"Depreciation Decimals Schedules," Garfield G. Thatcher, Thatcher Publishing Company, Hollywood, Florida, 1967, 20 pages, \$4.00.

This booklet is designed for the practicing accountant to produce a desired depreciation figure by multiplying by a single five-digit decimal.

A single schedule gives a decimal for each total month of the first year. The straight line method gives a decimal for the total years indicated. Decimals may be added to produce any combination of months and years.
