The Recreation Program

The summer recreation program now being put in operation by Dr. J. G. Murray is an ambitious and far-reaching one, with one that cooperation between the recreation committee and the students, could be a highly successful and beneficial one. The committee has planned activities that will appeal to all age groups. Every student in the summer session will be able to find some activities that will appeal to his individual tastes.

The recreation program can be a success only if every student takes advantage of the opportunity offered and shows that he is benefiting from the efforts made by the committee.

We feel that Dr. Murray and his committee have a fine program planned, and that with our help the program will be of great value to all of us. Let's all give support.

Pioneers, O Pioneers!

We certainly do have a lot of pioneers around Ole Miss. Venus, some real, table-grade trailblazers. Some pathfinders of the first order. Some intrepid adventurers.

These characters are the ones who insist on making their own systems of paths across the campus. It's getting grass is even afraid to sprout a little about or two.

We're not wishing this because we are hoping to re-light the old feelings of individual and collective blazed of grass, but because we feel that the Ole Miss campus would look a lot better if all students stuck more to the side-walks in their wanderings.

Sun, sometimes in a big hurry and it's quick- er and more of it look like cut. Granted. But it isn't necessary to make a practice of it. The newly-ploughed and seeded ground in front of the cafeteria, for instance, suffers every morning from the trooping over it of possibly in a hurry to get breakfast.

I have no suggestions as to how you can get your breakfast earlier, except maybe to wake a little earlier, but still can't see how it's necessary for everyone and his brother to sit across lawn it in the middle.

Let's all yes, we include ourselves—we're going to stop stamping on the poor, defenseless little blades of grass, and make an effort to use sidewalks whenever possible. Let's all give the grass a chance to grow.

Let's use the old trails, and concentrate a bit more on education than trailblazing.

War On Hitchhikers

The day of the poor but honest student hitch hiker is over and gone, according to Donald E. Keyhoe, author of "Beware of Hitch-Hikers", in this Week Magazine.

Keyhoe states that you can hardly read a paper without reading of a hitch-hiker crime. (The same applies to deaths by surface explosions, Mr. Keyhoe.) To prove his point, he mentions Alan Sherwood, convicted of criminal and professional bun. Of course, Sherwood's outlook couldn't be affected by this fact... or could it?

Mr. Keyhoe says that the anamie hich-hiker is practically a thing of the past, and quotes Sherwood as saying, "If hitchhikers are crooks and bums enough they are out and out skid-up men. I have hitchhiked all over and I know it. (It takes one to catch one, Mr. Keyhoe.) Being a poor but honest student, I have done quite a bit of hitch-hiking and I think that many of you who have thumbed enough to know will agree when I say that there still are plenty of us without enough funds to travel the ways of the thumb. The poor-but-honest thumb is not an extinct animal.

For these hot days, what could be more comfortable... offer more enjoyment and pleasure... still and cool... a shirt... a long sleeve shirt... open at the throat to catch any stray breeze that comes along... a bath... a carpet hung up... a choice selection of sports shorts that you will find in NEILSON'S.

The New Albany baseball team of the North Mississippi Junior Baseball League covered 1,500 miles this summer, a year in which the team claimed its first "South" and two official "State" titles at the roster is sufficient to explain the reasons. For the remainder of the season, we are sure that at least five members of the 1936 Ole Miss baseball team will line up on the New Albany line-up. Furthermore, the players, who have enthusiastically combined their skills into the best baseball team, will perform with the same zest, all of which naturally boded well for the state.""""

The corner would like to predict a "state" team that the city of New Albany might call its "own" for a while. This team, it is certain, will not be the last to compete for state honors in the future.

The city of New Albany is currently the home of several of the state's finest baseball players. The team is stocked with talent, including players from the local high schools.

The success of the New Albany baseball team is due in large part to the leadership of the coaches, who have instilled a strong work ethic and a sense of teamwork in the players.

The New Albany baseball team is a testament to the dedication and hard work of its players and coaches. With this success, the city of New Albany has reason to be proud.

This week, the New Albany baseball team faced off against a strong opponent and emerged victorious, showcasing their skills and determination.

The New Albany baseball team is more than just a team; it is a symbol of the community's pride and a shining example of what can be accomplished through hard work and dedication.

The city of New Albany is certainly a place where baseball is loved and celebrated, and the New Albany baseball team is a testament to that love and dedication.

May It Please The Court

A Report From the Court

Professionally submitted by

R.B. "Bud" Allen

Dr. H. Wood is now being

served with a writ of Citation

and Circuit Court

Practice. What with the fifth

semester having to do abstracts

and the sixth semester having to

write theses, Dr. Wood should

eliminate the worry over what
to do with his own spare time.

We use the term advisedly.
