Please Welcome Mariana Mohan - Secretary - Quality Review. Mariana recently graduated from Berkeley College of Business with an Associates Degree in Applied Science in the Office Technology program.

Promotions In Customer Service, Carmen Rivera was promoted from Customer Service Representative to Senior Customer Service Representative.

Michelle Herbert was promoted from Receptionist in Office Facilities to Coordinator in SEC Practice Section.

Evelyn Moro in Financial Management was promoted from Clerk Typist to Cashier.

Tara Steiner in Purchasing was promoted from Purchasing Assistant to Office Administration Coordinator in Office Administration.

Congratulations and Good Luck in your new positions!

Reminders... ...Harborside employees interested in parking at the Edison Park Fast located at 101 Hudson (entrance on York Street), coupons are now available in Human Resources. Again, the coupons offer \$10.00 off your first month's parking fee of \$129.00 and \$1.00 off daily rate of \$7.00.

...The parking lot located northwest of the Harborside parking lot on Washington Street (off Christopher Columbus Drive) begins their discounted monthly parking rate of \$80.00 per month on **Tuesday, September 1st**. Remember, this offer is only valid for AICPA employees. Cash or personal checks given to the attendant are accepted.

**Little Known
Facts About
Humans**

Author and trivia collector Marc McCutcheon claims:

- * If a finger is numbed for a period of time, its corresponding brain area will shrink. If it is used in a new way, the area will grow.
- * In right-handed people, the middle fingernail of the right hand grows fastest. In left-handed people, the opposite is true.
- * Human beings have a trace of iron in the ethmoid bone between the eyes. It gives some people a "nose" for direction finding. Even if blind-folded, they can turn to within a few degrees of north.
- * In his book In Your Nose and Other Astonishing Facts about Humans (Jeremy P. Tarcher, Inc.), McCutcheon says the brain uses large amounts of the body's energy. Thinking can make you feel exhausted because the brain burns so many calories for intense concentration.
- * In most people the left ear is better at recognizing melodies. In trained musicians, the right ear is best.
- * The beat of a musical composition that is near the resting rhythm of the heart (70 beats per minute) is so soothing that it can slow a heart that is beating too fast.
