**Staff
Anniversaries**

Congratulations to the following staff members who last week celebrated various anniversaries with the Institute:

Anniversary

Bill Stromsem	Tax Division	19th
Michael Bright	CPE Production	15th
Miguel McKenzie	Distribution Services	10th
Bruce Brasell	SEC Practice Section	9th
Frank Katusak	Board, Council & Committee Administration	9th
Chiu Chi	Programming & Systems	6th
Fina Kaminski	Computer Services	6th
Bibi Kumar	Circulation	6th
Ralph Terranova	Accounting	6th
Steven Walme	Peer Review	6th
George Durk	Internal Audit	5th

**Please
Welcome**

Monifa E. Brown - Purchasing Assistant - Purchasing. Monifa joins us full-time after being employed on a temporary basis in the department.

William Suda rejoins the Institute as a **Coordinator** in **CPE Educational Support Services**.

Jeanette Weitz - Secretary - Production & Editorial Services. Jeanette joins us from Eisner Associates where she worked as an Administrative Secretary.

**Library
Services
Update**

In order for the library to prepare for the move to Harborside, the library will close all services effective Monday, August 14 until they reopen for business on Tuesday, September 5. The message on the library's 1-800 number informs the public of the temporary closing. There will be minimal phone service available for staff to process urgent matters. AICPA staff members can call Karen Neloms at ext. 6037. The members of the library staff appreciate your patience during this period and look forward to assisting you in their new location beginning Tuesday, September 5.

**Please
Note**

The Training Room in New York will now be used as a conference room. The room seats 32 people and is set up hollow-square style, however, the set up can be changed to accommodate your meeting. If you need to reserve this room, please call Doris Lemarie in Meetings & Travel at ext. 6240.

Fitness Center

Now is your chance to make a commitment to feeling and looking great! The Newport Swim/Fitness Center is offering one free week to first time guests. Located at 35 River Drive South in Jersey City (just around the corner from the Pavonia/Newport PATH station), the Newport Swim/Fitness Center offers aerobic classes, liferowers, lifecycles, stairmaster, treadmills, Nordic Trac, free weights, an indoor/outdoor pool and much more. Services are also available for personal training, massage therapy, tanning beds and outdoor tennis courts. Anyone interested can pick up their "one free week" coupon in Human Resources (New York or New Jersey). You must live or work within 15 miles of the club. This offer expires Friday, September 15, 1995.

How Do I Get to Jersey City?

Brochures are now available on "How to Get to the Harborside Financial Center." This brochure contains information on how to get to the Harborside Financial Center via bus, subway and car from locations outside the area. It also includes alternate transportation routes to and from Harborside. The brochure is an excellent guide to distribute to committee members visiting the Harborside office. If interested, pick up your copy of "How to Get to Harborside Financial Center" in Human Resources (New York and New Jersey) or from Ela Work in the D.C. office.

Green Shopping Tips

Shoppers are ever confused about such terms as "environmentally safe," "ozone friendly," and "biodegradable." Even if you don't know which claims are preferable and honest, Green Seal, a Washington, D.C. organization, says you can still practice green shopping on your own by:

1. Avoiding excess packaging, especially individual servings. Choose packaging made from recycled materials. Buy products in easy-to-recycle packaging like paper or glass.
2. Buying products with the recycled paper symbol in evidence.
3. Choosing fluorescent bulbs instead of incandescent. They cost more but last up to ten times as long.
4. Buying unbleached paper products. Chlorine-bleaching can create dioxin, a toxic substance that can get into lakes, rivers and streams.

Recycling Update

What do Americans recycle the most? Government figures show aluminum is first with a 35% recycle rate. Paper products at 34% are a close second, followed by iron and steel at 26%, wood at 10%, and plastics at 4%.
