning and continued proper operation of information systems. For example, your client's administration of passwords can potentially affect many applications. If passwords for a given user can be stored on that person's computer, the effectiveness of internal control may be compromised because anyone who gained access to the computer could inappropriately gain access to the application, the related data, or both.

.65 Other IT controls are applied only to specific applications, for example accounts payable, payroll, or the general accounting application. Application controls apply to the processing of individual applications. These controls help ensure that transactions occurred, are authorized, and are completely and accurately recorded and processed. Examples of application controls include checking the arithmetical accuracy of records, maintaining and reviewing accounts and trial balances, automated controls such as edit checks of input data and numerical sequence checks, and performing manual follow-ups of exception reports.

How the Client's Use of IT Affects Audit Planning

.66 The use of professionals possessing IT skills is a significant aspect of many audit engagements. An IT professional may help:

- Determine the effect of IT on the audit

- Identify and assess IT risks

- Understand IT controls
- Design and perform tests of IT controls or substantive procedures

.67 In determining whether an IT professional is needed on the audit team, you should consider factors such as the following:

- The complexity of the entity's systems and IT controls and the manner in which they are used in conducting the entity's business
- The significance of changes made to existing systems, or the implementation of new systems
- The extent to which data is shared among systems
- The extent of the entity's participation in electronic commerce
- The entity's use of emerging technologies
- The significance of audit evidence that is available only in electronic form

.68 Audit procedures that you may assign to a professional possessing IT skills include:

- Inquiring of the client's IT personnel how data and transactions are initiated, authorized, recorded, processed, and reported and how IT controls are designed
- Inspecting systems documentation
- Observing the operation of IT controls
- Planning and performing tests of IT controls

.69 If the use of an IT professional is planned, you should determine whether that professional is effectively functioning as a member of the audit team. If such a professional is part of your audit team, your responsibilities with respect to that professional are equivalent to those for other assistants. In such circumstances, you should have sufficient knowledge of IT matters to:

1. Communicate the objectives of the IT professional's work
2. Evaluate whether the specified audit procedures will meet your objectives
3. Evaluate the results of the audit procedures applied as they relate to the nature, timing, and extent of further planned audit procedures

Audit Evidence

The Nature of Audit Evidence

.70 Audit evidence is all the information you use to arrive at the conclusions that support your audit opinion. Audit evidence is cumulative in nature. For example, your evidence regarding payables begins with you performing risk assessment procedures relating to the client and its environment, including its internal control. These risk assessment procedures provide audit evidence to support your conclusion about the risk of material misstatement for payables. Based on this risk assessment, you then perform further audit procedures, which include substantive tests and may include tests of controls. The results of these further audit procedures provide audit evidence that, when considered in conjunction with the evidence from risk assessment procedures, allow you to form a supportable conclusion about payables. You then repeat this process for other accounts, classes of transactions, and disclosures, and the aggregation of your conclusions provides a basis for your opinion on the financial statements taken as a whole.

.71 The procedures that you perform on your audit provide audit evidence, but they are not the only source of audit evidence. For example, previous audits and your firm's client acceptance and continuance procedures also may be sources of audit evidence.

.72 To determine whether you have obtained persuasive audit evidence, you should consider:

- The consistency of that evidence
- Whether the evidence was obtained from different sources or the performance of procedures that were of a different nature

.73 A lack of consistency among individual items of audit evidence may indicate that one of the items is not reliable. For example, in a not-for-profit entity, the board of trustees' minutes reported that all of the contributions received during the year were unrestricted, but some of the donor agreements examined by you stated that the contributions are temporarily restricted. When audit evidence obtained from one source is inconsistent with that obtained from another, you should determine what additional audit procedures are necessary to resolve the inconsistency.

.74 Ordinarily, you obtain more assurance from consistent audit evidence obtained from different sources or of a different nature than from items of evidence considered individually. For example, reading minutes of the board and other documentation and making inquiries of several individuals about matters included in disclosures usually provide more reliable evidence than does making inquiries of one individual.

The Sufficiency and Appropriateness of Audit Evidence

.75 ***Sufficiency of Audit Evidence.*** The sufficiency of audit evidence relates to its quantity. For example, the auditor who tests eight of the twelve monthly reconciliations between a general ledger control account and the related subsidiary ledger will obtain more evidence about the operating effectiveness of the control than the auditor who tests only two of the twelve reconciliations.

.76 The sufficiency of audit evidence you need to support your conclusion is affected by:

- *The risk of misstatement.* The greater the risk, the more audit evidence likely to be required to support a conclusion
- *The quality of the audit evidence obtained.* The higher the quality of the evidence, the less that will be required.

.77 ***Appropriateness of Audit Evidence.*** The appropriateness of audit evidence relates to its quality. The quality of audit evidence is a function of its relevance and its reliability in providing support, or detecting misstatements, in the accounts, classes of transactions, or assertions.

- *Relevance of audit evidence.* The results of your audit procedures may provide audit evidence that is relevant to certain assertions but not others. For example, tests of controls related to the proper authorization of a transaction will provide evidence about the occurrence assertion but not about the completeness assertion. Obtaining audit evidence relating to a particular assertion, in this example, the occurrence of a transaction, is not a substitute for obtaining audit evidence regarding another assertion, in this example, completeness.
- *Reliability of audit evidence.* The reliability of audit evidence is influenced by its source and by its nature. Reliability also depends on the individual circumstances under which it is obtained, including its timing.

.78 Generalizations about the reliability of various kinds of audit evidence can be made; however, when considering such generalizations keep in mind that they are subject to important exceptions. Even when audit evidence is obtained from sources external to the client, circumstances may exist that could affect the reliability of the information obtained. For example, audit evidence obtained from an independent external source may not be reliable if the source is not knowledgeable. While recognizing that exceptions may exist, the following generalizations about the reliability of audit evidence may be useful.

- Audit evidence obtained directly by the auditor (for example, observation of the application of a control) is more reliable than audit evidence obtained indirectly or by inference (for example, inquiry about the application of a control).
- Audit evidence is more reliable when it exists in documentary form (whether paper, electronic, or other medium). For example, minutes of an audit committee meeting are more reliable than a subsequent oral representation of the matters discussed at the meeting.
- Audit evidence provided by original documents is more reliable than audit evidence provided by photocopies or facsimiles.

.79 Typically, you obtain more assurance from consistent audit evidence obtained from different sources or of a different nature than from items of audit evidence considered individually. For example, if the company lacks documentation to support its intent with regard to equity securities (which affect how those securities are classified and presented in the financial statements), you may have no choice but to rely on management's representations regarding their intent. Management's representations may be less reliable than a written record, but if you obtain representations from several sources (for example, from different members of management) and these representations are consistent with the client's past history of selling equity investments, then you may find the consistency of the evidence from different sources to be persuasive.

.80 An increased quantity of audit evidence may compensate for less reliable audit evidence, it cannot compensate for audit evidence that lacks relevancy. For example, a confirmation of an accounts receivable balance is not relevant to the valuation of the allowance account. Increasing the number of receivables confirmations will not provide you with any additional evidence relating to the allowance for doubtful accounts.

.81 ***Determining Whether You Have Obtained Sufficient, Appropriate Audit Evidence.*** You may find it necessary to rely on audit evidence that is persuasive rather than conclusive. However, to obtain the reasonable assurance required to support an opinion about the financial statements, you must not be satisfied with audit evidence that is less than persuasive.

Part Three: Applying the Audit Risk Model

.82 This part of the Alert provides a summary of the audit process. Even though some requirements and guidance are presented in a way that suggests a sequential process, audit fieldwork involves a continuous process of gathering, updating, and analyzing information throughout the audit.

.83 The following is an overview of how an auditor should apply the audit risk model in practice.

- *Gather information about the entity and its environment, including internal control.* Your first step in the process is to gather information about those aspects of the client and its environment that will allow you to identify and assess risks. Evaluating the design of the client's controls and determining whether they have been implemented are an integral part of this process.

- *Understand the entity and its environment, including its internal control.* Based on the information gathered, you should be able to identify what could go wrong in specific relevant assertions related to each account balance, class of transactions, or disclosures.
- *Assess the risk of material misstatement.* Next, you will use your understanding of the client and its environment, including its internal control, to assess the risk of material misstatement that relate to both financial statement level and specific assertions. To assess risks you will need to:
  - — Identify the risk of material misstatement
  - — Describe the identified risks in terms of what can go wrong in specific assertions
  - — Consider the significance and likelihood of material misstatement for each identified risk
- *Design overall responses and further audit procedures.* You should address the risk of material misstatement at both the financial statement and the relevant assertion level.
  - — The risk of material misstatement at the financial statement level has a more pervasive effect on the financial statements and affects many assertions. In addition to developing assertion-specific responses, financial statement-level risks may require you to develop an overall, audit-wide response, such as assigning more experienced audit team members.
  - — Assertion-level risks pertain to a single assertion and should be considered when you design and subsequently perform further audit procedures. Depending on the results of your risk assessment procedures, further audit procedures may encompass a combined approach using both tests of controls and substantive procedures or a substantive audit approach. Either approach is directed at relevant assertions related to each material account balance, class of transactions, and disclosures. However, regardless of your assessment of risks, you need to perform substantive audit procedures on all relevant assertions related to each material account balance, class of transaction, or disclosure.

Information Gathering

Information Needed About the Client and Its Environment to Identify and Assess the Risk of Material Misstatement

.84 Obtaining an understanding of your client and its environment is an essential part of every audit. Not only does this understanding allow you to identify and assess the risk of material misstatement, it also allows you to exercise informed judgment about other audit matters such as:

- Materiality
- Whether the client's selection and application of accounting policies are appropriate and financial statement disclosures are adequate
- Areas where special audit consideration may be necessary, for example, related party transactions
- The expectation of recorded amounts that you develop for performing analytical procedures
- The design and performance of further audit procedures
- The evaluation of audit evidence

.85 Not all information about a client or its environment is relevant for your audit. In general, the information you should gather about your client is that which allows you to assess the risk that specific assertions could be materially misstated. The following table summarizes the various categories of information you should obtain about your client.

Understanding the Client and Its Environment

On every audit you are required to gather information and obtain an understanding of the client and its environment. This understanding consists of the following aspects.

- *External factors*, including
  - — Industry factors such as the competitive environment, supplier and customer relationships, and technological developments.
  - — The regulatory environment, which includes relevant accounting pronouncements, the legal and political environment, and environmental requirements that affect the industry.
  - — Other matters such as general economic conditions.
- *Nature of the client*, which includes its operations, its ownership, governance, the types of investments it makes and plans to make, how it isfinanced, and how it is structured.
- *Objectives and strategies and related business risks*, which may result in material misstatement of the financial statements taken as a whole or individual assertions.
- *Measurement and review of the client's financial performance*, which tells you which aspects of the client's performance that management considers to be important.
- *Internal control*, which consists of five components: the control environment, risk assessment, information and communication, control activities, and monitoring. These components may operate at the entity level or the individual transaction level. To obtain an appropriate understanding of internal control will require you to understand and evaluate the design of all five components of internal control and to determine whether the controls are in use by the client.

Risk Assessment Procedures

.86 The audit procedures you perform to obtain an understanding of the entity and its internal control are referred to as *risk assessment procedures*. Some of the information you obtain by performing risk assessment procedures you will use to support your assessments of the risks of material misstatement. Risk assessment procedures include:

1. Inquiries of management and others at the client
2. Analytical procedures
3. Observation and inspection

.87 You need to gather audit evidence to support your assessment of the risk of material misstatement. It is not acceptable to simply deem control risk to be "at the maximum" without support. Your risk assessment procedures provide the audit evidence necessary to support your risk assessments, which in turn, support your determination of the nature, timing, and extent of further audit procedures. Thus, the results of your risk assessment procedures are an integral part of the audit evidence you obtain to support your opinion on the financial statements.

.88 ***A Mix of Procedures.*** Except for internal control, you are not required to perform all the procedures for each of the five aspects of the client and its environment discussed previously. However, in the course of gathering information about the client, you should perform all the risk assessment procedures.

.89 With regard to obtaining an understanding about the design of internal control and determining whether they have been implemented, inquiry alone is not sufficient. Thus, for these purposes, you should supplement your inquiries with other risk assessment procedures.

.90 ***Other Procedures That Provide Relevant Information About the Client.*** Following include some procedures you might consider.

- *Assessing the Risk of Material Misstatement Due to Fraud.* AU section 316, *Consideration of Fraud in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1), directs you to perform certain audit procedures to assess the risk of material misstatement due to fraud. Some of these procedures also may help gather information about the entity and its environment, particularly its internal control. For this reason, you should:
  — Coordinate the procedures you perform to assess the risk of material misstatement due to fraud with your other risk assessment procedures
  — Consider the results of your assessment of fraud risk when identifying the risk of material misstatement
- *Other Information.* When relevant to the audit, you also should consider other knowledge you have of the client that can help you assess risk. This other information may include:
  — Information obtained from your client acceptance or continuance process
  — Experience gained on other engagements performed for the entity

.91 ***Updating Information From Prior Periods.*** If certain conditions are met, you may use information about the client you obtained in prior periods as audit evidence in the current period audit. However, when you intend to use information from prior periods in the current period audit, you should determine whether changes have occurred that may affect the relevance of the information for the current audit. To make this determination, you should make inquiries and perform other appropriate audit procedures, such as walk-throughs of systems.

Gaining an Understanding of the Client and Its Environment

.92 The gathering of information, by itself, does not provide you with the understanding of the client that is necessary for you to assess risk. For you to assess the risk of material misstatement and perform further audit procedures, you need to synthesize the information gathered to determine how it might affect the financial statements. For example:

- Information about the client's industry may allow you to identify characteristics of the industry that could give rise to specific misstatements. For example, if your client is a construction contractor that uses long-term contract accounting, your understanding of the client should be sufficient to allow you to recognize that the significant estimates of revenues and costs create a risk of material misstatement.
- Information about the ownership of your client, how it is structured, and other elements of its nature will help you identify related party transactions that, if not properly accounted for and adequately disclosed, could lead to a material misstatement.
- Your identification and understanding of the business risks facing your client increase the chance that you will identify financial reporting risks. For example, your client may face a risk that a new company may enter its market, and that new entrant could have certain business advantages (for example, economies of scale or greater brand recognition). The potential risk of material misstatement of the financial statements related to this business risk might be obsolescence or overproduction of inventory that could only be sold at a discount.
- Information about the performance measures used by client management may lead you to identify pressures or incentives that could motivate client personnel to misstate the financial statements.
- Information about the design and implementation of internal control may lead you to identify deficiencies in control design, which increase the risk of material misstatement.

Evaluating the Design of Internal Control

.93 A sufficient understanding of internal control is one that allows you to evaluate the design of internal control and to determine whether controls have been placed in operation. This threshold describes a substantial understanding of internal control.

Requirements for Evaluating Control Design

.94 On every audit, you should obtain an understanding of internal control that is of sufficient depth to enable you to:

1. Assess the risks of material misstatement of the financial statements, whether due to error or fraud

2. Design the nature, timing, and extent of further audit procedures

.95 To meet this threshold of sufficiency, at both the entity and relevant assertion level, you should:

1. Evaluate the design of controls that are relevant to the audit and determine whether the control—either individually or in combination—is capable of effectively preventing or detecting and correcting material misstatements.

2. Determine that the control has been implemented, that is, that the control exists and that the entity is using it.

.96 Your evaluation of internal control design and the determination of whether controls have been implemented are critical to your assessment of the risks of material misstatement. It is not possible to develop a reliable assessment of the risk of material misstatement absent a sufficient understanding of internal control. For this reason, you are required to perform risk assessment procedures to gather information and form an understanding of internal control on every audit. Even if your initial audit strategy contemplates performing only substantive procedures for all relevant assertions related to material transactions, account balances, and disclosures, you still need to evaluate the design of your client's internal control.

.97 ***How to Evaluate Control Design.*** In evaluating control design, it is helpful to consider:

- Whether control objectives that are specific to the unique circumstances of the client have been considered for all relevant assertions for all significant accounts and disclosures

- Whether the control or combination of controls would—if operated as designed—meet the control objective

- Whether all controls necessary to meet the control objective are in place

Determining If the Control Has Been Implemented

.98 It may be possible that the way in which a control is applied by an entity differs from the description of the control in a policy manual or from one individual's understanding of how the control is applied. For example, your client's accounting policy manual may state that physical inventory accounts are performed annually. However, because of increases in the volume of transactions, the client deviates from this stated policy and counts some inventory items twice a year. This practice is not reflected in the policy manual and is not known by all individuals in the company. Determining whether a control has been implemented is important because it confirms your understanding of control design.

.99 The determination of whether a control has been put in place and is in use involves obtaining evidence about whether those individuals responsible for performing the prescribed procedures have:

- An awareness of the existence of the procedure and their responsibility for its performance
- A working knowledge of how the procedure should be performed

.100 Determining whether the control has been implemented does not require you to determine whether the control was performed properly throughout the audit period.

.101 ***Distinguishing Between Evaluation of Design and Tests of Controls.*** Obtaining an understanding of the design and implementation of internal control is different from testing its operating effectiveness.

- *Understanding design and implementation* is required on every audit as part of the process of assessing the risks of material misstatement.
- *Testing the operating effectiveness* builds on your understanding of internal control design and implementation and is necessary only where the auditor's risk assessment procedures include an expectation that the controls will be effective or when substantive procedures alone do not provide you with sufficient audit evidence at the assertion level.

.102 The procedures necessary to understand the design and implementation of controls do provide some limited evidence regarding the operation of the control.[2]

.103 However, the procedures necessary to understand the design and implementation of controls generally are not sufficient to serve as a test of their operating effectiveness for the purpose of placing significant reliance on their operation. For example, obtaining audit evidence about the implementation of a manually operated control at a point in time does not provide audit evidence about the operating effectiveness of control at other times during the period under audit.

.104 Examples of situations where the procedures you perform to understand the design and implementation of controls may provide sufficient audit evidence about their operating effectiveness include:

- Controls that are automated to the degree that they can be performed consistently provided that IT general controls over those automated controls operated effectively during the period.
- Controls that operate only at a point in time rather than continuously throughout the period. For example, if the client performs an annual physical inventory count, your observation of that count and other procedures to evaluate its design and implementation provide you with evidence that you consider in the design of your substantive procedures.

.105 ***Evaluating Design and Implementation in the Absence of Control Documentation.*** For smaller companies, the company's evidence supporting the design and implementation of some elements of internal control may not be available in documentary form. For example, the entity may lack:

- A written code of conduct that describes management's commitment to ethical values
- A formal risk assessment process

.106 Without adequate documentation of controls, the risk assessment procedures available to you to understand control design are limited to inquiry and observation. As risk assessment procedures, both inquiry and observation have limitations, and accordingly, absent adequate documentation, you should consider whether the information you have gathered about internal control is sufficient to evaluate its design.

---

[2] For example, a walkthrough that traces a transaction from its inception through its recording is considered a test of one transaction. Examination of several documents evidencing the operation of a control at a key control point may also be considered as a test. Generally, the evidence required to rely on the operation of the control will be greater than that required to simply assess whether it has been placed in operation.

.107 Inadequate documentation of the components of internal control also may be a control deficiency. For example, the lack of appropriate documentation may impair management's ability to communicate control procedures to those responsible for their performance or to monitor control performance effectively.

Discussion Among the Audit Team

.108 The members of the audit team should discuss the susceptibility of the client's financial statements to material misstatement. This discussion will allow team members to exchange information and create a shared understanding of the client and its environment, which in turn will enable each team member to:

- Gain a better understanding of the potential for material misstatement resulting from fraud or error in the assertions that are relevant to the areas assigned to them
- Understand how the results of the audit procedures that they perform may affect other aspects of the audit.

This discussion among the audit team could be held at the same time as the discussion among the team related to fraud, which is required by AU section 316.

Assessing the Risk of Material Misstatement

Considerations at the Financial Statement Level

.109 You should use your understanding of the client and its environment—which includes your evaluation of the design and implementation of internal control—to assess the risk of material misstatement. To make this assessment, you should:

1. Identify risks throughout the process of obtaining an understanding of the entity, its internal control, and its environment.
2. Relate the identified risks to what can go wrong at the relevant assertion level.
3. Consider whether the risks could result in a material misstatement to the financial statements.
4. Consider the likelihood that the risks could result in a material misstatement of the financial statements.

.110 ***Financial Statement-Level and Assertion-Level Risks.*** You should identify and assess the risks of material misstatement at both the financial statement level and the relevant assertion level.

1. *Financial statement-level risks.* Some risks of material misstatement relate pervasively to the financial statements taken as a whole and potentially affect many relevant assertions. These risks at the financial statement level may be identifiable with specific assertions at the class of transaction, account balance, or disclosure level.
2. *Relevant assertion-level risks.* Other risks of material misstatement relate to specific classes of transactions, account balances, and disclosures at the assertion level. Your assessment of risks at the assertion level provides a basis for considering the appropriate audit approach for designing and performing further audit procedures.

.111 Risks that exist at the financial statement level, for example, those that pertain to a weak control environment or to management's process for making significant accounting estimates, should be related to specific assertions. For example, risks related to the client's process for making accounting estimates would affect those assertions where an accounting estimate was necessary (for example, the valuation of assets).

.112 In other instances, it may not be possible for you to relate your financial statement-level risks to a particular assertion or group of assertions. For example, it may not be possible for you to determine which assertions will or will not be affected by a weak control environment. Financial statement-level assertions that can not be related to specific assertions will require you to make an overall response, such as the way in which the audit is staffed or supervised.

.113 ***How to Consider Internal Control When Assessing Risks.*** Your evaluation of internal control design and the determination of whether controls have been implemented are integral components of the risk assessment process. When making risk assessments, you should identify the controls that are likely to either prevent or detect and correct material misstatements in specific assertions. For example, procedures relating to the client's physical inventory count may relate specifically to the existence or completeness of inventory.

.114 Individual controls often do not address a risk completely in themselves. Often, only multiple control activities, together with other components of internal control (for example, the control environment, risk assessment, information and communication, or monitoring), will be sufficient to address a risk. For this reason, when determining whether identified controls are likely to prevent or detect and correct material misstatements, you generally organize your risk assessment procedures according to significant transactions and accounting processes (for example, sales, cash receipts, or payroll), rather than general ledger accounts.

.115 ***Identification of Significant Risks.*** As part of your risk assessment, you should identify significant risks, which are defined as those risks that require special audit consideration. For example, if your client is named as a defendant in a patent infringement lawsuit that may threaten the viability of its principal product, you could consider as significant risks, the risks that the lawsuit (1) would not be appropriately recorded or disclosed in accordance with generally accepted accounting principles or (2) may affect the entity's ability to continue as a going concern.

.116 Significant risks arise on most audits. When you determine that a risk is a significant risk, your audit procedures should include (but not be limited to):

- Obtaining an understanding of internal control, including relevant control activities, related specifically to those significant risks.
- If you plan to rely on the operating effectiveness of controls related to significant risks, testing the operating effectiveness of those controls in the current period. That is, using evidence about operating effectiveness that you obtained in prior periods is not appropriate.
- Substantive procedures specifically designed to address the significant risk.

.117 Significant risks should be distinguished from transactions or events that have a high inherent risk, which could be mitigated by the client's internal controls. For example, because of the nature of your client and the industry in which it operates, you might assess a high inherent risk on revenue recognition. However, the client may have controls over revenue recognition; you would then obtain an understanding of such controls and determine whether they are implemented and, if appropriate, test their operating effectiveness. This circumstance may not warrant special audit consideration and thus may not be a significant risk.

.118 The determination of whether a transaction or event is a significant risk is a matter for your professional judgment.

Considerations at the Assertion Level

.119 Part Two of this Alert provides a definition of audit risk (AR) in which:

AR = RMM x DR

where RMM is the risk of material misstatement and DR is detection risk

The risk of material misstatement is described as "the entity's risk," which means that it is independent of your audit. You can control detection risk by changing the nature, timing, and extent of your audit procedures. For example, to decrease the planned level of detection risk, you could perform more extensive substantive tests.

.120 You cannot control the risk of material misstatement as you can detection risk because RMM exists independently from your audit procedures. However, to properly gauge the detection risk you are willing to accept, you need to assess the risks of material misstatement. The risk assessment process described in the SASs is designed to allow you to gather information and assess the risks of material misstatement so you can design further audit procedures that reduce audit risk to an acceptably low level.

Determining Materiality and Tolerable Misstatement

.121 You should determine a materiality level for the financial statements taken as a whole when establishing the overall audit strategy for the audit. The determination of materiality will assist you in (1) making judgments when identifying and assessing the risk of material misstatement and (2) determining the nature, timing, and extent of your further audit procedures. In determining financial statement materiality, you will often apply percentages to benchmarks. The determination of materiality, including the selection of the appropriate benchmark and percentages, is a matter of your professional judgment and depends on the nature and circumstances of your audit.

.122 In addition to the quantitative considerations, you should be alert for misstatements that could be qualitatively material, for example, misstatements that may change a loss into income or vice versa, may potentially affect loan covenants, or may increase management's compensation.

.123 After you determine the financial statement materiality, you should set a tolerable misstatement, which is the adjustment of the financial statement materiality to the assertion level. Tolerable misstatement will assist you in assessing the risk of material misstatement and in designing and performing further audit procedures.

.124 Because the entity's circumstances may change as the audit progresses, you should reassess the financial statement materiality and tolerable misstatement levels initially determined. Failure to do so may result in you failing to obtain sufficient audit evidence to support your opinion.

Responding to Assessed Risks

Linking Assessed Risks to Further Audit Procedures

.125 The risk assessment process culminates with your articulation of the account balances, classes of transactions, or disclosures where material misstatements are most likely to occur. This assessment of risk relates identified risks to what can go wrong at the assertion level and the way in which misstatements are likely to occur. Your risk assessment provides the basis for designing and performing further audit procedures.

.126 You can think of your assessment of risks as having two dimensions: direction and amplitude. Direction relates to where misstatements can occur, that is, the specific assertions related to an account, class of transactions, or disclosure. Amplitude relates to the possible magnitude of the misstatement that could occur. Magnitude is a function of two variables: the potential significance of the misstatement (for example, whether it is material) and the likelihood of a misstatement occurring (for example, remote, likely). Your evaluation of the design and implementation of internal control affects all elements of your risk assessment process.

Further Audit Procedures

.127 You perform further audit procedures to obtain the audit evidence necessary to support your audit opinion. Further audit procedures consist of either tests of controls or substantive tests. Often, a combined approach using both tests of controls and substantive procedures is an effective approach. You are not precluded from adapting a substantive audit approach provided that you have and document an appropriate basis for this approach.

.128 In determining the nature, timing, and extent of further audit procedures, you should design and perform further procedures whose nature, timing, and extent are responsive to the assessed risk of material misstatement at the relevant assertion level. You should provide and document a clear linkage between your assessment of the risk of material misstatement and the nature, timing, and extent of the further audit procedures.

.129 Audit procedures performed in previous audits and example procedures provided by illustrative audit programs may help you understand the types of further audit procedures that are possible for you to perform. However, prior year procedures and example audit programs do not provide a sufficient basis for determining the nature, timing, and extent of audit procedures to perform in the current audit. Your assessment of the risk of material misstatement in the current period is the primary basis for designing further audit procedures in the current period.

Evaluating Audit Findings

.130 In evaluating whether the financial statements are presented fairly, you must consider the effects, both individually and in the aggregate, of misstatements (known and likely) identified by you that are not corrected by the client.

.131 Your consideration and aggregation of misstatements should include both of the following:

- Known misstatements, which are the amount of misstatements specifically identified
- Likely misstatements, which include (1) projected misstatements in the account balances or classes of transactions that you have examined and (2) differences between management's and the auditor's judgments concerning accounting estimates that the auditor considers unreasonable or inappropriate.

.132 Misstatements should be aggregated in a way that enables the auditor to consider whether, in relation to individual amounts, subtotals, or totals in the financial statements, they materially misstate the financial statements taken as a whole.

.133 Before considering the aggregate effect of identified uncorrected misstatements, the auditor should consider each misstatement separately to evaluate:

1. Its effect in relation to the relevant individual classes of transactions, account balances, or disclosures, including qualitative considerations.
2. Whether, in considering the effect of the individual misstatement on the financial statements taken as a whole, it is appropriate to offset misstatements. For example, it may be appropriate to offset misstatements of items within the same account balance in the financial statements.
3. The effect of misstatements related to prior periods. In prior periods, misstatements may not have been corrected by the entity because they did not cause the financial statements for those periods to be materially misstated. Those misstatements might also affect the current period's financial statements.

.134 In aggregating misstatements, you should include the effect on the current period's financial statements of those prior period misstatements. When evaluating the aggregate uncorrected misstatements, you should consider the effects of these uncorrected misstatements in determining whether the financial statements are free of material misstatement.

.135 There are quantitative and qualitative materiality considerations, and you should consider both when evaluating audit results. Because of qualitative considerations, misstatements of relatively small amounts could have a material effect on the financial statements. For example, an illegal payment of an otherwise immaterial amount could be material if there is a reasonable possibility that it could lead to a material contingent liability or a material loss of revenue.

Evaluating Whether the Financial Statements Taken as a Whole Are Free of Material Misstatement

.136 You must evaluate whether the financial statements taken as a whole are free of material misstatement. In making this evaluation, you should consider the evaluation of the uncorrected (known and likely) misstatements you identified during the audit. When concluding about whether the effect of misstatements, individually or in the aggregate, is material, you should consider the nature and amount of the misstatements in relation to the nature and amount of items in the financial statements under audit. For example, an amount that is material to the financial statements of one entity may not be material to the financial statements of another entity of a different size or nature. Also, what is material to the financial statements of a particular entity might change from one period to another.

.137 If you believe that the financial statements taken as a whole are materially misstated, you should request management to make the necessary corrections. If management refuses to make the corrections, you must determine the implications for the auditor's report.

.138 If you conclude that the effects of uncorrected misstatements are not material, you should consider that the financial statements themselves could still be materially misstated because of additional misstatements that you did not detect. As the aggregate misstatements approach materiality, the risk that the financial statements may be materially misstated also increases. Accordingly, you should consider the effect of undetected misstatements in concluding whether the financial statements are fairly stated.

The Iterative Nature of Auditing

.139 An audit of financial statements is a cumulative and iterative process. As you perform planned audit procedures—whether they be risk assessment procedures, substantive tests, or tests of controls—the audit evidence you obtain may cause you to modify the nature, timing, or extent of other planned audit procedures. Information may come to your attention that differs significantly from the information on which the risk assessments were based.

.140 For example, the extent of misstatements that you detect by performing substantive procedures may alter your judgment about the risk assessments and may indicate a material weakness in internal control. Or, analytical procedures performed at the overall review stage of the audit may indicate a previously unrecognized risk of material misstatement. In such circumstances, you should reevaluate the planned audit procedures based on the revised consideration of assessed risks.

Audit Documentation

General Documentation Requirements

.141 In general, you should document certain matters pertaining to each step in the risk assessment process. This audit documentation should provide a clear understanding of the work performed, the source of the information, and the conclusions reached.

.142 The form and content of audit documentation are for you to determine using professional judgment. AU section 339, *Audit Documentation* (AICPA, *Professional Standards*, vol. 1), provides general guidance regarding the purpose, content, ownership, and confidentiality of audit documentation. Examples of common documentation techniques include narrative descriptions, questionnaires, checklists, and flowcharts. These techniques may be used alone or in combination.

.143 The form and extent of your documentation are influenced by the following:

- The nature, size, and complexity of the entity and its environment
- The availability of information from the entity
- The specific audit methodology and technology used in the course of the audit

.144 For example, documentation of the understanding of a complex information system in which a large volume of transactions are electronically initiated, authorized, recorded, processed, or reported may include flowcharts, questionnaires, or decision tables. For an information system making limited or no use of IT or for which few transactions are processed, documentation in the form of a memorandum may be sufficient. Generally, the more complex the entity and its environment, and the more extensive the audit procedures performed by the auditor, the more extensive your documentation should be. The specific audit methodology and technology used in the course of the audit will also affect the form and extent of documentation.

Specific Documentation Requirements

.145 The SASs require you to document the following matters.

- The levels of materiality and tolerable misstatement, including any changes thereto, used in the audit and the basis on which those levels were determined.
- The discussion among the audit team regarding the susceptibility of the entity's financial statements to material misstatement due to error or fraud, including how and when the discussion occurred, the subject matter discussed, the audit team members who participated, and significant decisions reached concerning planned responses at the financial statement and relevant assertion levels.
- Key elements of the understanding obtained regarding each of the aspects of the entity and its environment, including each of the components of internal control, to assess the risks of material misstatement of the financial statements, the sources of information from which the understanding was obtained, and the risk assessment procedures.
- The assessment of the risks of material misstatement both at the financial statement level and at the relevant assertion level and the basis for the assessment.
- The significant risks identified and related controls evaluated.
- The overall responses to address the assessed risks of misstatement at the financial statement level.
- The nature, timing, and extent of the further audit procedures.
- The linkage of those procedures with the assessed risks at the relevant assertion level.
- The results of the audit procedures.
- The conclusions reached with regard to the use in the current audit of audit evidence about the operating effectiveness of controls that was obtained in a prior audit.
- A summary of uncorrected misstatements, other than those that are trivial, related to known and likely misstatements.
- Your conclusion about whether uncorrected misstatements, individually or in aggregate, do or do not cause the financial statements to be materially misstated, and the basis for that conclusion.

.146 Uncorrected misstatements should be documented in a manner that allows the auditor to:

- Separately consider the effects of known and likely misstatements, including uncorrected misstatements identified in prior periods.
- Consider the aggregate effect of misstatements on the financial statements.
- Consider the qualitative factors that are relevant to the auditor's consideration of whether misstatements are material.

Resource Central

.147 The AICPA will offer continuing professional education courses, including a self-study course as well as a group study course. In addition, the new risk assessment standards will be a topic of discussion in various AICPA conferences in which AICPA presenters will further explain the standards.

On the Bookshelf

Future AICPA Audit Guide on Risk Assessment and Internal Control

.148 The AICPA is currently developing an Audit Guide to aid in implementing the new risk assessment standards. In addition, the AICPA is revamping its existing Audit Guide titled *Consideration of Internal Control in a Financial Statement Audit*. The current development plan envisions combining these two guides into one audit guide. This audit guide should be available by mid-2006 and can be purchased by contacting the AICPA/CPA2Biz Service Center at (888) 777-7077 or online at www.cpa2biz.com.

AICPA's reSOURCE Online Accounting and Auditing Literature

.149 Get access—anytime, anywhere—to the AICPA's latest *Professional Standards*, *Technical Practice Aids*, *Audit and Accounting Guides*, Audit Risk Alerts, and *Accounting Trends & Techniques*. To subscribe to this essential service, go to www.cpa2biz.com.

reSOURCE CD-ROM

.150 The AICPA is currently offering a CD-ROM product entitled *reSOURCE: AICPA's Accounting and Auditing Literature.* This CD-ROM enables subscription access to AICPA Professional Literature products in a Windows format, namely, *Professional Standards*, *Technical Practice Aids*, and *Audit and Accounting Guides* (available for purchase as a set or as individual publications). This dynamic product allows you to purchase the specific titles you need and includes hypertext links to references within and between all products.

AICPA/CPA2Biz Service Center

.151 To order AICPA products, receive information about AICPA activities, and find help on your membership questions, call the AICPA/CPA2Biz Service Center at (888) 777-7077. The best times to call are 8:30 A.M. to 11:30 A.M. and 2:00 P.M. to 7:30 P.M., Eastern Standard Time. You can also order AICPA products from the Service Center by fax at (800) 362-5066 or visit www.cpa2biz.com to obtain product information and place online orders.

Hotlines

Accounting and Auditing Technical Hotline

.152 The AICPA Technical Hotline answers members' inquiries about accounting, auditing, attestation, compilation, and review services. Call (888) 777-7077.

Ethics Hotline

.153 Members of the AICPA's Professional Ethics Team answer inquiries concerning independence and other behavioral issues related to the application of the AICPA Code of Professional Conduct. Call (888) 777-7077.

Web Sites

AICPA Online and CPA2Biz

.154 AICPA Online (www.aicpa.org) offers CPAs the unique opportunity to stay abreast of matters relevant to the CPA profession. AICPA Online informs you of developments in the accounting and auditing world as well as developments in congressional and political affairs affecting CPAs. In addition, www.cpa2biz.com offers all the latest AICPA products, including the *Audit and Accounting Guides*, *Professional Standards*, CPE courses, Practice Aids, and Audit Risk Alerts.

.155 Any comments that you have about this Alert may be e-mailed to lpombo@aicpa.org or mailed to:

Understanding SAS No. 112 and Evaluating Control Deficiencies

COMPANION TO SAS N0. 112, COMMUNICATING INTERNAL CONTROL RELATED MATTERS IDENTIFIED IN AN AUDIT

NOTICE TO READERS
UNDERSTANDING SAS NO. 112 AND EVALUATING CONTROL DEFICIENCIES

This Audit Risk Alert, prepared by the AICPA staff, is intended to help you understand and implement the requirements of Statement on Auditing Standards (SAS) No. 112, *Communicating Internal Control Related Matters Identified in an Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 325).

This publication is an *Other Auditing Publication* as defined in AU section 150, *Generally Accepted Auditing Standards*. Other Auditing Publications have no authoritative status; however, they may help the auditor understand and apply SASs.

If an auditor applies the auditing guidance included in an *Other Auditing Publication*, he or she should be satisfied that, in his or her judgment, it is both appropriate and relevant to the circumstances of his or her audit. The auditing guidance in this document has been reviewed by the AICPA Audit and Attest Standards staff and published by the AICPA and is presumed to be appropriate. This document has not been approved, disapproved, or otherwise acted on by a senior technical committee of the AICPA.

The author gratefully acknowledges the contributions of the AICPA Technical Issues Committee in the development of this Audit Risk Alert.

Ahava Goldman, CPA
Technical Manager
Audit and Attest Standards

Introduction

.01 In May 2006, the AICPA Auditing Standards Board (ASB) issued Statement on Auditing Standards (SAS) No. 112, *Communicating Internal Control Related Matters Identified in an Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 325). SAS No. 112 establishes standards and provides guidance on communicating matters related to an entity's internal control over financial reporting (internal control) identified in an audit of financial statements. SAS No. 112 supersedes SAS No. 60, *Communication of Internal Control Related Matters Noted in an Audit*, as amended.

.02 The new SAS is applicable whenever an auditor expresses an opinion on financial statements (including a disclaimer of opinion) and is effective for audits of financial statements for periods ending on or after December 15, 2006. This Audit Risk Alert provides an overview of the requirements of SAS No. 112 as well as case studies that illustrate how control deficiencies may be evaluated for severity.

Why SAS No. 112 Was Issued

.03 The Sarbanes-Oxley Act of 2002 and the issuance of Public Company Accounting Oversight Board (PCAOB) Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction With an Audit of Financial Statements* (AICPA, *PCAOB Standards and Related Rules*, AU sec. 320), created considerable interest in management's responsibility for internal control and the auditor's responsibility for bringing certain internal control related matters to management's attention in an audit of financial statements. Auditing Standard No. 2 only applies to audits conducted in accordance with PCAOB standards. Generally, this means that Auditing Standard No. 2 applies to audits of public companies (issuers[1]). However, the issuance of Auditing Standard No. 2 created a desire on the part of nonissuers to better understand and evaluate control deficiencies.

.04 The ASB revised SAS No. 60 because it believed there was a need to reconsider and clarify the internal control matters that auditors must communicate to their audit clients. The ASB recognized that auditors were perceived to be inconsistent in communicating the significant deficiencies and material weaknesses identified in prior audits that had not yet been remediated. The ASB also concluded that generally accepted auditing standards (GAAS) should require auditors to communicate these matters in writing, rather than continue to provide auditors with the option of communicating them orally. To achieve greater consistency with Auditing Standard No. 2, the ASB decided that certain terms and definitions in SAS No. 60 should be replaced with the corresponding terms and definitions in Auditing Standard No. 2. Finally, the ASB concluded that it would be beneficial to incorporate some of the guidance in Auditing Standard No. 2 on evaluating control deficiencies that would be applicable to audits of nonissuers.

Overview of the Standard

.05 In general, SAS No. 112 provides guidance to enhance your ability to identify and evaluate control deficiencies during an audit, and then communicate to management and those charged with governance those deficiencies that you believe are *significant deficiencies* or *material weaknesses*.

.06 The standard has two unconditional requirements:

- The auditor must evaluate identified control deficiencies and determine whether those deficiencies, individually or in combination, are significant deficiencies or material weaknesses.
- The auditor must communicate, in writing, significant deficiencies and material weaknesses to management and those charged with governance. This communication includes significant deficiencies and material weaknesses identified and communicated to management and those charged with governance in prior audits but not yet remediated.

Change From SAS No. 60

> Your communication to management and those charged with governance must be in writing.
>
> Even if you communicated specific significant deficiencies and material weaknesses in previous years, as long as those deficiencies continue to exist, you must continue to communicate them.
>
> The new standard provides guidance on evaluating the severity of control deficiencies identified in an audit.

Identifying Control Deficiencies

.07 A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis:

---

[1] An *issuer* is an entity subject to the provisions of the Sarbanes-Oxley Act of 2002 or the rules of the Security and Exchange Commission (SEC). Nothing in the PCAOB's rules precludes a CPA from conducting an audit of a nonissuer in accordance with PCAOB standards and stating so in the auditor's report.

- A deficiency in *design* exists when (*a*) a control necessary to meet the control objective is missing or (*b*) an existing control is not properly designed so that, even if it operates as designed, the control objective is not always met.
- A deficiency in *operation* exists when a properly designed control does not operate as designed or when the person performing the control does not possess the necessary authority or qualifications to perform the control effectively.

The Auditor's Responsibility for Identifying Control Deficiencies

.08 When conducting an audit of historical financial statements, you are not required to perform procedures to identify control deficiencies. However, during the course of the audit, you may become aware of deficiencies in the design or operation of the entity's internal control. You may identify control deficiencies at any point in your audit, for example, when you are:

- Obtaining an understanding of the entity's internal control,
- Assessing the risks of material misstatement of the financial statements, due to error or fraud,
- Performing further audit procedures to respond to assessed risk, or
- Communicating with management or others (for example, internal auditors or governmental authorities).

.09 Your awareness of control deficiencies will vary with each audit and will be influenced by the nature, timing, and extent of audit procedures performed, as well as other factors. The results of your substantive procedures may cause you to reevaluate your earlier assessment of internal control.

Evaluating Control Deficiencies

Change From SAS No. 60

> The term *reportable condition* is no longer used. The terms *significant deficiency* and *material weakness* are used to describe control deficiencies that must be communicated to management and those charged with governance.

.10 A control deficiency may be considered just a deficiency. More severe deficiencies are *significant deficiencies*, and the most severe deficiencies are *material weaknesses*.

Definitions of Significant Deficiency and Material Weakness

.11 A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles (GAAP) such that there is more than a remote[2] likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected.

---

[2] The term *remote likelihood* as used in the definitions of the terms *significant deficiency* and *material weakness* has the same meaning as the term *remote* as used in Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 5, *Accounting for Contingencies*. Paragraph 3 of FASB Statement No. 5 states:

> When a loss contingency exists, the likelihood that the future event or events will confirm the loss or impairment of an asset or the incurrence of a liability can range from probable to remote. This Statement uses the terms *probable*, *reasonably possible*, and *remote* to identify three areas within that range, as follows:
>
> a. *Probable*. The future event or events are likely to occur.
>
> b. *Reasonably possible*. The chance of the future event or events occurring is more than remote but less than likely.
>
> c. *Remote*. The chance of the future event or events occurring is slight.

Therefore, the likelihood of an event is "more than remote" when it is at least reasonably possible.

.12 A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected.

The Evaluation Process

Change From SAS No. 60

You must evaluate identified control deficiencies and determine whether these deficiencies, individually or in combination, are significant deficiencies or material weaknesses. In making your evaluation, you link identified control deficiencies to actual or potential financial statement misstatements.

Additional guidance is provided in SAS No. 112 on evaluating control deficiencies to determine whether they are significant deficiencies or material weaknesses.

.13 You must evaluate the control deficiencies that you have identified and determine whether these deficiencies, individually or in combination with other control deficiencies, rise to the level of significant deficiencies or material weaknesses. The significance of a deficiency in internal control depends on the *potential* for misstatement in the financial statements being audited, not just on whether a misstatement has actually occurred. If you identify a control deficiency but you have not identified an actual misstatement related to that deficiency, you cannot automatically conclude that the deficiency is not a significant deficiency or a material weakness. If you have identified a misstatement, you should consider the potential for further misstatement in the financial statements being audited.

Factors to Consider

.14 The factors that you should consider when evaluating control deficiencies are:

- Likelihood, and
- Magnitude

.15 *Likelihood* refers to the probability that a control, or combination of controls, could have failed to prevent or detect a misstatement in the financial statements being audited. If, in your professional judgment, it is at least reasonably possible that a misstatement could have occurred because of a missing control, or because of the failure of a control or combination of controls, then the likelihood is *more than remote*. The existence of a design weakness, in and of itself, is sufficient to conclude that there is more than a remote likelihood that the control would not have been effective. Likewise, if a deficiency resulted in an actual misstatement, you will be better able to determine the likelihood, because it actually happened.

.16 *Magnitude* refers to the extent of the misstatement that could have occurred, or that actually occurred, since misstatements include both potential and actual misstatements. The magnitude of a misstatement may be inconsequential, more than inconsequential but less than material, or material, as shown in the following:

Inconsequential ⟶ More than Inconsequential ⟶ Material

.17 A misstatement is *inconsequential* if a reasonable person would conclude, after considering the possibility of further undetected misstatements, that the misstatement, either individually or when aggregated with other misstatements, would clearly be immaterial to the financial statements. If a reasonable person would not reach such a conclusion regarding a particular misstatement, that misstatement is more than inconsequential.

.18 The difference between a significant deficiency and a material weakness is the magnitude of the misstatement that could have occurred because of the failure of the control to prevent or detect a misstatement. If the magnitude of the actual or potential misstatement is less than material but more than inconsequential, the control deficiency is a significant deficiency. If the misstatement would have been material to the financial statements, the control deficiency is a material weakness. In this evaluation, it does not matter if a misstatement did not actually occur; what is relevant is the potential for misstatement.

.19 You should consider qualitative and quantitative factors in determining whether a misstatement or potential misstatement is more than inconsequential. For example, for the purpose of evaluating control deficiencies, a potential misstatement that is less than 20 percent of overall financial statement materiality may be considered inconsequential, before considering qualitative factors. However, a potential misstatement that is less than 20 percent of overall financial statement materiality may be considered more than inconsequential as a result of qualitative factors; for example, a potential misstatement that would change a loss into income, or result in violation of a loan covenant.

.20 The following table summarizes how you consider the significance of a deficiency to determine whether it is a control deficiency, a significant deficiency, or a material weakness.

Magnitude of misstatement that occurred, or could have occurred	***Likelihood of misstatement***	
	More Than Remote	*Remote*
Quantitatively or qualitatively material	Material weakness	Control deficiency but not a significant deficiency or a material weakness
More than inconsequential but less than material	Significant deficiency but not a material weakness	Control deficiency but not a significant deficiency or a material weakness
Inconsequential (i.e., clearly immaterial)	Control deficiency but not a significant deficiency or a material weakness	Control deficiency but not a significant deficiency or a material weakness

Multiple Control Deficiencies

.21 Multiple control deficiencies that affect the same financial statement account balance or disclosure increase the likelihood of misstatement and may, in combination, constitute a significant deficiency or material weakness, even though such deficiencies are individually insignificant. Accordingly, you should evaluate individual control deficiencies that affect the same account balance, disclosure, relevant assertion, or component of internal control to determine whether they collectively result in a significant deficiency or material weakness.

Mitigating Effects of Compensating Controls

.22 When a control deficiency has been identified, management and the auditor should also evaluate the possible mitigating effects of compensating controls. Only those compensating controls that you have tested and evaluated as part of the financial statement audit can be considered for mitigation. A compensating control is a control that limits the severity of a control deficiency and prevents it from rising to the level of a significant deficiency or, in some cases, a material weakness. Compensating controls operate at a level of precision, considering the possibility of further undetected misstatements, which would result in the prevention or detection of a misstatement that is more than inconsequential or material to the financial statements. Although compensating controls mitigate the effects of a control deficiency, they do not eliminate the control deficiency.

.23 For example, consider a situation in which there is a lack of segregation of duties within the accounts payable function in an owner-managed entity. As a compensating control, the owner reviews the supporting documentation for all disbursements exceeding one thousand dollars. As part of your audit, you could test this compensating control and determine whether it operates effectively for the purpose of mitigating the effects of the control deficiency (lack of segregation of duties) in the accounts payable function. Although the control deficiency still exists—the review does not eliminate the lack of segregation of duties—the significance of the deficiency may be mitigated by the compensating control so that it is not a significant deficiency or a material weakness.

The Prudent Official Test

.24 When you evaluate the significance of a deficiency, the last step in your evaluation is to conclude whether a prudent official having knowledge of the same facts and circumstances, would agree with your classification of the deficiency. Although the term *prudent official* is not defined in the standard, the concept is that an auditor should "stand back" and take another objective look at the severity of the deficiency much as would a regulator or someone from an oversight agency. You are being asked to consider whether a *prudent official* (knowing what you know about the facts and circumstances, the likelihood and magnitude of the potential misstatement, and the other controls that you tested) would agree with your conclusion that a deficiency is not a significant deficiency or that a significant deficiency is not a material weakness. Would you be comfortable defending your conclusion? If not, you should reconsider your evaluation of the significance of the deficiency looking through the skeptical lens of a prudent official. Because a prudent official is cautious, the prudent official test is used only to increase the severity of a control deficiency and not to justify a decrease in the severity.

.25 SAS No. 112 includes (1) a list of areas in which control deficiencies ordinarily are at least significant deficiencies, and (2) a list of indicators that a control deficiency should be regarded as at least a significant deficiency and a strong indicator of a material weakness. A material financial statement misstatement that was not identified by management is a strong indicator of a material weakness.

.26 SAS No. 112 also contains an Appendix [AU section 325.32] that provides examples of circumstances that may be control deficiencies, significant deficiencies, or material weaknesses. This Appendix [AU section 325.32] revises and expands on the examples contained in the Appendix to SAS No. 60. The following are some of the items included in the Appendix [AU section 325.32]:

- Inadequate design of internal control over the preparation of the financial statements being audited
- Employees or management who lack the qualifications and training to fulfill their assigned functions; for example, the corporate controller lacks the knowledge and skill to apply GAAP in recording the entity's financial transactions or preparing its financial statements
- Inadequate design of information technology (IT) general and application controls
- Inadequate documentation of the components of internal control
- Inadequate design of monitoring controls that assess the design and operating effectiveness of the entity's internal control over time

Communication Requirements

Change From SAS No. 60

Significant deficiencies and material weaknesses must be communicated in writing to management and those charged with governance as part of each audit. This communication includes significant deficiencies and material weaknesses that were communicated to management and those charged with governance that have not yet been remediated.

The communication is best made by the report release date, but should be made no later than 60 days following the report release date.

The illustrative written communications in SAS No. 60 have been revised.

Form of Communication

.27 You must communicate *in writing* to management and those charged with governance.

Content of Communication

.28 You must communicate all control deficiencies that you evaluated as significant deficiencies and material weaknesses. If you communicated significant deficiencies and material weaknesses in previous audits and those deficiencies have not yet been remediated, you must communicate them again. Management and those charged with governance may already know about certain deficiencies and may have made a conscious decision to accept that degree of risk because of cost or other considerations. Management is responsible for that decision. You are responsible for communicating significant deficiencies and material weaknesses, regardless of management's decision. As long as the significant deficiencies and material weaknesses exist, you must continue to communicate them.

.29 You should not issue a written communication stating that no significant deficiencies were identified during the audit because of the potential for misinterpretation of the limited degree of assurance provided by such a communication.

.30 SAS No. 112 contains an illustrative communication that encompasses the requirements of the standard. In addition, SAS No. 112 contains an illustrative communication that may be used when the auditor has been requested to advise management and those charged with governance of the fact that no material weaknesses were identified. Also illustrated is a paragraph to be added to the auditor's communication if, for the benefit of a regulator, management's response to the auditor's communication of significant deficiencies and material weaknesses is included in a document with the auditor's written communication.

Timing of Communication

.31 Best practice is to issue your written communication by the report release date. You should issue your communication no later than 60 days following the report release date.

.32 For some matters, early communication to management or those charged with governance may be important. If you decide to communicate certain identified significant deficiencies and material weaknesses during the audit, the communication may be oral. However, all significant deficiencies and material weaknesses that you communicated orally during the audit must be communicated in writing to management and those charged with governance.

How the Revisions Will Affect Practice

.33 As you gain a better understanding of what needs to be communicated to management and those charged with governance, you may find that there will be more control deficiencies that you:

- Identify as significant deficiencies and material weaknesses, and
- Communicate to management and those charged with governance.

.34 You may emphasize and therefore spend more time evaluating identified control deficiencies than you did in the past.

Discussions With Management and Others

.35 The new requirements of SAS No. 112 may change perceptions regarding the auditor's role in the client's internal control. You may have to explain to your clients that you, the auditor, *cannot* be a part of their internal control. Only the client—not the auditor—can correct control deficiencies. However, a CPA firm other than the auditor can be part of a client's internal control. This may raise new questions regarding the role of outsourcing in achieving management's internal control objectives.

.36 You may wish or be called upon to hold discussions with management and other users of your written communication, such as regulators, to explain why the nature and extent of the internal control matters communicated to management and those charged with governance are different from the matters communicated in prior years. One reason is that the criteria have changed because of the introduction of the term *significant deficiencies* and its definition as well as a new definition of *material weaknesses*. Another reason is that you have to include significant deficiencies and material weaknesses, identified and communicated in previous years, in your written communication as long as these deficiencies have not been remediated. You may need to explain to management and other users that you are required to inform them of the significant deficiencies and material weaknesses every year as long as the deficiencies still exist.

.37 You may also need to hold discussions with management and other users who ask how you were able to express a clean opinion on the financial statements when material weaknesses in internal control were present. You may wish to explain that your audit was designed to provide reasonable assurance that the financial statements are free from material misstatements. Internal control should be designed to prevent or detect material misstatements. As previously stated, the auditor cannot be part of a client's internal control. You can express a clean opinion on the financial statements even though material weaknesses in internal control are present, because you performed sufficient procedures and obtained appropriate audit evidence to afford reasonable assurance that the financial statements are free from material misstatement. However, these procedures do not *correct* control deficiencies; the deficiencies in internal control could still result in a material misstatement not being prevented or detected by the client.

Issues for Audits of Smaller Entities

.38 One issue that may arise in audits of smaller entities is the possibility of increased costs as a result of the auditor's time spent documenting his or her evaluation of internal control and evaluating identified control deficiencies.

.39 Another issue that may cause concern is the extent to which you (as the auditor) may be involved in the drafting of an entity's financial statements. It is a strong indication of material weakness in internal control if your client has ineffective controls over the preparation of their financial statements such that client controls are absent or controls are not effective in preventing or detecting material misstatements in the preparation of financial statements, including the related footnotes. Although the auditor can propose adjustments and assist in assembling or drafting the financial statements, the auditor cannot establish or maintain the client's controls, including monitoring ongoing activities, since doing so would impair independence.[3] How an auditor responds to a client's internal control weakness, in terms of designing and carrying out auditing procedures, does not affect or mitigate a client's internal control weakness. Just as an auditor's response to detection risk is independent of the client's control risk, so too the auditor's response to a control weakness does not change the control weakness.

.40 ***Possible Opportunities.*** The new requirements of SAS No. 112 introduce possible opportunities for you. You can help clients evaluate the cost/benefit implications of improving their internal control, including training their personnel to be more knowledgeable. You can also teach your clients how to develop a risk assessment approach to designing internal control.

---

[3] See Ethics Interpretation 101-3, *Performance of Nonattest Services*, under Rule 101, *Independence* (AICPA, *Professional Standards*, vol. 2, ET sec. 101.05).

Examples

.41 SAS No. 112 includes examples of factors that impact on the consideration of likelihood and magnitude.

Likelihood

.42 The following are examples of factors that may affect the likelihood that a control, or combination of controls, could fail to prevent or detect a misstatement:

- The nature of the financial statement accounts, disclosures, and assertions involved. For example, suspense accounts and related party transactions involve greater risk
- The susceptibility of the related assets or liability to loss or fraud
- The subjectivity and complexity of the amount involved and the extent of judgment necessary to determine that amount
- The cause and frequency of any known or detected exceptions relating to the operating effectiveness of a control
- The interaction or relationship of the control with other controls
- The interaction of the control deficiency with other control deficiencies
- The possible future consequences of the deficiency

Magnitude

.43 Factors that may affect the magnitude of a misstatement that could result in a deficiency or deficiencies in controls include but are not limited to the following:

- The financial statement amounts or total of transactions exposed to the deficiency
- The volume of activity in the account balance or class of transactions exposed to the deficiency in the current period or expected in future periods

.44 Generally, the recorded amount is the maximum amount by which an account balance or total of transactions can be overstated. However, because of the potential for unrecorded amounts, there is no upper limit on the amount of potential understatement. For example, if there is a control deficiency over the completeness of accounts payable, and the recorded amount is $200,000, the most the amount could be overstated is $200,000. But the most the amount could be understated cannot be known.

.45 The following are examples of control deficiencies and how their likelihood and magnitude might be considered:

- *Failure to obtain required authorization for a valid disbursement*. In this case, you may consider the likelihood of misstatement that could result from recording an unauthorized disbursement, using the factors listed above.
- *A deficiency in controls over revenue transactions that results in a financial statement misstatement*. In this case, the likelihood of misstatement is more than remote because a misstatement actually occurred. You may consider the potential for misstatement in amounts greater than the identified misstatement.

Control Deficiencies, Significant Deficiencies, or Material Weaknesses

.46 The following paragraphs describe circumstances that may be control deficiencies, significant deficiencies, or material weaknesses.

.47 Deficiencies in the design of controls may include the following:

- Inadequate design of internal control over the preparation of the financial statements being audited
- Inadequate design of internal control over a significant account or process
- Inadequate documentation of the components of internal control
- Insufficient control consciousness within the organization, for example, the tone at the top and the control environment
- Absent or inadequate segregation of duties within a significant account or process
- Absent or inadequate controls over the safeguarding of assets (This applies to controls that the auditor determines would be necessary for effective internal control over financial reporting.)
- Inadequate design of information technology (IT) general and application controls that prevent the information system from providing complete and accurate information consistent with financial reporting objectives and current needs
- Employees or management who lack the qualifications and training to fulfill their assigned functions (For example, in an entity that prepares financial statements in accordance with GAAP, the person responsible for the accounting and reporting function lacks the skills and knowledge to apply GAAP in recording the entity's financial transactions or preparing its financial statements.)
- Inadequate design of monitoring controls used to assess the design and operating effectiveness of the entity's internal control over time
- The absence of an internal process to report deficiencies in internal control to management on a timely basis

.48 Failures in the operation of internal control may include the following:

- Failure in the operation of effectively designed controls over a significant account or process; for example, the failure of a control such as dual authorization for significant disbursements within the purchasing process
- Failure of the information and communication component of internal control to provide complete and accurate output because of deficiencies in timeliness, completeness, or accuracy; for example, the failure to obtain timely and accurately consolidating information from remote locations that is needed to prepare the financial statements
- Failure of controls designed to safeguard assets from loss, damage, or misappropriation
- Failure to perform reconciliations of significant accounts; for example, accounts receivable subsidiary ledgers are not reconciled to the general ledger account in a timely or accurate manner
- Undue bias or lack of objectivity by those responsible for accounting decisions; for example, consistent understatement of expenses or overstatement of allowances at the direction of management
- Misrepresentation by client personnel to the auditor (an indicator of fraud)

- Management override of controls
- Failure of an application control caused by a deficiency in the design or operation of an IT general control

.49 Note that the third circumstance in the preceding list, failure of controls designed to safeguard assets from loss, damage, or misappropriation, may need careful consideration before it is evaluated as a significant deficiency or material weakness. For example, assume that a company uses security devices to safeguard its inventory (preventive controls) and also performs periodic physical inventory counts (detective control) timely in relation to its financial reporting. Although the physical inventory count does not safeguard the inventory from theft or loss, it prevents a material misstatement of the financial statements if performed effectively and timely. Therefore, given that the definitions of material weakness and significant deficiency relate to the likelihood of misstatement of the financial statements, the failure of a preventive control such as inventory tags will not result in a significant deficiency or material weakness if the detective control (physical inventory) prevents a misstatement of the financial statements. Material weaknesses relating to controls over the safeguarding of assets would only exist if the company does not have effective controls (considering both safeguarding and other controls) to prevent or detect a material misstatement of the financial statements.

Significant Deficiencies

.50 Deficiencies in the following areas ordinarily are at least significant deficiencies in internal control:

- Controls over the selection and application of accounting principles that are in conformity with GAAP; having sufficient expertise in selecting and applying accounting principles is an aspect of such controls
- Antifraud programs and controls
- Controls over nonroutine and nonsystematic transactions
- Controls over the period-end financial reporting process, including controls over procedures used to enter transaction totals into the general ledger; initiate, authorize, record, and process journal entries into the general ledger; and record recurring and nonrecurring adjustments to the financial statements.

Material Weaknesses

.51 Each of the following circumstances is an indicator of a control deficiency that should be regarded as at least a significant deficiency and a strong indicator of a material weakness in internal control:

- Ineffective oversight by those charged with governance of the entity's financial reporting and internal control, or an ineffective overall governance structure
- Restatement of previously issued financial statements to reflect the correction of a material misstatement (The correction of a misstatement includes misstatements due to error or fraud but not restatements to reflect a change in accounting principle to comply with a new accounting principle or a voluntary change from one GAAP to another.)
- Identification by the auditor of a material misstatement in the financial statements for the period under audit that was not initially identified by the entity's internal control (This includes misstatements involving estimation and judgment for which the auditor identifies likely material adjustments and corrections of the recorded amounts, which is a strong indicator of a material weakness even if management subsequently corrects the misstatement.)

- An ineffective internal audit function or risk assessment function at an entity for which such functions are important to the monitoring or risk assessment component of internal control, such as for very large or highly complex entities
- For complex entities in highly regulated industries, an ineffective regulatory compliance function (This relates solely to those aspects of the ineffective regulatory compliance function for which associated violations of laws and regulations could have a material effect on the reliability of financial reporting. When evaluating the severity of such control deficiencies, the auditor should consider whether the entity has controls in place to monitor the impact on the financial statements of laws and regulations relevant to the conduct of the entity's business, and should evaluate the severity of the absence of such controls based on the entity's potential to misstate obligations that may arise from such laws or regulations.)
- Identification of fraud of any magnitude on the part of senior management (The auditor has a responsibility to plan and perform procedures to obtain reasonable assurance about whether the financial statements are free of material misstatement caused by error or fraud.[4] However, for the purposes of evaluating and communicating deficiencies in internal control, the auditor should evaluate fraud of any magnitude—including fraud resulting in immaterial misstatements—on the part of senior management, of which he or she is aware.)
- Failure by management or those charged with governance to assess the effect of a significant deficiency previously communicated to them and either correct it or conclude that it will not be corrected (See paragraph .23 of SAS No. 112 for communication requirements in these circumstances.)
- An ineffective control environment (Control deficiencies in various other components of internal control could lead the auditor to conclude that a significant deficiency or material weakness exists in the control environment.)

Evaluation Questions

.52 In evaluating the severity of a control deficiency, the first step is to determine whether the deficiency is at least a significant deficiency. Some questions to ask yourself when making this determination include:

- Is the likelihood that a misstatement of any magnitude could occur and not be detected by the client's controls considered remote?
- Is the magnitude of a potential misstatement inconsequential or less than inconsequential to the financial statements? A misstatement is inconsequential if a reasonable person would conclude, after considering the possibility of further undetected misstatements, that the misstatement, either individually or when aggregated with other misstatements, would clearly be immaterial to the financial statements.
- Are there complementary or redundant controls that were tested and evaluated that achieve the same control objective?
- Are there compensating controls that were tested and evaluated that limit the magnitude of a misstatement of the financial statements to inconsequential?

.53 If the answers to these questions are all *no*, then the deficiency is at least a significant deficiency. If the answer to any question is *yes*, before concluding that the control deficiency is *not* at least a significant deficiency ask yourself: Would prudent officials, having my knowledge of the facts and circumstances, agree with my conclusion that the deficiency is *not* at least a significant deficiency?

---

[4] AU section 316, *Consideration of Fraud in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1), provides guidance on the auditor's responsibilities for planning and performing the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether caused by error or fraud.

.54 If a prudent official would consider the control deficiency to be at least a significant deficiency, then you would conclude that the deficiency is at least a significant deficiency.

.55 The next step is to assess whether the deficiency is a material weakness. Some questions to ask yourself in making this determination include:

- Is the magnitude of the potential misstatement less than material to the financial statements?
- Are there compensating controls that were tested and evaluated that limit the magnitude of a misstatement of the financial statements to less than material but more than inconsequential?
- Does additional evaluation result in a judgment that the likelihood of a material misstatement of the financial statements is remote?

.56 If the answers to these questions are all *no*, then the deficiency is a material weakness. If the answer to any question is *yes*, before concluding that the deficiency is *not* a material weakness, ask yourself, Would prudent officials, having my knowledge of the facts and circumstances, agree with my conclusion that the deficiency is a significant deficiency and not a material weakness, considering the financial statements?

.57 If a prudent official would consider the control deficiency to be a material weakness, then you would conclude that the deficiency is a material weakness.

Case Studies

.58 This section contains case studies that each highlight a particular control deficiency. Each case study contains a description of the control deficiencies, and an analysis of the assessment of the severity of the control deficiency. The control deficiencies discussed are:

- Lack of segregation of duties
- Lack of client expertise in financial accounting and reporting
- Inventory-related control deficiencies
- Failure to review modifications of standard sales contracts to evaluate their effect on the timing and amount of revenue recognition
- Fraud involving cash
- Control testing exceptions

Control Deficiency 1: Lack of Segregation of Duties

Situation 1

.59 Your client is a small nonprofit organization that has only one person in charge of the accounting and reporting functions. Through your understanding of controls over cash disbursements, you observe a lack of segregation of duties, which is a control deficiency. In assessing the severity of the control deficiency, you consider whether there are complementary, redundant, or compensating controls.

.60 ***Additional Facts.*** Through obtaining your understanding of internal control, you've learned that a board member signs all checks, reviewing invoices that support the disbursement before signing. The signed checks are returned to the client to be mailed. The bank sends the bank statement directly to the board member, who reviews the bank statement and returned checks. The bank statement is then given to the client for reconciliation.

.61 ***Discussion.*** Your assessment of the severity of this control deficiency would be based on the effectiveness of the compensating controls performed by the board members. The compensating controls do not eliminate the deficiency but may mitigate the effects of the control deficiency.

.62 If the board member does not perform a review of the bank statement and the returned checks, verifying that all the checks have the appropriate signature and that the check payee and amount have not been altered, you might determine that the compensating control over disbursements is not effective in achieving the control objective and, therefore, there is a material weakness.

.63 If the board member reviews only returned checks over a certain dollar amount, you might conclude that the compensating control is effective in preventing or detecting a material misstatement of cash and, therefore, this may be considered a significant deficiency because the magnitude of the reasonably possible misstatement is less than material but more than inconsequential.

.64 However, if the board member examines the returned checks for the appropriate signature and alterations, you might conclude that the compensating control is effective in preventing or detecting an unauthorized disbursement, making the likelihood of a misstatement remote; therefore, this is only a control deficiency and not a significant deficiency or material weakness.

Situation 2

.65 Your client is a small business that has only one person in charge of the accounting and reporting functions. The bookkeeper has been with the company for many years. It is common for the owner to leave signed, blank checks with the bookkeeper, "in case of emergencies" when the owner is gone. The owner does not perform any oversight procedures. The owner has you, the auditor, perform quarterly interim procedures. The owner believes the auditors are a substitute for his lack of oversight. One of the auditor's quarterly procedures is to review the bank reconciliation, which is prepared by the bookkeeper.

.66 ***Discussion.*** Because the auditor cannot be part of the client's internal control, your interim procedures, including your review of the bank reconciliations, are not compensating controls. Should the bookkeeper betray the owner's trust, the magnitude of a potential misstatement could reasonably be expected to be material. In your judgment, you believe that a reasonable person would conclude that there is more than a remote possibility that a misstatement could occur and not be caught by the owner. Thus, the lack of segregation of duties and the lack of oversight would be considered material weaknesses.

Control Deficiency 2: Lack of Client Expertise in Financial Accounting and Reporting

.67 In situations 3, 4, and 5, you provide assistance to your client in the drafting of the financial statements but, as the auditor, remain independent under Ethics Interpretation 101-3, *Performance of Nonattest Services*, under Rule 101, *Independence* (AICPA, *Professional Standards*, vol. 2, ET sec. 101.05). That is, you post client-approved adjusting entries to the trial balance and assist in the drafting of the financial statements from the trial balance. You are not responsible for preparing and approving adjusting entries.

Situation 3

.68 Your client's controller is fairly skilled and is able to perform most of the functions necessary to prepare the financial statements. However, the company does not maintain a fixed asset ledger. Rather, you maintain a fixed asset ledger for them on your computer using "off-the-shelf" fixed asset software. From this software package, you are able to print for the controller a projected depreciation schedule, a gain and loss calculation report based on cost, and sales information provided to you by the controller and a final depreciation and fixed asset listing at year-end. The controller provides adequate supervision of the depreciation calculation so there is no conflict with Interpretation 101-3. The book and tax depreciation calculation affects depreciation expense for book purposes and also the calculation of deferred taxes. The client could purchase a depreciation program but has concluded it is more cost effective to rely on you for these records.

.69 In most years, the controller provides you with a year-end adjustment if adjustments hadn't already been made to the general ledger. However, in this particular year, the controller has been preoccupied with other tasks and asks you to calculate the year-end depreciation adjustment and gain or loss on sale adjustment. The adjustment is a material adjustment. Because you propose the adjustment, you need to consider whether there is a control deficiency.

.70 ***Discussion.*** In this situation, you would begin by considering the likelihood that a misstatement would not be detected. Because the auditor cannot be part of a client's internal controls, the controls that exist in your CPA firm to perform the calculations cannot be taken into account in considering whether the client has a control deficiency. Instead, you must consider what controls the client has to detect a misstatement. Based on only these facts, your judgment is that the client has the competency to perform the accounting function but has chosen to outsource the depreciation closing function this year. Therefore, as long as the client is reviewing and taking responsibility for the depreciation and related calculations, and possesses the skills and competencies to prevent, detect, and correct potential misstatements, you would determine that there is not a control deficiency. If the client is not able to prevent, detect, and correct a misstatement, then you would determine that there is a control deficiency.

Situation 4

.71 This client has an accounting manager who requests that you assist in drafting the financial statements and notes to the financial statements. However, prior to signing the representation letter, the accounting manager obtains the financial statement grouping schedules and the schedules documenting the calculation of amounts included in the notes to the financial statements, and reviews and approves these schedules. In addition, the accounting manager obtains a current disclosure checklist from the AICPA and reviews and answers the checklist to ensure propriety and completeness of the footnotes. The financial statements are also read, revised, and approved by both the accounting manager and the owner.

.72 ***Discussion.*** Based only on the facts presented, there is not an observed control deficiency. You would need to further understand whether the client's controls are designed appropriately and operating effectively, and that would be dependent on the competence and expertise of the client's accounting manager. In assessing this situation, you would first consider the likelihood of a material misstatement in the presentation and disclosure of the financial statements, including the related footnotes, occurring and not being detected by the accounting manager. If you determine that the accounting manager and owner lack the necessary accounting expertise to detect a misstatement, then that would represent a control deficiency that would need to be evaluated. However, you might conclude that, despite the accounting manager asking you to assist in drafting the financial statements and footnotes, they (the accounting manger and owner) do possess the necessary accounting expertise to prevent, detect, and correct a potential misstatement in the financial statements or notes; therefore, you would not have a control deficiency.

Situation 5

.73 At this client, you taught the bookkeeper to record cash receipts and disbursements as well as the adjusting journal entries needed to record accounts receivable and payable at year-end. The bookkeeper follows your directions and prepares a draft of the year-end financial statements from a format you provided, including relevant recurring disclosures.

.74 During your audit, you notice that the owner acquired a new delivery truck that cost $50,000—an amount that is material to the company's financial statements—and financed the acquisition through the dealer's finance company. You determine that the financing lease should be capitalized. The bookkeeper has recorded the monthly cash payments for the truck to the dealership but has not recorded the initial fixed asset and related liability (the owner had told her that he was leasing the truck). In discussing the new truck with the bookkeeper, you further discover that the owner was involved in a collision on the last day of the year while driving the truck and the company's insurance covered only a small portion of the damages. The financial statements do not reflect the capital lease and the related liability, nor does it reflect the expense and liability for the damages in excess of the company's insurance.

.75 ***Discussion.*** Based only on these facts, you determine that there is a control deficiency that did not detect, prevent, or correct the misstatements in the client's drafted financial statements. Because you caught this error, your judgment is that the likelihood that the financial statements would be misstated is more than remote, and the magnitude of the misstatement is material. You are not an employee of the company and cannot be part of the company's internal control. The company did not have anyone on staff with sufficient expertise to properly analyze the lease and record the fixed asset acquisition, and the bookkeeper was not sufficiently knowledgeable to know that she needed help in recording these events. In this case, the quality of the financial statements was not a result of the company's internal control. As such, you determine that the entity has a material weakness.

.76 If the bookkeeper had called you for guidance about how to account for these events, before recording them, your conclusion most likely would have been different. A discussion with the client about a technical issue is not, in and of itself, an indication of a weakness in the company's internal control. The client's ability to detect a potential misstatement, and ability to gain the necessary competence, are factors you would consider in your understanding of the entity's internal control.

Control Deficiency 3: Inventory-Related Control Deficiencies

Situation 6

.77 Your client is a large car dealership. There is a lack of good controls over tracking inventory quantities of dealership parts, but a physical inventory is taken at the end of every quarter. A parts manager was selling dealership parts, not recording the sales, and keeping the receipts. Although the amount of the writedown needed to reflect actual inventory was not material to the financial statements, management became aware of the fraud when the parts manager confessed under questioning.

.78 ***Discussion.*** The purpose of your evaluation is to assess the likelihood and potential magnitude of a financial statement misstatement, not the likelihood and potential magnitude of a loss due to fraud. Because the preventive controls tracking inventory quantities are weak, the client is relying on detective controls—physical inventory—to catch any potential misstatement. From a design perspective, detective controls are seldom as effective as preventive controls, as evidenced by the fact that the client suffered a loss as a result of the weak preventive controls. However, the physical inventory was effective at detecting the loss, so that the financial statements were not materially misstated. Because you would consider the effect of compensating controls in your assessment of the severity of the control deficiency, you would conclude that the preventive control weakness is mitigated by the detection control to the extent that there is not a significant deficiency or material weakness in internal control over financial reporting.

.79 Although the fraud did not result in a *material* misstatement of the financial statements, the fraud is evidence of a control deficiency in internal control over the safeguarding of assets against unauthorized acquisition, use, or disposition. AU section 316, *Consideration of Fraud in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1), requires that whenever the auditor has determined that there is evidence that fraud may exist, that matter should be brought to the attention of an appropriate level of management. Therefore, you may wish to include this misappropriation (and other risks of fraud that you have identified) in your written communication of significant deficiencies and material weaknesses.

Control Deficiency 4: Failure to Review Modifications of Standard Sales Contracts to Evaluate Their Effect on the Timing and Amount of Revenue Recognition

Situation 7

.80 Your client uses a standard sales contract for most transactions. Individual sales transactions are not material. Sales personnel are permitted to modify the terms of the sales contract, including shipping terms. Accounting personnel review the terms of the sales contracts for significant or unusual modifications but do not review changes in the standard shipping terms. The changes in the standard shipping terms could cause a delay in the timing of revenue recognition. Management reviews gross margins on a monthly basis and investigates any significant or unusual relationships. In addition, management reviews the reasonableness of inventory levels at the end of each accounting period. There have been a limited number of instances in which revenue was inappropriately recorded, but the related amounts have not been material.

.81 ***Discussion.*** Based on only these facts, you determine that a control deficiency exists in the design of the entity's controls because there are no controls over a sales person's ability to modify the standard sales contract. In evaluating the severity of this control deficiency, you consider the likelihood and potential magnitude of a financial statement misstatement resulting from this deficiency. The magnitude could reasonably be expected to be more than inconsequential. However, the magnitude would be expected to be less than material, because individual sales transactions are not material and the compensating controls that mitigate the deficiency, which operate monthly and at the end of each financial reporting period, increase the likelihood that a material misstatement will be detected. Furthermore, the risk of material misstatement is limited to revenue recognition errors related to shipping terms, as opposed to broader sources of error in revenue recognition. However, the compensating controls are designed to detect only material misstatements. The controls do not effectively address the detection of misstatements that are more than inconsequential but less than material, as evidenced by situations in which transactions that were not material were improperly recorded. Therefore, there is a more than remote likelihood that a misstatement that is more than inconsequential but less than material could occur. Based on only these facts, you would conclude that this deficiency is a significant deficiency.

Situation 8

.82 Your client has a standard sales contract, but sales personnel frequently modify the terms of the contract. Certain modifications can affect the timing and amount of revenue recognized. Individual sales transactions frequently are material to the entity, and the gross margin can vary significantly for each transaction.

.83 Through your understanding of internal control necessary to plan the audit, you determine that the entity has a design deficiency in that the entity does not have procedures in place for accounting personnel to regularly review modifications to the terms of sales contracts. Although management reviews gross margins on a monthly basis, the significant differences in gross margins for individual transactions make it difficult for management to identify potential misstatements. Improper revenue recognition has occurred in the past, and the amounts have been material.

.84 ***Discussion.*** The magnitude of a financial statement misstatement resulting from this control deficiency would reasonably be expected to be material because individual sales transactions are frequently material, and gross margin can vary significantly with each transaction (which would make compensating controls based on a reasonableness review ineffective). Additionally, improper revenue recognition has occurred, and the amounts have been material. Therefore, the likelihood of material misstatements occurring is more than remote. Because, taken together, the magnitude and likelihood of misstatement of the financial statements resulting from this internal control deficiency is material, you determine that this deficiency is a material weakness.

Situation 9

.85 The entity has a standard sales contract; however, sales personnel frequently modify the terms of the contract. Sales personnel frequently grant unauthorized and unrecorded sales discounts to customers without the knowledge of the accounting department. These discounts are taken by customers, deducted from the amount paid, and recorded as outstanding balances in the accounts receivable aging. Although the amounts of these discounts are individually insignificant, they are material in the aggregate and have occurred consistently during the past few years.

.86 ***Discussion.*** The magnitude of a financial statement misstatement resulting from this deficiency would reasonably be expected to be material, because the frequency of occurrence allows insignificant amounts to become material in the aggregate. The likelihood of a material misstatement of the financial statements resulting from this internal control deficiency is more than remote (even if the client fully reserved for the uncollectible accounts) due to the likelihood of material misstatement of the gross accounts receivable balance. Therefore, your judgment is that this deficiency represents a material weakness.

Control Deficiency 5: Fraud Involving Cash

Situation 10

.87 Your client is a small not-for-profit organization that receives most donations by check from corporate donors. Some donations are made in cash. Cash donations are not material to the financial statements. As a result of your understanding of internal control, you notice that there are no controls over cash receipts. In planning your audit, you identify this as a fraud risk and you perform additional auditing procedures relative to cash receipts. Through inquiry, you learn that someone may be stealing cash. You notify management and as a result of performing certain audit tests you discover evidence that indicates that an employee was pocketing the cash and that cash donations were not being recorded.

.88 ***Discussion.*** Your judgment is that the likelihood of a misstatement is more than remote, as the fraud has occurred. The magnitude of the potential financial statement misstatement resulting from this deficiency would reasonably be expected to be more than inconsequential but less than material, as total cash sales are less than material. Thus, this deficiency is at least a significant deficiency. However, because your client is a not-for-profit organization, because cash is a sensitive area, and because fraud is involved, you step back and try to look at this situation from a prudent official's perspective. You consider how a regulator may view this, how a donor may view this, and how others in the nonprofit community may view this. In doing that, your judgment is that a prudent official would probably view an absence of controls over cash receipts as a material weakness. Therefore, you conclude that this is a material weakness.

Control Deficiency 6: Control Testing Exceptions

Situation 11

.89 In performing tests of controls during the audit, you identify an exception. You determined that the exception was one of numerous internal control exceptions that occurred during the two weeks that the controller was on vacation. Controls operated effectively before he left and after he returned to work. No misstatements in the financial statements were identified relating to that period of time.

.90 ***Discussion.*** You first need to determine whether the control testing exception is a control deficiency before considering the severity of that control deficiency. Effective internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting. Because effective internal control over financial reporting cannot and does not provide absolute assurance of achieving financial reporting objectives, any individual control does not necessarily have to operate perfectly, all the time, to be considered effective. You may want to gather additional evidence, beyond what you had initially planned and beyond inquiry, to support your conclusion that the exception does not represent a control deficiency. You cannot use the lack of actual misstatements to lessen the severity of the control deficiency in your determination, because you have to consider *potential* misstatements of any magnitude. Factors to consider in making your determination would include complementary, redundant, or compensating controls, which could include the monitoring activities undertaken by the controller upon returning from vacation.

Resource Central

Publications

.91 The following publications deliver valuable guidance and practical assistance related to internal control:

- *Assessing and Responding to Audit Risk in a Financial Statement Audit* (product no. 012456kk) (expected to be available in December 2006), a cornerstone AICPA Audit Guide encompassing and updating the existing AICPA Audit Guide, *Consideration of Internal Control in a Financial Statement Audit*, and encompassing the new "Risk Assessment" Standards (SASs No. 104–No. 111). This Guide illustrates how to gather the information needed to assess risk, evaluate that information to assess risks at the assertion level, and design and perform further audit procedures based on those assessed risks, evaluate the results, and reach conclusions.

- *Internal Control—Integrated Framework* (product no. 990012kk), a paperbound version of the COSO report that established a common definition of internal control different parties can use to assess and improve their control systems. It also includes information on how to prepare external reports and five tools for evaluating each of the components identified in the framework.

- *Financial Reporting Fraud: A Practical Guide to Detection and Internal Control* (product no. 029879kk), a paperbound publication for CPAs in both public practice and industry. It uses case studies to provide information necessary to minimize fraud exposure for CPAs, employers, and clients.

- *Audit Committee Toolkit* (product no. 991001kk), a practice aid that brings you checklists, matrixes, questionnaires, and other materials that are designed to help the audit committee do the job it needs to do.

Guidance for Audit Committees on the Risk of Fraud From Management Override of Internal Control

.92 The AICPA Antifraud Programs and Controls Task Force has issued a document entitled *Management Override of Internal Controls: The Achilles' Heel of Fraud Prevention—The Audit Committee and Oversight of Financial Reporting*. The document offers assistance to audit committees in addressing the risk of fraud arising from management override of internal control over financial reporting. The guidance contains the following major sections:

- "Management Override and the Audit Committee's Responsibilities"

- "Actions to Address the Risk of Management Override of Internal Controls"

- "Suggested Audit Committee Procedures: Strengthening Knowledge of the Business and Related Financial Statement Risks" (Appendix)

.93 The following are some of the topics related to audit committees that are covered in the document:

- Maintaining an appropriate level of skepticism
- Strengthening the audit committee's understanding of the business
- Brainstorming to identify fraud risks
- Using the code of conduct to assess financial reporting culture
- Cultivating a vigorous whistle-blower program
- Developing a broad information and feedback network including communications with internal auditors, independent auditors, compensation committee, and key employees

.94 The document can be downloaded from the "Spotlight Area" on the AICPA's Audit Committee Effectiveness Center Web page at www.aicpa.org/audcommctr/homepage.htm.

AICPA's reSOURCE Online Accounting and Auditing Literature

.95 Get access—anytime, anywhere—to the AICPA's latest *Professional Standards*, *Technical Practice Aids*, *Audit and Accounting Guides*, Audit Risk Alerts, and *Accounting Trends & Techniques*. To subscribe to this essential service, go to www.cpa2biz.com.

reSOURCE CD-ROM

.96 The AICPA offers a CD-ROM product entitled *reSource: AICPA's Accounting and Auditing Literature*. This CD-ROM enables subscription access to AICPA Professional Literature products in a Windows format, namely, *Professional Standards*, Technical Practice Aids, and Audit and Accounting Guides (available for purchase as a set or as individual publications). This dynamic product allows you to purchase the specific titles you need and includes hypertext links to references within and between all products.

Educational Courses and Training

.97 Among its numerous continuing professional education (CPE) courses about internal control, the AICPA offers the following products. Information about additional AICPA internal control-related CPE courses can be obtained at www.cpa2biz.com:

- *Internal Control and IT: Reliable Reporting and Fraud Prevention*, a CPE course that provides an overview of the key auditing standards, conceptual frameworks, IT infrastructures and auditing issues you are likely to face on medium to small company engagements. (product no. 732551kk)
- *Internal Controls: Design and Documentation*, a basic course that explains what makes up an effective system and provides a toolkit of today's current techniques for creating useful documentation. This course will benefit controllers, managers, and internal auditors in businesses as well as auditors and consultants to public and private companies who need a review. (product no. 731852kk)

Online CPE

.98 AICPA *CPExpress*, offered exclusively through CPA2Biz.com, is the AICPA's flagship online learning product with enhancements such as a new user interface and improved functionality. AICPA *CPExpress* now offers a free trial subscription to the entire product for up to 30 days. AICPA members pay $149 ($369 nonmembers) for a new subscription and $119 ($319 nonmembers) for the annual renewal. Divided into one- and two-credit courses that are available 24/7, AICPA *CPExpress* offers hundreds of hours of learning in a wide variety of topics. To register or learn more, visit www.cpa2biz.com.

AICPA's Antifraud & Corporate Responsibility Resource Center

.99 The AICPA's Antifraud & Corporate Responsibility Resource Center (www.aicpa.org/antifraud/) allows you to select optional ways to learn about fraud. The Center spotlights the new Web-based fraud and ethics case studies and commentaries recently issued; the AICPA antifraud Webcast series; the interactive CPA course *Fraud and the CPA*; and a competency model that allows you to assess your overall skills and proficiencies as they relate to fraud prevention, detection, and investigation, among other topics. In addition, the site offers press releases and newsworthy items on other AICPA courses related to prevention and detection and an overview of the AICPA Antifraud & Corporate Responsibility Program.

AICPA Audit Committee Effectiveness Center

.100 Located at www.aicpa.org/audcommctr/homepage.htm, the AICPA Audit Committee Effectiveness Center presents the guidance and tools necessary to make audit committee best practices actionable. Available at the center is the AICPA Audit Committee Toolkit, the Audit Committee Matching System, Audit Committee e-Alerts, and other guidance and resources.

AICPA Audit Quality Centers

Governmental Audit Quality Center (GAQC)

.101 The GAQC, which is designed to improve the quality of governmental audits, provides firm members with a set of best practices and tools in the specialized area of governmental auditing, including Yellow Book and Circular A-133 audits. It also includes a comprehensive Web site at www.aicpa.org/GAQC.

Employee Benefit Plan Audit Quality Center

.102 The AICPA Employee Benefit Plan Audit Quality Center is intended to provide a forum that spurs CPA firms performing audits to make immediate quality improvements to employee benefit audits under the Employee Retirement Income Security Act of 1974 (ERISA), including pension, health and welfare, and 401(k) plans. In addition to gaining access to best practices, guidelines, and tools focused around quality improvement, members of the Center are subject to membership requirements that demonstrate the firm's commitment to audit quality in this area. Additional information about the Center can be found at www.aicpa.org/ebpaqc.

Order Department (Service Center Operations)

.103 To order AICPA products, call the AICPA Member Service Center at (888) 777-7077 or fax to (800) 362-5066. The best times to call are 8:30 A.M. to 11:30 A.M. and 2:00 P.M. to 7:30 P.M., Eastern Standard Time. Also, visit the CPA2Biz Web site at www.cpa2biz.com to obtain product information and place online orders.

Hotlines

Accounting and Auditing Technical Hotline

.104 The AICPA Technical Hotline answers members' inquiries about accounting, auditing, attestation, compilation, and review services. Call (888) 777-7077.

Ethics Hotline

.105 Members of the AICPA's Professional Ethics Team answer inquiries concerning independence and other behavioral issues related to the application of the AICPA Code of Professional Conduct. Call (888) 777-7077.

Web Sites

AICPA Online and CPA2Biz

.106 AICPA Online (www.aicpa.org) offers CPAs the unique opportunity to stay abreast of matters relevant to the CPA profession. AICPA Online informs you of developments in the accounting and auditing world as well as developments in congressional and political affairs affecting CPAs. In addition, www.cpa2biz.com offers all the latest AICPA products, including the Audit and Accounting Guides, the professional standards, CPE courses, practice aids, and alerts.

Accountants' Reports

These examples are for illustrative purposes only. They are included as conveniences for users of this manual who may want points of departure when drafting reports to meet their individual needs. This manual is a nonauthoritative kit of practice aids and accordingly, does not include extensive explanation or discussion of authoritative pronouncements. Users of this manual are urged to refer directly to applicable authoritative pronouncements when appropriate.

These examples illustrate the body of various reports. For comment on addressing and dating of the report, see AAM section 9100.

Examples which are assembled from illustrative reporting language set forth in Statements on Auditing Standards (SASs) and Statements on Standards for Accounting and Review Services (SSARSs) include citation of the particular source and its location in *AICPA Professional Standards.*

References to Professional Standards. When referring to the professional standards, this Manual cites the applicable sections as codified in the AICPA Professional Standards and not the numbered statements, as appropriate. For example, Statement on Auditing Standards (SAS) No. 54, *Illegal Acts by Clients*, is referred to as AU section 317 of the AICPA *Professional Standards*. All references to AU sections may be found in AICPA *Professional Standards*, volume 1.

TABLE OF CONTENTS

[*The next page is 9101.*]

AAM Section 9100
Format of Accountants' Reports

Report Preparation

.01 Firms should develop standard policies and procedures for preparing and issuing reports. The following are some suggested report preparation policies:

- *Letterhead.* The report should be presented on firm letterhead.
- *Addressee.* The report should be addressed to the board of directors, stockholders, partners, general partner, proprietor, or to the company whose financial statements are being audited. If the firm was engaged by others, the report should be addressed thereto.

The Board of Directors
XYZ Credit Union
City, State Zip Code

- *Salutation.* A salutation should not be included on the report.
- *Report signing.* The firm name should be manually signed by the engagement partner. The words "Certified Public Accountants" should be excluded from the signature if they are a normal part of the firm's letterhead.
- *Report dating.* Audit reports should not be dated earlier than the date on which the auditor has obtained sufficient appropriate audit evidence to support the opinion.
  — The date should be presented at the bottom of the page along with the city and state, if not included in firm letterhead, as follows:

City, State
April 5, 20XX

  — If significant subsequent events are discovered before the report is issued, but after the original report date, the report should be dual-dated for the subsequent event.

  — Subsequent events affecting previously issued reports that are being reissued will also cause the report to be dual-dated. The following illustrates dual-dating:

City, State
February 26, 20XX, except for Note X as to which the date is
April 5, 20XX

- *Level of service.* The level of service performed and the nature of the report are typically outlined in the engagement letter. The letter should be revised for any significant changes from the original understanding with the client, such as, in the event of a step-up or step-down in the level of service.
  — The partner should approve any step-up or step-down in level of service. A step-up in level of service may occur after obtaining a revised understanding with the client. A step-down in level of service should occur only after carefully evaluating the reasons for the change because the reasons for the change may also affect the report on lower levels of service. Limitations on the scope of an audit, for example, may also preclude issuing a review or compilation report.

— If more than one level of service is performed for financial statements of the same period (for example, compilation and audit), the financial statements need only be accompanied by the report on the highest level of service performed.

Reports on Audited Financial Statements

.02 Generally accepted auditing standards (GAAS) establish reporting responsibilities. The four standards of reporting stated in AU section 150.02 (AICPA, *Professional Standards*, vol. 1) are:

a. The report shall state whether the financial statements are presented in accordance with generally accepted accounting principles (GAAP).

b. The report shall identify those circumstances in which GAAP has not been consistently applied in the current period in relation to the preceding period.

c. Informative disclosures in the financial statements are to be regarded as reasonably adequate unless otherwise stated in the report.

d. The report shall contain either an expression of opinion regarding the financial statements taken as a whole, or a statement that an opinion cannot be expressed. When an opinion cannot be expressed, the reasons should be stated. In all cases where an auditor's name is associated with financial statements, the report should contain a clear-cut indication of the character of the auditor's work, if any, and the degree of responsibility, the auditor is taking.

Standard Report

.03 The standard auditor's report prescribed by AU section 508, *Reports on Audited Financial Statements*, (AICPA, *Professional Standards*, vol. 1), should be used when the auditor has formed an opinion, based on the application of GAAS,[1] that the financial statements present fairly, in all material respects, an entity's financial position, results of operations, and cash flows in accordance with GAAP. The opinion should include an identification of the United States of America as the country of origin of those accounting principles (for example, accounting principles generally accepted in the United States of America or U.S. generally accepted accounting principles). It should address all financial statements presented. A standard auditor's report for the presentation of comparative financial statements is illustrated in AAM section 9210.010.

Modifications of the Standard Auditor's Report

.04 AU section 508 describes situations that may require auditors to modify the standard report, and also provides illustrations of the appropriate modifying language. These modifications, which are discussed in greater depth in the following sections, are:

- *Explanatory language.* A wide variety of situations may arise that require a modification of the standard auditor's report, without affecting the expression of an unqualified opinion. Some of the more common of such situations are going-concern problems, part of the financial statements have been audited by another auditor, or a significant change in accounting principles. The explanatory paragraph for situations that do not affect the auditor's opinion should be placed after the opinion paragraph.

- *Qualified opinion.* Qualified opinions result from two general categories of situations: scope limitations and departures from GAAP. A scope limitation arises when the auditor has been unable to perform all of the auditing procedures he or she believes are necessary to express an unqualified

[1] AU section 508.08, *Reports on Audited Financial Statements*, (AICPA, *Professional Standards*, vol. 1), requires an identification of the United States of America as the country of origin of those standards (for example, auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards).

opinion on the financial statements. Financial statements containing a material departure from GAAP, including inadequate disclosures in the financial statements, may lead the auditor to qualify his or her opinion. Both situations require that an explanatory paragraph, preceding the opinion paragraph, be included that describes the nature of the scope limitation or the departure from GAAP.

- *Disclaimer of opinion.* A disclaimer of opinion may be required when:
  - — The scope of the audit has been restricted so significantly that the auditor does not have a basis for forming an opinion on the financial statements. In this case, an explanatory paragraph, preceding the disclaimer paragraph, should be included in the auditor's report to explain all significant reasons for the disclaimer.
  - — The auditor is not independent, in which case a one-paragraph disclaimer is issued (applies for publicly held entities only). A compilation report with a lack of independence noted should be issued for nonpublic entities.
- *Adverse opinion.* An adverse opinion should be expressed on financial statements that do not present fairly the entity's financial position, results of operations, or cash flows in conformity with GAAP. In other words, the auditor concludes that the financial statements are *not* fairly presented in accordance with GAAP. Issuance of an adverse opinion requires inclusion of an explanatory paragraph, preceding the opinion paragraph, that explains all of the reasons for the adverse opinion and, if practicable, the effects of the subject matter of the adverse opinion on the financial statements.

Scope Limitations

.05 Restrictions on the scope of an audit, whether imposed by the client or by circumstances such as the timing of the auditor's work, the inability to obtain sufficient, competent evidential matter, or an inadequacy in the client's accounting records, may require a qualified opinion or a disclaimer of opinion. Deciding whether to qualify or disclaim is a matter of judgment, and generally the primary factor in this decision is the materiality of the financial statement items affected. However, other factors should be considered, such as the pervasiveness of the effects of the omitted auditing procedures and the nature of the financial statement items affected.

Departures From GAAP

.06 ***Unacceptable Principles.*** Significant departures from GAAP require that the auditor issue either a qualified or adverse opinion. Choosing between a qualified or adverse opinion depends on the magnitude of the departure. While the materiality of the effects of the departure is a primary consideration, the auditor should also consider the pervasiveness of the departure, such as the number of financial statement items affected, the importance of the departure to the organization's activities and its ability to obtain funding, and the dollar effect of the departure on individual financial statement items as well as the statements as a whole.

.07 For both qualified and adverse opinions, an explanatory paragraph should be included, preceding the opinion paragraph, that describes all of the substantive reasons for the auditor's opinion, and the effects on the financial statements, if readily determinable. If it is not practical to determine the effects of the departure, the explanatory paragraph should contain a statement to that effect. If information about the effects of the departure are described in the notes, the explanatory paragraph can be shortened by referring to the note.

.08 ***Inadequate Disclosure.*** Departures from GAAP include not just inappropriate application of accounting principles, but also omitted or inadequate disclosures in the financial statements. Such situations require the auditor to add an explanatory paragraph, preceding the opinion paragraph, that describes the nature of the inadequate or omitted disclosure and, if practical, the information that should have been disclosed. The significance of the omitted or inadequate disclosure will determine whether a qualified or adverse opinion is appropriate.

.09 *Report Modification.* The opinion paragraph for a qualified opinion due to a departure from GAAP should include the words "except" or "exception" and a reference to the explanatory paragraph that describes that departure. Adverse opinions should include language such as "do not present fairly" and should also include a reference to the explanatory paragraph. A qualified opinion indicating a departure from GAAP is presented in AAM section 9240.020. An adverse opinion indicating a departure from GAAP is presented in AAM section 9220.01.

Errors, Fraud, and Illegal Acts

.10 If the financial statements are materially affected by an error, fraud or illegal act that has not been properly accounted for and disclosed, a qualified or adverse opinion should be considered. If the auditor is precluded from applying necessary procedures or from obtaining sufficient information to conclude whether an error, fraud or illegal act that could be material to the financial statements has occurred, a qualified or disclaimer of opinion should be issued. All such matters should be discussed immediately with the engagement partner.

.11 If a client will not accept modification of the report under the circumstances above, the firm should consider withdrawing from the engagement and consulting with legal counsel.

Consistency Exceptions

.12 Accounting changes affecting consistency include:

- A change from one generally accepted accounting principle to another method, practice or principle that is different from the one previously used.
- A change from an unacceptable to an acceptable principle (correction of an error).
- A change in financial statement classification that significantly affects financial position or results of operations (for example, classification of an item in earnings from operations as other income or expense).
- A change in reporting entity.

.13 Accounting changes not normally affecting consistency include:

- Initial adoption of an existing accounting principle for a new event or transaction.
- Insignificant reclassification.
- Correction of errors not involving a principle.
- Changes in accounting estimates.

.14 The nature of the accounting change will determine whether prior periods should be restated or a cumulative adjustment should be included in current activities. In either event, the change should be disclosed in the notes to the financial statements and in the auditor's report in a separate paragraph following the opinion paragraph. The auditor's concurrence with a change is implicit unless he or she takes exception to the change. The opinion paragraph would be standard unless the change is to an unacceptable principle or method, the change is not justified, or a prospective change of a principle requiring retroactive adjustment is not discussed. In such situations, either a qualified or adverse opinion should be issued.

Uncertainties

.15 Uncertainties are significant circumstances, events, or transactions affecting the financial statements, the outcome of which cannot be reasonably estimated. Uncertainties are a particularly complex area because they can result in a qualified or adverse opinion due to a departure from GAAP, or a qualified opinion or disclaimer due to a scope limitation. Uncertainties include, but are not limited to, contingencies covered by FASB Statement No. 5, *Accounting for Contingencies*, and matters related to estimates covered by SOP 94-6, *Disclosure of Certain Significant Risks and Uncertainties* (AICPA, *Technical Practice Aids*).

.16 ***Uncertainties Not Requiring Modification of the Opinion.*** AU section 508.29 states that when the auditor has concluded that sufficient information supports management's assertions about the nature of a matter involving an uncertainty and its presentation or disclosure in the financial statements, an unqualified opinion ordinarily is appropriate.

.17 ***Scope Limitations.*** A qualified opinion or disclaimer of opinion may be required if the auditor is unable to obtain sufficient information to support management's assertions about the nature of a matter involving an uncertainty and its presentation or disclosure in the financial statements. In some ways, information about uncertainties may always be considered insufficient because it is dependent on future, unknown events. However, if the auditor determines that information did or does exist, but it is unavailable to him or her (for example, because the information was destroyed or management will not allow the auditor to have access to it), the auditor should consider modifying the report for a scope limitation.

.18 ***Departures From GAAP.*** AU section 508.45 describes three categories of departures from GAAP involving risks or uncertainties:

- Inadequate disclosure
- Inappropriate accounting principles
- Unreasonable accounting estimates

.19 A qualified or adverse opinion due to a departure from GAAP may be necessary if the auditor concludes that a matter involving an uncertainty has not been appropriately disclosed in the financial statements in conformity with GAAP.

.20 Also, a departure from GAAP may exist if management has made inappropriate estimates of future events in applying accounting principles (such as the use of unreasonable expected lives of depreciable assets for calculating depreciation) or in making other accounting estimates.

.21 ***Going-Concern Uncertainties.*** If the auditor concludes that there is substantial doubt about the organization's ability to continue as a going concern, the situation should be described in an explanatory paragraph, following the opinion paragraph. The explanatory paragraph should describe the principal events and conditions related to the going concern, their possible effects on the financial statements, management's plans for corrective actions, and the auditor's conclusion that substantial doubt exists. AU sections 341.12–.13, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern* (AICPA, *Professional Standards*, vol. 1), imposes the additional requirement that the explanatory paragraph include the terms "substantial doubt" and "going concern." The auditor should not use conditional language in expressing a conclusion concerning the existence of substantial doubt about the entity's ability to continue as a going concern in the going-concern explanatory paragraph.

.22 If financial statement disclosures about the uncertainty are inadequate, a departure from GAAP exists, and either a qualified or adverse opinion may be necessary.

Reporting on Supplementary Information

.23 Supplementary information includes detailed schedules of other data that are not necessary for a fair presentation of the basic financial statements. Whenever supplementary information is included in an auditor-submitted document, the auditor must indicate the degree of responsibility, if any, taken for this information. A separate report on the supplementary information or a separate paragraph in the report on the basic financial statements may be used to report on supplementary information. If a separate report is issued, it should be on the firm's letterhead and be signed. The report date should be the same as for the basic financial statements.

.24 Reports on supplementary information should express or disclaim audit assurance. The nature of the engagement and the extent and results of testing of supplementary information will determine the firm's responsibility in each circumstance. If a separate report on the supplemental information is issued, the first sentence of that report should refer to the report on the basic financial statements.

Reporting on a Single Statement

.25 In certain circumstances, an engagement to audit a single financial statement may be accepted. Generally these engagements, called "limited reporting engagements," are a result of the client needing a single financial statement to fulfill a contractual requirement, such as an organization that must provide its landlord with an audited income statement for purposes of calculating rent. Also, entities that have never been audited often request an audit of the statement of financial position only for the first year, with the intention of having audits of the entire financial statements in the future. Generally such engagements are accepted as long as there is a legitimate reason for the limited engagement, and provided there are no restrictions on access to information underlying the financial statements or on the scope of the procedures the auditor needs to perform. In such engagements, an unqualified opinion can be expressed on the financial statement the auditor was engaged to audit. If the other financial statements are presented, a disclaimer of opinion should be issued on those statements. An unqualified opinion on a single statement audit is presented in AAM section 9210.030.

Relying on the Work of a Specialist

.26 The firm may engage specialists to perform certain work supporting representations in the financial statements. AU section 336, *Using the Work of a Specialist* (AICPA, *Professional Standards*, vol. 1), says if a review of the specialist's work finds it satisfactory, and if no report modification is necessary because of the specialist's findings, there is no need to refer to the specialist's work.

.27 If the specialist's work is not adequate to support the financial statement representations, a qualification or disclaimer of opinion because of a scope limitation may be required. Findings of the specialist that indicate the financial statements are not in accordance with GAAP may require a qualified or adverse opinion.

Lack of Independence

.28 For public entities, whenever the auditor is not independent with respect to a client whose financial statements have been audited, a disclaimer of opinion should be issued. The PCAOB, through PCAOB Rule 3600T, has provisionally designated Rule 101, *Independence* (AICPA, *Professional Standards*, vol. 2, ET sec. 101.01) of the AICPA Code, and Interpretations and rulings thereunder, as they existed on April 16, 2003 and Standard Nos. 1, 2, and 3, and Interpretations 99-1, 00-1, and 00-2 of the Independent Standards Board as interim independence standards to be followed by registered public accounting firms in connection with the audits of public companies and other *issuers*. The PCAOB's interim independence rules do not supersede the independence rules of the SEC. Therefore, to the extent that a provision of the SEC's rule or policy is more restrictive—or less restrictive—than the PCAOB's interim independence standards, a registered public accounting firm must comply with the more restrictive requirement. For nonpublic entities, the firm may only issue a compilation report that includes a statement that the firm is not independent.*

Reissuance of Audit Reports as Predecessors

.29 If the auditor is asked by a former client to reissue its report on prior-period financial statements, he or she should inform the client of the procedures necessary to comply with that request. If the client agrees to perform these procedures, and pay the fee for these services, the auditor would ordinarily agree to reissue the report.

.30 Before reissuing a report, the auditor should consider whether the previous opinion on those prior-period statements is still appropriate. Differences in the current form and presentation of the financial statements for the prior period, or the possibility of material subsequent events affecting those financial statements, could make the previous opinion inappropriate. The auditor should perform at least the following procedures:

- Read the financial statements of the current period.
- Compare the prior-period financial statements with the financial statements to be presented in comparative format by the successor.
- Obtain a letter of representation from the successor auditor. The successor should represent that his or her audit has not revealed any matters that may have a material effect on the prior-period financial statements.

.31 If the firm reissues its report without change, the previous report date should be used. If the financial statements or the report of the prior period are revised, the report should be dual-dated as to the event or matter causing the revision. There should be no reference to the report or the work of the successor auditor.

Reissuance of the Audit Report Subsequent to the Date of Original Issue[2]

.32 Occasionally the firm may be requested by a client to furnish additional copies of a previously issued report. Approval of the engagement partner is necessary to reissue a previously issued report. In such situations the engagement partner may prepare a memo stating the reasons for the reissuance and that he or she is not aware of any circumstances occurring since the original report date that would require adjustment to or disclosure in the financial statements.

.33 Use of the original report date removes any implication that records, transactions, or events after that date have been audited or reviewed. Although the auditor has no responsibility to make further investigation or inquiry as to subsequent events, the engagement partner should consider a brief discussion with the client's chief financial or executive officer before reissuing his or her report.

---

* The PCAOB also adopted a new rule related to the auditor's responsibilities when seeking audit committee pre-approval of internal control related nonaudit services. The rule is intended to ensure that audit committees are provided relevant information for them to make an informed decision on how the performance of internal control-relates services may affect independence. Specifically, the public accounting firm shall describe, in writing, the scope of the service and submit to the audit committee, as well as discuss with the audit committee the potential effects of the service on the firm's independence. Public firms are also required to document the substance of such discussions in writing. This rule is effective for audits of fiscal years ending on or after November 15, 2007 (the same effective date as Auditing Standard No. 5). The full text of this rule can be found at www.pcaob.org/Rules/Rules_of_the_Board/Rule_3525.pdf.

[2] The AICPA Auditing Standards Board Auditing Interpretation of AU section 341, "Eliminating a Going-Concern Explanatory Paragraph From a Reissued Report," (AICPA, *Professional Standards*, vol. 1, AU sec. 9341.01–.02) deals with situations where a previously issued report contains a going-concern explanatory paragraph, and the situation that gave rise to the going-concern has been resolved.

Subsequent Discovery of Facts Existing at Report Date

.34 Although the auditor has no obligation to make any continuing inquiries or perform other procedures after issuing his or her report, the auditor may become aware of information that affects the financial statements upon which he or she has previously reported. When becoming aware of such information, the auditor should determine the reliability of the information and whether such information existed at the date of the report. The engagement partner should make inquiries of client management in this regard.

.35 If the information is reliable and did exist at the date of the report, if the report would have been affected if the information had been known at the report date, and if there are persons relying on the financial statements who would attach importance to the information, the auditor should take action to prevent future reliance on the report. If the engagement partner concludes that action should be taken to prevent future reliance on the report, he or she should advise the client to make appropriate disclosure of the newly discovered facts and their impact on the financial statements to the persons known to be, or likely to be, relying on the financial statements and related report. Disclosures should be made in one of the following ways:

- If the effects of subsequent facts can be promptly determined, disclosure should include reissuing revised financial statements and a revised report. The reasons for the revision usually should be described in a note to the financial statements and referred to in the auditor's report.
- If the current financial statements have not been released, appropriate disclosure of the revision of the prior-period financial statements can be included therein.
- When the effects of subsequent facts cannot be readily determined, revisions of financial statements and reports may be delayed. In this case, persons known to be, or likely to be, relying on the financial statements should be notified by the client that the financial statements and related reports should not be relied on, and that revised financial statements and report will be forthcoming.

.36 If the client refuses to make the disclosures discussed above, the auditor should contact legal counsel. He or she should also notify all members of the board of directors of such refusal and that the firm will take the following steps to prevent future reliance on its report:

- Notify the client that the auditor's report must no longer be associated with the financial statements.
- Notify any applicable regulatory agencies that the report should no longer be relied upon.
- Notify each person known to be relying on the financial statements that the report should no longer be relied upon.

.37 If the auditor's investigation of the subsequently discovered information is satisfactory, and he or she has determined that the information is reliable, the notifications in AAM section 9100.36 should include a description of the effects of the information on the financial statements. If the client has not cooperated and, as a result, the auditor has been unable to conduct a satisfactory investigation, the auditor does not need to indicate the details of the information. Instead, he or she should indicate that the auditor's report must no longer be relied upon nor should the auditor be associated with the financial statements.

AAM Section 9210
Unqualified Opinions

.010 Auditor's Standard Report—Comparative Financial Statements

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of [at] December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

.020 Auditor's Standard Report—Single Year Financial Statements

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheet of X Company as of December 31, 20XX, and the related statements of income, retained earnings, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of [at] December 31, 20XX, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

.030 Report on a Single Statement Audit (Balance Sheet Only Presented) [Assuming the auditor is able to satisfy himself or herself regarding the consistency of application of accounting principles]

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheet of X Company as of December 31, 20XX. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the balance sheet is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the balance sheet. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall balance sheet presentation. We believe that our audit of the balance sheet provides a reasonable basis for our opinion.

In our opinion, the balance sheet referred to above presents fairly, in all material respects, the financial position of X Company as of December 31, 20XX, in conformity with accounting principles generally accepted in the United States of America.

[*Signature*]

[*Date*]

[Source: AU section 508.34]

Note: If reporting on a single statement (for example, balance sheet only) when other financial statements are also presented, the following paragraph should be added after the opinion paragraph:

> Because we were not engaged to audit the statements of income, retained earnings, and cash flows, we did not extend our auditing procedures to enable us to express an opinion on the results of operations and cash flows for the year ended December 31, 20XX. Accordingly, we express no opinion on them.

.040 Reference to Other Auditors—Successor Auditor's Report When Predecessor's Report (Unqualified) Is Not Presented

Independent Auditor's Report

Addressee:

We have audited the balance sheet of ABC Company as of December 31, 20X2, and the related statements of income, retained earnings, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit. The financial statements of ABC Company as of December 31, 20X1, were audited by other auditors whose report dated March 31, 20X2, expressed an unqualified opinion on those statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the 20X2 financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X2, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Practice Tips

(1) The successor auditor should not name the predecessor auditor in his report; however, the successor auditor may name the predecessor auditor if the predecessor auditor's practice was acquired by, or merged with that of the successor auditor.

[Source: AU section 508.74]

.050 Reference to Other Auditors in Report

Independent Auditor's Report

Addressee:

We have audited the consolidated balance sheets of ABC Company and subsidiaries as of December 31, 20X2 and 20X1, and the related consolidated statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of B Company, a wholly-owned subsidiary, which statements reflect total assets of $________ and $________ as of December 31, 20X2 and 20X1, respectively, and total revenues of $________ and $________ for the years then ended. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for B Company, is based solely on the report of the other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the report of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the report of other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of ABC Company and subsidiaries as of December 31, 20X2 and 20X1, and the results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

.070 Reference to Other Auditors—Successor Auditor's Report When Prior Year Financial Statements Have Been Restated Following Issuance of the Predecessor's Report

Independent Auditor's Report

Addressee:

We have audited the balance sheet of ABC Company as of December 31, 20X2, and the related statements of income, retained earnings, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit. The financial statements of ABC Company as of December 31, 20X1, before the restatement described in Note X, were audited by other auditors whose report dated March 31, 20X2, expressed an unqualified opinion on those statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the 20X2 financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X2, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

We also audited the adjustments described in Note X that were applied to restate the 20X1 financial statements. In our opinion, such adjustments are appropriate and have been properly applied.[1]

[1] This paragraph may be added to the report when the successor auditor is engaged to audit and applies sufficient procedures to satisfy himself as to the appropriateness of the restatement adjustment.

.080 Reference to Other Auditors—Prior Year Financial Statements Restated Following a Pooling of Interests

Independent Auditor's Report

Addressee:

We have audited the accompanying consolidated balance sheet of XYZ Company as of December 31, 20X2, and the related consolidated statements of income, retained earnings, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of XYZ Company as of [at] December 31, 20X2, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

We previously audited and reported upon the consolidated statements of income and cash flows of XYZ Company and subsidiaries for the year ended December 31, 20X1, prior to their restatement for the 20X2 pooling of interests. The contribution of XYZ Company and subsidiaries to revenues and net income represented _______ percent and _______ percent of the respective restated totals. Separate financial statements of the other companies included in the 20X1 restated consolidated statements of income and cash flows were audited and reported upon separately by other auditors. We also audited the combination of the accompanying consolidated statements of income and cash flows for the year ended December 31, 20X1, after restatement for the 20X2 pooling of interests; in our opinion, such consolidated statements have been properly combined on the basis described in Note A of notes to consolidated financial statements.

Note: This report is used when the auditor concludes that he or she cannot serve as principal auditor for the restated financial statements.

.083 Reference to Other Auditors—Successor Auditor Report When Prior Period Financial Statements Were Audited by a Predecessor Auditor Who Has Ceased Operations

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheet of ABC Company as of December 31, 20X2, and the related statements of income, retained earnings, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit. The financial statements of ABC Company as of December 31, 20X1, were audited by other auditors who have ceased operations and whose report dated March 31, 20X2, expressed an unqualified opinion on those statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the 20X2 financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X2, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

.090 Change in Accounting Principles or Method of Accounting

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheet of X Company as of December 31, 20XX, and the related statements of income, retained earnings, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentations. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of [at] December 31, 20XX, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note X to the financial statements, the Company changed its method of computing depreciation in 20XX.

.100 Going Concern—Uncertainty

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheet of X Company as of December 31, 20XX, and the related statements of income, retained earnings, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of [at] December 31, 20XX, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note X to the financial statements, the Company has suffered recurring losses from operations and has a net capital deficiency that raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note X. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

[*Signature*]

[*Date*]

[Source: AU section 341.13, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, (AICPA, *Professional Standards*, vol. 1)]

Note: In a going-concern explanatory paragraph, the auditor should not use conditional language in expressing a conclusion concerning the existence of substantial doubt about the entity's ability to continue as a going concern.

.110 Liquidation Basis of Accounting—Single Year Financial Statements

Independent Auditor's Report

Addressee:

We have audited the accompanying statement of net assets in liquidation of X Company as of December 31, 20X2, and the related statement of changes in net assets in liquidation for the period from April 26, 20X2 to December 31, 20X2. In addition, we have audited the statements of income, retained earnings, and cash flows for the period from January 1, 20X2 to April 25, 20X2. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note X to the financial statements, the stockholders of X Company approved a plan of liquidation on April 25, 20X2, and the company commenced liquidation shortly thereafter. As a result, the company has changed its basis of accounting for periods subsequent to April 25, 20X2 from the going-concern basis to a liquidation basis.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets in liquidation of X Company as of December 31, 20X2, the changes in its net assets in liquidation for the period from April 26, 20X2 to December 31, 20X2, and the results of its operations and its cash flows for the period from January 1, 20X2 to April 25, 20X2, in conformity with accounting principles generally accepted in the United States of America applied on the bases described in the following paragraph.

.120 Liquidation Basis of Accounting—Comparative Financial Statements

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheet of X Company as of December 31, 20X1, and the related statements of income, retained earnings, and cash flows for the year then ended, and the statements of income, retained earnings, and cash flows for the period from January 1, 20X2 to April 25, 20X2. In addition, we have audited the statement of net assets in liquidation as of December 31, 20X2, and the related statement of changes in net assets in liquidation for the period from April 26, 20X2 to December 31, 20X2. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note X to the financial statements, the stockholders of X Company approved a plan of liquidation on April 25, 20X2, and the company commenced liquidation shortly thereafter. As a result, the company has changed its basis of accounting for periods subsequent to April 25, 20X2 from the going-concern basis to a liquidation basis.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended and for the period from January 1, 20X2 to April 25, 20X2, its net assets in liquidation, as of December 31, 20X2, and the changes in its net assets in liquidation for the period from April 26, 20X2 to December 31, 20X2, in conformity with accounting principles generally accepted in the United States of America applied on the bases described in the following paragraph.

.130 Comparative Financial Statements—Unqualified Opinion on the Current Year's Financial Statements With Disclaimer of Opinion on the Prior Year's Statements of Income, Retained Earnings, and Cash Flows

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

Except as explained in the following paragraph, we conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform our audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

We did not observe the taking of the physical inventory as of December 31, 20X0, since that date was prior to our appointment as auditors for the Company, and we were unable to satisfy ourselves regarding inventory quantities by means of other auditing procedures. Inventory amounts as of December 31, 20X0, enter into the determination of net income and cash flows for the year ended December 31, 20X1.

Because of the matter discussed in the preceding paragraph, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on the results of operations and cash flows for the year ended December 31, 20X1.

In our opinion, the balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings, and cash flows for the year ended December 31, 20X2, present fairly, in all material respects, the financial position of X Company as of December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the year ended December 31, 20X2, in conformity with accounting principles generally accepted in the United States of America.

[*Signature*]

[*Date*]

[Source: AU section 508.67]

Note: This report assumes that the independent auditor has been able to satisfy himself as to the consistency of application of generally accepted accounting principles.

.140 Comparative Financial Statements—Subsequent Restatement of Prior-Period Financial Statements to Conform With Generally Accepted Accounting Principles

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our report dated March 1, 20X2, we expressed an opinion that the 20X1 financial statements did not fairly present financial position, results of operations, and cash flows in conformity with generally accepted accounting principles because of two departures from such principles: (1) the Company carried its property, plant, and equipment at appraisal values, and provided for depreciation on the basis of such values, and (2) the Company did not provide for deferred income taxes with respect to differences between income for financial reporting purposes and taxable income. As described in Note X, the Company has changed its method of accounting for these items and restated its 20X1 financial statements to conform with accounting principles generally accepted in the United States of America. Accordingly, our present opinion on the 20X1 financial statements, as presented herein, is different from that expressed in our previous report.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

.150 Comparative Financial Statements—Current Year's Statements Audited and Prior Year's Statements Reviewed

<u>Independent Auditor's Report</u>

Addressee:

We have audited the accompanying balance sheet of X Company as of December 31, 20X2, and the related statements of income, retained earnings, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of December 31, 20X2, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The 20X1 financial statements were reviewed by us (other accountants) and our (their) report thereon, dated March 1, 20X2, stated we (they) were not aware of any material modifications that should be made to those statements for them to be in conformity with generally accepted accounting principles. However, a review is substantially less in scope than an audit and does not provide a basis for the expression of an opinion on the financial statements taken as a whole.

Notes: When unaudited financial statements are presented in comparative form with audited financial statements, the unaudited financial statements should be clearly marked to indicate their status.

When the financial statements are those of a public entity, the separate paragraph should include a disclaimer of opinion or a description of a review. (A sample of a disclaimer of opinion is provided in AAM section 9210.170.)

.160 Comparative Financial Statements—Current Year's Statements Audited and Prior Year's Statements Compiled

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheet of X Company as of December 31, 20X2, and the related statements of income, retained earnings, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of December 31, 20X2, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The 20X1 financial statements were compiled by us (other accountants) and our (their) report thereon, dated March 1, 20X2, stated we (they) did not audit or review those financial statements and, accordingly, express no opinion or other form of assurance on them.

Note: When unaudited financial statements are presented in comparative form with audited financial statements, the unaudited financial statements should be clearly marked to indicate their status.

.170 Comparative Financial Statements—Current Year's Statements Audited and Disclaimer on Prior Year's Unaudited Statements

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheet of X Company as of December 31, 20X2, and the related statements of income, retained earnings, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of December 31, 20X2, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The 20X1 financial statements were not audited by us and, accordingly, we do not express an opinion on them.

[*Signature*]

[*Date*]

Notes: The above report illustrates a disclaimer of opinion as described in AU section 504.17 when the financial statements are those of a public entity. For a nonpublic entity, see AAM section 9210.150 and .160.

When unaudited financial statements are presented in comparative form with audited financial statements, the unaudited financial statements should be clearly marked to indicate their status.

.180 U.S.-Style Report Modified to Report on Financial Statements Prepared in Conformity With Accounting Principles Generally Accepted in Another Country That Are Intended for Use Only Outside the United States

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheet of International Company as of December 31, 20XX, and the related statements of income, retained earnings, and cash flows for the year then ended which, as described in Note X, have been prepared on the basis of accounting principles accepted in [*name of country*]. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (and in [*name of country*]). U.S. standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of International Company as of December 31, 20XX, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in [*name of country*].

[*Signature*]

[*Date*]

Note: The above illustrates a report as described in AU section 534.10, *Reporting on Financial Statements Prepared for Use in Other Countries* (AICPA, *Professional Standards*, vol. 1).

.190 Report on Financial Statements Prepared in Conformity With the Accounting Principles Generally Accepted in Another Country That Will Have More Than Limited Distribution in the United States

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheet of International Company as of December 31, 20XX, and the related statements of income, retained earnings, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note X to the financial statements, the Company has recorded fixed assets in excess of historical cost using appraised value as the basis for adjustment in accordance with accounting principles generally accepted in [*name of country*]. If the fixed assets had been recorded at historical cost, fixed assets and retained earnings would be decreased by $XXX,XXX and $XXX,XXX respectively, as of December 31, 20XX, and net income and earnings per share would be increased by $X,XXX and $X.XX respectively for the year then ended.

In our opinion, except for the effects of recording the fixed assets in excess of historical costs, discussed in the preceding paragraph, the financial statements present fairly, in all material respects, the financial position of International Company as of December 31, 20XX, and the results of its operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

(Optional Paragraph)

In our opinion, the financial statements referred to above present fairly the financial position of the International Company at December 31, 20XX, and the results of its operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in [*name of country*].

[*Signature*]

[*Date*]

Note: The above illustrates a report as described in AU section 534.14–.15. This report does not apply to reports on financial statements of U.S. subsidiaries of foreign registrants presented in SEC filings of foreign parent companies where the subsidiaries' financial statements have been prepared on the basis of accounting used by the parent company.

.200 Correction of an Error, Not Involving an Accounting Principle

Independent Auditor's Report

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note X to the financial statements, certain errors resulting in an understatement of previously reported expenses for the years ended December 31, 20X1 and 20X0 were discovered by the Company's management during the current year. Accordingly, the 20X1 financial statements have been restated and an adjustment has been made to retained earnings as of January 1, 20X1 to correct the errors.

Note: This report would be used when the issuance of financial statements accompanied by the auditor's report for a subsequent period is imminent so that disclosure is not delayed (AU section 561.06*b*, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*, [AICPA, *Professional Standards*, vol. 1]).

.210 Subsequent Event Prior to Issuance of Auditor's Report

Independent Auditor's Report

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note X to the financial statements, on March 1, 20X3, the Company entered into an agreement to sell Subsidiary A. This Subsidiary represents X% of the Company's total assets and X% of its revenues.

.220 Reissued Report Due to Subsequent Discovery of Facts Existing at the Date of the Auditor's Report

Independent Auditor's Report

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 10 to the financial statements, the Company's 20X2 [*specify account corrected*] previously reported as $XX,XXX should have been $X,XXX. This discovery was made subsequent to the issuance of the financial statements. The financial statements have been restated to reflect this correction.

AAM Section 9220
Adverse Opinions

.01 Departures from GAAP

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note X to the financial statements, the Company carries its property plant, and equipment accounts at appraisal values, and provides depreciation on the basis of such values. Further, the Company does not provide for income taxes with respect to differences between financial income and taxable income arising because of the use, for income tax purposes, of the installment method of reporting gross profit from certain types of sales. Accounting principles generally accepted in the United States of America require that property, plant and equipment be stated at an amount not in excess of cost, reduced by depreciation based on such amount, and that deferred income taxes be provided.

Because of the departures from accounting principles generally accepted in the United States of America identified above, as of December 31, 20X2 and 20X1, inventories have been increased $_____ and $_____ by inclusion in manufacturing overhead of depreciation in excess of that based on cost; property, plant, and equipment, less accumulated depreciation, is carried at $_____ and $_____ in excess of an amount based on the cost to the Company; and deferred income taxes of $_____ and $_____ have not been recorded, resulting in an increase of $_____ and $_____ in retained earnings and appraisal surplus of $_____ and $_____, respectively. For the years ended December 31, 20X2 and 20X1, cost of goods sold has been increased $_____ and $_____, respectively, because of the effects of the depreciation accounting referred to above and deferred income taxes of $_____ and $_____ have not been provided, resulting in an increase in net income of $_____ and $_____, respectively.

In our opinion, because of the effects of the matters discussed in the preceding paragraphs, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of X Company as of December 31, 20X2 and 20X1, or the results of its operations or its cash flows for the years then ended.

AAM Section 9230
Disclaimers of Opinion

.01 Beginning Inventory Not Observed (First Examination)

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheet of X Company as of December 31, 20X2, and the related statements of income, retained earnings, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.[1]

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Because we were not engaged as auditors until after December 31, 20X1, we were not present to observe the physical inventory taken at that date and we were not able to apply other auditing procedures to satisfy ourselves as to inventory quantities. Accordingly, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on the accompanying statements of income, retained earnings and cash flows for the year ended December 31, 20X2.

In our opinion, the balance sheet referred to above presents fairly, in all material respects, the financial position of X Company as of December 31, 20X2, in conformity with accounting principles generally accepted in the United States of America.

[*Signature*]

[*Date*]

[Source: AU section 508.26]

---

[1] Although the introductory paragraph of the standard disclaimer of opinion begins with "We were engaged to audit ..." and the scope paragraph of the report is omitted, AU section 508.67, *Reports on Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1), shows that the introductory paragraph does not need to be modified nor does the scope paragraph need to be omitted when the disclaimed financial statements are with audited financial statements.

.02 Inability to Obtain Sufficient Competent Evidential Matter Due to a Scope Limitation

Independent Auditor's Report

Addressee:

We were engaged to audit the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management.

The Company did not make a count of its physical inventory in 20X2 or 20X1, stated in the accompanying financial statements at $_____ as of December 31, 20X2, and at $_____ as of December 31, 20X1. Further, evidence supporting the cost of property and equipment acquired prior to December 31, 20X1, is no longer available. The Company's records do not permit the application of other auditing procedures to inventories or property and equipment.

Since the Company did not take physical inventories and we were not able to apply other auditing procedures to satisfy ourselves as to inventory quantities and the cost of property and equipment, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on these financial statements.

.03 Scope Limitation—Inventory and GAAP Departure—Capitalized Lease Obligations

Independent Auditor's Report

Addressee:

We were engaged to audit the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management.

The Company has excluded, from property and debt in the accompanying balance sheets, certain lease obligations that, in our opinion, should be capitalized in order to conform with accounting principles generally accepted in the United States of America. If these lease obligations were capitalized, property would be increased by $_____ and $_____, long-term debt by $_____ and $_____, and retained earnings by $_____ and $_____ as of December 31, 20X2 and 20X1, respectively. Additionally, net income would be increased (decreased) by $_____ and $_____ and earnings per share would be increased (decreased) by $_____ and $_____, respectively, for the years then ended.

The Company did not make a count of its physical inventory in 20X2 or 20X1, stated in the accompanying financial statements at $_____ as of December 31, 20X2, and at $_____ as of December 31, 20X1. Further, evidence supporting the cost of property and equipment acquired prior to December 31, 20X1, is no longer available. The Company's records do not permit the application of other auditing procedures to inventories or property and equipment.

Since the Company did not take physical inventories and we were not able to apply other auditing procedures to satisfy ourselves as to inventory quantities and the cost of property and equipment, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on these financial statements.

[*Signature*]

[*Date*]

[Source: AU section 508.39 and .63]

Note: This report would be used if the GAAP departure is not so material to require an adverse opinion. See AAM section 9220.01 for an example of an adverse opinion.

AAM Section 9240
Qualified Opinions

.010 Scope Limitation—Investment in Foreign Affiliate (Assuming Effects Are Such That Qualification Rather Than Disclaimer Is Appropriate)

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

Except as discussed in the following paragraph, we conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

We were unable to obtain audited financial statements supporting the Company's investment in a foreign affiliate stated at $_____ and $_____ at December 31, 20X2 and 20X1, respectively, or its equity in earnings of that affiliate of $_____ and $_____, which is included in net income for the years then ended as described in Note X to the financial statements; nor were we able to satisfy ourselves as to the carrying value of the investment in the foreign affiliate or the equity in its earnings by other auditing procedures.

In our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had we been able to examine evidence regarding the foreign affiliate investment and earnings, the financial statements referred to in the first paragraph above present fairly, in all material respects, the financial position of X Company as of December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

.020 Departure From GAAP—Leases Not Capitalized—Role

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

The Company has excluded, from property and debt in the accompanying balance sheets, certain lease obligations that, in our opinion, should be capitalized in order to conform with accounting principles generally accepted in the United States of America. If these lease obligations were capitalized, property would be increased by $_____ and $_____, long-term debt by $_____ and $_____, and retained earnings by $_____ and $_____ as of December 31, 20X2 and 20X1, respectively. Additionally, net income would be increased (decreased) by $_____ and $_____ and earnings per share would be increased (decreased) by $_____ and $_____, respectively, for the years then ended.

In our opinion, except for the effects of not capitalizing certain lease obligations as discussed in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

.030 Departure From GAAP—Leases Not Capitalized—Pertinent Facts Disclosed in Note

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As more fully described in Note X to the financial statements, the Company has excluded certain lease obligations from property and debt in the accompanying balance sheets. In our opinion, accounting principles generally accepted in the United States of America require that such obligations be included in the balance sheets.

In our opinion, except for the effects of not capitalizing certain lease obligations as discussed in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

.040 Inadequate Disclosure—Omission of Disclosures

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheet of X Company as of December 31, 20XX, and the related statements of income, retained earnings, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The Company's financial statements do not disclose [*describe the nature of the omitted disclosures*]. In our opinion, disclosure of this information is required by accounting principles generally accepted in the United States of America.

In our opinion, except for the omission of the information discussed in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of [at] December 31, 20XX, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

[*Signature*]

[*Date*]

[Source: AU section 508.42]

Note: This report assumes the effects are such that the auditor has concluded an adverse opinion is not appropriate.

.050 Inadequate Disclosure—Omission of Statement of Cash Flows

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income and retained earnings for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

The Company declined to present a statement of cash flows for the years ended December 31, 20X2 and 20X1. Presentation of such statement summarizing the Company's operating, investing, and financing activities is required by accounting principles generally accepted in the United States of America.

In our opinion, except that the omission of a statement of cash flows results in an incomplete presentation as explained in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of December 31, 20X2 and 20X1, and the results of its operations for the years then ended in conformity with accounting principles generally accepted in the United States of America.

[*Signature*]

[*Date*]

[Source: AU section 508.44]

.060 Change in Accounting Principle Without Reasonable Justification

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As disclosed in Note X to the financial statements, the Company adopted, in 20X2, the first-in, first-out method of accounting for its inventories, whereas it previously used the last-in, first-out method. Although use of the first-in, first-out method is in conformity with accounting principles generally accepted in the United States of America, in our opinion the Company has not provided reasonable justification for making this change as required by those principles.

In our opinion, except for the change in accounting principle discussed in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

[*Signature*]

[*Date*]

[Source: AU section 508.52]

Note: If the change was from an accounting principle that is not generally accepted to one that is generally accepted it would be a correction of an error and would require recognition in the auditor's report as to consistency. However, because the middle paragraph contains all of the information required in an explanatory paragraph (following the opinion paragraph) as required by AU section 508.16–.18, an explanatory paragraph is not required in this instance.

.070 Change to an Accounting Principle Not in Conformity With Generally Accepted Accounting Principles

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

The company previously recorded its land at cost but adjusted the amounts to appraised values during the year, with a corresponding increase in stockholders' equity in the amount of $_____. In our opinion, the new basis on which land is recorded is not in conformity with accounting principles generally accepted in the United States of America.

In our opinion, except for the change to recording appraised values as described above, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of [at] December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

[*Date*]

[Source: AU section 508.55]

.080 More than One Reason—Qualified Opinion on Prior Year's Financial Statements With the Current Year Qualified for the Same Reason and an Additional Reason

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

Except as discussed in the following paragraph, we conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

We were unable to obtain audited financial statements supporting the Company's investment in a foreign affiliate stated at $_____ and $_____ at December 31, 20X2 and 20X1, respectively, or its equity in earnings of that affiliate of $_____ and $_____, which is included in net income for the years then ended as described in Note X to the financial statements; nor were we able to satisfy ourselves as to the carrying value of the investment in the foreign affiliate or the equity in its earnings by other auditing procedures.

The Company has excluded, from property and debt in the accompanying 20X2 balance sheet, certain lease obligations that were entered into in 20X2, which in our opinion, should be capitalized in order to conform with accounting principles generally accepted in the United States of America. If these lease obligations were capitalized, property would be increased by $_____, long-term debt by $_____, and retained earnings by $_____, as of December 31, 20X2. Additionally, net income would be increased (decreased) by $_____ and earnings per share would be increased (decreased) by $_____ for the year then ended.

In our opinion, except for the effects on the 20X2 and 20X1 financial statements of such adjustments, if any, as might have been determined to be necessary had we been able to examine evidence regarding the foreign affiliate investment and earnings, and except for the effects of the 20X2 financial statements of not capitalizing certain lease obligations as discussed in the preceding paragraph, the financial statements referred to in the first paragraph above present fairly, in all material respects, the financial position of X Company as of December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of [at] December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The Company has not presented [*describe the supplementary information required by GAAP*[1]] that accounting principles generally accepted in the United States has determined is necessary to supplement, although not required to be part of, the basic financial statements.

1 The auditor may identify the body requiring the information, such as the Financial Accounting Standards Board in this example.

.015 Omission of Supplementary Information Required by the GASB

Independent Auditor's Report

Addressee:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Example, Any State, as of and for the year ended June 30, 20X1, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Example's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. [*Optional: An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we express no such opinion.*][2] An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Example, Any State, as of June 30, 20X1, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The City of Example, Any State, has not presented [describe the supplementary information required by GAAP[3]] that accounting principles generally accepted in the United States of America require to supplement, although not to be part of, the basic financial statements.

Notes: The report on the accompanying information may be added to the auditor's standard report on the basic financial statements or may appear separately in the auditor-submitted document. [Source: AU section 551.06]

When the auditor disclaims an opinion on all or part of the accompanying information in a document that he or she submits to his or her client or to others, such information should either be marked as unaudited or should include a reference to the auditor's disclaimer of opinion. The wording of the disclaimer will vary according to the circumstances.

.070 Disclaimer on Part of the Accompanying Information (Not Audited)

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of [at] December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information on pages XX-YY is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information, except for that portion marked "unaudited," on which we express no opinion, has been subjected to the auditing procedures applied in the audit of the basic financial statements; and, in our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes: The report on the accompanying information may be added to the auditor's standard report on the basic financial statements or may appear separately in the auditor-submitted document. [Source: AU section 551.06]

When the auditor disclaims an opinion on all or part of the accompanying information in a document that he or she submits to his or her client or to others, such information should either be marked as unaudited or should include a reference to the auditor's disclaimer of opinion. The wording of the disclaimer will vary according to the circumstances.

.080 Qualification on Basic Financial Statements and Accompanying Information (Departure From GAAP)

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

The Company has excluded, from property and debt in the accompanying balance sheets, certain lease obligations that, in our opinion, should be capitalized in order to conform with accounting principles generally accepted in the United States of America. If these lease obligations were capitalized, property would be increased by $_____ and $_____, long-term debt by $_____ and $_____, and retained earnings by $_____ and $_____ as of December 31, 20X2 and 20X1, respectively. Additionally, net income would be increased (decreased) by $_____ and $_____ and earnings per share would be increased (decreased) by $_____ and $_____, respectively, for the years then ended.

In our opinion, except for the effects of not capitalizing certain lease obligations as discussed in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of [at] December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedules of property and related depreciation (page X), and long-term debt with related interest (page Y), as of December 31, 20X2, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The information in such schedules has been subjected to the auditing procedures applied in the audit of the basic financial statements; and, in our opinion, except for the effects on the schedule of property of not capitalizing certain lease obligations as explained in the third paragraph of this report, such information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

.090 Supplementary Information Required by the FASB Included in Auditor-Submitted Document

Independent Auditor's Report

Addressee:

We have audited the accompanying balance sheets of X Company as of December 31, 20X2 and 20X1, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of X Company as of [at] December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The [*identify the supplementary information*] on page XX is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

[*Signature*]

[*Date*]

[Source: AU section 551.15]

Notes: The report on the accompanying information may be added to the auditor's standard report on the basic financial statements or may appear separately in the auditor-submitted document. [Source: AU section 551.06]

When supplementary information required by GAAP is presented outside the basic financial statements in an auditor-submitted document, the auditor should (*a*) express an opinion on the information if the auditor has been engaged to examine the information, (*b*) report on the information using the guidance in AU section 551.12 and .14, provided such information has been subjected to the auditing procedures applied in the audit of the basic financial statements, or (*c*) disclaim an opinion on the information.[9] [Source: AU section 551.15]

In certain circumstances, the auditor's report should be expanded in accordance with AU section 558.08–.09. The illustrative reports at AAM section 9245.010–.045 are assembled from illustrative reporting language in AU section 558.08.

---

[9] The auditor may identify the body requiring the information, such as the Financial Accounting Standards Board in this example.

.095 Supplementary Information Required by the GASB Included in Auditor-Submitted Documents

Independent Auditor's Report

Addressee:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Example, Any State, as of and for the year ended June 30, 20X1, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Example's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. [*Optional: An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we express no such opinion*.][10] An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Example, Any State, as of June 30, 20X1, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The [*identify accompanying required supplementary information*] on pages XX through XX and XX through XX are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America.[11] We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

[*Signature*]

[*Date*]

Notes: The report on the accompanying information may be added to the auditor's standard report on the basic financial statements or may appear separately in auditor-submitted documents. [Source: AU section 551.06]

---

[10] This optional wording may be added in accordance with Auditing Interpretation No. 17 of AU section 508, which provides reporting guidance for audits of nonissuers. If this optional wording is added, the remainder of the paragraph should read as follows:

> "An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions."

[11] The auditor may identify the body requiring the information, such as the Governmental Accounting Standards Board in this example.

When supplementary information required by GAAP is presented outside the basic financial statements in an auditor-submitted document, the auditor should (*a*) express an opinion on the information if the auditor has been engaged to examine the information, (*b*) report on the information using the guidance in AU section 551.12 and .14), provided such information has been subjected to the auditing procedures applied in the audit of the basic financial statements, or (*c*) disclaim an opinion on the information.

In certain circumstances, the auditor's report should be expanded in accordance with AU section 558.08 and .09. The illustrative reports at AAM section 9245.010–.045 are assembled from illustrative reporting language in AU section 558.08 and the AICPA Audit and Accounting Guide *State and Local Governments*, updated as of May 1, 2007.

.100 Consolidating Information Not Separately Audited

Independent Auditor's Report

Addressee:

We have audited the accompanying consolidated balance sheets of X Company and subsidiaries as of December 31, 20X2 and 20X1, and the related consolidated statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of X Company and subsidiaries as of [at] December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The consolidating information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations, and cash flows of the individual companies. The consolidating information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the consolidated financial statements taken as a whole.

[*Signature*]

[*Date*]

[Source: AU section 551.18]

Notes: The report on the consolidating information may be added to the auditor's standard report on the basic financial statements or may appear separately in the auditor-submitted document.

When the auditor is engaged to express an opinion only on the consolidated financial statements and consolidating information is also included, the auditor should be satisfied that the consolidating information is suitably identified. For example, when the consolidated financial statements include columns of information about the components of the consolidated group, the balance sheets might be titled, "Consolidated Balance Sheet-December 31, 20X1, with Consolidating Information," and the columns including the consolidating information might be marked, "Consolidating Information." When the consolidating information is presented in separate schedules, the schedules presenting balance sheet information of the components might be titled, for example, "Consolidating Schedule, Balance Sheet Information, December 31, 20X1."

.110 Unqualified Opinion on Selected Financial Data in a Client-Prepared Document That Includes Audited Financial Statements

Independent Auditor's Report

Addressee:

We have audited the accompanying consolidated balance sheets of X Company and subsidiaries as of December 31, 20X5 and 20X4, and the related consolidated statements of income, retained earnings, and cash flows for each of the three years in the period ended December 31, 20X5. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of X Company and subsidiaries as of December 31, 20X5 and 20X4, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 20X5 in conformity with accounting principles generally accepted in the United States of America.

We have also previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheets as of December 31, 20X3, 20X2, and 20X1, and the related consolidated statements of income, retained earnings, and cash flows for the years ended December 31, 20X2 and 20X1 (none of which are presented herein); and we expressed unqualified opinions on those consolidated financial statements.

In our opinion, the information set forth in the selected financial data for each of the five years in the period ended December 31, 20X5, appearing on page XX, is fairly stated, in all material respects, in relation to the consolidated financial statements from which it has been derived.

Engagements to Report on Internal Control

.010 Accountant's Report When Expressing an Opinion Directly on the Effectiveness of an Entity's Internal Control as of a Specified Date

Independent Accountant's Report

We have examined the effectiveness of W Company's internal control over financial reporting as of December 31, 20XX, based on [*identify criteria*]. W Company's management is responsible for maintaining effective internal control over financial reporting. Our responsibility is to express an opinion on the effectiveness of internal control based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included obtaining an understanding of internal control over financial reporting, testing, and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

Because of inherent limitations in any internal control, misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of internal control over financial reporting to future periods are subject to the risk that the internal control may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, W Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20XX, based on [*identify criteria*].[1]

[Source: AT section 501.56, *Reporting on an Entity's Internal Control Over Financial Reporting* (AICPA, *Professional Standards*, vol. 1)]

[1] For example, "criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."

.020 Accountant's Report When Expressing an Opinion on a Written Assertion About the Effectiveness of an Entity's Internal Control as of a Specified Date

Independent Accountant's Report

We have examined management's assertion, included in the accompanying [*title of management report*], that W Company maintained effective internal control over financial reporting as of December 31, 20XX based on [*identify criteria*].[2] W Company's management is responsible for maintaining effective internal control over financial reporting. Our responsibility is to express an opinion on management's assertion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included obtaining an understanding of internal control over financial reporting, testing, and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

Because of inherent limitations in any internal control, misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of internal control over financial reporting to future periods are subject to the risk that the internal control may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assertion that W Company maintained effective internal control over financial reporting as of December 31, 20XX is fairly stated, in all material respects, based on [*identify criteria*].[3]

[Source: AT section 501.58]

Note: Nothing precludes the practitioner from examining an assertion but opining directly on the effectiveness of internal control. (See AT section 501.59.)

[2] The practitioner should identify the responsible party's report examined by referring to the title used by the responsible party in its report. Further, he or she should use the same description of the entity's internal control as the responsible party uses in its reports, including the kinds of controls (that is, control over the preparation of annual financial statements, interim financial statements, or both) on which the responsible party is reporting. If the presentation of the assertion does not accompany the practitioner's report, the phrase "included in the accompanying [*title of responsible party's report*]" would be omitted.

[3] For example, "criteria established in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."

.030 Modified Report With Explanatory Language, That a Practitioner Should Use When There Is a Material Weakness in an Entity's Internal Control and, Based on Its Significance and Its Effect on the Achievement of the Objectives of the Control Criteria, the Practitioner Concludes That a Qualified Opinion Is Appropriate

Independent Accountant's Report

We have examined the effectiveness of W Company's internal control over financial reporting as of December 31, 20XX, based on [*identify criteria*]. W Company's management is responsible for maintaining effective internal control over financial reporting. Our responsibility is to express an opinion on the effectiveness of internal control based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included obtaining an understanding of internal control over financial reporting, testing, and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

Because of inherent limitations in any internal control, misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of internal control over financial reporting to future periods are subject to the risk that the internal control may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

A material weakness is a significant deficiency or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected. A significant deficiency is a control deficiency or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected. The following material weakness has been identified.

[*Include a description of the material weakness and its effect on the achievement of the objectives of the control criteria.*]

In our opinion, except for the effect of the material weakness described in the preceding paragraph on the achievement of the objectives of the control criteria, W Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20XX, based on [*identify criteria*].

[Source: AT section 501.63]

Note: If the practitioner's report on his or her examination of the effectiveness of the entity's internal control is included within the same document that includes his or her audit report on the entity's financial statements, the following sentence should be included in the paragraph of the examination report that describes the material weakness:

> These conditions were considered in determining the nature, timing, and extent of audit tests applied in our audit of the 20XX financial statements, and this report does not affect our report dated [*date of report*] on these financial statements.[4]

[Source: AT section 501.63 and .66]

---

[4] The practitioner may also include the preceding sentence in situations where the two reports are not included within the same document.

.040 Adverse Opinion on When a Material Weakness in Internal Control Exists and, in the Practitioner's Judgment, the Material Weakness(es) Is (Are) So Pervasive That the Entity's Internal Control Over Financial Reporting Does Not Achieve the Control Objectives

Independent Accountant's Report

We have examined the effectiveness of W Company's internal control over financial reporting as of December 31, 20XX, based on [*identify criteria*]. W Company's management is responsible for maintaining effective internal control over financial reporting. Our responsibility is to express an opinion on the effectiveness of internal control based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included obtaining an understanding of internal control over financial reporting, testing, and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

Because of inherent limitations in any internal control, misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of internal control over financial reporting to future periods are subject to the risk that the internal control may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

A material weakness is a significant deficiency or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected. A significant deficiency is a control deficiency or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected. The following material weakness has been identified.

[*Include a description of the material weakness and its effect on the achievement of the objectives of the control criteria.*]

In our opinion, because of the effect of the material weakness described above on the achievement of the objectives of the control criteria, W Company has not maintained effective internal control over financial reporting as of December 31, 20XX, based on [*identify criteria*].

[Source: AT section 501.64]

Note: If the practitioner's report on his or her examination of the effectiveness of the entity's internal control is included within the same document that includes his or her audit report on the entity's financial statements, the following sentence should be included in the paragraph of the examination report that describes the material weakness:

> These conditions were considered in determining the nature, timing, and extent of audit tests applied in our audit of the 20XX financial statements, and this report does not affect our report dated [*date of report*] on these financial statements.[5]

[Source: AT section 501.64 and .66]

---

[5] The practitioner may also include the preceding sentence in situations where the two reports are not included within the same document.

.050 Qualified Opinion on the Effectiveness of an Entity's Internal Control, or Written Assertion Thereon, Due to a Scope Limitation

Independent Accountant's Report

We have examined the effectiveness of W Company's internal control over financial reporting as of December 31, 20XX, based on [*identify criteria*]. W Company's management is responsible for maintaining effective internal control over financial reporting. Our responsibility is to express an opinion on the effectiveness of internal control based on our examination.

Except as described below, our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included obtaining an understanding of the internal control over financial reporting, testing, and evaluating the design and operating effectiveness of the internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

A material weakness is a significant deficiency or a combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected. A significant deficiency is a control deficiency or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected. The following material weakness has been identified. Prior to December 20, 20XX, W Company had an inadequate system for recording cash receipts, which could have prevented the Company from recording cash receipts on accounts receivable completely and properly. Therefore, cash received could have been diverted for unauthorized use, lost, or otherwise not properly recorded to accounts receivable. We believe this condition was a material weakness in the design or operation of the internal control of W Company in effect prior to December 20, 20XX. Although the Company implemented a new cash receipts system on December 20, 20XX, the system has not been in operation for a sufficient period of time to enable us to obtain sufficient evidence about its operating effectiveness.

Because of the inherent limitations in any internal control, misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of internal control over financial reporting to future periods are subject to the risk that the internal control may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, except for the effect of matters we may have discovered had we been able to examine evidence about the effectiveness of the new cash receipts system, W Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20XX based on [*identify criteria*].

[Source: AT section 501.68]

.060 Disclaimer of Opinion When Restrictions That Significantly Limit the Scope of the Examination Are Imposed by the Client or the Responsible Party

Independent Accountant's Report

We were engaged to examine the effectiveness of W Company's internal control over financial reporting as of December 31, 20XX, based on [*identify criteria*]. W Company's management is responsible for maintaining effective internal control over financial reporting.

[*Scope paragraph should be omitted.*]

[*Explanatory paragraph.*]

[*Include paragraph to describe scope restrictions.*]

Since management [*describe scope restrictions*] and we were unable to apply other procedures to satisfy ourselves as to the entity's internal control over financial reporting, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on the effectiveness of the entity's internal control over financial reporting.

[Source: AT section 501.70]

.070 Unqualified Opinion When the Practitioner Decides to Make Reference to the Report of Another Practitioner as a Basis, in Part, for the Practitioner's Opinion

[*In these circumstances, the practitioner should disclose this fact when describing the scope of the examination and should refer to the report of the other practitioner when expressing the opinion.*[6]]

Independent Accountant's Report

We have examined the effectiveness of W Company's internal control over financial reporting as of December 31, 20XX, based on [*identify criteria*]. W Company's management is responsible for maintaining effective internal control over financial reporting. Our responsibility is to express an opinion on the effectiveness of internal control based on our examination. We did not examine the effectiveness of internal control over financial reporting of B Company, a wholly owned subsidiary, whose financial statements reflect total assets and revenues constituting 20 and 30 percent, respectively, of the related consolidated financial statement amounts as of and for the year ended December 31, 20XX. The effectiveness of B Company's internal control over financial reporting was examined by other accountants whose report has been furnished to us, and our opinion, insofar as it relates to the effectiveness of B Company's internal control over financial reporting, is based solely on the report of the other accountants.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included obtaining an understanding of internal control over financial reporting, testing, and evaluating the design and operating effectiveness of internal control and performing such other procedures as we considered necessary in the circumstances. We believe that our examination and the report of the other accountants provide a reasonable basis for our opinion.

Because of inherent limitations in any internal control, misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of internal control over financial reporting to future periods are subject to the risk that the internal control may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, based on our examination and the report of the other accountants, W Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20XX, based on [*identify criteria*].

[Source: AT section 501.72]

---

[6] Whether the other practitioner's opinion is expressed on the responsible party's assertion or on the effectiveness of internal control does not affect the determination of whether the principal practitioner's opinion is expressed on the assertion or on the subject matter itself.

.080 Unqualified Opinion on the Effectiveness of Only a Segment of an Entity's Internal Control

[*For example, internal control over financial reporting of an entity's operating division or its accounts receivable*]

Independent Accountant's Report

We have examined the effectiveness of W Company's internal control over financial reporting for its retail division as of December 31, 20XX, based on [*identify criteria*]. W Company's management is responsible for maintaining effective internal control over financial reporting. Our responsibility is to express an opinion on the effectiveness of internal control based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included obtaining an understanding of internal control over financial reporting, testing, and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

Because of the inherent limitations in any internal control, misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of internal control over financial reporting to future periods are subject to the risk that the internal control may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, W Company's retail division maintained, in all material respects, effective internal control over financial reporting as of December 31, 20XX based on [*identify criteria*].

[Source: AT section 501.77]

.090 Unqualified Opinion About the Suitability of Design of the Entity's Internal Control

Independent Accountant's Report

We have examined the suitability of W Company's design of internal control over financial reporting to prevent or detect material misstatements in the financial statements on a timely basis as of December 31, 20XX, based on [*identify criteria*]. W Company's management is responsible for the suitable design of internal control over financial reporting. Our responsibility is to express an opinion on the design of internal control based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included obtaining an understanding of internal control over financial reporting, evaluating the design of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

Because of inherent limitations in any internal control, misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of internal control over financial reporting to future periods are subject to the risk that the internal control may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, W Company's internal control over financial reporting is suitably designed, in all material respects, to prevent or detect material misstatements in the financial statements on a timely basis as of December 31, 20XX, based on [*identify criteria*].

[Source: AT section 501.79]

Notes: This report assumes that the control criteria of the regulatory agency are both suitable and available to users as discussed in AT section 101.23–.34, *Attest Engagements* (AICPA, *Professional Standards*, vol. 1). Therefore, there is no restriction on the use of this report.

When reporting on the suitability of design of the entity's internal control that has already been placed in operation, the report should be modified by adding the following to the scope paragraph:

> We were not engaged to examine and report on the operating effectiveness of W Company's internal control over financial reporting as of December 31, 20XX, and, accordingly, we express no opinion on operating effectiveness.

.100 Unqualified Opinion Based on an Examination on the Adequacy of an Entity's Internal Control Over Financial Reporting Based on Criteria Established by a Regulatory Agency That Are Not Suitable for General Use

Independent Accountant's Report

We have examined the adequacy of W Company's internal control over financial reporting as of December 31, 20XX, based on the criteria established by __________ agency, as set forth in its audit guide dated __________. W Company's management is responsible for maintaining adequate internal control over financial reporting. Our responsibility is to express an opinion on whether the internal control is adequate to meet such criteria based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included obtaining an understanding of internal control over financial reporting, testing, and evaluating the design and operating effectiveness of internal control and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

Because of inherent limitations in any internal control, misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of internal control over financial reporting to future periods are subject to the risk that internal control may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

We understand that the agency considers the controls over financial reporting that meet the criteria referred to in the first paragraph of this report adequate for its purpose. In our opinion, based on this understanding and on our examination, W Company's internal control over financial reporting is adequate, in all material respects, based on the criteria established by __________ agency.

This report is intended solely for the information and use of the board of directors and management of W Company and [*agency*] and is not intended to be and should not be used by anyone other than these specified parties.

.110 Communication of Internal Control Matters Noted in an Audit

Addressee:

In planning and performing our audit of the financial statements of ABC Company as of and for the year ended December 31, 20XX, in accordance with auditing standards generally accepted in the United States of America, we considered ABC Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies [*and other deficiencies that we consider to be material weaknesses*].

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the following deficiencies to be significant deficiencies in internal control:

[*Describe the significant deficiencies that were identified*.]

[*A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. We believe that the following deficiencies constitute material weaknesses*..]

[*Describe the significant deficiencies that were identified*]

This communication is intended solely for the information and use of management, [identify the body or individuals charged with governance], others within the organization, and [*identify any specified governmental authorities*] and is not intended to be and should not be used by anyone other than these specified parties.

[*Signature*]

[*Date*]

The auditor should not issue a written communication stating that no significant deficiencies were identified during the audit because of the potential for misinterpretation of the limited degree of assurance provided by such a communication.

.120 Communication of Internal Control Related Matters Noted in an Audit When One or More Reportable Conditions Were Identified, But None is Deemed to be a Material Weakness

Addressee:

In planning and performing our audit of the financial statements of ABC Company as of and for the year ended December 31, 20XX, in accordance with auditing standards generally accepted in the United States of America, we considered ABC Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined above.[7]

This communication is intended solely for the information and use of management, [*identify the body or individuals charged with governance*], others within the organization, and [*identify any specified governmental authorities*] and is not intended to be and should not be used by anyone other than these specified parties.

[*Signature*]

[*Date*]

The auditor should not issue a written communication stating that no significant deficiencies were identified during the audit because of the potential for misinterpretation of the limited degree of assurance provided by such a communication.

[Source: AU section 325.28–.29]

---

[7] If one or more significant deficiencies have been identified, the auditor may add the following sentence to the fourth paragraph of the communication:

> However, we identified certain deficiencies in internal control that we consider to be significant deficiencies, and communicated them in writing to management and those charged with governance on [date].

.130 Report on Controls Placed in Operation at a Service Organization

To XYZ Service Organization:

We have examined the accompanying description of controls related to the (payroll) application of XYZ Service Organization. Our examination included procedures to obtain reasonable assurance about whether (1) the accompanying description presents fairly, in all material respects, the aspects of XYZ Service Organization's controls that may be relevant to a user organization's internal control as it relates to an audit of financial statements, (2) the controls included in the description were suitably designed to achieve the control objectives specified in the description, if those controls were complied with satisfactorily,[8] and (3) such controls had been placed in operation as of (*date*). The control objectives were specified by the (board of directors). Our examination was performed in accordance with standards established by the American Institute of Certified Public Accountants and included those procedures we considered necessary in the circumstances to obtain a reasonable basis for rendering our opinion.

We did not perform procedures to determine the operating effectiveness of controls for any period. Accordingly, we express no opinion on the operating effectiveness of any aspects of XYZ Service Organization's controls, individually or in the aggregate.

In our opinion, the accompanying description of the aforementioned application presents fairly, in all material respects, the relevant aspects of XYZ Service Organization's controls that had been placed in operation as of (*date*). Also, in our opinion, the controls, as described, are suitably designed to provide reasonable assurance that the specified control objectives would be achieved if the described controls were complied with satisfactorily.

The description of controls at XYZ Service Organization is as of (*date*) and any projection of such information to the future is subject to the risk that, because of change, the description may no longer portray the controls in existence. The potential effectiveness of specific controls at the Service Organization is subject to inherent limitations and, accordingly, errors or fraud may occur and not be detected. Furthermore, the projection of any conclusions, based on our findings, to future periods is subject to the risk that changes may alter the validity of such conclusions.

This report is intended solely for use by the management of XYZ Service Organization, its customers, and the independent auditors of its customers.

[Source:AU section 324.38, *Service Organizations* (AICPA, *Professional Standards*, vol. 1)]

Notes: This report should have an attachment containing a description of the service organization's controls that may be relevant to a user organization's internal control.

This report is illustrative only and should be modified as appropriate to suit the circumstances of individual engagements.

See AU section 324.39, for an example explanatory paragraph and modification to the opinion paragraph when the service auditor concludes that the description is inaccurate or insufficiently complete for user auditors.

See AU section 324.40, for an example explanatory paragraph and modification to the opinion paragraph when the service auditor concludes that there are sufficient deficiencies in the design or operation of the service organization's controls.

[8] If the application of controls by user organizations is necessary to achieve the stated control objectives, the service auditor's report should be modified to include the phrase "and user organizations applied the controls contemplated in the design of XYZ Service Organization's controls" following the words "complied with satisfactorily" in the scope and opinion paragraphs.

.140 Report on Controls Placed in Operation at a Service Organization and Tests of Operating Effectiveness

To XYZ Service Organization:

We have examined the accompanying description of controls related to the (payroll) application of XYZ Service Organization. Our examination included procedures to obtain reasonable assurance about whether (1) the accompanying description presents fairly, in all material respects, the aspects of XYZ Service Organization's controls that may be relevant to a user organization's internal control as it relates to an audit of financial statements, (2) the controls included in the description were suitably designed to achieve the control objectives specified in the description, if those controls were complied with satisfactorily,[9] and (3) such controls had been placed in operation as of (*date*). The control objectives were specified by the (board of directors). Our examination was performed in accordance with standards established by the American Institute of Certified Public Accountants and included those procedures we considered necessary in the circumstances to obtain a reasonable basis for rendering our opinion.

In our opinion, the accompanying description of the aforementioned application presents fairly, in all material respects, the relevant aspects of XYZ Service Organization's controls that had been placed in operation as of (*date*). Also, in our opinion, the controls, as described, are suitably designed to provide reasonable assurance that the specified control objectives would be achieved if the described controls were complied with satisfactorily.

In addition to the procedures we considered necessary to render our opinion as expressed in the previous paragraph, we applied tests to specific controls, listed in Schedule X, to obtain evidence about their effectiveness in meeting the control objectives, described in Schedule X, during the period from (*date*) to (*date*). The specific controls and the nature, timing, extent, and results of the tests are listed in Schedule X. This information has been provided to user organizations of XYZ Service Organization and to their auditors to be taken into consideration, along with information about the internal control at user organizations, when making assessments of control risk for user organizations. In our opinion the controls that were tested, as described in Schedule X, were operating with sufficient effectiveness to provide reasonable, but not absolute, assurance that the control objectives specified in Schedule X were achieved during the period from (*date*) to (*date*). [However, the scope of our engagement did not include tests to determine whether control objectives not listed in Schedule X were achieved; accordingly, we express no opinion on the achievement of control objectives not included in Schedule X.][10]

The relative effectiveness and significance of specific controls at XYZ Service Organization and their effect on assessments of control risk at user organizations are dependent on their interaction with the controls and other factors present at individual user organizations. We have performed no procedures to evaluate the effectiveness of controls at individual user organizations.

The description of controls at XYZ Service Organization is as of (*date*), and information about tests of the operating effectiveness of specific controls covers the period from (*date*) to (*date*). Any projection of such information to the future is subject to the risk that, because of change, the description may no longer portray the system in existence. The potential effectiveness of specific controls at the Service Organization is subject to inherent limitations and, accordingly, errors or fraud may occur and not be detected. Furthermore, the projection of any conclusions, based on our findings, to future periods is subject to the risk that changes may alter the validity of such conclusions.

---

[9] If the application of controls by user organizations is necessary to achieve the stated control objectives, the service auditor's report should be modified to include the phrase "and user organizations applied the controls contemplated in the design of XYZ Service Organization's controls" following the words "complied with satisfactorily" in the scope and opinion paragraphs.

[10] This sentence should be added when all of the control objectives listed in the description of controls placed in operation are not covered by the tests of operating effectiveness. This sentence would be omitted when all of the control objectives listed in the description of controls placed in operation are included in the tests of operating effectiveness.

This report is intended solely for use by the management of XYZ Service Organization, its customers, and the independent auditors of its customers.

[Source: AU section 324.54]

Notes: This report should have two attachments: (*a*) a description of the service organization's controls that may be relevant to a user organization's controls and (*b*) a description of controls for which tests of operating effectiveness were performed, the control objectives the controls were intended to achieve, the tests applied, and the results of these tests.

This report is illustrative only and should be modified as appropriate to suit the circumstances of individual engagements.

See AU section 324.55, for an example explanatory paragraph and modification to the opinion paragraph when the service auditor concludes that the description is inaccurate or insufficiently complete for user auditors.

See AU section 324.56, for an example explanatory paragraph and modification to the opinion paragraph when the service auditor concludes that there are sufficient deficiencies in the design or operation of the service organization's controls.

.150 Reports on Internal Control Required by SEC Rule 17a-5

The following is an illustration of the independent auditor's report on internal control required by Securities Exchange Commission (SEC) rule 17a-5(g)(1):*

Board of Directors

Standard Stockbrokerage Co., Inc.

In planning and performing our audit of the *[consolidated]* financial statements of Standard Stockbrokerage Co., Inc. [*and Subsidiaries*] (the Company), as of and for the year ended December 31, 20X7, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the [*consolidated*] financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including consideration of control activities for safeguarding securities. This study included tests of compliance with such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g), in the following:

1. Making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and the reserve required by rule 15c3-3(e)

2. Making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by rule 17a-13

3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

4. Obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by rule 15c3-3.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of

* For audits conducted in accordance with PCAOB standards, PCAOB Auditing Standard No. 1, *References in Auditors' Reports to the Standards of the Public Company Accounting Oversight Board*, replaces this sentence with the following sentence: "We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States)." On May 14, 2004, the SEC issued an interpretive release to help with the implementation of PCAOB Auditing Standard No. 1. See Release No. 33-8422 for more information. The release specifies that effective May 14, 2004, references in SEC rules and staff guidance and in the federal securities laws to GAAS or to specific standards under GAAS, as they relate to issuers, should be understood to mean the standards of the PCAOB, plus any applicable rules of the SEC. The guidance in this release is applicable only to auditors' engagements that are governed by PCAOB rules. The PCAOB, for example, has not established particular auditing standards for nonissuer broker-dealers or investment advisers. This release is not applicable to such engagements and related filings.

The staff of the PCAOB published a series of questions and answers ("Q&As") on PCAOB Auditing Standard No. 1. See the PCAOB Web site at www.pcaobus.org for more information.

In June 2004, the Auditing Standards Board ("ASB") issued Interpretation No. 18, "Reference to PCAOB Standards in an Audit Report of a Nonissuer," in AU sec. 9508, *Reports on Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1), which provides reporting guidance for audits of nonissuers. Interpretation No. 18 in AU sec. 9508 provides guidance on the appropriate referencing of PCAOB auditing standards in audit reports when an auditor is engaged to perform the audit in accordance with both GAAS and PCAOB auditing standards. The ASB also is revising AU sec. 508 (AICPA, *Professional Standards*, vol. 1) in light of the International Auditing and Assurance Standards Board's recently exposed International Standard on Auditing, The Independent Auditor's Report on a Complete Set of General Purpose Financial Statements, and PCAOB Auditing Standard No. 1. See the AICPA Web site at www.aicpa.org/Professional+Resources/Accounting+and+Auditing/Audit+and+Attest+Standards for more information.

internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency*[11] is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.[12]

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based

---

[11] On May 24, 2007 the PCAOB approved Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with an Audit of Financial Statements*. The SEC approved Auditing Standard No. 5 on July 25, 2007 and it is effective for all audits of internal control for fiscal years ending on or after November 15, 2007. Early adoption is permitted. Included in Auditing Standard No. 5 are new definitions for significant deficiency and material weakness:

> *Significant deficiency* —"A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of the company's financial reporting."
>
> *Material weakness*—"A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis."

[12] If significant deficiencies are identified, this paragraph can be modified by inserting " However, we identified certain deficiencies in internal control that we consider to be significant deficiencies, and communicated them in writing to management and those charged with governance on [date]." AU section 325.29, *Communicating Internal Control Related Matters Identified in an Audit* (AICPA, *Professional Standards*, vol.1) states that the auditor should not issue a written communication stating that no significant deficiencies were identified because of the potential for misinterpretation of the limited degree of assurance provided by such a communication.

If conditions believed to be material weaknesses are disclosed, the report should describe the weaknesses that have come to the auditor's attention and may state that these weaknesses do not affect the report on the financial statements. The last sentence of this paragraph of the report should be modified as follows:

> However, we identified the following deficiencies in [internal control or control activities for safeguarding securities] that we consider to be material weaknesses, as defined above. These conditions were considered in determining the nature, timing, and extent of the procedures performed in our audit of the [consolidated] financial statements of Standard Stockbrokerage Co., Inc. [and Subsidiaries] as of and for the year ended December 31, 20X7, and this report does not affect our report thereon dated February 15, 20X8. [*A description of the material weaknesses that have come to the auditor's attention and corrective action*.]

on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 20X7, to meet the SEC's objectives.[13]

This report is intended solely for the information and use of the Board of Directors, management, the SEC, [*Designated self-regulatory organization*], and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

Accounting Firm
New York, New York
February 15, 20X8

[Source: AICPA Audit and Accounting Guide *Brokers and Dealers in Securities*, updated as of May 1, 2007, Appendix C]

Note: AAM section 9650 illustrates the auditor's reports on the financial statements of brokers and dealers in securities.

The report should also describe material inadequacies that the auditor becomes aware of that existed during the period but were corrected prior to the end of the period, unless management already has reported them to the SEC.

.160 Report on Internal Control Required by SEC Rule 17a-5(g)(1) for a Broker-Dealer Claiming an Exemption From SEC Rule 15c3-3

The following is an illustration of an independent auditor's report on internal control required by SEC Rule 17a-5(g)(1) for a broker-dealer claiming an exemption from Securities and Exchange Commission (SEC) rule 15c3-3.[14]

Board of Directors

Standard Stockbrokerage Co., Inc.:

In planning and performing our audit of the [*consolidated*] financial statements of Standard Stockbrokerage Co., Inc. [*and Subsidiaries*] (the Company), as of and for the year ended December 31, 20X7, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the [*consolidated*] financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely

[14] There are different types of exemptions under SEC Rule 15c3-3—k(1), k(2)(i), and k(2)(ii). Other formats of this letter will be required depending on the type of the exemption filed.

basis. A *significant deficiency*[15] is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.[16]

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 20X6, to meet the SEC's objectives.[17]

This report is intended solely for the information and use of the Board of Directors, management, the SEC, [*Designated self-regulatory organization*], and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

---

[15] On May 24, 2007 the PCAOB approved Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with an Audit of Financial Statements*. The SEC approved Auditing Standard No. 5 on July 25, 2007 and it is effective for all audits of internal control for fiscal years ending on or after November 15, 2007. Early adoption is permitted. Included in Auditing Standard No. 5 are new definitions for significant deficiency and material weakness:

> *Significant deficiency* —"A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of the company's financial reporting."
>
> *Material weakness*—"A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis."

[16] If significant deficiencies are identified, this paragraph can be modified by inserting "However, we identified certain deficiencies in internal control that we consider to be significant deficiencies, and communicated them in writing to management and those charged with governance on [date]." AU section 325.29 states that the auditor should not issue a written communication stating that no significant deficiencies were identified because of the potential for misinterpretation of the limited degree of assurance provided by such a communication.

If conditions believed to be material weaknesses are disclosed, the report should describe the weaknesses that have come to the auditor's attention and may state that these weaknesses do not affect the report on the financial statements. The last sentence of this paragraph of the report should be modified as follows:

> However, we identified the following deficiencies in [internal control or control activities for safeguarding securities] that we consider to be material weaknesses, as defined above. These conditions were considered in determining the nature, timing, and extent of the procedures performed in our audit of the [consolidated] financial statements of Standard Stockbrokerage Co., Inc. [*and Subsidiaries*] as of and for the year ended December 31, 20X7, and this report does not affect our report thereon dated February 15, 20X8.[*A description of the material weaknesses that have come to the auditor's attention and corrective action*.]

[17] Whenever inadequacies are described, the last sentence of this paragraph should be modified as per note 1 above. The report should also describe material inadequacies that the auditor becomes aware of that existed during the period but were corrected prior to the end of the period, unless management already has reported them to the SEC.

Note: AAM section 9650 illustrates the auditor's reports on the financial statements of brokers and dealers in securities.

.170 Letter to SEC When the Broker-Dealer Has Not Made the Required Notification

Securities and Exchange Commission

Washington D.C. and Appropriate

Regional Office

Designated Examining Authority

Dear Sirs:

Our most recent audit of the [*consolidated*] financial statements of Standard Stockbrokerage Co., Inc. [*and Subsidiaries*] (the Company) was as of December 31, 20X6, and for the year then ended, which we reported on under date of February 15, 20X7. We have not audited any financial statements of the Company as of any date or for any period subsequent to December 31, 20X6. Although we are presently performing certain procedures as part of our audit of the [*consolidated*] financial statements of the Company as of December 31, 20X7, and for the year then ending, these procedures do not constitute all the procedures necessary in an audit conducted in accordance with auditing standards generally accepted in the United States of America or all the procedures necessary to (1) consider the Company's internal control as required by auditing standards generally accepted in the United States of America or (2) study the Company's practices and procedures relevant to the objectives stated in rule 17a-5(g) of the Securities and Exchange Commission as required by rule 17a-5.

The management of the Company is responsible for establishing and maintaining internal control. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls. The objectives of internal control are to provide management with reasonable but not absolute assurance that assets are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles.

Because of inherent limitations in internal control, errors or fraud may occur and not be detected. Also, projection of any evaluation of internal control to future periods is subject to the risk that controls may become inadequate because of changes in conditions or that the effectiveness of the design and operation of controls may deteriorate.

The purpose of performing certain procedures prior to the date of the financial statements is to facilitate the expression of an opinion on the Company's financial statements. It must be understood that the procedures performed would not necessarily identify all material weaknesses in internal control, and control activities for safeguarding securities.

However, pursuant to the requirements of rule 17a-5(h)(2), we are to call to the attention of the chief financial officer any weaknesses that we believe to be material and that were disclosed during the course of interim work. We have made such notification to the chief financial officer of Standard Stockbrokerage Co., Inc. and we believe the following additional information is required pursuant to the requirements of the rule.

[*List and describe all instances where the independent auditor did not agree with the notification of the broker or dealer or where the required notification was not made.*]

Note: AAM section 9650 illustrates the auditor's reports on the financial statements of brokers and dealers in securities.

.180 Report on Internal Control Required by CFTC Regulation 1.16 and SEC Rule 17a-5(g)(1)

The following is an illustration of the independent auditor's report on internal control required by CFTC Regulation 1.16 and SEC Rule 17a-5(g)(1).*

Board of Directors

Standard Stockbrokerage Co., Inc.:

In planning and performing our audit of the [*consolidated*] financial statements of Standard Stockbrokerage Co., Inc. [*and Subsidiaries*] (the Company) as of and for the year ended December 31, 20X6, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the [*consolidated*] financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including consideration of control activities for safeguarding securities. This study included tests of compliance with such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), in the following:

1. Making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and the reserve required by Rule 15c3-3(e)
2. Making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by Rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System
4. Obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3.

In addition, as required by Regulation 1.16 of the Commodity Futures Trading Commission (CFTC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding customer and firm assets. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Regulation 1.16, in making the following:

1. The periodic computations of minimum financial requirements pursuant to Regulation 1.17
2. The daily computations of the segregation requirements of Section 4d(a)(2) of the Commodity Exchange Act and the regulations thereunder, and the segregation of funds based on such computations
3. The daily computations of the foreign futures and foreign options secured amount requirements pursuant to Regulation 30.7 of the CFTC.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraphs. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraphs and to assess whether those practices and procedures can be expected to achieve the SEC's and the CFTC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with

* See footnote * in paragraph .150 Reports on Internal Control Required by SEC Rule 17a-5.

management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) and Regulation 1.16(d)(2) list additional objectives of the practices and procedures listed in the preceding paragraphs.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency*[18] is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first, second and third paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities and certain regulated commodity customer and firm assets that we consider to be material weaknesses, as defined above.[19]

We understand that practices and procedures that accomplish the objectives referred to in the second and third paragraphs of this report are considered by the SEC and CFTC to be adequate for their purposes in accordance with the Securities Exchange Act of 1934, the Commodity Exchange Act, and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the

---

[18] On May 24, 2007 the PCAOB approved Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with an Audit of Financial Statements*. The SEC approved Auditing Standard No. 5 on July 25, 2007 and it is effective for all audits of internal control for fiscal years ending on or after November 15, 2007. Early adoption is permitted. Included in Auditing Standard No. 5 are new definitions for significant deficiency and material weakness:

> *Significant deficiency* —"A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of the company's financial reporting."
>
> *Material weakness*—"A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis."

[19] If significant deficiencies are identified, this paragraph can be modified by inserting "However, we identified certain deficiencies in internal control that we consider to be significant deficiencies, and communicated them in writing to management and those charged with governance on [date]." AU section 325.29 states that the auditor should not issue a written communication stating that no significant deficiencies were identified because of the potential for misinterpretation of the limited degree of assurance provided by such a communication.

If conditions believed to be material weaknesses are disclosed, the report should describe the weaknesses that have come to the auditor's attention and may state that these weaknesses do not affect the report on the financial statements. The last sentence of this paragraph of the report should be modified as follows:

> However, we identified the following deficiencies in [internal control or control activities for safeguarding securities] that we consider to be material weaknesses, as defined above. These conditions were considered in determining the nature, timing, and extent of the procedures performed in our audit of the [consolidated] financial statements of Standard Stockbrokerage Co., Inc. [*and Subsidiaries*] as of and for the year ended December 31, 20X7, and this report does not affect our report thereon dated February 15, 20X8.[*A description of the material weaknesses that have come to the auditor's attention and corrective action*.]

Company's practices and procedures, as described in the second and third paragraphs of this report, were adequate at December 31, 20X6, to meet the SEC's and CFTC's objectives.[20]

This report is intended solely for the information and use of the Board of Directors, management, the SEC, the CFTC, [*Designated Self-Regulatory Organization*] and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and/or Regulation 1.16 of the CFTC in their regulation of registered broker-dealers and futures commission merchants, and is not intended to be and should not be used by anyone other than these specified parties.

[*The next page is 9521.*]

[20] Whenever inadequacies are described, the last sentence of this paragraph should be modified as per footnote 1 in this illustration. The report should also describe material inadequacies that the auditor becomes aware of that existed during the period but were corrected prior to the end of the period, unless management already has reported them to the SEC and the CFTC.

AAM Section 9260
Special Reports

.010 Cash Basis Statements

Independent Auditor's Report

Addressee:

We have audited the accompanying statements of assets and liabilities arising from cash transactions of XYZ Company as of December 31, 20X2 and 20X1, and the related statements of revenue collected and expenses paid for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note X, these financial statements were prepared on the basis of cash receipts and disbursements, which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets and liabilities arising from cash transactions of XYZ Company as of December 31, 20X2 and 20X1, and its revenue collected and expenses paid during the years then ended, on the basis of accounting described in Note X.

.020 Income Tax Basis Statements

Independent Auditor's Report

Addressee:

We have audited the accompanying statements of assets, liabilities, and capital—income tax basis of ABC Partnership as of December 31, 20X2 and 20X1, and the related statements of revenue and expenses—income tax basis and of changes in partners' capital accounts—income tax basis for the years then ended. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note X, these financial statements were prepared on the basis of accounting the Partnership uses for income tax purposes, which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities, and capital of ABC Partnership as of December 31, 20X2 and 20X1, and its revenue and expenses and changes in partners' capital accounts for the years then ended, on the basis of accounting described in Note X.

.030 Regulatory (Statutory) Basis Statements

Independent Auditor's Report

Addressee:

We have audited the accompanying statements of admitted assets, liabilities and surplus—statutory basis of XYZ Insurance Company as of December 31, 20X2 and 20X1, and the related statements of income and cash flows—statutory basis and changes in surplus-statutory basis for the years then ended. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note X, these financial statements were prepared in conformity with the accounting practices prescribed or permitted by the Insurance Department of [*State*], which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the admitted assets, liabilities and surplus of XYZ Insurance Company as of December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended, on the basis of accounting described in Note X.

This report is intended solely for the information and use of the board of directors and management of XYZ Insurance Company and [*name of regulatory agency*] and is not intended to be and should not be used by anyone other than these specified parties.

.040 Report Relating to Amount of Sales for the Purpose of Computing Rental

(Report on one or more specified elements, accounts, or items of a financial statement)

Independent Auditor's Report

Addressee:

We have audited the accompanying schedule of gross sales (as defined in the lease agreement dated March 4, 20XX, between ABC Company, as lessor, and XYZ Stores Corporation, as lessee) of XYZ Stores Corporation at its Main Street store, [*City*], [*State*], for the year ended December 31, 20X2. This schedule is the responsibility of XYZ Stores Corporation's management. Our responsibility is to express an opinion on this schedule based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of gross sales is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the schedule of gross sales. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall schedule presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the schedule of gross sales referred to above present fairly, in all material respects, the gross sales of XYZ Stores Corporation at its Main Street store, [*City*], [*State*], for the year ended December 31, 20X2, as defined in the lease agreement referred to in the first paragraph.

This report is intended solely for the information and use of the boards of directors and managements of XYZ Stores Corporation and ABC Company and is not intended to be and should not be used by anyone other than these specified parties.

[Source: AU section 623.18]

.050 Royalties

(Report on one or more specified elements, accounts, or items of a financial statement)

Independent Auditor's Report

Addressee:

We have audited the accompanying schedule of royalties applicable to engine production of the Q Division of XYZ Corporation for the year ended December 31, 20X2, under the terms of a license agreement dated May 14, 20XX, between ABC Company and XYZ Corporation. This schedule is the responsibility of XYZ Corporation's management. Our responsibility is to express an opinion on this schedule based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of royalties is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the schedule. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall schedule presentation. We believe that our audit provides a reasonable basis for our opinion.

We have been informed that, under XYZ Corporation's interpretation of the agreement referred to in the first paragraph, royalties were based on the number of engines produced after giving effect to a reduction for production retirements that were scrapped, but without a reduction for field returns that were scrapped, even though the field returns were replaced with new engines without charge to customers.

In our opinion, the schedule of royalties referred to above presents fairly, in all material respects, the number of engines produced by the Q Division of XYZ Corporation during the year ended December 31, 20X2, and the amount of royalties applicable thereto, under the license agreement referred to above.

This report is intended solely for the information and use of the boards of directors and managements of XYZ Corporation and ABC Company and is not intended to be and should not be used by anyone other than these specified parties.

.060 Profit Participation

(Report on one or more specified elements, accounts, or items of a financial statement)

Independent Auditor's Report

Addressee:

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company for the year ended December 31, 20X1, and have issued our report thereon dated March 10, 20X2. We have also audited XYZ Company's schedule of John Smith's profit participation for the year ended December 31, 20X1. This schedule is the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit of the schedule in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of profit participation is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the schedule. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall schedule presentation. We believe that our audit provides a reasonable basis for our opinion.

We have been informed that the documents that govern the determination of John Smith's profit participation are *(a)* the employment agreement between John Smith and XYZ Company dated February 1, 20X0, *(b)* the production and distribution agreement between XYZ Company and Television Network Incorporated dated March 1, 20X0, and *(c)* the studio facilities agreement between XYZ Company and QRX Studios dated April 1, 20X0, as amended November 1, 20X0.

In our opinion, the schedule of profit participation referred to above presents fairly, in all material respects, John Smith's participation in the profits of XYZ Company for the year ended December 31, 20X1, in accordance with the provisions of the agreements referred to above.

This report is intended solely for the information and use of the boards of directors and managements of XYZ Company and John Smith and is not intended to be and should not be used by anyone other than these specified parties.

.070 Report on Federal and State Income Taxes in Financial Statements

(Report on one or more specified elements, accounts, or items of a financial statement)

Independent Auditor's Report

Addressee:

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, Inc., for the year ended June 30, 20XX, and have issued our report thereon dated August 15, 20XX. We have also audited the current and deferred provision for the Company's federal and state income taxes for the year ended June 30, 20XX, included in those financial statements, and the related asset and liability tax accounts as of June 30, 20XX. This income tax information is the responsibility of the Company's management. Our responsibility is to express an opinion on it based on our audit.

We conducted our audit of the income tax information in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the federal and state income tax accounts are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures related to the federal and state income tax accounts. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the federal and state income tax accounts. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the Company has paid or, in all material respects, made adequate provision in the financial statements referred to above for the payment of all federal and state income taxes and for related deferred income taxes that could be reasonably estimated at the time of our audit of the financial statements of XYZ Company, Inc., for the year ended June 30, 20XX.

.080 Proposed Acquisition

Independent Accountant's Report on Applying Agreed-Upon Procedures

To the Board of Directors and Management of X Company:

We have performed the procedures enumerated below, which were agreed to by the Board of Directors and Management of X Company, solely to assist you in connection with the proposed acquisition of Y Company as of December 31, 20XX. Y Company is responsible for its cash and accounts receivable records. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and the associated findings are as follows:

Cash

1. We obtained confirmation of the cash on deposit from the following banks, and we agreed the confirmed balance to the amount shown on the bank reconciliations maintained by Y Company. We mathematically checked the bank reconciliations and compared the resultant cash balances per book to the respective general ledger account balances.

Bank	*General Ledger Account Balances as of December 31, 20XX*
ABC National Bank	$ 5,000
DEF State Bank	13,776
XYZ Trust Company—regular account	86,912
XYZ Trust Company—payroll account	5,000
	$110,688

We found no exceptions as a result of the procedures.

Accounts Receivable

2. We added the individual customer account balances shown in an aged trial balance of accounts receivable (identified as exhibit A) and compared the resultant total with the balance in the general ledger account.

   We found no difference.

3. We compared the individual customer account balances shown in the aged trial balance of accounts receivable (exhibit A) as of December 31, 20XX, to the balances shown in the accounts receivable subsidiary ledger.

   We found no exceptions as a result of the comparisons.

4. We traced the aging (according to invoice dates) for 50 customer account balances shown in exhibit A to the details of outstanding invoices in the accounts receivable subsidiary ledger. The balances selected for tracing were determined by starting at the eighth item and selecting every fifteenth item thereafter.

   We found no exceptions in the aging of the amounts of the 50 customer account balances selected. The sample size traced was 9.8 percent of the aggregate amount of the customer account balances.

5. We mailed confirmations directly to the customers representing the 150 largest customer account balances selected from the accounts receivable trial balance, and we received responses as indicated below. We also traced the items constituting the outstanding customer account balance to invoices and supporting shipping documents for customers from which there was no reply. As agreed, any individual differences in a customer account balance of less than $300 were to be considered minor, and no further procedures were performed.

   Of the 150 customer balances confirmed, we received responses from 140 customers; 10 customers did not reply. No exceptions were identified in 120 of the confirmations received. The differences disclosed in the remaining 20 confirmation replies were either minor in amount (as defined above) or were reconciled to the customer account balance without proposed adjustment thereto. A summary of the confirmation results according to the respective aging categories is as follows:

	Accounts Receivable December 31, 20XX		
Aging Categories	*Customer Account Balances*	*Confirmations Requested*	*Confirmation Replies Received*
Current	$156,000	$ 76,000	$ 65,000
Past due:			
Less than one month	60,000	30,000	19,000
One to three months	36,000	18,000	10,000
Over three months	48,000	48,000	8,000
	$300,000	$172,000	$102,000

We were not engaged to, and did not conduct an audit, the objective of which would be the expression of an opinion on cash and accounts receivable. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the board of directors and management of X Company and is not intended to be and should not be used by anyone other than these specified parties.

.090 Claims of Creditors

Independent Accountant's Report
on Applying Agreed-Upon Procedures

To the Trustee of XYZ Company:

We have performed the procedures described below, which were agreed to by the Trustee of XYZ Company, with respect to the claims of creditors solely to assist you in determining the validity of claims of XYZ Company as of May 31, 20XX, as set forth in accompanying Schedule A. XYZ Company is responsible for maintaining records of claims submitted by creditors of XYZ Company. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the party specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

1. Compare the total of the trial balance of accounts payable at May 31, 20XX, prepared by XYZ Company, to the balance in the related general ledger account.

   The total of the accounts payable trial balance agreed with the balance in the related general ledger account.

2. Compare the amounts for claims received from creditors (as shown in claim documents provided by XYZ Company) to the respective amounts shown in the trial balance of accounts payable. Using the data included in the claims documents and in XYZ Company's accounts payable detail records, reconcile any differences found to the accounts payable trial balance.

   All differences noted are presented in column 3 of Schedule A. Except for those amounts shown in column 4 of Schedule A, all such differences were reconciled.

3. Obtain the documentation submitted by creditors in support of the amounts claimed and compare it to the following documentation in XYZ Company's files: invoices, receiving reports, and other evidence of receipt of goods or services.

   No exceptions were found as a result of these comparisons.

   We were not engaged to, and did not, conduct an audit, the objective of which would be the expression of an opinion on the claims of creditors set forth in the accompanying Schedule A. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

   This report is intended solely for the information and use of the Trustee of XYZ Company and is not intended to be and should not be used by anyone other than this specified party.

.100 Reporting on the Subject Matter

Independent Accountants Report
on Attest Engagements on Financial Information[1]
Included in XBRL Instance Documents

We have examined the accompanying XBRL Instance Document of XYZ Company, which reflects the data presented in the financial statements of XYZ Company as of December 31, 20XX, and for the year then ended [*optional to include the location of the financial statements, such as included in the Company's Form 10-K for the year ended December 31, 20XX*]. XYZ Company's management is responsible for the XBRL Instance Document. Our responsibility is to express an opinion based on our examination.

We have also audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20XX, and for the year then ended, and in our report dated [*Month*] XX, 20XX, we expressed an unqualified opinion on those financial statements.[2, 3]

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting the XBRL Instance Document and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, the XBRL Instance Document of XYZ Company referred to above accurately reflects, in all material respects, the data presented in the financial statements in conformity with [*identify the criteria—for example, specific XBRL taxonomy, such as the XBRL U.S. Consumer and Industrial Taxonomy, and where applicable, the company extension taxonomy, such as XYZ Company's extension taxonomy, and the XBRL International Technical Specifications 2.0*].

[*Signature*]

[*Date*]

[Interpretation No. 5, "Attest Engagements on Financial Information Included in XBRL Instance Documents" of AT section 101, *Attest Engagements* (AICPA, *Professional Standards*, vol. 1, AT sec. 9101.47–.55).]

---

[1] Financial information includes data presented in audited or reviewed financial statements or other financial information (for example, Management Discussion and Analysis).

[2] If the financial statements have been reviewed, the sentence would read: We have also reviewed, in accordance with [*standards established by the American Institute of Certified Public Accountants*] [*Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants*], the financial statements of XYZ Company as of March 31, 20XX, and for the three months then ended, the objective of which was the expression of limited assurance on such financial statements, and issued our report thereon dated [*Month*] XX, 20XX, [*describe any modifications of such report*].

If the financial information has not been audited or reviewed, no reference to a report is required. The sentence would read: We were not engaged to and did not conduct an audit or review of the [*identify information*], the objectives of which would have been the expression of an opinion or limited assurance on such [*identify information*]. Accordingly, we do not express an opinion or any other assurance on [*it*] [*them*].

[3] If the audit opinion on the related financial statements is other than unqualified, the practitioner should disclose that fact, and any substantive reasons therefore.

.110 Reporting on Management's Assertions

Independent Accountants Report
on Attest Engagements on Financial Information[4]
Included in XBRL Instance Documents

We have examined managements assertion that [*identify the assertion—for example, the accompanying XBRL Instance Document accurately reflects the data presented in the financial statements of XYZ Company as of December 31, 20XX, and for the year then ended in conformity with (identify the criteria for example, specific XBRL taxonomy, such as the XBRL U.S. Consumer and Industrial Taxonomy, and where applicable, the company extension taxonomy, such as XYZ Company's extension taxonomy, and the XBRL International Technical Specifications 2.0)*]. XYZ Company's management is responsible for the assertion. Our responsibility is to express an opinion on the assertion based on our examination.

We have also audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20XX, and for the year then ended, and in our report dated [*Month*] XX, 20XX, we expressed an unqualified opinion on those financial statements.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting the XBRL Instance Document and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, managements assertion referred to above is fairly stated, in all material respects, in conformity with [*identify the criteria for example, specific XBRL taxonomy, such as the XBRL U.S. Consumer and Industrial Taxonomy, and where applicable, the company extension taxonomy, such as XYZ Company's extension taxonomy, and the XBRL International Technical Specifications 2.0*].

[4] Financial information includes data presented in audited or reviewed financial statements or other financial information (for example, Management Discussion and Analysis).

.120 Compliance With Contractual Provisions (Separate Report)

We have audited, in accordance with auditing standards generally accepted in the United States of America, the balance sheet of XYZ Company as of December 31, 20X2, and the related statement of income, retained earnings, and cash flows for the year then ended, and have issued our report thereon dated February 16, 20X3.

In connection with our audit, nothing came to our attention that caused us to believe that the Company failed to comply with the terms, covenants, provisions, or conditions of sections XX to XX, inclusive, of the Indenture dated July 21, 20X0, with ABC Bank insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance.

This report is intended solely for the information and use of the boards of directors and management of XYZ Company and ABC Bank and is not intended to be and should not be used by anyone other than these specified parties.

[Source: AU section 623.21]

Note: When this report is included in the auditor's standard report accompanying financial statements, the last two paragraphs are examples of the paragraphs that should follow the opinion paragraph of the auditor's report on the financial statements.

.130 Report on Financial Statements Prepared Pursuant to Loan Agreements That Results in a Presentation Not in Conformity With Generally Accepted Accounting Principles or an Other Comprehensive Basis of Accounting

Independent Auditor's Report

Addressee:

We have audited the accompanying special-purpose statement of assets and liabilities of ABC Company as of December 31, 20X1, and the related special-purpose statements of revenues and expenses and of cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of complying with section 4 of a loan agreement between DEF Bank and the Company as described in Note X, and are not intended to be a presentation in conformity with generally accepted accounting principles.

In our opinion, the special-purpose financial statements referred to above present fairly, in all material respects, the assets and liabilities of ABC Company as of December 31, 20X1, and the revenues, expenses and cash flows for the year then ended, on the basis of accounting described in Note X.

This report is intended solely for the information and use of the boards of directors and managements of ABC Company and DEF Bank and is not intended to be and should not be used by anyone other than these specified parties.

.140 Report on a Schedule of Gross Income and Certain Expenses to Meet Regulatory Requirements and to be Included in a Document Distributed to the General Public

Independent Auditor's Report

Addressee:

We have audited the accompanying Historical Summaries of Gross Income and Direct Operating Expenses of ABC Apartments, City, State (Historical Summaries), for each of the three years in the period ended December 31, 20XX. These Historical Summaries are the responsibility of the Apartments' management. Our responsibility is to express an opinion on the Historical Summaries based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Historical Summaries are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the Historical Summaries. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Historical Summaries. We believe that our audits provide a reasonable basis for our opinion.

The accompanying Historical Summaries were prepared for the purpose of complying with the rules and regulations of the Securities and Exchange Commission (for inclusion in the registration statement on Form S-11 of DEF Company) as described in Note X, and are not intended to be a complete presentation of the Apartments' revenues and expenses.

In our opinion, the Historical Summaries referred to above present fairly, in all material respects, the gross income and direct operating expenses described in Note X of ABC Apartments for each of the three years in the period ended December 31, 20XX, in conformity with accounting principles generally accepted in the United States of America.

.150 Report on a Statement of Assets Sold and Liabilities Transferred to Comply With a Contractual Agreement

Independent Auditor's Report

Addressee:

We have audited the accompanying statement of net assets sold of ABC Company as of June 8, 20XX. This statement of net assets sold is the responsibility of ABC Company's management. Our responsibility is to express an opinion on the statement of net assets based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of net assets sold is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the statement of net assets sold. We believe that our audit provides a reasonable basis for our opinion.

The accompanying statement was prepared to present the net assets of ABC Company sold to XYZ Corporation pursuant to the purchase agreement described in Note X, and is not intended to be a complete presentation of ABC Company's assets and liabilities.

In our opinion, the accompanying statement of net assets sold presents fairly, in all material respects, the net assets of ABC Company as of June 8, 20XX, sold pursuant to the purchase agreement referred to in Note X, in conformity with accounting principles generally accepted in the United States of America.

This report is intended solely for the information and use of the boards of directors and managements of ABC Company and XYZ Corporation and is not intended to be and should not be used by anyone other than these specified parties.

.160 Report on the Application of Accounting Principles

Introduction

We have been engaged to report on the appropriate application of accounting principles generally accepted in the United States of America to the specific transaction described below. This report is being issued to ABC Company for assistance in evaluating accounting principles for the described specific transaction. Our engagement has been conducted in accordance with standards established by the American Institute of Certified Public Accountants.

Description of Transaction

The facts, circumstances, and assumptions relevant to the specific transaction as provided to us by the management of ABC Company are as follows:

[*Describe transaction*]

Appropriate Accounting Principles

[*Text discussing generally accepted accounting principles*]

Concluding Comments

The ultimate responsibility for the decision on the appropriate application of accounting principles generally accepted in the United States of America for an actual transaction rests with the preparers of financial statements, who should consult with their continuing accountants. Our judgment on the appropriate application of accounting principles generally accepted in the United States of America for the described specific transaction is based solely on the facts provided to us as described above; should these facts and circumstances differ, our conclusion may change.

Restricted Use

This report is intended solely for the information and use of the board of directors and management of ABC Company and is not intended to be and should not be used by anyone other than these specified parties.

[Source: AU section 625.11, *Reports on the Application of Accounting Principles* (AICPA, *Professional Standards*, vol. 1)]

Notes: This illustrative report is intended for a reporting accountant either in connection with a proposal to obtain a new client or otherwise, should apply when preparing a written report on (1) The application of accounting principles to specified transactions, either completed or proposed, involving facts and circumstances of a specific entity ("specific transactions"), or (2) The type of opinion that may be rendered on a specific entity's financial statements.

[Source: AU section 625.03]

Because of the nature of a transaction not involving facts or circumstances of a specific entity ("hypothetical transaction"), a reporting accountant cannot know, for example, whether the continuing accountant has reached a different conclusion on the application of accounting principles for the same or similar transaction, or how the specific entity has accounted for similar transactions in the past. Therefore an accountant should not undertake an engagement to provide a written report on the application of accounting principles to a hypothetical transaction.

[Source: AU section 625.04]

.170 Report on Financial Statements Presented in Conformity With a Prescribed Basis of Accounting (Property and Liability Insurance Company)

Independent Auditor's Report

To the Board of Directors

ABC Insurance Company

We have audited the accompanying statutory statements of admitted assets, liabilities, and surplus of ABC Insurance Company as of December 31, 20X2 and 20X1, and the related statutory statements of income and changes in surplus, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America.[5] Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described more fully in Note X to the financial statements, the Company prepared these financial statements using accounting practices prescribed or permitted by the Insurance Department of the State of [*state of domicile*], which practices differ from generally accepted accounting principles. The effects on the financial statements of the variances between statutory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted

---

[5] For audits conducted in accordance with PCAOB standards, PCAOB Auditing Standard No. 1, References in Auditors' Reports to the Standards of the Public Company Accounting Oversight Board, replaces this sentence with the following sentence: "We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States)." On May 14, 2004, the SEC issued an interpretive release to help with the implementation of PCAOB Auditing Standard No. 1. See Release No. 33-8422 for more information. The release specifies that effective May 24, 2004, references in SEC rules and staff guidance and in federal securities laws to GAAS or to specific standards under GAAS, as they relate to issuers, should be understood to mean the standards of the PCAOB, plus any applicable rules of the SEC. The staff of the PCAOB published a series of questions and answers ("Qs&As") on PCAOB Auditing Standard No. 1. See the PCAOB Web site at www.pcaobus.org for more information.

In June 2004, the Auditing Standards Board ("ASB") issued Interpretation No. 18 of AU section 508, titled, "Reference to PCAOB Standards in an Audit Report of a Nonissuer" (AICPA, *Professional Standards*, vol. 1, AU sec. 9508.89–.92), which provides reporting guidance for audits of nonissuers. Interpretation No. 18 provides guidance on the appropriate referencing of PCAOB auditing standards in audit reports when an auditor is engaged to perform the audit in accordance with both GAAS and PCAOB auditing standards. The ASB also has undertaken a project to determine what amendments, if any, should be made to AU section 508, *Reports on Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1). AU section 508 can be found in AICPA *Professional Standards* and *PCAOB Standards and Related Rules*. See the AICPA Web site at www.aicpa.org/members/div/auditstd/index.htm for more information.

This optional wording may be added in accordance with Interpretation No. 17 of AU section 508, titled "Clarification in the Audit Report of the Extent of Testing of Internal Control Over Financial Reporting in Accordance With Generally Accepted Auditing Standards" (AICPA, *Professional Standards*, vol. 1, AU sec. 9508.85–.88), which was issued by the ASB in June 2004 and provides reporting guidance for audits of nonissuers. Auditing Interpretation No. 17 addresses how auditors may expand their independent audit report to explain that their consideration of internal control was sufficient to provide the auditor sufficient understanding to plan the audit and determine the nature, timing and extent of tests to be performed, but was not sufficient to express an opinion on the effectiveness of the internal control. If this optional language is added, then the remainder of the paragraph should read as follows:

> "An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion."

in the United States of America, the financial position of ABC Insurance Company as of December 31, 20X2 and 20X1, or the results of its operations or its cash flows[6] for the years then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the admitted assets, liabilities, and surplus of ABC Insurance Company as of December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended, on the basis of accounting described in Note X.

[*The next page is 9571*.]

[6] Reference to cash flows would not be needed if the entity, under generally accepted accounting principles, is not required to present a statement of cash flows.

AAM Section 9270

Unaudited Financial Statements of a Public Entity

(When an accountant is associated with the financial statements but has not audited or reviewed such statements)

.01 Disclaimer

Addressee:

The accompanying balance sheet of X Company as of December 31, 20X1, and the related statements of income, retained earnings, and cash flows for the year then ended were not audited by us, and, accordingly, we do not express an opinion on them.

[*Signature*]

[*Date*]

[Source: AU section 504.05, *Association With Financial Statements* (AICPA, *Professional Standards*, vol. 1)]

Notes: The disclaimer may accompany the unaudited financial statements or it may be placed directly on them. In addition, each page of the financial statements should be clearly and conspicuously marked as unaudited.

If the unaudited financial statements are those of a privately held (nonpublic) company, this example is not appropriate. See AAM sections 2610 and 2620.

.02 Current Period Financial Statements Unaudited—Prior Period Financial Statements Audited

Addressee:

The accompanying balance sheet of ABC Company as of December 31, 20X2, and the related statements of income, retained earnings, and cash flows for the year then ended were not audited by us and, accordingly, we do not express an opinion on them.

The financial statements for the year ended December 31, 20X1, were audited by us (other accountants) and we (they) expressed an unqualified opinion on them in our (their) report dated March 1, 20X2, but we (they) have not performed any auditing procedures since that date.

[*Signature*]

[*Date*]

[Source: AU section 504.05 and .16]

Notes: The disclaimer may accompany the unaudited financial statements or it may be placed directly on them. In addition, each page of the financial statements should be clearly and conspicuously marked as unaudited.

If the unaudited financial statements are those of a privately held (nonpublic) company, this example is not appropriate. See AAM sections 2610 and 2620.

.03 Disclaimer—Cash Basis Statements

(When an accountant is associated with unaudited financial statements of a public entity prepared in accordance with a comprehensive basis of accounting other than generally accepted accounting principles)

Addressee:

The accompanying statement of assets and liabilities resulting from cash transactions of XYZ Corporation as of December 31, 20X1, and the related statement of revenues collected and expenses paid during the year then ended were not audited by us and, accordingly, we do not express an opinion on them.

[*Signature*]

[*Date*]

[Source: AU section 504.07]

Notes: A note to the financial statements should describe how the basis of presentation differs from generally accepted accounting principles, but the monetary effect of such differences need not be stated.

The disclaimer may accompany the unaudited financial statements or it may be placed directly on them. In addition, each page of the financial statements should be clearly and conspicuously marked as unaudited.

If the unaudited financial statements are those of a privately held (nonpublic) company, this example is not appropriate. See AAM sections 2610 and 2620.

.04 Disclaimer—Regulatory (Statutory) Basis Statements

(When an accountant is associated with unaudited financial statements of a public entity prepared in accordance with a comprehensive basis of accounting other than generally accepted accounting principles)

Addressee:

The accompanying statement of admitted assets, liabilities, and surplus—statutory basis of XYZ Insurance Company as of December 31, 20XX, and the related statements of income—statutory basis, cash flows—statutory basis, and changes in surplus—statutory basis for the year then ended were not audited by us and, accordingly, we do not express an opinion on them.

[*Signature*]

[*Date*]

[Source: AU section 504.07]

Notes: A note to the financial statements should describe how the basis of presentation differs from generally accepted accounting principles, but the monetary effect of such differences need not be stated.

The disclaimer may accompany the unaudited financial statements or it may be placed directly on them. In addition, each page of the financial statements should be clearly and conspicuously marked as unaudited.

If the unaudited financial statements are those of a privately held (nonpublic) company, this example is not appropriate. See AAM sections 2610 and 2620.

[*The next page is 9621.*]

AAM Section 9280
Lack of Independence

.01 Disclaimer

Addressee:

We are not independent with respect to XYZ Company, and the accompanying balance sheet as of December 31, 20X1 and the related statements of income, retained earnings, and cash flows for the year then ended were not audited by us and, accordingly, we do not express an opinion on them.

[*Signature*]

[*Date*]

[Source: AU section 504.10, *Association With Financial Statements* (AICPA, *Professional Standards*, vol. 1)]

Notes: When an accountant is not independent, any procedures he or she might perform would not be in accordance with generally accepted auditing standards and he or she would be precluded from expressing an opinion on the financial statements. Accordingly, he or she should disclaim an opinion with respect to the financial statements and state specifically that he or she is not independent. The accountant should not include in his or her disclaimer the reasons for the lack of independence or any description of the procedures he or she has performed; including such matters might confuse readers concerning the importance of the lack of independence.

If the financial statements are those of a nonpublic entity, the guidance in Statements on Standards for Accounting and Review Services (SSARS) should be followed. (See AAM section 2610.03.)

[*The next page is 9671.*]

AAM Section 9300
Review of Interim Financial Information

.01 Independent Accountant's Report

Independent Accountant's Report

Addressee:

We have reviewed the accompanying [*describe the interim financial information or statements reviewed*] of ABC Company and consolidated subsidiaries as of September 30, 20X1, and for the three-month and nine-month periods then ended. This (these) interim financial information (statements) is (are) the responsibility of the company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial information (statements) for it (them) to be in conformity with accounting principles generally accepted in the United States of America.

[*Signature*]

[*Date*]

[Source: AU section 722.38, *Interim Financial Information* (AICPA, *Professional Standards*, vol. 1)]

Note: AU section 722, provides guidance on the nature, timing, and extent of the procedures to be performed by an independent accountant when conducting a review of interim financial information, as that term is defined in AU section 722.02.

[*The next page is 9701.*]

AAM Section 9400

Accountants' Reports on Condensed Financial Statements and Selected Financial Data

.01 Unqualified Opinion on Condensed Financial Statements

Independent Auditor's Report

Addressee:

We have audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet of X Company and subsidiaries as of December 31, 20X0, and the related consolidated statements of income, retained earnings, and cash flows for the year then ended (not presented herein); and in our report dated February 15, 20X1, we expressed an unqualified opinion on those consolidated financial statements.

In our opinion, the information set forth in the accompanying condensed consolidated financial statements is fairly stated, in all material respects, in relation to the consolidated financial statements from which it has been derived.

[*Signature*]

[*Date*]

[Source: AU section 552.06, *Reporting on Condensed Financial Statements and Selected Financial Data* (AICPA, *Professional Standards*, vol. 1)]

.02 Adverse Opinion on Condensed Financial Statements Due to Inadequate Disclosure

Independent Auditor's Report

Addressee:

We have audited the consolidated balance sheet of X Company and subsidiaries as of December 31, 20X0, and the related earnings and cash flows for the year then ended (not presented herein). These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The condensed consolidated balance sheet as of December 31, 20X0, and the related condensed consolidated statements of income, retained earnings, and cash flows for the year then ended, presented on pages XX-XX, are presented as a summary and therefore do not include all of the disclosures required by accounting principles generally accepted in the United States of America.

In our opinion, because of the significance of the omission of the information referred to in the preceding paragraph, the condensed consolidated financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of X Company and subsidiaries as of December 31, 20X0, or results of their operations and their cash flows for the year then ended.

[*Signature*]

[*Date*]

[Source: AU section 552.07]

.03 Review Report on Condensed Financial Statements

Independent Auditor's Report

Addressee:

We have reviewed the condensed consolidated balance sheet of ABC Company and subsidiaries as of March 31, 20X1, and the related condensed consolidated statements of income and cash flows for the three-month periods ended March 31, 20X1 and 20X0. These financial statements are the responsibility of the company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet of ABC Company and subsidiaries as of December 31, 20X0, and the related consolidated statements of income, retained earnings, and cash flows for the year then ended (not presented herein); and in our report dated February 15, 20X1, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 20X0, is fairly stated in all material respects, in relation to the consolidated balance sheet from which it has been derived.

[*Signature*]

[*Date*]

[Source: AU section 722.39, *Interim Financial Information* (AICPA, *Professional Standards*, vol. 1)]

Note: This is an illustrative review report on a condensed balance sheet as of March 31, 20X1, and the related condensed statements of income and cash flows for the three-month periods ended March 31, 20X1 and 20X0, and a condensed balance sheet derived from audited financial statements as of December 31, 20X0, included in Form 10-Q.

.02 Audit Report—Statement of Financial Condition Only

Independent Auditor's Report

Addressee:

I (We) have audited the statement of financial condition of James and Jane Person as of [*date*]. This financial statement is the responsibility of James and Jane Person. My (our) responsibility is to express an opinion on this financial statement based on my (our) audit.

I (We) conducted my (our) audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I (we) plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting amounts and disclosures in the statements of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by James and Jane Person, as well as evaluating the overall presentation of the statement of financial condition. I (We) believe that my (our) audit provides a reasonable basis for my (our) opinion.

In my (our) opinion, the financial statement referred to above presents fairly, in all material respects, the financial condition of James and Jane Person as of [*date*] in conformity with accounting principles generally accepted in the United States of America.

[*Signature*]

[*Date*]

[Source: AICPA *Personal Financial Statements Guide*, updated as of May 1, 2007, paragraph 5.21]

.03 Audit Report—Departure From GAAP—Inappropriate Valuation Methods—Adverse Opinion

Independent Auditor's Report

Addressee:

I (We) have audited the accompanying statement of financial condition of James and Jane Person as of [*date*], and the related statement of changes in net worth for the [*period*] then ended. These financial statements are the responsibility of James and Jane Person. My (our) responsibility is to express an opinion on these financial statements based on my (our) audit.

I (We) conducted my (our) audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I (we) plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by James and Jane Person, as well as evaluating the overall financial statement presentation. I (We) believe that my (our) audit provides a reasonable basis for my (our) opinion.

As discussed in Note X to the financial statements, assets amounting to $XX,XXX (XX percent of total assets) as of [*date*] have been valued at estimated current value as determined by James Person. I (We) have reviewed the procedures applied by James Person in valuing the assets and have inspected the underlying documentation. In my (our) opinion those procedures are not appropriate to determine the estimated current values of the assets in conformity with generally accepted accounting principles. The effects on the financial statements of not applying appropriate procedures to determine the estimated current values of the assets are not reasonably determinable.

In my (our) opinion, because of the effects of the matters discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial condition of James and Jane Person as of [*date*] and the changes in their net worth for the [*period*] then ended.

[*Signature*]

[*Date*]

.04 Audit Report—Departure From GAAP—Inappropriate Valuation Methods—Qualified Opinion

Independent Auditor's Report

Addressee:

I (We) have audited the accompanying statement of financial condition of James and Jane Person as of [*date*], and the related statement of changes in net worth for the [*period*] then ended. These financial statements are the responsibility of James and Jane Person. My (our) responsibility is to express an opinion on these financial statements based on my (our) audit.

I (We) conducted my (our) audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I (we) plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by James and Jane Person, as well as evaluating the overall financial statement presentation. I (We) believe that my (our) audit provides a reasonable basis for my (our) opinion.

As discussed in Note X to the financial statements, assets amounting to $XX,XXX (XX percent of total assets) as of [*date*] have been valued at estimated current value as determined by James Person. I (We) have reviewed the procedures applied by James Person in valuing the assets and have inspected the underlying documentation. In my (our) opinion, those procedures are not appropriate to determine the estimated current values of the assets in conformity with generally accepted accounting principles. The effects on the financial statements of not applying appropriate procedures to determine the estimated current values of the assets are not reasonably determinable.

In my (our) opinion, except for the effects of the valuation of assets determined by James Person as described in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the financial condition of James and Jane Person as of [*date*], and the changes in their net worth for the [*period*] then ended in conformity with accounting principles generally accepted in the United States of America.

[*Signature*]

[*Date*]

[Source: AICPA *Personal Financial Statements Guide*, updated as of May 1, 2007, paragraph 5.18]

.05 Audit Report—Disclaim Opinion Because of Scope Limitation—Inadequate Records

Independent Auditor's Report

Addressee:

I (We) was engaged to audit the accompanying statement of financial condition of James and Jane Person as of [*date*], and the related statement of changes in net worth for the [*period*] then ended. These financial statements are the responsibility of James and Jane Person.

James and Jane Person do not maintain accounting records sufficient to assure that all transactions are recorded. Accordingly, it was not practicable for me (us) to extend my (our) auditing procedures sufficiently to determine that all of their assets and liabilities and the changes in their net worth are recorded in the financial statements referred to above.

Since James and Jane Person do not maintain certain accounting records and supporting documentation, and I was (we were) unable to apply adequate auditing procedures regarding the recording of transactions, the scope of my (our) work was not sufficient to enable me (us) to express, and I (we) do not express, an opinion on these financial statements.

.06 Audit Report—Scope Limitation—Inadequate Records

Independent Auditor's Report

Addressee:

I (We) have audited the accompanying statement of financial condition of James and Jane Person as of [*date*], and the related statement of changes in net worth for the [*period*] then ended. These financial statements are the responsibility of James and Jane Person. My (our) responsibility is to express an opinion on these financial statements based on my (our) audit.

Except as explained in the following paragraph, I (we) conducted my (our) audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I (we) plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by James and Jane Person, as well as evaluating the overall financial statement presentation. I (We) believe that my (our) audit provides a reasonable basis for my (our) opinion.

James and Jane Person do not maintain accounting records sufficient to assure that all transactions are recorded. Accordingly, it was not practicable for me (us) to extend my (our) auditing procedures sufficiently to determine that all of their assets and liabilities and the changes in their net worth are recorded in the financial statements referred to above.

In my (our) opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had I (we) been able to determine that all assets and liabilities and changes in net worth were recorded in the financial statements, the financial statements referred to in the first paragraph above present fairly, in all material respects, the financial condition of James and Jane Person as of [*date*], and the changes in their net worth for the [*period*] then ended in conformity with accounting principles generally accepted in the United States of America.

[*Signature*]

.07 Audit Report—Income Tax Basis

Independent Auditor's Report

Addressee:

I (We) have audited the accompanying statement of assets and liabilities—income tax basis of James and Jane Person as of [*date*], and the related statement of changes in net worth—income tax basis for the [*period*] then ended. These financial statements are the responsibility of James and Jane Person. My (Our) responsibility is to express an opinion on these financial statements based on my (our) audit.

I (We) conducted my (our) audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I (we) plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by James and Jane Person, as well as evaluating the overall financial statement presentation. I (We) believe that my (our) audit provides a reasonable basis for my (our) opinion.

As described in Note X, these financial statements were prepared on the basis of accounting James and Jane Person use for income tax purposes, which is a comprehensive basis of accounting other than generally accepted accounting principles.

In my (our) opinion, the financial statements referred to above present fairly, in all material respects, the assets and liabilities of James and Jane Person as of [*date*], and the changes in their net assets for the [*period*] then ended on the basis of accounting described in Note X.

.08 Accountant's Standard Compilation Report

Addressee:

I (We) have compiled the accompanying statement of financial condition of James and Jane Person as of [*date*], and the related statement of changes in net worth for the [*period*] then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of the individuals whose financial statements are presented. I (We) have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

[*Signature*]

[*Date*]

[Source: AICPA *Personal Financial Statements Guide*, updated as of May 1, 2007, paragraph 5.04]

.09 Compilation Report—Statement of Financial Condition Only

Addressee:

I (We) have compiled the accompanying statement of financial condition of James and Jane Person as of [*date*], in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of the individuals whose financial statements are presented. I (We) have not audited or reviewed the accompanying statement of financial condition and, accordingly, do not express an opinion or any other form of assurance on it.

[*Signature*]

[*Date*]

[Source: AICPA *Personal Financial Statements Guide*, updated as of May 1, 2007, paragraph 5.21]

.10 Compilation Report—Omission of Substantially All Disclosures

Addressee:

I (We) have compiled the accompanying statement of financial condition of James and Jane Person as of [*date*], and the related statement of changes in net worth for the [*period*] then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of the individuals whose financial statements are presented. I (We) have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

James and Jane Person have elected to omit substantially all of the disclosures required by generally accepted accounting principles. If the omitted disclosures were included in the financial statements, they might influence the user's conclusions about the financial condition of James and Jane Person and changes in their net worth. Accordingly, these financial statements are not designed for those who are not informed about such matters.

[*Signature*]

[*Date*]

[Source: AICPA *Personal Financial Statements Guide*, updated as of May 1, 2007, paragraph 5.05]

Note: When personal financial statements omit substantially all disclosures and do not disclose that the assets are presented at their estimated current values and that the liabilities are presented at their estimated current amounts, the accountant should include the following sentence at the end of the first paragraph of his or her report:

> The financial statements are intended to present the assets of James and Jane Person at estimated current values and their liabilities at estimated current amounts.

[Source: AICPA *Personal Financial Statements Guide*, updated as of May 1, 2007, paragraph 5.06]

.11 Compilation Report—GAAP Departure—Material Assets at Cost

Addressee:

I (We) have compiled the accompanying statement of financial condition of James and Jane Person as of [*date*], and the related statement of changes in net worth for the [*period*] then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of the individuals whose financial statements are presented. I (We) have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them. However, I (we) did become aware of a departure from generally accepted accounting principles that is described in the following paragraph.

As disclosed in Note X to the financial statements, generally accepted accounting principles require that assets be presented at their estimated current values and that liabilities be presented at their estimated current amounts. James and Jane Person have informed me (us) that their investment in ABC Company is stated in the accompanying financial statements at cost and that the effects of this departure from generally accepted accounting principles on their financial condition and the changes in their net worth have not been determined.

[*Signature*]

[*Date*]

[Source: AICPA *Personal Financial Statements Guide*, updated as of May 1, 2007, paragraph 5.13]

.12 Compilation Report—Income Tax Basis

Addressee:

I (We) have compiled that accompanying statement of asset and liabilities—income tax basis of James and Jane Person as of [*date*], and the related statement of changes in net assets—income tax basis for the [*period*] then ended, in accordance with Statement on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of the individuals whose financial statements are presented. I (We) have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

[*Signature*]

[*Date*]

[Source: AICPA *Personal Financial Statements Guide*, updated as of May 1, 2007, paragraph 5.20]

Note: When personal financial statements are prepared in accordance with a comprehensive basis of accounting other than generally accepted accounting principles, the notes ordinarily would state the basis of presentation and describe how that basis differs from generally accepted accounting principles. [Source: Accounting and Review Services Interpretation No. 12 of AR section 100, "Reporting on a Comprehensive Basis of Accounting Other Than Generally Accepted Accounting Principles" (AICPA, *Professional Standards*, vol. 2, AR sec. 9100.42)]

.13 Compilation Report—Financial Statements Included in a Prescribed Form

Addressee:

I (We) have compiled the [*identification of financial statements, including period covered and name of individual(s)*] included in the accompanying prescribed form, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

My (Our) compilation was limited to presenting in the form prescribed by [*name of body*] information that is the representation of the individuals whose financial statements are presented. I (We) have not audited or reviewed the financial statements referred to above and, accordingly, do not express an opinion or any other form of assurance on them.

These financial statements (including related disclosures) are presented in accordance with the requirements of [*name of body*], which differ from generally accepted accounting principles. Accordingly, these financial statements are not designed for those who are not informed about such differences.

[*Signature*]

[*Date*]

[Source: AICPA *Personal Financial Statements Guide*, updated as of May 1, 2007, paragraph 5.09]

.14 Accountant's Standard Review Report

Addressee:

I (We) have reviewed the accompanying statement of financial condition of James and Jane Person as of [*date*], and the related statement of changes in net worth for the [*period*] then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of James and Jane Person.

A review of personal financial statements consists principally of inquiries of the individuals whose financial statements are presented and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I (we) do not express such an opinion.

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

[*Signature*]

[*Date*]

[Source: AICPA *Personal Financial Statements Guide*, updated as of May 1, 2007, paragraph 5.11]

.15 Review Report—Statement of Financial Condition Only

Addressee:

I (We) have reviewed the accompanying statement of financial condition of James and Jane Person as of [*date*], in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in this financial statement is the representation of James and Jane Person.

A review of personal financial statements consists principally of inquiries of the individuals whose financial statements are presented and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I (we) do not express such an opinion.

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying statement of financial condition in order for it to be in conformity with generally accepted accounting principles.

.16 Review Report—GAAP Departure—Failure to Include a Provision for Estimated Income Taxes on the Differences Between the Estimated Current Values of Assets and the Estimated Current Amounts of Liabilities and Their Tax Bases

Addressee:

I (We) have reviewed the accompanying statement of financial condition of James Person as of [*date*], and the related statement of changes in net worth for the [*period*] then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of James Person.

A review of personal financial statements consists principally of inquiries of the individual whose financial statements are presented and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I (we) do not express such an opinion.

Based on my (our) review, with the exception of the matter described in the following paragraph, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

Generally accepted accounting principles require that personal financial statements include a provision for estimated income taxes on the differences between the estimated current values of assets and the estimated current amounts of liabilities and their tax bases. The accompanying financial statements do not include such a provision and the effect of this departure from generally accepted accounting principles has not been determined.

[*Signature*]

[*Date*]

[Source: AICPA *Personal Financial Statements Guide*, updated as of May 1, 2007, paragraph 5.13]

.17 Review Report—Historical Cost Basis

Addressee:

I (We) have reviewed the accompanying statement of assets and liabilities—historical cost basis of James and Jane Person as of [*date*], and the related statement of changes in net worth—historical cost basis for the [*period*] then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of James and Jane Person.

A review of personal financial statements consists principally of inquiries of the individuals whose financial statements are presented and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I (we) do not express such an opinion.

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with the historical cost basis of accounting described in Note X.

AAM Section 9600

Reports on Employee Benefit Plans

Practice Tip

Audits of 11-K Filers—Performance and Reporting Requirements

SEC Requirements

The Securities and Exchange Commission (SEC) requires employee stock purchase, savings and similar plans with interests that constitute securities registered under the Securities Act of 1933 to file Form 11-K pursuant to Section 15(d) of the Securities Exchange Act of 1934. Reports on Form 11-K must be filed with the SEC within 90 days after the end of the fiscal year of the plan, provided that plans subject to the Employee Retirement Income Security Act of 1974 (ERISA) file the plan financial statements within 180 days after the plan's fiscal year end.

Applicable Audit Standards

Plans that are required to file Form 11-Ks are deemed to be *issuers* under the Sarbanes-Oxley Act and must submit to the SEC an audit in accordance with the auditing and related professional practice standards promulgated by the Public Company Accounting Oversight Board (PCAOB). The PCAOB adopted as interim standards, on an initial, transitional basis, the AICPA generally accepted auditing standards in existence on April 16, 2003. In September 2004 the PCAOB issued Release 2004-008 that makes conforming amendments to the interim standards resulting from the adoption of PCAOB Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Connection With an Audit of Financial Statements*. The PCAOB has issued four auditing standards that should be followed when auditing plans that are required to file Form 11-K. These standards include:

- PCAOB Auditing Standard No. 1, *References in Auditors' Reports to the Standards of the Public Company Accounting Oversight Board*
- PCAOB Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction With An Audit of Financial Statements*
- PCAOB Auditing Standard No. 3, *Audit Documentation*
- PCAOB Auditing Standard No. 4, *Reporting on Whether a Previously Reported Material Weakness Continues to Exist*

Form 11-K does not require a 302 certification. Although the rule is silent regarding Rule 404 reports, the SEC staff had agreed that because Form 11-K filers are not subject to Item 308 of Regulation S-K, Form 11-K need not include a 404 report. fn # Accordingly, this Guide does not reflect PCAOB Auditing Standard No. 2, An Audit of Internal Control Over Financial Reporting Performed in Connection With an Audit of Financial Statements, except to reflect certain conforming amendments found in PCAOB Release 2004-008. Certain of the provisions in Release 2004-008 are relevant to situations in which an auditor is engaged solely to audit a company's financial statements and not just when performing an integrated audit of financial statements and internal control over financial reporting. Therefore, certain of the conforming amendments are reflected in this guide as noted in the table below. For information on PCAOB auditing standards, quality control standards, and related guidance that may have been issued subsequent to the writing of this guide, please refer to the PCAOB Web site at www.pcaobus.org (audits of issuers only).

Performance and Reporting Requirements

Based on AICPA staff discussions with the SEC and PCAOB staff to seek clarification of the performance and reporting requirements for audits of 11-K filers, firms will need to conduct their audits of these 11-K plans in accordance with two sets of standards and prepare two separate audit reports; an audit report referencing PCAOB standards for Form 11-K filings with the SEC and a separate audit report referencing

(continued)

generally accepted auditing standards (GAAS) for Department of Labor (DOL) filings. The PCAOB and SEC staff believe that an opinion issued in accordance with PCAOB Auditing Standard No. 1 does not allow a reference to GAAS, hence a "dual" standard report is not appropriate and will not be accepted by the SEC.

Any questions regarding performance and reporting requirements of audits of financial statements of Form 11-K filers should be directed to the SEC Division of Corporation Finance, Office of the Chief Accountant at (202) 942-2960.

.01 Unqualified Opinion—Defined Benefit Plan Assuming End-of-Year Benefit Information Date

Independent Auditor's Report

Addressee:

We have audited the accompanying statements of net assets available for benefits and of accumulated plan benefits of XYZ Pension Plan as of December 31, 20X2 and 20X1, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 20X2. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. [*Optional: An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion.*][1] An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of December 31, 20X2 and 20X1, and the changes in its financial status for the year ended December 31, 20X2 in conformity with accounting principles generally accepted in the United States of America.

---

[1] This optional language may be added to the auditor's standard report to clarify that an audit performed in accordance with GAAS does not require the same level of testing and reporting on internal control over financial reporting as an audit of an issuer when Section 404(b) of the Sarbanes-Oxley Act is applicable. If this optional language is added then the remainder of the paragraph should read as follows:

> "An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion."

See Auditing Interpretation No. 17, "Clarification in the Audit Report of the Extent of Testing of Internal Control Over Financial Reporting in Accordance With Generally Accepted Auditing Standards," of AU section 508, *Reports on Audited Financial Statements*, as amended (AICPA, Professional Standards, vol. 1, AU sec. 9508.85–.88) issued in June 2004.

[Source: AICPA Audit and Accounting Guide *Employee Benefit Plans*, updated as of March 1, 2007, paragraph 13.05]

Note: Department of Labor Regulations, section 2520.103-1 requires the accountant's report to be dated, manually signed, indicate the city and state where issued and identify the financial statements and schedules covered by the report.

.02 Unqualified Opinion—Defined Benefit Plan Assuming Beginning-of-Year Benefit Information Date

Independent Auditor's Report

Addressee:

We have audited the accompanying statements of net assets available for benefits of XYZ Pension Plan as of December 31, 20X2 and 20X1, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 20X1, and the related statement of changes in accumulated plan benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. [*Optional: An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion.*][2] An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 20X2, and changes therein for the year then ended and its financial status as of December 31, 20X1, and changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America.

[2] This optional language may be added to the auditor's standard report to clarify that an audit performed in accordance with GAAS does not require the same level of testing and reporting on internal control over financial reporting as an audit of an issuer when Section 404(b) of the Sarbanes-Oxley Act is applicable. If this optional language is added then the remainder of the paragraph should read as follows:

> "An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion."

See Auditing Interpretation No. 17 of AU section 508, issued in June 2004.

.03 Unqualified Opinion—Defined Contribution Profit-Sharing Plan

Independent Auditor's Report

Addressee:

We have audited the accompanying statements of net assets available for benefits of ABC Company Profit-Sharing Plan as of December 31, 20X2 and 20X1, and the related statement of changes in net assets available for benefits for the year ended December 31, 20X2. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. [*Optional: An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion.*][3] An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 20X2 and 20X1, and the changes in net assets available for benefits for the year ended December 31, 20X2 in conformity with accounting principles generally accepted in the United States of America.

If this optional language is added then the remainder of the paragraph should read as follows:

> "An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion."

See Auditing Interpretation No. 17 of AU section 508, issued in June 2004.

.04 Unqualified Opinion—Employee Health and Welfare Benefit Plans

Independent Auditor's Report

Addressee:

We have audited the accompanying statements of net assets available for benefits and of plan benefit obligations of Allied Industries Health Care Benefit Plan as of December 31, 20X2 and 20X1, and the related statements of changes in net assets available for benefits and of changes in benefit obligations for the year ended December 31, 20X2. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. [*Optional: An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion*.][4] An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of December 31, 20X2 and 20X1, and the changes in financial status for the year ended December 31, 20X2 in conformity with accounting principles generally accepted in the United States of America.

.05 Unqualified Opinion—Supplemental Schedules Required by ERISA and DOL Regulations

Independent Auditor's Report

Addressee:

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of (*identify title of schedules and period covered*) are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

[*Signature of Firm*]

[*City and State*]

[Source: AICPA Audit and Accounting Guide *Employee Benefit Plans*, updated as of March 1, 2007, paragraph 13.11]

Notes: This paragraph can be shown separately in the auditor-submitted document or as a separate paragraph, after the opinion paragraph, of the auditor's standard report, when the auditor's report covers additional information and the auditor has applied auditing procedures and is expressing an opinion on the additional information.

Examples of paragraphs that should be added to the standard auditor's report when the report on the supplemental schedules is modified because of omitted information or an omitted schedule required by DOL regulations are presented in AAM section 9600.07–.08 and .18.

.06 Unqualified Opinion—Defined Benefit Pension Plan Prepared on the Modified Cash Basis

Independent Auditor's Report

Addressee:

We have audited the accompanying statements of net assets available for benefits (modified cash basis) of XYZ Pension Plan as of December 31, 20X2 and 20X1, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 20X2. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. [*Optional: An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion.*][5] An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note X, these financial statements and supplemental schedules were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits and the accumulated plan benefits of XYZ Pension Plan as of December 31, 20X2 and 20X1, and the changes in net assets available for benefits and changes in accumulated plan benefits for the year ended December 20X2, on the basis of accounting described in Note X.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedules (modified cash basis) of (1) Schedule H, line 4i—Schedule of Assets (Held at End of Year), (2) Schedule G, Part I—Schedule of Loans or Fixed Income Obligations in Default or Classified as Uncollectible, (3) Schedule G, Part II—Schedule of Leases in Default or Classified as Uncollectible, (4) Schedule H, line 4j—Schedule of Reportable Transactions, and (5) Schedule G, Part III—Schedule of Nonexempt Transactions as of or for the year ended December 31, 20X2, are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

[*Signature of Firm*]

---

[5] This optional language may be added to the auditor's standard report to clarify that an audit performed in accordance with GAAS does not require the same level of testing and reporting on internal control over financial reporting as an audit of an issuer when Section 404(b) of the Sarbanes-Oxley Act is applicable. If this optional language is added then the remainder of the paragraph should read as follows:

> "An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion."

See Auditing Interpretation No. 17 of AU section 508, issued in June 2004.

[Source: AICPA Audit and Accounting Guide *Employee Benefit Plans,* updated as of March 1, 2007, paragraph 13.22]

Note: When reporting on financial statements prepared in conformity with a basis of accounting other than generally accepted accounting principles (OCBOA), the auditor should consider whether the financial statements and notes thereto include all informative disclosures that are appropriate for the basis of accounting used. The Interpretation, "Evaluating the Adequacy of Disclosure in Financial Statements Prepared on the Cash, Modified Cash, or Income Tax Basis of Accounting" (AICPA, *Professional Standards*, vol. 1, AU sec. 9623.90), states that if cash, modified cash, or income tax basis financial statements contain elements, accounts, or items for which GAAP would require disclosure, the statements should either provide the relevant disclosure that would be required for those items in a GAAP presentation or provide information that communicates the substance of that disclosure. That may result in substituting qualitative information for some of the quantitative information required for GAAP presentations. Regardless of the basis of accounting used (GAAP or OCBOA), accumulated plan benefits disclosures should be made. If such disclosures are not made, the auditor should comment in his or her report on the lack of such disclosures and should express a qualified or adverse opinion on the financial statements. [Source: AICPA Audit and Accounting Guide *Employee Benefit Plans,* updated as of March 1, 2007, paragraph 13.23]

.07 Modified Report—Omitted Information or Omitted Schedule Required Under DOL Regulations

Following are examples of paragraphs that should be added to the auditor's report when the auditor should modify his or her report on the supplemental schedules because of omitted information or an omitted schedule which is required under DOL regulations.

Independent Auditor's Report

Addressee:

[*Same first, second, and third paragraphs as the standard report.* See AAM section 9600.01–.03.]

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedules of [*identify title of schedules and period covered*] are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The supplemental Schedule H, line 4i—Schedule of Assets (Held at End of Year) as of December 31, 20X2 that accompanies the Plan's financial statements does not disclose the historical cost of certain nonparticipant directed plan assets held by the Plan trustee [or custodian]. Disclosure of this information is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

or

The Plan has not presented the supplemental Schedule H, line 4j—Schedule of Reportable Transactions for the year ended December 31, 20X2. Disclosure of this information is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

.08 Qualified Opinion—Omitted or Incomplete Schedule or Material Inconsistency

The following paragraphs should be added to the auditor's report when the auditor concludes that his or her opinion on the supplemental schedules should be qualified because a schedule, or information thereon, was omitted (when the schedules are not covered by a trustee's certification as to completeness and accuracy), or because information in a required schedule is materially inconsistent with the financial statements.

Independent Auditor's Report

Addressee:

[*Same first, second, and third paragraphs as the standard report*. See AAM section 9600.01–.03.]

The supplemental Schedule H, line 4i—Schedule of Assets (Held at End of Year) as of December 31, 20X2 that accompanies the Plan's financial statements does not disclose that the Plan had loans to participants which are considered assets held for investment purposes. Disclosure of this information is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedules of [*identify title of schedules and period covered*] are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, except for the omission of the information discussed in the preceding paragraph, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

.09 Qualified Opinion—Disclosure of Material Prohibited Transaction With Party in Interest Omitted

The following paragraphs should be added to the auditor's report on the plan's financial statements when the auditor concludes that his or her opinion on the supplemental schedules should be qualified because disclosure of a material prohibited transaction with a party in interest is omitted.

Independent Auditor's Report

Addressee:

[*Same first, second, and third paragraphs as the standard report.* See AAM section 9600.01–.03.]

The supplemental Schedule G, Part III—Schedule of Nonexempt Transactions that accompanies the plan's financial statements does not disclose that the Plan [*describe prohibited transaction*]. Disclosure of this information is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedules [*identify title of schedules and period covered*] are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, except for the omission of the information discussed in the preceding paragraph, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

.12 Qualified Opinion—Disclosure of Material Prohibited Transaction With Party in Interest Omitted—Related-Party Transaction

Independent Auditor's Report

Addressee:

We have audited the accompanying statement of net assets available for benefits of XYZ Company Profit-Sharing Plan as of December 31, 20X1 and 20X0, and the related statement of changes in net assets available for benefits for the year ended December 31, 20X1. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

The Plan's financial statements do not disclose that the Plan [*describe related-party transaction*]. Disclosure of this information is required by accounting principles generally accepted in the United States of America.

In our opinion, except for the omission of the information discussed in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 20X1 and 20X0, and the changes in net assets available for benefits for the year ended December 31, 20X1 in conformity with accounting principles generally accepted in the United States of America.

The supplemental Schedule G, Part III—Schedule of Nonexempt Transactions that accompanies the plan's financial statements does not disclose that the plan [*describe prohibited transaction*]. Disclosure of this information is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedules of [*identify title of schedules and period covered*] are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, except for the omission of the information discussed in the preceding paragraph, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

.13 Limited-Scope Audits Under DOL Regulations

Independent Auditor's Report

Addressee:

We were engaged to audit the financial statements and supplemental schedules of XYZ Pension Plan as of December 31, 20X1 and 20X0, and for the year ended December 31, 20X1, as listed in the accompanying index. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note X, which was certified by ABC Bank, the trustee (or custodian) of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee (or custodian) holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee (or custodian) as of December 31, 20X1 and 20X0 and for the year ended December 31, 20X1 that the information provided to the plan administrator by the trustee (or custodian) is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee or custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note: If the plan's financial statements are prepared on the cash basis or a modified cash basis of accounting, the auditor's report should also include a paragraph stating the basis of presentation and that cash basis is a comprehensive basis of accounting other than GAAP (see paragraph 13.21 of the AICPA Audit and Accounting Guide *Employee Benefit Plans*, for wording of such a paragraph). [Source: AICPA Audit and Accounting Guide *Employee Benefit Plans*, updated as of March 1, 2007, paragraph 13.26, footnote 6]

.14 Limited-Scope Audit in Prior Year

Independent Auditor's Report

Addressee:

We have audited the accompanying statements of net assets available for benefits of XYZ Pension Plan as of December 31, 20X2 and 20X1, and the related statement of changes in net assets available for benefits for the year ended December 31, 20X2, and the statements of accumulated plan benefits as of December 31, 20X2 and 20X1, and the related statement of changes in accumulated plan benefits for the year ended December 31, 20X2. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

Except as explained in the following paragraph, we conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, investment assets held by ABC Bank, the trustee (or custodian) of the Plan, and transactions in those assets were excluded from the scope of our audit of the Plan's 20X1 financial statements, except for comparing the information provided by the trustee (or custodian), which is summarized in Note X, with the related information included in the financial statements.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the Plan's financial statements as of December 31, 20X1. The form and content of the information included in the 20X1 financial statements, other than that derived from the information certified by the trustee (or custodian), have been audited by us and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

In our opinion, the financial statements, referred to above, of XYZ Pension Plan as of December 31, 20X2, and for the year then ended present fairly, in all material respects, the financial status of XYZ Pension Plan as of December 31, 20X2, and changes in its financial status for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit of the Plan's financial statements as of and for the year ended December 31, 20X2, was made for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedules of (1) Schedule H, line 4i—Schedule of Assets (Held at End of Year), (2) Schedule G, Part I—Schedule of Loans or Fixed Income Obligations in Default or Classified as Uncollectible, (3) Schedule G, Part II—Schedule of Leases in Default or Classified as Uncollectible, (4) Schedule H, line 4j—Schedule of Reportable Transactions, and (5) Schedule G, Part III—Nonexempt Transactions as of or for the year ended December 31, 20X2, are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended December 31, 20X2, and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

.15 Limited-Scope Audit in Current Year

Independent Auditor's Report

Addressee:

We were engaged to audit the accompanying statement of net assets available for benefits of XYZ Pension Plan as of December 31, 20X2, and the related statement of changes in net assets available for benefits for the year ended December 31, 20X2 and the supplemental schedules of (1) Schedule H, line 4i—Schedule of Assets (Held at End of Year), (2) Schedule H, line 4j—Schedule of Reportable Transactions, and (3) Schedule G, Part I—Schedule of Loans or Fixed Income Obligations in Default or Classified as Uncollectible as of or for the year ended December 31, 20X2. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note X, which was certified by ABC Bank, the trustee (or custodian) of the Plan, except for comparing the information with the related information included in the 20X2 financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee (or custodian) holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee (or custodian) as of and for the year ended December 31, 20X2, that the information provided to the plan administrator by the trustee (or custodian) is complete and accurate.

Because of the significance of the information in the Plan's 20X2 financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules as of or for the year ended December 31, 20X2. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee (or custodian), have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have audited the statement of net assets available for benefits of XYZ Pension Plan as of December 31, 20X1 and, in our report dated May 20, 20X2, we expressed our opinion that such financial statement presents fairly, in all material respects, the financial status of XYZ Pension Plan as of December 31, 20X1, in conformity with accounting principles generally accepted in the United States of America.

.16 Initial Limited-Scope Audit in Current Year, Prior Year Limited-Scope Audit Performed by Other Auditors

Report of Independent Certified Public Accountants

Addressee:

We were engaged to audit the accompanying statements of net assets available for benefits of ABC Company Profit-Sharing Plan (the "Plan") as of December 31, 20X2 and 20X1, and the related statement of changes in net assets available for benefits for the year ended December 31, 20X2 and the supplemental Schedule H, line 4i—Schedule of Assets (Held at End of Year) as of December 31, 20X2. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of the plan as of December 31, 20X1 were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed the other auditors not to perform and they did not perform, any auditing procedures with respect to the information certified by the Trustee. Their report, dated May 20, 20X2, indicated that (*a*) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (*b*) the form and content of the information included in the financial statements other than that derived from the information certified by the Trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note E, which was certified by Bank & Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the 20X2 financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 20X2, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the Plan's 20X2 financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying 20X2 financial statements and supplemental schedule taken as a whole. The form and content of the information included in the 20X2 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

.17 Limited Scope Audit—Change in Trustee

Report of Independent Certified Public Accountants

Addressee:

We were engaged to audit the accompanying statements of net assets available for benefits and of accumulated plan benefits of XYZ Pension Plan as of December 31, 20X2 and 20X1, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 20X2, and the supplemental schedules of (1) Schedule H, line 4i—Schedule of Assets (Held at End of Year) as of December 31, 20X2, and (2) Schedule H, line 4j—Schedule of Reportable Transactions for the year ended December 31, 20X2. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note X, which was certified by the ABC Bank and XYZ Trust Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that XYZ Trust Company held the Plan's investment assets and executed investment transactions from July 1, 20X2 to December 31, 20X2, and that ABC Bank held the Plan's investment assets and executed investment transactions as of December 31, 20X1 and for the period January 1, 20X1 to June 30, 20X2. The plan administrator has obtained certifications from the trustees as of and for the years ended December 31, 20X2 and 20X1, that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the investment information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

.18 Audit of Multiemployer Defined Benefit Pension Plan With Scope Limitation

Independent Auditor's Report

Addressee:

We were engaged to audit the statements of (*identify title of schedules and period covered*) of XYZ Multiemployer Pension Plan as of December 31, 20X2 and 20X1, and for the years then ended. These financial statements are the responsibility of the Plan's management.

The Plan's records and procedures are not adequate to assure the completeness of participants' data on which contributions and benefit payments are determined, and the Board of Trustees did not engage us to perform, and we did not perform, any other auditing procedures with respect to participants' data maintained by the sponsor companies or individual participants.

Because of the significance of the information that we did not audit, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on these financial statements.

.20 Trust Established Under an Employee Benefit Plan

Independent Auditor's Report

Addressee:

We have audited the accompanying statement of net assets of ABC Pension Trust as of December 31, 20X2, and the related statement of changes in net assets and trust balance for the year then ended. These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of ABC Pension Trust as of December 31, 20X2, and the changes in its net assets and trust balance for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying statements are those of ABC Pension Trust, which is established under XYZ Pension Plan; the statements do not purport to present the financial status of XYZ Pension Plan. The statements do not contain certain information on accumulated plan benefits and other disclosures necessary for fair presentation of the financial status of XYZ Pension Plan in conformity with accounting principles generally accepted in the United States of America. Furthermore, these statements do not purport to satisfy the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 relating to the financial statements of employee benefit plans.

.21 Defined Benefit Plan Assuming Inadequate Procedures to Value Investments

Independent Auditor's Report

Addressee:

We have audited the accompanying statements of net assets available for benefits of XYZ Pension Plan as of December 31, 20X2 and 20X1 and of accumulated plan benefits as of December 31, 20X2, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 20X2. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. [*Optional: An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion.*][6] An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note X, investments amounting to $______(______ percent of net assets available for benefits) as of December 31, 20X2, have been valued at estimated fair value as determined by the Board of Trustees. We have reviewed the procedures applied by the trustees in valuing the securities and have inspected the underlying documentation. In our opinion, those procedures are not adequate to determine the fair value of the investments in conformity with accounting principles generally accepted in the United States of America. The effect on the financial statements and supplemental schedules of not applying adequate procedures to determine the fair value of the securities is not determinable.

In our opinion, except for the effects of the procedures used by the Board of Trustees to determine the valuation of investments as described in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the financial status of XYZ Pension Plan as of December 31, 20X2, and information regarding the plan's net assets available for benefits as of December 31, 20X1, and the changes in its financial status for the year ended in December 31, 20X2 in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedules of (1) Schedule H, line 4i—Schedule of Assets (Held at End of Year), (2) Schedule G, Part I—Schedule of Loans or Fixed Income Obligations in Default or Classified as Uncollectible, (3) Schedule G, Part II—Schedule of Leases in Default or Classified as Uncollectible, (4) Schedule H, line 4j—Schedule of Reportable Transactions, and (5) Schedule G, Part III—Nonexempt Transactions as of or for the year ended December 31, 20X2, are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. That additional information has been subjected to the auditing procedures applied in the audit of the basic financial

---

[6] This optional language may be added to the auditor's standard report to clarify that an audit performed in accordance with GAAS does not require the same level of testing and reporting on internal control over financial reporting as an audit of an issuer when Section 404(b) of the Sarbanes-Oxley Act is applicable. If this optional language is added then the remainder of the paragraph should read as follows:

> "An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion."

See Auditing Interpretation No. 17 of AU section 508, issued in June 2004.

statements for the year ended December 31, 20X2; and in our opinion, except for the effects of the valuation of investments, as described above, the additional information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

[Source: AICPA Audit and Accounting Guide *Employee Benefit Plans*, paragraph 13.38]

.22 Form 11-K Filing

Report of Independent Registered Public Accounting Firm

Addressee:

We have audited the accompanying statements of net assets available for benefits of the ABC 401(k) plan (the "Plan") as of December 31, 20X2 and 20X1, and the related statement of changes in net assets available for benefits for the year ended December 31, 20X2. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 20X2 and 20X1, and the changes in net assets available for benefits for the year ended December 31, 20X2 in conformity with U.S. generally accepted accounting principles.

[Source: AICPA Audit and Accounting Guide *Employee Benefit Plans*, updated as of March 1, 2007, paragraph 13.19]

Note: ***Reporting Considerations for Nonaccelerated Filer Audit Reports.*** In an audit of a nonaccelerated filer that has determined it is not required to obtain, nor did it request the auditor to perform, an audit of internal control over financial reporting (under Section 404(b) of the Sarbanes-Oxley Act of 2002 and Item 308(b) of SEC Regulation S-K), firms may wish to consider expanding their audit report to include a statement that the purpose and extent of the auditor's consideration of internal controls over financial reporting were to determine that the nature, timing, and extent of tests to be performed are appropriate in the circumstances but were not sufficient to express an opinion on the effectiveness of internal control over financial reporting. Firms are not required to expand their audit report to include this statement. However, the SEC staff has indicated that if a firm chooses to expand its report to clarify this point, the language in Interpretation No. 18, "Reference to PCAOB Standards in an Audit Report on a Nonissuer," of AU section 508 (AICPA, *Professional Standards*, vol. 1, AU sec. 9508.89–.92), provides appropriate language to consider in an audit conducted in accordance with PCAOB standards. Accordingly, the scope section of the auditor's report might be modified as follows:

> We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. ***The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included***

> ***consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion.*** An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As an alternative to the first additional sentence suggested by Interpretation 18 of AU section 508, a firm also might consider the following:

> ***The Plan has determined that it is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting.***

AAM Section 9650

Reports on Financial Statements of Brokers and Dealers in Securities

.01 Unqualified Opinion on Financial Statements and Supplementary Schedules Required by the SEC

Independent Auditor's Report

Addressee:

We have audited the accompanying [*consolidated*] statement of financial condition of Standard Stockbrokerage Co., Inc. [*and Subsidiaries*] (the Company) as of December 31, 20X7, and the related consolidated statements of income, changes in stockholders' equity, changes in liabilities subordinated to claims of general creditors, and cash flows for the year then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America.[1] Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. [*Optional: An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.*][2] An audit includes examining, on a test basis,

---

[1] For audits conducted in accordance with PCAOB standards, PCAOB Auditing Standard No. 1, *References in Auditors' Reports to the Standards of the Public Company Accounting Oversight Board*, replaces this sentence with the following sentence: "We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States)." On May 14, 2004, the SEC issued an interpretive release to help with the implementation of PCAOB Auditing Standard No. 1. See Release No. 33-8422 for more information. The release specifies that effective May 14, 2004, references in SEC rules and staff guidance and in the federal securities laws to GAAS or to specific standards under GAAS, as they relate to issuers, should be understood to mean the standards of the PCAOB, plus any applicable rules of the SEC. The guidance in this release is applicable only to auditors' engagements that are governed by PCAOB rules. The PCAOB, for example, has not established particular auditing standards for nonissuer broker-dealers or investment advisers. This release is not applicable to such engagements and related filings.

The staff of the PCAOB published a series of questions and answers ("Q & As") on PCAOB Auditing Standard No. 1. See the PCAOB Web site at www.pcaobus.org for more information.

In June 2004, the Auditing Standards Board ("ASB") issued Interpretation No. 18, "Reference to PCAOB Standards in an Audit Report of a Nonissuer," in AU section 9508, *Reports on Audited Financial Statements: Auditing Interpretations of Section 508*, which provides reporting guidance for audits of nonissuers. Interpretation No. 18 in AU section 9508 provides guidance on the appropriate referencing of PCAOB auditing standards in audit reports when an auditor is engaged to perform the audit in accordance with both GAAS and PCAOB auditing standards. The ASB also is revising AU section 508 in light of the International Auditing and Assurance Standards Board's recently exposed International Standard on Auditing, *The Independent Auditor's Report on a Complete Set of General Purpose Financial Statements*, and PCAOB Auditing Standard No. 1, *References in Auditors' Reports to the Standards of the PCAOB*. See the AICPA Web site at www.aicpa.org/members/div/auditstd/index.htm for more information.

[2] This optional wording may be added in accordance with Auditing Interpretation No. 17, "Clarification in the Audit Report of the Extent of Testing of Internal Control Over Financial Reporting in Accordance With Generally Accepted Auditing Standards," of AU section 508 (AICPA, *Professional Standards*, vol. 1, AU section 9508.85–.88), which was issued by the ASB in June 2004 and provides reporting guidance for audits of nonissuers. Auditing Interpretation No. 17 addresses how auditors may expand their independent audit report to explain that their consideration of internal control was sufficient to provide the auditor sufficient understanding to plan the audit and determine the nature, timing and extent of tests to be performed, but was not sufficient to express an opinion on the effectiveness of the internal control. If this optional language is added, then the remainder of the paragraph should read as follows:

> "An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion."

evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the [*consolidated*] financial statements referred to above present fairly, in all material respects, the financial position of Standard Stockbrokerage Co., Inc. [*and Subsidiaries*] as of December 31, 20X7, and the results of its [their] operations and its [their] cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules I, II, III, and IV is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Additional Guidance When Performing Integrated Audits of Financial Statements and Internal Control Over Financial Reporting

When performing an integrated audit of financial statements and internal control over financial reporting in accordance with the standards of the PCAOB, the auditor may choose to issue a combined report or separate reports on the company's financial statements and on internal control over financial reporting. Refer to paragraphs 162–199 of PCAOB Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction with An Audit of Financial Statements* (AICPA, *PCAOB Standards and Related Rules*), for direction about reporting on internal control over financial reporting. In addition, see Appendix A, "Illustrative Reports on Internal Control Over Financial Reporting," of PCAOB Auditing Standard No. 2 for an illustrative combined audit report and examples of separate reports. (AICPA, *PCAOB Standards and Related Rules*, AU sec. 508.01)

If the auditor issues separate reports on the company's financial statements and on internal control over financial reporting, the following paragraph should be added to the auditor's report on the company's financial statements (AICPA, *PCAOB Standards and Related Rules*, AU sec. 508.08):

> "We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of the Company's internal control over financial reporting as of December 31, 20X4, based on [*identify control criteria*] and our report dated [*date of report, which should be the same as the date of the report on the financial statements*] expressed [*include nature of opinions*]."

When performing an integrated audit of financial statements and internal control over financial reporting in accordance with the standards of the PCAOB, the auditor's report on the company's financial statements and on internal control over financial reporting should be dated the same date. Refer to paragraphs 171–172

[*] AU section 339.23 (AICPA, *Professional Standards*, vol. 1) has been amended for SAS No. 103, *Audit Documentation* (AICPA, Professional Standards, vol. 1, AU sec. 339), which changes the date of the auditor's report from the date of completion of fieldwork to require that the auditor's report should be dated no earlier than the date on which the auditor has obtained sufficient appropriate audit evidence to support the opinion on the financial statements.

of PCAOB Auditing Standard No. 2 for direction about the report date in an audit of internal control over financial reporting. (AICPA, *PCAOB Standards and Related Rules*, AU sec. 530.01)

[Source: AICPA Audit and Accounting Guide *Brokers and Dealers in Securities,* Appendix A]

Notes: SEC Regulation S-X section 210.2-02 (17 CFR 210.2–.02) requires the accountant's report to be dated, signed manually, indicate the city and state where issued, and identify without detailed enumeration the financial statements covered by the report.

AAM section 9250.150 and .160 contain illustrative reports on internal control required by SEC Rule 17a-5.

.02 Separate Report on Supplementary Schedules

Independent Auditor's Report on Supplementary Information
Required by Rule 17a-5 of the Securities and Exchange Commission

Addressee:

We have audited the accompanying [*consolidated*] financial statements of Standard Stockbrokerage Co., Inc. [*and Subsidiaries*] as of and for the year ended December 31, 20X7, and have issued our report thereon dated February 15, 20X8. Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules I, II, III, and IV is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

AAM Section 9700
Reports for Investment Companies

.01 Unqualified Opinion on the Financial Statements of a Registered Investment Company

Report of Independent Registered Public Accounting Firm

Addressee:

We have audited the accompanying statement of assets and liabilities of XYZ Investment Company, including the schedule of investments, as of December 31, 20X4, and the related statements of operations and cash flows[1] for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended.[2] These financial statements and financial highlights are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 20X4, by correspondence with the custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of XYZ Investment Company as of December 31, 20X4, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Note: The reference to "and brokers" in the fourth sentence of the scope paragraph is not normally required if the investment company's financial statements do not show an amount payable for securities

[1] FASB Statement No. 102, *Statement of Cash Flows—Exemption of Certain Enterprises and Classification of Cash Flows from Certain Securities Held for Resale,* amends FASB Statement No. 95, *Statement of Cash Flows,* to exempt highly liquid companies that meet specified conditions from the requirement to provide a statement of cash flows.

[2] In an open-end fund's registration statement, an auditor must opine on at least the most recent two of the five years of financial highlights presented in a registered investment company's annual report. In the fund's registration statement, the auditor must opine on all five years presented.

purchased. When broker confirmations are not received and alternative procedures are performed, the sentence may be modified to read "and brokers or by other appropriate auditing procedures where replies from brokers were not received." Also, if securities were physically inspected or subject to other extended procedures for purposes of the audit, the report should be modified to state that those procedures were performed.

.02 Unqualified Opinion on the Financial Statements for a Multicolumnar Presentation of the Portfolios Constituting the Series

Report of Independent Registered Public Accounting Firm

Addressee:

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of XYZ Series Investment Company comprising the Foreign, Domestic Common Stock, Long-Term Bond, and Convertible Preferred Portfolios as of December 31, 20X4, and the related statements of operations and cash flows[3] for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 20X4, by correspondence with the custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of each of the portfolios constituting the XYZ Series Investment Company as of December 31, 20X4, the results of their operations and their cash flows for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

.04 Unqualified Opinion on the Financial Statements of a Nonregistered Investment Company

Independent Auditor's Report

Addressee:

We have audited the accompanying statement of assets and liabilities of XYZ Investment Company (the Company), including the schedule of investments, as of December 31, 20X4, and the related statements of operations, cash flows[5] and changes in net assets, and the financial highlights for the year then ended. These financial statements and financial highlights are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America.[6] Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of XYZ Investment Company as of December 31, 20X4, the results of its operations, its cash flows, the changes in its net assets, and its financial highlights for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

[5] FASB Statement No. 102, *Statement of Cash Flows—Exemption of Certain Enterprises and Classification of Cash Flows from Certain Securities Held for Resale*, amends FASB Statement No. 95, *Statement of Cash Flows*, to exempt highly liquid companies that meet specified conditions from the requirement to provide a statement of cash flows.

[6] AU section 508, *Reports on Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1), states that a basic element of the auditor's report is a statement that the audit was conducted in accordance with generally accepted auditing standards and an identification of the United States of America as the country of origin of those standards. AU section 9508.56–.59, "Reporting on Audits Conducted in Accordance With Auditing Standards Generally Accepted in the United States of America and in Accordance With International Standards on Auditing" (AICPA, *Professional Standards*, vol. 1) states that if the audit also was conducted in accordance with the International Standards on Auditing, in their entirety, the auditor may so indicate in the auditor's report. This can be done by modifying this sentence as follows (new language is shown in italics):

> We conducted our audit in accordance with auditing standards generally accepted in the United States of America and in accordance with International Standards on Auditing.

AAM Section 10,000
Quality Control

These sample quality control documents are presented for illustrative purposes only. They are intended as an aid for users of this Manual who may want points of departure when establishing their own quality control policies and procedures. These illustrations are neither all inclusive nor are they prescribed minimums. Auditors and accountants should rely on professional standards and their individual professional judgment in determining what may be needed in individual circumstances.

TABLE OF CONTENTS

[*The next page is 10,101.*]

AAM Section 10,100
Quality Control—General

AICPA Requirements

.01 Article VI—*Scope and Nature of Services*—of the AICPA's *Principles of Professional Conduct* (ET section 57 [AICPA, *Professional Standards*, vol. 2]), requires that "members should practice in firms that have in place internal quality-control procedures to ensure that services are competently delivered and adequately supervised." Because of the public interest in the services provided by and the reliance placed on the objectivity and integrity of CPA's, a CPA firm should have a system of quality control for its practice.

.02 The AICPA has issued statements on quality control standards to give firms improved guidance for establishing and maintaining a quality control system for their accounting and auditing practices. The statements include: Statement on Quality Control Standards (SQCS) No. 2, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice*, as amended by SQCS No. 6, *Amendment to Statement on Quality Control Standards No. 2* (AICPA, *Professional Standards*, vol. 2, QC sec. 20), SQCS No. 3, *Monitoring a CPA Firm's Accounting and Auditing Practice* (AICPA, *Professional Standards*, vol. 2, QC sec. 30), SQCS No. 4, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice* (AICPA, *Professional Standards*, vol. 2, QC sec. 20), and SQCS No. 5, *The Personnel Management Element of a Firm's System of Quality Control—Competencies Required by a Practitioner-in-Charge of an Attest Engagement* (AICPA, Professional Standards, vol. 2, QC sec. 40). SQCS No. 2 supersedes SQCS No. 1, *System of Quality Control for a CPA Firm*, issued in 1979. SQCS No. 4 amends paragraph 18 of SQCS No. 2. SQCS No. 6 amends paragraph 3 of SQCS No. 2.

.03 Presented in AAM section 10,200 is a *Practice Aid for Establishing and Maintaining a System of Quality Control for a CPA Firm's Accounting and Auditing Practice.* Following the practice aid, in AAM section 10,300 are sample quality control forms to aid practitioners in implementing a quality control system.

[*The next page is 10,201.*]

AAM Section 10,200

Practice Aid for Establishing and Maintaining a System of Quality Control for a CPA Firm's Accounting and Auditing Practice

NOTICE TO READERS

This AICPA Audit and Accounting Practice Aid supersedes *Guide for Establishing and Maintaining a System of Quality Control for a CPA Firm's Accounting and Auditing Practice* (guide), which was issued in 1996. This practice aid is intended to help practitioners better understand and apply the Statements on Quality Control Standards (SQCSs) issued by the American Institute of Certified Public Accountants. Those standards are included in Appendix B of this Practice Aid [AAM section 10,250]. This version of the guide, prepared by the Quality Control Standards Task Force (task force), has been revised to incorporate new policies and procedures that a firm should consider including in its system of quality control to be responsive to the changing environment. The policies and procedures presented in this Practice Aid are illustrative, and firms are encouraged to consider them in designing and maintaining a system of quality control that is appropriate for their accounting and auditing practices. Some of the policies and procedures presented in this Practice Aid are not explicitly required by the SQCSs; however, they represent the views of the task force regarding best practices for a quality control system. Although this Practice Aid has been reviewed by the AICPA Audit and Attest Standards staff, it has not been approved, disapproved, or otherwise acted upon by any senior technical committee of the AICPA and has no official or authoritative status.

On July 30, 2002, President Bush signed the Sarbanes-Oxley Act of 2002 (Act) which created a five-member Public Company Accounting Oversight Board (PCAOB) and charged it with overseeing audits of issuers,* as defined by the Act. Under the Act, the PCAOB's duties include, among other things, establishing auditing, quality control, ethics, independence, and other standards relating to audits of issuers.

This Practice Aid does not address the quality control ramifications of the Act nor does it address the quality control ramifications of PCAOB standards that must be followed by auditors of issuers. Auditors of issuers should become familiar with the provisions of these other standards and make changes to their firm's quality control systems as necessary. Auditors of nonissuers who are engaged to report on audit engagements in accordance with PCAOB auditing standards also must report on those engagements in accordance with generally accepted auditing standards (GAAS). Interpretation No. 17, "Clarification in the Audit Report of the Extent of Testing of Internal Control Over Financial Reporting in Accordance With Generally Accepted Auditing Standards," and Interpretation No. 18, "Reference to PCAOB Standards in an Audit Report on a Nonissuer," of AU section 508, *Reports on Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1, AU sec. 9508.85–.88 and .89–.92, respectively), provide reporting guidance for audits of nonissuers when the auditor is asked to report in accordance with GAAS and PCAOB auditing standards.

As previously stated, this Practice Aid does not purport to include any modifications that may be necessary for a firm's system of quality control to conform to PCAOB standards. Additional information about the PCAOB and the Act can be obtained at the PCAOB Web site: http://www.pcaobus.org and the AICPA Web site: http://www.aicpa.org/info/Sarbanes-Oxley2002.asp.

For handy paperback version of this guide call the AICPA Order Department at (888) 777-7077.

* Paragraph 7 of Section 2, "Definitions," of the Sarbanes-Oxley Act of 2002 states, "The term *issuer* means an issuer (as defined in section 3 of the Securities Exchange Act of 1934 (15 U.S.C. 78c)), the securities of which are registered under section 12 of that Act (15 U.S.C. 78l), or that is required to file reports under section 15(d) (15 U.S.C. 78o(d)), or that files or has filed a registration statement that has not yet become effective under the Securities Act of 1933 (15 U.S.C. 77a et seq.), and that it has not withdrawn."

Chapter 1

OVERVIEW OF STATEMENTS ON QUALITY CONTROL STANDARDS

.01 A system of quality control is a process that encompasses the firm's organizational structure and the policies and procedures it establishes. The nature, extent, and formality of a firm's quality control policies and procedures should be sufficiently comprehensive and suitably designed in relation to the firm's size, the number of its offices, the degree of authority allowed its personnel and its offices, the knowledge and experience of its personnel, the nature and complexity of the firm's practice, and appropriate cost-benefit considerations.

.02 The objective of a system of quality control is to provide a CPA firm with reasonable assurance[1] that its personnel comply with applicable professional standards and the firm's standards of quality. Statements on Quality Control Standards (SQCSs), which are issued by the Auditing Standards Board (ASB) of the American Institute of Certified Public Accountants (AICPA), consist of the following three standards:

a. SQCS No. 2, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice* (AICPA, *Professional Standards*, vol. 2, QC sec. 20), as amended. This standard:

- Defines the term *quality control*
- Describes the elements of quality control
- Establishes the requirement for a CPA firm to have a system of quality control for its accounting and auditing practice
- Provides guidance on how to design, implement, and maintain a system of quality control

b. SQCS No. 3, *Monitoring a CPA Firm's Accounting and Auditing Practice* (AICPA, *Professional Standards*, vol. 2, QC sec. 30). This standard provides guidance on how a CPA firm implements the monitoring element of a quality control system.

c. SQCS No. 5, *The Personnel Management Element of a Firm's System of Quality Control—Competencies Required by a Practitioner-in-Charge of an Attest Engagement* (AICPA, *Professional Standards*, vol. 2, QC sec. 40). This standard describes the personnel management element of a system of quality control and the competencies a practitioner-in-charge should have or obtain. SQCS No. 5 defines competencies as the knowledge, skills, and abilities that enable a practitioner-in-charge[2] to be qualified to perform an accounting, auditing, or attestation engagement.

.03 A firm should establish a system of quality control that includes policies and procedures that addresses each of the following five elements of quality control identified in SQCS No. 2.

a. *Independence, Integrity, and Objectivity*

b. *Personnel Management*

c. *Acceptance and Continuance of Clients and Engagements*

---

[1] The term *reasonable assurance* is used because absolute assurance cannot be attained. Statement on Quality Control Standards (SQCS) No. 2, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice* (AICPA, *Professional Standards*, vol. 2, QC sec. 20.05), as amended, states, "Any system of quality control has inherent limitations that can reduce its effectiveness. Variance in an individual's performance and understanding of (*a*) professional requirements or (*b*) the firm's quality control policies and procedures affects the degree of compliance with a firm's prescribed quality control policies and procedures and, therefore, the effectiveness of the system."

[2] SQCS No. 5, *The Personnel Management Element of a Firm's System of Quality Control—Competencies Required by a Practitioner-in-Charge of an Attest Engagement* (AICPA, *Professional Standards*, vol. 2, QC sec. 40.03), defines a practitioner-in-charge as an individual who is responsible for supervising accounting, auditing, and attestation engagements and signing or authorizing an individual to sign the accountant's report on such engagements.

d. *Engagement Performance*

e. *Monitoring*

.04 The elements of quality control are interrelated. For example, for a firm to maintain independence, integrity, and objectivity, it must continually assess client relationships that affect policies and procedures related to the acceptance and continuance of clients and engagements. Similarly, the personnel management element of quality control encompasses criteria related to professional development, hiring, advancement, and assignment of firm personnel to engagements, which all affect policies and procedures related to engagement performance. In addition, policies and procedures related to the monitoring element of quality control enable a firm to evaluate whether its policies and procedures for each of the other four elements of quality control are suitably designed and effectively applied.

.05 If a firm merges, acquires, sells, or otherwise changes a portion of its practice, the surviving firm should evaluate and, as necessary, revise, implement, and maintain firm-wide quality control policies and procedures that are appropriate for the changed circumstances.

Independence, Integrity, and Objectivity

.06 The objective of the independence, integrity, and objectivity element of a system of quality control is to provide the firm with reasonable assurance that personnel maintain independence (in fact and in appearance) in all required circumstances, perform all professional responsibilities with integrity, and maintain objectivity in discharging professional responsibilities. Establishing and maintaining policies such as the following ordinarily would satisfy this objective:

- Requiring that personnel adhere to applicable independence, integrity, and objectivity requirements such as those in regulations, interpretations, and rules of the AICPA, state CPA societies, state boards of accountancy, state statutes, the U.S. Government Accountability Office (GAO; formerly the General Accounting Office) and any other applicable regulators.
- Having the firm's senior management set a tone for the organization that stresses the importance of ethical values, especially as they pertain to accounting and auditing engagements, and communicating related policies and procedures to firm personnel.
- Establishing procedures to help mitigate possible threats to independence and objectivity.
- Establishing procedures for confirming the independence of another firm or firm personnel in associated member firms who perform part of the engagement. This would apply to national firm personnel and foreign firm personnel, including foreign-associated firms[3]

Personnel Management

.07 The objective of the personnel management element of a system of quality control is to provide the firm with reasonable assurance that all personnel have the competencies to perform their assigned responsibilities. Attributes or qualities that enhance the competencies of personnel who perform, supervise, or review work include integrity, objectivity, intelligence, judgment, competence, experience, and motivation. This objective ordinarily would be satisfied by establishing and maintaining policies such as the following:

- Hiring personnel who possess the characteristics that enable them to perform competently.
- Assigning personnel who have the knowledge, skills, and abilities required in the circumstances. In making assignments, the nature and extent of supervision to be provided should be considered.

---

[3] A foreign-associated firm is a firm domiciled outside of the United States and its territories that is a member of, correspondent with, or similarly associated with an international firm or international association of firms.

Generally, the more qualified and experienced the personnel assigned to a particular engagement, the less direct supervision needed; the less qualified and less experienced the personnel assigned to a particular engagement, the more direct supervision needed.

- Having personnel participate in general and industry-specific continuing professional education and professional development activities that should enable them to accomplish assigned responsibilities and satisfy applicable continuing professional education requirements of the AICPA, state boards of accountancy, and other regulators.
- Selecting for advancement only those individuals who have the qualifications necessary to accomplish the responsibilities they will be called on to assume.
- Compensating partners and senior-level employees in a manner that provides an incentive and reward for quality work and for maintaining independence, integrity, and objectivity.

Acceptance and Continuance of Clients and Engagements

.08 The objective of the quality control element that addresses acceptance and continuance of clients and engagements is to establish criteria for deciding whether to accept or continue a client relationship and whether to perform a specific engagement for a client. A firm's client acceptance and continuance policies represent a key element in mitigating litigation and business risk. Accordingly, a firm should be aware that the integrity and reputation of a client's management could reflect on the reliability of the client's accounting records and financial representations, and therefore on the firm's reputation or involvement in litigation. A firm's policies and procedures related to the acceptance and continuance of clients and engagements should provide the firm with reasonable assurance that:

- The likelihood of association with a client whose management lacks integrity is minimized.
- The firm undertakes only those engagements that can be completed with professional competence.
- The risks associated with providing professional services in particular circumstances are appropriately considered.
- An understanding is reached with the client regarding the services to be performed.

.09 These objectives ordinarily should be satisfied for the initial period in which the firm is performing a service and for subsequent periods by establishing and maintaining policies such as the following.

- Evaluating factors that have a bearing on management's integrity.
- Evaluating whether the engagement can be completed with professional competence, undertaking only those engagements that can be completed with professional competence, and appropriately considering the risk associated with providing professional services in particular circumstances.[4]
- Obtaining an understanding with the client regarding the services to be performed.

Engagement Performance

.10 The objective of the engagement performance element of quality control is to provide the firm with reasonable assurance that the work performed by engagement personnel meets applicable professional

[4] Such considerations would include the risk of providing professional services to significant clients or to other clients for which the practitioner's objectivity or the appearance of independence may be impaired. In broad terms, the significance of a client to a member or a firm refers to relationships that could diminish a practitioner's objectivity and independence in performing attest services. Examples of factors to consider in determining the significance of a client to an engagement partner, office, or practice unit include (*a*) the amount of time the partner, office, or practice unit devotes to the engagement, (*b*) the effect on the partner's stature within the firm as a result of his or her service to the client, (*c*) the manner in which the partner, office, or practice unit is compensated, or (*d*) the effect that losing the client would have on the partner, office, or practice unit.

standards, regulatory requirements, and the firm's standards of quality. Policies and procedures for engagement performance should address all phases of the design and execution of the engagement. To the extent appropriate and as required by applicable professional standards, these policies and procedures should cover planning, performing, supervising, reviewing, documenting, and communicating the results of each engagement. Policies and procedures also should require personnel to refer to authoritative literature or other sources and to consult, on a timely basis, with individuals within or outside the firm, when appropriate. The objective of the engagement performance element of quality control ordinarily would be satisfied by establishing and maintaining policies such as the following:

- Requiring that all engagements be planned to meet professional, regulatory, and the firm's requirements.
- Requiring that the work performed and the reports and other communications issued meet professional, regulatory, and the firm's requirements.
- Establishing policies and procedures for the review of high-risk engagements.
- Identifying areas and specialized situations for which consultation is necessary and requiring personnel to refer to authoritative literature or other sources, or consult on a timely basis with individuals within or outside the firm, when appropriate, for example, when addressing complex, unusual, or unfamiliar issues.

Monitoring

.11 The objective of the monitoring element of a system of quality control is to provide the firm with reasonable assurance that the policies and procedures related to the other elements of quality control are suitably designed and effectively applied. Monitoring involves an ongoing consideration and evaluation of a firm's quality control policies and procedures, and the firm's compliance therewith. A firm may satisfy this objective through ongoing inquiry, testing, and observation about such matters as:

- The relevancy and adequacy of the firm's quality control policies and procedures in relation to the size of the firm.
- The appropriateness of the firm's guidance materials and practice aids.
- The effectiveness of the firm's professional development activities.
- The firm's compliance with its policies and procedures, and with professional standards.

.12 Monitoring the elements of quality control related to independence, integrity, and objectivity; personnel management; and acceptance and continuance of clients and engagements; involves an ongoing consideration from a firm-wide perspective of the matters listed in AAM section 10,200.11.

.13 Monitoring of the engagement performance element of quality control may be performed through either preissuance or postissuance engagement review. A preissuance review is performed periodically on selected engagements throughout the year, prior to the firm's release of its reports and the financial statements for these engagements. A postissuance review is performed during a designated period in the year on a sample of engagements for which the firm has already released its reports and the financial statements.

.14 Both preissuance and postissuance review require a full review of the reports, financial statements, and workpapers to determine whether the firm has complied with its policies and procedures and professional standards. An example of evaluating engagement-level compliance with a firm's quality control policies and procedures would be determining whether the documentation for a review of a Yellow-Book engagement indicates that the reviewer assessed whether the engagement staff had obtained the required CPE for such engagements.

Applying the Quality Control Standards to Four Hypothetical Firms

.15 The remainder of the chapters in this Practice Aid present four different hypothetical firms and the quality control policies and procedures the firms implement to address each of the quality control elements. Following is a description of those firms and their characteristics.

- Multi-Office CPA Firm has 10 offices in 3 states and is centrally managed. It has approximately 35 partners, and 200 professionals. Its accounting and auditing practice has a concentration of financial-institution clients for which it performs audit and attest services. Multi-Office CPA Firm has no SEC clients. (Chapter 2)
- Single-Office CPA Firm has 1 office, 3 partners, and 10 professionals. Its accounting and auditing practice has a concentration of employee benefit plan audits. Single-Office CPA Firm has no SEC clients. (Chapter 3)
- Sole Practitioner, CPA, is a sole owner who has no professional staff and occasionally hires per diem professionals. Her accounting practice consists only of engagements subject to Statements on Standards for Accounting and Review Services (SSARSs). (Chapter 4)
- An alternative practice structure is a nontraditional structure in the practice of public accounting consisting of an attest and a nonattest portion of the practice. The attest portion is conducted through a firm owned and controlled by CPAs. The nonattest portion is conducted through a separate entity, which may be an issuer or nonissuer, owned and controlled by individuals who are not CPAs. (Chapter 5)

The policies and procedures described in each chapter are those that a firm of a similar size and type should consider establishing and maintaining. The policies and procedures used by an actual firm need not necessarily include all those used by the illustrative firms nor be limited to those used by the illustrative firms.

.16 Most firms will find it appropriate to communicate their policies and procedures in writing. Readers of this Practice Aid should assume that the quality control policies and procedures for the illustrative firms are in writing and distributed or made available electronically to all professional personnel.

Chapter 2

SYSTEM OF QUALITY CONTROL FOR A CPA FIRM'S ACCOUNTING AND AUDITING PRACTICE—FIRM WITH MULTIPLE OFFICES

.17 This chapter describes how a CPA firm that has multiple offices and is centrally managed (Multi-Office CPA Firm) implements each element of quality control in its accounting and auditing practice. Multi-Office CPA Firm is a hypothetical firm that has 10 offices in 3 states and is centrally managed. Multi-Office CPA Firm has 35 partners, 200 professionals, and a concentration of financial-institution clients for which it performs audit and attest services. It has no Securities and Exchange Commission (SEC) clients.[5]

Independence, Integrity, and Objectivity

.18 The objective of the independence, integrity, and objectivity element of a system of quality control is to provide the firm with reasonable assurance that personnel maintain independence (in fact and in appearance) in all required circumstances, perform all professional responsibilities with integrity, and maintain objectivity in discharging professional responsibilities. Multi-Office CPA Firm satisfies this objective by establishing and maintaining the policies and procedures described in AAM section 10,200.19–.22.

.19 Policy 1: Personnel adhere to applicable independence, integrity, and objectivity requirements such as those in regulations, interpretations, and rules of the AICPA, state CPA societies, state boards of accountancy, state statutes, the U.S. Government Accountability Office[6] (GAO), Department of Labor (DOL), Federal Deposit Insurance Corporation (FDIC), and any other applicable regulators. Multi-Office CPA Firm implements this policy by:

- For matters related to independence, integrity, and objectivity, designating one of its partners to be responsible for responding to questions, resolving matters, and determining the circumstances for which consultation with sources outside the firm may be required.
- Identifying circumstances for which documentation of the resolution of matters is appropriate.
- Maintaining a current list of (*a*) all entities with which firm personnel are prohibited from having a business relationship, and (*b*) all activities in which the firm is prohibited[7] from engaging, as defined in the firm's independence policies.
- Obtaining written representations from personnel, upon hire and on an annual basis, stating that they have read the firm's independence, integrity, and objectivity policies, understand the applicability of those policies to their activities, and have complied with the requirements of those policies since their last representation. (Such written representations should be accompanied by the most current list of all entities with which firm personnel are prohibited from having a business relationship.)
- Assigning responsibility to the firm's quality-control partner for obtaining such written representations, reviewing independence compliance files for completeness, and resolving reported exceptions.

---

[5] If Multi-Office CPA Firm were to be engaged to perform audit services for an issuer, it might need to revise its quality control policies and procedures to comply with Public Company Accounting Oversight Board (PCAOB) standards and to reflect Securities and Exchange Commission (SEC) requirements applicable to audits of issuers.

[6] The U.S. Government Accountability Office was formerly known as the U.S. General Accounting Office.

[7] Examples of prohibited activities include providing certain valuation and information technology services to an audit client. Readers should refer to the rules of specific standard-setters to determine the extent and relevance of any prohibition.

- Establishing clear and concise written independence guidance covering relationships and activities that impair independence, including but not limited to investments, loans, brokerage accounts, business relationships, employment relationships, and fee arrangements.
- Designating a senior-level partner to be responsible for overseeing the adequate functioning of the firm's independence policies
- Implementing a system to identify investment holdings of partners and managers that might impair independence.
- Requiring all professionals to report, on a timely basis when identified, apparent violations of independence, integrity, or objectivity policies involving themselves, their spouses, or their dependents, and the corrective actions taken or proposed to be taken.
- Establishing a requirement for all professional personnel to notify the managing partner in each office of any potential activities that might impair independence or violate ethics rules, including services provided to entities with which firm personnel are prohibited from having a business relationship.
- Establishing a program that protects professional personnel who report potential ethics or independence violations to the proper parties in compliance with firm policy.
- Requiring the managing partner in each office, or a person designated by the managing partner, to periodically review unpaid fees from clients to ascertain whether any outstanding amounts impair the firm's independence.
- Developing guidance that sets forth the consequences for professional personnel who violate the firm's independence policies and procedures, including engaging in activities with entities with which firm personnel are prohibited from having a business relationship.
- Requiring all professional personnel to review the list of entities with which firm personnel are prohibited from having a business relationship before a professional or the spouse or de pendent of a professional obtains a security or financial interest in an entity.

.20 Policy 2: The firm's senior management sets a tone for the organization that stresses the importance of ethical values, especially as they pertain to accounting and auditing engagements, and communicates related policies and procedures to firm personnel. Multi-Office CPA Firm implements this policy by:

- Having the managing partner (through e-mails, letters, recordings, and so on), emphasize the concepts of independence, integrity, and objectivity (including the significance of client[8] engagements) in its professional development meetings, in the acceptance and continuance of clients and engagements, and in the performance of engagements. Because Multi-Office CPA Firm has a concentration of financial-institution clients, this also would include discussing the applicability of these concepts to engagements for financial institutions, such as the prohibition against any member of the engagement team having a loan with the institution, and the types of nonattest services that could affect independence.
- Providing each of its professional personnel with access to applicable professional and regulatory literature and advising them that they are expected to be familiar with that literature.
- Requiring periodic independence and ethics training for all professional personnel. Such training covers the firm's independence and ethics policies and the independence and ethical requirements of all applicable regulators.

---

[8] In broad terms, the significance of a client to a member or a firm refers to relationships that could diminish a practitioner's objectivity and independence in performing attest services. Examples of factors to consider in determining the significance of a client to an engagement partner, office, or practice unit include (*a*) the amount of time the partner, office, or practice unit devotes to the engagement, (*b*) the effect on the partner's stature within the firm as a result of his or her service to the client, (*c*) the manner in which the partner, office, or practice unit is compensated, or (*d*) the effect that losing the client would have on the partner, office, or practice unit.

- Informing personnel on a timely basis of those entities to which independence policies apply, by:
  - — Preparing and maintaining a list of entities with which firm personnel are prohibited from having a business relationship.
  - — Making the list available to personnel so they may evaluate their independence (including personnel new to the firm or an office).
  - — Notifying personnel on a timely basis of changes in the list.

.21 Policy 3: The firm establishes procedures to help mitigate possible threats to independence and objectivity. Multi-Office CPA Firm implements this policy by:

- Assigning a partner who is not otherwise associated with the engagement, or who practices in an office other than the office that performs the attest engagement, to review the engagement.
- Subjecting the assignment of engagement personnel to approval by another partner or manager.
- Periodically rotating engagement partners.
- Designing and implementing compensation systems that (*a*) reward partners and staff involved in the accounting and auditing practice for the quality of their work and their compliance with professional standards, and (*b*) provide disincentives for behavior, for example, the cross-selling of certain consulting services, that might be perceived as impairing the independence or objectivity of their work.
- Establishing additional procedures that provide safeguards when the firm performs audit or other attest work for (*a*) significant clients or (*b*) clients at which partners or other senior personnel are offered management positions, or accept offers of employment.

.22 Policy 4: The firm establishes procedures for confirming the independence of other firms, or firm personnel in associated member firms who are performing part of an engagement. Multi-Office CPA Firm implements this policy by:

- Describing in its policies and procedures manual the form, content, and frequency of independence representations to be obtained.
- Requiring that such representations be documented.

Personnel Management

.23 The objective of the personnel management element of a system of quality control is to provide the firm with reasonable assurance that all personnel have the appropriate characteristics to perform their assigned responsibilities competently. Attributes or qualities that enhance the competency of personnel who perform, supervise, or review work include integrity, objectivity, intelligence, judgment, experience, and motivation. Multi-Office CPA Firm satisfies this objective by establishing and maintaining the policies and procedures described in AAM section 10,200.24–.28.

.24 Policy 1: Personnel who are hired possess the characteristics that enable them to perform competently. Multi-Office CPA Firm implements this policy by maintaining firm-wide hiring standards and evaluating the firm's personnel needs, including:

- Designating a partner or other qualified individual in each office to be responsible for evaluating the overall personnel needs in that practice office and establishing hiring objectives based on factors such as existing clientele, anticipated growth, personnel turnover, and individual advancement.

- Developing and maintaining personnel policies and procedures that identify attributes, achievements, and experiences desired in entry-level and experienced personnel.
- Establishing criteria for evaluating personal characteristics such as integrity, competence, and motivation.
- Establishing guidelines for the additional procedures to be performed when hiring experienced personnel, such as performing background checks and inquiring about any outstanding regulatory actions.
- Preparing budgets that identify personnel needs at all levels.
- Identifying sources of employment candidates such as universities and executive recruiters.
- Selecting and training the individuals who will be interviewing candidates or otherwise participating in the hiring process.
- Summarizing and evaluating the results of the hiring process for each candidate, including approval of all hiring decisions.

.25 Policy 2: The firm assigns personnel (including partners) based on the knowledge, skills, and abilities required in the circumstances and the nature and extent of supervision needed. Multi-Office CPA Firm implements this policy by:

- Specifying the competencies that the practitioners-in-charge of accounting, auditing, and attest engagements (or other person responsible for supervising and signing or authorizing someone to sign the firm's report on such engagements) should possess. Such competencies include having an understanding of:
  — The role of the firm's system of quality control and the Code of Professional Conduct, both of which play critical roles in assuring the integrity of the accounting, auditing, and attest function to users of reports.
  — The performance, supervision, and reporting aspects of the engagement, which ordinarily are gained through participation or training in similar engagements.
  — The industry in which the client operates, including its organization and operating characteristics, sufficient to identify areas of high or unusual risk associated with the engagement and to evaluate the reasonableness of industry-specific estimates.
  — The professional standards applicable to the engagement being performed and to the industry in which the client operates. Such standards include accounting, auditing, and attestation standards, as well as rules and regulations issued by applicable regulators.
  — The skills that contribute to sound professional judgment, including the ability to exercise professional skepticism.
  — How the organization uses information technology, and the manner in which information systems are used to record and maintain financial information.
- Designating an appropriate person(s) in each office to be responsible for assigning personnel to engagements based on such factors as:
  — Engagement type, size, significance, complexity, and risk profile.
  — Specialized experience or expertise required and competencies gained through previous experience or education.
  — Need for and availability of staff and supervisors.
  — Timing of the work to be performed.
  — Continuity and rotation of personnel.

- — Opportunities for on-the-job training.
- — Situations for which independence or objectivity concerns exist.

- Establishing a policy for monitoring the continuation and rotation of engagement partners.

The individual who makes partner and manager assignments should be a partner, and in the case of high-risk engagements or significant client engagements, second-level approval of such assignments should be obtained, for example, from the industry partner or the quality assurance partner.

.26 Policy 3: Personnel participate in general and industry-specific continuing professional education (CPE) and professional development activities that should enable them to accomplish assigned responsibilities and satisfy applicable CPE requirements of the AICPA, state societies, state boards of accountancy, and other applicable regulators. Multi-Office CPA Firm implements this policy by:

- Designating a partner to oversee the development of firm requirements and materials for a professional development program covering subjects relevant to the firm's clients and services. Such responsibilities include:
  - — Establishing guidelines for participation by personnel in professional development programs, and considering the requirements of the AICPA, state boards of accountancy, and applicable regulators in establishing the firm's CPE requirements
  - — Maintaining appropriate documentation evidencing that personnel have met the professional education requirements of the firm, the AICPA, state boards of accountancy, and other applicable regulators.
  - — Providing an orientation program and training for new personnel to inform them of their professional responsibilities and firm policies.
  - — Preparing and providing publications and programs to inform personnel of their responsibilities and opportunities.
  - — Developing in-house staff training programs that focus on general and industry-specific accounting and auditing subjects, including audits of financial institutions.
- Communicating and distributing to personnel changes in accounting, auditing, attestation, and quality control standards, as well as independence, integrity, and objectivity requirements.
- Encouraging professional personnel at each level in the firm to participate in external professional development activities such as:
  - — Continuing professional education courses
  - — Meetings of professional organizations
  - — Serving on professional committees
  - — Writing for professional publications
  - — Speaking to professional groups

.27 Policy 4: Only those individuals who have the qualifications necessary to accomplish the responsibilities they will be called on to assume are selected for advancement. Multi-Office CPA Firm implements this policy by:

- Appointing a director of human resources to identify and communicate, in the firm's policies and procedures manual, the qualifications necessary to accomplish responsibilities at each professional level in the firm. This includes:
  - — Establishing criteria for evaluating personnel at each professional level and for advancing to the next higher level of responsibility. Such criteria give due recognition and reward to the development and maintenance of competence and commitment to ethical principles.

- — Developing evaluation forms for each professional-staff classification, including partners. Such forms include evaluation of performance quality and adherence to ethical principals.
- — Informing personnel that failure to adhere to the firm's policies and procedures regarding performance quality and commitment to ethical principles may result in disciplinary action.

- Assigning responsibility to a partner for making advancement and termination decisions for staff, and recommendations to the firm's management committee for manager and partner-level advancement and termination. Such responsibilities include:
  - — Identifying responsibilities and requirements for evaluation at each level and indicating who will prepare these evaluations and when they will be prepared.
  - — Reviewing evaluations on a timely basis with the individual being evaluated.
- Advising personnel regarding their progress and career opportunities by
  - — At least annually, summarizing and reviewing with personnel their performance evaluations, including assessing their progress with the firm. Considerations should include past performance, future objectives of the firm and the individual, assignment preferences, and career opportunities.
  - — Periodically evaluating partners by means of performance reviews, peer evaluations, or self-appraisals, as appropriate, to determine whether they continue to have the qualifications to accomplish their assigned responsibilities and to assume additional responsibilities.

.28 Policy 5: Partners and senior-level employees are compensated in a manner that provides an incentive and reward for quality work and for maintaining independence, integrity, and objectivity. Multi-Office CPA Firm implements this policy by:

- Establishing a compensation system that predominantly rewards accounting and auditing partners and senior-level employees for the quality of their accounting and auditing work. The compensation system:
  - — Takes into consideration firm feedback based on concurring reviews, internal inspections, and outside reviews of the work performed.
  - — Rewards partners and personnel for timely identifying significant and emerging accounting and auditing issues and for timely seeking consultation with firm experts
  - — Does not include any material rewards for the cross-selling of services.

Acceptance and Continuance of Clients and Engagements

.29 The objective of the acceptance and continuance of clients and engagements element of a system of quality control is to establish criteria for deciding whether to accept or continue a client relationship and whether to perform a specific engagement for a client. Such policies and procedures should provide the firm with reasonable assurance that:

- The likelihood of association with a client whose management lacks integrity is minimized.
- The firm undertakes only those engagements it can reasonably expect to complete with professional competence.
- The risks associated with providing professional services in particular circumstances are appropriately considered.
- An understanding with the client regarding the services to be performed is reached.

Multi-Office CPA Firm satisfies this objective, both with respect to the initial period for which the firm is performing its service and for subsequent periods, by establishing and maintaining the policies and procedures described in AAM section 10,200.30–.32.

.30 Policy 1: The firm evaluates factors that have a bearing on management's integrity. Multi-Office CPA Firm implements this policy by:

- Developing and maintaining a manual that contains policies and procedures related to the acceptance of prospective clients and the continuance of existing clients. Such policies and procedures state that the firm's clients should not present undue risks to the firm, including damage to the firm's reputation.
- Advising professional personnel that they are expected to be familiar with the firm's policies and procedures for the acceptance and continuance of clients.
- Obtaining and evaluating applicable information before accepting or continuing any client. The following are examples of such information:
    - Information regarding the client and its operations from sources such as annual reports, interim financial statements, reports to regulators, enforcement actions by regulators, and income tax returns.
    - Management's understanding of the nature and purpose of the services to be provided.
    - Information obtained from inquiries of third parties about the client, its management, and principals that may have a bearing on evaluating the client. Examples of such third parties are bankers, legal counsel, investment bankers, underwriters, and other members of the financial or business community who may have applicable knowledge. Inquiries also might be made regarding management's attitude toward compliance with regulators or legislative requirements and the presence of reportable conditions, especially those that management is unwilling to correct.
- Communicating with the predecessor accountant or auditor when required or suggested by professional standards. This communication also includes inquiries regarding the nature of any disagreements, and whether there is evidence of opinion-shopping.
- Assessing management's commitment to implementing and maintaining effective internal control.
- Assessing management's commitment to the appropriate application of generally accepted accounting principles.

If the firm is unable to obtain sufficient information about the prospective client after completing the steps listed above, or there is an indication that management or someone affiliated with the prospective client may be less than reputable, the firm conducts a background check of the business, its officers, and the person(s) in question by using an investigative firm and evaluates the information obtained regarding management's integrity.

.31 Policy 2: The firm (*a*) evaluates whether the engagement can be completed with professional competence, (*b*) undertakes only those engagements that can be completed with professional competence, and (*c*) appropriately considers the risk associated with providing professional services in particular circumstances.[9] Multi-Office CPA Firm implements this policy by:

- Evaluating whether the practice office has obtained or can reasonably expect to obtain the knowledge and expertise necessary to perform the engagement, for example, through the resources of another practice office.

[9] Such considerations would include the risk of providing professional services to significant clients or to other clients for which the practitioner's objectivity or the appearance of independence may be impaired.

- Defining high-risk engagements.
- Specifying conditions that trigger the requirement between annual audits to reevaluate a client or engagement. The following are examples of such conditions.
  - — Significant changes in the client, for example, a major change in ownership, senior client personnel, directors, advisers, the nature of the business, or its financial stability.
  - — Changes in the nature or scope of the engagement, for example, an initial public offering or a request to step down from an audit to a review engagement.
  - — Changes in the composition or strategic focus of the firm, for example, the inability to replace the loss of key personnel who are particularly knowledgeable about a specialized industry, or a decision by the CPA firm to discontinue services to clients in a particular industry.
  - — The existence of conditions that would have caused the firm to reject the engagement had such conditions existed at the time of the initial acceptance, for example, aggressive earnings management, unreliable processes for developing accounting estimates, questionable estimates by management, questions regarding the entity's ability to continue as a going concern, and other factors that may increase the risk of being associated with the client.
  - — The client's delinquency in paying fees. (This may also affect the firm's independence.)
  - — Engagements for entities operating in highly specialized or regulated industries, such as financial institutions, governmental entities, and employee benefit plans.
  - — Engagements for entities in the development stage.
- Obtaining relevant information to determine whether the relationship should be continued and establishing the frequency with which client continuance evaluations should be made.
- Evaluating the information obtained regarding acceptance or continuance of a client or engagement. The evaluation process includes the following steps:
  - — All information obtained about the client or the specific engagement is evaluated by the engagement partner, including information about the significance of the client to the firm,[10] and a recommendation is made as to whether the client or engagement should be accepted or continued.
  - — The engagement partner completes a client acceptance form and submits it to the managing partner of the practice office for approval.
  - — The engagement partner signs a step in the planning program noting that he or she has considered whether the client should be continued, and if conditions exist that trigger the requirement between annual audits to reevaluate a client or engagement, prepares a form documenting his or her rationale and conclusion regarding client continuance.
  - — The partner responsible for the quality control function evaluates and approves the recommendation made by the engagement partner. In certain defined circumstances, such as high-risk engagements, acceptance or continuance decisions also may require approval of the firm's managing partner.

.32 **Policy 3: The firm establishes an understanding with the client regarding the services to be performed.** Multi-Office CPA Firm implements this policy by requiring that for all engagements, the firm prepare a written engagement letter documenting the understanding with the client, and obtain the client's signature on that letter, thus minimizing the risk of misunderstandings regarding the nature, scope, and limitations of the services to be performed.

---

[10] See footnote 8.

Engagement Performance

.33 The objective of the engagement performance element of a system of quality control is to provide the firm with reasonable assurance that the work performed by engagement personnel meets applicable professional standards, regulatory requirements, and the firm's standards of quality. Policies and procedures for engagement performance encompass all phases of the design and execution of the engagement. To the extent appropriate and as required by applicable professional standards, these policies and procedures should cover planning, performing, supervising, reviewing, documenting, and communicating the results of each engagement. Policies and procedures also should require that personnel refer to authoritative literature or other sources and consult, on a timely basis, with individuals within or outside the firm when appropriate (for example, when addressing complex, unusual, or unfamiliar issues). Multi-Office CPA Firm satisfies this objective by establishing and maintaining the policies and procedures described in AAM section 10,200.34–.37.

.34 Policy 1: Planning for engagements meets professional, regulatory, and the firm's requirements. Multi-Office CPA Firm implements this policy by developing, maintaining, and providing personnel with the firm's policies and procedures manual which delineates the factors the engagement team should consider in the planning process, and the extent of documentation of these considerations. Planning considerations may vary depending on the size and complexity of the engagement. Planning generally includes:

- Assigning responsibility to the engagement partner for planning the engagement and assigning responsibilities to appropriate personnel during the planning phase.
- Developing or updating background information about the client.
- Considering client significance to the firm.
- For all initial audit clients designated as high risk by the firm, establishing a requirement for an independent review of planning considerations.
- Requiring planning documentation that includes:
  - — Proposed work programs tailored to the specific engagement.
  - — Staffing requirements, including the need for personnel with specialized knowledge who may have to be obtained from other practice offices.
  - — Consideration of the economic conditions affecting the client and its industry, and its potential effect on the conduct of the engagement.
  - — Consideration of risks and how they may affect the procedures to be performed.
  - — A budget that allocates a sufficient amount of time for the engagement to be performed in accordance with professional standards and the firm's quality control policies and procedures.
  - — Evidence of review of planning by an independent review partner.

.35 Policy 2: The engagement is performed, supervised, reviewed, documented, and reported (or communicated) in accordance with the requirements of professional standards, applicable regulators, and the firm. Multi-Office CPA Firm implements this policy by:

- Providing personnel with the firm's policies and procedures manual which:
  - — Prescribes the form and content of documentation of the work performed and conclusions reached, including forms, checklists, and questionnaires to be used in performing engagements.
  - — Prescribes the form in which instructions are to be given to other offices or other auditors performing part of an engagement, and the extent to which such work is to be reviewed and documented.

— Specifies the extent of overall engagement review required, at all professional levels, to ensure that the financial statements meet professional and firm presentation and disclosure requirements.

— Specifies the extent of review to be performed of required communications to management and the board of directors.

- Assigning responsibility for the review of all reports, financial statements, and documentation of the work performed and conclusions reached to a reviewer senior to the preparer in accordance with procedures outlined in the firm's manual to obtain reasonable assurance that:

— The nature, timing, and extent of procedures performed are consistent with risk assessments and the approach described in the planning documentation, and that exceptions are appropriately investigated. The appropriateness of planned procedures should be reconsidered if significant changes in risk factors occur or are identified between the planning phase of the engagement and the execution of procedures.

— Firm-prescribed forms, checklists, and questionnaires, tailored as appropriate, are used in performing and reporting on the engagement.

- Requiring a second review, by a partner or manager, of the report, financial statements, and selected documentation of the work performed and conclusions reached, as prescribed in the firm's policies and procedures manual. The extent of review varies based on the type of engagement. For example, engagements for financial institutions, high-risk engagements, and those performed for significant clients, as defined by the firm, receive the most extensive review.

- Adhering to the following firm guidelines regarding review of documentation of the work performed and conclusions reached, the financial statements, and documentation of the review process:

— All reviewers should have appropriate experience, competence, and responsibility and access to the firm's reference material and other resources.

— All work performed and the reports and financial statements issued are to be complete and comply with professional standards and firm policy.

— For each engagement, there should be appropriate documentation evidencing review of the documentation of the work performed and conclusions reached, the financial statements, and the report

- Requiring that all differences of professional judgment within an engagement team be resolved by the engagement and quality control partner. The resolution of the differences should be appropriately documented. If a member of the engagement team continues to disagree with the resolution, he or she may disassociate himself or herself from the resolution of the matter and should be offered the opportunity to document that a disagreement continues to exist.

.36 Policy 3: Establishing procedures for the review of high-risk engagements. Multi-Office CPA Firm implements this policy by developing procedures with respect to:

- The qualifications of partners performing independent reviews of high-risk engagements. The firm's procedures require that an independent review partner:

— Have sufficient technical expertise and experience.

— Carry out his or her responsibilities with objectivity and due professional care without regard to the relative positions of the audit engagement partner and the independent review partner.

— Not assume any of the responsibilities of the engagement partner or have responsibility for the audit of any significant subsidiaries, divisions, benefit plans, or affiliated or related entities.

- The nature, timing, and extent of the review. The firm's procedures require that the independent review partner:

— Discuss significant accounting, auditing, and financial reporting matters with the engagement partner.

— Discuss with the engagement partner the engagement team's identification and audit of high-risk transactions and account balances.

— Hold a discussion with the engagement team if there has been consultation regarding significant accounting, auditing, or financial reporting matters.

— Review documentation of the resolution of significant accounting, auditing, and financial reporting matters, including documentation of consultation with firm personnel or external sources.

— Review the summary of unadjusted audit differences, if one exists.

— Read the financial statements and auditor's report.

— Confirm with the engagement partner that there are no significant unresolved matters.

— Review the workpapers to the extent considered necessary or as required by firm policy.

— Complete his or her review before the release of the audit report or reissuance of the audit report if the performance of subsequent-events procedures is required by professional standards.

- The resolution of conflicting opinions between the engagement partner and the independent review partner regarding significant matters. The policy requires documentation of the resolution of conflicting opinions before the release of the audit report or reissuance of the audit report if the performance of subsequent-events procedures is required by professional standards.

- Documentation by the independent review partner. The firm requires:

— That the engagement files contain evidence that the firm's policies and procedures with respect to the requirement for independent partner review were complied with before issuance of the firm's report.

— Documentation that the independent review partner performed the procedures specified by the firm's policies.

— Documentation that no matters have come to the attention of the independent review partner that would cause him or her to believe that (*a*) the financial statements are not in conformity with U.S. generally accepted accounting principles in all material respects, or (*b*) the firm's audit was not performed in accordance with U.S. generally accepted auditing standards.

.37 Policy 4: The firm identifies areas and specialized situations for which consultation is necessary and requires personnel to refer to authoritative literature and practice aids and to consult, on a timely basis, with individuals within or outside the firm when appropriate, for example, when addressing complex, unusual, or unfamiliar issues. Multi-Office CPA Firm implements this policy by:

- Providing personnel with the firm's policies and procedures manual which specifies the firm's consultation policies and procedures. Areas or specialized situations that may require consultation include:

— Application of newly issued technical pronouncements.

— Industries with special accounting, auditing, or reporting requirements.

— Emerging practice problems.

— Choices among alternative generally accepted accounting principles upon initial adoption or when an accounting change is made.

— Reissuance of a report, consideration of omitted procedures after a report has been issued, or subsequent discovery of facts that existed at the date a report was issued.

— Filing requirements of regulators.

— Meetings with regulators at which the firm is to be called upon to support the application of generally accepted accounting principles or generally accepted auditing standards that have been questioned.

— Designating individuals within the firm as consultants in certain areas. Personnel are to consult with the designated individual when issues arise. If differences arise between the engagement partner and the consultant, the matter is to be resolved by the partner(s) responsible for the quality control function.

- Maintaining or providing access to adequate and up-to-date references in each office which includes materials related to specific industries, specialties, and regulatory requirements.
- Requiring that documentation of consultation include all relevant facts and circumstances, the sections of the professional literature used in making a determination, the conclusion reached, and the signatures of the engagement partner and consultant. This documentation is to be retained with the engagement documentation of the work performed and conclusions reached, and, at the discretion of the consultant, entered in a retrievable database to promote consistency in the application of generally accepted accounting principles in similar circumstances.

Monitoring

.38 The objective of the monitoring element of a system of quality control is to provide the firm with reasonable assurance that the policies and procedures relating to the other elements of quality control are suitably designed and effectively applied. Monitoring is an ongoing consideration and evaluation process. Multi-Office CPA Firm satisfies this objective by establishing and maintaining the policies and procedures described in AAM section 10,200.39–.42.

.39 Policy 1: The firm considers and evaluates, on an ongoing basis, the relevance and adequacy of its quality control policies and procedures. Multi-Office CPA Firm implements this policy by designating a partner or a management-level individual with appropriate authority to be responsible for quality assurance, including:

- Assuring that the firm's quality control policies and procedures and its audit methodology remain relevant and adequate. Factors to be considered include:

— Mergers and divestitures of portions of the practice.

— Changes in professional standards and other regulatory requirements applicable to the firm's practice.

— Results of inspections and peer reviews.

— Reviews of litigation and regulatory enforcement actions against the firm and others.

— The effect that changes in technology may have on a client's method of doing business.

— Changes in a client's industry that affect its operations, for example, overcapacity in the telecom industry.

— Changes in applicable AICPA membership requirements.

- Determining whether personnel have been appropriately informed of their responsibilities for maintaining the firm's standards of quality in performing their duties.
- Identifying the need to:

— Revise policies and procedures related to the other elements of quality control because they are ineffective or inappropriately designed.

— Improve compliance with firm policies and procedures related to the other elements of quality control.

.40 Policy 2: The firm considers and evaluates, on an ongoing basis, the appropriateness of its guidance materials and practice aids. Multi-Office CPA Firm implements this policy by:

- Reviewing and updating firm practice aids, such as audit programs, forms, and checklists, to reflect new or revised professional pronouncements.
- Issuing guidance regarding new professional standards, regulatory requirements, and related changes to firm policy.
- Soliciting comments from partners and managers as to the effectiveness of practice aids and tools.

.41 Policy 3: The firm considers and evaluates, on an ongoing basis, the effectiveness of its professional development programs. Multi-Office CPA Firm implements this policy by:

- Designating a partner or qualified individual in each office to review the summary of the evaluations of in-house training programs to determine whether the programs are achieving their objectives.
- Designating a partner or qualified individual in each office to review summaries of CPE records for that office's professional staff to determine that the office has established a means of tracking each individual's compliance with the requirements of the AICPA and other applicable regulators.
- Interviewing selected professional personnel regarding the effectiveness of training programs.
- Considering the results of the firm's inspection as it relates to the effectiveness of the firm's professional development program.
- Ascertaining whether inquiries received by individuals consulted within the firm indicate the need for additional CPE programs.

.42 Policy 4: The firm considers and evaluates, on an ongoing basis, compliance with its policies and procedures and with professional standards. Multi-Office CPA Firm implements this policy by assigning responsibility to its quality control partner for preparing inspection checklists and guidance materials, or using materials prepared by the AICPA for performing inspection procedures. These procedures include:

- Developing and coordinating the firm's inspection program to obtain feedback about the effectiveness of the firm's policies and procedures.
- Developing a plan to test a sample of engagements for compliance with the firm's policies and procedures. Such a review may be preissuance or postissuance.
- Reviewing the resolution of matters reported by professional personnel on independence-confirmation forms to determine that matters have been appropriately considered and resolved.
- Interviewing personnel at all professional management and staff levels to obtain information about operating procedures in practice offices, whether personnel are knowledgeable about firm policies and procedures, and whether such policies and procedures are being effectively communicated.
- Reviewing the following documentation to determine compliance with firm policies and procedures:
  — Personnel evaluations, including documentation of hiring and advancement decisions
  — Documentation of client acceptance and continuance decisions
  — Participants' evaluations of practice office training programs
  — Professional development records of personnel
  — Correspondence regarding the resolution of independence matters within the practice office
- Reviewing a cross-section of engagements from selected practice offices using the following criteria for inclusion in the sample selected:

— Engagements involving all partners and managers who have significant accounting and auditing responsibilities in the selected offices.

— Engagements for financial institutions.

— First-year engagements.

— Significant client engagements.

— Specialized industries with emphasis given to high-risk industries.

— Level of service performed (audit, review, compilation, and attestation).

— Level of attestation services performed (examination, review, and agreed-upon procedures).

— Engagements for which there have been complaints or allegations that the work performed by the firm fails to comply with professional standards, regulatory requirements, or the firm's system of quality control.

— Engagements in which there were significant disagreements between the quality review partner and the engagement partner.

- Summarizing findings resulting from the inspection procedures.
- Communicating findings to practice office personnel and determining the corrective actions to be taken for the engagements reviewed. These findings are discussed and communicated in a report issued to each office. The practice office responds regarding the specific corrective actions or steps to be taken to improve compliance with the firm's policies and procedures and professional standards.
- Preparing a summary inspection report for the firm's senior management that evaluates the overall results of the inspection to determine whether:

— The firm as a whole needs to improve compliance with the firm's policies and procedures.

— Revisions to the firm's quality control policies and procedures are necessary.

- Communicating in training programs, partner-manager meetings, and firm policy correspondence the need for improved compliance with the system of quality control.
- Communicating in partner-manager meetings and firm policy correspondence the need for changes in the system of quality control.
- Periodically reviewing the process for personnel evaluation and counseling to ascertain that:

— Procedures for evaluation and documentation are being followed on a timely basis.

— Personnel who have been promoted have achieved the applicable requirements for advancement.

— Personnel decisions are consistent with evaluations.

— Recognition is given to outstanding performance.

Chapter 3

SYSTEM OF QUALITY CONTROL FOR A CPA FIRM'S ACCOUNTING AND AUDITING PRACTICE—FIRM WITH A SINGLE OFFICE

.43 This chapter describes how a CPA firm that has a single office (Single-Office CPA Firm) implements each element of quality control in its accounting and auditing practice. Single-Office CPA Firm is a hypothetical firm with 1 office, 3 partners, and a total of 10 professionals. Its accounting and auditing practice has a concentration of employee benefit plans and the firm has no Securities and Exchange Commission (SEC) clients.[11] The firm uses practice aids that have been subjected to peer review in accordance with standards established by the AICPA. These practice aids are supplemented by oral and written communications from the firm's partners. To enhance communications, the firm provides its personnel with a written summary of its quality control policies and procedures that contains references to the detailed policies and procedures included in its practice aids.

Independence, Integrity, and Objectivity

.44 The objective of the independence, integrity, and objectivity element of a system of quality control is to provide a firm with reasonable assurance that personnel maintain independence (in fact and in appearance) in all required circumstances, perform all professional responsibilities with integrity, and maintain objectivity in discharging professional responsibilities. Single-Office CPA Firm satisfies this objective by establishing and maintaining the policies and procedures described in AAM section 10,200.45–.48.

.45 Policy 1: Personnel adhere to applicable independence, integrity, and objectivity requirements such as those in regulations, interpretations, and rules of the AICPA, state CPA societies, state boards of accountancy, state statutes, the U.S. Government Accountability Office[12] (GAO), Department of Labor (DOL), Federal Deposit Insurance Corporation (FDIC), and any other applicable regulators. Single-Office CPA Firm implements this policy by:

- Designating a quality assurance partner to review relevant pronouncements relating to independence, integrity, and objectivity, answer questions, and resolve matters.
- Subscribing to the AICPA *Professional Standards* service.
- Identifying circumstances for which documentation of the resolution of matters is appropriate.
- Assigning responsibility to specified individuals for obtaining written representations from personnel, upon hire and on an annual basis, concerning whether they are familiar with and in compliance with professional standards and the firm's policies and procedures regarding independence, integrity, and objectivity.
- Assigning responsibility to specified individuals for reviewing these independence representations for completeness, and for resolving reported exceptions.
- Requiring all professional personnel assigned to an engagement to sign a step in the engagement program attesting to his or her independence.
- Having a partner, or an individual designated by the partner, periodically review unpaid fees from clients to ascertain whether any outstanding amounts impair the firm's independence.

---

[11] If Single-Office CPA Firm were to be engaged to perform audit services for an issuer, it might need to revise its quality control policies and procedures to comply with Public Company Accounting Oversight Board (PCAOB) standards and to reflect Securities and Exchange Commission (SEC) requirements applicable to audits of issuers.

[12] The U.S. Government Accountability Office was formerly known as the U.S. General Accounting Office.

- Establishing a system for identifying all services performed for each client.

.46 Policy 2: The firm's senior management sets a tone for the organization that stresses the importance of ethical values, especially as they pertain to accounting and auditing engagements, and communicates related policies and procedures to firm personnel. Single-Office CPA Firm implements this policy by:

- Having the managing partner (through e-mails, letters, recordings, and so on), emphasize the concepts of independence, integrity, and objectivity (including the significance of client[13] engagements) in its professional development meetings, in the acceptance and continuance of clients and engagements, and in the performance of engagements.
- Providing each of its professional personnel with access to applicable professional and regulatory literature and advising them that they are expected to be familiar with that literature.
- Requiring periodic independence and ethics training for all professional personnel. Such training covers the firm's independence and ethics policies and the independence and ethical requirements of all applicable regulators.
- Informing personnel on a timely basis of those entities to which independence policies apply, by:
  - — Preparing and maintaining a list of entities with which firm personnel are prohibited from having a business relationship.
  - — Making the list available to personnel so they may evaluate their independence (including personnel new to the firm).
  - — Notifying personnel on a timely basis of changes in the list.

.47 Policy 3: The firm establishes procedures to help mitigate possible threats to independence and objectivity. Single-Office CPA Firm implements this policy by:

- Assigning a second partner, who is not otherwise associated with the engagement, to perform a concurring review of all audit and attest engagements.
- Designing and implementing compensation systems that (*a*) reward partners and staff involved in the accounting and auditing practice for the quality of their work and their compliance with professional standards, and (*b*) provide disincentives for behavior that might be perceived as impairing the independence or objectivity of their work, for example, the cross-selling of certain consulting services.
- Establishing additional procedures that provide safeguards when the firm performs audit or other attest work for (*a*) significant clients or (*b*) clients at which partners or other senior personnel are offered management positions, or accept offers of employment.

.48 Policy 4: The firm establishes procedures for confirming the independence of other firms who are performing part of an engagement. Single-Office CPA Firm implements this policy by:

- Using practice aids that prescribe the form, content, and frequency of independence representations to be obtained.
- Requiring that such representations be documented.

---

[13] In broad terms, the significance of a client to a member or a firm refers to relationships that could diminish a practitioner's objectivity and independence in performing attest services. Examples of factors to consider in determining the significance of a client to an engagement partner, office, or practice unit include (*a*) the amount of time the partner, office, or practice unit devotes to the engagement, (*b*) the effect on the partner's stature within the firm as a result of his or her service to the client, (*c*) the manner in which the partner, office, or practice unit is compensated, or (*d*) the effect that losing the client would have on the partner, office, or practice unit.

Personnel Management

.49 The objective of the *Personnel Management* element of a system of quality control is to provide the firm with reasonable assurance that all personnel have the competency to perform their assigned responsibilities. Attributes or qualities that enhance the competency of personnel who perform, supervise, or review work include integrity, objectivity, intelligence, judgment, experience, and motivation. Single-Office CPA Firm satisfies this objective by establishing and maintaining the policies and procedures in AAM section 10,200.50–.53.

.50 Policy 1: Personnel who are hired possess the characteristics that enable them to perform competently. Single-Office CPA Firm implements this policy by:

- Designating a qualified individual in the firm to be responsible for:
  - — Managing the human resources function.
  - — Evaluating the firm's personnel needs by considering factors such as existing clientele, anticipated growth, personnel turnover, and individual advancement.
  - — Developing criteria for determining which individuals will be involved in the interviewing and hiring process.
- Establishing an understanding among the partners about the attributes, achievements, and experiences desired in entry-level and experienced personnel.
- Establishing criteria for evaluating personal characteristics such as integrity, competence, and motivation.
- Setting guidelines for the additional procedures to be performed when hiring experienced personnel, such as performing background checks and inquiring about any outstanding regulatory actions.

.51 Policy 2: The firm assigns personnel (including partners) based on the knowledge, skills, and abilities required in the circumstances, and the nature and extent of supervision needed. Single-Office CPA Firm implements this policy by:

- Designating an appropriate person in each office to be responsible for assigning personnel to engagements based on such factors as:
  - — Engagement type, size, significance, complexity, and risk profile.
  - — Specialized experience and expertise required for the engagement and competencies gained through prior experience.
  - — Personnel availability.
  - — Timing of the work to be performed.
  - — Continuity and rotation of personnel.
  - — Opportunities for on-the-job training.
  - — Situations for which independence or objectivity concerns exist.
- Specifying the competencies that the practitioners-in-charge of the firm's accounting, auditing, and attestation engagements (or other persons responsible for supervising and signing or authorizing someone to sign the firm's report on such engagements) should possess to accomplish their engagement responsibilities. These competencies include having an understanding of:
  - — The role of the firm's system of quality control and the AICPA's Code of Professional Conduct in assuring the integrity of the accounting, auditing, and attest functions to users of reports.
  - — The performance, supervision, and reporting aspects of the engagement, which ordinarily are gained through participation or training in similar engagements.

— The professional standards applicable to the engagement and the industry in which the client operates. Such standards include accounting, auditing, and attestation standards, as well as rules and regulations issued by other applicable regulators.

— The industry in which the client operates, including its organization and operating characteristics, sufficient to identify areas of high or unusual risk associated with the engagement, and to evaluate the reasonableness of industry-specific estimates.

— The skills that contribute to sound professional judgment, including the ability to exercise professional skepticism.

— How the organization uses information technology, and the manner in which information systems are used to record and maintain financial information.

The individual who makes partner and manager assignments should be a partner, and in the case of high-risk engagements or those performed for significant clients, second-level approval of such assignments should be obtained from the managing or other partner.

.52 **Policy 3: Personnel participate in general and industry-specific continuing professional education (CPE) and professional development activities that should enable them to accomplish assigned responsibilities and satisfy applicable CPE requirements of the AICPA, state CPA societies, state boards of accountancy, and other applicable regulators.** Single-Office CPA Firm implements this policy by:

- Assigning responsibility to a partner to maintain an office professional development program that:
  — Requires personnel to participate in professional development programs in accordance with firm guidelines and in subjects that are relevant to their responsibilities.
  — Takes into account the requirements of the AICPA and state boards of accountancy in establishing the firm's CPE requirements.
  — Provides course materials for and maintains records of CPE completed by professional personnel.
  — Provides an orientation and training program for new hires.
- Encouraging participation by personnel at each level in the firm in other professional development activities such as external professional development programs, including graduate-level and self-study courses, membership in professional organizations, serving on professional committees, writing for professional publications, and speaking to professional groups.
- Communicating and distributing to personnel, when applicable, changes in accounting, auditing, and independence requirements, and the firm's guidance with respect to these requirements.

.53 **Policy 4: Only those individuals who have the qualifications necessary to accomplish the responsibilities they will be called on to assume are selected for advancement.** Single-Office CPA Firm implements this policy by:

- Assigning responsibility to a partner for making advancement and termination decisions. Such responsibilities include:
  — Identifying criteria for evaluating personnel at each professional level and for advancement to the next higher level of responsibility. Such criteria give due recognition and reward to the development and maintenance of competence and commitment to ethical principles.
  — Informing firm personnel about the criteria for advancement to the next higher level of responsibility.
  — Designating personnel responsible for preparing evaluations and determining when they should be prepared.
  — Informing personnel that failure to adhere to the firm's policies and procedures regarding performance quality and commitment to ethical principles may result in disciplinary action.

— Using forms that include the applicable qualifications when evaluating the performance of personnel. Such forms include qualifications related to performance quality and adherence to ethical principles.

— Reviewing evaluations on a timely basis with the individual being evaluated.

- Counseling personnel regarding their progress and career opportunities by:

— Annually summarizing and reviewing with personnel the evaluation of their performance, including an assessment of their progress with the firm. Considerations should include past performance, future objectives of the individual and the firm, the individual's assignment preferences, and career opportunities.

— Periodically evaluating partners by means of counseling, peer evaluation, or self-appraisal, as appropriate.

.54 Policy 5: Partners and senior-level employees are compensated in a manner that provides an incentive and reward for quality work and for maintaining independence, integrity, and objectivity. Single-Office CPA Firm implements this policy by:

- Establishing a compensation system that predominantly rewards accounting and auditing partners and senior-level employees for the quality of their accounting and auditing work. The compensation system:

— Takes into consideration firm feedback based on concurring reviews, internal inspections, and outside reviews of the work performed.

— Rewards partners and personnel for timely (*a*) identifying significant and emerging accounting and auditing issues and (*b*) seeking consultation with firm experts.

— Does not include any material rewards for the cross-selling of services.

Acceptance and Continuance of Clients and Engagements

.55 The objective of the acceptance and continuance of clients and engagements element of a system of quality control is to establish criteria for deciding whether to accept or continue a client relationship and whether to perform a specific engagement for that client. Such policies and procedures should provide the firm with reasonable assurance that:

- The likelihood of association with a client whose management lacks integrity is minimized.
- The firm undertakes only those engagements that can be completed with professional competence.
- The risks associated with providing professional services in particular circumstances are appropriately considered.
- An understanding with the client regarding the services to be performed is reached.

Single-Office CPA Firm satisfies this objective, with respect to the initial period for which the firm is performing its service and for subsequent periods, by establishing and maintaining the policies and procedures described in AAM section 10,200.56–.58.

.56 Policy 1: The firm evaluates factors that have a bearing on management's integrity. Single-Office CPA Firm implements this policy by:

- Informing personnel of the firm's policies and procedures for accepting and continuing clients, including those outlined in the firm's practice aids.
- Obtaining and evaluating available financial information regarding the client and its operations such as annual reports, interim financial statements, reports to and from regulators, income tax returns, and credit reports before accepting or continuing a client.

- Making inquiries of client management about the nature and purpose of the services to be provided.
- Making inquiries of the client's bankers, factors, attorneys, credit services, and others who have business relationships with the entity.
- Communicating with the predecessor accountant or auditor when required or suggested by professional standards. If the contemplated engagement is an audit, the partner should ensure that AU section 315, *Communications Between Predecessor and Successor Auditors*, (AICPA, *Professional Standards*, vol. 1) is followed, specifically AU section 315.09.

If after taking the steps described above, the firm is unable to obtain sufficient information about the prospective client, or there is an indication that management or someone affiliated with the prospective client may be less than reputable, the firm conducts a background check of the business, its officers, and the person(s) in question. The firm accomplishes this by using the services of a company specializing in background checks and evaluating the information obtained regarding management's integrity.

.57 **Policy 2: The firm (*a*) evaluates whether the engagement can be completed with professional competence, (*b*) undertakes only those engagements that can be completed with professional competence, and (*c*) considers the risk associated with providing professional services in particular circumstances.** Single-Office CPA Firm implements this policy by:

- Evaluating whether the firm has obtained or can reasonably expect to obtain the knowledge and expertise necessary to perform the engagement.
- Specifying conditions that trigger the requirement to reevaluate a specific client or engagement. The following are examples of such conditions:
  — Significant changes in the client, for example, a major change in senior client personnel, ownership, advisers, the nature of its business, or the financial stability of the client.
  — Changes in the nature or scope of the engagement, including requests for additional services.
  — Changes in the composition of the firm, for example, the loss of and inability to replace key personnel who are particularly knowledgeable about a specialized industry.
  — The decision to discontinue services to clients in a particular industry.
  — The existence of conditions that would have caused the firm to reject the client or engagement had such conditions existed at the time of the initial acceptance.
  — The client has been delinquent in paying fees. (This may also affect the firm's independence.)
  — Engagements for entities operating in highly specialized or regulated industries, including financial institutions, governmental entities, and employee benefit plans.
  — Engagements that require a burdensome amount of time to complete relative to the available resources of the firm.
  — Engagements for entities in the development stage.
  — Engagements in which the client has ignored prior recommendations, for example, recommendations that address deficiencies in internal control.
- Obtaining relevant information to determine whether the relationship should be continued, and establishing a frequency for evaluations (for example, continuance decisions should be made at least annually).
- Evaluating the information obtained regarding acceptance or continuance of the client or engagement by having:

— The engagement partner evaluate the information obtained about the client or the specific engagement, including information about the significance of the client to the firm,[14] and make a recommendation about whether the client or engagement should be accepted or continued.

— The engagement partner complete a client acceptance form and submit it to the managing partner for approval.

— The engagement partner sign a step in the planning program noting client continuance, and complete a form documenting client continuance if conditions exist that trigger the requirement between annual audits to reevaluate a client or engagement.

— The managing partner evaluate and approve the recommendation made by the engagement partner. If the managing partner recommends not accepting a client or discontinuing a client relationship, the managing partner discusses his or her reasons for the acceptance or continuance decision with the other partners.

.58 Policy 3: The firm obtains an understanding with the client regarding the services to be performed. Single-Office CPA Firm implements this policy by obtaining, for all engagements, a written and signed engagement letter thus minimizing the risk of misunderstanding regarding the nature, scope, and limitations of the services to be performed.

Engagement Performance

.59 The objective of the *Engagement Performance* element of a system of quality control is to provide the firm with reasonable assurance that the work performed by engagement personnel meets the applicable professional standards, regulatory requirements, and the firm's standards of quality. Policies and procedures for engagement performance encompass all phases of the design and execution of the engagement. To the extent appropriate and as required by applicable professional standards, these policies and procedures should cover planning, performing, supervising, reviewing, documenting, and communicating the results of each engagement. Policies and procedures also should require that personnel refer to authoritative literature or other sources and consult, on a timely basis, with individuals within or outside the firm, when appropriate. Single-Office CPA Firm satisfies this objective by establishing and maintaining the policies and procedures described in AAM section 10,200.60–.63.

.60 Policy 1: Planning for engagements meets professional, regulatory, and the firm's requirements. Single-Office CPA Firm implements this policy by maintaining and providing personnel with the firm's practice aids which prescribe the factors the engagement team should consider in the planning process and the extent of documentation of those considerations. Planning considerations may vary depending on the size and complexity of the engagement, but generally include:

- Assigning responsibilities to appropriate personnel during the planning phase.
- Developing or updating background information on the client and the engagement.
- Developing a planning document that includes:
  — Proposed work programs tailored to the specific engagement.

  — Staffing requirements and the need for specialized knowledge.

  — The economic conditions affecting the client and its industry and their potential effect on the conduct of the engagement.

  — The audit risks, including fraud considerations, affecting the client and the engagement and how they may affect the procedures performed.

[14] See footnote 13.

— A budget that allocates a sufficient amount of time for the engagement to be performed in accordance with professional standards and the firm's quality control policies and procedures.

.61 Policy 2: The engagement is performed, supervised, reviewed, documented, and reported (or communicated) in accordance with the requirements of professional standards, applicable regulators, and the firm. Single-Office CPA Firm implements this policy by:

- Providing adequate supervision during the course of an engagement. The training, ability, and experience of the personnel are considered when assigning supervisors to the engagement.
- Requiring that a written work program be used in all engagements.
- Adhering to the guidelines set forth by the firm for the form and content of documentation of the work performed and conclusions reached. Such documentation includes standardized forms, checklists, and questionnaires used in the performance of engagements and explanations, when required, of how the firm integrates such aids into engagements.
- Requiring documentation in the working papers in accordance with professional standards and the firm's policies.
- Adhering to the following guidelines established by the firm regarding review of the documentation of the work performed and conclusions reached, the financial statements, and reports:

— All reviewers are to have appropriate experience, competence, and responsibility.

— All work performed and the reports and financial statements issued are to be complete and comply with professional standards and firm policy.

— For each engagement, there should be evidence of appropriate review of documentation of the work performed and conclusions reached, the financial statements, and the report.

— All differences of professional judgment among members of an engagement team are to be resolved by the engagement partner and the managing partner. The resolution of differences should be appropriately documented. If a member of the team continues to disagree with the resolution, he or she may disassociate himself or herself from the resolution of the matter and should be offered the opportunity to document that a disagreement continues to exist.

.62 Policy 3: Establishing procedures for the review of high-risk engagements. Single-Office CPA Firm implements this policy by developing procedures with respect to:

- The qualifications of partners performing independent reviews of high-risk engagements. The firm's procedures require that an independent review partner:

— Have sufficient technical expertise and experience.

— Carry out his or her responsibilities with objectivity and due professional care without regard to the relative positions of the audit engagement partner and the independent review partner.

— Not assume any of the responsibilities of the engagement partner or have responsibility for the audit of any significant subsidiaries, divisions, benefit plans, or affiliated or related entities.

- The nature, timing, and extent of the review. The firm's procedures require that the independent review partner:

— Discuss significant accounting, auditing, and financial reporting matters with the engagement partner.

— Discuss with the engagement partner the engagement team's identification and audit of high-risk transactions and account balances.

— Hold a discussion with the engagement team if there has been consultation regarding significant accounting, auditing, or financial reporting matters.

— Review documentation of the resolution of significant accounting, auditing, and financial reporting matters, including documentation of consultation with firm personnel or external sources.

— Review the summary of unadjusted audit differences, if one exists.

— Read the financial statements and auditor's report.

— Confirm with the engagement partner that there are no significant unresolved matters.

— Review the workpapers to the extent considered necessary or as required by firm policy.

— Complete his or her review before the release of the audit report or reissuance of the audit report if the performance of subsequent-events procedures is required by professional standards.

- The resolution of conflicting opinions between the engagement partner and the independent review partner regarding significant matters. The policy requires documentation of the resolution of conflicting opinions before the release of the audit report or reissuance of the audit report if the performance of subsequent-events procedures is required by professional standards.

- Documentation by the independent review partner. The firm requires:

  — That the engagement files contain evidence that the firm's policies and procedures with respect to the requirement for independent partner review were complied with before issuance of the firm's report.

  — Documentation that the independent review partner performed the procedures specified by the firm's policies.

  — Documentation that no matters have come to the attention of the independent review partner that would cause him or her to believe that (*a*) the financial statements are not in conformity with U.S. generally accepted accounting principles in all material respects, or (*b*) the firm's audit was not performed in accordance with U.S. generally accepted auditing standards.

.63 Policy 4: The firm identifies areas and specialized situations for which consultation is necessary and requires personnel to refer to authoritative literature and practice aids, and consult, on a timely basis, with individuals within or outside the firm when appropriate, for example, when addressing complex, unusual, or unfamiliar issues. Single-Office CPA Firm implements this policy by:

- Informing personnel of the firm's consultation policies and procedures.

- Requiring consultation in specialized areas or situations with appropriate individuals within and outside the firm when matters such as the following arise:

  — The application of newly issued technical pronouncements.

  — Industries with special accounting, auditing, or reporting requirements, including unusually complex employee benefit plans.

  — Emerging practice problems.

  — Choices among alternative generally accepted accounting principles upon initial adoption or when an accounting change is made.

  — Reissuance of a report, consideration of omitted procedures after a report has been issued, or subsequent discovery of facts that existed at the date a report was issued.

  — Filing requirements of regulators.

  — Meetings with regulators at which the firm is to be called on to support the application of generally accepted accounting principles or generally accepted auditing standards that have been questioned.

- Providing all professional personnel with access to adequate and current reference materials.
- Including all relevant facts, circumstances, the professional literature used, and conclusions reached in the engagement documentation of the work performed and conclusions reached.
- Documenting the resolution of differences of opinion. If there is an unresolved disagreement, an outside source may be consulted to assist in determining the appropriate application of accounting principles.

Monitoring

.64 The objective of the *Monitoring* of a system of quality control is to provide the firm with reasonable assurance that the policies and procedures relating to the other elements of quality control are suitably designed and effectively applied. Monitoring is an ongoing consideration and evaluation process. Single-Office CPA Firm satisfies this objective by establishing and maintaining the policies and procedures described in AAM section 10,200.65–.68.

.65 Policy 1: The firm considers and evaluates, on an ongoing basis, the relevance and adequacy of its quality control policies and procedures. Single-Office CPA Firm implements this policy by designating a partner or a management-level individual to be responsible for quality assurance, including:

- Assuring that the firm's quality control policies and procedures and its audit methodology remain relevant and adequate. Factors to be considered include:
  - — Mergers and divestitures of portions of the practice.
  - — Changes in professional standards or other regulatory requirements applicable to the firm's practice.
  - — Results of inspections and peer reviews.
  - — Review of litigation and regulatory enforcement actions against the firm and its personnel.
  - — The effect that changes in technology may have on a client's method of doing business.
  - — Changes in a client's industry that may affect its operations.
  - — Changes in applicable AICPA membership requirements.
- Determining whether personnel have been appropriately informed of their responsibilities for maintaining the firm's standards of quality in performing their duties.
- Identifying the need to:
  - — Revise policies and procedures related to the other elements of quality control because they are ineffective or inappropriately designed.
  - — Improve compliance with firm policies and procedures related to the other elements of quality control.

.66 Policy 2: The firm considers and evaluates, on an ongoing basis, the appropriateness of its guidance materials and practice aids. Single-Office CPA Firm implements this policy by:

- Reviewing and evaluating firm practice aids, such as audit programs, forms, and checklists, and considering whether they reflect recent professional pronouncements.
- Providing information during staff meetings regarding new professional standards, regulatory requirements, and the related changes that should be made to firm practice aids.

.67 Policy 3: The firm considers and evaluates, on an ongoing basis, the effectiveness of its professional development activities. Single-Office CPA Firm implements this policy by:

- Designating a management-level individual to be responsible for reviewing the professional development policies and procedures to determine whether they are appropriate, effective, and meet the needs of the firm.
- Designating a management-level individual to review summaries of the CPE records of the firm's professional personnel to evaluate each individual's compliance with the requirements of the AICPA and other applicable regulators.
- Soliciting information from the firm's personnel during staff meetings regarding the effectiveness of training programs.

.68 Policy 4: The firm considers and evaluates, on an ongoing basis, its compliance with firm policies and procedures and with professional standards. For purposes of illustrating policy 4, two scenarios are described: scenario 1 illustrates how Single-Office CPA Firm would satisfy the objective of policy 4 by reviewing engagements throughout the year; scenario 2 illustrates how Single-Office CPA Firm would implement policy 4 by reviewing engagements during a designated period in the year.

.69 In determining which scenario is appropriate, consideration should be given to SQCS No. 3, (See QC section 30.03–.07), which establishes guidance for determining the extent of the inspection procedures to be performed, including those related to individual engagements.

.70 ***Scenario 1: Reviewing Engagements Throughout the Year.*** Single-Office CPA Firm implements policy 4 by:

- Designating a partner or management-level individual not previously associated with the engagement to perform either a preissuance or postissuance review of the engagement.
- Establishing the approach for performing preissuance or postissuance reviews, for example, the comprehensiveness of the review and the frequency for summarizing findings (for example, monthly, quarterly). The comprehensiveness of the review of selected engagements should be similar to that performed in an inspection or peer review.
- Designating the forms and checklists to be used during the engagement and functional element reviews and the extent of the documentation required. (Examples of functional elements are the human resources function and the firm's library.)
- Selecting a cross-section of engagements at the beginning of the monitoring year for preissuance or postissuance review and reevaluating that selection throughout the year as circumstances dictate. Criteria used for selecting engagements include:
  - — Significant specialized industries with emphasis on high-risk engagements.
  - — Audits of the financial statements of employee benefit plans.
  - — First-year engagements.
  - — Significant client engagements.
  - — Level of service performed (that is, audit, review, compilation, and attest).
  - — Engagements performed by all partners and other management level personnel having accounting and auditing responsibilities.
  - — Engagements performed under government auditing standards (Yellow Book engagements).
  - — Engagements for which there have been complaints or allegations from firm personnel, clients, or other third parties that the work performed by the firm failed to comply with professional standards, regulatory requirements, or the firm's system of quality control.

— Engagements in which there were significant disagreements between the quality review partner and the engagement partner.

- Reviewing the selected engagements. Deficiencies identified as a result of this process are summarized and evaluated to determine whether:

  — Additional emphasis should be placed on specific areas or industries in future engagements.

  — Existing policies and procedures should be modified to prevent the deficiencies noted from recurring.

- At least annually, reviewing other engagement files for compliance with the firm's quality control policies and procedures including reviewing correspondence regarding consultation on independence, integrity, and objectivity matters, for example, assessments of significant clients, and acceptance and continuance decisions.

- Reviewing the resolution of matters reported by professional personnel regarding independence to determine that matters have been appropriately considered and resolved.

- Summarizing the deficiencies noted resulting from the preissuance and postissuance reviews.

- Preparing a summary of the deficiencies noted so that the partner or management group may incorporate any recommended changes in the firm's policies and procedures.

- Communicating to all professional personnel the deficiencies noted and related changes in quality control procedures.

- Following up on planned corrective actions to determine whether the actions were taken as planned and whether they achieved the intended objectives.

.71 ***Scenario 2: Reviewing a Sample of Engagements During a Designated Period of the Year.*** Single-Office CPA Firm implements policy 4 by:

- Designating a partner to be responsible for performing an annual inspection using guidance prepared by the AICPA for performing inspection procedures. These procedures include reviewing a cross-section of engagements using the following criteria in selecting engagements:

  — Significant specialized industries with emphasis on high-risk engagements.

  — Audits of the financial statements of employee benefit plans.

  — First-year engagements.

  — Significant client engagements.

  — Level of service performed (that is, audit, review, compilation, and attest).

  — Engagements performed by all partners and other management level personnel having accounting and auditing responsibilities.

  — Engagements performed under government auditing standards (Yellow Book engagements).

  — Engagements for which there have been complaints or allegations from firm personnel, clients, or other third parties that the work performed by the firm failed to comply with professional standards, regulatory requirements, or the firm's system of quality control.

  — Engagements in which there were significant disagreements between the quality review partner and the engagement partner.

- Establishing an approach and timetable for performing the inspection procedures and determining the forms and checklists to be used during the inspection and the extent of documentation required.

- Deciding how long to retain detailed inspection documentation (as opposed to summaries).
- Selecting a sample of engagements for review and reevaluating that selection throughout the process.
- Selecting other engagement files to determine compliance with the firm's quality control policies and procedures and reviewing the selected engagements.
- Reviewing correspondence regarding consultation on independence, integrity, and objectivity matters, and acceptance and continuance decisions.
- Reviewing the resolution of matters reported by professional personnel regarding independence to determine that matters have been appropriately considered and resolved.
- Summarizing findings resulting from the inspection procedures.
- Preparing a summary inspection report for the partner or management group that evaluates the overall results of the inspection and sets forth any recommended changes that should be made to the firm's policies and procedures.
- Reviewing the recommended corrective actions and reaching final conclusions as to the actions to be taken.
- Communicating inspection findings and quality control changes to all professional personnel.
- Following up on planned corrective actions to determine whether those actions were taken and whether they achieved the intended objective(s).

Chapter 4

SYSTEM OF QUALITY CONTROL FOR A CPA FIRM'S ACCOUNTING PRACTICE—SOLE PRACTITIONER

.72 This chapter describes how a sole practitioner (Sole Practitioner, CPA) implements each element of quality control in his or her accounting practice. Sole Practitioner, CPA is a hypothetical firm of which Sole Practitioner is the sole owner. The firm has no professional staff; however, on occasion Sole Practitioner, CPA, hires per diem professionals. Her accounting practice consists only of engagements subject to Statements on Standards for Accounting and Review Services (SSARSs). She uses practice aids that have been subjected to peer review in accordance with standards established by the AICPA. Sole Practitioner, CPA, uses per diem personnel to assist her and recognizes that her policies and procedures would have to change if she were to perform audit or attest engagements, or hire full-time or part-time professional staff.

Independence, Integrity, and Objectivity

.73 The objective of the *Independence, Integrity, and Objectivity* element of a system of quality control is to provide a firm with reasonable assurance that personnel maintain independence (in fact and in appearance) in all required circumstances, perform all professional responsibilities with integrity, and maintain objectivity in discharging their professional responsibilities. Sole Practitioner, CPA, satisfies this objective by establishing and maintaining the policy and procedures described in AAM section 10,200.74–.75.

.74 **Policy 1: I adhere to applicable independence, integrity, and objectivity requirements such as those in regulations, interpretations, and rules of the AICPA, state CPA societies, state boards of accountancy, state statutes, and other applicable regulators.** Sole Practitioner, CPA, implements this policy by:

- Subscribing to AICPA *Professional Standards*.
- Consulting the AICPA Web site for information about changes in professional ethics and independence standards.
- Reviewing unpaid client fees to ascertain whether any outstanding amounts impair the firm's independence.
- Reviewing relevant pronouncements published in the Journal of Accountancy relating to independence, integrity, and objectivity, and retaining relevant issues of the *Journal of Accountancy*.
- Ensuring that per diem personnel are aware of financial, family, business, and other relationships that may be prohibited by applicable requirements.
- Signing a step on each engagement program attesting to her independence, and requiring per diem personnel to do the same.
- Attending periodic professional training in ethics and independence.
- Complying with SSARSs by disclosing in the accountant's compilation report instances in which the firm is not independent.
- Considering the significance of the client to the firm.[15]

---

[15] In broad terms, the significance of a client to a member or a firm refers to relationships that could diminish a practitioner's objectivity and independence in performing attest services. Examples of factors to consider in determining the significance of a client to an engagement partner, office, or practice unit include (*a*) the amount of time the partner, office, or practice unit devotes to the engagement, (*b*) the effect on the partner's stature within the firm as a result of his or her service to the client, (*c*) the manner in which the partner, office, or practice unit is compensated, or (*d*) the effect that losing the client would have on the partner, office, or practice unit.

.75 Policy 2: I establish procedures to help mitigate possible threats to my independence and objectivity. Sole Practitioner, CPA implements this policy by:

- Subjecting review engagements for significant clients (or other high-risk engagements) to preissuance review by another firm.

Personnel Management

.76 The objective of the personnel management element of a system of quality control is to provide a firm with reasonable assurance that all personnel have the competency to perform their assigned responsibilities. Attributes or qualities that enhance the competency of personnel who perform, supervise, or review work include integrity, objectivity, intelligence, judgment, experience, and motivation. Sole Practitioner, CPA, satisfies this objective by establishing and maintaining the policy and procedures described in AAM section 10,200.77.

.77 Policy 1: I maintain the knowledge, skills, and abilities required in the circumstances by participating in general and industry-specific continuing professional education (CPE) and professional development activities that should enable me to accomplish my responsibilities and satisfy applicable CPE requirements of the AICPA, state CPA societies, state boards of accountancy, and other applicable regulators. I also monitor the compliance of per diem employees with CPE requirements. Sole Practitioner, CPA, implements this policy by:

- Maintaining the competencies necessary to accomplish responsibilities related to each of the firm's engagements.
- Establishing a professional development program that takes into account the requirements of the AICPA and state boards of accountancy.
- Participating in external professional development programs, including graduate-level and self-study courses.
- Joining and becoming an active member of professional organizations.
- Serving on professional committees, writing for professional publications on topics she is knowledgeable about, and participating in other professional activities.
- Considering changes in the applicable professional standards when determining her professional development program.
- Setting criteria that per diem personnel must meet to competently perform engagements, for example:
  - — Determining that per diem personnel are in compliance with the applicable professional education requirements of the AICPA, state boards of accountancy, and state CPA societies.
  - — Obtaining and retaining documentation of such compliance.
- Evaluating the knowledge and expertise required to perform an engagement prior to accepting the client or engagement.
- Receiving professional publications, such as state society journals, to keep abreast of changes in accounting standards and any client industry-specific pronouncements.
- Consulting the AICPA Web site for information about changes in professional standards.

Acceptance and Continuance of Clients and Engagements

.78 The objective of the acceptance and continuance of clients and engagements element of a system of quality control is to establish criteria for deciding whether to accept or continue a client relationship and whether to perform a specific engagement for a client. Such policies and procedures should provide the firm with reasonable assurance that:

- The likelihood of association with a client whose management lacks integrity is minimized.
- The firm undertakes only those engagements that can be completed with professional competence.
- The risks associated with providing professional services in particular circumstances are appropriately considered.
- An understanding with the client regarding the services to be performed is reached.

Sole Practitioner, CPA, satisfies this objective, with respect to the initial period for which the firm is performing its service and for subsequent periods, by establishing and maintaining the policies and procedures described in AAM section 10,200.79–.81.

.79 Policy 1: I evaluate factors that have a bearing on management's integrity. Sole Practitioner, CPA, implements this policy by:

- Obtaining information such as the following before accepting or continuing a client:
  - — The nature and purpose of the services to be provided.
  - — Information regarding the client and its operations from sources such as prior-year reports, internally generated financial statements (if applicable), income tax returns, and credit reports.
- Inquiring of third parties such as bankers, factors, and legal counsel about management's integrity.
- Communicating with the predecessor accountant when required or suggested by professional standards.[16]
- Evaluating the information obtained regarding management's integrity.

.80 Policy 2: I accept or continue to perform only those engagements I can complete with professional competence, and appropriately consider the risk associated with providing professional services in particular circumstances. Sole Practitioner, CPA, implements this policy by:

- Establishing a cut-off date by which evaluations of engagements should be performed, for example, before work on the current-year engagement begins.
- Considering conditions, such as the following, that require reevaluation of a client or specific engagement, and obtaining the relevant information to determine whether the relationship should be continued:
  - — Significant changes in the client, for example, a major change in ownership, senior client personnel, directors, advisers, the nature of the business, or the financial stability of the client.
  - — Changes in the nature or scope of the engagement, including requests for additional services.
  - — Client significance.
  - — Matters that would have caused the firm to reject the client or engagement had such conditions existed at the time of the initial acceptance.
  - — The client has been delinquent in paying fees. (This also may affect the firm's independence.

[16] AR section 400, *Communications Between Predecessor and Successor Accountants*(AICPA, *Professional Standards*, vol. 2), provides guidance on communications between a predecessor and successor accountant when the successor accountant decides to communicate with the predecessor accountant. It also requires a successor accountant who becomes aware of information that leads him or her to believe the financial statements reported on by the predecessor accountant may require revision to request that the client communicate this information to the predecessor accountant.

- Determining if she has the knowledge and expertise to perform the engagement or whether it reasonably can be obtained.
- Evaluating the information obtained regarding the engagement, making the acceptance or continuance decision, and documenting her evaluation or conclusion in a memorandum or by signing off next to the relevant item in a practice aid.

.81 Policy 3: I establish an understanding with the client regarding the services to be performed. Sole Practitioner, CPA, implements this policy by:

- Adhering to all requirements set forth in professional standards regarding obtaining an understanding with the client.
- Requiring that the understanding with the client be documented either through an engagement letter or in a memorandum.

Engagement Performance

.82 The objective of the engagement performance element of a system of quality control is to provide the firm with reasonable assurance that the work performed by engagement personnel meets the applicable professional standards, regulatory requirements, and the firm's standards of quality. Policies and procedures for engagement performance encompass all phases of the design and execution of the engagement. To the extent appropriate and as required by applicable professional standards, these policies and procedures should cover planning, performing, supervising, reviewing, documenting, and communicating the results of each engagement. Policies and procedures also should require that personnel refer to authoritative literature or other sources and consult, on a timely basis, with individuals within or outside the firm, when appropriate, for example, when dealing with complex, unusual, or unfamiliar issues. Sole Practitioner, CPA, satisfies this objective by establishing and maintaining the policies and procedures described in AAM section 10,200.83–.85.

.83 Policy 1: I plan engagements to meet professional standards and the firm's requirements. Sole Practitioner, CPA, implements this policy by adhering to professional standards regarding the planning process and the extent of documentation of the planning, if applicable. Engagement planning considerations may include:

- Developing or updating client information.
- Assessing the significance of the client to her firm.
- Obtaining an engagement letter for engagements performed under AR section 100.20, *Compilation and Review of Financial Statements*, (AICPA, *Professional Standards*, vol. 1) requires the accountant to either issue a compilation report or document an understanding with the entity through the use of an engagement letter when the accountant submits financial statements to a client that are not expected to be used by a third party.)
- Reviewing prior financial statements and accountants' reports.
- Using work programs and applicable reporting and disclosure checklists.

.84 Policy 2: I perform, supervise, review, document, and report (or communicate) in accordance with the requirements of professional standards and the firm. Sole Practitioner, CPA, implements this policy by:

- Requiring the use of appropriate practice aids in all engagements.
- Maintaining the availability of current practice aids and AICPA professional standards.

- Documenting the work performed in accordance with professional standards and the firm's policy.
- Reviewing and initialing all engagement documentation prepared by per diem personnel.

.85 Policy 3: I identify areas and specialized situations for which consultation is necessary. I require personnel to refer to authoritative literature and practice aids and consult, on a timely basis, with individuals outside the firm when appropriate, for example, when addressing complex, unusual, or unfamiliar issues. Sole Practitioner, CPA, implements this policy by:

- Maintaining access to current technical references to assist in resolving practice problems.
- Referring to the AICPA's Technical Hotline or other qualified individuals if a practice problem arises for which the firm needs additional expertise.
- Requiring that documentation of consultation include all relevant facts and circumstances and references to professional literature used in the analysis of the matter and the conclusion reached. This documentation is retained with the engagement documentation.

Monitoring

.86 The objective of the monitoring element of a system of quality control is to provide the firm with reasonable assurance that the procedures relating to the other elements of quality control are suitably designed and effectively applied. Monitoring is an ongoing consideration and evaluation process. Sole Practitioner, CPA, satisfies this objective by establishing and maintaining the policies and procedures described in AAM section 10,200.87–.90.

.87 Policy 1: I consider and evaluate, on an ongoing basis, the relevance and adequacy of my quality control policies and procedures. Sole Practitioner, CPA, implements this policy by reviewing all policies and procedures and revising those affected by changes in professional standards or the nature of her practice.

.88 Policy 2: I consider and evaluate, on an ongoing basis, the appropriateness of my guidance materials and practice aids. Sole Practitioner, CPA, implements this policy by reviewing and determining that the firm's practice aids are current and reflect recent professional pronouncements and changes in her practice.

.89 Policy 3: I consider and evaluate, on an ongoing basis, the effectiveness of professional development activities. Sole Practitioner, CPA, implements this policy by:

- Reviewing CPE records to determine whether the classroom training and self-study programs she uses are appropriate for the firm's practice.
- Reviewing CPE records to determine compliance with the requirements of the AICPA and other applicable regulatory agencies.

.90 Policy 4: I consider and evaluate, on an ongoing basis, compliance with my policies and procedures, and with professional standards. Sole Practitioner, CPA, implements this policy by:

- Performing a postissuance review of selected engagements within six months of the completion of the engagements.[17]

[17] A postissuance review may be performed as part of an inspection. A sole proprietor may consider engaging another CPA to perform the inspection to obtain a fresh look at the engagement. See AAM section 10,200.71, "Scenario 2: Reviewing a Sample of Engagements During a Designated Period of the Year," for a description of how a firm considers and evaluates, on an ongoing basis, compliance with a firm's policies and procedures by performing an annual inspection.

- Including in the postissuance review, engagements for which there have been complaints or allegations from clients or third parties that the work failed to comply with professional standards, regulatory requirements, or the firm's system of quality control.
- Placing additional emphasis to correct certain deficient areas in future engagements.
- Determining if existing policies and procedures should be modified so that any identified deficiencies do not recur.
- Reviewing compliance with the firm's policies and procedures related to independence, integrity, and objectivity; personnel management; acceptance and continuance of clients and engagements; and engagement performance
- Considering the results of the firm's monitoring and peer review findings to ensure that the competencies necessary to accomplish responsibilities are maintained for each of the firm's engagements.
- Responding to notification of the need for peer review, scheduling, and completion of peer review on a timely basis, in accordance with professional standards and the requirements of applicable state boards of accountancy.
- Reporting all compilation and review engagements to the firm's peer reviewer.
- Demonstrating compliance with the monitoring element of quality control by summarizing the results of the procedures in AAM section 10,200.86–.90 as they relate to the firm's quality control policies and procedures. Although the form and content of that documentation is a matter of judgment, the illustration in AAM section 10,200.91 is an example of such documentation.

.91

Table 1: Summary of Quality Control Monitoring System For the Calendar Year 200X

Element of Quality Control and Applicable Policies	*Reviewer's Initials and Date Reviewed*	*Location of Additional Documentation*
Independence, integrity, and objectivity		
Policy 1. Adhering to applicable independence, integrity, and objectivity requirements such as those in regulations, interpretations, and rules of the AICPA, state CPA societies, state boards of accountancy, state statutes, and other applicable regulators.	JB 6/30/0X	Independence confirmation files
Policy 2. Establishing procedures to help mitigate possible threats to my independence and objectivity.	JB 6/30/0X	Independence confirmation files
Personnel management		
Policy 1. Maintaining the knowledge, skills, and abilities required in the circumstances by participating in general and industry-specific continuing professional education (CPE) and professional development activities that should enable me to accomplish my responsibilities and satisfy applicable CPE requirements of the AICPA, state CPA society, state boards of accountancy, and other applicable regulators. Also, monitoring for compliance the CPE requirements of per diem employees.	JB 6/30/0X	Personnel files

Element of Quality Control and Applicable Policies	*Reviewer's Initials and Date Reviewed*	*Location of Additional Documentation*
Acceptance and continuance of clients and engagements		
Policy 1. Evaluating factors that have a bearing on management's integrity.	JB 6/30/0X	Client acceptance files and client engagement files
Policy 2. Accepting or continuing to perform only those engagements I can complete with professional competence, and appropriately considering the risk associated with providing professional services in particular circumstances.	JB 6/30/0X	Engagement files
Policy 3. Establishing an understanding with the client regarding services to be performed.	JB 6/30/0X	Engagement files
Engagement performance		
Policy 1. Planning engagements to meet professional standards and the firm's requirements.	JB 6/30/0X	Engagement files
Policy 2. Performing, supervising, reviewing, documenting, and reporting (or communicating) in accordance with the requirements of professional standards and the firm.	JB 6/30/0X	Engagement files
Policy 3. Identifying areas and specialized situations for which consultation is necessary, and requiring personnel to refer to authoritative literature and practice aids, and consult, on a timely basis, with individuals outside the firm when appropriate.	JB 6/30/0X	Engagement files
Monitoring		
Policy 1. Considering and evaluating, on an ongoing basis, the relevance and adequacy of my quality control policies and procedures.	JB 6/30/0X	Inspection/monitoring file
Policy 2. Considering and evaluating, on an ongoing basis, the appropriateness of my guidance materials and practice aids.	JB 6/30/0X	Inspection/monitoring file
Policy 3. Considering and evaluating, on an ongoing basis, the effectiveness of professional development activities.	JB 6/30/0X	Inspection/monitoring file
Policy 4. Considering and evaluating, on an ongoing basis, compliance with my policies and procedures, and with professional standards.	JB 6/30/0X	Inspection/monitoring file

Chapter 5

SYSTEM OF QUALITY CONTROL FOR AN ALTERNATIVE PRACTICE STRUCTURE

.92 An alternative practice structure, as referred to in this Practice Aid, is a nontraditional structure in the practice of public accounting that contains an attest and a nonattest portion. Alternative practice structures are described in Interpretation No. 101-14, "The Effect of Alternative Practice Structures on the Applicability of Independence Rules," under Rule 101, *Independence* (AICPA, *Professional Standards*, vol. 1, ET sec. 101.16), and is included in AAM section 10,280. The closely aligned CPA Firm has no Securities and Exchange Commission (SEC) clients.[18] This chapter describes quality control policies and procedures relevant to alternative practice structures when certain portions of the CPA firm's system of quality control:

- Reside at the non-CPA-owned entity, or
- Operate in conjunction with the system of quality control of the non-CPA-owned entity.

Elements of quality control that might reside in a non-CPA-owned entity include:

- Independence, integrity, and objectivity requirements.
- Personnel management.
- Monitoring.

This chapter describes quality control policies and procedures that should reside in the non-CPA-owned entity or its affiliated companies, and are related to:

- Independence, integrity, and objectivity
- Personnel management.
- The monitoring of independence, integrity, objectivity, and personnel management.

Independence, Integrity, and Objectivity

.93 The objective of the *Independence, Integrity, and Objectivity* element of a system of quality control is to provide the firm with reasonable assurance that personnel maintain independence (in fact and in appearance) in all required circumstances, perform all professional responsibilities with integrity, and maintain objectivity in discharging professional responsibilities. A CPA firm that is closely aligned with a non-CPA-owned entity satisfies this objective by ensuring that the non-CPA-owned entity establishes and maintains the policies and procedures described in section 10,200.94–.96.

.94 Policy 1: The non-CPA-owned entity adheres to applicable independence, integrity, and objectivity requirements such as those in regulations, interpretations, and rules of the AICPA, state CPA societies, state boards of accountancy, state statutes, and other applicable regulators. The non-CPA-owned entity implements this policy by:

- Developing policies and procedures to ensure the independence of the CPA firm as required by the applicable aforementioned regulators. (The non-CPA entity is required to be independent only in the context of its alignment with the CPA firm; it does not perform any attest functions, so its independence is not relevant.)

---

[18] If the closely aligned CPA firm were to be engaged to perform audit services for an issuer, the non-CPA-owned entity or its affiliated companies might need to revise their quality control policies and procedures to comply with Public Company Accounting Oversight Board (PCAOB) standards and to reflect Securities and Exchange Commission (SEC) requirements applicable to audits of issuers.

- Designating an officer to be responsible for providing guidance, answering questions, monitoring compliance, and resolving matters concerning independence, integrity, and objectivity of the CPA firm.
- Determining when consultation with outside sources regarding independence, integrity, and objectivity matters is required.
- Reviewing written representations from direct and indirect superiors[19] and others as applicable, and resolving potential independence, integrity, and objectivity matters.
- Maintaining documentation of the resolution of independence, integrity, and objectivity matters.
- Requiring entity personnel to obtain sufficient training and education to accomplish their responsibilities with respect to independence, integrity, and objectivity.
- Obtaining from the CPA firm a current list of all entities with which firm personnel are prohibited from having a business relationship[20]
- Obtaining written representations from personnel of the non-CPA-owned entity, upon hire and on an annual basis, stating that they are familiar with and in compliance with the non-CPA-owned entity's policies and procedures regarding independence, integrity, and objectivity.

.95 **Policy 2: Personnel of the non-CPA-owned entity are familiar with policies and procedures regarding independence, integrity, and objectivity.** The non-CPA-owned entity implements this policy by:

- Providing all of its personnel with access to its policies and procedures and guidance materials related to independence, integrity, and objectivity, for example, manuals, memoranda, and databases containing professional and regulatory literature.
- Advising personnel of the non-CPA-owned entity that the following financial or other relationships, circumstances, or activities involving either individuals or entities may be prohibited:
  - — Business relationships with the CPA firm's clients or with non-clients that have investor or investee relationships with the CPA firm's clients.
  - — Loans to and from the CPA firm's clients, including loans from the CPA firm's financial-institution clients.
  - — Family members who are employed by the CPA firm's clients, or who serve as director, officer, manager, or in other audit-sensitive positions with clients of the CPA firm, including not-for-profit organizations.
  - — Past due fees from the CPA firm's clients.
  - — Services in which the service provider assumes some of the responsibilities of client management.
  - — Performing bookkeeping services for Securities and Exchange Commission (SEC) clients of the CPA firm.

---

[19] Direct superiors are defined to include those persons so closely associated with a partner or manager who is a covered member, that such persons can directly control the activities of such partner or manager. For this purpose, a person who can directly control is the immediate superior of the partner or manager who has the power to direct the activities of that person so as to be able to directly or indirectly (for example, through another entity over which the direct superior can exercise significant influence) derive a benefit from that person's activities. Examples would be the person who has day-to-day responsibility for the activities of the partner or manager and is in a position to recommend promotions and compensation levels. Indirect superiors are those persons who are one or more levels above direct superiors. Generally, this would start with persons in an organization structure to whom direct superiors report and go up the line from there.

[20] Examples of business relationships prohibited by independence standard-setting bodies such as the AICPA, U.S. Government Accountability Office (GAO; formerly the General Accounting Office), and U.S. Department of Labor (DOL) because they might impair independence include being an investor in a joint venture with a client, or serving as a board member on the board of an audit client.

- — Client relationships with the non-CPA-owned entity in which the CPA firm leases employees, facilities, and so on.
- — Situations in which personnel of the non-CPA-owned entity act as promoters, underwriters, voting trustees, directors, or officers of the CPA firm's clients.
- — Direct and material financial interests in clients of the CPA firm.
- — Material investments by the CPA firm's clients in the non-CPA-owned entity that allow the clients to exercise significant influence over the non-CPA-owned entity.

- Advising personnel of the non-CPA-owned entity during professional development meetings, in memoranda, or in electronic communications of:
  - — All direct superiors, and all activities in which the firm is prohibited from engaging, as defined in the firm's independence policies and procedures.[21]
  - — All indirect superiors, and all activities in which the firm is prohibited from engaging, as defined by the non-CPA-owned entity's policies and procedures.
- Obtaining client lists from the CPA firm to inform all personnel, on a timely basis, of clients of the CPA firm to which independence policies apply.
- Obtaining documented representations from all non-CPA-entity personnel, including those defined as direct and indirect superiors or supervisors of affiliated issuers,[22] upon hire and on an annual basis thereafter, stating that they are familiar with and in compliance with policies and procedures regarding independence, integrity, and objectivity.
- Assigning responsibility for obtaining, maintaining, and reviewing those representations for completeness, and resolving reported exceptions with the non-CPA-owned entity's chief executive.
- Requiring the chief executive of the non-CPA-owned entity to review unpaid fees from clients of the CPA firm to ascertain whether any outstanding amounts impair the CPA firm's independence.

.96 Policy 3: The *top-tier company*[23] maintains a system of quality control to ensure that its personnel and indirect superiors[24] adhere to all applicable independence, integrity, and objectivity requirements, such as those in regulations, interpretations, and rules of the AICPA, state CPA societies, state boards of accountancy, state statutes, and other applicable regulators. The non-CPA-owned entity implements this policy by:

- Designating an individual to be responsible for:
  - — Designing and directing the quality control activities at the top-tier company and disseminating information to all subsidiaries and affiliated entities, all subsidiaries associated with CPA firms, and all CPA firms closely aligned with company subsidiaries.
  - — Maintaining documentation of the resolution of all independence, integrity, and objectivity questions.
  - — Identifying significant shareholders qualifying as indirect superiors, and obtaining a comprehensive list of entities with which the indirect superiors are associated.

---

[21] Examples of business relationships prohibited by independence standard-setting bodies such as the AICPA, GAO, and DOL because they might impair independence include being an investor in a joint venture with a client that is material to the client, or serving as a board member on the board of an audit client. Examples of prohibited activities include providing certain valuation and information technology services to an audit client. Readers should refer to the rules of specific standard-setters to determine the extent and relevance of any prohibition.

[22] Affiliated issuers include the top-tier company and all entities consolidated in the top-tier company's financial statements. Individuals in these entities are not in situations in which a direct superior can exercise significant influence.

[23] The top-tier company is the parent company of the non-CPA-owned entity, which may be an issuer.

[24] Indirect superiors generally are involved in regional management of direct superiors; thus, they need to adhere to requirements.

— Comparing the names of the indirect superiors and their associated entities with the list of attest clients of CPA firms closely aligned with company subsidiaries to ensure that such individuals or associated companies are not receiving attest services from associated CPA firms.

— Ensuring that indirect superiors review lists of all attest clients of CPA firms closely aligned with company subsidiaries, and represent their independence.

— Reviewing all independence representations and resolving conflicts noted on those representations.

- Providing all company personnel and indirect superiors with access to the company's policies and procedures with respect to independence, integrity, and objectivity.
- Maintaining a database, accessible to all company personnel including direct and indirect superiors, of affiliated issuers and clients of CPA firms that are issuers and are closely aligned with the company or its subsidiaries.
- Obtaining written representations from all leased or per diem personnel[25] and indirect superiors of companies that provide leased or per diem personnel, upon hire and on an annual basis, stating that they are familiar with and in compliance with the non-CPA-owned entity's policies and procedures regarding independence, integrity, and objectivity and that they are independent with respect to the associated CPA firm's attest clients.
- Providing the CPA firm with a representation that all leased or per diem personnel and indirect superiors are independent with respect to the CPA firm's attest clients.

Personnel Management

.97 The objective of the *Personnel Management* element of a system of quality control is to provide the non-CPA-owned entity with reasonable assurance that leased or per diem personnel have the characteristics that will enable them to competently perform their assigned responsibilities for the CPA firm. Attributes or qualities that enhance the capability of personnel who perform, supervise, or review work include integrity, objectivity, intelligence, judgment, competence, experience, and motivation. A CPA firm closely aligned with a non-CPA-owned entity satisfies this objective by ensuring that the non-CPA-owned entity establishes and maintains the policies and procedures described in AAM section 10,200.98–.100 with regard to its leased or per diem personnel.

.98 **Policy 1: Leased or per diem personnel possess characteristics that enable them to competently perform and review engagements.** The non-CPA-owned entity implements this policy by:

- Designating an individual to be responsible for hiring and managing human resources on behalf of the CPA firm.
- Reviewing the CPA firm's personnel requirements for attest engagements to ensure that sufficient and capable staff persons are available to perform those engagements.
- Establishing criteria for hiring professionals on behalf of the CPA firm that include the attributes, achievements, and experiences desired in entry-level and experienced personnel. Such criteria should assist in evaluating (*a*) the personal characteristics of professionals, such as, integrity, competence, and motivation, and (*b*) whether professionals can competently perform responsibilities within the CPA firm. Guidelines should be established for the additional procedures to be performed when hiring experienced personnel, such as performing background checks and inquiring about any outstanding regulatory actions.

[25] Leased or per diem personnel are professional personnel who devote at least 25 percent of their time to performing attest engagements, or who have partner- or manager-level responsibility for the overall supervision or review of such engagements.

- Establishing criteria for determining which individuals will be involved in interviewing and hiring personnel on behalf of the CPA firm.

.99 **Policy 2: Leased or per diem personnel participate in general and industry-specific continuing professional education (CPE) and other professional activities that enable them to accomplish assigned responsibilities and satisfy applicable CPE requirements of the AICPA, state CPA societies, state accountancy boards, and other regulatory agencies.** The non-CPA-owned entity implements this policy by:

- Designating an individual to be responsible for CPE and professional development activities, including maintaining CPE records and course material for leased and per diem personnel.
- Establishing policies that require individuals performing audits, reviews, compilations, or attestation engagements for the CPA firm to participate in CPE related to accounting and auditing.
- Establishing policies requiring all leased or per diem personnel to be in compliance with the professional education requirements of the boards of accountancy in states where they are licensed, and with the AICPA, state societies, and other regulatory agencies, as applicable.
- Establishing an orientation and training policy for new hires who will devote at least 25 percent of their time to performing audits, reviews, compilations, or attestation engagements for the CPA firm, or who will have partner- or manager-level responsibility for the overall supervision or review of such engagements.
- Ensuring that leased or per diem personnel are informed about changes in accounting and auditing standards, independence, integrity, and objectivity requirements, and the CPA firm's technical policies and procedures that are relevant to them.
- Encouraging leased or per diem personnel to participate in other professional activities, such as graduate-level courses, membership in professional organizations, and serving on professional committees.

.100 **Policy 3: Leased or per diem personnel who are selected for advancement have the qualifications to accomplish the responsibilities they will be called upon to assume. Factors to consider include the degree of technical training and proficiency required in the circumstances, and the nature and extent of supervision of assignments relating to audits, reviews, compilations, or attestation engagements performed by the CPA firm.** The non-CPA-owned entity implements this policy by:

- Establishing a system for providing information to the CPA firm so that it can make appropriate personnel decisions, such as assignments for audits, reviews, compilations, and attestation engagements.
- Designating an individual to be responsible for:
  - — Establishing criteria for the evaluation and advancement of leased or per diem personnel, including appropriate documentation.
  - — Making advancement and termination decisions, including identifying responsibilities and requirements for evaluation at each professional level, and deciding who will prepare those evaluations.
  - — Developing appropriate evaluation forms.
  - — Reviewing performance evaluations with personnel, discussing future objectives of the CPA firm and the individual, and discussing assignment preferences.
  - — Periodically evaluating owners of the CPA firm by means of peer evaluation or self-appraisal.
  - — Counseling leased or per diem personnel regarding their progress and career opportunities.

- Establishing an arrangement with the CPA firm in which a supervisory-level individual of the CPA firm is responsible for assisting the non-CPA-owned entity in making advancement and termination decisions concerning leased or per diem personnel. This would include evaluating personnel needs, establishing hiring objectives, and providing final approval.
- Developing a system for evaluating the performance of leased or per diem personnel and advising them of their progress.

Monitoring

.101 The objective of the monitoring element of a system of quality control is to provide the firm with reasonable assurance that the policies and procedures relating to the other elements of quality control are suitably designed and effectively applied. Monitoring is an ongoing consideration and evaluation process. A CPA firm closely aligned with a non-CPA-owned entity satisfies this objective by ensuring that the non-CPA-owned entity establishes and maintains the policies and procedures described in AAM section 10,200.102–.103.

.102 **Policy 1: The non-CPA-owned entity considers and evaluates, on an ongoing basis, the relevance and adequacy of its policies and procedures related to independence, integrity, and objectivity which are applicable to all its personnel, and its personnel management policies and procedures applicable to leased or per diem personnel.** The non-CPA-owned entity implements this policy by designating qualified individuals to be responsible for monitoring quality assurance, including:

- Ensuring that the non-CPA-owned entity's quality control guidance is regularly updated to reflect changes in professional standards related to independence, CPE, and other regulatory requirements by:
  - — Implementing a system of ongoing monitoring of the effectiveness and appropriateness of policies and procedures related to independence, objectivity, and integrity as applicable to all personnel of the non-CPA-owned entity and compliance with those policies and procedures.
  - — Ensuring, on an ongoing basis, that guidance materials and any practice aids the non-CPA-owned entity provides to the CPA firm are appropriately designed to assist the CPA firm in adhering to quality control standards.
  - — Maintaining a system to ensure that the practice aids regarding independence and other technical matters provided by the non-CPA-owned entity are updated to reflect current professional standards and regulatory requirements, and are relevant to and effective for the CPA firm's practice.
  - — Ensuring that the non-CPA-owned entity informs and provides guidance to leased or per diem personnel regarding new professional standards, regulatory requirements, and related changes to relevant CPA firm policies or practice aids.

.103 **Policy 2: The non-CPA-owned entity considers and evaluates, on an ongoing basis, compliance with its policies and procedures related to independence, integrity, and objectivity which are applicable to all of its personnel, as well as personnel management policies and procedures applicable to leased or per diem personnel.** The non-CPA-owned entity implements this policy by having the designated qualified individuals responsible for monitoring:

- Consider and evaluate, on an ongoing basis, compliance with policies and procedures related to independence, integrity, and objectivity, as applicable to all of its personnel, by:
  - — Performing timely monitoring of policies and procedures, on an on-going basis, relating to independence, integrity, and objectivity to evaluate compliance with those policies and procedures. The monitoring policies and procedures could include an internal audit function, ongoing review by senior management, or engaging an independent CPA to examine and report on compliance.

- — Summarizing and communicating the results of the monitoring to all of its personnel, and communicating any suggested changes to policies and procedures to the appropriate levels of personnel in the non-CPA-owned entity.
- — Correcting noted deficiencies based on the results of the monitoring to ensure compliance with policies and procedures.

- Engage an independent CPA to report on whether the top-tier company complied with its system of quality control with respect to its policies and procedures for independence, integrity, and objectivity. This engagement should be an attestation engagement performed annually under Statement on Standards for Attestation Engagements , (AICPA, *Professional Standards*, vol. 1, AT section 101). See Policy 3 in AAM section 10,200.96 for information about quality control policies and procedures at the top-tier firm.

.104

Glossary of Selected Terms

Accounting and auditing practice (attest practice). A practice that performs audit, attest, compilation, review, and any other services for which standards have been established by the AICPA Auditing Standards Board or the AICPA Accounting and Review Services Committee under Rules 201 or 202 of the AICPA Code of Professional Conduct (AICPA, *Professional Standards*, vol., ET secs. 201.01 and 202.01). Although standards for other engagements may be established by other AICPA technical committees, engagements performed in accordance with those standards are not encompassed in the definition of an accounting and auditing practice.

Firm. A form of organization permitted by law or regulation whose characteristics conform to resolutions of the Council of the American Institute of Certified Public Accountants that is engaged in the practice of public accounting. Except for purposes of applying Rule 101: *Independence*, (AICPA, *Professional Standards*, vol. 2, ET sec. 101) the firm includes the individual partners thereof.

Foreign-associated firm. A firm domiciled outside of the United States and its territories that is a member of, correspondent with, or similarly associated with an international firm or international association of firms.

Issuer. Paragraph 7 of Section 2, "Definitions," of the Sarbanes-Oxley Act of 2002 states, "The term 'issuer' means an issuer (as defined in section 3 of the Securities Exchange Act of 1934 (15 U.S.C. 78c)), the securities of which are registered under section 12 of that Act (15 U.S.C. 78l), or that is required to file reports under section 15(d) (15 U.S.C. 78o(d)), or that files or has filed a registration statement that has not yet become effective under the Securities Act of 1933 (15 U.S.C. 77a et seq.), and that it has not withdrawn."

Partner. A proprietor, shareholder, equity, or non-equity partner or any individual who assumes the risks and benefits of firm ownership or who is otherwise held out by the firm to be the equivalent of any of the aforementioned.

Personnel. All individuals who perform professional services for which the firm is responsible, whether or not they are CPAs.

Policy. A definite course or method of action to guide and determine present and future decisions. It is a guide to decision making under a given set of circumstances within the framework of a firm's objectives, goals, and management philosophies.

Practitioner-in-charge. An individual who is responsible for supervising accounting, auditing, and attestation engagements and signing or authorizing an individual to sign the accountant's report on such engagements.

Procedure. A particular way of accomplishing something, an established way of doing things, a series of steps followed in a definite regular order. It provides for a consistent and repetitive approach to actions.

Terms Related to Alternative Practice Structures

For additional information about these terms, see Interpretation No. 101-14 of Rule 101, Independence, *"The Effect of Alternative Practice Structures on the Applicability of Independence Rules" (AICPA, Professional Standards, vol. 1, ET sec. 101.16), reprinted in AAM section 10,280.*

Alternative practice structure. A nontraditional structure in the practice of public accounting consisting of an attest and a nonattest portion of the practice. The attest portion is conducted through a firm owned and controlled by CPAs. The nonattest portion is conducted through a separate issuer or nonissuer firm owned and controlled by individuals who are not CPAs.

Direct superiors. Those persons so closely associated with a partner or manager who is a covered member,[26] that such persons can directly control the activities of such partner or manager. For this purpose, a person who can directly control is the immediate superior of the partner or manager who has the power to direct the activities of that person so as to be able to directly or indirectly (for example, through another entity over which the direct superior can exercise significant influence) derive a benefit from that person's activities. Examples would be the person who has day-to-day responsibility for the activities of the partner or manager and is in a position to recommend promotions and compensation levels.

Indirect superiors. Those persons who are one or more levels above direct superiors. Generally, this would start with persons in an organization structure to whom direct superiors report and go up the line from there.

Leased or per diem personnel. Professional personnel who devote at least 25 percent of their time to attest functions, or who have partner- or manager-level responsibility for the overall supervision or review of attest engagements.

Nonattest portion of the practice. All services other than audit, attest, compilation, review, and other services performed under standards established by the AICPA Auditing Standards Board or the AICPA Accounting and Review Services Committee pursuant to Rules 201 or 202 of the AICPA Code of Professional Conduct.

Non-CPA-owned entity. An entity with which a CPA firm is closely aligned through common employment, leasing of employees, equipment, facilities, or other similar arrangements.

Top-tier company. The parent company of a non-CPA-owned entity, which may be an issuer.

[*The next page is 10,261.*]

[26] The term *covered member* is defined in AICPA Code of Professional Conduct, *Definitions* (AICPA, *Professional Standards*, vol. 1, ET sec. 92.06). A covered member is:

a. An individual on the attest engagement team;

b. An individual in a position to influence the attest engagement;

c. A partner or manager who provides nonattest services to the attest client beginning once he or she provides ten hours of nonattest services to the client within any fiscal year and ending on the later of the date (i) the firm signs the report on the financial statements for the fiscal year during which those services were provided or (ii) he or she no longer expects to provide ten or more hours of nonattest services to the attest client on a recurring basis;

d. A partner in the office in which the lead attest engagement partner primarily practices in connection with the attest engagement;

e. The firm, including the firm's employee benefit plans; or

f. An entity whose operating, financial, or accounting policies can be controlled (as defined by generally accepted accounting principles [GAAP] for consolidation purposes) by any of the individuals or entities described in (*a*) through (*e*) or by two or more such individuals or entities if they act together.

AAM Section 10,250
Statements on Quality Control Standards

Statements on Quality Control Standards are issued by the Auditing Standards Board. Firms that are enrolled in an Institute-approved practice-monitoring program are obligated to adhere to quality control standards established by the Institute.

Statement on Quality Control Standards No. 2, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice* (QC Section 20), as Amended

.01

(Supersedes Statement on Quality Control Standards No. 1 and its interpretations)

Introduction and Applicability

.01 This Statement provides that a CPA firm shall have a system of quality control for its accounting and auditing practice and describes elements of quality control and other matters essential to the effective design, implementation, and maintenance of the system.

.02 The AICPA Principles of Professional Conduct provide, among other things, that "members should practice in firms that have in place internal quality-control procedures to ensure that services are competently delivered and adequately supervised."[1] Because of the public interest in the services provided by and the reliance placed on the objectivity and integrity of CPAs, this section provides that a CPA firm shall have a system of quality control for its accounting and auditing practice.[2]

[1] AICPA Code of Professional Conduct, "Article VI—Scope and Nature of Services" (AICPA, *Professional Standards*, vol. 1, ET sec. 57.03).

[2] *Accounting and auditing practice* refers to all audit, attest, accounting and review, and other services for which standards have been established by the AICPA Auditing Standards Board or the AICPA Accounting and Review Services Committee under rule 201 or 202 of the AICPA Code of Professional Conduct (AICPA, *Professional Standards*, vol. 1, ET secs. 201 and 202). Standards may also be established by other AICPA senior technical committees; engagements that are performed in accordance with those standards are not encompassed in the definition of an accounting and auditing practice.

System of Quality Control

.03 A firm[3] as a responsibility to ensure that its personnel[4] comply with the professional standards applicable to its accounting and auditing practice. A system of quality control is broadly defined as a process to provide the firm with reasonable assurance that its personnel comply with applicable professional standards and the firm's standards of quality.[5] The policies and procedures designed to implement the system in one segment of a firm's practice may be the same as, different from, or interrelated with the policies and procedures designed for another segment, but the purpose of the system is the same for all segments of a firm's practice.

[3] A *firm* is defined in the AICPA Code of Professional Conduct as "a form of organization permitted by state law or regulation whose characteristics conform to resolutions of Council that is engaged in the practice of public accounting, including the individual owners thereof" (AICPA, *Professional Standards*, vol. 1, ET sec. 92.05).

[4] The term *personnel* refers to all individuals who perform professional services for which the firm is responsible, whether or not they are CPAs.

[5] Deficiencies in individual audit, attest, review, and compilation engagements do not, in and of themselves, indicate that the firm's system of quality control is insufficient to provide it with reasonable assurance that its personnel comply with applicable professional standards.

.04 A firm's system of quality control encompasses the firm's organizational structure and the policies adopted and procedures established to provide the firm with reasonable assurance of complying with professional standards. The nature, extent, and formality of a firm's quality control policies and procedures should be appropriately comprehensive and suitably designed in relation to the firm's size, the number of its offices, the degree of authority allowed its personnel and its offices, the knowledge and experience of its personnel, the nature and complexity of the firm's practice, and appropriate cost-benefit considerations.

.05 Any system of quality control has inherent limitations that can reduce its effectiveness. Variance in an individual's performance and understanding of (*a*) professional requirements or (*b*) the firm's quality control policies and procedures affects the degree of compliance with a firm's prescribed quality control policies and procedures and, therefore, the effectiveness of the system.

.06 The system of quality control should provide the firm with reasonable assurance that the segments of the firm's engagements performed by its foreign offices or by its domestic or foreign affiliates or correspondents are performed in accordance with professional standards in the United States when such standards are applicable.

Quality Control Policies and Procedure

Elements of Quality Control

.07 The quality control policies and procedures applicable to a firm's accounting and auditing practice should encompass the following elements:

a. Independence, Integrity, and Objectivity

b. Personnel Management

c. Acceptance and Continuance of Clients and Engagements

d. Engagement Performance

e. Monitoring

.08 The elements of quality control are interrelated. For example, the maintenance of *Integrity, Objectivity*, and, where required, *Independence* requires a continuing assessment of client relationships. Similarly, the element of *Personnel Management* encompasses criteria for professional development, hiring, advancement, and assignment of the firm's personnel to engagements, which affect policies and procedures developed to meet the objectives of the quality control element of *Engagement Performance*. Similarly, policies and procedures for the quality control element of *Monitoring* are established to provide the firm with reasonable assurance that the policies and procedures related to each of the other elements of quality control are suitably designed and are being effectively applied.

Independence, Integrity, and Objectivity

.09 Policies and procedures should be established to provide the firm with reasonable assurance that personnel maintain independence (in fact and in appearance) in all required circumstances,[6] perform all professional responsibilities with integrity, and maintain objectivity in discharging professional responsibilities.

[6] Independence requirements are set forth in Rule 101 of the AICPA Code of Professional Conduct (AICPA, *Professional Standards*, vol. 2, ET sec. 101) and the rules of applicable regulatory agencies such as state boards of accountancy, the Securities and Exchange Commission, the U.S. General Accounting Office, and the U.S. Department of Labor.

.10 *Independence, Integrity,* and *Objectivity* are defined and more fully described in the AICPA Code of Professional Conduct (the Code) and AU section 220, *Independence* (AICPA, *Professional Standards*, vol. 1). Rules 101 and 102 of the Code, and the related Interpretations and Rulings (ET sections 101, 102, *Integrity and Objectivity*, and 191, *Ethics Rulings on Independence, Integrity, and Objectivity*) contain examples of instances wherein a member's independence, integrity, and objectivity will be considered to be impaired. *Independence* encompasses an impartiality that recognizes an obligation for fairness not only to management and owners of a business but also to those who may otherwise use the firm's report. The firm and its personnel must be free from any obligation to or interest in the client, its management, or its owners.[7] Integrity requires personnel to be honest and candid within the constraints of client confidentiality. Service and the public trust should not be subordinated to personal gain and advantage. *Objectivity* is a state of mind and a quality that lends value to a firm's services. The principle of objectivity imposes the obligation to be impartial, intellectually honest, and free of conflicts of interest.

[7] See AU section 220.02, *Independence* (AICPA, *Professional Standards*, vol. 1).

Personnel Management

.11 A firm's quality control system depends heavily on the proficiency of its personnel. In making assignments, the nature and extent of supervision to be provided should be considered. Generally, the more able and experienced the personnel assigned to a particular engagement, the less direct supervision is needed.

.12 The quality of a firm's work ultimately depends on the integrity, objectivity, intelligence, competence, experience, and motivation of personnel who perform, supervise, and review the work. Thus, a firm's personnel management policies and procedures factor into maintaining such quality.

.13 *Personnel Management* encompasses hiring, assigning personnel to engagements, professional development, and advancement activities. Accordingly, policies and procedures should be established to provide the firm with reasonable assurance that—

a. Those hired possess the appropriate characteristics to enable them to perform competently.

b. Work is assigned to personnel having the degree of technical training and proficiency required in the circumstances.

c. Personnel participate in general and industry-specific continuing professional education and other professional development activities that enable them to fulfill responsibilities assigned, and satisfy applicable continuing professional education requirements of the AICPA and regulatory agencies.[8]

d. Personnel selected for advancement have the qualifications necessary for fulfillment of the responsibilities they will be called on to assume.

[8] Regulatory agencies that have established continuing education requirements include state boards of accountancy and the U.S. General Accounting Office. [*now the U.S. Government Accountability Office*].

Acceptance and Continuance of Clients and Engagements

.14 Policies and procedures should be established for deciding whether to accept or continue a client relationship and whether to perform a specific engagement for that client. Such policies and procedures should provide the firm with reasonable assurance that the likelihood of association with a client whose management lacks integrity is minimized. Establishing such policies and procedures does not imply that a firm vouches for the integrity or reliability of a client, nor does it imply that a firm has a duty to any person or entity but itself with respect to the acceptance, rejection, or retention of clients. However, prudence suggests that a firm be selective in determining its client relationships and the professional services it will provide.

.15 Such policies and procedures should also provide reasonable assurance that the firm—

a. Undertakes only those engagements that the firm can reasonably expect to be completed with professional competence.

b. Appropriately considers the risks associated with providing professional services in the particular circumstances.

.16 To minimize the risk of misunderstandings regarding the nature, scope, and limitations of the services to be performed, policies and procedures should provide for obtaining an understanding with the client regarding those services. Professional standards may provide guidance in deciding whether the understanding should be oral or written.

Engagement Performance

.17 Policies and procedures should be established to provide the firm with reasonable assurance that the work performed by engagement personnel meets applicable professional standards, regulatory requirements, and the firm's standards of quality.

.18 Policies and procedures for *Engagement Performance* encompass all phases of the design and execution of the engagement. To the extent appropriate and as required by applicable professional standards, these policies and procedures should cover planning, performing, supervising, reviewing, documenting, and communicating the results of each engagement. Where applicable, these policies and procedures should also address the concurring partner review requirements applicable to SEC engagements as set forth in membership requirements of the SEC Practice Section of the AICPA.

.19 Policies and procedures should also be established to provide reasonable assurance that personnel refer to authoritative literature or other sources and consult, on a timely basis, with individuals within or outside the firm, when appropriate (for example, when dealing with complex, unusual, or unfamiliar issues). Individuals consulted should have appropriate levels of knowledge, competence, judgment, and authority. The nature of the arrangements for consultation depends on a number of factors, including the size of the firm and the levels of knowledge, competence, and judgment possessed by the persons performing the work.

Monitoring

.20 Policies and procedures should be established to provide the firm with reasonable assurance that the policies and procedures established by the firm for each of the other elements of quality control described in paragraphs .07–.19 are suitably designed and are being effectively applied.[9] *Monitoring* involves an ongoing consideration and evaluation of the—

a. Relevance and adequacy of the firm's policies and procedures.

b. Appropriateness of the firm's guidance materials and any practice aids.

c. Effectiveness of professional development activities.

d. Compliance with the firm's policies and procedures. When monitoring, the effects of the firm's management philosophy and the environment in which the firm practices and its clients operate should be considered.

---

[9] See section 30.

Administration of a Quality Control System

.21 To provide reasonable assurance that the firm's quality control system achieves its objectives, appropriate consideration should be given to the assignment of quality control responsibilities within the firm, the means by which quality control policies and procedures are communicated, and the extent to which the policies and procedures and compliance therewith should be documented.

Assignment of Responsibilities

.22 Responsibility for the *design* and *maintenance* of the various quality control policies and procedures should be assigned to an appropriate individual or individuals in the firm. In making that assignment, consideration should be given to the proficiency of the individuals, the authority to be delegated to them, and the extent of supervision to be provided. However, all of the firm's personnel are responsible for *complying* with the firm's quality control policies and procedures.

Communication

.23 A firm should communicate its quality control policies and procedures to its personnel in a manner that provides reasonable assurance that those policies and procedures are understood and complied with. The form and extent of such communications should be sufficiently comprehensive to provide the firm's personnel with an understanding of the quality control policies and procedures applicable to them. In addition, a firm should establish a means of communicating its established quality control policies and procedures, and the changes thereto, to appropriate personnel on a timely basis.

Documentation of Quality Control Policies and Procedures

.24 The size, structure, and nature of the practice of the firm should be considered in determining whether documentation of established quality control policies and procedures is required for effective communication and, if so, the extent of such documentation. For example, documentation of established quality control policies and procedures would generally be expected to be more extensive in a large firm than in a small firm and in a multioffice firm than in a single-office firm. Although communication ordinarily is enhanced if it is in writing, the effectiveness of a firm's system of quality control is not necessarily impaired by the absence of documentation of established quality control policies and procedures.

Documentation of Compliance With Quality Control Policies and Procedures

.25 A firm should prepare appropriate documentation to demonstrate *compliance* with its policies and procedures for the quality control system discussed herein. The form and content of such documentation is a matter of judgment and depends on a number of factors, such as the size of a firm, the number of offices, the degree of authority allowed its personnel and its offices, the nature and complexity of the firm's practice, its organization, and appropriate cost-benefit considerations. Documentation should be retained for a period of time sufficient to enable those performing monitoring procedures and a peer review to evaluate the extent of the firm's compliance with its quality control policies and procedures.

Effective Date

.26 The provisions of this section are applicable to a CPA firm's system of quality control for its accounting and auditing practice as of January 1, 1997.

Statement on Quality Control Standards No. 3, *Monitoring a CPA Firm's Accounting and Auditing Practice* (QC Section 30)

.02

Introduction

.01 This section provides guidance on how a CPA firm implements the monitoring element of a quality control system in its accounting and auditing practice.[1]

[1] *Accounting and auditing practice* refers to all audit, attest, accounting and review, and other services for which standards have been established by the AICPA Auditing Standards Board or the AICPA Accounting and Review Services Committee under rule 201 or 202 of the AICPA Code of Professional Conduct (AICPA, *Professional Standards*, vol. 1, ET sections 201 and 202). Standards may also be established by other AICPA senior technical committees; engagements that are performed in accordance with those standards are not encompassed in the definition of an accounting and auditing practice.

.02 Statement on Quality Control Standards No. 2, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice* (AICPA, *Professional Standards*, vol. 2, QC sec. 20), describes *Monitoring* as one of the five elements of quality control. It provides that a CPA firm[2] should establish policies and procedures to provide the firm with reasonable assurance that the policies and procedures relating to each of the other elements of quality control are suitably designed and are being effectively applied. Monitoring involves an ongoing consideration and evaluation of the—

a. Relevance and adequacy of the firm's policies and procedures.

b. Appropriateness of the firm's guidance materials and any practice aids.

c. Effectiveness of professional development activities.

d. Compliance with the firm's policies and procedures.

When monitoring, the effects of the firm's management philosophy and the environment in which the firm practices and its clients operate should be considered.

[2] A *firm* is defined in the AICPA Code of Professional Conduct as "a form of organization permitted by state law or regulation whose characteristics conform to resolutions of Council that is engaged in the practice of public accounting, including the individual owners thereof" (ET section 92.05).

Monitoring Procedures

.03 Monitoring procedures taken as a whole should enable the firm to obtain reasonable assurance that its system of quality control is effective. Procedures that provide the firm with a means of identifying and communicating circumstances that may necessitate changes to or the need to improve compliance with the firm's policies and procedures contribute to the monitoring element. A firm's monitoring procedures may include—

- Inspection procedures. (See paragraphs .04–.07.)
- Preissuance or postissuance review of selected engagements. (See paragraphs .08 and .09.)
- Analysis and assessment of—
  - — New professional pronouncements.
  - — Results of independence confirmations.
  - — Continuing professional education and other professional development activities undertaken by firm personnel.[3]
  - — Decisions related to acceptance and continuance of client relationships and engagements.
  - — Interviews of firm personnel.
- Determination of any corrective actions to be taken and improvements to be made in the quality control system.
- Communication to appropriate firm personnel of any weaknesses identified in the quality control system or in the level of understanding or compliance therewith.
- Follow-up by appropriate firm personnel to ensure that any necessary modifications are made to the quality control policies and procedures on a timely basis.

[3] The term *personnel* refers to all individuals who perform professional services for which the firm is responsible, whether or not they are CPAs.

.04 Inspection procedures evaluate the adequacy of the firm's quality control policies and procedures, its personnel's understanding of those policies and procedures, and the extent of the firm's compliance with its quality control policies and procedures. Inspection procedures contribute to the monitoring function because findings are evaluated and changes in or clarifications of quality control policies and procedures are considered.

.05 The need for and extent of inspection procedures depends in part on the existence and effectiveness of the other monitoring procedures. Factors to be considered in determining the need for and extent of inspection procedures include, but are not limited to—

- The nature, complexity, and diversity of, and the risks associated with, the firm's practice.
- The firm's size, number of offices, degree of authority allowed its personnel and its offices, and organizational structure.
- The results of recent practice reviews[4] and previous inspection procedures.
- Appropriate cost-benefit considerations.[5]

---

[4] Practice reviews include, but are not limited to, peer reviews performed under standards established by the AICPA and reviews conducted by regulatory agencies.

[5] Although appropriate cost-benefit considerations may be considered in determining the need for and extent of inspection procedures, a firm must still effectively *monitor* its practice.

.06 The nature of inspection procedures will vary based on the firm's quality control policies and procedures and the effectiveness and results of other monitoring procedures. The adequacy of and compliance with a firm's quality control system are evaluated by performing such inspection procedures as—

- Review of selected administrative and personnel records pertaining to the quality control elements.
- Review of engagement working papers, reports, and clients' financial statements. (See also paragraphs .08–.09)
- Discussions with the firm's personnel.
- Summarization of the findings from the inspection procedures, at least annually, and consideration of the systemic causes of findings that indicate improvements are needed.
- Determination of any corrective actions to be taken or improvements to be made with respect to the specific engagements reviewed or the firm's quality control policies and procedures.
- Communication of the identified findings to appropriate firm management personnel.
- Consideration of inspection findings by appropriate firm management personnel who should also determine that any actions necessary, including necessary modifications to the quality control system, are taken on a timely basis.

Inspection procedures with respect to the engagement performance element of a quality control system are particularly appropriate in a firm with more than a limited number of management-level individuals[6] responsible for the conduct of its accounting and auditing practice.

---

[6] The term *management-level individual* refers to all owners of a firm and other individuals within the firm with a managerial position as described in Interpretation 101-9 of the Code of Professional Conduct.

.07 Inspection procedures may be performed at a fixed time(s) during the year covering a specified period(s) of time or as part of ongoing quality control procedures, or a combination thereof.

.08 Procedures for carrying out preissuance or postissuance review of engagement working papers, reports, and clients' financial statements by a qualified management-level individual (or by a qualified individual under his or her supervision) may be considered part of the firm's monitoring procedures provided that those performing or supervising such preissuance or postissuance reviews are *not directly associated with the performance of the engagement*. Such preissuance or postissuance review procedures may constitute inspection procedures provided—

a. The review is sufficiently comprehensive to enable the firm to assess compliance with all applicable professional standards and the firm's quality control policies and procedures.

b. Findings of such reviews that may indicate the need to improve compliance with or modify the firm's quality control policies and procedures are periodically summarized, documented, and communicated to the firm's management personnel having the responsibility and authority to make changes in those policies and procedures.

c. The firm's management personnel consider on a timely basis the systemic causes of findings that indicate improvements are needed and determine appropriate actions to be taken.

d. The firm implements on a timely basis such planned actions, communicates changes to personnel who might be affected, and follows up to determine that the planned actions were taken.

A preissuance and, except as described in paragraph .09, a postissuance review of engagement working papers, reports, and clients' financial statements by the person with final responsibility for the engagement does not constitute a monitoring procedure.

.09 In small firms with a limited number of qualified management-level individuals, postissuance review of engagement working papers, reports, and clients' financial statements by the person with final responsibility for the engagement may constitute inspection procedures, provided the provisions in paragraph .08*a–d* are followed. (See also paragraph .11.)

Monitoring in Small Firms With a Limited Number of Management-Level Individuals

.10 In small firms with a limited number of management-level individuals, monitoring procedures may need to be performed by some of the same individuals who are responsible for compliance with the firm's quality control policies and procedures. To effectively monitor one's own compliance with the firm's policies and procedures, an individual must be able to critically review his or her own performance, assess his or her own strengths and weaknesses, and maintain an attitude of continual improvement. Changes in conditions and in the environment within the firm (such as obtaining clients in an industry not previously serviced or significantly changing the size of the firm) may indicate the need to have quality control policies and procedures monitored by another qualified individual.

.11 The performance of inspection procedures in firms with a limited number of management-level individuals can assist the firm in the monitoring process. An individual inspecting his or her own compliance with a quality control system may be inherently less effective than having such compliance inspected by another qualified individual. When one individual inspects his or her own compliance, the firm may have a higher risk that noncompliance with policies and procedures will not be detected. Accordingly, a firm in this circumstance may find it beneficial to engage a qualified individual from outside the firm to perform inspection procedures.

The Relationship of Peer Review to Monitoring

.12 A peer review does not substitute for monitoring procedures. However, since the objective of a peer review is similar to that of inspection procedures, a firm's quality control policies and procedures may provide that a peer review conducted under standards established by the AICPA may substitute for some or all of its inspection procedures for the period covered by the peer review.

Effective Date

.13 The provisions of this section are applicable to a CPA firm's system of quality control for its accounting and auditing practice as of January 1, 1997.

Statement on Quality Control Standards No. 5, *The Personnel Management Element of a Firm's System of Quality Control—Competencies Required By a Practitioner-in-Charge of an Attest Engagement* (QC Section 40)

.03

Introduction

.01 Statement on Quality Control Standards No. 2, provides that a CPA firm shall have a system of quality control for its accounting and auditing practice[1] that should encompass the following elements:

a. Independence, integrity, and objectivity

b. Personnel management

c. Acceptance and continuance of clients and engagements

d. Engagement performance

e. Monitoring

---

[1] *Accounting and auditing practice* refers to all accounting, audit, and attestation services for which standards have been established by the AICPA Auditing Standards Board or the AICPA Accounting and Review Services Committee under Rule 201 or 202 of the AICPA Code of Professional Conduct (AICPA, *Professional Standards*, vol. 1, ET sections 201 and 202). Standards may also be established by other AICPA senior technical committees; engagements that are performed in accordance with those standards are not encompassed in the definition of an accounting, auditing, and attestation practice.

The Personnel Management Element of Quality Control

.02 *Personnel Management* encompasses hiring, assigning personnel to engagements, professional development, and advancement activities. Accordingly, policies and procedures should be established to provide the firm with reasonable assurance that—

a. Those hired possess the appropriate characteristics to enable them to perform competently. Examples of such characteristics may include meeting minimum academic requirements established by the firm, maturity, integrity, and leadership traits.

b. Work is assigned to personnel having the degree of technical training and proficiency required in the circumstances.

c. Personnel participate in general and industry-specific continuing professional education and other professional development activities that enable them to fulfill responsibilities assigned, and satisfy applicable continuing professional education requirements of the AICPA, and regulatory agencies.[2]

d. Personnel selected for advancement have the qualifications necessary for fulfillment of the responsibilities they will be called on to assume.

---

[2] Regulatory agencies that have established continuing education requirements include state boards of accountancy and the U.S. General Accounting Office. [*now the U.S. Government Accountability Office*].

.03 This section clarifies the requirements of the personnel management element of a firm's system of quality control. In light of the significant responsibilities during the planning and performance of accounting, auditing, and attestation engagements of individuals who are responsible for supervising accounting, auditing, and attestation engagements and signing or authorizing an individual to sign the accountants report on such engagements, a firm's policies and procedures related to the items noted in paragraph .02 above should be designed to provide a firm with reasonable assurance that such individuals possess the kinds of competencies that are appropriate given the circumstances of individual client engagements. For purposes of this standard, such an individual is referred to as the practitioner-in-charge of the engagement.

Competencies

.04 Competencies are the knowledge, skills, and abilities that enable a practitioner-in-charge to be qualified to perform an accounting, auditing, or attestation engagement. A firm is expected to determine the kinds of competencies that are necessary in the individual circumstances. Competencies are not measured by periods of time because such a quantitative measurement may not accurately reflect the kinds of experiences gained by a practitioner in any given time period. Accordingly, for purposes of this section, a measure of overall competency is qualitative rather than quantitative.

Gaining Competencies

.05 A firm's policies and procedures would ordinarily require a practitioner-in-charge of an engagement to gain the necessary competencies through recent experience in accounting, auditing, and attestation engagements. In some cases, however, a practitioner-in-charge will have obtained the necessary competencies through disciplines other than the practice of public accounting, such as in relevant industry, governmental, and academic positions. If necessary, the experience of the practitioner-in-charge should be supplemented by continuing professional education (CPE) and consultation. The following are examples.

- A practitioner-in-charge of an engagement whose recent experience has consisted primarily in providing tax services may acquire the competencies necessary in the circumstances to perform a compilation or review engagement by obtaining relevant CPE.
- A practitioner-in-charge of an engagement who did not have any experience in auditing the financial statements of a public company and only possessed recent prior experience in auditing the financial statements of nonpublic entities may develop the necessary competencies by obtaining relevant CPE related to SEC rules and regulations and consulting with other practitioners who possess relevant knowledge related to SEC rules and regulations.
- A practitioner-in-charge of an engagement who did not have any experience in auditing the financial statements of a public company but possessed prior public accounting practice experience auditing financial statements of nonpublic entities and who also has relevant experience as the controller of a public company may have the necessary competencies in the circumstances.
- A practitioner-in-charge of an engagement whose actual experience consists of performing review and compilation engagements may be able to obtain the necessary competencies to perform an audit by becoming familiar with the industry in which the client operates, obtaining continuing professional education relating to auditing, and/or using consulting sources during the course of performing the audit engagement.
- A person in academia might obtain the necessary competencies to perform accounting, auditing or attestation engagements by (*a*) obtaining specialized knowledge through teaching or authorship of research projects or similar papers, and (*b*) a rigorous self-study program or by engaging a consultant to assist on such engagements.

.06 Regardless of the manner in which a particular competency is gained, a firm's quality control policies and procedures should be adequate to provide reasonable assurance that a practitioner-in-charge of an engagement possesses the competencies necessary to fulfill his or her engagement responsibilities.

.07 The nature and extent of competencies established by a firm that are expected of the practitioner-in-charge of an engagement should be based on the characteristics of a particular client, industry, and the kind of service being provided. For example, the following should be considered.

- The competencies expected of a practitioner-in-charge of an engagement to compile financial statements would be different than those expected of a practitioner engaged to review or audit financial statements.
- Supervising engagements and signing or authorizing others to sign reports for clients in certain industries or engagements, such as financial services, governmental, or employee benefit plan engagements, would require different competencies than what would be expected in performing attest services for clients in other industries.
- The practitioner-in-charge of an engagement to audit the financial statements of a public company would be expected to have certain technical proficiency in SEC reporting requirements, while a practitioner-in-charge who is not assigned to the audits of public companies would not need to be proficient in this area. This would include, for example, experience in the industry and appropriate knowledge of SEC and ISB rules and regulations, including accounting and independence standards.
- The practitioner-in-charge of an attestation engagement to examine management's assertion about the effectiveness of an entity's internal control over financial reporting would be expected to have certain technical proficiency in understanding and evaluating the effectiveness of controls, while a practitioner-in-charge of an attestation engagement to examine investment performance statistics would be expected to have different competencies, including an understanding of the subject matter of the underlying assertion.

Competencies Expected in Performing Accounting, Auditing, and Attestation Engagements

.08 In practice, the kinds of competency requirements that a firm should establish for the practitioner-in-charge of an engagement are necessarily broad and varied in both their nature and number. However, the firm's quality control policies and procedures should ordinarily address the following competencies for the practitioner-in-charge of an engagement. Firms policies and procedures should also address other competencies as necessary in the circumstances.

a. *Understanding of the Role of a System of Quality Control and the Code of Professional Conduct*—Practitioners-in-charge of an engagement should possess an understanding of the role of a firm's system of quality control and the AICPA's Code of Professional Conduct, both of which play critical roles in assuring the integrity of the various kinds of accountant's reports.

b. *Understanding of the Service to Be Performed*—Practitioners-in-charge of an engagement should possess an understanding of the performance, supervision, and reporting aspects of the engagement, which is normally gained through actual participation in that kind of engagement under appropriate supervision.

c. *Technical Proficiency*—Practitioners-in-charge of an engagement should possess an understanding of the applicable accounting, auditing, and attest professional standards including those standards directly related to the industry in which a client operates and the kinds of transactions in which a client engages.

d. *Familiarity With the Industry*—To the extent required by professional standards applicable to the kind of service being performed, practitioners-in-charge of an engagement should possess an understanding of the industry in which a client operates. In performing an audit or review of financial statements, this understanding would include an industry's organization and operating characteristics sufficient to identify areas of high or unusual risk associated with an engagement and to evaluate the reasonableness of industry specific estimates.

e. Professional Judgment—Practitioners-in-charge of an engagement should possess skills that indicate sound professional judgment. In performing an audit or review of financial statements, such skills would typically include the ability to exercise professional skepticism and identify areas requiring special consideration including, for example, the evaluation of the reasonableness of estimates and representations made by management and the determination of the kind of report necessary in the circumstances.

f. Understanding the Organization's Information Technology Systems—Practitioners-in-charge of an audit engagement should have an understanding of how the organization is dependent on or enabled by information technologies; and the manner in which information systems are used to record and maintain financial information.

Interrelationship of Competencies and Other Elements of a Firm's System of Quality Control

.09 The competencies listed above are interrelated and gaining one particular competency may be related to achieving another. For example, familiarity with the client's industry interrelates with a practitioner's ability to make professional judgments relating to the client.

.10 In establishing policies and procedures related to the nature of competencies needed by the practitioner-in-charge of an engagement, a firm may need to consider the requirements of policies and procedures established for other elements of quality control. For example, a firm would consider its requirements related to engagement performance in determining the nature of any competency requirements that assess the degree of technical proficiency necessary in a given set of circumstances.

The Relationship of the Competency Requirement of the Uniform Accountancy Act to the Personnel Management Element of Quality Control

.11 The Uniform Accountancy Act (UAA) is a model legislative statute and related administrative rules that the AICPA and the National Association of State Boards of Accountancy (NASBA) designed to provide a uniform approach to the regulation of the accounting profession. CPAs are not required to follow the provisions of the UAA itself but rather the accountancy laws of the individual licensing jurisdictions in the United States governing the practice of public accounting, which may have adopted the UAA in whole or in part. The UAA provides that "any individual licensee who is responsible for supervising attest or compilation services and signs or authorizes someone to sign the accountant's report on the financial statements on behalf of the firm shall meet the competency requirements set out in the professional standards for such services." A firm's compliance with this section is intended to enable a practitioner who performs the services described in the preceding sentence on the firm's behalf to meet this competency requirement; however, this section's applicability is broader than what is required by the UAA since the definition of an accounting and auditing practice in quality control standards encompasses a wider range of attest engagements.

Effective Date

.12 The provisions of this section are applicable to a CPA firm's system of quality control for its accounting and auditing practice as of June 30, 2000. Earlier implementation is encouraged.

[*The next page is 10,281.*]

AAM Section 10,280

Interpretation No. 101-14 of Rule 101, Independence

Interpretation No. 101-14 of Rule 101, *Independence*: "The Effect of Alternative Practice Structures on the Applicability of Independence Rules" (ET Section 101.16)

.01

Because of changes in the manner in which members are structuring their practices, the AICPA's professional ethics executive committee (PEEC) studied various alternatives to "traditional structures" to determine whether additional independence requirements are necessary to ensure the protection of the public interest.

In many "nontraditional structures," a substantial (the nonattest) portion of a member's practice is conducted under public or private ownership, and the attest portion of the practice is conducted through a separate firm owned and controlled by the member. All such structures must comply with applicable laws, regulations, and Rule 505, *Form of Organization and Name* (AICPA, *Professional Standards*, vol. 1, ET sec. 505.01). In complying with laws, regulations, and Rule 505 many elements of quality control are required to ensure that the public interest is adequately protected. For example, all services performed by members and persons over whom they have control must comply with standards promulgated by AICPA Council-designated bodies, and, for all other firms providing attest services, enrollment is required in an AICPA-approved practice-monitoring program. Finally, and importantly, the members are responsible, financially and otherwise, for all the attest work performed. Considering the extent of such measures, PEEC believes that the additional independence rules set forth in this interpretation are sufficient to ensure that attest services can be performed with objectivity and, therefore, the additional rules satisfactorily protect the public interest.

Rule 505 and the following independence rules for an alternative practice structure (APS) are intended to be conceptual and applicable to all structures where the "traditional firm" engaged in attest services is closely aligned with another organization, public or private, that performs other professional services. The following paragraph and the chart below provide an example of a structure in use at the time this interpretation was developed. Many of the references in this interpretation are to the example. PEEC intends that the concepts expressed herein be applied, in spirit and in substance, to variations of the example structure as they develop.

The example APS in this interpretation is one where an existing CPA practice (Oldfirm) is sold by its owners to another (possibly public) entity (PublicCo). PublicCo has subsidiaries or divisions such as a bank, insurance company or broker-dealer, and it also has one or more professional service subsidiaries or divisions that offer to clients nonattest professional services (for example, tax, personal financial planning, and management consulting). The owners and employees of Oldfirm become employees of one of PublicCo's subsidiaries or divisions and may provide those nonattest services. In addition, the owners of Oldfirm form a new CPA firm (Newfirm) to provide attest services. CPAs, including the former owners of Oldfirm, own a majority of Newfirm (as to vote and financial interests). Attest services are performed by Newfirm and are supervised by its owners. The arrangement between Newfirm and PublicCo (or one of its subsidiaries or divisions) includes the lease of employees, office space and equipment; the performance of back-office functions such as billing and collections; and advertising. Newfirm pays a negotiated amount for these services.

APS Independence Rules for Covered Members

The term *covered member* in an APS includes both employed and leased individuals. The *firm* in such definition would be Newfirm in the example APS. All covered members, including the firm, are subject to Rule 101 (AICPA, *Professional Standards*, vol. 1, ET sec. 101.01) and its interpretations and rulings in their entirety. For example, no covered member may have, among other things, a direct financial interest in or a loan to or from an attest client of Newfirm.

Partners of one Newfirm generally would not be considered partners of another Newfirm except in situations where those partners perform services for the other Newfirm or where there are significant shared economic interests between partners of more than one Newfirm. If, for example, partners of Newfirm 1 perform services in Newfirm 2, such owners would be considered to be partners of both Newfirms for purposes of applying the independence rules.

APS Independence Rules for Persons and Entities Other Than Covered Members

As stated above, the independence rules normally extend only to those persons and entities included in the definition of covered member. This normally would include only the "traditional firm" (Newfirm in the example APS), those covered members who own or are employed or leased by Newfirm, and entities controlled by one or more of such persons. Because of the close alignment in many APSs between persons and entities included in covered member and other persons and entities, to ensure the protection of the public interest, PEEC believes it appropriate to require restrictions in addition to those required in a traditional firm structure. Those restrictions are divided into two groups:

1. *Direct Superiors.* Direct Superiors are defined to include those persons so closely associated with a partner or manager who is a covered member, that such persons can *directly control* the activities of such partner or manager. For this purpose, a person who can *directly control* is the immediate superior of the partner or manager who has the power to direct the activities of that person so as to be able to directly or indirectly (for example, through another entity over which the Direct Superior can exercise significant influence)[22] derive a benefit from that person's activities. Examples would be the person who has day-to-day responsibility for the activities of the partner or manager and is in a position to recommend promotions and compensation levels. This group of persons is, in the view of PEEC, so closely aligned through direct reporting relationships with such persons that their interests would seem to be inseparable. *Consequently, persons considered Direct Superiors, and entities within the APS over which such persons can exercise significant influence* [23] *are subject to Rule 101 and its interpretations and rulings in their entirety.*

[22] For purposes of this Interpretation, significant influence means having the ability to exercise significant influence over the financial, operating or accounting policies of the entity, for example by (1) being connected with the entity as a promoter, underwriter, voting trustee, general partner or director, (2) being in a policy-making position such as chief executive officer, chief operating officer, chief financial officer or chief accounting officer, or (3) meeting the criteria in Accounting Principles Board Opinion No. 18 and its interpretations to determine the ability of an investor to exercise such influence with respect to an entity. The foregoing examples are not necessarily all-inclusive.

[23] For purposes of this Interpretation, significant influence means having the ability to exercise significant influence over the financial, operating or accounting policies of the entity, for example by (1) being connected with the entity as a promoter, underwriter, voting trustee, general partner or director, (2) being in a policy-making position such as chief executive officer, chief operating officer, chief financial officer or chief accounting officer, or (3) meeting the criteria in Accounting Principles Board Opinion No. 18 and its interpretations to determine the ability of an investor to exercise such influence with respect to an entity. The foregoing examples are not necessarily all-inclusive.

2. *Indirect Superiors and Other PublicCo Entities.* Indirect Superiors are those persons who are one or more levels above persons included in Direct Superior. Generally, this would start with persons in an organization structure to whom Direct Superiors report and go up the line from there. PEEC believes that certain restrictions must be placed on Indirect Superiors, but also believes that such persons are sufficiently removed from partners and managers who are covered persons to permit a somewhat less restrictive standard. Indirect Superiors are not connected with partners and managers who are covered members through direct reporting relationships; there always is a level in between. The PEEC also believes that, for purposes of the following, the definition of Indirect Superior also includes the *immediate family* of the Indirect Superior.

PEEC carefully considered the risk that an Indirect Superior, through a Direct Superior, might attempt to influence the decisions made during the engagement for a Newfirm attest client. PEEC believes that this risk is reduced to a sufficiently low level by prohibiting certain relationships between Indirect Superiors and Newfirm attest clients and by applying a materiality concept with respect to financial relationships. If the financial relationship is not material to the Indirect Superior, PEEC believes that he or she would not be sufficiently financially motivated to attempt such influence particularly with sufficient effort to overcome the presumed integrity, objectivity and strength of character of individuals involved in the engagement.

Similar standards also are appropriate for Other PublicCo Entities. These entities are defined to include PublicCo and all entities consolidated in the PublicCo financial statements that are not subject to Rule 101 and its interpretations and rulings in their entirety.

The rules for Indirect Superiors and Other PublicCo Entities are as follows:

A. Indirect Superiors and Other PublicCo Entities may *not* have a relationship contemplated by Interpretation 101-1.A (for example, investments, loans or both) with an attest client of Newfirm that is material. In making the test for materiality for financial relationships of an Indirect Superior, all the financial relationships with an attest client held by such person should be aggregated and, to determine materiality, assessed in relation to the person's net worth. In making the materiality test for financial relationships of Other PublicCo Entities, all the financial relationships with an attest client held by such entities should be aggregated and, to determine materiality, assessed in relation to the consolidated financial statements of PublicCo. In addition, any Other PublicCo Entity over which an Indirect Superior has direct responsibility cannot have a financial relationship with an attest client that is material in relation to the Other PublicCo Entity's financial statements.

B. Further, financial relationships of Indirect Superiors or Other PublicCo Entities should not allow such persons or entities to exercise significant influence [24] over the attest client. In making the test for significant influence, financial relationships of all Indirect Superiors and Other PublicCo Entities should be aggregated.

C. Neither Other PublicCo Entities nor any of their employees may be connected with an attest client of Newfirm as a promoter, underwriter, voting trustee, director or officer.

D. Except as noted in C above, Indirect Superiors and Other PublicCo Entities may provide services to an attest client of Newfirm that would impair independence if performed by Newfirm. For example, trustee and asset custodial services in the ordinary course of business by a bank subsidiary of PublicCo would be acceptable as long as the bank was not subject to Rule 101 and its interpretations and rulings in their entirety.

---

[24] For purposes of this Interpretation, significant influence means having the ability to exercise significant influence over the financial, operating or accounting policies of the entity, for example by (1) being connected with the entity as a promoter, underwriter, voting trustee, general partner or director, (2) being in a policy-making position such as chief executive officer, chief operating officer, chief financial officer or chief accounting officer, or (3) meeting the criteria in Accounting Principles Board Opinion No. 18 and its interpretations to determine the ability of an investor to exercise such influence with respect to an entity. The foregoing examples are not necessarily all-inclusive.

Other Matters

1. An example, using the chart below, of the application of the concept of Direct and Indirect Superiors would be as follows: The chief executive of the local office of the Professional Services Subsidiary (PSS), where the partners of Newfirm are employed, would be a Direct Superior. The chief executive of PSS itself would be an Indirect Superior, and there may be Indirect Superiors in between such as a regional chief executive of all PSS offices within a geographic area.
2. PEEC has concluded that Newfirm (and its partners and employees) may not perform an *attest engagement* for PublicCo or any of its subsidiaries or divisions.
3. PEEC has concluded that independence would be considered to be impaired with respect to an attest client of Newfirm if such attest client holds an investment in PublicCo that is material to the attest client or allows the attest client to exercise significant influence[25] over PublicCo.

[25] For purposes of this Interpretation, significant influence means having the ability to exercise significant influence over the financial, operating or accounting policies of the entity, for example by (1) being connected with the entity as a promoter, underwriter, voting trustee, general partner or director, (2) being in a policy-making position such as chief executive officer, chief operating officer, chief financial officer or chief accounting officer, or (3) meeting the criteria in Accounting Principles Board Opinion No. 18 and its interpretations to determine the ability of an investor to exercise such influence with respect to an entity. The foregoing examples are not necessarily all-inclusive.

4. When making referrals of services between Newfirm and any of the entities within PublicCo, a member should consider the provisions of Interpretation 102-2, *Conflicts of Interest* (AICPA, *Professional Standards*, vol. 1, ET sec. 102.03).

.14 Performance Evaluation

[To be completed after each engagement of forty hours or more.]

Name ______________________________ Classification ______________

Client ______________________________ From ________ To __________

Describe work assigned: ____

____

____

In your opinion based on the staff member's classification, should this assignment be considered:

Demanding ☐ Routine ☐

This individual is ☐ is not ☐ ready for increased responsibility. Explain ____________________

____

Rating: Enter comments which describe the staff member's performance on this engagement. Rate the staff member on each of the items below as Outstanding (O), Very High (VH), Good (G), Below Normal (BN), or Not Applicable (NA).

[Support each caption with specific incidents or remarks.]

Technical Knowledge: Did the staff member possess adequate knowledge to function effectively at the level assigned? Did this knowledge encompass accounting principles, auditing standards, and tax accounting? Has the staff member kept current on recent developments and new pronouncements on professional practice matters as they affected this engagement?

	O	VH	G	BN	NA
Rating:	☐	☐	☐	☐	☐

____

____

____

Analytical Ability and Judgment: How well did the staff member recognize problems, develop relevant facts, formulate alternative solutions, and decide on appropriate conclusions? Did the staff member distinguish between material and immaterial items? Was the staff member practical in adapting theory and experience to the individual circumstances of this client?

	O	VH	G	BN	NA
Rating:	☐	☐	☐	☐	☐

____

____

____

Written and Oral Expression: Evaluate the effectiveness of the staff member's letters, memoranda, and other forms of written communication. In conversation, did the staff member communicate intentions effectively? Were instructions understood the first time? Did the staff member sell ideas, obtain acceptance and action?

	O	VH	G	BN	NA
Rating:	☐	☐	☐	☐	☐

____

____

____

Note: See the AICPA MAP Handbook for alternatives.

Performance: Can you depend on the staff member for sustained, productive work? Were assignments organized and completed accurately in a reasonable amount of time? Did the staff member readily assume responsibility? Did the staff member meet time estimates and document work papers properly?

O VH G BN NA
Rating: ☐ ☐ ☐ ☐ ☐

____
____
____

Development of Personnel: In assigning work, did the in-charge member make the most effective use of available talent in terms of getting the work done and in terms of developing staff members performing the work? Did the in-charge staff member tend to make assignments which were either too easy or too hard for his subordinates? Was the staff member readily accepted as a leader? Was the staff member effective in on-the-job coaching?

O VH G BN NA
Rating: ☐ ☐ ☐ ☐ ☐

____
____
____

Client Relations: How well did the staff member relate to this client and gain his acceptance? How well did the staff member recognize and take advantage of practice development opportunities, through extension of services to this client?

O VH G BN NA
Rating: ☐ ☐ ☐ ☐ ☐

____
____
____

Attitude: Did the staff member demonstrate a positive and professional approach to the assignment? Was this demonstrated by sustained effort in completing work? Was the assignment undertaken with enthusiasm and zest? Did the staff member respond in a positive way to suggestions and guidance from superiors? To what degree did the staff member make personal sacrifices to meet client requirements? Was the staff member a helpful member of the team? Did the staff member go out of his way to help an associate?

O VH G BN NA
Rating: ☐ ☐ ☐ ☐ ☐

____
____
____

Personal Characteristics: Did the staff member possess self-confidence and was this confidence projected in an acceptable way? Were positive impressions created with this client and with associates? Did the staff member have a keen sense of what to do or say (tact)? Were clothes appropriate to professional work? Was the staff member well groomed?

O VH G BN NA
Rating: ☐ ☐ ☐ ☐ ☐

Summary

Overall Rating on Having Met Job Requirements	
Non-Exempt - Circle One	Exempt - Circle One
1 2 3	1 2 3 4 5
1 = Did Not Meet Job Requirements	1 = Did Not Meet Job Requirements 2 = Met Most
2 = Met All 3 = Exceeded	3 = Met All 4 = Exceeded 5 = Far Exceeded

Review the following questions before answering them, using the following criteria:

- A "yes" answer should be considered for possible mention as a "strength". If so, refer to it on the first page of this evaluation.
- A "no" answer should be considered for possible mention as a "development need". If so, refer to it on the first page of this evaluation.

All answers should be considered in arriving at an overall rating on having met job requirements.

	CHECK AS APPROPRIATE

.18 Client/Engagement Acceptance and Continuation Checklist[1]

Note: Acceptance of a new client normally is of critical importance to a small firm. Depending on the type of industry and the services to be provided, accepting a new client can affect nearly all aspects of a firm's quality control system: Are the firm's library and practice aids adequate? Do personnel have appropriate CPE? Does the firm need an outside consultant? The best time to document the acceptance decision is when a new audit or attestation client or engagement is signed, using a form such as the one below.

Name of prospective client: ______________________________

Address and Phone No.: ______________________________

____

Name and title of contact at prospective client: ______________________________

____

Form completed by: ______________________________ Date: ______________

Instructions

This form provides for information necessary to assess whether to accept a prospective client. The information should be obtained from discussions with the prospective client's management, bankers, attorneys, credit services, and if applicable current or former independent CPA, from reviewing the client's financial statements, regulatory agency reports, credit reports, and tax returns, and from other sources such as industry or accounting journals, etc. As much information as possible should be obtained before visiting the potential client. Depending on the type of engagement involved, some information requested on this form may not be applicable, or additional information may be necessary and should be attached.

Services and Reports Required

1. Describe the service and reports requested. ______________________________
____
____

2. Describe the reason the service is needed, including any regulatory requirements or third parties for which the service or report is intended. ______________________________
____
____

3. What is the required completion date? ______________________________
____

4. Describe any other services not requested for which there appears to be a need. ______________________________
____
____

5. What is the preliminary estimate of hours to complete the engagement? ______________________________
____

6. Has the client imposed any restrictions on the scope of the engagement that might preclude expression of an unqualified report? ______________________________
____
____

7. Do we have the necessary expertise and staff to perform the engagement? (If not, how will we overcome this problem?) ______________________________
____
____

[1] Certain items in this checklist have been reprinted from the *Journal of Accountancy*, Copyright © 1997 by AICPA.

Industry Practices and Conditions

8. In what industry does the company operate?____
____

9. Describe any specialized tax or accounting practices applicable to the industry.__________________
____
____

10. Describe any economic, technological or competitive conditions or other recent developments in the industry that may affect the company's operations. ______________________________________
____
____

11. Describe any special regulatory requirements applicable to the industry. _____________________
____
____

12. Is the company in the development stage? ____
____

Organization and Personnel

13. Company's Legal Name: ______________________________ Fiscal Year End: ____________

14. Type of legal entity (Corporation, S Corporation, partnership, proprietorship, etc.): ____________
____

15. List the major stockholders (partners or owners) of the company and their percentage of ownership. If applicable, obtain and attach a copy of the company's organization chart.

Name and (if applicable) Title	% Ownership

16. List the principal members of management.

Name and Title	Stated Qualifications (education, training, and experience)

17. Briefly describe any existing or contemplated employee bonus arrangement (individual, title, method of computation), stock option, or pension (profit sharing) plans that may affect the engagement.
____
____
____

18. List each location maintained by the company (including foreign locations, if any), the nature of the activity performed at each, and the approximate number of employees at each, i.e., plant, sales office, executive offices, etc.

Location	Activity	No. of Employees

19. Inquire about possible transactions with related parties that may affect the engagement.

Name of Related Party	Relationship	Type of Transaction

Operations

20. Describe the nature of the company's major assets and liabilities. ______________________________

21. What are the company's sources of revenue and marketing methods? Describe major products, customers, etc.). ______________________________

22. If the company is economically dependent on a major customer, name the customer and approximate percentage of total revenue generated by this customer. ______________________________

23. Describe the components of cost of goods sold and the company's production process. ______________________________

24. What are the major expenses of the company other than cost of goods sold? ______________________________

25. Describe the company's compensation methods, i.e., salary , hourly wage, commissions, piece work, union scale, etc. ______________________________

26. What are the company's major sources of financing, i.e., working capital loans, long term debt, leasing, equity, etc. Describe restrictive covenants on any loan agreements. ______________________________

27. Is management sufficiently knowledgeable about its activities and financial condition? ______________________________

28. Does it appear that the entity's activities or resources are heavily concentrated in one or a few high-risk areas? ______________________________

Accounting

29. Does the company maintain the following items? [Attach description, if appropriate.]
    a. Accounting manual? ____________
    b. Budget? ____________
    c. Cost accounting system? ____________
    d. Information technology? (indicate type of equipment and software) ____________
    ____
    e. Written credit policy? ____________

30. Briefly describe the accounting system and accounting responsibilities.

Description of Accounting Record	Name of Person Who is Responsible	Information Technology	Manual	N/A
General Ledger	____	____	____	____
Subsidiary Ledgers:				
Accounts receivable	____	____	____	____
Fixed assets	____	____	____	____
Loans payable	____	____	____	____
Accounts payable	____	____	____	____
Perpetual inventory	____	____	____	____
Physical inventory summarization	____	____	____	____
____	____	____	____	____
____	____	____	____	____
____	____	____	____	____
Journals:				
Cash receipts	____	____	____	____
Cash disbursements	____	____	____	____
Sales/purchase/voucher	____	____	____	____
Payroll	____	____	____	____
General journal entries	____	____	____	____
____	____	____	____	____
____	____	____	____	____
____	____	____	____	____
Financial Reporting [Indicate basis of accounting]:				
Annual financial statements	____	____	____	____
Monthly financial statements	____	____	____	____
Management reports	____	____	____	____
____	____	____	____	____
Other:				
Bank reconciliations	____	____	____	____
____	____	____	____	____

31. Describe the company's completeness procedures and methods to insure that accounting transactions enter into the accounting system, i.e., that all shipments or services are invoiced, that all cash sales are recorded, and that all disbursements are recorded. ____________
    ____
    ____

32. Describe any unusual features of the accounting system. ____________
    ____
    ____

33. Are sufficient records available to perform the engagement?

34. Is management sufficiently knowledgeable about applicable accounting principles?

35. Does management understand accounting matters adequately to assume responsibility for proper valuation, presentation, and disclosure?

Tax Matters

36. Who prepares the tax returns?

37. Describe major differences between book and tax income, unusual tax elections, carry forwards or IRS examinations in process. If possible, review copies of the most recent 3 years of tax returns and attach them to this form.

Other Matters

38. Describe any significant problems that could affect the engagement, such as litigation or other contingencies, unusual agreements, and plans to acquire or dispose of significant assets, merge with another entity, enter a new area of business, convert to or expand use of information technology, etc.

39. Give the name of a current or former independent CPA.

    a. Describe any disputes over accounting matters.

40. Describe any apparent problems or areas for improvement that were noted where our firm could provide additional service or recommendations.

41. Is the client relatively free from controversy and media coverage?

Independence

42. Would service to this client cause problems of independence or conflicts of interest because of relationships with other clients or members of the staff?

Fees

43. Based on inquiries with a current or former independent CPA, if applicable, indicate the amount of any unpaid fees and the reason for nonpayment.

44. If possible indicate the amount of fees charged by an existing or former independent CPA for the service being proposed. (The CPA or the potential client may be willing to furnish this information, or it might be obtainable from the financial statements or tax return.)________________________________

45. Describe any other indications that our firm might have a problem billing or collecting our fees. _____
____
____

46. Does the prospective fee justify pursuing this engagement?_____________________________________
____
____

Management Integrity

47. Have any of the following sources raised any concerns about management's integrity?
    a. Difficulty in obtaining information from management, or evasive, guarded or glib responses to inquiries. ____
    ____

    b. Apparent difficulty in meeting financial operations or a deteriorating financial position that might predispose management to commit fraud or make a misrepresentation. _______________________
    ____

    c. Disputes about accounting principles, engagement procedures or similarly significant matters with an existing or former accountant, or doubts of the predecessor accountant about management's integrity. ____
    ____

    d. Comments by bankers, attorneys, creditors, or others having a business relationship with a potential client. ____
    ____

48. If management is changing accountants, why is the change being made, and is the reason for the change acceptable? ____
____
____

49. Is there any reason to suspect that management would be uncooperative, unreasonable or otherwise unpleasant to work with? ____
____
____

50. Does the general integrity of the client seem satisfactory? ______________________________________
____
____

Other Comments or Observations

51. Give any other comments or observations that might affect our decision whether to prepare a proposal letter or its contents. Add attachments to this form, if necessary. _________________________________
____
____

Conclusion

52. Should we accept/continue this client/engagement?____
____
____

.19

Summary Control Checklist			
Firm Name ______________________ Quality Control Monitoring System Summary Year Ended ______________________			
	Reviewed		
Monitoring Procedure	By	**Date**	**Location of Documentation**
Analysis of the relevance of new professional pronouncements			
Continuing professional education and other professional development activities			
Independence confirmations			
Client/engagement acceptance and continuation decisions			
Interviews of firm personnel			
Review of engagements			
Inspection (describe procedures performed)			
Other procedures (describe)			
Determine that the above procedures have adequately considered and evaluated:			
1. The firm's management philosophy.			
2. Its practice environment.			
3. The relevance and adequacy of firm policies and procedures.			
4. Compliance with firm policies and procedures.			
5. Appropriateness of the firm's guidance materials and practice aids.			
6. Effectiveness of professional development activities.			

.20 Summary Monitoring/Inspection Report

I. *Planning the Inspection*

A. Inspection period____

B. Composition of Inspection Team:

1. Captain____________________ Position ____________________
2. Team Member________________ Position ____________________
3. Team Member________________ Position ____________________

C. Indicate matters that may require additional emphasis in the inspection and explain why.

____

____

____

____

____

D. Development of Inspection Program:

1. Describe programs used and indicate any deviations therefrom.

____

____

____

____

2. Describe basis for selection of engagements:

____

____

____

E. Timing of Inspection:

Commencement____

Completion of work _____________________________________

Issuance of report ______________________________________

II. *Scope of Work Performed*

A. Indicate elements of quality control not addressed and give reasons.

____

____

____

____

B. Engagements Reviewed:

	Firm Totals		Engs. Reviewed	
	Hrs.	No. of Engs.	Hrs.	No. of Engs.
Audits:				
SEC Clients

____
____
____
____
____
____

Supervisory Partner ____________________

Date ____________________

[2] Includes only audits conducted pursuant to the *Government Auditing Standards*, issued by the Comptroller General of the United States ("Yellow Book").

.21

Note: A firm should make the analysis and assessment of the relevance of new professional pronouncements that can affect its practice, and consequently its quality control system, an ongoing activity. The AICPA's *Journal of Accountancy* publishes many of the new pronouncements in its Official Releases column. Thus, a practitioner can review the new pronouncements monthly (or after tax season for the first three months of the year) and record that review on a checklist similar to the one below.

New Pronouncements Checklist

Firm Name ____________________

Analysis of New Professional Pronouncements

The purpose of this checklist is to document the firm's analysis and assessment of the relevance of new professional pronouncements to the firm practice.

		Reviewed		**Relevant?**		
Professional Pronouncement	**Effective Date**	**By**	**Date**	**Yes**	**No**	**Comment, Reference**
Auditing Standards Statement on Auditing Standards No. 94, *The Effect of Information Technology on the Auditor's Consideration of Internal Control in a Financial Statement Audit*	Audits of financial statement for periods beginning on or after 6/1/01					
Attestation Standards						
Auditing Interpretations						
Attestation Interpretations						
Standards for Accounting and Review Services
