Checklists and Illustrative Financial Statements for Property and Liability Insurance Entities

Letter to Customers

Dear Valued Customer,

The following checklists and illustrative materials have been developed by the AICPA Accounting and Auditing Publications Staff to serve as nonauthoritative practice aids for use by preparers of financial statements and by practitioners who audit, review, or compile financial statements. The auditor's and accountant's report checklists address those requirements most likely to be encountered when reporting on financial statements of a commercial corporation prepared in conformity with U.S. generally accepted accounting principles.

Relevant financial statement reporting and disclosure guidance issued through September 30, 2010, has been considered in the development of this edition of the checklist. The accounting guidance in this checklist has been conformed to reflect reference to FASB *Accounting Standards Codification*[™] as it existed on September 30, 2010.

Any guidance issued subsequent to September 30, 2010, has not been included in this checklist; therefore, if your entity has a fiscal year-end after September 30, 2010, you need to consider the applicability of such guidance. In determining the applicability of newly issued guidance, its effective date also should be considered.

Recognizing that many entities have December 31 year-ends and in an effort to assist those users, this checklist includes guidance issued through September 30, 2010, which may become effective by December 31, 2010. This guidance is discussed in each section of the checklist when applicable. Additional questions appear and are indicated with an "A" or "B" reference. As determined by the effective date or early implementation decision

- entities for which this guidance has not been implemented should consider all questions with an "A" reference (for example, question 1A, question 2A, and so on) and should place an "N/A" mark by questions with a "B" reference.
- entities for which this guidance has been implemented should consider all questions with a "B" reference (for example, question 1B, question 2B, and so on) and should place an "N/A" mark by questions with an "A" reference.

Therefore, based upon the year-end of the entities and the decision to early implement (if allowed), the appropriate additional questions should be answered when provided.

We hope you find this checklist helpful as you perform your audit and compilation and review engagements. We would greatly appreciate your feedback on this checklist. You may e-mail these comments to A&APublications@aicpa.org or write to

General

.01 This publication includes the following information:

- **Financial Statements and Notes Checklist (FSP section 17,100)**—For use by preparers of financial statements and by practitioners who audit, review, or compile them as they evaluate the adequacy of disclosures
- **Auditors' Reports Checklist (FSP section 17,200)**—For use by auditors in reporting on audited financial statements
- **Supplemental Information for Property and Liability Insurance Companies That are Securities and Exchange Commission Registrants (FSP section 17,300)**—For use by auditors of Securities and Exchange Commission (SEC) registrants
- **Illustrative Financial Statements and Disclosures (FSP section 17,400)**

.02 These checklists and illustrative materials are intended to be used in connection with engagements of nonpublic entities and are not intended to be used in connection with audits of public entities that are required to be audited under standards set by the Public Company Accounting Oversight Board (PCAOB).

.03 These checklists and illustrative materials have been developed by the AICPA Accounting and Auditing Publications staff to serve as nonauthoritative practice aids for use by preparers of financial statements and by practitioners who audit them. The auditor's and accountant's report checklists address those requirements most likely to be encountered when reporting on financial statements of a property and liability insurance entity prepared in conformity with U.S. generally accepted accounting principles (GAAP). They do not include reporting requirements relating to other matters such as internal control or agreed-upon procedures. The financial statement and notes checklist includes disclosure considerations applicable to property and liability insurance entities in preparing financial statements in conformity with U.S. GAAP. The checklist does not include disclosures prescribed by guidance whose applicability to property and liability insurance entities is considered to be remote.

.04 Users of the financial statements and notes checklist should remember that it is a disclosure checklist only and not a comprehensive U.S. GAAP application or measurement checklist. Accordingly, application and measurement issues related to preparing financial statements in conformity with U.S. GAAP are not included in the checklist.

.05 The AICPA Accounting and Auditing Publications staff has included guidance from the Financial Accounting Standards Board (FASB) *Accounting Standards Codification*[™] (ASC) as it existed on September 30, 2010. Questions are derived primarily from the content of the "Presentation" (section 45) and "Disclosure" (section 50) sections of FASB ASC. The AICPA Accounting and Auditing Publications staff has included presentation and disclosure items deemed most likely to be encountered when reporting on the financial statements of a property and liability insurance entity prepared in conformity with U.S. GAAP. Thus, not all paragraphs of the "Presentation" and "Disclosure" sections of FASB ASC have been included. Users should evaluate whether circumstances exist for which the relevant presentation and disclosure guidance is not provided in these checklists and illustrative materials and refer directly to FASB ASC as appropriate. These checklists and illustrative materials note significant areas where "Presentation" and "Disclosure" paragraphs were deemed too specific for this general publication and, where noted, users are urged to consult FASB ASC as necessary.

.06 The checklists and illustrative financial statements should be used by, or under the supervision of, persons having adequate technical training and proficiency in the application of U.S. GAAP, generally accepted auditing standards, and other relevant technical guidance.

.07 In some cases, this checklist uses the term *Additional Presentation Information* or *Additional Disclosure Information* to further illustrate an item. In such cases, the information contained under those headings continues to be authoritative guidance and is included to further clarify a presentation or disclosure requirement or to add additional useful information.

.08 Relevant financial statement reporting and disclosure guidance issued through September 30, 2010, has been considered in the development of this edition of the checklist. This includes relevant guidance issued up to and including the following:

- FASB Accounting Standards Updates issued through September 30, 2010
- Statement on Auditing Standards No. 120, *Required Supplementary Information* (AICPA, *Professional Standards*, vol. 1, AU sec. 558)
- Interpretation No. 4, “Appropriateness of Identifying No Significant Deficiencies or No Material Weaknesses in an Interim Communication,” of AU section 325, *Communicating Internal Control Related Matters Identified in an Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 9325 par. .11–.13)
- Statement of Position 09-1, *Performing Agreed-Upon Procedures Engagements That Address the Completeness, Accuracy, or Consistency of XBRL-Tagged Data* (AICPA, *Technical Practice Aids*, AUD sec. 14,440)
- Statements on Standards for Attestation Engagements No. 16, *Reporting on Controls at a Service Organization* (AICPA, *Professional Standards*, vol. 1, AT sec. 801)
- Interpretation No. 8, “Including a Description of Tests of Controls or Other Procedures, and the Results Thereof, in an Examination Report,” of AT section 101, *Attest Engagements* (AICPA, *Professional Standards*, vol. 1, AT sec. 9101 par. .70–.72)
- Statement on Standards for Accounting and Review Services No. 19, *Compilation and Review Engagements* (AICPA, *Professional Standards*, vol. 2)
- Interpretation No. 31, “Preparation of Financial Statements for Use by an Entity’s Auditors,” of AR section 100, *Compilation and Review of Financial Statements* (AICPA, *Professional Standards*, vol. 2, AR sec. 9100 par. .136–.137)
- PCAOB Auditing Standard No. 7, *Engagement Quality Review* (AICPA, *PCAOB Standards and Related Rules*, Standards, AU-P sec. 162)

.09 Any guidance issued subsequent to September 30, 2010, has not been included in this checklist; therefore, if your entity has a fiscal year-end after September 30, 2010, you need to consider the applicability of such guidance. In determining the applicability of newly issued guidance, its effective date should also be considered.

.10 These checklists contain numerous references to accounting and auditing guidance. Abbreviations and acronyms used in such references include the following:

AAG-PLI=	AICPA Audit and Accounting Guide <i>Property and Liability Insurance Entities</i> (with conforming changes as of June 1, 2010)
AR=	Reference to a section number in AICPA <i>Professional Standards</i> for compilation and review standards
AU=	Reference to a section number in AICPA <i>Professional Standards</i> for U.S. auditing standards that are applicable to nonissuers
AU-P=	Reference to a section number in AICPA <i>PCAOB Standards and Related Rules</i> for standards of the PCAOB that are applicable to issuers
AUD=	Reference to a section number in AICPA <i>Technical Practice Aids</i> Statements of Position—Auditing and Attestation

SOP=	AICPA Statement of Position

.11 The accounting guidance in this checklist has been conformed to reflect reference to FASB ASC as it existed on September 30, 2010.

.12 On June 30, 2009, FASB issued FASB Statement No. 168, *The FASB Accounting Standards Codification*[™] and the *Hierarchy of Generally Accepted Accounting Principles—a replacement of FASB Statement No. 162*, which is codified in FASB ASC 105, *Generally Accepted Accounting Principles*. On the effective date of this

statement, FASB ASC is the authoritative source of U.S. accounting and reporting standards for nongovernmental entities, in addition to guidance issued by the Securities and Exchange Commission (SEC). At that time, FASB ASC supersedes all then-existing, non-SEC accounting and reporting standards for nongovernmental entities. Once effective, all other nongrandfathered, non-SEC accounting literature not included in FASB ASC is nonauthoritative. This statement is effective for financial statements issued for interim and annual periods ending after September 15, 2009. See the FASB website at www.fasb.org for further information.

Instructions

.13 Within these checklists are a number of questions or statements that are accompanied by references to applicable authoritative guidance. The financial statements and notes checklist is organized into seven discrete sections. Disclosures listed in the “Presentation,” “Assets,” “Liabilities,” “Equity,” “Revenue,” and “Expenses” sections are common to most property and liability insurance entities. Those listed in the “Broad Transactions” sections are required when circumstances dictate.

.14 The checklists provide spaces for checking off or initialing each question or point to indicate that it has been considered. Carefully review the topics listed and consider whether they represent potential disclosure items for the reporting entity for which you are preparing or auditing financial statements. Users should check or initial

- *Yes*—If the disclosure is required and has been made appropriately.
- *No*—If the disclosure is required but has not been made.
- *N/A (Not Applicable)*—If the disclosure is not applicable to the organization.

.15 It is important that the effect of any “No” response be considered on the auditor’s or accountant’s report. For audited financial statements, a “No” response that is material to the financial statements may warrant a departure from an unqualified opinion as discussed in paragraphs .20–.64 of AU section 508. For reviewed or compiled financial statements, a “No” response that is material to the financial statements may warrant a departure from a standard report as discussed in paragraphs .50–.58 of AR section 100. If a “No” response is indicated, the Accounting and Auditing Publications staff recommends that a notation be made in the margin to explain why the disclosure was not made (for example, because the item was not considered to be material to the financial statements).

.16 Users may find it helpful to use the right margin for certain other remarks and comments as appropriate, including the following:

- a. For each disclosure for which a “Yes” is indicated, a notation as to where the disclosure is located in the financial statements and a cross-reference to the applicable working papers where the support to a disclosure may be found
- b. For items marked as “N/A,” the reasons for which they do not apply in the circumstances of the particular report
- c. For each disclosure for which a “No” response is indicated, a notation as to why the disclosure was not made (for example, because the item was not considered to be material to the financial statements)

.17 This checklist includes guidance mandatorily effective for annual reporting periods ending on or before September 30, 2010. Recognizing that many entities have December 31 year-ends, this checklist also includes guidance issued through September 30, 2010, which may become effective for annual reporting periods ending on or before December 31, 2010, either because of the effective date or an entity’s decision to early adopt (where permitted). Any guidance included herein not yet mandatorily effective for annual reporting periods ending on or before September 30, 2010, is described in footnotes within each section of the checklist where applicable.

.18 Where this aforementioned type of dual guidance is provided, the checklist questions are segregated into those denoted with “A” references and those denoted with “B” references. Checklist questions pertain-

ing to guidance mandatorily effective for annual reporting periods ending on or before September 30, 2010, absent an entity's decision to early adopt any superseding guidance (where applicable and permissible), are denoted with "A" references. Entities to which the "A" references apply should place an "N/A" mark in the related checklist questions denoted with a "B" reference. Checklist questions pertaining to guidance issued through September 30, 2010, which may become effective for entities with annual reporting periods ending on or before December 31, 2010, either because of the effective date or an entity's decision to early adopt (where permitted), are denoted with a "B" reference. Entities to which the "B" references apply should place an "N/A" mark by questions denoted with an "A" reference. Therefore, depending upon your entity's (ies') year-end(s) and decision(s) to early adopt (where permitted), the appropriate alternative questions should be answered when provided.

.19 These checklists and illustrative materials have been prepared by the AICPA staff. They have not been reviewed, approved, disapproved, or otherwise acted on by any senior technical committee of the AICPA and do not represent official positions or pronouncements of the AICPA.

.20 The use of these or any other checklists requires the exercise of individual professional judgment. These checklists are not substitutes for the original authoritative guidance. Users of these checklists and illustrative materials are urged to refer directly to applicable authoritative guidance when appropriate. The checklists and illustrative materials may not include all disclosures and presentation items promulgated, nor do they represent minimum standards or requirements. Additionally, users of the checklists and illustrative materials are encouraged to tailor them as required to meet specific circumstances of each particular engagement. As an additional resource, users may call the AICPA Technical Hotline at (877) 242-7212.

.21 The primary purpose of the property and liability insurance business is the spreading of risks. The term *risk* generally has two meanings in insurance. It can mean either a peril insured against (for example, fire is a risk to which most property is exposed) or a person or property protected (for example, young drivers, who many insurance companies believe are not good risks). For a payment known as a premium, insurance companies undertake to relieve the policyholder of all or part of a risk and to spread the total cost of similar risks among large groups of policyholders.

.22 The functions of the property and liability business include marketing; underwriting (for example, determining the acceptability of risks and the amounts of the premiums); billing and collecting premiums; investing and managing assets; investigating and settling claims made under policies; and paying expenses associated with these functions.

.23 In conducting its business, an insurance entity accumulates a significant amount of investable assets. In addition to funds raised as equity and funds retained as undistributed earnings, funds accumulate from premiums collected in advance; from sums held for the payment of claims in the process of investigation, adjustment, or litigation; and from sums held for payment of future claims settlement expenses. The accumulation of these funds, their investment, and the generation of investment income are major activities of insurance companies.

.24 Property and liability insurance entities must file an annual statement, prepared on the basis of statutory accounting practice (SAP), with each state in which the entities are licensed. The primary purpose of the extensive regulatory laws enacted by the states has been the protection of the policyholders. The annual statements filed with the regulatory authorities are used to monitor the financial condition of insurance entities in the periods between examinations by state or zone auditors.

.25 The National Association of Insurance Commissioners (NAIC) codified SAPs for certain insurance entities, resulting in a revised *Accounting Practices and Procedures Manual*. The insurance laws and regulations of the states require insurance companies domiciled in the states to comply with the guidance provided in the NAIC *Accounting Practices and Procedures Manual* except as prescribed or permitted by state law.

.26 FASB ASC 944-505-50 provides guidance that requires insurance entities to disclose a description of the prescribed or permitted SAP and the related monetary effect on statutory surplus of using an accounting practice that differs from either state prescribed SAPs or NAIC SAPs.

.27 Additionally, FASB ASC 944-505-50 provides specific guidance for disclosures which must be made if (a) state prescribed SAPs differ from NAIC SAP's or (b) permitted state SAPs differ from either state

prescribed SAPs or NAIC SAPs, and the use of prescribe or permitted SAPs (individually or in the aggregate) results in reported surplus or risk-based capital that is significantly different from the statutory surplus or risk-based capital that would have been reported had NAIC SAPs been followed, and provides that those disclosures must be applied by entities preparing U.S. GAAP financial statements that are U.S. insurance entities, U.S. entities with a U.S. insurance subsidiary, or foreign entities with a U.S. insurance subsidiary. If a foreign insurance entity that does not have a U.S. insurance subsidiary prepares U.S. GAAP financial statements or is included in its parent's consolidated U.S. GAAP financial statements, the notes to the financial statements should disclose permitted regulatory accounting practices that significantly differ from the prescribed regulatory accounting practices of its respective regulatory authority and their monetary effects.

.28 We hope you find this checklist helpful as you perform your audit engagements. We would greatly appreciate your feedback on this checklist. You may e-mail these comments to AandAPublications@aicpa.org.

Financial Statements and Notes Checklist

.01 Checklist Questionnaire. This financial statement disclosure checklist is organized into sections. Carefully review the topics listed and consider whether they represent potential disclosure items for the entity for which you are preparing, compiling, reviewing, or auditing financial statements. Place a check mark by the topics or sections that are applicable and complete those sections of the checklist. Other sections may be marked “N/A” or left blank. For example, if the entity had a change in accounting principle, place a check mark by the section “Accounting Changes” and complete that section of the checklist. On the other hand, if the entity did not have a change in accounting principle, do not place a check mark by “Accounting Changes” and skip that section when completing the checklist.

It eliminates the concept of a “qualifying special-purpose entity,” changes the requirements for derecognizing financial assets, and requires additional disclosures. This ASU should be applied as of the beginning of

Note: The basis for conclusions of the original standard (FASB Statement No. 5, *Accounting for Contingencies*) indicated that disclosure was not required because of the problems involved in developing operational criteria for disclosure of noninsured or underinsured risks. Nonetheless, a 1987 AICPA report, *Disclosure Concerning Insurance Coverage*, stated that disclosure of these risks should be encouraged rather than simply not discouraged. Questions 8–9 that follow are nonauthoritative suggestions from that report. The AICPA noted that disclosure of this kind is experimental. Therefore, its location in a financial report would depend on the judgment of preparers of the report.

¹⁶ In October 2009, FASB issued ASU No. 2009-13, *Revenue Recognition (Topic 605): Multiple-Deliverable Revenue Arrangements*. This update amends FASB ASC 605-25 to separate consideration in multiple-deliverable arrangements; establish a selling-price hierarchy for determining the selling price of a deliverable; replace the term fair value in the revenue allocation guidance with selling price; eliminate the residual method of allocation, and require that a vendor determine its best estimate of selling price in a manner that is consistent with that used to determine the price to sell the deliverable on a standalone basis. This ASU should be applied on a prospective basis for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010 (that is, January 1, 2011, for entities with calendar year-ends), unless the entity elects to adopt this ASU on a retroactive basis in accordance with FASB ASC 605-25-65-1(e). Early application is permitted.

This checklist has not been updated to include the presentation and disclosure requirements of ASU No. 2009-13.

Readers can refer to the full text of the ASU on the FASB website at www.fasb.org.

F. Principal Agent Considerations—Revenue Recognition (FASB ASC 605-45)

Presentation

Overall Considerations of Reporting Revenue Gross as a Principal Versus Net as an Agent

1. Has the entity used sound judgment in determining whether to report revenue on either (a) the gross amount billed to a customer because it has earned revenue (as a principal) from the date of the goods or services, or (b) the net amount retained because it has earned a commission or fee as an agent? (See FASB ASC 605-45-45 paragraphs 3 and 15 for indicators of gross and net reporting, respectively.) [FASB ASC 605-45-45-1]

Shipping and Handling Fees and Costs

2. Has the entity properly *not* presented shipping and handling costs as a deduction from revenues? [FASB ASC 605-45-45-21]

¹⁷ In April 2010, FASB issued ASU No. 2010-17, *Revenue Recognition (Topic 605): Milestone Method of Revenue Recognition*—a consensus of the FASB Emerging Issues Task Force. ASU No. 2010-17 provides guidance on applying the milestone method to milestone payments for achieving specified performance measures when those payments are related to uncertain future events. The scope of this ASU is limited to transactions involving research or development if the milestone payment is to be recognized in its entirety in the period the milestone is achieved. Entities can make an accounting policy election to recognize arrangement consideration received for achieving specified performance measures during the period in which the milestones are achieved, provided certain criteria are met. Although the milestone method is an accounting policy election, other methods that would result in recognizing a milestone in its entirety during the period in which the milestone was achieved would not be acceptable for milestones if the criteria are not met. This ASU should be applied on a prospective basis for milestones achieved fiscal years beginning on or after June 15, 2010 (that is, January 1, 2011, for entities with calendar year-ends), unless the entity elects to adopt this ASU on a retroactive basis in accordance with FASB ASC 250, *Accounting Changes and Error Corrections*. Early application is permitted.

This checklist has not been updated to include the presentation and disclosure requirements of ASU No. 2010-17.

Readers can refer to the full text of the ASU on the FASB website at www.fasb.org.

Vested rights are those for which the employer has an obligation to make payment even if an employee terminates; thus, they are not contingent on an employee's future service. Accumulate means that earned but unused rights to compensated absences may be carried forward to one or more periods subsequent to that in which they are earned, even though there may be a limit to the amount that can be carried forward.

²⁰ In January 2010, FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements*. This ASU establishes new disclosure requirements regarding transfers in and out of levels 1 and 2 of the fair value hierarchy and activity in level 3 fair value measurements. It also clarifies certain existing disclosures within FASB ASC 820-10-50 regarding level of disaggregation and inputs and valuation techniques. The amendments in this ASU will be effective for interim and annual reporting periods beginning after December 15, 2009 (that is, January 1, 2010, for entities with calendar year-ends), except for the disclosures in the level 3 fair value measurement roll forward. Those disclosures are effective for fiscal years beginning after December 15, 2010 (that is, January 1, 2011, for entities with calendar year-ends), and for interim periods within those fiscal years.

This checklist has been updated to include the presentation and disclosure requirements of ASU No. 2010-06.

Additional Disclosure Information

Disclosures about pension plans with assets in excess of the accumulated benefit obligation generally may be aggregated with disclosures about pension plans with accumulated benefit obligations in excess of assets. The same aggregation is permitted for other postretirement benefit plans. If aggregate disclosures are presented, an employer should disclose both of the following:

- The aggregate benefit obligation and aggregate fair value of plan assets for plans with benefit obligations in excess of plan assets as of the measurement date of each statement of financial position presented, and
- The aggregate pension accumulated benefit obligation and aggregate fair value of plan assets for pension plans with accumulated benefit obligations in excess of plan assets

[FASB ASC 715-20-50-3]

U.S. reporting entities may combine disclosures about pension plans or other postretirement benefit plans outside the United States with those for U.S. plans unless the benefit obligations of the plans outside the United States are significant relative to the total benefit obligation and those plans use significantly different assumptions. A foreign reporting entity that prepares financial statements in conformity with U.S. GAAP should apply the preceding guidance to its domestic and foreign plans.

Additional Disclosure Information

FASB ASC 740-10-50 contains disclosures for both nonpublic and public companies. See the following “Public Entity Disclosures” section of this checklist for required disclosures specific to public entities.

²⁴ The offset of cash or other assets against the tax liability or other amounts owing to governmental bodies should not be acceptable except in the following circumstance.

Most securities issued by governments are not by their terms designed specifically for the payment of taxes and, accordingly, should not be deducted from taxes payable on the balance sheet. The only exception to this general principle occurs when it is clear that a purchase of securities is in substance an advance payment of taxes that will be payable in the relatively near future, so that in the special circumstances the purchase is tantamount to the prepayment of taxes.

²⁵ In January 2010, FASB issued ASU No. 2010-02, *Consolidation (Topic 810): Accounting and Reporting for Decreases in Ownership of a Subsidiary—a Scope Clarification*. The amendments in this ASU clarify that the scope of the decrease in ownership provisions of FASB ASC 810-10 and related guidance applies to all of the following:

- A subsidiary or group of assets that is a business or nonprofit activity
- A subsidiary that is a business or nonprofit activity that is transferred to an equity method investee or joint venture
- An exchange of a group of assets that constitutes a business or nonprofit activity for a noncontrolling interest in an entity (including an equity method investee or joint venture)

4. Has the entity that demutualizes in a distribution form demutualization reclassified all of its retained earnings as of the date of the demutualization to capital stock and additional paid-in capital accounts? [FASB ASC 944-805-45-4]	_____	_____	_____

The amendments in the ASU also clarify that the decrease in ownership guidance in FASB ASC 810-10 does not apply to: (a) sales of in substance real estate and (b) conveyances of oil and gas mineral rights, even if these transfers involve businesses.

The amendments in ASU No. 2010-02 expand the disclosure requirements about deconsolidation of a subsidiary or derecognition of a group of assets to include all of the following:

- The valuation techniques used to measure the fair value of any retained investment
- The nature of any continuing involvement with the subsidiary or entity acquiring the group of assets
- Whether the transaction that resulted in the deconsolidation or derecognition was with a related party or whether the former subsidiary or entity acquiring the assets will become a related party after the transaction

The amendments are effective beginning in the period that an entity adopts FASB Statement No. 160, *Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB 51* (now included in FASB ASC 810-10). If an entity has previously adopted FASB Statement No. 160, the amendments are effective beginning in the first interim or annual reporting period ending on or after December 15, 2009 (that is, January 1, 2009, for entities with calendar year-ends). The amendments in ASU 2010-02 should be applied retrospectively to the first period that an entity adopts FASB Statement 160.

This checklist has been updated to include the presentation and disclosure requirements of ASU No. 2010-02.

Readers can refer to the full text of the ASU on the FASB website at www.fasb.org.

This guidance is labeled as "Pending Content" due to the transition and open effective date information discussed in FASB ASC 810-10-65-3.

²⁸ In December 2009, FASB issued ASU No. 2009-17, *Consolidations (Topic 810): Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities*. This update is to incorporate FASB Statement No. 167, *Amendments to FASB Interpretation No. 46(R)*, into the codification. ASU No. 2009-17 represents a revision to former FSP FIN 46(R), *Consolidation of Variable Interest Entities*, and changes how a reporting entity determines when an entity that is insufficiently capitalized or is not controlled through voting (or similar rights) should be consolidated. The determination of whether a reporting entity is required to consolidate another entity is based on, among other things, the other entity's purpose and design and the reporting entity's ability to direct the activities of the other entity that most significantly impact the other entity's economic performance. The amendments in this ASU will be effective for interim and annual reporting periods beginning after November 15, 2009, and interim periods within those fiscal years (that is, January 1, 2010, for entities with calendar year-ends). Early adoption is not permitted.

This checklist has been updated to include the presentation and disclosure requirements of ASU No. 2009-17.

Readers can refer to the full text of the ASU on the FASB website at www.fasb.org.

³⁰ In March 2010, FASB issued ASU No. 2010-11, *Derivatives and Hedging (Topic 815): Scope Exception Related to Embedded Credit Derivatives*. The amendments in this ASU, among others, clarify the scope exception under paragraphs 8–9 of FASB ASC 815-15-25 for embedded credit derivative features related to the transfer of credit risk in the form of subordination of one financial instrument to another. Further, the amendments address how to determine which embedded credit derivatives, including those in collateralized debt obligations and synthetic collateralized debt obligations, are considered to be embedded derivatives that should not be analyzed under FASB ASC 815-15-25 for potential bifurcation and separate accounting. The amendments in this ASU are effective at the beginning of the entity's first fiscal quarter beginning after June 15, 2010. Early adoption is permitted at the beginning of each entity's first fiscal quarter beginning after issuance of this ASU.

This checklist has been updated to include the presentation and disclosure requirements of ASU No. 2010-11.

Readers can refer to the full text of the ASU on the FASB website at www.fasb.org.

<i>Disclosure</i>			

Additional Disclosure Information

The quantitative disclosures required by FASB ASC 820-10-50 should be presented using a tabular format. [FASB ASC 820-10-50-8]

³¹ In January 2010, FASB issued ASU No. 2010-06. This ASU requires some new disclosures and clarifies some existing disclosure requirements about fair value measurement in FASB ASC 820-10. FASB's objective is to improve these disclosures and, thus, increase the transparency in financial reporting. Specifically, ASU No. 2010-06 amends FASB ASC 820-10 to now require the following:

- A reporting entity should disclose separately the amounts of significant transfers in and out of level 1 and level 2 fair value measurements and describe the reasons for the transfers; and
- In the reconciliation for fair value measurements using significant unobservable inputs, a reporting entity should present separately information about purchases, sales, issuances, and settlements.

In addition, ASU No. 2010-06 clarifies the requirements of the following existing disclosures:

- For purposes of reporting fair value measurement for each class of assets and liabilities, a reporting entity needs to use judgment in determining the appropriate classes of assets and liabilities; and
- A reporting entity should provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements.

The amendments in this ASU are effective for interim and annual reporting periods beginning after December 15, 2009 (that is, January 1, 2010, for entities with calendar year-ends), except for the disclosures about purchases, sales, issuances, and settlements in the roll

This ASU amends the guidance to require entities (except Securities and Exchange Commission [SEC] filers and conduit debt obligors [CDOs]) to evaluate subsequent events through the date that the financial statements are available to be issued. SEC filers and CDOs should evaluate subsequent events through the date the financial statements are issued. Entities other than SEC filers should disclose both the date through which subsequent events have been evaluated and whether that date is the "issued" date or "available to be issued" date.

The amendments in this ASU were effective immediately upon issuance, except for CDOs. The amendments in this ASU are effective for CDOs for interim and annual periods ending after June 15, 2010 (that is, December 31, 2010, for entities with calendar year-ends).

This checklist has been updated to include the presentation and disclosure requirements of ASU No. 2010-09.

Auditors' Reports Checklist

This section of the checklist has been developed primarily to address the requirements most likely to be encountered when reporting on financial statements of property and liability insurance entities in accordance with generally accepted auditing standards (GAAS) as issued by the Auditing Standards Board (ASB), a senior technical committee of the AICPA. Certain key differences in reporting requirements between audits conducted in accordance with GAAS and audits conducted in accordance with the rules and standards of the Public Company Accounting Oversight Board (PCAOB) are identified in bold text throughout this section of the checklist. However, the differences identified are not intended to be all inclusive, and readers should seek appropriate guidance for a comprehensive source of reporting requirements associated with audits conducted in accordance with the rules and standards of the PCAOB.

Interpretation No. 18, "References to PCAOB Standards in an Audit Report on a Nonissuer," of AU section 508 (AICPA, *Professional Standards*, vol. 1, AU sec. 9508 par. .89–.92) explains how the auditor should report if engaged to also follow PCAOB auditing standards in the audit of a nonissuer.

Practice Tip

The independent auditor has two methods available for dating the report when a subsequent event disclosed in the financial statements occurs after the original date of the auditor's report but before the issuance of the related financial statements. The auditor may use "dual dating" (for example, "February 16, 20—, except for Note —, for which the date is March 1, 20—,") or may date the report as of the later date. In the former instance, the responsibility for events occurring subsequent to the original report date is limited to the specific event referred to in the note (or otherwise disclosed). In the latter instance, the independent auditor's responsibility for subsequent events extends to the date of the report, and, accordingly, the procedures outlined in paragraph .12 of AU section 560, *Subsequent Events* (AICPA, *Professional Standards*, vol. 1), generally should be extended to that date.

Note: Interpretation No. 14, "Reporting on Audits Conducted in Accordance With Auditing Standards Generally Accepted in the United States of America and in Accordance With International Standards on Auditing," of AU section 508 (AICPA, *Professional Standards*, vol. 1, AU sec. 9508 par. .56–.59) provides that, when the audit of a nonissuer is conducted both in accordance with standards generally accepted in the United States of America and in accordance with the International Standards on Auditing (ISAs), the auditor may so indicate in the auditor's report. To determine whether an audit was conducted in accordance with the ISAs, it is necessary to consider the text of the ISAs in their entirety, including the basic principles and essential procedures together with the related guidance included in the ISAs.

Practice Tip

If the audit of financial statements to be used in the United States was conducted in accordance with auditing standards generally accepted in the United States of America and ISAs as issued by the International Auditing and Assurance Standards Board, in their entirety, although not required, has the auditor considered indicating in the auditor's report that the audit was also conducted in accordance with ISA as allowed. Note: Auditors are required to communicate control deficiencies identified during an audit that are *significant deficiencies* or *material weaknesses* as defined by AU section 325, including significant deficiencies or material weaknesses that were communicated in previous audits and have not yet been remediated. Those control deficiencies must be communicated in writing to management and those charged with governance.

15. If there is substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time, not to exceed one year beyond the date of the financial statements being audited,			
<i>a.</i> does the report include an explanatory paragraph, following the opinion paragraph, to reflect that conclusion?	_____	_____	_____
<i>b.</i> is that conclusion expressed through the use of the phrase "substantial doubt about its (the entity's) ability to continue as a going concern" or similar wording that includes the terms substantial doubt and going concern? [AU 508.11 <i>c</i> ; AU 341.12]	_____	_____	_____

Practice Tip

In evaluating whether there is substantial doubt about the entity's ability to continue as a going concern, the auditor's evaluation is based on his or her knowledge of relevant conditions that exist at or have occurred prior to *the date of the auditor's report*. If, after considering identified conditions and events and management's plans, the auditor concludes that substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time remains, the audit report should include an explanatory paragraph to reflect that conclusion.

In a going concern paragraph, the auditor should not use conditional language in expressing a conclusion concerning the existence of substantial doubt about the entity's ability to continue as a going concern. See paragraph .13 of AU section 341, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern* (AICPA, *Professional Standards*, vol. 1), for an example.

Changes in Accounting Estimates

Paragraph .15 of AU section 420, *Consistency of Application of Generally Accepted Accounting Principles* (AICPA, *Professional Standards*, vol. 1), clarifies that the change in an accounting estimate that does not include a change in accounting principle does not require an explanatory paragraph in the auditor's report. However, an accounting change of this type having a material effect on the financial statements may require disclosure in a note to the financial statements.

Changes in Classification

Paragraph .17 of AU section 420 clarifies that changes in classification from the prior year's financial statements are usually not of sufficient importance to necessitate disclosure; however, material changes in classification should be indicated and explained in the financial statements or notes.

Error Corrections

Paragraph .16 of AU section 420 states that the correction of an error in previously issued financial statements resulting from mathematical mistakes, oversight, or misuse of facts that existed at the time the financial statements were originally prepared does not involve the consistency standard if no element of accounting principles or their application is included. Accordingly, the independent auditor need not recognize the correction in his report. However, if the independent auditor had previously reported on the financial statements containing the error, the auditor has concluded, based on the considerations in paragraph .05 of AU section 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report* (AICPA, *Professional Standards*, vol. 1), that action should be taken to prevent future reliance on his report, and the issuance of financial statements accompanied by the auditor's report for a subsequent period is imminent, the auditor should disclose the revision in such statements instead of reissuing the earlier statements.

Notes: For audits of issuers, certain circumstances, although not affecting the auditor's unqualified opinion, may require that the auditor add explanatory language to the standard report as described in paragraphs .11–.19 of AU-P section 508, *Reports on Audited Financial Statements* (AICPA, *PCAOB Standards and Related Rules, Standards*).

Other circumstances may require a departure from an unqualified opinion, either in the form of a qualified opinion, an adverse opinion, or a disclaimed opinion as described in paragraphs .20–.63 of AU-P section 508.

For special reporting situations relating to the auditor's report on internal control over financial reporting, refer to appendix C, "Special Reporting Situations," of Auditing Standard No. 5 (AU-P sec. 320).

These standards amend or supersede AU section 550A, <i>Other Information in Documents Containing Audited Financial Statements</i>; AU section 551A, <i>Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents</i>; and AU section 558A, <i>Required Supplementary Information</i> (AICPA <i>Professional Standards</i>, vol. 1), respectively. Collectively, these statements address the auditor's responsibilities with respect to information that is required by a designated standard setter (for example, FASB, the Governmental Accounting Standards Board, the Federal Accounting Standards Advisory Board, and the IASB) to accompany an entity's basic financial statements and supplementary information that is presented outside the basic financial statements. The effective date of the SASs is for audits of financial statements for periods beginning on or after December 15, 2010, and early application is permitted.</p> <hr/>			
<p>29. If the auditor decides to emphasize a matter regarding the financial statements in the report, is the matter being emphasized disclosed in the financial statements' and is the explanatory information presented in a separate paragraph that avoids use of phrases such as "with the foregoing (following) explanation"? 	<u>Yes</u>	<u>No</u>	<u>N/A</u>
31. If a qualified opinion is to be expressed because of a scope limitation,			
a. are all of the substantive reasons for the qualification disclosed in one or more explanatory paragraphs preceding the opinion paragraph?	_____	_____	_____
b. does the qualified opinion include the word <i>except</i> or <i>exception</i> in a phrase such as <i>except for</i> or <i>with the exception of</i> ?	_____	_____	_____
c. is the situation described and referred to in both the scope and opinion paragraphs?	_____	_____	_____
d. does the wording in the opinion paragraph indicate that the qualification pertains to the possible effects on the financial statements and not to the scope limitation itself? [AU 508.22-.32; AU 318.76]	_____	_____	_____

Practice Tip

Scope limitations can be imposed by the client or by circumstances such as the timing of the auditor's work, the inability to obtain sufficient appropriate audit evidence, or an inadequacy in the accounting records. Sufficient appropriate audit evidence includes, among other things, management having asserted responsibility for the final financial statements. As provided in Technical Questions and Answers (TIS) section 9100.06, "The Effect of Obtaining the Management Representation Letter on Dating the Auditor's Report" (AICPA, *Technical Practice Aids*), the auditor will need to have the signed management representation letter in hand prior to releasing the auditor's report because management's refusal to furnish written representations constitutes a limitation on the scope of the audit sufficient to preclude an unqualified opinion.

In circumstances in which the auditor is unable to obtain sufficient appropriate audit evidence to support management's assertions about the nature of a matter involving an uncertainty and its presentation or disclosure in the financial statements, the auditor should consider the need to express a qualified opinion or to disclaim an opinion because of a scope limitation.

It also includes situations in which the auditor's only evidence of the existence, valuation, or both, of (a) investments without readily determinable fair value, or (b) interests held in trust by a third-party trustee, is receiving confirmation from a third party for those assets.

In circumstances in which the auditor is unable to audit the existence or measurement of interests in investments in securities and interests in trusts, the auditor should consider whether that scope limitation requires the auditor to either qualify his or her opinion or to disclaim an opinion, as discussed in paragraphs .22-.26 of AU section 508; Interpretation No. 1, "Auditing Interests in Trusts Held by a Third-Party Trustee and Reported at Fair Value," of AU section 328, *Auditing Fair Value Measurements and Disclosures* (AICPA, *Professional Standards*, vol. 1, AU sec. 9328 par. .01-.04); and Interpretation No. 1, "Auditing Investments in Securities Where a Readily Determinable Fair Value Does Not Exist," of AU section 332, *Auditing Derivative Instruments, Hedging Activities, and Investments in Securities* (AICPA, *Professional Standards*, vol. 1, AU sec. 9332 par. .01-.04).

32. Is a qualified opinion or disclaimer of opinion expressed if the auditor's understanding of internal control raises doubts about the auditability of an entity's financial statements, such as			
a. concerns about the integrity of an entity's management cause the auditor to conclude that the risk of management misrepresentation in the financial statements is such that an audit cannot be conducted?	_____	_____	_____

	<u>Yes</u>	<u>No</u>	<u>N/A</u>
<p><i>b.</i> concerns about the condition and reliability of an entity's records cause the auditor to conclude that it is unlikely that sufficient appropriate audit evidence will be available to support an unqualified opinion on the financial statements? [AU 314.109]</p>	_____	_____	_____
<p>33. If, in the auditor's judgment, the two-way communication between the auditor and those charged with governance as described in AU section 380, <i>The Auditor's Communication With Those Charged With Governance</i> (AICPA, <i>Professional Standards</i>, vol. 1), is not adequate and the situation cannot be resolved, thereby prohibiting the auditor from obtaining all the audit evidence required to form an opinion on the financial statements, has the auditor considered the following:</p>			
<p><i>a.</i> Modifying the audit opinion on the basis of a scope limitation?</p>	_____	_____	_____
<p><i>b.</i> Obtaining legal advice about the consequences of different courses of action?</p>	_____	_____	_____
<p><i>c.</i> Communicating with an appropriate third party (for example, a regulator)?</p>	_____	_____	_____
<p><i>d.</i> Withdrawing from the engagement? [AU 380.63]</p>	_____	_____	_____
<p>34. If, in the auditor's judgment, significant difficulties in dealing with management such as those described in AU section 380, have been encountered, has the auditor considered modifying the audit opinion on the basis of a scope limitation? [AU 380.39]</p>	_____	_____	_____
<p>35. If an opinion is disclaimed because of a scope limitation,</p>			
<p><i>a.</i> are all of the substantive reasons for the disclaimer stated in a separate paragraph or paragraphs?</p>	_____	_____	_____
<p><i>b.</i> does the report state that the scope of the audit was not sufficient to warrant the expression of an opinion?</p>	_____	_____	_____

Practice Tip

Reporting on financial statements prepared in conformity with an other comprehensive basis of accounting is addressed in AU section 623, *Special Reports* (AICPA, *Professional Standards*, vol. 1). For purposes of that section, a *comprehensive basis of accounting other than GAAP* is one of the following:

- a. A basis of accounting that the reporting entity uses to comply with the requirements or financial reporting provisions of a governmental regulatory agency to whose jurisdiction the entity is subject. An example is a basis of accounting insurance companies use pursuant to the rules of a state insurance commission.
- b. A basis of accounting that the reporting entity uses or expects to use to file its income tax return for the period covered by the financial statements.
- c. The cash receipts and disbursements basis of accounting, and modifications of the cash basis having substantial support, such as recording depreciation on fixed assets or accruing income taxes.
- d. A definite set of criteria having substantial support that is applied to all material items appearing in financial statements, such as the price-level basis of accounting.

In considering whether the financial statements (including the accompanying notes) include all informative disclosures that are appropriate for the basis of accounting used, paragraph .09 of AU section 623 states that the auditor should apply essentially the same criteria to financial statements prepared on an other comprehensive basis of accounting as he or she does to financial statements prepared in conformity with GAAP.

41. When reporting on financial statements prepared in conformity with a comprehensive basis of accounting other than GAAP, as defined in paragraph .04 of AU section 623, does the independent auditor's report include the following elements (for audits prepared in conformity with GAAS):			
a. A title that includes the word <i>independent</i> ? [AU 623.05a]	_____	_____	_____
b. A paragraph that states that			
i. the financial statements identified in the report were audited?	_____	_____	_____
ii. the financial statements are the responsibility of the entity's management and that the auditor is responsible for expressing an opinion on the financial statements based on the audit? [AU 623.05b]	_____	_____	_____
c. A paragraph that states that			
i. the audit was conducted in accordance with GAAS with specific identification of the United States of America as the country of origin of those standards?	_____	_____	_____
ii. those standards require that the auditor plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement?	_____	_____	_____

	<u>Yes</u>	<u>No</u>	<u>N/A</u>
iii. an audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation?	_____	_____	_____
iv. the auditor believes that his or her audit provides a reasonable basis for the opinion? [AU 623.05c]	_____	_____	_____
d. A paragraph that states			
i. the basis of presentation and refers to the note to the financial statements that describes the basis?	_____	_____	_____
ii. that the basis of presentation is a comprehensive basis of accounting other than GAAP? [AU 623.05d]	_____	_____	_____
e. A paragraph that expresses the auditor's opinion (or disclaims an opinion) on whether the financial statements are presented fairly, in all material respects, in conformity with the basis of accounting described? [AU 623.05e]	_____	_____	_____
f. If the financial statements are prepared in conformity with the requirements or financial reporting provisions of a governmental regulatory agency, a separate paragraph at the end of the report stating that the report is intended solely for the information and use of those within the entity and the regulatory agencies to whose jurisdiction the entity is subject, and is not intended to be and should not be used by anyone other than these specified parties? [AU 623.05f]	_____	_____	_____
g. The manual or printed signature of the auditor's firm? [AU 623.05g]	_____	_____	_____
h. The date of the audit report? [AU 623.05h]	_____	_____	_____
42. When the financial statements are prepared in conformity with the requirements or financial reporting provisions of a governmental regulatory agency and the financial statements and reports will be used by parties or distributed by the entity to parties other than the regulatory agencies to whose jurisdiction the entity is subject, has the standard form of report been modified as appropriate because of the departures from GAAP and has an additional paragraph been added to express an opinion on whether the financial statements are presented in conformity with the regulatory basis of accounting? (<i>Note:</i> Interpretation 15, "Auditor Reports on Regulatory Accounting or Presentation When the Regulated Entity Distributes the Financial Statements to Parties Other Than the Regulatory Agency Either Voluntarily or Upon Specific Request," of AU section 623 [AICPA, <i>Professional Standards</i> , vol. 1, AU sec. 9623 par. .96-.98] provides an example report.) [AU 550.07; AU 558.09]	_____	_____	_____
44. If other information contained in annual reports and other client-prepared documents described in AU section 550 paragraph .02 that contain audited financial statements is materially inconsistent with information appearing in the financial statements, has it been determined whether the financial statements, the auditor's report, or both require revision? [AU 508.11h; AU 550.04]	_____	_____	_____
45. If other information contained in annual reports and other client-prepared documents described in AU section 550 paragraph .02 that contain audited financial statements is materially inconsistent with information appearing in the financial statements, and the auditor has determined that neither the financial statements nor the auditor's report require revision, has the auditor either			
a. requested that the client revise the other information to eliminate the material consistency?	_____	_____	_____
b. considered other actions such as revising the audit report to include an explanatory paragraph describing the material inconsistency, withholding the use of the audit report in the document, and withdrawing from the engagement? [AU 550.04]	_____	_____	_____

b. specifically identifies the accompanying information?	_____	_____	_____
c. states that the accompanying information is presented for purposes of additional analysis and is not a required part of the basic financial statements?	_____	_____	_____

Supplemental Information for Property and Liability Insurance Entities That are Securities and Exchange Commission Registrants

.01 Regulation S-X is the primary source of requirements for financial statements and related footnotes required to be included in documents filed with the Securities and Exchange Commission (SEC). In addition to Regulation S-X, preparers and auditors of financial statements should be familiar with the SEC's Financial Reporting Releases (FRR) and Staff Accounting Bulletins (SAB). FRRs communicate the SEC's position on accounting and auditing principles and practices. SABs represent interpretations and practices followed by the Division of Corporation Finance and the Office of the Chief Accountant of the SEC.

.02 When determining compliance with SEC requirements, preparers and auditors should refer to the appropriate SEC pronouncements to ensure compliance with SEC disclosure rules. In particular, the following documents should be consulted:

- Regulation S-X, Article 1, Application of Regulation S-X.
- Regulation S-X, Article 2, Qualifications and Reports of Accountants.
- Regulation S-X, Article 3A, Consolidated and Combined Financial Statements.
- Regulation S-X, Article 3, General Instructions as to Financial Statements.
- Regulation S-X, Article 4, Rules of General Application.
- Regulation S-X, Article 7, Insurance Companies.
- Regulation S-X, Article 10, Interim Financial Statements.
- Regulation S-X, Article 12, Form and Content of Schedules.
- SABs reflect the SEC staff's views regarding accounting-related disclosure practices. They represent interpretations and policies followed by the Division of Corporation Finance and the Office of the Chief Accountant in administering the disclosure requirements of the federal securities laws.
- FRRs adopt, change, or interpret requirements relating to accounting, auditing, and disclosure issues.

FSP Section 17,400

Illustrative Financial Statements and Disclosures

Note: The illustrative financial statements and footnote disclosures included in this checklist have been updated to reflect Financial Accounting Standards Board (FASB) *Accounting Standards Codification*[™] (ASC). FASB's notice to constituents suggests the use of plain English in financial statement footnotes to describe broad FASB ASC topic references. It suggests a reference similar to "as required by the Derivatives and Hedging Topic of FASB *Accounting Standards Codification*." Entities might consider revising their financial statement references to reflect this plain English referencing, rather than the use of specific FASB ASC references. We have provided certain references in the 2009 editions as a learning tool to familiarize constituents with FASB ASC.

Introduction

.01 This section illustrates financial statements of a nonpublic property and liability insurance entity and the accompanying disclosures that are unique to such entities. Disclosures concerning the entity's pension plans, postretirement benefits other than pensions, stock options, lease commitments, long-term debt, extraordinary items, segments, accounting changes, derivative instruments, hedging activities, and other items that are not unique to property and liability insurance entities have been omitted for purposes of this guide. The format presented and the wording of the accompanying notes are only illustrative and are not necessarily the only possible presentations.

.02 Except for the treatment of gains and losses described in FASB ASC 944-605-25, insurance entities that are Securities and Exchange Commission (SEC) registrants should follow Article 7 of SEC Regulation S-X, which prescribes the form and content of financial statements. Also, the SEC's Financial Reporting Release No. 20, *Rules and Guide for Disclosures Concerning Reserves for Unpaid Claims and Claim Adjustment Expenses of Property-Casualty Underwriters*, requires property and liability insurance entities to disclose in financial statements filed with the SEC certain information concerning reserves for unpaid claims and claim adjustment expenses. The Exchange Act requires certain supplementary information with respect to quarterly financial data. Other SEC regulations also require additional disclosures (for example, details with respect to deferred acquisition costs).

.03 Governmental Accounting Standards Board (GASB) Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, as amended and interpreted by various GASB pronouncements,* requires public entity risk pools to present additional information beyond these illustrative financial statements. This additional information includes reporting assessments receivable from pool participants for premium deficiencies, disclosures about revenues collected in anticipation of future catastrophe losses, the aggregate outstanding amount of claims outstanding that have been settled through the purchase of annuity contracts, and the pool risk transfer agreement. Also, outstanding claims by kind of contract and 10-year claims development information on a policy-year basis should be presented as required supplementary information.

* Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, provides guidance for the format and content of financial statements for all state and local governmental entities, including public entity risk pools.

.04 Interpretation No. 3, “The Impact on an Auditor’s Report of Accounting Guidance Prior to its Effective Date,” of AU section 410, *Adherence to Generally Accepted Accounting Principles (AICPA, Professional Standards*, vol. 1, AU sec. 9410 par. .13–.18), addresses the impact on an auditor’s report on a FASB statement prior to the statement’s effective date. Readers may want to familiarize themselves with the guidance in that interpretation.

.05 Also, preparers and auditors of SEC-registrant financial statements are reminded that as discussed in Staff Accounting Bulletin (SAB) Topic 11M (SAB No. 74), and Interpretation No. 3 of AU section 410, filings with the SEC that include financial statements for a period ending after the issuance of an accounting standard but before the required date of adoption of that accounting standard should include disclosure of the impact that the recently issued accounting standard will have on the financial position and results of operations of the registrant when such standard is adopted in a future period. The following disclosures should be considered by registrants:

- A brief description of the new standard, the date that adoption is required, and the date that the registrant plans to adopt, if earlier.
- A discussion of the methods of adoption allowed by the standard and the method expected to be utilized by the registrant, if determined.
- A discussion of the impact that adoption of the standard is expected to have on the financial statements of the registrant, unless unknown or not reasonably estimable. In that case, a statement to that effect may be made.
- Disclosure of the potential impact of other significant matters that the registrant believes might result from the adoption of the new standard (such as technical violations of debt covenant agreements, planned or intended changes in business practices).

.06 These illustrative financial statements are not intended to include items that should be accounted for under the requirements of FASB ASC 815, *Derivatives and Hedging*, and do not reflect the requirements of FASB ASC 815. Practitioners should refer to FASB ASC 815 for guidance on reporting derivative instruments and hedging activities.

¹ FASB ASC 310-10-50 requires, among other things, that the summary of significant accounting policies include the basis for accounting for trade receivables, and the classification and method of accounting for other receivables. Receivables for property and liability entities include, but are not limited to, mortgage loans, agents' balances, premiums receivable, workers' compensation deductible recoveries, reinsurance recoverables, and securities on deposit with state insurance departments (which require financial statement disclosure). FASB ASC 310-10-50-9 requires that a description of the accounting policies and methodology the entity used to estimate its allowance for doubtful accounts be included in the notes to the financial statements. Such a description should identify the factors that influenced management's judgment and may also include discussion of risk elements relevant to particular categories of financial instruments. In addition, FASB ASC 310-10-50-6 requires that the summary of significant accounting policies include the policy for charging off uncollectible trade receivables.

FASB ASC 310, *Receivables*, contains other presentation and disclosure requirements that may apply to the financial statements of insurance entities. Readers should refer to the full text of FASB ASC 310. All of the disclosure requirements of FASB ASC 310 are not presented in these illustrative financial statements.

² FASB ASC 480, *Distinguishing Liabilities from Equity*, provides guidance for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity and requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances). Many of those instruments were previously classified as equity. Paragraphs 1–3 of FASB ASC 480-10-50 provides disclosure requirements, which include, but are not limited to, disclosing the nature and terms of financial instruments and the rights and obligations embodied in those instruments along with settlement information. The Property and Liability Insurance Company and Subsidiaries**Notes to Consolidated Financial Statements
For the Years Ended December 31, 20X2 and 20X1****1. Nature of Operations and Summary of Significant Accounting Policies**

Nature of Operations. The Property and Liability Insurance Company and subsidiaries (the company) is a nonpublic insurance organization providing property and liability coverage to both domestic and foreign markets. The company is principally involved in writing insurance for domestic commercial lines.

The significant accounting policies followed by the company are summarized as follows:

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Principles of Consolidation. The consolidated financial statements include the accounts, after intercompany eliminations, of the company and its subsidiaries.

Basis of Presentation. The accompanying financial statements have been prepared in conformity with generally accepted accounting principles that differ from statutory accounting practices prescribed or permitted for insurance entities by regulatory authorities.

Trading Securities. Bonds, notes, and redeemable and nonredeemable preferred stock held principally for resale in the near term are classified as trading securities and recorded at their fair values. Realized and unrealized gains and losses on trading securities are included in other income.

Securities Held to Maturity. Bonds, notes, and redeemable and nonredeemable preferred stock for which the insurance company has the intent and ability to hold to maturity are reported at amortized cost, adjusted for amortization of premiums or discounts and other-than-temporary declines in fair value. Realized gains and losses are determined using the specific identification method.

Securities Available for Sale. Bonds, notes, common stock, and redeemable preferred stock not classified as either trading or held-to-maturity are reported at fair value, adjusted for other than temporary declines in fair value, with unrealized gains and losses, net of tax, reported as a net amount in other comprehensive income. Realized gains and losses are determined using the specific identification method.

Mortgage Loans on Real Estate. Reported at unpaid balances, adjusted for amortization of premium or discount, less a provision for credit losses.

Real Estate. Reported at cost, less allowances for depreciation and impairment of value.

Cash Equivalents. Cash equivalents are short-term, highly liquid investments with original maturities of three months or less.

Recognition of Premium Revenues. Property and liability premiums are generally recognized as revenue on a pro rata basis over the policy term. The portion of premiums that will be earned in the future are deferred and reported as unearned premiums.

Deferred Policy Acquisition Costs. Commissions and other costs of acquiring insurance that vary with and are primarily related to the production of new and renewal business are deferred and amortized over the terms of the policies or reinsurance treaties to which they relate. Proceeds from reinsurance transactions that represent recovery of acquisition costs shall reduce applicable unamortized acquisition costs in such a manner that net acquisition costs are capitalized and charged to expense in proportion to net revenue recognized. Amortization in 20X2 and 20X1 was approximately \$58,000,000 and \$55,000,000, respectively.

Note: FASB ASC 944-30 provides guidance on accounting by insurance entities for deferred acquisition costs on internal replacements of insurance and investment contracts other than those specifically described in FASB ASC 944-605, and the FASB ASC glossary defines an internal replacement as a modification in product benefits, features,

rights, or coverages that occurs by the exchange of a contract for a new contract, or by amendment, endorsement, or rider to a contract, or by the election of a feature or coverage within a contract. In reporting disclosures about the accounting policy on internal replacements, entities should comply primarily with the requirements of FASB ASC 944-30, and describe the accounting policy applied to internal replacements.

Property and Equipment. Property and equipment is recorded at cost and is depreciated principally under the straight-line method over the estimated useful lives of the respective assets.

Insurance Liabilities. The liability for losses and loss-adjustment expenses includes an amount determined from loss reports and individual cases and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on estimates and, although management believes that the amount is adequate, the ultimate liability may be in excess of or less than the amounts provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed, and any adjustments are reflected in earnings currently. The reserve for losses and loss-adjustment expenses is reported net of receivables for salvage and subrogation of approximately \$17,527,000 and \$16,276,000 at December 31, 20X2 and 20X1, respectively.

In establishing the liability for unpaid claims and claim adjustment expenses related to asbestos-related illnesses and toxic waste cleanup, management considers facts currently known and the current state of the law and coverage litigation. Liabilities are recognized for known claims (including the cost of related litigation) when sufficient information has been developed to indicate the involvement of a specific insurance policy, and management can reasonably estimate its liability. In addition, liabilities have been established to cover additional exposures on both known and unasserted claims. Estimates of the liabilities are reviewed and updated continually. Developed case law and adequate claim history do not exist for such claims, especially because significant uncertainty exists about the outcome of coverage litigation and whether past claim experience will be representative of future claim experience.

Participating Policies. Participating business represents 6 percent of total premiums in force and premium income at December 31, 20X2, and 8 percent at December 31, 20X1. The majority of participating business is composed of workers' compensation policies. The amount of dividends to be paid on these policies is determined based on the terms of the individual policies.

Reinsurance. In the normal course of business, the company seeks to reduce the loss that may arise from catastrophes or other events that cause unfavorable underwriting results by reinsuring certain levels of risk in various areas of exposure with other insurance enterprises or reinsurers. Amounts recoverable from reinsurers are estimated in a manner consistent with the reinsured policy. The amount by which the liabilities associated with the reinsured policies exceed the amounts paid for retroactive reinsurance contracts is amortized in income over the estimated remaining settlement period using the interest method. The effects of subsequent changes in estimated or actual cash flows are accounted for by adjusting the previously deferred amount to the balance that would have existed had the revised estimate been available at the inception of the reinsurance transactions, with a corresponding charge or credit to income.

Codification. The National Association of Insurance Commissioners (NAIC) revised the *Accounting Practices and Procedures Manual* in a process referred to as "codification." Codification became effective on January 1, 2001. The company's state of domicile has adopted the provisions of the revised manual effective January 1, 2001. The revised manual has changed, to some extent, prescribed statutory accounting practices, and has resulted in changes to the company's statutory-basis financial statements. The cumulative effect of changes in accounting principles adopted to conform to the revised *Accounting Practices and Procedures Manual* of \$— has been reported as an adjustment to increase (decrease) surplus in the company's statutory-basis financial statements as of January 1, 2001.

Income Taxes. The company uses the asset and liability method as identified in FASB ASC 740, *Income Taxes*. Income tax provisions are based on the asset and liability method. Deferred federal income taxes have been provided for temporary differences between the tax basis of assets and liabilities and their reported amounts in the financial statements. Such differences are related principally to the deferral of policy acquisition costs and the recognition of salvage and subrogation on an accrual basis. The company has adopted FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109*, effective January 1, 20X2.

Income per Share of Common Stock. Income per share of common stock is based on the weighted average number of shares of common stock outstanding during each year. The effect of stock options is not material to the computation of earnings per share.

2. Investments

In reporting disclosures about investments in securities, entities should comply primarily with the requirements of FASB ASC 320, *Investments—Debt and Equity Securities*. Other disclosure requirements may also be applicable.

3. Reinsurance Activity

Substantial amounts of reinsurance are assumed, both domestic and foreign. Such reinsurance includes quota share, excess of loss, catastrophe, facultative, and other forms of reinsurance on essentially all property and casualty lines of insurance. The company also cedes insurance to other entities and these reinsurance contracts do not relieve the company from its obligations to policyholders. Failure of reinsurers to honor their obligations could result in losses to the company; consequently, allowances are established for amounts deemed uncollectible. The company evaluates the financial condition of its reinsurers and monitors concentrations of credit risk arising from similar geographic regions, activities, or economic characteristics of the reinsurers to minimize its exposure to significant losses from reinsurer insolvencies. At December 31, 20X2, reinsurance receivables with a carrying value of \$8 million and prepaid reinsurance premiums of \$5 million were associated with a single reinsurer. The company holds collateral under related reinsurance agreements in the form of letters of credit totaling \$5 million that can be drawn on for amounts that remain unpaid for more than 120 days.

The company limits the maximum net loss that can arise from large risks or risks in concentrated areas of exposure by reinsuring (ceding) certain levels of risks with other insurers or reinsurers, either on an automatic basis under general reinsurance contracts known as "treaties" or by negotiation on substantial individual risks. Ceded reinsurance is treated as the risk and liability of the assuming entities.

The effect of reinsurance on premiums written and earned for 20X2 and 20X1 are as follows:

	<i>(Dollars in thousands)</i>			
	20X2		20X1	
	<u>Written</u>	<u>Earned</u>	<u>Written</u>	<u>Earned</u>
Direct	\$ 477,836	\$457,828	\$420,580	\$415,369
Assumed	206,814	198,689	207,328	188,092
Ceded	<u>(102,551)</u>	<u>(85,632)</u>	<u>(86,100)</u>	<u>(78,715)</u>
Net	<u>\$ 582,099</u>	<u>\$570,885</u>	<u>\$541,808</u>	<u>\$524,746</u>

The amounts of recoveries pertaining to reinsurance contracts that were deducted from losses incurred during 20X2 and 20X1 were approximately \$4,892,000 and \$3,232,000, respectively.

4. Liability for Unpaid Losses and Loss Adjustment Expenses

Activity in the liability for unpaid losses and loss adjustment expenses is summarized as follows:

	<i>(Dollars in thousands)</i>	
	20X2	20X1
Balance at January 1	\$1,030,345	\$947,890
Less reinsurance recoverables	<u>23,728</u>	<u>21,275</u>
Net Balance at January 1	<u>1,006,617</u>	<u>926,615</u>
Incurred related to:		
Current year	509,843	429,294
Prior years	<u>(275)</u>	<u>3,119</u>
Total incurred	<u>509,568</u>	<u>432,413</u>
Paid related to:		
Current year	56,015	42,315
Prior years	<u>300,555</u>	<u>310,096</u>
Total paid	<u>356,570</u>	<u>352,411</u>
Net Balance at December 31	<u>1,159,615</u>	<u>1,006,617</u>
Plus reinsurance recoverables	<u>23,728</u>	<u>23,728</u>
Balance at December 31	<u><u>\$1,183,343</u></u>	<u><u>\$1,030,345</u></u>

As a result of changes in estimates of insured events in prior years, the provision of losses and loss adjustment expenses (net of reinsurance recoveries of \$X and \$X in 20X2 and 20X1, respectively) decreased by \$275 in 20X2 because of lower-than-anticipated losses on Hurricane Howard, and increased by \$3,119 in 20X1 because of higher-than-anticipated losses and related expenses for claims for asbestos-related illnesses, toxic waste cleanup, and workers' compensation.

5. Income Taxes

The U.S. Federal statutory income tax rate applicable to ordinary income is 34 percent for 20X2 and 20X1. The company's effective federal income tax rate is less than the statutory rate due primarily to tax exempt interest, dividends-received deduction, and fresh start adjustments.

The components of the net deferred tax liability are as follows:

	<i>(Dollars in thousands)</i>	
	20X2	20X1
Deferred policy acquisition costs	\$17,093	\$17,298
Salvage and subrogation	12,901	11,734
Other	<u>4,090</u>	<u>6,101</u>
Deferred tax liability	<u><u>\$34,084</u></u>	<u><u>\$35,133</u></u>

The company has net operating loss carryforwards for tax purposes of \$35,297 and investment tax credit carryforwards of \$49,396. The tax loss carryforwards (if not utilized against taxable income) and investment tax credit carryforwards expire beginning in 20XX and continuing through 20YY.

The company paid income taxes of \$30,000 in 20X2 and \$21,300 in 20X1.

The company or one of its subsidiaries files income tax returns in the U.S. federal jurisdiction, and various states and foreign jurisdictions. With few exceptions, the company is no longer subject to U.S. federal, state, and local, or non-U.S. income tax examinations by tax authorities for years before 20XX. The IRS commenced an examination of the company's U.S. income tax returns for 20XX through 20YY in the first quarter of 20X2 that is anticipated to be completed by the end of 20X2. As of December 31, 20X2, the IRS has proposed certain significant adjustments to the company's transfer pricing tax positions. Management is currently

evaluating those proposed adjustments to determine if it agrees, but if accepted, the company does not anticipate the adjustments would result in a material change to its financial position. However, the company anticipates that it is reasonably possible that an additional payment in the range of \$XX to \$YY million will be made by the end of 20X2.

The company adopted the provisions of FASB Interpretation No. 48 on January 1, 20X2. As a result of the implementation of FASB Interpretation No. 48, the company recognized approximately a \$2xx million increase in the liability for unrecognized tax benefits, which was accounted for as a reduction to the January 1, 20X2, balance of retained earnings. A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

	<u>(in thousands)</u>
Balance at January 1, 20X2	\$XX
Additions based on tax positions related to the current year	\$XX
Additions for tax positions of prior years	\$XX
Reductions for tax positions of prior years	\$(XX)
Settlements	\$(XX)
Balance at December 31, 20x2	\$XX

Included in the balance at December 31, 20X2, are \$XX million of tax positions for which the ultimate deductibility is highly certain but for which there is uncertainty about the timing of such deductibility. Because of the impact of deferred tax accounting, other than interest and penalties, the disallowance of the shorter deductibility period would not affect the annual effective tax rate but would accelerate the payment of cash to the taxing authority to an earlier period.

The company recognizes interest accrued related to unrecognized tax benefits in interest expense and penalties in operating expenses. During the years ended December 31, 20X2 and 20X1, the company recognized approximately \$XX and \$XX million in interest and penalties. The company had approximately \$XX and \$50XX million for the payment of interest and penalties accrued at December 31, 20X2, and 20X1, respectively.

6. Dividends From Subsidiaries

The funding of the cash requirements of the company (parent company) is primarily provided by cash dividends from the company's subsidiaries. Dividends paid by the insurance subsidiaries are restricted by regulatory requirements of the domiciliary states. Generally, the maximum dividend that may be paid without prior regulatory approval is limited to the greater of 10 percent of statutory surplus (shareholders' equity on a statutory basis) or 100 percent of net investment income for the prior year. Dividends exceeding these limitations can generally be made subject to approval by various state insurance departments. The subsidiaries paid cash dividends to the company of \$24,754,000 and \$22,100,000 in 20X2 and 20X1, respectively. At December 31, 20X2, the maximum dividend that may be paid to the company in 20X3 without regulatory approval is approximately \$146,000,000.

7. Statutory Net Income and Shareholders' Equity

The company, which is domiciled in ABC State, prepares its statutory financial statements in accordance with accounting principles and practices prescribed or permitted by the ABC state insurance department, which (state of domicile) recognizes for determining solvency under the (state of domicile) Insurance Law. The commissioner of the state of domicile Insurance Department has the right to permit other practices that may deviate from prescribed practices. Prescribed statutory accounting practices are those practices that are incorporated directly or by reference in state laws, regulations, and general administrative rules applicable to all insurance enterprises domiciled in (state of domicile). Permitted statutory accounting practices encompass all accounting practices that are not prescribed; such practices differ from state to state, may differ from entity to entity within a state, and may change in the future.

Note: Although the following statutory financial information is not required to be disclosed in financial statements prepared in conformity with GAAP, insurance entities sometimes include such disclosures to facilitate use of those financial statements for purposes of filing with state regulatory authorities. The second disclosure is required under FASB ASC 944-505-50.

Generally accepted accounting principles differ in certain respects from the accounting practices prescribed or permitted by insurance regulatory authorities (statutory basis). Statutory net income was approximately \$35.7 million and \$52.7 million in 20X2 and 20X1, respectively, and statutory shareholders' equity, including the effects of prescribed and permitted practices was approximately \$347.2 million and \$299.7 million at December 31, 20X2 and 20X1, respectively.

The company's statutory financial statements are presented on the basis of accounting practices prescribed or permitted by the [state of domicile] Insurance Department. [State of domicile] has adopted the NAIC's *Accounting Practices and Procedures Manual* as the basis of its statutory accounting practices (NAIC statutory accounting principles [SAPs]), except that it has retained the prescribed practice of writing off goodwill immediately to statutory surplus in the year of acquisition.

In addition, the commissioner of [state of domicile] Insurance Department has the right to permit other specific practices that may deviate from prescribed practices. The commissioner has permitted the company to record its home office property at estimated fair value instead of at depreciated cost, as required by NAIC SAPs. This accounting practice increased statutory capital and surplus by \$___ million and \$___ million at December 31, 20X2 and 20X1, respectively, over what it would have been had the permitted practice not been allowed. The company's statutory capital and surplus, including the effects of the permitted practice, was \$___ million and \$___ million at December 31, 20X2 and 20X1, respectively.

Had the company amortized its goodwill over 10 years and recorded its home office property at depreciated cost, in accordance with NAIC SAPs, the company's capital and surplus would have been \$___ million and \$___ million at December 31, 20X2 and 20X1, respectively.

8. Contingencies

In November ___, California voters passed Proposition 103, requiring insurers doing business in that state to roll back property/casualty premium prices to November ___ levels, less an additional 20 percent discount. Insurers challenged the constitutionality of Proposition 103, and in May ___ the California Supreme Court upheld the proposition in large part. However, the Court also ruled that the rollback provision does not apply to an insurer who demonstrates through rate filings that the rate rollback would not allow a "fair and reasonable return." The company filed for exemption from the rate rollback for all lines affected by Proposition 103. In September ___, the California Insurance Commissioner announced that the company would be afforded a hearing and, using different assumptions and methods than prescribed for the original filing, determined that the company should roll back its rates and refund premiums of \$19 million. The company disagrees with the Commissioner's methods and conclusions, and no provision for potential rate rollbacks or premium refunds is reflected in the financial results.

In October ___, the Commissioner suspended the individual hearings and began a consolidated hearing, in which the company is participating, intended to define the generic issue of the methods to be used to calculate potential rate rollbacks and analyze future rate filings. Until the generic issues are resolved in the Commissioner's consolidated hearing, there will be uncertainty as to whether the company will ultimately be required to roll back any of its rates or refund any premiums. Management believes such rate rollbacks and premium refunds, if any, would not have a material adverse effect on the company's financial position.

9. Concentrations of Credit Risk

At December 31, 20X2, the company held unrated or less-than-investment grade corporate debt securities of \$___ net of reserves for losses, with an aggregate market value of \$___. Those holdings amounted to 6 percent of the company's corporate debt securities investments and less than 3 percent of total assets. The holdings of less-than-investment grade securities are widely diversified and of satisfactory quality based on the company's investment policies and credit standards. The company also invests in mortgage loans principally involving commercial real estate. At December 31, 20X2, 20 percent of such mortgages (\$ _____)

involved properties located in California and Arizona. Such investments consist of first mortgage liens on completed income-producing properties, and mortgages on individual properties do not exceed \$_____.

10. Fair Value of Financial Instruments³

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Cash and Short Term Investments. For those short term instruments, the carrying amount is a reasonable estimate of fair value.

Investment in Securities. For investments in securities, fair values are based on quoted market prices or dealer quotes, if available. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities.

Mortgage Loans on Real Estate and Policy Loans. The fair value of mortgage loans on real estate is estimated using the quoted market prices for securities backed by similar loans, adjusted for differences in loan characteristics. The fair value of policy loans is estimated by discounting the future cash flows using the current rates at which similar loans would be made to contract holders with similar credit ratings and the same remaining maturities.

The estimated fair values of the company's financial instruments which are not disclosed on the face of the balance sheet or elsewhere in the notes are as follows:

	20X2		20X1	
	<i>Carrying Amount</i>	<i>Fair Value</i>	<i>Carrying Amount</i>	<i>Fair Value</i>
Mortgage on real estate loans	\$472,509	\$474,163	\$398,426	\$401,582
Policy loans	19,862	20,974	18,623	19,953

³ FASB ASC 825-10-50 provides guidance that makes the disclosures about fair value of financial instruments optional for entities that meet all of the following criteria:

- a. The entity is a nonpublic entity.
- b. The entity's total assets are less than \$100 million on the date of the financial statements.
- c.
